****** Below Customer Contacted for Documentation Request ******
[redacted] on 2014-01-03 @ 10:02
What has the customer requested? The customer has requested reimbursement for a repair that was done approximately one month ago on the tire rod part that is for the recall.
If this is a Recall or Extended Warranty, enter the campaign number. N49
If this is for a previously made goodwill decision, what is that CAIR #?
Enter the Mileage at the time of the repair. 150000
Enter the Date when the repairs were completed. N/A
What is the total cost of the Parts to be reimbursed? N/A
What is the total cost of the Labor to be reimbursed? N/A
What is the total tax to be reimbursed? N/A
What is the total amount being reimbursed? N/A
Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler to state that they think that a recall is on their vehicle.
Briefly summarize what the customer is expecting: Customer is seeking reimbursement for a repair that was done approximately one month previous. Customer states they were not aware that their vehicle had the recall, but had to repair the part because it broke. Agent confirmed that the vehicle did have the recall and offered the option for e-reimbursement and mailing the request. The customer chose the document request link process. Customer states they aren t sure of the repair details as they have to go to their independent mechanic to get the documents that are being requested. Agent provided the customer with the document request link; the link was received by the customer. Reassign CAIR to 86Y.
Writer will contact customer on 1/10/14 if documents have not been received.
Writer checked and documents have not been attached.
Status update provided via email to the following email address:

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Advised customer of reimbursement process.
Product - Suspension - Tie Rods / Drag Link - Other - Unknown	LEFT OUTER TIE ROD ASSEMBLY

-
Briefly summarize why the customer is contacting Chrysler: Customer called in stating they received a recall N62 notification letter in the mail. Customer states they have had issue repaired several times previously.
Briefly summarize what the customer is expecting: Customer is seeking recall information.
Agent advised customer of the reimbursement address located on the notification letter. Agent advised customer that the proof of payment we are looking for is if they paid with a debit card to submit a copy of the debit receipt. Agent advised customer they would only be reimbursed the allotted amount given from Chrysler.
Agent advised customer that they may be requested to have a diagnosis performed at a CDRJ dealership to determine the repair was completed within the criteria of the recall.
Reassigned to 86Y.
-
Writer will contact customer on 1/10/14 if documents have not been received.
Writer checked and documents have not been attached.
Writer noted in Warranty Claim #058267 for the H46 recall no parts were replaced.
Writer contacted customer at [redacted] Left message.
Writer checked and documents are in queue waiting to be attached.
POSTMARK DATE: 010314; DATE RECEIVED: 010814
Confirm name and address matches COIN & HPIMS: Customer s address and name match the HPIMS
Any open recalls: N62 LEFT OUTER TIE ROD ASSEMBLY
Name of person writing in: THOMAS J OMLER
Does customer have an e-mail address: Not on file
Concern: Customer is seeking recall reimbursement for N62 LEFT OUTER TIE ROD ASSEMBLY recall in the amount of 597.75
Reviewed previous files: yes
Customer reviewed submitted documents.

This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Customer submitted invoice showing one repair was performed therefore it is possible that the parts that were installed for this repair are the parts being recall.
We will not provide reimbursement on a repair to the original manufacturers parts. Unless customer can provide another repair invoice showing there were 2 separate repairs reimbursement will be denied.
Writer contacted customer at [redacted]. Left message with contact information.
Customer returned call. Writer informed customer of lines 36-44. Writer informed customer that he should have the vehicle inspected by dealer to see if the parts that were installed on his vehicle are the recalled Mopar replacement parts.
REIMBURSEMENT DECLINED

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer requesting information on completing recall

Briefly summarize why the customer is contacting Chrysler: Customer states that he received a recall notice for the tie rod on his vehicle. customer states the closest dealership is approximately an hour away. Customer would like to know if he can take the vehicle to his local mechanic to have the vehicle inspected. Writer advised customer that he can take it to an IRF for repair however knowingly not having the recall completed at a Chrysler dealership we will not be responsible for any of the costs incurred. Writer advised customer that it is recommended that he take his vehicle to a Ram dealership to ensure proper repairs are done to complete recall. Customer would like to know if we would be willing to pay for his time/mileage to get to the dealership. Writer advised customer that unfortunately that cost is customer responsibility.
Briefly summarize what the customer is expecting: Information on where recall can be performed.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	customer seeking information on recall

Briefly summarize why the customer is contacting Chrysler: Customer is calling because there are not parts available for recall N62. Customer states his dealership will not have parts until April and he is taking a trip in a couple days and would like to know if he brings his vehicle to an IRF to have the recall completed if he would be reimbursed after. Customer would like to know if he bought that part and brought it to a Chrysler dealership of they would put the part on for free.
Briefly summarize what the customer is expecting: Customer would like to know if he will be reimbursed and if he buys the part for his vehicle if he can be reimbursed.
Agent advised the customer if he were to go to an IRF they would be putting on the same part he has now and there could possibly be an issue down the road with it. Agent also advised the customer that if he were to have the recall completed at an IRF he would only be reimbursed for the part not the labor fees. Agent advised the customer to bring the vehicle to the dealership to have them inspect the vehicle to make sure it is safe. Agent offered to transfer over to dealership. Customer declined because of his schedule.
The part required to provide a permanent remedy for recall N62 is currently not available.
Advised customer that their case will be assigned for special tracking until the part becomes available.
Advised customer that an email will be sent every 30 days, until second letter detailing part availability is sent to customer.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	recall information
Product - Steering - Linkage - Defective - Default	tie rod end broke yesterday and twisted up the tie rod

Briefly summarize why the customer is contacting Chrysler: Customer is calling in today regarding issues with the vehicle. Customer states that the tie rod end broke yesterday and twisted up the tie rod. Customer states that the vehicle was towed to the HERB CHAMBERS CHRYSLER JEEP DODGE dealership.
Briefly summarize what the customer is expecting: Customer is expecting a rental vehicle and information on the recall N62 for the LEFT OUTER TIE ROD ASSEMBLY. Agent advised customer that Chrysler will not be able to provide a rental vehicle for any recall repairs. Agent advised customer that the dealerships should start receiving part on or after January 6th 2014.
Customer is calling because he was advised the part for his recall is not available. Writer was advised that the tie rod assembly was messed up due to the recall. Customer was advised that the dealership would expedite the recall part. Customer wants to know if he will be responsible for the the cost of the damage done due to the recall. Customer doesn t feel he should have to pay to replace what is not covered under the recall because it was due to the recall that the damage occured. Writer called over to the dealership and spoke to SA Shawn. Shawn contacted the district representative and they are going to goodwill this repair for him.

Corporate - Reimbursement - Default - Default - Default	customer seeking reimbursement on tie rods
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	customer states have had tie rods replaced

Briefly summarize why the customer is contacting Chrysler: customer states that he got this recall letter and as per the letter it s for the left tie rod end and customer has both replaced about 9 months ago and he is calling to see what to send in for reimbursement.
Briefly summarize what the customer is expecting: customer seeking reimbursement on repairs
Agent advised: as per doc ID 17420 informed customer to send in original repair order and proof of payment.
Advised customer to submit original repair order & proof of payment to:
FAX:
1-877-768-5076
Advised customer to make a copy of these documents for their records.
Asked the customer to include a brief letter of explanation & request, including their name, address, phone number, VIN, & reference number [redacted]. Advised customer the reimbursement is dependent upon verification of all documents requested.
Performed Image Queue Search Selection - no documents.
Agent called MR [redacted], left VM for him to contact 1-800-853-1403 agent is not set up for VMU.
NEXT AGENT: Please ask customer is this is the second repair to Left Tie Rod.
As per AC24057: A Mopar service parts steering linkage may have been installed during a PRIOR SERVICE appointment.
If customer has had the repair prior to this repair, he must provide documentation for both repairs. Otherwise, if customer cannot provide documents for the first repair, no further action will be required.
Agent called MR [redacted], informed James as per lines 20-26, advised him to contact the CDJ to schedule appointment to have the previous repair inspected to ensure the correct part is on the vehicle. Customer was advised not to send in documents, repair was to the original parts, recall does not pertain to his vehicle. Customer understood.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer states parts are not available for months.

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler seeking further information regarding the N62 tie rod assembly part availability. Customer states he has contacted 5 DLR s in a 100 mile radius who have all stated parts will not be available to order until several months from now. Customer uses his vehicle for work and will be traveling to Florida in 2 weeks for work. Customer states he is extremely frustrated as recall letter advised him to contact local DLR after 01/06/14. Agent advised customer we will be in contact with the DLR 53221 again and contact him back once more information is available.
Briefly summarize what the customer is expecting: Customer is expecting to be contacted within 1-2 business days by agent when further information is available.
Agent attempted to contact customer at [redacted]. Agent advised customer we have further looked into this and determined that parts to remedy this recall are only available to order by DLR, 1 every 7 days. Agent advised customer if he will be travelling to have an inspection done before he leaves to ensure the vehicle does or does not require parts.

Recall - H46: STEERING LINKAGE - Other	Customer inquiring about the H46 recall
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Customer inquiring about the N62 recall
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer stated that they have the H46 and N62 and are wondering if he is allowed to get a part and complete the recall himself because he is a mechanic and does not trust going to dealerships anymore. Agent advised the customer that Chrysler recommends that customers get all recalls completed at a certified Chrysler dealership, however, if he wishes to complete it himself, it could void any warranty he has on his vehicle, and he will be responsible if he ends up getting hurt, or anything goes wrong with the vehicle because of this recall. Customer understood and stated he is not worried about it.
Briefly summarize what the customer is expecting: Customer is expecting to complete the recalls on his vehicle himself.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer seeking reimbursement information regarding recall N62.

Briefly summarize why the customer is contacting Chrysler: Customer stated he has previously had repairs completed at an IRF that are related to the tie rod.
Briefly summarize what the customer is expecting: Customer inquired about reimbursement under a recall claim. Agent advised customer to have the vehicle inspected by a Chrysler DLR to determine which parts, if any, he is eligible to be reimbursed for. Customer stated he already has an appointment set up at a DLR and would contact us back with documents, if necessary.
Agent did not update COIN because AW was down.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	customer seeking information on recall
Corporate - Reimbursement - Default - Default - Default	customer seeking reimbursement for recall

Briefly summarize why the customer is contacting Chrysler: Customer is calling because she would like to know if she can be reimbursed for replacing the left tie rod on her vehicle. Customer states her husband had replaced the part before the recall had been sent out.
Briefly summarize what the customer is expecting: Customer is seeking reimbursement for the left tie rod he had replaced.
Agent advised the customer that if she has documentation showing they have replaced the part of the vehicle i.e., a receipt for the part purchased then she could mail them in to see if she can be reimbursed for the part. Agent also advised the customer she will only be reimbursed for the part and not the labor. Agent gave the customer the mailing address to send her documents in. As per Answer ID 19074 Chrysler Customer Assistance Center P.O. Box 21-8007 Auburn Hills MI 48321-8004.
Advised customer to submit original repair order & proof of payment to:
Chrysler Recall Assistance Center
P. O. Box 21-8007
Auburn Hills, MI 48321-8007
Advised customer to make a copy of these documents for their records.
Asked the customer to include a brief letter of explanation & request, including their name, address, phone number, VIN, & reference number (CAIR). Advised customer the reimbursement is dependent upon verification of all documents requested.
Status update provided via email to the following email address:
[redacted]

Survey By Pass - No Documentation
POSTMARK DATE: 010814; DATE RECEIVED: 011514
Documents attached
Agent reviewed documents submitted by customer and found customer purchased the parts, completed the repair himself and had alignment completed at an IRF. Agent found customer submitted documentation showing only 1 repair.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components or the tie rods listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time. Please also advise the customer to contact an authorized Chrysler dealer to have the recall completed.
Agent advised of lines 46-53.

Agent reviewed documents submitted by customer and found customer had

repairs completed at an IRF and submitted documentation showing only 1 repair.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Customer called asking for the status of this case.
Agent advised the customer that this recall was on the Mopar part and we can not help him. Agent did advise him that the recall was on the Mopar part and we can not reimburse him.
Customer calling back again to state that they did not know that they had to gett he repair done at a CDJ dealer and the repair was done in 2012. They were towed by roadside assistance through customers insurance to the closest IRF. Agent states the policy is written stating reimbursement can only come after MOPAR parts used in the repair.
Customer calling seeking to get how they found the parts were not mopar parts. Agent got the customer in contact with the CM to provide this information.
Agent received a voice message from the customer and she states that we have no way of knowing that the parts are not Mopar parts as customer is not understanding the recall. Customer asked for a return call at [redacted]
Customer returned telephone call and agent explained the N62 recall and customer is pursing the matter with the attorney general and NHTSA
REIMBURSEMENT DECLINED

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	customer states he was charged a diagnosis fee for this issue

Briefly summarize why the customer is contacting Chrysler:Customer called to advise he took his vehicle in October for recall and they charged him a diagnostic fee for his issue of the left outer tie rod turning issue.
Agent advised customer to have the dealership print off the receipt for him once the N62 recall is looked at and if they agree that is the issue he can submit his receipts to Chrysler for review of reimbursement.
Briefly summarize what the customer is expecting:customer thanked agent
Customer called back quite upset. He is at dealership and they performed the recall, and agent spoke to SA Bill who advised that the recall did not need anything replaced and his tie rod ball stud did not need replacing. Customer did not understand. Customer thought that agent above CC1176 was a mechanic and stated that the left tie rod need replacing (customer thought that is what the recall was). Agent explained that above agent was not a mechanic and we are not technically trained to diagnosis his vehicle. Customer stated that he would get his lawyer to pull the phone call and he wants his vehicle fixed.
Customer Martin Morgan is calling in furious and is demanding a supervisor.
Agent tried to assist the customer and he would not go over the case again as he just wanted a supervisor.
Customer has requested Supervisor callback
Preferred daytime [redacted]
Preferred evening number: [redacted]
Reason for request: Caller stated that he was unhappy with the way he was treated and is demanding a supervisor.
CAIR assigned to: (Supervisor NIC PC739)
CSR has informed customer a Supervisor callback request has been made, and the customer will receive a callback within 24 hours.
-
Agent spoke to TL and warm transferred caller to PC739
*****Supervisor*****
Customer was transferred over by HR603. Customer stated he was not happy with the information the first agent gave him about the recall. Customer stated he is having steering issues and he feels that it is caused by the N62 recall. Customer took his vehicle into the dealership and they

stated the recall did not need to be replaced and the vehicle was only inspected.
Supervisor contacted dealership at 410-288-3100 and spoke with SA Bill (SM was not in) who stated the customer feels that the tie rod end is covered under the recall and also stated the popping noise was never diagnosed because the customer declined. SA Bill stated the steering linkage does not need to be replace so the vehicle was only inspected and the SA Bill stated he explained this to the customer and also printed off the picture to show him, but the customer was still not satisfied.
Supervisor advised customer this information, but he was not happy.
Please close CAIR.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer is seeking information on the recall.

Briefly summarize why the customer is contacting Chrysler: Customer states that they have had the steering linkage replaced. Customer states that they shouldn t have had to replace it. Customer states that it is wrong that the steering linkage has messed up their vehicle. Customer states they had talked to the dealer and that they were not very informative. Customer states that they received a letter for the N62 recall.
Briefly summarize what the customer is expecting: Customer is seeking something to rectify the situation. Customer states that they want their vehicle to be repaired so that it is in great condition. Customer stated that they had replaced the steering linkage themselves. Agent advised customer that fulfilling the recall repair would be the best thing to do. Agent advised the customer that there was nothing that Chrysler could do to provide the right rectification that the customer is looking for.
Agent advised the customer to talk with their dealership. Customer stated that they would think about taking legal action. Agent advised the customer to refer to their blue book and to get in touch with an attorney. Customer understood.

Recall - N49: LEFT TIE ROD - Other	Parts on backorder
Corporate - Rental Vehicle - Default - Default - Default	Seeking rental vehicle
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states he received a recall notice in the mail on 12/20/13 for the N49 recall. Customer states that while he was pulling out of his driveway this morning, his tie rods had shattered and his tires were turned outward. Customer states he had to have his vehicle towed to the dealership and was advised that the parts needed to complete this recall are not currently available. Customer states he was advised that he would not be able to receive a rental vehicle while his vehicle was at the dealership waiting for parts to arrive. Customer states he would like a rental vehicle as well as reimbursement for the towing and lost wages at work.
Briefly summarize what the customer is expecting: Customer seeking a rental vehicle and reimbursement.
Agent advised customer that we would not be able to reimburse the cost of lost wages. Agent advised customer that he may send in his receipts from the towing for possible reimbursed. Agent attempted to contact CIRCLE DODGE INC #58906 at 732-477-5555 and was advised that the service department was closed. Agent reviewed the case further and advised customer that we would not be able to provide a rental vehicle. Customer was very upset and requested to speak to a supervisor.
After review with TL, agent was advised that contact needed to be made with dealership before a Supervisor Callback can be made.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer states he paid out of pocket for recall related repair.

Briefly summarize why the customer is contacting Chrysler: Customer states in 2011 his vehicle was wobbling down the road and good thing he was on the road alone. Customer states the vehicle was towed to the nearest garage. Customer states he has all the paper work and he had to pay out of pocket for the tie rod end repairs $400.00 plus dollars.
Customer states he already has an appointment to have the vehicle inspected as he belives the parts came from Chyrsler and are mopar parts.
Customer seeking assistance for the repairs.
Briefly summarize what the customer is expecting: recall information.
Customer states he paid out of pocket for recall related repair.
Writer advised customer of recall as per N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057.
Writer advised as per N62 letter indicates: If you have already experienced this condition and have paid to have it repaired, please send your original receipts and/or other adequate proof of payment to the following address for reimbursement: Chrysler Customer Assistance, P.O. Box 21-8007, Auburn Hills, MI 48321-8007, Attention: Reimbursement. Once we receive and verify the required documents, reimbursement will be sent to you within 60 days.
Customer already has appointment for next week to have the vehicle inspected.
Reassigned to lb546 for survey by pass.
******
Writer located the N62 recall is attached to this vehicle.
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
Writer located the H46 recall attached and completed.
Writer located in claims an inspection with no parts replaced.
******
Writer did not locate documents.
Writer did not locate documents.
******
Writer will contact the customer to advise the cair will be closed in two days as no documents have been located.
Writer will call - [redacted]

Writer left a message this call is [redacted] from Debbie in regards to repair invoices being sent for the 2005 DODGE RAM. I will be closing the file in two days time as the documents have not arrived. The required documents are to include a repair invoice showing the replacement of the steering linkage and a second one with a recent repair. Writer supplied 855-675-9291, extension 4718492 and cair number [redacted].
******
Writer will reassign to the TL for the addition of a survey by pass as the customer has not responded no documents have been located.
******
Writer received a call from the customer who stated he just had the vehicle inspected and they said that everything is correct on the vehicle. Customer stated the vehicle was towed to the to the repair facility a year ago as the vehicle went all over the road. Writer asked what the repair had been completed before. Customer stated the steering mechanism came loose and it is the one the dealership checked just now.
Writer advised the recall is for a replacement part. Customer stated if it comes apart and it has to be repaired and was defective he shoud be reimbursed.
Writer advised the original equipment is not under recall it is for a replacement part. Customer stated Chrysler is not standing behind the products on the vehicle the original part was defective and had to be replaced.
Writer advised the customer this recall is not on the original equipement it is a Mopar recall on a replacement part, the dealership did not replace any parts this time the inspection determined the replacement part was not on this vehicle.
Customer stated the original part was defective and he had to pay for the first repair Chrysler is not standing behind their product and ended the call.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer inquiring about reimbursement

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler because his tie rods broke loose and he had to have them repaired before he received the recall notice. Customer states that he had his vehicled towed to an IRF and they put nappa parts in. Customer wants to know if he can reimbursed for the repair.
Briefly summarize what the customer is expecting: Customer is expecitng cost assistance.
Agent advised customer to go ahead and submit his documents in for reimbursement consideration. Agent advised that we can look at reimbursing for the towing charge and the cost of the parts. Agent advised customer that we cannot reimburse for the labour costs.
POSTMARK DATE: 010414; DATE RECEIVED: 011414
Confirm name and address matches COIN & HPIMS:Yes
Any open recalls: N62
Name of person writing in:fred Horinek
Does customer have an e-mail address:No
Concern:Customer wrote in seeking reimbursement for a repair completed under the N62 recall for $411.13
Reviewed previous files:Yes, No concerns
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and had recall H46 completed in 2009 and no parts were replaced at that time.
Agent called customer and advised that the repairs don t qualify for reimbursement and that the parts installed on the vehicle may need to be replaced due to the N62 recall. Customer understood but was unhappy. Customer called back in and thought it was stupid to send out recall notices, get customer worked up and scared, tell the customers to submit their receipts if they already repaired the part and then deny the customer. Agent advised the customer she would document his concerns.
Customer called stating he feels that Chrysler is trying to insult his intelligence. He states he had already sold his truck but before then the tie rod end fell off. Customer states he replaced everything under the front end and then got a recall letter in January. Customer states he sent in documents and got a phone call telling him it is not covered and he is not being reimbursed. Customer states he feels like we should have made it more clear that the recall was not for the factory parts. Agent advised the recall letter states it is for the MOPAR service replacement parts only. Customer states he is not happy and he ended up putting on parts that are better than MOPAR and would not buy MOPAR parts ever again as he does not trust them. Customer states he wants this on file that he called again to complain. Agent advised we will document his concerns. Customer ended the call.

Recall - N49: LEFT TIE ROD - Information Request	Part inquiry

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler to find out why they can not get the parts for the N49 recall.
Briefly summarize what the customer is expecting: Customer is expecting to have the recall completed. Agent advised the customer to contact a DLR on or after Monday (January 6th) as per the recall notice. Agent advised the customer that if they still can not get parts on Monday, to call CAC back for further assistance. Customer understood.
The part required to provide a permanent remedy for recall (N49Ù is currently not available.
Advised customer that their case will be assigned for special tracking until the part becomes available.
Advised customer that an email will be sent every 30 days, until second letter detailing part availability is sent to customer.
Preferred Morning/Midday call back number is [redacted]
Preferred Afternoon/Evening call back number is [redacted]
Customer email address for case updates: [redacted]
Reassigned to 961
Customer called in regards to part for N49 recall not being available. Agent advised that previous agent has already escalated their concern to case management for further assistance.
SI85 - N49 is not a part of the 961 process
Customer contacting Chrysler stating that she was supposed to receive a call in 1 business day and never did. Agent advised that the only department it was sent to was back ordered parts, which it is not back ordered so it s not sent up anywhere. Customer stated that she was told by her dealership 45374Ù that they cannot get the part until April 4th, 2014 but she needs her vehicle fixed as soon as possible. Agent advised that is not true, the part is not back ordered it is restricted, 1 every 7 days. Agent advised it was a glitch in the system where if the dealerships tried ordering parts before January 6th it would say not until April and cancel the order. Agent contacted dealership 65247Ù and spoke to SM Gary who stated that they ve tried to order the part and it says '0' across the nation, not available until April 4th. Agent advised

he can order 1 every 7 days and contacted Area manager and they all say the same thing. Agent advised to check with Parts Manager. PM stated that the part is restricted- 1 every 14 days. SM stated that they have a list of people that bought vehicles from their dealership and they are going to supply the part to them first, then turn to people outside of their dealership. Agent contacted dealership 43924Ù and spoke to PA Sandy who stated they can order 1 part every 7 days definetly. SA Dominick stated there is 20 people on their list. Agent contacted dealership 45006Ù and spoke to SA Raymond who also stated 1 every 7 days and they have 20 people on their list as well. Agent let customer know stating 20 people on a list is very good even if she does not receive part until April, better to get on the list now because it will only grow from here.
Customer stated she is going to contact SA Raymond and get herself on the list. Customer inquiring about rental. Agent advised we do not provide rental vehicles for recalls- We are required by federal law to inform of the recall but a rental vehicle is a consequential expense. Customer understood.
Agent tried calling the customer back and there was no answer o advise he recall (N49) to advise the recall was not sent for parts expediting as it was a restricted part.

Recall - H46: STEERING LINKAGE - Information Request	Recall H46
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Recall N 62

Briefly summarize why the customer is contacting Chrysler: customer called for recall information.
Briefly summarize what the customer is expecting: Customer is expecting recall information.
Customer called to say that he has received a recall notice for the N62 and H46. Customer stated was confused as he had no work done on the tie rod or steerage. Agent read from recall notice N62 that the letter states that A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. Agent stated that even if the vehicle has had no work done on the tie rod or steerage the customer still needs to schedule an appointment at the dealership for it to be inspected because it is a safety issue. Customer stated that he would contact the dealership to make an appointment.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking information about the recall.
Corporate - CNA Change - Default - Default - Default	Writer updated customer address and phone number.

Briefly summarize why the customer is contacting Chrysler: Customer is calling because he would like to know more about the N62 recall on the vehicle.
Briefly summarize what the customer is expecting: Customer is expecting recall information. Customer states he recently moved and did not receive the recall notice. Writer advised customer of the recall and advised as per the letter sent to the customer to phone the DLR starting January 6 to schedule an appointment for the recall. Customer states he has an appointment at an IRF to have an upgraded steering linkage installed. Customer inquired if he can get reimbursed for the upgraded steering linkage. Writer advised customer that the first part of the recall is to inspect the linkage and determine if it needs to be replaced. Writer advised customer that if the linkage is fine no repair would be completed. Writer advised that all recall work must be completed at an authorized CDJR DLR to be covered.

Customer sent in a repair order with no proof of payment.
Writer verified the customer s information to match coin, invoice and envelope.
******
Writer located the N62 recall is attached to this vehicle as well as the H46 recall both showing incomplete.
H46 STEERING LINKAGE SAFETY 04/27/2009 INCOMPLETE
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
******
Writer located mileage:Last Repair 06/04/2003 @ 0 M
Mileage at the time of the repair: 254680
******
Writer located information for the N62 recall Answer connect ID: 24057.
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:
The steering linkage assembly must be inspected and replaced if required.
******
The invoice 14344 - 12/23/13 - shows the left tie rod has been replaced this repair is not part of the N62 recall.
Writer will contact the customer to see if a repair had been completed before as this recall is for a replacement part.
******
Status update provided via email to the following email address:
[redacted]
Hello
This message is for Shanan Swagel from Debbie of Chrysler. I have received documents for a repair completed on the 2003 Ram for reimbursement consideration. I would like to speak to you regarding this request. My contact number 855-675-9291, extension 4718492 please refer to file number[redacted]
Thank You
End of Status Update

******
Writer received a voice message from the customer dated January 14, 2013 @ 4:01 pm leaving [redacted] as the contact number.
******
Writer will call [redacted].
Writer spoke with [redacted] advising the repair completed for the vehicle is not covered under the N62. Writer asked if there had been a previous repair for the steering linkage. Customer stated not that he is aware of. Writer advised the recall is for a replacement part that may have been installed on the vehicle and not the manufactured part. Writer advised the dealership will inspect the vehicle to see if this part needs to be replaced. Customer stated he understood and will call the dealership at a later time.

Writer notes that the customer has submitted their parts invoice to reflect their purchase of the upgraded Dodge Ram Steering Linkage for their 2003 Ram 2500 and have requested reimbursement under their N62 recall parameters.

Writer further notes that the customer has the following information:
-GWA, claim #481384, completed by Ken Garff dealership on 11/19/2010 in the amount of $5.00
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.

Due to the above parameters, the customer does not qualify for reimbursement under the N62 recall parameters.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.
* *

Writer contacted the customer at [redacted] at 2:20pm and spoke with Mr. [redacted] Writer advised him that his documents have been received, however, writer explained the recall parameters: Mopar, and further explained that the components that are now on his vehicle, should they fail, are covered under the N62 recall.
Writer further advised him to visit any dealership to have the components inspected to ensure that they are working as designed and he thanked writer for the added information. Writer thanked the customer for his time regarding this recall parameters.

CLOSED LOOP UPDATE - customer contacted today.

Dea[redacted] This is Michelle, your Case Manager assigned to your reimbursement claim in regards to the repairs on the tie-rods to your 2011 Ram Laramie. I am able to reimburse you in full for the cost of the repairs under the N49 recall parameters. However, I do suggest that at your earliest convenience, that you bring your 2011 Ram 2500 into any authorized Dodge dealership to have the components inspected to ensure that they are working as designed, and also to have the recall show complete in our system. The reimbursement check will be made out to the address you provided within the information that you submitted to us which you should receive within 12 business days. Should you have any other questions, please contact us, using your case number of #24388491 as reference. I do thank you for your patience regarding this matter,
Sincerely, Michelle

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
CUSTOMER CONTACT: Writer called [redacted]. Writer advised that Chrysler is seeking replacement parts in the recall. Writer asked if this is the first and only steering linkage repair he has completed on vehicle. Customer states that it is. Writer advised we are NOT reimbursing for his repair. Writer advised he needs to take vehicle to a Chrysler Dealer to inspect his parts and if tie rods need to be replaced Chrysler will do that. Writer also advised of the open recall J35 which is a re-programming of the ECM, and that dealer should be able to perform that recall at the same time. Customer understands.
Writer closing case.

Reviewed previous files: Yes, no concerns

Writer notes that the customer has submitted their repair invoices in regards to the repairs that were completed to the RIGHT outer tie-rod end and have requested reimbursement under their N62 recall.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.

As per GWA: claim #077020, completed by Kings Dodge on 12/02/2009 the H46 recall components were inspected in the amount of $15.02 under the recall.

Writer notes that unfortunately the customer does not qualify for any reimbursement due to the above recall parameters not being met.

Writer contacted the customer at [redacted] at 3:45pm and reached their VM. Writer left a detailed message advising the customer that their documents have been received; however, writer wishes to further discuss the information with the customer and requested a return call. Writer provided all contact information, with CAIR number and hours of availability for the return call.

Writer received a message from the [redacted] at 12:43pm returning writer s message and provided writer with the following contact number:
[redacted]

Writer contacted the customer at 5[redacted]. at 2:20pm and reached his VM. Writer left a detailed message advising him that his message was received and advised him of the available time frame to reach writer.

Writer contacted the customer at [redacted]1 at 9:20am and spoke with Mr. Jenkins. Writer advised him that his documents have been received and reviewed and unfortunately, the repairs completed do not fall within the recall parameters.
The customer understood, however, wanted to point out that the vehicle has low mileage on it and has many maintenance issues since the basic warranty ran out:
-hubs rusted
-brakes rusted
-muffler rusted
The customer would like Dodge to be aware of the issues with the vehicle and stated that he is a Dentist and most of his patients have the same concerns/issues with their vehicles. Writer understood his position and advised him that his concerns will be fully noted on the case file and thanked him for his time.

CLOSED LOOP UPDATE - customer contacted today, recall: N62 decline.

Agent reviewed documents submitted by customer and found customer submitted an invoice for repairs and proof of payment. Agent found rental vehicle charges, service contract information and repairs relating to the N49 recall. Agent will contact dealer to determine what charges are related to the recall.
Agent called MAC HAIK DODGE CHRYSLER JEEP and spoke with SA Robert Buckly about the customer s invoice to determine what portion of the invoice is covered under the N49 recall. Robert states the customer paid $161.75 as a deductible under his Chrysler Service Contract and there was also a $75.00 towing charge that was a sublet charge.
Agent called [redacted] and left a message for [redacted] to call back to discuss his request for reimbursement.
****
Next agent please document customer s mailing address and advise him as per the dealer the repairs related to the N49 recall that the customer paid for was $161.75 and that the reimbursement will be processed for that amount. Please also advise the customer that he can submit his $75.00 towing bill to
Chrysler Group LLC, Roadside Assistance
Attn: Claims Department
P.O. Box 9145
Medford, MA 02155
Please also advise customer that the recall still needs to be performed at an authorized Chrysler dealer.
Status update provided via email to the following email address:

End of Reviewed Customer message
Briefly summarize why the customer is contacting: Customer contacted Chrysler recall seeking information about reimbursement. Customer called in with case number. Customer states that she has had the tie rod replaced on this vehicle but they were replaced with the old parts and the recall still needs to be done. Customer states she is seeking reimbursement for the tie rods that she had replaced. Writer informed customer that reimbursement consideration takes up to 60 days to process and that she will be notified either way if she will get reimbursement or not. Writer also informed customer that she can still get the N49 recall completed. Writer advised customer to get in touch with her dealership and get on a waiting list to get the part.
Briefly summarize what the customer is expecting: Customer is seeking reimbursement information and whether she can still get the N49 recall completed on her vehicle.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****

Next agent please advise customer of lines 21-29.
Agent called customer and advised him of lines 21-29 and also confirmed the mailing address in COIN is correct. Agent advised customer that the recall still needs to be completed at a Chrysler dealer. Matt was pleased with the reimbursement and states the vehicle is currently at a Chrysler dealer and they are aware of the recall. Agent advised customer to submit the towing reimbursement request under his service contract. Customer understood.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer seeking reimbursement

POSTMARK DATE: 122413; DATE RECEIVED: 122713
Confirm name and address matches COIN & HPIMS: Yes
Any open recalls: N62
Name of person writing in: [redacted]
Does customer have an e-mail address: No
Concern:Customer wrote in seeking reimbursement for a repair completed under recall N62
Reviewed previous files: Yes, no concerns
This recall only applies to vehicles that had certain Mopar service parts steering components installed. Customer would have to have a previous repair on the tie roads as the recall is for the Mopar replacement part.
If customer has an invoice that shows he had previous repair on the tie rod writer submit for reimbursement.
Writer reviewed the customer file and noticed the vehicle had the H46 recall and the vehicle was only inspected and no repair took place for this recall.
**********OUTBOUND CALL**********
Writer placed a call to MR [redacted] writer was not able to get through to the customer has it states the call has not been completed as dialed. Writer tried 4 different times.
**********OUTBOUND CALL**********
Writer located a number on the invoice as the customer cell ([redacted]) Writer left a voice message for the customer to contact her back @ 855-675-9291 Ext 4718290 with case number [redacted]
**********INBOUND CALL**********
MR [redacted] contacted CM back regarding the documentation he submitted regarding the N62 LEFT OUTER TIE ROD ASSEMBLY. Writer advised the customer that he would need to provided a previous repair that took place on the vehicle for the Tie rods or the steering linkage before Chrysler can consider a possible reimbursement. Customer understood.
Writer advised that the case was going to be closed.
Writer advised the customer to have the vehicle inspected by his local Chrysler dealership to see if the repairs that took place had Mopar parts used.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer seeking reimbursement
Product - Steering - Power Rack and Pinion / Gear - Other - Default	steering gear (box) replaced.

POSTMARK DATE: 122313; DATE RECEIVED: 122713
Confirm name and address matches COIN & HPIMS: Yes
Any open recalls: N49 / L16
Name of person writing in: [redacted]
Does customer have an e-mail address: No
Concern: Customer wrote in seeking reimbursement for a repair completed under recall N49
Reviewed previous files:N62
Writer acknowledges assignment.
Writer acknowledges the Customer has sent in an invoice for Steering gear replaced - no part # s but invoice does indicate steering column stiff to turn, so that means the steering box was replaced, nothing like the recall. Writer will call the IRF to confirm.
IRF CONTACT: Writer called Centerville Service Center 937 435 5122. Sean could not confirm information. Sean wants the owner Ben to confirm. Agent provided US CAC and Case #.
*******AGENTS if Ben calls back in, all we need to know if it was a steering box that was replaced on the Customers vehicle back in 08/2013 Invoice # 16061.
Writer has looked at previous CAIR s and it is determined steering linkage was replaced in 2012 (see cair [redacted], so Customer needs to have his steering linkage inspected by Chrysler under the N62.
WRITER NOTES CUSTOMER DOES NOT HAVE N49 RECALL ON VEHICLE.
Ben from Centerville Service Center 937 435 5122 contacted Chrysler to verify that the part that was replaced on the customer s vehicle was the steering gear on Aug. 26/13. Ben stated that for recall work he likes to direct the customer to the dealership. Agent questioned Ben if any other work was done to the steering linkage or the steering box. Ben stated that the gear was the only thing replaced. Agent advised Ben that the new information will be updated.
Writer has clarified that 'Steering Gear' does not include outer tie rods. This repair does not qualify under any recall on the vehicle at this time.
CUSTOMER CONTACT: Writer called MR [redacted]. Writer spoke to Customer directly. Writer advised the repair he submitted does not match the recall outline, therefore Chrysler will NOT be reimbursing for his repair. Writer did advise N62 is still outstanding and he should get his vehicle inspected at any CDJR Dealer. Customer accepts. Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.

Unless the customer offers new information, decision remains unchanged.

Corporate - Corporate Warranty Extension Letter - Default - Reimbursement - Default	Customer is seeking reimbursement for N62 recall.
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer is seeking reimbursement for the recall repair.
Product - Steering - Linkage - Defective - Default	Customer states that she had the steering linkage replaced in Nov.

Briefly summarize why the customer is contacting Chrysler:
Customer called stating that in Nov the steering went out and so they already had this repaired. Customer states that they now got a recall notice for the N62Ù left outer tire rod assembly. Agent advised customer of the mailing address to send her documents in and advised her that she should allow up to 60 days for reimbursement.
Briefly summarize what the customer is expecting: Customer is expecting to be reimbursed for the repair she had to and now feels it was recalled.
Agent advised customer that the documents will be reviewed and if the repair that she had done to the vehicle, is the same repair that they would do for the N62Ù recall than we can look into possible reimbursement.
Customer is going to send the documents in tomorrow.
REassigned to 86Y
Recall Reimbursement Requests.
Reassigning to MR1279.
Please see TL for proper handling.
****
Please wait for documents.
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.
There is no phone number or email address for customer on record, nor was agent able to find phone number in 411.com.

Recall - N49: LEFT TIE ROD - Information Request	Open recall.
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler:The customer said his left tie rod broke on Thursday and he brought the vehicle into an IRF, but they have not fixed his vehicle yet.
Briefly summarize what the customer is expecting:The customer wanted to know if he should bring the vehicle into the Chrysler dealership. Agent advised he should bring the vehicle into the Chrysler dealership to get the recall done because if he gets the repair done at an IRF we would not be able to reimburse him for the labor, and the parts would only be covered if they were MOPAR parts, but the dealership can do the repair at no cost. The customer asked if the alignment and sway bar would be covered as well. Agent advised after a tie rod end is replaced an aligned is required so that would be covered, however agent was not sure about the sway bar. Agent offered to contact the dealership to get that checked on, and so the customer could schedule an appointment, however he just wanted there phone number and he wanted to contact them on his own. Reassign for an open recall with a concern.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer inquired why her steering linkage was not replaced

Briefly summarize why the customer is contacting Chrysler:
Customer inquired why her steering linkage was not replaced when she took vehicle to dealer for recall repair.
Briefly summarize what the customer is expecting:
Agent informed customer that dealer inspected vehicle to see if Mopar replacement steering linkage had been installed on previous service appointment. The reason dealer did not replace steering linkage is because dealer found that original steering linkage was stiil on vehicle.
Agent informed customer it was replacement steering linkage that was the defective part identified in recall.

Recall - N49: LEFT TIE ROD - Information Request	recall information

Briefly summarize why the customer is contacting Chrysler: Customer states he got the recall to replace the tie rod ends. Customer has been calling dealerships and none of them have the parts. Customer wants to know what to do now. Agent advised he should get put on a list for the part. Customer states he is. Customer states the dealership told him the recall is for vehicles in a certain date range. Agent advised the recall is for vehicles built between February 2008 and December 2012. Agent advised his vehicle was built in June 2008. Customer states he is planning a trip to the coast and has to travel across the mountains. Customer wants to know if this is safe as he will also be pulling a camper trailer. Agent advised to have the vehicle inspected and the dealership should be able to tell him if the trip would be safe. Customer states he will do that.
Briefly summarize what the customer is expecting: To find out more about the recall.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	LEFT OUTER TIE ROD ASSEMBLY
Recall - H46: STEERING LINKAGE - Reoccurance or Related Problem	STEERING LINKAGE
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called in because his vehicle broke down earlier this week the customer lost control of steering. Customer states that the ball joint that connects the pitman rod to the tie rod sheered off. Customer states he saw the N62 recall letter and called the dealership but they said that was not covered by the recall because the recall only covers the outer joint. Customer is upset because it s the same part and his truck is immobile.
Briefly summarize what the customer is expecting: Coverage of repair.
Writer advised customer that if the recall does not effect that joint than there would not be coverage, however, there is a steering linkage recall that was completed in 2011 that may cover the repair, writer is not technically trained and advised customer he would have to have it looked at to know if the H46 recall is related. Writer read the recall to the customer who feels that it may be the same issue.
Customer states he will contact the dealership and advise them about the H46 recall.
Writer offered to call.
Customer states he has no problem calling them.
Customer asked about towing
Writer advised that towing is not covered by the recall.
Customer asked about previous recalls.
Writer advised customer of all completed recalls.
Customer states he had the front end done and they may have replaced the ABS module, he will look into it.
Writer advised customer that if it was the ABS module and he has the receipt and proof of payment, he can call us back and we will start a new case for the customer to submit for possible reimbursement.
Reassigned to BR379 for survey bypass for recall
Customer called back for more clarification on current and prevous recalls as these are related to current issues with vehicle. Agent explained the first step is to have the dealership determine if current issues are recall-related. Agent advised even if this is determined there may be no reimbursement due to the time and mileage put in since the

recall work. Customer was asking about F05 and H46. Agent explained F05 was completed in 2007 and the H46 was completed in 2011. Customer asked agent to go over information on all the previous recalls. Agent summarized each of the three recall notices. Customer then asked for the address to send in for recall-related request for reimbursement in case he needed it. Agent did this but said again the first step is to have dealership determine if current issues are recall-related and even if they are there is no guarantee of receiving reimbursement.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY -	Customer looking for recall reimbursment
Corporate - Survey By-Pass - No Documentation - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler seeking reimbursment for the N62 recall as they had to pay to get the repair done as it broke before the recall was issued. Writer advised that she can deffinatly send in her documentation stating she had te recall completed so that we can review it and see if we can reimburse her for the repair. Writer advised the customer of the documents that will be needed for the reveiw. Writer stated that the customer will need to send in her repair order, invoice, and proof of payment. Customer had asked if she would be able to contact the dealership to see if they can send us the documents, Writer stated that most of the time we like the customer to send in the documents but if she is missing something that the dealership would have they can deffinatly send that information into us. Writer provided the customer with the Fax number to send her documents, customer thanked and ended the call.
Briefly summarize what the customer is expecting: Customer is hoping to get reimbursed for the recall repair.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	LEFT OUTER TIE ROD ASSEMBLY
Corporate - Survey By-Pass - No Documentation - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states that he has received a recall notice for the N62 recall. Customer states that he has already had his entire steering linkage replaced. Customer states the cost of repair was $800. Customer states he would like to know if his repairs would be covered under this recall.
Briefly summarize what the customer is expecting: Customer seeking recall information.
Agent advised customer that the repair for this recall is to inspect and replace the steering linkage assembly. Agent advised customer that he may send in for possible reimbursement. Customer states he still needs to speak to the dealership to obtain information on specific parts that were replaced. Agent advised customer that once he receives this information, he may send documentation in for possible reimbursement. Agent advised customer of information listed in Answer ID 17420.
Agent has reviewed file and there is no indication from the repair history that the Mopar parts that are part of the recall were installed on this vehicle. Agent will wait for paper work to make final decision

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Reimbursement request

Briefly summarize why the customer is contacting Chrysler: Customer states that he had the N62 recall parts replaced in the vehicle already and was inquiring about if he can be reimbursed for this repair.
Briefly summarize what the customer is expecting: Customer is expecting to be reimbursed for recall. Writer advised customer that we can send him a documentation request link if he has access to a canner and email, or he can fax the information, or he can mail the information in. Customer states that he will verify that he has a working scanner and email address and will contact us back with the email address so we can send him the documentation request link.
[redacted] customer s wife was calling in to obtain a fax number to send the documents in. Agent advised the customer that it looks like we were going to send a link to their email so they could send it by email. Agent advised the customer that we do have a fax number if this is what they prefer. Agent provided the customer with the fax number 1-877-768-5076 to send their documents in to. Customer was thankful.
Customer called in to find out if fax had been received yet. Agent advised customer that it can take up to 5 business days for information that is faxed in to be added to the case.
Customer calling to check on fax, agent informed customer that it still has not come in. Agent advised customer to call back and the end of the week and if we still have not gotten the fax to re fax it at that time.
Customer calling seeking if the information has arrived at this time. Agent informed the customer it has not. Agent offered the fax number again. Customer stated he still has it and he would send another copy of it.
Customer is calling to inquire about the status of his fax. Agent advised customer to allow 30-60 days. Customer understood and stated that he would call back if he hasn t heard from anyone.
POSTMARK DATE: 020514; DATE RECEIVED: 020514
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and submitted documentation showing only 1 repair.
Agent called customer at [redacted] and left a message asking that the customer contact CAC to discuss the request.
****

Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components or the tie rods listed in recall N62, then the repair is not related to the recall because they were not Mopar service parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time. Please also advise the customer to contact an authorized Chrysler dealer to have the recall completed.
Agent called customer at [redacted] and left a message asking that the customer contact CAC to discuss the request.
Status update provided via email to the following email address:

My name is Greg and I am contacting you from the Chrysler Reimbursement Team. I have reviewed your request for reimbursement. Please contact us at 1-800-853-1403 and refer to the case number 24389749 so that we can discuss your request with you, thank you.
End of Status Update
Next agent please advise customer of lines 37-44.
Status update provided via email to the following email address:
[redacted]
My name is Greg and I am contacting you from the Chrysler Reimbursement Team. I have reviewed your request for reimbursement and have been unable to speak with you. Please contact us at 1-800-853-1403 and refer to the case number [redacted]9 so that we can discuss your request with you, I will close the case if I do not speak with you within 2 business days.
End of Status Update
Customer contacted regarding the email they had received to discuss the status of their request.
Agent informed Customer of lines 37-44.
Customer stated they will go to the repair facility and request additional documentation to show that the vehicle was repaired with mopar service parts so they may qualify for reimbursement.
Customer stated they will contact back with further documentation.
Customer called to see what is going on with his case. Agent provided customer with a contact number for the Chrysler Reimbursment Team.
Customer contacts regarding the N62 recall. Customer states he had repairs done on 11/05/2013 due to the tie rod snapping. Customer does not understand why he is not being reimbursed for the recall.
Agent advised in detail how the N62 recall is an initial inspeaction to determine whether or not the vehicle has original style steering linkage, or whether the recalled component was added on after the purchase of the vehicle.
Agent advised as per line 41-42 the components on the vehicle were not mopar components.
Agent advised a transfer to his Duluth dealership to schedule a N62 recall inspection appointment.
Customer states he will call on his own time.
Customer states he was contacted VIA Email to contact us regarding the reimbursement request he sent in.
Agent advised customer of lines 37-44.
Agent advised customer we do request he take his vehicle in for an inspection to determine if he needs the recall needs to be completed and if so they will then order the parts for him.
Customer states by the time he gets off work, it is hard to get the vehicle in to the DLR for the inspection.
Customer states he will take the vehicle in on Saturday to see if he can have the inspection completed.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking information on recall N62

Briefly summarize why the customer is contacting Chrysler: Customer states he has not recieved his recall notice regarding N62 recall.
Briefly summarize what the customer is expecting: Customer seeking information if his recall notice has been mailed out by Chrysler yet.
Agent advised Chrysler started mailing out recall notices on 12/16/2013.
Agent advised that due to the volume of notices to be mailed out, his vehicle file may not have made it to the que yet. Agent advised if customer still has not recieved his notification by the end of January, to reach out to CAC once again for further investigation.
Agent updated customer contact information to ensure most recent information available.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Customer is seeking recall information.
Recall - H46: STEERING LINKAGE - Advise Owner/Incomplete Recall	Writer advised caller of incomplete recall.

Briefly summarize why the customer is contacting Chrysler:
Customer reports he received the N62 recall in the mail and wanted to confirm the repair process.
Briefly summarize what the customer is expecting:
Customer is seeking to confirm vehicle recall status.
Writer advised that the repair process will first be an inspection to determine the type of linkage, and depending on the inspection, further repair steps will take place. Caller understood.
Writer advised caller of incomplete recall H46 and strongly encouraged the call to have both completed.

Recall - E17: OUT-OF-PARK ALARM SYSTEM - Advise Owner/Incomplete Recall	Out-of-Park Alarm System
Recall - H46: STEERING LINKAGE - Advise Owner/Incomplete Recall	Steering Linkage
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	seeking reimbursement for parts
Corporate - CNA Change - Default - Default - Default	updated customer information

Briefly summarize why the customer is contacting Chrysler: Customer stated he received the recall letter for N62 and has already replaced the parts previously in 2011 with parts ordered from a CDJR dlr.
Briefly summarize what the customer is expecting: Customer seeking reimbursement for reall repair.
Agent advised customer of the information required for submission and to include his original receipts. Agent provided mailing address for submission and advised file would be reviewed for reimbursement.
Agent also advised of other incomplete recalls on vehicle.
POSTMARK DATE: 010914; DATE RECEIVED: 011614
Customer seeking reimbursement for N62 recall.
Reassigned to 86Y.
Agent reviewed documents submitted by customer and found customer purchased parts from NEW COUNTRY AUTO CENTER and submitted documentation showing only 1 repair.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****

Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components or the tie rods listed in recall N62, then the repair is not related to the recall because they were not Mopar service parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time. Please also advise the customer to contact an authorized Chrysler dealer to have the recall completed.
Customer states that the customer CM Greg contacted the customer in regards to the case and the customer would like to speak to the CM. Agent transfered customer on the line to speak with the CM Greg for further assistance with the customer case.
Agent called customer and advised that the repairs don t qualify for reimbursement and that the parts installed on the vehicle may need to be replaced due to the N62 recall. Customer understood and states they will contact a Chrysler dealer to have the recall performed.

SM David called me about this RAM. Broken tie rod - Vehicle part of N49
recall. Parts not available. For customer satisfaction reasons I
approved installing a non-recall tie rod to get this customer back on the
road.
CONTACT UPDATE - 1st Contact attempt, phone number dialed, [redacted].
Customer stated that he is not fully satisfied with the repairs and that
his vehicle is still having concerns with the heater, transmission issues
and after the axel has been repaired there is still noise. Customer
stated that he would like his vehicle replaced and or buy back. Writer
offered the customer a SC for the concerns that customer has been having

with the vehicle. Customer refused the offer. Writer referred customer to the blue and white booklet and customers state guidelines. Customer stated that his vehicle also loses power when towing. Writer advised that the concerns have been documented and customer will be contacted on 1/8 to find out what customer has decided to do.
Writer contacted customer. Customer wanted to know what the SC would do. Writer explained how SC s work. Customer stated that he is going back into the dealership because the vehicle is getting low power when under a load and there is a popping noise in the steering. Customer stated that the dealership has not been able to duplicate the concern because it is not under a load at the time of testing. Writer recommended the customer take the vehicle in with a loaded trailer and to drive the vehicle with the SA for duplication. Writer will follow up with the customer on 1/10.
Writer attempted to contact customer. Writer left a VM requesting a call back to go over case with customer.
SA/Angie states that the vehilce was just brought in for repair.

Briefly summarize why the customer is contacting Chrysler: Customer is calling in today to seek information on recalls. Customer states that 3-4 weeks ago the tie rod and steering box broke while she was pulling out of the driveway. Customer states that she had the vehicle towed over to an IRF which they replaced the tie rods and the steering box.
Briefly summarize what the customer is expecting: Customer is expecting a reimbursement for recall N62 and to have the recalls on this vehicle completed. Agent advised customer that she needs to send us the receipts and invoice for a consideration. Customer will be faxing over the invoice and receipt to 877-768-5076. Agent provided customer with information on recalls c42, c44, e17, h46 and N62. Agent contacted the SPORT CHRYSLER JEEP DODGE RAM dealership and spoke to Joe in service who scheduled the recall appointment for 01/13/2014 at 8am. Joe will make sure they order the parts if needed.
Customer called stating that the vehicle was taken to dealer on the Monday and has not yet been repaired as the parts for the recalls are on back order.
Writer contacted Sport CJDR 26537 and spoke to SA Joe who stated that the parts have been ordered and are on back order.
SA transferred writer to PA Mike who states the parts are no longer on restriction or back order and the parts will be in tomorrow.
Writer informed customer of situation and customer understood.
Waiting for Docuemntation.
Briefly summarize why the customer is contacting Chrysler: Customer

stated she called CAC and we got her in touch with the DLR to make an appointment for the recall. Customer stated was told to wait a week so they could make sure the part would be in and so she would not be in a rental for more than a day. Customer stated she brought the vehicle into the DLR on Monday for a recall and they advised they would order the part so she went and rented a car. Customer stated the vehicle is still at the DLR. Customer stated the DLR advised her that the part is on back order and to come pick up the vehicle. Customer stated she is still in the rental and has been paying for a rental for nothing.
Briefly summarize what the customer is expecting: Customer is expecting assistance with the cost of the rental vehicle. Writer advised there is no warranty or service contract coverage for this vehicle. Writer advised Chrysler would not be able to cover the cost of the rental.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.
* *
Called Customer at [redacted]. Customer states that they had the Steering Linkage replaced and have the Steering Linkage that was removed from the truck in the Back of the Truck and that the DLR was supposed to replace that Part.
Customer states that she is waiting for the Recall Parts for C420, C440, E170.
DLR Contact: SPORT CHRYSLER JEEP DODGE RAM - 610-539-3100.

Recall - H46: STEERING LINKAGE -	
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY -	

POSTMARK DATE: 010614; DATE RECEIVED: 010614
Fax received, no open CAIR, writer reassigning CAIR to 86Y.
Customer inquiring if documents were received.
Agent informed customer that document were received 1/6/14.

Writer notes that the customer has submitted their documents to reflect their repairs to the:
-front pinion seal
-transfer case chain
-inner tie-rod assembly
-steering shaft
-water pump
-wheel hub with sensor
All of the above repairs were completed by an IRF, Automotive Specialists @ 114,894 miles and are requesting reimbursement under their N62 recall.

Writer also notes that as per GWA: claim #206762 H46 completed by the Christopher s Dodge World on 08/21/2009 in the amount of $5.00.
With this information, the H46 components were only inspected and not replaced, therefore, the customer does not qualify for reimbursement unless, there have been previous repairs completed on the vehicle prior to this invoice submitted.

Writer also notes that the customer is currently the original owner of this 1 new vehicle with a WCC of 7/70,000 with no MVP with some dealer usage.

Writer contacted the customer at [redacted] at 4:25pm and reached their VM. Writer left a detailed message advising the customer that their documents have been received; however, writer wishes to further discuss the information with the customer and requested a return call. Writer provided all contact information, with CAIR number and hours of availability for the return call.

Writer received a message from the customer on Jan. 17th @ 3:19pm returning writer s call and provided writer with the following contact number: [redacted].

Writer contacted the customer at [redacted] at 2:15pm and spoke with Mr. Reader. Writer advised him of the N62 recall parameters: Mopar replacement parts and apologized due to the fact that writer cannot reimburse him for the costs incurred with this repair submitted. Mr.

Reader understood writer s explanation of the recall parameters and
writer thanked him for his understanding regarding the recall provisions.
Writer also suggested that he bring his Ram into any dealership to have
the components inspected, and he stated he would.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle s repair does not fall within the N62 repair parameters.
Unless the customer offers new information, decision remains unchanged.
* *
CLOSED LOOP UPDATE - customer contacted today.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	LEFT OUTER TIE ROD ASSEMBLY
Recall - H46: STEERING LINKAGE - Information Request	STEERING LINKAGE

Briefly summarize why the customer is contacting Chrysler: Customer called because he replaced the steering linkage and the left outer tie rod assembly already himself.
Briefly summarize what the customer is expecting: Customer is seeking a reimbursement for the Recall #H46 and recall #N62. Agent advised the customer that both of the recalls are for Mopar parts only that he may have had replaced. Customer stated that he did not replace the parts with Mopar parts and is not sure if the parts that were bad were Mopar parts. Customer stated that he put the new parts on himself. Agent advised the customer that he could have a Chrysler dealership check to make sure the parts he installed were installed correctly but Chrysler would not be reimbursing him for the steering linkage and the left outer tie rod assembly that he replaced.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Customer states dealership can't get parts

Briefly summarize why the customer is contacting Chrysler: Customer called and he first stated that the call was being taped. Agent requested the call not be recorded. Customer stated why is is ok for agent to record him but he can t. Agent stated that the calls are recorded for quaility purposes. Customer stated that he got a recall letter in the mail and the dealership doesn t have the parts. Agent explained to the customer that the dealership may not need to replace any components. Agent stated the recall is on a MOPAR replacement parts. Agent explained that a Steering linkage would of been replaced prior and it was causing the tie rod angles to be off and causing the ball stud to fracture. Customer asked what the recall is on. Agent stated the recall is on the tie rods but they would fail from the steering linkage.
Briefly summarize what the customer is expecting: Customer seeking recall information.

Agent advised the customer of the two remaining incomplete recalls. Customer understood.
Waiting for Documentation.
Waiting for Documentation.
Customer Contact: [redacted]. Spoke with Customer.
Agent advised that the Recall applies to vehicles that had a Mopar Steering Linkage installed on a Previous repair visit.
Customer states that the Steering Linkage was original before Upgrading to the Mopar Steering Linkage.
Agent advised that Chrysler will not be able to reimburse for the Upgrade but that the Parts that were installed may need to have the Tie Rod Ends Upgraded as part of the Recall.
Customer states that he is going to have the vehicle taken to the DLR tomorrow to have an inspection completed.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Customer is seeking towing reimbursement.
Corporate - Survey By-Pass - Reopen Error - Default - Default	

Briefly summarize why the customer is contacting Chrysler:
Customer reports he received the N62 recall letter on Friday, January 3rd and on Saturday, January 4th, his left tied rod bolt failed.
Briefly summarize what the customer is expecting:
Customer is seeking towing reimbursement.
Customer reports that this is the second time that this has happened where his steering failed. Customer feels that this recall should have been issued 6 months ago.
Customers vehicle was towed to 45531 for repair.
Writer provided customer with reimbursement request process. Writer advised that there is no promise of reimbursement, however it will be considered and a response provided within 60 days.
Customer understood.
Customer contacted Chrysler seeking information regarding the status of his reimbursement. Agent advised customer that we have not received his documentation. Customer stated that he mailed the original in. Agent advised customer that he would have to contact the towing company and see if they can provide him with a copy and resubmit the documentation.
Customer requested a supervisor and disconnected.
Customer states that he submitted information to Chrysler Customer Care Claims department and states he received a letter in the mail today apologizing that Chrysler will not be reimbursing him for his towing cost and that Recall was not covered by the RSA. Reference number [redacted] is for the letter Customer received today which advised him to contact the Chrysler Recall Centre.
Customer was furious due to the fact that the steering broke on his truck twice and the second time his vehicle completely rolled over on the freeway with his family in the vehicle.
Customer is seeking reimbursement for towing cost.
Agent advised Customer that we do not cover towing fees.
Customer was furious and expects a Supervisor Call Back by Monday.
Customer disconnected the call.
Supervisor Call Back Requested.

Recall - N49: LEFT TIE ROD -	Dealership advise parts not available

Briefly summarize why the customer is contacting Chrysler: Customer called very IRATE stating that they just called 2 dealerships and they are telling them that they can t get the parts until February. Customer stated that they shouldn t of put it on the letter to make the appointment January 6th if they are not available. Agent apologized to the customer and stated that she was not aware of any issues with the parts and will ensure that she will get it straightened out.
Briefly summarize what the customer is expecting: Customer seeking to have recall completed.
NAPLETON S MID RIVERS CHRYSLER Dealer Phone : 636-928-8000 Agent called the parts department and spoke to Cory who stated the parts are available and they are not restricted. Agent confirmed with the part numbers from the recall. Agent requested to be transferred to Brian. Agent asked him to confirm what is going on. Brian stated that the parts department will not order them. Agent stated that he just spoke with them and they said they can t order with out the order from the service department. Brian stated that they are confused with the recalls. Agent stated that she gave him the recall part numbers. Brian stated that they can t just make an appointment and order the parts. Agent stated she understand that they will need to look at it first. Brian stated they refuse unless there is an open RO. Agent stated she understands that but they can still do that before February and wants to know why they were told to wait. Brian to the customers phone number and information and stated he will order the parts and call them. Brian stated that Chrysler should of given their dealership 20% of their parts a head of time. Agent stated they stopped that since the restriction has been put on.
-
Agent apologized to the customer and advised the customer that she should have no issues with getting the recall completed this week. Customer stated her husband is a truck driver and is on vacation this week. Agent stated that the dealership confirmed that the parts were not restricted.

Corporate - Complaint Contact - Default - Default - Default	Customer is issuing a complaint to the dealer.
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	The customer is seeking verification on parts status.

Briefly summarize why the customer is contacting Chrysler: Customer is calling to state that they had received the letter for the N62 recall. Customer states that they had visited Edwards DLR (65247) and inquired about the recall. The customer states that the DLR was discourteous and gave them the wrong information pertaining to the process of the recall. The customer states that they spoke with the parts department and that they said that this was not a legitimate recall and that the parts did not exist for this recall.
Briefly summarize what the customer is expecting: Customer is seeking verification on the recall if it is legitimate. Agent advised the customer that this is a legitimate recall. Agent called over to Edwards dealership and spoke with the Owner Garry Edwards. Garry stated that he is told the customer that the parts were unavailable for a while, and that they are trying to get them in as soon as possible. Garry stated that he had sixty plus people on the waiting list for parts. Garry stated that the customer was very rude when he was trying to explain this to the customer. Agent inquired if the customer would be able to be placed on a waiting list. Garry confirmed that the customer would be able to be put on a waiting list. Agent informed the customer of this information. Customer stated they would not be going to that dealership ever again and that they told him completely different information. Agent advised the customer that they would be able to call another dealership and inquire about the parts. Customer understood.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Caller seeking possible reimbursement for the recall

Briefly summarize why the customer is contacting Chrysler:
Customer John is calling in as his secretary in Michigan gave him the information that he has a recall N62 on his vehicle.
John stated that he had this work completed at an IRF as there were no Chrysler dealerships near where he had the work completed in Northern Michigan.
Caller is working in Florida now and the vehicle is in Northern Michigan.
Briefly summarize what the customer is expecting:
Caller is seeking a reimbursement for this recall.
-
Caller did not have access to a scanner and e-mail for a document link.
-
Caller said the receipts are in his glove box in Northern Michigan.
-
Agent read the information from the recall letter about possible reimbursement.
-
'If you have already experienced this condition and have paid to have it repaired, please send your original receipts and/or other adequate proof of payment to the following address for reimbursement: Chrysler Customer Assistance, P.O. Box 21-8007, Auburn Hills, MI 48321-8007, Attention: Reimbursement.'
-
Caller took down the address information and agent gave the customer the Case number.
Caller thanked agent.

Waiting for documentation
Agent contacted the customer @[redacted] @11:25 AM and explained the N62 recall. Customer did not like the decision but understood
REIMBURSEMENT DECLINED
******CLOSED LOOP******
Customer called back still seeking possible reimbursement for a repair he

had completed in 12/28/10 for the Tie Rod ends. Customer states that the repair was done at an IRF however they got Mopar parts. Agent reviewed the recall letter with customer and advised the following: 'Chrysler has decided that a defect, which relates to motor vehicle safety, exists in some 2003 through 2008 model year Dodge RAM 1500/2500/3500 series Trucks that had the steering linkage replaced with MOPAR service parts.' Customer understood once reading the information. Agent advised the original repair will not be reimbursed as the repair reflected the OEM parts not Mopar Service Parts. Agent advised the vehicle needs to be inspected and if the dealership determines the parts that were put on the vehicle are in fact Mopar Service Parts, they need to be replaced. Customer understood and thanked this agent.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking recall information

Briefly summarize why the customer is contacting Chrysler: Customer seeking recall information. Customer states they got the notice in regards to the N62 recall so they contacted Rainbow Chrysler Dodge 45281 to get further information. Customer states that a service advisor told them they are going to do an inspection first and if everything looks okay the vehicle will be returned back to them with no replacement linkage installed. Customer states that for their safety they feel it should be replaced regardless what the inspection said as they haul things with their vehicle and are concerned for their safety. Agent advised (as per AC ID 24057) Vehicle found with original style steering linkage can be immediately returned to the customer because the recall only applies to vehicles that had certain Mopar service parts steering components installed. Customer states their vehicle is all the original parts they have never had the steering linkage replaced. Customer states they wish the DLR would have advised of that. Agent informed the customer they should still have the inspection done to make sure however that is the only reason the DLR will replace the steering linkage. Customer thanked the customer and disconnected the call.
Briefly summarize what the customer is expecting: Customer seeking recall information

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Customer inquired about recalls
Product - Suspension - Tie Rods / Drag Link - Other - Front	Replaced left tie rod

Briefly summarize why the customer is contacting Chrysler:
Customer states that he had replaced the left outer tie rod 03/03/2010.
Customer states that he is an independent mechanic and that he purchased the parts from a certified dealership.
Briefly summarize what the customer is expecting:
Customer is seeking reimbursement consideration for the N62 recall.
Agent provided customer fax number 877-768-5076
Agent advised customer that the following information is required
CAIR [redacted]
VIN number
Customer name and address
Customer understands that that the request for reimbursement is not guaranteed and that the reimbursement team will need to review the request.
Reassign 86Y
Waiting for Documentation.
Waiting for Documentation.
Customer Contact: [redacted].
Agent advised that the Recall applies to vehicles that had a Mopar Steering Linkage installed on a Previous repair visit.
Customer states that the Steering Linkage was original before Upgrading to the Mopar Steering Linkage.
Agent advised that Chrysler will not be able to reimburse for the Upgrade but that the Parts that were installed may need to have the Tie Rod Ends Upgraded as part of the Recall.
Customer thanked and will follow up with the DLR.
Closed CAIR.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	N46 information call

Briefly summarize why the customer is contacting Chrysler: Customer states he received the recall notice for the N62 which states that appointments can be scheduled at the dealerships after January 6th 2014 to have recall work completed.
Briefly summarize what the customer is expecting: Customer contacted the STOKES dealership and was advised that they do not have the parts to complete the recall and will not have them until March 2014. Customer is wondering why a notice would go out saying to make an appointment in January if the parts wont be available until March.
Agent advised customer that the notice does state that customers can contact the dealership after January 06th 2014 to schedule a service appointment and at that point to have the dealership either hold the part for the vehicle or to have the part ordered before the appointment is made. Agent advised customer that if the part will not be into the dealership for customer until March 2014 that agent would not be able to speed that process up, customer understood and requested that his file be notated that he called in about the N62 recall today.. Agent did try to contact the STOKES dealership but was put on hold for over 5 minutes.

Recall - N49: LEFT TIE ROD - Information Request	LEFT TIE ROD

Briefly summarize why the customer is contacting Chrysler: Customer called because he called dealership 44444 and they stated that it might be a month before the parts come in.
Briefly summarize what the customer is expecting: Recall #N49 information. Customer uses this vehicle for work and wants the part for his vehicle.
Agent called dealership 44444 and dealership parts-Barry advised the agent that they have no parts and are putting customer s on a waiting list and that the order was cancelled by Chrysler. Barry stated that he is going to put the order through again and this customer is second on the waiting list. I advised the customer of what the dealership stated and he will call dealership 44444 back tomorrow to see how long the part will take to come in. Agent called another dealership 55013 and they stated that they can only order one part every 7 days.

Letter sent 1/29/14.
POSTMARK DATE: 011614; DATE RECEIVED: 011614
Customer seeking reimbursement for N62 recall.
Reassigned to 86Y.
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and submitted documentation showing only 1 repair.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components or the tie rods listed in recall N62, then the repair is not related to the recall because they were not Mopar service parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time. Please also advise the customer to contact an authorized Chrysler dealer to have the recall completed.
Customer returning phone call. Agent advised that as per lines 79-86 that at present reimbursement will not be possible as the documentation did not state that the repairs met the guidelines of the recall. Agent advised that if they have additional documentation to submit it for additional review, and to consult a CDJR DLR to look into repair work related to the recall.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	cusotmer seeking if work done is under recall

Briefly summarize why the customer is contacting Chrysler: Customer states they received a recall notice on the N62 LEFT OUTER TIE ROD ASSEMBLY. Customer states they may have already gotten this work done on the vehicle. Customer states they were driving and almost lost control. Customer states they took the vehicle to a shop, not a dealership got the front replaced. Customer states the left side was wobbling.
Briefly summarize what the customer is expecting: Customer seeking if the repairs they got done were under the recall.
Agent advised customer I wouldn t know if the same repairs as the recall.
Agent advised customer to contact the dealership for further information.

Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	customer had left tie rod replaced
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	customer inquiring about new recall N62
Corporate - Reimbursement - Default - Default - Default	customer seeking reimbursement on part replacement

Briefly summarize why the customer is contacting Chrysler: customer states that he got a letter for the left tie rod recall however customer replaced it 9/28/2013 and he did purchase the part from the dlr then he just recently got this recall letter and took it to the dlr and they told him that it does not have the complete update on recalls and they will schedule him an appointment to do the recall but customer left tie rod snapped right off and customer was pulling into a parking lot.
Briefly summarize what the customer is expecting: customer seeking reimbursement on tow and part purchased
Agent advised: Agent informed customer to mail in original copy of receipt showing what part was purchased from the dlr and proof of payment. Agent also informed customer as per NC603 customer could send in documents of tow however may not be approved due to mileage however now that there is a recall on the vehicle for the same part customer purchased may meet merits. Agent informed customer no guarantee on reimbursement. Agent informed customer of mailing address
Chrysler Group LLC, Roadside Assistance
Attn: Claims Department
P.O. Box 9145
Medford, MA 02155
Agent informed customer to allow time to receive if he wants to call near the end of the month to get an up to date may possibly have received them at that time. Customer referred to the address on the recall letter to submit reimbursement on the part purchase.
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.
Agent called customer at [redacted] and advised of the above. Brian states he did send in the paperwork and also advised the dealer told him the linkage had been changed. Agent advised we will need proof of this.
****

Waiting for paperwork.
POSTMARK DATE: 010714; DATE RECEIVED: 011414
Documents attached for review
Agent called customer at [redacted] and left voicemail for customer to contact us at 800.853.1403.
****
Agent looked at documents and it is only showing the tie rod kit, there are no invoices supporting customers statement that the linkage had been replaced before. The dealer had inspected the linkage for recall H46 but no parts were replaced, customer still has factory linkage on vehicle.
****
**********NEXT AGENT**********
If customer calls(agent does not have voicemail) please advise of lines 42-45 and also advise if customer cannot provide proof the linkage was changed prior to this repair, I will be unable to reimburse and will close the file.
Agent advised customer that he needed paperwork to support his claim that the tie rod was replaced with a mopar part before he replaced his tie rod.
REIMBURSEMENT DECLINED
******CLOSED LOOP******
Agent advised customer of lines 42-45. Writer advised that he went to the Chrysler garage to ask them. The recall H46 had been done to the vehicle and that they showed that the recall was done back in June of 2010. Customer advised that his linkage broke. Customer states parts were replaced as per the dealership records.

Recall - H46: STEERING LINKAGE - Information Request	STEERING LINKAGE
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	left tie rod broke

Briefly summarize why the customer is contacting Chrysler: Customer called because the left tie rod broke on his vehicle. Customer needs to have his vehicle towed to dealership 23295. Customer stated that he has the recall #N62 on his vehicle. Agent advised the customer that the recall #N62 and recall #H46 are for Mopar replacement parts only. Customer stated that he has original parts on the vehicle. Customer is quite upset that Chrysler will not cover the towing and the left tie rod on his vehicle. Agent advised the customer that the dealership will inspect the parts to see if they are the Mopar replacement parts that the recalls are for.
Briefly summarize what the customer is expecting: Recall #N62 information.

Corporate - Survey By-Pass - No Repair - Default - Default	N49
Recall - N49: LEFT TIE ROD - Information Request	When parts will be available

Briefly summarize why the customer is contacting Chrysler: Customer contacting Chrysler to determine when N49 recall part will become available. Customer uses this vehicle as an ambulance and cannot drive vehicle with recall on vehicle that states may cause crash without warning. Customer cannot afford to have vehicle off road for very long and calling to determine when part will become available.
Briefly summarize what the customer is expecting: Customer expecting to determine when part will be available.
Agent contacted DLR 45329 and spoke with rusty in parts. Rusty states he should be able to get in both parts required to complete recall in 5 days. Rusty advised to have customer contact Larry in service to book appointment to begin ordering process. Agent thanked rusty. Agent advised customer of this. Customer understood and thanked agent.
Resssign to kg363 for no repair N49
Briefly summarize why the customer is contacting Chrysler: this vehicle is an ambulance and has been of the road since we have got this letter
Briefly summarize what the customer is expecting: called dealer today and they told me another 2 weeks until part comes in, not going to wait for that long since this vehicle needs to be back in service. I want a supervisor call to talk to them and get this taken care of for everyone out there. Other EMS are driving with the part about to fail. This has been inspected and told that its fine to drive but I am not taken that chance, high liability driving this in such a unsafe manner
Agent offered to call dealer but customer declined because that was just told him.
*****next agent please escalate this to TL for supervisor call******

Corporate - Survey By-Pass - No Repair - Default - Default	N49
Recall - N49: LEFT TIE ROD - Information Request	N49 Inquiry

Customer contacted Chrysler Recall as they were inquiring about the N49 Recall. The customer indicated that they previously had the L16 Recall and had this repaired previously and wondered if this was the same concern. The agent informed the customer that these two recalls are not the same and that as this is a safety recall, we recommend working with their servicing dealership to have this repaired. The customer stated that they did not like dealer 43609, but will work with them on this matter. The agent offered to transfer the customer, but the customer declined and stated that they will contact them on their own.
Customer called because she contacted her dealership and they advised her that there are 53 people ahead of her on the wait list. Customer states that she does not understand why Chrysler would send out a recall if the parts are not available.
Agent advised customer that Chrysler, by law, needs to inform the customer of a recall regardless if parts are available.
Agent offered to call neighboring dealerships to see if the wait list is shorter.
Customer declined. Customer said that she needs to contact a lawyer and get out of the vehicle because it is not safe.
Customer has requested Supervisor callback
Preferred daytime number: [redacted]
Preferred evening number: [redacted]
Reason for request: Customer does not want to wait for the part to have the N49 recall completed.
CAIR assigned to: KG363
CSR has informed customer a Supervisor callback request has been made, and the customer will receive a callback within 24 hours.
SUPERVISOR
Supervisor contacted [redacted]
Supervisor spoke with the customer regarding recall N49. Customer is frutrated that Chrysler would release a recall without parts. Supervisor advised the customer that the part is on restriction, and only one part can be ordered every 7 days.
Customer wants to be put on the waiting list at RAZZARI DODGE CHRYSLER JEEP 43609.

Supervisor advised that the dealer will be contacted and the customer
placed on a waiting list.
Please contact RAZZARI DODGE CHRYSLER JEEP 43609 and have the customer
placed on the waiting list for N49.
DEALER CONTACT: RAZZARI DODGE CHRYSLER JEEP 209-722-7407
Agent spoke with SA Debra, provided customer s VIN and contact
information. Debra said that she would put the customer on the list.
Reassigning CAIR to KG363 for survey by-pass.

Documents attached for review.
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.
Agent contacted the customer @ [redacted] @ 9:55 AM and left a voice message with all necessary information needed to return call
Customer returned call and agent informed of decision to deny any reimbursement at this time. Customer was informed that in order to reimburse for the repair he would need another invoice showing that the OEM parts have been replaced with Mopar parts prior to the invoice submitted for reimbursement. Customer was very upset and stated that he would keep name and phone number and consult his attorney.
Agent advised customer to take vehicle to a CJD dealer and have parts inspected for the N62 recall.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	N62 recall information

Briefly summarize why the customer is contacting Chrysler: Customer called in stating that he received a notice about the N62 recall.
Briefly summarize what the customer is expecting: Customer states that he spoke with the FERRARIO dealership and was advised that the parts to complete the recall will not be in for another 3 to 4 weeks. Customer is concerned that the vehicle could potentially be in an accident before the parts are in to complete the recall.
Agent advised customer that agent can contact over to the dealership to try and gather more information, however that it is stated on the notice that the dealership may have to order the part before the appointment can be scheduled. Agent advised that if customer does get in an accident in regards to the recall not being completed that it would need to be looked into at that time. Agent advised customer to continue working with dealership. Customer stated he was going to contact other dealerships in the area and then disconnected the call on the agent.

Product - Steering - Linkage - Other - Default	Customer had the steering linkage replaced in the past.
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY -	Customer seeking to have N62 recall completed.

Briefly summarize why the customer is contacting Chrysler:
Customer contacted CAC stating that he had contacted dealership 60397 regarding having the N62 recall performed. Customer stated that he had been informed that the part was not available at the time and that he would have to be put onto a waiting list. Customer stated that he is very upset about this as the issue with the recall is a serious safety issue.
Briefly summarize what the customer is expecting:
Customer is expecting information as to why this recall part is not available, and wants to have the recall completed on his vehicle.
Agent referenced AC ID 24057 and found that there was no unavailable parts status for the recall part. Agent contacted dealership 24057 and spoke with SA Brad. SA stated that the dealership currently did not have the part ordered in. SA stated that they had put the customer on the waiting list for when the part does come into the dealership. SA stated that they did not have an ETA for when the part would come in as he had just spoken with the customer this morning, and the order had not been placed yet.
Agent advised the customer to keep working with the dealership to get the part ordered in. Customer was upset as the part was not available as the interim letter had stated that the recall would be available to be completed 01/06/2013. Customer stated that he would wait to hear from the dealership, but would be contacting back if he had not heard back soon.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	LEFT OUTER TIE ROD ASSEMBLY

Customer states that she has a recall notice. Writer advised that recall is N62 left outer tie rod assembly. Writer advised that recall applies to a mopar service part that was installed on the vehicle during a prior repair. Writer advised that the recall does not pertain to the original factory installed equipment. Customer states she does not think that any repairs were completed. Writer advised that dealership will inspect the vehicle to determine if mopar parts were installed previously. Writer contacted Perkins and spoke with Jeanette S/A who will further assist customer in having recall completed.

Recall - N49: LEFT TIE ROD - Information Request	Information on ETA on recall N49

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler to document his concern with the N49 recall. Customer states that the dealership should have the part to fix the recall. Agent called dealership 44816 and spoke to SM and he stated that there is no ETA on the recall part and that he is number 20 on the waiting list. Agent advised customer what the SM stated. Customer is not happy and he thinks that the part needs to come in if not there will be a lawsuit becuase there should be a part available. Customer states that when the recall notice got mailed out they should have started making the parts for the date stated on the recall notice. Customer is very unhappy with Chrysler. Agent stated that Chrysler looks into all complaints seriously and that she will document his concern.
Briefly summarize what the customer is expecting: A part available on the recall N49.
Customer states that he has called the dlr HOBLIT CHRYSLER JEEP DODGE, INC and they informed him that 'if' they get them it will be maybe 1-2 a month and customer is number 20 on the list. Customer states the letter says could crash without warning and what if something happens and kills someone or his family. Customer feels that the 'part timeframe is unacceptable and wants something done about it. Agent did attempt to call the dlr HOBLIT CHRYSLER JEEP DODGE, INC to confirm it has been put on the list however no answer. Agent checked workbench and seen customers parts has been ordered 1/02/2013 and informed customer that once the part does arrive dlr will call the customer. Agent has no control of when the part will come in.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Seeking reimbursement

Briefly summarize why the customer is contacting Chrysler: Customer stated that they just received notification of the N49 recall repair needed on her vehicle. Customer stated that she has previously has this repair performed on the vehicle.
Briefly summarize what the customer is expecting: Customer is seeking reimbursement of the completed N49 recall repair.
Agent advised the customer of the fax number and case number for reimbursement proposes.
Advised customer to submit original repair order & proof of payment to:
Chrysler Recall Assistance Center
P. O. Box 21-8007
Auburn Hills, MI 48321-8007
Advised customer to make a copy of these documents for their records.
Asked the customer to include a brief letter of explanation & request, including their name, address, phone number, VIN, & reference number [redacted]). Advised customer the reimbursement is dependent upon verification of all documents requested.
POSTMARK DATE: 010714; DATE RECEIVED: 010714
Agent reviewed documents submitted by customer and found customer purchased parts from LITHIA CHRYSLER JEEP DODGE and had the repairs completed at an IRF. Agent found customer had recall H46 completed in 2009 and no parts were replaced at that time.
Agent called customer at [redacted] and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer unless they have documentation showing there was a previous repair completed on the steering linkage components listed in recall N62 the repair is not related to the recall and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Agent informed the customer that according to the parts receipt the customer has provided us are not the same as the parts being covered under the recall notification that the recall notification is still active on the customers VIN and the customer would need to go to the DLR to have the recall Done

Corporate - Reimbursement - Default - Default - Default	Customer seeking recall reimbursement
Corporate - CNA Change - Default - Default - Default	Updated phone number
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	

Customer seeking reimbursement for recall repair for N62 recall. Writer provided mailing address at Chrysler Recall Assistance Center
P. O. Box 21-8007
Auburn Hills, MI 48321-8007
Writer advised after your letter is reviewed, we will contact you by phone with a prompt response. Please allow 3-4 weeks for check processing. Customer appreciative of information and assistance.
POSTMARK DATE: 010714; DATE RECEIVED: 011414
Confirm name and address matches COIN & HPIMS: Yes
Any open recalls: Yes, N62
Name of person writing in: [redacted]
Does customer have an e-mail address: No
Concern: Customer is looking to be reimbursed for recall related repairs.
Reviewed previous files: Yes, no concern
Invoice Total(s): Invoice# 4622 = $1024.67
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and had the H46 recall completed in 2009 and no parts were replaced at that time.
Agent was able to locate phone number [redacted] written on the documentation.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Customer contacted Chrysler because he had received a message as per lines 2-22. Agent advised customer of the information as per lines 24-29.
Agent advised the customer that although he did have a similar repair done the parts that were replaced did not qualify for the N62 recall.
Agent advised customer to take their vehicle into a DODGE DLR to have the

inspection done.
Briefly summarize why the customer is contacting Chrysler: Customer upset that reimbursement was denied. Customer states that the repairs were made at an IRF. Writer advised customer that since the repairs were completed with non-mopar parts was the reason for the reimbursement being denied. Customer states that that the customer was unaware that Mapor parts need to used for repair. Writer advised customer as per Answer ID 24057. Customer unhappy with decision.
Briefly summarize what the customer is expecting: Customer seeking information
Customer has requested Supervisor callback
Preferred daytime number: [redacted]
Preferred evening number:
Reason for request: Customer upset that the reimbursment was not issued for the repairs completed on the vehicle.
CAIR assigned to: (Supervisor NIC)

Corporate - Reimbursement - Default - Default - Default	Reimbursement request.
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Reimbursement request.
Corporate - Survey By-Pass - No Documentation - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer is calling to state that they have received a recall notification letter.
Customer is calling to state that they had their left outer tie-rod assembly replaced two years previous. Customer states they would like to know if they would be able to file for reimbursement.
Briefly summarize what the customer is expecting: Customer is seeking reimbursement for a repair done two years previous. Agent advised the customer of the mailing process for a reimbursement request. Customer stated that they might not be able to get the original receipt. Agent advised the customer that without the proper documentation they would not be able to file for reimbursement. Customer understood.
Documents have not been mailed yet.
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.
Agent called customer at [redacted] and left voicemail advising the case will be closed in 2 days if documents not received.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY -	Customer seeking to have recall completed

Briefly summarize why the customer is contacting Chrysler: Customer called because he was told by his dealership that he needs to come in for an inspection for the N62 recall and then the dealership will order the parts and then have him come in and complete the recall. Customer stated that he would like to make only one trip to the dealership.
Briefly summarize what the customer is expecting: Agent called dealer 68898 and spoke to SA Kasey. SA Kasey stated that the inspection has to be two parts because the first part is the inspection and if the tie rods need to be replaced then the second appointment is made. Agent relayed information to the customer. Customer stated that he is leaving on Feb. 1 2014 and the dealership will not have the part by then. Customer asked if there was any other dealerships in his area. Agent provided Elk River Chrysler 763-441-2300 and Wilcox Chrysler 651-236-6377. Agent advised customer that he can also go to www.ramtrucks.com to find a dealer.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Recall N62 with no parts available
Corporate - CNA Change - Default - Default - Default	Updated COIN

Briefly summarize why the customer is contacting Chrysler: Customer called about recall N62 and is upset that parts are not available.
Briefly summarize what the customer is expecting: Customer advised that he has been in for the inspection and he has two vehicles that need the recall done. Customer has been advised by the Dealership that he goes to that the parts are not available. Agent called over to Battison Motors and spoke with the Service Advisor who said that they do not have a list going for this and that that they have no idea when the parts will be available. Agent then called to the next closest Dealership Lawton Chrysler 215 SE Interstate Dr Lawton, OK 73501(580) 357-2277 and they also advised they don t know when parts will be available and there is no list. Agents advised Customer that the Service Advisor suggested that the Customer call the Parts every week and check and see what the status is on the parts and build a relationship with them. Customer was not pleases as this is costing him money everyday the vehicle is off the road and he doesn t feel safe with the vehicles being on the road.
Customer also wanted the Agent to document that he does feel that Battison Motors is a very good Dealership and they show no loyalty to him and they are very unprofessional. Customer has been there for a lot of maintenance, warranty and still doesn t feel they care about his needs. Customer is very hesitant to go back there and is looking for another dealership. Customer wanted me to document this in the file.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	LEFT OUTER TIE ROD ASSEMBLY
Corporate - Survey By-Pass - No Repair - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called regarding the N62 recall. Customer states that the recall letter said to make sure the dealer has the parts prior to the inspection and that the inspection would take a half an hour.
Customer states that he called the dealership and they said the inspection would take 2 and a half hours and would not order the part until the inspection is completed.
Customer feels this is horrible customer service.
DEALER CONTACT: CRYSTAL CHRYSLER, JEEP, DODGE 760-324-4557
Agent spoke with SA Pat. Pat said that the parts are replaced no matter what and that the inspection can be completed at the time of the appointment.
Pat said that there are no parts in the pipeline as of Friday so they are unable to schedule any appointments at this time.
Pat said that the whole appointment should take 2.5 hours approximately.
Agent informed customer of what the dealership said.
Briefly summarize what the customer is expecting: Customer is expecting recall procedure clarification.
Reassigning CAIR to KG363 for survey by-pass.

***** Customer Document Received *****
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.
****
Agent called customer at [redacted] left voicemail for customer to contact us at 800-853-1403.
*****
*****Next Agent*******
If customer calls, (agent does not have voicemail) please advise of lines 15-21 above.
Customer called back in to return a call from DA706. Writer advised customer of lines 15 21 above. Customer states that he does not have any other form of documentation and would like further explanation as to why he would not receive reimbursement if he could not provide further documentation. Writer advised customer that the recall he has submitted

for reimbursement, N62, is related to a previous recall that was on the vehicle in 2009, H46. Writer advised customer that according to our records when the vehicle was brought in for the H46 recall it was only inspected and did not have those components replaced, and therefore still had the original factory parts on them. Writer advised customer that because when recall H46 was completed and the parts were not replaced at that time, recall N62 would not apply to his vehicle due to the fact that it still had the original factory parts on it, until recently when he had those components replaced as per the documentation that he sent in. Customer was dissatisfied with this response, and is requesting that DA706 contact him back to further discuss the matter and send him a letter stating it is denied. Writer made no promises or guarantees but said it would be documented for DA706.
Agent called customer at [redacted] and customer disconnected the call.
Customer requested denial in writing.

EFFORT , PA-[redacted]
Reference [redacted]
Dear Mr [redacted]
Thank you for your recent letter regarding a recall on your 2008 DODGE RAM 3500 LARAMIE QUAD CAB 4X4.
We regret you experienced a problem with your vehicle. Unfortunately, the repair order which you submitted to our office does not show replacement of parts or services involved in a recall on this particular vehicle.
Therefore, we are unable to accommodate your request for reimbursement.
As discussed earlier,and as per recall letter to you: Chrysler has decided that a defect, which relates to motor vehicle safety, exists in some 2003 through 2008 model year Dodge RAM 1500/2500/3500 series Trucks that had the steering linkage replaced with MOPAR service parts. Unless you can send in documents that support the steering linkage was replaced prior to this repair, we are unable to reimburse. The recall is still open on your vehicle and we recommend to take to a Ram dealer to have inspected.
Thank you for writing and giving us the opportunity to review this matter with you.
Sincerely,
Debbie
Customer Assistance Representative

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	LEFT OUTER TIE ROD ASSEMBLY

Briefly summarize why the customer is contacting Chrysler: Customer called because he is trying to get the recall #N62 done but the dealerships are saying it could be awhile before the parts are available. Customer stated that he will be leaving town for a month and wanted to have this recall done before he left town.
Briefly summarize what the customer is expecting: Recall #N62 information. Agent called a dealership in the area that the customer will be in. Agent spoke with dealership 45319 SA-Mike who stated that they are not making appointments for another week to do the inspections and there is no list that the customer can be added to. Mike suggested that the customer call them next week when he is in their area and they will set up an appointment and then they can order the parts.

Recall - N49: LEFT TIE ROD - Information Request	customer seeking parts information
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called stating he spoke with the dealership about open recall N49 and they advised him it would be 17 weeks before the parts are in. Agent advised customer that the dealership would be contacted to obtain more information. Customer understood and stated someone in the service department advised him approximately 15 minutes ago that they could only order one per week and he is number 17.
Called dealership at 1:22 (209-526-3300) spoke to Jason (parts advisor) who stated the parts are restricted to one per week. Jason stated they just started to be able to order parts today. Jason confirmed that customer is number 17 on their list.
Agent advised customer that the dealership was spoken to and they provided the same information. Agent offered to call another dealership to see if they have any parts available or to see if there waiting list was shorter. Customer declined. Customer was frustrated with Chrysler because they can t get parts. Customer asked what he is suppose to do if something happens to his truck before the seventeen weeks. Agent advised customer to call Chrysler so we can look in to this issue. Customer understood but stated he would be filing a complaint with the NHTSA.
Briefly summarize what the customer is expecting: Customer seeking recall information

Recall - N49: LEFT TIE ROD -	Part for the recall completion.
Corporate - Survey By-Pass - No Repair - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called for recall information. Customer stated he received the recall notice for the N49 LEFT TIE ROD recall. Customer stated he called his local Chrysler dealer (COLORADO SPRINGS DODGE 45349) to setup an appointment. Customer stated he was advised they are not able to order the parts and he should call back in a week. Customer stated he and his family is due to leave Jan 28, 2014 and would like to have the recall completed. Customer stated he was advised to call Chrysler for expediting to have the part sent sooner.
Agent called the dealer and spoke with Greg who advised the part is restricted and is only able to order 1 a week. PA stated they would check and see where the customer is on the list and would make sure they have a part for him by the 28th when ready to leave.
Agent advised the customer to work with the dealer to expedite the part for the recall.
Briefly summarize what the customer is expecting: Customer seeking recall information.
Reassigned to jr1305 for survey by-pass - recall no parts

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	customer calling regarding recall on VIN
Corporate - Reimbursement - Default - Default - Default	customer seeking reimbursement on recall done
Corporate - Survey By-Pass - No Documentation - Default - Default	

Briefly summarize why the customer is contacting Chrysler: customer called stating that he got his ball joints replaced a while back and has now gotten this recall letter and wants to know what he can submit for reimbursement. Customer states that he did have it done at an IRF and it was about 1300$ worth of work and he did have brakes and stuff done so not all of it was tie rods
Briefly summarize what the customer is expecting: customer seeking reimbursement
Agent advised: Agent informed customer that he can submit for reimbursement however may just be parts but customer would like at least 50/50 deal. Agent informed to submit the proper documentation in to the address on the letter and customer will be contacted once it has been received. Customer is not happy with this truck at all and feels that if RAM wants to keep him as a customer to be fair in this decision. Agent informed customer have no say on what he gets back or not it does go to another department and then it is reviewed. Customer states that every time he went to the dlr he felt they were making him spend more and more money that s why he started going somewhere else because it was costing to much. Agent apologized and informed customer to submit the work in and see what can be done.
Status update provided via email to the following email address:

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Recall N62 information

Briefly summarize why the customer is contacting Chrysler:N62 recall information
Briefly summarize what the customer is expecting:Customer called and said he received the N62 recall notice and he had these parts replaced last year and wanted to know if he could be reimbursed for his cost. Writer advised customer that this recall is on the MOPAR replacement parts not the factory parts. Customer said this was the first repair so he said he would not qualify for reimbursement. Writer advised customer he should take his vehicle to his dealership to have them inspect the parts he had put on his vehicle last year to see if they needed to be replaced.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	customer seeking recall information

Briefly summarize why the customer is contacting Chrysler:Customer called seeking information about recall N62. Customer stated he spoke to the dealership and they stated the parts may not be available for a month so they didn t want to do the inspection. Agent advised customer that the recalled parts are not the factory parts but they are mopar replacement parts. Agent advised customer that it is possible that the recalled parts are not on his vehicle and this would be determined through an inspection that Chrysler dealerships must completed. Customer understood. Agent advised customer the only way the recalled parts would be on the vehicle is if he had a prior steering linkage repair. Customer understood. Agent offered to place customer in contact with a dealership but customer declined.
Briefly summarize what the customer is expecting: Customer seeking recall information.

Documents attached for review
CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED
Survey By Pass - No Documentation
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and submitted documentation showing only 1 repair and the N62 recall being completed at the dealer.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.

****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Customer called in to get an update on case. Agent advised of lines 37-42. Customer then got upset and demanded Chrysler reimbursed them. Agent advised we are not declining them just asking for more paperwork to further look into their request. Customer states they will send in that paperwork they are requesting however they would like GG467 to call them back directly as they would like to speak with the agent who is working on the case. Customer states they want a call back at 9 AM tomorrow morning. Agent advised they can not guarantee they will get a call back at that time however will put their request on file. Agent provided customer with our fax number to send in the rest of the paperwork. Customer thanked the agent and disconnected the call.
POSTMARK DATE: 012914; DATE RECEIVED: 012914
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and the N62 recall is for Mopar service parts and not factory parts, unless the customer has documentation showing there were Mopar parts put onto his vehicle during a service appointment at a Chrysler dealer or an IRF and those parts were also replaced then Chrysler is not willing to reimburse the customer for the repairs because the recall is only for Mopar service parts.
Briefly summarize why the customer is contacting Chrysler: Customer was seeking further information regarding reimbursement for recall N62.
Briefly summarize what the customer is expecting: Agent advised customer of lines 58-64.

Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer concerned with failure of right side tie rod.
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeks why repairs were not conducted.

Briefly summarize why the customer is contacting Chrysler:
Customer s Father contacting offices upset their Son brought vehicle to Dealer today for recall N62 and it was not performed. Further states in September 2013 Son was driving over a railroad track and right side tie rod failed. Son bought replacement part and installed himself. Father is upset that this was not recalled and that nobody appeared concerned that a tie rod broke on the vehicle.
Briefly summarize what the customer is expecting:
Agent contacted Dealer 45020 and spoke with Brent-SA. SA outlines the vehicle was inspected as per the recall guidelines, repairs were not necessary as the steering dampener was equipped with a single bolt going through tierod end thereby negating any repairs required. Condition met specification.
Agent advised Customer of this information. Customer was advised the concerns raised regarding the failure of the right side tie rod end would additionally be documented. Customer was advised to recontact offices going forward should any concerns arise with this or any other condition of vehicle.

****End structured narrative T2 - Beginning Narrative
Briefly summarize why the customer is contacting Chrysler: Customer called in stating that he is seeking information about recall N62. Customer states that he wants to know what this pertains to. Agent advised customer that this was in regards to a recall on the Mopar replacement part. Agent advised customer that it is an inspection to see if any repairs are needed. Customer states that he does not remember having this part replaced, but he will bring the vehicle in to be inspected to make sure everything is fine. Customer then stated that he is having problems with the vehicle slipping out of park. Customer states that his vehicle came equipped with the OUT-OF-PARK ALARM SYSTEM from the factory. Customer states that at times, the horn goes off because the gear is slipping. Customer states that this is very annoying. Customer states that he read that in order to repair this, the module would need to be replaced, customer wants to know if this is correct. Agent advised customer that the vehicle would need to be diagnosed by their local dealership to determine the cause of the problem. Agent offered to have the customer transferred over to make a Service Appointment, but the customer declined.

Please see Answer ID 24057
Recall applies to Mopar Steering Linkage Upgrade Parts Failure not

Factory Parts Failure.
Please advise that the Recall applies to vehicles that have had a Mopar Upgrade Steering Linkage installed on a Previous Service Appointment and then needed to have the Tie Rod Ends Repaired. Please advise that if the Steering Linkage was OEM (Factory Installed/Stock/OEM) at the time of the repair then the recall would not apply.
*****
If the Customer states that they had a Mopar Steering Linkage installed in the vehicle Before the Repair Please advise that the Customer needs to send in that Documentation as well.
*****
If the Customer is unsure or does not have the Documentation then advise the Customer that we will not be able to reimburse for the repair at this time.
Please Document Customer s Response to the Recall issue below.
CUSTOMER CONTACT: [redacted]. Spoke with Customer.
Agent asked if the vehicle had a Mopar Steering Upgrade - Customer states that after he spoke with the DLR that he was advised that the Parts were not available for the recall and that he had the parts replaced with Moog Parts at the IRF.
Agent recommended that the Customer have the vehicle inspected by a DLR to see if the vehicle has the recall parts on the vehicle now.
Chrysler will not be able to reimburse without Documentation showing that the Mopar Steering Linkage Kit was installed.
Closed CAIR.
Customer s wife called because she stated that they had not heard from the CM. Agent advised customer that her husband was contacted on Feb. 3 2014 and was advised that Chrysler would not be reimbursing for the repair. Agent advised customer that because the original parts were replaced rather then the replacement parts that is why the reimbursement does not apply. Customer stated that she is going to contact legal council.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer seeking reimbursement.

Briefly summarize why the customer is contacting Chrysler: Customer is calling because he replaced the steering linkage himself and wants to be reimbursed.
Briefly summarize what the customer is expecting: reimbursement.
Writer provided the customer:
Chrysler Recall Assistance Center
P. O. Box 21-8007
Auburn Hills, MI 48321-8007
Reassigning to 86y
Customer states that he had the inspection done on his vehicle at the DRL and they advised that if his steering linkage does not have the bolt that goes through a bar then it needs to be replace. Customer states that his part was a clamp on and not the part the one with the bolt. Customer wanted to know if he can get a reimbursement as the parts he replaced was with a Mopar.
Agent advised that he can submit the information now and our recall reimbursement department will review the information and be in contact him with him.
Waiting for Documentation.
Waiting for Documentation.
Customer Contact: [redacted]. Left Message.
Advised that the Documentation has not been received and the File will close in 2 days if the Documents have not been received but will re-open when the Documents have been received.
Briefly summarize why the customer is contacting Chrysler:customer states he is returning a call from Bill who called him earlier. Customer states he mailed in the papers for reimbursement on 01/06/2014, VIA USPS and according to his tracking it was received by us on 01/17/2014. Customer requested a FAX number to send in the papers once again since first set he sent have not been received yet.
Briefly summarize what the customer is expecting:Customer returning call;l from Bill regarding reimbursement.
Agent advised customer the agent had contacted him to inquire if he sent in his papers for reimbursement yet.
Agent advised customer papers were not received and supplied customer with the fax # 877-768-5076 .

Waiting for Documentation.
Closed CAIR. Documents not received.
Reassigned to JK671 By-pass.
POSTMARK DATE: 011514; DATE RECEIVED: 012314
Customer seeking reimbursement for N62 recall.
Documents received and attached.
Case reassigned to 86Y.
CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED
Survey By Pass - No Documentation
Customer Contact: [redacted] Left message.
Next Agent - Please advise that the recall does not apply to the Factory Parts that were removed and that the Customer had Upgraded.
Chrysler will not be able to Provide a Reimbursement because the Upgrade Parts May be involved in a Recall but will replace the Parts that are affected by the recall at no cost - if required.
Please advise the Customer to have the vehicle inspected by the DLR to see if the Parts that are in the vehicle are part of the recall.
Customer called because a message was left for him. Agent advised customer of lines 47-53. Customer stated that there is conflicting information and when the recall is preformed he will be requesting to have the parts he had purchased returned to him.
Customer has been informed of the information.
Closed CAIR.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking recall: N62 repair information

---
Briefly summarize why the customer is contacting Chrysler: seeking recall information
Briefly summarize what the customer is expecting: seeking recall information
The customer, [redacted] provided writer with his VIN and stated that he received a recall notice in the mail and already performed some steering component repairs and wanted to know if he could be reimbursed for the completed repairs.
Writer confirmed that he does have the N62 recall on the vehicle and explained the recall parameters to him.
Writer consulted with ACDoc#24057 and advised the customer of the recall parameters and the fact that the recall covers Mopar replacement parts and not the factory/manufactured parts. Writer further advised him that ultimately, he would have had two repairs completed to the steering & tie-rod components and the second repair would fall under the recall parameters.
He understood and thanked writer for the recall information. Writer also advised him to visit any dealership at his convenience to have the components inspected to ensure that they are operating as designed and he again thanked writer for the added information and the assistance today.
---

Recall - N49: LEFT TIE ROD - Information Request

Briefly summarize why the customer is contacting Chrysler: Customer called because the recall letter he received for the N49 recall told him to call on or after 01/06/2014 to schedule an appointment. Agent confirmed customer has this recall and advised he would need to speak to the service department of a local dealer about bringing the vehicle in. Agent advised they would likely need to order the parts first before bringing the vehicle in for service. Customer stated the closest dealer Burns Motors is not one he is willing to go to anymore. Agent advised of the next closest dealer Payne Rio Chrysler, Dodge, Jeep, Ram in Rio Grande City, TX. Agent got customer in touch with their service department to schedule the appointment to have the recall completed or parts ordered to have the recall completed.

---
Briefly summarize why the customer is contacting Chrysler: seeking recall information
Briefly summarize what the customer is expecting: seeking recall information
The customer, Mr. [redacted] provided writer with his VIN and stated that he was inquiring about the N62 recall and if he can submit the previous repairs for reimbursement consideration.
Writer consulted with ACDoc#24057 and advised him of the fact that the recall entails the Mopar replacement parts and not the factory/manufactured parts which he understood, and stated that he did have two repairs completed.
Writer advised him to mail in both repair invoices and proof of payment and we will review them to determine if reimbursement can be granted to him.
He thanked writer for the added information and the assistance today.

Reassigning to 86Y for further review.

Dear Mr [redacted]
Thank you for your recent contact regarding reimbursement consideration for repairs made on your 2004 DODGE RAM 3500 QUAD CAB PICKUP.
As the previous agent advised you, a Mopar service parts steering linkage may have been installed during a PRIOR SERVICE appointment.
If you have had a repair prior to this repair, you must provide documentation for both repairs.
Please forward your original repair orders and proof of payment receipts to the address below:
Chrysler Group LLC
Customer Assistance Center
P. O. Box 21-8004
Auburn Hills, MI 48321-8004
Proof of payment consists of credit card receipt, front and back of the cancelled check, or
cash register receipt if cash was paid.
Any further questions please contact us at 1-800-853-1403.
Sincerely,
Kelly
Customer Assistance Representative

Corporate - Survey By-Pass - No Repair - Default - Default	N62
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Tie rod broke, told it was not caused by recall.

Briefly summarize why the customer is contacting Chrysler. 2008 Ram 3500 calling about the N62 recall. In the process of going to the dealership for oil change a week ago. They told him then the parts are not available. 3 days ago he was going down the highway and there was a loud noise, there was a lot of traffic and he couldn t get over to right away. He pulled over and the tie rod was dangling. He got the vehicle to the dealership on Saturday, they told him this was not a recall item that broke. They told it were the tie rod connects to the steering box that caused the failure not the recall.
Briefly summarize what the customer is expecting. Calling to see why his tie rod issue was not covered under the recall. Advised I would contact the dealership for further information regarding which repairs were completed. Customer said he worked with Dave Bakker and Scott Mahan. Calling dealership and both customer and dealership call were dropped. Calling dealership back for further information and will call customer.
Dealer Name: CHRYSLER ON NICHOLASVILLE Dealer Phone: 859-885-3367: Called dealership back to speak with Scott, they said the phones have been cutting out a lot in their area.
The steering assembly connected to the pitman arm, it was not the tie rod. He was going to get the N62, the technician diagnosed the repairs are not needed, vehicle still had original steering assembly installed. The installed original steering linkage is not compatible with the replacement pitman arm. He had an appt to repair a pinion seal; they gave him assistance with the leak as the customer was going to get the steering linkage repaired and not the pinion seal.
Steering repairs cost: $898.30
Customer Phone: [redacted]: Called customer and explained the information from Scott Mahan at the dealership. Customer understood and since it is not part of the recall he is going to contact his IRF that specializes in heavy duty vehicles, he would like to know more on why this happened.
Reassigned to KG363 for survey bypass, N62 recall.

Recall - N49: LEFT TIE ROD - Information Request	Open recall.

Briefly summarize why the customer is contacting Chrysler:The customer said he had the tie rod end replaced once in 2012 and it broke again. He says his vehicle is now at the Chrysler dealership getting repaired
Briefly summarize what the customer is expecting:He wants some sort of assurance that this tie rod end will not break again. Agent advised the only assurance we can give him is the fact that we were not aware that the parts were bad when we did the initial recall now that we know that we issued another recall so that we can install non defective parts..

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY -	Customer states they have an open recall.

Briefly summarize why the customer is contacting Chrysler: Customer states that they have received a letter pertaining to the N62 recall. Customer states that he took his vehicle to All American dealership to get the recall fulfilled, however in their system it stated that the recall had been completed on 12/20/2013. Customer states that he had not even heard of the recall at this time. Customer states that the dealership told them that the recall had been completed at Gray DLR (09825). The customer states that they have never heard of this dealership.
Briefly summarize what the customer is expecting: Customer is expecting answers as to why the recall is showing up completed on the system. Agent called over to All American DLR who verified that the VIN was correct, and that it belonged to said customer. All American DLR said that without the recall uplifted, they would not be able to perform the recall. Agent called over to Gray DLR, who verified the VIN but in a different customer s name. The DLR had a different customer s vehicle on the VIN. VIP showed that John Jennings is the original owner. Gray DLR stated that they would have to bring the customer in that they placed the recall completed on to verify their registration and ownership. Then if it proves to be false, the recall completion date would have to be uplifted through a different department. The Gray DLR could not provide an ETA. Agent advised the customer of this information. Customer stated that this wasn t right. Customer stated that if something happens to their family they will blame Chrysler. Customer requested the DLR s contact information. Agent provided the customer with the information they requested. Agent is waiting to hear a callback from the Gray DLR to update the agent on the situation and what is going to happen. Customer stated they would call Gray DLR themselves to asses what is going on and what they are going to do to fix it.
Customer called in about the reversal. Customer states DLR code 23234 had to cancel his appointment for this inspection until the system gets updated. Customer states the DLR 23234 told him the parts are unavailable to order until April.
Agent contacted Gray DLR and spoke to Brenda. Brenda states it will take one to two business for the system to be updated.
Agent advised customer of this. Customer is upset about the part being unavailable. Agent advised customer that it is undetermined whether the part needs to be replaced on his vehicle. Agent advised customer that his vehicle very well may be in the clear as it is a certain part number and angle of the part. Customer requests to be called when the reversal is done in the system.

Agent tried to call DLR code 23234 but the line was busy. Agent was calling to confirm the part unavailability.
Customer called regarding the status of the recall update. Agent advised on our end it shows as an open recall on his VIN and on 01/06/2013 Brenda from the DLR advised it would take 2 business days to update in their system. Agent advised customer that the recall involves inspection and possibly replacement. Agent advised the recall is in relation to the previous recall on his VIN and that too was an inspection and possibly replacement. Agent advised customer the DLR can inspect the vehicle and at that time verify if replacement is necessary. Customer s focus was safety, and what if . Agent advised customer that if it was that much of a concern the vehicle would be VOR, agent advised we understand the concern but the liability involved is far greater. Customer repeatedly asked what if the tie-rod snaps and I crash my truck agent advised if worst case scenario that does happen his file would be escalated and another department would be addressing his concerns at that point. Customer was not impressed and states so much for all American vehicles then disconnected the call

Recall - N49: LEFT TIE ROD -	customer seeking to complete recall N49
Corporate - CNA Change - Default - Default - Default	updated customer's phone number

Briefly summarize why the customer is contacting Chrysler: Customer seeking to have recall N49 completed. Agent advised parts are currently on restriction for dealers. Agent called dealership, Spartanburg Chrysler (44264) and spoke with Roger (ext 5). Agent provided Roger with customer s name, phone number and VIN. Roger has one ordered today and will order customer s part next. Roger will call customer when part is available. Customer had vehicle into service and spoke with Andy. Vehicle was inspected and needs recall completed. Customer states front end is popping.
Briefly summarize what the customer is expecting: Customer looking to complete recall N49.
Customer is calling back very upset saying dealership gave his part away to another customer. There is no one named Roger that works there. Parts Parrish transferred agent over to service.
As above on lines 4-7 no part ordered for this customer according to the dealership today.
Parts Ronnie states 14 are on order right now (getting 3 a week).
SM Robert was not there and agent left message for SM Robert asking that he return the phone call regarding customers repair order and part ordered.
Agent called dealership back and asked to speak to SM Robert again.
SM Robert stated that customer as of yesterday was put on the waiting list.

Letter sent 2/3/14.
Customer called back in inquiring how to go about submitting for
reimbursement if the company mechanic completed the repair and there is
no invoice for labor. Agent advised the customer that we would only
reimburse for the parts that were used not the labor cost. Agent advised
the customer to submit his information into us for the parts that were
used and we will look into reimbursement for the parts. Customer
understood and will submit his invoice for the parts.

Corporate - Recall - Default - Default - Default	information for the N62
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Writer verified the customer s information to be correct.
******
Briefly summarize why the customer is contacting Chrysler: Customer is calling in reference to the N62 recall for the 2006 Ram. Customer stated the left inner tie rod had broken before and he purchased the parts from the dealership to repair the vehicle. Customer stated he order the entire replacement kit at the time and the entire steering linkage had been replaced. Customer stated he told the dealership he had completed that and it was suggested the problem had been taken care of then. Customer stated he did not order an after market part and the recall notice does say it is for a replacement part.
Briefly summarize what the customer is expecting: Customer seeking information.
Writer advised the customer the recall is for a replacement part not the original equipment. Customer stated he did the repair himself. Customer stated today the SM said he has to look to see if the original equipment is still on the vehicle as the recall is for original equipment.
Customer has an appointment tomorrow morning to bring the vehicle in and would like to have this straightened out. Customer stated he purchased the replacement part a year ago.
******
Writer will call WALLY ARMOUR CHRY-DODGE-JEEP INC @ 330-823-3556.
Writer spoke with SA Brent who stated the N62 recall is for an inspection for the left outer tie rod assembly, there are two different tie rod assemblies and if it is one particular style that is to be replaced it will be completed under the recall. Writer advised the customer had purchased the parts at this dealership a year ago would these parts be the replacement part under recall. Brent stated they have to inspect it to see if the parts he purchased are the replacement parts or not.
Writer thanked Brent for his time.
******
Writer advised the customer the vehicle has to be inspected to see if the parts he had purchased are the replacement parts. Writer supplied the customer with the cair number advising a call back should further assistance be required.
******
Writer will reassign to the TL for the addition of a survey by pass as the vehicle has not been diagnosed at this time.
Customer contacting Chrysler because they received a recall notice in the mail. Customer states they took the vehicle to the dealership and took it

in on the 6th or 7th. They told the customer it needed to be replaced but the part is on back order. Customer states they have been working with the SM but they are worried about driving. Customer states it still has not been fixed. Agent contacted dealer and was told by SA that customer was about number 7 on the waiting list. Agent apologized to customer but they would have to continue working with the dealer to obtain the part. Agent advised once an order has been placed specifically for them the part could be expedited.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Recall part inquiry
Corporate - Survey By-Pass - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer is calling to find out when the N62 recall part would be available.
Briefly summarize what the customer is expecting: Customer states the dealership told him the part will not be available until Febuary. Agent advised customer that when the part is made available the dealership will contact him. Agent advised customer that it may be mid February. Customer understood.
The part required to provide a permanent remedy for recall ###Ù is currently not available.
Advised customer that their case will be assigned for special tracking until the part becomes available.
Advised customer that an email will be sent every 30 days, until second letter detailing part availability is sent to customer.
Preferred Morning/Midday call back number is [redacted]
Preferred Afternoon/Evening call back number is [redacted]
Customer email address for case updates: Did not provide one
Reassigned to 961
reassigned CAIR to 96L to follow up on the N62 recall with customer, refer to dealer for recall completion and close out CAIR.
CUSTOMER UPDATE: Agent called the customer to advised him of the mistake that the Parts are available but with this recall They need to just do an inspection first to see if parts are even needed to be replaced. Customer understood and requested and to call the dealership to confirm this. Agent stated she would.
42468 COWBOY DODGE INC CHEYENNE 307-634-5887: Agent called the dealership and spoke to Richard who transferred to Darwin SM- Agent asked why they are not inspecting the vehicles when a large portion of these vehicles only need an inspection. SM stated he doesn t want to open that can of worms and then have the customer get upset stating that they aren t driving the vehicle until the parts are available. SM wanted agent to call the customer back and make sure that he completely understands that if by chance that his vehicle needs the parts that he will need to wait.. Agent stated that its been like this on other recalls but will let him know.

CUSTOMER CONTACT: Agent called the customer back and left message stating that she wants to make him aware that the dealership is willing to do an inspection as long as he is aware that if it does need parts that they are on restriction and make take some time to come in and he will need to drive his own vehicle until then.

Recall - N49: LEFT TIE ROD - Information Request	Inquiry

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler looking for more information on her Recall N49. Customer states she called the DLR to inquire about her recall notice and was told that she could bring it in for an inspection but it doesn t quite mean that they will replace the tie rod, but only if they are deemed to be defective. Agent advised customer to trust in the DLR and they would do a thorough check of her vehicle and if the tie rods need to be replaced then they will of course do that, but if they are not defective they would not be replacing them. Customer asked if she has lifetime warranty on her vehicle and wanted the tie rods replaced if she was able to do so. Agent responded with yes. Customer also asked why her husband s vehicle was not included in the recall. Agent stated that NHTSA sends out all of the Recall notices on the vehicles that they feel to be affected by the certain product. Agent double checked on customer s husband s VIN and confirmed that his vehicle was not a part of the recall. Agent offered to get over to a DLR to make an appointment to complete the recall. Customer states she will do it on her own time.
Briefly summarize what the customer is expecting: Customer is expecting information about recalls and warranties.

Thank you for your recent letter regarding your 2006 DODGE RAM 1500 SLT MEGA CAB 4X4.
I have attempted to contact you by phone but have been unable to do so. Please contact me at
1-855-675-9291, extension 4718272, to discuss your letter. Please refer to the reference number
above or have your Vehicle Identification Number (VIN) available when you call.

Sincerely,
Gerry
Customer Service Representative
Letter sent 1/29/14.
Customer called to say that he did not have the required paper work to submit for reimbursement consideration. Agent reviewed the N62 recall parameters with the customer and customer will take his vehicle to the CJD dealer for inspection of the H46 and N62 recall. Agent advised that no reimbursement was available at this time since customer did not have any Mopar service parts replaced

Recall - N49: LEFT TIE ROD - Information Request	LEFT TIE ROD
Corporate - CNA Change - Default - Default - Default	added phone number

Briefly summarize why the customer is contacting Chrysler:
Customer called for some information about the N49 for the left tie rod, agent referred to AC doc #24054. Customer just called AutoNation CJD and the parts are not yet available yet, customer wanted to get an oil change and the recall performed all at the same time. Customer stated the suspension, is fine on the vehicle. Agent contacted the parts department at AutoNation CJD and there are 18 on order, Billy PA stated that there is a restriction on the part (1 per week can be ordered). Agent advised to keep working with the dealership and apologized for his inconvenience.
Briefly summarize what the customer is expecting:
Recall information for the left tie rod.

Customer history -
Three (3) vehicles - 2-new & 1-used
NO SC
Tech Connect - Recall N62 only listed
CONTACT UPDATE - 1st Contact attempt, phone number dialed [redacted]
CM left message for customer to provide instructions that the vehicle needs to be taken into the dealer for further evaluation on the recall that needs to be completed and provided callback number, case number, extension 66093 with another call will be placed on Wednesday Jan. 8th, 2014.
2nd attempt made to contact customer. [redacted]
CM spoke with customer to discuss what is going on with vehicle. Customer alleges that she would like the local Chevy dealer to complete recall on the vehicle since in the past power steering repair was completed when vehicle was still under warranty. CM advised that closest dealer is in Anchorage, AK and the vehicle should be taken to them since the recall would require inspection first before any parts are replaced so call was placed to dealer 64793 to check on having non- Chrysler complete recall N62.
CM called dealer 64793 and spoke with WA Debbie to confirm if recall can be completed at Chevy dealer in Wasilla, AK. WA stated they have worked with them before as sublet work but would recommend if the vehicle is driveable to bring into the dealership.
Customer alleges that her expectations are to make sure the recall is completed and paperwork has been submitted so CM advised another call will be placed on Friday Jan. 10th 2014.
3rd call was made to contact [redacted]

CM left message for customer to confirm if inspection per recall N62 has been completed and provided callback number, case number, extension 66093 with another review to be done on Monday Jan. 13th 2014 and if no information is available, the case will be closed until completion information can be submitted.
4th call was made to contact customer.[redacted]
CM left message for customer to verify when vehicle will be taken for diagnosis on the N62 recall. CM also advised that the case will be noted, closed today and provided instructions once the diagnosis has been completed if any other assistance is needed to contact CAC back at 1-800-763-8422 with case number at extension 66093.
CM received call from customer to confirm what is going on with the vehicle. Customer alleges that dealer 64793 have been very helpful and explained to look for straight bolt or clamp so her husband looked and it seems to be fine so they will not be having it done until they are in Anchorage, AK in the future. CM advised that recall will indicate incomplete until the dealer has cleared it from inspecting the vehicle but instructed customer to contact CAC back if they need any further assistance.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Reimbursement for recall repair
Corporate - CNA Change - Default - Default - Default	coin update
Recall - H46: STEERING LINKAGE - Information Request	seeking recall information
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	seeking recall information

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler seeking recall information on their vehicle. Customer stated that N62 recall had been repaired on their vehicle and were seeking reimbursement. Agent provided the information. Agent offered to call a dealership in regards to recall H46 but customer stated that she would call when she talked with her husband.
Briefly summarize what the customer is expecting: to get her recalls repaired
POSTMARK DATE: 010714; DATE RECEIVED: 011414
Confirm name and address matches COIN & HPIMS:Yes
Any open recalls: H46 N62
Name of person writing in:[redacted]
Does customer have an e-mail address:Yes [redacted]
Concern:Customer wrote in seeking reimbursement for a repair completed under the N62 recall for $1149.46
Reviewed previous files:Yes, No concerns
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and only submitted documentation showing 1 repair.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Customer returning call. Agent advised customer of lines 23-28 to customer. Customer states she was not aware there was going to be a recall or she would ve had the repairs done at a Chrysler dealership with Mopar parts. Customer states she only had the tie rod replaced. Customer is expecting to have the response e-mailed to her and further explained as she does not understand why she is not being reimbursed. Customer provided her e-mai[redacted]
Status update provided via email to the following email address:
[redacted]

My name is Greg and I am contacting you from the Chrysler Reimbursement Team. I have reviewed your request for reimbursement. Please contact us at 1-800-853-1403 and refer to the case number [redacted] so that we can discuss your request with you, thank you.
End of Status Update
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Agent called customer and advised that the repairs don t qualify for reimbursement and that the parts installed on the vehicle may need to be replaced due to the N62 recall. Customer understood and states they will contact a Chrysler dealer to have the recall performed.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Brought in for inspection and DLR did not do it properly
Dealer - Service/Body Shop - Transaction - Unsatisfactory Maintenance - Default	Did not inspect Recall properly

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler with a complaint with their DLR. Customer states she had scheduled an appointment with DLR 44347 to inspect her vehicle for the N62 recall. Customer states she arrived to her appointment today and a lady and a man came out into the parking lot, looked under her vehicle by the tires and said nothing was wrong and that she did not need to replace the tie rods for her vehicle. Customer feels like that was a poor inspection and is worried for her safety. Customer states she wanted the SM to sign her recall notice to assure that the vehicle did not need new tie rods. SM supposedly stated she would send customer a letter tomorrow. Customer contacted Chrysler to see if that was what the inspection was supposed to be like. Agent advised customer that that was definitely not a proper inspection. Agent called over to DLR 44347 and spoke with Sales who stated that service was closed. Agent asked Sales about the inspection that supposedly took place at his DLR and if he felt that it was proper. Sales stated that we all know that is not a proper way to do an inspection. Agent advised sales that Chrysler would be contacting DLR tomorrow during open hours. Agent advised customer of what Sales stated. Agent advised customer that we would be contacting DLR tomorrow during open hours and if she did not receive a call back from Agent then to call Chrysler back with Case Number Provided and another agent would read notes and be able to assist further.
Briefly summarize what the customer is expecting: A proper inspection on her vehicle.
Reason for Dealer Contact:
Dealer Code: 44347
Dealer Personnel Required: SM or SA
Customer s Preferred Method of Contact:
Customer Phone Number (Morning): [redacted]
Customer Phone Number (Evening):
Customer Email address: N/A
Reason for assigning to Resolution Team: DLR was closed
Assigned to 86T
Writer called BILLY BENDER CHRYSLER JEEP DODGE Dealer Phone : 301-729-4890 and left a message for the SM to call back regarding a complaint against the dealership. Contact information 855.675.9291 EXt 4718136 case [redacted]
Writer called BILLY BENDER CHRYSLER JEEP @ 301-729-4890 and asked to

speak to the SM Mike writer advised Mike that the customer went to the dealership for an inspection for the N62 recall someone came out checked by the tire and told the customer she did not need the recall done, Mike said that is proper procedure for the inspection. Mike said if the steering linkage has a stud to hold it together recall is not needed, if the steering linkage is clamped together than the dealership has to order parts for the recall to be completed, Mike said his employees were following procedure and the dealership did what they are expected to do.
Writer called [redacted] and spoke with her, writer advised the customer of lines 38-46, customer understood and thanked writer for the help, she wants to make sure her vehicle does not fail and leave her stranded. Writer advised the customer that her case will be close, but if she has any other issues please call back, customer understood.
CLOSED LOOP UPDATE - outbound call complete.

****** Below Customer Contacted for Documentation Request ******
[redacted] 2014-01-06 @ 17:08
Briefly summarize why the customer is contacting Chrysler:customer called stating that he had the recalls repaired last year and replaced the tie rods and was looking for reimbursement. Agent advised the customer that he can send in his documentation for reimbursement consideration to either the mailing address which the customer stated he had already or agent offered to send him the link that he can scan and send in his original receipts along with the case number [redacted]) and his vin number on the documents he is sending in so that it can be put together with the correct case and processed more expediently.
Briefly summarize what the customer is expecting: Customer is expecting to find out about being reimbursed for the N62 recall that he claims was replaced previously.
POSTMARK DATE: 010714; DATE RECEIVED: 011414
Agent reviewed documents submitted by customer and found customer had purchased the Mopar tie rod ends from ELLIOTT CHRYSLER DODGE JEEP and had an alignment completed on the vehicle in January of 2011. Agent found customer had the parts replaced at no cost under the Mopar warranty and had the vehicle aligned again. Customer did not provide proof of payment for the alignment done after the parts were replaced.
Agent called IRF owner Mark and asked him about the customer s invoice. Mark states the customer paid the invoice in full.
Agent called customer and confirmed his mailing address and advised him that he will be reimbursed $50 for the cost of the alignment performed on the vehicle. Customer understood.
Agent advised customer to have the recalls performed at an authorized dealer. Customer understood.
Customer submitted request for reimbursement for recall N62 LEFT OUTER TIE ROD ASSEMBLY.
Recall applies to customer s vehicle: N62
Customer s proof of payment is: confirmed with IRF as paid
Date of Repair: 10/26/2011
Invoice #: 42756
Labor $ 0.00
Parts $ 0.00
Misc. Charges $ 50.00 (alignment)
Tax $ 0.00

Total $ 50.00
Writer is submitting check for approval in the amount of $ 50.00

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	customer seeking information on recall
Product - Suspension - Tie Rods / Drag Link - Other - Front	customer states tie rod on passanger side broke

Briefly summarize why the customer is contacting Chrysler: Customer states vehicle s passenger side tie rod had snapped earlier this morning (01/06/2014) and when he got home he had seen he received a letter for the recall on the left tie rod. Customer inquired if the 2 were related and if the repair would be covered under the recall repair.
Briefly summarize what the customer is expecting: Customer seeking recall information.
Agent stated she was unsure if the DLR would fix the right tie rod under the recall as it was for the left tie rod. Agent inquired where the vehicle was currently located. Customer stated he had possession of the vehicle and had not yet taken the vehicle to a DLR. Agent advised the customer to take the vehicle to a Chrysler certified DLR and have them diagnosis the vehicle. Customer stated he would do so at his convenience.

Recall - N49: LEFT TIE ROD - Information Request	Customer called in to get information on N49 recall

Briefly summarize why the customer is contacting Chrysler:
Customer called in because he had received the N49 recall notice and had contacted his dealership. Dealership had advised him that there is already a 7 week waiting list for the tie rod for recall. Customer is irate because Chrysler does not have parts ready for a recall to be completed for the dealership. Agent advised customer that as of today, January 6th, 2014, this is the first day customer can get the recall work scheduled. Dealerships were unable to order parts prior to today. Customer is upset at waiting times and inconvenience of recall. Agent advised customer of process of recall, including the inspection, and that not all vehicles will require the tie rod. Customer states that this is incorrect information, and that a person cannot tell whether a tie rod is bad just by inspecting it. As agent was suggesting that he could call the dealership on behalf of the customer, customer hung up.
Briefly summarize what the customer is expecting:
Customer is expecting that when a recall is released, parts should be ready to accommodate them.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking possible reimbursement

Briefly summarize why the customer is contacting Chrysler: Customer stated that they received notification of the N62 recall repair. Customer stated that they had previously had a repair performed on the tie rod end, but is unaware if it was the recalled part.
Briefly summarize what the customer is expecting: Customer is seeking an inspection at dealership level to determine whether the recall repair is needed on his vehicle. Customer is seeking possible reimbursement. Agent advised the customer that the vehicle will need an inpection completed at the dealership to ensure that the recall repair is not needed on the vehicle. Furthermore, if the previously completed repair falls under the exact repair needed for the recall, the customer was provided with their case number and relevant information concerning a possible reimbursement.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY -	Customer inquiring to have recall completed.
Corporate - CNA Change - Default - Default - Default	Update primary phone number and added email address.
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: The customer states he received a recall notice for the N62 recall and states he s called Orange Coast Chrysler Jeep Dodge of Capistrano and that they have told him Chrysler does not have the parts available and wants to know if this is true. He states he would like for the agent to contact them as well as Tuttle Click dealership in Irvine, phone number (949) 472-7400 to see if they have the parts to do the recall as he states he is nervous driving his truck.
Briefly summarize what the customer is expecting: The customer seeks to have the recall completed.
Agent called Tuttle Click dealership in Irvine, phone number (949) 472-7400 and spoke with Kevin in the parts department whom states he will order the part for the customer and that someone from that department will be in touch with the customer when the parts come in.
Agent advised the customer of what Kevin stated and offered to call around to other dealerships to inquire if they have the parts but the customer declined and stated that was fine, that he d wait for someone from Tuttle Click to call him back and thanked the agent for assistance.

Recall - J35: REPROGRAM ECM - REGENERATION STRATEGY - Advise Owner/Incomplete Recall	

Briefly summarize why the customer is contacting Chrysler:
Customer received recall notice for N62. States they previously had issue occur on vehicle and have already had it repaired at their buddies shop. Customer seeks reimbursement.
Briefly summarize what the customer is expecting:
Customer was provided reimbursement guidelines as per recall notice. Customer inquired if they would be reimbursed labor. Agent advised labor is commonly not reimbursed for work conducted through an IRF. Customer will still submit for it anyway. Customer was advised of other outstanding recall(s). Customer had no further questions.
Reassigned 86Y - waiting on documentation.
Agent waiting for documentation.
****** Below Customer Contacted for Documentation Request ******
[redacted] on 2014-01-18 @ 11:36
Agent called customer and advised no documentation has arrived at this time and sent the customer a document request link.
Customer called in asking for the part number for the recall part. Agent suggested to the customer that he send his receipts and the agent looking after his file will look at it. Customer stated he will send the information this afternoon.
***** Customer Document Received *****
Agent reviewed documents submitted by customer and found customer purchased parts from PLANET DODGE CHRYSLER JEEP and had the H46 recall completed in 2010 and had no parts replaced at that time.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second

repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Customer advised a call back is required and will take place within one business day by COB their time
Preferred Morning/Midday call back number is
Preferred Afternoon/Evening call back number [redacted]
Customer email address for case [redacted]
Who has possession of the vehicle? (Owner)
Has the vehicle been diagnosed by a CDJ dealer? (Yes)
If a CDJ dealer has diagnosed, what is the dealer name or code?Texan Dodge Chrysler Jeep Ram - DC 63-45587
Customer called in asking about his case for reimbursement. He says he bought the part at planet Dodge Chrysler Jeep part # 52122362-AG and says that it is a Mopar part Dodge upgraded steering linkage kit.

Briefly summarize why the customer is contacting Chrysler: Customer contacting in about a recall issue with his vehicle. Customer states while driving the vehicle s right tie rod snapped off and the customer lost control of vehicle. Customer states no one was hurt, and had vehicle towed to DLR. Customer was advised of the recall, but would have to pay $1100 for the repair as he does not have the right type of steering linkage.
Briefly summarize what the customer is expecting: Repair to be covered.
Agent contacted DLR 60337 and spoke with SA Brennan who was working with the customer, who advised for the inspection part of the N62 recall, they are required to check if it is 1 of 2 different types of steering linkages, SA advised as per letter detailing repair that he has the more updated part and will not require steering linkage replacement. Agent put customer through Goodwill Escalation Matrix as followed:
1.Does the customer have prior history with current issue? YES
2.Does the customer have prior repair history for current issue (warranty or customer pay) at a Chrysler dealership(s)? YES
3.Is the customer the original owner of this vehicle? NO
4.Does customer have previous vehicle purchase history (new and used, household)? YES 3, 1 ORIGINAL
5. Did the customer purchase a MVP Mechanical service contract (not simply oil changes)? Must be a MVP contract, not an aftermarket. NO
Agent built case with TL JE779 and advised customer we would be sending up to a CM for further review however no guarantees or promises could be made.
Who has possession of the vehicle? DEALER
Has an authorized dealer diagnosed the vehicle? YES
If a CDJR dealer has diagnosed, what is the dealer name and code? RARIDON CJD 60337
Customer advised a call back will take place within one busines[redacted]
Preferred Afternoon/Evening call back number is: [redacted]

Customer email address for case updates: N/A
Reassigned to: 88F
Brendon contacted Ram for an update on the file. Brendon confirmed that it was the right hand tied rod that broke right on the steering point of the wheel. Brendon states that for the N62 recall, they were to inspect the steering linkage to see if they need to replace it or not. Brendon states that the vehicle had three bolt style for the steering stabilizer rather then the U-bolt which was what needed to be replaced. Agent advised Brendon that information would be updated to the file, and it had been escalated off for case management.
* * * * * CASE MANAGER TEAM - District O * * * * * *
Writer contacted dealership and attempted to contact Brendon. Writer left a message.
CONTACT UPDATE - 1st Contact attempt, phone number dialed, [redacted] Customer stated that while pulling out into traffic, going about 10 MPH there was a pop and customer lost power to vehicle. Customer stated that the tire rod went into the pavement and made a dent into the ground. Customer stated that the right side ball joint needs to be replaced but the recall is for the left side. Customer would like cost assistance if the repair is customer pay. Writer advised needing to talk to the dealership to verify information. Writer advised no promises but would like to look into concern for customer. Writer advised calling customer back tomorrow.
Customer advised email address as [redacted].
Status update provided via email to the following email address: [redacted]
My name is Ashley and I have been assigned as your Case Manager. Here is some information that will be helpful for you to have.
Chrysler Case Management telephone- 800-763-8422
My direct extension is 66378.
My work hours are from 10 am-6:30 pm Mountain Time.
Thank you for speaking with me today. I will do everything I can to take care of this concern. Don t hesitate to call me if you have any questions or concerns.
End of Status Update
Mr. Brennan Bassett, Service Writer (SW) from dealer 60337, calling to speak with CM AM1777. Writer found AM1777 was not currently available, therefore Writer warm-transferred SW to available CM RR964 for further assistance.
Writer received a call from Brendan (SA) at dlr 60337 states the vehicle was towed in and not drivable, the diagnoses indicates that vehicle is going to need the recall N62 performed and vehicle has the factory original steering linkage tie rod parts, 1 tie rod snapped but dlr can only order parts in a complete kit that comes with both sides, the parts department has attempted to order the Part # CBUEN491AA listed in the recall but showing this part number does not exist and appears part is not released at this point. The SM is Cindy. Dlr SA said the customer is paying for their own rental at this time since 01/06/2014, no goodwill offers on rental has been approved. Writer informed dlr that CAC would research on the matter with making sure assigned CM follows back up with dlr tomorrow, in the meanwhile writer asked dlr SA to get with SM to contact Area Manager if can help on this matter.
Writer attempted to contact customer and left a message.
Customer contacted writer; Writer advised lines 73-85. Writer advised following up with custome concerns tomorrow with dealership and to get most updated information. Writer advised calling customer on Friday at the latest with more information.
Caller Mr Rumel requesting to speak with Case Manager.
transferred to nic AM1777
Customer contacted writer; Customer stated that after speaking to dealership they informed customer that they spoke to District Service Manager and he has been denied any goodwill. Customer inquired as to who has the final say in any goodwilll assistance. Writer advised that at this time CM will need to contact the dealership to get further information. Writer advised looking into concern. Writer advised calling customer back after speaking to the dealership. Customer stated that the dealership has said nothing in regards to the part information.
Writer attempted to contact dealership and was not able to leave a message. Writer disconnected call.
Writer contacted SM Cindy; SM Cindy did not have all the information but

stated that the vehicle did not qualifty for the N26 recall. SM Cindy transferred call to SA Brendon; SA stated that the vehicle was in a parking lot and the tire rod literally just snapped. SA stated that they see this happen all the time and more so on the right side. SA stated that the customer takes care of the vehicle and that he is loyal to the dealership. Writer advised wanting to help the customer with repairs. Writer advised sending CM warranty pricings on repair and updated mileage on vehicle.
Writer contacted customer and advised lines 103-111. Writer advised waiting for information from dealership and once that is recieved looking into goodwill for customer. Writer advised extending goodwill tomorrow once speaking to dealership.
Writer recieved email from SA Brennon; SA stated that total repairs will cost $1010.74. Parts for repair will cost $573.24 and labor will be $437.50.
SA Brennon advised updated mileage is 94978.
Writer sent email to SA Brennon advising CAC covering for parts and customer be responsible for labor.
Writer recieved confirmation email SA Brennon stating CAC will be covering Parts and customer will be responsible for labor.
Writer attempted to contact customer and left a message.
Writer contacted customer at [redacted] Writer left message and requested customer contact CM to discuss case. Writer provided CM s contact info and stated follow-up no later than 01/15.
[redacted] called to return TT434 s call. Customer stated that he does not have any questions for CM. Writer advised customer that writer will request CM call him back at [redacted].
Writer attempted to contact SA Brennon and left a message.
Writer sent SA Brennon an email regarding customer vehicle.
Writer recieved voicemail from SA Brennon stating that the vehicle is repaired and gone. SA stated that they also covered $100 of rental fees for the customer.
As a one-time goodwill gesture, Chrysler is approving this out of warranty repair. According to the dealer, the warranty costs of the repair are as follows:
Parts = $573.24
Labor = $437.50
Total = $1010.74
Co-pay = $437.50
########## DIRECT-TO-DEALER ##########
Customer Care is sending this case to because an out-of-warranty goodwill decision has been made. Recall - H46: STEERING LINKAGE - Advise Owner/Incomplete Recall	Customer was seeking recall information.
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer was seeking recall information.

Briefly summarize why the customer is contacting Chrysler: Customer called in stating that they are seeking further information about recall N62. Customer states that about four months ago he was driving down the road, and the tie rod broke. Customer states that he purchased the parts and repaired this himself. Customer states that he wants to know if he still needs to have this recall completed. Agent advised customer that recall N62 was only in regards to the replacement part for the steering linkage. Agent advised customer that recall H46 also had not been completed. Agent advised customer that at this point, he should bring his vehicle into the local dealership to have it inspected to see if anything does need to be repaired under the recall. Agent advised customer that if it is determined the parts he replaced were covered under the recall, we can also look into reimbursement at that time. Customer was happy and thanked agent for this information. Agent offered to have the customer transferred over to the dealership to make a Service Appointment, but the customer declined.

***** EMAIL BRIEF DESCRIPTION CONTENT *****
2005 Dodge 3500 5.9 diesel engine
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
I bought an 05 dodge diesel 3500 4x4 in Bonham, TX in about 06 or 07. When I bought it, it had a straight exhaust pipe with no catalytic converter or muffler that I specified I wanted fixed. Also, the flatbed was barely welded on. I live over 100 miles away from this dealership & when it was delivered to me, the problem wasn t fixed. Then I made an agreement with them to take it to a local shop have it fixed and they would
reimburse me. They only partially reimbursed me. Soon after this issue, the truck would not crank easily. After holding the key in the on position
and trying to crank it, it would still take several tries to get it to crank. I took it to Jack O Diamonds in Longview (no longer in business) and paid $100 to get it 'fixed.' Didn t improve the situation. I took it back to Jack O Diamonds because something in the 6 speed transmission area
was banging when you disengaged the clutch. They replaced the transfer case with another $100 fee. It still made the banging noise. My next problem came about when the steering arm popped out while I was exiting a major road. I almost ran over a car at a red light and a pole and had to drive straight into a parking lot across from the exit, as I couldn t steer
my truck. I was pulling a 16 foot trailer with a 4000lb glycol tower on it
and had just been going about 65 mph. before exiting. Luckily no one was hurt or killed. I had to have the truck towed to a repair shop to have the

steering arm replaced. Since Jack O Diamonds wasn t available anymore, the
nearest dodge dealership was in Marshall, and they said I would have to
have it towed to them at my expense. With it being a 1 ton and Marshall
being over 20 miles away, it wasn t something I could afford. I had it
towed directly across the highway from where it originally broke down and
had it fixed there. My mom, at the time, had a similar truck, which was an
05 dodge diesel 4x4, but single wheel. She received a recall notice for
this steering arm problem about a week after my steering arm popped out,
but I never received a notice. I called the Chrysler corporation to get it
reimbursed (since it WAS a recall issue) but I just got the run-around. So
basically, I paid for a recall issue all on my own. Not too long after
that, the engine started missing and using large amounts of oil like it had
blow-by and was puffing white smoke, this at about 75,000 miles. I took it
to the dealership in Marshall to have it looked at and they called me back
and said it needed a new $13,000 engine. I asked them what was wrong with
it and they said that the K&N air filter was letting sand in the engine and
had ruined the engine. On the box of the K&N air filter, it said 'OEM
replacement, will not void warranty.' It was a new air filter with less
than 10,000 miles on it. I called K&N, and they told me to take pictures
of the turbo and the cylinder walls of the block. I explained to K&N that
the dealership would not tear the engine down until I paid the $13,000,
because they weren t covering the problem under the extended warranty that
I was paying extra money for, but they needed proof. So I was kind of
stuck and didn t know what to do. I couldn t send pictures to K&N, and the
dealership wouldn t work on my truck without money that I definitely didn t
have, seeing as at that point we were in the middle of a recession. I had
to let the truck go back and I surrendered it to the dealership. It also
had a fuel related problem, that potentially washed the cylinder walls out
and created the blow-by. I am a STICKLER for vehicle maintenance and
always always always changed the oil and maintained my vehicle. When I
purchased the truck, there was not a power programmer on the truck and I
did not put a programmer on the truck, just so you know. I had a friend
that had a truck identical to mine, and had to replace the engine two
different times for the EXACT SAME PROBLEM. I had several other friends
with the same truck, same story, same problem. 2005 must ve been a bad
year for diesel trucks, because the 5.9 dodge diesel engine and 6.0 ford
diesel engine barely would make it to 100,000 miles without blowing up.
Now I have this debt hanging over my head with Citibank (the truck
financier) who has a lien on my home because my extended warranty didn t
warranty anything and the dealership just wanted money, not to help me
resolve the problem. No one wanted to fix, everyone just wanted to point
fingers and give excuses and I m stuck with all the bills. I recently
scrapped my 95 ford powerstroke with a perfectly good 7.3 diesel engine
that I had just spent $1400 to fix front end problems, and it would still
go into an uncontrollable deathwobble. The truck was too dangerous to
sell to an individual, because of the deathwobble, but the engine, with 2x
the miles of the dodge engine, was in perfect running condition. Im
telling you this because you may think that I can t maintain a vehicle, but
that is incorrect. I don t think I need to tell you that the 5.9 diesel
engine was a problem and frequently went out on people, especially people
here in the southern oilfield, who actually put the truck to work like it s
advertised to be able to do. Instead of fixing the problem or even
recalling it, you left the customer with the bill.
*****END OF CUSTOMER EMAIL*****
Dear [redacted]

Thank you for contacting the Ram Assistance Center. Your email is important to us.
I am sorry to learn of the concerns raised regarding the issues experienced with your prior vehicle. I appreciate the time taken to bring this matter to our attention.
Any component can be subject to a defect, and often times, failure is an isolated incident that is not indicative of a part design problem.
Chrysler is dedicated to producing a quality product and we are saddened to hear of the issues you have had with your vehicle. Products are not put out onto the market with specific faults in mind and we cannot foresee when a vehicle may require specific maintenance outside of the suggested maintenance routines.
Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.
If at some future date, we can be of assistance to you in some other area, please let us know.
Thanks again for your email, [redacted].
Sincerely,
Jeff

Recall - N49: LEFT TIE ROD - Advise Owner/Incomplete Recall	tie rod end

Briefly summarize why the Customer is contacting Chrysler: Customer has recall N49 and dealership has told Customer they cannot get parts until February. Agent called BREEDEN DODGE CHRYSLER JEEP INC., 479-646-4731.Agent spoke to SA Randy. SA Randy has ordered the part; it will take four to five days as they are coming out of Denver. Customer will be called when part comes in. Agent relayed information to Customer. Customer is happy.
N49
Chrysler has decided that a defect, which relates to motor vehicle safety, exists in some 2008 through 2012 model year RAM 1500/2500/3500 series Trucks.
The problem is. The left tie rod ball stud on your truck may fracture under certain driving conditions. This could cause a loss of directional control and/or crash without warning.
What your dealer will do...Chrysler will repair your vehicle free of charge (parts and labor). To do this, your dealer will replace steering linkage components. The work will take approximately 1 hour to complete. However, additional time may be necessary depending on service schedules.
What you must do to ensure your safety... Simply contact your Chrysler, Jeep, or Dodge dealer starting January 6, 2014 to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment. Please bring this letter with you to your dealer.
Briefly summarize what the customer is expecting: Customer would like recall taken care of as soon as possible.

Recall - N49: LEFT TIE ROD -	customer wants recall completed as he feels that this is dangerous
Dealer - By-Pass - Default - Default - Default	

Customer called stating that he received a recall notice and is especially concerned as he lives in rugged mountainous area and is concerned about safety.
N49 LEFT TIE ROD SAFETY 12/20/2013 INCOMPLETE
Customer states that the dealership has told him that he would be about 15 weeks before he could get the recall done. Customer states that this is unacceptable in light that
the left tie rod ball stud on about 264,000 of the above vehicles may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Customer advised a call back is required and will take place within one business day by COB their time

CONTACT UPDATE - 1st Contact attempt, phone number dialed, [redacted] Left message.
Writer attempted to contact Service Manager. Left message in regards to time frame on recall for customer.
Writer spoke with customer who stated that the dealer informed him the part that is needed for the recall is a restricted part. Customer stated he lives in a rugged terrain and does not want this to affect his vehicle because of the recall. Writer advised customer to call other dealers in the area to see if they can get the part in sooner and to contact us back

if he finds a dealer that will work. Writer also advised customer if we do not hear from him before hearing from LITHIA CHRYSLER JEEP DODGE, we will contact him with any updates.
Dealer (SM) Joe calls to speak with their Case Manager.
Transferred the customer to SV594 at ext 66219.
Service Manager Joe called in stating that they are out 25 weeks for the part required for the recall the vehicle needs. Service Manager stated they are limited to 1 order per week. Service Manager stated that by the end of next week they will be out 52 week, and the week after that, they will be out 3 years. Service Manager stated that they do not come close to being able to order enough parts for how many vehicles need the recall. Service Manager stated that the customer probably got put on the list when they were 15 weeks out but currently are at 25 weeks and there is nothing that he can do.
Writer contacted dealership at 707-442-3781, writer spoke with parts manager Mike, parts manager Mike states that customer would at least have to wait another 12 or15 weeks till he gets the part.
Writer contacted customer [redacted] left message.
Writer contacted customer [redacted], left message stating that parts are 12 to 15 weeks out, case will close if no response in 2 days.
writer contacted customer at [redacted]. Writer adivised customer that his case would be closing due to their CM not being able to contact them. Customer stated he went to the dealership to get parts but they advised him that they cant do anything for him because they are only taking one truck per week and to 'stand by'. Writer advised customer that the agent will note the case for the CM to call the SM to see what is going on with parts. Writer advised customer of follow up 1-24-14.
Writer contacted dealer 45235 and spoke with Willy in parts. Writer inquired about parts ETA. P Willy advised there is no ETA on the tire rod recall because the manufacture only lets gives out 1 part a week which backs up the dealership. Writer advised will note the concern and will follow up 1/31/14 for a parts ETA.
Writer contacted customer at [redacted] Writer informed customer that a CM will contact customer regarding parts information on Monday 1/27/14.
2nd attempt made to contact customer. Left message.
Writer contacted dealer 45235 and spoke to Willy in parts. Writer inquired about what number the customer is regarding tire rod part. Willy in parts advised the customer is in position 22 which means the part will be available to customer in 22 weeks because Chrysler only releases 1 part a week. Writer advised will follow up when parts become available.
Writer contacted customer at [redacted]. Writer informed customer that they are in position and that it will be a few more weeks until parts arrive. Writer advised that a CM will follow up with customer as soon as parts arrive at the dealership.
DEALER CONTACT- Writer spoke with SM Joe and understood that customer will have to wait due to 1 part a week being distributed so customer is about 4 years out. Dealer stated that this is ridiculous that Chrysler would even call him about a recall when Chrysler knows that they only give out 1 part a week.
DEALER CONTACT- Writer contacted dealership, 45235 and spoke with Parts associate Cody and was informed that customer is 27th in line and dealership has 8 that came in today. Possibly a few weeks befre customer is took care of. Writer stated that customer is supposed to be in 22nd spot but a couple of state vehicles opersting for state government had to escalate to the top of the list bumping customer down to #27. Follow up 2/12/14.
CUSTOMER CONTACT- Writer did advise customer that 8 parts came in today and that he is #27 on the list and writer will follow up 2/12/14.
Writer contacted service department and discovered that custoemr is #15 on the list currently.
Writer contaced customer and informed customer that he is #15 on list.
Writer will follow up 2/18/14.
Service department closed currently.
DEALER CONTACT- Writer was advised that customer is #19 on list currenty.
Writer will follow up 2.26

**********END OF TRIAGE**********
Part Number: CBUEN491AA
**********96W TRIAGE TEAM**********

****** Following Corporate Resource has been contacted ******
CBUEN491AA is a campaign part. They are restricted 1 in 7 days. It will take a couple weeks for order to be placed by dealer. Please contact dealer and advise them to submit a web request through dealer connect to force the orders. Please contact customer and let them know that at this time they do not have an order in the system yet because of the restriction and any further questions should be directed towards their SA. Only chance for customer to get part faster is to find a smaller dealer that does not have many on order to put customer closer to the top of the list. Thank you.
ASSIGN TO: CG1016- CAIR HAS AN 88 CM
**********END OF TRIAGE**********
CM to note customer would need to speak to SA in regards to campaign part. CM to reassign to DH929 to inform customer to speak to dealer in regards to part concern.
DEALER CONTACT-Writer learned that customer is #18 on the list.
CUSTOMER CONTACT-Writer advised customer that he is #18 on the list and customer was find with that
DEALER CONTACT- Writer left message with parts department.
DEALER CONTACT-Writer learned that customer is #17 on the list.
CM contacted dealer to find out what order the customer is in line. PA Louie stated that the customer is #4 on the list.
CM contacted dealer to find out what order the customer is in line. PA stated that the customer is #4 in line.
CM contacted dealer to find out what order the customer is in line. PA willy stated that the customers vehicle has been repaired.
Writer contacted customer at [redacted]. Writer inquired about recent repairs being to expectation. Customer advised the recall repairs are above his expectation and the dealership was very prompt on completing the recall. Writer advised if the customer does not have any further questions or concerns that the case will be closed. Writer advised that if the customer requires assistance in the future to contact the dealership and Dodge Customer Care. Customer agreed, understood, and verified address.
CLOSED LOOP UPDATE - customer contacted today to confirm repairs.
jl1355 authorizes case to be closed

Product - Engine - Oiling System / Pan / Pump - Other - Default	Customer states oil pan is rusted
Corporate - CNA Change - Default - Default - Default	Writer updated customers primary telephone number and address

Briefly summarize why the customer is contacting Chrysler: Customer states that he has an issue with the rust through of his oil pan. Customer would like to know if there is any assistance that could be provided. Customer states the vehicle has not been to a dealership for diagnosis. Writer advised that after further research and exhausting all resources, we would be unable to assist on the cost of repairs to the oil pan due to the age/mileage of the vehicle. Customer advised he is disappointed. Customer would like information regarding the recall letter he received. Writer advised that he does have an open recall N62 for the Left Outer Tie Rod Assembly, where as a Mopar service parts steering linkage may have been installed on some vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning. Writer advised that he would need to take the vehicle to a dealership to have an inspection performed and that the initial steering linkage inspection process can be done by write-up personnel in the write-up area. Writer advised that vehicles found with original style steering linkage can be immediately returned to the customer. Writer advised customer that any recalls issued on his vehicle by chrysler is covered at no cost to the customer. Customer advised he will take his vehicle into the dealership for the repairs.
Briefly summarize what the customer is expecting: Cost assistance on oil pan

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	LEFT OUTER TIE ROD ASSEMBLY

Briefly summarize why the customer is contacting Chrysler: Customer states that last year he had to replace his tie rod as it had broke. Customer states that he had tried to get a reimbursement for it but it was denied. Customer seeking to know if because there is a recall out for the tie rod know if he would be able to get a reimbursement now for it.
Briefly summarize what the customer is expecting: To know if he can get a reimbursement for the tie rod he can to replace last year.
Agent advised that he can submit the information regarding the part that was replaced for a possible reimbursement. Agent provided customer with the mailing address as per answer ID 17420.
Customer called to follow up on the case. Customer stated he sent the documentation certified mail and receive a notification the package was signed for in Auburn hills on 01/16/2014. Agent advised the documents have not been attached to the file as of yet. Agent advised to allow a couple more days. Agent confirmed the customers contact information on file was correct and advised ounce a decision was made someone would contact him.
Customer is very irate that he has not received reimbursement yet. Agent advised customer that the reimbursement process does take time. Customer became outrage and demanded to know whether or not he was receiving reimbursement. Agent advised customer that this is a corporate decision and not a decision that this agent can make. Customer demanded to speak to a supervisor immediately. Agent advised caller that agent can arrange for a supervisor to call him in one business day. Customer wants it made very clear that when the supervisor calls him back he wants to hear a YES or a NO, not that they will look into it, or he will contact his lawyer.
Customer has requested Supervisor callback
Preferred daytime number: [redacted]
Preferred evening number[redacted]
Reason for request: Customer wants a yes or no that he is going to be reimbursed
CAIR assigned to: (NC603)
CSR has informed customer a Supervisor callback request has been made, and the customer will receive a callback within 24 hours.
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE

*** Supervisor Callback ***
Supervisor called customer and received no answer at [redacted]
Customer called back in about the supervisor call back. Agent transferred to TL NC603.
*** Supervisor takeover ***
Supervisor spoke with custmoer in regards to what occurred in November 2012. Customer stated he an incident where the tie rods broke and he requested reimbursement, but was declined. Customer states that we should reimburse the customer now due to the N62 recall. Supervisor advised customer it will be declined as the repair that was done to your vehicle was for factory parts and not mopar parts that had previously been replaced at a dealership. Customer stated he will seek his attorney to sort this out.

Reference [redacted]
Dear Mr. [redacted]
We have received your letter and fully appreciate the concerns you have raised regarding your 2007 DODGE RAM LARAMIE 4X4 2500 QUAD CAB PICKUP. After thoroughly reviewing your request and our files on this matter, we respectfully concur with our previous decision.
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject:
A Mopar service parts steering linkage may have been installed on some of the vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:
The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer
Thank you for writing and allowing us the opportunity to review this matter with you.
Sincerely,
Rob
Chrysler Case Manager

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking reimbursement

Briefly summarize why the customer is contacting Chrysler: Customer states that he received a recall notification and he had the entire front end replaced about a year ago.
Briefly summarize what the customer is expecting: Customer is expecting reimbursement for recall repair parts. Writer provided customer with Fax number and documents that he needs to submit for possible recall reimbursement.
POSTMARK DATE: 010814; DATE RECEIVED: 010814
Writer acknowledges assignment, and documents are present.
Vehicle had L16 inspected 03/12/2012,no parts so vehicle must have had factory original equipment.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
Confirm name and address matches COIN & HPIMS: yes
Any open recalls:N62
Name of person writing in: [redacted]
Does customer have an e-mail address: no email
Concern:reimbursement for front end work(N62)
Reviewed previous files:yes
CUSTOMER CONTACT: Writer called [redacted]. Writer provided Case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering

linkage, we cannot reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
**
Caller [redacted] returning call from CW653.
Agent informed caller lines 41-47 above. Caller requesting call back from CW653 at 518 562 1801.
CUSTOMER CONTACT: Writer called [redacted]01. Writer reiterated that it is replacement parts that Chrysler is looking for, not factory orignal equipment, Writer cannot reimburse for initial repair. Customer is upset but he understands. Customer is upset parts were not available when needed and he has replaced sterring box three times. decision stands. Writer is closing case, Customer has been advised.

[redacted] on 2014-01-07 @ 20:07
***** Customer Document Received *****
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts. On March 1, 2013 the customer had the vehicle updated with updated kit. The replacement parts are Mopar and are the parts now under recall.
Agent is researching and will seek TL advise
Agent contacted the dealer 08011 @ 12:02 PM @ 801-553-5900 and left a voice message for SA Trevor.
Agent contacted the customer @ 1:26 PM @[redacted] and spoke to his wife [redacted] and agent explained the reason for denial and the customer understood. Agent suggested that the customer take the vehicle to a CJD dealer for inspection and possible replacement of the parts currently on the vehicle
Customer calling for update as to why his claim was denied. Agent stated to customer that the claim he submitted was not a replacement part but the orginal manufactured part.
Agent stated that this recall N62 is in regards to a mopar part that was already used as a replacement part.
Agent read the recall letter
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning. Models IMPORTANT: Some of the involved vehicles may be in dealer used vehicle inventory. Dealers should complete this recall service on these vehicles before retail delivery. Dealers should also perform this recall on vehicles in for service.
Customer understood once he heard the statement.
Agent stated to customer that he would have to have the vehicle inspected as the part that the dealership used in the repair may be the incorrect part and this is what the recall repair relates too.
Customer understood and stated his dealership gave him the wrong information and he will contact the dealership,.

******
Customer is requesting reimbursement for a repair completed on the vehicle under the N62 recall.
Customer stated in the letter sent he purchased the parts and installed them himself.
Customer sent in a part invoice with no proof of payment.
******
Writer located the N62 recall is attached to this vehicle.
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
Writer located information for the N62 recall:
Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:The steering linkage assembly must be inspected and replaced if required.
******
Writer located the H46 recall is attached to this vehicle - H46 STEERING LINKAGE SAFETY 04/27/2009 09/29/2009 COMPLETE.
Writer located in claims the H46 was an inspection with no parts replaced.
******
Invoice - 112949 - 05/23/11 - steering damper arm and nut had been purchased.
Writer will contact the customer to advised reimbursement will not be provided unless a repair invoice is sent showing a first repair.

2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.

NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer called [redacted]. Writer spoke directly with Mrs. [redacted] Writer provided Case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, we cannot reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
Customer called back upset that his claim is denied and wanted an explanation as to why.
Agent provided information on lines 18-19 and 30-32. Customer feels this was misrepresented in the letter and agent advised it was under the title 'Subject' for his review. Customer remains upset and states that he will never buy our products again and Chrysler has lost a customer.
Writer is closing Case, Customer has contacted directly, and been advised properly.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reoccurance or Related Problem	Left outer tie rod broken

Briefly summarize why the customer is contacting: Customer contacted Chrysler seeking information regarding recall related vehicle repair pertaining to the left outer tie rod breaking.
Briefly summarize what the customer is expecting: Customer expecting information regarding how to proceed with vehicle repair. Customer stated that recently while driving, the left outer tie rod broken on the vehicle. Customer stated that he contacted NAPLES DODGE CHRYSLER JEEP #57778 and they advised him that he had to cover the cost of the repair. Customer stated that he has not yet had the vehicle diagnosed, but has been speaking with SA Michael. Customer stated that he wanted to know if the repair would be covered before he towed vehicle to the dealership. Writer attempted to contact the dealership and speak with SA; however he was unavailable. Writer advised customer that she will continue to reach SA and phone him back when further information was available.
*** Customer would like to be contacted on cell: [redacted]
****
Customer called back and would like to speak with a supervisor. Agent advised it will be a 24 hour turn around time. Customer is very upset that his family could have been killed with the tie rod breaking at 75 mph and he was on the freeway. Customer states this has happened twice now and wants to know what Chrysler is going to do about it. Agent advised customer needs to have vehicle diagnosed at CDJR dealership that issue is same as recall and previous recall part. Customer does not want to pay for towing to dealership as states he knows it is the same.
Customer has requested Supervisor callback
Preferred daytime number: cell:[redacted]
Preferred evening number: cell:[redacted]
Reason for request: wants towing covered and guarantee can be repaired at no cost
CAIR assigned to: (Supervisor JE779)
CSR has informed customer a Supervisor callback request has been made, and the customer will receive a callback within 24 hours.
Customer is calling and very upset that he has not received a call back from anyone yet . Agent apologized and advised the customer that a supervisor call has been put through for him but it is a 24 hour call

back for a supervisor call . Customer is not happy about his situation and having to wait for a call back . Customer is stating that he will be contacting a attorney . Customer ended call .
**********Supervisor Call**********
Writer contacted customer and the vehicle it is now at Dealer #57778 but has not been diagnosed as of yet. Advised customer that once it is diagnosed to call back if need be. Customer said he is looking at legal action. Writer attempted to empathize and customer would have
none of it. Advised that it would need to be diagnosed before any thing can be done.
Customer states he was advised by the supervisor to contact us once the vehicle was diagnosed, as he had to have it towed to the DLR yesterday because, for the 2nd time the tie rod broke, and nearly killed his family.
Customer states he was told by SA javier who states it is the same part as replaced before, and it would cost him out of pocket to replace it.
Customer wants to speak to the supervisor he spoke to yesterday.
Agent spoke to the supervisor who spoke to the customer yesterday, the supervisor told agent we cannot do anything to assist customer but to make him wait for the part. Agent then stated the customer said DLR told him it can be replaced but cost him out of pocket.
Agent was then told to advised customer to pay for it, and send in for reimbursement and if it is the same part then we will reimburse until the recall part comes in.
Agent advised customer we can reimburse him if the part is proved to be the same as the recall part, if he pays out of pocket.
Agent contacted DLR to speak to any SA who can give a diagnosis.
Agent spoke to Lexie who advised agent no SA are available to speak with, and took a message to have us contacted by SA Javier with a diagnosis of the vehicle.
Customer states he wants someone above my supervisor to contact the DLR to tell them to replace it at no cost to him and then he will be ok.
Agent advised customer we have parameters to follow, and a supervisor is the only one i can contact and they have the same authority as i have, and the request can not be met.
Customer states he will allow his lawyer he has already contacted to deal with the situation from here out.
Customer states when and if himself, or his family are injured Chrysler WILL be sued.
Customer then disconencted the call.
SA Aaron calling from DLR.
DLR states that they have diagnosed the issue.
DLR states that it is the recall issue.
Agent advised Customer that due to the part being on restriction that we would not be able to assist in any way in expediting the part.
Agent asked DLR if they could put him to the front of the list due to the issue.
DLR states that he will speak to his Parts Manager about moving him to the front of the list.
Agent called dealer 57778 and left VM for SM Kasey. Agent asked SM Kasey to call back with some folow up information about the customer s situation. Agent provided case number and call back number.
Agent called dealer 57778 and spoke to Sandy in the service department. Sandy transferred agent to the SM Kasey. Agent left a message for SM Kasey for a follow up. Agent provided case number and call back number.

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
Safety Recall H46 - Mopar Steering Linkage
2003-2004 (DR) Dodge Truck 4x4 (2500/3500 series)
2005 (DH) Dodge Truck 4x4 (2500/3500 series)
2006-2009 (DH) Dodge Truck 4x4 (2500/3500 series or 1500 Mega Cab)
2006-2009 (D1) Dodge Truck 4x4 (3500 series)
2007-2009 (DC) Dodge Truck (3500 series cab chassis)

IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed. During a prior service appointment, a Mopar service parts steering linkage was installed on about 19,400 of the above vehicles. The drag link inner joint may fracture under certain driving conditions. This could result in a loss of steering control and cause a crash without warning. Also, the steering damper bracket at the tie rod tube may loosen. This could allow the bracket to slide on the tube and may cause increased vehicle turning radius.
The steering linkage must be inspected and some steering linkage components may need to be replaced.
NOTE: The initial steering linkage inspection process can be done by write up personnel in the write up area (see Step 1 of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer called [redacted].Writer reached the Customer directly. Writer advised Chrysler cannot reimburse his initial repair of factory original equipment, that what Chrysler is looking for is replacement parts. Customer was not happy, saying his truck had the death wobble, and drivability was poor. Writer apologized but we have to follow the recall outline. Writer has DECLINED to reimburse. Writer encouraged the Customer to have his vehicle inspected at any CDJR and if any parts need replaced Chrysler will do so complimentary.
Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Requesting reimbursement information.

Briefly summarize why the customer is contacting Chrysler: Customer stated that he had already had the left tie rod replaced and wanted to know what he had to send in to get reimbursed.
Briefly summarize what the customer is expecting: Customer is seeking reimbursement information.
Agent advised customer that he would just have to send in the bill from the repair. Customer stated that he had other repairs completed at the same time and inquired whether or not the reimbursement department would know what to reimburse him for. Agent advised customer to see if the DLR would make him a separate bill for just the tie rod repair. Customer understood.

Writer located in claims this was an inspection with no parts replaced.
******
Writer will wait for documents.
Writer did not locate documents.
******
Writer will contact the customer to advise the cair will be closed in two days.
Writer will call - [redacted]
Writer left a message this call is for [redacted] from Debbie of

Chrysler in regards to documents that were to be sent for a repair completed on the 2006 Ram. I will be closing the file in two days as the documents have not arrived, the file will be re opened for review when the documents are received. Writer supplied 855-675-9291, extension 4718492 and cair number [redacted]
******
Customer stated the vehicle shakes and went to the dealership who suggested the damper be replaced, so he replaced that and then replaced the drag link with tie rod ends in November. Customer stated in December the recall notice came in. Customer stated in November he had all the front end parts replaced before the recall. Customer stated it still wobbles and has 120000 miles on it. Customer stated he will replace the other two shocks to see if this will help.
Writer advised reimbursement will not be provided for the repair as no other repair had been completed this recall is for a replacement part.
Customer stated this is also known as 'death wobble'. Customer will replace two new shocks to see if this will help.
Customer stated he has replaced the items for the steering.
Writer advised the replacement part may now be on the vehicle writer will not provide reimbursement for the repair the documents do not need to be sent. Writer advised the dealership may be able to contact the technicians for assistance as to why the vehicle has a steering concern.
Customer stated it is going to the dealership on Monday and he will speak to them at that time.
Writer thanked the customer for the call.

Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states he is calling because he has received a letter for the recall n49. Customer states he is about 61 on the list. Customer is upset about this recall part availability and wants to know where the parts are coming from and if they are being manufactured. Customer wanted to speak to a supervisor. Customer states he usually buys an alternate brand and decided to try Chrysler but is not happy with his decision as Chrysler can not stand behind there recalls.
Briefly summarize what the customer is expecting: recall parts information.
Writer updated coin.
Writer advised customer that the Supervisor would not be able to provide the part any sooner than the steps taken and offered to contact an alternate DLR for availability and customer agreed.
Writer advised customer of recall as per N49 - Safety Recall - Left Outer Tie Rod Assembly / 2008-2012 Dodge RAM Answer ID 24054.
Writer advised customer that where parts are manufactured is not part of details that could be provided at this time.
Writer offered to contact an alternate DLR to determine if parts would be available sooner and spoke to Cottage Grove Chrysler 541-942-5551 who states they are into 65-75 on there current list.
Writer spoke to SA Bill at 44621 Dealer Name : LITHIA CHRYSLER JEEP DODGE OF who states they have ordered up to 41 orders and can no longer process any new orders but they will be ordered as per the order of the customer appointment and adjusted as needed for ones that have a broken tie rod or case by case.
Customer hung up the line while requesting him to hold to gather further information.
Customer will have to callback if needs further assistance.
Reassigned to lb546.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	The customer replaced the parts in May.
Product - Drive Shaft/Universal Joint - Universal Joints - Other - Unknown	replaced U joint left front
Product - Suspension - Unknown - Other - Front	replaced onion seal.
Product - Steering - Linkage - Other - Default	replaced steering linkage and dampner
Product - Suspension - Upper Control Arms/Ball Jnts - Other - Unknown	replaced upper ball joints.

Briefly summarize why the customer is contacting Chrysler:The customer received a recall notice.
Briefly summarize what the customer is expecting:The customer had her steering linkage replaced in May and she wanted to see if the parts she put on were good. Agent contacted the dealership to see if they could do an inspection. The dealership agreed to do the inspection. Agent let the customer know that the inspection would be done and if the parts were good nothing further needed to be done, if the parts were not good parts would have to be ordered ant the tie rods ends would have to be replaced.

Writer acknowledges assignment and that there are documents present.
H46 completed 09/14/2009, inspection only, no parts, = factory original equipment, or non MOPAR parts.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)

2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided Case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, Chrysler CANNOT reimburse. Please decline Customers request for reimbursement. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
Briefly summarize why the customer is contacting Chrysler: Customer states she is seeking to speak with her agent.
Briefly summarize what the customer is expecting: Customer seeks to be reimbursed for her steering linkage repairs.
Agent advised H46 was an inspection recall. Agent advised upon investigation the inspection shows no added steering parts have been installed. Agent advised the N62 recall is an inspection to verify if the recalled parts had been added after inspection.
Agent advised through investigation the recalled parts have not been added. Agent advised customer reimbursement will not be given regarding the recalled parts.
CUSTOMER CONTACT: Writer called [redacted]. Agents note a little confusing. Writer advised that Chrysler CANNOT reimburse for initial repair of original factory equipment. Writer advised that vehicle now has replacement parts on her vehicle and it should be inspected for free at any CDJR Dealer. Writer advised if any parts need to be replaced Chrysler will do so complimentary, and Chrysler will make sure her vehicle is aligned. Writer provided Case # and US CAC for contact. Writer is closing case as Agent had informed of non reimbursement.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.
* *
Writer closing case.

AS per AC ID 21597 reassigning to 86Y
Status update provided via email to the following email address:
[redacted]
Good Morning,
My name is Jenna your case manager. I have reviewed your case for your request for reimbursement for N62. As it states on the letter N62 is on MOPAR replacement Parts.
I will need to see an invoice showing that you had the steering linkage replaced with MOPAR replacement parts then a second invoice showing the tie rods was replaced.
If you could send in both invoices so the reimbursement process can continue. If you wish to discuss the recall further to please contact me directly at 855-675-9291 ext 4718558.
If the documents do not arrive in the next 2 days the case will be temporarily be closed until the documents arrive. Once the documents do arrive the case will be re-opened and the reimbursement request will continue.
Thank-you
Jenna

Recall - N49: LEFT TIE ROD -	Customer seeking parts for recall

Briefly summarize why the customer is contacting Chrysler: Customer states that she is very nervous about the tie rod recall because she tows an RV. Customer states that she is 5th in line at a DLR and she is out of state so she would be in a mess if it broke.
Briefly summarize what the customer is expecting: Customer seeking recall part
Agent advised because so many vehicles are affected these parts can only be ordered 1ce a week. Agent advised that this means customer should have parts in February since she is 5th. Agent advised that agent would document any concerns and if something happens to give us a call back. Customer took agent s name and case number.

Recall - N49: LEFT TIE ROD -	LEFT TIE ROD
Corporate - Survey By-Pass - No Repair - Default - Default	N49 LEFT TIE ROD
Dealer - Parts - Transaction - Parts N/A / Backordered - Default	N49 LEFT TIE ROD

Briefly summarize why the customer is contacting Chrysler: Customer called stating she went to the DLR and was advised that the part would not be available for her vehicle fo 3 months due to priority. Customer states this is unacceptable. Customer states that if something were to happen she will sue Chrysler. Customer wanted to speak to a higher source and wanted contact information for them. Customer states if she does not receive the part, that Chrysler will give her a rental vehicle.
Briefly summarize what the customer is expecting: Customer wants the part for her vehicle to be repaired.
Agent advised that she can contact the DLR and see if there is anyway that she can be put higher on the list. Agent contacted DLR and spoke with SA Jessica. SA stated that the Customer is currently number 10 on the list and they have 2 vehicles currently VOR. SA stated that if there was a way to put the Customer higher on the list she would as the Customer tows horses. Agent thanked SA. Agent advised the Customer that currently there are VOR and they ar priority as they do not drive at all. Customer stated that she wants to speak with a Supervisor. Agent advised this does not warrant a Supervisor call back as we are aware of the issue. Agent explained that we do not provide rental vehicles for recall issues. Customer continuously argued with Agent stating she wants to speak with someone higher and wants to speak with a Supervisor. Agent explained that Supervisors have the same recources available and they can not do anything more then we can. Customer continuosly screamed and Agent and disconnected.
Customer called in stating that the last agent was rude to her and did not try to help her in any way. Customer stated the same facts as she stated to previous agent. Agent contacted JOHNSON DODGE-CHRYSLER-JEEP #42490 and spoke to PA Mike. Mike states the waiting time for the parts needed to complete this recall is 3-4 people. Agent contacted MILFORD CHRYSLER SALES INC #44144 and spoke to SA Joe. Joe states the waiting list for this recall is 38 people. Agent contacted DOVER DODGE CHRYSLER JEEP, INC #44259 and spoke to PA Tom. Tom states the waiting list for this recall is 16 people.
Agent advised customer of this information. Customer states she would

like a rental vehicle for the wait time. Agent advised customer that we are not able to provide her with a rental. Agent offered to contact different dealerships to see if parts can be ordered sooner for the customer and sent to the closest dealership. Customer declined. Customer requested to speak to a supervisor.
Agent reviewed case with TL and was advised to transfer the customer. Agent transferred customer to LB546.
SUPERVISOR CONTACT
Customer that was notified that there is a recall. Customer states they did and said it needs to be replaced. Supervisor advised customer that we will not be providing rental. Customer asked who can approve this. Supervisor advised that we are empowered to handle all customer concerns on first contact. Customer asks who can approve her taking the vehicle back to the dealer and buying a different brand. Agent advised that we cannot answer that question seriously. Customer took exception and felt that what she was saying should be acknowledge. Supervisor advised that we want to ensure that her dissatisfaction is accurately documented and apologized that there was nothing we can do to expedite this. Customer demands to speak with someone higher. Customer was advised as per Answer ID 17090. Customer asks if she takes it to a local mechanic, would he be able to get it quicker. Supervisor advised customer that they would not be given priority. Customer states that she will contact an attorney.

Recall - N49: LEFT TIE ROD - Information Request	Customer seeking information about parts availability

Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler wanting to get information about how long it will take to get the recall on his vehicle completed. Customer states that it is currently at DOUGLAS COUNTY CHRYSLER DODGE, DRL code 66204. Customer states that the vehicle has been there for sometime due to the tie rods breaking. Customer states parts are unavailable, and he has spoken to the dealership to see when this can be completed. Customer states that the dealership cannot give him an estimated time. Writer was going to contact the dealership to find out this information, but the call was dropped when the writer went to put customer on hold.
Briefly summarize what the customer is expecting: Customer seeking information for when the N49 recall can be completed on his vehicle. Customer states it is currently at the dealership and not drivable.
Writer contacted Thornton Road Chrysler, DRL 26847 to find out what the situation was with the customer s vehicle and what the estimated time is for the recall to be completed on this vehicle. Writer spoke with SA Timothy. SA Timothy states there are no parts available at this moment, and transferred writer to the parts department to get specific information about an estimated time that the parts will come in. Writer spoke to Part Advisor Logan and he states that the dealership is only allow to order 1 part every 7 days. PA Logan states that at the moment he does not have an estimated time of when the parts for this recall will come in or when the repair will be done on the customer s vehicle, but this customer is the first one to get it done. Writer contacted the customer to inform him of this news and got his voice mail. Writer left a message explaining that there is no estimated time of when this part will come in and his vehicle repaired but he is the first one on the dealership s list to get this recall completed and the broke tie rods repaired.

****** Below Customer Contacted for Documentation Request ******
[redacted] on 2014-01-08 @ 16:06
Agent advised customer that unfortunately at this time the Chrysler Credit Card Assistance Center is experiencing a large number of calls or is currently closed. Because of the high call volume or closure we are receiving the overflow of the calls. At this time you reached the Chrysler Customer Assistance Center and unfortunately we are unable to assist with credit card information. I would have to advise you to call back at a later time between the hours of 8 AM and 8 PM Monday-Friday, and 9AM to 5 PM Saturdays, Eastern Standard Time.
Briefly summarize why the customer is contacting Chrysler: Customer called in stating that they received a recall notice but had already had the recall completed on their vehicle. Customer stated he would like to submit for possible reimbursement.
Briefly summarize what the customer is expecting: Seeking reimbursement.
Agent advised customer that he is certainly able to try to submit for reimbursement but there is no guarantee that Chrysler will be able to provide reimbursement at this time. Agent informed customer to attach appropriate documents and send it in for further information.

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM

Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
Confirm name and address matches COIN & HPIMS: yes
Any open recalls:N62

Reviewed previous files:yes
CUSTOMER CONTACT: Writer called CHRIS LANG 303 239 9011. Writer spoke directly with Bill. Writer provided Case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, we cannot reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
No response from [redacted], writer will call again on Monday January 20, 2014
CUSTOMER CONTACT: Writer called [redacted]. Writer spoke to Kristy an Administrative Assistant. Kristy took a message. Writer provided US CAC and case #.
******Agents please relay lines 61 - 67.
Briefly summarize why the customer is contacting Chrysler: Customer called regarding warranty reimbursement.
Briefly summarize what the customer is expecting: Customer was expecting update on his reimbursement claim. Customer stated that he sent is receipts and documents in to the reimbursement centre just last week. Agent advised that it would take longer than a week agent verified that the customer had the correct documents sent in and address as per Answer ID 17420.
CUSTOMER CONTACT: Writer called [redacted], receptionist offered [redacted] Writer spoke to Mr [redacted] directly and advised we CANNOT reimburse for his initial repair of failing factory equipment, but he should take his vehicle into any CDJR dealer and have his vehicle inspected. If parts need to be replaced Chrysler will do so. Customer accepts and understands, writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Consequential Expenses Not Covered	Accident with property damage when tie rod broke.
Corporate - Survey By-Pass - No Repair - Default - Default	N62
Product - Unknown - Unknown - Insurance / Subrogation - Default	

1. Who is calling and what is their contact information? Owner
Preferred: [redacted]
Alternate:
2. What happened? This happened the friday before thanksgiving. He was driving down 4 lane highway when the tie rod broke and turned the tire to the left. The vehicle took out a guard rail, 4 posts and cables and stopped when it hit the bridge causing $16,000 in damage.
3. What is the current location of the vehicle?
Dave s Collision Center
605-692-4024

According to customer, Einspahr Auto Plaza 43329 contacted someone when the accident happened and customer was declined.

Called Dave s Collision Center and spoke with Nate. Nate informed, suspension work has already begun, tie rods have been removed and the fenders have already been painted.

Briefly summarize why the customer is contacting Chrysler. Customer calling as he was in an accident with his Ram 3500 before Thanksgiving. Customer states Einspahr Auto Plaza contacted Chrysler in regards to the accident but it was declined. Customer said he was told he has to go through his insurance company for the $16,000 in repairs.
Briefly summarize what the customer is expecting. Customer received notification for the N62 recall and calling to see if he can be reimbursed for the repairs. Customer states the vehicle is at Dave s Collision being repaired now. Collected information for SI as there is no previous CAIR in this regards. Called Dave s Collision but the tie rods have already been removed from the vehicle. Advised customer at this time since the repairs have been started, he will have to work with his insurance company through subrogation.
Reassigned to KG363 for survey bypass, N62 recall.

***** EMAIL BRIEF DESCRIPTION CONTENT *****
Recall
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
I spoke to my dealer today concerning the tie rod recall on my ram 2500.
He advised me that Dodge wasn t going to have the parts until late March
early April. My nephew and brother both drive 2011 Ram 2500 just as mine
and both of theirs have broke while driving down the highway. My brothers
broke just last night and he had to be towed in since he was 200 miles
from home. I am very upset with the answer i got from the dealer, and
it s not their fault if your not sending the parts. I have not been
driving my truck because of this issue and knowing what can happen first
hand. It s pretty bad when you don t want to drive a $60,000 truck
because of a safety issue that can t be fixed because there is no parts!
Please advise.. I want this fixed soon.
******END OF CUSTOMER EMAIL******
Dear [redacted]
Thank you for contacting the Ram Assistance Center.
We understand you are part of Recall #N49 for the left tie rod.
Our records indicate this part is not being with held, however, there is
a limited availability. The dealerships are able to order one every 7
days until part availability increases.
We will be in contact with your local dealership to ensure they are aware
of this.
We have documented your concern on file and appreciate the time you have
taken to reach out to us.
We will contact you once we speak with Big Valley Chrysler.
Thanks again for your email and continued patience.
Sincerely,
Jennifer
Customer Service Representative

and rang with no answer. CSR will try another time.
Dear [redacted]:
Thank you for contacting the Ram Assistance Center.
We are following up with you as per our previous correspondence.
At this time, we are still waiting to make contact with Big Valley
Chrysler.
Once this contact has been made, you will receive another email.
Thanks again for your email and continued patience.
Sincerely,

Jennifer
Customer Service Representative
Ram Customer Assistance Center
*****END OF EMAIL CAC RESPONSE*****
CSR contacted BIG VALLEY AUTOMOTIVE, INC @ 575-356-8581. CSR spoke with Steven, service advisor, who states as of right now they just have a list because the parts are not released to them. There has not been any real ETA other than possibility of late March / early April. Customer has not come in, but clearly did call as his name is on the list of about 30 people waiting. Steven believes when the parts are available, they will receive around 10% of the requested parts and then he is not sure how it will be handled from there.
Dear [redacted]
Thank you for contacting the Ram Assistance Center.
We have spoken with Anthony at your local dealership. He did confirm that the part is still unavailable.
Once an order is accepted, they will continue to reach out for parts until the list of individuals, who are also waiting on this part, is completed.
We have confirmed you are also on this list and will be provided with the part for repair as soon as it is available.
We understand your frustration and have documented your concerns on file.
Thanks again for your email and continued patience.
Sincerely,
Jennifer

Recall #N49
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
we are full-time RVer s and tow a large 5th wheel around the country. In addition we currently volunteer for a Federal agency working in the desert of Arizona. Since we will be towing our 5th wheel a couple hundred miles next week, I called the Yuma dodge dealer right away to get our truck fixed. I was told that even though we drive jeep trails through the desert and haul a heavy 5th wheel it would be several months to get the truck fixed since Dodge was only letting them order one set of parts per week. Since we only use the truck under unusual conditions I have faxed a copy of the recall and explained the lack of responsive repair to our attorney. Should the worst happen at least our kids will have a bigger inheritance than they expected.
*****END OF CUSTOMER EMAIL*****
Dear [redacted]:
Thank you for contacting the Ram Assistance Center.
I fully appreciate your concern, particularly in view of the safety and inconvenience involved with the N49 Left Outer Tie Rod Assembly recall.
I noticed that the name and address provided in your email are different from what reflects in our customer database and need to verify that you are the current owner of this vehicle.
Please reply to the link below letting me know that you are verifying ownership and would like the information to be updated in our system. I would be more than happy to review your concern once ownership is verified.
Thanks again for your email.
Sincerely,
Crystal
Customer Service Representative

*****END OF CAC EMAIL*****
Yes, we are the original owners of the Dodge Ram 2500 HD. We full time RV but we have a home base in Kansas at 23 N. Union St, Council Grove, Ks

66846. We have a mail forwarding address of [redacted],
Livingston, Tx [redacted]. Either address will get mail to us. For questions
my cell # is [redacted].
*****END OF CUSTOMER EMAIL*****
Dear [redacted]:
Thank you for verifying ownership. I have updated our database to reflect
you as the original owner.
I understand this recall is time sensitive and I wish I could lift the
restriction on the part that is needed to complete the N49 recall.
Unfortunately, that is beyond my control. What I can do is contact
neighboring dealerships in your area to see who has the shortest wait
list.
I appreciate your patience and understanding as I look into your concern.
I will be in contact with you soon.
Thanks again for your email.
Sincerely,
Crystal
Customer Service Representative
Ram Customer Assistance Center
*****END OF CAC EMAIL*****
Agent will contact neighboring dealerships on 01/15/14.
DEALER CONTACT: Larry Green Chrysler Jeep Dodge (760) 921-8900
PA Matt states that the list is at 36.
-
Crystal Chrysler Jeep Dodge Center (760) 324-4557
PA Randy states that there are 30 on the list.
Dear [redacted]:
Thank you for contacting the Ram Assistance Center.
To review your concerns with the N49 recall, I contacted Larry Green
Chrysler Jeep Dodge at (760) 921-8900. They are located on 390 S Broadway
Blythe, CA 92225. Matt in the Parts Department stated that they have a
list of 36.
I also contacted Crystal Chrysler Jeep Dodge Center at (760) 324-4557.
They are located on 36-444 Auto Park Drive Cathedral City, CA 92234.
Randy in the Parts Department said that their list is at 30.
I would recommend contacting Fisher Chrysler or any of the dealerships I
mentioned above to have your name added to the wait list.
If you could also please verify ownership; I noticed that the name and
address provided in your email are different from what reflects in our
customer database and need to verify that you are the current owner of
this vehicle.
Please reply to the link below letting me know that you are verifying
ownership and would like the information to be updated in our system.
Thanks again for your email.
Sincerely,
Crystal

Status update provided via email to the following email address:
[redacted],
As per my conversation with [redacted], this Recall the N62 involves a Mopar service parts steering linkage may have been installed during a PRIOR SERVICE appointment.
If you have had the repair prior to this repair, you must provide documentation for both repairs.
Otherwise, if you cannot provide documents for the first repair, no further action will be required.
Please contact the Chrysler Dealership to have them inspect your previous repair so that they can ensure the part is correct and they can update your file for the Recall N62 LEFT OUTER TIE ROD ASSEMBLY.
Have a great day!
End of Status Update
Customer called back for further assistance. Agent attempted to explain to the customer that the recall can only be reimbursed if a previous repair using MOPAR parts for the steering linkage were used. Customer did not understand. Agent placed the customer on hold and spoke with DLR 61210, which the customer stated on using, for a total of 10 minutes to find the service history in regards to any steering linkage repairs. DLR 61210 stated the H46 recall, which would of been the only repair on file related to the inquiry, was only inspected and no parts were replaced as it was not necessary. Agent attempted to explain to the customer again, customer became irate for being on hold for what he claims to be over 20 minutes. Customer disconnected.

Concern: Customer wrote in seeking reimbursement for recall N62 repair completed
Reviewed previous files: Yes, no concerns
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.
Agent contacted the customer @ 3:05 PM @ [redacted] and spoke to the customers wife who was quite upset that she would not be reimbursed for the repair. The repair invoice says that the right side broke and the left was replaced due to looseness. Agent has denied reimbursement
REIMBURSEMENT DECLINED

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service

procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided Case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, we cannot reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
-
Agent advised customer of lines 38-44. Customer is very upset that they cannot have it reimbursed because the parts are not Mopar.
Agent spoke with CW653 and was advised since the defected part was never installed on customer s vehcile Chrysler can not reimburse it. CW653 calrified that the customer had to have the tie rod repaired because of natural wear and tear.
Agent advised customer that the defected part involved in the H46 and N62 recall was never installed on their vehicle.
-
Writer acknowledges update. SS2035 has this recall all mixed up....We cannot reimburse the repair as vehicle still had the original factory equipment, so it does not qualify under the recall. AGAIN Chrysler is looking for replacements, so now that vehicle has replacements, then Customer should be encouraged to take vehicle in to any CDJR dealer.
Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer is seeking reimbursement for recall

POSTMARK DATE: 010314; DATE RECEIVED: 010314
Confirm name and address matches COIN & HPIMS: Customer s address matches HPIMS
Any open recalls: N62 LEFT OUTER TIE ROD ASSEMBLY but it is completed
Name of person writing in: [redacted]
Does customer have an e-mail address: Not on file
Concern: Customer is seeking recall reimbursement for recall N62 in the amount of 469.45
Reviewed previous files: Yes
Reassigned to 86Y
Writer acknowledges assignment and that documents are present.
H46 completed 12/26/2013 inspection only, no parts= original parts.
N62 is also on invoice as being completed.
There are two previous CAIRS regarding Customers vehicle breaking down, and Customer purchasing part at Dale White Motors.
***H46 was a recall where Chrysler was looking for already replaced parts from a prior service appointment - N62 is the same thing, Chrysler is looking for replacement parts that were put on during a prior service appointment. NOT FACTORY ORIGINAL EQUIPMENT, that has worn out or broken down.
Safety Recall H46 - Mopar Steering Linkage
2003-2004 (DR) Dodge Truck 4x4 (2500/3500 series)
2005 (DH) Dodge Truck 4x4 (2500/3500 series)
2006-2009 (DH) Dodge Truck 4x4 (2500/3500 series or 1500 Mega Cab)
2006-2009 (D1) Dodge Truck 4x4 (3500 series)
2007-2009 (DC) Dodge Truck (3500 series cab chassis)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed. During a prior service appointment, a Mopar service parts steering linkage was installed on about 19,400 of the above vehicles. The drag link inner joint may fracture under certain driving conditions. This could result in a loss of steering control and cause a crash without warning. Also, the steering damper bracket at the tie rod tube may loosen. This could allow the bracket to slide on the tube and may cause increased vehicle turning radius.

The steering linkage must be inspected and some steering linkage components may need to be replaced.
NOTE: The initial steering linkage inspection process can be done by write up personnel in the write up area (see Step 1 of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)

IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
DEALER CONTACT: Writer called WITHNELL DODGE 503-364-0184 as there is some confusion how dealership can close the H46 but not the N62. Customer did have replacement parts on the vehicle when inspected. SA Dave asked Writer to ask Customer to bring truck in again and they will inspect again. Customer does not require an appointment.
CUSTOMER CONTACT: Writer called [redacted]. Writer advised we will have to review the case further. Writer asked Customer if she could take her vehicle back into WITHNELL DODGE next week any time for an inspection. Customer should ask for SA Dave.
DEALER CONTACT: Writer called WITHNELL DODGE 503-364-0184. Writer was unable to reach SA Dave, to confirm if Customer had taken vehicle in for re-inspection.
DEALER CONTACT: Writer called WITHNELL DODGE 503-364-0184. Writer spoke to SA Cory(?), he advises there is no R.O. for Amber Brown so she has not been back to dealership.
DEALER CONTACT: Writer called WITHNELL DODGE 503-364-0184. Writer spoke to SA Dave. SA Dave has not seen Ms[redacted]
DEALER CONTACT: Writer called WITHNELL DODGE 503-364-0184. Writer spoke to SA Dave, Customer has not been back in. SA Dave he will try to contact with Customer, as he agrees vehicle should be inspected again.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided Case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, Chrysler CANNOT reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
DEALER CONTACT: Writer called WITHNELL DODGE 503-364-0184. Writer left a message for SM Peter Kennedy, as Writer is getting no where with SA s. Withnell Dodge has closed the H46 recall on Customers vehicle recently. Customer had purchased and had installed the steering upgrade package approximately May 29, 2013. Would this not be considered a replacement part ?, and how can they close the H46 and not the the N62 also ???? call SM and Customer on Monday.
Agent advised the customer of lines 85-91 and the customer was not satisfied with the response and would like an elaboration as to why the customer would not be reimbursed if the customer had replaced the parts with Chrysler certified Mopar parts. Customer would like a callback from the case manager that is currently working on the file for further information. [redacted]
CUSTOMER CONTACT: Writer called [redacted]. Writer spoke

to [redacted] s partner. Writer explained that Chrysler is not reimbursing for the initial repair of the factory original equipment.
Writer encouraged customer to have vehicle inspected at any CDJR, and if parts need to be replaced, Chrysler will do so and re- align the vehicle.
Customer understands and accepts. Writer is closing case.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	LEFT OUTER TIE ROD ASSEMBLY
Recall - H46: STEERING LINKAGE - Advise Owner/Incomplete Recall	STEERING LINKAGE

Briefly summarize why the customer is contacting Chrysler: Jerid called asking if he could be reimburesed for the repair of the left tie rod as it broke while on the road and the dealership in his area at the time did not have the part so he went to an IRF.
Briefly summarize what the customer is expecting: Customer seeking reimbursement
Agent provided the fax number 1-877-768-5076 to submit for possible reimbursement and advised the customer there was a open recall H46 steering linkage. Agent offered to transfer the call to a dealership for the open recall but customer declined.

Recall - H46: STEERING LINKAGE -	customer states he needs repair
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY -	customer states tie rod broke this morning

Briefly summarize why the customer is contacting Chrysler: customer called in to say his tie rod broke off this morning and when he called the dealership to say that he stated that dealership said he had no recalls, it sounded like something else. Customer is worried he has to pay for the repair. Agent advised that customer did have 2 recalls and if it was indeed these issues they would be covered. The only way to know would be to get it to dealership.
Briefly summarize what the customer is expecting: To have tie rod covered
-
Briefly summarize why the customer is contacting Chrysler: Customer called in stating they called in previously. Customer states they have a recall on their 2006 DODGE RAM 3500 LARAMIE QUAD CAB 4X4. Customer states their vehicle is at #44726.
Briefly summarize what the customer is expecting: Customer is seeking rental assistance.
-
Agent spoke with Jason SW at #44726. SW states they have spoken to customer and customer s parents half hour a piece. SW states they advised customer to not drop off vehicle to dealership because of parts have no ETA. SW states the customer s vehicle is number one on the list to be repaired once the N62 and H46 parts are available.
Agent advised customer that at this time Chrysler can not provide rental.
Agent advised customer to keep in contact with their dealership for further assistance with getting their vehicle repaired.
-
Customer states the SW was rude when they brought their vehicle into the dealership. Customer states they would like to work with #68128. Customer states James O Neal Dealership have a suggested ETA of 01/22/14. Customer states they are going to have their vehicle towed to #68128. Agent transferred customer to Jordan in the service department to make further arrangements to tow their vehicle.

Corporate - CNA Change - Default - Default - Default	updated customers email address

1. Who is calling and what is their contact information? Mr. Randel Welch, owner and driver of vehicle.
[redacted]
-
2. What happened? The customer was driving for about 70 miles on 31/12/13, stopped for dinner, and was driving home when the left tie rod split in half (snapped). When the tie rod split in half, it resulted in him driving into a field. The customer stated that the ball joints are out of place, and the wheel barrings and suspension have been impacted as a result possibly. The customer is willing to get the recall completed, but wants to make sure that if anything else was ruined because of the recall that he does not have to pay for this. The customer took the left tie rod to the dealer 45543, and asked if there was anything he could do. The dealer said they had a left tie rod in stock, however he would need to bring the truck in to have it put on. The customer stated he is a certified mechanic, working at several garages over the years, and wanted to put it on himself so he could at least drive the vehicle to the dealer. Dealer declined.
-
3. What is the current location of the vehicle?
377 Buckeye Rd, Core, West Virginia - 26529

cbuen491aa, cbuen492aa these are campaign parts. Assigning to parts agent CG1016 to contact customer to let them know about their campaign part. Please contact Parts department and have them contact Expiditing or place a web request for these parts. Dlr can do up to 5 parts at a time. Thank you.
**********END OF TRIAGE**********
Customer called to follow up on the case. Customer stated the vehicle is a work vehicle and needs as quickly as possible. Agent advised the file has been sent to Expiditing as per lines 54-59. Agent advised the customer should receive a call shortly from the CM assigned to the file with further infomation.
Customer called looking to find out where the parts are to fix her truck. Customer states that they need the truck to haul cattle.
Agent called the dealership and as per 96W s notes from 54 - 59 agent called dealership CROWN MOTORS Dealer Phone : 573-431-7800 and spoke with Gab in service who advised that everytime he tries to order the parts he says the order is cancelled in the morning.
Agent provided and transferred customer to CM VB254
Caller Mrs Messmer requesting to speak with Case Manager.
Case manager not available, nic SH1083
66138 took the call
CUSTOMER - Ms.[redacted] vehicle repaired now or needs comparable vehicle to use for business and moving. Customer requests call back from CM.
Customer reports that is accruing expenses to use someone else s vehicle. This arrangement requires other person to reschedule for the assistance, since vehicle cannot be left in customers care and control.
CM to note this part is a campaign part. Customer needs to contact dealer for more information on part concern. CM to reassign case to SH1083 for further handling.
Agent contacted dealership, phone number[redacted]. Agent contacted dealership to speak to SM about part status. SM informed agent again that she is not able to get the parts. Agent informed SM about being able to order 5 at a time via expiditing. SM states that everytime she orders the part Chrysler cancels the order. SM has sent a request up to the DM to see if he can ge this part expidited.
Agent contacted dealership, phone number dialed, 573-431-7800. Agent contacted dealership to speak to parts for an update. Agent spoke to Ken in parts who confirmed that everytime he tries to order 4-5 at a time Chrysler cancels the order. He can only get 1 every 7 days. Agent asked to be transferred to the SM (Heather) to inquire about if she has gotten an update from DM on expiditing. Agent was informed by SM that DM has not responded to her email. But she will call him. Agent thanked SM for her time and assistance.
Agent contacted customer, phone number dialed,[redacted]. Agent contacted customer to touch bases. Customer stated that she needs this truck because she has to be out of this house before 14 and customer

states that she wants and needs her vehicle. Customer states that she has a problem with getting out of this house and if she has a problem Ram has a problem.
Agent attempted to contact AM MP1162, phone number dialed, 6302102504.
Agent contacted AM to see if there is anything we can do for customer now. Agent left message containing contact information, 8007638422 ext 66325, requesting a call back.
Agent contacted dealership, phone number dialed, 573-431-7800. Agent contacted dealership inquiring about different part to get customer s vehicle temporarily fixed. SM (heather) stated that she is working on this now. Sm stated that she has already spoke to the DM who tried to put customer in a rental but they couldn t find a truck big enough. SM stated that she is working on getting the part now and she will have customer sign something that states that she understands that this is a temp fix and that we re not responsible for anything that happens because this is a temp fix. SM requesting agent call back Monday to make sure that there is nothing CM needs to do.
Customer transferred customer to VB254.
SM contacted agent to inform agent that a St Louis Depo is sitting on 900 of these recall parts and is not releasing them. SM is inquiring to see if there was anything that CM could do. Agent stated that she would look and contact SM with findings.
Customer stated that she is tired of waiting for this part and she is getting fed up. Customer is asking if one can be taken off another truck. Customer stated that she needs her truck. She is going to have a breach of contract if she doesn t get out of this house by the 14th. Customer states that she needs her truck. Customer stated that if she was on the highway when this happened it would ve been a law suit. Customer wants something done immediately.
Agent attempted to contact AM MP1162, phone number dialed, 6302102504. AM stated that PDC is in contact with SM. AM doesn t know the process anymore. 1 in 7 days is the only solution. AM stated that he can send it up as an emergency case but no one is in detroit so there will probably Monday until. Best thing that would happen would to get the part Monday. AM stated that he can get someone to go pick up the part from the dealership. PDC manager will be contacted. AM stated first thing Monday he will see if this can be set up.
Agent contacted dealership, phone number dialed, 573-431-7800. Agent spoke to SM (Heather) who informed agent that she got a hold of the PDC and they sent the parts on the truck and will be arriving tomorrow. Dealership is closed tomorrow but they are going to have a tech come in and complete the repairs tomorrow. Agent thanked SM for all of the effort it took to assist with this case.
Agent contacted customer, phone number [redacted]. Agent contacted customer to touch bases on everything. Customer is requesting that CAC reimburse for customer s towing expenses. Agent informed customer that if customer sends in documents agent will reimburse for towing expenses. Customer also inquired about reimbursing for customer s brother s time off work and miles driven while helping her. Customer ifnormed agent that it is 250 miles both wasy a day for two days. Agent informed customer that Ram doesn t typically reimburse for lost wages and things like that, but CM will look into compensation for customer. Agent informed customer that CM will contact customer on Monday 1/13 to touch bases and make sure everything went accordingly.
Agent contacted dealership, phone number dialed, 573-431-7800. Agent contacted dealerhsip to confirm everything went accordingly. Agent spoke to SM (Heather) and was informed that everything went accordingly as far as she knows. It is done and gone.
Agent attempted to contact customer, phone number dialed, [redacted]

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	tie rod

Briefly summarize why the Customer is contacting: Customer has N62 recall on truck. Customer has contacted Dealer and has name added to list restricted parts. Customer called KUNES COUNTRY CHRYSLER DODGE JEEP. Customer has been advised she is seventh on list, so it will take eight weeks to get part in. Customer wanted it noted that she has talked with Chrysler today, and if anything were to happen she will have confirmation of conversation. Agent provided Case # and US CAC for contact. Agent advised that we cannot answer to a what if situation, each case is reviewed on a case by case basis.
Briefly summarize what the customer is expecting: Customer wants remedy of recall.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer would like reimbursement for a recall repair
Corporate - Survey By-Pass - No Documentation - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Supervisor Jesse at town of Stettin seeking reimbursement for a recall repair. Customer states that their tie rod had broken and they have had it repaired already so they are looking for reimbursement. Agent advised they can submit for reimbursement but made no guarantees. Agent advised as per AC ID 24057 that the recall only applies to vehicles that had certain Mopar service parts steering components installed. Agent advised if that vehicle had the original style steering linkage no repair was necessary so they would not be reimbursed most likely. Customer understood and states they will send in their documents for review then. Agent will send a documentation request to [redacted]
Customer thanked the agent and disconnected the call.
Briefly summarize what the customer is expecting: Customer would like to be reimbursed for a recall repair.
Reassigned to: 86Y

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts

steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
Confirm name and address matches COIN & HPIMS: yes
Any open recalls:no
Name of person writing in: [redacted]
Does customer have an e-mail address: [redacted]
Concern:recall reimbursement
Reviewed previous files:yes
Writer has looked over documents
1) Purcell Tire Co - all 4 ball joints and tie rods replaced, alignment.
2) Jonesboro Alignment Service - offset upper ball joint installed, alignment.
Customer is only showing one repair of suspension tie rods - so unless there is another repair between 09/21/2009 and 03/14/2013, Writer assumes these are factory original parts that were removed, and replaced with unknown at Purcell. Customer has had vehicle inspected recently at CDJR. Repair does not qualify for reimbursement, under N62 recall, as Chrysler was looking for MOPAR replacement parts not factory original.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided Case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, we cannot reimburse. See lines 48-53.
Briefly summarize why the customer is contacting Chrysler: Customer calling in due to the fact that they received a phone call regarding their reimbursement.
Briefly summarize what the customer is expecting: Customer is expecting to receive information on their case.
Agent advised: Agent customer of lines 48-53.
Writer acknowledges, that Customer has made direct contact and he has been informed of decision. Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Recall - N49: LEFT TIE ROD - Information Request	18 of their fleet vehicles have the recall

***** EMAIL BRIEF DESCRIPTION CONTENT *****
recall N49
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
Our company has a fleet of 18 Dodge Ram 3500 series trucks from 20 years 2010-2013, we have received recall notice N49 for the left tie rod end. Since receiving this notice we have called Flemington Car and Truck Country multiple times with the same answer, the parts are not in and the trucks can not be fixed at this time. Due to the severity of this re-call we are wondering what Dodge is doing to make sure that these trucks are fixed in a timely manner, or if Dodge is providing loaner trucks until parts are made available so that they can be fixed properly. Also what the proper procedure is going to be when one of the tie rod ends break and there is an accident and how dodge is going to assume responsibility
*****END OF CUSTOMER EMAIL*****
Dear Ziegenfuus
Thank you for contacting the Ram Assistance Center.
Your concerns, particularly in view of the inconvenience involved in this issue, are understandable and we appreciate the time and effort you took to bring this matter to our attention. A case has been opened for you and the number is at the bottom of this page.
Due to the nature of your concern, your file has been escalated for further review. We feel this referral action will provide the best resource for your concerns. An agent will attempt to contact you within one business day at the phone number provided in your email (908.788.5100). If you wish to be reached at an alternative number, please respond so we may update your file appropriately.
Thanks again for your email. We look forward to further addressing this matter further with you.
Sincerely,
Crystal

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer inquired about the recall.
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer states he broke a tie rod end.

Briefly summarize why the customer is contacting Chrysler: Customer is calling because his vehicle broke a tie rod while he is working out of state in Kentucky.
Briefly summarize what the customer is expecting: Customer is looking to see if there is a recall for this issue. Writer advised customer that the N62 recall is on the vehicle for LEFT OUTER TIE ROD ASSEMBLY. Customer states he had contacted his local DLR who states they have the part. Customer inquired if a family member can pick up the part from his local DLR and bring it to the DLR in the town he is in for the repair. Writer found the only DLR in Elizabethtown KY is DLR 39712 SWOPE CHRYSLER DODGE JEEP. Writer phoned DLR and spoke with parts who advised that they have their area manager on the line who advised the recall part is not available until February or March. Parts advised that they can repair the vehicle using the faulty parts to assist the customer temporarily until the recall parts are available. Parts states the area manager is willing to provide goodwill for the customer however due to the weather conditions they are backed up and cannot complete the repair until Tuesday. Writer advised customer of the information parts provided. Writer offered to transfer customer to the DLR to see if they can work with him further to schedule the repair. Customer accepted transfer offer. Writer transferred customer to parts at DLR 39712 SWOPE CHRYSLER DODGE JEEP for further assistance.

******
Writer verified the customer s information to match coin, invoice and envelope.
******
Customer is requesting reimbursement for a repair completed under the N62 recall.
Customer sent in required documents.
******
Writer located the N62 is attached to this vehicle.
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
Writer located information for the N62:
Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:
The steering linkage assembly must be inspected and replaced if required.
******
Writer located the H46 recall to be completed: H46 STEERING LINKAGE SAFETY 04/27/2009 09/20/2013 COMPLETE
Writer located in claims - pitman arm.
******
Invoice - 81348 - 09/20/123 - 86139 Miles.
Writer will review as customer sent in 7 pages.
******
Invoice - 81348 - shows the tie rods were loose an updated tie rod kit had been installed the H46 had been completed at the same time showing

replacement of the pitman ar,.
*****
Writer will call the customer to advise reimbursement will not be provided as this is the first repair the parts that are on the vehicle now may be the parts being recalled and to contact the dealership have the N62 recall completed.
******
Writer will cal[redacted].
Writer left a message this call is for[redacted] from Debbie of Chrysler in regards to an invoice received for the 2008 DODGE RAM.
Writer supplied 855-675-9291, extension 4718492 and cair[redacted]
******
Writer received a call from the customer. Writer advised the customer the recall is for a replacement part not the manufactured part. Customer stated they replaced the front end and did a recall.
Writer advised the tie rods were updated and they did do a different recall to replace the pitman arm, this recall is a part recall for the linkage it does not appear this had been changed. Writer advised if a repair had taken place prior to this one the manufactured part would have been removed a replacement part added, this is what the recall is for.
Customer asked if this is a part recall then. Writer advised yes.
Writer advised the dealership will inspect this to see if the linkage is connected to the tie rod correctly and replace if necessary. Writer apologized reimbursement will not be provided.
Customer understood.

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer called [redacted] Writer spoke directly with Mr. [redacted] Writer advised Chrysler is Not reimbursing for breakdown of factory original equipment. Mr. [redacted] advises this is the first repair he had on vehicle. Writer advised Chrysler needs to have

the vehicle inspected for the replacement parts, and if parts need to be replaced Chrysler will do so complimentary. Customer advises the IRF did get Chrysler replacement parts as far as he knew. Customer accepts there is no reimbursement at this time. Writer closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Concern: Reimbursement request for N62 recall, towing and rental.
Reviewed Previous files: Yes, no concerns.
Customer is seeking reimbursement under recall N62. In order for customer to be eligible for reimbursement, he will need to submit another invoice showing a prior steering linkage repair. Recall is on mopar replacement parts not the factory parts.
Called customer at 12:04 [redacted] spoke to customer and advised of the of the recall parameters. Customer stated it was the original parts that broke. Agent advised customer if it was the original parts that broke, he would not be eligible for a reimbursement. Customer understood and asked to have his documents sent back. Agent advised this would done. Agent also advised customer the recall is still open so he can take the vehicle to a Chrysler dealership and they will complete the recall. Customer understood.

Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and had the H46 recall completed in 2010 and no parts were replaced at that time.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Customer called regarding the message left for him by Greg. Agent advised customer lines 14-19 and customer is not happy with this. Customer states that he has this work completed at a local dlr and he does not understand why it has been declined. Agent tried to verify with customer is an inspection has been completed for the N62 recall and customer states that the Dave Smith did it and stated its all been upgraded and a little over a month later there is a recall issued. Agent attempted to contact AL as per the customer the SM at the Save Smith Frontier Slaes and Service and determine the actual repairs, agent got Dan whom is the SM and he stated that they are not able to do warranty or recall work they do other jobs for the dlr. Stated that the customer did receive a full upgrade on the steering system. Agent informed customer that he may need to visit the Dave Smith Motors 208) 784-1208
To have the inspection completed for the N62 a customer states that he is not happy about this the entire front end was replaced.
Agent informed that will forward this information off to the working agent and see if it can be looked under the H46 recall as well. Agent

informed customer will contact on Tuesday with further updates
*********Please review if customer fits the merits for the H46 recall**********
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time. Please also advise the customer that the documentation was also reviewed regarding the H46 recall and the customer had the H46 recall completed in 2010 and there were no parts replaced at that time.
Customer would like to speak to GG467. Writer advised the customer of lines 43-51. Customer states that he will be contacting his attorney generals office. Customer states that the vehicle is exibiting symptoms of the recall. Customer is very upset.
Customer is requesting that GG467 contact him.
Agent called customer and advised him of the recall information. Customer states he did have repairs completed previously at an IRF and is going to mail in the documents for review. Agent advised customer the documents will be reviewed once they arrive and also to have the recall completed. Customer states he will call the dealer and have the recall completed as well.

Customer has submitted documentation for reimbursement consideration under the N62 recall. N62 pertains to mopar service parts that would have been installed not the original factory installed equipment. Writer notes that H46 was completed on 06/11/19 claim number 105201 with no parts installed. Writer also notes that in previous CAIR [redacted] customer was informed of open recall J35 reprogram ECM.
OUTBOUND CALL TO CUSTOMER: [redacted] Writer left voice mail message stating call is in regards to documentation submitted under recall N62 for the 2008 Ram. Writer provided phone number 1-855-675-9291, ext 4718296 and CAIR number.
NEXT AGENT: If customer calls in please refer to lines 8-13 for narrative. Writer unable to reimburse under the parameters of N62 recall. Please advise customer to contact dealership to have recalls N62 and J35 completed at no charge to customer.
OUTBOUND CALL TO CUSTOMER: [redacted] Writer explained lines 8-12. Customer is upset because he is not getting reimbursed for the tie rods that were replaced. Customer states that he had called into customer assistance for the tie rods when they broke and was not given any assistance at that time. Writer states that the previous case file was reviewed. Writer advised that the repair was completed at an IRF and no part numbers are available on invoice to verify if Mopar parts were used. Customer is irate and states that Mopar parts were not used. Customer states that he would not replace bad parts with more bad parts from Mopar. Writer advised that recall applies only to mopar service parts for steering linkage. Customer states that Chrysler has lousy customer service and he will take this issue with tie rods legal. Customer states that he will go online and owns a business and will tell all his customers. Customer states that he will never purchase another Chrysler vehicle again.

****** Below Customer Contacted for Documentation Request ******
[redacted] on 2014-01-10 @ 08:30
Briefly summarize why the customer is contacting Chrysler: Customer called for reimbursement information. Customer stated he just received a recall notice for the N62 LEFT OUTER TIE ROD ASSEMBLY. Customer stated not long ago he needed to have the TIE ROD ASSEMBLY replaced and wanted to know the process to be reimbursed for the repair. Customer stated he had the repair completed at a local IRF and possibly aftermarket parts were used. Agent offered the email link to send his documents in for review and possible reimbursement. Agent advised he is able to visit his local Chrysler dealer to have the vehicle inspected to see if would require having the recall completed.
Briefly summarize what the customer is expecting: Customer seeking reimbursement information.

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.

Repair: The steering linkage assembly must be inspected and replaced if required.
Safety Recall H46 - Mopar Steering Linkage
2003-2004 (DR) Dodge Truck 4x4 (2500/3500 series)
2005 (DH) Dodge Truck 4x4 (2500/3500 series)
2006-2009 (DH) Dodge Truck 4x4 (2500/3500 series or 1500 Mega Cab)
2006-2009 (D1) Dodge Truck 4x4 (3500 series)
2007-2009 (DC) Dodge Truck (3500 series cab chassis)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed. During a prior service appointment, a Mopar service parts steering linkage was installed on about 19,400 of the above vehicles. The drag link inner joint may fracture under certain driving conditions. This could result in a loss of steering control and cause a crash without warning. Also, the steering damper bracket at the tie rod tube may loosen. This could allow the bracket to slide on the tube and may cause increased vehicle turning radius.
The steering linkage must be inspected and some steering linkage components may need to be replaced.
NOTE: The initial steering linkage inspection process can be done by write up personnel in the write up area (see Step 1 of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
Writer advising Customer is submitting documents from:
1) Sheridan - left outer tie rod broke/replaced.
Customer is not the original owner, no previous reports in Chrysler.
Writer will assume this is original factory equipment that broke and not a replacement MOPAR part.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, we cannot reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
Customer states that he had his part replaced at a Nissan DLR and it was the first time having it replaced. Agent told customer s lines 73-79.
Agent told customer that he will still need to have his recall completed.
Agent offered to transfer him over; customer states that he will contact the DLR himself.
Writer is closing Case. Customer has contacted directly and been informed properly.
Customer called with an update.
Customer took his vehicle to the dealership on Saturday January 25, 2014 and they told him his vehicle had Mopar parts on it. They did not replace any parts.
Agent asked if they did both recalls while he was there and he said he is not sure, he is unaware that he had two recalls on the vehicle.
Customer took the vehicle to DAVID DODGE CHRYSLER JEEP #45249.
Agent called to the dealership at 610-358-5300 but they were not open yet. They open at 7:30 am EST.
Agent advised she will have to call to the dealership once they are open and find out what they did and get back to him.
Customer said to call him at [redacted] which is his work number or email him at [redacted] his work email with any updates.
Agent called to the dealership and spoke to VINCE -SM and he said that the vehicle has the proper style tie rods on it, so they did not replace them.
Agent called to the customer and explained what the SM relayed to her.
Agent explained that both the recall N62 and H46 are for replacement parts only, not the original parts from the factory. Since the N62 was recently completed, it has the newest parts on it.
Agent explained that if the replacement part on his truck now breaks, then it could possibly be covered under the N62 recall in the future.

Briefly summarize why the customer is contacting Chrysler: Customer states he only just got a letter for recall n62 and was not aware of h46 recall. Customer states he was driving down the highway and lost control of vehicle steering and was able to bring the vehicle to a stop which could have ended in a terrible accident. Customer states he contacted his AAA services who brought the vehicle to an authorized AAA DLR for the repairs. Customer states he has paid out of pocket for the recall repairs and is seeking reimbursement as per the letter.
Briefly summarize what the customer is expecting: recall information for related out of pocket expense to get reimbursement.
Writer updated coin.
Writer advised customer as per N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM Answer ID 24057: If you have already experienced this condition and have paid to have it repaired, please send your original receipts and/or other adequate proof of payment to the following address for reimbursement: Chrysler Customer Assistance, P.O. Box 21-8007, Auburn Hills, MI 48321-8007, Attention: Reimbursement. Once we receive and verify the required documents, reimbursement will be sent to you within 60 days.
Writer advised customer of H46 recall that has not been completed on the vehicle.
Writer advised customer to contact DLR for an appointment to have vehicle inspected to determine if he needs parts replaced as customer does not know the exact part history on his vehicle. Customer declined and will callback later to speak to the DLR.
Reassigned to lb546.

Customer is seeking reimbursement for the H46 and the N62 recalls.
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and submitted documentation showing only 1 repair.
Agent called customer at [redacted] she was out of the office.

Agent called customer at [redacted] and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components or the tie rods listed in recall N62, then the repair is not related to the recall because they were not Mopar service parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time. Please also advise the customer to contact an authorized Chrysler dealer to have the recall completed.
Status update provided via email to the following email address:
[redacted]
My name is Greg and I am contacting you from the Chrysler Reimbursement Team. I have reviewed your request for reimbursement. Please contact us at 1-800-853-1403 and refer to the case number [redacted] so that we can discuss your request with you, thank you.
End of Status Update
Next agent please advise customer of lines 39-46.
Briefly summarize why the customer is contacting Chrysler: Customer was calling back in regards to his reimbursement case and was informed of lines 39-46. Customer is taking the vehicle to have any recalls completed.
Briefly summarize what the customer is expecting: To gain more information on his recalls and reimbursement.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	recall denied at dlr
Corporate - CNA Change - Default - Default - Default	updated customer information

Briefly summarize why the customer is contacting Chrysler: Customer stated he was at the dlr earlier this morning and they would not complete the recall because he has a stud rather than the ubolts on the tie rod. Customer states his son has the same set up on his Ram 3500 and the right side broke 2 days ago and the dlr isn t covering that either. Customer feels this is not right and feels unsafe in his vehicle.
Briefly summarize what the customer is expecting: Customer seeking information regarding the recall N62.
Agent advised that prior recall H46 was completed on his truck and that the straight bolt is the updated part for the steering linkage and this is why his vehicle passed the recall inspection. Agent reviewed son s file and advised that the recall was put in place because it was the left tie rod that was failing. Agent advised that it may have the same setup as father s 2500 but it was the right side that failed and therefore does not meet the criteria for the recall and we did review for cost assistance when his son called but we are unable to assist.
Customer stated he understood but still feels unsafe and is not impressed with Chrysler s service and has requested a supervisor callback. Agent advised it will take 1-2 business days for the callback.
Best contact# [redacted] day or evening.
Please contact the dealership to inquire why they are not according to the customer completing the recall
Agent called dlr and spoke with SA Debbie who confirmed they did do an inspection and customer already has the updated linkage from when the H46 was performed and therefore did not require a replacement under the N62.
SA Debbie stated they even showed the customer the pictures from the recall outlining what they were looking for.
In the case of son s vehicle, it is the right side that broke which is not the scope of the recall at this time, it is for the left side.
JM2545 - please close CAIR -
As per line 30, agent closing file.

Product - Steering - Linkage - Other - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states the steering linkage (which is on recall) broke while he was driving and he and his son ran into a tree. Customer states he uses this vehicle as a work truck and he has had too many issues with it already. Customer states this is his 4th vehicle he has owned and has had nothing but trouble with this vehicle. Customer states the dealership told him there are no parts for this recall and he is currently in a rental that is not going to do what he wants it to do. Customer is looking to see what he should do.
Briefly summarize what the customer is expecting: next step
Agent advised customer we will need to research. Agent advised customer that we will have to speak with the dealership. Agent advised customer we will be looking to forward to CM to look into this further. Agent advised customer that if he needs to call us back to give the cell phone number and the next agent will be able to access the file. Customer thanked agent for the information.
**Agent contacted 65023 CROWLEY CHRY-JEEP-DODGE INC at 860-261-3000 and asked for service. Agent spoke with SA Dave. Agent asked if the vehicle has been diagnosed yet. SA states it has not yet been brought in to the shop but a technician thinks the tie rod has popped out. Agent asked if there was any damage due to hitting the tree. SA states there is a dent on rear bumper and possible tire damage due to the tie rod. Agent advised we will be looking to get the case up to a CM for further assistance.
**Agent was just about to get back to the customer when the call dropped.
***Customer advised a call back is required and will take place within one business day by COB their time
Preferred Morning/Midday call back number is [redacted]
Preferred Afternoon/Evening call back number is [redacted]
Customer email address for case updates: n/a
Who has possession of the vehicle? Dealer
Has the vehicle been diagnosed by a CDJ dealer? No
If a CDJ dealer has diagnosed, what is the dealer name or code? 65023

CROWLEY CHRY-JEEP-DODGE INC
Reassigned to 88F
Customer states that he lost signal while speak with the llast agent and wanted to speak back with her.
Agent advised that we do not have extensions and is not able to transfer to her. Agent advised that the last agent spoke with the DRL and went his information over to our CM department. Agent advised that and CM would be in contact with him some time on Monday. Customer states that he is in a rental but the vehicle is not adequate for his work. Customer wanted to know if we would cover the cost to get a full ton pick up for him. Agent advised that we only cover $40 a day for rental. Agent advised customer that he can speak with the CM regarding that matter as they would be the only ones that could possibly authorize that.
******
Briefly summarize why the customer is contacting Chrysler: Customer stated the truck broke last week and it is a recall item. Customer stated he is not getting any answers from anyone. Customer stated this is the main business vehicle.
Briefly summarize what the customer is expecting: Customer wants to speak to the person who is in charge of the vehicle.
Customer stated he cannot wait a week for this truck and knows the parts are restricted the dealership has informed him he needs to speak with someone one.
Writer advised there is a CM assigned to the file the cair was sent up on Friday there is a one business day contact.
******
Writer searched Answer connect ID: 19956 - supplied the phone number and extension as well as the cair number and transferred the call advising the customer to leave a message if the CM is not available.
TW574 TANIA 66278.
Customer called writer and left a message stating that he would like a call back regarding his case.
Writer contacted customer at 65023 at [redacted] and spoke with [redacted] who is a cashier is Service Department as the Service Manager was not in the office and they were short handed. Mat stated that the vehicle was towed on 1/10/2014 with the check engine light on. Writer was advised that there is no correction for this. [redacted] advised writer that rental was provided. Writer was advised that the part that was ordered is the outer end and the part #CBUEN491AA.
Writer contacted customer at 65023 at 860-261-3000 and spoke with Denny in the Parts Department who confirmed that #CBUEN491AA is the correct part number and writer advised that the order #17112.
Writer contacted customer at [redacted] Writer informed customer that we are waiting on the part. Customer stated that it is ridiculous to have a new vehicle and have it in the shop as much as it is. Writer informed customer that the Service Manager was unable to be reached but will try and contact again. Customer asked writer what is he supposed to do next week when he goes back to work. Writer informed customer that with him being in a rental we are not able to switch out the vehicles.
Writer contacted customer at 65023 at [redacted] and left message for Service Manager Tim.
Tim, Service Manager at dealer 65203 calling to speak with Case Manager TW574. Writer advised CM is available and will transfer dealer over to ext 66278.
Service manager Tim called per message. SM stated that the customer has a n49 recall. SM stated that the Tie Rod snapped and caused the customer to hit a tree. SM stated that they are doing everything is there power to get this part to the dealership. SM advised writer that he has already involved in manager and parts expediting to try and get this part. SM stated that there is 945 parts sitting at the depot and stated that anything that we can do to help get this part to the dealership would be great. SM advised writer that the customer is in a vehicle that is over the 35$ limit and the customer just needs his vehicle back.
CONTACT UPDATE - 1st Contact attempt, lines 65-71
per line 75 *Writer contacted Dealership**
per line 97 correction to 72 and 65**
Writer contacted customer at [redacted]. Writer informed customer that when i spoke with the dealership yesterday they were still waiting on parts. Customer informed writer that he has been advised by the dealership that the part did arrive. Customer stated that he was advised

that there were some other problems that were found as well. Customer stated that they are going to have it in the body shop as well to fix the dents when the vehicle was crashed into the tree. Customer was advised that it should be ready Wednesday 1/15/2014.
Writer contacted customer at 65023 at [redacted] and spoke with Matt the cashier in Service. Writer was advised that the vehicle in still in the shop waiting for two more parts. The exhaust manifold pressure #68002442AA and the EMT censor #68175216AA are not in yet. Writer was advised that the order #3967 is for both parts.
Writer contacted customer at 65023 at [redacted] and spoke with Service Manager Tim who advised writer that the tie rod has been fixed and then they were dealing with a check engine light. SM stated that they were just finishing up the vehicle and would have it ready to go today.
Writer contacted customer at [redacted] and left a message.
Customer called requesting a call back on cell phone [redacted]
Writer contacted customer at [redacted]. Customer informed writer that everything is running fine with the vehicle. Customer advised writer that there is still a couple things that need to be fixed on the vehicle and that the dealership is taking care of him. Customer advised writer that when his vehicle broke down that he has to pay for towing which was about $70.00 and would like to be reimbursed, writer informed the customer to send in the towing bill and writer will see if that is something that we could assist with. Customer stated that when the vehicle is dropped off that there was $80.00 in diesel gas put in the vehicle and that the dealership drove the vehicle 200 miles for test drives. Customer stated that he wants to be reimbursed for this gas because the dealership was only able to put 5 gallons of gas back in the vehicle. Writer explained to the customer that the towing bill will need to be sent in for more research but gas is not something that we reimburse for customer stated that he needs reimbursement because this happened due to a recall that he had no control over. Writer advised the customer that more research will be completed and will contact customer once the research has been completed. Customer asked writer to send this link for him to send in the documents and asked to put the fax number as well. Customer provided email address [redacted].

2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
Briefly summarize why the Customer is contacting: Customer is calling as she has recall on VIN. Agent explained N62 Chrysler is looking for replacement parts. Mrs. [redacted] is not sure if there have been any repairs to linkage. Agent advised Customer to have vehicle in at any CDJR Dealer and they will inspect, and if linkage qualifies it will be replaced complimentary.
Briefly summarize what the customer is expecting: Customer wants remedy of recall.

Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Left tie rod assembly broke
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Recall information
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler:Customer called wanting to know when he can get a part for the N62 recall.
Briefly summarize what the customer is expecting: Customer expecting a part for the N62 recall.
Customer contacted agent stating that the left tie rod assembly has broken on his vehicle. Customer wants to know when he can get the parts to repair his vehicle. Agent advised the customer that the agent would call the dealership to find information on th parts to complete the N62 recall. Customer understood. Agent called the dealership and spoke to SA Ryan. Agent asked SA Ryan about the customers vehicle and when the parts would be available. SA Ryan states that the Tie rod assembly has broken on the customers vehicle and that the parts for the vehicle are not available. Agent asked SA ryan if he had a part number. SA Ryan gave agent 2 part numbers and the order number. CBUEN491AA, CBUEN492AA, and Order nuimber 20780. SA Ryan states that the part should be arriving soon though and that it is starting to show in the system but there is no ETA. Agent thanked SA Ryan for his time. Agent asdvised the customer of the information received. Customer understood and stated that he will wait.

Corporate - Reimbursement - Default - Default - Default	Customer requesting reimbursement for previously replaced tie rod

****** Below Customer Contacted for Documentation Request ******
[redacted] on 2014-01-10 @ 14:41
Briefly summarize why the customer is contacting Chrysler:
Customer stated he had left tie rod assembly replaced on 9/15/12.
Customer stated he went to dealer 45500 for recall n62 and they inspected vehicle and determined that the MOPAR replacement steering linkage was on vehicle and ordered parts and put customer on parts list due to Chrysler putting dealers on parts ordering restriction.
Briefly summarize what the customer is expecting:
Customer requesting reimbursement for previously replaced left tie rod assembly.
Agent asked customer if he had document-scanning capabilities on his computer and customer stated he did.
Agent asked customer if he would like a document link sent to his email, with email link to scan documents and customer stated he would. Agent informed customer that email will contain instructions on what documents to scan and that when documents are received, it will take up to 60 days to process request.

Recall - N49: LEFT TIE ROD - Advise Owner/Incomplete Recall	tie rod/restricted distribution
Corporate - Survey By-Pass - No Documentation - Default - Default	

Briefly summarize why the Customer is contacting: Customer is calling as he has had recall notice for N49. Agent called Mark s Casa CDJR and spoke to Greg who recommended as the Customer has a Diesel truck he should become accustomed to Malloy Dodge across the street 505 922 2520. Agent called Malloy Dodge but was only able to leave a voice mail with Customers contact information/VIN/Recall/ part restriction request to get an order in/Case #.
Customer then asked as he had tie rod replaced broke, September 2011, could he send in paperwork/invoices in regards to destroying two tires. Agent advised he could send in his documents for review. Agent provided mailing address as per AC ID 17420. Agent provided case #.
Briefly summarize what the customer is expecting: Customer requires recall information.
Agent called customer at [redacted] and left voicemail advising I will be closing the file in two business days if documents not received.
****
Briefly summarize why the customer is contacting Chrysler: Customer contacted chrysler and gave agent the case number, agent explain about the information on his file. Agent called over to Malloy dodge at 505-922-2520 and it went to voice mail. Customer also wanted to know the part number of the left tie rod. Customer states he doesn t know what documents he has to give to Chrysler.
Agent told customer to call the DLR tomorrow if he needs to speak with them, customer said okay, agent also told customer that the parts were on back order at the moment and told customer to try and get on a waiting list, customer said okay. No further assistance needed.
Briefly summarize what the customer is expecting: Customer is expecting to speak with the DLRship.
Reassign to JK671 for survey bypass. No documents sent in.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reoccurance or Related Problem	Customer's truck is broken down on the side of the road
Corporate - Survey By-Pass - No Diagnosis - Default - Default	Recall N620 - Reoccurrance or Related Problem

Briefly summarize why the customer is contacting Chrysler: Customer states he received recall notice in the mail 3 weeks ago. Customer called dealer 2 weeks ago and the parts were not available. Customer s vehicle is currently broken down on the side of the road. Customer states this is due to a recall-related issue. Customer is waiting for towing assistance to the nearest dealership. Customer wants tow to be reimbursed. Customer states that their truck is their only vehicle and is needed for work. Customer states that they would like rental assistance if their truck cannot be repaired in a reasonable amount of time.
Briefly summarize what the customer is expecting: Customer is expecting reimbursement for their towing cost and possible rental assistance. Agent advised customer that their vehicle needs to be diagnosed by a dealership, and that until this happens, we cannot determine if they are eligible for reimbursement of any kind.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking information about the recall.
Product - Wheels and Tires - Tires - Excessive Tire Wear - Unknown	Customer states his tires are wearing out quickly.
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer is calling because he has an issue with his alignment causing his tires to wear out and he feels this should be covered under the N62 recall.
Briefly summarize what the customer is expecting: Customer is expecting his tires and new alignment to be covered under the N62 recall. Writer advised customer the the issue the recall is looking to correct is an issue where The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning. Writer advised customer that as the recall is not looking to repair an issue that would cause misalignment it is unlikely the issue will be covered under the recall. Customer states that as an alignment is needed after performing the recall the alignment and the new tires due to wear from a misalignment should be covered. Writer advised customer that tires are not covered under factory warranty as Dodge does not manufacture the tires. Writer advised customer that there are many issues that could cause an alignment to go out sooner than normal and the issue with the alignment would have to be diagnosed as being directly related to the recall issue to be considered for coverage under the recall. Writer requested to phone the DLR to obtain the diagnosis information regarding the tire wear issue to see if it is related to the recall concern.
Customer states he has an appointment tomorrow for the diagnosis and has not brought the vehicle in yet. Writer advised customer continue with his scheduled appointment and phone CAC back after the diagnosis is completed so verification can be made that the recall issue is causing the misalignment and tire wear out.

1. Who is calling and what is their contact information? Owner is calling in.
Preferred: [redacted]
Alternate: [redacted]
2. What happened? Customer states that they had received a recall notification in the mail regarding their vehicle. Customer took their vehicle to the dealership in order to get it inspected to see if it was safe to drive as the part was not available and their little brother would be driving the vehicle. Customer s brother was driving the vehicle and then got into an accident and got injured. Customer states that the reason why their brother got into an accident was due to the fact that there was an open recall that could not get repaired. Agent contacted the dealership and spoke with SA Joe who advised that the SM was not in at the moment however they would be looking at the vehicle on 01/11/2013. Agent then spoke with Lavel in service, and agent advised not to repair vehicle, only to look at it.
3. What is the current location of the vehicle? The current location of the customer s vehicle is at the dealership, as the vehicle just got towed in order to complete a diagnosis.

Recall - N49: LEFT TIE ROD - Information Request

Briefly summarize why the customer is contacting Chrysler: Customer called in stating that his vehicle is down due to the tie rod broke. Customer called in requesting information about the towing coverage. The customer needs to get the vehicle towed to the dealership.
Briefly summarize what the customer is expecting: information about the towing coverage.
Writer advised customer that the towing covers to the nearest dealership. SA Chase calling in to get more information on the customer s case. SA Chase states that the customer told him that Chrysler advised him that we could authorize the customer a rental vehicle. Agent advised that we don t offer rentals for recalls. SA Chase states he will relay this to the customer.

Good Morning,
My name is Jenna your case manager. I have reviewed your case for your request for reimbursement for N62. As it states on the letter N62 is on MOPAR replacement Parts.
I will need to see an invoice showing that you had the steering linkage replaced with MOPAR replacement parts then a second invoice showing the tie rods was replaced.
If you could send in both invoices so the reimbursement process can continue. If you wish to discuss the recall further to please contact me directly at 855-675-9291 ext 4718558.
Thank-you
Jenna

Writer located information for the N62 recall:
Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
******
Writer located the H46 recall to be attached and completed:H46 STEERING LINKAGE SAFETY 04/27/2009 06/17/2010 COMPLETE
Writer located in claims the H46 was an inspection with no parts replaced.
******
Invoice - FOCS39802 - 09/27/13 - 134477 Miles - ball joints and steering assembly upgrade due to the parts being loose.
******
Customer will have to supply an invoice showing a repair completed between 2010 and 2013 to be considered for reimbursement as this recall

is for a replacement part.
******
Customer blacked out the telephone number on the invoice there are no numbers showing in coin.
******
Writer will search 411.com.
Writer will call Home [redacted]
Writer left a message this call is for [redacted] from Debbie of Chrysler in regards to an invoice received for the 2005 DODGE RAM. Writer supplied 855-675-9291, extension 4718492 and cair number 2[redacted]
******
Writer will call - [redacted].
Writer spoke with Cindy who stated this was her sons truck and she sent in the paper work in. Writer advised reimbursement will not be provide as the recall is for a replacement part and is not for the ball joints. Customer s mother stated he had this repair in the fall and the steering had been replaced. Writer advised the recall is for a replacement part that was not on this vehicle at the time of repair as the customer s mother stated no other repair had been completed. Customer s mother suggested the writer call her husband as he paid for the repair and would understand about parts.
Customer s mother supplied [redacted] cell.
******
Writer will cal[redacted].
Writer left a message this call is for Shane Irick from Debbie of Chrysler. Writer advised a conversation had taken place with his wife and would like to speak to him in regards to the repair and recall for the 2005 Ram. Writer supplied 855-675-9291, extension 4718492 and cair number [redacted]
******
Writer will call [redacted]
Writer left a message this call is for [redacted] from Debbie of Chrysler in regards to a repair completed on the 2005 DODGE RAM. Writer supplied 855-675-9291, extension 4718492 and cair number[redacted]
******
Writer will reassign to the TL for the addition of a survey by pass as the customer has not responded.
Customer called stating she is not sure why we will not reimburse her. Agent advised as per previous notes (lines 53-58) that the reimbursement will not be provided as the recall is for the replacment part and not the ball joints. Also that the replacement parts were not on the vehicle at the time of the repair. Customer states her husband will call. Agent advised the decision will remain the same and will not change as the recall is very specific.
Customer has been advised of decline. Close the file.

Writer acknowledges assignment.
Writer has acknowledged that Customer has submitted a parts invoice dated 10/07/2013, where he purchased four(4) Moog tie rods, from Federated Auto Parts. Customer indicates he completed the repair himself.
Writer went to 411.com to find a phone number. Writer guessed approximate mileage.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, we cannot reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts

steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
Safety Recall H46 - Mopar Steering Linkage
2003-2004 (DR) Dodge Truck 4x4 (2500/3500 series)
2005 (DH) Dodge Truck 4x4 (2500/3500 series)
2006-2009 (DH) Dodge Truck 4x4 (2500/3500 series or 1500 Mega Cab)
2006-2009 (D1) Dodge Truck 4x4 (3500 series)
2007-2009 (DC) Dodge Truck (3500 series cab chassis)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed. During a prior service appointment, a Mopar service parts steering linkage was installed on about 19,400 of the above vehicles. The drag link inner joint may fracture under certain driving conditions. This could result in a loss of steering control and cause a crash without warning. Also, the steering damper bracket at the tie rod tube may loosen. This could allow the bracket to slide on the tube and may cause increased vehicle turning radius.
The steering linkage must be inspected and some steering linkage components may need to be replaced.
NOTE: The initial steering linkage inspection process can be done by write up personnel in the write up area (see Step 1 of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
Safety Recall E17 Out-of-Park Alarm System
2003 2004 (DR) Dodge Ram Pickup Truck
2005 (DH) Dodge Ram Pickup Truck
NOTE: This recall applies only to the above vehicles equipped with a 5.9L diesel engine (6 or C in the 8th VIN Position) and an automatic transmission (sales code DGP or DG8).
In certain circumstances when a driver has not placed the shifter lever fully into the Park position and leaves the engine running, the vehicle may unexpectedly move rearward after seeming to be stable. Unintended rearward movement of a vehicle could injure those in and/or near the vehicle. An Out-of-Park alarm system must be installed on the vehicle. The alarm system will beep the horn and flash the headlamps and shift indicator if a driver tries to exit a running vehicle without fully placing the shifter into the Park position.
Customer called bcak in. Agent advised customer of lines 17-21.
Customer understood.
CW653 can close the case.
Writer acknowledges Customer has made direct contact, and has been informed properly. Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Customer called in after receiving the message. Agent advised customer that we did receive the receipt from Glovers but we needed something that shows the actual part numbers for what was replaced. Customer understood and will speak with the IRF to get that information. Agent advised customer that even if he had the parts repaired, he would still need to bring the vehicle into a Ram dealership to have the N62 inspection done to confirm that the correct parts are on the vehicle. Customer understood and will get that done.
Customer states that the vehicle currently has 175000 miles on the vehicle.
Customer states that it was about 160 thousand miles when the accident occurred.
Customer provided contact number for Glover s Auto & Diesel Service 931-209-6297.
CUSTOMER CONTACT: Writer called [redacted] Writer called back customer because Agent advised him we needed to know what kind of parts he put on his vehicle. Writer did NOT want to inconvenience the Customer. Customer is confirming this is the first repair he has done on the steering. Writer advised we cannot reimburse as Chrysler is looking for replacement parts. Customer advising he used aftermarket - non MOPAR parts. Writer advised that is fine, and we will close the case.

Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
CUSTOMER CONTACT: Writer called [redacted] GGS. Writer provided case # and US CAC for contact.
**********AGENTS - please read and relay lines 37-43.
Customer called stating they received a call from US CAC.
Agent advised Customer that because aftermarket parts are used we will not be reinbursing. Customer did not agree.
Customer called for clarification on decision.
-
Agent reviewed case notes and advised customer (lines 11-13) that the parts he had replaced are not part of the parts list for the N62 recall.
Agent informed the customer that the N62 recall is for the left outer tie rod assembly and he had the left inner tie rod and the right outer tie rod replaced.
-
Agent recommended that the customer take his vehicle in for inspection for the N62 recall. Agent advised at this time he could take his vehicle for inspection to determine if replacement is required. Agent advised customer that if replacement is required the dealership should be able to put the vehicle on the waiting list for parts.
-
Customer thanked agent for explaining the decision.
Writer acknowledges that Customer has contacted directly and has been advised of the proper information (MP1270). Writer is closing case.

Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and recall H46 completed in 2009 but no parts were replaced at that time.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Customer contacting Chrysler returning GG467 call. Agent advised of lines 14-19. Customer became irate stating that he paid to have the part replaced and even though the part was fine at the time of the recall it still broke and feels he should be reimbursed. Customer stated that he feels Chrysler is trying to get out of paying for the part all together.
Agent advised this recall only applies to the parts that were replaced during H46 recall, since he did not have parts replaced he will not be reimbursed. Customer understood.

Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	customer seeking information about the part he purchased for N62 recall

Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler wanting to make sure that the part he purchase for the N62 recall on his truck is the right part. Customer states that he has had his tie rods break twice. Customer states that he has to get his vehicle towed and it is cheaper to have it towed to an IRF, rather than the KEN GARFF WEST VALLEY CHRYSLER, DRL 44644. Writer contacted the parts department and spoke with PA Ian. PA Ian informed the writer that the part the customer purchased has a general part number and not the recall part number. PA Ian informed the writer that the customer should have his vehicle serviced at a Chrysler dealership. Writer informed him that she would let the customer know. Writer informed the customer of what PA Ian said about the part number, and suggested that he should get it inspected by his Chrysler dealership. Customer again stated it was cheaper to have his vehicle towed to an IRF. Customer understood what the writer informed him.
Briefly summarize what the customer is expecting: Customer is seeking information about the part he purchased to get the N62 recall completed on his vehicle.

Recall - N49: LEFT TIE ROD - Information Request	

Briefly summarize why the customer is contacting Chrysler: Customer seeking information on the recall N49. Customer is not happy that the parts are not available and states that the dealerships are not being very helpful. Customer states that he is concerned if the Tie Rod Ends do break. Agent apologized and advised to continue to try and work with the dealerships. Agent advised to have the dealership place his VIN on a list so that they can order the part when they get the chance for his vehicle. Customer will contact his local dealership and attempt to have his vehicle placed on a list.
Briefly summarize what the customer is expecting: Customer seeking assistance with the Rcall N49.

Corporate - CNA Change - Default - Default - Default	Changed Ownership
Corporate - Recall - Default - Default - Default	N62/ tire rod concern

Briefly summarize why the customer is contacting Chrysler:
Customer states last night the customer was driving on the freeway(Customer did not get in an accident) But the tire rod broke.
Customer was advised that there is a safety recall on the repair and that it would be covered.
Customer states now the DLR wants to charge him $1085.00
Customer states when the tire rod broke it also broke his steering shock
Customer has the following recall:
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
Customer had to pay for a tow only to find out that the repair is not covered..
Customer spoke with Liz and Liz's boss.
-
Briefly summarize what the customer is expecting: Customer wants it towed back to his house or he wants the recall fixed.
-
Agent contacted:
Dealer Code: 70- 44725 Dealer Name : TOWBIN DODGE LLC Dealer Phone : 702-558-3800
Agent spoke with Liz, Liz states the bolt goes through the tire rod- so it is the correct version.
This one can not be replaced by the recall.
Liz states the SA is Robert Windham.
-
Agent spoke with the SM Jay R
The vehicle was towed in when his tire rod broke.
SM states he said to have the vehicle towed in and check if it pertains to the recall.
SM states the customer had it towed in and unfortunately it has the correct sterring stabilizer.
SM states if the tirerod is the correct one it doesn t pertaining to recall.
SM states to have the repair done it will cost $1085.00
-
Does the customer have prior history with current issue?no

Does the customer have prior repair history for current issue (warranty or customer pay) at a Chrysler dealership(s)?no
Is the customer the original owner of this vehicle?no
Does customer have previous vehicle purchase history (new and used, household)?yes
Did the customer purchase a MVP Mechanical service contract (not simply oil changes)?no
-
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.
* *

Customer is calling back for an update on this case. Customer reports that his right tie rod end broke while driving down the highway.
Writer advised that the recall action is related to customers with Mopar service parts steering components. Writer explained that if the steering linkage is a singular bolt through the tie rod tube, no further repairs are required.
Writer advised if the steering linkage is two U bolts, there is a repair process the dealership will follow.
Writer explained, as per Liz (lines 20-21), customer has a singular bolt and therefore no repair actions are required under the recall.
Customer is seeking reimbursement for towing, as customer states Liz from TOWBIN DODGE LLC informed him that it would be covered under the recall.
Writer advised that this would need to be reviewed with the dealership.
Writer offered to contact dealership; however dealership is not open at this time as advised by customer. Customer declined writers offer to look into this further. Writer strongly encouraged speaking with the Service Manager or owner to discuss this situation. Customer understood.

Recall - N49: LEFT TIE ROD - Reimbursement	LEFT TIE ROD
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	customer states outer tie rod broke
Corporate - Reimbursement - Default - Default - Default	recall

Briefly summarize why the customer is contacting Chrysler: Customer states vehicle was pulling to the left, so he had stopped at an AutoNation to get an alignment and was made aware of a possible recall on the vehicle. Customer stated once the vehicle was up on the lift they noticed the linkage had snapped. Customer seeking information on recalls on the vehicle.
Briefly summarize what the customer is expecting: Customer seeking information on recalls.
Agent stated there was an open recall on the vehicle for the N49, left tie rod. Agent advised the customer to take the vehicle to a DLR once the repair is completed by the IRF, and keep the IRF receipt, as there may be possible reimbursement. Agent advised customer to call back once the DLR had diagnosed the vehicle as having the broken left tie rod. Customer stated he would speak with a DLR once he was able to find a DLR, as he is not at home.
Reassigned to BR379 for survey bypass-no diagnosis
Customer calling back to make sure the previous call was documented. Agent advised Customer that it was.
Agent advised Customer to contact us back if the DLR states that the issue and repairs were the same as the recall and we could look into reimbursement for him. Customer understood
Customer has taken vehicle to dlr 44231 - DEMONTROND AUTO COUNTRY (281-443-2500). SA Leo has been advised as per lines 19 - 21. SA states he will get a technician on the vehicle as soon as possible and the call CAC back with repair information for reimbursement consideration.
Customer called back and stated that the dealership is checking his vehicle to see if the repairs are related to Recall #N49. Customer will then send in his receipts for reimbursement.
CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED
Survey By Pass - No Diagnosis
Customer is stating that the dealership has approved that the repairs he had done were related to the recalls on his vehicle . Customer is stating that he is going to fax in his proof and documents for reimbursement .
Customer advised a call back is required and will take place within one business day by COB their time
Preferred Morning/Midday call back number is[redacted]

Briefly summarize why the customer is contacting Chrysler: Customer called trying to send link to Case Manager MP1067. Customer states that he opens the link and tries to send over the documents and he is being told that his cookies have to be enabled, he also stated he is using Firefox. Agent advised customer to try another internet page, like Google chrome. Customer downloaded Google chrome while agent was on the phone with customer and was then informed that the attachment was too big. Agent sent the link 2 more times so the customer can send the documents. Customer stated that he would like MP1067 to call him back as he was on the phone with the agent when MP1067 called him back.
Briefly summarize what the customer is expecting: Customer expecting documents to reach MP1067
Status update provided via email to the following email address:
[redacted]
I have received your documents and they are now being reviewed.
End of Status Update
Customer called to check on documents.
Customer stated he is going out of the country and to call his wife [redacted] if there are any questions.
Writer informed customer that documents have been received and she will contact IRF to verify payment of second alignment.
Writer informed customer that she would send email when check is approved.
Writer contacted IRF Firestone at 936-539-4481. Writer spoke with SA James who stated they did give customer an alignment quote but there was no charge. SA states customer only paid for the tie rod repair and both alignments were covered.
Status update provided via email to the following email address:

[redacted]
I have approved a check for the tie rod repair. I spoke with a Service Advisor at Firestone who informed me that both alignments were covered under your lifetime agreement. The Service Advisor stated that they did write up the quote for alignment but there was no charge. He stated that you were only charged for the repair to the tie rods.
You should receive the check by mail within the next 2 weeks.

H46 completed09/02/2009, no parts, inspection only = factory original equipment
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer called [redacted]. Writer spoke to Customer directly and explained that Chrysler is looking for replacement parts that may fail, not factory original equipment. As customer has stated this is the only repair he has done on linkage we will assume it is factory original equipment that has failed/worn out. Chrysler is not reimbursing for that. Customer has been encouraged to have his vehicle inspected at any CDJR Dealer and if his replacement parts are deemed recall related that need re- replaced Chrysler will do so.
Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.

The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Writer will call - [redacted]
Writer spoke with [redacted]. Writer advised the customer the documents were received. Writer advised the customer this recall is for a replacement part not the original equipment. Customer stated he paid for the repairs as there were no recalls. Customer stated he lost the steering. Writer apologized advising the recall is for a replacement part that may be on the vehicle now as the repair had been completed in 2010. Writer advised the customer to contact the dealership to have this inspected and they will change the part if necessary. Writer advised reimbursement will not be provided. Writer thanked the customer for the call back.

Reassigned to 86y
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that more documentation is required to continue processing his request for reimbursement consideration as the customer only submitted invoices showing the towing charges. Please advise customer that invoices showing the tie rod repairs need to be submitted by mail, fax 1-877-768-5076 or an email link.
Customer states that they got a voicemail and is seeking further information.
Agent advised customer we are seeking more documentation to continue processing.
Customer states that the tie rods broke twice before the recall was issued and Dodge declined to repair as it was not their defect. Customer states that he brought his vehicle to 4 different dealerships that advised they should not just fail. Customer states that he sent Dodge emails in this regard and was never answered. Customer states that he also sent in a letter advising he does not have the invoices showing the repairs. Customer states that he submitted all the documentation he has.
Customer requesting to speak with a manager. Customer seeking that the manager review the letter submitted before contacting. Customer states that he has pictures of the broken tie rod ends from the lab that was sent up to see why they are breaking.
Customer has requested Supervisor callback
Preferred daytime [redacted]

Agent called customer at [redacted] but was unable to reach him at this time.
Agent called customer and left a message advising that documentation showing the tie rod repairs is required to consider the reimbursement.
****
Next agent please advise the customer that documentation showing the repairs as well as proof of payment is required in order for Chrysler to consider any reimbursement for the N49 recall. Please provide the customer with the fax number or a document request link so the customer can submit the required documentation.
Status update provided via email to the following email address:
[redacted]
My name is Greg and I am contacting you from the Chrysler Reimbursement Team. I have reviewed your request for reimbursement and require documentation showing the repairs done to your vehicle to continue processing your request. Please contact us at 1-800-853-1403 and refer to the case number [redacted] so that we can discuss your request with you, thank you.
End of Status Update
Next agent please advise customer of lines 42-46.
Agent called customer and advised him without the invoices for the tie rod repairs Chrysler is not willing to reimburse him for the cost of the tie rods. Agent advised customer that his towing invoices may be covered under the recall and that more research would need to be completed.
Customer states if Chrysler is not going to reimburse him for the tie rod repairs he is going to contact a lawyer.
Agent called ALLEN SAMUELS DODGE CHRYSLER JEEP and spoke with SA Robin Cothron about the customer s repair history. Robin states the customer s vehicle was towed into the dealer with a broken tie rod and no repairs were completed at that time as the customer declined to have the repairs completed at that time.
Agent called IRF Lumberton Offroad LLC at 409-755-2225 and spoke with Richard about the customer s concerns. Richard states he is aware of the customer s issue and that when he had the vehicle towed to the IRF with a broken tie rod he didn t want the IRF to repair it, just to tell him why it broke. Richard states he advised the customer that the IRF does not employ engineers and that he would need to speak with the manufacturer for more information.
Agent called customer and advised him after further research and review Chrysler is not willing to reimburse the customer for the cost of the repairs without proper documentation showing the tie rod repairs were completed on the vehicle. Customer demanded to speak with a Supervisor.
Agent advised customer that it would be a 1 business day callback.

Customer has requested Supervisor callback

Status update provided via email to the following email address:
[redacted],
I am unable to send you a copy of your notes from your phone calls I had made as the information is proprietary, but I am able to send you our decision via email.

Thank you for your recent contact regarding your vehicle. We fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, we are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and/or mileage limitations of the warranty (or warranties) we offered on the vehicle at the time it was purchased. Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.
End of Status Update
Begin Customer Message reviewed:
Greg this response it completely off subject and not applicable to my claim at all. What is this?
My claim was related to tie rod recall that I solved myself because Dodge refused to repair the problem claiming it was not a factory default. I proved it was and Dodge still would not help me. Now 3 years later you issued a recall and offer to pay for out of pocket cost to those that paid for their own repairs because Dodge would not. My truck had almost no miles at the time of my problems.
Doesn t surprise me Dodge hides its notes on this subject.

Corporate - Goodwill Escalation Matrix - Not Escalated - Default - Default	Seeking possible assistance.
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Tie rod link snapped on vehicle.

Briefly summarize why the customer is contacting Chrysler: Customer contacted Ram about an issue with his vehicle. Customer states that the front end tie rod link snap. Customer states that he brought the vehicle to a dealership, and was advised to contact Ram about possible assistance for the repair.
Agent contacted Jim Cogdill 42576 and spoke with SM Roger in service.
Roger states that the right tie rod end broke, but it was not the N62 recall, as the vehicle had the original steering linkage system or so he thought. Roger states that this is the first time the vehicle has been at the dealership.
Customer is original owner.
Customer has three vehicles.
Customer does not have a history with the issue.
Customer does not have dealership repair history.
Customer does not have a Mopar mechanical service contract.
Briefly summarize what the customer is expecting: Agent advised customer that at this time, due to the time and mileage, Ram would not be able to assist with the repair. Customer understands and thanked agent for looking into it for him.

Recall - N49: LEFT TIE ROD - Advise Owner/Incomplete Recall	Advised about the recall
Corporate - Survey By-Pass - No Repair - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called in because the customer owns a 2011 dodge 3500 and is concerned with the left tie rod N49 recall. Ball joints broke for two of the customer s friend s vehicle. The customer is extremely concerned about the product. The DLR doesn t have the parts yet. Driving commercially is he makes his living. He carries flammable gasses or hydrogen during certain times and knows that Chrysler doesn t want the liability that an explosion would cause. The customer was calling from his vehicle and which was in Louisiana so the writer called over to GULF COAST AUTOPLEX LLC 44966 and spoke with SA Brian. Brian confirmed that he definitely didn t have parts but had 300 people waiting for parts and claimed that Chrysler would only send 1 a week when they finally did have parts. The writer advised to continue working with the DLR in his hometown ROUNDTREE CHRYSLER DODGE JEEP RAM 44952 as they are Chrysler s technicians.
Briefly summarize what the customer is expecting: Customer is expecting to work with the DLR 44952 and ensure the vehicle gets fixed before an issue does arise.
Reassigned to PC739 for no diagnosis - survey bypass.

Briefly summarize why the customer is contacting Chrysler: Customer states he did the N62 recall in July himself. Caller states he purchased the parts at a Chrsyler and would like to submit the paperwork. Customer states he did the recall previously. Caller states that replaced the steering linkage. Agent informed caller that the open recall stated the left tie rod assembly is tne N62 recall. Agent informed caller the H46 STEERING LINKAGE SAFETY 04/27/2009 09/18/2009 COMPLETE was completed in 2009. Agent informed caller the recall that is open is the N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE.
Agent sent document request link and informed that this is a one time use and valid for seven days.
Briefly summarize what the customer is expecting: Caller wants to submit paperwork and agent sent doc link to caller
******
Writer located the N62 recall is attached to this vehicle.
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
Writer located information for the N62 recall:
Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:The steering linkage assembly must be inspected and replaced if required.
******
Writer located the H46 recall is attached and completed - H46 STEERING LINKAGE SAFETY 04/27/2009 09/18/2009 COMPLETE
Writer located in claims the H46 recall showing no parts replaced.
******
Customer will be required to send in two invoices one showing a previous

repair as the N62 recall is for a replacement part and not the original equipment.
******
Status update provided via email to the following email address: [redacted]

[redacted] on 2014-01-22 @ 15:16
******
Writer will wait for the documents.
***** Customer Document Received *****
Begin Customer Message reviewed:
thank you it came threw this time have a great day I will get it submitted now
End of Reviewed Customer message
******
Customer sent in a part invoice showing the purchase of the steering kit, damper and arm.
Writer will contact the customer to advise reimbursement will not be provided unless a repair invoice can be sent showing a previous repair.
******
Writer will contact the customer @[redacted]
Writer spoke [redacted] asking if a repair had been completed before. William stated he did not have a prior repair and the new part purchased is a heavier linkage. Writer advised the customer to contact the dealership as they will inspect the connection at the tie rod to see if the part should be replaced this will be free of charge. Writer advised the recall is for a replacement part. Customer stated he does not think he has the replacement part now as he did purchase a heavier part but it will be a couple of weeks before he can get to a dealership. Writer apologized advising the customer reimbursement will not be provided. Customer understood.

Briefly summarize why the customer is contacting Chrysler: customer is contacting Chrysler for information about a recall on the vehicle and further understanding due to the fact that the front end has just been replaces on the vehicle.
Briefly summarize what the customer is expecting: information on what pertains about the recall and possible reimbursement for repairs already done on the vehicles front end.
Customer calls seeking recall information. Advised the customer of incomplete recall N62 for this vehicle. Customer was advised to contact a Chrysler, Dodge, or Jeep dealer to schedule an appointment to complete recall repair.
sending to TL for survey by pass
Customer contacted Chrysler for possible reimbursement for the repairs done to the vehicle as the customer understood of the recall letter sent in the mail.
Agent explained to the customer that the recall was for replacement MOPAR parts and not OEM parts as the customer just had the front end replaced recently.
Agent advised customer that we can not consider reimbursement until the repairs done to the vehicle has been inspected at a Chrysler dealership and if the parts used to repair the customers vehicle are part of the recall we then could consider possible reimbursement for the repairs done.

Corporate - Survey By-Pass - No Repair - Default - Default	N62
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Recall information request

Briefly summarize why the customer is contacting Chrysler:
Customer states that his drag link broke and he contacted his dealership and was advised that due to the mileage of the vehicle it may not be completed under it.
Briefly summarize what the customer is expecting:
Customer expects recall information.
Agent advised that customer that he would need to get a diagnosis on the vehicle to determine if that the issue he is currently having with the vehicle is related to the recall on the vehicle. Agent advised customer that if the issue he is having on the vehicle is related to the recall then the mileage would not play a factor into it. Customer stated that he would contact the dealership back to schedule an appointment to bring it in.
Reassigning to KG363 for survey by pass
Customer calling back, very upset, feels the issue with vehicle pertains to recall received N62. Customer receives recall one day and two days later front end is on the ground.
Agent explained to customer recall pertains to Left Outer Tie Rod Assembly and the right side on vehicle has broken. Agent called Dealership, spoke with SA Gail, explained it was customers right side that broke, has multiple issues on front end which needs repaired, upper ball joints as one. Agent apologized and explained to customer Chrysler would not be able to assist with repair. If there is any new information, you can always call back and we will revisit your case., Customer disconnected from agent.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall

Briefly summarize why the customer is contacting Chrysler: customer contacted Chrysler stating that he would like new tires on his vehicle and wants Chrysler to cover them
Briefly summarize what the customer is expecting: writer advised the customer the Chrysler does not cover the tires on the vehicle the agent states that all tires are cover by the tire manufacturer writer advised the customer that that the customer has Michelin tires and needs to contact 1-800-637-5527
SM Brain called from dealer 43245. SM Brain stated that the customer has the recall N62 and the tie rod had broken and punchured the drives side front tire. SA Brain stated that the are replacing the one tire because the punchure was caused by the recall. SA Brain stated that they recommanded that the customer replaced the other three tires because they are worn out and having one new tire and three old could cause problems with the four wheel drive. SA Brain stated that the customer would like to have a co-pay because the recall has caused him to get new tires.
Agent advised caller that because the vehicles warranty is 3 year and 36000 miles and he is out of the warranty by 3 years and 40 500 miles. Chrysler will not be assisting with the repair.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Reimbursement information
Product - Suspension - Tie Rods / Drag Link - Other - Front	left outer tie rod replaced

Briefly summarize why the customer is contacting: Customer contacted Chrysler seeking recall reimbursement information regarding N620 recall.
Briefly summarize what the customer is expecting: Customer expecting recall reimbursement information. Customer stated that he recently received the recall notification; however two weeks earlier, the tie rod broke. Customer stated that an IRF completed repairs, and he is now seeking reimbursement. Customer inquired if the cost of alignment would also be reimbursed; however writer advised him that he would have to cover alignment. Customer thanked writer and stated that he would submit for reimbursement, and had the following information.
-
Address
Vehicle owner name (if different)
Vehicle owner address (if different)
Day and evening phone numbers
Vehicle Identification Number (VIN)
Current vehicle mileage and mileage at time issue began
Name of dealership where vehicle was purchased / serviced
Date of purchase / service
Description of the concern
The requested action
Original Repair Order and original proof of payment*
Writer acknowledged assignment, there are NO documents present.
No documents.
No documents.
No documents. Writer will try to call tomorrow.
H46 completed 02/07/2011, inpsection only, no parts = original factory equipment(or non MOPAR parts).
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This

could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer called [redacted] Writer connected with Customers mother. Customer is working the gas rigs in WV doing twelve hour shifts. Mother advised best to call after 5PM. EST.
Mother provided [redacted]. Writer provided mother with US CAC and Case #.
***Agents we may not require Customers documents if this is the first and only repair done to steering linkage, but Customer can still send in if he wishes. *****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, Chrysler CANNOT reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
Customer states that he has already sent in his documentation. Agent advised that we have yet to receive the documentation.
Writer acknowledges the update, but non specific as to when documents were sent - Writer will wait a few more days.
No documents.
POSTMARK DATE: 011514; DATE RECEIVED: 012214
Documents attached for review
Writer acknowledges that documents have arrived. Customer has already been advised directly that recall is not on factory original equipment, but on MOPAR replacement parts. Writer is closing case.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	Customer inquiring about recall
Product - Steering - Linkage - Other - Default	Customer stated the shifting linkage broke a while back

Briefly summarize why the customer is contacting Chrysler: Customer stated he received a recall notice in the mail.
Briefly summarize what the customer is expecting: Customer is expecting to find out about the recall. Writer advised customer of the recall. Writer contacted the DLR to inquire about a waiting list for the recall. Writer spoke Angela in service who advised they can put the customer on the waiting list. Angela advised the customer can bring the vehicle to the DLR and they can inspect it right on the drive and determine if they need to order the part for the customer. Writer advised the customer of this. Customer stated a while back the shifting linkage went out and he had that fixed and he would like to know if that would have been covered under the previous steering linkage recall. Writer advised would recommend to have the DLR inspect that as well to determine if it would have been covered under the recall if it was he could submit for possible reimbursement.

Recall - N49: LEFT TIE ROD - Advise Owner/Incomplete Recall	LEFT TIE ROD
Corporate - Survey By-Pass - No Repair - Default - Default	

Customer calls seeking recall information. Advised the customer of incomplete recall N49 for this vehicle. Customer was advised to contact a Chrysler, Dodge, or Jeep dealer to schedule an appointment to complete recall repair.
Briefly summarize why the customer is contacting Chrysler: Customer states that he has contacted his DRL a couple of times now regarding the N49 recall but they advised him that they can order the parts but do not know when they can get a part for him, therefore to keep contacting them and when they have a part they will contact him. Customer wants to know when they are going to get his part.
Briefly summarize what the customer is expecting: To know when his part will become available.
As agent was about to advised customer to keep working with his DRL the call dropped. Agent tried to contact customer back, but it went to Voice mail.
Reassign for survey by-pass. No parts PC739.
******
Briefly summarize why the customer is contacting Chrysler: Customer was speaking to someone about a recall and the phone was disconnected. Customer stated he called the dealership and does not know when the parts will come in it was suggested he can only order one set a week. Customer stated this is serious that the tie rod could break at any time and should be able to get the parts sooner. Customer stated the dealership advised the customer to keep calling.
Briefly summarize what the customer is expecting: Customer seeking information.
Writer advised the parts are not available at this time the dealership may be able to put the customer on a waiting list. Customer stated they told him to keep calling.
******
Writer will call:
CRENWELGE MOTORS KERRVILLE @ 830-896-4835.
Writer spoke with Steve SM who stated the parts are restricted to one in seven days and this customer is on the waiting list.
Writer advised the customer he is on the waiting list.

Briefly summarize what the customer is expecting: Customer is seeking to get reimbursed.
Agent provided the reimbursment address found in Answer ID 17420 and advised that the vehicle would still need to have the inspection performed when the parts become available.
Agent advised customer that customer will need to get on dealer s list.
Customer states vehicle is there right now and he will speak to them when he goes in to pick it up.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	LEFT OUTER TIE ROD ASSEMBLY
Corporate - Survey By-Pass - No Repair - Default - Default	

Customer calls seeking recall information. Advised the customer of incomplete recall N62 for this vehicle. Customer was advised to contact a Chrysler, Dodge, or Jeep dealer to schedule an appointment to complete recall repair.
Briefly summarize why the customer is contacting Chrysler: Customer states that he contact a local DRL as his left tie rod broke and his vehicle is not drivable and they advised him to contact CAA.
Briefly summarize what the customer is expecting: Customer wanted to know what he can do to get his vehicle to the DRL to have his left tie rod replaced.
Agent apologized for the inconvenience. Agent advised that he would need to contact his local DRL and advised them that he is having his vehicle towed to their DRL as his left tie rod broke and have then see if they can put his vehicle to the top of the list to have the recall performed.
Reassign for survey by-pass. PC739

Corporate - Recall - Default - Default - Default	information for the N62
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Writer verified the customer s information to be correct.
******
Briefly summarize why the customer is contacting Chrysler: Customer has a safety recall last month and contacted the dealership and it is suggested there is a restriction on the parts. Customer stated that is against the law. Customer stated this is dangerous and will contact the Governor and the Attorney General. Customer stated this is front end parts. Customer stated N62 recall.
Briefly summarize what the customer is expecting: Customer seeking information.
Customer stated he has problems with the front end there is something wrong. Customer said it is the same as the recall. Customer stated the truck may lose control when hitting a bump and is something to do with the tie rod. Customer stated the vehicle was purchased new. Customer stated there are 31000 miles attached to this vehicle. Customer stated the dealership did not look at this. Customer stated there is also a “sloppy” job installing the instrument cluster he and a friend repaired this.
Writer advised this recall is for a replacement part.
Customer read the letter. Writer advised the customer did read about the replacement service parts.
Writer advised the dealership would be able to look at the vehicle to find out why the truck is behaving this way.
Customer stated this is a danger and needs to be address the dealership suggested the parts are restricted.
Writer advised the dealership is limited to the parts at this time.
Writer advised the recall is for a replacement part.
Customer stated he called the dealership and described what was going on it was suggested it sounds like this may be the concern.
Customer stated there should not be a restriction on the part. Customer stated he described the situation.
Writer advised without a diagnosis the dealership would not know what parts to order for the concern.
Writer advised the customer the part that is on recall is the linkage if the truck has the original equipment the dealership would not have to

replace anything as the recall is on a replacement part.
Customer stated he will put the vehicle on a lift and him and his friend will check it out.
******
Writer will reassign to the TL for the addition of a survey by pass for no diagnosis or repair.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer is seeking a reimbursement for the tie rod
Corporate - CNA Change - Default - Default - Default	updated primary phone number and added an email address

Briefly summarize why the customer is contacting Chrysler: Customer is calling in today to seek information on the reimbursement for the N62 recall on the LEFT OUTER TIE ROD ASSEMBLY. Customer states that in September 2011 the tie rod broke and they had it replaced at an IRF. Customer states that the part was a OEM tie rod.
Briefly summarize what the customer is expecting: Customer is expecting a reimbursement. Agent offered to send an email documentation request for the invoice and receipts. Customer states that she will mail in the invoice and receipt for the repair.
Chrysler Group Customer Care
P.O. Box 21-8007
Auburn Hills MI 48321-8007
POSTMARK DATE: 011714; DATE RECEIVED: 012314
Documents attached for review
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and submitted documentation showing only 1 repair.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components or the tie rods listed in recall N62, then the repair is not related to the recall because they were not Mopar service parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time. Please also advise the customer to contact an authorized Chrysler dealer to have the recall completed.
Briefly summarize why the customer is contacting Chrysler: Customer states she received a voice mail message regarding her reimbursement.
Briefly summarize what the customer is expecting: Customer seeks reimbursement for N62 recall.
Agent advised as per line 21-28. Agent advised Customers reimbursement is

declined due to verification that recalled component has not been replaced. Agent advised N62 recall be check by her dealership. Customer very dissatisfied.

No documents, no contact. Writer will call today.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.

Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided Case # , and US CAC for contact.
****AGENTS - Documents have not arrived. Please advise the Customer case will close in two days, but can be accessed or re-opened as needed.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, Chrysler CANNOT reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
No documents/No contact.
Customer called in response to a phone call she got yesterday. Agent updated the primary phone number as the customer states it was her work number but she resigned today. Agent advised the customer that we have not gotten any documents so we cannot reimburse her as of now. Customer states she just got the invoices from the shop today and will mail them in the next couple days. Agent advised to take the vehicle to the dealership to be inspected for the n62 recall. Customer states she will do that.
Writer acknowledges update, no firm commitment as to when documents will arrive. Writer has waited the seven days as prescribed, can Writer get a by pass please.

N49 - Safety Recall - Left Outer Tie Rod Assembly / 2008-2012 Dodge RAM
Answer ID 24054
Models:
2008 (DH) Dodge RAM Truck (1500 series 4x4 Mega Cab)
2008 - 2009 (DH) Dodge RAM Truck (2500 / 3500 series 4x4)
2008 - 2009 (D1) Dodge RAM Truck (3500 series 4x4)
2010 - 2012 (D2) Dodge RAM Truck (3500 series 4x4)
2010 - 2012 (DJ) Dodge RAM Truck (2500 series 4x4)
2008 - 2010 (DC) Dodge RAM Truck (3500 Cab Chassis)
2011 - 2012 (DD) Dodge RAM Truck (3500 Cab Chassis)
NOTE: This recall applies only to the above vehicles built between February 14, 2008 and December 22, 2012.
Subject: The left tie rod ball stud on about 264,000 of the above vehicles may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The left and right tie rods must be replaced.
Writer will contact Dealer to find out why there is an aluminum wheel charged.

DEALER CONTACT: Writer called BILL LUKE CHRYSLER-JEEP&DODGE 602-249-1234. Writer spoke to SA Toby who advised he did not have any history with the incident but is going to assume the broken tie rod must have damaged the wheel, as there is only one charged. Writer is reassigning to 86H.
Dealer 08625 invoice# 597662 has the following jobs that relate to left outer tie rod failure:
Job# 1, Job# 6 Alignment, Job# 7 'Replaced left side rotor for damage', Job# 8 'replace L/F wheel, damaged on the inside from tie rod'.
Confirmed reimbursement information in documents matches COIN.

Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer states tie rod is broken
Corporate - Rental Vehicle - Default - Default - Default	customer seeking rental
Corporate - Survey By-Pass - D-12-27 - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states she is calling in on behalf of her son. Customer stated the tie rod had broken on the vehicle. Customer states they took the vehicle in to the DLR but the part would be on back order for 4 months. Customer stated the DLR was going to put an after-market part on the vehicle until the part becomes available, as the Customer needs the vehicle for work. Customer states they need a rental as it would be 4 days until the aftermarket part comes in and that the DLR had advised them to contact Chrysler.
Briefly summarize what the customer is expecting: Customer seeking rental.
Agent stated due to the age and mileage of the vehicle we could not assist with a rental at this time. Customer stated she did not understand why as it is not a warranty issue it is a safety recall. Agent stated that we were still unable to give a rental due to the age/mileage. Customer stated she wished to speak with a supervisor. Agent stated she had the same empowerment as the supervisor and she would be told the same thing, which due to the age/mileage there would be no assistance with rental. Customer re-stated the want for a supervisor callback.
Customer has requested Supervisor callback
Preferred daytime number: [redacted]
Reason for request: Customer feels they should get a rental, due to the issue being a safety recall and not a warranty issue.
CAIR assigned to: BR379
CSR has informed customer a Supervisor callback request has been made, and the customer will receive a callback within 24 hours.
Called customer and left message to advise support decision.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer seeking reimbursement for N62 recall.
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer states that the Tie Rod End broke on the vehicle
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	recall reimbursment information

Briefly summarize why the customer is contacting Chrysler: Customer called because her dealer advised her that some parts she already had replaced in her vehicle had to be replaced because of recalled parts. Customer stated she had the shock stabilizer, left outer tie rod and track bar replaced. Agent advised for recall reimbursement only parts that would have been replaced under the recall but were replaced prior to it are considered. Agent advised that the shock stabilizer and track bar were not going to be replaced under the recall however the left tie rod was. Agent advised she could then submit for reimbursement for the left tie rod.
**
Briefly summarize what the customer is expecting: recall reimbursement information
POSTMARK DATE: 011514; DATE RECEIVED: 012214
Customer seeking reimbursement for N62 recall.
Reassigned to 86Y.
Customer called wanting to know if information had been recieved. Agent advised yes. Agent advised customer to allow 30-60 days for review and contact in regards to decision.
CUSTOMER CONTACT: [redacted] Left message.
Please advise that the Recall applies only to the MOPAR Upgrade Steering Linkage and would not apply to the Repairs made on 12/26/13 as the replacement parts are too small for the Mopar Parts that are part of the recall.
Recall only applies to vehicles that had a Mopar steering upgrade installed on a previous service appointment.
Chrysler will not be able to reimburse for these repairs at this time
CUSTOMER CONTACT: [redacted]. Left message.
Agent advised of Lines 21-27.
Customer Understood.
Closed CAIR.

Recall - N49: LEFT TIE ROD - Information Request	DLR told customer he had to pay for recall and then get reimbursed.

Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler regarding the N49 recall. Customer took the vehicle to the DLR and was told he has to pay for this and get reimbursed.
Customer stated he spoke with Leslie.
Agent called the DLR and left a message for Leslie.
Next agent get information from DLR and make sure there is no cost as this is a recall. Also have them add the customer to the waiting list for the N49 recall.
Briefly summarize what the customer is expecting: Customer was told he had to pay for the N49 recall and then get reimbursed.
Customer is contacting Chrysler because they have not received a call back about their case.
Agent contacted HOLT CHRYSLER JEEP DODGE and spoke with Leslie.
Leslie states the Customer uses the vehicle is a tow truck.
Leslie states she advised Customer to purchase a mopar steering kit which would include the parts needed to complete the recall and to file for reimbursement later.
Leslie states she advised Customer to do this because the dealership is only able to order one part per week and the Customer needed the vehicle for their business.
Agent asked if parts have been ordered for Customer to complete this recall.
Leslie states the parts to complete the recall have been ordered.
Agent asked for the part order number.
Leslie placed Agent on a 20 minute hold to find the part number.
Agent disconnected and attempted to contact the dealership three times and was sent directly to an answering machine.
Agent advised Customer that we were unable to get the parts order number so that we may have the part expedited.
Customer states they think the repair has already been done.
Customer states he is supposed to go in for an alignment later this week.
Agent advised Customer we will need to contact the dealership to ask if the repair has already been completed and then contact him back.
Customer states they will call back tomorrow if they do not receive a call.
Writer received a dealer call from SA/Leslie Ph: 817-557-6036 to have the case manager call her.
The dealer had repaired the vehicle with an entire steering kit because the open recall pars were on back order.
The customer is seeking payment. The vehicle is not under the restriction H.
The dealer is going to check with the D-12-27 good will parameters with

the business center or AM.
The dealer is requesting a case manager call back.
Correction to line 40. The dealer is seeking payment.
SA Leslie contacted from DLR. SA stated that the tie rod has broken other steering linkage parts. SA states that it could have been the tie rod or it could have also been caused from the Customer driving the vehicle and not being aware of the recall and taking caution when driving.
SA would like to confrm if this is covered under the recall.
Agent advised that if the recall damages other parts of the vehicle it is considered consequential damage or expenses.

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
Mileage 114,441 is from 11/06/2009, so customer will have many more miles on vehicle when repaired 6/8/13.
Invoice from Asheville Alignment;
replaced all four ball joints
right outer tie rod and it looks like Left inner tie rod

alignment.
Writer will try to contact IRF(tomorrow Wednesday Jan. 22) to confirm if MOPAR parts.
IRF CONTACT: Writer called ASHEVILLE ALIGNMENT 828 252 0988. Writer connected with Jim, but they are just closing up. Writer provided invoice number, Jim said he would get it pulled in the morning. Writer will set C/B.
IRF CONTACT: Writer called ASHEVILLE ALIGNMENT 828 252 0988. Jim is not there, gentleman hung up. Writer wanted to verify repair/ manufacturer of parts/ proof of payment.
Writer will try to contact IRF again this afternoon.
IRF CONTACT: Writer called ASHEVILLE ALIGNMENT 828 252 0988. Hang up.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, Chrysler CANNOT reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
Customer called back and is not accepting the information provided. The caller wants the case manager to speak with her husband. [redacted] - Clay. Customer would like a call back as soon as possible.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided the US CAC and Case #.
CW653 is not a CM, please carefully explain that Chrysler is not paying for repairs to original factory equipment that failed or got worn out. Chrysler is looking for replacement equipment, as that is what the recall is on. The decision stands. Unless the Customer has evidence of having another Left Outer tie rod put on the vehicle Chrysler will NOT reimburse. Customer can still take their vehicle to any CDJR dealer and have them inspect the parts. If Chrysler deems that they can replace parts under recall they will do so and re-align the vehicle.
*********AGENTS please read lines 52-58 & 64-71.
CUSTOMER CONTACT: Writer called [redacted]. Writer spoke with Customer directly. Writer explained that N62 recall outline. Customer is not happy. Customer said he had Moog parts put on. Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.
* *

Letter sent 1/29/14.
****
Writer received a call from the customer. Writer advised a letter had been sent as the number on file Writer advised the repair complete on the vehicle is for the ball joints and the adjuster sleeve on the pitman arm, these repairs are not part of the N62 recall.
Customer stated the tie rods broke at the ball joint and are the same.
Writer advised the customer this recall is for a replacement part by Mopar on a steering linkage. Customer stated that is what had broken.
Writer advised an inspection had been completed on the vehicle in 2011 no parts were replaced at that time. Writer asked the customer if the steering linkage had been replaced before the repair in 2013 but after

2011. Customer stated yes. Writer advised the dealership will inspect the connection at the tie rod and replace the part if needed.
Customer stated this repair is part of the tie rod concern and will find the invoice showing the replacement of the steering linkage. Customer asked for the mailing address.
Writer provided the information in Answer connect ID: 17420
Chrysler Recall Assistance Center
P. O. Box 21-8007
Auburn Hills, MI 48321-8007
******
Customer supplied [redacted] as the contact number.
******
Should the customer send in documentation that shows the steering linkage had been replaced before the repair completed and they are not Chrysler Mopar parts the recall still does not apply.

Writer reviewed documents and file and determined that tie rods could not be found on the invoice.
Briefly summarize why the customer is contacting Chrysler: Customer states that they wanted to make sure their documents were received.
Briefly summarize what the customer is expecting: Customer wanted to know whether their documents were received. Agent advised the customer that they were. Agent advised the customer that their P.O. Box address is on file. Customer was satisfied.

N49 - Safety Recall - Left Outer Tie Rod Assembly / 2008-2012 Dodge RAM
Answer ID 24054
The left and right tie rods must be replaced.

Writer notes that according to the customer s repair invoice the repairs required are as follows:
-#52122362AH steering
As per Google the above part shows:
LINKAGE ASSY - 2010 Dodge Ram 2500 (52122362AH)
This part fits your 2010 Dodge Ram 2500 this component includes both tie-rod endsÙ

As per GWA, claim #711259 L16 completed by Ken Garff West Valley dealer at 11/21/2012 in the amount of $26.88. no parts were replaced.Ù

Writer contacted the Stephen Wade dealership at 435-634-4500 at 2:15pm and spoke with the SA, Heather. Writer advised her of the reason for the contact and provided her with the customer s VIN and their RO in question. Writer advised her that I was inquiring as to the labor break down for the cost of the steering component repair for reimbursement purposes. She stated that her SA, Jason is currently assisting a customer, so she obtained writer s contact information and she stated that she would have Jason return a call to writer regarding the request.

Writer contacted the Stephen Wade dealership at 435-634-4500 at 4;20pm

and was advised that the SA, Jason was currently unavailable, however, did receive his direct line at 435-634-4232.

Writer contacted the Stephen Wade dealership at 435-634-4232 at 4:20pm and spoke with the SA, Jason. Writer advised him of the reason for the contact today and provided him with the RO in question. He stated that the labor operations for the steering linkage repair would take 1.1 hours and the cost per hour is $95.00. Writer also inquired if the repair was paid in full and he stated that it was paid in full. Writer thanked him for the information and his time today.

Next Agent - Please advise that the Recall applies to vehicles that have had a Mopar Upgrade Steering Linkage Replacement installed. Please advise that if the Steering Linkage was OEM (Factory Installed/Stock/OEM) at the time of the repair then the recall would not apply.
If the Customer had a Steering Linkage replacement PRIOR TO THE TIE ROD REPAIR, Please have the Customer submit the invoice and Proof of Payment to the Chrysler Customer Assistance Center for review.
If the Steering Linkage was OEM (Factory Installed/Stock/OEM) at the time of the Tie Rod repair - Please advise that the recall does not apply to the vehicle at this time.
******
Please Document whether the Customer states that they had the Mopar Steering Linkage installed and whether they are mailing in the Documentation.
Customer Contact: [redacted] Spoke with Customer.
Agent advised that the Recall applies to vehicles that had a Mopar Steering Linkage replaced on the vehicle before the Tie Rod End was replaced. Agent advised that the Recall is for Mopar Parts and if the Parts were the Original Factory Parts that we would not be able reimburse at this time.
Agent advised that if the Mopar Steering Linkage was installed at the time of the repair then the Parts that were just recently installed may be part of the recall and advised that the Customer take the vehicle to the DLR to have an inspection completed and possible Tie Rod End Upgrade (if needed) at no extra Charge.
Agent reported LINES 24 > LINES 34.
Customer expects to seek resolve at DLR as advised.
Briefly summarize why the customer is contacting Chrysler: Customer called in stating that these parts on the vehicle are Mopar parts and would like to be reimbursed. Agent stated that the customer needs to send in documentation that they are Mopar parts. Agent stated that we need the second repair order faxed in for further investigation. Customer stated that they are Mopar parts and stated that she had this vehicle inspected

at Larry H. Miller dealership. Agent called over to the dealership and spoke with Trevor. Trevor stated that he inspected the vehicle and stated that they are Mopar parts. Agent gave fax number to customer to send in second repair orders.
Briefly summarize what the customer is expecting: To be reimbursed for this recall.
Next agent reassign to 86Y
After the documents have been sent.
POSTMARK DATE: 013114; DATE RECEIVED: 013114
CUSTOMER CONTACT: [redacted]. Customer states that they had sent in the Documentation.
Agent found FAX and that the Customer has had the MOPAR Parts installed on the vehicle prior to the repairs.
IRF CONTACT: Autobahn Service Center: 801-374-0012. Spoke with Service Manager Courtney.
SM advised that the Invoice has been Paid in full.
Amount of Reimbursement is over Agents Limit - Reassigned to 86H.

Writer notes that the customer shows to have the L16 recall still showing incomplete.
As per ACDoc#22648, the L16 recall parameters are as follows:
Note: This recall applies only to the above vehicles that were built between July 12, 2002 and Feb 13, 2011 and had the steering linkage replaced with Mopar service parts between Feb 14, 2008 and Aug 9, 2011.

Tier 2 Agent

Safety Recall N62 / NHTSA 13V-528

Left Outer Tie Rod Assembly
2003 - 2004 (DR) Dodge RAM Truck (2500 & 3500 series 4x4)
2006 - 2008 (DH) Dodge RAM Truck (1500 series 4x4 Mega Cab)
2005 - 2008 (DH) Dodge RAM Truck (2500 series 4x4)
2005 (DH) Dodge RAM Truck (3500 series 4x4)
2006 - 2008 (D1) Dodge RAM Truck (3500 series 4x4)
2007 -2008 (DC) Dodge RAM Truck (3500 Cab Chassis)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair
The steering linkage assembly must be inspected and replaced if required.

Writer notes that the customer s address on their return envelope match and also reflect what we have on record for the customer at this time.

Writer contacted the customer at [redacted] at 12:00pm and spoke with MR. [redacted] Writer advised him of the reason for the contact today and advised him of the fact that he will be reimbursed in full for the costs incurred and also had him confirm his address for writer, and our records are updated correctly. Writer advised him of the time frame for the check arrival and also suggested that he bring his vehicle to any dealership to have the components inspected, and to show the recall completed in our system. Mr. [redacted] thanked writer for the information and the assistance.

Writer is submitting a check in the amount of $683.00 for approval.
RECEIVED CHECK FROM CHECKWRITER - MAILING TO CUSTOMER.

***** Customer Document Received *****
Writer acknowledges assignment and that documents are present.
Customer has submitted same documents as in previous case.
SAFFORD CHRYSLER JEEP DODGE # 27443, 06/22/2011 - repairs involved
damper, pitman arm, steering ste..,bolt and a nut $995.68, vehicle at
206,551.
SAFFORD CHRYSLER JEEP DODGE # 160924, 09/07/2013 - repairs involved
damper, pitman arm, steering ste.., hub stud and wheel nut, $1,152.19
vehicle at 274,085.
DEALER CONTACT: Writer called SAFFORD CHRYSLER JEEP DODGE 540-898-7200,
Writer spoke to SA Bob who transferred to Parts to determine what
steering ste is part # beside 52122362AH. Writer was transferred to voice
mail. Writer did not leave a message.
Writer googled the part 52122362AH it IS the Chrysler steering linkage
upgrade, as this is present on each invoice,
Writer googled 52122362AF it IS the Chrysler steering linkage tie rod
assembly.
Writer is reassigning to 86H.
There are three incidents related to tie rods:
Invoice# 27443 customer pay 06/18/11 at 206559 miles.
Claim# 148963 tie rod end replaced under L16 05/16/13 at 264262 miles.
Invoice#160924 customer pay 09/07/13 at 274090 miles.
Note, repair line 28 qualifies this for N62.
Repair line 29 covered by L16, also qualifies this for N62.
Repair line 30 should be covered by N62, contact Dealer 45027 to confirm.

Writer called Dealer 45027 phone 540-898-7200 time 16:39 ET. SA Rob answered.
He confirmed pitman arm and damper on invoice# 160294 had to be replaced due to updated parts in steering kit.
He said invoice# 27443 appears to show replacement of factory parts.
Note, repair invoice 160924 includes unrelated repair wheel stud $138.58, shop supplies $35.00 and discount coupons -$50.00. Writer excluded shop supplies and discount from reimbursement.
Confirmed reimbursement information in documents matches COIN.
N62 Left Outer Tie Rod Assembly (Mopar)
****
Customer submitted request for reimbursement for N62 Left Outer Tie Rod Assembly (Mopar).
Recall applies to customer s vehicle: 3D7KS28D15G[redacted]
In-service Date: 07/26/05
Replaced factory parts with Mopar: 06/18/11 Invoice# 27443
Customer s proof of payment is: Dealer 45027 invoice, attached[redacted] sales slip Approval Code: 007219 for $588.00, remainder Cash.
Date of repair: 09/07/13
Mileage: 274085
Invoice#: 160924
Labor: $304.44
Parts: $600.10
Alignment: $89.95
Tax: (5% Parts) $30.01
Total: $1,024.50
Writer called customer phone [redacted]6 time 17:46 ET. [redacted] answered.
Writer advised of reimbursement amount, and that N62 is still incomplete, she will contact CDJ dealer to schedule.
Writer provided Case#, Phone: 855-675-9291 Ext: 4718340.
Writer is submitting check for approval in the amount of: $1,024.50.
Submitted.
[redacted].
Writer called customer phone[redacted] time 13:53 ET. Customer [redacted]
She wondered why the first repair would not be covered since they were Mopar parts, writer advised that Mopar refers to replacement parts, not the factory parts. Factory parts failed at 206551 miles, and could be considered wear.

Recall - N49: LEFT TIE ROD - Reimbursement	Customer has already had tie rod break on his vehicle
Corporate - Reimbursement - Default - Default - Default	recall
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	tie rod
Recall - N49: LEFT TIE ROD - Advise Owner/Incomplete Recall	

Briefly summarize why the customer is contacting Chrysler:
Customer states he has already had a tie rod break on his vehicle and has had it repaired before recall was issued.
Briefly summarize what the customer is expecting:
Customer is inquiring about reimbursement.
Agent informed customer that Chrysler has dealers under a parts ordering restriction due to the limited availability of parts for this recall.
Agent informed customer that dealers are required to put customers who call dealers on a parts list, contacting them when parts arrive.
Agent informed customer that reimbursement instructions are contained in recall letter but agent offered customer faster way to process reimbursement request with document request link. Customer stated he had scanning ability on his computer and preferred this option.
Agent informed customer that he would send email with instructions on what documents to scan and informed him that once documents are received, request would take up to 60 days to process.
Reassigned to 86Y.

Corporate - Survey By-Pass - No Documentation - Default - Default	

****** Below Customer Contacted for Documentation Request ******
[redacted] 2014-01-14 @ 10:50
Briefly summarize why the customer is contacting Chrysler: Customer called for reimbursement for a repair that was included in a recall. Customer stated he brought his vehicle to his local Chrysler dealer on 04/02/2012 to have the L16 LEFT TIE ROD END recall completed. Customer stated last October the tie rod broke and needed to be repaired again. Customer stated his vehicle due to being broken was taken to an IRF but did buy the replacement parts from his local Chrysler dealer. Customer stated when he recently received the new recall notice for the N49 LEFT TIE ROD it is noted on the bottom of the page that if he has had a repair completed he could submit for reimbursement. Agent advised the reimbursement will fall under the L16 recall and he may have to still bring the vehicle in to have the N49 completed. Agent offered the email link to submit the documentation.
Briefly summarize what the customer is expecting: Customer seeking reimbursement.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	recall N62 needs to be done
Recall - H46: STEERING LINKAGE - Reimbursement	reimbursement request for recall work done

Briefly summarize why the customer is contacting Chrysler:Customer called and stated the steering linkage on her vehicle broke while she was driving with her children in vehicle. Customer stated husband found recall online and asked dealership for assistance. Customer stated they were told no assistance available because no recall showed on vehicle. Customer stated 2 months later they received relevant recall notice in mail. Customer stated husband did repair. Customer stated she found situation very unfair at time because they could not afford service department repair costs. Writer advised reimbursement is possible and gave address per AC17420, with list of what to include. Customer stated husband does mechanical work for others and she thinks labor should be reimbursed as well as parts. Writer advised that was unlikely. Writer advised customer that recall N62 is on vehicle and letter should be arriving soon. Writer offered to call dealership to inquire about parts availability and make appointment but customer preferred to call later herself.
Briefly summarize what the customer is expecting:Customer wanted reimbursement for recall H46.

Recall - N49: LEFT TIE ROD - Information Request	Open recall.
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	customer states tie rod broke

Briefly summarize why the customer is contacting Chrysler: Customer states that tie rod broke and would like to see about rental vehicle if possible. Agent advised we do not offer rentals for recalls, however agent needed to confirm diagnosis and call dealership so she would ask for rental under d11-53 as customer falls within these parameters. Agent could not find number for dealership and when she went back to customer he had already disconnected. There is no Ron carter dealership in his vicinity only texas. agent could not call customer back because she was not in aftercall and another call came through write away
Briefly summarize what the customer is expecting:rental
Next agent if customer call back please get exact dealership information or location so we can reach out to dealer for rental under goodwill.
Briefly summarize why the customer is contacting Chrysler:The customer s tie rod end broke.
Briefly summarize what the customer is expecting:The customer wants a rental.
Agent contacted the dealership, the vehicle just got towed in about 30 minutes ago and they have not be able to look at it yet, but they tie rod end is definitely broken. The dealership will not provide at rents or loaner at this point due to the vehicle being under the recall. The customer says he is from out of town and has no other way to get around. Customer was advised that due to the nature of their rental request a call back is required and will take place by close of business today.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Customer seeking Reimbursement for N62 Recall.
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	customer states left tie rod broke

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler stating that he got a recall letter in the mail, and is seeking reimbursement. Customer states that his left tie rod snapped and the tires went out and went into opposite directions, caused car to split. Agent provided customer with the information. Advised customer to go to the DLR and get a diagnosis for the steering linkage, customer agreed, no further assistance needed
Briefly summarize what the customer is expecting: customer was expecting reimbursement for the left tie rod and seeking information about the steering linkage.
Waiting for Documentation.
CUSTOMER CONTACT [redacted]: Agent called the customer and asked him if he has sent in his documents as of yet. Customer stated he has not. AGent stated she would like to explain the recall to him. Agent explained that this is not on factory components but rather MOPAR replacement steering linkage. Agent stated that those parts are what are being recalled. Customer stated that he hasn t had that replaced. agent strongly suggested to get into the dealership to see if his parts need to be switched out on his vehicle. Customer thanked agent.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking recall information
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer states that he needed to have the Tie Rods Replaced
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	seeking reimbursement

Briefly summarize why the customer is contacting Chrysler: Customer states he did not receive a recall letter in the mail but thinks it does pertain to the vehicle.
Briefly summarize what the customer is expecting: Customer seeking recall information.
Agent confirmed customer information.
Agent advised customer of the N62 recall and the instructions on the next steps.
Agent advised customer to pop into the DLR as they just need to look at the part number on the vehicle.
Agent advised customer of the part restriction if he needs to the part replaced he will be put onto a waiting list.
Reassigned for survey by-pass
CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED
Survey By Pass - No Repair
POSTMARK DATE: 012414; DATE RECEIVED: 012914
Customer is seeking reimbursement for recall N62
CUSTOMER CONTACT: [redacted]8. Spoke with the Customer.
Agent advised that the Recall applies to the MOPAR Upgrade Parts. Agent advised that Chrysler will not be able to reimburse for the Upgrade as the parts that were replaced were the Factory parts but the Parts that were installed were the parts that were later included in the Recall.
Customer understood.
Agent seen that the recall has been completed.
Closed CAIR.

Corporate - CNA Change - Default - Default - Default	added secondary number
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	advised Chrysler is looking for replacement MOPAR parts
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	tie rod broke on vehicle.

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
Briefly summarize why the Customer is contacting: Customer advising her tie rod broke and she had replaced at IRF. Agent advised that the N62 is a recall that involves Chrysler looking for MOPAR parts, not factory original equipment. Now that Customer has had repair vehicle needs to be inspected at CDJR. Customer advised that has been done at DOW CHRYSLER DODGE JEEP, INC. Agent advised there is no need for Customer to send in repair paperwork. Chrysler is not reimbursing for initial repair of factory equipment. Customer understands.
Briefly summarize what the customer is expecting: Customer seeking recall information.
POSTMARK DATE: 012114; DATE RECEIVED: 012814
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and submitted documentation showing only 1 repair. Agent concurs with previous decision.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer inquiring about the recall
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer stated that his tie rod has broken

Briefly summarize why the customer is contacting Chrysler: Customer stated he received the recall notice in December and his tie rod has broken. Customer stated he had the vehicle towed to DLR 66917. Customer stated that he was dealing with John in service and was advised that it would not be under the recall as his tie rod was not a Mopar part it was a Dodge part. Customer stated he was advised that the DLR would not recommend putting a Dodge or Mopar part in the vehicle but rather a 3rd party part.
Briefly summarize what the customer is expecting: Customer is expecting to find out about the part he can put on the vehicle. Writer advised customer would contact the DLR to gather further information. Writer spoke to John in service who advised the steering package that was on the customers vehicle was a stock part. John stated a Mopar package was not installed on the vehicle and this is why it would not be covered under the recall. John stated Dodge cannot track which vehicles have the Mopar steering package installed which is why so many of the vehicles have the recall. John stated he had looked into the steering package and it is showing AJ which means it it up to date and is not suspect under the recall and he would have no fear of recommending it for the customer s vehicle. Johns stated this package would cost more than an aftermarket part and that he was going to call the customer later today to discuss this with him. Writer advised customer of what John advised. Writer offered to transfer the customer to the DLR to speak with John however customer stated he would call John in service himself.

Recall - N49: LEFT TIE ROD - Information Request	why the parts are restricted

Briefly summarize why the customer is contacting Chrysler: Customer called because he was advised the part was on backorder and the parts were being restricted. Customer was not happy at the beginning of the call because he worries about the left tie rod will break. Customer did not know if the parts were ordered or not and he did not know if the tie rod was inspected. Customer had tried to set up an appointment to get the recall done. Agent stated that I will verify the part was ordered. Agent contacted the dealer and spoke to Sean PA. Sean stated that he would order the parts for the customer. Agent provided the information to Sean for him to order the parts for customer. Sean stated that the part numbers are cbuen491aa and cbuen492aa. Customer has been added to the list for the part order.
Briefly summarize what the customer is expecting: why the parts are restricted.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Request for recall reimbursement information.

Briefly summarize why the customer is contacting Chrysler: Customer states that he had a concern with his vehicle in November of last year and he was advised by his dealership that the tie rod ball had broken or cracked and that it had put pressure on the steering linkage and power steering box and caused $2.204.00 worth of damage.
Briefly summarize what the customer is expecting: Customer is seeking to know if he will be fully reimbursed for the repairs to the vehicle.
Writer advised we can not guarantee reimbursement but advised customer to submit his documents. Customer understood and was satisfied.
POSTMARK DATE: 011514; DATE RECEIVED: 012214
Documents attached for review.
Agent reviewed documents submitted by customer and found customer had repairs completed at LARRY H MILLER DODGE PEORIA and submitted documentation showing only 1 repair.
Agent called customer and advised that the repairs don t qualify for reimbursement and that the parts installed on the vehicle may need to be replaced due to the N62 recall. Customer understood and states they will contact a Chrysler dealer to have the recall performed.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY -	LEFT OUTER TIE ROD ASSEMBLY
Corporate - Survey By-Pass - No Repair - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called stating that he brought his vehicle to the DLR for the N62 recall. Customer states that the DLR advised him that he needs the tie rod replaced but there are no parts. Customer believes this is very inconvienent as he had to go to the DLR for them to advise there is no parts to fix the vehicle. Customer states if he gets in an accident due to this recall he will sue Chrysler.
Briefly summarize what the customer is expecting: Customer wants to know why there are no parts for this recall and to file a complaint about this issue.
Agent advised the Customer that she will contact the DLR to confirm if the parts have been ordered. Agent contacted DLR and spoke with SA Thomas. SA stated that the vehicle did fail the inspection. SA stated that they did order parts for the Customer. SA stated that the vehicle is safe to drive and he has advised the Customer of this. SA stated if the tie rod were to break it would have broke awhile ago. Agent thanked SA. Agent advised the Customer that the DLR confirmed the vehicle is safe to drive. Agent advised they have ordered the parts for the Customer and will advise the Customer when the parts come in. Agent advised that the Customer will not receive a callback or notifcation about the complaint as they are handled internally. Customer stated they will not drive the vehicle until it is fixed. Customer understood.

****** Below Customer Contacted for Documentation Request ******
[redacted] on 2014-01-14 @ 17:17
Briefly summarize why the customer is contacting Chrysler:Customer states he received the recall notice for N49. Customer states he had been carrying 5 full grown Steers, his son was driving the vehicle, and at the time they were off the highway, in the stock yard, the tie rod broke. This past november is when this occurred. Customer wants to know the reimbursement process as well as contact the DLr for the customer to get part on the vehicle.
Briefly summarize what the customer is expecting:DLR contact for customer, reimbursement information.
Agent advised customer follow information on the recall information he received in the mail.
Customer requested agent sends a documentation link to [redacted]@[redacted], for reimbursement purposes.
Agent contacted DLR, and spoke to Parts Manager Mike who placed customer on the list to contact the customer @ [redacted] when the parts are available.
Customer asked agent if the vehicle was safe to drive since he just had repairs done in november, 2013.
Agent advised customer if he is not feeling safe he is able to take the vehicle to the DLR for inspection.
Customer states the DLR is quite a distance, and will go ahead and use a different vehicle until the parts become available.

Agent found the customer had parts replaced due to recalls H46 and L16 claim numbers 131018 and 063253 related to the N62 recall. Agent is reassigning to CM as the reimbursement request exceeds $500.
---
1. As per GWA, claim #063253 L16 completed by the Brown Dodge dealer on 02/22/2012 in the amount of $127.14.
The parts used in the above repair show:
P1 - CBRCL160AA SOCKET
As per ACDoc#22648, the parts used within the L16 recall show to be the following:
CBRCL160AA Left Tie Rod Package
2. As per GWA, claim #131018 H46 completed by the Greenville Dealer on 09/22/2010 in the amount of $74.90.
The parts used in the above repair show:
P1 - CBCZH461 ARM
P2 - 06505623AA NUT
P3 - J3200501 NUT
As per the recall repairs the parts used within the H46 recall show to be the following:
CBD1H361 Damper Bracket Package
CBFAH362 Drag Link Inner Joint Package
CBCZH461 Arm, Pitman
06505623AA Nut, Steering Drag Link Inner Joint

Due to the above information, writer can reimburse the customer for the costs incurred with their repair to the recall: N62 components.

Tier 2 Agent

Safety Recall N62 / NHTSA 13V-528

Left Outer Tie Rod Assembly
2006 - 2008 (D1) Dodge RAM Truck (3500 series 4x4)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair
The steering linkage assembly must be inspected and replaced if required.

Recall applies to customer s vehicle: YES
In-service Date: 04/27/2007
Invoice: #0083536
Date of repair: 08/08/2013
Mileage: 118,655
Labor : $156.25
Parts : $497.25
Misc. Charges : $28.97
Subtotal: $682.47
Tax : $35.52
Total : $717.99
Total Reimbursement : $717.99

Customer s Proof of payment is: the customer s repair invoice shows, typed into the invoice a payment made in the amount of $350.00 by personal check: #2215. Within the payment detail information, the invoice reads paid by: Visa/MasterCard with the balance owing showing as $0.00.
As per ACDoc#18745 the following information applies:
* When a repair order from the IRF clearly indicates a payment method there is no need to require customer to have proof of payment. If the IRF Repair Order does not clearly indicate payment - request that customer provide a proof of payment such as their Credit Card Statement or copy of the check.

The customer has provided us with an updated address within their documents submitted, and it matches what we have on record for the customer, so writer is regarding it as being correct.

Writer contacted the customer at [redacted] at 11:30am and spoke with Mr. [redacted] Writer advised him of the fact that we received and processed his documents and advised him that we can reimburse him for the full costs incurred with the repair. He stated to writer that he appreciates the refund, but stated that his Turbo was now needing to be repaired in the vehicle. He stated that he loves the vehicle, however, he is having some issues. Writer advised him that hopefully, the reimbursement would assist him, and had him verify his address and advised him of the time frame for the check arrival. He thanked writer for the assistance today.
Writer did fail to advise him to have the vehicle inspected, however, since the vehicle is currently at the dealer, they will perform the needed inspection.

Writer is submitting a check in the amount of $717.99 for approval.
Customer called to check on when they will be receiving the cheque. Agent advised that the information was submitted for a cheque on Jan. 24th, but agent does not have a firm date as to when the cheque will be mailed out.

Writer located information for the N62 recall:Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:The steering linkage assembly must be inspected and replaced if required.
******
Writer located the H46 recall is attached and not completed.
H46 STEERING LINKAGE SAFETY 04/27/2009 INCOMPLETE
******
Invoice - FOCS46464 - 11/01/12 - 209044 Miles - broken track arm, tie rod and sway bar bushings
Writer located the dealership - 66806 - HOPE AUTO COMPANY - Dealer Termination Date: 04/05/2001
This dealership is no longer certified to complete recalls or warranty work.

******
Writer will contact the customer to advise reimbursement will not be provided for this repair unless a repair invoice showing a prior repair can be sent as the N62 recall is for a replacement part and not the original equipment.
******
Writer will contact the customer @[redacted]
Writer left a message this call is for [redacted] from Debbie of Chrysler in regards to an in invoice received for the 2005 DODGE RAM.
Writer supplied 855-675-9291, extension 4718492 and cair [redacted]
******
Writer received a voice message from the customer dated January 23, 2014 @ 4:59 pm customer did not leave a contact number.
******
Writer received a voice message from the customer dated January 24, 2014 @ 3:26 pm leaving [redacted]5 as the contact number.
******
Writer will cal[redacted].
Writer spoke with [redacted] who stated he had this completed all at the same time. Writer advised the customer this is a Mopar replacement part recall and not the original equipment. Customer stated the vehicle comes off of the factory floor with a new part and something happened where that had to be replaced and it is that part that is being recalled.
Writer advised this to be correct.
Customer stated he can go back to the 'Ford' dealership to see if they ever changed that part. Writer advised the part would have to be a Mopar Chrysler part and not another company after market or the recall does not apply. Writer advised reimbursement will not be provided for this repair unless another invoice can be located showing a prior repair with Mopar Chrysler parts.
Customer will send one in if it is located.
Writer advised the file will be closed and should he find an invoice it may be re opened for review.

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
CUSTOMER CONTACT: Writer called [redacted] Writer provided case # and US CAC for contact.
******Agents Left Tie rod has not been replaced, only the right side with MOOG product.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and

only repair that Customer has had on vehicle involving the steering
linkage, Chrysler CANNOT reimburse. The vehicle now has replacement parts
so Chrysler should inspect those. Customer should be advised to have all
recalls and extended warranties completed at CDJR as per the owners
Manual.
Agent explained LINE 31, customer may return call.
Writer has no idea what all Agent has relayed to Customer.
Writer acknowledges that Customer contacted directly and Customer has
been declined. Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Corporate - Reimbursement - Default - Default - Default	Seeking reimbursement
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	customer is seeking reimbursement

Briefly summarize why the customer is contacting Chrysler: Customer is seeking reimbursement for his steering linkage recall part. Customer states that he got the repair bill date on 08/27/12. Customer states that he began drifting in the left lane and missed the exit. Customer states he had to get his vehicle towed in and is seeking reimbursement for that also, agent advised customer that he can t get reimbursed for towing. Agent advised customer with the information for reimbursement request. No further assistance needed
Briefly summarize what the customer is expecting: Customer is expecting reimbursement for the steering linkage.
No documents attached to file. Writer will contact customer at phone #[redacted]
Writer notes H46 completed at dealership on June 3, 2009 with no parts replaced.
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:
The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned
No documents attached to file. Writer will contact customer at phone [redacted]

Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Front tie rods have gone out on the vehicle.
Recall - N49: LEFT TIE ROD - Information Request	Inquiring what to do about the issue.
Corporate - E-Reimbursement - Default - Default - Default	
Dealer - Unknown - Unknown - Towing Required - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states that the tie rod on the left hand side broke. Customer states that he had contacted Quality Motors of Independence dealership and was advised that the vehicle would be down for several weeks as they wait for the part to come in. Customer was seeking a possible vehicle to use until his is ready to be picked up. Customer states that the vehicle is currently in his possession. Customer states that he feels he should not have to pay for tow or rental cost since it was not his fault that the part had gone out.
Agent contacted Quality Motors 66613 and attempted to speak with someone in service to find out what was going to be done with the vehicle. No one in service was currently available to speak with agent, and agent left a message advising to call back to find out if the dealership is willing to assist with the recall problem.
Agent contacted Shield Motors and attempted to speak with service. Again, no one was available to speak with the agent and message was left.
Briefly summarize what the customer is expecting: Customer is seeking assistance with getting the issue resolved as soon as possible.
Customer is second owner.
Customer has had three vehicles.
Customer has had an issue with the front end before.
Customer has brought vehicle to dealership for work before.
Customer does not have a mechanical service contract.
Customer advised a call back is required and will take place within one business day by COB their time
Preferred Morning/Midday call back number is [redacted]
Preferred Afternoon/Evening call back number is [redacted]
Customer email address for case updates: None provided
Who has possession of the vehicle? Owner
Has the vehicle been diagnosed by a CDJ dealer? No, but vehicle is down due to a recall issue and customer is trying to find out what he needs to do.
If a CDJ dealer has diagnosed, what is the dealer name or code?

Reassigned to 88F
Customer called and stated that it is very urgent that case manager get in contact with him. Customer is concerned about rental as it is a business truck and the vehicle being down is due to the recall breakdown. Agent advised customer that it has been forwarded to case manager and it takes one business day for supervisor call back.
Customer called in stating that his case is very urgent as he uses his vehicle for work and now that his vehicle is broken, he is scared about loosing his job as he isn t able to get there. Customer asked to speak with a supervisor. Agent advised customer that we have already have escalated his case to a case manager who would be better equipped to handle his concerns. Agent advised customer that is a one business day call back from a case manager and a supervisor so it would be best to wait for the case manager to contact him. Customer stated that he would wait but wanted it documented that this was a very urgent matter. Agent advised customer that we would document this for him.
Writer contacted customer who stated that this is an urgent situation because it is his work truck and he could possibly lose his job with out the vehicle. Customer wants to know when or if we would be able to provide him with a rental truck. Customer also stated he was promised that he would be reimbursed for the towing. Customer stated that he has also had the head gasket or something replaced for a noise, and that noise has come back and there is oil residue.
Writer contacted Dealership and spoke to Service Manager Josh, who stated that he is unsure when he could receive the part because there are 8 other people scheduled before him for the same part. SM also stated that there are no rental trucks available at this time.
Writer called Dealership Sheilds Motor Company and spoke to Service Manager Jerry, who stated he has a current wait list of about 35 weeks until he would be able to repair the recall for the customer.
Writer contacted dealership Vance Chrysler dodge dealership and spoke to Service Manager Jerry, who said they would possibly be able to fix the part next week. SM stated that he would be more then happy to repair this for the customer.
Writer contacted customer and stated that Vance Chrysler dodge would be happy to repair his vehicle sometime next week. Writer also informed customer that he does have towing assistance and provided their phone number. Writer stated that he is still researching on possibilities for rental assistance.
Caller [redacted] requesting to speak with Case Manager. CM not available, writer offered customer CM s voice mail, customer accepted voicemail. Customer transferred to voice mail.
Customer contacted writer. Writer transferred customer to 66011. Due to CM not being available.
Customer called and said that the tie rod broke, due to a recall, causing the vehicle to be broke down. Customer said that the vehicle was towed to Vance Chrysler. Customer said that Vance Chrysler is now telling the customer that customer owes $39 for the tow. Customer said that Vance Chrysler informed customer that the transmission line is leaking and will cost the customer about $300 for parts, and labor. Customer said that customer now needs to know how the vehicle is going to get back to the customer. Customer said the towing company is Affordable Towing. Writer said that writer, or customer s CM will be calling the towing company, and the dealership to see what Chrysler may be able to assist the customer as far as the cost for the remainder of the tow, and the repairs to the transmission line. Writer said that writer, or customer s CM will see what can be done for the customer about getting the customer s vehicle back to the customer as well.
Writer called dealership and spoke with Service Advisor Chris, who stated he believes they do have an agreement with Enterprise and that the Service Manager will be available in about 30 minutes.
Customer contacted writer stated that his recal is completed but now the dealership is saying that there is a transmission leak and needs to be fixed. Writer also stated that he feels like he should not have to pay the 39$ towing fee.
Writer contacted dealership and spoke to Service Manager Billy who stated the vehicle does look maintained and is just a little dirty on the outside due to it being a work truck.
As a one-time goodwill gesture, Chrysler is approving this out of warranty repair. According to the dealer, the warranty costs of the

repair are as follows:
Parts = $145.40
Labor = $150
Total = $303.90
Co-pay = $0.00
########## DIRECT-TO-DEALER ##############
Customer Care is sending this case to because an out-of-warranty goodwill decision has been made. Remember ALL pre-authorization requirements for Digital Imaging and the Powertrain Service Center still apply. When submitting for pre-authorizations include this case number. When repairs are completed, submit your claim as you would normally and update this case and return it to Customer Care.
##################################
Writer contacted customer who stated that he would accept a reimbursement for the towing charge since and was wondering if we would still be able to get him into a vehicle for the weekend while his vehicle is being repaired.
Writer talked to Service Advisor Zack, who stated they do not have any rental vehicles
Writer contacted customer and stated that writer was unable to find a rental vehicle in the area at a dealership. writer will follow up on 1/20/14
CONTACT UPDATE - 1st Contact attempt, phone number dialed, [redacted]5 in regards to lines 50-56
Writer called customer who stated they are currently getting ready to drive down and pick up the vehicle instead of towing it back. Writer gave customer SLC fax number so he could fax in his information for the previous towing charge.
Status update provided via email to the following email address:
[redacted],
This is Greg with Ram Customer Care. I have not received your documentation for the towing charge and proof of payment. The Fax number is 801-736-3929. I will also send a link that you can send the documentation on as well, if you would like to do that.
Have a great day.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer seeking reimbursement for recall related repairs.
Corporate - Reimbursement - Default - Default - Default	recall
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	replaced tie rod

Briefly summarize why the customer is contacting Chrysler: Customer states he had a faulty left tie rod assembly that broke and caused him to drive directly into a ditch. Customer states the DLR 66662 has already replaced the left tie rod assembly at no cost. Customer states the accident caused the connecting rod to puncture the tire. Customer also had to pay for a tow of $125.00 and a 2-wheel alignment. Agent did not guarantee customer would be reimbursed for these expenses. Agent provided fax number 1-877-768-5076.
Briefly summarize what the customer is expecting: Customer is expecting to be considered for reimbursement on the damages due to the left tie rod assembly.
Writer will contact customer on 1/22/14 if documents have not been received.
Writer checked and documents have not been attached.

N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057 | Published 12/12/2013 08:38 AM | Updated 01/07/2014 09:31 AM | Access Level All Agents
What are the details of this recall?Owner letters are scheduled to be mailed the week of December 16, 2013.
Models:
2003 - 2004 (DR) Dodge RAM Truck (2500 & 3500 series 4x4)
2006 - 2008 (DH) Dodge RAM Truck (1500 series 4x4 Mega Cab)
2005 - 2008 (DH) Dodge RAM Truck (2500 series 4x4)
2005 (DH) Dodge RAM Truck (3500 series 4x4)
2006 - 2008 (D1) Dodge RAM Truck (3500 series 4x4)
2007 - 2008 (DC) Dodge RAM Truck (3500 Cab Chassis)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.

Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:
The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
H46 Recall still showing incomplete.
****
Customer sent in documents showing purchase of tie rods from O Reilly Auto Parts and an invoice from an IRF to have tie rod installed.
Writer notes H46 and N62 showing incomplete.
Writer will contact customer and inform her recall is for Mopar service part steering linkage parts. Writer needs to inform customer recall is not for factory installed parts, only replacement parts. Writer will inform customer Mopar parts were not purchased from O Reilly.
Writer will inform customer to take vehicle to dealership and have recalls inspected and completed.

Recall - H46: STEERING LINKAGE -	Customer seeking reimbursment.

Briefly summarize why the customer is contacting Chrysler: Customer states the vehicle broke down and he bought the parts and repaired it IRF. Customer seeking reimbursment. Agent advised customer as to AC DOC 17420
Briefly summarize what the customer is expecting:Customer seeking reimbursment.
Customer thanked agent then disconnected.
POSTMARK DATE: 011614; DATE RECEIVED: 012314
Documents attached for review.
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and submitted documentation showing only 1 repair.
Agent called customer at [redacted] and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components or the tie rods listed in recall N62, then the repair is not related to the recall because they were not Mopar service parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time. Please also advise the customer to contact an authorized Chrysler dealer to have the recall completed.
Briefly summarize why the customer is contacting Chrysler: customer contacting chrysler stating that he has a case open, customer provided agent with the case number, agent explained to the customer lines 16-22. Customer was upset and didn t understand, agent advised customer that because he didn t purchase a chrysler mopar part he can t be reimbursed for the part as to the fact that he didn t purchase a mopar chrysler part. Customer was upset, no further assistance
Briefly summarize what the customer is expecting: customer was expecting a explanation as to why he wasn t reimbursed

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking reimbursement

Briefly summarize why the customer is contacting Chrysler: Customer states that the tie rod broke previously causing customer to almost have a head on collision. Customer ordered these parts through JUNCTION AUTO SALES INC. Customer would like to be reimbursed for this as customer needed to replace tie rods and whole steering linkage up to gear box. Customer states that they went to the DLR recently and the new tie rods will need to be replaced due to recall.
Briefly summarize what the customer is expecting: Customer seeking reimbursement and if recall can be completed.
Agent gave information for reimbursement in AC #17420 and fax number as customer preferred this method.
Agent advised that this recall can be completed again as parts were purchased from DLR and are likely then MOPAR parts.
-
Reassigned to 86Y for recall re-imbursement
No documents attached to file. Writer will contact customer at phone [redacted].
No documents attached.
Writer contacted customer at phone [redacted]. No answer. Writer left message for return call at phone #800-247-9753. Writer provided File [redacted]
NEXT AGENT: If customer calls back, please ask if has has sent in requested documents for review for possible reimbursement.
Writer contacted customer at phone [redacted]. Writer spoke to customer who informed writer his wife will send in documents and we should have them in a couple days. Writer thanked customer.
No documents received and no documents in Image queue. Writer will close until documents received and attached.
POSTMARK DATE: 020414; DATE RECEIVED: 020414
Writer will contact customer and ask them to take vehicle to dealership to have steering linkage inspected as recall was completed at dealership on Sept. 1, 2009.
H46 STEERING LINKAGE SAFETY 04/27/2009 09/01/2009 COMPLETE
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 01/22/2014 COMPLETE
Writer notes that on repair invoice submitted by customer, it states

parts supplied by customer. Invoice breakdown includes parts listing and pricing also.
Also no part # s listed on repair invoice.
Customer called to inquire if there paperwork has been received. Agent confirmed that it had and advised the customer of lines 30-32. Customer stated that they went to the DLR on 01/22/2014 to have the recall repair completed. Agent verified that the recall is complete. Agent advised the customer that as of now the current CM is advising they take the vehicle to the DLR and until then the reimbursement case would be open in the meantime. Agent advised the customer to wait for their current CM to callback so they can update the information and proceed with the recall repair being completed. Customer understood. Customer advised agent that they would be sending more paperwork regarding the previous repair. Customer needs a callback.
Writer notes on repair invoice there is no VIN #, vehicle description, mileage or part numbers listed on invoice.
Writer contacted customer at phone #[redacted]. No answer. No answering machine to leave message. Writer will call back later today.
H46 STEERING LINKAGE SAFETY 04/27/2009 09/01/2009 COMPLETE
Safety Recall H46 - Mopar Steering Linkage
IMPORTANT: This recall only applies to vehicles that had certain Mopar service
parts steering components installed.
During a prior service appointment, a Mopar service parts steering linkage was
installed on about 19,400 of the above vehicles. The drag link inner joint may
fracture under certain driving conditions. This could result in a loss of steering
control and cause a crash without warning.
Also, the steering damper bracket at the tie rod tube may loosen. This could allow
the bracket to slide on the tube and may cause increased vehicle turning radius.
The steering linkage must be inspected and some steering linkage components may
need to be replaced.
POSTMARK DATE: 020514; DATE RECEIVED: 020514
Writer notes dulicate repair invoice attached.
Writer will contact customer at phone [redacted]
Writer attempted to contact customer at phone [redacted] Call would not go through.
Writer will contact customer at phone [redacted]
Safety Recall H46 - Mopar Steering Linkage
Safety Recall H46 - Mopar Steering Linkage
IMPORTANT: This recall only applies to vehicles that had certain Mopar service
parts steering components installed.
IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these
vehicles before retail delivery. Dealers should also consider this requirement to
apply to used vehicle inventory and should perform this recall on vehicles in for
service. Involved vehicles can be determined by using the VIP inquiry process.
During a prior service appointment, a Mopar service parts steering linkage was
installed on about 19,400 of the above vehicles. The drag link inner joint may
fracture under certain driving conditions. This could result in a loss of steering
control and cause a crash without warning.
Also, the steering damper bracket at the tie rod tube may loosen. This could allow
the bracket to slide on the tube and may cause increased vehicle turning radius.

Recall - N49: LEFT TIE ROD - Reoccurance or Related Problem	Experienced issue with recall
Corporate - CNA Change - Default - Default - Default	Updated information

Briefly summarize why the customer is contacting Chrysler: Customer called stating he received a recall notice for the tie rod. Customer stated in November as he was driving and just as he entered in to Mexico, the tie rod broke. Customer states he drives far distances and carries heavy loads. Customer would like to have the part expedited in order to receive it sooner as they have already broken down.
Briefly summarize what the customer is expecting: Customer is expecting to receive the part expedited as they have broken down due to the recall and would like to receive the part sooner as they have to carry a very heavy load soon and does not want to break down as it is a danger to their safety.
Agent advised: Agent contacted the customer s dealership and spoke with PM Bill Vahl. Agent inquired with the SM if there s anyways they would be willing to expedite the part for the customer due to their situation.
Agent was advised that they would not be able to expedite the part as there is no ETA; however to assistance in the situation they put the customer ahead on the waiting list. Agent thanked SM for his assistance.
Agent advised customer of this information and he was satisfied at the moment.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer seeking reimbursement

POSTMARK DATE: 123113; DATE RECEIVED: 010814
Confirm name and address matches COIN & HPIMS: Yes
Any open recalls: N62
Name of person writing in: [redacted]
Does customer have an e-mail address: No
Concern: Customer wrote in seeking reimbursement for recall N62 repair completed
Reviewed previous files: Yes, no concerns
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:
The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
Writer reviewed documents submitted by customer. Customer will need to produce repair invoice showing a repair invoice for steering linkage.

Dear [redacted]
Thank you for your recent letter regarding your 2005 DODGE RAM SLT 3500 QUAD CAB PICKUP.
I have attempted to contact you by phone but have been unable to do so. Please contact me at
1-800-992-1997 to discuss your letter. Please refer to the reference number
above or have your Vehicle Identification Number (VIN) 5G[redacted] available when you call.
Sincerely,
William,
Customer Service Representative
Next Agent Please advise that the Recall applies to vehicles that have had a Mopar Upgrade Steering Linkage Replacement installed on a Previous Service Appointment. Please advise that if the Steering Linkage was OEM (Factory Installed/Stock/OEM) at the time of the repair then the recall would not apply.
*****
If the Customer states that they had a Mopar Steering Linkage installed in the vehicle Before the Repair Please advise that the Customer needs to send in that Documentation as well.
*****
If the Customer is unsure or does not have the Documentation then advise the Customer that we will not be able to reimburse for the repair at this

time.
Please Document Customer s Response to the Recall issue below.
Letter sent 1/24/14.
Agent called in and Writer advised that the Recall only applies to vehicles that have had a MOPAR Steering Linkage Upgrade Kit previously installed on the vehicle.
Writer advised that the Customer would need to send in an Invoice that shows that the vehicle had a MOPAR Steering Linkage Upgrade prior to the repairs to be considered for reimbursement.
If the Parts were the Original (Factory) Parts that had failed the recall (N62) would not cover the costs of the repairs.
The customer is contacting after receiving a letter from CAC.
The Agent contacted previous agent WL148 to see why the file was closed and what was needed from the customer to seek possible reimbursement.
Agent WL148 informed the agent that they would have to provide a receipt stating that the MOPAR Steering Linkage Upgrade Kit had to be a MOPAR part
The agent informed the customer to seek the other receipt if possible and fax it in for further assistance.

Reassigned to 86Y
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for service and had the steering linkage replaced with MOPAR service parts prior to the one customer is seeking reimbursement for in order to be entitled to reimbursement.
Customer should have the vehicle inspected to see if MOPAR replacement parts were installed during this repair and dealer will determine if a repair is necessary under the N62 recall.
Unless customer can provide a repair invoice showing prior service N62 recall reimbursement does not apply to their vehicle and reimbursement will be denied.
Writer contacted customer [redacted]. Wrong number.
Status update provided via email to the following email address:
[redacted]
Thank you for contacting us regarding reimbursement consideration for repairs made to your 2006 Ram 2500.
I have attempted to contact you by phone but have been unable to do so.
Please contact me at 1-855-675-9291, extension 4718304, to discuss your request. Please refer to case #[redacted] or have your Vehicle Identification Number (VIN) available when you call.
End of Status Update
Customer returned call. Writer informed customer of lines 12-23. Customer stated he did not have a service prior to this.

2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
Last mileage reported 72,666 in 05/2010.
Customer purchased parts over the counter, 3 tie rods and a drag link.
Dec 30,2011.
CUSTOMER CONTACT: Writer called [redacted]. Customer is unavailable will try again by 6:30 PM EST.
CUSTOMER CONTACT: Writer called [redacted]. Rings no answer, Writer will try again tomorrow.
CUSTOMER CONTACT: Writer called [redacted]. Writer spoke to Ashley Hartzell. Writer explained the N62 recall, that it is not on factory original equipment but on replacement parts. Customer purchased the vehicle late 2009, and vehicle was inspected April 2009 and factory original equipment was still on vehicle. Writer is assuming that original equipment failed, and Customer has now replaced with non Mopar

parts. Writer has declined to reimburse. Writer did provided US CAC and
case # if husband wants explanation.
Writer is closing case.

Writer will contact customer at phone [redacted]4.
No customer contact.
Writer will contact customer at phone [redacted].
Writer will contact customer at phone [redacted].
Writer will contact customer at phone [redacted].
Recall is not for factory installed part.
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
Writer will contact customer at phone [redacted].
Writer contacted customer at phone #[redacted]. No answer. Writer left message for a return call at phone #800-247-9753. File [redacted].
NEXT AGENT: If customer calls back, please explain lines 13 - 20 and line 32. Also advise customer to go to dealership and have recalls inspected as showing incomplet.
Customer called back seeking update to case. Agent advised of lines 13-20 and 32. Agent advised to have the vehicle inspected. Customer understood and will call back if the parts are replaced.

Agent advised we need more documentation showing that the part was a replacement part not a factory part. The customer said he did no town the truck then so he would not have that documentation. Agent advised if he did not have that documentation we would not be able to provide him with a reimbursement.
Customer called back. Agent informed the customer the information as per lines 43-47. Customer understood.
N49 - vehicles built between February 14, 2008 and December 22, 2012
Customer s vehicle Build Date: August 6, 2007
Agent spoke with TL LB546 and received information for the customer
Agent went back to phone to supply the customer with the information and the customer had disconnected the call.
Customer does not fall under the N49 per lines 50 to 51
Customer does not fall under the N62 recall because the part that was replaced on the steering linkage was the factory part not a Mopar part.
Agent called in for an update on the case. Customer states that the recall part was replaced with a mopar part and that he should be able to have the reimbursement. Customer states that his vehicle is at the dealership.
Agent contacted Jay Malone Motors
Contact number. (320) 587-4748
Spoke to: SA mason states that that they had replaced the steering damper.
Agent advised SA lines 50- 51 & 55 - 57 and lines 10 - 14.
Agent advised customer of line 55 - 57.
Writer needs to contact dealership again and ask what steering is that is listed on the repair invoice. Is it a Steering Linkage and would this be related to Recall N62.
Writer will contact Jay Malone Motors at phone number. (320) 587-4748 .
Customer will need to provide documents showing he had tie rods replaced.
Recall is for replacement parts only, not factory installed parts.
Writer notes customer had H46 inspected on Oct. 12. 2009 with no parts replaced.
H46 STEERING LINKAGE SAFETY 04/27/2009 10/12/2009 COMPLETE
Writer needs to contact dealership to see if repair is H46 Steering Linkage and if so, why was repair not done under recall.
Dearlership phone #320-587-4748.
Safety Recall H46 - Mopar Steering Linkage
IMPORTANT: This recall only applies to vehicles that had certain Mopar service
parts steering components installed.
During a prior service appointment, a Mopar service parts steering linkage was
installed on about 19,400 of the above vehicles. The drag link inner joint may
fracture under certain driving conditions. This could result in a loss of steering
control and cause a crash without warning.
Also, the steering damper bracket at the tie rod tube may loosen. This could allow
the bracket to slide on the tube and may cause increased vehicle turning radius.
Recall is for replacement parts only, not factory installed parts.
Writer will contact customer and explain Recall is for replacement parts only, not factory installed parts. Customer would have to provide another repair invoice showing steering linkage had been replaced.
Writer will contact customer at Phone No [redacted]
Writer will contact customer at Phone No : [redacted].
Writer contacted dealership at phone #320-587-4748. Writer spoke to Mason and asked if repair was H46 Recall - steering linkage. Mason stated it was factory part that was replaced, not a replacement part. Customer s vehicle now falls under N62 recall. Customer would need to come to dealership and have Recall N62 completed.
Writer will contact customer at Phone No : 3[redacted]
Writer will contact customer and inform him another repair invoice would need to be sent in as Recall is for Mopoar service parts, not factory installed parts.
Writer will contact customer at Phone No [redacted].
Writer contacted customer at phone [redacted] Writer spoke to customer and informed him no reimbursement would take place. Writer

explained the N62 recall and N49 recall to customer. Writer advised customer to contact dealership if he did not understand what writer was saying. N62 is for replacement parts, not factory installed parts. and N49 if for vehicles built between Feb. 2008 t Dec., 2012. Writer explained customer s vehicle was 2007. Customer very confused but understood writer s position.

Letter sent 1/29/14.
Writer received a call from the customer. Writer advised a letter had been sent as there were no phone numbers on file to call. Customer provided [redacted]
Writer advised the documents had been received for a repair completed on the vehicle. Writer advised the recall attached to this vehicle is for a Mopar replacement part for the steering linkage. Customer stated he does not believe he had that changed. Writer advised reimbursement will not be provided for the repair completed. Writer advised the customer to contact the dealership, they will inspect the vehicle connection at the tie rod and replace the part if needed at no charge to the customer. Customer understood.

Agent checked for contact.
OUTBOUND CONTACT to DICK HANNAH CHRYSLER JEEP DODGE at 877-240-1867, spoke with Jennifer SMÙ in regards to the invoice submitted. Jennifer states the repair to the vehicle was due to the tie rod end came apart at the damper shock mount. The repair was not related to the H46 that is why it was inspected. Customer will have to come in and have the vehicle inspected due to the part at that time was under the recall time frame.
Agent reviewed documents for reimbursement consideration of the N62 Left Outer Tie Rod.
Documents do not support the recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.
Claim is denied at this time
OUTBOUND CONTACT to MR[redacted], left VM with contact information at 1-800-853-1403 case [redacted] in regards to the reimbursement consideration on repairs completed to his 2006 DODGE RAM.
Agent also advised customer to contact CDJ to have previous repair inspected at no cost to update file.
****
When customer calls in please advise as per lines 83-91. Agent did review with Service Manager Jennifer at the customers dealership at the time of the repair, who advises customer to contact dealership for the Recall N62 to be performed.
****
Customer contacted. Writer advised customer of lines 83-91. Writer advised customer that at this time he would need to bring the vehicle to the DLR to have it inspected to have the recall completed.

***No further action required, customer was informed.
REIMBURSEMENT DECLINED
******CLOSED LOOP******
Customer called back.
Customer stated he was denied reimbursement and would like to know why.
Agent advised customer of (see lines 83-91).
Customer did not understand , he stated he was told by the dealership his vehicle was included in this recall.
Customer stated he was going to call the dealership.
Agent advised customer that we had already contacted the dealer regarding this issue and it was determines that you did not have the part on your vehicle that was under recall.
Agent apologized for the incovience the customer had experience but at this time the answer has not changed regarding reimbursement.
Dealership called in asking why this reimbursement was declined. Agent stated lines 83-91. Agent stated that this recall is for recall replacement parts and not factory parts. Agent stated that if the customer did not have these parts replaced before then they would not be reimbursed under this recall.

Recall - N49: LEFT TIE ROD - Advise Owner/Incomplete Recall	broken left tie rod
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer contacting Chrylser because they spoke to their dealership since their vehicle is broken down and the dealership clarified that he issue he has is a recall for the left tie rod. Customer states they would like to have their vehicle fixed. Customer seeking tow. Agent explained to customer that the recall covers the actual recall repair itself if the issue is diagnosed to be the tie rod. Agent advised the towing is not covered by the recall. Agent offered to transfer customer to roadside but it would be an out of pocket expense. Customer states they would just call the dealer. Agent provided roadside phone number in case they change their mind.
Briefly summarize what the customer is expecting: Customer expecting to have vehicle towed due to recall occurence.
Reassign 861, no diagnosis and open recall.

Corporate - Recall - Default - Default - Default	N 62 recall
Corporate - Survey By-Pass - Dealer Call - Default - Default	

Curtis Lawson, from Lawson Automotive, (IRF) called stating he had to work on this customers vehicle for the N 62 recall.
Caller states he had to take a brand new outer tie rod for a Chassis cab, out to the Ranch were customer broke down, and do the repair out there since could not even move the vehicle to tow it.
Caller states he called a Dodge DLR in his area who told him Dodge would reimburse him if he did this for the customer.
Agent advised caller we can only give reimbursement to the customer and would need to speak to him regarding the situation.
Caller will have customer contact us.
SURVEY BYPASS/IRF CALL
Customer called back in and was asking for some sort of certification as an IRF completed the recall with Mopar parts. Agent suggested the customer could submit his receipts to reimbursement and the process takes approximately 4-6 weeks. Customer was going to call back to verify we had the correct address on file. Agent gave the customer the case [redacted] to reference.
Customer calling back in to find out what the mailing address is showing on the vehicle account. Customer wanted to confirm that the address on file is the correct one. Agent advised customer that the address we have on file for the vehicle is 8814 STABLE CREST BLVD, HOUSTON , TX- 77024. Customer stated that this is correct and had no further questions or concerns.

Briefly summarize why the customer is contacting Chrysler: Joyce calling from a Vermont insurance company. Joyce states that the owner of the vehicle had an accident in May due to his left tie rod breaking. Joyce states that the customer was driving down the interstate and the left tie rod on the vehicle broke. Caller states the customer was not sure what happened he states he was just driving and hit a small pot hole however it snapped the left tie rod. Caller states that the customer just got the notice so their insurance company was calling to advise Chrysler of what had happened. Agent was advised to provide the caller with the mailing address and fax number as per AC ID 20071. Customer s vehicle has been repaired however they feel the tie rod broke because of this recall.
Agent advised they will document everything on file and if they could send in the customer s claim information to:
Chrysler Group LLC
Special Investigations
P.O. Box 21-8004
Auburn Hills, MI 48321-8004
Fax number- 586-497-2112
Joyce thanked the agent and disconnected the call.

Briefly summarize why the customer is contacting Chrysler: Customer states that they have the N49 recall on there vehicle and their tie rob broke. Customer states that he is travelling and his tie rod broke and he is seeking a rental vehicle while the repair is being completed.
Briefly summarize what the customer is expecting: Customer is expecting a rental vehicle.
Writer transferred customer to ML1094 for further assistance.
Writer took inbound call from the customer. Customer informed writer that he is in Pennsylvania and his vehicle broke down. Customer informed writer that he is in need of a rental vehicle to go home to Ohio.
Customer was informed that we will contact the dealership to set up a rental vehicle. Customer wanted to know about the towing. Writer informed the customer that we will also take care of his towing. Writer contacted the New Holland s dealership and informed them of the customer s situation. Writer informed SA Jerry that we will approve rental for the customer and follow up on the parts situation. SA informed writer that they have 50 people waiting for the same part and their expected ETA is in March. Writer informed that a follow up will be made once more information is available. Customer provided [redacted] as his contact number. Writer went back to the customer and informed him that we will follow up on more information on the parts.
Writer contacted the dealership and spoke to SA Brian. SA informed writer that their dealer code is 45102.
CONTACT UPDATE - 1st Contact attempt, phone number dialed, [redacted] lines 8-21.
REASSIGNED TO BC/DLR 35 45102 01/16/14 16:21 O [redacted]
Writer took call for CM ML1094. Writer spoke to SA Mark and said the vehicle was towed in today. Writer asked if he was in a rental and he

said they did provide him with one. Said it does look like the tie rods but will know by tomorrow. Stated the customer did have the vehicle towed in and writer stated I will notate the cair and gave cair #24451658. Mark appreciated and looks forward to hearing from the CM tomorrow. Call back 1/17.
Mr. Leway called to speak with their Case Manager. Transferred the customer to ML1094 at ext 66245
Writer contacted the dealership and left a message for SA Mark. Writer requesting to know if diagnosis has been completed and also to verify if we have a part and order number.
Writer contacted the customer and was informed that he wants to know if we could overnight the part to the dealership. Writer informed the customer that we are working with the dealership to get more information and as soon as we recieve information writer will follow up. Writer however did inform the customer that we will follow up later today.
Writer contacted the dealership and left a message for SA Mark. Writer informed the SA Mark that writer is following up on the diagnosis and to verify the part that is needed for the customer if it is the recall part.
Writer received voice message from SA Mark. SA informed writer that they have diagnosed the customer s vehicle and it is the recall part that is needed to resolve the customer s concerns. SA gave part number: CBUEN491-AA. SA informed writer that he can be reached at 717-354-4910 ext: 212.
Writer contacted the dealership to ask who the AM is in their Area.
Writer was given information to contact AM.
Writer contacted the AM to assist with the part situation for the customer. Writer gave customer information and was informed that he will put in the order for the customer s part. Writer informed that we will contact him through email for more information.
Writer contacted the customer and informed the customer that the parts information has been submitted for expediting. Writer informed that a follow up will be made to the dealership for more information and writer will follow up no later than 1/20/14 after contacting the dealership.
Jerry Leway called requesting to spak with CA ML1094. CA was unavailable.
Writer warm transferred customer to CA OS533 for further handling.
Agent attempted to contact dealer Parts however,
not available. Left message for a return call at extension 66245.
Writer received inbound call. Customer wanted to know what was going on with the part if it was over night. Writer contacted dealership and left message for parts. Customer also states that he is working with the SA Mark. Writer contacted SA Mark which states that they are not seeing anything on the over night truck. Writer advised customer that I would have the case advocate look into this and give him a call back. Writer also advised customer that if the case advocate does not come in I will work it for him.
Writer received call from PM John. PM stated he was trying to return call to CA. Writer informed PM that CA was away from desk but writer can assist dealership. PM stated part is a recall part and dealership is only allowed to order a certain amount at a time. PM provided a part # of CBUEN491AA and order # CC0120. Writer informed PM that we will see if part can be expidited any faster.
Sent an email to the AM for an update on the part.
**********96W TRIAGE TEAM**********
****** Following Corporate Resource has been contacted ******
These are campaign parts CBUEN491AA. Assigning to parts agent KB851 to contact customer to let them know about their campaign part. Please contact parts department and have them contact expediting or place a web request for these parts. Dealer can do up to 5 parts at time. Thank You
**********END OF TRIAGE**********
**********96W PARTS UPDATE **********
Writer checked GPOP and found part status as __order 3 in 7__.
ETA for part is _no eta_.
**********END OF UPDATE **********
Writer recieved email from AM informing writer that the part was ordered and filed and that the dealership should have part by now.
Writer contacted the SA Mark in regards to the customer s parts that were ordered. SA informed writer that they are not seeing the part at this time and he will check with the parts department and contact writer back.
Writer recieved call back from SA Mark informing writer that they have not recieved the part and they are not seeing any information on the

part. Writer emailed AM to inform of the information. SA informed writer that the dealership will be closing early today because of the weather situation. Writer informed that writer will update through email with AM and SA until he comes back into the office.
JERRY T LEWAY called requesting to speak to CM ML1094. Writer warm transferred customer to CM GA622 for further handling.
Writer spoke to customer who states that no dealership has the part for his vehicle. Writer advised that the part has been ordered and that it looks like it may be at the dealer, but that SA is unable to see it.
Writer attempted to contact SA Mark at 717-354-4910 ext 212 and got transferred to VM. Writer disconnected call. Customer was advised that at this time, writer was unable to get in touch with the SA. Customer states that he would like to be contacted back today with an update on the part.
Writer contacted the dealership and spoke to SA Mark. Writer was informed that the order that was made yesterday was canceled due to the weather. SA informed writer that he just recieved an email stating that the orders will be combined and shipped out for tomorrow. Writer informed SA of a follow up no later than 1/23/14.
Mr. Jerry Leway calling to speak with Customer Advocate ML1094. Writer advised CA is not available and will transfer customer over to TP405 at ext 66380.
Phone numbers: verified both
Email: declined
Writer took call from customer who was seeking an update on the progress of the part and repair on vehicle, Writer placed customer on hold and called the dealership to check on part arrival. Writer spoke with Pete in parts who advised part is not at the dealership yet. Customers concern is the vehicle he was provided is to small, wanted to know if we would authorize a larger vehicle. Writer advised we would be happy to.
Writer attempted to contact SA. Writer left a message authorizing larger rental and requesting an update on parts.
Writer recieved voice message from the SA Mark stating that the vehicle is repaired and the customer is on his way to pick up the vehicle. SA Mark states that he is needing to know what to do to get things covered. SA wants to be contacted at 717-354-4910 ext:212.
Mr. Leway called to speak with their Case Manager. Transferred the customer to EA700 at ext 66169
Customer contacted us regarding reimbursement for fuel, tolls, motel and food. Writer advised will reimburse for all and a limit of $50 for food. Writer provided fax number. Customer expressed frustration with not being called back when he needed more information.
**********96W PARTS UPDATE **********
Writer checked GPOP and found part status as _order 3 in 7_.
ETA for part is _no eta_.
**********END OF UPDATE **********
Dealer SA Chris code 45188 seeking to get paid for alignment of vehicle that was repaired out of state.
Case manager not available.
nic IL502
66079 took the call
Dealer 45188 SA Chris code he stated that they completed an alignment for $69.00 that was not completed after the N49 at another dealership while the customer was out of town. The milage was 113748. Writer advised that we can complete this for him one time only.
**********96W PARTS UPDATE **********
Writer checked GPOP and found part status as _order 3 in 7_.
ETA for part is _no eta_.
**********END OF UPDATE **********
Customer contacted writer requesting an address to send documentations. Writer provided customer with address. Writer did advise customer will take a couple weeks to receive documentation and for it to be placed on VIN.

Corporate - Recall - Default - Default - Default	LEFT TIE ROD

Briefly summarize why the customer is contacting Chrysler: Customer states that they think its very unsafe to be driving there vehicle around with a wait like this. Customer states that they think that the factories should be speeding up the production of this part. Customer stated she waited as long as she could to contact the dealership and that the recall still can t be completed.
Briefly summarize what the customer is expecting: Customer expects to have their recall completed as soon as possible.
Agent advised customer that there are about 264,000 of vehicles that may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning. Agent states that many vehicles are effected and that there is going to be a wait unfortunately and that they need to wait for the part.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reoccurance or Related Problem	Customer states tie rod broke on 01/15/2014
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called stating he received a letter in the mail stating he had a tie rod recall on his vehicle. Customer states he was driving yesterday and the tie rod broke. Customer states he has a bolt on shock not the clamp on shock which is under the recall.
Briefly summarize what the customer is expecting: Customer would like to know if his vehicle is eligible for the recall. Customer would like to know what happens if he were to make the repair himself.
Agent advised she will contact the DLR for further information. Agent contact SA Roger. SA stated that he advised the Customer that the recall is mainly for the clamp on springs. SA stated that the vehicle will need to be towed to the DLR for inspection to determine whether or not the recall can be valid for the vehicle. Agent thanked SA. Agent advised the Customer that the vehicle needs to be towed to the DLR for inspection to determine whether not the tie rod can be replaced under the recall. Agent advised that the cost of the tow is responsibility of the Customer. Agent advised that if the Customer so choses to complete the repair himself and uses a Mopar part he can submit for reimbursment but the labour will not be reimbursed. Customer understood.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Customer seeking repair
Corporate - Survey By-Pass - No Repair - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states his left tie rod broke on the vehicle. Customer states he knows it is a recall.
Briefly summarize what the customer is expecting: Customer seeking repair completed.
Agent confirmed customer information.
Agent contacted DLR code 42355 and spoke to SA Jerry.
SA states the customer can have the vehicle towed there.
SA states the customer would get the first part that comes in.
Agent advised customer of this.
Reassigned for survey by-pass
Customer called back seeking rental assistance.
Agent called MELLOY DODGE Dealer Phone : 505-843-9600 and spoke with Jerry SA. Agent advised Jerry that
the restriction for the N62 has been lifted so that they can order 3 parts at a time and since customer s vehicle is down hopefully they will be able to get the parts as soon as possible.
Agent did speak with TL Kim about the possibility of moving forward but was advised that we could not.
Agent advised customer that he would have to continue to work with Jerry to get this issue resolved as quickly as possible.
Agent was unable to move forward to Rental as customer was hoping.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Reimbursement for recall repair
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	tie rod broke, whole steering upgraded completed.

POSTMARK DATE: 010814; DATE RECEIVED: 010814
Confirm name and address matches COIN & HPIMS:Yes
Any open recalls: N62
Name of person writing in: [redacted]
Does customer have an e-mail address:No
Concern:Customer wrote in seeking reimbursement for a repair completed under the N62 recall
Reviewed previous files:Yes, No concerns
Writer acknowledges assignment and that there are documents present.
H46 completed 09/04/2009, inspection only, no parts = original factory equipment.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided Case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering

linkage, we cannot reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
****UPDATE****
Customer contacted agent, agent reviewed lines 31-37 with customer. Customer very unhappy and wants call back from CW653 to explain decline.
CUSTOMER CONTACT: Writer called [redacted]. Writer explained the recall again and understood about the death wobble and all the associated problems. Writer apologized, but Chrysler will still not reimburse for the original equipment. Customer understands and accepts. Writer advised he can take his vehicle to any CDJR dealer have it inspected and if any replacement parts, need replace Chrysler will do so and re-align his vehicle. Customer understands and accepts.
Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Dear Deb Wardyn:
Thank you for your recent letter regarding your 2005 DODGE RAM SLT 3500 QUAD CAB PICKUP.
I have attempted to contact you by phone but have been unable to do so. Please contact me at
1-800-992-1997 to discuss your letter. Please refer to the reference number
above or have your Vehicle Identification Number (VIN) 5G744483 available when you call.
Sincerely,
William,
Customer Service Representative
Next Agent Recall applies to Mopar Replacement Parts Failure not Factory Parts Failure.
Please advise that the Recall applies to vehicles that have had a Mopar Upgrade Steering Linkage installed on a Previous Service Appointment and then needed to have the Tie Rod Ends Repaired. Please advise that if the Steering Linkage was OEM (Factory Installed/Stock/OEM) at the time of the repair then the recall would not apply.
*****
If the Customer states that they had a Mopar Steering Linkage installed in the vehicle Before the Repair Please advise that the Customer needs to send in that Documentation as well.
*****
If the Customer is unsure or does not have the Documentation then advise the Customer that we will not be able to reimburse for the repair at this time.

Please Document Customer s Response to the Recall issue below.

Letter sent 1/29/14.
Customer seeking to speak to WL148. Agent transferred.
Customer calling back for recall information and to find out the status of his reimbursement. Agent advised customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components or the tie rods listed in recall N62, then the repair is not related to the recall because they were not Mopar service parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time. Customer states he has already had the recall completed and he will look for any further documentation and submit it if he finds Mopar parts were used during a prior service appointment.
Customer calling to verify if the DLR has re sent any documents in for reimbursement. Customer states that the DLR advised they will send in documentation stating they have already had the repair done. Agent advised their reimbursement request was declined unless we can get documentation showing they had it replaced. Customer states they are going to re submit the paperwork as the DLR has not sent anything in. Agent advised they will send them a documentation request link to their email address. Customer thanked the agent and disconnected the call.

Status update provided via email to the following email address:
dwardyn@nai.us.com
Hi, my name is Bill from the Chrysler Reimbursement Team. I have reviewed your request for reimbursement. Please contact us at 1-800-853-1403 and refer to CASE # [redacted] so we can discuss your request with you.
Thank you.
End of Status Update
Please Advise that after review of the information submitted and the repairs completed at the DLR that the Parts that are the subject of the Recall (MOPAR Steering Upgrade Kit) were not installed on the vehicle at the time of the repair and the repairs that have completed would not be reimbursable under the N62 recall.
Customer had questions that agent could not answer as to what part for her tie rod was replaced. Agent tired to explain that it was not a mopar part that was replaced, it was a factory part and wasn t part of the recall. Agent read lines 94-98 but customer didn t understand and needed more explanation than that from William who had e-mail her about it.
*****Customer is requesting her case manager William to call her back at the number provided*****
308-784-2118
Customer Contact: 308-784-2118. Spoke with Deb.
Agent advised that the Parts that were used for the repairs are not the same as the Parts that are part for the recall. The recall is on MOPAR parts not Factory Parts.

Customer understood.
Closed CAIR.

H46 completed 02/18/2010, inspection only, no parts = original factory parts.
Previous Cair [redacted] is pertinent as Customer reported issue, sought assistance from Chrysler and was declined as vehicle was taken to IRF, Chrysler did not have a chance to see vehicle. Customer felt it was a defect.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer [redacted]. Writer spoke to Customer directly. Writer advised Chrysler cannot reimburse for the original factory equipment repair, but Customer was more than welcome to take vehicle to any CDJR dealer, his vehicle will be inspected, if deemed necessary the replacement parts will be re-replaced, and the truck realigned. customer understands and accepts.
Writer is closing case.

* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.
* *

***Agents Customer has submitted invoice for a tie rod install/ towing/ stabilizer from Phifers .
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, Chrysler CANNOT reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
Customer called to see if she was entitled to reimbursement.
Agent advised customer as to the N62 Chrysler CANNOT reimburse as this has only been the first repair on the vehicle.
Agent inform customer that the vehicle still needs to be inspected by a dealer as the recalls N62 and H46 are still not completed.
Agent contacted closest DLR to the customer FARRIS MOTOR COMPANY 865-475-2071, spoke to Lyn in service.
Transferred customer to dealer to make arrangments for inspections to be completed.
CAIR can be closed
Writer acknowledges Customer has contacted directly and has been informed properly. Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

H46 completed 12/09/2009, inspection only, no parts = original factory equipment.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.

Customer had vehicle in twice to Z-1 Automotive 11/14/2011 and 12/01/2011. First incident all ball joints, inner tie rod RH, bearing assembly and front axle U joint replaced. Second incident ball joints replaced (free) front axle U joint, and Left front Outer tie rod replaced.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided case # and US CAC for contact.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, Chrysler CANNOT reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.

Writer located the N62 recall is attached to this vehicle.
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
Writer located information for the N62 recall:Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:The steering linkage assembly must be inspected and replaced if required.
******
Writer located the H46 recall to be attached and completed - H46 STEERING LINKAGE SAFETY 04/27/2009 09/10/2009 COMPLETE
Writer located the H46 in claims no parts replaced.
******
Writer will contact the customer to advise reimbursement will not be provided as the u joints and ball joints are not part of the N62 recall.
******

Writer will call - [redacted]
Writer spoke with [redacted] who stated he thought the ball joints were part of this because they are not serviceable due to no grease zerts.
Writer apologized for this concern advising the N62 recall is on a Mopar replacement steering linkage and not the original equipment on the vehicle. Customer stated he has never had to change the linkage. Writer advised reimbursement will not be provided for this repair. Writer advised the customer to contact the dealership to have the recall completed.
Customer thanked the writer for the call.

Reviewed previous files: Yes
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied
Agent contacted the customer @ [redacted] @ 4:26 PM and customer continues to hang up suspecting a telemarketer. Agent will send contact us letter

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
From the invoices:
04/27/2009 - replace steering box
06/25/2009 - replace serpentine belt , and power steering pump
06/03/2010 - replace power steering pump
Dec. 2, 2010 - alignment,towing, tire, steering linkage and damper replaced
Writer reviewed previous cases. Customer has been declined assistance on several invoices he has resubmitted.
Customer states he always uses MOPAR parts so the one steering linkage repair 10/16/2009 is his first replacement. Chrysler will not be reimbursing for that repair, but Customer should be encouraged to take vehicle into any CDJR Dealer have the vehicle inspected, and if the replacement parts need replacing Chrysler will do so and re-align the vehicle.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided case # and US CAC for contact.

*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, This is the first and only repair that Customer has had on vehicle involving the steering linkage, Chrysler CANNOT reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
Writer will call Customer again today.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided case # and US CAC. Writer advised case will close in two days, but can be accessed or re-opened as needed.
Customer called back in.
Agent advised customer of lines 42-50.
Customer states he wants to speak with CW653.
Agent advised the request will be put in.
CUSTOMER CONTACT: Writer called [redacted]. Writer provided case # and US CAC.
Customer has been advised properly, unless the Customer has further evidence of a documented tie rod end repair with a MOPAR part Chrysler will not be reimbursing. Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	Customer received recall notice
Product - Suspension - Tie Rods / Drag Link - Other - Unknown	Left tie rod on vehicle broke
Corporate - Survey By-Pass - No Documentation - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customers mother Carrol calling on behalf of Tyler. Carrol stated they just received the recall notice and were going to pick up the vehicle today from an IRF who just replaced the components for the recall as they broke.
Briefly summarize what the customer is expecting: Customer is expecting reimbursement for the repairs already completed. Writer advised customer you can submit for possible reimbursement by mail, fax or we could send you a link to scan and email the documentation. Customer stated she would like to fax it in. Writer advised customer the fax number as per AC 18891. Writer advised we would not cover the cost of labor for the IRF. Agent waiting for documentation.
Agent called customer and left a message advising the documentation has not arrived at this time and the case would be closed if the documents have not arrived by January 29, 2014 and that the case would be reopened and processed as normal once the documentation arrives.
Agent has not received documents and is closing case at this time.
Case reassigned for survey by-pass.

On Going Claim For Tie Rod Recall
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
Hello: I was just at the Dodge Dealership and they advise me about the Tire Rod Recall. I am extremely dissatisfied with that fact that you at the customer support service center has yet to acknowledge my issue. I have made claims this tire rod system almost killed me and have been ignored by you. Now I m at the dealership and they advise that in fact my truck is part of the recall that was finalized on Dec 13, 2013 recall. I expect a phone call, email response or a letter from Dodge. I was also advised since I have repaired the problem they you have a claim form to get my money back. I truly should sue you for almost killing me. Please advise and get back to me ASAP! [redacted] REFERENCE NUMBER: [redacted] EMAIL CASE NUMBER: [redacted]
*****END OF CUSTOMER EMAIL*****
Dear [redacted]
Thank you for contacting the RAM Assistance Center.
I do apologize to hear that you had experienced this issue in the past with the tie rod. I understand how frustrating this recall information must be for you and the concerns you have.
If you have had the steering linkage assembly repaired and paid for it out of pocket, than we can look into possible reimbursement for the repair. If you have had the inspection performed and they determine that the recall repair still needs to be done, than we are unable to reimburse you.
The part that you paid to have repaired must match the part numbers for the recall N62Ù repair, in order to request reimbursement. Please include the following information
so we can respond to your issue promptly.

Address
Vehicle owner name (if different)
Vehicle owner address (if different)
Day and evening phone numbers
Vehicle Identification Number (VIN)
Current vehicle mileage and mileage at time issue began
Name of dealership where vehicle was purchased / serviced
Date of purchase / service
Description of the concern
The requested action
Original Repair Order and original proof of payment
Please ensure that you send a copy of the original repair order and the original proof of payment. This information can be sent in by mail to the address below:
Chrysler Recall Assistance Center
P. O. Box 21-8007
Auburn Hills, MI 48321-8007
Thanks again for your email.
Sincerely,
Myranda
Customer Service Representative

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Recall reimbursement

Briefly summarize why the customer is contacting Chrysler: Customer calling in due to the fact that they state their vehicle was affected by the recall, and they got the issue repaired before they received the notification.
Briefly summarize what the customer is expecting: Customer is expecting to receive reimbursement for the repair they paid for out of pocket that was caused by the recall.
Agent advised: Agent advised customer that there is recall reimbursement information included in the notification they received. Agent then advised customer to contact their Chrysler dealership in order to have the vehicle inspected to reflect that the recall was complete on their VIN. Customer declined being transferred to the dealership for an appointment.

Greg,
Here is my bill showing that I had the work performed by my mechanics. The only dealership around here is 35 miles away either way I go. I can not spend time of 1-3 days without my truck for I use it for my business. This dealers try and work them in but they are not that dependable about getting you in and out as they say. I have everything done here by my mechanics so I can only be 3-5 hours without my truck. I want to stress that the right tie-rod end is the one that broke on me at about 70 mph going down the road and so when did the whole front end. We did a road side fix to get it back home with a new tie-rod end on it. Then we replaced all the ball joints, tie-rods, brakes, and bearings were changed out. Also an alignment was done with new tires. I was unaware of the recall until I got a notice in the mail about 3 weeks ago. Here is the

bill for the left side only. If needed I can get the rest of the bills sent to you also. This was a very scary situation and glad it was me that was driving my truck instead of one of my family members. Could have turned tragic very fast. Thank you.

***** Customer Document Received *****
Agent reviewed documents submitted by customer and found customer s repair invoice shows the ball joints were replaced and not the tie rod. Agent found the customer only submitted documentation showing 1 repair. Agent called customer and advised that the repairs don t qualify for reimbursement and that the parts installed on the vehicle may need to be replaced due to the N62 recall. Customer understood.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	LEFT OUTER TIE ROD ASSEMBLY
Corporate - Survey By-Pass - No Repair - Default - Default	

Customer calls seeking recall information. Advised the customer of incomplete recall N62 for this vehicle. Customer was advised to contact a Chrysler, Dodge, or Jeep dealer to schedule an appointment to complete recall repair.
Briefly summarize why the customer is contacting Chrysler: Customer states that he brought his vehicle into the local DRL to have them look at his tie rods. Customer states that the DRL advised him that his is about to break and to contact Chrysler to see if they can provide assistance with this. Customer is looking to get his vehicle fixed as it s about to break.
Briefly summarize what the customer is expecting: To get help with his vehicle.
Agent contact DRL 24022 and spoke with SA- Gale who advised that they have not looked at the vehicle but the customer contacted them and stated that his tie rod was about to break. Agent asked Gale if it was possible to move the customer to the top of the line so he can get his tie rod replaced as it is about to break. SA Gale states that he has not a problem doing that and will contact the customer when the part comes in. Reassign for survey by-pass. No repair. PC739

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking recall information
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called in stating that he has 20 trucks and 8 of them are involved in the tie rod end recall. Customer stated that one of his vehicles currently has a fractured tie rod end. Customer asked if he could get the tie rod end so he could fix it himself, but the dealership informed him the steering linkage needs to be updated and put onto the truck. Customer stated he cannot just change the one $40 part without changing the $500 steering linkage assembly. Customer stated he needs to get the repair completed immediately and cannot wait for recall parts to become available. Customer stated that the truck is critical to his business being a landscaper, and using the vehicle as a snow plow. Customer stated he would like to know if they will reimburse him for getting the whole steering linkage replaced. Customer stated he wants reimbursement for replacing the whole front end. Customer stated he called 2 dealerships and they told him the same thing.
Briefly summarize what the customer is expecting: Customer seeking recall information.
Agent contacted the dealership ARMORY CHRYSLER DODGE JEEP RAM 37000 for more information, and spoke with SA Tom. SA stated that the customer had not brought his vehicle into the dealership before. SA stated that they do not know what parts are replaced in the recall and do not know if the customer will be able to submit for reimbursement.
Customer disconnected while agent was on with the dealership, Agent tried to call customer back but there was no answer.
*Next agent - if customer calls back - advise he could submit for reimbursement but there is no guarantee it will be reimbursed
*Reassigned JE779 - Survey bypass - No diagnosis.

Recall - N49: LEFT TIE ROD - Information Request	Customer dissatisfied with recall.
Corporate - Survey By-Pass - No Diagnosis - Default - Default	
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	

Briefly summarize why the customer is contacting Chrysler: Customer states he was advised parts are not available for N49 recall repair. Customer states dealer (42313) advised customer 45 people are ahead of him on list and he will have to wait 45 weeks for repair. Agent states he is not satisfied with waiting for repair. Customer states he lives and drives in a mountain area with rough roads. Customer states he wants vehicle repaired now and does not want to wait one day for repair.
Briefly summarize what the customer is expecting: Customer seeking information on recall N49.
Agent advised customer of restriction for parts for recall N49. Agent advised customer dealer may have wait list for customers to order part. Agent offered to contact dealer (42313) and verify customer has been placed on wait list. Agent advised customer Chrysler is working to have parts readily available. Agent advised restriction is not permanent and once more parts are available restriction will be removed.
Customer states he is not satisfied with agent s response and requested the contact information for the president or vice president of Chrysler. Agent advised contact information is not available. Customer states he wants to speak with someone else.
Customer requested Supervisor callback
Preferred daytime number: [redacted]
Preferred evening number: [redacted]7
Reason for request: Customer disputing restriction for recall parts for N49
CAIR assigned to: SG893
CSR has informed customer a Supervisor callback request has been made and the customer will receive a callback within 24 hours.
tl called [redacted] and left message to advise to work with sm as part is one restriction.
Customer states that when the supervisor BR379 called and left him a VM he was not able to hear it all and wanted to speak with a different supervisor. Customer states that he wants to express his feels to a supervisor not an agent.
Agent transferred customer over supervisor Kim.

Transferred to supervisor Kim G.
INBOUND SUPERVISOR CONTACT
Customer wanted to express how very unhappy they are with Chrysler because Chrysler issued a recall where there are no parts available. Customer advised they have already contacted NHTSA and filed a complaint. Supervisor apologized to the customer for the great inconvenience that this has caused the customer. Supervisor attempted to explain that the parts are currently on restriction (1 every 7 days) and that we are working diligently to put out as many quality parts as possible. Customer advised that is not satisfactory and wants to speak directly to the CEO of Chrysler because the customer wants some sort of resolution and satisfaction from being a long time Chrysler customer. Customer advised that should their request be forwarded, the agent needs to speak slowly and clearly.

Damskov Auto Sales
707 Okama Driv
Omak, WA 98841
(509) 826-2000----Agent called the dealership and spoke to Misty in the service department who stated the customer is on the waiting list and he is Number 41 and there is approximately 55 people on the list.

76.09 Miles away
Barry Chrysler Jeep Dodge
548 Basin Southwest
Ephrata, WA 98823
(509) 754-2411. -- Agent called the service department and spoke to Shane who stated that they currently have a waiting list of 25 people.
CUSTOMER CONTACT 5[redacted]: Agent called the customer and stated that she is looking into seeing what she is able to do for him. Agent stated that she is going to try what she can to get him a part. Agent asked the customer what is his preferred dealership. Customer stated that he would like to deal with Damskov dealership. Customer thanked agent for following up with him as this is a very upsetting issues because he paid a lot of money for this truck and he should have to wait until October to get his truck fixed. Agent stated she will follow up with him by the end of the week to see if there is an update. Custome thanked agent again.
Contacted JBK5 for assistance; please hold for updates dcp15
Waiting for direction
CUSTOMER CONTACT [redacted]: Agent attempted to call the customer, no answer left message stating that she is still working on the case and will follow up before the end of the week. Agent provided number to contact directly at 855-675-9291 ext 4718558.
DAMSKOV AUTO SALES 509-826-2000: Agent called the parts department and spoke to Don who stated that the parts have arrived at the dealership and they have the RO number and the customers name with them.
CUSTOMER CONTACT 5[redacted]7: Agent called the customer and stated that we were able to force a part through for him and she was able to confirm that they have arrived at the dealership and he will just need to make an appointment to have it completed. Agent offered to transfer to the dealership to make an appointment. Customer stated he would like that. agent transferred to Jeff in Service at 42313. Agent stated to the customer she will follow up in a week to follow up with the repair.
Waiting for repairs.

DAMSKOV AUTO SALES 509-826-2000: Agent called and spoke to Jeff in the service department. Agent asked if they ended up fixing the customers vehicle. Jeff stated that they did not because the parts departments messed up and it was for a different John customer. Jeff stated the customer was very Irate and they moved him up to the top of the list. Agent stated well currently Chrysler has stopped all production on the parts and any parts that do arrive are to be sent back. Jeff was unaware of this information. Agent stated that at this time to keep the information with in the dealership as she is looking for an update for these customers. Jeff thanked agent for the update.
Waiting for update.
DAMSKOV AUTO SALES 509-826-2000: Agent called the dealership parts department and spoke to Donny the same person agent spoke to on 02/21/14. Don stated that they gave it to someone else because he wasn t told that it was a part that was forced ordered (even though agent advised him the day she called) Donny stated that he gave it to the customer next in line. Agent asked about getting him next on list who stated that chrysler has put a Stop order on the parts and they now can t get him one. Agent stated she will see what the next steps will be.
Sent email waiting for response
No updates available at this time. Please thank customer for his patience, and offer a OC36N for the inconvenience. Advise customer that another order will be forced when parts are available for order. dcp15
CUSTOMER CONTACT [redacted] Agent attempted to call the customer, no answer. Agent left message requesting the customer to contact agent directly to discuss their case. Agent left direct number: 855-675-9291 ext 4718558.
CUSTOMER CONTACT[redacted]: Agent attempted to call the customer, no answer. Agent left message requesting the customer to contact agent directly to discuss their case. Agent left direct number: 855-675-9291 ext 4718558.
CUSTOMER CONTACT [redacted]7: Agent called and spoke to customers wife. Agent stated to the customer that she apologizes for the inconvenience over the part. Agent stated she would like to offer a 3 year 6 oil change SC for the inconvenience. Customer accepted but is very upset because they were told that it was ready and the dealership told her it was not. Customer stated they had to cancel a couple of trips until this is fixed Agent stated she understands that they are frustrated and that is the reason why we are offering the SC. Customer disconnected on agent.
Waiting for MVP to be added
CUSTOMER CONTACT[redacted]: Agent called the customer and spoke to his wife who put her husband on the phone,[redacted] the customer began to yell at the agent, stating that this is not fair and doesn t begin to help the fact that he can t use his truck. Agent stated she understands that, Agent explained that its not the dealerships fault and he is next on the list but there is a Stop order on all of the parts for this recall due to supplier issues and he will need to wait. Customer continued to yell at the agent and stated that the dealership should of called him and told him this. Agent advised the customer that she has been calling him for several weeks, and no one has returned her calls, agent stated she finally spoke to his wife last week and explained all of this and that this is the reason why I offered the oil changes, Agent explained that yelling at the agent is not going to help the matter. Customer calmed down an apologized for yelling. Agent stated that she understands that he is frustrated. Customer thanked agent and provided her direct line.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer already paid for recall repair
Corporate - CNA Change - Default - Default - Default	Updated name, primary phone. Added secondary phone and email.

Briefly summarize why the customer is contacting Chrysler: Customer called to check if we would have documentation records of service done on his vehicle. Customer states that he got a recall for the tie rod ends but he already had that replaced. Customer states that he was traveling in Wyoming and had a camper equipped on the vehicle when the part snapped. Customer states they had the repairs done at a dealership in the area and had to pay quite a bit for the repair.
Briefly summarize what the customer is expecting: Customer is expecting recall reimbursement information. Agent advised customer that we only have access to service records that Chrysler paid for, either by warranty, recall or service contract. Agent advised customer that we can try to locate the dealership in Gillett Wyoming and check if they still have record of the repair.
Agent determined that White s Energy Motors (45276) is located in Gillett Wyoming. Agent contacted the dealership and was advised that they only have one service advisor working and five customers waiting for their service appointment, so they are unable to check their repair history. Agent advised customer that the dealership was not able to look up the request, but recommend that he contacts them to determine if they do have the documentation and would be willing to send him the repair order/ proof of payment. Agent provided customer with fax number 877-768-5076 and case number. Agent also advised customer of other information he should include with the repair order and proof of payment, as per AC 17420. Customer states that he will contact White s Energy Motors (45276) to get that documentation.
Reassigned to 86Y for recall reimbursement.
Customer called back and he is not sure if he should call the dlr again White Energy Motors 45672 (agent tried to update HPIMS however didn t update) Agent called the dlr White s Energy Motors (45276) and spoke with Windel the SA and informed that we are needing the repair order for the customers tie rod replacement done in 2011 customer is not able to locate documents and need the dlr to fax them in agent provided SA the case number and the fax 877-768-5076. Agent informed customer that need to allow time to receive the documents and agent will be in contact with the customer by the end of the week to inform if documents have been received or not. Agent informed customer that he may or may not meet the merits for reimbursement however will be reviewed.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Reimbursement for recall repair

POSTMARK DATE: 010414; DATE RECEIVED: 010914
Confirm name and address matches COIN & HPIMS:Yes
Any open recalls: E17 N62
Name of person writing [redacted]
Does customer have an e-mail address:Yes [redacted]
Concern:Customer wrote in seeking reimbursement for a repair completed under the N62 recall
Reviewed previous files:Yes, no concerns
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and submitted documentation showing only 1 repair.
Agent called customer and left a message asking that the customer contact CAC to discuss the request.
****
Next agent please advise customer that the documentation has been reviewed and unless they have documentation showing there was a second repair completed on the steering linkage components listed in recall N62, then the repair is not related to the recall because they were not Mopar parts that were replaced and Chrysler is not willing to reimburse the customer for the cost of the repairs at this time.
Customer called back, broke down in Utah, was towed to the closest Dealership, was not a chrysler dealership and vehicle was repaired.
Agent provided customer lines 15-20, customer is not happy, was not Mopar parts and repaired at a Non Chrysler Dealership. Agent explained to customer, N62 a Mopar service parts steering linkage may have been installed on vehicles during a prior service appointment.

H46 completed 10/07/2010, inspection only, no parts = original factory equipment.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
Customer has submitted invoice from Dempseys Service (IRF) - upper and lower ball joints replaced, Left front Outer universal joint replaced, Left and Right Inner and Outer tie rods replaced (MOOG) replaced two rear axle seals and replaced parking brake shoes.
If this is the first and only repair Customer has had on steering linkage then; Chrysler is not reimbursing repair to original factory equipment.
Chrysler is looking for replacement parts under the N62 recall.
CUSTOMER CONTACT: Writer [redacted]. This is a work # for [redacted] and he is not in until Wednesday at 3 PM. No other number on invoice. Writer will check 411.com.

*****
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for a prior service and had the steering linkage replaced with MOPAR service parts.
Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.

***Reassigned to JK671 for survey by-pass, no contact.
Customer called because they are seeking a status of their case. Agent
read lines 11-15. Agent explained to customer that the original tie rod
from the factory is not what the recall is covering. Agent advised
customer that the Mopar replacement part is covered under the recall and
if it was the Mopar replacement part that had broken then she would get
reimbursed. Customer stated that this is unacceptable and they are going
to contact a lawyer.
Customer is contacting Chrysler because they would like clarification as
to why this repair would not be covered.
Agent stated that the recall itself is for a replacement Mopar service
parts steering linkage.
Agent stated this repair was for a factory steering linkage.
Agent stated the N62 recall on the vehicle may be for this Mopar service
parts steering linkage that they had installed in this repair which they
are seeking reimbursement for.
Agent stated if Customer can provide information that the vehicle had
been previously repaired with a Mopar service parts steering linkage
before this installation of the Mopar service parts steering linkage then
they could apply for reimbursement for this repair.
Customer asked how they would know if it had been previously repaired.
Agent stated Customer may try carfax.com for that information.
Agent stated Customer should bring their vehicle to the dealership to
have an N62 recall inspection completed.
Agent stated the dealership could then determine if this Mopar service
parts steering linkage is safe and does not require to be replaced under
this recall.
Customer called stating that she sent in documents that were denied and
would like to know why. Agent advised customer of lines 11-15. Agent
advised customer that if she can provide documentation that she received
a Mopar part, to send in those documentations.
Customer advised agent that she already sent those documents into
Chrysler.

N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.

Concern: Customer wrote in seeking reimbursement for recall N62 repair completed
Reviewed previous files: Yes, no concerns
Customer has submitted documentation for reimbursement consideration under the N62 recall. Writer notes that H46 mopar steering linkage recall was completed on 01/13/10 claim 214850 with no parts replaced. N62 pertains to mopar service parts replacing during a previous repair not the original factory installed equipment.
OUTBOUND CALL TO CUSTOMER: [redacted] Writer left voice mail message stating call is in regards to documentation submitted from Florence Auto Body for the 2008 Ram 2500. Writer left phone number 1-855-675-9291, ext 4718296 and CAIR number.
OUTBOUND CALL TO CUSTOMER: [redacted] Writer left voice mail message stating call is in regards to documentation submitted for the 2008 Ram 2500. Writer provided phone number 1-855-675-9291, ext 4718296 and CAIR number.
INBOUND CALL FROM CUSTOMER: Writer received call back from customer. Writer explained lines 9-13 to customer. Customer states that the control arm broke and was the original equipment that failed. Writer advised that the original equipment is not covered under the N62. Recall covers the mopar service parts that would have been taken off the parts department shelf and placed on the vehicle. Writer advised customer to contact dealership to have inspected and/or corrective action taken at no charge. Writer advised the Performance is showing as the nearest dealership. Customer states that he has other vehicles and deals with several dealerships. Customer states that vehicle is registered to C Bruce Hamilton and that he owns the business.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	N62 reimbursement requested
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Tie rod broke
Corporate - CNA Change - Default - Default - Default	Updated phone number

Briefly summarize why the customer is contacting Chrysler: Customer states he is calling to find out more information about getting reimbursed for a recall because he received the recall N62 notice and had a Mopar steering linkage installed on his vehicle at around 100,000 miles and after that repair the tie rod broke. Agent advised customer that he can submit his documentation to Chrysler at the address listed on the letter and a CM will review the documentation for possible reimbursement. Agent advised customer to have the vehicle taken into a dealer for an inspection because some of the parts on the vehicle may need to be replaced due to the N62 recall. Agent advised customer the reimbursement process can take up to 60 days and offered the customer a fax number or email link. Customer states he does not have access to a fax or email at this time.
Briefly summarize what the customer is expecting: Customer seeking reimbursement for N62 recall.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer received letter for N62 recall

Briefly summarize why the customer is contacting Chrysler: Customer calling in about the N62 recall as he received a letter about this and is stating that he had this part repaired on August 16, 2013 and is looking for reimbursement but agent noticed that customer was declined for that reimbursement as the recall did not apply then.
Customer stated that he was in touch with US CAC on November 11th about the reimbursement and has not heard anything back from Chrysler.
Agent advised customer that agent has seen previous CHAIRS on November 11th [redacted] (customer seeking to find out about recall as his vehicle had a repair for this on August 16th and customer was advised to call us back later to see if recall is applied to vehicle) and September 26th C#23944312 (documents sent in with this CAIR but agent could not read or see) and goodwill was declined at that time.
Agent referred to AC 17420 for reimbursement requests mailing address as agent cannot see documentation on September 26th CAIR and asked customer to send that invoice in again and if the repairs are related to the N62 recall they will review that and be in touch with customer but it does take a few months for them to review receipts.
Agent cannot make any guarantees or promises but to please mail in the invoice/receipt for the August 16th, 2013 repair and agent has made note of this call and also noted other CAIRS in this file related to this issue of reimbursement.
POSTMARK DATE: 012214; DATE RECEIVED: 012814
CUSTOMER CONTACT: [redacted]. Left Message.
Next Agent
Please see Answer ID 24057
Recall applies to MOPAR Steering Linkage Upgrade Parts Failure not Factory Parts Failure.
Please advise that the Recall applies to vehicles that have had a MOPAR Steering Linkage Upgrade Kit installed on a Previous Service Appointment and then needed to have the Tie Rod Ends Repaired. Please advise that if the Steering Linkage was OEM (Factory Installed/Stock/Original Factory Style) at the time of the repair then the recall would not apply.
If the Customer states that the MOPAR upgrade Kit was installed before 08/16/13 then the Customer would need to send in another invoice showing

when and where it was installed.
Please advise that the Previous Recall (H46) was an inspection to see if the MOPAR Steering Linkage Upgrade was installed and if the Steering Linkage was the Factory Style then no further action was required.
Please advise that the Parts that are on the vehicle now may be part of the recall and advise to bring the vehicle to a DLR for an inspection.
CUSTOMER CONTACT: [redacted]. Spoke with the Customer.
Agent advised that the Factory equipped parts on the vehicle are not a part of the Recall. Agent advised that the Parts that were recently installed may be part of the recall.
Agent advised that the Customer take the vehicle to the DLR.
Customer is upset that it was the Factory Parts that broke and that they are not part of the recall.
Closed CAIR.
Customer is contacting Chrysler because he is upset that his does not qualify for reimbursement.
Agent advised Customer of lines 29-33.
Customer requested rental coverage for the duration of his recall repair.
Agent informed Customer that we cannot authorize recall rental vehicles.
Customer disconnected.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	recall N62 needs to be done
Product - Steering - Linkage - Defective - Default	right steering linkage broken per customer

Briefly summarize why the customer is contacting Chrysler:Customer stated the right side (passenger side) steering linkage broke on his truck last night. Customer stated there is recall on vehicle. Writer checked and vehicle has recall N62 for left side outer tie rod assembly. Customer inquired if towing would be covered under recall and writer advised it would not be covered. Customer stated he had appointment at dealership for recall and he needed to cancel appointment. Customer stated he would take vehicle to local mechanic first regarding steering linkage. Writer called dealership, got employee (cashier) Shattaea on line, and did warm transfer for customer. Writer also advised customer to take vehicle for recall inspection soon.
Briefly summarize what the customer is expecting: Customer wanted right side steering linkage repaired under recall N62.

Recall - N49: LEFT TIE ROD -	Recall inquiry
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Tie rod broke
Corporate - Survey By-Pass - No Diagnosis - Default - Default	no diagnosis

Briefly summarize why the customer is contacting Chrysler: Customer called for recall information. Customer stated somewhere in the middle of December 2013 he received a recall notice for the N49 LEFT TIE ROD. Customer stated he brought the vehicle to his local Chrysler dealer. Customer stated the dealership inspected his vehicle and advised he does need to have the recall completed and was put on a list while waiting for parts. Customer stated today he and is son were going out and didn t even get out of the driveway. Customer stated he called the dealer and was advised they had no parts to fix the concerns and offered Chrysler CAC number.
Agent called the dealer and spoke with parts who advised the customer was about 19th on the list. PA was aware of the customer situation and was going to look into options for the customer on Monday when the PM was back in. PA stated he may request using a factory replacement to get the customer back up and running till the recall parts come in or possible find out if recall parts are coming in to use for this customer. PA stated he would follow up with the customer on Monday ounce he has an answer.
Agent advised the customer that the dealer is working on the resolution to his concern and is due to call him on Monday. Agent transferred the customer to roadside to have the vehicle towed to the dealer.
Briefly summarize what the customer is expecting: Customer seeking resolution.
Reassigned to jr1305 for survey by-pass - no repair, recall parts restricted

Recall - N49: LEFT TIE ROD - Information Request	Customer seeking information on recall
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer states tie rod had snapped
Corporate - Roadside Services - Service Contracts - Towing - Default	customer seeking reimbursement for towing assistance
Corporate - Rental Vehicle - Default - Default - Default	customer seeking rental while vehilce in shop

Briefly summarize why the customer is contacting Chrysler: Customer states the tie rod had snapped on the vehicle. Customer stated he had received the recall letter and was going to take the vehicle in on Monday, but was inquiring if towing would be covered under the recall cost. Customer also inquired about how to go about getting a rental vehicle.
Briefly summarize what the customer is expecting: Customer seeking recall information.
Agent stated she was unsure about the rental as we need the DLR s diagnosis before we issue a rental. Agent stated the towing would not be covered under the recall, but the initial repair would be covered. Agent gave the customer the case # and stated once the vehicle was in the DLR, we could look into rental further. Customer stated they would call back once the vehicle was the DLR.
Customer calling regarding the vehicle it is currently at THOMPSON CHRYSLER DODGE JEEP it was towed in there today and the customer is looking for reimbursement on towing of the vehicle customer has to pay a 100$ and the customer is also seeking a rental as well. Agent contacted the dlr THOMPSON CHRYSLER DODGE JEEP and spoke with Jim the SA and informed him that the customer does have rental coverage. SA stated that they still have to do a diagnosis on it and they informed the customer once they do that they can go from there for a rental, agent informed SA that customer does have rental as per VIP- SA states they will diagnosis it and be in contact with the customer and if a rental is needed they will get one for them by end of day. Agent informed customer that a diagnosis needs to be complete first to determine what the concern is if it is recall related and the dlr will be in touch with the customer to set up rental if needed. Also agent transfer customer to Mariah at MVP 1 800 521 9922 to have customer get reimbursed for the towing.

Case requires additional research.
DLR Contact: 805-543-7321. Spoke with SA - Tony Padilla.
SA advised that the cost of the labor to install just the Steering Kit was $495.00 (Includes Alignment).
Cost of Parts was $420.00.
Sales Tax 8% (parts only) = $33.60.
Customer has included Credit Card Receipt.
Agent found that the Total amount of reimbursement is $420.00 (Parts) + $495.00 (Labor) + $33.60 (Tax) = $948.60.
Amount is over Agents limit Reassigned to 86H.
Process when schedule permits.
Note, get breakdown of labor and determine if damper replacement relates.
Note, CAIR#[redacted] relates to this repair.
Dealer 61667 advised aftermarket lift kit voided warranty coverage for steering concern.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	left Outer tie rod
Recall - H46: STEERING LINKAGE - Reimbursement	

POSTMARK DATE: 010314; DATE RECEIVED: 011314
Confirm name and address matches COIN & HPIMS: Yes
Any open recalls: Yes, H46 N62
Name of person writing [redacted]
Does customer have an e-mail address: No
Concern: Customer is looking to be reimbursed for recall related repairs.
Reviewed previous files: N/A
Writer acknowledges assignment, and that there are documents present.
Neither H46 or N62 are completed.
N62 - Safety Recall - Left Outer Tie Rod Assembly / Dodge RAM
Answer ID 24057
Models:
2003 and 2004 model year (DR) Dodge Trucks (2500 series)
2005 through 2008 model year (DH) Dodge Trucks (2500 series)
2003 and 2004 model year (DR) Dodge Trucks (3500 series)
2005 model year (DH) Dodge Truck (3500 series)
2006 and 2008 model year (D1) Dodge Trucks (3500 series)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed.
Subject: A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair: The steering linkage assembly must be inspected and replaced if required.
NOTE: The initial steering linkage inspection process can be done by write-up personnel in the write-up area (see Section A. of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
Safety Recall H46 - Mopar Steering Linkage
2003-2004 (DR) Dodge Truck 4x4 (2500/3500 series)
2005 (DH) Dodge Truck 4x4 (2500/3500 series)
2006-2009 (DH) Dodge Truck 4x4 (2500/3500 series or 1500 Mega Cab)
2006-2009 (D1) Dodge Truck 4x4 (3500 series)
2007-2009 (DC) Dodge Truck (3500 series cab chassis)
IMPORTANT: This recall only applies to vehicles that had certain Mopar service parts steering components installed. During a prior service appointment, a Mopar service parts steering linkage was installed on about 19,400 of the above vehicles. The drag link inner joint may fracture under certain driving conditions. This could result in a loss of steering control and cause a crash without warning. Also, the steering

damper bracket at the tie rod tube may loosen. This could allow the bracket to slide on the tube and may cause increased vehicle turning radius.
The steering linkage must be inspected and some steering linkage components may need to be replaced.
NOTE: The initial steering linkage inspection process can be done by write up personnel in the write up area (see Step 1 of the service procedure). Vehicles found with original style steering linkage can be immediately returned to the customer.
CUSTOMER CONTACT: Writer called [redacted]9. Writer spoke to Karen Bostian. Writer asked permission to put husbands name on account as Owner. Mrs. [redacted] is going to have husband call in when he gets back in. Writer provided case # and US CAC.
*****AGENTS - Please explain the N62 recall to Customer. Chrysler is looking for replacement/MOPAR parts only, so if this is the first and only repair that Customer has had on vehicle involving the steering linkage, Chrysler CANNOT reimburse. The vehicle now has replacement parts so Chrysler should inspect those. Customer should be advised to have all recalls and extended warranties completed at CDJR as per the owners Manual.
Customer called to find out about getting reimbursed for the N62 recall. Agent advised that with the N62 recall is only if there was a MOPAR part put on the vehicle from a previous repair which may cause the tie rod to go on the vehicle. Agent advised that since it was the original part that there would be no reimbursement for the repair.
Writer acknowledges Customer has contacted directly and has been informed properly. Normally Writer would close the case at this point but Writer still has to update ownership (database glitch, not allowing Writer to make changes). Writer will follow up.
Writer acknowledges that Customer made direct contact, and issue has been addressed properly. Writer is closing case.
* * * * GOODWILL ASSISTANCE HAS BEEN DECLINED * * * *
Informed customer that Chrysler will not participate in the repair.
The vehicle warranty has expired by time and/or mileage.
Unless the customer offers new information, decision remains unchanged.
* *
Customer calling to ask why he is not being reimbursed for his tie rod repair, agent read the customer lines 56 to 67. Customer does not agree with this and wants this reviewed.

Concern: Customer is looking to be reimbursed for recall related repairs.
Reviewed previous files: N/A
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for service and had the steering linkage replaced with MOPAR service parts prior to the one customer is seeking reimbursement for in order to be entitled to reimbursement.
Customer should have the vehicle inspected to see if MOPAR replacement parts were installed during this repair and dealer will determine if a repair is necessary under the N62 recall.
Unless customer can provide a repair invoice showing prior service N62 recall reimbursement does not apply to their vehicle and reimbursement will be denied.
Writer contacted customer at [redacted] Left message with contact information & seeking call back.
Customer returned call & seeking call back.
Voicemail received on 1/28/14 at 11:06 am.
Writer contacted customer [redacted]. Writer informed customer of lines 8-19. Customer stated he did not have a prior repair. Writer advised customer to have the N62 recall inspection completed by dealer.
REIMBURSEMENT DECLINED
******CLOSED LOOP******
Customer called stating he received another notice for the N62 recall.
Customer states he sent in for reimbursement previously and was told that it did not pertain to his vehicle because Mopar parts were not used.
Agent informed that this is a Mopar replacement part recall.

Reviewed Previous files: Yes, no concerns.
N49 - Safety Recall - Left Outer Tie Rod Assembly / 2008-2012 Dodge RAM
NOTE: This recall applies only to the above vehicles built between February 14, 2008 and December 22, 2012.
Subject:
The left tie rod ball stud on about 264,000 of the above vehicles may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:
The left and right tie rods must be replaced.
Safety Recall N49 Left Outer Tie Rod Assembly Page 3
NOTE: The initial steering linkage inspection process (Section A. of the service procedure) can be done by write-up personnel in the write-up area. Vehicles found with the steering linkage shown in Figure 1 can be immediately returned to the customer. See the Completion Reporting and Reimbursement section of this recall for special claims processing information.
Customer had H46 completed on Oct. 5, 2009 at dealership. Parts were replaced - CBFAH362 PACKAGE .
Writer will contact dealership and verify this repair would warrant reimbursement. Writer will also contact customer as both right and left tie rods need replaced.
Writer will inform customer she needs to take vehicle to dealership to have recall completed.
No Proof of payment submitted.
Customer contact phone [redacted]
Writer notes ' L16 LEFT TIE ROD END SAFETY 09/30/2011 04/17/2012 COMPLETE'. Writer will question why they were replaced again on June 29,

2012.
L16 No parts replaced.
Part Number Description
CBFAH362 Drag Link Inner Joint Package
Each package contains the following components:
Quantity Description
1 Joint, Drag Link Inner
1 Nut, Drag Link Inner Joint-to-Pitman Arm Retaining
Due to the small number of involved vehicles expected to require Drag Link Inner
Joint Packages, no parts will be distributed initially. Drag Link Inner Packages
should be ordered only after inspection determines that repair is required.
Writer needs to contact IRF at phone #760-778-5000. Writer needs to know what was wrong, did parts fail, and would they know why.
Writer contacted customer at phone # [redacted]. Customer disconnected call. Writer called back and answering machine states customer s name is Casey.
Writer will send 'CONTACT US ' letter.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Other	Customer stated his tie rod just broke while driving
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer stated the tie rod just broke on his vehicle while driving
Corporate - Survey By-Pass - No Repair - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer contacted Dodge stating he has an appointment on Thursday to have the N62 recall repair done, but while he was driving today the tie rod broke and he is on the side of the road.
Briefly summarize what the customer is expecting: Customer expecting towing assistance to bring his vehicle to the nearest dealership.
Agent researched and located nearest dealership where the customer is broken down.
Agent supplied the customer with the dealership information 61661Ù FOSS MOTORS INC 603-772-3702
Agent stated to customer, unfortunately Dodge does not pay for towing under the recall and all his warranty has expired.
Agent transferred customer over to Roadside Assistance and stated that he will have to pay for the towing.
Customer was not happy to hear he has to pay for towing, when it is related to the N62 recall.
Agent re-assigned to in basket SJ372 for survey by-pass

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	Looking for reimbursement.
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Tie rod broke in May.

Briefly summarize why the customer is contacting Chrysler: Customer states that he received a recall notice for the tie rod end. Customer states that in May the tie rod had broken and he had it replaced. Customer called the dealership and got a list of the parts and was told to call the CAC. Customer states that a kit for the repair was 540.00 dollars. Customer is looking to be reimbursed.
Briefly summarize what the customer is expecting: Customer expects to be reimbursed for the repair.
Agent advised that it would have to be inspected first at the dealership. Agent advised that if the dealership states that it is fine then the information can be sent in for possible reimbursement. Agent advised that if the dealership states that it needs to be replaced then he would have to go on an ordering list to have the recall completed and reimbursement would not happen.

****End structured narrative T2 - Beginning Narrative
Briefly summarize why the customer is contacting Chrysler: Customer states he replaced steering linkage components. Customer states his local dealership advised he mail his documents in for reimbursement because the components had been recalled.
Briefly summarize what the customer is expecting: Customer is seeking reimbursement for steering linkage repairs.
Agent advised customer as per AC # 17420 Reimbursement mailing information.
Customer stated he has the recall letter at home and will mail in all the documents with the recall letter.
Agent advised customer upon further review possible reimbursement for the recalled component only. Agent advised customer of CAIR#
Waiting on documentation.
Writer researched image queue no documentation pending. As per process writer will contact customer on 01/28/14 for documentation request and to advise that case will be closed in 2 days.
OUTBOUND CALL TO CUSTOMER: [redacted] Writer left voice mail stating that no documentation has been received as of today. Case will be closed in 2 days. Once documentation is received a new case will be created. Writer provided phone number 855-675-9291 and ext 4718296 and CAIR number.
ATTEN: JK671 Please add survey by pass as per disposition code #5-waiting for documentation.
INBOUND CALL FROM CUSTOMER: Writer received voice mail message on 02/03/14 at 10:28 AM. Customer has provided phone number [redacted].
OUTBOUND CALL TO CUSTOMER: [redacted] Customer states that she is just getting paperwork ready to mail and wanted to verify the correct mailing address. Writer verified that mailing address is correct. Writer advised that N62 is for a mopar steering linkage and that the customer would being submitting two invoices. Customer states that she is not sure what invoices are being submitted as she is just helping her husband. Writer

advised that once documentation is received it will be reviewed and customer will be contacted with decision.
POSTMARK DATE: 020414; DATE RECEIVED: 021214
CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED
Survey By Pass - No Documentation
Documents attached for review.
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall. This recall is for a Mopar replacement part . The vehicle had to have been in for a prior service and had the steering linkage replaced with Mopar service parts. Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.
Writer notes that H46 mopar steering linkage was completed on 05/04/09 claim number 229968 inspection only-no parts.
OUTBOUND CALL TO [redacted] Writer left voice mail message stating call is in regards to documentation submitted for the 2005 Ram 2500. Writer provided phone number 1-855-675-9291, ext 4718296 and CAIR number.
OUTBOUND CALL TO CUSTOMER: [redacted] Writer spoke with Mrs [redacted]. Writer explained that invoices submitted from Tim s Auto are showing repairs to the ball joints, u joint and hub assembly. Writer advised that the N62 recall is for a mopar steering linkage therefore invoices submitted to do pertain to the N62 recall. Customer requests that writer contacted her husband at [redacted]7 as she would not be able to explain this to him.
OUTBOUND CALL TO CUSTOMER: [redacted] Writer spoke with Mr [redacted] Mr [redacted] states that he can not hear writer as he is in a bad area for reception. Customer requests that writer call back in 40 minutes as he will be at home at that time. Customer states that writer can contact him on his cell or on the home phone number of 228-826-3908.
OUTBOUND CALL TO CUSTOMER: [redacted]8 Writer left voice mail message stating that writer is returning call as requested.
Correction Line 66 should read: [redacted]
OUTBOUND CALL TO CUSTOMER: [redacted] Writer advised customer of lines 42-47. Customer states that IRF replaced that steering linkage but did not put it on the paperwork. Writer advised that recall is open. Customer states that he did not put mopar parts on the vehicle because he did not have to. Writer advised that customer should contact dealership to have inspected. Writer offered to contact dealership. Customer explained recall N62 to customer again that recall is not on the original factory installed equipment but on mopar steering linkage. Customer states that he feel that the factory installed equipment was defective or else it would not have broken. Writer advised that the recall is only on mopar replacement parts. Reimbursement denied.

Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer reports passenger side tie rod failed
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reoccurance or Related Problem	Customer reports tie rod failed.
Corporate - Survey By-Pass - No Repair - Default - Default	N62

Briefly summarize why the customer is contacting Chrysler: Customer reports his son drives this vehicle and told him that the passenger side tie rod has failed. Customer reports that the tie rod went through the tire and the vehicle is no longer drivable. Customer wanted to know if this condition will be covered under the recall.
Briefly summarize what the customer is expecting:
Customer is seeking to confirm vehicle recall status.
Customer thought he may have the N49 recall on his vehicle. Writer advised that he has the N62 which is the recall for Mopar replacement parts only.
Customer is not sure if this vehicle has Mopar parts as he purchased it used.
Writer advised that the vehicle needs to be towed to the dealership in order to determine if this condition will be covered.
CALL TO DEALER:
Writer contacted 64793 and spoke to Service Advisor Ken. Ken advised that the vehicle will take priority when towed to their dealership.
Writer advised caller of lines 16-17. Customer is setting up his own towing.

Recall - N49: LEFT TIE ROD - Other	Recall part not available

Customer called stating that he is stranded and the tie rod is broken. Customer states that he uses this truck for work. Customer states that he sent someone to town for a part to make the repair as the Dodge dealership told him that he would have to wait at least two weeks for the part. Customer states he is getting the part from Napa Auto Parts and going to do the repair himself as he cannot afford to have the vehicle towed to the dealership and then waiting for 2 weeks to get it fixed. Agent advised customer to keep all receipts related to the repair to see possible reimbursement.

Recall - N49: LEFT TIE ROD -	Recall inquiry

Briefly summarize why the customer is contacting Chrysler: Customer called for recall information. Customer stated he received the notice for the N49 LEFT TIE ROD recall. Customer stated today the tie rod broke. Customer stated he called his local Chrysler dealer to setup the tow and repair. Customer stated he was advised the tow would not be covered and wouldn t be able to have the repair completed for 2 weeks.
Agent called the dealer and spoke with service. Agent was advised there are only 2 advisers at the dealer and do not remember speaking with the customer. SA stated if the customer was able to bring the vehicle in they would be able to complete the recall tomorrow.
Agent advised the customer the tow to the dealership would not be covered under the recall but if he was able to get the vehicle to the dealer they are ready to complete the recall tomorrow. Agent offered to call roadside for the customer but he declined and stated he would handle it himself.
Briefly summarize what the customer is expecting: Customer seeking recall completion.

Documents attached for review
CUSTOMER UPDATE: Customer called agent. Agent stated to the customer that she did get her documents and reviewed them with her on the phone. Agent stated that the documents were not legable. Agent stated that happens with carbon copies. Agent stated to the customer that this recall is with MOPAR replacement parts. Agent explained that they would need to have a steering linkage replaced with MOPAR replacement parts first then a subsequent repair for the tie rods. Customer asked her husband and stated they don t think they replaced the steering linkage and if they did it would of been from Napa, so it wouldn t qualify. Agent stated to the customer that if a recall is released for her factory tie rods then she can re-submit for the reimbursement. Agent stated to the customer that N62 was already completed and it was an inspection stating that they didn t have the defective linkage on their vehicle. Customer understood.

Recall - N49: LEFT TIE ROD - Information Request	incomplete.

Briefly summarize why the customer is contacting Chrysler: Customer states that the customer has the recall on the vehicle. Customer states that the dealership told the customer that the parts are unavailable at this time. Customer states that the customer had the inspection completed and the customer stated that the customers parts had to be ordered. Briefly summarize what the customer is expecting: Customer is expecting to find out a tentative ETA of when the recall can be completed. Agent Advised: Agent called over to the dealership to speak with the SA Greg. Agent asked the SA if the customer can drive the vehicle. SA stated that there is no fracture listed in the service records and that if the vehicle was unsafe the SA wouldn t let the vehicle leave the dealership. SA stated that the customer parts have been ordered for the recall and there are about two custyomers infront of MR Spillman , so the parts should be in within 3 weeks. Agent stated to the customer that the customer can drive the vehicle as the SA stated that there was no indication of a fracture int he inspection. Agent stated that if the customer is worried about the way the vehicle is driving the customer can call back into the dealership to have the dealership look at the tierod.

DLR CONTACT: 303-654-1940. Spoke with Dick - Service Advisor. Dick states that he sees on the R/O that there was an inspection and a charge to Center the Steering. Dick states that he will speak with the Tech that had worked on the vehicle and will call back with more information.
Agent was looking for information about the Charges for the H46 Recall.
Agent was looking to see if the vehicle had the Mopar Steering Linkage installed before the inspection.
****
Next Agent - please document what the SA was able to find out about the H46 recall repair.
Tech stated to Dick that he did inspection, parts past. Instructions do

say to go ahead and center steering wheel, no replacement parts but repair order is correct.
Labor operation
19h46281 2/10ths of an hr
19h46150 1/th of an hr
$25.50
Case requires additional research.
CUSTOMER CONTACT: [redacted] Spoke with Customer.
Agent advised that the Recall applies to vehicles that had a Mopar Steering Linkage installed on a Previous repair visit.
Customer states that the Steering Linkage was original before Upgrading to the Mopar Steering Linkage.
Agent advised that Chrysler will not be able to reimburse for the Upgrade but that the Parts that were installed may need to have the Tie Rod Ends Upgraded as part of the Recall.
Closed CAIR.

safety recall
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
I have a safety recall, N49 on my front ball joint that could fail. I have called the local dealer here in Yuma, AZ, he tells me the problem is he cannot get parts. This seems to me a Dodge problem. If you send out a recall notice and do not have the parts to repair the problem, your not doing a very good job. Can you tell me when I can expect to see the parts necessary to repair my truck? My truck is a 2011 Dodge Ram 250, 4 wheel drive with the diesel. A very good truck, but now I worry about the front ball joint failing and wrecking the car. I expect an answer and the parts sent to the local Dodge dealer here in Yuma, AZ Thank you, Rollin Russell

Outbound call to 1-928-344-2650 FISHER CHRYSLER DODGE JEEP INC #66692 and writer spoke to SA Scott and he advised writer that the last time that the vehicle was at the dealership was on December 12/2013 for an oil change. Customer was not on the list, but SA Scott put him on the list with a call back number of [redacted].
Customer will be contacted when the part arrives.
-
Dealership also advised writer that they have looked at other dealerships in the area, and they can t locate the part.
-
Reassigned to: MG1321 for next step.
Thank you.
-
Dear [redacted]:
Thank you for contacting the Ram Assistance Center.
We apologize for the delay with the parts.
Due to the limited availability, the dealership is only able to order 1 part every 2 weeks. We have placed you on the waiting list to receive the recalled part.
The dealership will be in contact with you once the recall part has come in for your vehicle. The Service Advisor, Scott has left us their call back number incase you have any questions regarding your recall. The phone number is [redacted].
Thanks again for your email and we are sorry we are unable to provide you a more favorable reply.
Sincerely,
Melissa

Agent NAN.
Briefly summarize why the customer is contacting Chrysler: Customer calling Chrysler because he was concerned about the recall (N49) on the vehicle. Customer has said that he has spoken with his dealership and he knows that the part is on back order for the recall (N49).
Briefly summarize what the customer is expecting: Customer was expecting to have the part so he can have the recall completed on the vehicle.
Agent telephoned the dealership and spoke with Scott, SA who indicated that the customer could bring the vehicle in for an inspection.
Agent transferred the customer to Scott, SA for the appointment for the inspection.
Customer calling to find out a time frame on the parts for the (N49) recall.
Agent advised customer that the parts for the N49 recall are on back order.
Customer was unhappy. Customer says his parts about to break and he feels the vehicle isn t safe to drive.
The part required to provide a permanent remedy for recall N49Ù is currently not available.

Advised customer that their case will be assigned for
special tracking until the part becomes available.
Advised customer that an email will be sent
when second letter detailing part availability
is sent to customer.
Preferred Morning/Midday call back number is xxx-xxx-xxxx
Preferred Afternoon/Evening call back number is xxx-xxx-xxxx
Customer email address for case updates: XXXXX@XXXXX.com
Reassigned to 961
Customer called back and stated he needs to have this repair done so he can get back home, he does not feel safe driving it as he has 1000mi to drive home and he is towing a 5th wheel trailer which weighs 11,000 to 12,000 pounds.
Agent called dealer and spoke to SM Ken. SM Ken stated he would like customer to come in and he would inspect the tie rod himself to see if it is worn or cracked. Agent advised customer of SM Ken s statements and agreed to bring the vehicle in for inspection. Agent offered to arrange appointment, customer declined. Agent advised if customer has any further issues to please call CAC

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer is seeking reimbursement

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler because his tie rod broke on December 19 2014 and he had the repair done at an IRF. Customer states they use Mopar parts and would like to be reimbursed.
Briefly summarize what the customer is expecting: Customer is seeking reimbursement.
Agent advised the customer that he could send in his documents to the mailing address for Chrysler recall reimbursement as per Answer ID 17420 Chrysler Recall Assistance Center. O. Box 21-8007Auburn Hills, MI 48321-8007. Agent advised the customer that he would be reimbursed for the part only and not the labor.
ML1224 - As per Answer ID 24057 - A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The customer had the H46 recall completed and only an inspection was completed. Therefore no Mopar replacement parts were used. If customer did not have a Mopar replacement part installed at the IRF they are not eligible for reimbursement. The recall is not for a tie rod; it is for a Mopar replacement steering package. The recall states 'The left tie rod ball stud on the Mopar service parts steering linkage may fracture'

Corporate - Recall - Default - Default - Default	Broken Tie Rod Repair Under Recall

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler because their vehicle s tie rod had snapped and they heard that there is a recall on the vehicle for the tie rod.
Briefly summarize what the customer is expecting: Customer is expecting to know how to get the vehicle repaired under that recall.
Agent informed Customer that they may have the vehicle towed to a dealership.
Agent informed Customer the dealership will then inspect the vehicle.
Agent stated that if it is deemed that the issue is related to the recall we may then order the part and repair the vehicle under that recall.
Customer asks if the tow will be covered as well.
Agent informed Customer they would have to pay for the tow and then file for towing reimbursement.
Agent stated that once the vehicle has been diagnosed we may then order the part and possibly have the part expedited as the vehicle is off road and not drivable.

Recall - N49: LEFT TIE ROD - Information Request	Customer is seeking to have the recall completed faster.

Briefly summarize why the customer is contacting Chrysler: Customer is calling because she received the recall notice for recall N49 for LEFT TIE ROD however she states the DLR told her they cannot get the parts. Briefly summarize what the customer is expecting: Customer is expecting assistance in getting the parts sent to the DLR. Writer advised customer that the DLR is only able to order limited amounts of the parts per week in order to ensure the parts are sent to all of the dealerships in a fair manner. Writer phoned DLR 43531 AUTONATION CHRYSLER DODGE JEEP and spoke with SA John. SA states he added the customer to the list and states he will phone the customer once the part is available. SA states he estimates the time to be about 20 weeks. Writer phoned DLR 08625 BILL LUKE CHRYSLER-JEEP&DODGE and was advised they have no ETA for when they will be able to order the part for the customer. Writer advised customer that the DLR has her name on the waiting list for the part and will phone her when the part is in at the DLR. Customer inquired if the vehicle is still ok to be driven with a faulty part. Writer advised customer that there is a chance the part could fracture under certain driving conditions which is why the recall on the part. Writer advised customer that Chrysler is working hard to get the part available quicker and if it does come in sooner then the DLR will let her know when the part comes in. Customer inquired what the driving conditions are that could cause the issue. Writer advised customer that as there are many different driving conditions it is not possible to determine a list of all of the conditions. Writer advised customer continue to work with the DLR to get the recall completed.

Recall - N49: LEFT TIE ROD - Other	Customer had tie rod ball stud break, vehicle is now off road
Corporate - Goodwill Escalation Matrix - Escalated - Default - Default	Customer seeking rental vehicle
Product - Steering - Linkage - Defective - Default	Customer's vehicle tie rods broke contingent with recall N49
Dealer - By-Pass - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer contacting in regards to the recall for the vehicle. Customer states they were waiting to bring into the DLR as advised and the tie rod ball stud had broken as described in the notice, customer also states when the ball stud broke off it hit the tire and rim and caused damage and the tire is less than 1,500 miles old. Customer states the DLR SA Michelle is having the vehicle towed in, customer was advised that due to the restriction they are unsure of when they will be able to get the part and customer needs a vehicle as the vehicle is disabled.
Briefly summarize what the customer is expecting: Customer seeking rental. Agent advised customer if they can wait 1 business day we can escalate to a case manager who can review the case and circumstances and look at the possibility of rental assistance. Agent contacted and consulted SA Michelle who was working with the customer and verified concerns. Customer inquired about the parameters for rental, agent clarified that Chrysler is not obliged to cover consequential expenses due to a recall, however we do take into consideration several factors such as brand loyalty, the concerns, etc. Agent advised we will be escalating up to a Case Manager and would receive a callback in 1 business day.
Agent reviewed information in AC ID 18961
****

Escalation Matrix Questions:
1.Does the customer have prior history with current issue? YES
2.Does the customer have prior repair history for current issue (warranty or customer pay) at a Chrysler dealership(s)? YES

Writer spoke to Parts Department to see if the parts are available or if we have any ETA on the system. Writer got advised we are not going to see any parts any time soon because we still have customers waiting since the beginning of December.
Writer spoke to the customer informing her that we are not able to get an

ETA for parts. Customer requested to get moved up on the ordering list, writer explain we can not do something like that. Customer requests rental vehicle, till the parts arrive. Writer stated on our part we will provide rental vehicle for 2 weeks, after the 2 weeks we will need further authorization from Chrysler to review and approve for rental. Customer agreed and now satisfied, asked if she could get the vehicle today. Writer stated we will check if it is possible to provide vehicle today.
Writer spoke to SA Michelle who got informed of Chrysler providing rental for the customer. SA stated she will go ahead and get rental vehicle for today.
Writer spoke to the customer stating Chrysler will be providing a rental vehicle. Writer stated if she would like to follow up with SA Michelle who is going to be getting the vehicle ready. Customer stated she wants to get a vehicle almost like the one she was right now. Writer stated if she would like a vehicle of her choice Chrysler will only cover up to $35 per day. Customer stated she will talk to SA and see if she could get a vehicle of her choice. Writer will follow up on Monday 02/03/2014.
Customer seeking rental assistance because back order part. Contacted Service Adcisor, Michelle at WHITTEN BROTHERS INC 23295 to discuss the customer s request for rental assistance. Confirmed customer s concern and with Service Manager concurrence, authorized 7 days of rental per guidelines in Warranty Bulletin D-11-53.
Rental authorization will be processed by CAC
Writer contacted SM Bobby to get updates, he was not available, writer left voicemail.
Writer spoke to the Service Department to check up on the parts for the customer and Service Department could not find anything on the system. Writer got advised maybe shipping department could know something, but call got disconnected.
Writer attempt to speak with SM but call got disconnected.
Writer spoke to the customer who stated she really wants her vehicle back so she is going to go and put pressure on them by showing up at the dealer. Customer states she does not feel comfortable by having her vehicle at the dealer because one of her rims is now damaged but she does not want to tell them anything because the vehicle is sitting at their dealer. Customer states she will try to get a ETA as well, because she would rather have her vehicle than a rental.
Customer seeking rental assistance because back order part. Contacted Service Advisor, Michelle at WHITTEN BROTHERS INC 23295 to to discuss the customer s request for rental assistance. Confirmed
customer s concern and with Service Manager concurrence, authorized 7 days (02/03/2014 to 02/09/2014) of rental per guidelines in Warranty Bulletin D-11-53.
Rental authorization will be processed by CAC.
Writer spoke to SA Michelle who stated the customer is in need of a wheel. SA stated due to the tie rod end breaking the customer has a damaged aftermarket wheel, making the vehicle inoperable. SA states the customer is expecting Chrysler to pay for the aftermarket wheel. Writer stated at this point Chrysler can not assist with this cost. SA stated she will tell that to the customer but we will be getting a call from the customer, and SA stated that the customer will probably not bring the rental vehicle in. Writer stated we will speak with the customer.
Writer received a voicemail from [redacted], stating she wants to get a solution for her wheels getting damaged. Customer stated she got the letter from Chrysler stating the recall could be fixed after January 6th 2014. Customer states good thing she was in the drive way not in the road, and she will like agent EB543 to return the call with a solution about the damaged wheel.
Writer spoke to SA Michelle who stated the puncture on the rim it was positively made by the tie rod breaking, and it is a consequential damage. SA stated the customer also stated she wants to know who is paying for the towing because she is still not clear on that. Writer stated we will call the customer and verify about towing. Writer advised SA to claim the wheel under consequential repair. SA stated she does know how to do this procedure. Writer advised we will call on Monday to see if rental is needed.
Writer spoke to the customer stating we are going to take care of the wheel which was damaged due to recall damage. Writer asked about towing expenses and the customer states she will not be responsible for towing

due to a recall. Customer states she will fight even for $5 charged if it comes to charges. Customer states Chrysler got lucky no body got hurt and that the vehicle was not out on the road. Writer will do research on toeing expenses, and we are just calling to inform her about updates on the wheel cost, if we do have any other updates we will call to inform.
Writer received a call from SA Michelle, stating that the towing is still pending, and was not sure weather to put it with the claim or charge the customer. Writer stated we will go ahead and pay for the towing as well.
SA stated she would like to inform us the vehicle was just completed about 10 minutes ago and have contacted the customer to inform of completion.
Writer contacted the customer and informed of towing expenses, and stated Chrysler will be covering the cost. Writer stated that repairs have been completed and she would need to pick up the vehicle to test drive it and check if everything is according to specs.
Writer will follow up with the customer in 2 days. 02/12/2014.
Writer contacted SA Michelle to make sure all the processes were made to be able to close the case already. SA Michelle stated the claim has been completed, and the customer is on its way. Writer will now close the case.
CLOSED LOOP UPDATE - no need for additional follow-up.

Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	Customer had a broken tie rod that had a bolt going through it.
Corporate - E-Reimbursement - Default - Default - Default	Customer requested reimbursement.
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Customer seeking recall information.
Dealer - Service/Body Shop - Personnel - Other - Unknown	Customer states that SA Tyler advised him to contact us.

Briefly summarize why the customer is contacting Chrysler: Customer states that the dealership advised him to contact us and really isn t sure why they advised him this. Customer states that it is due to the recall they have on their vehicle.
Briefly summarize what the customer is expecting: Customer is seeking information on the recall on the vehicle and is inquiring why the dealer advised him to contact us.
Agent contacted ARTIOLI CHRYSLER DODGE and asked to speak with SA Tyler. SA Tyler states that the vehicle came in with a broken tie rod and had the bolt going through the tie rod so it did not require a repair under the recall. Tyler states that to do the repair for the customer they put the Mopar steering linkage replacement on it and now it should qualify for the recall. Agent inquired why this part was put onto the vehicle as it was recalled and asked who authorized him to put this part on. Tyler states that they put this part on to get the customer s vehicle up and running for him and advised that no one authorized this. Agent asked to speak to the SM. SM states that he does not know why this was done and states that the repair was done with these parts so the customer could get his vehicle back. SM states that now the vehicle is part of the recall due to these parts and they will have them replaced once the parts are available. Agent advised the customer that we are sending this file off for further review to see what needs to be done at this point. Agent advised the customer that he will get a callback within one business from a CM who will be able to assist him further with this.
Customer advised a call back is required and will take place within one business day by COB their time
Preferred Morning/Midday call back number is 4[redacted]
Preferred Afternoon/Evening call back number [redacted]
Customer email address for case updates: Declined.
Who has possession of the vehicle? Owner.
Has the vehicle been diagnosed by a CDJ dealer? Yes, repair has been completed.
If a CDJ dealer has diagnosed, what is the dealer name or code? 42032.

Chrysler Vehicles in Household, 0 New and 2 Used
MVP- Yes
Writer contacted dealer and spoke to Service Advisor (SA) George, who informed writer that SA Kyle is out sick and SM was in a meeting all day. SA George stated that the repairs done to vehicle were old parts/recall parts due to the fact that the new parts are not available at the moment and vehicle had been sitting at the dealership for a week. SA George stated to get vehicle to customer the repairs were necessary. SA George informed writer that now customer needs vehicle repaired due to recall. SA George confirmed customer paid $759. Writer thanked SA George and will follow up 1/24/14 when SA Kyle is in.
CONTACT UPDATE - 1st Contact attempt, phone number dialed, [redacted]3. Left message.
Customer returned writers call. Writer explained that writer is the case manager regarding concern with vehicle. Customer informed writer of the concern with the vehicle. Writer informed customer to send in work order documentation for possible reimbursement. Customer was very happy to hear Chrysler is working so effectively. Writer will follow up when documents are received.

Writer located the N62 recall is attached to this vehicle.
N62 LEFT OUTER TIE ROD ASSEMBLY SAFETY 12/13/2013 INCOMPLETE
Writer located information for the N62 recall:Subject:
A Mopar service parts steering linkage may have been installed on some of the 705,000 of the above vehicles during a prior service appointment. The left tie rod ball stud on the Mopar service parts steering linkage may fracture under certain driving conditions. This could cause a loss of directional control and/or a crash without warning.
Repair:The steering linkage assembly must be inspected and replaced if required.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	seeking information
Corporate - Survey By-Pass - No Repair - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer calling for information on recall
Briefly summarize what the customer is expecting: Customer states his tie rod broke and he towed the vehicle to his house. Customer states he received the recall and was looking into towing expense and completing recall.
Agent asked customer if the tie rod was repaired or replaced previously and customer stated he has only had the vehicle for a year and not aware of service to tie rod in past. Agent looked up claims on vehicle and found no previous repair. Agent stated to customer that the recall only applies to vehicles that had certain Mopar service parts steering components installed on past service appointments and the issue would not relate to the recall. Agent stated to customer that the towing expense would be at his cost and the repair would also be at his cost.
Agent did suggest to customer to look though past service receipts to see if tie rod was ever repaired in past.
Customer was angry and stated a nasty word and hung up.

***** EMAIL BRIEF DESCRIPTION CONTENT *****
Recent recall on Front end linkage
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
It is apparent to me that this recall is in regards to original equipment
that has failed and was replaced with poor quality parts. Approx. 1 year
ago our left front tie rod broke while we were driving 60MPH on the
highway. Luckily we were able to stop without a wreck. The left front tie
rod had broke. We took it to the shop, where it was confirmed that this
is
a common problem on this model of dodge. SO, it appears that the original
equipment is defective too and the recall should apply to original
equipment as well.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	LEFT OUTER TIE ROD ASSEMBLY
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	customer seeking reimbursement under N62

Briefly summarize why the customer is contacting Chrysler: The customer states that they received a recall notification letter in the mail. The customer states that on 11/27/12 his tie rod broke, and he had to take it in to get fixed at a price of $1200. The customer states that they have been to the DLR who said that the customer could apply for reimbursement. Briefly summarize what the customer is expecting: The customer seeks recall reimbursement information.
-
Agent advised the customer as per AnswerConnect ID: 17420. Agent advised the customer that he must send in two invoices, both the original repair and the second for failed parts. Customer understood.
POSTMARK DATE: 012414; DATE RECEIVED: 012914
Customer is seeking reimbursement for the N62 recall.
Claim section shows recall H46 was inspected and no parts were replaced.
Customer submitted documents seeking reimbursement under recall N62. In order for customer to be eligible for reimbursement, he will need to submit another invoice showing a previous steering linkage repair that was completed using mopar parts.
Called customer at 10:22 [redacted] spoke to customer. Agent advised customer of the recall parameters. Customer stated he has not had any other repair completed on the steering linkage. Agent advised customer that based on this information, Chrysler would not be able to reimburse. Customer was not happy with this. Customer stated he can t understand how the parts that broke are not recalled but the parts that the dealership put on the vehicle to replace the broken parts are recalled. Customer stated the dealership has since advised him that the parts on his vehicle do need to be replaced. Customer also stated that he just sold the vehicle. Agent apologized to the customer and restated Chrysler s position. Customer was not happy and stated he would never buy another Chrysler vehicle. Call was then ended.
Agent will remove customer from the ownership.

Recall - N49: LEFT TIE ROD - Reoccurance or Related Problem	Customers tie rod broke

Briefly summarize why the customer is contacting Chrysler: Customer called stating that he went to the DLR and they advised him that they would need to order the part for the Customer. Customer states that that was fine. Customer states he was driving to work when his tie rod broke in the parking lot.
Briefly summarize what the customer is expecting: Customer would like to know if the part can be expidited and if a rental could possibly be provided if the part is taking to a take a few days.
Agent advised she will contact the DLR. Agent contacted DLR. Service was closed. Agent advised the Customer that tomorrow she will contact the DLR and see if they can contact AM to have the part pushed through the system and expidited. Agent advised if the part takes a few days she can then possibly look into a rental vehicle. Agent advised she will contact the DLR tomorrow for further information. Customer thanked Agent.
Customer contacted back and stated that the DLR has in fact repaired the vehicle today. Customer states he just needs the towing bill reimbursed. Customer states the DLR is willing to reach out to AM in regards to the towing bill.
Customer would like to know if he can get reimbursed for towing.
Agent advised that we do not reimburse for towing as we consider that a consequential expense. Agent advised that she can provide the address for possible reimbursement. Agent advised that if the DLR si willing to assist to go with what the DLR is providing as it will be quicker.
Customer thanked Agent for the help.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	Customer is seeking reimbursement for recall work completed
Corporate - Survey By-Pass - No Documentation - Default - Default	

Briefly summarize why the customer is contacting Chrysler:
Customer contacted CAC stating he has just received a notice in the mail notifying him of an incomplete recall he has on his vehicle for the tie rod assembly.
Customer stated in October 2013 his tie rod assembly fell apart and he provided cost for the repairs to fix the tie rod assembly which was approximately $1000.
Briefly summarize what the customer is expecting:
Customer is seeking reimbursement for the recall related repair.
-
Agent updated customers email information.
Agent advised customer he can submit for reimbursement consideration for the repair he provided cost for.
Agent advised he will need to provide a copy of the original repair order as well as the proof of payment.
Agent provided customer with mailing address, as well sent a documentation request link to the customers email as per AC 19074.
Chrysler Recall Assistance Center
P. O. Box 21-8007

Please see TL for proper handling.
Briefly summarize why the customer is contacting Chrysler: Customer states that he is requesting the method for applying for reimbursement for the cost of repairing Recall.
Briefly summarize what the customer is expecting: Customer expects the exact instructions on how to apply for reimbursement.
Writer states to Customer that there is an exact procedure for applying for consideration for reimbursement for some of the costs of repairs that were installed by the Customer before the Recall was announced.
Writer states to Customer to assemble the following items:
Letter with a description of the concern and including the requested action.
Address
Vehicle owner name (if different)
Vehicle owner address (if different)
Day and evening phone numbers
Vehicle Identification Number (VIN)
Current vehicle mileage and mileage at time issue began
Name and number of facility where vehicle was serviced
Name and number of dealership where vehicle was purchased
Date of purchase and service
Original Repair Order and original proof of payment
Writer states that this material request is to be mailed to:

Concern: Customer wrote in seeking reimbursement for recall N62 repair completed
Reviewed previous files: Yes, no concerns
Reassigned to 86Y
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.

The vehicle had to have been in for service and had the steering linkage replaced with MOPAR service parts prior to the one customer is seeking reimbursement for in order to be entitled to reimbursement.
Customer should have the vehicle inspected to see if MOPAR replacement parts were installed during this repair and dealer will determine if a repair is necessary under the N62 recall.
Unless customer can provide a repair invoice showing prior service N62 recall reimbursement does not apply to their vehicle and reimbursement will be denied.
Writer called customer at [redacted] but there was no answer and no VM. Writer called customer at secondary number at ([redacted] and left a message to contact CCAC back with the CAIR number.
****NEXT AGENT****
When customer calls CCAC back, please let the customer know that we are recall MOPAR replacement parts only. Please advised the customer to bring his vehicle into the DLR to have his vehicle inspected.
Writer called customer at [redacted] but customer was unavailable. Writer left a message to contact CCAC and the next available agent will be able to assist him.
Writer contacted 6[redacted] and advised him that the OEM part on the vehicle is not the one that is being recalled. The part that is being recalled is the MOPAR service part. So unless he has documentation that he s had the MOPAR part replaced, we will not be able to reimburse him. Customer got upset and states that he will never buy a Dodge vehicle again. Writer advised the customer that he will still need to bring his vehicle into the DLR to have it completed and offered to transfer him over; customer declined.

Recall - N49: LEFT TIE ROD - Advise Owner/Incomplete Recall	LEFT TIE ROD
Recall - L16: LEFT TIE ROD END - Advise Owner/Incomplete Recall	LEFT TIE ROD END

Briefly summarize why the customer is contacting Chrysler: The customer states that they have the N49 recall on their vehicle, but the tie rod has been broken already, and he has no other vehicle to drive. The vehicle is not at the DLR currently. The customer states that he wants a rental, as his parts are going to take 3 months to come in.
Briefly summarize what the customer is expecting: The customer is expecting a rental until his vehicle is fixed.
-
Agent advised customer that she would need his VIN. Customer was not able to provide this, and the vehicle was difficult to find via webcoin. Agent ended up calling DLR 45097, and spoke with Ron. Agent stated that she needed the VIN number for this vehicle, because his tie rod is broken and we are looking into rentals. Agent asked Ron if there was anything he could offer the customer. Ron stated that he could try getting the customer in next week to fix his vehicle because it is off road completely. Agent stated that would be good, as the customer is 31 on the list of 75+ and will have to wait a few months. Agent notified the customer of this, and the customer called over to the DLR where Ron stated he never spoke to anyone from Chrysler since yesterday. Agent apologized for the discrepancy, but stated she did speak to the DLR. Customer stated Ron said he still had to wait three months. Agent advised customer that she would have to call back over to DLR 45097 to get VIN, as she was sidetracked before. Agent apologized numerous times for this mistake.
-
Agent stated that unfortunately since the vehicle is not at the DLR currently there is nothing she can do, but when the vehicle gets to the DLR we can look at getting a rental through the DLR, and if not then his case would be escalated to a CM. Customer stated he already asked the DLR about rentals, and they told him to call Dodge. Agent apologized to customer, but stated again that his vehicle must be at the DLR before she can escalate the case. Agent advised customer to call back with his CAIR number when the customer gets his vehicle to the DLR.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	customer is seeking reimbursement for the recall repair
Corporate - Reimbursement - Default - Default - Default	customer seeking reimbursement for recall

Briefly summarize why the customer is calling: Customer is calling to because he states that his tie rod had broke and he bought the part to be installed because the dealership was not going to have the part until April. Customer states that the dealership had told him to pay for the towing and labor to install the part and then he can send in for reimbursement.
Briefly summarize what the customer is expecting: Customer is expecting to get reimbursed for the part and towing and labor costs.
Agent advised customer that the vehicle would have to have had a Mopar service parts steering linkage installed on a prior visit. Agent advised customer that if he had the original style steering linkage on the vehicle then he is not eligible for the reimbursement.
Customer called back .
Customer stated that he contacted the DLR and they advised him that the vehicle did fall under the recall and that the part that needed to be repaired/ replaced was in fact a mopar replacement part, not an OEM part.
Customer was calling back to make sure that we remain updates with the current situation.
Customer stated that he no longer owns the vehicle, he traded it in because he did not feel the vehicle was no longer safe.
Customer states that he doesn t want the dealer to come back and charge him a bill for the repair and labour after that fact . The dealership told him the labour and repair would be covered by them and now the Dealerships claim is being denied by the district manager.
Agent advised that this information will be documented and remain on our records for future reference.
Briefly summarize why the customer is contacting Chrysler: Customer states that he has a recall on his vehicle. Customer states that he got the part on his own and the dealership installed the part on the vehicle. Customer states that he was called to be advised that it was not going to be covered and he had to go back and pay for the repair. Customer does not own the vehicle anymore. Customer
Briefly summarize what the customer is expecting: Customer expects to find out more information on having to pay for the recall and why the

regional manager turned the repair down.
Agent called the dealership PETE HARKNESS CHRYSLER DODGE 60481, 815-625-7411. Agent could not speak to Jeff the SM states the customer needs to send the parts receipt in to have parts reimbursed. SM states that the district manager wanted the customer to pay for everything but that has been worked out. SM states that the dealership covered the cost of the labor, the towing.

Recall - N49: LEFT TIE ROD -	Recall inquiry
Corporate - Survey By-Pass - No Diagnosis - Default - Default	no repair, recall parts

Briefly summarize why the customer is contacting Chrysler: Customer called for recall information. Customer stated he received the notice in the mail for the N49 LEFT TIE ROD recall. Customer stated he dropped of his vehicle 3 weeks ago for this recall to be completed and as of today he is being advised by the dealer it will be another month before the dealer will be able to resolve the customers concern.
Agent called the dealer and spoke with PM Jason who stated the customer is number 4 on the list and most likely if things remain the same as now it will be about a month before they will have parts for him. Agent was transferred to service and spoke with SM Chip who stated the customers vehicle is just sitting on the lot. SM stated the customers vehicle is not broken down and is able to be used but refuses.
Agent advised the dealership is working with the supplier to get the parts as quickly as possible. Agent advised it was up to the customer if he decided not to use the vehicle till the recall is completed. Agent advised to continue to work with the dealer at this point.
Briefly summarize what the customer is expecting: Customer seeking recall information.
Reassigned to jr1305 for survey by-pass - no repair, recall parts restricted

Writer notes that customer was provided with the fax number to submit documentation.
POSTMARK DATE: 020414; DATE RECEIVED: 020414
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall. This recall is for a Mopar replacement part . The vehicle had to have been in for a prior service and had the steering linkage replaced with Mopar service parts. Unless customer can provide a repair invoice showing prior service the recall does not apply to their vehicle and reimbursement will be denied.
OUTBOUND CALL TO CUSTOMER: 3[redacted] Writer left voice mail message stating call is in regards to documentation submitted for the 2005 Ram 3500. Writer provided phone number 1-855-675-9291, ext 4718296 and CAIR number.
Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler seeking reimbursement under N62 Left Outer Tie Road Assembly Recall.
Briefly summarize what the customer is expecting: Customer is expecting reimbursement for the linkage. He said he replaced the part himself and he just wants to be reimbursed for the part. Writer advised customer that we received the information that he faxed in. Writer transferred customer over to Barb 1-855-675-9291 ext 4718296. Writer provided customer with the phone number and extension.
INBOUND CALL FROM CUSTOMER: Writer received voice mail message on 02/07/14 at 10:15 AM. Customer requesting a call back at [redacted] (office) or [redacted] cell).
OUTBOUND CALL TO CUSTOMER: [redacted] Writer explained lines 38-43 to customer. Writer advised customer of recall E17 out of park alarm system. Writer researched recall and explained issue to customer as requested by customer. Writer advised customer to contact dealership to have inspected and/or corrective action taken at no charge to customer. Customer asked if dealership states that no repair are needed will he get reimbursed for invoice submitted. Writer again explained that the recall is for a mopar service part and is not on the original factory installed equipment.

Recall - N49: LEFT TIE ROD - Reimbursement	customer seeking possible reimbursment
Corporate - Survey By-Pass - No Documentation - Default - Default	

****** Below Customer Contacted for Documentation Request ******
[redacted] on 2014-01-24 @ 13:08
Briefly summarize why the customer is contacting Chrysler: customer is contacting the Chrysler recall for information about what are the option about the repairs done to the vehicle.
Briefly summarize what the customer is expecting: customer is seeking possible reimbursement for the repairs done to the vehicle due to a recalled part that failed.
Customer stated that Tuesday when the customer was driving and stopped at a stop sign turned the wheel and the tie rod snapped. The vehicle was sent to an IRF to have the vehicle repaired and customer is seeking if Chrysler can assist with the repair bill.
Agent put customer on hold to gather the information for the reimbursement process. When agent was about to return to the customer to inform about the process the customer disconnected.
Agent contacted the customer back to inform the customer of the process about possible reimbursement.
Agent sent the customer an email with the documentation needed.
Agent couldn t put all the documentation needed in the email there were to many characters.
This is in regards to the N49 recall.
Writer acknowledges assignment and there are no documents present.
N49 - Safety Recall - Left Outer Tie Rod Assembly / 2008-2012 Dodge RAM
Answer ID 24054
Models:
2008 (DH) Dodge RAM Truck (1500 series 4x4 Mega Cab)
2008 - 2009 (DH) Dodge RAM Truck (2500 / 3500 series 4x4)

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	

Briefly summarize why the customer is contacting Chrysler: Customer contacting Chrysler for information regarding her N62 recall. Customer inquiring if she can get recall completed at an IRF as her dealership is unable to complete the recall for 2 months. Agent advised customer that she can get it completed at an IRF, however we cannot guarantee that she will receive a reimbursement. Customer very upset and is not happy that Chrysler is completing the recall in a timely manner. Customer states that she will never purchase another Chrysler vehicle again.
Briefly summarize what the customer is expecting:Customer expecting to have N62 recall completed today.
Reassigned to SJ372 for survey by-pass.
POSTMARK DATE: 020414; DATE RECEIVED: 021314
CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED
Survey By Pass - No Diagnosis
Confirm name and address matches COIN & HPIMS: Yes, Customer s information matches HPIMS
Any open recalls: N62
Name of person writing in: [redacted]
Does customer have an e-mail address: [redacted]
Concern: Customer wrote in seeking reimbursement for recall N62 repair completed
Reviewed previous files: Yes, no concerns
Reassigned to 86Y
Agent reviewed documents submitted by customer and found customer had repairs completed at an IRF and submitted documentation showing only 1 repair.
Agent called customer at [redacted] and advised that Mopar service parts would have need to be replaced previously to the repair being completed. Customer states the vehicle was inspected at SOUTH COUNTY CHRYSLER - JEEP and the parts were ordered because they needed to be replaced as per the N62 recall.
Agent called SOUTH COUNTY CHRYSLER - JEEP and spoke with PM Russel Cox about the customer s concerns. Russel states the vehicle was inspected at the dealer and the parts needed to be replaced so they were ordered and the customer is #40 on the waiting list.
Agent found the customer does qualify for the recall and is reassigning

the case to a CM for reimbursement review as the customer is requesting reimbursement over $500.
Event history does not show a claim that relates to N62.
Confirm dealer advice line 32-35 is sufficient to reimburse N62.
Writer called Dealer 66451 phone 408-842-8244 time 11:24 ET. Reception stated SM Brock will not be in until tomorrow 02/25/14. Writer will call back.
Confirm dealer inspection found Mopar replacement parts on vehicle when inspected, ask if the Moog parts installed had to be installed as a set Right and Left, Inside and Outside.
Tie rod ends installed were Moog DS1463 (RO), DS1464 (RI), ES3624 (LI) and ES3625 (LO).
Per Moog bulletin [redacted]
If the steering damper is bolted through a tapered hole in the RH inner connecting tie rod, as originally equipped (Photo 1), the parts have not been altered.
Parts listed above are the ones to be used for unaltered (factory) replacement.
Writer called Dealer 66451 phone 408-842-8244 time 15:52 ET. SM is at lunch.
Writer called IRF Dean Davis Auto Care phone 408-683-2134 time 16:00 ET. Owner Dean answered.
He stated labor for just outer tie rod ends was $105.00.
He did not remember how steering damper was attached.
Writer called Dealer 66451 phone 408-842-8244 time 16:59 ET. All lines in Service were busy. Writer will call back.
Writer called Dealer 66451 phone 408-842-8244 time 13:37 ET. Machine answered for SM Brock.
Writer left message requesting call back, determine if inspection line 33 was factory parts needing to be replaced customer pay or if part replacement would have been through N62.
Writer provided Case#, Phone: 855-675-9291 Ext: 4718340.
Process when schedule permits.
Writer called Dealer 66451 phone 408-842-8244 time 12:47 ET. WA answered, advised this VIN is not in their history, advised there is another dealer SOUTH COUNTY.
Writer finds Dealer 66451 is the only dealer SOUTH COUNTY in California, and they are in GILROY, same as customer.
Writer called Dealer 66451 Parts phone 408-848-3191 time 13:36 ET. PM Russ answered.
He stated Jim in Service would have information regarding the inspection, whether parts were factory or Mopar.
Service was backed up, he will have Jim check and call back.
Writer provided Phone: 855-675-9291 Ext: 4718340.
Writer called Dealer 66451 Service phone 408-848-3155 time 16:38 ET. SA Jamie answered.
She stated Jim was at lunch and would be back about 17:30 ET.
Writer passed on information above, request call back whether inspection showed parts had to be replaced under recall or customer pay.
Writer called Dealer 66451 Service phone 408-848-3155 time 14:32 ET. SA Jim answered.
He stated there is no history on this VIN. Writer noted PM Russ had parts ordered for it, SA Jim advised maybe the customer stopped in and parts were ordered based on damper bolts.
Writer called customer phone [redacted] time 15:22 ET. Machine answered.
Writer left message requesting call back.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Information Request	Caller looking for reimbursement for recall.
Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Advise Owner/Incomplete Recall	left outer tie rod assembly

Briefly summarize why the customer is contacting Chrysler: His wife lost steering capability with his kids in the car. This happened last Labor Day weekend. It was the tie rod that came apart that caused this. She was driving slowly at that time so she was able to pull the vehicle over and no one was hurt. He had it fixed. He wondered if he may be able to get reimbursement for this recall that came in the mail.
Briefly summarize what the customer is expecting: recall reimbursement request.
Agent advised 'If you have already experienced this condition and have paid to have it repaired, please send your original receipts and/or other adequate proof of payment to the following address for reimbursement: Chrysler Customer Assistance, P.O. Box 21-8007, Auburn Hills, MI 48321-8007, Attention: Reimbursement.'
Advised to keep a copy of the receipts for his own records. When we receive and verify the required documents, we will review them and see if any reimbursement is entitled to the customer. No guarantees provided.
Waiting for documentation.
OUTBOUND CALL TO CUSTOMER: [redacted] Customer states that he has not mailed documentation at this time. Writer advised that N62 covers a mopar service part not the original factory installed equipment. Writer advised that customer would be submitting two invoices for repairs. Customer states that he does not have two repairs therefore will not be submitting documentation. Writer advised the N62 still shows as an open recall.
Contact dealership to have inspected and/or corrective action taken at no charge to customer. Customer states that he is disappointed in the vehicle having a tie rod breaking and will not purchase another vehicle.
Writer advised that comments will be noted to file.

Recall - N62: LEFT OUTER TIE ROD ASSEMBLY - Reimbursement	LEFT OUTER TIE ROD ASSEMBLY
Product - Suspension - Tie Rods / Drag Link - Other - Front	tie rod
Corporate - CNA Change - Default - Default - Default	updated phone number

POSTMARK DATE: 011414; DATE RECEIVED: 011414
Customer is seeking reimbursement under the N62 Left Outer Tie Rod Assembly Recall.
This recall is for a MOPAR 'replacement part'.
The vehicle had to have been in for service and had the steering linkage replaced with MOPAR service parts prior to the one customer is seeking reimbursement for in order to be entitled to reimbursement.
Customer should have the vehicle inspected to see if MOPAR replacement parts were installed during this repair and dealer will determine if a repair is necessary under the N62 recall.
Unless customer can provide a repair invoice showing prior service N62 recall reimbursement does not apply to their vehicle and reimbursement will be denied.
Writer contacted customer at [redacted]. Line busy.
Writer contacted customer at [redacted] Received recording that number is no longer in service.
Writer contacted customer at [redacted]. Left message with contact information & seeking contact information.
Customer called back. Writer informed customer of lines 4-13. Customer states he has not had a prior tie rod repair. Customer asked how long the recall would be good. Customer wanted to know if he could just wait until this one breaks and then have it repaired under the recall.
Writer informed customer that for his safety he should have the recall completed as soon as possible.
REIMBURSEMENT DECLINED
******CLOSED LOOP******

Recall - N49: LEFT TIE ROD - Advise Owner/Incomplete Recall	Aware of open recall
Product - Suspension - Tie Rods / Drag Link - Broken - Unknown	tie rod is broken. Vehicle not drivable

Briefly summarize why the customer is contacting Chrysler:Customer complained about his tie rods breaking which is directly related to his open recall. Customer feels like towing should be included in this since its due to a manufacturing defect that his vehicle broke down.
