January 15, 2015

In response to your request regarding EQ-14-015, we had two (2) vehicles involved. Both vehicles had been delivered to the end user prior to EQ-14-015, therefore, PL Custom Emergency Vehicles is not conducting or performing a recall on this issue.

One (1) of the vehicles was delivered to our dealer in PA and one (1) was delivered to our dealer in CT. Both dealers were notified by me of the recall. I contacted Carl at Liquid Spring and, to the best of my knowledge, the correct parts were sent to each dealer and installed in both of these vehicles per EQ-14-015. Claims were paid to both dealers by Liquid Spring for performing EQ-14-015.
