RE: EQ 14-003

March 17, 2014

This letter is in response regarding safety recall EQ 14-003. Harley's Electronics, Inc is an electronic parts distributor. We purchased these printed circuit boards for a single specific customer, Spartanburg Regional Medical Center. I have contacted that customer regarding this situation and these particular circuit boards were never installed. They have pulled these items from their stock.

As previously stated, these circuit boards were never installed on any bus. Therefore, Harley's Electronics, Inc will not conduct a recall regarding this matter.

If any further information is needed regarding this matter my contact information is below.
