Make Public		**Created By Ashley May (1/2/2015 11 59 AM)** *** [Added after the case is closed] *** ARBS rec'd v/m from C at 11:30 a.m. in regards to Morley agent is currently 30 minutes late for the scheduled surrender. ARBS called Morley and s/w Barb who stated Africa was working to see if the dealership would be able to assist with surrender. ARBS called Morley back and s/w Ann and inquired if transfer agent had checks or if the dealership had the check - Ann stated the dealership has all the paperwork and check. Ann stated Morley agent has been called/emailed several times with no response. Africa spoke with Jerry in Sales at Serafini Nissan who stated nobody has time to complete the surrender. ARBS advised ARBS would call dealership and see if ARBS could request assistance as surrender has been mandated and has to be completed by 1.4 per AG. Call ended mutually. --- ARBS called Serafini Nissan and requested to s/w Sales Manager-Jerry or Service Manager. Receptionist stated both were in - ARBS requested Service Manager first. ARBS was placed on hold and was transferred to Service Receptionist Sarah. ARBS inquired if C was still at dealer and SR-Sarah asked to place ARBS on hold. SR-Sarah came back and stated was getting SM-Jerry for ARBS.

ARBS was transferred to SM-Jerry who reiterated that nobody has time, it's Nissans end of month and they have 16 deliveries today so there really is no time to deal with a highly upset customer.

ARBS acknowledged frustration and advised that ARBS was frustrated as well. ARBS advised Morley was willing to walk through the paperwork and complete over the phone. SM-Jerry stated that GM-Kevin Tadbury was sitting with the customer currently attempting to go through the paperwork so if Africa wanted to call back and ask for GM-Kevin that would be better.

ARBS thanked SM-Jerry and advised would call Africa right away.

ARBS called Africa and provided GM's name. Africa stated would call right away.

ARBS sent the following e-mail to NYSDRA-Joe:

Thank you for sending the decision for this case. I have been able to review the decision including the repurchase calculations provided by Mr. Donovan. I wanted to inquire in regards to a couple of figures that were not present within the repurchase calculations within the decision.

On the sales contract, there is a manufacturer's rebate of $500 00 as the down payment for the vehicle (tem 8-E). As this amount was provided towards the vehicle from the manufacturer, this amount is typically deducted from a repurchase calculation.

Also, in order to receive a free and clear title after surrender, Nissan North America typically splits the refund amount between the consumer and lienholder to satisfy the loan. I obtained a current payoff from Nissan Motor Acceptance Corporation of $27,374.82 which is good through 1/4/2015.

Make Public

Attached you will find a Repurchase Agreement inclusive of both deductions mentioned above. The calculations do match the calculations provided by Mr. Donovan with the exception of the $500.00 rebate. Mr. [redacted] e-mailed a copy of the signed Decision Acceptance this morning and I am ready to move forward. I just wanted to inquire about these two additional deductions for the award.

ARBS rec'd the following response:

You are correct with regards to the manufacturer's rebate, this should not be included in the refund to the consumer. The award is to be split between the consumer and the lienholder. The excess mileage deduction is only calculated for an amount in mileage over 12,000 miles which I see you have on the buyback form.Typically in the buyback process you would need to contact Mr. [redacted] directly to go over the figures, as he will be required to sign off on the package. Please be sure to speak with Mr. [redacted] NYSDRA can no longer handle the case unless you apply for a modification of the arbitrator's award formally. This process would then put the award back in front of the arbitrator for review of the figures unless you and Mr. Laubert are able to come to an agreement on the final repurchase amount.

Thank you for your e-mail. I appreciate you providing a copy of the signed Decision Acceptance. After looking through the documents provided, I did notice that a copy of the current registration has not been included. Nissan likes to obtain a copy of the registration as proof of ownership of the vehicle.

If you wouldn't mind, please either fax a copy of the registration to (615) 984-5934 or if preferred you may scan/e-mail a copy of the registration as well.

Please let me know if you have any additional questions. Thanks again for your e-mail and I hope you have a great day.

ARBS rec'd incoming call from DTS-Peter in regards to hearing.

DTS-Peter stated that he stressed that Nissan hasn't had a chance to look at the vehicle as the inspection was declined. DTS-Peter stated that based on the information available, he believes the system is operating as designed but couldn't provide concrete evidence as the vehicle hasn't been inspected.

DTS-Peter stated that C had definitely "done his homework" and printed out several documents and information in regards to the passenger side airbag system including the size of the dummy that Nissan uses in the crash tests for the new system. C also had notarized documents from doctors stating the weights of each person whom the light illuminates for. DTS-Peter stated only 1 person was under the weight limit but others were very close to the limit and believes maybe individuals were sitting in the seat improperly.

ARBS inquired if there was any type of inspection. DTS-Peter stated that there was a visual inspection but without the dealership/shop environment all of the normal tests could not be completed due to lack of equipment.

ARBS thanked DTS-Peter for info. DTS-Peter stated it would be 1-2 weeks before decision is rindered and that DTS-Peter was hoping for inspection/final repair to be made.

DTS-Peter stated would complete file in Salesforce this evening.

Call ended mutually.

ARBS advised that NNA would to send out a DTS to inspect the vehicle to go over the system and make sure that the entire system is working properly.

C stated C doesn't understand what the benefit of the DTS inspection would be as C was told the dealership already completed all tests available. C stated C has been told how to start the vehicle and sit in the vehicle properly which C stated "was silly and doesn't work." C stated the dealership has run all tests and stated that the vehicle is running properly and that C's wife and children just shouldn't sit in the front seat.

ARBS explained DTS is factory trained and would spend more time with the vehicle and inspect all aspects of the OCS system to ensure proper fuctionatlity.

C stated as long as inspection doesn't further inconvenience C that C would be open to inspection. ARBS explained inspections are completed at a dealership in the event any warrantable repairs need to be completed but that ARBS could request a date/time from DTS to see if it works for C. ARBS advised generally takes 24-48 hours to hear back from the DTS and would return call once date/time has been received.

RCAS spoke with c and advised c that after a complete and careful review of all of c's available veh information NNA in not in a position to replace or repurchase c's veh. C than asked why rcas advised C that the investigation is based on the veh history and based on the information NNA has at this time c's veh does not qualify for a repurchase. C understood and stated that is fine perhaps after c's veh has an accident NNA will reconsider. RCAS apologized and advised c that NNA will continue to honor the terms and conditions of c's veh warranty. RCAS apologized this was not the answer C was expecting , but if C feels that there is an issue with c's veh the warranty is there to cover warrantable issues and C should take c's veh to the dlr C understood rcas provided C with name ext and case and thanked C for calling NNA

Make Private	✓	**Created By Anthony Zacharyasz (10/24/2014 9 16 AM) Last Modified By Raquel Taylor (10/24/2014 10 27 AM)** ARBS notes the following: 1 visit for an oil leak. // Replaced oil drain plug. 1 visit for hard start. // Unable to duplicate. 1 visit for screen not working. // Reset cluster. 2 visits for transmission jerking. // Replaced CVT. Advised jerk on deceleration is normal. 16 days down. ARBS notes the vehicle contains aftermarket leather installed after the purchase of the vehicle. ARBS notes each complaint C has had with the vehicle have been addressed and resolved on the first visit. – Based upon the ROs provided and after careful consideration, NNA is not in a position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties. ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.

Make Private	✓	**Created By Brian Phelps (11/5/2014 1 05 PM)** ***CLOSING SUMMARY*** RCAS-BP is closing case as no further assistance can be offered at this time. C contacted NNA CA due to C's concern not being able to be duplicated and C also asked for a repurchase, which was denied. RCAS-BP discussed case with FOM-Todd Zannacker.
Make Private	✓	**Created By Brian Phelps (11/3/2014 11 05 AM)** RCAS-BP placed outbound call to C [redacted] at 10:57am. RCAS-BP advised C that per FOM-TZ that RCAS-BP contacted C inform C of the offer. C stated that this was fine. RCAS-BP advised the C of the following: •A service credit can be issued at the rate of once per V N per customer. If the customer has received a service credit according to the VIN history, the customer IS NOT ELIG BLE for a service credit. The new owner of a pre-owned vehicle IS ELIGIBLE if there is no prior history indicating the "new owner" has received a service credit. •A service credit debit card CANNOT be issued to reimburse a customer for previous services. •Valid at any Authorized Nissan Dealer/Infiniti Retailer. Approved for any service (valid only if genuine Nissan/Infiniti parts are used), or for the purchase of any genuine Nissan/Infiniti parts or accessories. •This offer is valid until the expiration date, six months from the date that the service credit is offered to the customer. The debit card can be used until the balance reaches "0" or until the expiration date. •If there is a balance at the end of the 6 month term the balance will be forfeited. •The Service Credit may NOT be sold to another V N. C agreed to T&C's regarding the Svc Credit. C stated that the radio issue is still happening. RCAS-BP advised the C that RCAS-BP will be closing this case, once the svc credit is approved. C stated that this was fine. Call ended mutually.
Make Private	✓	**Created By Brian Phelps (11/3/2014 8 34 AM)** RCAS-BP placed outbound call to FOM-Todd Zannacker at [redacted] at 8:12am. RCAS-BP advised FOM-TZ of C's denial of repurchase and if FOM-TZ would recommend any GW assistance. RCAS-BP advised FOM-TZ that C has a VSC contract on veh. FOM-TZ advised RCAS-BP that FOM-TZ recommends possible Svc Credits for C. FOM-TZ advised RCAS-BP advised if C does not like this, then that would be all that FOM-TZ would offer. RCAS-BP thanked FOM-TZ for assistance. Call ended mutually.
Make Private	✓	**Created By Brian Phelps (10/29/2014 1 27 PM)** RCAS-BP placed outbound call to C [redacted] at 1 20pm. RCAS-BP advised the C of the decision from ARBS and that NNA is not in position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. C stated that C did not like this, but understands. RCAS-BP advised C that RCAS-BP will be doing further review with TL and Region, per ARBS recommendation. C stated that C understood and that follow up for 11/3/14 is fine. C stated that C feels that C was not appreciated by Nissan, due to repurchase being denied. RCAS-BP advised that RCAS-BP understood. C stated that C has referred several other C's to this Nissan dlr and that these C's have purchased Nissan veh's. C thanked RCAS-BP for assistance. Call ended mutually.
Make Private	✓	**Created By Kristie Tate-Paul (10/27/2014 10 06 AM) Last Modified By Brian Phelps (10/29/2014 1 18 PM)** Based upon the consideration of the ROs provided, NNA is not in position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties. ARBS recommends that RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.
Make Private	✓	**Created By Kristie Tate-Paul (10/27/2014 10 04 AM) Last Modified By Brian Phelps (10/29/2014 1 18 PM)** ARBS notes the following: 1 FW repair for squeaking noise in brakes 2 FW repairs for security light/keys sign light

Make Public		Created By Ricardo Garcia (11/25/2014 3 54 PM) ARBS-RG notes the following Call Made : 11/25/14 Phone # : [redacted] Spoke with Customer Reason : To discuss DTS inspection results. ARBS-RG advised customer if concern if airbag continues to exist to have WEST COVINA NISSAN inspect vehicle for diagnosis since DTS was unable to duplicate concern. Customer understood. ARBS-RG spoke with ARBS-MB regarding phone conversation
Make Public		Created By Michael Bardwell (11/25/2014 1 44 PM) ARBS placed outbound call to c at [redacted] ARBS reached c who requested a Spanish speaking agent. ARBS advised c that ARBS would have someone else call c. C thanked ARBS and call ended mutually. ARBS spoke with ARBS-Ricardo Garcia who agreed to contact c before the end of the day on 26-Nov.
Make Public		Created By Michael Bardwell (11/25/2014 10 36 AM) ARBS notes from DTS inspection report that DTS was unable to duplicate OCS airbag concern during test. DTS also advised that DTS checked idle and that idle was within specs.
Make Public		Created By Michael Bardwell (11/11/2014 1 16 PM) ARBS received confirmation from BBB that inspection should be a DTS inspection not a TE. ARBS reached out to DTS-Devin to confirm. DTS provided inspection date/time of 24-Nov at 1000 PST. ARBS placed outbound call to c at [redacted]. ARBS advised c of proposed inspection date and time, c agreed. ARBS advised to plan to allow for at least 30 mins to spend with DTS for the inspection and test drive. C understood. ARBS advised c that ARBS will plan on following up with c on 21-Nov to provide reminder call. C agreed and call ended mutually. ARBS placed outbound call to dlr and was advised that SM-Keith was in a meeting. ARBS confirmed SM's email address and call ended mutually. ARBS sent SM an email to advise of upcoming DTS inspection. ARBS confirmed DTS inspection. ARBS setting follow-up to 21-Nov to provide reminder call to c for inspection.
Make Public		Created By Michael Bardwell (11/10/2014 11 36 AM) ARBS notes new settlement agreement states that NNA will inspect, not TE. ARBS sent email to BBB-Danny to confirm that settlement is for a DTS inspection, not TE.
Make Public		Created By Heathre Vanriper (11/10/2014 11 30 AM) NIS1429261. DRTS rec'd Settlement from BBB 11/10/14 dated same. States: NNA to inspect veh, warrantable non-conformaties to be repaired under direction of NNA. Terms to be carried out no later than 30 days post date of this letter. See attached for review.
Make Public		Created By Michael Bardwell (11/7/2014 1 54 PM) ARBS setting follow-up to 14-Nov pending TE report.
Make Public		Created By Michael Bardwell (11/7/2014 1 51 PM) ARBS notes confusion between ARBS and BBB and that c had accepted a TE inspection not a DTS inspection. ARBS cancelling DTS request.
Make Public		Created By Heathre Vanriper (11/7/2014 1 48 PM) NIS1429261. DRTS rec'd TE-Request form and hearing cancellation email from BBB 11/07/14 dated same.
Make Public		Created By Michael Bardwell (11/7/2014 1 42 PM) ARBS received update from BBB advising that c has accepted DTS inspection as settlement. ARBS submitted DTS request. ARBS setting follow-up to 10-Nov pending proposed inspection date/time.
Make Public		Created By Michael Bardwell (11/5/2014 2 12 PM) ARBS received update from BBB-Danny advising that c would like to have veh inspected again and asked if ARBS had any objections. ARBS replied advising that ARBS is willing to set up another inspection but asked if BB thought a TE Inspection would be more appropriate as a DTS inspected the veh previously. ARBS setting follow-up to 7-Nov pending update from BBB.
Make Public		Created By Heathre Vanriper (10/31/2014 10 17 AM) NIS1429261. DRTS rec'd NOH from BBB 10/13/14 dated same. States: 11/13/14 9 30 am PST. BBB of LA & Silicon valley-Branch Office 448 S Hill Street LA, CA 900130000. See attached for review.
Make Public		Created By Michael Bardwell (10/29/2014 9 49 AM) ARBS received email from BBB-Danny advising that c stated that c has not had the veh back into the dlr for the airbag concern since the July DTS inspection, but that the airbag light continues to come on and c is asking for a repurchase. BBB asked if ARBS had any offers or should BBB set him for a hearing? ARBS advised BBB that if c is not willing to present the veh for inspection that NNA has no other offers at this time. ARBS setting follow-up to 5-Nov pending update from BBB.
Make Public		Created By Michael Bardwell (10/22/2014 3 23 PM) ARBS notes no update from BBB.

ARBS setting follow-up to 29-Oct pending update from BBB.

Created By Michael Bardwell (10/10/2014 9 20 AM)
ARBS notes the following repair history summary:

3 visits 1 repair and 3 days down for passenger occupancy sensor (only repair recall R1405).
1 visit, 1 repair and 1 day down for dome light;
1 visit, 1 repair and 1 day down for steering wheel alignment;
Make Public 1 visit, 1 repair and 1 day down for vibration at idle.

ARBS does not feel that repair history has been excessive.

ARBS submitted MRF Reply to BBB via fax advising that NNA is not in a position to repurchase/replace veh at this time, however, NNA will continue to honor all applicable warranties.

ARBS setting follow-up to 22-Oct pending update from BBB.

ARBS called c @ [redacted]. Spoke to c.
ARBS asked how the vehicle is doing.
C asked where ARBS is from.
ARBS advised ARBS is from NNA
C asked for more information
ARBS advised that ARBS is from the manufacturer and is asking about the vehicle after the final repair was made with our DTS.
C states the passenger airbag light is still a problem. C states everything they have done to it did nothing to change anything. C states after they fixed it 10 days ago, they have had 4-5 instances of it coming on.
C states he reported all of this.
ARBS asked who the c reported to
C states to the dlr
ARBS apologized for any confusion and advised that the c would have needed to report this to ARBS.
Make Public
C states he has been dealing with the BBB after so many tries to repair this and all they have been doing is reporting back to the dlr after the final repair and they have told them that the problem still exists. C states they have a person there to relay the information to. C states when the rep came down from the manufacturer, the dlr told him he would be carrying on any further information. C states they have reported back to him. C states they were never told
ARBS apologized again for any confusion.
C states they have had too many names with the manufacturer. C states he may have spoken to ARBS, but he isn't sure and he does not recall anyone ever saying that they should tell the manufacturer. They have told the BBB.
ARBS apologized that the BBB has not provided any of this information to ARBS.
C states his friend who weighs quite a bit more, the light came on. C states they were trying to say that it was weight or something to do with that. C states this is all a farce.
ARBS apologized that the c has had the problem recur and based on this, NNA would like to repurchase the veh. ARBS advised we will need some documents for this and would like an email address to which a list can be sent.
C provided [redacted]
ARBS thanked and advised where email would be coming from.
C thanked. The call ended mutually.

DTS inspection:

As for the [redacted] vehicle inspection. I met with [redacted] on the morning of the scheduled DTS appointment. As for their vehicle concerns, had a total of two items of concerns.

(a) intermittently the SRS PABI (Passenger Air Bag Status light) would illuminate while [redacted] occupies the right front seat. She weighs roughly 130 lbs. At first glance I noticed she was not properly sitting within the passenger's front seat: hence, why the PABI system didn't recognize her as an adult; however, I did notice once she became properly seated within the seat, the PABI status light dissipated as expected within the allowable 2 minute update decision. On the most part they have a misunderstanding on how the system operates and why the federal government mandated guide lines for vehicle manufactures to follow. I tried reasoning with them, but they, unfortunately, didn't want to listen to my explanations. This leads up to my repair attempt and reasoning. We issued a NTB (NTB14-084) in regards to similar 2 post PABI system operating and with a past SRS OCS DTC of P00BA0 (OCS abnormal battery voltage), if so, it called for the replacement (depending on the DTC /trouble chart) of the OCS C/U and sensors. In order to rule out any potential issues.

(b) intermittently the trunk would not latch when closed. Unfortunately we (C, Dlr or I) could not reduplicate their vehicle concern., but for the best interests of the Fausts and NNA, I issued a blanket repair attempt in replacement of the rear trunk latch assembly.

ARBS called c @ [redacted] Spoke to c. Asked about December visit.
C states the airbag light was on and when they went to the dlr, he told the c that the recall was over and he could not even come out.
C states they have been to a lot of dlrs and they keep saying if the veh is not acting up, they cannot do anything. C states there is not much documentation out of the state of FL because of what they do. C states the airbag light will hang on for a long time but not long enough to get it to the dlr.
C states everything they got was because if it isn't doing it, they wouldn't look at it.
ARBS asked about the passenger.
C got upset and asked if we were going to get down to the size of the passenger now as if life depends on the size of the passenger.
ARBS advised that ARBS is trying to get preliminary information because the system is very sensitive, but if the c is not comfortable providing this information to ARBS, c and DTS can discuss at the time of the inspection.
C states wife is approximately 5'1" or 5'2" and is about 115 pounds
ARBS asked if c would be able to have his wife at the inspection.
C ignored question. C complained about how the dlr won't do anything.
ARBS asked again.
C states they have been down this road.
ARBS explained MVDN... c cut ARBS off.
C states they have done this before.
ARBS tried to explain.
C states the seat has been reset and resistors put in it and there is a part ordered for the veh.
ARBS explained what a DTS is.
C now understands.
ARBS will call when DTS provides date and time and provide him with preliminary information.
C thanked. The call ended mutually.

Make Public		**Created By Athena Buan (10/8/2014 11 17 AM)** c called and said that the veh is at the dlrshp again because the airbag light is coming on again. crr-ab empathized & acknowledged c's concern. crr-ab asked for c's personal & veh's info. c said that c had an issue with this as well before crr-ab verified info and found a related case no [redacted].

crr-ab provided c's new case no.
c said that c was assisted by SA Nate Banks and was told that
nothing is wrong with the airbag system but the light is coming on again.
crr-ab empathized and asked how nissan can assist.
c said that c would like to get the issue fixed.
c said that it was already fixed before so it probably something to do with
mechanical issues.
crr-ab empathized & checked warranty info and said that it's still within the
mileage and asked if the dlrshp will cover for the repair.
c said that the dlrshp is willing to do what nissan would recommend doing.
c asked for the campaign and was told before that there is no campaign for this.
crr-ab verified info and told c that there are no campaigns for the veh and there
previous ones but were already addressed.
c agreed.
crr-ab informed per CA SOP 8.7: Campaign Information and SAY Statements
that campaigns are vin specific.
c agreed and said that there are different suppliers for the parts.
crr-ab agreed.
crr-ab informed c that case will be escalated to RCAS and still subjective for review and approval.

Make Public		**Created By Angie Mathis (12/4/2014 2 59 PM)** Arbs-ASM spoke with atty-Bob regarding case. Arbs informed atty Arbs provided offer to atty in good faith c owned veh. Atty advised will sue.
Make Public		**Created By Angie Mathis (12/4/2014 2 57 PM)** Arbs-ASM received email from Gracie: Hello Angie: Thank you for the response. However, there is a binding settlement in this matter. Please confirm NNA will not honor the settlement we will file suit to enforce his underlying claims as well as file a Motion to enforce the settlement. Gracie Arbs responded: Gracie, When Bob and I spoke regarding this case, I made a good faith offer to him with the understanding the customer still owned the vehicle. Additionally, how would the customer sign our release, which has been used countless times by your firm, which requires the customer to declare they are the owner of the vehicle? The customer cannot complete the understood conditions of the settlement. Thank you,
Make Public		**Created By Angie Mathis (12/3/2014 10 02 AM)** Arbs-ASM received email from Gracie with atty office: Hi Angie: I just hung up with hi[redacted]ed another Nissan. He sent me the registration for the new Nissan, but that won't help you. However, he said it is still registered the same as the old car [redacted] Gracie Arbs responded: Hi Gracie, I apologize, but without the customer owning the vehicle, NNA would be unable to offer a settlement on this case. Thank you,

Make Public		**Created By Angie Mathis (12/2/2014 9 49 AM)** Arbs-ASM received email from atty-Bob:

Hi Angie:

Good speaking with you on 11/20/14. Please accept this e-mail as confirmation this matter is now settled for your most gracious offer of $5,500 00 to settle the underlying claims, plus $1,750.00 to settle my firm's bill of fees and costs (or as you like to say it, $7,250.00 inclusive).

Please e-mail me a proposed Release and thereafter provide a single combined settlement check payable to my client and firm. Thanks for working with me.

Bob

C answered

RCAS-LB informed C that documents have been received and RHR has been created and submitted
RCAS-LB asked C RHR questions.

Questions for the customer:
Why do you want to return the vehicle to Nissan North America? Because I have had many problems with the veh. I've had the veh since 2013 and I have to bring the veh to Tasca 2 twice a month for repairs and it has become a big issue.
Where is the vehicle currently? c has the vehicle
Where was the vehicle purchased? Tasca Nissan
Was it purchased new or used? New
If used, when was the vehicle purchased? N/A
Where is the vehicle serviced? Tasca Nissan
Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers? No

RCAS-LB informed C that the review process takes 5 business day and RCAS-LB will follow up with C in 5 business day or if the decision is made before then.

		Created By Benjamin Pastor (10/22/2014 4 20 PM) RCAS received an email from CSM recommending DTS if there are any current veh concerns. RCAS called C a[redacted]t 4:54 PM EST and spoke with C. RCAS states that RCAS is not in the position to repurchase veh at this time. RCAS states that Nissan can send a special technician to inspect veh concerns at dlr and it is necessary to schedule an appointment for C to bring veh to dlr.
Make Private	✓	C states that C has brought veh to dlr 5 times already and wants Nissan to replace veh. RCAS states that RCAS worked case and Nissan cannot replace veh at this time, and C became upset and hung up. Summary: C called CA to request a repurchase for multiple repairs attempts to veh. RCAS contacted dlr and Techline about veh concerns, and Techline recommended a DTS inspection. RCAS submitted RHR which was denied and CSM Fernando Hernandez recommend a DTS inspection for veh concerns. RCAS spoke with C and gave denial and C became upset and hung up.
Make Public		**Created By Mae Strenciwilk (10/20/2014 1 41 PM)** MT MS received request for letter to be mailed to the customer. MT MS mailing letter to customer. Thank You!
Make Private	✓	**Created By Benjamin Pastor (10/20/2014 1 22 PM)** RCAS attaching in-warranty RHR denial letter to case. RCAS submitting correspondence request for in-warranty RHR denial letter to be sent to C.
Make Private	✓	**Created By Benjamin Pastor (10/20/2014 12 51 PM)** RCAS sending email to CSM Fernando Hernandez, FOM Curtis Threet, and DOM Michael Otani about RHR denial and goodwill recommendation.
Make Public		**Created By Michael Bardwell (10/20/2014 11 20 AM)** Based upon the RHR provided and a good faith review of customers concerns, NNA is not in a position to offer a repurchase of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties. NNA appreciates that once a consumer begins to experience problems with a veh that c's confidence in the product declines. Ideally, no one should ever have to go through the inconvenience and uncertainty that arises when a veh has problems. However, in reality, vehicles are made up to numerous parts and assemblies, and occasionally problems arise that need to be addressed. There are no guarantees that every veh will operate perfectly; some maybe trouble free while others may exhibit failures to a greater or lesser degree. The purpose of warranties is to assure that vehicles are repaired without charge during the warranty period. While understandably troubling to the consumer, it appears that this current condition does not substantially impair the use, value or safety of this vehicle. While there are no guarantees that all features of this vehicle will operate without failure in the future, at this time ARBS does not feel the repair history has been excessive. NNA is not in a position to repurchase/replace vehicle at this time. ARBS recommends RCAS consult with CA Management and CXM for any possible further assistance.

RCAS called Techline at (770) 437-7496 at 4:26 PM EST and spoke with Representative Mike.

Make Private ✓ RCAS explained veh radio, airbag light, bluetooth, and navigation concerns, and Rep states that Nissan released a new update last Friday for navigation system that should help resolve radio, bluetooth, and navigation concerns.

Rep recommends a DTS inspection for airbag concern.

RCAS thanked Rep and call ended mutually.

RCAS called C at [redacted] at 3:59 PM EST and spoke with C.

RCAS states that there is not a case decision yet.

RCAS asks to know more info about veh concerns.

1. C states the airbag light has come on 5 times and normally stays on for 10-15 minutes.

Make Private ✓ RCAS asks when airbag light concern started and if light comes on when a passenger is seated, and C states airbag concern started 2-3 months after C purchased veh and light comes on when no one is seated in veh and 1 time when c's daughter was seated.

2. C states C has taken veh to dlr multiple times because radio has not been working properly.

C put veh in reverse one time and screen went red and radio turned black for 10 minutes last week.

3. C states that veh's navigation system does not work properly and GPS does not give right directions to destination.

4. C also states C feels like veh jumps when C is driving slowly.

RCAS states that RCAS will call Nissan's technical support team about veh's concerns.

RCAS setting follow up 10/22/14.

RCAS called CERRITOS NISSAN at 5624022277 at 3:36 PM EST and spoke with SM Peter.

RCAS asks for dlr to fax all ROs to RCAS and SM requests for RCAS to email SM and SM will email all ROs back to RCAS.

SM provided email pgohil@cerritosnissan.com .

•How many times has the customer's vehicle been in for repairs? 5 times
•What repairs were performed?
•How many days has the vehicle been kept out of service at your dealer for repairs?
•Has TECH LINE been involved? no
•Has the Dealer Technical Specialist (DTS) been involved? no

RCAS asks if veh has been done at dlr for 7 days or more at one time, and SM states no.

SM states that C brought veh to dlr for radio, navigation, and blue tooth concerns two times but were not duplicated.

RCAS asks if there is a RO for customer's last oil change when cap was not tightened, and SM states dlr performed oil change and cap was not tightened properly.

SM states that C drove veh back to dlr with windows up and smoke entering veh which C should not have done and dlr called an ambulance to take C to hospital.

SM states SM will email all ROs to RCAS.

RCAS thanked SM and call ended mutually.

C's name: Maria Araujo
#'s provided by c to call: [redacted]
C's vin # (if c provides):
C's address [redacted]
Bellflower, CA [redacted]
C's campaign info provided to c:

RCAS checked for previously related cases found: none
RCAS checked for previously unrelated cases found: [redacted]
RCAS verified and updated C's name,address, primary & alternative phone #'s, email, VIN, mileage, how acquired veh and srv dlr.
RCAS checked for open campaigns found: none

RCAS received a call from C stating C has taken veh to dlr multiple times for 3 problems and no longer wants veh. C states:
1. the veh's radio makes a strange noise once a month and does not work
2. airbag light blinks to say airbag is off
3. blue tooth disconnects and navigation system does not work

C states dlr has not been able to fix these concerns.

C also states that C took veh to dlr last week for repairs because of a noise and veh did oil change and C picked up veh from dlr and while driving home veh smelled like gas. C states that C put air conditioner on and veh started to shake and then C noticed smoke from under hood. C's son opened hood and saw the top was not on and oil was spilling everywhere.

Make Private ✓

C called dlr and no one attended and C was put on hold and then call disconnected. C states that C drove back to dlr and C felt dizzy and weak and short of breath and dlr called an ambulance and C went to hospital.

C states that C feels better and has talked to a lawyer but C wants to try to resolve case with Nissan first before a lawyer.

•Why do you want to return the vehicle to Nissan North America? C purchased a new veh but has taken veh to dlr multiple times for repairs and has lost time from work
•Where is the vehicle currently? in C's possession
•Where was the vehicle purchased? at CERRITOS NISSAN
•Was it purchased new or used? new
•Where is the vehicle serviced? at CERRITOS NISSAN
•Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers? no

RCAS advised that RCAS created a dlr complaint for experience that C had and dlr did not do repairs correctly and Nissan will handle complaint internally.

RCAS states RCAS will work case for a possible repurchase and such cases are reviewed on a case by case basis.

RCAS asks who has helped C at dlr, and C states SA Gustavo normally helps C and SA Peter helped C the last time when C had to bring veh back to dlr after oil change.

RCAS states process may take 10 business days and RCAS setting follow up for 10/14/14.

RCAS provided C with name, ext. 458191, and case #.
RCAS offered further assistance. C was satisfied & declined further assistance.
RCAS thanked C for calling CA.

Make Private	✓	**Created By Marisol Patino (10/30/2014 11 08 AM)** RCAS-MP is closing case as no further assistance is needed. =========Case Summary========== RCAS-MP received case and c is requesting assistance Air Bag Light concern. RCAS-MP reviewed and found that the concern has not been duplicated. RCAS-MP closing case until further diagnosis is made. RCAS-MP closing case no further action needed.
Make Public		**Created By Kalia Johannes (10/30/2014 10 27 AM)** TL-KJ sending case to RCAS-MP for summary and closing as c has refused additional diagnosis.
Make Public		**Created By Kalia Johannes (10/30/2014 10 26 AM)** TL-KJ made outbound call to c on [redacted] and was advised calls are recorded. TL disconnected call. RCAS is not to call this line. *** TL-KJ made outbound call to c on [redacted] nd spoke with c. C advised that c's passenger air bag light has been going on and off intermittently when someone is sitting in the passenger seat. C advised in NJ c re-checked all of the codes and reset them and did a zero point reset. C advised c spoke with CRR and was transferred to RCAS. C advised that RCAS advised that NNA cannot inspect the veh after the dlr advised that someone would inspect the veh. C advised that the light goes in when c's wife is in the seat indicating that the air bag is off. TL advised that the dlr stated has been unable to duplicate the concern. C agreed but advised that the concern only happens when c's wife is in the seat. TL understood and recommended that c bring the veh to the dlr with c's wife and demonstrate the issue for c. C refused and advised the concern is intermittent, C's wife got on the phone and advised that if the light comes on at 11 pm is someone from the dealer going to come and meet c? C advised c can take a video of the concern. TL advised that a video of the light would not indicate any codes or what component may be causing it and that c would need to demonstrate the concern for the dlr. C advised c feels someone from NNA should inspect the veh, TL understood but advised if the concern is that intermittent that c does not feel c can demonstrate the concern for the dlr and the dlr has been unable to duplicate, NNA will not send an inspector. C wished to discuss hypothetical situations and if c was in an accident and the air bag does not go off what then? TL advised that there are many sensors in the veh and every air bag will not go off in every impact. TL advised cannot discuss hypothetical situations. C advised c has a friend that has another veh, non-NNA, and that the c's friend had the same problem and the entire system was replaced. TL advised that NNA's warranty does not cover parts replacement if there is no indication of a concern, that NNA cannot simply throw parts at a veh. C advised c will simply call c's local TV station. TL understood and thanked c for c's time, call ended mutually.
Make Private	✓	**Created By Marisol Patino (10/13/2014 11 09 AM)** RCAS-MP contacted C @ [redacted]. RCAS-MP inquired about C's concern. C states the passenger air bag light goes intermittently. C states it did not do it for a long time but it started doing it again. C states C took it to the dealership and was advised that everything was okay but the light is going off again. C states C took it to the dealership last week and the dealership reset the air bag light. C states C is going on a trip and the air bag light is off and that is not safe. C states C was advised by a SA that sometimes NNA sends a DTS to look at customer's vehicles. C states C has looked at some blogs and about 20 people have complaint for the same concern. RCAS-MP apologized to C for C's inconvenience. RCAS-MP explain to C that NNA does not sent a DTS unless the dealership has been able to duplicate the concern and have not been able to correct the concern. RCAS-MP explain to C that the dealership has determine that C's vehicle is operating as design. C states C does not believe that's good enough. C states RCAS-MP should look at this situation as going to the doctor. C states the dealership was the bad doctor that could not find C's concern and now C has gone to NNA who is supposed to be the better doctor and find a resolution for C. C states SA-Lex told C that NNA would send a DTS.

C states the car is defective.
C states C needs a DTS to inspect C's vehicle.

RCAS-MP advised C that the dealership has determine that the vehicle is operating and as design and if C disagrees with this C can take the vehicle to a second dealership for a second opinion.

C states just because the dealership cannot duplicate the problem does not mean there is not a problem.
C states NNA has a right to do a recall or update a code.
C states the dealership did not test the car, C states the dealership did not a good job.

C states C would like to speak to RCAS-MP supervisor.

RCAS-MP advised C that a TL will contact C tomorrow.

C states C is going to be out of the country for two weeks and would like for a TL to contact C after Oct. 29.

RCAS-MP understood and wished C a good trip.
Call ends mutually.

Laws cited-Breach of contract, breach of warranty (expressand implied), and claims related to the Colorado Consumer Protection Law, the Colorado Lemon Law, and the Colorado Motor Vehicle Repair Act.

Nonconformity is a defect in the passenger side airbag. When an adult is in the passenger seat a light illuminates along with a message that the sensor does not detect an adult in the seat, and therefore the airbag will not deploy in an emergency. The sensor light does not illuminate when a child sits in the seat.
Several repair attempts have been made but all attempts have failed to resolve the defect.

Customer requests to settle their claims for a fair value, taking into account the anxiety, inconvenience, frustration and expenses they have endured. If issue is not soon resolved in an acceptable manner a lawsuit will be filed to include but not limited to, breach of contract, breach of warranty and claims related to the Colorado Consumer Protection law, the Colorado Lemon Law and the Colorado Motor Vehicle Repair Act.Advising to set forth at C R.S. 42-10-103. All recoverable costs,to include interest and attorney fees will be pursued.

Asking to contact the attorney office on or before October 29,2014 to discuss an amicable resolution of this matter, and avoid expensive and unnecessary litigation.

Letter attached.

C said that the dlr already performed the recall about the OCS last May but c said that the issue is still happening. C is wondering if c can bring the veh back to the dlr so that the dlr can fix the veh for free. Diagnosed: Not yet. SA: Vanessa CRR-jA check the vin and explain to c that c can bring the veh to the dlr since the veh still has an active Basic Warranty. CRR-JA explain that the dlr have to diagnose the veh first and if the dlr found out that the issue is a manufacturing defect, the dlr have to follow the warranty information. CRR-JA asked c for further assistance but c decline. CRR-JA provided name, case and extension number. CRR-JA inform c about the survey. Crr offered to transfer call to the dlr: c agreed CRR-JA is closing the case.

		Created By Jordan Atchley (12/1/2014 10 05 AM) ***CASE SUMMARY*** C contacted Nissan CA requesting assistance with passenger airbag light turning on and off.
Make Public		***STATEMENT OF DECISION*** RCAS-JA scheduled DTS. DTS found veh to be operating as intended. RCAS-JA offered SC for $150 for C's inconvenience.
		Created By Jordan Atchley (11/26/2014 12 18 PM) RCAS-JA placed outbound call to C at [redacted] C states appointment went ok. C states C is not completely satisfied. C states manual states 100 lbs. C states girlfriend weighs 122 lbs. C states light still goes on. C states C does not have any other concerns. C states C will live with light on. C states C wants compensation for times in. RCAS-JA informed C A service credit can be issued at the rate of once per VIN per customer. If the customer has received a service credit according to the VIN history, the customer IS NOT ELIG BLE for a service credit. The new owner of a pre-owned vehicle IS ELIG BLE if there is no prior history indicating the "new owner" has received a service credit. A service credit debit card CANNOT be issued to reimburse a customer for previous services.
Make Public		Valid at any Authorized Nissan Dealer/Infiniti Retailer. Approved for any service (valid only if genuine Nissan/Infiniti parts are used), or for the purchase of any genuine Nissan/Infiniti parts or accessories. This offer is valid until the expiration date, six months from the date that the service credit is offered to the customer. The debit card can be used until the balance reaches "0" or until the expiration date. If there is a balance at the end of the 6 month term the balance will be forfeited. The Service Credit may NOT be sold to another VIN. RCAS-JA verified C's address. RCAS-JA offered $150 SC for future service. C states ok. RCAS-JA inquired if C needs anything else. C states no. RCAS-JA thanked C for calling NNA. Call ended mutually. RCAS-JA closing case pending SC approval.

DTS MW met with Mr. & Mrs. [redacted] and the explained their concerns as a vibration felt in the passenger seat while stopped with the vehicle in drive and the Passenger Airbag Off light coming on sometimes with a passenger in the seat.
We adjusted the engine target idle to 688 RPMs to resolve the vibration concern.
We found DTC P00A0 in the Air Bag system and ordered the seat bottom frame with sensors and the OCS control unit per TSB NTB14-084.

DRTS in receipt of a customer letter from [redacted], sent on 10/06/2014 and received on 10/09/2014. DRTS received the letter on 10/10/2014 and attached the letter to the case.

The customer states the problems she has had or currently has with the vehicle include, seat vibrates badly, only shakes when foot is on brakes, vibrates when stopped, and passenger airbag light comes on. The customer requests for a final repair attempt and if that cannot be done then a buy back of the vehicle. NNA respond date is as soon as possible.

		Created By Vicky Anderson (10/13/2014 3 04 PM) ARBS called C and C stated that she was on lime stone making a left turn and the other vehicle struck C in rear passenger side and the car spun out and hit a pole with C's passenger side front. C stated that she has minor neck and back pain and there was no property damage. C wanted to know why the driver side air bag did not deploy and the passenger side air bags did. ARBS explained to C that the air bags aren't intended to deploy in every incident. ARBS explained to C that this appears to be a matter for C to discuss with C's insurance. ARBS explained to C that ARBS will send C a copy of the Consumer Safety & Air Bag Guide. ARBS confirmed C's address and sent to C via Fed EX. Make Public		**Created By Robert Peterson (1/5/2015 1 10 PM)** • ARBS notes conclusion of case: C requested repurchase after multiple visits for brake noise, alleged no-start, and alternator rattle. ARBS offered $1,500 cash settlement w/ release OR program summary repurchase as GW for repeat visits. C rejected offer, states will retain ATTY. ARBS advised of where to send retainer letter. • C rejected ARBS's voluntary repurchase or settlement offer. • ARBS closing case.
Make Public		**Created By Robert Peterson (1/5/2015 1 07 PM)** • ARBS rec'd the following email from C in response to voluntary repurchase or settlement offer: "In regards to your question on a loan or lease on the car and as i said before i paid $23,5k CASH no loan no lease and as i stated before i DO NOT agree to $1,500 00 as a payment for what you called my troubles nor do i agree to selling u my car that i paid cash for at a 60% of what i paid! i need a safe car of equal value to what i paid for the lemon i have been unsafely driving my children and grandchildren in so I have a appointment to see my attorney today @ 3 and he will be contacting you on my behalf from here on thank u have a nice day" • ARBS responded via email with: "Mrs. Foutch, Thank you for your response. I will log your comments in your file. If you decide to retain an attorney, you will be working with a different agent. In which case, please have your attorney send a letter of representation to: Nissan North America, Inc. Consumer Affairs Department P.O. Box 685003 Franklin, TN 37068-5003 Thank you,"
Make Public		**Created By Robert Peterson (1/5/2015 8 10 AM)** • ARBS sending LOI letter via FedEx overnight [redacted]
Make Public		**Created By Robert Peterson (1/2/2015 5 02 PM)** • ARBS notes NNA is in a position to offer VOLUNTARY (non lemon-law) repurchase of this vehicle. • ARBS emailed C with Nissan's Letter of Intent [to repurchase or settle] as requested by C.
Make Public		**Created By Robert Peterson (1/2/2015 4 49 PM)** brakes rotors issue
Make Public		**Created By Robert Peterson (1/2/2015 4 46 PM)** • ARBS called C to offer settlement ARBS explained that NNA is not in a position to offer repurchase or replacement, but does want to offer C $1,500 settlement for inconveniences. C stated that $1,500 is not enough to compensate C for so much hassle with vehicle, that C ultimately wants a vehicle that will reliably get C and children and grandchildren around town on trips. ARBS asked how C thinks vehicle is unreliable? C explained that C occasionally and sporatically will not start. ARBS advised that ARBS sees some no-start concerns on RO's but have never been duplicated, noting aftermarket alarm/ remote start. C states that SM advised C where to take vehicle for remote start system back when C first purchased vehicle. C attempted to explain that NNA does not feel that vehicle qualifies for lemon law buyback, due to mileage / repair attempts and back then it was all just brake noise. ARBS OFFERED C PROGRAM SUMMARY REPURCHASE/REPLACEMENT ARBS explained to C that NNA could repurchase the vehicle, but explained cash price of the vehicle less usage deduction. C states 40,000 miles, usage would be roughly 40% of value of vehicle. C states that C gave $23,500 for vehicle, would not take a $14,100 buyback. C states that competitors have offered $19,000 for trade-in-value. C states that C will continue through Attorney. C requests ARBS send ARBS's info for C to forward to attorney. C disconnected call.

• ARBS notes after careful review: NNA is not in a position to repurchase/replace the vehicle at this time, as the vehicle has not been subject to an unreasonable number of repair attempts to warrantable concerns that would substantially impair the vehicle. NNA will continue to honor the terms and conditions of all applicable warranties.

• ARBS notes summary of RHR:

*Brake noise: 5 visits / 4 repairs (including GW new wheels)
PABI/OCS: 4 visits (1 recall only) / 2 adjustments (1 recall)
Rattle noise: 1 visits / 1 repair (alternator per TSB)
Extended Crank, No-Start: 3 visits / 0 repairs (DLR recommended taking aftermarket remote-start off)
*Trim and Windshield Fit: 1 visit / 1 SOP

Repair attempts within first 24,000 miles of service: 1 bulb, 3 brake noise, 1 alternator noise*

*ARBS notes bulb blown, brake noise and alternator noise do not substantially impair the use, value, or safety of the new motor vehicle.

		Created By Jessica Goss (11/4/2014 10 02 AM) C stated has OCS concerns and that passenger side airbag light is always on while C's wife sits in passenger seat. RCAS-JG advised C to get current diagnosis. RCAS-JG emailed SM to advised that C would be visiting dlr soon for diagnosis on passenger airbag light. RCAS-JG closing case pending C call back. C reopened case on 10/23. RCAS-JG documented C's concerns and advised to try not engaging the vehicle until C's wife is positioned in the passenger seat. RCAS-JG spoke to SM-JJ on 10/31. SM-JJ advised that vehicle is operating as designed and that the sensors are verifying that it's not safe for the airbags to deploy when C's wife is sitting in the passenger seat. C was not satisfied. C stated that the vehicle in not operating as designed that is not happy with determination that there is not repair needed at this time. RCAS-JG closing case as vehicle is operating as designed and there is no further assistance available to C at this time.
Make Public		**Created By Jessica Goss (11/4/2014 9 58 AM)** RCAS-JG made outbound call to C. RCAS-JG asked if C has tried starting the vehicle after C's wife is positioned in the seat. C stated has. RCAS-JG asked if it has helped. C stated it did not. RCAS-JG advised that had spoke to SM-JJ and that the vehicle has been determined to be operating as designed. RCAS-JG advised that the sensors are determining that when C's wife is sitting in the front passenger seat, the air bag is not safe to deploy. RCAS-JG advised that an airbag deploying is a violent event and in certain conditions is not safe to deploy. C stated understands what RCAS-JG is telling C. C stated that its not acceptable. C stated is not happy. C stated knows this is happening in other vehicles and that other Cs are having similar concerns. C stated no other vehicle C has owned operates this way. RCAS-JG apologized. C stated if the vehicle is operating as designed, then why did NNA recall them. C stated is going to have larger people sit in the passenger seat and show that OCS sensors are not working right. RCAS-JG advised that understands C's concerns but, at time time, as the concern has not been duplicated and it is documented that the vehicle is operating as designed, there is not repair to be made. C stated understands that RCAS-JG is just saying what has been told to say and that RCAS-JG cannot help. C stated that NNA is trying to cover up the concern. C stated that wants RCAS-JG to document that C is not happy and this is not acceptable. C thanked RCAS-JG for help. RCAS-JG apologized for not being able to address concerns to C's satisfaction. C terminated call.
Make Public		**Created By Jessica Goss (10/31/2014 9 45 AM)** RCAS-JG made outbound call to DLR and spoke to SM-JJ.

RCAS-JG advised that C is still having concerns about being instructed that vehicle is operating as designed and wife should sit in the back seat.

SM-JJ stated that no one told C that wife had to sit in the back seat.
SM-JJ stated that vehicle is operating as designed.
SM-JJ stated that if the sensors determine that the air bag is not safe to deploy, the airbag will not deploy.
SM-JJ stated that the vehicle is operating as designed.

RCAS-JG made outbound call to C.
RCAS-JG advised has not been able to reach dlr.
RCAS-JG advised that had received additional information regarding OCS sensors.
RCAS-JG advised that OCS sensor may not classify weight correctly if the vehicle is in drive prior to C's wife getting in the passenger seat.
RCAS-JG suggested making sure C's wife is in the vehicle before putting it into gear.

C stated would try that and see if it works.

RCAS-JG advised will continue to try to reach dlr and follow up with C on 11/4/2014

RCAS-JG made outbound call to C.

C stated that took the vehicle into the dealership 3 times for the OCS sensor light.
C stated that happens every time someone sits in the passenger seat.
C stated that SM showed C a TSB that tells C's to have children or small passengers to sit in the back seat.
C stated that wife will not ride in the back seat.
C stated that SM told C that sometimes people get hurt when they sit in the back seat.
C stated that the light is always on when C's wife sits in the seat.
C stated will not make wife sit in the back seat.
C stated has a copy of the TSB.
C stated that the vehicle is clearly not operating as designed.

RCAS-JG apologized to C
RCAS-JG advised that the sensors determine whether it is safe for the airbag to deploy.
RCAS-JG advised that will followup with SM.
RCAS-JG advised that if the SM determines that vehicle is operating as designed, then there is no further assistance available to C.

RCAS-JG advised will followup with C on 10/30/2014

Re: 2013 Infiniti JX / VIN: 5N1AL0MN6DC [redacted]

Dea [redacted]

We sincerely appreciate you taking the time to contact Nissan regarding your vehicle. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

Nissan carefully considered your appeal and after a review of all available facts, Nissan offers to voluntarily assist you with your request.

In order to complete the process, Nissan requires particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me as soon as possible, as they will be needed to make a detailed offer:

- A legible copy of the vehicle's title(if in your possession) or title application
- A legible copy of the vehicle's current registration
- A legible copy of the driver's license for all vehicle owners
- A copy of the purchase contract for the vehicle
- A payoff confirmation statement from your lienholder(10 day payoff referencing account number, collateral, amount of interest you pay per day, and overnight payoff address)
- A detailed payment history from your lien holder

Please return the requested information to me via fax at (615) 967-2244 or scan and email. We anticipate completing the process within 2 to 4 weeks from the time of your acceptance. Please note: supplying the requested documents does not indicate your acceptance of the offer; you will have a chance to review the fully detailed offer before making a decision.

If you decide you would prefer to keep your vehicle, Nissan would be willing to provide a settlement for $3,500 00. In exchange for this check, you will retain ownership of your vehicle and will sign a Confidential Settlement Agreement and Release of Nissan North America, Inc., all Nissan entities, dealers and suppliers, though all warranties will remain in effect.

If you have any questions you are welcome to call me at [redacted] though email is preferred at amanda.simcox@nissan-usa com. I am generally in the office 8 a.m. – 5 p m. EST Monday-Friday.

Sincerely,

Amanda Simcox

RE: 2013 Nissan Altima / 1N4AL3AP7DN[redacted]

Dear [redacted]

Nissan North America, Inc. (NNA) wishes to finalize this matter as soon as possible. Based on the concerns with the brakes, NNA agrees to repurchase the above referenced vehicle under the terms of the Washington State Lemon Law.

Based on the information above and the documents we have received, the refund calculations are as follows:

Base Price $22,414.00
Taxes $2,129 33
Title & Reg. Fee $190.75
Dealer Doc Fee $150.00
Service Contract $2,000.00
VSC Sales Tax $184 00
Interest Paid To Date $4,360.15
WA Admin Fee $2 50
Subtotal of Credits $31,430.73

Less a reasonable allowance for use** ($2,217.11)
Subtotal of Deductions ($2,217.11)

Total Refund from NNA at Surrender* $29,213.62

Payoff to Capital One Auto Finance ($22,517.11)

Total due to Jessica Zoellin & Orion Quill at time of Surrender $6,696 51

*Since a loan must be paid off in order to obtain a free-and-clear title, the refund will be divided between the consumer and the lienholder with first priority assigned to the lienholder. In the event that the loan payoff exceeds the total refund amount, the consumer will be responsible for the deficiency.

**11,870 miles divided by 120,000 multiplied by purchase price $22,414 00.

I have attached the repurchase agreement for you to read over. The payoff that you sent me from Capital One did not list the Finance charges you have paid to date and you are entitled to a refund. I can revise the agreement when I receive that amount you have paid from Capital One. Keep in mind the GAP that you purchased for $800 is refundable through your dealer.

Please let me know if you have any questions. I will be in the office until 4PM today.

Sincerely,

Thank You for speaking with me this morning concerning the repurchase of your Altima. I have attached the lien holder form for Capital One to complete with your payoff information. I will also need:

1. Sales contract
2. Current registration

There is an allowance for mileage charge and I will be able to let you know what that amount is when I receive all the documents requested.

Sincerely,

Make Public

At this time, NNA is not in a position to offer a repurchase of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns that would substantially impair this vehicle. NNA will continue to honor the terms and conditions of all applicable warranties.

ARBS recommends RCAS consult with CA Management and CSM for any possible further assistance and/or offer a DTS inspection on vehicle.

EXEC-Daniel Ciano spoke with C's wife, who is PoC henceforth.
C requested crash test data on the passenger side airbag for C's veh.
EXEC advised that EXEC is not sure where to find said data, but that EXEC would inquire internally to determine if information is available, and if so, if EXEC is able to share said data, or if data is proprietary.
C requested percentage of DTS repairs that are sucessful in resolving customer's concerns.
EXEC advised that such data is not available, since customers who are satisfied rarely contact EXEC back, and as each case is different, it would be impossible to for EXEC to synthesize such an inquiry into a hard-data response.
C advised that C would like to know anyway.
EXEC acknowledged.
EXEC advised that EXEC would research C's initial data request to determine what data is available, as well as what data can be shared.
EXEC advised that most likely, there will be no internal data that is not proprietary.
C acknowledged.
C inquired as to how C can be sure that any repairs DTS makes are done correctly.
EXEC advised that any repairs that could be made by DTS should resolve C's concerns, but if the repair does not resolve C's concern, then C should contact EXEC asap to reopen C's case if case is closed in order to review C's concerns at that time.
C acknowledged.
EXEC advised that EXEC would email C a DTS verification email and would include EXEC's direct line in the event that C has any further questions.

Re: 2014 Nissan Altima / V N: 1N4AL3AP0EC[redacted]

Dear [redacted]

We sincerely appreciate you taking the time to contact Nissan regarding your vehicle. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

Nissan carefully considered your appeal and after a review of all available facts, Nissan offers to voluntarily assist you with your request.

In order to complete the process, Nissan requires particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me as soon as possible, as they will be needed to make a detailed offer:

- A legible copy of the vehicle's title(if in your possession) or title application
- A legible copy of the vehicle's current registration
- A legible copy of the driver's license for all vehicle owners
- A copy of the purchase contract for the vehicle
- A payoff confirmation statement from your lienholder(10 day payoff referencing account number, collateral, amount of interest you pay per day, and overnight payoff address)
- A detailed payment history from your lien holder

Please return the requested information to me via fax at (615) 967-2244 or scan and email. We anticipate completing the process within 2 to 4 weeks from the time of your acceptance. Please note: supplying the requested documents does not indicate your acceptance of the offer; you will have a chance to review the fully detailed offer before making a decision.

If you decide you would prefer to keep your vehicle, Nissan would be willing to provide a settlement for $2,500 00. In exchange for this check, you will retain ownership of your vehicle and will sign a Confidential Settlement Agreement and Release of Nissan North America, Inc., all Nissan entities, dealers and suppliers, though all warranties will remain in effect.

If you have any questions you are welcome to call me at (989)497-8959, though email is preferred at amanda.simcox@nissan-usa.com. I am generally in the office 8 a.m. – 5 p.m. EST Monday-Friday.

Sincerely,

Amanda Simcox

Make Private	✓	**Created By Danielle Spurling (2/3/2015 3 41 PM)** Summary: C stated that passenger side airbag is not operating correctly. Infiniti sent a DTS to inspect veh twice and determined veh was operating as designed. C requested RHR, RHR was declined. C was unhappy with response and requested escalation. C spoke with TL-WC and TL-TJ who reiterated veh is performing normally Rtlr refused to assist with trade due to amount owed for veh. Decision: EXEC spoke with c and advised NF is unable to assist further as veh is performing normally. C was unhappy with outcome and advised c will be contacting news for c's area. EXEC recommended c continue to work with rtlr. EXEC closing file, no other assistance available.
Make Private	✓	**Created By Danielle Spurling (2/3/2015 3 38 PM)** EXEC-DS calling 916-350-0338 at 2 08 p m. cst EXEC spoke with c and requested verification of concerns c stated pass airbag light did not malfunction until OCS campaign was completed. c stated after campaign, pass airbag light would turn on and off with c's wife (5'3, 125 lbs) and c's 13 year old daughter (5'3, 115 lbs). c stated DTS inspected veh and met with c's wife first in 11/2014. c stated multiple parts in the seat were replaced. c stated repairs did not resolve concern. c stated on 12/30/2014, c met with DTS, DTS hooked up diagnosis tool and advised no error codes found, veh was performing as designed. c stated light continues to come on. c stated c has a video from two weeks ago where c's daughter was in pass seat and light stayed on. EXEC understood and apologized for c's concerns and experience. EXEC advised OCS is sensor that determined if persons in pass seat would be helped or harmed by airbag deployment, in event of incident. EXEC advised if persons is not of appropriate weight or position, airbag is turned off. c understood. c stated c understands the operation of OCS. c stated c's concern is that sensor is not consistent. c stated light is not always ON when c's wife or daughter are in pass seat. c stated light will be on sometimes and off sometimes. c stated c has videos of this happening, but INF has not resolved concerns. EXEC understood and apologized for misunderstanding c's concerns. EXEC advised videos can help rtlr or DTS to understand concern, but unfortunately may not assist in diag. EXEC advised in order to verify and address concerns, NF relies on rtlr or DTS having duplicated item to verify failed part or find error code. EXEC advised without this taking place, there is not enough information for concerns to be properly addressed. c stated this is not satisfactory. c stated c wants INF to provide c with a letter explaining why light is coming on intermittently and why light is not consistent. EXEC advised this would not be possible, as concern has not been duplicated. EXEC recommended c work with rtlr. c stated INF needs to do something about this. c asked who EXEC's boss is EXEC advised is c's highest POC in public faced division. c asked EXEC to verify INF Executives do not talk to customers EXEC advised is POC c stated c will be contacting local news stations to escalate matter because public needs to know what NF has done and how INF does not care about customers. c stated c is a VP in customer service and would talk to customer's if needed. c stated c would not care about OCS or light coming on if light was consistent. c stated c's family is involved and EXEC does not understand and INF does not care enough to address matter. EXEC apologized that c is unhappy with response from NF, EXEC advised is not in a position to diagnose veh. c thanked EXEC for EXEC's time, call was ended.

Received call from c returning call from TL.
TL advised TL called c @ c's request to speak to a spvr.
C asked if TL was aware of the details of the case. TL advised yes.
TL apologized to c for the veh's inconvenience. TL advised c that INF is in receipt of the report from the Technical Specialist regarding the veh. TL advised c that INF has determined that the veh is operating as intended. TL stated TL is aware that there was some conversation between c, the rtlr and DTS about a trade assist. TL explained trade assist offers have to be reviewed by INF Mgmnt and that the DTS may not have been aware. TL advised c that upon review of the case INF is not in a position to offer a trade assist or VPP. TL apologized again to c for the experience. TL advised c that INF is confident in the DTS' assessment of the veh and is confident that the veh is operating as it is intended with no necessary repairs at this time. C stated c does not agree and feels INF does not care about c's loyalty or c's family. C stated since NF does not care, c plans to post to social media today all the personal videos that c has recorded of the air bag light being on, along with comments about c's interactions with the rtlr, the DTS and INFCA. TL empathized with c and the situation. TL attempted to assure c that NF will agree to review c's repurchase request again in the event there are subsequent repairs required to the airbag in the immediate future. C asked to have the case escalated again. TL agreed to escalate the case and advised c will receive a call within 48hrs. Call ended mutually.

RCAS-CB called c at [redacted]
RCASCB advised C that inspection results from DTS are in
RCASCB advised C that DTS was not able to determine if C's veh concern is a defect with the sensor in C's passenger seat
RCASCB advised that the concern does seem to be specific to C's veh
RCASCB advised that due to C not having concern in other vehicles the RTL is looking into a trade assist option for C
RCASCB advised that upper management who assists in these matters at the RTL is OOO until Monday 1/5/15 so a sales manager will contact C on 1/5/15 with the details on the trade
C asked if the trade is a buyback
RCASCB advised that the trade is not a buyback but a trade out handled on the RTL level
RCASCB advised that concern with C's veh could not be duplicated with other passengers and concern may be specific to the weight of C's passengers so NNA would like to resolve concern with a trade out on the RTL level instead of as a buyback in pursuit of lemon law.
C understood
C stated the whole experience has been frustrating
C stated C fears for the safety of C's family in veh
C stated C's only options are to post videos on social media or get a lawyer
C stated that C requested a buyback but INF refuses to buyback veh
C stated that NF is not willing to help C
C stated that C has been a loyal client and has owned Nissan veh's and INF veh's

C requested to speak to a supervisor
RCASCB apologized for the inconvenience and advised that case will be escalated so that manager can contact C on Monday 1/1/15 by COB as manager is OOO for the holiday
C understood
RCASCB offered additional assistance

Mark advised that Sales Manager is crunching numbers to potentially do a trade assist for C
Mark advised that Sales Manager will follow up with C by COB on Monday 1/5/15 once FOM is back in office to assist in any way possible from corporate
RCASCB understood
RCASCB advised will follow up with C to provide update and advise that case is still under review as majority of management team who can assist in this matter is OOO until 1/5/15
RCASCB confirmed with Mark that DTS found veh to operate to factory specs but to renew C's confidence in the safety of the brand and to continue to retain C's loyalty, will work on trade assist option instead of pursuit of Lemon Law review

Arbs notes 9 days down
Arbs notes C's concern with airbag light no going off
Arbs notes no duplication for 1st visit for airbag concern
Arbs notes 2 service visits for airbag concern
Arbs notes 1 installation ACU unit
Arbs notes RCAS has scheduled DTS Inspection for 12/30

ARBS notes, at this time, NNA is not in a position to offer a repurchase of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns that would substantially impair this vehicle. NNA will continue to honor the terms and conditions of all applicable warranties.

Arbs recommends RCAS review the matter with RCAS's TL and CSM to determine the best course of action for the file.

Make Private	✓	**Created By Benjamin Pastor (10/15/2014 3 34 PM)** RCAS called C at [redacted] at 4:23 PM EST and spoke with C. RCAS states that RCAS spoke with dlr and was told that dlr only performed oil change and never did a veh diagnostic about airbag light concern. RCAS advised C to have veh diagnostic at dlr for any needed repairs, and C states C has a service appointment for 10/20/14. RCAS provided RCAS's contact info stating C can call back if needed. Summary: C called CA stating C took veh to dlr for OCS airbag service campaign but airbag light comes on almost everyday and dlr could not help C. RCAS contacted dlr and was told dlr never did veh diagnostic for airbag concern. RCAS spoke with C and advised C to take veh to dlr for a veh diagnostic and C can call RCAS back if needed.
Make Private	✓	**Created By Karen Dorner (10/15/2014 10 49 AM)** SRD-KD assisting SRD called Alhambra Nissan 6262896161 at 11:45 Am Est, SRD advised SM not available. SRD spoke with SA Issac. SA stated campaign was done 5/15/14 and C has not come back in for concern. SA stated C came in for free LOF and never mentioned air bag concern. SRD advised SA C also has paint concern. SA stated for C to make appt to come in and speak with SM for concerns. SRD thanked SA
Make Private	✓	**Created By Benjamin Pastor (10/14/2014 1 47 PM)** C's name: [redacted] #'s provided by C to call: [redacted] C's vin # (if c provides): 5N1AR2MN6D[redacted] C's address: [redacted] SAN GABR EL, CA [redacted] C's campaign info provided to C: RCAS checked for previously related cases found: RCAS checked for previously unrelated cases found: [redacted] RCAS verified and updated C's name,address, primary & alternative phone #'s, email, VIN, mileage, how acquired veh and srv dlr. RCAS checked for open campaigns found: none RCAS received a call from (C's wife [redacted] now referred to as C) stating C took veh to dlr for OCS service campaign six months after purchasing veh but airbag light comes on almost everyday. C states that the light comes on at random times for different lengths of time sometimes 5 minutes, 10 minutes, or 30 minutes. C states C went back to dlr and was told dlr could not duplicate concern and C is worried that this is a safety issue for C's family. C also states that there is a very small paint concern near front tire and C wants to know if paint repairs will be covered under warranty. RCAS advised that veh does not have any open service campaigns. RCAS states that RCAS will work case and call dlr for more info about airbag concern. RCAS states that veh still has basic warranty for 3 years or 36,000 miles whichever comes first to cover paint concerns that are factory defects and advised C to take veh to dlr for a veh diagnostic. C states C can only take veh to dlr on Mondays. RCAS setting follow up for 10/17/14. RCAS provided C with name, ext. 458191, and case #. RCAS offered further assistance. C was satisfied & declined further assistance. RCAS thanked C for calling CA. RCAS closing case due to no other follow-up action required.

Make Public		**Created By Wendy Martin (10/21/2014 3 27 PM)** C stated that the veh is still at the dlr c stated that the dlr is not repaired yet c stated that the veh has alot of repairs that have to be done to veh C stated that the dlr stated that all the repairs will be done by Friday c stated that the c has brought the veh back to the dlr at least 5 times for the same concern C stated that c had a concern with the headliner and the dlr had to order a new one and the dlr is replacing that part as well . C is just really frustrated that the air bag light keeps going off and the dlr states it is fixed and then two months later it starts doing the same thing C feels c has been more than patient RCAS-WM apologized to c for the continued experience RCAS-WM stated to c that RCAS-WM will contact dlr and speak with Amanda as requested by c RCAS-WM stated to c that RCAS-WM will follow up with c on Friday after RCAS-WM speaks with dlr.
Make Private	✓	**Created By Marisol Patino (10/16/2014 2 52 PM)** RCAS-MP contacted C @ [redacted] RCAS-MP inquired about C's concern. C states C has the vehicle in the shop right now. C states this is the 4 or 5th time C has the vehicle at the shop for the air bag ligth. C states C performed the recall but the concern it's still there. C states C has been told that there is a weight restriction of 80 pounds. C states the dealership is in the process replacing the seats. C states C was told by the SA to call NNA and report C's concern. C states C expend $37,000 for a vehicle that C does not feel safe in. C states there should not be a weight restriction. C states C is very disappointing. C states C's dream car is 370Z Nismo but C is starting to doubt about purchasing that. C states RCAS-MP can take a look at all the stuff that has been done to C's vehicle. RCAS-MP asked when C is getting the vehicle back. C states is supposed to be tomorrow. C states this car is a joke. C states multiple things have been replaced. C states C purchased the car brand new and is now questing the quality of the vehicle. C states if C has another problem with this C will be talking to somebody about lemon law. RCAS-MP understood and apologize to C. C states C needs to know that the security of C C states if the dealership gets the vehicle fix C states C is scared of the vehicle and the air bag not working for C's wife.

C states the problem is intermittent.
C states C has no peace of mind with the vehicle.

C states C wants to know what other options C has.
C states this whole situation is very frustrating.
C states if C had to go buy a vehicle right now it would not be a Nissan because C cannot trust it and that is a really sad thing to say because C really loves Nissan.
C states C wants the dealership to really make sure the vehicle is completely fix before C gets it back.

RCAS-MP understood and advised C that the dealership is doing everything possible to fix C's vehicle.

C understood.

RCAS-MP advised C that RACS-WM will continue to follow up with C next week.

C understood.
Call ends mutually.

RCAS-MP contacted the SA-Brian.
RCAS-MP inquired about C's concern.

SA-Brian states the recall has been done and the sensor has been replaced.
SA-Brian states the sensor will be replaced again for customer satisfaction.
SA-Brian states that the concern only comes up when C's wife seat's in that seat.
SA-Brian states C's wife waits 100 pounds.
SA-Brian states 80 pounds is the border line.

RCAS-MP asked if SA-Brian is aware of C's windshield concern.

SA-Brian states the windshield's came from the factory like that and in the right top corner the sealing did not adhere completely.
SA-Brian states the windshield has been replaced and the headliner will be replaced as well.

RCAS-MP asked if the air bag light was the only concern at the moment.

SA-Brian states that is correct.

RCAS-MP thanked SA-Brian for the info.

CRR RM received a call from C regarding an ongoing issue with C's 2013 pathfinder

C said the issue is regarding the passenger seat airbag light

C said C was told that there has to be 80lbs to turn the lights off
C Said C was told that under 80lbs it wouldnt even register

C said the next step of the dealership for the ongoing issue is replacing the seat cushion

C said C wants Nissan to assist C with this or C will not buy another Nissan anymore

C said C is also having issue with the windshield leaking, C said C was told that the dealership will replace the windshield

CRR RM apologized to C for the inconvenience

CRRR RM told C that CRR RM will be creating a case for C
CRR RM advised C that case will be escalated to Regional Dept for review.
CRR RM advised C to expect a call within the next business day.
C understood.
CRR RM offered further assistance, C declined.
CRR RM provided name, ext and case number.
CRR RM leaving file open, transferring resp to rcas.

C: "I've had my 2014 Altima in today for the 3rd time since the recall for the air bag light. I've gotten all excuses pointing to us instead of admitting there is an issue. I've seen dozens of complaints online from others having the same issue. I do not feel safe in this car. What needs to be done before Nissan fixes the problem?

Bridgewater Nissan is the dealer, The V N is 1N4AL3AP0EC[redacted]. I don't know where to find a "case number", but I have numbers on the paperwork they gave me today."

SSA: "Good morning, Brian.

Thank you for reaching out to us and we apologize for the continued concerns with your Altima. We, our dealers, and our Consumer Affairs Specialists work daily to deliver an outstanding ownership experience that will earn your confidence and trust. We have documented your concerns and have created a case with Consumer Affairs on your behalf.

Make Public Crr-sd received call from c.
c was upset that c's been at the nna dlr for 3 times for the same issue.
c stated the airbag light keeps on coming on and the campaign that was released did not resolve the issue. c's been dealing with SM Frank Agustino who up to now hasn't called c. c last visited the dlrship in 10/06/2014.

Crr-sd asked how can nna help c.
C stated c want nna to fix the issue permanently.

Crr-sd advised c that case will be transferred to RCAS for review and to give proper resolution to c's concern and c will be contacted before the end of the next business day. C agreed. crr-sd offered further assistance. c declined, c satisfied.
Crr-sd provided c with case number, name and extension number.
Crr-sd transferring case to RCAS.

Mr. Patrick:

Unfortunately, the brochures you sent to me are a bit outdated. Only one part on the brochure is still correct, the parameters. The coverage is still valid for existing plans, but for the new ones we have different brochures and coverage.

For your client, we are offering Gold Preferred for 84 month/100,000 miles. More information about the coverage will be mailed to them after I will submit the request. The extended warranty is transferable to another owner, and more information about the process will be sent in the contract.

I will prepare the settlement agreement and will send to you very shortly.

Hi Anna. My clients will accept $6500 plus the Gold Preferred warranty offered below, provided the information attached is an accurate description of the Gold Preferred Warranty. My clients moved to OK last week and cannot find the current registration. They are planning to visit the nearest DMV in Texas and will send it to me ASAP, but can we please get the release to keep the process moving? They understand that release of the settlement funds is conditioned upon providing a current registration. Thank you!

Previous cases [redacted]
Open recalls\campaigns-none

DRTS in receipt of Attorney Letter received 10/14/14 sent via US mail from Patrick Law Firm, signed by Craig M. Patrick. Letter dated 10/7/2014.

Laws cited-breach of written and implied warranties and violation of MMWA. Also in violation of Texas Deceptive Trade Practices Act.

Nonconformities to include the transmission, shuddering, jerking, back up camera, electrical, air bag light, and pulling right. Defects still present.

Customer is requesting that NNA rescind the transaction of the vehicle purchase. Upon agreement to cancel the transaction the vehicle will be returned in exchange for a full refund of the money paid for the vehicle, less a reasonable charge for their use of the vehicle. Alternately, $15,000 cash in full and final satisfaction of their claim. To include the amount of fees as of the date of this letter is $3,500, paid in addition to any repurchase or cash settlement, for a total of $18,500.

Requesting to settle this matter in a fair and equitable manner without the need for further legal action Letter states in the event NNA does not take advantage of this settlement offer, there will be no alternative but to recommend to the customer that a lawsuit be filed. In the event of a filed lawsuit, rather than seeking only the amount of compensation that is being requested, a full measure of damages will be sought in which the customer is legally entitled to along with customer's expenses and attorney's fees.

If interested in resolving this matter without litigation, contact with sufficient time to resolve within 60 days of receipt of letter.

Letter attached.

		Created By Angie McVey (11/14/2014 2 40 PM) After review the following was sent to the customer's attorney via email: Dear Mr. Krukas: This office is in receipt of your letter regarding the above referenced Nissan customer. I have taken the time to review the complaint and the service history on the vehicle.
Make Public		Based on the information available it appears the vehicle was purchased in February 2013 and has approximately 30,000 miles. There were no more than 3 visits for any one complaint and it appears all concerns were resolved in September as evidenced by the lack of return with further complaint. An automobile is made up of thousands of various components and parts which are made by man, and assembled by man. Our wish is that there is never a failure however there is no guarantee given, but our word in the form of the warranty to assure that if it does we will cover the repair. While this is not the experience we would desire for our customer, Nissan has never failed to comply with the warranty that was given. Given this information Nissan would not be able to provide the resolution being sought. Thank you for allowing Nissan to review this matter.
Make Public		**Created By Angie McVey (11/14/2014 2 08 PM)** History found as follows: 1/28/14 at 16,486 miles-1 day down Concern 1. C/S drivers front window will not go up Action 1. c stated c took veh to rtlr on 10/16. c stated sa told c again that system is sensitive. c stated c got upset with sa because airbag is not operating properly and should always be on.
c stated c asked to talk to SM. c stated sa told SM that c was cursing at sa. c stated that is a lie. c stated SM told c rtlr would diag veh, but c was no longer welcome in svc dept.
c stated c purchased veh 30 miles away in Escondido, this rtlr is 12 miles away. c stated c expected better customer service from rtlr. c stated rtlr gave c a 5 passanger veh as loaner, which does not accomodate c's family. c stated c has yet to receive update from rtlr.
c stated c is frustrated with experience.
rcas understood and apologized for experience. rcas advised concerns are documented.
c stated rtlr found code with airbag and said Infiniti would be contacted. c stated c is purchasing veh and no longer wants it. c stated c would like INF's assistance in getting out of veh.
rcas advised rtlr may be in contact with tech dept. rcas advised rcas will 1. Contact rtlr SM and ask that c be contacted with an update, 2. Obtain update on veh status, 3. Inquire if larger loaner is available, and 4. Begin 10 day process of review for repurchase. rcas provided contact information and advised rcas will follow up on 10/20.
c thanked rcas, call was ended.

rcas sent email to SM-Tom requesting information on veh concerns and that c be contacted with update

crr-kf empathized and acknowledged.
crr-kf authenticated the account.
crr-kf checked the information that C needs.
crr-kf cloned a case.

crr-kf informed C that crr-kf will escalate the concern to RCAS and that somebody will be calling C before the end of the next business day. C stated that the best contact number to reach C is [redacted]

crr-kf asked for further assistance. C said NO

crr-kf provided case number [redacted] name and ext number
crr-kf ended the call.
crr-kf leaving case open and setting follow up on 10/20/14

comments : Hello,

I have what I consider to be a very serious safety issue with my 2014 Pathfinder. The passenger airbag light sometimes comes on when either my wife or 15-year-old daughter is riding in the front passenger seat, which indicates the airbag would not deploy if we were to be in a head-on collision. This issue persists even after we took the vehicle back to the dealer for them to perform the safety recall repair for this issue.

We took the vehicle in to the dealer (Gates Nissan, Richmond KY) for service two weeks ago, and asked them to look at this issue along with the other scheduled maintenance items. When they returned the vehicle to us, they said they hadn't been able to pin down a root cause but were still looking into it, and would call us to advise what to do. However, to this point we have not received a call from them. Instead, we have seen several recurrences of this problem, and I have called Gates to report it each time. Each time I have called, I've been told that they still don't have an answer, but that they'd look at it again when we bring the vehicle back in for them to replace the sun visors (they're waiting on the new ones to arrive).

I feel like this is a potentially very serious safety issue, and whenever we drive the vehicle, I'm concerned about whether the airbags would properly deploy in the event of an accident. I am extremely dissatisfied that Nissan Service would relegate an issue of this nature to the same level of urgency as replacing the sun visors.

I am writing this note because I have been unable to convince Gates Nissan's Service Manager of the urgency of this problem. I would appreciate if someone at Nissan can help escalate the resolution of this so it gets proper attention.

Thanks,
Steve Bush

comments : Hello,

I have what I consider to be a very serious safety issue with my 2014 Pathfinder. The passenger airbag light sometimes comes on when either my wife or 15-year-old daughter is riding in the front passenger seat, which indicates the airbag would not deploy if we were to be in a head-on collision. This issue persists even after we took the vehicle back to the dealer for them to perform the safety recall repair for this issue.

We took the vehicle in to the dealer (Gates Nissan, Richmond KY) for service two weeks ago, and asked them to look at this issue along with the other scheduled maintenance items. When they returned the vehicle to us, they said they hadn't been able to pin down a root cause but were still looking into it, and would call us to advise what to do. However, to this point we have not received a call from them. Instead, we have seen several recurrences of this problem, and I have called Gates to report it each time. Each time I have called, I've been told that they still don't have an answer, but that they'd look at it again when we bring the vehicle back in for them to replace the sun visors (they're waiting on the new ones to arrive).

I feel like this is a potentially very serious safety issue, and whenever we drive the vehicle, I'm concerned about whether the airbags would properly deploy in the event of an accident. I am extremely dissatisfied that Nissan Service would relegate an issue of this nature to the same level of urgency as replacing the sun visors.

I am writing this note because I have been unable to convince Gates Nissan's Service Manager of the urgency of this problem. I would appreciate if someone at Nissan can help escalate the resolution of this so it gets proper attention.

Thanks,
[redacted]

CRR-MC received a call from c stating that c is having issue with the front passenger side airbag of the veh. C stated that when someone is sitting on the passenger seat the airbag light is illuminating stating that the airbag is off. C said that c took veh to dlr last Saturday 10/18/14 and cannot remember name of SA who assisted c. C stated that c was advised that there is nothing that the dlr can do. C said that c is concern if veh will be involved in an incident and the passenger airbag will not deploy. C said there was a previous campaign related that the dlr already performed and said that issue should not be happening again. CRR-MC apologized.

ARBS rec'd vmx from dlr @ 1705 on 11/3 stating the c is coming in to pick up the vehicle tomorrow and now the dlr is confused because someone else said this is a long process and she is not sure if she is supposed to give the c the vehicle yet.

ARBS called dlr back. Dlr states she is currently at the hospital for an emergency, but Devon is partner at work and will be working with c today. ARBS explained process and asked if Emory forwarded email from ARBS to her with the explanation. Dlr states no. ARBS asked for email so ARBS can send the instructions ARBS sent to Emory to Cindy. Email is mccraneyc@sandysansing.com. ARBS sent. Dlr thanked. Dlr would like ARBS to call c this morning and explain. ARBS agreed. The call ended mutually.

ARBS called c @ [redacted] o apologize for any confusion and advise that this is a 2-4 week process after the c approves the vehicle, so the c is only going to look at the vehicle. Explained the process. C states he feels vulnerable and he has started to take things out. C states he has a continuously recording camera in the vehicle that he has installed that he was going to remove today but now he will not remove it because he is not getting the new vehicle today. ARBS thanked. ARBS and c discussed what the c should look for and that he should test drive the veh. C thanked. The call ended mutually.

ARBS rec'd vmx from c asking for an update.

ARBS called dlr @ 850.304 3002, left vmx with contact information.
ARBS called dlr @ 850.479.4700, spoke to Emery. Advised of reason for call. Dlr provided email address and will assist. ARBS thanked. The call ended mutually.

ARBS emailed dlr:
Emory,

Thank you for taking my call today and for being willing to assist us with this replacement.

Please see the attached vehicle invoice for the current vehicle and the steps below for the SOC process:

• First, we will need to find some comparable vehicles for the customer to test drive. Please contact the customer once you have found at least one 2014/2015 Altima with the same options. Mr [redacted] can be contacted at [redacted] He may change the color, but the vehicle must have all of the same features. Any additional features would be charged to the customer.
• Once Mr. [redacted] has chosen a vehicle, you will need to send me the invoice for the new vehicle and the buyers order for it including the vehicle at invoice price and any normal collaterals.
• Once this has been approved, I will send Replacement Agreements to your dealership for both your dealership and the customer. Please send me a copy of the customer's signed Replacement Agreement, as we cannot proceed until those documents have been signed and received. Mr. Parrish does not have a loan on the vehicle, so we do not need to worry about the bank.
• Once the Replacement Agreement has been received, I will request the check to purchase the vehicle from your dealership. Morley will have additional paperwork for the customer to sign. They will be in contact with you after I receive the signed replacement agreement and send all paperwork to them.
• Once Morley receives the title for the current vehicle, the check for the new vehicle will be overnighted to your dealership.

I would like to note that this is a 2-4 week process after we approve the vehicle. Do not release the vehicle to the customer until the process has been completed. The 2014 will be your dealership's legal and financial responsibility until the final packet of paperwork from Morley has been signed, so you must wait until those documents have been signed and the replacement is complete before releasing the replacement vehicle to the customer. Please let me know if you have any questions.

Thanks,

ARBS called c @ [redacted] to apologize for the delay and advise that ARBS spoke to Emory at the dlr and he is working on getting a replacement veh for the c. Emory has c's information and will contact c. C thanked. ARBS and c discussed usage charge and ARBS advised that ARBS had given c the wrong calculation. ARBS and c discussed the correct calculation below:
35,505/120,000 x $23,158 = 6,851 87 / 2 = $3,425.93 = $3,400.00 is what the c will pay at surrender to dlr.
C thanked. The call ended mutually.

ARBS rec'd 2 emails from c:

1.
Sorry but can't help there. We went to look on Sunday, specifically because they were closed & we were free to browse.

2.
Here's a suggestion for you. Sandy Sansing visits each of his dealerships daily. He is usually a very accessible (& pleasant) person. I'll bet he will call you back!

ARBS rec'd email from c:

My wife & I visited Sandy Sansing's dealership on Sunday. They have a 2015 Altima in stock that is close enough to our original options to suit our needs.
Since your formula is pretty simple to understand I am concerned that they have not responded to your voice mail.
I have the original "sticker" if that helps. We both like the metallic slate that we bought, but found you gun metallic with charcoal interior to be attractive as well.
If, for any reason, it would be easier to go to another dealership, know that we are willing. Anything within a hundred miles or so is ok.
I have removed parking & military decals. We have clear title in hand. As we have upcoming travel plans & we are both in town this week, we're ready!

Mr. [redacted]

Thank you for taking my call today. It was a pleasure speaking with you.

As we discussed, we would like to replace your vehicle, and we thank you for staying with us. As we agreed, we will charge 50% of the usage as provided in your state guidelines and will use the current mileage you provided of 35,505. In order to proceed with the replacement, I will need a copy of the following documents:

Make Public

- current vehicle registration
- sales documents
- vehicle title
- title application (if available)
- driver's license

Once received, I will contact Sandy Sansing Nissan to begin the process. Please let me know if you have any questions.

ARBS called c @ [redacted] Spoke to c. Advised NNA can repurchase or replace.
C states he will be as candid as he could possibly be. C states he gave his toyota to his grand daughter. C states he read all the consumer reports and decided on NNA. C states he wants to be reasonable. He likes the vehicle. ARBS advised that we would cut usage in half.
C states he has no problem with Sandy Sanding Nissan.
C states he does not have a lien.

Make Public

ARBS advised this means we can do a title swap easily. C thanked.
C states he will save some time and not proceed with the BBB.
C states he would like a 2015. ARBS agreed.
C states his current mileage 35,505. ARBS advised this is the mileage we will go off of for the usage charge. C states the 50% is very reasonable and thanked ARBS.
C states ARBS has taken a lot of the fear out of this process and loves working with reasonable people. C thanked ARBS. ARBS advised that we like to do what we can to work with our customers and thanked the c for sending in all of the pictures to make the process go more quickly. ARBS will respond to that email with the documents ARBS needs. C thanked. The call ended mutually.

ARBS rec'd email from DTS:

Amanda,

I remember these customers well. They were very kind and tech savvy.

During the first inspection, I replaced all suspect parts for the OCS due to a Past DTC. I explained that I felt the vehicle was operating comparable to a like vehicle and that the DTC likely set when the software update was performed. However, since we did have a DTC, I could justify replacing the parts for their peace of mind.

On the second inspection, I found no DTC and found the vehicle operated as expected. No repair was made.

I feel no repair is required on this vehicle. I am now at TECH LINE and no longer a DTS so I will refer any further decisions/action to the Sr. DTS Larry.

Thank you,

ARBS called c [redacted] to discuss vehicle, as DTS was last to look at veh. Spoke to c, asked for more information.
C states he spoke to the BBB yesterday and has a list and is filling out the forms.
C states this was hard for the dlrs to deal with, so getting the veh there was not possible, so c just started making photographs with his iPhone.
C has made a list of that and it has happened about 30 times.
C states he took the veh in on 5/21 to Lee Nissan. This was the recall. C states he then called and talked to CRR. Then Jerome from Lee Nissan called and advised he could not fix it because his wife only weighs 135 pounds.
6/4 - Sandy Sansing
7/2 - DTS
9/4 - DTS
C states he gets it that the light is not on but it comes on all the time and it has happened 2-3 times. C states he has to pull over, stop the car and restart it.
C states usually it is his wife in the seat but sometimes it is his accountant, who weighs about 200 pounds.
C states his wife is a nurse and she has perfect, straight posture.
C states the seats are contoured.
There is no way you can sit in the seat abnormally. There is nothing unusual.
DTS was kind and explained how the sensors work and why it is so hard to get to the dlr with the light on.
DTS states it checks again when you stop.
C states he knows the DTS is trying and c understands the bain of the intermittent problem.
ARBS advised ARBS will contact DTS and see if ARBS needs anything from c. C thanked.
ARBS provided direct line. C thanked. The call ended mutually.

Improvements to Vehicle
I realize this is a new model but the number of recalls in the first few months (4) and trips to the dealer is irritating. Most bothersome was when I wrote Nissan North America Consumer Affairs outlining my concerns, I never received the courtesy of a reply from anyone. We ST LL have a problem with the airbag dash board light staying on after 2-3 trips to reset it.

Heated Seats - Other/None of the above,
factory recall 6/7/13 - control sensor

Clock - Difficult to see/read/not lighted (*),
clock not easily read due to size of figures

Outside Temperature Display - Other/None of the above (*),
outside temperature display too small to read easily

Instrument Panel - Lights on panel too dim/hard to see,
difficult to read around steering wheel

Instrument Panel - Gauges obstructed/poorly located ,
readability of instrument panel is difficult - too small size for temperature, etc.

Excessive Wind Noise - Around front side door/window - window closed,
extreme wind and whistling noise on driver side front window. Repaired by dealer with weather stripping. Wind noise on passenger side front window but not as extreme. Make Public		**Created By Sarah Jane Iglesia (10/22/2014 9 09 AM)** CRR-SI received a call from c stating that c is having problem on the veh in regards to the airbag. CRR-SI confirmed that no contact info has changed. C gave [redacted]s the best phone number to reach c. C said the passenger airbag light comes on and then goes off. C stated that when c took the veh in to the dlrshp c was advised that the issue cannot be fixed. CRR-SI asked c if c already took the veh to an authorized Nissan dlrshp and have the veh checked, c said no. CRR-SI advised c to bring the veh to any authorized Nissan dlrshp and have the veh checked and told c that if c needs further assistance c may call CA back. CRR-SI advised c to have the veh diagnosed by an authorized Nissan dlrshp because Dlrshp is in the best position to determine if the failed part is covered or not depending on the result of dlrshp diagnosis. Inform c that c can call back once c needs further assistance as long c can provide diagnosis code, estimated amount of repair or replacement and SA-name and case will be forwarded to RCAS for review. Inform also c that some dlrshp charge customers for diagnosis because Dlrshp works independently and operated. C said c doesn't want to pay a diagnosis fee because the issue is a defect. C asked to speak with a supervisor. CRR-SI put c on hold to look for an available supervisor. C hung up. CRR-SI tried to call c back @[redacted] unable to reach c. CRR-SI was unable to provide name, ext and case number. CRR-SI closing the case.
Make Public		**Created By Adrian Lagdameo (10/21/2014 9 29 AM)** c stated that he heard on the news last night that 7 brands has a recalls on the airbags. crr-al asked for c's full name, mailing address and contact details c provided it crr-al also asked for the last 6 of the V N c provided it crr-al told c that there are NO recalls/campaign on his veh c asked for the brand of the manufacturer for the Air Bag system of his veh crr-al advised c to consult the dealership where he bought the veh from which is PERUZZI NISSAN c agreed crr-al offered further assistance c declined crr-al provided name, extension number, branding and ended the call

Email from C:

Kristina,
I identified the problem. I renewed the plates in May 2014 but either lost or never received the final registration receipt from the state of Missouri. I did print a temporary receipt when I renewed on-line (see attached). You will see that it bears the date May 19, 2014. I did receive the tabs, which are presently on my vehicle. Will this temporary receipt suffice? I will try to retrieve a final receipt from the state but. . . you know government bureaucracies.

RC called John at Fenton Nissan (Cell [redacted] as provided by C).
RC requested bill of sale for vehicle sold at dealer invoice cost, with taxes and fees. RC explained that we are doing SOC, but that on his end, we need to see the vehicle as a sale, because Nissan has to pay him for the vehicle, and he isn't taking the other in on trade. Dealer understood, and will draw up buyers order; RC provided fax and phone.

RC received email from C with all docs, but reg is original, not current. C also advised:

I have already visited with Fenton Nissan of Lee's Summit and identified a potential replacement vehicle (pending agreement on final terms). The vehicle is a 2015 Nissan Altima 2 5 S (V N 1N4AL3AP8FN[redacted]). I have given your contact information to general manager John Bock and he awaits final disposition of the matter. His number at Fenton Nissan is (816) 600-4001.

RC emailed C back to advise that information received, RC requested current REG, and RC notes that RC will reach out to John Bock for info on replacement.

TL-AA approved a 2 yr basic plus maintenance plan as GW

Make Public **Created By Michael Bardwell (12/4/2014 4 20 PM)**
NNA appreciates that once a consumer begins to experience problems with a veh that c's confidence in the product declines. Ideally, no one should ever have to go through the inconvenience and uncertainty that arises when a veh has problems. However, in reality, vehs are made up to numerous parts and assemblies, and occasionally problems arise that need to be addressed. There are no guarantees that every veh will operate perfectly; some maybe trouble free while others may exhibit failures to a greater or lesser degree. The purpose of a warranty is to assure that vehs are repaired without charge during the warranty period. While this concern is understandably troubling to the consumer, there are no guarantees that all features of this vehicle will operate without failure during the veh's life.

ARBS recommends RCAS consult with CA Management and CXM for any possible further assistance.

Make Public **Created By Michael Bardwell (12/4/2014 4 20 PM)**
ARBS notes the following:

3 visits, 3 repairs and 6 days down for brake noise;
1 visit, 1 repair and 1 day down for OCS concern;
1 visit, 1 repair and 1 day down for headlamp blub.

ARBS does not believe that concerns constitute a substantial impalement to the use, value or safety of the vehicle. NNA is not in a position to repurchase/replace veh at this time.

crr-ka spoke with c.
crr-ka verified c's information.
crr-ka changed mailing address.

c purchased vehicle brand new.
c said that c's been having issues since c got the vehicle.
c said that c has an issue with brakes, c said there is a grinding noise, but dealership keeps on telling c that brakes are fine.

c said that c went for an oil change and also had the brake issue fixed at the dealership.
c said that c stayed at the dealership for 5 hours yesterday and paid $240 00 for the brake job, but c said that c's still having the same issue.

c said that whenever c takes vehicle to dealership, the dealership is always coming up with a new issue.
c said that c cant drive it back and forth to dealership all the time.
c said that c doesnt want to go back to the dealership.

c said that c just wants to know what wrong with the vehicle because c wants to keep it.
c said that c wants nna corporate to check on c's vehicle top to bottom, c just needs an honest opinion.

crr-ka informed c that case will be escalated to rcas and will be contacted by the end of the next business day.
c's best call back number is [redacted] (before 4:30 PM).

crr-ka offered further assistance, c declined.
crr-ka provided recap, case#, name and ext#. call ended.
crr-ka transferred case to rcas.

crr-kf received a call from C. C stated that C is having issues with the veh. C stated that the airbag light keeps on turning on. C stated that there is a knocking noise on the driver's and the passenger's side. C took the veh and the dealer changed the strut for the noise to be removed but C can still hear the knocking noise after 2-3 days. C stated that the veh is still with the dealer until now for the same issues.

crr-kf empathized and acknowledged.
crr-kf authenticated the account.
crr-kf checked the information that C needs.
crr-kf created a case.

Vehicle Findings DTS MW met with Mr. [redacted] and he explained his concern as the Passenger AirBag Off light comes on and goes out at times with an adult passenger buckled into the seat. He stated that just yesterday he had a 140+ pound passenger in the seat and the light came on while driving.

We performed TSB NTB14-084 and ordered the passenger seat bottom frame assembly with the sensors and the OCS control unit per the diagnostic flow chart.

Mr. [redacted] also complained about his audio system locking up occasionally. We updated the audio/navi system to the latest program D207.

Hi Mike,

I received an attorney demand regarding the above case.

According to a previous case, you inspected this vehicle around 9/25/14; however, the RCAS didn't include the inspection results in the case. Could you please email me your findings? I have attached the DTS form from Salesforce for your reference.

Thank you,

DRTS attached RO's. Service advisor Mark Davis made it clear he wanted it noted this customer would not bring the car back for the necessary repair after the part that was ordered came in. He said the Tech Line D.M. approved for the part to be ordered after inspection but the customer would not allow them to replace it.

ARBS notes the following:

2 visits for rear hatch not staying open. // Reprogrammed hatch.
3 visits for fit and trim concerns. // Dealer addressed.
3 visits for rear camera has red "X"s; blurry. // Awaiting ordered part.
25 days down.

Make Public
ARBS notes the fit and trims concerns do not substantially impair the use, value, or safety of the vehicle. ARBS notes the rear hatch has been corrected by the dealership at this time. ARBS notes the back up camera displaying a red X does not substantially impair the use, value, or safety of the vehicle. ARBS notes dealership is awaiting part to correct the concern.

--
Based upon the ROs provided and after careful consideration, NNA is not in a position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns that would substantially impair this vehicle. NNA will continue to honor the terms and conditions of all applicable warranties.

ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case. ARBS recommends RCAS work with dealer to assist in receiving part that was ordered. ARBS recommends RCAS keep ARBS involved during the process until repairs are completed.

crr-jm received a call from c. c stated that C has a 2014 Nissan Pathfinder and c's been going back and forth at the dlr every month for same issues and nothing has been resolved. C mentioned dlr did reprogram and replaced the navigation system, airbag light is on so dlr did reprogram it 2-3 times now, when c turn on the back up camera there is a red axis on the screen and lastly, when c go over 65 miles per hour, veh is shaking and vibrating. C said dlr did re-aligned the tires for 4 different times but still c is having issues with it.

C stated c had taken the veh to the dlr last Firday because of the issue on the back up camera and c was told that dlr cant figure out what is the red axis on the screen. C bought a brand new veh but c feels that veh is a junk. C would like the issues to be taken care of by Nissan.

crr-jm verified the name of registered owner, mailing address, phone numbers, email, if veh was purchased new or pre-owned, mileage on the veh and c's servicing dlrshp.

crr-jm verified if the veh was diagnosed, c said yes and provided the following information:
WHERE: BEL AIR NISSAN
WHEN: 10/17/14
DIAGNOSIS: C stated dlr can't figure out what is the red axis on the screen.
SA: SA-Jason Lipnick
EST MATE COST OF REPA R: Veh is still under the warranty

crr-jm informed c that c's concern will be forwarded to the Regional Office and a Regional Specialist will be calling c before the end of the next business day, c acknowledged.

crr advised c that the RCAS will be checking for a possible resolution to help c with the case.

crr-jm asked for the best number to reach c, c provided [redacted]

crr-jm offered further assistance, c declined.

crr-jm provided name ext case number

crr-jm forwarding case to RCAS.

CRR-MH received a call from C's wife, [redacted] who is referred to as C in the case. C stated that veh is currently at the dlrshp since yesterday. SA-MARK & ALYSSA are assisting C.
C stated that a month ago, SA-Justin ran a code with the airbag situation and that SA was going to order a new computer and a new radio for the veh.
C was told that new computer was not coming in until after a few weeks.
C stated that C did not hear anything from the dlrshp and that c called the dlrshp and was told that SA-Justin was not connected with the dlrshp anymore and that dlrshp is not showing any record of the computer order nor the code but that radio had arrived.
Now, SA-MARK & ALYSSA stated that dlrshp had to duplicate code before the computer can be ordered.
C stated that dlrshp is not able to duplicate code.
C stated that C continues to have issues with the airbag light coming on and off.
In fact, C had taken in a total 3 times for the issue not counting the performance of the OCS campaign.
C stated that c is even afraid of having passenger in the veh.
C state that C is also having a lot of other issue with the veh but that C is concerned with the airbag as this is a safety issue.
C wants issue fixed or C wants NNA to buy back veh or get C a new car.
C stated the C's loaner, which a 2014 Altima works perfectly fine unlike C's veh.
CRR-MH verified C's updated contact information.
CRR-MH informed C that the case will be forwarded to a regional office and a regional specialist will be in contact with C by the end of the next business day. The best no. to reach C is [redacted].
CRR-MH escalating case to RCAS for vehicle concern.
CRR-MH offered further assistance to C. C declined.
CRR-MH gave name, extension number and case number to C.

Make Private	✓	**Created By Anthony Zacharyasz (11/3/2014 10 54 AM) Last Modified By Raquel Taylor (11/4/2014 12 03 PM)** ARBS notes the following: 2 visits for judder during light acceleration. // Reprogrammed TCM; ordered CVT. 19 days down (as of 11/3/14) ARBS notes CVT is on order and scheduled to arrive on 11/04/14.

Based upon the ROs provided and after careful consideration, NNA is not in a position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties.

Please advise ARBS if there any delays in the arrival of the CVT or repairs. ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.

Issue: C called saying that the OCS campaign was performed by the KRENZEN NISSAN already but the issue came back. C said that the airbag light is showing again. C understand that the veh is still under the basic warranty but the nearest Nissan dlr which is KRENZEN NISSAN is 135.7 Miles away.

Make Private ✓ Diagnosed: Not yet

C's Request: C would like Nissan to help c on what to do next since c is far from the dlr.

CRR-JA apologize and explained that the case will be forwarded to RCAS and a representative from RCAS will give c a callback before the end of the next business day.

CRR-JA is forwarding the case to RCAS

CRR-JA asked c for further assistance but c decline.

CRR-JA provided name, case and extension number.

Make Public		Created By Diana Maniquis (10/22/2014 6 48 PM) crr-dm received a call from c who was calling about a recall inquiry. c stated that c was asking about the airbag recall. crr-dm stated that recalls / campaigns are VIN specific and based on the VIN, c's veh was part of the recall for the 2013-2014 - Nissan Occupant Classification System Module Reprogramming But this campaign was fixed by the dlr since 5/4/2014 which was before it was sold to c. C stated that c had a concern with the airbag light coming on and off twice. c had seen that light and it stayed on but the issue goes away. c wanted to know if this is because of the recall. CRR stated that currently this veh doesn't have any open recalls. CRR recommended for c to take the veh to the NNA DLR to have the veh inspected, c understood. crr-dm offered further assistance, c declined. crr-dm provided case #, crr's name and ext #. crr-dm closing case.

c called in with a vehicle concern
c said c loves c's 2013 ALTIMA and c states that c has never had a better vehicle but c said c would like to have the vehicle swapped
c said c had nothing but trouble with the airbag
c said that the airbag light comes on intermittently
c said that c had initially taken the vehicle to DAYTONA NISSAN for the campaign for the OCS but since then the airbag light started to come on
c said the parts on the vehicle had been replaced, patched, recalibrated but light still come on
c said c stopped going to Daytona Nissan because c said c can't get them to do anything there
c said c was referred to PAT FISCHER NISSAN for service and c has been going there for the airbag concern but c still goes to DAYTONA NISSAN for maintenance
c would like to have the vehicle fixed
crr-kp acknowledged and provided empathy
crr-kp verified c's info
crr-kp created a case
crr-kp informed c that the case would be escalated to rcas for review
crr-kp advised c that c would receive a call from rcas by the end of the next business day
c understood
crr-kp also advised c that there is an open campaign for the Secondard Hood Latch
c said c would let the dealer know of this next time so the campaign can be performed
crr-kp offered further assistance
c declined
crr-kp said closing, provided name and extn number, and case number
c ended the call

Make Public		**Created By Angie McVey (2/2/2015 12 30 PM)** Received signed release. Processing check request in the amount of $4,500 inclusive as: Attorney Demand Voluntary Cash Settlement - due to 3 visits with 6 days down for rear hatch concerns. FedEx [redacted] included with request.
Make Public		**Created By Angie McVey (1/26/2015 10 52 AM)** Matter settled for $4,500 inclusive. The release was sent to the attorney for signature along with a request for a copy of the current/valid registration. Once both have been returned the check request can be processed.
Make Public		**Created By Angie McVey (1/21/2015 2 33 PM)** Received email from the attorney demanding $5,500 to settle. ARBS offered $4,500 as a final offer. File pending a response from the attorney.
Make Public		**Created By Angie McVey (1/5/2015 10 40 AM)** Additional RO received from the customer's attorney as follows: 12/6/14 at 14,354 miles-1 day down Concern 1 trunk had a popping noise when opening with remote Action 1 (SOP N) tech confirmed and found bulletin that applies – placed 3 spacers on spoilers to resolve —— 3'x for hatch won't open 1=spindle ordered, 2=spindle installed, 3=found switch in off position 2 x's for popping noise 1=SOP, 2=install Emailed an offer of $2,000 inclusive for any inconvenience that has been experienced.
Make Public		**Created By Angie McVey (1/5/2015 10 18 AM)** Email chain as follows: That was the very first time it was ever in for a noise complaint. There were zero visits in the first 14 months of ownership. No more than two complaints were found for "rear hatch won't open" and at the second visit it was found that the switch had been turned off. The vehicle did not return with this complaint. There was a new complaint of a popping noise when opening with the remote and the customer ordered parts to make the repair. It would not seem a noise would pose a significant impairment to the use or safety of the vehicle. Given the findings at this time Nissan would not be willing to make an offer. As always, Nissan would like to thank you for the opportunity to review the complaint. Thank you. ————— — Angie MCVEY Customer Quality & Dealer Network Development Arbitration Specialist II Nissan North America, Inc. because it's making a popping noise. I'm not sure if those parts came in yet.

This is a case that probably settles under most circumstances for a few thousand dollars. I'm not sure from your email if you are asking for a demand. I would certainly submit any reasonable offer to my client and respond appropriately.

I do not see that Nissan ever breached the warranty as provided. The vehicle was not in at all for the entire first year of ownership. At one of the visits for the rear hatch the only concern was the switch was turned off. You can let me know what you can get this one done for and I will see what the options are, but I really don't see anything on this one.

Subject: Re: Dilenia Torres/2013 Nissan Pathfinder [redacted]

This is one of those 'totality of the situation' cases. It had to go in 5 times over the course of only about 8 months for a bunch of different things. A couple times for the airbag and rear hatch and then most recently the rear hatch was making a 'popping noise'. Windshield wipers stopped working. Driver's window inoperable. A couple of recalls. Also a transmission cooler hose and an unverified brake complaint.

We don't see it as a LL case, but we feel it is a plausible MMWA claim. Let us know NNA's position.

After review the following was sent to the attorney via email:

Before I send a no offer on this one I thought I would see if you can tell me what you are seeing that I am missing. It appears the vehicle is about 2 years old and the only repeat complaint has been with the rear hatch. At the first visit the dealer had to order parts so of course the customer had to return to have the part installed. t appears the concern was resolved after the repair, as I would not count the customer going to the dealer to be told the button was in the off position as a manufacturing defect. At the visit where the customer was advised the button was in the off position the dealer performed the campaign for the airbag system. There has been one visit for an airbag light complaint and no concern was found. There was one visit for a noise when opening the trunk and the dealer applied foam spacers and the concern was resolved. An automobile is made up of thousands of various components and parts which are made by man, and assembled by man. Our wish is that there is never a failure however there is no guarantee given, but our word in the form of the warranty to assure that if it does we will cover the repair. While this is not the experience we would desire for our customer, Nissan has never failed to comply with the warranty that was given. Given this information I don't see where an offer is merited at this time.

Found previous RHR review in fil[redacted] as follows:

Created By: Anthony Zacharyasz (3/7/2014 4:14 PM)
ARBS rec'd RHR, reviewed ROs, and notes the following repair history:

2/06/14... 7,798 miles... 1 day down
-Concern:
1. Front wipers NOP.
-Action Taken:
1. Re attached linkage to wiper motor.

2/20/14... 8,060 miles... 2 days down
-Concern:
1. Rear hatch won't open.
2. At times rear back up sensor says off.
3. Driver's side front window at times won't come up.
-Action Taken:
1. SOP. Case indicates vehicle.
2. Operating as designed.
3. Secured run channel.

ARBS notes 1 visit for the rear hatch and 3 days down.

History found since above review as follows:

3/6/14 at 8,350 miles-1 day down
Concern
1. C/s the rear hatch won't open- SOP spindle
Action
1. Found code B2426. Found spindle leaking. Replaced spindle and recheck ok.

8/28/14 at 12,171 miles-1 day down
Concern
1. PC273 Path(R52) CVT hose NTB14-040
2. R1405 NTB14-027 OCS reprogram
3. C/s rear hatch only opens with key doesn't raise with inside buttons
4. C/s at time brakes doesn't stop properly glides before stopping
Action
1. Completed
2. Completed
3. Found switch off. Turn on switch.
4. Found brakes operating as designed. No repairs performed.

10/16/14 at 13,032 miles-1 day down
Concern
1. C/s passenger side air bag light say off when someone sitting on the seat
2. C/s trunk make a popping noise when opening with remote
3. Tire tread depth inspection
4. MPI

5. A minimum diagnosis charge will be applied repairs are not covered by any warranty
Action
1. Could not duplicate C's concern. Performed OCS reprogram again.
2. Duplicate C concern. Check and found service bulletin NTB13-010. As per bulletin apply 3 foam spacers to resolve. Parts on order. C will be contacted when parts are in.
3. Completed
4. Completed
5. Diagnosis charge applied

+1 CA file, No tech line, No DTS, Retail Sale, No contract purchased
3 x's rear hatch 1=SOP, 2=replace spindle, 3=found switch turned off
1 x rear hatch noise 1=apply foam spacers per bulletin
1 x passenger air bag light off – performed OCS reprogram again
There does not appear to have been an unreasonable number of repairs for any one concern.
The rear hatch concern was resolved in March.
No more than 5 visits in 2 years and no more than 2 complaints for any one concern. (as having the switch in the off position would not be a manufacturing defect)

Make Public		I recently emailed about my passenger airbag light staying on at startup when someone sits down as the vehicle is being started. I've been trying to record this happening before bringing it in. I've not been able to replicate the problem. The light does stay on for 10-15 seconds after startup sometimes, but does eventually go off. I must not have been waiting long enough previously. At this time, consider that issue resolved for our Pathfinder. If the light does stay on going forward, I'll take a picture and bring it in. Thank you
Make Public		**Created By Jordan Atchley (10/31/2014 2 41 PM)** ***CASE SUMMARY*** C contacted Nissan CA requesting assistance with airbag concern. ***STATEMENT OF DECISION*** RCAS-JA offered $100 towards rental reimbursement for when C does get veh looked at . **Created By Jordan Atchley (10/31/2014 2 40 PM)** RCAS-JA placed outbound call to C at [redacted] RCAS-JA informed C that veh needs to be diagnosed for NNA to offer assistance. C states RCAS-JA missed the entire point of C calling. C states veh has had 4 recalls. C states C has taken it twice for one of them.
Make Public		RCAS-JA notes veh only had 2 recalls. RCAS-JA informs C that Nissan would be happy to provide reimbursement for a rental veh up to $100. C states fine C will go in yet again. RCAS-JA informed C to contact NNA once veh has been diagnosed. Call ended mutually. RCAS-JA closing case pending diagnosis.

Make Private	✓	**Created By Hezha Decker (11/3/2014 2 58 PM)** RCAS-HD is contacting/returning C's VMX at [redacted] RCAS-HD advised c that dlrshp has diagnosis the vehicle as operating as design RCAS-HD advised c that dlrshp even had a passenger who is also short and probably weighs in the rang of C's wife in the passenger seat and dlrshp was unable to duplicate concern C states c wants to know if sensor has a memory C states c has to turn of the vehicle and turn it back on for the airbag light to go off RCAS-HD states dlrshp stated C's wife uses a cushion in the passenger seat C states the airbag light was there before C's wife got a cushion C asked if call is recorded RCAS-HD states call maybe recorded C states c is recording call as well RCAS-HD asked c not to record call C states why should c when RCAS is recording call RCAS-HD states RCAS stated call maybe recorded RCAS-HD disconnected the call.
Make Private	✓	**Created By Hezha Decker (10/31/2014 2 12 PM)** RCAS-HD contacted C at [redacted] left VMX including Case number, name, and RCAS-HD contact [redacted] RCAS-HD stated on VMX that RCAS-HD will continue to follow up with C no later than 11/3/14 RCAS-HD requested that if C calls back and reaches VMX, to please leave best time and number to reach C.
Make Private	✓	**Created By Hezha Decker (10/30/2014 2 48 PM)** RCAS-HD contacted C at [redacted] and got a message stating number you have reach is unavailable and phone went to busy signal RCAS-HD unable to leave VMX
Make Private	✓	**Created By Hezha Decker (10/30/2014 12 52 PM)** SM reply back SM stated Vehicle was brought in stating that the passenger airbag light off light is coming on with someone sitting in seat. (Mr. [redacted]ife) SM stated dlr checked for any codes in system and there were none, there showed to be no faults in system at this time. SM stated c did have a seat cushion in the passenger front seat which was heavy enough to possibly be registering a classifiable weight with no one in the seat (the customer states that his wife just started using that because she is short and cannot see over the dash) SM stated dlr recommended strongly that using that cushion could cause the seat to not classify a passenger correctly and thus diabling the system. SM stated dlr then took the vehicle on a 45 minute test drive with a passenger in the passenger front seat and were never able to duplicate the airbag off light illuminating. SM stated the passenger is also short and probably weighs in the range of Mrs. [redacted] or maybe slightly higher. SM stated dlr again referenced the Nissan literature on how the OCS works and that seat position is imperative along with weight classifications.
Make Private	✓	**Created By Hezha Decker (10/27/2014 11 32 AM)** RCAS-HD contacted C at [redacted] RCAS-HD VERIFIED C's name, home & email address, concern, phone#, VIN#, mileage RCAS-HD CHECKED for open recalls/campaigns and found NONE Previous UNRELATED Case(s) Found: [redacted] Previous RELATED Case(s) Found: NONE RCAS-HD ADVISED "This call may be recorded for quality and training purposes." ********** RCAS-HD states RCAS understand c is having concern with the airbag light C states yes C states c had taken to dlr 3 times regarding airbag light C states c lives far away from dlr C states it came on yesterday as well RCAS-HD apologized for C's concern RCAS-HD advised c that RCAS contact dlr regarding concern and is waiting to hear back

RCAS-HD advised c that RCAS wants to gather some information and get back to c
C states c wants RCAS to contact technical support and found out why the airbag light keeps staying on
C states how many time is c going to have to turn of engine and turn it back on before it loses its memory
RCAS-HD advised c that RCAS will look into concern and wants to follow up with c by COB 10/30/14
RCAS-HD provided c with RCAS name, contact#, and case#
C thanked RCAS-HD

Campaign Inquiry

Make Public **Created By Catherine Jane Lundag Buen (10/24/2014 7 31 AM)**
crr-cb received a call from c.
c asked for the open campaign of the veh for airbag.
c stated that the airbag lights keeps on illuminating and sometimes stays off and just come on.
crr-cb verified c's name, mailing address, phone numbers and email.
crr-cb created a case.
crr-cb checked for veh campaigns.
crr-cb informed c that there is an open campaign for the veh but not regarding the airbag but the Secondary Hood Latch. c understood.
crr-cb advised c to take the veh to a Nissan dlrship to have the campaign performed.
c stated c already took the veh to dlrship for diagnosis and dlr told c that they cannot find the fault on the veh.
crr-cb informed c that the case will be transferred to RCAS and c will receive a follow up call by the end of the next business day for the update of the case. c understood.
crr-cb asked [redacted] the best phone number to call. c said YES.
crr-cb did recap.
crr-cb offered further assistance. c declined.
crr-cb thanked c for calling CA, gave name, extension number and case number.
crr-cb transferring case to RCAS.
crr-cb exiting case.

Make Public		**Created By Anthony Zacharyasz (11/7/2014 10:20 AM)** ARBS notes the following: 3 visits for vehicle drifts left or right. // Performed alignment; replaced cross member. 1 visit for PABI light. // Operating as intended. 24 business days down. ARBS notes C's drifting complaint has been addressed by the dealer. C states the vehicle drifts under windy conditions, which is heavily dependent on multiple environmental factors, none of which are a defect in manufacturing. ARBS notes C's airbag has been deemed to be operating as designed. ARBS notes the Owner's Manual has valuable information regarding the operation and intention of the passenger side airbag indicator (PABI) and Occupant Classification System (OCS). – Based upon the ROs provided and after careful consideration, NNA is not in a position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties. ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.

Make Public		**Created By Zachary Mallett (11/12/2014 12 51 PM)** RCAS notes DTS notes: Concern: Customer states sometimes with passenger on seat, seat alarm light stays on which says no air bag & last for 5 to 7 miles. Cause: No problem found, Occupant Classification System is operating as intended. The following information is per NTB14-084: 2 SENSOR OCCUPANT CLASSIFICATION SYSTEM (OCS) DIAGNOSTICS AND NFORMATION The Occupant Classification System (OCS) is designed to classify the size of the front seat passenger and automatically turn OFF the passenger air bag under some conditions. Section 1 of the owner's manual has a detailed description of how the occupant classification system is designed to operate in accordance with Federal regulations. The issues being described may indicate normal operation, depending on the size of the passenger seat occupant. Complaints of OCS light illuminating and shutting off intermittently when seat is occupied by a small stature occupant. Please remember that that the PABI light only indicates the status of the front passenger airbag. All other airbags are unaffected. NORMAL OPERATION: In order for the OCS to classify the right front passenger based on weight, please follow the precautions and steps outlined below:

Adjust the seat as outlined in the Safety section (section 1) of the Owner's Manual. Sit upright, leaning against the seat back, and centered on the seat cushion with your feet comfortably extended to the floor.
Make sure there are no objects on the occupant's lap.
Fasten the seat belt as outlined in the Safety section (section 1) of the Owner's Manual.
Remain in this position for 30 seconds allowing the system to classify the passenger before the vehicle is put into motion.
Ensure proper classification by checking the Passenger Airbag Status Light.

PRECAUTIONS

Make sure there are no objects weighing over 2.2 lbs. (1 kg) hanging on the seat or placed in the seat-back pocket.
Make sure that a child seat or other object is not pressing against the rear of the seat-back.
Make sure that a rear passenger is not pushing or pulling on the back of the front passenger's seat.
Make sure that the front seat or seat-back is not forced back against an object on the seat or floor behind it.
Make sure that there is not an object(s) placed under the front passenger's seat.
Make sure there are no items in the passenger seat foot area.

NOTE: This vehicle's OCS locks the classification during driving, so it is important that you confirm that the passenger is properly classified prior to driving. Also, the OCS may recalculate the weight of the occupant when the vehicle comes to a stop (i.e. stop light, stop sign etc.), so front passenger seat occupants should continue to remain seated as outlined above.

TROUBLESHOOTING:
If you think the Passenger Airbag Status light is incorrect.
If the light is ON with an adult occupying the front passenger seat.

Occupant is a small adult The airbag light is functioning as intended. The front passenger airbag is suppressed.
If the occupant is not a small adult, then this may be due to the following conditions that may be interfering with the weight sensors:
Occupant is not sitting upright, leaning against the seat back, and centered on the seat cushion with feet comfortably extended to the floor.
A child seat or other object pressing against the rear of the seat-back.
A rear passenger pushing or pulling on the back of the front passenger's seat.
The front seat or seat-back is forced back against an object on the seat or floor behind it.
An object placed under the front passenger's seat or in feet area.
An object placed between the seat cushion and center console or between the seat cushion and the door.

2. Incident Information
Approximate Incident Date: 03/15/2013 Vehicle mileage at time of incident: 7,500 Vehicle speed at time of incident: 55 (mph) Affected Part(s): Air Bags Fire: No Crash: No Injury or Fatality: No Tell us what happened:The passenger airbag is deactivated light comes on randomly. I took the car to the dealer for a recall on this matter. After the software upgrade, the light showing the passenger airbag deactivated started coming on randomly. Sometimes with people sitting in the seat it would also come on. I took it to the dealer the other day and the service manager said he calibrated it shouldn't happen anymore. Two days later it came on again.. With all the problems with airbags, this is very scary. Even if the light stops coming on, how will I know if it is really fixed.

I leased this car because of the reputation of nissan andthe mpg the car was suppose to yield. I complained about the mpg from thebeginning. I was told there was a break in time for the car to get the mileageit is suppose to. Well now the car has almost 15000 miles and it is still notgetting the mpg it is suppose to which is 30 in city 40 on highway. I check itby filling it up and dividing the gallons by the miles driven between the lastfill up. If you just depended on the gauge in the car that constantly reportsmpg you would be fooling yourself. That is a lie and faulty device. The caraverages 29 to 30 mpg. It does not matter if I am on the highway or in thecity. The gas type has not affected it. Nissan states it is due to your drivingstyle. I drive it in economy mode a lot of the time. It doesn't matter. The service tech at Ferman Nissan in New PortRichey, FL tells me his is the same way and sometimes worse. There should be a class action suit againstNissan for this problem. I took the car to the dealer for a recall on thismatter. After the software upgrade, thelight showing the passenger airbag deactivated started coming on randomly. Sometimes with people sitting in the seat itwould also come on. I took it to thedealer the other day and the service manager said he calibrated it but yet itcame on again last night. With all theproblems with airbags, this is very scary. Even if the light quits coming on, how will I know if it is reallyfixed.

		Created By Jessica Goss (10/31/2014 2 10 PM) CASE SUMMARY: C contacted NNA CA via email for concerns related to MPG and OCS sensors. SM stated that cannot duplicate concerns. RCAS-JG advised C that if concerns cannot be duplicated, there are no repairs that can be made at this point. C stated would take vehicle in for a second opinion. RCAS-JG advised that would close case pending diagnosis. RCAS-JG closing case pending diagnosis.
Make Public		Created By Jessica Goss (10/31/2014 2 05 PM) RCAS-JG emailed SM at Crystal Nissan to advise that C may be making an appointment at dealership.
Make Public		Created By Jessica Goss (10/31/2014 1 59 PM) Previous cases found: [redacted] - T5 Case RCAS-JG verified C's name, address, phone# and veh RCAS-JG advised C that call may be recorded for quality and training purposes. RCAS-JG checked for Recalls/Campaigns and found: None RCAS-JG advised that had taken over case. RCAS-JG advised had spoke to SM about C's vehicle concerns with MPG and airbag sensor. C stated okay. RCAS-JG advised that SM-Steve stated that MPG and airbag concerns could not be duplicated. C stated is not getting advertised MPG. C stated its not even close. C stated that dlr didn't even test the MPG. C stated that SM advised C that had the same vehicle and doesn't get the same MPG either. RCAS-JG advised there are a lot of variable that effect MPG. RCAS-JG advised that weather, driving habits, road conditions, and other factors can effect MPG. C stated had airbag light reprogrammed and then once it came on while no one was in the seat RCAS-JG asked if the vehicle wad in motion or if it was after the vehicle was first cranked.

C stated that the vehicle was in motion when the light came on.

RCAS-JG advised that if C disagrees with any diagnosis that C can seek a second opinion and diagnosis from another dealership.

C stated wants to go to Crystal Nissan in Homosassa Florida.
C asked RCAS-JG to let dlrship know that C would like to schedule an appointment.

RCAS-JG advised will contact SM and pass along C's contact information.

C agreed.

RCAS-JG advised will be document concerns.
RCAS-JG advised will close case pending diagnosis.
RCAS-JG advised if C has any future concerns, questions, or feedback, C is welcome to contact NNA to reopen can after diagnosis.

C agreed.
RCAS-JG asked if C still have RCAS-JG's phone number.

C stated still had number.

RCAS-JG closing case pending diagnosis.

I've had mine to the dealer 5 times and there are still times the light will say the bag is off even though someone is in the seat. I don't consider pulling off the road and stopping the engine a fix.

C stated that c has been to O'neil and Peruzzi
C stated that Peruzzi is much closer to c
C stated that c spoke with someone at Peruzzi today, and was asked if the seat sensors have been replaced
C stated that c did not know
C stated that the dealership stated that if there is an error code in the veh, then c can get the sensors replaced
C stated that c is seeking a permanent resolution for the concern
C stated that c can stop the engine then restart the veh and it will fix the concern at that time, but it is not a permanent solution

RCAS-RG apologized to c for this concern
RCAS-RG informed c that RCAS-RG will reach out to dealerships to get more info
RCAS-RG informed c that RCAS-RG is not aware of any solutions to this concern as RCAS-RG gets info from dlrs
RCAS-RG informed c that RCAS-RG will try to see what the next steps at this point would be

C understood

CRR-MC received a call from c stating that c sent an email to Nissan regarding c's issue with the passenger airbag of the veh. C said that c's at the dlr 5 times already and dlr cannot fix the issue. C also said that c was advised by the dlr that if dlr will get an error code then dlr can fix issue but if not then there is nothing that the dlr can do. C said that issue is happening intermittently and c wants a permanent resolution from Nissan. CRR-MC apologized.

CRR-MC verified name and address and was able to pull up case #.

CRR-MC advised c that case was already escalated to RCAS for review and and also advised c that RCAS will call c back on before end of this business day 10/30/14. C understood.

CRR-MC verified best contact # to reach c at which is [redacted]efore noon or after 5:30 PM EST.

CRR-MC also informed c that CRR-MC will send internal message to representative about c's callback today. C agreed.

CRR-MC offered further assistance. C declined and disconnected call.
CRR-MC was not able to provide name, case and extension #.
CRR-MC exiting case.

ARBS notes the following vehicle summary:

In Service Date: 2 26.14

Additional CA Cases:
[redacted] 4.2.14 - DPIC – dealer requested part number for switch assembly smart keyless remote
[redacted] 5.7.14 – DPIC – dealer verifying radio
[redacted] 6.3.14 – C opened case to complain about passenger side airbag, radio screen (no Bluetooth, radio) and driver side door. Dealer advised C that radio was on back order. Dealer confirmed back order on radio with no ETA. Both dealer and C confirmed appt for 6.7. Follow up on 6.9 with SM stated radio was flashed, airbag had no duplication, seat belt was adjusted for rattle. C stated the flash didn't help with radio – RCAS recommended going back to dealer. C still not happy and stated concerns come and go. C stated C wasn't going to take vehicle back – RCAS encouraged to return and stated no repairs could be made without diagnosis. C asked to be escalated to supervisor as C not happy with outcome. Supervisor recommended taking vehicle to a second dealership for another opinion. Case closed 6.11.14
- [redacted] 8.12.14 – Social Case – C documented concerns in social media. C mentions heated seat switch as well as radio concerns and rattling from door and dash areas. RCAS contacted C on 8.13 and C stated airbag is okay, radio software update was completed but hasn't received update on screen. C expressed displeasure that nobody seems to be assisting C. C stated C was going to contact lawyer if nothing could be done by the end of the week (8.16.14). C added comments to social media advising not to respond to social support due to RCAS advising C that fix cannot be made without duplication. Case closed 8.13.14
- [redacted].14 – Attorney demand letter rec'd and RHR completed through 8.16.14 RO. ARBS-AM sent no offer letter to attorney.
No Tech Line Cases, DTS or VSC

Make Private	✓	**Created By Holly Allen (11/19/2014 12 54 PM)** RCAS-HA contacted c at [redacted] about the case RCAS-HA advised c that RCAS-HA had spoken with the service manager about c's 30k service on the vehicle and was advised it may cost a couple hundred dollars so Nissan would like to offer c a $250 service credit c stated that is ok and would be nice RCAS-HA advised c of the following terms and conditions A service credit can be issued at the rate of once per V N per customer. If the customer has received a service credit according to the V N history, the customer IS NOT ELIG BLE for a service credit. The new owner of a pre-owned vehicle IS ELIGIBLE if there is no prior history indicating the "new owner" has received a service credit. A service credit debit card CANNOT be issued to reimburse a customer for previous services. Valid at any Authorized Nissan Dealer/Infiniti Retailer. Approved for any service (valid only if genuine Nissan/Infiniti parts are used), or for the purchase of any genuine Nissan/Infiniti parts or accessories. This offer is valid until the expiration date, six months from the date that the service credit is offered to the customer. The debit card can be used until the balance reaches "0" or until the expiration date. If there is a balance at the end of the 6 month term the balance will be forfeited. The Service Credit may NOT be sold to another V N. c accepted RCAS-HA advised c that the maintenance plan had been processed also and RCAS-HA will email this to c c stated c would like it to be mailed to c RCAS-HA veified c's mailing address RCAS-HA advised c that it would come to c in the mail after being available to RCAS-HA on Monday c stated that is fine RCAS-HA advised c to have a nice day and RCAS-HA wishes c the best of luck call ended mutually

Make Public **Created By Michelle Henares (10/27/2014 11 51 AM)**
CRR-MH received a call from C's husband, [redacted] who is referred to as C in the case. C stated that there is an issue with the airbag light coming on.
C stated that C was advised to call CA and start up a case.
C stated that veh was taken in several times already. The campaign was likewise performed but the light keeps coming back.
C stated that veh was taken also a few weeks ago but the day after the light came back on.
C stated that last night the light was on for about 40 minutes.
C called dlrshp today because C wanted to take veh in. C was advised to call CA by SA-Robert Elder and start up a file re: concern.
C is leery in having a passenger seated on the seat. C is concerned as this is a safety issue.
CRR-MH verified C's updated contact information.
CRR-MH found and advised C that there is an open campaign on the:
2013 - Altima Sedan (L33) Secondary Hood Latch
CRR-MH further advised C to have the campaign performed.
CRR-MH informed C that the case will be forwarded to a regional office and a regional specialist will be in contact with C by the end of the next business day. The best no. to reach C is [redacted]
CRR-MH escalating case to RCAS for vehicle concern.
CRR-MH offered further assistance to C. C declined.
CRR-MH gave name, extension number and case number to C.
CRR-MH leaving case open.

C was told by dlr also that c needs to pay $2000 for the repair if c will have the repair done at the dlr. crr-mi verified c's contact information (name,mailing address,phone number and 2nd phone number and email address). Crr-mi advised that case will be raised to the regional office and c will get a callback from regional specialist by the end of the next business day. C agreed and understood and requested to be called at [redacted] Crr-mi offered further assistance. C declined. crr-mi thanked c for calling CA and provided c with the name,ext number and case number. Crr-mi forwarding the case to RCAS. Crr-mi exiting case.

Arbs-ASM received email from atty-Bob:

Good Afternoon Angie:

Thank you for your 11/10/14 Letter and offers. Please accept this e-mail as confirmation this matter is now settled for the repurchase of the subject vehicle pursuant to this Commonwealth;s Lemon Law, with a $205 00 usage charge. Attorney fees and costs are hereby separately settled for the reduced sum of $1,750.00.

This is an NMAC Loan so I assume you can pull all of the figures for the Offer Letter and Release. If not, please let Dave Kelly know how he can assist.

Thanks for working with me.

Bob

ARBS called c @ ([redacted]) to advise that NNA reviewed the repair history of the vehicle and the dealership appears to have been unable to duplicate the concern. For this reason, Nissan is not in the position to repurchase or replace this vehicle. We have no indication of any warrantable repairs to this vehicle, but the c is welcome to send any other documentation to NNA for review. Spoke to c. C states he just had issues repaired with Bill Ray Nissan. C states there are 2 sets.
C states they had an accident. C states they told the dlr to look at the issues, but they were unable to fix everything.
ARBS asked the c if the vehicle was in an accident.
C states no and then continued:
C states headlights were going on and off and they found a burnt out fuse box. There was a hole in the top of it.
C states the headlights are working now.
The c states they did not try to repair the airbag but whatever they did
C states the brakes were making noise. C states they resurfaced the brakes and replaced the pads.
C states the strip above the dash board, they pulled it out. He saw the same thing in the rental. They ripped it out.
They detailed the car and did a really nice job.
The airbag situation was taking 30-45 minutes for the light to go off. The wife was sitting in the car. C states the airbag light would stay on and then go off. Then restarting the car would change.
Bill Ray has everything.
ARBS advised that we will call Bill Ray and get the additional information and take a look at it again.
C states when we looked at it, nothing had been done to the car.
ARBS confirmed and advised that this is why the request was denied, but we will look at it again.
C thanked. The call ended mutually.

SRCAS-RR transferring case to RCAS-WM for delivery of decision.

Created By Anthony Zacharyasz (12/8/2014 9 28 AM)
ARBS notes the following:

1 visit for a one-time stall. // No duplication of any concerns.
1 visit for Bluetooth not pairing. // No duplication.
1 visit for passenger OCS sensor. // OCS working properly.
2 days down.

Make Public

ARBS notes that according the complaint, C alleges the vehicle stalled once. The dealership wasn't able to duplicate the stall and it would appear that it has not occurred since the alleged stalling concern. ARBS notes the Bluetooth not pairing concern was not duplicated and may be the result of a variety of concerns, most of which are not attributable to a warrantable concern. ARBS notes OCS sensor not reading has not been duplicated and no codes have been reported by the OCS system. ARBS notes the Owner's Manual provides detailed information about the operation of the system.

–
Based upon the ROs provided and after careful consideration, NNA is not in a position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties.

ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.

Created By Wendy Martin (12/3/2014 8 22 AM)
RCAS-WM contacted c
C stated that c wants to know why the repurchase is taking so long
RCAS-WM explained to c that the review takes an estimated 10 days as RCAS-WM explained that the review process takes an estimated 10 business days
C stated that c does not want to wait anymore
C states that c has been waiting for over a year and c should not have to have this issue with a brand new car
C stated that c just want s to be heard
RCAS-WM stated to c that RCAS-WM will listen to c
C stated that every time c takes that veh to the dlr the dlr wants c to purchase another veh
RCAS-WM explained to c that the dlrs are individually owned and NNA cannot tell dlr how to run the bus sines
RCAS-WM explained to c that if c has an issue with dlr RCAS-WM will document that complaint and address it with The regional Management
C stated that c wants to be heard out
RCAS-WM stated that RCAS-WM will listen
C stated that c purchased the veh and Reed Nissan ripped c off
C stated that dlr gave c a bad interest rate

Make Private ✓

C stated that veh had an issue with the airbag light from day one
C stated every time c took veh to the Reed or another dlr all the dlrs want to do is to have c purchase another veh
C does not want to do that
C stated that c talked to lawyer and lawyer told c that c would have to request that NNA repurchase the veh
C stated that C thinks NNA needs to repurchase the veh because the air bag light is a safety concern and it is a brand new car
RCAS-WM stated that the veh is made up of thousands of parts and built by humans so unfortunately sometimes this break or don't work properly and that is qhen NNA depends on dlrs to repair the veh
C stated that c does not feel dlr is doing this because the issues are the same
RCAS-WM explained to c that RCAS-WM was sorry about that
RCASA-WM stated to c that RCAS-WM was sorry c was not happy with the veh but c has only asked for repurchase on 11/24/14 and as expllained when c asked for the repurchase
RCAS-WM state that the review takes at least 10 business days
C stated that c could tell RCAS-WM was getting frustrated and wanted to get c off the phone
RCAS-WM stated that c was not frustrating RCAS-WM and RCAS-WM was listening to c
C stated that c will let RCAS-WM go and c was sorry\

C veh is everything to c
C wants NNA to repurchase c veh
RCAS-WM stated to c that RCAS-WM will assiat the c by gathering repair orders and RO's will be reviewed and a decision will be made from the ro'
s
RCAS-WM explained to c that the review takes and estimated 10 business days and that RCAS-WM has to ask c a few questions
C agreed

Why do you want to return the vehicle to Nissan North America? Because veh is poorly mad and c should not have to pay for repairers on a new veh
Where is the vehicle currently? in c possession
Where was the vehicle purchased? Reed Nissan
Was it purchased new or used? New
If used, when was the vehicle purchased?
Where is the vehicle serviced? Universal Nissan
Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers? Bill Ray Nissa , reed Nissan and Universal Nissan

RCAS-WM explained to c that review takes an estimates 10 business days and hRCAS-WM will request the ro's for veh
RCAS-WM stated to c that RCAS-WM read in c notes that c was not happy with RCAS-WM
RCAS-WM apologized to c if c feels that way and stated tho c that RCAS-WM will follow up with c every three business days
RCAS-WM stated to c that RCAS-WM wanted c to know that RCAS-WM is working on c case and RCAS-WM knows at times it is very difficult to get RCAS-WM on the phone someday but

rcas calling [redacted]t 4:08 p.m. cst
rcas spoke with c and advised rcas is handling file.
c stated c took veh to rtlr for airbag warning light. c stated concerns are still taking place. c stated rtlr has replaced sensor. c stated rtlr was not able to duplicate concern. c stated c did not know if rtlr was able to experience concern. c stated concern is now taking place and is not consistent
c stated c is concerned because veh is new.
c stated if c does not fill gas tank, DTE reading is not accurate. c stated one reading says Miles to Empty and the other is the meter. c stated meter moves and reads how much gas. c stated the MTE reader is not accurate.
c stated this is second time concern needs to be looked into.
rcas understood and apologized. rcas advised history has been reviewed.
c stated each time c goes in, c gets loaner but it is a small sedan. c stated loaner does not accomodate c's family and car seats. c stated this is inconvenient. c stated c does not want to go in to rtlr every few weeks.
rcas understood and apologized. rcas advised rtlrs own loaners and may not have SUV loaners. rcas inquired if c spoke with rtlr about this.
c stated c spoke with rtlr about loaner and asked for a bigger car. c stated rtlr advised rtlr only has sedans for loaner vehs. c stated c understood, but it is not convenient.
c stated c does have concerns about quality of veh. c stated c has maintenance plan and servicing is up to date. c stated c follows maintenance schedule.

Make Private ✓ rcas understood and apologized. rcas advised concerns are documented. rcas inquired if c is seeking any assistance from INF
c stated veh is leased and wanting to purchase veh from lease. c stated c wants concerns resolved. c stated lease will end in 4 months.
rcas understood. rcas recommended c set appt with rtlr for diag.
c agreed. c stated c wants to make sure concern is resolved. c stated c recorded the light coming on and will show rtlr.
rcas understood. rcas advised once appt is made, c is welcome to contact rcas if needed. rcas advised can verify rtlr is utilizing resources available for diag
c agreed. c stated when c leased veh, which is c's first INF, c chose to get additional protection on veh. c stated FM- Frank (no longer with rtlr) sold c packages. c stated c remembers FM saying what packaged covered. c stated c did not read contract, and c takes responsibility for this. c stated FM said the scratch would be buffed or repainted. c stated c was also told the rim scratches would be covered.
c stated last months, c noticed scratches on rim and asked rtlr how to proceed. c stated rtlr advised plan does not cover scratches. c stated c was disappointed. c stated c took FM word for it on what was covered.
c stated those packages are third party. c stated c feels rtlr is now saying it is not INF service and INF is not responsible. c stated CSM talked to c's husband and advised would contact company for plan but never returned call to c. c stated c had requested cancellation.
c stated rltr advised contract could not be cancelled.
rcas understood and apologized. rcas advised complaint is documented. rcas apologized c was provided incorrect information regarding non-INF contract. rcas offered to contact rtlr to discuss and ask that c be contacted.
c declined and advised rtlr advised c that c was advised it cannot be cancelled.
rcas understood. rcas advised concerns are documented. rcas advised c to contact rcas if needed. rcas provided contact information
c agreed, c thanked rcas, call was ended.

Arbs Rec'd Email from C

Hi Janelle,

Just checking on the status of the updated buyback offer.(I believe I have made a payment or two since the last) In addition, I had a few questions on the replacement offer. When I looked at my current payoff amount online and phone the amount was $25,081 52 on the offer it is $25,676.37. Also not sure what was used as milage since the dealership had the wrong milage on the paperwork. (I have a picture of it) In addition, there is no mention of tax, tittle, etc., fees. I assume that since it is not listed under my financial obligation that Nissan would pay for it. Just want to make sure that is correct.

Make Public

In addition please email Barbara Sage's-manager contact information so I can finally put closure to this situation.

Thanks - Jay

ARBS reply email to C

Good Morning Mr.[redacted]

So you are wanting a buyback now and not a replacement? If so I will ask Barbara to send you the repurchase figures and continue the buyback process.

Arbs Called C @[redacted]
arbs spoke With C concern about the Replacement / Refinance Offer
C stated that in the Beginning C was offered LL Repurchase and now c has been offered A replacement / Refinance and has all this mileage that C is being charged. Arbs discussed Wtih C that C stated is a Definition state and C veh does not fall under the Lemon Law. Arbs expl to C that C complaint with C air Bag was not until c had 17,174 Miles on it. C stated C had the issue with the Airbag light before then and that the Dealer did not record it. arbs exlplained to C that Arbs has to go by the repair history of C vehicle and that it is the C responsibility to make sure Dealer documents any visits to the Dealer for C concerns.
Arbs expl to C how the BBB works. C stated that the Agent BS mentioned to C the BBB Program Summary and The C stated the Person that C spoke to at the BBB told C that the BBB does not have a Program Summary. Arbs asked C who did c speak to At the BBB? Arbs assured C that The BBB does have a Program Summary.

C stated C veh is back at the Dealer now for the Air Bag Light concern and the NO START. Arbs asked C about the No Start concern because Arbs could not find that Concern on any RO's. Again the C stated the Dealer didn't record it on the RO's and the C thought NNA was buying C vehicle back so c didn't mention it.
Arbs offered C arbs contact Information but C stated c was at work and Asked Arbs to Email C.
Arbs verified C email.

Usage: 25,500/100,000 x 39,000 = $9,945.00
ARBs ok'd waiving 50% usage in replacement = $4,972.50
Base price $41,812.50 - Sales tax $2,312.50 = $39,500 - rebate $500
No service contracts

Vehicle reg and purchase contract name is Jason T Lewenczuk, solely. Registration current

NMAC payoff: $25,676 37 through 1/18/2015
30 day payoff: $25,676.37 + (4 x 0 63 = 2 52) = $25,678 89 through 1/22/2015

Upgrade charge on replacement: New MSRP - Old MSRP = 45,080 - 43,120 = $1,960.00

RCAS ADVISED "This call may be recorded for quality and training purposes."

RCAS advised c that RCAS advised DTS-Keith that c's concern returned
RCAS advised c that DTS stated that DTS has performed all recommended repairs to correct concerns
RCAS advised c that DTS stated c's concern is a normal condition due to c's wife being of small stature

C/S that in manual c received from DLR, it is not specific on what size a small adult is
C/S that it should be specific with how specific the weight limit is for small adults
C/S that manual only advises small children will not turn on air bag
C/S that c works in software and feels that there is a defect in software that is not recognizing passenger in seat
C/S that c does not see these concerns with other veh manufacture

C/A RCAS for next step because c cannot accept that c's veh operating normal
C/S that c's concern is a major safety issue and is not being addressed
C/A RCAS if c needs to take c's concern to arbitration
RCAS advised c that DTS did perform inspection of c's veh and advised that c's concern is a normal characteristic of c's veh
C/S that DTS did not really inspect c's veh and only just looked at c's veh

C/S that c wants a firm answer on what NNA will do to address c's safety concern or c will go to BBB and file lemon law on c's veh
RCAS advised c that RCAS can further review c's case and follow up with c on Friday

ARBS note responded to Shawn Nelson, attorney, with the following:

Mr. Nelson:

The following will show that there was nothing excluded from the repurchase offer that Nissan North America presented to Mr. Overton:

The rebate is not a charge; and it was not money Mr. [redacted] paid to purchase the vehicle.

Mr. [redacted] made $6,975.48 in payments including down payment.

Mr. [redacted] had a trade in allowance of $2,000.00, the balance owed on the trade in was $4,000.00. Net Trade-in -$2,000 00.

Nissan North America does not reimburse the non-Nissan service contracts Mr. Overton purchased: $4,103 00

Mr [redacted] has usage charge of $3,186 81.

Credits $6,975.48
Debits $9,289.81

Mr. [redacted] will owe Nissan North America $2,314.33 for the repurchase.

Thank you,
Trisha

crr-jm received a call from c. c stated that c is having an issue with the passenger airbag. C mentioned passenger airbag is off and the airbag light stays lit so c brought the veh to the dlr and dlr did replace the sensor. C stated after the sensor has been replaced,it is happening 2-3 times a day. C said c took the veh back to the dlr and c was told to call NNA because dlr can't

replicate the issue. C's calling NNA asking for assistance from Nissan to get the veh fix.

crr-jm verified the name of registered owner, mailing address, phone numbers, email, if veh was purchased new or pre-owned, mileage on the veh and c's servicing dlrshp.

crr-jm verified if the veh was diagnosed, c said yes and provided the following information:

WHERE: M DWAY NISSAN
WHEN: 10/24/14
DIAGNOSIS: C stated dlr can't replicate the issue.
SA: SA-Andrew
EST MATE COST OF REPA R: Veh is still under the warranty.

crr-jm asked c how c would like to be assisted by nna, c stated C wants Nissan to fix the veh.

crr-jm informed c that c's concern will be forwarded to the Regional Office and a Regional Specialist will be calling c before the end of the next business day, c acknowledged.

crr advised c that the RCAS will be checking for a possible resolution to help c with the request/case.

		Created By Nicholas Stanton (11/25/2014 1 01 PM) RCAS-NS received a call from c about the case. RCAS-NS advised c that at this time NNA is not in a position to repurchase c's veh C asked why
Make Public		RCAS-NS advised c based on the repairs the veh has been through NNA is not in a position. RCAS-NS offered c a prepaid maintenance plan to cover 8 oil changes. C accepted the offer but stated c still think there is a concern with the airbag light and will take the veh into the DLR to see if it is operating normally. RCAS-NS advised c that RCAS would follow up on 12/1 C thanked RCAS for the call.
Make Public		**Created By Nicholas Stanton (11/25/2014 9 10 AM)** RCAS-NS called c to deliver the decision regarding the repurchase request. RCAS-NS left a call back message

c called in and complained that the airbag had been seen for 5 times already and still not been addressed.
c was assisted by SA George however SA is no longer working there.
c said that it had been repaired once before about the airbag.

c said that the veh is at the dlrshp still.
c stated that c has another appointment for tomorrow.

c said that the right passenger seat is having issues and the dlrshp said that it was because of c's daughter's weight.
c said that c's son is 190 lbs but it's still the same issue nor with c who is 200 lbs.
c said that the dlrshp reset the codes but it's still doing the same.
c was advised by a friend who works at another nissan dlrshp that the dlrshp needs to changed the bottom seat cushion where the sensors are.

c even said to the dlrshp that c will be calling NNA because c doesn't know what to do and the dlrshp said to go ahead and call NNA.

c said that c is not getting any resolution.
c also worked for NISSAN for at least 20 years.

crr-ab empathized & acknowledged c's concern.
crr-ab asked for c's personal & veh's info., attach veh ownership to c.
crr-ab provided c's case no.

crr-ab asked how nissan can assist.
c said that c needs to have the veh fixed, c loves the altima however c is really concerned about the airbag and would want it to be replaced if not taken care of.

crr-ab informed c that crr-ab is not in the best position to guarantee but informed c that case will be escalated to RCAS and still subjective for review and approval. RCAS will also call by the end of the next business day.
c understood.

crr-ab asked c if there's anything else that crr-ab can do to assist. c declined.
crr-ab did recap.
crr-ab provided closing script, name & extension no., call ended.
crr-ab escalated case to RCAS.

ARBS contacted Sls Mgr-Wayne Erickson at Krenzen Nissan and left voicemail requesting the buyer's order showing all charges (Sales Tax, Doc Fee, Registration Fee, etc.)

Make Public

ARBS also sent the following email Sls Mgr-Wayne Erickson:

Thank you so much for the information you sent. I was looking for you at the dealership but was told you were with a customer so I was transferred to your voicemail.
I need the buyer's order showing the dealer charges (sales tax, doc fee, registration fee, etc.). If you could please send me that information I would really appreciate it so that I can put the letter together for Mr. [redacted]
Regarding the Nissan Extended Warranty, please include the price on the Buyer's Order. Once he gets the new Armada, this Warranty will be transferred to the vehicle. We won't charge him again for it but just do the transfer from one vehicle to the other.

Created By Luis Rodriguez (11/10/2014 12 54 PM)
ARBS received inbound call from customer stating the new Armada has been chosen. Customer asked if the new vehicle could be provided before the 19th since the customer will be leaving town.

Make Public

ARBS stated the information was received from Mr. Erickson and ARBS needs to put together the letter for the customer. ARBS also stated that the process takes about 2-3 weeks to take ownership of the new vehicle so ARBS cannot guarantee the customer will get the new vehicle before the 19th since the surrender process needs to go through a third-party company called Morley VSPC and it's them who will arrange a date with the customer and the dealership to surrender the vehicle.

Customer understood and thanked ARBS for the assistance. Call ended mutually.

The best contact # that we have for Mr. [redacted]

Please show the purchase price of the vehicle at invoice, but you may include all collaterals, taxes, rebates, doc fees, etc The Dealership will keep holdback and should RDR as a new sale. Please do not include a downpayment or a trade allowance on the buyers order. Please do include a Gold Preferred Security + contact for that amount of $2,185.00 on the buyers order. I have attached his current invoice to assist you in locating a new Armada with similar options.

Please do not release the new vehicle to [redacted]nce the vehicle is selected it will take 10 – 14 days to surrender the vehicle. Morley, our surrender company, will schedule the time and date of the legal surrender. PLEASE DO NOT SELL THE CHOSEN VEHICLE N THE INTERIM.

His current vehicle will not go into the dealer stock. Nissan will pick up the repurchased vehicle.

Thanks again and please contact me directly at [redacted]with any questions.

Sincerely,

Make Public

ARBS received inbound call from c. ARBS apologized for the inconvenience the customer has been having with the vehicle and stated the ARBS has been asked to assist with the vehicle replacement.

C confirmed and stated the c would like to get a replacement but would like to get an Armada instead.

ARBS informed the c that a SOC has to be an equal value vehicle but if the c decides to add more options/packages or upgrade trim or model vehicle, the c will be responsible for the upgrade fee.

C understood and stated that will be okay. C stated c traded an Armada for this Pathfinder and c really likes the Armada.

ARBS asked the c to please send a copy of the veh registration and sales contract.

C stated the vehicle was paid off last week. ARBS stated a copy of the title will be needed but as customer is with NMAC ARBS will ask how long it will take to receive that title.

ARBS stated the selling dealership will be contacted to verify if the dlr is willing to assist with the SOC. ARBS will contact the c on Friday with any update.

C thanked the ARBS and the call ended mutually.

Make Public		**Created By Heidi Thur (10/31/2014 12:40 PM)** RCAS-HT contacted C @[redacted] RCAS stated the call is recorded and monitored for quality and training purposes. RCAS verified email/mailing address, contact number and veh. RCAS stated RCAS following up with C regarding the open case. RCAS apologized to C for the concerns C is having with the airbag. RCAS asked if C spoke with SM David. C stated yes C has spoken with SM. C stated that C has a picture with person in seat with airbag light on. C stated that C has researched and there is a web sight that shows complaints for veh and airbags. C stated that C did have the update done but still concerned about the safety. RCAS apologized for the concerns C is having and understands the safety concerns. RCAS stated that the dlrshp was unable to duplicate and without a duplication unfortunately RCAS is unable to assist at this time. RCAS advised C take veh to another dlrshp and see if another dlrshp could duplicate the concern. RCAS stated that if C is driving and has time and the concern duplicates to go to the dlrshp and not turn the veh off before the tech inspects the veh. C stated that C would be able to go to another dlrshp. C stated C is concerned that the update is not correct and would like to go back to the old software. RCAS stated RCAS is unable to answer that concern as RCAS is not a mechanic. RCAS advised a second opinion. RCAS stated if C still has concerns at that time that C can contact RCAS directly. RCAS provided contac[redacted] and case number [redacted] C thanked RCAS for contacting C and following up when C was told C would receive a follow up. RCAS thanked C and call ended mutually.

Make Public		**Created By Barbara Sage (11/14/2014 2 39 PM) Last Modified By Barbara Sage (11/14/2014 3 31 PM)** RC took inbound call from C's grandson, who wanted to argue about the reason for the repurchase. RC discussed issue with supervisor; no revision will be taken. RC took inbound call from C's son; C's son asked about revising the reason for repurchase, to which RC pointed out the entire process would have to begin again. C asked RC to fax formal repurchase document to Infiniti of Modesto; RC coordinated with dealership personnel Marco & Adam, who graciously agreed to receive and hold document for C & son to retrieve around noon tomorrow. RC also advised C's son a hard copy of the repurchase offer will come to him at his Terrance Way address via Fed Ex Overnight ([redacted] and should reach him on Monday. Call ended mutually.

rcas-dd received a call from c's son-[redacted]
c son stated spoke with very displeased with vehicle in-touch system and the airbags and brakes when c is taking veh on trips with mother who owns the vehicle.
c son states also have spoken with the GM at the retailer which referred c to CA for consideration for repurchase.
c son states also has determined the in-touch system is not working correctly.
c's son could not provide any specific concerns with the vehicle just dis satisfied with the veh performance.

C states that c is seeking a repurchase or replacement of the veh.
RCAS understood and advised c that this request requires a 10 day review of the customer's svc history and veh concerns.
RCAS advised c that INF cannot guarantee that that INF will be able to honor the request, but will advise c when the review has been completed.
RCAS advised c that RCAS will follow up, midway on , pending any delays, when the 10 day review period has been exhausted. C understood.

		Created By Jessica Lee (11/3/2014 4 03 PM) **Case Summary**
Make Private	✓	C contacted NNA CA to request assistance because the passenger side air bag comes on intermittently. RCAS-JL referred c back to the dlr to do a ride along with c's wife sitting in the veh. RCAS-JL closing case pending duplication of concern.
		Created By Jessica Lee (11/3/2014 4 02 PM) RCAS-JL placed outbound call to c a[redacted] RCAS-JL verified c's name, model/make/year of veh, home and e-mail address, mileage, phone # & dlr. RCAS-JL notes previous related cases: None RCAS-JL notes previous unrelated cases: None RCAS-JL notes open campaigns/recalls None RCAS-JL advised c that this call may be recorded for quality and training purposes. C states that the light comes on when the veh starts. C states that sometime the light will go off, but other times it does not. C states that the concern happens when c's wife sits in the seat. C states that the concern is intermittent.
Make Private	✓	RCAS-JL states that c needs to schedule an appointment with the dlr to do a ride along. RCAS-JL states that NNA cannot advise a repair until codes are shown. RCAS-JL states that c needs to have c's wife sit in the passenger side seat so that the concern can be duplicated. RCAS-JL states that once the concern is duplicated that a code will be shown that can advise the dlrs on repairs that need to be made. C states that this makes sense. RCAS-JL states that RCAS-JL can provide c with RCAS-JL's contact information. C states that c is not in a place to write down the information. RCAS-JL states that c can contact RCAS-JL by calling the 1-800-NISSAN1 number. C thanked RCAS-JL. Call ended mutually.
		Created By Jessica Lee (11/3/2014 3 50 PM) RCAS-JL placed outbound call to TED RUSSELL NISSAN. RCAS-JL spoke with SM-Greg.
Make Private	✓	SM-Greg states that c came in on 10/24/2014 at 44,000 miles and no codes were shown. SM-Greg states that c came in on 05/16/2014 and no codes were shown but did a zero point reset. SM-Greg states that c came in on 04/21/2014 at 30,000 miles for an OCS recall. SM-Greg states that c came in on 07/22/2013 at 11,000 miles and the dlr replaced 2 OCS sensors per recall. SM-Greg states that c came in on 02/26/2013 at 2,000 miles for zero point reset because a code was shown. SM-Greg states that the tech has not been able to duplicate c's concern other than at 2,000 miles. RCAS-JL thanked SM-Greg. Call ended mutually.

ARBS called C a[redacted] and reached C.

ARBS advised ARBS was calling to check in on the vehicle and the concerns.

C stated the vehicle shuddered once but it wasn't severe and that Mrs. C placed her hand in the seat once so it reigstered as a child/small adult so the vehicle needed to be restarted to readjust.

ARBS advised based on the vehicle performing as designed, ARBS would like to provide a cash settlement to C for inconvenience of repeated trips to the dealership in the amount of $3,000.00 with a signed Settlement Agreement.

C asked if C's remaining warranty would be voided - ARBS advised all applicable warranties will continue to be honored.

ARBS asked how C would like to provide registration - C stated fax number. ARBS provided direct fax number and inquired how C would like to receive Settlement Agreement. C stated e-mail would be fine and provided [redacted] ARBS re-read e-mail for accuracy.

ARBS thanked C for time.

ARBS rec'd incoming call from SM-Joe.

SM-Joe stated that ARBS should really be calling the Parts department and stated the Tiger Team was involved. ARBS advised ARBS would call back and ask for the Parts.....

SM-Joe interrupted and stated that C is calling asking about repairs/parts, the parts are on BO and that the area is about to get a foot of snow and the C is currently driving a loaner vehicle. SM-Joe is frustrated that C is driving loaner vehicle for so long.

ARBS apologized that the C is in the loaner vehicle and stated that ARBS could check.....

SM-Joe interrupted ARBS again and stated Parts Coordinator Matt was walking by. SM-Joe asked PC-Matt for update. PC-Matt answered and SM-Joe asked ARBS if ARBS heard what PC-Matt said. ARBS advised no that ARBS did not hear what PC-Matt stated.

SM-Joe stated PC-Matt was with a customer and that SM-Joe would pass along ARBS' contact phone number to return call.

SM-Joe also stated that SM-Joe returned ARBS' call yesterday. ARBS acknowledged that ARBS rec'd the v/ms and had documented the information, ARBS just didn't have a chance to return the call yesterday.

Crr-ps received a call from C about a vehicle concern.
C stated that the campaign was already performed on the veh but the passenger airbag light still comes on even if there's someone sitting on the passenger side.
C said that C went to LANDERS NISSAN and was told by SA - Christopher Todd that there's nothing that they can do about it anymore.
C said that C was advised to contact NNA about this concern.

Crr-ps verified account information.
Crr-ps advised C that the case will be forwarded to RCAS for review.
Crr-ps advised C that RCAS will call C back before the end of the next business day which is on 11/3/14. C understood.

Crr-ps offered further assistance. C declined.
Crr-ps did a quick recap.
Crr-ps provided name, case and extension number.
Crr-ps forwarding case to RCAS.

I am sorry for the delay. We have been finishing out or month. I am ready to send another purchase order but need some clarification on how it should read.

The vehicle is listed for sale at invoice price of $22123. The total of $24062.38 includes taxes and tag fees. Do you want it to total $22123 after all fees? If so, there is a chance he may own some money when we do his tag and title work with Maryland.

You can email or call me at 301-309-2200. I will be in until 6 today.

Arbs-ASM submitted email to SM and GSM:

Thanks for speaking with me regarding the above replacement. As discussed please:

1. Schedule a time for the customer to come to the dealer and select a replacement. I will forward your contact information to the customer's attorney.
2. Prepare buyers order for replacement vehicle and include vehicle at invoice cost, tags, title, etc. (You can RDR vehicle.) Please email buyers order and invoice. The lien holder, NMAC, will also fax documents to you to transfer the VIN on the loan.
3. Once buyers order is received, I will forward the customer the replacement paperwork to sign, as well as the dealership paperwork.
4. Once all paperwork has been received, the dealership check will be forwarded to Morley, our third party surrender company, who will contact you to provide information on delivery/surrender of the vehicles. Morley will then Fed Ex the dealership check to you.

Please let me know if you have any questions.

Thank you for your e-mail.

At this time, Nissan North America has provided you with our two voluntary offers – to repurchase the vehicle or a cash settlement. Nissan North America will not be offering to replace your vehicle at this time.

ARBS rec'd the following e-mail from C:

With reference to the "The other option available would be a cash settlement in the amount of $2,000.00 in exchange for a signed Settlement Agreement. The cash settlement would have you keep the 2014 Altima and Nissan would provide you with a check in the amount of $2,000.00."

So does that mean I keep the car +$2,000.00 but don't have to pay anything back to Nissan (ex: Monthly installment due on the car) ? And is the matter closed with this settlement?

Make Public

ARBS sent the following response:

Thank you for your e-mail. The cash settlement would be $2,000.00 for your inconvenience of multiple trips to the dealership. The vehicle would remain in your possession and you would still be responsible for making the monthly payment. Nothing changes with the loan with the cash settlement. Nissan just provides you with $2,000 00 cash in exchange for a signed Settlement Agreement.

Please let me know if you have any further questions.

The other option available would be a cash settlement in the amount of $2,000.00 in exchange for a signed Settlement Agreement. The cash settlement would have you keep the 2014 Altima and Nissan would provide you with a check in the amount of $2,000.00.

ARBS sent the following response to C:

Thank you for your e-mail. Nissan North America has previously replaced your 2013 Altima with the same airbag issues that you are currently experiencing. Mr. Merkel met with you in regards to the 2014 Altima and stated that while he believed the vehicle to be operating as designed, he would replace the sensors and control module to ensure that all parts were new and in working order. Since the repair, you have mentioned that the airbag light continues to illuminate.

Make Public

With the facts above, it is not in your best interest to receive another replacement Altima as I am unable to guarantee that you will no longer experience the airbag light illumination. The OSC airbag system is a complex system within the vehicle that has been mandated by the federal government to be in place.[redacted]advised that he provided you with several documents to explain the operation of the system with regards to the classification of the front seat passenger.

The 2015 Altima is equipped with the same OCS airbag system that your previous 2013 and 2014 Altimas have been equipped with. As you stated below, you believe that it is an issue with the manufacturer of the airbag and not Nissan however the 2015 vehicles are using the same airbag manufacturer as the 2013 and 2014 you previously owned.

Due to your continued experience with a second vehicle with known good parts for the OCS system and the airbag light continues to be an issue, Nissan is offering to voluntarily repurchase your vehicle as there is no guarantee that you will not experience the same issues with a 2015 Altima.

ARBS rec'd the following e-mail from C:

Make Public

Thanks for your email.

I purchased this vehicle for my personal use and it is a very comfortable and prestigious car.But unfortunately it has an issue with the passenger air bag which in my opinion is the fault of the manufacturer of the airbag, not Nissan company. Yet I do not agree for the repurchase offer since I bought a car because I needed one. Therefore I request you to give me a Nissan-Altima without the air bag issue (a car without defects).

ARBS transferring ownership of the case and notes the following:

*REASON: 4 visits for PABI light on intermittently and 25 days down.

*LEMON LAW: Yes, TX.

*USAGE: 24,126 miles, full use divide by 120,000 miles until 11,592 miles. 50% use over 120,000 miles from 11,592 miles to 24,126 miles.

*RETENTION GOODW LL: ARBS is willing to waive up 33% of the use if C elects replacement over repurchase.

*OPTIONS: If C doesn't want replacement/repurchase, NNA will offer $3,500 00 cash as settlement in lieu of buyback.

RCAS asked if C still wanted to be in the veh.

C stated that C has had a lot of concerns with the veh and that now the veh is having electrical concerns.
C stated that C would be interested in a new veh
C asked what RCAS could do.

Make Private ✓ RCAS stated that RCAS could not do a trade but that C could address trades with a DLR if C wanted to.
RCAS stated that RCAS could submit a repurchase request and that occasionally when a veh was repurchased that, depending on who the veh was financed through occasionally trades were performed.
RCAS stated that RCAS has ROs from Ancira and Boerne but was still reaching out to Gunn and would follow up 11/12

C agreed and asked that C note that the airbag still going off and on.

RCAS agreed.

Call ended mutually

Make Private	✓	**Created By Tommy Beard (12/8/2014 2 48 PM)** RCAS TB adding DTS notes •Occupant Detection System Control Unit was replaced to assure correct system operation. •Performed Zero Point Reset and cleared all codes. •Adjusted exhaust mounting to reduce vehicle vibration. •Explained to the customer that it is normal operation for the PABI light to illuminate under certain conditions and it is not an indication of a malfunction. •Provided the customer with a printout of pages 1-37, and 1-44 to 1-49 of the owners manual and pages 5-8 of NTB14-084 explaining the proper use and operating characteristics of the 2013 Altima Passenger Airbag System. •The driver's side Non OEM floor mat was removed and put in the trunk, I informed Mr. Kochanevich that Nissan does not recommend the use of Non OEM floor mats as they can interfere with the safe operation of the vehicle. C contacted <Nissan-Infiniti> CA requesting assistance with airbags. Vehicle was not able to be diagnosed and DTS confirmed that vehicle is operating as designed RCAS advised C <Nissan-Infiniti> has created a Case to document C's concern and this case will remain in <Nissan-Infiniti's> system

Description	firstname : [redacted] lastname : [redacted] email [redacted] homephon[redacted] address1 : [redacted] address2 : city : Albuquerque twitter : state : NM zip : [redacted] owner : true make : Nissan source : NissanContactUs vin : 1N4AL3AP4Dn[redacted] dealerstate : dealername : comments : I purchased my 2013 Nissan Altima about 15 months ago and just hit 9,000 miles. I wish I could say I absolutely love everything about my new car but there are some issues I just can't ignore. t bothers me that I not only hear a sloshing and banging sound coming from the rear with anything over a half tank of gas but I can feel it as well (the dealer says this is normal). My moon roof now rattles intermittently and is progressively getting worse (dealer already looked at once). My speaker covers on dash are curling/warping (center cover already replaced once and still having same problem) The driver seat squeaks when it□s cold and the console cracks and pops with temperature changes or going over bumps. There is insulation that keeps creeping out just above the glove compartment (this has been addressed once before). Also, after the air bag light was reset after the recall, it went off yet again for about 5 minutes when my 19 year old was in the seat. These things are unacceptable for a brand new, single owner vehilce. I'm really, really frustrated with these issues . I would like to continue as a Nissan owner but these issues are forcing me to consider other options. I would like to hear from you. Thank you, [redacted]

Make Private	✓	**Created By Norresa Jones (12/8/2014 2 03 PM)** C contacted RCAS-ND at 1:43p C stated dlr replaced all 3 grills C stated as far as clicking and sloshing, dlr stated it's normal

C stated the airbag light, dlr no problem found
C stated when C's daughter rides in seat, sometimes it goes off and doesn't
C stated the sunroof, dlr drove around and it usually happens when it's warmer out
C stated dlr used quarter tank gas, so C knows dlr drove veh
RCAS asked C about the concern with the foam
C stated the foam, dlr cut it out, dlr couldn't explain why it happened
C stated C will continue monitor veh
RCAS advised C C can take veh into a 2nd dlr to get a 2nd opinion
C stated C will have to wait until spring, starts to warm up more, plus with C's schedule
C stated the air bag concern, concern with the seating position
C stated dlr did recall, fixed the concern but it has reoccurred
C asked about the airbag with the 2013 Altimas
RCAS advised C when an object is in the seat, whether is it's a small child, an adult or maybe a bag of groceries, the air bag has to calculate the weight. it doesn't know what is in the seat, but depending on the weight of the object, it will determine if the air bag would be safe to deploy in case of an accident.
C asked about the fuel tank noise
C stated it's not just C, there are a lot of other people with the same concerns
C stated C hopes Nissan comes up with a solution
RCAS advised C RCAS would like to give C a service credit for C's experience
RCAS advised C the service credit is a debit card
RCAS advised C of the following:
•A service credit can be issued at the rate of once per V N per customer. If the customer has received a service credit according to the VIN history, the customer IS NOT ELIG BLE for a service credit. The new owner of a pre-owned vehicle IS ELIGIBLE if there is no prior history indicating the "new owner" has received a service credit.
•A service credit debit card CANNOT be issued to reimburse a customer for previous services.
•Valid at any Authorized Nissan Dealer/Infiniti Retailer. Approved for any service (valid only if genuine Nissan/Infiniti parts are used), or for the purchase of any genuine Nissan/Infiniti parts or accessories.
•This offer is valid until the expiration date, six months from the date that the service credit is offered to the customer. The debit card can be used until the balance reaches "0" or until the expiration date.
•If there is a balance at the end of the 6 month term the balance will be forfeited.
C accepted RCAS offer
RCAS advised C RCAS will send in the request and once it's approved RCAS will contact C
RCAS verified C's address

comments : I purchased my 2013 Nissan Altima about 15 months ago and just hit 9,000 miles. I wish I could say I absolutely love everything about my new car but there are some issues I just can't ignore. t bothers me that I not only hear a sloshing and banging sound coming from the rear with anything over a half tank of gas but I can feel it as well (the dealer says this is normal). My moon roof now rattles intermittently and is progressively getting worse (dealer already looked at once). My speaker covers on dash are curling/warping (center cover already replaced once and still having same problem) The driver seat squeaks when it□s cold and the console cracks and pops with temperature changes or going over bumps. There is insulation that keeps creeping out just above the glove compartment (this has been addressed once before). Also, after the air bag light was reset after the recall, it went off yet again for about 5 minutes when my 19 year old was in the seat. These things are unacceptable for a brand new, single owner vehilce. I'm really, really frustrated with these issues . I would like to continue as a Nissan owner but these issues are forcing me to consider other options.

I would like to hear from you.

Thank you,

problen

Please be advised this problem is Not yet resolved. On 11/1/14, I was in
the passenger seat. We had traveled about ¾ to a mile away from home and
the

air bag light remained on. Unfortunately, we were not prepared at the time
to capture this on video. Needless to say, we continue to be concerned
that

the air bag is faulty, and we continue to be alarmed about our safety.

In the past, your Fresno dealer told me that they would not take any action
to fix the problem unless the air bag light was on when I arrived at the

dealership even after I showed them a video of the air bag light being on.

Expect to hear from me again as soon as we catch this on video again.

Les,

Thanks for speaking with me today concerning the substitution of collateral for Mr. [redacted] have attached the invoice to his current Altima and the MSRP is: $31,425 00. NNA will pay your dealer the invoice price for the new Altima including taxes, title, registration and doc fees. He has a Service contract that he paid $1,599.00 (New Gold Preferred) and a Maintenance plan that he paid $489 00. Please add these two VSC's to his new vehicle and NNA will pay your dealer for these. You will simply add them to the new buyers order once Mr. Wilson picks out a new Altima.

Let me know if you have any questions.

Nissan North America would like to replace your current Altima with A new Altima of like model for the history of repairs that you have had. The process is a 3 Step process and it can take up to four weeks to complete, depending on the date of selection of the new vehicle. You can visit any Nissan dealer of your choice to pick out and test drive your new Altima. If you do select a model that has upgrades from what you are driving now, you will be responsible to pay the dealer for the upgrades.

1. Visit your dealer and select your New Altima.
2. Sign Replacement documents on the new vehicle for lienholder (NMAC)
3. Meet our third party vendor, Morley at the dealer to swap the vehicles.

Nissan North America apologizes for all the inconveniences that you have endured and would like to make this transaction go as smoothly as possible. Please let me know when you plan on visiting your Nissan dealer and which dealer you select. I will need a current copy of your vehicle's registration to start the paperwork. You can call or email me with any questions. I am in the office Monday-Friday from 7AM – 4PM CST.

Sincerely,

Make Public

c's wife Sallie, called about veh concern
crr-vl verified info of c
c stated c's veh had been in the shop for 4 months since c had it.
c had issues with navigation unit went completely block, speedometer issue, control panel lights gauges and keeps going out and bluetooth completely stops working or you can't talk with bluetooth and airbag light kept going on. c had it to local dlr and it will be the third time to take it to dlr for dlr to order part and test veh. c stated Sa-Michael who had been very helpful left company and was advised by Chad c needs to leave veh for 8 hrs. dlr can't give c a rental veh because it's a matter of testing it. c stated Sa is giving c loaner veh before. c was advised dlr already replaced c's unit before. c told SM-Chad that SA-Michael order part for seat. c was advised by SM-Chad there is no lemon law and does not apply to veh. c bought vsc and it's all electric issue c was having. c provided dlr info as c was advised to call NNA. c thinks veh is a lemon.

Hi Anna. This vehicle has been in the shop 6 times in the first year. I know that some of the problems are trim, but I still think that the repair history is excessive. Will Nissan pay $6500 to get this one settled today? Thank you!

Craig

C stated that C had campaign performed yesterday when they addressed concern with DLR. C stated that C has taken a photo of the light coming on with C's husband in the seat. RCAS stated that C would need to take photo to DLR to demonstrate the incident as RCAS could not diagnos the veh. C stated that C had been told the light will come on if not seated properly in seat and it shifts weight, but C states C is 160 lbs and does not C how seat could not read the weight. RCAS stated that the seats are very sensitive but RCAS would call the DLR to see if DLR might be able to reach out to anyone else about C's concern. RCAS stated C could make appointment or C could wait for RCAS to contact DLR and then make plans from there. C asked RCAS to call DLR and then call C. RCAS agreed and set follow-up for EOB 11/11. C thanked RCAS. Call ended mutually

This is a high saftey risk I do see at the start of the winter. I do have a photo taken on 11/6/14 around 8:50AM when the airbag off notification is lit even when there is a passenger. This happens once is 5 times which concerns me a lot on safety grounds.

comments : The passenger airbag is off even when a passenger is seated and buckled up. This is a high saftey risk I do see at the start of the winter. I do have a photo taken on 11/6/14 around 8:50AM when the airbag off notification is lit even when there is a passenger. This happens once is 5 times which concerns me a lot on safety grounds.

Nissan,

I am writing regarding

Case # [redacted]
V N # 1N4AL3AP7DC[redacted]

The Nissan representative Lawanda called us regarding this case. Unfortunately, I thought it was a solicitation call and hung up. I realized that day that it had been Nissan and called back apologizing. I called back a week later, which was about November 17.

I still have not heard back from Nissan.

I have a serious safety issue with my Altima. The airbag indicator light indicates airbag is engaged about 1/2 the time that my daughter is in the passenger seat and about 1/2 the time not engaged. She weighs 93-95 pounds. Airbag should be on or off, not sometimes one, sometimes the other.

I have taken the car into Brown's Fairfax Nissan 4-5 times over the last few months trying to resolve the issue.

My Altima has a serious safety issue that Nissan is not addressing in a timely way.

Best,

[redacted]

RCAS-DL contacted C
RCAS-DL advised "This call may be recorded for quality and training purposes"
RCAS-DL stated that airbag was working as designed and asked if C was experiencing the same concern when someone else sits in the veh
C stated that only C's wife rides in the passenger's side
C stated that C's wife is 105 pounds and the passenger airbag light comes on
C stated that C sat in the seat and the light did not come on
C stated that what bothers C is that why would be the airbag mechanism sensor not read adults that weigh 100 pounds
C stated what bothers C is that C's wife is small and C thinks its a safety concern and C does not know why it is designed in a way that it cannot read adults that weigh 100 pounds or less
C stated that the design is flawed
C stated that C's wife sat in the veh and wiggled around and the light stayed on
RCAS-DL advised that the veh was operating as designed and no repairs could be made
RCAS-DL empathized aand stated that RCAS-DL wished that RCAS-DL could have been of more assistance but unfortunately the veh is operating as designed
C stated that C would report the concern to NHTSA if RCAS-DL is not able to assist
C stated that C wanted to speak to technical person at NNA
RCAS-DL advised that C could speak with the DLR and that Engineers do not speak to Customers
RCAS-DL stated that RCAS-DL could contact DLR and see if there are any repairs that could be made
C agreed
Call ends

RCAS-DL contacted DLR
SM-Kerry stated that veh was operating as designed and that OCS has to detect if the passenger is a child or an adult and since C's wife weighs 105 pounds, the sensor may nor read the passenger as an adult if the passenger is not seated correctly
RCAS-DL understood

RCAS-DL contacted C
RCAS-DL advised "This call may be recorded for quality and training purposes"
RCAS-DL stated that unfortunately there are no repairs recommended and veh was operating as designed
RCAS-DL stated that airbag is designed as such in order to protect children from being hurt
C stated that there are young adults and adults like C's wife that weigh less and that the design was inadequate
C stated that C was going to purchase a Nissan Rogue for C's wife but C would never purchase another Nissan
C stated that CA had been inadequate and have treated C with a negative attitude and basically unable to provide a resolution
RCAS-DL stated that CA has tried to assist C and apologized but no further assistance could be offered
C stated that even if RCAS-DL tried , it still is not a favorable response
C stated that if anything happens to C's wife that Nissan would have a lawsuit on your hands

C stated that C would be going to NHTSA to report this concern since RCAS-DL was unable to assist
RCAS-DL understood and thanked C

TL placed call to c @ [redacted], spoke to c.
TL advised TL is calling at c's request to speak to a spvr.
C stated c is not happy with the rtlr not recording all of c's concerns and c is not happy with NF's decision not to repurchase the veh. C stated c does not feel safe in the veh and wants INF to take it back. TL apologized to c for the inconvenience. TL explained c's concerns have been documented. TL advised c that NF had a DTS inspect the veh and the DTS confirmed c's a/b concern. C agreed stating the entire seat bottom is being replaced. C stated c is not convinced this repair will resolve the concern and c does not want to guess. C stated c wants a guarantee in writing that the repair will resolve the concern. TL apologized and explained INF is not in a position to provide a guarantee but NF is confident in the DTS's assessment of the veh and his repair recommendations. TL advised c that INF will continue to honor the terms of the veh's manufacturer's warranty. TL advised c that INF will send c a formal repurchase denial letter via mail and TL will send c an email with TL's contact info. TL verified c's mailing and email address. C stated c is not still not happy with keeping the veh and asked if INF would contact the GM and ask that he call c back personally. TL agreed to make that request on c's behalf. C thanked TL for calling, TL thanked c for c's time and call ended.

RCAS-DC contacted C at [redacted] and spoke to c
C/S is very dissatisfied with the way the RTLER has handled the the situation and has emailed the DTS and feels that the repurchase since the RTLER didn't document c's concerns and was told by the RTLER SM that the legal team has looked at c's concern and wants to speak with them
RCAS-DC advised c that INF CA has issued a repurchase and a DTS and advised c to proceed with repairs that are recommended by DTS and if c has a concern after repairs to please contact RTLER and bring veh back in and contact RCAS-DC in order to reopen repurchase case
C/S doesn't feel safe and wants out of veh
RCAS-DC apologized and advised c understands but unfortunately the INF CA has done everything possible to accommodate c's concerns
RCAS-DC asked if c has spoke to RTLER about a possible agreement privately between RTLER and c
C/S was told no would have to go through INF CA
RCAS-DC apologized to c
C/S wants someone higher than RCAS-DC

		Created By Marisol Patino (11/12/2014 2 11 PM) RCAS-MP is closing case as no further assistance is needed. =========Case Summary========== RCAS-MP received case and c is requesting assistance with passenger side airbag light.
Make Private	✓	RCAS-MP reviewed and found that C's light goes on and off. C is refusing to take the vehicle back to the dealership to have the concern duplicated. RCAS-MP closing case until further diagnosis is made. RCAS-MP closing case no further action needed.
		Created By Marisol Patino (11/12/2014 2 10 PM) RCAS-MP contacted C @ [redacted] RCAS-MP advised c that this call may be recorded for quality and training purposes. RCAS-MP inquired about C's concern. C states on the 21st C took the vehicle to the dealership to have the recall performed and ever since then the light goes on and off. C states the SM has advised C to take the vehicle to the dealership and keep it there for a few days in order to find the issue. RCAS-MP explain to C that the dealership has to replicate the concern in order to find a fixture for it.
Make Private	✓	C states there is a recall on it and the dealership might have to re-do the recall. C states there is no need to replicate. C states C cannot continue to go back to the dealership. RCAS-MP understood and explained to C that the dealer has to replicate the concern because otherwise the dealership would be guessing on whats wrong with the vehicle. RCAS-MP advised C to go back to the dealership. C states C will get a lemon lawyer and C what NNA does about that. RCAS-MP understood. RCAS-MP offered further assistance; C declined further assistance at this time. RCAS-MP thanked C for contacting NNA CA, and advised C to please contact NNA CA if NNA CA can be of further assistance. Call ends mutually.

RCAS-MP contacted SM-Justin and inquired about C's concern.

SM-Justin states SM cant find any history of when this concern was reported.

Make Private ✓ RCAS-MP asked SM-Justin if the dealer provides loaners.

SM-Justin states sometimes GW can be provided. SM-Justin states SM will rather contact the customer and talk about the air bag concern before providing C with a loaner that is not necessary.

RCAS-MP understood and thanked SM-Justin for the help.

Call ends mutually.

comments : I have told the service manager on where'll occasions that the passenger airbag light that says it is off stays on sometimes even when someone is in the passenger seat that

weighs a lot more than would be required to quarter it. He has stated that we would have to leave it at the dealership until they could get it to repeat the same thing with them. Only problem is that it is our sole mode of transportation and it only does it occasionally not all the time. My concern is that the airbag will not perform in the event of a crash. How can we get this problem taken care of before something happens to someone in my family or the warranty runs out in five thousand more miles. Please let me know what I need to do to get this taken care without leaving my sole mode of transportation at the dealership for hours or days. Please I do not want to end up with something happening to my family and it be because of a defect in my Nissan Pathfinder that could have been corrected.

		Created By Michael Bardwell (1/5/2015 3 15 PM) ARBS received email from Morley-Ann advising that SM-Ruben contact Morley to advise that the replacement vehicle was not listed correctly as c opted to move into a new unit. ARBS placed outbound call to dlr SM-Ruben. SM advised that the paperwork for the new veh has the correct VIN but the wrong figures. ARBS understood, SM stated that the invoice price was correct, however the tax, fees and spoiler were not correct. ARBS asked SM to fax ARBS a copy of the correct buyer's order. ARBS asked SM if SM would be agreeable to accepting the check from Morley for the unit and ARBS will have another check sent out for the difference to speed up the process. SM agreed and call ended mutually.
Make Public		ARBS received inbound call from c. ARBS advised c that ARBS just got off the phone with SM. ARBS advised c that SM and ARBS figured out the error and that ARBS and SM are working on fixing the issue. ARBS advised c that ARBS will be sending an update to Morley shortly to bring Morley up to speed to get everything squared away. C thanked ARBS and call ended mutually. ARBS sent email to Morley-Ann advising that paperwork Morley has is correct, but ARBS created new Morley Case 219279 to correct the incorrect VIN that was transmitted. ARBS setting follow-up to 6-Jan pending docs from SM.

Make Private	✓	**Created By Nena Smith (12/23/2014 9 36 AM)** ********** CASE SUMMARY ********** C contacted NNA CA via quality connection survey to requesting assistance with OCS/Key Fob/Heated Seats TCS-NS reviewed case with TL, dlrshp, FQC Customer purchased vehicle: new Current mileage: 22,409 Warranty: 36 months/ 60,000 miles, Power train 60 months/60,000 miles Maintenance Plan: Expired 10/20/13 Last service visit: 12/17/14 Previous owned veh: none ********** STATEMENT OF DECISION ********** C had concern with heated seats dlrshp reviewed seats operating as intended. C had concern with Key Fob new battery was provided C had concern OCS sensors replaced C still has concern with 115 lb wife in seat C was advised veh operating as intended.
Make Private	✓	**Created By Nena Smith (12/23/2014 9 30 AM)** TCS-NS contacted C C states C contacted dlrshp Friday as when C's wife sat in veh airbag indicated would not deploy. C states dlrshp asked weight of C's wife C sates 115 lbs. C states dlrshp advised OCS starts around 100. TCS-NS advised that standards for OCS are set with Government guidelines and in some cases when passenger is on smaller side could be more harmful than good to have airbag deploy. TCS-NS advised C airbag deployment is like explosion and can cause more damage than good if deployed when would be better to not have. Seatbelt is primary restraint. TCS-NS advised C to review owners manual that advised about OCS how to sit in seat etc TCS-NS advised if wife shifts weight to one hip it could cause sensor to review and determine more harmful to deploy airbag. C understood TCS_NS advised dlrshp can assist in reviewing with C C states no C sat in seat and OCS indicated airbag WOULD deploy C weights approx 140 C not happy but C understands C advised at this point something C will live with TCS-NS asked C if there was anything else NNA or TCS-NS could do to assist C. C states no C very happy with service both from NNA and dlrshp C states TCS-NS assist C C appreciates all follow up and NNA has exceeded C's expectations on service. TCS-NS thanked C advised C has TCS-NS contact info should C every have any questions or needs in future.
Make Private	✓	**Created By Nena Smith (12/17/2014 2 33 PM)** TCS-NS received call from C C states sensor has been replaced. Wife has not been in seat TCS-NS understood. TCS-NS will follow up with C 12/23 to insure C has had opportunity to drive veh with passenger in seat.
Make Private	✓	**Created By Nena Smith (12/17/2014 2 21 PM)** TCS-NS lvm for C following up on C's visit to dlrhsp.
Make Private	✓	**Created By Nena Smith (12/17/2014 2 17 PM)** TCS-NS received call from SA-Brian SA-B advised sensor for C's veh was replaced today. TCS-NS thanked SA-B call ended mutually

TCS-NS received vmx from C at 4:02 p m. returning TCS-NS call
TCS-NS called c thanked C for survey and asked if C would like to discuss C's concerns C states C has concern with veh and reliability C states C has had numerous recalls
1. Recall on heated seats C does not know if this is why C's seat not heating correctly C states there are 2 heat settings but C does not think the lower setting works. TCS-NS advised yes there was a Service Campaign for this. TCS-NS will investigate speak with dlrshp and advisors to see what can be done to assist C TCS-NS noting Service Campaign NTB 13052
2. C states OCS has had recall but at times system does not recognize C's wife TCS-NS understood advised many things can influence OCS TCS-NS asked C to note if C has concern is there anything under seat? pressing against back of seat? hanging on seat? that occupant is seating correctly as NNA does not want to deploy airbag if it would be unsafe for occupant C understood.
TCS-NS advised again TCS-NS would investigate for C
3. C states now there is recall on hood latch TCS-NS apologized for C's inconvenience but NNA wants to insure NNA doing everything possible for C and C's veh.
C states at times C uses the key fob to open door but veh displays key id does not match veh
C states at times phone is not recognized or will ring and ring bluetooth will not connect.
TCS-NS apologized for C's inconvenience and TCS-NS would like to assist C thanked TCS-NS advised C happy with mpg/comfort/styling just does not feel quaility is where it should be TCS-NS advised QC survey is reviewed by Quality and C's comments and concerns are documented. C happy to hear this TCS-NS will work on this for C and follow up by EOB 11/17/14

TCS-NS received case for handling as a result of QC survey response received from c.
TCS-NS copied survey notes below:
Heated Seats - Uneven heating, The front seats in my SL are supposed to have two heat settings but I don't think the lower setting works - the vehicle has been recalled for this issue.
Airbag - Broken/not working when I have a passenger sit in the front seat, the display shows that the air bag is OFF. the light may eventually go off and it may stay on. The vehicle has been recalled to fix this issue but I don't know if it is repaired or not.
Memory Controls/Features - Broken/not working, Don't think this is an issue - I don't have memory controls on my Altima
Remote/Keyless Entry - Broken/not working, when I push the start button, the display shows that the key id does not match the vehicle

Make Public	Created By Kristie Tate-Paul (11/11/2014 4 30 PM) ARBS requested DTS inspection per final repair certified notice per NJ guidelines. C's son in agreement to same regardless if past ten day time period.
Make Public	Created By Kristie Tate-Paul (11/11/2014 4 18 PM) ARBS spoke with[redacted] (c's son). He is handling case for mother as her English is not great and afraid she will get confused. Mr[redacted] advises that the car continues to jerk during take off and continued issues with air bag light on pass side. Clarified light and intended function of air bag light. Requested that they review owner's manual for any additional clarification. C is approximately 120 lbs and 5 ft tall and light illuminates, as well as, his Dad is 200lbs and the light will illuminate if he is in the seat. C has not taken vehicle back to dealership since August to son's knowledge, but has lost faith that they can dx the problem. Letter puts NNA on final notice of repair per NJ guidelines. ARBS discussed DTS option but would more than likely be more than 10 calendar days out. Mr Martins agreed that this was fine. ARBS requesting DTS inspection of vehicle for existing concerns. Will update Mr[redacted] with date and time.

RCAS-QG contacted C
C stated that C took the vehicle into the DLR the other day and is concerned that the vehicle's airbag light is coming on
RCAS-QG stated that the occupant sensor for the passenger seat has been determined to operating as designed by the DLR at this time
RCAS-QG confirmed the vehicle has no open campaigns or recalls
RCAS-QG stated that the ocs in the vehicle is there to determine whether or not air bag deployment in case of a collision would be safe for the occupant
RCAS-QG stated if the light is on the vehicle has determined it is safer for the occupant for that airbag not to deploy
C understood
C stated the power steering makes a noise but the DLR advised the vehicle is operating as designed
C stated C's last 2011 Altima's power steering pump did not make noise
RCAS-QG stated the vehicle has an electric power steering pump which C's last altima may have not had
C stated the accelerator moves differently
RCAS-QG stated the DLR would have to diagnose to see if it is operating as designed
C understood
C declined further assistance
Call ended mutually

C's brother - Marvin Blanco
Dealership - GILLMAN NISSAN
C will be back tomorrow, best time to call after 2 PM c's time.
Best number to contact c at would be [redacted]

CRR-EA received a call from c's brother. C's brother stated that the airbag light of c's vehicle turns off while passengers are on the vehicle. First time vehicle was brought to the dealership, it was recalibrated. Second time it was brought to the dealership, dealership said there is nothing wrong with the airbag. C's brother has pictures that prove that airbag light turns off when passengers are on. Dealership wasn't able to fix issue, c's brother said dealership can't find nothing wrong with it. C's brother can't provide name of SA. C's brother is worried about safety.
CRR-EA c's brother was able to verify c's mailing address, e-mail address and phone number.
CRR-EA created case under c's name. provided c's brother with the case number. informed c that case will be forwarded to a RCAS and to expect a call back by the end of the next business day.
CRR-EA Offered further assistance. C declined.
CRR-EA Provided recap, closing, name and extension number.

ARBS following up on case and called C.
C states C is on vacation, apologized for not getting back to ARBS sooner.
C wants to know what other collateral charges NNA could refund to C?
ARBS advised NNA could approve a couple of different collateral charges, such as towing, rental, taxi.
C states C put high quality window tint on vehicle, cost $180 and C had a set of keys cut for $270, also had several LOF services.
ARBS advised that NNA is not in a position to reimburse for LOF/maintenance items, but C could submit tint and keys receipts for consideration.
C agreed to terms, and will send ARBS those receipts as soon as C can.

• ARBS called C, discussed case.
C expressed that C has been patient with NNA, likes Altima, just does not agree with inconsistent readings by OCS, scared for passengers' safety on winding roads of Hawaii.
ARBS empathized and advised that upon review of service history, NNA is now in a position to offer repurchase or replacement.
C relieved that NNA will work with C.
ARBS detailed repurchase or replacement, mentioned HI LL useage which will be taken at 3rd repair attempt, at 10,322 miles.
C understands, requests to see numbers for repurchase.
ARBS inquired as to lienholder.
C states NMAC.
ARBS advised that, once ARBS rec's LH release and registration, ARBS will contact NMAC & acquire payoff and sales docs, calculate repurchase, and advise C via letter.
C understands.
ARBS verified C's email is correct on case. Correct.
ARBS advised will send LOI to C via email.
C states will be looking for LOI.
Call ended mutually.

Make Private	✓	Created By Brittney Smith (11/18/2014 8 55 AM) TL-BS called c at[redacted] TL-BS called c a[redacted] TL-BS reviewed case concerns of airbag with c. TL-BS asked c when was the last time c was at the dealer for airbag concern c/s c was at the dealer on Nov. 12th c/s the service manager is really rude. and told c the airbag light is working properly . c/s c was told c's son was to small to ride in the front seat which is why the airbag light keeps coming on. c/s c son is more than 110 pounds so c does not believe the dealer. TL-BS asked if the light has been on when c has taken veh to the dealer for diagnosis. c/s no bc someone that is much bigger sat in the seat and the dealer doesn't actually drive the veh. TL-BS apologized for the frustrations c is having and stated in order for any repairs to be done, the dealership would have to duplicate the concern and diagnose veh.

TL-BS asked c if c only notices the light being on when c's son sits in the front seat.,
c/s this is mainly when c notices this.

TL-BS stated it may be best to conduct a ride along with c's son in the seat so the dealer would be in a better position to address c's concern
c understood and stated c would take veh to dlr and bring son with c

TL-BS asked c when would c most likely be taking the veh to the dlr.
c/s the 28th is when c would be able to take veh back to dlr.
TL-BS understood and stated TL would have RCAS follow up with c to confirm if c was able to secure appt.
c thanked TL

TL-BS asked if c would like for TL to transfer c to the dlr so that could make appointment.
c declined and stated c would call dlr back when c had more time as c is in the middle of a meeting.

TL-BS understood and stated RCAS would follow up with c EOW to determine if appt was scheduled.
c thanked TL.

Make Public		**Created By Jacinta Pederson (12/10/2014 9 27 AM)** Arbs contacted c and informed c arbs has submitted a request for a DTS. Arbs informed c arbs will call c back once arbs hears back from a DTS and arrangements can be made to address c's concerns listed in c's vehicle. C agreed and would wait to hear back from arbs. C was appreciative.

Make Public		**Created By Jacinta Pederson (12/9/2014 11 17 AM)** Arbs discussed with TL-RD.
Make Public		**Created By Jacinta Pederson (11/20/2014 1 03 PM)** Arbs contacted c ph[redacted] and explained the reason for arbs call.

C was appreciative of the call.

Arbs asked c if c had time to discuss c's concerns listed in the letter.
C agreed and discussed in length c is upset with the annoyance's of the vehicle.

C/S c does not have a lot of miles on this vehicle, but has owned quite a few of Nissan's and Infiniti's.

C/S c was very happy with c's Infiniti G35.
C/S c issues are intermittent.
Arbs asked c if c is giving the vehicle plenty of time warm up as the system boots up.
C/S c should be able to get in the vehicle start it up and not have to wait longer then starting the car and putting on c's seat belt for the system to boot up.

C/S this is annoyance and c never knows when one of these concerns are going to pop up and c feels c (leased) a luxury vehicle and these items should not be a concern on a new vehicle.

Arbs informed c arbs would review c information and call c next week once arbs has thoroughly reviewed c's information.

C was appreciative of the call. Arbs provided c with poc information.

Make Public		**Created By Zachary Mallett (12/4/2014 11 57 AM)** CASE SUMMARY C contacted NNA with OCS concern. DTS inspected veh. Veh operates as intended. RCAS closing case as no further assistance may be offered.
Make Public		**Created By Zachary Mallett (12/4/2014 11 56 AM)** RCAS called C at [redacted] RCAS stated RCAS communicated with DTS. RCAS stated DTS determined the veh operates as intended. RCAS stated no further recommendation is available as veh operates as intended. C stated C does not like how OCS works. C stated C shouldn't have to stop and restart the veh. C stated C is going to let it go. RCAS stated section 1 of the owner's manual provides precautionary information regarding the OCS. C stated DTS provided C with a print out. C declined further assistance. Call ended mutually.
Make Public		**Created By Zachary Mallett (12/4/2014 11 49 AM)** RCAS notes DTS notes: Concern: Customer states Passenger Air Bag light comes on while driving, will stay on until car sits at idle for a while or turns car off-intermittent. Cause: No problem found, Occupant Classification System is operating as intended. The following information is per NTB14-084: 2 SENSOR OCCUPANT CLASSIFICATION SYSTEM (OCS) DIAGNOSTICS AND INFORMATION The Occupant Classification System (OCS) is designed to classify the size of the front seat passenger and automatically turn OFF the passenger air bag under some conditions. Section 1 of the owner's manual has a detailed description of how the occupant classification system is designed to operate in accordance with Federal regulations. The issues being described may indicate normal operation, depending on the size of the passenger seat occupant. Complaints of OCS light illuminating and shutting off intermittently when seat is occupied by a small stature occupant. Please remember that that the PABI light only indicates the status of the front passenger airbag. All other airbags are unaffected. NORMAL OPERATION: In order for the OCS to classify the right front passenger based on weight, please follow the precautions and steps outlined below: Adjust the seat as outlined in the Safety section (section 1) of the Owner's Manual. Sit upright, leaning against the seat back, and centered on the seat cushion with your feet comfortably extended to the floor. Make sure there are no objects on the occupant's lap. Fasten the seat belt as outlined in the Safety section (section 1) of the Owner's Manual. Remain in this position for 30 seconds allowing the system to classify the passenger before the vehicle is put into motion. Ensure proper classification by checking the Passenger Airbag Status Light.

I've been trying to record this happening before bringing it in. I've not been able to replicate the problem. The light does stay on for 10-15 seconds after startup sometimes, but does eventually go off. I must not have been waiting long enough previously. At this time, consider that issue resolved for our Pathfinder. If the light does stay on going forward, I'll take a picture and bring it in. Thank you

Make Private	✓	**Created By Lauren Bowling (11/20/2014 1 23 PM)** RCAS-LB made outbound call to C at [redacted]. RCAS-LB informed C that RCAS had contacted the dlrshp and spoke with SA Kevin. RCAS-LB stated that given the usual suspects aren't the case and that the recalibration did not entirely take care of the problem, the sensor may be messed up. RCAS-LB stated that C would need to go back to the dlrshp and have it looked at to see if this is the problem. RCAS-LB stated that the veh is still under warranty. C thanked RCAS for the help. Call ended mutually.
Make Private	✓	**Created By Lauren Bowling (11/20/2014 1 10 PM)** RCAS-LB made outbound call to Gates Nissan. RCAS-LB asked for more information regarding C's previous visits to the dlrshp about the air bag concern. SA-Jim stated SA would transfer RCAS-LB to SA-Kevin. SA-Kevin stated the recall was done in June. SA stated in July they basically redid the the recall. SA stated in November, the seat was recalibrated for the airbag. SA stated would have the C come back in. SA stated it sounds like the seat cushion sensor could be messed up. SA stated the warranty is still valid. RCAS-LB thanked SA for SA's time. Call ended mutually.

Best point of contact # [redacted] RCAS-LB made outbound call to C at [redacted] RCAS-LB verified C's concern is the airbag light. C had the airbag recall performed and a few weeks later it happened again. C brought the veh back in and had recalibrated and it was good. C stated the light came back on. C stated the dlrshp said that they would not warranty it under the recall because there is nothing wrong with it. C stated when C's girlfriend sits in the seat, the air bag off light goes on. RCAS-LB politely asked how much C's girlfriend weighs. C stated in the 170s. RCAS-LB stated sometimes a lighter person would not make the air bag come on. RCAS-LB asked how C's girlfriend sits in the seat. C stated normally and she wears her seatbelt. RCAS-LB explained how to sit in the seat with the back straight and feet stretched in order to make the airbag gauge the pressure correctly. C stated C's girlfriend sits like that. RCAS-LB asked when the last time it was at the dlrshp. C stated it had been two weeks. C stated C was told that C's extended warranty would start being charged because C had come back again after the recall to have it calibrated again. RCAS-LB stated RCAS would call the dlrshp and get more information and get back to C. C thanked RCAS. Call ended mutually.

CRR-MC received a call from c stating that c purchased the veh last year and issue with the veh started after the airbag sensor campaign was performed. C stated the passenger light was on stating that sensor was off when c's fiance was seating on the passenger seat. C stated that c took the veh to dlr 3 times and was advised that dlr re-calibrated the sensor and c is still having the same issue. CRR-MC apologized.

CRR-MC verified registered owners name and address :

Name : [redacted]
Address [redacted]
Andover, CT [redacted]

CRR-MC Changed/Updated customer's home/mobile/work phone number to [redacted](mobile).

CRR-MC also verified email address, VIN, veh's current mileage and responsible dlr.

CRR-MC asked c last time the veh was taken to the dlr for diagnosis. C stated that c took the veh to the dlr a week and a half ago and c cannot remember name of SA who assisted c. C stated that c was advised that the dlr will re-calibrate the sensor on the passenger airbag but when c's driving the veh yesterday the same issue happened again. CRR-MC apologized.

CRR-MC asked c what c wants NNA to do with c's concern. C stated that c is already tired of going back and forth the dlr and dlr is not resolving the issue. C stated that c wants NNA to fix the veh.

CRR-MC informed c that case will be escalated to RCAS for further review and advised c that c will get an update before the end of the next business day. C agreed.

CRR-MC verified best contact # to reach c at which is [redacted] and c said that c can be contacted anytime.

CRR-MC did the recap.
CRR-MC offered further assistance. C declined.
CRR-MC provided name,case and extension #.
CRR-MC forwarding case to RCAS.
CRR-MC exiting file.

RCAS-DL CHECKED for open recalls/campaigns and found: none
Previous UNRELATED Case(s) Found: none
Previous RELATED Case(s) Found: [redacted]
RCAS-DL asked if C was still experiencing airbag concern
C stated yes
C stated that there is also a noise in the rear suspension
C stated that DLR heard the noise but they cant find out where it is coming from
C stated that another DLR replaced something in the rear suspension but it didn't fix the concern
C stated that C has footage of about 15-30 min and the airbag light stayed on
RCAS-DL explained that the sensor reads from a complete stop and reads again when C reaches another complete stop
C stated that C pulled in a parking lot and parked and started the veh again and the airbag light still stayed on
RCAS-DL asked how much C weighed
C stated that C weighs approximately 110 pounds, 115 pounds
RCAS-DL stated that the sensor might not be reading C's presence if C is not seated properly
C stated that the C seats properly and airbag light doesn't come on all the time but it does it occasionally
C stated that DLR had not been able to duplicate concern because it doesn't happen all the time
RCAS-DL understood and stated that it is designed that way to protect children
C stated that it shouldn't be that way because not every one weighs a lot and C should be able to ride in C's veh
C stated that C didn't have the veh for a month before this concern started and
C stated that C's veh has been in the shop for 44 days and C keeps paying for a veh that stays in the shop
C stated that C took it in for the noise and the airbag light

c called in about a complaint for the veh.
c said that c is needing to talk to RCAS about it.

crr-ab empathized & acknowledged c's concern.

crr-ab asked for the case no & offered assistance.
c provided case no.

RELATED CASE: [redacted]

crr-ab asked if the veh had been diagnosed.
c said yes.
crr-ab asked permission to put c on hold to check case.
c agreed.

crr-ab asked if there are any changes from the c's personal information. c said none.

c said that the airbag & the suspension issues is still occurring.
c said that it was taken to the dlrshp on Friday and it's still at the dlrshp.

c said that the airbag issue has occurred in 4 times as well as the rear suspension (4 times).

Make Public
crr-ab empathized & provided c's new case no.
c asked why c is going to be given a new case no.
crr-ab said that it has been more than 30 days so crr-ab needs to create a new one. c understood.

crr-ab checked CA SOP 2.4: Reopening a Closed Case

crr-ab asked how nissan can assist.

c said that c would like to know c's options.
c said that c thinks it's already a lemon.
c said that c would like to know if she would be eligible for a buyback or have the money reimbursed.
c said that c is paying for a leased veh that c wasn't able to use.

crr-ab empathized & informed c that crr-ab is not in the best position to guarantee but informed c that case will be escalated to RCAS and still subjective for review and approval. RCAS will also call by the end of the next business day.
c understood.

crr-ab asked c if there's anything else that crr-ab can do to assist. c declined.
crr-ab did recap.
crr-ab provided closing script, name & extension no.,
call ended.
crr-ab exiting case.

Make Public		**Created By Jeehan Mabalot (11/17/2014 3 37 PM)** crr-jm received a call from c. c stated that computer console has been replaced. C mentioned c went to the dlr to have the campaign for OCS sensor performed but c's still having problems with it. C added passenger airbag light is off even if there is a passenger sitting on the seat. C's calling NNA asking for assistance from Nissan to get the veh fix. crr-jm verified the name of registered owner, mailing address, phone numbers, email, if veh was purchased new or pre-owned, mileage on the veh and c's servicing dlrshp. crr-jm asked if c had taken the veh to the dlr recently to have it checked, C said NO. crr-jm asked c how c would like to be assisted by nna, c stated c wants c's veh to work properly. C added c wants Nissan to fix the veh under the warranty. crr-jm advised c to have veh diagnosed first at any authorized nissan dlr to check what is causing the issue on veh, c acknowledged. crr-jm also advised C to call back NNA CA after diagnosis and provide name of the SA who will be assisting c, and also advised c to take note of the estimated repair amount. crr-jm added that case will be forwarded to the Regional Office for review for any assistance Nissan may provide, C understood. crr-jm offered further assistance, c declined. crr-jm gave name, extension and case number. crr-jm closing case until c calls back after a diagnosis to forward case to RCAS.

Within the first few months I found out that there was a recall on the vehicle because of an issue with the airbags. That wasn't a problem. The system was calibrated, and I thought things were ok. Well over the months, I continue to have issues with the airbag light coming on. The sensor in the passenger seat was replaced (at least that is what I was told, and I won't go into how horrible of a week long experience that was) but I still have issues with the light coming on when someone is in my passenger seat. Yes they are heavy enough, and yes they are sitting in the seat properly. As of November 17,2014 that light still periodically comes on when someone is sitting in my passenger seat. Now I am having issue with the automatic start, and my vehicle being able to read/identify my key. I really feel as I was sold a lemon. No new vehicle should have ALL of these issues within a 7 month time period. I am taking the car back to the dealership this Thursday, November 20, 2014, so that hopefully we can get these issues taken care of. I hope that this will be the last service visit I will have to make for a while. At this point I am starting to regret purchasing a Nissan despite my family being a Nissan family. Perhaps you all can help me get this issue resolved, or give me a new vehicle.

I have read over the sent document, and I do agree to the repurchase offer. I would like a document in return saying that this deal will not go against my credit, or that my credit will NOT be affected.

Thank You,
[redacted]

ARBS responded with the following:

Hello,

I cannot attest to your credit, because I do not work in the finance department.

The repurchase letter states that NNA will pay off the loan on your current vehicle.

The day after you surrender the car, we will overnight the payoff check to NMAC.

Keep in mind, you are responsible for all payments until you surrender. Therefore, paying off the loan will simply close the account as paid in full.

You will need to contact NMAC to determine the current status of your account. If your account is in good standing, we will simply apply the payoff check to close the account.

Please feel free to call if you have any additional questions.

Thanks,

*******Customer e-mail details********

So I am writing in for the 2nd time unfortunately. The first time, I must say that you all handled the situation quite nicely. Unfortunately, I have been experiencing quite a few issues with my 2014 Nissan Altima since the purchase date. Last week I met with a traveling technician/engineer from the company, and things seemed to be fixed. Well I hate to say that I am still experiencing the same issues. At this point I am tired of all of the issues that this car has had, the back and forth to the service department, and overall frustration. I no longer want anything to do with this car or Nissan, but feel as if I now need to give either Honda or Toyota a chance. Please have someone contact me so that we can discuss you all taking back this car and refunding me of all payments made. I purchased a new vehicle to ensure reliability, avoid the service department on a monthly basis and reduce headache (at least for a few years), but unfortunately things have not been that way. Please do not call me to talk about repairing the vehicle, I am beyond that at this point. Thank you so much.

Survey Verbatim	F1190B, Memory Controls/Features - Difficult to set, DS The position of the memory controls on the driver side door is not in an ideal location. My husband and I have had several instances when while the Memory 1 position is set the car still utilizes Memory 2 settings or vice versa. F1190C, Memory Controls/Features - Controls in poor location, DS Placing them on the lower section of the driver door doesn't allow very good view of the buttons or the settings. On several occasions we have to re-open the door and setup prior to leaving. This is not helpful. F1190D, Memory Controls/Features - Loses memory settings, DF We have noticed that with the settings in Memory 1, the settings in the vehicle are for Memory 2. (Radio Stations, seat positions, etc). We have also seen it on Memory 2 where the vehicle settings are on Memory 1. F1290A, Remote Vehicle Start - Slow response/doesn't reliably engage, DS We find that when trying to remote start the car it doesn't always start. It is unclear why sometimes it works and other times it doesn't. S1440E, Other Interior Compartment Squeaks/Rattles - Sun visor/vanity mirror, DF The sun visors have always been very stiff. TCS-NS contacted C at [redacted] verified C's address/phone/best contact home/V N/Mileage 14,000 servicing dlrshp . TCS-NS thanked C for survey and asked C if C would like to discuss C states one thing C did not comment on on survey C had OCS campaign performed but still has OCS light concern when C in veh TCS-NS explained OCS and need to be seated correctly/nothing under seat, on back of seat or pressing against seat. C states C understood but C states C seated correctly nothing touching seat. TCS-NS advised dlrshp can review concern for C. C states at highway speeds hood has a lot of vibration C states C husband feels safety concern. C states been to dlrshp 2x one time dlrshp made adjustment but did not resolve concern second time C states dlrshp advised nothing can be done and C states C did not feel dlrshp was concerned to assist C. TCS-NS apologized for C's inconvenience. C states both key fobs intermittently loose memory setting or FOB 2 will have memory setting for FOB 1 and vice versa. C states intermittently remote start will not operate TCS-NS explained about

Radio Frequencies but would ask dlrshp to review C understood C states last time C went to dlrshp LOF was done with multi point inspection and now c receiving emails constantly that state C needs new brakes C states husband very upset as veh at 14,000 should not need brakes and husband states dlrshp is mistaken. TCS-NS understood C states husband does not want to return to dlrshp would rather use dlrshp in Tempe. TCS-NS understood TCs-NS advised TCS-NS would investigate and follow up with C on 11/25 C requests TCS-NS follow up with C on following week as next week holiday week TCS-NS understood advised TCS-NS will follow up with C by EOB 12/1.

ARBS received RO from SA-Kyle and attached to case.

ARBS notes the following repairs:

17-Oct-14 at 13,621 miles. RO[redacted] - Days Down: 17
CONCERN:
1) Headliner fabric at driver's door coming loose
2) OCS light off with passenger seat occupied
ACTION TAKEN:
1) Replaced headliner
2) Unable to verify, checked for codes, none found. Contacted TECH LINE and gave info regarding after market seat heating unit. Was advised to road test with someone sitting in passenger seat with scan took in data monitor. No codes or lights came on while driving. TECH LINE recommended removal of after market heater. Contacted aftermarket leather/seat heater installer, who sent out a tech to inspect parts. Removed seat cushion and inspected and stated system functioning corrected and re-installed passenger seat lower cushion. Road tested several times with seat occupied, no duplication of concern.

Make Private	✓	**Created By Amethyst Cantrell (11/20/2014 8 14 AM)** RCAS-AC placed outbound call to DLR and spoke with SA-Steve as SM was unavailable. SA is the SA that diagnosed the veh. RCAS asked when C last had veh at DLR SA stated that C was in last Tuesday RCAS asked if the secondary hood latch campaign had been performed SA stated that hood latch campaign was not performed. RCAS asked if SA had looked at airbag concern when veh was in.

SA stated that veh was originally in for driver's seat belt not retracting and that when C came in to pick up veh, C added the airbag light concern.
SA stated SA took veh back in and reprogrammed OCS.

RCAS stated RCAS would have C bring veh back in.

SA stated that SA might need a day or 2 to properly diagnose the veh as the airbag system was electrical.

RCAS stated RCAS would advise C of that.
RCAS asked if DLR provided loaners.

SA stated DLR only had rentals

RCAS thanked SA

crr-dm received a call from c who was calling about a veh concern. c stated that c got this veh a month ago and c stated that c uses this veh for work. c stated that c helps people with this veh as part of c's work. C stated that when c drives people to places with this veh, c is noticing that the airbag light will stay on when someone is not sitting on the passenger side seat. Now the airbag light will turn off when someone is sitting there. c took the veh to the dlr and the dlr was advised to upgrade the airbag system. c stated that c is still having the same issue and c is afraid for c's clients safety. c wanted to get some help on getting this veh fixed.
crr-dm told c that crr needs to forward the concern / request to rcas for review BUT, CRR needs to ask C to send a POO so that crr can change the veh owner's info under the current owner's name first, c understood.
CRR also stated that there is an open campaign for c's veh for the 2013 - Altima Sedan (L33) Secondary Hood Latch. crr-dm stated that since the veh have an open recall campaign, c may take the veh to any nna dlr to have the recall fixed and this is free of charge. crr-dm offered to transfer c to the dlr to setup an appointment, c declined.
crr-dm offered further assistance, c declined.
crr-dm provided case #, crr's name, fax # and ext #.
crr-dm leaving case open pending POO before sending case to rcas.
CRR stated that crr will call c once the POO had been received.
