ACTION / SUMMARY INFORMATION

Action: A Preliminary Evaluation has been opened.

Summary:

The Office of Defects Investigation (ODI) has received 8 complaints (VOQs) alleging incidents of excessive brake pedal travel in model year (MY) 2013 through 2014 Nissan Sentra and Versa passenger cars. In addition, ODI has identified Early Warning Reporting (EWR) field report data related to excessive brake pedal travel in the subject vehicles. A Preliminary Evaluation has been opened to assess the scope, frequency and safety-related consequences of the alleged defect.

VOQs associated with the opening of this investigation are: 10584374, 10578529, 10550403, 10546265, 10531596, 10515614, 10514831 and 10487647.
