RE: Safety Recall EQ14-010

In response to the information request for EQ 14-010, the 12 units that Southland Trailer Corporation purchased from SAF-Holland, Inc. were installed on vehicles sold only in Canada and are being addressed under the Transport Canada safety recall. None of the affected units were exported to the United States.

Therefore, Southland Trailer Corporation is not conducting a recall on this issue.

Kind Regards,

11/4/14.

Ryan Sailer, B.Mgt.
