Re: EQ 14-006

Dear Ms. Glass,

In response to the Request for Information from the U.S. Department of Transportation National Highway Traffic Safety Administration (NHTSA) related to a safety issue involving Muncie power take off (PTO) pressure switches to be used for possible installation into motor vehicles, we have conducted an internal review and determined that Gardner Denver-Drum did not purchase any PTO pressure switches from Muncie Power Products.

Gardner Denver-Drum, LLC is a manufacturer of industrial air compressors and blowers. We are not a vehicle manufacturer.

If you have any additional questions, please contact me. Thank you.

Best regards,

Kevann M. Cooke
