read over all terms and conditions

Service Credit Terms and Conditions - Terms and conditions listed below must be communicated and documented/copied into case comments.
A service credit can be issued at the rate of once per V N per customer. If the customer has received a service credit according to the V N history, the customer IS NOT ELIG BLE for a service credit. The new owner of a pre-owned vehicle IS ELIGIBLE if there is no prior history indicating the "new owner" has received a service credit.
A service credit debit card CANNOT be issued to reimburse a customer for previous services.
Valid at any Authorized Nissan Dealer/Infiniti Retailer. Approved for any service (valid only if genuine Nissan/Infiniti parts are used), or for the purchase of any genuine Nissan/Infiniti parts or accessories.
This offer is valid until the expiration date, six months from the date that the service credit is offered to the customer. The debit card can be used until the balance reaches "0" or until the expiration date.
If there is a balance at the end of the 6 month term the balance will be forfeited.
The Service Credit may NOT be sold to another V N.

TL-BS called c at (443) 683-4535

TL-BS asked c what assistance would TL-BS be able to provide to c
c/s c just wants veh fixed

c/s RCAS-HL did not listen to c
c/s c has driven over 600 miles back and forth to the dlr since having veh for multiple concerns

c/s RCAS-HL stated people have driven for years without years and survived
TL-BS apologized to for for comments

c/s c went to the wrong dlr bc the appt. and this was because of poor communication... c/s c wanted to go to legacy Nissan in Hicksville

TL-BS apologized for the misunderstanding.

c/s when c's spouse gets in the veh the airbag light stays on but will go off when c turns the veh off and restart veh with spouse sitting in the seat at the time.
c/s c left nissan for 10yrs bc c was physically assaulted by a former dlr personell

c/s c doesnt think that c is asking for too much to have airbags fixed.

TL-BS informed c that appointment is set for 11/11/14 at 7 30 at Legacy Nissan in Hicksville. and asked c if that works for c .

c/s this works perfectly for c and that c will be there.
TL-BS stated c would recieve calls once a week from RCAS-HL just to make sure there are no changes with c's veh and also to confirm the appt time.

c thanked TL-BS,
c asked if there was a way to pull previous codes since concern is intermittent.
TL-BS stated TL was not sure but could have RCAS-HL find out for c

c understood

TL-BS apologized to c for the inconveniece

c/s on a good note c does get great gas mileage so c is happy about that
c/s c does wish the veh had better safety ratings in consumer reports for collision

TL-BS understood call ended mutually

Make Public

Created By Lester Villoga (8/27/2014 4 36 PM)
-CRR thanked C for calling and branded call
-CRR offered assistance
-CRR verified/authenticated C
-CRR spoke to [redacted]
-C wants help with her 2014 Nissan Sentra because she said that the transmission doesn't change gears and there was an airbag light, the back door rubber has come off and the doors slams hardly when closed and fluid is leaking
-C is stating that the dealership didn't honor the warranty of the vehicle
-C is complaining because the dealership didn't honor their warranty
-C said that they were just told to come back the day after
-C was offered to get another vehicle and was asked to shed out downpayment to get another vehicle
-C feels that the diagnosis fee is part of the warranty
-CRR LV explained that the diagnosis fee of a Nissan delaership is a standard charge that they must shoulder so that we will know what's causing the issues with their vehicle and it is the dealership who can also determine whether the said parts affected are coverable by the warranty
-CRR LV also informed C that the options that NNA CA can provide is also based in the diagnosis of the dealership
-CRR LV also explained how campaign is implemented and that it is V N Specific
-CRR LV empathized with C and asked on how would they like Nissan to assist them
-C said that she wants her vehicle replaced due to the multiple issues that C has in the vehicle and she feels that it shouldn't have those issues when it is a 2014 model and she paid $9000 downpayment and $50 monthly charge for the said vehicle
-CRR LV cited that the factors that could cause issues such as lack of maintenance or mishandling, CRR LV disclaimed that it is not the one caused but for the purpose of citing the importance of having the vehicle checked and be diagnosed by a Nissan dealership
-CRR provided case number #: [redacted]
-CRR LV informed C that we will be escalating case to Regional Specialist for the DEALERSH P COMPLAINT alone and not because of the issues that they have in the vehicle since there's no official diagnosis from a Nissan dealership yet; C understood
-CRR LV advised that they will receive a callback by the end of the next business day
-CRR offered additional assistance; C refused
-CRR closed and branded call

Created By Amanda Johnson (9/9/2014 8 05 AM)
ARBS rec'd email from DTS:

Amanda,

I met with[redacted] today to inspect their Q50 for PABI operation I see no faults with their vehicle and found it to perform well on a road test.[redacted] stated that the amber PABI light may be on at times and off at other times. I explained that moving in the seat, even when she believes she has not, may allow the system to classify her as either a smaller person or as a child seat. She did not accept that and stated that a loaner car Q50 she had for "20 days" did not perform the same as her car. I only observed PABI light off, system armed, during our road test. I explained why the passenger airbag is classed to disable but she simply did not want to accept these facts in place of her opinion.

The dealer had replaced the complete lower seat assembly which included virtually all components of the OCS system, yet she observes the same performance now as when the car was initially purchased. I explained this is because the system has performed normally during that period of time, seeing the same performance on replacement parts only supports that this is normal.

Make Public

The dealer RO at the time the seat replacement was done indicates it had DTS B00A0 stored however the customer states the red SRS fault indicator in the meter assembly has never illuminated. I replied that if the DTC was set due to a fault then the red lamp would have to have been on. But upon questioning the shop foreman and technician I believe the parts were recommended for replacement by Techline due to erroneous information. The B00A0 code will store when performing the OCS update campaign but that would show only as a diagnostic record in the main airbag controller, not as a current or recent DTC. Diagnostic records are a historical overview of DTC's the system has stored and are not erased when performing a code clear routine. If that diagnostic record DTC had been reported to Techline as an active code they would be correct to recommend component replacement. But in this case that was essentially wasted warranty. However the positive result is that the OCS system in this vehicle in now entirely new and because performance now is equal to the past that only further supports this as normal operation.

I verified proper OCS software in the replacement parts and also performed a zero point reset. I see no indication that the dealer failed to do any of this correctly during the most recent service visit so I don't expect any effect on her perception of performance. She will be in contact with CA again to obtain any additional documentation you can provide to further describe the OCS system in this car.

C states that C would like to have the address to Infiniti in order to write a letter about a form that C has about the lemon law.
C has thick accent so it was hard to understand C.
RCASMB provided C with PO BOX 685003 Franklin, TN 37068
RCASMB ask for C's VIN but C did not have it
C states that veh is at Warren Henry INF
RCASMB ask if their was anything that RCAS could assist with and C states no.

ARBS rec'd call from C stating that C wants to pursue REPLACEMENT for a 2015 Pathfinder.
C notes C has spoken to DLR and that DLR says 2015's are starting to trickle in.
C notes C's LH can do SOC, as did SOC on this vehicle.
ARBS advised C that ARBS will email over LOI, if C can fill out LH release and send it back.

C requests some sort of upgrade, as this will be 3rd Pathfinder (2nd LL replacement)
ARBS states that ARBS cannot upgrade trim level, but possibly could throw in maintenance plan or VSC for good will.
C seems okay with idea, but states that C should have service contracts on vehicle.
ARBS notes no contracts attached to 2014 VIN, must be aftermarket warranties.
C will send ARBS paperwork on service contracts.
ARBS advised C that ARBS will coordinate with DLR and begin looking for suitable replacement.

((///ARBS will consider trim or feature upgrade as retention goodwill ///))

ARBS responding to MRF via fax stating:
NNA offers DTS inspection/repair as 1st step, with $4,500 settlement if C is comfortable with repair.
If C is not comfortable with repair, NNA is in a position to offer repurchase or replacement in accordance with AZ lemon law.
Repurchase mileage will be assessed at 20,500 miles, replacement will be useage-free.

ARBS notes waiting on C's decision.

ARBS notes MRF and called C.
ARBS and C discussed situation.
C notes this is C's second new Pathfinder, 1st was a 2013 with similar concerns, lemon law replacement.
ARBS advised C that NNA is in a position to offer repurchase, replacement, or repair and settlement.
C and ARBS discussed the mileage offset @ 20,500 miles and C is upset that C has to pay mileage, but familiar with law– is why C opted for replacement 1st time.
C is willing to do whatever C needs to be compensated appropriately.
C stated that C would not know which vehicle to buy if C did opt for repurchase, as C needs 3rd row seat for 5 kids.
C states C loves Pathfinder, just wants Vehicle to be worry-free.
ARBS apologized and empathized that Pathfinders are nice vehicles, ARBS hates that C has had concerns with two new Nissans now, expressed that NNA wants to make C happy with brand.
C states that C would consider replacement, asked when 2015 models will be available.
ARBS advised C that ARBS does not have release date for 2015 Pathfinders.
ARBS empathized with C that Pathfinder shudder can be repaired, that there are thousands of Pathfinders on the road that are problem-free.
C agrees and reiterated that C loves Pathfinder, just wants V to work.
ARBS advised that reasonable 1st step would be to send DTS to repair vehicle.
C eventually agreed that DTS sounds like reasonable 1st step, then maybe replacement if repair fails.
C will speak to Husband and see what Cs want to do.
ARBS provided direct call back # and email address, and call ended mutually.

After careful evaluation, NNA will not be able to offer repurchase at this time, as there have not been an unreasonable number of repair attempts for any warrantable concerns that would substantially impair the use, safety, or value of the vehicle.

NNA will continue to honor the terms and conditions of all applicable warranties.

Description

Hi,

I own a 2013 Nissan Altima, I have had an airbag light on in my car practically since I bought it, then the Passenger AirBag Recall came out and I thought maybe it was because of that....I went to get my recall looked at and then then light went away for about a day. When it returned, I took it back to the dealer to look at it and they said it needed to be re-calibrated, the light was off for 2-3 weeks. t then returned, and I went to a different dealer because they were very rude. They did the same thing and re-calibrated it and said nothing was wrong. It has been a little over a month maybe 5-6 weeks, and the light has returned again! t has to obviously have something wrong with it for it to continue to turn on and frankly I do not have time to go to a dealer to get it re-calibrated every month. I just feel like there is no type of urgency at any dealer I have gone to and do not believe that nothing is wrong with it. If that was the case, the light would not turn on. Now I know several Nissan Owners and none of which have EVER had this issue. So CLEARLY something is wrong with my vehicle!

I need someone to help me I refuse to speak to people at the dealership because as I stated already, they have no sense of urgency to this issue.

I would appreciate if someone can help me as I am worried about driving my own car.

Thank you,

[redacted]

Hi,

I own a 2013 Nissan Altima, I have had an airbag light on in my car practically since I bought it, then the Passenger AirBag Recall came out and I thought maybe it was because of that....I went to get my recall looked at and then then light went away for about a day. When it returned, I took it back to the dealer to look at it and they said it needed to be re-calibrated, the light was off for 2-3 weeks. It then returned, and I went to a different dealer because they were very rude. They did the same thing and re-calibrated it and said nothing was wrong. It has been a little over a month maybe 5-6 weeks, and the light has returned again! It has to obviously have something wrong with it for it to continue to turn on and frankly I do not have time to go to a dealer to get it re-calibrated every month. I just feel like there is no type of urgency at any dealer I have gone to and do not believe that nothing is wrong with it. If that was the case, the light would not turn on. Now I know several Nissan Owners and none of which have EVER had this issue. So CLEARLY something is wrong with my vehicle!

I need someone to help me I refuse to speak to people at the dealership because as I stated already, they have no sense of urgency to this issue.

I would appreciate if someone can help me as I am worried about driving my own car.

Thank you,

Jessica Seabra

ARBS rec'd call from c. C states regions did not get any refund. C states she is waiting for some paperwork from them. C wants to know who check was sent to. ARBS advised that dlr sent paperwork showing the service contract was refunded. ARBS advised that ARBS would need to see that the bank never rec'd this money to change anything.
C states she was thinking of accepting the $9k that was offered. C states the $7 is not reasonable. C wants to know what other options c has. ARBS advised that the only other option would be a settlement. C states she does not want to get more money out of it, but the c states it is not her fault that the vehicle is not working. C states she should not be losing any money for that. C states this is unlucky, but she should not be charged for this.
ARBS advised that the usage is a lot of where the c is "losing" money. ARBS explained that the c has over 20k miles and we follow the state mandated usage calculation.
C states the bank does not even know what ARBS is asking for. ARBS and c discussed the fact that the bank will not do anything for c.
ARBS advised that c should send the documents from regions to ARBS asap showing that the refund for the service contract was not given to the c so ARBS can find out where this refund went. C thanked and will call regions again. ARBS thanked. The call ended mutually.

ARBS called dlr @ 863 299.2161 to dicsuss repairs. Spoke to Susie and asked for Service Manager.
Transferred.
SM-Tony. Advised of reason for call. Asked to hold.
ARBS held.
Provided RO 250308 - open for 13 days. ARBS advised wants to confirm it took 13 days to complete campaign. SM states veh was not there all that time. Advised veh came in on Saturday with flat tire and they did not have a replacement tire. They used a different brand to hold them over temporarily. By the time he came back in on the 11th, they did the recall. One day for the recall.
RO 252792 - confirmed 9 days down, going back and forth
RO 254295 - open for 27 days. Only a few days of rental charged out on this one. The c brought the veh in, wrote the ticket, no codes on it. Kept the ticket open to get in touch with techline, and techline advised to replaced OCS sensors, which was done. Only 2 days.
Veh is currently at the shop, dropped off on 9/4, RO has not even been opened yet. There are no fault codes but the c has sent videos with the husband sitting in the seat and sitting normally and the light just comes on. Dlr states there are 2-3 other Altimas with the same problem. ARBS apologized.
ARBS asked for this RO to be sent over whenever dlr gets the chance to open it. Provided fax number. Dlr will send
ARBS also advised that ARBS will be taking over case and so provided name and direct line. Dlr thanked. ARBS thanked. The call ended mutually.

Make Private	✓	**Created By Karen Walker (10/1/2014 11 42 AM)** RCAS KW placed call to C at [redacted] RCAS KW explained update received from DTS T. RCAS KW explained that DTS T did not feel there was any reason for a repair. C states DTS T did nothing, did not try and repair anything. C states DTS T just sat in PS seat and explained how OCS should work. C states DTS T did not even tell the requirements of the system. C states the problem not solved need to move forward with case. RCAS KW explained that DTS is usually the last step in resolving a concern. RCAS KW explained RCAS KW does not have a next step except maybe C getting a second opinion from another DLR. C states DTS T explained without inspecting vehicle, anyone can sit down next to C and explain, that did not help. C states C is tired of this, DTS made C lose $130 for day of work and gas to get there and did nothing for C. C states if NNA is not going to help there will be a lawsuit. C states C is not going to another DLR, get passed around, have to waste time and money. C states C has already been three times for information that could be found on google. C states NNA will reimburse for all that time lost during lawsuit. C states DTS did not even scan for codes, how can DTS know nothing is wrong, NNA lost the argument. RCAS KW apologized again and C states C will get attorney to deal with the concern from here.
Make Private	✓	**Created By Karen Walker (9/30/2014 10 00 AM)** RCAS KW notes RCAS KW received an update from DTS TZ. DTS T advised DTS T met with Mr. Ramirez who spoke for the C. DTS T advised C told DTS T the vehicle had updates done but the status light continues to go on with an adult in the passenger seat. DTS T advised that the more DTS T and C talked the heavier the adult passengers got. DTS T advised the airbag warning light was not on, the status light was OFF with DTS T sitting in the seat. DTS T advised that the C said DTS T was tricking C by sitting in the seat, saying DTS T sat there because DTS T wanted to fool C. DTS T advised that DTS T explained how the system worked and C kept saying "what if" the light was on for an adult and the car was in an accident and similar "what if" questions. DTS T advised C said C understood what DTS T was telling C but C did not care. DTS T advised C states the system is faulty. DTS T advised DTS T spoke to the tech that worked on the vehicle last and was told when explained the system operation, the C said it did not matter C was getting the car bought back. DTS T advised that normal operation is no warning light and a possibility of the status light coming on when a small adult sits in the passenger seat. DTS T advised DTS T did not feel there was any reason for a repair. DTS T advised C will probably request a buy back but the system appears operational.

C answered

RCAS-CH spoke with C about veh concern

RCAS-CH advises C that after review of case with TL-LH that NNA is not in a position to offer any further assistance

C is unhappy, C states that C wants to be compensated for the veh

C states has already had one buyback and that took 7 months

C states that C wants money back for veh

RCAS-CH acknowledges and advises C of RHR process

C agrees

C states that first arbitration agent was Janelle Cantrell, Case number was #15500792

RCAS-CH acknowledges

Why do you want to return the vehicle to Nissan North America? is because you feel it is unsafe, the passenger airbag is not working as intended. C feels that vehicle is not that sophisticated it can determine whether in a particular drive, that the passenger airbag should work or not work. The passenger airbag is a huge inconvenience.

Where is the vehicle currently?With C

Where was the vehicle purchased?Tanner Nissan

Was it purchased new or used? New

If used, when was the vehicle purchased?

Where is the vehicle serviced? Tanner Nissan

Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers? Lincoln Miller Nissan

RCAS-CH spoke with C about veh concern

C states C took veh in to Miller Lincoln Nissan and had diagnosis performed for veh concern

C states that DLR states veh is operating as designed

C is not happy.

C states that veh concern is a huge inconvenience for C and C's wife

C states has found a solution for C's veh concern, C states that if passenger OCS light does not go off as desired then C will have C's wife unbuckle, open door, get out of veh, wait a few moments and then have C's wife get back in veh.

C states that this process seems to make the passenger OCS light turn off and stay off.

TL placed outbound call to Miller Lincoln Nissan at 320-251-1363 and spoke with SM-Chris and reviewed case.

SM advised that c did stop at dlrshp this day.
SM advised that there was a scan of the veh and found that the veh is operating properly for the airbag sensor.
SM advised that the c is frustrated with how the system operates.

Make Private ✓

SM advised that there was a old History Code from low voltage that was found.
SM advised no repairs are needed at this time.

TL thanked SM and ended call mutually.

TL-Lesley Howard retyping notation from conversation TL had with C on 9/10/14.

C states that c is frustrated with the passenger side airbag light going off and on.
C states that c has had this concern before on another veh.
C states that dlrshp is advising that there is nothing wrong with the sensor.
C states that c's wife sits in seat and does not want anything to happen to wife.
C states that c is frustrated that the RCAS agent just repeated the same answer.

TL apologized for c's experience with veh and with CA. TL advised that currently RCAS's review with dlrshp has advised that there is no duplication of c's concerns.

Make Private ✓

TL understood that c does not want anything to happen to c's wife.
TL advised a second opinion of concern with another dlrshp.
TL advised that the sensor reacts to weight distribution on the passenger sit and cannot determine if a child or an adult is sitting in the front or a bag of groceries. C understood.
TL reviewed other dlrshp's in c's area.
TL provided Miller Lincoln Nissan in Saint Cloud.
TL provided numbe[redacted]
TL advised that TL would reach out to service dept and advise of c's possible call for second opinion. C understood.

TL advised that RCAS-Chase Hayes will follow up with c on 9/13/14. C understood.

RCAS-CH contacted C @ [redacted] @ 08:13 AM

C answered

RCAS-CH advised C that after discussing case with DLRSHP NNA has found that veh is operating as designed.

RCAS-CH apologizes to C for the frustration of the situation.

C very unhappy, C wants to know why airbag light keeps coming on, when Wife sits in passenger seat.

C asks RCAS-CH if RCAS-CH would drive veh with passenger in passenger seat, with airbag light on.

RCAS-CH apologizes and states that veh is operating as intended.

RCAS-CH that C's veh is still under new veh limited warranty, and that C may take veh back for another diagnosis

C asks what are RCAS-CH recommendations, put weights in seat, C's wife carry a heavy purse, C's wife sit in the back seat? As C was advised this previously.

RCAS-CH advises C that under current diagnosis there is no repair recommendation, as DLR diagnosis states veh is operating as is intended

C very frustrated, C ask if RCAS-CH has veh operating as designed written down because RCAS-CH has told C that 20 times this morning.

RCAS-CH advises C no, and that RCAS-CH is going off what the DLR and engineers have reviewed with RCAS-JK and RCAS-CH

C states C had same concern with 2013 Altima and had veh repurchased
C states that now the same thing is happening with only 300 miles on veh

C states that if C and C's wife are in veh and have an accident that C's wife is injured due to airbag concern that C is going to sue NNA until there is nothing left.

C Asks for RCAS-CH first and last name

RCAS-CH advises C that first name is Chase, but due to protocol RCAS do not give out last names
C frustrated, C wants RCAS-CH last name, C states RCAS-CH has C' s last name

RCAS-CH apologizes to C for the frustration, but RCAS-CH can not give out last name.

C asks if RCAS-CH has a supervisor

RCAS-CH advises C that RCAS-CH does have supervisor

C asks if supervisor can give C a call back

RCAS-CH advises that TL=Leslie Howard will be giving C a call 24-48 hours from now.

C understood and thanked RCAS-CH for the information

C stated dissatisfaction with airbag light coming on 20% of the time when C's wife is riding in the passenger seat.
C stated C purchased the veh because it had the passenger side airbag.
C stated C had a 2013 Altima with this same concern, and NNA replaced it with this 14 Altima.
RCAS-JK apologized for C's experience and listened to C share C's feelings.
C stated C drove four other cars at DLR at length and none exhibited the same concern.
C stated C would understand airbag light coming on if C's wife was 4'9" and 70lbs, but stated C's wife is not that small.
C stated C's wife was 5'1".

RCAS advised C to revisit C's veh owner's manual, section 1-42 through 1-59, specifically 1-51.

C still stating dissatisfaction current operating condition.
C did not disagree that veh is operating to normal standards.
C unwilling to leave perceived concern as it is.

RCAS advised C that RCAS would further review case and previous repurchase and follow up no later than Monday 9/8.

SA stated SA was familiar with case.
RCAS asked SA to share any information SA had relating to C concern.
SA stated C had a 13 Altima which had the same concern.
SA stated Nissan replaced the 13 Altima with a 14 Altima for C, which still exhibits the same concern.
SA stated C's wife is of a very petite build and at times when C's wife is in the passenger seat the airbag light will go on and off.
SA stated DLR completed reprogram 1405 but condition still persists.
SA stated DLR technician call Nissan engineering and had an extensive discussion and determined vehicle to be operating to manufacturer specifications.

RCAS thanked SA for the information.

comments : I have purchased a 2014 pathfinder. I have had several problems with this vehicle. I have taken the pathfinder in for the air bag light on the passenger side 2 times already and they undated the computer, now the light is coming on again and needs to go back in. we have also taken it in several times for a strong vibration when the ac is on, with no resolve. the shop foreman told us their is no fix for this that it is a electrical loop with this car. who would I need to contact to find a claim? i'm very unhappy with the constant problems with this vehicle. the dealership has tried everything to help us and treat us great but I have put a lot of miles on the vehicle go back and forth to the dealer. at this time I am a very unhappy customer of Nissan. this is an inconvenience for me having to take the vehicle in all the time.

An automobile is made up of thousands of various components and parts which are made by man, and assembled by man. Our wish is that there is never a mechanical failure; however there is no guarantee given, but our word in the form of the warranty to assure that if a failure does occur, we will cover the repair. While this is not the experience we would desire for our customer, Nissan has never failed to comply with the warranty that was given.

ARBS does not feel the repair history has been excessive. NNA is not in a position to repurchase the vehicle at this time. ARBS would, however, support a DTS inspection of the veh. Should DTS be dispatched to inspect veh, ARBS requests to be copied on request and inspection report.

Make Public		**Created By Julio Gutierrez (9/15/2014 1 55 PM)** —SUMMARY— C called NNA to assist with air bag light coming on C took VEH to DLR, could not duplicate. C states a technician while driving VEH home saw light come on RCAS-JG requested DTS to visit C at DLR and diagnose VEH DTS states VEH working as intended
Make Public		**Created By Julio Gutierrez (9/15/2014 1 51 PM)** RCAS-JG called C @[redacted] C asked RCAS-JG what is the outcome of NNA regarding C's VEH concern RCAS-JG informed (relayed) information provided by DTS on VEH is working as intended C asked if C should be ignoring air bag light should C ignore check engine light RCAS-JG replied RCAS-JG is not a technician and may not answer that question, if C believes VEH is not working as intended C should bring VEH to DLR for diagnosis C states Nissan sucks and states will take case somewhere else C hung-up
Make Public		**Created By Julio Gutierrez (9/15/2014 1 44 PM) Last Modified By Julio Gutierrez (9/15/2014 1 44 PM)** Sr. DTS and DTS wrote emails replying to RCAS states: The DLR drove VEH for a week under normal driving conditions and found no concern with operation. DTS states there have not been any codes in the past DTS states to clarify concern passenger airbag STATUS LIGHT. What does he mean by it's ON Does he mean it's ON with nobody in the seat? Does he mean it's ON when his wife sits in the car. Does he mean it's ON when his child is in the seat? Sr DTS states if C has further concerns to take VEH to DLR if code shows up request DTS again
Make Public		**Created By Jackie Santos (9/15/2014 1 35 PM)** rcas case follow up
Make Public		**Created By Jackie Santos (9/15/2014 1 34 PM)** crr-js received a call from c c gave case no c said that c's been trying to get hold of rcas but then c said that c keeps getting rcas's vmx c said that c really need to speak to rcas about case crr-js apologized for the inconvenience. crr-js asked c if any of c's info changed since the last time c called, c stated none. crr-js advised of the ff up date. crr-js called rcas but was routed to vmx crr-js advised c that crr-js will send an internal message to rcas- to give c a call back. crr-js offered further assistance, c said no. crr-js provided name,case,extension number to c. crr-js exiting case.
Make Public		**Created By Julio Gutierrez (9/12/2014 2 01 PM)** RCAS-JG contacted C @[redacted] RCAS-JG left VMX including case number, name RCAS-JG provided VXM with contact phone [redacted] RCAS-JG stated RCAS-JG will continue to follow up with C no later than 9/17/2014 RCAS-JG requested that if C does call back and reach VMX to please leave best time and phone number to reach C.
Make Public		**Created By Julio Gutierrez (9/12/2014 1 58 PM)** Sr. DTS also replied Sr. DTS states if this vehicle has been inspected recently by DTS-TZ and the OCS system was determined to be operating properly without DTS performing a repair there is nothing else we are going to be able to do. Sr. DTS states If C feels like he can demonstrate a malfunctioning OCS issue then we should proceed with another inspection directed by the DTS. Sr. DTS states NNA is not going to re-design the system operation when it is operating as intended.

DTS Notes:
DTS states has been working with the dealer on this case for a few weeks
DTS states C told SA-Linda the OCS status light would come on when entering the freeway on long sweeping on-ramps. No complaint of occupants in the vehicle and the status light
DTS states had 2 different techs drive the vehicle over a week or so and the only time the status light came on was when one tech's wife was in the seat. Tech's wife is in the small adult category.

DTS states the briefcase activating the sensor makes sense since the computer will think it is a small adult. The computer will determine if it is an adult or not. Since there is no published weight.

DTS states VEH has new OCS control unit, SRS control unit and 2 seat sensors

RCAS-JG called C @[redacted]
C states VEH is having the same problem all over again
C states C has lost the "warm / fuzzy" feeling Nissans and new vehicles provide due to the airbag light coming on when it is not supposed to.
C states has met with DTS-TZ a couple of times and would not like for DTS to feel frustrated that C is calling again but C is concerned that light keeps coming on
RCAS-JG asked C until Monday to review case and update C on 90/8/2014
C agreed
cal ended mutually

Make Public		**Created By Lee Campbell (10/1/2014 10 02 AM)** *** [Added after the case is closed.] *** SSA-LC documenting C's social media interaction: ********** C: "last time i posted about passenger side airbag will not deploy in case of my mom seat on that side, but i did not put a critical information on the post, which is my mom only weight 83 pounds and 5 feet tall. Btw, Have anyone had same problem like in my situatuon?" SSA: "Chau, if you feel your air bag system is not operating as designed, we recommend reviewing your owner's manual and schedule a diagnostic appointment at a local Nissan dealership. Some other safety precautions you may want to take include: positioning the passenger seat as far back as possible and making sure your mother sits as upright as possible in the center of the seat cushion with the seat back in the upright position. We also recommend she sits back into the seat (not on the front edge) and places her feet flat on the floor. Lastly, always make sure every passenger in the vehicle is using their seat belts properly, as air bags are a supplemental restraint system. Thanks. - James, Nissan Social Support"
Make Public		**Created By Zachary Mallett (9/3/2014 12 43 PM)** CASE SUMMARY C contacted NNA via social media requesting information about OCS function. RCAS-ZM directed C to owner's manual for further information. C did not have owner's manual. RCAS-ZM sent C owner's manual. RCAS-ZM closing case as no further assistance may be offered.
Make Public		**Created By Zachary Mallett (9/3/2014 12 29 PM)** RCAS-ZM called C at[redacted] C stated C was told by DLR C's OCS sensor operates as intended. C stated C's mother is small, but would like to know how much passenger needs to weigh to turn airbag on. RCAS-ZM stated RCAS-zM did not have precise weight. RCAS-ZM stated OCS sensor measures numerous conditions including how a passenger is positioned in the seat. RCAS-ZM stated C should refer to C's owner's manual. C sttaed C did not have owner's manual. RCAS-ZM stated RCAS-zM would have manual sent to C. RCAS-ZM verified C's mailing address and email address RCAS-ZM stated owner's manual will arrive 2-4 weeks. RCAS-ZM stated if C has further concerns to contact NNA CA. C understood. C declined further assistance. Call ended mutually.

ARBS received email from c requesting clarification on repurchase figures and explanation on why GAP not reimbursable. Responded by email as well as contacted c at [redacted]
C had copy of sales agreement. Reviewed all and explained that third party GAP would need to be canceled by her personally after relinquishing vehicle for any prorated refund. Explained use of thirty day payoff and for c to keep her loan current. Any overage would be returned to her by separate check.
C was good with the repurchase offer and advised would discuss with husband & get back to ARBS.

ARBS rec'd response to email from c. She advised her phone never rang and she thought ARBS called wrong #. She also stated that she does not want to use Cherry Hill but instead wants to go to another "manufacturer". ARBS called c back and she picked up this time. Asked if c meant a different dealership. C indicated no. She has changed her mind and wants out of Nissan after reading lots of additional information on the internet about problems with the air bags. ARBS attempted to change her mind but was not successful.
ARBS explained repurchase process and advised would send her over repurchase offer as soon as NMAC payoff info received. C will not be available on Wednesday 09/10 as has funeral to attend. ARBS advised would contact c on Thursday 09/11.

ARBS contacted SM Bob Miller at Cherry Hill Nissan #856-667-8300. SM advised that radio has been ordered for vehicle as of 08/13. It is back ordered and unsure of expected date. New passenger seat has been ordered and will be installed as soon as received. SM will be getting tech line involved on ABS issue if seat/sensor is not the fix.
SM has addressed with c's husband that outside mirrors do not tilt when car in reverse. This complaint was in c's letter and ARBS verified that this was not an available option on the 2014 Altima.
Provided SM with ARBS contact information and case # to reference.

ARBS contacted c at [redacted] Apologized for any inconvenience involving this matter. She explained in detail her issues with passenger ABS. Light erratically comes on even when someone is over the minimum weight limit. She has read manual and understands when light may be on or off due to weight or sensor. OCS has been reprogrammed. Also, continuous problems with radio.Radio was due to be ordered months ago but dealership did not handle. Dealership told her seat should be replaced as well. Radio and seat still to be replaced. C also indicated that they are "holding up" repairs now based on NNA being contacted. Advised c would contact dealership SM today to discuss why.
Explained process of repair history review of warrantable repairs for any replacement/repurchase option. C understood and call ended mutually.

Alert Trigger Verbatim	IMPROVEMENTS TO SERVICE EXPERIENCE I had to return after they did the recall service on my car. It was the 5th or 6th time that I had to deal with this problem with the passenger seat. Most of this survey doesn't have anything to do with the service I received. The Service Manager was great to deal with and actually for the first time was aware of the problem with my car. I have already sent a survey response for the recall and haven't heard from anyone from Nissan North America. I have owned many Nissan's and this will be my last one. I complaine dabout this problem less than 1 month after I leased this car. Everyone I dealt with was less than helpful from the dealership to Nissan NA. I have a case file with you and asked for someone to contact me again and haven't heard from anyone. If this problem surfaces again then I am going to go on the Internet about it. I should have gone to the AG's office about this being a lemon and I still may. I would like to talk to someone from corporate. Dear [redacted]

Make Public We sincerely appreciate you taking the time to contact Nissan regarding your situation. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

In order to coordinate the repurchase of your vehicle, Nissan needs to know the particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me at your convenience, as they will be needed to make a detailed offer:

- A legible copy of the vehicle's current registration
- A copy of the purchase contract for the vehicle
- Any receipts for costs that you want considered for reimbursement
- Completed Lienholder Information Request Form (enclosed)

Please return the requested information to me via fax at 615-967-2271. We anticipate completing the repurchase within 2 to 4 weeks from the time of your acceptance. Please note: supplying the requested documents does not indicate your acceptance of the offer; you will have a chance to review the fully detailed offer before making a decision.

If you have any questions you are welcome to call me at [redacted]

RCAS-JS asked C the following per SOP:

Make Public

Why do you want to return the vehicle to Nissan North America?
- Customer does not feel safe given continuing passenger side airbag concerns that C has contacted NNA about since December 2013.
Where is the vehicle currently?
- Customer's house.
Where was the vehicle purchased?
- Bertera Nissan.
Was it purchased new or used?
- New.
If used, when was the vehicle purchased?
- N/A
Where is the vehicle serviced?
- Bertera Nissan.
Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers?
- N/A

C stated C would appreciate NNA demonstrating some degree of caring about C's concerns.
RCAS-JS sympathized.
RCAS-JS stated RCAS-JS would collect RO's from DLR and investigate C's concerns further, following up with C by COB Tuesday.
C stated C understood.

C responded to RC's response with the following: Kristina, Thank you for your timely response and clarification. I will make the payment on line at Nissan today and have the money taken directly from our checking account. Also, we will sign the Acceptance and email them to you this afternoon; we do not have the ability to fax the docs to you. Fran & Lin Pennypacker
Make Public		**Created By Kristina Rosas (10/23/2014 8 14 AM)** C emailed again regarding usage/replacement: Hi Kristina, My husband and Lin have reviewed the documents sent to us. There is just one more comment that we need to make to your manager, etc. We signed a lease contract in good faith with Nissan that we would agree to certain lease terms in exchange for a safe vehicle for a period of three years. t is negligence on Nissan's part to not fulfill their part of the contract which is a guarantee that this vehicle would be free from defects and/or to fix that defect. Just because Nissan cannot figure out is wrong with the passenger air bag sensor became our problem and they attempted to put the that problem on me personally because of their perception of me not weighing enough. I weigh 123 and have for the past 2 years.... a full size adult. We are sure that if we had not met our payments on a timely basis (our lease responsibility), Nissan would be more than happy to come after us financially, correct? That being said, we will make our decision and I will either email you or call you directly by Friday 10/24 .

Thank you for your assistance; we do appreciate it.

Lin and Fran Pennypacker

C emailed RC:
Good morning Kristina,

The offer from Nissan indicates mileage at 21,040. What happens to mileage over that number?

Thank you,

Fran & Lin Pennypacker

RC responded to C to advise offer stands with mileage stated, and miles at turn in are not accounted for within this transaction; not a typical lease turn-in. RC asked that C advise if further clarification needed.

C emailed RC first to confirm 6 pages total and then immediately after to say:

Kristina,

One more comment that I would like you to pass on to your Manager or anyone else who would reduce the 'usage' fee.

Nissan has known there is a problem with the passenger air bag censor for a very long time. t includes not just the 2013 but the 2014 Altima as well. The treatment I received in the beginning was an insult to my intelligence by telling me that I didn't weigh enough. And that comment also came from the first consumer advocate I talked to. I was also told I should sit in the back seat. Picture that one ... travelling down Interstate 75 in Florida and me jumping into the back seat.. because the light did go on... we got off at the next exit and stopped at a safe place to turn off the vehicle, wait and then restart the car.

Thanks for your help and attempt at trying to get the usage fee reduced.

Fran Pennypacker

RC responded to C's email advising that C was correct on the 6 pages, and that RC understands and empahtizes with C's concerns, ultimately, NNA is following FL LL, and that RC will certainly forward email on, per C's request.

RC sent C's email to ARBS-AZ per C's request to forward on.

RC called C to advise offer was sent, and that RC did NOT receive approval to waive the usage in a replacement situation.

C notes that all she wanted was to get into another vehicle, it's not her fault that she has a faulty vehicle, it's Nissan's, and ultimately, she's paid payments as use of the vehicel and doesn't feel she should be charged again for that. C reiterated that C is not responsible for the non conformity, but is being left in a financial situation that is worse than when C started. RC acknowledged, and apologized for the inconvenience, empathized with C's concern, and noted that ultimately, the repurchase offer under LL is all RC can provide in that regard, and same with replacement; there is no concession for usage.

C acknowleged, notes that frustration is not with RC, but with NNA and their policies, as C is noting again, that all C wants is to get into another vheicle without incurring additional costs. RC acknowledged again. C notes C will discuss with husband and will advise RC when decision made.

RC emailed offer to C at email on file, with the following explanation:

I have attached the Voluntary Repurchase Offer as calculated under the guidelines of the Florida Lemon Law. The offer reflects the amount you have paid into the lease, less manufacturer rebates that were applied to your down payment, and less "reasonable offset for the vehicle's use", calculated in accordance with the formula set forth in the Florida LL. The remainder is owed to you directly. Nissan North America will also terminate the lease on your behalf, for the amount due as noted in the offer itself.

If you have any questions, please let me know. Otherwise, please sign on the last page, and return ALL pages via fax (615-967-2197) or by email to kristina rosas@nissan-usa.com.

RC returned C's phonecall; advised repurchase offer is in for review, and asked if C has confirmed replacement with Kevin. C notes that C has, and reiterated that C wants to see repurch offer still. RC acknowledged and reiterated that it's in for review.

C and RC spoke about replacement, and instructions RC was provided. C is questioning usage, as C is paying for "use" of the vehicle with each payment, and doesn't feel she should have to come out of pocket for additional monies, especially considering the fact that C has had this issue with the vehicle since the get-go. C notes that C feels NNA/dealer were "blowing her off", indicating no problem with vehicle, and advising that she "should sit in the back seat; she's just too small", but now acknowledging an issue and so C is a little upset with usage as a whole, but understands in repurchase just not replacement. C also notes that C has researched vehicles and finds that there are recalls for thsi concern on the '14, further compounding the fact that the issue IS real.

RC acknowledged C's concerns, notes that RC will call Kevin for info on '15 replacement, and that RC will also have case reviewed regarding replacement usage. C thanked RC and call ended mutually.

RC emailed ARBS-AZ regarding c's concern with usage on lease SOC.

RC showing $1700 down payment, and then $1600 rebate deduction as seperate lines, so as not to confuse customer; "down payment includes 1st payment" only makes sense when we show full down payment, as opposed to just the $100 in cash. Ultimately, the numbers are the same either way, so doing it this way for customer clarity.

C stated that has reoccurring airbag concern.
C stated that has been in dlr multiple times since vehicle ownership.
C stated that veh has just been purchased just a year ago.
C stated that dlrship has run out of options as far as fixing veh.
C stated dlrship contacted engineers.
C stated can't diagnose concern for over a year.
C stated still has 3 years on the lease.
C stated concern happens when in passenger seat but not when husband is.
C stated light goes on and off while driving.
C stated likes veh and awesome on gas.
C stated wants a veh swap under the same terms and amount of current agreement.
C stated that if accident occurs and airbag concern results in injury, NNA is going to a problem.

Why do you want to return the vehicle to Nissan North America?: Because the problem with the air bag sensor has had no permanent resolution for over a year and c is concerned with safety.
Where is the vehicle currently?: In c's possession
Where was the vehicle purchased?: Venice Nissan
Was it purchased new or used?: New
If used, when was the vehicle purchased?:
Where is the vehicle serviced?: Venice Nissan
Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers?: No.

RCAS-JG advised C of RHR process.
RCAS-JG advised would followup with C every 3 business days.
RCAS-JG advised next followup will be 9/9/2014

RC emailed David regarding replacement invoice and contract that RC needs to put together replacement offer.

RC putting repurchase offer together for C to see both, per C's previous indication that C would like to see both even though C definitely does want to get into new vehicle.

C emailed aftermarket receipt to RC asking if the items would be covered, as they are infiniti products installed at an infiniti dealer. RC responded to C reiterating previous conversation that aftermarket items are not included, and though they are Infiniti products, they were put on after production at an additional cost, as an option, thus making them aftermarkets; RC reiterated that aftermarkets are not included in LL refund, but RC would double check that we aren't able to include them.

Make Public
Created By Kristina Rosas (9/15/2014 2 06 PM)
Dealer David Woods called RC and advised that the service department gave C a deeper discount on aftermarkets than he would get. RC asked that dealer send info over anyway, as RC is not even sure that NNA will cover. Dealer asked about salesman's commission, because his salesman isn't going to want to do all this work for free. RC advised Dealer that NNA pays the invoice total (not MSRP) on replacement. Dealer acknowledged, and is sending over information (invoice and mock contract).

Dealer also advised that the price of C's Nissan protection plan was less then than it is now; RC asked that he send the info, as we understand inflation and as long as the contract is the same, we should be ok. Dealer will continue working.

C emailed RC asking about after markets and timeline/3rd party. RC communicated to C that under CA LL, after markets are not included in a manufacturer refund or replacement, however, RC has still requested all information from Dealer since C is requesting these on new. RC reiterated to C that RC can make no guarantees in this regard, as CA LL does not dictate that they are included. RC also advised C that C is correct with information given from Dealer; 3rd party handles closing, and timeline is about 2-4 weeks for process. RC asked C to please advise with further questions.

RC spoke with Dealer David Woods. David advised RC that he isn't sure they are able to sell vehicle at invoice cost, as it's a hot seller. RC explained that if we do straight with VPP like Dealer suggested, C will incur more cost, as the usage is being cut in half for replacement. David will talk to his GM and see what can be done; he will also work on drawing up contract. RC confirmed that NNA will cover Nissan service contract, but not additional aftermarkets, per CA LL. RC did advised of documentation needed to confirm that NNA is not covering aftermarkets. David acknowledged and will be back in touch with RC.

RC received payoff info from NMAC.

C returned RC's call. RC went over letter of intent, and confirmed email address to email to C as well.

C had a few questions, and advised that C is looking to get into replacement vehicle (same). Finance through NMAC, so RC indicated we can do SOC if C chooses like vehicle, same trim level, same options, etc. RC requested C have Dealer call RC when C selects replacement so RC can make direct request to D for documents needed. C agreed.

C and RC thanked one another for their time, and call ended mutually. RC emailed C letter of intent, and reiterated conversation about replacement as RC advised she would.

RC emailed NMAC for lease payoff, payment history, contract and copy of title.

Created By Kristina Rosas (9/30/2014 3 04 PM)
C returned RC's call. C confirmed letter of intent received, but C did not have a chance to open. RC went over NNA's intentions to get C out of problem vehicle, and of options available in doing so. C is looking to get into another Nissan, but may want to purchase new vehicle instead of lease. RC explained SOC for lease, and straight repurchase if C does choose to purchase/get into another vehicle that is not "like" current.

Make Public

C is going to dealership today to look at potential replacement Juke, and will send requested documentation to RC. RC requested that C advise daeler of RC info, or send RC dealer information so RC can correspond directly.

C thanked RC for calling initially, and RC thanked C for retunring call. Call ended mutually.

CAS-JS placed outbound call to C at [redacted]
****
C thanked RCAS-JS for calling, apologized for not having been able to get back to RCAS-JS.
C stated C has had a lot going on lately and will not be in position to take VEH to DLR to address current concerns.
RCAS-JS sympathized and stated that RCAS-JS would like to assist C in addressing VEH concerns, however RCAS-JS understands if C is unable to take VEH to DLR at this time.
RCAS-JS stated RCAS-JS would be back in contact with final decision on VEH buy-back request.
C thanked RCAS-JS.
Call ended mutually.

C stated C does not feel safe with VEH given numerous concerns, primarily the airbags.
C stated other concerns include a window that rolls down over night, alignment issues that DLR states have been addressed (VEH has original tires).
C stated C loves car, wants new one without these concerns.
RCAS-JS asked C to confirm VEH has not been to DLR since July.
C confirmed.
RCAS-JS asked C the following per RHR buy-back SOP:

Why do you want to return the vehicle to Nissan North America?
- C does not feel safe or satisfied with VEH and experiences of having to constantly take VEH to DLR constitute large concern.
Where is the vehicle currently?
- Customer's house.
Where was the vehicle purchased?
- Milford Nissan
Was it purchased new or used?
- New
If used, when was the vehicle purchased?
- N/A
Where is the vehicle serviced?
- Milford Nissan
Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers?
- N/A

RCAS-JS asked if C had intentions of taking VEH back to DLR regarding concerns.
C stated yes.
RCAS-JS asked if C would like RCAS-JS to hold off on processing paperwork until latest RO could be included.
C stated yes.
RCAS-JS provided contact details, requested C have DLR fax RCAS-JS and that RCAS-JS would call C back Thursday.
Call ended mutually.

I am filing a complaint about my 2013 JX 35 (JN1DV6AR5CM[redacted] You recalled the vehicle to fix inactive airbag problem on the passenger□s seat. I took my vehicle for the recall, but your service department at Kirkland did not fix the problem. I still have the □airbag off□ warning light on from time to time when a passenger sits on the seat. I took the vehicle back for a second inspection. The Kirkland service department couldn□t solve the problem. Now the airbag is still inactive from time to time when a passenger sits on the side. I am hereby notifying you that you will be liable for all damages, legal liabilities, and possible lawsuits should an accident occur.

EXEC-CT received email from C advising

Hello Charity,

I have given all that has happened with my 2014 Nissan Rogue a lot of thought.
I am hopeful that I will not incur any further problems with my vehicle and would like to put this matter to rest.
The compensation that I would like to receive is a complimentary bumper to bumper extended warranty.
In looking at the Nissan website, I am requesting a Nissan Security + Plus Gold Preferred Extended protection plan that extends 5 years beyond the 36 months factory warranty for a total of 8 years.

I would appreciate your putting this in place and forwarding the policy to me. This is all that I am asking for.

Thank you,
Judy Rosen

Make Public		Created By Joseph Shively (9/16/2014 3 56 PM) CASE SUMMARY ********** C contacted NNA CA requesting financial assistance with VEH. RCAS-JS consulted DLR and FOM. RCAS-JS stated to C NNA was not in position to provide assistance.
Make Public		Created By Joseph Shively (9/16/2014 3 55 PM) RCAS-JS received inbound call from C at 5184969802 ********** RCAS-JS requested C be placed on a brief hold while RCAS-JS pulled up C's documentation. C obliged. RCAS-JS thanked C for hold. RCAS-JS stated after revision of C's case, NNA was not in position to assist. C asked if RCAS-JS had spoken with SA-Bryan regarding concern. RCAS-JS stated RCAS-JS had done so, and had documented SA-Bryan's concerns, however NNA was not in position to assist. C stated C understood and would have to sell VEH. RCAS-JS sympathized. Call ended mutually. **********

Make Public		Created By Joseph Shively (9/12/2014 3 50 PM) RCAS-JS contacted FOM-AA regarding C's case. ********** FOM-AA stated NNA was not in position to assist C. **********
Make Public		Created By Joseph Shively (9/12/2014 9 28 AM) NOTE TO RCAS-JS: ASK C ABOUT 2012 - Versa Sedan Transmission Shift Selector CAMPAIGN
Make Public		Created By Joseph Shively (9/9/2014 3 40 PM) RCAS-JS placed outbound call to C at [redacted] ********** RCAS-JS stated RCAS-JS had received C's case and would be investigating further. C thanked RCAS-JS. RCAS-JS stated RCAS-JS had spoken with Bryan at DLR and that Bryan was sending RCAS-JS RO's from visit to DLR. Follow-up set for Friday. Call ended mutually. **********
Make Public		Created By Joseph Shively (9/9/2014 3 29 PM) RCAS-JS placed outbound call to DLR at 6102588600 ********** RCAS-JS spoke with SA-Bryan SA-B stated: -C brings VEH to DLR for most major services , will fax RCAS-JS RO's since Salesforce record doesn't include C's VEH history.

-VEH had flashing airbag code – series of tests exists for this code, after getting all passed replace airbag module (was out of 3/36, cost C $500), light didn't go off, called TECHLine second part was to replace diagnostic unit (covered under powertrain), light didn't go off, called TECHLine, called to replace left front body harness ($800 warranty cost for parts, very little labor).
-SA-B stated diagnosis procedure could use improved tools, no tests exist to accurately determine which component is needed in this scenario

veh concern

Created By Jackie Santos (9/5/2014 2 44 PM)
crr-js received a call from c's wife [redacted] now referring as c
c said that c took veh to the dlr because c's air bag light or sensor is flashing and so c said that dlr replaced the the module and c said that c paid for it for $456
c said that after that it was replaced the light is still flashing and so dlr again replaced the sensor which was under warranty but then even though there are already parts replaced veh air bag light still keeps on flashing and now dlr is telling c that dlr might try the harness and that will cost $740 plus the labor which c said that c doenst have
c said that c thinks that c should pay for this because c said that this is not c's fault so c said that c wants Nissan to cover the repair
crr-js apologized for the inconvenience.

TCS-NS received vmx from C TCS-NS returned call.
C states C has several concerns C states OCS campaign was done but light comes on now even when C is in passenger seat. TCS-NS advised many reasons why light could come on C states C has not obstructions full size adults from C's mother to C's grown children in seat and concern will present. TCS-NS understood C states C worried TCS-NS apologized for C's inconvenience and advised need to have veh reviewed C states C returned to dlrshp when C saw concern after campaign and dlrshp per c basically acted as if they did not know what else to do. TCS-NS again apologized to C and advised TCS-NS would like to have veh reviewed and all seat/sensors reviewed. C understood TCS-NS asked C what other concerns C has C states C has a transmission concern C not sure how to explain C states C feels like veh has a bit of a shutter feel when accelerating from a stop or slowing down to stop C states C mentioned to dlrshp first time and dlrshp advised could not duplicate but was noted in C's file. C states second time C advised dlrshp was not noted and nothing was done to veh. TCS-NS asked if veh was reviewed C states no. TCS-NS apologized and advised need to duplicate and have veh reviewed C states C very concerned as C knows other owners who have had veh repaired with no problem with transmission concerns and knows one owner where veh was repurchased. TCS-NS understood. C states C not sure if normal but when C has defroster on a/c comes on TCS-NS advised a/c does come on to insure veh does not fog up from inside C states C has never seen this before on new vehs TCS-NS advised is normal TCS-NS requested C's permission to speak with dlrshp and NNA technical advisors and follow up with C on 9/16 to review next steps C states C works in education field and that is why C wanted to fix this in summer as C cannot be without a veh during day when school is in TCS-NS understood C requests loaner TCS-NS advised TCS-NS would investigate and advise TCS-NS asked C best time to contact C and for C to go to dlrshp C advises after 3:30 EST TCS-NS understood and advised would note in case. Description

This message is for Wendy for was assigned to my case...

Hi Wendy,

I've tried calling a dozen times on Friday but your phone number is just resulting in a busy signal. I tried calling the main customer care line as well and couldn't get connected. Not sure what is happening here.

Anyway, I am inquiring on case # [redacted] After 2 days of my vehicle at Bill Ray Nissan in Longwood, FL they were able to diagnose and recommend solutions to most of the issues. Some issues affect the value of the vehicle but 2 main ones are affecting the performance and safety.

One issue is the continued malfunction of the passenger airbag sensor, ultimately disabling the airbag randomly. They have diagnosed and ordered parts to try to repair the faulty system. However, these parts are on back order and they cannot determine when they will arrive, and are not guaranteed to fix the problems. With this in mind, I no longer feel safe driving my vehicle with passengers, as I frequently do.

You mentioned on the call about possible replacement vehicle due to non-conformity, severity of issues and length of time taking without resolve. Have you discussed this with your management, as you indicated? I think we should move in that direction to have my vehicle either replaced with a comparable one or just terminate my lease, which has about 20 payments remaining. Either resolution would be acceptable for me, however I would prefer the lease termination. I have been told to have legal council help with this process, but based on our call I am confident you can assist without causing this unnecessary headache.

Please let me know how we can resolve, and I look forward to finding another vehicle to lease. Hopefully within the Infiniti family. :)

Thank you for your help,

Make Private	✓	**Created By Lauren Strode (10/1/2014 2 38 PM) Last Modified By Lauren Strode (10/1/2014 2 38 PM)** **********Closing Case Summary RCAS is closing Case as no further assistance can be offered at this time. ***CASE SUMMARY*** C contacted Nissan CA requesting assistance with airbag concern.
Make Private	✓	**Created By Lauren Strode (10/1/2014 2 36 PM) Last Modified By Lauren Strode (10/1/2014 2 37 PM)** RCAS-LS placed outbound call to c at [redacted] RCAS-LS stated that SM was contacted and they would like c to come into the dlr for the open campaign on c's veh C states that c has already taken care of the campaign a couple of days ago. C states that c is still having concerns with c's airbag light coming on whether somebody is occupying the front seat or not. RCAS-LS stated that RCAS-LS understood. RCAS-LS stated that RCAS-LS goes through the same thing with the airbag light in RCAS-LS 2014 Maxima. RCAS-LS stated that the thing with the airbag is the position of the seat, height weight of the passenger, so many factors affect the airbag sensor which works in sensing whether or not it is a safe situation for the airbag to deploy or whether the airbags can cause more harm than good. RCAS-LS states that this reason is why the seatbelts are the primary methods of safety because those airbags are 200 mph of pressure coming at the passenger and in certain cases can cause more harm than safety. C understood and stated that c will continue to monitor. RCAS-LS stated that if c feels like there is some kind of malfunction c can take veh to the dlr and go on a test drive with them and try to duplicate c's concern to see (for example putting pocket book in passenger seat, sitting in passenger seat, positioning seat different ways). C states that c will play with it and record data. RCAS-LS states that if c needs anything else feel free to give NNA CA a call. C understood and call ended mutually.
Make Private	✓	**Created By LaShondra Mason (9/29/2014 3 48 PM) Last Modified By Lauren Strode (10/1/2014 2 02 PM)** CRT placed outbound call to SM-Chris SM adv that veh hasn't had a recall done on it and would like for c to bring veh in for a diagnosis to make sure veh is working at 100% SM stated that with 2014 Pathfinder's if c is quick to get into veh and puts car in drive that air bag sensor doesn't have time to properly read settings of weight SM adv this will shut the system down and won't calibrate correctly until car is shut off and started again
Make Private	✓	**Created By LaShondra Mason (9/25/2014 4 35 PM) Last Modified By Lauren Strode (9/26/2014 7 59 AM)** CRT-LM made outbound call to C C stated that the dlr ran a recall scan on veh but didn't replace the sensor C stated that light goes on and off whenever it wantrs C wants to know when the light is supposed to come on, when the seat is or isn't occupied C the next closest dlr is 1 hr away C didn't understand the handout dlr gave CRT adv that will contact dlr and followup with c in 3 business days C adv that c is being induced tomorrow for pregnancy and for CRT to call husband Chad at same number with outcome. CRT apologized and adv that will do more research to find out about how airbag light should properly work. C thanked CRT and call ended mutually

Make Private	✓	**Created By Hezha Decker (9/18/2014 5 29 PM) Last Modified By Lauren Strode (9/26/2014 7 59 AM)** RCAS-HD assisting RCAS-LS RCAS-HD stating RCAS-HD is assisting RCAS-LS RCAS-HD stating RCAS-HD understand c is having issue with the airbag light C stating yes C stating once c turns the veh on the air bag light will stay on sometimes C stating its very random C stating c has taken veh to dlr C stating dlr did recall sensor C stating even though c veh didn't have the recall on it C stating c took it back to dlr who contact NNA C stating dlr give c a hand out on how to properly sit in the veh C stating c doesn't understand the handout

C stating c is worried due to baby being on the way.
RCAS-HD apologized for c concern

		Created By Wendy Martin (11/12/2014 3 06 PM) ***CASE SUMMARY*** C contacted NNA seeking assiatnce with an air bag light issue DTS inspected the c veh and determined that the veh is performing as designed RCAS-WM closing case
Make Private	✓	RCAS-WM contacted c and stated that RCAS-WM received the DTS notes and was informed that the c veh is operating as designed and because of that RCAS-WM could not assist c nay further with this concern C stated that t c veh was not operating as designed and c feels stuck with a veh that the air bags do not work RCAS-WM assured c that according to DTS the veh is RAS-WM apologized to c for the ongoing experience and asked d c to contact NNA if c needs assiatnce in the future C understood' cal ended mutually
		RCAS-WM recieved details of DTS appointent for c DTS met with C on Monday, 11/10/14, at 1:30 PM. Client came in early and had service dept. perform required maintenance. DTS was early also and had tech perform a zero reset for the OCS (PABI) and check for codes in the Airbag System. DTS reviewed bulletin NTB14-084 for 2 Sensor Occupant Classification System with c while vehicle was being serviced. When vehicle service was complete DTS had clients at vehicle and DTS hooked up CIII+ diagnostic computer to show that the Airbag System had no fault codes. DTS showed clients, using CIII in "data monitor", that the system performs as designed. DTS had c get in and out of the front passenger seat to test the PABI light and it set each time. DTS had c's wife go for a road test with DTS to test PABI light during road test. The passenger air bag indicator light remained off and the passenger air bag remained armed. During road test DTS had CIII hooked up and in "data monitor" showing that the OCS sensors were activated and the passenger airbag was always armed during the road test. c had advised the DTS that when C's wife is driving and c is in the front passenger seat there has never been an issue with the passenger airbag light coming on. C's wife is very slight of build and weighs 102 lbs. Both C and C's wife appeared to be satisfied with DTS review and assistance. C's wife is still very concerned and uncomfortable with the PABI issue and past experience.

Re: 2014 Nissan Sentra / V N: 3N1AB7AP3EL[redacted]

Dear [redacted]

We sincerely appreciate you taking the time to contact Nissan regarding your situation. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

Nissan carefully considered your request during a review of all available facts pertaining to your situation. Based on the vehicle repair history, Nissan offers to voluntarily repurchase or replace this vehicle.

In order to coordinate the repurchase of your vehicle, Nissan needs to know the particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me as soon as possible, as they will be needed to make a detailed offer:

Make Public

- A legible copy of the vehicle's current registration or title(if in your possession)
- A copy of the purchase contract for the vehicle
- A payoff confirmation statement from your lienholder(10 day payoff referencing account number, collateral, amount of interest you pay per day, and overnight payoff address)
- A payment history from your lien holder

Please return the requested information to me via fax: (615) 967-2244 or scan and email. We anticipate completing the repurchase within 2 to 4 weeks from the time of your acceptance. Please note: supplying the requested documents does not indicate your acceptance of the offer; you will have a chance to review the fully detailed offer before making a decision.

If you decide you do not want the repurchase that you requested, Nissan would be willing provide you with a settlement for $3,000 00 instead of the repurchase or replacement. This means that you will retain ownership of the vehicle. In exchange for this check, you will sign a Confidential Settlement Agreement and Release of Nissan North America, Inc., all Nissan entities, dealers and suppliers, though all warranties will remain in effect.

If you have any questions you are welcome to call me at (989)497-8959, though email is preferred at amanda.simcox@nissan-usa.com. I am generally in the office 8 a.m. – 5 p.m. EST Monday-Friday.

Sincerely,

Amanda Simcox

Make Public		**Created By: Michael Bardwell (11/5/2014 1:04 PM)** ARBS placed outbound call to c at [redacted] ARBS and c discussed DTS inspection. C stated that c is still concerned that with the passenger not making significant changes to their seating position that the airbag light may go on or off. ARBS advised c that the airbag system is constantly checking the status of the passenger to determine if the deployment of an airbag is safe. ARBS advised c that in any accident that the seat belts are going to be the primary restraint system. C understood. C stated that c would like to do some more research regarding the systems. ARBS understood and agreed. ARBS advised c that should c have any further questions, to feel free to contact ARBS directly. C thanked ARBS and call ended mutually. ARBS closing case.
Make Public		**Created By: Michael Bardwell (11/5/2014 12:44 PM)** ARBS received the following inspection report from DTS-Tim Zingerman: DTS met with c and c's mother. C explained issues with the OCS as it sometimes came on with c's 150 lb. mother, or her husband, who was not more than 180. The customer is 140 lb. DTS had c sit in the passenger seat the whole time and the light never once came ON during the static test. DTS explained what NNA has in the new bulletin and that c's mother and husband could be in the teeter zone, small adult size. DTS used C3+ and checked for codes. There was a code in Past but it is one from after the OCS is updated (but not erased). C had the latest update in May-14. DTS used a 35 count water bottle package as a child size test (underweight). The OCS light came ON as expected. DTS showed c how the status changed from ON to OFF when c got out and showed it responded quickly. DTS explained that the system was sophisticated enough to know what is in the seat and that it could change from Light OFF to ON and back if the system saw a change in weight or seating position. DTS also explained if the passenger got in after the key was already ON, the system could miscalculate. DTS explained how the driver would need to key OFF, then back ON to recalibrate. DTS found no malfunction so no repair is suggested.

Make Public		**Created By: Michael Bardwell (10/29/2014 12:07 PM)** ARBS notes DTS-Tim proposed an inspection date of 3-Nov-14 at 1000 PDT ARBS placed outbound call to c at [redacted] ARBS confirmed appointment with c and that passenger will be available for appointment. ARBS advised c that ARBS will plan on following up with c on 5-Nov. C thanked ARBS and call ended mutually. ARBS placed outbound call to dlr and spoke with SA-Renee and confirmed appointment with dlr and rental availability should c need one. ARBS confirmed DTS inspection.

Terms to be carried out no later than 30 days post date of this letter. See attached for review.
Make Public		**Created By: Michael Bardwell (10/14/2014 9:39 AM)** ARBS notes the following repair history summary: 2 visits, 1 repair and 3 days down passenger airbag sensor (first visit recall performed, second visit no duplication); 1 visit, 1 repair and 9 days down for brake booster; 1 visit, 1 repair and 2 days down for windshield crack; 1 visit, 1 repair and 1 day down for burnt plastic smell and; 1 visit, 1 repair and 1 day down for A/C smell. ARBS does not feel that repair history has been excessive. ARBS submitted MRF Reply to BBB via fax advising that NNA is not in a position to repurchase/replace veh at this time and that NNA will continue to honor all applicable warranties. ARBS sent email to BBB-Danny advising that ARBS only notes 2 visits for airbag concerns and would be willing to send out a DTS to inspect veh. ARBS setting follow-up to 28-Oct pending update from BBB.

Make Private	✓	**Created By: Karen Walker (10/6/2014 11:35 AM)** RCAS KW placed call to C at [redacted] C states C has taken vehicle to DLR about 4 times. C states airbag light does not have concern all the time. C states DLR is test driving for 5 minutes, but sometimes goes 2-3 days without concern. C states C would rather be left without car a few days for repair than left without airbags. C states concern occurs for mother and husband, both of which are heavier than what DLR said a light passenger would be. C states C also wanted to advise DLR also scratched the steering wheel during one of the visits. C states C is worried the steering wheel will starting pealing. RCAS KW explained RCAS KW will have to discuss damage with DLR as DLR is independently owned and operated. RCAS KW explained RCAS KW will research concern and follow up with C.

crr-fs received a call from c.
c stated onset of the c would like to speak with the supervisor or the manager.
c stated this is the second time calling NCA about the passenger airbag.
c stated after campaign has been perform c still having issue with the airbag and c said the DLR is acting very rude.

crr-fs informed c that crr could check for available supervisor but will have to get information from c to assist c and if needed will escalated the case to the right person who may be able to assist c. c agreed.

crr-fs verified/updated c's address/phone number/email:

[redacted]
Bakersfield, CA [redacted]
USA
[redacted]

crr-fs asked c:
WHEN DID C BRING THE VEH? c said two days ago and c said the DLR treated c unprofessionally.

NAME OF DLRSHP: NISSAN OF BAKERSFIELD

NAME OF THE SERVICE PERSON IN THE NISSAN DLR: SA-Rene

HOW C WOULD LIKE TO BE ASSISTED?
c stated c wanted to get the veh fix.
c stated the DLR could not fix the issue.
c stated this is not c's fault but c stated the DLR treated c as if c's the one causing the issue.
c added the dlr usually keep veh clean but c said last time dlr put oil in the passenger seat and the steering wheel has a long scratch on it.
c stated the dlr did clean the seat but cannot do anything with the steering wheel and advised c that c have to bring it to somewhere else because dlr is not doing the repair on the steering wheel.
c stated this is a new veh and it is dlr's fault therefore c said c should be responsible to pay to fix the steering wheel.

CRR-FS informed c the case will be escalated to rcas for review and c will get an initial call within the next business day.

crr-fs verified the best number to reach c. c said [redacted]

CRR-FS offered further assistance, c declined.
CRR-FS provided name, extension and file number.
crr-fs escalated the case to rcas veh concern/ DLR concern.
crr-fs exiting the case.

c said that she's having an issue with the air bag even if after the campaign has been performed.
crr-la acknowledge c.
crr-la checked and was able to verify that there's no open campaign and the campaign for Nissan Occupant Classification System Module Reprogramming is already closed.
crr-la reffered c to the dealership.
crr-la advised c about the replacement warranty that it woudl be for 12months or 12000 miles (after the campaign has been performed) which ever comes first.
c refused to be transferred to the deaelrship to set an appointment.
c also asked about the coupons that was promised to her upon purchasing the vehicle.
crr-la advised c that nissan is no longer sending coupons and advised c to contact dealership.
c said that she was advised c to contact NNA.
crr-la advised c that crr dont have coupons. crr-la used SOP 3.22.
crr-la explained to c that they need to contact dealership.

Nissan North America, Inc. would like to acknowledge receipt of your letter regarding the above referenced vehicle. We have performed a careful analysis of your client's case, and at this time, we would like to resolve this matter amicably.

We thank you for bringing the matter to our attention. Nissan North America, Inc. is extremely interested in satisfying its customers like [redacted] and, in the interest of resolving this matter cordially; we would like to offer your client the following option:

1) The services of a factory representative (Dealer Technical Specialist) to come inspect your client's vehicle and ensure that all current warrantable concerns are repaired. A rental vehicle would be provided during this inspection (less fuel and insurance). In addition to this, as a gesture of customer satisfaction, we would also like to offer your client $5,000 00 inclusive of attorney fees as settlement, and Nissan North America would continue to honor the terms and conditions of the New Vehicle Limited Warranty;
2) A replacement vehicle (substitution of collateral for another vehicle with similar MSRP) as settlement;
3) A repurchase of this vehicle under CA lemon law as settlement.

Please let me know of your client's response to our settlement offer.

C stated that C is upset at this point that everyone at NNA seems to think they have found a solution to C's problem.
C stated C does not want to through more parts and labor at the vehicle.
C stated an amicable solution would be to buy the vehicle from C or put C in another vehicle same make and model and C would completely satisfied.

C stated that if neither of those two resolutions are met C will get attorney and pursue lemon law.

RCAS told C that RCAS would look into vehicle repurchase and get back with C on thursday.
C thanked RCAS for assistance on this case.

Jon

Sorry , I changed my phone number . Here is my new one [redacted]
In regards to a part being ordered for my car ... That is news to me . No one got back to me with a next step after I sent the videos of the problem that Nissan wanted .

Make Public

Unless I get a more satisfactory resolution in the next week ...By the end of next week (sept 19) my attorney will file papers on my behalf with the state of Connecticut lemon law provision . At this point my patience with this car has run out . There is no doubt that Nissan is always in a hurry to close out my case as if a remedy has been found , and when the problem arises again I have to go through the hoops and contact them and open a whole new case . I have done all that was asked of me , even video recording the issue . I can no longer wait and put my passengers safety at risk assuming that despite what the warning indicator says , my airbag is indeed actually working .
If Nissan truly wants this issue to go away they need to buy me out of this car or put me in another . When whatever parts u order comes in , I will drop off my car and keys and u can keep it , I will no longer risk driving it even though it only has 10k miles on it . As u can see , we have not driven this car much since we have never felt completely safe in it !
I have 30 videos of this problem happening , 2 are up and live on vimeo.com and YouTube , all 30 will be uploaded next week . I have also filed a complaint with the national highway and traffic safety administration .

As u know , I have been very patient in dealing with this issue for about a year now and I have never wanted to be a difficult consumer . But at this point my patience have run out .

I do know this for sure , this is my last Nissan !
Thanks for your help I don't blame you or Decormier Nissan for these continuing issues , that falls squarely on Nissan

Dave,

There are two errors on the repurchase letter that I see. I assume it didn't include my auto payment made on 9/27/2014

Payoff through 10/12 is 7829.51.

Interest paid was $296.13, not $278.86.

Can this be corrected? I reattached the payment history letter. Do I need another payoff letter?

Make Public		**Created By Carrie Fay (4/15/2015 2 57 PM) Last Modified By Carrie Fay (4/15/2015 2 57 PM)** Mother, Norma is back in US and address updated in case. Morley updated on repairs and to reschedule for surrender. Case is closing in SF.
Make Public		**Created By Carrie Fay (4/15/2015 1 32 PM)** RC called daughter for C (Norma Lees) address to send surrender package toher. RC also reached out to dealer for it. Will followup tomorrow. New Morley case # [redacted] prior case # was [redacted]
Make Public		**Created By Carrie Fay (4/14/2015 3 31 PM)** RC called and spoke with Customer's daughter and explained the owning of two vehicles. After a long conversation she understands but feels mislead by dealer, RC expressed the need to just move forward and get me her mother's address in Jamaica to send a package out to her asap. C is working on that. Dealer called back today, Sales Manager, Dan Hoffenberg and is guaranteeing repairs to be completed on surrender vehicle by 4/24 and is wanting to schedule surrender. He is also getting an updated payoff for so checks can be rewritten. RC is opening a new VSPC case and will refer to the closed. RC will followup tomorrow on all aspects.
Make Public		**Created By Carrie Fay (4/13/2015 3 22 PM)** ARB has advised RC to make two more phone attempts to speak with C daughter and try to locate owner to send new offer due to repairs taking longer than the payoff approved to send to lender. If no progress is made, a close account letter will be sent to daughter. RC will followup tomorrow t
Make Public		**Created By Carrie Fay (4/13/2015 11 45 AM)** Contacting ARB on what direction to take on this case. Repairs still not completed and customer out of country. Daughter has new vehicle and basically owns two cars now. She will not speak with RC, hung up when RC explained the process and asked her for contact information on her mother, the customer.
Make Public		**Created By Carrie Fay (4/10/2015 3 31 PM)** *** [Added after the case is closed] *** Dealer agreed to repair vehicle by surrrender and he is still waiting for parts. Case may have to be closed in VSPC pending repairs completed. If that occurs, RC will need to send out new offer with updated payoff to C. RC explained situation to dealer. RC is checking on what other path can be followed to surrender and satisfy car condition for auction post surrender.

Dealer corrected MOC buyer order, case into QC second time.

Make Public
Created By Carrie Fay (3/16/2015 2 33 PM)
Dealer was instructed to correct 2nd moc buyer order to include reduction of rebate/incentives (their request after offer was signed) and include two warranties that customer had on prior invoice. Dealer sent a new one in today and it has a different rebate than last week, and invoice price does not match base price now. RC called dealer again for another correction. If this is not resolved by Friday of this week, a repurchase will have to be executed in the efforts of moving this old case forward.

Re: 2013 Nissan Pathfinder / VIN: 5N1AR2MN9DC[redacted]

Dear [redacted]

We sincerely appreciate you taking the time to contact Nissan regarding your vehicle. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

Nissan carefully considered your appeal and after a review of all available facts, Nissan offers to voluntarily assist you with your request.

In order to complete the process, Nissan requires particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me as soon as possible, as they will be needed to make a detailed offer:

- A legible copy of the vehicle's title(if in your possession) or title application
- A legible copy of the vehicle's current registration
- A legible copy of the driver's license for all vehicle owners
- A copy of the purchase contract for the vehicle
- A payoff confirmation statement from your lienholder(10 day payoff referencing account number, collateral, amount of interest you pay per day, and overnight payoff address)
- A detailed payment history from your lien holder

Please return the requested information to me via fax at [redacted] or scan and email. We anticipate completing the process within 2 to 4 weeks from the time of your acceptance. Please note: supplying the requested documents does not indicate your acceptance of the offer; you will have a chance to review the fully detailed offer before making a decision.

If you have any questions you are welcome to call me at [redacted] though email is preferred at amanda simcox@nissan-usa com. I am generally in the office 8 a m. – 5 p.m. EST Monday-Friday.

Sincerely,

Amanda Simcox

c called in because of the many issues on c's vehicle.
crr-my verified c's account.
c claimed that their vehicle is a lemon because of the many problems on it.
c mentioned that c had taken the vehicle to the dealership several times. c mentioned that when they're doing the testdrive, a little rail on the roof came loose but that was repaired by the dealership. The passenger air bag has an issue too, the dealership said that c is sitting wrong and the dealership reprogrammed it. The sensors have been repaired also. The seat has been worked for 3-4 times. The back door doesn't close properly and has been realigned at the body shop and c thinks that there might be a factory issue. The transmission also has been replaced once and reprogrammed twice.
c consulted the dealership last 3 weeks ago and talked to chief service guy michael regarding the issue on the vehicle
according to c, c's paying too much on the vehicle.
crr-my told c that this is beyond crr-my's empowerment and will escalate the case to rcas for further review and will contact c by the end of the next business day.
c agreed and wanted to be contacted at [redacted]
crr-my asked c on how would c like to be assisted by nissan
c said that c wanted to trade the vehicle into a 2014 pathfinder
crr-my advised that eventhough the case will be escalated to rcas for further review, there is no assurance that the request will be approved.
c understood.
crr-my did a recap and offered further assistance
c declined
crr-my provided name, extension number and case number
crr-my forwarding case to rcas

C stated that C would like to have a reference number that he called in today (9/10/2014) reporting that his veh is currently being serviced regarding his airbag at the DLR.
C asking what can NNA do for C about his veh
CRR referred C to the DLR since veh is @ the DLR and we dont have any records of it that the airbag has an ongoing issue.
C asks for a supervisor
CRR asked why C wants to talk to a supervisor
C wants to find out option on how C can have the veh fixed.
CRR adv C that veh needs to have a diagnosis from the DLR
C stated that everything has to be replaced
CRR adv C that veh still has to be diagnosed by an authorized DLR
C still insisting what would be the next step if his concern has not been resolved
CRR adv C that CRR cannot provide any information because it is a case to case basis and resolution depends on the diagnosis by the DLR. CRR adv C that there should be a documentation on the case as a proof that the veh is currently having an issue.
C asked for the extn, case, and CRR name that has been provided earlier in the call
C stated that C will callback

Make Public		**Created By Adrienne Gehrke (12/2/2014 5 27 PM)** Arbs sent email to C's Acting Atty Barry Edzant Hello Mr. Edzant, Per our telephone conversation, Nissan has agreed to adjust the mileage offset to be taken at 11,000 miles. This offer was made in the spirit of compromise and for settlement purposes. As stated in my previous offer Nissan based our mileage offset at 21,845 miles, the mileage on the vehicle at the first actual complaint of vehicle stall asserted by your client. For your convenience, I have noted the revised repurchase offer figures below: Downpayment minus rebate: -$3,574.62 Subsequent payments made: $9,043.45 Registration Renewal Fee: $241.00 Subtotal of total payments made: $5,709.83 Less Reasonable Allowance for Use: -$1,884.67

Arbs rec'd call from Barry Edzant who is assisting Delsack & Associates while Kurt Delsack is ill.

Atty requests that the mileage offset be taken at 7 miles due to recall at Recall P3212 . Arbs stated that there were no active claims on the recall for the ECM reprogram.

Atty request mileage offset at 4882 mileage Recall P3212. Arbs stated there were no active claims on recall

Arbs offered to take usage at 11,000K , meeting in the middle in the interest of settling the case. Atty stated that Atty "was looking for a Lemon Law case to make new law and this was a slamdunk" Arbs maintained offset at 11,000K. Atty requests offer in writing to Atty email

Arbs responded to Atty's email:

Hello Mr. Delsack,

Nissan is offering to repurchase the vehicle due to the stalling concern, not the OCS recalls that you suggest. Neither Recall PC213 or PC1405 had an active complaint when the vehicle was presented. The only active complaint for the Airbag light is for inconsistency at 23,710 miles and no problem was found. There has never been a defect discovered and repaired related to the Airbag system.

Considering that a recall performed did not have an active non-conformity at that time, Nissan's offer will not change.

Let me know if your client accepts,

Arbs rec'd email from C's atty:

Adrienne: Sorry about th e-mail. We've switched servers which has caused several e-mail problems.

Re your offer, thank you, but we are in considerable disagreement as to the non-conformity which should be the reason for the repurchase. It isn't because the client's statement that she "believes the car is going to stall." Rather there are 4 recalls and opportunities to repair serious safety related issues including the defective Occupant Classification System (OCS) (SEE attached NHTSA Recall Notices 14V138000 and 13V069000) Engine Control Module (ECM); defective engine (SEE attached NHTSA Service Bulletin NTB - 14-051); and defective airbag sensor. The first of which repairs occurred at 4,882 miles.

Accordingly, the mileage fee should be $877.13 and not $3,742.22. Your offer is therefore deficient by $2,865.64.

Kindly review and advise as soon as convenient.

RE: [redacted]
2013 Nissan Versa/ VIN: 3N1AB7AP0DL[redacted]

Dear Mr. Delsack:

Nissan North America, Inc. would like to acknowledge receipt of your letter regarding the above referenced vehicle. We have performed a careful analysis of your client's case, and at this time, we would like to resolve this matter amicably.

We thank you for bringing the matter to our attention. Nissan North America, Inc. is extremely interested in satisfying its customers like the [redacted] and, in the interest of resolving this matter cordially; we would like to offer your client the following options:

1) The services of a factory representative (Dealer Technical Specialist) to come inspect your client's vehicle and ensure that all current warrantable concerns are repaired. A rental vehicle would be provided during this inspection (less fuel and insurance). In addition to this, as a gesture of customer satisfaction, we would also like to offer your client $5,000 00 inclusive of attorney fees as settlement, and Nissan North America would continue to honor the terms and conditions of the New Vehicle Limited Warranty;
2) A replacement vehicle (substitution of collateral for another vehicle with similar MSRP) as settlement;
3) A repurchase of this vehicle under CA lemon law as settlement.

Please let me know of your client's response to our settlement offer.

Make Private	✓	Created By: Chris Felts (9/19/2014 4:23 PM) | Last Modified By: Chris Felts (9/22/2014 10:38 AM) RCAS called C at [redacted]t 420pm RCAS states that NNA is not able to assist in mileage reimbursement but will offer $250 service credit to keep C loyal to Nissan brand RCAS goes over terms and conditions : A service credit can be issued at the rate of once per VIN per customer. If the customer has received a service credit according to the VIN history, the customer IS NOT ELIGIBLE for a service credit. The new owner of a pre-owned vehicle IS ELIGIBLE if there is no prior history indicating the "new owner" has received a service credit. A service credit debit card CANNOT be issued to reimburse a customer for previous services. Valid at any Authorized Nissan Dealer/Infiniti Retailer. Approved for any service (valid only if genuine Nissan/Infiniti parts are used), or for the purchase of any genuine Nissan/Infiniti parts or accessories. This offer is valid until the expiration date, six months from the date that the service credit is offered to the customer. The debit card can be used until the balance reaches "0" or until the expiration date. If there is a balance at the end of the 6 month term the balance will be forfeited. The Service Credit may NOT be sold to another VIN. C agrees to terms and accepts Service Credit RCAS states that rcas will process and C thanks rcas for help and call ends mutually

c called in for a dealership complaint.
crr-my verified c's account and updated c's home phone.
c stated that c had receive a campaign notification and c had contacted the nearest nissan dealership which is the central nissan for an appointment but that dealership informed c that they don't have the part and would take about until october for the dealership to have the part.
c mentioned that c can't wait that long and called another nissan dealership which is carlock nissan and called them 2nd week of august to set up an appointment and was told by the dealership that c must bring the vehicle august 25 and c will be also given a rental vehicle.
c agreed and when c came august 25, the dealership told c that the repair will take approximately 8 hours or more and the dealership will not lend c a vehicle.
c stated that c can't leave the vehicle so c set up an appointment again.
c left the vehicle on the 27th and picked up the next day which august 28.
c said that c must be entitled of a compensation because c's vehicle has accumulated additional 500 miles for just bringing it to that dealership.
and also c would like to file a dealership complaint on the central nissan particularly to service coordinator Brian Koffner.
according to c, service coordinator Brian was rude to c when c had consulted the dealership to set up an appointment.
crr-my apologized and informed c that this is beyond crr-my's empowerment and will escalate the case to rcas for further review.
c agreed and wanted to be contacted at [redacted]
crr-my also explained to c that since c has a specific request to be compensated, crr-my doesn't guarantee to c that the request will be approved.
c understood.
crr-my did a recap and offered further assistance
c declined
crr-my provided name, extension number and case number
crr-my forwarding case to rcas

RCAS-MP contacted C @[redacted]
RCAS-MP inquired about C's concern.

C states C has been having some concerns with the air bag light and the rear view camera when on reverse.

RCAS-MP asked if C has been to the dealership in regards to the concern.

C states C has but the issue is intermittent and the dealer has not been able to do anything about it.

RCAS-MP advised C that in order to find a resolution for C's concern the dealer has to replicate the concern or other wise it will be NNA position that the vehicle is operating as design.

C states that not good enough because is a critical safety issue.
C states C is recording the incidents when it happens.

RCAS-MP asked if C has showed the videos to the dealership.

C states C has not.

Make Private ✓
RCAS-MP advised C to take the vehicle back to the dealership and have the dealer inspect the vehicle and to also show the SM the videos.

C states it makes no sense, because the problem is intermittently and there is no chance that C will be able to demonstrated to the dealership.
C states it should not be on C to go to the dealership 50 times.

RCAS-MP advised C that in order to move forward C has to take the vehicle to the dealership.

C states C will be contacting C's lawyer in regards to this concern and RCAS-MP has been of little help.

RCAS-MP reiterated that C needs to take the vehicle to the dealer in order to move forward with C's case.
RCAS-MP explain to C again that order to find a resolution for C's concern the dealer has to replicate the concern or other wise it will be NNA position that the vehicle is operating as design.

C states C RCAS-MP is repeating itself and its been of no help.
C states C will be contacting a lawyer.

RCAS-MP offered further assistance; C declined further assistance at this time.
RCAS-MP thanked C for contacting NNA CA, and advised C to please contact NNA CA if NNA CA can be of further assistance.

C said c's veh had a campaign on the airbag and then c took c's veh to the dlr to have it performed. c said, until now, c's veh is having an issue with the front Passenger airbag that goes off, c said the dlr tried to fix the veh three times already but the issue wasn't resolved yet. c said c was assisted by SA-Tom and was advised to call nna ca already to ask for further assistance.

CRR-MS apologized to C and advised C that C's case will be forwarded to RCAS for assistance.

CRR-MS advised C that C will received a call by the next business day before the business day ends by an RCAS specialist.

CRR-MS offered further assistance. C declined.
CRR-MS gave C name, extension number and case number.
CRR-MS forwarded case to RCAS.
CRR-MS leaving the case open

I apologize for the delay. There was some confusion about the VIN provided, and the dealership determined that they had provided both of us with the wrong VIN. This has been corrected, but this caused a delay in paperwork. I sent the necessary paperwork from NMAC for the dealership this morning to fill out their portion and return to me. As soon as they return their portions, I will email the documents for your signature.

ARBS rec'd call from c. ARBS apologized for having missed the call earlier and c apologized for having missing ARBS' call because he was in a meeting. ARBS and c laughed about how everyone misses each other because of meetings and phone calls these days.
ARBS confirmed that c got email about the $1,710. C states he thinks this is more than fair and will agree to that.
C states he has some questions. C wants to confirm that nothing about his loan will change. ARBS confirmed that his V N on the loan will change, but nothing else will change, so it will be like he has been paying on the new vehicle all along. C thanked.
C would like to know about the paperwork. ARBS advised that ARBS will send some paperwork and NMAC will send some paperwork with instructions. C will have to send all signed documents to ARBS and then overnight the documents to NMAC. C agreed to do this.
ARBS explained the meeting with Morley. C states he is in the middle of playoffs with the Orioles, so he wouldn't be able to meet with Morley right now. ARBS asked about in 2-4 weeks. C states he isn't sure. ARBS advised that when Morley calls the c, the c can discuss and ARBS knows Morley can overnight the docs to the c for signatures so Ms. [redacted] can complete the process if Mr. [redacted] is unable to make it. C states he would like to know more about the buyback.
ARBS explained that we do purchase price minus usage minus lien.
C states there are leather seats and extended warranty and window tinting. ARBS confirmed Nissan extended warranty plus tint and leather seats would be refunded - they would all be refunded if confirmed as installed by dlr.
C states experience with Jenkins Nissan was terrible. They lied to the c's about 5 or 6 times. What if they went to another dlr to get another veh?
ARBS explained SOC with 50% usage
C states the dlr talked them into installing leather seats instead of buying the leather package.
ARBS explained that we would go for factory installed leather because we are leery about aftermarket additions when we can provide factory options.
The veh is in Winterhaven, FL and they would prefer to do an SOC at somewhere closer to there, such as Hill Nissan.
C states he wants to see what his step daughter wants to do, wanted to get more information from ARBS.
C states the DTS restored his faith in Nissan. ARBS thanked and understands.
C states he builds muscle cars in the winter. C states the technology is just so ridiculous these days.
C states the dlr called him and told him to start his payments over.

C states he appreciates ARBS' time and will find out what the c's step daughter wants to do. ARBS thanked and asked that once the c knows, just to let ARBS know so ARBS can advise the dlr. C thanked. The call ended mutually.

DTS states he took a leaf out of the blower.
He does have a radio concern - communication issue between radio and meter, replacing both
OCS - principle driver is daughter - TSB out for this one - replaced OCS and sensors

Make Public

This makes 4 repairs to OCS, 6 repairs to radio, etc

DTS and ARBS agree that NNA will be bought back.

Get the RO from the dlr. 20k+ miles on the vehicle

ARBS spoke to DTS:
C is Oreoles field scout
High profile case

Make Public

chances of us fixing the car are good, but the c's set goal is to buy back.
Daughter is very vocal and is pushing the father's buttons
Dlr is in a battle right now with SD. Hired a new person and there is a disruption.
There are a lot of left open work orders. This is so they won't get bad surveys.
DTS would like copies of the RHR/ROs because after discussing the days down, the dlr should not have had the ROs open this long for these.
ARBS and DTS discussed other cases.

ARBS rec'd email from DTS:

Mandy,

I don't foresee a problem accommodating the C, but we need to know where they would prefer their DTS appointment. The Orlando market is covered by Adam Crow. Please advise if the C (a) stays with my original scheduled DTS appt offer for Jenkins Nissan on 9/23 @ 10 AM or (b) choses a Orlando Nissan dlr. If C choses the Orlando market, please contact Adam Crow with the specifics so he can schedule.

Thanks,
Tom Osborn
NNA SER DTS

ARBS called c @ [redacted] to advise that the 9/23 10am appt would need to be at Jenkins. The date would have to be changed if we move to the Orlando dealer. ARBS advised that ARBS wanted to check with the c to see if c wanted ARBS to request an Orlando date. C states she will keep the 9/23 10am appointment at Jenkins Nissan. C states her mom can then come with her. ARBS thanked. The call ended mutually.

ARBS called c @ [redacted] to advise of DTS inspection. Asked for SM. Transferred.
Left vmx for SM-Rob with date, time, c, V N, and need of loaner vehicle. Also left DTS name and ARBS contact information.

ARBS emailed DTS:

Tom,

The MVDN was filed with Jenkins Nissan and no mention of Orlando at all. Apparently the step father is the owner. The vehicle has never been to the Orlando dealership.

With that said, the c has stated she will meet you at Jenkins on 9/23 @ 10am.

I left a detailed voicemail for SM-Rob at Jenkins advising of the date, time, customer, vehicle, and need of loaner vehicle.

Please let me know if you need anything on this case before the inspection.

Thanks!

Thanks,

ARBS called c @[redacted]o advise that we rec'd MVDN and would like to meet with c and right front passenger on 9/23 @ 10am. Spoke to step-daughter, the driver of the vehicle. Advised of need for meeting with c and passenger. C states she lives in Orlando and would like to meet in Orlando. C states 9/23 is her only day off. She will meet with DTS if he has to meet at Jenkins but would prefer to meet in Orlando. ARBS will contact the DTS and get back to c. C thanked. The call ended mutually.

DRTS in receipt of MVDN, signed by [redacted] sent via Priority Mail Express, tracking number [redacted], received on September 12, 2014. The letter is attached the case for review.

Pursuant to the Florida Lemon Law, notice is given to the manufacturer as follows: the vehicle has been out of service at least 15 days, 3 or more repair attempts have been made to repair same substantial defect. Description of continuing defects: "display screen randomly goes blank, will not reset until car is shut off + back on. Pass air bag light on while adult is in passenger seat". C requesting NNA make a final attempt to correct the continuing condition. Selling and servicing dealership is Jenkins Nissan of Lakeland, FL.

Additional documents included with letter are Repair Orders and Repair Order History.

Call Made: 11/4/2014
Phone #: 4803961500
Spoke with New Car Sales Manager Brian Gibson
Reason:
ARBS proposed replacement deal to SM and asked for assistance in finding suitable replacement for C.
ARBS verified SM's email address and will send SOC INstructions to DLR and Invoice to SM.
SM notes LH appears to be BMO Harris Bank.
ARBS explained SOC vs Refinance deal, notes either is acceptable to NNA, depends on LH (SOC is preferable.)
SM thanked ARBS for deal and will begin search for like vehicle and contact C to discuss.
SM will send ARBS a VIN for approval, or contact ARBS with any future questions.

rcas calling [redacted] at 6:00 p m. cst
rcas spoke with c and inquired if c has experienced concerns since veh pick up
c stated yes. c stated c was driving for about two miles, more than 30 seconds, with someone in pass seat and airbag warning light came on. c stated c took video, as SM requested. c stated c is emailing video to SM now.
rcas understood. rcas advised is unable to say what next steps will be, rtlr must advise. rcas advised RHR review was completed. rcas advised unfortunately, Infiniti is not offering assistance in repurchase or replacement of veh.
c stated c has done everything c has been told. c stated Lemon Law should apply because veh has been down 33 days with six visits for same concern. c stated c has been inconvenienced. c stated c has been given loaner, but loaner is not comparable to c's veh.
rcas advised cannot speak to lemon law, rcas is not trained in it. rcas advised c may contact BBB to review qualifications. rcas advised all concerns and records with rtlr were reviewed. rcas advised if veh is taken back to rtlr, request can be reconsidered.
c stated rtlr is just going to tell c concern cannot be duplicated
rcas advised if rtlr is unable to find failed component, no repairs can be recommended
c thanked rcas
rcas advised c may contact rcas if c takes veh back in to rtlr
c thanked rcas, c ended call.

EXEC-EB received the following e-mail from C:

"Elizabeth,

Since I have not heard back about where to send payment, I have gone ahead and sent payment to Infiniti Financial Services. That was the instruction on the statement.

t will be delivered no later than 10/15 (tomorrow), but it is electronic so will most likely post today.

I have annexed hereto a [redacted]saction details from Bank of America account number [redacted](I have no access to a fax at the moment).

Make Private ✓ Please note that this payment was made as part of an agreed upon resolution of this matter involving disputed "excess wear charges" and that it was made with the understanding that:

1. There has been no credit bureau report made by Infiniti or any other entity connected with it. This matter was timely disputed and any delays have been on Infiniti's side (my attorneys will verify next week);

2. You will refund the remainder of the Excess Wear charges in the amount of $108 plus $9.72 taxes on that. When you are ready to process let's confirm mailing address since there have been problems in the past.

Appreciate it if you could confirm.

Thanks for your help with this.

Best,

Rudy DeFelice

EXEC-EB placed outbound call to C[redacted]
C stated C has parked the veh and C will not be driving the veh again
C stated C has rented a veh
C stated the airbag light came back on.
C stated C is going to let C's lawyers figure out to what to do
C stated EXEC-EB has been rude
C stated EXEC-EB will not provide EXEC-EB's last name or speak with EXEC-EB's boss
C stated EXEC-EB advised EXEC-EB is an exec and C cannot get past
C stated how can that be
C stated EXEC-EB advised C's veh is safe and the airbag is secondary
C stated C would like to speak with EXEC-EB about that today

EXEC-EB advised before EXEC-EB can speak with C, EXEC-EB needs to have confirmation C is not recording the conversation.
C stated C is not
EXEC-EB advised EXEC-EB does not giver permission to be record and if C turns on a recording device, EXEC-EB requests to be notified and will have to terminate the conversation.
C stated C does not give permission to be recorded either
EXEC-EB advised C is not being recorded.

EXEC-EB stated EXEC-EB does care about C's family and that is why EXEC-EB followed up with C today.

EXEC-EB advised EXEC-EB has stated EXEC-EB does understand why C does not feel safe, but the fact of the matter is the airbag is secondary.
EXEC-EB advised EXEC-EB cannot change that info and it is printed in C's OM.

C stated EXEC-EB stated EXEC-EB does not have a boss and EXEC-EB is an exec
EXEC-EB advised EXEC-EB does have a boss and never advised C otherwise
EXEC-EB advised EXEC-EB's is not public faced and that is why C cannot speak with EXEC-EB's boss
EXEC-EB advised EXEC-EB is not an exec, but an exec specialist, who assist the executives with public faced concerns.

C stated that is not what EXEC-EB stated and C has the recording and transcripts of the recordings to prove it.
C stated C will send a letter to every exec.
C stated EXEC-EB will be named when C e-mails the execs
C stated EXEC-EB is too comfortable in EXEC-EB's job and does not think EXEC-EB can be fired.
C stated CEO-CG will be made aware of EXEC-EB's rudeness
C stated C will go to the next board meeting and speak when there is time allot for questions
C stated EXEC-EB has not dealt with someone like C who has the time and resources to get what C wants.

C reitarted EXEC-EB's rudeness and how EXEC-EB advised EXEC-EB has no boss, EXEC-EB is an exec, and airbag is secondary
EXEC-EB reiterated EXEC-EB's boss is not public faced, EXEC-EB assists the execs and the airbag is secondary.

EXEC-EB advised EXEC-EB would like to assist C and C is welcome to contact any of the execs, but EXEC-EB is C's POC
EXEC-EB advised if C has retained an attorney
C stated no
EXEC-EB advised EXEC-EB is just clarifying due to C's previous comments
C stated C has not retained an attorney
EXEC-EB advised if C does retain an attorney, EXEC-EB will be unable to assist C.

C stated how can that be if EXEC-EB is the only POC, does that mean Inf. will not assist C
EXEC-EB advised Inf. would need a letter stating C had retained an attorney and then someone from the legal dept. would contact C

EXEC-EB advised EXEC-EB would like to assist C, but C is not allowing EXEC-EB to be of assistance.
C stated what is EXEC-EB going to do
EXEC-EB advised EXEC-EB will have to discuss C's concerns with SM to see what has been done to C's veh in repair attempts
EXEC-EB advised EXEC-EB will have more info after speaking with the SM
EXEC-EB advised if C knew if a DTS had been involved
C stated C has no idea
EXEC-EB advised if C retains an attorney/records EXEC-EB will not be of further assistance.
EXEC-EB advised how would C like to proceed
C stated C would like EXEC-EB's assistance in resolving C's concerns.

EXEC-EB advised EXEC-EB will follow up with C in a couple of days.

EXEC-EB placed outbound call to C[redacted]
EXEC-EB confirmed C's veh was with C
EXEC-EB apologized for the frustrating situation
EXEC-EB advised EXEC-EB will follow up with C 10/06/2014 to ensure the light has not come back on.
C understood.

C stated C's biggest concern is that the dlr let C drive with the airbag not operating correctly
C stated Inf. does not care about C's safety
EXEC-EB advised Inf. does care and EXEC-EB understands why C would be concerned
EXEC-EB advised the airbag is secondary and that is why the rltr released C's veh
EXEC-EB advised if there was a concern with the seatbelt, which is primary, rltr would not have let C leave.

C stated C has an e-mail from the gov. stating the veh should not be driven with the airbag light on
C stated Inf. is telling C it is safe to drive with the airbag light on
C stated who should C believe
C stated Inf. is taking a risk with C's family
C stated Inf. does not care and no one is willing to help C
C stated C has been to the rltr 4x for the airbag concern
C stated it is a safety concern and EXEC-EB is telling C it is not a big deal

EXEC-EB advised EXEC-EB is trying to assist
EXEC-EB advised that it is why EXEC-EB wants to follow up with C 10/06/2014, to ensure the veh concern is resolved.
EXEC-EB advised Inf. does not want clients to feel unsafe.
C interrupted EXEC-EB and reiterated Inf. does not care about C's safety and is acting like it is no big deal

Make Private ✓
EXEC-EB advised EXEC-EB understands why C would feel unsafe and why it is frustrating.
EXEC-EB advised, per OM and warranty booklet, the airbag is supplemental
EXEC-EB advised seatbelts should always be worn.
EXEC-EB apologized that answer is not satisfactory

C stated C is done speaking supervisors, C would like to speak with someone from the top
EXEC-EB advised EXEC-EB is an exec. specialist and will be C's only POC
C stated C will speak with someone, even if C has to contact the board.
EXEC-EB advised C will be redirected to EXEC-EB
C stated that is horrible that the only person C can speak with does not care about C's safety
EXEC-EB advised EXEC-EB does and wants to assist C
EXEC-EB advised EXEC-EB understands why C does not like answer and why C would not feel safe, however the fact of the matter is seatbelt is primary.

C requested EXEC-EB's full name
C stated C wants full name, because the gov. wants names of people who are saying it is safe to drive a veh with the airbag light on
EXEC-EB provided first name and advised EXEC-EB can be referenced by case and phone#
EXEC-EB provided info

C stated C is not going to make payments on the veh if the light comes back on.

C stated EXEC-EB is being recorded
EXEC-EB advised EXEC-EB does not give permission to be recorded
EXEC-EB advised if C does not agree to terminate the recording device EXEC-EB will have to end conversation
C stated C lives in WI
EXEC-EB advised that does not matter, because EXEC-EB does not give permission to be recorded
EXEC-EB advised if C will terminate the recording device
C stated EXEC-EB and C's conversation is over and terminated the connection.

Per, EXEC TL-BP, EXEC-EB will follow up with C 10/06/2014 as promised but will confirm EXEC-EB is not being recorded.

ARBS rec'd email from BBB:

Mandy,

I just talked to Dr. Ward regarding the claim here. He says that a Nissan DTS inspected the vehicle and did some repair work on the 20th. He the airbag concern hasn't come up since, but he would like some more time to test drive the car before he closes out his claim all together. Would Nissan be willing to settle this claim for a "test drive period of 45 days"?

Let me know.

Thanks,

DTS Results:

I met with [redacted] today at Dick Smith Nissan to discuss and inspect their 2013 Nissan Altima. [redacted] stated that at times the passenger side airbag light will be illuminated with either [redacted] occupying the seat.

I had the opportunity to briefly describe the overall function and classification system to both [redacted] I also indicated the importance of seat position along with proper seating position to properly classify the individual occupying the seat.

Make Public

I stated to the customers that Nissan would be putting them in a loaner vehicle while I inspected their vehicle and make any repairs I see necessary. [redacted] requested a copy or something in print of the procedures required to reset the light and he would look it over. [redacted] also were clearly not happy with the operation of the PABL since the vehicle was new. They both feel the vehicle is not safe to drive in its current condition. I have attached a partial copy of NTB14–084 to the repair order for the Wards to review.

RO [redacted] mileage 19,171 DTS performed multiple pressure tests and seating tests along with diagnostics procedures utilizing Consult. At this time I have ordered a complete seat frame assembly.

All parts are ordered should be at the dealership by October 23 for installation into the customers vehicle.

ARBS called [redacted] to provide Monday, 10/20 @ 10am appt. Spoke to c. C checked his calendar. ARBS held.
C states the date will be fine.
C states he wants to emphasize one thing: the problem is intermittent. The problem will likely not show itself.
C states they have both been passengers with the problem. ARBS advised that we want to make sure that everything is the same so that if we can duplicate it, we are able to. C states his wife is 110 lbs and he is 160 lbs and it has happened with both of them. ARBS thanked for the information and will pass this along to DTS. C thanked. The call ended mutually.

ARBS called dlr @ 803.772.8700 to advise of DTS inspection. Asked for SM. Transferred.
Left vmx for SM-Duane advising of c name, VIN, veh, concern, DTS name, date, time, and need for loaner vehicle. Left ARBS contact.

Make Public

ARBS responded to DTS:

Tony,

Dr. Ward has confirmed that both he and his wife will be at the inspection on 10/20 @ 10am.

Dr. Ward wished for me to let you know that it is an intermittent problem, but both the c and his wife have experienced the light coming on. The c is approx. 160 lbs and his wife is approx. 110 lbs. I advised that even though it is intermittent, we will need to test drive with both of them in the passenger seat in order to attempt to duplicate it.

I left a message for Dwayne at the dlr, as he was unavailable, and advised him of the date and time, need for loaner, and the concern.

Please let me know if you need anything before the inspection!

ARBS rec'd vmx from c stating he appreciates ARBS calling so quickly and wanted ARBS to know that he is not blowing this whole thing off but he has a job at which he cannot talk on the phone, as he is with patients. Dr is now through for the day, though, and can take calls.

ARBS called [redacted] to advise NNA would like to send out DTS to inspect vehicle and go over current concerns. Spoke to c. C states he would like to know to what end this inspection would be.
ARBS advised that we would like to inspect before answering the c's request to repurchase or replace.
C agreed.
ARBS asked for the best day of the week to meet with the DTS for about an hour with the c's passenger.
Fridays afternoons would be best because he does not work. He does not work on Mondays either.
This Monday is not good because he has an appointment.
ARBS asked to confirm all concerns:
C states the only problem is the airbag light coming on intermittently. C states they went for the recall fix and that has not helped. They have tried to play nice with this but it is scary.
ARBS thanked and confirmed that the passenger would be there. C confirmed.
ARBS advised that ARBS will request a date and time on a Friday afternoon or a Monday and call the c back with the availability to confirm the c can accommodate it. C thanked. ARBS thanked. The call ended mutually.

RCAS-MP contacted C @ [redacted]
RCAS-MP inquired about C's concern.

C states the airbag light is not working properly.
C states C has been doing this for about a year with this dealership.
C states that for several months after doing the recall the airbag was fine but the concern is back.

RCAS-MP advised C that RCAS-MP has spoken to the dealer and has been advised that the vehicle is operating as it should.

C states intermittently the passenger light comes on and therefore the dealer has not been able to duplicate.
C states if an accident was to happen, the air bag will not come out.

RCAS-MP understood and advised C that unless the dealer duplicates C's concern there is not much that NNA can do.

C states the passenger in that vehicle is not safe.

RCAS-MP advised C that if C disagrees with C's dealership C can always go to a second dealership for a second opinion and NNA will always take the position of the most recent diagnosis.

Make Private ✓

C states it is a ridiculous rejection and a completely ridiculous statement.
C states neither Nissan or the dealer is acknowledging the fact that the vehicle is not safe.
C states C has 18 months left in the lease which mean 18 months of unsafe driving.
C states C would like to speak to a supervisor.

RCAS-MP advised C that RCAS-MP is the regional specialist for the area and the person in charge of the case.

C states C wants something to be done about this concern.

RCAS-MP advised C to report C's concern to NHTSA,
RCAS-MP explained to C that Nissan works hand to hand with NHTSA to track C's concern.
RCAS-MP advised C that all of our cases are coded by the tread coding act as required by the federal government.

C states C wants to speak to someone within Nissan to do something or else C will be contacting a lawyer.
C states C wants to speak to a supervisor.

RCAS-MP advised C that TL-Kalia or TL-Russell will be contacting C by the end of next business day.

C understood.
Call ends mutually.

Make Public		**Created By Kristina Rosas (10/29/2014 11 09 AM)** RC received VM from C asking that RC call C at [redacted] RC called C. RC and C discussed the straight repurchase offer, Nissan's involvement in replacement (none beyond providing VPP; C is free to handle when and how C wishes), timeline on closing, which is where C receives check, etc. C acknowledged all points, notes that this is consistent with what dealership told her, so C is now comfortable signing letter and retunring. Call ended mutually.
Make Public		**Created By Kristina Rosas (10/29/2014 9 28 AM)** RC took call from Ali at Lia Nissan. RC had same conversation as with Vincent. Ali is on the same page, and is going to get the customer into the new vehicle before month end. I did advise that that is all between he and the customer, but that she will not receive her refund check until the closing, which she will be contacted (within 10 business days) to schedule after signed offer received in my office. Ali acknowledged, and thanked RC for confirming everything for him; Dealership just wants to make sure they're doing everything they are supposed to, so there is no concern with NNA or C. RC acknowledged and expressed appreciation in that regard.
Make Public		**Created By Kristina Rosas (10/29/2014 9 08 AM)** Since C and RC have been communicating through email, RC emailed C to advise of conversation with Dealer, and noted that if this is in line with C's intentions, to sign and return offer. RC asked that if C has any questions, concerns, or needs further clarification on any portion of the situation, to please let RC know.
Make Public		**Created By Kristina Rosas (10/29/2014 9 00 AM)** RC took call from Vincent at Lia Nissan. Vincent advised that C was in to choose a new vehicle, and it is NOT the same trim level as current, so dealer advised they would use down payment (per his discussion with C) and VPP, and also a further discount they gave C, to sell her the Nisasn vehicle she DOES want. RC confirmed that if C isn't getting into identical vehicle, that this IS how we would handle her getting into replacement, and dealer is correct in what they are putting together. RC advised dealer of timeline for closing once C sends signed offer back, which dealer acknowledged, and daeler noted that C would get into new vehicle when she signs over old and receives check. RC agreed to call C today to reiterate this conversation with daeler, and to advise we just need signed offer back to proceed. Call ended mutually.
Make Public		**Created By Kristina Rosas (10/28/2014 9 39 AM)** C emailed to make sure C was clear on all options available, now that she has received repurchase offer. RC responded and went over options again, noting no usage in SOC replacement if exactly comperable vehicle. C emailed to advise that C is working to get into Lia Nissan to talk to Will. RC emailed acknowledging.
Make Public		**Created By Kristina Rosas (10/23/2014 1 11 PM)** RC called C at [redacted] to advise offer sent. C thanked RC for calling, RC asked C if C had considered replacement further, and C reiterated desire for replacement but NOT Altima

because of concerns with airbag. Since this is Lease, we can not process replacement on any other vehicle, RC discussed VPP code with C. C acknowledged, and willr eview. Will be back with C in a week or so; issue in family has C tied up. RC acknowledged and noted no rush.

Hello Kristina, I'm attaching the information you requested to continue researching my appeal. I have also contacted Nissan Motor Acceptance Corp. for the additional materials you have requested and spoke with a "Becky" who indicated she would email that information to you. If there's any thing further you need, please don't hesitate to contact me.
Thank you,

RC sent workup to QC, ordered VPP for repurchasing Nissan, and verified all fees on purchase agreement with C as they are blurry.C has a receipt for extra registration fee she was looking for as the one on the PA is labled "estimate" but if she didn't have it by the end of this day she told RC to move forward.

All docs in RC working up case for repurchase, usage was determined subtracting mileage on vehicle at purchase (used vehicle) from mileage at first repair. Usage charged is so small (38 00) RC not including in work up, C knows she has to cancel Ally warranty to get refund.

SM replied to email with:
VEH is not at DLR
Last time it was at DLR, C complained of SRS issue, could not duplicate, no codes were in the system.
C has complained repeatedly of the passenger OCS system light being on with passengers in the seat, DLR can't duplicate.

SM states If RCAS-JG like to arrange the DTS and customer to meet here, SM would encourage that.
SM states believe C has a passenger that may be on the limit of what acceptable weight is for the system.

crr-jm received a call from c. c stated that c brought the veh to the dlr because c is having an issue with the front passenger airbag inflator. C said dlr can't diagnose the problem and dlr can't do anything about it. C mentioned c had taken the veh to the dlr numerous times but it still does the same thing. C's calling NNA asking for assistance to get the veh fixed.

crr-jm verified the name of registered owner, mailing address, phone numbers, email, if veh was purchased new or pre-owned, mileage on the veh and c's servicing dlrshp.

crr-jm verified if the veh was diagnosed, c said yes and provided the following information:
WHERE: FIRST NISSAN
WHEN: a week ago
DIAGNOSIS: UNABLE TO DIAGNOSE THE PROBLEM
SA: SA-Chris

crr-jm asked c how c would like to be assisted by nna, c stated C's calling NNA asking for assistance to get the veh fixed.

crr-jm informed c that c's concern will be forwarded to the Regional Office and a Regional Specialist will be calling c before the end of the next business day, c acknowledged.

crr-jm asked for the best number to reach c, c provided [redacted]

crr-jm offered further assistance, c declined.

crr-jm provided name ext case number

crr-jm forwarding case to RCAS

Hello Matt,

Thank you for assisting Nissan with replacing [redacted] 2013 Nissan Altima.

Please assist[redacted]n finding an equal value vehicle and send me the buyers order and new invoice for the new vehicle. Please show the purchase price of the vehicle at invoice, but you may include all collaterals, taxes, rebates, doc fees, etc The Dealership will keep holdback and should RDR as a new sale.

NMAC has agreed to do a Substitute of Collateral for this customer, which would just change the V N on his current lease agreement. If [redacted] picks out a vehicle that has upgraded options, he would be responsible for the upgrades.

Please do not release the replacement vehicle to the customer until surrender. You will be notified from Morley VSPC, our surrender company, when that will occur.

Once the vehicle is selected it will take 10 – 14 days to surrender the vehicle. This vehicle will not go into the dealer stock. Nissan will pick up the repurchased vehicle.

Thanks again and I will keep a look out for the buyers order and new invoice.

c called in to inform us about the on-going issue on his 2013 Altima which has been in JOE MACHENS NISSAN since May of Last year. The Sales Director Matt Stein advised c to call us for us to create a case number because they will refer to the this as they escalate the issue to corporate as c stated
crr-al apologized and provided assurance to assist
crr-al asked for c's full name, mailing address and contact details
c provided it
crr-al also asked for the last 6 of the VIN
c provided it
Make Private ✓ c stated that veh has been taken in the said dealership in 7 different times now, there had been a need for computer reprogramming for the same issue which is the AIR BAG SENSOR. c added that the SAs are not confident that they can get it fixed. c was given a choice to lease a new one because of the multiple same occuring issue on the veh.
crr-al asked c the name of the SM he dealt with
c stated it was SM Kevin Scaultz. He did a lot of effort but it was just not enough according to c.
crr-al advised c that this case will be escalated to RCAS which will call c by the end of the next business day
c agreed
crr-al offered further assistance
c added that the RCAS can get in touch with SALES D RECTOR Matt Stein at 5734431660 -m
crr-al provided a quick recap, case number, name, extension number, branding and ended the call

rcas verified V N, mileage, svc rtlr, owner name

rcas received call from SM-Ollie Hedge of Sewell Infiniti in Dallas, TX. SM advised would like to create in inbound case.

Make Private ✓

SM advised c has had concerns with passenger airbag warning light coming on with c's wife in the seat (wife is 130 lbs). SM advised OCS campaign was performed in 06/2014 and did not resolve concern. SM advised veh was also in for complaint 01/2014. SM advised veh is in currently for same concern.
SM advised veh came in 09/10. SM advised techline has not been contacted as no concern has been duplicated. SM advised rtlr test drove veh with someone in pass seat in multiple positions, and compared to KGV. SM advised only normal operation was found.
SM advised c was informed of this and advised c would not pick up veh. SM advised c advised c did not want veh and was directed to contact ICA.
rcas understood. rcas advised infield case has been documented. rcas provided file#, call was ended

rcas closing infield file.

Rcas placed call to dlr. SM-Ernie advised Rcas should speak to SA-Joe.

Has the c come in for any major services? No veh is new
What repair does he customer need? OCS sensor
What is the cause of failure? Not sure but is broken in half
Is the failure due to C misuse? Not sure
Warranty pricing of parts & labor? SA will be calling RCAS-KM to provide
SM has any recommendations? None
Is dlr or SM willing to participate on GW? SA states that c was informed by SD yesterday that decision will be up to NNA for assistance
Is any related history? No

Rcas thanked SA-Joe for info and advised to call Rcas-KM back at x457242 with pricing info so that review can be sent to FOM for possible assistance.

-Arbs notes in-service date of 09/16/13
-Arbs notes veh mileage of 17,877
-Arbs notes days down as 25 as an estimate
-Arbs notes dealership advised that last repair order 37459 was open days later after repair was completed due to late return of rental
-Arbs notes C veh concerns for wipers, airbag sensor, molding strip, back-up camera
Make Private ✓ -Arbs notes repairs include replacement of wiper motor, Veh Campaing 14050, reprogram of OCS

ARBS would support DTS Inspection if additional concerns arise. ARBS notes, at this time, NNA is not in a position to offer a repurchase of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns that would substantially impair this vehicle. NNA will continue to honor the terms and conditions of all applicable warranties.

Arbs recommends RCAS review the matter with RCAS's TL and CSM to determine the best course of action for the file.

C: After multiple attempts at trying to repair the airbag (3 times now), with their service team not being able to verify whether or not the airbag is actually working properly, we have deemed this vehicle unsafe for our family and our unborn child.
We would like to return this vehicle and walk away from Car Pros Burien Nissan AND the Nissan brand, altogether. We have had the worst car-buying AND product experience with Car Pros Burien Nissan and its team.
Appears as if Nissan chose the best team to represent their brand, as their team serves as a true reflection of their product; consistently unsafe & remarkably unreliable.

C: Primary Problem: 2013 Nissan Pathfinder Recall Notice on Passenger Airbag
My husband and I have now purchased two Pathfinders with Car Pros Burien Nissan (first one had a bad transmission and was considered a "lemon").
Our first experience with this location was the (what was perceived to be) drug-addict salesperson; who lied about the features offered on the model that we had purchased in addition to making false statements about the non-existent damages on my husband's trade-in, to lower the price Car Pros Burien Nissan was willing to pay.
Secondly, we had SEVERAL issues with the finance department and never ended up receiving financing on our first Pathfinder for the first 4 weeks that we had it. With the second Pathfinder, we also had trouble with someone getting the lease agreement/lease contract incorrect (handwriting on the document and in the margins, erroneous data input). This led to a lengthy and involved process, in which the end resulted in Car Pros Burien Nissan making our first payment.
Now we have had countless issues with the NEW Pathfinder, which includes a windshield wiper motor, rubber trim along the passenger door deteriorating, the airbag sensor or the airbag itself (only after bringing it in for a recall notice) and now the backup camera becomes glitchy & fuzzy; take note that we've only had the vehicle for a year.
Our biggest concerns lays within the passenger airbag sensor; which only became noticeably "damaged" after submitting the care for a system adjustment/upgrade after a recall notice that we received in the mail. t has only been 3 months since that "repair" that we have found the airbag sensor to be faulty; on intermittently to let us know that the passenger will not be

Make Private ✓ protected in the unfortunate case we would be involved in an accident.
First time we brought it back, it was supposedly "repaired".
Second time, they suggested that perhaps the problem was that we "should drive around for a little while because it may take a little a bit for it to 'kick in', or to register that there is someone in the passenger seat." Is that even safe thinking?
Third time, we called when the light was on and we were traveling quite a distance home from a friend's wedding and the light was on, we were immediately instructed to drive the car straight to the dealership so that it could be diagnosed. We took photos and video clips, and thank goodness we did because the light conveniently shut off as we pulled into the service department garage... We were then told that since our car wouldn't be serviced until after the weekend, that we should just come back at that time. Why would someone send us away in an unsafe vehicle? Being 7.5 months pregnant at the time doesn't make it absolutely unacceptable either... my husband pleaded for a loaner car since we had to travel another long distance for a second wedding.
Upon returning us the vehicle, they stated that they could not diagnose the problem and could not get the light to turn on again. So the car was returned to us, in the same fashion it was received. Since then, the passenger airbag light has continued to turn on intermittently when a passenger is clearly sitting in the seat. They have been notified of each incident.
I reached out and filled out a form via the dealership's website, and someone had contacted me immediately that same day in the evening about my concern and stated that their general manager would follow up with me tomorrow. It has now been 3 days....
We are extremely unhappy with not only Car Pros Burien Nissan and their ongoing lack of concern for customer safety, product reliability & profound unprofessionalism, but also with Nissan as a brand. We have been very patient and have given Car Pros Burien Nissan innumerable opportunities to make this right.

Arbs-ASM received email from DTS-Mike:

Glenda,
I looked at this vehicle on 9/2 at Ardmore Nissan. I net with Mr [redacted] nd he explained his issue as a fluttering/tapping/ knocking noise coming from the left front "A" pillar area while driving at speeds of 65 mph or higher around other vehicles.
We went for a 1 hour 35 minute road test during which he heard the noise about 10 times while I heard the noise 2 times. The noise I heard was very faint and I could not tell what it was although it did only occur at over 65 mph and while driving around other vehicles. Also he states that it may not happen for a couple of weeks, it may happen for several minutes during a drive and it may only happen for a few seconds.

We went back to the dealer and I proceeded to drive the vehicle to TRY to isolate the noise.

I drove the vehicle on local highways approximately 129 miles. During this drive I heard the noise 2 times at approximately 5 seconds duration each time. I could not isolate the noise any closer than outside the vehicle in the left front. It sounds like the turbulent air is disturbing something and making it flutter.

When I got back to the shop we put the vehicle on a lift and gave it a good looking over.
We did not find anything abnormal under the vehicle but we did find the left roof molding is coming loose. This could definitely cause a noise issue and there is a TSB for this concern, NTB13-101 I advised the dealer to complete the TSB.

We also found the left front hood/cowl molding loose and deformed. There are three pieces that fit together and direct airflow around the cowl, hood and windshield. This also could case fluttering noises. I advised the dealer to replace these moldings and make sure they are fitted properly when installed.
This may resolve the concern Mr. [redacted] has indicated but I can't be certain.

With this noise only occurring at the speeds [redacted] ndicates and in the traffic he indicates as well as the infrequency this may be a very difficult to narrow down noise if the above does not resolve it.

LAS contacting c on [redacted] at 6:24PM and spoke with c.
LAS advised c that the veh is operating normally and the feature is operating as designed. c states that this does not make sense. c states c has video tapes showing how this is a malfunctioning safety feature.
LAS recommended further diagnosing with the dlr. c states that this is not acceptable. c states c would like to speak with LAS' manager.
LAS explained that LAS is the supervisor for the LEAF consumer affairs department. c states there has to be someone above LAS. c states LAS is not grasping that c's airbag is not functioning normally.
LAS apologized and advised c that with the most recent diagnosis results showing that the veh is operating as designed there is no further recourse available at this time.
LAS suggested further diag with the dlr. c states that c wants to speak with LAS' manager.
LAS agreed to escalate the case and advised supervisor follow up will occur by end of business day tomorrow. c agreed. call ended.

LAS received call from c.
LAS inquired into c's concerns. c states c has been to the dlr multiple times for the airbag lights. c states that c is very satisfied with the dlr. c states that this is not a complaint with the dlr in any way. c states that the behavior of the airbag lights are not isolated and this is a common, inconsistent concern. c states that c has experienced this multiple times. c states that the dlr is advising c that there are no codes/concerns present. c states that the airbag stays activated when no one is in the seats. c states that c has video where the airbag is off when there is someone in the seat. c states that this safety feature is inconsistent. c states that there are no repairs that are applicable for this concern. c states that c wants c's concerns documented. c states that the reason c is calling back from the first conversation c had, c was advised that the concern would be 'passed up the chain'. c states c wants to know what will happen with c's case.
LAS understood and apologized.
LAS explained that LAS has documented LAS' and c's concerns.
LAS explained that NHTSA does get reports of all the cases NNA creates.
LAS advised that the specifics of how cases are reviewed is not able to be released to customers and any actions taken with the case must remain internal with Nissan. c inquired if c would receive notification.
LAS explained that if there is any campaign released, c would be notified. c states that c understands that, but c's veh has a concern. c states that c understands if there is no code, there is nothing the dlr can do. c states that c needs c's veh repaired.
LAS explained that if there is no code/concern found or repair applicable, there is no further recourse that NNA has. c states that c has evidence showing that the concern exists. c states c wants to know of the normal behavior.
LAS advised c that there is a DTS review that LAS can look into for inspection, but LAS cannot promise that a DTS inspection would be applicable.
LAS explained that LAS cannot promise a DTS inspection and LAS cannot promise a resolution because if the DTS states that the veh is operating normally, there is no further recourse. c states that c has a problem with that. c states that c finds it crazy that NNA is not trying to resolve this. c states that the veh is not operating normally. c states that c also wants to know why with a safety concern, NNA does not trust the customer - NNA trusts the computer reporting. c states Nissan needs to have a better response than "the computer is stating the veh is operating normally".
LAS understood and apologized.
LAS advised c that LAS will review the case with the dlr and technical assistance and LAS will see what LAS can find out for c.
LAS advised c that LAS will follow up Thursday 9/25. c agreed.
LAS provided case number and contact information. c understood. call ended mutually.

Make Public		**Created By Johannie Resto-Gonzalez (10/23/2014 7 39 PM)** RCAS JRG placed call to C at [redacted] C - Maria stated fixed the veh. C stated that it if was explained the way DTS explained from beginning it would have not been as stressful. RCAS-acknowledged. C- does not need further assistance. ********** RCAS will close the case since no further assistance is required.
Make Private	✓	**Created By Karen Walker (10/22/2014 10 28 AM)** RCAS KW received an update from DTS TZ. DTS T met with C and C son, who talked to DTS T about the OCS system and the misinformation C has been getting as well as the idle concern where the idle jumps at times, and the main concern, the AC turning off on its own. DTS T advised DTS T talked to C at length and explained how the OCS worked and C seemed to understand the explanation and did not request any repairs. DTS T advised the idle concern was the AC compressor turning ON and OFF. DTS T advised this concern is related to the AC OFF concern. DTS T advised C complaint was the buttons turning off but also AC blowing warm air. DTS T advised DTS T verified the AC MAX cold and recirc buttons would light up after being pushed ON. DTS T advised that after driving several minutes, the Max Cold and Recirc turned OFF. DTS T advised it performed this way time after time. DTS T advised DTS T brought the vehicle into the shop and checked some readings and found the AC pressure sensor voltage reading was spiking, not smooth. DTS T advised this caused the AC compressor to shut off constantly (turning OFF the Max Cold and Recirc lights and causing warm air to come out the vents and causing the idle to jump). DTS T advised tech Bob touched the AC pressure sensor connector and it came off easily and once pushed on tight, the AC pressure sensor voltage stabilized. DTS T advised the Max AC stays on and the recirc button stays ON. DTS T advised the connector does not appear to be holding tight so DTS T is looking into replacing the connector and should have more info today.

crr-dm received a call from c's wif[redacted]a k.a c) who was calling about a multiple repair issues with the airbag light been on while someone was sitting on the passenger side seat. Also, the a/c is turning off by itself, the veh seemed that it wanted to turn off while the a/c is on. c also stated that the a/c is blowing hot air too.
c took the veh 5 times but c is still not able to fix it. c is not safe and c do not want the veh anymore if its not. c have minor kids and c is afraid of this veh and the fact that it may not be safe. c was asking if this veh can be replaced with a safe veh to use or help c with a discount for another veh c can purchase.
As per SOP 6.10, crr-dm stated that the case needs to escalated to rcas for review. then c will get a call from rcas within the next business day to discuss c's concern
crr-dm offered further assistance, c declined.
crr-dm provided case #, crr's name and ext #.
crr-dm leaving case open and forwarding case to rcas because c wanted for either if this veh can be replaced with a safe veh to use or help c with a discount for another veh c can purchase.

This to notify you that the concerns I reported to you on September 23, 2014 of Nissan Pathfinder mention above has not been fixed.

C complaint: After many inspections, including the last one perform by a manufacture specialist on 10/28/14. Nissan has not been able to identify/duplicate the problem that causes the passenger air bag to deactivate while someone older is on the passenger seat. Your offer of $3,000 00 settlement does not justify the safety of my family.

Re: 2013 Nissan Altima / V N: 1N4BL3AP1DC[redacted]

Dear [redacted]

We sincerely appreciate you taking the time to contact Nissan regarding your vehicle. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

Nissan carefully considered your appeal and after a review of all available facts, Nissan offers to voluntarily assist you with your request.

In order to complete the process, Nissan requires particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me as soon as possible, as they will be needed to make a detailed offer:

- A legible copy of the vehicle's title(if in your possession) or title application
- A legible copy of the vehicle's current registration
- A legible copy of the driver's license for all vehicle owners
- A copy of the purchase contract for the vehicle
- A payoff confirmation statement from your lienholder(10 day payoff referencing account number, collateral, amount of interest you pay per day, and overnight payoff address)
- A detailed payment history from your lien holder

Please return the requested information to me via fax at (615) 967-2244 or scan and email. We anticipate completing the process within 2 to 4 weeks from the time of your acceptance. Please note: supplying the requested documents does not indicate your acceptance of the offer; you will have a chance to review the fully detailed offer before making a decision.

If you decide you would prefer to keep your vehicle, Nissan would be willing to provide a settlement for $2,000 00. In exchange for this check, you will retain ownership of your vehicle and will sign a Confidential Settlement Agreement and Release of Nissan North America, Inc., all Nissan entities, dealers and suppliers, though all warranties will remain in effect.

If you have any questions you are welcome to call me at [redacted] though email is preferred at amanda.simcox@nissan-usa.com. I am generally in the office 8 a.m. – 5 p.m. EST Monday-Friday.

Sincerely,

Amanda Simcox

comments : In March there was a recall on my passenger airbag, the dealer reprogrammed & thought it was corrected. Light came on again with passenger in seat, they tried reprogramming again & light still came on, in August they replaced a pressure sensor for my passenger air bag. Light continues to come on with passenger in seat. They have tried to be very helpful and correct issue. Now they are telling us that if a person in the seat weighs less than 150 the air bag may or may not work. This is very concerning to myself & my husband. We have a daughter in law that rides with me to work and she is carrying our soon to be grandchild, and we almost had a head on collision last week. She does not weigh 150 lbs, but is 23 years old. I have grown nieces 21 & 17 and they also do not weight 150lbs. Is it correct that if the passenger airbag light is on, that it will NOT deploy? If this is correct it is very concerning to me that you would sale a vehicle without letting the customer know that these restrictions apply when it comes to the safety of the vehicle. Can you please follow up on the above information and let me know if this information is correct. Newton Nissan has tried to be extremely helpful, but this is a huge concern not only for my family & friends that may be riding in my car, but for every Nissan owner where these restrictions apply.

		Created By Eboni Smith (9/25/2014 2 35 PM) RCAS-ES reached out to customer regarding c veh concerns @ [redacted] RCAS-ES encourage c to visit nhtsa.gov and look at the FAQ section which stated There is no precise height and weight at which an individual is considered to be at risk. The primary determinant as to whether an individual will be injured by a deploying air bag is the distance from which the individual is seated from the air bag. RCAS-ES advised that if the airbag deploying could do more harm to someone of a smaller stature

Make Public		Created By Jose Mari Gozar Jr (9/23/2014 8 16 AM) CRR-JG received a call from c asking if the veh has any open campaigns CRR-JG advised c that recalls are vin specific; C understood. CRR-JG informed c that the veh has no open campaigns. CRR-JG asked if c has any veh concerns; C said that the veh is having problems with the passenger airbags CRR-JG asked if c has had the concern Diagnosed by a nissan dlrshp. C said no CRR-JG advised that c would need to have the veh diagnosed by a certified nissan dlrshp. CRR-JG advised that this is so that NNA will have the latest information on the veh's condition, as there are a lot of factors that can cause breakdown of a specific part. C understood. CRR-JG advised c that once a diagnosis has been performed on the veh then just callback. C understood CRR-JG offered further assistance. C declined Call ended mutually. CRR-JG closing case.

Arbs-ASM responded to atty-Bob:

Hi Bob,

I will need the payoff, per diem, and finance charges paid to date on the loan. Payment of the negative balance would be up to you and Ms. [redacted]. Ultimately, Ms. [redacted] negative equity would be included in the deductions from her refund. Therefore, she would essentially be paying either the lender or NNA the amount of negative equity owed.

Thanks,

Arbs-ASM received email from atty-Bob:

This will confirm this matter is now settled for the statutory repurchase of the subject vehicle with a $579.04 usage charge. Attorney fees and costs are separately settled for the reduced sum of $1,750 00 payable directly to our firm.

This is a slightly upside-down transaction as there is $4,284.00 in negative equity, plus a $599 00 maintenance plan and zero cash down. When I add the N/E and maintenance plan and usage charge the total deductions are $5,462.04.

On the plus side, the client has made 6 payments of $527.14 (actually directly drawn bi-weekly) through the 11/16/14 payment for a total of $3,162 84.

The negative balance to date is $2,299.20 and my client said she will pay that herself prior to closing so no money need change hands at that time.

Gracie will get started working with [redacted] tomorrow to get you the Credit Union Statement for payments to date; interest to date; and a pay-off with per diem. Since the client is paying the negative balance in advance, do you want her to do so now before we pull the Credit Union numbers ?

Gracie is going to keep this settlement until our client is out of the vehicle as she is a VIP.

Thanks for working with me .

Bob

Arbs-ASM received email from DTS-Larry:

Angie, unfortunately some customers may have expectations for PABI system arming that deviate from normal operation. The Owner's Manual provides some useful guidance but Nissan also recently released a technical bulletin, NTB14-084 (attached) to help dealer and Nissan personnel when attempting to describe normal operation. Pages 6-8 are intended to be provided to customers. Please ensure the customer has been provided with these pages. A follow up DTS visit can be requested however it's unlikely to result in a different outcome. Please explain this to the customer and provide the bulletin pages. If a follow up is needed to help ensure the customer understands this normal operation then please forward via normal process.

Arbs-ASM received email from DTS-Pete:

Angie,
I opened her videos on my laptop and my tablet and had video but no audio.
What I was able to see in the video was the OCS lamp illuminated(with I'm assuming her) in the passenger seat which can be caused by several things as stated in the owner's manual. I indicated these items to C during my follow up phone call and provided the related pages from the owner's manual to her. She felt these normal characteristics were unacceptable.

With the OCS concern the dealer was never able to confirm a failure. My inspection indicated the system was operating as designed.

She has spent the time to make and send videos and make many phone calls but was unable to meet with me for the inspection. Videos can sometimes confirm an issue but in this case it doesn't provide the necessary or all of the information needed to make a determination.

What is the picture of the display supposed to indicate?

Are we looking for another DTS inspection?

Pete

Arbs-ASM received 2 video's of airbag light illuminating when adult in psgr seat via email from Joan with atty office. Arbs also received 1 photo of bluetooth photo from veh via email from Joan with atty office.

Arbs forwarded all to DTS-Pete to obtain review.

Arbs-ASM reviewed DTS notes:

I inspected Jennifer Bailey's 2014 Altima to evaluate her concerns with her car. C declined to be present for inspection. Per DTS request concerns are the display screen freezes at times and the OCS light will illuminate when her son is in the passenger seat.
The display concerns were addressed with a software update per NTB 14-079. Per CA notes C is using a phone not on the approved list.

DTS checked for SRS codes and none were found. Confirmed zero point reset was completed. Found nothing obstructing seat from classifying correctly. Found system classified above and below threshold in under 7 seconds. SRS/OCS system is operating as designed and as outlined in owner's manual.
DTS called C to discuss results of inspection. C was not satisfied with findings. DTS discussed that her son (5'1" 118lbs.per C) is in the threshold of classification. DTS tried to discuss characteristics of OCS but C was not satisfied. DTS advised C that OCS operation from owner's manual will be provided.
At this point C stated OCS light would illuminate with C's husband in seat (6'1" 225lbs. per C) and C in seat (5'3" and over 120lbs per C). DTS couldn't find mention of this in CA notes. C refused to pull son out of school for DTS inspection but if OCS was illuminating with C in R/F seat her presence would have been sufficient.
C questioned DTS about fuel gauge. DTS was unaware of issue and stated that it wasn't included in inspection request. C stated C sent pictures of fuel gauge swinging between "Full" and "3/4" tank. DTS inquired if vehicle were parked on an incline/decline/tilt because this could cause the gauge to temporarily read inaccurate until vehicle position is stabilized. C stated no and that she was driving for 10 minutes before the issue occurred.
C stated fuel gauge concern WAS included in inspection. DTS did not see issue listed in CA notes or RHR but did review pictures provided.
After speaking with C DTS made the following observations.
DTS confirmed first inspection on 10/8/2014
Pics are dated 10/15/2014
4:23 PM pic 338 shows gauge at "Full"
4:28 PM pic 339 shows gauge at 7/8
4:30 PM pic 340 shows gauge over ¾
4:34 PM pic 341 shows gauge over ¾
This appears to be a normal correction if vehicle is not parked on level surface.

Arbs-ASM received email from DTS-Pete:

Angie,
I have rescheduled this inspection for Monday October 27th at 10 A.M. EST. I will need to meet with the customer and the person who is in the passenger seat when she has a PABI concern. I know she stated it is only with her son in the seat and she doesn't want to take him out of school for the inspection. If she refuses I can inspect the vehicle and confirm it will classify and explain proper PABI operation but that will be the extent of my inspection for PABI.

Pete

Arbs responded:

Peter,

I have been advised by her attorney that neither she nor her son will be able to meet with you regarding the inspection. She continues to forward photos and videos in hopes those will suffice. I have advised her attorney on numerous occasions these do not provide all the information required for your inspection analysis.

I will contact the both the attorney and dealer regarding the inspection date/time and advise when confirmed.

Good Morning Angie:

I just spoke to our client and she is thrilled to allow a DTS inspection. Please work with Joan to arrange same and please make sure the dealer provides our client with a free loaner or an agreement is reached as to a set time and that the inspection will only take an hour or so.

For the record, my client never, ever refused a DTS inspection. In fact, my client left the car at Hall Nissan for a week and they never got the DTS out. Thereafter, my client received a last minute call to try to schedule the DTS and when she couldn't accommodate the one date and time due to her work, Hall Nissan told her they were done with the car, would not schedule the DTS inspection and in fact would no longer even work on the car as the client retained an attorney !

If in the future Hall Nissan refuses service I will reach out to you to hopefully intervene on behalf of your customer.

comments : I have read the 2015 Infiniti Consumer Safety and Air Bag Information Guide the field representative sent to me. My family sits in the seat as as shown on page 13. The "airbag off light" stills illuminates intermittently. My husband is 5'10" 180lb. The older son is 5'10" 155lb. I am 5"4 130lb. Younger son is 5'2" 98lb.

I am told that the weight and height of my husband and older son is not in the grey area for calcution purposes by the Infiniti computer. However the the "airbag light off" still comes on intermittently on my husband and older son despite of reading the Consumer Safety Manual and following the sitting instructions.

Is there a solution to the issue?

RCAS-LO placed outbound call to C @ [redacted]
RCAs-LO spoke with Louis - C
C states light came back on however C did not take to Rtlr. C is frustrated that retailer would advise once again unable to duplicate
RCAS-LO states that if concerns had re-occurred would have recommended C take to Rtlr immediately to see and address concerns while happening
RCAS-LO explained would need retailer to be able to duplicate to determine what, if any, repairs that would be recommended. Unable to repair without exact understanding of what is causing concerns
C states wants repairs done and INF needs to authorize. Unwilling to continue to deal with concerns.
RCAS-LO advised would inform Rtlr once more and check for any further options available to address C's concerns.

Make Private	✓	**Created By Lauren Strode (10/6/2014 12 32 PM) Last Modified By Lauren Strode (10/6/2014 12 32 PM)** RCAS-LS placed outbound call to c a[redacted] C states that c has been not only getting the airbag light on but also the brake light as well. C states that c was told that brakes were leaking into the master cylinder. C states that c is concerned about all of the concerns with c's veh at this moment. C states that c has had the multipoint inspection on c's veh and concerns have gone on undiagnosed. C requests a technician to come out and inspect c's veh to ensure that nothing serious is going on with c's veh. RCAS-LS understood and advised that the dlr hooks up the veh to computer during the multipoint inspection and it reads the codes of whatever concern is going on with the veh. C states that c understood but a lot was missed the last time around so C would like a technician to come out and look at c's veh. RCAS-LS understood, RCAS-LS states that RCAS-LS will request for c and advised follow up for 3 business days. Call ended mutually.

C: "This is even more good. they said my break fluid is leaking and replaced master cylinder. Can you expect a break fluid leak on a new car?"

C: "Hello Charlie,

My Contact no is [redacted] My Dealer is Texas Nissan of Grapevine. I have gave my car in today for the same.
I don't have my V N no at this time."

SSA: [redacted]

Unfortunately without your VIN, we are unable to locate your vehicle account. We're glad to hear you were able to get your Nissan in to Texas Nissan of Grapevine today. We highly recommend working closely with them, as they are in the best position to diagnose your airbag sensor concern.

C: "I had been a fan of Nissan . But this is ridiculous about the warning light for passenger side air bag that comes often . I had noticed this in the initial days of my Purchase and had several trips to dealer on this regard . They tried changing sensors and others . I even took it when I got the recall notice. The problem still persists . Would nissan be responsible , when something unexpected happens and airbags doesn't work. I am so much disappointed being a owner of 2 nissan cars in my life time recently got the break light on while was driving . I am pairing pictures of the same."

SSA: "Good morning, Susheel. We are sorry to hear of your concerns and would like to look into this for you further. Could you please send us a Private Message with your best contact number, the name of your servicing dealer, the date of your last diagnostic and your V N to https://www.facebook.com/messages/nissanusa? Thank you."

ARBS called c @ [redacted], ARBS spoke to c.
C states the inspector who looked it over and the inspector states the pad was off for a while and the metal was worn down. C wants pictures of this.
ARBS apologized and advised that this was handled by a different department and ARBS does not have information about that. ARBS had gotten information about the letter and was calling to advise that letter was left at front door on 9/8 @ 1040 in Cape Coral, FL.
C states they never got the letter. ARBS confirmed address. ARBS advised that ARBS would ask I R to send the letter out again. C thanked.
C states it cost them $800 to repair the other person's vehicle and... c stopped and said she understood that was a different department and wouldn't go into detail.
ARBS thanked and advised ARBS would follow up with I R and also contact c with a date and time for the inspection ARBS was trying to set up. C thanked. The call ended mutually.

ARBS notes after careful review, NNA is not in a position to repurchase/replace the vehicle at this time, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties.

ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.

RCAS-LB made outbound call to C a[redacted]
RCAS-LB asked what RCAS could do for C.
(John, not Jennifer)
C/s the issue is the airbag because seat frame and sensor have been replaced and the issue is still unresolved.
C/s 3 visits for the transmission concern and 4 visits for the airbag light.
C/s C wants NNA to take this veh back and give C another one.
RCAS asked RHR questions:
Why do you want to return the vehicle to Nissan North America? C/s C does not believe the veh is safe.
Where is the vehicle currently? With C's wife
Where was the vehicle purchased? Drexel Hill Nissan
Was it purchased new or used? New
If used, when was the vehicle purchased? N/A
Where is the vehicle serviced? Drexel Hill Nissan

Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers? No, only Drexel Hill
RCAS-LB informed C that the repurchase process takes about 10 business days to complete and RCAS would keep C updated throughout the process.
C thanked RCAS.
Call ended mutually.

Alert Trigger Verbatim	Repairs Not Performed Satisfactorily Airbag light came back on and they charged me to replace it.. in 2 years of owning the car it never came on until they worked on it. I should not have paid for it in my opinion.	Hot Alert Type	F1
Survey Verbatim	Service Experience Stand-Outs Communication during the process and I've lost trust for the dealership after spending $4500 on repairs. Service Advisor Comments Did not receive quote as requested, did not return calls, Voice mail goes to another service rep, did not do the entire job I learned after speaking with the tech Vehicle Pickup Airbag lights were on only after they preformed service. Turned it off and then I had to come back and pay $280 to fix it!!! The tech then tells me they did not do what was quoted. Scheduling Experience Took it right in and had Diagnostics done in about 90 minutes for a major repair NPS Reasons My wife and I were planning on trading in her X3 and my FX50 for something newer but will go back to Lexus after this experience. Notes: [redacted] spoke with Mr [redacted] who stated that since the survey he hasn't heard from a service manager or anyone.

He brought his vehicle in for some repairs where the retailer was supposed to replace parts on both sides of his vechile (engine) that was causeing power loss at start up (Low rpm) where he paid upwards of $4500. when he got his vehicle back the airbag light was on stating there was no operable airbags in the vehicle. He addressed this with the retailer and seeing that he caused such a fuss when they repaired his vehicle the 1st time due to him knowing how to read the comps and they showed it to him and he caught their mis dagnose/over charge and brought it to them they told him they would settle in the middle to repair the passenger air bag light. He went in to have this completed where they told him his vehicle was ready in 12minutes (client stated to replace this part they would have to take the passenger seat to replace this sensor). After all the work was completed the tech/advisor told him to sell his Infiniti and buy a lexus. He also was told that they didn't replace both sides of the origonal repair (as he paid for both).

[redacted] is irritated with the way the retailer ("cheated him out of money)

escalating to CA for further assistance.

		Created By Kassee Culver (12/30/2014 8 39 AM) RCAS-KC is closing Case as no further assistance can be offered at this time. ***CASE SUMMARY*** C contacted Nissan CA requesting RCAS review the case again for C veh to be bought back.
Make Private	✓	***STATEMENT OF DECISION*** RCAS did a RHR and the buy back was denied by ARBS RCAS asked if anything changed with the veh C stated no and C has retained a lawyer RCAS apologized for the situation but informed C that if C has retained an attorney that RCAS can no longer work with C RCAS reviewed Case with TL-LH
		Created By Kassee Culver (12/30/2014 8 34 AM) RCAS contacted C @ [redacted] RCAS ADVISED "This call may be recorded for quality and training purposes." RCAS informed C that the decision RCAS notified C of is at this time NNA is not in a position at this time to repurchase the veh RCAS asked if anything has changed or if C has been to the DLRSHP since the review.
Make Private	✓	C stated no the veh has not been back in C stated it is just the same concerns as were before C stated has retained an attorney that is a specialist in the lemon law and the attorney stated that C has a case to present about C veh RCAS asked if C to confirm that C has retained an attorney. ARBS notes the following:

2 visits for alignment out of specs. // Performed alignment 2x.
2 visits for steering/suspension noise. // Replaced wheel hub and bearings.
1 visit for PABI light. // Zero point reset.
9 days down.

Make Public

ARBS notes the vehicles alignment and noise concerns have been addressed by the dealership. ARBS notes PABI light is indicative of a defect in materials or workmanship but rather a status light advising that the passenger air bag is suppressed. ARBS notes the owner's manual has very detailed information regarding the operation of the PABI light and the Occupancy Classification System.

–
Based upon the ROs provided and after careful consideration, NNA is not in a position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties.

ARBS recommends DTS involvement if concerns persists. If a DTS inspection is scheduled, please request the passenger whom triggers the PABI light is present at the time of inspection and advise ARBS of the inspection results. ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.

Make Public		**Created By Michelle Henares (9/30/2014 11 38 AM)** CRR-MH received a call from C stating that C took veh in today today for maintenance service. C stated that C also discussed front passenger airbag light issue with SM-SM-Monte Burge today and that SM recommended that C to contact CA. C stated that ever since C purchased the veh, C had a problem with the passenger airbag light coming on. C stated that had the campaign performed but the light still came on even after the performance of the campaign C stated that C had even taken veh to Jeff Schmitt Nissan 6 weeks ago for a second opinion and as per advise. CRR-MH found a related case no. [redacted] C stated that dlrshp checked the issue and that C was told that it was operating properly. C however stated that light still comes on sporadically. CRR-MH verified C's updated contact information. CRR-MH informed C that the case will be forwarded to the regional office for review and a regional specialist will be in contact with C by the end of the next business day. The best no. to reach C is [redacted] CRR-MH escalating case to RCAS for vehicle concern. CRR-MH offered further assistance to C. C declined.

CRR-MH gave name, extension number and case number to C.
CRR-MH leaving case open.

2. Under 20mph, the veh feels like it is bucking.
Actions:
1. Performed
2. Verified concern; Found TSB NTB13-086. Reprogrammed TCM per TSB.

03/13/14 @ 16,516 miles
Concerns:
1. Vehicle bucks when driving under 20 mph and feels as if customer is driving a manual vehicle and cannot find gears.
2. LOF
Actions:
1. TSB already performed. Test drove vehicle had shudder. Vehicle had already been programmed and recorded with consult. Replace transmission as advised

06/25/14 @ 22,446 miles
Concerns:
1. Recall R1405
Actions:
1. Performed

7/15/14 @ 23,110 miles
Concerns:
1. Airbag light is on when customer sits on seat which indicates air bag light is off.
2. During multi-point inspection, brake wear was found to be minimal.
Actions:
1. Checker operation and performed zero point calibration. Contacted Nissan for assistance to diagnose. Tech Line advised operation is normal/ it is designed to only come on when someone is sitting on seat weight of 60 pounds or less which indicates air bag is off and operation is normal.
2. Green brake wear; no repairs needed at this time.

07/18/14 @ 23,246 miles

DRTS in receipt of an attorney letter from Eugene Krukas, PLLC, signed by Eugene Krukas, Esq. The letter was sent on 09/24/14 and was received on 09/30/14. The letter was sent via US mail and is attached to the case for review.

In Pursuant to the New York Lemon Law, Magnuson-Moss Warranty Act, and the New York General Business Law concerning the above-referenced vehicle. The Vehicle contains a number of defects that, after numerous attempts to repair, have not been corrected. The defects include, but are not limited to Transmission defects, passenger air bag fluctuates on and off without cause, and any and all complaints actually made, whether or not contained on your service records, company's invoices, or otherwise. The customer is requesting return of all funds paid toward this vehicle, the cancellation of the contract, and compensation for damages. NNA needs to respond within 14 days of receipt of this communication. Enclose with the letter are Repair Orders that I will separately attach to the case.

Arbs-ASM received email from atty-Bob:

Good Morning Angie:

It was a pleasure speaking with you Friday and thank you form your letter dated 10/15/14. Please accept this letter as confirmation this matter is now resolved for the statutory repurchase of the subject vehicle, with a $300.80 usage charge and reduced fees and costs of $1,750.00.

Dave Kelly will be your point of contact at my firm for processing this settlement. Since this is an NMAC Lease I assume you can pull the figures. If you need anything from our end to provide the release and order the settlement checks, please let Dave know at your earliest convenience.

Description:

Hi Wendy,

Following up again on case #[redacted]

I was hoping to hear from you today, but either way since these emails go to my case it's good to have this documented.

Picked up my vehicle and as indicated in my last email not all the repairs were completed. What remains is the following: (1) the passenger airbag system is still not replaced, parts are not available; (2) the brake system problem was not able to be diagnosed; (3) the sunroof still vibrates - I think one vibration was fixed but when closing the doors it still vibrates loudly.

A new issue noted from the service rep is the driver's seat. I noticed that it seemed loose but forgot about it. But the dealer asked me if I had issues and I confirmed. So they said they are going to have to replace that as well. In addition, this one not the manufacturers fault, but my window tint was damaged during the repair process of the back deck - so now I have to take time out of my schedule to have this fixed as well.

Please call me as I need a resolution because I should not be expected to keep having to deal with a non-conforming vehicle like this one. I cannot drive a car that is not safe. I am looking for a quick resolution, so please don't let this come to me having to consult legal counsel.

Thanks for all the help Wendy - I do appreciate it.

Picked up my vehicle and as indicated in my last email not all the repairs were completed. What remains is the following: (1) the passenger airbag system is still not replaced, parts are not available; (2) the brake system problem was not able to be diagnosed; (3) the sunroof still vibrates - I think one vibration was fixed but when closing the doors it still vibrates loudly.

A new issue noted from the service rep is the driver's seat. I noticed that it seemed loose but forgot about it. But the dealer asked me if I had issues and I confirmed. So they said they are going to have to replace that as well. In addition, this one not the manufacturers fault, but my window tint was damaged during the repair process of the back deck - so now I have to take time out of my schedule to have this fixed as well.

Please call me as I need a resolution because I should not be expected to keep having to deal with a non-conforming vehicle like this one. I cannot drive a car that is not safe. I am looking for a quick resolution, so please don't let this come to me having to consult legal counsel.

Thanks for all the help Wendy - I do appreciate it.

Description: Hi Wendy,

Thank you for giving me a call regarding my case # [redacted] I look forward to receiving and answer on how to proceed because at this point I don't think my car is safe to be driven.

As I indicated last night I did not have enough time to evaluate the new transmission to see if it resolved the shudder, but as I told you on the phone, this morning the car shuddered 3 times. So clearly the issue has not been remedied. This raises so much further concern because the dealership believed the braking issue may have been linked and if that is the case I am even further concerned about the ability to stop my vehicle in an emergency situation.

I hope to hear from you today with a resolution - and wanted to send this email for further documentation for my case.I have not been able to reach the dealership yet after my latest repair was concluded on Monday.

Thank you for your assistance,

Thank you for giving me a call regarding my case [redacted] I look forward to receiving and answer on how to proceed because at this point I don't think my car is safe to be driven.

As I indicated last night I did not have enough time to evaluate the new transmission to see if it resolved the shudder, but as I told you on the phone, this morning the car shuddered 3 times. So clearly the issue has not been remedied. This raises so much further concern because the dealership believed the braking issue may have been linked and if that is the case I am even further concerned about the ability to stop my vehicle in an

emergency situation.

I hope to hear from you today with a resolution - and wanted to send this email for further documentation for my case.I have not been able to reach the dealership yet after my latest repair was concluded on Monday.

Thank you for your assistance,

[redacted]

Make Private	✓	**Created By Richard Woods (10/10/2014 9 24 AM)** CRT RW received a call from c. CRT RW stated that this call may be monitored for quality purposes. CRT RW recapped the c's concerns. C understood. CRT RW stated that c would need to take c's veh. back to the DLR for another diagnoses. CRT RW stated that CRT has spoken with SM Dale who stated that on the c's most recent visit the c did not communicate with the DLR that the c's concerns have started again. C stated that the air bag light sometimes comes on than other times it does not. C ask, how many times does the c have to take the veh. into the DLR? C stated that the c has taken the veh. in twice for the same.

CRT RW apologized and stated that CRT RW will be working on c's case and would like for the C to take c's veh. to the DLR for another diagnostic.
CRT RW stated that if the concern is not duplicated by the DLR at that time CRT will look into sending someone from NNA out to look at c's concern.
CRT RW also stated that CRT RW has confidence that the DLR will be able to duplicate the concern by using the proper tools at the DLR.

C understood.
C stated that the DLR explained to C that the total weight of the passenger would need to be 120 lbs.

CRT RW stated that CRT does not have that information in front of CRT at this time.
CRT RW stated that if the DLR has communicated that information to C then CRT would agree with the DLR.
CRT RW stated that the DLR would know that information at the DLR.

C understood and agreed to take the veh. into the DLR next week.

CRT RW thanked the c and stated that CRT would let the DLR/ SM Dale know that c would be into the DLR next week.

Call ended mutually.

comments : The air bag icon for the passenger front seat of our 2013 Nissan Pathfinder periodically turns on as A R BAG OFF even when there is an adult seating on that seat. We brought the car twice to the dealer where we purchased the vehicle at Crossroads Nissan of Wake Forest NC and they did not eliminate the problem, they tried looking at it but still said there was nothing they can do about it. However, we need this problem to be fixed as it is extremely important to have an air bag on, it can safe a life of the passenger in case of the accident. Please advise what do we do to have this issue properly addressed?

Make Public		**Created By Zachary Mallett (11/3/2014 12 18 PM)** CASE SUMMARY C contacted NNA with veh concern. DTS inspected veh and recommended repairs. C's concern resolved for time being. RCAS closing case as no further assistance may be offered.
Make Public		**Created By Zachary Mallett (11/3/2014 12 17 PM)** RCAS called C at [redacted] C stated repairs had been completed. C stated so far concern has been resolved. RCAS stated C should contact RCAS if concern persists. C stated C would. C declined further assistance. Call ended mutually.
Make Public		**Created By Zachary Mallett (10/29/2014 1 03 PM)** RCAS called C at [redacted] and left vmx with case number RCAS name and number requesting C return call.
Make Public		**Created By Zachary Mallett (10/24/2014 4 03 PM)** RCAS called C at [redacted], and left vmx with case number RCAS name and number requesting C return call.
Make Public		**Created By Zachary Mallett (10/24/2014 4 01 PM)** RCAS notes DTS notes: customer concern of intermittent OCS lamp on with occupant in passenger seat. DTS thoroughly explained the system operation to the customer according to NTB 14-084. Checked system operation and used consult to check for stored codes. There was a past code stored in air bag for B0A00. I recommended dealer to replace both seat sensors and OCS control unit.
Make Public		**Created By Zachary Mallett (10/21/2014 12 49 PM)** RCAS moving follow up per C's expectations.
Make Public		**Created By Zachary Mallett (10/16/2014 11 16 AM)** RCAS received vmx from C stating C would make appointment.
Make Public		**Created By Zachary Mallett (10/13/2014 11 42 AM)** RCAS called C at [redacted] and left vmx with case number RCAS name and number requesting C return call.
Make Public		**Created By Zachary Mallett (10/7/2014 5 07 PM)** RCAS called C a[redacted] and left vmx with case number RCAS name and number stating DTS appointment time, and requested C return call.
Make Public		**Created By Zachary Mallett (10/2/2014 11 40 AM)** RCAS called C at[redacted] C stated C's OCS sensor. C stated C's OCS is doing the same thing as it was doing before the recall. C stated light remains on all the time. C stated C pulled over and turned of the engine, and the light C stated recall appeared to correct the concern for a period of time. C stated C's wife should not have to wiggle aroung the seat to have light go off. C stated C's wife weighs 150 lbs. C stated C brought veh in last week for air bag light, and DLR told C that there was nothing that could be done and that C should call CA. RCAS stated RCAS would review to see what the necessary next steps are to resolve C's concerns. C understood. RCAS stated RCAS would follow up with C on 10/07/14. C understood. C declined further assistance. Call ended mutually.

Make Public		**Created By Heathre Vanriper (1/8/2015 3 12 PM)** *** [Added after the case is closed] *** NIS1429504. DRTS rec'd Case Closed from BBB 01/08/15 dated same.
Make Public		**Created By Robert Peterson (10/31/2014 9 15 AM)** ARBS notes DTS inspection complete, settlement letter received. ARBS closing case pending any further concerns.
Make Public		**Created By Heathre Vanriper (10/31/2014 7 57 AM)** NIS1429504. DRTS rec'd settlement from BBB 10/31/14 dated same. States: C has 30 days to test drive veh, if not satisfied C will contact BBB and reopen claim. See attached for review.
Make Public		**Created By Robert Peterson (10/23/2014 10 13 AM)** ARBS replied to MRF via fax, noting that DTS inspected vehicle and educated C in proper function of OCS, found no faults at this time.
Make Public		**Created By Heathre Vanriper (10/21/2014 2 35 PM)** NIS1429504. DRTS rec'd MRF from BBB 10/21/14 dated same. C seeks: Repair/Replace. CCF states: Passenger side air bag off light-activates with adult buckled in the seat intermittently.
Make Public		**Created By Robert Peterson (10/21/2014 9 42 AM)** ARBS rec'd email from DTS-AS stating that DTS can do 12:00PM (noon) at the latest. ARBS called C back to advise that DTS can do noon. C-Sec advised that C-Sec will speak with C and confirm. ARBS rec'd call from C shortly after stating that C can do noon, but it will be C alone. Wife will not make it. C states that OCS concern primarily effects C himself, so C feels comfortable coming alone to meet with DTS.
Make Public		**Created By Robert Peterson (10/20/2014 3 29 PM)** ARBS called C @ work to schedule DTS inspection for 10/21/14 at 10:00am. C's secretary (C is lawyer) states that C's schedule is quite full for 10/21 morning, asks if DTS could meet at 12-1pm, or on Wednesday 10/22. ARBS advised C-Sec that ARBS would contact DTS for reschedule. C-Sec requested ARBS let C-Sec know asap.
Make Public		**Created By Robert Peterson (10/17/2014 1 46 PM)** ARBS called C back and made contact. ARBS and C discussed vehicle and situation at length. C/S concern doesn't present at all times, is intermittent. ARBS explained high-level OCS concept and advised C that OCS is a very complex system mandated to be so through NHTSA, is sometimes difficult to determine proper function or not. C understands and advised ARBS that C is not trying to be a bother or a whiner, that C is ATTY and has at one time actually represented DLR who services vehicle. C likes the vehicle, does not drive V often– primarily on road trips. C mainly wants peace of mind that when 36k miles rolls around, everything is straight on the vehicle. ARBS understands and empathizes. ARBS notes V has been in several times for minor adjustments to OCS, ARBS would like to send DTS to inspect V and either make repair or just give C peace of mind that system is working appropriately. C accepts DTS offer and notes mostly open availability, except for trip out of state from 11/2 - 11/10/14. ARBS advised will try to schedule DTS inspection before or after that week. C thanked for concern and again apologized for being a bother. ARBS advised no bother at all, thanked C for allowing NNA to have a look at V. Call ended mutually.
Make Public		**Created By Robert Peterson (10/17/2014 10 58 AM)** ARBS placed outbound call to discuss case and offer DTS. (575) 541-6655 Notes ARBS reached voicemail stating "You have reached the Darden Law Firm..." (575) 524-2059 Notes message stating line disconnected. ARBS deleting this number from profile.
Make Public		**Created By Ricardo Garcia (10/10/2014 4 10 PM)** ARBS-RG notes DRTS-AF completed and attached RHR.

Make Public	**Created By Ricardo Garcia (10/10/2014 4 09 PM)** ARBS-RG notes the following Call Made : 10/10/14 Phone # : ([redacted] Left Message with Customer Reason : To notify customer information from BBB was received. **Waiting on call back. **
Make Public	**Created By Heathre Vanriper (10/9/2014 2 02 PM)** NIS1429504. DRTS rec'd CCF from BBB 10/09/14 dated same. C seeks: Repair/Replace. CCF states: Passenger side air bag off light-activates with adult buckled in the seat intermittently.
Make Public	**Created By Ashley Fiting (10/8/2014 10 59 AM)** DRTS received Sales Docs from dealer 2311 and attached to the case for review.
Make Public	**Created By Ashley Fiting (10/7/2014 2 09 PM)** DRTS called dealer 2311 to check up on sales documents with Jacob, he said he put in a request for them and his associate was going to pick them up today for him.
Make Public	**Created By Ashley Fiting (10/6/2014 7 31 AM)** DRTS completed and attached RHR.
Make Public	**Created By Ashley Fiting (10/3/2014 4 40 PM)** DRTS received Repair Orders from dealer 2311 and attached to the case for review.
Make Public	**Created By Ashley Fiting (10/2/2014 2 24 PM)** DRTS called dealer 2311 to check up on repair orders, spoke with SA Melissa and she stated she faxed them yesterday, I never received them so I asked her to re-fax the and she stated there fax machine is down so she would have to try again tomorrow.
Make Public	**Created By Ashley Fiting (10/2/2014 1 47 PM)** DRTS called dealer 2311 and requested for Sales Documents, spoke with Finance Personnel Jacob and he said he would call me when they received the documents from the warehouse. Provided name, phone number, customer name, year/make/model, and date of purchase.
Make Public	**Created By Ashley Fiting (10/1/2014 1 50 PM)** DRTS called dealer 2311 to request for any and all repair orders for this VIN, spoke with SA Melissa and she said she would fax them over. Provided name, VIN, and fax number.

Make Public	DRTS in receipt of a customer letter from the Darden Law Firm, P.A. signed by John Darden, received on 10/01/14 and sent on 09/29/14. The letter was sent via US mail and the letter is attached to the case. The customer states the passenger air bag off light activates with an adult buckled into the passenger seat. The letter does not state what the customer is requesting nor the NNA respond date. The letter just states if NNA does not comply they will go to the BBB Auto Line.

Dear [redacted]

Nissan North America, Inc. would like to acknowledge receipt of your letter regarding the above referenced vehicle. We have performed a careful analysis of your client's case, and at this time, we would like to resolve this matter amicably.

We thank you for bringing the matter to our attention. Nissan North America, Inc. is extremely interested in satisfying its customers like [redacted] and, in the interest of resolving this matter cordially; we would like to offer your client the following options:

1) The services of a factory representative (Dealer Technical Specialist) to come inspect your client's vehicle and ensure that all current warrantable concerns are repaired. A rental vehicle would be provided during this inspection (less fuel and insurance). In addition to this, as a gesture of customer satisfaction, we would also like to offer your client $5,000 00 inclusive of attorney fees as settlement, and Nissan North America would continue to honor the terms and conditions of the New Vehicle Limited Warranty;
2) A replacement vehicle (substitution of collateral for another vehicle with similar MSRP) as settlement;
3) A repurchase of this vehicle under CA lemon law as settlement.

Please let me know of your client's response to our settlement offers.

Make Private	✓	RCAS received a call from C stating that C has taken veh to dlr multiple times for two concerns. C states that passenger air bag light comes on sometimes when no one is seated in seat and C took veh to dlr multiple times for repairs but veh concern persists and C believes this is a safety concern. C also states that veh shakes when coming to a stop and these two concern started since January 2013 a few month after C purchased veh. RCAS advised that veh does not have any open service campaigns. RCAS states that RCAS will work case for possible assistance. C states that the dlr told C that transmission needed to be replaced before but now the veh is at dlr and dlr is saying that no repairs are needed and C is confused by this. RCAS states that RCAS will call dlr for more info and setting follow up for 10/06/14. RCAS provided C with name, ext. 458191, and case #. RCAS offered further assistance. C was satisfied & declined further assistance. RCAS thanked C for calling CA.

rcas calling [redacted] at 3:57 p.m. cst
rcas spoke with c and advised rcas is handling file
c verified c is experiencing concern with airbag warning light for pass seat activating with pass in seat and indicating airbag was off.
c requested contact at phone number [redacted] call was ended

Make Private ✓ rcas calling [redacted] at 4 01 p m. cst
c stated the first visit, the concern was duplicated. c stated visit dated 8/27, rtlr contacted techline and replaced sensors and performed 0 point reset. c stated rtlr advised if pass shifts weight or moves around the sensor would be tripped.
c stated if tech is correct and pass shifting weight and slight movement can tweek the operation of airbag, c does not feel safe in veh. c stated c's wife is the primary driver and has lost peace of mind. c stated veh was at the rtlr and picked up on 09/30.
rcas understood and apologized for experience. rcas asked if concern is only experienced by one passenger
c stated no. c stated c's wife is primary driver and has seen light go on and off with no one in seat, with c's daughter in seat (5'4, 135lbs), and with c and wife in the seat.
rcas understood. rcas inquired what outcome c is looking for
c stated c wants concern resolved and wants to be safe and comfortable in veh
rcas understood. rcas advised will review for possible assistance and follow up no later than 10/08. rcas provided contact information
c thanked rcas, call was ended

Chat Started: Thursday, October 02, 2014, 12:23:58 (-0500) Chat Origin: Infiniti Owner Services Agent Charles L (2s) Charles: Thank you for contacting Infiniti Owner Services, my name is Charles. How may I help you today?
(42s) [redacted] I'm trying to register my vehicle on the Infiniti website but keep getting an error code saying my V N is invalid.
(1m 13s) Charles: I can definitely assist you with that Paul. Can you please provide me with your e-mail address, phone number, mailing address, and VIN?
(2m 3s) [redacted] levada way, gilbert, az [redacted] 5N1AL0MN6DC[redacted]
(2m 8s) Charles: Thank you very much for that information. Please bear with me for a few moments while I locate your account.
(2m 15s) [redacted] Thanks
(2m 34s) Charles: You're welcome. t will only be a few minutes while I get everything fixed for you.
(3m 52s) Charles: Thank you for waiting. I have located your account and have manually added the vehicle under your account. What you will want to do is log out and log back into the Owner's Portal to see the change.
(4m 5s) [redacted] let me try that now
(4m 18s) Charles: No problem. Let me know if it shows up on your end.
(4m 25s) [redacted] There it is. Thanks!
(4m 32s) Charles: You are very welcome [redacted]
(4m 34s) [redacted] One more question for you . . .
(5m 38s) [redacted] We're having issues with the airbag sensor in the front passenger seat. I see that a lot of JX (and Pathfinder) owners are experiencing the same. How do express my concern to Infiniti directly? The dealer's unable to fix the problem.
(6m 9s) Charles: You can contact Infiniti Consumer Affairs. If you would like I can transfer you to a Consumer Affairs Representative through this chat.
(6m 17s) [redacted] please!
Chat Transferred From Charles To Kelly (7m 5s) Kelly: Thank you for contacting Infiniti Owner Services, my name is Kelly. How may I help you today?
(7m 20s) [redacted] Hi Kelly.
(7m 27s) [redacted] We're having issues with the airbag sensor in the front passenger seat. I see that a lot of JX (and Pathfinder) owners are experiencing the same. How do express my concern to Infiniti directly? The dealer's unable to fix the problem.
(8m 7s) Kelly: Hello [redacted] Thank you for contacting Infiniti Consumer Affairs.
(8m 31s) Kelly: I am sorry to hear of your experience with your JX. Can you tell me more about what is going on?
(9m 9s) [redacted] the light on the dash stays on when there's a passenger in the seat.
(9m 19s) [redacted] The light goes out when there's no one in the seat.
(9m 27s) Paul: Opposite of how it should work.
(9m 42s) Kelly: When was the vehicle last at an Infiniti retailer?
(10m 5s) [redacted] Wednesday
(11m 0s) [redacted] They couldn't resolve and told us the that when the passenger shifts in their seat, the light comes on. Hard to believe...
(12m 47s) Kelly: I can advise if a passenger is not seated in the seat properly, the sensor may not register the occupant in the seat. However, I will be documenting your concern for Infiniti's records.
(13m 11s) Kelly: I would also like to forward your concerns to a Regional Specialist to look further into.
(13m 42s) Kelly: In order for me to forward your concerns, I will need to confirm some information from you.
(13m 48s) [redacted] okay
(14m 42s) Kelly: Please confirm the following infomration:

Make Private	✓	**Created By Raquel Taylor (10/2/2014 2 58 PM)** RCAS checked for open campaigns found none RCAS verified and updated C's name,email, VIN, mileage, how acquired veh, srv dlr address, only #('s) c provided to call: [redacted] RCAS received a call from C stating that c's veh had a campaign for the OCS and C took the veh to BAKER NISSAN NORTH to get repaired. C stated that the issue happened after the campaign was done. c stated that c took the veh to for the same issue and the dlr advised c that the OCS is working fine that c needs to stay sitting straight up in the seat for the air bag light to work properly. C stated that C was not happy with this diagnostic considering if there is an accident C may go to the side in a reaction. c stated that c wanted NNA to fix c's issue. rcas understood and apologized for c's inconvenience and advised c that in the case C is not happy with a diagnostic c should obtain a second opinion. rcas suggested that c should take the veh back to BAKER NISSAN NORTH for a second opinion. c stated that c was not happy with this. C stated that STERLING MCCALL NISSAN told c that no rental was available and C has things C has to do. C stated that NNA should cover a rental for C. RCAS explained to C that the dlr sometimes have rentals that can be provided but rental are not covered but the veh warranty. RCAS advised c that RCAS could consider a reimbursement if c pays for the rental but a reimbursement would not be guaranteed. c understood RCAS provided C with name, ext. 458180 , and case #. RCAS offered further assistance. C was satisfied & declined further assistance. RCAS thanked C for calling CA. RCAS closed file due to no other follow-up action required.
