Cynthia,

In response to the information request for EQ 14-005, the 52 defective Cummins Westport engines that Elgin Sweeper purchased from Cummins Inc. were 52 engines. They were all delivered in California to 6 different municipal fleet accounts, all accounts have been notified of the Cummins recall

Elgin Sweeper did not install the defective engines into new vehicles; therefore, Elgin Sweeper is not conducting a recall on this issue.

Thank you,

Jim Holliday
