Washington, DC 20590

Cynthia,

In response to the information request for EQ 14-002, the 1 defective unit (Part Number 52208, 24v to 12v battery equalizer) that Terex American Cranes purchased from Sure Power, Inc on August 1, 2003 was not used by Terex in any OEM application. This part was purchased as an aftermarket part. The Terex American Crane facility is closed and no longer produces OEM production parts.

Terex USA, LLC (the current legal entity for the previous Terex American Cranes division) is a manufacturer of various crane models. We are not a vehicle manufacture of buses as your letter suggested. The 1 defective unit mentioned above was not used in any Terex OEM application that the company is aware of.

Therefore, Terex USA, LLC is not conducting a recall on this issue.

Sincerely,

Michael F. Hovanec
