SIERRA
Custom Interiors

9-24-2014

To whom it may concern,

This letter is in response to the information request for EQ 14-009. Although we at Sierra Custom Interiors use Suburban Manufacturing furnaces, (model # NT-SP2060 , NT16S, NT16SE, NT20S, NT20SQ) we have been using these various sizes since 2008. We have no record of using model SF-30 FQ furnaces in any of our products. Communication with Suburban verifies the same.

Sierra Custom Interiors has used Suburban Manufacturing furnaces for over 6 years without fail, but we no experience with their SF-30 FQ furnace and we cannot speak of its reliability or function.

Therefore, Sierra Custom Interiors is not conducting a recall on this issue.
