RE: Malley Industries response to EQ 14-013

Dear Cynthia,

This is to confirm that Malley Industries will not be conducting a recall on the issue of EQ 14-013. The 3 wheelchair lift platforms that Malley Industries purchased from Ricon Corporation were not used to manufacture vehicles and were not offered for sale, delivered or imported into the United States. The lifts were installed in Canadian vehicles only. Therefore, Malley Industries is not conducting a recall on this issue but have sent a letter to each of our affected Canadian customers informing them of the issue.

If you have any further questions please feel free to contact me.

Best regards,

Marc Goguen
