January 26, 2015

Cynthia Glass
General Engineer, RMD
US DOT/NHTSA
1200 New Jersey Ave, SE
Washington, DC 20590

Ms. Glass,

In response to the information request for EQ 14-014, Terex Cranes North America purchased four fuel filters from Cummins, Inc. as part of engine serial numbers 73684594, 73696312, 73690747 and 73690766. Engine 73684594 was quarantined at our Waverly, IA facility and the fuel filter replaced by Cummins in September 2014.

The other three engines had already shipped to customers in completed cranes. Cummins was provided with the crane location, customer contact person and phone number for the three completed cranes on September 17, 2014 for Cummins to include in their recall.

Therefore, Terex Cranes North America is not conducting a recall on this issue.

Sincerely,

Andrew F. Hall
