Dear Mr. Schimenti:

This letter is to inform you that the Office of Defects Investigation (ODI) of the National Highway Traffic Safety Administration (NHTSA) has opened a Preliminary Evaluation (PE15-006) to investigate why a compressed natural gas (CNG) fuel container apparently did not vent adequately via pressure relief device (PRD) to prevent a rupture during a fire incident involving a model year (MY) 2014 Autocar ACX – Xpeditor / Heil "Half/Pack Freedom" refuse truck that was equipped with a CNG fuel system manufactured, in whole or in part, by Hexagon Lincoln, Inc. (HL), and to request certain information.

Unless otherwise stated in the text, the following definitions apply to these information requests:

- **Incident vehicle:** MY 2014 Autocar ACX - Xpeditor / Heil "Half/Pack Freedom" refuse truck identified by Vehicle Identification Number (VIN) 5VCACLLEXEH [REDACTED].
- **Subject vehicle(s):** any and all MY 2012 through 2015 Autocar ACX - Xpeditor and/or Heil "Half/Pack Freedom" CNG equipped refuse truck(s) manufactured for sale or lease in the United States, including, but not limited to, the District of Columbia, and current U.S. territories and possessions.
- **Subject component(s):** any and all CNG fuel container(s) and associated PRD(s) installed on the subject vehicles.
- **Alleged defect:** (1) any and all non-performance of a CNG fuel container PRD and/or (2) any and all CNG fuel container ruptures, when exposed to heat during a fire or fire-related incident.

(whether or not incorporated) and affiliated enterprises and all of their headquarters, regional, zone and other offices and their employees, and all agents, contractors, consultants, attorneys and law firms and other persons engaged directly or indirectly (e.g., employee of a consultant) by or under the control of HL (including all business units and persons previously referred to), who are or, in or after January 1, 2010, were involved in any way with any of the following related to the alleged defect in the subject vehicles:

- a. Design, engineering, analysis, modification or production (e.g. quality control);
  - b. Testing, assessment or evaluation;
  - c. Consideration, or recognition of potential or actual defects, reporting, record-keeping and information management, (e.g., complaints, field reports, warranty information, part sales), analysis, claims, or lawsuits; or

- **Other Terms:** To the extent that they are used in these information requests, the terms “claim,” “consumer complaint,” “dealer field report,” “field report,” “fire,” “fleet,” “good will,” “make,” “model,” “model year,” “notice,” “property damage,” “property damage claim,” “rollover,” “type,” “warranty,” “warranty adjustment,” and “warranty claim,” whether used in singular or in plural form, have the same meaning as found in 49 CFR 579.4.

In order for my staff to evaluate the alleged defect, certain information is required. Pursuant to 49 U.S.C. § 30166, please provide numbered responses to the following information requests. Insofar as HL has previously provided a document to ODI, HL may produce it again or identify the document, the document submission to ODI in which it was included and the precise location in that submission where the document is located. When documents are produced, the documents shall be produced in an identified, organized manner that corresponds with the organization of this information request letter (including all individual requests and subparts). When documents are produced and the documents would not, standing alone, be self-explanatory, the production of documents shall be supplemented and accompanied by explanation.

Please repeat the applicable request verbatim above each response. After HL’s response to each request, identify the source of the information and indicate the last date the information was gathered.

1. State the number of each of the following, received by HL, or of which HL is otherwise aware, which relate to, or may relate to, the alleged defect in the subject components or vehicles:
  - a. Consumer complaints, including those from fleet operators;
  - b. Field reports, including dealer field reports;
  - c. Reports involving a crash, injury or fatality;
  - d. Reports involving a fire;
  - e. Reports involving a fuel container rupture, burst or explosion;
  - f. Property damage claims;
  - g. Third-party arbitration proceedings where HL is or was a party to the arbitration; and
  - h. Lawsuits, both pending and closed, in which HL is or was a defendant or codefendant.

For subparts “a” through “h,” state the total number of each item (e.g., consumer complaints, field reports, etc.) separately. Multiple incidents involving the same vehicle are to be counted separately. Multiple reports of the same incident are also to be counted separately (i.e., a consumer complaint and a field report involving the same incident in which a crash occurred are to be counted as a crash report, a field report and a consumer complaint).

Separately, state the number of each of the above items "a" through "h," received by HL, or of which HL is otherwise aware, which relate to, or may relate to, incidents involving the subject

vehicles whereby the PRD was triggered and performed as intended when exposed to heat during a fire or fire-related incident.

In addition, for items “a” through “h,” provide a summary description of the alleged problem and causal and contributing factors and HL’s assessment of the problem, with a summary of the significant underlying facts and evidence. For items “g” and “h,” identify the parties to the action, as well as the caption, court, docket number, and date on which the complaint or other document initiating the action was filed.

2. Separately, for each item (complaint, report, claim, notice, or matter) within the scope of your response to Request No. 1, state the following information:
  - a. HL’s file number or other identifier used;
  - b. The category of the item, as identified in Request No. 1 (i.e., consumer complaint, field report, etc.);
  - c. Vehicle owner or fleet name (and fleet contact person), street address, email address and telephone number;
  - d. Vehicle’s VIN;
  - e. Vehicle’s make, model and model year;
  - f. Vehicle’s mileage at time of incident;
  - g. Incident date;
  - h. Report or claim date;
  - i. Whether a fire is alleged;
  - j. Whether a PRD was triggered;
  - k. Whether a fuel container rupture, burst or explosion is alleged;
  - l. Whether property damage is alleged;
  - m. Number of alleged injuries, if any; and
  - n. Number of alleged fatalities, if any.

Provide this information in Microsoft Access 2010, or a compatible format, entitled “REQUEST NUMBER ONE DATA.” A pre-formatted data collection file, which provides further details regarding this submission, will be provided to you.

3. Produce copies of all documents related to each item within the scope of Request No. 1. Organize the documents separately by category (i.e., consumer complaints, field reports, etc.) and describe the method HL used for organizing the documents. Describe in detail the search methods and search criteria used by HL to identify the items in response to Request No. 1.
4. State, by model and model year, a total count for all of the following categories of claims, collectively, that have been paid by HL to date that relate to, or may relate to, the alleged defect in the subject vehicles: warranty claims; extended warranty claims; claims for good will services that were provided; field, zone, or similar adjustments and reimbursements; and warranty claims or repairs made in accordance with a procedure specified in a technical service bulletin or customer satisfaction campaign.

Separately, for each such claim, state the following information:

- a. HL's claim number;
- b. Vehicle owner or fleet name (and fleet contact person), street address, email address and telephone number;

- i. Replacement part number(s) and description(s);
- j. Concern stated by customer;
- k. Cause as stated on the repair order;
- l. Correction as stated on the repair order; and
- m. Additional comments, if any, by dealer/technician relating to claim and/or repair.

Provide this information in Microsoft Access 2010, or a compatible format, entitled "WARRANTY DATA." A pre-formatted data collection file, which provides further details regarding this submission, will be provided to you.

5. Describe in detail the search methods and search criteria used by HL to identify the claims in response to Request No. 4, including the labor operations, problem codes, part numbers and any other pertinent parameters used.

Provide a list of all labor operations, labor operation descriptions, problem codes and problem code descriptions applicable to the alleged defect in the subject vehicles.

State the terms of the warranty coverage offered by HL on the subject vehicles (i.e., the number of months and mileage for which coverage is provided and the vehicle systems or components that are covered). Describe any extended warranty coverage option(s) that HL offered for the subject vehicles and state by option, model, and model year, the number of vehicles that are covered under each such extended warranty.

6. Produce copies of all service, warranty, and other documents that relate to, or may relate to, the alleged defect in the subject vehicles, that HL has issued to any dealers, regional or zone offices, field offices, fleet purchasers, or other entities. This includes, but is not limited to, bulletins, advisories, informational documents, training documents, or other documents or communications, with the exception of standard shop manuals. Also include the latest draft copy of any communication that HL is planning to issue within the next 120 days.
7. Describe all assessments, analyses, tests, test results, studies, surveys, simulations, investigations, inquiries and/or evaluations (collectively, "actions") that relate to, or may relate to, the alleged defect in the subject vehicles that have been conducted, are being conducted, are planned, or are being planned by, or for, HL. For each action identified, provide copies of all documents related to the action, regardless of whether the documents are in interim, draft, or final form. Organize the documents chronologically by action.

8. Describe all modifications or changes made by, or on behalf of, HL in the design, material composition, manufacture, quality control, supply, or installation of the subject components, from the start of production to date, which relate to, or may relate to, the alleged defect in the subject vehicles. For each such modification or change, provide the following information:
  - a. The date or approximate date on which the modification or change was incorporated into vehicle production;
  - b. A detailed description of the modification or change;
  - c. The reason(s) for the modification or change;
  - d. The part number(s) (service and engineering) of the original component;
  - e. The part number(s) (service and engineering) of the modified component;
