How do you feel about the durability of your new vehicle?	4.
Headlight illumination/performance during night-time driving	5.
Ride quality	5.

Overview	
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
DVD format is easy to understand and use	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the DVD	3 (neither satisfied nor dissatisfied).
Printed User Guide format is easy to understand and use	4 (agree).

Overview	
Information in the Printed User Guide is easy to find and access	4 (agree).
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings. Motor Trend. Road and Track. Car and Driver.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
What have you used to view your DVD? (check all that apply)	Computer/laptop.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Information on the DVD is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Seat material concerns	
Please indicate which seat has trouble with its material (check all that apply):	Same as drivers Seat bolsters much too hard
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Seat material trouble is:	Other (please describe).
Please describe conditions when this trouble occurs:	Bought aftermarket seat cushions to alleviate the discomfort
How often does this trouble occur?	Trouble occurs regularly.

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system freezes-up/will not work. Difficulty accessing Points of Interest. Navigation system works, but missing information; has incorrect information; gives wrong directions. Points of Interest not well defined.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Entertainment/Navigation System/Connectivity	
If known, please tell us your software version	
Please choose your cell phone brand	Apple.
Please choose your cell phone carrier	AT&T Mobile.
Please tell us your cell phone model	4s

Detail on High Rated Items	
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	Best car stereo I have had
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Auto headlights seem to work well
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Very quiet ride
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	Like the combination of traditional controls and touch screen

Detail on High Rated Items	
You rated ride quality High. Use this space to provide any specific comments you would like to share.	Smooth ride

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Nav is not as good as my old portable Garmins. Front seats to hard. Few quirks have come up with the collision avoidance system and ins consistent operation when the wipers set on auto.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Weak database, my old Garmin is much better.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Seats. Entertainment/Navigation System/Connectivity. Brake System.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	

Navigation system freezes-up/will not work	
Please describe conditions when this trouble occurs:	Locked up in an urban area, would not reset for over 1/2 hour.
Additional Comments:	The screen going blank with a warning you are driving in an unverifiable area is extremely irritating when the nav directed you to turn on a road or you simply pulled off to the side of a road.
How often does this trouble occur?	Trouble occurs intermittently.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Several times it clearly tried to direct me in the wrong direction when I could see the correct path. Very weka POI database.

Seat Material	
Seat Material	Seat material concerns.

Overview	
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took the the dealer to fix the ABS light issue. it was a re-call
Was the trouble resolved to your satisfaction?	Yes.
Please explain further about your choice to recommend your vehicle:	Overall it is a great car. There were a few minor electrical problems at first, but they were handled under the recall, and we havent any issues since.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Did you review the Printed User Guide?	No.
Did you review the Owner's Information DVD?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.

Welcome	
Are you the primary driver of this vehicle?	No.
Please tell us how many miles are currently on your vehicle:	5,000-6,999.

What Can We Do Better?	
Feedback/Concerns:	It's a great vehicle, my wife drives it. When i drive it, i have to turn off the park-assist and the collision avoidance system, because they can get annoying. that's just my opinion, not really a concern.
What has Chrysler done right?	The styel is great, much better than past years. The overall feel of the vehicle seems more stable and solid. I manage a collision repair shop, and i've driven every vehicle on the market, so i'm familiar with cars that are built well and cars that arent, and i feel like our car is a well built car.

Displays and Instruments	
Displays and Instruments	Instrument panel illumination/warning/indicator lights broken/not working.

Features and Controls	
Features and Controls	Door locks/key fob entry system.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	The collision avoidance alarm will go off when i'm nowhere close to getting into an accident at times. This mostly happened during the winter when the front bumper had ice on it but it has happened in the summer when the bumper was clean

Voice Activation / Recognition doesnt recognize command	
What button did you use?	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	It has trouble with certain types of name pronunciations

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Entertainment/Navigation System/Connectivity. Features/Controls/Displays.

Hard controls/menus: Front Screen Display difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	I bump the phone button all the time and have to be careful not to hit the paddle shifters or I will accidentally put the car in manual

Text messaging broken/not working	
Please describe the trouble you experienced (check all that apply):	This feature use to work while I was driving then suddenly stopped. If I get a text I have to fumble around the touch screen to reply while the car is moving It has not understood what i've said many times. Very frustrating starting text messages over more than once
Please describe conditions when this trouble occurs:	
How often does this trouble occur?	Trouble occurs regularly.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	My major complaint is the lack of reliability. I had several major issues that required it to be returned to the dealer to be fixed in the first couple months

Detail on Low Rated Items	
	after I purchased it. Since then theres been a steady stream of minor issues that have caused me a lot of of frustration.

Vehicle Issues/Things Gone Wrong

Continuous Quality Insight	Brake System. Engine. Steering, Handling, and Ride. Entertainment/Navigation System/Connectivity. Seats. Transmission and Drivetrain.

Hands-Free Phone / Bluetooth system loses connection

Is there more than one phone paired to the vehicle?	No.
Were you in the middle of a call?	Yes, and did not transfer call to headset.
How often does this trouble occur?	Trouble occurs regularly.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.
Lost connection problem happens when:	In the middle of a call.

Brakes vibrate/shudder excessively when applied

Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	The auto break feature where the breaks pump and a disturbing sound emits when the vehicle thinks you are about to hit sometime ahead of you (or if it senses another car crossing your path), really needs more work. Frequently, the auto-break will kick in when there is no impending stoppage threat. I've noticed it most when a car in front of me is slowing down to turn right. The auto-breaking will kick in even when there is plenty of room for me to proceed without the turning vehicle ahead to clear.
Vibration is:	Severe.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Memory Seat controls are broken/not working

Additional Comments:	Also, the memory seats seem to get confused between my settings and my wife's settings when we're both in the Jeep at the same time. It'll adjust to her settings (driver 2) when I'm the one driving.
Please describe conditions when this trouble occurs:	My memory seat loses it's memory way too often. Have had this same problem with my 2011 Jeep GC, and still exists in my 2014 Jeep GC.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.

Entertainment/Navigation System/Connectivity

Please tell us your cell phone model	iPhone 4S, soon to be iPhone 6+
Please choose your cell phone carrier	AT&T Mobile.
If known, please tell us your software version	
Please choose your cell phone brand	Apple.

Uconnect Access application does not work on my phone

Please describe conditions when this trouble occurs:	Uconnect app doesn't always connect to my Jeep, and I always question whether it's actually performing the command that I initiate on the app.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system loses connection.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Voice Activation / Recognition doesnt recognize command	
How often does this trouble occur?	Trouble occurs regularly.
What button did you use?	
Do you usually set HVAC vent direction toward ceiling?	No.

Uconnect Access	
Uconnect Access	Uconnect Access Application. Remote Features.

Uconnect Access Application	
Uconnect Access Application	Uconnect Access application does not work on my phone.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition feature does not have enough functions available. Voice Activation / Recognition doesn't recognize command.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	5,000-6,999.

Brake Operation	
Brake Operation	Brakes vibrate/shudder excessively when applied.

Text messaging works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Doesn't seem flexible enough to allow necessary changes when it doesn't get my text correct....which is often.

Adjustments and Controls	
Adjustments and Controls	Memory Seat controls are broken/not working.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	The traffic avoidance feature really doesn't work at all. Spent an extra hour in Atlanta traffic thanks to the GPS continually rerouting my route. Went in a circle for more than 30 minutes until I shut it off and found my way on my own.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Cruise control system works properly, but difficult to understand/use; controls in a poor location

Please indicate why the cruise control system controls are difficult to understand/use; are in a poor location (check all that apply):	The adaptive cruise responds too quickly when changing lanes. When behind someone going slower than the cruise is set, and then lane changing behind a passing car, the SRT accelerates as soon as it reaches mid lane change, and consequently, can ride up on the car ahead, and brake quickly. Just a little pause, or a wider radar path seems appropriate.

About You

Which of the following best describes the area you live in?	Suburban.
Please indicate your occupation status.	Employed.
What is your primary language?	English.
When considering this vehicle	Interact with dealership by email. Test drive the vehicle. Visit the dealership. Interact with dealership by phone. Research online.
Primary vehicle in your household:	Jeep. 2014. Grand Cherokee.
Did you purchase or lease your vehicle?	Lease.
Which, if any, influenced your purchase decision? (check all that apply):	Manufacturer?s website. Vehicle test drive. On-Line blogs or forums. Automotive magazines.
Is this your first new vehicle ever purchased / leased?	No.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	
Please tell us about the vehicle you replaced (if applicable)	2011. FX50. Infiniti.
Convenience of dealership location	1.
Financing options	1.
Vehicle performance	3.
What is your total household income (before taxes)?	More than $200,000.
Please indicate your occupation.	Owner / Proprietor.
Secondary vehicle in your household:	Secondary Household Vehicle: Purchased Used. G37 Convertible. Infiniti. 2014.
Primary vehicle you were considering:	Audi. Q5.
Please indicate your ethnicity	[redacted]
Please indicate your highest education level	High school degree / GED.
Please indicate your gender	[redacted].
What year were you born?	1[redacted]
How may children 17 or under live in your household?	0.
Price	1.
Ability to test drive	1.

About You	
Vehicle fuel economy	1.
What is your average miles per gallon (MPG) with your vehicle?	16-18 mpg.
Please indicate the primary driver's age.	[redacted]
What is your current marital status?	[redacted]
Secondary vehicle you were considering:	Secondary Considered Vehicle: Used.
What price did you pay for your vehicle?	68000

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.

Vehicle Satisfaction Ratings	
Ease of using system displays while driving	5.
Navigation system route accuracy	5.
Exterior design and appearance (overall impression)	5.
Front view styling (front fascia, hood, grille, headlight area)	5.
Seat adjustment and comfort	5.
Steering wheel adjustment	5.
Climate control operation (function and ease of use)	5.
Engine exhaust sound	5.
What is your attitude overall towards the BRAND of your new car?	5.
Is there anything about your new vehicle you would like to see changed?	I noted the Adaptive Cruise and silver colored vent covers.
Interior comfort, design and appearance of interior (overall impression)	4.
Operating controls while driving (gear selector, turn signals, horn, etc.)	4.
How was your purchasing experience (the dealer/dealership)?	4.
Clarity of sound	5.
Wheels, rims, and tires appearance and styling	5.
Vehicle storage and space usage	5.
Head/leg/foot room	5.
Location and usefulness of interior lighting	5.
Brake responsiveness/effort	5.
What is your attitude overall towards your new car?	5.
How do you feel about the VALUE of your new car? (i.e.	5.
Integration with media players	5.
Support for popular music/video formats	5.
Rear view styling (rear fascia, bumper)	5.
Interior noise level while driving	5.
Fuel economy and driving range	5.
Steering and handling (responsiveness, stability)	5.
How do you feel about the durability of your new vehicle?	5.
Engine performance during acceleration	5.
Transmission gear change performance (smoothness)	5.
Ride quality	5.
What are your favorite parts of your new vehicle?	The engine and the ride smoothness.
Engine sound	4.
Overall audio, entertainment, and navigation system impression	5.

Overview	
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
The Smartphone Application format is easy to understand and use	4 (agree).
Printed User Guide format is easy to understand and use	5 (strongly agree).
Information in the Printed User Guide is easy to find and access	5 (strongly agree).
Did you review the Owner's Information DVD?	No.
Did you review the Printed User Guide?	Yes.
Printed User Guide covers the necessary features	5 (strongly agree).
Smartphone Application covers the necessary features	5 (strongly agree).
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).

Overview	
Please provide feedback on how Chrysler can improve the Smartphone Application	The remote start via cell phone is very slow (and most features) in comparison to the Viper cellular remote start I've previously used. It takes 1-1.5 minutes before the car responds.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Detail on High Rated Items	
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	5 decibels quieter than my 2011 Infiniti FX50. Very Nice
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	I actually like the fact that it's not an incredibly loud exhaust.

What Can We Do Better?	
Feedback/Concerns:	I didn't see where to comment on this - the covers for the heating/cooling vents are a brushed silver in color. The problem is that during bright sunshine, they reflect terribly in the side mirrors, similar to what a piece of white paper would do on the dash board. The glare/reflection is really annoying and distracting, if not potentially dangerous. I'd like to see those in a matte black instead to reduce reflection.

Cruise control system	
Cruise control system	Cruise control system works properly, but difficult to understand/use; controls in a poor location.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Trim/Storage/Windows. Features/Controls/Displays.

Features and Controls	
Features and Controls	Cruise control system.

Hands-Free Phone / Bluetooth system loses connection	
Were you in the middle of a call?	Yes, and transferred call to headset.
Additional Comments:	Noticed that it loses connection to bluetooth after streaming audio via aHa after about 1.5 hours... Has happened multiple times
Lost connection problem happens when:	Other: Please describe when this trouble occurs.
How often does this trouble occur?	Trouble occurs intermittently.
Is there more than one phone paired to the vehicle?	No.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.

Uconnect Access Application	
Uconnect Access Application	Uconnect Access features are confusing.

Other	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe the other trouble you experienced:	The camera on the Advanced Tech Package is too sensitive. I have experienced auto braking on a highway going in excess of 65 mph... Car took a dip in the road hard and i guess the camera faced down towards to road and it hit the brakes on me... Has also happened on a city street going at about 20mph after hitting a bump... almost got hit by car behind me...
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	car is no longer level to ground
How often does this trouble occur?	Trouble occurs intermittently.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.

Remote vehicle start is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Takes up to 5 minutes to start?????? Why?
Please describe the trouble you experienced (check all that apply):	too slow to work
Do you recall your cellular coverage at the time?	Full cellular coverage.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system loses connection. Hands-Free Phone / Bluetooth system has poor sound quality at far end. Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Speakers have poor sound quality	
Trouble with speaker occurs:	Only at high volume levels.
Please indicate which speaker has trouble (check all that apply):	The previous JBL system sounded much better Dosnet really have lows
Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.

Speakers are not loud enough	
Please describe conditions when this trouble occurs:	
Trouble with speaker occurs:	Only at high volume levels.

Entertainment/Navigation System/Connectivity	
If known, please tell us your software version	4.4.4
Entertainment/Navigation System/Connectivity	none
Please choose your cell phone carrier	T-Mobile USA.
Please tell us your cell phone model	Nexus 4
Please choose your cell phone brand	LG.

Uconnect Access features are confusing	
Additional Comments:	Have to force close and restart app sometimes..
Please describe conditions when this trouble occurs:	Stays red

What is your primary language?	English.
Primary vehicle you were considering:	Highlander Hybrid. Toyota. 2014. No
Which, if any, influenced your purchase decision? (check all that apply):	Kelley Blue Book. Manufacturer?s website. Previous experience with the vehicle/brand. Consumer Reports ratings. Edmunds. Vehicle test drive. NHTSA or IIHS safety ratings. On-Line blogs or forums. Dealership information.
Ability to test drive	5.
Vehicle quality	5.
Vehicle fuel economy	5.

About You

Did you purchase or lease your vehicle?	Purchase.
Secondary vehicle you were considering:	Secondary Considered Vehicle: Used.
Which of the following best describes the area you live in?	Urban.
Please indicate your ethnicity	[redacted]
Is this your first new vehicle ever purchased / leased?	Yes.
Dealership treatment	4.
Vehicle styling	4.
Please indicate your highest education level	4 year college degree.
Vehicle availability	5.
When considering this vehicle	Research online. Visit the dealership. Test drive the vehicle.
What year were you born?	[redacted]
What is your average miles per gallon (MPG) with your vehicle?	19-20 mpg.
Price	4.
Vehicle performance	5.
Please indicate your gender	[redacted].
What is your current marital status?	Married.
Please indicate your occupation.	Professional Specialty.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	
How may children 17 or under live in your household?	0.
Convenience of dealership location	2.
Primary vehicle in your household:	2012. No Prius. Toyota.
Please indicate the primary driver's age.	30 - 39.
Please indicate your occupation status.	Employed.
Secondary vehicle in your household:	Secondary Household Vehicle: Purchased Used.

Overview

Please explain further about your choice to recommend your vehicle:	I would. I loved my old Jeep. I'm sure the transmission issues are something that will be ironed out in the newer vehicles. Overall vehicle quality is good. I have contacted the dealership about service/looking at transmission issues, but they have not contacted me back.
What have you used to view your DVD? (check all that apply)	Computer/laptop.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
DVD format is easy to understand and use	3 (neither agree nor disagree).
Which automotive publications do you subscribe to? (check all that apply)	N/A
Was there information needed that was not included in the DVD?	Don't know.
Please provide feedback on how Chrysler can improve the Printed User Guide	Hard to learn a vehicle's operation in such a short manual. But it's effective.
Please provide feedback on how Chrysler can improve the DVD	It's neat but not really all that practical for a manual. Would be better if the manual was on the radio or something in the car itself. iPad or whatever.
Please rate your overall level of satisfaction with the DVD	3 (neither satisfied nor dissatisfied).
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Was there information needed that was not included in the User Guide?	Some of the more detailed features about the car, but could be found on the interactive manual.
Printed User Guide covers the necessary features	3 (neither agree nor disagree).

Overview	
Information on the DVD is easy to find and access	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	iPhone 5
Please choose your cell phone carrier	AT&T Mobile.
If known, please tell us your software version	iOS 8.0.2
Please choose your cell phone brand	Apple.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Transmission concerns listed in this survey. 615-426-2195.
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Via Mobile works properly, but is difficult to understand/use	
Additional Comments:	Why do I have to have my phone actually RUNNING the app for this to work? VERY frustrating. Should this not be able to run on it's own? I'd rather just run Pandora on my phone through Bluetooth than do all these extra steps to get it to work.
Please indicate which of the following best describes your concern (check all that apply):	Why do I have to have my phone actually RUNNING the app for this to work? VERY frustrating.
Please indicate which feature(s) of Via Mobile are difficult to understand/use (check all that apply):	Pandora.
Please describe the trouble you experienced (check all that apply):	Setup confusing.

Shifts at wrong times	
Going into which gear/gears does the trouble occur? (check all that apply)	See page before. See page before. See page before.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	See page before. See page before. See page before. See page before. See page before. See page before.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	See page before. See page before. See page before.
How often does this trouble occur?	Trouble occurs intermittently.
Are you using your vehicle for towing when the problem occurs?	No.

Vehicle Satisfaction Ratings	
Integration with phones	4.
How do you feel about the durability of your new vehicle?	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	4.
Overall audio, entertainment, and navigation system impression	5.
Rear view styling (rear fascia, bumper)	5.
Head/leg/foot room	5.
Location and usefulness of interior lighting	5.
Climate control operation (function and ease of use)	5.
Brake responsiveness/effort	5.
How was your purchasing experience (the dealer/dealership)?	5.
What is your attitude overall towards your new car?	5.
What are your favorite parts of your new vehicle?	From my old vehicle to this one, what's not to like?
Is there anything about your new vehicle you would like to see changed?	Transmission made better.

Vehicle Satisfaction Ratings	
How do you feel about the VALUE of your new car? (i.e.	4.
Appearance of exterior paint	5.
Ease of getting into and out of vehicle	5.
Interior noise level while driving	5.
Engine sound	5.
Steering and handling (responsiveness, stability)	5.
Fuel economy and driving range	3.
Clarity of sound	5.
Front view styling (front fascia, hood, grille, headlight area)	5.
Wheels, rims, and tires appearance and styling	5.
Vehicle storage and space usage	5.
Engine exhaust sound	5.
What is your attitude overall towards the BRAND of your new car?	5.
Transmission gear change performance (smoothness)	2.
Navigation system route accuracy	4.
Ease of using system displays while driving	5.
Exterior design and appearance (overall impression)	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Headlight illumination/performance during night-time driving	5.
Interior comfort, design and appearance of interior (overall impression)	5.
Seat adjustment and comfort	5.
Steering wheel adjustment	5.
Safety and visibility while driving	5.
Engine performance during acceleration	5.
Ride quality	5.

Shift between gears is rough/harsh under normal driving conditions	
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	This usually gives hard shifting from 1st->2nd. Same as before. Usually only encounter the downshifting issues, though the 1st->2nd shifting may occur.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	WORST is 1st to 2nd on cold startup (engine not outside temp). Car will lunge forward every time. I'm not accelerating fast in a parking lot. Yep. Same as decel. If you decelerate for a time even if speed is not reduced, car will downshift. Same as maintaining on steep hilly roads. See same in Normal accel. If going downhill at moderate speeds the transmission will downshift especially if in fifth or fourth, down to a lower gear causing lurching/jerking.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Additional Comments:	I know the transmission is computer operated, but there are some major issues here. I don't want my new vehicle to need a transmission in 3 years. No one seems to acknowledge this issue, though it's very well talked about online. I love my Jeep and my Jeep before it. But this is something Chrysler should prioritize and fix.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
How often does this trouble occur?	Trouble occurs regularly.
Going into which gear/gears does the trouble occur? (check all that apply)	Coming down from fourth, car will shift hard into third. Also will downshift while going downhill, causing the vehicle to pullback. Also sometimes coming down from fifth, car will shift hard into fourth. Also will downshift while going downhill, causing the vehicle to pullback. Shifting up to 2nd, car will lunge forward. Sometimes very harshly
Please describe conditions when this trouble occurs:	See notes above.

Hesitation or delay when shifting between gears	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	See page before. See page before. See page before. See page before. See page before. See page before. See page before.

Hesitation or delay when shifting between gears	
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	See page before. See page before.
Please describe conditions when this trouble occurs:	
Going into which gear/gears does the trouble occur? (check all that apply)	See page before. See page before. See page before.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Entertainment/Navigation System/Connectivity. Transmission and Drivetrain.

Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.). Hesitation or delay when shifting between gears. Shift between gears is rough/harsh under normal driving conditions. Shifts at wrong times. Slips/will not engage gear properly/shifts erratically.

Gear selector is difficult to operate (auto. trans.)	
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
Going into which position is the gear selector difficult to operate? (check all that apply):	Sometimes switching from Drive to R, it will go directly into P which is frustrating. Most of the time from P, I hit N then have to pull again for Drive.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.

Text messaging works properly, but is difficult to understand/use	
Please describe the trouble you experienced (check all that apply):	Won't allow reply or any other function other than reading. Won't read message.

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front Screen Display: Other Concerns.

Uconnect Store	
Uconnect Store	Uconnect store works but is difficult to understand/use.

Uconnect Access	
Uconnect Access	Uconnect Store. Uconnect Access Application.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
What button did you use?	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.

What Can We Do Better?	
Feedback/Concerns:	I've filled out several surveys, I wish there was only one or two? I think this is the fourth! Love a call from someone with knowledge about the transmission issues. Radio could be better. Would love if Jeep/Chrysler would support an upgrade to iOS in the Car when available to older models that will support it. Would love to see a Jeep Hybrid or at least one that has a engine that would turn off at a stoplight. If environment is a big selling feature for Jeep, then Jeep should be a leader in it.
What has Chrysler done right?	My JGC is a solid vehicle. Has the style that I like and we're very happy. I would have kept my 97 JC for 10 more years, had we not needed a new vehicle for a life changing event (baby). I will continue to recommend the brand to those who ask.

Uconnect Access features are confusing

Uconnect Access features are confusing	
Additional Comments:	Why does UConnect have to run on the phone for the App to work on the car?
Please describe conditions when this trouble occurs:	Running Apps

Welcome	
Please tell us how many miles are currently on your vehicle:	7,000-9,999.
Are you the primary driver of this vehicle?	Yes.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
What button did you use?	
How often does this trouble occur?	Trouble occurs intermittently.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Uconnect Access Application	
Uconnect Access Application	Uconnect Access features are confusing.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition feature does not have enough functions available. Voice Activation / Recognition doesn't recognize command.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Transmission issues have been low. Non-response on that has been concerning. The apps integration (Pandora, etc.) is not useful.

Uconnect store works but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Store really doesn't do anything on the car. I have to go to the website to activate Pandora. Then there's the whole deal about the app, described earlier.

Via Mobile	
Via Mobile	Via Mobile works properly, but is difficult to understand/use.

Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree). [2014-08-25 01:16:47.870]
Was the trouble resolved to your satisfaction?	No. [2014-08-25 01:16:47.870]
Where did you take your vehicle to have your trouble checked out? (check all that apply)	"Took to the dealer I purchased my vehicle from. [2014-08-25 01:16:47.870]""2 weeks after I bought it. They couldn't do anything, Chrysler then said they couldn't do anything. Here we are 8 months later on a car I spent over $50,000 on and my warranty of a new dash has not been met. I have had 3 or 4 recall notices on the car. Jeep discontinued making the color of my dash and refuses to fix it, the dealership of course won't fix it because they say its Chryslers problem. Its a joke if you ask me that no one will fix it or even take fault for there being something wrong. I would never recommend Jeep to anyone and if I could return my car and get all of my money back I would."""
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes. [2014-08-25 01:16:47.870]
""""If our team has any additional questions about your responses, would you accept further contact?"""""	""""Yes, by phone or e-mail. "" [2014-08-25 01:16:47.870]"
Please explain further about your choice to recommend your vehicle:	""""I purchased a brand new Jeep Cherokee Overland in late November of 2013. At the time I did no have my license. I did however receive my license on December 10, 2013 and at that time noticed that the dash board of the brand new vehicle was cracked. So my first time driving my car I went to the dealership in which I purchased it, Colorado Chrysler Jeep. They took the pictures and sent it in to corporate because it was under warranty. I didn't hear anything for about a month and so I figured I would call. Upon calling the gentleman who filed my warranty claim he never returned my phone calls. After three other times calling and now a month and a half after filing the claim someone was able to let me know that the part was on its way. So I make an appointment for my car to be taken in on a Monday. I bring it in early so that they can start working on it right away. They tell me it is going to be a 2 day job so it should be done on Wednesday. So I call them on Wednesday and they say it is taking a little longer and should be done on Thursday. So I call back on Thursday and they say again that it is taking longer so it will possibly be Friday or over the weekend to get it done. At that point the truth comes out that they hadn't even started working on my car for the 3 days it had been there so I go to pick it up and nothing was fixed. I then get a call from the service manager letting me know what happened. He said that Jeep sent them the wrong part. He also admitted to his staff lying to me about working on it when it was in their and that they should have told me what was going on. So he says they will order the part again. Order the part again and its the wrong color. We repeat this about 3 times and come to find out that Jeep

Overview	
	discontinued making the color of dash that I have in my 2014 Jeep. This is now 5 months after my initial warranty claim we are finding this out. So I take my complaint to the Jeep corporate office and quickly get "" [2014-08-25 01:16:47.870]"
"""Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?"""	Yes. [2014-08-25 01:16:47.870]
Smartphone Application covers the necessary features	3 (neither agree nor disagree). [2014-08-25 01:16:47.870]

What Can We Do Better?>	
Feedback/Concerns:	Don't stop making the interior of a car months after you sell a car? What do I do now if I get in a car wreck months or years from now? You couldn't get me a new dash that was the same 1 month after I bought the car so you think you are going to be able to years from now. Shame on you Chrysler for ripping people off and not caring. You didn't care enough to have me talk to anyone but some 20 year old straight out of high school reading off of a script in your call center. [2014-08-25 01:16:47.870]
What has Chrysler done right?	"""Absolutely nothing! Chrysler should be ashamed of how they do business in that someone spends over $50,000 on a car, they discontinue making the color of their interior 2 months after the car is bought and then say well its out of our hands. I believe the exact words of the Customer Care Agent was """"well that dash is as close as we can get"""". The first day I drove my car I went straight back to the dealership to report this problem and 8 months later Chrysler has done nothing and the dealership has done nothing!"" [2014-08-25 01:16:47.870]"

"""To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you."""	"""I purchased a brand new Jeep Cherokee Overland in late November of 2013. At the time I did no have my license. I did however receive my license on December 10, 2013 and at that time noticed that the dash board of the brand new vehicle was cracked. So my first time driving my car I went to the dealership in which I purchased it, Colorado Chrysler Jeep. They took the pictures and sent it in to corporate because it was under warranty. I didn't hear anything for about a month and so I figured I would call. Upon calling the gentleman who filed my warranty claim he never returned my phone calls. After three other times calling and now a month and a half after filing the claim someone was able to let me know that the part was on its way. So I make an appointment for my car to be taken in on a Monday. I bring it in early so that they can start working on it right away. They tell me it is going to be a 2 day job so it should be done on Wednesday. So I call them on Wednesday and they say it is taking a little longer and should be done on Thursday. So I call back on Thursday and they say again that it is taking longer so it will possibly be Friday or over the weekend to get it done. At that point the truth comes out that they hadn't even started working on my car for the 3 days it had been there so I go to pick it up and nothing was fixed. I then get a call from the service manager letting me know what happened. He said that Jeep sent them the wrong part. He also admitted to his staff lying to me about working on it when it was in their and that they should have told me what was going on. So he says they will order the part again. Order the part again and its the wrong color. We repeat this about 3 times and come to find out that Jeep discontinued making the color of dash that I have in my 2014 Jeep. This is now 5 months after my initial warranty claim we are finding this out. So I take my complaint to the Jeep corporate office and quickly get "" [2014-08-25 01:16:47.870]"

Other

Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
Please describe the other trouble you experienced:	Probably should have included the fan speed control issue here, but didn't know space would be available.

Front doors are difficult to open/close

Additional Comments:	Call me if you need information in addition to what I have provided above
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which door is difficult to open/close (check all that apply):	Does not latch properly unless you use extreme strength behind swinging door to close it

Squeak/rattle/abnormal noises from sun visor/vanity mirror

Please describe conditions when this trouble occurs:	Every single time a visor is touched, it pops out of the holder.
Additional Comments:	The sun visors have a very poor mechanism.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which Sun Visor has abnormal noises	Any time someone touches one of the sun visors, it pops out of its holder and swings toward the occupant. No matter how light the touch is to swing it down, it pops out of the holder and has to be reinserted which requires taking your eyes off of the road because it has to be inserted "just so" to get it to go in and stay in place.
How often does this trouble occur?	Trouble occurs regularly.

About You

What price did you pay for your vehicle?	48,279
Please indicate your ethnicity	[redacted].
Which, if any, influenced your purchase decision? (check all that apply):	Consumer Reports ratings. Manufacturer?s website. Automotive magazines. Dealership information. Vehicle test drive.
Please indicate your occupation.	Executive / Managerial.
Trade-in allowance	1.
Price	2.

Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	Greater versatility in use of Grand Cherokee compared to truck
What is your total household income (before taxes)?	$60,000 - $79,999.
How may children 17 or under live in your household?	0.
Convenience of dealership location	4.
Please indicate your gender	[redacted].

Interior materials soils/scuffs too easily

Additional Comments:	Again, it is beautiful material. Only time will tell if it becomes as unsightly as I fear it may.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Detail on High Rated Items

You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	Again, we use the system for music from a smart phone and are listening to many of the XM stations. Haven't tried video formats yet, but if we keep this vehicle, will give that a try and should love it too.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	Love the look!
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Quality of light and front and side distance covered is excellent. Not sure the automatic and variable adjustment features are working correctly, but hope to figure that out soon.
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	There is a height difference for me and my spouse who occasionally drive our Jeep so the power adjustment of the steering wheel is a very nice feature for us. Best I have used thus far in my long history with buying vehicles.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Nice, comfortable interior. No concerns except for amount of storage and no space to set things like purses, paperwork, etc.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Steers and handles so easily, it could be an over-steering problem for an inattentive driver, but I love it.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	We purchased the Summit model because of the additional chrome in these areas and the look of this model compared to the lower cost models.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	Don't hear a thing.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	Getting good mileage, especially considering the speeds and terrain we drive.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	Good acceleration. Couldn't ask for better.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	My daughter and I are both tall. We have plenty of head/leg/foot room. Never a bumped head.
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	No problems here. Not noticing the brakes at all means they are working well and I am comfortable with the operation.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	We loved the look of this vehicle which is why we started considering purchasing one. We still love the look, but the issues identified pre-purchase and our experience with the dealership has us feeling like it may not have been a good purchase.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	We use this feature all the time. It is a great safety feature for driver and passengers. Looking forward to the day when multiple phones can be linked to the system at the same time.
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	Love the access to many features and settings on steering wheel. Still getting familiar with features and screen appearance on dash but so far feel like most things are easy to use and readily accessible. Love the look!

Detail on High Rated Items	
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	My daughter who is in her early 20s plays music from her smart phone through this system and we love it.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	Nice and quiet.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	Very smooth changes between gears.

Steering wheel vibrates excessively while driving	
Please describe conditions when this trouble occurs:	All conditions when reach speeds around 45 mph.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Vibration is:	Moderate.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
Steering wheel vibration trouble occurs during these speeds (check all that apply):	Didn't notice at very low speeds but long before hit 45-50 miles per hour I and front and rear passengers could feel the vibration. The vibration was significant enough that I believed it was a safety hazard and insisted it be fixed right away if I bought the vehicle. I consider the vibration to be moderate only because what I consider to be severe would be a vibration that caused me to lose control of the vehicle. With this significant but not severe vibration, I could keep control of the vehicle on smooth roadway. When the road was bumpy, the vehicle would "dance" around and I didn't have complete control and slowed down.
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	Problem was noticed during test drive and fixing it right away was a condition of my purchasing the vehicle. Much frustration accompanied the process of getting the dealership to begin work on this issue and the process drug out much longer than was necessary. If you want to more fully understand what happened, give me a call.

Hood is difficult to open/close	
Additional Comments:	As mentioned above, as far as I know the adjustment made by the body shop has taken care of this problem

Seat belt locks at inappropriate times or not at all; will not retract properly	
Please describe conditions when this trouble occurs:	Faulty seatbelt system is a problem at all times the vehicle has occupants.
Please indicate which seat belt has trouble (check all that apply):	As mentioned in Driver's seat field.
	As mentioned in Driver's seat field.
	As mentioned in Driver's seat field.
Seat belt trouble is:	Other (please describe).
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

What Can We Do Better?	
What has Chrysler done right?	This could be an outstanding vehicle; there is so much we love about it. I bought a life-time warranty for $3,400, MOPAR Vehicle Protection, product of Chrysler Corp., LLC, and have 60 days from the purchase date to cancel the policy. If we aren't able to resolve our issues with this vehicle and the poor quality of service from this dealership before the end of that time period, we will cancel the policy because we will not keep the vehicle under these circumstances. The policy isn't transferrable to a new owner, assuming we are able to find a new owner considering the recent bad press about recalls on the Grand Cherokee and the ever-worsening reputation of the Lithia Chrysler Jeep and Dodge dealership here in Helena. The dealership would like to make the problem to be that we are unreasonable in our expectations for vehicle quality and quick, efficient service of known, potentially dangerous mechanical issues, but we have bought many vehicles over the years from other dealerships who value our business and who we readily and highly recommend to everyone we talk to about our vehicle purchases. We stayed with a local dealer for this purchase only because we are older, retired and no longer want to drive long distances for service work. However, when we were told by this dealership that they don't want customers like us, we offered to take our service work to a dealership in another town. If you would like for us to do that, please make arrangements for us to work with another Chrysler dealership that is not a part of the Lithia Corporation. By the way, this same General Manager also told us that the persons who filed complaints with Montana's Office of Consumer Protection committed fraud when they

What Can We Do Better?	
	filed their complaints. I find this hard to believe and, even if he believed that, it was inappropriate for him to make such an accusation in his meeting with us. Your assistance with this will be greatly appreciated and maybe we will feel comfortable again in bein
Feedback/Concerns:	When you get specific and honest feedback from a customer who is not happy with your product and/or is having a bad experience with the dealership or with service issues, contact them and offer assistance. If you are proud of your product and appreciate your customers, you will do that. If you don't value these things, I will choose to b a customer of another manufacturer.

Air conditioner never gets cold enough	
Please describe conditions when this trouble occurs:	This isn't a big issue but I am used to fan controls that reduce the speed of the fan when the car is turned off and then started again so that the driver and passengers aren't blasted with air from the high speed setting when first starting the vehicle. It would be nice for future Jeeps to have this feature.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	I didn't see any place to include this other than here. The control for the fan has a significant delay between adjusting the setting by turning the knob and the change actually taking effect. It is annoying to have the fan blowing at high speed when you get in the car and having to wait for the speed to be reduced after you have turned the knob to reduce the speed.
Additional Comments:	Not a big problem but gave you a suggestion above for fan controls on future Jeeps.

Vehicle Satisfaction Ratings	
Steering and handling (responsiveness, stability)	5.

Location and usefulness of interior lighting	5.

Body panels/doors misaligned/excessive gaps/poor fit	
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the location of the trouble (check all that apply):	Info on exhaust pipe needed realignment explained above. Explained above. Explained above Explained above.

Fuel cap difficult to open/close	
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	As far as I know, this issue has resolved itself. I suggest that buyers of this vehicle be warned that the fuel filler hole is very tight
Please describe conditions when this trouble occurs:	The problem is not the door but the fuel filler hole where the gas pump spout is inserted; it was very difficult to push the spout in for the first several times we put gas in the vehicle; we had to call the dealership to get advice on how much pressure to use without damaging the components; a salesman met us at the gas station to assist and he had trouble with it also

Overview	
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings.
Was there information needed that was not included in the User Guide?	Yes. Specifics on how to set optional features. We were told it has been hard for salesmen to keep up with all of the new features and how they operate. It is much more difficult for a buyer who is seeing some of these features for the first time to understand and be able to set and operate them without an overview and question and answer assistance from someone at the dealership. A session like that was promised to us and scheduled for noon on the Monday after we bought the vehicle on the previous Tuesday, but when we arrived for the session, the salesman was with a customer and said it would have to be rescheduled. He promised to call us to reschedule it but has never called us since. After complaining to the Sales Manager and General Manager about this promised session not taking place and not being rescheduled, the Sales Manager called and left a message for me asking when we wanted to come in to meet with someone. I returned the call and left a message saying it would work best for us to do it immediately following completion of the service work that was scheduled for Friday of that week. The Sales Manager did not call to confirm or decline that schedule and no one called us to let us know the service work was completed. Finally, at the end of the day, after 5 p.m., we called the Service Department to check on our vehicle and told it was ready to be picked up. No one mentioned our session and it was too late in the day to spend the 1 hour plus the dealership estimated would be required. We have heard from no one at the dealership since. When I bought my 2014 Chevy vehicle in Great Falls, the salesman took the time to review all key components with us, offered to have us schedule a longer session at our convenience, has called us twice to see how we like the vehicle, if we have any questions and if we need assistance with anything. I have received a written thank you letter with a personal note from the General Manager of the dealership thanking me for
Printed User Guide covers the necessary features	2 (disagree).
Would you recommend this vehicle to family or friends?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	I believe the level of customer service at this dealership is relatively low compared to the service we have received from dealerships from which we bought our Chevy truck and Chevy car (two dealerships in different towns)
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Please explain further about your choice to recommend your vehicle:	Overall, this is a vehicle we could love, but all of these issues (most of which existed before the vehicle was sold) and the unfulfilled promises made by the dealership and the lack of common courtesy of calling us when they made the commitment to do so and never returning our calls has made me almost hate the vehicle. If this dealership believes our expectations are too high for what a $50,000 vehicle should be and the level of service the dealership should provide and the dealership doesn't want us as a customer, we'll be sure not to buy another Chrysler product or any other vehicle from this publicly-held company. We have been stopped by neighbors and strangers who either own a Jeep Grand Cherokee or are thinking of buying one who also have had significant problems with getting service work from this dealership, including recall

Overview	
	work. They also have been treated badly from a customer-service perspective by employees and managers of this dealership. One neighbor/owner has been waiting more than a year to get recall work done and has been told by this dealership and by the dealership from which he bought his Jeep that they can't get the parts to do the recall work. This is a sad state of affairs. State of Montana's Consumer Protection Department currently has 13 complaints about this dealership and we soon will be another one. I gave detailed information regarding my unpleasant and unsatisfying experience with this dealership and this vehicle when I was called for the third time to do a survey fro Chrysler and, frankly, with the negative ratings I gave to the dealership and the vehicle, I expected a call from someone at Chrysler to learn more and apologize for the negative experience. I have heard from no one at Chrysler. If I do not receive a contact from someone at Chrysler who can assist me in resolving these issues, I will be forced to look for other steps I can take to get resolution. I will not pay close to $50,000 for a vehicle (more than twice wha
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone only.
Please rate your overall level of satisfaction with the Printed User Guide	2 (dissatisfied).
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).
Information in the Printed User Guide is easy to find and access	3 (neither agree nor disagree).
Did you review the Owner's Information DVD?	No.
Please provide feedback on how Chrysler can improve the Printed User Guide	Information is too general and there are too many references to controls/features by names that are unfamiliar to non-technical persons.

Height adjustment controls are difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Raising/lowering the seat cannot be done in one continuous push of the control. When pushed, the seat goes down some and stops. I have to remove my fingers from the lever and then push it again to get the seat to move up or down a distance and then it stops again and I have to repeat the process until the seat is in the position I need.
Please indicate which seat's controls are difficult to understand/use (check all that apply):	The power seat height adjustment may also be a problem on this seat, but I don't know because I don't sit in this seat. Haven't yet tried this manual seat position adjustment. I noticed the sporadic operation of the power seat height adjustment on the driver's seat because that is the seat I almost always occupy.
Please indicate which type of seat controls are difficult to understand/use (check all that apply):	Specifics in response above.
Additional Comments:	The starting and stopping of this feature is very frustrating.

Seat material was damaged or dirty at delivery	
Additional Comments:	Your system doesn't allow me to return to earlier questions, but I just realized that I haven't found a place to share with Chrysler that there was a shimmy in the front end of the vehicle when I test drove it and the dealership said they would fix the shimmy right away after the purchase was complete. After several days and several attempts at fixing the problem, we took the vehicle to a tire store and bought $1100 worth of new tires to replace the tires that came on the vehicle and had it balanced. We did get a credit for the tires that were removed from the vehicle so our out-of-pocket was about $600. The vehicle still has a slight pull to the right, but I don't have much hope that the dealership will/can do anything to remedy that. It will be interesting to see how that impacts tire wear and drivability of the vehicle when we drive it more.
Trouble with the seat material is:	Dirt, grease, or other foreign material was present on the surface of the seat material when vehicle was delivered.

Adaptive front lighting system broken/not working	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Additional Comments:	I don't know if this system works or not; we haven't been able to figure out how to set anything in relation to this feature and no one at the dealership has been available or the vehicle hasn't been available for us to go over the features

Vehicle vibrates excessively while driving (not braking)	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Vehicle vibrates excessively while driving (not braking)	
Are you using your vehicle for towing when the problem occurs?	No.
Trouble occurs while traveling at these speeds (check all that apply):	See above comments on this.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	This problem was noticed by me when I test drove the vehicle. The salesman also felt the shimmy/vibration and promised the Service Department would get it fixed right away. This became a huge frustration and we missed going on two trips, one in-state and one out-of=state while waiting for this to be fixed. The dealership finally got the shimmy/vibration out but did not detect or fix the slight pull to the right. We finally took the vehicle to a tire store and had different tires put on it at a cost of $1,200 less a credit for the tires that were replaced. The cost to us was $600+.
Vibration is:	Moderate.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Fuel filler door/cap	
Fuel filler door/cap	Fuel cap difficult to open/close.

Adjustments and Controls	
Adjustments and Controls	Height adjustment controls are difficult to understand/use. Seat heater is broken/not working.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Climate Control. Vehicle Exterior. Other. Interior Trim/Storage/Windows. Seats. Steering, Handling, and Ride.

Vehicle pulls noticeably to the left/right	
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please describe conditions when this trouble occurs:	
Additional Comments:	The shimmy/vibration was noticed by us and the salesman when we test drove the vehicle. The salesman assured us it would be fixed right way after the sale. It became quite the ordeal to get the vehicle in the shop and then after several days and multiple attempts, the shimmy/vibration wasn't noticeable but the vehicle still pulls slightly to the right. We finally took it to a tire dealer and had the tires replaced at an expense of $600 to us.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Vehicle pull is:	Slight.

Exterior moldings/trim pieces loose/misaligned/falling off	
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	The driver's side exhaust pipe was hanging much lower than the piece it was supposed to fit and much lower than the other exhaust pipe; dealership adjusted it; as far as I know this problem has been resolved; the dealership had the vehicle from the night before when the body shop had finished their work and returned the vehicle and all through the next day to do this one thing; they never called us to say the work was done; we called them after 5 p.m. to ask about it and were told it was ready -- this adjustment should have taken much less time and the dealership should be responsible enough to contact the owner as soon as the vehicle is ready Back door wasn't sealing properly and dealership had body shop adjust the door so it would seal properly When test drove the vehicle before purchase, noticed and pointed out to dealership that corner of front was pulled away from the side of the vehicle; dealer had body shop remove and replace the clips; the piece still does not lay flat against the vehicle; I don't understand why the dealership accepted the work from the body shop and returned the vehicle to us at the end of the day when it still was in that condition
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is poorly aligned or fitted.

Exterior moldings/trim pieces loose/misaligned/falling off	
To the best of your recollection, the trouble was first noticed:	At delivery.

Appearance	
Appearance	Sun Visor has gaps/poor fit. Interior materials soils/scuffs too easily.

Seat will not heat enough/at all/fast enough	
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	The heated seats in our Chevy, GMC, Ford vehicles all got noticeably warm when set even on low. This feature on our Jeep is very disappointing as it is virtually non-discernible even on high setting.
Please indicate which seat has trouble (check all that apply):	The heat setting on high does not heat the seat enough for it to be felt by the occupant. We have not yet tried the ventilation setting and don't know if it works well or not. The heat setting on high does not heat the seat enough for it to be felt by the occupant. We have not yet tried the ventilation setting, so don't know if it works well or not.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering and Handling	
Steering and Handling	Vehicle pulls noticeably to the left/right.

Sun Visor/Vanity Mirror is difficult to use	
Please describe conditions when this trouble occurs:	No exaggeration, it happens every time someone touches the visor, even if accidentally bump the visor slightly when reaching for a light or other feature in that area.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate why the Sun Visor/Vanity Mirror is difficult to use (check all that apply):	Appears to be a situation in which the visor holder is too shallow and the visor fits too loosely in the holder to stay in place when the visor is pulled down.
Additional Comments:	This seems like a small thing, but I believe it could contribute to an accident occurring when the visor pops out and swings toward the head of the driver and then the driver has to look at the mechanism to get the visor arm back in the holder.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Problems with this vehicle that were known by the dealership before we purchased it, failure of dealership to take care of these issues as promised and in a timely way, concerns about current recalls and reported unavailability of parts to take care of potentially life-threatening defects in seatbelt and airbag systems.
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Sun Visor has gaps/poor fit	
Additional Comments:	See previous comments on this.
Please describe in the box below where on the sun visor the trouble with excessive gaps/poor fit of materials is located:	The problem is in the piece that holds the sun visor in place over the windshield and the size of the sun visor arm. The fit is too loose.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which Sun Visor you are having a concern with.	Explained above.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Hood	
Hood	Hood is difficult to open/close.

Seat Material	
Seat Material	Seat material was damaged or dirty at delivery.

Operation and Functionality	
Operation and Functionality	Sun Visor/Vanity Mirror is difficult to use.

Automatic headlights broken/not working	
Please describe the trouble you experienced:	Again, don't know if this feature works or not; the only lights that are on when the vehicle is being driven during the day are the fancy rim lights around the headlights. I thought that the headlights were supposed to be lit during the day when in automatic mode. Again, no one has been available

Automatic headlights broken/not working	
Additional Comments:	to go over the features of the vehicle or the vehicle hasn't been available so this can happen and we don't really know how this feature is supposed to work. The dealership keeps telling us that it is hard for even the salespeople for these vehicles to know how everything works and we do not find sufficient information in the owner's manual to learn how to work everything. We are very disappointed that we have had the vehicle this long and still don't know how many features work.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I gave middle of the scale ratings for some of the features that we haven't had the opportunity to use such as how the vehicle drives in extreme weather conditions. I gave some low on the scale ratings for things that are outstanding issues and for the few things that could be improved like room to store items or set items like purses.

Welcome	
Please tell us how many miles are currently on your vehicle:	1,000-2,999.

Lights	
Lights	Adaptive front lighting system broken/not working. Automatic headlights broken/not working.

Operation and Performance	
Operation and Performance	Air conditioner never gets cold enough.

Seat heater is broken/not working	
Seat heater is broken/not working	Seat will not heat enough/at all/fast enough.

Abnormal Noises	
Abnormal Noises	Squeak/rattle/abnormal noises from sun visor/vanity mirror.

Noise and Vibration	
Noise and Vibration	Vehicle vibrates excessively while driving (not braking).

What Can We Do Better?	
What has Chrysler done right?	Maintaining loyalty to the Jeep brand in having true off-road ability and on-road comfort. The Summit is amazing!!! Thanks
Feedback/Concerns:	No running boards are available for the Summit. An integrated design like the ones found on a M-B M Class would be nice feature

Welcome

What are your favorite parts of your new vehicle?	Feels very sturdy & looks great!

Other	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	
Please describe the other trouble you experienced:	I had a recall service to fix/update the adaptive cruise control issue. Approximately 1 week after the software update, I had a one time weird occurance while driving. 1) The adaptive cruise control kicked in without being set. Received a warning that I needed to apply brakes...which I did. 2) The transmission would not shift out 1st gear. 3) The driver seat a/c came on. Very weird. I pulled over & shut off the car. The weirdness hasn't happened again. When all else fails on the computer, you reboot...right? :-)
Approximate mileage when trouble was first noticed was:	8000 miles or above.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	7,000-9,999.

Voice Activation System	
Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Key fob entry system broken/not working	
Please describe conditions when this trouble occurs:	cell phone blocks signal
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Trouble with the key fob entry system occurs:	Both locking and unlocking.
Please indicate what type of trouble was experienced with the key fob entry system (check all that apply):	cell phone blocks signal

What Can We Do Better?	
Feedback/Concerns:	Chrysler does not stand behind the vehicles the dealer is awesome and tries it is Chrysler
What has Chrysler done right?	A/C problem finally fixed after months and came out with a flash but not sure problem with cruise control. Nothing too long

Contact Me

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location

Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Experience lag times sometimes. See above. NAV should have a separate screen.
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	NAV should have its own separate screen!!! I'm tired of passengers playing with the radio when I need to quickly see the NAV. Also tiring toggling back and forth between NAV and all other controls (radio/climate, etc.). Please add a dedicated screen for NAV like the Acura MDX which positons the NAV higher on the dash which also improves safety. There should be a lot more than 12 preset buttons for all those AM/FM/SXM channels. Should be a minimum of 30. Zoom in/out is nearly useless. Acura MDX manual control much better.
Please indicate which of the following best describes your concern (check all that apply):	Frequently used NAV buttons are on far right of screen; should be closer to driver.

About You

Please tell us about the vehicle you replaced (if applicable)	Toyota. Land Cruiser. Replaced Vehicle: Purchased Used.
Primary vehicle you were considering:	X5. Primary Considered Vehicle: Used. BMW.
Did you purchase or lease your vehicle?	Lease.
Is this your first new vehicle ever purchased / leased?	No.
When considering this vehicle	Research online. Test drive the vehicle. Visit the dealership. Interact with dealership by phone.
What is your average miles per gallon (MPG) with your vehicle?	19-20 mpg.
Secondary vehicle in your household:	Secondary Household Vehicle: Purchased Used.
What price did you pay for your vehicle?	
What year were you born?	
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	
Secondary vehicle you were considering:	Secondary Considered Vehicle: Used.
Primary vehicle in your household:	Primary Household Vehicle: Purchased Used.

Navigation system freezes-up/will not work

How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Screen loses information/freezes.
Additional Comments:	NAV changes its original route unexpectedly. Should't stay on course unless user decides on alternate route.

Excessive wind noise

How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the location of the wind noise (check all that apply):	Roof cross members.

Excessive wind noise	
Additional Comments:	Go back to normal roof rail system, please.

Shift between gears is rough/harsh under normal driving conditions	
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which gear/gears does the trouble occur? (check all that apply)	Clunks between first and second gear See above.
To the best of your recollection, the trouble was first noticed:	At delivery.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition feature does not have enough functions available.

Fuel spills out while refueling	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe the trouble you experienced (check all that apply):	I've had about 10 occasions where fuel has spilled when trying to "top off" the tank. This is a design defect.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Gas spills, sometimes covering interior wheel well. Smells and could be dangerous.
Additional Comments:	This is a nuisance and safety issue.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.
Please explain further about your choice to recommend your vehicle:	Major issue with the amount of foot space in the drivers compartment. The gas pedal is too far to the left and your right leg is not aligned properly causing driver fatigue.
Would you recommend this vehicle to family or friends?	No.
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).
Information in the Printed User Guide is easy to find and access	3 (neither agree nor disagree).
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	Motor Trend.
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Printed User Guide	3 (neither satisfied nor dissatisfied).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Did you review the Owner's Information DVD?	No.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	[redacted]

Speakers are not loud enough	
Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which speaker has trouble (check all that apply):	Volume peak is limited. Let the user decide.
To the best of your recollection, the trouble was first noticed:	At delivery.

Exterior moldings/trim pieces loose/misaligned/falling off	
Additional Comments:	Missing housing caused false collision warnings and adaptive cruise control didn't work.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is missing.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Front bumper Lidar housing missing part.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	See above.
You rated navigation system route accuracy Low. Use this space to provide any specific comments you would like to share.	Map system needs upgrade; needs separate screen and controls.
You rated head/leg/foot room Low. Use this space to provide any specific comments you would like to share.	Not nearly enough foot room in drivers well, especially drivers right foot. I would return the vehicle if I could as it is very uncomfortable.

What Can We Do Better?	
Feedback/Concerns:	There should be some additional areas for comments on design improvements: 1. steering wheel on my Overland should have concave controls on front not convex as they get pushed accidentally too often. One hand palm steering at low speed interferes with the controls. There should also be some spacing behind the wheel for your fingers behind controls as it is flat and lacks feel/grip; 2. You need to improve the amount of space in the drivers foot well - just simply not enough and awkward foot pedal ergonomics. Size of A-Pillar and side view mirrors are a major design and safety issue.
What has Chrysler done right?	Survived.

Vehicle Satisfaction Ratings	
Vehicle storage and space usage	2.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Engine.
	Features/Controls/Displays.
	Interior Trim/Storage/Windows.
	Steering, Handling, and Ride.
	Interior Climate Control.
	Transmission and Drivetrain.
	Seats.
	Vehicle Exterior.
	Brake System.
	Entertainment/Navigation System/Connectivity.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.
	Navigation system screen is in a poor location.
	Navigation system freezes-up/will not work.

Roof Rails	
Roof Rails	Roof rails work, but are difficult to understand/use.

Seat material concerns	
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate which seat has trouble with its material (check all that apply):	Seats are very hard, not comfortable, and not enough lateral support.
Please describe conditions when this trouble occurs:	
Additional Comments:	Makes long distance travel comfort less than desirable.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Automatic high-beam headlights broken/not working	
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	High beams turn off when there is snow on the shoulders, not when another car approaching.
Additional Comments:	This is a safety issue. I have disabled auto high/low beams.
Please describe conditions when this trouble occurs:	In winter, high beams turn off when snow on shoulders. This is dangerous as high beams are needed and you can't over ride system manually.

Hard controls/menus: Front Screen Display: Other Concerns	
Please describe conditions when this trouble occurs:	
Please describe the other trouble you experienced:	
Additional Comments:	Front screen display should mimic information on main screen when playing radio/music, e.g. what song is playing not just station.

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
Please describe conditions when this trouble occurs:	

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	
Additional Comments:	USB connected to iPod/iPhone should not auto-play.

USB connection is difficult to understand/use; is in a poor location	
Please describe conditions when this trouble occurs:	
Please indicate which of the following best describes your concern (check all that apply):	Not enough space in compartment where USB is located; doesn't hold phone or any belongings especially with USB cord and charger cord.

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which of the following best describes your concern (check all that apply):	Should have separate screen from NAV

Features and Controls	
Features and Controls	Rear view mirrors (interior/exterior).

Seat Material	
Seat Material	Seat material concerns.

Automatic Transmission	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions.

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location. Touchscreen Controls/Menu: Front Screen Display: Other Concerns.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers are not loud enough.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	Verizon Wireless.
If known, please tell us your software version	8.0.2
Please tell us your cell phone model	iPhone 5S
Please choose your cell phone brand	Apple.

Center console is difficult to open/close	
Additional Comments:	Center console is too small. So are storage areas on front doors.
Please describe conditions when this trouble occurs:	

External side view mirrors work properly, but are difficult to understand/use; in a poor location	
Additional Comments:	Too large rear side view mirrors, when combined with the way too big A-Pillars create a major view obstruction and is a safety issue as well as a driver nuisance issue.
Please indicate which of the following best describes your concern (check all that apply):	Rear side view mirrors are too large and greatly obstruct side and forward view. Creates large blind spot especially around left turns.

Rear view mirrors (interior/exterior)	
Rear view mirrors (interior/exterior)	External side view mirrors work properly, but are difficult to understand/use; in a poor location.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system is difficult to use.

Hard Controls/Menu	
Hard Controls/Menu	Hard controls/menus: Front Screen Display: Other Concerns.

Lights	
Lights	Automatic high-beam headlights broken/not working.

Voice Recognition feature does not have enough functions available	
Please describe additional functions you would like to have:	It should be able to set navigation

Roof rails work, but are difficult to understand/use

Roof rails work, but are difficult to understand/use	
Please describe conditions when this trouble occurs:	See above.
What part of the roof rails are difficult to understand/use? (check all that apply)	Roof rails should not be flush to roof. There should be a gap like 99% of other SUVs. Can't tie off on rails and cross beams are unconventional and cause excessive noise.

Navigation system screen is in a poor location	
Additional Comments:	Shouldn't compete with all the other controls; needs a separate screen and manual controls like the Acura MDX.

USB connection issues	
USB connection issues	USB connection is difficult to understand/use; is in a poor location.

Media	
Media	USB connection issues.

Operation and Functionality	
Operation and Functionality	Center console is difficult to open/close.

Wind Noise	
Wind Noise	Excessive wind noise.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Controls and Switches	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.

Fuel filler door/cap	
Fuel filler door/cap	Fuel spills out while refueling.

Other	
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Please describe conditions when this trouble occurs:	when braking
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Brakes pull noticeably to the right/left in normal use	
To the best of your recollection, the trouble was first noticed:	At delivery.
Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Had to have rear brake rotors replace already

Rain sensing wipers are broken/not working properly	
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate what type of trouble was experienced with the rain sensing wipers (check all that apply):	Come on for no apparent reason regardless of sensitivity setting
Please describe conditions when this trouble occurs:	dry sunny days

Speakers rattle	
Please indicate which media sources were being played (check all that apply):	Same Strong base
Speaker trouble occurs:	Only at high volume levels.
Please indicate which speaker has trouble (check all that apply):	Hard to tell, seems on passenger side
Please describe conditions when this trouble occurs:	
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Brake Operation	
Brake Operation	Brakes pull noticeably to the right/left in normal use.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Text messaging works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Voice recog poor

Garage door opener	
Garage door opener	Garage door opener broken/not working. Garage door opener works properly, but is difficult to understand/use; controls in a poor location.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command. Hands-Free Phone / Bluetooth system has poor sound quality at far end. Hands-Free Phone / Bluetooth system phonebook does not work correctly.

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system broken/not working.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions. Points of Interest incorrect. Points of Interest not well defined. Difficulty accessing Points of Interest. Navigation system freezes-up/will not work. Navigation system works, but traffic information doesn?t work / or is difficult to understand.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
What button did you use?	steering wheel
How often does this trouble occur?	Trouble occurs regularly.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone brand	Nokia.
If known, please tell us your software version	
Entertainment/Navigation System/Connectivity	None
Please choose your cell phone carrier	Verizon Wireless.
Please tell us your cell phone model	lumina

SD media slot is difficult to understand/use; is in a poor location	
Please describe conditions when this trouble occurs:	
Please indicate which of the following best describes your concern (check all that apply):	Can't rwach
How often does this trouble occur?	Trouble occurs regularly.

USB connection is difficult to understand/use; is in a poor location	
Please describe conditions when this trouble occurs:	
Please indicate which of the following best describes your concern (check all that apply):	Can't reach it way in back of compartment
How often does this trouble occur?	Trouble occurs regularly.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Have hard several false emergency brake issues. Very scary!!

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers rattle.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Navigation system freezes-up/will not work	
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	wrong locatopn for my actual location or just stops all together

Memory Seat controls are broken/not working	
How often does this trouble occur?	Trouble occurs regularly.

Memory Seat controls are broken/not working	
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	Entire memory and preset system either dies not work or is intermittent. Been to dealer twice.
Please describe conditions when this trouble occurs:	memory does not work and does not slide back to exit. have been in to reset, worked for a day
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

USB connection issues	
USB connection issues	USB connection is difficult to understand/use; is in a poor location.

Features and Controls	
Features and Controls	Voice Activiation System.
	Wipers and washers.
	Garage door opener.
	Door locks/key fob entry system.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition Quick Tips Booklet is not helpful, or is difficult to use.
	Voice Activation / Recognition doesn't recognize command.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Gets in a liip
	My local wrong
	Streets not shown

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.
What button did you use?	steering wheel
Additional Comments:	I just don't use it anymore, big pain

Front seat audio/entertainment/navigation controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	Just flaky, not drpendable
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	Comes and goes, will black out,
Please describe conditions when this trouble occurs:	varies

Wipers and washers	
Wipers and washers	Rain sensing wipers are broken/not working properly.

Key fob entry system broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate what type of trouble was experienced with the key fob entry system (check all that apply):	Takes several pushes before operates even if standing at vehicle
	Intermittently and requires multiple clicks
	Preset controls for sest, radio, climate etc does not work

Media	
Media	USB connection issues.
	SD media slot issues.

Voice Activation System	
Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

What Can We Do Better?	
What has Chrysler done right?	Great looking and runs well
Feedback/Concerns:	Fix my Jeep. I spent too much money for this vehicle to not have it working well and as advertised.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	missing key info

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	missong or wrong information

Garage door opener broken/not working	
Please indicate if your garage door opener is:	Aftermarket.
Please describe the trouble you experienced:	Can't get it to work at all. No directions on tip cards

Garage door opener works properly, but is difficult to understand/use; controls in a poor location	
Please indicate if your garage door opener is:	Aftermarket.

Vehicle Issues/Things Gone Wrong

Abnormal squeaks/rattles/noises coming from front doors

How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	in rough asphalt with large gravel, or over uneven road when there is vibration
Additional Comments:	There's rattling noises from all over the dash and instrument panel of the vehicle. I've taken the vehicle for test drive with dealership's technician and the source of the noises were not know so they said they might need to open the dashboard to find out and I decided not to touch the dashboard and instrument pannel of a brand new car. The noises are absolutely horrible for a +$70k brand new vehicle specially the SRT which is the top of the line
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate which door has abnormal noises (check all that apply):	rattling noise either from driver's door or instrument panel or air vents
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Squeak/rattle/abnormal noises from center console

How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please describe conditions when this trouble occurs:	
Please describe in the box below where from the center console the trouble with abnormal noises is located:	rattle noise from front interior of the vehicle, don't know if it's from the center console, door panels, or dash
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview

Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Purchased vehicle in Wisconsin and drove it to Northern California where I took it for the issues. Also I did not test drive the vehicle prior to purchase, it was delivered to me on a trailer by the dealer Ubersox.
Please explain further about your choice to recommend your vehicle:	I purchase or test drive most american muscle cars when they come out, I had the 2013 GT-500, I decided I want to have the SRT, but this vehicle has truly made me disappointed due to the lack of QC or cheap material or weak design which makes so much noise. I have to turn the sound system on all the time in order not to hear the noises. The performance is very nice, the features are all there, but over all I disagree %100 that these noises should be there, or the need to take it 3 times to the dealer to figure out the noise. After the 3rd time I took the car to the dealer, they agreed that the door needs to be shut firm to close... I expected more and have listed the car for sale at lose... if there was a way, I would return it back immediately. I would recommend a basic grand cherokee at half the price of this vehicle, perhaps you can stand the noises for a less price
Which automotive publications do you subscribe to? (check all that apply)	Car and Driver. Motor Trend.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Please let us know why you have not referred to the Owner's Manual? (check all that apply)	I concider the issues I've experienced as QC problems and not an issue addressed in the manual.
Was the trouble resolved to your satisfaction?	No.

Overview	
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone only.
Would you recommend this vehicle to family or friends?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.

Wheels, rims, and tires appearance and styling	5.
Steering wheel adjustment	5.

Front doors are difficult to open/close	
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate which of the following best describes your concern (check all that apply):	front passenger's side door is difficult to close. Jeep dealership at first didn't notice the difference but second time taken to the dealership they agreed to the problem, but haven't fixed it yet as they need approval from chrysler for the hinge. As per my experience this just needs alignment/adjustment and not replacement.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	all the time

About You	
Which, if any, influenced your purchase decision? (check all that apply):	Automotive magazines. On-Line blogs or forums. Manufacturer?s website.

Axle(s)

Axle(s)	Axle makes whining, howling, clunking, or grinding noises.

Transmission makes abnormal/excessive noises

Please indicate driving condition when noise occurs (check all that apply):	as explained above
	as explained above
	as explained above
	as explained above
	as explained above
Noise sounds like (Check all that apply):	there's a noise in the rear of the vehicle when it shifts after full stop, or after down-shift or brake after vehicle is moving. It seems like a lose trans mount, or a suspension bushing which is worn out. dealer ship said it's normal, but I don't believe it is.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission makes abnormal/excessive noises	
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	I think it's more noticeable when vehicle is warm and has been running for a while
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please describe conditions when this trouble occurs:	

Wind Noise	
Wind Noise	Excessive wind noise.

Exterior moldings/trim pieces loose/misaligned/falling off	
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is loose.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	driver's side fender flares are lose with a gap between the body and the plastic fender flare. Weak Adhesive. Took to dealer they were not sure if warranty will cover or not.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Additional Comments:	The adhesive holding the molding/fender flares to the body could be of poor quality. It will stick when you press it with the palm of your hand for a while but will loosen over time, under sun, etc.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Abnormal Noises	
Abnormal Noises	Squeak/rattle/abnormal noises from instrument panel/dashboard.
	Squeak/rattle/abnormal noises from center console.
	Squeak/rattle/abnormal noises from door panels.
	Squeak/rattle/abnormal noises from rear cargo shelf/cargo cover.

Transmission Noises	
Transmission Noises	Transmission makes abnormal/excessive noises.

Squeak/rattle/abnormal noises from door panels	
Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate which interior door panels had abnormal noises (check all that apply):	don't exactly know where this rattling noise comes from, but it's from all over the frond driver's side of the vehicle, could be instrument panel, doors, etc.

Squeak/rattle/abnormal noises from rear cargo shelf/cargo cover	
Please describe in the box below where from the rear cargo shelf/cargo cover the trouble with abnormal noises is located:	I hear it when I'm driving, so don't really know where it is exactly but probably the tailgate or the side pannels
Please describe conditions when this trouble occurs:	in bumps, uneven road
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs intermittently.

Squeak/rattle/abnormal noises from instrument panel/dashboard	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe in the box below where from the instrument panel/dashboard the trouble with abnormal noises is located:	rattling noise from the front interior of the vehicle
Please describe conditions when this trouble occurs:	uneven road, pavement, humps, etc.

Other	
Please describe conditions when this trouble occurs:	

Front Doors	
Front Doors	Abnormal squeaks/rattles/noises coming from front doors.
	Front doors are difficult to open/close.

Excessive wind noise	
To the best of your recollection, the trouble was first noticed:	At delivery.

Excessive wind noise	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the location of the wind noise (check all that apply):	from either the sunroof or front windshield
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	wind noise at higher speed or windy conditions

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Transmission and Drivetrain. Other. Vehicle Exterior. Interior Trim/Storage/Windows. Features/Controls/Displays.

Axle makes whining, howling, clunking, or grinding noises	
Please describe conditions when this trouble occurs:	I've marked the axel as the thumping or clunking might be from the axel and not the transmision
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Are you using your vehicle for towing when the problem occurs?	No.
To the best of your recollection, the trouble was first noticed:	At delivery.

What Can We Do Better?	
What has Chrysler done right?	Maintained it's heritage and stayed Jeep. But I'm sure the quality of Jeep's finished product has to be compatible with the brand and history.
Feedback/Concerns:	I've owned a number of CJ's, a Grand Wagoneer and a Cherokee Chief. I love jeep. Maybe this was just an unlucky buy or unlucky vehicle that sneaked through QC... I expected to be more excited and surprised after buying this vehicle than being frustrated and concerned of the issues.

Welcome	
Please tell us how many miles are currently on your vehicle:	3,000-4,999.
Are you the primary driver of this vehicle?	Yes.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Brake warning alert sounded 3 times in absolutely normal street conditions and created a lot of tension for us. We couldn't understand why this alert was activated. No body pulled in front of us, no loss of traction, no interfering objects or obstacles... just warning and the dealership couldn't understand why it happened either...

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Topics: Issues the vehicle is having Phone: 262-455-5846

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Would you recommend this vehicle to family or friends?	No.
Please rate your overall level of satisfaction with the Printed User Guide	3 (neither satisfied nor dissatisfied).
Was there information needed that was not included in the User Guide?	details of some functions are general...
Please explain further about your choice to recommend your vehicle:	Jury is out. The first one had catastrophic failures to the point you replaced it, the second has experienced Catalytic converter issues. I'm not sold on reliability yet with only 12K miles on the vehicle.
Please provide feedback on how Chrysler can improve the Printed User Guide	Offer a digital copy in the vehicle electronics?
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Was the trouble resolved to your satisfaction?	No.
Did you review the Printed User Guide?	Yes.

Brakes vibrate/shudder excessively when applied

Brakes vibrate/shudder excessively when applied

To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Trouble with brakes occurs during this type of braking (check all that apply):	When the system detects I'm too close to a car (which I'm not), it sometimes applies the brakes hard. When the cruise is set the system sometimes lurches when I apply the brakes!
Vibration is:	Moderate.
Please describe conditions when this trouble occurs:	when cruise is in use
Trouble with brakes occurs while traveling at these speeds (check all that apply):	usually highway, but sometimes backroads at 40-45 mph
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Hesitation or delay when shifting between gears

To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	

Welcome

Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.

Contact Me

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	What are you doing differently. There are a bunch of recalls and I'm curious if any apply to diesel engines since it's new to you.

Ease of using system displays while driving	4.
Interior noise level while driving	4.
Safety and visibility while driving	4.
Difficult driving conditions (adverse weather, off-road)	4.
Ride quality	4.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Headlight illumination/performance during night-time driving	5.
Engine performance during acceleration	5.

What Can We Do Better?	
What has Chrysler done right?	I like the style, diesel engine (so far), and have gotten compliments on the overall look.
Feedback/Concerns:	The handling of my replacement was not very reassuring especially since you did NOTHING to compensate me for my time and money dealing with your manufacturing deficiencies.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	I'm looking for things
Additional Comments:	I'm a sales guy and on the road a lot. I would love to use a search engine designed into the system instead of YELP which is VERY slow and not very accurate at times.

Abnormal squeaks/rattles/noises coming from liftgate	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please describe conditions when this trouble occurs:	
Additional Comments:	There is a 'grinding noise' when the gate lifts.

Abnormal squeaks/rattles/noises coming from liftgate	
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs regularly.

Detail on High Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I have plenty of input if you want it... :)
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	I have a summit and would expect more trim on the wheel wells to prevent dings. I also wanted mud flaps but there are not any available?

Liftgate	
Liftgate	Abnormal squeaks/rattles/noises coming from liftgate.

Paint chip/scratch/other surface damage from outside influence present at delivery	
Please indicate which body panels had paint chip/scratch/other surface damage present at delivery (check all that apply):	there was a little chip covered with white paint There was a little chip, covered with white paint

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Paint chip/scratch/other surface damage from outside influence present at delivery.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	reliability is a huge concern for me being I'm a traveling sales guy..

Brake Operation	
Brake Operation	Brakes vibrate/shudder excessively when applied.

Tires make excessive road noise while driving

Additional Comments:	I like the design and appearance of the tire tread for everything except driving on gravel roads.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs while traveling at these speeds (check all that apply):	Tire tread picks up rocks on gravel roads more than I have had before.
Trouble occurs while traveling in these road conditions (check all that apply):	All road conditions.
Are you using your vehicle for towing when the problem occurs?	No.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

What Can We Do Better?

Feedback/Concerns:	In early 2014 I bought a 2014 GMC Acadia Denali and a couple of months later bought a 2014 Grand Cherokee Overland Diesel. In looking underneath each vehicle, there is no doubt that the Jeep is built better, less palstic in places where some abuse from operation occurs.
What has Chrysler done right?	It is obvious that you have worked hard to bring up the ; quality of everything in the vehicle, the style, the overall look. If you continue to improve the Grand Cherokee as you have the last 2 model years, I will continue to buy a new one every few years. I enjoy driving my 2014 G. Cherokee.

Detail on High Rated Items

You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	Overlands have the Heavy duty braking system. This is a BIG improvement over my 2002 G.Cherokee. The Heavy duty brakes saved one head-on collision for me already!
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	Diesel motor makes this possible.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	I like being inside and driving my vehicle.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	It is comfortable inside my vehicle.
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	The logic used in designing the control and adjustment of the the vehicle functions are really easy to understand, and use.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	Diesel engine has very good pickup, but does take a few seconds to build.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	Enjoy the phone features in my vehicle.
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	Great Quality sound and clarity.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	It is the overall package; Adaptive cruise control, all of the controls for the engine(oil temp, trans temp, tire pressures,etc. It is the rear camera, rain sensing wipers, automated collision control, the design of the instant fuel economy with everything that is in the screen that shows the instant fuel economy, the economy for the current tank of fuel.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	really pretty good for a diesel engine.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	very attractive front styling.

About You

Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	The Grand Cherokee is more well built!
Secondary vehicle in your household:	2001. Secondary Household Vehicle: Purchased Used. Chevrolet. Silverado 2500HD.
Please tell us about the vehicle you replaced (if applicable)	2002. Grand Cherokee. Jeep. Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	2014. Acadia. GMC. Primary Considered Vehicle: New.
What is your average miles per gallon (MPG) with your vehicle?	25-26 mpg.

Engine exhaust sound	5.
How was your purchasing experience (the dealer/dealership)?	5.
Navigation system route accuracy	4.

Overview	
Printed User Guide covers the necessary features	4 (agree).
Information on the DVD is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
DVD format is easy to understand and use	5 (strongly agree).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Owner's Information DVD?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
	I liked the way to get to the specific area of interest when I have used it.

Overview

Which feature or section of the Owner's Information DVD did you find most helpful and why?	
Please rate your overall level of satisfaction with the DVD	4 (satisfied).
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
What have you used to view your DVD? (check all that apply)	Computer/laptop.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Please provide feedback on how Chrysler can improve the Printed User Guide	It would be really helpful to have a quick reference guide for what page of the book to look and find the area of interest for that time.
Please explain further about your choice to recommend your vehicle:	There are just a few things that I would like to improve, but the total package is really good. This is the third Grand Cherokee that I have driven. It is the best one by far. All the upgrades on the 2014 model are really very good. I am happy that I got the 2014 model. I purposely stayed away from the model years 2004-2012, because they appeared to be a lower quality, cheaper built vehicle. It took the Diesel motor to get a desired fuel economy.
Did you review the Printed User Guide?	Yes.

Vehicle Issues/Things Gone Wrong

Welcome

Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Air from vents smells moldy/stale

Please indicate when the odor/smell is present (check all that apply):	Odor is only noticeable when the front defroster is used.
	Odor/smell is noticeable for only a short time after air conditioner/heater/defroster is turned on.
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	I have noticed a musty odor when outside conditions are moist, and the A/C or defrost is used. It usually only lasts for 15-45 seconds
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Heating, ventilation and air conditioning doesnt maintain desired temperature

Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	My only issue is in weather when the heat is needed. It heats really well. The heated air coming out of the vents stays too hot after the vehicle warms up, and when it cools the air coming in, it gets too cool. SO put maybe better, when the cab warms up it is too extreme, either too hot, and then goes to too cool. not settling to somewhere in the middle, at a comfortable temperature.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	I really like everything about the cooling and heating except the air either being too hot, ot going too cold after it warms up.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	Below 70 degrees.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Entertainment/Navigation System/Connectivity

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	U.S. Cellular.
Please choose your cell phone brand	Samsung.
Please tell us your cell phone model	S 5

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The rear of the vehicle is not very gravel road friendly from a dust standpoint. The entire rear of the vehicle is dusty from gravel road travel. The rear window gets dusty almost immediately. The air deflector on top of the rear window, along with all around the back hatch seems to hold significant gravel dust in it. I like the power back hatch. It saves me time when using the back hatch.

Automatic high-beam headlights broken/not working	
Additional Comments:	Automatic high-beam is a really nice feature. I like it. Sometimes it seems that it works fine, and at times the high beams do not come on when they could. Id there a sensitivity setting that can be adjusted?
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	Sometimes do not turn on high when they could.

Odor/smell	
Odor/smell	Air from vents smells moldy/stale.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	There have been times where it has been too sensitive. I would like to understand how to fine tune it better. Also though, in the first 10,000 miles, it helped me to avoid a possible collision.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	On the heat side, how can I better control the temperature of the heated air coming out of the vents? Also, Can I adjust or understand better the automated collision control system. My cell phone [redacted], and can be reached from 7:30 am (CST) until 3:00 pm (CST) Thanks! Virgil Meyer

	Squeak/rattle/abnormal noises from cup holders.
	Squeak/rattle/abnormal noises from glove box.
	Squeak/rattle/abnormal noises from rear cargo shelf/cargo cover.

Squeak/rattle/abnormal noises from instrument panel/dashboard	
Additional Comments:	Have told, will continue to tell every friend, neighbor, and colleague of the poor quality of this vehicle till day I die

Squeak/rattle/abnormal noises from rear cargo shelf/cargo cover	
Additional Comments:	I am not a satisfied customer

Reverse-camera is broken/not working	
Additional Comments:	

Reverse-camera is broken/not working	
	Occasionally, rearview monitor decides to display what's behind me for the entire drive. button won't respond or affect.

Front Doors	
Front Doors	Abnormal squeaks/rattles/noises coming from front doors.

Hood	
Hood	Abnormal squeaks/rattles/noises coming from hood.

Lights	
Lights	Exterior Light Failure. Front headlights/parking lights/fog lights/turn signal lights inoperative.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

What Can We Do Better?	
What has Chrysler done right?	8 speed ZF sourced automatic the "benchmark" of automatics. It's the only positive in a totally negative experience

Squeak/rattle/abnormal noises from headliner	
Please describe conditions when this trouble occurs:	every time i drive the vehicle
Please describe in the box below where from the headliner the trouble with abnormal noises is located:	I just turn the radio up now as loud as I can tolerate to drown the noise out.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I wanted to buy an American made product, I've always driven Acuras, Infiniti, Lexus, Jaguar, and much earlier in college days Nissan, and Mazda. They all were built better than this Jeep

Squeak/rattle/abnormal noises from overhead console	
Additional Comments:	If an arrow pointing upwards was available it would take the place of what I have writen in this box

Abnormal squeaks/rattles/noises coming from liftgate	
Please describe conditions when this trouble occurs:	see above

Squeak/rattle/abnormal noises from sun visor/vanity mirror	
Additional Comments:	up

Detail on High Rated Items	
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	ZF 8-speed same transmission used by premium marques such as Audi, Bently, Range Rover, Jaguar, and BMW.

Features and Controls	
Features and Controls	Cruise control system. Reverse-Camera.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Squeak/rattle/abnormal noises from door panels	
Additional Comments:	By now you should be able ascertain that yourself from my previous explanations.

Squeak/rattle/abnormal noises from cup holders	
Additional Comments:	I would say see above but I think you have that by now

Squeak/rattle/abnormal noises from center console	
Additional Comments:	See above

Fuel filler door/cap	
Fuel filler door/cap	Fuel door difficult to open/close.

Reverse-Camera	
Reverse-Camera	Reverse-camera is broken/not working.

Information in the Smartphone Application is easy to find and access	4 (agree).
Information in the Printed User Guide is easy to find and access	5 (strongly agree).
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).
Did you review the Owner's Information DVD?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.
Please provide feedback on how Chrysler can improve the Smartphone Application	My husband's HTC works great...my iPhone won't use voice texting..
The Smartphone Application format is easy to understand and use	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).

Overview	
Printed User Guide covers the necessary features	5 (strongly agree).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Smartphone Application covers the necessary features	4 (agree).
Printed User Guide format is easy to understand and use	5 (strongly agree).

Rain sensing wiper controls work properly, but difficult to understand/use; in a poor location	
Please indicate why the controls are difficult to understand/use (check all that apply):	Controls require too much attention (must take eyes off the road) to operate.

Features and Controls	
Features and Controls	Voice Activiation System. Reverse-Camera. Wipers and washers.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.

What Can We Do Better?	
Feedback/Concerns:	More useable storage compartments and front view cameras plus lane change drift warnings..waive foot under back to activate lift gate...open back window without opening lift gate..
What has Chrysler done right?	Many things... I love my Grand Cheerokee overland.

Glove box is difficult to open/close	
Additional Comments:	You just adapt and don't try to put much in it..
Please indicate which of the following best describes your concern (check all that apply):	It doesn't hold much and you have to be sure everything is just right to get it to close.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate why the glove box is difficult to open/close (check all that apply):	Doesn't latch well if things aren't arranged perfectly See above
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays. Interior Trim/Storage/Windows.

Operation and Functionality	
Operation and Functionality	Glove box is difficult to open/close.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Reverse-Camera	
Reverse-Camera	Reverse-camera works properly, but difficult to understand/use; controls in a poor location.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	It scares the life out of me and slows rapidly when someone is in the left turn lane stopping. It thinks I am about to hit them..

Reverse-camera works properly, but difficult to understand/use; controls in a poor location	
Additional Comments:	Would be nice if could be turned / stay on when not in reverse..

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Wipers and washers	
Wipers and washers	Rain sensing wiper controls work properly, but difficult to understand/use; in a poor location.

Seat material is sagging/loose/parting seams	
Please indicate which seat is sagging/loose/parting seams (check all that apply)	Driver's side rear seat.
	Front passenger seat.
	Passenger's side rear seat.
	Leather stretched too easy
	Center rear seat (if equipped).

Automatic Transmission	
Automatic Transmission	Hesitation or delay when shifting between gears.
	Shift between gears is rough/harsh under normal driving conditions.

Steering wheel vibrates excessively while driving	
Steering wheel vibration trouble occurs during these speeds (check all that apply):	Shakes
Vibration is:	Severe.
Steering wheel vibration trouble occurs during these road conditions (check all that apply):	All road conditions.
	Clear/dry road conditions.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Dealer blamed tired and road.

Appearance	
Appearance	Instrument panel/dashboard has gaps/poor fit.
	Glove box has gaps/poor fit.
	Center console has gaps/poor fit.

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Seat Material	
Seat Material	Seat material concerns.

Seat Material	
	Seat material is sagging/loose/parting seams.

Steering and Handling	
Steering and Handling	Steering system/wheel is misaligned/not centered.
	Vehicle pulls noticeably to the left/right.
	Steering wheel vibrates excessively while driving.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Transmission and Drivetrain.
	Features/Controls/Displays.
	Interior Trim/Storage/Windows.
	Steering, Handling, and Ride.
	Off-Road.
	Vehicle Exterior.
	Brake System.
	Other.
	Seats.

Active suspension system is broken/not working	
Please describe conditions when this trouble occurs:	at normal ride hight
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	Alignment is poor. Dealer said it was in spec even though I stated poor drivability. When in off road II mode suspension makes loud clunck over bumps
Please describe the trouble experienced with the active suspension system:	alignment changes with ride hight. poor handling
How often does this trouble occur?	Trouble occurs intermittently.

Instrument panel/dashboard has gaps/poor fit	
Please describe in the box below where on the instrument panel/dashboard the trouble with excessive gaps/poor fit of materials is located:	Interior has poor fittment
Additional Comments:	Dealer said what do I expect coming from detroit
To the best of your recollection, the trouble was first noticed:	At delivery.

Strut problem/shock absorber problem	
Please describe conditions when this trouble occurs:	Vibrates on highway
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Took to dealer 3 times. Gave me excuses saying it was the road. I even bought new tires. It helpd but steering wheel still vibrates and shakes on highway
To the best of your recollection, the trouble was first noticed:	At delivery.

Vehicle pulls noticeably to the left/right	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble occurs while traveling in these road conditions (check all that apply):	All road conditions.
Trouble occurs while traveling at these speeds (check all that apply):	Wants to turn into turns too soon
	Does not follow embankments well. Always having to fight to stay in lane.
How often does this trouble occur?	Trouble occurs regularly.
Are you using your vehicle for towing when the problem occurs?	No.
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	Dealer tried to alighn multiple times. Said it was in spec even tho I was not happy with handling
What direction does the vehicle pull when driving?	Both Left and Right - Varies with conditions.
Vehicle pull is:	Severe.

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.
	Active suspension system works but is difficult to understand/use.

Features and Controls

Features and Controls	
Features and Controls	Adjustable Height Control. Reverse-Camera. Active Suspension System.

Shift between gears is rough/harsh under normal driving conditions	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Uncomfortable shifting at slower speeds
Going into which gear/gears does the trouble occur? (check all that apply)	Feels like driving a manual

Clock works properly, but is difficult to understand/use; controls/displays are in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Needs date. Not three compasses

Lumbar support adjustment controls are difficult to understand/use	
Please indicate which type of seat controls are difficult to understand/use (check all that apply):	Placement of seat height too close to other controls. In easy to use.
Please indicate which seat's controls are difficult to understand/use (check all that apply):	Controls too close togrther Controls too close together
Please indicate why the controls are difficult to understand/use (check all that apply):	Controls are not easy to reach.
Additional Comments:	Seat memory buttons bad location. Gets hit with knee

Reverse-Camera	
Reverse-Camera	Reverse-camera works properly, but difficult to understand/use; controls in a poor location. Reverse-camera is broken/not working.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Goes off when not needed occasionally.

Ride	
Ride	Strut problem/shock absorber problem.

Adjustments and Controls	
Adjustments and Controls	Height adjustment controls are difficult to understand/use. Lumbar support adjustment controls are difficult to understand/use. Memory Seat controls are difficult to understand/use; in a poor location.

Other	
Please describe the other trouble you experienced:	Screen image should be changable. Don't like the dried mud. Assumed it was customizable like most other new vehicles

What Can We Do Better?	
Feedback/Concerns:	Better quality control.
What has Chrysler done right?	Looks good from far away

Contact Me

Vehicle quality	4.
What is your primary language?	English.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Urban.

Shift between gears is rough/harsh under normal driving conditions

Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	City driving/stop-and-go traffic. Coasting (no gas pedal applied). Normal acceleration. While driving on level roads. Deceleration.
Please describe conditions when this trouble occurs:	shifts perfectly with hard/firm acceration. Slow veh speeds shift hard.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Shift between gears is rough/harsh under normal driving conditions	
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Additional Comments:	Not a big deal. But 1st to 2nd is the biggest issue, and then some down shifts.

Slips/will not engage gear properly/shifts erratically	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Coasting (no gas pedal applied). While driving on level roads.
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	The transmission is a lot better than my LR4.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which gear/gears does the trouble occur? (check all that apply):	2nd Gear.
Are you using your vehicle for towing when the problem occurs?	No.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much effort/force to operate. Controls are not easy to reach. Controls require too much attention (must take eyes off the road) to operate.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	Mode control (vent, heat, defrost, etc.).
Additional Comments:	Too many buttons to push to get to the button u want. Idea: have several programmable 1 touch buttons. Can change them based on personal preference and the season.

Height adjustment is broken/not working	
Please indicate which seat has trouble (check all that apply):	Driver's seat.
Seat with trouble has:	Power adjustment controls.
Please describe conditions when this trouble occurs:	See previous note

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays. Interior Climate Control. Transmission and Drivetrain. Seats.

Exterior light controls broken/not working	
Please indicate which exterior light control feature is broken/not working properly (check all that apply):	Hi-beam switch.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	Hi beams often stay on - doesn't detect oncoming car lights.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
How often does this trouble occur?	Trouble occurs regularly.

Features and Controls	
Features and Controls	Light switches/controls. Wipers and washers.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Wipers and washers	
Wipers and washers	Rain sensing wipers are broken/not working properly.

Rain sensing wipers are broken/not working properly

Rain sensing wipers are broken/not working properly	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	Has trouble sensing rain.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate what type of trouble was experienced with the rain sensing wipers (check all that apply):	Rain sensing wipers do not swipe often enough.

Overview	
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please provide feedback on how Chrysler can improve the Printed User Guide	no issues
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Did you review the Owner's Information DVD?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Did you review the Printed User Guide?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Please explain further about your choice to recommend your vehicle:	Function commands are a little cumbersome, and driver's seat is uncomfortable. Otherwise, it's great!
Please provide feedback on how Chrysler can improve the Smartphone Application	I did review the options, but I have not downloaded any aps. I do sync my phone w the jeep.
Was there information needed that was not included in the User Guide?	it's fine
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

What Can We Do Better?	
Feedback/Concerns:	Improve gas mileage and/or power. V6 is slow considering the poor fuel economy. Cannot touch the stated mileage on the window sticker.
What has Chrysler done right?	I own 2 wranglers now ('08 rubicon & '15 sahara) and a jeep grand cherokee. Just sold my '12 wrangler rubicon. I love jeeps - press on!

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Push yourself w the jeep gc modification. I am ready for another one.
You rated seat adjustment and comfort Low. Use this space to provide any specific comments you would like to share.	The position of the seat bottom causes back irritation. BMW x5 is the same way. copy land rover LR4.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	SOMETIMES, the Jeep will apply brakes severly when I still have ample time to stop.
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Other (please describe).

Recliner adjustment is broken/not working	
Please describe conditions when this trouble occurs:	The seat portion of the seat needs the ability to be flat - see LR4 Landrover seat
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	My wife drives the LR4. Copy those seats.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate which seat has trouble (check all that apply):	Driver's seat.

Hesitation or delay when shifting between gears	
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear.
Additional Comments:	Getting tired of answering questions, so my responses are sparse.

Detail on High Rated Items	
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Overall - style is a little dated. Porsche Cayenne exterior seems more modern.

Controls and Switches	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.

Operation and Performance	
Operation and Performance	Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located.

Adjustments and Controls	
Adjustments and Controls	Height adjustment is broken/not working. Recliner adjustment is broken/not working.

Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located	
Please indicate which of the following best describes your concern (check all that apply):	Poor location.
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much effort/force to operate. Controls are not easy to reach. Controls require too much attention (must take eyes off the road) to operate.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Additional Comments:	See previous comment
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	Mode control (vent, heat, defrost, etc.).

Automatic Transmission	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions. Slips/will not engage gear properly/shifts erratically. Hesitation or delay when shifting between gears.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Light switches/controls	
Light switches/controls	Exterior light controls broken/not working.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	3,000-4,999.

What Can We Do Better?

What has Chrysler done right?	Great line of vehicles!
Feedback/Concerns:	I WISH the Jeep Wrangler Rubicon would come with the same NAV and Adaptive Cruise Control as my Summit!!! NAV in Rubicon is too cheap looking after my Summit!!!

Detail on High Rated Items

You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Upon purchase the headliner and sunroom assembly had to be replaced due to bad alignment during manufacturering.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Very very quiet!
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	What used, excellent.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	Engine noise / exhause sound is POWER!!!
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	EXCELLENT DEALERSHIP!!! HIGHLY RECOMMENDED!! I have purchased over 15 cars in 22 years from same dealership!
You rated engine sound High. Use this space to provide any specific comments you would like to share.	I mean this in a GOOD way! The engine noise is POWER!!!
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	Really like when vehicle lowers at park.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	Wish Lumbar would reset automatically. Wife likes pumped all the way and i want very little.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	Cover over back window makes cleaning top of back window very hard to clean.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I want to purchase a Wrangler Rubicon but it MUST have the same or better NAV and ACC just as my Summit! Current NAV is very poor compared to my summit and the Rubicon does not come with ACC.

Interior noise level while driving	4.
Transmission gear change performance (smoothness)	4.
Overall audio, entertainment, and navigation system impression	5.
Integration with phones	5.
Support for popular music/video formats	5.
Appearance of exterior paint	5.
Safety and visibility while driving	5.
Engine performance during acceleration	5.
Difficult driving conditions (adverse weather, off-road)	5.
Ride quality	5.
What are your favorite parts of your new vehicle?	heated steering wheel, heated seats,
Fuel economy and driving range	1.
Ease of getting into and out of vehicle	3.
Ease of using system displays while driving	4.
Navigation system route accuracy	5.
Exterior design and appearance (overall impression)	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Headlight illumination/performance during night-time driving	5.
Interior comfort, design and appearance of interior (overall impression)	5.
Seat adjustment and comfort	5.
Steering wheel adjustment	5.
Engine exhaust sound	5.
What is your attitude overall towards the BRAND of your new car?	5.

About You

Primary vehicle you were considering:	Durango. Dodge. 2014. Primary Considered Vehicle: New.
Which, if any, influenced your purchase decision? (check all that apply):	Lifestyle. Features/Capabilities.
What is your current marital status?	Single / never married.
When considering this vehicle	Test drive the vehicle. Visit the dealership.
What is your average miles per gallon (MPG) with your vehicle?	13-15 mpg.
Please indicate the primary driver's age.	[redacted].
Vehicle performance	5.
Please indicate your ethnicity	[redacted]
Please indicate your gender	[redacted]
Please indicate your occupation.	Health Care.
Please tell us about the vehicle you replaced (if applicable)	Patriot. Jeep. 2011.
What year were you born?	[redacted]
How may children 17 or under live in your household?	0.
Trade-in allowance	2.
Financing options	4.
What is your total household income (before taxes)?	$80,000 - $99,999.
Price	5.
Ability to test drive	5.
Vehicle quality	5.
Vehicle fuel economy	5.
What is your primary language?	English.
Which of the following best describes the area you live in?	Suburban.
Convenience of dealership location	1.
Vehicle availability	2.
Vehicle styling	4.
Dealership treatment	5.
Please indicate your occupation status.	Employed.
Did you purchase or lease your vehicle?	Lease.
Is this your first new vehicle ever purchased / leased?	No.
Please indicate your highest education level	DVM, professional

Overview

Did you review the Printed User Guide?	No.
Would you recommend this vehicle to family or friends?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Did you review the Owner's Information DVD?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
If our team has any additional questions about your responses, would you accept further contact?	No.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location

Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	The car brakes when there is no danger of collision, when using cruise control

Welcome

Are you the primary driver of this vehicle?	Yes.

Welcome	
Please tell us how many miles are currently on your vehicle:	7,000-9,999.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Detail on Low Rated Items

You rated climate control operation (function and ease of use) Low. Use this space to provide any specific comments you would like to share.	Add hard buttons for seat heating and cooling functions and for air conditioning modes.
You rated your feelings about the durability of your new vehicle Low. Use this space to provide any specific comments you would like to share.	Quality is low.
You rated overall audio, entertainment, and navigation system impression Low. Use this space to provide any specific comments you would like to share.	Locks up, text entry is slow, incorrect POI's and routing.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Quality, same problems for all three JGC's I have owned
You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.	Gear selector is crap. I often miss gears when going from park to reverse or drive, etc.

Entertainment/Navigation System/Connectivity

If known, please tell us your software version	Android 4.4.2
Please tell us your cell phone model	Galaxy S4
Please choose your cell phone carrier	AT&T Mobile.
Please choose your cell phone brand	Samsung.

What Can We Do Better?

Feedback/Concerns:	Quality is low. I have owned three JGC Summits and will not buy another JGC POS. They all have had major quality and recall issues. In addition, if I pay over $50k for a JGC, I should have a free loaner Jeep whenever my JGC is in for warranty repairs.
What has Chrysler done right?	The feature set and value of the JGC is great. Too bad it is marred by major quality and recall issues.

Rain sensing wipers are broken/not working properly

Additional Comments:	Rain sensing wipers not sensitive enough
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate what type of trouble was experienced with the rain sensing wipers (check all that apply):	Rain sensing wipers do not swipe often enough.

Text messaging broken/not working

Please describe conditions when this trouble occurs:	Random
Did this trouble occur after starting the vehicle?	Yes.
Please describe the trouble you experienced (check all that apply):	Text audio playback does not pronounce text correctly. Does not display all text messages from phone Unable to receive audible notifications.
Do you have the Uconnect Access free form speech option?	Yes.
How often does this trouble occur?	Trouble occurs intermittently.

Voice Recognition Quick Tips Booklet does not list enough detailed commands

Please list additional useful commands:	Should list all commands

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Text entry is slow

Engine Fuel consumption	Fuel consumption is worse than expected.

Rear Cargo Shelf/Cargo Cover is difficult to use	
Please indicate why the rear cargo shelf/cargo cover is difficult to use (check all that apply):	Difficult to line up both sides at the same time. Difficult to line up both sides at the same time.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.

Appearance	
Appearance	Interior materials soils/scuffs too easily. Rear cargo shelf/cargo cover has gaps/poor fit.

Remote vehicle start is broken/not working	
How long was your vehicle parked before activating the remote vehicle start?	Less than 1 week.
Please indicate which method was used for remote vehicle start (check all that apply):	Remote vehicle start on phone.
Do you recall your cellular coverage at the time?	Full cellular coverage.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Map is missing information. Map contains incorrect information. Navigation system provides wrong directions.
Please indicate which of the following best describes your concern (check all that apply):	Navigation system has incorrect information. Navigation system is missing information.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
	Navigation system gives wrong directions.

Front seat audio/entertainment/navigation controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	Navigation system slow in searches and delay showing alpha characters in location text entry
How often does this trouble occur?	Trouble occurs regularly.

Via Mobile broken/not working	
Are there multiple users on this account?	No.
How often does this trouble occur?	Trouble occurs regularly.
Do other functions of the radio not work when Via Mobile is on?	No.
Did you receive a pop-up message?	No.
Please indicate which feature(s) of Via Mobile are broken/not working (check all that apply):	iHeartRadio.
Please describe the trouble you experienced:	Rarely connects to live internet radio stations

Excessive oil consumption	
If there is visible smoke (gray/blue-gray color) coming from the exhaust pipe, please indicate the driving condition when the smoke appears (check all that apply only if smoke is visible):	At start-up Acceleration/driving uphill (engine under load).
If there is visible smoke (gray/blue-gray color) coming from the exhaust pipe, please indicate the engine temperature condition when the smoke appears (check all that apply only if smoke is visible):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
About how far can the vehicle be driven before it is low 1 quart of oil?	More than 1,500 miles.

SD media slot is broken/not working	
Where is the location of the media port?	In center compartment, difficult to access Center console.
How often does this trouble occur?	Trouble occurs regularly.
Please describe the trouble you experienced (check all that apply):	does not alwas recognize SD card

Windshield wipers/washers broken/not working properly	
Please indicate what type of trouble was experienced with the windshield wipers/washers (check all that apply):	Washer fluid runoff covers top of front door windows blocking vision of mirrors, etc. Leaves a wide streak in diver's line of vision
Please indicate which feature of the windshield wiper/washer system is broken/not working properly (check all that apply):	Leaves a wide streak in diver's line of vision
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Additional Comments:	Rain sensing wipers not sensitive enough
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Reverse-camera is broken/not working	
Please indicate what type of trouble was experienced with the reverse-camera (check all that apply):	Image is jerky and poor color tones
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Engine makes abnormal/excessive noises	
What type of fuel do you most often put into your vehicle?	Premium gasoline.
Engine noise occurs while vehicle is (check all that apply):	Random
How often does this trouble occur?	Trouble occurs intermittently.
Engine noise sounds like (check all that apply):	Air conditioner clutch grinds intermittently
Engine noise occurs after vehicle is started at:	Random
Engine noise occurs (check all that apply):	Random
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	8000 miles or above.

Operation and Functionality

Operation and Functionality	
Operation and Functionality	Rear Cargo Shelf/Cargo Cover is difficult to use.

Uconnect Access	
Uconnect Access	Remote Features. Search Engine. Uconnect Access Application.

SD media slot issues	
SD media slot issues	SD media slot is broken/not working.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use. Text messaging broken/not working.

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
How often does this trouble occur?	Trouble occurs regularly.
Please describe the other trouble you experienced:	Bring back hard buttons for seat heating and cooling

Rear cargo shelf/cargo cover is broken/damaged/torn	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe in the box below where on the rear cargo shelf/cargo cover the trouble with broken/damaged/torn materials is located:	All three JGC's I have owned have had the rear cover handle screws break through the plastic. Please increase the material in the screw area to reinforce the plastic.

Engine Noise (abnormal)	
Engine Noise (abnormal)	Engine makes abnormal/excessive noises.

Engine Fluids (leaks, excessive oil consumption)	
Engine Fluids (leaks, excessive oil consumption)	Excessive oil consumption.

Hard Controls/Menu	
Hard Controls/Menu	Hard controls/menus: Front Screen Display: Other Concerns. Front seat audio/entertainment/navigation controls/menus broken/not working. Hard controls/menus: Front Screen Display is broken/not working.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	text entry slow to show all alpha characters and entry is slow Bring back hard buttons
How often does this trouble occur?	Trouble occurs regularly.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions. Difficulty accessing Points of Interest. Navigation system works, but traffic information doesn?t work / or is difficult to understand. Points of Interest incorrect. Navigation system freezes-up/will not work.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	When stating a name. When entering information. When there is outside noise or the blower is on.

Steering wheel vibrates excessively while driving

Additional Comments:	Dealer tried to address by rebalancing tires but issue was not resolved until I brought a technical service bulletin to their attention that called for replacing front wheel bearings. Issue has now been resolved.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Vibration is:	Moderate.
Steering wheel vibration trouble occurs during these road conditions (check all that apply):	All road conditions.
Steering wheel vibration trouble occurs during these speeds (check all that apply):	Vibration occurred between 65 and 70 mph.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Shifts at wrong times

Please describe conditions when this trouble occurs:	Lag in downshift during hard acceleration. Very noticeable, maybe a couple of seconds.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Hard acceleration.
Going into which gear/gears does the trouble occur? (check all that apply)	Not sure.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Are you using your vehicle for towing when the problem occurs?	No.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.

Water leaks into vehicle

Additional Comments:	On second try dealer traced the trouble to a crimped drain line and repaired. No problems since
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate the location of the water leak (check all that apply):	Occurred when vehicle was new. Water leaked in through various vents and roof console.
Water leaks into vehicle	Water leaks into vehicle.
Please describe conditions when this trouble occurs:	Anytime it rained

About You

How may children 17 or under live in your household?	0.
Financing options	2.
Primary vehicle you were considering:	2013. Explorer. Ford. Primary Considered Vehicle: New.
Please indicate your occupation.	Executive / Managerial.
Which, if any, influenced your purchase decision? (check all that apply):	On-Line blogs or forums. Features/Capabilities.

About You

	Price/Purchase Terms/Financing.
	Value for the money.
	Vehicle test drive.
	Dealer/Salesperson interaction.
When considering this vehicle	Visit the dealership.
	Interact with dealership by phone.
	Research online.
	Interact with dealership by email.
	Test drive the vehicle.
What year were you born?	[redacted]
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
Vehicle fuel economy	4.
Price	5.
Ability to test drive	5.
Vehicle performance	5.
Please indicate your ethnicity	[redacted].
Please tell us about the vehicle you replaced (if applicable)	Lincoln.
	Aviator.
	Replaced Vehicle: Purchased New.
	2003.
Please indicate your gender	[redacted].
Trade-in allowance	1.
Secondary vehicle in your household:	2013.
	Lexus.
	RX 350.
	Secondary Household Vehicle: Purchased New.
Convenience of dealership location	3.
Vehicle availability	4.
Vehicle styling	4.
Please indicate your highest education level	4 year college degree.
Vehicle quality	5.
Please indicate your occupation status.	Employed.
What is your primary language?	English.
Is this your first new vehicle ever purchased / leased?	No.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
What is your total household income (before taxes)?	More than $200,000.
Dealership treatment	5.
Please indicate the primary driver's age.	[redacted]
What is your current marital status?	[redacted].
What price did you pay for your vehicle?	$43,000

Shift between gears is rough/harsh under normal driving conditions

Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear.
	3rd Gear.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Hard acceleration.
	Deceleration.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Additional Comments:	I was experiencing moderately rough upshifts and lags in downshifts during hard acceleration. At about 9000 miles the transmission would not shift from Park to Reverse or Drive and ultimately the transmission was replaced in Nov. 2013. Since then it has been upshifting very smoothly. The only issue I encounter is the lag in downshifting when hard accelerating.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.

Vehicle Satisfaction Ratings

Engine sound	4.
Steering and handling (responsiveness, stability)	4.

Vehicle Satisfaction Ratings	
How do you feel about the durability of your new vehicle?	4.
Rear view styling (rear fascia, bumper)	5.
Fuel economy and driving range	5.
Support for popular music/video formats	4.
Ease of getting into and out of vehicle	4.
Interior noise level while driving	4.

Integration with media players	4.
Wheels, rims, and tires appearance and styling	4.
Vehicle storage and space usage	4.
Head/leg/foot room	4.

Operation and Performance	
Operation and Performance	Air conditioner never gets cold enough.

Automatic high-beam headlights broken/not working	
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	High beams turn off when there is no oncoming car. Seem to react to street lighting or other sources.
Please describe conditions when this trouble occurs:	Occurs frequently enough that I turn off the automatic feature.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Printed User Guide covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).

Overview	
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Ancira CJD, San Antonio, Texas. While I have been pleased with service , I would think the service advisors should be more knowlegeable of service bulletins, need for software updates. I usually need to point these out to them.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	No.
Which automotive publications do you subscribe to? (check all that apply)	Really rely on owner forums like Jeep Garage to find out issues other owners are having with vehicle.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Automatic Transmission	
Automatic Transmission	Shifts at wrong times.
	Shift between gears is rough/harsh under normal driving conditions.

Air conditioner never gets cold enough	
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	I think the issue relates to low air flow for back seat passengers.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Outside temperature over 90? F.
Please describe conditions when this trouble occurs:	Primarily an issue for passengers in the back seat.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Vehicle Exterior.
	Interior Climate Control.
	Transmission and Drivetrain.
	Engine.
	Steering, Handling, and Ride.

Detail on High Rated Items	
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	Collision avoidance sometimes applies brake warning in inappropriate situations.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Great internet buying experience. Most pleasant and hassle free car buying experience I've ever had. Took about 15 minutes to order car and agree on price. Did it over the phone and confirmed by email. Outstanding. River Oaks CJD in Houston, Texas.
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	Touch screen and configurable options. Navigation still a little clunky.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	Voice recognition commands very accurate, dialing from contact list. Text feature for iPhone doesn't work.

Engine power is less than expected	
Trouble occurs while vehicle is (check all that apply):	Accelerating.
	Freeway/highway driving.
	While towing.
	Going up an incline.
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	The base v-6 is a very good engine. However, I would like the vehicle is heavy and I would like it to have more power in the base engine so it wasn't necessary to order a V-8. Maybe 10 -15% more horsepower.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Does trouble only occur when vehicle is carrying multiple passengers and/or heavy cargo?	Yes.

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

What Can We Do Better?	
What has Chrysler done right?	Great design and value for price.
Feedback/Concerns:	Better dealer service experiences (more like Lexus), particularly with need to update technology on vehicles.

Headlights not bright enough	
Additional Comments:	Headlights not as bright as I would like.

Engine Power	
Engine power	Engine power is less than expected.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Steering and Handling	
Steering and Handling	Steering wheel vibrates excessively while driving.

Lights	
Lights	Automatic high-beam headlights broken/not working. Headlights not bright enough.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Improve dealer service experience to be more like Lexus. Service advisers don't consistently seem current on need for software updates and technical service bulletins. I have to do too much homework before the visit.

Navigation system works, but missing information; has incorrect information; gives wrong directions

Please indicate which of the following best describes your concern (check all that apply):	it is often wrong it gives incorrect directions Navigation system gives wrong directions.
Please indicate which navigation system item has trouble (check all that apply):	it often goes in a big circle...it tells me to get off at wrong exits so as to get me places as the crow flies rather than what makes sense in a driving way. It is much worse than my previous Garmin.

Entertainment/Navigation System/Connectivity>Navigation System>

Navigation System	Navigation system works, but traffic information doesn?t work / or is difficult to understand. Navigation system works, but missing information; has incorrect information; gives wrong directions. Points of Interest incorrect.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command

Do you usually set HVAC vent direction toward ceiling?	No.
Please describe when this trouble occurs:	always. it is worse when there is outside noise...but my google voice works regardless. I use voice activation on my phone all the time while driving. I just cant get the car to voice activate so I hardly try to use it anymore...it never worked. When entering a number. When stating a name.
Please indicate which words, if any, are constantly misrecognized:	most words are not recognized, it has rendered this part of the car unusable.
How often does this trouble occur?	Trouble occurs regularly.
What button did you use?	steering wheel button

Vehicle Issues/Things Gone Wrong

Continuous Quality Insight	Other. Entertainment/Navigation System/Connectivity. Seats. Vehicle Exterior. Interior Climate Control.

Heating, ventilation and air conditioning doesnt maintain desired temperature

Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Outside temperature between 60 and 69 degrees. Outside temperature between 80 and 89 degrees. Outside temperature between 40 and 49 degrees. Outside temperature between 50 and 59 degrees. Outside temperature between 90 and 100 degrees. Filtered sun (light/partial clouds, light haze/fog). This car has a very weak HVAC system compared to my 2006 grand cherokee limited. Its worse in bright sun still a problem even is shade. of course, this needs extra time. but in comparison to my last jeep (same model, just older) it is much weaker.

Heating, ventilation and air conditioning doesnt maintain desired temperature	
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	I keep it set around 68 but if I need heat I have to go up to 74 or 75 on drivers side and 70 at least on passenger side...and recirculate. at the same time, my left leg and feet are cold. when its very hot out, its hard to get the a/c to work properly. this has been a problem since I got the car. the a/c is just not very strong.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.

Seat Material

Seat Material	Seat material soils/scuffs easily.
	Seat material concerns.
	Seat material is sagging/loose/parting seams.

Navigation system works, but traffic information doesn.t work / or is difficult to understand

Please indicate what issues you are experiencing with the traffic information (check all that apply)	It just doesn't tell me abotu traffic issues.

Voice Activation / Recognition doesnt recognize command

How often does this trouble occur?	Trouble occurs regularly.
What button did you use?	steering wheel
Please describe when this trouble occurs:	yes.
	yes I wait for the beep. Ive read the user guide
Do you usually set HVAC vent direction toward ceiling?	No.

Seat material concerns

How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate which seat has trouble with its material (check all that apply):	Front passenger seat.
	Driver's seat.
	Passenger's side rear seat.
Additional Comments:	This material is super delicate and not suitable for seats in a jeep (or any other car IMO) I have been quoted over a grand to fix the tear in the rear passenger seat.
Please describe conditions when this trouble occurs:	normal use
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Seat material trouble is:	Seat cover wear.

Heater takes too long to get hot

How often does this trouble occur?	Trouble occurs regularly.
Please indicate typical weather conditions when heater trouble occurs (check all that apply):	All weather conditions.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Fan/blower makes excessive noise

How often does this trouble occur?	Trouble occurs regularly.
Please describe when the fan/blower noise occurs (check all that apply):	At medium fan speeds.
	At high fan speeds.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe the fan/blower noise (check all that apply):	when on any level below the first 2 bars its very loud.

Heater never gets hot enough	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate typical weather conditions when heater trouble occurs (check all that apply):	if its cold and heat is needed.
How often does this trouble occur?	Trouble occurs regularly.

Detail on Low Rated Items	
You rated interior noise level while driving Low. Use this space to provide any specific comments you would like to share.	it is loud in the car. wind sounds and fan sounds are what come to mind. the engine of jeeps are loud, so I am not talking about that. I am used to driving a jeep so I know what to expect, and this was an upgrade for me and I expected better ride and lower noise levels.
You rated navigation system route accuracy Low. Use this space to provide any specific comments you would like to share.	it is inexcusable that a car of this level has such a poor navigation system. It is just often incorrect.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I am very troubled with the seat fabric, the sensor malfunctions, the constant recalls and lack of part availability, and the weakness of the HVAC system.

Antennas have corrosion	
Please describe the trouble you experienced:	my antenna has a dent in it. I am not sure how that got there. I have showed this to the service people. I am concerned that it has effected connectivity, but I do get sirius XM. I am not sure if thats the same network.

Front heating, ventilation and air conditioning vents are broken/not working	
Additional Comments:	the HVAC system in this jeep is not as strong as the one in my previous jeep. when I drive in cold weather also my left leg and feet are very cold as if the vents on the drivers side by the door are not working...but also even though its set for feet, it doesnt seem to work well. I use the recirculate button to boost it, but this should not be necessary.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	heat does not get hot enough....takea a long time. A/c was never cold enough.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.

Vehicle Satisfaction Ratings

Seat will not heat enough/at all/fast enough	
Please describe conditions when this trouble occurs:	when its very cold out.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please indicate which seat has trouble (check all that apply):	I do not ride in this seat so I dont know.
	it seems to lose heat after a little while.
Additional Comments:	It was summer when I got the car.
How often does this trouble occur?	Trouble occurs intermittently.

Antennas	
Antennas	Antennas have corrosion.

Operation and Performance	
Operation and Performance	Front heating, ventilation and air conditioning vents are broken/not working.
	Heater never gets hot enough.
	Heating, ventilation and air conditioning doesn't maintain desired temperature.
	Heater takes too long to get hot.
	Air conditioner never gets cold enough.
	Fan/blower makes excessive noise.

Adjustments and Controls	
Adjustments and Controls	Memory Seat controls are broken/not working.
	Memory Seat controls are difficult to understand/use; in a poor location.
	Seat heater is broken/not working.

Overview	
Would you recommend this vehicle to family or friends?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Ihave had to have the screen console replaced and also there have been numerous recalls on this vehicle.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Was the trouble resolved to your satisfaction?	No.
Printed User Guide covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
Please explain further about your choice to recommend your vehicle:	The seats are made of a weak leather. the HVAC system is weak. the sensors malfunction all the time. there have been numerous recalls and chrysler doesnt even have the parts to fix the problems. when the airbag unit was recalled they put me in a rental car. this is just not acceptable. it is

Overview	
	taking a lot of my time and i have issues that have to be addressed and I live with them because I am so busy...I dont have the time for all of this.
Information in the Printed User Guide is easy to find and access	3 (neither agree nor disagree).
Printed User Guide format is easy to understand and use	4 (agree).
Did you review the Owner's Information DVD?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Did you review the Printed User Guide?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	Verizon Wireless.
If known, please tell us your software version	newest
Please tell us your cell phone model	note 4
Please choose your cell phone brand	Samsung.

Air conditioner never gets cold enough	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	All weather conditions. Bright sun.
Please describe conditions when this trouble occurs:	it never worked as I was used to...and it takes quite a while to get going.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.

Seat material soils/scuffs easily	
Additional Comments:	The seat material is way way too sensitive in normal use. I have a tear in the back seat and scratches all over. I have sagging from normal use of getting in and out of the car.
Please indicate the trouble you experienced with the seat material (check all that apply):	stretched from normal use of getting in and out of the car...littlest scratch is apparent this leather may be important for the higher level of car, but its not suitable for a jeep. It soils and breaks and sags easily very very thin leater has already been torn.

Seat material is sagging/loose/parting seams	
Please indicate which seat is sagging/loose/parting seams (check all that apply)	normal use sagging and finish looks like its very old. this is normal use. I had a jeep previously with leather...this is a bad choice of seat material. tear here.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command. Hands-Free Phone / Bluetooth system phonebook does not work correctly.

Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	this is about the bavigaiton system which I covered

Memory Seat controls are broken/not working	
Please describe conditions when this trouble occurs:	I dont know how to set this though I have tried.
To the best of your recollection, the trouble was first noticed:	At delivery.

Detail on High Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	if the fuel estimates are correct, then they far exceed my expectations for a car this size, but I have been too busy to sit down and figure it out to check.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	My salesman has been great. i see him often and he is just a great salesman.

Memory Seat controls are difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Difficult to understand.

Heated seat temperature cannot be maintained	
Please indicate which seat has trouble (check all that apply):	if its very cold out, the seat temp cannot be maintained.
Please describe conditions when this trouble occurs:	very cold out.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
How often does this trouble occur?	Trouble occurs regularly.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working. Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location.

Seat heater is broken/not working	
Seat heater is broken/not working	Heated seat temperature cannot be maintained. Seat will not heat enough/at all/fast enough.

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Other	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe conditions when this trouble occurs:	I believe that its the sensors...the car feels that I am too close to the car ahead and alarms. The windshield wipers dont go on.
Please describe the other trouble you experienced:	computer problems persist. The brake warning goes off all the time, the windshield wiper automatic sensor does not work.
How often does this trouble occur?	Trouble occurs regularly.

What Can We Do Better?	
What has Chrysler done right?	It drives great and fuel economy continues to improve. It just takes a lot of time to deal with the ongoing problems.
Feedback/Concerns:	Ongoing recalls and the quality of the seat fabric, HVAC system and sensors are my problems.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	recalls. safety of the vehicle in light of the parts not available. extended warranty. what is chrysler going to do about the issues discussed here.
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Points of Interest incorrect	
Please describe the trouble with the Points of Interest within the Navigation system	when you spell out something like "starbucks" it returns no hits. impossible.I usually use my phone for this info. it was on my preious Garmin.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Overview	
Printed User Guide covers the necessary features	5 (strongly agree).
DVD format is easy to understand and use	5 (strongly agree).
Information on the DVD is easy to find and access	5 (strongly agree).
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Overview	
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Information in the Printed User Guide is easy to find and access	5 (strongly agree).
What have you used to view your DVD? (check all that apply)	Computer/laptop.
Please explain further about your choice to recommend your vehicle:	I like most of the quality. I am just tired of the recalls.
Printed User Guide format is easy to understand and use	5 (strongly agree).
Please rate your overall level of satisfaction with the DVD	5 (very satisfied).
Which automotive publications do you subscribe to? (check all that apply)	Motor Trend.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone only.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	AT&T Mobile.
Please tell us your cell phone model	6
Please choose your cell phone brand	Apple.

Text messaging broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.
Did this trouble occur after starting the vehicle?	Yes.
Do you have the Uconnect Access free form speech option?	No.
Please describe the trouble you experienced (check all that apply):	Voice recognition playback does not work.

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	When stating a name.
How often does this trouble occur?	Trouble occurs regularly.
What button did you use?	Steering Wheel Button
Do you usually set HVAC vent direction toward ceiling?	No.

What Can We Do Better?	
What has Chrysler done right?	Stylish. Fast and luxury.

Seat Squeak/Rattle	
Trouble occurs under these surface conditions (check all that apply):	hear it constantly at low speeds
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which seat has a squeak/rattle (check all that apply):	Passenger's side rear seat.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Seat Squeak/Rattle	Seat Squeak/Rattle.

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Entertainment/Navigation System/Connectivity. Seats.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Text Messaging	
Text Messaging	Text messaging broken/not working.

About You

What year were you born?	[redacted]
Please tell us about the vehicle you replaced (if applicable)	2011. Replaced Vehicle: Purchased New. Jeep.
Vehicle styling	4.
Please indicate your highest education level	4 year college degree.
Vehicle availability	5.
Vehicle quality	5.
Please indicate your occupation status.	Employed.
What is your primary language?	English.
When considering this vehicle	Interact with dealership by email.
Is this your first new vehicle ever purchased / leased?	No.
Did you purchase or lease your vehicle?	Purchase.
What is your average miles per gallon (MPG) with your vehicle?	16-18 mpg.
Financing options	4.
Convenience of dealership location	5.
Please indicate your gender	[redacted].
Please indicate your occupation.	Sales Work.
What price did you pay for your vehicle?	34,xxx

Front doors are difficult to open/close

Please describe conditions when this trouble occurs:	all weather conditions, all times day/night
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which door is difficult to open/close (check all that apply):	again, mainly when closing the door, the door is always ajar - doesn't close easily
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	It could be they are just a different type of door mechanism - But, this is my fourth Jeep, and I have not had it happen this early. The older they get, it's happened before where the doors seem a bit hyperextended and they don't fully close.

Detail on Low Rated Items

You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.	I do not like the gear selector...do not like it at all. It doesn't shift into gears easily - Neutral seems to be the gear I hit the most...going to Drive, or back to park...just do not like it at all.

Excessive wind noise

Additional Comments:	I'm in the car a LOT...I use it for work, and drive everyday - it doesn't occur everyday, and I can't recall if it was because it was windy or not.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.

Detail on High Rated Items

You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	Nice advancement to the Nav system - accuracy/tone of. I love how the Jeep looks over competition

Detail on High Rated Items	
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Can't go wrong with Black...I wasn't a fan of the "black/blue" or the "black/green" colors
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	I appreciated the Sales manager reaching out to me to find a vehicle. I have been dealing with the same dealership for my past 3 vehicles. I would like to think my business to them means something - in a world of convenience, where loyalty falls by the wayside.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	I have been a Jeep fan for many years...They have made a quality product.

Vehicle Satisfaction Ratings	
Interior noise level while driving	3.
Transmission gear change performance (smoothness)	3.
Interior comfort, design and appearance of interior (overall impression)	4.
Seat adjustment and comfort	4.
Engine exhaust sound	4.
Navigation system route accuracy	5.
Exterior design and appearance (overall impression)	5.
Front view styling (front fascia, hood, grille, headlight area)	5.
Steering wheel adjustment	5.
How was your purchasing experience (the dealer/dealership)?	5.
What is your attitude overall towards the BRAND of your new car?	5.
Is there anything about your new vehicle you would like to see changed?	gear shifter, climate control
Operating controls while driving (gear selector, turn signals, horn, etc.)	1.
Ease of using system displays while driving	3.
Climate control operation (function and ease of use)	3.
Overall audio, entertainment, and navigation system impression	4.
Integration with phones	4.
Head/leg/foot room	4.
Location and usefulness of interior lighting	4.
Engine sound	4.
Steering and handling (responsiveness, stability)	4.
How do you feel about the durability of your new vehicle?	4.
Rear view styling (rear fascia, bumper)	5.
What are your favorite parts of your new vehicle?	clarity of bluetooth, dashboard, no gas cap!

Rear side doors are difficult to open/close	
Please indicate which of the following best describes your concern (check all that apply):	They seem to have the same problem as the front doors - just don't fully close without force
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Engine. Vehicle Exterior.

Front Doors	
Front Doors	Front doors are difficult to open/close.

Features and Controls	
Features and Controls	Light switches/controls.

Overview	
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.

Overview	
Please explain further about your choice to recommend your vehicle:	I am very pleased overall with the Jeep brand. I know with newer vehicles (models) there are some issues. Again, I drive for my work, and I am in the car A LOT...which gives me time to listen and know what sounds my car makes, and if it has "glitches". The Brake sensor was another thing that came on, without reason, and there was a sound of the air suspension inflating/deflating - it was very loud.

Engine cranks too long before starting	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximately how long does it take for the engine to finally start?	1 to 5 seconds.
Please indicate when the starting trouble occurs:	Seems to just start harder than when it's a hot condition
Additional Comments:	My 2011 Jeep had this issue towards the end, where it would not start...and I notice some hesitation with this '15 Jeep. Not all the time, but some sounds are different

Exterior light controls broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which exterior light control feature is broken/not working properly (check all that apply):	automatic hi-beam does not work properly
Please indicate what type of trouble was experienced with the exterior light controls (check all that apply):	it seems to be backwards, when a car approaches, the automatic hi-beams turn on. Driving regularly, the hi-beams never turn on when it's dark, unless a car approaches
Additional Comments:	I have not made an appointment to get this checked, I disengaged the auto lights

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	3,000-4,999.

Wind Noise	
Wind Noise	Excessive wind noise.

Detail on Low Rated Items	
You rated your feelings about the durability of your new vehicle Low. Use this space to provide any specific comments you would like to share.	Mechanical problems e.g. radiator leak - unacceptable for a new vehicle.
You rated overall audio, entertainment, and navigation system impression Low. Use this space to provide any specific comments you would like to share.	Unreliable. Replaced 3 times.

What Can We Do Better?	
What has Chrysler done right?	Styling; Performance; Features; Value for Money. I love the way the car looks, performs and handles but I do not trust it to take on long journeys. I can recite the VIN # and I am too often at the dealership.
Feedback/Concerns:	This vehicle has serious electrical gremlins as well as questionable mechanical reliability. I replaced the infotainment unit 3 times due to GPS errors; SD card reader errors; screen became black. I replaced the hood sensors twice as the alarm would set off unexpectedly in the middle of the night and would not be turned off. I had work done on the active cruise control at least twice due to the BRAKE warning message appearing out of nowhere on an empty highway and vehicle braking on its own. One time having just fixed the ACC, I brought the car home and next day the radiator was leaking coolant - it had to be replaced. When the infotainment screen blacked out a few weeks ago, the HVAC system could not longer be controlled and was stuck in A/C moode directed at the windshield.

Welcome

About You	
Please indicate the primary driver's age.	[redacted]
Please indicate your occupation.	[redacted].
Please indicate your occupation status.	Employed.
Primary vehicle in your household:	Jeep. 2014. Grand Cherokee. Primary Household Vehicle: Purchased New.
Please indicate your gender	[redacted].
What is your current marital status?	[redacted]
Secondary vehicle in your household:	Secondary Household Vehicle: Purchased Used. 2002. Maxima. Nissan.
How may children 17 or under live in your household?	1-2.
What is your primary language?	English.
Please indicate your ethnicity	[redacted].
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Urban.
What is your total household income (before taxes)?	$40,000 - $59,999.
What is your average miles per gallon (MPG) with your vehicle?	13-15 mpg.
Please indicate your highest education level	High school degree / GED.

Other component(s) replaced (not listed previously)	
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
When was the replacement made on your vehicle?	18-24 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.
Which other component(s) did you replace?	Air suspension module

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	No Concerns.

No Concerns	
Would you recommend this vehicle to family or friends?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Please explain further about your choice to recommend your vehicle:	I love my jeep
Have you taken your vehicle to an authorized dealer for any reason? (check all that apply):	Front bumper not installing properly

Other Components	
Other Components	Other component(s) replaced (not listed previously).

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	10,000-19,999.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Price

What Can We Do Better?	
What has Chrysler done right?	everything, if you want send me a gift for filling this survey!!
Feedback/Concerns:	I would like stop brake lights LED just like the audi, also lane departure warning.

Contact Me

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Squeak/rattle/abnormal noises from headliner

Please describe conditions when this trouble occurs:	bumpier roads
Please describe in the box below where from the headliner the trouble with abnormal noises is located:	right rear seat above in the moonroof area
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Additional Comments:	if you put your hand on the headliner and apply pressure the noise stops. but as soon as you let go it rattles and squeaks again

Voice Activation / Recognition doesnt recognize command

What button did you use?	dial button or green call button
Please describe when this trouble occurs:	When there is outside noise or the blower is on.
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.

Detail on High Rated Items

You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	I LOVE THE AUDIO SYSTEM!
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	love the rear design
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	turning radius is great!
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	UCONNECT is the best hands down.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Uconnect, stereo # of speakers and quality of sound, adaptive cruise control, head light movement, vehicle warning sensors for potential objects front, rear and side.

Hard controls/menus: Front Screen Display: Other Concerns

Additional Comments:	I want to change the settings while driving

Overview

Please explain further about your choice to recommend your vehicle:	Jeep needs to work on QC and not have so many recalls, and get the software right and updates before release
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	only warranty items many of the smaller items I am dealing with
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Was the trouble resolved to your satisfaction?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Other component(s) replaced (not listed previously)

Which other component(s) did you replace?	replaced whatever was covered by warranty.
When was the replacement made on your vehicle?	9-12 months into ownership.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

About You	
What is your total household income (before taxes)?	$60,000 - $79,999.

What Can We Do Better?

Feedback/Concerns:	Adaptive cruise has a great potential to get people hurt. The transmission 2-1 downshift on deceleration issues should have been resolved in power train development.
What has Chrysler done right?	The Summit is a beautiful, well built and comfortable vehicle. It makes you feel good to drive it. My wife and I really love it. The dealership (Fields) is a great place but their hands are tied on software related issues as they can only utilize what the manufacturer provides them.

Entertainment/Navigation System/Connectivity

Please tell us your cell phone model	Droid Mini
If known, please tell us your software version	Latest
Please choose your cell phone brand	Motorola.
Please choose your cell phone carrier	Verizon Wireless.

Other component(s) replaced (not listed previously)

Which other component(s) did you replace?	Front door seals were bad upon delivery. I had anything replaced that was a part of the many recalls and TSB updates.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Shift between gears is rough/harsh under normal driving conditions	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Braking to a stop. Braking to a stop. City driving/stop-and-go traffic.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
Additional Comments:	After first computer reflash. Worked properly before that.
Going into which gear/gears does the trouble occur? (check all that apply)	2-1 downshift under deceleration.

Overview	
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings. Road and Track. Motor Trend. Car and Driver. Automobile.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Please explain further about your choice to recommend your vehicle:	Maybe, if they have time to spend at the dealership. This has not been a plug and play vehicle.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone only.
Was the trouble resolved to your satisfaction?	Yes.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system phonebook does not work correctly.

Appearance	
Appearance	Interior materials soils/scuffs too easily.

About You	
What is your current marital status?	[redacted]
Secondary vehicle in your household:	2004. Ford. F-150.
Primary vehicle in your household:	Town & Country. 2008. Chrysler.
How may children 17 or under live in your household?	0.
What is your average miles per gallon (MPG) with your vehicle?	23-24 mpg.
What is your primary language?	English.
Which of the following best describes the area you live in?	multiple-suburban and rural
Please indicate your highest education level	Graduate degree.
Please indicate your gender	[redacted]
Did you purchase or lease your vehicle?	Purchase.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions.
Please indicate which of the following best describes your concern (check all that apply):	Route selection is poor. It does not match up to a $100 windshield mounted Garmin.
Additional Comments:	For $140 I can get a portable unit with lifetime updates. A tremendous value compared to a dash unit. Phone will make both useless in areas where you can get a reliable phone line.

Cruise control system works properly, but difficult to understand/use; controls in a poor location	
Please indicate why the cruise control system controls are difficult to understand/use; are in a poor location (check all that apply):	Adaptive Cruise Control is just plain dangerous. I looked forward to this technology but I am greatly disappointed and concerned. It works in situations where it is not really needed and is dangerous in moderate traffic. Change lanes and it is easy to get in a situation where the car will slow down with the range set on minimum. Slowing down when changing lanes leads to rear end collisions. It is a high dollar accessory that needs more development.

Hands-Free Phone / Bluetooth system phonebook does not work correctly	
Please indicate which aspect of the phonebook does not work properly (check all that apply):	Phone shows whether # is business, cell, etc. Jeep screen shows numbers without designation but will say "calling so and so mobil". It knows the info but does not display it. It used to but it is not worth the time right now for a dealer visit.
How often does this trouble occur?	Trouble occurs regularly.

SD media slot issues	
SD media slot issues	SD media slot is difficult to understand/use; is in a poor location.

Automatic Transmission	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	There is no way this questionnaire can be completed in ten minutes if given even the smallest degree of thought. The durability of the hard surfaces of the brown interior is embarrassing.

SD media slot is difficult to understand/use; is in a poor location	
Additional Comments:	There were difficulties with the card being recognized and freezing. This to a trip to the dealer and a software upgrade to solve.
Please indicate which of the following best describes your concern (check all that apply):	Angle, size and location make it difficult to insert the SD card.
How often does this trouble occur?	Trouble occurs regularly.

Welcome	
Please tell us how many miles are currently on your vehicle:	10,000-19,999.
Are you the primary driver of this vehicle?	Yes.

Features and Controls	
Features and Controls	Cruise control system.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Entertainment/Navigation System/Connectivity. Transmission and Drivetrain. Interior Trim/Storage/Windows. Seats. Features/Controls/Displays.

Seat belt latch/release controls are difficult to understand/use	
Additional Comments:	Drivers seat and maybe passenger seat. I'm [redacted] and the height adjustment on the B pillar does not go high enough above my shoulder. Wearing the shoulder strap is uncomfortable.

Detail on High Rated Items	
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	20" rims Ride and the look of the interior.

Detail on High Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Brown color and materials work although I'm not a 'brown' guy.

Interior materials soils/scuffs too easily	
Additional Comments:	I noticed it in the first week with less than 100 miles. Jeep obviously did as well but decided to go ahead with a surface that has obvious durability issues.
Please describe in the box below which material(s) have trouble with soiling/scuffing too easily:	I have a Summit with the brown interior. Beautiful. Pick any hard surface but obviously door kick panels. I'm very careful and have researched many ways to remove the scuffs but it appears impossible. The finish/texture/color is only on the surface and anything that damages the surface makes it impossible to make the scuff disappear with any product or technique I have heard of.

Cruise control system	
Cruise control system	Cruise control system works properly, but difficult to understand/use; controls in a poor location.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Vehicle Issues/Things Gone Wrong

Continuous Quality Insight	Transmission and Drivetrain. Off-Road. Entertainment/Navigation System/Connectivity. Steering, Handling, and Ride. Vehicle Exterior. Features/Controls/Displays.

Hands-Free Phone / Bluetooth system loses connection

How often does this trouble occur?	Trouble occurs regularly.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.
Additional Comments:	Spotty issues when playing back music. Music will skip in and out regularly and also the system a lot of times recognizes a phone is connected and even displays the song and artist but will not play. Then if left alone it will usually play after about 5 minutes all on its own.
Were you in the middle of a call?	No.
Lost connection problem happens when:	Other: Please describe when this trouble occurs.
Is there more than one phone paired to the vehicle?	Yes.

Key fob entry system broken/not working

Trouble with the key fob entry system occurs:	While unlocking.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	Anytime you approach the vehicle and unlock by placing hand behind handle.
Please indicate what type of trouble was experienced with the key fob entry system (check all that apply):	System doesn't seem to recognize which driver settings it needs based on the key for when using handle to unlock door.

Shift between gears is rough/harsh under normal driving conditions

To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which gear/gears does the trouble occur? (check all that apply)	Excessive vibration when feathering gas pedal Same Same
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Only happens while trying to maintain speed
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
How often does this trouble occur?	Trouble occurs intermittently.

Shift between gears is rough/harsh under normal driving conditions	
Additional Comments:	Difficult to reproduce for dealership as it is so intermittent.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Did you review the Owner's Information DVD?	Yes.
Please provide feedback on how Chrysler can improve the DVD	Dvd just reiterates the quick start Guide. Should go into more in depth detail.
Please explain further about your choice to recommend your vehicle:	Except for the initial issues it has been great. Concerned about the longevity and further repairs down the road especially with transmission and air suspension.
DVD format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	5 (strongly agree).
What have you used to view your DVD? (check all that apply)	Home DVD Player.
Information on the DVD is easy to find and access	4 (agree).
Printed User Guide covers the necessary features	5 (strongly agree).
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Printed User Guide format is easy to understand and use	5 (strongly agree).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Dealership where I purchased is not the closest to my home.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please rate your overall level of satisfaction with the DVD	3 (neither satisfied nor dissatisfied).
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.

Vehicle vibrates excessively while driving (not braking)	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble occurs while traveling at these speeds (check all that apply):	Same as above but only occurs when lightly feathering gas pedal. Problem occurs between the 6 and 8th gears. Transmission starts vibrating with light feathering of the gas pedal.
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	It happens rarely but when it does it is extremely noticeable and passengers have even commented on the issue.
Please describe conditions when this trouble occurs:	When feathering gas pedal
Trouble occurs while traveling in these road conditions (check all that apply):	Based on speed and gears
Are you using your vehicle for towing when the problem occurs?	No.
Vibration is:	Moderate.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Strut problem/shock absorber problem	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	When going over sped bumps or hitting pot holes there is a loud banging noise that comes from the rear. It sounds terrible but doesn't appear to cause any damage.
Please indicate where the strut/shock problem occurs:	Rear.

Welcome	
Please tell us how many miles are currently on your vehicle:	7,000-9,999.
Are you the primary driver of this vehicle?	Yes.

Axle(s)	
Axle(s)	Axle is leaking fluid.

Wind Noise	
Wind Noise	Excessive wind noise.

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Need hard controls so passengers can adjust settings easily.
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Driver has to go into menu to adjust which is dangerous.
Please indicate which of the following best describes your concern (check all that apply):	The heated and ventilated seat controls need hard buttons. Passengers never know how to change the settings and driver has to which leads to distraction.

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system broken/not working.

Excessive wind noise	
Please indicate the location of the wind noise (check all that apply):	Generally loud on Highway but quite than my last vehicle. Not sure if it's tire or wind noise.
Additional Comments:	In a addition to Laminated windshield driver and passenger front Windows should be Laminated as well.
Please describe conditions when this trouble occurs:	Highway speeds
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Wipers and washers	
Wipers and washers	Rain sensing wipers are broken/not working properly.

Uconnect Access	
Uconnect Access	Remote Features.

Reverse-camera is broken/not working	
Please indicate what type of trouble was experienced with the reverse-camera (check all that apply):	Sometimes it can take 5 to 10 seconds for the camera to come on. Cheap camera with poor image quality and the image shudders almost like it is taking photos rather than showing video of what's behind you. This needs serious improvement in a car that is trying to compete with luxury vehicles.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Took into dealership for studded issue and they said they couldn't fix. It was just the way it was and they all did the same thing.
Please describe conditions when this trouble occurs:	When in reverse
To the best of your recollection, the trouble was first noticed:	At delivery.

Axle is leaking fluid	
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe where the leak occurs (check all that apply):	Grease slinging out all over side of vehicle
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	Brought in for warranty repair and both front axels had to be replaced. Dealer indicated they were installed wrong at factory.
Please describe conditions when this trouble occurs:	While driving

Features and Controls	
Features and Controls	Wipers and washers. Door locks/key fob entry system. Reverse-Camera.

Automatic Transmission	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions.

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	Droid maxx
Please choose your cell phone brand	Motorola.
If known, please tell us your software version	4.4.4
Please choose your cell phone carrier	Verizon Wireless.

Rain sensing wipers are broken/not working properly	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	No rain present and sometimes wipers activate and take 3 or 4 swipes and then stop.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Noise and Vibration	
Noise and Vibration	Vehicle vibrates excessively while driving (not braking).

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system loses connection.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but traffic information doesn?t work / or is difficult to understand.

Reverse-Camera	
Reverse-Camera	Reverse-camera is broken/not working.

Navigation system works, but traffic information doesn.t work / or is difficult to understand	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	I don't see any traffic information in the map.

Overview

Please explain further about your choice to recommend your vehicle:	The vehicle was sold due to the ongoing poor quality issues to include broken and incorrectly installed body panels, loose interior trim fittings not installed correctly at the factory, fuel line clamps not installed properly resulting in fuel leak inside engine bay, vibration at highway speeds, failure of air suspension controller, intermittent failures of adaptive cruise control module. The vehicle was in the shop 12 times since purchase to address poor factory work. I will never recommend any Chrysler product to anyone based on the complete lack of attention to,detail during assembly.
If our team has any additional questions about your responses, would you accept further contact?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer.
Which automotive publications do you subscribe to? (check all that apply)	Motor Trend. Car and Driver. Consumer Reports ratings.
Was the trouble resolved to your satisfaction?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Would you recommend this vehicle to family or friends?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.

How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble with speaker occurs:	At all volume levels.

Overview

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Please provide feedback on how Chrysler can improve the DVD	It makes sense to do this via an interactive website
What have you used to view your DVD? (check all that apply)	Mac Computer.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Please provide feedback on how Chrysler can improve the Printed User Guide	Bulleted points
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
DVD format is easy to understand and use	3 (neither agree nor disagree).
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Printed User Guide	3 (neither satisfied nor dissatisfied).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer. Took to the dealer I purchased my vehicle from.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Information on the DVD is easy to find and access	2 (disagree).
Please rate your overall level of satisfaction with the DVD	2 (dissatisfied).
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).
Information in the Printed User Guide is easy to find and access	3 (neither agree nor disagree).

Overview	
Smartphone Application covers the necessary features	3 (neither agree nor disagree).

Search engine works but is difficult to understand/use	
Please describe the trouble you experienced:	Logic seems to be disoriented.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	Not enough detail

Memory mirrors are broken/not working	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which memory mirror is broken/not working properly (check all that apply):	Passenger's side exterior mirror. They do not fold when car is locked
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

About You	
Ability to test drive	1.
Vehicle quality	1.
Vehicle fuel economy	1.
Please tell us about the vehicle you replaced (if applicable)	2012. Replaced Vehicle: Purchased New. M-Class. Mercedes-Benz.
Which, if any, influenced your purchase decision? (check all that apply):	On-Line blogs or forums. Kelley Blue Book.
Secondary vehicle you were considering:	Secondary Considered Vehicle: New. Land Rover. Range Rover Sport. 2014.
When considering this vehicle	Visit the dealership. Interact with dealership by email. Interact with dealership by phone. Research online. Test drive the vehicle.
Primary vehicle you were considering:	Cayenne. Porsche. Primary Considered Vehicle: New. 2014.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	They did not have the one we wanted in stock
Please indicate your highest education level	4 year college degree.
Vehicle availability	5.
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]
Is this your first new vehicle ever purchased / leased?	No.
Please indicate your ethnicity	[redacted]n.
Please indicate your occupation status.	Employed.
What is your primary language?	English.
Please indicate your occupation.	Executive / Managerial.
Primary vehicle in your household:	F-250 HD Crew Cab. Ford. Primary Household Vehicle: Purchased New.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Urban.
Dealership treatment	1.
Vehicle styling	1.
How may children 17 or under live in your household?	1-2.
Price	2.

About You	
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
Financing options	1.
Vehicle performance	1.
Convenience of dealership location	2.
Trade-in allowance	2.
Please indicate the primary driver's age.	[redacted]
What is your total household income (before taxes)?	More than $200,000.

Vehicle Satisfaction Ratings	
Clarity of sound	2.
How do you feel about the VALUE of your new car? (i.e.	2.
Overall audio, entertainment, and navigation system impression	3.
Integration with phones	3.
Vehicle storage and space usage	3.
Head/leg/foot room	3.
Engine sound	4.
How do you feel about the durability of your new vehicle?	4.
Brake responsiveness/effort	5.
Appearance of exterior paint	3.
Ease of getting into and out of vehicle	3.
Headlight illumination/performance during night-time driving	4.
Interior comfort, design and appearance of interior (overall impression)	4.
Interior noise level while driving	3.
What is your attitude overall towards your new car?	3.
Seat adjustment and comfort	4.
Safety and visibility while driving	4.
Ride quality	4.
Steering and handling (responsiveness, stability)	4.
Steering wheel adjustment	5.
Engine performance during acceleration	5.
Transmission gear change performance (smoothness)	5.
Fuel economy and driving range	5.
Difficult driving conditions (adverse weather, off-road)	5.
Ease of using system displays while driving	3.
Support for popular music/video formats	3.
Wheels, rims, and tires appearance and styling	3.
Rear view styling (rear fascia, bumper)	2.
Integration with media players	3.
Navigation system route accuracy	3.
Exterior design and appearance (overall impression)	3.
Side/profile view styling (driver's side or passenger's side exterior area)	3.
Front view styling (front fascia, hood, grille, headlight area)	4.
Climate control operation (function and ease of use)	4.
Engine exhaust sound	4.
How was your purchasing experience (the dealer/dealership)?	4.
What is your attitude overall towards the BRAND of your new car?	4.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.
Location and usefulness of interior lighting	5.

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call	
Do you usually set HVAC vent direction toward ceiling?	No.
At other times during use does your phone have poor call quality?	No.
How often does this trouble occur?	Trouble occurs regularly.
Does the issue occur when speaking at regular volume?	Yes.
Sound quality is poor: (check one)	For the receiver of the call.
Do you recall your cellular coverage at the time?	Full cellular coverage.

Features and Controls

Features and Controls	
Features and Controls	Rear view mirrors (interior/exterior). Voice Activiation System.

Uconnect Access	
Uconnect Access	Remote Features. Assist Button. Search Engine.

Ride	
Ride	Strut problem/shock absorber problem.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Vehicle Exterior. Entertainment/Navigation System/Connectivity. Features/Controls/Displays. Interior Climate Control. Steering, Handling, and Ride.

Strut problem/shock absorber problem	
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate where the strut/shock problem occurs:	Rear.
Please describe conditions when this trouble occurs:	Loud bang when I go over a bump.. 4x4 should not have that happen dealership told me that it was standard
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	AT&T Mobile.
Please tell us your cell phone model	5s
Please choose your cell phone brand	Apple.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system has poor sound quality at far end.

About You	
Please indicate your ethnicity	[redacted]
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]
Secondary vehicle in your household:	Jeep. 2014. Grand Cherokee. Secondary Household Vehicle: Purchased Used.
What is your total household income (before taxes)?	More than $200,000.
Primary vehicle in your household:	Primary Household Vehicle: Purchased New. 2011. Toyota. Prius.
Please indicate your highest education level	2 year college degree.
How may children 17 or under live in your household?	0.
What is your average miles per gallon (MPG) with your vehicle?	16-18 mpg.
Please indicate your occupation.	[redacted].
Please indicate the primary driver's age.	[redacted]
Please indicate your occupation status.	Employed.
What is your primary language?	English.
What year were you born?	[redacted]
Did you purchase or lease your vehicle?	Lease.
Which of the following best describes the area you live in?	Suburban.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Map is missing information.
Please indicate which of the following best describes your concern (check all that apply):	Navigation system is missing information. Navigation system has incorrect information. Navigation system gives wrong directions.

Steering system/wheel is difficult to turn	
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Trouble occurs while traveling in these road conditions (check all that apply):	All road conditions.
Trouble occurs while traveling at these speeds (check all that apply):	All speeds.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Hard controls/menus: Front Screen Display is broken/not working	
Please indicate your concern with front screen display (check all that apply):	screen is to small

Other Components	
Other Components	Other component(s) replaced (not listed previously).

Overview	
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Was the trouble resolved to your satisfaction?	Yes.
Please explain further about your choice to recommend your vehicle:	when i first got the vehicle i was really happy 2 of my friends got the vehicle after me thanks to my reviews for the first few week but after a few month with the vehicle my reviews are not that good anymore a think to many problems in 20 month or so
Would you recommend this vehicle to family or friends?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).

ABS system/sensors	
Where did you take your vehicle to have the component replaced?	Took to a different dealer than the one I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	Under $100.

Other component(s) replaced (not listed previously)	
Where did you take your vehicle to have the component replaced?	Took to a different dealer than the one I purchased my vehicle from.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	12-18 months into ownership.

Rear tail lights/brake lights/reverse lights/turn signal lights inoperative	
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate which rear lights were inoperative (check all that apply):	lights stay on after vehicle is off
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

USB connection issues	
USB connection issues	USB connection is broken/not working.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	Yes.
Please describe when this trouble occurs:	When entering information. When stating a name.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but traffic information doesn?t work / or is difficult to understand. Points of Interest not well defined. Difficulty accessing Points of Interest.

Entertainment/Navigation System/Connectivity>Navigation System>	
	Navigation system screen is in a poor location. Points of Interest incorrect. Navigation system freezes-up/will not work. Navigation system works, but missing information; has incorrect information; gives wrong directions.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Steering and Handling	
Steering and Handling	Steering system/wheel is difficult to turn.

Navigation system works, but traffic information doesn.t work / or is difficult to understand	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information does not display at all.

Media	
Media	USB connection issues.

Unnatural sounding voice or difficult to understand	
Please describe when this trouble occurs:	When entering information.
How often does this trouble occur?	Trouble occurs regularly.
Do you usually set HVAC vent direction toward ceiling?	Yes.

Features and Controls	
Features and Controls	Wipers and washers.

Headlights aimed incorrectly	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand.

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Difficult to understand.
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Heating, Cooling, Ventilation controls. Radio channel preset buttons. Tuner control.
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Touchscreen is slow to respond.

Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location	
Please indicate why the front screen is difficult to understand/use (check all that apply):	Display too small.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.

Fuel filler door/cap	
Fuel filler door/cap	Fuel door difficult to open/close.

Headlights not bright enough	
Please describe conditions when this trouble occurs:	while I'm driving the jeep
Additional Comments:	the major problem i have with the jeep is the Uconnect to slow,crashes all the time lags a little . With the apperance the tail lights i think should be led for a better look the led in the front should be brighter , the FCW sometimes applied the break even if the car in front of me is far away , some times my USB port just don't work,
Please describe the trouble you experienced:	trouble with the technology . FCW ACC UConnect crashing

Wind Noise

Wind Noise	
Wind Noise	Excessive wind noise.

Exterior Light Failure	
Please indicate which light has failed (check all that apply):	Passenger's side tail light.
Exterior Light Failure	Exterior Light Failure.

Visible rust/corrosion	
Please indicate the location of the rust/corrosion (check all that apply):	Rear bumper. Passenger's side rear door.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Approximate mileage when trouble was first noticed was:	20,000-29,999.

Rear Seat Entertainment	
Rear Seat Entertainment	Rear seat entertainment media port connections.

Rear seat entertainment media port connections	
Rear seat entertainment media port connections	Rear seat entertainment media port connections broken/not working.

Voice Activation / Recognition	
Voice Activation / Recognition	Unnatural sounding voice or difficult to understand. Voice Activation / Recognition doesn't recognize command. Voice Activation / Recognition finishes before completing a command. Voice Recognition feature does not have enough functions available.

What Can We Do Better?	
What has Chrysler done right?	the ruck is very nice i just don't think i will get another aster my lease is up un lest you guys fix some serious problems with the vehicle

Brake System Components	
Brake System Components	ABS system/sensors.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Controls too small.
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Navigation system controls.
Please indicate which of the following best describes your concern (check all that apply):	Poor location.

Navigation system freezes-up/will not work	
How often does this trouble occur?	Trouble occurs regularly.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Visible rust/corrosion.

Gear selector is difficult to operate (auto. trans.)	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Going into which position is the gear selector difficult to operate? (check all that apply):	Not accurate, horrible design
Why is the gear selector difficult to operate?	Other (please describe).
Additional Comments:	Realized when i test drove it but thought I would get used to it, never buy another car with this in it though
How often does this trouble occur?	Trouble occurs regularly.

About You	
Please indicate your occupation status.	Employed.
Secondary vehicle in your household:	Frontier. 2014. Nissan. Secondary Household Vehicle: Purchased New.
Please indicate your occupation.	Other.
Which of the following best describes the area you live in?	Suburban.
Please indicate the primary driver's age.	[redacted]
Primary vehicle in your household:	S60. Primary Household Vehicle: Purchased New. Volvo. 2013.
What year were you born?	[redacted]
What is your total household income (before taxes)?	$100,000 - $124,999.
What is your primary language?	English.
How may children 17 or under live in your household?	1-2.
What is your average miles per gallon (MPG) with your vehicle?	19-20 mpg.
Please indicate your highest education level	4 year college degree.
Please indicate your ethnicity	[redacted]
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]
Did you purchase or lease your vehicle?	Purchase.

Automatic Transmission

Automatic Transmission	
Automatic Transmission	Slips/will not engage gear properly/shifts erratically. Gear selector is difficult to operate (auto. trans.).

What Can We Do Better?	
What has Chrysler done right?	Exterior Design, interior Design and U connect interface is easy to use
Feedback/Concerns:	My current concern is that the car will brake on its own out of nowhere with no warning and nothing around, it's dangerous

Slips/will not engage gear properly/shifts erratically	
Going into which gear/gears does the trouble occur? (check all that apply):	Gear Selecter is not accurate Reverse.
Are you using your vehicle for towing when the problem occurs?	No.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Additional Comments:	Car brakes on its own, without warning with forward collision
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Jerks
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Brake System. Transmission and Drivetrain.

What Can We Do Better?

Feedback/Concerns:	Adaptive Cruise Control will periodically shut down for about five minutes approximately every 250 miles on long trips. It almost acts like something is overheating and then cooling down.
What has Chrysler done right?	Vehicle is comfortable, responsive and handles well, both on and off road.

Detail on High Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I didn't expect the comfort level to be as good as it is in a capable off road 4x4.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	I have a bad back and recently took a 6500 mile trip with no discomfort.
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	I use the SD card a lot when traveling and it has played everything I have on it.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	I'm short, so that may not be a good guide for everyone, but I fit fine and can adjust the seat and steering wheel perfectly.
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	See above
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	8.4AN screen is easy to see and I love the navigation instructions in the EVIC.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	I love it.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	The vehicle is very quiet compared to other 4x4's I have owned, even with the sunroof open.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	The xenon lighting is excellent. The fog lamps could be a bit better though.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	I have had no problems with paint, fit or finish.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	I was very pleased and surprised with the performance of the V6.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	In sport mode, the exhaust has a pleasant deep throated sound.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	On my recent trip, the V6 averaged around 25 miles to the gallon on the expressway. Much better than my old Tahoe which would top out at about 18.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	Quiet inside,
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	See above
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Sharp looking vehicle, though it lacks the macho appearance of my former 4x4's.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	The blind spot warning system is the basis for this rating.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	The map lights and subdued interior lights work well without interfering with night vision through the windshield.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	The vehicle seems as tough as my old 78 Bronco.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	It's a Jeep!

Detail on High Rated Items	
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	My "dumb" phones work perfectly with it.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	See above
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	See above.
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	The OEM tires aren't very good, but the vehicle has performed well despite them. I expect even better handling when I replace them with good AT tires.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	The Quadralift and entry/exit mode makes this an exceptionally easy 4x4 to get in and out of.
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	The vehicle stops quickly when it must.
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	This is the most expensive vehicle I have ever purchased and I don't regret a penny of it.
You rated ride quality High. Use this space to provide any specific comments you would like to share.	Exceptionally comfortable.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	I have had to perform several emergency maneuvers on the highway to avoid idiots and the vehicle has performed flawlessly, impressive for such a heavy vehicle.

AM/FM/HD/Satellite radio channels have poor or no reception	
Additional Comments:	Sometimes the HD radio will randomly switch to Satellite.
Please indicate which frequency band has trouble (check all that apply):	HD radio reception is weak compared to the AVIC8000 in my Mazda MX5
Please describe conditions when this trouble occurs:	Driving down road.
How often does this trouble occur?	Trouble occurs regularly.

Voice Activation / Recognition doesnt recognize command	
What button did you use?	VR button on steering wheel
Please describe when this trouble occurs:	When attempting to change radio stations, it often tries to dial the phone.
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.

About You	
How may children 17 or under live in your household?	0.
Secondary vehicle in your household:	2013. Secondary Household Vehicle: Purchased Used. Mazda. MX-5 Miata.
Please indicate your highest education level	Graduate degree.
Please indicate your occupation.	[redacted]
Please indicate your occupation status.	Retired.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Primary vehicle in your household:	Outback. 2009. Primary Household Vehicle: Purchased Used. Subaru.
Did you purchase or lease your vehicle?	Purchase.
What is your total household income (before taxes)?	$100,000 - $124,999.
What is your average miles per gallon (MPG) with your vehicle?	19-20 mpg.
Please indicate the primary driver's age.	[redacted]
Please indicate your ethnicity	C[redacted]
What year were you born?	[redacted]
Please indicate your gender	[redacted]
What is your current marital status?	[redacted].

Speakers have poor sound quality	
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Trouble with speaker occurs:	At all volume levels.
Please indicate which media sources were being played (check all that apply):	FM. SD.

Speakers have poor sound quality	
	Satellite Radio.
	USB Drive.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate which speaker has trouble (check all that apply):	Quality could be better. Front center speaker too loud. Equalizer only works if settings are changed each time vehicle is started.
Additional Comments:	I think the equalizer problem arose in one of the last two UConnect updates. Speaker quality has always been an issue, though it isn't as noticeable when the equalizer works.
How often does this trouble occur?	Trouble occurs regularly.

Overview	
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Was the trouble resolved to your satisfaction?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Please explain further about your choice to recommend your vehicle:	The problems are irritants, but not that major. The worst is the Adaptive Cruise Control periodically disconnecting for five minutes at a time on long trips and then reactivating. Also the FCW will periodically alert on overpasses when no other vehicles are around.
Would you recommend this vehicle to family or friends?	Yes.

Alignment	
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	9-12 months into ownership.
How much did the replacement cost?	Under $100.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Missing roads. Map contains incorrect information.
Please indicate which of the following best describes your concern (check all that apply):	Most likely out of date maps.

Exterior moldings/trim pieces loose/misaligned/falling off

Additional Comments:	Has happened twice once below 10k miles and once above 15k
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is missing.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Bezel on adaptive cruise control sensor
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Overview

Please explain further about your choice to recommend your vehicle:	I leased the car brand new and have had multiple issues with it. While I understand nothing is perfect it's the dealer service and failure to fix or offer solutions to the issues I have had with the car. Had the dealer been willing to fix the issues I have or even provide a loaner for the times I take it I would be happy however for them to keep the car for more than a day and tell me they can never recreate the problems I have even though I have them on video is a problem. I have also had to look up service bulletins to inform myself of known issues and fixes as the dealer usually has no Idea
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.

When was the replacement made on your vehicle?	18-24 months into ownership.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Air filter	
When was the replacement made on your vehicle?	18-24 months into ownership.
How much did the replacement cost?	$100-$499.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Shift between gears is rough/harsh under normal driving conditions	
Going into which gear/gears does the trouble occur? (check all that apply)	1st Gear.
	2nd Gear.
	3rd Gear.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Braking.
	Deceleration.
	Hard acceleration.
	City driving/stop-and-go traffic.
	Normal acceleration.
	While driving on level roads.
	Going up an incline.
	Coasting (no gas pedal applied).
Please describe conditions when this trouble occurs:	Transmission kicks and searches for gear
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
	Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Shift between gears is rough/harsh under normal driving conditions	
How often does this trouble occur?	Trouble occurs regularly.

Hesitation or delay when shifting between gears	
Going into which gear/gears does the trouble occur? (check all that apply)	3rd Gear. 1st Gear. 2nd Gear.

Air conditioner takes too long to get cold	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Vehicle ac dose not get cold enough causing blower to stay on high when in auto
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.

Air conditioner never gets cold enough	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Bright sun. Ac never gets cold enough causing blower to remain on high at all times when in auto mode
How often does this trouble occur?	Trouble occurs regularly.

Windows fog up a lot/take too long to clear/do not clear adequately	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate the trouble with the front defroster (check all that apply):	During snow icy conditions the wipers and front windshield freeze fog and take a long time to defrost
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe conditions when this trouble occurs:	Snow or icy weather

Engine loses power when air conditioning is on	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Engine trouble occurs while vehicle is (check all that apply):	Freeway/highway driving. Going up an incline. Cruising/holding a steady speed on an uphill grade. Accelerating. City driving/stop-and-go traffic.
How often does this trouble occur?	Trouble occurs regularly.
What type of fuel do you most often put into your vehicle?	Plus gasoline.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Fuel consumption is worse than expected	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
How often does this trouble occur?	Trouble occurs regularly.
Where do you do most of your driving?	Combination of city/highway driving.
What type of fuel do you most often put into your vehicle?	Plus gasoline.
Are you using your vehicle for towing when the problem occurs?	No.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Transmission makes abnormal/excessive noises	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate driving condition when noise occurs (check all that apply):	Deceleration. Braking. Hard acceleration. Normal acceleration. City driving/stop-and-go traffic.
Noise sounds like (Check all that apply):	Knocking. Thumping.

Transmission makes abnormal/excessive noises	
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Reverse-camera is broken/not working	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate what type of trouble was experienced with the reverse-camera (check all that apply):	Image manages and is blurry sometimes causes system to reboot
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.

Horn broken/not working	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate what type of trouble was experienced with the horn (check all that apply):	Horn sounds like it's dieing within a couple of weeks of purchase Horn not loud enough sounds as if it is dieing

Operation and Performance	
Operation and Performance	Air conditioner takes too long to get cold. Windows fog up a lot/take too long to clear/do not clear adequately. Fan/blower makes excessive noise. Air conditioner never gets cold enough.

Speakers have poor sound quality	
Please indicate which speaker has trouble (check all that apply):	Volume between different modes has a vast difference Bluetooth SD card get to loud xm can be hard to hear at even max volume am/fm has good balance
Please indicate which media sources were being played (check all that apply):	Volume gets to loud to quick causing speaker to crack Volume steps get to loud causing speaker to crack
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
Trouble with speaker occurs:	Only at high volume levels.

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception. Bluetooth streaming audio works, but is difficult to understand/use.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Body panels/doors misaligned/excessive gaps/poor fit. Exterior moldings/trim pieces loose/misaligned/falling off.

Brake System Components	
Brake System Components	Brake pads - rear. Brake rotors/drums - rear. Brake rotors - front. ABS system/sensors. Brake booster. Brake pads - front.

Vehicle exhibits poor ride when driving on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Bumpy or uneven surface. Downhill. Level Ground. Sideslope. Uphill.

Vehicle exhibits poor ride when driving on snow/ice	
Trouble occurs at these speeds (check all that apply):	When driving at low speeds (11-20 MPH). When driving at medium speeds (>20 MPH).
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	The transmission issues with the stock tires makes the vehicle erratic at times and cause traction issues
Please indicate how poorly the vehicle performed:	Ride is much worse than expected.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location. Blind spot monitoring/warning system is broken/not working. Outside temperature gauge broken/not working.

Dome/map/interior lights broken/not working	
Please indicate what type of trouble was experienced with the dome/map/interior lights (check all that apply):	Long delay when opening door and interior lights illuminating
Please indicate which interior light is the source of the trouble (check all that apply):	Front door panel light - Both sides. Dome light. Front map light - Both sides. Rear door panel light - Both sides. Rear map light - Both sides. Trunk/rear compartment/cargo area light.
Please describe conditions when this trouble occurs:	With keyless entry
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Issues with wheels and tires in off-road conditions	
Trouble occurs under these surface conditions (check all that apply):	Downhill. Level Ground. Uphill.
Trouble occurs at these speeds. (check all that apply):	When driving at medium speeds (>20 MPH).
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Snow and/or ice.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate the nature of the issue you are experiencing. (check all that apply):	Stock wheels should offer some off road capabilities

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Engine. Interior Climate Control. Features/Controls/Displays. Off-Road. Transmission and Drivetrain. Vehicle Exterior. Entertainment/Navigation System/Connectivity. Steering, Handling, and Ride. Brake System.

Lights	
Lights	Exterior Light Failure. Front headlights/parking lights/fog lights/turn signal lights inoperative. Rear tail lights/brake lights/reverse lights/turn signal lights inoperative. Automatic high-beam headlights broken/not working.

Engine Fuel Consumption	
Engine Fuel consumption	Fuel consumption is worse than expected.

Vehicle exhibits poor handling when driving on snow/ice	
Please indicate how poorly the vehicle performed:	Handling is much worse than expected.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Additional Comments:	Maps need to be update more frequently as roads change regularly

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Navigation system gives wrong directions. Navigation system has incorrect information. Navigation system is missing information.
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions. Map is missing information. Map contains incorrect information.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Pos system takes long to load and causes system to freeze

AM/FM/HD/Satellite radio channels have poor or no reception	
Please describe conditions when this trouble occurs:	Usually when vehicle is started or when switching from radio bands go xm
Please indicate which frequency band has trouble (check all that apply):	System lags for 10's of minutes
How often does this trouble occur?	Trouble occurs regularly.

Back-up camera	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Fog lights	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	12-18 months into ownership.

Fan/blower makes excessive noise	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe when the fan/blower noise occurs (check all that apply):	At high fan speeds. At medium fan speeds.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe the fan/blower noise (check all that apply):	Fan speed intervals to small when on medium to hige fan is loud
How often does this trouble occur?	Trouble occurs regularly.

Air from vents smells moldy/stale	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate when the odor/smell is present (check all that apply):	Odor/smell is noticeable for only a short time after air conditioner/heater/defroster is turned on.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Cruise control system is broken/not working	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate what type of trouble was experienced with the cruise control system (check all that apply):	Adaptive Cruise Control (ACC) allows too much distance between vehicles. Adaptive cruise control sometimes does not sense car in front of the vehicle and sometimes it slows with nothing in front of the vehicle. Speed setting hold down for 5mph intervals turns off adaptive cruise control and service message is displayed
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.

Features and Controls	
Features and Controls	Active Suspension System. Reverse-Camera. Horn. Cruise control system. Adjustable Height Control. Rear view mirrors (interior/exterior). Interior lights.

Features and Controls	
	Door locks/key fob entry system.

Steering, Handling, and Ride Components	
Steering, Handling, and Ride Components	Alignment.

Brakes do not have enough stopping power; brake pedal requires too much effort	
Trouble with brakes occurs while traveling at these speeds (check all that apply):	All speeds.
Trouble with brakes occurs during this type of braking (check all that apply):	Vehicle requires excessive brake force to respond Vehicle requires excessive brake force to respond Vehicle requires excessive brake force to respond
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	All road conditions.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Vehicle pulls noticeably to the left/right	
Trouble occurs while traveling at these speeds (check all that apply):	All speeds.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Vehicle pull is:	Slight.
Trouble occurs while traveling in these road conditions (check all that apply):	All road conditions.
Are you using your vehicle for towing when the problem occurs?	No.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
What direction does the vehicle pull when driving?	Left.

Vehicle vibrates excessively at idle	
Vibration trouble occurs (check all that apply):	All the time.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Vibration is:	Moderate.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Engine Components	
Engine Components	Antifreeze/coolant. Air filter.

Brake pads - rear	
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.

Brake rotors - front	
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.

Shifts at wrong times	
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear. 1st Gear.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Hard acceleration. Normal acceleration. Deceleration.

Blind spot monitoring/warning system is broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate the trouble you experienced with the blind spot monitoring/warning system (check all that apply):	System sometimes randomly illuminates when nothing is next to it

Blind spot monitoring/warning system is broken/not working	
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Approximate mileage when trouble was first noticed was:	10,000-19,999.

Voice Activation / Recognition doesnt recognize command	
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	When stating a name.
	When there is outside noise or the blower is on.
	When other people in the car are talking.
Additional Comments:	System is very sensitive to background noise
Do you usually set HVAC vent direction toward ceiling?	No.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Randomly
Please indicate which controls/menus are broken/not working properly (check all that apply):	System sometimes does not respond to the dial being turned
	Presets delete themselves at times and system freezes when switching

Vehicle exhibits poor traction on snow/ice	
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs at these speeds (check all that apply):	When driving at very low speeds (0-10 MPH).
	When driving at medium speeds (>20 MPH).
	When driving at low speeds (11-20 MPH).
Please indicate the nature of the traction issue you experienced	There is a higher level of wheel spin than I expected.
	My vehicle seems to suffer from wheel hop or vibration.
	The traction systems on the car are slower to react than I expected.
	The vehicle does not seem to be able to make the most of the available grip of the surface.
Please indicate how severe the issue is:	Much worse than expected.
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
	Uphill.
	Bumpy or uneven surface.
	Downhill.

Media	
Media	USB connection issues.
	SD media slot issues.
	Radio.

Vehicle Performance driving on Snow/Ice	
Vehicle Performance driving on Snow/Ice	Vehicle exhibits poor ride when driving on snow/ice.
	Vehicle exhibits poor traction on snow/ice.
	Vehicle exhibits poor handling when driving on snow/ice.
	Vehicle exhibits poor steering on snow/ice.

ABS system/sensors	
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	9-12 months into ownership.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.

Automatic Transmission	
Automatic Transmission	Shifts at wrong times.
	Hesitation or delay when shifting between gears.
	Shift between gears is rough/harsh under normal driving conditions.
	Slips/will not engage gear properly/shifts erratically.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers have poor sound quality.
	Speakers are not loud enough.

Brake rotors/drums - rear	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Brake rotors/drums - rear	
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	9-12 months into ownership.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.

Navigation system works, but traffic information doesn.t work / or is difficult to understand	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information displays, but is difficult to read. Traffic information displays, but is inaccurate. Traffic information does not display at all.
Additional Comments:	Traffic information is very sporadic and when it does show is vague or hard to get to

Transmission Noises	
Transmission Noises	Transmission makes abnormal/excessive noises.

SD media slot is broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.
Please describe the trouble you experienced (check all that apply):	System takes long to recognize sometimes does not read the same card that it sometimes does
Where is the location of the media port?	Below u connect system in recessed location

Navigation system freezes-up/will not work	
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Navigation freezes consistently on calculating route and also sometimes has no idea where the vehicle is

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please describe when this trouble occurs:	When other people in the car are talking. When stating a name. When there is outside noise or the blower is on.
What button did you use?	Phone button on steering wheel
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Difficulty accessing Points of Interest. Points of Interest not well defined. Navigation system works, but missing information; has incorrect information; gives wrong directions. Navigation system works, but traffic information doesn?t work / or is difficult to understand. Navigation system freezes-up/will not work.

Engine Power	
Engine power	Engine loses power when air conditioning is on.

Vehicle Exterior Components	
Vehicle Exterior Components	Exterior body panels/trim. Fog lights. Turn signals.

Exterior Light Failure	
Exterior Light Failure	Exterior Light Failure.
Please indicate which light has failed (check all that apply):	Driver side fog light

Touchscreen Controls	
Touchscreen Controls	Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working.

Features/Controls/Displays Components	
Features/Controls/Displays Components	Back-up camera. Airbag sensor.

Brake Operation

Brake Operation	
Brake Operation	Brake pedal feels mushy/soft. Brakes do not have enough stopping power; brake pedal requires too much effort.

Cruise control system	
Cruise control system	Cruise control system is broken/not working.

Turn signals	
When was the replacement made on your vehicle?	9-12 months into ownership.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Repaired/replaced myself.

Outside temperature gauge broken/not working	
Please describe conditions when this trouble occurs:	Outside temperature takes to long to update correctly and sometimes never does

What Can We Do Better?	
Feedback/Concerns:	The car is a fundamentally good car and has potential. however jeep needs to have more corporate control over their dealer network or provide better training to service techs as the service experience is less then satisfactory for a 49k car
What has Chrysler done right?	Trucks overall have a good ride and are fun to drive

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	System does not work and has false alarms that activate breaks when nothing is in front of the vehicle

SD media slot issues	
SD media slot issues	SD media slot is broken/not working.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Features/Controls/Displays>Features and Controls>Horn>	
Horn	Horn broken/not working.

Off-Road Features and Functions	
Off-Road Features and Functions	Issues with wheels and tires in off-road conditions.

Rear tail lights/brake lights/reverse lights/turn signal lights inoperative	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate which rear lights were inoperative (check all that apply):	Light burnt out within 1st year under 10k millage
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Hood	
Hood	Hood latch is broken/not working properly.

Antifreeze/coolant	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	$100-$499.

Steering and Handling	
Steering and Handling	Vehicle pulls noticeably to the left/right.

Noise and Vibration	
Noise and Vibration	Vehicle vibrates excessively at idle.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Hood latch is broken/not working properly	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Additional Comments:	Good latch misaligned causing alarm to keep going off unless left unlocked problem rectifyed by opening and closing hood multiple times
Please describe conditions when this trouble occurs:	Randomly

Reverse-Camera	
Reverse-Camera	Reverse-camera is broken/not working.

Vehicle exhibits poor steering on snow/ice	
Please indicate how severe the issue is:	Bought a jeep for winter weather driving and light off road

Bluetooth streaming audio works, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Shuffle songs does not work

Interior lights	
Interior lights	Dome/map/interior lights broken/not working.

Odor/smell	
Odor/smell	Air from vents smells moldy/stale.

About You

What year were you born?	[redacted]
What is your total household income (before taxes)?	$150,000 - $199,999.
Financing options	1.
Primary vehicle you were considering:	BMW. Primary Considered Vehicle: New. X5. 2014.
Please indicate your highest education level	Graduate degree.
Please indicate your occupation.	Owner / Proprietor.
Which, if any, influenced your purchase decision? (check all that apply):	Value for the money. Vehicle test drive. Consumer Reports ratings. Previous experience with the vehicle/brand. Automotive magazines.
When considering this vehicle	Visit the dealership. Research online.
Trade-in allowance	1.
How may children 17 or under live in your household?	1-2.
Secondary vehicle you were considering:	2014. M-Class. Secondary Considered Vehicle: New. Mercedes-Benz.
Vehicle availability	4.
Vehicle styling	4.
Dealership treatment	5.
Vehicle quality	5.
Please indicate your occupation status.	Employed.
What is your primary language?	English.
Please indicate your gender	[redacted]
Is this your first new vehicle ever purchased / leased?	No.
Vehicle performance	4.
Please indicate the primary driver's age.	[redacted]
Ability to test drive	1.
Convenience of dealership location	2.
Please indicate your ethnicity	[redacted]
What is your current marital status?	[redacted]
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
Price	4.
Vehicle fuel economy	4.

Touchscreen Controls/Menu: Front Screen Display: Other Concerns

Please describe conditions when this trouble occurs:	Always
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	The touchscreen feels slow, not as precise and reactive as the one on my phone/tablet

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	Very slow, don't responds as crisp as they should

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	Iphone
Please choose your cell phone carrier	AT&T Mobile.
If known, please tell us your software version	Ios 8.1

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Opening the engined hood and seeing rust on a brand new car... Not what I want to see = questions about the choice of material

Overview	
Please provide feedback on how Chrysler can improve the Printed User Guide	Provide an online, searchable version via the UConnect
Printed User Guide format is easy to understand and use	4 (agree).
Did you review the Owner's Information DVD?	No.
Would you recommend this vehicle to family or friends?	Yes.
What information did you need that was not included in the Smartphone Application?	Status of my car, is it locked? Is it running? Where is it? Etc etc
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Was there information needed that was not included in the User Guide?	Yes, details about the wiper blades and what tires can be used with each model
Smartphone Application covers the necessary features	1 (strongly disagree).
Information in the Printed User Guide is easy to find and access	2 (disagree).
The Smartphone Application format is easy to understand and use	2 (disagree).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Did you review the Printed User Guide?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Please rate your overall level of satisfaction with the Printed User Guide	2 (dissatisfied).
Please explain further about your choice to recommend your vehicle:	But close to say NO, there are a few aspects which need changes/improvement otherwise I wouldn't buy a jeep again nor would I recommend it to my friends
Please rate your overall level of satisfaction with the Smartphone Application	1 (very dissatisfied).
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
Please provide feedback on how Chrysler can improve the Smartphone Application	This should be my full information app to my car, give me every status update on it and make everything available in my palm.
Information in the Smartphone Application is easy to find and access	1 (strongly disagree).

Wifi Hot Spot Connection has intermittent connection	
Additional Comments:	To slow - not even LTE - much to expensive
Do you recall your cellular coverage at the time?	Full cellular coverage.
How often does this trouble occur?	Trouble occurs regularly.
Please select which securities you have enabled on your phone (check all that apply):	WPA2.
Please describe the trouble you experienced:	To slow - not even LTE, much to expensive

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Would love to know if items like the app, features of the remote control and mobile connectivity will see a software update or only be added to new vehicles
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Vehicle Satisfaction Ratings	
Overall audio, entertainment, and navigation system impression	3.
Navigation system route accuracy	3.
Clarity of sound	4.
Vehicle storage and space usage	4.
Brake responsiveness/effort	4.
What is your attitude overall towards your new car?	4.
Front view styling (front fascia, hood, grille, headlight area)	5.
Wheels, rims, and tires appearance and styling	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.
Climate control operation (function and ease of use)	5.
How was your purchasing experience (the dealer/dealership)?	5.
Is there anything about your new vehicle you would like to see changed?	Quality of materials / better integration of connected systems (remote access etc)
Integration with media players	3.
Exterior design and appearance (overall impression)	4.
Headlight illumination/performance during night-time driving	4.
Interior comfort, design and appearance of interior (overall impression)	4.
Seat adjustment and comfort	4.
Engine exhaust sound	4.
What is your attitude overall towards the BRAND of your new car?	4.
Steering wheel adjustment	5.
Ease of using system displays while driving	3.
Engine sound	4.
How do you feel about the durability of your new vehicle?	4.
How do you feel about the VALUE of your new car? (i.e.	4.
Rear view styling (rear fascia, bumper)	5.
Location and usefulness of interior lighting	5.
Steering and handling (responsiveness, stability)	5.
Support for popular music/video formats	2.
Appearance of exterior paint	4.
Interior noise level while driving	4.
Engine performance during acceleration	4.
Fuel economy and driving range	4.
Difficult driving conditions (adverse weather, off-road)	4.
Ride quality	4.

Ease of getting into and out of vehicle	5.
Safety and visibility while driving	5.
Transmission gear change performance (smoothness)	5.
Integration with phones	2.
Head/leg/foot room	3.

Fuel consumption is worse than expected	
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	No.
What type of fuel do you most often put into your vehicle?	Regular gasoline.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Are you using your vehicle for towing when the problem occurs?	No.
Where do you do most of your driving?	Combination of city/highway driving.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Points of Interest not well defined. Navigation system works, but missing information; has incorrect information; gives wrong directions.

Uconnect Access	
Uconnect Access	Remote Features.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	0-999.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	Can't find POI as easy and as complete as in other systems (e.g. Waze/ TomTom

What Can We Do Better?	
Feedback/Concerns:	See previous comments

Voice Recognition feature does not have enough functions available	
Please describe additional functions you would like to have:	Should just use/support Siri

Remote vehicle start is broken/not working	
Additional Comments:	There is no feedback if the command was successful and the car in fact has locked/unlocked or started. Even worse, there is no way to check the current state of my car - like is it locked? Is it running? There is zero information except for a message that the command was sent... but what now? No updates, no way to check the status?
Do you recall your cellular coverage at the time?	Full cellular coverage.
Please indicate which method was used for remote vehicle start (check all that apply):	Didn't work Didn't work
How long was your vehicle parked before activating the remote vehicle start?	Less than 1 week.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Engine. Entertainment/Navigation System/Connectivity. Features/Controls/Displays.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Navigation is less accurate than waze or TomTom
Additional Comments:	Navigation can't be started by a passenger while car is driving - a joke! Plus overall the system is incredible slow.

Remote phone/email notifications are broken/not working	
Please describe the trouble you experienced (check all that apply):	Notifications don't really provide vital information
Do you recall your cellular coverage at the time?	Full cellular coverage.
Additional Comments:	See previous comment: notifications must be more than just "command sent"

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front Screen Display: Other Concerns.

Via Mobile	
Via Mobile	Via Mobile works properly, but is difficult to understand/use.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition feature does not have enough functions available.

Engine Fuel Consumption	
Engine Fuel consumption	Fuel consumption is worse than expected.

Via Mobile works properly, but is difficult to understand/use	
Please indicate which feature(s) of Via Mobile are difficult to understand/use (check all that apply):	Pandora.
Please indicate which of the following best describes your concern (check all that apply):	Limited to some applications
Additional Comments:	Via mobile should be available for everything, limitation to some apps does not make sense

Remote Features	
Remote Features	Remote phone/email notifications are broken/not working. Remote vehicle start is broken/not working.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Wifi Hot Spot Connection	
Wifi Hot Spot Connection	Wifi Hot Spot Connection has intermittent connection.

Text messaging works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	To limited, iOS 8 / iPhone not fully supported
Please describe the trouble you experienced (check all that apply):	No support for iPhone, ridiculous.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Reacts not fast enoug

Detail on High Rated Items

You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	We're jeep people, we love our jeeps. This Grand Cherokee was our sixth jeep.

About You

Please tell us about the vehicle you replaced (if applicable)	2010. Jetta SportWagen. Replaced Vehicle: Purchased New. Volkswagen.
Financing options	3.
Please indicate the primary driver's age.	[redacted]
Dealership treatment	4.
Vehicle availability	5.
Vehicle styling	5.
Which, if any, influenced your purchase decision? (check all that apply):	Dealer/Salesperson interaction. Image that the vehicle portrays. On-Line blogs or forums. Vehicle test drive. Lifestyle. Automotive magazines. Features/Capabilities. Internet research. Previous experience with the vehicle/brand.
Please indicate your occupation status.	Employed.
When considering this vehicle	Interact with dealership by phone. Research online. Test drive the vehicle. Visit the dealership.
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]
Is this your first new vehicle ever purchased / leased?	No.
Primary vehicle you were considering:	Primary Considered Vehicle: New. LR4. 2014. Land Rover.
Price	4.
Vehicle performance	5.
Please indicate your ethnicity	[redacted]
Please indicate your occupation.	[redacted].
Convenience of dealership location	4.
What is your total household income (before taxes)?	More than $200,000.
What price did you pay for your vehicle?	49,000.00
How may children 17 or under live in your household?	1-2.
What is your average miles per gallon (MPG) with your vehicle?	27-28 mpg.
Trade-in allowance	3.
Ability to test drive	4.
Please indicate your highest education level	4 year college degree.

About You	
Vehicle quality	5.
Vehicle fuel economy	5.
What is your primary language?	English.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.

Vehicle Satisfaction Ratings	
Integration with media players	3.
Support for popular music/video formats	3.
Clarity of sound	4.
Navigation system route accuracy	4.
Exterior design and appearance (overall impression)	5.

Overview	
Information on the DVD is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Smartphone Application covers the necessary features	5 (strongly agree).

Overview	
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the DVD	4 (satisfied).
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Would you recommend this vehicle to family or friends?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
What information did you need that was not included in the Smartphone Application?	A map of where the vehicle is parked/located would be very handy. Being able to have vehicle settings based on a specific smartphone being in the vehicle would also be very beneficial.
Please provide feedback on how Chrysler can improve the Smartphone Application	The application needs to have the ability to pull up a map of where the vehicle is located. Additionally, it would help if the vehicle could send diagnostic information to the phone so that you could review more specific information about what maybe causing a check engine light or why a particular error message has popped up. Also, it takes a WHILE the application to turn the vehicle on. It usually takes upwards of 5 minutes for the application to turn the jeep on remotely. Of which, I've already made it to the vehicle and i'm on my way.
Please explain further about your choice to recommend your vehicle:	The vehicle rides exceptionally well. The diesel engine and mileage has exceeded expectations. Great vehicle.
Printed User Guide covers the necessary features	4 (agree).
DVD format is easy to understand and use	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	5 (very satisfied).
What have you used to view your DVD? (check all that apply)	Computer/laptop.
Which automotive publications do you subscribe to? (check all that apply)	Overland Journal
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.

Interior lights	
Interior lights	Dome/map/interior lights broken/not working.

Displays and Instruments	
Displays and Instruments	Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Features and Controls	
Features and Controls	Interior lights. Reverse-Camera. Heated Steering Wheel.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Hand brake/parking brake control is poorly located	
Why is the parking brake poorly located? (check all that apply):	it's annoying.

Vehicle exhibits poor traction on snow/ice	
Please indicate how severe the issue is:	Somewhat worse than expected.
Please indicate the nature of the traction issue you experienced	The jeep just doesn't seem to have the right traction when it comes to snow/ice. Might be more with regards to the tires that are on the jeep from factory than anything else.
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs at these speeds (check all that apply):	When driving at low speeds (11-20 MPH).

Vehicle exhibits poor traction on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.

Vehicle exhibits poor steering on snow/ice	
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Trouble occurs at these speeds (check all that apply):	When maneuvering at very low speeds (0-5 MPH).
Please indicate how severe the issue is:	Steering, vehicle control is not as smooth as I'd like for the advanced systems that are in the jeep. Can easily fishtail, slide in the jeep.

Vehicle Performance driving on Snow/Ice	
Vehicle Performance driving on Snow/Ice	Vehicle exhibits poor steering on snow/ice. Vehicle exhibits poor traction on snow/ice.

Reverse-camera works properly, but difficult to understand/use; controls in a poor location	
Additional Comments:	The camera lens becomes too dirty/covered by ice, snow, road salt, dirt when driving and can't be used to adequately.
Please indicate why the reverse-camera controls are difficult to understand/use; are in a poor location (check all that apply):	field of view becomes blocked during winter weather (snow/ice)

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake control is poorly located. Hand brake/parking brake requires too much effort to apply/release.

Heated Steering Wheel	
Heated Steering Wheel	Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Off-Road. Brake System. Features/Controls/Displays.

Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate why the heated steering wheel is difficult to understand/use; controls in a poor location (check all that apply):	The heated steering wheel gets too hot sometimes.
Additional Comments:	The heated steering wheel needs to have a automatic cutoff after so many minutes. It can get exceptionally warm/hot and is usually not noticed until I'm on the highway causing me to turn my attention away from driving the vehicle and to turning off the heated steering wheel.

Hand brake/parking brake requires too much effort to apply/release	
Please describe what requires too much effort (check all that apply):	The Grand Cherokee Overland that we bought is a luxury SUV. The parking break should not be a foot pedal version. Jeep should be using an advanced parking break system for this application. Releasing parking brake requires too much effort.

Dome/map/interior lights broken/not working	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please indicate which interior light is the source of the trouble (check all that apply):	At some point, the blue in-laid lights in the door pull and cubby stopped working.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
How often does this trouble occur?	Trouble occurs regularly.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Overall operation is irritating and could cause accidents
Additional Comments:	The collision avoidance system often reacts to my vehicle closing on vehicle that is turning (right). I understand what it's doing but the system activates when I'm fully aware of the driving situation which puts me in a worse situation for a rear-ending than a forward collision that i know I'm not about to have.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.

Reverse-Camera	
Reverse-Camera	Reverse-camera works properly, but difficult to understand/use; controls in a poor location.

Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use	
Please indicate why the illumination/warning/indicator lights are difficult to understand/use; are in a poor location (check all that apply):	The buckle seatbelt indicator needs to be moved. it sits in a position that is directly behind the RPM indicator (1000-1500 RPMs). This could be easily solved by moving it up or down. When moving at low speeds at the start of a trip (going through neighborhood, you can only see a little bit of the buckle seatbelt light).

Vehicle pulls noticeably to the left/right	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Vehicle pull is:	Moderate.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.
What direction does the vehicle pull when driving?	Both Left and Right - Varies with conditions.
Trouble occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions.
Trouble occurs while traveling at these speeds (check all that apply):	High speeds (46 MPH and above). Medium speeds (26-45 MPH).
Are you using your vehicle for towing when the problem occurs?	No.

Center console is difficult to open/close	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate why the center console is difficult to open/close (check all that apply):	Latch/lock operation.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to open.
How often does this trouble occur?	Trouble occurs regularly.

Blind spot monitoring/warning system is broken/not working	
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Please indicate the trouble you experienced with the blind spot monitoring/warning system (check all that apply):	Occurs regularly when nothing is in my blind spot. It's happened in my own driveway and when no other vehicles are around me.
Please describe conditions when this trouble occurs:	Nothing stands out
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
How often does this trouble occur?	Trouble occurs intermittently.

Lights	
Lights	Automatic headlights broken/not working. Headlights aimed incorrectly. Automatic high-beam headlights broken/not working. Adaptive front lighting system broken/not working.

Displays and Instruments	
Displays and Instruments	Blind spot monitoring/warning system is broken/not working. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Dents/dings were present on exterior body panels at delivery.

Fuel door difficult to open/close	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to open.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Please indicate where the fuel door trouble occurs:	Fuel filler door release lever/cable.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
How often does this trouble occur?	Trouble occurs intermittently.

Automatic high-beam headlights broken/not working	
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	Turns, hills, approaching vehicles After turns, after hills , after vehicles pass
Additional Comments:	Vehicle was serviced for this. Continues to happen
Please describe conditions when this trouble occurs:	Always

Excessive wind noise	
Please indicate the location of the wind noise (check all that apply):	Driver's side front door. Passenger's side rear window. Driver's side front door window. Passenger's side front door. Passenger's side front door window. Passenger's side rear door window. Passenger's side rear door.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	I've had my 2014 Jeep GC Overland in the service dept several times. Problems continue. This is not right for a brand new car. I'm very dissatisfied.

Adaptive front lighting system broken/not working	
Please indicate which headlight is not working properly (check all that apply):	Driver's side headlight. Passenger's side headlight.
Please indicate the trouble experienced with the Adaptive Front Lighting System (check all that apply):	Headlights do not reset to normal position. Does not track properly while turning left. Does not track properly while turning right. Does not track properly while going downhill. Does not track properly while going uphill.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	All the time

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Trim/Storage/Windows. Seats. Steering, Handling, and Ride. Engine. Off-Road. Transmission and Drivetrain. Entertainment/Navigation System/Connectivity. Features/Controls/Displays. Vehicle Exterior. Brake System. Interior Climate Control.

Headlights aimed incorrectly	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please indicate which headlight is not aimed properly (check all that apply):	Daytime running light not working. Brought to service dept 3 times. Still not working
Approximate mileage when trouble was first noticed was:	8000 miles or above.

Squeak/rattle/abnormal noises from glove box	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe in the box below where from the glove box the trouble with abnormal noises is located:	The door
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Abnormal Noises	
Abnormal Noises	Squeak/rattle/abnormal noises from glove box. Squeak/rattle/abnormal noises from center console.

Text Messaging

Text Messaging	
Text Messaging	Text messaging broken/not working.

Steering and Handling	
Steering and Handling	Vehicle pulls noticeably to the left/right.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	[redacted]

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	4s, 6plus
If known, please tell us your software version	Latest version
Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Apple.

What Can We Do Better?	
Feedback/Concerns:	I'm concerned that my issues continue to occur even after multiple servicing appts. I would like to pursue a buy back or vehicle trade. I'm convinced I have a lemon. If this is consistent with all Jeep GC then I will not buy one again nor will I recommend
What has Chrysler done right?	Taken my calls. Attempted servicing the vehicle. AJ Sawrey has been pleasant to deal with.

Welcome	
Please tell us how many miles are currently on your vehicle:	7,000-9,999.
Are you the primary driver of this vehicle?	Yes.

Vehicle exhibits poor braking when driving on snow/ice	
Please indicate how poorly the vehicle performed:	Takes too long to stop
Trouble occurs under these surface conditions (check all that apply):	Level Ground. Downhill.
Trouble occurs at these speeds (check all that apply):	When braking at medium speeds (>20 MPH). When braking at low speeds (11-20 MPH). When braking at very low speeds (0-10 MPH). All speeds.
Please describe the nature of the poor braking issue you experienced (check all that apply):	The level of braking is not as expected.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	I wanted a vehicle for winter conditions. Very disappointed in its performance.

Engine Starting (hard to start/will not start)	
Engine Starting (hard to start/will not start)	Engine will not start at all.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working.

Vehicle exhibits poor handling when driving on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Please indicate how poorly the vehicle performed:	Handling is somewhat worse than expected.
Please describe the nature of the poor handling:	The amount of steering corrections required make it difficult to make vehicle travel on the desired path around a corner.
Trouble occurs at these speeds (check all that apply):	30-40 mph
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Vehicle doesn't handle on snow as well as expected. Slips

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions.
Please indicate which of the following best describes your concern (check all that apply):	I've ended up at the wrong address multiple times. Not even on he correct street!

Navigation system works, but missing information; has incorrect information; gives wrong directions

Front seat audio/entertainment/navigation controls/menus broken/not working	
Additional Comments:	Lost stations four times
Please indicate which controls/menus are broken/not working properly (check all that apply):	Lost preset stations four times. Brought in for servicing
How often does this trouble occur?	Trouble occurs intermittently.

Wind Noise	
Wind Noise	Excessive wind noise.

Fuel filler door/cap	
Fuel filler door/cap	Fuel door difficult to open/close.

Uconnect Access	
Uconnect Access	Remote Features.

Vehicle Performance driving on Snow/Ice	
Vehicle Performance driving on Snow/Ice	Vehicle exhibits poor braking when driving on snow/ice. Vehicle exhibits poor handling when driving on snow/ice.

Operation and Functionality	
Operation and Functionality	Center console is difficult to open/close.

Media	
Media	Radio.

Dents/dings were present on exterior body panels at delivery	
Additional Comments:	Vehicle was covered in sap that had hardened on the vehicle. The interior carpet was dirty. The car was brought to dealer to have cleaned

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	Audible alert sounds inappropriately and inconsistently

What is your attitude overall towards your new car?	5.

Overview	
Smartphone Application covers the necessary features	5 (strongly agree).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
What information did you need that was not included in the Smartphone Application?	A map of where the vehicle is parked/located would be very handy. Being able to have vehicle settings based on a specific smartphone being in the vehicle would also be very beneficial.
Please explain further about your choice to recommend your vehicle:	

Overview	
	The vehicle rides exceptionally well. The diesel engine and mileage has exceeded expectations. Great vehicle.
Please provide feedback on how Chrysler can improve the Smartphone Application	The application needs to have the ability to pull up a map of where the vehicle is located. Additionally, it would help if the vehicle could send diagnostic information to the phone so that you could review more specific information about what maybe causing a check engine light or why a particular error message has popped up. Also, it takes a WHILE the application to turn the vehicle on. It usually takes upwards of 5 minutes for the application to turn the jeep on remotely. Of which, I've already made it to the vehicle and i'm on my way.
Which automotive publications do you subscribe to? (check all that apply)	Overland Journal
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Please rate your overall level of satisfaction with the Smartphone Application	5 (very satisfied).
What have you used to view your DVD? (check all that apply)	Computer/laptop.
Printed User Guide covers the necessary features	4 (agree).
DVD format is easy to understand and use	4 (agree).
Information on the DVD is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the DVD	4 (satisfied).
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Would you recommend this vehicle to family or friends?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake control is poorly located.
	Hand brake/parking brake requires too much effort to apply/release.

Heated Steering Wheel	
Heated Steering Wheel	Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle exhibits poor steering on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Please indicate how severe the issue is:	Steering, vehicle control is not as smooth as I'd like for the advanced systems that are in the jeep. Can easily fishtail, slide in the jeep.
Trouble occurs at these speeds (check all that apply):	When maneuvering at very low speeds (0-5 MPH).
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Off-Road.
	Features/Controls/Displays.
	Brake System.

Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate why the heated steering wheel is difficult to understand/use; controls in a poor location (check all that apply):	The heated steering wheel gets too hot sometimes.
Additional Comments:	The heated steering wheel needs to have a automatic cutoff after so many minutes. It can get exceptionally warm/hot and is usually not noticed until

Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location	
	I'm on the highway causing me to turn my attention away from driving the vehicle and to turning off the heated steering wheel.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	The collision avoidance system often reacts to my vehicle closing on vehicle that is turning (right). I understand what it's doing but the system activates when I'm fully aware of the driving situation which puts me in a worse situation for a rear-ending than a forward collision that i know I'm not about to have.
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Overall operation is irritating and could cause accidents

Features and Controls	
Features and Controls	Heated Steering Wheel. Interior lights. Reverse-Camera.

Vehicle exhibits poor traction on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Trouble occurs at these speeds (check all that apply):	When driving at low speeds (11-20 MPH).
Please indicate how severe the issue is:	Somewhat worse than expected.
Please indicate the nature of the traction issue you experienced	The jeep just doesn't seem to have the right traction when it comes to snow/ice. Might be more with regards to the tires that are on the jeep from factory than anything else.
How often does this trouble occur?	Trouble occurs regularly.

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Dome/map/interior lights broken/not working	
Please indicate which interior light is the source of the trouble (check all that apply):	At some point, the blue in-laid lights in the door pull and cubby stopped working.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Hand brake/parking brake requires too much effort to apply/release	
Please describe what requires too much effort (check all that apply):	Releasing parking brake requires too much effort. The Grand Cherokee Overland that we bought is a luxury SUV. The parking break should not be a foot pedal version. Jeep should be using an advanced parking break system for this application.

Reverse-Camera	
Reverse-Camera	Reverse-camera works properly, but difficult to understand/use; controls in a poor location.

Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use	
Please indicate why the illumination/warning/indicator lights are difficult to understand/use; are in a poor location (check all that apply):	The buckle seatbelt indicator needs to be moved. it sits in a position that is directly behind the RPM indicator (1000-1500 RPMs). This could be easily solved by moving it up or down. When moving at low speeds at the start of a trip (going through neighborhood, you can only see a little bit of the buckle seatbelt light).

Detail on High Rated Items	
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	We're jeep people, we love our jeeps. This Grand Cherokee was our sixth jeep.

Interior lights	
Interior lights	Dome/map/interior lights broken/not working.

Displays and Instruments	
Displays and Instruments	Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle Performance driving on Snow/Ice	
Vehicle Performance driving on Snow/Ice	Vehicle exhibits poor traction on snow/ice. Vehicle exhibits poor steering on snow/ice.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Hand brake/parking brake control is poorly located	
Why is the parking brake poorly located? (check all that apply):	it's annoying.

Automatic headlights broken/not working

Please describe conditions when this trouble occurs:	All the time
Please describe the trouble you experienced:	Auto headlights do not go on or do not turn off consistently. I do not feel safe using this feature as it is inconsistent.
Additional Comments:	This too was brought in for servicing. Continues to happen

Engine will not start at all

Additional Comments:	Brought to service twice
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
What best describes the no start condition?	Engine does not crank at all.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	The vehicle did not recognize fob
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Please indicate when the starting trouble occurs:	Warm condition - after vehicle is off for 1 - 6 hours.

Squeak/rattle/abnormal noises from center console

Additional Comments:	Door difficult to open. Sometimes correct compartment does not open

Squeak/rattle/abnormal noises from center console	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs regularly.

Overview	
Please explain further about your choice to recommend your vehicle:	I am incredibly frustrated with my new vehicle. I've had the vehicle in for service multiple times. I do not trust the vehicle any longer.
The Smartphone Application format is easy to understand and use	4 (agree).
Would you recommend this vehicle to family or friends?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer. Took to the dealer I purchased my vehicle from.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Please provide feedback on how Chrysler can improve the Smartphone Application	Text message feature does not work

Was the trouble resolved to your satisfaction?	No.

Detail on Low Rated Items	
You rated the value of your new car Low. Use this space to provide any specific comments you would like to share.	I paid for a lot of features that do not work
You rated difficult driving conditions (adverse weather, off-road) Low. Use this space to provide any specific comments you would like to share.	Poor handling on snow/ice/winter
You rated headlight illumination/performance during night-time driving Low. Use this space to provide any specific comments you would like to share.	Auto dimming feature doesn't work
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Auto dimming, text messaging, collision avoidance, gas cap, handling, braking, glove boxes, interior noise
You rated steering and handling (responsiveness, stability) Low. Use this space to provide any specific comments you would like to share.	Poor handling in winter conditions
You rated your attitude about the brand of your new car Low. Use this space to provide any specific comments you would like to share.	Too many issues with vehicle
You rated your attitude overall towards your new car Low. Use this space to provide any specific comments you would like to share.	All of these issues with my jeep have made me distrust the vehicle.
You rated navigation system route accuracy Low. Use this space to provide any specific comments you would like to share.	Inaccurate.
You rated your feelings about the durability of your new vehicle Low. Use this space to provide any specific comments you would like to share.	Ive had so many issues with my vehicle even after servicing that I do not trust my vehicle
You rated brake responsiveness/effort Low. Use this space to provide any specific comments you would like to share.	Too long to brake

Text messaging broken/not working	
Additional Comments:	Text messaging feature has never worked with my vehicle. I've had the apple 4s and 6plus. Neither phone has worked with this feature.
Please describe the trouble you experienced (check all that apply):	Unable to receive audible notifications.
	Unable to receive visual notifications.
	Cannot hear playback audio.
	Text is not displayed on screen.
	Unable to return call to text sender.
	Unable to send/reply/forward text using a pre-formatted response.
	Unable to send/reply/forward text via voice recognition.
	Voice Command (VR button on steering wheel) does not recognize input.
	Sender information is not displayed.
	Sender information was incorrect or jumbled.
	Text audio playback does not pronounce text correctly.
	Voice Command (VR button on steering wheel) cut off before I was finished.
	Voice Command (VR button on steering wheel) takes too long to respond.
	Voice recognition playback does not work.
Did this trouble occur after starting the vehicle?	Yes.
Do you have the Uconnect Access free form speech option?	Yes.
How often does this trouble occur?	Trouble occurs regularly.

Vehicle pulls noticeably to the left/right	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Vehicle pull is:	Moderate.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.
Trouble occurs while traveling at these speeds (check all that apply):	Medium speeds (26-45 MPH). High speeds (46 MPH and above).
Are you using your vehicle for towing when the problem occurs?	No.
What direction does the vehicle pull when driving?	Both Left and Right - Varies with conditions.
Trouble occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions.

Center console is difficult to open/close	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate why the center console is difficult to open/close (check all that apply):	Latch/lock operation.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to open.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Blind spot monitoring/warning system is broken/not working	
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Please indicate the trouble you experienced with the blind spot monitoring/warning system (check all that apply):	Occurs regularly when nothing is in my blind spot. It's happened in my own driveway and when no other vehicles are around me.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Nothing stands out
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Lights	
Lights	Automatic headlights broken/not working. Headlights aimed incorrectly. Adaptive front lighting system broken/not working. Automatic high-beam headlights broken/not working.

Displays and Instruments	
Displays and Instruments	Blind spot monitoring/warning system is broken/not working. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Dents/dings were present on exterior body panels at delivery.

Fuel door difficult to open/close	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to open.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Please indicate where the fuel door trouble occurs:	Fuel filler door release lever/cable.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
How often does this trouble occur?	Trouble occurs intermittently.

Automatic high-beam headlights broken/not working	
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	Turns, hills, approaching vehicles After turns, after hills , after vehicles pass
Please describe conditions when this trouble occurs:	Always
Additional Comments:	Vehicle was serviced for this. Continues to happen

Excessive wind noise	
Please indicate the location of the wind noise (check all that apply):	Driver's side front door. Passenger's side rear window. Passenger's side rear door. Driver's side front door window. Passenger's side front door. Passenger's side front door window. Passenger's side rear door window.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Additional Comments:	I've had my 2014 Jeep GC Overland in the service dept several times. Problems continue. This is not right for a brand new car. I'm very dissatisfied.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Adaptive front lighting system broken/not working	
Please indicate which headlight is not working properly (check all that apply):	Driver's side headlight. Passenger's side headlight.
Please indicate the trouble experienced with the Adaptive Front Lighting System (check all that apply):	Headlights do not reset to normal position. Does not track properly while turning left. Does not track properly while turning right. Does not track properly while going downhill. Does not track properly while going uphill.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe conditions when this trouble occurs:	All the time
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Trim/Storage/Windows. Seats. Steering, Handling, and Ride. Engine. Off-Road. Transmission and Drivetrain. Brake System. Interior Climate Control. Vehicle Exterior. Entertainment/Navigation System/Connectivity. Features/Controls/Displays.

Headlights aimed incorrectly	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please indicate which headlight is not aimed properly (check all that apply):	Daytime running light not working. Brought to service dept 3 times. Still not working
Approximate mileage when trouble was first noticed was:	8000 miles or above.

Squeak/rattle/abnormal noises from glove box	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe in the box below where from the glove box the trouble with abnormal noises is located:	The door
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Abnormal Noises	
Abnormal Noises	Squeak/rattle/abnormal noises from glove box. Squeak/rattle/abnormal noises from center console.

Text Messaging	
Text Messaging	Text messaging broken/not working.

Steering and Handling	
Steering and Handling	Vehicle pulls noticeably to the left/right.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	507.226.3085

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	4s, 6plus
Please choose your cell phone brand	Apple.
If known, please tell us your software version	Latest version
Please choose your cell phone carrier	Verizon Wireless.

What Can We Do Better?	
Feedback/Concerns:	I'm concerned that my issues continue to occur even after multiple servicing appts. I would like to pursue a buy back or vehicle trade. I'm convinced I have a lemon. If this is consistent with all Jeep GC then I will not buy one again nor will I recommend
What has Chrysler done right?	Taken my calls. Attempted servicing the vehicle. AJ Sawrey has been pleasant to deal with.

Welcome	
Please tell us how many miles are currently on your vehicle:	7,000-9,999.
Are you the primary driver of this vehicle?	Yes.

Vehicle exhibits poor braking when driving on snow/ice	
Please indicate how poorly the vehicle performed:	Takes too long to stop
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
	Downhill.
Trouble occurs at these speeds (check all that apply):	When braking at medium speeds (>20 MPH).
	All speeds.
	When braking at very low speeds (0-10 MPH).
	When braking at low speeds (11-20 MPH).
Additional Comments:	I wanted a vehicle for winter conditions. Very disappointed in its performance.
How often does this trouble occur?	Trouble occurs regularly.
Please describe the nature of the poor braking issue you experienced (check all that apply):	The level of braking is not as expected.

Engine Starting (hard to start/will not start)	
Engine Starting (hard to start/will not start)	Engine will not start at all.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working.

Vehicle exhibits poor handling when driving on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Additional Comments:	Vehicle doesn't handle on snow as well as expected. Slips
How often does this trouble occur?	Trouble occurs regularly.
Please indicate how poorly the vehicle performed:	Handling is somewhat worse than expected.
Please describe the nature of the poor handling:	The amount of steering corrections required make it difficult to make vehicle travel on the desired path around a corner.
Trouble occurs at these speeds (check all that apply):	30-40 mph

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions.
Please indicate which of the following best describes your concern (check all that apply):	I've ended up at the wrong address multiple times. Not even on he correct street!

Navigation system works, but missing information; has incorrect information; gives wrong directions

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	Audible alert sounds inappropriately and inconsistently

Dents/dings were present on exterior body panels at delivery	
Additional Comments:	Vehicle was covered in sap that had hardened on the vehicle. The interior carpet was dirty. The car was brought to dealer to have cleaned

Operation and Functionality	
Operation and Functionality	Center console is difficult to open/close.

Media	
Media	Radio.

Front seat audio/entertainment/navigation controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	Lost preset stations four times. Brought in for servicing
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	Lost stations four times

Vehicle Performance driving on Snow/Ice	
Vehicle Performance driving on Snow/Ice	Vehicle exhibits poor braking when driving on snow/ice. Vehicle exhibits poor handling when driving on snow/ice.

Wind Noise	
Wind Noise	Excessive wind noise.

Fuel filler door/cap	
Fuel filler door/cap	Fuel door difficult to open/close.

Uconnect Access	
Uconnect Access	Remote Features.

Overview	
Smartphone Application covers the necessary features	5 (strongly agree).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
What information did you need that was not included in the Smartphone Application?	A map of where the vehicle is parked/located would be very handy. Being able to have vehicle settings based on a specific smartphone being in the vehicle would also be very beneficial.
Please explain further about your choice to recommend your vehicle:	

Overview	
	The vehicle rides exceptionally well. The diesel engine and mileage has exceeded expectations. Great vehicle.
Please provide feedback on how Chrysler can improve the Smartphone Application	The application needs to have the ability to pull up a map of where the vehicle is located. Additionally, it would help if the vehicle could send diagnostic information to the phone so that you could review more specific information about what maybe causing a check engine light or why a particular error message has popped up. Also, it takes a WHILE the application to turn the vehicle on. It usually takes upwards of 5 minutes for the application to turn the jeep on remotely. Of which, I've already made it to the vehicle and i'm on my way.
Which automotive publications do you subscribe to? (check all that apply)	Overland Journal
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Please rate your overall level of satisfaction with the Smartphone Application	5 (very satisfied).
What have you used to view your DVD? (check all that apply)	Computer/laptop.
Printed User Guide covers the necessary features	4 (agree).
DVD format is easy to understand and use	4 (agree).
Information on the DVD is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the DVD	4 (satisfied).
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Would you recommend this vehicle to family or friends?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake control is poorly located.
	Hand brake/parking brake requires too much effort to apply/release.

Heated Steering Wheel	
Heated Steering Wheel	Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle exhibits poor steering on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Please indicate how severe the issue is:	Steering, vehicle control is not as smooth as I'd like for the advanced systems that are in the jeep. Can easily fishtail, slide in the jeep.
Trouble occurs at these speeds (check all that apply):	When maneuvering at very low speeds (0-5 MPH).
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Off-Road.
	Features/Controls/Displays.
	Brake System.

Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate why the heated steering wheel is difficult to understand/use; controls in a poor location (check all that apply):	The heated steering wheel gets too hot sometimes.
Additional Comments:	The heated steering wheel needs to have a automatic cutoff after so many minutes. It can get exceptionally warm/hot and is usually not noticed until

Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location	
	I'm on the highway causing me to turn my attention away from driving the vehicle and to turning off the heated steering wheel.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	The collision avoidance system often reacts to my vehicle closing on vehicle that is turning (right). I understand what it's doing but the system activates when I'm fully aware of the driving situation which puts me in a worse situation for a rear-ending than a forward collision that i know I'm not about to have.
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Overall operation is irritating and could cause accidents

Features and Controls	
Features and Controls	Heated Steering Wheel. Interior lights. Reverse-Camera.

Vehicle exhibits poor traction on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Trouble occurs at these speeds (check all that apply):	When driving at low speeds (11-20 MPH).
Please indicate how severe the issue is:	Somewhat worse than expected.
Please indicate the nature of the traction issue you experienced	The jeep just doesn't seem to have the right traction when it comes to snow/ice. Might be more with regards to the tires that are on the jeep from factory than anything else.
How often does this trouble occur?	Trouble occurs regularly.

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Dome/map/interior lights broken/not working	
Please indicate which interior light is the source of the trouble (check all that apply):	At some point, the blue in-laid lights in the door pull and cubby stopped working.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Hand brake/parking brake requires too much effort to apply/release	
Please describe what requires too much effort (check all that apply):	Releasing parking brake requires too much effort. The Grand Cherokee Overland that we bought is a luxury SUV. The parking break should not be a foot pedal version. Jeep should be using an advanced parking break system for this application.

Reverse-Camera	
Reverse-Camera	Reverse-camera works properly, but difficult to understand/use; controls in a poor location.

Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use	
Please indicate why the illumination/warning/indicator lights are difficult to understand/use; are in a poor location (check all that apply):	The buckle seatbelt indicator needs to be moved. it sits in a position that is directly behind the RPM indicator (1000-1500 RPMs). This could be easily solved by moving it up or down. When moving at low speeds at the start of a trip (going through neighborhood, you can only see a little bit of the buckle seatbelt light).

Detail on High Rated Items	
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	We're jeep people, we love our jeeps. This Grand Cherokee was our sixth jeep.

Interior lights	
Interior lights	Dome/map/interior lights broken/not working.

Displays and Instruments	
Displays and Instruments	Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle Performance driving on Snow/Ice	
Vehicle Performance driving on Snow/Ice	Vehicle exhibits poor traction on snow/ice. Vehicle exhibits poor steering on snow/ice.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Hand brake/parking brake control is poorly located	
Why is the parking brake poorly located? (check all that apply):	it's annoying.

No Concerns

What information did you need that was not included in the Smartphone Application?	GPS
Please provide feedback on how Chrysler can improve the Smartphone Application	Other car manufacturers have included GPS tracking with their mobile apps. I understand Jeep is implementing this going forward on 2015+ model years. I hope this is made available for my 2014 Jeep. Additionally, I feel the $15 per month after the first year is not a good value for what is included.
Please explain further about your choice to recommend your vehicle:	Very satisfied with this vehicle. Have recommended it to several friends.
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Which automotive publications do you subscribe to? (check all that apply)	Motor Trend. Car and Driver.
Did you review the Owner's Information DVD?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Which feature or section of the Smartphone Application did you find most helpful and why?	Remote start is my most used feature.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Smartphone Application covers the necessary features	4 (agree).
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Have you taken your vehicle to an authorized dealer for any reason? (check all that apply):	Oil change and tire rotation
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Did you review the Printed User Guide?	No.

About You

Trade-in allowance	1.
Vehicle quality	2.
Vehicle styling	4.
What is your primary language?	English.
Which, if any, influenced your purchase decision? (check all that apply):	Internet research. Features/Capabilities. Recommendations from friends or family. Value for the money. Image that the vehicle portrays. Price/Purchase Terms/Financing. Automotive magazines.
Please tell us about the vehicle you replaced (if applicable)	Jeep. Replaced Vehicle: Purchased New. 2004. Grand Cherokee.
Is this your first new vehicle ever purchased / leased?	No.

What Can We Do Better?

Feedback/Concerns:	I bought a Summit with the HEMI. For well over $3,000 you would think Jeep could put something on the outside of the vehicle that says its a HEMI.
What has Chrysler done right?	Basically everything else.

About You

What is your total household income (before taxes)?	$125,000 - $149,999.
How may children 17 or under live in your household?	1-2.
Secondary vehicle in your household:	2006. Chevrolet. HHR. Secondary Household Vehicle: Purchased Used.
Convenience of dealership location	3.
Financing options	3.
Vehicle styling	5.
Primary vehicle you were considering:	A5. Audi. 2014. Primary Considered Vehicle: Used.
Primary vehicle in your household:	Camaro. Chevrolet. Primary Household Vehicle: Purchased Used. 2011.
What is your primary language?	English.
Please indicate your highest education level	Graduate degree.
What is your current marital status?	[redacted]
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	Replaced Vehicle: Purchased Used. 2014. Grand Cherokee. Jeep.
Dealership treatment	1.
Vehicle quality	1.
Vehicle fuel economy	2.
Secondary vehicle you were considering:	2013. Touareg. Secondary Considered Vehicle: Used. Volkswagen.
Vehicle availability	3.
Trade-in allowance	3.
Price	4.
Please indicate your ethnicity	[redacted]

Overview	
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Did you review the Printed User Guide?	Yes.
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Printed User Guide	3 (neither satisfied nor dissatisfied).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Would you recommend this vehicle to family or friends?	Yes.
Please provide feedback on how Chrysler can improve the Smartphone Application	make texting with the iphone work
Please explain further about your choice to recommend your vehicle:	This JGC Summit BLOWS away my Cadillac SRX. I mean totally BLOWS it away. I would drive this over the SRX any day. It is much better in every aspect.
Information in the Smartphone Application is easy to find and access	4 (agree).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Did you review the Owner's Information DVD?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays. Vehicle Exterior.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Detail on High Rated Items	
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	I had an 2014 Overland - the Summit is supposed to have so much better of an audio system. It doesn't. It's not better at all. But the Overland audio system was pretty awesome.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	I just want to sit in it all day. If it got better gas mileage, I would drive it in circles just to drive it
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	Does it have gears? Do they change? Just kidding - you never feel it shifting. Ever. Well - unless my husband is driving, he thinks its a race car.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I just love the way this car drives. I drove an GC Altitude, thought it was nice, BUT wow was I wrong. The Summit is a simply amazing vehicle. I stated early I drove a Cadillac SRX, which did NOT live up the Cadillac hype. Just an expensive car with a fancy logo on it. The Summit, however, just simply WOW. Worth every penny. It's only been 2,000 miles - I hope it doesn't turn out be a lemon and disappoint me.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	

Detail on High Rated Items	
	My second non-GM vehicle in my life (and I'm over 40 so that's a long time). The first was a Dodge (I can't believe you are owned by the same company - Dodge sucks). This is my second. I love it.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	brakes light scares the crap out of me when its flashing and the car brakes. It has only done it twice, and both times when not necessary - the vehicle in front of me was making a left hand turn, was out of my path but the car scared the shit out of me.

Detail on High Rated Items

You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	Brakes work well, the Auto matic... braking makes me a little nervous.... warning goes off with no one around.... and the lens is clean.....
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	easy to use and good range of temps and fan..
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	improve being able to know the location of right front fender, can not know sheet metal location.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	my error, no issues , quiet .
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	my salesman was very helpful, pluses for him.
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	Siri option is super !!
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	sound look, sturdy again, not overly busy, smooth look, yet a bit of edgy, defined style
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	very good rear ratio range, per the lower torque of the V-6 ... works well
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Interior was much improved over my 2003, fun and very comfortable with all the NEW features
You rated ride quality High. Use this space to provide any specific comments you would like to share.	very smooth on new asphalt less so on old concrete roads,,, bumpy, per each vein in the road surface,,,,,,,
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Well so far it seems as good as the last Jeep, but i think the sheet metal alloy is lighter... seems a bit thin...
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	Yes, tires and wheel rims to be a paired well per height, width.... design of wheels
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	excellent
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	firm and soft seat support per lower back and seat area, seat ventilation works well per warmer weather
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	keep the interior lush, it is almost a little "thin", but nice, i just hope it holds up
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	looks to be solid, a sturdy...
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	nice sound system quality
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	no issues for me, I am[redacted] lbs.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	style but smooth, no lumpy curves or swirles.. many SUV's are just too busy with curves.... and waves.... nuts....
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	works very good....
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	works well, self leveling...

Vehicle Satisfaction Ratings	
Is there anything about your new vehicle you would like to see changed?	lack of ability to know the true location of right front fender to my garage door opening, very hard to know how close i am... i now have a smear to fix in the spring at the local Ding" shop....

Seat material concerns	
Please describe conditions when this trouble occurs:	normal driving and temperatures, heater is off.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Seat material trouble is:	Seat material sags/wrinkles or is loose fitting/unsecured.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate which seat has trouble with its material (check all that apply):	the material gives a little and i feel the seat springs? move a bit, so i am thinking it may have issues in the near future....

What Can We Do Better?	
What has Chrysler done right?	style and comfort, doing better per road noise, but tire noise is still there... NEW car tires have nice deep treads to deliver a smooth ride.... then the tread cures... hardens a little and it changes... Yes, i was in the tire business, New tires help sell new cars... do maybe ask Michelin to have deeper treads and more sipes per tire, those are the little cuts in the tread for shock absorbtion and traction.... +++++ . Soft ride is in Play NOW, the

What Can We Do Better?	
	German SUV's are stiff..... and hard right out of the gate. I drove the Porche and Audi.... no thank you.

Overview	
Which feature or section of the Smartphone Application did you find least helpful and why?	texting.... nuts.... still do not know how, and when driving cannot do it safely... i guess. still in the dark=sun, rain..... ;-)
Please explain further about your choice to recommend your vehicle:	this is our third Jeep.... I like them per the height and overall quality and performance, I just spend $ 48,000.00 for a work car, casual driving in Denver.... I would like a little more torque out of the V-6, i had a V-8 before, you can tell the difference.
Please rate your overall level of satisfaction with the Printed User Guide	2 (dissatisfied).
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	4 (agree).
Did you review the Owner's Information DVD?	No.

Brake responsiveness/effort	4.

Excessive wind noise	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate the location of the wind noise (check all that apply):	Front windshield. Driver's side rear door. Driver's side rear door window. Driver's side front door. Driver's side front door window.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Rear tail lights/brake lights/reverse lights/turn signal lights inoperative	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate which rear lights were inoperative (check all that apply):	lights stay on after vehicle is off

Overview	
Please explain further about your choice to recommend your vehicle:	when i first got the vehicle i was really happy 2 of my friends got the vehicle after me thanks to my reviews for the first few week but after a few month with the vehicle my reviews are not that good anymore a think to many problems in 20 month or so
Would you recommend this vehicle to family or friends?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Was the trouble resolved to your satisfaction?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Fuel door difficult to open/close	
Approximate mileage when trouble was first noticed was:	10,000-19,999.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to close.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate where the fuel door trouble occurs:	Fuel filler door.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Visible rust/corrosion	
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Approximate mileage when trouble was first noticed was:	20,000-29,999.
Please indicate the location of the rust/corrosion (check all that apply):	Passenger's side rear door. Rear bumper.

Brake System Components	
Brake System Components	ABS system/sensors.

Steering system/wheel is difficult to turn	
Trouble occurs while traveling in these road conditions (check all that apply):	All road conditions.
Trouble occurs while traveling at these speeds (check all that apply):	All speeds.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Controls too small.
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Navigation system controls.
Please indicate which of the following best describes your concern (check all that apply):	Poor location.

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand. Difficult to use.
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Heating, Cooling, Ventilation controls. Radio channel preset buttons. Tuner control.
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Touchscreen is slow to respond.

Exterior Light Failure	
Exterior Light Failure	Exterior Light Failure.
Please indicate which light has failed (check all that apply):	Passenger's side tail light.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working. Hard controls/menus: Front Screen Display difficult to understand/use; in a poor location. Hard controls/menus: Front Screen Display is broken/not working. Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location. Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location. Hard controls/menus: Front Screen Display: Other Concerns.

Headlights aimed incorrectly	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Fog/water/condensation in exterior light lenses	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which exterior light lenses have fog/water/condensation in them (check all that apply):	Driver's side headlight.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system freezes-up/will not work.

Entertainment/Navigation System/Connectivity>Navigation System>	
	Navigation system works, but missing information; has incorrect information; gives wrong directions.
	Difficulty accessing Points of Interest.
	Navigation system screen is in a poor location.
	Points of Interest incorrect.
	Navigation system works, but traffic information doesn?t work / or is difficult to understand.
	Points of Interest not well defined.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Navigation system gives wrong directions.
	Navigation system has incorrect information.
	Navigation system is missing information.
Please indicate which navigation system item has trouble (check all that apply):	Map is missing information.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Steering, Handling, and Ride.

Exterior Appearance/Paint:	Visible rust/corrosion.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition finishes before completing a command.
	Voice Recognition feature does not have enough functions available.
	Unnatural sounding voice or difficult to understand.
	Voice Activation / Recognition doesn't recognize command.

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	When entering information.
	When stating a name.
Do you usually set HVAC vent direction toward ceiling?	Yes.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	20,000-29,999.

Unnatural sounding voice or difficult to understand	
Do you usually set HVAC vent direction toward ceiling?	Yes.
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	When entering information.

Lights

Lights	
Lights	Adaptive front lighting system broken/not working. Rear tail lights/brake lights/reverse lights/turn signal lights inoperative. Exterior Light Failure. Fog/water/condensation in exterior light lenses. Headlights aimed incorrectly. Headlights not bright enough.

Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate why the front screen is difficult to understand/use (check all that apply):	Display too small.

Wind Noise	
Wind Noise	Excessive wind noise.

Adaptive front lighting system broken/not working	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate which headlight is not working properly (check all that apply):	Passenger's side headlight.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate the trouble experienced with the Adaptive Front Lighting System (check all that apply):	Does not track properly while going uphill. Does not track properly while turning left.

Rear Seat Entertainment	
Rear Seat Entertainment	Rear seat entertainment media port connections.

Rear seat entertainment media port connections	
Rear seat entertainment media port connections	Rear seat entertainment media port connections broken/not working.

Headlights not bright enough	
Additional Comments:	the major problem i have with the jeep is the Uconnect to slow,crashes all the time lags a little . With the apperance the tail lights i think should be led for a better look the led in the front should be brighter , the FCW sometimes applied the break even if the car in front of me is far away , some times my USB port just don't work,
Please describe conditions when this trouble occurs:	while I'm driving the jeep

USB connection is broken/not working	
Please indicate if you are able to do either of the following (check all that apply):	Charge devices.
Please describe the trouble you experienced (check all that apply):	Device does not stay connected.
Where is the location of the media port?	Rear seat. Center console.
How often does this trouble occur?	Trouble occurs intermittently.

Hard controls/menus: Front Screen Display difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand.
Please indicate why the front screen is difficult to understand/use (check all that apply):	Display too small.

Touchscreen Controls	
Touchscreen Controls	Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working. Touchscreen Controls/Menu: Front Screen Display is broken/not working. Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location. Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location. Touchscreen Controls/Menu: Front Screen Display: Other Concerns.

Hard controls/menus: Front Screen Display is broken/not working	
	screen is to small

Hard controls/menus: Front Screen Display is broken/not working	
Please indicate your concern with front screen display (check all that apply):	

Other Components	
Other Components	Other component(s) replaced (not listed previously).

Other component(s) replaced (not listed previously)	
Where did you take your vehicle to have the component replaced?	Took to a different dealer than the one I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	Under $100.

USB connection issues	
USB connection issues	USB connection is broken/not working.

Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand.

Fuel filler door/cap	
Fuel filler door/cap	Fuel door difficult to open/close.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Steering and Handling	
Steering and Handling	Steering system/wheel is difficult to turn.

Navigation system works, but traffic information doesn.t work / or is difficult to understand	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information does not display at all.

Media	
Media	USB connection issues.

Contact Me

To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	973-715-2171
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Overview

Please explain further about your choice to recommend your vehicle:	Not with the forward collision system or the auto gear selector
Which automotive publications do you subscribe to? (check all that apply)	Auto Week. Consumer Reports ratings. Road and Track. Car and Driver. Motor Trend. Automobile.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Would you recommend this vehicle to family or friends?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Going back again for forward collision braking

Welcome

Please tell us how many miles are currently on your vehicle:	10,000-19,999.
Are you the primary driver of this vehicle?	Yes.

Vehicle Satisfaction Ratings

How do you feel about the durability of your new vehicle?	3.
Overall audio, entertainment, and navigation system impression	4.
Integration with phones	4.
Exterior design and appearance (overall impression)	4.
Side/profile view styling (driver's side or passenger's side exterior area)	4.
Headlight illumination/performance during night-time driving	4.
Interior comfort, design and appearance of interior (overall impression)	4.
Engine performance during acceleration	4.
Fuel economy and driving range	4.
Ride quality	4.
Difficult driving conditions (adverse weather, off-road)	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	1.
Vehicle storage and space usage	3.
What is your attitude overall towards the BRAND of your new car?	3.
Clarity of sound	4.
Integration with media players	4.

Vehicle Satisfaction Ratings

Support for popular music/video formats	4.
Appearance of exterior paint	4.
Ease of getting into and out of vehicle	4.
Interior noise level while driving	4.
Engine sound	4.
Brake responsiveness/effort	4.
Steering and handling (responsiveness, stability)	4.
Is there anything about your new vehicle you would like to see changed?	Fix Collision Warning gear selector
What is your attitude overall towards your new car?	2.
How do you feel about the VALUE of your new car? (i.e.	2.
Wheels, rims, and tires appearance and styling	3.
Seat adjustment and comfort	3.
Rear view styling (rear fascia, bumper)	4.
Head/leg/foot room	4.
Location and usefulness of interior lighting	4.
Climate control operation (function and ease of use)	4.
What are your favorite parts of your new vehicle?	Styling
Safety and visibility while driving	1.
Navigation system route accuracy	3.
Transmission gear change performance (smoothness)	3.
Ease of using system displays while driving	4.
Front view styling (front fascia, hood, grille, headlight area)	4.
Steering wheel adjustment	4.

Gear selector is difficult to operate (auto. trans.)

To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Going into which position is the gear selector difficult to operate? (check all that apply):	Not accurate, horrible design
Why is the gear selector difficult to operate?	Other (please describe).
Additional Comments:	Realized when i test drove it but thought I would get used to it, never buy another car with this in it though
How often does this trouble occur?	Trouble occurs regularly.

About You

Please indicate your occupation status.	Employed.
Secondary vehicle in your household:	Frontier. 2014. Nissan. Secondary Household Vehicle: Purchased New.
Please indicate your occupation.	Other.
Which of the following best describes the area you live in?	Suburban.
Please indicate the primary driver's age.	[redacted]
Primary vehicle in your household:	S60. Primary Household Vehicle: Purchased New. 2013. Volvo.
What year were you born?	1[redacted]
What is your total household income (before taxes)?	$100,000 - $124,999.
What is your primary language?	English.
How may children 17 or under live in your household?	1-2.
What is your average miles per gallon (MPG) with your vehicle?	19-20 mpg.
Please indicate your highest education level	4 year college degree.
Please indicate your ethnicity	[redacted].
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]
Did you purchase or lease your vehicle?	Purchase.

Automatic Transmission

Automatic Transmission	
Automatic Transmission	Slips/will not engage gear properly/shifts erratically. Gear selector is difficult to operate (auto. trans.).

What Can We Do Better?	
What has Chrysler done right?	Exterior Design, interior Design and U connect interface is easy to use
Feedback/Concerns:	My current concern is that the car will brake on its own out of nowhere with no warning and nothing around, it's dangerous

Slips/will not engage gear properly/shifts erratically	
Going into which gear/gears does the trouble occur? (check all that apply):	Gear Selecter is not accurate Reverse.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Are you using your vehicle for towing when the problem occurs?	No.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Car brakes on its own, without warning with forward collision
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Jerks
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Brake System. Transmission and Drivetrain.

Detail on High Rated Items

You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	I have had no problems with paint, fit or finish.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	I was very pleased and surprised with the performance of the V6.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	It's a Jeep!
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	My "dumb" phones work perfectly with it.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	See above
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	See above.
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	The OEM tires aren't very good, but the vehicle has performed well despite them. I expect even better handling when I replace them with good AT tires.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	The Quadralift and entry/exit mode makes this an exceptionally easy 4x4 to get in and out of.
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	The vehicle stops quickly when it must.
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	This is the most expensive vehicle I have ever purchased and I don't regret a penny of it.
You rated ride quality High. Use this space to provide any specific comments you would like to share.	Exceptionally comfortable.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	I have had to perform several emergency maneuvers on the highway to avoid idiots and the vehicle has performed flawlessly, impressive for such a heavy vehicle.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	In sport mode, the exhaust has a pleasant deep throated sound.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	On my recent trip, the V6 averaged around 25 miles to the gallon on the expressway. Much better than my old Tahoe which would top out at about 18.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	Quiet inside,
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	See above
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Sharp looking vehicle, though it lacks the macho appearance of my former 4x4's.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	The blind spot warning system is the basis for this rating.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	The map lights and subdued interior lights work well without interfering with night vision through the windshield.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	The vehicle seems as tough as my old 78 Bronco.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I didn't expect the comfort level to be as good as it is in a capable off road 4x4.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	I have a bad back and recently took a 6500 mile trip with no discomfort.

Detail on High Rated Items	
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	I use the SD card a lot when traveling and it has played everything I have on it.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	I'm short, so that may not be a good guide for everyone, but I fit fine and can adjust the seat and steering wheel perfectly.
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	See above
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	8.4AN screen is easy to see and I love the navigation instructions in the EVIC.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	I love it.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	The vehicle is very quiet compared to other 4x4's I have owned, even with the sunroof open.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	The xenon lighting is excellent. The fog lamps could be a bit better though.

Vehicle Satisfaction Ratings	
Is there anything about your new vehicle you would like to see changed?	I miss the flipper glass on the rear and wish the quadralift would go into entry/exit upon entering park.
What are your favorite parts of your new vehicle?	quadralift suspension
Wheels, rims, and tires appearance and styling	4.
Vehicle storage and space usage	4.
Operating controls while driving (gear selector, turn signals, horn, etc.)	4.
Climate control operation (function and ease of use)	4.
Head/leg/foot room	5.

About You

About You

What is your total household income (before taxes)?	$100,000 - $124,999.
Please indicate your ethnicity	[redacted]
Secondary vehicle in your household:	Mazda. MX-5 Miata. 2013. Secondary Household Vehicle: Purchased Used.
Primary vehicle in your household:	Primary Household Vehicle: Purchased Used. 2009. Subaru. Outback.
What year were you born?	[redacted]
What is your average miles per gallon (MPG) with your vehicle?	19-20 mpg.
Please indicate the primary driver's age.	[redacted]
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]
How may children 17 or under live in your household?	0.
Please indicate your highest education level	Graduate degree.
Please indicate your occupation.	[redacted]
Please indicate your occupation status.	[redacted]
What is your primary language?	English.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.

Alignment

When was the replacement made on your vehicle?	9-12 months into ownership.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Speakers have poor sound quality

Please indicate which speaker has trouble (check all that apply):	Quality could be better. Front center speaker too loud. Equalizer only works if settings are changed each time vehicle is started.
Additional Comments:	I think the equalizer problem arose in one of the last two UConnect updates. Speaker quality has always been an issue, though it isn't as noticeable when the equalizer works.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which media sources were being played (check all that apply):	USB Drive. FM. SD. Satellite Radio.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Trouble with speaker occurs:	At all volume levels.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Interior Trim/Storage/Window Components

Interior Trim/Storage/Window Components	Cargo cover (interior).

Cargo cover (interior)

Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	Under $100.

Entertainment/Navigation System/Connectivity

Please choose your cell phone brand	Motorola.
If known, please tell us your software version	R4512_G_08.28.40R
Please tell us your cell phone model	V557
Please choose your cell phone carrier	AT&T Mobile.

AM/FM/HD/Satellite radio channels have poor or no reception

How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Sometimes the HD radio will randomly switch to Satellite.

AM/FM/HD/Satellite radio channels have poor or no reception	
Please describe conditions when this trouble occurs:	Driving down road.
Please indicate which frequency band has trouble (check all that apply):	HD radio reception is weak compared to the AVIC8000 in my Mazda MX5

Features and Controls	
Features and Controls	Voice Activiation System. Alarm/anti-theft system. Cruise control system.

Overview	
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	The problems are irritants, but not that major. The worst is the Adaptive Cruise Control periodically disconnecting for five minutes at a time on long trips and then reactivating. Also the FCW will periodically alert on overpasses when no other vehicles are around.
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Was the trouble resolved to your satisfaction?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	[redacted]
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Welcome	
Please tell us how many miles are currently on your vehicle:	10,000-19,999.
Are you the primary driver of this vehicle?	Yes.

Steering, Handling, and Ride Components	
Steering, Handling, and Ride Components	Alignment.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Most likely out of date maps.
Please indicate which navigation system item has trouble (check all that apply):	Missing roads. Map contains incorrect information.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
What button did you use?	VR button on steering wheel
Please describe when this trouble occurs:	When attempting to change radio stations, it often tries to dial the phone.

Media	
Media	Radio.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers have poor sound quality.

What Can We Do Better?	
Feedback/Concerns:	Adaptive Cruise Control will periodically shut down for about five minutes approximately every 250 miles on long trips. It almost acts like something is overheating and then cooling down.
What has Chrysler done right?	Vehicle is comfortable, responsive and handles well, both on and off road.

Radio

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Adaptive Cruise Control and Forward Collision Warning needs some work to resolve irritating problems. Software should be able to correct the equalizer problem. Map updates are needed for the nav system. Voice recognition needs some tweaking.

Fan/blower makes excessive noise

Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe the fan/blower noise (check all that apply):	Fan speed intervals to small when on medium to hige fan is loud
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe when the fan/blower noise occurs (check all that apply):	At high fan speeds. At medium fan speeds.

Engine loses power when air conditioning is on

Approximate mileage when trouble was first noticed was:	Less than 10,000.
Engine trouble occurs while vehicle is (check all that apply):	Accelerating. Freeway/highway driving. City driving/stop-and-go traffic. Cruising/holding a steady speed on an uphill grade. Going up an incline.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
What type of fuel do you most often put into your vehicle?	Plus gasoline.
How often does this trouble occur?	Trouble occurs regularly.

Fuel consumption is worse than expected

Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Where do you do most of your driving?	Combination of city/highway driving.
Are you using your vehicle for towing when the problem occurs?	No.
What type of fuel do you most often put into your vehicle?	Plus gasoline.

Transmission makes abnormal/excessive noises

Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate driving condition when noise occurs (check all that apply):	City driving/stop-and-go traffic. Hard acceleration. Normal acceleration. Braking. Deceleration.
Noise sounds like (Check all that apply):	Thumping. Knocking.

Brakes do not have enough stopping power; brake pedal requires too much effort	
Trouble with brakes occurs during this type of braking (check all that apply):	Vehicle requires excessive brake force to respond Vehicle requires excessive brake force to respond Vehicle requires excessive brake force to respond
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	All road conditions.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	All speeds.

Vehicle exhibits poor traction on snow/ice	
Please indicate how severe the issue is:	Much worse than expected.
Please indicate the nature of the traction issue you experienced	My vehicle seems to suffer from wheel hop or vibration. There is a higher level of wheel spin than I expected. The traction systems on the car are slower to react than I expected. The vehicle does not seem to be able to make the most of the available grip of the surface.
Trouble occurs at these speeds (check all that apply):	When driving at very low speeds (0-10 MPH). When driving at low speeds (11-20 MPH). When driving at medium speeds (>20 MPH).
Trouble occurs under these surface conditions (check all that apply):	Level Ground. Bumpy or uneven surface. Downhill. Uphill.
How often does this trouble occur?	Trouble occurs regularly.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system freezes-up/will not work. Navigation system works, but missing information; has incorrect information; gives wrong directions. Navigation system works, but traffic information doesn?t work / or is difficult to understand. Difficulty accessing Points of Interest. Points of Interest not well defined.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Navigation system gives wrong directions. Navigation system has incorrect information. Navigation system is missing information.
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions. Map is missing information. Map contains incorrect information.
Additional Comments:	Maps need to be update more frequently as roads change regularly

Air from vents smells moldy/stale	
Please indicate when the odor/smell is present (check all that apply):	Odor/smell is noticeable for only a short time after air conditioner/heater/defroster is turned on.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs intermittently.

Windows fog up a lot/take too long to clear/do not clear adequately	
Please indicate the trouble with the front defroster (check all that apply):	During snow icy conditions the wipers and front windshield freeze fog and take a long time to defrost
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe conditions when this trouble occurs:	Snow or icy weather
How often does this trouble occur?	Trouble occurs regularly.

Air conditioner takes too long to get cold	
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Vehicle ac dose not get cold enough causing blower to stay on high when in auto

Air conditioner takes too long to get cold	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.

Reverse-camera is broken/not working	
Please indicate what type of trouble was experienced with the reverse-camera (check all that apply):	Image manages and is blurry sometimes causes system to reboot
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	System sometimes does not respond to the dial being turned Presets delete themselves at times and system freezes when switching
Please describe conditions when this trouble occurs:	Randomly
How often does this trouble occur?	Trouble occurs regularly.

Dome/map/interior lights broken/not working	
Please indicate which interior light is the source of the trouble (check all that apply):	Rear door panel light - Both sides. Rear map light - Both sides. Dome light. Front map light - Both sides. Front door panel light - Both sides. Trunk/rear compartment/cargo area light.
Please describe conditions when this trouble occurs:	With keyless entry
Please indicate what type of trouble was experienced with the dome/map/interior lights (check all that apply):	Long delay when opening door and interior lights illuminating
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.

Features and Controls	
Features and Controls	Reverse-Camera. Adjustable Height Control. Horn. Interior lights. Door locks/key fob entry system. Active Suspension System. Cruise control system. Rear view mirrors (interior/exterior).

Media	
Media	SD media slot issues. Radio. USB connection issues.

Brake rotors - front	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	12-18 months into ownership.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.

Fog lights	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.

Vehicle vibrates excessively at idle	
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Vehicle vibrates excessively at idle	
Vibration trouble occurs (check all that apply):	All the time.
Vibration is:	Moderate.

SD media slot is broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.
Where is the location of the media port?	Below u connect system in recessed location
Please describe the trouble you experienced (check all that apply):	System takes long to recognize sometimes does not read the same card that it sometimes does

Brake pedal feels mushy/soft	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	All speeds.
Trouble with brakes occurs during this type of braking (check all that apply):	Brake pedal is light and makes noise
	Brake pedal is light and makes noise
	Brake pedal is light and makes noise
Approximate mileage when trouble was first noticed was:	10,000-19,999.
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	All road conditions.

Navigation system freezes-up/will not work	
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Navigation freezes consistently on calculating route and also sometimes has no idea where the vehicle is

Horn broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate what type of trouble was experienced with the horn (check all that apply):	Horn sounds like it's dieing within a couple of weeks of purchase
	Horn not loud enough sounds as if it is dieing
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Vehicle exhibits poor ride when driving on snow/ice	
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	The transmission issues with the stock tires makes the vehicle erratic at times and cause traction issues
Trouble occurs under these surface conditions (check all that apply):	Bumpy or uneven surface.
	Downhill.
	Sideslope.
	Uphill.
	Level Ground.
Please indicate how poorly the vehicle performed:	Ride is much worse than expected.
Trouble occurs at these speeds (check all that apply):	When driving at low speeds (11-20 MPH).
	When driving at medium speeds (>20 MPH).

ABS system/sensors	
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	9-12 months into ownership.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Brake booster	
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	18-24 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Back-up camera	
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	12-18 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Back-up camera

Alignment

How much did the replacement cost?	Under $100.

Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	12-18 months into ownership.

About You

Which of the following best describes the area you live in?	Urban.
What is your total household income (before taxes)?	$100,000 - $124,999.
Primary vehicle in your household:	BMW.
	2013.
	3 Series.
	Primary Household Vehicle: Purchased New.
Please indicate your ethnicity	[redacted]
How may children 17 or under live in your household?	0.
What is your average miles per gallon (MPG) with your vehicle?	10-12 mpg.
Secondary vehicle in your household:	3 Series.
	BMW.
	Secondary Household Vehicle: Purchased Used.
	2005.
Please indicate your occupation status.	Employed.
Please indicate your gender	[redacted].
What is your primary language?	English.
Did you purchase or lease your vehicle?	Lease.
Please indicate the primary driver's age.	Un[redacted]
Please indicate your occupation.	[redacted]
Please indicate your highest education level	High school degree / GED.
What is your current marital status?	[redacted]

Vehicle Performance driving on Snow/Ice

Vehicle Performance driving on Snow/Ice	Vehicle exhibits poor traction on snow/ice.
	Vehicle exhibits poor handling when driving on snow/ice.
	Vehicle exhibits poor steering on snow/ice.
	Vehicle exhibits poor ride when driving on snow/ice.

Issues with wheels and tires in off-road conditions

Trouble occurs at these speeds. (check all that apply):	When driving at medium speeds (>20 MPH).
Trouble occurs under these surface conditions (check all that apply):	Downhill.
	Uphill.
	Level Ground.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate the nature of the issue you are experiencing. (check all that apply):	Stock wheels should offer some off road capabilities
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Snow and/or ice.

Voice Activation / Recognition doesnt recognize command

Please describe when this trouble occurs:	When stating a name.
	When other people in the car are talking.
	When there is outside noise or the blower is on.
Additional Comments:	System is very sensitive to background noise
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.

Operation and Performance

Operation and Performance	Windows fog up a lot/take too long to clear/do not clear adequately.
	Air conditioner takes too long to get cold.
	Air conditioner never gets cold enough.
	Fan/blower makes excessive noise.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	10,000-19,999.

Outside temperature gauge broken/not working	
Please describe conditions when this trouble occurs:	Outside temperature takes to long to update correctly and sometimes never does

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
What button did you use?	Phone button on steering wheel
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	When there is outside noise or the blower is on. When other people in the car are talking. When stating a name.

Vehicle Satisfaction Ratings	
Is there anything about your new vehicle you would like to see changed?	Resolve issues
Engine performance during acceleration	3.
Difficult driving conditions (adverse weather, off-road)	3.
Wheels, rims, and tires appearance and styling	4.
Front view styling (front fascia, hood, grille, headlight area)	5.
Vehicle storage and space usage	5.
Head/leg/foot room	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.
Transmission gear change performance (smoothness)	1.
Integration with phones	4.
Navigation system route accuracy	4.
Seat adjustment and comfort	4.
Exterior design and appearance (overall impression)	5.
Headlight illumination/performance during night-time driving	5.
Interior comfort, design and appearance of interior (overall impression)	5.
Steering wheel adjustment	5.
What are your favorite parts of your new vehicle?	Overall drive and selling
Climate control operation (function and ease of use)	3.
Engine exhaust sound	3.
What is your attitude overall towards your new car?	3.
What is your attitude overall towards the BRAND of your new car?	3.
Ease of using system displays while driving	5.
Rear view styling (rear fascia, bumper)	5.
Location and usefulness of interior lighting	5.
Steering and handling (responsiveness, stability)	5.
Overall audio, entertainment, and navigation system impression	3.
Engine sound	3.
Brake responsiveness/effort	3.
How do you feel about the durability of your new vehicle?	3.
How do you feel about the VALUE of your new car? (i.e.	3.
Integration with media players	4.
Support for popular music/video formats	4.
Interior noise level while driving	4.
Fuel economy and driving range	4.
Clarity of sound	5.
Appearance of exterior paint	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Ease of getting into and out of vehicle	5.
Safety and visibility while driving	5.
Ride quality	5.

What Can We Do Better?

What Can We Do Better?	
Feedback/Concerns:	The car is a fundamentally good car and has potential. however jeep needs to have more corporate control over their dealer network or provide better training to service techs as the service experience is less then satisfactory for a 49k car
What has Chrysler done right?	Trucks overall have a good ride and are fun to drive

Air filter	
How much did the replacement cost?	$100-$499.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	18-24 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Brake pads - rear	
When was the replacement made on your vehicle?	12-18 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
How much did the replacement cost?	Under $100.

Shifts at wrong times	
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear. 1st Gear.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Hard acceleration. Deceleration. Normal acceleration.

Exterior moldings/trim pieces loose/misaligned/falling off	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Additional Comments:	Has happened twice once below 10k miles and once above 15k
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is missing.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Bezel on adaptive cruise control sensor

Turn signals	
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Repaired/replaced myself.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.

Brake System Components	
Brake System Components	ABS system/sensors. Brake booster. Brake pads - front. Brake pads - rear. Brake rotors/drums - rear. Brake rotors - front.

Vehicle pulls noticeably to the left/right	
Trouble occurs while traveling in these road conditions (check all that apply):	All road conditions.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
What direction does the vehicle pull when driving?	Left.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Trouble occurs while traveling at these speeds (check all that apply):	All speeds.
Are you using your vehicle for towing when the problem occurs?	No.
Vehicle pull is:	Slight.

Displays and Instruments	
Displays and Instruments	Blind spot monitoring/warning system is broken/not working. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Displays and Instruments	
	Outside temperature gauge broken/not working.

Shift between gears is rough/harsh under normal driving conditions	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	City driving/stop-and-go traffic.
	Braking.
	Coasting (no gas pedal applied).
	Going up an incline.
	While driving on level roads.
	Deceleration.
	Hard acceleration.
	Normal acceleration.
Going into which gear/gears does the trouble occur? (check all that apply)	1st Gear.
	3rd Gear.
	2nd Gear.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?.
	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Transmission kicks and searches for gear
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Automatic high-beam headlights broken/not working	
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	Delay in reaction to long
Please describe conditions when this trouble occurs:	When the car senses light it turns off high beams to slow

Vehicle Exterior Components	
Vehicle Exterior Components	Exterior body panels/trim.
	Fog lights.
	Turn signals.

Exterior Light Failure	
Exterior Light Failure	Exterior Light Failure.
Please indicate which light has failed (check all that apply):	Driver side fog light

Vehicle Issues/Things Gone Wrong

	Interior Climate Control.
	Off-Road.

Touchscreen Controls	
Touchscreen Controls	Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working.

Automatic Transmission	
Automatic Transmission	Hesitation or delay when shifting between gears.
	Shift between gears is rough/harsh under normal driving conditions.
	Slips/will not engage gear properly/shifts erratically.
	Shifts at wrong times.

Features/Controls/Displays>Features and Controls>Horn>

Features/Controls/Displays>Features and Controls>Horn>	
Horn	Horn broken/not working.

Off-Road Features and Functions	
Off-Road Features and Functions	Issues with wheels and tires in off-road conditions.

Rear tail lights/brake lights/reverse lights/turn signal lights inoperative	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which rear lights were inoperative (check all that apply):	Light burnt out within 1st year under 10k millage

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	Galaxy s4
Please choose your cell phone carrier	AT&T Mobile.
If known, please tell us your software version	Lollipop
Please choose your cell phone brand	Samsung.

Overview	
Please explain further about your choice to recommend your vehicle:	I leased the car brand new and have had multiple issues with it. While I understand nothing is perfect it's the dealer service and failure to fix or offer solutions to the issues I have had with the car. Had the dealer been willing to fix the issues I have or even provide a loaner for the times I take it I would be happy however for them to keep the car for more than a day and tell me they can never recreate the problems I have even though I have them on video is a problem. I have also had to look up service bulletins to inform myself of known issues and fixes as the dealer usually has no Idea
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Would you recommend this vehicle to family or friends?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
Was the trouble resolved to your satisfaction?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Brake pads - front	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	9-12 months into ownership.

Hesitation or delay when shifting between gears	
Going into which gear/gears does the trouble occur? (check all that apply)	3rd Gear.
	1st Gear.
	2nd Gear.

Air conditioner never gets cold enough	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Ac never gets cold enough causing blower to remain on high at all times when in auto mode
	Bright sun.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Speakers have poor sound quality	
Please indicate which speaker has trouble (check all that apply):	Volume between different modes has a vast difference Bluetooth SD card get to loud xm can be hard to hear at even max volume am/fm has good balance
Please indicate which media sources were being played (check all that apply):	Volume gets to loud to quick causing speaker to crack
	Volume steps get to loud causing speaker to crack

Speakers have poor sound quality	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Trouble with speaker occurs:	Only at high volume levels.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception. Bluetooth streaming audio works, but is difficult to understand/use.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Body panels/doors misaligned/excessive gaps/poor fit. Exterior moldings/trim pieces loose/misaligned/falling off.

Lights	
Lights	Exterior Light Failure. Front headlights/parking lights/fog lights/turn signal lights inoperative. Rear tail lights/brake lights/reverse lights/turn signal lights inoperative. Automatic high-beam headlights broken/not working.

Engine Fuel Consumption	
Engine Fuel consumption	Fuel consumption is worse than expected.

Vehicle exhibits poor handling when driving on snow/ice	
Please indicate how poorly the vehicle performed:	Handling is much worse than expected.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Hood	
Hood	Hood latch is broken/not working properly.

Cruise control system is broken/not working	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate what type of trouble was experienced with the cruise control system (check all that apply):	Adaptive Cruise Control (ACC) allows too much distance between vehicles. Adaptive cruise control sometimes does not sense car in front of the vehicle and sometimes it slows with nothing in front of the vehicle. Speed setting hold down for 5mph intervals turns off adaptive cruise control and service message is displayed

Antifreeze/coolant	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	$100-$499.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	12-18 months into ownership.

Steering and Handling	
Steering and Handling	Vehicle pulls noticeably to the left/right.

Noise and Vibration	
Noise and Vibration	Vehicle vibrates excessively at idle.

Hood latch is broken/not working properly	
Additional Comments:	Good latch misaligned causing alarm to keep going off unless left unlocked problem rectifyed by opening and closing hood multiple times
Please describe conditions when this trouble occurs:	Randomly
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.

Navigation system works, but traffic information doesn.t work / or is difficult to understand	
Additional Comments:	Traffic information is very sporadic and when it does show is vague or hard to get to
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information does not display at all. Traffic information displays, but is difficult to read. Traffic information displays, but is inaccurate.

Blind spot monitoring/warning system is broken/not working	
Approximate mileage when trouble was first noticed was:	10,000-19,999.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Please indicate the trouble you experienced with the blind spot monitoring/warning system (check all that apply):	System sometimes randomly illuminates when nothing is next to it
How often does this trouble occur?	Trouble occurs intermittently.

Brake rotors/drums - rear	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	9-12 months into ownership.
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Engine Components	
Engine Components	Air filter. Antifreeze/coolant.

Odor/smell	
Odor/smell	Air from vents smells moldy/stale.

Features/Controls/Displays Components	
Features/Controls/Displays Components	Airbag sensor. Back-up camera.

Bluetooth streaming audio works, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Shuffle songs does not work

Interior lights	
Interior lights	Dome/map/interior lights broken/not working.

Vehicle exhibits poor steering on snow/ice	
Please indicate how severe the issue is:	Bought a jeep for winter weather driving and light off road

Reverse-Camera	
Reverse-Camera	Reverse-camera is broken/not working.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers are not loud enough. Speakers have poor sound quality.

AM/FM/HD/Satellite radio channels have poor or no reception	
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Usually when vehicle is started or when switching from radio bands go xm
Please indicate which frequency band has trouble (check all that apply):	System lags for 10's of minutes

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Pos system takes long to load and causes system to freeze

Steering, Handling, and Ride Components	
Steering, Handling, and Ride Components	Alignment.

Brake Operation	
Brake Operation	Brake pedal feels mushy/soft. Brakes do not have enough stopping power; brake pedal requires too much effort.

Cruise control system	
Cruise control system	Cruise control system is broken/not working.

Engine Power	
Engine power	Engine loses power when air conditioning is on.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	System does not work and has false alarms that activate breaks when nothing is in front of the vehicle

SD media slot issues	
SD media slot issues	SD media slot is broken/not working.

Transmission Noises	
Transmission Noises	Transmission makes abnormal/excessive noises.

Navigation system works, but missing information; has incorrect information; gives wrong directions

Additional Comments:	Navigation can't be started by a passenger while car is driving - a joke! Plus overall the system is incredible slow.
Please indicate which of the following best describes your concern (check all that apply):	Navigation is less accurate than waze or TomTom

Remote phone/email notifications are broken/not working

Additional Comments:	See previous comment: notifications must be more than just "command sent"
Do you recall your cellular coverage at the time?	Full cellular coverage.
Please describe the trouble you experienced (check all that apply):	Notifications don't really provide vital information

Touchscreen Controls/Menu: Front Screen Display: Other Concerns

Additional Comments:	The touchscreen feels slow, not as precise and reactive as the one on my phone/tablet
Please describe the other trouble you experienced:	Very slow, don't responds as crisp as they should
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Always

Overview

Please provide feedback on how Chrysler can improve the Smartphone Application	This should be my full information app to my car, give me every status update on it and make everything available in my palm.
Information in the Smartphone Application is easy to find and access	1 (strongly disagree).
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
Please provide feedback on how Chrysler can improve the Printed User Guide	Provide an online, searchable version via the UConnect
Printed User Guide format is easy to understand and use	4 (agree).
Did you review the Owner's Information DVD?	No.
Would you recommend this vehicle to family or friends?	Yes.
What information did you need that was not included in the Smartphone Application?	Status of my car, is it locked? Is it running? Where is it? Etc etc
Please rate your overall level of satisfaction with the Printed User Guide	2 (dissatisfied).
Was there information needed that was not included in the User Guide?	Yes, details about the wiper blades and what tires can be used with each model
Smartphone Application covers the necessary features	1 (strongly disagree).
Information in the Printed User Guide is easy to find and access	2 (disagree).
The Smartphone Application format is easy to understand and use	2 (disagree).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Did you review the Printed User Guide?	Yes.
Please explain further about your choice to recommend your vehicle:	But close to say NO, there are a few aspects which need changes/improvement otherwise I wouldn't buy a jeep again nor would I recommend it to my friends
Please rate your overall level of satisfaction with the Smartphone Application	1 (very dissatisfied).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
	Yes.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Wifi Hot Spot Connection has intermittent connection	
Please describe the trouble you experienced:	To slow - not even LTE, much to expensive
Please select which securities you have enabled on your phone (check all that apply):	WPA2.
Additional Comments:	To slow - not even LTE - much to expensive
Do you recall your cellular coverage at the time?	Full cellular coverage.
How often does this trouble occur?	Trouble occurs regularly.

About You

Primary vehicle you were considering:	2014. BMW. Primary Considered Vehicle: New. X5.
Price	4.
Vehicle fuel economy	4.
Which, if any, influenced your purchase decision? (check all that apply):	Automotive magazines. Previous experience with the vehicle/brand. Value for the money. Vehicle test drive. Consumer Reports ratings.
Please indicate your ethnicity	[redacted]
What is your current marital status?	Married.
Secondary vehicle you were considering:	Mercedes-Benz. 2014. M-Class. Secondary Considered Vehicle: New.
Did you purchase or lease your vehicle?	Purchase.
When considering this vehicle	Research online. Visit the dealership.
Which of the following best describes the area you live in?	Suburban.
What year were you born?	[redacted]
What is your total household income (before taxes)?	$150,000 - $199,999.
Financing options	1.
Please indicate your highest education level	Graduate degree.
Please indicate your occupation.	Owner / Proprietor.
Vehicle performance	4.
Please indicate the primary driver's age.	[redacted]
Trade-in allowance	1.
How may children 17 or under live in your household?	1-2.
Vehicle availability	4.
Vehicle styling	4.
Dealership treatment	5.
Vehicle quality	5.
Please indicate your occupation status.	Employed.
What is your primary language?	English.
Please indicate your gender	[redacted]
Is this your first new vehicle ever purchased / leased?	No.
Ability to test drive	1.
Convenience of dealership location	2.

Text messaging works properly, but is difficult to understand/use

Please indicate which of the following best describes your concern (check all that apply):	To limited, iOS 8 / iPhone not fully supported
Please describe the trouble you experienced (check all that apply):	No support for iPhone, ridiculous.

Vehicle Issues/Things Gone Wrong

Continuous Quality Insight	Features/Controls/Displays. Engine. Entertainment/Navigation System/Connectivity.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location

Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Reacts not fast enoug

Remote Features

Remote Features	Remote vehicle start is broken/not working. Remote phone/email notifications are broken/not working.

Wifi Hot Spot Connection

Wifi Hot Spot Connection	Wifi Hot Spot Connection has intermittent connection.

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	Iphone
If known, please tell us your software version	Ios 8.1
Please choose your cell phone carrier	AT&T Mobile.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Opening the engined hood and seeing rust on a brand new car... Not what I want to see = questions about the choice of material

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Would love to know if items like the app, features of the remote control and mobile connectivity will see a software update or only be added to new vehicles
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Fuel consumption is worse than expected	
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	No.
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Where do you do most of your driving?	Combination of city/highway driving.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Points of Interest not well defined. Navigation system works, but missing information; has incorrect information; gives wrong directions.

Uconnect Access	
Uconnect Access	Remote Features.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	0-999.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	Can't find POI as easy and as complete as in other systems (e.g. Waze/ TomTom

What Can We Do Better?	
Feedback/Concerns:	See previous comments

Voice Recognition feature does not have enough functions available	
Please describe additional functions you would like to have:	Should just use/support Siri

Remote vehicle start is broken/not working	
Additional Comments:	There is no feedback if the command was successful and the car in fact has locked/unlocked or started. Even worse, there is no way to check the current state of my car - like is it locked? Is it running? There is zero information except for a message that the command was sent... but what now? No updates, no way to check the status?
Do you recall your cellular coverage at the time?	Full cellular coverage.
Please indicate which method was used for remote vehicle start (check all that apply):	Didn't work Didn't work
How long was your vehicle parked before activating the remote vehicle start?	Less than 1 week.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Touchscreen Controls

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front Screen Display: Other Concerns.

Via Mobile	
Via Mobile	Via Mobile works properly, but is difficult to understand/use.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition feature does not have enough functions available.

Via Mobile works properly, but is difficult to understand/use	
Additional Comments:	Via mobile should be available for everything, limitation to some apps does not make sense
Please indicate which of the following best describes your concern (check all that apply):	Limited to some applications
Please indicate which feature(s) of Via Mobile are difficult to understand/use (check all that apply):	Pandora.

Engine Fuel Consumption	
Engine Fuel consumption	Fuel consumption is worse than expected.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Smartphone Application covers the necessary features	4 (agree).
Was the trouble resolved to your satisfaction?	No.

Detail on Low Rated Items	
You rated the value of your new car Low. Use this space to provide any specific comments you would like to share.	I paid for a lot of features that do not work
You rated difficult driving conditions (adverse weather, off-road) Low. Use this space to provide any specific comments you would like to share.	Poor handling on snow/ice/winter
You rated headlight illumination/performance during night-time driving Low. Use this space to provide any specific comments you would like to share.	Auto dimming feature doesn't work
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Auto dimming, text messaging, collision avoidance, gas cap, handling, braking, glove boxes, interior noise
You rated steering and handling (responsiveness, stability) Low. Use this space to provide any specific comments you would like to share.	Poor handling in winter conditions
You rated your attitude about the brand of your new car Low. Use this space to provide any specific comments you would like to share.	Too many issues with vehicle
You rated your attitude overall towards your new car Low. Use this space to provide any specific comments you would like to share.	All of these issues with my jeep have made me distrust the vehicle.
You rated navigation system route accuracy Low. Use this space to provide any specific comments you would like to share.	Inaccurate.
You rated your feelings about the durability of your new vehicle Low. Use this space to provide any specific comments you would like to share.	Ive had so many issues with my vehicle even after servicing that I do not trust my vehicle
You rated brake responsiveness/effort Low. Use this space to provide any specific comments you would like to share.	Too long to brake

Text messaging broken/not working	
Additional Comments:	Text messaging feature has never worked with my vehicle. I've had the apple 4s and 6plus. Neither phone has worked with this feature.
Please describe the trouble you experienced (check all that apply):	Unable to receive audible notifications.
	Unable to receive visual notifications.
	Cannot hear playback audio.
	Text is not displayed on screen.
	Unable to return call to text sender.
	Unable to send/reply/forward text using a pre-formatted response.
	Unable to send/reply/forward text via voice recognition.
	Voice Command (VR button on steering wheel) does not recognize input.
	Sender information is not displayed.
	Sender information was incorrect or jumbled.
	Text audio playback does not pronounce text correctly.
	Voice Command (VR button on steering wheel) cut off before I was finished.
	Voice Command (VR button on steering wheel) takes too long to respond.
	Voice recognition playback does not work.
Did this trouble occur after starting the vehicle?	Yes.
Do you have the Uconnect Access free form speech option?	Yes.
How often does this trouble occur?	Trouble occurs regularly.

Vehicle pulls noticeably to the left/right	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Vehicle pull is:	Moderate.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.
Trouble occurs while traveling at these speeds (check all that apply):	Medium speeds (26-45 MPH). High speeds (46 MPH and above).
Are you using your vehicle for towing when the problem occurs?	No.
What direction does the vehicle pull when driving?	Both Left and Right - Varies with conditions.
Trouble occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions.

Center console is difficult to open/close	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate why the center console is difficult to open/close (check all that apply):	Latch/lock operation.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to open.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Blind spot monitoring/warning system is broken/not working	
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Please indicate the trouble you experienced with the blind spot monitoring/warning system (check all that apply):	Occurs regularly when nothing is in my blind spot. It's happened in my own driveway and when no other vehicles are around me.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Nothing stands out
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Lights	
Lights	Automatic headlights broken/not working. Headlights aimed incorrectly. Adaptive front lighting system broken/not working. Automatic high-beam headlights broken/not working.

Displays and Instruments	
Displays and Instruments	Blind spot monitoring/warning system is broken/not working. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Dents/dings were present on exterior body panels at delivery.

Fuel door difficult to open/close	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to open.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Please indicate where the fuel door trouble occurs:	Fuel filler door release lever/cable.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
How often does this trouble occur?	Trouble occurs intermittently.

Automatic high-beam headlights broken/not working	
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	Turns, hills, approaching vehicles After turns, after hills , after vehicles pass
Please describe conditions when this trouble occurs:	Always
Additional Comments:	Vehicle was serviced for this. Continues to happen

Excessive wind noise	
Please indicate the location of the wind noise (check all that apply):	Driver's side front door. Passenger's side rear window. Passenger's side rear door. Driver's side front door window. Passenger's side front door. Passenger's side front door window. Passenger's side rear door window.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Additional Comments:	I've had my 2014 Jeep GC Overland in the service dept several times. Problems continue. This is not right for a brand new car. I'm very dissatisfied.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Adaptive front lighting system broken/not working	
Please indicate which headlight is not working properly (check all that apply):	Driver's side headlight. Passenger's side headlight.
Please indicate the trouble experienced with the Adaptive Front Lighting System (check all that apply):	Headlights do not reset to normal position. Does not track properly while turning left. Does not track properly while turning right. Does not track properly while going downhill. Does not track properly while going uphill.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe conditions when this trouble occurs:	All the time
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Trim/Storage/Windows. Seats. Steering, Handling, and Ride. Engine. Off-Road. Transmission and Drivetrain. Brake System. Interior Climate Control. Vehicle Exterior. Entertainment/Navigation System/Connectivity. Features/Controls/Displays.

Headlights aimed incorrectly	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please indicate which headlight is not aimed properly (check all that apply):	Daytime running light not working. Brought to service dept 3 times. Still not working
Approximate mileage when trouble was first noticed was:	8000 miles or above.

Squeak/rattle/abnormal noises from glove box	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe in the box below where from the glove box the trouble with abnormal noises is located:	The door
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Abnormal Noises	
Abnormal Noises	Squeak/rattle/abnormal noises from glove box. Squeak/rattle/abnormal noises from center console.

Text Messaging

Text Messaging	
Text Messaging	Text messaging broken/not working.

Steering and Handling	
Steering and Handling	Vehicle pulls noticeably to the left/right.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	507.226.3085

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	4s, 6plus
Please choose your cell phone brand	Apple.
If known, please tell us your software version	Latest version
Please choose your cell phone carrier	Verizon Wireless.

What Can We Do Better?	
Feedback/Concerns:	I'm concerned that my issues continue to occur even after multiple servicing appts. I would like to pursue a buy back or vehicle trade. I'm convinced I have a lemon. If this is consistent with all Jeep GC then I will not buy one again nor will I recommend
What has Chrysler done right?	Taken my calls. Attempted servicing the vehicle. AJ Sawrey has been pleasant to deal with.

Welcome	
Please tell us how many miles are currently on your vehicle:	7,000-9,999.
Are you the primary driver of this vehicle?	Yes.

Vehicle exhibits poor braking when driving on snow/ice	
Please indicate how poorly the vehicle performed:	Takes too long to stop
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
	Downhill.
Trouble occurs at these speeds (check all that apply):	When braking at medium speeds (>20 MPH).
	All speeds.
	When braking at very low speeds (0-10 MPH).
	When braking at low speeds (11-20 MPH).
Additional Comments:	I wanted a vehicle for winter conditions. Very disappointed in its performance.
How often does this trouble occur?	Trouble occurs regularly.
Please describe the nature of the poor braking issue you experienced (check all that apply):	The level of braking is not as expected.

Engine Starting (hard to start/will not start)	
Engine Starting (hard to start/will not start)	Engine will not start at all.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working.

Vehicle exhibits poor handling when driving on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Additional Comments:	Vehicle doesn't handle on snow as well as expected. Slips
How often does this trouble occur?	Trouble occurs regularly.
Please indicate how poorly the vehicle performed:	Handling is somewhat worse than expected.
Please describe the nature of the poor handling:	The amount of steering corrections required make it difficult to make vehicle travel on the desired path around a corner.
Trouble occurs at these speeds (check all that apply):	30-40 mph

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions.
Please indicate which of the following best describes your concern (check all that apply):	I've ended up at the wrong address multiple times. Not even on he correct street!

Navigation system works, but missing information; has incorrect information; gives wrong directions

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	Audible alert sounds inappropriately and inconsistently

Dents/dings were present on exterior body panels at delivery	
Additional Comments:	Vehicle was covered in sap that had hardened on the vehicle. The interior carpet was dirty. The car was brought to dealer to have cleaned

Operation and Functionality	
Operation and Functionality	Center console is difficult to open/close.

Media	
Media	Radio.

Front seat audio/entertainment/navigation controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	Lost preset stations four times. Brought in for servicing
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	Lost stations four times

Vehicle Performance driving on Snow/Ice	
Vehicle Performance driving on Snow/Ice	Vehicle exhibits poor braking when driving on snow/ice. Vehicle exhibits poor handling when driving on snow/ice.

Wind Noise	
Wind Noise	Excessive wind noise.

Fuel filler door/cap	
Fuel filler door/cap	Fuel door difficult to open/close.

Uconnect Access	
Uconnect Access	Remote Features.

Overview	
Smartphone Application covers the necessary features	5 (strongly agree).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
What information did you need that was not included in the Smartphone Application?	A map of where the vehicle is parked/located would be very handy. Being able to have vehicle settings based on a specific smartphone being in the vehicle would also be very beneficial.
Please explain further about your choice to recommend your vehicle:	

Overview	
	The vehicle rides exceptionally well. The diesel engine and mileage has exceeded expectations. Great vehicle.
Please provide feedback on how Chrysler can improve the Smartphone Application	The application needs to have the ability to pull up a map of where the vehicle is located. Additionally, it would help if the vehicle could send diagnostic information to the phone so that you could review more specific information about what maybe causing a check engine light or why a particular error message has popped up. Also, it takes a WHILE the application to turn the vehicle on. It usually takes upwards of 5 minutes for the application to turn the jeep on remotely. Of which, I've already made it to the vehicle and i'm on my way.
Which automotive publications do you subscribe to? (check all that apply)	Overland Journal
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Please rate your overall level of satisfaction with the Smartphone Application	5 (very satisfied).
What have you used to view your DVD? (check all that apply)	Computer/laptop.
Printed User Guide covers the necessary features	4 (agree).
DVD format is easy to understand and use	4 (agree).
Information on the DVD is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the DVD	4 (satisfied).
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Would you recommend this vehicle to family or friends?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake control is poorly located.
	Hand brake/parking brake requires too much effort to apply/release.

Heated Steering Wheel	
Heated Steering Wheel	Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle exhibits poor steering on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Please indicate how severe the issue is:	Steering, vehicle control is not as smooth as I'd like for the advanced systems that are in the jeep. Can easily fishtail, slide in the jeep.
Trouble occurs at these speeds (check all that apply):	When maneuvering at very low speeds (0-5 MPH).
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Off-Road.
	Features/Controls/Displays.
	Brake System.

Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate why the heated steering wheel is difficult to understand/use; controls in a poor location (check all that apply):	The heated steering wheel gets too hot sometimes.
Additional Comments:	The heated steering wheel needs to have a automatic cutoff after so many minutes. It can get exceptionally warm/hot and is usually not noticed until

Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location	
	I'm on the highway causing me to turn my attention away from driving the vehicle and to turning off the heated steering wheel.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	The collision avoidance system often reacts to my vehicle closing on vehicle that is turning (right). I understand what it's doing but the system activates when I'm fully aware of the driving situation which puts me in a worse situation for a rear-ending than a forward collision that i know I'm not about to have.
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Overall operation is irritating and could cause accidents

Features and Controls	
Features and Controls	Heated Steering Wheel. Interior lights. Reverse-Camera.

Vehicle exhibits poor traction on snow/ice	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
Trouble occurs at these speeds (check all that apply):	When driving at low speeds (11-20 MPH).
Please indicate how severe the issue is:	Somewhat worse than expected.
Please indicate the nature of the traction issue you experienced	The jeep just doesn't seem to have the right traction when it comes to snow/ice. Might be more with regards to the tires that are on the jeep from factory than anything else.
How often does this trouble occur?	Trouble occurs regularly.

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Dome/map/interior lights broken/not working	
Please indicate which interior light is the source of the trouble (check all that apply):	At some point, the blue in-laid lights in the door pull and cubby stopped working.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Hand brake/parking brake requires too much effort to apply/release	
Please describe what requires too much effort (check all that apply):	Releasing parking brake requires too much effort. The Grand Cherokee Overland that we bought is a luxury SUV. The parking break should not be a foot pedal version. Jeep should be using an advanced parking break system for this application.

Reverse-Camera	
Reverse-Camera	Reverse-camera works properly, but difficult to understand/use; controls in a poor location.

Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use	
Please indicate why the illumination/warning/indicator lights are difficult to understand/use; are in a poor location (check all that apply):	The buckle seatbelt indicator needs to be moved. it sits in a position that is directly behind the RPM indicator (1000-1500 RPMs). This could be easily solved by moving it up or down. When moving at low speeds at the start of a trip (going through neighborhood, you can only see a little bit of the buckle seatbelt light).

Detail on High Rated Items	
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	We're jeep people, we love our jeeps. This Grand Cherokee was our sixth jeep.

Interior lights	
Interior lights	Dome/map/interior lights broken/not working.

Displays and Instruments	
Displays and Instruments	Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle Performance driving on Snow/Ice	
Vehicle Performance driving on Snow/Ice	Vehicle exhibits poor traction on snow/ice. Vehicle exhibits poor steering on snow/ice.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Hand brake/parking brake control is poorly located	
Why is the parking brake poorly located? (check all that apply):	it's annoying.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	computer/controls/entertainment system and overall quality (recalls)

Touchscreen Controls/Menu: Front Screen Display is broken/not working

Additional Comments:	whole entertainment system will lock up. Sometimes it will reboot itself multiple times, other times it just locks up and I can't use anything.
Please indicate your concern with front screen display (check all that apply):	whole entertainment system will lock up. Sometimes it will reboot itself multiple times, other times it just locks up and I can't use anything.
Please describe conditions when this trouble occurs:	randomly. VERY Annoying
How often does this trouble occur?	Trouble occurs intermittently.

Hands-Free Phone / Bluetooth system loses connection

Additional Comments:	whole entertainment system will reboot multiple times.
Lost connection problem happens when:	In the middle of a call.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.
Is there more than one phone paired to the vehicle?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Were you in the middle of a call?	Yes, and did not transfer call to headset.

About You

What is your total household income (before taxes)?	$150,000 - $199,999.
How may children 17 or under live in your household?	1-2.
Please indicate your ethnicity	[redacted]
Which of the following best describes the area you live in?	Suburban.
Please indicate your occupation.	[redacted]
What year were you born?	[redacted]
Please indicate your highest education level	4 year college degree.
Primary vehicle in your household:	Azera. Primary Household Vehicle: Purchased New. 2013. Hyundai.
What is your primary language?	English.
Did you purchase or lease your vehicle?	Purchase.
What is your average miles per gallon (MPG) with your vehicle?	19-20 mpg.
Please indicate your occupation status.	Employed.
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]

Other component(s) replaced (not listed previously)

Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to a different dealer than the one I purchased my vehicle from.
Which other component(s) did you replace?	Been in for recalls 3 times and for other issues (mostly with the computer) 3 other times.
How much did the replacement cost?	Under $100.

Air from vents smells moldy/stale	
Approximate mileage when trouble was first noticed was:	20,000-29,999.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate when the odor/smell is present (check all that apply):	Odor is noticeable when any of the air conditioner, heater, or defroster functions are used.

Air conditioner never gets cold enough	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	All weather conditions.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.

Operation and Performance	
Operation and Performance	Air conditioner never gets cold enough.

Touchscreen Controls	
Touchscreen Controls	Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working. Touchscreen Controls/Menu: Front Screen Display: Other Concerns. Touchscreen Controls/Menu: Front Screen Display is broken/not working.

Overview	
Would you recommend this vehicle to family or friends?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Royal Gate Dodge in Ellisville, MO
Was the trouble resolved to your satisfaction?	Yes.
Please explain further about your choice to recommend your vehicle:	The electronics/infotaiment system has SERIOUS issues. Have had numerous recalls already. For $50K you would expect to have better quality. Unless something changes I wouldn't recommend or buy another Jeep.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
Please describe when this trouble occurs:	When stating a name.
How often does this trouble occur?	Trouble occurs intermittently.
What button did you use?	steering wheel

Front seat audio/entertainment/navigation controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	Other (please describe). Audio controls (bass, treble, fade, balance, etc.). Navigation system controls. Radio band/mode selection controls. Radio channel preset buttons. Tuner control. Power on/off, volume dial. Seek/scan/program/repeat/random/auto memory controls.
Additional Comments:	whole entertainment system will lock up. Sometimes it will reboot itself multiple times, other times it just locks up and I can't use anything.

Other Components	
Other Components	Other component(s) replaced (not listed previously).

Hands-Free Phone / Bluetooth system phonebook does not work correctly	
Please indicate which aspect of the phonebook does not work properly (check all that apply):	Phonebook contacts are missing or incorrect.
How often does this trouble occur?	Trouble occurs intermittently.
Did you refer to the voice tutorial, phone tutorial and voice training when experiencing hands-free phone/Bluetooth system issues?	I did, but it didn't address all my questions.
How many contacts do you have in your phone?	25-499.

Navigation system freezes-up/will not work	
How often does this trouble occur?	Trouble occurs intermittently.

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	When stating a name.
What button did you use?	steering wheel
How often does this trouble occur?	Trouble occurs intermittently.

Points of Interest incorrect	
Additional Comments:	same as last comment

What Can We Do Better?	
Feedback/Concerns:	

What Can We Do Better?	
	Serious quality concerns with the vehicle. Disappointed in the vehicle. I think it is a great car, looks great, drives great, but has some serious quality problems.

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	whole entertainment system will lock up. Sometimes it will reboot itself multiple times, other times it just locks up and I can't use anything.
How often does this trouble occur?	Trouble occurs intermittently.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Won't find known/common points of interest
Additional Comments:	can't search for locations by zip code?? Why not?

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location

Additional Comments:	i don't like the way it works. its very difficult to tell if it is working and would like to be alerted more frequently, but with a less aggressive alert. You guys should test drive a porsche cayenne to see how it functions - when it gets close to other cars it lets you know.

Shifting paddles/buttons difficult to operate

Additional Comments:	I wish i could shut this feature off. The paddles are unnecessary and a source of frustration. If they could be shut off, it would make driving this car better.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

About You

Ability to test drive	1.
Vehicle quality	3.
Primary vehicle you were considering:	BMW. Primary Considered Vehicle: New. X5. 2014.

Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Seats. Features/Controls/Displays.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Needs body side moulding

Detail on High Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	The upper end vehicles need body side moulding

Features and Controls	
Features and Controls	Cruise control system.

Other Components	
Other Components	Other component(s) replaced (not listed previously).

Welcome	
Please tell us how many miles are currently on your vehicle:	30,000-39,999.
Are you the primary driver of this vehicle?	Yes.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Seat Belts	
Seat Belts	Seat belt locks at inappropriate times or not at all; will not retract properly.

What Can We Do Better?	
What has Chrysler done right?	Your V8 is much better that the V6. I traded my 2013 V6 grand Cherokee in because it spent to much time in the shop, lemon I believe. I purchased the V8 and have had no engine issues.

Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Detail on High Rated Items	
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	When I press hard on gas pedal it performs, for passing, avoiding collision, joining traffic on freeway on ramp
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I'd like greater heat in seats. I have a bad back, long drives the seat heater makes it palatable. Unfortunately the seat decides when the heater shuts off. It's anjoying to have to keep checking the dashboard controller and see if the damn seat has stopped heating.

Headlights not bright enough	
Please describe the trouble you experienced:	I'm used to my BMW 7 series sedan with excellent forward lighting. The headlamps on the Jeep really don't compare.
Additional Comments:	Light is safety fir the driver visual acuity and passenger safety.
Please describe conditions when this trouble occurs:	Nighttime

Wind Noise	
Wind Noise	Excessive wind noise.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays.
	Vehicle Exterior.
	Entertainment/Navigation System/Connectivity.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Wrong roads, non existent roads, ended up using my iPhone and iPad maos and google maps to get where we needed to go
	Travelled to Oregon on house hunting trip. Several times the device tried to take us to roads that didn't exist.
Please indicate which navigation system item has trouble (check all that apply):	See above

Overview	
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Was the trouble resolved to your satisfaction?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location	
	Poor fuels indicator is valueless.

Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location	
Please indicate why the fuel gauge/low fuel warning light controls/displays are difficult to understand/use; are in a poor location (check all that apply):	
Additional Comments:	See comments under prior screen

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front Screen Display: Other Concerns. Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	An awful lot of plastic in a sixty thousand dollar vehicle.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	Fuel indicator of "poor fuel" comes on intermittently, no matter best quality (national brands) high test or mid range in flex fuel vehicle. Lack of gas "cap" makes me wonder what the system is sampling to decide when this light is supposed to come on. Collision alert comes in WAY too late. AND has signaled when no collision was either imminent nor possible. Frankly it's a nuisance in high speed high volume traffic such as Los Angeles

Brakes pull noticeably to the right/left in normal use	
Please describe conditions when this trouble occurs:	At any time.
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	See above
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Crash Mitigation Activates at random speeds.
Trouble with brakes occurs during this type of braking (check all that apply):	The Crash Mitigation System appearrs to be faaulty and slams on the brakes at random with no visible threat.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	The crash mitigation is faulty. Considering law suit.
What direction does the vehicle pull when braking?	Both Left and Right - Varies with conditions.
Vehicle pull is:	Severe.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
How often does this trouble occur?	Trouble occurs regularly.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	I would like you to contact my wife at [redacted] and apologize for the vehicles faulty crash mitigation system. She was driving on the highway when, without warning the vehicle just slammed on the brakes and scared the shit out of her. She pulled over and was shaking for quite some time. She called the vehicles on board assistance and reported the incident. The rep could not give her any information on how to proceed. She then called me here in Afghanistan. I asked if she could park the vehicle and get a ride home. She could not so I had her shut off the crash mitigation system manually from the dashboard controls. The resulting traumatic stress has her nervous and uncomfortable driving the vehicle. I would additionally like to have a certified technician/engineer from corporate take a look at the vehicle and recommend a course of action as the local dealership mechanics made the comment that they have only been recently certified and have zero experience working with this vehicle and its systems (again, total loss of confidence). I would like to prevent legal action if possible however if Chrysler, Dodge, Jeep, Fiat Corporation continues to fail me and show lack of empathy I will have no choice in the matter bu to seek legal counsel.
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Overview	
Was there information needed that was not included in the User Guide?	no comment.
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Which automotive publications do you subscribe to? (check all that apply)	Motor Trend. Road and Track. Car and Driver. Consumer Reports ratings.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied. Yes.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	
Information in the Printed User Guide is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	4 (agree).
Did you review the Owner's Information DVD?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took the vehicle to local dealership, however the issue has not been fixed as there have been delays in scheduling an appoinment.
Did you review the Printed User Guide?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Printed User Guide format is easy to understand and use	4 (agree).
Which feature or section of the Smartphone Application did you find least helpful and why?	Lack of detailed engine an vehicle performance info.
Please provide feedback on how Chrysler can improve the Smartphone Application	The Smart Phone application UCOnnect" is very basic. Hackers can currently hack my vehicle and control more features than are offered with Uconnect. It would be benificial if the Uconnect/Smart phone system allowed control over more vehcile features as well as information regarding Make, Model, Odometer Reading, Vin#, GPS Tracking, detailed Engine Performance Information, Service Records, Etc.
Please explain further about your choice to recommend your vehicle:	The vehicle is highly unsafe. Researching law firms to decide on the best legal action to take against Jeep for the poor product and poor customer satisfaction and lack correspondence and communication.
Printed User Guide covers the necessary features	4 (agree).
The Smartphone Application format is easy to understand and use	4 (agree).
Would you recommend this vehicle to family or friends?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Please provide feedback on how Chrysler can improve the Printed User Guide	no comment.
Which feature or section of the Printed User Guide did you find most helpful and why?	no comment.
Which feature or section of the Printed User Guide did you find least helpful and why?	no comment.
Which feature or section of the Smartphone Application did you find most helpful and why?	Unlocking Vehicle and Remote Start.
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Was the trouble resolved to your satisfaction?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	0-999.

Detail on Low Rated Items	
You rated your attitude about the brand of your new car Low. Use this space to provide any specific comments you would like to share.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.
You rated your attitude overall towards your new car Low. Use this space to provide any specific comments you would like to share.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.
You rated your purchasing experience (at the dealer/dealership) Low. Use this space to provide any specific comments you would like to share.	Working with the dealership was a nightmare. Customer support and even corporate representation was equally unimpressive. Multiple delays and lack of information on the delivery of our vehicle was just plain unsatisfactory.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.

What Can We Do Better?	
What has Chrysler done right?	The 2015 Jeep Grand Cherokee Overland has many excellent features such as off-road capabilities, convienience packages, Uconnect system, and an excellent infotainment system that is intuitive.
Feedback/Concerns:	We need to resolve these issues with this Jeep. I am currently deployed overseas and the additional frustrations of a faulty vehicle have be very concerned for my wife's safety. I expect assistance in getting this matter resolved.

Brake Operation	
Brake Operation	Brakes pull noticeably to the right/left in normal use.

Engine Noise (abnormal)	
Engine Noise (abnormal)	Engine makes abnormal/excessive noises.

Engine Power	
Engine power	Engine power is less than expected.

Please indicate your ethnicity	[redacted]
Secondary vehicle in your household:	Mazda. 626. Secondary Household Vehicle: Purchased Used.
Primary vehicle you were considering:	Range Rover. Land Rover. 2014. Primary Considered Vehicle: New.
When considering this vehicle	Research online. Interact with dealership by phone. Interact with dealership by email. Test drive the vehicle. Visit the dealership.
Dealership treatment	3.
Ability to test drive	4.
Please indicate the primary drivers age.	[redacted]
Vehicle performance	5.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.
What price did you pay for your vehicle?	Abaout $52,000
Convenience of dealership location	1.
Financing options	1.
Please tell us about the vehicle you replaced (if applicable)	3-Series. Replaced Vehicle: Purchased New. BMW.
Vehicle availability	4.
Vehicle styling	4.
What year were you born?	Florida, USA
Please indicate your occupation status.	Employed.
Please indicate your gender	[redacted].
What is your current marital status?	[redacted]

About You

Trade-in allowance	1.
What is your average miles per gallon (MPG) with your vehicle?	23-24 mpg.
Primary vehicle in your household:	3 Series. BMW. 2005. Primary Household Vehicle: Purchased Used.
Please indicate your highest education level	4 year college degree.
Price	5.
Vehicle quality	5.
Vehicle fuel economy	5.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Urban.
What is your primary language?	English.
How may children 17 or under live in your household?	0.
What is your total household income (before taxes)?	More than $200,000.
Please indicate your occupation.	Professional Specialty.

Other

How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe the other trouble you experienced:	No other trouble at this time, with the exception of the disappointing radial tires. The vehicle was listed as "Trail Rated" and off-road capable however the tires are inferior off-road tires.
Please describe conditions when this trouble occurs:	See above.
To the best of your recollection, the trouble was first noticed:	At delivery.

Engine power is less than expected

How often does this trouble occur?	Trouble occurs regularly.
What type of fuel do you most often put into your vehicle?	Diesel.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	Standard driving conditions.
Does trouble only occur when vehicle is carrying multiple passengers and/or heavy cargo?	Yes.
Trouble occurs while vehicle is (check all that apply):	Engine has less power than expected through full range.
To the best of your recollection, the trouble was first noticed:	At delivery.

Fuel consumption is worse than expected

How often does this trouble occur?	Trouble occurs regularly.
Where do you do most of your driving?	City/freeway rush hour driving (stop and go driving with a variety of speeds below 45 mph).
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	The vehicle fails to deliver on the advertised 30mpg highway and 25 city miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
What type of fuel do you most often put into your vehicle?	Diesel.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	No.
Please describe conditions when this trouble occurs:	Normal driving conditions.
Are you using your vehicle for towing when the problem occurs?	No.

Overview

Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	Motor Trend. Road and Track. Car and Driver. Consumer Reports ratings.
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Was there information needed that was not included in the User Guide?	no comment.

Overview	
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Please provide feedback on how Chrysler can improve the Printed User Guide	no comment.
Which feature or section of the Printed User Guide did you find most helpful and why?	no comment.
Which feature or section of the Printed User Guide did you find least helpful and why?	no comment.
Which feature or section of the Smartphone Application did you find most helpful and why?	Unlocking Vehicle and Remote Start.
Was the trouble resolved to your satisfaction?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Which feature or section of the Smartphone Application did you find least helpful and why?	Lack of detailed engine an vehicle performance info.
Please provide feedback on how Chrysler can improve the Smartphone Application	The Smart Phone application UCOnnect" is very basic. Hackers can currently hack my vehicle and control more features than are offered with Uconnect. It would be benificial if the Uconnect/Smart phone system allowed control over more vehcile features as well as information regarding Make, Model, Odometer Reading, Vin#, GPS Tracking, detailed Engine Performance Information, Service Records, Etc.
Please explain further about your choice to recommend your vehicle:	The vehicle is highly unsafe. Researching law firms to decide on the best legal action to take against Jeep for the poor product and poor customer satisfaction and lack correspondence and communication.
Printed User Guide covers the necessary features	4 (agree).
The Smartphone Application format is easy to understand and use	4 (agree).
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Would you recommend this vehicle to family or friends?	No.
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	4 (agree).
Did you review the Owner's Information DVD?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took the vehicle to local dealership, however the issue has not been fixed as there have been delays in scheduling an appoinment.
Did you review the Printed User Guide?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	I would like you to contact my wife at ([redacted] and apologize for the vehicles faulty crash mitigation system. She was driving on the highway when, without warning the vehicle just slammed on the brakes and scared the shit out of her. She pulled over and was shaking for quite some time. She called the vehicles on board assistance and reported the incident. The rep could not give her any information on how to proceed. She then called me here in Afghanistan. I asked if she could park the vehicle and get a ride home. She could not so I had her shut off the crash mitigation system manually from the dashboard controls. The resulting traumatic stress has her nervous and uncomfortable driving the vehicle. I would additionally like to have a certified technician/engineer from corporate take a look at the vehicle and recommend a course of action as the local dealership mechanics made the comment that they have only been recently certified and have zero experience working with this vehicle and its systems (again, total loss of confidence). I would like to prevent legal action if possible however if Chrysler, Dodge, Jeep, Fiat Corporation continues to fail me and show lack of empathy I will have no choice in the matter bu to seek legal counsel.

Vehicle Satisfaction Ratings	
Steering and handling (responsiveness, stability)	5.

Engine makes abnormal/excessive noises	
Engine noise occurs while vehicle is (check all that apply):	See prior.
	See prior.
To the best of your recollection, the trouble was first noticed:	At delivery.
What type of fuel do you most often put into your vehicle?	Diesel.
Engine noise sounds like (check all that apply):	The 3.0 eco diesel engine sounds louder than expected but normal diesel clankiness.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Vehicle engine sounds louder than expected from start and for full range of engine throttle.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Engine sounds for this diesel engine are normal, just louder than expected and disconcerting.

Brakes pull noticeably to the right/left in normal use	
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	See above
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Crash Mitigation Activates at random speeds.
Please describe conditions when this trouble occurs:	At any time.
How often does this trouble occur?	Trouble occurs regularly.
Vehicle pull is:	Severe.

Brakes pull noticeably to the right/left in normal use	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
What direction does the vehicle pull when braking?	Both Left and Right - Varies with conditions.
Additional Comments:	The crash mitigation is faulty. Considering law suit.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble with brakes occurs during this type of braking (check all that apply):	The Crash Mitigation System appearrs to be faaulty and slams on the brakes at random with no visible threat.

Engine Fuel Consumption	
Engine Fuel consumption	Fuel consumption is worse than expected.

You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	No Comment.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	Would like to see an option to change LED color accent lighting.

Welcome	
Please tell us how many miles are currently on your vehicle:	0-999.
Are you the primary driver of this vehicle?	Yes.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.
You rated your attitude overall towards your new car Low. Use this space to provide any specific comments you would like to share.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.
You rated your purchasing experience (at the dealer/dealership) Low. Use this space to provide any specific comments you would like to share.	Working with the dealership was a nightmare. Customer support and even corporate representation was equally unimpressive. Multiple delays and lack of information on the delivery of our vehicle was just plain unsatisfactory.

Detail on Low Rated Items	
You rated your attitude about the brand of your new car Low. Use this space to provide any specific comments you would like to share.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.

Brake Operation	
Brake Operation	Brakes pull noticeably to the right/left in normal use.

Engine Noise (abnormal)	
Engine Noise (abnormal)	Engine makes abnormal/excessive noises.

Engine Power	
Engine power	Engine power is less than expected.

What Can We Do Better?	
What has Chrysler done right?	The 2015 Jeep Grand Cherokee Overland has many excellent features such as off-road capabilities, convienience packages, Uconnect system, and an excellent infotainment system that is intuitive.
Feedback/Concerns:	We need to resolve these issues with this Jeep. I am currently deployed overseas and the additional frustrations of a faulty vehicle have be very concerned for my wife's safety. I expect assistance in getting this matter resolved.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Brake System. Other. Engine.

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Not having finer adjustments to ride comfort or engine performance.

What Can We Do Better?	
What has Chrysler done right?	Putting the SRT-type engines in the GC.
Feedback/Concerns:	I want the Hellcat engine in a GC.

Seat Squeak/Rattle	
Approximate mileage when trouble was first noticed was:	10,000-19,999.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Please indicate which seat has a squeak/rattle (check all that apply):	around lumbar area it makes squeaking noises. Taken it in before but nothing was done.
Trouble occurs under these surface conditions (check all that apply):	Downhill.
	Sideslope.
	Uphill.
	Level Ground.
	Bumpy or uneven surface.
How often does this trouble occur?	Trouble occurs regularly.
Seat Squeak/Rattle	Seat Squeak/Rattle.

Brake rotors - front	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	$100-$499.
When was the replacement made on your vehicle?	12-18 months into ownership.

Sun visor	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	12-18 months into ownership.

About You	
What is your average miles per gallon (MPG) with your vehicle?	13-15 mpg.
What is your primary language?	English.
Primary vehicle in your household:	Grand Cherokee.
	Jeep.
	2014.
	Primary Household Vehicle: Purchased New.
Did you purchase or lease your vehicle?	Purchase.
Secondary vehicle in your household:	Secondary Household Vehicle: Purchased New.
	Sky.
	2009.
	Saturn.
Which of the following best describes the area you live in?	Suburban.
Please indicate your occupation status.	Employed.
Please indicate your occupation.	[redacted]
Please indicate your gender	[redacted]
How may children 17 or under live in your household?	0.
What is your current marital status?	[redacted]
Please indicate your highest education level	[redacted]

Abnormal squeaks/rattles/noises coming from rear side doors	
To the best of your recollection, the trouble was first noticed:	18-24 months into ownership.
Please describe conditions when this trouble occurs:	Going over speed bumps, the body twists a little and hear squeaking coming from around the pillar area
Approximate mileage when trouble was first noticed was:	10,000-19,999.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which rear door has abnormal noises (check all that apply):	Passenger's side rear door.

Brakes are excessively noisy	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Low speeds (1-25 MPH).
What does the noise sound like?	Squeak/squeal.
How often does this trouble occur?	Trouble occurs regularly.
What area of the vehicle is the brake noise coming from?	Front Brakes.
Please describe conditions when this trouble occurs:	Hear squealing hen lightly pressing brakes when going a few mph.
Additional Comments:	This happened several months after ownership. Had pads and rotors replaced 5k-6k miles ago and now squealing again.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Trouble with brakes occurs during this type of braking (check all that apply):	Hear squealing hen lightly pressing brakes when going a few mph.

Brake System Components	Brake booster. Brake pads - rear. Brake rotors/drums - rear. Brake rotors - front. Brake pads - front.

Seat Squeak/Rattle	
Trouble occurs under these surface conditions (check all that apply):	Bumpy or uneven surface. Level Ground. Uphill. Downhill. Sideslope.
Seat Squeak/Rattle	Seat Squeak/Rattle.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	10,000-19,999.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Please indicate which seat has a squeak/rattle (check all that apply):	around lumbar area it makes squeaking noises. Taken it in before but nothing was done.

Features/Controls/Displays Components	
Features/Controls/Displays Components	Cruise control.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Trim/Storage/Windows. Seats. Transmission and Drivetrain. Brake System. Vehicle Exterior.

Brakes generate excessive brake dust	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe conditions when this trouble occurs:	I have black chrome wheels. 3-4 days of normal driving and the wheels have a matte look due to dust
Where does the excessive brake dust build-up appear?	Front wheels.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Brakes are excessively noisy	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Trouble with brakes occurs during this type of braking (check all that apply):	Hear squealing hen lightly pressing brakes when going a few mph.
Please describe conditions when this trouble occurs:	Hear squealing hen lightly pressing brakes when going a few mph.
Additional Comments:	This happened several months after ownership. Had pads and rotors replaced 5k-6k miles ago and now squealing again.
What area of the vehicle is the brake noise coming from?	Front Brakes.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Low speeds (1-25 MPH).
What does the noise sound like?	Squeak/squeal.

Abnormal squeaks/rattles/noises coming from rear side doors	
Please indicate which rear door has abnormal noises (check all that apply):	Passenger's side rear door.
Approximate mileage when trouble was first noticed was:	10,000-19,999.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Going over speed bumps, the body twists a little and hear squeaking coming from around the pillar area

Abnormal squeaks/rattles/noises coming from rear side doors	
To the best of your recollection, the trouble was first noticed:	18-24 months into ownership.

Overview	
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Would you recommend this vehicle to family or friends?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Was the trouble resolved to your satisfaction?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	No.

Brake pads - rear	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	9-12 months into ownership.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
How much did the replacement cost?	Under $100.

Brake pads - front	
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Brake rotors/drums - rear	
How much did the replacement cost?	$100-$499.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	12-18 months into ownership.

What Can We Do Better?	
Feedback/Concerns:	I want the Hellcat engine in a GC.
What has Chrysler done right?	Putting the SRT-type engines in the GC.

Sun visor	
When was the replacement made on your vehicle?	12-18 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
How much did the replacement cost?	Under $100.

Air filter	
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.

Body panels/doors misaligned/excessive gaps/poor fit	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate the location of the trouble (check all that apply):	Front bumper always been slightly misaligned as compared to other side.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	20,000-29,999.

Ease of getting into and out of vehicle	5.
Safety and visibility while driving	5.

Other	
Please describe conditions when this trouble occurs:	See above.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe the other trouble you experienced:	No other trouble at this time, with the exception of the disappointing radial tires. The vehicle was listed as "Trail Rated" and off-road capable however the tires are inferior off-road tires.

Brakes pull noticeably to the right/left in normal use	
Additional Comments:	The crash mitigation is faulty. Considering law suit.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble with brakes occurs during this type of braking (check all that apply):	The Crash Mitigation System appearrs to be faaulty and slams on the brakes at random with no visible threat.
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	See above
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Crash Mitigation Activates at random speeds.
Please describe conditions when this trouble occurs:	At any time.
How often does this trouble occur?	Trouble occurs regularly.
What direction does the vehicle pull when braking?	Both Left and Right - Varies with conditions.
Vehicle pull is:	Severe.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Detail on Low Rated Items	
You rated your attitude about the brand of your new car Low. Use this space to provide any specific comments you would like to share.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.
You rated your attitude overall towards your new car Low. Use this space to provide any specific comments you would like to share.	The faulty crash mitigation is highly unsafe and can easily cause multiple fatalities. This in my opinion gave me a low impression of the vehicle.
You rated your purchasing experience (at the dealer/dealership) Low. Use this space to provide any specific comments you would like to share.	Working with the dealership was a nightmare. Customer support and even corporate representation was equally unimpressive. Multiple delays and lack of information on the delivery of our vehicle was just plain unsatisfactory.

About You	
How may children 17 or under live in your household?	0.
Primary vehicle in your household:	2005.

Overview

Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	4 (agree).
Did you review the Owner's Information DVD?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took the vehicle to local dealership, however the issue has not been fixed as there have been delays in scheduling an appoinment.
Did you review the Printed User Guide?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	Road and Track.
	Motor Trend.
	Car and Driver.
	Consumer Reports ratings.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Overview	
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Was there information needed that was not included in the User Guide?	no comment.
Please provide feedback on how Chrysler can improve the Printed User Guide	no comment.
Which feature or section of the Printed User Guide did you find most helpful and why?	no comment.
Which feature or section of the Printed User Guide did you find least helpful and why?	no comment.
Was the trouble resolved to your satisfaction?	No.
Which feature or section of the Smartphone Application did you find most helpful and why?	Unlocking Vehicle and Remote Start.
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Which feature or section of the Smartphone Application did you find least helpful and why?	Lack of detailed engine an vehicle performance info.
Please provide feedback on how Chrysler can improve the Smartphone Application	The Smart Phone application UCOnnect" is very basic. Hackers can currently hack my vehicle and control more features than are offered with Uconnect. It would be benificial if the Uconnect/Smart phone system allowed control over more vehcile features as well as information regarding Make, Model, Odometer Reading, Vin#, GPS Tracking, detailed Engine Performance Information, Service Records, Etc.
Please explain further about your choice to recommend your vehicle:	The vehicle is highly unsafe. Researching law firms to decide on the best legal action to take against Jeep for the poor product and poor customer satisfaction and lack correspondence and communication.
Printed User Guide covers the necessary features	4 (agree).
The Smartphone Application format is easy to understand and use	4 (agree).
Would you recommend this vehicle to family or friends?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Engine power is less than expected	
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
What type of fuel do you most often put into your vehicle?	Diesel.
Please describe conditions when this trouble occurs:	Standard driving conditions.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Does trouble only occur when vehicle is carrying multiple passengers and/or heavy cargo?	Yes.
Trouble occurs while vehicle is (check all that apply):	Engine has less power than expected through full range.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Engine. Brake System. Other.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	0-999.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	I would like you to contact my wife at [redacted] and apologize for the vehicles faulty crash mitigation system. She was driving on the highway when, without warning the vehicle just slammed on the brakes and scared the shit out of her. She pulled over and was shaking for quite some time. She called the vehicles on board assistance and reported the incident. The rep could not give her any information on how to proceed. She then called me here in Afghanistan. I asked if she could park the vehicle and get a ride home. She could not so I had her shut off the crash mitigation system manually from the dashboard controls. The resulting traumatic stress has her nervous and uncomfortable driving the vehicle. I would additionally like to have a certified technician/engineer from corporate take a look at the vehicle and recommend a course of action as the local dealership

Contact Me	
	mechanics made the comment that they have only been recently certified and have zero experience working with this vehicle and its systems (again, total loss of confidence). I would like to prevent legal action if possible however if Chrysler, Dodge, Jeep, Fiat Corporation continues to fail me and show lack of empathy I will have no choice in the matter bu to seek legal counsel.

Engine Fuel Consumption	
Engine Fuel consumption	Fuel consumption is worse than expected.

Engine Noise (abnormal)	
Engine Noise (abnormal)	Engine makes abnormal/excessive noises.

Engine Power	
Engine power	Engine power is less than expected.

Brake Operation	
Brake Operation	Brakes pull noticeably to the right/left in normal use.

What Can We Do Better?	
What has Chrysler done right?	The 2015 Jeep Grand Cherokee Overland has many excellent features such as off-road capabilities, convienience packages, Uconnect system, and an excellent infotainment system that is intuitive.
Feedback/Concerns:	We need to resolve these issues with this Jeep. I am currently deployed overseas and the additional frustrations of a faulty vehicle have be very concerned for my wife's safety. I expect assistance in getting this matter resolved.

Media	
Media	Radio.

Overview	
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Please explain further about your choice to recommend your vehicle:	Dealership states they don't have advisory on my problems
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Noise with AM radio transmission highway driving, slow to heat interior to comfortable level, intermittent braking problems, doors unlock after walking away from locked car, intermittent difficulty opening car door requiring us of key fob

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	[redacted]
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

What Can We Do Better?	
Feedback/Concerns:	Slow to advise dealership of customer complaints
What has Chrysler done right?	Dealership attempts to assist customer in ratifying problems

Heating, ventilation and air conditioning doesnt maintain desired temperature	
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	70-75 degrees.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	10,000-19,999.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Outside temperature between 50 and 59 degrees.

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception.

Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location	
Please indicate why the fuel gauge/low fuel warning light controls/displays are difficult to understand/use; are in a poor location (check all that apply):	Poor fuels indicator is valueless.
Additional Comments:	See comments under prior screen

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front Screen Display: Other Concerns. Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Hands-Free Phone / Bluetooth system loses connection	
Is there more than one phone paired to the vehicle?	Yes.
Were you in the middle of a call?	Yes, and did not transfer call to headset.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.
Lost connection problem happens when:	In the middle of a call.
How often does this trouble occur?	Trouble occurs regularly.

Detail on High Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I'd like greater heat in seats. I have a bad back, long drives the seat heater makes it palatable. Unfortunately the seat decides when the heater shuts off. It's anjoying to have to keep checking the dashboard controller and see if the damn seat has stopped heating.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	When I press hard on gas pedal it performs, for passing, avoiding collision, joining traffic on freeway on ramp

Headlights not bright enough	
Please describe the trouble you experienced:	I'm used to my BMW 7 series sedan with excellent forward lighting. The headlamps on the Jeep really don't compare.
Please describe conditions when this trouble occurs:	Nighttime
Additional Comments:	Light is safety fir the driver visual acuity and passenger safety.

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Sometimes system shows acceptance of changes but after closing out it reverts to prior settings
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	No entry once car is moving. My passenger should be able to update while vehicle in motion. Can you link right front seatassenger presence (same control as air bag activation for use? To allow Nav updates?
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Hard to follow access logic for controls.

Excessive wind noise	
Please indicate the location of the wind noise (check all that apply):	Louder than I would have expected given the age of the vehicle and the door seals
Please describe conditions when this trouble occurs:	Driving between 45 And 70 MPH
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.

Wind Noise	
Wind Noise	Excessive wind noise.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays. Entertainment/Navigation System/Connectivity. Vehicle Exterior.

Displays and Instruments	
Displays and Instruments	Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
	Fuel indicator of "poor fuel" comes on intermittently, no matter best quality (national brands) high test or mid range in flex fuel vehicle. Lack of gas "cap" makes me wonder what the system is sampling to decide when this light is supposed to come on. Collision alert comes in WAY too late. AND has signaled when no collision was either imminent nor possible. Frankly it's a nuisance in high speed high volume traffic such as Los Angeles

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system has poor sound quality at far end. Hands-Free Phone / Bluetooth system loses connection.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	An awful lot of plastic in a sixty thousand dollar vehicle.

Lights	
Lights	Headlights not bright enough.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Simi Valley
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Instrument panel illumination/warning/indicator lights broken/not working

Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe in the box below where on the instrument panel/dashboard the trouble with broken/damaged materials is located:	Headlights on during the day cause panel to dim and hard to see. Need better tuning on headlights. Dealer has looked at and claims it is working properly.
Please indicate which of the following best describes your concern (check all that apply):	Instrument panel illumination broken/not working.

Voice Activation System works properly, but difficult to understand/use; controls in a poor location

Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	Navigation. Phone.
Please indicate which of the following best describes your concern (check all that apply):	doesn't understand most commands
Please indicate why the Voice Actication System controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate. Ideal would be to have display pivot to passenger so that the passenger could enter nav location. When screen is pivoted back to driver, the data entry lockout would be re-engaged. Having to stop to enter this data is a hassle.

Other	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe the other trouble you experienced:	Could really use better gas mileage.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Exterior moldings/trim pieces loose/misaligned/falling off	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Additional Comments:	Fixed once by dealer. Falling off again.
Approximate mileage when trouble was first noticed was:	20,000-29,999.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Fuel filler door
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is loose.

Other component(s) replaced (not listed previously)	
When was the replacement made on your vehicle?	9-12 months into ownership.
Which other component(s) did you replace?	Anything covered on a recall notice. There have been 3-6 of these per year.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Touchscreen Controls	
Touchscreen Controls	Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working. Touchscreen Controls/Menu: Front Screen Display: Other Concerns.

Water leaks into vehicle	
Please describe conditions when this trouble occurs:	Rain
Please indicate the location of the water leak (check all that apply):	When raining, water puddles on retractable cover in storage area.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Water leaks into vehicle	Water leaks into vehicle.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	30,000-39,999.

Voice Recognition feature does not have enough functions available	
Please describe additional functions you would like to have:	working voice commands for all functions on touch screen (heat/ac/radio/etc)

Displays and Instruments
Displays and Instruments

Displays and Instruments	
	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.
	Instrument panel illumination/warning/indicator lights broken/not working.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Features and Controls	
Features and Controls	Voice Activiation System.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition feature does not have enough functions available.
	Voice Activation / Recognition doesn't recognize command.

What Can We Do Better?	
What has Chrysler done right?	The look (especially exterior) is different from all of the other SUVs in its class. Although the Grand Cherokee has evolved, it still looks like a jeep. Tow package is set up very well. I regularly tow close to its capacity and never have any problems.

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	One
Please choose your cell phone carrier	Sprint Nextel.
Entertainment/Navigation System/Connectivity	None
Please choose your cell phone brand	HTC.

Voice Activation / Recognition doesnt recognize command	
What button did you use?	steering wheel
Please describe when this trouble occurs:	doesn't understand most commands
	doesn't understand most commands
How often does this trouble occur?	Trouble occurs regularly.
Do you usually set HVAC vent direction toward ceiling?	No.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake does not adequately hold vehicle.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Needs MUCH better tuning. It regularly slams on the breaks for no reason.

Abnormal Noises	
Abnormal Noises	Squeak/rattle/abnormal noises from headliner.

Voice Activation System	
Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Detail on Low Rated Items	
You rated ease of using system displays while driving Low. Use this space to provide any specific comments you would like to share.	Driver lockout makes sense but the passenger should not be locked out too. Should be a way for the screen to tilt toward the passenger to type data.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Fuel economy. Interior noise (road noise) while driving at highway speeds. Seat belts do not lock under hard stopping conditions.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Appearance

Appearance	Center console has gaps/poor fit.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Other. Interior Trim/Storage/Windows.

About You	
Did you purchase or lease your vehicle?	Purchase.

Other	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	see comments above
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe the other trouble you experienced:	Forward Collision Warning (FCW). Even when set to the "Far" configuration, it only warns about a collision when too close to another vehicle which might not give the driver enough time to react. There should be a "very far" configuration so the system could warn the driver way in advance of potential collision.

Overview	
Would you recommend this vehicle to family or friends?	Yes.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Printed User Guide?	Yes.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	I thought the FCW feature was not working
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Did you review the Owner's Information DVD?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Printed User Guide covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Was the trouble resolved to your satisfaction?	No.

What Can We Do Better?	
Feedback/Concerns:	The Smart Phone application should be available for Windows Phones as well.

Welcome	
Please tell us how many miles are currently on your vehicle:	1,000-2,999.
Are you the primary driver of this vehicle?	Yes.

Center console has gaps/poor fit	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please describe in the box below where on the center console the trouble with excessive gaps/poor fit of materials is located:	Golden Color of the Center Console is ugly. There could be other options for this console like silver.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Instrument panel illumination/warning/indicator lights broken/not working

Instrument panel illumination/warning/indicator lights broken/not working	
Please describe in the box below where on the instrument panel/dashboard the trouble with broken/damaged materials is located:	Headlights on during the day cause panel to dim and hard to see. Need better tuning on headlights. Dealer has looked at and claims it is working properly.
Please indicate which of the following best describes your concern (check all that apply):	Instrument panel illumination broken/not working.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Welcome	
Please tell us how many miles are currently on your vehicle:	30,000-39,999.
Are you the primary driver of this vehicle?	Yes.

Voice Activation System works properly, but difficult to understand/use; controls in a poor location	
Please indicate why the Voice Actication System controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate. Ideal would be to have display pivot to passenger so that the passenger could enter nav location. When screen is pivoted back to driver, the data entry lockout would be re-engaged. Having to stop to enter this data is a hassle.
Please indicate which of the following best describes your concern (check all that apply):	doesn't understand most commands
Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	Navigation. Phone.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which controls/menus are broken/not working properly (check all that apply):	System regularly deletes radio presets.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command. Voice Recognition feature does not have enough functions available.

Voice Activation System	
Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Other Components	
Other Components	Other component(s) replaced (not listed previously).

Voice Recognition feature does not have enough functions available	
Please describe additional functions you would like to have:	working voice commands for all functions on touch screen (heat/ac/radio/etc)

What Can We Do Better?	
What has Chrysler done right?	The look (especially exterior) is different from all of the other SUVs in its class. Although the Grand Cherokee has evolved, it still looks like a jeep. Tow package is set up very well. I regularly tow close to its capacity and never have any problems.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Features and Controls	
Features and Controls	Voice Activiation System.

Appearance

Appearance	Center console has gaps/poor fit.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Other. Interior Trim/Storage/Windows.

About You	
Did you purchase or lease your vehicle?	Purchase.

Other	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe the other trouble you experienced:	Forward Collision Warning (FCW). Even when set to the "Far" configuration, it only warns about a collision when too close to another vehicle which might not give the driver enough time to react. There should be a "very far" configuration so the system could warn the driver way in advance of potential collision.
Please describe conditions when this trouble occurs:	see comments above
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.

Overview	
Would you recommend this vehicle to family or friends?	Yes.
Printed User Guide covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Was the trouble resolved to your satisfaction?	No.
Did you review the Owner's Information DVD?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	I thought the FCW feature was not working
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Did you review the Printed User Guide?	Yes.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Center console has gaps/poor fit	
Please describe in the box below where on the center console the trouble with excessive gaps/poor fit of materials is located:	Golden Color of the Center Console is ugly. There could be other options for this console like silver.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.

What Can We Do Better?	
Feedback/Concerns:	The Smart Phone application should be available for Windows Phones as well.

Please describe conditions when this trouble occurs:	All day long
Please describe the other trouble you experienced:	Headlights come on too easily causing display to dim.
How often does this trouble occur?	Trouble occurs regularly.

Detail on Low Rated Items	
You rated ease of using system displays while driving Low. Use this space to provide any specific comments you would like to share.	Driver lockout makes sense but the passenger should not be locked out too. Should be a way for the screen to tilt toward the passenger to type data.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Fuel economy. Interior noise (road noise) while driving at highway speeds. Seat belts do not lock under hard stopping conditions.

Detail on Low Rated Items

Welcome

Please tell us how many miles are currently on your vehicle:	30,000-39,999.
Are you the primary driver of this vehicle?	Yes.

Voice Activation System works properly, but difficult to understand/use; controls in a poor location

Please indicate why the Voice Actication System controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate. Ideal would be to have display pivot to passenger so that the passenger could enter nav location. When screen is pivoted back to driver, the data entry lockout would be re-engaged. Having to stop to enter this data is a hassle.
Please indicate which of the following best describes your concern (check all that apply):	doesn't understand most commands
Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	Navigation. Phone.

Contact Me

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Other component(s) replaced (not listed previously)

Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Which other component(s) did you replace?	Anything covered on a recall notice. There have been 3-6 of these per year.
When was the replacement made on your vehicle?	9-12 months into ownership.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working

How often does this trouble occur?	Trouble occurs regularly.
Please indicate which controls/menus are broken/not working properly (check all that apply):	System regularly deletes radio presets.

Voice Activation System

Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Hand brake/parking brake does not adequately hold vehicle

To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
Where does the hand brake/parking brake problem occur?	Will not hold vehicle on a slight incline.

Hand Brake/Parking Brake

Hand Brake/Parking Brake	Hand brake/parking brake does not adequately hold vehicle.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location

Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Needs MUCH better tuning. It regularly slams on the breaks for no reason.

Voice Recognition feature does not have enough functions available

Please describe additional functions you would like to have:	working voice commands for all functions on touch screen (heat/ac/radio/etc)

Other Components

Other Components	Other component(s) replaced (not listed previously).

What Can We Do Better?	
Feedback/Concerns:	I hate the auto braking feature, so much I've turned it off. Also not a big fan of the adaptive cruise control,especially in heavy traffic. The front seats are comfortable yet a little firm, I would like to see them to be more like the back seats. The Uconnect voice activation need some work, it does net understand all names and suggests names that aren't close. Frustrating! I would like to see better fuel economy with similar horsepower. Maybe get away from normally aspirated engines and go to turbo or supercharged engines to gain fuel economy. I would have liked to see somewhere dedicated to store change in or near the center console. The fake wood

What Can We Do Better?	
	grain could be made to look better or a more carbon fiber look. I wish there was a 3rd row option. I wish there where more wheel selections for the summit.
What has Chrysler done right?	I love the styling and ride of the new jeep. From past Chrysler products I see better fuel economy, I like the true 4wd drive in the new jeep. I like the screen and speed of the Uconnect system.

Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	3,000-4,999.

Entertainment/Navigation System/Connectivity

If known, please tell us your software version	Ios8.3
Please choose your cell phone brand	Apple.
Please tell us your cell phone model	Iphone6
Please choose your cell phone carrier	Verizon Wireless.

What Can We Do Better?

Feedback/Concerns:	I hate the auto braking feature, so much I've turned it off. Also not a big fan of the adaptive cruise control,especially in heavy traffic. The front seats are comfortable yet a little firm, I would like to see them to be more like the back seats. The Uconnect voice activation need some work, it does net understand all names and suggests names that aren't close. Frustrating! I would like to see better fuel economy with similar horsepower. Maybe get away from normally aspirated engines and go to turbo or supercharged engines to gain fuel economy. I would have liked to see somewhere dedicated to store change in or near the center console. The fake wood grain could be made to look better or a more carbon fiber look. I wish there was a 3rd row option. I wish there where more wheel selections for the summit.
What has Chrysler done right?	I love the styling and ride of the new jeep. From past Chrysler products I see better fuel economy, I like the true 4wd drive in the new jeep. I like the screen and speed of the Uconnect system.

Vehicle Satisfaction Ratings

Is there anything about your new vehicle you would like to see changed?	I would like a throatier exhaust system, better voice recognition, better braking, remove or improve the adaptive cruise control and the emergency braking system.

Overview

Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Please explain further about your choice to recommend your vehicle:	Would not recommend a new model year vehicle from Jeep. To many recalls, dealer not able to resolve problems
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Was the trouble resolved to your satisfaction?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Would you recommend this vehicle to family or friends?	No.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location

Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	sometimes will activate when no vehicles or objects are present.

Air conditioner takes too long to get cold

Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Outside temperature over 80? F. Bright sun. Outside temperature over 100? F. Outside temperature over 90? F.
Please describe conditions when this trouble occurs:	mid day and evening the cabin temp must constantly be adjusted
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

About You

Which of the following best describes the area you live in?	Suburban.
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
Did you purchase or lease your vehicle?	Purchase.

Engine Components

Engine Components	Throttle body components. Air filter. Battery. Air cleaner.

Battery

Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	$100-$499.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.

Refrigerant

Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.

Refrigerant	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	12-18 months into ownership.

Hand brake/parking brake requires too much effort to apply/release	
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe what requires too much effort (check all that apply):	sometimes requires several attempts to get it to engage

Active suspension system is broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Additional Comments:	Dealer unable to correct problem
Please describe conditions when this trouble occurs:	when parked and not running
Please describe the trouble experienced with the active suspension system:	it will engage the pump after the car is parked and has sat for a while

Air cleaner	
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	9-12 months into ownership.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	When stating a name.
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.

Hand brake/parking brake does not adequately hold vehicle	
Where does the hand brake/parking brake problem occur?	Will not hold vehicle on a slight incline.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.

Features and Controls	
Features and Controls	Adjustable Height Control. Door locks/key fob entry system. Active Suspension System.

Heating, ventilation and air conditioning doesnt maintain desired temperature	
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Bright sun. Outside temperature between 90 and 100 degrees.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	70-75 degrees.
Additional Comments:	Dealer has charged the AC unit. Summer time requires MAX Air to be used constantly
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	requires the cabin temp to be set at low temp 65 night time to a higher temp
How often does this trouble occur?	Trouble occurs regularly.

Key fob entry system works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate why the key fob entry system controls are difficult to understand/use; layout is poor (check all that apply):	buttons sometimes require several depresses to activate. to large
Additional Comments:	need slide switch to disable buttons when in pants pocket. buttons are activated inside the pants pocket

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays. Interior Climate Control. Vehicle Exterior. Brake System. Entertainment/Navigation System/Connectivity.

Brake pedal feels mushy/soft	
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Low speeds (1-25 MPH).
Additional Comments:	Dealer unable to correct
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Trouble with brakes occurs during this type of braking (check all that apply):	sensitive at soft depress.
How often does this trouble occur?	Trouble occurs intermittently.
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	All road conditions.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone brand	Motorola.
Please tell us your cell phone model	Razor
Please choose your cell phone carrier	Verizon Wireless.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions. Points of Interest not well defined.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
Please indicate which words, if any, are constantly misrecognized:	Pronouncing names was working before last update. Can not find names that once did. double entries for some contacts requiring selecting from touch screen
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	When stating a name.

What Can We Do Better?	
What has Chrysler done right?	Nice looking vehicle
Feedback/Concerns:	Resolve the outstanding problems, when recalling vehicle have the parts to the dealers so repairs can be made.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Overall a nice design. Number of Recall has me concerned also several legal solicitations to join a class action lawsuit. Please make sure our vehicle is safe. Stand behind your product.
You rated climate control operation (function and ease of use) Low. Use this space to provide any specific comments you would like to share.	Collision avoidance system has me wondering if it will work when needed.

Exterior moldings/trim pieces loose/misaligned/falling off	
Additional Comments:	Weather seal has been replaced once and is getting ready to be replaced again
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Weather seal trim continues to have excessive wear.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is poorly aligned or fitted.

Back-up camera	
When was the replacement made on your vehicle?	18-24 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.

Door handle/latch works, but is difficult to operate	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which door has a handle/latch that is difficult to operate (check all that apply):	Delay in locking and unlocking, sometimes unlocks after locked.
Why is the door handle/latch difficult to operate? (check all that apply):	Button does not always engage the lock
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	10,000-19,999.

Liftgate latch works, but is difficult to operate	
Additional Comments:	Also the remote will often engage when in pants pocket. Panic button, remote start and unlock have all activated within the pocket. Need a slide off/on to deactivate the buttons.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Why is the door handle/latch difficult to operate? (check all that apply):	Remote control sometimes will not work unless within 1-2 feet of vehicle button to open requires excessive pressure,

Liftgate latch works, but is difficult to operate	
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	missing major PoI

Operation and Performance	
Operation and Performance	Air conditioner takes too long to get cold. Heating, ventilation and air conditioning doesn't maintain desired temperature.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location. Outside temperature gauge broken/not working.

Adjustable height control works, but is difficult to understand/use	
Please describe the trouble experienced with the adjustable height controls:	Controls are hard to see.
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	park mode will sometimes not function when car is in park and engine is still running. last firmware upgrade improved this but is still a problem

Front Doors	
Front Doors	Door handle/latch works, but is difficult to operate.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working. Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake requires too much effort to apply/release. Hand brake/parking brake does not adequately hold vehicle.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system works properly, but is difficult to understand/use.

Liftgate	
Liftgate	Liftgate latch works, but is difficult to operate.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions.
Please indicate which of the following best describes your concern (check all that apply):	routing sometimes gives directions that are not direct.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	controls on left hand for phone and commands depressed to easly
Please indicate which of the following best describes your concern (check all that apply):	buttons on steering wheel for voice command and phone are depressed to easly
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Navigation system controls.

Interior Climate Control Components	
Interior Climate Control Components	Refrigerant.

Front seat audio/entertainment/navigation controls/menus broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which controls/menus are broken/not working properly (check all that apply):	Buttons are constantly being activated when turning the wheel.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	30,000-39,999.

Outside temperature gauge broken/not working	
Please describe conditions when this trouble occurs:	takes a long time to register temp. changes. seldom accurate.

Brake Operation	
Brake Operation	Brake pedal feels mushy/soft.

Throttle body components	
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	9-12 months into ownership.

Contact Me

Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Bright sun. Outside temperature over 100? F. Outside temperature over 90? F. Outside temperature over 80? F.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe conditions when this trouble occurs:	mid day and evening the cabin temp must constantly be adjusted

Liftgate latch works, but is difficult to operate	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Why is the door handle/latch difficult to operate? (check all that apply):	Remote control sometimes will not work unless within 1-2 feet of vehicle button to open requires excessive pressure,
Additional Comments:	Also the remote will often engage when in pants pocket. Panic button, remote start and unlock have all activated within the pocket. Need a slide off/on to deactivate the buttons.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs intermittently.

Active suspension system is broken/not working	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe the trouble experienced with the active suspension system:	it will engage the pump after the car is parked and has sat for a while
Additional Comments:	Dealer unable to correct problem
Please describe conditions when this trouble occurs:	when parked and not running
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Liftgate	
Liftgate	Liftgate latch works, but is difficult to operate.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions.
Please indicate which of the following best describes your concern (check all that apply):	routing sometimes gives directions that are not direct.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	When stating a name.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	controls on left hand for phone and commands depressed to easly
Please indicate which of the following best describes your concern (check all that apply):	buttons on steering wheel for voice command and phone are depressed to easly
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Navigation system controls.

Heating, ventilation and air conditioning doesnt maintain desired temperature	
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Outside temperature between 90 and 100 degrees. Bright sun.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	requires the cabin temp to be set at low temp 65 night time to a higher temp
Additional Comments:	Dealer has charged the AC unit. Summer time requires MAX Air to be used constantly
Approximate mileage when trouble was first noticed was:	Less than 10,000.
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	70-75 degrees.

Displays and Instruments	
Displays and Instruments	Outside temperature gauge broken/not working. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Interior Climate Control Components	
Interior Climate Control Components	Refrigerant.

Front seat audio/entertainment/navigation controls/menus broken/not working

Front seat audio/entertainment/navigation controls/menus broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which controls/menus are broken/not working properly (check all that apply):	Buttons are constantly being activated when turning the wheel.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	30,000-39,999.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Operation and Performance	
Operation and Performance	Air conditioner takes too long to get cold. Heating, ventilation and air conditioning doesn't maintain desired temperature.

Adjustable height control works, but is difficult to understand/use	
Please describe the trouble experienced with the adjustable height controls:	Controls are hard to see.
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	park mode will sometimes not function when car is in park and engine is still running. last firmware upgrade improved this but is still a problem

Front Doors	
Front Doors	Door handle/latch works, but is difficult to operate.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working. Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake requires too much effort to apply/release. Hand brake/parking brake does not adequately hold vehicle.

About You	
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.

Vehicle Satisfaction Ratings	
Support for popular music/video formats	3.
Ease of getting into and out of vehicle	3.
Interior noise level while driving	3.
Engine sound	3.
Steering and handling (responsiveness, stability)	3.
How do you feel about the durability of your new vehicle?	3.
Exterior design and appearance (overall impression)	4.
Front view styling (front fascia, hood, grille, headlight area)	4.
Headlight illumination/performance during night-time driving	4.
Interior comfort, design and appearance of interior (overall impression)	4.
Seat adjustment and comfort	4.
Steering wheel adjustment	4.
Engine performance during acceleration	2.
Climate control operation (function and ease of use)	1.
Brake responsiveness/effort	2.
How do you feel about the VALUE of your new car? (i.e.	2.
Integration with media players	3.

Vehicle Satisfaction Ratings	
Engine exhaust sound	3.
What is your attitude overall towards the BRAND of your new car?	3.
Rear view styling (rear fascia, bumper)	4.
What are your favorite parts of your new vehicle?	fun to drive
Navigation system route accuracy	2.
Safety and visibility while driving	2.
Overall audio, entertainment, and navigation system impression	3.
Location and usefulness of interior lighting	3.
What is your attitude overall towards your new car?	3.
Clarity of sound	4.
Appearance of exterior paint	4.
Side/profile view styling (driver's side or passenger's side exterior area)	4.
Is there anything about your new vehicle you would like to see changed?	blind spots
Integration with phones	2.
Operating controls while driving (gear selector, turn signals, horn, etc.)	2.
Ease of using system displays while driving	3.
Transmission gear change performance (smoothness)	3.
Fuel economy and driving range	3.
Difficult driving conditions (adverse weather, off-road)	3.
Ride quality	3.
Wheels, rims, and tires appearance and styling	4.

Head/leg/foot room	4.

Detail on Low Rated Items	
You rated climate control operation (function and ease of use) Low. Use this space to provide any specific comments you would like to share.	Collision avoidance system has me wondering if it will work when needed.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Overall a nice design. Number of Recall has me concerned also several legal solicitations to join a class action lawsuit. Please make sure our vehicle is safe. Stand behind your product.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	missing major PoI

Overview	
Please explain further about your choice to recommend your vehicle:	Would not recommend a new model year vehicle from Jeep. To many recalls, dealer not able to resolve problems
Would you recommend this vehicle to family or friends?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Was the trouble resolved to your satisfaction?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.

Air cleaner	
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	9-12 months into ownership.

What Can We Do Better?	
Feedback/Concerns:	Resolve the outstanding problems, when recalling vehicle have the parts to the dealers so repairs can be made.
What has Chrysler done right?	Nice looking vehicle

Door handle/latch works, but is difficult to operate	
Approximate mileage when trouble was first noticed was:	10,000-19,999.
Why is the door handle/latch difficult to operate? (check all that apply):	Button does not always engage the lock
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate which door has a handle/latch that is difficult to operate (check all that apply):	Delay in locking and unlocking, sometimes unlocks after locked.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Battery	
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
How much did the replacement cost?	$100-$499.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	12-18 months into ownership.

Back-up camera	
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	18-24 months into ownership.

Throttle body components	
When was the replacement made on your vehicle?	9-12 months into ownership.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control works, but is difficult to understand/use.

Engine Components	
Engine Components	Air cleaner. Battery. Throttle body components. Air filter.

Features/Controls/Displays Components	
Features/Controls/Displays Components	Back-up camera.

Hand brake/parking brake requires too much effort to apply/release	
Please describe what requires too much effort (check all that apply):	sometimes requires several attempts to get it to engage
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	When stating a name.
Please indicate which words, if any, are constantly misrecognized:	Pronouncing names was working before last update. Can not find names that once did. double entries for some contacts requiring selecting from touch screen
Do you usually set HVAC vent direction toward ceiling?	No.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Motorola.
Please tell us your cell phone model	Razor

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Key fob entry system works properly, but is difficult to understand/use	
Please indicate why the key fob entry system controls are difficult to understand/use; layout is poor (check all that apply):	to large buttons sometimes require several depresses to activate.
Additional Comments:	need slide switch to disable buttons when in pants pocket. buttons are activated inside the pants pocket
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Points of Interest not well defined. Navigation system works, but missing information; has incorrect information; gives wrong directions.

Outside temperature gauge broken/not working	
Please describe conditions when this trouble occurs:	takes a long time to register temp. changes. seldom accurate.

Refrigerant	
When was the replacement made on your vehicle?	12-18 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.

Features and Controls	
Features and Controls	Active Suspension System. Adjustable Height Control. Door locks/key fob entry system.

Brake Operation	
Brake Operation	Brake pedal feels mushy/soft.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	sometimes will activate when no vehicles or objects are present.

Headlight illumination/performance during night-time driving	5.
Ease of getting into and out of vehicle	5.
Engine sound	5.
Fuel economy and driving range	5.
Steering and handling (responsiveness, stability)	5.
How do you feel about the durability of your new vehicle?	5.
Is there anything about your new vehicle you would like to see changed?	Better integration of blu tooth and use of services like Pandora. When changing gears from R to D, or D to R, it's easy to inadvertently stop at N.
Clarity of sound	3.
Rear view styling (rear fascia, bumper)	5.
Interior noise level while driving	5.
Brake responsiveness/effort	5.
What is your attitude overall towards your new car?	5.
How do you feel about the VALUE of your new car? (i.e.	5.

Front seat audio/entertainment/navigation controls/menus broken/not working

Front seat audio/entertainment/navigation controls/menus broken/not working	
Additional Comments:	Our entertainment system has stopped playing sound through the speakers, no volume with any system (FM/AM/XM, Blu Tooth, Phone Calls, SD, CD, etc). Dealer is replacing the unit tomorrow.
Please describe conditions when this trouble occurs:	Random
Please indicate which controls/menus are broken/not working properly (check all that apply):	System will randomly reset itself, multiple times and is unusable during this time.
How often does this trouble occur?	Trouble occurs intermittently.

Navigation system freezes-up/will not work	
Please describe conditions when this trouble occurs:	Radom. System will freeze and reset. A series of auto restarts will occur up to 4 times in sequence before the system is usable again.
How often does this trouble occur?	Trouble occurs intermittently.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
Additional Comments:	See hard control comments...
Please indicate which controls/menus are broken/not working properly (check all that apply):	See hard controls...

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	The auto braking feature of the forward collision avoidance system can be too sensitive at times. When another vehicle is turning, in a turn lane it sometimes senses that vehicle, sets off the warning and applies the brakes unnecessarily. This happens when the other vehicle is close to the lane dividing line, but with plenty of room to pass. However, id rather have it err on the side of just a little sensitive than not sensitive enough.

Detail on Low Rated Items	
You rated integration with phones Low. Use this space to provide any specific comments you would like to share.	The UCONNECT system is very cumbersome. Why not just direct blu tooth integration. Services like Pandora shouldn't need to be directed through UCONNECT to play via the Entertainment System. Also, See comments from survey regarding phone call volume.
You rated support for popular music/video formats Low. Use this space to provide any specific comments you would like to share.	See above. Pandora should be easier to use.

Navigation system	
When was the replacement made on your vehicle?	18-24 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.

Sun visor	
When was the replacement made on your vehicle?	18-24 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.

About You	
Secondary vehicle in your household:	1998. Wrangler. Secondary Household Vehicle: Purchased Used. Jeep.
Please indicate your occupation status.	[redacted].
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]
How may children 17 or under live in your household?	1-2.
Please indicate your highest education level	Graduate degree.
Please indicate your occupation.	[redacted]
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
Primary vehicle in your household:	Tahoe. 2007. Chevrolet. Primary Household Vehicle: Purchased New.
What year were you born?	[redacted]
What is your average miles per gallon (MPG) with your vehicle?	16-18 mpg.
What is your primary language?	English.

Air filter	
When was the replacement made on your vehicle?	9-12 months into ownership.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working.

Touchscreen Controls	
Touchscreen Controls	Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working.

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call	
Do you recall your cellular coverage at the time?	Full cellular coverage.
At other times during use does your phone have poor call quality?	No.
Does the issue occur when speaking at regular volume?	Yes.
Sound quality is poor: (check one)	In car.
Please describe when this trouble occurs:	All of the time.
Additional Comments:	The volume of the call coming trough the speakers is very low, even with the cell phones volume turned to maximum level. We need to turn the audio in the vehicle very high to hear the conversation. When the call ends, the radio reverts to its previous volume. However, when the next incoming call rings through the vehicles speakers, the volume reverts to the last calls setting and the ring tone is extremely loud.
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command. Hands-Free Phone / Bluetooth system has poor sound quality at far end.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Climate Control. Transmission and Drivetrain. Features/Controls/Displays. Brake System. Entertainment/Navigation System/Connectivity. Vehicle Exterior.

Shift between gears is rough/harsh under normal driving conditions	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	See above.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	All.
How often does this trouble occur?	Trouble occurs regularly.
Going into which gear/gears does the trouble occur? (check all that apply)	It takes a while to get used to the 8-spd transmission and the very low 1st gear. At times when attempting to accelerate smoothing the shifting can be quite rough.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Same
Additional Comments:	The data is out of date and there is no way to up date it. Why is this not update-able by the customer, via thumb drive?
Please indicate which of the following best describes your concern (check all that apply):	Not up to date. Old data.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Points of Interest incorrect. Navigation system freezes-up/will not work. Navigation system works, but missing information; has incorrect information; gives wrong directions. Navigation system works, but traffic information doesn?t work / or is difficult to understand. Points of Interest not well defined.

Automatic Transmission	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions.

Overview	
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Which automotive publications do you subscribe to? (check all that apply)	None
Was the trouble resolved to your satisfaction?	Yes.
Please explain further about your choice to recommend your vehicle:	My sister purchased one from our recommendation.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Would you recommend this vehicle to family or friends?	Yes.

Touchscreen	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
When was the replacement made on your vehicle?	18-24 months into ownership.

Other component(s) replaced (not listed previously)	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Which other component(s) did you replace?	Multiple software updates.

Entertainment/Navigation System/Connectivity Components	
Entertainment/Navigation System/Connectivity Components	Touchscreen. Navigation System. Radio/CD player/CD changer.

Heating, ventilation and air conditioning doesnt maintain desired temperature	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Additional Comments:	The auto temperature control feature is poorly implemented. It switches regularly between applying hot and cold climate in an attempt to maintain the set temperature. It does not do well at limiting the fan speed prior to the system reaching the set temperature. While in the manual mode, a one degree temperature change will switch the system from applying too much cold air to immediately too much warm air. Our 2007 Chevy Tahoe does a much better job reaching and maintaining the auto set temperature.
Please describe conditions when this trouble occurs:	Use of the Auto Temperature feature.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	20,000-29,999.

Radio/CD player/CD changer	
When was the replacement made on your vehicle?	18-24 months into ownership.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Engine Components	
Engine Components	Air filter.

Other Components	
Other Components	Other component(s) replaced (not listed previously).

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Additional Comments:	Ignore. incorrect selection.

What Can We Do Better?	
Feedback/Concerns:	Side-view mirror auto-dim feature: Why is there a gap around the edge of the dimmed mirror? This is very annoying as it lets un-dimmed light into my view, defeating the purpose of the dimming feature.
What has Chrysler done right?	Overall yes. We are very happy and feel very safe while driving. The capability, of even our 2WD, is exceptional. Just need to work out a few bugs (Entertainment, Climate, Dimmable Mirrors, Shifting points)

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which of the following best describes your concern (check all that apply):	Too many button presses to reach menu and change climate controls.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.

Controls and Switches	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.

Operation and Performance	
Operation and Performance	Heating, ventilation and air conditioning doesn't maintain desired temperature.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone brand	Nokia.
Please choose your cell phone carrier	Verizon Wireless.

Navigation system works, but traffic information doesn.t work / or is difficult to understand	
Additional Comments:	See previous.

Points of Interest not well defined	
Additional Comments:	See previous.

Points of Interest incorrect	
Additional Comments:	See previous.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Interior Trim/Storage/Window Components	
Interior Trim/Storage/Window Components	Sun visor.

What is your attitude overall towards the BRAND of your new car?	5.

About You

About You

Please tell us about the vehicle you replaced (if applicable)	Grand Cherokee. Replaced Vehicle: Purchased New. 2012. Jeep.
Primary vehicle you were considering:	Grand Cherokee. Jeep. Primary Considered Vehicle: New.
Primary vehicle in your household:	Primary Household Vehicle: Purchased New. 2014. Silverado 1500. Chevrolet.
When considering this vehicle	Test drive the vehicle. Visit the dealership. Research online.
Which, if any, influenced your purchase decision? (check all that apply):	Vehicle test drive. Features/Capabilities. Previous experience with the vehicle/brand. Price/Purchase Terms/Financing.
Financing options	3.
Dealership treatment	4.
Trade-in allowance	5.
Vehicle styling	5.
Vehicle availability	4.
Vehicle quality	5.
What is your primary language?	English.
Is this your first new vehicle ever purchased / leased?	No.
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	49,125
How may children 17 or under live in your household?	0.
Please indicate the primary driver's age.	[redacted]
Convenience of dealership location	5.
Please indicate your gender	[redacted].
Please indicate your occupation.	[redacted], [redacted]
What year were you born?	[redacted]
What is your average miles per gallon (MPG) with your vehicle?	16-18 mpg.
Price	4.
Ability to test drive	4.
Vehicle fuel economy	4.
Vehicle performance	5.
Please indicate your ethnicity	[redacted].
Please indicate your occupation status.	[redacted].
What is your current marital status?	[redacted]
Which of the following best describes the area you live in?	Rural.
Please indicate your highest education level	[redacted].

Overview

Was the trouble resolved to your satisfaction?	No.
Would you recommend this vehicle to family or friends?	Yes.
Smartphone Application covers the necessary features	4 (agree).
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
The Smartphone Application format is easy to understand and use	4 (agree).
Please let us know why you have not referred to the Owner's Manual? (check all that apply)	The warning said service required so I took it to the dealership.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Information in the Smartphone Application is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	No.
Have you requested a paper version of the owner manual?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.

Contact Me

Air conditioner takes too long to get cold

Air conditioner takes too long to get cold	
Please describe conditions when this trouble occurs:	mid day and evening the cabin temp must constantly be adjusted
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Outside temperature over 100? F. Outside temperature over 90? F. Outside temperature over 80? F. Bright sun.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Key fob entry system works properly, but is difficult to understand/use	
Additional Comments:	need slide switch to disable buttons when in pants pocket. buttons are activated inside the pants pocket
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate why the key fob entry system controls are difficult to understand/use; layout is poor (check all that apply):	buttons sometimes require several depresses to activate. to large

What Can We Do Better?	
What has Chrysler done right?	Nice looking vehicle
Feedback/Concerns:	Resolve the outstanding problems, when recalling vehicle have the parts to the dealers so repairs can be made.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Overall a nice design. Number of Recall has me concerned also several legal solicitations to join a class action lawsuit. Please make sure our vehicle is safe. Stand behind your product.
You rated climate control operation (function and ease of use) Low. Use this space to provide any specific comments you would like to share.	Collision avoidance system has me wondering if it will work when needed.

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	Razor
Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Motorola.

Exterior moldings/trim pieces loose/misaligned/falling off	
Additional Comments:	Weather seal has been replaced once and is getting ready to be replaced again
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Weather seal trim continues to have excessive wear.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is poorly aligned or fitted.

Refrigerant	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	12-18 months into ownership.

Battery	
When was the replacement made on your vehicle?	12-18 months into ownership.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	$100-$499.

Back-up camera	
When was the replacement made on your vehicle?	18-24 months into ownership.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Heating, ventilation and air conditioning doesnt maintain desired temperature

Heating, ventilation and air conditioning doesnt maintain desired temperature	
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	70-75 degrees.
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Bright sun. Outside temperature between 90 and 100 degrees.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Additional Comments:	Dealer has charged the AC unit. Summer time requires MAX Air to be used constantly
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	requires the cabin temp to be set at low temp 65 night time to a higher temp
How often does this trouble occur?	Trouble occurs regularly.

Door handle/latch works, but is difficult to operate	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	10,000-19,999.
Please indicate which door has a handle/latch that is difficult to operate (check all that apply):	Delay in locking and unlocking, sometimes unlocks after locked.
Why is the door handle/latch difficult to operate? (check all that apply):	Button does not always engage the lock
How often does this trouble occur?	Trouble occurs intermittently.

Active suspension system is broken/not working	
Please describe the trouble experienced with the active suspension system:	it will engage the pump after the car is parked and has sat for a while
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Additional Comments:	Dealer unable to correct problem
Please describe conditions when this trouble occurs:	when parked and not running

Liftgate latch works, but is difficult to operate	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Why is the door handle/latch difficult to operate? (check all that apply):	Remote control sometimes will not work unless within 1-2 feet of vehicle button to open requires excessive pressure,
Additional Comments:	Also the remote will often engage when in pants pocket. Panic button, remote start and unlock have all activated within the pocket. Need a slide off/on to deactivate the buttons.
How often does this trouble occur?	Trouble occurs intermittently.

Throttle body components	
When was the replacement made on your vehicle?	9-12 months into ownership.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control works, but is difficult to understand/use.

Engine Components	
Engine Components	Air cleaner. Air filter. Throttle body components. Battery.

Brake pedal feels mushy/soft	
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	All road conditions. Low speeds (1-25 MPH).

Brake pedal feels mushy/soft	
Trouble with brakes occurs while traveling at these speeds (check all that apply):	
Additional Comments:	Dealer unable to correct
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Trouble with brakes occurs during this type of braking (check all that apply):	sensitive at soft depress.
How often does this trouble occur?	Trouble occurs intermittently.

Features/Controls/Displays Components	
Features/Controls/Displays Components	Back-up camera.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Brake System. Entertainment/Navigation System/Connectivity. Features/Controls/Displays. Interior Climate Control. Vehicle Exterior.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake does not adequately hold vehicle. Hand brake/parking brake requires too much effort to apply/release.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Navigation system controls.
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	controls on left hand for phone and commands depressed to easly
Please indicate which of the following best describes your concern (check all that apply):	buttons on steering wheel for voice command and phone are depressed to easly

Overview	
Would you recommend this vehicle to family or friends?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Please explain further about your choice to recommend your vehicle:	Would not recommend a new model year vehicle from Jeep. To many recalls, dealer not able to resolve problems
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Was the trouble resolved to your satisfaction?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.

Hand brake/parking brake requires too much effort to apply/release	
Please describe what requires too much effort (check all that apply):	sometimes requires several attempts to get it to engage
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.

Adjustable height control works, but is difficult to understand/use	
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	park mode will sometimes not function when car is in park and engine is still running. last firmware upgrade improved this but is still a problem
Please describe the trouble experienced with the adjustable height controls:	Controls are hard to see.

About You	
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.

Air cleaner

Air cleaner	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	9-12 months into ownership.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	When stating a name.
Do you usually set HVAC vent direction toward ceiling?	No.
Please indicate which words, if any, are constantly misrecognized:	Pronouncing names was working before last update. Can not find names that once did. double entries for some contacts requiring selecting from touch screen

Hand brake/parking brake does not adequately hold vehicle	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Where does the hand brake/parking brake problem occur?	Will not hold vehicle on a slight incline.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.

Features and Controls	
Features and Controls	Adjustable Height Control. Door locks/key fob entry system. Active Suspension System.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions. Points of Interest not well defined.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	sometimes will activate when no vehicles or objects are present.

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	When stating a name.
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	missing major PoI

Operation and Performance	
Operation and Performance	Air conditioner takes too long to get cold. Heating, ventilation and air conditioning doesn't maintain desired temperature.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location. Outside temperature gauge broken/not working.

Front Doors	
Front Doors	Door handle/latch works, but is difficult to operate.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working. Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system works properly, but is difficult to understand/use.

Liftgate	
Liftgate	Liftgate latch works, but is difficult to operate.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions.
Please indicate which of the following best describes your concern (check all that apply):	routing sometimes gives directions that are not direct.

Interior Climate Control Components	
Interior Climate Control Components	Refrigerant.

Front seat audio/entertainment/navigation controls/menus broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which controls/menus are broken/not working properly (check all that apply):	Buttons are constantly being activated when turning the wheel.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	30,000-39,999.

Outside temperature gauge broken/not working	
Please describe conditions when this trouble occurs:	takes a long time to register temp. changes. seldom accurate.

Brake Operation	
Brake Operation	Brake pedal feels mushy/soft.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

	Tahoe.
Please indicate your occupation status.	[redacted]
Please indicate your gender	[redacted].
What is your current marital status?	[redacted]
How may children 17 or under live in your household?	1-2.
Please indicate your highest education level	Graduate degree.
Please indicate your occupation.	[redacted]
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
What year were you born?	[redacted]

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system has poor sound quality at far end.
	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Not up to date. Old data.
Please indicate which navigation system item has trouble (check all that apply):	Same

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	See hard controls...
Additional Comments:	See hard control comments...

Entertainment/Navigation System/Connectivity Components	
Entertainment/Navigation System/Connectivity Components	Radio/CD player/CD changer.
	Touchscreen.
	Navigation System.

Interior Trim/Storage/Window Components	
Interior Trim/Storage/Window Components	Sun visor.

Radio/CD player/CD changer	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	18-24 months into ownership.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call	
How often does this trouble occur?	Trouble occurs regularly.
Do you recall your cellular coverage at the time?	Full cellular coverage.
At other times during use does your phone have poor call quality?	No.
Does the issue occur when speaking at regular volume?	Yes.
Sound quality is poor: (check one)	In car.
Please describe when this trouble occurs:	All of the time.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	Verizon Wireless.

Overview	
Would you recommend this vehicle to family or friends?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Which automotive publications do you subscribe to? (check all that apply)	None
Was the trouble resolved to your satisfaction?	Yes.
Please explain further about your choice to recommend your vehicle:	My sister purchased one from our recommendation.

Front seat audio/entertainment/navigation controls/menus broken/not working	
Additional Comments:	Our entertainment system has stopped playing sound through the speakers, no volume with any system (FM/AM/XM, Blu Tooth, Phone Calls, SD, CD, etc). Dealer is replacing the unit tomorrow.
Please describe conditions when this trouble occurs:	Random

Navigation system freezes-up/will not work	
Please describe conditions when this trouble occurs:	Radom. System will freeze and reset. A series of auto restarts will occur up to 4 times in sequence before the system is usable again.
How often does this trouble occur?	Trouble occurs intermittently.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	The auto braking feature of the forward collision avoidance system can be too sensitive at times. When another vehicle is turning, in a turn lane it sometimes senses that vehicle, sets off the warning and applies the brakes unnecessarily. This happens when the other vehicle is close to the lane dividing line, but with plenty of room to pass. However, id rather have it err on the side of just a little sensitive than not sensitive enough.

Navigation system	
When was the replacement made on your vehicle?	18-24 months into ownership.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Already explained the rattles and the collision avoidance system issues. The frequent recalls is another concerning thing.

Overview

Please explain further about your choice to recommend your vehicle:	For a $50k vehicle cost, I expected fewer issues and no rattles. I also had very significant problems with the to collision avoidance system. Took 5 visits to dealership and a lot of cuss words to finally get it fixed. Each time they would simply say, no error codes. On two occasions, the system errored on the highway and applied brakes at highway speeds with no cars in front of me. It would error intermittenly for apparent reason and at random times. It would scare passengers when it would go off. Very embarrassing driving work collegues in my new vehicle and the alarm would go off for no rason. The 3 rattles that I described were very frustrating. I fixed two of them myself. The third stills exists (instrument cluster rattle). I have never owned a car that rattled as much as my 2014 Grand Cherokee.
Was the trouble resolved to your satisfaction?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
Would you recommend this vehicle to family or friends?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.

Shifts at wrong times

Additional Comments:	The ECO mode shift problem was all the time, all conditons, unless I turn turned it off. Reprogramming eventually fixed this shifting issue, but took several visits to dealer and was very frustrating
Are you using your vehicle for towing when the problem occurs?	No.
Please describe conditions when this trouble occurs:	The ECO mode shift problem was all the time, all conditons, unless I turn turned it off. Reprogramming eventually fixed this shifting issue, but took several visits to dealer and was very frustrating
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	ECO mode was so sluggish and transmission would not downshift. It would up shift too rapidly such that engine would bog and would have not acceleration due to too high of a gear and would not downshift easily with increased throttle input.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	The ECO mode shift problem was all the time, all conditons, unless I turn turned it off. Reprogramming eventually fixed this shifting issue, but took several visits to dealer and was very frustrating.

Squeak/rattle/abnormal noises from instrument panel/dashboard

Please describe conditions when this trouble occurs:	Very loud and frequent in cold weather. Less loud and less frequent in warm weather
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Squeak/rattle/abnormal noises from instrument panel/dashboard	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe in the box below where from the instrument panel/dashboard the trouble with abnormal noises is located:	Sounds like it is directly behind the instrument cluster
Additional Comments:	This is a very annoying rattle. I have not been able to identify the cause and stop it. The headliner and glove box rattles, I fixed my self.

Vehicle Satisfaction Ratings	
Engine performance during acceleration	3.
Clarity of sound	4.
Location and usefulness of interior lighting	4.
Engine exhaust sound	4.
Vehicle storage and space usage	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.
Climate control operation (function and ease of use)	5.
What are your favorite parts of your new vehicle?	The exterior styling, the handling, the interior comfort / luxury features
What is your attitude overall towards the BRAND of your new car?	3.
Support for popular music/video formats	4.
Rear view styling (rear fascia, bumper)	4.
Interior noise level while driving	4.

Fuel economy and driving range	5.
Difficult driving conditions (adverse weather, off-road)	5.
Ride quality	5.
Steering and handling (responsiveness, stability)	5.

About You	
Please indicate the primary driver's age.	[redacted]
What is your total household income (before taxes)?	More than $200,000.
Primary vehicle in your household:	Volkswagen. Primary Household Vehicle: Purchased New. 2013. GTI.
What year were you born?	[redacted]
Secondary vehicle in your household:	2005. TL.

About You

	Acura.
	Secondary Household Vehicle: Purchased New.
What is your primary language?	English.
Please indicate your highest education level	Graduate degree.
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
Please indicate your occupation.	[redacted]
How may children 17 or under live in your household?	1-2.
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
Please indicate your ethnicity	[redacted]
Please indicate your occupation status.	[redacted]

Squeak/rattle/abnormal noises from glove box

To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Please describe in the box below where from the glove box the trouble with abnormal noises is located:	Glove box rattled on most road surfaces. If very smooth, new road, then no rattle. Rattled in cold and warm weather. I put self adhesive weather stipping inside the glove box door to create a tight fit when closed and rattle stopped.
Please describe conditions when this trouble occurs:	see above
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Vehicle Issues/Things Gone Wrong

Contact Me

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Automatic Transmission

Automatic Transmission	Shifts at wrong times.
	Hesitation or delay when shifting between gears.

Squeak/rattle/abnormal noises from headliner

Please describe conditions when this trouble occurs:	Occurs when it is cold. Rattles on most roads. If road is very smooth, doesn't rattle. Does not rattle during summer.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe in the box below where from the headliner the trouble with abnormal noises is located:	Near sun roof rail above front passenger's head
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.

Wipers and washers

Wipers and washers	Rain sensing wipers are broken/not working properly.

Rain sensing wipers are broken/not working properly

Please indicate what type of trouble was experienced with the rain sensing wipers (check all that apply):	very poor adjustment of the auto swipe funtion. End up manually turning wipres on/off intermittently. Would be better adjust time interval manually and not base it on a sensor.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe conditions when this trouble occurs:	Every time it rains

Abnormal Noises

Abnormal Noises	Squeak/rattle/abnormal noises from headliner.
	Squeak/rattle/abnormal noises from instrument panel/dashboard.
	Squeak/rattle/abnormal noises from glove box.

Features and Controls	
Features and Controls	Wipers and washers.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	20,000-29,999.

What Can We Do Better?	
What has Chrysler done right?	Beautiful exterior styling. Many nice features and function on the interior. Handles very nicely for an SUV. Other than the annoying rattles and the messed up collision avoidance system, a very nice vehicle. But I would be hesitant to take a chance on a Jeep again.

Overview	
Did you review the Owner's Information DVD?	No.
Would you recommend this vehicle to family or friends?	Yes.
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).

Overview	
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).
Printed User Guide covers the necessary features	5 (strongly agree).
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Did you review the Printed User Guide?	Yes.
Printed User Guide format is easy to understand and use	5 (strongly agree).
Information in the Printed User Guide is easy to find and access	5 (strongly agree).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, have not had a chance/inconvenient location.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

What Can We Do Better?	
Feedback/Concerns:	1) I wish the standard roof rails worked without having to add on extra pieces. 2) The speaker in my cargo area was damaged right away because it is in a poor location. 3) Wish the channel and volume buttons on the steering wheel were not so hidden. 4) Wish the Summit interior was more fun and sporty!
What has Chrysler done right?	My Jeep is running well and it looks good. There appears to be a lot of support out there. Loved the throwback to the '40's with the army green manual cover.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Nothing low yet.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	When the Forward Collision Warning system was on, my car braked for me in two situations. The first time was not needed, but okay. The second time could have caused an accident as there was no reason to brake all of the sudden. I turned the system off after that.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

About You

What year were you born?	[redacted]
What is your average miles per gallon (MPG) with your vehicle?	25-26 mpg.
Vehicle quality	4.
Please indicate your highest education level	4 year college degree.
Price	5.
Vehicle fuel economy	5.
Please indicate the primary driver's age.	[redacted]
Primary vehicle in your household:	BMW. Primary Household Vehicle: Purchased New. 2013. X3.
What is your primary language?	English.
Which, if any, influenced your purchase decision? (check all that apply):	Internet research. Manufacturer?s website. Recommendations from friends or family. Value for the money.
Primary vehicle you were considering:	Land Rover. 2014. Primary Considered Vehicle: New. Range Rover Evoque.
Please tell us about the vehicle you replaced (if applicable)	Murano. Nissan. Replaced Vehicle: Purchased New. 2011.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
How may children 17 or under live in your household?	0.
Ability to test drive	3.
Please indicate your occupation.	[redacted]
What is your total household income (before taxes)?	More than $200,000.
When considering this vehicle	Test drive the vehicle. Visit the dealership.
What price did you pay for your vehicle?	51000
Convenience of dealership location	3.
Vehicle availability	4.
Trade-in allowance	5.
Vehicle styling	5.
Is this your first new vehicle ever purchased / leased?	No.
Dealership treatment	3.
Financing options	5.
Vehicle performance	5.
Please indicate your ethnicity	[redacted].
Please indicate your occupation status.	Employed.
Please indicate your gender	[redacted]
What is your current marital status?	[redacted].

Overview	
Please provide feedback on how Chrysler can improve the Smartphone Application	Better support for apple
The Smartphone Application format is easy to understand and use	4 (agree).
Did you review the Printed User Guide?	Yes.
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
DVD format is easy to understand and use	4 (agree).
What have you used to view your DVD? (check all that apply)	Home DVD Player.
Would you recommend this vehicle to family or friends?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Smartphone Application covers the necessary features	2 (disagree).
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).
Please rate your overall level of satisfaction with the DVD	4 (satisfied).
Printed User Guide format is easy to understand and use	5 (strongly agree).
Information in the Printed User Guide is easy to find and access	5 (strongly agree).
Information on the DVD is easy to find and access	4 (agree).
Printed User Guide covers the necessary features	5 (strongly agree).
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Owner's Information DVD?	Yes.

Vehicle Satisfaction Ratings	
Interior noise level while driving	3.
Engine performance during acceleration	3.
Transmission gear change performance (smoothness)	3.

Floor mats will not stay in place

Floor mats will not stay in place	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which floor mat will not stay in place (check all that apply):	Driver's side rear seat floor mat. gets pushes under back of front set. Passenger's side rear seat floor mat. same
Additional Comments:	Would be helpful if they had same hooks like the front floor mats.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Seat Squeak/Rattle	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	10,000-19,999.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which seat has a squeak/rattle (check all that apply):	Driver's seat.
Trouble occurs under these surface conditions (check all that apply):	Other (please describe). Whenever driver gets in or leans back or forward in the seat.
Seat Squeak/Rattle	Seat Squeak/Rattle.

Seat heater will not turn off	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which seat has trouble (check all that apply):	Driver's seat. Turn seats on after start up of Jeep and less than 5 minutes it shuts itself off. Will also un check itself under the comfort control settings. Happened often in beginning but after a software update it only happens on occasions Front passenger seat.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.

Brake Noise	
Brake Noise	Brakes are excessively noisy.

Voice Activation System works properly, but difficult to understand/use; controls in a poor location	
Please indicate why the Voice Actication System controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much effort/force to operate. Controls require too much attention (must take eyes off the road) to operate. Can't use voice properly. Usually have to wait and find somewhere to stop and use keys and then still doesn't work sometimes.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. often can't locate address given or has wrong address.
Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	Navigation. Does not find locations or addresses but nav on phone finds it just fine.

Overview	
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
Was the trouble resolved to your satisfaction?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer. I purchased from a Dealership 3 hours from home so I take it to local Jeep dealership down the road.
Please explain further about your choice to recommend your vehicle:	It has been very inconvenient to make multiple trips to dealership for recalls and warranty work in the 1 1/2 years that I have had it. I feel for the cost it should be much better quality.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Would you recommend this vehicle to family or friends?	No.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe). None.

Operation and Functionality	
Operation and Functionality	Floor mats will not stay in place.

About You	
Secondary vehicle in your household:	Honda. Secondary Household Vehicle: Purchased New. Civic.
Which of the following best describes the area you live in?	Rural.
What is your average miles per gallon (MPG) with your vehicle?	13-15 mpg.

About You	
Primary vehicle in your household:	Grand Cherokee. Primary Household Vehicle: Purchased New. 2014. Jeep.
What is your primary language?	English.
Did you purchase or lease your vehicle?	Purchase.
Please indicate your gender	Female.

Rain sensing wipers are broken/not working properly	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate what type of trouble was experienced with the rain sensing wipers (check all that apply):	Rain sensing wipers swipe too often. Rain sensing wipers do not swipe often enough.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Abnormal odors coming from engine	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe conditions when this trouble occurs:	Under acceleration.
Additional Comments:	When this happens I check info and engine temp, oil temp, etc are all in normal range. Dealership has checked engine and so far can't find anything that is causing this.
Engine odor occurs while vehicle is (check all that apply):	Accelerating. Sometimes when accelerating there is burning smell. This happens both normal drive and sport mode.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Tires show excessive or uneven tread wear	
Where does the excessive or uneven tread wear appear on the tire?	Only the outside edge of the tread.
Additional Comments:	Dealership has assured me each time that the front end alignment is correct. Local tire shop has aligned and said the tow end was off by over 1 inch on each side. Corrected and it is no loner as bad but still wares some.
Approximate mileage when trouble was first noticed was:	10,000-19,999.
Which tire is experiencing excessive or uneven tread wear? (check all that apply):	Driver's side front tire. Outside edge of tire when located on front. I have them rotated every oil change and have had numerous front end alignments. Passenger's side front tire. same
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Steering, Handling, and Ride>Tires>	
Tires	Tires show excessive or uneven tread wear.

Brakes are excessively noisy	
Approximate mileage when trouble was first noticed was:	10,000-19,999.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	All road conditions.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	All speeds.
What area of the vehicle is the brake noise coming from?	Cannot determine the location.
Trouble with brakes occurs during this type of braking (check all that apply):	Light braking. I know semi-metallic pads will squeal from time to time but I feel these do it too often. Moderate braking. same
What does the noise sound like?	Squeak/squeal.

Welcome	
Please tell us how many miles are currently on your vehicle:	20,000-29,999.
Are you the primary driver of this vehicle?	Yes.

Memory Seat controls are broken/not working

Memory Seat controls are broken/not working	
Please describe conditions when this trouble occurs:	It doesn't change driver setting when driver changes and uses key fob
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Additional Comments:	Example. After driver 1 has been driving and driver 2 gets in, unlocks or remote starts (with driver 2 key fob) the memory setting does not change automatically. Have to push the driver setting on door panel. Does not happen every time but happens often.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Instrument panel illumination/warning/indicator lights broken/not working	
Please describe in the box below where on the instrument panel/dashboard the trouble with broken/damaged materials is located:	The instrument panel would black out going down the road. Has since been repaired. The forward collision would turn itself off going down the road. Dealer done software update and has not done this lately.
Please indicate which of the following best describes your concern (check all that apply):	Instrument panel illumination broken/not working. Instrument panel warning lights broken/not working.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Voice Activation System	
Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Features and Controls	
Features and Controls	Wipers and washers. Voice Activiation System. Door locks/key fob entry system.

Other	
Please describe the other trouble you experienced:	System is very temperamental. It will do something almost on a daily bases. Little things that I have learned to deal with. Examples. Blank screen, AC/Heat not blowing, Locks on start up screen and doesn't load XM temp and such. Usually I shut engine back off. Open driver door, close and restart and most of the times this fixes the issue. However the cabin temp seems to base on outside temp. Example It may be 40 degrees outside, Jeep has been running for awhile(not cold engine) If the sun is bright it will heat up the interior(black leather) I set auto temp on 68 degrees and it is pumping heat out. I have to drop to Lo to get cool air and sometimes this still doesn't work.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Wiper blades - rear	
When was the replacement made on your vehicle?	12-18 months into ownership.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
Where did you take your vehicle to have the component replaced?	Repaired/replaced myself.
How much did the replacement cost?	Under $100.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays. Other. Brake System. Seats. Engine. Interior Trim/Storage/Windows. Steering, Handling, and Ride.

Displays and Instruments	
Displays and Instruments	Instrument panel illumination/warning/indicator lights broken/not working.

Adjustments and Controls	
Adjustments and Controls	Memory Seat controls are broken/not working. Seat heater is broken/not working.

Wiper blades - front

Wiper blades - front	
Where did you take your vehicle to have the component replaced?	Repaired/replaced myself.
When was the replacement made on your vehicle?	12-18 months into ownership.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.

Vehicle Exterior Components	
Vehicle Exterior Components	Wiper blades - rear. Wiper blades - front.

What Can We Do Better?	
What has Chrysler done right?	The appearance, 4-wheel drive with air suspension and select terrain are all great. I get stopped and complimented often on the appearance. I also feel very comfortable with the capabilities no matter weather/road conditions(as long as I know the area because not sure if I can depend on the navigation system. If all the other issues were resolved, I would love it.
Feedback/Concerns:	Improve the functions and dependability of the Navigation, and controls system. Resolve the burning smell issue and alignments(had same alignments issue on 2011 Summit) Better/more training for service techs.

Engine Odors	
Engine Odors	Abnormal odors coming from engine.

Wipers and washers	
Wipers and washers	Rain sensing wipers are broken/not working properly.

Seat heater is broken/not working	
Seat heater is broken/not working	Seat heater will not turn off.

Blind spot monitoring/warning system is broken/not working

Please describe conditions when this trouble occurs:	Always when it is on. Brought in 5 times and never fixed
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Additional Comments:	The breaks failed on the car and when I brought it in they couldn't find the problem. I got car home and breaks failed again and almost crashed my car. No apologies from anyone for almost killing me
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate the trouble you experienced with the blind spot monitoring/warning system (check all that apply):	Other (please describe). Not related but my acc and FCW would go on constantly and would beep all the time for no reason. The car would physicall

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location

Additional Comments:	How can you not offer loaners for a 50k plus car? I didn't think to ask the question because every car I have ever owned had loaner program. Less expensive cars included
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Other (please describe). They false positive constantly and they can never find the issue at dealership

	Engine.

Overview	
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Other (please explain further, if applicable). I will not go back to that dealershio. I live with these issues until my lease is up and I will never again buy another jeep
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please explain further about your choice to recommend your vehicle:	Thus car has had more problems than any other car I have ever owned. I went through arbitration to get out of my lease bit to no avail. I tell

Overview	
	everyone that asks how much I dislike this vehicle and the service I have received
Would you recommend this vehicle to family or friends?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.

About You	
Primary vehicle in your household:	Primary Household Vehicle: Purchased New. 2014. Grand Cherokee. Jeep.
What is your average miles per gallon (MPG) with your vehicle?	10-12 mpg.
Did you purchase or lease your vehicle?	Lease.

What Can We Do Better?	
What has Chrysler done right?	Nothing

Shifts at wrong times	
Going into which gear/gears does the trouble occur? (check all that apply)	1st Gear. 2nd Gear.
Are you using your vehicle for towing when the problem occurs?	No.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Automatic Transmission	
Automatic Transmission	Shifts at wrong times. Hesitation or delay when shifting between gears. Slips/will not engage gear properly/shifts erratically.

Welcome	
Please tell us how many miles are currently on your vehicle:	10,000-19,999.
Are you the primary driver of this vehicle?	Yes.

Brake pedal feels mushy/soft	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe conditions when this trouble occurs:	They failed entirely. the car had a recall for break booster and it was not changed even when I brought it in for failed breaks. huge liability had I crashed
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Brake Operation	
Brake Operation	Brake pedal feels mushy/soft.

Brake System Components	
Brake System Components	ABS system/sensors.

Features and Controls	
Features and Controls	Alarm/anti-theft system.

Displays and Instruments	
Displays and Instruments	Blind spot monitoring/warning system is broken/not working. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Abnormal squeaks/rattles/noises coming from front doors

Please describe conditions when this trouble occurs:	Bumps
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	20,000-29,999.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which door has abnormal noises (check all that apply):	Driver's side front door. On bumps there is a rattle. Sounds like a loose cable. Also 1/2 inch streak down driver window. Like a roller is greasy and it rolls along glass going up and down.

Automatic high-beam headlights broken/not working

Please describe conditions when this trouble occurs:	Keep working on these. I have basically stopped using this function. The slightest light turns them off like a street light.

Squeak/rattle/abnormal noises from instrument panel/dashboard

Please describe in the box below where from the instrument panel/dashboard the trouble with abnormal noises is located:	Right front.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	10,000-19,999.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Abnormal squeaks/rattles/noises coming from liftgate

Please describe conditions when this trouble occurs:	Rubs on right side. Too close to right side.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

What Can We Do Better?

Feedback/Concerns:	This vehicle is too wide for off road and the wheels are wrong for it. Jeep models before this are ok. Here you went too wide.
What has Chrysler done right?	Interior is too much brown. Need more color variation. Seat controls need to be like Mercedes up where you can see it. Controls need better human interfacing engineering. Need full braking and side movement like in Mercedes and some other cars.

Liftgate is broken/not working

Please describe conditions when this trouble occurs:	Too close on right side. It also creaks as the car gets warmer.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Please describe the trouble you experienced (check all that apply):	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.

AUX input is difficult to understand/use; is in a poor location

Please describe conditions when this trouble occurs:	When you plug your phone in to charge it switches to this automatically causing you to reswitch back to radio.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Poor location.

Navigation system freezes-up/will not work

Additional Comments:	You need to install the wheel concept like in a Mercedes. You require to much leaning and touching the screen. Why isnt this like the normal

Navigation system freezes-up/will not work	
	garmin interface and graphics. These are not good. Also lately it freezes a lot, tells you you have arrived but have 100's of miles to go. B
How often does this trouble occur?	Trouble occurs regularly.

Electronic Engine Controls (Check Engine)	
Electronic Engine Controls ('Check Engine')	"Check Engine" light indicated trouble.

Engine stumbles/hesitates/surges	
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Approximate mileage when trouble was first noticed was:	20,000-29,999.
Engine trouble occurs after vehicle is started at:	Hot condition - after vehicle is off for less than 1 hour.
How often does this trouble occur?	Trouble occurs intermittently.

Check Engine light indicated trouble	
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Approximate mileage when trouble was first noticed was:	30,000-39,999.
How often does this trouble occur?	Trouble occurs regularly.
Was the "Check Engine" light your first indication there was trouble?	Yes.
Did you also experience an engine performance issue while the "Check Engine" light was on?	No.
What type of fuel do you most often put into your vehicle?	Regular gasoline.

Alignment	
When was the replacement made on your vehicle?	12-18 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
How much did the replacement cost?	$100-$499.

Vehicle Satisfaction Ratings	
Seat adjustment and comfort	2.
Overall audio, entertainment, and navigation system impression	3.
Side/profile view styling (driver's side or passenger's side exterior area)	4.
Engine performance during acceleration	4.
Difficult driving conditions (adverse weather, off-road)	4.
Headlight illumination/performance during night-time driving	5.
What is your attitude overall towards the BRAND of your new car?	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	3.
Support for popular music/video formats	4.
Appearance of exterior paint	4.
Rear view styling (rear fascia, bumper)	4.
Safety and visibility while driving	4.
Transmission gear change performance (smoothness)	4.
Fuel economy and driving range	4.
Ease of getting into and out of vehicle	5.
Interior noise level while driving	5.
Ride quality	5.
Clarity of sound	2.
Integration with phones	3.
Integration with media players	4.
Exterior design and appearance (overall impression)	4.

Steering and handling (responsiveness, stability)	5.
How do you feel about the durability of your new vehicle?	5.
How do you feel about the VALUE of your new car? (i.e.	5.

Squeak/rattle/abnormal noises from door panels	
Approximate mileage when trouble was first noticed was:	20,000-29,999.
Please indicate which interior door panels had abnormal noises (check all that apply):	Rear liftgate. Driver's side front door.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.

Bumper - front	
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	12-18 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Welcome	
Please tell us how many miles are currently on your vehicle:	30,000-39,999.
Are you the primary driver of this vehicle?	Yes.

Floor mats will not stay in place	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which floor mat will not stay in place (check all that apply):	Front passenger's floor mat. Driver's floor mat.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Air cleaner	
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to a different dealer than the one I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
How much did the replacement cost?	Under $100.

Front Doors	
Front Doors	Abnormal squeaks/rattles/noises coming from front doors.

Alarm/anti-theft system	
Alarm/anti-theft system	Alarm/anti-theft system is broken/not working.

Steering, Handling, and Ride Components	
Steering, Handling, and Ride Components	Alignment.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone brand	Apple.
Please tell us your cell phone model	5 and 6. Also have a Motorola.
If known, please tell us your software version	Latest and with updates over time.
Please choose your cell phone carrier	AT&T Mobile.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Body panels/doors misaligned/excessive gaps/poor fit. Exterior moldings/trim pieces loose/misaligned/falling off.

Issues with wheels and tires in off-road conditions	
Trouble occurs under these surface conditions (check all that apply):	Bumpy or uneven surface.
	Level Ground.
	Downhill.
	Sideslope.
	Uphill.
Please indicate on what surfaces you are experiencing issues. (check all that apply)	rocks/inclines/boulders/very rough terrain.
	Mud/ruts.
	Dirt/gravel roads.
Trouble occurs at these speeds. (check all that apply):	When driving at very low speeds (0-10 MPH).
	From standstill.
Please indicate the nature of the issue you are experiencing. (check all that apply):	The tire treads are susceptible to getting blocked on off-road surfaces.
	The tires are too susceptible to damage on off-road surfaces.
	The tires are too susceptible to punctures on off-road surfaces.
	The wheel rims are too susceptible to damage when driving on off-road surfaces.
	The wheel rims are too susceptible to collecting debris when driving on off-road surfaces.
	There is no ability to continue driving with a puncture.
	The wheel and tire size fitted is not suitable to driving on off-road surfaces.
How often does this trouble occur?	Trouble occurs regularly.

Lumbar support adjustment controls are difficult to understand/use	
Please indicate why the controls are difficult to understand/use (check all that apply):	Controls are not easy to reach.
	Controls require too much effort/force to operate.
Please indicate which seat's controls are difficult to understand/use (check all that apply):	Driver's seat.
	Front passenger seat.
Additional Comments:	Look at where Lincoln and Mercedes put them. On the door. Not some hard to reach and can't see place near floor.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate which type of seat controls are difficult to understand/use (check all that apply):	Power adjustment controls.

Horn works properly, but is difficult to understand/use	
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much effort/force to operate.
	Controls are not easy to reach.
	Controls require too much attention (must take eyes off the road) to operate.
	Operation of key fob is confusing/doesn't make sense.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.

Voice Activation System works properly, but difficult to understand/use; controls in a poor location	
Please indicate why the Voice Actication System controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much effort/force to operate.
	Controls require too much attention (must take eyes off the road) to operate.
Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	Navigation.
	Phone.
	Audio.
Please indicate which of the following best describes your concern (check all that apply):	Poor location.
	Difficult to understand.
	Difficult to use.

Fuel cap difficult to open/close	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to close.
	Difficult to open.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Bluetooth streaming audio works, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand.
	Difficult to use.

Bluetooth streaming audio works, but is difficult to understand/use	

Recliner adjustment controls are difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate which seat's controls are difficult to understand/use (check all that apply):	Driver's seat. Front passenger seat.
Please indicate which type of seat controls are difficult to understand/use (check all that apply):	Power adjustment controls.
Please indicate why the controls are difficult to understand/use (check all that apply):	Controls are not easy to reach. Controls require too much effort/force to operate.

Tire pressure monitoring system works properly, but difficult to understand/use; in poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate why the tire pressure monitoring system controls are difficult to understand/use; are in a poor location (check all that apply):	Other (please describe). With low profile tires you shipped with the air pressure can move 8-10 lbs of air.

Memory Seat controls are difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Poor location. Keeps resetting.
Please indicate why the controls are difficult to understand/use (check all the apply)	Controls are not easy to reach. Controls require too much effort/force to operate.

Issues with noise or vibration during difficult driving conditions	
Trouble occurs under these surface conditions (check all that apply):	Downhill. Level Ground. Uphill. Sideslope. Bumpy or uneven surface.
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs at these speeds. (check all that apply):	When driving at low speeds (11-20 MPH). When driving at very low speeds (0-10 MPH).
Please indicate what is causing the issue (select all that apply)	Suspension creak, groan or squeak. Air suspension.
Additional Comments:	If all the way up, it sounds like the car is going to come off the suspension.
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Dirt/gravel roads. rocks/inclines/boulders/very rough terrain.

Height adjustment controls are difficult to understand/use	
Please indicate which seat's controls are difficult to understand/use (check all that apply):	Driver's seat. Front passenger seat.
Please indicate which type of seat controls are difficult to understand/use (check all that apply):	Heated Seat Function. Memory Seat Function. Power adjustment controls.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand. Difficult to use.
Please indicate why the controls are difficult to understand/use (check all that apply):	Operation of key fob is confusing/doesn't make sense. Controls are not easy to reach. Controls require too much effort/force to operate.
Additional Comments:	Just go sit in a merceds or Lincoln.

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	Fan speed control. Automatic climate controls (if equipped). Mode control (vent, heat, defrost, etc.).
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Poor location.
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Operation of key fob is confusing/doesn't make sense. Controls require too much effort/force to operate. Controls are not easy to reach.

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
	Controls require too much attention (must take eyes off the road) to operate.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.

Operation and Functionality	
Operation and Functionality	Floor mats will not stay in place.

Lights	
Lights	Fog/water/condensation in exterior light lenses.
	Automatic high-beam headlights broken/not working.

Controls and Switches	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.

Head restraint adjustment controls are difficult to understand/use	
Please indicate which seat's head restraint controls are difficult to understand/use (check all that apply):	Front passenger seat.
	Driver's seat.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
	Difficult to understand.
Please indicate why the controls are difficult to understand/use (check all that apply):	Operation of key fob is confusing/doesn't make sense.
	Controls require too much effort/force to operate.
	Controls are not easy to reach.

Forward/backward adjustment controls are difficult to understand/use	
Please indicate which seat's controls are difficult to understand/use (check all that apply):	Front passenger seat.
	Driver's seat.
Please indicate which type of seat controls are difficult to understand/use (check all that apply):	Memory Seat Function. Useless since your side leg keeps touching them and resetting them.
	Power adjustment controls.
Please indicate why the controls are difficult to understand/use (check all that apply):	Operation of key fob is confusing/doesn't make sense.
	Controls are not easy to reach.
	Controls require too much effort/force to operate.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.

Fuel door difficult to open/close	
Please indicate where the fuel door trouble occurs:	Fuel filler door.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	The cap less fuel door is a serious mistake. Dust and dirt get into the hole. You have a drain hole in the bottom and this is not a sealed compartment. Real mistake for a off road vehicle.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to close. The little plastic door comes loose and you have to figure out how to realign it and close it. It also will not stay open with any kind of wind blowing.
	Difficult to open.

Adjustments and Controls	
Adjustments and Controls	Height adjustment controls are difficult to understand/use.
	Lumbar support adjustment controls are difficult to understand/use.
	Recliner adjustment controls are difficult to understand/use.
	Seat heater controls are difficult to understand/use.
	Ventilated seat controls are difficult to understand/use.
	Head restraint adjustment controls are difficult to understand/use.
	Memory Seat controls are difficult to understand/use; in a poor location.
	Forward/backward adjustment controls are difficult to understand/use.
	Rear folding seat/seatback controls are difficult to understand/use.

Off-Road Features and Functions	
Off-Road Features and Functions	Issues with vehicle ground clearance.
	Issues with wheels and tires in off-road conditions.

Off-Road Features and Functions	
	Issue with wheel travel on the vehicle during off-road operation.
	Issues with noise or vibration during difficult driving conditions.

Wiper blades - front	
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Repaired/replaced myself.

Issues with vehicle ground clearance	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
	Downhill.
	Bumpy or uneven surface.
	Uphill.
	Sideslope.
Please indicate the nature of the issue you are experiencing. (check all that apply):	The ground clearance underneath the vehicle is an issue.
	The ground clearance at the front of the vehicle is an issue.
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Dirt/gravel roads.
	Off-road/wading.
	rocks/inclines/boulders/very rough terrain.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	You cannot use these low profile tires off road and can the rims handle the work???!

Exterior moldings/trim pieces loose/misaligned/falling off	
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Liftgate. Rub on right side as it comes down. Too close on right side.
	Front panel/grille. Parking sensor fallout. Not properly engineered to stay in with adequate holdings.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
Approximate mileage when trouble was first noticed was:	20,000-29,999.

About You	
Please indicate your gender	Male.
What is your current marital status?	Married.
Primary vehicle in your household:	2011.
	GLK-Class.
	Mercedes-Benz.
	Primary Household Vehicle: Purchased New.
What is your primary language?	English.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
How may children 17 or under live in your household?	0.
What is your average miles per gallon (MPG) with your vehicle?	16-18 mpg.
Please indicate your highest education level	Graduate degree.
Secondary vehicle in your household:	Secondary Household Vehicle: Purchased Used.
	Lincoln.
Please indicate your ethnicity	[redacted]

Hands-Free Phone / Bluetooth system is difficult to use	
Please indicate which system commands you were using at the time of trouble (check all that apply):	Navigation.
	Satellite radio.
	Phone calls.
Please indicate why the hands-free phone / bluetooth system is difficult to use:	Need to wait until voice prompt is finished.
	Voice commands are not recognized correctly.
	Cannot find proper instruction to use.
	Operation of controls is confusing.
Do you recall specific commands that you were using?	Just about all. Must be stopped to really use well. Acts like first generation voice commands.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which of the following best describes your concern (check all that apply):	Navigation system is missing information.
	Navigation system gives wrong directions.
	Navigation system has incorrect information.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Map contains incorrect information. Navigation system provides wrong directions. Map is missing information.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Operation of key fob is confusing/doesn't make sense. Poor labeling of controls. Controls require too much attention (must take eyes off the road) to operate. Difficult to find feature in menu. Controls are not easy to reach. Controls require too much effort/force to operate. Symbols and language used are difficult to understand. Symbols/words/numbers on key fob are confusing/don't make sense.
Please indicate which of the following best describes your concern (check all that apply):	Poor location. Difficult to understand. Difficult to use.
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Power on/off, volume dial. Radio band/mode selection controls. Seek/scan/program/repeat/random/auto memory controls. Navigation system controls. Forward/reverse controls. Track up/down controls.

Fog/water/condensation in exterior light lenses	
Please indicate which exterior light lenses have fog/water/condensation in them (check all that apply):	Passenger's side headlight. Driver's side headlight.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	When the lights are on and it burns away accept in areas away from lights.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Points of Interest not well defined. Navigation system freezes-up/will not work. Difficulty accessing Points of Interest. Navigation system works, but traffic information doesn?t work / or is difficult to understand. Points of Interest incorrect. Navigation system works, but missing information; has incorrect information; gives wrong directions.

SD media slot is difficult to understand/use; is in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Poor location.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Had to get multiple software patch to work

Media	
Media	Radio. SD media slot issues. AUX input issues. USB connection issues.

Issue with wheel travel on the vehicle during off-road operation	
Please indicate on what surfaces you are experiencing issues. (check all that apply)	rocks/inclines/boulders/very rough terrain. Dirt/gravel roads.
Trouble occurs at these speeds. (check all that apply):	When driving at very low speeds (0-10 MPH).

Issue with wheel travel on the vehicle during off-road operation	
	When driving at low speeds (11-20 MPH).

Seat Material	
Seat Material	Seat material concerns.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers have poor sound quality.

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Other component(s) replaced (not listed previously)	
How much did the replacement cost?	Under $100.
Which other component(s) did you replace?	The fan behind the dash.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	9-12 months into ownership.

Air filter	
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to a different dealer than the one I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	9-12 months into ownership.

Speakers have poor sound quality	
Please indicate which media sources were being played (check all that apply):	USB Drive. CD. Satellite Radio. AM. Bluetooth Streaming. FM. SD. AUX.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which speaker has trouble (check all that apply):	All speakers in the vehicle. Go listen to a Harman kardon system. Yours are not clear, are muffled. Sounds like something from the 70s.
Trouble with speaker occurs:	At all volume levels.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command. Voice Recognition feature does not have enough functions available.

Voice Activation System	
Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Overview	
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Would you recommend this vehicle to family or friends?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Was the trouble resolved to your satisfaction?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.

Hands-Free Phone / Bluetooth system loses connection	
Is there more than one phone paired to the vehicle?	Yes.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.

Hands-Free Phone / Bluetooth system loses connection	
Additional Comments:	Doesn't always see and connect with phone.
Were you in the middle of a call?	No.
Lost connection problem happens when:	Other: Please describe when this trouble occurs.
How often does this trouble occur?	Trouble occurs regularly.

Fuel spills out while refueling	
Please describe conditions when this trouble occurs:	Read earlier comments on fuel door. Also you can not put in an additive without a funnel.
Please describe the trouble you experienced (check all that apply):	Gas pump nozzle keeps stopping/shutting off while refueling. Fuel spills out of vehicle while pumping.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Detail on High Rated Items	
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	You did this perfect. Don't change. Best of any car I have used.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Keep making it quiet.

Body panels/doors misaligned/excessive gaps/poor fit	
Approximate mileage when trouble was first noticed was:	20,000-29,999.
Please indicate the location of the trouble (check all that apply):	Liftgate.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake is too loose. Hand brake/parking brake does not adequately hold vehicle.

Hard Controls/Menu	
Hard Controls/Menu	Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Features and Controls	
Features and Controls	Horn. Alarm/anti-theft system. Tire pressure monitoring system. Adjustable Height Control. Voice Activiation System.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Climate Control. Features/Controls/Displays. Brake System. Other. Engine. Off-Road. Entertainment/Navigation System/Connectivity. Interior Trim/Storage/Windows. Seats. Steering, Handling, and Ride. Transmission and Drivetrain. Vehicle Exterior.

AM/FM/HD/Satellite radio channels have poor or no reception	
Please indicate which frequency band has trouble (check all that apply):	FM. AM.
How often does this trouble occur?	Trouble occurs regularly.

Seat material concerns	
Please indicate which seat has trouble with its material (check all that apply):	Front passenger seat. Not enough foam on outside sides. Going flat on plastic.

Seat material concerns	
	Driver's seat.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Seat material trouble is:	Other (please describe).

Fuel filler door/cap	
Fuel filler door/cap	Fuel cap difficult to open/close.
	Fuel door difficult to open/close.
	Fuel spills out while refueling.

Wiper blades - rear	
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Repaired/replaced myself.
How much did the replacement cost?	Under $100.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control works, but is difficult to understand/use.

Engine Components	
Engine Components	Air cleaner.
	Air filter.

AUX input issues	
AUX input issues	AUX input is difficult to understand/use; is in a poor location.

Vehicle Exterior Components	
Vehicle Exterior Components	Bumper - front.
	Wiper blades - front.
	Wiper blades - rear.

Navigation system works, but traffic information doesn.t work / or is difficult to understand	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information does not display at all.

Hand brake/parking brake does not adequately hold vehicle	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Where does the hand brake/parking brake problem occur?	Will not hold vehicle on a slight incline.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	When stating a name.
	When entering a number.
What button did you use?	Vr
Please indicate which words, if any, are constantly misrecognized:	If you are moving at all it will not work. You must be stopped and quiet-no fan.
Do you usually set HVAC vent direction toward ceiling?	No.

Tire pressure monitoring system	
Tire pressure monitoring system	Tire pressure monitoring system works properly, but difficult to understand/use; in poor location.

Adjustable height control works, but is difficult to understand/use	
Please describe the trouble experienced with the adjustable height controls:	Other (please describe). The front end goes to low. Take off the gray lowest grille part. Vehicle goes down right but gray thing is too low and catches On curbs.
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	Park Mode.

Other Components

Other Components	
Other Components	Other component(s) replaced (not listed previously).

Alarm/anti-theft system is broken/not working	
Additional Comments:	Do I have one????
Please indicate if your alarm/anti-theft system is:	Don't know.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Not logical to what you need. For instance where is museums

Roof rails are broken/not working properly	
Please describe conditions when this trouble occurs:	The screws you use on the top are rusting badly.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.

Liftgate	
Liftgate	Abnormal squeaks/rattles/noises coming from liftgate.
	Liftgate is broken/not working.

Operation and Performance	
Operation and Performance	Air conditioner takes too long to get cold.

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception.
	Bluetooth streaming audio works, but is difficult to understand/use.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Controls are difficult to understand.
	Obstructed/interferes with other controls/objects.
	Controls are difficult to locate.
Additional Comments:	If you are stopping for a car that is turning it will go off sometimes.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system is difficult to use.
	Hands-Free Phone / Bluetooth system loses connection.
	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	When entering information.
	When stating a name.

USB connection is difficult to understand/use; is in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Poor location.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Very hard to reach. Also should have one in top glove box.

Roof Rails	
Roof Rails	Roof rails are broken/not working properly.

Abnormal Noises	
Abnormal Noises	Squeak/rattle/abnormal noises from door panels.
	Squeak/rattle/abnormal noises from instrument panel/dashboard.

Detail on Low Rated Items

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	If you are engineering the next version come out and I will show you what to do to make this perfect.

Voice Recognition feature does not have enough functions available	
Please describe additional functions you would like to have:	More everyday talk. More of what you need.

Engine Driveability (stumbles/hesitates/surges)	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.

Features/Controls/Displays>Features and Controls>Horn>	
Horn	Horn works properly, but is difficult to understand/use.

SD media slot issues	
SD media slot issues	SD media slot is difficult to understand/use; is in a poor location.

USB connection issues	
USB connection issues	USB connection is difficult to understand/use; is in a poor location.

Garage door opener broken/not working

Please indicate if your garage door opener is:	Factory installed.
Please describe the trouble you experienced:	Works intermittent

Vehicle Issues/Things Gone Wrong

Continuous Quality Insight	Features/Controls/Displays. Vehicle Exterior. Interior Climate Control. Brake System.

Operation and Performance	
Operation and Performance	Front heating, ventilation and air conditioning vents are broken/not working.

Features and Controls	
Features and Controls	Garage door opener.

Front heating, ventilation and air conditioning vents are broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which control is broken/not working properly (check all that apply):	Fan speed control. always on low

Overview	
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Would you recommend this vehicle to family or friends?	No.
Did you review the Printed User Guide?	No.
Did you review the Owner's Information DVD?	No.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, coordinating with next maintenance visit (such as oil change).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Detail on High Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Braking=questionable. Parking and inanimate object warning not acceptable.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	Difficult to find good adjustment
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	no problems thus far
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	ok
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	ok
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	OK. Poor economy
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Seats ok
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	good sound
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	ok
You rated ride quality High. Use this space to provide any specific comments you would like to share.	As expected.
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	Could not set seat air conditioning. too low
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	ok
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	ok--as expected
You rated engine sound High. Use this space to provide any specific comments you would like to share.	Sounds good. Exhaust should refect thepower availale.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	As expected. BUT----braking worse than expected.
	ok

Detail on High Rated Items	
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	Ok--as expected.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Cheap or poor warning when passing fixed median or other non threat obstacle.
You rated brake responsiveness/effort Low. Use this space to provide any specific comments you would like to share.	Vehicle seems to run too far when brake is applied.

What Can We Do Better?	
Feedback/Concerns:	Poor warning system. Need to replace or adjust.
What has Chrysler done right?	Power

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Vehicle warning system for objects while driving. 561 702 5745
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Welcome	
Please tell us how many miles are currently on your vehicle:	0-999.
Are you the primary driver of this vehicle?	Yes.

Excessive wind noise	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Audible indicator sound is not loud enough. Sounds like a rattle, not an alarm
	Other (please describe). Does not work until too late

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Garage door opener	
Garage door opener	Garage door opener broken/not working.

About You

How may children 17 or under live in your household?	0.
What is your average miles per gallon (MPG) with your vehicle?	16-18 mpg.
Secondary vehicle in your household:	1981.

About You

	Mercedes-Benz.
	240 Series.
	Secondary Household Vehicle: Purchased New.
Please indicate your gender	Female.
Please indicate your occupation status.	Retired.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your ethnicity	[redacted]
Primary vehicle in your household:	Primary Household Vehicle: Purchased New.
	Tesla.
Please indicate your occupation.	[redacted]
Please indicate the primary driver's age.	[redacted]
Please indicate your highest education level	Graduate degree.
What is your current marital status?	[redacted]d.
What is your total household income (before taxes)?	More than $200,000.

Overview

Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Other (please explain further, if applicable). I thought it was built into the car for safety....actually thought of trading in my new car....love Jeeps
Please explain further about your choice to recommend your vehicle:	I find the heavy panel from the windshield to the door...with the rear view mirror....creates a blind spot...but I have had 5 jeeps and love them
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.

Other

How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe the other trouble you experienced:	when I approach a car the BRAKE and warning comes on too often...sometimes slamming on the brakes quite violently...once because there was a car on my left side...no one in front
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Welcome

Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	30,000-39,999.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command

How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	When stating a name.
What button did you use?	Voice command.
Do you usually set HVAC vent direction toward ceiling?	No.

Seat Squeak/Rattle

How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Trouble occurs under these surface conditions (check all that apply):	Bumpy or uneven surface. bridge trasitions
Please indicate which seat has a squeak/rattle (check all that apply):	Driver's seat.
Seat Squeak/Rattle	Seat Squeak/Rattle.

Adjustable height control is broken/not working

How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	Aero Mode.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Features and Controls

Features and Controls	Wipers and washers. Active Suspension System. Adjustable Height Control. Cruise control system. Door locks/key fob entry system. Garage door opener.

Welcome

Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call

Does the issue occur when speaking at regular volume?	Yes.
Sound quality is poor: (check one)	For the receiver of the call.
Do you recall your cellular coverage at the time?	Full cellular coverage.
Do you usually set HVAC vent direction toward ceiling?	No.
At other times during use does your phone have poor call quality?	No.
How often does this trouble occur?	Trouble occurs regularly.

Seat material is sagging/loose/parting seams

Please indicate which seat is sagging/loose/parting seams (check all that apply)	Driver's seat. Rattling and clicking under driver seat when traversing bumps on highway.

Vehicle Issues/Things Gone Wrong

Continuous Quality Insight	Engine. Seats.

Vehicle Issues/Things Gone Wrong	
	Transmission and Drivetrain.
	Interior Trim/Storage/Windows.
	Steering, Handling, and Ride.
	Entertainment/Navigation System/Connectivity.
	Features/Controls/Displays.
	Vehicle Exterior.

Engine Power	
Engine power	Engine power is less than expected.

Seat material concerns	
Please indicate which seat has trouble with its material (check all that apply):	Front passenger seat. Bolster is sagging and there is large wave the front edge of the seat.
	Driver's seat.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Seat material trouble is:	Seat material sags/wrinkles or is loose fitting/unsecured.

Garage door opener	
Garage door opener	Garage door opener broken/not working.

Key fob entry system works properly, but is difficult to understand/use	
Please indicate why the key fob entry system controls are difficult to understand/use; layout is poor (check all that apply):	Key fob buttons difficult to operate. When locking the doors with the button on the door handle half the time the doors lock then unlock.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Would like to be able to unlock driver door with one touch and all doors with second touch.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Please indicate which navigation system item has trouble (check all that apply):	Map contains incorrect information. Has not been updated to show road constructed in the past 16 months.
Additional Comments:	When using the navigation by POI/Brand name and multiple results are displayed with a distance. Many times having only a distance does not provide enough distinction to discern where the location is. This leads to a trial and error process that is time consuming.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	When stating a name.

Adjustments and Controls	
Adjustments and Controls	Seat heater controls are difficult to understand/use.

Seat Material	
Seat Material	Seat material concerns.
	Seat material is sagging/loose/parting seams.

Cruise control system works properly, but difficult to understand/use; controls in a poor location	
Please indicate why the cruise control system controls are difficult to understand/use; are in a poor location (check all that apply):	Symbols/words/numbers on key fob are confusing/don't make sense. When adaptive cruise is active, I with the display would differentiate between a vehicle being detected and the vehicle speed being actively adapted.
	Other (please describe). Buttons on steering wheel must be pressed hard to activate.

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	iPhone 4s
Please choose your cell phone carrier	AT&T Mobile.
If known, please tell us your software version	iOS 8.1
Please choose your cell phone brand	Apple.
Entertainment/Navigation System/Connectivity	none

Cruise control system is broken/not working

Cruise control system is broken/not working	
Additional Comments:	When mentioned to the service department they had no input on the situation.
Please indicate what type of trouble was experienced with the cruise control system (check all that apply):	Adaptive Cruise Control (ACC) allows too much distance between vehicles. Would like to be slightly closer for aerodynamic efficiency at highway speeds. Adaptive Cruise Control (ACC) is affected by vehicles in other landes. Vehicles pulling into other lane but close to the line can cause aggressive braking. Speed Resume function does not work properly. Upon press of button cruise will cancel itself and beep while displaying a message for a short time.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
How often does this trouble occur?	Trouble occurs intermittently.

Engine power is less than expected	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Does trouble only occur when vehicle is carrying multiple passengers and/or heavy cargo?	No.
Trouble occurs while vehicle is (check all that apply):	Accelerating. Highway passing speeds.
What type of fuel do you most often put into your vehicle?	Diesel.
How often does this trouble occur?	Trouble occurs regularly.

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.

Center console has gaps/poor fit	
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe in the box below where on the center console the trouble with excessive gaps/poor fit of materials is located:	Door at bottom of center stack has an uneven gap at the bottom.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Body panels/doors misaligned/excessive gaps/poor fit.

Appearance	
Appearance	Center console has gaps/poor fit.

Cruise control system	
Cruise control system	Cruise control system is broken/not working. Cruise control system works properly, but difficult to understand/use; controls in a poor location.

Seat heater controls are difficult to understand/use	
Please indicate which seat has trouble (check all that apply):	Driver's seat. Front passenger seat.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate why the controls are difficult to understand/use (check all that apply):	Other (please describe). High heat is reduced to low after too short a time.

Fog/water/condensation in exterior light lenses	
Please describe conditions when this trouble occurs:	Cool nights after a warm humid day.
Please indicate which exterior light lenses have fog/water/condensation in them (check all that apply):	Driver's side headlight. Passenger's side tail light.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.

Check Engine light indicated trouble	
What type of fuel do you most often put into your vehicle?	Diesel.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please describe conditions when this trouble occurs:	Failed catalytic converter.

Check Engine light indicated trouble	
Additional Comments:	Replaced under warranty.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Did you also experience an engine performance issue while the "Check Engine" light was on?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Was the "Check Engine" light your first indication there was trouble?	Yes.

Rear window wiper/washer controls work properly, but difficult to understand/use; in poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. The intermittent speed setting has too high of a frequency.

Body panels/doors misaligned/excessive gaps/poor fit	
Please indicate the location of the trouble (check all that apply):	Driver's side front door. Edge of door protrudes out from flush with rear door.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Garage door opener broken/not working	
Please indicate if your garage door opener is:	Factory installed.
Please describe the trouble you experienced:	Range is limited, may time we must be within 10' of the door.

Fuel spills out while refueling	
Please describe the trouble you experienced (check all that apply):	Fuel spills out of vehicle while pumping. Any additional fuel addition after initial click of pump.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	When fueling.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Fuel filler door/cap	
Fuel filler door/cap	Fuel spills out while refueling.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control is broken/not working.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system has poor sound quality at far end. Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system works properly, but is difficult to understand/use.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Active suspension system is broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.
Please describe the trouble experienced with the active suspension system:	Service Air Suspension Immediately.
Additional Comments:	Vehicle currently in off highway status waiting for parts.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Engine Exhaust System	
Engine exhaust system	Exhaust system troubles.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Text messaging works properly, but is difficult to understand/use	
Please describe the trouble you experienced (check all that apply):	Other (please describe). Does not always read message.
Additional Comments:	

Text messaging works properly, but is difficult to understand/use	
	Would be great if the phone end/hangup button on the steering wheel would clear the text message pop up on the main screen.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Electronic Engine Controls (Check Engine)	
Electronic Engine Controls ('Check Engine')	"Check Engine" light indicated trouble.

Lights	
Lights	Fog/water/condensation in exterior light lenses.

Wipers and washers	
Wipers and washers	Rear window wiper/washer controls work properly, but difficult to understand/use; in poor location.

Detail on High Rated Items

You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	I like the illumination of the door handles, window and door lock controls, map compartments, cup holders and start button.

Detail on High Rated Items	
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	I was very disappointed when shopping in the summer of 2013 that the 2014 Jeep colors did not include Inferno Red Crystal Pearl nor Bright Chrome Silver. However, my so-called Billet Silver paint is in excellent condition.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	I wondered if I would feel the car was under powered, since my previous Grand Cherokee had a 5.7 liter V-8. However, so far I have not felt that I needed more acceleration that is available.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	Again, very quiet.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	I don't believe a luxury car would be quieter.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	I-sometimes--appreciate the system's trying to route me around traffic delays, but would find an alert that this is being done very helpful. I would also prefer a range of voices from which to choose.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	Not a new feature, but I really appreciate the paddles 4 downshifting on steep hill descents.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	The Quadra Lift feature is a great help with this.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	This was another reason I purchased a 2014 model. I wanted the 8 - speed electric transmission.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	he automatic dimming feature works well. If anything, it is too sensitive. The lights dim when striking a reflective object. (This happens often when rounding curves in residential areas as the lights encounter house windows.)
You rated engine sound High. Use this space to provide any specific comments you would like to share.	I was referring to the very quiet nature of the engine
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	This is why I took the plunge on a new 2014 model. I wanted all of the special safety features. I was annoyed that in order to get the Technology Package which contains those I had to also order the much more expensive luxury package, but I have to admit that I have enjoyed the features you came with that as well.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	I am getting 16 miles per gallon in the city and 24 plus miles per gallon in highway driving. I love the fact that with the 25 gallon fuel tank I have a 600 mile range.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	I like the sleek look of the front. However, a part of me misses the classic Jeep round headlights.

	Grand Cherokee.
Please indicate your gender	[redacted].
What is your current marital status?	[redacted].
What year were you born?	1[redacted]
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
Please indicate your ethnicity	[redacted]
What is your primary language?	English.
Please indicate your occupation.	Other.
Please indicate your highest education level	PhD.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
Please indicate your occupation status.	Retired.
What is your total household income (before taxes)?	$100,000 - $124,999.
Please indicate the primary driver's age.	[redacted]

Other component(s) replaced (not listed previously)	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.

Other component(s) replaced (not listed previously)	
How much did the replacement cost?	Under $100.
When was the replacement made on your vehicle?	12-18 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Other	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe conditions when this trouble occurs:	last visit to a dealer about this problem seems to have fixed it.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe the other trouble you experienced:	Forward collision warning system did not function for some time.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Overview	
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Was the trouble resolved to your satisfaction?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer. Took to the dealer I purchased my vehicle from.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Other Components	
Other Components	Other component(s) replaced (not listed previously).

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	20,000-29,999.

What Can We Do Better?	
Feedback/Concerns:	My previous Grand Cherokee, a 2006 model which I purchased in 2008, developed many serious problems around the 90,000 mile mark. I spent about $4,000 for work at two different establishments that spring, and later in that summer traded the car in on a new model.
What has Chrysler done right?	Apparently a lot, from my perspective. Despite the issue described above this is my fourth consecutive Grand Cherokee. I like their combination of offroad capability with luxurious highway driving.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location. Clock broken/not working. Outside temperature gauge works properly, but is difficult to understand/use; controls/displays are in a poor location.

Overview	
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings. Car and Driver.
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Please explain further about your choice to recommend your vehicle:	No one is ever going to love every single thing about a vehicle.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Other (please explain further, if applicable). Dealer can't fix most items I don't like. The issue I'm having with the vehicle not shutting down properly will be discussed with dealer when I get a better handle on what's going on.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please rate your overall level of satisfaction with the Printed User Guide	3 (neither satisfied nor dissatisfied).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Controls are not easy to reach. have to lean forward Controls require too much effort/force to operate. have had to touch screen twice many times Controls are not sensitive enough. have to hit multiple times Difficult to find feature in menu. can't think of what off hand but this has been an issue a few times Touchscreen is slow to respond. have to hit multiple times
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Settings. have had trouble finding how to make changes to things Power on/off, volume dial. haven't figured out how to get radio volume on the steering wheel
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. I have to lean forward and reach to get to screen and have to actually hit it a few times

Rear seat entertainment system audio/controls/menus/video are difficult to understand/use; are in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand. my 10 year old has problems using this system. She has had a system in every vehicle we have had and been able to operate with ease. Poor location. absolutely hate the location of this system. It takes up the entire storage compartment in the center console. On my lexus each headset has it's own player that is accessed right on it. the system can be used alone or both together.
Please indicate which rear seat audio/controls/menus/video are difficult to understand/use, or are in a poor location (check all that apply):	Other (please describe). don't like this system being in the console. don't like that you have to use the remote to control system either. Video screen controls. not sure, my daughter just complains
Additional Comments:	not sure just isn't as user friendly as most

Horn works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. you can't just do a quick beep beep
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much effort/force to operate. you can't just do a quick beep beep

Rear seat entertainment DVD/Blu-Ray player	
Rear seat entertainment DVD/Blu-Ray player	DVD/Blu-Ray player disc loading trouble.

Garage door opener works properly, but is difficult to understand/use; controls in a poor location	
Please indicate if your garage door opener is:	Factory installed.
Please describe conditions when this trouble occurs:	just connecting it to your home garage door
Please describe the trouble you experienced:	user manual not user friendly. this took longer to connect to than any other can we have purchased

What Can We Do Better?	
What has Chrysler done right?	lots
Feedback/Concerns:	Would love to discuss some of these concerns with someone

Detail on High Rated Items	
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	not my thing but my husband says it's good
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	works well
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	i like all the bells and whistles on my vehicles. this has some nice ones that allow me to be comfortable in a vehicle that allows me to pull a lot of weight and still be my daily driver
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	has great acceleration when needed
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	i think it's a good looking vehicle
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	good looking vehicle. my husband has complained about when you open the door that area is large and he says will get your pants dirty when you get in and out since it's so large it will catch dirty stuff

DVD/Blu-Ray player disc loading trouble	
Additional Comments:	HATE LOCATION

Other	
Please describe the other trouble you experienced:	I have many likes on the vehicle. The dislikes are as follows: HATE gear shifter. HATE Blue Ray player location, Hate lack of storage in front of vehicle, HATE single disc, do not like the touch screen
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.

Windshield wiper/washer controls work properly, but difficult to understand/use; in a poor location	
Additional Comments:	just don't like location
Please indicate which of the following best describes your concern (check all that apply):	Poor location. just don't like
Please indicate which feature's controls are difficult to understand/use (check all that apply):	Windshield wipers. just don't like
Please indicate which feature's controls are in a poor location (check all that apply):	Windshield wipers. just don't like location

Garage door opener	
Garage door opener	Garage door opener works properly, but is difficult to understand/use; controls in a poor location.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Climate Control. Entertainment/Navigation System/Connectivity. Features/Controls/Displays. Other. Interior Trim/Storage/Windows.

Rear Seat Entertainment	
Rear Seat Entertainment	Rear seat entertainment system difficult to understand/use. Rear seat entertainment DVD/Blu-Ray player. Rear seat entertainment system audio/controls/menus/video.

Features and Controls	
Features and Controls	Wipers and washers. Alarm/anti-theft system. Ignition switch. Garage door opener. Horn.

Entertainment/Navigation System/Connectivity	
If known, please tell us your software version	lollipop
Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Samsung.
Please tell us your cell phone model	Galaxy S4

Heating, ventilation and air conditioning doesnt maintain desired temperature	
Additional Comments:	not sure of problem. I should be able to set temp on panel for inside car and car maintain that temp. It does not. I have to adjust the fan in order to get the vehicle to cool down.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	thought it had been turned off until one day it almost got me in a wreck when it put the brakes on for me.
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Other (please describe). super annoying

Clock broken/not working	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate what type of trouble was experienced with the clock (check all that apply):	Clock runs fast/slow. time was off. I had to set manually to get it correct.
Please describe conditions when this trouble occurs:	it only happened once
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Ignition switch broken/not working

Ignition switch broken/not working	
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	think I have vehicle turned off and it's not completely shut down
Please indicate what type of trouble was experienced with the ignition switch (check all that apply):	Other (please describe). have had the vehicle stay on after i've turned it off
How often does this trouble occur?	Trouble occurs intermittently.

Media	
Media	CD.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	interior design [redacted] 7 AM - 8 PM CST M-F
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Detail on Low Rated Items	
You rated vehicle storage and space usage Low. Use this space to provide any specific comments you would like to share.	it just doesn't have enough storage.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	storage, cd player, shifter

Outside temperature gauge works properly, but is difficult to understand/use; controls/displays are in a poor location	
Please describe conditions when this trouble occurs:	nothing is wrong with it it's just confusing with the inside temp I guess. I think it's in a poor location

Fan/blower makes excessive noise	
Please describe conditions when this trouble occurs:	only because i have to keep fan adjusted higher to keep car cool
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe when the fan/blower noise occurs (check all that apply):	Other (please describe). not at low speeds
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe the fan/blower noise (check all that apply):	Other (please describe). not sure, just loud. I have to adjust the fan in order to keep vehicle cool enough. fan is just loud in my opinion.
How often does this trouble occur?	Trouble occurs regularly.

Operation and Performance	
Operation and Performance	Fan/blower makes excessive noise. Heating, ventilation and air conditioning doesn't maintain desired temperature.

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.

Ignition switch	
Ignition switch	Ignition switch broken/not working.

Rear seat entertainment system difficult to understand/use	
Additional Comments:	have never purchased a vehicle in this price range that only had the ability to play one disc. this is a major annoyance to me.

Features/Controls/Displays>Features and Controls>Horn>	
Horn	Horn works properly, but is difficult to understand/use.

Rear seat entertainment system audio/controls/menus/video	
Rear seat entertainment system audio/controls/menus/video	Rear seat entertainment system audio/controls/menus/video are difficult to understand/use; are in a poor location.

Wipers and washers	
Wipers and washers	Windshield wiper/washer controls work properly, but difficult to understand/use; in a poor location.

Welcome	
Please tell us how many miles are currently on your vehicle:	30,000-39,999.
Are you the primary driver of this vehicle?	Yes.

Shift between gears is rough/harsh under normal driving conditions	
Going into which gear/gears does the trouble occur? (check all that apply)	3rd Gear. 6th Gear. 1st Gear. 2nd Gear. 5th Gear. 4th Gear.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Braking. Hard acceleration. City driving/stop-and-go traffic.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Not sure.
How often does this trouble occur?	Trouble occurs regularly.

Hesitation or delay when shifting between gears	
Going into which gear/gears does the trouble occur? (check all that apply)	4th Gear. 5th Gear. 6th Gear. 7th Gear.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Hard acceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Not sure.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Shifts at wrong times	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Braking. Coasting (no gas pedal applied).
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear. 1st Gear.
Are you using your vehicle for towing when the problem occurs?	No.

SD media slot is broken/not working	
Where is the location of the media port?	Center console.
Please describe the trouble you experienced (check all that apply):	Other (please describe). Just freezes
How often does this trouble occur?	Trouble occurs intermittently.

USB connection is broken/not working	
Where is the location of the media port?	Center console.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate if you are able to do either of the following (check all that apply):	Charge devices.
Please describe the trouble you experienced (check all that apply):	Other (please describe). It freezes

Front Doors	
Front Doors	Front doors are difficult to open/close.

Automatic Transmission	
Automatic Transmission	Hesitation or delay when shifting between gears. Shift between gears is rough/harsh under normal driving conditions. Shifts at wrong times.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Climate Control. Other. Transmission and Drivetrain. Entertainment/Navigation System/Connectivity. Vehicle Exterior.

Air from vents smells moldy/stale	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate when the odor/smell is present (check all that apply):	Odor is only noticeable when the air conditioner is used. Odor/smell is noticeable for only a short time after air conditioner/heater/defroster is turned on.
How often does this trouble occur?	Trouble occurs intermittently.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	When other people in the car are talking. When stating a name. When there is outside noise or the blower is on.

Front doors are difficult to open/close	
Please indicate which door is difficult to open/close (check all that apply):	Passenger's side front door. Driver's side front door.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to close. Need to close little hard

Entertainment/Navigation System/Connectivity Components	
Entertainment/Navigation System/Connectivity Components	Radio/CD player/CD changer.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate which controls/menus are broken/not working properly (check all that apply):	Navigation system controls. Audio controls (bass, treble, fade, balance, etc.). Radio band/mode selection controls.
Additional Comments:	It just freezes. happened 7-8 times.

Radio/CD player/CD changer	
How much did the replacement cost?	Under $100.
Where did you take your vehicle to have the component replaced?	Took to a different dealer than the one I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
When was the replacement made on your vehicle?	18-24 months into ownership.

Odor/smell	
Odor/smell	Air from vents smells moldy/stale. Unpleasant interior smell/odor.

Touchscreen Controls	
Touchscreen Controls	Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working.

Excessive wind noise	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.

Excessive wind noise	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate the location of the wind noise (check all that apply):	Driver's side front door window. Passenger's side front door.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system freezes-up/will not work.

Media	
Media	SD media slot issues. USB connection issues.

Navigation system freezes-up/will not work	
How often does this trouble occur?	Trouble occurs intermittently.

USB connection issues	
USB connection issues	USB connection is broken/not working.

Overview	
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	It's rugged. Poweful and capable to handle any terrain
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Other (please explain further, if applicable). i took to the dealers, they simply say did software update. nothing works
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

What Can We Do Better?	
What has Chrysler done right?	Off road capability
Feedback/Concerns:	Software is not stable. I have complained many times about freezing navigation and radio but no one able to fix this.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	646 707 1231
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

SD media slot issues	
SD media slot issues	SD media slot is broken/not working.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command. Voice Recognition feature does not have enough functions available.

Unpleasant interior smell/odor	
Please indicate the unpleasant interior smell/odor (check all that apply):	Air from the vents smell.

Wind Noise	
Wind Noise	Excessive wind noise.

Which of the following best describes the area you live in?	Suburban.

No Concerns

Did you review the Printed User Guide?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Did you review the Owner's Information DVD?	No.
	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

No Concerns	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	
Have you taken your vehicle to an authorized dealer for any reason? (check all that apply):	Took to the dealer I purchased my vehicle from for a warranty repair. recall for front boot and software update
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	I've been extremely happy with my Jeep SRT. Great ride, performance, features. Love it.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	No Concerns.

What Can We Do Better?	
What has Chrysler done right?	I've moved from back-to-back Infiniti FX50's to the Jeep SRT, and have been stunned at the quality as well as the performance. I really love it.
Feedback/Concerns:	The vent trim is large and silver, so it's very reflective. Consequently, on a sunny day, it is very visible in the side mirrors, making the mirrors difficult to use. Making them black would eliminate that problem. thanks!

Overview	
Did you review the Printed User Guide?	No.
Did you review the Owner's Information DVD?	No.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Need to get rid of sent from jeep message, needs better seat cooling. Lift gate close button in rear is in an awkward location. Need more plastic / wood trim options

Paint is uneven: has sags, runs, overspray, thin spots, etc.	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the location of the paint issue (check all that apply):	Cowl panel (area between windshield and hood). Rear panel.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Speakers rattle	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate which speaker has trouble (check all that apply):	Front driver's side speakers.
Please indicate which media sources were being played (check all that apply):	Bluetooth Streaming. Satellite Radio.
Speaker trouble occurs:	Only at high volume levels.
How often does this trouble occur?	Trouble occurs intermittently.

About You	
Vehicle quality	5.
Secondary vehicle in your household:	6 Series Gran Coupe. BMW. 2013. Secondary Household Vehicle: Purchased New.
What is your primary language?	English.
Trade-in allowance	1.
How may children 17 or under live in your household?	1-2.
Ability to test drive	2.
Convenience of dealership location	3.
Vehicle availability	4.
Dealership treatment	4.
Please indicate your highest education level	High school degree / GED.
When considering this vehicle	Interact with dealership by email. Visit the dealership. Research online. Interact with dealership by phone.
Which, if any, influenced your purchase decision? (check all that apply):	Internet research. On-Line blogs or forums.
Please tell us about the vehicle you replaced (if applicable)	Land Rover. Replaced Vehicle: Purchased New. 2010. Range Rover Sport.
Did you purchase or lease your vehicle?	Lease.
Is this your first new vehicle ever purchased / leased?	No.
Which of the following best describes the area you live in?	Urban.
What price did you pay for your vehicle?	53000
Please indicate your occupation status.	Employed.
Vehicle fuel economy	3.
Price	4.
Vehicle performance	5.
Please indicate your ethnicity	[redacted]

Hands-Free Phone / Bluetooth system loses connection	
Connection problem happens on:	Bluetooth connection between cell phone and the radio.
Is there more than one phone paired to the vehicle?	No.
Additional Comments:	Disconnect and reconnect happen a lot

Hands-Free Phone / Bluetooth system loses connection	
Lost connection problem happens when:	Other: Please describe when this trouble occurs.
Were you in the middle of a call?	Yes, and transferred call to headset.
How often does this trouble occur?	Trouble occurs intermittently.

Cigarette Lighter/Accessory Power Plug	
Cigarette Lighter/Accessory Power Plug	Cigarette Lighter/Accessory Power Plug broken/not working.

Text messaging works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Takes to long. Voice explanation needs to be shorter

Features and Controls	
Features and Controls	Door locks/key fob entry system. Cigarette Lighter/Accessory Power Plug. Sunroof/moonroof controls.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Entertainment/Navigation System/Connectivity. Vehicle Exterior. Features/Controls/Displays.

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call	
Sound quality is poor: (check one)	For the receiver of the call.
Do you usually set HVAC vent direction toward ceiling?	No.
Do you recall your cellular coverage at the time?	Full cellular coverage.
At other times during use does your phone have poor call quality?	No.
How often does this trouble occur?	Trouble occurs regularly.
Does the issue occur when speaking at regular volume?	Yes.

Liftgate is difficult to open/close	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to close.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs intermittently.

Via Mobile	
Via Mobile	Via Mobile works properly, but is difficult to understand/use.

Paint blemish/dirt in paint/foreign material under surface	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the location of the paint issue (check all that apply):	Rear panel. Driver's side front door.

Sunroof/moonroof broken/not working	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate which feature your vehicle is equipped with:	Sunroof/Moonroof.
Please indicate what type of trouble was experienced with the sunroof/moonroof (check all that apply):	Sunroof/moonroof does not slide open/close. Doesn't always open or close automatically. Sometimes need to hold button
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble with the sunroof/moonroof occurs:	Both opening and closing.
How often does this trouble occur?	Trouble occurs intermittently.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Information in the Printed User Guide is easy to find and access	4 (agree).
Information in the Smartphone Application is easy to find and access	4 (agree).
Printed User Guide covers the necessary features	5 (strongly agree).
Which feature or section of the Smartphone Application did you find most helpful and why?	Starting car

Overview	
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, have not had a chance/inconvenient location.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Did you review the Printed User Guide?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Please provide feedback on how Chrysler can improve the Smartphone Application	Takes too long to send commands to car.
Smartphone Application covers the necessary features	4 (agree).
Printed User Guide format is easy to understand and use	5 (strongly agree).
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).
Did you review the Owner's Information DVD?	No.

Cigarette Lighter/Accessory Power Plug broken/not working	
Please indicate the location of the cigarette lighter/power plug (check all that apply):	Front center console (between seats).
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate which is broken/not working (check all that apply):	Power plug. Sometimes need to unplug and replug the cable to get power again
How often does this trouble occur?	Trouble occurs intermittently.

Liftgate	
Liftgate	Liftgate is difficult to open/close.

Key fob entry system works properly, but is difficult to understand/use	
Please indicate why the key fob entry system controls are difficult to understand/use; layout is poor (check all that apply):	Other (please describe). Panic alarm goes off too easily
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Panic alarm goes off too easily. Hard to turn off.

Speakers have poor sound quality	
Please indicate which media sources were being played (check all that apply):	Satellite Radio. Bluetooth Streaming. USB Drive.
Trouble with speaker occurs:	At all volume levels.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which speaker has trouble (check all that apply):	Rear passenger's side speakers.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Welcome	
Please tell us how many miles are currently on your vehicle:	5,000-6,999.
Are you the primary driver of this vehicle?	Yes.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	AT&T Mobile.
If known, please tell us your software version	Lollipop 5.1
Please choose your cell phone brand	Motorola.
Please tell us your cell phone model	Nexus 6

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Via Mobile works properly, but is difficult to understand/use	
Please indicate which feature(s) of Via Mobile are difficult to understand/use (check all that apply):	Pandora.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand. Need to have uconnect open on phone

Sunroof/moonroof controls	
Sunroof/moonroof controls	Sunroof/moonroof broken/not working.

USB connection issues	
USB connection issues	USB connection is difficult to understand/use; is in a poor location.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition feature does not have enough functions available.

Detail on High Rated Items	
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	Much better value than range rovers I used to drive

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system has poor sound quality at far end. Hands-Free Phone / Bluetooth system loses connection.

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system works properly, but is difficult to understand/use.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Paint blemish/dirt in paint/foreign material under surface. Paint is uneven: has sags, runs, overspray, thin spots, etc..

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers rattle. Speakers have poor sound quality.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	Alert system too sensitive. Sometimes goes off when completely not necessary

USB connection is difficult to understand/use; is in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. No android support for music

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Media	
Media	USB connection issues.

Please indicate your occupation status.	Employed.
Please indicate your highest education level	Graduate degree.
Please indicate your gender	[redacted].
Convenience of dealership location	1.
Trade-in allowance	1.
How may children 17 or under live in your household?	1-2.
Dealership treatment	4.
Vehicle availability	5.
Vehicle quality	5.

About You	
Vehicle styling	5.
What is your primary language?	English.

Cruise control system works properly, but difficult to understand/use; controls in a poor location	
Additional Comments:	Absolutely love my Adaptive Cruise. Would absolutely love if you did an update where we could have the Stop and Go features. It's great for in-town driving. I hope this comes available. Would pay to have this upgrade to the car!!!
Please indicate why the cruise control system controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much effort/force to operate. See above.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Intermittently, usually on first use after startup, the Adaptive Cruise control fails to set. I can immediately try again and usually works. Doesn't matter how long the car is on or how long the system has been turned on. It does it sometimes during travel but less so than on first use. Again a second/third try usually gets it engaged.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Additional Comments:	Bluetooth connection sometimes doesn't show track into. Won't let you access your "music" to select other artists/songs. Intermittently won't show track info, wrong timecode. Never shows music artwork.
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Audio controls located on steering wheel. Not customizable!!! Volume adjust is on right, but volume knob is near steering wheel. So same hand. Would like volume on left or to be able to customize steering controls. Doesn't make sense to me to have volume there. I'd switch up some other controls to on steering (customization).
	Radio channel preset buttons. Takes getting used to that the Left/Right arrow for presets is always on the right (doesn't shift when going to second list).
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate. Bluetooth audio is a beast. It works right about half the time.
	Other (please describe). Don't' automatically switch audio to USB just because a phone was plugged up. Sometimes is passenger wanting to charge.
Please indicate which of the following best describes your concern (check all that apply):	Poor location. Steering wheel controls, explained below.

Outside temperature gauge broken/not working	
Please describe conditions when this trouble occurs:	Cold start. Does not reflect accurate outdoor temp. Will cause Auto climate controls to go bizerk. Onetime read 120F on a 75F day. Not in direct sun.

USB connection is difficult to understand/use; is in a poor location	
Please describe conditions when this trouble occurs:	Plugging up phone
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Don't switch my audio just because a phone is plugged up. Sometimes its a passenger using the USB to charge.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Additional Comments:	Probably due and update, because map data is from like 2012 or 13, but no updates available for model. Owners shouldn't have to pay for map updates, since if I bought a in car GPS, map updates are free on that device.
Please indicate which navigation system item has trouble (check all that apply):	Map is missing information.
	Map contains incorrect information.
Please indicate which of the following best describes your concern (check all that apply):	Navigation system is missing information.
	Navigation system has incorrect information.

Uconnect Access features are confusing	
Please describe conditions when this trouble occurs:	Using Via Mobile
Additional Comments:	Don't understand why the app has to be open. Half the time UConnect won't figure out the app is open to use it anyways.

Hands-Free Phone / Bluetooth system loses connection	
Additional Comments:	Very annoying. Usually happens during calls. Distracting because I have to find my phone in my pocket to continue call.
Lost connection problem happens when:	In the middle of a call.
Were you in the middle of a call?	Yes, and transferred call to headset.

Hands-Free Phone / Bluetooth system loses connection	
How often does this trouble occur?	Trouble occurs intermittently.
Is there more than one phone paired to the vehicle?	Yes.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.

Hesitation or delay when shifting between gears	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
Additional Comments:	Usually after startup. Will hesitate/lunge going from 1st to 2nd or 2nd to 3rd. Doesn't happen in higher gears, doesn't happen often after car is warm.
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear.
	1st Gear.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration.
How often does this trouble occur?	Trouble occurs intermittently.

Overview	
Please rate your overall level of satisfaction with the DVD	3 (neither satisfied nor dissatisfied).
Printed User Guide format is easy to understand and use	4 (agree).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe). None
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Was there information needed that was not included in the User Guide?	Understand wanting to cut paper to do electronic user guide with Quick Facts printed user guide. Missing info only found on CD/DVD though.
Information on the DVD is easy to find and access	2 (disagree).
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
DVD format is easy to understand and use	3 (neither agree nor disagree).
What have you used to view your DVD? (check all that apply)	Computer/laptop.
	Mac Computer.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Other (please explain further, if applicable). Called salesman.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Did you review the Owner's Information DVD?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Did you review the Printed User Guide?	Yes.
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Please explain further about your choice to recommend your vehicle:	Love my Jeep. Few things I think could be improved, though. Especially for the price.
Information in the Printed User Guide is easy to find and access	4 (agree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Please provide feedback on how Chrysler can improve the DVD	It's OK. Probably an iPad app would have done the same. Would be easier to use as an app.
Was there information needed that was not included in the DVD?	Not that I noticed.
Which feature or section of the Owner's Information DVD did you find least helpful and why?	Just the "have to get it out," "have to find a computer/dvd player" -ness of it. It's a convenience thing that a print manual has it beat.

Vehicle Satisfaction Ratings	
Vehicle storage and space usage	4.
Climate control operation (function and ease of use)	4.

Fuel consumption is worse than expected	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
What type of fuel do you most often put into your vehicle?	Regular gasoline.
How often does this trouble occur?	Trouble occurs intermittently.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
Where do you do most of your driving?	Combination of city/highway driving.
Are you using your vehicle for towing when the problem occurs?	No.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Shifts at wrong times	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Going into which gear/gears does the trouble occur? (check all that apply)	4th Gear. 5th Gear.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Going down an incline. Will downshift. Usually if in 5th, will go to 4th, or 4th to 3rd. If in 6th, usually will stay in 6th. This comment applies to the selections above too. Deceleration. See below. Coasting (no gas pedal applied). See below. Normal acceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.

Shifts at wrong times	
How often does this trouble occur?	Trouble occurs regularly.
Are you using your vehicle for towing when the problem occurs?	No.

Gear selector is difficult to operate (auto. trans.)	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	Hard to get the selector into right gear. It's just difficult, but works.
Going into which position is the gear selector difficult to operate? (check all that apply):	Drive (D). Neutral (N). Park (P). Reverse (R).
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
How often does this trouble occur?	Trouble occurs regularly.

Shift between gears is rough/harsh under normal driving conditions	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Coasting (no gas pedal applied). Coasting will sometime downshift unexpectedly. Deceleration. Decl will sometime downshift unexpectedly. Normal acceleration. Will hesitate or lunge in low gears. Going down an incline. Will sometime downshift unexpectedly.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Going into which gear/gears does the trouble occur? (check all that apply)	5th Gear. 2nd Gear. 4th Gear.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.

Cruise control system	
Cruise control system	Cruise control system works properly, but difficult to understand/use; controls in a poor location.

Features and Controls	
Features and Controls	Driving Mode Selector. Cruise control system. Door locks/key fob entry system.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays. Interior Climate Control. Transmission and Drivetrain. Engine. Entertainment/Navigation System/Connectivity.

Engine Fuel Consumption	
Engine Fuel consumption	Fuel consumption is worse than expected.

Remote vehicle start is difficult to understand/use	
Do you recall your cellular coverage at the time?	Full cellular coverage.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Works intermittently. If it works, sometimes delayed by minutes.
Please indicate which method was used for remote vehicle start (check all that apply):	Remote vehicle start on phone.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system loses connection. Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Door locks/key fob entry system

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system works properly, but is difficult to understand/use.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
Please describe when this trouble occurs:	When other people in the car are talking.

Uconnect Access	
Uconnect Access	Remote Features. Uconnect Access Application.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.

Via Mobile works properly, but is difficult to understand/use	
Additional Comments:	I only used Pandora. See comments above.
Please indicate which feature(s) of Via Mobile are difficult to understand/use (check all that apply):	Pandora.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Oh my, where to begin. Well I MUST have the app open and it MUST be freshly opened. Half the time it won't engage Pandora, other times it's just hard to use. Why if you're already using the cellphone data, can't you just run Pandora from the app? I attempted to use this for about a month and quit because of difficulty. Only worth it for long trips, then not sure I want to go through the trouble.

What Can We Do Better?	
Feedback/Concerns:	I think that Tesla has proved and I'm the target audience, that updates (system, software, etc) are something users look for in a purchase. For a $50K car, I'm looking for map updates, new features (that are not just exclusive to the "new" models), etc. If the car technology is compatible, those updates should be provided to owners. If not, pathways to update would be great. I don't buy off the cuff, and I want a vehicle that I'm proud of 10 years from now the same as the day I bought it. I would also love FCA to do a hybrid Jeep or look into electric. If a battery car can beat a gas one off the line, then battery technology should be able to be adapted to go off-roading. At least a hybrid for Jeeps, so we're not idling at lights and such and in-town EPA can be better.
What has Chrysler done right?	Strong brand. Quality work overall. I want my GC to last as long as my Cherokee did, so my expectation on quality will ride on that. I will continue with regular maintenance in the hopes that this is the case.

Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Outside thermostat may read wrong temp causing air controls to be weird.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.

Key fob entry system works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Using handle to lock/unlock is too sensitive. I'm using the tip of my finger to lock using the button, but it tries to unlock. Usually takes 2-3 tries to get doors to lock.

Engine stumbles/hesitates/surges	
What best describes the engine drivability trouble? (check all that apply):	Engine has a hesitation, momentarily cuts out, or surges while accelerating. Intermittent surges, especially in low gears.
What type of fuel do you most often put into your vehicle?	Regular gasoline.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Operation and Performance	
Operation and Performance	Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located.

Remote lock/unlock is difficult to understand/use	
Do you recall your cellular coverage at the time?	Full cellular coverage.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Same as remote start.

Hard Controls/Menu	
Hard Controls/Menu	Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Displays and Instruments	
Displays and Instruments	Outside temperature gauge broken/not working. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Be happy to discuss what I filled out here anytime. Not unhappy, just to be clear. Just a few things that could be addressed. [redacted]

Uconnect Access Application	
Uconnect Access Application	Uconnect Access features are confusing.

USB connection issues	
USB connection issues	USB connection is difficult to understand/use; is in a poor location.

Media	
Media	USB connection issues.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition feature does not have enough functions available.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone brand	Apple.
Please choose your cell phone carrier	AT&T Mobile.
If known, please tell us your software version	8.3
Please tell us your cell phone model	iPhone 6

Text messaging works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Doesn't explain media (photo, videos) in text. Hands-free reply doesn't work with iPhone

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Other (please describe). Warning for turning vehicles sometimes a bit too sensitive. Say if a vehicle ahead is turning right, but slows down, usually there's enough distance, but the system goes off or brakes hard.

Remote Features	
Remote Features	Remote lock/unlock is difficult to understand/use. Remote vehicle start is difficult to understand/use.

Automatic Transmission	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions. Shifts at wrong times. Hesitation or delay when shifting between gears. Gear selector is difficult to operate (auto. trans.).

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Engine Driveability (stumbles/hesitates/surges)	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.

Voice Recognition feature does not have enough functions available	
Please describe additional functions you would like to have:	Find X along route. Find X in Y town.

Via Mobile	
Via Mobile	Via Mobile works properly, but is difficult to understand/use.

About You

When considering this vehicle	Interact with dealership by phone. Test drive the vehicle. Visit the dealership. Interact with dealership by email. Research online.
What is your current marital status?	Married.
Financing options	1.
Vehicle availability	2.
Please tell us about the vehicle you replaced (if applicable)	2005. S40. Volvo. Replaced Vehicle: Purchased New.
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
What year were you born?	[redacted]
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	driver assistance technology
Primary vehicle you were considering:	Volvo. XC70. 2014. Primary Considered Vehicle: New.
What price did you pay for your vehicle?	49999
Trade-in allowance	1.
Secondary vehicle in your household:	1999. Chevrolet. Secondary Household Vehicle: Purchased New. Suburban.
Dealership treatment	4.
Vehicle quality	4.
Please indicate your highest education level	4 year college degree.
Please indicate the primary driver's age.	[redacted].
Secondary vehicle you were considering:	BMW. Secondary Considered Vehicle: New. X3. 2014.
What is your primary language?	English.
Which, if any, influenced your purchase decision? (check all that apply):	Features/Capabilities. Internet research. Vehicle test drive.
Is this your first new vehicle ever purchased / leased?	No.
Primary vehicle in your household:	Primary Household Vehicle: Purchased New. S40. Volvo. 2005.
Which of the following best describes the area you live in?	Suburban.
How may children 17 or under live in your household?	0.
Convenience of dealership location	2.
Price	3.
Vehicle performance	4.
Please indicate your gender	[redacted]
Please indicate your occupation status.	[redacted].
Please indicate your ethnicity	[redacted]
Did you purchase or lease your vehicle?	Purchase.
Please indicate your occupation.	Technical Specialty.
What is your total household income (before taxes)?	$150,000 - $199,999.
Vehicle styling	3.
Ability to test drive	5.
Vehicle fuel economy	5.

Overview

Was the trouble resolved to your satisfaction?	No.

Overview	
Printed User Guide covers the necessary features	2 (disagree).
Please rate your overall level of satisfaction with the Smartphone Application	2 (dissatisfied).
Please provide feedback on how Chrysler can improve the Printed User Guide	Engine temp behavior when towing and how to control it is not discussed in a useful way. Had to contact jeep. Also many people have to add a scangage when the dashboard could give the coolant temp the same as it does for other fluid temps, that is in digital readout instead of the circular graphic. This is a major problem on the jeep forums which holds back acceptance of the turbo diesel
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
Please rate your overall level of satisfaction with the Printed User Guide	2 (dissatisfied).
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe). Motor week tv
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Information in the Smartphone Application is easy to find and access	2 (disagree).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer.
Did you review the Owner's Information DVD?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Printed User Guide?	Yes.
Which feature or section of the Owner's Information DVD did you find least helpful and why?	Didn't use it
Please provide feedback on how Chrysler can improve the Smartphone Application	Keep me logged in with my specific vehicle info ready with voice search.
Which feature or section of the Smartphone Application did you find least helpful and why?	The parking spot reminder is a good idea but too backward to get to and use
Please explain further about your choice to recommend your vehicle:	We love driving it but still have concern about the reliability
The Smartphone Application format is easy to understand and use	2 (disagree).

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

What Can We Do Better?	
What has Chrysler done right?	Good luxury vehicle. The towing capacity is important to us combined with the good in town milage of the diesel. Need to work out the DEF problems and train your dealers

Detail on High Rated Items	
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	His and active headlight directions are great assist in rural areas
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Love the seat cooling and heat. Alsio the ability for remote start so that car is comfortable to enter in extreme weather
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	You should have a Jeep employee on the diesljeep forum to answer questions and monitor /respond to issues
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	All the driver assistance and parking sensors were what made me willing to buy this size vehicle for a daily driver instead of just towing
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	Pairs easily. Voice integration is good. Love the sent from my jeep signature on texts.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	Very important that the diesel gives me as good if mileage as my former sedan

Detail on High Rated Items	
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	We actually measured it as quieter than volvo, Cadillac, Audi, Mercedes and Subaru since this was important to us.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Dealer was honest and professional. Especially important since we had to fly to Seattle to get a good price
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	I don't even notice the shifting in auto but also appreciate the control of sport shifting when I want it
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	Predictable handling on snow
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Like sparkle in black

Exhaust system troubles	
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
What type of fuel do you most often put into your vehicle?	Diesel.
What is the trouble with the exhaust system? (check all that apply):	Other exhaust troubles (please describe). Def life is half of rated life
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.

Engine Fluids (leaks, excessive oil consumption)	
Engine Fluids (leaks, excessive oil consumption)	Excessive oil consumption.

Excessive oil consumption	
About how far can the vehicle be driven before it is low 1 quart of oil?	Not sure.
Additional Comments:	Problem is the dashboard report vs expected oil life not oil level
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	5,000-6,999.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Engine.

Engine Exhaust System	
Engine exhaust system	Exhaust system troubles.

AUX input is broken/not working

Please describe conditions when this trouble occurs:	Blue tooth when playing music from phone
Additional Comments:	Seems to not want to start and need to start from phone and at times no volume at all although shoes song and is playing
How often does this trouble occur?	Trouble occurs intermittently.

What Can We Do Better?

What has Chrysler done right?	Good looking, transmission a rule champ and so is the engine and four wheel drive system.
Feedback/Concerns:	Needs to ask open ended questions to learn more about additional areas

Voice Recognition feature does not have enough functions available

Please describe additional functions you would like to have:	To use with nav while driving to provide address or points of interest. Save time having to pull off road

About You

What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
What is your primary language?	English.
Primary vehicle in your household:	Grand Cherokee. Primary Household Vehicle: Purchased New. 2014. Jeep.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
Please indicate your occupation status.	Employed.
Please indicate your highest education level	Graduate degree.
Please indicate your gender	Male.
What year were you born?	[redacted]
How may children 17 or under live in your household?	0.
What is your current marital status?	[redacted].

Other	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe the other trouble you experienced:	The lift system lowers it self when going from one 4 wheel mode to next, happens almost all the time. Dealer has no fix for issue
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.

Speakers are not loud enough	
Please indicate which media sources were being played (check all that apply):	Bluetooth Streaming. Satellite Radio.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which speaker has trouble (check all that apply):	All speakers in the vehicle. Xm is lower than other items, and need to really turn xm up
Trouble with speaker occurs:	At all volume levels.

Body panels/doors misaligned/excessive gaps/poor fit	
Please indicate the location of the trouble (check all that apply):	Liftgate. Left side was sticking out more , and mislined
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Additional Comments:	Had back to dealer many times for this, was repaired after went new dealer.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Overview	
Would you recommend this vehicle to family or friends?	No.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
Was the trouble resolved to your satisfaction?	No.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Please explain further about your choice to recommend your vehicle:	Until issues of recalls solved then would recommend. Most recalled auto ever owned
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer. Dealer located closer to home is where take for service and many recalls
	Yes, by phone or e-mail.

Overview	
If our team has any additional questions about your responses, would you accept further contact?	

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	When stating a name. Brings up name not even close or spelling

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Vehicle Exterior. Entertainment/Navigation System/Connectivity. Off-Road. Other.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Shows only popular places
Additional Comments:	Would like it to show items like golf course in area or allow app on phone to show on screen and work with voice

Welcome	
Please tell us how many miles are currently on your vehicle:	30,000-39,999.
Are you the primary driver of this vehicle?	Yes.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Body panels/doors misaligned/excessive gaps/poor fit.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	When stating a name.

Text messaging broken/not working	
Please describe the trouble you experienced (check all that apply):	Other (please describe). Not working with apple
How often does this trouble occur?	Trouble occurs regularly.
Did this trouble occur after starting the vehicle?	No.
Do you have the Uconnect Access free form speech option?	Yes.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Points of Interest not well defined. Difficulty accessing Points of Interest. Navigation system works, but traffic information doesn?t work / or is difficult to understand.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers are not loud enough.

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front Screen Display: Other Concerns.

Navigation system works, but traffic information doesn.t work / or is difficult to understand	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information displays, but is inaccurate. Shows up when already in, and only works when nav is started. Would like it to work no matter what Traffic information displays, but is difficult to read. Works when it wants too and then not providing a reroute

You rated integration with phones Low. Use this space to provide any specific comments you would like to share.	apple... need i say more. Was excited to have the capability and then, no capability...

Electronic Engine Controls (Check Engine)	
Electronic Engine Controls ('Check Engine')	"Check Engine" light indicated trouble.

What Can We Do Better?	
Feedback/Concerns:	Make updates available to cars via wi-fi instead of having to bring them into the dealership. My car is brand new and I have been to the dealership over 12 times since I bought it in less than a year. Also check the auto cruise control system and it doesn't brake nearly soon enough and when you override and brake it makes noises and I believe harms the brakes as I had all my pads replaced before 10k miles.

Seat will not heat enough/at all/fast enough

To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	We had the dealer check this feature out on multiple occasions because the seats don't get warm enough to feel when wearing most clothing. The final conclusion reached by the service department is that the seats are working as good as they will work. If that is the case, this is the worst heated seats feature of any vehicle we have ever owned, which included GM, Chevrolet, Ford, Toyota products. If we had known that this feature worked so poorly, we would not have bought this vehicle.
Please indicate which seat has trouble (check all that apply):	Driver's seat. Front passenger seat.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	With this and the many other problems we have experienced with this vehicle we are extremely disappointed with this purchase. There should be a law against a company selling shut shoddy products, especially when it is a product that costs as much as this one did (more than a year's salary for many people in the U.S.). Our only hope at this point is that we can find someone who loves Jeeps enough to buy the vehicle from us without our experiencing a huge loss.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Heating, ventilation and air conditioning doesnt maintain desired temperature

To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Outside temperature between 60 and 69 degrees. Cloudy/overcast. Bright sun. Outside temperature between 80 and 89 degrees. Filtered sun (light/partial clouds, light haze/fog). Outside temperature between 70 and 79 degrees.
Additional Comments:	We haven't yet had temperatures over 90 degrees since we have owned this vehicle.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	Below 70 degrees.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
How often does this trouble occur?	Trouble occurs regularly.

Overview

Did you review the Printed User Guide?	Yes.
Please explain further about your choice to recommend your vehicle:	I was very excited to buy and own the Jeep Grand Cherokee, but it has turned out to be the biggest nightmare of my 30+ years of car purchasing/ownership. With the serious safety risks of malfunctioning seatbelts and malfunctioning and exploding airbags, this vehicle is a ticking timebomb and I do everything I can to either not drive the vehicle when another option is available or drive it only when I do not have a passenger. Why should anyone have to make choices like that after purchasing a $50,000+ vehicle? Even if seatbelt and airbag problems/risks are taken care of, we have had an unbelievably and unacceptable high number of problems with many of the features that were an important

Overview	
	consideration when we chose to purchase the Jeep. We have owned this Jeep for less than a year and it has spent more time in the service department and sitting in our driveway than any vehicle we have ever owned. Each problem seems to either take forever to diagnose and fix or we are told that the way it is operating is as good as it will ever be. Jeep hasn't stepped up to make its owners safe and satisfied with owning its products. Why would we recommend a Jeep to anyone?
Please rate your overall level of satisfaction with the Printed User Guide	2 (dissatisfied).
Did you review the Owner's Information DVD?	No.
Please provide feedback on how Chrysler can improve the Printed User Guide	The user guide is sketchy in some of its explanations of newer to the market features.
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Other (please explain further, if applicable). We have taken the vehicle to the dealership for some of these issues, are waiting for parts for some of these issues, were given no fixes for some of these issues and haven't addressed the issue for some of these issues because we were working with the dealership on other more critical issues. When we have taken the vehicle to the service department for some issues, the vehicle has sat for several days with no work being done at all. Every visit seems to take multiple days, and we often do not get a call with information on the progress of the repair but have to call the dealership multiple times to get information. The dealership never offers me another vehicle to drive while waiting multiple days for my vehicle. This dealership's service department is the least competent and service-oriented service department I have every used. With the great distances between cities in Montana, I feel stuck in using a Lithia service department to service my Jeep.
Information in the Printed User Guide is easy to find and access	2 (disagree).
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).
Would you recommend this vehicle to family or friends?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Was there information needed that was not included in the User Guide?	A more specific description and how-to-use for features like air-ride suspension; paddle shifting, etc.
Printed User Guide covers the necessary features	2 (disagree).
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Rear folding seat/seatback is broken/not working

Please describe conditions when this trouble occurs:	Don't know; see notes above.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please indicate which rear folding seat/seatback has trouble (check all that apply):	Driver's side rear seat. We have not had an occasion to use this feature, so don't know if it works correctly or not. Given all of the other problems we have had and are having with the vehicle, it seems more likely than not that this feature will be troublesome as well.
	Passenger's side rear seat. See note in Driver's side rear seat field above.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Satisfaction Ratings

What is your attitude overall towards your new car?	1.
How was your purchasing experience (the dealer/dealership)?	1.
How do you feel about the VALUE of your new car? (i.e.	2.
Operating controls while driving (gear selector, turn signals, horn, etc.)	4.
Vehicle storage and space usage	5.
Head/leg/foot room	5.
Location and usefulness of interior lighting	5.
Engine sound	5.

Fuel economy and driving range	5.
Steering and handling (responsiveness, stability)	5.

Adaptive front lighting system broken/not working	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate the trouble experienced with the Adaptive Front Lighting System (check all that apply):	Does not track properly while going uphill. We have yet to see this feature work.
	Does not track properly while turning left. See note above.
	Does not track properly while going downhill. See note above.
	Does not track properly while turning right. See note above.
	Headlights do not reset to normal position. See note above.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please indicate which headlight is not working properly (check all that apply):	Passenger's side headlight.
	Driver's side headlight.
How often does this trouble occur?	Trouble occurs regularly.

Exterior light controls broken/not working	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please indicate what type of trouble was experienced with the exterior light controls (check all that apply):	Other (please describe). Auto features of lights do not work consistently
Please describe conditions when this trouble occurs:	No real pattern, but rarely see any automatic features engaged
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which exterior light control feature is broken/not working properly (check all that apply):	Auto-leveling. At times, this feature does not work at all

Park Assist broken/not working	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate what is broken/not working (check all that apply)	Sensors. Aren't sure, but we wonder if the sensors are working properly since we don't always get the audible warning
	Audible warnings. Sometimes we get the audible warning and sometimes we don't
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	We have not been able to identify a pattern of when this occurs
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Memory Seat controls are broken/not working	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	As previously described.

Forward/backward adjustment is broken/not working	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please describe conditions when this trouble occurs:	We have set the memory seat function on both the driver's and passenger's sides multiple times and it will work for awhile and then one day it no longer works.
Please indicate which seat has trouble (check all that apply):	Front passenger seat.
	Driver's seat.
Seat with trouble has:	Memory Seat Function.
How often does this trouble occur?	Trouble occurs intermittently.

Seat belt latch/release is broken/not working	
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please indicate which seat belt has trouble (check all that apply):	Center rear seat (if equipped).
	Front passenger seat.
	Driver's seat.
	Driver's side rear seat.
	Passenger's side rear seat.
Additional Comments:	This vehicle is one of those identified as potentially having seat belt tensioner problems. Just as with the air bag issue, it is an unacceptable safety risk for owners of these vehicles. I would like to think that Jeep would step up and ensure that these problems are fixed without delay.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Trouble with seat belt is:	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.

Engine loses power when air conditioning is on	
Please describe conditions when this trouble occurs:	Occurs any time air conditioning is on; engine idle speed drops to point where it feels like it is going to stall and shut off
Engine trouble occurs while vehicle is (check all that apply):	At idle.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
What type of fuel do you most often put into your vehicle?	Premium gasoline.
How often does this trouble occur?	Trouble occurs regularly.

Steering wheel vibrates excessively while driving	
Additional Comments:	See previous comments.
Steering wheel vibration trouble occurs during these speeds (check all that apply):	During braking.
	All speeds.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Vibration is:	Moderate.
Steering wheel vibration trouble occurs during these road conditions (check all that apply):	All road conditions.
To the best of your recollection, the trouble was first noticed:	At delivery.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.

Detail on High Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Styling and comfort.

Detail on Low Rated Items	
You rated your purchasing experience (at the dealer/dealership) Low. Use this space to provide any specific comments you would like to share.	The salesman failed to meet with us as promised to review the function of the many new-to-market features of the vehicle. We had to ask repeatedly before the service department gave us an appointment to take care of a shimmy in the front end that I identified during a test drive of the care. The salesman committed to taking care of the shimmy the same week we bought the vehicle so we could drive it on an out-of-state trip we were

Detail on Low Rated Items	
	taking with friends. Because we couldn't get the shimmy fixed, we had to cancel out on the trip. The dealership took multiple appointments and still couldn't get the shimmy out. Within the first month of owning the vehicle, we bought new tires and had them aligned. It was only after taking that step that we felt the vehicle was safe enough to drive on a trip.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Functioning of many of the most desirable features.
You rated your attitude overall towards your new car Low. Use this space to provide any specific comments you would like to share.	So many problems, so little help in getting them fixed, plus serious safety issues outstanding. I have come to the point of almost hating this vehicle. So sad!

Blind spot monitoring/warning system is broken/not working	
Please describe conditions when this trouble occurs:	This feature works very rarely
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate the trouble you experienced with the blind spot monitoring/warning system (check all that apply):	The system did not detect a vehicle that was in the blind spot. This has happened many times now; it even happened when one of the dealership's salesmen was in the vehicle with us because he was demonstrating to us how to use the various features of the vehicle. Even though the salesman who sold us the vehicle had promised to spend time with us showing us how to use the various features the week following our purchase, he failed to return our calls and set up a time to do this; we finally asked the sales manager to arrange for another salesman to meet with us to show us how to use the features and it finally occurred well over a month after we bought the vehicle; when the blind spot monitoring/warning system didn't work, the salesman just said, oh, I don't know why we didn't get a warning, it should have given us an audible and screen warning.

Ventilated seat will not cool enough/at all/fast enough	
Additional Comments:	We bought the vehicle in September of 2014 and living in a northern state we didn't need the ventilation feature when we first bought the vehicle, but now that winter is over and we have had a warm spring, we realize the feature isn't working
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please describe conditions when this trouble occurs:	The seat ventilation feature never works as described
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate which seat has trouble (check all that apply):	Front passenger seat. Same as note in Driver's seat field above
	Driver's seat. Salesman said the ventilation feature will come on when the internal temperature of the vehicle hits a certain level; that does not occur
How often does this trouble occur?	Trouble occurs regularly.

Tires show excessive or uneven tread wear	
Additional Comments:	We didn't wait for excessive tire wear to occur because the shimmy and pulling to the right were a safety hazard.
To the best of your recollection, the trouble was first noticed:	At delivery.
Where does the excessive or uneven tread wear appear on the tire?	Other (please describe).
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Active suspension system is broken/not working	
Please describe conditions when this trouble occurs:	We have not been able to identify any "condition" that is present each time the vehicle has spontaneously raised or lowered itself; we have experienced body damage to the vehicle due to it lowering itself onto a parking barrier and failing to raise when the control was set to raise the vehicle
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe the trouble experienced with the active suspension system:	Air-ride suspension feature will lower or raise the vehicle hours or days after the vehicle was last driven; we and others have heard and seen the suspension height adjusting when no one is near the vehicle with a key and the vehicle hasn't been driven for quite some time
Additional Comments:	Unsure of exactly when the vehicle began changing the height of the suspension because it occurs when the vehicle is not being driven and is not occupied; when we first realized it was doing this, one member of the family just happened to be walking by the front of the vehicle two days after it was last driven when he heard a noise (which turned out to be the compressor) and looked to see the vehicle raising itself.

Active suspension system is broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.

Rear side doors are difficult to open/close	
Please describe conditions when this trouble occurs:	Wouldn't close completely until door was realigned
Please indicate which rear door is difficult to open/close (check all that apply):	Driver's side rear door.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to close. Wouldn't close completely until after door was realigned

Front/rear bumpers were cracked/ripped/damaged	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which bumpers were cracked/ripped/damaged (check all that apply):	Rear bumper. The cover for the trailer hitch was hanging on one side as if it had been removed but improperly returned to its place; the cover is very hard to remove and replace to position
To the best of your recollection, the trouble was first noticed:	At delivery.

Hood is difficult to open/close	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Hood was not fitted properly at delivery; had to be realigned

Airbag light broken/not working	
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please indicate what type of trouble was experienced with the airbag light (check all that apply):	Other (please describe). You did not give me a choice for airbags that are known to explode and/or malfunction, so I have marked the airbag light choice so that I go on record with my concerns that not only do I have a vehicle with Takata airbags that can explode but that even if the airbags in my vehicle are replaced, they will be replaced with airbags that also have the same problems and are likely to explode. I have not yet received a recall notice for this and my vehicle is not listed as one that is being recalled based on VIN, but the timeframe within which my vehicle was manufactured is an indicator that it has the exploding Takata airbags. This is the worst safety hazard I have ever experienced with a vehicle and I am horrified that it has been allowed to happen at all and, worse yet, that it continues to not be corrected.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
How often does this trouble occur?	Trouble occurs regularly.

Adjustable height control is broken/not working	
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	Off-road 1. We haven't used the vehicle in this setting, so don't know if it is a problem or not Normal ride height. Again, vehicle is adjusting its height randomly when it is not being driven and is not occupied Off-road 2. We have not used the vehicle in this setting, so don't know if it is a problem or not Park Mode. See comment in Normal ride height field. Also, in the mode the vehicle lowered itself so low that it became caught on a parking barrier and would not come out of that height setting no matter what we tried. As a result, the underneath of the front of the vehicle was damaged as it was moved off of the barrier so that it could be driven home and to the dealership Aero Mode. See comment in Normal ride height field above. Sometimes the vehicle goes into this mode as expected, other times, we have to select this mode before it will adjust; other times it doesn't adjust at all. When taken to the service department at the dealer for this and all of the adjustable height issues, after having the vehicle three days, the dealership first said they couldn't duplicate the issue; they acted like they thought we were making up the problem; after that, they said they would order parts to fix the problem; when we stopped by a few days later to ask if the parts were in, we were told we needed to ask the parts department if the parts had come in; don't the service department and parts department talk to each other?turned out the parts had not yet been ordered; so we are still waiting for the parts
How often does this trouble occur?	Trouble occurs intermittently.

Adjustable height control is broken/not working	
Please describe conditions when this trouble occurs:	We have not been able to identify a pattern in which this condition occurs
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Additional Comments:	For some time, we thought there was an ongoing issue with the adjustable height feature, but as described above, we were not always in or by the vehicle when the random raising and lowering would occur

Heated steering wheel is broken/not working	
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please indicate what type of trouble was experienced with the heated steering wheel (check all that apply):	Other (please describe). The feature that allows you to set the steering wheel to begin heating when the vehicle is started did not work; the heat would not be on even though the setting was for it to come on when the vehicle was started; and, sometimes the heat would come on when the setting was off for the heat to come on when the vehicle was started.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	There was no pattern to the problem; dealership said it was a computer program issue and that they uploaded a new program; weather is now too warm to know whether feature is working properly or not
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.

Features and Controls	
Features and Controls	Active Suspension System. Driving Mode Selector. Light switches/controls. Wipers and washers. Adjustable Height Control. Door locks/key fob entry system. Horn. Park Assist. Heated Steering Wheel.

Vehicle pulls noticeably to the left/right	
Trouble occurs while traveling in these road conditions (check all that apply):	All road conditions.
What direction does the vehicle pull when driving?	Right.
Additional Comments:	Tires should not have to be replaced immediately after purchase. Shame on Jeep and this dealership for allowing this kind of thing to happen.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please describe conditions when this trouble occurs:	Vehicle had a shimmy and pulled to the right when test drove it. Dealership said they would take care of problem, but after several attempts, vehicle still had a slight shimmy and pull. Within the first month of owning the vehicle we finally bought new tires and had it aligned, which took care of all but the slighest of shimmy.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Vehicle pull is:	Moderate.
Trouble occurs while traveling at these speeds (check all that apply):	All speeds.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.

Fan/blower makes excessive noise	
Please describe when the fan/blower noise occurs (check all that apply):	At high fan speeds.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe the fan/blower noise (check all that apply):	Roaring. The loudest fan/blower I have ever experienced when on the highest setting. Have to play the game of choosing between not enough air being circulated or fan/blower too loud to have a conversation.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Lights	
Lights	Automatic high-beam headlights broken/not working. Adaptive front lighting system broken/not working.

Air conditioner never gets cold enough	
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Bright sun.

Air conditioner never gets cold enough	
	Other (please describe). Assume will be issue in all weather conditions, but haven't had temperatures of over 90 degrees since buying this vehicle.
	Outside temperature over 60? F.
	Filtered sun (light/partial clouds, light haze/fog).
	Outside temperature over 70? F.
	Cloudy/overcast.
	Outside temperature over 80? F.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Height adjustment controls are difficult to understand/use	
Please indicate which seat's controls are difficult to understand/use (check all that apply):	Driver's seat.
	Front passenger seat.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate why the controls are difficult to understand/use (check all that apply):	Other (please describe). When adjusting the height of the seats, the seat is also moving forward or backward as the height adjusts and then you have to use the forward/backward adjustment to readjust the seat in that direction. Should be a height adjustment that affects no other position of the seat.
Please indicate which type of seat controls are difficult to understand/use (check all that apply):	Power adjustment controls.

Engine Power	
Engine power	Engine loses power when air conditioning is on.

Exterior moldings/trim pieces loose/misaligned/falling off	
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is poorly aligned or fitted.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Driver's side rear door. Did not fit properly; had to be adjusted
	Passenger's side front fender. Same as driver's side front fender; this misalignment was fixed the first time it was done.
	Driver's side front door. Did not close completely until door was realigned
	Driver's side front fender. Corner was pulled away from vehicle; had to be adjusted twice before it fit properly
To the best of your recollection, the trouble was first noticed:	At delivery.

Operation and Performance	
Operation and Performance	Fan/blower makes excessive noise.
	Air conditioner takes too long to get cold.
	Air conditioner never gets cold enough.
	Heating, ventilation and air conditioning doesn't maintain desired temperature.

Air conditioner takes too long to get cold	
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Filtered sun (light/partial clouds, light haze/fog).
	Bright sun.
	Cloudy/overcast.
	Outside temperature over 70? F.
	Outside temperature over 80? F.
	Other (please describe). Assume it will occur in all weather conditions but we haven't had temperatures above 90 degrees since buying the vehicle.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Features/Controls/Displays>Features and Controls>Horn>	
Horn	Horn broken/not working.

Slips/will not engage gear properly/shifts erratically	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Slips/will not engage gear properly/shifts erratically	
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Other (please describe). Most likely was in either Warm or Normal condition when occurred
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Are you using your vehicle for towing when the problem occurs?	No.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Other (please describe). Mentioned before that vehicle on occasion after putting vehicle in Park, it has moved itself to Sport or Reverse.

Rain sensing wipers are broken/not working properly	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate what type of trouble was experienced with the rain sensing wipers (check all that apply):	Rain sensing wipers do not swipe often enough. Have never had the rain sensing feature come on even when driving in heavy rain
Please describe conditions when this trouble occurs:	Always
Additional Comments:	Took some time to realize this feature was not working because we don't get rain very often where we live, but even in the heavy spring rains we have received, this feature has never come on.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Other. Seats. Transmission and Drivetrain. Engine. Features/Controls/Displays. Steering, Handling, and Ride. Interior Climate Control. Vehicle Exterior.

Door locks broken/not working	
Please indicate which door lock location is the source of the trouble (check all that apply):	Passenger's side front door. Sometimes this door will unlock passively; sometimes it won't; door has unlocked while no one was around vehicle Driver's side rear door. Haven't really used this door; so don't know how well the lock/unlock feature works Passenger's side rear door. Haven't really used this door, so don't know how well the lock/unlock feature works Driver's side front door. Sometimes this door will unlock passively; sometimes it won't; door has unlocked when no one was around vehicle
Please describe conditions when this trouble occurs:	Have not found a pattern to this condition
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Trouble with the door lock occurs:	Both locking and unlocking.
Please indicate what type of trouble was experienced with the door lock (check all that apply):	Exterior key does not lock/unlock properly. Passive entry does not work consistently
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.

Wipers and washers	
Wipers and washers	Rain sensing wipers are broken/not working properly. Rear window wiper/washer controls work properly, but difficult to understand/use; in poor location.

Rear Side Doors	
Rear Side Doors	Rear side doors are difficult to open/close.

Steering and Handling	
Steering and Handling	Steering wheel vibrates excessively while driving. Vehicle pulls noticeably to the left/right.

What Can We Do Better?
Feedback/Concerns:

What Can We Do Better?	
	Actively work with an owner of your products to get problems fixed. Insist safety hazards be addressed and remedied even if Jeep has to start manufacturing the replacement parts itself instead of using parts from a third-party manufacturer, or collaborate with an experienced company/businessman to start a U.S. company that can manufacture the parts. Design/develop features that work and ensure that dealer's service departments have well-trained and competent technicians.
What has Chrysler done right?	Designing a beautiful looking vehicle and packaging desirable features in the vehicle. Marketing your products (but what good is marketing and selling your products when the product doesn't live up to the hype?)

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	The outstanding problems with our Jeep and Jeep's plan for replacing seatbelt tensioner and airbag equipment that is faulty.
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Battery Failed	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.

Front heating, ventilation and air conditioning controls are broken/not working	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which control is broken/not working properly (check all that apply):	Automatic climate controls (if equipped). Other (please describe). Have had service department check out air conditioner. Was told that operates as good as they can get it. If that is the case, it is a sad state of affairs that this expensive Jeep product has such a weak air conditioning system. Jeep has a long way to go to compete with any of the manufacturers of the other vehicles I have owned in the past less than 10 years, which include GM, Chevrolet, Ford and Toyota. All of those have air conditioning systems that will freeze you out.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Key fob entry system broken/not working	
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Trouble with the key fob entry system occurs:	Both locking and unlocking.
Please indicate what type of trouble was experienced with the key fob entry system (check all that apply):	Key fob does not operate door locks.

Welcome	
Please tell us how many miles are currently on your vehicle:	5,000-6,999.
Are you the primary driver of this vehicle?	Yes.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control is broken/not working.

Displays and Instruments	
Displays and Instruments	Airbag light broken/not working. Blind spot monitoring/warning system is broken/not working. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Body panels/doors misaligned/excessive gaps/poor fit. Exterior moldings/trim pieces loose/misaligned/falling off. Front/rear bumpers were cracked/ripped/damaged.

Front doors are difficult to open/close	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to close. Wouldn't close completely until after was adjusted Driver's side front door.

Front doors are difficult to open/close	
Please indicate which door is difficult to open/close (check all that apply):	
Please describe conditions when this trouble occurs:	Was continuous until door was realigned
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.

Automatic high-beam headlights broken/not working	
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	Do not turn on. Have not been able to tell that they work at all.

Door locks/key fob entry system	
Door locks/key fob entry system	Door locks broken/not working. Key fob entry system broken/not working.

Body panels/doors misaligned/excessive gaps/poor fit	
Please indicate the location of the trouble (check all that apply):	Driver's side front door. Misaligned and would not shut completely Driver's side front fender. Corner of piece was pulling away from the vehicle; had to be worked on twice before it was fixed Passenger's side front fender. Corner of piece was pulling away from vehicle; was fixed on first attempt to fix Other location (please describe). Cover for hidden tow hitch Driver's side rear door. Misaligned and would not shut completely
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.

Light switches/controls	
Light switches/controls	Exterior light controls broken/not working.

Front Doors	
Front Doors	Front doors are difficult to open/close.

Adjustments and Controls	
Adjustments and Controls	Height adjustment controls are difficult to understand/use. Ventilated seat is broken/not working. Forward/backward adjustment is broken/not working. Memory Seat controls are broken/not working. Rear folding seat/seatback is broken/not working. Seat heater is broken/not working.

Horn broken/not working	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Please indicate what type of trouble was experienced with the horn (check all that apply):	Other (please describe). Horn has started to sound when locking the vehicle but the setting is set to only flash the lights. The horn is sounding three times which is unusual and it is happening only intermittently.

Rear window wiper/washer controls work properly, but difficult to understand/use; in poor location	
Please indicate difficulty/trouble with rear window wiper/washer (check all that apply):	Window washer control in poor location. Window wiper control in poor location.
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate. Other (please describe). Location makes it hard to activate without affecting activation of other features; have to take eyes off road for too long a period
Please indicate which of the following best describes your concern (check all that apply):	Poor location. Requires a lot of fumbling around to find and activate this feature

Automatic Transmission	
Automatic Transmission	Slips/will not engage gear properly/shifts erratically.

Steering, Handling, and Ride>Tires>	
Tires	Tires show excessive or uneven tread wear.

Ventilated seat is broken/not working	
Ventilated seat is broken/not working	Ventilated seat will not cool enough/at all/fast enough.

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.

Engine Idling (rough, too low/high)	
Engine Idling (rough, too low/high)	Engine does not idle properly: idles rough, too low, or too high.

Controls and Switches	
Controls and Switches	Front heating, ventilation and air conditioning controls are broken/not working.

Heated Steering Wheel	
Heated Steering Wheel	Heated steering wheel is broken/not working.

Unpleasant interior smell/odor	
Please indicate the unpleasant interior smell/odor (check all that apply):	Other (please describe). Musty/moldy smell when air conditioning is on

Park Assist	
Park Assist	Park Assist broken/not working.

Seat heater is broken/not working	
Seat heater is broken/not working	Seat will not heat enough/at all/fast enough.

Odor/smell	
Odor/smell	Unpleasant interior smell/odor.

Battery	
Battery	Battery Failed.

Hood	
Hood	Hood is difficult to open/close.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Other (please describe). You didn't give me a choice to mark that this feature either doesn't work or doesn't work consistently, so I am including that here. This feature rarely works. As a matter of fact, I have never experienced it working, but another member of my family has. The lack of experiencing this feature isn't due there being no occasions on which the feature was needed because there have been plenty of those.

Seat Belts	
Seat Belts	Seat belt latch/release is broken/not working.

Overview

DVD format is easy to understand and use	3 (neither agree nor disagree).
Information on the DVD is easy to find and access	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the DVD	3 (neither satisfied nor dissatisfied).
Please explain further about your choice to recommend your vehicle:	This is a great vehicle that needs minor adjustments: 1. The outside mirrors should turn inside if the vehicle is locked and the engine turned off (i.e. park). 2. The UConnect system should be explained in detail. What are the components, what am I paying for. 3. Map/System updates should come over the 'wireless' connection rather than having to have a computer. 4. Maps should be current as I am paying for them. Who needs old maps? 5. The Mopar site is confusing and should be better integrated with UConnect. 6. The dealer should have a proper turn-over, not just like - here is the car as it is late and we are about to close. 7. Your oil change package needs to be upgraded. If I purchase five oil changes, I expect to use them every 10,000 miles regardless of time (currently they have to be used within two years?) - this is not explained either at the dealership. 8. You should have sales people that know the cars they are selling. This is true throughout the dealerships I went to. I knew more about the car than they did.
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Registration is difficult to understand/use	
Additional Comments:	The slaes people at teh dealership never knew what kind of car they had. I knew more than the sales guy. Registration of system a nightmare. Also, still do not know what is what, uconnect, navigation, sirius - do i have to pay for all? Maps I have to buy instead of being updated automatically? Who do I call?
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. NO real help from dealer. You should have a session to explain everything - including registration
Plese indicate which registration method you attempted (check all that apply):	Website registration. to complicated In vehicle registration. Did not work Phone registration. that worked
Did you receive the registration email?	Yes.
Please describe the trouble you experienced (check all that apply):	Directions were unclear. Nobody knew anything in the dealership

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	UConnect, outside mirrors, sales people

Wheels, rims, and tires appearance and styling	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.
What is your attitude overall towards the BRAND of your new car?	1.
Climate control operation (function and ease of use)	5.

Transmission makes abnormal/excessive noises	
Please indicate driving condition when noise occurs (check all that apply):	City driving/stop-and-go traffic. Braking. Deceleration. Normal acceleration.
Noise sounds like (Check all that apply):	Knocking. Makes noise when decelerating and or accelerating
Please describe conditions when this trouble occurs:	Any time I drive it
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Other. Transmission and Drivetrain.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	8[redacted] Best path to getting my vehicle fixed so I can actually drive it. It's spent more time at the dealer that with me. Any time between 9-5 EST
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

What Can We Do Better?	
What has Chrysler done right?	Interior Trim of vehicle. Exterior look of car
Feedback/Concerns:	Better quality control. Train andor educate dealer networks on servicing the vehicles you sell. Have had four different techs work on my vehicle for the same issue, none have them have worked on an SRT before.

Transmission Noises	
Transmission Noises	Transmission makes abnormal/excessive noises.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.

Detail on High Rated Items

You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	Automatic climate control.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Great headlights. Like how they turn with the wheel and self level.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	Great head room.
You rated ride quality High. Use this space to provide any specific comments you would like to share.	Like an import sedan.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	My summit lowers itself when I put it in park.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	Nice memory seats.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	No issues.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	Seems solid.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	The grand Cherokee looks like it's moving quickly with its swept design.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Very quiet.
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	Easy to adjust. Memory function.
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	I have the Summit and I love the rims. Stylish and aggressive at the same time.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	I like the brand.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Integration through the touch screen.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	Intuitive.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Nice use of the front air dam for the forward facing sensor.
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	No issues.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	Great head lights.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	I love the vehicle.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	Never wanting for power.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	The exterior has a balance of modern, aggressive, and classic jeep lines. The pearl black paint is beautiful. No orange peel that I've seen.
