Cynthia Glass
RE: EQ14-006

In response to the information request for EQ14-006, Winn Street Service contacted Muncie Power Products, as well as Miller Industries (manufacturer of towing equipment bodies) regarding specific dates or orders on which we received these switches. These efforts have thus far been unable to determine when or where these switches were obtained.

Winn Street Service is not a vehicle manufacturer, or a body manufacturer. We are a tow truck sales dealership. Therefore, Winn Street Service did not conduct a recall on this issue (EQ14-006).

Thank you,

Ed Igo
