In response to the information request for EQ 15-003, the 72 thermostats that Sunny D Manufacturing purchased from Cummins Inc, were not used in the manufacture of transportation vehicles. The thermostats were installed in a hay squeeze machine used in agricultural applications. Our installation has no common parts with the Blue Bird Buses addressed in the request.

While Sunny D Manufacturing is a vehicle manufacturer, we have not received any complaints of a similar failure as described in the request.

Therefore, Sunny D MFG, is not conducting a recall on this issue.

Thank You for your quick response on this matter.
