AMERICAN EMERGENCY VEHICLES

January 15, 2015

Cynthia Glass
General Engineer, RMD
US DOT/NHTSA

In response to the information request for EQ 14-015, the 55 suspension fluid tank systems that American Emergency Vehicles purchased from LiquidSpring, LLC were either quarantined in our facility and repaired prior to sale or use in manufacturing, or current owner repair facilitated by LiquidSpring, LLC.

Therefore, American Emergency Vehicles is not conducting a recall on this issue.

Thank you,
