Request for Update on Petition for Defect Investigation and Recall Expansion for MY 2007-2008 Nissan Sentra Vehicles Experiencing Master Brake Cylinder Leakage

Dear sir or madam:

I am writing to request an update on a defect investigation we requested in October 2015 into MY 2007-2008 Nissan Sentra vehicles for master brake cylinder leakage due to a leaking rear seal resulting in a loss brake fluid.

The opening resume was approved on 12/20/2016 under DP 16-002. However, it appears from your website that there has not been any further developments beyond the opening of the investigation.

We still have a vehicle available for your inspection that was outside the scope of previous recalls but that exhibits the same symptoms as described in those recalls.

I appreciate your assistance and your response in getting an update.

Regards,
