Have you taken the vehicle to a dealer to have your trouble corrected?

Yes.

If our team has any additional questions about your responses, would you accept further contact?

Yes, by phone or e-mail.

Hesitation or delay when shifting between gears

Going into which gear/gears does the trouble occur? (check all that apply)

2nd Gear.

1st Gear.

Please indicate driving condition where the shifting trouble is noticeable (check all that apply):

Normal acceleration.

How often does this trouble occur?

Trouble occurs intermittently.

Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):

Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.

To the best of your recollection, the trouble was first noticed:

Within the 1st month after delivery.

Approximate mileage when trouble was first noticed was:

0 - 1499 miles.

No.

Axle(s)

Axle(s)

Axle is leaking fluid.

Axle is leaking fluid

Axle is leaking fluid	
Please describe where the leak occurs (check all that apply):	From front wheel ends/sides.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Repaired

Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.). Hesitation or delay when shifting between gears. Shift between gears is rough/harsh under normal driving conditions. Shifts at wrong times.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Shift between gears is rough/harsh under normal driving conditions	
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Going into which gear/gears does the trouble occur? (check all that apply)	Clunking
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Deceleration.

Gear selector is difficult to operate (auto. trans.)	
Going into which position is the gear selector difficult to operate? (check all that apply):	Doesn't always engage
	Doesn't always engage. Lousy shifter.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Additional Comments:	Very poor design, difficult to select gear you need.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Why is the gear selector difficult to operate?	Gear selector requires too much effort/force to operate.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Transmission and Drivetrain.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	3,000-4,999.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Early defects in vehicle was disappointing.

What Can We Do Better?	
Feedback/Concerns:	The delay in starting off with the vehicle, quality/defect issues in new vehicle.
What has Chrysler done right?	Very attractive vehicle, comfortable, nice ride.

Detail on High Rated Items

You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share. Like the Black Forest green colour

You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share. Best in the industry for ease of use and features.

Detail on High Rated Items

You rated ride quality High. Use this space to provide any specific comments you would like to share.	Just the right amount of road feel without being harsh or difficult to manage.
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	The selector for weather conditions tunes the vehicle perfectly
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	True jeep.

Overview

Please explain further about your choice to recommend your vehicle:	Only if there is an improvement to the teansmission and gear selector.
What information did you need that was not included in the Smartphone Application?	Vehicle locator. Would be neat to go in parking lot, activate the app and get a directional Finder guide you to the car.
Information in the Smartphone Application is easy to find and access	4 (agree).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	No.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Which automotive publications do you subscribe to? (check all that apply)	Road and Track. Automobile. Car and Driver. Auto Week.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Smartphone Application covers the necessary features	3 (neither agree nor disagree).
Please let us know why you have not referred to the Owner's Manual? (check all that apply)	I know the vehicle well enough not to need a manual.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Have you requested a paper version of the owner manual?	No.
The Smartphone Application format is easy to understand and use	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Which feature or section of the Smartphone Application did you find most helpful and why?	Remote lock is cool

Gear selector is difficult to operate (auto. trans.)	
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	Electronic shift is just a poor design. It is not intuitive. Try moving from drive to reverse when parallel parking will put you in park with engine running 6000 RPM. This is the single worst feature in an otherwise perfectly executed vehicle.
Going into which position is the gear selector difficult to operate? (check all that apply):	Just difficult to positively get into the right gear particularly trying to find reverse from drive. It skips over to park.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Transmission and Drivetrain.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Transmission and Shifter [REDACTED]

Slips/will not engage gear properly/shifts erratically	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Not temperature sensitive
Going into which gear/gears does the trouble occur? (check all that apply):	See comments
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Passing shifts into high gear, rough, noisy, and unresponsive. Also hands up in high gear.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	This appears characteris ic of the transmission due to the programming issues related to his transmission.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The transmission and shifter are the only bad features I an otherwise perfectly executed perfectly priced vehicle

What Can We Do Better?	
Feedback/Concerns:	Two compartment levels in console - can never figure which one I'm going to open when I lift the lid. Redesign the catch so you can feel large or small catch to determine if you are opening the shallow or deep compartment. Needs better range on the remote. For example, the deck lid remote will operate until at about 20 to 30 ft. Mercedes I had worked at least at 50 ft or better. Why did you drop the body side molding? At least make it an option to protect from the clumsy door dingers.
What has Chrysler done right?	Terrific interior design. The infotainment center is easy to use, perfect line of sight, well laid out. Quality of materials is 1st class. Great rear seat design for dropping the seats. Good milage. Quiet. Nice cubby designs. Like the ride and handling.

Automatic Transmission	
Automatic Transmission	Slips/will not engage gear properly/shifts erratically. Gear selector is difficult to operate (auto. trans.).

Continuous Quality Insight	Vehicle Exterior.
	Transmission and Drivetrain.

Overview

If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Printed User Guide covers the necessary features	4 (agree).

Overview

Did you review the Owner's Information DVD?	No.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Did you review the Printed User Guide?	Yes.

What Can We Do Better?

Feedback/Concerns:	One major concern, the transmission is real jerky at times - even passengers comment. Three suggestions- make front door taller - difficult to get in the front door if you are over 5'9"; little problem but irritating, fix radio, regularly the presets for radio are lost; and, better design for rear end.
What has Chrysler done right?	Many things, comfort, body style, enough power, fuel consumption, and many other things. I like the vehicle.

Welcome

Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.

Automatic Transmission

Automatic Transmission	Slips/will not engage gear properly/shifts erratically. Hesitation or delay when shifting between gears.

Steering and handling (responsiveness, stability)	5.

Overview	
Which automotive publications do you subscribe to? (check all that apply)	Consumer Reports ratings.
Did you review the Printed User Guide?	No.
Did you review the Owner's Information DVD?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Would you recommend this vehicle to family or friends?	Yes.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The terring systems quality is suspect. I had to replace the rack and pinion 3 times in 60,000 miles on my 2011 Jeep. If I have problems with this 2015 Jeep, I will change vehicles.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.

What Can We Do Better?	
------------------------	--

What Can We Do Better?	
What has Chrysler done right?	I like the new transmission and I switched to the 6 cylinder and like both. Lots of good features, but the price is starting get pricey.
Feedback/Concerns:	Not a fan of the new shifter. Back window, or spoiler above the window still retains water after being washed that later drips and leaves water stains on the window.
Detail on High Rated Items	
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	Shifter
Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Other.

Overview

Please provide feedback on how Chrysler can improve the Printed User Guide	It should be more detailed.
Information in the Printed User Guide is easy to find and access	2 (disagree).
Please rate your overall level of satisfaction with the Printed User Guide	2 (dissatisfied).
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Would you recommend this vehicle to family or friends?	Yes.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Smartphone Application covers the necessary features	5 (strongly agree).
Did you review the Owner's Information DVD?	No.
Information in the Smartphone Application is easy to find and access	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Printed User Guide covers the necessary features	1 (strongly disagree).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Did you review the Printed User Guide?	Yes.
Please explain further about your choice to recommend your vehicle:	I am Happy with Jeep Grand Cherokee. Few features need to be updated. Overall the vehicle feels comfortable and safe. The vehicle and the Jeep brand is awesome, but the dealership experience is not a pleasant one.
The Smartphone Application format is easy to understand and use	4 (agree).
Which automotive publications do you subscribe to? (check all that apply)	Car and Driver.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, have not had a chance/inconvenient location.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Hand brake/parking brake control is poorly located	
Additional Comments:	Parking brake should be made electronic rather than a separate foot pedal.
Why is the parking brake poorly located? (check all that apply):	The location of the hand brake/parking brake is uncomfortable. Parking brake is not effective. And if I miss to release the parking brake, it gives warning only once and allow to drive the car further without any more warnings. Also Parking brake should be made electronic rather than a separate foot pedal.
About You

Features and Controls	
Features and Controls	Driving Mode Selector. Heated Steering Wheel.
Controls and Switches	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.
Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Trim/Storage/Windows. Seats. Transmission and Drivetrain. Vehicle Exterior. Brake System. Features/Controls/Displays. Interior Climate Control.
Rear Cargo Shelf/Cargo Cover is difficult to use	
Please indicate why the rear cargo shelf/cargo cover is difficult to use (check all that apply):	Other (please describe). No height adjustment for the rear cargo door.
Head restraint adjustment controls are difficult to understand/use	
Please indicate which seat's head restraint controls are difficult to understand/use (check all that apply):	Passenger's side second row seat. Not able to remove the head rest to install the Child car seat properly. Driver's side second row seat. Not able to remove the head rest to install the Child car seat properly.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Not able to remove the head rest to install the Child car seat properly.
Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which of the following best describes your concern (check all that apply):	Poor location. Heated seats and steering wheels should have a physical switch for easy operation rather than having them in the touch screen display.
Operation and Functionality	
Operation and Functionality	Rear Cargo Shelf/Cargo Cover is difficult to use.
Adjustments and Controls	
Adjustments and Controls	Recliner adjustment is broken/not working. Forward/backward adjustment controls are difficult to understand/use. Head restraint adjustment controls are difficult to understand/use.
What Can We Do Better?	
Feedback/Concerns:	Need to have good dealership for this wonderful vehicle.

What Can We Do Better?	
What has Chrysler done right?	Vehicle look and ride is incomparable. Happy with the Jeep Grand Cherokee.
Forward/backward adjustment controls are difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake control is poorly located.
Recliner adjustment is broken/not working	
Please indicate which seat has trouble (check all that apply):	Passenger's side second row seat. Does not have a feature to push the seat back. Driver's side second row seat. Does not have a feature to push the seat back.
Seat with trouble has:	Manual adjustment controls.
Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate why the heated steering wheel is difficult to understand/use; controls in a poor location (check all that apply):	Controls are difficult to locate. Controls are hard to reach. It should be a single physical button rather than having it in the touchscreen display.
Seat belt latch/release controls are difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. No child seat latch available for rear center seat.
Please indicate which seat belt's controls are difficult to understand/use (check all that apply):	Center rear seat (if equipped). No child seat latch available for rear center seat.
Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.
Seat Belts	
Seat Belts	Seat belt latch/release controls are difficult to understand/use.
Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	Easiest touchscreen interface.
Detail on Low Rated Items	
You rated your purchasing experience (at the dealer/dealership) Low. Use this space to provide any specific comments you would like to share.	No transparency with the dealership experience. No proper customer update. Erroneous processing in the Finance department. No proper Explanation of the vehicles features.
Heated Steering Wheel	
Heated Steering Wheel	Heated steering wheel works properly, but is difficult to understand/use; controls are in a poor location.

Dealership treatment 5.

Vehicle quality 5.

About You	
What is your primary language?	English.
Did you purchase or lease your vehicle?	Purchase.
Detail on Low Rated Items	
You rated transmission gear change performance (smoothness) Low. Use this space to provide any specific comments you would like to share.	I am not used to 8 speed. Shifts are jumpy under normal acceleration. It doesn't bother me too much, but I do notice it.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Seats (leather) are hard and not formed around me at all.
What Can We Do Better?	
What has Chrysler done right?	Interior, other than the seats. Style. Ride.
Feedback/Concerns:	Smooth out the tranny shifts. Tactile shifter. Smaller/lower side mirrors. Softer seats.
Detail on High Rated Items	
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	Nav does not listen to me when trying to stop the nav.
Vehicle Satisfaction Ratings	
Is there anything about your new vehicle you would like to see changed?	seat comfort, side mirror, gear selector, tranny smoothness
How was your purchasing experience (the dealer/dealership)?	2.
Interior comfort, design and appearance of interior (overall impression)	3.
Engine performance during acceleration	3.
Overall audio, entertainment, and navigation system impression	4.
Vehicle storage and space usage	4.
What is your attitude overall towards your new car?	4.
What is your attitude overall towards the BRAND of your new car?	4.
Integration with phones	5.
Rear view styling (rear fascia, bumper)	5.
Head/leg/foot room	5.
Location and usefulness of interior lighting	5.
Climate control operation (function and ease of use)	5.
Brake responsiveness/effort	5.
What are your favorite parts of your new vehicle?	rear view camera
Transmission gear change performance (smoothness)	1.
Operating controls while driving (gear selector, turn signals, horn, etc.)	2.
Engine sound	3.
Clarity of sound	5.
Integration with media players	5.
Front view styling (front fascia, hood, grille, headlight area)	5.
Wheels, rims, and tires appearance and styling	5.
Seat adjustment and comfort	2.
Safety and visibility while driving	2.
Side/profile view styling (driver's side or passenger's side exterior area)	4.
Fuel economy and driving range	4.
Ease of using system displays while driving	5.
Navigation system route accuracy	5.
Exterior design and appearance (overall impression)	5.
Headlight illumination/performance during night-time driving	5.
Steering wheel adjustment	5.
Difficult driving conditions (adverse weather, off-road)	5.
Ride quality	5.
Engine exhaust sound	3.
How do you feel about the VALUE of your new car? (i.e.	4.
Support for popular music/video formats	5.
Appearance of exterior paint	5.
Ease of getting into and out of vehicle	5.
Interior noise level while driving	5.
Steering and handling (responsiveness, stability)	5.
How do you feel about the durability of your new vehicle?	5.
Gear selector is difficult to operate (auto. trans.)	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Why is the gear selector difficult to operate?	Other (please describe).
Please describe conditions when this trouble occurs:	When I am in a hurry (always)

Gear selector is difficult to operate (auto. trans.)	
Additional Comments:	I am used to a tactile feedback shifting a conventional shifter.
Going into which position is the gear selector difficult to operate? (check all that apply):	All positions. I have found myself drifting in N when I thought I was in P
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Overview	
Printed User Guide covers the necessary features	5 (strongly agree).
DVD format is easy to understand and use	5 (strongly agree).
Information on the DVD is easy to find and access	5 (strongly agree).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, the issue is related to the design of the vehicle.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Information in the Printed User Guide is easy to find and access	5 (strongly agree).
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).
What have you used to view your DVD? (check all that apply)	Home DVD Player.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	Yes.
Printed User Guide format is easy to understand and use	5 (strongly agree).
Please explain further about your choice to recommend your vehicle:	Vision to the left is obscured by the side mirror for a short person. My 2002 JGC WJ was better. The mirror does not need to be that big.
Please rate your overall level of satisfaction with the DVD	5 (very satisfied).
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Shift between gears is rough/harsh under normal driving conditions	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration. jumpy not smooth
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Not sure.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which gear/gears does the trouble occur? (check all that apply)	3rd Gear. not smooth jumpy 2nd Gear. not smooth
Additional Comments:	I am not familiar yet with the 8 speed tranny but it is not smooth. The Jeep GC is more luxury than utility and I am a little disappointed.
Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Transmission and Drivetrain. Vehicle Exterior.

About You

Please indicate your ethnicity

██████████

Did you purchase or lease your vehicle?

Purchase.

Which of the following best describes the area you live in?

Suburban.

Gear selector is difficult to operate (auto. trans.)

Please describe conditions when this trouble occurs:

Park to reverse and sometimes from drive to park

Approximate mileage when trouble was first noticed was:

0 - 1499 miles.

Why is the gear selector difficult to operate?

Other (please describe).

To the best of your recollection, the trouble was first noticed:

At delivery.

Going into which position is the gear selector difficult to operate? (check all that apply):

Reverse (R). This new gear selector is easy to skip past reverse and into neutral. Since it doesn't have direct linkage and is "by wire", there isn't the same feel of shifting through gears and making a link to the next gear. I feel it more going from park to drive, but it slides to neutral through reverse more times than not. It may be a matter of getting used to it, but I haven't been happy with it so far. Otherwise the new eight speed transmission is much more responsive than previous models.

How often does this trouble occur?

Trouble occurs regularly.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.

It shifts hard from 1st to 2nd gear. The shifter is too smooth. It's hard to tell what position it's in, ie., I have a hard time shifting from Park to Reverse. I seem to always slide right by Reverse. I have to look to make sure, so it's just annoying/inconvenient.

Fuel consumption is worse than expected

What type of fuel do you most often put into your vehicle?	Diesel.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	No.
Are you using your vehicle for towing when the problem occurs?	No.
Where do you do most of your driving?	Combination of city/highway driving.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Not meeting published MPG's at all (28 highway and 24 city) Currently averaging 26 higway 19 city. I reset mpg every fill up and monitor during trip. Also use cruise control as much as possible and am "light" on the throttle.
Please describe conditions when this trouble occurs:	normal drive Highway and city

Vehicle exhibits poor traction on sand

Trouble occurs under these surface conditions (check all that apply):	Downhill. Uphill. Level Ground. Sideslope. Bumpy or uneven surface.
Trouble occurs at these speeds (check all that apply):	When driving at low speeds (11-20 MPH). When driving at medium speeds (>20 MPH). When driving at very low speeds (0-10 MPH). All speeds.
Please indicate the nature of the traction issue you experienced	The vehicle does not seem to be able to make the most of the available grip of the surface. Traction control is off but bogs when wheels spin. sport mode helps My vehicle seems to suffer from wheel hop or vibration. in all modes suspension pops and grinds on any bump The reaction of the traction systems on the car is not what I expected.
Please indicate how severe the issue is:	The traction systems on the car are slower to react than I expected. see above
How often does this trouble occur?	Much worse than expected. Bogs down when wheels spin shifting to higher gear- sport mode helps to hold gear Trouble occurs regularly.

It is difficult to control the vehicle speed when driving on sand

Trouble occurs under these surface conditions (check all that apply):	Downhill. Sideslope. Uphill. Level Ground. Bumpy or uneven surface.
Please indicate how severe the issue is:	Much worse than expected.
Trouble occurs at these speeds (check all that apply):	All speeds.
How often does this trouble occur?	Trouble occurs regularly.

Transmission and shifting are troublesome while driving on sand

Trouble occurs under these surface conditions (check all that apply):	Downhill. Sideslope. Uphill. Level Ground. Bumpy or uneven surface.
Please indicate the nature of the transmission/shifting issue you experienced	The transmission shift strategy does not meet my expectation (automatic only).
How often does this trouble occur?	Trouble occurs regularly.

Transmission and shifting are troublesome while driving on sand

Please indicate how severe the issue is:

Much worse than expected.

About You

Secondary vehicle you were considering:

Explorer.
2015.
Ford.
Secondary Considered Vehicle: New.
Male.

Please indicate your gender

Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.

ecodiesel

Financing options

1.

What is your average miles per gallon (MPG) with your vehicle?

21-22 mpg.

What is your current marital status?

Single / never married.

Please tell us about the vehicle you replaced (if applicable)

Tacoma.
1998.
Replaced Vehicle: Purchased Used.
Toyota.

Primary vehicle you were considering:

Tacoma.
Toyota.
2015.
Primary Considered Vehicle: New.

Convenience of dealership location

1.

Trade-in allowance

1.

Primary vehicle in your household:

2014.
Primary Household Vehicle: Purchased New.
Hyundai.
Accent.

Vehicle styling

4.

Please indicate your highest education level

4 year college degree.

What is your primary language?

English.

Which of the following best describes the area you live in?

Suburban.

Please indicate your occupation.

Please indicate the primary driver's age.

Is this your first new vehicle ever purchased / leased?

Yes.

Please indicate your occupation status.

How many children 17 or under live in your household?

0.

Price

1.

Ability to test drive

1.

Vehicle quality

3.

Vehicle performance

4.

What price did you pay for your vehicle?

46,000

What is your total household income (before taxes)?

\$100,000 - \$124,999.

Vehicle availability

1.

Dealership treatment

1.

Which, if any, influenced your purchase decision? (check all that apply):

Features/Capabilities.

Did you purchase or lease your vehicle?

Purchase.

When considering this vehicle

Research online.

Vehicle fuel economy

5.

Please indicate your ethnicity

.

Paint blemish/dirt in paint/foreign material under surface

Please indicate the location of the paint issue (check all that apply):

Hood. Paint flaw in hood from factory - Dealership repainted delaying delivery

Approximate mileage when trouble was first noticed was:

0 - 1499 miles.

To the best of your recollection, the trouble was first noticed:

At delivery.

4WD Controls	
4WD Controls	4WD selector works properly, but is difficult to operate/is in a poor location.

Overview	
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please explain further about your choice to recommend your vehicle:	Ecodiesel not performing in MPG's as expected. Off road capability not as expected...would have gone with the tacoma
Would you recommend this vehicle to family or friends?	No.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, the issue is related to the design of the vehicle.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	No.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Please let us know why you have not referred to the Owner's Manual? (check all that apply)	Have not referenced the owner's manual because there is no computer / DVD player available to view the information. NEED PAPER MANUAL WITH VEHICLE...ITS A \$50,000 VEHICLE AND A BOOK COST YOU \$5 BUCKS...NEED PAPER...OFF ROAD NO COMPUTER AVAILABLE
Have you requested a paper version of the owner manual?	No.
Detail on Low Rated Items	
You rated your purchasing experience (at the dealer/dealership) Low. Use this space to provide any specific comments you would like to share.	Speecal order jeep : Communicaiton sub par, and overall a dissapointment. would have gone with someone else
Gear selector is difficult to operate (auto. trans.)	
Going into which position is the gear selector difficult to operate? (check all that apply):	Drive (D). Often hit neutral trying to find drive Reverse (R). Often go into park or neutral trying to find reverse Operation of gear selector is confusing/doesn't make sense.
Why is the gear selector difficult to operate?	Every drive
Please describe conditions when this trouble occurs:	0 - 1499 miles.
Approximate mileage when trouble was first noticed was:	Would prefer the controls like the dodge ram (selection wheel). The gear select stick lags and its difficult to get the desired gear.
Additional Comments:	Trouble occurs regularly.
How often does this trouble occur?	At delivery.
To the best of your recollection, the trouble was first noticed:	
Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).
Vehicle Performance driving on Sand	
Vehicle Performance driving on Sand	It is difficult to control the vehicle speed when driving on sand. Transmission and shifting are troublesome while driving on sand. Vehicle exhibits poor traction on sand.
Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.
4WD selector works properly, but is difficult to operate/is in a poor location	
Additional Comments:	although 4x4 is always on the selection of terrain and 4 low/high takes way to long. Also the sand setting is good in theory but the transmission bogs down when the wheels start spinning and shifts to higher gear and you get stuck. in sport mode this problem is alleviated because it holds the gear your in and powers through
Please indicate which of the following best describes your concern (check all that apply):	Difficult to operate.
What Can We Do Better?	
What has Chrysler done right?	Diesel enging: although not getting MPG's as expected I still like it.
Engine Fuel Consumption	
Engine Fuel consumption	Fuel consumption is worse than expected.
Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Paint blemish/dirt in paint/foreign material under surface.
Vehicle Performance driving on Rocks / Boulders / Inclines / Very Rough Terrain	
Vehicle Performance driving on Rocks / Boulders / Inclines / Very Rough Terrain	Vehicle exhibits poor ride when driving on rocks/inclines/boulders/very rough terrain.

Please indicate your ethnicity	
Please indicate your occupation status.	.
What is your primary language?	English.
Please indicate your gender	
When considering this vehicle	Interact with dealership by email. Interact with dealership by phone. Research online. Test drive the vehicle. Visit the dealership.
What is your current marital status?	Married.
Is this your first new vehicle ever purchased / leased?	No.
Which, if any, influenced your purchase decision? (check all that apply):	Other (please describe). We didn't want to have 2 exact same cars and this was very similar but just different enough. Vehicle test drive.
Please indicate your highest education level	Other (please specify). I have 2 Master's Degrees
Did you purchase or lease your vehicle?	Purchase.
Which of the following best describes the area you live in?	Suburban.
Please indicate your occupation.	.

Heating, ventilation and air conditioning doesnt maintain desired temperature

Heating, ventilation and air conditioning doesnt maintain desired temperature	
Please describe conditions when this trouble occurs:	Doesn't seem like we can regulate the temp.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	Below 70 degrees. I usually set the temp at 68 and all of a sudden cold air will be coming out when it's 40 outside
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Outside temperature between 30 and 39 degrees.
	Outside temperature between 40 and 49 degrees.
How often does this trouble occur?	Trouble occurs regularly.

What Can We Do Better?

What has Chrysler done right?	I love the color, metallic steel!!!
-------------------------------	-------------------------------------

Overview

Please provide feedback on how Chrysler can improve the Printed User Guide	It is very difficult to find what you are looking for in the user's guide. I was trying to figure out how to set my garage door opener and it took me a long time to find it and following the directions was difficult.
Which feature or section of the Printed User Guide did you find least helpful and why?	Troubleshooting could have more options
Printed User Guide format is easy to understand and use	2 (disagree).
Information in the Printed User Guide is easy to find and access	2 (disagree).
Please rate your overall level of satisfaction with the Printed User Guide	2 (dissatisfied).
Printed User Guide covers the necessary features	4 (agree).
Did you review the Owner's Information DVD?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, coordinating with next maintenance visit (such as oil change).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Did you review the Printed User Guide?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The gear shift is difficult. We have the 2014 Durango and the dial is much easier to use than the gear shift on the jeep. I never feel like I have it in the right gear...I am always paranoid it's not in park because it has happened.

Detail on Low Rated Items

You rated transmission gear change performance (smoothness) **Low**. Use this space to provide any specific comments you would like to share.

Difficult shifting into park when stopped.

Hesitation or delay when shifting between gears

Additional Comments:	not happy with shift function and it's an accident waiting to happen. When putting car in park, it stops in reverse all the time. When leaving foot off brake, the vehicle moves as it is in reverse. I have a 2012 that did not have the electronic shift and had no issues. Not happy with this and waiting for the day my wife drives it and it rolls back into another car due to the fact.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Other (please describe). all conditions
Going into which gear/gears does the trouble occur? (check all that apply)	Other (please describe). hard time going into park when stopped. Always stops at reverse and an issue because you take your foot off the brake assuming it is in drive.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Other (please describe). when parking
How often does this trouble occur?	Trouble occurs regularly.

Please indicate why the clock controls/displays are difficult to understand/use; are in a poor location (check all that apply):	Displays are not easy to view. Would prefer to have clock and temperature remain visible on screen even when screen is off
Please indicate which of the following best describes your concern (check all that apply):	Poor location.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake control is poorly located. Hand brake/parking brake requires too much effort to apply/release.

Displays and Instruments	
Displays and Instruments	Clock works properly, but is difficult to understand/use; controls/displays are in a poor location.

Hand brake/parking brake requires too much effort to apply/release	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe what requires too much effort (check all that apply):	Releasing parking brake requires too much effort. Needs separate release lever. If insufficient pressure is initially used to set the brake due to closeness of sidewall second attempt will release
Please describe conditions when this trouble occurs:	Require 2nd application
How often does this trouble occur?	Trouble occurs intermittently.

Shifting paddles/buttons difficult to operate	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	Goes into manual shift mode inadvertently, usually while turning because paddles too close to steering wheel,
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	8 speed trans too many, constantly shifting with engine braking occurring on slow downs Light indicators for Rear park sense, ECO, and ETC buttons not consistent. ECO light on when on, others light off when systems are on. Confusing When fob is

Shifting paddles/buttons difficult to operate	
	set to sound horn on setting lock, the horn also sound when pushing the door handle button. This is not necessary since acknowledgement of lock activation is loud enough at the door position. The acknowledgement only necessary at some distance from vehicle
Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	No.
Operation and Functionality	
Operation and Functionality	Center console is difficult to open/close.
Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Additional Comments:	Full flexibility of operation not possible unless you use UConnect screen which is difficult while driving
Gear selector is difficult to operate (auto. trans.)	
Why is the gear selector difficult to operate?	Other (please describe).
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Additional Comments:	Shift detects are to soft and easy to slip by
Going into which position is the gear selector difficult to operate? (check all that apply):	Reverse (R). Easy to miss R when moving from D, also from P
Controls and Switches	
Controls and Switches	Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.
Hand brake/parking brake control is poorly located	
Additional Comments:	Would prefer hand operated lever at the center console location
Why is the parking brake poorly located? (check all that apply):	The location makes opera ing the hand brake/parking brake difficult. Too close to sidewall
Features and Controls	
Features and Controls	Door locks/key fob entry system.

Printed User Guide covers the necessary features	2 (disagree).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
How many visits did you make to the dealer?	1 visit.
If our team has any additional questions about your responses, would you accept further contact?	No.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
Please rate your overall level of satisfaction with the Printed User Guide	2 (dissatisfied).
Would you recommend this vehicle to family or friends?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Printed User Guide format is easy to understand and use	2 (disagree).
Information in the Printed User Guide is easy to find and access	3 (neither agree nor disagree).
Did you review the Printed User Guide?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Was the trouble resolved to your satisfaction?	Yes.
Were the trouble(s) repaired or explained?	Fully.
Did you review the Owner's Information DVD?	No.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays.

Features and Controls	
Features and Controls	Driving Mode Selector. Door locks/key fob entry system.

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system broken/not working. Door locks broken/not working.

Door locks broken/not working	
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Trouble with the door lock occurs:	While unlocking.
Please indicate what type of trouble was experienced with the door lock (check all that apply):	Other (please describe). car alarm goes off randomly when trying to unlock my car and I can't get it turned off, very embarrassing.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate which door lock location is the source of the trouble (check all that apply):	Driver's side front door.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Driving Mode Selector	
Driving Mode Selector	Driving Mode Selector works, but is difficult to understand/use; is in a poor location.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.

Driving Mode Selector works, but is difficult to understand/use; is in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. my gear shift slides and does click/lock into place. So at times I feel like I got it into park, but it may actually be in neutral so I am rolling. It could cause me to roll into something and damage my vehicle.

Vehicle Satisfaction Ratings	
Overall audio, entertainment, and navigation system impression	3.

When was the replacement made on your vehicle?	12-18 months into ownership.
Features/Controls/Displays Components	
Features/Controls/Displays Components	Cruise control.
Active suspension system works but is difficult to understand/use	
Please describe why the active suspension system is difficult to understand/use:	Other (please describe). to easy to activate by a little dog in the car. I put a hard plate over it so that the dog cant activate the suspension up and down
Additional Comments:	the park exit is a good feature but when parking the front bumper gets caught on the park curbs and gets damaged. I turned that feature off. I like the fact that the car can be raised to get over large obstacles but that feature will not be used very often
Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss.	
Please provide us with a phone number you can be reached at during daytime hours. Thank you.	shifter
Displays and Instruments	
Displays and Instruments	Outside temperature gauge works properly, but is difficult to understand/use; controls/displays are in a poor location.
Features and Controls	
Features and Controls	Active Suspension System. Door locks/key fob entry system.
Active Suspension System	
Active Suspension System	Active suspension system works but is difficult to understand/use.
Engine Components	
Engine Components	Muffler. Other exhaust system components.
Outside temperature gauge works properly, but is difficult to understand/use; controls/displays are in a poor location	
Please describe conditions when this trouble occurs:	it gets stuck at the same temperature for hours. FE it shows an outside temp of 20dec when it is 45dec
Detail on Low Rated Items	
You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.	gear selector is hard to get into proper gear. From park to reverse you need to look at the shifter that you found the reverse gera . When in drive its easy to push the shifter into neutral by accident or a little dog hitting it
What Can We Do Better?	
What has Chrysler done right?	everything else. I love the 3.0 l diesel engine. Best engine in any of the last 9 Jeeps I owned. Great Job guys
Feedback/Concerns:	The new shifter mechanism has a serious problem for selecting the gear. Going from park to rear you have to look at the shifter to make sure you have selected the proper gear. When in drive mode its easy for the shifter to be pushed forward and go to neutral. The previous models I owned worked perfectly this one I really think it needs to be redesigned for safety in mind
Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Features/Controls/Displays.
Other Components	
Other Components	Other component(s) replaced (not listed previously).

Everyone is NOT computer savvy nor an engineer.</p> <p>The phone pairing section. It's impossible to figure out. Why?</p> <p>3 (neither agree nor disagree).</p> <p>2 (disagree).</p> <p>None or other (if other, please describe).</p> <p>No.</p> <p>4 visits.</p> <p>Dissatisfied.</p> <p>No.</p> <p>Not at all (please explain further, if applicable). Phone connectivity issue was taken care of but I have lost connectivity again and it too far to drive there again. The gear shifting park problem is still a VERY major concern. The dealer has not heard of problems, which I don't believe!!</p> <p>No.</p> <p>2 (dissatisfied).</p> <p>Took to the dealer I purchased my vehicle from.</p> <p>Yes, by phone only.</p>
Hands-Free Phone / Bluetooth system wont connect	
<p>Did your phone lose signal?</p> <p>Is there more than one phone paired to the vehicle?</p> <p>Did the dealer attempt to help you pair your device?</p> <p>Connection problem happens on:</p> <p>Connection problem happens when:</p> <p>How often does this trouble occur?</p> <p>Additional Comments:</p>	<p>Yes.</p> <p>No.</p> <p>Yes.</p> <p>Bluetooth connection between cell phone and the system.</p> <p>Other: Please describe when this trouble occurs.</p> <p>Trouble occurs intermittently.</p> <p>Lost connectivity to phone. Won't recognize blue tooth signal. Having difficulty reconnecting. Why do you make this SOOOOOO difficult? Are you deliberately trying to upset your customer base? Who ever designed the connectivity software should be fired! It should be easy, quick an user friendly! Did I mention "user friendly"? Hello...hello...HELLO is any one out there?</p>
Gear selector is difficult to operate (auto. trans.)	
<p>Please describe conditions when this trouble occurs:</p> <p>How often does this trouble occur?</p> <p>Going into which position is the gear selector difficult to operate? (check all that apply):</p>	<p>When trying to park</p> <p>Trouble occurs regularly.</p> <p>Other (please explain in Additional Comments box below). When parking the gear shift knob is difficult to put into park. Not difficult to move but for what ever reason it doesn't shift into park. I have hit someone in front of me (very slowly) after pulling into a gas station thinking the vehicle was in park. The vehicle rolled forward every slow slowly because I later found out it was in natural. Another insident happened at a very slow rolling speed when the vehicle hit someone crossing in front of me. I thought it was in park but later saw the vehicle was in drive. VERY danderious design!! I'm not used to looking down at the gear shift lever every time I park. I take it for granted the vehicle is in park when I shift it to the park position. I have heard you are aware if this problem and will be making design changes in the next model, but what about the dangers that are apparent now? Am I just supposed to live with it hoping I don't injure someone? This is my 5th Grand Cherokee and by far the worst design flaw ever! I will not purchase another one!! Perhaps I should look to a foreign make!</p>

Gear selector is difficult to operate (auto. trans.)	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	The dealer is unaware if the issue, which surprises me. It's a dangerous problem and only a matter of time before someone is hurt.
Why is the gear selector difficult to operate?	Other (please describe).

Vehicle Satisfaction Ratings	
Rear view styling (rear fascia, bumper)	5.
How do you feel about the VALUE of your new car? (i.e.	5.

Hands-Free Phone / Bluetooth system loses connection	
Connection problem happens on:	Bluetooth connection between cell phone and the radio.
How often does this trouble occur?	Trouble occurs intermittently.
Is there more than one phone paired to the vehicle?	No.
Additional Comments:	Just loses connectivity. Tried to reconnect without success. Why do you make this SOOOOOO difficult?
Lost connection problem happens when:	Other: Please describe when this trouble occurs.
Were you in the middle of a call?	No.

Touchscreen Controls/Menu: Front Screen Display difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Too much information! Distracting when driving because I have to take my eyes off the road trying to figure out how to access different functions on the touchscreen
Please indicate why the front screen is difficult to understand/use (check all that apply):	Other (please describe). Too much information. Distracting when driving because I have to take my eyes off the road for too long to find or access touchscreen functions

Owner Connect Website	
Owner Connect Website	Owner connect website dashboard is difficult to understand/use.

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	
1. Phone pairing 2. OBNIXOUS female voice 3. Transmission/park issues	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Hands-Free Phone / Bluetooth system doesn't work	
Did you refer to the voice tutorial, phone tutorial and voice training when experiencing hands-free phone/Bluetooth system issues?	I did not receive any of the materials.
Please describe when this trouble occurs:	Just stopped recognizing my phone. Impossible to figure out how to reconnect.
How often does this trouble occur?	Trouble occurs intermittently.

Welcome	
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.

Voice Activation / Recognition	
Voice Activation / Recognition	Voice Recognition Quick Tips Booklet is redundant/not necessary. Voice Activation / Recognition doesn't recognize command. Unnatural sounding voice or difficult to understand.

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please indicate which words, if any, are constantly misrecognized:	"Call xxx" is constantly misrecognized, and I have to repeat over and over.
Please describe when this trouble occurs:	When stating a name. Usually while in motion.
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	Get rid of this woman's OBNOXIOUS voice!!!! It has become VERY irritating to listen to. Also she drags out her message far too long. Just let me make a call, damn it!!
What button did you use?	Steering wheel button
Do you usually set HVAC vent direction toward ceiling?	No.

Unnatural sounding voice or difficult to understand	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe when this trouble occurs:	Other: Please describe when this trouble occurs. Her voice is robotic and not natural not to mention OBNIXOUS to listen to!!
What button did you use?	Steering wheel

Voice Activation / Recognition doesnt recognize command	
How often does this trouble occur?	Trouble occurs intermittently.
Do you usually set HVAC vent direction toward ceiling?	No.
Please describe when this trouble occurs:	When stating a name. When it's working properly, I have to repeat several times.
What button did you use?	Steering wheel

Registration is difficult to understand/use	
Please describe the trouble you experienced (check all that apply):	Setup was confusing. Directions were unclear. Registration process takes too long.
Plese indicate which registration method you attempted (check all that apply):	In vehicle registration.
Did you receive the registration email?	No.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.

Uconnect Access	
Uconnect Access	Registration. Owner Connect Website. Uconnect Access Application.

Entertainment/Navigation System/Connectivity	
Please choose your cell phone carrier	Verizon Wireless.
Please choose your cell phone brand	Apple.
If known, please tell us your software version	Latest version

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	IPhone6
Owner connect website dashboard is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Impossible to figure out Difficult to understand. Confusing and very time consuming
Hands-Free Phone / Bluetooth system is difficult to use	
Please indicate why the hands-free phone / bluetooth system is difficult to use: Do you recall specific commands that you were using? Additional Comments: Please indicate which system commands you were using at the time of trouble (check all that apply):	Need to wait until voice prompt is finished. Voice prompt is irritating to listen to! Get rid of the woman's OBNIXOUS voice, PLEASE!!! Voice commands are not recognized correctly. Won't recognize call command from time to time Setup (pairing) instructions are difficult to understand. Simply impossible! Why? This should be a simple, quick user friendly setup. But NO, your designer apparently wants to upset the very hands that feeds him/her. Simply trying to call someone. It won't recognize my command. The woman's voice commands have become SO irritating to listen to that if she is on the next vehicle I look at, I will NOT purchase it! Phone calls.
Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).
Detail on Low Rated Items	
You rated transmission gear change performance (smoothness) Low. Use this space to provide any specific comments you would like to share. We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations. You rated integration with phones Low. Use this space to provide any specific comments you would like to share.	Again, why di I have to replete my self. Asked and answered. Phone pairing labyrin h. Electronic transmission dangers. OBNIXOUS, robotic, time consuming female voice I'm forced to listen to. Why do I have to replete my self. I already discussed this to a pulp
Other	
To the best of your recollection, the trouble was first noticed: Please describe the other trouble you experienced: Approximate mileage when trouble was first noticed was: How often does this trouble occur?	At delivery. All of the preceding comments. Overall, a very poorly designed vehicle concerning these issues. 0 - 1499 miles. Trouble occurs regularly.
Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system doesn't work. Hands-Free Phone / Bluetooth system loses connection. Hands-Free Phone / Bluetooth system voice activation doesn't recognize command. Hands-Free Phone / Bluetooth system is difficult to use. Hands-Free Phone / Bluetooth system won't connect.
Registration	
Registration	Registration is difficult to understand/use.
What Can We Do Better?	
Feedback/Concerns: What has Chrysler done right?	Like I mentioned, this is my 5th Grand Cherokee. I love the vehicle is all ways except what I men ioned earlier. There are some very major concerns there that need to be addressed before I purchase another. Looks, comfort
Uconnect Access instructions are unclear	
Please describe conditions when this trouble occurs:	Normal conditions. They are simply difficult to use or understand
Uconnect Access Application	
Uconnect Access Application	Uconnect Access features are confusing. Uconnect Access instruc tions are unclear.
Uconnect Access features are confusing	
Please describe conditions when this trouble occurs:	Normal conditions
Voice Recognition Quick Tips Booklet is redundant/not necessary	
Please indicate how you would prefer voice recognition tips to be provided (check all that apply):	UConnect Touchscreen.

Detail on High Rated Items

Detail on High Rated Items	
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	The grand Cherokee looks great from every angle. Even the shape of the tail lights....please don't change it to look like the ugly, cheap-looking dodge lights that go across the whole back
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	I live in New York and I love the feeling of confidence I get all winter.
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	Can't find a better suv for the money...especially with a v6
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	The grand Cherokee looks great from every angle. Even the shape of the tail lights....please don't change it to look like the ugly, cheap-looking dodge lights that go across the whole back

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	My only complaint about the vehicle is the gear shift. I have put the car in park when trying to put it in reverse and put it in reverse when attempting to put it into park several times. I have owned many cars and currently own 2 others; I have never had this issue. I know other owners with the same complaint.

Engine Components	
Engine Components	Engine oil / filter.

Vehicle Exterior Components	
Vehicle Exterior Components	Wiper blades - front.

Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).

Detail on High Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Being required to use the touch screen display, e.g. to use the heated seats, is difficult. The radio "forgets" my presets, the auto liftgate operation is frustrating. I would like to be easily able to manually close the lift gate and open it to a lower height so it doesn't impact my overhead garage doors when opening. Overall this is an OK vehicle with a few very frustrating features.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Great Dealer. I wish they represented non Fiat vehicles as I am not likely to buy one again.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Looks like a Jeep still
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	It is pretty
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	Looks OK

About You

Vehicle styling	4.
Which, if any, influenced your purchase decision? (check all that apply):	Dealer/Salesperson interaction. NHTSA or IIHS safety ratings. Consumer Reports ratings. Edmunds. Manufacturer's website. Internet research. Vehicle test drive. Dealership information. Price/Purchase Terms/Financing. Value for the money. Image that the vehicle portrays. Kelley Blue Book. J D Power reports.
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
Vehicle performance	3.
Vehicle fuel economy	3.
Please tell us about the vehicle you replaced (if applicable)	MINI. Replaced Vehicle: Purchased New. 2011. Cooper Clubman. Visit the dealership. Research online. Interact with dealership by phone.
When considering this vehicle	
Vehicle quality	3.
Vehicle availability	5.
Secondary vehicle you were considering:	Acura. RDX. Secondary Considered Vehicle: New. 2015.

About You	
Price	5.
Which of the following best describes the area you live in?	Suburban.
How many children 17 or under live in your household?	1-2.
What is your primary language?	English.
Did you purchase or lease your vehicle?	Purchase.
Ability to test drive	3.
Primary vehicle you were considering:	Acura.
	RDX.
	2015.
	Primary Considered Vehicle: New.
	Employed.
Please indicate your occupation status.	1.
Financing options	Primary Household Vehicle: Purchased New.
Primary vehicle in your household:	2013.
	Jeep.
	Wrangler Unlimited.
Trade-in allowance	4.
Dealership treatment	5.
What price did you pay for your vehicle?	@40K
Convenience of dealership location	5.
Please indicate your ethnicity	
Please indicate your gender	
What is your current marital status?	
Is this your first new vehicle ever purchased / leased?	No.

Welcome	
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.
Are you the primary driver of this vehicle?	No.
Please tell us how many miles are currently on your vehicle:	More than 10,000.

Detail on Low Rated Items	
You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.	the electric gear selector usage is difficult to get into the correct gear. While rolling in N I have to fully stop to get into D!
You rated transmission gear change performance (smoothness) Low. Use this space to provide any specific comments you would like to share.	the electric gear selector usage is difficult to get into the correct gear. While rolling in N I have to fully stop to get into D!
You rated ease of using system displays while driving Low. Use this space to provide any specific comments you would like to share.	I have to take my eye off the road too long, for example, when listening to the radio I have to change to the cliamte app, then find the heated seat button, to turn on my heated seats. If there were a button I could reach for that I could feel I could use it without taking my eyes off the road. Too many things are controlled by the touch screen display. It seems very dangerous to me.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Will not likely buy another Fiat. Please sell Jeep back to MB!

Ignition switch broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	Rapidly fixed by dealer
Please describe conditions when this trouble occurs:	One time when new
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate what type of trouble was experienced with the ignition switch (check all that apply):	Other (please describe). Ignition switch fell down inside of dashboard when pressed to torun off vehicle

What Can We Do Better?	
Feedback/Concerns:	make this web site faster. THe ammount of time I got "waiting for response " message almost caused me to give up on this report. Quite appropriate for Jeep/Fiat though
What has Chrysler done right?	What Fiat has not changes is good. Most of what fiat has changed is not so good

Ignition switch	
Ignition switch	Ignition switch broken/not working.

Overview

Please explain further about your choice to recommend your vehicle:	I hate the gear shift function of the vehicle. It is easy to start to get out of the vehicle to find the car moving because you didn't get it in park. I would not buy another Grand Cherokee because of this. I also do not find nearly enough room in the glove box and center console. It has the least amount of storage available than any other vehicle I have seen.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Printed User Guide covers the necessary features	4 (agree).

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I have 36,700 or so miles on the Jeep and am looking to trade it already. The gear shift selector safety is the biggest reason for my wanting to trade. My wife and I love the vehicle if not for that issue.
You rated vehicle storage and space usage Low. Use this space to provide any specific comments you would like to share.	The comment speaks for itself.

What Can We Do Better?

Feedback/Concerns:	I have already addressed those in the survey. Like I said I would not buy another Grand Cherokee.

Vehicle fuel economy	5.
Please indicate the primary driver's age.	0

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system freezes-up/will not work. Difficulty accessing Points of Interest. Points of Interest not well defined. Navigation system works, but traffic information doesn't work / or is difficult to understand.

Gear selector is difficult to operate (auto. trans.)	
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Going into which position is the gear selector difficult to operate? (check all that apply):	Reverse (R). when parking its hard to find reverse and when parking I've left the car in reverse

Shifts at wrong times	
Going into which gear/gears does the trouble occur? (check all that apply)	Other (please describe). shift times seem quick, makes me want CVT

Shifts at wrong times

Please indicate driving condition where the shifting trouble is noticeable (check all that apply):

Normal acceleration. just normal driving starting from standing

Overview

Please explain further about your choice to recommend your vehicle:

I never thought I would own a Chrysler product....I'm impressed with this jeep Cherokee and the quality of luxury feel features

Overall, how satisfied are you with the quality of your new vehicle?

Satisfied.

Which automotive publications do you subscribe to? (check all that apply)

Auto Week.
Car and Driver.
Motor Trend.

Printed User Guide covers the necessary features

4 (agree).

Information in the Printed User Guide is easy to find and access

4 (agree).

Did you review the Owner's Information DVD?

No.

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?

Yes.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Did you review the Printed User Guide?

Yes.

Please rate your overall level of satisfaction with the Printed User Guide

4 (satisfied).

If our team has any additional questions about your responses, would you accept further contact?

Yes, by phone or e-mail.

Printed User Guide format is easy to understand and use

3 (neither agree nor disagree).

Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?

No, the issue is related to the design of the vehicle.

Would you recommend this vehicle to family or friends?

Yes.

Forward/backward adjustment controls are difficult to understand/use

Please indicate which of the following best describes your concern (check all that apply):

Difficult to use. seat doesn't go back far enough and I'm only [REDACTED]

Please indicate which seat's controls are difficult to understand/use (check all that apply):

Driver's seat. seat doesn't go far enough back

Please indicate which type of seat controls are difficult to understand/use (check all that apply):

Manual adjustment controls. driver seat should go back further
Memory Seat Function. hard to figure how to set memory

Exterior moldings/trim pieces loose/misaligned/falling off

Additional Comments:

I was able to re-seat no further action required, just makes me wonder if my vehicle was built on a Monday after a long holiday and mechanic didn't take care

Please indicate which body panels had moldings/trim pieces that were loose/misaligned/falling off (check all that apply):

Passenger's side front door. foam rubber gasket not seated, rubber on outside between window and door frame out of poace

Please indicate the type of trouble you experienced regarding the exterior moldings/trim pieces:

Exterior molding/trim is poorly aligned or fitted.

Approximate mileage when trouble was first noticed was:

0 - 1499 miles.

To the best of your recollection, the trouble was first noticed:

Within the 1st month after delivery.

What Can We Do Better?

What has Chrysler done right?

the Grand Cherokee seems to have grown in to a quality vehicle, although I have friends with other jeep and Chrysler vehicles will horrible experiences, and bad press I have never trusted Mopar quality and at [REDACTED] years old have seen my share of cars, so again I'm impressed with this Jeep and would think about another after my lease expires.

Feedback/Concerns:

U Connect too expensive.

Features and Controls

Features and Controls

Horn.
Alarm/anti-theft system.
Side window operation/controls.

Headlights not bright enough

Additional Comments:

Its the High beam hat leaves much to desire, when activated the light lifts and shows further but not brighter and I've owned many cars that have had better lighting, I live in the suburbs and this is a big problem for me.

Please describe the trouble you experienced:

Standard Beams are okay

Outside temperature gauge works properly, but is difficult to understand/use; controls/displays are in a poor location

Please describe conditions when this trouble occurs:

Display font too small

Horn works properly, but is difficult to understand/use

Horn works properly, but is difficult to understand/use	
Additional Comments:	Horn should not be the annunciator for the alarm, it makes my neighbors upset, this should be a tone.

Memory Seat controls are difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Difficult to understand. Should be intuitive to set, I still don't understand how to set

Welcome	
Please tell us how many miles are currently on your vehicle:	0-999.
Are you the primary driver of this vehicle?	Yes.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	No.

Navigation system freezes-up/will not work	
Please describe conditions when this trouble occurs:	entering address
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	I live in New York and close to New Jersey and often need to search addresses in that state...there should be a smoother way to switch states in the search also search keyboard has a lot of latency and dims keyboard letters when I can type faster

Side window operation/controls	
Side window operation/controls	Side window works properly, but is difficult to understand/use; controls are in a poor location.

Navigation system works, but traffic information doesn't work / or is difficult to understand	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information displays, but is difficult to read. should show exactly where on route traffic begins and ends
Additional Comments:	provide a button to offer a re-route around traffic option

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	6
Please choose your cell phone brand	Apple.
Please choose your cell phone carrier	Verizon Wireless.

Side window works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. auto up & down too sensitive when I just want to tweak the height

Automatic Transmission	
Automatic Transmission	Shifts at wrong times. Gear selector is difficult to operate (auto. trans.).

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	should offer POI
Additional Comments:	POI offer more narrow results based on distance options

Contact Me	
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.

Unpleasant interior smell/odor	
Please indicate the unpleasant interior smell/odor (check all that apply):	Interior materials smell bad. new car smell caused headache for me and my children

Lights	
Lights	Headlights not bright enough.

Displays and Instruments	
Displays and Instruments	Outside temperature gauge works properly, but is difficult to understand/use; controls/displays are in a poor location.

Other	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.

Other	
How often does this trouble occur?	Trouble occurs regularly.
Please describe the other trouble you experienced:	rear camera gets wet too easily and should be moved away from snow rain etc.
Exterior Appearance/Paint:	
Exterior Appearance/Paint:	Exterior moldings/trim pieces loose/misaligned/falling off.
Features/Controls/Displays>Features and Controls>Horn>	
Horn	Horn works properly, but is difficult to understand/use.
Odor/smell	
Odor/smell	Unpleasant interior smell/odor.

Other	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please describe the other trouble you experienced:	I don't like the shift knob design. Very often when shifting out of park, I go right past reverse and go to neutral. Conversely, when shifting out of drive, usually I have to push the knob several times to get it to go up to park. Other times when I am shifting from drive to reverse, it goes all the way to park. So far it is a minor nuisance, but a nuisance nonetheless.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	When shif ing

Detail on High Rated Items

You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	Love all aspects of car, performance, ride, looks, and technology
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Performance, ride, technology, gas mileage
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	All aspects pleased me more than pick-up trucks I started out looking at and OK there SUVs I ended up looking at
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	No problems, no rattling, no decline in performance, nothing out of alignment or falling off
You rated ride quality High. Use this space to provide any specific comments you would like to share.	Rides like a luxury car
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	She answers when I demand of her.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Good tight turning radius. Hugs the curves and stable in curves
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	Does not have overpowering bass, but sound is clear and full.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Elegant, smooth looks while still appearing aggressive
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	Love the heated steering wheel.
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	For some voice systems like hearing a text message, I still have to manually make a sektion
You rated engine sound High. Use this space to provide any specific comments you would like to share.	Quiet but strong and consistent in response to demands
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	Good comeback for Jeep. Styling is pleasing once more to me.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	No pressure
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	Same as above

About You

Vehicle styling	5.
Which, if any, influenced your purchase decision? (check all that apply):	Image that the vehicle portrays. Vehicle test drive. Lifestyle. Previous experience with the vehicle/brand.

Please rate your overall level of satisfaction with the Smartphone Application	5 (very satisfied).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Other	
Please describe conditions when this trouble occurs:	N/A
How often does this trouble occur?	Trouble occurs regularly.
Please describe the other trouble you experienced:	Better coverage in side mirrors for blind spots. I added blind spot reflectors
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

What Can We Do Better?	
What has Chrysler done right?	Made me love Jeep again, proud to sit behind the wheel, and driving a delight.
Feedback/Concerns:	Electronic shifting is a little clumsy when doing quick stop and reversal of direction. Might be just getting used to how it works, but I stopped suddenly several times and tried to shift to reverse and it took several attempts to make the shift. I do not think that I was nervous, but.....

Please rate your overall level of satisfaction with the Printed User Guide	3 (neither satisfied nor dissatisfied).
Please explain further about your choice to recommend your vehicle:	I've steered family members away from this and they have purchased Ford Explorer.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Information in the Printed User Guide is easy to find and access	3 (neither agree nor disagree).
Gear selector is difficult to operate (auto. trans.)	
Going into which position is the gear selector difficult to operate? (check all that apply):	Manual sport mode, if equipped (M +/-). Park (P). Neutral (N). Drive 2 (2). Drive 3 (3). All positions. Drive (D). Stops in neutral before going into drive so it's never a smooth process then when selecting drive from neutral vehicle goes to sport mode. Terrible, terrible design Reverse (R). Stops at reverse when selecting park. Exited vehicle many times to find vehicle rolling back. Not acceptable. Person or team who designed this should be fired. It's an accident waiting to happen.
To the best of your recollection, the trouble was first noticed:	At delivery.
Why is the gear selector difficult to operate?	Gear selector requires too much effort/force to operate.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Terrible design Jeep
How often does this trouble occur?	Trouble occurs regularly.
Slips/will not engage gear properly/shifts erratically	
How often does this trouble occur?	Trouble occurs regularly.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration. Maintaining a fairly constant speed on level roads. Deceleration. Coasting (no gas pedal applied).
Going into which gear/gears does the trouble occur? (check all that apply):	3rd Gear. 2nd Gear. 4th Gear. 1st Gear.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90°. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
Are you using your vehicle for towing when the problem occurs?	No.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

How often does this trouble occur?	Trouble occurs regularly.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?. Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Contact Me

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	Oil smell, shifter issues, transmission shifting. Lemon law

Shifts at wrong times

Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Maintaining a fairly constant speed on level roads. Freeway/highway driving. Coasting (no gas pedal applied). Deceleration. Normal acceleration. City driving/stop-and-go traffic.
Going into which gear/gears does the trouble occur? (check all that apply)	1st Gear. 3rd Gear. 5th Gear. 8th Gear. 4th Gear. 2nd Gear. 6th Gear. 7th Gear.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
Are you using your vehicle for towing when the problem occurs?	No.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Hesitation or delay when shifting between gears

Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Coasting (no gas pedal applied). Deceleration. Freeway/highway driving. Normal acceleration.

Hesitation or delay when shifting between gears	
To the best of your recollection, the trouble was first noticed:	City driving/stop-and-go traffic. Within the 1st month after delivery.
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear. 1st Gear. 3rd Gear. 4th Gear.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Automatic Transmission	
Automatic Transmission	Shifts at wrong times. Hesitation or delay when shifting between gears. Slips/will not engage gear properly/shifts erratically. Gear selector is difficult to operate (auto. trans.). Shift between gears is rough/harsh under normal driving conditions.
Driving Mode Selector works, but is difficult to understand/use; is in a poor location	
Please indicate why the selector is difficult to understand/use; in a poor location (check all that apply):	Controls require too much effort/force to operate. Operation of key fob is confusing/doesn't make sense. Controls require too much attention (must take eyes off the road) to operate.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. This system is terrible to use and dangerous, I've engaged the vehicle in park multiple times and exited the vehicle to find it rolling back because it stopped at reverse. I dislike this vehicle greatly because of this shifter. With this potential danger of this system I have no idea how its allowed.
Additional Comments:	Would not purchase this vehicle again due to this system. Extremely poor design.
Axle(s)	
Axle(s)	Axle makes whining, howling, clunking, or grinding noises.
Axle makes whining, howling, clunking, or grinding noises	
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
The trouble occurs at these speeds (check all that apply):	At low speeds (0-45 mph), while accelerating. At low speeds (0-45 mph), while coasting (no brake or gas).
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Features and Controls	
Features and Controls	Driving Mode Selector.
Driving Mode Selector	
Driving Mode Selector	Driving Mode Selector works, but is difficult to understand/use; is in a poor location.
Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Transmission and Drivetrain. Features/Controls/Displays.
What Can We Do Better?	
Feedback/Concerns:	I forgot to mention there is also a strong oil odor in vehicle
What has Chrysler done right?	Not much for his current model. I use to be a Jeep fan and have owned at least 6 of them. But I would not purchase again due to the many issues with this vehicle.
About You	
Did you purchase or lease your vehicle?	Purchase.
Is this your first new vehicle ever purchased / leased?	No.

Detail on Low Rated Items

You rated transmission gear change performance (smoothness) Low. Use this space to provide any specific comments you would like to share. shifting is confusing

You rated engine performance during acceleration Low. Use this space to provide any specific comments you would like to share. the is no pick up - it is delayed

Overview

Please explain further about your choice to recommend your vehicle:	The gear shift is a problem - still not used to it. Takes concerted effort to be sure you are in park or drive and not S. Safety issue for me. Push up like am ready to put in Park, but have only made it to R. Happens often. Also, don't like the radio staying on when the car is turned off. Think this is something I can program to change - in this configuration, it is sometimes difficult to tell if the jeep was turned off or still running. Issues around this as well.
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).

About You

What year were you born?

What is your total household income (before taxes)? \$100,000 - \$124,999.

How many children 17 or under live in your household? 0.

What is your average miles per gallon (MPG) with your vehicle? 19-20 mpg.

Secondary vehicle in your household: 2014.
Acura.
RDX.
Secondary Household Vehicle: Purchased New.

Please indicate the primary driver's age.

Please indicate your ethnicity

Please indicate your occupation status.

What is your primary language? English.

Please indicate your occupation.

Please indicate your highest education level High school degree / GED.

Please indicate your gender

What is your current marital status?

Did you purchase or lease your vehicle? Purchase.

Which of the following best describes the area you live in? Rural.

Engine fluid leaks

Please describe conditions when this trouble occurs: all the time

Additional Comments: it is fixed. it was just a small part

To the best of your recollection, the trouble was first noticed: 12-18 months into ownership.

Approximate mileage when trouble was first noticed was: 30,000-39,999.

Which fluid is leaking? Engine oil.

Where does fluid appear to be leaking from? Rear of engine (where the transmission attaches to the engine).

How often does this trouble occur? Trouble occurs regularly.

Gear selector is difficult to operate (auto. trans.)

Please describe conditions when this trouble occurs: almost everytime i park it

Additional Comments: The electronic shifter doesnt work

To the best of your recollection, the trouble was first noticed: 9-12 months into ownership.

Approximate mileage when trouble was first noticed was: Less than 10,000.

Why is the gear selector difficult to operate? Operation of gear selector is confusing/doesn't make sense.

Going into which position is the gear selector difficult to operate? (check all that apply): Park (P). I push the gear selector into park and it either doesn't move or it goes into neutral

Reverse (R). when i push the gear selector into reverse it goes into park or neutral

How often does this trouble occur? Trouble occurs regularly.

Vehicle Satisfaction Ratings

What are your favorite parts of your new vehicle? comfort

Is there anything about your new vehicle you would like to see changed? quit shrinking the rear cargo area. It seems like every new jeep i get the rear cargo area is smaller. A set of golf clubs no longer fit side to side making it difficult when i travel with my golf group.

Operating controls while driving (gear selector, turn signals, horn, etc.) 3.

Was the trouble resolved to your satisfaction?	No.
Have you requested a paper version of the owner manual?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to a different dealer. Original deal was far away.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please explain further about your choice to recommend your vehicle:	If the issue was a software update, I wish I could upgrade the software without having to bring it in. Or I would liek to see an "Over the air Update".
How many visits did you make to the dealer?	1 visit.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Interior Climate Control.

Contact Me

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.
Welcome	
Are you the primary driver of this vehicle?	Yes.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.
What Can We Do Better?	
What has Chrysler done right?	Great truck
Feedback/Concerns:	I wish I was notified when there are warranty issues so I can see if I wanted them fixed. I don't always want to wait for oil changes.
Detail on High Rated Items	
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	Hard to clean the top of the back window. Car washes don't seem to reach it.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	I wish the NAV would give me more of a birdseye view for longer trips. I have the setting set to "far" but it's still not far enough for long trips. I have the "minus" button too many times to see the entire trip.
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	If I charge my phone through the USB, it automatically plays the media on my phone. Not helpful if I just want to charge my phone.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	Sometimes the gear select is tricky to land on reverse. I've accidentally moved it to neutral more times than I would like.
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	The heated seats are difficult to click through. Would be nice if they were hard buttons. It would also be nice if my calendar on my phone synced with the nav so I could just click on the address and the NAV would take me there.
Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Other than a few tweaks, I love the truck

What Can We Do Better?

What has Chrysler done right?	Good looking, good handling car with good V8 power yet very reasonable fuel mileage. Very comfortable to drive and ride in and so far (at 11000 miles) very dependable. Everthing works and I really like he blind spot monitering (because it is a bit hard to see out of).
Feedback/Concerns:	Change the computer so things don't go through the radio. Change he trans shifter to something with feel. Change the HVAC controls to somthing with feel. Dump the paddles.

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call

Additional Comments:	If the car is stopped and no road noise is present everthing is fine.
Do you usually set HVAC vent direction toward ceiling?	No.
Please describe when this trouble occurs:	Other: Please describe when this trouble occurs. If the car is moving-- to much road noise
Sound quality is poor: (check one)	For the receiver of the call.
Does the issue occur when speaking at regular volume?	Yes.
How often does this trouble occur?	Trouble occurs regularly.

Overview

Information in the Printed User Guide is easy to find and access	1 (strongly disagree).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Other (please explain fur her, if applicable). There have been no problems expect the hacker flash--but all service on the vehicle has been done at the dealership.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Which automotive publications do you subscribe to? (check all that apply)	Motor Trend.
Would you recommend this vehicle to family or friends?	No.
Please provide feedback on how Chrysler can improve the Printed User Guide	The way to get the car back to automatic after accidently hitting the paddle was not in he User Guide-- I had to go to the dealer to find out how to do it. I got an Owners Manual so I had all the infop I need to operate the car---major screw-up by not putting the paddle shifter info in the User Guide.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Please explain further about your choice to recommend your vehicle:	Can't recommend un il you run control of systems separately (not through the radio) and improve the transmission shifter. I love the car other than that--I'll even put up the the stupid paddles.
DVD format is easy to understand and use	4 (agree).
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Please rate your overall level of satisfaction with the DVD	3 (neither satisfied nor dissa isfied).
Did you review the Printed User Guide?	Yes.
Information on the DVD is easy to find and access	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Printed User Guide	1 (very dissatisfied).
Printed User Guide covers the necessary features	1 (strongly disagree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Did you review the Owner's Information DVD?	Yes.
Please provide feedback on how Chrysler can improve the DVD	You don't lodd at the DVD until the problem has already occurred.
Printed User Guide format is easy to understand and use	4 (agree).
What have you used to view your DVD? (check all that apply)	Home DVD Player.

Vehicle Satisfaction Ratings

Rear view styling (rear fascia, bumper)	5.
Is there anything about your new vehicle you would like to see changed?	Trans shifter, Computer not run through radio,HVAC and other controls with feel so you don't have to look

About You	
Secondary vehicle in your household:	Ram 3500. Dodge. Secondary Household Vehicle: Purchased New. 2004.
What year were you born?	NA
How many children 17 or under live in your household?	0.
Please indicate your ethnicity	

About You

Primary vehicle in your household:

Primary Household Vehicle: Purchased New.

Grand Cherokee.

Jeep.

2014.

Which of the following best describes the area you live in?

Suburban.

Did you purchase or lease your vehicle?

Purchase.

Please indicate your occupation status.

Retired.

Please indicate your gender

Male.

What is your current marital status?

Married.

Please indicate your highest education level

PhD.

What is your primary language?

English.

What is your average miles per gallon (MPG) with your vehicle?

16-18 mpg.

Detail on High Rated Items

You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.

It's easy to adjust but I really like the heated steering wheel feature

You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.

The trans performs well, it's the shifter that is crappy.

You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.

The Summit wheels look very nice but select something other than Good Years for your tire. I changed to Michelins and the car has less road noise and handles much better.

You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.

It's a little orange peely but what do you expect from a factory job.

You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.

Fix the problems I mentioned and I'd love the heck out it.

You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.

I like it

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.

I really love the air suspension. When some people get in I lower it and at other times its nice to be able to raise it.

You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.

The system sounds good but the controls are hard to use.

You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.

Good performance, you could put a little rumble in the exhaust system.

You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.

I get 22-23 MPG with the car on freeway cruises, to me that's pretty good.

You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.

I've had Jeeps for over 30 years. I love them (started with a CJ5).

Gear selector is difficult to operate (auto. trans.)

Additional Comments:

Change the shift lever to something that has a natural feel to it so you know when you have shifted one , two or three positions. If you don't change this feature I will never buy another Jeep.....

Going into which position is the gear selector difficult to operate? (check all that apply):

All positions. There is no feel. You have to watch it to know which gear you shift too. And backing out of a parking place in traffic and shifting to a forward gear doesn't happen fast (again you have to watch it instead of traffic and frequently it goes to neutral rather than drive. This is by far the worst feature of the car. It makes things dangerous at times---I hate it.

How often does this trouble occur?

Trouble occurs regularly.

Please describe conditions when this trouble occurs:

Just shifting it

To the best of your recollection, the trouble was first noticed:

9-12 months into ownership.

Why is the gear selector difficult to operate?

Other (please describe).

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.

The trans shifter is gastly (no feel). Running computer control through the radio has to be the dumbest thing I have ever heard--you boys ever hear of a thing called hacking????

You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.

Controls need to have a feel to them so you know without looking where they are. I send tooooooo much time looking at the controls and not enough time watching the road in this car.

Media

Media

Radio.

CD.

Windshield wiper/washer controls work properly, but difficult to understand/use; in a poor location

Please indicate which feature's controls are difficult to understand/use (check all that apply):

Windshield washers. She get confused between rear wiper and front washer (too much all on one pod).

Windshield wiper/washer controls work properly, but difficult to understand/use; in a poor location	
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Controls require too much attention (must take eyes off the road) to operate. You have to look at them while trying to operate--should be able to do things by feel. The same would be true of the heater controls.
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand. My wife (who is the primary driver) saya there is too much all on one pod and she can't keep track of what to do when she wants something to happen (ie. rear window wiper)
Entertainment/Navigation System/Connectivity	
Entertainment/Navigation System/Connectivity	none
Welcome	
Please tell us how many miles are currently on your vehicle:	10,000-19,999.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.
Are you the primary driver of this vehicle?	No.
Shifting paddles/buttons difficult to operate	
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	You can hit the paddles accidentally and then you are stuck in one gear until you realize the trouble and shift to automatic mode (and when you are turning and wanting to accelerate to get out of someones way getting it back in automatic isn't easy).
Additional Comments:	Dump the paddles. You can do the manual shifting if you want to with the shifter.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
CD	
CD	CD player disc loading trouble.
Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use.
Additional Comments:	Sorry, but we have a Summit. You have to be a computer freak to make he damn thing work and you have to watch it all the time you are adjusting it to avoid over doing--not a good design-- you need to keep you eyes on the road not the controls bouncing up or down to a number hat is correct the the time. As long as you are going to use computers to do everything why not set the computer so that when you first turn the heater on it heats for a while (above the 72 that is set) because when it gets to 72 he amount of heat is so low you have to crank it up to feel comfortable.
Please indicate which heating, ventilation and air conditioning controls are difficult to understand/use; are in a poor location (check all that apply):	Temperature control. You have to look and watch the bouning numbers--the old side system could be used without looking and you knew how much heat you added or reduced.
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Other Components	
Other Components	Other component(s) replaced (not listed previously).
Other component(s) replaced (not listed previously)	
Which other component(s) did you replace?	Had to have the flash on the radio to prevent someone taking control of my car--- that's just pure stupid to set something up so that someone else can hack and control your car. Don't just software program it out Because hackers are good enough to get around your stupid software fix, separate the systems so it can't happen.
Where did you take your vehicle to have the component replaced?	Other (please specify). All work on the car has been done at Wilson Motors (the dealer where the purchase was made).
Operation and Performance	
Operation and Performance	Front heating, ventilation and air conditioning vents are difficult to understand/use; are poorly located.
Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.
Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location	
Please indicate the trouble you experienced with the Collision Avoidance/Alert System (check all that apply):	Other (please describe). The collison warning sounds when cars pass me on the freeway. I had to turn it off because it would also brake and cause cars behind me to have to brake and here was no reason for it other than I was being passed.
Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
Additional Comments:	I think it is stupid to run vehickle controls through the radio/media center. I had the

Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
	flash to stop a person from taking control of my car but keeping things separate so no outside control is possible makes alot more sense.
CD player disc loading trouble	
Please describe the trouble you experienced:	It's in a bad location. It's hard to use--put it in the dash.
Features and Controls	
Features and Controls	Wipers and washers.
Bluetooth streaming audio works, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand.
Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system has poor sound quality at far end.
Radio	
Radio	Bluetooth streaming audio works, but is difficult to understand/use.
Displays and Instruments	
Displays and Instruments	Collision Avoidance/Alert System works properly, but is difficult to understand/use; controls are in a poor location.

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	iphone 6
Please choose your cell phone carrier	AT&T Mobile.
Please choose your cell phone brand	Apple.

Tire pressure monitoring system broken/not working	
Approximate mileage when trouble was first noticed was:	10,000-19,999.
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate what type of trouble was experienced with the tire pressure monitoring system (check all that apply):	Indicates a problem with a tire that is properly inflated.

Excessive oil consumption	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
If there is visible smoke (gray/blue-gray color) coming from the exhaust pipe, please indicate the engine temperature condition when the smoke appears (check all that apply only if smoke is visible):	Other (please describe). cracked oil cooler connector caused problem
Approximate mileage when trouble was first noticed was:	Less than 10,000.
About how far can the vehicle be driven before it is low 1 quart of oil?	Not sure.

Engine fluid leaks	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe conditions when this trouble occurs:	cracked plastic pipe to oil cooler was repaired
Which fluid is leaking?	Engine oil.
Where does fluid appear to be leaking from?	Bottom of the engine.

Engine Fluids (leaks, excessive oil consumption)	
Engine Fluids (leaks, excessive oil consumption)	Excessive oil consumption. Engine fluid leaks.

Navigation system freezes-up/will not work	
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	normal operation
Additional Comments:	also, location point on map occasionally cannot lock onto road

Navigation system works, but traffic information doesn't work / or is difficult to understand	
--	--

Navigation system works, but traffic information doesn't work / or is difficult to understand	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Traffic information does not display at all.

Air filter	
How much did the replacement cost?	Under \$100.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to an independent repair facility.

What Can We Do Better?	
What has Chrysler done right?	Drivability and bad weather handling is very good
Feedback/Concerns:	Minor glitches in electronics, oils leak in my vehicle caused considerable damage to my garage and driveway, auto-high beam has not worked in a long time, and serious problem with the feel and precision of the auto transmission shift knob, as mentioned

Features and Controls	
Features and Controls	Light switches/controls. Tire pressure monitoring system.

Exterior light controls broken/not working	
To the best of your recollection, the trouble was first noticed:	12-18 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which exterior light control feature is broken/not working properly (check all that apply):	Automatic light control. auto high beam sensor has not worked for several months Hi-beam switch. auto high beam sensor has not worked for several months
Approximate mileage when trouble was first noticed was:	10,000-19,999.

Light switches/controls	
Light switches/controls	Exterior light controls broken/not working.

Detail on High Rated Items

You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	I have owned lots of cars. both new and used, this Jeep seems well sorted. suspension components look well made and machined good.
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	not sure if I'm reading these ques ions right. adverse conditions are where this vehicle is at it best.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	plenty bright. visor mirror lights need a dimmer, to bright at night, can't hardly see yourself.
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	guess i miss read. brakes are excellent, sensitive but easy to get the feel of them.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	it's no sports car, but does very good on twisty roads, even if road is a bit rough.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	very nice to have power enough for passing, towing.
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	compared with the competitors, the features and capabili ies I feel make it a greater value for the money spent.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	nice sounding on accelation, very civil when crusing
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	both my wife and i consider it the best looking mid size suvs.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	tire to wheel opening por ions, cove in side panels gives a " tight" look
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	not sure why mfgs. feel like the need to make big changes from year to year, especially when they have a good product already. the small changes you are doing to the current GC have been in good taste, hope it lasts a while:)
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	led taillights are nicely styled, like how brake lights are integrated. i like the the mufflers can't be seen from the back.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	again nice sound on acceleration, quiet when crusing.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	overall evenness of color,no orange peel look
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	we had a 2012 JGC with 6 speed, had nothing but trouble with it. traded it for this 2014 because of the zf 8 speed, much better match for he hemi, imo.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	most controls are good, gear selector... not so much.

Overview

Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
Was the trouble resolved to your satisfaction?	No.
Printed User Guide covers the necessary features	5 (strongly agree).
Did you review the Printed User Guide?	Yes.
Did you review the Owner's Information DVD?	No.
How many visits did you make to the dealer?	Other (please explain fur her, if applicable). all questions and updates were done at oil change, no special appointment
Would you recommend this vehicle to family or friends?	Yes.

Overview	
Which automotive publications do you subscribe to? (check all that apply)	Motor Trend.
Please explain further about your choice to recommend your vehicle:	drives and handles well. good power, like the 8 speed trans. good compromise for city/hwy. use. awesome awd system
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Printed User Guide format is easy to understand and use	4 (agree).
Were the trouble(s) repaired or explained?	Partially (please explain further, if applicable).
Information in the Printed User Guide is easy to find and access	4 (agree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please indicate which words, if any, are constantly misrecognized:	call .. we give name it comes back with some unheard of name, so we repete
Please describe when this trouble occurs:	When stating a name.
How often does this trouble occur?	Trouble occurs regularly.
Do you usually set HVAC vent direction toward ceiling?	Yes.
Additional Comments:	center hvac vents are pointed up but more towards sunroof
What button did you use?	tried all, same result

Speakers are not loud enough	
Trouble with speaker occurs:	At all volume levels.
Please indicate which media sources were being played (check all that apply):	Satellite Radio. Bluetooth Streaming. CD. FM.
Please indicate which speaker has trouble (check all that apply):	Front passenger's side speakers. mostly bass, not much voice or midrange Front driver's side speakers. mostly bass, not much voice or mid range
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe conditions when this trouble occurs:	sound has never been loud enough from front door speakers since new, dealer said it was normal, I dont agree
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
How often does this trouble occur?	Trouble occurs regularly.

Integration with media players	4.
Engine exhaust sound	5.
Rear view styling (rear fascia, bumper)	5.

Heating, ventilation and air conditioning doesnt maintain desired temperature

At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	70-75 degrees. our problem is that the system over shoots set points, so cabin gets to hot when car is reaching set temp. and often lets temp. get to cold before warming again. ie. doesn't regulate very good
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	All weather conditions/temperatures.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
Please describe conditions when this trouble occurs:	when ever we get in the car and drive
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

About You

Please indicate your ethnicity	██████.
Secondary vehicle in your household:	1994. Secondary Household Vehicle: Purchased Used. Jeep. Grand Cherokee.
How may children 17 or under live in your household?	0.
Please indicate the primary driver's age.	██████
What is your current marital status?	██████
Primary vehicle in your household:	Primary Household Vehicle: Purchased New. Grand Cherokee. 2014. Jeep. Suburban.
Which of the following best describes the area you live in?	English.
What is your primary language?	Retired.
Please indicate your occupation status.	\$80,000 - \$99,999.
What is your total household income (before taxes)?	16-18 mpg.
What is your average miles per gallon (MPG) with your vehicle?	██████
Please indicate your gender	Professional Specialty.
Please indicate your occupation.	1██████
What year were you born?	Purchase.
Did you purchase or lease your vehicle?	Trade / technical school.
Please indicate your highest education level	

Hand brake/parking brake control is poorly located

Additional Comments:	hill decent control, in normal driving mode is to aggressive. we use manual shift mode to go a bit faster.
Why is the parking brake poorly located? (check all that apply):	Other (please describe). would like to have a hand release for parking brake. on snow and ice sometimes the only way to slow down and still turn is to use the brake. so I don't like the push to release feature.

Navigation system works, but missing information; has incorrect information; gives wrong directions

Please indicate which of the following best describes your concern (check all that apply):	Navigation system has incorrect information. taken us on many round about ways to destination, dirt side roads, multiple side roads when direct route was available and established. Navigation system gives wrong directions.
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions.

Air filter	
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
When was the replacement made on your vehicle?	12-18 months into ownership.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
Welcome	
Are you the primary driver of this vehicle?	No.
Please tell us how many miles are currently on your vehicle:	20,000-29,999.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.
Entertainment/Navigation System/Connectivity	
If known, please tell us your software version	15.2
Please tell us your cell phone model	iphone 5s
Please choose your cell phone carrier	AT&T Mobile.
Please choose your cell phone brand	Apple.

Please rate your overall level of satisfaction with the Printed User Guide

Did you review the Printed User Guide?

Yes.

Very satisfied.

5 (strongly agree).

Yes.

Yes.

Yes, by phone or e-mail.

We also have a 2014 wrangler unlimited rubicon X, 2014 Cherokee, 2012 patriot, 2003 Liberty. Big jeep fans. Had 2000 and 2001 grand Cherokees also this year but upgraded. How about sending me a xl men's jeep jacket and a medium women's jeep jacket for our brand loyalty

None or other (if other, please describe).

5 (very satisfied).

Yes.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, the issue is related to the design of the vehicle.
Information in the Printed User Guide is easy to find and access	5 (strongly agree).
Printed User Guide format is easy to understand and use	5 (strongly agree).

Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).

Welcome	
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	No.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.
Are you the primary driver of this vehicle?	No.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Gear selector is difficult to operate (auto. trans.)	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	I don't think there is anything wrong with the car it's just the feel of the selector being in right gear
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Going into which position is the gear selector difficult to operate? (check all that apply):	All positions. Feel compared to older type leaves me wonder what gear I'm in or if in park
Why is the gear selector difficult to operate?	Gear selector requires too much effort/force to operate.

Detail on High Rated Items	
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	As listed prior we currently have 5 jeep products. Have had three others prior. Would like to see some type of additional brand loyalty recognition like frequent flyer etc... But for jeep

What Can We Do Better?	
What has Chrysler done right?	Stayed consistent with their goals to provide best off road vehicles and then add the performance options as well i.e. Sort, hemi etc...

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Transmission and Drivetrain.

Overview

Please explain further about your choice to recommend your vehicle:	I LOVE my Jeep - I practically live in it - but the issues listed need to be addressed.
Were the trouble(s) repaired or explained?	Partially (please explain further, if applicable). tried - but continues to occur
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
How many visits did you make to the dealer?	3 visits.
Did you review the Printed User Guide?	No.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from. They tried to fix it
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.

Shifts at wrong times

Going into which gear/gears does the trouble occur? (check all that apply)	Other (please describe). see former comments.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Slips/will not engage gear properly/shifts erratically

Going into which gear/gears does the trouble occur? (check all that apply):	Other (please describe). The gear shift handle doesn't allow to put into park without going through each gear. It is very difficult to put into park at times. And also difficult to get into reverse. I sometimes have to make several attempts.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Other (please describe). This trouble happens at any time at any condition.

Contact Me

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	<div></div> (can you please wait till after the Holidays?!) Thank you! :)

Text messaging broken/not working

Please describe the trouble you experienced (check all that apply):	Cannot hear playback audio. This feature just stopped working Voice recogni ion playback does not work. Again, this feature just stopped working Text is not displayed on screen. It just stopped working
Additional Comments:	I used to get text notification and it just stopped working . . . ?
How often does this trouble occur?	Trouble occurs regularly.

Shift between gears is rough/harsh under normal driving conditions

Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Going up an incline. Freeway/highway driving. see above Hard acceleration. See above Coasting (no gas pedal applied). This problem also occurs when I'm "coasting" Braking. see aobove Going down an incline. Normal acceleration. see above. Maintaining a fairly constant speed on level roads. see aobove While driving on level roads. Deceleration. see above Long after vehicle start-up.
Going into which gear/gears does the trouble occur? (check all that apply)	Other (please describe). I have had issues since purchasing my Jeep. While driving on the highway, the engine revs to pass and then doesn't downshift. When I go onto an exit ramp, it some imes doesn't downshift on it's own (I need to manually shift) and it has a mind of it's own and randomly revs the engine like I need to shift it while speeding up . . . my dealership has "reset" it a few imes, but I continue to have issues!
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Dealer has attempted to "reset" transmission, but trouble continues to occur.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Entertainment/Navigation System/Connectivity>Navigation System>	
Navigation System	Navigation system freezes-up/will not work. Difficulty accessing Points of Interest. Navigation system works, but missing information; has incorrect information; gives wrong directions. Points of Interest incorrect.
Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working	
Additional Comments:	nothing is broken
Gear selector is difficult to operate (auto. trans.)	
Going into which position is the gear selector difficult to operate? (check all that apply):	Park (P). see former comments Reverse (R). see previous comments All positions. THIS IS AN ISSUE - and survey is far too long!!!!
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Hard Controls/Menu	
Hard Controls/Menu	Hard controls/menus: Front Screen Display: Other Concerns.
Hands-Free Phone / Bluetooth system voice activation doesnt recognize command	
Please describe when this trouble occurs:	When stating a name. She doesn't seem to recognize certain sounds.
Please indicate which words, if any, are constantly misrecognized:	██████████
What button did you use?	button on steering wheel
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Will this help? I usually point it downward when not in use. . . .
Detail on High Rated Items	
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Very smooth!! My Jeep is better than my husband's Audi A6!!! SERIOUSLY!
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Deacon Jeep is amazing!!!!
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	Love this!! My Jeep is the perfect height!
Voice Activation / Recognition doesnt recognize command	
Do you usually set HVAC vent direction toward ceiling?	No.
Please describe when this trouble occurs:	When stating a name. She doesn't understand certain words.
What button did you use?	green button on steering wheel
How often does this trouble occur?	Trouble occurs regularly.
Tire pressure monitoring system broken/not working	
Please indicate what type of trouble was experienced with the tire pressure monitoring system (check all that apply):	Warning light/display does not work properly. see above Indicates a problem with a tire that is properly inflated. At one point, the same pressure on both front tires were listed differently - one red, one green but both the same pressure.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe conditions when this trouble occurs:	pretty typical conditions
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Welcome	
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Are you the primary driver of this vehicle?	Yes.
Navigation system works, but missing information; has incorrect information; gives wrong directions	
Additional Comments:	I like the screen size and "she" seems to give clear directions, just not correct and regularly "changes her mind" in the middle of the directions
Please indicate which of the following best describes your concern (check all that apply):	Navigation system gives wrong directions. Cannot seem to find alternate routes.
Please indicate which navigation system item has trouble (check all that apply):	Other (please describe). Correct address is listed and starts directions and then it tells me I'm going the wrong way - "recalculating route" and when I continue, it eventually goes back to it's original directions.
Difficulty accessing Points of Interest	

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Regularly, I type in a store and it doesn't list anything.
Additional Comments:	It would be nice to have an alternate store given if the one I want doesn't show up, but I input a store I know exists, but the nav system can't find it.
Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Transmission and Drivetrain. Features/Controls/Displays. Entertainment/Navigation System/Connectivity.
Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system won't connect. Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.
Navigation system freezes-up/will not work	
Additional Comments:	Points of interest don't show up when they're typical locations/stores.
Please describe conditions when this trouble occurs:	After putting in a location, I follow directions and DURING this time, it says "recalculating route" when I'm following the correct directions.
How often does this trouble occur?	Trouble occurs regularly.
Hesitation or delay when shifting between gears	
Going into which gear/gears does the trouble occur? (check all that apply)	Other (please describe). see former comments - this survey is FAR TOO LONG!!
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Features and Controls	
Features and Controls	Tire pressure monitoring system.
Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.
Touchscreen Controls	
Touchscreen Controls	Front seat audio/entertainment/navigation touchscreen controls/menus broken/not working.
Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	THIS SURVEY IS WAY TOO LONG!!
Hard controls/menus: Front Screen Display: Other Concerns	
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	I find it difficult to stop the guidance. There are three different buttons I need to push to cancel driving and it's very distracting. When I need her to stop talking (because she's "recalculating route" or I don't need her guidance any longer, it's distracting to have to go through so many steps to "stop guidance".
What Can We Do Better?	
What has Chrysler done right?	I LOVE how it drives like a car, I love how it looks, I love the seats, I love the GPS screen, I love the call button to dial a phone number, I love how I have "favorites" I can call with one push of a button, I love how it tells me the tire pressure and if there's an issue, I love how there is great space for hockey bags, etc., I love the back seat and how roomy it is, I love the radio features, I love UConnect, I love the automatic start, I love the inside button on the rear door - very clever on the side! Overall, I am a huge fan!! (I've previously ONLY driven GMC's - 2 Yukon Denali's, 2 Acadia's and LOVED OnStar!! But now I'm becoming a Jeep fan! Thank you!!
Feedback/Concerns:	If you can fix the transmission problem, the gear shift issues and fix the glitch in the NAV system, my Jeep would be PERFECT!!
Text Messaging	
Text Messaging	Text messaging broken/not working.
Tire pressure monitoring system	
Tire pressure monitoring system	Tire pressure monitoring system broken/not working.

Detail on Low Rated Items	
You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.	Go back to a real shift device.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	See above.
You rated transmission gear change performance (smoothness) Low. Use this space to provide any specific comments you would like to share.	Terrible shift points.

Detail on High Rated Items	
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Great headlights.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Ride and comfort.

Entertainment/Navigation System/Connectivity	
Please tell us your cell phone model	Iphone 5
Entertainment/Navigation System/Connectivity	Issue was recall due to ability of others to hack into system.
Please choose your cell phone brand	Apple.
Please choose your cell phone carrier	Verizon Wireless.

Gear selector is difficult to operate (auto. trans.)	
Please describe conditions when this trouble occurs:	Parking lots, attempted quick turn arounds.
Additional Comments:	Shifter is terrible!!!! Cannot get the vehicle to go in the gear you want. The worst!!!!
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Going into which position is the gear selector difficult to operate? (check all that apply):	All positions. Drive (D). Neutral (N). Park (P). Reverse (R).
Why is the gear selector difficult to operate?	Gear selector requires too much effort/force to operate.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.

Overview	
Please explain further about your choice to recommend your vehicle:	Poorly shifting transmission is enough to prevent recommendation.
Printed User Guide format is easy to understand and use	3 (neither agree nor disagree).
Information in the Printed User Guide is easy to find and access	3 (neither agree nor disagree).
Please rate your overall level of satisfaction with the Printed User Guide	3 (neither satisfied nor dissatisfied).
Printed User Guide covers the necessary features	4 (agree).
Which automotive publications do you subscribe to? (check all that apply)	Auto Week. Consumer Reports ratings.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Would you recommend this vehicle to family or friends?	No.
Did you review the Owner's Information DVD?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, the issue is related to the design of the vehicle.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Printed User Guide?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Hard controls/menus: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	Recall of vehicle due to hacking
What Can We Do Better?	
Feedback/Concerns:	Revise shifting method; improve shift points. Allow 2-wheel drive option. Allow rear window to open. Provide a functioning roof rack. Bring back the Wagoneer!
What has Chrysler done right?	Vehicle rides well; is attractive. Seats very comfortable. Visibility fair.
Axle is leaking fluid	
Additional Comments:	Vehicle recall due to improperly installed axle boots.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe where the leak occurs (check all that apply):	From front wheel ends/sides. From underneath front of the vehicle.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Shift between gears is rough/harsh under normal driving conditions	
Going into which gear/gears does the trouble occur? (check all that apply)	1st Gear.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Hard acceleration. Normal acceleration.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
How often does this trouble occur?	Trouble occurs intermittently.
Welcome	
Please tell us how many miles are currently on your vehicle:	20,000-29,999.
Are you the primary driver of this vehicle?	Yes.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.
Shifts at wrong times	
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear. 3rd Gear.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	City driving/stop-and-go traffic. Hard acceleration. Normal acceleration.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Are you using your vehicle for towing when the problem occurs?	No.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
How often does this trouble occur?	Trouble occurs intermittently.
Hesitation or delay when shifting between gears	
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear. 3rd Gear.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	City driving/stop-and-go traffic. Hard acceleration.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Wiper blades - front	
When was the replacement made on your vehicle?	9-12 months into ownership.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Repaired/replaced myself.

Air filter	
When was the replacement made on your vehicle?	9-12 months into ownership.
Approximately how many miles were on the vehicle at that time?	Less than 10,000.
Where did you take your vehicle to have the component replaced?	Repaired/replaced myself.
How much did the replacement cost?	Under \$100.

No.

Did you review the Owner's Information DVD?

No.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Overview	
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, the issue is related to the design of the vehicle.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe). I do not get the magazines but I use the Road and Track and Car and Driver Youtube channels
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Printed User Guide?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
What Can We Do Better?	
Feedback/Concerns:	Just disappointed that a design flaw exists and is complained about all over the forums and no activity to fix or address it.
What has Chrysler done right?	Love the rest of the vehicle
Detail on Low Rated Items	
You rated side/profile view styling (driver's side or passenger's side exterior area) Low. Use this space to provide any specific comments you would like to share.	Love the look but the passenger side mirror and door area create a sizeable blind spot. Still not a deal breaker but could be improved
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The shifter is terrible and again, the reason I am, at 10,000 miles, evaluating trading in and getting something else
Slips/will not engage gear properly/shifts erratically	
Additional Comments:	Noticed it within the first few days and had hoped i was just shifting to fast.. hat is not the case. Honestly I will never buy another Jeep - this is my second but this is so annoying and unsafe and it is being ignored and not addressed. Disappointing
Please describe conditions when this trouble occurs:	Randomly when putting car into park
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Other (please describe). Anytime I am trying to go to park
Going into which gear/gears does the trouble occur? (check all that apply):	Other (please describe). Park - when I go to move into Park he first time up, some of the ime, it goes into Reverse...some times Park. It is a matter of time until I fail to catch it and will back into something. It happens about 3 imes a week, at least.
How often does this trouble occur?	Trouble occurs intermittently.
Gear selector is difficult to operate (auto. trans.)	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Why is the gear selector difficult to operate?	Other (please describe).
Going into which position is the gear selector difficult to operate? (check all that apply):	Park (P). When I push 'up' to go into Park sometimes it goes into Park and others it goes in to Reverse once it goes in to reverse I have to go back into Drive, let it engage, hen try again otherwise it will just continue to go into park
How often does this trouble occur?	Trouble occurs intermittently.
Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.). Slips/will not engage gear properly/shifts erratically.

Gear selector is difficult to operate (auto. trans.)	
Please describe conditions when this trouble occurs:	shifting
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
Going into which position is the gear selector difficult to operate? (check all that apply):	Park (P). doesn't go all the way to park consistently. Lacks proper "feel" for gear selection.
How often does this trouble occur?	Trouble occurs regularly.

What Can We Do Better?	
What has Chrysler done right?	the diesel is a great vehicle.

Check Engine light indicated trouble	
Please describe conditions when this trouble occurs:	unknown
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
What type of fuel do you most often put into your vehicle?	Diesel.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Did you also experience an engine performance issue while the "Check Engine" light was on?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Was the "Check Engine" light your first indication there was trouble?	Yes.

Exhaust system troubles	
Please describe conditions when this trouble occurs:	unknown
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
What type of fuel do you most often put into your vehicle?	Diesel.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
What is the trouble with the exhaust system? (check all that apply):	Other exhaust troubles (please describe). warning "engine will fail to start in 100 miles" (or something to that effect)
How often does this trouble occur?	Trouble occurs intermittently.

Electronic Engine Controls (Check Engine)	
Electronic Engine Controls ("Check Engine")	"Check Engine" light indicated trouble.

Tires	
How much did the replacement cost?	\$1,000-\$2,000.
When was the replacement made on your vehicle?	18-24 months into ownership.
Approximately how many miles were on the vehicle at that time?	30,000-39,999.
Where did you take your vehicle to have the component replaced?	Took to an independent repair facility.

Other exhaust system components	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
How much did the replacement cost?	Under \$100.

Oxygen sensor	
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	9-12 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.

Oxygen sensor	
How much did the replacement cost?	Under \$100.

Air filter	
When was the replacement made on your vehicle?	12-18 months into ownership.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
Where did you take your vehicle to have the component replaced?	Repaired/replaced myself.
How much did the replacement cost?	Under \$100.

What Can We Do Better?

What has Chrysler done right?	Really like the navigation system. It is easy to use. Styling The ride is smooth. Steering is light and responsive,
Feedback/Concerns:	Shifting into Park does not have a positive feel. The engine is so quiet that several times I have thought transmission was in park, thought I had turned the engine off and gotten out of the Jeep with the engine still running and in gear. Wish it had roof rack cross bars Leather drivers seat is showing signs of cracking. Is less than a year old with 20,000 miles

Gear selector is difficult to operate (auto. trans.)

To the best of your recollection, the trouble was first noticed:

Going into which position is the gear selector difficult to operate? (check all that apply):

Why is the gear selector difficult to operate?

Additional Comments:

Approximate mileage when trouble was first noticed was:

Please describe conditions when this trouble occurs:

How often does this trouble occur?

Within the 1st month after delivery.

Drive (D). You go from Park to Drive and it doesn't "set" into drive and you have to keep moving it back and forth to get to drive. Many other drivers of my car have experienced this.

Park (P). It's too fluid and doesn't indicate clearly by touch that it's in park. You think it is, but it's not, so you get out of the car, and it's going into Reverse.

Reverse (R). You think you have it in Park but you don't because there's no touch/feel sense that Park has been reached, so it's only in reverse, and you get out of the car and it's moving.

Other (please describe).

The gear selector doesn't allow the driver to "feel" that it's in Park or Drive, so you keep moving it back and forth and have to check visually BOTH the gear selector AND the indicator in the dash. I don't trust it. I've gotten out of the car several times when I think I've pushed it forward into Park, but it's only in Reverse. I step out of the car and it's moving backwards. Not good! I'm not the only one with a Jeep GC who has reported this to me.

0 - 1499 miles.

Normal

Trouble occurs regularly.

Welcome

Are you the primary driver of this vehicle?

Please tell us how many miles are currently on your vehicle:

Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?

Yes.

More than 10,000.

What are your favorite parts of your new vehicle?	Ride, Comfort, Styling, mileage.
Headlight illumination/performance during night-time driving	3.
Wheels, rims, and tires appearance and styling	4.
What is your attitude overall towards your new car?	5.
Fuel economy and driving range	4.
Front view styling (front fascia, hood, grille, headlight area)	5.
Difficult driving conditions (adverse weather, off-road)	5.
Engine sound	3.
Interior comfort, design and appearance of interior (overall impression)	5.
Seat adjustment and comfort	5.
Steering wheel adjustment	5.
Safety and visibility while driving	5.
Integration with phones	3.
Clarity of sound	4.
Integration with media players	4.
Engine exhaust sound	4.
Rear view styling (rear fascia, bumper)	4.
Support for popular music/video formats	5.

Gear selector is difficult to operate (auto. trans.)	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Additional Comments:	This is the one and only thing I hate about my Jeep. The design of the electronic shift makes it so vague to determine if you have the car in gear, have change gears, or are in park.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Going into which position is the gear selector difficult to operate? (check all that apply):	Other (please explain in Additional Comments box below). Park to Revers or to Drive, the design makes it difficult to get positive feel of what gear you're in. Have actually gotten out of the car in Reverse when thought it was in Park
How often does this trouble occur?	Trouble occurs regularly.
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.

About You	
Secondary vehicle in your household:	BMW. Z4. 2003. Secondary Household Vehicle: Purchased Used.
What is your total household income (before taxes)?	\$150,000 - \$199,999.
Please indicate your ethnicity	
Which of the following best describes the area you live in?	Suburban.
Primary vehicle in your household:	Z4.
What is your primary language?	English.
Please indicate your highest education level	Graduate degree.
Please indicate your occupation status.	Employed.
Please indicate your occupation.	Professional Specialty.
What is your average miles per gallon (MPG) with your vehicle?	23-24 mpg.
What is your current marital status?	
Please indicate your gender	
Please indicate the primary driver's age.	
Did you purchase or lease your vehicle?	Purchase.
How many children 17 or under live in your household?	0.

Shift between gears is rough/harsh under normal driving conditions	
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Additional Comments:	The issue is inherent to the programming of the transmission - bad overall design
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe conditions when this trouble occurs:	Passing
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Hard acceleration. Trying to pass
How often does this trouble occur?	Trouble occurs regularly.
Going into which gear/gears does the trouble occur? (check all that apply)	Other (please describe). Passing gear - delay and then abrupt shifts, RPM's high but feels like transmission is not engaged.

Wiper blades - rear	
Where did you take your vehicle to have the component replaced?	Took to a different dealer than the one I purchased my vehicle from.
How much did the replacement cost?	Under \$100.
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
When was the replacement made on your vehicle?	12-18 months into ownership.

Welcome	
Please tell us how many miles are currently on your vehicle:	30,000-39,999.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.
Are you the primary driver of this vehicle?	Yes.

Engine Components	
Engine Components	Engine oil / filter. Air cleaner.

Air cleaner	
Approximately how many miles were on the vehicle at that time?	20,000-29,999.
Where did you take your vehicle to have the component replaced?	Took to a different dealer than the one I purchased my vehicle from.
When was the replacement made on your vehicle?	12-18 months into ownership.
How much did the replacement cost?	Under \$100.

Automatic Transmission	
Automatic Transmission	Shift between gears is rough/harsh under normal driving conditions. Gear selector is difficult to operate (auto. trans.). Shifting paddles/buttons difficult to operate.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Shifting paddles/buttons difficult to operate	
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Transmission and Drivetrain.

What Can We Do Better?	
What has Chrysler done right?	Kept true to the ride and feel of the Grand Cherokee. QUIET! Great mileage with the V6, seating positions, visibility, and locations of the controls.
Feedback/Concerns:	Don't care much for the dual compartments on the console, miss the 40GB hard drive. Could use that foot operated lift gate Ford has.

Vehicle Exterior Components	
Vehicle Exterior Components	Wiper blades - rear. Wiper blades - front.

Detail on High Rated Items	
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	kept the jeep classic look

Detail on Low Rated Items

You rated transmission gear change performance (smoothness) Low. Use this space to provide any specific comments you would like to share.

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.

You rated safety and visibility while driving Low. Use this space to provide any specific comments you would like to share.

You rated seat adjustment and comfort Low. Use this space to provide any specific comments you would like to share.

You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.

Jerky transmission. I expected a vehicle north of \$42,000 to have a smoother shift.

Wind buffeting when the windows are down is unbelievable. You can't drive with the windows down or the skylight open. Rear hatch window should open.

I am 66" tall and the side view mirror occludes my view to the 10 o'clock position. The mirror should be less tall or the seat higher.

Seat padding is hard. I was hoping it would soften but it hasn't. I am height-weight proportionate and the seat bolsters are too wide to hold me.

I have a hard time finding the right gear (including park). Go back to a tactile gear selector like in my 2002 JGC

Overview

Overall, how satisfied are you with the quality of your new vehicle?

If our team has any additional questions about your responses, would you accept further contact?

Printed User Guide covers the necessary features

Please rate your overall level of satisfaction with the Printed User Guide

Entertainment/Navigation System/Connectivity	
Please choose your cell phone brand	Nokia.
Please choose your cell phone carrier	Verizon Wireless.
Voice Activation / Recognition	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command.
What Can We Do Better?	
What has Chrysler done right?	Incredible ride quality for a truck.
Feedback/Concerns:	Rear hatch glass should open manually like in my 2002. Sport shift should have a disable switch - I often hit the paddle by accident. I will never use sport shift. Wind buffeting when the windows are down is incredible - the worst I have ever experienced. Gear Shifter should have tactile indicators. Side view mirrors are too high. For a shorter person, it completely blocks the 10 o'clock view or higher seat adjustment. Seat padding is hard.
Gear selector is difficult to operate (auto. trans.)	
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which position is the gear selector difficult to operate? (check all that apply):	Park (P).
Additional Comments:	No tactile indicators. I often think its in park when it is actually in reverse. While the jeep is running this is remarkably BAD.
To the best of your recollection, the trouble was first noticed:	At delivery.
Why is the gear selector difficult to operate?	Other (please describe).
Vehicle Issues/Things Gone Wrong

Gear selector is difficult to operate (auto. trans.)	
Please describe conditions when this trouble occurs:	I LIKE THE IDEA BEHIND THE ELECTRIC SHIFTER, BUT WHEN IN A RUSH TO GET OUT THE WAY OR MOVE THE VEHICLE AND CHANGE FROM FORWARD TO REVERSE, I END UP IN PARK MOST OF THE TIME AND THEN HAVE TO START ALL OVER. WHEN GOING FROM PARK TO DRIVE, CARE MUST BE TAKEN TO MAKE SURE YOU HAVE IT IN DRIVE. I LIKE THE CONCEPT, JUST AGGRAVATING AT TIMES.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs intermittently.
Why is the gear selector difficult to operate?	Other (please describe).
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Going into which position is the gear selector difficult to operate? (check all that apply):	Other (please explain in Additional Comments box below). THE SELECTOR IS AGGRAVATING WHEN GOING FROM FORWARD TO REVERSE. MOST OF THE TIME, IT ENDS UP IN PARK. DIFFICULT WHEN IN A HURRY TO GET IN RIGHT GEAR.

What Can We Do Better?	
What has Chrysler done right?	GREAT GAS MILEAGE. COMFORTABLE TO DRIVE. DRIVES AND HANDLES GREAT. FIRM SUSPENSION.
Feedback/Concerns:	WE HAVE EXPERIENCED SOME SMALL RATTLES AND SQUEAKS BUT NOTING MAJOR.

Turn signal control	
How much did the replacement cost?	Under \$100.
Where did you take your vehicle to have the component replaced?	Took to the dealer I purchased my vehicle from.
Approximately how many miles were on the vehicle at that time?	10,000-19,999.
When was the replacement made on your vehicle?	18-24 months into ownership.

Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).

About You

What price did you pay for your vehicle?	36,000
Vehicle fuel economy	3.
Convenience of dealership location	3.
Did you purchase or lease your vehicle?	Lease.
Primary vehicle you were considering:	M-Class.
	2015.
	Primary Considered Vehicle: New.
	Mercedes-Benz.
Which, if any, influenced your purchase decision? (check all that apply):	Value for the money.
	Features/Capabilities.
What is your average miles per gallon (MPG) with your vehicle?	23-24 mpg.
Vehicle styling	4.
Vehicle quality	5.
Is this your first new vehicle ever purchased / leased?	No.
Ability to test drive	5.
Please tell us about the vehicle you replaced (if applicable)	C-Class.
	Replaced Vehicle: Purchased Used.
	2014.
	Mercedes-Benz.
When considering this vehicle	Test drive the vehicle.
	Visit the dealership.
Vehicle availability	2.
Trade-in allowance	4.
Dealership treatment	5.
Price	3.
Vehicle performance	5.
Financing options	5.

Squeak/rattle/abnormal noises from door panels

To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Please describe conditions when this trouble occurs:	Hitting bumps on the highway
Additional Comments:	No additional concerns. Dealer removed panel and fastened a new tie-wrap. Problem appears to be fully corrected.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Please indicate which interior door panels had abnormal noises (check all that apply):	Driver's side front door. Drivers side kick-plate panel next to emergency brake had a tie wrap break causing a cable to rub against the plastic pane.
How often does this trouble occur?	Trouble occurs intermittently.

Overview

If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Which automotive publications do you subscribe to? (check all that apply)	Auto Week. Automobile. Car and Driver. Road and Track. Motor Trend.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Were the trouble(s) repaired or explained?	Fully.

Overview	
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).
Did you review the Printed User Guide?	Yes.
Was the trouble resolved to your satisfaction?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Did you review the Owner's Information DVD?	No.
Printed User Guide covers the necessary features	5 (strongly agree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Would you recommend this vehicle to family or friends?	Yes.
How many visits did you make to the dealer?	2 visits.

Vehicle Satisfaction Ratings	
Support for popular music/video formats	4.
Appearance of exterior paint	4.
Steering and handling (responsiveness, stability)	5.
How do you feel about the durability of your new vehicle?	5.
Operating controls while driving (gear selector, turn signals, horn, etc.)	2.
Engine exhaust sound	4.
What are your favorite parts of your new vehicle?	Comfort, never having to worry about the weather, cargo capacity for luggage for vacations
Rear view styling (rear fascia, bumper)	5.
Interior comfort, design and appearance of interior (overall impression)	5.
Seat adjustment and comfort	5.
Steering wheel adjustment	5.
Safety and visibility while driving	5.
Engine performance during acceleration	5.
Is there anything about your new vehicle you would like to see changed?	Please change the gear selection lever
How was your purchasing experience (the dealer/dealership)?	5.
What is your attitude overall towards your new car?	5.
What is your attitude overall towards the BRAND of your new car?	4.
Clarity of sound	5.
Integration with media players	5.
Front view styling (front fascia, hood, grille, headlight area)	5.
Wheels, rims, and tires appearance and styling	5.
Side/profile view styling (driver's side or passenger's side exterior area)	5.
Ease of using system displays while driving	5.
Navigation system route accuracy	5.
Exterior design and appearance (overall impression)	5.
Headlight illumination/performance during night-time driving	5.
Ride quality	5.
Vehicle storage and space usage	5.
Head/leg/foot room	5.
Location and usefulness of interior lighting	5.
Brake responsiveness/effort	5.
Overall audio, entertainment, and navigation system impression	5.
Integration with phones	5.
Climate control operation (function and ease of use)	3.
Ease of getting into and out of vehicle	5.
Interior noise level while driving	5.
Engine sound	5.
How do you feel about the VALUE of your new car? (i.e.	5.
Fuel economy and driving range	4.
Transmission gear change performance (smoothness)	5.
Difficult driving conditions (adverse weather, off-road)	5.

Other	
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Please describe conditions when this trouble occurs:	Hitting bumps at any speed
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

Other	
How often does this trouble occur?	Trouble occurs regularly.
Please describe the other trouble you experienced:	Suspension 'squeak' from rear of vehicle. When hitting bumps or simply pushing down on rear bumper, squeak was clearly heard both inside and outside of vehicle

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Other. Interior Trim/Storage/Windows.

What Can We Do Better?	
Feedback/Concerns:	Jeep needs to include more active safety features in it's vehicles whether as standard or options. For example, blind spot monitoring, ACC, Forward collision warnings, etc. I recently drove a new 2016 Cherokee I was considering purchasing (fully loaded Limited) and I did not like the way the Safety packages were offered and despite making 5 attempts, the dealer could not demonstrate that the parallel or perpendicular park assist worked properly. I would recommend making all of the tech except that option available (e.g. blind spot, FCW and ACC) in one package and the other 'nice to have' features like the parking assist packaged seperately. Also, the current electronic shifter is difficult to use and not at all intuitive in the Grand Cherokee. I also had it in my John Varvatos 300 and I hink it's a feature that is going away in 2016. I'm hoping there is some type of retrofit to ensure it goes into Park each time as I always have to make sure I double check it.
What has Chrysler done right?	We've had 14 Jeeps (10 Jeep Grand Cherokees and 4 Wranglers) and I'm always impressed at he quality of the Grand Cherokees, especially considering the price. I have several MB's and my wife and I both agree the Grand Cherokee Limited is at least as good and perhaps better than ML350's we have owned. Now, it's time to update as the current design has been out since 2011. Hoping for 2017!

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Just the gear selector. Also, it would be nice to have 'hard' buttons for the heated seats and steering wheels aside from the electronic display.

Welcome	
Please tell us how many miles are currently on your vehicle:	7,000-9,999.
Are you the primary driver of this vehicle?	Yes.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.

Abnormal Noises	
Abnormal Noises	Squeak/rattle/abnormal noises from door panels.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

No.

Connection problem happens when:

Starting up the system: cell phone is not automatically found and connected to the system.

How often does this trouble occur?

Trouble occurs intermittently.

Hands-Free Phone / Bluetooth system loses connection

Were you in the middle of a call?

No.

How often does this trouble occur?

Trouble occurs intermittently.

Connection problem happens on:

Bluetooth connection between cell phone and the radio.

Is there more than one phone paired to the vehicle?

No.

Hard controls/menus: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location

Additional Comments:

Some times the screen is blank (just background and top header) and can't access any controls on it until restart

Please indicate which of the following best describes your concern (check all that apply):

Difficult to use.

Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):

Power on/off, volume dial. often a delay in responding leading to changing it far beyond what was intended

Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):

Controls require too much attention (must take eyes off the road) to operate.

Front seat audio/entertainment/navigation system difficult to understand/use; in a poor location

Please indicate which of the following best describes your concern (check all that apply):

Difficult to use. The delay in response; the fact that it holds up using other features; requires too much attention away from road to make changes if need to switch between climate/radio/etc

Controls and Switches

Controls and Switches

Front heating, ventilation and air conditioning controls difficult to understand/use; poorly located.

Contact Me

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?

No.

Overview

Please explain further about your choice to recommend your vehicle:

Forgot to mention issues with the shifter - easy to put in wrong position i.e. not put it

Gear selector is difficult to operate (auto. trans.)

Going into which position is the gear selector difficult to operate? (check all that apply):	All positions.
Why is the gear selector difficult to operate?	Other (please describe).
Additional Comments:	This shifter was the cause of an accident I had with the vehicle! It is not intuitive, does not give appropriate feedback to the driver that they are in the desired gear. When you engage and shift forward from D to P it VERY often stops at N even with considerable pressure sliding it forward. I left the vehicle thinking I was in Park and

Gear selector is difficult to operate (auto. trans.)

	the vehicle rolled into another parked car resulting in \$3000 damage to both cars and an increase in my insurance rates. I have never had an accident in my life. Thank god it was not in the street where someone could have been killed. I realize this is a widespread problem that is being investigated by the NHTSA. It needs a recall before someone is killed and more people injured. I will be spreading the news via social media to alert as many prospective buyers as possible to the hazards of buying the Jeep Grand Cherokee and the other models that have this electronic shifter. I expect t recover compensation for the losses I have had, and an explanation to the insurance company of culpability to redress my 70% increase in insurance premium. Most importantly it needs to be addressed before more people are injured or killed. NOT HAPPY!
Please describe conditions when this trouble occurs:	This is a VERY BIG ISSUE! DANGEROUS shifter mechanism!
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Hesitation or delay when shifting between gears	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Maintaining a fairly constant speed on level roads.
	Hard acceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Additional Comments:	not sure
How often does this trouble occur?	Trouble occurs intermittently.
Going into which gear/gears does the trouble occur? (check all that apply)	Not sure. sometimes holds the present gear too long before shifting into next gear

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs intermittently.
Does the issue occur when speaking at regular volume?	Yes.
Sound quality is poor: (check one)	For the receiver of the call.
Please describe when this trouble occurs:	Other: Please describe when this trouble occurs.
Do you recall your cellular coverage at the time?	Partial cellular coverage.
At other times during use does your phone have poor call quality?	No.

Gear selector is difficult to operate (auto. trans.)	
Going into which position is the gear selector difficult to operate? (check all that apply):	Park (P).
	Reverse (R).
	Neutral (N).
Please describe conditions when this trouble occurs:	when shifting from and to park neutral and reverse it sometimes hard to know which gear you are in
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Gear selector is difficult to operate (auto. trans.)	
Additional Comments:	sometimes i think the car is shifting into reverse when i am actually shifting into park. sometimes when shifting from park or reverse to drive i am shif ing into neutral
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
Why is the gear selector difficult to operate?	Other (please describe).

Remote Features	
Remote Features	Remote phone/email notifications are broken/not working.

Automatic Transmission	
Automatic Transmission	Slips/will not engage gear properly/shifts erratically. Gear selector is difficult to operate (auto. trans.). Shift between gears is rough/harsh under normal driving conditions. Hesitation or delay when shifting between gears.

Detail on High Rated Items	
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	like the led and automatic dimmer
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	like the way the sound system sounds
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	has plenty of power for accelerating
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	used a couple of times and was very accurate. once it told of traffic problem

Shift between gears is rough/harsh under normal driving conditions	
Going into which gear/gears does the trouble occur? (check all that apply)	1st Gear. sometimes holds first,second or third gear too long 3rd Gear. sometimes when eccelerating to get lower gear surges forward 4th Gear. usually 3rd through 5 some imes when accelerating to get lower gear surges forward hard 2nd Gear. see above
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?. Not sure. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Hard acceleration. usually always at hard cacceleration Normal acceleration. sometimes at regular acelerations Long after vehicle start-up. intermittent but no ices more longtime after startup
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Additional Comments:	really not sure exactly when it started. thought it was the way the trans worked

Slips/will not engage gear properly/shifts erratically	
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Long after vehicle start-up. Hard acceleration. does happen at hard acceleration While driving on level roads. Normal acceleration. mostly at normal acceleration
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Going into which gear/gears does the trouble occur? (check all that apply):	4th Gear. 3rd Gear. 2nd Gear. 5th Gear.
Are you using your vehicle for towing when the problem occurs?	No.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

No Concerns	
Printed User Guide covers the necessary features	4 (agree).
What Can We Do Better?	
What has Chrysler done right?	Overall, the Grand Cherokee is a terrific vehicle. It is versatile, comfortable, has many great features, and is reliable. I especially like the UConnect system.
Feedback/Concerns:	I have one complaint. I do not like the shifter arrangement that does not move or click into position. If trying to do it quickly (e.g, backing out of a parking space and needing to quickly pull back in), it often takes 2 or 3 tries to get it into the proper gear.

Squeak/rattle/abnormal noises from center console

Please describe in the box below where from the center console the trouble with abnormal noises is located:	When it becomes cold outside, the center console will rattle. I have noticed I can stop the rattle by pressing on the back left section, near the gear shift mechanism.
To the best of your recollection, the trouble was first noticed:	More than 3 mon hs after delivery.
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Additional Comments:	This issue has happened less often since I discovered where to press down to stop it when it occurs.
Please describe conditions when this trouble occurs:	When it is cold outside.

Driving Mode Selector works, but is difficult to understand/use; is in a poor location	
<p>Please indicate why the selector is difficult to understand/use; in a poor location (check all that apply):</p> <p>Additional Comments:</p> <p>Please indicate which of the following best describes your concern (check all that apply):</p>	<p>Controls require too much effort/force to operate.</p> <p>Operation of key fob is confusing/doesn't make sense.</p> <p>Controls require too much attention (must take eyes off the road) to operate.</p> <p>NOTE: This issue relates to the gear shift mechanism, not the driving mode selector. The gear shift mechanism did not appear on the list of selections, so I chose this as the closest related option. The gear shift mechanism on this model of Grand Cherokee is miserable and Jeep should take active steps to make it more user friendly. I should not have to press the brake to switch from neutral to drive - this is dangerous in a car wash setting, for example. Also, it is not physically clear that the vehicle is or IS NOT in park, which can be dangerous if I don't pay special attention to the gear indicator. On several occasions, I have thought I put the vehicle in park and moved forward when I went to release the brake. Very bad feature!</p> <p>Difficult to use.</p>

Driving Mode Selector	
Driving Mode Selector	Driving Mode Selector works, but is difficult to understand/use; is in a poor location.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.
What Can We Do Better?	
What has Chrysler done right?	Overall, the vehicle quality is good and most features work well. The gear shift is a big minus, though.
Feedback/Concerns:	Come up with a fix for the gear shift mechanism and update the nav software to be more intuitive (which oddly was the case with the older, less pretty version).
Overview	
Please rate your overall level of satisfaction with the Smartphone Application Printed User Guide covers the necessary features Did you review the Owner's Information DVD? Please explain further about your choice to recommend your vehicle:	<p>3 (neither satisfied nor dissatisfied).</p> <p>4 (agree).</p> <p>No.</p> <p>This is my third Grand Cherokee, and overall, I have been satisfied. However, the issues with the shifting mechanism and poor nav system will prompt me to very closely evaluate before selecting another Grand Cherokee in the future. I will not buy a new one until these issues have been addressed; my hope is that will occur before my lease is up in two years.</p>

Features and Controls	
Features and Controls	Door locks/key fob entry system. Driving Mode Selector.

Hands-Free Phone / Bluetooth system loses connection	
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	This problem has occurred within the last week. When it occurs, the call reverts to the handset and the phone becomes unpaired. I am able to go to the setup screen and reconnect the phone by selecting it, and the call resumes. Obviously, this presents a risk to do while driving, and is frustrating both to the party on the other end of the call and me.
Were you in the middle of a call?	Yes, and did not transfer call to headset.
Is there more than one phone paired to the vehicle?	No.
Lost connection problem happens when:	In the middle of a call.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.

Key fob entry system works properly, but is difficult to understand/use	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. The buttons on the remote are flat and featureless, making it difficult to tell them apart by touch, for example at night or while keys are in my pocket.
Please indicate why the key fob entry system controls are difficult to understand/use; layout is poor (check all that apply):	Key fob buttons difficult to operate. See above.

Navigation system screen is in a poor location	
Additional Comments:	My 2013 Grand Cherokee had a much easier to use navigation interface. This interface is cumbersome and slow, causing user frustration. When traveling to another state, I have to switch the state before I can even input an address, rather than simply inputting a zip code and having it find the location. Very disappointing.

Navigation system works, but missing information; has incorrect information; gives wrong directions	
Additional Comments:	This happened within the last week.
Please indicate which navigation system item has trouble (check all that apply):	Navigation system provides wrong directions. See above.
Please indicate which of the following best describes your concern (check all that apply):	Navigation system gives wrong directions. On several instances, the Nav system will tell me I have arrived at my destination when I am still up to a half mile away. An example is 3106 Bean Oller Road in Delaware, OH.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The nav system is slow and cumbersome to use. Given my experience with the previous (2013) model, I was very surprised to find an INFERIOR experience. I was also very disappointed that my newer Jeep does not include traffic in the nav system, as well as the ability to actively reroute around traffic issues - if Google can do it on my phone, why can't my \$1,500 nav system?
You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.	As noted previously, the gear shifting mechanism and related performance is very poor and should be actively addressed and rectified.

Door locks/key fob entry system	
Door locks/key fob entry system	Key fob entry system works properly, but is difficult to understand/use.

Vehicle Issues/Things Gone Wrong

Appearance	
Appearance	Interior materials soils/scuffs too easily. Carpet has gaps/poor fit.

Carpet has gaps/poor fit	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe in the box below where on the carpet the trouble with excessive gaps/poor fit of materials is located:	In front/above accelerator and brake pedals, under front seats

AM/FM/HD/Satellite radio channels have poor or no reception	
Please describe conditions when this trouble occurs:	Normal driving and listening
Please indicate which frequency band has trouble (check all that apply):	FM. Sudden volume changes Satellite. Sudden volume changes
How often does this trouble occur?	Trouble occurs regularly.

Speakers cut-in/out	
Please describe conditions when this trouble occurs:	Normal use of radio or XM satellite radio - Antenna problem?
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Speaker trouble occurs:	At all volume levels.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate which media sources were being played (check all that apply):	Satellite Radio. FM.
Please indicate which speaker has trouble (check all that apply):	Other (please describe). Sudden volume increases and decreases, music not at all clear

Speakers have poor sound quality	
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate which media sources were being played (check all that apply):	AUX. iPad with bluetooth connection Satellite Radio. FM.
Trouble with speaker occurs:	At all volume levels.
Please indicate which speaker has trouble (check all that apply):	All speakers in the vehicle. The system in my 2006 sounded better
Please describe conditions when this trouble occurs:	Normal driving, normal listening volumes
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Did you review the Owner's Information DVD?	No.
Did you review the Printed User Guide?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Printed User Guide covers the necessary features	4 (agree).
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, have not had a chance/inconvenient location.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Would you recommend this vehicle to family or friends?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Gear selector is difficult to operate (auto. trans.)	
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
Going into which position is the gear selector difficult to operate? (check all that apply):	All positions. Uncertainty about what gear I'm in, as the shifter always returns to a center position. Just yesterday I thought I was in drive, and I started rolling backward (parallel parked on a hill), as I was actually in Neutral.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Center console is difficult to open/close	
How often does this trouble occur?	Trouble occurs regularly.
Please indicate why the center console is difficult to open/close (check all that apply):	Other (please describe). Center "Tray" loose, floppy, not needed. Opening to main storage not intuitive (far-left tab needs to be held while opening lid)
Please describe conditions when this trouble occurs:	All times
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Abnormal noises coming from under vehicle	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Noise sounds like (Check all that apply):	Thumping. Sounds like a loose suspension noise in the front left when going over bumps.
Please describe conditions when this trouble occurs:	While driving over bumps
From what area of the vehicle is the noise coming?	Not Known.
How often does this trouble occur?	Trouble occurs intermittently.
How loud is the noise?	Slight.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception.
Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Steering, Handling, and Ride. Interior Trim/Storage/Windows. Transmission and Drivetrain. Entertainment/Navigation System/Connectivity.
Interior materials soils/scuffs too easily	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe in the box below which material(s) have trouble with soiling/scuffing too easily:	Front door panels (lower) easily scuffed
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	1,000-2,999.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	No.

Squeak/rattle/abnormal noises from cup holders	
Please describe conditions when this trouble occurs:	Every time anything is in the front cupholder.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe in the box below where from the cup holder the trouble with abnormal noises is located:	Front cup holder squeaks when loaded with any type of bottle/can/water bottle. It appears that the bottom is not tight to the substrate below it. The rearward cup holder "floor" appears more solid, and there is no squeak.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
Noise and Vibration	
Noise and Vibration	Abnormal noises coming from under vehicle.
Operation and Functionality	
Operation and Functionality	Center console is difficult to open/close.
Hard controls/menus: Front Screen Display difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to use. Not all controls are accessible without the touch screen (heated seats), making it necessary to look at and toggle through touch screen steps.
Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).
Hands-Free Phone / Bluetooth	
Hands-Free Phone / Bluetooth	Hands-Free Phone / Bluetooth system voice activation doesn't recognize command.
Hard Controls/Menu	
Hard Controls/Menu	Hard controls/menus: Front Screen Display difficult to understand/use; in a poor location.
Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers cut-in/out. Speakers are not loud enough. Speakers have poor sound quality.

Is this your first new vehicle ever purchased / leased?	No.
Which of the following best describes the area you live in?	Rural.
Gear selector is difficult to operate (auto. trans.)	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	I had a problem with our Journey doing the same thing. Felt I had put the car in park but still in gear. Thought I had put the car in park the other day and started to get out of the car and it was in reverse and the car started moving backwards. Very scary. I feel the gear shifting should be redesigned before someone gets hurt.
Additional Comments:	Love the car other than this problem.
Why is the gear selector difficult to operate?	Other (please describe).
Going into which position is the gear selector difficult to operate? (check all that apply):	Park (P). Sometimes when moving to park it doesn't go all the way and stops in reverse.
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Welcome	
Please tell us how many miles are currently on your vehicle:	3,000-4,999.
Are you the primary driver of this vehicle?	Yes.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	No.

Overview

What have you used to view your DVD? (check all that apply)	Home DVD Player.
---	------------------

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?

No.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?

Other (please explain fur her, if applicable). During the dealers follow up phone call, I relayed my concerns to the dealer who was going to contact the service department, but I never heard back and haven't followed up myself.

Information on the DVD is easy to find and access

4 (agree).

Please rate your overall level of satisfaction with the DVD

4 (satisfied).

Would you recommend this vehicle to family or friends?

Yes.

If our team has any additional questions about your responses, would you accept further contact?

Yes, by e-mail only.

Please explain further about your choice to recommend your vehicle:

I love the features. It's a smooth ride.

Did you review the Owner's Information DVD?

Yes.

DVD format is easy to understand and use

5 (strongly agree).

Which automotive publications do you subscribe to? (check all that apply)

None or other (if other, please describe).

Overall, how satisfied are you with the quality of your new vehicle?

Satisfied.

Shift between gears is rough/harsh under normal driving conditions

Please indicate driving condition where the shifting trouble is noticeable (check all that apply):

Normal acceleration. Driving through parking lots, at low speeds, it shifts very hard.

Hard acceleration. I also notice that if I am accelerating quickly, there is a lag between shifts and it sound like the engine is revved too hard. It doesn't keep up with quick accelerations.

Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):

Not sure.

To the best of your recollection, the trouble was first noticed:

At delivery.

Going into which gear/gears does the trouble occur? (check all that apply)

1st Gear. When driving slowly and then slowly speeding up, it shifts really hard. Also have noticed it when backing up at times.

How often does this trouble occur?

Trouble occurs intermittently.

Approximate mileage when trouble was first noticed was:

0 - 1499 miles.

About You

Please indicate your occupation.

██████████.

Please indicate your gender

██████.

What is your current marital status?

Automatic Transmission	Gear selector is difficult to operate (auto. trans.).

Detail on High Rated Items	
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	The front seats are great, the rear seat sits straight up and down with no option to adjust. I'm glad I don't have to ride back there.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	This is my second Grand Cherokee. I love the styling, functionality, and price of this model.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	It's gorgeous!!

Overview	
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, the issue is related to the design of the vehicle.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Please explain further about your choice to recommend your vehicle:	I absolutely love my Jeep! I wish it had a CD player, but apparently I need to get with the times and learn how to transfer my CDs to an SD card.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).
Would you recommend this vehicle to family or friends?	Yes.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Overview

Did you review the Owner's Information DVD?

No.

Did you review the Printed User Guide?

No.

Gear selector is difficult to operate (auto. trans.)

Please describe conditions when this trouble occurs:

I push the gear selector forward and think I am in Park. I have to look at the indicator lights closely and find that I am often not in Park when I think I should be 0 - 1499 miles.

Approximate mileage when trouble was first noticed was:

How often does this trouble occur?

Trouble occurs regularly.

Going into which position is the gear selector difficult to operate? (check all that apply):

Park (P). I have to be very careful to make sure that the vehicle has gone into park. I have attempted to exit the vehicle twice, then realized that Park had not engaged.

Additional Comments:

During my test drive I actually got out of the vehicle in a parking lot and it began rolling forward because I had not selected Park when I thought I had.

Why is the gear selector difficult to operate?

Other (please describe).

To the best of your recollection, the trouble was first noticed:

At delivery.

Welcome

Are you the primary driver of this vehicle?

Yes.

Please tell us how many miles are currently on your vehicle:

1,000-2,999.

Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?

No.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.

While I do not like the looks of floorboards, I am considering adding them, because I have to slide over the edge of my seat for me feet to reach the ground (and I'm [REDACTED]). I am afraid this is really going to wear and deteriorate the edge of my seat.

About You

Vehicle availability	4.
Is this your first new vehicle ever purchased / leased?	No.
Primary vehicle you were considering:	Subaru.
	Primary Considered Vehicle: New.
What is your average miles per gallon (MPG) with your vehicle?	19-20 mpg.
Please tell us about the vehicle you replaced (if applicable)	Chevrolet.
	Replaced Vehicle: Purchased New.
What price did you pay for your vehicle?	\$43,000.00
Did you purchase or lease your vehicle?	Purchase.

What Can We Do Better?

Feedback/Concerns:	I think there is an investigation into 2015 jeep grand Cherokees. I would like to be informed as to what is happening with those investigation. I talked to service manager and he said he knew nothing about investigations, I did not seem to get anywhere with him.
What has Chrysler done right?	The vehicle is a very nice one. I have never had such a nice car but I don't think u should be hesitant on driving it when u paid over \$40,000.

Overview

Printed User Guide covers the necessary features	4 (agree).
Was the trouble resolved to your satisfaction?	No.
Please explain further about your choice to recommend your vehicle:	After what happened with my vehicle, I could not knowingly recommend another person to purchase a Jeep Grand Cherokee. I am hesitant about driving it, I guess u could say scared. My husband usually drives it. He purchased it for me.
Did you review the Printed User Guide?	Yes.
Were the trouble(s) repaired or explained?	Not at all (please explain further, if applicable). Nothing was done to my vehicle, they said it checked out fine.
How many visits did you make to the dealer?	1 visit.
Would you recommend this vehicle to family or friends?	No.
Did you review the Owner's Information DVD?	No.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from. I took my vehicle the following week after it happened. They said diagnostics checked out fine.
Please rate your overall level of satisfaction with the Printed User Guide	4 (satisfied).
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Printed User Guide format is easy to understand and use	4 (agree).
Information in the Printed User Guide is easy to find and access	4 (agree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).

Vehicle Satisfaction Ratings

Ease of using system displays while driving	3.
Integration with phones	5.
Is there anything about your new vehicle you would like to see changed?	I do not like the electronics gear shifter. I would like that to change if possible.
Vehicle storage and space usage	3.

Vehicle Satisfaction Ratings

What are your favorite parts of your new vehicle?

I love the heated seats, look of vehicle.

Other

Please describe the other trouble you experienced:

Electronic gear shifter did not engage into park. The car ran into my garage door. Gear shifter is sensitive, not a positive engagement.

To the best of your recollection, the trouble was first noticed:

1 to 3 months after delivery.

Approximate mileage when trouble was first noticed was:

1500 - 3999 miles.

Please describe conditions when this trouble occurs:

It occurred once, not aware of any conditions.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.

The electronic gear shifter is not safe and scares me.

Welcome

Please tell us how many miles are currently on your vehicle:

5,000-6,999.

Are you the primary driver of this vehicle?

Yes.

Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?

Yes.

Vehicle Issues/Things Gone Wrong

Continuous Quality Insight

Other.

Gear selector is difficult to operate (auto. trans.)

Please describe conditions when this trouble occurs:	all the time
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
Going into which position is the gear selector difficult to operate? (check all that apply):	Neutral (N). the gear select stick is terrible and counter intuitive. Recommend copying dodge with selection knob. the two sensitives in current layout is easy to get all gears wrong. Park (P). the gear select stick is terrible and counterintuitive. Recommend copying dodge with selection knob. the two sensitives in current layout is easy to get all gears wrong. Fur her I have thought i was in park and it actually was in reverse almost hitting passengers exiting. All positions. the gear select stick is terrible and counter intuitive. Recommend copying dodge with selection knob. the two sensitives in current layout is easy to get all gears wrong. Reverse (R). the gear select stick is terrible and counter intuitive. Recommend copying dodge with selection knob. the two sensitives in current layout is easy to get all gears wrong. Drive (D). the gear select stick is terrible and counter intuitive. Recommend copying dodge with selection knob. the two sensitives in current layout is easy to get all gears wrong. Manual sport mode, if equipped (M +/-). the gear select stick is terrible and counter intuitive. Recommend copying dodge with selection knob. the two sensitives in current layout is easy to get all gears wrong.
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
How often does this trouble occur?	Trouble occurs regularly.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Gear selector. Also adding a "towing package" should include an integrated trailer brake not just a harness hat needs installation.
You rated your purchasing experience (at the dealer/dealership) Low. Use this space to provide any specific comments you would like to share.	Jeep order delayed with no contact from salesman, manager or anyone. No one knew what the delay was for at the dealership, although i contacted a different dealership who informed me the reason for delay...honestly sales people and mangers were terrible...may have turned me off jeep entirely.

Exterior design and appearance (overall impression)	5.

Overview	
Please explain further about your choice to recommend your vehicle:	I would have gone with the Ram 1500 ecodiesel if i could do it again
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	No.
Would you recommend this vehicle to family or friends?	No.
Did you review the Owner's Information DVD?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, have not had a chance/inconvenient location.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe).

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Off-Road. Engine. Transmission and Drivetrain. Entertainment/Navigation System/Connectivity.

Vehicle exhibits poor traction on sand	
Please indicate the nature of the traction issue you experienced	The acceleration level is less than I expected.
Trouble occurs under these surface conditions (check all that apply):	Uphill. Bumpy or uneven surface. Sideslope. Other (please describe). Downhill. Level Ground.
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs at these speeds (check all that apply):	All speeds.
Additional Comments:	Need to change shifting logic while on sand and keep drive to the wheels. Currently tires spin, rpm increases, so it shifts to higher gear, causing the engine to bog and wheels to stop.
Please indicate how severe the issue is:	Much worse than expected. Early Gear Shift with tire spin, leads to bog down

Transmission and shifting are troublesome while driving on sand	
Trouble occurs under these surface conditions (check all that apply):	Uphill. Sideslope. Level Ground. Bumpy or uneven surface. Downhill.
Trouble occurs at these speeds (check all that apply):	All speeds.
Please indicate where you experience the issue most:	Setting off going uphill. Steady driving uphill. Slowing downhill. Setting off going downhill. Steady driving downhill. Slowing uphill.
Please indicate the nature of the transmission/shifting issue you experienced	The transmission shift strategy does not meet my expectation (automatic only).
How often does this trouble occur?	Trouble occurs regularly.
Please indicate how severe the issue is:	Much worse than expected. Needs change logic. Rpm up, gear shift, = bog down.

Engine makes abnormal/excessive noises	
Engine noise occurs after vehicle is started at:	Cold condition - first start of the day or after vehicle is off for 6+ hours. Sounds like a heat shield or skid plate has already come loose Hot condition - after vehicle is off for less than 1 hour. Sounds like a heat shield or skid plate has already come loose

Engine makes abnormal/excessive noises	
Engine noise occurs while vehicle is (check all that apply):	Warm condition - after vehicle is off for 1 - 6 hours. Sounds like a heat shield or skid plate has already come lose Cruising at a steady speed. Sounds like a heat shield or skid plate has already come lose Accelerating. Sounds like a heat shield or skid plate has already come lose Idling. Sounds like a heat shield or skid plate has already come lose
Engine noise occurs (check all that apply):	Within first 5 minutes after starting vehicle. Sounds like a heat shield or skid plate has already come lose
Engine noise sounds like (check all that apply):	Ticking/tapping. Sounds like a heat shield or skid plate has already come lose
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
How often does this trouble occur?	Trouble occurs regularly.
What type of fuel do you most often put into your vehicle?	Diesel.
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.

4WD selector works properly, but is difficult to operate/is in a poor location

Please indicate which of the following best describes your concern (check all that apply):	Difficult to operate.
--	-----------------------

Vehicle Performance driving on Sand

Vehicle Performance driving on Sand	Vehicle exhibits poor traction on sand. Transmission and shifting are troublesome while driving on sand.
-------------------------------------	---

Detail on High Rated Items

You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	Handles high crosswinds and gusts great. Rain is great too.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Initially had to get hood repainted for defect but now its great
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Driving vacant roads at night, great headlights range and clarity
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	Gear selector need re-design to be user friendly. Recommend selector knob like RAM, in the same position as gear selector is now
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Has a mean look

Engine Noise (abnormal)

Engine Noise (abnormal)	Engine makes abnormal/excessive noises.
-------------------------	---

Welcome

Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	More than 10,000.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	No.

Automatic Transmission

Automatic Transmission	Gear selector is difficult to operate (auto. trans.).
------------------------	---

Engine Starting (hard to start/will not start)

Engine Starting (hard to start/will not start)	Engine stop/start function works, but is difficult to understand/use.
--	---

Entertainment/Navigation System/Connectivity

Entertainment/Navigation System/Connectivity	the antenna location behind/above rear view makes sun shades and dash cams impossible. Also Uconnect/satellite connections should be able to be disabled via circuit breaker or hard disconnect
--	---

Engine stop/start function works, but is difficult to understand/use

Please indicate which of the following best describes your concern (check all that apply):	Difficult to understand. During engine start have accidentally stopped engine because seat has not moved and or poor display Difficult to use. You get in and seat is all the way back you press start it moves the seat forward where you can actually reach the pedals then you have to have foot on brake to start. should be able to push to start even with foot off brake. The vehicle is protected by safety features that require brake press to put in gear.
--	--

4WD Controls

4WD Controls	4WD selector works properly, but is difficult to operate/is in a poor location.
--------------	---

Contact Me

Overview

Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?

No, the issue is related to the design of the vehicle.

Overall, how satisfied are you with the quality of your new vehicle?

Very satisfied.

If our team has any additional questions about your responses, would you accept further contact?

Yes, by e-mail only.

Did you review the Printed User Guide?

Yes.

Please provide feedback on how Chrysler can improve the DVD

talk to the wife she viewed it

Which automotive publications do you subscribe to? (check all that apply)

None or other (if other, please describe). I view them do not subscribe to them

Please provide feedback on how Chrysler can improve the Printed User Guide

my wife read the whole guide

Would you recommend this vehicle to family or friends?

Yes.

Did you review the Owner's Information DVD?

Yes.

Printed User Guide format is easy to understand and use

4 (agree).

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?

Yes.

Overview	
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
Detail on High Rated Items	
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	seat is uncomfortable for me
Gear selector is difficult to operate (auto. trans.)	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Going into which position is the gear selector difficult to operate? (check all that apply):	Park (P). going into park Neutral (N). its to easy to go into neutral while driving and once thedre getting back into drive Drive (D). sometimes if not careful will go into s Other (please describe).
Why is the gear selector difficult to operate?	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs intermittently.
Additional Comments:	you have to pay way to much attention with the selector, ligh ing on dash can not be seen in the daytime and the selector letters can not be read in the daytime when its bright outside
Please describe conditions when this trouble occurs:	going to park when stopping jeep wife has left it running in reverse

Gear selector is difficult to operate (auto. trans.)	
Going into which position is the gear selector difficult to operate? (check all that apply):	All positions. Shifting from park, to drive and reverse takes considerable effort. Would be better if there was a more tradition means of shifting vice the electronic selection. Make the user double check the indicator to see if the vehicle is in park, drive or reverse.
Why is the gear selector difficult to operate?	Gear selector requires too much effort/force to operate.

Welcome

Interior noise level while driving	5.
Ride quality	5.

What Can We Do Better?

What has Chrysler done right?	Just about everything except the electronic shifter.
Feedback/Concerns:	Fix the darn electronic shifter - give it more noticeable positions that can be determined by "feel" rather than having to look to see what position it's in. Eliminate the need to engage brake for certain position changes - such as rolling through an automatic car wash in neutral but having to engage the brake in order to shift into drive when finished.

Shift between gears is rough/harsh under normal driving conditions

Shift between gears is rough/harsh under normal driving conditions	
Approximate mileage when trouble was first noticed was:	20,000-29,999.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe conditions when this trouble occurs:	Mainly highway under normal conditions
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Going up an incline. Maintaining a fairly constant speed while driving on steep/hilly roads. Long after vehicle start-up.
How often does this trouble occur?	Trouble occurs intermittently.
Going into which gear/gears does the trouble occur? (check all that apply)	Not sure. Occasionally while driving, shifts will feel clunky and not smooth. Problem is very infrequent.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle:	40,000-49,999.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	No.

Overview	
Please explain further about your choice to recommend your vehicle:	Great handling, solid chassis, V6 power is quite adequate, attractive design, Altitude package is bold and aggressive yet provides a good value.
Please rate your overall level of satisfaction with the Printed User Guide	5 (very satisfied).
Which automotive publications do you subscribe to? (check all that apply)	None or other (if other, please describe). I was a long time subscriber to Car and Driver many years ago.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Did you review the Owner's Information DVD?	No.
Printed User Guide covers the necessary features	5 (strongly agree).
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Would you recommend this vehicle to family or friends?	Yes.
Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?	No, the issue is related to the design of the vehicle.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Printed User Guide format is easy to understand and use	5 (strongly agree).
Information in the Printed User Guide is easy to find and access	5 (strongly agree).
Did you review the Printed User Guide?	Yes.

Detail on High Rated Items	
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Very sure footed, responsive, and fun to drive. Test drove a Toyota 4Runner and hated it - very unresponsive in comparison- like driving an aircraft carrier.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Really like the black 20" wheels with the Altitude package.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	Chassis is built like a tank.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Very quiet interior
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	Altitude package was a great value - good solid SUV with sunroof, heated seats, 20" wheels, power lift gate - and out the door for \$35k. Can't beat that!
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	For a base audio system it sounds very good. Love the uconnect 8.4 interface.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Love the crystal black metallic color with the black wheels.

About You	
Secondary vehicle in your household:	Secondary Household Vehicle: Purchased Used. Porsche. 928 S4.
What is your average miles per gallon (MPG) with your vehicle?	21-22 mpg.
Please indicate your occupation.	Executive / Managerial.
Which of the following best describes the area you live in?	Suburban.
Did you purchase or lease your vehicle?	Purchase.
Please indicate your occupation status.	Employed.

About You	
How may children 17 or under live in your household?	0.
Primary vehicle in your household:	Elantra. Hyundai. Primary Household Vehicle: Purchased New.
Please indicate your highest education level	Graduate degree.
Please indicate your ethnicity	
What is your current marital status?	.
What is your primary language?	English.
Please indicate your gender	.
Please indicate the primary driver's age.	40 - 49.
What is your total household income (before taxes)?	\$150,000 - \$199,999.
What year were you born?	

Air filter	
Approximately how many miles were on the vehicle at that time?	30,000-39,999.
How much did the replacement cost?	Under \$100.
When was the replacement made on your vehicle?	12-18 months into ownership.
Where did you take your vehicle to have the component replaced?	Took to a different dealer than he one I purchased my vehicle from.

Gear selector is difficult to operate (auto. trans.)	
Going into which position is the gear selector difficult to operate? (check all that apply):	Drive (D). Park (P). Neutral (N). Reverse (R).
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Normal conditions. Shifter is very vague, easy to select position other than what you intended. Do NOT like having to engage brake to shift from neutral - like rolling out of a car wash. This electronic shifter is easily my least favorite feature of the vehicle - I can't stand it and much prefer the 5spd automatic in my previous 2011 Grand Cherokee.
Additional Comments:	Normal conditions. Shifter is very vague, easy to select position other than what you intended. Do NOT like having to engage brake to shift from neutral - like rolling out of a car wash. This electronic shifter is easily my least favorite feature of the vehicle - I can't stand it and much prefer the 5spd automatic in my previous 2011 Grand Cherokee.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Seat Squeak/Rattle	
Please indicate which seat has a squeak/rattle (check all that apply):	Front passenger seat. Not sure if it's he seat or the unibody, but there's a squeak in that area when occupied.
How often does this trouble occur?	Trouble occurs regularly.
Trouble occurs under these surface conditions (check all that apply):	Other (please describe). More noticeable when turning, so could be seat or unibody flex.
Approximate mileage when trouble was first noticed was:	20,000-29,999.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Seat Squeak/Rattle	Seat Squeak/Rat le.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Just the poorly designed electronic shifter as previously mentioned numerous times in his survey.

Automatic Transmission	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.). Shift between gears is rough/harsh under normal driving conditions.

Vehicle Issues/Things Gone Wrong	
Continuous Quality Insight	Seats. Transmission and Drivetrain.

Engine Components	
Engine Components	Engine oil / filter. Air filter.

Contact Me	
Based on the feedback you provided, would you like someone from Chrysler	No.

Gear selector is difficult to operate (auto. trans.)

How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which position is the gear selector difficult to operate? (check all that apply):	All positions. yes the system is flawed for all positions and has resulted in damage to the jeep. It could have been worse. Terrible design!
	Drive 3 (3). see above
	Drive 2 (2). see above
	Drive (D). see above

Gear selector is difficult to operate (auto. trans.)	Neutral (N). hard to tell what gear. daughter used car and thought it was in one gear and was in another. damaged car!
	Reverse (R). same as above
	Manual sport mode, if equipped (M +/-). don't like it
	Park (P). the way the shifter works you can be in reverse and think you are in park
Additional Comments:	It's a dangerous design and I know you've had complaints. My 30 year daughter had an accident after I specifically warned her. It is a ridiculous design. Otherwise it's a wonderful vehicle but I'm thinking we should have purchased the Lincoln MKX
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
Please describe conditions when this trouble occurs:	anytime you shift

Did you review the Owner's Information DVD?	No.
Please explain further about your choice to recommend your vehicle:	I have had many problems with my Grand Cherokee. It is extremely disappointing the quality issues in a \$50K vehicle. I would not buy another Jeep.
How many visits did you make to the dealer?	5 or more visits.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Speakers rattle	
How often does this trouble occur?	Trouble occurs regularly.
Please indicate which media sources were being played (check all that apply):	FM. USB Drive. Satellite Radio. Telephone call. Bluetooth Streaming.
Speaker trouble occurs:	At all volume levels.
Please indicate which speaker has trouble (check all that apply):	Front passenger's side speakers. Front driver's side speakers.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe conditions when this trouble occurs:	The bass must be turned down to prevent rattling.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
USB connection is broken/not working	
How often does this trouble occur?	Trouble occurs regularly.
Please describe the trouble you experienced (check all that apply):	Other (please describe). USB stopped working and had to be replaced.
Please describe conditions when this trouble occurs:	See above
Where is the location of the media port?	Center console. USB stopped working and had to be replaced.
Detail on Low Rated Items	
You rated transmission gear change performance (smoothness) Low. Use this space to provide any specific comments you would like to share.	Gear shifter is terrible. Many problems with gear shifting.
Heater takes too long to get hot	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please indicate typical weather conditions when heater trouble occurs (check all that apply):	All weather conditions.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please describe conditions when this trouble occurs:	See comment for cold
Liftgate	
Liftgate	Liftgate latch is broken/not working properly.
Liftgate latch is broken/not working properly	
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	Less than 10,000.

Liftgate latch is broken/not working properly	
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.
Please describe conditions when this trouble occurs:	If the lift gate is closing as the vehicle is starting, the lift gate will close and latch, however, the driver display shows the lift gate is not latched. It has to be reopened and closed again to clear the drive let display.

Air conditioner takes too long to get cold	
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	All weather conditions.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Changing the temp to hot or cold. Gradually changing temp doesn't drive immediate change. Then temp suddenly gets very hot or cold. No gradual change.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

About You	
Did you purchase or lease your vehicle?	Lease.
What is your average miles per gallon (MPG) with your vehicle?	19-20 mpg.

Slips/will not engage gear properly/shifts erratically	
Going into which gear/gears does the trouble occur? (check all that apply):	Other (please describe). Vehicle shifted into Reverse from Park while I was outside of the vehicle. Caused damage to my neighbors house and my vehicle! Took to dealership and required software update. Current HTSB investigation underway for transmission shifting into gear.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Other (please describe). Vehicle was parked and at a complete stop. Engine was running.
How often does this trouble occur?	Trouble occurs intermittently.
Approximate mileage when trouble was first noticed was:	Less than 10,000.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Other (please describe). All
Are you using your vehicle for towing when the problem occurs?	No.
To the best of your recollection, the trouble was first noticed:	9-12 months into ownership.

Welcome	
Are you the primary driver of this vehicle?	Yes.
Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?	Yes.
Please tell us how many miles are currently on your vehicle:	10,000-19,999.

Operation and Performance	
Operation and Performance	Heater takes too long to get hot. Air condi ioner takes too long to get cold.

Touchscreen Controls/Menu: Front Screen Display is broken/not working	
Please indicate your concern with front screen display (check all that apply):	Other (please describe). The screen has frozen on multiple occasions and I have receive do the message "There is an problem with the head unit. Please contact dealership." My entire touchscreen radio had to be replaced twice.
Please describe conditions when this trouble occurs:	See above
How often does this trouble occur?	Trouble occurs intermittently.

Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.

Detail on High Rated Items	
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	Nice room in front and back... My Audi didn't have the interior room hat this auto provides
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	Great Interface. Easy to use buttons on steering wheel, dials or touch controls
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	Great V6 package
You rated difficult driving conditions (adverse weather, off-road) High. Use this space to provide any specific comments you would like to share.	Love the option to choose between all wheel and two wheel to save myself some \$ on long distance drives
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	My Dealer and the salesman con inue to go he extra mile.... I love the value added to my already posi ive impression of the auto.
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	Fine sounding system
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Work on the shifter and adding an option to take us out of all wheel drive..... I will buy more of the same vehicle.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	works well with Blue Tooth
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	Digital settings are awesome.... I can choose my "look"
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Great Dealer! Kunes Jeep in Elkhorn and my salesman Ryan is the reason I purchased a Jeep.... I will purchase and have recommended them already... my group is purchasing new and used from these group.
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	Black rims a little young for me, but my package (altitude was very affordable compared to Overland or Summit Series
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	Having the Eco button helps
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	Very happy with the fit and finish.... as an owner of Audi, Saab, GM, GMC.... this is my first Chrysler and I like it!
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	Rear lift gate window should open. The fascia on the window it too tall, I had to purchase a new roof rack to fit this vehicles... the wing sticks up over 9 inches and wouldn't allow my old roof ski box to lock onto the molar luggage rack system.

Overview

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

If our team has any additional questions about your responses, would you accept further contact?

Yes, by phone only.

Did you review the Owner's Information DVD?

Yes.

Did you review the Printed User Guide?

Yes.

Please rate your overall level of satisfaction with the DVD

5 (very satisfied).

Would you recommend this vehicle to family or friends?

Yes.

Printed User Guide covers the necessary features

4 (agree).

Please rate your overall level of satisfaction with the Printed User Guide

4 (satisfied).

Which automotive publications do you subscribe to? (check all that apply)

Car and Driver.

Motor Trend.

Road and Track.

Overall, how satisfied are you with the quality of your new vehicle?

Satisfied.

Printed User Guide format is easy to understand and use

4 (agree).

Information in the Printed User Guide is easy to find and access

4 (agree).

DVD format is easy to understand and use

5 (strongly agree).

Information on the DVD is easy to find and access

5 (strongly agree).

What have you used to view your DVD? (check all that apply)

Computer/laptop.

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?

Yes.

Have you taken your vehicle to a dealer to have your trouble(s) corrected or explained?

No, the issue is related to the design of the vehicle.

Welcome

Has this vehicle been taken to a dealer to have any trouble(s) corrected or explained?

No.

Are you the primary driver of this vehicle?

Yes.

Please tell us how many miles are currently on your vehicle:

0-999.

Vehicle Issues/Things Gone Wrong

Continuous Quality Insight

Other.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.

The only thing we noticed is the left side of the dash looked like it was forced in during installation and has some creases. The other thing is the glare on the windshield is really bad on cloudy days. The reflection of the dash and side view mirrors on the windshield can be problematic.

Contact Me

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?

No.

Other

Please describe the other trouble you experienced:

I would reduce the width of the car by 1.5". It would be easier to get into garages parking spaces and down narrow city streets

What Can We Do Better?

Feedback/Concerns:

Just the size of the vehicle

What has Chrysler done right?

A beautiful elegant design, good power for a 6c and love the blind spot monitor and backup warning features.

Gear selector is difficult to operate (auto. trans.)

Please describe conditions when this trouble occurs:	Car is not in selected gear
Going into which position is the gear selector difficult to operate? (check all that apply):	Reverse (R). Drive (D). Park (P). Neutral (N).
Additional Comments:	If you barely tap the shifter while driving car slips into neutral. Car not in park when stopped.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Electronic shifter is terrible. Rough acceleration on a 40k price point vehicle is unacceptable. The feel of drag on my head when going down a steep hill and decelerating is unnerving .
