Left Front

Left Fro

A close-up photograph of a mechanical component, likely a brake shoe or a similar part, showing significant wear and discoloration. The component is dark grey or black with some lighter, worn areas. A white label with black text is placed in the foreground, partially overlapping the component. The background is dark and out of focus.

Left Front

Left Rear

Left Rear

A close-up photograph of a metal joint, likely a suspension component, showing significant rust. The rust is a reddish-brown color and is concentrated in the crevices and on the surface of the metal. A white label with the text "Right Rear" is attached to the metal. The metal itself is a light gray color, possibly aluminum or steel. The background is dark and out of focus.

Right Rear

A close-up photograph of a vehicle's right rear wheel hub and brake assembly. The image shows the brake disc, brake pads, and the hub. A white label with the text "Right Rear" is placed over the lower part of the assembly. The brake disc and pads appear to be in good condition, with some rust visible on the hub.

Right Rear

Right Front

This image shows a close-up view of the right front suspension assembly of a vehicle. The primary component visible is a control arm, which is a curved metal part that connects the lower control arm to the steering knuckle. The control arm is shown in a bent position, likely due to the vehicle's weight or the way it was positioned for the photograph. The metal surfaces are dark and show signs of wear and rust, particularly on the upper portion of the control arm. A coil spring is visible in the background, partially obscured by the control arm. The overall appearance is that of a well-used, possibly older, vehicle component.

A close-up photograph of a vehicle's rear suspension system. The image shows several dark-colored coil springs and a white plastic component. A white rectangular label with the text "Left Rear" is attached to the suspension. In the background, a green and white striped label is partially visible. The overall scene is brightly lit, likely in a workshop or garage.
