RE: – Safety Recalls EQ 14-004, 13E-061

In response to the information request for EQ 14-004, of the 41 defective seat belt assemblies that Ferrara Fire Apparatus purchased from IMMI, 8 were shipped to Mexico and 33 were quarantined in inventory and production. Ferrara Fire Apparatus is currently holding the 33 defective seat belt assemblies in quarantine. Once Ferrara Fire Apparatus receives the 8 defective seat belt assemblies back from Mexico, all 41 defective seat belt assemblies will be returned to IMMI.

Therefore, Ferrara Fire Apparatus is not conducting a recall on this issue.

Sincerely,

John D. Wallace
Engineer
Ferrara Fire Apparatus, Inc.
