Dometic

March 7, 2014

Ms. Cynthia Glass
National Highway Traffic Safety Administration
1200 New Jersey Ave.
S. E. Washington D.C. 20590

Dear Ms. Glass

Please be advised that I have received your email of 2-28-14 advising of a letter that was sent to a Ms. Angelese Fabian at 205 E. Fenn St., Lagrange, IN 46761. The official Dometic Corporation Address is 509 South Poplar St., Lagrange, IN 46761.

We have evaluated the information that was in the letter that you sent and investigated all purchases and use of equipment from Sure Power to determine if we actually purchased any of those identified in the recall notification that was attached to your email. Our records indicate that we did purchase a DC-DC converter from Sure Power, but the model designation was none of those listed in the recall notification.

Further, In response to the information request for EQ 14-002, the unit that Dometic Corporation purchased from Sure Power Inc. was never sold as a consumer product and was only used for internal laboratory testing purposes and evaluation.

As you may already be aware Dometic is not a vehicle manufacturer. We are an appliance manufacturer and supplier of camping appliances for Recreational Vehicles, Commercial Transit, and Marine Vessels.

Therefore, Dometic Corporation is not conducting a recall on this issue.

Sincerely;

Patrick N. McConnell
Director of Heating Products Engineering & Agency
Dometic Corporation
509 South Poplar St.
Lagrange, IN 46761
