

July 14, 2012

Mr. Scott Yon, Chief
Vehicle Integrity Division (VID), NVS-212
U.S. Department of Transportation

National Highway Traffic Safety Administration (NHTSA)
Office of Defects Investigation (ODI)
Room W48-314
1200 New Jersey Avenue SE
Washington, D.C. 20590

Reference: NVS-212pco; RQ14-002

Dear Mr. Yon:

Attached is Chrysler Group LLC's partial response to the referenced inquiry (Questions 1, 2, 6 & 7). In performing the analysis and reaching conclusions, and by providing the information contained herein, Chrysler Group LLC is not waiving its claim to attorney work product and attorney-client privileged communications. As agreed during our July 11, 2014 discussion, Chrysler Group LLC plans to provide the remainder of its response to this Information Request on August 11, 2014 giving Chrysler the opportunity to further assess and, if necessary, revise and/or expand its response.

Sincerely,

Philip Hartnagel

Attachment and Enclosures

Preliminary Statement

On April 30, 2009 Chrysler LLC, the entity that manufactured and sold the vehicles that are the subject of this Information Request, filed a voluntary petition for relief under Chapter 11 of Title 11 of the United States Bankruptcy Code.

On June 10, 2009, Chrysler LLC sold substantially all of its assets to a newly formed company now known as Chrysler Group LLC. Pursuant to the sales transaction, Chrysler Group LLC assumed responsibility for safety recalls pursuant to the 49 U.S.C. Chapter 301 for vehicles that were manufactured and sold by Chrysler LLC prior to the June 10, 2009 asset sale.

On June 11, 2009, Chrysler LLC changed its name to Old Carco LLC. The assets of Old Carco LLC that were not purchased by Chrysler Group LLC, as well as the liabilities of Old Carco that were not assumed, remain under the jurisdiction of the United States Bankruptcy Court – Southern District of New York (*In re Old Carco LLC, et al.*, Case No. 09-50002).

Note: Unless indicated otherwise in the response to a question, this document contains information through July 14, 2014, the date the information request was received.

This attachment contains Chrysler Group LLC's partial response to the 2010 Dodge Journey, Grand Caravan, and Chrysler Town & Country vehicles inquiry on inadvertent movement or rotation of the ignition switch to the "off" or "accessory" position while driving.

1. **State, by model and model year, the number of the subject vehicles that Chrysler has manufactured for sale or lease in the United States. Separately, for each subject vehicle manufactured to date by Chrysler, state the following:**
 - a. **Vehicle identification number (VIN);**
 - b. **Make;**
 - c. **Model;**
 - d. **Model Year;**
 - e. **Date of manufacture;**
 - f. **Date warranty coverage commenced;**
 - g. **Date the 11 V-139 recall remedy was completed; and**
 - h. **The State in the United States where the vehicle was originally sold or leased (or delivered for sale or lease).**

Provide the table in Microsoft Access 2010, or a compatible format, entitled "PRODUCTION DATA."

A1. The total number of vehicle involved in 11V-139 was 197,692 2010MY Dodge Journey's, Dodge Grand Caravan, and Chrysler Town & Country's. The breakdown is 31,709 2010MY Dodge Journeys, 81,371 2010 Dodge Caravan's, and 84,612 2010 MY Chrysler Town and Country vehicles. The detailed response that list all 2010 Dodge Journey, Dodge Grand Caravan, and Chrysler Town & Country vehicles involved in 11V-139 is provided in the Microsoft Access 2010 Database titled "RQ14-002 PRODUCTION DATA.accdb", which is provided in Enclosure 1 PRODUCTION DATA. The data provided may include a small number of VINs for vehicles that were not sold in the USA or its territories. An updated Enclosure 1 PRODUCTION DATA will be provided if necessary.

2. **State the number of each of the following, received by Chrysler, or of which Chrysler is otherwise aware, which relate to, or may relate to, the defect in a subject vehicle which occurred after the date on which the vehicle was originally remedied under 11V-139 (including replacement of the remedied part with a new part):**
 - a. **Consumer complaints, including those from fleet operators;**
 - b. **Field reports, including dealer field reports;**
 - c. **Reports involving a crash, injury, or fatality;**
 - d. **Property damage claims;**
 - e. **Third-party arbitration proceedings where Chrysler is or was a party to the arbitration; and**
 - f. **Lawsuits, both pending and closed, in which Chrysler is or was a defendant or codefendant.**

For subparts "a" through "f," state the total number of each item (e.g., consumer complaints, field reports, etc.) separately. Multiple incidents involving the same vehicle are to be counted separately. Multiple reports of the same incident are

also to be counted separately (i.e., a consumer complaint and a field report involving the same incident in which a crash occurred are to be counted as a crash report, a field report and a consumer complaint). In addition, for items "c" through "f," provide a summary description of the alleged problem and causal and contributing factors and Chrysler's assessment of the problem, with a summary of the significant underlying facts and evidence. For items "e" and "f," identify the parties to the action, as well as the caption, court, docket number, and date on which the complaint or other document initiating the action was filed.

A2. Chryslers preliminary assessment of the 21 VOQ's provided by NHTSA assumes all of the vehicles had the recall work performed. Chrysler was able to validate the recall work was performed on all but six for which the VINs were not provided. None of VOQs complained of the key moving to an "accessory" position, and six commented about stalling. The main complaint is the electrical features not working properly after the recall work. Three comment needing to move the key to get all the electrical features to work, but not to restart the vehicle. For those customers that complained about a stalling condition, the cause of the stalling condition is unknown. With no indication the key rotated to an "accessory" or "off" position, the airbags remained functional. The chart shown below can also be found in Enclosure 2 VOQ Assessment PUBLIC.

Provided	Vehicle MY	Vehicle Type	NHTSA Reference #	Date Received	Complaint Pre/Post to Recall Update	Comment
Post IR	2010	Chrysler Town & Country	10564340	14-Feb-14	Post - 5/25/2012	Stalled while driving and electrical issues - does not state key moved

Chrysler's preliminary review of its internal customer complaint data is reflected in the data charts contained in Enclosure 3 Customer Complaint Assessment PUBLIC. Chrysler will continue to review the other data sources sought by NHTSA and will provide an updated Enclosure if necessary.

3. Separately, for each item (complaint, report, claim, notice, or matter) within the scope of your response to Request No. 2, state the following information:
 - a. Chrysler's file number or other identifier used;
 - b. The category of the item, as identified in Request No. 2 (i.e., consumer complaint, field report, etc.);
 - c. Vehicle owner or fleet name (and fleet contact person), address, and telephone number;
 - d. Vehicle's VIN;

- e. **Vehicle's make, model and model year;**
- f. **Vehicle's mileage at time of incident;**
- g. **Incident date;**
- h. **Report or claim date;**
- i. **Whether a crash is alleged;**
- j. **Whether property damage is alleged;**
- k. **Number of alleged injuries, if any;**
- l. **Number of alleged fatalities, if any; and,**
- m. **Summary of Chrysler's findings concerning the alleged ignition key movement/rotation.**

Provide this information in Microsoft Access 2010, or a compatible format, entitled "REQUEST NUMBER TWO DATA."

A3. Will be part of the August 11, 2014 submission.

- 4. Produce copies of all documents related to each item within the scope of Request No. 2. Organize the documents separately by category (i.e., consumer complaints, field reports, etc.) and describe the method Chrysler used for organizing the documents.**

A4. Will be part of the August 11, 2014 submission

- 5. Describe in detail all actions Chrysler took to validate and assess the immediate effectiveness and long term durability of the remedy (prior to or since) in the subject vehicles. Produce copies of all documents that support your response.**

A5. Will be part of the August 11, 2014 submission

- 6. Does Chrysler have any data that indicates or may indicate that the remedy or remedies is not or may not be effective in any subject vehicle? If your answer is anything but an unqualified no, describe in detail the data and produce copies of all documents that support your response.**

A6. As of July 14, 2014, Chrysler does not have any data that indicates or may indicate that the remedy or remedies is not or may not be effective in any subject vehicle. Chrysler will continue to investigate the available data and will report an update, if applicable in the August 11, 2014 response.

7. State whether the anticipated remedy for Chrysler's recall of the MY 2009 Dodge Journey and MY 2008-2009 Grand Caravan and Chrysler Town & Country vehicles for this defect is the same as the remedy for the subject vehicles in recall 11V-139. If your answer to this question is anything but an unqualified yes, describe in detail any anticipated or potential difference between the remedy or remedies for the subject vehicles and the remedy or remedies for the MY 2009 Dodge Journey and MY 2008-2009 Grand Caravan and Chrysler Town & Country vehicles, including an explanation of the reasons for each difference.

A7. The anticipated remedy for Chrysler's recall of the MY 2009 Dodge Journey and MY 2008-2009 Grand Caravan and Chrysler Town & Country vehicles for this defect is the same as the remedy for the subject vehicles in recall 11V-139.
