CM spoke with Mike, SM who shared that the customer called seeking the vehicle out of concern for the rental. CM advised that contact will be made with customer for the rental.

CM spoke with Mr. [redacted] and provided updates. CM stated that it is anticipated that the repair will take 1 - 1 1/2 weeks for repair. CM confirmed that the customer was paying for the rental out of pocket and stated that rental for the repair period will be reimbursed to him at $40.00 per day.
CM spoke with Don, SA who stated that the repair is not complete. They are still trying to determine the source of the noise. CM inquired if a STAR case had been open. SA was uncertain but will discuss with the technician.
CM spoke with Mike, SM who stated that the vehicle is currently at the Body Shop for the fender flares, the roof is in, the noise was corrected with an adjustment with the rocker. Vehicle to be completed by 11/25.
CM attempted to speak with Mike, SM; message left
CM attempted to speak with Mr. [redacted]; Message left for a return call.
CM attempted to speak with Mr. [redacted]; Message left
Customer is requesting to speak to his CM. Agent transferred customer to EXT 4720313
Customer contacted CM with questions about rental. CM advised of lines32-36. Customer to email bill to VG618 when repairs complete. CM understood and thanked customer for calling SRT.
****** Below Customer Contacted for Documentation Request ******
[redacted] on 2014-12-10 @ 13:19
CM received call from Mr. [redacted] who shared that the rental was return and he wished to submit the receipt. CM confirmed customer email address and submitted link to customer. Customer stated that the vehicle still has the ticking noise and inquired of the next steps. CM advised tha the repair will be made and/or part replaced. CM to explore with SM.
CM attempted to speak with Mike, SM; message left
***** Customer Document Received *****
Mike Allen from dealer seeks VG618. CM completed transfer.
CM attempted to speak with Mike, SM; Message left for update and rental.
CM received call from Mike, SM who shared that he thought that the customer was placed in a loaner but it is possible that they did not because he lives 35 miles away from the dealership. SM shared that the Technician working on the vehicle is off-duty but, will provide updates upon his return on 12/16.
CM attempted to speak with Mike, SM; message left
Customer contacted CM stating that his vehicle has been at the dealership for five weeks. Customer requested that his car can be replaced. CM advised that VG618 has contacted the SM at the dealership and is waiting for a return call. Customer requested to speak with a supervisor immediately. CM advised that it may take 24-48 hours for a call back. Customer stated he may seek legal action. CM advised that VG618 will return his call.
CM attempted to speak with Mr. [redacted]; Customer requested to return the call in ten minutes.
Customer called in stating that he has been working with case management and feels he has been patient with the matter, but that his vehicle has been in the shop for almost 6 weeks and that he wants to speak with someone who can get it resolved. Agent examined the case and advised that his case manager is working hard to resolve the issue as expediently as possible. Customer agreed, but stated that he feels that his case needs more consideration from the service manager of the dealership and that he and the CM have been unable to reach him. Agent put the customer on hold in order to attempt to gather more information, but the call was dropped while on hold. Agent attempted to call back but was unsuccessful.
CM spoke with Don, SA who The mechanic intake system replace the intake manifold; they anticipate that the part will be in and the vehicle will be completed on 12/19.
CM spoke with Mr. [redacted]s who shared his frustrations with the vehicle repair and the delay that is calls for the reimbursement of the rental expense. CM advised that the dealer has been working directly with the STAR team and advised of the current status. Mr. [redacted] inquired if the next steps would be to replace the engine. CM advised that it is unknown but, it is anticipated that upon completion tomorrow the vehicle will be

repair. CM inquired if customer would be okay with CM closing the case to submit the rental reimbursement to him noting that the case will continue to be monitor. Mr. Davis was presented with an one time rental reimbursement in the amount of $1,440.00 representing a total of 36 days at $40 per day. Mr. Davis accepted and confirmed his address. COIN was updated. CM advised that the draft will arrive in 5-10 business days. check approved.
Customer contacted CM seeking VG618. CM completed transfer.
CM received call from Mr. Davis who shared that he received the reimbursement check but is not happy with the vehicle. Customer states that there is a new loud clanking sound and its like the transmission is not getting power. The sunroof bug deflector was left off the vehicle, there are water marks on the door and there is mud o the door frame. Customer stated that it appears that the windows were left open in the rain while at the dealer. Customer states that there was silver paint left on the leather seats and that the vehicle is running like it is on 5 cylinders. Mr. Davis stated that he has made contact with the dealer but, they can t see the vehicle until Tuesday 1/13. Customer wants to have the dealer complete the sunroof, and intake valve repair and then utilize another dealership for service as he believes that he is not receiving the customer service that should be afforded to someone who has purchased a $70,000 vehicle. Customer stated that he wants the information documented and that he will contact CM when ready to open an new case with another dealership.
CM spoke with Mike, SM and discussed customer concerns. SM shared that he has spoken with the customer and confirmed their plans to address the concerns along with seeking payment through the DM of one car note.
CM transferred customer to VG618.
Customer contacted CM requesting to be transferred to VG18. The call was disconnected during the transfer.

Briefly summarize why the customer is contacting Chrysler: Customer called states that the vehicle is having a repeat issue with the vehicle. Customer states that he has had the vehicle at the service center about 4 or 5 times for this issue and he is once again experiencing the issue again. Customer states that the vehicle is making a loud sound when he adaptive cruise control is slowing the vehicle down. Customer states he has only heard the issue once or twice when he is applying the brakes himself, it mainly happens when the acc is actively slowing him down. Customer states he has had the hydraulic control unit replaced twice and states that this repair works temporarily, but starts happening intermittently about 2 months after the repair. Customer states at the 6 month mark it happens consistently. Agent called the Dlr and spoke with SA Lyn. She states that she is opening a new Star case, and she will call him back today as soon as she gets a responce to follow up with the customer. She will schedule an appointment at that time. Customer states he has emailed the GM of the Dlr 2 times and hasn t got a responce. Lyn advised that he was on vacation. Customer also states he went to Brown s CDJ last time as it broke down while he was away from home.
Briefly summarize what the customer is expecting: Customer seeking to have vehicle repaired.
Customer advised a call back is required and will take place within one business day by COB their time
Preferred call back number is [redacted]
Customer email address for case updates [redacted]
Who has possession of the vehicle? Owner
Has the vehicle been diagnosed by a CDJ dealer? Not yet
If a CDJ dealer has diagnosed, what is the dealer name or code? 68348
Reassigned to 88F

Customer contacted to update case, customer stated that the noise is now constant.

End of Status Update
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40730. The reason for the customer contact was to provide or request the following information:
Initial contact
Writer contacted Service Advisor Christy due to the service manager was not available. SA informed writer that the last time the vehicle was at the dealership was July 16, 2014. Writer will follow up with customer.
Writer contacted customer to check on the status of the vehicle and to gather expectations. Customer stated that the vehicle has had to go to the dealership multiple times. Customers states that the adaptive cruise control is not working properly. Customer states that it had a ticking noise when it was in use and now it is constant even when the cruise control is turned off. Customer states that he would like the issue resolved. Writer informed customer that we would need to have the vehicle taken to the dealership to have a diagnosis completed. Customer stated he will take the vehicle to dealership on 11/19/14. Writer will follow up with the customer and dealership on 11/20/14 to provide status update. Customer agreed.
Writer contacted Service Advisor Giovanni to check on the status of the vehicle since the service manager is not in today. SA stated that the repairs for the recall have been completed was advised to not preform the repairs for which the vehicle was brought in for by the service manager. Writer informed SA that he will follow up with the customer and will contact the service manager on 11/21/14.
Customer contacted writer to inform that the issue the vehicle was brought in for has not been completed and being instructed to pick up the vehicle. Customer stated he will not be picking up the vehicle until the repairs are completed. Customer also states that he was informed that the air filter needs to be replaced and normal time for replacement is 30,000 miles. Customer states that he was informed the front and rear differential fluid needs to be changed and the rear is not covered at all and the front is not covered till 60,000 miles. Customer states that he was also informed that the engine needs decarb and that is not covered. Customer states he is not happy at all. Writer informed customer that he will follow up with the service manager on 11/21/14 to obtain more details regarding the vehicle. Customer agreed.
Agent attempted to contact dealer General Manager , however, SM not available. Left message for a return call at extension 40730
The reason for the dealer contact was to provide or request the following information: To check on the status of the repairs.
MR[redacted] called to speak to CM JV1058. Writer warm transferred customer to CM SH1248, as JV1058 is not currently available.
Writer recieved call from cusotmer. Writer advised cusotmer of lines 82-85. Cusotmer requested a call back on 11/24/14
Begin Customer Message reviewed:
Jeff,
Call me immediately.
End of Reviewed Customer message
Writer contacted Service Manager Ramsey to check on the status of the

vehicle. SM stated he will need to return writers call after the service advisor returns in the next 5 min.
Writer received call from Service Director Lynn to provide a status update on the vehicle. SD advised that the repairs are on hold at this moment due to waiting to hear back from STAR on a fix for the adaptive cruise control. Writer inquired about the previous mentioned service and was informed that they are suggested maintance that needs to be done. SD advised that the vehicle needs to be picked up until STAR has a fix for the issue. SD advised that the rental is being cut off effective today and that 5 days of rental needs to be covered. Writer informed SD that he will follow up with the customer.
Writer transferring case to ECS for further handling.
Writer contacted customer to advice of lines 97-104. Customer stated that he is not picking up the vehicle and wants rental still. Writer advised customer that the case is being transferred to ECS for further handling and we cannot authorize further rental at this time. Customer requested a supervisor. Writer transferred call to MG1439.
******IMMEDIATE SUPERVISOR******
Customer was transferred to an immediate supervisor at ext. 40638.
Customer states that the vehicle was dropped off on 11/19/2014 and the customer has been in a rental since. Customer alleges that the dealership recommended additional maintenance items to be done to the vehicle that are not covered by the SMP770 MVP the customer purchased. Customer states that the dealership is advising that the differential fluid, cabin filter and engine filter needs to be replaced. Customer states retrieving the maintenance schedule in the owner s manual and found that the differential fluid does not need to be serviced until 60,000 miles.
Writer also advised that the case has been escalated to another department who will address the rental vehicle in further detail.
Customer states that the dealership is working towards a fix on the Adaptive Cruise Control and the dealership informed the customer to retrieve the vehicle today. Customer is refusing to pick up the vehicle due to the mechanical issues still occurring. Writer requested to place the customer on a brief hold or to contact the customer back so that writer may communicate with the dealership further. Customer requested to contact the customer back at [redacted]

Briefly summarize why the customer is contacting Chrysler:
Customer has been attempting to be in contact with a his CM but his CM has not responded to any of his voicemails and neither has his CM supervisor. Writer offered to contact CM but Customer stated there is no use. Writer stated the case will be updated and stated the CM should be in contact with him in the next 24 hours or he should call back 12/17/14.
Briefly summarize what the customer is expecting:
Customer is expecting his CM to be in contact with him at [redacted]
Writer received a message from Mr. Rikin Talsania regarding the vehicle repairs. Customer advised of attempting to contact the escalated department four times and leaving voice messages since 12/12/2014. Customer alleges three of the messages were left for the Case Manager and one was left in the general mailbox. Customer is stating the Case Manager s mailbox is full. Customer is requesting for writer to contact the customer at [redacted].
Writer received an inbound call from An 86 agent asking for someone to speak to the customer. AGent advised the agent to contact I2R as the case is owned by them.
Briefly summarize why the customer is contacting Chrysler: customer called in and wants to talk to his case manger and has been waiting over a week. Customer states he has called numerous times and left numerous msgs and still has not had a callback. Customer is angry and wants someone to call him back Agent advised that it would be notated that he wants a call back right away and has been trying all week as well as attempted to transfer customer over to I2R.
Briefly summarize what the customer is expecting: called in to speak to his case manager and to find out why he has not received a callback in over a week from his case manager
Customer is requesting a Supervisor call.
Escalation call:
Called customer LVM for him to call me back. Left my phone number as well.
Customer called regarding case [redacted]. Customer is requesting a supervisor call from a supervisor in agent s department. Agent advised

customer they would not be able to speak with a supervisor from our department as his case is already being handled by another department. Agent recommended customer speak with his case manager and request that from them directly.
Customer states it is almost never able to reach the case manager and declined transfer to case manager s extension. Agent advised customer we will leave a note on file so his CM can be notified her called in.
Escalation call:
Called customer who stated there are two noises his vehicle is making. The initial noise is a clicking sound when the adaptive cruise control is used, which is a normal sound that the TA heard and customer also heard when he test drove a like vehicle. This noise he knows is actually normal and customer understood and agreed with this. The noise customer is talking about is a rapid ticking sound that happens after the initial clicking sound is heard. The TA went to check the vehicle and per SM Michelle the TA stated vehicle is operating as designed. The ticking sound is what concerns the customer. Customer picked up vehicle on Friday 12/19 and would like the TA to inspect his vehicle again for this second ticking noise his vehicle is making. Customer asked what the next step would be, advised customer that at this time I am not able to make him any promises, but will speak with his Case Manager to see if she would be able to check with the dealership about the ticking noise. Per customer SM Michelle heard this ticking sound herself. Advised will have his CM SG998 follow up with him.
Contacted the dealer (68348), LM with cashier for Michelle requesting a return call.
Received a callback from Michelle stating the customer has never mention another noise. Customer has been consistent with his concern stating the adaptive cruise control is making a ticking noise every time he has been in for service. She stated the customer is setting the cruise control to 35 MPH and drives the vehicle very aggressively. They test drove with the customer and that was the only way it could be duplicated. TA stated that was normal.
Contacted the customer in regards to his last visit with the dealer. I informed the customer per the case notes, the TA came out and deemed the noise to be normal. Customer stated he test drove the vehicle with Michelle and she stated the noise he is experiencing is not the same noise that was heard by the TA. I advised the customer per my conversation with Michelle she stated there were no other noises heard. Customer stated that is the opposite of what happened. Customer stated he is experiencing a continuing clicking noise from the adaptive cruise control. I placed the customer on hold, contacted the dealer (68348), LVM for Michelle requesting a return call.
Informed the customer that I was unable to get a hold of Michelle, but once done so, I would give him a callback. Customer stated that he would reach out to her as well.
Received a VM from Michelle at Koons regarding the test drive she took with the customer. She requested a return call.
Contact Michelle at Koons, she was unavailable. LM with Erica, requesting she give me a callback.
Received a return call from Michelle. She stated yes she did test drive with the customer and she heard the noise. She stated it is the same noise that was heard by the TA. She stated the customer is driving the vehicle at 35 MPH with the cruise control on in rush hour traffic. Michelle stated the vehicle is pretty much going into a panic due to this. She stated when they test drove the vehicle with the cruise control on at highway speeds, there were absolutely no issues with the vehicle. Michelle states what the customer is experiencing is due the way he is driving the vehicle. Thanked Michelle for the return call.
-Contacted the customer in regards to the conversation had with Michelle. Customer confirmed that Michelle was correct in regards to the conditions that he was able to get the vehicle to reproduce the sound. The customer stated he also hears the noise on highway speeds as well. I apologized to the customer and advised him that per the TA there were no issues found with the cruise control. I advised the customer that per the owners manual, it is recommended not to drive the vehicle in various conditions

and heavy traffic is one of them. I informed the customer he is free to continue taking his vehicle in for service if he would like. I advised the customer that I would not be able to continue to assist at this time. I informed the customer if the current situation gets worst and the vehicle has been diagnosed, he can contact me for further assistance. I apologized to the customer and provided him with the number to NCDS.

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40514The reason for the dealer contact was to provide or request the refer lin 50-51
Writer called dealership talked to SM Walt he stated that the part is at the dealership, the parts department has called, emailed and text message customer and has had no response. Writer will follow up with customer.
Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40611
The reason for the dealer contact was to provide or request the following information: Left message that part has arrive at the dealership, customer needs to call dealership to make an appointment. Writer will follow up with customer on Monday.
Correction to lines 56-64, left message for customer not SM.
Writer called customer to let him know that the part has arrived at the dealership. Customer stated that this is not why he opened that case. Customer stated that his collision center keeps going off. Customer stated that the dealership has not been able to duplicate the issue. Customer stated that he thought that Chrysler engineers were to be contacted since the dealership was unable to duplicate this problem. Writer will follow up with SM to see if he will contact engineers concerning this issue.
Writer called dealership talked to Sephis SA he stated that customer has not made an appointment for repairs. Therefore writer could not let the dealership know that customer is having an issue with the collision sensor. Writer will follow up with dealership on Friday. SA for customer will be Shawn.
Writer called dealership talked to Sephis SA he stated that customer has not made an appointment for diagnosis for collision center.
Writer called customer to let him know that have an appointment so that a star case can be opened for the collision avoidance system that is not working. Customer stated that he has brought this up to the dealership in April and again in November. Customer stated that the dealership has not been able to duplicate the issue. Customer stated that he has cleaned the sensors off per the owners manual, this has not helped. Customer stated that there is a message that tells him to 'brake' and there is not a vehicle close to his vehicle. Writer will have dealership contact Star since they ar unable to duplicate issue. Customer will contact writer once he has an appointment.

CUSTOMER WILL NEED A RENTAL FOR THE DASHBOARD REPAIR.
Writer called dealership talked to Mark SA since Shawn was unavailable. SA stated that customer has not made an appointment for diagnosis/repair. Writer will follow up with customer.
Writer called customer to let him know that I have contacted dealership and there is not an appointment. Customer stated that he has not made an appointment. Writer explained that he will need to make an appointment as soon as possible, within four days or case will close. Customer stated that he will call the dealership tomorrow and make an appointment for diagnosis/repairs. Customer will let writer know when the appointment will be. Writer will follow up with SA as soon a I know with the appointment is.
Begin Customer Message reviewed:
Hello,
It s [redacted] Per our conversation, I have arranged an appointment with Dave Dennis for the morning of January 19th. I advised you would be contacting to arrange a rental/loaner car for the period required to replace the dashpad and evaluate the collision avoidance system.
Thank you again, for your diligence and follow up. Let me know if I can do anything further.
End of Reviewed Customer message
Customer seeking rental assistance because DASHBOARD REPAIR.
Contacted Service Manager, Walt at 23333 to discuss the customer s request for rental assistance. Confirmed customer s concern and with Service Manager concurrence, authorized 2 days of rental per Warranty guidelines
Rental authorization will be processed by CAC .
Writer called dealership talked to Shawn SA since SM was not available. SA stated that it would take about 2 days to put in dash board and contact Star for the collision avoidance system. SA stated that the last time customer was in for the collision avoidance system there were no codes, if there are no codes this time there will be nothing they can do. Writer will follow up with SM on 1/19/14 to see if customer kept appointment and to see if he will contact Star.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40611. The reason for the customer contact was to provide or request the following information: explained lined 129-135. Will follow up with customer on 1/21/15
Writer called dealership talked to Shawn SA he stated that customer just dropped of vehicle to have the dash board replaced. SA stated that they will look at the collision avoidance system to see why the light keeps going on. SA stated that they will also contact star for assistance on the collision avoidance system. Writer will follow up with dealership on Wednesday.
Writer call dealership talked to Shawn SA who stated that the lens on the collision avoidance system was dirty, they cleaned it off, test drove the vehicle and there was no issues with the collision avoidance system. Customer is to pick up vehicle today. Writer will follow up with customer later this afternoon.
Writer called customer let him know that the vehicle is ready for pick up. Writer explained that SA told writer that the lens was dirty, they test drove the vehicle and found nothing wrong. Customer stated that he has cleaned the lens several times and has had problems with the collision avoidance system. Writer will follow up with customer on Monday to see how the dashboard looks. Customer is concerned that the dashboard is put together correctly.
Begin Customer Message reviewed:
Laural,
I am writing to advise the issue with the forward collision avoidance/adaptive cruise control system has not been resolved. Less than

24 hours after picking up my Jeep I have received both notifications/warnings we have been discussing. I was able to take photos of one of the notifications. Please advise how I can email them to you for further review (I don t see any way to attach files to this correspondance).

Writer called dealership talked to Walt SM he stated that he would be happy to see customer again since they were unable to duplicate customer issue with the collision avoidance system. SM stated the all they did was clean the camera off because the could not duplicate the problem with the collision avoidance system and there was not codes found for the collision avoidance system. SM stated that he would take customer for a ride along to see if they could get the light to go off while customer is driving the vehicle. Customer will need to make an appointment for diagnosis.
Writer called customer explained that SM would like to take a ride along with customer to see if they can get the collision avoidance system to act up. Customer stated that he would by happy to take the vehicle to the dealership, however, he does not know if the collision avoidance system will act up because it is so intermittent. Customer stated that since he emailed me on 1/23/14 the light has gone on 3 times. Customer is getting frustrated that nothing is being done to get this vehicle repaired. Writer explained that the dealership does have to have a code from the computer in the vehicle before they can repair anything. Customer does not agree, and is not satisfied with that answer. Customer stated that he will call SM to make an appointment for diagnosis.
Begin Customer Message reviewed:
I don t think the latest document attachment link worked either. Par for the course. Is there some other way I can send these photo files?
Does the service manager at the dealer have an email address I can use? Maybe I can at least send them to him.
End of Reviewed Customer message
Writer called dealership talked to SM Walt he stated that customer has not brought vehicle in for diagnosis. Writer will follow up with customer.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40611. The reason for the customer contact was to provide or request the following information:
Left message that dealership does not have an appointment, case will close in two days if customer does not make an appointment or take vehicle in for diagnosis.
Begin Customer Message reviewed:
Laural,
Received your voice mail of 2/2/2015. I will endeavor to contact Walt @ Dave Dennis and make an appt. In reference to your deadline to make an appt. or the case will close, I have more on my plate than just running my Jeep to the dealership. While I definitely want this issue resolved, my schedule does not allow me to run out there at the drop of a hat. In the meantime, you might see if anyone has looked into the following: NHTSA 10054789/Technical Service Bulletin: CSN-N-55, NHTSA 10054165/TSB: SB-08-076-13 and NHTSA 10052327/TSB: SB-08-039-13. I believe these cases may be related to my issue. I will advise when I have scheduled an appt. with Dave Dennis.

Wanted to advise I am meeting with Walt Lawson @ Dave Dennis today (2/10) @ 9 AM. The purpose of the meeting is an attempt to further diagnose the issues.
End of Reviewed Customer message
Writer called dealership talked to Shawn SA since SM is not available. SA stated that SM went for a ride along with customer but does not know of the out come. Writer will call SM back in about 1/2 hour.
Writer called dealership talked to SM Walt he stated that he has a call in to Doug from a Tech TIp on a Star case. SM stated that he believes that Doug is an engineer that is working with issues with the collision avoidance system. SM stated that he will call the engineer back today. Writer will follow up with SM on Monday. SM stated that he has discussed all of this with the customer.
Writer called dealership talked to SM Walt he has not heard back from Star, he is waiting for them to call him back. Writer will follow up with SM on Monday.
Writer called dealership talked to SM Walt he stated that he has not heard back from Star. SM stated that he will contact Doug at Star today. Writer will follow up with SM on Wednesday.
Writer asked customer if he would be interested the text messaging he stated that he would prefer for be contacted by telephone or email.
Writer explained to customer the SM is trying to contact engineer to get the collision avoidance system repaired. Writer explained that SM will call the engineer again today. Writer will follow up with SM and customer on Wednesday. Customer thanked writer to keeping in contact the SM and making sure the engineer in being contacted.
Writer called SM he stated that he has not heard from Doug at Star. SM stated that he will open a Star case for further assistance. SM stated that customer has his vehicle. Writer will follow up with SM on Friday.
Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40611 The reason for the dealer contact was to provide or request the following information: Need a star case opened to get this vehicle repaired.
Writer called customer to update him that dealership will be opening a star case. Writer will follow up with SM on Monday.
Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40611 The reason for the dealer contact was to provide or request the following information: Need star case opened for collision avoidance system.
Writer called dealership talked to SM Walt he stated that they contacted Star and have been instructed to do a module re-set. SM stated that he will call customer this afternoon. SM stated that he is not sure if customer will bring vehicle in right now or on his next service visit. Writer will follow up with customer tomorrow.
Writer called customer explained lines 282-286. Customer is having some personal issues and would like to wait a few weeks to go to the dealership, about the time for oil change. Writer will follow up with customer next week to keep case opened.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40611. The reason for the customer contact was to provide or request the following information:

Customer needs to take vehicle in for module re-set.
Writer called dealership talked to Walt SM he stated that he called customer a few days ago and explained what Star suggested to do with this vehicle and customer stated that he would like to wait until the next oil change which is in about 2-3 month, SM stated that customer told him that customer would call when the 'change oil light' light came on. SM has scheduled to call customer for an oil change in about 2 months. Writer will follow up with customer.
Writer called customer explained that case will be closing since customer is waiting 2-3 months before going to the deaelrship. Writer left 877-IAMJEEP in case customer wants to open a new case once he goes bace to the dealership.
Begin Customer Message reviewed:
Laural,
Regarding your last voice message: Just want to clarify there is a misunderstanding as to when my Grand Cherokee goes in for service...I did not tell Walt @ Dave Dennis that it would be 3 mos. I advised him I expected the timing to be within the next 3-4 weeks (not months). In any case, whether you close the case or not is up to you...just wanted to make sure your information is accurate.

***** EMAIL BRIEF DESCRIPTION CONTENT *****
problem with braking
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
My daughter was driving her vehicle in a 45MPH speed zone with no distractions around her. She said the car beeped and before she could do anything it automatically slammed on the brakes. The movement jerked her forward and slammed her dog off the passenger seat into the dash. She knows about the adaptive cruise control and it was NOT turned on. She did have it looked at about 2 weeks prior to this incident because when she comes to a stop, the car does an extra lurch forward. We took it into the dealership to have them look at it. The car did have some software updates
but nothing to do with the braking system. The service guy drove it around, most likely around the block, with no problems. We are getting the
car back tomorrow but I am so concerned about her safety. She is normally driving back and forth to school in a 70MPH speed zone. If this happens while she is on the highway, who knows what will happen. I do not want to be that mom on the news saying we told jeep about the brakes and nothing was done. I need answers and your help in figuring this out.
*****END OF CUSTOMER EMAIL*****
[redacted],
Thank you for contacting the Jeep Customer Assistance Center.
We regret to hear the concerns your daughter experienced with the brakes on her vehicle. We would like to review this concern further and contact Wickstrom Chrysler regarding the diagnosis they completed on the vehicle. Should your daughter experience any further concerns with the brakes, we suggest contacting the dealership to have the vehicle diagnosed.
We will follow up with you after we have reviewed all available

information on this matter.
Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).

Dear [redacted]
Thank you for your recent letter regarding your 2014 JEEP GRAND CHEROKEE OVERLAND 4X4 SPORT UTILITY 4-DR.
We are sorry to learn of your dissatisfaction and understand how this might cause concern. The characteristic you describe, however, is a function of your vehicle s design and there is nothing that can be done to fix the condition. It is not a defect in materials, workmanship, manufacturing or factory preparation and is, therefore, not covered under the new-vehicle limited warranty.
Thank you for allowing us the opportunity to review this matter with you.
Sincerely,
William,

*********Case Escalated to I2R**********
Reviewed Warranty History which determined this case should be escalated to I2R for case management.

I called the customer states that the vehicle is at the dealership the forward collision warning, CEL, service 4 wheel drive light is on. The vehicle is currently in for service customer took the vehicle in on 11/22/14 and is in a loaner vehicle. Customer states that he has taken the vehicle in a couple of times for the same concern. Customer states that he has taken the vehicle in about 7 times and he would like to have a replacement vehicle. The customer thinks that there is a problem with the computer and doesn t know how to fix it. I advise the customer that I will have to contact the dealership to get all of the repair orders to review for resolution. Customer wanted to know what can be done. I advised the customer that I m unable to make any guarantees at this time but we can look at possible replacement, service contract, trade assistance and more.
I called the dealership 65674 for RO history spoke with SA Charlie states that the SA is John and he is out to lunch and he is really busy right now. I requested that he have the RO history faxed over he placed me back on hold. I spoke with Lori states that she will fax over the RO history.
I called the dealership 65674 for status update on vehicle spoke with SA John states that they are waiting for 4 wheel drive module Part # 68214628AA. I advised that it shows the part arrived on 11/28/14. SA John states that the part has been received and they should have the part on possibly tomorrow.
I called the customer advised that I spoke with the SA John and he states that the part has been received for the 4 wheel drive module and they should have the vehicle repaired by the end of the week if all goes as planned. I went over the RO history with the customer advised that the dealership is showing that this is the fourth time that the vehicle has been in for service not 7 times. I inquired with the customer to see if he has the repair orders where he took the vehicle in 7 times and he stated that he did not but he will get them from the dealership once he picks up the vehicle. The customer wants to know what will happen if the vehicle stops working in two weeks I advised him that he will have to take the vehicle in for service and we will review his case for possible resolutions. The customer wanted to know if we could review his case for resolution now I advised him that I will review his case but I m unable to make any guarantees.
Customer called demanding a supervisor. Agent advised customer we cannot give him a supervisor because we cannot transfer him to that department. Customer stated that the number he was given does not work. Agent provided customer telephone number from Answer ID 17118. Customer demanded for agent s supervisor, their last name, email and telephone. Agent declined because his case is already in the appropriate department.
Customer is contacting Chrysler demanding a supervisor. Agent advised customer that agent cannot transfer him to a supervisor as agent does not have direct numbers/extensions to do so. Agent advised customer that due to the nature of this case, he does need to continue working with the CM. Agent advised customer that his case is in the appropriate department. Customer began swearing and agent disconnected.

Product - Engine - Unknown - Check Engine Lamp On/Flashing - Default	Needs a Valve Body
Corporate - E-Reimbursement - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler:
Customer is calling in as he is very upset that he had just bought a brand new Jeep that was supposely went through our quality inspection but yet he has 700 miles on this Jeep and the check engine light comes on. Takes it to the DLR and he is told that he needs a new valve body.
He can t drive it as it may get stuck in park or drive.
He has owned other Jeeps and he has never experienced anything like this before.
He feels that he still has to make payments on this Jeep and he should be compensated for his time and inconveniences.
Agent then spoke with the SM Mack and he said that this part they need is coming right out of Detroit and his parts manager is working to try and have this part shipped here over night if not it will be not be here till Tuesday.
When they do get the parts and get it fixed customer states he won t be in town as he will be away for the holiday.
Agent has advised the customer that she will send this up and have a CM review your concerns and see if there is anything that can be done for you.
Briefly summarize what the customer is expecting:
Customer feels that he should be compensated for his time and inconvenience with his Brand New Jeep being down.
Customer advised a call back is required and will take place within one business day by COB their time
Preferred Morning/Midday call back number is [redacted]
Preferred Afternoon/Evening call back number is [redacted]

Writer called the dealership at 610-356-7000 and the line was disconnected.
Writer called the dealership at 610-356-7000 John Taylor is the SM.
Writer left a message with contact information. The reason for the call was to get updated mileage, loyalty and diagnosis of the check engine light and valve body issue of the vehicle.
Writer called the customer at [redacted] and left a message with contact information. The reason for the call was to get the customer s expectations, to inquire on what the customer is expecting for compensation and the verify customer address and e-mail.
Writer is going to offer an oil change service contract for Essential Care Select (ECS36N) as compensation for the customer s time and trouble.
Writer will offer the contract after the vehicle is repaired.
Customer called to speak with CM AS1978 Transferred to EXT 40508
Writer called the customer at [redacted] left a message with contact information.
Writer called the customer at [redacted] andleft a message with contact information.
Writer called the customer at [redacted] and left a message with contact information.
Writer called the customer at [redacted] 4 and left a message that we got his messages. Writer stated that we are sorry it took so long to get back to him regarding his case. Writer stated that if CM in not available and if he has an emergency that he may press 0 on his phone to speak to any available CM. Writer is calling back 12/03/2014.
Writer called the customer at [redacted] 4, and asked if the vehicle has been repaired. Customer said that the vehicle has been repaired, and driven for about 15 miles since the vehicle has been picked up. Writer offered MVP ECS36N, customer accepted.
Writer called the customer at [redacted] and the customer verified the mileage is 850. The customer stated that he loves Jeep and he has had 3. The customer stated that this is the first issue he has had with Jeep and hopes that this will be the end of the problem. Writer is calling back 12/19/2014 to allow the customer to test drive his vehicle due to bad weather he will not able to drive it right now. Write stated that we will call back when the MVP is added to verify the repairs are satisfactory and to verify MVP has been added.
EC36N Contract created. Contract number is 3[redacted].
Writer called the customer at 6[redacted] and left a message stating that the service contract has been added and we are closing the case.
CLOSED LOOP UPDATE - no need for additional follow-up.
Customer contacting Chrysler because after having the transmission issue repaired. Customer states now his adaptive cruise control and front collision warning has been disabled. Customer states he would like someone to work with him again to ensure the vehicle is successfully repaired and he will not have to go back to the dealership because he is very unhappy.
Customer called states if he has his vehicle being repaired at DLR he doesn t want to have to pay for rental vehicle. Agent advised customer he is under warranty and with it being a 2015 the DLR should provide rental. Agent advised customer if for any reason they will not provide rental to give us a call and we will look at potential rental.
Customer called in order to issue a complaint, and talk to a case manager. Customer states he doesn t want to leave another message, and demands to talk to someone right now. Agent attempted to transfer to Case Manager, CM AS1978 was unavailable. Agent stayed on the line and reached CM Betty who agreed to take the customer and offer him assistance.
Caller Mr Granof requesting to speak with Case Manager.
He added 2nd phone [redacted]

He alleged he will call for Lemon Law if no one calls him back.
Writer contacted customer; customer expressed frustration as the vehicle is less than three months old, and has had two major issues within the first 100 miles. Customer stated the DLR charged them $16.00 to replace the screen, and would like to be reimbursed for it. Customer provided email address: [redacted]. Writer advised a documentation request link will be sent, so reimbursement can be reviewed. Customer alleges the DLR has ordered parts for the vehicle with an unclear ETA. Writer advised their CM will contact the DLR to gather the correct information, and expedite any parts that have been ordered. Writer stated a callback will take place 1/6/2015.

Product - Electrical - Radio/Spkrs/Clock/Antenna - Intermittent or Inoperative - Default	Customer states radio works intermittently.
Product - Electrical - Unknown - Complete Failure - Default	Customer states the FCW and ACC are malfunctioning.
Corporate - Survey By-Pass - No Response / Unable To Reach - Default - Default	Since 12/30

Briefly summarize why the customer is contacting Chrysler: Customer states the radio stops working intermittently. Customer states occasionally the radio will come back on. Customer states the Assisted Cruise Control occasionally stops working. Customer states a warning light will come on suggested they receive service. Customer states the Forward Collision Warning goes off with no reason and engages the brakes. Customer states they brought the vehicle to the DLR twice. Customer states the DLR could not diagnose the radio issue the first time. Customer states the second time the DLR had it for over a week. Customer states the DLR advised that the radio will not be in until 2016.
-
Briefly summarize what the customer is expecting: Customer seeks to have their vehicle repaired. Customer seeks extension to the rental coverage. Customer seeks to know that their complaint is being resolved. Customer seeks to expedite the part order.
-
SA Carey states the repairs are completed on the vehicle. SA Carey states the customer s radio is being replaced to resolve their concerns with the Bluetooth features and the radio intermittently shutting off. SA Cary confirmed that the radio is on order and showing as being available in 09-01-2016. SA Carey states the customer was advised that the correct ETA is more likely 2 weeks to a month. SA Cary states they were unable to duplicate the FCW or ACC problems. SA Carey states that no codes, flash updates, or TSBs are showing. SA Carey states the ACC sensor and forward sensors were checked. SA Carey states the vehicle is drivable.

-
Writer contacted (TOM O BRIEN CHRYSLER JEEP DODGE 61884Ù and spoke with (Parts Advisor Richard).
(Parts Advisor Richard) stated part information for order is as follows:
Part #: Z8190240AF
Part Description: Radio
Order #: 6474
ETA: 09-01-2016
Is customer in rental? YES
If yes, who authorized rental? MVP
Is the vehicle off road? No
Order type: Special Handling
-
Agent informed customer that the rental cannot be extended at this time as their vehicle is drivable.

Chat Incident ID: 141201-000484
Briefly summarize why the customer is contacting Chrysler: Customer reached chat to report that he has been working with Jeep Care s ECS team and his dealer regarding numerous repair visits pertaining to the Forward Collision warning system and other electrical issues. Customer reports that this is in addition to an engine replacement that has been done on this vehicle.
Briefly summarize what the customer is expecting: Customer states that he is at the point of reviewing his states s lemon law and seeking a buyback of this vehicle by Chrysler Group. Customer states that he is considering doing this by mid-December 2014 which will be the 18 month anniversary of the vehicle being in service.
Writer reached Service department at Koons CJD 68438. They confirmed that there is no open repair order showing for the vehicle presently. They also confirmed that the last repair order shows from November 6, 2014 involving repairs to the sensor of the Foward Collision warning system and the ABS system.

Writer attempted to contact dealership and was hung up on.
CONTACT UPDATE - Customer was contacted today at 3:59 pm MST

Customer was provided with agent s extension: 40674.
Writer contacted customer who stated that concern is random and there is no pattern as to when the front collision light will go off. Writer advised that we are still doing some research as well as trying to reach out to the dealership so that we can get the vehicle repaired for the customer. Customer stated that they do not feel safe in the vehicle any more.
Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40674
The reason for the dealer contact was to provide or request the following information: find out what is being done for the customer.
Writer contacted dealership and spoke to SA Moses who stated that they were not able to duplicate the concern so they returned the vehicle to the customer.
Writer contacted customer who stated that they do have the vehicle back but do not feel confident in it. Writer advised customer that we would like to have them drive the vehicle and will follow up again on 12/19.
Writer contacted customer who stated that they are still having the concern with the sensor. Customer stated that they have only had the sensor go off once since they got the vehicle back. Writer advised that if they are still having the concern we will need to have them take the vechicle back to the dealership for futher diagonsis. Customer stated that they do not want to have to take the vehicle in because nothing is being done. Customer stated that they may want to look into having the vehicle replaced. Writer advised that if they would like to have the vehicle replaced they will need to look at the blue and white hand book that came with the vehicle. Customer stated that they would like to be contacted after the new year because they will be on vacation. Writer advised that we need to follow up once a week and we can send an email if they would like, customer provided email [redacted].
Status update provided via email to the following email address: [redacted]
I am just following up with you today to let you know that I will be contacing you again on 01/02/2014 to give you some time to review your blue and white hand book.
End of Status Update
Writer attempted to contact customer who answered the line and then disconnected.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40674. The reason for the customer contact was to provide or request the following information: Find out what the customer would like to do.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40674. The reason for the customer contact was to provide or request the following information: Find out what the customer would like to do.
Writer contacted customer who stated that they have not had time to review the blue and white hand book and requested a call back in a week to find out what they would like to do.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40674. The reason for the customer contact was to provide or request the following information: Find out what the customer would like to do.
Writer attempted to contact customer and line was disconnected.
Writer contacted customer who stated that they have not had time to review the hand book because they are traveling. Writer advised that at this time we will close the case and they can call back when they have time to take the vehicle back to the dealership.

Extremely dissapointed
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
***** CUSTOMER EMAIL *****
i got a 2014 overland one year ago and there have been more problems than I care to admit. Every electrical issue there can be, car alarm goes off every time I lock door (2 times fixed), the ACC/FCW alarm goes off constantly and worst of all, the BREAK alarm goes off every few miles with no object in site. It goes as far as to physically apply the break on its own. I have been to the worst dealership on the planet 5 times and tgey cannot fix it (autoland NJ). Best of all no loaners! How can you expect someone who can afford a 55k car to not need to leave theit home for 4 days? Oh ya a shuttle that takes you 5 miles from you house, that solves it. Audi, BMW, everyone else offers loa nets for far less expensive cars. I am beyond disappointed with the car that I m stuck with but more importantly the service I have seen from Jeep and Autoland. I will NEVER buy another vehicle from you or your dealership again. I have had multiple Jeeps in the past and never will again. In fact never buying American again just not worth the aggravation. You lost a once loyal customer and I suspect with products and service like this I ll not be the last. Get it together Chrysler/Jeep...especially Autoland
***** END CUSTOMER EMAIL *****
***** CAC EMAIL *****
Dear [redacted]
Thank you for contacting the Jeep Customer Assistance Center.
We are very sorry to learn of the problem you have encountered while having your vehicle serviced at Autoland Chrysler Jeep Dodge INC., and have opened a file regarding this issue.

Thank you for bringing this to our attention. We appreciate the time and effort you took to tell us of your dissatisfaction with this dealership and our product. We have documented your concerns and have made them available to our development teams.
Please know that your feedback and opinion are both, very important to us. We hope this experience will not cause our customers to misjudge our products.
We can have these unresolved issues addressed.
If you could, please contact your preferred authorized Chrysler Group dealership and have an appointment set. At that time, please contact us at 1-877-I-AM-JEEP (1-877-426-5337) or please respond to this email and I will have your case escalated appropriately. If you choose to contact us by telephone, please supply your case number [redacted]) to the Agent you speak with.
This escalation will provide the dealership and yourself with a Case Manager who will review your concern and reach out to you. They will assist the dealership in exhausting all available resources to have this issue addressed and resolved.
We apologize for any and all inconvenience.
Our records indicate that the following recall campaign(s) have not been performed by an authorized dealer:
Recall P36 - SUN VISOR WIRING
Recall P67 - OCCUPANT RESTRAINT CONTROL MODULE
We suggest that you contact your local authorized Chrysler, Dodge, Jeep or Ram dealer to make arrangements for an inspection and, if necessary, corrective action at no charge to you.
Please take a copy of this message with you at the time of service to aid the process. Although not required, it is recommended to bring a copy of the recall notification with you to your dealer s service department when you bring your vehicle in for this service.
If you wish to obtain further information, please contact the Chrysler Group Recall Assistance Center at 1-800-853-1403.
Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).
Sincerely,
Tyler

Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40672. The reason for the customer contact was to provide or request the following information:
Advise customer to resolve their concern we will need an appointment set with one of our licensed dealerships, inquire which dealership the customer prefers to work with.
Begin Customer Message reviewed:
I would like to setup some time to discuss my many issues. When is a good time for you to speak today or tomorrow? I can be reached at [redacted]
End of Reviewed Customer message
Writer called customer to inform him that we are looking and reviewing his case. Writer stated that we are doing our best to get this issue resolved. Customer stated that he just wants his vehicle fixed so that he can drive it. Customer stated that he had spent an average of 20 hours in the dealership since he has bought the vehicle. Writer apologized for the inconvenience. Customer stated that he needs a rental if the dealership has to keep the vehicle for longer than a few days. Writer stated that we can look into it for him but no guarantees. Writer stated that we will have the Cm call the dlr and get an update as far as the rental is concerned and then follow up with him. Writer stated that once we get an update for the rental, then we would need him to take his vehicle in for a diagnosis before we can fully authorize it. Customer stated that was ok
Writer called sm and had asked if he has or had seen the customer s vehicle. Sm had stated that they do not have it. The last time it was in the shop was July 2014. Writer thanked sm for his time.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40596. The reason for the customer contact was to provide or request the following information:
Writer called customer to inform him that we need him to make an appointment by 01-15 or we would be closing the case. Writer stated that we need to move this case forward. Cm will close the case on 01-15 if we do not hear back from the customer regarding an appointment.
Writer contacted DLR and spoke with SM Jeff. SM advised writer that customer does not have an appointment set up as of yet.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40672. The reason for the customer contact was to provide or request the following information:
To advised customer that if appointment is not set up by 1/15/2015 we will be closing their case. Writer advised a call back on 1/15/2015.
Was the customer in a rental? If yes, how many days? No.
Did the customer have a co-pay? If yes, how much? No.
What is the RO #? No.
Does the SM have the CAIR #? If no, provide it. No.
Review and Confirm the DM Notes with the SM while on the phone.
Does the SM have everything needed from Customer Care to process the claim? Yes
Writer contacted DLR and spoke with SM Jeff. SM answered DLR close- loop questions, because customer does not have an appoinment set up.

Writer contacted DLR and spoke with SA Stanley. SA advised writer that he will call back today when it is less busy.
Writer contacted DLR and spoke with SM Jeff. SM advised writer that the customer does not have an appointment set up as of yet.
Status update provided via email to the following email address:
[redacted]
Hello, this is Sarah from Jeep customer care
I m contacting you because you do not have an appointment set up as of yet at the dealership. i will be closing your caase if you do not have on set up by 1/20/2015. When you are ready to go into the dealership please feel free to give us a call at 877-426-5337 and we will be more than happy to re-open your case and assist you.
Thank you
End of Status Update
Begin Customer Message reviewed:
I was called by someone who works for you. They told me they were going to call me after they spoke with the dealer, because I need a loaner and my dealer does not offer one. I never got a call back telling me this was confirmed therefore I have not scheduled to drop my car off. Once you get a loaner scheduled I will drop my car off.
Please let me know when this is done.
End of Reviewed Customer message
Begin Customer Message reviewed:
Is there a way to make response time faster? You send a note, I reply and it takes 3 days to hear back. I have to imagine there is a more efficient means of communication.
End of Reviewed Customer message
CONTACT UPDATE - Customer was contacted on 12/16/2014.
Customer was provided with agent s extension: 40672.
Writer contacted DLR and verified with him that they were not going to give a rental or loaner to the customer. DLR last saw customer in 7/2014 where the vehicle was operating as designed.
Status update provided via email to the following email address:

* * * * * CASE MANAGER TEAM - District M * * * * * *
Writer is contacting dealer 60457 to speak to SM John, SM not available and writer left voicemail requesting any diagnosis information.
Customer is contacting Jeep for information about the progress of the case. Customer states that the vehicle has been at the DLR for about two weeks and the DLR is unaware what is causing the issue of the vehicle braking by itself.
Agent advised customer that writer does see that the DLR has reached out to our STAR team in regards to getting the issue resolved as soon as possible. Agent attempted to contact the CM directly but was unable to. Agent left a VM with case number customer name and contact number and requests to contact the customer. Agent advised customer that writer did leave a VM and will update the case. Agent offered to get customer over

to the CM VM but customer declined and wanted to speak to a CM directly. Agent contacted our CM department and spoke to CSR Claudia. Agent warm transferred the customer over to CRS Claudia for further assistance.
Mr. Naranjo called requesting to speak to his CM GS829, customer started that he is upset and wants to have his concern fixed once and for all. Writer apologized and advised also about the open recall and customer stated that it seems that no one is on the same page because he already advised us that the recall was done by the dealership. Writer transferred call to CM DJ474 for further assistance.
Customer contacted the writer. Customer stated that he is upset that his new vehicle is not repaired and broke on its own. Customer stated that he would like to know what to do next with the vehicle. Writer stated that he is not able to tell the customer what to do next but he would like to get more information from the dealership so he can provide a better answer.
Writer contacted 60457 - MIAMI LAKES DODGE CHRYSLER JEEP and left a message for SM John. Writer stated that CAC would like to discuss the vehicle and the STAR case that is open on it. Writer left a callback number and CM s and writer s extension.
Writer contacted 60457 - MIAMI LAKES DODGE CHRYSLER JEEP and left a message for SM John. Writer stated that CAC would like to discuss the vehicle and the STAR case that is open on it. Writer stated that CAC would like to know if the sensor has been replaced or if the concern has been duplicated. Writer left a callback number and CM s and writer s extension.
Writer contacted the customer. Writer stated that he was not able to get a hold of the dealership to get the needed information. Writer stated that CAC would look into the issues and contact the internal technician. Customer stated that he would like to know if the engineers have authorized the sensor to be replaced. Writer stated that if the vehicle s sensor is mounted properly and the wires are not the issue they do have authorization to replace the sensor. Customer stated that was okay and requested the CM s contact information. Writer provided CM s callback number and extension. Customer requested a call back today.
Writer is contacting dealer 60457 to speak to SM John. SM not available and writer left voicemail.

CONTACT UPDATE - Customer was contacted today at 1:51 PM.
Customer was provided with agent s extension: 40529.
Writer contacted customer. Customer states that initially her husband was upset over price of oil changes for diesel, but there are other issues as well. Customer states that a sensor in the front of the vehicle has been experienced a dysfunction and caused several electrical issues. Customer saw a warning light saying depth fluid was no good, customer paid to have it replaced but shortly after they had to pay to have it drained. Writer notified customer that she will send a documentation request to review this invoice for reimbursement. Customer states that passenger s side front window will not roll up all of the way but the dealership has not been able to fix the window. Customer notified writer that several flash updates were performed on her vehicle. Customer states that the issue with the sensor (eye) replaced on her vehicle initially due to the fact that they hit a baby deer. Customer states that before this incident the sensor did not function properly either. Customer states that she is experiencing electrical issues once again. Customer states that her forward collision warning has never worked properly. Customer states that she is irritated and feels as though the dealership has not done their part in fixing her issues. Customer states that driver s seat has two part memory for two people, customer states that there has been an issue with the seat not saving her husband s settings. Customer has not contacted dealership to notify them that they have experienced these issues. Writer inquired when customer will bring vehicle back to dealership. Customer advised writer that she will be out of town for the holidays and requested writer allow her extra time to schedule an appointment. Writer notified customer that she will contact her on 1/5 to verify whether she was able to get an appointment. Customer also requested writer send documentation request at this time as well. Writer agreed to do so. Customer thanked writer and call was ended.

Vehicle is at the dealership - EAST CAROLINA CHRYSLER-DODGE-JEEP (43815)
Update triggered by S08866M
Writer contacted dealership (East Carolina) at (252) 355-3333 and spoke with Service Manager Val. SM notified writer that the vehicle is being inspected and two RRT s as well as tow Software Flashes will be performed, SM states that the vehicle should be completed today. Writer inquired if the electrical issues mentioned by customer would be addressed. SM states that he was not aware of these issues. SM placed writer on hold and looked into issue further. SM came back on the line and notified writer that the customer has traded in the Jeep for a 2015 Dodge Durango. Writer thanked SM for the clarification and notified him that she will contact the customer to inquire if they will need assistance any longer.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40529. The reason for the customer contact was to provide or request the following information: Writer called to confirm lines 101-111.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40529. The reason for the customer contact was to provide or request the following information: To confirm lines 101-111.
Writer contacted customer. Writer verified that the customer traded in the Jeep for a Durango. Writer inquired if she had customer s permission to close case, customer stated that he is experiencing an issue with his check engine light illuminating on the Durango. Writer advised customer that the case that is open is pertaining to the Jeep, and a new case will need to be opened for the Durango, as the cases are VIN specific. Writer provided Dodge brand phone number (800) 423-6343. Writer invited customer to call us back if he has any future issues. Customer thanked writer and call was ended.
CLOSED LOOP UPDATE - no need for additional follow-up.

Left message for the Customer with my direct line.
POSTMARK DATE: 121714; DATE RECEIVED: 121814
Customer called back and left me voice mail on my vacation day
Customer was contacted today and he says that the DP from facilities / PISCHKE MOTORS called him already and Ron Pischke is handling this issue already and provided him with a loaner car already, fixed and checked the heated seat for him and the speedometer and rest of gauges (& Cruise control) were all repaired. Customer wants the Front Collision Warning System tested still. Writer agreed contact Thomas shop foreman and have the FCW system further reviewed if owner would like to return to dealership (Owner questions Collision avoidance system); writer asks how does he know that the Collision Avoidance is not working? Writer explained that retail customers are not supposed to attempt to 'test' the system by driving irratic. Customer says both Tom (SM) and Ron (DP) felt that the Collision avoidance system was not operating right. Writer called SM who said that mainly the DP was working with the Customer in person and set up meetings etc. Tom stated he would attempt to bring owner back and and Writer agreed to further review his last issue by involving Engineering (TAPS ie). Customer stated his disinterest in going back to the dealer for this he said that he has already been involved in dealer visits too often. Writer offers a loaner car for owner use but he is very uninterested in another dealer visit. Writer advised unable to assist without dealership involvement.

Product - Electrical - Unknown - Intermittent or Inoperative - Default	Anti Collision is flashing BRAKE and sometimes engaging the brake

Briefly summarize why the customer is contacting Chrysler:
Customer is contacting Chrysler stating that he is having a concern with the Anti Collision in his vehicle.
Customer states that while he is driving the anti collision will flash BRAKE when there are no vehicle in his laneway or around him and the system has actually engaged the brakes twice when it was not needed and could have caused an accident.
Customer states that he has taken it into DC26805 SECOR CDJR and they are unable to find out what is wrong with it.
Customer states that since he has gotten the vehicle back it happened again.
Customer states that he has not contacted the dealer as of yet.
Briefly summarize what the customer is expecting:
Customer is expecting to have this concern documented and repaired.
Agent contacted SA Steve who stated that this is a very hard issue to actually diagnose.
Steve states that they are not pulling any codes so they contacted STAR.
STAR told them to disconnect the battery and to completely discharge on the capacitors.
STAR told them that this has worked with other complaints and if it does not then to let them know.
Steve states even if the vehicle is showing these symptoms and braking by itself they do not know what to fix because there are no codes.
Agent transferred the customer to the dealer to book an appointment.
Steve stated that he did not know what Chrysler wanted him to do and told the customer that he would be waiting for STAR contact again.
Customer advised a call back is required and will take place within one business day by COB their time

Writer called DLR to get information about the customer s vehicle, but writer only gets a busy signal.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40596. The reason for the customer contact was to provide or request the following information:
Writer called customer to get their expectations and any other concerns that they may have. Writer gave contact information to customer.
Customer called writer back. Writer had asked customer what their expectations where if there was any other concerns. Customer stated that all he wants is his vehicle fixed in a decent amount of time. Writer stated that we are here to help make sure the vehicles repaired to his satisfaction. Customer stated that the vehicle had already gotten a diagnosis. Customer had stated he had taken the vehicle in again, today. The DLR had taken another diagnosis and did some tests, then sent it up to STAR. Customer had stated that he is waiting on a call from the DLR about his results. Writer stated that we could give the DLR a call on 12/23 to see if they have an update and then give the customer a call on 12/23 to follow up with him.
Writer called SM Pete. Writer called and asked the following: updated mileage, and the diagnosis. Updated mileage **1885**. The diagnosis was the forward facing camera was not working properly, so the SM ordered a new part. However, it is on back order. SM stated that it should get here sometime this week. SM will follow up with customer to inform them when they have the part.
Updated mileage **18085**.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40596. The reason for the customer contact was to provide or request the following information:
Writer called customer. Writer called to inform customer of the information we have regarding his vehicle, and to ask question: is the issue with the forward facing camera, or is it the Anti-Collision flashes when you BRAKE?. Left call back number.
CONTACT UPDATE - Customer was contacted today at fill in the timeÙ. Customer was provided with agent s extension: XXXXXÙ.
Writer called SM Steve to see if they had received the part. SM stated that yes they do have the part; they are just waiting for the customer to bring the vehicle in to repair it.
Writer called customer. Writer informed customer that the part for the vehicle had come and they are just waiting for the customer to bring the vehicle in. customer had stated that he has an appointment on 01/02 to get that resolved. Customer also stated that the vehicle has another issue that he is concerned with. The engine died for a few seconds on the high way. Customer stated that the throttle is the issue, but when the customer took it in to get it looked at, the SM stated that there were no codes that came up. Customer is going to bring up the issue with the SM again on 01/02. Writer will follow up with customer and DLR on 01/02.
Writer called Service. Writer spoke to parts manager Mat. Mat had stated that no he has not been in as of yet today. The last time he was in was on 12/31. Writer thanked Mat for his assistance.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40596. The reason for the customer contact was to provide or request the following information:
Writer called customer to find out when he is going to take his vehicle in today for the appointment. Writer stated that we had called the DLR today but they had stated that he has not came in as of today. Writer

left call back number and ext. writer will call customer no later than 01/05 for an update. If customer has not brought the vehicle in, then we are going to close the case due to no diagnosis.
Writer called sm to get an update on the customers vehicle. Sm stated that he had come in on 01-02 for the parts to be put in and then took the vehicle home. The process was a 1 day thing. Sm stated that he has not heard back from the customer so they are hoping that everything went well. Writer thanked sm for his time.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40596. The reason for the customer contact was to provide or request the following information:
Writer called customer to get an update on the vehicle and the repairs. Writer stated that if we do not hear from the customer by 01-08, then we assume that the repairs where repaired to his satisfaction. However; we are more than willing to re-open the case if he has any other concerns with his vehicle and/or the repairs that where done.
Was the customer in a rental? yes, 1 day
Did the customer have a co-pay? no
What is the RO #? 10699
Does the SM have the CAIR #? no,SM declined
Review and Confirm the DM Notes with the SM while on the phone. yes
Does the SM have everything needed from Customer Care to process the claim? yes
CLOSED LOOP UPDATE - no need for additional follow-up.

Opened new CAIR to further assist customer.
12/29/2014 5:20:01 PM: User Comment by Sharon Morton: ***Customer called LVM requesting a return phone call.
***Called customer and he stated that the vehicle went back in for service, he stated that the navigation system had to be replaced and the CE light is on. The customer stated that he will take the vehicle in to the CJDR of Tampa Bay located on Florida Ave. I advised the customer that I will send a request to have his case reopened.
***Called North Tampa (60446) spoke with SA Mike to verify if the customer had an appointment scheduled. The SA confirmed that the customer did not have an appointment as of yet. I thanked the customer and ended the call.
***Called the customer and advised him that his case has been reopened. The customer stated that he will be taking the vehicle into a dealership in TN, before he leaves to make sure that there is nothing major wrong with the vehicle since the CE light is on. He stated that they will be leaving FL on Friday going home and once he gets there he will give me a call and take his vehicle into the North Tampa (60446) we spoke about. I advised the customer that I am out of the office on Thursday and Friday in honor of the New Year holiday but will return on Monday 1/5 the customer stated that he will give me a call. I thanked him and wished him a safe travel home.
***Follow up with the customer 1/6/15
***Called North Tampa (60446) spoke with SA Justin and advised that I was calling to verify if the customer brought his vehicle in for service and the SA stated that he does not show the vehicle is in for service. I thanked him and ended the call.
***Called the customer unable to lvm due to vm has not been set up yet [redacted] unable to lvm due to vm not set up.

***Follow up with the customer 1/9
***Customer returned my call and stated that he has been attempting to get the vehicle in for service and has made several calls to North Tampa (60446) and always being told that they will call him back. The customer stated that he took his vehicle to a Kia dealership before driving home just to make sure because the CE light is on and he did not want to get on the road and return home with his family and something happens or they break down on the side of the road. The customer stated that he first took his vehicle into a Chrysler dealership and was basically told that they were too busy and to go somewhere else. This is the reason he ended up at the Kia dealer. He stated that the Kia dealer found the problem within 2 minutes, he stated that since he has been back home he has called North Tampa and is still waiting on a return phone call so that he can take the vehicle in for service. The customer stated that he did not want me to intervene yet and that he would call me on tomorrow 1/7 and let me know what he found out. I agreed, thanked him and ended the call.

***Customer called LVM requested a return phone call
***Called the customer and he stated that he is taking the vehicle back in for service on Saturday but the dealership can t get to him until Monday 1/12. The customer stated that he is very upset because the dealership has known for two weeks that they were going to bring the vehicle back in and now they are telling him it will be Monday. The customer states that he is just annoyed with this dealership. I apologized to the customer and advised that we will have to just wait and see if they get the vehicle repaired. The customer stated that the key fob batteries were either changed or the keys were switched out. But the 911 app continues to tell him to take the vehicle in for service, and on top of that he has had to take the vehicle back and forth to the dealership and he has no faith in this dealership. I again apologized for the inconvenience. The customer stated that he will contact me again on Monday or Tuesday 1/12 or 1/13 he thanked me and ended the call.

Vehicle is at the dealership - CHRYSLER JEEP DODGE RAM OF TAMPA (60446)
Update triggered by S20553B
***Called North Tampa (60446) spoke with SA Chris and he advised that the vehicle came in and he is going to drive the vehicle home tonight to see if he can duplicate the issue with the navigation system and the adaptive cruise. He stated that the wiring harness is on back order and he doesn t have an eta for it. The SA stated that they have order parts for the vehicle but have not received them all, he stated that the key fob he has been unable to duplicate and the 911 assist issue they have opened a STAR case on this issue. I asked if he had the part and order# so that I may attempt to expedite the part. The SA stated he did not have that information in front of him. I advised that the parts department should have it and if he could transfer me I could get it from them. The SA agreed, I thanked him for his assistance and was transferred to the parts department. Spoke with Parts Rep. Kerry and he provided me with the part# 68222849AB he stated that he did not have the order# because the Service Director put in a special handling request. I thanked him for the feedback and ended the call.
***Called the customer LVM advising that I did speak with SA Chris and advised of the conversation I had with him. I requested a return phone call.
***follow up with the customer 1/21
Customer LVM requesting return call at [redacted].
***Called North Tampa (60446) spoke with SA Chris and he advised that the customer has his vehicle and they were unable to duplicate the customers concerns. The wiring harness is still on back order for the adaptive cruise control. The SA provided me with the RO history I thanked him and ended the call.
***Called the customer and spoke with Ms. Cook she stated that the vehicle is still experiencing the adaptive cruise control turning off and the phone continues to come on and they are not attempting to use it. I

advised that I will check to see when the wiring harness for the adaptive cruise control is expected to come in and see if I can have it expedited. She stated that the dealership advised them to bring the vehicle in when they experience the issues however, it was 8 pm when they were driving about 15 minutes from one point to another and the dealership was closed. I advised her to have her husband give me a call, she stated that she will pass on the message. I thanked her and ended the call.
***Called North Tampa (60446) spoke with parts rep. Kerry and asked if he would provide me with the part and order # for the customer. The rep. provided me with order and part number for expediting. I thanked him and ended the call.
***Sent request for part to be expedited.

***Called the customer and he advised that he is really annoyed with this issue. He stated that the dealership kept the vehicle for 4 to 5 days and did nothing. He stated that the time is still off on the vehicle and the navigation is still off and it seems as though the dealership is not addressing his concern. He stated that their solution would be to set the hard time. The customer stated that he would just like the issue fixed and stated that if he doesn t want to trade the vehicle. But, he just wants the vehicle repaired, the customer stated that he has better things to do than run back and forth to the dealership and he feels like he is just being blown off. The customer stated that he has put a complaint in for the previous dealership in TN and he is not attempting to cause any problems he just wants the vehicle repaired. The customer stated that maybe we can look at a $0 deductible Lifetime Max Care once this is completed so that he doesn t have to keep paying $100 for each visit if this keeps happening. I advised the customer that we will see what happens but let s focus on getting the vehicle repaired. The customer agreed. I advised that I am not sure when the part will arrive but once it comes in then we can get our tech specialist involved and hopefully address all of his concerns once and for all. I advised the customer that I will speak with him again on 1/23 the customer agreed.

Called the dealership again and spoke with SA Rob and advised him that I have confirmed that the part has been in since 1/26 and that I would like to get the customer in and get his repairs completed. I also advised that the customer stated that his clock is now off by 45 minutes. The SA stated that he will get with SA Chris and see when they can get the customer in to complete the repairs. I thanked him for his time and ended the call.
***Called the customer and advised the customer of my conversation with the SA Rob and that they will be calling him to schedule an appointment for him to bring the vehicle in to complete the repairs. I advised the customer that I will speak with him again on Friday 2/13 the customer stated, sounds good. The customer also provided me with his new address and the BNC, I advised the customer that I will update his case. Thanked him for his time and ended the call.

***Please disregard lines 221-227 entered in error.
***Called North Tampa (60446) SA Mike and advised that I was following up to see if a customer brought his vehicle in for service. The SA stated that the service writer that was handling this case is not in today but it doesn t look as though the vehicle has been brought in for service. I thanked him for the feedback and ended the call.
***Called the customer and asked if he heard from the dealership he stated that he heard nothing. He stated that maybe we should contact the AM or GM because he has done this before because of no one contacting him regarding his repairs. I advised the customer that I will contact the dealership on Monday 2/16 and see why the appointment was not scheduled. I also advised the customer that in the defense of the dealership sometimes that have to schedule according to the extent of the repairs (i.e transmission, or engine repairs) I advised due to their space is limited, but I will contact him again on Monday after I have spoken with the dealership to determine how we can move forward to resolve this issues. The customer agreed. I wished him a Happy Valentines day and ended the call.
***follow up with the customer and dealership 2/16
***Called North Tampa (60446) spoke with SA Chris he stated that the customer can bring the vehicle in as soon as possible and he can get the parts on. I thanked the SA for his assistance and ended the call.
***Called the customer LVM advising that I was calling to let him know that I did spoke with the dealership and advised that he may take the vehicle in for the part to be placed on the vehicle. I advised that if he has any questions he may contact me.

OMC# 90918591Order# $C7651 FOR PN: 68222849AB IS RESOLVED
***Called the customer and asked if he has a moment. the customer stated that it is a waste of time to continue to take the vehicle back and forth to the dealership. The customer stated that the dealership left his vehicle dirty. He stated that he really is fed up with this process. He stated that he has back surgery Tuesday 2/21 and won t be able to continue to take the vehicle back and forth. I advised that there is a part order and I will contact the dealership to see if it is the radio and if so we will schedule an appointment to get him in for service. I advised otherwise we can take the vehicle in for service to another dealership. The customer stated that he would like to know if he can get an $0 deductible on his lifetime warranty since they are still continuing to have so many problems. He stated that he doesn t want any more money but it would be helpful to know that every time they have to take the vehicle in for service they don t have to come out of pocket. I advised the customer that would be something that he would need to discuss with the dealership or with the warranty department; I would not be able to assist with that. I advised the customer that so far I have exhausted all compensation that I would be able to offer outside of assisting with the repair. I advised the customer that I will speak with him again on Tuesday 2/24 the customer agreed.
***Follow up with the customer 2/24
Customer called in and is not happy with agent that is on customer case.
Customer states that nothing is being done with customer vehicle and customer would like resolution.
Agent advised that all would be documented.
Customer states that customer is not asking for large sum of money, customer would just like vehicle fixed.
Agent advised that all concerns would be documented.
Agent transferred customer over to SM1793 department.
***Returned customer s call and wife answered,stating that the customer

had surgery and is resting right now. I asked her to let him know that I returned his call.
***follow up with the customer 3/3
Customer states that he is very upset with SM1793. Customer is requesting to speak to her supervisor. Agent advised customer that because it is a different department we do not have control over speaking to case manager. Customer was inquiring about paying the service contract $100 deductible and agent advised customer that he would have pay the deductible. Customer was given the I2R phone number and advised that they would be better suited to assist him.
Customer is calling in regards to filing a complaint on the dealer. Jeep has been at the dealer since October and every time he is advised a call will take place, the call never has taken place. Customer states that the service at the dealer is inconvenient. Customer would like the matter resolved as soon as possible. Customer isn t looking for a CM callback but a Principal or owner of the dealer to contact him. Agent advised this will be documented for the CM.
Customer calling in regards to wanting a call from SM1793 s supervisor. Customer claims he had requested that action on 2/26/15. Customer feels as though he is getting a runaround when he just wants his vehicle fixed, he is not looking for money. Customer says that the issue is the DLR 60446 can t duplicate the issue and he says that they have. He seems very frustrated and agent expressed that there is not much agent can do but relay this message to SM1793, because agent doesn t not know enough about case nor does agent have enough authority to make these future decisions.
Customer s preferred callback number: 8[redacted]
***SA Jennifer Bose with North Tampa (60446) LVM requesting a return phone call regarding the customer
***Called SA Jennifer with North Tampa (60446) she expressed her concern that the customer is continuing to come into the service department complaining of an issue with his clock being off and they have been UTD the concern. She stated that the customer would like his radio replaced and she advised that this is something that has to be authorized and the dealership can t just replace a radio. The SA stated that they did some updates on his last visit and the customer continues to belittle them and they have had it with him. She stated that she would like for the customer to go to another dealership for service. I advised that I will contact the customer and find out what his concerns are and see how I may be able to further assist him. The SA requested that I return the phone call when I have spoken with the customer. I advised that I will let her know.
Briefly summarize why the customer is contacting Chrysler: customer is contacting Chrysler because no one has contacted him back yet in regards to his case. Customer is looking to speak with SM1793 S supervisor. Agent was trying to find a way to get the customer in touch with someone but the customer had another phone call come through and had to disconnect.
Briefly summarize what the customer is expecting: customer is expecting to find out who they are needing to speak with right now.
***Customer called LVM requested a return call.
***Called the customer and he stated that he is fed up with this process and wants to speak with a supervisor. I advised the customer that the same information that my supervisor is going to provide him I have the same authority to provide. The customer stated that his clock is still not repaired, he stated that the dealership would need to take the vehicle and keep if for 4-5 days to duplicate it. The customer stated that he took the vehicle in for service and advised them that the clock was off by 36 minutes and the SA Chris was able to duplicate the concern and they have not done anything about it. I ask the customer how was the dealership able to duplicate the concern as soon as he took the vehicle in for service if he stated that it takes at least 4 to 5 days to duplicate, the customer stated that he was being sarcastic when he stated that but 1-2 business days and the clock will duplicate. The customer stated that he has been dealing with this for 6 months, since Oct. I advised the customer that when I received his case there was no mention of the clock being a problem and we resolved all of his concerns at that time. The customer stated that he would like to speak with a supervisor;

I advised that I can assist, he stated that he wanted to know who will hold the dealership accountable. I advised the customer that my priority is to repair the vehicle; the customer stated which has not been done. I advised the customer to take the vehicle to a different dealership and the customer declined, and requested to speak with a supervisor. I advised that I will forward his request and he should receive a call within 24-48 hours. The customer thanked me and ended the call.
***Called SA Jennifer with North Tampa (60446) and advised her of my conversation with the customer and she stated that the customer will twist and turn your words around and doesn t remember what he has said. She stated that she will be talking with the owners of the dealership so that the customer will not be able to continue to come in and waist her SA s time with his concerns that are not founded. She stated that she may have the owner give me a call if he has additional questions. I advised that would be fine.
***Follow up with the customer 3/4
Customer called back stating he was contacted by his CM and was advised DLR refuses to work with him regarding his concerns.
Customer states he is not satisfied with the fact the DLR is advising they cannot duplicate the concerns but Customer states this is not true.
Agent advised Customer his case is being handled by the resolutions department and all we can do is document his concerns and transfer him to his CM.
Agent contacted the Resolutions Department and transferred the call.
Escalation call:
-
Called customer LVM advised their call was escalated to me by the CM per their request. Customer states the dealership has not been helpful because they are not able to duplicate his clock being off by 45 minutes. Customer states he does not believe the SA Chris is telling the truth because he saw the clock was off. Customer states he is taking his vehicle Monday 03/09 at Courtesy Chrysler Jeep Dodge #45399. Customer stated that the dealership North Tampa Chrysler Jeep Dodge, Inc. #60446 stated that Chrysler advised the dealership that this customer was not allowed to bring his vehicle back to this dealership again. Advised the customer that we would not advise a dealership not to allow a customer in their dealership because the dealerships are independently owned. Customer stated that he is not looking for more money because he did receive Cash & Keep of $5,000.00, he would just like the clock in his vehicle repaired. Customer states he has an unlimited MVPP with $100.00 deductible and would like the same MVPP with a $0.00 deductible. Advised I will speak with his CM about this and if it is possible she will look into it. Customer also asked why Chrysler does not replace the whole radio. Advised customer since he is taking his vehicle for a second opinion to Courtesy Chrysler Jeep Dodge #45399 on Monday 03/09, suggested we wait until his CM SM1793 follow up with him and with them for the diagnosis. Customer agreed.
Vehicle is at the dealership - COURTESY CHRYSLER-JEEP-DODGE (45399)
Update triggered by S65438F
***Called Courtesy (45399) spoke with SM Rick, he stated that so far they have not been able to duplicate the customer s concern. He stated that he did witness the 911 light flashing when the customer brought the vehicle in but when he turned the vehicle off and back on the 911 indicator did not come back on. He stated that the SA will take the headliner down and make sure that there are no wires crossed. He stated that they have manually set the time and it is maintaining the time over a 24 hour period. The SM stated that they will exhaust all efforts before giving the vehicle back to the customer. I thanked the SM for the feedback and ended the call.
***Called the customer and advised of the conversation with the SM Rick. The customer stated that he spoke with them and advised them to keep the vehicle for as long as necessary in order to duplicate the concern. He stated that he does not want them to not fix the problem and give it back because he will continue to take the vehicle back and forth and he doesn t want to do that. The customer stated that he is to a point to where he has had it with this vehicle. I advised the customer that the

dealership is attempting to exhaust every effort to have the vehicle repaired. I advised that he may have his vehicle back by tomorrow 3/11 and we will speak again on 3/12 the customer agreed. I thanked him for his time and ended the call.
***Follow up with the customer and dealership 3/12
***Called SM Rick with Courtesy (45399) asked about the status of the customer s vehicle. He stated that if he is not mistaken his crew is in contact with Chrysler to replace the whole unit. He stated that the tech will replace the radio and the BCM which is connected to the 911 module somehow. He stated that he advised the tech not to release the vehicle until all concerns have been addressed. The SM advised to call him on Monday 3/16. I thanked him and ended the call.
**Called the customer and advised him of my conversation with the SM, the customer was very pleased with the news. The customer stated that the dealership found the concern in 2 days when the previous dealership could not find in 6 months. I advised the customer that I am to contact the SM on Monday and I will speak with him on Monday as well, the customer agreed.
***follow up with the dealership and customer 3/16
***Called Courtesy (45399) LVM for SM Rick to return my call regarding the customer
***Called the customer and advised that I LVM for SM Rick to return my call regarding the vehicle. He stated that he LVM for the SA Rick as well and hasn t heard from him. The customer stated that he was just touching base with the SM to see how much longer it will be. I advised that if I hear from the SM anytime today I will give him a call; otherwise we will speak again on Wednesday 3/18 the customer agreed.
***Follow up with the customer 3/18
***Service writer Jennifer with North Tampa (60446) called and asked if the customer s concerns have been address by a different dealership. I advised that Courtesy (42399) verified the customer concerns and have decided to replace the radio and the BCM which is connected to the 911 module. The SW thanked me for the information and ended the call.
3/20/2015 5:12:52 PM: User Comment by OC163: Called 45399 Courtesy Chrysler-Jeep-Dodge and spoke with Rick, updated all RO information. Customer will test his vehicle and I will follow up with him on Tuesday.
I advised customer I would review his case for compensation to determine how we can help him. Customer is looking for a service contract with no deductible. I advised customer I would review both cases he has had with us to determine how I can compensate him and call him next week.

Customer left message requesting return call. Forwarded to case manager for follow up.
Customer is contacting Chrysler because he would like to speak to his case manager. Customer states that the DLR has turned him away, and he is not sure what the next step will be. Agent transferred customer over to the resolution team.
Customer is expecting their case manager to contact them ASAP. Agent advised the customer that the number they were given is the best way to reach their case manager - as well, agent advised the customer that the last agent has sent a request for a case manager callback in regards to the customer s case. Customer understood - will wait for the case manager callback.
Customer left message requesting return call. Forwarded to case manager for follow up.
Advised customer that rental is $35/day in a CDJ product and does not include gas allowance or insurance, navigation, etc.
3/24/2015 6:25:35 PM: User Comment by OC163: Called customer back to confirm repairs and customer stated all issues have progressed that were previously fixed. Navigation got him lost on his trip to FL, and the time is incorrect, 911 system goes to the red light and the adaptive cruise controls shut off. Customer previously received a $5,000.00 cash settlement before. I advised customer I would have to contact the dealership to confirm previous repairs. In addition customer would need to have an appointment set up for anything as early as 10:00 AM and after on any day. Dealership of choice is 45399 Courtesy Chrysler-Jeep-Dodge

and as an FYI current address on file is incorrect and will be updated as well. Rental authorization has been updated.
**Called Courtesy Chrysler-Jeep-Dodge (45399) LVM on General Appointment VM stating VIN and requesting SM to call me back ASAP
**Called customer [redacted] to inquire if he is still experiencing concerns
**Customer stated yes he is experiencing 1) GPS will show the vehicle is at the correct destination, but the customer is on a side street 5 miles away 2) Clock will not keep time 3) 911 system light comes on
**Advised customer I will set an appointment for him (per lines 491-492) with a rental and
we ll get this escalated to a tech specialist, who will exchange data via the phone with the dealership and make recommendations so we can get this resolved
**Follow up with dealer and customer 3/30/15
**Called Courtesy Chrysler-Jeep-Dodge (45399) who set appointment for 4/8/15 at 8:30AM with a rental.
**Called customer to advise of appointment and he refused as it is too far out and stated he wants to go to ULM CDJ on Dale Mabry Hwy in Tampa - zip 33607 813-872-6645.
**Advised customer I will contact the dealer and set appointment
**Follow up 3/31/15
**Called Jerry Ulm Dodge Chrysler Jeep (43654) 5 times and nobody answers to set appointment.
**Called back, asked for name of GM - was transferred to Mike Martinez - LVM requesting a return call.
**SM Mike called back and set appointment for 4/1/15 with a rental at 11:00AM.
**SM Mike agreed to open a STAR case.
**Called customer [redacted] to advise of appointment.
**Follow up 4/1 to update rental and get RO information.
**Called Jerry Ulm Dodge Chrysler Jeep (43654) and service is closed
**Follow up 4/3
**Called Jerry Ulm Dodge Chrysler Jeep (43654) spoke to Kayla in service but has no information on the vehicle
**Called customer [redacted] who stated the vehicle has been at 43654 since 4/1 and SA is Lucy Zullo and there is a Radio is on order.
**Customer stated the rental has a mileage limit of 150/day.
**Advised customer I will contact the dealer to get the status of the vehicle and look into the mileage limit
**Called Jerry Ulm Dodge Chrysler Jeep (43654), LVM for SA Lucy and SM Mike (who are both out today) requesting a STAR case be opened and a return call.
**Follow up with dealer 4/7 - get STAR case opened
**Follow up with customer 4/9
**SA Angie with dealer (43654) who stated the radio fixed 4 of customer concerns and all is performing as designed and vehicle is ready
**Called SA Angie back (ext 246) LVM requesting a return call with RO information
**Called customer [redacted] who said they have not had a chance to drive the vehicle, but the key fob and adaptive cruise concerns could not be duplicated
**Stated the adaptive cruise will shut off and display ACC/Forward Collision Warning
**Advised customer that I will give him a chance to drive the vehicle and will follow up 4/13 to verify the vehicle is repaired
Customer left message requesting return call. Forwarded to case manager for follow up.
**Called customer [redacted] who said vehicle is repaired
**Customer is requesting to replace his Lifetime Max Care MVPP $100.00 deductible with a Lifetime Max Care MVPP $0 deductible
**Advised customer we will consider his request as we have already provided a $5000.00 Cash Settlement follow up 4/17
4/22/2015 4:38:16 PM: User Comment by OC163: Called customer back to discuss his offer, customer already has the Lifetime Max Care MVPP with 100.00 deductible and was already given a $5,000.00 cash and keep.

Customer has already received 10% cost of the vehicle. Per JV1002 we can only offer an additional $1,500.00. Will follow up with customer tomorrow to present new offer.
4/24/2015 4:11:19 PM: User Comment by OC163: Called customer back to present new offer of $1,500.00. Customer was insisting we should either replace his vehicle or provide him with the zero deductible service contract. Customer was being very difficult and requested we send him an offer letter and arbitration information via e-mail. Customer feels we should be able to meet his demands of swapping out his current lifetime Max service contract to the zero deductible. We have already provided customer with $5,000.00 on previous case. I have sent customer an offer letter and will follow up on Thursday per his request.

4/30/2015 11:19:00 AM: User Comment by OC163: Called customer back in regards to his request for CRO and arbitration number. Customer stated he would go to the BBB but has agreed to return the signed offer letter by no later than 5/8/15. Customer stated he attempted to cancel his current service contract but would have to come out of pocket an additional $500.00. I advised customer we would not be able to increase his offer above $1,500.00 and customer understood.
Closing due to waiting on acceptance for 20 days. Will open again if documents received.
5/4/2015 6:48:58 PM: User Comment by OC163: Offer letter received and signed, set up follow up to process check.

Product - Electrical - Unknown - Other - Default	Forward collision warning not working
Corporate - Technical Assistance - Default - Default - Default	
Dealer - By-Pass - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler because the forward collision warning system does not work. Customer states that when he comes close to something while driving, there is no audible noise. Customer also states that there are no buttons for the front collision warning. Customer would like to know if this system is on his vehicle. Agent advised customer that it is showing in the sales codes.
Customer would like to know if there are any buttons on the instrument panel, and would like to know if his vehicle is actually equipped.
Customer states that he has been in contact with his DLR, but they did not know anything about the feature.
Agent advised customer that the case will be escalated for more technical assistance on the forward collision warning.
Briefly summarize what the customer is expecting: Customer is expecting to find out if his vehicle is actually equipped with forward collision warning, and the customer would like to know how to use it.
Customer called back to see if there is an answer yet on this issue.
Agent advised customer that she could see that he had the 'rear' portion but customer states that he needs the front which was suppose to be included in the package.
Customer was hoping someone would call him back at [redacted]5
1/15/15 Our records indicate this vehicle was equipped from the factory with the following:
LSR Forward Collision Warning Plus
***
The customer should refer to the Owner s Manual for detailed information about their vehicle. The Owner s Manual can be viewed online at:
www.jeep.com/en/owners/manuals/

The following information was obtained from the Owner s Manual:
FORWARD COLLISION WARNING (FCW) WITH MITIGATION IF EQUIPPED
Forward Collision Warning (FCW) With Mitigation Operation
The Forward Collision Warning (FCW) system with mitigation provides the driver with audible warnings, visual warnings (within the DID), and may apply a brake jerk to warn the driver when it detects a potential frontal collision. The warnings and limited braking are intended to provide the driver with enough time to react, avoid or mitigate the potential collision.
NOTE: FCW monitors the information from the forward looking sensors as well as the Electronic Brake Controller (EBC), to calculate the probability of a forward collision. When the system determines that a forward collision is probable, the driver will be provided with audible and visual warnings and may provide a brake jerk warning. If the driver does not take action based upon these progressive warnings, then the system will provide a limited level of active braking to help slow the vehicle and mitigate the potential forward collision. If the driver reacts to the warnings by braking and the system determines that the driver intends to avoid the collision by braking but has not applied sufficient brake force, the system will compensate and provide additional brake force as required.
When the system determines a collision with the vehicle in front of you is no longer probable, the warning message will be deactivated.
NOTE:
The minimum speed for FCW activation is 5 mph (8 km/h).
The FCW alerts may be triggered on objects other than vehicles such as guard rails or sign posts based on the course prediction. This is expected and is a part of normal FCW activation and functionality.
It is unsafe to test the FCW system. To prevent such misuse of the system, after four Active Braking events within an ignition cycle, the Active Braking portion of FCW will be deactivated until the next ignition cycle.
The FCW system is intended for on-road use only. If the vehicle is taken off-road, the FCW system should be deactivated to prevent unnecessary warnings to the surroundings. If the vehicle enters 4WD Low Range, the FCW system will be automatically deactivated.
WARNING!
Forward Collision Warning (FCW) is not intended to avoid a collision on its own, nor can FCW detect every type of potential collision. The driver has the responsibility to avoid a collision by controlling the vehicle via braking and steering. Failure to follow this warning could lead to serious injury or death.
Turning FCW ON Or OFF
NOTE: The default status of FCW is On , this allows the system to warn you of a possible collision with the vehicle in front of you.
The forward collision button is located on the switch panel below the Uconnect display.
To turn the FCW system OFF, press the forward collision button once to turn the system OFF (led turns on).
To turn the FCW system back ON, press the forward collision button again to turn the system ON (led turns off).
Changing the FCW status to Off prevents the system from warning you of a possible collision with the vehicle in front of you.
Changing the Active Braking status to Off prevents the

system from providing limited autonomous braking, or additional brake support if the driver is not braking adequately in the event of a potential frontal collision.
NOTE: The FCW system state is kept in memory from one ignition cycle to the next. If the system is turned OFF, it will remain off when the vehicle is restarted.
Changing FCW And Active Braking Status
The FCW Sensitivity And Active Braking Settings are programmable through the Uconnect System. Refer to Uconnect Settings in Understanding Your Instrument Panel for further information.
The default status of FCW is the Far setting and the Active Braking is the On setting, this allows the system to warn you of a possible collision with the vehicle in front of you when you are farther away and it applies limited braking. This gives you the most reaction time to avoid a possible collision.
Changing the FCW status to the Near setting, allows the system to warn you of a possible collision with the vehicle in front of you when you are much closer. This setting provides less reaction time than the Far setting, which allows for a more dynamic driving experience.
NOTE:
The system will retain the last setting selected by the driver after ignition shut down.
FCW may not react to irrelevant objects such as overhead objects, ground reflections, objects not in the path of the car, stationary objects that are far away, oncoming traffic, or leading vehicles with the same or higher rate of speed.
FCW will be disabled like ACC, with the unavailable screens.
FCW Limited Warning
If the DID displays ACC/FCW Limited Functionality or ACC/FCW Limited Functionality Clean Front Windshield momentarily, there may be a condition that limits FCW functionality. Although the vehicle is still drivable under normal conditions, the active braking may not be fully available. Once the condition that limited the system performance is no longer present, the system will return to its full performance state. If the problem persists, see your authorized dealer.
Service FCW Warning
If the system turns off, and the DID displays:
ACC/FCW Unavailable Service Required
Cruise/FCW Unavailable Service Required
This indicates there is an internal system fault. Although the vehicle is still drivable under normal conditions, have the system checked by an authorized dealer.
Reassigned file back to BJ637 for proper handling.

REASSIGNED TO BC/DLR 66 68510 02/02/15 12:44 R[redacted]
Writer called the dealership and spoke with SM Collin. SM stated that they do not have a tech rep for there area per the AM at this time. Writer stated that we would be sending the case to the dealership to see if we can get a response from the AM and the SM stated that he would send an email. Writer thanked the SM and disconnected the call.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40592. The reason for the customer contact was to provide or request the following information: Writer called and gave the information on lines 71-75.
Agent attempted to contact dealer Service Manager Collin, however, SM not available. Left message for a return call at extension 40592. The reason for the dealer contact was to provide or request the following information: Writer called to get a status update on the diagnosis of the vehicle.
Writer called the dealership and spoke with SM Collin. SM stated that he left a message stating that he ahs not gotten a responce from the AM in regards to the technician coming out.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40592. The reason for the customer contact was to provide or request the following information: Writer called to give the information on lines 85-87. Writer stated that we would call back on Friday.
SEBC - TA - Bovinett: Left message with SM Colin to arrange for vehicle to be at dealership.
SEBC - TA - Bovinett: Spoke with SM Colin Cabby. Advised that testing the system via test drive and activation would not be possible. Suggested TA speak with customer to explain the details of the system. SM spoke to customer, and customer agreed to have a conversation with TA over the

phone. TA will be calling the customer this morning to explain system operation and intention.
SEBC - TA - Bovinett: Spoke with customer this morning for 23 minutes regarding the system and its operation. Reviewed with customer the hardware and software involved, as well as the STAR document that states the system cannot be tested. The customer acknowledged our conversation, but is still not pleased that the system cannot be activated in a service environment. Customer s belief is that the system is mis-marketed and that the marketing material advises the system is much more sensitive than he has experienced. The customer did acknowledge that the system functions, as he has experienced an FCW/Active Braking event once. TA to advise SM that there will be no further action from FCA at this time.
Writer called the customer to verify the information on lines 101-110. Customer stated that he is going to be driving with the technician as soon as he sets it up. Writer offered the customer the SC MAP3N in order to assist if he has any issues in the future. Writer stated that we would call back next Wednesday.
Writer also verified the customers address and mileage as 1,406 miles.
MAP3N Contract created. Contract number is [redacted].
Agent attempted to contact dealer Service Manager Collin, however, SM not available. Left message for a return call at extension 40592. Agent attempted to contact dealer Service Manager Collin, however, SM not available. Left message for a return call at extension 40592. The reason for the dealer contact was to provide or request the following information: Writer called to see if the SM knew anything bout the technician doing a ride along with the customer.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40592. The reason for the customer contact was to provide or request the following information: Writer called to see if the customer had heard from the technician.
SM Collin called and left a message stating that the technician had spoken with the customer and that as far as he knows the customer has accepted what was stated.
Writer called the SM to see if the Technician was going to be doing a ride along with the customer. SM stated that as far as he is aware of the technician called the customer and explained how the system works. SM then connected the call to the technician Tommy. Writer asked if the system would through codes if it was defective and the technician stated that it would and even throws codes if there is salt or debrit on the sensor. Technician stated that the only thing he could think of is to go through the settings on the system with the customer to see if he has it set properly. SM stated that he would call the customer to go through the settings on the system to make sure the customer understands the way the settings are supposed to work. Write stated that we would call to give information to the customer and thanked the technician for his help.
The technician also stated that they have escalated the issue to the engineering department and would be releasing more information on the system as it is available.
SM Collin called and left a message stating that the customer still wants to do the ride along with the technician. SM requested a call back.
Writer called the dealership and was told that the dealership is closed due to the weather.
Writer called the customer to let him know that we are looking into whether or not we can get the ride along with the technician. Writer

stated that we would call back on Monday.
Writer called the customer to give the information that was received in an email from the technician. Customer understood and stated that he does not understand why there is not any more information on the system available. Writer stated that we would be able to assist if there are any issues with the system in the future. Writer stated that we would be closing the case at this time and gave the brand number. Customer thanked the writer and disconnected the call.
CLOSED LOOP UPDATE - customer contacted today to confirm repairs. All of the customer s concerns as documented in the reason codes have been addressed with the customer.
approved to close.

Briefly summarize why the customer is contacting Chrysler: Customer states he has had problem after problem with this vehicle and would like to know what Chrysler can offer him to stay with Jeep. Customer states he drove all the way home from Canada with the chime going and it didn t shut off until he got to the dealership and they disconnected it.
Customer states he does not want to go the lemon law route and wants to work with Chrysler as he really likes the overland and would like to get a new one that does not have electrical issues.
Briefly summarize what the customer is expecting: Customer expecting a discount on a new vehicle.
Agent contacted the dealership and spoke with SA Dave who advised the customer has had issue after issue with the chime going off and it doesn t shut off until the vehicle has been shut off for 5 minutes. SA states they have not looked at the vehicle but they are going to get it repaired and have a sales man appraise the vehicle.
Customer states he would like to purchase a 2015 overland with similar features and date of birth is 6/27/65.
Reassigned to RO188 in regards to CDI request
CDI number requested; please hold for updates dcp15
CDI # CD410677D155
Please contact customer
Agent contacted customer and provided CDI number as per line 20 and customer stated he wanted Chrysler to give him a proposal on a new vehicle he doesn t want to have to play games and go into a dealership.
Customer states he would not be happy if this number is only worth $2000.00. Customer states he would like a new vehicle the exact same thing. Customer states he is going to go to the dealer and see what the

number is worth and if he is not happy he is going to contact an attorney.
Mark Pentler, from dealer, calls to state that he wishes Chrysler would handle the values of the vehicle including compensating for the problems. Mark says that he is set up to look like the bad guy if he gives a value that is lower than what customer wants. Mark says that when he appraises the vehicle he has to consider the electrical issues. Mark says they did not sell the vehicle new and customer is not happy. Mark says they have gone above and beyond trying to keep customer happy and in the service department. Mark wants Chrysler to step up to bat to keep customer happy. Mark says it is a recurring issue that they have not been able to repair. Mark would like a call when a case manager is assigned to the file.
Agent was going to reassign to 88f for the recurring unresolved issues but was unable to due to not being CAIR owner.

Secondary phone: Customer declined to provide
Transferred to EL762 voice mail
Writer gave information for recall P67 OCCUPANT RESTRAINT CONTROL MODULE SAFETY 12/01/2014 INCOMPLETE
Mr. [redacted] r called to 40557 customer states his brake light warning of nearing objects while driving is going off at improper times and the customer is concerned. CM advised I would recommend getting the vehicle to the dealership ASAP because it could be something else. CM confirmed the customer is not stomping on the gas in an improper manner while driving because this could cause similar errors. Writer will follow up after 1:00 PM MST to discuss dealership appointment.
CM called to 44180 SM Rob left VM message that an appointment is needed for diagnosis and of the concerns. CM advised that rental is needed and open recall on the vehicle for the P67. Left 40557 for callback.
SA Dave called to 44180 Dave stated the customers problem with the vehicle and that with the mileage he is out of him Basic Warranty and the dealership has used up his goodwill for the customer. CM confirmed we will authorize rental if needed for the appointment but Dave stated the soonest he could get him in may be 02/19/2015 and I requested him look into what he can do and contact the customer. CM found a previous replacement to the ORC order 233732 07/31/2014 and several repairs to the vehicle early on from the PDC on. Writer confirmed maintenance partially completed at dealership but reminded that should be mentioned to the customer and provide him the schedule.
CM called to [redacted] advised that Dave will be contacting him shortly to get him scheduled for an appointment but it may be as late as 02/23/2015. Customer was advised of the ESP available and the customer

states because of the previous issues with the vehicle he would like the Maxcare provided or the vehicle bought back. CM agreed to look into the Lifetime Maxcare 0 co-pay the customer has requested because of the many electrical problems experienced. Mr. [redacted] states that he loves the brand but cant continue to go back and forth to the dealership with a brand new vehicle and explained his friends just purchased 2 non brand vehicles and have not experienced a single problem with theirs.
Mr. [redacted] states a steering noise heard when making a left hand turn that is like a whinning noise that has just started and he would like that checked while in service.
CM called to Mr. [redacted] to discuss the problems with the vehicle and the extended service plan he requested as compensation. Mr. Adair confirmed he is tired of the back and forth to the dealer and states that if a repair is needed he is afraid it will be like last time where he had to wait for the part to come in. CM will submit for the plan and follow up after the appointment.
Agent contacted dealership talked to Dave there is nothing, no codes, dealership put in question to star for issue and got back they have heard nothing , vehicle is working as designed, advised of the recall, dealership has customer in rental for 3 days dealership will keep driving vehicle to see if can duplicate the issue. Dealership want follow up with case manger 2/26
Agent attempted to contact dealer Service Manager Rob , however, SM not available. Left message for a return call at extension 40557
The reason for the dealer contact was to provide or request the following information: does the dealership have a diagnosis.
CM called to 44180 left a VM message for SM Rob to call 40557 to discuss the repair.
CM called to 44180 SM Rob who states the vehicle left on Thursday 02/26/2015 and no repairs reflected on the ticket. Rob states the fault codes received were for a steering obstruction. Rob states that technician was not there to discuss the vehicle with. Mileage out 57,751. Rob confirmed the recall wasn t completed and stated parts not available.
CM called to 44180 SA Mike states that the codes that were found were stored and no problems or concerns were found for the steering either. Mileage out as stated in 191.
Customer is seeking lemon law buyback/replacement. Buyback
What s the main concern? Multiple Transmission replaced
If known, how many repairs and/or dealer visits for concern? Transmission shifting
If known, how many days down?15
Describe previous offers made: Service Contract Maxcare
********** 91L Review **********
This vehicle does not meet the criteria for escalation to 91L.
CM called to [redacted] left VM message for callback at 40557.
Mr [redacted] called to 40557 returning my VM message from yesterday.
Customer states he is still experiencing problems with the vehicle and the warning indicator light is going off for the FCC/sensor and the Auto Cruise Control was not working. Customer states he will be driving and the warning light will come on and the switch will flip off for the Front End Collusion Control. Mr. [redacted] r states that the feature used to work very well and now the customer states it is inoperable. Mr. Adair states he had an incident the other day while driving and he had to abruptly apply the brakes and the light did not come on or trigger the indicator. Customer wants a new vehicle and states that the dealership has nod done anything for him on the last visit. Customer states they drove the vehicle and stated they could not duplicate the concern and the customer said that is like telling a parent because the kid isn t coughing when you take him to the doctor that he is not sick... I agreed to follow up by the end of the week after dealership contact completed.
CM sent email to SM Rob regarding the customer repair request asked that STAR case and Field Tech get involved with the vehicle.
Customer contacted writer and requested approval to take his vehicle into the dealership today. Writer advised she could not authorize cost assistance. Customer advised he would wait for a call back from case manager and take the vehicle in to the dealership the first of the week.

CM called to 44180 SM Rob not available SA Dave states the customer brought the vehicle in and is currently in Enterprise Rental. SA Dave states the customer has a major leak going on and explained the FCC problems and the Cruis Control not functioning. Diagnosis may be delayed because no appointment but Dave agreed to call or email when diagnosis completed.
CM called to Mr. [redacted]r who confirmed the vehicle was taken in today and that the warning lights were again displayed. CM confirmed that Dave will be following up with me by Monday with an update on the diagnosis and I will call him after to discuss the case.
SM Dave called, requesting the Case Manager. Transferred customer to CM EL762 at ext 40557.
SA Dave called from 44180 to provide a repair update Dave confirmed the water pump was found to be leaking and that was replaced under warranty. Dave states that he did not get the FCC light while the vehicle was in service but Dave states this has been seen in the past and feels the front sensor is causing the concern and the module would need replacement in order to repair the concern. CM advised to create a STAR case to see what they recommend and Dave agreed. Mileage confirmed 60,887 and Dave will call the customer to pick up because customer needs vehicle.
CM called to 44180 SA Dave who confirmed that the vehicle was returned after the water pump was replaced and STAR was contacted with his information regarding the forward collusion control sensor.
Dave states he is waiting for the instruction from STAR and has not heard anything back from them yet.
CM called [redacted] Mr [redacted] who states he is on vacation right now and states the water pump was installed but the customer is worried that the forward collusion control wasn t working and he wants that restored to proper performance. Mr [redacted] agreed to a follow up after dealership contact has been made. 03/30/2015
Agent attempted to contact dealer Service Manager , however, SM not available. Writer recieved a busy signal and was unable to leave a message.
Status update provided via email to the following email address:

Hello my name is Suzzi with Jeep Customer Care; I am emailing you in behalf of your Case Manager ERIKA. At this time I do not have any additional information to report, and apologize for any disappointment this may cause. We value your patience during this process, and would like to assure you that updates are forthcoming. In the event you need to reach ERIKA you may use the link provided in this email or call 800-763-8422 her direct extension: 44180.
End of Status Update
Writer contacted customer. A light in the vehicle comes on and says Acc not acceptable then it says to wipe off sensor. Customer states he has wiped the sensor multiple times. Customer states that the Forward Collision Control light is coming on as well Customer states DLR says the sensor may be defective. Customer states that he has been to 12-15 visits to 4-5 DLR s. Will follow up with DLR. Follow up date will occur 04/01/2015.
Writer contacted DLR and spoke with Service Manager Rob. SM states that they are waiting to hear back from STAR for instructions. SM states for CM to follow up with Service Advisor Dave due to SM being out of town on 04/01/2015.
CM called to 44180 SA Dave left VM message returning his earlier call. CM requested a callback at 40557 to discuss the case.
SA Dave called to CM to describe the vehicle diagnosis. Dave stated that STAR recommended the replacement of the forward camera that controls the FCC feature but the customer is out of warranty and the dealership has used up their goodwill with this customer. Dave states that SM Rob is out of town and would need to authorize any offering. Dave states the part alone is $1,385.00 and the repair is a couple of man hours for the proper alignment of the camera. CM will follow up with Rob when he gets back to discuss the case.
Status update provided via email to the following email address:
[redacted]

Mr. [redacted],
I wanted to follow up before the weekend to let you know we are working on your request but I need to speak with the Service Manager before we can proceed with your repairs. Have a nice weekend.
End of Status Update
CM called to 44180 Receptionist verified that SM Rob is still out of town and not able to authorize assistance at this time.
CM called to [redacted] to advise I will not be able to provide him with an answer until the SM Rob returns from vacation. CM agreed to call the customer back no later than 04/14/2015 after dealership contact is completed.
CM called to [redacted] and the customer states he let his son drive the vehicle and the vehicle gave him a beep beep and the Brake Warning light came on and the Cruise Control Light came on. Mr. Adair is concerned.
Status update provided via email to the following email address:
[redacted]
Mr. [redacted]
I wanted to thank you for bringing this event to my attention. I will be contacting the dealership tomorrow to discuss your case. If you have any questions you are welcome to call in or I will follow up by 04/17/2015.
Have a good night!
End of Status Update
CM called to 44180 SA Dave who confirmed our earlier discussion was good with Rob if the customer accepts the offering of the co-pay the Warranty pricing $1,571.96 and a $400.00 co-pay was discussed for the repair. CM will follow up with the customer to discuss the offering.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information:
To talk to customer about the copay.
call customer back on 04/21/2015.
CM called to [redacted] to discuss the case. CM advised of the customer states that he is not happy with the vehicle and the multiple repairs the customer states that he has experienced problems with electrical from day one and he states that the problems with the fuses and other electrical trailer hitch lighting on the vehicle itself. Customer states that he is disappointed with the vehicle because of the concerns but agreed to the offer with the $400.00 co-pay. CM will follow up when the part comes in.
CM called to 44180 SM Rob not available. CM left VM message of the case follow up requested callback at 40557 to discuss the case. Writer explained the offer was accepted with line 330 explained and to order the part if not already in stock.
As a one-time goodwill gesture, Chrysler is approving this out of warranty repair. According to the dealer, the warranty costs of the repair are as follows:
Parts = $1,385.00
Labor = $186.96
Total = $1,571.96
Co-pay =$400.00
########## DIRECT-TO-DEALER ##########
Customer Care is sending this case to because an out-of-warranty goodwill decision has been made. Remember ALL pre-authorization requirements for Digital Imaging and the Powertrain Service Center still apply. When submitting for pre-authorizations include this case number. When repairs are completed, submit your claim as you would normally and update this case and return it to Customer Care.

I am providing the National Incentive contact information we discussed. In addition I would like to mention the current incentive offerings on www.ram.com Inchntive Hotline (800) 227-0757 M-F 8am-8pm ET Enjoy your weekend!
End of Status Update
MR [redacted] called to speak with CM EL762, With customer s permission Writer transferred customer to CM s voice mail at ext 40557 as CM is not available.
CM called to 44180 left a VM message for SM Rob of the case follow up requesting a callback at 40557 to see if the parts came in.
CM called to 44180 SA Dave to discuss the vehicle repairs Dave states the customer is requesting the vehicle repairs be with 0 co-pay and I explained that I never said that to him and the $400.00 co-pay was to be charged.
CM called to Mr. [redacted] CM called returning his earlier VM message to confirm we are working on his request. I confirmed I sent the information on the incentives hotline to him and the customer stated he didn t receive the email. CM will resend the information to an alternate email [redacted] and customer agreed to call with date/time when the appointment is scheduled.
Status update provided via email to the following email address:
[redacted]
Here is the Incentive Hotline Number (800) 227-0757 M-F 8am-8pm ET. Please call or email when you have the appointment scheduled for the repair.
End of Status Update
Status update provided via email to the following email address:
[redacted]
Mr. [redacted]
I wanted to thank you for your patience with the vehicle repairs. I will

follow up with you shortly to discuss the repairs. Have a good night!
End of Status Update
disregard lines 422-425 entered in error
CM called to 44180 SA Dave states he doesnt have the appointment scheduled yet but did just get off the phone with the customer and states he is not happy about the co-pay. CM requested the customer call me with the date/time once the appointment is scheduled.
CM called to [redacted] left VM message of the case closing and the offer being good for 30 days if the customer choses to accept the offer and move forward with the repairs.
CM called to 44180 SM Rob not available left message with the Receptionist Virginia for Rob to call 40557 with appointment information.
Writer attempted to contact DLR. The dial tone went on for 2 minutes then call was disconnected.
Too late to call dealer.
Jim Sales Manager from Dealer 44771 called to speak to CM EL762 at X40557 who was not available at that time. Writer warm transferred caller to CM s voicemail for a callback.
Status update provided via email to the following email address:
[redacted]
I received your voice mail message and I understand you called in but I was on the other line. I will follow up with later today. Sorry for the wait.
End of Status Update
Mr. Jim Stein called to 40557 left VM message of the customers contact regarding trading the vehicle in and wanted to see if there was any type of additional incentive we would be willing to provide this customer.
CM called to Mr. Stein to discuss the incentive offerings. CM explained the customers had the vehicle for a year and most of these repairs have been fairly minimal and the sensor repair that is pending was offered with a $400.00 co-pay and this is an $1,800.00 repair. Jim is aware the customer wants out of the vehicle but did not have additional money to provide for this repair.
CM called to [redacted] to discuss the incentive offerings contact information but the customer was not available. CM left the contact number and will send the information via email for the customer to contact.
Status update provided via email to the following email address:
[redacted],
I am sorry we keep missing each other today! Here is the Incentive Hotline information I mentioned in my earlier voice mail. I would recommend you call them to see if they have other discount offerings available. 1-800-227-0757 I will be in the office the remainder of the week if you would like to discuss your case.
End of Status Update
Customer was warm transferred over from Lynn at Incentives, stating the customer had received a letter from their case manager Erika regarding Goodwill and Lynn advised that Incentives do not do Goodwill. Lynn also advised that customer has already asked to speak with a supervisor. Customer stated that he doesn t have a problem with Erika but he s not getting what he wants and wishes to speak with a supervisor. Agent advised that she would need to transfer over to either his case worker or another one and request a supervisor in that department. Agent transferred the customer over to Erika-EL762 @ extension #40557 as per Answer ID 19956.
CM called to [redacted] Mr [redacted] returning his earlier VM message. The customer states he is going to trade the vehicle in on the current incentive offerings before the weekend. Mr. [redacted] that his current vehicles multi function switch area is not properly functioning and the customer was told the light was out on the vehicle.
CM explained because of the recent repairs to the component he would want to get the vehicle back into service because it would be considered a workmanship isssue that would need addressed. CM explained that the repairs aren t devaluing his vehicle but the current pending repair will

if not taken care of before he trades the vehicle in. Writer explained if the component isn t working and the dealership is aware they will be consuming the cost of the repair that will be taken into consideration. I recommended he consider the offer I gave him and get the vehicle repaired before trading it. Customer will discuss it with Jim Stein in Sales but states he has a RAM vehicle in mind and I again recommended providing the VIN to incentives to see if additional rebates/incentives are available.
CM called to [redacted] but the customer was not available.
CM requested a callback at 40557 to discuss the case.
Writer contacted the Customer. Customer had informed the writer that he traded the vehicle in to the original DLR Wilde Chrysler Jeep Dodge. Customer informed the writer he loves the service and the support of the brand.
Writer contacted Wilde Chrysler Jeep Dodge. Sales Brian informed the writer that the customer had traded in the vehicle.

Corporate - Product Information - Default - Default - Default	Customer having repeat issues
Product - Electrical - Cruise Control - Defective - Default	
Product - Electrical - Navigation System - Intermittent/Cuts In and Out - Default	

Customer called in stating that his navigation is not showing him where he is at. Agent looked for an update, and advised customer of the RRT that needs to be done on the vehicle, which may help, as well as there is software update from driveuconnect.com. Customer states that a message will come up where his speedometer is saying BREAK in red. Agent advised customer that it could indicate that the break fluid is low or something wrong with his parking break. Customer stated that was not it, as it has been to the dealer 3 times for that issue. Customer also states that he has had an on going issue with his vehicle with the ACC/FCW. Customer states in ACC mode it will work for a short period of time, and then shut off. Customer states that it tells him he needs to wipe his sensor, but stated that is not the issue as it is very clean and nothing is in its way.
-
Agent advised customer, that agent can send case up to CM team for review for repeat concerns. Customer understood, and stated he is taking his vehicle into the DLR.
-
Reassigning to 88F for repeat concerns.

Writer contacted dealership at 479-524-6196. Writer spoke with Service Advisor (SA). SA advised that the dealership is not in possession of the vehicle at this time and the customer does not have an appointment scheduled to bring the vehicle into the dealership. SA advised that the last time the dealership was in possession of the vehicle was on 08/2014. Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40620. The reason for the

customer contact was to provide or request the following information: Writer called to make initial compliance contact.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40620. The reason for the customer contact was to provide or request the following information: Writer called to make initial compliance contact. Writer advised of a call-back no later than 01/13.
Customer contacted writer at ext. 40620. Customer advised that he has visited South Pointe (45215) 4 to 5 times to resolve these concerns but no resolution has been found. Customer advised that he is having concerns with the U-connect as well as the adapted cruise control. Customer stated that the dealership had advised him that the electrical toll pack placed on the vehicle may be causing the concern. Customer advised that he would like the vehicle serviced by another dealership rather than south pointe. Customer advised that he would need to be provided with a rental or loaner vehicle when he takes the vehicle in. Customer advised that there is a loud notification that pops up on the customers display with a red brake message. Customer advised that he would be able to take the vehicle into a dealership next week. Writer advised that he would be contacting dealerships to gather availability for a diagnosis. Writer advised of a call-back no later than 01/13.
Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40620 The reason for the dealer contact was to provide or request the following information: Writer inquired as to if the dealership had an opening for a diagnosis. Writer advised of a call-back no later than 01/14.
Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40620 The reason for the dealer contact was to provide or request the following information: Writer inquired as to if the dealership had an opening for a diagnosis. Writer advised of a call-back no later than 01/14.
Writer contacted dealership at 918-584-1481. Writer spoke with appointment coordinator who advised that the dealership is not in possession of the vehicle at this time, however, the dealership does have an opening for a diagnosis on Wednesday through Friday. Writer advised that the customer would be notified. Writer was transferred to Service Managers (SM) voicemail. Writer inquired as to if the dealership would be willing to accept an RA to authorize the customer in a rental vehicle. Writer advised of a call-back no later than 01/15.
SM contacted writer at ext. 40620. SM advised that the dealership would be willing to accept an RA for rental authorization. Writer advised that the customer would be contacted to inform him of dealership availability for a diagnosis.
Writer contacted dealership at 918-355-5000. Writer spoke with Service Manager (SM) who advised that the dealership is currently catching up on work and would not be able to service the vehicle. Writer advised that the customer would be notified.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40620. The reason for the customer contact was to provide or request the following information: Writer advised of lines 72-75. Writer advised that he would be attempting to contact Bob Moore tomorrow to gather availability for a diagnosis. Writer advised of a call-back no later than 01/16.
Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40620 The reason for the dealer contact was to provide or request the following information: Writer inquired as to if the dealership had an opening for a diagnosis and if they would be willing to accept an RA to get the customer authorized in a rental vehicle. Writer advised of a call-back no later than 01/16.
Writer contacted dealership at 918-663-6343. Writer spoke with Service Manager (SM) who advised that the dealership does have an opening on 01/21 for a diagnosis and the dealership would be willing to accept an RA to authorize the customer in a rental vehicle. Writer advised that the

customer would be notified. SM requested that the writer send conformation of CACs willingness to cover rental for the customer via email at [redacted]
Status update provided via email to the following email address: [redacted]
Hello, this is London with CAC contacting you in regards to customer: [redacted] the last 8 of the customers VIN is EC[redacted] customer cair case # [redacted]. As discussed this is conformation that CAC is willing to authorize the customer in a rental vehicle for up to 5 days initially to give the dealership time to duplicate the customers concerns. Obviously this is not an official RA, however, i will process an RA as soon as i am aware that the customer has an appointment scheduled for a diagnosis.
End of Status Update
Writer contacted customer at [redacted]3. Customer advised that he would be attempting to contact the dealership to set up an appointment for 01/21. Writer advised of a call-back as soon as he is aware that an appointment has been set up.
Writer contacted dealership at 918-663-6343. Writer spoke with Service Advisor (SA) Cody. SA advised that the customer had an appointment scheduled for a diagnosis on 01/20. Writer advised that he would send an RA to the dealership as discussed with the Service Manager (SM). Writer advised of a call-back no later than 01/22.
Vehicle is at the dealership - BOB MOORE CHRYSLER DODGE JEEP RAM (45538)
Update triggered by S96257K
REASSIGNED TO BC/DLR 63 45538 01/21/15 18:42 C[redacted]
Writer contacted dealership at 918-663-6343. Writer spoke with Service Advisor (SA) Cody. SA advised that the dealership is in possession of the vehicle at this time and the diagnosis of the vehicle is underway. Writer advised of a call-back no later than 01/23.
AM reviewed owner concerns with Ben, SM, at 45538. Vehicle is currently at dealership. Dealership has completed outstanding RRT s. SM unable to duplicate owners concern of 'BREAK' when going thru toll booths. Dealer has ordered adaptive cruise control sensor (68109355AI). ETA is 1/27/15. AM approved additional 5 days rental. Owner did not mention any NAV issues to dealership during write-up.
Writer contacted dealership at 918-663-6343. Writer spoke with Service Advisor (SA) who stated that the part had arrived and he had left a message for the customer in an attempt to schedule an appointment for repairs. Writer advised that the customer would be informed. Writer advised of a call-back no later than 01/30. SA advised that the eye lens for the cruise control sensor had been coming up with an error message that the lens needed to be cleaned. SA advised that the dealership had cleaned the lens multiple times but that had not resolved the concern and that is why the part had been ordered. SA advised that the concern is a manufacturing defect.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40620. The reason for the customer contact was to provide or request the following information: Writer advised that the dealership had received the part and the customer could schedule an appointment for repairs. Writer advised of a call-back no later than 01/30.
Writer contacted dealership at 918-663-6343. Writer spoke with Service Advisor (SA) Cody. SA advised that the customer has an appointment scheduled for tomorrow for repairs. SA advised that the repairs should only take a couple of hours and the repairs should be complete tomorrow. Writer advised of a call-back no later than 01/30.

Customer contacted SF601, writer transferred line to LW503 Ext: 40620. Customer contacted writer at ext. 40620. Customer stated that the dealership had advised him that they have ordered an electric lift kit to fit the lens in the vehicle and the ETA is set for early next week.

Customer advised that he would like the writer to look into service contracts to provide to the customer that would cover the components of the vehicle that the customer is having concerns with. Writer advised that he would look into possible service contracts to provide to the customer. Writer advised of a call-back no later than 02/02.
Writer contacted dealership at 918-663-6343. Writer spoke with Service Advisor (SA) who stated that the part on order does not have an ETA. SA advised of part #68271102AA. SA advised that SA cody is the writer over the ticket and would have more information for the writer. Writer advised of a call-back no later than 02/04.
Writer contacted the dealership at 918-663-6343. Writer spoke with Service Advisor (SA) who stated that the part ordered had not arrived and there is no ETA for the part. SA advised that the writer over the ticket no longer works at the dealership and that a Service Advisor would have to speak with the technicians to gather additional information and give the writer a call-back. SA advised that he would attempt to contact the technicians at some point today. Writer advised of a call-back no later than 02/06.
Writer contacted the dealership at 918-663-6343. Writer spoke with Service Advisor (SA) who stated that the parts had arrived at the dealership and they would be attempting to contact him today to schedule an appointment for repairs.
SM stated apt set for 2/11/15 to complete repairs.
SM stated repairs completed and owner to pick up vehicle 2/12/15.
Writer contact the customer a[redacted]. Customer advised that at this time they are in possession with the vehicle and there are no further concerns present with the vehicle. Writer offered to provide the customer with a ELECTRIC2 service contract, customer accepted. Writer advised that after the service contract has been provided to the customer the case will be closed, customer agreed.
CLOSED LOOP UPDATE - no need for additional follow-up.
[redacted] called, requesting his Case Manager. Transferred customer to CM LW503 at ext 40620.
Customer calls to speak with their Case Manager. CM is not in yet. Transferred the customer to LW503 voicemail at ext. 40620. Customer is concerning because the ELECTRIC2 service contract has not been added to his vehicle. Customer also states CM LW503 will send him the documentation by email.
Custome[redacted] called to speak to CM LW503 at X40620. Writer verified vehicle, phone and name with customer. Writer reviewed Recall P67 with customer; customer was not aware of recall. Writer warm transferred customer to CM LW503 at X40620.
Continued. Customer Mr.T[redacted] mentioned to Writer his displeasure and disappointment with problems he has had with this vehicle; and with poor customer service from Chrysler. Customer stated that he had questions about his service contract that he was offered by CM LW503.
Refer to lines 187-192. When the customer calls and the vehicle is at 35,000 CAC WILL provide the customer with a ELECTRIC2 service contract as promised, at no cost to the customer. (Electrical Component Coverage Plan)
[redacted] called, requesting his Case Manager. Transferred customer to CM JL1763 at ext 40528 as CM LW503 was unavailable.
Customer called becuase he is worried that he will not recieve the ELECTRIC2 service contract offered to him. Customer also would like to know if his electric component coverage will cover a sensor on the front of the vehicle that costs about 1400$. Writer advised that his CM will look into if the ELECTRIC2 coverage and find out if it covers the 1400$ sensor on the front of the vehicle. Customer stated that he would like some kind of confirmation of the offer he has received. Writer stated that he will send customer an email with writers contact information. Writer advised customer that he will receive a callback tomorrow regarding the dash sensor on the front of the vehicle. Customer provided email [redacted]. Writer will follow-up 2/27/15.

******TOP CARE: ESCALATION REFERRAL STAFF******

.
Top Care customer first contact was 01/08/15 at 12:55 by MLS45
.
Owner sent letter to Richard Thornton regarding the Forward Collision Mitigation feature on his vehicle. Owner said he was almost involved in an accident where he slammed on the brakes, however, the feature did not operate or alarm him. Owner said he feels this feature is necessary for the vehicle and wants to make sure it is working properly.
.
4.23.15 - Writer called dealership and spoke with Service Writer, Paul. Paul said the customer was advised, Chrysler recommends, for safety reasons, the feature cannot be tested. Paul said when the customer came into the dealership, there were no fault codes. Paul said the customer s wife complains that her husband continues to drive fast and when up close, behind another vehicle, he slams on the brakes, expecting to hear an alert. Paul said the vehicle is supposed to automatically slow down but will not accelerate or stop on its own.
.
Top Care follow-up contact was 04/23/14 at 13:38 by MLS45
.
Writer called owner for discussion regarding the feature. Writer left name and number for contact.
.
Writer called owner again and discussed the feature and able information. Owner said he feels the feature is not working. Owner said he almost had a few close call accidents where he had to slam on the brakes. Owner said when slamming on the brakes, there was no audible alert to indicate the feature is working. Owner thanked writer for calling and said he will writer a letter to NTHSA to see if they will make Chrysler develop a

software enhancement for the feature. Owner thanked writer for calling.

Opened new CAIR and I2R case to further assist customer.
1/9/2015 4:48:40 PM: User Comment by Shedonna Galvin: Contacted the customer in regards to a missed callback. I apologized to the customer and advised that I had not received any VM s from her or Brandy. Customer stated she was out of the country but the data recorder is full of data. Vehicle is due to go in for service 1/10. I advised the customer I will get the case reopened and contact the dealership regarding the diagnosis. Will follow up 1/12.
Received a call from Brandy at AutoNation stating the customer has an appointment scheduled for 1/12. SA Brandy requested a return call.
***Contacted the dealer (24165) LVM for SA Brandy requesting a return call regarding if the customer s vehicle is currently in for service. I also inquired on if they have contact TAPS for their continued assistance. Provided contact number requested a return call.
***Contacted the customer in confirm if she has taken her vehicle in for service. Customer stated she will be dropping the vehicle off in a few hours, She stated the data recorder was able to pull the some information regarding her vehicle being in 8th gear and dropping down to 1st. Customer also stated the adaptive cruise control, when on but not in use, the vehicle continues to brake for you. I acknowledged the customer s concern and advised that I would be sure to provide the information to the TA that is going to assist with the diagnosis and repair of the vehicle. Customer thanked me for the call. Will follow up 1/14.

This email is in regards to your case [redacted]. I received a call from your service writer Brandy. She advised me that they have pulled the data from the flight recorder. That data has been sent over to our technical support team for review. I will be out of the office on 1/16. I will follow up with you and AutoNation on 1/19 in regards to the recommendations for repair. If you have any questions, feel free to contact me. Thank you for your continued patience.
-
Regards,
-

Contacted the dealer (24165), spoke with SA Brandy. She stated as far as she knows they are still waiting for some information back from the technical specialist. No repair has been recommended as of yet. I advised SA Brandy that I would follow up.
Contacted the customer, LVM advising that I have contacted the dealer and spoke with SA Brandy. No new information as of yet. I advised the customer that I would follow up on 1/22.
Contacted the dealer (24165), spoke with SA Brandy, she stated awaiting recommendations on how to move forward.
-Per STAR notes, they were unable to duplicate the condition that the customer reports. No evidence on the data recorder.
***Contacted the customer in regards to vehicle status. I advised the customer dealership is awaiting recommendations. TS stated they was no evidence of incident on the data recorder. I advised the customer that I would follow up no later than 1/28.
Contacted the dealer (24165), LVM for Brandy requested an update on customer s vehicle status.
Status update provided via email to the following email address:
[redacted],
This email is in regards to your case #2[redacted]6. There is no update on your the status of your vehicle as of yet. I will follow up with you and Brandy on 1/30. If you have any questions, feel free to contact me.

Received a VM from the customer requesting a return call.
Contacted the dealer (24165), LVM for SA Brandy requesting a return call.
Customer is in ready.
-Contacted the customer in regards to vehicle status. Customer advised me that she has been notified that the vehicle is ready for pick up.
Customer wanted to know if the adaptive cruise control had been address.
I advised the customer that I would follow up with Brandy and address. I advised the customer her case is still under review. I informed the customer that I would follow up no later than 2/13.
Received a callback from SA Brandy. She stated the vehicle is repaired and ready for pick-up. The repair addressed the adaptive cruise control as well. Customer has been notified.
-Contacted the customer, I advised her that the adaptive cruise control has been addressed. I advised the customer that I would follow up on 2/13. Customer inquired on exactly what her case was being reviewed for. I informed the customer all possible resolutions from a payment reimbursement to replacement. Customer was appreciative. Customer thanked me for the callback
Contacted the customer and advised once the vehicle confirmed to be repaired. I would like to offer her 2 payment reimbursement and a MVPP 6/70 Max. Customer politely declined. Customer stated her vehicle has been in the shop more months than she has had possession of the vehicle. I advised the customer that I will continue to review.
Contacted the dealer, LVM for SA Brandy requesting that she fax over repair orders for review.
Received a callback from SA Brandy, she is going to fax over all of the customer s previous repair orders needed for review.
Contacted the dealer (24165), lVM for Brandy advising her that the repair order requested have not been received. I requested she fax those over again to 866-849-3869. I requested SA Brandy follow up with me once done.
Status update provided via email to the following email address:

Briefly summarize what the customer is expecting:
****End structured narrative T2 - Beginning Narrative
Customer will be able to drop the vehicle off at 830am on 1/26/2015 with the SA Tracey. Customer was advised with the concern not always happening the customer will allow the Dealership to drive the vehicle to and from work.
Agent attempted to contact dealer Service Advisor Tracy, however, SA not available. Left message for a return call at extension 40652

The reason for the dealer contact was to provide or request the following information: to make sure customer can drop vehicle off on 1/26/2015 and set up a rental vehicle.
Writer contacted customer. Customer states that he is not having a issue with the heated seats. Customer states he was just using that has example because they turned on when it was cold and he could not shut them off because the radio display had gone blank and he could not get it to reset. Customer also states that he is still having a issue with the cruise control and the brake message will come on the dash when there is nothing there. Writer advised customer that I have contacted the dealership and left a message for the SA Tracy to make sure 1/26/2015 at 8:30 am and to make sure there is a like vehicle for rental. Writer advised customer I will do another follow up once I have a update. Customer states he wants his office number used and if we call after hours his ext. 66.
Writer contacted dealership spoke to SA Shawn which set up the appt for 1/26/2015 8:30 am. Shawn states he will send the request for like vehicle for the rental.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40652. The reason for the customer contact was to provide or request the following information: to let know that appt is set up.
Writer contacted dealership spoke to SA Andrew which states customer did bring in the vehicle and they got him set up in a rental.
SA/Tracy contacted writer stating that they test drove the vehicle about 30 or so miles and have not duplicated any of the concerns. SA inquired on what they should do next. Writer stated he will escalate teh case up to the technicians for further assistance with diagnosis and they should expect a call tomorrow.

Forward Collision Alert
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
Can anyone give me a thorough definitive step by step understanding on the exact way this feature was designed to operate. We have been given several different explanations mostly wrong and have tried several different scenarios and still don t fully understand it. It only seems to work with adaptive speed control on. We called the dealer service manager and he never returned our call. It s not like I m illiterate, I have a very high IQ and have had this feature on a new Subaru and It worked fantastic. If I understand this one, it is either not working or is worthless but I want to make sure which it is!
***** END OF CUSTOMER EMAIL*****
Reassigned to EB460 for survey bypass - CAIR opened in error - email routed to level 2
Dear [redacted]:
Thank you for contacting the Jeep Customer Assistance Center.
Below is a detailed description of the operation of the Forward Collision Warning (FCW) system in your vehicle per your request. For details on how to operate and maintain your vehicle, please refer to the vehicle owner s manual. You may view manuals online at:
http://www.jeep.com/en/owners/manuals/
The Forward Facing Camera (FFC) module is a stand-alone monocular camera that captures and processes video images. The camera will perform the following functions on this model:
Automatic High Beam Control (AHBC) - Based on ambient situations, the AHBC feature will control the vehicle high-beam headlights automatically, relieving the driver of the manual operation of the high beam headlights. The AHBC feature automatically turns off the high beams when there is oncoming traffic, preceding traffic, presence of a village, high ambient lighting due to a town or twilight/dusk, when the vehicle driving speed too low, delay and fog.
Object detection for supporting data fusion (ACC+) - The camera provides additional object, lane and environmental conditions for data fusion. The FFC will also perform redundancy checks with the ACC radar to verify accurate detection.
Lane Departure Warning (LDW+) - LDW+ utilizes camera-based machine vision sensor to detect and measure vehicle position within lane

boundaries (when enabled). The system can be turned on or off with a single hard button on the Auxiliary Switch Bank Module (ASBM). The driver can configure the torque feedback amount and warning zone start point through the personalization settings in the radio. Three settings for each are provided.
Forward Collision Warning Plus (FCW+) - The FFC in conjunction with the radar sensor is used to detect whether the vehicle is approaching another vehicle or large obstacle in its path too rapidly and will warn/assist the driver in avoiding/mitigating the incident (when enabled). The driver has the ability to adjust the sensitivity and turn brake support on or off in the radio.
The Forward Facing Camera (FFC) module is powered by a fused battery feed from the Power Distribution Center (PDC) so that it is only active when ignition is set to the run position.
Adaptive Cruise Control Plus and Forward Collision Warning Plus (ACC+/FCW+) - The FFC reports to the Adaptive Cruise Control (ACC) module to create the enhanced ACC+ as well as the FCW+ operation. These components share a private CAN C bus where data from the FFC is sent to the ACC module for data fusion.
Lane Departure Warning Plus (LDW+) - The LDW+ feature uses the FFC module to identify visible lane markings and to track lane boundaries. The FFC module requests haptic responses from the Electric Power Steering (EPS) system when required.
ADAPTIVE SPEED CONTROL
Utilizes Radar and camera sensors to identify vehicles in forward path and maintains a selectable distance between the vehicle and the one in front of it;
ACC with stop and go has full functionality between 0 and 100 mph;
After ACC with stop and go brings the vehicle to a stop, the driver must indicate the intention to resume by either pressing the resume button or tapping the accelerator pedal;
Driver can select one of four following distances depending on driver preference.
The optional ACC Plus (ACC +) system (also known as ACC Stop and Go) has functionality beyond that of Normal Cruise Control and Adaptive Cruise Control. This system has the functionality of the cruise control system of maintaining a driver defined Set Speed without the driver needing to press the throttle. This system also has the functionality of the regular ACC system of increasing and decreasing the vehicle speed based on target vehicles moving slower than the ACC Set Speed. Beyond the functionality of the regular ACC system, this system offers a larger operational speed range, which constitutes of speeds from 0 mph to a configurable upper bound. If a target vehicle comes to a standstill, the ACC+ system will also bring the ACC+ host vehicle to a stop, and will keep the vehicle at a standstill for an undetermined period of time by first applying the brakes, and after the brakes time-out, cancelling the ACC+ system and applying the Electronic Park Brake (EPB). The ACC with stop and go system will also incorporate Forward Collision Warning-Plus (FCW). With grade braking, the transmission will automatically downshift to maintain selected vehicle speed and distance, preventing overheating of brakes.
The ACC sensor, the FFC, the ABM, the IC, the EVIC, the PCM and the SCCM each contain a microcontroller and programming that allow them to communicate with each other using the Controller Area Network (CAN) data bus. This method of communication is used by the ACC module to provide inputs to the ABS module, the EVIC and the PCM. This is also is used by the ABS module to provide inputs to the PCM, by the SCCM to relay the status of the speed control switches to the PCM and by the PCM for control of the indicators in the IC and the indications in the EVIC.
The ACC with stop and go system used also incorporates grade braking and Forward Collision Warning-Plus (FCW). With grade braking, the transmission will automatically downshift to maintain selected vehicle speed and distance, preventing overheating of brakes.
The optional equipment ACC+ system includes the following major components, which are described in further detail elsewhere in this service information:
Adaptive Speed Control Module - An Adaptive Cruise Control (ACC) module

(also known as the Adaptive Cruise Control/ACC sensor or radar sensor or module) is located on a bracket secured near the center of the underside of the front bumper support member of the Front End Module (FEM) behind the front fascia.

Antilock Brake System Module - An Antilock Brake System Module (ABS) is located on the antilock brake Hydraulic Control Unit (HCU) in the engine compartment.

Brake Lamp Switch - The brake (also known as stop) lamp switch is located on the brake pedal support bracket under the driver side of the instrument panel.

Instrument Cluster - A CRUISE indicator is located in the fixed segment display of the Instrument Cluster (IC) that provides an indication to the vehicle operator when the speed control system is turned ON.

Electronic Vehicle Information Center - The Electronic Vehicle Information Center (EVIC) is located in the Instrument Cluster (IC) and provides an interface to the vehicle operator for setting the adaptive speed control customer preferences as well as a display of the adaptive speed control and Forward Collision Warning (FCW) system status messages.

Forward Facing Camera - The Forward Facing Camera (FFC) is located inside the Combined Rear View Mirror Module (CRVMM) housing assembly. The FFC provides input for data fusion purposes allowing the ACC sensor radar data to be redundancy checked.

Powertrain Control Module - The Powertrain Control Module (PCM) located in the right front corner of the engine compartment contains the software and hardware that monitors all of the speed control system inputs and controls all of the speed control system outputs.

Speed Control Switches - A speed control switch pod containing eight momentary switch push buttons (five standard cruise push buttons and three ACC push buttons) is located in the right horizontal spoke of the steering wheel.

Steering Column Control Module - The Steering Column Control Module (SCCM) is located at the top of the steering column just below the steering wheel.

Wheel Speed Sensors - A wheel speed sensor is located on the knuckle of each front and rear wheel.

The ACC module is a stand-alone forward facing radar module. It is mounted to the vehicle structure, outside the cabin, in a manner allowing for an unobstructed view. The ACC module can operate as a stand-alone Electronic Control Unit (ECU) or can also be used in conjunction with additional forward ranging and object detection sensors in order to provide many driver assistance systems features.

The ACC module is located on a bracket secured on the passenger right underside of the front bumper support behind the front fascia. The stamped steel ACC module mounting bracket is secured by two screws to a bracket on the bumper support member. The ACC Module consists of a radar sensor, a sensor-integrated ECU with CAN interface, and software for radar measurement, object tracking and longitudinal control.

The ACC module and radar sensor communicates with other vehicle ECUs via both public and private bus networks to provide the following features sets:

Standard Cruise Control
Adaptive Cruise Control (ACC)
Enhanced Adaptive Cruise Control (ACC+)
Adaptive Cruise Control with Stop and Go (ACC+)
Forward Collision Warning (FCW)
FCW with Collision Mitigation (FCW+)
Full Speed Range Forward Collision Mitigation (FSRFCW+)
Advanced Brake Assist (ABA)

The microcontroller within the Adaptive Cruise Control (ACC) module contains the logic circuits and controls many of the features of the adaptive speed control system. The ACC module receives battery voltage on a fused ignition switch output (run) circuit and is grounded at all times through a hard wired remote ground point. These connections allow the ACC module to operate only when the ignition switch is in the ON position. Likewise, the ACC module sleeps whenever the ignition switch is in any position except RUN.

The ACC module is also a Radio Detection And Ranging (RADAR) transceiver. The ACC module transmits electromagnetic signal bursts at an operating frequency of 77 gigahertz. Those signal bursts are scattered by any objects they strike within the 40 degree field of view of the transceiver, which changes the strength and frequency of the signal. The ACC module antenna receives and interprets the returned signals to detect any objects in the path of the vehicle as well as their speed and direction.
The ACC module receives electronic speed control switch status message inputs from the microcontroller integral to the Steering Column Control Module (SCCM) over the Controller Area Network (CAN) data bus. The module also monitors electronic message inputs from the Powertrain Control Module (PCM), the Antilock Brake System (ABS) Module and the Transmission Control Module (TCM).
The ACC module logic processes all of those inputs, then provides the appropriate electronic message outputs over the CAN data bus to the PCM, the TCM and the ABS to control and maintain the separation setting selected by the vehicle operator between the vehicle and any preceding vehicles. The ACC module also provides electronic message outputs to the Instrument Panel Cluster (IPC) and the Electronic Vehicle Information Center (EVIC) to invoke the Forward Collision Warning (FCW) features.
The module also contains an electronic ambient temperature module and a heating element. When appropriate ambient temperatures are sensed, the heating element is energized by the ACC module control circuitry to keep the module lens or radar dome clear of ice and snow accumulations that might otherwise blind the module to proper reception of returned signals.
For those models equipped with the Forward Facing Camera (FFC), the camera provides additional object and environmental information to the radar to support its decision making. If the two readings between the FFC and the ACC radar are not completely identical, the system will become disabled. When the ACC system is paired with the FFC option, this is known as the ACC+ system.
Thanks again for your email.

Comments:
Thanks very much for the info. I m confused about several things, first it is almost impossible to get the forward collision alert to function even set to far. I have come within less than a car length of a large vehicle at speed and not gotten a warning, I have had the warning at slower speeds when the vehicle in front is stopped at a stop sign but never while moving in traffic. Second the lane departure warning has never functioned and I don t see a thing on the u-connect nor any button on the dash about setting it! The problem here is that the dealer sales and service manager don t have a clue how any of this works and gave us a lot of misinformation. we have had these functions on a Subaru Outback and are aware of how they should work and were not seeing it here.
Dear [redacted]:
Thank you for contacting the Jeep Customer Assistance Center.
I regret the problem you have experienced and appreciate the time and effort you took to bring this matter to our attention.
Unfortunately, we are unable to diagnose your vehicle via email. If you have been unsatisfied with your servicing dealership, we recommend contacting a different authorized dealership to arrange an appointment for a second opinion.
Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Should the dealer require technical assistance on the operation of the referenced items they may contact our Technical Operations Resource Group (STAR) or contact their regional Business Center.
Finding another dealer is simple;
You can find a dealership by visiting our Jeep brand website at Jeep - http://www.jeep.com
Thank you again for your email.
Customer contacting due to the fact he cant get the service appointment to set up appointment for his blind spot issue. Agent called 26001 and spoke with Brandon. Agent transferred customer to Brandon to set up

appointment.

Corporate - Hard Copy Manual Order - Default - Default - Default	Order manuals

An order for printed owner materials has been placed with our fulfillment house
The following items have been selected:
Warranty
Owner s Manual
Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler stating his had order the manuals for his vehicle but only received the uconnect manual. Agent apologized to the customer and said she would order the owner s manual and the warranty booklet. Customer asked that the manuals be delivered to: 2160 Watermark Dr. SE., Grand Rapids, MI 49546. Customer stated that his forward collision warning went off once while he was in a center lane and the closest vehicle was in the left hand turning lane. Customer wanted to know if it is suppose to warn about vehicles not in front of him. Agent informed him that the owner s manual page 219 states it is intended for vehicle in front of him; not to the side. Agent suggested he take the vehicle to the DLR to see if something needs to be adjusted. Customer wanted to know if the same button for turning off the FCW is the same one for the Adaptive Cruise Control. Agent informed him according to the owner s manual page 217 that it has a separate button. Agent offered to call the DLR; however, customer will contact them.
Briefly summarize what the customer is expecting: Customer wants to know if the forward collision warning is suppose to pick up vehicles in other lanes.

Product - Electrical - Unknown - Other - Default	NEW MOTOR VEHICLE BOARD COMPLAINT

012815 Received NMVB complaint _
Customer claims veh at dealer for last 2 weeks claiming vehicle brakes by itself (Adaptive Cruise Control equipped) _
contacted sm Kirk 24105 seeking service file and info on status of current visit
request to TA rsm to inspect vehicle. TA to inspect 1/30 tmt
013015 per TA RSM, vehicle inspected and found that customer has an aftermarket front cover/bra on vehicle that has a cloth mesh piece that is covering the ACC camera, and rubs on trim ring around camera which has caused it to come loose, and intermittently obscuring view, which will cause camera to detect need to brake. _
Per TA, this is not a warrantable condition, and no warranty repairs are needed. Dealer will inform customer that front cover/bra should be removed for proper operation of ACC tmt
Reviewed remaining service file, and FCA does not feel responsible for honoring customers request for repurchase of subject vehicle at this time.
Reply sent to NMVB advising same _
tmt

2 issues with vehicle
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
1. ECO mode - There is a TSB for customer preference making the ECO switch stay in the state I choose. Dealer won t do it because works as designed. 2. The FCW system doesn t work at all per owners manual. Dealer says working. Both have been in twice for repair, still not resolved.

Dear[redacted]
Thank you for contacting the Jeep Customer Assistance Center regarding your Jeep Grand Cherokee.
The handling of your case will require a call to the Dealer. What I am going to do is contact the Dealer on your behalf and continue to work on this case. I will be contacting you once the Dealer has been contacted to provide you an update. This will ensure that your issue/concern/question is reviewed as quickly as possible.
I appreciate your patience as I further research into this matter with you.
Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).
Sincerely,
Hannah

Jeep Customer Assistance Center
****END OF CAC EMAIL****
I want to make clear that I have been having vehicles serviced at Carson Dodge since 2006 and this is my first issue. I want the ECO mode to stay where I set it, not default on. The FCA doesn t work right but the ACC works fine. The FCA has given 3 warning when cars turn right in front of me. One time the warning flashed and the vehicle stopped in the road, again was a car turning right in front of me but this time at about 25 mph

Thank you for contacting the Jeep Customer Assistance Center regarding

your Jeep Grand Cherokee.
I am sorry to learn of the issues raised regarding your vehicle. Your concerns, particularly in view of the inconvenience involved in this issue, are understandable and I appreciate the time and effort you took to bring this matter to my attention.
To review this matter further, we will first require the vehicle be at the Dealership for further attention and review. This will best allow us to review this matter going forward. It is important to note we are not requesting you fully undergo review or repairs at this time, we are only requesting the vehicle be scheduled and at the Dealership so we may better gather information related to your vehicles condition in order to better review the matter.
Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).
Sincerely,
Hannah

Reassign to SJ372 for no diagnosis.
Heath and a death in family delayed my response. The FCA+ is not working period. Tech says works as designed and that is total BS. It doesn t work and am getting people together on line with the problem to go to NHTSA. The ability to keep ECO in state I set it was also not done, tech couldn t perform TSB. Overall I love the GC but have no use for service tech that can t troubleshoot. I will buy the service manual and fix it myself unless a dealer can be recommended that can fix things

2/5..... Writer attempted to contact owner but had to leave a message requesting a call back.
2/6..... Writer called owner at business number ([redacted] and was advised that owner was on the road today. Writer left a voice mail message for owner requesting a call back.
2/8..... Writer had reached out to Lonnie (Quality/Engineering Manager) to see if he had any ideas what could be causing the issue. Lonnie provided writer the following update:
****
Mike:
Yes. That s the Front Collision Warning (FCW) system activating. The FCW is activated by the camera that is located in the front lower fascia. The system looks and road conditions and calculate if there is a potential hazard which would warrant a braking application. If this warning is coming on often then I would recommend that the dealer perform a FCW camera re-calibration.
Thanks,
Lonnie
****
2/9..... Writer attempted to call owner @[redacted]42 but had to leave a message requesting a call back.
2/10..... Writer attempted to contact owner but had to leave another message. Writer requested that owner set up an appt. to have vehicle inspected and then let writer know when and where he is going so that writer can arrange a rental. Writer will also advise dealer to perform a FCW camera re-calibration.
2/11..... Writer spoke with owner who stated that he took vehicle in on 2/9 because over the weekend, the service air suspension warning came on for the third time. Owner claims that this has happened 3 times. Owner

was told that the problem was a result of ice on a sensor. Writer apologized for the issue and advised owner that regarding his brake warning and chime that according to one of our quality/engineering managers, his front collision warning system camera may need to be recalibrated. Owner thought that the camera recalibration was done once before but was not sure. Owner is currently in a rental that he is paying for. Writer agreed to reimburse owner once he gets out of the rental. Writer also called Brian (SA) who confirmed that dealer never did anything regarding the brake warning because they could never duplicate it. Writer requested that dealer perform the camera recalibration. Brian stated that they believe air suspension light was on because of the record snowfall in the area. Vehicle is not showing any fault codes or showing signs of air suspension problems at this time. Writer will engage STAR/TAPS just to be sure there are no other air suspension issues.

CAIR ESCALATION UPDATE
SEE STAR CASE# [redacted] FOR INFORMATION
2/17..... Writer called dealer and spoke with Brian (SA) who stated that owner picked up vehicle and advised dealer that the brake light is now on. Brian stated that he will call owner today and set up another appointment to have this looked at. Brian was not sure if dealer ended up turning off the front end collision warning system so that owner does not see the warning or hear the alert when going over a certain bridge or underpass. Writer requested that Brian follow up with writer once an appointment has been made for owner to bring vehicle back in.
2/19..... Writer left a message for Brian (SA) requesting a call back with an update on whether owner came back to the dealership to address the brake light issue.
2/20..... Brian called writer to advise that owner said he will bring vehicle back to dealer at a later date. Writer closing case for now.
3/24.... Owner contacted writer to advise that DEF light is now on and vehicle was taken back to the dealership. Owner is frustrated over the number of issues he is having with the vehicle and the frustration and inconvenience it is causing him. Writer sent owner and email advising him that writer would contact Dana (SM) at the dealership today to get an update and would then follow up with owner.

Survey By Pass - Top Care
Writer attempted to contact Dana (SM) but had to leave a message requesting a call back with an update.
3/25..... Writer attempted to contact Dana Perento (SM) but had to leave another message requesting a call back with an update.
3/27..... Writer spoke with owner and offered replacement and explained terms (MSRP - MSRP + tax on the difference). Writer advised owner that process could take a month to complete and that writer would find out who from selling dealer will be working with owner and buyback team in completing the process. Writer left a message for Rob Pisarno (sales manager) advising of the situation and requesting to know if he would be the dealer contact to assist with replacement.
Writer advised by Rob Pisarno that Mohammed Sabir from the dealership would be assisting with the replacement. Writer advised owner and sent Mohammed an email requesting that he contact owner today or 3/30 to begin the search for a new vehicle. Writer submitted replacement template and will close case.

***** EMAIL BRIEF DESCRIPTION CONTENT *****
Faulty Crash Mitigation System 2015 Grand Cherokee
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
Comments:
All 4 tires locked up nearly resulting in death. Recently my wife was driving our new 2015 Jeep Grand Cherokee Overland when suddenly the crash mitigation system activated for no apparent reason. There were no vehicles towards the front of the road at the time and nothing at all in front of the vehicle as far as animals or obstacles. The incident could have turned out badly had there been any vehicles to the immediate rear. She nearly had a heart attack and had to pull over she was shaking so bad! She immediately contacted support through the vehicles UConnect and reported the incident. She called me (Currently overseas) and I advised her to deactivate the system using the dash control. We currently have it scheduled to go back to the dealership but even one of the mechanics there stated that there were only recently certified and would have to research the issue. Frankly, this has all been a nightmare because of long delays in the ordering process because of the much delayed diesel engine and poor local dealership service. Additionally, we were promised by corporate executives compensation packages that never occurred. I have been more than patient with the administrative delays however the safety concerns that endanger my wife may result in legal action if this cannot be resolved.
*****END OF CUSTOMER EMAIL*******
Contact dealer 41650 at 910-347-3777 Spoke with SA Marshall requested to have further review on the if customer has been in for a diagnoses at this time. Customer has not been in yet. Agent requested any information on how the Crash mitigation system is to operate. SA Marshall stated he would have to research the concern further but without

the vehicle to diagnose Dealer 41650 is not able to determine if the customer vehicle is operating normal.
Dear William,
Thank you for contacting the Jeep Customer Assistance Center.
I am sorry to hear of your wife s concerns in regards to the Forward Collision Warning activating for unknown reasons. I have reviewed our system to locate what the normal operations are in regards to this feature and have found the following.
Forward Collision Warning (FCW) Active Braking If Equipped
The FCW system includes Advanced Brake Assist (ABA).
When this feature is selected, the ABA applies additional brake pressure when the driver requests insufficient brake pressure to avoid a potential frontal collision. The ABA system becomes active at 5 mph (8 km/h).
Forward Collision Warning (FCW) Active Braking If Equipped
The FCW system includes Advanced Brake Assist (ABA).
When this feature is selected, the ABA applies additional brake pressure when the driver requests insufficient brake pressure to avoid a potential frontal collision. The ABA system becomes active at 5 mph (8 km/h).
As such it does appear the system operated as designed, but due to the concerns your wife reported I do strongly advise you have your dealership review the concern to diagnose if this is normal operating or if there is a concern. After the vehicle is diagnosed by your dealership please do contact us at Jeep if further review is required.
Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).
Sincerely,
Heather

***** EMAIL BRIEF DESCRIPTION CONTENT *****
Displeasure with Jeep Chrysler and a 2015 Grand Ch
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
To whom this may concern, I am writing to voice my displeasure with Jeep Chrysler and a 2015 Grand Cherokee Overland VIN 1C4RJFCT9FC[redacted] at which I entered a 39 month lease agreement. Displeasure and safety concerns of the 2015 Overland: Jan 8, 2015, I purchased the vehicle mentioned above from Motor Village LA located in Los Angeles, CA. On or about Jan 16th, I started to experience the first of many troubles. At first the issue was that my car would not start when I pushed the start button. Though the vehicle contained an automatic transmission, the onboard computer system thought the vehicle was a manual transmission. After several attempts, I was able to get the car started. Afterwards, the Malfunction Indicator Light (MIL) remained on throughout my drive home. The following day after vehicle start-up, the MIL did not illuminate. However, it was at this time the radar sensor for my Adaptive Cruise Control started to malfunction. Shortly after, the MIL illuminated again and remained for the day. On Jan 22, 2015, while 'driving', the engine shut off on me while driving down a road close to my work resulting in blocking traffic because I was not able to steer off to the side of the road in time. On Jan 28, 2015 when I attempted to bring the vehicle in for a system check I was unable to start the vehicle because once again the computer believed the vehicle was a manual transmission vice an automatic. I.e. 'Push in the clutch to start the vehicle'. Subsequently a tow truck was called and the vehicle was then towed to the local dealership. Displeasure with Jeep Chrysler: Since my car has been in the shop at Bob Baker Jeep/Chrysler/Dodge located in Carlsbad CA, I have made an attempt to call the dealership that I bought the vehicle from to try to get a one for one exchange. I talked to the Finance Manager Ahmad and explained the situation to him. He informed me that he

would talk to the Sales manager and see what they could do. I have yet to receive a call back. I then called the sale man who sold me the vehicle to explain my situation. He informed me that I needed to talk to Chris Mullian, who was currently out for the weekend but to try to call back on Monday to reach him. I then tried to call to talk to him but instead talked to Jesse Betts, who said he worked with Chris and would leave my name and number on his desk so that he could return my call. I have yet to hear from him or anyone. The first time I called the service department at Bob Baker Jeep/Chrysler/Dodge, I was told that the technician had to call the jeep engineers. Since then, I have tried numerous times talk with my service advisor; leaving messages only to have them ignored. I am only able to reach him by his personal cell number which he leaves in his message. The service department has not made an attempt to keep my up-to-date on anything that is going on with my vehicle. I attempted to call the next two days and got no answer or return call. When I finally got an answer from the service advisor on Monday, I was told that the vehicle popped 15 different codes and needed several software updates and is now being driven with a monitor on the system while my radar sensor is on order. I have no idea who is driving the vehicle and since I leased the vehicle I am limited to the miles that I am allowed to put on the vehicle. It has now been a week since my last conversation and I have not heard anything from the dealer about the status of the repair. Additionally, I feel like I have been jerked around by other dealerships when attempts have been made to get help for my vehicle; I.e., €œit €™s not my problem € and
that I had to find a tow truck to get the vehicle to the maintenance shop. To date, the vehicle has been in the shop for a total of 14 days with limited updates. The vehicle was purchased for day to day use and as a reliable transportation to and from work. Due to the negative experiences and safety concerns within the 20 days of purchase/lease, I feel this particular vehicle is no longer reliable and most importantly for me and my family, 'safe'. As an active duty service member serving as a 18 year United States Marine, I know and understand honor courage and most importantly, commitment. I absolutely have no desire to terminate my lease agreement with Jeep Chrysler; due to my concerns, I request that the cooperation live up to its reputation and simply exchange the problematic vehicle with another one. I can be reached at [redacted]

Dear [redacted]:
Thank you for contacting the Jeep Customer Assistance Center.
We regret to hear that you are having concerns with your vehicle as well as with Bob Baker s dealership.
The handling of your case will require a call to the dealership. Unfortunately, the dealership is currently closed. What I am going to do is assign your case to an agent that will contact the dealership on your behalf. We will be contacting you once the Dealer has been contacted to provide you with an update.
This will ensure that your concern is reviewed as quickly as possible.
Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).
Sincerely,

Melissa

Product - Engine - Unknown - Check Engine Lamp On/Flashing - Default	CEL is on
Product - Electrical - Cruise Control - Defective - Default	cruise control randomly triggering brakes, accelerating vehicle
Corporate - Enhanced Customer Satisfaction Program (ECS) - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler:customer called in because of new issues with the vehicle, specifically the cruise control system
Briefly summarize what the customer is expecting: customer is expecting to being looking into options to have this vehicle replaced.
customer states that they first noticed the problem a few weeks ago, that the vehicle had a check engine light and they had brought it into the dlr and had the issue repaired
customer states since that point they have attempted to use the cruise control the vehicle randomly triggered the brakes with no vehicle infront and no obstructions.
customer states that they had to hit the gas to get the vehicle out of cruise control to avoid an accident due to this
customer states since then his wife has attempted to drive the vehicle once and found it experienced a sluggish response to the gas almost sounding like it was starting to flood and then random acceleration
customer states that they have been patient and worked with us on this vehicle but now they are starting to question there safety.
agent reviewed case with tl and was advised as the customer is in the ecs program that this case would need to be escalated to them for further handling.
Enhanced Customer Satisfaction Team (ECS) *
MR [redacted] in. Customer alleges that customer has had mutable concerns with vehicle and is scared to drive vehicle. Customer alleges that customer was on a freeway and customer was using cruise control.

Customer alleges that it was set to 70mph. Customer alleges that all of a sudden the vehicle slammed on its brakes. Customer stated that customer had to hit the gas to correct the issue. Customer alleges that it almost caused an accident. Customer stated that vehicle is at dealership. Customer stated that customer just wants vehicle to work right. Customers Wife Mrs. Walton got on the phone and stated that she is scared to drive vehicle. Customer stated that CEL is on. Customer stated that customer would like vehicle replaced because customer stated that this is a safety concern.
Customer was informed that by making this request
they are NOT actually filing lemon law or any related process.
Their case is being escalated for a review of the vehicle s repair
history
history to determine if their request merits further action and that due
to
to the nature of their request, it will require a call back which will
take
place within 1-2 business days. The outcome of the review does
NOT determine Lemon Law eligibility.

**Apologized to customer that we were not able to satisfy him and read the Arbitration Statement and provided the contact information.
**Advised customer I am closing his case
**Customer thanked me for my assistance
Begin Customer Message reviewed:
Angel: From: [redacted], case [redacted].
I received a call, this morning, from Dani Akkerman at Crystal Chrysler Palm Springs, California. Dani informed me that he received a call from

Chrysler headquarters asking me to pick up my car. I still have several questions, regarding the car, and will not be picking it up at this time. My wife and I still have grave concerns regarding the cars safety, not to mention all of the other problems we have experienced. We believe the car has not lived up to Jeeps high level of reliability, customer satisfaction and SAFETY.
In addition to a phone call, from you or your supervisor, I am requesting a complete service history to be in my hands as soon as possible. This history should include each time the car arrived at the service center, the problems that needed to be addressed, corrective action taken, and the date the car was returned to me. I did request this information from Crystal Chrysler, it was incomplete and lacked the detail I mentioned above.
I will be looking forward to receiving the information, I have requested, via my [redacted]. My telephone number is [redacted].
Please note that I will continue to use the Enterprise rental until we have spoken and resolved outstanding issues.
Att. Angle

Hi ,
My name is Neela, and I am following up on a survey that you recently completed regarding your 2014 JEEP GRAND CHEROKEE .
I have contacted JAKE SWEENEY CHRYSLER JEEP DODGE , and spoke with Service Advisor Karen in the Service Department, who has advised that the last time you were at the dealership was 08/05/14 , however, you have not been back since, and the dealership was unaware that you were

having issues with your vehicle.
We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.
Given the many variables involved, we are unable to diagnose your vehicle s problem via email or phone. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair.
Once you have been to a dealer to have your vehicle concerns diagnosed, if you require further assistance from JAKE SWEENEY CHRYSLER JEEP DODGE please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Jeep Customer Assistance at 877-426-5337.
Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles.
Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.
Thank You,
Neela

*****OUTBOUND DEALER CONTACT *****
Dealer Code: 42-66487 View dealer plan Dealer Name : JAKE SWEENEY CHRYSLER JEEP DODGE,
Dealer Phone : 513-782-1000
Writer called the dealership and talked to Karen in service. The SA confirmed the vehicle was at the dealership on 08/05/14
Mike Smeg in Cincinnati just got an email responding to a survey contacted the DLR about a problem since Aug. 5th. Customer states he has invoices dealing with his problem.
Was sent a survey and filled it out. Customer finds the issues with the vehicle more of an irritant than serious problems. Writer explained that we do not collect input for these types of dealer surveys. They are handled through a third party, not Chrysler corporate. This is not a new owner Survey.
Customer states he has an invoice from Sep. 24th, 2014 from Jake Sweeney dealing with the issues described in the above cair. In Aug. 2014 customer went for lube and oil. Then after 6000-mile trip, he got the Adaptive Cruise Control problem. First noticed this on a long trip, the Adaptive Cruise Control problem. On the long trip, it happened every 250 miles. He knows electrical systems well and thinks that the cycle is something overheating, shuts itself off, then starts working again. Sep. 23 and Sep. 24th the vehicle went through full diagnostics. 'No STAR case and no resolution' was written on the paperwork he received.
Customer will not take his car to a DLR until MARCH 2015. Writer said to call us back then with the case # when he is at the DLR and we will send up his case if the issue remains unresolved after a rediagnosis. DLR can open an engineering case the next time and reach out to engineering group of Chrysler. Customer understood.
Writer consulted answerconnect #18470.
Very dissatisfied with this feature of the vehicle.

Product - Electrical - Cruise Control - Defective - Default	Adaptive Cruise Control/Forward Collision Warning Malfunctions
Corporate - E-Reimbursement - Default - Default - Default	
Corporate - Reimbursement - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler:
Customer states the vehicle has been to the shop for the Adaptive Cruise Control disengaging, Forward Collision Warning Indicator Activating 'Brake' Warning.
Customer states the dealer had the vehicle for over 2weeks for past service visit totaling 18days of service.
Customer states if the vehicle reaches 30days at the dealer for service he will file for LL.
Briefly summarize what the customer is expecting:
Customer seeking resolution of the vehicles concerns
Agent apologized for the concerns.
Agent advised would need to contact the dealer for clarification of the vehicles concerns.
Agent contacted dealer and spoke to SA Steve who advised the dealer has been working with STAR, Road tested following service repair and issue determined to be resolved.
SA states they have replaced the Coded Sensor from Diagnostic tests however issue still present.
Agent spoke to service rep in regards to return diagnostic and was advised next scheduled appointment to be 03/2015 but does also have drop off appointment availability. Dealers concern would be loaner vehicle availability should the customer use drop off.

Follow up with the AM on Monday to make sure he remembers appointment at dealer on 3/18.
SENT email to remind AM of the appointment on 3/18.
SPOKE Linda at Westbury and she states that that found the problem with the vehicle was the Easy Pass. Took the Easy Pass off and test drove. Returned the vehicle to the customer.
Agent called customer.
Customer states that he is having a lot of issues with the vehicle.
Customer states that the issues have not been resolved and customer worries that his issues will never be resolved. Customer is frustrated that we cannot make the dealership do anything. Customer is upset that he is paying so much for something that he is not getting. Customer was wondering if we can help with car payments. Agent informed the customer that agent can see about
The easy pass did not resolve the issue. Customer wants the dealership to get outside help. Agent informed the customer of STAR, agent saw no STAR case open. Agent informed the customer that he can also take the vehicle to a different dealership. Customer states that he almost wants to leave his vehicle in the shop for 30 days and file for Lemon Law.
Customer states that the people he has been talking to is the Service Manager Tim. 516-333-2666 ext257. service advisor, Steve, 516-333-2666 ext 247
Agent informed the customer that the agent will talk to the dealership about opening a STAR case. Customer states that the easy pass is out of

the vehicle. Customer would like to have the front sensor, the main one, below the license plate, needs to be replaced.
Agent informed customer that agent will take over case until the case manager gets back.
Company Discount Handling Process, look at that for a possibility to help customer.
Agent scheduled a callback for 04/01/2015.
Agent called the dealership, SM was not avaliable.
Agent called dealership. Left message with SA and SM.
left extension 40605. To see if they have a STAR case open.
Agent called dealership. Got service advisor Steve.
Agent informed SA that the customer was stating that the issue was continuing to occur. SA states that the customer cannot have the adaptive cruise control on while driving in heavy traffic. That the brake light will come on, according to the SA. SA transferred me to another person.
Agent got voicemail. Agent left message.
Agent was advised by SA that the dealership was working with STAR.
Agent called dealership. Got service advisor Steve.
Agent informed SA that the customer was stating that the issue was continuing to occur. SA states that the customer cannot have the adaptive cruise control on while driving in heavy traffic. That the brake light will come on, according to the SA. SA transferred me to another person.
Agent got voicemail. Agent left message.
Agent called customer, customer stated that the issue is happening with nothing was around them. Customer is upset that he was being told the same information.
Agent advised customer that if he is so upset then he should get a second opinion. Customer was hoping to be able to get a rental with the dealer, agent informed the customer that agent can help with rentals, but cannot guarantee it, need to talk to the different dealership first.
Huntington Jeep, Long island. Is the dealership that customer wants to go to. Agent promised to call dealership and to see about setting up the customer for service and for rental.
Scheduled callback for 04/02/2015.
Agent called Huntington Jeep.
Agent spoke to service advisor Dave.
Agent was informing SA of the customers issue, SA advised to callback after SM was off of Lunch.
Agent stated that they would.

SA states that they do not turn work away.
Agent called customer, agent informed the customer that agent has some options for the customer. Customer wants to go with Atlantic Chrysler Dodge Jeep Ram. Customer states that he needs a rental or a loaner car, or he won t be able to do this. Agent informed customer that agent would look into it and see that they can do.
Agent called dealership, got service advisor Mellisa, she states that the SM will not be back in, till tomorrow.
Agent called dealership
Agent got service manager, Ron.
SM informed agent it will be a while before he can bring his vehicle in, will be the week of the 20th. Agent informed SM that customer informed SM that we are ok with that. Agent asked SM about rental, SM state that it would be $35 dollars a day. Agent informed SM that we would be happy to cover that when the customer brings vehicle in. Agent informed SM that agent will call customer and let him know to call the dealership.
Agent called the customer,
Agent informed customer of what the SM stated, Agent informed customer that we will cover the rental. Agent told customer that when customer gets close to the date that the customer will bring the vehicle in to the dealership, then we will talk to them about setting up rental.
Agent called customer for an update on the vehicle. No voicemail avaliable.
Agent called customer, customer states that he can t get ahold of the Service Manager. Agent informed customer that agent will call the dealership and try to get the customer a diagnosis scheduled, the adaptive cruise control also gives the customer a message that the lens is dirty when it is not.
Customer has free time on the week of the 11th, any time during that week.
Atlantic Chrysler Dodge Jeep Ram
(631) 422-0123
Agent called dealership. Agent got service,
Agent scheduled an appointment for may 11th at 8am for the customer to drop off his vehicle at the dealership for a diagnosis.
Agent called customer, and informed customer, that agent scheduled an appointment for may 11th at 8am. Customer informed agent that customer would like the appointment moved to the 19th or the 20th. That way the agent and the customer can talk the week prior about rental cars.
Agent called dealership, got service, rescheduled appointment for may 20th. For 8am.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information: To inform customer that agent rescheduled the appointment.
Agent called customer, was not able to get in touch.
Agent called customer, to get a status update on the vehicle, still having the same two issues, collision avoidance system activates for no reason, the adaptive cruise control will stop working after about 20 minutes on the highway. Customer states that he is very dissatisfied with that aspect of the vehicle. Customer states that he would like to get some restitution. Customer is leasing the vehicle. Customer states that he has a lemon, but that he will get nowhere with customer care. Customer is asking what the agent will do if the dealership is unable to duplicate the issue. Customer is tired of spending his time with this. Customer is stating that the agent is putting the customer thought the ringer.

Customer is stating that he wants to know what will happen if the vehicle cannot be fixed.
Customer states that he wants to have the vehicle replaced or to have his vehicle lease payments reduced retroactively to when he bought the vehicle. Customer states that he doesn t want a small amount. Customer wants it adjusted to something that matches a model without those features.
Scheduled a callback for 05/04/2015.
Customer is upset that the dealership is putting miles on his vehicle, customer is upset that the dealership is not replacing any parts. Agent said that they can look into that. Customer wants agent to have answer as to what possibilites that the agent can do for the customer.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information:
To update customer,
TL gave approval for to submit a 91L request.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information:
Agent called customer to see if he still was taking the vehicle to Atlantic Chrysler, and to submit a 91L review. And to see about having the customer send in documents to us so that we can look into reimbursing some of his car payments. Will need sales agreement to show the amount, and maybe some back statements to show that the customer has been making his payments.
****** Below Customer Contacted for Documentation Request ******
[redacted] on 2015-05-13 @ 13:27
Customer called agent. Agent asked for an upload of the customers lease agreement and proof that the customer has been making regular payments. Agent will call the dealership and see about setting up rental and then get back to the customer today.
Agent called dealership to set up rental.
Got service manager Rich
SM said that if we approve the rental then he will be ok with it.
Ok with 5 days of rental to start. SM wanted the agent to let the customer know that this dealership is not the previous dealerships, and that the surveys do matter and to not be harsh on the survey for something that they cannot control.
Customer seeking rental assistance because customer needs a vehicle to get home and has been having this issue for such a long time. Contacted Service Manager, Rich at 45562 to
discuss the customer s request for rental assistance. Confirmed customer s concern and with Service Manager concurrence, authorized 5 days of rental per Warranty guidelines
Rental authorization will be processed by CAC
REASSIGNED TO BC/DLR 32 45562 05/13/15 13:56 O [redacted]
***** Customer Document Received *****
Customer was informed that the rental was set up, customer wanted to make sure that he had no fees. Agent states that the customer shouldn t, but not sure. scheduled callback 05/20/2015.
Agent called to talk to the Service manager to talk about covering taxes if the customer gets a rental car instead of a loaner car.
Got Assistant Service Manager, Jake, ASM states that as long as he does not agree to the insurance then it should be covered totally. Agent gave ASM direct extension in case ASM needs help with anything.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information:
To let the customer know that he will be in a rental and that as long as he does not sign up for rental, it all should be covered.
Agent called the dealership to get an update.
Got service advisor Melissa, States that it looks like there is no diagnosis yet.
Agent called dealership to get an update on the vehicle.
Got Service Advisor Tom, vehicle has not been looked at yet.

Agent called customer to talk to the customer, let the customer know that the agent will schedule a callback for 05/21/2015.
Agent called to get an update on the vehicle,
Got Service manager Jake, SM states that the dealership did not find any codes, was able to duplicate issue, seemed to happen everytime the vehicle went under a sign, there was a scratch on the lens of the camera for the active speed control, and the sensor was not strapped in completely, SM also states that he put the ezpass above the lens for the cruise control, SM will road test it again, and will try it without the ezpass and see if the issue happens again, and will try to recalibrate the guardrail.
SM states that the sensor is one piece, can t just replace the lens. SM wants to put that on the backburner and see what the calibration does.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information:
Agent called customer, let the customer know that the dealership found that the sensor was not strapped in completely and that the dealership is calibrating the vehicle and checking to see if the ezpass is causing any interference. Also that the technician was able to duplicate the issue and it seemed to happen every time the vehicle passed under a sign.
Agent called dealership for an update,
631-422-0135 service department direct number. Service is busy.
Agent called dealership,
Got Assistant Service Manager, Jake.
The vehicle is repaired and the customer will pick up the vehicle. The issue was the lens not being strapped in and not being programed correctly.
TL BS899 approves reimbursment of one month of car payments for the customer.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information:
To update the customer on the vehicle and to offer one month reimbursement of Car payments.
Agent called customer. Customer states that he hasn t driven the vehicle very much. Customer states that he should have a better answer after test driving it some more.
Scheduled a callback for 05/29/2015.
vehicle complete owner accepted goodwill offer close.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information:
Agent called customer to verify the repairs, and to offer one month reimbursement.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information:
To check on the vehicle.
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40605. The reason for the customer contact was to provide or request the following information:
To see how the vehicle is doing and to let the customer know that if agent does not hear back soon, then agent will have to close case.
Customer called agent, would like another week to drive the vehicle.
Customer wants to wait for the reimbursment till we talk again monday.
Scheduled callback 06/08/2015.

Customer Survey Comments:
1. Blind spot monitoring/warning system is broken/not working
Please indicate the trouble you experienced with the blind spot monitoring/warning system (check all that apply): The system unacceptably indicates vehicles in the blind spot when there are none. Occurs regularly when nothing is in my blind spot. It s happened in my own driveway and when no other vehicles are around me.
How often does this trouble occur? Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was: 8000 miles or above.
Please describe conditions when this trouble occurs: Nothing stands out
To the best of your recollection, the trouble was first noticed: More than 3 months after delivery.
2. Text messaging broken/not working
Additional Comments: Text messaging feature has never worked with my

vehicle. I ve had the apple 4s and 6plus. Neither phone has worked with this feature.
3. Vehicle pulls noticeably to the left/right
Vehicle pull is: Moderate.
To the best of your recollection, the trouble was first noticed: 1 to 3 months after delivery.
Trouble occurs while traveling at these speeds (check all that apply): Medium speeds (26-45 MPH).
High speeds (46 MPH and above).
Are you using your vehicle for towing when the problem occurs? No.
Approximate mileage when trouble was first noticed was: 1500 - 3999 miles.
How often does this trouble occur? Trouble occurs intermittently.
Trouble occurs while traveling in these road conditions (check all that apply): Clear/dry road conditions.
What direction does the vehicle pull when driving? Both Left and Right - Varies with conditions.
4. Fuel door difficult to open/close
Please indicate which of the following best describes your concern (check all that apply): Difficult to open.
Approximate mileage when trouble was first noticed was: 4000 - 7999 miles.
Please indicate where the fuel door trouble occurs: Fuel filler door release lever/cable.
To the best of your recollection, the trouble was first noticed: More than 3 months after delivery.
How often does this trouble occur? Trouble occurs intermittently.

End of Status Update
Begin Customer Message reviewed:
The FCW system continues to fail. My husband drove the Jeep to LAX from our home - about 120 miles round trip. the alarm went off 5 times for no reason. as I say, it s more of a danger than a safety features. Has there been any progress on trying to solve the problem? were you able to pull up a list of features for our vehicle/VIN. We do not have one even tho we asked the Irvine dealership several times to send us one.
thanks,
[redacted]

Writer called to discuss case
Status update provided via email to the following email address:
[redacted],
Hello, I am assisting your Case Manager Patty. I have reached out to our Internal Resources for any additional information regarding the Forward Collision Warning. At this time, we have not been advised of any updated resolutions being released. At this time, as your vehicle is still experiencing this concern, we ask that you take your vehicle to the dealership and once we have confirmed that it is there, we will advise the dealership to reach out to our Corporate Engineers for additional assistance in this unresolved concern. We will follow up with the dealership no later than Monday 4-27-2015 to see if you were able to go in or make an appointment. Thank you for being a valued member of our Jeep family and have a wonderful day.
End of Status Update
** ONCE CUSTOMER S VEHICLE IS AT THE DEALERSHIP, REASSIGN THE CASE TO THE DEALERSHIP AS AN UNRESOLVED CONCERN REQUESTING THEY CONTACT STAR ***** *

Product - Electrical - Cruise Control - Defective - Default	Does not work
Corporate - Survey By-Pass - No Response / Unable To Reach - Default - Default	Since 3/3

Briefly summarize why the customer is contacting Chrysler:
Customer is calling in to say he paid over $60,000 for a vehicle that does not operate the way it should.
Everything that is in the owners use guide from pages 41 - 47 does not work.
His cruise control, his heated steering wheel are the two he speaks of.
He has had it at the 3 times, the last time he did not leave it there.
The first time it was there for a day and they reprogrammed it and the second time they had it for 4 days.
Customer would not leave it there when he was there last Friday as he feels they do not know how to fix his issues.
he is now concerned that maybe he needs to go to another dealer to get his issues taken care of.
This DLR does have a star case open.
Briefly summarize what the customer is expecting:
Customer needs to know who is going to fix this issues that he has and does he need to find a new DLR to look after this.

Customer stated that they were working with the SA Brad. Agent contacted the DLR 26823 and spoke with Brad. Brad stated that they ordered a catalytic convertor. SA stated that the ETA is possibly next week, SA stated that the parts were on B/O. SA stated that the vehicle was in for the check engine light 12/23/14 they had build up on the DEF injector. Sa stated 8/21/14 Powertrain Control module SA stated that this is the third time. Agent informed the customer to wait for the Catalytic convertor to come in and the repair to be completed before they begin a review for Lemon Law. Customer stated that the Lemon Law requirement would be three times for repair for same issue or 30 days or more within a year of ownership. Customer stated that they are not happy with this.

should be escalated to I2R for case management.
*** Donna Galvin with the Jeep Resolution Team is now responsible for this CAIR. If the customer should call, please direct them to contact Donna at (888) 542-7239 x2113 or (214) 583-2113. Thank you. ***
- Spoke to customer to complete Initial call; Customer advised vehicle was picked-up from repair Lindsay CDJR last week for an ongoing Check Engine Light concern. Customer advised the Catalytic Converter was replaced and the Check Engine Light has not returned. Customer confirmed Service History on file and advised this is the 4th repair for the same Check Engine Light concern since June 2014. Customer advised the repair from December 2014 was also for a Check Engine Light that was on due to improper DEF.
> Empathized and apologized to customer for the inconvenience regarding the ongoing Check Engine Light repairs. Advised customer that our priority is to assist with vehicle repair and/or to ensure that the vehicle is repaired per the Terms of the Warranty. Advised customer that his Case Manager is out of the office today and should be contacting Lindsay CDJR tomorrow 2/25 to review his Case and Service History and will then follow-up with him again on 2/27 to confirm recent repairs and discuss further action on the case if applicable- customer understood and was satisfied with plan of action. Also provided customer with his Case Managers (SG998) contact information, as she is out of the office today.
** SG998 to contact Lindsay CDJR tomorrow 2/25 to complete Initial Dealer Call
Contacted the dealer (26823), LM with receptionist requesting a return call from SM Michael.
Contacted the dealer customer in regards to current vehicle performance. LVM requesting a return call to confirm.

Customer contacted Jeep to gain assistance with getting in to contact with there case manager SG998
Agent informs the customer they will try getting them in to contact with there case manager
Agent tries to get in to contact with case manager SG998 but only able to reach voicemail
Agent informs the customer they will document the file informing there case manager that they would like a call back to [redacted]35
Customer thanks agent
Briefly summarize why the customer is contacting Chrysler: Customer is calling back because he is unable to reach his CM SG998, he states that he has tried may times to reach CM and has left VM but she has not contacted him back. Customer states that he is having more issues with the vehicle, he is having issues with the media center in which the whole screen turns blue and he is unable change anything. This is an ongoing issue now as well as the brake alert has been coming on every time he drives the vehicle. Customer also states that he received a bill from Enterprise for 5 days rental totaling $265.00, he did contact DLR and was told that it would be taken care of but never was.
Briefly summarize what the customer is expecting: Speak with CM about Lemon Law.
Agent tried to reach CM for customer but only received VM.
Agent advised customer that she would document new issues would document that customer would like a call back from CM.

Received a VM from the customer requesting a return call. Customer stated he is still having issues with the vehicle. Customer stated he has also been charged for the rental as well. Customer requested a return call. Contacted the dealer (26823), spoke with Brad. He confirmed the last time the customer was in for service was 12/23.
***Contacted the customer in regards to vehicle concerns. Customer stated his vehicle has been in a total of 4 times for the CEL concern. Customer stated he has been without his vehicle for a total of 32 days. Customer is seeking a replacement/buy back. Customer stated the vehicle has been throwing multiple error messages. The navigation has gone completely blue and there was no way to control of the features. Customer stated he could not reset it. He turned the vehicle on and off and it would not come back on. Customer stated the vehicle would randomly tell him to brake when nothing is in front of him. Customer stated he has to actually place his foot on the gas and accelerate to keep the vehicle from braking itself. Customer stated his vehicle was in for service back in February for other repairs as well. CEL has not come back on, but customer feels vehicle is unusable at this point. Customer stated he is still awaiting reimbursement for rental that he had been charged for. SM advised Weeks ago that he would take care of it and never did. Customer stated he does have an appointment tomorrow to take the vehicle back in for service tomorrow for the navigation and braking concern but at this point, he is done with the vehicle. I acknowledged the customer concern and apologized for what he has experienced. I advised the customer that we are here to assist with repair per the terms of the warranty. I advised the customer in certain situations, we are able to review for compensation leading up to replacement. I informed the customer to send over all of the repair order he has for service for review. I advised the customer that I would follow up with the dealer regarding his concerns tomorrow, as well as request some additional technical support to assist. Customer was appreciative. Customer stated he would need another rental or loaner when he drops the vehicle off tomorrow. I advised the customer that I would reach out to the SM and advise him that we would cover the rental if need be. Follow up scheduled for 3/12.
Contacted the dealer (26823), LVM for SD Michael. I advised him the customer has an appointment for tomorrow to bring his vehicle in for service for the nav and brake concern. I advised a rental is being authorized at $35 per day for 5 days. I requested he give me a callback to discuss the customer s repair history as well. Contact information provided.

Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40640. The reason for the customer contact was to provide or request the following information:
to review case and next follow up no later than 2/27/2015.
SA/Frank contacted writer stating they also found that they need to do a flash update for the transmission control module. Writer stated he will put in the notes.
DM notes added
Writer dialed SA Frank who stated everything was completed and customer picked vehicle up last night and was in rental for 2 days.
DM notes have been added for rental.
Writer dialed customer left message inquiring satisfaction of repairs and to contact writer back.
Writer dialed customer who stated he has had several concerns with electrical issues and now the sensor for the high beam control is not working and he is very tired of taking his vehicle to the dealership. Customer stated he would like this case sent higher to assist him in getting out of his vehicle, writer informed him we will send case to another department that will review his repair history and will contact him back when we have further information. Customer was informed that by making this request
they are NOT actually filing lemon law or any related process.
Their case is being escalated for a review of the vehicle s repair history
history to determine if their request merits further action and that due to
to the nature of their request, it will require a call back which will take
place within 1-2 business days. The outcome of the review does NOT determine Lemon Law eligibility.

Attempted to call the customer back but got a VM.
Briefly summarize why the customer is contacting Chrysler: Customer called in saying that he is tired of working on this problem with the dlr s. Customer says that he s been taking the vehicle to the dlr for problems.
Customer says that his vehicle has a rattling noise in the exhaust. Also, the safety brake system will cause the vehicle to brake even when there is nothing in front of him.
Customer says that he has brought his vehicle into the dlr 3 times.
The first time he booked an oil change online and added some extra concerns that the dlr missed and didn t look into.
He brought the vehicle in a second time where the dlr did a reflash of some software and said that should fix it and it took 5 minutes after leaving the dlr for the problems to reoccur.
The third time was around 1/23/2015 and the dealer was unable to duplicate the concern. Customer had made it clear that he wants the problem fixed before he picks it up. Customer came back and SA Chris Holbrook told him that they were unable to duplicate the concern.
Customer shows the SA how to duplicate the problem.
Customer was tired of the problems and needed the vehicle so he took it back.
Briefly summarize what the customer is expecting: Customer is expecting

help to resolve his issues.
Customer is now concerned mostly about the amount of time and energy it takes to get a diagnosis. Customer says he knows that the diagnosis for the rattle is because of 8 fasteners that were missing under the vehicle. Customer says that because of a recall they replaced one and left the rest.
Customer doesn t want to have to go drop of the vehicle, wait an hour to be picked up from enterprise, and then end up with a vehicle that isn t even close to equivalent because $35 a day doesn t cover much. Customer says he just needs something with 4 doors.
Customer and the Agent got disconnected and agent was not able to reach the customer.
Agent would like to call the dlr and look into having the SA try to have a rental vehicle from the enterprise ready for the customer when he drops off his vehicle to get diagnosed. Customer would be satisfied with a decent rental vehicle so he can just drop of his vehicle to get diagnosed.
Agent was unable to reach SA Chris Holbrook to ask him about that possibility.
Agent consulted with TL KW484.
Once the vehicle is at the dealer then we can look into escalating this case to a Case Manager.
NEXT AGENT: If the customer calls then let him know that we are attempting to contact the dlr to see if we can have a rental vehicle ready for him when he would drop off his vehicle.
Reason for Dealer Contact: Need to ask about having a rental vehicle ready for the customer. Customer has an SC for first day rental.
Dealer Code: 43320
Dealer Personnel Required: SA Chris or the SM
Customer s Preferred Method of Contact: Phone
Customer Phone Number: [redacted] is the customer s work phone. Ask who answers to transfer to Timothy Kruger and he may answer or you may get a voice mail.
Reason for assigning to Resolution Team: No time to call the dlr.
Assigned to 86T
DEALERSHIP CONTACT: AUTONATION CHRYSLER 43320 at 425-454-8411, Spoke with Dionne (Service Reception) who stated that the customer does not have an appointment scheduled and the vehicle is not at the dealership.
***Re-assign to MV1052,
As per lines 58-60, vehicle is not at the dealership with no scheduled appointment.
Return for next step.
Customer called back in, in regards to all of the concerns with his vehicle.
Customer stated that nobody called him and told him that.
Customer stated that no one told him that we were waiting for the vehicle to be at the DLR to get a CM involved.
Customer requested that an appointment is set for him.
Agent advised customer of lines 58-60.
Agent advised customer that the case will be sent to our resolution department to see if we can get an appointment set for him.
Reason for Dealer Contact: To set appointment for the customer.
Dealer Code: 43320
Dealer Personnel Required: Service
Customer s Preferred Method of Contact: Phone
Customer Phone Number: [redacted]
Reason for assigning to Resolution Team: DLR closed when agent took the call.
Assigned to 86T
re-assign to MC2218
86T can not make an appointment for the customer as we do not know the cusotmers schedule.
The customer called back very frustrated because no one has called him back and the agent who was trying to arrange a rental was supposed to.
The agent offered to call the dealership and arrange things and see about the case being sent up because of the many issues with the vehicle. The

customer states that the exhaust rattles, the automatic braking goes on when there is no one in front of him so he had to disable it, when the dealership completed the P36 sun visor recall they scratched the windshield and damaged the header so it does not sit properly, they left tools in the vehicle and the airconditioning is always on no matter how cold the weather is.
The agent advised the customer that if she contacted the dealership the case could be assigned to a case manager until the issue is resolved.
The customer stated he was at the dealership now and he did not care what the agent did and disconnected the call.
Briefly summarize why the customer is contacting Chrysler: Customer inquiring to speak to a supervisor. Agent asked my supervisor just left what can I do for you. Customer stated he is sick of speaking with Agents he needs a supervisor. Agent stated our supervisors are unavailable right now is there something I can help you with. Customer states I want to talk to a supervisor. Agent stated if you give me your vin ill see what I can do. Customer stated I am not giving that to you I need to talk to a supervisor. Agent stated our supervisor calls are a one day call back so you wouldn t hear anything until Monday. Customer stated he is not getting off the phone until he speaks to a supervisor. TL ML1082 took the phone call.
Briefly summarize what the customer is expecting: Customer seeking to speak with a supervisor
Supervisor advised customer that his file is being reviewed and will receive a callback within 1-2 business days.

[redacted] to speak to CM SP1305. Writer warm transferred dealer to CM SG1230, as SP1305 is not currently available.
Begin Customer Message reviewed:
Hi Sara,
My vehicle issues are still ongoing and i m done working with the liars at Bellevue Jeep. At this point I would like to see if Chrysler would consider buying the vehicle back from me so i can move on. Please call me today on my cell at [redacted] discuss further.
Regards,
[redacted] Customer message
Issues still ongoing with vehicle. Requesting anything we can do to address the situation. Customer very unsatisfied with dealership. Customer feels like the dealership is not taking his concerns seriously. Customer was not provided with a satisfactory rental vehicle. Customer stated the main issues with vehicle are the cruise control and emergency breaking system that comes on intermittantly. Customer has taken the vehicle in 3 times for repair and each time he was told it was repaired only to find out within minutes that the vehicle was not repaired. Customer is requesting either another dealership who is reputable or buyback consideration. Writer advised she would share customer s comments with his Case Manager and request a call back.
Writer contacted customer who stated that they would like to try working with a different dealership and would be needing a rental vehicle. Writer advised that we will contact Rairdons of Kirkland and get a rental and appointment set up for them.
Writer contacted dealership Rairdon s of Kirkland to speak to SM Bob and before writer could speak to SM about case SM left office to get information about another vehicle.

[redacted] called to speak to CM SP1305 s Supervisor. Writer placed customer on hold and the call was disconnected.
***Customer provided primary number of [redacted]*

Customer contacted writer. Customer stated he wants to speak to a supervisor, writer stated he can get a call back in one business day. Customer stated he does not want to wait and requested to wait for the supervisor to answer his call. Writer stated she can transfer his call to his CM and writer will put in the request for a supervisor to contact him. Customer does not want to get transferred to his CM, writer asked customer what writer can do to assist. Customer stated he been waiting for a appointment for a week and still does not have a appointment made. Writer stated she can contact the DLR and make a appointment. Customer stated he does not want to go to DLR 43320 because he has had really bad experience with this DLR. Writer stated the next DLR that is next to him is DLR 60337. Customer stated that is the DLR that he wants to go into. Writer contacted the DLR and they stated there is not an appointment free until 2 weeks into May. Customer stated he does not care how long it will take him just wants to know he will have a Loner available. Customer stated he has a SC that covers it, Writer stated she will contact the DLR and set up a appointment for him and will email him back with a appointment. Customer was really thankful and stated he will still wait for the supervisors call back because he wants to express his experience. Writer stated he will get a call back from a supervisor in 24 hrs. customer agreed.
Writer contacted Meagan in Service. Meagan stated they have a opening for April 23 at 8am.
Status update provided via email to the following email address: [redacted]
Hi Mr. [redacted],
This is Analee with Jeep Customer Care. I am contacting to let you know they actually have a opening sooner. I set up your appointment on April 23 at 8am. A supervisor will be in contact with you in 24hrs. If you have any questions or concerns please give us a call at 1800-763-8422 Ext 40674. Thank you and have a wonderful day.
End of Status Update
Writer contacted dealership and spoke to SA Justin who stated that the customer has never been in.
Begin Customer Message reviewed:
Still waiting on a call from the supervisor. Another week now and no movement.
End of Reviewed Customer message
******Supervisor Callback******
Writer dialed [redacted] spoke with customer about the unresolved concern he has been having with his vehicle for almost a year now with 3-4 repair attempts and still unresolved. Customer states that the automatic braking will randomly come on for no reason and scare them on the freeway. Customer states that the cruise control will malfunction and the service automatic cruise control light will come on. Customer states that the dealership will tell him that its fixed and then within a mile it will happen again. Customer is unhappy with the way that dealer 43320 has treated him that is why he requested to know if it was possible to go to another dealership. Customer states that he did not make appointment at the other dealership because they did not have a loaner vehicle. Writer advised that his SC is for rental and not loaner. Writer advised customer that his case is being escalated to our ECS department and he will be getting a new CM. DEALER- Writer called dealership and spoke with SA Daisy and set up an appointment for customer on 5/11/2015 at 8 am. CUSTOMER- writer advised customer of appointment time and that CM would call within 24 hours and customer could discuss rental/loaner and concerns with them. Customer was happy with results.
Enhanced Customer Satisfaction Team (ECS) *
CONTACT UPDATE - Customer was contacted today at 2:12pm MDT. Customer requested writer call back in approximately 20 minutes.
Writer contacted customer, who confirmed he still has his 05/11/2015 appointment, and his main issue is the enhanced technology package he paid extra for blind spot protection, emergency braking feature, and automatic cruise control. Customer stated the automatic cruise control warning light comes on and shuts the ACC off, the emergency braking feature comes on even without a vehicle in front of it, and he s very

frustrated than an option he paid extra for isn t working. Customer also stated that he d had his purchasing dealer, AUTONATION, looking at the vehicle, but the issues were always there and he felt he had become a joke to them. Customer advised the cruise control buttons had been replaced, and the tech had put them in noticeably incorrectly, and he had had to take the vehicle back again. Customer stated he s had his vehicle back for 2-3 weeks, and the problems are back again. Customer stated he stopped getting communication from his prior CM and their supervisor until 04/30/2015. Customer advised he s happy to continue trying to resolve the issues for a little longer, at which point he wants to know if he should go to lemon law, or be refunded his money. Customer further advised his prior CM was trying to work with Sales Manager (SM) Yousef to get the customer out of the vehicle, but feels SM was just trying to get another sale. Customer advised his other two concerns have been resolved. Writer advised of ECS and that they would provide rental if needed, and customer stated he s concerned about going back to AUTONATION, as they haven t been able to resolve the issue, and hasn t received good customer service from them. Customer stated he s happy to take his vehicle to another dealer, and that RAIRDON S CHRYSLER JEEP DODGE (60337; 425-821-1777) is closest to him. Customer stated that he was aware of his 5 days of rental, and expressed concern that he s always put into a Fiat 500 and has had a lot of trouble getting into a more comparable vehicle, often having to rent his own. Customer requested writer attempt to get RAIRDON to provide him with a more comparable rental or loaner. Writer advised they would, and that they would contact RAIRDON by 05/05/2015 to see what they could work out, as well as AUTONATION to speak with SM Yousef. Customer provided contact information at [redacted] and thanked writer.
2[redacted] has been activated for text message communication.

Agent attempted to contact RAIRDON S CHRYSLER JEEP DODGE (60337; 425-821-1777) and Service Manager (SM) Bob, however, SM not available. Left message for a return call at extension 40785. The reason for the dealer contact was to provide or request the following information: See if customer can come in for diagnosis. Also provided last 8 and customer s number.
Agent attempted to contact AUTONATION CHRYSLER DODGE JEEP (43320; 425-454-8411) and Sales Manager (SM) Yousef, however, SM not available. Left message for a return call at extension 40785. The reason for the dealer contact was to provide or request the following information: See what could be worked out in regards to a trade-in.
Sales Manager (SM) Yousef returned writer s voicemail and advised he had been instructed to call the customer in regards to his dissatisfaction, and the customer had called him a week later. Customer had been told to try another dealer for repair assistance, and SM called prior CM to discuss the issue. SM was willing to get customer into a different vehicle, but couldn t do much for the customer unless CAC could provide a trade-in voucher. Writer advised they couldn t, and SM informed writer

that the customer has negative equity on his vehicle and would have higher vehicle payments due to that. Writer asked if it might be possible to uninstall the defective package and reimburse customer the money, and SM believed it would be fairly difficult to do, but that the radar in the front should be able to be replaced. SM provided his work email in case writer needed it and advised he would be out of town until 05/07/2015. Writer thanked SM.
Writer contacted RAIRDON S CHRYSLER JEEP DODGE (60337; 425-821-1777) and spoke with Service Advisor (SA) Joey, who stated he had no available appointment until 05/26/2015. Writer advised they would see if customer would take that appointment and call back if so. SA thanked writer.

Writer contacted customer, who stated that he s frustrated at how many times he s had to take his vehicle in with no resolution. Customer asked when Chrysler would buy the vehicle back and writer offered to send case up for review, but customer accepted one more repair attempt in order to bring in Tech Specialists to assist RAIRDON S. If no resolution is found after that, writer will send case up for review. Writer will also email Sales Manager (SM) Yousef at BELLEVUE in regards to what would need to be done in order for BELLEVUE to buy the vehicle back. Follow up with appointment reminders 05/12, 05/19, and 05/26/2015, and call BELLEVUE 05/19/2015 to ensure customer will have comparable rental ready to go on 05/26/2015.
*****START OF TEXT MESSAGE SENT TO CUSTOMER by T4619CH******
Hi, Mr. [redacted]r, it s Chiloh with Jeep. This is just a reminder of your 5/26 appointment with Rairdon s. I ll give you another reminder next Tuesday. Thank you!
*****END OF TEXT MESSAGE SENT TO CUSTOMER******

Writer contacted dealer and spoke with Service Manager (SM) Bob, who stated the customer didn t have any appointment in his system, and he couldn t get him in until 06/09/2015 at the earliest. SM does not have an employee named Joey. Writer scheduled an appointment for the customer on 06/09/2015 and advised they would call him right away.
Writer contacted customer and advised of the dealer mix-up. Customer stated he had received a call from [redacted] on 05/05/2015 and spoken with an employee named Kayla. Customer confirmed dealer number. Writer advised they would call RAIRDON S again and attempt to speak with Kayla. Customer thanked writer.
Writer contacted dealer and was advised that Kayla was the Service Receptionist (SR). Writer was transferred to SR, who advised the customer s appointment was at 7:30am on 05/27/2015 with Service Advisor (SA) John. The customer hadn t shown up because he hadn t been to RAIRDON S before. A rental has been set up for the customer, and SR will make sure Enterprise has a comparable rental and then call customer. Writer thanked SR.
Writer contacted customer and advised of his appointment date and time, and that SR would be calling to confirm his rental. Writer will reminder customer of appointment on 05/26/2015.
*****START OF TEXT MESSAGE SENT TO CUSTOMER by T4619CH******
Hi, Mr. [redacted]r, it s Chiloh. One last thing - your Service Advisor is going to be John. I ll call you next Tuesday!
*****END OF TEXT MESSAGE SENT TO CUSTOMER******
Writer contacted customer with a final appointment reminder, and advised they would contact RAIRDON S 05/27/2015 and customer later in the week. Customer thanked writer.
Customer contacted writer. Customer stated he wanted to talk to his CM and didn t want to leave a voicemail. Customer stated he would like a call back. Customer stated he will need to cancel his appointment.
Writer contacted dealer and spoke with Service Advisor (SA) John, who stated that the customer had managed to bring his vehicle in, but it hadn t yet been looked at. Writer thanked SA.
Writer contacted customer, who stated there had been some confusion when he brought his vehicle in, but it had been cleared up. Customer stated Service Receptionist (SR) Kayla helped clear things up and that he was very happy with her. Writer thanked customer.
Writer contacted dealer and spoke with Service Advisor (SA) John, who advised he s addressed some of the concerns and believes a few are characteristics of the vehicle. SA spoke with customer 05/27/2015 and explained the situation. The hot/cold seats are normal, no brake noise was duplicated, he s still working on the cruise control and automatic brakes (and thinks they ll be related), the warbling and AC are normal conditions, the gas cap door will be adjusted, he s not able to repair the hatch, and the crease in the passenger seat leather needs to be sent to DI. Writer will follow up 05/29/2015 and authorize 5 days of rental.

########## ECS DIRECT-TO-DEALER ##########
ECS/Customer Care is sending this case to your dealership because an ECS warranty repair has been approved. Remember ALL PRE-authorization requirements for Digital Imaging and the Powertrain Service Center still apply. When submitting for pre-authorizations include this case number. DM Notes have been entered into GCS indicating Customer Care approval. When repairs are completed, submit your claim as you would normally and update this case and return it to Customer Care.
##
Writer contacted customer and advised of conversation with Service Advisor (SA). Customer stated he thinks the seat foam might be incorrectly installed, and that he let SA know. Writer advised a follow up with dealer and customer 05/29/2015 and customer thanked writer.
Writer contacted dealer and spoke with Service Advisor (SA) John, who advised his shop foreman was in the process of submitting the DI images. Writer stated they would follow up in a couple of hours and SA agreed.
Writer called Dealer RAIRDON S CHRYSLER JEEP DODGE at 425-821-1777 and

spoke with Service Manager Bob states that he is trying to submit the DI and have been unsuccessful.
SM Bob states that he will try and submit the DI again today. Writer informed a follow up on Tuesday at the latest.
Left message for customer advising images were being submitted to DI and they would update him 06/02/2015.
Writer contacted dealer and spoke with Service Advisor (SA) John, who stated he had replaced the gas cap door housing, recalibrated the cruise control and automatic brakes, and the new seat leather is on order. SA didn t have an ETA. Customer is aware that his vehicle is ready until the seat leather arrives. SA provided part #5PK32DX9AB and order #TK0529. Writer thanked SA, provided case number, and will authorize the remaining rental days.

**********96W Parts Update**********
0602 1 SHIPPED-PDC 00 SHIPPED-PDC
0529 1 RELEASED 01 REL TO PDC
**********End Parts Update**********
Writer contacted customer and advised seat leather had been expedited and they would keep him updated. Customer stated he would ask the dealer if they had checked the seat foam to see if it was defective. Customer also expressed concern about how much the vehicle has depreciated due to the multiple repairs, and inquired about buyback and lemon law and the next steps to take should the repairs fail. Writer advised they would escalate the case for internal review if the repairs failed, and if the case was returned, customer should speak with a dealer about a trade-in, and review his owner s manual for lemon law information as a last resort. Customer thanked writer.
Writer contacted dealer and spoke with Service Advisor (SA) John, who advised his technicians had already looked at the seat foam and decided it was the leather itself that was flawed. Writer thanked SA.
Writer received voicemail from customer advising he had picked his vehicle up, and some of the issues hadn t been able to be duplicated. Customer was a little frustrated that no one called him about those items, and requested callback.
Writer contacted dealer and spoke with Service Advisor (SA) John, who advised that on 06/03/2015 the customer had stated his service adaptive cruise light had come on, and SA wasn t sure if the customer was mistaking a normal operation for an issue. SA will have the customer ride with his shop foreman when he comes in for the seat bottom repair. Sales is working with the customer on a trade-in. Writer thanked SA.
Writer contacted customer and apologized for not returning his call. Customer stated it was fine, and advised SA will keep his vehicle until it s finished, and won t release the vehicle until the customer is happy. Customer is very satisfied with SA, and advised he s been on a test drive with the SA and shop foreman at BELLEVUE. Customer reiterated he s frustrated that SA John didn t look at the cruise control set button that gives the error message when on screen, when he had specifically requested it be looked at. Customer stated BELLEVUE never reconnected any of the cruise control module wires and left garbage in the compartment, and nothing had been done when he looked at them. Customer stated he will bring his vehicle back 1 more time, but will also be sending Chrysler an official letter requesting buyback today, as he doesn t want the vehicle and has zero faith in any repairs. Customer requested case be sent for buyback review before he goes to LEMON LAW.
***
Customer is seeking lemon law buyback/replacement.
What s the main concern? Automatic cruise control with warning message Service AAC/FCW module that dealer hasn t been able to repair. Module and buttons have been replaced, wires have been inspected, and sensors were out of alignment.
If known, how many repairs and/or dealer visits for concern? 5-6, but some visits weren t recorded on ROs.
If known, how many days down? 15 total so far.

Describe previous offers made: Dealer trade-in; offer not acceptable to customer.
Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle s repair history to determine if their request merits further action and that due to the nature of their request, it will require a call back which will take place within 1-2 business days. The outcome of the review does NOT determine Lemon Law eligibility.
Preferred Morning/Midday call back number is [redacted]
Preferred Afternoon/Evening call back number is [redacted]
Who has possession of the vehicle? Dealer
Reassigned to 91L
***
Writer advised that as case was with Parts Expediting, they couldn t yet send it for review, but would as soon as possible. Customer was nervous because BELLEVUE didn t put all his concerns in the ROs and therefore the review department wouldn t get the full story. Writer advised they would send him a documentation link and the fax number to send all documentation to. Customer updated his address, provided [redacted] and requested supervisor callback to let TL know of his satisfaction with writer s efforts to assist him. Writer thanked customer and advised a callback would take place by 06/05/2015 and they would update him no later than 06/09/2015.
****** Below Customer Contacted for Documentation Request ******

***Called DLR 60337. Spoke with SA John and was advised customer did not keep appointment. SA John was told he was waiting for a call from Chrysler.
**Called customer and was advised that an email was sent to CM WB339 that

they had a 'close call' in the vehicle and didn t feel safe driving the vehicle to the dealership. Customer has issues with emergency brake system coming on which continues to happen on the freeway. CM advised customer I will assist in towing through our Chrylser Towing. Customer was thankful and call ended.
**Called DLR 60337. Spoke with SA John. Service appointment was set for 7/13 @ 9am.
Customer was informed of new service appointment and advised CM WB339 will follow up 7/10 to confirm appointment.
Called customer at [redacted] as a reminder of his appointment at Rairdon s Chrysler Jeep Dodge Of Kirkland (60337) on 7/13 at 9am. Customer inquires about calling ahead of time to let them know that he would be having the vehicle towed in. I advised the customer that he may do so to make sure they have a drop off area.
***Follow up 7/14
Begin Customer Message reviewed:
Hi Wendy, Thank you for scheduling the appointment.
Today my wife and I had another very close call with the forward collision warning engaging while at freeway speed with no cars in front or along side of us. We came within inches of being rear ended and causing a multi car collision.
We simply don t feel safe operating the vehicle at this point, not even to drive it to the Kirkland Jeep dealer which is several miles away by freeway. I would like to request you send a tow truck to collect the vehicle and deliver a loaner car to our house. I cannot risk my personal safety trying to get a car fixed, period. Please contact me so we can discuss a plan on how Chrysler pickup the vehicle.
Thank you

>Called dealer 60337 & LVM for SM Janelle letting her know we will be authorizing a rental $35 daily for CJD product, provided case info & my contact information.
>Received incoming call from the customer stating he was supposed to have had his vehicle towed today to dealer because he s scared to drive it since the most recent incident in which his wife was driving the vehicle on the freeway about 70mph and the e-brake system came on which caused the vehicle to halt abruptly causiing the 2 vehicles driving behind her to swerve around her, almost causing a wreck. He said previous CM instructed him to call Roadside a couple hours in advance before he wanted to have his vehicle towed in order to schedule it. He contacted Roadside this morning & was told they wouldn t be able to have it towed until this afternoon. He advised me he is just going to go ahead and drive to dealer himself this morning.
I asked that I contact dealer for him to confirm rental. I let him know I LVM for SM Janelle because they weren t open yet. I told him I would follow up with him after getting more info from the dealer and he agreed. He said he is demanding a replacement because there s not going to be 100% fix for this vehicle any longer that s going to allow he and his wife to feel safe again.

>LVM for the customer asking for a return call

ADDED NOTES FROM 7/15; WB WAS DOWN

7/15/2015 3:36:22 PM: User Comment by Wendy Beam: >LVM for the customer
confirmed I rec d his VM in regards to the seat bottom not being
repaired. I let him know I talked with SA John & it was mentioned he
was to bring it back in to address the seat bottom.
I also mentioned SA John stating he was refusing to have them
diagnose/repair the safety concern with the e-brake system. I asked that
he contact me back with appt details as to when he s taking it back in
for service & and confirmation if he s still having the concern at all.

>Contacted dealer 60337 & talked with SA Mark who confirmed last time in
for service was 7/14, after having refused to allow dealer to address
e-brake concern & hasn t heard back from the customer as of today.

Product - Electrical - Unknown - Other - Default	forward collision had activated on its own
Product - Electrical - Lamps and Switches - Defective - Default	passenger side DTR not working
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: The customer had called in stating that while he was driving the vehicle the forward collision had activated on its own and the brakes had slammed on. The customer stated there was no reason for it to activate. The customer stated that it could have caused an accident. The customer also stated that the passenger day time running light does not work. The customer stated the forward collision is now turned off, but that should not have happened. The customer stated that he has an appointment to take the vehicle to the dealership Tuesday. The customer was hoping to have the vehicle looked at sooner.
Briefly summarize what the customer is expecting: To have the vehicle repaired.
Agent had called another dealership Viva Chrysler to see if the customer could have the vehicle looked at sooner, there was no answer in the service department. Agent had tried the number twice. Agent had advised the customer of this and advised him that agent would not want to send him there. Something is not right there.
Agent had advised the customer to take the vehicle to the dealership on Tuesday and when the vehicle is diagnosed to call back. Agent had provided the customer with the case number.

Briefly summarize why the customer is contacting Chrysler:
Complaint Documentation
Briefly summarize what the customer is expecting:
Complaint Documentation
#
Calling to register complaint regarding dealership. Vehicle brought in for service 2x, both times issue not resolved. In addition, customer states that DLR has been supremely unhelpful, informing her on multiple occasions that there is nothing they could do to resolve the issues. Customer states that since the time of purchase, the vehicle has been experiencing a slight malfunction of the Crash Avoidance system--it will activate at random and brake the vehicle. Customer states that the dlr has told her the issue stems from a missing part, which they will require her to pay for since they can t submit for a warranty repair without a part to send back to Chrysler .
Customer has since taken their vehicle in to a different dealership, and states that they will never go back to Suburban Chrysler.
#
Agent contacted Suburban Chrysler, spoke to SM Sean.
SM explained the issues that the customer has been having and detailed the reasoning behind Service Department s responses:
Crash Avoidance sensor in bumper is missing a bezel , which could not have come off by itself. DLR suggests that customer may have impacted a bit of snow, or bumped a curb, both of which could account for the missing part.
The 'Def' fluid issue which the customer raised, and to which she received the nothing to be done response, was explained as not an actual malfunction--the DF heater will resolve the issue on its own, once

it heats up slightly. SM states that the heaters on Jeeps are a little slow to heat up sometimes.
#
SM Sean states that if customer has any further questions, or wishes to discuss the matter further in any way, that the customer may contact him at his direct line: 248.715.5810
Customer and husband Rick called back for an update on Cair opened on 02/27/15 but then call dropped.
Agent tried to reach customer back at [redacted] but agent got a message that line is no longer is service (agent knows it is in service as agent was just speaking with Jeneen).
Next agent please assist customer when they contact Jeep back as the last notes on file is that customer can contact SM Sean at direct line 248-715-5810.
Briefly summarize why the customer is contacting Chrysler: Customer is seeking a rental vehicle while their vehicle is at the dealership.
Customer states the dealership can t figure out the issue and doesn t have any idea when they ll be able to fix the vehicle. Customer states his friend has the same issue with his vehicle and his vehicle has been in the shop for a month. Customer states they absolutely need a vehicle for transportation and they have no idea when they ll be getting their vehicle back. Customer has brought the vehicle to a new dealership by the name of Cueter Chrysler (26539). Customer states he was not happy with Suburban (66262) so he went to the other dealership. Dealer is waiting on a call from their technical team because they cannot diagnose the issue.
Briefly summarize what the customer is expecting: Customer is seeking rental assistance.
Customer was advised that due to the nature of their rental request a call back is required and will take place by close of business today.

Writer called the customer to advise she was following up to see if the vehicle has been repaired. Customer states she has not heard anything,

and it has been 9 days. Customer said that she is counting down until 30 days to file for lemon law, as the customer wishes she never purchased this vehicle. Customer states she likes the Jeep grand Cherokee but will never recommend a Diesel to anyone. Customer mentioned she has had a few awful experiences with the previous dealership and discussed the interaction with the writer. Customer states the squirter for the washer fluid was not working properly, and the dealership told the customer 'she put in the wrong fluid'. Customer felt the vehicle was not safe to drive, and the fluid kept freezing up. Customer said she is a Quality Director, and indirectly deals with Chrysler, so this whole experience has left a bad taste with the customer. Writer apologized that the customer was having all of these issues, and advised she will be able to look into sending a complaint letter on behalf of the customer. Writer sent the customer 2 document links, to send documentation of the bad experience at the one dealership. Writer advised she will follow up next week
Begin Customer Message reviewed:
Before we even took delivery of our new vehicle the transmission had to be replaced.
Since the very beginning we have had issues with the crash avoidance system. It is intended to automatically brake the vehicle if you get to close to another vehicle. We found that it goes off at random when there isn t even a vehicle in front of you. We took it to the dealer (Suburban Jeep of Farmington Hills) and they indicated our vehicle was missing a bezel that was the root cause of the issue and informed us that we would have to pay for this missing part because they can t submit a warranty claim without a part. To be honest, we were very upset that we purchased a $60K vehicle that never worked right from day 1 - why should we pay for the part?
Next issue was the windshield fluid would not dispense in cold weather. We had just refilled the washer fluid with fluid that was rated for cold temps. Driving into work it stopped working and was difficult to see out the window (messy wintery Michigan weather). I took it to the dealer, explained the issue, dropped it off for the day to get it fixed. The dealer called and said the car was fixed and ready for pick-up. I picked it up and pulled out on to the road and found that it still did not work. I pulled back into the dealer and they explained that in order to repair the vehicle they needed to drain the fluid out of the tank and we would have to pay for this because it we put 'bad' fluid in it. I told them I didn t care what they needed to do I couldn t drive the vehicle because it wasn t safe if I can t see out the window while I am driving. We were not upset that we had to pay but because they told us the issue was fixed and they didn t do anything to fix it! Then I asked what the correct fluid was to avoid having this issue again and they couldn t tell me what the approved windshield fluid was - they could only tell me the one we used wasn t good. They drained the tank and sent me on my way.

Survey Date : 03/03/2015
VIN Last 8 : FC[redacted]
CQI Comments : \I would like you to contact my wife at ([redacted]
002 and apologize for the vehicles faulty crash mitigation system. She was driving on the highway when, without warning the vehicle just slammed on the brakes and scared the shit out of her. She pulled over and was shaking for quite some time. She called the vehicles on board assistance and reported the incident. The rep could not give her any information on how to proceed. She then called me here in Afghanistan. I asked if she could park the vehi cle and get a ride home. She could not so I had her shut off the crash miti gation system manually from the dashboard controls. The resulting traumatic stress has her nervous and uncomfortable driving the vehicle. I would additi onally like to have a certified technician/engineer from corporate take a l ook at the vehicle and recommend a course of action as the local dealership mechanics made the comment that they have only been recently certified and h ave zero experience working with this vehicle and its systems (again, total loss of confidence). I would like to prevent legal action if possible howev er if Chrysler, Dodge, Jeep, Fiat Corporation continues to fail me and show lack of empathy I will have no choice in the matter bu to seek legal counsel
.

3/11..... Writer was contacted by owner about problem with dealership resolving issue. Owner stated that windshield was cracked because of a stone that flew up and hit the windshield. Owner s took vehicle to IRF to have windshield replaced but were told to go to the dealership to have the adaptive cruise control recalibrated. Owner was told by dealership that it could not be done at this time. Writer called dealer and spoke with George (SA) who stated that owner was in yesterday and they were told that the adaptive cruise couldn t be calibrated now for the following reasons:
* Needs to be done on a flat road
* No snow on the road
* No mailboxes along the road
* There must be a white line on the side of the road
* There must be yellow lines dividing the road
Writer called BC Field Tech (RM) who stated that what the dealership told owner was correct, but he was surprised that they couldn t do something to get this resolved. Field tech. will call service manager (Theresa) to find out if something can be done so that owner does not have to drive out of their way to get issue resolved.
Writer sent owner the following email update:
****
Hi Mr. [redacted],
I ve reached out to our regional technical advisor about your concerns and he is going to contact the service manager at Ziegler in Grandville, to see if they can take care of this for you.
He is going to follow up with me after he has been in contact with her.

I will let you know what I find out.
I m sorry for the frustration and inconvenience this is causing you and your wife.
If you have any questions, please let me know.
Thank you

BC Field Tech called writer and stated that he spoke with Theresa (SM) who stated that dealer attempted to calibrate unit yesterday, but the road conditions were not good enough. Roads need to be dry, no shadows, no traffic, not raining out. Theresa said that tech put 4 hours into testing and tried to get the calibration done but the conditions were not right. Writer advised Theresa that he will advise owner and then tell them to set up an appt. next week. Writer will then advise Theresa to authorize a rental for up to 5 days to resolve issue.
3/17..... Owner sent writer the following email:
****
Good Morning Mike
I took our jeep this morning to Preferred Chrysler and the recalibration of the windshield took only a few minutes however the adaptive cruise sensor issue that is occurring has nothing to do with the replaced windshield and they are having difficulty figuring out what is wrong. They have set me up with a vehicle and will keep the jeep to further investigate. The service I have received here is exceptional and represents Chrysler very well. Jim Frenez the general manager personally met with me and has taken the time to continually follow up with me. I will let you know if and when this issue gets resolved.
Thank you,
[redacted]
****
3/18..... Writer called dealer (65477) and spoke with Tim who stated that dealership recalibrated the cruise control and the rain sensor. Owner picked up vehicle yesterday.
Writer sent owner the following email:
****
Good Morning Ms. [redacted]
I called the dealership this morning and was advised that the recalibration to your cruise control and rain sensor were completed and that you had picked up your vehicle yesterday.
I wanted to make sure that you were satisfied with the repairs that were completed and that everything is now working as it should.
If there are any problems, please let me know.
Thank you

Mike,
Thank you for the follow up. I cannot tell what a difference it was dealing with the Preferred Chrysler dealership. They delivered our

vehicle completely repaired to me when it was finished without me asking.
The general manager Jim Frenez went above and beyond to make sure that I was taken care.
Again thank you for your attention,
[redacted]y

****DEALER CONTACT****
Writer contacted the dealership at 3:58 pm on 03/31/15 at 775-323-3106 and spoke with the receptionist and asked to speak with service. Writer was transferred to their line. Writer spoke with SA Chris and was placed on hold. Tony returned and stated that the customer has an appointment for an oil change on 04/01/15 but has not been in since 12/2014 for any concerns. Writer thanked dealer and ended call.
Status update provided via email to the following email address:
[redacted],
My name is Kristin, and I am following up on a survey that you recently completed regarding your 2014 JEEP GRAND CHEROKEE OVERLAND. We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.
I have contacted LITHIA CHRYSLER JEEP OF RENO and spoke with Tony in service and found that you have not been into them since 12/2014 for unrelated issues, and you have an appointment for 04/01/15 for an oil change only, and you have not returned, however, the dealership was unaware that you were still having other issues with your vehicle
Given the many variables involved, we are unable to diagnose your vehicle s problem via email or phone. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair.
Once you have been to a dealer to have your vehicle concerns diagnosed, if you require further assistance from Jeep please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Jeep Customer Assistance at 1.877.426.5337.
Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.
Thank You,
Kristin

Product - Electrical - Unknown - Other - Default	Front end collision warning system not working properly
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler:
Customer states that he took the vehicle to the dealership that he purchased the vehicle from because was having issues with his front end collision warning is not working properly
SA states that they had a technician come and look at the vehicle but they tested the wrong system
Customer told the SA that the system they tested wasn t the correct system so the SA told him that they would look at the vehicle and they would contact him when the vehicle was done and to come pick it up
Customer states that when he got home there were two messages from the SA stating that the vehicle doesn t come equipped the front end collision warning system then on the second message the SA states that there is nothing wrong with the system and it working fine now
Customer states the front collision system is still not working properly and wants to know what to do with the vehicle now
Agent advised the customer that she would contact Scranton Dodge Chrysler Jeep to see if the agent can get the customer in contact with the Area Manager
Agent spoke to SA Rita who states that she would get the customer in to have the vehicle checked out
Agent advised the customer that they got in contact with SA Rita who is going to book an appointment with him to bring the vehicle in to have it looked at
Agent transferred the customer over to speak with SA Rita
Briefly summarize what the customer is expecting:
Front end collision warning system not working properly
Reassign for Survey by Pass
TL SG893

Customer states forward collision warning system light not working. Been to DRL to have issue resolved but DLR is incapable of resolving issues.
Customer seeking assistance with the forward collision warning system.
Agent advised Customer we will contact the DLR to advise them to reach out to STAR for assistance for this concern.
Customer requested to have agent contact DLR 13903.
Agent contacted DLR 13903 and spoke with SM Mark who stated that vehicle works as designed. SM states that the testing that is required is to drive 30 miles/hr towards a vehicle and then put on brakes. Advised that this test is not recommended due to safety and does not want to have his Service Department perform this test due to the safety aspect.
Advised to have Customer contact his selling DLR.
Customer states he wants Chrysler to send out an Area Engineer to assist with resolving this concern.
Agent advised Customer that he would need to continue working with the DLR and that we do not send out Area Engineers to the DLR.
Customer states he does not agree with the response he received from DLR 13903.
Agent advised Customer that if he does not agree with the response from DLR 13903, he can take vehicle to another DLR for a second opinion.
Customer was not happy and disconnected the call.

******Immediate Supervisor*****
Writer took call from Mr. Klein who is upset his concerns have not been address since he sent in test results regarding the touch screen navigation system and the unwanted frequencies that it is emitting that are sending false signals to the computer systems in the vehicle. Documents are attached to [redacted]5. Caller went over the concerns that are previously documented regarding the navigation system not accepting new destinations, the screen going blank, the radio pre-sets not working properly, the Adaptive cruise control system shutting down etc. Mr. [redacted] feels that if his test results were seen by a competent engineer/physicist that they would know what to do to solve his problem. He believes the cables and wires need to be shielded and all the computer systems in the vehicle need to be replaced. Writer advised our next step is to get the vehicle back to the dealership and get a technical specialist involved. Caller wanted assurances that he would not be told again that his vehicle was operating as designed but that we would continue to work toward a resolution based on the results of the tests he had run on the vehicle as he does not expect the dealer to be able to duplicate his concerns because they are very intermittent and he does not expect them to be able to pull error codes. Writer indicated we could not make those promises nor would we be able to advise how long the dealership would need the vehicle but our next step is to get the vehicle to the dealership. Writer advised a new case would be opened and reassigned to FC726 so she could continue to work with him. Mr. [redacted] indicated he would try to call the dealer and set an appointment for

about April 2. Writer advised his CA would contact the dealership to let them know he is coming in and we would want to escalate to a TS. Caller is requesting a rental vehicle and is not happy with the Enterprise rentals he has had as he states they are given to him with an empty gas tank and are dirty. Writer advised we would speak with the dealership to see what could be done to obtain an acceptable vehicle. Caller understood. Writer provided new case number, advised of the open recall P67 and verified phone numbers.
Best contact phone number is [redacted]3.
Secondary phone number (cell) [redacted]n requested that no messages be left on his cell phone but only at the primary number.
CONTACT UPDATE - Customer was contacted today.
Writer contacted dealership at 303-447-8187, spoke to Corvin/SA who stated that an engineer has come out and looked at vehicle. SA stated that it we would be going in a circle if customer came back in. Writer left a message for GM to call back to see if an appointment can be lined up for customer. .
Writer contacted John Elway dealership at (970) 506-9777 spoke to SA John who stated that earliest the dealership has for an appointment is April 16th morning. SA stated that he will line customer up with rental as writer approved rental.
John Elway dealership (45504)
2501 35th Ave
Greeley, CO 80634
Writer contacted customer at [redacted]
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40561. The reason for the customer contact was to provide or request the following information:
To advise customer of appointment at John Elway dealership (45504) on 4/16/15
Received voicemail from Parts Jim and asked to be called back 303-785-5220.
Writer contacted parts Jim back at 303-785-5220, and went over concerns on vehicle. Jim stated that customer is lined up for April 2nd and rental is lined up tooo.
Writer contacted customer at [redacted], who alleges that he has looked inside the dash of vehicle. Customer alleges that the radiation from the touch screen is getting radiation into the electrical components of the vehicle. Customer alleges that the radiation that is coming from the vehicle is illegal. Writer advised customer of appointment on 04/02/15 and that rental is lined up. Writer advised customer that a co-worker will send case up to TS once vehicle is at dealership.
MR [redacted] calls to speak with their CA FC726. Transferred the customer to CA RB1362 at ext 40540 as primary CA is not available.
Call from customer. States he received a call from Enterprise and was told dealer would not approve SUV type vehicle. Needs a vehicle with 4WD due to weather concerns. CA advised would contact dealer to approve a 4WD vehicle.
Call to dealer 24221 POLLARD FRIENDLY MOTOR CO 303-447-8187 Spoke with SA Mike. Approved a 4WD Chrysler vehicle for this diagnosis and repair appointment.
DM notes will be added for rental when process is complete.
SA Mike stated he would contact Enterprize to approve 4WD rental.
Dealership called in stating that customer told him that we were helping with his navigation concerns. Agent advised DLR that agent only sees approval for a rental? - Agent transferred DLR over to CM line.
Mike - SA, Contacting seeking direction on what is requested of the dealer,
Agent reviewed file and advised accordingly to notation it was advised the dealer would need to Open a Technical Case for review of customers concerns.
SA Mike advised he is unclear on how he should open this type of case. Agent transferred to CM Rep Kim for additional assistance for direction at this time.
(SA) Mike dealer 40561 called to speak to customer s advocate FC726.
Writer warm transferred SM to customer advocate DM1312, as FC726 is not

currently available.

Customer calls to speak with their Case Manager.
Transferred the customer to SH950 at ext 40677 because the primary CM was out of the office.
Customer declined to provide a second phone number.
Customer called stating that he had gone into the dealership this morning, as scheduled, and they did not seem to even know why he was there and what was going to be done. Customer stated that he feels confident that CA, FC726, had done what she said she was not happy that noone at the dealership seemed to know how they were going to get Chrysler involved. Customer stated that Mike, SA, had eventually called in while he was there and stated that Enterprise did bring him 4 wheel drive Jeep. Customer states that he does not know if Chrysler is actually going to be able to resolve the vehicle concerns as they are intermittent and the dealership does not have proper equipment.
Writer asked about the cruise control and radio concern with the stations.
Customer stated that those concerns seem to be working correctly right now. Customer states that they could have still been the result of the radiation from the touch screen. Customer states that the radio is not blocking out some of the interference and then, with the radiation, it is making it s own interference as well.
Customer mentioned and reiterated that he does not want the TA, Robert Craighead to come anywhere near his vehicle. Customer states that the TA mis-diagnosed his vehicle about a year ago and he has had to deal with all of these problems since. Customer wanted a complaint sent about the TA as well as his boss, Jensen, as they did not seem to care about the issue, customer service or Jeep s reputation. Customer also wants an official complaint submitted on the current Service Manager (SM), Lonnie Johnson, as the service department has gone way down hill since she came.
Customer states that he has dealt with this dealership since 1998 and has purchased 5 Jeeps along the way. He says that there have been little concerns here and there, but most started about 2 years ago with the new SM. Customer states that there were SA s that used to have good customer service, but seem to not be allowed to anymore. Customer states he sent in a compaint to the chairman and does not think that the dealership should have 5-Star status.
Writer advised customer of case status and that STAR would be working with the dealership to address concerns. Writer stated that he would be contacted the first part of next week unless there are updates obtained prior that customer is not aware of.
CAIR ESCALATION UPDATE
SEE STAR CASE# [redacted] FOR INFORMATION
SA Mike calling in to speak with the CM that is on file.

Agent transferred SA Mike over to CM at extension 40561.
Writer contacted dealership at 303-785-5228, spoke to SA Mike who stated that he is waiting to hear back from TS. Writer advised SA that writer will have TS contact SA back.
CAIR ESCALATION CLOSURE
SEE STAR CASE# [redacted] FOR INFORMATION
Writer contacted customer at [redacted]
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40561. The reason for the customer contact was to provide or request the following information: to go over repairs. Follow up on 04/09/15
Writer contacted customer at [redacted] and advised customer that sensor alignment and flash updates were done. Customer alleges that concerns with radio are still present (radiation coming out of customer radio). Writer advised customer that TS also contacted the AM, and she advised that the matter of radiation has been addressed and will not be pursued. Customer stated that he is not happy with Chrysler not helping customer. Customer stated that he can t understand why POLLARD FRIENDLY MOTOR CO is a 5 star dealership because customer alleges that dealership is unfriendly, not willing to help customer and alleges that they are incompetent in repairs to radio concerns. Customer stated that he does not want to speak with writer anymore and is contacting an attorney.
CLOSED LOOP UPDATE - no need for additional follow-up.
Customer contacted in to report the latest concerns with his Uconnect. Customer advised that the dealership replaced his Uconnect in February and he is still experiencing navigation issues. Customer advised that he was driving and his screen went blank. Customer advised that when the Uconnect screen turned back on his navigation stated Activating and the system reloaded itself. Customer advised that the concern needs to be addressed or he will be seeking a replacement as he has had too many issues with this vehicle. Customer advised that the representatives that he has been working with in the past did not care about his concerns and he would like his issues addressed. Customer states that the dealership has reported that this is a regular issue and is normal in the radio which the customer states that he will not accept.
Customer is seeking documentation and Uconnect assistance.
Agent advised the customer that his current concern has been documented. Agent advised the customer that his case is being escalated to UCM for handling and assistance as he has not been in contact with this team for assistance. Agent requested that the customer allow until Monday for his UCM to contact him for assistance with his concern.
-
Customer advised that within the past month he submitted an Engineering Test Report that indicates, what he believes, is the cause for the concern. (Customer advised that the Radio Frequency Interference from the touch screen and lack of immunity from the radiation in the computer system is the cause of the concern).
-
****UConnect Case Management Escalation****
Customer advised a call back is required and will take place within one business day by COB their time
Preferred Morning/Midday call back number is [redacted]
Preferred Afternoon/Evening call back number is [redacted] to provide e-mail for contact.

****PLEASE DISREGARD LINES 206 TO 213
****CONTACT ATTEMPT (1)***** 86 04/13/2015 4:29:54 PM
Writer called Customer at [redacted] at 3:47 pm on 04/13/2015 and spoke with Customer. Customer has sent a document that is showing on case 26696126 and confirmed with the Customer that the Writer has reviewed it and understand he has had several issues with this vehicle and it has been into a couple of the Dealerships and still having issues and new issue have come up. Customer confirmed that the radio has been replaced. Customer doesn t feel that the Dealerships will be able to resolve the issue as they do not have technical people that can fix it. Writer

advised the Customer that we could have it go into the Dealership of his choice and involve our technical team. Customer didn t want to be disrespectful and said that he is past that and just wants to speak to management and Writer advised that it would be the same as what I can do for him. Customer still would like a supervisor call as he was promised one before. Writer advised that this would take place within one business day.
****there is a document on case [redacted] that should be reviewed******
Customer has requested Supervisor callback
[redacted]
Reason for request: Customer feels the issue should be resolved and doesn t feel the Dealership can resolve it and wants more assistance for something he paid
51,000.00 for.
CAIR assigned to: RO188
CSR has informed customer a Supervisor callback request has been made
Supervisor
RO188 spoke with the customer about his ongoing media center concern. The customer claims that he has been to the dealership and they have not been able to resolve the issue. The customer claims the dealership is not will to acknowledge the issue and simply claim that there is no issue. RO188 suggested the customer work with the case manager and the dealership to help resolve the issue. The customer is reluctant to work with the case manager and the dealership. RO188 suggested a different dealership if he is not happy with the service he is receiving at the current dealership. The customer excepted the assistance from a case manager. RO188 advised the customer that the case will be with a case manager and she will contact him tomorrow to follow up.
CONTACT UPDATE*
Writer called Customer at [redacted] at 1:53 pm on 04/15/2015 and left a voicemail message. Writer provided contact information and asked him to return the call. Writer thanked the Customer for working with Uconnect.
Writer received a call from the Customer and confirmed that he would still like to work with Uconnect Case Management and see if we can resolve the issue. Writer advised she would like to try and reach out to dealerships he might like to use and see if we can get them to work with us and our technical team and resolve the issue. Customer will put the names together and let me know.
Customer called and left a voicemail message and would like to see if Prestige, Fort Collins or Johnson Auto can be contacted.
DLR contacted stating he was provided a case number and extension regarding customer s vehicle. Agent warm transferred customer to CM Sherri.
Writer called Prestige at 303 651 3000 and left a voicemail message for Service Manager Steve, Writer called Fort Collins and left a voicemail for Service Manager Bob Lee, Writer called Johnson Auto and spoke with Service Manager Tom and he confirmed that they are willing to work with the Customer and get the issue resolved. Writer has since heard back from Prestige and Service Manager Steve and he also advised he would be willing to work the Customer but that they are looking for the week of April 27, 2015 before they could see it.
Writer called Customer and left a voicemail advise him what information I have to date. Writer asked the Customer to return the call.

Writer contacted DLR, spoke with parts manager John, John advised that they are not wanting to cancel the order and does not know why it is being cancelled, John advised they are trying to be sent a new unit and not an exchange unit. John stated that he is working on getting the problem fixed.
CRM called customer to discuss the final resolution. Customer called CRM a thug and disconnected the call. TA to contact dealer, dealer has not duplicated the radio issue. CRM, TA and AM agreed to replace the radio one last time. CRM to restrict warranty due to repeated dealer contacts for an issue that is related to an aftermarket navigation. No further action required by FCA or CAC at this time.
CM to return case for closure
Writer contacted customer [redacted]
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40753. The reason for the customer contact was to provide or request the following information: returning call and discuss case.
Writer received return call from customer, writer advised customer of that we can replace the radio in the vehicle one last time or customer can get in touch with EMJ5 to discuss a repurchase of the vehicle, customer stated that he refuses to work with EMJ5 and expects to either have radio replaced until he gets one that works or $75,000 in cash delivered to his home or a certified check signed by the chairman of the company, writer advised again of replacement of radio one last time or the customer can contact EMJ5 to discuss repurchase, customer confirmed offer and advised of his expectation for Chrysler to replace his radio until there is one that works per the warranty as that is out legal obligation or to have vehicle repurchased for $75,000. Customer will be writing another letter to the chairman of the company, customer reiterated that he refuses to work with EMJ5 and will need the chairman to assign someone in a higher position than EMJ5 to be in touch with him. Customer stated that he will be getting in touch with an attorney. Customer wants writer to convey his expectations and then follow up with an ETA for the radio, writer advised customers comments will be conveyed. CRM restricting vehicle warranty as there is nothing wrong with customers radio. Restriction in place so Area Manager will be notified if the customer takes his vehicle to another dealer for repairs. CRM and Area Manager agreed have dealer replace the radio this one time for customer satisfaction.

Current mileage: 18847
Dealer diagnosis:1) recall 2)4)front sensor loose and alignment routine 3) right module installed backwards pointing at vehicle instead of the road
Are there ANY modifications to the vehicle? No
Recommended repairs: 1) did recall 2,4) realigned sensor 3) reinstalled the blindspot module correctly
Adam sa advised writer that the repairs where completed on 3-6, vehicle returned to customer on 3-7. Adam sa advised writer that he went out on back injury on 3-6, and thought the vehicle would be called in. Adam sa advised writer that he is just getting back from back injury.
Left message for Adam sa to call writer checking to advise that writer will authorize the repair, but writer does need to talk to him about the

if there are any parts and the labor cost.
Called Adam sa to advise that writer will authorize the repair. Writer advised Adam sa that writer needed the parts and labor cost. Adam sa advised writer total cost is $289.30, 2 days rental $70, parts 9 rivets $46.62 labor $172. Writer gave Adam sa the reference number.
Enhanced Customer Satisfaction Team (ECS) *
CONTACT UPDATE - Left message [redacted] for customer that writer is following up with customer on repairs that where completed last month. Writer advised will follow up on 4-7.
Left message [redacted] customer that writer is following up with customer on repairs that where completed last month. Writer advised will follow up on 4-8.
Called [redacted]4 customer to check on repairs. Customer advised writer that it seems to be fine except for the cruise control adapter when coming up to another car at times it does not recognize that there is another car in front of him and does not react, but it does not do it all the time and there is not a pattern to it, so customer has not taken it back to the dealer. Writer advised customer that writer can keep the case open and check back with customer 4-15 to check on if it happens more often or if there is no problem. Customer advised he would like the case to stay open. Writer advised customer that writer will email customer writers information, so if there are any concerns customer can call the dealer 1st then contact writer.
Status update provided via email to the following email address:
[redacted]
Hello, my name is Debbie and I have been assigned as your customer advocate. This email is confirmation that your [redacted], was successfully escalated to me I will be calling you at your preferred number, 602-686-1414, I will follow up with you again on 4-15 to see if the adaptive cruise control is still an issue. My office hours are 8:00 AM 4:00 PM (Eastern Time). My contact information is 800.763.8422 EXT 40541. If your preferred telephone number mentioned above isn t correct, please reply with the correction.
End of Status Update
Customer wants writer to check back on 4-15.
Called [redacted]4 customer who advised writer that he can not talk right now, so if writer could call him back. Writer advised customer that writer will follow up on 4-21.
Left message [redacted] for customer to check if customer is still having an issue with his adaptive cruise control. Writer advised in message that writer will follow up on 4-24.
Left message for Adam sa to check to see if the customer has called in to have his adaptive cruise control checked again. Writer advised will follow up on 4-24.
Left message [redacted] for customer to check if customer is still having an issue with his adaptive cruise control. Writer advised in message that writer will follow up on 4-24.
Left message [redacted] for customer to check if customer is still having an issue with his adaptive cruise control. Writer advised in message that if writer does nto hear from customer by 4-29 writer will be closing the case. Writer advised in message that if there is still a problem after the case is closed writer can open a new case.
CLOSED LOOP UPDATE - confirmed repairs with Adam sa no callback from customer.

Product - Electrical - Electronic Vehicle Security - Other - Default	False Forward Collision Warnings

Briefly summarize why the customer is contacting Chrysler: Customer states that he has had several issues with the forward collision warning system in his vehicle, and that none of the online solutions he has found have resolved anything. He states he has an appointment for next Thursday at his DLR and wants to know what can be done to repair it.
Briefly summarize what the customer is expecting: Customer seeking to have his forward collision warning system adjusted so that it doesn t provide false warnings.
Agent advised customer to ask DLR to address the problem while he is in for repair on Thursday, as we are limited in the support we can provide over the phone.

Briefly summarize why the customer is contacting Chrysler:
Customer called in as he is becoming increasingly frustrated with his vehicle. He states that every time he takes it in for an oil change it seems to have something else wrong with it. Currently it is at the dealership as the collision warning is working properly but is not throwing codes. Customer states that the STAR team is getting involved. Agent offered to call the dealership but customer said there is no need and he is happy with what they are doing. Agent stated that we will begin the documentation process and provided the customer with his case number. Agent stated that if he isn t happy with the STAR resolution, to give us a call back. Customer inquired about Lemon Law.

CONTACT UPDATE - Customer was contacted today at 7:10:12 PM.
Customer was provided with agent s extension: 40696.
Agent attempted to contact customer, phone number dialed, [redacted]
However, customer was not available.
Left message for a return call at extension 40696. The reason for the
customer contact was to provide or request the following information:
Agent contacted customer to discuss customer s concerns.
[redacted] called, requesting his Case Manager. Transferred customer
to CM VB254 at ext 40700 as CM TB953 was unavailable.
CUSTOMER CONTACT- Customer informed CM that this began with a message on
the EVAC display. It would tell customer to clean the system, it is only
up for a couple seconds. Customer states that there is a button that is
there that disables front collision disabled light will light up.
Customer states that when this system is doing this the vehicle will not
let the cruise come on. Customer is also getting false alarms on the
collision control. Customer states that before work and after work this
would happen. It would happen 5-7 minutes after the trip. Customer states
that it started happening less frequently. Customer states that the first
time they didn t put any miles on it, they just replaced the throttle
body. Customer states that they ve done small test drives. Customer
states that he is comfortable enough to pull his phone out.
Customer called CM and left a message informing CM that the issue
occurred again this morning. The message popped up again.
Agent contacted dealership, phone number dialed, 217-862-5300. Agent
contacted dealership to discuss. Agent spoke to Mel in service and
confirmed the issue. They were unable to duplicate the issues. Internal
fault in module was replaced. CM was informed that mileage is 6159. CM
informed SM that CM would like to get customer in for an appointment and
that CM can provide rental. SM requesting that customer call him to get
an appointment scheduled.

***** END EMAIL BRIEF DESCRIPTION CONTENT *****
I had a sensor go off concerning a front wipe sensor not available. I took my car in for an oil change and to look at this sensor. They found that the front grill front collesion sensor was very loose like I had been in a wreck and was not fixed correctly. I had not had any collisions or body work done on my car. I did see where this was a little loose and that the plastic cover clasp was broke on one side. This could have been done when they pulled it off to check the senor itself. I told them I had not had any issues. They said it would not be covered. How come??/
*****END OF CUSTOMER EMAIL*****
Dear [redacted]
Thank you for contacting the Jeep Customer Assistance Center in regards to your 2014 Jeep Grand Cherokee.
I regret to learn of the concerns you have experienced with your vehicle and appreciate the time you have taken to contact us with your request for information on the reasoning for a decision on a warranty claim.
I am more than happy to review your concerns and therefore, I will be in contact with your dealership on your behalf. Once I have any updated information I will be in further contact with you.
Also, our records indicate that the following recall campaign has not been performed by an authorized dealer:
P67 Occupant Restraint Control Module
We suggest that you contact your local authorized Chrysler, Dodge, Jeep or Ram dealer to make arrangements for an inspection and, if necessary, corrective action at no charge to you.
Please take a copy of this message with you at the time of service to aid the process. Although not required, it is recommended to bring a copy of the recall notification with you to your dealer s service department when you bring your vehicle in for this service.
If you wish to obtain further information, please contact the Chrysler Group Recall Assistance Center at 1-800-853-1403.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).
Sincerely,
Jennifer
Customer Service Representative
Jeep Customer Assistance Center
*****END OF CAC EMAIL*****
I have taken my car in for that recall. They told me that Jeep have not sent out those parts for that recall to this dealership yet. They were to get back to me when they had done so. I have called a couple if times to check on this and they told me each time they would contact me as soon as the parts come in.
*****END OF CUSTOMER EMAIL*****
DEALER CONTACT: Superior Chrysler Plymouth Dodge Jeep (44027) at 606-329-8616. Writer left message for the Service Manager requesting a call back with details on the customer s diagnosis.
*****NEXT AGENT****
When DLR calls back please gather diagnosis information and reasoning for declined warranty. Also, requested part availability for recall P67.
DEALER CONTACT: Dempsey Chrysler Jeep II Inc. (68428) at 630-552-7688. Writer spoke with Allan Factor in service and was advised that he will look into the concern tomorrow and will call back as everyone has already left for the day.
DLR 44027 Allen Thacker is contacting stating that the issue is not the windshield sensor; it s the adaptive cruise sensor. Allen states that the customer came in and stated the adaptive cruise wasn t working. Allen states that the warranty was declined because it looks like the customer has hit the bumper of the vehicle and broke the bracket off of the adaptive cruise control sensor which caused the adaptive cruise control not to work.
Allen states he will check the P67 part availability and call the customer back.
Dear [redacted]i,
I have appreciated your patience while I reviewed your concerns with your servicing dealership. I have spoken with Allen Thacker and have been advised that the reason the repair is not covered under warranty as the reason for failure was found to be due to an outside influence.
The following information can be found on page 15 of your warranty manual:
Your warranties don t cover damage caused by environmental factors such as airborne fallout, bird droppings, insect damage, chemicals, tree sap, salt, ocean spray, acid rain, and road hazards. Nor do your warranties cover damage caused by hailstorms, windstorms, tornadoes, sandstorms, lightning, floods, and earthquakes.
Your warranties do not cover conditions resulting from anything impacting the vehicle. This includes cracks and chips in glass, scratches and chips in painted surfaces, or damage from collision.
I apologize that I am unable to provide you with a more favorable reply.
Sincerely,
Jennifer
Customer Service Representative
Jeep Customer Assistance Center
*****END OF CAC EMAIL*****
Thank you for looking into this fir me. I talked with Mr. T[redacted] as well today. I made an appointment fir the recall. I guess they have the parts now even though they did not call and inform me until you brought that to their attention again. Thank you for that. They said they would check into the part that isnt working again at that time. We will see what they say. I could tell he was not happy with me that I had contacted the company directly but I told him I was not complaining about his company just trying to get answers. I will see what they say on Tue. Thanks again.
*****END OF CUSTOMER EMAIL*****
Dear T[redacted]
I am please to learn that Mr. Thacker has contacted you back to set up an

appointment and appreciate the time you have taken to keep me updated. It was my pleasure to assist. Again, if you have any questions in the future, do not hesitate to contact us.
Sincerely,
Jennifer

Product - Electrical - Cruise Control - Other - Default	Adaptive Cruise Control Bracket Concern

Customer contacting in states while driving the vehicle the ACC kept deactivating and advised to clean the sensor.
Customer has brought the vehicle to the dealer for diagnosis of the concerns stating there was no sign of impact and the customer needed to cover the cost of the clips to repair the concern.
Customer states initially he was advised it would cost $350 for the cost of the repairs.
Customer states when the dealer ordered the parts they were shipped a new style of parts and is now required to replace the bracket as well due to a part change.
****
Customer seeking assistance with the cost of the repair as the part change has increased the overall cost of the repair. which is no fault of the customer.
Agent contacted the dealer and spoke to SA Don who advised there was nothing wrong with the customers bracket however the bezel was missing and could not verify impact was the cause of this concern. SA Don advised the cost of the customers repair at this time was to be $500.93 due to the change.
Agent reviewed file with DF314 who inquired for warranty pricing for the cost of the outlined repair for assistance to be offered. Agent contacted dealer and spoke to SM Chris who has approved DM Notation for Warranty Claim submission and has advised.
Warranty Labor: $ 92.26
Warranty Parts: $ 143.56
Total Warranty Cost: $ 235.82
*** DM Notes to be applied for Approval***
As a one-time goodwill gesture, Chrysler will be approving this out of warranty repair. According to the dealer, the warranty costs of the repair are as follows:
Parts = $143.56Ù
Labor = $92.26Ù

Total = $235.82Ù
Co-pay = $0.00Ù
########## DIRECT-TO-DEALER ##########
Customer Care is sending this file to your dealership because a joint
goodwill decision has been made on behalf of our mutual customer.
If this repair falls under the Digital Imaging (DI) process
you will need to follow the DI process of submitting images
or the required DI documents to the Powertrain Service Center
for repair pre-authorization. Include in your comments that Customer
Care is involved. Customer Care will add DM Notes to the VIN describing
our decision. These notes are available to the DI group for reference.
When repairs are completed, submit your claim as you would normally.
If you need assistance with claim payment, please refer to
Warranty Bulletins D-11-19, D-13-03 or D-13-11
Please update CAIR when complete.
##########
26835476 - As a one-time goodwill gesture, Chrysler will be approving
this adaptive cruise control. According to the dealer, the warranty
costs of the repair are as follows:
Parts = $143.56Ù
Labor = $92.26Ù
Total = $235.82Ù
Co-pay = $0Ù

Product - Electrical - Unknown - Intermittent or Inoperative - Default	Customer states the forward collision system is not working correctly
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states the forward collision system is not working correctly. Customer states it should have gone off about 50 times but only activated 2 times. Customer is at the dealer with the sales person and they told him to call CAC
Briefly summarize what the customer is expecting: Customer expects the vehicle to be fixed
Agent advised the customer the vehicle would need to be diagnosed at the dealer
survey bypass-no diagnosis
Vehicle is at the dealership - RIVERDALE CHRYSLER JEEP (60234)
Update triggered by S30455L
Customer is calling because he is arguing with the DLR over forward collision control and adaptive cruise control.
Customer states the DLR told him he needs to be on cruise control in order for the forward collision detector to work.
Agent advised against this as it says on page 222 and 224 of owner s manual that there is a physical on/off switch for the collision detector and requires vehicle to be over 5 mph.
Agent also advised against testing the system as it could be extremely dangerous to test.
Customer understood and thanked agent for the research.
Customer thanked and disconnected.

Agent contacted customer to discuss repeat concerns with cruise control issues.
CONTACT UPDATE - Customer was contacted today at 1:31 pm.
Customer was provided with agent s extension: 40700.
Customer called in requesting a call back.
Agent attempted to contact customer, phone number [redacted]
However, customer was not available.
Left message for a return call at extension 40700. The reason for the customer contact was to provide or request the following information:
Agent contacted customer to discuss next steps.
Agent attempted to contact customer, phone number dialed, [redacted]
Agent contacted spoke to customer who states that it is the cruise control adapter. Customer states that the cruise control issue has been happening since the first day. Customer states that she has most things documented. Customer states that she would drive down the road and an indicator would say FCW/ACC not available. Customer states that she drives the vehicle all of the time and doesn t feel like this should be happening. Customer went into the dealership in late September, they set an appointment for October. Customer got the vehicle back and they said that the sensor was cleaned and that there is nothing wrong. Customer states that they took it home and it acted up. Customer was wondering how often this needed to be done. The vehicle was acting up a lot. Customer states that they got back from Vacation and it acted up. Customer states that this kept happening. Customer called the dealership and they took it in December 30th.
Customer states that they dealership said that there was a code that said it needed a new switch. They did an update and RRT. Customer states that this was supposed to fix it. Customer states that they went ahead and ordered a new switch. Customer states that the vehicle started acting up more after this. Customer states that February the vehicle acted up numerous times. Customer brought it back into the dealership in Feb 24th. The technician drove the vehicle to their house. Dealership was unable to duplicate the problem so they gave it back to customer. Customer saw a video of what happened. Customer took at video of it. They sent it to the dealership.
March customer went back. Its not only the concerns but the dealership not working on the vehicle and communicating. Customer states that the dealership contacted STAR finally.
Dealership replaced the cat converter. She left the vehicle. Customer took the vehicle in the 23rd. The parts were to be there the 29th. The parts came to the dealership and they weren t working on it. They were told that this is something that is only to replace everything. One person told her that it would be a day, the other said that it would only take an hour.
Customer would like it fixed or would like a new one.
Agent contacted dealership, phone number dialed, 217-223-5950. Agent contacted dealership to inquire about concerns. Agent spoke to SM (Leland) and was informed that they ve replaced everything that could ve been replaced. This happens at the same spot everytime. They haven t heard anything since the last time.

Agent contacted dealership, phone number dialed, 217-223-5950. Agent contacted dealership to confirm next steps. Agent contacted dealership but was unable to speak to anyone
Email sent to service.
REASSIGNED TO BC/DLR 51 23732 05/28/15 17:35 O [redacted]
DEALER CONTACT- Agent spoke to SM (Jim) who states that he has been waiting for a response from engineering and STAR. SM states that they have not attempted to duplicate the issue because they were waiting on a call back. SM states that he is convince that it could be the driver or the area that the driver is driving as there are reflectors on the curvy roads that may be detecting that the vehicle is driving too close to something. CM informed SM that if this is the case then we would like to confirm this with STAR as a lot of repairs have been done on something they are thinking is normal. CM requested that the dealership attempt to duplicate the issue. CM is to follow up with the dealership tomorrow.
** *CM will have customer drive with dealership if they are unable to duplicate the issue***
Agent contacted dealership, phone number dialed, 217-223-5950. Agent contacted dealership to discuss status of diagnosis. Agent spoke to SM (Jim) and was informed that STAR has not responded. Customer is in a loaner vehicle. They are going to keep the vehicle over the weekend.
Agent attempted to contact customer, phone number dialed, 2[redacted]
Agent contacted customer to discuss next steps. Customer has not heard anything. CM advised customer that they are going to keep in and keep working on duplicating the issue. STAR has not repsonded SM informed CM. CM will follow up again on Monday.
CAIR ESCALATION UPDATE
SEE STAR CASE# [redacted] FOR INFORMATION
Agent attempted to contact customer, phone number dialed [redacted].
Agent contacted customer to discuss next steps. CM informed customer that the engineers suggested that the technician install the flight recorder and have one of the hourly personnel road test the vehicle with the customer. The customer reports that the ACC will turn off consistently at one particular bend in the road. The bend has a number of reflective

arrows.
CM advised customer that CM is going to give dealership some time to get things together and follow up with all parties tomorrow.
Jim called in from dealership requesting a call back.
Agent contacted dealership, phone number dialed, 217-223-5950. Agent contacted dealership to discuss next steps. Agent spoke to SM (Jim) and was informed of the updates from STAR. They are speaking about the spot that it acts up and try to get a data recording from this. To determine if it is a sensor or if they can spot from the information that is given something that may be wrong. SM had to contact engineering. SM is going to contact customer.
Customer called requesting a call back as her husband received a call from [redacted].
Agent attempted to contact customer, phone number [redacted].
Agent spoke to customer to discuss next steps. Agent contacted customer and discussed next steps. Customer states that the dealership called husband instead of her. Customer is going to call the dealership and set up the test drive. Customer will reach out to CM if needed later today.
Customer called in requesting a call back.
Agent attempted to contact customer, phone number dialed [redacted].
Agent contacted customer to discuss next steps. Customer states that the dealership was supposed to go at 330 and they were unable to keep that appointment, they were unable to get the program on the computer. So they were unable to have do this. Customer states that she is working at her other job tomorrow. Customer states that husband and her have plans but they will make it back in. Customer states that they are going to be contacting on Thursday. Customer isn t sure if they are even driving the vehicle right now. Customer was talking to Tammy.
REASSIGNED TO BC/DLR 51 23732 06/02/15 16:58 O [redacted]
Agent contacted dealership, phone number dialed, 217-223-5950. Agent contacted dealership to inquire about next steps. Agent spoke to SM (Jim) who is speaking to Wi-Tech and are having a hard time setting things up. Flight recordings are not something that SM has done often. It is as if they haven t updated the information. They are going to escalate to help out with things. Customer should hear a response by tomorrow.
Customer Mr [redacted] called in requesting a call back.
Agent attempted to contact customer, phone number dialed, [redacted].
Agent contacted customer to discuss next steps. Agent spoke to Mr Grammar who states that this Jeep has been in the shop longer than any vehicle. Customer states that he would like to look at options. CM is to follow up no later than Thursday 6/4.
6/3
Agent contacted dealership, phone number dialed, 217-223-5950. Agent contacted dealership to get an update on diagosis. Agent spoke to SM (Jim) and was informed that he is still awaiting a response from wi-tech. SM states that he is aware of the area customer states that this happens and he may be taking a drive down there today to attempt to duplicate the issue.
CAIR agent reached out about possibly getting TA to help solve the customers concerns. Waiting on response from TA on this issue.
AM NPM10 emailed CM and informed CM that the TA just advised me that he has an appointment with the deal on 6/12 to try and solve this.
Customer called in stating she received a call informing her that we are changing plans, customer requesting a call back.
Agent attempted to contact customer, phone number dialed [redacted]
Agent spoke to customer about the TA coming out on the 12th. Customer doesn t want to go back and forth. Customer has work that day, but if all else fails customer can take the vehicle in that day. Customer is wondering if they can keep the loaner until then. CM advised customer that dealership don t like to keep their loaners tied up but will see what can be done.
Agent contacted dealership, phone number dialed, 217-223-5950. Agent contacted dealership to discuss next steps. Agent spoke to SM (Leland) and was informed that customer can keep the loaner for another week. Customer is to email them with the details of the occurrance.
Agent attempted to contact customer, phone number dialed, [redacted].

Agent contacted customer to discuss next steps. Agent informed customer that CM will follow up on the 12th to discuss next steps.
CM is to follow up with customer on the 12th to discuss next steps.
Agent contacted dealership, phone number dialed, 217-223-5950. Agent contacted dealership to discuss customer s concerns and next steps. Agent spoke to SM (Leland) and was informed that there is a new camera in there. The vehicle never failed where they said it would. The tech did duplicate it. They replaced the camera and bracket. This came from the technical advisor. The dealership didn t update STAR yet.
Agent attempted to contact customer, phone number dialed, [redacted]
Agent contacted customer to discuss next steps. Customer has not heard from the dealership yet. CM informed customer of the updates. CM advised a call no later than Wednesday 6/17
Agent contacted dealership, phone number dialed, 217-223-5950. Agent contacted dealership to get an update on status of diagnosis/repairs. Agent spoke to Jaime in service and was informed that there was a camera replaced and they have not heard from customer since.
Agent attempted to contact customer, phone number dialed, [redacted].
Agent contacted customer to confirm repairs and discuss next steps. Customer states that the cruise control issue hasn t acted up. Customer states that going down the interstate, the blind spot/forward driving alarm came on. They are waiting to see if this was a fluke. CM will follow up in about a week to confirm any remaining concerns.
CM is to confirm repairs
Agent attempted to contact customer, phone number dialed, [redacted].
Agent contacted customer to confirm repair next steps. Agent spoke to customer who states that she had an issue Monday. Customer states that they are not sure what it is supposed to do with the forward collision. Customer states that the forward collision was telling customer to apply the brake, although it was on and the brake was slightly applied. CM advised customer to inquire with the dealership in regards to this and the owners manual. Customer agreed and customer is going to look into this. CM advised customer that we would like to wrap up the case if there aren t any remaining concerns. CM advised a call to customer early next week to discuss case closure.
Agent attempted to contact customer, phone number [redacted].
However, customer was not available.
Left message for a return call at extension 40700. The reason for the customer contact was to provide or request the following information:
Agent contacted customer to discuss next steps.
CUSTOMER CONTACT- Agent spoke to customer who states that they ve checked the ownership manual. Customer states that they have looked at the 2015 owners manual and it had issues in there. CM advised customer get with the dealership to inquire about this concern further. Customer is going to talk to husband to see what needs to be done next.
[redacted] called to speak with CM. Transferred to VB254 ext. 40700 voicemail per customer s request.
Customer called in requesting a call back at 5[redacted].
Agent spoke to customer who states that he isn t going to call the dealership about this issue. There is a brake for forward collision. Customer states that there are no other concerns except for this brake concern that customer is having. CM advised that case will be closing at this time.

Called dealer 45126 spoke to SA Diane unable to update RO history or transfer to SA or SM for assistance, I advised will call back.
LVM at [redacted] advising that their case was reviewed and escalated to me for special handling. Provided my name and contact information.
Called dealer 45126 LVM for SM Kelly for call back.
Called customer at ([redacted] for call back advised will follow

up by 05/14/15.
Called customer at (customer stated vehicle has been in for service to may times and now CEL on and stating needs service. Also, front collision warning will come on and customer believes that is a hazard as will do without cause. I advised will review for all possible resolution but would need to have vehicle in for service if not repaired. Customer acknowledged and stated can take vehicle and will contact me once dropped off. I advised will follow up by 05/14/15.
Dealer 45126 called in SM Kelly to provide RO history and stated unable to verify if vehicle in for service and will fax RO history as unable to provide. I provided my fax number and thanked her for the call.
Dealer called in SM Kelly stated per inspection vehicle shows clear damaged on driver side and that is causing the accident warning to come on because is damaged from whatever it hit. Also, vehicle is out of alignment per accident but when SA test drove vehicle cruise control worked. SM stated customer in rental but will be advising will not cover after 05/14/15. I advised will follow up with customer to discuss further. SM acknowledged and stated needs to go thru insurance as not warrantable. I acknowledged and thanked her for the call.
Called customer at (advised per SM accident warning light comes on intermittently because vehicle has been damaged in an accident. Customer stated was side swiped but does not believe that is issue and if so should have been told prior times when coming in for service. I advised repairs unfortunately will not be repaired under warranty per damaged would need to go thru insurance. Customer stated is frustrated and doesn t understand why was not told prior but did pay for alignment out of pocket. I advised I am still reviewing case for resolution and will follow up by 05/20/15.

Called customer at (inquired about damage to vehicle and VM customer left stating still having issue with cruise control and warning light. I advised per dealership did not perform repairs per issue occur because of damage to vehicle and if would like repaired would have to go through insurance. Customer stated that is not right has minor damage to vehicle that should not affect accident warning light or cruise control. I advised can go to second opinion dealer. Customer stated he will not take vehicle back and will contact an attorney. I apologized for inconvenience and stated would like to look into resolution but would need to confirm if warrantable issue. Customer acknowledged and I advised will give time to think about if would take vehicle to second opinion dealer. Customer stated give time and requested I follow up on 05/26/15. I advised will do.
Called customer at LVM inquiring if taken vehicle to second opinion dealer and will follow up by 05/28/15.
Called customer at LVM inquiring if taken vehicle to second opinion dealer.

Customer Care is sending this CAIR because this customer appears to fall within the scope of Warranty Bulletin D-12-27 Warranty Goodwill Administration Process. Please follow the guidelines set forth in this bulletin to come to a resolution. If the customer s request is beyond the
limits found within D-12-27, it will require Area Manager documented pre-approval via the DM Notes application. All offers or denials will be delivered to the customer, with an appropriate explanation, by the dealer or the Area Manager. Customer Care will follow-up as appropriate with the customer before the CAIR is closed. If this repair falls under the Digital
Imaging process or the Powertrain Service Center you will need to follow all associated processes and requirements for claim approval including tech training requirements.

Writer called dealer, spoke with SM Bob. He stated that the cruise control sensor needed to be replaced. Is gathering warranty pricing and writer will call back within the hour to get information. SM agreed to go 20% under d12-27.
** In correction to line 73, SM name is Bill**
Customer called in looking for case number and update as previous agent did not send email.
Agent advised that email was sent.
Customer did not receive email.
Agent verified email.
Customer states email is wrong there should only be 2 i in the email.
Customer states email should be [redacted] and phone number should be[redacted]
Agent advised that case would be updated with correct information.
Agent advised as to lines 48-51.
Agent transferred customer over to CM.
Writer called customer, advised that between us and the dealership we would cover all costs but $100, which would be the customer co-pay. He accepted and said he would be bringing the car in on friday (5/15) to have the repairs done.
Customer will be paying $100
Dealer will be paying $273.58
Chrysler will be paying $994.32
Warranty pricing is
$55.68 for labor
$1312.22 for parts

Status update provided via email to the following email address:
[redacted]
Hello, this is Alison, your case manager. This email is confirmation that your case, [redacted], was successfully escalated to me. My office hours are 8:30 AM 4:30 PM (Mountain Time). My contact information is 800.763.8422 EXT 40765.
End of Status Update
as mentioned in a previous CAIR, there are MVP service contracts that are available that would cover costs of these items if they are purchased. in this case there is not an MVP contract to cover these items. if the part is in cost, perhaps a reimbursement is in order for the repairs. I would not suggest a goodwill repair for this if it is not necessary.
Writer called dealership, SA Rick stated that the car was repaired on friday 5/15, and provided RO# 7[redacted]
Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40765. The reason for the customer contact was to provide or request the following information:
Check on repair satisfaction
Status update provided via email to the following email address:

As a one-time goodwill gesture, Chrysler is approving this out of warranty repair. According to the dealer, the warranty costs of the repair are as follows:
Parts = $1312.22
Labor =$55.68
Total = $1367.90
Co-pay = Customer $100
Co-pay = Dealer $273.58
########## DIRECT-TO-DEALER ##############
Customer Care is sending this case to because an out-of-warranty goodwill decision has been made. Remember ALL pre-authorization requirements for Digital Imaging and the Powertrain Service Center still apply. When submitting for pre-authorizations include this case number. When repairs are completed, submit your claim as you would normally and update this case and return it to Customer Care.
##################################
Was the customer in a rental? None If yes, how many days?
Did the customer have a co-pay? If yes, how much? $100
What is the RO #?[redacted]
Does the SM have the CAIR #? Yes If no, provide it.
Review and Confirm the DM Notes with the SM while on the phone.
Does the SM have everything needed from Customer Care to process the claim? Yes
DEALER CALLED-
SM Bill advised that his claim is not going through and that the amount previous CM put in is not correct. CA confirmed:
Parts: $1325.66
Labor: $118.32
Total: $1443.98
SM advised that Customer had a $100.00 copay, D-12-27 to cover $268.80 and Chrysler to cover $1075.18. Writer added correct DM notes, advised to submit as an RA and if he has any further issues to contact the warranty hotline.

***** EMAIL BRIEF DESCRIPTION CONTENT *****
UNRELIABLE 2014 Grand Cherokee
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
Below please see emails I have sent to my Jeep Dealer. I would appreciate hearing back from someone ASAP. May 13, 2015 Hello Matt, As an update to my original letter below dated April 23, 2015 my Jeep is back in the shop-again. On Sunday, May 10th the check engine light came back on. While driving the ACC unit flashed WARNING notifications when no vehicle was near, the radio lost all settings for about 20 minutes then they all came back just as mysteriously as they had disappeared. I brought the Jeep in to the shop Monday morning (5/11/15) and I was told that the check engine light brought up a code referencing a faulty fuel pump circuit. I have been told that the electronics are being checked again and the fuel pump is being looked at but there is no answer to exactly what the issue is yet. The Jeep remains in the shop. Unfortunately this new Jeep has been the most unreliable vehicle I have ever owned. It is a very disappointing vehicle. I am again asking Jeep to replace this vehicle. April 23, 2015 I am writing to express my extreme frustration and complete loss of confidence in my 2014 Jeep Grand Cherokee Overland Diesel. I was very much looking forward to the capabilities of the Grand Cherokee. Unfortunately, in the year plus I have owned the vehicle, I?ve had numerous trips to the dealer and it has been in the shop for service and unusable by me for nearly six weeks. From the beginning it has had issues that have impacted its functionality, safety and usability. The check engine light has been on and off many times. These unexplained check engine lights sometimes resulted in trips to the Dealer but sometimes the light would go out just as unexpectedly as it went on. During October 2014 the Grand Cherokee spent 18 days in the shop to have the SCR Catalytic Converter and heat sensors replaced. I was told that this was a result of crystalized DEF fluid. My understanding is this is a common issue for diesel Jeeps. During the winter the ACC unit stopped

functioning correctly. It unexpectedly would flash collision warnings when no other vehicle was near or it would simply put out a message saying it was not functioning. I drove with it like that for most of the winter and finally brought the Jeep in for service when another check engine light brought me in to the shop. A service technician checked the light and could not determine what the cause was and reset the light. A replacement ACC Eye was ordered and the vehicle spent a few days in the shop for the repair since not all the correct parts were shipped. Most recently and most frustrating, I began having random check engine lights towards the end of March. On March 30th the Jeep would not start. I had to have it towed to the dealership. No one could get the Jeep to start. Once the dealer was able to get the Jeep to start I was told they could not get it to shut down. Twenty five (25) days later my Jeep is still at the dealership. I have been told that the Totally Integrated Power Module has been replaced and that a Powertrain Control Module (PCM) has been ordered and will be installed. I have also been told that the service technicians aren?t sure that replacing these parts will solve my Jeep?s issues. This is not a quality of service issue ? it?s a product problem. The people I have dealt with at Lee Jeep in Westbrook have been as helpful and sympathetic as I believe they can be. But I spend a great deal of time in the back country of Maine and spent $50,000 on my Jeep because I believed it would be a safe, solid vehicle that would handle the places I travel. In some ways, it has delivered - it is comfortable, has decent power and towing ability and can handle the logging roads and rougher areas I often find myself travelling through. However, because my vehicle is so unreliable, I am not confident that the jeep will always work when I am far out in the woods where I could be miles from help and out of cell phone coverage. This is unacceptable. As I?ve outlined, I?ve tried multiple times to proceed through the usual channels and continue to bring my Jeep in for service ? to no satisfaction that I will receive back the safe and reliable product I thought I bought. It is disappointing that it has come to this but I am asking that Jeep replace my current vehicle with a new, trouble free Jeep. I would appreciate hearing back from someone as soon as possible since as I said above- I still do not have my Jeep.
*****END OF CUSTOMER EMAIL*****
Dear [redacted]
Thank you for contacting the Jeep Customer Assistance Center.
Our records show that you have contacted us by telephone and we have forwarded your concern to a more appropriate department. We have updated your file to reflect the latest information you provided in the email message.

information: get initial information
Writer contacted DLR and spoke to SA Josh. Customer s previous repairs
were covered under warranty, customer is in a rental which is also
covered under warranty. SA stated that the customer s radio is also
cutting out, but there are no other related symptoms in the vehicle. SA
stated they ve spent a lot of time waiting for STAR. AM is aware of the
issue. Current mileage: 29148. Writer will follow up with DLR on Tuesday
5/19.
Customer was informed that by making this request
they are NOT actually filing lemon law or any related process.
Their case is being escalated for a review of the vehicle s repair
history to determine if their request merits further action and that due
to the nature of their request, it will require a call back which will
take
place within 1-2 business days. The outcome of the review does
NOT determine Lemon Law eligibility.
Preferred Morning/Midday call back number i [redacted]
Who has possession of the vehicle? Dealer
Reassigned to 91L
Customer is seeking lemon law buyback/replacement.
What s the main concern? Check engine light, radio cuts out, vehicle
began revving on its own,
If known, how many repairs and/or dealer visits for concern? 4 (i)
4/1/15: check engine light on and replaced a module. (ii) 3/27/15: a
broken sensor was replaced and there was no evidence of damage from
broken sensor. (iii) 2/13/15: check engine light on and PCM was flashed,
(iv) 10/15/14: check engine light on, the catalytic converter and
injector nozzle was replaced.
If known, how many days down? 1 week this visit, 6 weeks total.
Describe previous offers made: Repair of vehicle.
Writer contacted customer. Customer states that besides the check engine
light, the vehicle has had multiple repairs--the catalytic converter, the
whole computer system, the PCM--and the vehicle began revving on its own
last week. The radio will also cut in and out. Customer stated that he
feels that the vehicle is extremely unreliable. He does a lot of driving
in Maine outside of cell phone service. Customer states that it s

unacceptable for any vehicle to be unreliable in that area, especially a new vehicle. Customer states that the vehicle has been in shop for a total of 6 weeks for its repairs. Writer explained to the customer that a STAR case was opened and writer would give the DLR until Tuesday 5/19 to diagnose the vehicle the customer stated that this was an unacceptable amount of time. When the writer asked what else the writer could do, the customer stated he would like his vehicle bought back. Writer checked the customer s qualifications and escalated to 91L. Writer will follow up on 5/18.
CONTACT UPDATE - Customer was contacted today at 05/14/2015 11:32:22 AM
Customer was provided with agent s extension 40773.
****ATTENTION CUSTOMER CARE AGENT****
This customer has contacted Customer Care seeking Lemon Law buyback/replacement. Preliminary research has determined this vehicle warranty history does not merit further review. Please continue case management in an attempt to resolve the customer s concern and/or issues.
Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40773. The reason for the dealer contact was to provide or request the following information: get update on diagnosis.
######### DIRECT-TO-DEALER #########
ATTENTION SERVICE DIRECTOR OR SERVICE MANAGER
Please follow your Business Center guidelines in an attempt to resolve this customers concern(s). If needed, seek assistance from your District Manager, Business Center or STAR.
The unresolved concern is check engine light comes on repeatedly. Repair history in lines 9-14.
Action requested: involve tech advisor or put data recorder in vehicle.
Please update this CAIR with resolution.
##################################
REASSIGNED TO BC/DLR 32 66404 05/18/15 11:35 O[redacted]
Writer contacted customer and informed him that the DLR is working on diagnosing his vehicle. Writer also informed customer that 91L rejected his vehicle for buyback. Customer wants to seek legal action because he states that his vehicle has been in the shop for a total of 7 weeks, and it s been a week this time with no repairs. Writer told the customer that we are involving the area manager. Customer was not happy with this solution and still wants to seek legal action. Writer gave customer ncdsusa.org and 866-662-4539 ext. 114.
Writer will follow up with DLR and customer on 5/21.
DM NOTES: AREA MANAGER WORKING WITH BC STAFF TOWARDS RESOLUTION.
Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40773. The reason for the dealer contact was to provide or request the following information: get dealer diagnosis.
Agent contacted dealership, phone number dialed, 207-856-6685. Agent contacted dealership to get an update on diagnosis. Agent spoke to Chet in service who informed CM that he isn t the advisor on the vehicle. CM was informed that the advisor Josh is with a customer. CM provided contact information requesting a call back at ext 40700.

***** EMAIL BRIEF DESCRIPTION CONTENT *****
Anti crash system
***** END EMAIL BRIEF DESCRIPTION CONTENT *****
My 2014 Jeep Overland is over riding my defensive driving and slamming on the brakes when it has no reason to, i.e.; the car in the lane I was in, (which is now next to me on the right of my vehicle) is stopping in the middle of the road. I got into the next lane to get around the stopped vehicle, my Jeep then slammed on the brakes after I am in the other lane and passing the stopped vehicle on my right. I have survived situations on the highway that required me to be in full control of the vehicle and maneuver it in an unorthodox manner. I fear my driving ability is hindered in extreme situations requiring me to control my Jeep to avoid an accident. I would like to turn my anti collision system off! What can I do about this?
*****END OF CUSTOMER EMAIL*****
Dear[redacted]
Thank you for contacting the Jeep Customer Assistance Center.
We are very sorry to learn of the dissatisfaction you are having with this safety feature. It was designed to provide a brake jerk warning in a possible collision. If you are experiencing your brakes slamming to the point that you are out of control you may want to have the vehicle diagnose as this features intent is a slight jerk warning.
The forward collision button is located on the switch panel below the Uconnect display.
To turn the FCW system OFF, press the forward collision button once to turn the system OFF (led turns on).
To turn the FCW system back ON, press the forward collision button again to turn the system ON (led turns off).
Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).
Sincerely,
Belinda

The following items have been selected:
Warranty
Uconnect 8.4A/8.4AN Owner s Ma
Owner s Manual
Briefly summarize why the customer is contacting Chrysler: Customer called stating that she has had to take her vehicle to the dealer several times for issues relating to the brake alert light coming on, a message on the dash that says 'Unavailable right front radar sensor', and customer stated that her Uconnect has a very bad connection and people cannot understand her. Customer is in possession of the vehicle. Customer stated that she picked up the vehicle from the dealer last week and she is still experiencing the same issues as she was before. Customer stated that when she picked her vehicle up last week there was a warning light on the dash of a steering wheel with and ! beside it. Agent looked it up in the owner s manual and advised customer as per page 303. Customer stated that the dealer advised her that that light meant her steering was working fine.
Agent advised customer that she should take the vehicle to the dealer for a diagnosis again and to call us when the vehicle is at the dealer and we should be able to get this case escalated for her.
Briefly summarize what the customer is expecting: Customer is expecting

to get her vehicle operating as it should be.
NEXT AGENT: If the customer calls back please attempt to get this case escalated to 88F for unresolved issues.
Reassign to TL ML1082 for survey bypass (No Diagnosis)
CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED
Survey By Pass - No Diagnosis
Customer called back stating that her vehicle is at the dealer now. Customer stated that she has been having further issues with the vehicle which include transmission issues. Customer stated that the vehicle will be in drive but act like it is in neutral and that she has to turn the vehicle off and then back on again to get it to work properly. Customer also stated that the vehicle is revving really high while it is in drive. Customer stated that it happened the other day and she was unable to pull over so she had to put the vehicle into Sport mode and then turn Sport mode off to get it to stop revving. Customer stated that this issue is random and intermittent. Customer also stated that she gets a beep and then a message on the screen that says 'ACC/FCW wipe front sensor unavailable'. Customer stated that the automatic wiper sensor is acting up and her windshield wipers are coming on randomly, on high, when there is no rain or moisture. Customer also stated that it takes several seconds for her turn signals to turn off after she has turned the corner. Customer also stated that the brake alert light is still randomly coming on and off. Customer stated that it will flash 3 times and a message comes up on the screen saying 'Brake' and it will beep. Dealer initially thought it was caused by snow on the sensor. Customer stated that it went off 4 times last night alone on the way to the dealer.
Agent contact the dealer and spoke with SA James who stated that the customer has been in 5 different times for issues with the vehicle. Agent advised SA James of the issues that the customer is experiencing currently/again. SA James stated that the customer was in on May 4th for a lot of these issues and they were unable to duplicate them. SA James advised agent to notify the customer that he would be contacting her to go over all of the issues that are going on with the vehicle.
Agent advised customer as per SA James. Agent advised customer that we would be sending her case up for special handling and that she would be assigned a case manager who would be able to provide further assistance in getting this issue resolved.

Reference CAIR[redacted]
Briefly summarize why the customer is contacting Chrysler: Customer stated that she would like information on Lemon Law. Customer stated that she is at the DLR today again for the check engine light. Customer stated that she has had the vehicle at the DLR 9 times for different issues like the DEF and software updates since she purchased the vehicle. Customer stated that it is a great inconvenience and she should not have so many issues with a new vehicle.
Briefly summarize what the customer is expecting: To file for Lemon Law Agent advised customer that her file would be forwarded to the proper department for review of the repair history. Agent advised that this is not filing for Lemon Law. Agent advised customer that the objective is always to repair the vehicle as per the terms of the factory warranty. Agent advised customer to continue working with the DLR to resolve the issues.

>Called customer but she was unavailable. LVM requesting a return call.
Follow up 6/9
>Received call from customer. Customer stated the vehicle is not at the dealership. Customer stated the vehicle has been to the dealership five (5) or six (6) times for the CEL. Customer stated the DEF light was on because the DEF was low. Customer stated she was told by SA Lee, she could get DEF from the truck stop or an auto store. Customer stated she purchased DEF from the auto store and filled the tank. Customer stated she was later told by SA Lee the tank should only be filled half way. Customer stated the dash light 'brake' came on but there was no vehicle in front of her. Customer stated the dealership has replaced the 'brain' of the vehicle and now the air suspension light comes on. Customer stated there are no lights on now. I advised the customer I will review her case for all resolution. I requested the customer to contact me if the lights come back on. Customer agreed.

Product - Electrical - Lamps and Switches - Other - Default	ACC / FCW lights on
Product - Engine - Unknown - Check Engine Lamp On/Flashing - Default	check engine light keeps coming on

Briefly summarize why the customer is contacting Chrysler: Customer at first asked for lemon law. Writer explained that we do a review of the repair history of the vehicle. Customer states he can t use anything in the car. 3 days after seeing the DLR, his check engine light came back on. lCustomer had just goten out of the shop for regular PM and the check engine light was on. This was the 3rd time for the check engine light being looked at. The vehicle is drivable but the lights keep coming on. Can t use Cruise Control - it says Service Required. ACC/FCW - it says Unavailable - service required. There is also an intermittent problem with the check engine light.
Writer found these related warranty claims on the OWNERSHIP EVENT HISTORY:
05/15/2015 - ECM
10/02/2014 - ECM
04/25/2014 - ECM
10/02/2014 - TCM
Writer consulted answerconnect #18734 and the customer has to get back to the DLR for his issue to be looked at a 4th time. Customer was explained that intermittent and non-duplicatable issues are difficult to diagnose. Customer will call the DLR first thing on Monday, June 1/2015 to get an appointment.
When customer is at the DLR, he will call back with the case # and the next agent can verify the Repair Order and get authorization to send up to 88F. The entire Special Handling paragraph has been filled in, except for the TL NIC, which would be obtained at time of approval to send up.
Briefly summarize what the customer is expecting: to get a Case Manager for his unresolved electrical issues with the vehicle
REQUEST FOR SPECIAL HANDLING
NIC of TL consulted:

Reason for special handling request:
Preferred morning/midday call back number is [redacted] - CELL
Preferred afternoon/evening call back number is [redacted]
Customer email address for case updates: [redacted]
Would customer like to receive updates via text message? (Y/N) - NO
Mobile number [redacted] - CELL
Who has possession of the vehicle? Owner who will be seeking next available appointment on Monday, June 1/2015 - using same DLR as before
Has the vehicle been diagnosed by a CDJR dealer within the last 30 days? YES
If a CDJR dealer has diagnosed within 30 days, what is the dealer name or code? 44155
Customer advised that they will be contacted within one (1) business day, by COB their time
Assigned case to 88F for Special Handling
Reassign to TL for Survey Bypass - no diagnosis
Vehicle is at the dealership - DODGE CHRYSLER JEEP OF WINTER (44155)
Update triggered by S01218N
Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler regarding vehicle being at dealership. Customer stated that was advised to contact Chrysler once vehicle was at dealership. Customer stated that check engine light did come back on
Briefly summarize what the customer is expecting: Customer is seeking to have vehicle repaired
Agent advised customer that would escalate case to case manager which would notify customer with in one business day
Customer calling in because he was told he would receive a call by the close of business and is seeking further assistance.
Writer transferred customer to CM SB1977 for further assistance.

CAIR ESCALATION UPDATE
SEE STAR CASE# [redacted] FOR INFORMATION
Customer (Mrs) made contact and advised that dealer told her the vehicle is ready to pick up but they are waiting for approval for release. Writer put customer on hold and contacted dealer for an update.
Writer contacted Mike/SD at 847-975-0812 and was advised that repair is done but they would like to let the vehicle cool retest and then report back to ECS for approval to release. Writer contacted ECS TS and advised. Customer would like update on status of vehicle as she will be leaving on a trip and is hoping to take the vehicle and leave today. Customer cannot pick up vehicle until after 5 pm.
Writer will arrange for a CA that works latter to follow up and then follow up again on 06.12.2015.
Writer called Dealer DUPAGE CHRYSLER DODGE JEEP RAM at 630-446-1400 and spoke with Mike/SD stating the vehicle is fixed and the customer will be picking the vehicle up on the customer s way home.
CAIR ESCALATION CLOSURE
SEE STAR CASE# [redacted] FOR INFORMATION
Writer called customer at [redacted] Phone line was busy. Writer made another attempt, phone line was still busy. Writer contact the customer at [redacted] Customer states that she will be picking up the vehicle in about an hour. Customer states that her CA will be in contact next week.
Customer called in to let us know that they took their vehicle to Champion CJD in Decater Alabama to get the Diesel additive put in. However the DLR made a mistake and put it directly in the diesel tank instead of the separate tank. The dealership realized the mistake almost immediately and rectified it by draining the fuel tank completely and changing the filter. Customer said DLR was very nice an apologetic and they were not calling to complain although they had to wait 4 hours for them to rectify it. They just wanted it noted on their case.
Briefly summarize why the customer is contacting Chrysler: Customer stated that he is currently getting a message in his vehicle stating that the fuel is contaminated. Customer stated that he believes that he issue is related to the dealership putting the fuel additive into the wrong tank. Customer stated that he is also having issues with the forward collision warning system not working, and his adaptive cruise control will not work. Customer stated that he is currently bringing the vehicle back to the dealership.
Briefly summarize what the customer is expecting: Customer would like to document what is happening with his vehicle.
Agent advised the Customer that the case will be updated, and a call back request will be made for the CM to contact him back.
Writer called customer at [redacted], however, customer was not available.
Left message for a return call at extension 40614. The reason for the customer contact was to provide or request the following information: Writer attempted to contact customer. Phone rang busy and writer was not able to make contact.
Writer tried to make contact twice.
Vehicle is at the dealership - DUPAGE CHRYSLER DODGE JEEP RAM (26951)
Update triggered by S35860I
Writer received call from dealer, vehicle is back at the dealership,

customer concerns: 1: Gap in front bumper molding, 2: collision warning lights are on, 3: diesel fuel light is on, dealer found update for TCM. Dealer has not diagnosed issues, writer advised dealer to diagnose the vehicle and call back before completing any repairs.
Writer called customer at [redacted] and line rang busy. Agent attempted to contact customer at [redacted], however, customer was not available.Left message for a return call at extension 40614. The reason for the customer contact was to provide or request the following information: Writer attempting to make contact as vehicle is having additional concerns and is back at the dealership.
Customer: [redacted] returning call from CA LK237 stated he tried her ext but did not get through. Writer verified customer had correct ext and cair #, transferred call to ext 40614.
Customer (Mr) returned writers call and reviewed that there was a problem while traveling. Writer reviewed workmanship process and advised that writer would try to get needed repairs done at his home dealership but that the dealer that made the mistake would be responsible. Customer also advised that the vehicle adaptive cruise control, forward collision was engaging improperly. That situation was very dangerous. Customer turned it off and it kept engaging. Customer is in a rental/loaner vehicle at this time. Customer would like follow up on 06.12.2015 unless there is a problem.
***** correct contact number for customer is 6[redacted] *******
Writer contacted dealer 60474 Champion CJD in Decater Alabama at 256-351-8787 and requested to speak to SM Barry. SM advised that he is willing to work with repairing dealership 26951 and will contact SD Mike. SM advised that he will be responsible for the costs of the repair. SM advised that parts manager, George would be contacting the repairing dealership as he was the person who made the mistake. SM provided with writers contact information and SD Mikes contact information. Writer also requested that AM (John Harrison) be advised of the situation. SM Barry advised that he would contact the AM.
Customer made contact and advised that they are now in negotiation to purchase another vehicle but not a diesel this time. Writer advised that writer does not have incentives to offer and cannot become involved in the sales process but will contact the dealer and request that they give customer all incentives that they have. Writer and customer discussed that writer will provide oil change (5yr) and mechanical SC to thank for staying loyal to the brand. Customer also thanked writer for contacting dealer that added DEF fluid to fuel tank so the vehicle could be repaired at this dealership. Writer will follow up with customer on 06.16.2015 to review SC offer.
Writer and customer reviewed that writer cannot provide lifetime service contracts.
Writer contacted the sales department at 630-446-1400 and spoke with Sales Manager, Tony. Writer explained customer situation and requested that customer be provided with any sales incentives that are available. Tony advised that customer is already working with someone at the dealership. Tony advised that he would be willing to offer customer incentives. Tony advised that he does not need current case number or writers contact information.
DEALER CALLED-
Tech Boggan called from dealer 26951 stating customer came in with 2 concerns and is requesting TS assistance.
1. Front Collision Warning light comes on when nothing is around the vehicle, dealer duplicated, needs assistance on next steps.
2. The Chrome trim under the license plate is sticking out. Dealer needs to remove bumper to fix.
Writer advised that case will be escalated to TS and to wait until contacted to do anything.

SEE STAR CASE# 1[redacted] FOR INFORMATION
Writer contacted Mike/SD at 847-975-0812. SD advised that repairs are done Contamination done by other dealership is also done and the Champion dealership paid for the work. Customer has been contacted about picking up vehicle.
Customer contacted Jeep because he just picked the vehicle up yesterday after it was at the dealer for about a week and they were suppose to fix the adaptive cruise control. Customer is still having issues with it, the cruise control will turn on and off by itself and when he tries to use the button to set the cruise it wont work. Customer wants these issues documented and he wants to seek lemon law.
Agent advised that his concerns will be documented for his case manager, customer thanked agent.
Writer attempted to contact Mike/SD at 847-975-0812 and 630-446-1400. SD not available and writer spoke with SA Marsin. Writer advised that bracket on adaptive cruise control was replaced that it had been bumped. Marsin advised that he would be happy to assist the customer. Writer also left VM about case on SD Mikes VM.
Writer contacted customer (Mrs) at [redacted]. Customer advised that dealership sales department was not worked out and customer was disappointed with the experience. Calls were not returned and dealer wanted to increase payment by 300.00 to trade vehicle (lease) for regular gas vehicle. Customer also stated that dealer did not leave fuel in vehicle that was in vehicle. Writer advised that writer will take care of 1/2 tank of fuel used by the dealer. Writer also offer to add mechanical SC and oil change SC if customer purchases another of our brand vehicle. If customer keeps this vehicle writer can add mechanical SC or oil change sc with rotations to thank customer for working with Jeep ECS. Writer will follow up on 03.23.2015.
Customer stated that cruise control issue is now working properly.
Customer (Mr) made contact and advised that they traded in this vehicle for another Jeep. Customer wanted to discuss SC offers. Customer advised that he would like the SC with the highest mileage and longest years as his loan is for 7 years. Customer ok with deductable. Writer advised that the SC for the oil change would be for 4 years. Call dropped and writer contacted customer back at [redacted] Writer advised that writer would check for paperwork being in the system to add the SCs and would follow up no latter than 06.26.2015.
Finance Manager Mike from dealer 26783. Ziegler, made contact and inquired about SC to be added to new vehicle. Writer explained that when new vehicle is in the system, writer will contact customer and add SCs.
Writer attempted to contact customer at [redacted] and number is not working. Writer also attempted to make contact at [redacted] however, customer was not available. The reason for the
customer contact was to provide or request the following information:
Writer advised that new vehicle is in system and paperwork for SC have been prepared. Writer will follow up again no latter than 06.30.2015.
VIN for new vehicle is FC[redacted]
Writer contacted customer (Mrs) at [redacted] Writer advised that she is driving the new vehicle and it is at 419 miles but that writer should contact her husband at 630-461-7808.
Agent attempted to contact customer (Mr) at [redacted] however, customer was not available.
Left message for a return call at extension 40614. The reason for the customer contact was to provide or request the following information:
Writer advised that writer has paperwork for SC is waiting for his approval. Writer will follow up again not latter than 07.02.2015.
Customer (Mr) returned writer and would prefer 8yr 120,000 mile SC.
Customer advised that this case can be closed when the SC have been added to his new vehicle. Customer will accept 8yr/120,000 mechanical SC and

4yr/4 oil change per yr SC. Customer understands that with new vehicle and SC offers that writer will no longer be reimbursing for fuel. Writer verified address and email.
See case [redacted] - this case opened for new vehicle.
CLOSED LOOP UPDATE - no need for additional follow-up.

Product - Electrical - Cruise Control - Defective - Default	adaptive cruise control
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states that the vehicles adaptive cruise control is not functioning properly. Customer states that he will set it for 3 car lengths and the cruise control will get so close to the vehicle in front of him that he has to manually brake. Customer stated that the dealership stated that the sensor was broke and he had to pay for the fix last time.
Briefly summarize what the customer is expecting: Customer seeking adaptive cruise control to work
Agent contacted DLR 45449 and got customer an appointment for a diagnosis.
Reassigned to RO188 for no diagnosis.
Briefly summarize why the customer is contacting Chrysler: Customer is calling because he had the vehicle diagnosed.
Briefly summarize what the customer is expecting: Customer has been to the DLR 5 times for a sensor. DLR states that is it has been hit and that is why they cannot cover it under warranty. Agent and DLR confirmed that the concerns could have been covered under warranty if the technician hadn t stated that it had exterior damage.
customer states he purchased his Jeep in 2014 when he discovered a hole in back seat. Customer then noticed the vehicle was acting erratically. Customer took the vehicle in for diagnosis and the ACC sensor was replaced. Customer states he was at a friends house parked on an incline when the vehicle slid into a cement block damaging it. Customer also states he now has another ACC sensor issue.
Customer states he is dissatisfied with the poor construction of the back seat causing this issue.
Customer is seeking cost assistance with repairs and have repair back seat.
customer has paid for at least 2 oil changes customer is seeking reimbursement.

Agent put customer to MVP.

Product - Electrical - Unknown - Other - Default	Dashboard lights providing false signals.

Briefly summarize why the customer is contacting Chrysler:
Vehicle s dashboard lights give strange on/off signals during highway driving. Customer brought vehicle for three diagnoses at two dealerships, Riverdale DLR (60234) and Village Dodge DLR (41055). Service personnel were unable to diagnose the problems. Customer feels he is driving an unsafe vehicle and states the symptoms on the vehicle are as follows.
1) Adaptive cruise control (ACC/FCW) light blinks on/off during highway driving.
2) Brake emergency light blinks on/off during highway driving.
.
Briefly summarize what the customer is expecting:
Customer is expecting an answer before he brings his vehicle for a fourth diagnosis.
.
Agent called dealerships but they were closed. Agent offered to call back tomorrow (06/16/2015) for another attempt. Customer understood.
Agent called Village Dodge DLR (41055) and spoke with SM Erik. SM stated that issue is known to department but customer has not brought vehicle in for diagnosis. SM advises to bring vehicle back for re-diagnosis.
.
Agent called Riverdale DLR (60234) for inquiry but did not reach anyone.
.
Agent called Riverdale and spoke with SA Guadalupe. SA confirmed with Agent that customer had returned to this dealership for repairs and diagnosis and has left with his vehicle. If issue reoccurs customer is advised to return to DLR.
Customer calling back stating he has not heard for RC1776 and is seeking what to do about the issue.
Agent advised him we need the vehicle has the DLR with a re-diagnosis for us to escalate the case. Customer requesting escalation ASAP. Agent told him we can escalate it but the vehicle needs to be at the DLR. Customer understood and states he is willing to bring it to DLR 60234 for a new

diagnosis. Agent advised customer to call back when the vehicle is at the DLR.
Customer states that he needs a rental/loaner. Agent contacted DLR 60234 and SM Sonny states that the vehicle was just dropped off and there should be a diagnosis within 1/2 hour to hour. Agent advised Customer to contact once the diagnosis is complete

Q1 How willing are you to recommend JEEP to a friend or colleague?

Score: 00 (Detractor)

002 : Poor quality

003 : Concerns about reliability / dependability

007 : Negative experience / problems with CURRENT vehicle

This is the third jeep that I have purchased brand new and the same problems have plagued owners for years and chrysler does not care enough about the customer to fix the issue even when you involve the head office. I have never put my jeep through a touch wash but the Rubicon logo is stripping off on both sides. It is shameful that even the name that chrysler puts on its product does not stand up and the dealership will do nothing, knowing that the vehicle is under an extended warranty. And please don't get me started about the door hinges that have been rusting and stripping off for the past 30 years. Try and get Chrysler to fix that. I am also on my fourth clutch with this disgusting vehicle, which despite the warranty that I took out I had to pay for out of pocket. I hate Chrysler, I hate your products and will encourage my family and every soul I encounter never to even enter one of your dealership. You are a disgrace to the industry!!!

Q2 Please rate your satisfaction with your WRANGLER UNLIMITED RUBICON 4X4 on a scale of 0 to 10.

Score: 00 (Detractor)

T26 : Transmission quality/wears out too quickly/replaced too soon

X45 : Exterior Rust/Corrosion

I99 : Other Interior

I will make a list for you seeing that you do not get it at your corporate head office. 4 Cluches in four years 4 Year old vehicle is rusting to s***. It's performance does not stand up as advertised. Extremely bad customer service both at corporate and in the dealership. You do not care about your customers once you get their money. The hinges on the vehicle are rusting to the point that I am ashamed to drive it. The name of the vehicle is pealing off to the point that I am ashamed to drive it anywhere. While my kids were in the car I was standed in the winter cold due to a faulty clutch cylinder. Again, after buying 5 vehicles from your company brand new I am still treated like s*** by your company and your staff. Does that answer your question. I hate you so much I want to make an advertisement about the disgust I feel about how you handle things!!! I feel sick to my stomach when I have to tell people about Chrysler!!!

Q3 Please rate your satisfaction with your experience at DIXIE PLYMOUTH CHRYSLER on a scale of 0 to 10.

Score: 00 (Detractor)

001 : Negative/rude treatment by staff

995 : Will never buy there again

They are kind to your when you are buying 3 vehicles from them but when it comes to service and support, they avoid you like the plague. I have had service advisors lie to my face and communicate backroom fixes that were highly unprofessional. My neighbours even warned me that I should never buy from Dixie Chrysler but I did. Never again. They have take over $150,000.00 from me and treat me like s***. I will not even go back to them for an oil change. I hate them and will be writing all of the local papers to communicate my despise for this dealership and this product. You want the truth. Look at the internet and do the decent thing and fix the mutual problems that all jeep owners are having to deal with! Stand behind your product like a decent company! I hope you crash and burn as an organization!!!

Q8 Have you been back for service to DIXIE PLYMOUTH CHRYSLER in the last X months?

YES

Q9 How would you rate your chances of buying or leasing another Chrysler, Dodge, or Jeep vehicle?

01 - Definitely Will Not

001 : Too many problems with current or past vehicle

003 : Unhappy with service or past dealings with current dealer

006 : Other makes have outstanding/better reputations

009 : Quality/Reliability

097 : Other

010 : Dependability

Score: 03 (Detractor)

012 : Negative/rude treatment by dealer's service employees

992 : Safety/Legal

007 : Negative experience / problems with CURRENT vehicle

For now, there are things that are bringing me to be very dissatisfied of my vehicle and the service is very poor. I have a Montana, a GM and the service is excellent compared to Chrysler at the moment. All what was under warranty, all the noises that were on the vehicle, I never had to fight with anyone, no one ever laughed at me. I was never told that this was normal that all cars make the same noises. I am sorry, I have a brand new car and there are noises on it that are not normal. I am expecting that my after-sale service to be of a higher quality and that no one laughs at me because they do not want to pay for the fees, because they do not want to solve the problem. In my mind, this is not a good service. Then, I do not see why I would buy another Chrysler vehicle.

Q2 Please rate your satisfaction with your GRAND CARAVAN SE on a scale of 0 to 10.

Score: 03 (Detractor)

D41 : Brakes wearing unevenly/have to replace brakes too soon

A44 : Other Rear Seat DVD Player problems

The problem I had was a brake problem and I was told it was normal. I do not understand that at 30 000km my brakes are finished and this is normal. So that means that every 30 000km, I'll have to change my brakes because there is a problem with the rear wheels or traction system that makes the brakes wear out faster. I think this is not normal. Furthermore, I had the exhaust which was losing a little. I had other noises. My husband is a mechanic. There was another noise that tired him before, but it was always normal. I have a CD player that does not work. I bought a $ 30 DVD at Walt Mart, it worked with all the CDs. I have a DVD system in a car that costs I do not know how much, and it is not even able to run the CD. I think this is not normal. A DVD is 90% to play children's films, I have one that does not work with DVDs for children.

Q3 Please rate your satisfaction with your experience at PIE IX DODGE CHRYSLER 2000 INC on a scale of 0 to 10.

Score: 00 (Detractor)

017 : Quality of service work performed

I can just tell you that my seller was excellent. It's the only positive thing I can say. This gentleman is a gentleman super friendly, he's really someone who is in his place and that is good. If it was not for him, I would not have purchased the vehicle. Thanks to him I kept my cool because I spoke to him and he managed to get things done. Because all aspects of maintenance, they are zero for the service is really not good, sorry.

It is not for this last service. I went there because we did not have the choice and it was the closest one. Honestly, I would not return there. I would go and will go to Capital Chrysler and not Charlesbourg. I had done all the research in 2003 and 2004. I had very bad service with the repairs. I had taken steps by letter on two or three occasions with the person responsible of the franchise that was there. I had not had a reply. I had to go see the manager that was there. It had been really mediocre as a reception. It was straight up making fun of me. It is really zero for the service and the people over there.

I brought it in there, it stalled once while driving it, it's all clunking and they tell me there is nothing wrong with my truck. It drives like c***. I got buddies of mine and they say it's fine, I drive mine and it's got all kinds of weird things on it and it's fine, the computer says there is nothing wrong with it. Well how come it stalls in the middle of the road? I drive it down the road and it dies.

My wife is driving down the road in traffic and it dies. I don't drive very often, but three times while I am in low gear it bangs, like a really hard shift where you hear a banging noise between shifts and he tells me some excuse like oh that is the way the transmissions are, well I've never had a car that... I drive a 1980 Lincoln and it's smooth while I change gears. This one is a brand new vehicle. It's got a humming noise in it and they tell me there is nothing wrong with it. If it stalls one more time, I am parking in their lot and I am not going to get it until I get a new one. There is no way... My wife almost got into an accident when it died on the road. That is the worst part about it.

007 : Negative experience / problems with CURRENT vehicle

Just in my opinion I use to make these things. I worked there for 32 years making minivans, and mine has got nothing but problems and they keep telling me there's nothing wrong with it. The transmission is clunking and it's not running right and this ain't working. The computer says there's nothing wrong with it, but it doesn't run. It clunks, and it doesn't drive smoothly, well that's this and that's this, that's that. They say they can't find anything wrong with, so according to them there's nothing wrong with it. They're bringing it back in again see if they can find something wrong with it because it's still clunking.

T23 : Other Auto Trans

D47 : Abnormal Noises while driving

The shifter fell off, and now I got to get a new spring for that. I've had one thing after another wrong with it. I brought it into one dealer and they said there's nothing wrong with it. I brought it to another dealer and he says, 'Oh yeah we've had problems with this, and we'll look at it.' And as I'm in the dealership I'm talking to the guy and the lady is going yeah mines does that too, and the guy goes, 'Oh okay.' Both of us at the same time in there that was weird because at the same time she's having the same problems I'm having. It doesn't run right, and nobody seems to know what to do with it, and it's a brand new van. You spend all that money in a brand new van. I've got a 1980, I drive a 1980 Lincoln Mark XI and it runs smoother than that thing does. Runs better, drives better, and it's 30 years old. Now I'm not real impressed with the minivan. I always thought I would be, but now that I own it not impressed. If it ran right and everybody just didn't give me the run around saying there's nothing wrong with it, because what's going to happen is soon as the warranty wears out all of a sudden we found something wrong with your car, and I don't want to be hearing that either because that's why I've been in there three times already and they still can't find anything wrong with it. They keep telling me because of the computers not saying nothing. I don't care what the computer is saying, it's still going clunk, clunk. The guy is trying to hand me some bull story, oh that's the electronic transmission and in between shifts, and I say no other car ever does that to me in my life. I don't care if it's electronic or what it's not suppose to run like that, but they don't seem to want to take it apart to look at it. They just want to put it on the computer, nothing wrong, nothing wrong with your car, so it's all in your head, it's not.

Q1 How willing are you to recommend DODGE to a friend or colleague?

Score: 03 (Detractor)

007 : Negative experience / problems with CURRENT vehicle

I had repeated problems with my brand new Journey from day 23 of ownership. This vehicle stranded myself and two kids 20 miles out of town in -40 weather in the country. I ended up having the problem fixed Five times before my mechanic finally used other parts to fix it so my new reliable vehicle would not break down on me again. It has since been in on another warranty issue not related to the first. Had it been repaired the first time I would be a satisfied customer, had it been repaired the second time, I would have been satisfied, however after three, four and five... Well, not so happy. I am shopping around for a new vehicle, not sure what make because I do not trust this one which is sad because I have never been in a more comfortable riding machine.

Q2 Please rate your satisfaction with your JOURNEY SXT (LHD/FWD) on a scale of 0 to 10.

Score: 04 (Detractor)

P17 : Numerous non-specific problems / already have problems

If I had NOT had issues with the power steering, electrical, ignition and key modules then I would be your best advertiser as it is a perfect size vehicle for a professional that has children and owns her own business. I have used it to deliver products, get my stock, and drive kids around.

Q3 Please rate your satisfaction with your experience at RIVERSIDE DODGE CHRYSLER JEEP on a scale of 0 to 10.

Score: 05 (Detractor)

023 : Vehicle not fixed first visit

001 : Negative/rude treatment by staff

1. Salesman, Kevin Moulds has been good, asks me how my vehicle has been 2. Doug, office/money man was good and professional 3. Mechanic whom I never met that "fixed my warranties" I am NOT pleased with. He did what Chrysler told him to do, whom in my opinion just read a book on what to do even if that meant doing it FOUR times in a row with the same damn results. (I took it to a different dealership who finally fixed it - paid for the damn towing there too btw) 4. Rory, service manager tried to help but his hands were tied as to what they were supposedly allowed to do. He was kind and professional but my results were not good. 5. Murray Wall whom I dealt with a few times, nice guy outside of work...it doesn't matter how well you think you know someone under NO circumstances should a very overweight man tell a slightly overweight woman that maybe reason the power steering is failing is because we "pull" on the steering wheel to get into the car before starting it. That was very insulting and I left without saying another word as he is also one of my customers and I didn't want to hurt my business. Had I not had any mechanical issues, this would have been a 10 answer

Q8 Have you been back for service to RIVERSIDE DODGE CHRYSLER JEEP in the last X months?

YES

Q9 How would you rate your chances of buying or leasing another Chrysler, Dodge, or Jeep vehicle?

03 - Do Not Know

001 : Too many problems with current or past vehicle

003 : Unhappy with service or past dealings with current dealer

006 : Other makes have outstanding/better reputations

009 : Quality/Reliability

010 : Dependability

Entertainment/Navigation System/Connectivity>Antennas>	
Antennas	Antenna is broken.

Entertainment/Navigation System/Connectivity>	
Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Apple.
Please tell us your cell phone model	iPhone 5
If known, please tell us your software version	Latest

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	Many times the navigation system will direct you to around a block, like a strip mall rather than keep straight on the main road. Things that no one does while driving.
Please indicate which navigation system item has trouble (check all that apply):	Although it gets you to the destination, often the navigation system will direct you to go one street over for 1 block and come back to the road you started on. Things like that. Sometimes it loses track of what road you are on.

Entertainment/Navigation System/Connectivity>Antennas>Antenna is broken>	
Please describe the trouble you experienced:	"911 Emergency Connection" connectivity drops out almost daily and says request service. Radio connection is very poor and often has background static on many stations I've never had an issue with.

Hard controls/menus: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	Touchscreen is slow or unresponsive
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Primarily using Sirius/XM, data is not displayed and channel waits up to 30 seconds to change
Additional Comments:	Touchscreen is often slow to respond or does not update. Heated seats and wheel should have a hard control and not only through the touchscreen.

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Seat Warmers/Wheel heat should have a "Hard button".
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Seat Warmers/Wheel heat should have a "Hard button".
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Too many things you need to do are only on the touchscreen (Like heated/cooled seats, or heated steering wheel) Often, buttons will not activate when pressed. Especially in the XM radio menu. Stations will wait up to 30 seconds to change channels unless it is "Loaded". Ipod interaction is also slow. And when going to "Browse" it should return to the last menu level you were in instead of always going back to the top menu.

Touchscreen Controls/Menu: Front Screen Display does not meet expectations	
Please indicate why the front screen did not meet your expectations (check all that apply):	Slow. Infiniti has a much better layout. NAV design, though like Garmin, should be more like google or apple maps.

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception.

AM/FM/HD/Satellite radio channels have poor or no reception	
Please indicate which frequency band has trouble (check all that apply):	Many FM channels do not come in clear. These are channels I've never had issues with on other vehicles in the same area. Sattelite drops out often, pauses, and is slow to change channels, sometimes for up to half of a minute.
How often does this trouble occur?	Trouble occurs intermittently.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Sunroof/moonroof controls. Park Assist.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Sunroof/moonroof works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate which feature your vehicle is equipped with:	Moonroof.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	It doesn't work properly. In fact, it never works when I expect it should. It goes off when it shouldn't, when I easily could stop or have a lot of distance between myself and a vehicle turning in front of me (Far or Near settings) and doesn't go off when I am purposely trying to go to fast to approach a stopped car in front of me. In fact, I feel it is more dangerous for me to have this on since it brakes and alarms in situations where I don't want it to, which would result in erratic behavior.

Uconnect Access application does not work on my phone	
Please describe the trouble you experienced (check all that apply):	After sending signal to truck, may take up to 15min to respond to command.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>	
Feedback/Concerns:	More integration and compatibility testing needs to take place. For example the collision avoidance system may cause serious bodily or property damage if deployed at the wrong time.
What has Chrysler done right?	Re-designed most models. They look great! Features and upgrades that are packed into the vehicles are the best bang for the buck when comparing to the foreign auto makers.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	[redacted] Any time.

Abnormal Noises	Squeak/rattle/abnormal noises from rear cargo shelf/cargo cover.

Interior Trim/Storage/Windows>Abnormal Noises>Squeak/rattle/abnormal noises from rear cargo shelf/cargo cover>	
Please describe in the box below where from the rear cargo shelf/cargo cover the trouble with abnormal noises is located:	There is a rattle of some kind in the rear. I'm not sure if it is a panel, the back seat or something else in the rear.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	you can hear it at lower speeds when you hit any kind of bump.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Shifts at wrong times.

Transmission and Drivetrain>Automatic Transmission>Shifts at wrong times>	
Going into which gear/gears does the trouble occur? (check all that apply)	at low speeds the transmission seems to get confused sometimes. For example when I pull into my parking lot at work I go up a small incline and slow to ensure the path is clear when I gently accelerate it stays in first gear and the RPM goes up to 2500 RPM's before it shifts. I would expect it to shift quicker during an idle or light acceleration.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	slow to shift down when slowing down especially when it's time to speed back up.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	it's 4 miles to my work I notice it by the time I get there.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	4 (agree).
Information in the Smartphone Application is easy to find and access	2 (disagree).
Smartphone Application covers the necessary features	2 (disagree).
Please rate your overall level of satisfaction with the Smartphone Application	2 (dissatisfied).

Overview	
Please provide feedback on how Chrysler can improve the Smartphone Application	It only locks, unlocks and starts the jeep. It would be nice if you could check the oil and other items like with onstar.
Which feature or section of the Smartphone Application did you find most helpful and why?	Remote locking in case I can't remember if I locked my jeep.

What Can We Do Better?>	
Feedback/Concerns:	Please ensure you follow up after a year. New Jeeps should be in great working condition, but after a year who knows.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Continuous Quality Insight

Continuous Quality Insight	Interior Trim/Storage/Windows. Transmission and Drivetrain. Seats. Features/Controls/Displays. Steering, Handling, and Ride. Vehicle Exterior. Interior Climate Control. Entertainment/Navigation System/Connectivity.

Vehicle Exterior>Exterior Appearance/Paint:>

Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off. Front/rear bumpers were cracked/ripped/damaged. Paint is uneven: has sags, runs, overspray, thin spots, etc..

Vehicle Exterior>Exterior Appearance/Paint:>Exterior moldings/trim pieces loose/misaligned/falling off>

Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is poorly aligned or fitted.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Misaligned chrome trim
Additional Comments:	Hitch cover Trim has broken alignment tab under bumper

Vehicle Exterior>Exterior Appearance/Paint:>Front/rear bumpers were cracked/ripped/damaged>

To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which bumpers were cracked/ripped/damaged (check all that apply):	Hitch cover Trim has broken alignment tab under bumper

Vehicle Exterior>Exterior Appearance/Paint:>Paint is uneven: has sags, runs, overspray, thin spots, etc.>

To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the location of the paint issue (check all that apply):	Orange Peel
Additional Comments:	Orange peel on all body panel paint

Interior Trim/Storage/Windows>Operation and Functionality>

Operation and Functionality	Rear Cargo Shelf/Cargo Cover is difficult to use. Center console is difficult to open/close.

Interior Trim/Storage/Windows>Appearance>

Appearance	Carpet has gaps/poor fit. Interior materials soils/scuffs too easily.

Interior Trim/Storage/Windows>Appearance>Carpet has gaps/poor fit>	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe in the box below where on the carpet the trouble with excessive gaps/poor fit of materials is located:	Around center console

Interior Trim/Storage/Windows>Appearance>Interior materials soils/scuffs too easily>	
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe in the box below which material(s) have trouble with soiling/scuffing too easily:	Bottom of doors and door sill from shoes

Rear Cargo Shelf/Cargo Cover is difficult to use	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate why the rear cargo shelf/cargo cover is difficult to use (check all that apply):	Both sides have to be aligned perfectly while pulling against a spring. Awkward motion to latch.
	Awkward motion to unlatch
Please describe conditions when this trouble occurs:	While latching and unlatching cargo cover

Interior Trim/Storage/Windows>Operation and Functionality>Center console is difficult to open/close>	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which of the following best describes your concern (check all that apply):	Awkard motion of arm to pull open console lid cover rearward.
	Closes too rapidly; basically drop into place because of awkward movement to open and close. Could use a dampler.
Please indicate why the center console is difficult to open/close (check all that apply):	Open to side would be easier.
Additional Comments:	Wasted space under lid bottom. Tall object in cosole interference.

Interior Climate Control>Controls and Switches>	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located.
	Air conditioner takes too long to get cold.

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	Not hard buttons, too many touchscreen clicks, have to divert eyes from road.
	Not hard buttons, too many touchscreen clicks, have to divert eyes from road.
	Other (please describe).
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Not hard buttons, too many touchscreen clicks; have to divert eyes from road.

Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	Not hard buttons, too many touchscreen clicks, have to divert eyes from road.
	Not hard buttons, too many touchscreen clicks, have to divert eyes from road.
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Not hard buttons, too many touchscreen clicks, have to divert eyes from road.

Interior Climate Control>Operation and Performance>Air conditioner takes too long to get cold>	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
	A/C does not go to max initially

Interior Climate Control>Operation and Performance>Air conditioner takes too long to get cold>	
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	A/C does not go to max initially A/C does not go to max initially A/C does not go to max initially
Please describe conditions when this trouble occurs:	At first start after sitting in sun
Additional Comments:	Vent between Guage cluster and nav system not flowing as much air as other vents

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Why is the gear selector difficult to operate?	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which position is the gear selector difficult to operate? (check all that apply):	Frequently missed because of new electronic shifter. Detents are too shallow. Detents are too shallow. Easy to miss proper gear. Will not shift from neutral to drive while rolling back without putting on brake; safety issue.
Additional Comments:	Gears are frequently missed because of new electronic shifter. Detents are too shallow.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Please explain further about your choice to recommend your vehicle:	Much better vehicle than my POS lemon 2011 Grand Cherokee Summit that had a major drive line failure less than 200 hundered miles after new purchase.
The Smartphone Application format is easy to understand and use	4 (agree).
Information in the Smartphone Application is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	2 (dissatisfied).
Please provide feedback on how Chrysler can improve the Smartphone Application	Too slow to send commands
What information did you need that was not included in the Smartphone Application?	When is UConnect Via Mobile going to be active?
Which feature or section of the Smartphone Application did you find most helpful and why?	When is UConnect Via Mobile going to be active?
Which feature or section of the Smartphone Application did you find least helpful and why?	UConnect Via Mobile. When is it going to be active? I have had the vehicle for over a month and feel ripped off because it does not work.

Welcome>	
Please tell us how many miles are currently on your vehicle:	1,000-2,999.
Are you the primary driver of this vehicle?	Yes.

Continuous Quality Insight	
Continuous Quality Insight	Transmission and Drivetrain.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions. Shifts at wrong times.

Transmission and Drivetrain>Automatic Transmission>Shift between gears is rough/harsh under normal driving conditions>	
Going into which gear/gears does the trouble occur? (check all that apply)	In Sport mode , shifts are smooth and seem to occur at right RPM. In Econ mode, shifts happen quickly between Ist and 3rd gear at too low RPM. Down shifts are rough.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	In Econ mode only. Downshifts are rough in stop and go traffic.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>Shifts at wrong times>	
Going into which gear/gears does the trouble occur? (check all that apply)	In Econ mode, the shifts seem to occur at too low RPM. 2nd Gear. 3rd Gear.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	In Econ mode, down shifts in stop and go traffic and under normal conditions wen you take foot off accelerator are rough. Normal acceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Overview	
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	Great vehicle. Electronics are awesome.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>	
Feedback/Concerns:	I would like to see the transmission shifts corrected. The transmission seems to be solid otherwise and performs great in Sport mode.
What has Chrysler done right?	Great update. Touch screen is easy to use and electronic features outstanding.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Media	
Media	SD.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system freezes-up/will not work. Navigation system works, but missing information; has incorrect information; gives wrong directions.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command. Hands-Free Phone / Bluetooth system phonebook does not work correctly.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command. Voice Activation / Recognition finishes before completing a command. Voice Recognition feature does not have enough functions available.

Entertainment/Navigation System/Connectivity>	
Please choose your cell phone carrier	T-Mobile USA.
Please choose your cell phone brand	HTC.
Please tell us your cell phone model	HD7

Entertainment/Navigation System/Connectivity>	
If known, please tell us your software version	7.8

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	When entering information. When stating a name. When other people in the car are talking.
Do you usually set HVAC vent direction toward ceiling?	Yes.
How often does this trouble occur?	Trouble occurs regularly.

Voice Activation / Recognition finishes before completing a command	
Please describe when this trouble occurs:	When entering information. When other people in the car are talking.
Do you usually set HVAC vent direction toward ceiling?	Yes.
How often does this trouble occur?	Trouble occurs regularly.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>Voice Recognition feature does not have enough functions available>	
Please describe additional functions you would like to have:	rear wiper control heated seats control

SD	
Please describe the trouble you experienced (check all that apply):	If songs other than in MP3 format are present, the system crashes. I was unable to have more than 500 songs on the SD card(SanDisk 16Gb) prior to v.13.15.4
Where is the location of the media port?	Center console.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system freezes-up/will not work>	
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	it will either freeze or the GPS will place me several hundred feet away from my real location. Happened 3 times, despite UCONNECT updates, and WITHOUT being in an urban canyon - I was on the highway with clear unobstructed view of the sky

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	center (dashboard) display inside the speedometer gauge - the 3 lines with street name and distance have abreviations and truncated street names without any logic: I am sometimes missing a letter: ADDISO---n--- while several streets later may show KENNEDY EX (proof that the alphanumeric display has the capability to show enough characters) GPS accuracy is questionable at times

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please describe when this trouble occurs:	When entering a number. When stating a name. When other people in the car are talking. When there is outside noise or the blower is on.
Do you usually set HVAC vent direction toward ceiling?	Yes.

Hands-Free Phone / Bluetooth system phonebook does not work correctly	
Please indicate which aspect of the phonebook does not work properly (check all that apply):	Phonebook contacts are missing or incorrect.
How many contacts do you have in your phone?	25-499.
How often does this trouble occur?	Trouble occurs regularly.
Did you refer to the voice tutorial, phone tutorial and voice training when experiencing hands-free phone/Bluetooth system issues?	I did, but it didn't address all my questions.

Remote Features	
Remote Features	Remote phone/email notifications are broken/not working. Remote phone/email notifications are difficult to understand/use.

Remote phone/email notifications are broken/not working	
Please describe the trouble you experienced (check all that apply):	Setup completed, but I did not receive requested notifications.
Do you recall your cellular coverage at the time?	Full cellular coverage.

Remote phone/email notifications are difficult to understand/use	
Do you recall your cellular coverage at the time?	Full cellular coverage.

Search engine	
Bing	Search engine works but is difficult to understand/use.

Search engine works but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand. Difficult to use.

Uconnect Store	
Uconnect Store	Uconnect store is broken/not working. Uconnect store works but is difficult to understand/use. Unable to use applications purchased.

Uconnect store is broken/not working	
Please describe the trouble you experienced (check all that apply):	Service was not active after purchase. Service did not stay active for purchase period.
How long did it take to activate after purchase?	Immediately.
How often does this trouble occur?	Trouble occurs intermittently.

Unable to use applications purchased	
Please list the applications you are unable to use:	After each update, I am getting error messages about my SIRIUS XM trial period (sometimes shows I have purchased it, sometimes does not).

Uconnect Access Application	
Uconnect Access Application	Uconnect Access application does not work on my phone.

Uconnect Access application does not work on my phone	
Additional Comments:	There is no APP for Windows phones

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	The settings menu is easily accessible and can accidentaly change setup. It should not be on the firt menu entry. Hard buttonds for heated seats are preffered
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Alarm/anti-theft system. Wipers and washers. Door locks/keyless entry system. Adjustable Height Control. Cruise control system. Ignition switch.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Blind spot monitoring/warning system works properly, but is difficult to understand/use; controls/displays are in a poor location.

Alarm/anti-theft system	
Alarm/anti-theft system	Alarm/anti-theft system is broken/not working.

Alarm/anti-theft system is broken/not working	
Please indicate if your alarm/anti-theft system is:	Factory/dealer installed.
Additional Comments:	14-June-2013, the car alarm started shortly after opening the car. Unable to stop the alarm AT ALL, despite pressing the panic button, keeping it pressed, turning on the engine driving off etc. It stopped by iteself after 3 min.

Features/Controls/Displays>Features and Controls>Wipers and washers>	
Wipers and washers	Windshield wiper/washer controls work properly, but difficult to understand/use; in a poor location. Rain sensing wipers are broken/not working properly.

Features/Controls/Displays>Features and Controls>Wipers and washers>	
	Rain sensing wiper controls work properly, but difficult to understand/use; in a poor location. Rear window wiper/washer controls work properly, but difficult to understand/use; in poor location.

Features/Controls/Displays>Features and Controls>Wipers and washers>Windshield wiper/washer controls work properly, but difficult to understand/use; in a poor location>	
Please indicate which of the following best describes your concern (check all that apply):	Poor location.
Please indicate which feature's controls are difficult to understand/use (check all that apply):	rain sensing wipers do not always work
Please indicate which feature's controls are in a poor location (check all that apply):	rear wipers, poor location
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Operation of controls is confusing/doesn't make sense. Controls require too much attention (must take eyes off the road) to operate. Controls require too much effort/force to operate. Controls are not easy to reach.

Rain sensing wipers are broken/not working properly	
Please indicate what type of trouble was experienced with the rain sensing wipers (check all that apply):	Rain sensing wipers swipe too often. Rain sensing wipers do not swipe often enough.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Rain sensing wiper controls work properly, but difficult to understand/use; in a poor location	
Please indicate why the controls are difficult to understand/use (check all that apply):	rear wiper rear wiper

Features/Controls/Displays>Features and Controls>Wipers and washers>Rear window wiper/washer controls work properly, but difficult to understand/use; in poor location>	
Please indicate difficulty/trouble with rear window wiper/washer (check all that apply):	Window wiper control in poor location.
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate. Controls require too much effort/force to operate. Controls are not easy to reach.

Features/Controls/Displays>Features and Controls>Door locks/keyless entry system>	
Door locks/keyless entry system	Door locks broken/not working.

Features/Controls/Displays>Features and Controls>Door locks/keyless entry system>Door locks broken/not working>	
Please indicate what type of trouble was experienced with the door lock (check all that apply):	Lock binds/sticks while locking/unlocking.
Please indicate which door lock location is the source of the trouble (check all that apply):	Driver's side front door. Passenger's side front door.
Additional Comments:	Doors never lock automatically. Also locks temporarily while opening it.

Features/Controls/Displays>Features and Controls>Cruise control system>	
Cruise control system	Cruise control system works properly, but difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system works properly, but difficult to understand/use; controls in a poor location>	
Additional Comments:	there is no need for 2 separate cruise control options. The speed at which it works should be even lower than 20 mph

Blind spot monitoring/warning system works properly, but is difficult to understand/use; controls/displays are in a poor location	
Please indicate why the blind spot monitoring/warning system is difficult to understand/use or is in a poor location (check all that apply):	sunlight from behind RED would be better ? Other (please describe).
Additional Comments:	The system should optionally indicate the presence of vehicles also on the dashboard.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake control is poorly located.

Hand brake/parking brake control is poorly located	
Why is the parking brake poorly located? (check all that apply):	The brake cannot function as an emergency brake. Other manufacturers have implemented a switch (Subaru Legacy 2010+) on the center console. Or even better - a traditional lever for wire-actuated parking brakes.

Interior Climate Control>Controls and Switches>	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located.

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	Mode control (vent, heat, defrost, etc.). Air conditioning on/off switch. Outside air/inside air re-circulation switch.

Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which of the following best describes your concern (check all that apply):	Poor location.
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	Mode control (vent, heat, defrost, etc.). Air conditioning on/off switch.
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>	
Feedback/Concerns:	The forward collision warning should be able to stop the car or bring it down to 5 MPH / to a stop. Its activation distance should be greater. The car can be driven without physically having the key in - I drove it around the block while my wife had the keys, buying ice-cream. Doors do not auto lock. GPS accuracy has intermittent problems. UCONNECT sometimes has a stroke and the system freezes. Anything other than MP3s on the SD card (like album art) freezes the system. The AERO setting should be even lower (like PARK)
What has Chrysler done right?	Fuel economy. Styling. Transmission. Technology. Suspension. Engine. Don't get me wrong - it is a much better car than the 2011-2013 and I love the truck. It is refined, elegant and awesome. But it is buggy and that takes away from the experience.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	please see previous comments

Contact Me>

What is your attitude overall towards your new car?	4.

Detail on High Rated Items

You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	Good for family with kids
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	For a big, heavy car it is pretty good.
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	I bought the Jeep for off-road capabilities.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	For a big, heavy car it is pretty good.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	The engine and transmission combination exceeded my expectations. However, I think that overall, the car should lose weight for even better fuel economy.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The vehicle is exceedigly heavy. The forward collision warning cannot bring the vehicle to a complete stop in case of emergency. Front ParkSense sensors are only available in the highest trim (Summit) and not as an option on lower trims. UCONNECT system is buggy

About You>

Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	41,500
Is this your first new vehicle ever purchased / leased?	No.
Primary vehicle you were considering:	Honda.
	Pilot.
	2013.

Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>

Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Entertainment/Navigation System/Connectivity>

Please choose your cell phone carrier	Sprint Nextel.
Please choose your cell phone brand	Apple.
Please tell us your cell phone model	IPhone 5

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system freezes-up/will not work>

How often does this trouble occur?	Trouble occurs intermittently.

Points of Interest incorrect

Please describe the trouble with the Points of Interest within the Navigation system	Many incorrect

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command

How often does this trouble occur?	Trouble occurs regularly.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please describe when this trouble occurs:	When entering a number.
Do you usually set HVAC vent direction toward ceiling?	No.

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	When entering information.
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.

Remote Features	
Remote Features	Remote phone/email notifications are broken/not working. Remote vehicle start is broken/not working.

Remote vehicle start is broken/not working	
Do you recall your cellular coverage at the time?	Full cellular coverage.
Please indicate which method was used for remote vehicle start (check all that apply):	Remote vehicle start on phone. Remote vehicle start on web.
How long was your vehicle parked before activating the remote vehicle start?	Less than 1 week.
Additional Comments:	Heat/AC unit turns itself off when using remote start. What good is remote start if the HVAC system turns off?

Remote phone/email notifications are broken/not working	
Please describe the trouble you experienced (check all that apply):	Not working with IPhone
Do you recall your cellular coverage at the time?	Full cellular coverage.

Search engine	
Bing	Search engine works but is difficult to understand/use.

Search engine works but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Data entry very slow and takes way too long Difficult to understand.

Uconnect Store	
Uconnect Store	Unable to use applications purchased.

Unable to use applications purchased	
Please list the applications you are unable to use:	applications lika Pandora, etc noe available but marketed. Very sad my 1 yr membership clock started and not all apps still available. Not quite fair as people purchasing in the future when the apps are available will actually have a full 1 year to use them.... I will not.

Uconnect Access Application	
Uconnect Access Application	Uconnect Access application does not work on my phone.

Uconnect Access application does not work on my phone	
Please describe the trouble you experienced (check all that apply):	Remote start feature turns off HVAC system. What good is a remote start with no heat or AC.

Owner Connect Website	
Owner Connect Website	Owner connect website dashboard is difficult to understand/use.

Owner connect website dashboard is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	SLOW.....VERY SLOW

Touchscreen Controls/Menu: Front Screen Display does not meet expectations	
Please indicate why the front screen did not meet your expectations (check all that apply):	Features magically check and uncheck themselves. Very troubled by the collision system we paid for. Many times when we check the settings it unchecked itself which would indicate it is not active however, the hard key is not illuminated which would indicate it is active... Which one am I to believe? Then later we turn off the vehicle and when restarted magically the onscreen check box is once again checked but it is set to near and not far. It cycles throughout this regularly. Feature to automatically lower vehicle after put into park is not there although it is discussed in several places in the manual. Called Jeep several times and brought to dealer with no explanation or resolve

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	Options magically check themselves on and off
How often does this trouble occur?	Trouble occurs regularly.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Adjustable Height Control. Voice Activiation System.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control is broken/not working.

Adjustable height control is broken/not working	
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	promised an available selection in UConnect where it would automatically go to entry/exit mode when put into park. Discussed in several manuals. However, option not listed in UConnect... Need the press the buton every time to lower... Normally forget. Would like yo have this auto feature as promised in manual.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Auto lower feature not available as promised
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Features and Controls>Voice Activiation System>	
Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Features and Controls>Voice Activiation System>Voice Activation System works properly, but difficult to understand/use; controls in a poor location>	
Please indicate which of the following best describes your concern (check all that apply):	Does not understand request
Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	Navigation. Audio. Phone.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Uconnect checks and unchecks this feature buy itself. It also changes the selection fron near to far by itself. Turn off and restart the vehicle and it may recheck. I never tough this screen to change te selection. It magically does this on its own. Hard key does not illuminate so I believe it is still activated even when Uconnect uncheckes this feature. Scary though not knowing if safety system is actually on or off since te hard button and Uconnect check box do not match.

Brake System>Brake Operation>	
Brake Operation	Brake pedal feels mushy/soft.

Brake System>Brake Operation>Brake pedal feels mushy/soft>	
Trouble with brakes occurs during this type of braking (check all that apply):	Brakes appear to be working fine but at low speed braking it feels like they are going hard to soft in a cycle
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Low speeds (1-25 MPH).
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	All road conditions.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Front heating, ventilation and air conditioning vents are broken/not working.

Front heating, ventilation and air conditioning vents are broken/not working	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.

Front heating, ventilation and air conditioning vents are broken/not working	
Please indicate which control is broken/not working properly (check all that apply):	Automatic climate controls (if equipped).
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	When using remote start the HVAC system turns off. Not sure what good a remote start does if te system turns off your HVAC
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Engine>Engine Noise (abnormal)>	
Engine Noise (abnormal)	Engine makes abnormal/excessive noises.

Engine>Engine Noise (abnormal)>Engine makes abnormal/excessive noises>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Engine noise sounds like (check all that apply):	the happened one time
Engine noise occurs while vehicle is (check all that apply):	Decelerating.
Engine noise occurs (check all that apply):	Within first 5 minutes after starting vehicle.
Engine noise occurs after vehicle is started at:	Cold condition - first start of the day or after vehicle is off for 6+ hours.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Not fixed but not te dealers fault... The remaining issues are primarily with Uconnect
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).

What Can We Do Better?>	
Feedback/Concerns:	Uconnect issues continue to challenge a great experience. In addition to the items listed, the headlights fog up. Of course when they are turned on the heat removes the fog however, it does not look good with all that condensation in there. I am also afraid tat condensation will freeze in the winter... I will just wait to see.
What has Chrysler done right?	Excluding Uconnect which has a lot of issues, we love the vehicle. The 2014 is the nicest vehicle we have owned. We also have a Wrangler. We also love the unlimited warranty we purchased for the vehicle.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Uconnect [redacted]

Welcome>	
Please tell us how many miles are currently on your vehicle:	3,000-4,999.
Are you the primary driver of this vehicle?	Yes.

Continuous Quality Insight	
Continuous Quality Insight	Entertainment/Navigation System/Connectivity. Transmission and Drivetrain. Features/Controls/Displays. Vehicle Exterior.

Roof Rails	
Roof Rails	Roof rails work, but are difficult to understand/use.

Roof rails work, but are difficult to understand/use	
Please describe conditions when this trouble occurs:	Roof rails have no cross bars so they are useless. Why ship a vehicle that costs $50k with no roof rails?!?

Uconnect Access	
Uconnect Access	Search Engine. Remote Features.

Media	
Media	Radio.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions. Difficulty accessing Points of Interest. Points of Interest not well defined.

Entertainment/Navigation System/Connectivity>	
Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Samsung.
Please tell us your cell phone model	Note 2

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	POI icons blink in and out while driving which sometimes requires changing the resolution to get them to reappear.
Please indicate which navigation system item has trouble (check all that apply):	Not intuitive as to how to get POIs that are found with a search to be displayed on the map. For example, when u need to find gas stations, you get a list that shows distance, name/brand but you cannot switch to a map view where all of the icons for the sewrch items appear. You can only choose one item from the list and then the system will direct you to it.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	See previous question for details -

Radio

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception.

AM/FM/HD/Satellite radio channels have poor or no reception	
Please indicate which frequency band has trouble (check all that apply):	Sirius radio is always dropping out. Reception is very poor when compared to other new vehicles owned by other family members (Ford & GM). Driving through the same road at the same time, the radio will cut out when the Ford & GM vehicles have no problem.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Whenever there are obstructions around the vehicle
Additional Comments:	I recognize that this is a weakness of satellite reception that whenever there are obstructions around the vehicle the signal can be lost - BUT - the Jeep's reception seems to be exceptionally bad.

Remote Features	
Remote Features	Remote lock/unlock broken/not working.

Remote lock/unlock broken/not working	
Please indicate which method was used for remote lock/unlock (check all that apply):	Needed a remote vehicle unlock so called the service center to send a remote unlock signal to the vehicle. It did not work and we had to have someone physically come out to the vehicle to open the doors.
How long was your vehicle parked before activating the remote lock/unlock?	Less than 1 week.
Do you recall your cellular coverage at the time?	Full cellular coverage.
Additional Comments:	There was full cell coverage but the vehicle was parked under a tree. When the vehicle was finally unlocked, I specifically checked the Sirius radio reception immediately apon entering since I suspected thatthe poor satelitte reception could be part of the issue. The Sirius radio signal was totally blocked. This was another example where the Jeep could not get the signal, but the Ford & GM vehicles could.

Search engine	
Bing	Search engine works but is difficult to understand/use.

Search engine works but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	I do not like Bing as a search engine. I prefer Google. What about the idea that you give the customer the option to choose what search engine they want to use?!? I received an email indicating that the system is switching to Yelp as the search engine. My vehicle has not switched to this yet so I can't comment on it.
Please describe the trouble you experienced:	Items found in a search cannot be displayed in the map as icons (or atleast I have not figured out how to accomplish that yet.....)

Features/Controls/Displays>Features and Controls>	
Features and Controls	Door locks/keyless entry system. Adjustable Height Control. Cruise control system.

Features/Controls/Displays>Features and Controls>Door locks/keyless entry system>	
Door locks/keyless entry system	Remote keyless entry system works properly, but is difficult to understand/use.

Features/Controls/Displays>Features and Controls>Door locks/keyless entry system>Remote keyless entry system works properly, but is difficult to understand/use>	
Please indicate why the remote keyless entry system controls are difficult to understand/use; layout is poor (check all that apply):	Remote fob is quite large. More importantly, I have had buttons pressed while the unit is in my pocket - not a good thing when the system is setup so you keep the fob in your pocket when operating the vehicle! The vehicle seems to lock itself unexpectedly. This has resulted in our getting locked out several times. Once that took 3-4 hours to get the vehicle opened because we were in a remote location and a physical person had to come out to open the door.
Additional Comments:	Forgot to mention this in the interior trim section - BUT - there door lock/unlock buttons are too easy to inadvertently press when opening and closing the door while grasping the arm rest. The lock button should be on the inside of the armrest. I've locked the vehicle unintentionally with my elbow when just sitting in the driver seat.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control works, but is difficult to understand/use.

Adjustable height control works, but is difficult to understand/use	
Please describe the trouble experienced with the adjustable height controls:	Have had difficulty getting the park mode to engage (often need to lower the vehicle to enable elderly folk easier access in and out).
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	See comments above

Features/Controls/Displays>Features and Controls>Cruise control system>	
Cruise control system	Cruise control system works properly, but difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system works properly, but difficult to understand/use; controls in a poor location>	
Additional Comments:	Wanted to give a very big thu,bs up to the team that designed the Adaptive Cruise Control feature. They did an outstanding job. Our system works very well in almost all types on traffic. The only situation that isn't good is heavy traffic. The problem in this situation is the vehicle follows too far behind the vehicle in front even on the lowest setting. The problem this cuases is that people are constantly cutting into your lane because of the wide open space which causes the vehicle to back of due to the proximity of the new vehicle. This behavior can result in you literally moving backward in the traffic stream as cars continue to cut in front of your vehicle into the wider than customary opening.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Hesitation or delay when shifting between gears. Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
Going into which gear/gears does the trouble occur? (check all that apply)	Sometimes seems there is too long of a hesitation before downshifting once the accelerator is depressed
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration. Hard acceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	We are always searching for the desired gear which can be very annoying.
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Don't feel the gear selector is intuitive at all. What's wrong with the tried and true PRNDL setup where you move the selector to the appropriate location to choses the gear desired?!?

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	In general we love the new Jeep. The items we've listed are not deal breakers but are definitely areas that need improvement. Especially for such a high end vehicle.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>
Feedback/Concerns:

What Can We Do Better?>	
	It would be great if the antennae could be changed to a unit that works significantly better. As it stands now, we will not be renewing the Sirius subscription because of how often the radio cuts out while driving.
What has Chrysler done right?	There are many things that have been done right. The vehicle is extremely comfortable to drive and ride in. Many of the features are spot on. We've driven SUV's for a very long time. This vehicle has the best mileage of any previously owned SUV vehicle. It appears to accomplish this with no noticeable compromise in accelleration or power. One thing we haven't done yet is tow a trailer so we don't know how it will handle pulling a load but if it is able to do so in the same manner in which it currently drives..... We will be very satisfied.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Review the problem items mentioned in this survey. Daytime number is [redacted]

Lights	Adaptive front lighting system broken/not working. Fog/water/condensation in exterior light lenses.

Vehicle Exterior>Front Doors>Front doors are difficult to open/close>

Please indicate which of the following best describes your concern (check all that apply):	Difficult to close.
Please indicate which door is difficult to open/close (check all that apply):	Passenger's side front door.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Whenever the door is closed
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Adaptive front lighting system broken/not working

Please indicate which headlight is not working properly (check all that apply):	Driver's side headlight. Passenger's side headlight.
Please indicate the trouble experienced with the Adaptive Front Lighting System (check all that apply):	Does not track properly while going uphill. Does not track properly while going downhill. Does not track properly while turning left. Does not track properly while turning right.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Vehicle Exterior>Lights>Fog/water/condensation in exterior light lenses>

Please indicate which exterior light lenses have fog/water/condensation in them (check all that apply):	Driver's side headlight. Passenger's side headlight.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Vehicle Exterior>Exterior Appearance/Paint:>Exterior moldings/trim pieces loose/misaligned/falling off>	
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Bumper cover not installed correctly Bumper cover not installed correctly
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Vehicle Exterior>Exterior Appearance/Paint:>Body panels/doors misaligned/excessive gaps/poor fit>	
Please indicate the location of the trouble (check all that apply):	Bumper cover not installed correctly Bumper cover not installed correctly
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Vehicle Exterior>Exterior Appearance/Paint:>Paint blemish/dirt in paint/foreign material under surface>	
Please indicate the location of the paint issue (check all that apply):	Black specs under paint
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Continuous Quality Insight

Continuous Quality Insight	Interior Climate Control. Features/Controls/Displays. Vehicle Exterior. Seats. Interior Trim/Storage/Windows. Transmission and Drivetrain. Entertainment/Navigation System/Connectivity. Steering, Handling, and Ride. Off-Road. Other.

Roof Rails

Roof Rails	Roof rails work, but are difficult to understand/use.

Roof rails work, but are difficult to understand/use

Please describe conditions when this trouble occurs:	Disappointed there are no integrated cross rails like my '97 Jeep Grand Cherokee had. Aftermarket crossrails never look right.

Uconnect Access

Uconnect Access	Uconnect Store. Uconnect Access Application. Remote Features.

Media

Media	SD.

Entertainment/Navigation System/Connectivity>Speakers>

Speakers	Speakers have poor sound quality.

Entertainment/Navigation System/Connectivity>Navigation System>

Navigation System	Difficulty accessing Points of Interest. Points of Interest not well defined.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>

Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command. Voice Recognition feature does not have enough functions available.

Entertainment/Navigation System/Connectivity>

Please choose your cell phone carrier	AT&T Mobile.
Please choose your cell phone brand	Apple.
Please tell us your cell phone model	iPhone 5
If known, please tell us your software version	6.x
Entertainment/Navigation System/Connectivity	

Entertainment/Navigation System/Connectivity>	
	16 gig SD card. If I don't lock the SD card the uConnect corrupts the data on it - other owners have reported this too.

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	I speak very clearly and don't have any weird accent, but half the time the thing doesn't know what I'm saying. Part of that is because it has such a limited vocabulary that if I don't remember the exact way to speak a command it does something random.
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>Voice Recognition feature does not have enough functions available>	
Please describe additional functions you would like to have:	Voice control over just about everything from seat ventilation to more navigation options.

SD	
Please describe the trouble you experienced (check all that apply):	SD will get corrupted if it isn't locked. uConnect appears to corrupt the files on the card if the card is left unlocked. Other owners have reported this problem online.
Where is the location of the media port?	Radio/center stack.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	When SD card's lock switch is left unlocked

Speakers have poor sound quality	
Please indicate which speaker has trouble (check all that apply):	Very low fidelity sounding system. Worst I've heard in a luxury car... ever. Fiddling with the Bass, Mid, Trebel doesn't really help much.
Please indicate which media sources were being played (check all that apply):	USB Drive. Bluetooth Streaming. FM. SD. Satellite Radio.
Trouble with speaker occurs:	At all volume levels.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Hard to use - too many button presses to get to them.
Additional Comments:	Would be nice of the voice command system recognized POI commands correctly.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	Seems there should be more categories

Remote Features	
Remote Features	Remote vehicle start is broken/not working.

Remote vehicle start is broken/not working	
Do you recall your cellular coverage at the time?	Full cellular coverage.
Please indicate which method was used for remote vehicle start (check all that apply):	Remote vehicle start on phone.
How long was your vehicle parked before activating the remote vehicle start?	Less than 1 week.
Additional Comments:	It works, but the Remote Start turns the A/C *off* instead of *on*. The only reason to have Remote Start is to get the car cooled down before you get into it, but this feature actually turns the AC off even if it was already on when I left the car.

Uconnect Store	
Uconnect Store	Uconnect store works but is difficult to understand/use.

Uconnect store works but is difficult to understand/use

Uconnect store works but is difficult to understand/use	
Please describe the trouble you experienced (check all that apply):	Slowwwww....
Additional Comments:	The uConnect store doesn't seem to have anything that actually matters. I mean why have Bing? Everyone has an iPhone and can get much faster and efficient searches with that instead.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Wipers and washers. Turn signals. Side window operation/controls. Adjustable Height Control. Cruise control system. Voice Activiation System.

Features/Controls/Displays>Features and Controls>Wipers and washers>	
Wipers and washers	Rain sensing wiper controls work properly, but difficult to understand/use; in a poor location.

Rain sensing wiper controls work properly, but difficult to understand/use; in a poor location	
Please indicate why the controls are difficult to understand/use (check all that apply):	There isn't really any indication that there is an auto-mode at all. Most people wouldn't even know it's there unless they read about it in the manual. Still unclear about how the wiper speed delay setting is also the auto-sensitivity setting. Too far away from steering wheel, and the stalk isn't long enough. I have to reach around to get to the turn indicator.

Features/Controls/Displays>Features and Controls>Turn signals>	
Turn signals	Turn signal controls work properly, but are difficult to understand/use; are in a poor location.

Features/Controls/Displays>Features and Controls>Turn signals>Turn signal controls work properly, but are difficult to understand/use; are in a poor location>	
Please indicate which of the following best describes your concern (check all that apply):	Too far back from steering wheel, and the stalk isn't long enough. Have to reach around to get it sometimes.
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Too far back from steering wheel, and the stalk isn't long enough. Have to reach around to get it sometimes.

Features/Controls/Displays>Features and Controls>Side window operation/controls>	
Side window operation/controls	Side window works properly, but is difficult to understand/use; controls are in a poor location.

Features/Controls/Displays>Features and Controls>Side window operation/controls>Side window works properly, but is difficult to understand/use; controls are in a poor location>	
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Only the front windows have the auto-open/close switch. I wish all 4 windows had this.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control works, but is difficult to understand/use.

Adjustable height control works, but is difficult to understand/use	
Please describe the trouble experienced with the adjustable height controls:	Requires too many steps.
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	I have to remember to press the Park Mode button every time, and it doesn't continue once a door is open or the car is turned off. It should go into Park mode automatically every time the car is put into park. There should at least be an option for that.

Features/Controls/Displays>Features and Controls>Cruise control system>	
Cruise control system	Cruise control system works properly, but difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system works properly, but difficult to understand/use; controls in a poor location>	
Please indicate why the cruise control system controls are difficult to understand/use; are in a poor location (check all that apply):	I love the adaptive cruise control! However, I hate that every time I go down a hill it won't let me just coast. It's either hitting the brakes or dropping me into a lower gear to keep me at the set speed. Very annoying! The only time Cruise Control should slow me down is when I'm in adaptive

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system works properly, but difficult to understand/use; controls in a poor location>	
	mode and there's a car in front of me, but never when I'm simply accelerating down a hill.

Features/Controls/Displays>Features and Controls>Voice Activiation System>	
Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Features and Controls>Voice Activiation System>Voice Activation System works properly, but difficult to understand/use; controls in a poor location>	
Please indicate which of the following best describes your concern (check all that apply):	Doesn't understand me half the time, and its vocabulary is too limited.
Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	Totally useless for navigation. It never understands anything I'm saying other than "Go Home".

Seats>Adjustments and Controls>	
Adjustments and Controls	Ventilated seat is broken/not working. Ventilated seat controls are difficult to understand/use.

Seats>Seat Material>	
Seat Material	Seat material concerns.

Ventilated seat is broken/not working	
Ventilated seat is broken/not working	Ventilated seat will not cool enough/at all/fast enough. Ventilated seat temperature cannot be maintained.

Ventilated seat will not cool enough/at all/fast enough	
Please indicate which seat has trouble (check all that apply):	I can't hardly ever tell when it's on because it has so little effect.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	The uConnect always changes the ventilated seat setting from Hi to Low or off every time I start the car. It won't remember my setting. Even if it did, the seats hardly blow any air, and most of the time it's not even cool air. I really wish there was a physical button to turn this on rather than having to go thru uConnect every time.

Ventilated seat temperature cannot be maintained	
Please indicate which seat has trouble (check all that apply):	On very rare occasions it actually seems to blow cool air, but only about 1 in 20 times I use it.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Ventilated seat controls are difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	It's a hassle having to go thru uConnect to turn it on every time.
Please indicate why the controls are difficult to understand/use (check all that apply):	It's a hassle having to go thru uConnect to turn it on every time. It's a hassle having to go thru uConnect to turn it on every time. It's a hassle having to go thru uConnect to turn it on every time.

Seats>Seat Material>Seat material concerns>	
Please indicate which seat has trouble with its material (check all that apply):	Seats are hard as a rock. My [redacted] hurts after a long drive. My old '97 JGC had really comfortable seats. Seats are hard as a rock. My [redacted] hurts after a long drive. My old '97 JGC had really comfortable seats. Seats are hard as a rock. My [redacted] hurts after a long drive. My old '97 JGC had really comfortable seats. Seats are hard as a rock. My [redacted] hurts after a long drive. My old '97 JGC had really comfortable seats. Seats are hard as a rock. My [redacted] hurts after a long drive. My old '97 JGC had really comfortable seats.
Seat material trouble is:	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.

Seats>Seat Material>Seat material concerns>	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering, Handling, and Ride>Steering and Handling>	
Steering and Handling	Steering system/wheel has too much play, feels loose.

Steering, Handling, and Ride>Steering and Handling>Steering system/wheel has too much play, feels loose>	
Trouble occurs while traveling at these speeds (check all that apply):	Seems that I have to turn the wheel way more than I should when turning left or right at a street intersection. The steering ratio/sensitivity should be much better. Seems I have to turn the wheel around twice to make a simple turn. In most cars I only have to turn the wheel about 1/3rd of the way around to do that.
Trouble occurs while traveling in these road conditions (check all that apply):	All road conditions.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Shifts at wrong times.

Transmission and Drivetrain>Automatic Transmission>Shifts at wrong times>	
Going into which gear/gears does the trouble occur? (check all that apply)	Sometimes at low speeds the car downshifts into too low of a gear which make the car drag when I let off the gas. I often have to use the paddle shifters to shift back up so the car keeps moving/coasting.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Maintaining a fairly constant speed on level roads.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Off-Road Features and Functions	
Off-Road Features and Functions	Issues with vehicle ground clearance. Issues with wheels and tires in off-road conditions. Issues with noise or vibration during difficult driving conditions.

Vehicle Performance driving on Rocks / Boulders / Inclines / Very Rough Terrain	
Vehicle Performance driving on Rocks / Boulders / Inclines / Very Rough Terrain	Vehicle exhibits poor ride when driving on rocks/inclines/boulders/very rough terrain. Vehicle exhibits poor traction on rocks/inclines/boulders/very rough terrain.

Vehicle exhibits poor ride when driving on rocks/inclines/boulders/very rough terrain	
Please indicate how poorly the vehicle performed:	Considerably bumpier and "bangy" the offroad ride is compared with my previous SUV which was a Lexus GX470
Trouble occurs at these speeds (check all that apply):	Driving on bumpy terrain causes loud banging sounds, and the car bounces all over the place. The suspension doesn't seem to absorb much.
Trouble occurs under these surface conditions (check all that apply):	Bumpy or uneven surface.
How often does this trouble occur?	Trouble occurs regularly.

Vehicle exhibits poor traction on rocks/inclines/boulders/very rough terrain	
Please indicate how severe the issue is:	My Lexus GX 470 almost never slipped at all going offroad at my ranch, but the Jeep seems to slip a lot, and it's got the onroad-offroad tires. My Lexus just had street tires on it, yet it could go right up the steep gravel inclines without any problem at all.
Please indicate the nature of the traction issue you experienced	My Lexus GX 470 almost never slipped at all going offroad at my ranch, but the Jeep seems to slip a lot, and it's got the onroad-offroad tires. My Lexus just had street tires on it, yet it could go right up the steep gravel inclines without any problem at all. My Lexus GX 470 almost never slipped at all going offroad at my ranch, but the Jeep seems to slip a lot, and it's got the onroad-offroad tires. My Lexus just had street tires on it, yet it could go right up the steep gravel inclines without any problem at all.

Vehicle exhibits poor traction on rocks/inclines/boulders/very rough terrain	
Trouble occurs at these speeds (check all that apply):	When driving at very low speeds (0-10 MPH).
Trouble occurs under these surface conditions (check all that apply):	Uphill.
How often does this trouble occur?	Trouble occurs regularly.

Issues with vehicle ground clearance	
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Front fascia of car looks great, but it's too low and can easily hit things when, the terrain abruptly goes uphill. This isn't a front fascia that will do well upon impact - significant damage will occur.
	Dirt/gravel roads.
Please indicate the nature of the issue you are experiencing. (check all that apply):	Front fascia of car looks great, but it's too low and can easily hit things when, the terrain abruptly goes uphill. This isn't a front fascia that will do well upon impact - significant damage will occur.
Trouble occurs under these surface conditions (check all that apply):	Uphill.
	Bumpy or uneven surface.
How often does this trouble occur?	Trouble occurs regularly.

Issues with noise or vibration during difficult driving conditions	
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Whenever there is a hard bump the car makes a horrible "Bang!" sound.
	Whenever there is a hard bump the car makes a horrible "Bang!" sound.
Please indicate what is causing the issue (select all that apply)	Whenever there is a hard bump the car makes a horrible "Bang!" sound.
Trouble occurs at these speeds. (check all that apply):	When driving at very low speeds (0-10 MPH).
Trouble occurs under these surface conditions (check all that apply):	Bumpy or uneven surface.
How often does this trouble occur?	Trouble occurs regularly.

Other>	
Please describe the other trouble you experienced:	No front parking sensors. How can a car with all this technology including collision warning sensors not have front parking sensors? They put them on the back which is unnecessary because I can see with the backup camera, but they didn't put them on the front where they're really needed.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Parking or offroading while trying to avoid obstacles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	First good American car I've ever owned. My old '97 Jeep was crap, but this one is excellent despite some flaws.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Smartphone Application covers the necessary features	2 (disagree).
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).
Please provide feedback on how Chrysler can improve the Smartphone Application	It would be nice if it actually gave me information about my car. I'd like to be able to find it in a parking lot, so the car could use its GPS to tell the app where it is and then have the app display that on a map it would be much more useful. Also, being able to remotely setup the settings might be nice.
What information did you need that was not included in the Smartphone Application?	Location of vehicle.
Which feature or section of the Smartphone Application did you find most helpful and why?	Remote unlock. Useful if key gets locked in car or key is lost.
Which feature or section of the Smartphone Application did you find least helpful and why?	Remote engine start. It turns *off* the A/C instead of turning it on, thus, it's entirely useless because why else would anyone want to remotely turn on the engine?

What Can We Do Better?>	
What has Chrysler done right?	Finally built a great car! The interior is how first class, and the car doesn't feel like an American-made PoS.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	[redacted]

Location and usefulness of interior lighting	5.
Safety and visibility while driving	5.
Climate control operation (function and ease of use)	4.
Engine performance during acceleration	4.
Engine sound	2.
Engine exhaust sound	3.
Transmission gear change performance (smoothness)	4.
Fuel economy and driving range	4.
Brake responsiveness/effort	4.
Difficult driving conditions (adverse weather, off-road)	3.
Ride quality	4.
Steering and handling (responsiveness, stability)	3.
How was your purchasing experience (the dealer/dealership)?	4.
How do you feel about the durability of your new vehicle?	4.
How do you feel about the VALUE of your new car? (i.e.	5.
What is your attitude overall towards your new car?	5.
What is your attitude overall towards the BRAND of your new car?	3.
What are your favorite parts of your new vehicle?	Adaptive Cruise Control, and all of the audio options in uConnect
Is there anything about your new vehicle you would like to see changed?	Needs front parking sensors badly! Ability to set suspension stiffness (ie. comfort vs. sport suspension)

Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	I love the uConnect! I love having access to the usual stuff plus HD radio, SXM radio, SD card, etc. uConnect interface is one of the best I've used.
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	Nice big and responsive buttons on screen, plus lots of traditional analog switches and knobs. Don't ever get rid of the switches and knobs!

Detail on High Rated Items	
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Best looking Jeep ever!
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	A little worried about how low the fascia is during offroading, but it looks great! Love the chromed tow hooks.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	Lots and lots of great storage! Love how the bins are illuminated at night.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	I'm a smaller person at 5' 7" and it's perfect for me.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	Best nighttime interior lighting I've ever seen.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	Love the adaptive cruise control, the blind spot monitoring, and collision warning.
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	That's a lot of tech for the price. Same tech in Lexus or Land Rover would be tens of thousands more.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	Especially happy that it still runs on regular gas so I don't have to pay 25 cents more per gallon. Plus, I'm getting 22.5mpg on the highway most times. Often I get 24mpg if it's flat.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I was very surprised that it doesn't do as well offroading at my ranch compared with my Lexus GX 470. Also, I was shocked that it didn't have front parking sensors. Disappointed that seats are so rock-hard, and don't hold me in place during turns.

About You>	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	48,000 or thereabouts
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	new Lexus. GX 460. 2010.
Primary vehicle you were considering:	New Lexus. GX 460. 2013.
Which online data sources, if any, influenced your buying decision? (check all that apply)	Consumer Reports. Kelley Blue Book. Edmunds. Blogs (e.g., Truth About Cars).
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	Lots of bad design changes from my older GX 470
Primary vehicle in your household:	New Aston Martin. Vantage. 2009.
Secondary vehicle in your household:	New Fisker. Karma. 2012.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your gender	[redacted]
What year were you born?	[redacted]
Please indicate your highest education level	4 year college degree.
What is your current marital status?	[redacted].
How may children 17 or under live in your household?	0.
Please indicate your ethnicity	[redacted]n.
What is your total household income (before taxes)?	More than $200,000.

Appearance	Door panels have gaps/poor fit.

Interior Trim/Storage/Windows>Appearance>Door panels have gaps/poor fit>	
Please indicate which interior door panels had gaps/poor fit (check all that apply):	too wide
	too much of a gap
	Driver's side rear door.
	Passenger's side rear door.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Trim/Storage/Windows>Abnormal Noises>Squeak/rattle/abnormal noises from instrument panel/dashboard>	
Please describe in the box below where from the instrument panel/dashboard the trouble with abnormal noises is located:	Cannot determine but seems to be around steering wheel
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake control is poorly located.

Hand brake/parking brake control is poorly located	
Why is the parking brake poorly located? (check all that apply):	tend to hit it entering or exiting car as it sticks out and in your way.

Engine>Engine power>	
Engine power	Engine power is less than expected.

Engine>Engine Fuel consumption>	
Engine Fuel consumption	Fuel consumption is worse than expected.

Engine>Engine power>Engine power is less than expected>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Trouble occurs while vehicle is (check all that apply):	Accelerating.
How often does this trouble occur?	Trouble occurs regularly.
Does trouble only occur when vehicle is carrying multiple passengers and/or heavy cargo?	No.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Engine>Engine Fuel consumption>Fuel consumption is worse than expected>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
Where do you do most of your driving?	Highway/freeway driving (speeds held fairly constant above 45 mph).
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
Would you recommend this vehicle to family or friends?	No.
Please explain further about your choice to recommend your vehicle:	The Forward Collision system does not work and I cannot find a dealer that understands the system. The Active braking does not work and I have been to 3 dealers. They say the specs are not available because the system is so new!
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).

What Can We Do Better?>	
Feedback/Concerns:	I would like someone to explain how the FCW system is supposed to work.
What has Chrysler done right?	Nothing so far.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	51[redacted]

What is your attitude overall towards the BRAND of your new car?	2.
What are your favorite parts of your new vehicle?	Nice appearance inside and outside
Is there anything about your new vehicle you would like to see changed?	The FCW system is awful

Detail on High Rated Items	
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	I have a bad back and this is one of the reasons I switched to a SUV
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	So far none.

Detail on Low Rated Items	
You rated fuel economy and driving range Low. Use this space to provide any specific comments you would like to share.	

Detail on Low Rated Items	
	I drive a lot on the highway and so far my overall average is below 19mpg. I would think it should above 20 at least and i have the economy mode on all the time.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The FCW does not work at all and no dealer understands how to even check this without crashing the vehicle. This is disappointing that I cannot get anyone knowledgeable to speak to about this.

About You>	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	$49,500
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	new Lexus. LS 460. 2008.
Primary vehicle you were considering:	new BMW. X5. 2013.
Which online data sources, if any, influenced your buying decision? (check all that apply)	Consumer Reports. Kelley Blue Book. Edmunds. Blogs (e.g., Truth About Cars). JD Power Reports.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	The features were similiar but the price made the only difference.
Secondary vehicle you were considering:	new Audi. Q7. 2013.
Primary vehicle in your household:	new Lexus. LS 460. 2008.
Secondary vehicle in your household:	used Acura. TL. 2004.
Which of the following best describes the area you live in?	Urban.
What is your primary language?	English.

Continuous Quality Insight

Continuous Quality Insight	Interior Climate Control. Features/Controls/Displays. Steering, Handling, and Ride.

Features/Controls/Displays>Features and Controls>

Features and Controls	Adjustable Height Control. Cruise control system.

Features/Controls/Displays>Displays and Instruments>

Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Adjustable Height Control

Adjustable Height Control	Adjustable height control is broken/not working. Adjustable height control works, but is difficult to understand/use.

Adjustable height control is broken/not working

Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	Get message "Air ride cooling, please wait" with some regualrity Really hard to use. How about going back to an option to allow lowering when transmission placed in park. Get message "Air ride cooling, please wait" with some regualrity
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	At random
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Noises behind the passenger rear seat when driving, making turns, accelerating up hill, and at random

Adjustable height control works, but is difficult to understand/use

Please describe the trouble experienced with the adjustable height controls:	Several flashing lights but not clear what they mean Since I must press "lower" to go into "entry/exit", it is hard for the driver to reach. Since I must press "lower" to go into "entry/exit", it is hard for the driver to see. Your vendor should have evaluated existing GUI interfaces (Android, iPad, Windows 8) and built the display more inline with what people are accustomed to. Look at the Ford and GM displays to see what I mean. The inconsistent usability is annoying. Some one look at an Android phone for good consistency. I worked in human factors and usibility for 5 years and this GUI would have been a failure.
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	Normal ride height. Park Mode. Aero Mode.
Additional Comments:	Nice idea, bad implementation. I owned a 2008 Land Rover LR3 and its air suspension was a delight. Never had to touch a thing.

Adjustable height control works, but is difficult to understand/use

Features/Controls/Displays>Features and Controls>Cruise control system>	
Cruise control system	Cruise control system works properly, but difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system works properly, but difficult to understand/use; controls in a poor location>	
Please indicate why the cruise control system controls are difficult to understand/use; are in a poor location (check all that apply):	I really don't understand the adaptive cruise control. Sometimes it seems to work, other times it seems to do nothing.
Additional Comments:	The paddles should disconnect the cruise control. Now if I am in cruise and reach a hill and wish to slow down by pressing the "-" paddle, the engine revs up and the speed is maintained at the cruise speed. This should act just like application of the brake. This is a safety issue! My 2012 Jeep Grand Cherokee Limited sport shift DID disengage the cruise on down shift.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	If this is related to the cruise control, then see those comments.

Steering, Handling, and Ride>Noise and Vibration>	
Noise and Vibration	Abnormal noises coming from under vehicle.

Steering, Handling, and Ride>Noise and Vibration>Abnormal noises coming from under vehicle>	
How loud is the noise?	Moderate.
Noise sounds like (Check all that apply):	Moaning.
	Humming.
From what area of the vehicle is the noise coming?	Passenger's side - rear.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	See the comments on the Air Suspension
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	See the comments on the Air Suspension

Interior Climate Control>Operation and Performance>	
Operation and Performance	Front heating, ventilation and air conditioning vents are broken/not working.

Front heating, ventilation and air conditioning vents are broken/not working	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which control is broken/not working properly (check all that apply):	Remote start doesn't activate the climate system. The only thing remote start does is start the engine. At engine stop the climate control is in automatic and my key fob setting have been stored. When I start the car remotely all that happens is the lights flash, horn honks twice, and the engine starts, nothing else happens. Makes remote start useless. Both previous Chrysler products I owned (2008 Aspen, 2012 GC Ltd) remote start started the climate control with the last setting in use. I'm going to guess this is also part of the new, very poorly designed and written main display system. On a personal note, I've been in the computer business for 50 years and this is a system I would love to get my hands on and fix.
Please describe conditions when this trouble occurs:	Evry time I use remote start. Really annoying when it is 100 F out and the car has been sititng for a few hours. Can't wait for -10F this winter.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Find a vendor who know how to design and write a graphics user interface that is usable and functional.

What is your attitude overall towards the BRAND of your new car?	5.
What are your favorite parts of your new vehicle?	Adaptive cruise control and blind side warning

What Can We Do Better?>	
Feedback/Concerns:	don't offer a options that is not available
What has Chrysler done right?	built a great automobile

Detail on High Rated Items	
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	speakers maintain clear sound and are not strained at high volumes
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	displays coupled with voice commands makes it a much safer enviroment
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	control of the media device using only jeep interface and not needing the media device controls is very helpful
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	clean look with chrome accents in the right places gives the auto a rich and expensive look
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	same as above
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	same as above
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	interior illumination is excellent. instrument panel and controls are bright and clear. Interior lighting such as door handles and storage areas helpful. auto high beam works very well in terms of turning on and off at the appropriate times without disturbing on coming traffic. headlights that move when turning improves illumination.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	seats are comfortable and controls are with in easy reach. copper accents set off the brown leather interior giving it a richer feel and appearance.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	Recent trip got 23.5 miles to the gallon which is much better than the 15 to 18 l got on the 2006 jeep
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	adaptive cruise control works very well, in all volumes of traffic except stop and go. Makes driving on long trips less tiring.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The company should not offer feature that is not available. Looks like all the engineering/design work was not completed before the release to manufacture of the 2014 jeep

Are you the primary driver of this vehicle?	Yes.

Continuous Quality Insight

Continuous Quality Insight	Other.

Other>

Please describe the other trouble you experienced:	Three weeks after purchase a computer module in the right door failed. The issue experienced was a failure of numerous dependant systems which include: the right front passenger window control, The collision warning system on both sides of the vehicle, The stereo sound system, rear defrost activation, AC hard key failure and latency problems accessing anything on the touchscreen.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	We had taken a trip approx 100 miles and parked the car that eve at approx 6pm. The next day I started the vehicle and drove about 100 ft and noticed the systems one by one not functioning.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Without an appointment they got my vehicle in and found that the repair would take 1 day to complete. A rental car was arranged for me and I returned the next day to retrieve my vehicle. I am very pleased with Cranberry Jeep and would highly recommend them!
Was the trouble resolved to your satisfaction?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	Putting aside the bad computer issue, The SRT Grand Cherokee is nothing less than pure excitement to drive! I love it and would HIGHLY recommend this dealership and vehicle to anyone.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns:	Here are my suggestions: one thing that can be considered is to include video player functionality on the main touch screen. Also, a repeated survey after I have had the vehicle for over 1yr would allow me sufficient time to use everything repeatedly. At which time I could give you a better ownership evaluation. I think that these surveys can come a bit to early in the driving experience of an SRT vehicle. Also a free pass to the SRT Driving experience would be VERY appreciated. Thank you very much for giving me the opportunity to give feedback.
What has Chrysler done right?	

What Can We Do Better?>	
	Virtually everything has been done exceeding my expectations. Putting aside my computer issue, I'm so pleased with Jeep that I will continue to seek out their lineup for years to come. That is of course until I can afford the SRT Viper :)

What is your attitude overall towards the BRAND of your new car?	5.
What are your favorite parts of your new vehicle?	The engine and electronics
Is there anything about your new vehicle you would like to see changed?	A supercharger and or turbo option would be wonderful.

Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	Excellent combination and integration of navigation and audio system.
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	Super clear even at high volume levels.

Detail on High Rated Items	
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	Bright screen even in direct sunlight. The menu is very easy to understand and use. Font sizes are great!
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	My phone is an LG Octane, An older (non smart) phone. And it integrates with the audio and communication system perfectly!
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	Being an Engineer i have media on several formats. It's wonderful that you have provided so many interfaces to the audio system. The only downside is I can't play videos on the main touchscreen.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	Excellent precision, also easy to see and understand.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	The unique styling of the SRT lineup is hard to match. The hood to the exhaust looks excellent.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Beautiful paint job, No orange peel effect anywhere on this vehicle.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	The front of the SRT GC is simply sinister! It's awesome from any angle and I love it! My brother told me that this is a true superhero car!
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	The profile view is accentuated by the massive wheels and Brembo brake package. It's a head turning design.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	The rear wing and the SRT hitch cover finish the rear perfectly
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	The new wheel package and scorpion tires are excellent choices
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	compared to previous vehicles these headlights are spectacular. The auto sense highbeam has been tuned to perfection.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	From the moment you slip into the racing seats of the SRT you feel that you're cradled in the arms of a race car! Excellent feel and adjustability
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	There are deep storage areas all over and nothing needs to be left out where it can roll around or shift while driving in sport or track mode.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	excellent wheel adjustment, Pedals are fixed at a very good distance. Although an adjustable pedal set could make this even better.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	No problems what so ever.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	The roar of the engine is quieted in the cabin but even with the windows up you can hear the power. This is one of the things I love the most about this vehicle.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	The racing seats of the past are gone and whats installed in the SRT is nothing less than stealthy comfort. Excellent choice in materials and styling!
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	I can move the wheel to any position while driving. Regardless of the driver a happy place for the wheel can always be found.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	Everything is in an arms reach and the voice recognition makes that even easier.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	No problem finding light in this vehicle. Even down the to included led flashlight in the rear compartment area.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	The sightlines leave no blind spots for me at all. The windscreen is large and offers excellent viewing all around.
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	The touchscreen and hard controls function symbiotically.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	What else is there to say about having 470HP at your command. It's an SRT and nothing was compromised when you use the launch button. Pure excitement.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	The clarity and power of the sound system coupled to a 19 speaker delivery makes this the most excellent sound system I've ever heard.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	The exhaust notes are refined at low speed but jump to nascar proportions with the stomp of the accelerator
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	The brembo brakes will draw out your eyeballs if you use them with aggression. This is excellent and I am so pleased you can bring the vehicles speed down from over 100 very effortlessly.
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	Water on the roads are handled very well by the scorpion tires. Even at higher speeds the water is channeled away evenly.
You rated ride quality High. Use this space to provide any specific comments you would like to share.	The selectable driving modes give you lots of adjustment during any type of driving. From stiff to soft they're tuned perfectly.

Detail on High Rated Items	
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	The precision steering really helps and the turning radius is tighter than the wrangler I used to have.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	I couldn't be more pleased with Cranberry Jeep! from Brandon (sales) to Kim (service) every need was anticipated and handled. I really enjoyed my exer
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	Everything seems solid and stable even at high speed!
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	The included equipment has certainly exceeded my expectations. I would only ask for lifetime travellink, and sirius subscriptions be included on SRT vehicles.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	Everyone who has seen and had a ride in it has been very impressed with it. No one more than me.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	Jeep has always been at the top of my list. Having had two wranglers in the past and now going to the powerful SRT line. I couldn't be more pleased.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	The driving modes and the launch control by far exceeded my expectations. The way the vehicle performs proves to me that the SRT team did extensive research and designed this machine to outperform most everything on the road. Excellent job!!!!

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Just the computer issue at 3 weeks into delivery. The tech informed me that he noticed a wire that was spliced into with a screw. This had to have occured during manufacturing. But because those issues were handled so quickly I really have no complaints at all! However please re-survey us SRT owners later so we can give you a more complete ownership evaluation. Thanks again. [redacted]

Detail on Low Rated Items

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Overall I like the 8 speed ZF transmission, but it really needs to shift more quickly and consistently. Regarding FCW, there is an option in the UConnect setup screens to disable FCW active braking. I disabled this option but had the brakes "jabbed" twice by FCW while changing lanes. This was very much unexpected and potentially dangerous. If I have "Active Braking" disabled, I am not expecting the vehicle to brake actively - EVER!

Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions. Slips/will not engage gear properly/shifts erratically. Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Transmission Noises>

Transmission Noises	Transmission makes abnormal/excessive noises.

Transmission and Drivetrain>Transmission Noises>Transmission makes abnormal/excessive noises>

Please indicate driving condition when noise occurs (check all that apply):	Normal acceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Noise sounds like (Check all that apply):	I had to have the front axel replaced with 300 miles on my SRT. Kind of shocking to me.
Additional Comments:	Problem fixed after a week in the shop.

Transmission and Drivetrain>Automatic Transmission>Shift between gears is rough/harsh under normal driving conditions>

Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.

Transmission and Drivetrain>Automatic Transmission>Shift between gears is rough/harsh under normal driving conditions>	
	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which gear/gears does the trouble occur? (check all that apply)	in Auto shift mode, shifts are rough, my head jerks back and forward in Auto shift mode, shifts are rough, my head jerks back and forward in Auto shift mode, shifts are rough, my head jerks back and forward
Additional Comments:	In order to alleviate this jerking shifting problem I have to go into Sport shifting mode instead of Auto. Seems odd that the default Auto mode should be so completely different from Sport.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Why is the gear selector difficult to operate?	Gear selector requires too much effort/force to operate.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which position is the gear selector difficult to operate? (check all that apply):	pain in the [redacted]. hate it. pain in the [redacted]s. hate it. pain in the [redacted] hate it. pain in [redacted]. hate it.
Additional Comments:	poor design and implementation.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Field's Jeep is great.
Was the trouble resolved to your satisfaction?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	No.
Please explain further about your choice to recommend your vehicle:	I enjoy it but it's too rough around the edges for most people.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Features/Controls/Displays>Features and Controls>Reverse-Camera>Reverse-camera works properly, but difficult to understand/use; controls in a poor location>	
Please indicate why the reverse-camera controls are difficult to understand/use; are in a poor location (check all that apply):	When I'm parked in my darkened garage and backing out during the daylight hours, the auto headlight switch turns on the headlights (which is fine) but also dims the rearview camera screen so much that I have to wait several seconds for it to detect daylight again and brighten back up or if I'm in more of a hurry I have to turn off the headlights manually so I can see behind me again. There should be some way to force the rearview camera screen to stay brightly lit when simply backing out of a garage.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Too many false alarms. When a car ahead is turning out of my lane and slowing down the system overreacts with beeps and hard braking even when I've turned off the warning system in the menus. Huge problem. Very annoying and jarring to have the car go into emergency mode when there's nothing to freak out about.

Interior Trim/Storage/Windows>Appearance>	
Appearance	Instrument panel/dashboard has gaps/poor fit.

Interior Trim/Storage/Windows>Appearance>Instrument panel/dashboard has gaps/poor fit>	
Please describe in the box below where on the instrument panel/dashboard the trouble with excessive gaps/poor fit of materials is located:	Whoever had the brilliant idea of putting white stitching on the upper part of the dashboard should be fired. Under normal daylight driving (and to a lesser extent a night) conditions the stitching's reflection in the windshield

Interior Trim/Storage/Windows>Appearance>Instrument panel/dashboard has gaps/poor fit>	
	creates an visual distraction for the driver from left to right. I tried very hard to ignore it for the first several weeks and to look through and past it, but without success. Finally, I took the drastic step of using a Sharpie and coloring the white thread black all the way from left to right. To no one's amazement, this completely solved the problem. Car design 101: never put something white on the dashboard simply because it looks cool. Nothing should interfere with the driver's view through the windshield glass. Shameful and careless design.
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	I took delivery of the car and immediately noticed that the small speaker covers on the left and right sides didn't match. The one on the right was silver with small holes (this matched the rest of the speaker trim in the car) and the one on the left was solid black with larger holes (which it turns out match the speaker covers in other non-SRT models). Careless assembly and quality control I would say.

Engine>Electronic Engine Controls (Check Engine)>	
Electronic Engine Controls ('Check Engine')	"Check Engine" light indicated trouble.

Engine>Electronic Engine Controls (Check Engine)>Check Engine light indicated trouble>	
What type of fuel do you most often put into your vehicle?	Premium gasoline.
Was the "Check Engine" light your first indication there was trouble?	No.
Did you also experience an engine performance issue while the "Check Engine" light was on?	No.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Dealer said that there was a fluid leak and they fixed it along with replacing the front axel assembly due to another major problem that occurred.

What Can We Do Better?>	
Feedback/Concerns:	This SRT is a big improvement in some ways over the 2013 one I owned, but it has some problems that should have been addressed before production and during assembly.
What has Chrysler done right?	Great engine and electronics. Cool exterior design.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Transmission, interior design, quality control.

Smartphone Application covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).

What Can We Do Better?>	
Feedback/Concerns:	As the SUV moves more upscale so should the dealers. The shifter/trans has raised some concerns and a minor issue would be to design a factory running board OEM integrated style, such as the M or X5 in addtion to the nerf bar which is fine for the wrangler just not the GC, in my opinion. Also the mpg are not as good as i was hoping.
What has Chrysler done right?	Very Nice execution of the truck,exterior design, nice interior materiel, ride, perceived quality. U-connect is very easy to use and works as advertised which is rare with these systems, not an over cluttered dash

Contact Me>

Is there anything about your new vehicle you would like to see changed?	gear selecter/front seats should be softer

Detail on High Rated Items	
	Much cleaner look then the previous gen, has a very classy yet rugged appearance

Detail on High Rated Items	
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Front end on the Overland was very clean as well much more so then the Summit edition which I had also looked at but did not like the wheels or lower fascia
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	The value compared to the M class and X5 that we were looking at seems high, we are so far happy overall with the truck which is the first American auto in our houshold in over 15 years

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Gear Selector which we thought could be an issue before buying has remained an issue, entry/exit car does not lower enough and front seats could be more comfortable as well as a little better mpg

About You>	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	45000.00
Is this your first new vehicle ever purchased / leased?	No.

How was your purchasing experience (the dealer/dealership)?	2.
How do you feel about the durability of your new vehicle?	3.
How do you feel about the VALUE of your new car? (i.e.	1.
What is your attitude overall towards your new car?	3.
What is your attitude overall towards the BRAND of your new car?	3.
What are your favorite parts of your new vehicle?	Ride height, ventilated seats.
Is there anything about your new vehicle you would like to see changed?	Can't reach turn signal with high beams on. Exterior rear view mirrors cause a significant blind spot.

Detail on High Rated Items	
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Different from all the competitors who look like overgrown station wagons. It is nice that SOME of the square look of the orig. Cherokee was maintained.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	Not too loud for being an 8 cylinder engine.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	Very smooth.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	NOTHING far exceeded my expectations for the price that was charged.

Detail on Low Rated Items	
You rated climate control operation (function and ease of use) Low. Use this space to provide any specific comments you would like to share.	Every time I start the vehicle I have to reset everything I set up last time I was in the car.
You rated the value of your new car Low. Use this space to provide any specific comments you would like to share.	The MSRP of the Cherokee is roughly twice what it should be.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Ulink is an annual subscription?! Really?!! Absolutely ridiculous. I hate the fact that I HAD to pay for a system I have no intention of ever using.

About You>	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	52,000
Is this your first new vehicle ever purchased / leased?	Yes.
Please tell us about the vehicle you replaced (if applicable)	Acura.
	NSX.
	1998.
	Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	Land Rover.
	Range Rover.
	2014.
	Primary Considered Vehicle: New.
Which online data sources, if any, influenced your buying decision? (check all that apply)	JD Power Reports.
	NHTSA or IIHS.

About You>	
Secondary vehicle you were considering:	Honda. Pilot. 2014. Secondary Considered Vehicle: New.
Primary vehicle in your household:	Volkswagen. Jetta Sedan. 2013. Primary Household Vehicle: Purchased New.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your gender	[redacted]
What year were you born?	[redacted]
Please indicate your highest education level	4 year college degree.
What is your current marital status?	[redacted]
How may children 17 or under live in your household?	1-2.
Please indicate your ethnicity	[redacted]
What is your total household income (before taxes)?	More than $200,000.

Continuous Quality Insight	Interior Trim/Storage/Windows. Features/Controls/Displays. Entertainment/Navigation System/Connectivity. Vehicle Exterior. Other.

Vehicle Exterior>Exterior Appearance/Paint:>

Exterior Appearance/Paint:	Body panels/doors misaligned/excessive gaps/poor fit.

Vehicle Exterior>Exterior Appearance/Paint:>Body panels/doors misaligned/excessive gaps/poor fit>

Please indicate the location of the trouble (check all that apply):	Rear right quarter not perfectly lined up with the bumper. Gas door gap not even all the way around
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Features and Controls>

Features and Controls	Adjustable Height Control. Reverse-Camera. Park Assist.

Features/Controls/Displays>Displays and Instruments>

Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location. Speedometer/Tachometer works properly, but difficult to understand/use; displays in a poor location.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location

Additional Comments:	Not sure exactly when it is supposed to work. Some times it alerts other times it does not

Features/Controls/Displays>Displays and Instruments>Speedometer/Tachometer works properly, but difficult to understand/use; displays in a poor location>

Please indicate why the speedometer/tachometer controls/displays are difficult to understand/use; are in a poor location (check all that apply):	It would be nice to have the analog display with the digital speed in the middle

Adjustable Height Control

Adjustable Height Control	Adjustable height control works, but is difficult to understand/use.

Adjustable height control works, but is difficult to understand/use

Additional Comments:	It would be nice if the car automatically went into the exit night when you put the car in park.

Features/Controls/Displays>Features and Controls>Reverse-Camera>

Features/Controls/Displays>Features and Controls>Reverse-Camera>	
Reverse-Camera	Reverse-camera works properly, but difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Features and Controls>Reverse-Camera>Reverse-camera works properly, but difficult to understand/use; controls in a poor location>	
Please indicate why the reverse-camera controls are difficult to understand/use; are in a poor location (check all that apply):	It would be nice to put the rear camera on while towing. When towing a small trailer you cannot see the trailer out the back or the side windows. It would be nice to turn the camera on to see if anything is flying out or loose.

Other>	
Please describe the other trouble you experienced:	The radio display blacked out. I had to power off car for 5 min to reset. Also one time the active brake alert went on. After the alert the fuel economy gauge in the center of the speedo stopped working until I changed display. Nth is ony happened one time.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	It's a Jeep. We are a jeep family. My parents own 2 grand Cherokees. I own a 2005 TJ and the 2014 grand Cherokee
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	4 (agree).
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).

Continuous Quality Insight	
Continuous Quality Insight	Entertainment/Navigation System/Connectivity. Seats. Features/Controls/Displays. Steering, Handling, and Ride. Interior Climate Control. Off-Road. Interior Trim/Storage/Windows. Vehicle Exterior.

Seats>Adjustments and Controls>Rear folding seat/seatback controls are difficult to understand/use>	
Please indicate which of the following best describes your concern (check all that apply):	Please put them back on the door by the window controls. Reaching down the side is old style. See Mercedes and Ford.
Please indicate which seat's controls are difficult to understand/use (check all that apply):	Driver's side rear seat. Passenger's side rear seat.
Please indicate why the controls are difficult to understand/use (check all that apply):	Controls are not easy to reach.

Seats>Adjustments and Controls>Head restraint adjustment controls are difficult to understand/use>	
Please indicate which of the following best describes your concern (check all that apply):	For all the automation in a Summit why isnt this a button to raise and lower versus the old style approach.
Please indicate which seat's head restraint controls are difficult to understand/use (check all that apply):	Driver's seat. Front passenger seat.
Please indicate why the controls are difficult to understand/use (check all that apply):	Controls require too much effort/force to operate.

Height adjustment controls are difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	I am not sure I have figured them out yet. The controls to set the driver one and two options is in the wrong place. i keep hitting it with my leg and it resets wrong.
Please indicate which type of seat controls are difficult to understand/use (check all that apply):	Power adjustment controls. Memory Seat Function.
Please indicate which seat's controls are difficult to understand/use (check all that apply):	Driver's seat. Front passenger seat.
Please indicate why the controls are difficult to understand/use (check all that apply):	Operation of key fob is confusing/doesn't make sense. Controls require too much effort/force to operate. Controls are not easy to reach.

Seats>Adjustments and Controls>	
Adjustments and Controls	Rear folding seat/seatback controls are difficult to understand/use. Head restraint adjustment controls are difficult to understand/use. Height adjustment controls are difficult to understand/use. Memory Seat controls are difficult to understand/use; in a poor location.

Features/Controls/Displays>Features and Controls>Voice Activiation System>Voice Activation system broken/not working>	
Please indicate which voice activation system is broken / not working properly (check all that apply):	First you need to produce the information to say what the commands are and how the system works. I have even gone to the disc. Perhaps the system is too limited compared to what I am used to with others like Mercedes, Lincoln, Ford. Need to give list of commands and how they work. Not sure I have figured out how to make this work.
Please indicate what type of trouble was experienced with the Voice Activation System (check all that apply):	First is what are the commands. Second is that I haven't figured out how it wants info to respond. System improperly interprets voice commands.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	all the time
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	I have a suspicion the system is limited. Compare it to the Ford or Mercedes system. Those are intuitive and very functional.

Interior Trim/Storage/Windows>Operation and Functionality>Floor mats will not stay in place>	
Please indicate which floor mat will not stay in place (check all that apply):	You need to make the floor mats cover more of the floor Front passenger's floor mat.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Trim/Storage/Windows>Operation and Functionality>	
Operation and Functionality	Cup holder is difficult to use. Floor mats will not stay in place. Sun Visor/Vanity Mirror is difficult to use.

Memory Seat controls are difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand. Difficult to use. Poor location.

Cup holder is difficult to use	
Please indicate which of the following best describes your concern (check all that apply):	You need more than two in the front. How about like the Lincoln Navigator with two at the elbow area?
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Tilt/telescopic steering wheel/column is broken/not working	
What area of the tilt/telescopic steering wheel/column is broken/not working? (check all that apply):	There have been times when the up and down functions stops working. The next day it is ok, but stops during the day.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering, Handling, and Ride>Steering and Handling>	
Steering and Handling	Tilt/telescopic steering wheel/column is broken/not working.

Steering, Handling, and Ride>Noise and Vibration>	
Noise and Vibration	Abnormal noises coming from under vehicle.

Steering, Handling, and Ride>Noise and Vibration>Abnormal noises coming from under vehicle>	
How loud is the noise?	Moderate.
Noise sounds like (Check all that apply):	

Steering, Handling, and Ride>Noise and Vibration>Abnormal noises coming from under vehicle>	
	When the suspension is all the way up, there is an unusual and concerning thumping sound as the vehicle goes over bumps.
From what area of the vehicle is the noise coming?	Passenger's side - front.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Issues with wheels and tires in off-road conditions	
Please indicate the nature of the issue you are experiencing. (check all that apply):	Can these tires and the rims support off road conditions? I suspect that the tires will pinch and not handle moderate dirt road movement.
	The tires are too susceptible to damage on off-road surfaces.
	The tires are too susceptible to punctures on off-road surfaces.
	There is no ability to continue driving with a puncture.
	The wheel rims are too susceptible to damage when driving on off-road surfaces.
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Dirt/gravel roads.
	Mud/ruts.
Trouble occurs at these speeds. (check all that apply):	When driving at very low speeds (0-10 MPH).
	When driving at low speeds (11-20 MPH).
	When driving at medium speeds (>20 MPH).
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
	Uphill.
	Downhill.
	Bumpy or uneven surface.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	I basically will not trust the tires and rims in moderate off road. I wish it came with rims and tires more suited for driving on moderate Colorado trails. I guess I need to put other rims and tires on when jeeping season is in time.

Issues with noise or vibration during difficult driving conditions	
Please indicate on what surfaces you are experiencing issues. (check all that apply)	when the suspension is all the way up, there is a funny thumping when the tires go over rocks. These are not big rocks, this is slow speeds. It goes away when you lower to offroad 1 settings. Can the suspension handle the higher level?
	Mud/ruts.
Please indicate what is causing the issue (select all that apply)	Air suspension.
	Noise generated by the tires on the terrain.
	Noise caused by contact with the terrain.
Trouble occurs at these speeds. (check all that apply):	When driving at very low speeds (0-10 MPH).
	When driving at low speeds (11-20 MPH).
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
	Downhill.
	Bumpy or uneven surface.
How often does this trouble occur?	Trouble occurs regularly.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	I have owned multiple Jeeps. Congrats you have built the best so far. The easy of steering, the number of features, the amount working so far without issues, the fell of the road are all excellent. Most of my comments are met to reach perfection. Please give me some advice on the issue raised, lets talk again over the next couple of years. It is great to see AMERICA produce this quality and work to beat the competition. You did it, but lets improve some simple things.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
	Yes.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	2 (disagree).
Smartphone Application covers the necessary features	2 (disagree).
Please rate your overall level of satisfaction with the Smartphone Application	2 (dissatisfied).
Please provide feedback on how Chrysler can improve the Smartphone Application	I could not find the pandora app. The apps in the store are like Uconnect and yelp. Real weak. I think this was over inflated at sell time and week for the mobile era.
What information did you need that was not included in the Smartphone Application?	I think uconnect uses a 3g cell phone system in the car? Which it was clear how it worked.
Which feature or section of the Smartphone Application did you find least helpful and why?	You really only have yelp and unconnect.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located. Heating, ventilation and air conditioning doesn't maintain desired temperature. Air conditioner takes too long to get cold.

Off-Road Features and Functions	
Off-Road Features and Functions	Issues with wheels and tires in off-road conditions. Issues with noise or vibration during difficult driving conditions.

Vehicle Satisfaction Ratings

Vehicle Satisfaction Ratings	
Steering and handling (responsiveness, stability)	5.
How was your purchasing experience (the dealer/dealership)?	4.
How do you feel about the durability of your new vehicle?	5.
How do you feel about the VALUE of your new car? (i.e.	5.
What is your attitude overall towards your new car?	5.
What is your attitude overall towards the BRAND of your new car?	5.
What are your favorite parts of your new vehicle?	Ease of steering and ride of car. The sounds system sounds nasally, lets fix this with a harmon kardon for a Summit.
Is there anything about your new vehicle you would like to see changed?	The SD card does not work, forgot to say that somewhere. Also, where do I get the mudflaps for this? Dealer cant find.

What Can We Do Better?>	
Feedback/Concerns:	See the comments inside. The carge cover scratches the sides of the inside car when the dealer puts it in the holes. Also it is too easy to kick and scratches the doors getting in and out. I order one vehicle and did not accept it because of this. The second one had some of this but we were able to get it to an acceptable level. You need to put a protective covers on doors kick areas--drivers for the carriers moving the vehilces are damaging it. The cargo cover needs to be wrapped so in shipping it does not bang around and then the dealer need to be more careful when they put it in.
What has Chrysler done right?	High quality car. Good feel. Good new technology but I am concerned there are some peculiar behaviors and it is not always intuitive. You have a car that can compete with the competition and then put it to shame when you disucss the 4x4 capability. Jeep drivers are loyal. Lets work together to keep this going. Massive improvement from my past jeeps.

Contact Me>	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Any of the issues I have raised. If you would like ongoing contact of what I experience over the years. I want to help you if you need it.
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

About You	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	55K
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	Lincoln.
	Navigator.
	Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	Mercedes-Benz.
	M-Class.
	2014.
Which, if any, influenced your purchase decision? (check all that apply):	On-Line blogs or forums.
	Recommendations from friends or family.
	Vehicle test drive.
	Dealership information.
	Manufacturer?s website.
	Previous experience with the vehicle/brand.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	Ability to do this over the internet
Secondary vehicle you were considering:	Mercedes-Benz.
	Secondary Considered Vehicle: New.
Primary vehicle in your household:	Mercedes-Benz.
	Primary Household Vehicle: Purchased New.
Secondary vehicle in your household:	Ford.
	Explorer.
	2014.
	Secondary Household Vehicle: Purchased New.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your gender	[redacted].
Please indicate your highest education level	Graduate degree.
What is your current marital status?	[redacted]

About You	
How may children 17 or under live in your household?	0.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Sound system, Thumping sound on suspension when all the way up, gas mileage, tire/rims for off road, mud flaps,

Detail on High Rated Items	
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Metallic is good. Need mudflaps and chrome where doors hit. Need to take off gray painted stuff at bottom since it will catch in front when in Entry/Exit.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Looks good but it is hard to get bugs out of the grill matting used at bottom of lights and by radar.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	The movement of the lights on turns could be better. Need a turn light on a mercedes. Overall the lights are excellent. They see a long distance. The highs do not come on soon enough.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Good but you can still improve this. Also fix the Summit level sound system with something like a Harmon Kardon versus this nasally system.

Are you the primary driver of this vehicle?	Yes.

Continuous Quality Insight

Continuous Quality Insight	Other.

Other>

Please describe the other trouble you experienced:	I really don't like the the battery under the front seat and not readily accessible. Not being able to shut the radio off can be a pain at times. I would also like to be able to raise the drivers another 3/4 of inch. The engine light has come on twice now, dealer can't tell me what's going on. The forward collision has been inabled since purchase. Message keeps telling me to wipe the front sensor to no avail, waiting to have dealer look at. All the tech may be nice to have but if it is not functioning correctly, not good and can be confusing for us older drivers. I also have two doors that don't fit flush, two window seals that need to be replaced, and front light molding loose, which means another schedule appointment. I have driven jeeps since 1984 and have the upmost confidence however the commander I traded in seemed to fit better. I really liked that vehicle and am dissappointed they are not available. Jeep should maybe look at making a truck again.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	No.
Please explain further about your choice to recommend your vehicle:	Not yet, even though my past experience has been favorable, I'm just not getting a good fit yet, We will see.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns:	I would like to know the difference between quad-trac and quad-drive and why would I choose one over the other?
What has Chrysler done right?	Communication is good and over-all quality in most products.

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Is there anything about your new vehicle you would like to see changed?	see prior comments

Detail on High Rated Items	
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Had small flaw on one rim that chrysler said was a road hazard happening, just hope winter salt don't make it worse.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	like
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	like
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	see comment above
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	Gear selector will take some getting use to
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	ask me again in one year
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	Have long time committment to jeep but am somewhat skepticle, time will tell, the vehicle or me
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Vehicle seems to be good and solid with many improvements. Surprised at all the updates since just 2009. More than I ever experienced within a 3/4 year trade span. Again, maybe just a matter of getting use to. However this survey may be a tad pre-mature. I would appreciate my concerns a stated above to be addressed, via e-mail please. Thank-You!

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Battery placement and drivers seat adjustment

About You	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	too much, 50K
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	Jeep. Commander. Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	Chevrolet. 1500 Sport Pickups. Primary Considered Vehicle: New.
Which, if any, influenced your purchase decision? (check all that apply):	Under pressure, having trouble with commander drive train of which I had a lifetime warranty. Dealer and chrysler could not resolve the problem after 3/4 months working the problem and tieing the vehivle up for three and four days each time. Dealer had one car on lot, not eactly what I wanted but under the circumstance seemed to be the the better or easier avenue. Otherwise I could of easily jumped to general motors where the avalanche really seemed to fit better. Previous experience with the vehicle/brand.
Primary vehicle in your household:	Jeep. Grand Cherokee. 2014. Primary Household Vehicle: Purchased New.
Secondary vehicle in your household:	Jeep. Cherokee 4WD. Secondary Household Vehicle: Purchased Used.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your gender	[redacted].

Please indicate your ethnicity	[redacted] .
What is your total household income (before taxes)?	$100,000 - $124,999.

Detail on High Rated Items

You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	Overall very nice. Would prefer the navigation system, like the one in my 2006 Grand Cherokee, could display both distance and time to destination simultaneously. Satellite radio is a plus. Various input options for devices a plus.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Very attractive vehicle, at least if you're a Jeep lover. ;-)
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Very nice, but wish Inferno Red Crystal Pearl and Bright Chrome colors were still available.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	I like the automatic high beam feature, although am not certain low beam setting is actually low enough to avoid causing oncoming traffic problems.
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	First time I've had a power telescoping steering wheel, which is helpful.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	I like the separate map and interior lights, and that there are two lights in the liftgate. Wish the latter would stay illuminated longer.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	Thanks to the safety features of the Advanced Technology Group I feel the safest in this vehicle I've ever been (except for the increased rollover risk inherent in an SUV).
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	To be fair I haven't really tested this yet; have been driving in Eco mode for fuel economy. Will try to remember to try out the Sport setting at some point. The effect of the 8-speed transmission is very noticeable, both in terms of smooth shifting and helpful engine braking without downshifting.

Detail on High Rated Items	
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	I am so glad I no longer am driving the gas-hungry V8 semi my 2006 JGC has! I'm getting 6 mpg more in the city and about 7 more on the highway.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	This is my fourth consecutive Jeep Grand Cherokee, which is the best testament I can offer about my attitude toward the brand.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Unfortunately for this purpose, my expectations were very high so it's hard to think of anything which has exceeded them. Perhaps the Adaptive Cruise Control and the Front Collision mitigation system qualify.

How do you feel about the VALUE of your new car? (i.e.	4.
What is your attitude overall towards your new car?	5.
What is your attitude overall towards the BRAND of your new car?	5.
What are your favorite parts of your new vehicle?	Advanced Technlology group, satellite radio, fuel economy, 8-speed transmission
Is there anything about your new vehicle you would like to see changed?	Would like options of storing saved destinations in separate folders in navigation system. Would like all-season tires when Trail Rated.

What Can We Do Better?>	
Feedback/Concerns:	I would have liked to have been given a choice of tires when special ordering my vehicle. I preferred one aspect of the navigation system in my previous vehicle, a 2006 Grand Cherokee: it provided for a number of folders where destinations may be saved under category names. I wish the Quadra-Drive transmission, which my 2000 Laredo, and 1999 and 2006 Limiteds had, were available on my six-cylinder 2014 Limited.
What has Chrysler done right?	Just about everything! I appreciate the new 8-speed transmission, and all the safety features in the Advanced Technology group. The Vehicle Information Center is very helpful, once one learns how to use it.

Remote vehicle start is difficult to understand/use

Please indicate which of the following best describes your concern (check all that apply):	The "two click" on feature takes 4 to 6 clicks for the Jeep to respond.

Search engine

Bing	Search engine works but is difficult to understand/use.

Search engine works but is difficult to understand/use

Please indicate which of the following best describes your concern (check all that apply):	Very slow service

Uconnect Store

Uconnect Store	Uconnect store works but is difficult to understand/use.

Uconnect store works but is difficult to understand/use

Please indicate which of the following best describes your concern (check all that apply):	Not a lot of app offerings at this time
Please describe the trouble you experienced (check all that apply):	Not worth spending the money when there are very few notable apps

Text messaging broken/not working

Please describe the trouble you experienced (check all that apply):	Wasn't even aware that text messaging would work on the screen.
Do you have the Uconnect Access free form speech option?	No.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system freezes-up/will not work>

How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	When driving with navigation
Additional Comments:	Oftentimes, I will have a POI set and the navigation will freeze. Also freezes clock on the unit.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesnt work/or is difficult to understand>

Please indicate what issues you are experiencing with the traffic information (check all that apply)	No traffic information is found

Features/Controls/Displays>Displays and Instruments>Odometer/trip odometer broken/not working>

Please indicate which feature of the odometer/trip odometer system is broken/not working properly (check all that apply):	Had the vehicle completely stop working. Drove with no odometer/speedometer for several miles until I got the Jeep Serviced.
Please indicate what type of trouble was experienced with the odometer/trip odometer (check all that apply):	See above.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Happened at the 82 mile level
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Displays and Instruments>

Displays and Instruments	Odometer/trip odometer broken/not working. Instrument panel illumination/warning/indicator lights broken/not working.

Front heating, ventilation and air conditioning controls are broken/not working

Front heating, ventilation and air conditioning controls are broken/not working	
Please indicate which feature your vehicle is equipped with:	Front single HVAC control.
Please indicate which control is broken/not working properly (check all that apply):	temp control did not "save" or start with remote start
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Within first month of ownership
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Displays and Instruments>Instrument panel illumination/warning/indicator lights broken/not working>	
Please indicate which of the following best describes your concern (check all that apply):	Similar to issue with odometer - all the warning lights in the system shorted-out, broke - started flashing at once.
Please describe in the box below where on the instrument panel/dashboard the trouble with broken/damaged materials is located:	All warning signals came on.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Climate Control>Controls and Switches>	
Controls and Switches	Front heating, ventilation and air conditioning controls are broken/not working.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Was the trouble resolved to your satisfaction?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What is your attitude overall towards your new car?	5.
What is your attitude overall towards the BRAND of your new car?	5.
What are your favorite parts of your new vehicle?	Climate Controls (heated and ventilated seats) Auto heat and cool.
Is there anything about your new vehicle you would like to see changed?	I would like to see elevation on the navigation display and engine hours on the driver information center.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	My satellite radio sound quality is awful. The sound system in the Jeep is great because my media sounds great, but my SiriusXM sounds plain awful. I suspect the Sirius receiver unit is going to fail. I hope that it does while its under warranty.

About You	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	59.8K
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	Jeep. Grand Cherokee. 2013. Replaced Vehicle: Purchased Used.
Primary vehicle you were considering:	Dodge. Durango. 2014. Primary Considered Vehicle: New.
Which, if any, influenced your purchase decision? (check all that apply):	Kelley Blue Book. Edmunds. Vehicle test drive. Manufacturer?s website. Previous experience with the vehicle/brand.
Secondary vehicle you were considering:	Ford. F-150. 2014. Secondary Considered Vehicle: New.
Primary vehicle in your household:	Jeep. Grand Cherokee. 2014. Primary Household Vehicle: Purchased New.
Secondary vehicle in your household:	Honda. Accord Sedan. 2008. Secondary Household Vehicle: Purchased Used.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your gender	[redacted].
What year were you born?	1[redacted]
Please indicate your highest education level	Graduate degree.
What is your current marital status?	[redacted].
How may children 17 or under live in your household?	0.
Please indicate your ethnicity	[redacted]
What is your total household income (before taxes)?	$125,000 - $149,999.

Detail on High Rated Items	
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	Big, responsive touchscreen.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	Gets me where I need to go.
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	Seems to work. Sound system has very high quality with media, but Sirius radio sounds awful. It sounded great in my old Dodge Charger though.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	If you took the badging off the interior of the car and placed a suburbanite in the car, they would think that they were driving a high end, German import.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	I love black paint.

Detail on High Rated Items	
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Black paint with tasteful "chrome" accents...Love it.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	I'm pretty happy with it.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	I'm pretty happy with it.
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	I like the rims on my Summit almost as much as the rims on my old SRT8.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	These headlights have got to be best in class.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	I could drive cross country in this vehicle and would feel like I was in my easy chair the whole time.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	The storage area in the dash, and the doors is a welcome change to most other vehicles. The console storage is nice and deep too.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	My girlfriend is 6'1" and she normally has her knees in the glovebox. The Grand Cherokee gives her all sorts of space.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	My Summit lowers when I put it in park. That's just about the coolest thing ever.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Nice and quiet.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	Multi-direction seat adjustments are nice.
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	I'm happy with it.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	Everything is easy to access.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	I'm happy with it.
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	Big responsive touchscreen.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	I was concerned about getting a 5.7 hemi after driving a 6.4 hemi, but I haven't missed the power.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	It's quiet. The engine does sound odd when driving under low load.
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	The few times I've had to drive across a field, the Jeep has been completely satisfactory.
You rated ride quality High. Use this space to provide any specific comments you would like to share.	Love it.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Easy, yet solid steering feel.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	The dealership converted me from a very dissatisfied SRT owner to a very satisfied Summit owner.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	Everything seems nice and solid
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	The Grand Cherokee seems like it'll last.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	The dealership converted me from a very dissatisfied SRT owner to a very satisfied Summit owner.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	Even after my horrible experience with the Grand Cherokee SRT, I still love the brand.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Comfort.

Welcome>	
Please tell us how many miles are currently on your vehicle:	1,000-2,999.
Are you the primary driver of this vehicle?	Yes.

Overview	
The Smartphone Application format is easy to understand and use	5 (strongly agree).

Overview	
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Smartphone Application covers the necessary features	2 (disagree).
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).
Please provide feedback on how Chrysler can improve the Smartphone Application	The Uconnect 8.4 allows for an great smartphone integration, but the Jeep app is basically an electronic brochure. Jeeps are all about adventure, despite the fact that most Grand Cherokee's rarely see the trails that they were designed for. The GPS has elevation information, how about sending that information from the Navigation system to the phone over Bluetooth using the smartphone app as your gateway to plot your trail and change in elevation while on the trail if so desired? That's just one thing, a smartphone app could that is connected to the vehicle over bluetooth could provide vehicle information to the owner on their phone...all sorts of stuff.
What information did you need that was not included in the Smartphone Application?	How to get the uconnect 8.4 to be compatible with an iPhone 5 for voice texting.
Which feature or section of the Smartphone Application did you find least helpful and why?	It seems to be an electronic brochure rather than an integrated part of the Jeep experience.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	I have been very satisfied with my new Grand Cherokee.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.

What Can We Do Better?>	
Feedback/Concerns:	Keep pushing your electronics team. There's a lot of technology features that were only half done. Sure Chrysler does a better job than the other American car manufacturers, but beating the worst in the industry only makes you mediocre.
What has Chrysler done right?	Fit and finish, durability, styling.

Transmission and Drivetrain>Automatic Transmission>Shifts at wrong times>	
Additional Comments:	Typically, shifting into reverse from park shortly after startup (during the elevated idle time) is rough and makes an audible "Clunk" and in highly congested traffic conditions when frequent mild acceleration and deceleration. Shifting is beautiful under normal and hard acceleration.

Transmission and Drivetrain>Automatic Transmission>Shift between gears is rough/harsh under normal driving conditions>	
Going into which gear/gears does the trouble occur? (check all that apply)	typically, shifting into reverse from park shortly after startup (during the elevated idle time) is rough and makes an audible "Clunk". Typically under low load (coasting or in congested traffic) the frequent up and down shifting gets rough and more audible.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	When navigating "Stop and go" and highly congested traffic.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Not sure.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Typically typically, shifting into reverse from park shortly after startup (during the elevated idle time) is rough and makes an audible "Clunk" and under low load (coasting or in congested traffic) the frequent up and down shifting gets rough and more audible.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions. Shifts at wrong times.

Brake System>Brake Operation>Brakes do not have enough stopping power; brake pedal requires too much effort>

Brake System>Brake Operation>Brakes do not have enough stopping power; brake pedal requires too much effort>	
Trouble with brakes occurs during this type of braking (check all that apply):	So my 2014 Jeep Grand Cherokee Summit may be the victim of user bias. My last vehicle was a 2013 Jeep Grand Cherokee SRT and before that was a 2007 Dodge Chrager R/T with performance brakes.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Typically, the braking seems to unsatisfactory when approaching a stop light.
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	The unsatisfactory braking seems to come from undersized brakes. The unsatisfactory braking seems to come from undersized brakes. I live in South Carolina. I'll get back to you when I visit family up North after the holidays.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	I could just want higher performance brakes.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	So my 2014 Jeep Grand Cherokee Summit may be the victim of user bias. My last vehicle was a 2013 Jeep Grand Cherokee SRT and before that was a 2007 Dodge Chrager R/T with performance brakes.

Detail on Low Rated Items

You rated head/leg/foot room Low. Use this space to provide any specific comments you would like to share.	Beyond my previous comments about the electronics, I find the brake pedal to be dangerous and possibly a safety hazard. The brake pedal seems to have a bracket that occupies space to the left of the pedal, that interferes with the location of my left foot. If my left foot is even slightly outside of the blank space to the left of the pedals, I will find myself often smashing my foot under the brake pedal bracket while my right foot is applying the brake. Because of the surprise and/or pain during this experience, it has sometimes causes me to release the brake inadvertently. Obviously one is not supposed to place their other foot underneath the brake pedal, but the design of this pedal causes there to be other hazardous spaces that aren't directly underneath either pedal.

About You

Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	~51000
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	Jeep. Grand Cherokee. 2009. Replaced Vehicle: Purchased New.
Primary vehicle in your household:	BMW. M3. Primary Household Vehicle: Purchased New.

Continuous Quality Insight	
Continuous Quality Insight	Entertainment/Navigation System/Connectivity. Features/Controls/Displays. Vehicle Exterior. Interior Climate Control.

Assist Button	
Assist Button	Assist button works but is difficult to understand/use.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>Voice Recognition feature does not have enough functions available>	
Please describe additional functions you would like to have:	This may pertain to the entire entertainment system. If I have the music muted when I turn off the vehicle, it is not muted when I start it the next time. I do not like being surprised that the car has decided to change the volume/mute settings from when I was in there last.

Assist button works but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please describe the trouble you experienced:	The button will not turn off the assist function if pressed a second time.

Active suspension system works but is difficult to understand/use	
Please describe why the active suspension system is difficult to understand/use:	The system likes to switch between aerodynamic and standard ride heights too frequently. It should learn my driving style and realize that it does not need to adjust the height during slower parts of my drive. I would

Active suspension system works but is difficult to understand/use	
	be okay selecting options that relate to how aggressive it is with regard to automatic height changes.

Features/Controls/Displays>Features and Controls>Cruise control system>	
Cruise control system	Cruise control system works properly, but difficult to understand/use; controls in a poor location.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Heating, ventilation and air conditioning doesn't maintain desired temperature.

Heating, ventilation and air conditioning doesn't maintain desired temperature	
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	Below 70 degrees.
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Outside temperature between 40 and 49 degrees.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Additional Comments:	In this case, the exterior temperature was approximately 45F. The climate system was set to ~70F. For some reason, it decided to turn on the air conditioning through the front vents, instead of using heat on the lower vents. It was making me much more cold, when it should have been heating me up.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

What Can We Do Better?>	
Feedback/Concerns:	I do not like the transmission shifting control, but despite selecting the "Controls" survey category, it was not listed. My concern is this: when shifting from drive to park, I press the button and move the lever all the way forward. I apparently must being doing this too fast, because it frequently does not register that I moved the lever all the way to park. Instead, it puts the vehicle into reverse, and I am surprised to find the vehicle revering itself when I take my foot off the brake. I have moved the selector all the way forward, and I know by feel that I have done so. I should not be required to inspect the instrument cluster to ensure that the system has registered the action I have taken to mean that I want the vehicle in park, not reverse.
What has Chrysler done right?	I very much appreciate that Chrysler is applying modern technology to its vehicles. I am happy with the overall design and build quality of the vehicle. Clearly, the mechanical side is currently where Chrysler currently excels.

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system works properly, but difficult to understand/use; controls in a poor location>	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Please indicate why the cruise control system controls are difficult to understand/use; are in a poor location (check all that apply):	The cruise control system is too aggressive at reducing speed when speed does not need to be reduced. For instance, when traveling over a small incline/decline, for instance, near a highway overpass, the vehicle speeds up when traveling down the decline. However, the cruise control system decides to apply the brakes after the target speed is exceeded by only a

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system works properly, but difficult to understand/use; controls in a poor location>	
	few MPH. I do not want the system to be applying the brakes for me in this case (no vehicles in front, active cruise control, etc). If minor braking is required, it should engine brake instead.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>Hands-Free Phone/Bluetooth system is difficult to use>	
Do you recall specific commands that you were using?	I cannot turn the voice system off after I accidentally hit the button. It is unacceptable to not be able to press one of the buttons to be able to make it be quiet. I do not want to have to speak to it to make it shut up. I should be able to press the end button, or hold down the voice activation button for a couple of seconds for it to turn back off again.
Please indicate why the hands-free phone / bluetooth system is difficult to use:	Operation of controls is confusing. Need to wait until voice prompt is finished.

Vehicle Exterior>Liftgate>Liftgate latch works, but is difficult to operate>Liftgate latch works, but is difficult to operate>	
Why is the door handle/latch difficult to operate? (check all that apply):	This is a power liftgate, but when walking to the car and pressing the open button, I have no external indication that the opening has started because it takes a few moments for the liftgate to move. If I have a heavy load in my hands, I want to know whether I've successfully pressed the button on the key FOB, but I find myself pressing it too many times, and the vehicle begins to malfunction or freak out.
How often does this trouble occur?	Trouble occurs regularly.

No Concerns>

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken your vehicle to an authorized dealer for any reason? (check all that apply):	Have not taken my vehicle to any dealer since taking delivery.
Please explain further about your choice to recommend your vehicle:	It is proven vehicle and good value. It has genuine features that would allow driving on marginal roads.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	4 (agree).
Information in the Smartphone Application is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Please provide feedback on how Chrysler can improve the Smartphone Application	Don't have representatives call about our experience with the vehicle at 11:15 p.m. , surely they know Florida is on the east coast/

What Can We Do Better?>

Feedback/Concerns:	The auto braking feature could use some tweaking. It applies the brakes overly fast for most conditions and presents a tail end crash possibility. I no longer use that feature in heavier traffic but I may start using it in lighter traffic conditions.
What has Chrysler done right?	It is the best Jeep we have owned, having owned 6 previously.

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Vehicle Satisfaction Ratings

What are your favorite parts of your new vehicle?	The navigation system is current and easy to use.
Is there anything about your new vehicle you would like to see changed?	The mileage could be better

Detail on High Rated Items	
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	I have had Bose systems in other vehicles but this is the best sounding system so far.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	It looks like a higher end SUV but retains a Jeep look. Very nice.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	I would like to see some more color options would be my only regret. The finish is very good.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Really like the headlights in style and function.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	Like the blind spot warnings.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	Good visibility too.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Wonderful feature
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	Smoothest shifting vehicle I have ever driven the gear down to lowest gear takes a bit of getting used to because it slows the vehicle more than most vehicles of this type.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Great dealer experience and a stellar sales person in Guy Martin!
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	The more I drive this vehicle the more I appreciate its quality. Nice job, Jeep.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The only feature that was a bit frightening was pulling up to a concrete curb stop and watching the vehicle lower onto the curb from its earlier higher driving stance?

About You	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	When you trade in you never really know, do you?
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	GMC. 3500 Pickups. Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	Chevrolet. Tahoe Hybrid. 2014. Primary Considered Vehicle: New.
Which, if any, influenced your purchase decision? (check all that apply):	Previous experience with the vehicle/brand.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your gender	[redacted]
What year were you born?	1[redacted]
Please indicate your highest education level	Professional pilot
What is your current marital status?	[redacted]
Please indicate your ethnicity	[redacted].
What is your total household income (before taxes)?	$125,000 - $149,999.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Smartphone Application covers the necessary features	5 (strongly agree).
Please rate your overall level of satisfaction with the Smartphone Application	5 (very satisfied).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	See previous comments - Best vehicle i've owned
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	hard control of seats preferred

Hands-Free Phone / Bluetooth system loses connection	
How often does this trouble occur?	Trouble occurs regularly.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.
Is there more than one phone paired to the vehicle?	Yes.
Lost connection problem happens when:	Other: Please describe when this trouble occurs.
Were you in the middle of a call?	No.
Additional Comments:	Media only

Interior Climate Control>Controls and Switches>	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.

AUX	
Please describe the trouble you experienced (check all that apply):	I Phone 4s fine for calls, wont stay connected for bluetooth media
Where is the location of the media port?	Bluetooth
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	It rarely plays media

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Would like hard button for heated seats & steering wheel in lieu of having to go through a couple touch screens - its minor.
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Seat Heating/Ventilation controls only
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Used to hard controls for seat heat/vent
Additional Comments:	I love my 2014 Jeep Grand Cherokee Overland Diesel. It is the best car I've ever owned. My comments are all minor. My I phone works flawlessly for a phone, but the bluetooth rarely works for playing my music via media, even though it shows connected. Overall you hit a home run with this vehicle. Last car was a 2012 VW Touraeg TDI. This one handles just as well and exceeds in every other category.

Detail on High Rated Items	
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	wish the forest green looked more green on a grey day
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	The shift is very sensitive
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	had to go to second dealer..first dealer is Saco ME were jerks! made appt to test drive hemi didn't have one didn't want us to oder car we wanted, etc. Bournval in Portsmouth NH was great to deal with
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	All of our jeeps have had 150,000 plus miles with great reliability
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	like the full size spare tire...several neighbors envious of this feature for their cars
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Getting in and out the new jeep is a little higher off ground...harder to transport elderly relative...but you've improved the overhead handles...last jeep on side...not good for older passengers.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	two of our neighbors just bought the new jeep because of us..we've always liked the performance of our jeeps

Features/Controls/Displays>Displays and Instruments>Odometer/trip odometer works properly, but difficult to understand/use; controls/displays poor loc.>

Odometer/trip odometer works properly, but difficult to understand/use; controls/displays poor loc.	Controls/displays require too much attention (must take eyes off the road) to operate. Controls/Display are confusing or difficult to operate.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location

Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	we are not tech savy and changing settings are very frustrating. the first time it went off, I nearly wrecked the car. the warning system should be gradually elevated to avoid creating a panic situation.

Blind spot monitoring/warning system works properly, but is difficult to understand/use; controls/displays are in a poor location

Please indicate why the blind spot monitoring/warning system is difficult to understand/use or is in a poor location (check all that apply):	it needs to be able to change colors. ie: green, yellow, red would really help and be more user friendly

Features/Controls/Displays>Displays and Instruments>Odometer/trip odometer works properly, but difficult to understand/use; controls/displays poor loc.>Controls/Display are confusing or difficult to operate>

Please indicate which of the following best describes your concern (check all that apply):	Controls/displays are confusing. Controls/displays are difficult to operate.
Please select all that applies:	Scrolling through features is confusing / does not make sense. Controls require too much effort/force to operate.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.

Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe the other trouble you experienced:	PASSANGER DOOR DOES NOT SHUT WELL NEEDS REPAIR. CENTER CONSOLE BROKE WITHIN 1ST 6 WEEKS....THIS CAR IS SO CHEAPLY MADE ITS A DISGRACE

Overview	
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.
Would you recommend this vehicle to family or friends?	No.
Please explain further about your choice to recommend your vehicle:	This survey was more than 10 mins....The bait and switch again!!!! I miss the quality of my 2011 Overland. There is a definite deference in quality and I am driving a Summit this time, regrettably. Last time, I was your biggest salesperson, could not say enough great things. This time, ZERO> Even my children can recognize the difference. Drives well...and I am being a lady by ending with something nice
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>	
Feedback/Concerns:	If you really read this survey, as I have been thoughtful, and truly given feedback, then this question has more than been answered.
What has Chrysler done right?	price point....rides decent...there are others just on the other side of this price point and that is where I will shop next time due to quality issues this

What Can We Do Better?>	
	time around. Very disappointing....By the way, I have been driving jeeps since 1990.....too bad

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	read my survey and you will see the issues 248-705-1900

Active suspension system works but is difficult to understand/use	
Please describe why the active suspension system is difficult to understand/use:	they are in the worst spot....I will never use them yet they block me constantly. Why put them were they BLOCK THE TURN SIGNAL AND WASHER????

Blind spot monitoring/warning system works properly, but is difficult to understand/use; controls/displays are in a poor location	
Please indicate why the blind spot monitoring/warning system is difficult to understand/use or is in a poor location (check all that apply):	THE BEEPING IS ANNOYING AND DISTRACTING. I PUT MY BLINKER ON TO ALERT OTHER CARS...I KNOW THEY ARE IN THE OTHER LANE...BUT TO HEAR A CONSTANT BEEP WHILE I WAIT FOR TRAFFIC TO CLEAR SO I CAN GET OVER, NO THANK YOU

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	the car in the next lane was braking...why am I getting emergency BRAKE! warnings. Scared me to pieces. That can cause not prevent an accident. Too many features to turn off.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Active Suspension System.

Active Suspension System	
Active Suspension System	Active suspension system works but is difficult to understand/use.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesnt work/or is difficult to understand>	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information displays, but is inaccurate.

Hands-Free Phone / Bluetooth system loses connection	
How often does this trouble occur?	Trouble occurs intermittently.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.
Is there more than one phone paired to the vehicle?	No.
Lost connection problem happens when:	In the middle of a call.
Were you in the middle of a call?	Yes, and did not transfer call to headset.

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
Additional Comments:	I think I have made myself reasonably clear

Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location	
Please indicate why the front screen is difficult to understand/use (check all that apply):	8 inches of Awful!!!! the 2011 version was wonderful Granted you have improved the function with my iPod. Everything else is TERRIBLE!!!! Great features were made bad and poorly functioning. Why? Why? Why? I am forced to spend too much time fiddling with this just to get a song to REPLAY or tune to a song.....
Additional Comments:	plus, the favorite song, favorite artist function doesn't work worth a hoot either!

Text messaging works properly, but is difficult to understand/use	
Please describe the trouble you experienced (check all that apply):	SHE DOESNT SAY ALL THE WORDS OF THE TEXT
Additional Comments:	WHEN I SAY THE "SEND" COMMAND I AM NEVER UNDERSTOOD HOWEVER, THIS FEATURE HAS GREATLY IMPROVED OVER THE 2011

Please tell us how many miles are currently on your vehicle:	0-999.
Are you the primary driver of this vehicle?	Yes.

Other>

Please describe the other trouble you experienced:	Front collision warning goes off at the railroad tracks and speed bumps. needs to be adjusted so it doesn't freak me out everytime I go over the tracks....
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	I'm driving over something like railroad tracks or a speed bump
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Continuous Quality Insight

Continuous Quality Insight	Interior Trim/Storage/Windows. Other.

Interior Trim/Storage/Windows>Appearance>

Appearance	Interior materials soils/scuffs too easily.

What Can We Do Better?>

Feedback/Concerns:	I"d like front park assist on the vehicle. The rear is so helpful, but it is a pretty big car and the front assist would really come in handy parking. Could use a few more drink holders for long drives and when there ar two people in the car.
What has Chrysler done right?	Put the diesel motor in an SUV

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Can the brake warning be adjusted so it doesn't go off at every little thing?

Interior Trim/Storage/Windows>Appearance>Interior materials soils/scuffs too easily>

Please describe in the box below which material(s) have trouble with soiling/scuffing too easily:	I ordered the fost beige/brown. It;'s the brown that shows every fingerprint. It washes off but looks scuffed after touching it.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	WOuld sove the problem and look better if the interior were all beige. Don't know why that wasn't an option for the overland....

Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Entertainment/Navigation System/Connectivity>

Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Motorola.

Voice Activation / Recognition doesnt recognize command

Please describe when this trouble occurs:	Stating numbers, street names, cities. I have other voice activated software devices avd have no problem with those, such as a similar system on my Infinity M45. Widows closed, car parked and multiple tries at stating my address for example. AC not on.
What button did you use?	Steering wheel's
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.

Interior Trim/Storage/Windows>Abnormal Noises>

Abnormal Noises	Squeak/rattle/abnormal noises from instrument panel/dashboard.

Interior Trim/Storage/Windows>Abnormal Noises>Squeak/rattle/abnormal noises from instrument panel/dashboard>

Please describe in the box below where from the instrument panel/dashboard the trouble with abnormal noises is located:	There is a fast rattle/buzz that occurs routinely from the center of the dash below the windshield like a resonance with the engine.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Normal driving on smooth roads
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Brake System>Brake Operation>

Brake Operation	Brakes do not have enough stopping power; brake pedal requires too much effort.

Brake System>Brake Operation>Brakes do not have enough stopping power; brake pedal requires too much effort>

Trouble with brakes occurs during this type of braking (check all that apply):	Car lacks sufficient break horsepower
Trouble with brakes occurs while traveling at these speeds (check all that apply):	All speeds. All road conditions.

Brake System>Brake Operation>Brakes do not have enough stopping power; brake pedal requires too much effort>	
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Other>	
Please describe the other trouble you experienced:	There is no apparent means to turn off the radio which always comes on at startup. The manual does not provide any capacity for the DEF fluid for the diesel engine. The selection of the heated wheel and seats ("Remote") does not function with remote startup as it should. The crash avoidance sensor is too sensitive laterally so that when passing a vehicle that has turned off into the right land the "BRAKE!" warning has been activated twice.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Entertainment/Navigation System/Connectivity>	
Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Apple.
Please tell us your cell phone model	iPhone5
If known, please tell us your software version	iOS 7.0.4
Entertainment/Navigation System/Connectivity	None

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please indicate which words, if any, are constantly misrecognized:	I haven't used the system enough yet to see any patterns.
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	I use my GC as a transportation device, not a phone booth, so I don't have much experience with the phone.

Voice Activation / Recognition doesnt recognize command	
Additional Comments:	Grrrrrrrrrr.

Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location	
Please indicate why the front screen is difficult to understand/use (check all that apply):	it is made too small by all the metadata constantly surrounding the screen. See my comments in the question above. Perhaps this comment belongs somewhere else, but .... the navigation system is essentially useless for road trip navigation. It does not show useful information, like rest stops and small town names, no matter the map scale selected. It does not recognize state highway numbers ("unknown road"). Before the dealer "re-updated" the software, it lost me - did not know where the vehicle was, rendering a key feature of the vehicle - 911 access - useless. Now it mostly knows were I am but it uses nearby but erroneous street names. It says I'm on Smith street when I'm actually on a road that eventually crosses Smith Street or it says I'm on a road with an unusual name that is on the other side of the mountain from where I am and where the vehicle icon correctly places me. Amazing, but annoying and problematic. Sometimes one push of the "+" sign takes me from a view of say 20 miles to a view of 200 miles. Example: leaving Houston, TX the nav screen showed from roughly the center of Houston to the outer loop - maybe 30 miles. One push of the + icon and the view included from the opposite side of Houston to the opposite side of San Antonio, TX - approximately 300 miles.
Additional Comments:	I hope you will select a better Nav system next time. It would be nice if you can remedy the system in existing vehicles. go drive an Infiniti on an 800 mile trip and then try the same trip in a 2014 GC and you'll see what I mean.

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception.

AM/FM/HD/Satellite radio channels have poor or no reception	
Please indicate which frequency band has trouble (check all that apply):	Before the dealer "re-updated" the Nav system, the radio would just go off. By and by, it would come back on. It has not done that since the re-update, which occurred recently. I hope it's fixed. I'll describe what it did before the re-update in the questions immediately following this text box.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Typically remote areas, but not exclusively remote
Additional Comments:	Sometime the radio would go off and the Nav system would get confused where the vehicle was. Sometime the radio would work but the Nav system would not. In both cases, sometimes there were a full complement of satellites being tracked, or nearly so, and other times there were no (zero) satellites shown.

Speakers have poor sound quality	
Please indicate which speaker has trouble (check all that apply):	Poor fidelity. No appreciable base and unpleasant treble. I have used the equalizer to boost the base 100%, reduce the treble 100%, and neutralize the mid range. I doubt it is the speakers but rather the system itself. The sound is not befitting the rest of the vehicle, which is much higher quality (if unreliable)

Speakers have poor sound quality	
	Hum.. I'll look to see if there is one. sure does not sound like it. I have not read the manuals on CD because it is too much trouble / not very effective way to learn about a new, highly sophisticated vehicle, IMHO. I ordered the paper manuals but they arrived after I left on my current trip, so I haven't read them yet.
Please indicate which media sources were being played (check all that apply):	FM. Satellite Radio.
Trouble with speaker occurs:	At all volume levels.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	Please see my comments in previous text boxes. sorry. Please see my comments in previous text boxes. sorry.
Please indicate which navigation system item has trouble (check all that apply):	Please see my comments in previous text boxes. sorry. Please see my comments in previous text boxes. sorry. Please see my comments in previous text boxes. sorry.
Additional Comments:	I hope you do go back and read my comments. The Nav system is important to many of us and the one in my GC is among the worst I've used in a long time. You can do better.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesn't work/or is difficult to understand>	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Takes a while to populate and then some of the coloring on the map is so subtle it is hard to interpret in a moving vehicle, especially in traffic. The "Traffic" icon in Nav selection screen (where am I, where to, etc) is a mystery to me. I push it and typically nothing happens. Other times it eventually presents text traffic information that seems wholly irrelevant to my situation or to my trip if I am using the Nav function. ??

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Not of interest to me.

Engine>Engine Fuel consumption>

Engine Fuel consumption	Fuel consumption is worse than expected.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Engine>Engine Fuel consumption>Fuel consumption is worse than expected>	
What type of fuel do you most often put into your vehicle?	Diesel.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
Where do you do most of your driving?	Combination of city/highway driving.
Are you using your vehicle for towing when the problem occurs?	No.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	On a highway run with about 200 miles on the car I achieved highway mpg over 30, has not happened since. Combination mileage has seemed to drop rather than improve with 2200 miles on vehicle

What Can We Do Better?>	
Feedback/Concerns:	Dealer did a great job handling the leasing transaction, delivery of vehicle, knowledgeable sales staff, and good service department. Delivery prep of vehicle was well done. I chose this Grand Cherokee, coming out of a lease on a Q7, and evaluated a BMW X5. After service work, I was disappointed that the car was not washed or vaccumed, got used to that with the Audi and my wife's Infinity. Knew I was back at an American car.
What has Chrysler done right?	Style is great, ride and comfort on this Daimler platform are commendable, I anxiously awaited the diesel option, and look forward to a robust and economical motor that performs well.

Detail on Low Rated Items

You rated your purchasing experience (at the dealer/dealership) Low. Use this space to provide any specific comments you would like to share.	Worst experience I've ever had. Too much to list. I've already completed a survey on it. I'm appalled at Baxter. The sales person was nice but I'm not sure he knew enough to stick up for me and the bull sh*t the dealership was putting me through. I can understand driving my jeep from another dealership if it's within 2 hours or even 5 hours. But to drive it from Oklahoma to Omaha, NE (states don't even touch!) versus put it on a trailer is just wrong. Especially to not tell me you were going to do that. I wouldn't have bought the Jeep had I known that. Who wants to "new" Jeep with almost 500 miles on it already? I can't imagine doing that to someone. Lots of sketchy stuff going on there.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Center console has very little room with the CD player in it. Not enough USB slots in the front.

Overview

The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Smartphone Application covers the necessary features	2 (disagree).
Please rate your overall level of satisfaction with the Smartphone Application	2 (dissatisfied).
Please provide feedback on how Chrysler can improve the Smartphone Application	I'm assuming you're talking about the UConnect App. Since I have yet to see it actually work, everything could be improved
What information did you need that was not included in the Smartphone Application?	No spot to see alerts if security system goes off or something. My type of phone can't get the text messages so if the App had that availability to view that would be great

Overview	
Which feature or section of the Smartphone Application did you find least helpful and why?	Remote start. It doesn't work
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	Overall, it's a good vehicle. I'm most disappointed with the gas mileage. At the very least, I was expecting 17 mpg. Even when driving mostly interestate I've only seen it get 21 or maybe 22 mpg. Under no normal condition can I ever see it actually getting 24 mpg as stated. If I were you, I'd make more room in the center console. I have the CD player so that's in there but that leaves not much room AT ALL for anything. Also, a spot to put your loose change would be great! Right now I have to use one of the cup holders up front.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.

Vehicle Satisfaction Ratings	
Overall audio, entertainment, and navigation system impression	4.

How was your purchasing experience (the dealer/dealership)?	1.
How do you feel about the durability of your new vehicle?	4.
How do you feel about the VALUE of your new car? (i.e.	3.

Vehicle Satisfaction Ratings	
What is your attitude overall towards your new car?	4.
What is your attitude overall towards the BRAND of your new car?	4.
What are your favorite parts of your new vehicle?	Lumbar support is great
Is there anything about your new vehicle you would like to see changed?	At least get the advertised gas mileage

What Can We Do Better?>	
Feedback/Concerns:	See my other comments a few pages ago. I mentioned some things that could be improved in the design. Oh, I did forget about the trunk. Not much room. That net that comes with it is worthless. Hard to get it to stay in place. I wish the rear hatch had the option for the window to go down so you coudl just reach in there to put something or grab something out versus having to open the entire hatch. Also, it would be great if you could just push it slightly and it would close. I have to push it almost all the way down for it to close the rest of the way
What has Chrysler done right?	For a Jeep, it's a pretty smooth ride. Much better than I expected. I like some of the features you did add that are smart such as the flashlight that's always charging. Maybe add a small vacuum! That would be cool

Remote phone/email notifications are broken/not working	
Please describe the trouble you experienced (check all that apply):	Per the UConnect site, it doesn't sound like you can get the notifications via text. Also, every time I use the UConnect remote start app, it fails. Has yet to start the jeep. The remote start "key" is awesome though. Great range!
Do you recall your cellular coverage at the time?	Full cellular coverage.

Remote Features	
Remote Features	Remote phone/email notifications are broken/not working.

Uconnect Access	
Uconnect Access	Remote Features.

Media	
Media	CD. USB Connection.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Entertainment/Navigation System/Connectivity>	
Please choose your cell phone carrier	AT&T Mobile.
Please choose your cell phone brand	Apple.
Please tell us your cell phone model	iPhone 5
If known, please tell us your software version	iOS 7.0.4

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	Location of a restaurant was missing. Only had the old location. Location of a restaurant was missing. Only had the old location.
Please indicate which navigation system item has trouble (check all that apply):	Map is missing information. Map contains incorrect information.

Text messaging works properly, but is difficult to understand/use	
Please describe the trouble you experienced (check all that apply):	Per UConnect site, iPhones won't work for text messaging??

USB Connection	
Where is the location of the media port?	Radio/center stack. Rear seat.
Please describe the trouble you experienced (check all that apply):	Not enough USB ports up front. I'm using one for my iPod Nano and then have to reach to the back seat to use a USB port to charge my phone. There should be multiple up front

USB Connection	
Please indicate if you are able to do either of the following (check all that apply):	Charge devices. Play audio.
How often does this trouble occur?	Trouble occurs regularly.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Reverse-Camera.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location. Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location. Speedometer/Tachometer works properly, but difficult to understand/use; displays in a poor location.

Features/Controls/Displays>Features and Controls>Reverse-Camera>	
Reverse-Camera	Reverse-camera works properly, but difficult to understand/use; controls in a poor location.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	It's too much! I was scared out of my mind when it went off and I didn't know what was happening. I wasn't even near a collision with anyone. I had to turn it off because the warning system alone may make me GET into an accident versus prevent one

Features/Controls/Displays>Features and Controls>Reverse-Camera>Reverse-camera works properly, but difficult to understand/use; controls in a poor location>	
Please indicate which of the following best describes your concern (check all that apply):	The distance as appears in the camera is WAY different than actual distance. By the time it warns you, you're already way too close. The only way you'll know that you're as close as you are is to actually look. Can't just look at the camera or you'll hit something or someone
Please indicate why the reverse-camera controls are difficult to understand/use; are in a poor location (check all that apply):	The distance as appears in the camera is WAY different than actual distance. By the time it warns you, you're already way too close. The only way you'll know that you're as close as you are is to actually look. Can't just look at the camera or you'll hit something or someone It would be great if you could control the camera and move it to the left or right

Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Once you hit the "low fuel" you no longer see how many miles left you have. That's super annoying. Also, the number of miles you have left is always adjusting because of current gas mileage you're getting. That makes sense in a way but the drastic +/- change in number of miles is alarming
Please indicate why the fuel gauge/low fuel warning light controls/displays are difficult to understand/use; are in a poor location (check all that apply):	Once you hit the "low fuel" you no longer see how many miles left you have. That's super annoying. Also, the number of miles you have left is always adjusting because of current gas mileage you're getting. That makes sense in a way but the drastic +/- change in number of miles is alarming

Features/Controls/Displays>Displays and Instruments>Speedometer/Tachometer works properly, but difficult to understand/use; displays in a poor location>	
Please indicate which of the following best describes your concern (check all that apply):	I'm tall so where I've got the wheel (pretty low) I've got to bend down to see how fast I'm going once I'm over 45 mph. I dont' want to raise the steering wheel higher b/c then I feel like I'm driving a bus and it's not comfortable.
Please indicate why the speedometer/tachometer controls/displays are difficult to understand/use; are in a poor location (check all that apply):	I'm tall so where I've got the wheel (pretty low) I've got to bend down to see how fast I'm going once I'm over 45 mph. I dont' want to raise the steering wheel higher b/c then I feel like I'm driving a bus and it's not comfortable.

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
Going into which gear/gears does the trouble occur? (check all that apply)	Most often in lower gears but the transition between gears just feels off. Kind of like a delay or just a lot of effort by the car to switch between gears 1st Gear. 2nd Gear. 3rd Gear. 4th Gear.

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
	5th Gear.
	6th Gear.
	7th Gear.
	8th Gear.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration.
	Hard acceleration.
	Maintaining a fairly constant speed while driving on steep/hilly roads.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Hesitation or delay when shifting between gears.

Engine>Engine Fuel consumption>	
Engine Fuel consumption	Fuel consumption is worse than expected.

Engine>Engine Fuel consumption>Fuel consumption is worse than expected>	
What type of fuel do you most often put into your vehicle?	Ethanol.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
Where do you do most of your driving?	City/freeway rush hour driving (stop and go driving with a variety of speeds below 45 mph).
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Normal conditions
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	I have yet to get the 17 mpg that is the city number that's quoted on the car. It's usually 14.5 to high 15's. Very disappointed. I'm even using the "eco boost" button which is worthless from what I've seen

Interior Trim/Storage/Windows>Abnormal Noises>Squeak/rattle/abnormal noises from glove box>	
Please describe in the box below where from the glove box the trouble with abnormal noises is located:	Pretty sure that's where the rattle is coming from. Either that or the door panel on the passenger side.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Always
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Trim/Storage/Windows>Abnormal Noises>	
Abnormal Noises	Squeak/rattle/abnormal noises from door panels.
	Squeak/rattle/abnormal noises from glove box.

Interior Trim/Storage/Windows>Abnormal Noises>Squeak/rattle/abnormal noises from door panels>	
Please indicate which interior door panels had abnormal noises (check all that apply):	Passenger's side front door.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Normal conditions
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

About You

Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	51,300
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	Acura. MDX. 2004. Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	Acura. MDX. 2014. Primary Considered Vehicle: New.
Which, if any, influenced your purchase decision? (check all that apply):	Edmunds. On-Line blogs or forums. Recommendations from friends or family. Vehicle test drive. Dealership information. Manufacturer?s website.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	Towing ability, torque and fuel economy
Secondary vehicle you were considering:	Toyota. 4runner 4WD. Secondary Considered Vehicle: New.
Primary vehicle in your household:	BMW. 3 Series. 2008. Primary Household Vehicle: Purchased New.
Secondary vehicle in your household:	Acura. MDX. 2014. Secondary Household Vehicle: Purchased New.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your gender	[redacted].
What year were you born?	[redacted]
Please indicate your highest education level	4 year college degree.
What is your current marital status?	[redacted].
How may children 17 or under live in your household?	1-2.
Please indicate your ethnicity	[redacted].
What is your total household income (before taxes)?	More than $200,000.

Detail on High Rated Items

You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	NAV system is intuitive. Very easy to input information. Smart limits of input while driving. I like that system isn't "locked down" completely while driving.
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	Type is large enough to read while driving without having to put on reading glasses. I had that issue with a Ford I had rented recently.

Detail on High Rated Items	
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	Incredibly easy sync with iPhone and data.
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	seamless controls with iPods.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	See above.
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	I've only used iPods with.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	GC is sleek while still looking masculine. I originally compared with Toyota 4 runner..Clunky and Acura MDX 2014 went too feminine. New Durango windows were too chopped. Jeep is a good balance and compared favorably to the MDX I replaced.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	I like being able to control which doors open when truck is unlocked remotely.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	My wife loves the auto high beam when driving mountain roads. I haven't experienced need yet.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Only improvement would be somewhere to keep loose change.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	Lots of control for differing body types. Plenty of leg room.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	"Enter Park-setting"!! Isn't that just genius.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	See above
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	Plenty of control to get right setting.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	I have adapted to gear selector. Took a while. Still not 100% sure I've move to R instead of N.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	Eco-Diesel is awesome. Fine in Eco-mode (sometimes lugging) but crazy good in sport mode.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	Enjoying 22 mpg in town. 29 on highway is just fun to brag about. Can't wait to tow boat.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Forward collision avoidance... kicks in a little aggressively when passing a turning car in the next lane over. I have reduced to "aggressive drive", but still nearly soiled myself when it started screaming at me and applying the brakes for me. Almost turned off completely, but I would be embarrassed to have an accident that could have been avoided.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Too many chrome pieces on trim that collect water after washing. Minor complaint.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

What Can We Do Better?>	
Feedback/Concerns:	My truck was a special order. Real time on-line tracking could be improved. Too many gaps in information. Dealer knowledge of diesel was also lacking. Jeep Garage website had more information than Jeep sites.
What has Chrysler done right?	The diesel is awesome! Technology is intuitive. Easy to understand displays. Very comfortable ride. The pre purchase apps were "fun" but lacking in time frames.

Vehicle Satisfaction Ratings	
Overall audio, entertainment, and navigation system impression	5.
Clarity of sound	5.

Overview

Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Please provide feedback on how Chrysler can improve the Smartphone Application	Not a application we will use due to the additional charges per month
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Would you recommend this vehicle to family or friends?	No.
Please explain further about your choice to recommend your vehicle:	You need to fix the basics. It is a good vehicle but to have something as simple as 3D not work on the Nav indicates a major disconnect on technology. This has already been resolve - why "unfix" it at at this point?
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Detail on Low Rated Items

You rated overall audio, entertainment, and navigation system impression Low. Use this space to provide any specific comments you would like to share.	Fix the 3D issue
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	We are quite disappointed the 3D doesn't work. Some of the other things we can live with but this is a terrible oversight on the Nav people part.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesnt work/or is difficult to understand>

Please indicate what issues you are experiencing with the traffic information (check all that apply)	The 3d / 2D issue mentioned.

About You

Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	52000

What is your attitude overall towards the BRAND of your new car?	4.
Is there anything about your new vehicle you would like to see changed?	Heat gets really hot before returning to normal

What Can We Do Better?>	
Feedback/Concerns:	Unconnect treated me like I am stupid. The dealer recognized there was an issue after I took picture of the different screens to show them what is wrong. Everyone at the dealership agrees it is not correct but I am still waiting for a resolution and I am not very hopeful I will get a positive response.
What has Chrysler done right?	You have nice vehicles, nicely featured for the price. I have been a believer until the Uconnect person treated my concerns the way they did.

What Can We Do Better?>	

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	[redacted]

Are you the primary driver of this vehicle?	Yes.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions. Navigation system works, but traffic information doesn?t work / or is difficult to understand.

Entertainment/Navigation System/Connectivity>	
Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Apple.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	The navigation system 3D view does not work when you zoom out. In other versions of UConnect Nav (our 2011 Durango Citadel) this works fine but in the Jeep it goes to 2D which is awful for viewing. 3d should be 3D, not 2D
Please indicate which navigation system item has trouble (check all that apply):	The colors on traffic are hard to differentiate. Too many neutral / pastels - needs more contrast.

Interior Climate Control>Controls and Switches>	
Controls and Switches	Front heating, ventilation and air conditioning controls are broken/not working.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Front heating, ventilation and air conditioning vents are broken/not working. Rear window defroster broken/not working properly.

Tilt/telescopic steering wheel/column has a poor range of adjustment	
Which best describes the problem?	It could use another inch of downward adjustment.
Which function has poor range of adjustment? (check all that apply):	It could use another inch of downward adjustment.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	all the time.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	It could use another inch of downward adjustment.

Strut problem/shock absorber problem	
Please indicate where the strut/shock problem occurs:	Rear.
Please describe conditions when this trouble occurs:	The passenger side rear adaptive suspension wiring harness rubbed another part of the car and caused a short which fried the harness. A new one was ordered and I'm awaiting a 2/24/14 appointment for it to be installed.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Additional Comments:	The ride is VERY rough when the adaptive suspension is not engaged. Feels like I'm driving my old ford F-150 again :(

Front heating, ventilation and air conditioning vents are broken/not working	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which control is broken/not working properly (check all that apply):	Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Only when there are other systems failing
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	please see above and previous comments. two occurrences.

Front heating, ventilation and air conditioning controls are broken/not working	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which control is broken/not working properly (check all that apply):	Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all. Hard keys and touchscreen both not functioning properly or at all.

Front heating, ventilation and air conditioning controls are broken/not working	
	Hard keys and touchscreen both not functioning properly or at all.
	Hard keys and touchscreen both not functioning properly or at all.
	Hard keys and touchscreen both not functioning properly or at all.
	These systems are down since the radio/nav/HVAC system has been down or act very erratically as described earlier.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Only when there are other systems failing
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	This problem has occurred twice since I've had the vehicle. The first time was inside the 0-1499 mile range. the second was now at 14K mile range.

Brake System>Brake Noise>Brakes are excessively noisy>	
What area of the vehicle is the brake noise coming from?	Front Brakes.
What does the noise sound like?	Squeak/squeal.
Trouble with brakes occurs during this type of braking (check all that apply):	Brakes squeal under low speed application. They also have been grinding slightly but that's just started.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Squeals only occur at low speeds. VERY IRRITATING!!! No EXTREMELY IRRITATING!!!
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	Squeals only occur at low speeds. VERY IRRITATING!!! No EXTREMELY IRRITATING!!!
	Brakes clamp and seem to have a hard release when letting off the brakes. Seems like they are holding excessively. The sound made when they let go is alarming!!!
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	As noted above the squeal is bad enough to grab your attention several cars away. The dealership told me that high speed driving causes this and that it's normal. I have a hard time believing this!
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Additional Comments:	The excessive holding and release noise while snowy/slushy conditions caused me to pull over several times to see if something was caught in the wheel. The sound was felt and heard throughout the entire vehicle. I think this car should be studied instead of driven.

Ride	
Ride	Strut problem/shock absorber problem.

Steering, Handling, and Ride>Steering and Handling>	
Steering and Handling	Tilt/telescopic steering wheel/column has a poor range of adjustment.

Brake System>Brake Operation>Brakes generate excessive brake dust>	
Where does the excessive brake dust build-up appear?	Front wheels.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	The brake dust is a problem all the time. I wash it constantly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Loads of brake dust. I even remove the wheels to clean the backside of the wheels.

Brake System>Brake Operation>	
Brake Operation	Brakes generate excessive brake dust.

Brake System>Brake Noise>	
Brake Noise	Brakes are excessively noisy.

Active suspension system is broken/not working	
Please describe the trouble experienced with the active suspension system:	A wiring harness was worn due to it rubbing on another part of the vehicle. This caused a short and destroyed the harness's ability to function. When this occurred the console showed a "Service adaptive suspension system" warning. A new harness was ordered and I'm waiting for a 2/24/14 appointment for replacement.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	No prior warning beyond the dash cluster warning above.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Active suspension system is broken/not working	
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Additional Comments:	While the adaptive suspension system has been down the vehicle has been riding VERY rough. It's quite amazing how much this system is able to smooth out the ride. But very unnerving that it's so essential.

Interior Trim/Storage/Windows>Abnormal Noises>	
Abnormal Noises	Squeak/rattle/abnormal noises from headliner. Squeak/rattle/abnormal noises from center console.

Blind spot monitoring/warning system is broken/not working	
Please indicate the trouble you experienced with the blind spot monitoring/warning system (check all that apply):	Not functional while the other systems described earlier are down. Very serious flaw and should be investigated on this vehicle immediately. The indicator lights on the mirrors came on for 2 days and never turned off. Then when the entire nav system went down they went out and have been non-functional. The indicator lights on the mirrors came on for 2 days and never turned off. Then when the entire nav system went down they went out and have been non-functional. The indicator lights on the mirrors came on for 2 days and never turned off. Then when the entire nav system went down they went out and have been non-functional.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Please see above.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	There are gremlins in this car. :(

Interior Trim/Storage/Windows>Abnormal Noises>Squeak/rattle/abnormal noises from center console>	
Please describe in the box below where from the center console the trouble with abnormal noises is located:	There is a rattle coming from the new electronic shifter lever. There is no reason for this and no one can find the issue. When I lean on the shifter to the left the noise stops. Ugh... Getting the idea that this vehicle was not well put together.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	at low speeds.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	I've got 14K miles on this car and it's been in the shop more than the past 3 vehicles I've had. (beyond normal oil changes and maintenance) Not feeling the love you guys are putting into it. And I really want to. SRT means a lot to a lot of people. I want to recommend this vehicle but it's not looking good. And I'm sure you'd agree.

Interior Trim/Storage/Windows>Abnormal Noises>Squeak/rattle/abnormal noises from headliner>	
Please describe in the box below where from the headliner the trouble with abnormal noises is located:	Took the vehicle in and service and they confirmed the noise coming from the sunroof and panorama roof glass. When the vehicle is at low speeds the glass seems to squeak like it's loosing the seal. Even though the window is fixed it makes this noise. Seems pretty bad as this is a $70,000.00 vehicle. BMW, Mercedes and Audi are all willing to put me in their vehicles and will absolutely guarantee that this won't happen in their comparable models.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	When I'm backing out of my garage and onto the paved driveway. Only at low speeds and very irritating. Service agreed that if it's replaced that the entire window, seals, frame and glass must be removed. This is essentially a rebuild of the entire top of the car. I'm afraid of the probability of further issues if all this is done.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	When I'm backing out of my garage and onto the paved driveway. Only at low speeds and very irritating. Service agreed that if it's replaced that the entire window, seals, frame and glass must be removed. This is essentially a rebuild of the entire top of the car. I'm afraid of the probability of further issues if all this is done.

Hard controls/menus: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	When the system is down the HVAC controls as well as the proximity sensors all become very erratic.
How often does this trouble occur?	Trouble occurs intermittently.

Hard controls/menus: Front Screen Display: Other Concerns	
Please describe conditions when this trouble occurs:	When the system that controls the screen is down the hvac buttons become unresponsive and or erratic when pressed. Sometimes they will automatically turn on without notice.
Additional Comments:	This behavior NEEDS to be investigated. Knowing that the microcontrollers and other computers need to talk to one another for normal operation they should also be able to handle a singular system not responding. Nor should this unresponsive system cause cascading problems. This seems a real cause for concern for the test engineers to investigate. I'd be happy to provide further info to help define this problem.

Front seat audio/entertainment/navigation controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	I took the car in for the first recall and when the radio was updated I lost the ability to see the traffic info. I was told that there were problems with this update and needed to bring the vehicle back for another update. This still did not resolve the problem and required a call to Sirius to perform a master reset. That fixed the problem. However in the past week the entire system has stopped working.
	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.

	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.
	I have an appointment to have this fixed on 2/24/14
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	One day everything is working great and I start up the vehicle and the system is not functional. I cannot trace this problem with any certainty as to the cause.
Additional Comments:	I couldn't be more pleased with the performance of the car with regards to engine power and control. However it seems to me that the electronic systems need further testing. I would also recommend that the drivers of SRT vehicles be invited to a forum at the dealership with SRT Team members present. This would allow for some great feedback regarding these systems and the pros/cons experienced.

Hard controls/menus: Front Screen Display is broken/not working	
Please indicate your concern with front screen display (check all that apply):	Currently not working due to the entire system being down.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	One day everything is working great and I start up the vehicle and the system is not functional. I cannot trace this problem with any certainty as to the cause.
Additional Comments:	Currently not working due to the entire system being down.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.

	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.
	These controls have been behaving very erratically since the entire screen/nav/radio system has been down.
	Currently not working due to the entire system being down.
	Currently not working due to the entire system being down.
	Please see the Heating, Cooling, Ventilation controls section above for more info.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	One day everything is working great and I start up the vehicle and the system is not functional. I cannot trace this problem with any certainty as to the cause.

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
Additional Comments:	Again the HVAC controls behaving very strangely. When the system is down the rear defrost comes on. pressing the hard key does nothing. Then all of a sudden the front defrost will turn on and run the vent fan to 100% The AC hard key will turn on and run for a while then when you press the HVAC off button the system turns off everything but the rear defrost button. Then pressing auto will cause the HVAC system to turn on and off sporadically. This issue is incredibly strange and this vehicle should be examined by SRT engineers to figure out what's going on.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system freezes-up/will not work>	
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Currently not working due to the entire system being down.
Additional Comments:	Currently not working due to the entire system being down.

Please indicate your concern with front screen display (check all that apply):	Currently not working due to the entire system being down.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	One day everything is working great and I start up the vehicle and the system is not functional. I cannot trace this problem with any certainty as to the cause.

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	Currently not working due to the entire system being down.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	One day everything is working great and I start up the vehicle and the system is not functional. I cannot trace this problem with any certainty as to the cause.

Features/Controls/Displays>Features and Controls>Side window operation/controls>Side window broken/not working (open/close function)>	
Please indicate which of the following best describes your concern (check all that apply):	When the HVAC system failed the first time the passenger side window would not work at all. After taking the car to the dealership. The SRT mechanic noticed a screw that had penetrated a wire causing a short that fried the door side computer. This gave me back the ability to operate the window.
Side windows are:	Power windows.
Please indicate what type of trouble was experienced with the side window (check all that apply):	When the HVAC system failed the first time the passenger side window would not work at all. After taking the car to the dealership. The SRT mechanic noticed a screw that had penetrated a wire causing a short that fried the door side computer. This gave me back the ability to operate the window.
Please indicate which window is the source of the trouble (check all that apply):	When the HVAC system failed the first time the passenger side window would not work at all. After taking the car to the dealership. The SRT mechanic noticed a screw that had penetrated a wire causing a short that fried the door side computer. This gave me back the ability to operate the window.
Trouble with the window occurs:	Both opening and closing.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	After the door computer had failed.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	This caused a major problem for me as I was approx 120 miles from my dealership. Thankfully no rain was in the forecast but it was a chilly ride home with the window down.

Active Suspension System

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.

Engine>Engine Driveability (stumbles/hesitates/surges)>	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.

Interior Climate Control>Operation and Performance>Rear window defroster broken/not working properly>	
Please indicate what part of the rear window defroster is broken/not working properly (check all that apply):	I can't turn this off when the computer system is failing. It's on all the time and the hard key won't turn off. Since I can't see the display screen I have absolutely no control over it. :(
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	When the system that controls the screen is down the hvac buttons become unresponsive and or erratic when pressed. Sometimes they will automatically turn on without notice.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	I can't turn this off when the computer system is failing. It's on all the time and the hard key won't turn off. Since I can't see the display screen I have absolutely no control over it. :(

Engine>Engine Driveability (stumbles/hesitates/surges)>Engine stumbles/hesitates/surges>	
What type of fuel do you most often put into your vehicle?	Premium gasoline.
What best describes the engine drivability trouble? (check all that apply):	Seems to happen when coolant temp hasn't come up all the way to normal. Although it has stumbled when starting but that was months ago and hasn't occurred since.
Engine trouble occurs (check all that apply):	It seems to occur as noted above. after the first 5 minutes.
Engine trouble occurs after vehicle is started at:	as checked.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	while the engine hasn't come up to normal operating temp.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Understanding the limitation; it hasn't occurred since I've been mindful of it and allowing it to warm up.

Other>	
Please describe the other trouble you experienced:	I have had the rear backup camera on occasion act like the video frame rate is on the order of 5-10 frames per second. This means the video is choppy. It occurs only during very cold conditions. 0 - negative 15 degrees. Yes, I live in Pennsylvania it really does get this cold at times.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	during cold weather periods.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	8000 miles or above.

Overview	
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	SRT Dealership.
Was the trouble resolved to your satisfaction?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
Would you recommend this vehicle to family or friends?	No.
Please explain further about your choice to recommend your vehicle:	I would love to recommend this vehicle however due to the issues experienced I cannot. I love driving and really thought that this would perform beyond my expectations. So far the only thing that has is the motor. Everything else seems to have failed at least once. At this point I'll be looking to Porsche or BMW for my next performance vehicle.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Detail on High Rated Items

Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	Great when it's working.
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	Great when it's working.
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	Great when it's working.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	Great when it's working.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Great looking design
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Great looking
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Great looking
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	The wheels and the brembo's set this high!
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	The black vapor chrome wheels look great!
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Very nice SRT logos in the seats.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	ample storage, However it could use a cargo net.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	ample for me, avg height.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	Nice step out and slip in.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	The exhaust sounds great. But a bit much exterior noise from traffic.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	good adjustment.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	all within reach.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	Nice color temp in the lighting.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	no blind spots that aren't covered.
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	great when it's working.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	at 470hp who wouldn't love this.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	sounds good but still slightly disappointing a Borla S-Type would be perfect!
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	sounds good but still slightly disappointing a Borla S-Type would be perfect!
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	Unbelievable. These are fantastic brakes. But the squealing is appalling.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	very nice.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	I absolutely love this dealership. I feel like family when I'm there. I have asked and replied to surveys that they shouldn't change a thing. I'm very very happy here!
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	The dealership is what I'm most pleased with. The car has been problematic and that's disappointing. It's my greatest wish that they correct every issue and I'm sure they will.

Contact Me>	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Please review my survey in it's entirety and put yourself in my shoes. Then give me a call and we'll talk. You can reach me anytime @ work m-f 8AM-4PM [redacted] or please e-mail me a date and time you wish to speak and I'll schedule a conference room for us to talk in. The audio will be much better in my conf room. Yes.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	

What Can We Do Better?>	
Feedback/Concerns:	I would greatly appreciate someone looking into the instability of this vehicle's electronic systems. As I have experienced a second computer failure I am wondering what is the root cause of that. The rest of the issues I hope can be investigated and figured out for future SRT Grand Cherokee owners. I really want to love this car! However I feel less confident in it than most every other vehicle I've owned.
What has Chrysler done right?	Giving me the opportunity to give you this feedback is what I'm very happy you're doing. I'm an engineer myself and enjoy giving you feedback that your engineers can use to make the SRT brand a formidable name against the likes of Porsche, Audi, and so on. Thank you, I look forward to speaking with you.

Vehicle Satisfaction Ratings	
Overall audio, entertainment, and navigation system impression	5.
Clarity of sound	5.
Ease of using system displays while driving	5.
Integration with phones	4.
Integration with media players	4.
Navigation system route accuracy	5.
Support for popular music/video formats	2.
Exterior design and appearance (overall impression)	5.
Appearance of exterior paint	5.
Front view styling (front fascia, hood, grille, headlight area)	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Rear view styling (rear fascia, bumper)	4.
Wheels, rims, and tires appearance and styling	5.
Headlight illumination/performance during night-time driving	4.
Interior comfort, design and appearance of interior (overall impression)	5.
Vehicle storage and space usage	5.
Head/leg/foot room	5.
Ease of getting into and out of vehicle	5.
Interior noise level while driving	5.
Seat adjustment and comfort	5.
Steering wheel adjustment	2.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.
Location and usefulness of interior lighting	5.
Safety and visibility while driving	5.
Climate control operation (function and ease of use)	5.
Engine performance during acceleration	5.
Engine sound	5.
Engine exhaust sound	5.
Transmission gear change performance (smoothness)	1.
Fuel economy and driving range	3.
Brake responsiveness/effort	5.
Difficult driving conditions (adverse weather, off-road)	4.
Ride quality	4.
Steering and handling (responsiveness, stability)	5.
How was your purchasing experience (the dealer/dealership)?	5.
How do you feel about the durability of your new vehicle?	1.
How do you feel about the VALUE of your new car? (i.e.	1.
What is your attitude overall towards your new car?	2.
What is your attitude overall towards the BRAND of your new car?	2.
What are your favorite parts of your new vehicle?	The acceleration of the motor and the things above checked a #5 (when they're working)
Is there anything about your new vehicle you would like to see changed?	The rear brake lights should look more exotic to befit the uniqueness of a 70 thousand dollar car. The 2014 exhaust note is a bit disappointing. I'll be adding a borla S-type IF I get another SRT Grand Cherokee.

Detail on Low Rated Items	
You rated transmission gear change performance (smoothness) Low. Use this space to provide any specific comments you would like to share.	The downshifting while braking isn't smooth at all. I've tried to get used to the clamping of the brakes inbetween the downshifts but still haven't got it after 14K miles. I sort of think someone would drive this and tell me if it's normal.
You rated your feelings about the durability of your new vehicle Low. Use this space to provide any specific comments you would like to share.	With the numerous problems and electronic failures I feel that I'll be trading this car before the warranty is up. I shudder to think what these would add up to in out of pocket costs.
You rated the value of your new car Low. Use this space to provide any specific comments you would like to share.	I'm sure anyone would agree that for $70,000.00 dollars you would get a vehicle that delivered up to the price tag. So far I'm quite disappointed having spent so much time getting things repaired.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I hope that the SRT team understands my comments. I would love to work with someone technical to identify these issues and aid in the development of future SRT Grand Cherokee's. Its a worthy vehicle but perhaps I have the one they built on a Friday afternoon at 4:59pm.

About You	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	$70,000.00
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	Jeep. Grand Cherokee. 2014. Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	Porsche. Cayenne. 2014. Primary Considered Vehicle: New.
Which, if any, influenced your purchase decision? (check all that apply):	On-Line blogs or forums. NHTSA or IIHS safety ratings. Vehicle test drive. Dealership information. Manufacturer?s website. Automotive magazines. Previous experience with the vehicle/brand.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	Dealership experience
Secondary vehicle you were considering:	Ford. Shelby GT500. 2014. Secondary Considered Vehicle: New.
Primary vehicle in your household:	Honda. Pilot. 2013. Primary Household Vehicle: Purchased New.
Secondary vehicle in your household:	Subaru. SVX. 1997. Secondary Household Vehicle: Purchased New.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your gender	[redacted]
What year were you born?	1[redacted]
Please indicate your highest education level	in process of 4yr degree
What is your current marital status?	[redacted]
How may children 17 or under live in your household?	1-2.
Please indicate your ethnicity	[redacted].
What is your total household income (before taxes)?	$125,000 - $149,999.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Climate control, gas mileage

Welcome>	
Please tell us how many miles are currently on your vehicle:	3,000-4,999.
Are you the primary driver of this vehicle?	Yes.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Heating, ventilation and air conditioning doesn't maintain desired temperature.

Continuous Quality Insight	
Continuous Quality Insight	Interior Climate Control.

Heating, ventilation and air conditioning doesn't maintain desired temperature	
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	Vehicle gets to hot, have to set temp to 62 to maintain the desired temperature. After about 1 hour you can move the temp to 68 and it seems to maintain a comfortable environment.
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Outside temperature between 40 and 49 degrees. Outside temperature between 30 and 39 degrees. Outside temperature between 20 and 29 degrees. Outside temperature between 10 and 19 degrees. Outside temperature between 0 and 9 degrees. Outside temperature below 0 degrees.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	When climate control is first turned on.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Engine>Engine Fluids (leaks, excessive oil consumption)>

Engine Fluids (leaks, excessive oil consumption)	Engine fluid leaks.

Engine>Engine Fluids (leaks, excessive oil consumption)>Engine fluid leaks>

Which fluid is leaking?	Engine oil.
Where does fluid appear to be leaking from?	Front of engine (where the fan belt/drive belt is located).
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Brake System>Brake Noise>Brakes are excessively noisy>

What area of the vehicle is the brake noise coming from?	Front Brakes.
What does the noise sound like?	Squeak/squeal.
Trouble with brakes occurs during this type of braking (check all that apply):	Light braking. Moderate braking.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	Low speeds (1-25 MPH). Medium speeds (26-45 MPH).
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

What Can We Do Better?>

Feedback/Concerns:	Lack of replacement parts for the GC SRT. Price is way too hefty for this vehicle regardless of it's size and features compared to the other 'normal' SRT vehicles. Also, I don't like that it is limited to only 160MPH as compared to the other SRT cars.
What has Chrysler done right?	Overall the SRT is awesome and does continue to amaze me and people around me about it's raw performance and luxurious feel.

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Other>

Please describe the other trouble you experienced:	After needing replacement parts due to an accident, I had to wait over a month to get the vapor chrome wheels and a headlamp. Also, the adaptive cruise control sensor needs to be replaced but no one in the world has them in stock either. The 2014 JGC is a popular SUV and most of the items on them fit my SRT, so I would think that some of the stock of parts made for them would be set aside for situations like these. I plan on contacting Chrysler directly about all these issues I have experienced. It is sad that I buy the second most expensive vehicle they make and get this type of treatment. I have actually thought about trading it in for a different brand if parts are going to stay this scarce.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	When needing a replacement part
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	After accident residual issues arose and took it to my dealer. Took to collision place after accident. I had to wait 35 days to get my vehicle back.
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	4 (agree).
Information in the Smartphone Application is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).

About You	
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	68000
Is this your first new vehicle ever purchased / leased?	No.
Primary vehicle you were considering:	Nissan. GT-R. 2013. Primary Considered Vehicle: New.
Which, if any, influenced your purchase decision? (check all that apply):	Numerous youtube channel reviews. Edmunds. On-Line blogs or forums.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	Just wasn't practical for what I wanted at the time. The Jeep is more versatile.
Secondary vehicle you were considering:	SRT. Viper. 2013. Secondary Considered Vehicle: New.
Primary vehicle in your household:	Saturn. Sky. 2009. Primary Household Vehicle: Purchased New.
Which of the following best describes the area you live in?	Urban.
What is your primary language?	English.
Please indicate your gender	[redacted]
Please indicate your highest education level	Trade / technical school.
What is your current marital status?	[redacted].
How may children 17 or under live in your household?	0.

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Features/Controls/Displays>Displays and Instruments>

Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

What Can We Do Better?>

What has Chrysler done right?	

What Can We Do Better?>	
	On the new jeep - everything. it is dramatically different and improved from the old version. On my 2014 GC Summit, the wheels are not as attractive as the lesser models 5 spoke wheels. The new 8 speed transmission is also a fantastic upgrade. I also has a 2012 GC.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Overview

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Smartphone Application	2 (dissatisfied).
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Videon Chrysler jeep
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.
Would you recommend this vehicle to family or friends?	No.
Please explain further about your choice to recommend your vehicle:	I would never recommend this vehicle in fact I blast on social media it's a piece of junk I'm suiing jeep to take the junk back
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone only.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

What Can We Do Better?>

Feedback/Concerns:	The 2014 jeep grand Cherokee overland is a piece of shit. My car has been in the shop 10 times in 7 months for all the same issues. Navigation doesn't work and fails. The air suspension fails. Crash avoidance failed twice and more issues add daily. I tell people daily in person and on social media never buy a Chrysler/jeep product ever!
What has Chrysler done right?	Nothing I've been. Suiing you for 5 months my car has been in the shop 10 times I have invoices and videos and pictures of my issues and you won't acknowledge my car is a piece of junk

Continuous Quality Insight	Features/Controls/Displays. Entertainment/Navigation System/Connectivity.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	It has gone off when no animals or cars were in front of me and slammed on my brakes twice this has occurred

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system is broken/not working>	
Please indicate what type of trouble was experienced with the cruise control system (check all that apply):	Speed Set function does not work/engages at wrong speed. Speed Accelerate function does not work properly. Cruise control does not disengage when brakes are applied. Cruise control does not disengage properly with On/Off or Cancel buttons.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Features/Controls/Displays>Displays and Instruments>Instrument panel illumination/warning/indicator lights broken/not working>	
Please indicate which of the following best describes your concern (check all that apply):	Instrument panel illumination broken/not working.
Please describe in the box below where on the instrument panel/dashboard the trouble with broken/damaged materials is located:	It goes black often and shows nothing
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.

Adjustable height control is broken/not working	
Which height setting were you in, or trying to get into, when you experienced the trouble (check all that apply):	Normal ride height.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Features/Controls/Displays>Features and Controls>Cruise control system>	
Cruise control system	Cruise control system is broken/not working.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control is broken/not working.

Active suspension system is broken/not working	
Please describe the trouble experienced with the active suspension system:	The system goes up and down for no reason and will occur at high speeds
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Key fob entry system broken/not working	
Please indicate what type of trouble was experienced with the key fob entry system (check all that apply):	Car won't recognize the key is in the car
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.

Key fob entry system broken/not working	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Rain sensing wipers are broken/not working properly	
Please indicate what type of trouble was experienced with the rain sensing wipers (check all that apply):	Rain sensing wipers swipe too often.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system broken/not working.

Heated steering wheel is broken/not working	
Please indicate what type of trouble was experienced with the heated steering wheel (check all that apply):	Will not turn off.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Welcome>

Please tell us how many miles are currently on your vehicle:	1,000-2,999.
Are you the primary driver of this vehicle?	Yes.

Continuous Quality Insight

Continuous Quality Insight	Interior Trim/Storage/Windows. Engine. Entertainment/Navigation System/Connectivity. Features/Controls/Displays. Transmission and Drivetrain. Interior Climate Control.

Uconnect Access

Uconnect Access	Registration.

Hard Controls/Menu

Hard Controls/Menu	Hard controls/menus: Front Screen Display: Other Concerns.

Text Messaging

Text Messaging	Text messaging broken/not working.

Entertainment/Navigation System/Connectivity>

Please choose your cell phone carrier	AT&T Mobile.
Please choose your cell phone brand	BlackBerry (RIM).
Entertainment/Navigation System/Connectivity	steering wheel radio controls are the most difficult to feel with gloves of any prior Jeep. The tactile click is too loud.

Registration

Registration	Registration is difficult to understand/use.

Features/Controls/Displays>Displays and Instruments>

Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Interior Climate Control>Operation and Performance>

Operation and Performance	Heating, ventilation and air conditioning doesn't maintain desired temperature.

Interior Climate Control>Odor/smell>

Odor/smell	Unpleasant interior smell/odor.

Heating, ventilation and air conditioning doesn't maintain desired temperature

Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Bright sun. This had happened about four times, I'm not sure why.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
How often does this trouble occur?	Trouble occurs intermittently.

Heating, ventilation and air conditioning doesn't maintain desired temperature	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	Some days around 32 outside,I need to turn the temp to the low 60's to get it to stop blowing hot air (?)
Additional Comments:	Most of the time it works well, not sure why sometimes it is so far off

Engine>Engine Noise (abnormal)>	
Engine Noise (abnormal)	Engine makes abnormal/excessive noises.

Engine>Engine Noise (abnormal)>Engine makes abnormal/excessive noises>	
What type of fuel do you most often put into your vehicle?	Diesel.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Engine noise occurs while vehicle is (check all that apply):	Higher than expected idling sound, especially approaching the vehicle after remote start in cold weather

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Why is the gear selector difficult to operate?	Other (please describe).
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which position is the gear selector difficult to operate? (check all that apply):	Often find the Jeep in Neutral when shifting for drive
Additional Comments:	The issue is with design not a quality issue. It is not easy to feel the correct positions.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	I love the car and have specific recommendations that did not fit into your categories.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Vehicle Satisfaction Ratings	
Overall audio, entertainment, and navigation system impression	5.
Clarity of sound	5.
Ease of using system displays while driving	4.
Integration with phones	3.

Steering and handling (responsiveness, stability)	5.
How was your purchasing experience (the dealer/dealership)?	4.
How do you feel about the durability of your new vehicle?	5.
How do you feel about the VALUE of your new car? (i.e.	4.
What is your attitude overall towards your new car?	5.
What is your attitude overall towards the BRAND of your new car?	5.
What are your favorite parts of your new vehicle?	Mileage for a vehicle that can tow
Is there anything about your new vehicle you would like to see changed?	steering wheel audio switches and cup holder rattle, in sync mode temperatures should change at the same time

About You	
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	Jeep. Grand Cherokee. 2006. Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	Dodge. Durango. 2014. Primary Considered Vehicle: New.
Which, if any, influenced your purchase decision? (check all that apply):	On-Line blogs or forums. Vehicle test drive. Dealership information. Manufacturer?s website. Automotive magazines. Previous experience with the vehicle/brand.
Primary vehicle in your household:	Chrysler. Town & Country. 2013. Primary Household Vehicle: Purchased New.
Secondary vehicle in your household:	Chrysler. 300. 2011. Secondary Household Vehicle: Purchased New.
Which of the following best describes the area you live in?	Suburban.
What is your primary language?	English.
Please indicate your gender	[redacted].
Please indicate your highest education level	4 year college degree.
What is your current marital status?	[redacted].
How may children 17 or under live in your household?	1-2.
Please indicate your ethnicity	[redacted].
Did you purchase or lease your vehicle?	Lease.

About You	
What price did you pay for your vehicle?	employee

Text messaging broken/not working	
Please describe the trouble you experienced (check all that apply):	supports limited phones, not mine

Registration is difficult to understand/use	
Plese indicate which registration method you attempted (check all that apply):	was stuck in an endless loop of you must change your password, you have timed out. Had to wait till the next day to register.

Hard controls/menus: Front Screen Display: Other Concerns	
Additional Comments:	steering wheel audio controls, middle button is too subtle to detect with driving gloves

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	system is too sensitive for what it considers imminent danger, applies brakes unnecessarily, and finishes beep sequence after turning vehicle ahead has cleared.
Additional Comments:	(I have not yet tried to find sensitivity adjustment. If the system allows sensitivity adjustment, disregard)

Unpleasant interior smell/odor	
Please indicate the unpleasant interior smell/odor (check all that apply):	Very strong smell approx. four times. Kind of ammonia smell. Travelling slow or stopped.
Additional Comments:	I am trying to figure out what causes this smell.

What Can We Do Better?>	
Feedback/Concerns:	The cup holders should be capable to hold a 16.9 Oz water without rattling. The configurable cluster should have additional options, other than the two corners. It would be nice if I could add the nav screen speed limit to the cluster. It would be nice to have an open bin in the console to place wallet or phone. The 20" Fortera tires are not the best in the snow. Would have preferred omit sunroof (but not possible with Diesel). A little more power would be nice, but low end torque is nice.
What has Chrysler done right?	All around good exterior fits, excellent interior space, comfortable seats, nice nappa leather, excellent Uconnect (miss the voice text feature due to phone not supported), excellent appearance and features, Diesel good mileage (hope will further improve with summer diesel, and higher miles)

Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	I like that I am once again able to pan the map (not able on 2011 300C). Like higher level of road labelling on Nav
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	Sound system is great
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	excellent design and fits
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Love the LED DRLs, and overall front end
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	Excellent design and fits
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	Excellent design and fits
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	HID headlights great low and high beam, Smart beam much better recognition and quicker change to low beam
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Driver seat very comfortable, passenger seat appropriate adjustment vs 06WK limited.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	Much improved front and rear seat space as well as space in the cargo area
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	I am 6'6" and can sit confortably with room for passenger behind. I can adjust seat to clear headliner, unlike 06WK.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	No issue ingress egress, I have not set the air suspension to drop in park.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	Very comfortable seat and good adjustment for tall driver

Detail on High Rated Items	
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	Nice power tilt/telescope infinite adjustement
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	Appropriate interior lighting
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	Very smooth shifts with Diesel, smoother than with gas engines.
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	Excellent brakes
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	Durability will be proven over time, hope that Diesel engine will exceed durability expectations
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	I love this vehicle, minor changes could perfect
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	This is my fourth Grand Cherokee, and by far the best
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I love the fuel tank size and range, and mileage for a vehicle that meets my towing needs. Excellent design

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I would prefer a rotary dial for shifter and additional open storage on the console. The cup holder should not rattle with a standard water bottle. I would prefer if the Diesel was a little quieter.

What is your primary language?	English.
Please indicate your gender	[redacted]
Please indicate your highest education level	PhD.

What Can We Do Better?>	
Feedback/Concerns:	1) The day I was to take delivery of the vehicle my salesman alertly noted something hanging down under the car. It was the DEF fluid line. I was appreciative that he noticed it but a bit disappointed to learn that there had been a recall for this and it took a couple of days to get the parts to repair. I would have thought the dealer would have been on top of this before telling me the car was ready. 2) At delivery, the Uconnect software was not the current version. I located the Jeep forums online and was able to download and then install the new software. Then I was able to get the Apps (Pandora, Aha) to work. Again, this should not be the customer's responsibility. 3) I was frustrated for a while trying to use a high speed 64G SD card for music storage; had to switch to a smaller capacity card. 4) The ACC/FCW wipe front radar sensor warning has come on quite a few times. It may be settling down. I hope so. 5) Wind noise on highway too high.
What has Chrysler done right?	This is a terrific vehicle. The diesel engine is smooth, gets fabulous highway mileage. ACC makes using cruise control much more practical. There is the right combination of hard controls (e.g., temperature, audio volume) and touchscreen controls. I would add altitude readout somewhere - easy with gps. Love the ability to get all the other info - transmission temperature, instant/avg gas mileage, oil temp, etc.

Contact Me>

What Can We Do Better?>

Feedback/Concerns:	the automatic brake and warning system is not consistent--has gone off at random times and too conservative, even on the less conservative mode. I like the idea of it, but I am tempted to turn it off. I wish you could program more channels into the Serius favorites--it maxes out at a certain number. I did not have this restriction on my BMW
What has Chrysler done right?	mostly this is a good car

Rain sensing wipers are broken/not working properly

Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate what type of trouble was experienced with the rain sensing wipers (check all that apply):	sometimes the rain sensing works, other times it does not. I've even had the wipers come in when there was no rain.
How often does this trouble occur?	Trouble occurs intermittently.

Other>

Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
How often does this trouble occur?	Trouble occurs regularly.
Please describe the other trouble you experienced:	Collision Avoidance/Alert System does not work properly, I have had my Jeep in for service three times for a FCW
Please describe conditions when this trouble occurs:	The last time I was on the freeway with no other traffic doing 70 mph when the warning came on.

Headlight wipers/washers broken/not working properly

To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Auto wipers don't always sense when it's raining.

Features and Controls	Garage door opener. Wipers and washers.

About You

Please tell us about the vehicle you replaced (if applicable)	2014. Replaced Vehicle: Purchased New. Jeep. Grand Cherokee.
Primary vehicle in your household:	Primary Household Vehicle: Purchased New. Jetta. Volkswagen.
Did you purchase or lease your vehicle?	Purchase.
Secondary vehicle in your household:	2014. Jeep. Grand Cherokee.
How may children 17 or under live in your household?	0.
What is your total household income (before taxes)?	More than $200,000.
Please indicate your gender	[redacted]
What is your primary language?	English.
What price did you pay for your vehicle?	41000
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	I didn't consider a secondary vehicle. I wanted the Grand Cherokee Diesel
What year were you born?	[redacted]
Is this your first new vehicle ever purchased / leased?	No.
What is your current marital status?	Married.

About You	
Please indicate your highest education level	4 year college degree.
Which of the following best describes the area you live in?	Suburban.
Please indicate your ethnicity	[redacted]

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Please explain further about your choice to recommend your vehicle:	I like the Grand Cherokee. This is my second one....they're are nice vehicles.
Was the trouble resolved to your satisfaction?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.

Vehicle Satisfaction Ratings	
How do you feel about the durability of your new vehicle?	3.
Overall audio, entertainment, and navigation system impression	3.
How was your purchasing experience (the dealer/dealership)?	3.
What are your favorite parts of your new vehicle?	It's comfortable and I really like the diesel engine.
Ease of using system displays while driving	2.
Clarity of sound	4.
What is your attitude overall towards your new car?	4.
Front view styling (front fascia, hood, grille, headlight area)	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Integration with phones	5.
Support for popular music/video formats	5.
Integration with media players	5.
Navigation system route accuracy	5.
Appearance of exterior paint	5.
Headlight illumination/performance during night-time driving	5.
Wheels, rims, and tires appearance and styling	5.
Exterior design and appearance (overall impression)	5.
Interior noise level while driving	5.
Safety and visibility while driving	5.
Climate control operation (function and ease of use)	5.
Rear view styling (rear fascia, bumper)	5.
Head/leg/foot room	5.
Engine exhaust sound	5.
Transmission gear change performance (smoothness)	5.
Interior comfort, design and appearance of interior (overall impression)	5.

Vehicle Satisfaction Ratings	
Vehicle storage and space usage	5.
Fuel economy and driving range	5.
Brake responsiveness/effort	5.
Steering and handling (responsiveness, stability)	5.
What is your attitude overall towards the BRAND of your new car?	5.
Ease of getting into and out of vehicle	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.
Difficult driving conditions (adverse weather, off-road)	5.
Ride quality	5.
Engine performance during acceleration	5.
Engine sound	5.
Seat adjustment and comfort	5.
Steering wheel adjustment	5.
Location and usefulness of interior lighting	5.

Continuous Quality Insight	
Continuous Quality Insight	Other. Features/Controls/Displays. Brake System.

Features/Controls/Displays>Displays and Instruments>Odometer/trip odometer works properly, but difficult to understand/use; controls/displays poor loc.>Controls/Display are confusing or difficult to operate>	
Please select all that applies:	There is no real order to the display. There should be something for the trip to reset the time counter or remove the time counter from that section. It's annoying and doesn't really matter. Average mpg and mileage for the trip is enough.

Detail on High Rated Items	
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	The connection with my Driod is really fast.
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	Easy access to several types of media.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	The accuracy is high, but the system is really slow when you first select navigation. Also, it won't let you add destinations when driving....even if the passenger is the one making the changes. Very inconvenient.
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	Good to have many choices for multimedia
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Nice styling
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	I like the shine.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	The front style looks good
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	Again, the vehicle looks sharp
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	All around, the Jeep looks nice
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	I like the rims. I also like that they are not totally shiny, it help hide the brake dust between washes.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	I love the headlights and how they adjust.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Comfortable for four adults
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	the diesel engine has a lot of power.

Garage door opener works properly, but is difficult to understand/use; controls in a poor location	
Please describe the trouble you experienced:	Garage door instructions are difficult to understand. It took several tries to get the garage doors to load.
Please indicate if your garage door opener is:	Factory installed.

Features/Controls/Displays>Features and Controls>Wipers and washers>	
Wipers and washers	Rain sensing wipers are broken/not working properly. Headlight wipers/washers broken/not working properly.

Garage door opener	
Garage door opener	Garage door opener works properly, but is difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Displays and Instruments>Odometer/trip odometer works properly, but difficult to understand/use; controls/displays poor loc.>	
Odometer/trip odometer works properly, but difficult to understand/use; controls/displays poor loc.	Controls/Display are confusing or difficult to operate.

Welcome>

Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Overview

Was the trouble resolved to your satisfaction?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Please provide feedback on how Chrysler can improve the Smartphone Application	Locking the vehicle if you forgot. Ok. Turning on the car in cold weather. ok. What about telling me when it is getting broken into or stolen? What about telling me about when I need service or something is wrong?
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Please rate your overall level of satisfaction with the Smartphone Application	2 (dissatisfied).
Which feature or section of the Smartphone Application did you find least helpful and why?	Why is the online store through the uconnect so empty. I think I could only find yelp.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Smartphone Application covers the necessary features	1 (strongly disagree).
Please explain further about your choice to recommend your vehicle:	I have been driving Jeeps for 30 years. You have come a long way on improvements. This is the best jeep I have ever owned. But you have some things you need to fix. I worry about the new owners messing it up.

About You

Is this your first new vehicle ever purchased / leased?	No.
What is your primary language?	English.

About You	
Please indicate your gender	[redacted]
What is your current marital status?	[redacted].
Please indicate your ethnicity	[redacted]
Primary vehicle you were considering:	Mercedes-Benz. Primary Considered Vehicle: New. 300 Series.
Which, if any, influenced your purchase decision? (check all that apply):	Previous experience with the vehicle/brand. Vehicle test drive. Manufacturer?s website.
Which of the following best describes the area you live in?	Suburban.
How may children 17 or under live in your household?	0.
Please indicate your highest education level	Graduate degree.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	If you had all the features of the mercedes and closer quality, I would pay more for the Jeep and stay with it all the time.
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	55000

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	If you are talking like a local dealer, I have a good one and we are covered. If you are talking like product developers and engineers, give me a call.

Vehicle Exterior>Lights>	
Lights	Adaptive front lighting system broken/not working. Automatic high-beam headlights broken/not working. Fog/water/condensation in exterior light lenses.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Clock works properly, but is difficult to understand/use; controls/displays are in a poor location. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Media	
Media	USB Connection. SD.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers have poor sound quality.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system freezes-up/will not work. Navigation system works, but missing information; has incorrect information; gives wrong directions. Navigation system works, but traffic information doesn?t work / or is difficult to understand. Points of Interest incorrect.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command. Hands-Free Phone / Bluetooth system is difficult to use. Hands-Free Phone / Bluetooth system phonebook does not work correctly.

Seats>Adjustments and Controls>	
Adjustments and Controls	Head restraint adjuster is broken/not working. Memory Seat controls are difficult to understand/use; in a poor location. Head restraint adjustment controls are difficult to understand/use.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Air conditioner takes too long to get cold.

Interior Climate Control>Operation and Performance>	
	Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located.
	Fan/blower makes excessive noise.

Engine>Engine Driveability (stumbles/hesitates/surges)>	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.

Vehicle Exterior>Exterior Appearance/Paint:>Exterior moldings/trim pieces loose/misaligned/falling off>	
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	The is not enough glue or something to hold the corner on. It will tear off in the car wash. Also, there are no mudflaps for the summit version.....please fix.
	Same issue as driver side.
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is loose.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	8000 miles or above.

Adaptive front lighting system broken/not working	
Please describe conditions when this trouble occurs:	The automatic highbeam does not come on soon enough to be practical. It stays off most of the time. Totally wasted feature.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Vehicle Exterior>Lights>Fog/water/condensation in exterior light lenses>	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate which exterior light lenses have fog/water/condensation in them (check all that apply):	Been told that is the way it is.
	Passenger's side headlight.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Does it when the headlights are turned on and stay awhile. The area around the blinker never fully clears.

Vehicle Exterior>Fuel filler door/cap>Fuel cap difficult to open/close>	
To the best of your recollection, the trouble was first noticed:	At delivery.
Please describe conditions when this trouble occurs:	All the time
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to close.
	I hate not having a fuel cap. In dusty conditions dirt from the little drain hole gets in the cap area. Please go back to a cap for an off road vehicle.
How often does this trouble occur?	Trouble occurs regularly.

Features/Controls/Displays>Features and Controls>Light switches/controls>	
Light switches/controls	Exterior light controls work properly, but difficult to understand/use; in a poor location.

Features/Controls/Displays>Displays and Instruments>Clock works properly, but is difficult to understand/use; controls/displays are in a poor location>	
Please indicate which of the following best describes your concern (check all that apply):	Poor location.
Additional Comments:	I have to search to find it. Part of the issue is so much information is on the displays versus maybe having the clock somewhere else.

USB Connection	
Please describe the trouble you experienced (check all that apply):	Other (please describe).
	Device does not stay connected.
	Insufficient room for consumer device.
Where is the location of the media port?	Center console.
Please indicate if you are able to do either of the following (check all that apply):	Play audio.
	Charge devices.
How often does this trouble occur?	Trouble occurs regularly.

Speakers have poor sound quality	
Please indicate which media sources were being played (check all that apply):	AUX.
	CD.

Speakers have poor sound quality	
	Satellite Radio.
	SD.
	AM.
	Bluetooth Streaming.
	FM.
	USB Drive.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which speaker has trouble (check all that apply):	All speakers in the vehicle.
	The vehicle produces a muffled sound. It is not clear and crisp.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	I think this is a harmon/kardon system? I have harmon in my other cars and it does not sound this bad in those cars.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system freezes-up/will not work>	
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	Has happened 2-3 times in less than a year. Sometimes I have to leave the car off for a few hours for it to reset. Recently the navigation quit responding at all and after 5-10 minutes the screen went out and then came back working like it rebooted itself.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	Navigation system gives wrong directions.
	Navigation system is missing information.
	Navigation system has incorrect information.
Please indicate which navigation system item has trouble (check all that apply):	Map contains incorrect information.
	Map is missing information.
	Navigation system provides wrong directions.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please indicate which words, if any, are constantly misrecognized:	FInding most locations. Does work better if vehicle is stopped. When it cant find the exact number of the house or the street, it dumps you totally versus at least getting you to the middle of the town. In some cases when you type the address in, it does have it that way buy not on the vocal system. When it does dump you, it says something about invalid address and does not tell you what.
Please describe when this trouble occurs:	When stating a name.
	When there is outside noise or the blower is on.
	When entering a number.
How often does this trouble occur?	Trouble occurs regularly.
Do you usually set HVAC vent direction toward ceiling?	No.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>Hands-Free Phone/Bluetooth system is difficult to use>	
Please indicate why the hands-free phone / bluetooth system is difficult to use:	Voice commands are not recognized correctly.
	Setup (pairing) instructions are difficult to understand.
	Cannot find proper instruction to use.
	Need to wait until voice prompt is finished.
Please indicate which system commands you were using at the time of trouble (check all that apply):	Navigation.
	Phone calls.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>Voice Recognition feature does not have enough functions available>	
Please describe additional functions you would like to have:	In my acura since 2006 you could basically talk to the interface and it could do everything including setting the climate controls, phone, radio, etc. This one does not do that. Your systems is not working like acura, ford, mercedes and garmin that I have used for years. This means you are expecting a different assumed intuition than the others have built into our expectations. I really think we need to walk through some use cases so you can see the issues.

Seats>Adjustments and Controls>Head restraint adjuster is broken/not working>	
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Seats>Adjustments and Controls>Head restraint adjuster is broken/not working>	
Please indicate which seat head restraint has trouble (check all that apply):	Driver's seat. Front passenger seat.
Please describe conditions when this trouble occurs:	You make it sound like there is something that automatically adjusts them?
How often does this trouble occur?	Trouble occurs regularly.

Interior Climate Control>Operation and Performance>Air conditioner takes too long to get cold>	
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Outside temperature over 70? F. Outside temperature over 80? F. All weather conditions. Bright sun. Outside temperature over 90? F.
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	Fan does not blow out much. Recently it started whirring a lot. The dealer is looking at it as we speak.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Climate Control>Operation and Performance>Fan/blower makes excessive noise>	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Please describe the fan/blower noise (check all that apply):	Whirring.
Please describe when the fan/blower noise occurs (check all that apply):	At all fan speeds.
How often does this trouble occur?	Trouble occurs regularly.

Engine>Engine Driveability (stumbles/hesitates/surges)>Engine stumbles/hesitates/surges>	
What best describes the engine drivability trouble? (check all that apply):	I think the problem is all the gears it goes through. It is in 4-5 by 35 miles per hour.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
What type of fuel do you most often put into your vehicle?	Plus gasoline.

Engine>Engine Fuel consumption>Fuel consumption is worse than expected>	
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
What type of fuel do you most often put into your vehicle?	Plus gasoline.
Please describe conditions when this trouble occurs:	I am getting about 15 in town and about 20-21 on the freeway.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
Where do you do most of your driving?	Highway/freeway driving (speeds held fairly constant above 45 mph).
Are you using your vehicle for towing when the problem occurs?	No.

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Going down an incline. Going up an incline. Normal acceleration. City driving/stop-and-go traffic. Deceleration. If you are going up and down hills, it is better to be in sport mode so you have enough gear and engine speed to avoid sluggness or stepping on the gas and getting hesitation.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Going into which gear/gears does the trouble occur? (check all that apply)	I think the issue is that it has to go through too many gears at first. I could actually use a 9-10 gear at higher freeway speeds to get better gas mileage.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	This electronic shift gear is not for me. Did it really buy us something having it? I regularly go in the wrong gear especially when backing out or in a tight spot. Sometimes it is not always in park when I stop and think it is. This is not safe. Drive (D). Reverse (R). Neutral (N). Park (P).
Why is the gear selector difficult to operate?	Symbols/words/numbers on gear selector are confusing/don't make sense.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	You cant feel which gear you are in. You have to check the dash to make sure it is in the right gear including park.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Features and Controls>Light switches/controls>Exterior light controls work properly, but difficult to understand/use; in a poor location>	
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate. Symbols/words/numbers on key fob are confusing/don't make sense. Operation of key fob is confusing/doesn't make sense. Sound like you know the problem already. Controls require too much effort/force to operate.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Difficult to understand. They are hidden behind the steering wheel and require you to really take you eyes off the road to see them. Then on is not clearly marked. You end up spinning through all options to figure out what is what.
Please indicate which exterior light feature's controls are difficult to understand/use; are in a poor location (check all that apply):	What is this? Headlight/parking light switch.

Memory Seat controls are difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Your leg hits the number 2 setting all the time. Why wasnt this and the other seat settings put up on the door where you can easily see them and adjust them like a ford and mercedes?

Vehicle Satisfaction Ratings	
Navigation system route accuracy	4.
Exterior design and appearance (overall impression)	5.
Rear view styling (rear fascia, bumper)	5.
Headlight illumination/performance during night-time driving	5.
Vehicle storage and space usage	4.
Head/leg/foot room	5.
Ease of getting into and out of vehicle	5.
Seat adjustment and comfort	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	3.
Location and usefulness of interior lighting	5.
Fuel economy and driving range	4.
Difficult driving conditions (adverse weather, off-road)	5.
Ride quality	5.
Is there anything about your new vehicle you would like to see changed?	The design of the human interface with the modern controls
How do you feel about the VALUE of your new car? (i.e.	5.
Integration with media players	4.
Support for popular music/video formats	4.
Front view styling (front fascia, hood, grille, headlight area)	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Safety and visibility while driving	5.
Engine sound	5.
Transmission gear change performance (smoothness)	4.

Vehicle Satisfaction Ratings	
Steering and handling (responsiveness, stability)	5.
How was your purchasing experience (the dealer/dealership)?	4.
What is your attitude overall towards the BRAND of your new car?	5.
Interior comfort, design and appearance of interior (overall impression)	4.
Interior noise level while driving	5.
Climate control operation (function and ease of use)	4.
Engine exhaust sound	5.
What is your attitude overall towards your new car?	5.
What are your favorite parts of your new vehicle?	You kept the true Jeep off road capability.
Overall audio, entertainment, and navigation system impression	4.
Clarity of sound	2.
Ease of using system displays while driving	3.
Integration with phones	4.
Appearance of exterior paint	5.
Wheels, rims, and tires appearance and styling	5.
Steering wheel adjustment	5.
Engine performance during acceleration	5.
Brake responsiveness/effort	5.
How do you feel about the durability of your new vehicle?	5.

Detail on High Rated Items	
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Nice job and I love the color. Some of the design points are not practical for off road...bumper hang downs and wheels.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	You need to take out the center depression on the hood. Water and dirt flows and attracts there. It will be the first place the paint starts to go. Dont have valleys on the horizontal surfaces. Thank you for keeping the jeep grill look. The lighting system is better than you can find on almost any car.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Headlight system.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	In sun light, sometimes it looks like it was sprayed on versus deep quality.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	I wish I had the opportunity to drive the diesel version.

Active suspension system is broken/not working	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please describe the trouble experienced with the active suspension system:	At the highest level it makes sounds when it goes over something like it is straining or about to break. Also, the vehicle does not feel solid that high.
How often does this trouble occur?	Trouble occurs regularly.

Uconnect Access	
Uconnect Access	Uconnect Store. Assist Button. Remote Features.

Assist Button	
Assist Button	Assist button works but is difficult to understand/use.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Audio controls (bass, treble, fade, balance, etc.). Navigation system controls. Radio channel preset buttons. Radio band/mode selection controls. Forward/reverse controls. Power on/off, volume dial. Seek/scan/program/repeat/random/auto memory controls. Track up/down controls. Tuner control.
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Difficult to find feature in menu.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
	Operation of key fob is confusing/doesn't make sense.
	Controls are not easy to reach.
	Poor labeling of controls.
	Symbols/words/numbers on key fob are confusing/don't make sense.
	Controls require too much attention (must take eyes off the road) to operate.
	Symbols and language used are difficult to understand.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
	When you look at all the choices it is confusing especially when some are on manual knobs and some in the menus. Until you memorize the menus it is rough getting things right. The SD card did not work until the dealer took it back.
	Poor location.
Additional Comments:	I have designed systems for 30+ years. Can I recommend that you design the interface using a user interface lab where you have different types of people in real world scenarios(use cases) trying to get something done. You need to have things more logically at the right place and in the right flow. The seat adjustment for different drivers is positioned so your leg hits it. This means the current setting are usually stored in 2 and 2 is overriden. Why couldnt the seat controls be up on the door like on a ford and mercury instead of reaching down the side.

Hard controls/menus: Front Screen Display difficult to understand/use; in a poor location	
Please indicate why the front screen is difficult to understand/use (check all that apply):	Picture not sharp or clear.
	Display too small.
	Other (please describe).
Additional Comments:	Look at a mercedes interface. You can work most of the map by spinning a wheel and clicking on it. Yours requires too much looking and touching the screen. I have had two situations where the screen stops working, their is no sound in the car, etc. I have to let the car sit overnight to get working again. Scary and very frustrating when you needed the map. There are reliability issues with your unit.

Hard controls/menus: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	When you raise the suspension to the highest level...off road 2...I think the system is stretched too far since the car makes sounds when it goes over things, the vehicle wobbles more, etc....
How often does this trouble occur?	Trouble occurs regularly.

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.
	Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location.

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Poor location.
	Difficult to understand.
	Difficult to use.
Additional Comments:	I think this question is a duplicate to what I have already answered.

Hands-Free Phone / Bluetooth system phonebook does not work correctly	
Additional Comments:	I have read and looked at all the materials. Not everything is listed and explained somewhere. I guess it was supposed to be inutitive.
Did you refer to the voice tutorial, phone tutorial and voice training when experiencing hands-free phone/Bluetooth system issues?	I did not receive any of the materials.
How often does this trouble occur?	Trouble occurs regularly.
How many contacts do you have in your phone?	25-499.

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Additional Comments:	The automatic air conditioning when set to LO is less powerful than when you manually turn up the switch and max air settings. This vehicle puts out the least amount of air flow I have ever had in a vehicle when turned all the way up. Not good for Texas weather.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
	Mode control (vent, heat, defrost, etc.).

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	

Off-Road Features and Functions	
Off-Road Features and Functions	Issues with noise or vibration during difficult driving conditions.
	Issues with vehicle ground clearance.
	Issues with wheels and tires in off-road conditions.

Issues with vehicle ground clearance	
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs under these surface conditions (check all that apply):	Uphill.
	Bumpy or uneven surface.
	Downhill.
Additional Comments:	Do we really need the gray section of the bumpers. It messes up the approach and decline angles of the vehicle. I dont feel the vehicle works right in off road 2, but still all the extra length on the bumper looks good but is not really practical off road.
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Dirt/gravel roads.
	rocks/inclines/boulders/very rough terrain.
	Mud/ruts.
Please indicate the nature of the issue you are experiencing. (check all that apply):	The ground clearance at the rear of the vehicle is an issue.
	The ground clearance at the front of the vehicle is an issue.

Issues with wheels and tires in off-road conditions	
How often does this trouble occur?	Trouble occurs regularly.
Please indicate the nature of the issue you are experiencing. (check all that apply):	The tires are too susceptible to punctures on off-road surfaces.
	The tire sidewall is to small causing it to get pinched on rocks. The rim is supported on the outside to the wheel instead of in the middle making it weaker and subject to cracking off on the edge.
	There is no ability to continue driving with a puncture.
	The tires are too susceptible to damage on off-road surfaces.
	The wheel rims are too susceptible to collecting debris when driving on off-road surfaces.
	The wheel rims are too susceptible to damage when driving on off-road surfaces.
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Dirt/gravel roads.
	Mud/ruts.
	rocks/inclines/boulders/very rough terrain.

Issues with noise or vibration during difficult driving conditions	
Trouble occurs under these surface conditions (check all that apply):	Level Ground.
	Sideslope.
	Bumpy or uneven surface.
	Downhill.
	Uphill.
Please indicate what is causing the issue (select all that apply)	Air suspension.
	Suspension creak, groan or squeak.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate on what surfaces you are experiencing issues. (check all that apply)	Dirt/gravel roads.
	Mud/ruts.
	rocks/inclines/boulders/very rough terrain.
Trouble occurs at these speeds. (check all that apply):	When driving at low speeds (11-20 MPH).
	When driving at very low speeds (0-10 MPH).

Alarm/anti-theft system is broken/not working	
Please indicate if your alarm/anti-theft system is:	Factory/dealer installed.
Additional Comments:	How would I know if it is working properly?

Via Mobile broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
Are there multiple users on this account?	No.
Please describe the trouble you experienced:	

Via Mobile broken/not working	
	None of these are in the store or on the system even though the dealer said they should be.
Please indicate which feature(s) of Via Mobile are broken/not working (check all that apply):	Aha.
	iHeartRadio.
	Pandora.
	Slacker.
Did you receive a pop-up message?	No.

Vehicle Exterior>Exterior Appearance/Paint:>	
Exterior Appearance/Paint:	Paint blemish/dirt in paint/foreign material under surface.
	Wheels were chipped/scratched/damaged at delivery.
	Exterior moldings/trim pieces loose/misaligned/falling off.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Alarm/anti-theft system.
	Light switches/controls.
	Voice Activiation System.
	Active Suspension System.

Interior Trim/Storage/Windows>Abnormal Noises>	
Abnormal Noises	Squeak/rattle/abnormal noises from sun visor/vanity mirror.

Engine>Engine Fuel consumption>	
Engine Fuel consumption	Fuel consumption is worse than expected.

Vehicle Exterior>Exterior Appearance/Paint:>Wheels were chipped/scratched/damaged at delivery>	
Additional Comments:	Can these tires and rims really handle 4 wheel driving off road? I dont dare try with them.
Please indicate which wheels were damaged (check all that apply):	Small chip in aluminum wheel

Vehicle Exterior>Exterior Appearance/Paint:>Paint blemish/dirt in paint/foreign material under surface>	
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the location of the paint issue (check all that apply):	looks like a spec of sand caught under the paint.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
Please describe when this trouble occurs:	When entering information.
	When stating a name.
	When other people in the car are talking.
	When there is outside noise or the blower is on.
How often does this trouble occur?	Trouble occurs regularly.

Seats>Adjustments and Controls>Head restraint adjustment controls are difficult to understand/use>	
Please indicate which of the following best describes your concern (check all that apply):	Are there any? Are you calling the pushing up and down and a little clamp the controls?

Features/Controls/Displays>Features and Controls>Voice Activiation System>Voice Activation System works properly, but difficult to understand/use; controls in a poor location>	
Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	Navigation.
	Audio.
	Phone.
Please indicate why the Voice Actication System controls are difficult to understand/use; are in a poor location (check all that apply):	Operation of key fob is confusing/doesn't make sense.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.

Remote Features	
Remote Features	Remote vehicle start is broken/not working.

Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location	
Please indicate why the front screen is difficult to understand/use (check all that apply):	Picture not sharp or clear. Display too small.
Additional Comments:	If you really want to see the issues, come out and see them with a real customer. It is hard to explain this way.

SD	
Please describe the trouble you experienced (check all that apply):	Didnt work at first. Required 2 trips to the dealer.
Where is the location of the media port?	Center console.
How often does this trouble occur?	Trouble occurs regularly.

Text messaging broken/not working	
Do you have the Uconnect Access free form speech option?	Yes.
Additional Comments:	I really was not able to figure it out or get it working so I gave up on this feature and the auto headlamps.
Did this trouble occur after starting the vehicle?	Yes.
How often does this trouble occur?	Trouble occurs regularly.

Points of Interest incorrect	
Please describe the trouble with the Points of Interest within the Navigation system	It misses one that might be just in front of you that has been around for awhile. Also on the freeway you need it to go out 25 miles or so versus just showing within 2 miles.

Automatic high-beam headlights broken/not working	
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	Almost always off. Rarely turns on.

Entertainment/Navigation System/Connectivity>	
Please choose your cell phone carrier	AT&T Mobile.
Please choose your cell phone brand	Apple.
Please tell us your cell phone model	4s
If known, please tell us your software version	latest one available

What Can We Do Better?>	
What has Chrysler done right?	Kept the Jeep brand and style alive versus run it into some kind of durango, truck or minivan. This is a great vehicle, but let's make it better.
Feedback/Concerns:	I really would like to help you understand the current issues, what others are offering that you compete with (and yes raise your price for) and keep improving this. If you want to meet or have me test your changes, let me know. [redacted]

Vehicle Exterior>Fuel filler door/cap>	
Fuel filler door/cap	Fuel cap difficult to open/close.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command. Voice Recognition feature does not have enough functions available. Voice Recognition Quick Tips Booklet does not list enough detailed commands. Voice Recognition Quick Tips Booklet is not helpful, or is difficult to use.

Interior Climate Control>Controls and Switches>	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.

Interior Trim/Storage/Windows>Operation and Functionality>	
Operation and Functionality	Sun Visor/Vanity Mirror is difficult to use.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.). Hesitation or delay when shifting between gears.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Automatic high beams and the driver seat settings switch.

Remote vehicle start is broken/not working	
Additional Comments:	This works fine. I was trying to find a spot to share that what I really want is the ability to know when the vehicle is started, a door opened, lights turned on and the FOB is not in the car...this will tell me it is possibly getting broken into or stolen.
Do you recall your cellular coverage at the time?	Full cellular coverage.

Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location	
Additional Comments:	You do not show the upcoming cities. If this is a garmin system, please go back to a real garmin interface. I have to use paper maps still to see upcoming cities and how it has really routed me. It rarely gets the location right when you talk to it. Especially if you are driving. The ability to enter an address is disabled when moving so your passenger cannot enter an address. So, it forces you to stop. This is not as friendly as what a Mercedes or Ford has. You really need to get to a pinch screen since + and - keys are not very accurate and friendly when you are trying to use the map. Again, go back to the standard Garmin interface on the handheld units. When you use the off road trail feature, it goes away if you shut the vehicle off when off road. OH MY, the feature to show you the way back goes away.

Text Messaging	
Text Messaging	Text messaging broken/not working.

Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located	
Additional Comments:	This looks like a duplicate questions.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Poor location.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.

Alarm/anti-theft system	
Alarm/anti-theft system	Alarm/anti-theft system is broken/not working.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	I have had problems with it coming on at inappropriate times. When you go up a steep driveway. When someone is turning in front of you and it thinks you are going to hit them. I wish the break system went all the way like the adaptive speed control does.
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	There are controls to operatie it? Audible indicator sound is not loud enough.

Strut problem/shock absorber problem	
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Please indicate where the strut/shock problem occurs:	Rear. Front.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	See earlier comments when using them at off road two position.

Via Mobile	
Via Mobile	Via Mobile broken/not working.

Hesitation or delay with 4WD controls	
Please indicate when the hesitation/delay occurs (check all that apply):	I think I just need to use them more and get used to them.

Features/Controls/Displays>Features and Controls>Voice Activiation System>	
Voice Activiation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesnt work/or is difficult to understand>	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information displays, but is difficult to read. Traffic information displays, but is inaccurate.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location.

Hard Controls/Menu	
	Hard controls/menus: Front Screen Display difficult to understand/use; in a poor location. Hard controls/menus: Front Screen Display: Other Concerns. Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Ride	
Ride	Strut problem/shock absorber problem.

Continuous Quality Insight

Continuous Quality Insight	Entertainment/Navigation System/Connectivity.

Welcome>

Please tell us how many miles are currently on your vehicle:	7,000-9,999.
Are you the primary driver of this vehicle?	Yes.

Overview

Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Gary Matthew's Clarksville, TN
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please provide feedback on how Chrysler can improve the Smartphone Application	Make the search apps easier to use
Please explain further about your choice to recommend your vehicle:	This is my 4th Jeep in 11 years and I LOVE Jeeps. This is the first time I have ever had a big issue.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	4 (agree).
Smartphone Application covers the necessary features	4 (agree).
Was the trouble resolved to your satisfaction?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).

About You

Secondary vehicle in your household:	2012. Toyota. Tundra 4WD Truck. Secondary Household Vehicle: Purchased New.
Which of the following best describes the area you live in?	Suburban.
Please indicate your highest education level	4 year college degree.
Which, if any, influenced your purchase decision? (check all that apply):	Consumer Reports ratings. Kelley Blue Book.
Please tell us about the vehicle you replaced (if applicable)	Jeep. Grand Cherokee. Replaced Vehicle: Purchased New. 2010.
Secondary vehicle you were considering:	Secondary Considered Vehicle: New. Explorer. Ford.

About You

	2014.
Please indicate your gender	[redacted].
What is your current marital status?	[redacted].
Primary vehicle you were considering:	Land Rover. Range Rover. 2014. Primary Considered Vehicle: New.
Is this your first new vehicle ever purchased / leased?	No.
Please indicate your ethnicity	[redacted]
What price did you pay for your vehicle?	53000.00
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	I love Jeeps
What is your primary language?	English.
How may children 17 or under live in your household?	0.
What is your total household income (before taxes)?	$150,000 - $199,999.
Did you purchase or lease your vehicle?	Purchase.

Vehicle Satisfaction Ratings

Exterior design and appearance (overall impression)	5.
Front view styling (front fascia, hood, grille, headlight area)	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Rear view styling (rear fascia, bumper)	5.

Engine exhaust sound	4.
Difficult driving conditions (adverse weather, off-road)	4.
Ride quality	4.
Steering and handling (responsiveness, stability)	4.
How was your purchasing experience (the dealer/dealership)?	4.
How do you feel about the durability of your new vehicle?	4.
How do you feel about the VALUE of your new car? (i.e.	4.
What is your attitude overall towards your new car?	4.
What are your favorite parts of your new vehicle?	Keyless entry, headlights, seats, rear hatch open/close buttons, spare tire access from inside vehicle
Is there anything about your new vehicle you would like to see changed?	Visability over the front end, gear shifter, remove carpet from back hatch, protect rear hatch speaker better
Ease of using system displays while driving	3.
Integration with phones	3.
Integration with media players	3.
Navigation system route accuracy	3.
Support for popular music/video formats	3.

Vehicle Satisfaction Ratings

Radio

Radio	AM/FM/HD/Satellite radio channels have poor or no reception. Bluetooth streaming audio works, but is difficult to understand/use.

Contact Me>

To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Touch screen freezing up/ becoming inop [redacted]
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

What Can We Do Better?>

Feedback/Concerns:	I have seen on youtube and discussion boards that I am not the only one who has had issue with my touch screen system freezing up. Future research maybe required.
What has Chrysler done right?	The 2014 Jeeps look and drive great. The comfort feature compare to those of more expensive vehicles such as BMW, Land Rover, Lexus, etc.

Detail on High Rated Items

You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	Auto braking before a crash is cool but overly sensitive. I shut it off all the time.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	As nice and loaded as my Jeep is it is still a Jeep. I should be able to load up my five dogs and not have to worry about them cratching the leather center console or destroying the carpet in the rear hatch area. I really dislike carpet in vehicles so I always buy the Weather Tech trays. This new Jeep the carpet on the side walls in the rear hatch can't be covered. I would love to have an option to order my next Jeep without carpet. I feel anything that is 4X4 should have this option because if you can go off road and into the mud you will most like track some of that dirt into the vehicle also. Easy clean-up goes a long way.

Bluetooth streaming audio works, but is difficult to understand/use

Please describe conditions when this trouble occurs:	issue resolved
Please indicate which of the following best describes your concern (check all that apply):	See previous comment

Entertainment/Navigation System/Connectivity>

Please tell us your cell phone model	iPhone
If known, please tell us your software version	7.??
Please choose your cell phone carrier	AT&T Mobile.
Please choose your cell phone brand	Apple.

AM/FM/HD/Satellite radio channels have poor or no reception

Additional Comments:	My touch screen and complete system froze. Nothing would work. No sound, no changing channels, no adjusting anything invovled with the touch screen. I recorded this issue several different times. The dealership had replace the unit. It was a time consuming process.
How often does this trouble occur?	Trouble occurs regularly.

Overview

Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
What information did you need that was not included in the Smartphone Application?	see above
Where did you take your vehicle to have your trouble checked out? (check all that apply)	closer location
The Smartphone Application format is easy to understand and use	2 (disagree).
Which feature or section of the Smartphone Application did you find most helpful and why?	download and install was easy
Was the trouble resolved to your satisfaction?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Information in the Smartphone Application is easy to find and access	2 (disagree).
Smartphone Application covers the necessary features	2 (disagree).
Please rate your overall level of satisfaction with the Smartphone Application	2 (dissatisfied).
Please explain further about your choice to recommend your vehicle:	The economy and performance of the turbo-diesel is outstanding.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Please provide feedback on how Chrysler can improve the Smartphone Application	I downloaded the app, activated it in my Jeep, received the confirmation but the car still showed it wasn't active and I could not figure out why the remote start capability still didn't show up

About You

What year were you born?	[redacted]
What is your current marital status?	Divorced.
Please tell us about the vehicle you replaced (if applicable)	Jeep. Grand Cherokee. Replaced Vehicle: Purchased New.
Secondary vehicle you were considering:	2014. Cadillac. Escalade. Secondary Considered Vehicle: New.
Secondary vehicle in your household:	Nissan. Secondary Household Vehicle: Purchased New. 2013. Altima.
Which, if any, influenced your purchase decision? (check all that apply):	Previous experience with the vehicle/brand. On-Line blogs or forums. Vehicle test drive.
Did you purchase or lease your vehicle?	Lease.
What price did you pay for your vehicle?	54000

About You	
What is your primary language?	English.
Please indicate your gender	[redacted]
How may children 17 or under live in your household?	0.
Primary vehicle you were considering:	2014. Escalade. Cadillac. Primary Considered Vehicle: New.
Primary vehicle in your household:	2014. Grand Cherokee. Jeep. Primary Household Vehicle: Purchased New.
Which of the following best describes the area you live in?	Suburban.
What is your total household income (before taxes)?	$125,000 - $149,999.
Is this your first new vehicle ever purchased / leased?	No.
Please indicate your highest education level	Graduate degree.
Please indicate your ethnicity	[redacted]n.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	Cost of features I wanted was within my budget

Features/Controls/Displays>Features and Controls>	
Features and Controls	Door locks/key fob entry system.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle Satisfaction Ratings	
Ease of using system displays while driving	4.
Side/profile view styling (driver's side or passenger's side exterior area)	4.
Vehicle storage and space usage	4.
Head/leg/foot room	4.
Operating controls while driving (gear selector, turn signals, horn, etc.)	2.
Location and usefulness of interior lighting	4.
Safety and visibility while driving	1.
Transmission gear change performance (smoothness)	4.
Brake responsiveness/effort	4.
Steering and handling (responsiveness, stability)	4.
Is there anything about your new vehicle you would like to see changed?	more features for less money, Ford Escape has more for $25K less, eliminate the limitations of using features when a passenger is present, I'm tired of hearing "that's how it was designed" when pointing out defects, be more responsive to customer complaints
Exterior design and appearance (overall impression)	4.
Ease of getting into and out of vehicle	4.
Steering wheel adjustment	4.
Climate control operation (function and ease of use)	4.

Vehicle Satisfaction Ratings	
Integration with media players	4.
Appearance of exterior paint	4.
Front view styling (front fascia, hood, grille, headlight area)	4.
Rear view styling (rear fascia, bumper)	4.
Headlight illumination/performance during night-time driving	4.
Interior comfort, design and appearance of interior (overall impression)	4.
Engine sound	4.
How was your purchasing experience (the dealer/dealership)?	5.
What is your attitude overall towards your new car?	5.
What are your favorite parts of your new vehicle?	Bigger/better entertainment center
What is your attitude overall towards the BRAND of your new car?	5.

Detail on High Rated Items	
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	I've owned 6 Grand Cherokees and have had very few major issues
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	It's a car I don't mind showing to others
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	Overland is comfortable, classily equipped and performance is high
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	The Jeep brand is much more respected than Dodge or Chrysler
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Colorado Jeep was the best of 4 dealers in listening to what I wanted, getting me the price I wanted and delivering it trouble free
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	The Style, comfort & technology are among the best, keep it up.

Detail on Low Rated Items	
You rated safety and visibility while driving Low. Use this space to provide any specific comments you would like to share.	Add cameras to mirrors to show the lane next to you when blinker is activated
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I can't view Sports scores while driving but can look at everything else? Ridiculous. Allow full functionality especially when a passenger is available to operate it. You know when one is present to activate their airbag and detect when their seatbelt is unbuckled. Just dumb!!!

Continuous Quality Insight	
Continuous Quality Insight	Brake System. Features/Controls/Displays. Vehicle Exterior.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	see feedback [redacted]

Welcome>	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.

What Can We Do Better?>	
Feedback/Concerns:	1-I don't like you discontinued the ability to open the rear window. 2-the SSD replaces the built-in hard drive I had in my 2012. It remembers the song it was on but it turns OFF the SHUFFLE everytime the car is restarted. 3-The speed limit notifications are worthless if the data is inaccurate. There needs to be a way to get it corrected. 4-The smell of diesel is overwhelming when stopping. 5-Hold the Unlock button to roll all windows down (like Maxima). 6-Make chrome Mag-Chloride resistant. 7-Needs front proximity detection/camera under 3 mph. 8-Why does the Cherokee have more features than the GRAND?
What has Chrysler done right?	Ride is smoother, diesel is quieter, stereo sounds great, air suspension makes for a nicer ride

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	A car in front of me was pulling off and my car was jamming on its brakes eventhough there was no danger of running into them. Couldn't locate the disengage quick enough

Please choose your cell phone brand	Apple.

Other>

Please describe the other trouble you experienced:	The delivery process has not been to our expectation. The vehicle didn't come with the items discussed (block heater connection) and we had to pay for items we were told would be there (floor mats). they use the excuse that they didn't realize what the block heater connection was but we still don't have it. In Houston it probably isn't known but in SD it will be requried. The car has gone back in for complaints multiple times and the answer is it probably needs an update. If I'm the beta test for the new Jeep it is a good thing I kept the old one because this one isn't going to stay around much longer if they keep telling me that and I keep losing my weekends to the service department.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview

Where did you take your vehicle to have your trouble checked out? (check all that apply)	Good southern help - tell you what you want to hear but nothing gets done. Very helpful but again they couldn't duplicate the problem after four hours. they did witness it before they were able to start the diagnoses.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Was the trouble resolved to your satisfaction?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Please explain further about your choice to recommend your vehicle:	Too much going wrong and feeling helpless.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.
Would you recommend this vehicle to family or friends?	No.

About You

Please tell us about the vehicle you replaced (if applicable)	2001.

About You	
Primary vehicle you were considering:	Grand Cherokee. Jeep. Replaced Vehicle: Purchased New. M-Class. Mercedes-Benz. Primary Considered Vehicle: New. 2014.
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	65
Is this your first new vehicle ever purchased / leased?	No.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Sunroof/moonroof controls.

Media	
Media	SD. Radio. USB Connection.

Seats>Adjustments and Controls>	
Adjustments and Controls	Memory Seat controls are difficult to understand/use; in a poor location. Memory Seat controls are broken/not working.

Engine>Electronic Engine Controls (Check Engine)>	
Electronic Engine Controls ('Check Engine')	"Check Engine" light indicated trouble.

USB Connection	
Where is the location of the media port?	Hid in behind the door. Try putting it in to charge while driving. Now that is a trick.
Please describe the trouble you experienced (check all that apply):	Wish there was one here. Location inconvenient. Insufficient room for consumer device.
Please indicate if you are able to do either of the following (check all that apply):	Play audio. Charge devices.
Please indicate the make, model, carrier, and software version on the device used (computer, tablet, etc.):	ipod, iphone

Speakers have poor sound quality	
To the best of your recollection, the trouble was first noticed:	At delivery.
Trouble with speaker occurs:	At all volume levels.
Please indicate which media sources were being played (check all that apply):	USB Drive. Bluetooth Streaming. FM.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which speaker has trouble (check all that apply):	Just doesn't sound right. It does well with road noise and background but you constantly have to adjust it to different music.

Seats>Seat Material>Seat material concerns>	
Please describe conditions when this trouble occurs:	See last entries on seat controls.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Seat material trouble is:	Other (please describe).

Engine>Electronic Engine Controls (Check Engine)>Check Engine light indicated trouble>	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Was the "Check Engine" light your first indication there was trouble?	Yes.
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	This is a concern for the slip control light indicator. It has happened multiple times.
Did you also experience an engine performance issue while the "Check Engine" light was on?	No.
Additional Comments:	

Engine>Electronic Engine Controls (Check Engine)>Check Engine light indicated trouble>	
	Nothing found. We took it in and showed the problem however by the time it got in for an appointment the light had gone out.
What type of fuel do you most often put into your vehicle?	Diesel.

Engine>Engine exhaust system>Exhaust system troubles>	
To the best of your recollection, the trouble was first noticed:	At delivery.
What type of fuel do you most often put into your vehicle?	Diesel.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
What is the trouble with the exhaust system? (check all that apply):	consumed a tank of DFT. We're on the second tank of diesel so it may have been delivered empty.

Vehicle Satisfaction Ratings	
Clarity of sound	3.
Ease of using system displays while driving	2.
Integration with phones	3.
Integration with media players	3.
Navigation system route accuracy	3.
Support for popular music/video formats	2.
Exterior design and appearance (overall impression)	4.
Front view styling (front fascia, hood, grille, headlight area)	4.
Wheels, rims, and tires appearance and styling	3.
Vehicle storage and space usage	3.
Head/leg/foot room	4.
Interior noise level while driving	5.
Location and usefulness of interior lighting	3.
Safety and visibility while driving	4.
Brake responsiveness/effort	3.
What is your attitude overall towards your new car?	1.
Side/profile view styling (driver's side or passenger's side exterior area)	4.
Steering wheel adjustment	4.
Operating controls while driving (gear selector, turn signals, horn, etc.)	2.

How was your purchasing experience (the dealer/dealership)?	2.
How do you feel about the VALUE of your new car? (i.e.	2.
Overall audio, entertainment, and navigation system impression	2.
Rear view styling (rear fascia, bumper)	4.
Headlight illumination/performance during night-time driving	4.
Climate control operation (function and ease of use)	3.
Transmission gear change performance (smoothness)	4.
Fuel economy and driving range	3.
How do you feel about the durability of your new vehicle?	2.
Is there anything about your new vehicle you would like to see changed?	The experience, a radio off and no more issues. It would have been nice to have had it delivered to the dealer and we put the first miles on it instead of driving it from some location accross town.

Registration is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	lost contact before getting codes. Afterthat it was all downhill. They did contact me through email and we tried to get it working again. Not sure if I have it even now. Too many other issues with the jeep to worry about at this time.
Please describe the trouble you experienced (check all that apply):	Registration process takes too long.

Registration is difficult to understand/use	
	Setup was confusing.
Did you receive the registration email?	Yes.
Plese indicate which registration method you attempted (check all that apply):	see above

Owner Connect Website	
Owner Connect Website	Owner connect website dashboard is difficult to understand/use.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location. Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Operation of key fob is confusing/doesn't make sense. Difficult to find feature in menu. Controls require too much attention (must take eyes off the road) to operate.
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	changing avoidances to get around road conditions is a true effort. Envariably I jump to something unwanted and then end up deleting everything. I tend to use my phone instead. The radio off control is non-existent. This is totally wrong and I should never have to be chanign the volume to get the damn thing to turn off!
Please indicate which of the following best describes your concern (check all that apply):	Same issue as above - selecting wrong button and changing everything.

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location. Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location.

Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	No on/off!!!! I don't want to adjust volume everytime I get in the car.
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Controls are not sensitive enough. Only when you press the worng one.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.

Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location	
Please indicate why the front screen is difficult to understand/use (check all that apply):	too much info on some screens, especially set up screens for navigation.

Bluetooth streaming audio works, but is difficult to understand/use	
Please describe conditions when this trouble occurs:	You know - I don't really use it that often and it may just be me.
Please indicate which of the following best describes your concern (check all that apply):	controls difficult. use the phone and it goes crazy to get back to the menu.

SD	
Please describe the trouble you experienced (check all that apply):	Location inconvenient.
Where is the location of the media port?	Center console.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	difficult to navigate - and although you shouldn't do it while driving the passenger should be able to.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Just because it tells me to brake it shouldn't do it. It nearly got me hit when it thought the guy turning right wasn't clear of me and braked, causing the guy behind me to get more than excited.
Additional Comments:	Cruise control has had a problem with the ACC/FCW not functioning and won't work. It has been in to the shop but nothing shows as wrong. It is and may be tied to the burning smeel it had when we first got it. There is a

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
	difference between burning wire and burning grease. I pay attention to the wire but Jeep didn't bother.

Welcome>	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	0-999.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Shifting paddles/buttons difficult to operate.

Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location	
Please indicate why the fuel gauge/low fuel warning light controls/displays are difficult to understand/use; are in a poor location (check all that apply):	See above on DFT.
Please indicate which of the following best describes your concern (check all that apply):	Why doesn't a very expensive very automated car not be able to give me the DFT levels. My 62 Volkswagon used to have a gas gauge that worked that way. But then it was a cheap car. DFT lvele needs to be more than "out"

Sunroof/moonroof works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate which feature your vehicle is equipped with:	Sunroof/Moonroof.
Please indicate which of the following best describes your concern (check all that apply):	auto open doesn't seem to engage. you have to fiddle with it to get the moonroof open.

What Can We Do Better?>	
Feedback/Concerns:	We have a 14 year old Jeep which we truly enjoy. You couldn't get it from us. The new car hopefully will work out to be the same, but it is off to a very rocky start.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location. Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers have poor sound quality.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system phonebook does not work correctly. Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Wifi Hot Spot Connection	
Wifi Hot Spot Connection	Wifi Hot Spot Connection has intermittent connection.

Seats>Seat Material>	
Seat Material	Seat material concerns. Seat material soils/scuffs easily.

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception. Bluetooth streaming audio works, but is difficult to understand/use.

Uconnect Access	
Uconnect Access	Owner Connect Website. Registration.

Owner connect website dashboard is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	We had dealer go through set up but that wasn't enough

Hands-Free Phone / Bluetooth system phonebook does not work correctly	
Additional Comments:	Again, I don't use it enough to really find out how to use it.
How many contacts do you have in your phone?	25-499.

Seat material soils/scuffs easily	
Please indicate the trouble you experienced with the seat material (check all that apply):	Black is not always beautiful. Also white stiching on dash is reflective and distracting during driving. Our old Jeep had the suede inserts. They were much more comfortable than the leather being used now. and wore better.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Difficulty accessing Points of Interest.

Engine>Engine exhaust system>	
Engine exhaust system	Exhaust system troubles.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please indicate which words, if any, are constantly misrecognized:	It just doens;t like me.

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	Sounds just like a response from the machine. Lots of tips.

AM/FM/HD/Satellite radio channels have poor or no reception	
Additional Comments:	I want an "OFF" control. I don't want to have to clear the am, fm or aux. And I haven't found the satellite channels.

Memory Seat controls are difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Tehy don't retain the settings.

Registration	
Registration	Registration is difficult to understand/use.

Detail on High Rated Items

You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	Works brilliantly in snow, ice and heavy weather.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Comfort. Ease of driving in adverse conditions. Some off road usefulness.
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	Not used much
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	A bit hard to insert media connections, but just because of low location
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	but see above on the radar system
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	Good seats -- firm yet pliable. Not much seat ventilation though
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	It's surprisingly low
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Surprisingly quiet
You rated engine sound High. Use this space to provide any specific comments you would like to share.	The sound is LOW, not high

About You

How may children 17 or under live in your household?	0.
Primary vehicle you were considering:	2014. Highlander. Toyota. Primary Considered Vehicle: New.
Primary vehicle in your household:	2500 HD Chassis-Cabs. GMC. Primary Household Vehicle: Purchased Used.
Please indicate your gender	[redacted]
What is your current marital status?	[redacted]
What is your total household income (before taxes)?	More than $200,000.
Which of the following best describes the area you live in?	Rural.
Please tell us about the vehicle you replaced (if applicable)	4runner 4WD. Replaced Vehicle: Purchased New. Toyota.
What is your primary language?	English.
Please indicate your ethnicity	[redacted]n. Manufacturer?s website.

About You	
Which, if any, influenced your purchase decision? (check all that apply):	Previous experience with the vehicle/brand. Recommendations from friends or family. Vehicle test drive.
Is this your first new vehicle ever purchased / leased?	No.
Please indicate your highest education level	JD
Did you purchase or lease your vehicle?	Purchase.
What year were you born?	1939
What price did you pay for your vehicle?	about $42k

Welcome>	
Please tell us how many miles are currently on your vehicle:	7,000-9,999.
Are you the primary driver of this vehicle?	Yes.

Continuous Quality Insight	
Continuous Quality Insight	Engine. Off-Road. Other.

Vehicle Performance driving on Rocks / Boulders / Inclines / Very Rough Terrain	
Vehicle Performance driving on Rocks / Boulders / Inclines / Very Rough Terrain	Skid plates are easily damaged while driving on rocks/inclines/boulders/very rough terrain. Rocker panels on sides of vehicle are easily damaged while driving on rocks/inclines/boulders/very rough terrain.

Other>	
How often does this trouble occur?	Trouble occurs intermittently.
Please describe the other trouble you experienced:	My only real problem is with the radar. It frequently goes out even when clean, it gives "BRAKE" warnings when not needed, and it seems to be disabled by strong sunlight. It is poorly engineered for its role.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	Sunny, clean radar "dome".
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

What Can We Do Better?>	
What has Chrysler done right?	You built a great Grand Cherokee Overland Jeep (my third, after an ancient 1950s Willys and a 2008 Wrangler). It is generally surprisingly tough yet comfortable and drivable. Nice going.
Feedback/Concerns:	Nothing. I appreciate the chance to communicate with you.

Skid plates are easily damaged while driving on rocks/inclines/boulders/very rough terrain	
Trouble occurs under these surface conditions (check all that apply):	Bumpy or uneven surface.
Please indicate how severe the issue is:	Somewhat worse than expected.
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs at these speeds (check all that apply):	When driving at very low speeds (0-10 MPH).

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Engine>Engine Fuel consumption>Fuel consumption is worse than expected>	
Are you using your vehicle for towing when the problem occurs?	No.
Where do you do most of your driving?	Other (please describe).
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
What type of fuel do you most often put into your vehicle?	Regular gasoline.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	I am getting 22-23.5 mpg. I expected (based on EPA and your ads) to get close to 28-30
Please describe conditions when this trouble occurs:	Mountain rural 80%, urban 20%

Rocker panels on sides of vehicle are easily damaged while driving on rocks/inclines/boulders/very rough terrain	
Please indicate how severe the issue is:	

Rocker panels on sides of vehicle are easily damaged while driving on rocks/inclines/boulders/very rough terrain	
	I expected more ability to raise vehicle and to navigate off road without risk of scraping. It needs a lift.
Additional Comments:	Consider providing a selectable lift, not just in 4wd Low.
Trouble occurs under these surface conditions (check all that apply):	My home area has lots of mountain dirt roads with rocks, ruts, etc.
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs at these speeds (check all that apply):	see above

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	See above re radar system.

Engine>Engine Fuel consumption>	
Engine Fuel consumption	Fuel consumption is worse than expected.

Uconnect Access	Assist Button.

Features/Controls/Displays>Displays and Instruments>Clock broken/not working>	
Please indicate what type of trouble was experienced with the clock (check all that apply):	every now and then the clock will stop on the time registered when the Jeep first turns on. I have to stop by car and turn it back on again to get the clock working again.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	daily conditions. nothing unique.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Features and Controls>Cruise control system>	
Cruise control system	Cruise control system is broken/not working.

Overview	
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
Please explain further about your choice to recommend your vehicle:	I have already taken my $50K Jeep to the dealer 6 times within 20,000 miles (not a typo) and I still have problems with it. I have already gone through one recall, having one item on back order and understand I will have to go through another recall. When I have my car serviced for long periods of time, the rental car I get is nowhere near the quality of car I purchased. The amount of service this vehicle needs is unacceptable - particularly for what I paid for this car. I have had contact with area service managers and still have no resolution to my problems or have been offered any restitution for my troubles.
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Please rate your overall level of satisfaction with the Smartphone Application	5 (very satisfied).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Hawk CDJ, Orland Park, IL
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Was the trouble resolved to your satisfaction?	No.
Smartphone Application covers the necessary features	5 (strongly agree).
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Would you recommend this vehicle to family or friends?	No.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Contact Me>	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	I would like to discuss my entire experience - from transaction to owning my automobile. You need to know my experience so you can make changes. Call me at [redacted]
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Voice Activation / Recognition doesnt recognize command	
Additional Comments:	redundant.

Other>	
Please describe the other trouble you experienced:	The steering wheel had a noticeable crack/scratch on it on delivery.
Please describe conditions when this trouble occurs:	daily conditions. nothing unique.

Other>	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.

About You	
What year were you born?	[redacted]
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	Just like the look and feel of the Jeep better.
Please tell us about the vehicle you replaced (if applicable)	2008. Nissan. Maxima. Replaced Vehicle: Purchased Used.
Primary vehicle you were considering:	2014. Acura. MDX. Primary Considered Vehicle: New.
Please indicate your highest education level	Graduate degree.
What is your primary language?	English.
Which, if any, influenced your purchase decision? (check all that apply):	Automotive magazines. Recommendations from friends or family. Consumer Reports ratings. Kelley Blue Book.
What is your current marital status?	[redacted].
Is this your first new vehicle ever purchased / leased?	No.
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Urban.
How may children 17 or under live in your household?	0.
What price did you pay for your vehicle?	$51K
What is your total household income (before taxes)?	$150,000 - $199,999.
Please indicate your ethnicity	[redacted].

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please indicate which words, if any, are constantly misrecognized:	any address that starts with the number 2 - since you start of with "Navigate to" - gets confused. Often chooses wrong cities as well.
Please describe when this trouble occurs:	see above When stating a name.
How often does this trouble occur?	Trouble occurs regularly.
Do you usually set HVAC vent direction toward ceiling?	No.

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system is broken/not working>	
Additional Comments:	As a person who bought this Jeep for long road trips, not having an active Cruise Control, FCW is beyond annoying. I will likely be considering legal counsel for this issue.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate what type of trouble was experienced with the cruise control system (check all that apply):	the system will give a false positive "BRAKE!" signal when a car is about 50 ft ahead of me in the right adjacent lane. See above - since FCW/ACC doesn't work, nor does cruise control. beyond frustrating. Cruise control routinely goes to "FCW/ACC Unavailable" and requests that I get it serviced. It has been serviced 4 times.
Please describe conditions when this trouble occurs:	daily conditions. nothing unique.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Detail on High Rated Items	
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	great blue color. very nice.
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	great car in the snow.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	its a beautiful looking car. great design.

Detail on High Rated Items	
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	big fan of the LED lighting.

Assist button works but is difficult to understand/use	
Please describe the trouble you experienced:	see above
Please indicate which of the following best describes your concern (check all that apply):	Doesn't understand an address that starts with the number 2, since you say "Navigate to", it always leaves it out or you have to pause too long and it may time out.

Assist Button	
Assist Button	Assist button works but is difficult to understand/use.

Entertainment/Navigation System/Connectivity>	
Please choose your cell phone carrier	AT&T Mobile.
Please choose your cell phone brand	Apple.
If known, please tell us your software version	iOS7
Please tell us your cell phone model	iPhone 5

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location. Clock broken/not working.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command. Hands-Free Phone / Bluetooth system has poor sound quality at far end.

Welcome>	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call	
At other times during use does your phone have poor call quality?	No.
Do you recall your cellular coverage at the time?	Partial cellular coverage.
Does the issue occur when speaking at regular volume?	Yes.
Sound quality is poor: (check one)	For the receiver of the call.
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	on highway

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	The entire system does not work. Controls are in a good spot and easy to use - but it doesn't work.
Additional Comments:	see previous page. This is beyond annoying that a $50K car doesn't have an active cruise control.

Interior Trim/Storage/Windows>Abnormal Noises>	
Abnormal Noises	Squeak/rattle/abnormal noises from rear cargo shelf/cargo cover.

Continuous Quality Insight	
Continuous Quality Insight	Entertainment/Navigation System/Connectivity. Other. Features/Controls/Displays. Interior Trim/Storage/Windows.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	Traffic info is spotty. Often feel that chosen directions are not the fastest/best way of going to a particular location.
Please indicate which navigation system item has trouble (check all that apply):	can't turn off just the traffic instructions and keep everything else. I live in Chicago where traffic is everywhere - I can't stand hearing "traffic jam ahead" every 5 minutes.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Cruise control system.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesn’t work/or is difficult to understand>	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	see previous explanation. sometimes traffic info is wrong and I don't like that you don't have the option to turn traffic off only.

What Can We Do Better?>	
Feedback/Concerns:	Overall, I am deeply saddened by the quality of this automobile. I feel like I purchased a lemon and have not been given any restitution for having my car services six (6) times in 20,000 miles. I will NOT be recommending Chrysler/Dodge/Jeep to any of my family/friends as things stand today.
What has Chrysler done right?	Nothing. I'm disappointed that Chrysler has not contacted me directly (this is now my 4th survey) in an attempt to correct my very negative connotation of the entire Chrylser experience. So far nothing about this car (the initial transaction or the owner's experience) would meet even a satisfactory level.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	as mentioned several times, FCW/ACC needs an overhaul. sounds like electronic system in general needs an overhaul as my "check engine" light has been on a few times already as well. Overall, I feel like I could have better spent my $50K elsewhere.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions. Navigation system works, but traffic information doesn?t work / or is difficult to understand.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Collision Avoidance is unusable.

Engine>Engine Fuel consumption>Fuel consumption is worse than expected>

Please describe conditions when this trouble occurs:	Highway...holds around 16mpg
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Where do you do most of your driving?	Highway/freeway driving (speeds held fairly constant above 45 mph).
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Collision Avoidance is awful. It slams on brakes with nothing is front of us. Constantly calls out "Brake" with nothing in front as well with CA system turned off.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	No.
What type of fuel do you most often put into your vehicle?	Premium gasoline.
Are you using your vehicle for towing when the problem occurs?	No.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.

Overview

Which feature or section of the Smartphone Application did you find most helpful and why?	Remote start over the app is great.
The Smartphone Application format is easy to understand and use	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Didn't have time for me
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	It is a good vehicle...but certain technology is still not at a consistent level. Adaptive Cruise control turns off on its own as well as the issues with the Collision Avoidance. Control panel blanked on us 5 months back and then came back three days later. Just seems there are still some unreliability in Jeep's technology integration. Gas mileage is a little rougher than advertised.
Smartphone Application covers the necessary features	4 (agree).
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Information in the Smartphone Application is easy to find and access	4 (agree).

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call

Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.
Sound quality is poor: (check one)	For the receiver of the call.
Please describe when this trouble occurs:	I have noticed no particular situations.
Do you recall your cellular coverage at the time?	Do not recall.
Does the issue occur when speaking at regular volume?	Yes.
At other times during use does your phone have poor call quality?	Yes.
Additional Comments:	Incoming voices are excellent and much better than the phone speaker alone.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	In rural areas my 2 Garmin units (1 is 5 years old) are far, far superior in showing roads as well as suggesting routes between 2 points. It can't give good directions if it does not show all the existing roads. Marquette County, Wisconsin.

Registration	
Registration	Registration is difficult to understand/use.

Registration is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	I already had an account from my 2008 Town and Country. I used it once and forgot about it. I had to open a different email address to register the 2014 Jeep. Somewhere in the process it was discovered I could have registered on the existing account.
Plese indicate which registration method you attempted (check all that apply):	Phone registration.
Additional Comments:	I don't remember if I received an email.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

What Can We Do Better?>	
Feedback/Concerns:	I'm [redacted] tall and the adjustment to raise the shoulder belt and hold it off your left shoulder (driver) does not go high enough. I feel in an accident my body would be forced counter-clockwise and out of the shoulder belt. I noticed this immediately on the initial test drive. Where are the rear stop/turn LEDs??? I've got a $50K Summit and incandescent lights. It ruins the upscale feel when I see the flashing LED's on a Kia or Dodge mini van. A real, real big miss here. XMSirus antenna system is not as good as the one on my '08 Town and Country. It drops out much easier in the exact same conditions. Really poor amongst trees where the T&C does not miss a beat.
What has Chrysler done right?	Good looking vehicle, excellent interior, nice ride and the V-6/8 speed trans is a good combo when you learn how to drive it.

Vehicle Satisfaction Ratings	
Overall audio, entertainment, and navigation system impression	3.
Clarity of sound	4.
Ease of using system displays while driving	5.
Integration with phones	4.
Navigation system route accuracy	3.

About You

Secondary vehicle in your household:	Secondary Household Vehicle: Purchased Used.
When considering this vehicle	Test drive the vehicle. Visit the dealership. Research online.
Financing options	1.
Trade-in allowance	2.
Primary vehicle you were considering:	2014. Porsche. Primary Considered Vehicle: Used. Cayenne.
Price	3.
Convenience of dealership location	5.
Which, if any, influenced your purchase decision? (check all that apply):	Automotive magazines. Dealership information. Vehicle test drive. Edmunds. Previous experience with the vehicle/brand.
What is your total household income (before taxes)?	More than $200,000.
Please tell us about the vehicle you replaced (if applicable)	Porsche. 2010. Cayenne. Replaced Vehicle: Purchased Used.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	I wanted a diesel
How may children 17 or under live in your household?	0.
Vehicle performance	5.
Please indicate the primary driver's age.	[redacted].
Please indicate your highest education level	Graduate degree.
Secondary vehicle you were considering:	Land Rover. Range Rover. Secondary Considered Vehicle: Used. 2014.
Please indicate your gender	[redacted].
What is your current marital status?	[redacted]
Please indicate your occupation status.	[redacted]
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
Ability to test drive	5.
Primary vehicle in your household:	5 Series. 2010. BMW. Primary Household Vehicle: Purchased Used.
Please indicate your ethnicity	[redacted]
Please indicate your occupation.	Other.
What price did you pay for your vehicle?	58000
What is your average miles per gallon (MPG) with your vehicle?	25-26 mpg.

About You	
Vehicle fuel economy	4.
What year were you born?	[redacted]
Dealership treatment	4.
Vehicle styling	4.
Vehicle availability	5.
Vehicle quality	5.
What is your primary language?	English.
Is this your first new vehicle ever purchased / leased?	No.

Overview	
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Which feature or section of the Printed User Guide did you find least helpful and why?	need further information concerning adaptive cruise control and advance warning system
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
Information on the DVD is easy to find and access	4 (agree).
What have you used to view your DVD? (check all that apply)	Computer/laptop. Mac Computer.
Was the trouble resolved to your satisfaction?	No.
Was there information needed that was not included in the User Guide?	My adaptive cruise control would stop working for no apparent reason (the front sensor WAS clean) and the advance warning system would go off "BRAKE, BRAKE" for no apparent reason. Two trips to my dealer (Advantage Jeep, Willoughby, OH). I was told the features were working properly and I should read the manual for proper operation. There is nothing in the manual that addresses this issue
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Which automotive publications do you subscribe to? (check all that apply)	Auto Week. Road and Track. Car and Driver. Motor Trend.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Adventure Jeep in Willoughby, OH
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Please rate your overall level of satisfaction with the Smartphone Application	5 (very satisfied).
Please provide feedback on how Chrysler can improve the Printed User Guide	Not sufficient detail. Need further explanation concerning adaptive cruise control and advance forward warning system.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Please rate your overall level of satisfaction with the DVD	4 (satisfied).
DVD format is easy to understand and use	4 (agree).
Smartphone Application covers the necessary features	5 (strongly agree).

Vehicle Satisfaction Ratings	
What are your favorite parts of your new vehicle?	trunk space
Engine sound	1.
How do you feel about the VALUE of your new car? (i.e.	3.

Engine performance during acceleration	3.
Wheels, rims, and tires appearance and styling	4.
How was your purchasing experience (the dealer/dealership)?	3.
Vehicle storage and space usage	4.
How do you feel about the durability of your new vehicle?	4.
Ease of using system displays while driving	5.
Rear view styling (rear fascia, bumper)	5.
Head/leg/foot room	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.
Location and usefulness of interior lighting	5.
Steering and handling (responsiveness, stability)	5.

Detail on Low Rated Items	
You rated engine sound Low. Use this space to provide any specific comments you would like to share.	it's a diesel, I expected some noise but this engine is just plain noisy
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	the adaptive cruise control and the forward warning system. Mine quite working for no apparent reason and I'm told by the dealer that the systems are working properly and I should read the manual. I've solved the problem by turning off the forward warning system (thanks for providing a switch for this purpose) and by just not using the adaptive cruise control (regular cruise control works fine)....but I paid a lot for these features and if they really ARE functioning properly, as the dealer tells me, then you should be ashamed of engineering such features.

Detail on High Rated Items	
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	consider getting rid of the shifter in favor or the dial, gives more room on the console
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	overall rugged look
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	pairing iPhone with Jeep was a breezewwe
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	I am surprised at how effective the brakes are
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	just plug it in.... and it works

Welcome

Overview

Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	I do not live as close to the dealer who sold me my car. I did call them to voice my frustration and they were not helpful or concerned that the car I purchased was having so many issues. They referred me to a dealership closer to my house. The people at that dealership have acted in a more professional manner.
Please explain further about your choice to recommend your vehicle:	The dealership has replaced both the radio and the camera and the problem with the backup camera has not been resolved. It is still not working. They have asked Chrysler for help but I have heard nothing. They have not been interested in helping me solve the heated seat issue as they believe that nothing is wrong. I have a bad low back which is why this is important to me. It does not make sense to me that other, cheaper vehicles would have heated seats that work better than a more expensive, higher quality car. I will say that the dealership has been respectful, but not interested in investigating the heated seat issue. We have had a ford edge and an esclade and those seats operated better than the ones in this car. I have been waiting for the Diesel engine GC to be released for quite some time and to buy the car and not be able to fix these is more than frustrating.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Engine>Engine Fluids (leaks, excessive oil consumption)>Engine fluid leaks>

Please describe conditions when this trouble occurs:	There were no oil stains on my garage and the other day I noticed some when I pulled my car out so I jumped out to investigate and found that the oil marks were still wet which means it's recent and the only car that parks there is the Jeep. Will be taking in to the dealer to be looked at.
Which fluid is leaking?	Engine oil.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Where does fluid appear to be leaking from?	Not sure.
How often does this trouble occur?	Trouble occurs regularly.

Engine>Engine Fuel consumption>Fuel consumption is worse than expected>

Please describe conditions when this trouble occurs:	I've been using the avg. fuel consumption monitor on the display and with city driving it averages around 18. I was expecting closer to 20 for city driving.
Additional Comments:	It's possible that it may need time to break in a bit before the best mileage is seen from the engine.
Are you using your vehicle for towing when the problem occurs?	No.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Where do you do most of your driving?	City/freeway rush hour driving (stop and go driving with a variety of speeds below 45 mph).
What type of fuel do you most often put into your vehicle?	Diesel.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.

Overview

Please explain further about your choice to recommend your vehicle:	I have high hopes for this vehicle. I had a 1994 Jeep Grand Cherokee that was a great car. I hope that this one will be as robust and even more capable than the last! So far the finishes and tech are far superior to any of the luxury SUV's.
Please provide feedback on how Chrysler can improve the Smartphone Application	I've only downloaded the Uconnect app and the lag time between sending a command and the vehicle receiving it is nearly unacceptable. 5-10 minutes is in my opinion not good enough.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).
The Smartphone Application format is easy to understand and use	3 (neither agree nor disagree).
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
	Yes.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	

Features/Controls/Displays>Features and Controls>Reverse-Camera>Reverse-camera is broken/not working>	
Please describe conditions when this trouble occurs:	When I put the car in reverse and start moving.
Additional Comments:	I plan to bring this in to see if it can be fixed because it's awful.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate what type of trouble was experienced with the reverse-camera (check all that apply):	For a vehicle this expensive I expected the image to be super clear but it's not very clear at all. In addition, it has a terrible flicker that makes the image really choppy and in my opinion dangerous as it defeats the purpose of having it.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	It tends to go off in parking decks often for some reason. Also it went off today when a car was making a turn and hit the breaks with two pulses (a warning maybe?) but I wasn't in danger of hitting the car. I was actually surprised it engaged the brakes.

What Can We Do Better?>	
Feedback/Concerns:	I didn't have anywhere to put this but I really like the idea of easy entry/exit where the steering wheel moves up and the seat goes back. Unfortunately I find that the seat goes WAY too far back. I'm a tall man at [redacted]" and I have trouble getting into the seat when it's that far back. Also, with regards to the lift gate, you really should put a proximity sensor in it so that it senses objects it is about to encounter like a garage door and stops the tailgate short of hitting the object. As of now if there is something there it will hit it. In the case of a concrete parking deck that could be some serious damage. Also, you should make your rear brake and turn signal lights LED for faster response times. Studies show it really does help prevent some rear end collisions and on a car this expensive it's a nice luxury touch as well. Also one thing that is AWFUL is the sun visor!!! When the visor is down and you go to put it back up it pops out of the clip and smacks you right in the face every time. How did someone not catch that? I would appreciate an updated clip that holds the visor better as an option to buy in the parts department to replace this junker.
What has Chrysler done right?	WOW! In my personal opinion you have created one of the most beautiful pieces of machinery on the road today. While you did cut corners in some areas, overall this is one excellent vehicle. All of my friends that have seen it and been in it have commented at how nice it is, it's great sound system and how awesome it looks on the outside. You've got the right overall design and now all you need to do is tweak the few things that you cut corners on and it will be a world class vehicle. Who gives a crap about Land Rover anymore? We've got JEEP! Also I LOVE my diesel!!!! Keep making them please.

Vehicle Satisfaction Ratings	
What are your favorite parts of your new vehicle?	Exterior styling, interior design, technology as well as off road capability
Is there anything about your new vehicle you would like to see changed?	Was disappointed to see that the leather doesn't continue down the side of the seats but changes to fabric, also the gear shifter is awful. My dad refuses to drive the Jeep because of it and even after having the car fro close to two months now I still have trouble shifting into the correct gears.

Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	This isn't the top of the line Harmon Kardon but honestly you would never know it. The stock system in the Overland is beyond excellent.
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	No distortion or noise in the music. Wonderfully recreates the music the way it was meant to be heard.
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	Over all really good.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	I have an Android phone and it works perfectly with the system.
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	I was really impressed that it started playing my music playlist on the phone automatically when I switched to the media screen. Super easy!
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	Does a great job rerouting based on traffic issues ahead.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	This vehicle is shockingly gorgeous!! It's gets stares everywhere I go and all my friends have commented on how awesome it looks.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Beautiful deep cherry red with unreal metal flakes that sparkle like diamonds.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Overall it's perfect. The one thing I would like to see is to get rid of the little piece of black plastic under the headlight. It looks like a bandaid and isn't attractive.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	Perfect.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	Perfect.
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	Perfect.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Love the auto high beams!!
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Super nice inside. The leather dash is super stylish and much better than big hunks of plastic.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	Especially love the auto entry exit suspension.
	Super quiet inside and easy to converse with fellow passengers.

Detail on High Rated Items	
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Steers like a dream. I got in my parents' Ford Edge and felt like I was driving a brick down the road compared to my Jeep!
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Easy process to buy. The only thing I would recommend is that the dealerships all need a sprucing now that some buyers like me will be coming from luxury dealerships that are much nicer.
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	Can't get another vehicle in the US with all of these features anywhere close to this price point.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	I've always loved Jeep! I grew up riding in a Willy's!
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Adaptive cruise control. Where has this been all my life? I drove my car on a business trip and it was the best feature I've ever used for a road trip. Awesome. Thanks Jeep.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I don't really have anything. I think that a few corners were cut that need to be fixed but once you clean those up this will be the best SUV on the market, luxury or not!

About You	
What price did you pay for your vehicle?	49,680
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	The price to features was much better on the Jeep than the much smaller Q5
What year were you born?	[redacted]
Which, if any, influenced your purchase decision? (check all that apply):	Vehicle test drive. Manufacturer?s website. Previous experience with the vehicle/brand. On-Line blogs or forums. Automotive magazines.
Secondary vehicle you were considering:	Secondary Considered Vehicle: New. BMW. 2014. X5.
Secondary vehicle in your household:	Subaru. 1993. SVX. Secondary Household Vehicle: Purchased Used.
Please indicate your ethnicity	Caucasian.
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	TL. Acura. 2007. Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	Q5. Audi. 2014. Primary Considered Vehicle: New.
Primary vehicle in your household:	Jeep. Grand Cherokee. Primary Household Vehicle: Purchased New. 2013.
Which of the following best describes the area you live in?	Suburban.
Please indicate your highest education level	4 year college degree.
How may children 17 or under live in your household?	0.
Did you purchase or lease your vehicle?	Purchase.
What is your total household income (before taxes)?	$80,000 - $99,999.
What is your primary language?	English.
Please indicate your gender	[redacted]
What is your current marital status?	[redacted].

Contact Me>

Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	fun, but it will take some time to discover all the features and use them
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	I opt'd to NOT do the diesel engine option. Too much money and still a diesel smell to deal with plus the Odor control additive, nuts and $ 4,000 was nuts. 4,000 buy lots of gas for a simple engine.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Keep it neat a clean, smooth lines and mix chrome and paint carefully
You rated engine sound High. Use this space to provide any specific comments you would like to share.	this area can 'push' noise into the interior, which then causes the radio to be turned up... good job, very soft interior sounds.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	very nice and smooth.
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	Audio is ok, but the speakers seem to be a bit off, I will try to adjust the balance again...??
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	first 4 wheel brakes since my A-8's, nice and smooth
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	My prior 2003 Ltd. still runs very well, gave it to my sister in-law with 150K. So i expect this new version of the Ltd. to perform just as well
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	well per my age, i do not need to wake up the neighbors with exhaust noise, just soft exhaust output
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Wheel well trim kept the road noise down i think, good design to minimize wind noise.

No Concerns>	
Please explain further about your choice to recommend your vehicle:	soft and solid ride.... quiet. Much nicer than my prior 2003 Ltd. BIG difference !!
Which feature or section of the Smartphone Application did you find most helpful and why?	numbers last dialed
The Smartphone Application format is easy to understand and use	2 (disagree).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Have you taken your vehicle to an authorized dealer for any reason? (check all that apply):	Yes to go over the electronics with my salesman who was very helpful, but I still need help
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Please provide feedback on how Chrysler can improve the Smartphone Application	Voice activation feature is touchy to use.... note when you are driving down the road all has to work without looking at the screen....
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).
Information in the Smartphone Application is easy to find and access	2 (disagree).

About You	
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	all the electronic features and options, a MUST

Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	0-999.

What Can We Do Better?>	
What has Chrysler done right?	Great car, quality and it is a pleasure to drive. I have the V-6 and it goes just fine up to Vail, Colorado and back good power, and smooth engine with lack of noise. thank you.
Feedback/Concerns:	Keep making the car quiet and smooth, and the back seat leg area is too small, seats need to be able to move back, like the Chevy does now. If we take another couple to dinner and a movie it is too tight a fit to get in and sit per the lack of leg room.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	rear set leg room is much to limited for guests to enter and depart and ..... relax

Other>

To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe the other trouble you experienced:	Auto braking is very, very, very sensitive. I like the collision avoidance system, but if I car in front it taking an exit while I'm behind them, it sometimes kicks in. On several occasions, this has almost caused the car behind me to hit me.
Please describe conditions when this trouble occurs:	Mostly, what I described above ... although, on two occasions, it auto braked out of the blue
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Lights	Automatic high-beam headlights broken/not working.

Features/Controls/Displays>Features and Controls>Cruise control system>

Cruise control system	Cruise control system is broken/not working.

Overview

Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
Was the trouble resolved to your satisfaction?	No.
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
The Smartphone Application format is easy to understand and use	4 (agree).

Overview	
Where did you take your vehicle to have your trouble checked out? (check all that apply)	I tried to get an appointment with the dealer I purchased it from and they told me the next available appointment would be 2 months from the time I called. Considering one of the problems was a faulty integrated control unit for my Antilock Brakes, I did not want to wait 2 months.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	For the rear collision avoidance, I do not think it happens soon enough. I want the distance indicator to be a farther distance from the object for more reaction time. For the front, I do not get any notification- again, I think this is because of the issue regarding the front radar sensor.

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system is broken/not working>	
Please indicate what type of trouble was experienced with the cruise control system (check all that apply):	The ACC does not work at all- within 2 weeks of buying the car, I got the warning "ACC/FCW Unavailable- Wipe Front Radar Sensor." I also recieved a factory recall about the ACC. I have taken it to a Jeep Dealer twice to be fixed- both times that have said it was only for the warning to come back on. It does not allow the ACC to work and it sometimes affects the cruise control as well even if I do nto activate the ACC.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	Any time I drive, this warning comes on within minutes.

Detail on High Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I was wildly excited about the automatic bright headlights...which promptly stopped working.

Automatic high-beam headlights broken/not working	
Additional Comments:	One of the issues that I have taken the car to the dealer for twice is for a screen that says "ACC/FCW Unavailable- Wipe Front Radar Sensor.' Both times I was told it was fixed only to have the warning turn back on within an hour of leaving the dealer. Since it is the front radar sensor, I imagine the lack of automatic headlights has something to do with that.
Please indicate the trouble experienced with the automatic high-beam headlights (check all that apply):	I can manually turn them on. When I bought the car, the screen behind the streeing wheel would say they were activated. Now, I can still turn them on but they do not turn off when another car comes like it did at first.

Automatic headlights broken/not working	
Please describe the trouble you experienced:	They sometimes turn on at random times- the only reason I notice is the insturmentation panel on the inside dims.
Please describe conditions when this trouble occurs:	I have not noticed any common trend. At first I thought it was when I went in to shadow, like maybe the car thought nightfall was coming.

What Can We Do Better?>	
What has Chrysler done right?	You made a car so sexy that I was willing to pay $60,000 for it.

Vehicle Exterior>Exterior Appearance/Paint:>Exterior moldings/trim pieces loose/misaligned/falling off>	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is loose.
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	It is not so much the panel but the trim around the front camera. It fell off the first time about a week and a half after I bought it brand new.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Vehicle Exterior>Exterior Appearance/Paint:>	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Vehicle Exterior>Fuel filler door/cap>	
Fuel filler door/cap	Fuel cap difficult to open/close.

Vehicle Exterior>Fuel filler door/cap>Fuel cap difficult to open/close>	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate which of the following best describes your concern (check all that apply):	I do not know that open is the right word- it does not have a cap rather the capless system. I just find it very difficult to get the gas nozzle in- I am afraid I am going to break something.

About You

What price did you pay for your vehicle?	$50something. don't remember
How may children 17 or under live in your household?	0.
Please tell us about the vehicle you replaced (if applicable)	2011. EX35. Infiniti. Replaced Vehicle: Purchased New.
Please indicate your highest education level	Graduate degree.
Primary vehicle in your household:	Jeep. 2014. Grand Cherokee. Primary Household Vehicle: Purchased New.
Primary vehicle you were considering:	Primary Considered Vehicle: New. Cayenne. 2014. Porsche.
Secondary vehicle you were considering:	Range Rover. Land Rover. 2014. Secondary Considered Vehicle: New.
Which, if any, influenced your purchase decision? (check all that apply):	Vehicle test drive. NHTSA or IIHS safety ratings. On-Line blogs or forums. Consumer Reports ratings. Edmunds. Manufacturer?s website. Automotive magazines. the dealership could not answer some of my questions so I spoke with one of your engineers by phone. He was very helpful.
What year were you born?	[redacted]
Please indicate your gender	[redacted]
Please indicate your ethnicity	[redacted]
What is your primary language?	English.
Is this your first new vehicle ever purchased / leased?	No.
Which of the following best describes the area you live in?	half time urban, half time rural
Did you purchase or lease your vehicle?	Purchase.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	not a good value for money and not as good a performer as the GC
What is your current marital status?	[redacted].

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

Please describe conditions when this trouble occurs:	driving around
To the best of your recollection, the trouble was first noticed:	At delivery.
Why is the gear selector difficult to operate?	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.
Going into which position is the gear selector difficult to operate? (check all that apply):	your fancy shift lever that does not go anywhere is very cute but pointless and fussy. try shifting from N to D while at the end of a pull-through car

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
	wash or when trying to reverse while not looking at the shift lever (say in backing a trailer). good luck hitting the right gear.

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call	
Additional Comments:	happens all the time (every call) whether I'm 4g or rural. people are annoyed when I call from the car.
Do you usually set HVAC vent direction toward ceiling?	No.
At other times during use does your phone have poor call quality?	No.
Do you recall your cellular coverage at the time?	Full cellular coverage.
Sound quality is poor: (check one)	For the receiver of the call.
Does the issue occur when speaking at regular volume?	Yes.
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	every call

Detail on Low Rated Items	
You rated ease of using system displays while driving Low. Use this space to provide any specific comments you would like to share.	hard to read non-backlighted controls during daylight hours
You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.	shifter is fussy. difficult to engage the desired gear
You rated overall audio, entertainment, and navigation system impression Low. Use this space to provide any specific comments you would like to share.	poor base, poor dynamic range in general
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	come on. I've spent almost two hours telling you about the engine hesitation, the worthless nav system, the complicated and difficult to see controls. call me.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesn't work/or is difficult to understand>	
Additional Comments:	I forgot to mention that the radio is endlessly "acquiring signal" in rural areas.
Please indicate what issues you are experiencing with the traffic information (check all that apply)	The system sometimes does not reflect the actual conditions I find on the ground. Perhaps the data are just out of date by the time I arrive. Latency is a real problem with the system in general. my other vehicles are / have not been like this.
	depends upon the resolution (scale) selected, but it is difficult to read. Is the accident on the feeder or on the main lanes? is the congestion on the feeder or the main lanes?

Entertainment/Navigation System/Connectivity>	
If known, please tell us your software version	iOS7.1.2(11D257)
Please tell us your cell phone model	iPhone 5
Please choose your cell phone brand	Apple.
Entertainment/Navigation System/Connectivity	None
Please choose your cell phone carrier	Verizon Wireless.

AM/FM/HD/Satellite radio channels have poor or no reception	
Additional Comments:	It is better now that the dealership has "reupdated the stack" a few times.
Please describe conditions when this trouble occurs:	No radio, even when i select some other function and then select radio again.
Please indicate which frequency band has trouble (check all that apply):	Occasionally the radio will not work at all, usually in conjunction with the times the Navigation system freezes. Also, the system looses satellite signals from time to time.
	Occasionally the radio will not work at all, usually in conjunction with the times the Navigation system freezes.
	Occasionally the radio will not work at all, usually in conjunction with the times the Navigation system freezes.
How often does this trouble occur?	Trouble occurs intermittently.

Engine>Electronic Engine Controls (Check Engine)>Check Engine light indicated trouble>	
Additional Comments:	It may also have occurred on steep inclines when I use the brake and the acceperator at the same time, when there is no time to engage the technical assent / descent feature. I think you should disable this as a check engine light situation.
Did you also experience an engine performance issue while the "Check Engine" light was on?	No.
What type of fuel do you most often put into your vehicle?	Diesel.

Engine>Electronic Engine Controls (Check Engine)>Check Engine light indicated trouble>	
Please describe conditions when this trouble occurs:	The engine light has come on twice when the system senses that i have one foot on the accelerator and one on the brake. this may have occurred when the collision avoidance system senses a car turning into a parking lot a half block ahead while I'm travelling 50 mph in heavy traffic and the system jambs on the brakes. I hit the accelerator to avoid a rear end collision. it may also happen when - see below
Was the "Check Engine" light your first indication there was trouble?	Yes.
How often does this trouble occur?	Trouble occurs regularly.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Additional Comments:	sorry, pushing my time limit

Detail on High Rated Items	
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	very smooth and responsive for a diesel.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	as you'd expect from a ZF gearbox
You rated engine sound High. Use this space to provide any specific comments you would like to share.	very quiet for a diesel
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	I get a lot of complements on the rootbeer color paint job.

Features/Controls/Displays>Features and Controls>Reverse-Camera>Reverse-camera works properly, but difficult to understand/use; controls in a poor location>	
Additional Comments:	would be nice to have a 360 degree wrap-around camera view, like infinities have had for years.

Vehicle Satisfaction Ratings	
Is there anything about your new vehicle you would like to see changed?	you bet: eliminate the hesitation / stalling problem and improve the electronics
Overall audio, entertainment, and navigation system impression	1.
Clarity of sound	4.
Front view styling (front fascia, hood, grille, headlight area)	5.
Wheels, rims, and tires appearance and styling	5.
Engine exhaust sound	5.
What is your attitude overall towards the BRAND of your new car?	5.
Location and usefulness of interior lighting	2.
Climate control operation (function and ease of use)	2.
Vehicle storage and space usage	4.
Rear view styling (rear fascia, bumper)	5.
Head/leg/foot room	5.
Brake responsiveness/effort	5.
How was your purchasing experience (the dealer/dealership)?	5.
What is your attitude overall towards your new car?	5.
What are your favorite parts of your new vehicle?	eveything mechanical and physical
Exterior design and appearance (overall impression)	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Headlight illumination/performance during night-time driving	5.
Interior comfort, design and appearance of interior (overall impression)	5.
Seat adjustment and comfort	5.
Steering wheel adjustment	5.
Safety and visibility while driving	5.
Engine performance during acceleration	5.
Transmission gear change performance (smoothness)	5.
Fuel economy and driving range	5.
Difficult driving conditions (adverse weather, off-road)	5.
Ride quality	5.
Ease of using system displays while driving	1.
Operating controls while driving (gear selector, turn signals, horn, etc.)	1.
Integration with phones	2.

Vehicle Satisfaction Ratings	
Appearance of exterior paint	5.
Ease of getting into and out of vehicle	5.
Interior noise level while driving	5.
Engine sound	5.
Steering and handling (responsiveness, stability)	5.
How do you feel about the durability of your new vehicle?	5.
How do you feel about the VALUE of your new car? (i.e.	5.

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception.

Speakers have poor sound quality	
Trouble with speaker occurs:	At all volume levels.
Please indicate which media sources were being played (check all that apply):	Sound is tinny, hollow, and of narrow dynamic range. Sound is tinny, hollow, and of narrow dynamic range. Sound is tinny, hollow, and of narrow dynamic range. People on the other end complain of very poor reception no matter where the vehicle is (in Texas)
Please describe conditions when this trouble occurs:	All conditions, all the time. It's just a crummy audio system.
Please indicate which speaker has trouble (check all that apply):	Sound is tinny in general. Not what one would expect from a 2014 GC Summit. Very little base, even with the bass full up and treble full down. A disappointment for a vehicle of this caliber.
Additional Comments:	I remarked about the poor audio to the salesman during the first test drive, ... and he agreed with me.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.

Continuous Quality Insight	
Continuous Quality Insight	Engine. Transmission and Drivetrain. Interior Climate Control. Entertainment/Navigation System/Connectivity. Interior Trim/Storage/Windows. Features/Controls/Displays.

Hard Controls/Menu	
Hard Controls/Menu	Front seat audio/entertainment/navigation controls/menus broken/not working. Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location. Hard controls/menus: Front Screen Display: Other Concerns. Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command. Hands-Free Phone / Bluetooth system has poor sound quality at far end.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	Town names at most resolutions on the road, highway numbers at most resolutions on the road, no Interstate highway rest areas, one small example: I could see the hotel just ahead, one block on a street that has been there for decades. The system directed me many blocks around a circuitous path to get there. I ignored it. Incorrectly labels roads as private when they are public and have been for decades, incorrectly names roads (eg: says I'm on a rural road that is actually miles away), shows my vehicle icon way off the road (miles, up on the side of a mountain where there are no roads), shows my vehicle icon in the right place but does not realize that there is a state highway I'm driving on(so it looks like I'm going cross-country when I'm not), shows my vehicle icon miles away from where the vehicle is, sometimes on a course that will eventually cross the road I am actually on. This is dangerous, I

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
	travel alone in remote areas and one reason I bought the GC was because it can summon help if I am in an accident. I want the ambulance to come to where I am, not on the side of some mountain 15 miles away.
Please indicate which navigation system item has trouble (check all that apply):	I included this above.
	Please see above.
	I included this above.
	I included this above.
Additional Comments:	Please replace this system and make it available to all 2014 GC owners if technically possible. This is worthy of a recall and ripe for a class-action law suit (not by me, but there will be others) because it is dangerous and unnecessary. I want emergency vehicles to come to where I am and not where the Nav system thinks I am sometimes.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system works, but missing information; has incorrect information; gives wrong directions.
	Navigation system works, but traffic information doesn?t work / or is difficult to understand.
	Points of Interest incorrect.
	Difficulty accessing Points of Interest.
	Points of Interest not well defined.
	Navigation system freezes-up/will not work.

Overview	
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please explain further about your choice to recommend your vehicle:	The vehicle is terrific! The electronics suck.. the vehicle is way ahead of the stack and also of the power management systems.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Huh? Are you just trying to make this survey difficult or what?

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers have poor sound quality.

Text Messaging	
Text Messaging	Text messaging works properly, but is difficult to understand/use.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>	
Voice Activation / Recognition	Voice Recognition Quick Tips Booklet is not helpful, or is difficult to use.
	Voice Activation / Recognition doesn't recognize command.
	Voice Recognition Quick Tips Booklet does not list enough detailed commands.

Voice Activation / Recognition doesnt recognize command	
Please describe when this trouble occurs:	When stating a name.
	yes I wait for the beep. otherwise nothing happens.
Additional Comments:	sorry, I need to press on the engine section. I have attempted to complete this survey 3 times before and it always timed out before I get to the real message you should want to know about - hesitation

Features/Controls/Displays>Features and Controls>Wipers and washers>Windshield wiper/washer controls work properly, but difficult to understand/use; in a poor location>	
Please indicate which feature's controls are difficult to understand/use (check all that apply):	see below
	see below

Features/Controls/Displays>Features and Controls>Wipers and washers>Windshield wiper/washer controls work properly, but difficult to understand/use; in a poor location>	
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	inconsistent with all my other recent vehicles. It's okay to be different, if there is a valid reason. seems to me to be no valid reason here.
Additional Comments:	10 minutes, eh?
Please indicate which of the following best describes your concern (check all that apply):	see below see below
Please indicate which feature's controls are in a poor location (check all that apply):	see below see below

Features/Controls/Displays>Features and Controls>	
Features and Controls	Wipers and washers. Light switches/controls. Reverse-Camera. Sunroof/moonroof controls.

Welcome>	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	The main thing you should care about discussing is the profound hesitation of the GC diesel. Me too. The other things have to do with my safety (nav system), convenience (nav system, phone, visibility issues, etc), and comfort (HVAC, Radio, roof vent, etc)

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system freezes-up/will not work>	
Please describe conditions when this trouble occurs:	After stack Reupdate, the system freezes less often, but it still freezes whenever I plug in more than about 3 waypoints in a trip. It will not reset until i stop the engine and restart, and sometime it will not reset even then. If it doesn't freeze, it endlessly recalculates the route.
Additional Comments:	The navigation system is essentially worthless, and there's no excuse for that. All of my previous 8 or 10 vehicles were far superior. This system gives obviously bogus directions (directs you literally blocks away when the destination is dead ahead on a two-way public street), requires too many button pushes (7 button pushes to go from heads up to north up, or vice versa), no Interstate rest areas and no real provisions for adding them, pressing "-" once goes from a screen depicting the outer loop in Houston to a screen stretching from Houston all the way to San Antonio, with no intermediate steps, traffic is worthless, latency is unnecessarily long for everything, inadequate town names en route, difficult to modify a trip in progress, requires pressing the nav icon every time one uses the settings button or any other button and then goes back to nav, poor set up for storing favorites, asks me to confirm a destination and then provides no mechanism for doing so, endlessly recalculates the route, etc etc. I can go on, and will be happy to do so if you care enough to call me at [redacted] a mechanical engineer and gearhead.
How often does this trouble occur?	Trouble occurs intermittently.

Difficulty accessing Points of Interest	
Additional Comments:	I'm an hour into this 10 minute survey so don't have time for this one. I want to get to the real problem, pronounced hesitation of the diesel engine.
Please describe the trouble with the Points of Interest within the Navigation system	dumb

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
What button did you use?	screen and steering wheel
Please describe when this trouble occurs:	that would be all the time in the climate where I live. When stating a name.
How often does this trouble occur?	Trouble occurs regularly.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Additional Comments:	occasionally jambs on the brakes hard when someone turns into a parking lot a half block in front of you. danger of a rear end wreck.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	many controls are hard to see in this vehicle.

Text messaging works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	I gave up so can't be specific.

Engine>Engine Driveability (stumbles/hesitates/surges)>	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.

What Can We Do Better?>	
Feedback/Concerns:	1. You did not ask me about the one thing you really should know about. All of the diesel GC's I have driven exhibit a profound hesitation, to the point of being more correctly a stall. This is serious and my dealer knows about it but seems unable to do anything about it. I would be pleased to discuss it with one of your engineers in detail. You really do need to fix it. call me at [redacted], P.E (Ret) 2. This is not a 10 minute survey, unless you really don't want / expect to gain any actionable information.
What has Chrysler done right?	Built an excellent, even elegant vehicle, perfect for my needs (but with an awful suite of electronics). Help!

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	correct - not well defined

Interior Climate Control>Operation and Performance>Air conditioner takes too long to get cold>	
Additional Comments:	takes a long time sometime, in almost any situation. main concern is lack of stability (temp fluctuates) and granularity of the controls (a degree up or down results in a blast of cool or (especially) hot (hot) air.

Interior Trim/Storage/Windows>Operation and Functionality>	
Operation and Functionality	Center console is difficult to open/close.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Clock works properly, but is difficult to understand/use; controls/displays are in a poor location. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).

Interior Trim/Storage/Windows>Operation and Functionality>Center console is difficult to open/close>	
Additional Comments:	would be nice to have a little lip around the perimeter of the console so we can place small objects temporarily, as say at a drive through. as it is now, whatever we place on the console roles off and disappears.

Features/Controls/Displays>Displays and Instruments>Clock works properly, but is difficult to understand/use; controls/displays are in a poor location>	
Additional Comments:	would be nice to have an always-on clock

Engine>Electronic Engine Controls (Check Engine)>	
Electronic Engine Controls ('Check Engine')	"Check Engine" light indicated trouble.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Air conditioner takes too long to get cold.

Sunroof/moonroof works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	would be nice to be able to open the roof vent with the roof shade only partially open to let out hot air without exposing the entire interior to sunlight.
Please indicate which feature your vehicle is equipped with:	Sunroof/Moonroof.

Front seat audio/entertainment/navigation controls/menus broken/not working	
Please indicate which controls/menus are broken/not working properly (check all that apply):	radio goes off and won't come back on or endlessly says it is "reacquiring signal"

Front seat audio/entertainment/navigation controls/menus broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.

Media	
Media	Radio.

Features/Controls/Displays>Features and Controls>Wipers and washers>	
Wipers and washers	Rain sensing wiper controls work properly, but difficult to understand/use; in a poor location. Rear window wiper/washer controls work properly, but difficult to understand/use; in poor location. Windshield wiper/washer controls work properly, but difficult to understand/use; in a poor location.

Touchscreen Controls	
Touchscreen Controls	Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location. Touchscreen Controls/Menu: Front Screen Display: Other Concerns. Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location.

Features/Controls/Displays>Features and Controls>Reverse-Camera>	
Reverse-Camera	Reverse-camera works properly, but difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Features and Controls>Cruise control system>Cruise control system is broken/not working>

Additional Comments:	I believe it is a design flaw in positioning the front sensor or it needs redundant sensors. Any dust, rain, snow, bug, anything at all gets on the glass ball and it won't work. Can't go many miles without it telling me the collision system is not available, wipe it. Really like Adaptive CC the few minutes or perfect day when it does function - disappointing to pay for it and not have it work better.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Difficulty accessing Points of Interest

Please describe the trouble with the Points of Interest within the Navigation system	Limited POI brands or items found

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location

Additional Comments:	This feature is the single biggest fail of the entire vehicle. Needs significant improvement or should be refunding the cost to owners. It is near worthless and annoying because it would be great.

Points of Interest not well defined

Please describe the trouble with the Points of Interest within the Navigation system	Too limited in ability to search for generics
Additional Comments:	Can find "coffee" but not "auto parts" for example. Needs more categories and even some brand names seem lacking.

Voice Activation / Recognition finishes before completing a command

What button did you use?	voice command
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	Generally when I hesitate too long it assumes I'm done.

Overview

Printed User Guide covers the necessary features	2 (disagree).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Was the trouble resolved to your satisfaction?	Yes.
Did you review the Printed User Guide?	Yes.
Please provide feedback on how Chrysler can improve the Printed User Guide	No clear instructions for towing a trailer. What do I do with the transmission settings (turn off fuel efficiency mode? use the paddles?)
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Overview	
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Cruise control system.

Via Mobile works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Just launching it is a pain. I can Bluetooth my phone and just use it so why would I ever want this app? GIVE ME A WAY TO DELETE IT PLEASE!
Please indicate which feature(s) of Via Mobile are difficult to understand/use (check all that apply):	Pandora.

Continuous Quality Insight	
Continuous Quality Insight	Features/Controls/Displays. Entertainment/Navigation System/Connectivity. Transmission and Drivetrain.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>	
Voice Activation / Recognition	Voice Activation / Recognition finishes before completing a command. Voice Activation / Recognition doesn't recognize command. Voice Recognition feature does not have enough functions available.

Welcome>	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	In traffic it recommends to exit the highway just to get right back on the highway. It doesn't account for the fact that re-entry is metered and actually is a slower path. Doesn't seem to be aware at all about non-highway traffic. Almost useless in rush hour.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	Seems to be good most of the time but hard when there is road noise
What button did you use?	voice command

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions.

Features/Controls/Displays>Features and Controls>Cruise control system>	
Cruise control system	Cruise control system is broken/not working.

Entertainment/Navigation System/Connectivity>	
Please tell us your cell phone model	iPhone 5

Transmission and Drivetrain>Automatic Transmission>Shift between gears is rough/harsh under normal driving conditions>	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which gear/gears does the trouble occur? (check all that apply)	update to software seemed to fix it - no longer a problem.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Points of Interest not well defined.

Via Mobile	
Via Mobile	Via Mobile works properly, but is difficult to understand/use.

About You

Please indicate your occupation.	Professional Specialty.
When considering this vehicle	Research online. Interact with dealership by email. Test drive the vehicle. Visit the dealership. Interact with dealership by phone.
Which of the following best describes the area you live in?	Suburban.
What price did you pay for your vehicle?	58,000
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	The availability of safety options like ACC/FCW and blind spot detection
Ability to test drive	2.
Please indicate your ethnicity	[redacted]
Primary vehicle in your household:	Grand Cherokee. Jeep. 2014. Primary Household Vehicle: Purchased Used.
Is this your first new vehicle ever purchased / leased?	No.
Please indicate your highest education level	Other (please specify).
Which, if any, influenced your purchase decision? (check all that apply):	Previous experience with the vehicle/brand.
Please tell us about the vehicle you replaced (if applicable)	2010. Replaced Vehicle: Purchased Used. Dodge. Ram 3500.
Secondary vehicle you were considering:	2014. Ford. Secondary Considered Vehicle: Used. Explorer.
Vehicle styling	4.
Vehicle quality	5.
Financing options	1.
Vehicle availability	2.
Trade-in allowance	4.
Dealership treatment	5.
What is your primary language?	English.
Secondary vehicle in your household:	Jeep. Secondary Household Vehicle: Purchased Used. Grand Cherokee. 2014.
Did you purchase or lease your vehicle?	Purchase.
Please indicate your occupation status.	Employed.
Primary vehicle you were considering:	Explorer. Ford. 2014. Primary Considered Vehicle: Used.
Please indicate your gender	[redacted]

About You	
What is your current marital status?	Married.
Price	4.
Vehicle fuel economy	4.
Vehicle performance	5.
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
What year were you born?	[redacted]
How may children 17 or under live in your household?	0.
Convenience of dealership location	2.

Cruise control system is broken/not working	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Whenever the car is driven
Additional Comments:	You need to get me a new car! The car is only 8 months old and has 2200 miles on the odometer and 700 of this miles the dealership has put on the vehicle trying to fix the problem.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate what type of trouble was experienced with the cruise control system (check all that apply):	ACC constantly shuts itself off with the following error "Adaptive Cruise Contro/ FCW unavailable. Clean sensor." The sensor is completely clean. The vehicle has been in 12 times in 8 months and the dealer can not fix and the factory has been unable to provide a remedy.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Please explain further about your choice to recommend your vehicle:	It should not be this difficult to get a brand new car fixed and operating as designed
Information in the Smartphone Application is easy to find and access	5 (strongly agree).
Would you recommend this vehicle to family or friends?	No.
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).
Information in the Printed User Guide is easy to find and access	3 (neither agree nor disagree).
What have you used to view your DVD? (check all that apply)	Computer/laptop. Home DVD Player. Vehicle DVD Player.
Which automotive publications do you subscribe to? (check all that apply)	Motor Trend. Road and Track. Car and Driver.
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very dissatisfied.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Please rate your overall level of satisfaction with the DVD	3 (neither satisfied nor dissatisfied).
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Please rate your overall level of satisfaction with the Smartphone Application	5 (very satisfied).
Printed User Guide covers the necessary features	3 (neither agree nor disagree).
DVD format is easy to understand and use	3 (neither agree nor disagree).
Information on the DVD is easy to find and access	3 (neither agree nor disagree).
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please rate your overall level of satisfaction with the Printed User Guide	3 (neither satisfied nor dissatisfied).
Smartphone Application covers the necessary features	5 (strongly agree).

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes. ACC/FCW being inoperable

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	A brand new car should not need to go in for 12 times to get the ACC/FCW working and still not have it work. It is a safety issue.
You rated climate control operation (function and ease of use) Low. Use this space to provide any specific comments you would like to share.	The AUTO setting is useless. An example: It is 65 degrees outside, the sun is beating down so the interior is hot. Setting the AUTO to 72 degrees and the heater in the car comes on.

Vehicle Satisfaction Ratings	
What are your favorite parts of your new vehicle?	Navigation
What is your attitude overall towards the BRAND of your new car?	2.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.

What Can We Do Better?	
What has Chrysler done right?	Everything else about the vehicle has met or gone above my expectations. Props!
Feedback/Concerns:	Before the Adaptive Cruise Control reprogramming, it wouldn't disengage if traffic came to a complete stop. This was incredible. Now it will cancel the ACC after 5 or so seconds. This was a bummer. I want my old programming back :(

Overview	
Which automotive publications do you subscribe to? (check all that apply)	Car and Driver. Automobile. Motor Trend. Road and Track.
Did you review the Owner's Information DVD?	No.
Printed User Guide covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Would you recommend this vehicle to family or friends?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Please explain further about your choice to recommend your vehicle:	I love it except for the engine/transmission issue and the Bluetooth volume. The quality of materials and build quality is significantly higher than any of my past CFJ vehicles. The GC handles beautifully, is great in every situation I've put it in, and turns heads to boot.
Did you review the Printed User Guide?	Yes.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which of the following best describes your concern (check all that apply):	You have to go through the menu in order to "Sync" the front seat controls rather than having a simple button available in the center stack near the other manual climate control options.
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	sync for the dual-zone front seat

Engine stumbles/hesitates/surges	
What best describes the engine drivability trouble? (check all that apply):	stepping on the accelerator is always an adventure. throttle position doesn't seem to matter, and there's always a lag between pedal push and power delivery. Once the engine detects the input, delivery is unpredictable. Not sure if it's an engine or transmission issue, but it can be dangerous in congested traffic situations.
What type of fuel do you most often put into your vehicle?	Regular gasoline.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:

How do you feel about the VALUE of your new car? (i.e.	5.

Speakers are not loud enough	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Please describe conditions when this trouble occurs:	all the time
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Additional Comments:	For some reason, the Bluetooth telephone connection volume has to be really high to hear the other caller when driving at highway speeds. I have to have the telephone caller volume at 28-32 but the normal radio is fine at 12-14.
Trouble with speaker occurs:	At all volume levels.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone brand	Apple.
Please choose your cell phone carrier	Verizon Wireless.
If known, please tell us your software version	
Please tell us your cell phone model	iPhone 4S

Shifts at wrong times	
Are you using your vehicle for towing when the problem occurs?	No.
Please describe conditions when this trouble occurs:	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Tires show excessive or uneven tread wear	
Where does the excessive or uneven tread wear appear on the tire?	Other (please describe).
Additional Comments:	I get my tires rotated regularly and at 24,000 miles the Goodyear store where I go measured the tread depth and more than 50% was worn on all 4 tires. They said that this was extreme as the tires are 60,000 mile tread-life rated. I do all roadway driving (mostly interstate) so there isn't anything that should have caused abnormal wear.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Points of Interest not well defined.
	Difficulty accessing Points of Interest.
	Navigation system works, but missing information; has incorrect information; gives wrong directions.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers are not loud enough.
	Speakers have poor sound quality.

Steering, Handling, and Ride>Tires>	
Tires	Tires show excessive or uneven tread wear.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	If I say "Call xxxxx xxxxx" it only picks it up about half the time.
Please indicate which words, if any, are constantly misrecognized:	Call
Do you usually set HVAC vent direction toward ceiling?	No.
What button did you use?	steering wheel control

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
	Occasionally, the touch screen will get too many fingerprints and it will be difficult to operate without pressing hard or holding your finger there. Cleaning alleviates the problem, so I don't feel like it's a design issue, but it's a realistic issue nonetheless.
Please describe the other trouble you experienced:	touch sensing innacurate
Please describe conditions when this trouble occurs:	when screen gets dirty

Hesitation or delay when shifting between gears	
Please describe conditions when this trouble occurs:	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	

What Can We Do Better?	
What has Chrysler done right?	Great design, huge improvement in quality, and a great starting point for future products. Best in class.

Hard controls/menus: Front Screen Display: Other Concerns	
Additional Comments:	I would like to be able to show Distance to Empty on the main screen along with speed and compass. There is plenty of room, but no way to add it that I've found to the main display. You have to cycle through menus and take your eyes off of the road.
Please describe the other trouble you experienced:	can't get all of the info I want to show
Please describe conditions when this trouble occurs:	
How often does this trouble occur?	Trouble occurs regularly.

Ventilated seat will not cool enough/at all/fast enough	
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Please indicate which seat has trouble (check all that apply):	It takes progressively longer to cool and the air flow is noticeably diminished from initial performance at time of delivery.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Features and Controls	
Features and Controls	Door locks/key fob entry system.

Speakers have poor sound quality	
Additional Comments:	doesn't happen often, but the sound quality will drop noticeably. Not sure if it's a signal issue or something in the system.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Trouble with speaker occurs:	At all volume levels.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe conditions when this trouble occurs:	
How often does this trouble occur?	Trouble occurs intermittently.

Slips/will not engage gear properly/shifts erratically	
Additional Comments:	See engine comments. Sometimes the transmission will get "stuck" in a gear, even on the freeway. At times it doesn't want to shift into 8th. Other times, when performing passing, it will downshift multiple gears and "hang up" in that gear for a length of time even after the accelerator pressure has been lifted.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	
Are you using your vehicle for towing when the problem occurs?	No.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.

Automatic Transmission	
Automatic Transmission	Hesitation or delay when shifting between gears. Shifts at wrong times. Slips/will not engage gear properly/shifts erratically.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	It has a hard time with vehicles moving into turn lanes and will automatically apply the brakes and alarm in that situation even when a collision is not imminent.

Ventilated seat is broken/not working	
Ventilated seat is broken/not working	Ventilated seat will not cool enough/at all/fast enough.

Difficulty accessing Points of Interest	
Additional Comments:	also does not distinguish well between various types of points. Would be nice if it had separate fast food, coffee house, and restaurant categories.
Please describe the trouble with the Points of Interest within the Navigation system	Slow to load, especially when travelling at highway speed

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system works properly, but is difficult to understand/use.

Key fob entry system works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Initially it worked extremely well, but recently (~ 8 months after delivery) the touch door unlock feature doesn't want to work if my phone is in my pocket with my key.

Engine Driveability (stumbles/hesitates/surges)	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.

Adjustments and Controls	
Adjustments and Controls	Ventilated seat is broken/not working.

Off-Road Features and Functions

Off-Road Features and Functions	Issues with vehicle ground clearance.

Overview

Did you review the Owner's Information DVD?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Did you review the Printed User Guide?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Other

Please describe conditions when this trouble occurs:	
Please describe the other trouble you experienced:	The forward collision detection is dangerous, loud and startling, the automatic braking feature is also dangerous, the forward collision cannot distinguish that an object us to the right of the vehicle such as a car turning right. We have disabled this feature; overall it's awful.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.

Welcome

Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Vehicle Issues/Things Gone Wrong

Continuous Quality Insight	Off-Road. Other. Seats.

Issues with vehicle ground clearance

How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	The up and down controls are easy to accidentally depress.

Vehicle Satisfaction Ratings

Is there anything about your new vehicle you would like to see changed?	
What are your favorite parts of your new vehicle?	

Seat Squeak/Rattle

Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Seat Squeak/Rattle	
Please indicate which seat has a squeak/rattle (check all that apply):	Creaking seat when leaning back
Seat Squeak/Rattle	Seat Squeak/Rattle.
How often does this trouble occur?	Trouble occurs intermittently.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Entertainment/Navigation System/Connectivity

If known, please tell us your software version	
Please choose your cell phone brand	Samsung.
Please tell us your cell phone model	Galaxy S4
Please choose your cell phone carrier	Sprint Nextel.

About You

What year were you born?	
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	
Financing options	1.
Primary vehicle you were considering:	2014. BMW. Primary Considered Vehicle: Used. X5.
Which of the following best describes the area you live in?	Rural.
Secondary vehicle in your household:	Secondary Household Vehicle: Purchased Used.
Please tell us about the vehicle you replaced (if applicable)	Grand Cherokee. 2014. Jeep. Replaced Vehicle: Purchased Used.
When considering this vehicle	Interact with dealership by phone.
Please indicate your gender	[redacted]
What is your current marital status?	[redacted].
Convenience of dealership location	3.
Trade-in allowance	3.
Primary vehicle in your household:	3 Series. BMW. Primary Household Vehicle: Purchased Used. 2009.
Vehicle styling	4.
Vehicle availability	1.
Vehicle quality	2.
Vehicle fuel economy	2.
What is your average miles per gallon (MPG) with your vehicle?	29-30 mpg.
Secondary vehicle you were considering:	BMW. Secondary Considered Vehicle: Used.
What is your primary language?	English.
Please indicate your highest education level	High school degree / GED.
Which, if any, influenced your purchase decision? (check all that apply):	Manufacturer?s website.
Is this your first new vehicle ever purchased / leased?	No.
Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	52000
How may children 17 or under live in your household?	0.
Please indicate the primary driver's age.	[redacted]
Please indicate your occupation status.	Employed.

About You	
What is your total household income (before taxes)?	More than $200,000.
Please indicate your occupation.	Professional Specialty.
Ability to test drive	1.
Vehicle performance	2.
Dealership treatment	3.
Price	5.
Please indicate your ethnicity	Caucasian.

Brakes are excessively noisy	
Please describe conditions when this trouble occurs:	collision detection is activated
Additional Comments:	It sounds like the rotors are coming off when the collision detection system activates the brakes. The first time we used that to see what it would do I had to pull over and crawl under the car to make sure something wasn't loose on the front brakes.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	At delivery.
What area of the vehicle is the brake noise coming from?	Front Brakes.

Vehicle Satisfaction Ratings	
Is there anything about your new vehicle you would like to see changed?	hybrid diesel
Navigation system route accuracy	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Headlight illumination/performance during night-time driving	5.
Interior comfort, design and appearance of interior (overall impression)	5.
Seat adjustment and comfort	5.
Engine performance during acceleration	5.
Difficult driving conditions (adverse weather, off-road)	5.
Wheels, rims, and tires appearance and styling	3.
Interior noise level while driving	4.
Fuel economy and driving range	4.
Ease of using system displays while driving	5.
Support for popular music/video formats	5.
Appearance of exterior paint	5.
Rear view styling (rear fascia, bumper)	5.
Ease of getting into and out of vehicle	5.
Safety and visibility while driving	5.
Ride quality	5.
Steering and handling (responsiveness, stability)	5.
What are your favorite parts of your new vehicle?	diesel and mileage
Integration with phones	3.
Transmission gear change performance (smoothness)	3.
Integration with media players	4.
Clarity of sound	5.
Exterior design and appearance (overall impression)	5.
Front view styling (front fascia, hood, grille, headlight area)	5.
Steering wheel adjustment	5.
Climate control operation (function and ease of use)	5.
Engine exhaust sound	5.
How was your purchasing experience (the dealer/dealership)?	5.
What is your attitude overall towards your new car?	5.
What is your attitude overall towards the BRAND of your new car?	5.
Overall audio, entertainment, and navigation system impression	5.
Vehicle storage and space usage	5.
Head/leg/foot room	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	5.
Location and usefulness of interior lighting	5.
Engine sound	5.
Brake responsiveness/effort	5.

Vehicle Satisfaction Ratings	
How do you feel about the durability of your new vehicle?	5.
How do you feel about the VALUE of your new car? (i.e.	5.

Fuel consumption is worse than expected	
Please describe conditions when this trouble occurs:	Only occurred once after forcing suspension into offroad2 height settings
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	No.
What type of fuel do you most often put into your vehicle?	Diesel.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Where do you do most of your driving?	Highway/freeway driving (speeds held fairly constant above 45 mph).
How often does this trouble occur?	Trouble occurs intermittently.
Are you using your vehicle for towing when the problem occurs?	No.
Additional Comments:	Unable to reproduce, but after one weekend of forcing offroad2 ride height, the next week of driving our mileage went from 28mpg to 23mpg with the same week commute. After forcing the transmission into 4WD low then back to auto our mileage went back to 28mpg. I think something got stuck in 4WD high, but no way to verify that setting on the vehicle. An icon as to what setting the transmission is currently in would be nice.

External side view mirrors work properly, but are difficult to understand/use; in a poor location	
Additional Comments:	power telescoping mirrors would be a great selling point for those of us that need to pull anything larger than a canoe trailer.
Please indicate which of the following best describes your concern (check all that apply):	For a vehicle with a tow package it would be nice to have tow mirrors, even if via mopar accessory. When pulling my trailer I can not see anything out of my two side mirrors.

Overview	
Did you review the Owner's Information DVD?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Did you review the Printed User Guide?	No.
Please explain further about your choice to recommend your vehicle:	It's an amazing vehicle which is why we have purchase two of them in the past year. Both Summit level JGC.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.

Shifts at wrong times	
Are you using your vehicle for towing when the problem occurs?	No.
Additional Comments:	When adaptive cruise is enabled the diesel version downshifts much more frequently than the gasoline versions. I suspect that the programming was kept the same from the two versions without regard to the lower rpms that a diesel motor runs in. When in eco mode it should resume acceleration speeds with fuel mileage in mind. Dropping down two gears to get back to speed is not efficient. Test drive any BMW with ecopro mode for comparison.
How often does this trouble occur?	Trouble occurs regularly.
Going into which gear/gears does the trouble occur? (check all that apply)	all gears when using adaptive cruise resume functions.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	adaptive cruise at any speed from 50mph to 75mph
To the best of your recollection, the trouble was first noticed:	At delivery.

Exterior moldings/trim pieces loose/misaligned/falling off	
Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):	Wheel arch is pulling away due to wind at front Wheel arch is pulling away due to wind at front
Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:	Exterior molding/trim is loose.

Exterior moldings/trim pieces loose/misaligned/falling off	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Additional Comments:	We had this issue on our first 2014 JGC 2WD V6 and also on our new 2014 JGC 4WD CRD.

Features and Controls	
Features and Controls	Rear view mirrors (interior/exterior).

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	4WD transmission programing, eco mode programing
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

What Can We Do Better?	
What has Chrysler done right?	Pretty much everything. Nothing comes close to the features available in a fully loaded Summit even at 10-15k higher prices. A diesel hybrid design would be the only other thing I would trade for.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Vehicle Exterior. Brake System. Features/Controls/Displays. Engine. Entertainment/Navigation System/Connectivity. Off-Road. Transmission and Drivetrain.

Brake Noise	
Brake Noise	Brakes are excessively noisy.

Rear view mirrors (interior/exterior)	
Rear view mirrors (interior/exterior)	External side view mirrors work properly, but are difficult to understand/use; in a poor location.

Displays and Instruments	
Displays and Instruments	Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location. Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Remote vehicle start is difficult to understand/use	
Do you recall your cellular coverage at the time?	Full cellular coverage.
Please indicate which method was used for remote vehicle start (check all that apply):	Used uconnect app on phone vs onstar app on phone.
Additional Comments:	Please find someone with an onstar equipped vehicle and ask to see their app and it's information on the phone. We have no use for the uconnect app after being used to onstar.
Please indicate which of the following best describes your concern (check all that apply):	Sometimes takes over 10 minutes for app remote start to work. Our onstar remote start via app was always less than a minute.

Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	We tried to use it but in houston traffic it was more of a danger than help. Even on the lowest setting it went off constantly every day. When it actually applied the brakes it almost gets you rearended. Nice feature, just not worth using in town.

Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays are in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	At low levels it goes to showing "low" vs how many miles are left. I filled up after about 5 miles of driving in "low" and was only able to put 20 gallons in our 24 gallon tank. At 30 miles per gallon that is another 120 miles!

Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.

Automatic Transmission	
Automatic Transmission	Shifts at wrong times.

Engine Fuel Consumption	
Engine Fuel consumption	Fuel consumption is worse than expected.

Uconnect Access	
Uconnect Access	Remote Features.

Remote Features	
Remote Features	Remote vehicle start is difficult to understand/use.

Points of Interest incorrect	
Please describe the trouble with the Points of Interest within the Navigation system	

Heating, ventilation and air conditioning doesnt maintain desired temperature	
Please describe conditions when this trouble occurs:	
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	In Heating Up it gets overly hot until the cabin temp comes up, so you are constantly changing the temp. Really hot.

USB connection is broken/not working	
Please describe conditions when this trouble occurs:	
How often does this trouble occur?	Trouble occurs intermittently.

Detail on Low Rated Items	
You rated ease of using system displays while driving Low. Use this space to provide any specific comments you would like to share.	Too complicated for driving, back and forth between screens. Don't like voice actuation as it is irritating to other passengers.
You rated climate control operation (function and ease of use) Low. Use this space to provide any specific comments you would like to share.	It gets really, really hot when you start up, then it cools off.
You rated overall audio, entertainment, and navigation system impression Low. Use this space to provide any specific comments you would like to share.	There is no earthly reason 3D maps should not work past a minimal zoom out. It works fine in our 2011 Durango

Hard controls/menus: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	Too much back and forth with touch screen - Takes eyes off road.
Please describe conditions when this trouble occurs:

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Information in the Printed User Guide is easy to find and access	3 (neither agree nor disagree).
What have you used to view your DVD? (check all that apply)	Computer/laptop.
Was the trouble resolved to your satisfaction?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
DVD format is easy to understand and use	3 (neither agree nor disagree).
Information on the DVD is easy to find and access	3 (neither agree nor disagree).

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Brake System. Entertainment/Navigation System/Connectivity. Interior Climate Control. Features/Controls/Displays.

Operation and Performance	
Operation and Performance	Heating, ventilation and air conditioning doesn't maintain desired temperature.

Adjustable height control works, but is difficult to understand/use	
Please describe the trouble experienced with the adjustable height controls:	Way to just turn it off?

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	Verizon Wireless.
If known, please tell us your software version	
Please tell us your cell phone model	5s
Please choose your cell phone brand	Apple.

What Can We Do Better?
Feedback/Concerns:

What Can We Do Better?	
	I am up to 5 or 6 problems with this vehicle. Some of which are steps backwards in auto design. It is a frustrating vehicle to deal with. Did I mention there are two recalls but no parts available, both safety recalls....

Welcome	
Please tell us how many miles are currently on your vehicle:	7,000-9,999.
Are you the primary driver of this vehicle?	Yes.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Points of Interest incorrect. Navigation system works, but traffic information doesn?t work / or is difficult to understand. Difficulty accessing Points of Interest. Points of Interest not well defined.

Brakes are too sensitive	
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Applies auto braking too hard.
To the best of your recollection, the trouble was first noticed:	At delivery.

Navigation system works, but traffic information doesn.t work / or is difficult to understand	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	3D view does not work when you zoom out.
Additional Comments:	Not having 3d is a step backwards in a larger display. Garmin and your previous versions of your Nav can do this function.

USB connection issues	
USB connection issues	USB connection is broken/not working.

Features and Controls	
Features and Controls	Adjustable Height Control.

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	Can't find what we are looking for.
Additional Comments:	Does not narrow down effectively, particularly with restaurants.

Hard Controls/Menu	
Hard Controls/Menu	Hard controls/menus: Front Screen Display: Other Concerns.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Media	
Media	USB connection issues.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Inaccuate or incomplete.

Adjustable Height Control	
Adjustable Height Control	Adjustable height control works, but is difficult to understand/use.

Brake Operation	
Brake Operation	Brakes are too sensitive.

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	No.
Would you recommend this vehicle to family or friends?	No.

Features and Controls	
Features and Controls	Cruise control system.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I don't expect to buy a premium vehicle delivered with a major component defective and then take weeks to get a replacement module...there is NO excuse!

What Can We Do Better?	
Feedback/Concerns:	My wife and I have owned at least one and sometimes two JEEPS continuously since the 1980's. Right now we have this JEEP and a 2014 Wrangler. We would not buy another Grand Cherokee. Also it would be nice if you supplied a front license plate holder!

Paint blemish/dirt in paint/foreign material under surface	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate the location of the paint issue (check all that apply):	There were chips in the paint on the liftgate
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.
