Washington, DC 20590

Dear Cynthia,

In response to the information request for EQ 14-002, the 20 defective battery equalizers and DC-DC converters that Kress Corporation purchased from Sure Power Inc., we submit that these were used in an off-highway straddle carrier designed and built for the steel industry.

Kress Corporation is not a bus manufacturer, and therefore, is not conducting a recall on this issue.

Thank you for the alert to this issue.

Sincerely,

Dan Boettcher
