Make Public		**Created By Michelle Bills (7/31/2014 2 29 PM)** Rcas contacted c at 3 27 est on phone #[redacted] Rcas empathized with c for the concern that c is having, c stated that c decided that c sitting in the seat is not resolving anything because c's wife is about 120/125lbs. Rcas advised c to take veh back and the dlrshp will get tech support involved to resolve c's concern, c understood. Rcas provided rcas contact information and advised c to contact rcas once c takes veh back to dlrshp, c understood.
Make Public		**Created By Michelle Bills (7/31/2014 2 22 PM)** Rcas contacted sa-David who stated that when there is a passenger in the seat the lamp is on indicating that the airbag is off. sa stated that the ocs campaign was performed but did not correct this. Rcas asked if techline was contacted s stated yes but techline stated there was nothing to do since there are no codes. Sa stated techline also stated that if the passenger is less than 120lbs the sensor may not sense that there is a passenger and c did say that c's wife is only around 12lbs so c will sit in the passenger seat for a few days to test the light. Rcas advised sa to contact techline to have a case documented because at this time there is no techline case, sa agreed.

Please accept this e-mail as confirmation this matter is now settled for the statutory repurchase of the subject vehicle, with a $445.40 usage charge. Attorney fees and costs are hereby separately settled for $1,750 00. I checked over the sales paperwork and the only dealer installed item was $599.00 for sprayed on paint and fabric protection which obviously can't be removed at turn in. Therefore, this should be reimbursed as a line item.

Since this case involves allegations of an airbag system malfunction and my clients feel unsafe in the car,. I sincerely appreciate anything you can do to expedite the repurchase process.

Thanks for working with me.

RE: [redacted]
2013 Nissan Altima/VIN: 1N4AL3AP1DC[redacted]

Dear Mr. Silverman:

This office is in receipt of your letter dated July 29th, 2014 in regards to the above-referenced Nissan customer and his Nissan vehicle. I have taken the time to review the complaint.

Based on the information available, Nissan is willing to offer cash settlement in the amount of $3,000.00 to resolve this matter. This offer is inclusive of attorney fees. Please review this offer with your client and advise me of his response within 30 days.

Thank you for allowing Nissan to review this matter.

ARBS-LF reviewed the repair history and at this time, NNA is not in a position to offer a repurchase or replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns that would substantially impair this vehicle. NNA will continue to honor the terms and conditions of all applicable warranties.

ARBS-LF recommends that NNA contact the CA Manager or the Region for direction on how to assist the customer.

Make Private	✓	**Created By Melanie Betzel (8/1/2014 12 58 PM)** RCAS called c on ([redacted] @ 1:40 pm est time, RCAS spoke to c in reference to the case. RCAS apologized to c for the inconvenience. RCAS advised c that RCAS spoke to the SA at the dlr & the dlr has performed a few repairs on the veh with the passenger seat sensor & also with the tech case, there are no further repairs recommended. RCAS advised c that RCAS is unable to make the dlr replace parts in the veh. C stated that the veh needs to be fixed. RCAS advised c that if the dlr is unable to duplicate a concern, there would be no repairs completed. RCAS explained to c that small framed persons in the seat may not weigh enough for the airbag to be in use. C stated that NNA will tell c anything & c doesn't believe that. RCAS advised c that it is clearly stated in the owner's manual. C stated that c will be contacting the DMV & NHTSA. RCAS understood & advised c that c's concerns are also documented in the case for c. The call ended mutually.
Make Private	✓	**Created By Melanie Betzel (8/1/2014 12 38 PM) Last Modified By Melanie Betzel (8/1/2014 12 38 PM)** RCAS called the dlr on 5136822500 & spoke to SA-Ashley. SA stated that the dlr has replaced the sensor a few times in the passenger seat however, c is still stating that the light keeps coming on. Tech line was involved with no further recommendations on the concern & the dlr doesn't know what else to do at this time. RCAS understood & the call ended mutually.

Make Private	✓	**Created By Sarah Jane Iglesia (7/31/2014 3 26 PM) Last Modified By Melanie Betzel (8/1/2014 12 29 PM)** CRR-SI received a call from c stating that c is having problem on the veh. CRR-SI verified c's account information, verified c's name, address, phone number, email address, V N, mileage of the veh and lastly the responsible dlr. CRR-SI checked for open recalls/campaigns/upgrades found: 1 for 2013-2014 - Nissan Occupant Classification System Module Reprogramming CRR-SI checked WBSC and found out that the campaign was already closed. C said c had the campaign for the airbag performed 2 months ago. C stated c is having the same issue on the veh. C said the airbag is still malfunctioning and c feels the dlrshp did not fix the campaign on the veh. CRR-SI advised c that the case is going to be escalated to RCAS for review. CRR-SI also advised c to expect a callback within the next business day. C understood. CRR-SI offered further assistance; c declined. CRR-SI gave name, ext and case number. CRR-SI leaving case open and transferring resp to RCAS.

		Created By Marisol Patino (9/30/2014 4 22 PM) RCAS-MP is closing case as no further assistance is needed. ========Case Summary========== RCAS-MP received case and c is requesting assistance with air bag light concern and RHR. RCAS-MP reviewed and found that the air bag light sensor was repaired by DTS-TP and C was also provided a Bronze maintenance package. The RHR was denied as NNA is not in a position to offer a repurchase of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns that would substantially impair this vehicle. RCAS-MP thanked for continue business at NNA . RCAS-MP closing case as no further action needed .

Make Private	✓	**Created By Cynthia Forster (8/6/2014 7 07 AM)** *** [Added after the case is closed.] *** RCAS-CF received 2 VMX from C to call back on 7[redacted] RCAS noting VMX received prior to RCAS speaking with C.
Make Private	✓	**Created By Cynthia Forster (8/5/2014 3 55 PM)** SUMMARY: C seeking assistance with OCS in VEH wile young teen is in passenger seat. DLRSHP informed repairs performed previously and no concerns found since and is operating as designed. RCAS informed C VEH is operating as designed and directed C to owners manual on light and proper seating positions.
Make Private	✓	**Created By Cynthia Forster (8/5/2014 3 54 PM)** RCAS-CF called C on [redacted] at 4:34pm EST. C confirmed concerns with OCS for over a year and had been to DLRSHP about 8 times with concern. RCAS states understood. C states when concern happens that C's son or cousin is in front seat and weighs 100-120lbs. RCAS referred C to owners manual page 1-47 to go over status light information and referred to section 1 to ensure proper seating. C states should not matter how son is sitting in VEH. RCAS informed that if sensors are not triggered then not enough pressure put on sensors to turn airbag on and will deemed unsafe until that time. RCAS informed that is meeting U.S. regulations currently. C states that will look at regulations and will call back if needs anything further. C states that has RCAS contact number. RCAS states understood and call ended mutually. RCAS closing case as no further actions required.
Make Private	✓	**Created By Cynthia Forster (8/5/2014 7 32 AM)** RCAS-CF received VMX from C to call back on 7818644788.
Make Private	✓	**Created By Cynthia Forster (8/4/2014 7 55 AM)** RCAS-CF called C on 7[redacted] at 8:53am EST and reached VMX. RCAS-CF left message for C to call back and provided name, number, extension and case#. RCAS informed will follow up again on 8/5/14. RCAS-CF called C on [redacted] at 8:54am EST. RCAS not able to speak with receptionist nor is aware of C's extension. RCAS setting follow up for 8/5/14.
Make Private	✓	**Created By Cynthia Forster (8/1/2014 9 46 AM)** RCAS-CF called DLRSHP and spoke with SA-Tim and SM-Jim. SA states first time C came in was 7/1/13 for passenger air bag light. SA states that campaign performed on VEH. SA states 12/31/13 C came again for airbag concern and found normal operation. SA states C came in on 1/8 and had code for occupancy sensor and part replaced. SA states C came in on Feb 2013 with OCS concern again. SA states found no codes and after checking found operation normally. SA states that C has photos and videos of son in passenger seat and son was not seated correctly. SA states C was last in DLRSHP on 6/12 and performed zero point inspection and found VEH operating as designed and compared with known good VEH and no concerns found. RCAS thanked SA.
Make Private	✓	**Created By Cynthia Forster (8/1/2014 7 27 AM)** RCAS-CF noting unable to data net case. RCAS sent email to SM-Jim and SA-Tim to get feedback on concern.

Arbs-ASM notes DTS results:

DTS MW met with Mr [redacted] at Peruzzi Nissan on 9/26/14. At the time of this inspection the vehicle had 19,252 miles on the odometer. Mr. [redacted] s complaining of a coolant type smell from the engine compartment which is worse on hot days. [redacted] told me that he has had the vehicle checked recently for this smell at an independent service facility. He said that they could not find any leaks from the vehicle but they did smell an odor.

We went to the vehicle and there was a slight odor from the engine compartment. This smells like the long life coolant odor from the reservoir tank. We put the vehicle on the lift and checked for any signs of leakage under the vehicle and under the hood. There was no evidence of any leaks current or past.

The onlt suggestion I have for this odor would be to flush the cooling system and install a different type of coolant.

I can look at this on 9/26 at 1:00 pm at Peruzzi Nissan if it can be set up with the dealer and customer.
Once confirmed please instruct the dealer that I will need a rental vehicle made available for the customer and the assistance of their most competent technician to aid in verifying and resolving this customers' concerns. Please advise the customer that they will be required to meet with me to discuss their concerns and that they should allow sufficient time to participate in a test drive if necessary. Please let me know if this date/time is agreeable, I will need confirmation of this inspection at least 5 working days prior to the agreed upon date. Without confirmation I will consider the inspection postponed or canceled and schedule another appointment in its place.

Arbs-ASM recevied email from atty:

Angie,

I am in receipt of the offer. My client declines the offer, I am currently in the process of having an outside mechanic inspect the vehicle, those costs are recoverable per the lemon law. The inspection was delayed by the holiday / the clients vacation.

My clients have mechanical experience and know the problem(s) exist.

I can resolve it prior to the inspection for a repurchase and fees of $1,750.00. After the inspection my costs will increase to $2,750 00 inclusive of fees/costs.

Let me know whether we can resolve it and I will cancel the inspection.

Tim

Arbs responded:

Tim,

If acceptable to you and your client, I would prefer to have one of NNA's technicians inspect the vehicle. I can request a proposed date.

Please advise.

Thanks,

Rcas advised that until a dlr is able to verify and duplicate a concern that NNA cannot assist in anyway. C referred back to dlr. Closed file ~~~~~~ Rcas-Kelli Souders assisting Rcas-Kristie Soucek ~~~~~~ Rcas placed call to dlr. SA-Frank advised that veh has not been seen since 8/4 when fuel pump was repaired. Dlr states that no concerns further were diag at that time. ~~~~~~ Rcas placed call to c on [redacted] at 2:51pm. Left vmx apologizing for concerns. rcas advised that Rcas is not technical and relies on dlr to diag and make repairs. Rcas advised that repairs cannot be made until dlr is able to verify and duplicate concerns. Rcas advised especially with electrical concerns may have many possibilities on repairs needed. Rcas advised has to refer c back to dlr for further diag but again stated cannot assist any further until concern has been duplicated by a dlr. Rcas advised at that time if c needs further assistance can call NNA back. ~~~~~~ Closing file

c called about veh concern
crr-vi verified info of c
c stated c took veh yesterday when it broke down on c at the side of the street cause the fuel pump is out. veh was towed to dlr.
c stated it's the 6th time c is going without the veh.
c still had issue with the passenger airbag, still had red light coming on.
c also stated that mechanism on power steering is not working and had issue before with c's driver side broke and c can't open. c stated c had nothing but issues with the veh. c was advised that dlr won't get fuel pump until monday. c stated c don't think it's fair for c to have issues with the veh when it was new. c provided dlr info:

DEALERSHIP: BOB ROHRMAN NISSAN OF CHESTERTON IN BURN
SA: Megan
ISSUE: multiple issues with veh
C'S REQUEST: c want a loaner veh until c got c's veh back.
C'S BEST PHONE NO.: ([redacted]

c stated c don't know if part is on backorder cause dlr did not tell c if it's backordered. c only knew c's fuel pump will be replaced and dlr won't have part til Monday.

crr-vi informed c that crr-vi will forward c's case to RCAS for review and RCAS will call c back within the next business day; c stated c wants case escalated cause c is not been taken care off and then hung up.
crr-vi unable to offer further assistance
crr-vi unable to provide case no.,name and ext
crr-vi forwarding case to RCAS.

		Created By Maria Theresa Roque-Balisi (8/4/2014 8 41 AM) CRR-MR verified name, VIN, address, contact number, email, service DLR and mileage. CRR-MR received a call from C stating C is having problems with the passenger airbag light. C stated the DLR told C that the airbag light keeps coming on because C's wife only weighs about 105 lbs. C stated C wants NNA to confirm what the weight limit is.
Make Public		CRR-MR informed C that as per tech line - Weight is only a part of the equation for the OCS operation. Passenger position and weight distribution also play a key role in how the system operates. There is no published "weight limit" for this system. The most important component of the restraint system is the seat belt. The air bags are there only to supplement the effectiveness of the seat belts. This is why the air bag system is referred to as the Supplemental Restraint System or SRS. C understood then hung up. CRR-MR closing case - no further action needed at this time.

		Created By Eduardo Mantilla (9/5/2014 11 21 AM) ***Summary*** RCAS-AG inbound call from C stating C has been experiencing the passenger side air bag gauge illuminate since C purchased the veh. C stated the recall has been performed and has been reprogrammed twice, but still having the same concern. C stated C would like further assistance to this matter. C states C has been experiencing the passenger side air bag gauge illuminate since C purchased the veh. C stated the recall has been performed and has been reprogrammed twice, but still having the same concern. C states C weighs 117 lbs and C states that C has video evidence of the concern. C states C is working with the RTLR on this and they advised to contact CA to assist. C states C used to live in Tennessee (SM Mark Byrd @ Knoxville contacted SM Tom Smith about concern already) and went to a different RTLR and now C is in a different state and was advised to contact us now because C is in Cincinnati. C is bringing veh – Tom Smith is handling the diagnostic – on Thursday and RCAS plans to follow up with C on Wednesday, 8/13. RCAS spoke to FOM requesting DTS for recurring but intermittent air bag concern. C states air bag concern happens with lighter weight people in the seat. C did a video recently showing her 117 lb. sister-in-law in the seat and the air bag not coming on. C states that it does not happen all the time but happens with C pax weighing 115-125 lb. range. Per FOM after speaking with P&P Manager Chuck Ogden, etc., we are requesting DTS to do inspection for this concern. C states C has more videos from when C was in Knoxville available if DTS needs to review ,etc.
Make Private	✓	RCAS spoke with C and C confirmed that she is able to meet at 9:00 am on Wednesday, September 3rd 2014. C asked if C would be able to send DTS Jeff a link to videos that C has taken showing the concern. RCAS advised DTS, if is something DTS is able to review prior to meeting with C, to please send C an email to [redacted] or the send a link to the video evidence C states C has showing the concern occurring. C asked RCAS to request this since C does not know and/or cannot guarantee that the concern will be duplicated when DTS meets with C on 9/3/2014. RCAS advises C that RCAS will send an email to C with the request. C thanks RCAS and call ends mutually. RCAS emailed DTS Jeff Silverthorn and advised C asked if C would be able to send DTS Jeff a link to videos that C has taken showing the concern. RCAS also advises DTS that RCAS can send C an email and forward the link to DTS if DTS prefers. RCAS asks DTS to please let RCAS know so RCAS can get back in touch with C prior to the 3rd of September. RCAS spoke to C. RCAS asked C how it went with DTS Jeff. C states that C learned that C had to sit in a certain position in order for the air bag sensor to recognize someone was in seat. C appreciated having that information that had never been explained all the time C dealt with concern. C did state that concern was not able to be duplicated when DTS spoke to C. However, C states that DTS seemed very experienced with how air bag worked, etc. RCAS advised that if C had concern again to contact RCAS again if C needed assistance.

RCAS-JS informed C RCAS-JS had spoken with DLR, and that system was found to be operating as designed.
C stated C could not comprehend how system was functioning as designed.
RCAS-JS stated that airbag OCS determines whether or not to activate airbags from many factors.
C continued to express prior sentiments regarding disbelief that system could be functioning as designed.
RCAS-JS informed C that in specific instances, not deploying airbags is deemed safer than airbag deployment.
C stated C would contact lawyer regarding matter.
RCAS-JS thanked C for his time.
Call ended mutually.

RCAS-JS placed outbound call to DLR at (610) 649-4400
PREVIOUS RELATED CASES FOUND: None
PREVIOUS UNRELATED CASES: None
CHECKED FOR OPEN RECALLS/CAMPAIGNS/ETC & FOUND: None
****
RCAS-JS requested Service Dept, spoke with SA-Mark Davis (SA-MD).
RCAS-JS received history of VEH from DLR database:

4/30/14 - DLR performed recall R14050 (reprogramming C mentioned).
7/10/14 - C came to DLR regarding A/C concerns.
7/25/14 - C came to DLR regarding airbag issue. DLR contacted TECHLine, performed zero point reset per TECHLine advice. Changed part no. 988533JA0A. Advised VEH would require further diagnostics should concern persist.
7/30/14 to 8/1/14 - C stated airbag issue had resurfaced, but DLR was unable to duplicate.
Went for ride with C and contacted TECHLine.

RCAS-JS thanked SA-MD for time.
Call ended mutually.

Make Private	✓	**Created By Suzanne Farlow (9/15/2014 10 31 AM)** SRD/ES-SF called the customer at requested phone [redacted]t 11:20am est and spoke to the customer. SRD/ES-SF advised that customer has requested supervisor callback and case has been reviewed. SRD/ES-SF advised that c had requested repurchase or replacement of the veh and case had been reviewed but NNA is not in a position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties. The customer advised that c does not know why this determination was made. SRD/ES-SF advised that when a customer requests repurchase or replacement of a vehicle, RCAS obtains all Repair Orders associated with the V N from the dealerships the vehicle has been serviced at and this information is submitted to ARBS for review. SRD/ES-SF advised that ARBS reviews the repair history of the vehicle as compared to local laws and regulations and makes the determination as to whether or not a vehicle qualifies for repurchase. SRD/ES-SF advised that unfortunately at this time, NNA has declined the customer's request for repurchase and that there is nothing that SRD can do to change this decision. SRD/ES-SF apologized that this is not the determination that the customer was seeking. SRD/ES-SF provided the number for the BBB Autoline as follows: 1.800.955 5100 SRD/ES-SF also provided the mailing address for NNA as follows: Nissan North America, Consumer Affairs P3C, PO Box 685003, Franklin, TN 37068 C states that SRD is implying that c is an "idiot" and is very unhappy with determination but will pursue on c's own. C terminated the call.
Make Public		**Created By Michelle Bills (9/15/2014 8 40 AM)** Rcas received email from fom/region no goodwill to be offered to c.
Make Public		**Created By Michelle Bills (9/15/2014 8 24 AM)** Rcas emailed fom and region with details of case requesting gw. Rcas received a vmx from c stating that c wants a decision today but not provided by rcas, c would like to speak to supervisor again.
Make Public		**Created By Anthony Zacharyasz (9/15/2014 8 10 AM)** ARBS notes the following: 3 visits for audio unit going black; rebooting. 4 visits for Passenger side airbag light on. (last 2 visits, operating as intended) 1 visit for Bluetooth functionality. (Advised C's phone is not compatible) 5 days down ARBS notes the concerns with the audio unit do not substantially impair the use, value, or safety of the vehicle. ARBS notes the PABI light has been inspect by 2 dealers and both have determined the vehicle to be operating as intended. C has been advised of the OM section containing specifics of the operation of the system. Based upon the ROs provided and after careful consideration, NNA is not in a position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties. ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.
Make Public		**Created By Anthony Zacharyasz (9/15/2014 7 57 AM)** ARBS rec'd RHR, reviewed ROs, and notes the following repair history: 5/30/14... 4,465 miles... 1 days down -Concern: 1. SRD/ES-SF called the customer at requested phone [redacted] at 8:42am est and spoke to the customer.
Per case notes below, SRD asked if the c was recording call and c advised c was.
C states that if NNA can record call then c can too.
SRD/ES-SF advised that SRD/ES-SF cannot continue conversation if the c continues recording.
C asked for SRD/ES-SF to not record.
SRD/ES-SF advised callback on non-recorded line.
C understood and call ended.

SRD/ES-SF called the customer at requested phone [redacted] at 8:46am est and spoke to the customer on non-recorded line.
SRD/ES-SF advised that customer has requested supervisor callback and case has been reviewed.
SRD/ES-SF asked the customer how SRD/ES-SF can assist the customer at the current time.
The customer advised that c is very unhappy with the operation of the veh at the current time.
C states that the PABI is the concern that matters most to the customer as the customer feels it is a safety issue.
SRD questioned the customer on the dealerships the veh has been seen at.
C verified that the veh has been into multiple dealers thus far and both dealers were not able to identify a fault in the system or duplicate the concern.
C reiterated many concerns about the system function and advised c has videos of the system malfunctioning.
C verified that both dlrs have bot been able to duplicate the airbag concern
C states that son who is 80lbs when sitting in the front to test the system it does not register as off.
C has two videos that show the malfuntioning of the system and this should suffice to show that something is wrong.
SRD/ES-SF empathized but advised that NNA CA relies on dlr expertise to make the determination as to whether or not a veh concern needs a repair.
SRD/ES-SF empathized but advised that there is nothing that NNA CA can do to overturn if the dlr is not able to recommend a repair.
C became very argumentative with SRD.
C states that SRD is not answering c's questions about the airbag operation nor is SRD is advising about the Lemon Law and this is not helping c.
SRD/ES-SF advised that SRD/ES-SF is neither a mechanic nor has legal expertise and therefore cannot advise.
SRD/ES-SF asked what the customer is asking for from SRD/ES-SF and NNA at this time.
C states that c no longer wants the vehicle.
SRD/ES-SF advised of repurchase process and how the determination can take up to 10 business days.
SRD/ES-SF assured the customer that the RCAS agent will follow up with the c every 2-3 days throughout the process for any updates and as soon as a determination is made.
SRD/ES-SF asked the customer the following questions:
Why do you want to return the vehicle to Nissan North America? C states the veh is malfunctioning and not working the way the manual states and the airbag system can cause serious injuries and according to Lemon Law in Ohio if the veh is seen three times for this it can be bought back.
Where is the vehicle currently? Customer's possesion
Where was the vehicle purchased? Mentor Nissan
Was it purchased new or used? New
If used, when was the vehicle purchased? N/A
Where is the vehicle serviced? Mentor Nissan and Ganley Nissan
Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers? Mentor Nissan and Ganley Nissan
SRD/ES-SF reiterated that the RCAS agent will follow up with the c every 2-3 days throughout the process for any updates and as soon as a determination is made.
The customer understood and the call ended mutually.
SRD/ES-SF transferring case back to RCAS for RHR submission.

Make Public — **Created By Michelle Bills (9/2/2014 9 35 AM)**
Rcas received a vmx from c requesting a call back from supervisor only.

C RECORD NG CALL

rcas assisting RCAS-Michelle Bills made outbound call to c@10.04am on [redacted]
c states c has concern with passenger airbag light not coming on when c's son is sitting in the seat, 2 dealers advised unable to duplicate concern, c feels dlr did not address small child in seat, did not explain to c, not consistently working.
RCAS advised c per 2014 Altima Owners Manual:
1-51 Front passenger seat adult occupants who are properly seated and using the seat belt as outlined in this manual should not cause the passenger air bag to be automatically turned OFF. For small adults it may be turned OFF, however if the occupant takes his/her weight off the seat cushion (for example, by not sitting upright, by sitting on an edge of the seat, or by otherwise being out of position), this could cause the sensor to turn the air bag OFF. Always be sure to be seated and wearing the seat belt properly for the most effective
protection by the seat belt and supplemental air bag.
NISSAN recommends that pre-teens and children be properly restrained in a rear seat.
NISSAN also recommends that appropriate child restraints and booster seats be properly installed in a rear seat.
**
If the passenger air bag status light will not illuminate even though you believe that the child
restraint, the seat belts and the occupant are properly positioned, the system may be sensing an unoccupied seat (in which case the air bag is OFF). Your NISSAN dealer can check that the system is OFF by using a special tool.
c states system is not working consistently.
RCAS advised per OM:
Make Private ✓ 1-42
7. If the booster seat is installed in the front passenger seat, place the ignition switch in the ON position. The front passenger air bag status light may or may not illuminate, depending on the size of the child and the type of booster seat being used.
RCAS advised reiterated dlr is in best position to determine proper operation, 2 dlr's have advised veh is operating as designed.
c states RCAS has not explained anything to c, c has
line dropped.
RCAS redialed
RCAS provided disclaimer.
c states c is recording call.
RCAS advised call is being recorded without RCAS's knowledge or permission, if c does not cease recording call will be disconnected.
RCAS asked if c has stopped recording call.
c states c will not stop recording.
RCAS advised disconnecting call.
call ended.

RCAS closing case.
**********case summary**********

c had a concern with the airbag not working properly but dlr found airbag to be working as designed, rcas advised c to have a second opinion.
c had 2nd opinion, no duplication.

Rcas contacted c at 12:06 est on phone [redacted] C stated that c took veh to Ganley nissan for the airbag but again the dlr found nothing wrong but c swtated that when c's son who is 80lbs sits in the passenger seat the light does not come on so this indicates that the airbag is on. C stated that also the speakers to the bluetooth are not working correctly but because this is intermittent the concern could not be duplicated and there are no codes, rcas empathized with c and told c that rcas will speak to the dlr and follow up with c on 8/28/14, c understood..

Created By **Joy Acebedo** (8/25/2014 4 10 PM)
C called again saying that the airbag light is on again that is why the veh was sent back to the last friday. C said that the dlr told c that the veh is fine. C also said that the additional issue is that, the bluetooth is working fine today. Actually, c is talking to CRR-JA using the bluetooth. However, there are sometimes that c will hear a continuing ring and c have to turn off the engine so that the ring will stop. C said that the dlr tried to fix the issue but still, the issue is there.

C would like to talk to the RCAS department again. C said that the previous Nissan was the Mentor Nissan and now, c go to the GANLEY NISSAN.

DRTS rec'd an Attorney Letter from Michael Newman, Attorney at Law on 08/04/14, dated 07/29/14 via Certified Mail. Letter states their office represents C pursuant to Texas Lemon Law and Texas Motor Vehicle Commission Warranty Performance Obligations. Attorney states soon after C purchased C's vehicle C began to have problems with the passenger airbag system. Attorney states that NNA has attempted to repair the passenger airbag system on four (4) separate occasions. Attorney states upon written confirmation from NNA 's agreement and commitment to participate in this fifth, and final attempt to repair the vehicle, C will arrange to deliver the vehicle to the dealer to attempt one final repair. Attorney states to please advise when NNA will arrange for a meeting with NNA so that their office may schedule this final attempt to repair the vehicle. Signed Michael S. Newman.

Make Public		**Created By Jim Land (8/5/2014 8 40 AM)** B00A0-00 OCS SYSTEM { H33 } Past 1. Reprogrammed OCS module per campaign.....now Pabi light comes on and B00A0-00 is set. 2. Replaced OCS control unit.....no change 3. Replaced seat track assembly (for seat sensors)..... no change. Customer did not notice an issue prior to the OCS reprogram campaign being performed. No components were replaced prior to OCS reprogram being performed. Only the Pabi light comes on at times. The Air Bag light does not come on. DTC is erased every visit and returns. Seat belt light is not on with the passenger seat empty. Incident occurs with "husband" in the seat, husband is a normal sized adult. Incident is not noticed with other passengers in the seat. Customer states incident began after the OCS was reprogrammed, but had only owned the vehicle for a few hundred miles prior to that. OCS unit label # NJ9NC142130423. Tech is unsure if DTC was erased before or after perfroming Zero-point reset.

Alert Trigger Verbatim	VEHICLE PICKUP No problems Justin helped me and it was very fast and easy.. SERVICE ADVISOR COMMENTS Justin @sb nissan is awesome!! He is so helpful easy going makes it fast and simple. My experience for new cvt honestly was the best experience i have ever had.. They diagnosed the problem under warranty and immediately called me and offered me a rental.. No hassle and relieved my stress.. Justin is a great asset to sb nissan!! I am from sb and live in ventura.. Bought my cube in oxnard.. Oxnard service dept is rude unhelpful and inefficient.. I called to have my vehicle checked there first .. my only available day was a sat, the manager basically refused to take me when he realized car was under warranty and that i needed a new cvt.. I will always drive to sb nissan .. Its worth the gas.. Less hassle and less stress. Only issue is that Nissan needs to recall the CVT's on all 2009-2010 cubes people should not have to go through this or be stuck after 120000 miles with a bad transmission.. Being thag Nissan is aware of the problem.. it is their responsibility to fix the problem... I would prob not buy another nissan though too many problems with a 2009 vehicle.. My CVT went out .. Drive belt warn out.. Now im having a gas gauge problem that wasnt there before my vehicle went into the dealership to be fixed .. And their saying its not covered by warranty.. My confusion is a new vehicle isnt smogged for so many yrs after purchase therefor how can the emissions warranty only last a few yrs if the smog doesnt occur til afterwards.. How are you supposed to know if there is a problem til its smogged.. Sad part is i do not recommend nissan to any of my friends or family .. Due to the multiple issues with my vehicle .. I recommend sb nissan service dept.. But not the vehicles.. I currently have alot of family members purchasing new vehicles and were considering Nissan until they realized all the problems im having with my vehicle IMPROVEMENTS TO SERVICE EXPERIENCE Service experience was awesome..i have a very busy schedule and i will make sure that i always have Justin help me so that my time isnt wasted...No suggestions. Recall the CVT's on all 2009-2010 Nissan is fully aware of issue .. Extended warranty is great but if someone goes over 120,000 miles and it goes out their screwed...it is your job to make sure when a customer pays that much $ for a car it is reliable.. And also that they will refer others to purchase Nissans..	Hot Alert Type	CA T5

Alert Trigger Verbatim	SERVICE ADVISOR COMMENTS We brought the car in for repairs to our malfunctioning passanger seat airbag indicator. The previous 4 times we brought the car in for service we requested this to be checking into, never was until we were told a separate appointment was needed. Once the car was checked we were told nothing was wrong. Unfortunately for your service department we have made videos of this problem since then. The indicator STILL shows it is inactive with a passenger in the seat. We have to stop and restart the car several times to get it functional, even then it occasionally will turn off then back on while driving. We are very disappointed that we are not being taken seriously about this problem. We will attempt one more time during our next service appointment to get this issue resolved, if it isnt we will consider our options for a remedy to this situation. Many Thanks Roger/Jennifer Kilgore IMPROVEMENTS TO SERVICE EXPERIENCE see other comments	Hot Alert Type	CA T5

c called in & said that c said that c is having an issue with the passenger airbag sensor light since c purchased the veh in Jan 2013
c said that c is having an issue with the airbag before the recall/campaig came out
c took the veh to AUTONATION NISSAN CHANDLER but dlr said that there is a campaign related to the issue but dlr has to wait for the campaign to come out

c said that the dlr performed the campaign in June 2014 & c said that there are 2 campaigns done

RC-3797576 R1405 Safety Closed 2013-2014 - Nissan Occupant Classification System Module Reprogramming OCCUPANT CLASS SYSTEM OCS

RC-3797578 PC214 Safety Closed 2013 - Altima Occupant Classification System (OCS) Sensor ALTIMA ODS

c said that dlr replaced the sensor, but 2 days after the recall,
the passenger airbag light came back on & c was told that dlr need to keep the veh for 2 days but the dlr said that there is no error message

c is dealing with SA-Jason

c said that c was at the dlr yesterday & dlr said that dlr as able to addressed the issue to NNA but NNA said that there is nothing NISSAN can do.
c said that c is looking for a lemon law
c said that c would like to know if NISSAN can fix the issue

crr-va told c that case will be forwarded to rcas for review & c will receive call before the end of the next business day. c understood

crr-va offered further assistance, c declined.
crr-va gave name, extension & case number.

Make Public	**Created By Chad Alsup (9/26/2014 8 43 AM)** ARBS-CA requested updated RHR including last RO with DTS
Make Public	**Created By Chad Alsup (9/26/2014 8 42 AM)** ARBS-CA notes DTS made no repair, vehicle performing as designed DTS test drove with customer for a vibration concern. Previously, the dealer had replaced the transmission for a judder incident. During the test drive, the customer pointed out the vibration of concern, but DTS-JN noted the vibration was a reaction of the vehicle to road input, and is characteristic of this vehicle (sport suspension, low profile tires). DTS explained this to the customer. DTS took vehicle in and performed a thorough inspection and found no warrantable concerns. No repairs are necessary at the present time. During the interview, Mr. [redacted] admitted that as soon as he drove off the lot with this vehicle, he knew the purchase was a mistake. After driving Cadillacs all his life (he traded one in on this vehicle), he chose to purchase this Alltima, and is simply not happy with its ride characteristics.

Make Public	**Created By Lundy Flowers (8/29/2014 12 29 PM)** ARBS-LF received an email from the attorney stating: My clients desire a buyback or a replacement. Therefore lets proceed with having a Dealer Technical Specialist inspect the vehicle. The Nissan dealership was unwilling to even explain what they did to the car only provided the invoice with the work order codes. So they don't know if they have a new transmission or a rebuilt transmission. Please advise when the DTS will be coming to inspect the vehicle.
Make Public	**Created By Lundy Flowers (8/28/2014 3 18 PM)** ARBS-LF sent an email to the attorney stating: Nissan North America has reviewed the case and at this time Nissan North America would like to offer a Dealer Technical Specialist (DTS) inspect the vehicle if the vehicle still has a concern. If the vehicle no longer has any concerns Nissan North America would like to make a settlement offer in the amount of $3,935.00 inclusive of fees for your clients inconvenience.

Make Public		**Created By William Crockett (9/10/2014 6 03 PM)** Received call from c returning call from TL. TL advised c that TL was calling at c's request to speak to a spvr. C stated c wanted TL to document that c was not happy with the c received from the DTS and Rcas. TL asked how so. C stated c did not totally agree with the assessment of the veh by the DTS and c also felt that the DTS made an inappropriate comment to c. C stated c asked what c should do with the veh since c did not agree that the veh was operating as designed. C stated the DTS advised c can drive the veh, sell the veh or leave it on the lot at the rtlr. C stated c felt that was not professional at all. TL apologized to c for the bad experience and advised the case has been documented as such. C stated the INF Rcas was not rude but c was left feeling like the Rcas did not actually listen to c's complaint at all and would only say that the veh was operating as designed. TL again apologized to c for the bad experience and agreed to address the Rcas. C thanked TL for listening. C stated INF authorized another repair and that c picked up the veh on Monday 9/8. C stated so far the concern has not returned. TL urged c to report any repeat concerns to the rtlr and INF. C agreed. C thanked TL for calling c, TL thanked c for c's time and call ended mutually. - Closing case. - ***SUMMARY** C contacted INF regarding OCS light complaint. Rcas-kb received call from c.
C states c would like Inf to know the cs side of the inspection..
C states the light stayed on in the cs vehicle for 4 to 5 mins.
C states that the system did not recalibrate like the DTS advised it should.
C states c was advised by another rep with the DTS that it is best to not have a airbag in some instance.
C states c was advised that the airbag can do more damage than good per the c.
C states that is what the c was advised by the rep-DE.
C states that c was also told that the primary restraint is the seat belt.
C states that is unacceptable to be advised of that.
C states that DTS-JD advised that the FCC approved the OCS.
C states that is unacceptable because Inf built the seat.
C states c is not happy with the inspection.
C states asked the DTS what the cs other course of action.
Make Public
C states the DTS advised drive the vehicle that is operating as design, sale the vehicle, or not to drive the vehicle at all.
C states those options is unacceptable.
Rcas-kb asked the c what the c is seeking from Inf.
C states the vehicle fixed.
Rcas-kb advised the c that the vehicle was inspected by the Rltr parts replaced, and the vehicle is operating as designed.
Rcas-kb advised the c that the DTS was there to determine if the Rtlr inspected the vehicle, and to provide a fix if the DTS found that the vehicle was not operating as it should.
C states okay that is fine.
C states c wants the cs info documented.

Rcas-kb thanked the c, and the call ended.

Rcas-kb closing case no further assistance needed.

	Created By Lakisha Benedict (8/22/2014 9 07 AM) DTS-JD will be scheduling the inspection for Wednesday 9/3 @ 9 00 am at Ray Brandt Infiniti. DTS spoke with the SM Lisa and informed SM of cs updated appointment. SM is going to contact the customer with the updated date and time. The parameters of the inspection are still the same. It will be required that the owner is present for the inspection. It would also be best if the normal passenger occupant that turns the light on is also present. Due to this inspection will require flight and the changing of the date and time, can the owner of this case in CA, contact the customer to verify the new time. Please respond once the appointment has been confirmed.

		Created By Jessica Lee (8/11/2014 2 41 PM) **Case summary** C contacted NNA CA because of concerns with the air bag light coming on. RCAS-JL states that NNA cannot assist c at this time because the vehicle is operating normally, and the veh is just sensitive as stated by FUCCILLO NISSAN OF LATHAM and DTS-Peter Merkel. C started recording the call, and after saying "This call is being recorded without my knowledge or permission and if you do not agree to cease recording, I will need to end this call." and "Since you are not honoring my request to cease recording this call, I am ending the call." RCAS-JL ended the call.

crr-rg received call from c's husband R[redacted]referred to as c on the notes, stating that c has issue with the airbag which c already have been taken 3 to 4x already at the dlrship but the issue is still there.

c stated that c initially took it to the dlrship upon notification of the OCS campaign, which was performed on the veh, but the issue still exist.

c stated that c just gotten a call from the dlship advising c that there is no doubt that the light will come on for the airbag indicator, but dlr advised, as per NNA, that NNA cannot assist further.
c stated that c was advised that everything was kept fine on the veh and c was advised that the sensor was too sensitive, so if this happened to c, as per c, c will need to stop the veh and restart it, or if c was driving, c can just ignore the indicator lights until veh will be involved in an accident.

c stated that what c wanted is to replaced the seatbelt,or sensor or if this will not work, to replaced the veh.

c stated that c is an attorney and will wait for a resolution to the case, but advised that if NNA will not fix issue or replaced veh, c will go to media and sue NNA.

crr-rg verified c's name, vin, address, mileage, phone number,
email address & dlr.
crr-rg checked for open recalls/campaigns/upgrades found none

crr-rg advised c that file will be transferred to rcas for review.
crr-rg advised c to expect a call within the next business day.
c understood.
crr-rg offered further assistance, c declined.
crr-rg provided name, ext and file number.
crr-rg leaving file open.
crr-rg escalating case to rcas for repair assistance

crr-rg noting best numbers to reach c are ([redacted]

		Created By Kelli Souders (8/11/2014 2 06 PM) ~~~~~~~~~~~~~~~~~~~~~~~~~~~~~Summary~~~~~~~~~~~~~~~~~~~~~~~~~~~~~ C called NNA for complaint that airbag light still on since campaing was done. C has not been back to dlr since 6/17/14. C advised that SM will test drive with c and there may or may not be further repairs needed. Complaint documented. Closed file ~~~~~~~~~~~~~~~~~~~~~~~~~~~~~[redacted]~~~~~~~~~~~~~~~~~~~~~~~~~~~~~
Make Private	✓	Rcas placed call to c on [redacted] at 2:53pm. Rcas apologized for concerns and advised that SM was contacted who advised that veh has not been backa nd that dlr would gladly look at veh again, speak to c and go for test drive. Rcas advised that dlr is also able to reach out to technical dept for further assistance at that time if needed. C states doesnt know the benefit of taking veh back as SA told c dlr cannot do anything. Rcas advised that without further diag Rcas/dlr cannot determine if there is infact further concerns with veh and if repairs can be made or not. Rcas advised will definately document concerns/ complaints. Rcas advised that veh may be operating as designed as well. Rcas advised cannot diag over the phone and has to refer c back to dlr for such. C understood ~~~~~~~~~~~~~~~~~~~

comments : Hi,
I bought a Nissan Sentra (2013) VIN 3N1AB7AP3DL[redacted] in December of 2013. I have been having many issues with my passenger airbag. The light comes on and off, even though there is a passenger in the front seat. I have taken the car to the dealership twice or three times regarding this particular issue. I also took it in after the recall, and still the problem is not fixed. The car is about to have 6k miles on it. I am not sure what to do at this point, I am afraid if I am in the car with my wife the passenger air bag may not employ if I am in an accident. Please help me resolve this issue ASAP.

Thanks,

comments : I don't have my V N accessible for the vehicle referenced, so, I entered the VIN for my other Pathfinder.
I purchased a 2013 Pathfinder in November, 2012. I immediately noticed that the airbag light indicated that the airbag was off when an adult passenger was sitting properly in the seat. I reviewed the owners manual and found that we were meeting the requirements for the airbag to be on. I brought it to 2 different dealerships on at least 5 occasions for this and had the recall reprogramming done at least twice. In each case, I was told that everything was fine and it was suggested that I wasn't following the owners manual instructions. My husband and I found the pattern that if the engine is on when a passenger gets in the passenger side, the airbag light comes on indicating that the airbag is off. Whenever we see that the airbag is off when an adult passenger is properly seated in that seat, we turned the car off and start it again. Restarting the car with the passenger already seated results in the light remaining off indicating that the airbag is on. My car was serviced this week and the service manager was unable to replicate this issue. While I was with the service manager, we started the car with a bag of sand in the passenger seat and saw that the light illuminated properly. We then took the bag out and he sat in the seat. The light remained on for approximately 1 minute before turning off. He explained that this was normal because the OCS needs to recalibrate. Assuming that I was incorrect in my assessment of the issue, I trusted that everything was working properly. This morning, my husband started the car right before I got in the passenger seat. The airbag light remained on for over 45 seconds as the car was still parked. We started driving to see if the light would go off. I recorded this light remaining on as we drove for over 4 minutes at speeds of 40 mph for over 2 miles. This light went off while we were stopped at a stop sign. I feel this is extremely dangerous because an adult passenger following the guidelines in the owners manual should not be in a moving vehicle for almost 5 minutes with the airbag not on. We also should be able to start the car before the passenger gets in and have the OCS recognize a passenger within seconds. I am also extremely concerned because this indicator is very unpredictable-I do not trust that this light is accurate. I'm hoping to receive a solution from you as 2 different dealerships have been unable to address it and I'm not satisfied with the answer I received that it is normal for the OCS to take several minutes to recalibrate. This is my 3rd Pathfinder since 2002 and 4th Nissan vehicle. None of my other Nissan's had this issue and I've never been in a car where the OCS acted this way. Safety is my top concern with a vehicle. If this issue cannot be rectified, I will have no choice but to buy a different vehicle that will definitely not be a Nissan. Please let me know how to proceed to get this issue resolved. Thanks

Make Public		Created By Joseph Shively (8/18/2014 9 44 AM) CASE SUMMARY ********** C contacted NNA CA with concerns regarding C's OCS. VEH was diagnosed to be fine by DLR. RCAS-JS contacted engineering and provided C with engineering's comments. C stated C believed this to be unacceptable. **********
Make Public		Created By Joseph Shively (8/18/2014 9 42 AM) RCAS-JS placed outbound call to C at [redacted] ********** RCAS-JS stated RCAS-JS had spoken with engineering. RCAS-JS stated engineering told RCAS-JS that OCS purposefully does not reclassify as frequently while VEH is moving due to knowledge that passenger will not enter/leave space while VEH is moving. RCAS-JS stated ignition being on, shaking VEH, can also delay re-calibration. C stated C did not believe VEH should take as long to re-calibrate when C sits in passenger side. RCAS-JS stated VEH had been diagnosed by DLR to be working as designed and that C's concerns had been explained by engineering perspective. C stated C no longer wished to own Nissan VEH and would be trading VEH in. RCAS-JS asked if RCAS-JS could be of further assistance. C declined. Call ended mutually. **********

I recorded this light remaining on as we drove for over 4 minutes at speeds of 40 mph for over 2 miles. This light went off while we were stopped at a stop sign. I feel this is extremely dangerous because an adult passenger following the guidelines in the owners manual should not be in a moving vehicle for almost 5 minutes with the airbag not on. We also should be able to start the car before the passenger gets in and have the OCS recognize a passenger within seconds. I am also extremely concerned because this indicator is very unpredictable-I do not trust that this light is accurate. I'm hoping to receive a solution from you as 2 different dealerships have been unable to address it and I'm not satisfied with the answer I received that it is normal for the OCS to take several minutes to recalibrate. This is my 3rd Pathfinder since 2002 and 4th Nissan vehicle. None of my other Nissan's had this issue and I've never been in a car where the OCS acted this way. Safety is my top concern with a vehicle. If this issue cannot be rectified, I will have no choice but to buy a different vehicle that will definitely not be a Nissan. Please let me know how to proceed to get this issue resolved. Thanks

comments : My 2014 Nissan Sentra passenger air bag light that indicates it is off. I noticed this on 8/7/2014 leaving work at night. No one was sitting in the passenger seat at this time. Then today on my way home it came on again in the middle of my drive but this time with a passenger. Is there a recall that I wasn't informed about or is this something new that Nissan isn't aware of?

ARBS emailed C the following:

Dear [redacted]

We sincerely appreciate you taking the time to contact Nissan regarding your situation. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

Nissan carefully considered your request during a review of all available facts pertaining to your situation. Based on the vehicle repair history, Nissan offers to repurchase or replace your vehicle to comply with the Florida Lemon Laws.

Re: 2013 Nissan Altima
V N: 1N4AL3AP3DC[redacted]

Make Public

In order to coordinate the repurchase of your vehicle, Nissan needs to know the particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me at your convenience, as they will be needed to make a detailed offer:

• A legible copy of the vehicle's current registration
• A copy of the purchase contract for the vehicle
• Any receipts for costs that you want considered for reimbursement
• Completed Lienholder Information Request Form (enclosed)

Please return the requested information to me via fax at 615-967-2271. We anticipate completing the repurchase within 2 to 4 weeks from the time of your acceptance. Please note: supplying the requested documents does not indicate your acceptance of the offer; you will have a chance to review the fully detailed offer before making a decision.

If you have any questions you are welcome to call me at [redacted]

Sincerely,

Make Public

RCAS-JG made outbound call to C.

C stated when took a drive recently and the air bag sensor was not on when drive started.
C stated that halfway through drive the air bag sensor light came on and stayed on through the remainder of the drive.
C stated wants an update on case.
RCAS-JG advised does not have any new information at this time.
C stated is going out of town Friday and would like an update prior.
RCAS-JG advised next followup will be 8/21/2014.
C asked if NNA has ever failed to repurchase a defective veh?
RCAS-JG advised was not in a position to discuss that information as RCAS-JG is not advised or trained in what concerns result in repurchases.
Make Public C understood.
C stated cannot drive veh anymore daily.
C stated fears for life.
C stated will seek legal action if concerns are not resolved.
RCAS-JG advised that NNA is taking C's concerns seriously and wants C to feel safe in veh.
RCAS-JG advised that dlrship in the meantime has agreed to continue to work toward a resolution for C's veh.
RCAS-JG advised would followup with DLR to see if dlr was able to find new information to attempt a permanent fix to C's concerns.

C understood.

Call ended mutually.

C stated service manager advised C was going to contact and engineer from NNA to find out what's going on with C's veh.

RCAS-JG asked if C is always sitting the same way when the light is on.
C stated yes.
C stated no pattern.
C stated the light is never on when there is nothing in the passenger seat.
C stated first time noticed the light was approximately one month in to vehicle ownership.
C stated concern has been going on too long.
C stated gone through 2 recalls.
C stated veh is becoming too stressful.
C stated veh is an inconvenience to entire life.
C stated doesn't want to drive veh.
Make Public C stated asking for NNA to repurchase veh or for NNA to swap veh out.
C stated has owned other NNA vehs and never had a problem.
C stated SM-Steve and SA-Chris are helping C with vehicle concerns.
C stated likes the attitude and helpfulness of dlrship staff.
C stated had a similar concern with a previous Toyota veh and is glad that NNA is being responsive.

Why do you want to return the vehicle to Nissan North America?: Because C thinks has a defective senor for passenger airbag. The sensor is inconsistent and has been occurring for the past 17 months since C has owned vehicle and has not been resolved.
Where is the vehicle currently?: C has the vehicle. This is C's only veh.
Where was the vehicle purchased?: Venice Nissan
Was it purchased new or used?: New
If used, when was the vehicle purchased?:NA
Where is the vehicle serviced?:Venice Nissan
Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers?: No. Only Venice Nissan.

Re: 2013 NISSAN ALTIMA
1N4BL3AP5D[redacted]

Dear Sir or Madam:

We sincerely appreciate you taking the time to contact Nissan regarding your situation. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

Nissan carefully considered your request during a review of all available facts pertaining to your situation. Based on the vehicle repair history, Nissan offers to replace your vehicle.

In order to coordinate the replacement of your vehicle, Nissan needs to know the particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me at your convenience, as they will be needed to make a detailed offer:

Make Public

- A legible copy of the vehicle's current registration
- A copy of the purchase contract for the vehicle
- Completed Lienholder Information Request Form (enclosed)

Please return the requested information to me via fax at 615-967-2272. We anticipate completing the repurchase within 2 to 4 weeks from the time we receive your signed repurchase agreement.

If you do not wish to proceed with a replacement, Nissan offers optional repurchase or settlement. If you would like the repurchase, we will need all documents listed above. If your vehicle has been repaired and you would like to keep it, Nissan will provide you with a check for $3,200.00 instead of the lemon law buyback. This means that you will retain ownership of the vehicle. In exchange for this check, you will sign a Confidential Settlement Agreement and Release of Nissan North America, Inc., all Nissan entities, dealers and suppliers, though all warranties will remain in effect.

If you have any questions you are welcome to call me at 615-725-7028. I am generally in the office Monday-Friday 7:30 a.m. – 4:30 p.m. CST.

Sincerely,

Nina Woodruff

RCAS-JG received inbound call from C.

Previous cases found: None
RCAS-JG verified C's name, address, phone# and V N#
RCAS-JG checked for Recalls/Campaigns and found: No Current

C stated has had vehicle in dealership 5 times for passenger seat airbag.
C stated got veh out of dlrship today.
C stated not sure if veh is fixed.

RCAS-JG apologized for C's experience with the airbag.
RCAS-JG advised could see that the dlr consulted Techline resources to resolves C's concerns with the airbag.
RCAS-JG advised that safety is NNA's top priority.
C understood

C stated dlrship misrepresented veh.
C stated found on iihs.org that 2013 Altimas manufactured prior to November 2012 are not a 2013 Top Safety Pick.
C stated Salesman- Benny at the dealership advised C that veh was Top Safety Pick at time of purchase.
C stated knows veh was manufactured prior to Nov 2012
C stated Benny doesn't work there anymore
C stated wants veh repurchased and to be swapped into another veh.

Why do you want to return the vehicle to Nissan North America?: Because C does not feel safe in veh and has had multiple repair attempts fixing airbag. Worried for safety of self and passengers. C is also concerned that got a veh that was manufactured prior to Nov 2012 and does not have safely updates to small front overlap.
Where is the vehicle currently?: Customer has vehicle
Where was the vehicle purchased?: Don Williamson Nissan in Jackson, North Carolina
Was it purchased new or used?: New
If used, when was the vehicle purchased?: NA
Where is the vehicle serviced?: Don Williamson Nissan in Jackson, North Carolina
Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers?: No others.

RCAS-JG advised that repurchase request can be submitted.
RCAS-JG advised that process takes approx 10 days for review.
RCAS-JG advised cannot promise that NNA will be in a position to repurchase veh.
C understood.

Call ended mutually.

		Created By Jessica Lee (8/12/2014 8 31 AM) **Case summary** C contacted NNA CA for assistance with air bag light staying on. RCAS-JL advised that the dlr states that the seat is operating as designed and NNA cannot assist c. C understood.
Make Public		**Created By Jessica Lee (8/12/2014 8 28 AM)** RCAS-JL placed outbound call to c a[redacted]. C states that c notices that every time someone sits in the passenger seat that the airbag light off would turn on C states that c notices that there was a recall. C states that c went in to have recall performed. C states that c has to keep going back and forth to the dlr to reset the OCS. C states that the seat has also been replaced. C states that this is c's first time with Nissan. C stats that c is paying $545 per month. C states that c does not feel safe in the veh. C states that the dlr said there is nothing else that dlr will be able to do. RCAS-JL states that the dlr states that the seat is operating as designed.
Make Public		C states that when c is at the dlr, that the dlr makes jokes about safety. C states that c has taken veh into dlr more than 3 times. C states that c is now c wants to go to the BBB. RCAS-JL advised that c can take veh to another dlr for a second opinion and offered to look up another Nissan dlr. C declined. RCAS-JL apologized for the jokes that the dlr was making about c's safety. RCAS-JL advised c that RCAS-JL will forward the dlr concern to the appropriate personnel. RCAS-JL apologized to c for not giving c the answer that c was expecting in regard to assistance with the air bag light. RCAS-JL provided c with RCAS-JL's contact info-[redacted] for any future assistance. C thanked RCAS-JL. Call ended mutually.
Make Public		**Created By Jessica Lee (8/12/2014 7 55 AM)** RCAS-JL spoke with SM-Kevin SM-Kevin states that c was there yesterday. SM-Kevin states that no codes were shown. SM-Kevin states that seat is operating as designed.
Make Public		**Created By Sarah Jane Iglesia (8/11/2014 11 50 AM)** Vehicle Concern
Make Public		**Created By Sarah Jane Iglesia (8/11/2014 11 50 AM)** CRR-SI received a call from c stating that c has a complaint with the veh and with the dlrshp. CRR-SI verified c's account information, verified c's name, address, phone number, email address, V N, mileage of the veh and lastly the responsible dlr. C said c had the campaign for the Occupant Classification System Module Reprogramming done but c still has an issue with the veh. C said c has been back to the dlrshp numerous time for the same issue. C stated that the passenger seat was already replaced by the dlrshp but c still has an issue on the veh. C said c was told that the dlrshp cannot do anything but c can just bring the veh in to the dlrshp for resetting the OSC since it was already replaced. C stated that the dlrshp is not concerned about the safety of c and was not assisted properly. C stated c was inconvenienced with the issue on the veh because c have to bring the veh in back and forth to the dlrshp couple of times. C stated c would like to ask assistance from Nissan to have the issue fixed. CRR-SI apologized and empathized to c. CRR-SI advised c that the case is going to be escalated to RCAS for review. CRR-SI also advised c to expect a callback within the next business day. C understood. CRR-SI offered further assistance; c declined. CRR-SI gave name, ext and case number. CRR-SI leaving case open and transferring resp to RCAS.

comments : We own identical 2014 Nissan Altima SL's (except for color) purchased 7 months apart. After some minor dealer warranty work, our first one is great. We now have several problems with our new one (airbag, dash noise, etc). Our dealer is giving us a run around saying this is normal, but since we have the two, we know this is not true. We expected more from Nissan and I must say our confidence has been shaken. The airbags are nothing to be wrong about as these can cost lives. Hopefully these problems can be satisfactorily taken care of before further action needs to be taken.

comments : We own identical 2014 Nissan Altima SL's (except for color) purchased 7 months apart. After some minor dealer warranty work, our first one is great. We now have several problems with our new one (airbag, dash noise, etc). Our dealer is giving us a run around saying this is normal, but since we have the two, we know this is not true. We expected more from Nissan and I must say our confidence has been shaken. The airbags are nothing to be wrong about as these can cost lives. Hopefully these problems can be satisfactorily taken care of before further action needs to be taken.

crr-fs received a call from c.
c stated c send an email to Nissan and c supposed to get a call back.
c stated purchased an identical 2014 Nissan altima.
c stated c purchased the other veh 7 months ago then c purchased the same veh a month ago.
c stated the Nissan Altima that c purchased a month ago is having some issue and the Nissan DLR is giving c run around.
c stated c's getting some noise in the dash where in c said the DLR told c that is steering motor which is normal on the veh.
c stated the air bag light comes on even if somebody sitting on the passenger seat.

crr-fs verified/updated c's address/phone number/email:

crr-fs asked c:
name of dlrshp: Piedmont Nissan
name of the service adviser: c stated c do not have the name of any service person from the DLR.
c stated c called the dlr and c ask the dlr if can take the veh back.
c stated the dlr were telling c DLR is waiting to hear from Nissan, c said c then ask for a loaner veh then c said the dlr told c that c can get the veh anytime.
c stated c have a picture where in c is driving the veh when the passenger air bag light came on indicating that airbag is not working for 10 minutes.

how would like Nissan to assist? c stated c wanted the veh fix. c said if nissan going to fix it c doesn't mind how long Nissan will repair the veh but c said Nissan have to provide c a loaner veh for c wife to drive.

CRR-FS informed c the case will be escalated to rcas for review and c will get an initial call within the next business day.
crr-fs verified the best number to reach c. c sai[redacted]
CRR-FS offered further assistance, c declined.
CRR-FS provided name, extension and file number.
crr-fs escalated the case to rcas for veh concern/dlr concern.

		Created By Marisol Patino (8/22/2014 10 55 AM) RCAS-MP is closing case as no further assistance is needed. ========Case Summary========== RCAS-MP received case and c is requesting assistance with assistance with the airbag module.
Make Private	✓	RCAS-MP reviewed and found that the airbag is performing as it should. RCAS-MP thanked for continue business at NNA . RCAS-MP closing case as no further action needed .
		Created By Marisol Patino (8/22/2014 10 54 AM) RCAS-MP contacted C @[redacted] RCAS-MP inquired about DTS meeting.
Make Private	✓	C states it sounds like it is the design and C does not feel like its very safe. C states C still does not feel like its the safest thing. C states C will continue to monitoring the airbag. C states C was hoping that Nissan could do something else about it but C was advised by DTS that that is the way is supposed to function. RCAS-MP explained to C that the airbag is performing as it should. RCAS-MP offered further assistance; C declined further assistance at this time. RCAS-MP thanked C for contacting NNA CA, and advised C to please contact NNA CA if NNA CA can be of further assistance. Call ends mutually.
		Created By Marisol Patino (8/22/2014 10 45 AM) RCAS-MP received e-mail from DTS-TP stating :
Make Private	✓	I met with [redacted] at Lake Norman Nissan today to discuss his 2013 Nissan Altima for passenger airbag light performance. During our discussion, I explained the system and its operating characteristics. He stated that the light would illuminate during times while his wife was in the seat sitting straight and proper mostly at startup but sometimes while driving. I asked if the light had ever came on while no occupants were in the seat and he said no. I explained that the proper classification of the passenger that is occupying the seat is a critical measurement. I was transparent by explaining why the R1405 recall was released and that it has reduced PABI complaints by 95%. Mr. [redacted] understood and thanked me for the information but still feels he should not have to do anything special while driving or sitting in the seat. Again, I elaborated on PABI performed and the FMVSS federal motor vehicle safety standards and Nissans compliance with OCS occupant classification systems. I inspected Mr [redacted] ehicle last Friday prior to today's visit and checked seat to body torque and sensor installation. Did note aftermarket seat heaters have been installed and I believe aftermarket leather. I did explain to Mr. [redacted] at Nissan does not recommend any seat alterations. After the education of the system Mr. Doherty agreed to take the vehicle and monitor the PABI performance. I also made it clear if it is still operating out of his expectations to please follow up with Nissan or myself.
		Created By Marisol Patino (8/19/2014 1 39 PM) RCAS-MP contacted SM-Karl.
Make Private	✓	SM-Karl states the vehicle is operating as it supposed to and everything is working as it should. SM-Karl states if you seat still for 7 second the airbag light will stay on. SM-Karl states C will be meeting with DTS-TP tomorrow. RCAS-MP thanked SM-Karl for the info.
Make Private	✓	**Created By Marisol Patino (8/19/2014 11 10 AM)** RCAS-MP contacted C @[redacted] C states C was not present at the DTS appointment. C states it sounds like there is no resolution regarding the air bag. C states C will be meeting with the DTS. C states there should not be a requirement for how to get in the vehicle. C states C hopes the next time RCAS-MP calls C, RCAS-MP has a adequate resolution regarding the airbag or else the issue is going to have to be escalated and third parties are going to have to be involved. RCAS-MP advised C that RCAS-MP was goint ot contact SM-Karl and as soon as C has updates RCAS-MP will contact C.

C understood.

RCAS-MP offered further assistance; C declined further assistance at this time.
Call ends mutually.

Per the linked video from this Sunday 8/10, my Nissan Altima is still having the issue with the airbag light which has been brought in 3 times (most recently last Tuesday 8/5-weds 8/6) already to be serviced. I am very disappointed that this issue has not been fully resolved yet. More importantly, I am extremely concerned with the safety of passengers riding in my car. I have called Nissan Consumer affairs to report the problem. Please call me promptly once a final solution to remedy this problem has been established. If the vehicle needs to be brought in a fourth and final time, please also let me know what Modern Nissan can do to compensate me for the time and hassle I have had to deal with on this issue. I need a satisfactory resolution to this problem as soon as possible or I will need to escalate the matter further and involve external parties. 		Created By Vicky Anderson (8/13/2014 3 10 PM) ARBS-VA called C at[redacted] C stated that she was on Spring St with green light to make a left on Trinity. The other vehicle was on Trinity and it ran the red light striking C on the passenger side front. C stated that the airbags did not deploy and C wanted to know why airbag did not deploy because C had just had recall on passenger side airbag. ARBS-VA explained to C that the passenger side airbag is not intended to deploy if there is not someone occupying the seat. ARBS-VA offered to send the Consumer Safety & Airbag guide to C and she accepted. C asked for ARBS-VA to email her the info. I confirmed C's email address. ARBS-VA explained to C that based on the information C provided, this appears to be a matter for C to address with C's insurance. C understood and agreed. CLOSING CASE, C PURSU NG C'S NSURANCE. ARBS-VA EMAILED C A COPY OF THE CONSUMER SAFETY & AIRBAG GUIDE. **********

		Created By Ashley May (9/22/2014 3 06 PM) ARBS rec'd v/m from C on 9.18 at 4:13 p.m. ARBS returned call at 2:44 p m. on 9 22 to [redacted] and reached C. ARBS advised DTS-Thomas inspection report and notified that there were no abnormalities found within the system operation. C stated C wasn't sure if they weren't understanding each other but thinks C found out what was causing the issues. C stated what could be happening is that when someone is sitting in the seat, the sensors are unable to determine who is in the seat that it kicks the light off so the bag won't deploy. C believes that the system within the vehicle is very sensative and is not operating properly even though it's not throwing codes. C states still feels that there is still a problem with the system in the car since after each ignition cycle the system resets itself and stated that C's 9 year old daughter was in the front seat and the bag was not turned off when it should have been. C stated that DTS-Thomas stated that the system is a self clearing system so C thinks that since the system is clearing things each time that there is still a problem and why DTS-Thomas was unable to find any codes.
Make Public		ARBS advised will provide additional information to DTS-Thomas in regards to having daughter sit in the seat and the airbag did not show and would deploy. However, ARBS advised based on DTS inspection and no abnormalities found within the airbag system that NNA would not be in a position to repurchase or replace the vehicle. C stated C appreicates the stance taken but still believes there is something wrong with the vehicle and is still not comfortable owning the vehicle. ARBS reiterated NNA's stance on not being in a position to repurchase or replace the vehicle. C stated C believes C is not making the issues up and that meeting with the DTS did nothing but reaffirm C's thought that the vehicle has an issue with the airbag system. C stated since there have been multiple recalls and instances that C has on video with multiple people within the seat and C is at a loss at how to get the issue to duplicate. ARBS advised that NNA respects C's right to move forward with the BBB. C stated C still has issues and is frustrated that since it hasn't been able to be duplicated at the dealership or with the technician that C is not getting any help. ARBS reiterated stance of not repurchase/replacing the vehicle and that NNA respects C's right to move forward with BBB. Call ended mutually.
Make Public		**Created By Asl[redacted]014 2 58 PM)** ARBS called C a[redacted]nd reached v/m. Left v/m requesting return call to discuss DTS inspection.
Make Public		**Created By Ashley May (9/17/2014 2 55 PM)** ARBS rec'd the following inspection results from DTS-Thomas: I have met with [redacted] this afternoon and inspected vehicle for OCS complaint • Customer showed videos mostly prior to campaign R1405 reprogram of OCS light illuminated while vehicle in motion • Performed diag check with consult and no codes in any system • Extensive test drive with customer in passenger seat • Test drive included multiple stops and engine restarts along with customer exiting and re-entering the vehicle • No duplication of any abnormal OCS light operation or any codes duplicated • Performed visual inspection of vehicle and no abnormalities found DTS TT determines at time of inspection no abnormalities were duplicated
Make Public		**Created By Ashley May (9/4/2014 9 45 AM)** ARBS called Larry Miller Nissan and requested to s/w SM-Matt. SM-Matt confirmed appointment, stated rec'd the v/m and s/w DTS-Thomas so he didn't call ARBS back. ARBS thanked SM-Matt for time. Call ended mutually.
Make Public		**Created By Ashley May (9/3/2014 12 38 PM) Last Modified By Ashley May (9/3/2014 12 38 PM)** ARBS rec'd an e-mail from DTS-Thomas with inspection date/time of 9.16 at 2:00 p m.

ARBS called C[redacted]nd s/w C. ARBS provided date/time to C. C stated C had called and left msg in regards to inspection. C stated C would never feel secure in the seat and having someone else look at it again doesn't satisfy C's concerns.

ARBS advised since the vehicle hasn't been seen since 5.2014, NNA's position is requesting the DTS inspection and there isn't a decision to repurchase or replace the vehicle. ARBS advised respected C's opinions and feelings.

C stated C feels that C isn't being heard and that C doesn't feel secure in having the vehicle any longer and just doesn't want it. ARBS advised understands position but the decision to repurchase/replace the vehicle is dependent upon the inspection. ARBS advised since veh had recall in May and last repair was in March, ARBS would like to factory trained specialist to inspect the vehicle. ARBS advised repairs, if recommended, do not necessarily need to be completed but case would be re-evaulated once inspect is complete.

C stated C understood better and that date/time works for her.

ARBS thanked C for time.

Call ended mutually.

ARBS called Larry Miller Nissan and requested to s/w SM-Matt.

Receptionist transferred ARBS to Service Receptionist Bonnie. ARBS requested to s/w SM-Matt.

ARBS was transferred to SM-Matt's v/m. Left msg advising of date/time and DTS-Thomas' request to have technician Mike available. Requested return call for confirmation.

Make Public	**Created By Melissa Plante (8/18/2014 6 00 PM)** RCAS-MP called c at [redacted] reached c. RCAS introduced self and apologized for the delay in contacting c, as RCAS was out of the office for several days last week. C understands, and thanked RCAS for calling c today. RCAS asked how NNA could possibly be of assistance at this time? C stated that is seeking a refund for c's veh. C stated that c has had ongoing concerns with the airbag light in the veh. C stated that c has had sensors replaced, the recall performed, seat sensors replaced, and the concern is still happening. C stated that c knows that with the veh in this condition, c would not be able to sell the veh to anyone else in the future when c is ready to get rid of the veh. C stated that c knows that the airbag light is not going to be working correctly. C stated that c has brought the veh to the dlr several times, but the dlr has not been able to duplicate the concerns. RCAS asked what the concerns were? C stated the pass airbag light does not seem to come on consistently. C stated that there are times when the light is off, and the airbags would deploy, and other times when the light is off, no matter who is sitting in the seat. C stated that the light has come on when c has sat in the seat (approx 130 pounds), c's husband (200 pounds), c's friend (100 pounds). RCAS advised that the airbag light is based on an algorithm that takes into account multiple measurements, including size, weight, position, etc. C stated that c understands, and the dlr has explained that to c as well. C stated that since it is not consistent, c is still worried. RCAS advised c that the airbags are a supplementary system, and c should ensure that the seatbelts are worn at all times, as the seatbelts are the primary safety feature. C understands and agrees. RCAS advised that NNA wants to ensure that the airbag system is working correctly however. C stated that c understands, and that is why c has decided to pursue the repurchase option at this time. C stated that c has consulted with an attorney who is willing to work with c if needed. RCAS confirmed that c has NOT retained an attorney at this time. RCAS reviewed the following info with c: Why do you want to return the vehicle to Nissan North America? due to ongoing concerns with airbag lights Where is the vehicle currently? with c Where was the vehicle purchased? Larry H. Miller Nissan Highlands Ranch Was it purchased new or used? new If used, when was the vehicle purchased? n/a Where is the vehicle serviced? Larry H. Miller Nissan Highlands Ranch Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers? no RCAS asked when the last time veh was brought in for the concern? C stated in May. C stated that c had called the dlr in July, and has been playing phone tag with SA-Matt to arrange for veh to be brought back again, but then c decided to contact NNA and pursue the repurchase option. RCAS thanked c for the info. RCAS advised c that RCAS will gather all the needed docs, and submit repurchase request, and the process can take up to 10 bus days. RCAS advised that once RCAS has the request submitted, RCAS will call c back to advise, c understands and agrees. RCAS thanked c for talking with RCAS today, wished c a good day and ended the call.

Make Public	**Created By Maria Lourdes Yacap (8/12/2014 1 04 PM)** CRR-MY received a call from c asking refund for the entire vehicle. C stated that c is having problems with the passenger air bags and sensor. And it has been repaired for multiple times. CRR-MY asked when did c brought the vehicle to the dealership and who is the SA who diagnosed the vehicle. C stated that c brought the car to the dealership last May 13 and talked to SM Matt. C also stated that c had the same issue for five times already. CRR-MY advised c that it is beyond CRR-MY's empowerment, and the case will be escalated to RCAS and also advised c that RCAS will contact c by the end of the next business day. CRR-MY offered further assistance then did a recap. C declined further assistance. CRR-MY provided the case number, extension number and ended the call.

ARBS rec'd vmx from c advising that something is not right and he needs to know where everything is because someone got the notice because it says the notice was left and ARBS needs to schedule a redelivery as indicated on the notice. C will have to fax tomorrow. Call by the end of the day.

ARBS called c @ [redacted] and advised that his letter was delivered after our morning pick up, so it will be picked up tomorrow. C states he was just worried because he sent so many papers and he does not want this to be delayed. ARBS understands. C thanked. The call ended mutually.

ARBS rec'd vmx from c demanding a call back because he sent something certified and got notification that no one was there to sign for it

ARBS called c @ [redacted] to apologize and confirm address.
ARBS confirmed address and apologized but ARBS does not have access to the mail room and would have to find out anything and call the c back. ARBS attempted to apologize and explain more, but the c cut ARBS off.
C is very angry. C states he can never reach ARBS and obviously the post office can never reach ARBS and no one knows how to get ARBS and c calls and half of the time the line is busy and half of the time he gets ARBS' voicemail and he does not leave a voicemail because ARBS should know to call him back and this is ridiculous and he just wants this behind him.
ARBS apologized and asked what number the c is calling when he gets a busy signal. ARBS notes that c is calling 615.725.1000. ARBS advised that he should not call that number because it will always have a busy signal. ARBS confirmed that c should contact the number ending in 7278. C states then he will just get ARBS' voicemail. ARBS apologized and advised that ARBS is on and off the phone throughout the day as well as sometimes in meetings and hearings and many times unable to answer the phone. ARBS explained that if c does not leave a voicemail, ARBS does not know to call the c back. C states this is ridiculous. ARBS apologized.
ARBS advised that ARBS would reach out and try to get the letter so c does not have to fax the documents, as he does not wish to. C said fine. ARBS thanked. The call ended mutually.

ARBS rec'd vmx from c @ 1454 on 10/22 asking for call back

ARBS called c @ [redacted] to advise that NNA will REPURCHASE this vehicle. Spoke to c.
Asked for registration, sales documents. The vehicle is paid off. ARBS asked for copy of title. C states there was a trade in also. ARBS advised this would be on the sales document.
C states he has a fax machine but it does not work too well. ARBS provided fax and mailing address.
ARBS explained that once docs are rec'd, ARBS will send c a repurchase agreement for signature.
ARBS explained Morley process.
C states he wants to know when he will get rid of this car. ARBS explained Morley process again.
C thanked and will send docs. The call ended mutually.

ARBS rec'd email from DTS asking to call
ARBS called DTS to discuss the case. DTS states the c's wife is right on the cusp and we came out with a bulletin about proper seating.
DTS states his concerns about the airbag in this vehicle.
The problems arose after the reprogram and it is very inconsistent.
Based on the bulletin, there isn't any more that can be done. DTS gave them the bulletin, but they really don't want to hear it.
DTS and c had the same conversation about the 9 year old Buick.
DTS advised that the wife is in the 5% of adults.
DTS advised that the dlr did not replace everything the 3rd time, so he had to work on it again. That is the problem with this one.
ARBS advised that ARBS will repurchase but will not offer a replacement because the next vehicle will do the same thing. DTS agreed.

ARBS rec'd vmxs from c:
1033 - c has called 8 times. ARBS is always away. ARBS never answers phone. C told ARBS he would not be available. Call back NOW
1127 - c got the message and has been out but called an hour ago and ARBS has not called back. Call back NOW
1427 - c has called 3-4 times and would like a call back to get this thing resolved now.

ARBS called c @ [redacted] Spoke to c. ARBS apologized for the delay and advised that ARBS rec'd all vmxs.
ARBS asked about the vehicle.
C states on 10/9, it stayed on for 5 minutes. On 10/10, it was on for 15 minutes. On 10/11, the light stayed on for 15 minutes. C does not know what to tell ARBS.

C states on all occasions, his wife was in the seat.
ARBS confirmed that the wife is 110 pounds. C states the DTS provided some information. The c read it but if he had known the airbag system was so sensitive, he would never have bought the vehicle. He would never touch the vehicle. His friends agree.
C states the buick they have acts differently. C states it has never not worked.
ARBS asked about the age of this vehicle. This vehicle is 9 years old.
ARBS advised that the airbag system works differently on his 9 year old buick.
C states this airbag system is worthless. C states this is absolutely absurd.
C states ARBS is impossible to reach. C states he is away from home more than he is not.
ARBS apologized and advised that ARBS is on and off the phone throughout the day as well as in meetings. ARBS asked if c has a cell phone that ARBS could contact.
C provided [redacted]
C states DTS already had an extra shot at it.
ARBS advised that ARBS is not trying to have the c bring the vehicle back in, but that ARBS would like to provide the information to the DTS because ARBS is not a tech.
C states he has had enough of this.
C states he will be out for most of the morning tomorrow. ARBS advised that ARBS will try to contact c in the afternoon. C states he guesses he will be home. ARBS advised ARBS would try all 3 numbers when ARBS gets more information from DTS.

Make Public		**Created By Jacinta Pederson (9/10/2014 3 36 PM)** Arbs closing file.
		Created By Jacinta Pederson (9/5/2014 8 59 AM) DTS/SJ inspection summary. DTS/SJ met with this customer yesterday. C described that the OCS light would come on at times. DTS explained OCS function and that his wife's body type is in the grey area where the system would see her as a small adult at times turning in the OCS light. The light did not turn on during my test drive with the tech working with me. We found no DTCs in the system.
Make Public		During my previous inspection DTS replaced the seat frame that included the sensors and the OCS control unit. This items are what classify the passenger. No repair was recommended on this visit. Vehicle is operating comparable to like vehicle. Thank you, Stacy JEFCOAT Dealer Technical Specialist
Make Public		**Created By Jacinta Pederson (8/27/2014 8 41 AM)** Arbs left vmx for SM/Barry advising of the DTS inspection. Arbs requested SM call arbs back to confirm information was received.
Make Public		**Created By Jacinta Pederson (8/27/2014 8 37 AM)** Arbs contacted c ph#[redacted] and provided c's with the inspection date/time/location and DTS/SJ information. C agreed and was appreciative of the information. Arbs emailed SJ/DTS confirming the inspection.
Make Public		**Created By Jacinta Pederson (8/27/2014 8 04 AM)** Arbs received DTS/SJ proposed inspection date of 09/04/14 @ 9:00 am @ Sandy Sansing Nissan.
Make Public		**Created By Jacinta Pederson (8/25/2014 8 15 AM)** Arbs submitted DTS request.

Make Public — **Created By Jacinta Pederson (8/19/2014 3 44 PM)**
Arbs contacted c ph[redacted] and explained the reason for arbs call.
C was appreciative of the call. Arbs requested c explain in further the concern c has with the passenger side airbag light.
C/S since the last repair the light does not come on as often, but c's wife of 130 lbs and c's friend of 250 lbs the light will come on.
Arbs advised arbs would review c's service history.
C/S c loves the vehicle, but c is frustrated with the airbag light.
C/S c's closest Nissan dealership is Sandy Sansing Nissan.
C/S a factory rep did look at the vehicle once when vehicle was at the dealer.
Arbs advised arbs would look into the service history and call c back by Monday or sooner
C understood.

ARBS rec'd email from BBB:

When this claim is opened and processed, we will indicated "denial" on the ATA because we have not, at that point, received information regarding the claim. Once the M has determined what they wish to advise the arbitrator on the ATA, they should advise the case specialist to update. So, it was not incorrect, it was not updated. I have provided a revised ATA to all parties per your request.

Make Private	✓	**Created By Cynthia Forster (8/14/2014 12 47 PM)** SUMMARY: C seeking assistance with passenger air bag sensor. DLRSHP found working as designed and C's wife smaller in size. RCAS informed C of DLRSHP information and offered second opinion and C declined. C informed will not purchase another Nissan.
Make Private	✓	**Created By Cynthia Forster (8/14/2014 12 46 PM)** RCAS-CF assisting RCAS-Marilyn Hoskinson RCAS-CF called C o[redacted]at 12:58pm EST. C confirmed concerns with passenger airbag. C states light will be on when going down road. C states that light will come on intermittently. C states that spoke with DLRSHP 4 times and took to DLRSHP 2 times. C states that if pulls over and restarts VEH then light will go off. RCAS states understood. C states that C's wife is only other person that rides in VEH. C states that C's wife weighs about 140-150. RCAS states understood and informed that owners manual states that if OCS light comes on then passenger needs to shift back to proper position. C states that light comes on intermittently. C states once every 2-3 months. RCAS states understood. RCAS offered for C to take to another DLRSHP to get second opinion. C states that nearest DLRSHPs are an hour to an hour and a half away and concern will not happen at DLRSHP so C will not bother. RCAS states understood. RCAS states that DLRSHP informed VEH is operating as designed and directed C to owners manual for proper seating position. C states will be first and last Nissan VEH and C will trade VEH for another manufacturer so C's wife is safe in front seat no matter how is seated. C states that NNA will not fix VEH so no need to go further in call. RCAS provided C with RCAS contact information and call ended mutually. RCAS closing case as no further actions required.
Make Private	✓	**Created By Glenda McDonald (8/14/2014 10 04 AM) Last Modified By Glenda McDonald (8/14/2014 10 04 AM)** RCAS-GM ASSIST NG RCAS-MH WITH CASE Rcas called Dealer at 11:00 am est at [redacted]& spoke to SA-Sean that states SM is in a meeting rcas asked for update on c's concern SA Sean states - no codes -nothing - no duplication of concern SA believes C feels C has a concern but SA feels this veh is operating at normal specs. SA states C's wife is a smaller person and dealer has provided c with info on the air bag of sitting properly etc. rcas thanked SA for update

Make Private	✓	Created By Marilyn Hoskinson (8/18/2014 12 59 PM) Summery: c had previous case that was taken over by ARBS and this case should have not been sent to RCAS. c states the same concern, and wanted to speak to supervisor and SRD spoke to c and stated that DTS was the highest point that the veh would be inspected. c was upset and disconnected the call. RCAS closing case as there is no further assistance required. ** F C CALLS BACK TO OPEN AN OTHER CASE FOR SAME CONCERN WITH A R BAG IT SHOULD GO TO ARBS**
Make Private	✓	Created By Suzanne Farlow (8/18/2014 11 19 AM) SRD/ES-SF called the customer at requested phone [redacted] 12:05pm est and spoke to the customer. SRD/ES-SF advised that customer has requested supervisor callback and case has been reviewed. SRD/ES-SF asked the customer how SRD/ES-SF can assist the customer at the current time. The customer reiterated all of the complaints in the case file, including the fact that c disagrees with the results of the DTS inspection of the veh that "the veh is performing properly." SRD/ES-SF empathized but advised that having a DTS inspect the vehicle is the highest level of technical expertise that NNA can povide the customers and dlrs, and if the DTS is advising that no repairs are recommended, then there is nothing that NNA CA can do to overturn this determination. C states that for someone to tell the customer that "the veh is performing to specifications" is absurd and a bunch of bull. C reiterated many complaints about the vehicle and NNA customer service relying DTS determinations and the customer being out on safety. SRD/ES-SF apologized that this is not the determination that the customer was seeking. C states that c may go to news or obtain attorney representation. C states that NNA has lost all business from this customer and family and friends and NNA has no care for consumer safety. SRD apologized and c advised that c deoes not believe this. C states that NNA is mooney hungry and just does not want to give the customer their money back. C reiterated many more complaints about NNA not caring. C thanked SRD for calling the customer back but advised that c is not happy that nothing can be done and c will not let this drop. C terminated the call. SRD/ES-SF transferring case back to RCAS for closure.

RCAS called c[redacted] RCAS stated that c had called in with a concern with the veh, c states that the air bag light goes off intermittently. c states that Dan Yee looked at the veh, and stated that DTS was there to look at other veh's with the same concern. RCAS stated that RCAS got the information from the DTS stating the veh is operating as designed. c states that c wants that in writing. RCAS stated that RCAS can not do that, the veh is under warranty and if c is having concerns c needs to take the veh to the dlrshp and have the dlrshp look at the veh. at this time Nissan is not going to put parts on the veh when the veh is operating as designed. c states that Nissan needs to repurchase the veh or fix the veh. RCAS stated that DTS and the dlrshp stated the veh is operating as designed. RCAS stated that RCAS can put the request in for repurchase and can not guarantee that c will get the veh repurchased. c asked if RCAS was going to put in the report that the information that c has spoke to RCAS about. RCAS stated that arbitration looks at all the repairs that were done on the veh and doesn't take RCAS input as to what is wrong with the veh. RCAS stated would follow up with c on 08/20/2014, c states that RCAS will have the decision on 08/20/2014, RCAS stated no will be following up with c as this process can take up to 10 business days. Please be advised that the dealership consumer representative Stephanie D. made a DTS Appointment to meet with the customer without going through the proper channels. The appointment was set at the SAME time as another appointment for another customer. This conflict in scheduling could have caused a potential crisis as I was scheduled to for a 2nd customer today at a DIFFERENT location and did not incorporate time in my schedule to accommodate this 2nd customer at Autocenters.

Potential crisis was somewhat averted – as I had fortunately arrived at the dealership a little earlier than my confirmed appointment time and met with the unscheduled customer.

Findings:
• 2013 Altima – OCS/PABI incident;
• Reviewed system operating parameters with customer;
o System has never indicated a malfunction as based on the RED Air Bag Warning Light;
o Concern is Occupant Classification;
o Based on history, customer description, occupant information, incident appears to be normal operating characteristics;
No repairs are recommended;

Customer was thankful we made the time to meet with him, however:
• Unhappy that the appointment he confirmed with Stephanie was not confirmed with NNA or DTS;
• Unsatisfied with the operating characteristics this this vehicle's OCS/PABI;
• Customer acknowledged DTS description of system operation but disagrees with operating parameter and may take this issue further;

EDET – Met briefly with EM Craig Schmitz and reviewed inspection results of 2 OCS customers .

Please log this inspection ..

Please let me know if you have any questions thanx dy.

Mandy, I know the whole scoop as I just got off the phone with them. I did advise that if they refuse to pick up the V the dealer could charge them storage so I believe they are going to have their son pick it up (C is out of town right now till Sunday), however she made it very clear they would not be satisfied and has no faith in the dealer or the repairs that were made. ARBS emailed BBB:

Rhonda,

We received the MVDN, and we have completed what I would call the final repair, as the DTS was the last tech to look at the vehicle. We received the MVDN after this inspection, but I am allowing it.

Unfortunately, the Gircsis family has refused to pick the vehicle up and has advised me that they will never pick the vehicle up. If this is the case, we cannot confirm that the final repair, which has been the only repair, by the way, has resolved their concerns.

Thanks,

ARBS called c @ [redacted] to find out if c is still having concerns with airbag light. Spoke to c. C states they have filed with lemon law. C states they have not and will not pick up their vehicle. NNA has violated lemon law in many ways and we have kept the vehicle for over 30 days so we will buy the vehicle back and they have filed with the state and with the BBB.
ARBS confirmed that the c has refused to pick the vehicle up. C confirmed and ranted again about violations of lemon law.
ARBS apologized and stated that unfortunately, NNA has not advised the c not to pick the vehicle up. If the c has refused to pick the repaired vehicle up, this does not make NNA in violation of state guidelines.
C states we'll see. We'll see you in court.
C ranted about repairs and became more argumentative. ARBS apologized and advised that ARBS has not called to argue with the c about repairs to the vehicle but to find out if the c has picked up the vehicle since the final repair.
C ranted again about how c will never pick the vehicle up. C states he has turned it in and will get his money back for lemon law.
ARBS thanked the c for the information and advised that ARBS would provide this information to the BBB.
The c disconnected.

ARBS rec'd email from DTS advising ARBS would need to contact

ARBS called DTS:
Dlr called him about looking at it
Open techline file
Explain to the consumer the operation
Dlr contacted him, filled out the form.
DTS inspected the operation, nothing really wrong with opp of the OCS system.
Code stored in the B00A-00 which is an improper voltage code.
Based on new TSB with that code, replaced OCS sensor, controller, and diag unit for the code only.
Spoke to Cameron (SM) about it. Based on code not on opp of vehicle.
Advised the DTS that veh was fixed yesterday.
DTS stated he has confirmed that Cameron must properly document when the c refused to pick it up.

DTS discussed hearing process and BBB process with DTS.

Advised DTS that ARBS has advised the BBB of no MVDN and that the c has been advised to proceed with the BBB.
DTS thanked.

Make Public		**Created By Joseph Shively (9/17/2014 1 27 PM)** C placed inbound call to RCAS-JS from[redacted] ********** C stated C had been disconnected. C demanded RCAS-JS contact DLR and inform DLR that C is to receive loaner VEH brought to C at no charge and VEH repaired. C stated VEH constitutes major safety concern. C stated this is Nissan's problem and Nissan will fix it. RCAS-JS stated RCAS-JS can contact closest DLR, however RCAS-JS cannot assure that C will receive what C has requested. C demanded it be done repeatedly. C terminated call. **********
Make Public		**Created By Joseph Shively (9/17/2014 1 11 PM)** RCAS-JS now closing case; no further action to be taken. RCAS-JS has worked with DLR to ensure VEH concerns are addressed. RCAS-JS has submitted RHR for evaluation and given results to C. C has terminated two calls in a row on RCAS-JS now when discussing potential ways to advance case. **********
Make Public		**Created By Joseph Shively (9/17/2014 1 09 PM)** RCAS-JS placed outbound call to C at [redacted]. ********** RCAS-JS stated RCAS-JS had spoken with DLR to consider further avenues. RCAS-JS stated DLR was not in position to provide further assistance, as DLR had thoroughly diagnosed VEH and did not believe VEH to be malfunctioning given that concern is primarily revolving around C's daughter who is right on the weight boundary. C stated C had been in passenger side and had concern reappear and had taken photograph. RCAS-JS asked if light had gone off after VEH began driving. C stated yes. RCAS-JS stated that system does reclassify periodically when VEH is running and has come to a stop. C then terminated call. **********

RCAS-JS stated NNA had reviewed C's case and that NNA is not in a position to repurchase or replace C's VEH as it has not been subjeted to an unreasonable number of repair attempts for warrantable concerns.
C stated C could not believe NNA was not standing behind it's product.
C asked what C's options were, if C should contact an attorney or the media.
RCAS-JS stated C was within her rights to pursue either, however RCAS-JS could not advise C on legal matters.
C stated RCAS-JS needs to go to the team that makes these decisions or place C on the phone with a member.
RCAS-JS stated this is NNA's decision and RCAS-JS is C's point of contact from NNA.
C stated C wanted to know what RCAS-JS could do.
RCAS-JS stated RCAS-JS could assist C with contacting DLR and making arrangements.
C stated C demanded to have RCAS-JS call C back by COB tomorrow with plan on how DLR will pick VEH up from C's house and address C's concerns.
RCAS-JS began to state that RCAS-JS would need to contact DLR and that RCAS-JS would be back in contact by COB Tuesday when C terminated call.

Based upon the consideration of the ROs provided, NNA is not in position to offer a repurchase/replacement of this vehicle. The vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties.
ARBS recommends that RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.

crr-gmy received a call from C. C stated that C have had the airbag campaign performed on veh. c stated that c thought that the issue was resolved until today when the airbag light went off again. c stated that c went back to the dlr and c was informed that if the person will juts adjust on the seat slightly the airbag light will turn off and may not deploy.
c stated that what the dlr told c is something laughable.
crr-gmy checked for related case/s: NONE
crr-gmy checked for open campaign/s: NONE
crr-gmy verified and updated C 's contact information and provided case number to c to refer incase of disconnection, c acknowledged.
crr-gmy informed c that as per checking c's VIN, c's veh is not part of the OCS Campaign.
crr-gmy asked c, how can NNA assist c.
c stated c wanted airbag fixed, since as per c, it is a safety issue.

crr-gmy verified if the veh was diagnosed, c said yes and provided the following information:
NAME OF DEALER: W NDSOR NISSAN BY THE MAGUIRE AUTOMOTIVE
DATE OF DIAGNOSIS: 08/15/14
DIAGNOSIS OF THE VEH: Nothing is wrong with the airbag
SERVICE ADVISOR: SA-GERRY and SM-TONY KATAWICK

crr-gmy informed C that C's concern will be documented on case and will be forwarded to the Regional Office for review and a Regional Specialist will contact C before the end of the next business day, C acknowledged.
crr-gmy asked for the best number to reach C, C provided 6092733434.
crr-gmy provided recap, c acknowledged.
crr-gmy offered further assistance, C declined.
crr-gmy gave name, extension and case number.

Make Public		**Created By Jacinta Pederson (9/18/2014 8 13 AM)** Arbs attached DTS inspection summary to case.
Make Public		**Created By Jacinta Pederson (9/18/2014 8 10 AM)** Arbs received letter from Bryanna/Exec TL that was addressed to Mr. Frigo from John Darlings/ODM of Darling Nissan.
Make Public		**Created By Jacinta Pederson (9/15/2014 7 58 AM)** On 9/12/14 at 8 00am DTS PM inspected a 2014 Nisan Pathfinder (5N1AR2MM6EC[redacted] with 12,876 miles on it at Darlings Nissan DLR #2089. The owne[redacted] were present at the time of the inspection. During an interview with [redacted] they explained the following complaint; • Intermittently on initial startup with a full sized adult sitting in the front passenger seat the Passenger Air Bag Off Indicator will illuminate when the vehicle is started and will not go out during the driving cycle. The incident has occurred with different adults sitting in the seat. • Teresa Bragg stated the same condition occurred while using a loaner pathfinder.
Make Public		**Created By Jacinta Pederson (9/15/2014 7 57 AM)** The results of an inspection and road test revealed; • Teresa Bragg refused to ride in the vehicle stating it was not safe so I convinced her to ride around the parking lot. During a road test around the parking lot with John Bragg driving and Teresa Bragg riding in the front passenger seat we were unable to verify the customer complaint. • During a 9 mile road test with the technician driving and me riding in the front passenger seat we were unable to verify the customer complaint. The dealer had been driving the vehicle for over 900 miles and were unable to verify the customer complaint. • Passenger airbag switching status was monitored and compared to a KGV. Incident vehicle switching times were longer when compared to a KGV with the vehicle engine off and engine running. • An inspection of the front passenger seat and surrounding area revealed the wire harness for the OCS sensors and control unit was incorrectly routed causing additional strain on the connector to the forward strain gauge. • A Consult III Plus scan revealed: • Air Bag: B00A0-00, OCCUPANT SENS. [ABNORMAL VOLTAGE], PAST. • No applicable bulletins or campaigns. • No after manufacture accessories or modifications found. • Visual safety inspection results: Passed. Work performed during inspection; • The front passenger seat was removed and the wire harness for the OCS sensors and control unit were routed correctly as compared to a KGV. • The passenger seat rails to floor mounts were neutralized and torqued per the service manual, the passenger seat frame to seat rail mounts were neutralized and torqued per the service manual. • A Zero Point Reset was performed and all codes were erased. • Passenger airbag switching status was monitored again and compared to a KGV. Incident vehicle switching times were now the same as a KGV with engine off and engine running. • Provided customer with pages 5 to 8 of NTB14-084 describing ODS system operation, also provided pages 1-60 to 1-65 of the Pathfinder owner's manual pertaining to ODS operation. Conclusion; • I was unable to verify customer complaint. • No one has been able to verify the customer complaint, the dealer had driven the vehicle for over 900 miles and did not verify the customer complaint. • The customer stated that the same condition occurred when using a loaner pathfinder. • I explained to [redacted] that under certain conditions it is normal for the PABI light to illuminate and provided the customer with documents explaining the use and operation of the ODS system. • Wire harness routing and seat torque may have caused intermittent inaccurate OCS sensing resulting in the PABI light remaining illuminated on vehicle start up with a full size adult passenger sitting in the front seat. • I routed the passenger seat OCS wire harness correctly, re torqued the seat mounting, performed zero point reset and the monitored sensor switching times changed to match that of a

KGV.
• I contacted [redacted] and informed them of my findings and repair. I told them I requested the dealer road test the vehicle over the week end to confirm there was no unintended PABI light operation.
• I informed John and Teresa that if the dealer reported there were no unintended PABI light operation tha

Arbs received DTS/PM

DTS can inspect this vehicle on 9/12/14 at 8 00am. Please advise the customer it is mandatory they meet with me for a short interview at that time and they need to allow time for a road test as well.

Make Public

Inform the customer he may need to leave the vehicle with me for the remainder of the day and that Nissan will provide transportation if needed.
Also please contact the dealer and inform the Service Manager of the appointment and request they schedule time with technician Joel to work with me as needed and make sure they have a vehicle available for the customer as well.
The dealer and I will need confirmation of this appointment ASAP.
Thank you,

RCAS-RG called c on cell at [redacted]
RCAS-RG asked c to clarify c's concerns

C said that c bought the veh brand new, and at only 12,000 miles the service engine light came on
C said that c had to get fuel injector and fuel rail repaired
C said 2 weeks later the light came on again
C said a fuel engineer looked at the veh and reprogrammed computer
C said now, the engine light is back on and c has not taken veh back to dlr yet
C said this is ridiculous and should not be happening and does not want veh anymore
C said c is thinking about cleaning veh out and leaving it at the dlr

RCAS-RG apologized to c for the probs c has been experiencing with veh and informed c that RCAS-RG will get the info to start the repurchase request
RCAS-RG informed c that once RCAS receives paperwork, it may take a few days to process, once it is processed it can take up to 10 days to review and receive decision for repurchase

C understood and thanked RCAS
RCAS-RG informed c that RCAS-RG will call c back in 3 buis days to follow up with c

Jason at DLR returned RC's call. Stated will send over both invoices and bill of sale shortly.

Make Public — **Created By Amanda Simcox (9/4/2014 1 58 PM)**
RC left VM for Jason @ DLR regarding replacement vehicle. RC requested docs.

Make Public — **Created By Amanda Simcox (9/4/2014 1 45 PM)**
RC returned C's call.

C would like to proceed with replacement. C's main concern is that C's current vehicle came standard with power seats and the new Altima's do not. C does not want to be responsible for the upgrade charge to have the power seats in the replacement vehicle. RC advised that RC would inquire about waiving this upgrade charge as the seats were in the original vehicle.

C stated that C has found a similar vehicle at the dealership. The vehicle has the power seats and carpeted floor mats that are in C's current vehicle and also and audio package and splash guards. C stated C is willing to pay the upgrade charge for the audio package but does not want the splash guards. C stated that the dealership automatically orders splash guards on all new vehicles but C does not want to pay the upgrade charge for these as C is unable to find a vehicle without them.

C is working with Jason, sales manager, at the DLR. RC will reach out to Jason and request documents on replacement vehicle.

C provided full account number for loan payoff. #140003908.

Call ended mutually.

RC inquired about payment history from NMAC.

Make Public — **Created By Amanda Simcox (9/3/2014 10 23 AM)**
RC called C regarding case.

RC explained 3 options to C. C stated that C does not want settlement as C feels the vehicle is unsafe.

C stated that C has spoken to an attorney regarding CA LL and C was informed that C should not be charged any usage for the vehicle as the airbag light was an issue known to Nissan. RC advised C that Nissan is following CA LL which states C is responsible for mileage up to first occurance. C stated that if usage is to be charged, C will obtain an attorney.

RC explained C's 3 options and asked C to send in registration, purchase contract, and 10 day payoff from C's lender. C was briefly financed through NMAC. RC will inquire of NMAC for that portion of the payment history.

Call ended mutually.

Re: 2013 Nissan Altima / VIN 1N4AL3AP5DN[redacted]

Dear [redacted]

We sincerely appreciate you taking the time to contact Nissan regarding your situation. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

Nissan carefully considered your request during a review of all available facts pertaining to your situation. Based on the vehicle repair history, Nissan offers to voluntarily repurchase or replace this vehicle.

In order to coordinate the repurchase of your vehicle, Nissan needs to know the particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me as soon as possible, as they will be needed to make a detailed offer:

- A legible copy of the vehicle's current registration or title(if in your possession)
- A copy of the purchase contract for the vehicle
- A payoff confirmation statement from your lienholder(10 day payoff referencing account number, collateral, amount of interest you pay per day, and overnight payoff address)
- A payment history from your lien holder

Please return the requested information to me via fax: (615) 967-2244 or scan and email. We anticipate completing the repurchase within 2 to 4 weeks from the time of your acceptance. Please note: supplying the requested documents does not indicate your acceptance of the offer; you will have a chance to review the fully detailed offer before making a decision.

If you decide you do not want the repurchase that you requested, Nissan would be willing provide you with a settlement for $4,000.00 instead of the repurchase or replacement. This means that you will retain ownership of the vehicle. In exchange for this check, you will sign a Confidential Settlement Agreement and Release of Nissan North America, Inc., all Nissan entities, dealers and suppliers, though all warranties will remain in effect.

If you have any questions you are welcome to call me at ([redacted] though email is preferred at amanda.simcox@nissan-usa.com. I am generally in the office 8 a.m. – 5 p m. EST Monday-Friday.

Sincerely,

Amanda Simcox

[redacted] strongly contemplating the replacement option.
However, she does not want any upgrades, as she does not want to pay anything at transfer or have her loan changed.
Can this be ensured this?
Will she be given any choice in selection of the replacement vehicle?
She would prefer to have a replacement with the charcoal interior she now has and blue exterior paint.
How will the replacement option effect her current warranty?
Please let me know.

_
ARBS emailed the following reply:

Ms. Conn,
If we find a vehicle that is comparable to her current vehicle, then there would not be an upgrade.
She will have a choice in the replacement vehicle, we generally try to take preferences, such as interior/exterior colors into account when selecting a replacement. However we are limited to the dealers inventory and can't guarantee that a particular color choice will be available.
The warrant starts over again like a new vehicle purchase, same for any service contracts or maintenance agreements on the current vehicle.
I hope this helps to answer any questions you might have.
Thank you.

ARBS received reply that C has an attorney, and C copied C's attorney on the email. ARBS notes no letter of representation received.

ARBS emailed C's ATTY and C the following:

Ms. Conn,
I have enclosed our formal offer for repurchase.
In a replacement situation we have two options we can explore, these options are:

1. Substitution of Collateral: What this means is that we would locate a comparable vehicle and exchange the new vehicle for the current vehicle without impacting the lien. A comparable vehicle is a similarly equipped 2014 Nissan Sentra, or a different model with a similar MSRP. Without impacting the lien means all information regarding the lien remains the same, such as monthly payments, interest rate, remaining payments, etc. If the vehicle selected has additional options or trim levels, or the MSRP of the selected vehicle is higher than the current vehicle, that would be considered an upgrade. Any upgrade would be due at the time of surrender.

2. New Loan Replacement: This process is the same as above with the following exceptions. The existing payoff of the lien is the starting amount of the new lien on the vehicle. This result in a change of monthly payments or the lien duration. Upgrades could be rolled into the new loan on the replacement vehicle.

If Ms [redacted] wishes to accept the repurchase offer, please sign and return all 6 pages of the attached document. If [redacted] wishes to pursue a replacement vehicle. Please let me know which option works the best for your client and we can begin locating a vehicle. If you have any questions or concerns, please let me know.
Thank you.

ARBS in review of the docs notes C lists an attorney on page 2 of C's letter. ARBS emailed the following to C:

Ms. [redacted]
Are you being represented by an Attorney? I read the letter you sent us and I'm curious about it because if you are we would have to work directly with them to present the repurchase offer. If you are, please have your attorney submit a letter of representation.
Of course, if you have retained an attorney we can proceed as usual. Please let me know as I received the information from Nissan Motor Acceptance and would like to know how to proceed. My apologies that this was not addressed sooner.
Thank you.

ARBS called C on [redacted] and ARBS spoke with C and C states the rattling in the dash is still present and C is too young to get a loaner vehicle so when C takes the vehicle in, C is without a vehicle. ARBS understood. ARBS asked C about the location of the rattle. C stated it's coming from the area near the fuel gauge. ARBS understood. ARBS asked C about the steering column leak concern. C stated that concern has been resolved, however it did take about 21 days for the dealer to repair it. ARBS understood. ARBS advised C that ARBS has been in review of the repair history on the vehicle and would like to offer repurchase or replacement of the vehicle. ARBS advised C that ARBS could email C to provide a list of the items ARBS needs in order to calculate the repurchase or replacement of the vehicle. C agreed. C provided email: hchmura7@aol com. ARBS understood. Ended call.

_
ARBS emailed the following to C:

Ms[redacted]
Per our conversation, Nissan is voluntarily offering to repurchase or replace the vehicle.
Repurchase is a refund calculated in accordance with NJ state guidelines. Replacement would be a similarly equipped vehicle with you being responsible for any upgrades. Upgrades would options, packages, or trim levels not included with your current vehicle.
In order to provide figures needed for the repurchase or replacement of the vehicle, we need the following information faxed or emailed to me from the vehicle's lien holder on the lien holder's letter head:

- Overnight Address
- 30 Day Lien Payoff
- Per Diem interest rate
- Finance Charges paid to date
- Point of Contact (POC) at the lien holder
- Name, phone, and fax or email for the POC

In addition, please send a copy of the sales agreement for the vehicle and the current registration as it necessary to proceed.
If you decide that you no longer interested in the repurchase or replacement of the vehicle, we are willing to offer $3,400 00 as cash settlement for the inconvenience you have experienced. This settlement would require a signed and notarized agreement releasing Nissan from any actions or claims related to the previous repairs of the vehicle. This would not affect any future claims or actions. In any option presented, Nissan will continue to honor the terms and conditions of any applicable warranties.
Thank you.

ARBS-CA notes dealership is currently making repairs to the vehicle

I met with Ms. [redacted] today as planned. She was mostly concerned about; 1) noises she hears while driving over bumps, 2) The passenger airbag indicator light that illuminates when occupied by an adult, and 3) a vibration that can be felt in the steering wheel at idle.

I road tested with both the husband and the wife for about 45 minutes, driving on various road surfaces in attempt to duplicate any of the noises. During the road test we were only able to duplicate one noise from the rear. Which was found to be from the rods that aid in closing the trunk. The two rods have a plastic spacer that separates the 2 and was not clipped in place.

The noise in the front was never able to be duplicated by the customer on the road test.

The vibration in the steering wheel was able to be duplicated. However it was explained to the customers that the concern they are feeling is a characteristic of the vehicle.

The 3rd and last complaint was one of their biggest and the main reason why the feel unsafe driving the vehicle. The OCS PABI light. The light never came on during the test drive however Ms. Jordan had pictures of the light being on with her in the seat. The husband also advised the light had once illuminated while he was occupying the seat.

Neither customer falls into the 5th percentile, (small adult), population. Unfortunately the customer was under the impression that all of the OCS system components had been replaced due to the verbiage on past work orders. In review of the work orders in the parts department, it was found that the OCS control unit and seat frame assembly complete with OCS sensors were not replaced even though the work order stated so. It turned out the seat frame and OCS control unit were on back order and just the seat sensors were replaced. I am having the dealer replace the seat frame complete with sensors and the OCS control unit.

rcas called C at 3 50 pm est at 2[redacted]& reached recording stating no routes found.

rcas called c at 3 51 pm est at [redacted] & spoke to C to advise rcas was assisting rcas-SO with case

C/S C is frustrated as C wants to give up
c don't want no problems in c's life & wants to give up on veh
C will put in Lords hands
C had to take back for brakes and trim scratched the veh up and now the tranny concern
C has taken in 3 - 4 times for repairs since purchased the veh
what happens when warranty runs out
anything NNA can do for the C?
support in trunk broke and dealer couldn't get c in so c repaired c's self
it rattled so bad c HAD to fix as it was loud and needed fixed immediately
C has not had veh to dealers to have dealers look at this yet but C wants this noted
c paying $32,00 for the car
is there anything NNA can do for the C
C will pay the car off but can c get $5,000 off

c was broke down 2 hours with this veh and then C had to pay $100 out of c's pocket for the tow
C then got the loaner veh USING C'S C.CARD for $50 deposit that C will get back but why is C being penalized when this is NNA veh and NNA concern

rcas advised C that NNA does not offer loaners and these are offered by NNA dealers IF dealer has available and that VSC's can cover these costs of towing and rental

c/s c has some kind of VSC that c pays $50 extra a month for some coverage for detailing and wheels etc. paint - seats etc.
Zap tech something -

(rcas checked system and c only has Maint plan)
rcas advised C that Main plan is the only coverage on the veh and C must ask the dealer as C may have a dealer or aftermarket warranty from dealer

c/s no one ever told c that NNA did not cover the towing or rental and C would have gladly paid for coverage at time of sale to make sure this was covered

rcas advised c to speak to dealer about the coverage c has with dealer and if this is not the coverage the c wanted then c may cancel it with the dealer

C complaint about c sales concern as c feels c paid too much for the veh as C's sister got same veh for less money with more features in the veh like leather etc.

c/s if trophy Nissan was the only dealer in TX - C would not recommend Nissan to anyone
c not happy with this dealer & states this was a horrible time with dealer ship
rcas was very sorry for the c's concern with purchase experience and veh concerns now

C/S C PRIDE IS HURT AS C PAID TOO MUCH FOR THE VEH AND NOW VEH BREAK NG DOWN
rcas apologized for c's poor experience

Rcas advised C that NNA goal is to repair the veh and make c satisfied with the veh and rcas will do all rcas can do to help the dealer with repairs &
if C HAS ANY OUT OF POCKET EXPENSES THAT AFTER REPA RS C MAY SEND TO RCAS AND RCAS WILL REV EW FOR POSS BLE REIMBURSEMENT
C thanked rcas

c states rcas is great employee for Nissan and hopes rcas boss is listening
c/s the dealer was not listening and only saying Uh Huh while C was talking - making c feel dumb
this is why c called NNA c. affairs

Rcas advised C that rcas can make case a dealer complaint after repairs are complete
C/S c is a horoscope sign Cancer and has big heart and lets people walk all over the C
but c wont let anyone do this anymore

rcas advised c that rcas will call dealer Friday 8/22/14 with update then call the C
C thanked rcas for calling and being so sincere with the c as dealer was so rude

Make Private ✓ crr-dm received a call from c who was calling about a veh concern. c stated that ever since c had this veh, its been at the dlr for about 4-5 times for the past year. c stated that at first, c was pressured to buy the veh. c is not happy about this veh and how the dlr dealt with c. Then the veh had an issue with the Alternator, the Brakes, Door Scratches and now, the veh is at the dlr again for a TRANS to be replaced. the dlr gave c a loaner. the veh broke down last night and c was stranded for 2hrs. c had to pay $100 towing service to take it to the dlr. c stated that c wanted nna to take this veh back. c feels that the veh is a lemon. C stated that c do not want to pay for this veh anymore and c wanted nna to take this veh back.
crr-dm stated that the case needs to escalated to rcas for review. then c will get a call from rcas within the next business day to discuss c's concern.
CRR-DM asked for the best # to reach c and c stated it should be [redacted]
crr-dm offered further assistance, c declined.
crr-dm provided case #, crr's name and ext #.
crr-dm leaving case open and forwarding case to rcas because c wanted nna to take the veh back.

Make Public		***CLOS NG CASE TEMPLATE*** RCAS-RH is closing case as no further assistance can be offered at this time. ********* CASE SUMMARY********** C contacted NNA CA requesting assistance with air bag light. RCAS-RH spoke with SM who said operating as intended RCAS-RH reiterated this with C C understood case closed.
Make Public		Created By Ryon Hays (8/21/2014 4 06 PM) RCAS-RH called C at [redacted] RCAS-RH explained in detail the functions of the airbag system. RCAS-RH politely inquired if C weighed around 130LBS C said yes. RCAS-RH explained to C that is the around the threshold limit for the airbag system and she would have issues with the light coming on and off as she moved and repositioned C's self in the vehicle. RCAS-RH asked C to have husband 200lbs to sit in passenger seat for a while and let C drive, to see if the light ever came on with C's husband 200lbs. RCAS-RH told C if the light comes on with C's husband to call RCAS back and reopen case to get system fixed, otherwise system was operating as intended and was for the benefit of C to prevent further/unnecessary injury in an accident. C understood and said would call back if anything changed. call ended mutually.
Make Public		Created By Ryon Hays (8/21/2014 3 45 PM) RCAS-RH spoke with C about issue. C states air bad intermittently turns light on or off with same passenger in seat during same trip. C states that SM fixed issue but started happening again after a time. C states has been in multiple time for air bag repair. C is frustrated and says air bag is a safety issue and does not feel safe in vehicle if air bag issue cannot be resolved. RCAS-RH told c could not reach SM yet but would get back with C to update C when RCAS had more info. C understood. call ended mutually.

Make Public		**Created By Diana Maniquis (8/21/2014 6 17 PM)** crr-dm called c at [redacted] (7:09 pm EST) regarding the techical inquiry. crr spoke to c about c's request for technical help. crr stated that crr got all the measurement for the body frame for the veh but crr asked which part of the veh's frame c was asking about. c stated that c needs a copy of the diagram which explains and gives the actual measurements for the frame. CRR stated that CRR is not allowed to send c a copy of the diagram since the info is confidencial, c understood and stated that c will ask the dlr if the dlr can show c a copy of that diagram for the body frame for the veh, crr understood and apologized for not being of much help, c understood. crr-dm leaving case.
Make Public		**Created By Vicky Anderson (8/20/2014 3 51 PM)** IIR and technical inquiry
Make Public		**Created By Diana Maniquis (8/20/2014 11 54 AM)** crr-dm received a call from c who was calling about a technical inquiry and an IIR. c stated that back in June 4, 2014, c was hit from behind by another veh while on traffic. c was injured and the veh was taken to THE BODYSHOP since the insurance company said that this veh can be fixed for $10,000. c was calling to ask for the measurements for the body frame for this veh since it is needed by the bodyshop. C stated that c doesn't feel same on this veh anymore since none of the airbag deployed at the time of the accident. c stated that c is aware that the passenger side airbag was recalled but the front left didn't deployed. CRR stated that this needs to be forwarded to a higher dept and c will get a callback within 2 business days, c understood. crr-dm offered further assistance, c stated that c also needed the measurement for the body frame for this veh. crr-dm provided case #, crr's name and ext #. crr-dm leaving case open.

crr-ka spoke with c.
crr-ka verified c's account information, but c refused to provide email address.

c said that the passenger airbag was part of campaign before and dealership performed the campagn.
c said that it wasnt fixed because the passenger airbag light came on again, so c went back to dealership and had the sensor reprogrammed.
c is currently not having any issues with it, but c was informed by dealership that nna will not put in a new sensor in case it goes bad again.
c is upset about that and c would like to make sure that nna will take care of this issue in case this happens again.

crr-ka offered further assistance, c declined.
crr-ka provided recap, case#, voc, name and ext#. call ended.

		Created By Charles Adcock (10/23/2014 7:31 PM) Case Summary: C/S that C has an airbag light, fuel cap, and a clunk noise coming from the veh. RCAS-VW set up DTS appointment. DTS notes the following: 1. OCS light illuminates with passenger wife occupying seat at times – found no codes in any system and performed functional and visual inspection, no abnormalities found – found a foam seat/console gap filler that was loading the seat outward that was recommended to remove for future use 2. Check engine and loose gas cap warning – found code p0456 small evap leak – performed leak check with smoke machine and found canister seam is leaking – also found a lot of dust debris in hose and vent valve – directed dealer to replace canister, vent valve, sensor, hose, and filter for evap with new 3. Clunk noise when going over bumps – noise heard was very slight but was heard and demonstrated by customer – found PDM unit not secured to housing box due to missing lock tabs – directed dealer to order new IPDM housing box and recheck for noise
Make Public		C/S that C still has the air bag light coming on. RCAS-VW consulted with DTS. DTS noted: DTS advised RCAS the OCS sensors were already replaced before DTS inspection DTS advised RCAS replacing the parts will not resolve the system performing its check of what is occupying the seat DTS advised RCAS that there is no red airbag light on which means no codes are setting and no abnormalities were found at time of inspection DTS advised RCAS since c's wife was not present for inspection like DTS previously asked and c was unable to demonstrate the OCS complaint and no codes exist there are no repairs that can be made C/S that C knows C's concern is still present. C requested to speak to RCAS-VW boss. RCAS-VW escalated C's case. TL-AA contacted DTS-TT to gather more information. TL-AA contacted C at [redacted] TL-AA left VXM. TL-AA forwarded C an email. RCAS-CA closing case per TL-AA's instructions.

RCAS-MP called c at [redacted] reached c.

Make Public
RCAS apologized for the delayed response to c, as RCAS was out of the office.
RCAS advised that per c's email, c is having concerns with both the air bag light and the check engine light?
C stated that was correct.
C stated that for the airbag light, when c's wife is sitting in the seat, the light will come on sometimes, not recognizing that a person is sitting there.
C stated that c brought the veh to the dlr, where some updates were made, but the light was still coming on.
C stated that c then got the recall letter, and brought veh back, but the light is still coming on after that.

C stated for the check engine light - it will come one when the fuel gets to a certain level.
C states that when the tank gets to about 3/4 full, the loose fuel cap light will come on, and then stay on.
C states that when the veh then gets to approx 1/2 full, the check engine light will then come on.
C states that the check engine light will stay on until the take is refilled, and the engine is shut off and turned back on again.
C states that this has happened on every fill up.

C states that c has called the dlr, and spoke with SM-John.
SM states that SM has advised c that veh will need to be brought back in for further diag testing, and c has requested a loaner veh.
C stated that SM told c that SM would call c when a loaner was available, but it has been about a week and a half and has not heard anything back yet.
RCAS thanked c for the info.
RCAS advised that RCAS will work with SM to ensure that a loaner is available for c, and will arrange a date for c to bring veh in.
RCAS advised that RCAS will also ensure that NNA tech support is involved, to ensure that all veh concerns are addressed.
C thanked RCAS.
C stated that c is also having a concern with the rearview mirrors - the mirrors are no longer pointing down when veh is put into reverse as they were previously.
RCAS advised that RCAS will ensure that the dlr is aware of this concern as well, so that it can also be reviewed.
C thanked RCAS for the assistance.
RCAS advised that RCAS will follow up with c tomorrow with any updates.
RCAS exchanged mutual wishes for a good day with c, and ended the call.

Make Public		**Created By Angie McVey (9/22/2014 3 42 PM)** Given the findings a no offer was sent to the customer's attorney via email as follows: Mr. Patrick: This office is in receipt of your letter regarding the above referenced Nissan customer. I have taken the time to review the complaint and the service history on the vehicle. Based on the information available the vehicle is approximately 2 years old, and has over 28,000 miles. There were no more than two visits found for any one complaint. It appears all concern have been resolved as evidenced by the fact the vehicle has not returned with further complaint since June. An automobile is made up of thousands of various components and parts which are made by man, and assembled by man. Our wish is that there is never a failure however there is no guarantee given, but our word in the form of the warranty to assure that if it does we will cover the repair. While this is not the experience we would desire for our customer, Nissan has never failed to comply with the warranty that was given. Given this information Nissan would not be able to provide the resolution being sought. Thank you for allowing Nissan to review this matter _____ Angie MCVEY

DRTS in receipt of attorney letter from Patrick Law Firm, signed by Craig Patrick, dated 8/14/14, received via certified mail (tracking #[redacted]) on 8/20/14. This letter is attached to the case for your review.

My firm has been retained to represent [redacted] with respect to a claim that he has against you. Please direct all communications concerning this matter to me. The vehicle has experienced defects with the check engine light, low power, transmission, and shaking. t is my contention that Nissan failed to tended the vehicle free of defects and its failure to repair the defective vehicle constitutes a breach of written and implied warranties covering the vehicle and is a violation of the MMWA. In addition to the protection federal law affords them, my client contends that Nissan also violated the Texas Deceptive Trade Practices Act. Based on the foregoing, my client will accept $10,000.00 in full and final satisfaction of his claim. My client has also incurred reasonable and necessary attorney's fees in the pursuit of this claim stated in this letter. The amount of fees incurred as of the date of this letter is $3,500.00, paid in addition to any repurchase or cash settlement, for a total of $13,500. If you are interested in resolving this matter without the necessity of litigation, please contact me with sufficient time to resolve the dispute within 60 days of your receipt of this letter.

Make Public		Created By Luis Rodriguez (10/17/2014 4 20 PM) ARBS reviewed c's request with ARBS-Rob and ARBS-Adrienne who stated that yes, the customer's request can be honored. --- ARBS sent the following email to the customer: I have reviewed your reimbursement request for the nonrefundable portion of the service contract and I'm pleased to inform you that yes, this will be possible. In order to do so, we will need proof that the service contract is cancelled, showing the amount not refunded out of the $1,432.00 that you paid for the service contract. Once this document is provided, I will send you an updated Repurchase Agreement Offer letter.
Make Public		Created By Luis Rodriguez (10/17/2014 4 19 PM) ARBS received inbound call from c stating the Nissan dealership was contacted to cancel the service contract. C stated the dealership will not refund the full amount of the contract and c was reading the SD Lemon Law Summary (12.1) where it states the customer is entitled to any "... nonrefundable portions of extended warranties and service contracts". ARBS stated the request will be reviewed and will contact the customer back with an answer. C asked to please reply by email since customer won't be available to talk on the phone. Call ended mutually.

ARBS emailed updated Repurchase Offer Letter to the customer.

Created By Luis Rodriguez (10/17/2014 10 12 AM)
ARBS received inbound call from customer.

Customer confirmed the email was received and had two questions. First wanted to know why the Service Contract was not being reimbursed. ARBS explained it is not a Nissan Service Contract so customer will have contact the actual company that provides the service or contact the Nissan dealership to get the refund. C understood.

Customer also wanted to know how the ARBS came up with the usage fee. ARBS explained is stipulated by the Lemon Law Guidelines as followed:

Make Public

Mileage the vehicle had at the time the customer visited the dealership for the concern (273 miles) / 100,000 miles * purchase price of the vehicle. Customer understood.

Customer asked if customer should sign the document and fax it back to the ARBS agent. ARBS asked if the customer's wife is also on the title and customer stated yes. ARBS stated the ARBS agent will update the last page to show both names and will email it back to the customer.

ARBS asked c to sign letter and also fax/email copy of the title.

C thanked ARBS and the call ended mutually.

DRTS rec'd Attorney General Letter, via US Mail, from Ray Klinger, dated October 8, 2014, rec'd October 14, 2014. Letter is attached for your review.

C complaint: In March 2014 the passenger air bag light (alarm) came on, alarm went off again & took it to the dealer in April, this has happened numerous times, on August 24th the light came on & I drove 8 miles with no passenger air bag alarm on, I took the car to the dealer & an error diagnosing the seat sensors were bad although earlier the tests showed that the sensors were working as designed.

Please contact us within 20 days in WRITING regarding your position or proposed resolution of this matter.

Why do you want to return the vehicle to Nissan North America?
*** Because of the ongoing concerns with the airbag light, the onboard screen quit, no backup camera. Have had 6 times

Where is the vehicle currently?
*** In c's garbage

Was it purchased new or used?
*** new

If used, when was the vehicle purchased?

Where is the vehicle serviced?
*** Harr motors

Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers?

RCAS called C @[redacted]@11:58am(EST).
RCAS spoke with C.
RCAS advised C that NNA would be able to repurchase C's veh. C stated that C would not be keeping the veh and would advertise the veh as a lemon.

RCAS offered C a $250 service credit and explained to C the following:
A service credit can be issued at the rate of once per VIN per customer. If the customer has received a service credit according to the VIN history, the customer IS NOT ELIG BLE for a service credit. The new owner of a pre-owned vehicle IS ELIGIBLE if there is no prior history indicating the "new owner" has received a service credit.
A service credit debit card CANNOT be issued to reimburse a customer for previous services.
Valid at any Authorized Nissan Dealer/Infiniti Retailer. Approved for any service (valid only if genuine Nissan/Infiniti parts are used), or for the purchase of any genuine Nissan/Infiniti parts or accessories.
This offer is valid until the expiration date, six months from the date that the service credit is offered to the customer. The debit card can be used until the balance reaches "0" or until the expiration date.
If there is a balance at the end of the 6 month term the balance will be forfeited.

The Service Credit may NOT be sold to another VIN.
RCAS advised C of the processing time.
C accepted.

RCAS verified C's address as:

Make Private	✓	**Created By Jennifer Lanning (8/22/2014 2 55 PM) Last Modified By Jennifer Lanning (8/22/2014 2 55 PM)** Rcas noting info from Owners manual Pg1-45 ********** Based on information from the sensors, only one front air bag may inflate in a crash, depending on the crash severity and whether the front occupants are belted or unbelted. Additionally, the front passenger air bag may be automatically turned OFF under some conditions, depending on the weight detected on the passenger seat and how the seat belt is used. Pg 1-47 ********* The front passenger seat belt sensor is designed to detect if the seat belt is buckled. Based on the weight on the seat detected by the occupant classification sensor and the buckle state, the Advanced Air Bag System determines whether the front passenger air bag should be automatically turned OFF as required by the regulations. If the front passenger air bag is OFF, the passenger air bag status light will be illuminated

SRD/ES-SF called the customer at requested phone [redacted] at 10:26am est and spoke to the customer.
SRD/ES-SF advised that customer has requested supervisor callback and case has been reviewed.
SRD/ES-SF asked the customer how SRD/ES-SF can assist the customer at the current time.
The customer reiterated all of the complaints in the case file and advised that c lost confidence in the veh at this point.
SRD asked what the customer is asking for from Nissan.
C states that c wants NNA to stand behind product and replace the vehicle.
C states that if the c has to take the veh back to the dlr for inspection c will do so to satisfy NNA, but either way the vehicle is getting replaced or c is trading it is.
SRD/ES-SF advised of repurchase process and how the determination can take up to 10 business days.
SRD/ES-SF assured the customer that the RCAS agent will follow up with the c every 2-3 days throughout the process for any updates and as soon as a determination is made.
SRD/ES-SF advised that NNA would continue to work towards repairing the veh to specs under the terms of the manufacturer's warranty.
SRD asked the following questions:
Why do you want to return the vehicle to Nissan North America? Because the PABI is not reliable
Where is the vehicle currently? Customer's possession
Where was the vehicle purchased? Thomas Nissan of Joliet
Was it purchased new or used? New
If used, when was the vehicle purchased? N/A
Where is the vehicle serviced? Thomas Nissan of Joliet
Has the vehicle been taken to multiple Nissan dealers or Infiniti retailers? If so, document names of dealers/retailers? Thomas Nissan of Joliet
SRD/ES-SF reiterated that the RCAS agent will follow up with the c every 2-3 days throughout the process for any updates and as soon as a determination is made - with first update 8/29.
The customer understood and the call ended mutually.
SRD/ES-SF transferring case back to RCAS for RHR submission.

CRR-MH received a call from C stating that C took veh in for the first oil change and to have the OCS campaign performed. C stated that after the performance of the campaign, the went haywire.
The airbag was on and would stay on.
C set an appt an brought veh in. C stated that C had waited 2 1/2 hours at the dlrshp only to be told later that dlrshp needed to keep veh. C state dthat veh was at dlrshp for 6 days.
A couple of days after release, the light was back on again.
C state dthat C contacted the dlrshp gain but was told that that veh could not be squeezed in.
C went in this past weekend and again C was that dlrshp did not have time but could take veh in by Monday.
C stated that a this point, C feels that veh is unsafe and C does not peace of mind anymore. Veh has been in twice.
CRR-MH verified C's updated contact information.
CRR-MH informed C that the case will be forwarded to the regional office for review and a regional specialist will be in contact with C by the end of the next business day. The best no. to reach C is[redacted]
CRR-MH escalating case to RCAS for vehicle concern.
CRR-MH offered further assistance to C. C declined.
CRR-MH gave name, extension number and case number to C.
CRR-MH leaving case open.

Make Private	✓	Created By Arion Taylor (9/3/2014 9 59 AM) IHDTS recommended 2nd opinion if c believes there is an issue, otherwise if there is no fault found, there is nothing that can be done. === Rcas-at called c @ 10 53 am est on best # [redacted] Rcas-at spoke to c & advised the best rcas can recommend at this time is a second opinion for any present concerns. C understood & c stated c is getting the veh into the dlr. C stated no one told the shop foreman about this so c stated the dlr wants to make sure no wired were clipped. rcas-at understood & asked if c wanted rcas to follow up on this visit. C stated no if c has any issues, c will call back. rcas-at agreed & thanked c & ended call mutually. **SUMMARY** c called NNa regarding c's seat sensor concern with the passenger air bag light. Rcas-at contacted the dlr who advised no codes & veh was believed to be operating within NNA specs. Rcas-at recommended 2nd opinion. Closing case pending c contact.

IHDTS advised that changing the seat material would have no effect on the system & also advised that unless the veh is showing codes in Consult III, the veh is operating normally. === Rcas-at called c @ 12 53 pm est on best # [redacted] Rcas-at spoke to c & advised c that rcas spoke to tech assistance who advised the fabric change had no effect with the sensor. rcas-at also advised c that tech assistance confirmed that unless there are fault codes, the veh is operating normally. C stated c is having a hard time understanding if c has fault with the veh. C stated it is not working correctly. C asked what is going to be done. rcas-at advised c that unless the dlr can find an issue with the veh, there is nothing that can be done. C stated c is not happy with that & c stated its either going to be NNA or the dlr but something needs to happen. C stated c is boarding the plane & c has to go. C stated c hopes to hear from rcas next week. Rcas advised c that rcas will follow up 9/3, c agreed. Rcas-at thanked c & ended call mutually. C called in about the issue C is having with the airbag

C stated it has been derviced under a recall but veh still has the same issue

C took the veh to the DLR but C stated that DLR cant do anything about the veh concern.

C spoke with Pat (service advisor who contacted Tech line) and stated that NNA told them there is no fix for the veh.

C stated that the airbag light suddenly turns on even after the recall has been serviced

CRR asked C how NNA can assist C about the concern.

C wants to get it fixed considering the veh is brand new.

CRR- adv c that concern will be submitted to RCAS. adv c that c will be receiving a call w/in the end of the next business day. c acknowledged

crr-pa offered further assistance

crr-pa , extension and case number.

Call ended

CRR closing the case

crr-pa send the case to RCAS leaving the case open

Make Private	✓	**Created By Suzanne Farlow (8/25/2014 12 34 PM)** SRD/ES-SF called the customer at requested phone [redacted]at 12:08pm est and spoke to the customer. SRD/ES-SF advised that customer has requested supervisor callback and case has been reviewed. SRD/ES-SF asked the customer how SRD/ES-SF can assist the customer at the current time. The customer advised that c has spoken to two different dealers who advised the customer to call into NNA CA to obtain technical expertise. C states that Chevy allows customers to talk to engineers about concerns and that is what the customer was seeking. SRD/ES-SF empathized but advised that RCAS and dealer is the POC for the customer and that the best option in this case is to seek a second opinion at an alt dlr in the area if the c disagrees with diag that veh is performing normally. C reiterated several complaints about RCAS and advised that c will seek second opinion. SRD/ES-SF empathized and advised c can contact CA back after this if further assistance is needed. The customer understood and the call ended mutually. SRD/ES-SF transferring case back to RCAS for closure.

comments : 2013 Altima passenger seat belt indicator lamp does not come on, or later turn off, when the car is already running / still running and passenger sits in front seat or exits the vehicle. After dealership had replaced the vehicle ODS (under recall). I have had to either shut the vehicle off and ressart it while the passenger is already seated, or wait several minutes while driving before the light would illuminate (while passenger seat belt was NOT engaged (worn). I have taken the vehicle to the dealership to have them and a field technician from Nissian (U.S.) look at the issue, they were able to re-create, as well as not get it to fail. Currently they are saying it is normal for the lamp to not come on or go off for up to 7 seconds (in user manual) when the car is running and passenger enters or exits the vehicle. I have told them this was not like this before the last ODS replacement (this is the third time they have made the recall "fix"). After picking the vehicle up I drove home, left car running and had my wife recreate the issue, I had video running so I could capture the event and amount of time it takes and what I have to do to get the seat to recognize it is occupied, or not. I called dealership while I was making the video and reported what was occuring again. I am supposed to bring the car back to them later this week.

Based upon the consideration of the service history of the vehicle, NNA is not in position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties. C called in following up regarding a recall about the airbag

C stated that veh has the same issue again. The warning light turns on when an adult sits on the passenger seat that started happening after the recall has been serviced

C had the concern captured in video and took it to the DLR.

DLR already replaced the seat and sensor twice

C would like for the case to be reopened and brought in to attention.

C stated that C would like to invoke the lemon law because of the issues he is having with the veh considering that it is new

CRR- adv c that concern will be submitted to RCAS. adv c that c will be receiving a call w/in the end of the next business day. c acknowledged

C called regarding an issue with the vehicle
C said that the vehicle is having a lot of issue
C said that C had the timing chain replaced before because it was under a campaign and C needs to have it replaced the second time because the replacement didn't work well
C had it diagnosed again and was determined that the driver side electric motor needs to be replaced for $495
C said that the window will not roll down anymore....
C said that C thinks that the passenger airbag is having issue aswell, when someone sits on that side it goes off and on sometimes but C was told that there is no issue with it
CRR RM apologized for the inconvenience C is having with the veh
CRR RM asked C how Nissan can assist C with this
C stated if Nissan can do something to extend C's warranty because C is having so many issues with the vehicle
CRR RM told C that CRR RM will create a case for C and will escalate the case to the regional specialist for review
C agreed
CRR RM gave C case number
CRR RM told C that C will recieve a callback from Regional Dept before mondays business day ends
C understood

Make Public		**Created By Angie McVey (9/23/2014 12 13 PM)** *****DUE TO ATTORNEY REPRESENTATION DO NOT CONTACT THIS CUSTOMER. IF CUSTOMER SHOULD CALL, PLEASE REFER THEM TO THEIR ATTORNEY****
Make Public		**Created By Angie McVey (9/23/2014 12 10 PM)** After review discussed with ARBS Adrienne Gehrke who advised cash offer. The following was sent via email to the customer's attorney: Ms. Herritt: This office is in receipt of your letter regarding the above referenced Infiniti/Nissan customer. I have taken the time to review the complaint and the service history on the vehicle. Based on the information available the vehicle is a Lease and currently has over 60K miles. The first visit for an air bag complaint was at 47,201 miles and the vehicle was found to be operating as designed. The dealer has reprogramed the system a couple of times but at the last visit the system was found to be operating as designed. An automobile is made up of thousands of various components and parts which are made by man, and assembled by man. Our wish is that there is never a failure however there is no guarantee given, but our word in the form of the warranty to assure that if it does we will cover the repair. While this is not the experience we would desire for our customer, Nissan has never failed to comply with the warranty that was given. Given this information Nissan would not be able to offer repurchase or replacement, however in the interest of customer enthusiasm Nissan would be willing to offer $3,000 inclusive to resolve the matter. Please let me know if the customer is willing to accept. Thank you for allowing Nissan to review this matter _____ Angie MCVEY — File pending a response from the customer's attorney.

C's wife called in because c has multiple issue on c's vehicle.
CRR-MY located c's account which is the husband and the caller is the wife.
C's wife stated that the first issue is with campaign on airbags, but the dealership already fixed that but c's wife stated that the airbags were still not working properly. Second is with the driver seat belt, c's wife said that it has a "short", the electronic portion is mot working properly. The dealer said that c must order a new buckle. The buckle is attached but on the warning lights it is not. Third is with the dash, c's wife said that it is separating. Fourth is the thread or the stitching on the seat cover was separating also. And lastly the aircondition will just turn on and off occasionally.
CRR-MY emphatized.
C's wife stated that it is a brand new car and c's wife is really concerned on the safety of the family and c's baby.
C's wife also stated that c and c's wife brought the car to the dealership today and talked to SA Jessica Dale and Sales head John Ingram.
CRR-MY asked on how would c wanted to be assisted by Nissan.
C's wife said that it would be better if the car would be replaced.
CRR-MY informed c that it is beyond crr-my's empowerment and will escalate the case to RCAS for further review and will contact c by the end of the next business day. And also informed c that there is no assurance that a replacement car will be approved.
C's wife agreed and wanted to be contacted with numbers c-[redacted]
CRR-MY did a recap and offered further assistance.
C declined.
CRR-MY provided name, extension number, case number and ended the call.

RCAS notes DTS-FG findings:

The customer had a list of 4 concerns.
1) OCS light erratic operation. This the customer states is intermittent, I thoroughly discussed and explained how the system operates. The customer stated that sometimes the light will come on with nothing it the seat. Based on that testamony I recommended to replace both seat sensors and OCS control unit. The customer also stated she had no issues until after the recall reprogramming was done.
2) Squeal noise from power steering, this I did duplicate and had the technician follow the NTB 13-017b to resolve this issue.
3) creak noise going over bumps. She stated that this has not happened since the weather changed and cooled down. The upper strut mounts had been already replaced. I had the tech replace the anti-sway bar bushings.
4) Audio color display will flasy bright or have lines across it intermittent. Also the A/C display will go blank and when it happens A/C works but cannot be controlled. I did not duplicate these issues however the customer had photos of the display. I recommended to replace the audio unit and because the A/C switch assembly and A/C auto amp have been replaced with no resolution I am having the tech replace the dash main harness.
Dealer Findings
The dealer has followed proper procedures and has repaired several of her other issues.

ARBS notes the following:

3 visits for AC intermittently inop. // Replaced heater, blower motor, and amplifier.
3 visits for wind noise. // Adjusted window molding.
2 visits for a flapping noise near window. // Replaced mirror.
2 visits for a thumping noise. // No duplication.
1 visit for a hard start. // No duplication.
1 visit for vehicle stalling. // Reprogrammed ECM.
12 days down. (Dealership confirmed)

ARBS notes the wind noise, thumping noise, and flapping noise have not indicated a substantial impairment to the performance of the vehicle. ARBS notes AC inoperable and stalling complaints have been addressed by the dealer. ARBS notes the hard start concern was not verified and has been subject to additional visits since 9/26/13.

–
Based upon the ROs provided and after careful consideration, NNA is not in a position to offer a repurchase/replacement of this vehicle, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties.

ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.

The mileage on this vehicle is currently 14899 miles. The light in question is the passenger air bag light (off/on). I have had the vehicle in for check up (one on a recall) twice and it still does not work 100% of the time. I am writing this correspondence so as to document the problem in event we should be involved in a injury accident. A person at the dealer where we purchased the vehicle suggested i notify your office to document the problem. He also informed me this is an ongoing problem with this vehicle.

dealername : Courtesy Nissan
comments : I purchased this Nissan Pathfinder on March 28,2013. I have consistently had problems with the passenger airbags shutting off while my wife who weighs 96 lbs. is in the front passenger seat. Since the date of purchase this vehicle has been in the shop numerous times and once the dealership kept it three weeks. Sensors have been replaced in the front passenger seat at least two times and multiple software updates have been performed. Courtesy Nissan and AutoNation Nissan have been unable to resolve the issue. Currently mileage is 11,811. While my vehicle was in the shop I have had the same problem with the 2014 Pathfinder dealer loaner. I have videos of occurrences. I am out of patience. I would like for Nissan to buy this vehicle back from me immediately or I will be filing with the Texas Lemon Law.

ARBS-AsMa notes after careful review, NNA is not in a position to repurchase/replace the vehicle at this time, as the vehicle has not been subject to an unreasonable number of repair attempts for any warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties.

ARBS recommends RCAS review case with TL and Region to discuss possible goodwill based on the specifics of this case.

comments : I purchased this Nissan Pathfinder on March 28,2013. I have consistently had problems with the passenger airbags shutting off while my wife who weighs 96 lbs. is in the front passenger seat. Since the date of purchase this vehicle has been in the shop numerous times and once the dealership kept it three weeks. Sensors have been replaced in the front passenger seat at least two times and multiple software updates have been performed. Courtesy Nissan and AutoNation Nissan have been unable to resolve the issue. Currently mileage is 11,811. While my vehicle was in the shop I have had the same problem with the 2014 Pathfinder dealer loaner. I have videos of occurrences. I am out of patience. I would like for Nissan to buy this vehicle back from me immediately or I will be filing with the Texas Lemon Law.

comments : To Nissan,
We purchased our 2013 Nissan Sentra for our son on 4/20/13. The first problem with our new Sentra started on 5/27/13, an electrical problem with the cluster. We were not able to tell the mileage and the transmission would show □R□ when we were actually driving forward. The car was in the shop for over 15 days to replace the cluster. We also experienced the ODS issue on our new Sentra. We notified the dealership of the ODS issue on the same visit on 5/27/13. We picked up car on 6/14/13, was told that cluster was replaced and ODS issue was fixed. The dealership was already aware of the recall on the ODS issue.
THEN, we had to bring the car back to the service again on 7/2/13 for rear brake issue. Brake fluid was applied to both wheel cylinders to fix issue. There was a recall on this one as well, we were told by the dealer. THEN, on 8/3/13 we had to take the car back to the shop again for the same brake issue. Wheel cylinders were replaced on this visit. We also mentioned the ODS issue and was told it was fixed for the 2nd time. We finally received ODS recall letter after that. However, the issue with ODS has not been gone completely. When I took the car for the oil change on 3/1/2014, I brought the recall letter with me to the dealership since we still had issue with the ODS. I was told that ODS, again, has been fixed for the 3rd time. We still have the problem with ODS as of today. We cannot rely on this safety feature from this particular car regardless of anyone sitting at the front passenger seat.
This car is the main vehicle for my son who is 18 yrs. old. We took the car to the dealership again today for the oil change. We told the service department that the ODS issue has never been fixed and we need to get it fixed after we were lied to for so many times. We were told to call to make appointment. This problem should have been fixed since 6/14/13 □ the very first time we told you. With my son driving this Sentra, we are not at peace due to this lack of the safety issue this Nissan Sentra offered to their customer. I have told the dealership that this car will be driven by 18 yrs. old and I need to be sure that this basic safety feature works at the very second it needs to work. However, I was told that having an airbag deployed may not be such a good idea!!!!!
I want this ODS issue fixed completely and permanently. This car is nothing but a lemon just a month after we purchased. Please, have someone contact us ASAP to replace this car to a comparable Sentra with complete safety feature that I purchased. After many attempts to try get this car fixed, it is cleared to me that Nissan is intentionally not deliver the basic safety feature Nissan Sentra should offered.

ARBS spoke with C and advised C of her 3 options:

1) Replacement of vehicle with C receiving $5,872 67
2) Replacement of veh with C receiving Gold Preferred Security + Plus package and waived usage
3) Settlement - $2,000 and Gold Preferred Security + Plus Package

ARBS also reiterated that with any mass produced vehicle, nearly every model of vehicle of any make has bulletins and recalls issued on it as we note things that may need addressing regarding our continuous commitment to quality. I cannot guarantee a replacement vehicle to be bulletin or even recall-free.

C stated she would call ARBS next week to make decision

ARBS received the following email from C:

Ms. Foxhall,

Please, see the attached documentation regarding the current recall and the manufactured date for possible defected vehicles. The attached also detail the nature of the OCS issue for 2014 models. With this document, Sutherlin should be able to narrow down their 2014 Sentra model with the possibility of finding vehicle with no defect.

For the current 2013 Sentra SV, I have spent a total of $6,671 on payment & deposit.

For the settlement, below are the options I am willing to accept:

Replacement of new 2014 Sentra SV with:
- Waived usage fee of $1,894.76
- Complimentary extended warranty (72 months/100,000 miles (Gold Preferred Security + Plus package)
- Reimbursement of 75% of payment (with no tax liability) for lost time, inconvenience, defected product sold

Replacement of new 2015 Sentra SV with:
- Waived usage fee of $1,894.76
- Reimbursement of 75% of payment (with no tax liability) for lost time, inconvenience, defected product sold

Our Sentra 2013 was purchased on April 20, 2013. The recall for 2013 OCS issue has already been announced to public on March 1,2013. However, Nissan & the Dealership did not have a protocol to establish a communication of the recall directly to potential customers during the purchase of knowingly defected product. If Nissan & Dealership were not aware of which vehicles have defect, how could I as a consumer would have such knowledge? I was completely surprised that the dealership was already aware of the OCS issue when we brought the car back on 5/27/13!!! And, we were led to believe in buying the car. All of the multiple trips & purchase of this particular vehicle could have been avoided if I was fully informed of the recall during the purchase of this vehicle.

Please, contact me at your earliest convenience.

Thank you,
[redacted]

ARBS responded with the following:

Hello,

I understand your concerns. However with any mass produced vehicle, nearly every model of vehicle of any make has bulletins and recalls issued on it as we note things that may need addressing regarding our continuous commitment to quality. I cannot guarantee a replacement vehicle to be bulletin or even recall-free.

Per our previous conversation, Nissan North America is prepared to replace your vehicle with a new vehicle, plus waive the $1,894.76 of mileage usage, as well as, offer the complimentary extended warranty [(72 months/100,000 miles (Gold Preferred Security + Plus package)]. If this option does not suit you, Nissan North America is willing to repurchase your vehicle based on your state guidelines.

Keep in mind we can also explore settlement options as well.

Please let me know if you have any additional questions or wish to further discuss the aforementioned options.

Thanks,

ARBS received the following email from C:

Ms. Foxhall,

As I have mentioned during our conversation that we should not forget the original purpose that starts this discussion. First, I appreciate your prompt respond on this matter. However, there are 2 of the same recalls from Nissan this year for 2014 Sentra. Where do we go from here? Also, is there a way we can determine if a particular car is not part of the recall by using V N#?

As much as I appreciate you help & offer, getting a new replacement car with the same problem does not really solve our problem. I will end up with the same lacking safety issue. Are those 2 options you provided our only options to this matter?

Thank you,
Make Public [redacted]

ARBS responded with the following:

Hello,

I understand your concern with the recalls on the 2014 Nissan Sentra. I am unable to verify the recall on a particular vehicle with first having the V N number, which would require you to first go pick out the car.

If you do not wish to accept the replacement offer, you do have the option to accept the repurchase offer. I am also available to discuss settlement options. I can offer $2,000 cash and an extended warranty (72 months/100,000 miles (Gold Preferred Security + Plus package)).

Feel free to reach out to me to further discuss these options if you wish.

Thanks,

ARBS received call from C stating C wants to do replacement.

ARBS responded with the following:

Hello,

Make Public

Per our previous conversation, we are willing to waive your usage of $1,894.76, if you agree to replace your current 2013 Nissan Sentra with a like model 2014 Nissan Sentra. After further review, I am willing to offer you the complimentary extended warranty package as well. It will cover 72 months/100,000 miles (Gold Preferred Security + Plus package).

I will reach out to the Sutherlin Nissan and have a sales manager reach out to you shortly to assist you with starting the car replacement process.

Please let me know if you have any additional questions or concerns.

ARBS received the C's signed lien release

Created By Chantel Foxhall (9/8/2014 8 59 AM)
ARBS received the following email from C:

Ms. Foxhall,

Attached is a copy of our Sentra current registration & our Purchase Agreement. For the Lienholder Information Release Agreement, I have entered most of the information we have. However, we have not signed the form yet since we want to make sure that our option is the replacement and not the repurchased. With this inconvenience, we do not want to have to go thru financing the car all over again. We also don't know once we sign the form, will it mean that we are stuck with the option you are providing. I hope you understand that this is our 1st time dealing with purchase problem with this type of magnitude.

Also, I have checked the mileage on the car again, and the current mileage is 14,580 as of today. I believe I might have overestimated the mileage during the initial questions conversation with Russell.

While I was looking at the Warranty Information Booklet for 2013 Nissan, I realized that I have not filed the arbitration or contact BBB AUTO L NE. I only contacted Nissan directly. Do I still need to file the arbitration and do anything else at this time?

Thank you,
[redacted]

Make Public

ARBS responded with C:

Hello,

I will need to verify your payoff to determine your options with repurchase and/or repayment. Therefore, I will need a signed release form, as well as , the purchase documents. Signing the lien release forms does not refinance the car. It simply allows me to verify the payoff.

The mileage I will use will be based on the last repair on your vehicle.

Also, there is no need to contact the BBB, because Nissan has voluntarily offered to purchase your vehicle from you.

Please provide the requested documentation so I may better access your situation and provide you with options to assist you getting out of the vehicle.

Thanks,

Dear [redacted]

We sincerely appreciate you taking the time to contact Nissan regarding your situation. As a company interested in winning lifelong customers, Nissan apologizes for any inconvenience you may have experienced.

Nissan carefully considered your request during a review of all available facts pertaining to your situation. Based on the vehicle repair history, Nissan offers to repurchase or replace your vehicle to comply with the Florida Lemon Laws

Re: 2013 Nissan Sentra
V N: 3N1AB7AP7D[redacted]

In order to coordinate the repurchase of your vehicle, Nissan needs to know the particular facts pertaining to your ownership and intentions regarding the vehicle. Please complete and return the following documents to me at your convenience, as they will be needed to make a detailed offer:

- A legible copy of the vehicle's current registration
- A copy of the purchase contract for the vehicle
- Any receipts for costs that you want considered for reimbursement
- Completed Lienholder Information Request Form (enclosed)

Please return the requested information to me via fax at 615-967-2271. We anticipate completing the repurchase within 2 to 4 weeks from the time of your acceptance. Please note: supplying the requested documents does not indicate your acceptance of the offer; you will have a chance to review the fully detailed offer before making a decision.

If you have any questions you are welcome to call me at [redacted]

Sincerely,

Make Public

comments : To Nissan,
We purchased our 2013 Nissan Sentra for our son on 4/20/13. The first problem with our new Sentra started on 5/27/13, an electrical problem with the cluster. We were not able to tell the mileage and the transmission would show □R□ when we were actually driving forward. The car was in the shop for over 15 days to replace the cluster. We also experienced the ODS issue on our new Sentra. We notified the dealership of the ODS issue on the same visit on 5/27/13. We picked up car on 6/14/13, was told that cluster was replaced and ODS issue was fixed. The dealership was already aware of the recall on the ODS issue.
THEN, we had to bring the car back to the service again on 7/2/13 for rear brake issue. Brake fluid was applied to both wheel cylinders to fix issue. There was a recall on this one as well, we were told by the dealer. THEN, on 8/3/13 we had to take the car back to the shop again for the same brake issue. Wheel cylinders were replaced on this visit. We also mentioned the ODS issue and was told it was fixed for the 2nd time. We finally received ODS recall letter after that. However, the issue with ODS has not been gone completely. When I took the car for the oil change on 3/1/2014, I brought the recall letter with me to the dealership since we still had issue with the ODS. I was told that ODS, again, has been fixed for the 3rd time. We still have the problem with ODS as of today. We cannot rely on this safety feature from this particular car regardless of anyone sitting at the front passenger seat.
This car is the main vehicle for my son who is 18 yrs. old. We took the car to the dealership again today for the oil change. We told the service department that the ODS issue has never been fixed and we need to get it fixed after we were lied to for so many times. We were told to call to make appointment. This problem should have been fixed since 6/14/13 □ the very first time we told you. With my son driving this Sentra, we are not at peace due to this lack of the safety issue this Nissan Sentra offered to their customer. I have told the dealership that this car will be driven by 18 yrs. old and I need to be sure that this basic safety feature works at the very second it needs to work. However, I was told that having an airbag deployed may not be such a good idea!!!!!
I want this ODS issue fixed completely and permanently. This car is nothing but a lemon just a month after we purchased. Please, have someone contact us ASAP to replace this car to a comparable Sentra with complete safety feature that I purchased. After many attempts to try get this car fixed, it is cleared to me that Nissan is intentionally not deliver the basic safety feature Nissan Sentra should offered.

C declined. Call ended mutually. **********
Make Public		Created By Ryon Howe (9/22/2014 12 05 PM) RCAS-RH called C at [redacted] C stated that issue occurs with 200lbs male in passenger seat. RCAS told C that seat issue is common with passengers around 130lbs but 200 definitely meets the limit. RCAS-RH told C that DLR most likely wouldn't charge C diagnosis fee since vehicle was under basic warranty, but no guarantees. C understood. RCAS-RH emailed DLR letting SM know C would be coming to DLR at 1530 today and asked to waive diagnostic fee if possible.
Make Public		Created By Joseph Shively (9/22/2014 11 42 AM) RCAS-JS placed outbound call to C at [redacted] ********** C stated C has appointment for 3:30 with DLR. C stated C was trying to find RCAS-JS' number, though, because C cannot pay diagnosis fee. RCAS-JS stated that NNA may be able to reimburse C pending evaluation, however it would be a check issued to C. C stated C understood and that concern was that C doesn't have funds presently. RCAS-JS stated RCAS-JS understood. RCAS-JS stated NNA cannot force a DLR to waive a diagnosis fee, however RCAS-JS will see if something can be worked out with DLR. **********

RCAS-JS stated according to conversation with DLR, C had last been to DLR 7/24/14. RCAS-JS stated as of right now, NNA does not have new information to work with. C stated C had given up on VEH and was beyond frustrated.

RCAS-JS sympathized and stated RCAS-JS wants to assist C, however RCAS-JS is no mechanic and cannot address concerns over the phone.
RCAS-JS stated that for C's case to move forward, NNA certified technicians would have to be involved.
C stated C understood.
C stated C was concerned about diagnosis fee.
RCAS-JS sympathized and stated it may be possible for NNA to reimburse for that fee should it occur, however RCAS-JS cannot guarantee that NNA will be in a position to do so.
C stated C understood.
RCAS-JS asked when C could potentially have VEH in to DLR and if C would prefer to get a second opinion on VEH.
C stated C could take VEH in Friday most likely and would take to different DLR.
RCAS-JS set follow-up for Wednesday, provided contact information.

RCAS-JS placed outbound call to DLR at 8604560055.
RCAS-JS spoke with SA-Kevin (SA-K).
****
SA-K outlined concern history as follows:
- 6/12 - OCS reprogramming recall performed
- 6/27 - OCS reprogramming recall re-administered with seat set to vertical position
- 7/22 - Airbag light on again, diagnosis yielded DPC code that warranted recalibrating system
- 7/24 - C returned with VEH; DLR found seat leaned back - C called back later that night with same concern

I apologize for the delay. No inspection will be necessary.

I made an offer today to the customer's attorney for a repurchase or replacement of this vehicle. They are in the process of discussing the options with the customer and will provide me an update once a decision has been made.

Thanks,

Arbs-ASM received email from atty-Tim:

Angie,

I am in receipt of Nissan's $3,750 00 inclusive offer in this matter. My client declines the offer and will only accept a repurchase + reasonable attorney fees in order to resolve the matter.

Make Public

The vehicle is just sitting in my client's driveway b/c the dealer told my clients that the vehicle is not safe to drive as the airbag won't deploy in the event of a crash.

As you can see from the extensive photos below, the airbag light is illuminated with a full size adult in the passenger seat. The light is off when no one is in the seat. The vehicle has been subject to three (3) repairs for this substantial saftey defect and it still exists, therefore the vehicle meets the lemon law.

Let me know if we can resolve the matter for a repurchase prior to suit.

Arbs-ASM prepared offer letter to atty Tim Abeel via Fed Ex [redacted]

Make Public

Based on the information submitted, Nissan is willing to offer cash settlement in the amount of $3,750.00 and a Dealer Technical Specialist inspection to resolve this matter. This offer is inclusive of attorney fees. Please review this offer with your client and advise me of their response within 30 days.

Arbs attached letter and docs to case.

DRTS, in receipt of an Attorney Letter of Representation from Timothy Abeel & Associates, dated 8/22/2014, rec'd on 8/22/2014, DRTS rec'd on 8/25/2014, the letter states:
This is notification that Timothy Abeel & Associates, P .C. represents the above individual against Nissan North America for claims pursuant to the Pennsylvania Lemon Law, Magnuson Moss Warranty Act and the Pennsylvania Unfair Trade Act. Kindly acknowledge our firm's representation and direct any and all correspondence to this office.
Please do not have any further contact with our client, Brandon Wright and K risti L. Gray, only with the exception to expedite necessary warranty repairs.
Thank you for your attention to this matter. If you have any questions, please contact me at your convenience.

**Add'l Letter states:
Mr. [redacted]013 Nissan Pathfinder has been subject to repair three (3) times an airbag light defect. The airbag light illuminates when a full size adult is sitting in the passenger seat. Nissan has attempted to repair the defect by reprogramming the system, but the defect still exists after three repair attempts.
If the airbag light is on with an adult in the passenger seat, the airbag will not deploy in the event of an accident. Therefore this defect substantially impairs the vehicle's use, value and safety.
Prior to suit in this matter, my client will accept a statutory repurchase and attorney fees of $1,750 00.
Please contact me so that we may resolve this matter before further costs are incurred. Otherwise I will file suit in the next fifteen (15) days.

Make Private	✓	**Created By Jonathon Spurling (8/27/2014 7 38 AM) Last Modified By Jonathon Spurling (8/27/2014 7 38 AM)** rcas-jonathon spurling assisting rcas-tracy danesi rcas made outbound call to c [redacted] at 0830 EST rcas verified with c that c is having multiple concerns with the veh C states yes. C states that there was a piece that was flapping under veh and the tech ripped it off and threw it in the trash. rcas apologized and asked c what c is seeking from Nissan C states that c's main concern is the stereo lights on the veh that keep flashing. C states when c puts veh in reverse the back up camera turns purple. C states that the dlr told c there is nothing that can be done. After the campaign c's wife sat in the passenger seat and airbag off light came on. The other day there was nobody in the seat and airbag was on. Also the center console was loose rcas advised c that c should take veh to another Nissan dlr for a diag. C understood. C states that c wants to take veh to West County Nissan rcas informed c that c can take veh there. C states that c is due for LOF in about 300 miles so c will take veh in then rcas apologized and informed c that if c has any other concerns to contact Nissan back C understood offered further assistance. c declined closing case as no further assistance needed SUMMARY: C called in seeking assistance for veh concern. C is taking veh in for diag. C will call back if there are further questions

Make Private	✓	Created By William Miller (8/29/2014 10 28 AM) rcas assisting RCAS-Marilyn Hoskinson made outbound call to c@11 22am on only number [redacted] call was picked up, no one answered. RCAS redialed c states c took veh to dlr, dlr has part on order for airbag warning light, dlr previously reset light, RCAS stated glad to hear dlr is keeping c updated on veh repairs. RCAS offered further assistance. c declined. RCAS verified c has contact information. call ended mutually. RCAS closing case. **********SUMMARY********** c called with dlr/veh complaint, lack of follow-up, unable to duplicate. RCAS contacted dlr, verified concern, ordered parts, following up with c. RCAS contacted c, dlr updated c on repairs.
Make Private	✓	Created By Marilyn Hoskinson (8/28/2014 8 33 AM) RCAS called the dlrshp and sm-Steve states that there was a code in the veh stating abnormal voltage and there are parts on order and will call the c when the part comes in. RCAS asked if the part was c cared and sm stated did not know.
Make Private	✓	Created By Marilyn Hoskinson (8/26/2014 1 13 PM) RCAS called c [redacted]c states that c had been to the dlrshp on 12th and c saw on the internet that there are all kinds of concerns with the other veh's and not the ROGUE. c states that c called the dlrshp and no one called c back until today the dlrshp sm called c and c is taking the veh in 08/27/2014. RCAS stated okay will follow up with c on 08/29/2014
Make Private	✓	Created By Marilyn Hoskinson (8/26/2014 10 57 AM) RCAS called the dlrshp and stated to sm-Steve that c has called nna as c is still having the concern with the air bag light, sm stated that has not heard back from the dlrshp has left messages. sm stated would call the c. sm stated that c was there 08/12/2014 stating the same thing and the dlrshp could not duplicate the concern.
Make Private	✓	Created By Joy Acebedo (8/25/2014 10 17 AM) Last Modified By Marilyn Hoskinson (8/25/2014 1 12 PM) CRR-JA verified c's name CRR-JA verified address CRR-JA verified phone/alt CRR-JA verified email Issue: C called saying that the veh was sent to the dlr last August 12, 2014 because of the passenger airbag light is on. C said that the dlr reprogram the system but on August 13, 2014, the light came back. C said that c tried to reach the SA but nobody gave c callback from the dlr. C's Request: C would like Nissan to fix the airbag sensor. C said that c saw on light about the airbag issues that is why c is asking the dlr to fix the veh properly. SA/SM:Kyle Sargent CRR-JA apologize and explained that the case will be forwarded to RCAS and a representative from RCAS will give c a callback before the end of the next business day. CRR-JA is forwarding the case to RCAS CRR-JA asked c for further assistance but c decline. CRR-JA provided name, case and extension number.

Make Public		Created By Kevin Dela Rosa (8/25/2014 11 03 AM) CRR-KDR received a call from c saying c is having issues with the passenger air bag / seat belt light on many times already. C stated c went to the dlrshp many time also for same concern but lights keep coming on and off after veh is service. C is requesting a buy back on the veh due to the issue and also advised by the dlrshp to contact NNA since dlrshp could not duplicate the issue and mentioned to c that dlrshp have already re-program the sensor but still, light keep coming on on the veh. C wanted to speak to a higher representative at NNA about the issue because c feels that veh is not safe to drive. CRR-KDR verified and updated C's information. CRR-KDR informed c that case has been created for c's concern and RCAS will call by the end of next business day to review and try to solve the issue. C stated c will wait for the call at [redacted] and preferred time is between 11 30 am and 12:00 pm EST. CRR-KDR offered further assistance. C said "No" CRR-KDR gave name, extension and case number. CRR-KDR provided recap of c's concern. CRR-KDR leaving case Open.

crr-fs received a call from c.
c stated c has 2014 altima and c said the veh was purchased 2 weeks ago.
c stated it is the first time c took the veh out Last Saturday when Warning indicator is on momentarily and the light stay on.
c stated c called the dlr and was advised there was an issue on all sensor.
c stated c was advised that passenger seat light should come on because do not have passenger and it working oppositely on the veh.
c stated c calling to how this OCS works.
because whenever c's wife sitting on the passenger seat the light comes on but when c driving the veh the light is off.
crr-fs verified/updated c's address/phone number/email:
[redacted]
PLEASANT H LL, CA 9[redacted]
USA
[redacted]

c stated c will have the veh check on Wednesday Morning but c said c wanted to know how this OCS supposed to work.

crr-fs advised c on page 1-50 on c's OM it states:
The front air bags operate only when the ignition switch is placed in the ON position. After placing the ignition switch in the ON position, the supplemental air bag warning light illuminates. The supplemental air bag warning light will turn off after about 7 seconds if the system is operational.

c stated that c is a Canadian citizen and only in US for work.
c stated that c is going back to CAN next year.
c stated c wanted to know if c's veh warranty still good.

crr-fs advised c If the vehicle is first registered in the U.S., the vehicle may then be immediately re-registered in Canada and warranty coverage continues UNLESS the vehicle's ownership is also transferred within 6 months of original purchase.

crr-fs informed c as long as c will be the owner and there is no transfer of ownership within 6 month from the time c re-register the veh to Canada the warranty still applies.

CRR-FS offered further assistance, c declined.
CRR-FS provided name, ext and case number.
crr-fs provided voc bait script.
CRR-FS closing case.

ARBS rec'd email from c:

Hi Mandy,

Thank you for your help in resolving my complaints and having the vehicle repurchased. I am very happy to have this behind me now.

I do have one further thing for you to help me with. Per your recommendation I had made an additional payment since Nissan could not take possession of the vehicle before my next payment was due. You advised I would get the payment back once my account is satisfied. I called Nissan Finance today to inquire on the account status and they advised the account has been satisfied and a refund check in the amount of $404 29 has been sent to Nissan NA. (not me).

I would like to get two things accomplished: (1) find out why this amount is lower than my payment of $469 and (2) then have the full payment amount of $469 returned to me as quickly as possible. (Note: Nissan Finance advised me to circle back to you on this...)

Let me know if there is anything I can do to expedite this request.

Thank you for the help,

Mr. [redacted]

Regarding the mileage charge, the mileage is simply charged for anything over 12,000 miles. t is not determined based on nonconformities. More information can be found on the BBB Summary of the state guidelines: [redacted]

Make Public I have added the Nitrogen and trunk net to the attached repurchase agreement and corrected your name. Because we have provided you a refund for the trunk net, please note that it must be returned with the vehicle.

1) This is fine to leave as is since you indicate "over-payment" will be refunded.
2) I understand the formula per NY guidelines and agree, however I am questioning the mileage in which should be used in the calculations. I thought it was based on the first non-conformity. For the airbag system it was 8,209 and the transmission was at 12,435, per the repair orders. Can you look into this?
3) Attached are the receipts for the Nissan purchases, however I will have to try and locate the receipt for the window tint.
4) I don't want to delay - so if we can just clarify #2 before I can sign.

Thank you again,
[redacted]

ARBS responded:

Mr. [redacted]

I will use your numbering to answer your questions:

Make Public
1. If you would like me to include the 11/1 payment in the repurchase offer, I will have to wait for this payment to post to your account and send you the revised repurchase agreement after it posts. We have no problem doing this; however, please note that any overpayment would result in a refund check to you. If we proceed with the repurchase calculation without the 11/1 payment, you will receive a refund for that payment once the account has been closed. If you wish for it to be included, we will delay the repurchase.
2. The state of New York dictates usage on any miles in excess of 12,000. We have calculated your usage by utilizing their provided formula.
3. Please send me a copy of the receipts for your requested refunded items so we may review them.
4. Once I receive your decision as to delay or proceed with the repurchase and your receipts, I will correct my mistake from III to II on the repurchase agreement.

Please let me know if you have any additional questions.

Hi Mandy,

Thank you for preparing the repurchase agreement so quickly. I have reviewed the documents and the lemon law for the state of NY. I have three questions remaining before I would be able to finalize this.

1) The 17 additional payments would correct based on my calculation of payments made through 10/1 (payment date is on the 1st of each month). However, when we spoke on the phone you indicated that I should continue to make the 11/1 payment because it is scheduled to come out soon. (Before we can finalize everything) Can you adjust the offer to include this 18th additional payment?

2) Looking at the usage calculation of 4,176 means to me that you are calculating off of the 16,176 mileage on a recent repair trip. My interpretation of the law is that I should be subject to a usage fee based on the "trouble-free" mileage. If referencing the passenger airbag issues that remain a problem the mileage would be only 8,209, which is under the 12,000 mile minimum for charging a usage fee. If going by the transmission repair trip, that mileage would be 12,435, so only 435 over the minimum - thus deducted. Can you please look into this and adjust the offer?

3) I did not see any reference in your document or the NY state law in regards to additional purchased items for the enjoyment of the vehicle. Are you able to offer any consideration for this? $97.02 was spent through Nissan dealerships and $240 was through a third-party referred by a Nissan dealership.

I look forward to your response and accepting the adjusted offer.

C states he likes his altima, but he has the transmission issue as well as other things. C is concerned about having more problems in the next year of his lease because of all the other small problems he has had. C wants a repurchase.
ARBS asked for copy of lease agreement, registration, and driver's license.
C states he would like to know what happens next. ARBS advised of steps.
ARBS confirmed email address so c can send the documents. C thanked.
C states he would like to know what to do with the dealership. ARBS explained that the c would need to pick up his vehicle once it has been repaired and drive it until the surrender.
C asked about his auto draft payments. ARBS advised that he would need to make the payment due on 11/1, but then he will need to turn those off so if we take possession in the middle of November, his December payment does not draft. C understands.
C states ARBS made his morning better. ARBS thanked. C thanked. The call ended mutually.

Hello Mandy,

I just wanted to add to my claim additional items that were having issues and an additional service trip where the car was out of service for 2 days. Service started Monday 10/6 and I picked up my car this morning, Wednesday 10/8 from Bill Ray Nissan.

1. CVT still shuddering and groaning after transmission was replaced - they were unable to replicate during their drive. Problem still occurring, though less often than with previous transmission. They gave me a loaner Altima and that drove so much smoother and problem free - so I know it's not just me...

2. Attempted replacement of airbag sensor. Replaced seat rail, not confirmed if the problem has been solved.

3. Driver's seat coming loose, they had to replace the seat rails there too.

4. Since they replaced the A/V head unit and backup camera the blind spot detectors have been turning on when no cars or objects are nearby. (not raining either) This problem did not occur before - they were unable to replicate

5. One of the rims had clear-coat peeling so they had to remove and repair (by stripping, painting and re-sealing it)

After yet another trip, this vehicle is still non-conforming as expected in a new vehicle purchase.

Thank you,
Julian

Reed Nissan is the closest dealership to the address you provided, but if you do not wish for them to touch your vehicle, you may want to meet him at Bill Ray Nissan, where parts have been ordered, or another dealership in the area. If the inspector comes to my place of business then OK. However there is no way I would be able to have someone else there who's experienced the air bag light issue be there. t's not a reasonable request. The dealer has parts on order - on back order which he said may take a month or so - this is not acceptable at this point. I can get you a written statement from that person that they were sitting in the car - as normal full upright, but in the middle of the seat position when the light came on. It happens while driving randomly. I've had to pull over and restart the vehicle when I notice it.

Just let you a voice message. Friday Oct 17th at 11am will not work unless I drop the car off at the dealership in the morning and they provide me a rental. However, that weekend I planned on driving out of town so unless the inspection is done by 3pm and I could pick up my car again I would need to keep the rental until Monday morning when the dealership opens back up again.

I really need Nissan to be proactive and do something about my car - so let me know. I cannot be driving around a car that shakes where the braking system is unreliable and where the passenger airbags may not deploy in an accident. The numerous other issues are important but those are major safety defects.

RCAS-WM contacted c and stated to c that the request for repurchase has been denied and that RCAS-WM would like to have a DTS inspection for the c since c is still having concerns
C Stated that c will now have to obtain an attorney because the veh has been thru so much and that the dlrs have not been able to repair the c veh and it has became a safety issue.
RCAS-WM showed empathy to c and apologized that the outcome was not what c wanted but RCAS-WM would like the opportunity to continue to try and repair the c veh and by having a DTS inspect the veh NNA will have an Idea as to what the veh needs
C agreed and stated to go ahead and request the DTS
C asked if c could have a letter with all the documents that were reviewed
RCAS-WM stated to c that RCAS-WM could sent the denial letter but could not send the other documents because they propitiatory information and that c should have been provided to the c
RCAS-WM apologized to c again and stated that RCAS-WM will contact c as soon as appointment has been made

• ARBS notes based on a comprehensive, good faith review: NNA is not in a position to repurchase/replace the vehicle at this time, as the vehicle has not been subject to an unreasonable number of repair attempts for warrantable concerns. NNA will continue to honor the terms and conditions of all applicable warranties.

• ARBS recommends RCAS review case with TL and Region to discuss possible goodwill and/or solutions based on the specifics of this case.
• ARBS recommends DTS inspection for any ongoing concerns.

Hi Wendy,

Thank you for giving me a call regarding my case # [redacted] I look forward to receiving and answer on how to proceed because at this point I don't think my car is safe to be driven.

As I indicated last night I did not have enough time to evaluate the new transmission to see if it resolved the shudder, but as I told you on the phone, this morning the car shuddered 3 times. So clearly the issue has not been remedied. This raises so much further concern because the dealership believed the braking issue may have been linked and if that is the case I am even further concerned about the ability to stop my vehicle in an emergency situation.

I hope to hear from you today with a resolution - and wanted to send this email for further documentation for my case.I have not been able to reach the dealership yet after my latest repair was concluded on Monday.

Thank you for your assistance,

[redacted]

C stated that c was driving to work this morning and the veh started shuddering
C is very scared to drive veh because the dlr told the c that the issue with the brakes would be fixed by putting the new transmission in but now the transmission is shuddering so c feels that the brakes will go out again.
C just wants out of the veh because c does not feel safe at all
RCAS-WM apologized to c and stated to c that RCAS-WM should receive answer today about the repurchase and RCAS-W will keep c updated

Hi Wendy,

Following up again on case #[redacted]

I was hoping to hear from you today, but either way since these emails go to my case it's good to have this documented.

Picked up my vehicle and as indicated in my last email not all the repairs were completed. What remains is the following: (1) the passenger airbag system is still not replaced, parts are not available; (2) the brake system problem was not able to be diagnosed; (3) the sunroof still vibrates - I think one vibration was fixed but when closing the doors it still vibrates loudly.

A new issue noted from the service rep is the driver's seat. I noticed that it seemed loose but forgot about it. But the dealer asked me if I had issues and I confirmed. So they said they are going to have to replace that as well. In addition, this one not the manufacturers fault, but my window tint was damaged during the repair process of the back deck - so now I have to take time out of my schedule to have this fixed as well.

Please call me as I need a resolution because I should not be expected to keep having to deal with a non-conforming vehicle like this one. I cannot drive a car that is not safe. I am looking for a quick resolution, so please don't let this come to me having to consult legal counsel.

Thanks for all the help Wendy - I do appreciate it.

Hi Wendy,

I left you a voice message earlier today but had an update and concerns to discuss. Bill Ray Nissan just called me indicating that my vehicle is ready for pick up, however all the service issues were not completed. The passenger airbag sensors are still not repaired and they could not diagnose the issue that occurred with the brakes. The service rep said they hope the new transmission could solve the braking issue, but could not say that the two issues were even linked.

I don't know about you, but I don't enjoy driving a vehicle where I have to "hope" the brakes will work in an emergency, and then "hope" that the passenger airbag deploys in the resulting accident.

Please call me, hopefully with a resolution to my repurchase request. This cannot wait any longer.

As always, I appreciate your help with this unfortunate situation

Hi Wendy,

I tried returning your call on case [redacted] nfortunately, it looks like we're playing phone tag. I wanted to discuss another issue with you that just occurred.

While driving on Tuesday AM, I was cutoff and had to perform an emergency stop. However, the vehicle did not slow down as expected on a solid, dry surface. t instead seems to coast to a stop. The ABS did not kick in (no pulsing) and the tires did not loose traction. (Note, I have plenty of tread in my tires and the brakes were recently checked.) Luckily I my reflexes made me swerve because without that I would have been in a severe collision.

This is the 2nd time I have experienced this with this vehicle and have never experienced anything like this with any prior vehicles, including my prior lease of a 2010 Nissan Maxima. I did not link this issue with the transmission problem, but I finally spoke with the Service Adviser at Bill Ray Nissan and he indicated they may or may not be related. This is a very dangerous situation, combining this with faulty airbag sensors, I no longer feel comfortable driving this vehicle or carrying passengers.

I am going to pick up a rental car tomorrow (Friday) evening to hold me over until Bill Ray Nissan can accept my car on Monday morning to look at this new issue and attempt the repair of some of the components that were received. Per your prior offer, I will forward you the invoice for the 2 days in a rental ($32/day max) for this weekend.

Hi Wendy,

I've tried calling a dozen times on Friday but your phone number is just resulting in a busy signal. I tried calling the main customer care line as well and couldn't get connected. Not sure what is happening here.

Anyway, I am inquiring on case # [redacted] After 2 days of my vehicle at Bill Ray Nissan in Longwood, FL they were able to diagnose and recommend solutions to most of the issues. Some issues affect the value of the vehicle but 2 main ones are affecting the performance and safety.

One issue is the continued malfunction of the passenger airbag sensor, ultimately disabling the airbag randomly. They have diagnosed and ordered parts to try to repair the faulty system. However, these parts are on back order and they cannot determine when they will arrive, and are not guaranteed to fix the problems. With this in mind, I no longer feel safe driving my vehicle with passengers, as I frequently do.

You mentioned on the call about possible replacement vehicle due to non-conformity, severity of issues and length of time taking without resolve. Have you discussed this with your management, as you indicated? I think we should move in that direction to have my vehicle either replaced with a comparable one or just terminate my lease, which has about 20 payments remaining. Either resolution would be acceptable for me, however I would prefer the lease termination. I have been told to have legal council help with this process, but based on our call I am confident you can assist without causing this unnecessary headache.

Please let me know how we can resolve, and I look forward to finding another vehicle to lease. Hopefully within the Infiniti family. :)

Thank you for your help,

Chat Started: Tuesday, August 26, 2014, 11 29:17 (-0500) Chat Origin: Direct Social Support Nissan Agent Christienne M (10s) Christienne M: Hello, how may I assist you today?
(1m 59s) Christienne M: Hello, may I assist you in some way today?
(2m 27s) [redacted] sorry at work.
(2m 37s) [redacted] yes. I have a letter of a bunch of issues with my car
(2m 43s) [redacted] how can i get it in the right hands.
(3m 25s) [redacted] i have a 2013 Altima with persistent transmission issues and still have airbag malfunction indicators even after the recall was applied
(3m 37s) [redacted] my dealership is no lnoger willing to assist
(3m 45s) Christienne M: I'm sorry to hear that, Julian.
(4m 6s) Christienne M: Did you dealership supply you with a diagnostic on your concerns?
(4m 40s) [redacted] For the transmission... 1st time they were unable to replicate
(4m 58s) [redacted] 2nd time - a different dealer reprogrammed the transmission and the problem got worse
(5m 24s) [redacted] 3rd time - they claim they no longer replicate the problem (even though it happens to me 10x more - no exaggeration) and refuse to touch my car again
(5m 48s) [redacted] For the airbag recall - had problem and brought it in to 1 dealer for the recall
(6m 17s) [redacted] 2nd time - brought to differnt dealer becuase issue was still happening - they claim the recall was done and its fixed but the problem still happens
(6m 58s) [redacted] other items are many quality issues with rattles that have been attempted to fix various ones but others keep occuring and the "fixed" ones arenot fixed
(7m 0s) Christienne M: I'd love to see what I can do to help you.
(7m 12s) Christienne M: Have you spoken directly to our Consumer Affairs department?
(7m 31s) [redacted] No
(7m 39s) [redacted] just to multiple dealers
(7m 49s) Christienne M: Alright. Here's what I'm going to do.
(8m 23s) Christienne M: Due to the multiple concerns you've expressed, I'm going to create a case on your behalf with our Consumer Affairs department.
(8m 52s) Christienne M: A Specialist will reach out to you by close of business tomorrow, 8/27.
(8m 56s) [redacted] OK - the transmission thing is one nussiance but the airbag issue is scary.
(9m 55s) Christienne M: I apologize for your frustrations and want to assure you your Specialist will do all he/she can to assist you in reaching a resolution.
(10m 13s) [redacted] I hope so. Thank you.
(10m 37s) Christienne M: Because it will take me a moment to create this case, I will send all of the information you need to our Social Support Team.
(11m 4s) Christienne M: They will contact you within the next hour and provide you with a case number, as well as additional information.
(11m 18s) [redacted] through which method?
(11m 49s) Christienne M: They've been working with you via Twitter, correct?
(11m 59s) [redacted] yes. through there ? ok
(12m 14s) Christienne M: Yes. They will send you a DM with the information you need.
(12m 20s) [redacted] OK thank you
(12m 52s) Christienne M: I truly apologize for what you've experienced and glad you reached out to us. We enjoy helping members of our Nissan family.
(13m 2s) Christienne M: Is there anything else I can help you with right now?
(13m 8s) [redacted] No that is all. Thank you.
(13m 18s) Christienne M: Thank you, [redacted] nd have a great day!
(13m 28s) [redacted] You too.

RCAS KW notes RCAS KW attempting to contact C regarding status of RHR and to set up DTS appointment.

Make Private ✓ **Created By Karen Walker (9/9/2014 9 33 AM)**
RCAS KW notes RCAS KW received authority to request DTS from DTS JS.

RCAS KW notes DTS request has been submitted.

Make Public **Created By Angie McVey (9/5/2014 3 17 PM)**
ARBS does not feel the repair history has been excessive. NNA is not in a position to repurchase the vehicle at this time.

ARBS recommends RCAS review the matter with RCAS's TL and CSM to determine the best course of action for the file.

Make Public **Created By Angie McVey (9/5/2014 3 16 PM)**
History provided by RCAS as follows:

7/7/14 at 636 miles - 2 days down
Concern
1. Passenger airbag light comes on when a person is in the seat.
Action
1. Vehicle had no DTC codes stored, performed occupant zone point reset, vehicle working as designed.

7/10/14 at 741 miles - 2 days down
Concern
1. Air is coming through the front passenger door window, please install ordered part.
Action
1. Replaced passenger side window run rubber.

7/16/14 at 993 miles - 10 days down
Concern
1. Air is still coming through right front door.
Action
1. Wind type noise coming from right front corner area, wind noise when drive warped door seal. Replaced right front door seal, insulated mirror area, installed outer door seal. Test drove vehicle 5 different times to try to verify where noise is coming from and was not able to pin point noise. Description: Regarding my case # [redacted] on VIN # 5N1AT2MTXE[redacted] will be taking my new Rogue in to Hudson Nissan on Rivers Ave. N Charleston SC on Friday 8/29/14 for the second time for the noise behind the dash. Since the first time they took it off to try and fix it, the passenger air bag light comes on - today the driver air bag light came on while I was driving it. The exterior of the car has a horrible finish. I paid $800 for the permaplate - my car does not look clean it always has spots on it. I have washed it beside of another car (the Honda CRV I gave to my son) side by side after washing my new Rogue twice - the CRV was spotless and my car (the Rogue) looks filthy. Something is wrong with the paint or the protection they put on. Either way, my car is not satifactory for a new car. I am not pleased with my dealership, and dread going there on Friday. It has be anything but a pleasant car experience. I have owned and bought new Toyotas, Hondas, one nissan- this is my worst experience with a new car. My hopes are 1) they fix everything this last time I go in or 2) I get a new replacement car. I paid cash for it. Not a happy Nissan customer. Would never recommend it to anyone.Brenda Grill

		Created By Michael Lucas (9/2/2014 2 25 PM) ARBS contacted C and partially completed the probe. C states: C's daughter had been in a collision on the HWY and the 1st collision disabled the vehicle. C understands the C's daughter may have exited the vehicle and was then struck by another vehicle. ARBS understood and stated that ARBS would like to send C an email with all of ARBS direct contact information. C confirmed C's email address and ARBS asked how C was referred to NNA. C stated that C filled out a survey for the purchase of C's vehicle and gave knowledge of the current situation then C received a call from RCAS. ARBS understood and explained that NNA would like to assist in the situation in the event that C or C's insurance company would like to involved NNA. C understood and stated that C will follow up with ARBS or pass ARBS contact information along to the insurance company. ARBS understood and C stated that C is glad ARBS explained the reasons for Police involvement and how they collaborate with the insurance company and the vehicle lien holder. ARBS stated that NNA is glad to assist and when C would like to ask any questions or has any concern to please follow up directly with ARBS and C agreed. ARBS stated that ARBS will send C an email after the call and C also wrote down ARBS contact information while on the phone. C thanked ARBS for time and C disconnected the call. ARBS assembled an email acknowledging above conversation and that C is welcome to contact ARBS back at any time with questions or concerns. C: RE: Passenger airbag sensor –
We took our 2013 PF to the dealer for the recall on May 1. Since we still had the issue when an 85 lb. person was sitting there (it might take 5 minutes for the sensor to detect) on May 19 we went back to the dealer; the issue was determined then to be caused by a phone book under the seat. I am definitely skeptical as the book has been removed but the 'airbag off' light still illuminates intermittently. I was told by the service manager that a person weighing 85 lb. should be heavy enough for the sensor to detect. Is there a minimum weight necessary for the sensor to be activated? I could find nothing specific in the manual.
For reference: VIN 5N1AR2MN8DC[redacted] (purchased new in Aug, 2013)

Make Public

C: We have, since the above message, taken the vehicle back to the dealer again - 3RD TIME! - for this issue. I was told the sensor was 'reset.' This past Saturday I allowed an 11-yr-old to sit in the passenger seat after we both verified that the sensor light went off. Sunday this same child got in that seat & the sensor did not detect him. So he sat in the back. Any ideas????

SSA: Good morning Roxanne,

We're extremely sorry for your continued concerns with your Pathfinder's airbag sensor, as we understand how frustrating this can be. We've created a case with our Consumer Affairs department on your behalf. One of our Specialists will be contacting you by close of business tomorrow, 8/28.

If you would like to speak to someone before then, please call 1-800-NISSAN-1 Monday through Friday, between the hours of 7am to 7pm CST, and reference your case number [redacted] or the last six digits of your VIN.

Thank you,
Beth, Nissan Social Support

Make Public		**Created By Chad Alsup (9/10/2014 2 25 PM)** ARBS-CA received email from ATTY Chad, My client is not in a position to accept such a low offer. This vehicle is on its third transmission and still continues to exhibit the same troubling problems. Further, the passenger side airbag sensor remains illuminated at all times. This is a textbook defective vehicle. However, in the spirit of settlement and compromise, I am authorized by my client to demand $20,500.00 inclusive of fees and costs in exchange for a release of past and present claims. My client would retain the vehicle with all warranties remaining in full force and effect. This number is reflective of the diminished value my client is likely to receive considering what, in our opinion, were unsuccessful repairs to this vehicle. Please advise of Nissan's position. Best regards,

ARBS-CA replied to ATTY

Hello Mollie,

Make Public

I apologize for the confusion, I was seeking clarification as to your mindset regarding what settlement your client was seeking. At this point, Nissan is not offering to repurchase the vehicle since we do not feel we have breached any warranty provided with the vehicle. If your client wishes to purse a claim seeking remedies outlined by the Florida Lemon Law, we simply asked that this mater not be one-sided. As you know, Florida Lemon Law allows for the manufacturer to be afforded an opportunity to repair the vehicle once we have been notified directly. If you client is not willing to allow this, Nissan is only willing to offer $3,000, inclusive of fees, in an effort of compromise to settle the matter.

Thanks,

Created By Chad Alsup (9/10/2014 9 27 AM)
ARBS-CA received email from ATTY

Chad,

Make Public

Let me clarify for you. We are pursuing this claim under the MMWA. However, your e-mail references a repurchase yet gives very unclear terms as to the amount, so I specified for you. Often times, even under a MMWA, a manufacturer will offer a pre-suit repurchase using lemon law calculations. Very recently, Nissan offered just that in another case we have here; no final repair attempt required. Should NNA offer a repurchase it should be using reasonable and customary numbers, no matter what law the claim is being pursued under. Again, the letter was our attempt to reasonable resolve this matter before filing suit, in any way that is reasonable and acceptable to my clients.

Therefore, I have to disagree with your stance that NNA cannot use lemon law calculations without a FRA if NNA is willing to offer a repurchase. However, I am very unclear as to whether that is even an option.

Please clarify.

Best regards,

Mollie A. Hair, Esq.

Hello Mollie,

Make Public

It was my understand you wanted to purse this per MMWA, not the Lemon Law. If your client is seeking a refund per the Florida Lemon Law, NNA's stance is that we are entitled to a final repair attempt per that law.

In the alternative, NNA is willing to settle this matter by offering a $3,000 inclusive cash settlement.

Thanks

Chad,

A full lemon law repurchase amount would not only consist of the below. Specifically, my client would be entitled to a refund of all consideration toward the vehicle, including the gross-trade in allowance; all payments made; and any other consideration put toward the vehicle, minus a reasonable offset for mileage which does not included miles upon delivery, trips to and from the dealership, or test drives while at the dealership. My client would return the vehicle and NNA would pay the remainder of the balance of the vehicle's loan.

Best regards,

Mollie A. Hair, Esq.

Mollie,

Make Public

NNA is not in the position to offer a repurchase or replacement at this time. To make sure we are on the same page though, if NNA did offer a repurchase, it would consist of the cash purchase price of the vehicle ($47,546 66) less a mileage offset of $5,524.13. Is this what your client is seeking?

At this point, NNA is willing to offer a $3,000 inclusive cash settlement.

Thanks,

Make Public

ARBS-CA received email from ATTY

Chad,

It appears you are a bit confused. Our August 22 letter clearly is not a MVDN; it is our attempt to reasonably resolve the matter before filing suit under the Magnuson-Moss Warranty Act, as clearly set forth in the letter. The MMWA does not require that a consumer allow a manufacturer a final repair attempt. The MMWA simply requires the opportunity to cure, which my client has already done on at least four occasions. As such, NNA's unwillingness to even consider an offer of resolution in this matter simply because NNA does not get one more opportunity to repair a vehicle that is in its third transmission, is unreasonable.

Therefore, my client again declines Nissan's offer to inspect. If NNA continues to refuse to even consider a reasonable resolution in this matter, my client will have no choice but to proceed with filing suit against NNA where the parties will incur significant litigation expense in the matter, which is what the letter was trying to avoid.

Best regards,

Mollie A. Hair, Esq.

ARBS-CA sent the following reply to the ATTY

Hello Mollie,
NNA notes the MVDN (Attorney letter) is dated August 22, 2014 and received on August 26, 2014, from the last repair dated August 13, 2014, the dealership was unable to confirm a manufacture defect. t is our understand the manufacture has the right to a final repair attempt under the Florida Lemon Law.

Make Public

Without the final opportunity to repair, NNA will be unable to comply with your clients demand nor are we willing to make any offer of settlement.

The DTS is no longer able to inspect on 9/9 but has provided a new date of 9/10 at 1030am. Will your client agree to the final opportunity to repair?

Thanks,

_____

Chad,

We respectfully decline Nissan's offer to inspect, and note that the vehicle was presented for repair and inspection on August 15. We feel that Nissan has sufficient information to be able to evaluate the claim.

Please advise with Nissan's response.

		Created By: Elizabeth Bly (9/8/2014 10:53 AM) STATEMENT OF DECISION: C's veh concern is due to collision. C requesting FA with repairs, stating C was not provided complete info when approving the repairs. NNA unable to assist due to dlr/C concern and repairs are non warrantable. **SUMMARY** C contacted NNA requesting FA with repairs to veh. C's concern was airbag life. C's company was quoted approximate. $1k for repairs. Repairs approved and performed. Dlr discovered veh in collision and OCS control unit would need to be repaired. Dlr advised C repairs would cost $4k C refusing OCS control unit repairs and is disputing to pay the $1k for previous repairs, stating dlr did not resolve veh concerns. FOM denied assistance. EXEC-EB assuming ownership of case due to C contacting Sr. Dir. Brad Thacker. EXEC-EB reviewed with SM, FOM, and CXM. EXEC-EB supports FOM and CXM's decision: C refusing to pay is a dlr/c concern and C's veh concerns, due to collision, are not in the warranty parameters. EXEC-EB closing case NNA unable to offer assistance at this time.
Make Private	✓	**Created By: Elizabeth Bly (9/8/2014 10:39 AM)** EXEC-EB received e-mail from CXM-FH stating C's concern is not a NNA concern. CXM-FH advised C's concern is between C and dlr. EXEC-EB received an e-mail from Mgr. Warranty Admin. Henry Yu, stating collision damage is not covered under warranty, and not a NNA concern. EXEC-EB closing case.
Make Private	✓	**Created By: Elizabeth Bly (9/5/2014 2:49 PM)** EXEC-EB sent e-mail to FOM-SA and CXM-Fernando Herandez advising of C's concern and NNA's decision. EXEC-EB leaving case open until 09/08/2014 to allow the region to respond.
Make Private	✓	**Created By: Elizabeth Bly (9/5/2014 2:42 PM)** EXEC-EB placed outbound call to C@[redacted] EXEC-EB confirmed C's concerns with veh repairs. C stated C reviewed dlr on Yelp, and the dlr has poor reviews. C stated C contacted NNA and it took ten days and three phone calls for an agent to contact C. C stated when C spoke with RCAS-ZM, and RCAS had already made a decision before speaking with C. C stated C does not dispute the repairs not being covered under warranty. C stated C's concern is separate. C stated C requested to speak with RCAS' supervisor and inquired for the first and last name. C stated RCAS declined providing RCAS' sup.'s last name. C stated C believes CA dropped the ball in customer service, due to RCAS already having a decision without speaking to the customer. C stated C has 11k vehs in C's fleet. C reiterated veh repairs concerns. C stated C was advised the veh would not be repaired under warranty due to a collision. C stated the dlr failed to explain to C there could be additional repairs needed. C stated C would have made the decision to bring the veh back to Orlando, FL and have the certified Nissan shop repair C's veh. C stated all repairs must be approved by C, so if the dlr advised the other employees more repairs might be needed, C would be aware. C stated C would not have given permission. C stated now the dlr has given C two options: 1) Pay the $1k and retrieve C's veh without the concern being resolved 2) Pay $4k for veh repairs. C stated the dlr should have explained C's options clearer. C stated C contacted the dlr in regards to the repairs and the SM advised C's employees had approved the repairs. C stated the dlr did not advise that additional repairs would be needed. C stated C advised the dlr to remove the parts installed and C would pay for the diagnosis fee, or, dlr could repair the veh for $1,600.00 C stated the dlr declined. C stated C has no choice now. C stated C would have never authorized the repairs if C knew the concern might not be resolved. EXEC-EB apologized for the inconvenience. EXEC-EB advised EXEC-EB has spoken with the dlr, because both sides of the story must be taken in order for a thorough investigation. EXEC-EB advised dlrs are independently owned and operated, and if dlr is advising C has to pay for the repair attempts, EXEC-EB cannot force the dlr. EXEC-EB advised if the dlr had made repairs to the veh. C stated the dlr stated dlr did. C stated it is C's word against dlr's. EXEC-EB advised in order for the parts to be removed, the dlr has to pay for labor. EXEC-EB advised once the parts have been installed on a veh, dlr might not be able to get the complete amount of money dlr paid for the part, back. C stated if EXEC-EB is going to tell C the same thing the previous two agents advised, it is a waste of C and EXEC-EB's time. C stated C will just speak with EXEC-EB's supervisor. EXEC-EB advised EXEC-EB is the highest point of escalation, and will be C's only POC. C stated C will continue to send e-mails.

EXEC-EB advised all of C's correspondence will be redirected to EXEC-EB.
C stated ok.
C thanked EXEC-EB for contacting C.
Call ended mutually.

EXEC-EB received the following e-mail from SM-Brad:
"Morning Shenee,

Sorry for the late response, our email was switched between servers or some such thing and has been a bit wonky.

The vehicle has been subject to a significant impact in the rear and the rear quarters, deck-lid, sub frame, and suspension are visibly misaligned.

We have an open tech-line case regarding this vehicle but have not yet notified warranty call center as there was initially no dispute from EZ regarding whether the repair was warrantable or not.

When we initially contacted the rental agency regarding necessary repairs we indicated that the damage was likely accident related and our contact, Matt, was aware of the situation and authorized repair with the understanding additional repairs may be necessary.

The part was on a short backorder and Matt told us he would no longer be with the company when the part arrived and to follow up with John.

After replacement of the airbag diag module it became apparent that the OCS control unit would also require replacement per published NNA repair flow charts so we attempted to re-contact John to learn he was also now gone and to work through a Sharlene.

Sharlene immediately passed us to a fellow named Andrew Burks who was obviously coming into the situation a bit late but understood where we were and told us he would call us back with the authorization needed.

The next contact we received from EZ rental was from someone named DJ who indicated that he would not authorize any additional repairs and disputed the chain of events the entire way through this repair.

Our repair order has all the proper names, contact numbers, authorizations, and legalities.

DJ has indicated that he will not authorize the additional repair needed and disputes paying for the repair already made.

Beyond confusing I know, please feel free to call me if I can assist with clarification via phone call.

"Mr. Thacker,

I am fleet manager for E-Z Rent A Car and have an issue with a Nissan Dealer in San Diego, CA. I have tried to resolve my issue with the dealership and they are not willing to work with me. I decided to call your main customer service and opened a case. After almost ten days and three voicemails, I received a call that was very disappointing. I would like for you or someone in your office to contact me to discuss my issue.
