Re: EQ15-003

Dear Ms Glass,

In response to the information request for EQ 15-003, and upon review of our operations, Complete Coach Works does not believe there to be a safety issue in any of the buses that we repowered with the Cummins, Inc. engine heater hoses. Although Complete Coach Works purchased 58 units, these engines were not installed in motorhomes and not as a vehicle manufacture. They would have been installed as a retrofit on customer owned vehicles. We have not been informed of heater hose failure in any bus that we have retrofitted.

Additionally, any failure of a heater hose would pose no risk of injury to any occupant of the bus.

Therefore Complete Coach Works is not conducting a recall on this issue.

Should you have any questions or require further information, please do not hesitate to contact me.

Thank you.

Sincerely,

A handwritten signature in blue ink that reads 'Paula Rudd'.
