May 6, 2014

Ref: NVS-215cg
EQ 14-004, IMMI recall 13E-061

Midwest Transit Equipment, Inc. is responding to your correspondence regarding EQ 14-004 originally dated 4/24/14. This correspondence was addressed to: International Corp – PDC and then had an address of 725 North Belt West, Swansea, IL 62226 which is one of our dealer locations. In checking with Navistar they showed a letter will be coming, addressed to the same International Corp – PDC at our location, 146 W. Issert Drive, Kankakee, IL. 60914. Today we also received a letter to Midwest Transit of Illinois at our location, 16725 Van Dam Road, South Holland, IL. 60473.

Today I made contact with R. L. Van Lear, Product Compliance Manager of Navistar, Inc. I am in receipt of a letter he sent you on May 2, 2014 responding to a similar request.

Midwest Transit Equipment, Inc. is not an International PDC or a vehicle OEM. We are an IC Bus dealer. We believe these belts were purchased for normal replacement parts and sold over the counter and potentially installed on a customer's vehicle. We do not currently have a way to know which vehicles the suspect belts were installed on. We have requested further information from IMMI to try and find any potential belts which might be involved.

Please let me know if you need any further information from Midwest Transit Equipment, Inc. The undersigned should be contacted for any additional information regarding this issue on (815) 933-2412.

Sincerely,

B C Huebner
