RE: EQ14-002

Dear Cynthia,
In response to the information request for EQ 14-002, the 14 defective units that Volvo Trucks North America (Volvo) purchased from Sure Power Inc. were used on vehicles sold to military or used on Volvo owned test vehicles.

Volvo did not sell the defective units or sell vehicles with the defective units to the public. Therefore, Volvo is not conducting a recall on this issue as prescribed by 49CFR573.

Please feel free to contact me if you have any questions or concerns.

With Best Regards,
