CONTACT UPDATE - Customer was contacted today at 2:34PM.

Customer was provided with agent's extension: 40766.

Writer contacted customer. Customer stated that she feels unsafe in her

vehicle DLR stated they would buy back the vehicle for 2500 dollars. Customer inquired about other vehicles with the same issue. Customer does not want vehicle. Writer advised of NCDS number. Writer advised she will follow up 10/12 to see if customer wants to go through with repairs. Customer contacted agent left message for a call back at [REDACTED] customer called for more explanation on why this NCDS was offer to them by the CM she spoke with today, agent advised why and advised what the CM is here for and why they would of advised them of this.

Briefly summarize why the customer is contacting Chrysler: Customer called in to see if there was a recall coming up on the ABS braking system in November. Customer stated that on all the sites she looked up that Chrysler is unaware about the recall on ABS taking out the instrument panel and having the ABS braking system lock up driving down the road.

Briefly summarize what the customer is expecting: Customer wanted to know if there was a recall coming out in November for that.

Agent advised customer that as of today there is no recall coming out in November. Agent advised customer that all her recalls where complete. Writer contacted customer. Customer stated that she contacted NCDS and the DLR stated there is not a current repair for the vehicle. Writer advised that if a recall comes out the customer will be notified. Writer advised since there is no repairs the case will be closing. Writer advised that customer can call brand line for further concerns. CLOSED LOOP UPDATE - no need for additional follow-up.

Status update provided via email to the following email address:

Hi Mr.

I am following up with you regarding a survey you recently completed regarding your 2015 Jeep Grand Cherokee. We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.

I see by your survey that you have taken your vehicle to the dealership to have the concerns diagnosed. If you are still having a concern we recommend contacting your authorized dealership to arrange an appointment for a diagnosis on the issue.

Once you have been to a dealer to have your vehicle concerns diagnosed, if you require further assistance from Jeep, please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Jeep Customer Assistance at: 877-426-5337.

Our dealerships have the factory training, equipment and information

available to them to diagnose and correct problems with our vehicles.
Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.

Thank You,

Barb

***** EMAIL BRIEF DESCRIPTION CONTENT *****

2015 jeep 1C4RJCF7FC

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

vehical does not shift into park. The dealer informed me that you have to press the brake firmly, push the button and press the lever into park. Every vehical I have owned in over 60 years has not had this problem. When you think you are in park it may be in neutral, reverse or whatever. You can exit the car and it may still be on. I justed stopped at the dealer to mentioned this for the second time and when I exited the vehical it was in neutral and rolled back. I have visited with others and know this is a problem. You now have hard copy on my issue and if I have a serious problem before I buy something else this fall I will be contacting you. I am sure this is a wide spread problem you don t want to address Ron Stevens

*****END OF CUSTOMER EMAIL*****

Dear

Thank you for contacting the Jeep Customer Assistance Center.

We would like to apologize for the delayed response to your email.

We are sorry to learn of the shifting concern you are having and we appreciate the time and effort you have taken to bring this matter to our attention.

The owner information we have on file does not match what was sent in your email. Please reply to this email to confirm the correct owner information so that we may keep our records up to date.

We will have your case sent to the Case Management team for further assistance. They will be in contact with you as soon as possible.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).

Sincerely,

Victoria

What happened?: Customer states he went to gas station and went in to get lottery tickets. While in store vehicle rolled forward and hit structural part of the store. Customer is wondering how the vehicle could have gotten that much momentum in 20 feet and on an upgrade. Customer is sure he shut vehicle off. Customer was able to get video footage from gas station.

***** EMAIL BRIEF DESCRIPTION CONTENT *****

Electronic Shifter

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

Is jeep going to do anything to replace the electronic shifter in Jeep Grand Cherokee. I love my Jeep but hate the shifter. It is just plain dangerous.

Already got out of my vehicle while it was still running and in reverse. Thought I was in park and had shut car off, but didn't. Trying to shift from neutral to drive after going through the car wash and the car behind me almost hit me. The guy behind me thought I was stupid hitting brakes so

I could get the stupid vehicle back in drive. I know you probably think I am just another stupid customer, but I am not. I have never sent a complaint to anyone before this. The next contact will be the NTSB with a request they investigate.

*****END OF CUSTOMER EMAIL*****

Dear,

Thank you for contacting the Jeep Customer Assistance Center in regards to your electronic shifter concern.

We certainly appreciate the opportunity to review your recent email and again apologize for the issues you have experienced.

We appreciate the time and effort you took to tell us of your dissatisfaction in our product.

In order for us to further assist you, we need to verify if your vehicle has been diagnosed in the last 30 days at a certified Chrysler dealership. If it has been diagnosed, please provide the name of the dealership, and the individual you have been working with.

If you have not had the vehicle diagnosed, please ensure you have a diagnosis completed. You can visit Jeep.com and use the Find a Dealer link to locate the nearest Chrysler dealership in your area

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).

Sincerely,

Jenna

Writer contacted the DLR and spoke to Megan who stated the customer s vehicle is currently at the DLR. Writer inquired if she can get an update and writer was sent to voice mail. Writer left a message asking for an update.
CONTACT UPDATE - Customer was contacted today at 9:17 AM
Customer was provided with agent s extension: 40598.
Writer contacted customer. Customer stated the problems started a few months ago when the customer tried to shift the vehicle in reverse the gear selector will say it s in reverse, but the transmission just rev s up. Customer tried putting the vehicle into park and the gear selector said the vehicle was in reverse. Customer stated this happened 8 times in one day. Sometimes the transmission doesn t engage and customer hears a clicking noise and the check engine light comes on. Code that pops up is P1B14. Customer s vehicle was brought to the DLR on 11/14/15. Customer s vehicle has had the gear selector, valve body, and computer updated and problem still is not resolved. Customer has been working with Service Advisor Kristen. Writer inquired what expectations are and customer stated that he wants his vehicle repaired with a new transmission. Writer advised that she wants to send over an unresolved concern and get internal resources involved. Writer advised that she would like to follow-up with the customer no later than 11/18/15.

Corporate - Product Information - Default - Default - Default	Customer inquired about vehicle information.
Product - Transmission / Transaxle - Unknown - Slips - Default	Transmission supposedly slips out of gear.
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler:

Customer have noticed on two occasions the transmission slipping out of gear, but not create any grinding noise as expected. Customer was in vehicle and had noticed that indicator light revealed gear was in reverse when it should have been in drive.

Furthermore, customer had noticed the gears in park, reverse, and neutral when they should not be in these gears. Customer also inquired about the paddle-shifting and engine oil additives.

Briefly summarize what the customer is expecting:

Customer is expecting advice on what to do next. Customer would like an answer for vehicle information.

Agent advised customer that if the transmission is slipping then it should be brought to the attention of a dealership, whether a grinding noise was made or not. Agent consulted user's guide and informed customer of the instruments used for paddle-shifting and manual upshifting and downshifting. Agent then explained that some additives can be used for chassis, engine, and other fluids. Customer understood.

Survey bypass. No diagnosis.

CAIR ESCALATION UPDATE

SEE STAR [REDACTED] INFORMATION

Status update provided via email to the following email address:

[REDACTED],

Hello, my name is Debbie with Jeep and I have been assigned as your customer advocate. This email is confirmation that your case, 28271489, was successfully escalated to me I will be calling you at your preferred number, [REDACTED] with updates and to check on repairs after the vehicle is completed. My office hours are 8:00 AM 4:00 PM (Eastern Time). My contact information is 800.763.8422 EXT 40541.

Thank you for being with Jeep

End of Status Update

Enhanced Customer Satisfaction Team (ECS) *

CONTACT UPDATE - Called [REDACTED] customer to advise that writer is calling to update customer on the customers concern. Customer advised writer that she did not purchase a new vehicle to have so many issues since the purchase of the vehicle with the check engine light on. Writer advised customer that writer did send the case up to a TS, but the tech is not able to duplicate customers concern. Customer advised writer that it would not come out of park so she had to turn the vehicle off, and wait 10 minutes before it would go into gear and then it started to make noise. Writer advised customer is what the tech and TS are working on. Writer inquired on if the customer needed a rental. Customer advised writer if they are going to keep the vehicle longer yes. Writer advised customer that writer did authorize rental so writer will call the dealer and advise that the customer may need a rental.

Left message for Joe sa that if the vehicle is going to be in longer then today, she will need a rental or loaner.

CAIR ESCALATION UPDATE

SEE STAR CASE# [REDACTED] FOR INFORMATION

AJDA M DOTDAY called, requesting her Customer Advocate. Writer advised that the CA was unavailable and customer expressed her frustration that she needed a loaner vehicle and disconnected the call.

Status update provided via email to the following email address:

DM1312@chrysler.com,EG704@chrysler.com,kf270@chrysler.com

Hi,

Please call Ms [REDACTED] at your earliest convenience. Thanks.

End of Status Update

Called Joe sa to check on customers vehicle. Joe sa advised writer that they are replacing the electronic shifter module and then test drive vehicle. Joe sa advised writer that if this works they will be able to release vehicle to customer. Customer was put in a rental.

Left message [REDACTED] for customer that writer spoke with Joe sa and was advised that the customer did get a rental. Writer advised customer in message that the dealer is replacing the electronic shifter module and them will test drive the vehicle and if all goes well the customer should be able to pick the vehicle up today. Writer advised in message that writer will follow up on 12-2.

Customer left message for writer to call him.

Called [REDACTED] customer who advised writer that she is not happy with the dealerships customer service and with Chrysler, and will never purchase another vehicle from Chrysler. Customer advised writer that she had to wait an hour for a rental and having to go back and forth to the dealership is getting so bad. Customer advised writer that the check engine light keeps coming on. Customer advised writer that she does not think they even replaced the catalytic converter, and her dad said it is a new vehicle and they shouldn't have to. Customer advised writer that she wants out of the vehicle and never wants to deal with Chrysler again. Writer advised customer that she is with the ECS program because of all the problems. Customer advised writer she did not care she wants out of the vehicle. Writer advised customer that writer will send in for investigation. Writer verified customers phone number and email. Customer advised writer that she does not know where the email writer got the email, but her email is a [REDACTED]

Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle's repair history to determine if their request merits further action and that due

to the nature of their request, it will require a call back which will take

place within 1-2 business days. The outcome of the review does NOT determine Lemon Law eligibility.

Preferred Morning/Midday call back number is [REDACTED]

Corporate - Survey By-Pass - No Diagnosis - Default - Default	

***** Below Customer Contacted for Documentation Request *****

on 2015-11-30 @ 13:22

Briefly summarize why the customer is contacting Chrysler: Customer called stating that she is having issues with the vehicle.

One of the issues is that the shifting is dangerous. She states that she believes that she is in park and she is actually in reverse. She states that this is dangerous.

She also states that as she is driving that if she touches any part of the grey buttons near the top the vehicle goes to another gear which she states is dangerous as well.

The third issue that she finds dangerous is the fact that the gas pedal and the accelerator pedal are too close together.

Briefly summarize what the customer is expecting: Customer wants out of the vehicle

Customer states that the dealership is willing to get her out of the vehicle but has advised her that she will need to pay more which is unacceptable.

Because customer finds that hitting the button too hard agent asked if customer has taken to the dealership to see if the vehicle is operating as designed.

Customer states that she will take the vehicle to service so that they determine if this is a manufacturing defect. (She states she has to press the shifter button very hard) or to see if the vehicle is operating as designed.

Agent advised customer that if it is operating as designed that there is very little we can do at this side.

Customer is going to take to the dealership for diagnosis.

No diagnosis - reassign for survey by pass

Corporate - Property Damage - Default - Default - Default	
Product - Unknown - Unknown - Accident - Default	

Briefly summarize why the customer is contacting Chrysler:

Customer is calling today because last Saturday his vehicle rolled out of park and hit his neighbors car. There is 507\$ damage to his vehicle s bumper and 437.13 on the neighbors vehicle. Customer is calling to report that his vehicle has a safety hazard as this is not the first time he s experienced this, but luckily he was able to stop the vehicle last time before it hit anything.

Briefly summarize what the customer is expecting:

Customer is looking for options and information.

*

Agent stated he would document the situation for the customer and get it investigated at his request. Agent collected the information as supplied. Customer is concerned that other vehicles in this market are experiencing this situation and needs to speak to an investigator. Agent stated he would get it into the right hands for the customer. Customer thanked agent and ended call.

Product - Drivability - Unknown - Sudden Acceleration - Default	vehicle accelerated on its own after jumping into drive
Corporate - Property Damage - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler:

Briefly summarize what the customer is expecting:

Customer called to discuss issue with the vehicle. Customer stated that the vehicle had shifted from park into drive on its own and then accelerated. Customer stated that his wife ended up going over their curb and hitting their bushes. Customer stated that his wife is refusing to drive the vehicle and wants it replaced or purchased back. Customer stated that they just purchased the vehicle and when he spoke with the Sales Manager they advised him to call CAC to speak with the buy back department. Agent advised customer that he would have to get the vehicle to the DLR to have the service department diagnose the issue. Agent advised customer that they will have the case escalated to the department that will review the case and he will receive a callback within 2-3 business days to discuss issue further. Agent then transferred customer to roadside to have vehicle towed to the DLR.

Customer informed a call back is required and will take place within 1-2 business days.

Who has possession of the vehicle? (Owner/Dealer/IRF) DLR

Is this a request for Lemon Law, buy-back or replacement? buy-back

Reassigned to 91L

This vehicle does not meet the criteria for escalation to 91L.

Briefly summarize why the customer is contacting Chrysler: Customer called in wanting to get an update on the case. Customer said his wife doesn't feel safe and is worried about the shift movements in the car.

Briefly summarize what the customer is expecting: Customer was seeking an update on the case. Agent advised customer that this vehicle did not meet the requirements for lemon law and called over to DLR and spoke with SA Dave. SA Dave informed agent the car is sound it's just a lack of knowledge on the consumers end and that they are more than willing to show them how the Sport shifting works with this vehicle or any other concerns they have with the vehicle. SA Dave was expecting to hear from customer and hasn't heard anything yet. Agent advised customer to work with their DLR and that they want to truly help out the customer.

Hi, my name is Catherine with Chrysler Customer Care, How may I help you today?

Catherine: hello

Hello... I am writing about a complaint I have with my NEW Jeep...

Catherine: I would be happy to assist you with this.

Catherine: I am sorry you are having an issue.

I have a 2015 Jeep Grand Cherokee Limited. On Oct. 17, it rolled away after being shifted into park. I did put the gear shift into park. The accident caused \$5,000+ in damages as it rolled into a sign, damaging the from drive side quarter, the drive door and back bumper. I would like to register my COMPLAINT with you. Thanks

Catherine: I am sorry to hear that.

Catherine: I do apologize to hear this. I will certainly be able to review everything with you today to see what next steps need to be taken.

It cost me money and my insurance will now go up!!!! Plus I am out the \$1000 deductible

Catherine: Can we please verify your address?

Attleboro, MA

Catherine: Thank you.

Catherine: The mileage on your vehicle?

: At that time, about 300-350 miles

Catherine: Where is the vehicle currently located?

: In CT, where I work during the week.

: Trumbull, CT

Catherine: Has the vehicle been repaired?

yes

Catherine: Thank you. What date did the incident occur?

: Oct. 17th

Catherine: Thank you.

Catherine: One moment please.

Catherine: Thank you for holding.

: sure

Catherine: Can I please have your phone number?

Catherine: Thank you for providing me the information needed to document your complaint. I will definitely document all the information you provided.

Then what??

Catherine: Where was the vehicle repaired at?

A body shop in RI that I have used in the past

Catherine: So was the vehicle diagnosed to see what caused the issue?

██████: I called my sales guy but they don't do repairs at Elmwood Dodge

██████: No it was not...

██████: It was NOT diagnosed...

Catherine: I would advise you to have the vehicle diagnosed to see what caused the issue.

██████: Upon my research, I've seen this is an issue reported by others

██████: It was nearly 2 months ago now...

Catherine: I understand it was.

██████: so what happens next??

Catherine: At this point the information you provided is documented. It will be reviewed. If further information is required you will be contacted.

██████: Reviewed by who? Or does this get washed under the table??

Catherine: It is reviewed by Chrysler.

██████: Aren't you Chrysler??

Catherine: We are.

██████: Who and where in Chrysler?

Catherine: That is proprietary information.

██████: You're not very helpful...:(

Catherine: I do apologize.

Catherine: Is there anything else I can assist you with?

Catherine: ██████ Are you still there?

██████: yes

Catherine: Is there anything else I can assist you with?

██████: I guess not

Catherine: Thank you for contacting Jeep. Have a great day!

██████: thanks

██████: disconnected (Concluded by End-user).

Product - Body / Trim / Paint Finish - Air Bag - Failed to Deploy - Both Air Bags	Air bags did not deploy.
Product - Transmission / Transaxle - Unknown - Improper Shift - Default	Vehicle spontaneously jumped into wrong gear.
Product - Unknown - Unknown - Accident - Default	

Briefly summarize why the customer is contacting Chrysler:
 Customer states that vehicle suffered another spontaneous transmission/gear selection problem that has resulted in injury, damage to vehicle, and airbags did not deploy. Vehicle was parked on an inclined street as customer went to gather mail. Customer returned to passenger seat with her husband, was driving. When driver went to shift vehicle from park to drive the vehicle instead went to reverse and then neutral and vehicle was rolling downhill and gaining speed. Driver could not apply the brakes and customer started to panic. Customer then leapt from passenger seat from vehicle and hit cement suffering a broken nose, bruises, and a possible concussion. Her husband stayed in vehicle as it hit a tree causing damage to the bumper, rear door, and rear lights. Airbags did not deploy inside of the vehicle and repairs will be \$2,000 plus the cost of the medical bills. Customer did notice that while vehicle was rolling backwards helplessly the engine revving high and this is not the first time this problem has occurred on vehicle but the first time it has resulted in injury.

Briefly summarize what the customer is expecting:
 Customer is expecting Chrysler to be notified of vehicle problem.

Agent informed customer that concern will be brought to the attention of special investigations at Chrysler. Agent provided case no, and informed customer that case will be escalated and that she can expect a callback within 2-3 business days. Customer understood.

Product - Transmission / Transaxle - Automatic Trans / Transaxle - Jumps Out of Gear/Park - Default	Customer states having problems with his vehicle.
Product - Drivability - Unknown - Sudden Acceleration - Default	Customer states having several sudden acceleration issues.
Product - Unknown - Unknown - Accident - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states having issues with his vehicle suddenly accelerating. Customer states he has been into an accident but did not do a police report.

Briefly summarize what the customer is expecting: Customer expecting a resolution to his vehicle. Agent advised customer to have the vehicle brought to the dealership for a better understanding of what's going on and to have star involved if necessary. Agent advised customer we would need a complete and proper diagnosis from a Chrysler dealership in order to seek further action if needed.

Reassigned to JL1476 for survey bypass no diagnosis.

Customer is calling in stating that he has not brought his vehicle to the DLR as directed by previous agent because he was in the hospital, and wanted to know if it was ok to bring his vehicle into the DLR next week.

Briefly summarize why the customer is contacting Chrysler: Customer is calling for assistance with getting the vehicle fixed

Briefly summarize what the customer is expecting: assistance

Customer clarified notes from previous agent stating that he was in the hospital but not due to the accident, and not due to any injuries from the vehicle. The accident mentioned above was when he bumped into the vehicle in front of him at a red light because the vehicle started 'jumping' forward on its own. Customer also states:

5/30/2014 put vehicle in park and walked away. Customer got about 20ft away he turned around and seen the vehicle moving by itself. Mechanic states that there must have been a delay in the computer in the car, vehicle did not register it was in park.

Customer states every time he brings it to the DLR they are very nice to him but being nice doesn't fix the vehicle.

Agent found next closest DLR STAR CHRYSLER in QUEENS VILLIAGE.

Customer states that he would like CAC to help him set up an appointment with them on Monday and that he will call in on Monday for this assistance at that time

customer said the vehicle is still having the same issue with the Sudden Acceleration and Jumping Out of Gear/Park

customer said the vehicle cannot duplicated

The customer said The DLR has checked the codes which show nothing

There were two incidents

The accident mentioned above was when he bumped into the vehicle in front of him at a red light because the vehicle started 'jumping forward on its own.

5/30/2014 put vehicle in park and walked away, Customer got about 20ft away he turned around and seen the vehicle moving by itself
customer wanted to know what Jeep is going to do for customer
agent talked to the DLR the DLR have not been able to
duplicate but DLR jay said he has heard about the issue
Customer advised that they will be contacted within one (1) business

Briefly summarize why the customer is contacting Chrysler: Customer's car is jumping out of park.

Briefly summarize what the customer is expecting: Information: is this normal?

This is actually a safety issue.

Customer had her car in park in a parking lot and bumped the gear shift, not very hard, but it knocked the car out of park. Her car rolled 6 inches and hit a sign post causing damage to the car. This has happened several times before but this is the first time it has occurred to her that it is a safety issue as damage has occurred. She is concerned it may happen again and a child may be involved either in or out of the car.

Dangerous Cherokees

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

On May 21, 2015 my husband parked his Grand Cherokee. It disengaged from the shift and ran over my husband. I have a 2014 Cherokee and already there is numerous recalls on it. I can't wait to get rid of it and will never purchase/use Jeep again!

*****END OF CUSTOMER EMAIL*****

Dear

Thank you for contacting the Jeep Customer Assistance Center in regards to your 2014 Jeep Cherokee and your husbands Jeep Grand Cherokee. I regret to learn of the concerns that have been experienced with the Grand Cherokee and your dissatisfaction with the current recalls on your vehicle.

I would like to discuss your concern further with you and therefore, I will be in contact with you on the number provided in your email. However, if you would like to speak with us sooner please do not hesitate to contact us directly at 1-877-426-5337 and reference your case number 28492815.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).

Sincerely,

Jennifer

Customer Service Representative

CUSTOMER CONTACT: Customer states that her husband was driving a company vehicle that was leased. Customer states that her husband had stopped to get gas and put the vehicle in park and turned the vehicle off. Customer states that the vehicle then rolled and ran her husband over and broke 17 ribs, the clavicle and ankle and the doctors did not expect him to live. Customer states that she would like to ensure that Jeep is aware of the issue with the vehicle. Writer advised that we can have it documented here however, we will require a VIN. Customer understood and will attempt to get the information and contact us back.

Customer called in with the VIN # 1C4RJFBG5EC as requested. Customer no longer owns vehicle, reassigned to DF314 for survey by-pass.

Customer states vehicle rolls when in park

Briefly summarize why the customer is contacting Chrysler: Customer states issues with vehicle rolling. Customer states that the vehicle can be in park and it rolls. Customer states that the last time it was in park and with the emergency break on and it rolled still. Agent phoned DLR and inquired with SA Max whom states that the customer had vehicle in for it coming out of park and rolling. Agent was informed that they cannot duplicate the issue and customer has appointment for the 7th to have vehicle looked at again. Agent informed customer that we will have to wait for the appointment to determine if they are able to duplicate and from that point if there are any concerns then for the customer to contact back and we can work with him to help rectify. Customer understood.

Briefly summarize what the customer is expecting: Customer seeking repair and resolution.

Customer advised that they will be contacted within one (1) business day, by COB their time

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40756

The reason for the dealer contact was to provide or request the following information: Verify appointment and get information from previous RO s.

SM left a voicemail informing that they were not able to duplicate the issue but it is back in now. Customer is alleging that there is a NHTSA case open for this concern. SM does not know what to do with this information.

CONTACT UPDATE - Customer was contacted today at 5:58PM EST

Customer was provided with agent's extension: 40756.

* * *

Agent attempted to contact customer, however, customer was not available.
Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information:
Discuss case and get expectations.
Customer left a voicemail 1/6/16 requesting a callback.

*[REDACTED]

Agent attempted to contact customer, however, customer was not available.
Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information:
Discuss case and get expectations.

Briefly summarize why the customer is contacting Chrysler: Customer had called in to speak with CM Alexia at telephone number 800-763-8422 at ext. 40756 however, he called into customer assistance center. Agent transferred customer to the ext. 40756.

Briefly summarize what the customer is expecting: Customer needed assistance getting through to CM at extension 40756.

Customer was wishing to be transferred to his CM. Agent transferred the customer.

Customer left a voicemail looking for callback.

Customer called in and informed that NHTSA has a case open. Writer informed that they control recalls and if one did come out we would address that then. Customer is requesting rental. Writer will call DLR and see what kind of coordination they are looking for and if we can do rental.

415-886-3222

Writer called DLR and SM was not available. Writer spoke to Jason in service and was informed that the vehicle has not duplicated. He was not sure what the SM wanted to talk about.

Status update provided via email to the following email address:

[REDACTED]

Hello, this is Alexia your case manager. This email is confirmation that your case [REDACTED] successfully escalated to me. My office hours are 2-10 PM (Eastern Time). My contact information is 800.763.8422 EXT 40756.

The service manager was out of the office today, so I was not able to discuss rental or whatever coordination he wanted to discuss. I will follow up with you again 1/13/16.

End of Status Update

SM left voicemail requesting a call back.

415-886-3222

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40756
The reason for the dealer contact was to provide or request the following information: Returning call.

SM called in and informed that he is not sure what steps to take as he cannot duplicate the concern and STAR has no advice until it is duplicated. SM is looking to see if a field rep can come out, and writer advised that he contact AM to see if that would be useful. Writer will call again 1/15/16.

**7[REDACTED]

Agent attempted to contact customer, however, customer was not available.
Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information:
Inform that the SM is looking into what the next steps should be with internal resources.

Customer called in 2x requesting callback.

Customer had just called in requesting to speak to his CM

Customer left a message requesting callback about rental.

[REDACTED]

Agent attempted to contact customer, however, customer was not available.
Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information:
We can look into rental reimbursement.

Customer called in and agent tried to warm transfer.

Customer left voicemail requesting clarification on rental.

415-886-3222

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40756
The reason for the dealer contact was to provide or request the following information: Any word back from AM? Will he accept an RA for rental?

SM left a voicemail informing that the customer is in a rental through the DLR and the TA is coming out 1/19/16.

**[REDACTED]*

Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information: Verify lines 116-117. Writer will call again 1/19/16.

01-19: I looked at this vehicle today. I parked the vehicle on Laurel drive which is a very steep road facing uphill and downhill for about 10 minutes each time. Since I was not able to legally park on this street I was not able to perform multiple test. However, I did the same on test on Meadowsweet drive which isn't as steep as Laurel drive. In both instances, I was not able to confirm an issue with the vehicle rolling out of Park. On both streets I left the vehicle in Neutral and applied the Parking Brake and each time the parking brake didn't allow the vehicle to move. In other words, with the parking brake applied even with the vehicle in neutral, the vehicle would not roll. There are no Diagnostic Trouble codes in the system relating to this concern. The park solenoid over ride is working properly and there are no indications it was used or had any type of failure. The shifter module is working properly and will not allow the vehicle to be started or shut off if it isn't in Park. I spent 90 minutes sitting in the vehicle trying to capture the event. There is no possible way I can see this happening with all the safe guards we have in place. T/A WHS7.

415-886-3222

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40756. The reason for the dealer contact was to provide or request the following information: Looking to discuss TA visit.

SM left voicemail informing that the TA could not duplicate, and the customer has other concerns of rattle in dash and USB port not working. They will look at those tomorrow.

[REDACTED]

Writer called customer and verified that the DLR is working on other concerns. Customer does not want to drop the rolling issue. Writer informed that unless there is duplication, any repairs desired would have to be fully customer pay. Customer did not accept this answer and would like time to think. Writer will follow up 1/21/16 with update on diagnosis for other concerns.

415-886-3222

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40756. The reason for the dealer contact was to provide or request the following information: Looking for update on concerns in lines 145-147. SM left voicemail and informed that they have not looked at the other concerns as the customer has been insistent that he can duplicate the concern in the mountains where he has before. Customer is requesting a data recorder and neither SM or TA knows if it will be effective or not. SM will see if the device can be installed and the customer will potentially try to duplicate this weekend.

**[REDACTED]*

Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information: Verify lines 160-165. Writer will call again 1/25/16.

415-886-3225

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40756. The reason for the dealer contact was to provide or request the following information: Looking to see if the data recorder was installed, if the customer took the vehicle to try to diagnose, and if the DLR has heard from them.

SM called in and informed that the customer is picking up the vehicle today and will be attempting to duplicate the concern this coming weekend. Writer will call again 2/1/16.

[REDACTED]

Writer called customer and was informed that he has the vehicle. Writer informed that we can only leave the case open for a week without the vehicle being worked on at the DLR. Writer will call 2/1/16 and find out if the customer duplicated their concerns. Writer informed that if a recall were to ever come out for this concern, there would be no cost to

the customer. If the concern was diagnosed after the warranty expired, we could look into goodwill.

415-886-3222

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40756. The reason for the dealer contact was to provide or request the following information: Looking to see if the customer has contacted DLR about whether he was able to duplicate the concern this last weekend. SM called in and informed that he has not heard from the customer yet, but should today.

[REDACTED]

Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information: looking to see if he was able to duplicate the concern.

Briefly summarize why the customer is contacting Chrysler:

Customer wants to leave a VM with CM at ext#40756. Agent transferred.

Customer left a message informing that he did drop off the vehicle. The data recorder did not work, but he got video. Customer was also getting the service shifter message. He is in a rental and the DLR is working on the vehicle.

415-886-3222

Writer called DLR and spoke to SA Max as the SM was out of the office. SA does not have an update. SA will try to call SM for update.

SA Max left a voicemail informing that the vehicle has open disc brakes and therefore will only engage one wheel, the rest will be free rolling.

[REDACTED]0

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information: Diagnosis in progress. Will call again 2/8/16.

415-886-3222

Writer called DLR and spoke to SM Casey. SM informed that when the vehicle is in park, only one rear wheel locks, so the other rolls and the locked one slides. Vehicle is operating as designed and would need to have the parking brake engaged in order for this not to happen. SM will call customer and explain this. SM is emailing TA for advice on the codes and the service shifter message.

[REDACTED]

Writer called customer and was informed that he is not satisfied with the DLR explanation of one wheel locking as he alleges that the vehicle was trying to drive forward. Customer informed that the service shifter message appeared long before the rolling was duplicated. Writer will call again 2/10/16. Customer would like time stamp of last error message.

415-886-3222

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40756. The reason for the dealer contact was to provide or request the following information: looking to see if there is an update on the codes and if we can get a time stamp in the last error.

SM called in and informed that per the TA it is operating as designed. The trouble codes were because the vehicle was powered on and the traction control was trying to keep it from rolling/sliding back. This also explains the vehicle attempting to drive itself forward. We cannot get a time stamp for the last code because it records mileage and not time. Customer is going to pick up his vehicle tomorrow to take it up the mountains again and attempt to get video of both wheels rolling at the same time, as he does not accept that one is sliding and one is rolling. If he can duplicate this, we will send to TA and get assistance there.

Mileage: 25898

[REDACTED] contact customer, however, customer was not available.

Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information: Writer would like to verify that the customer is going to attempt to duplicate the concern again this weekend.

415-886-3222

Writer called DLR and spoke to Max in service. Writer was informed that the vehicle is not in yet, and the SM is not in today.

[REDACTED]

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information: Verify that he plans to take the vehicle back in and see if he was able to duplicate the concern over the weekend.

415-886-3222

Writer called DLR and was informed by Jason that the vehicle is not yet in.

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40756

The reason for the dealer contact was to provide or request the following information: See if there has been any contact with the customer.

*[REDACTED]**

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40756. The reason for the customer contact was to provide or request the following information:

Looking to see if vehicle is in or if he has an appointment to take it in. Case will close if no appointment set by COB tomorrow. If no contact from customer before COB 2/18/16 case will close.

Customer left voicemail requesting callback after 1PM pacific time.

[REDACTED]

Writer called customer and was informed that he is going in for the dash rattle tomorrow, and will then be going out of country for a few weeks and will not be able to focus on the rolling concern. Writer informed that case would have to close during that time, but he would be able to open a new case when he was ready to work on this again. Customer would like extended coverage on the vehicle. Writer offered 7 years 100,000 miles max care. Customer will call tomorrow when repair is complete, and writer will email with brand line.

WM7100N Contract created. Contract number is [REDACTED]

Customer seeking to leave a voice mail to his case manager. Agent Transferred him over to case management ext 40756.

Customer left voicemail informing that the dash is repaired. He would like information about the service contract and written information about the current diagnosis on the rolling concern on the vehicle.

Status update provided via email to the following email address:

[REDACTED]
I got your voicemail and am glad that the repair to the dash is satisfactory. The service contract has been attached to the VIN of your vehicle and the contract number is: [REDACTED]. You will get something in the mail. If you have any questions about it please call 800-521-9922.

With regards to you wanting something in writing about the diagnosis on your vehicle, that is not something I could provide as I am not technically trained. You can ask the Dealership for that, but I do not know if that is even something that can be provided.

If you need to speak with me, you can call. Your case will close at close of business today. The number to call when you are ready to create a new case is: 877-726-4636.

End of Status Update

Begin Customer Message reviewed:

In our last conversation, we discussed the 7 year 100,000 mile extended care package. I believe you were sending me something to enroll me in that program. Is this coming via postal mail or email? Also, can you confirm again for me the amounts and the formal name of the program that I am being enrolled in? My understanding is that it is at zero cost to me to be enrolled in the program and then I have a \$100 deductible for each occurrence that needs parts or labor. Is that correct?

End of Reviewed Customer message

Status update provided via email to the following email address:

[REDACTED]
You will get something in the postal mail regarding the benefits of that service contract. That contract number I gave you is for the 7 year, 100,000 mile Maximum care package. It is already active on your vehicle at no cost to you.

End of Status Update

CLOSED LOOP UPDATE - no need for additional follow-up.

Product - Electrical - uConnect Cellular System - Phone pairing issues - iOS (iPhone)	Customer phone does not stay paired
Corporate - Enhanced Customer Satisfaction Program (ECS) - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer calling because phone is not staying paired and frequently does not recognize his voice commands.

Briefly summarize what the customer is expecting: Customer is expecting phone to work efficiently.

Agent walked customer through soft reset steps and had iPhone forget uConnect system.

After doing these steps agent was unable to pair device to system.

Agent transferred customer over to uConnect case manager.

****UConnect Case Management Escalation****

Preferred Morning/Midday call back number is

UCONNECT CASE MANAGEMENT

Agent contacted CM for assistance with a customer having issues with their media center. Customer states that he has connectivity issues with his phone. Customer states it does not stay connected all of the time and the voice commands don't always work. Customer states the previous agent walked him through a soft reset and now can't get the phone paired back up. CM walked the customer through getting the phone paired back up and explained that the issues he is having is due to compatibility.

customer is still having an issue with compatibility

customer wants to have the radio replaced

customer is also having issue with the gear shift

Agent advised to have the gear diagnosis

Kyle from dealer 60496 calling in. Kyle states that the customer had called in. Kyle states customer is stating he was advised to have the radio replaced.

Agent advised Kyle nothing on our records show customer was advised to replace the radio.

Kyle then put customer on the line.

Customer states he spoke with Nathan from access. Agent referred customer back to access to figure that out.

Customer calling back with a complaint with his phone not connecting as the software version he has on his iPhone 6 is higher than the tested at this time. Customer wants a 2016 model radio put into his vehicle to replace this concern.

Agent advised customer that this is something that is continually tested and may update at any time. Agent did advise customer that a new radio would not be authorized due to compatibility issues with his phone as there is nothing defective with his radio at this time.

Customer has requested Supervisor callback

Preferred daytime number: 2

Preferred evening number:

Reason for request: Customer not happy that agent would not authorize a

new head unit.

CAIR assigned to: LD398

CSR has informed customer a Supervisor callback request has been made, and the customer will receive a callback within one (1) business day

Supervisor Call

Writer contacted customer [REDACTED], unable to reach customer.

Customer contacted Chrysler requesting to speak to a supervisor.

Agent informed customer that supervisor LD398 contacted him and was unable to reach him.

Customer is requesting another call back.

Customer called back requesting to speak with LD398. Agent advised customer that supervisor will contact him back.

Customer states that if he doesn't answer for the supervisor to contact back as it doesn't always go through the first time. Agent advised customer that agent will update the notes. Customer thanked agent.

SA Ron Dealer needs authorization for a software update.. Writer warm transferred SA to CA TP405.

writer took call from SA/ to advise no authorization for flash updates

Customer called in stating he got call from supervisor at 1 and they did not reach the phone and has not heard back. Customer complained about issues with radio and asked for another supervisor. Writer informed Lynn is going to call again and to wait for this call. Customer understood and states he wants it documented he is upset about poor gas mileage and having to replace brakes and rotors at 15000 miles. Writer assured complaint documented. Customer thanked writer and ended call.

Customer is upset that LD398 has not contacted him yesterday. Customer states that his phone was with him all day and never received a call from LD398.

Agent informed that LD398 did try to contact him around 1:49 pm and was unable to reach him.

Agent was informed by JM2677 that LD398 will be reaching out to the customer before 12PM today.

Supervisor Call

Writer contacted customer at [REDACTED] he states he has to replace the front brake pads and rotors and feels it is too soon since he has only 15,000 miles on the vehicle. Customer states he only gets 13 MPG with a V6. Customer states he loves the vehicle. Customer states since purchasing the vehicle in 2014 he has had concerns with the gearshift and the radio. Customer states in the MY 2016 they have upgraded with a new gearshift and radio. Writer advised customer he is part of the ECS and his file will be escalated and he will receive a return call within 1 business day. Customer states he would really like to be contacted today if possible and if he can not be reached on the first attempt if he could be contacted again since he can not always get to his phone the first time.

Vehicle rolls while in park

***** EMAIL BRIEF DESCRIPTION CONTENT *****

Jeep rolls backwards while in park.

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

My 2015 Jeep rolls backwards while in park wheels turned and emergency brake

applied. Has happened around 10 times. Once parked on an incline it will set for approx. 7 -10 minutes before sliding down a driveway or slight hill. Two times in has slipped all the way down a driveway about 10 - 15 feet before coming to a stop in the gutter. Something is seriously wrong with the Jeep. I've had a 1996, 2006, and a 2015 Jeep over the past 25 years. I have NEVER had a vehicle do this anywhere! This problem needs to

be fixed promptly. A rolling out of control vehicle could hurt or cause death to a person.

*****END OF CUSTOMER E-MAIL*****

Dear

Thank you for contacting the Jeep Customer Assistance Center.

We are very sorry to learn you are experiencing a concern with your Jeep Grand Cherokee and have opened a file regarding this issue.

We would like to look into this concern further; this will require diagnoses to be completed by an authorized Chrysler dealership. If you have had the vehicle at a dealership within the past 30 days, please respond to this e-mail with the name and location of that dealership.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).

Sincerely,

Katelynn

*****END OF CAC E-MAIL*****

Dear Katelynn,

The jeep has been taking to the dealership. I called them on Monday Jan 4th when the 1st incident happened. It was dropped off Monday night and they checked everything on Tuesday. They said they could not find anything wrong with it and they had contacted Jeep to see if others had the same complaint. We picked it up on Tuesday evening. Then on Thursday Jan 7th it did it again. I drove to the dealership and told them it happened again. I asked Kevin to go with me and let me show him what it was doing, he declined and said they could not find anything wrong with my Jeep. He told me it was the tires and that I should contact Michelin and carry salt with me. As you know this is a brand new jeep with new tires. I should not have to replace brand new tires on my jeep. I wish he would have gone with me down to their used dealership 3 blocks away because I used their parking lot to see what it was doing. It is rolling back on it's own and is scary. My husband was in there last night trying

to get something done. The next time it happens, I will go back again. I n the meanwhile somebody needs to find out what is going on before someone loses their life. I think my husband is calling Jeep and Michelin today.

Thank you for your quick response to my concerns. Larry H Miller in Riverdale Utah is the dealership. My [REDACTED] phone # is [REDACTED] if you should need to contact us.

Thank again for the quick response.

*****END OF CUSTOMER E-MAIL*****

Dear [REDACTED]

Thank you for contacting the Jeep Customer Assistance Center. We have reviewed your case and your concern has been forwarded to our case management department for further review.

One of our case managers will contact you within approximately one business day to address the issue you have been having.

This referral action will provide the best opportunity for your concern. Thank you again for your email.

Sincerely,

Katelynn

ATTENTION SERVICE DIRECTOR OR SERVICE MANAGER

Please follow your Business Center guidelines in an attempt to resolve this customers concern(s). If needed, seek assistance from your District Manager, Business Center or STAR.

The unresolved concern is customer vehicle is rolling backwards while emergency brake is in use.

Action requested: DLR take customer on test drive and STAR case be open once vehicle is at DLR to help duplicate customers issue.

Please update this CAIR with resolution.

#####

REASSIGNED TO BC/DLR 70 45471 01/11/16 13:34 O [REDACTED]

Writer attempted to contact DLR however,

SM Darrin not available. Left message for a return call at extension 40736

The reason for the dealer contact was to see if vehicle is at DLR and if STAR case and customer test drive can be performed. Will follow up with DLR 1/12/13.

CONTACT UPDATE - Customer was contacted today at 11:48 am. Customer stated after she purchased the vehicle that it rolled back a few times like the vehicle was not completely set in gear. And last week the vehicle was parked on a slight incline and it slid down the drive way 1/4/16, when vehicle was in park and emergency brake was on. Customer took vehicle to DLR and they were not able to duplicate issue. Vehicle was at DLR all day 1/5/16 DLR not able to duplicate anything. Customer stated that she took her vehicle to the DLR 1/7/16, vehicle was in park and the wheel turned all the way to the right and emergency brake on, and after sitting about 7 minutes the vehicle slid back, that wheels are not moving when this happened. DLR informed her first that it was due to ice and then was told it was due to the tires. Issue hasn't not happened since 1/7/16. Writer stated that we will contact DLR 1/12/16 to do more research on situation and see if the DLR thinks that it could be due to the tires or what else could cause vehicle to slid back. Will provide update to customer 1/13/16.

Status update provided via email to the following email address:

[REDACTED]
Hello, this is Melissa your case manager. This email is confirmation that your case, [REDACTED], was successfully escalated to me. My office hours are 8:00 AM 4:30 PM (Mountain Time). My contact information is 800.763.8422 EXT 40736.

End of Status Update

Writer attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40736. The reason for the customer contact was to inform customer that it can be normal for vehicle to slide back on ice, but we need to know how far back vehicle is sliding, will follow up 1/13/16.

Customer contacted writer. Customer stating the vehicle is sliding 10-15 feet and then stops when it hits gutter at the bottom of the drive way.

Writer informed customer that we need her to take vehicle to DLR and have them open STAR case to help diagnosis issue customer is having. Customer will schedule own appointment. Writer will follow up with customer 1/14/16 to see if appointment has been scheduled.

Writer attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40736. The reason for the dealer contact was to see if customer has scheduled an appointment and that we would like STAR case open when customer brings vehicle in.

Writer contacted customer. Customer stated that she has not had a chance to schedule appointment yet, but that she is going to try to drop off vehicle 1/15/16. Writer requested that customer notify us if vehicle is taken to DLR so that we can request that a STAR case be open and if we don't hear from customer 1/15/16 we will follow up with her 1/18/16.

REASSIGNED TO BC/DLR 70 45471 01/17/16 20:38 O [REDACTED]

Writer contacted DLR SM not in 1/18/16, spoke to SA Zach Irwin. SA stated that customer was last in 1/5/15 for RRT and vehicle rolling in Park. SA stated that customer does not have current appointment scheduled. Current mileage 13630.

Was the customer in a rental? no

Did the customer have a co-pay? no

Review and Confirm the DM Notes with the SM while on the phone.

Does the SM have everything needed from Customer Care to process the claim? Yes

Writer contacted customer. Customer stated she hasn't had time to take vehicle yet and hasn't been able to duplicate the issue yet. Writer stated that since vehicle hasn't been back in we will temporarily close case and once vehicle is taken back to DLR a new case can be open if needed.

okay to close

****Begin structured narrative T2 - Beginning Narrative

Briefly summarize why the customer is contacting Chrysler:

Customer calling in because DLR gave him number to contact CAC in regards to his car. He placed his car in park and ran into his workplace and when he came out his car was rolling back and hit a building. This has happened before and this time he is super he put it in park.

Briefly summarize what the customer is expecting:

Customer is expecting to find out why this is happening.

Agent advised customer that there is not open recalls on his vehicle that could be causing this problem and encouraged him to continue working with his DLR to fix the issue.

Briefly summarize why the customer is contacting Chrysler: Customer requests a rental for 11 days.

-

Briefly summarize what the customer is expecting: Customer requests a rental for 11 days.

-

As per AC 18961 agent advised customer that 'rental coverage/reimbursement request will be considered only once vehicle inspection has been completed and reviewed.'

Also there is a legal cair open on this case so agent also 'referred customer to their attorney for handling'.

Customer is calling regarding a rental vehicle. The vehicle from the accident is at the shop, the 'hold up' is the body shop is waiting for a back ordered part. The customer has insurance, however the insurance rental portion is going to expire as of TODAY! the customer needs a rental vehicle as possible as not to be inconvenienced any further. Please contact the customer back for follow-up. Agent advised that the customer could pay out of pocket then put in for reimbursement, customer states he cannot do this, it would cause an undue financial burden.

To: Sergio Marchionne Jeep Corporate Office Headquarters Chrysler Group LLC

1000 Chrysler Dr. Auburn Hills, MI USA 48326-2766 Corporate Phone Number:

1-248-576-5741 Customer Service Number: 1-800-992-1997 Re: Jeep Grand Cherokee Laredo ? VIN# 1C4RJFAG6EC have been a loyal Jeep customer

for 20 years, having leased several Jeep vehicles over the period. My objective in leasing has been to enjoy the benefits of worry free driving

by leasing new vehicles in mint condition that spare me the agony of mechanical malfunction. On my current 2014 Jeep Grand Cherokee lease, however, there are 9 recalls, 16 Service bulletins, and 5 investigations ? in addition there are 587 driver/owner complaints. One of

the problems currently under investigation involve instability of the transmission. I experienced this problem and nearly was seriously injured

when the transmission slipped out of PARK and the Jeep moved forward crushing my leg in the door. Fortunately I was able to get out of danger with a few bruises and there ?s only a minor dent in the door and some

scratches on the bumper. Another problem I ?m having, which has been

plaguing many other Jeep owners, is where the engine warning light repeatedly engages with no indication of specific information with regard

to what the malfunction might be. I ?ve brought the vehicle to Chrysler

dealers 4 times and they have been unable to resolve this. Each time the problem recurs and I continue driving with uncertainty and stress with myself and my passengers fearing their lives may be endangered.

I ?m

totally not getting the vehicle safety and confidence I paid for. We need

to resolve this ? I ?m offering a settlement where I am refunded the

\$2000 I spent in taxes and down payment, and Fiat ? Chrysler takes back

this defective vehicle as is and terminates this lease agreement with no further penalties. The FEDS fined Fiat Chrysler a record \$105 million in that settlement. I would prefer to avoid taking legal action or filing complaints with the ? U.S. DEPARTMENT OF TRANSPORTATION, ? National

Highway Traffic Safety Administration (NHTSA) and The Center for Auto Safety In 2008 Chrysler was in bankruptcy being subsidized by \$12.5 billion

in taxpayer loans. What will Fiat Chrysler do for their loyal customers?

Please contact me at [REDACTED] so we can expedite resolution.

*****END OF CUSTOMER EMAIL*****

Dear [REDACTED]

Thank you for contacting the Jeep Customer Assistance Center. We are very sorry to learn of the problems you are experiencing with the transmission and engine and completely understand how frustrating this must be.

In order for us to further assist you, we need to verify if your vehicle has been diagnosed in the last 30 days at a certified Chrysler dealership. If it has been diagnosed, please provide the name of the dealership, and the individual you have been working with.

If you have not had the vehicle diagnosed, please ensure you have a diagnosis completed.

You can find a dealership locator using the 'Find a Dealer' button on the top of the Jeep - <http://www.jeep.com> website.

Our technicians are trained to troubleshoot issues that customers like you are experiencing and provide accurate diagnoses. They also do have specialists that they can refer to if necessary. Therefore, our dealerships are the best resource for you to utilize in the instance.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).

Sincerely,

Carol

Customer Service Representative

Jeep Customer Assistance Center

*****END OF CAC EMAIL*****

I have previously filed a complaint on the website of Jeep and have offered FCA(Jeep) a settlement whereby I would be refunded the leasing charges I paid and the company would consent to an early termination of the lease on this defective vehicle with no penalties or charges.

I would also accept a replacement of this defective vehicle with a 2016 vehicle that is free of defects.

The following is a timeline of events occurring since I filed my complaint with FCA (Jeep) and requested early termination of my lease:

9/10/15- Filed customer service complaint on Jeep website

9/22/15- the company failed to respond. I placed a follow up call to Jeep customer care and was told someone would get back to me within 48 hrs.

10/13/15- Took Jeep to Manhattan Jeep/Chrysler for inspection at the request of Jeep customer service who instructed me that an inspection would be needed as a matter of procedure in the review of my claim.

10/21/15- Manhattan Jeep/Chrysler returns vehicle to me reports that they addressed specific issues connected to 2 recalls - however the detailed documentation of my claim were never forwarded to this authorized service provider and the provider failed to inspect pursuant to the specific details outlined in my claim.

10/22/15- Raven, of Jeep customer service claims they are unable to locate record of my original emailed claim - so I resend it by e-mail for 2nd time.

11/4/15- A person, reported to be a 3rd party accident investigator contracted by FCA(Jeep) accident investigation tells me I need to give him date and bring vehicle again to a dealer so he can inspect. In protest, I inform him that I had turned the vehicle over to Jeep for the week (10/13/15-10/21/15) in October, pursuant to Jeep's request, for claim inspection, and that I am confused as to why I am being inconvenienced again. I also ask if any arrangements had been made for a replacement vehicle during the period of his requested inspection. He informs me that he has nothing to do with that and, in a callous and crude display of indifference, he terminates the conversation.

FCA US LLC has already acknowledged and admitted that they violated various sections of the 'Safety Act', and yet, in a cavalier display of arrogance and non-compliance, continue to violate me, a consumer whose tax dollars bailed them out in their 2008 bankruptcy.

FCA US LLC is required to execute certain performance obligations, pursuant to the July 24, 2015 Consent Order, amended December 8, 2015, the objectives of which are to mitigate the risks of harm and promote

safety for we, the consumers. FCA, however, persists in violating and disregarding me in a blatant act of non-compliance with the order. I seek assistance in expediting remedial action in this matter as a victim, and the protection of my rights as a consumer, and as an American citizen.

*****END OF CUSTOMER EMAIL*****

Dear [REDACTED]

Thank you for providing the details of the events related to your vehicle. Please accept our apology for the problems you have experienced. We would be happy to review your case further. In order to do so, we would need to see the vehicle in order to understand the issues that are occurring.

Our technicians are trained to troubleshoot issues that customers like you are experiencing and provide an accurate diagnosis. They also do have specialists that they can refer to if necessary.

Please contact us using your method of choice, either by phone or by using the link provided below to advise us when the vehicle is at the dealership. We will be more than happy to further review your situation at that time.

Sincerely,

Carol

HOUSEHOLD: 1 New, 0 Used

Writer contacted DLR 66012 at 541-469-5321. Spoke with SA Kenny: stated that he was working with customer previously for shifting concerns, advised that the concerns on lines 3-5 are new to him.

CONTACT UPDATE - Customer was contacted today at 11:26 hours MST.

Had it in at least 3 times for that issue, customer will put the vehicle into park and then once he is ready to turn off the vehicle it will come out of park into reverse before he knows it, states that the issue is intermittent, writer advised customer to make an appointment with the DLR, customer informed that he was advised by the DLR that they can t do anything to the vehicle unless they can find codes or can duplicate the

issue, writer still advised customer to make an appointment, requested customer to contact writer once the appointment has been made.

Customer was provided with agent's extension: 40796.

Status update provided via email to the following email address:

██████████
Hello, my name is Dylan, and I have been assigned as your case manager. This email is confirmation that your case, ██████████ was successfully escalated to me to work with the dealership for repair resolution for the issues to your vehicle. My office hours are 10:00 AM 6:30 PM (Eastern Time). My contact information is 1-800-763-8422 EXT 40796. If you have any questions or concerns, please do not hesitate to contact me back via email or phone call (and text once activated with me) and I will be more than happy to assist you. Thank you and have a great day!

End of Status Update

Customer left message: stated that he took his vehicle to the DLR, needs a shift linkage, got the vehicle back and it can't even go in high gear, has to bring it back to get that fixed.

Spoke with Receptionist: writer requested a call back for a status update.

SA Kevin left voicemail: stated that he ordered a shift lever assembly and is there, has an appointment tomorrow at 09:00 hours PST.

Writer contacted customer: advised of lines 63-64, the issue is getting worse and acts like it's in sports mode all the time, will contact customer on 2/4/16.

Spoke with SA Kenny: advised that the repair was completed and has not heard back from the customer.

Was the customer in a rental? If yes, how many days? No

Did the customer have a co-pay? If yes, how much? None

What is the RO #? ██████████

Does the SM have the CAIR #? If no, provide it.

Review and Confirm the DM Notes with the SM while on the phone.

Does the SM have everything needed from Customer Care to process the claim? Yes

Writer contacted customer: stated that the vehicle is operating fine, will have one of writer's colleagues contact him on 2/8/16 and close the case if there are no more concerns.

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40572. The reason for the customer contact was to provide or request the following information: advised of case closure by end of day, gave EXT if has any questions or concerns.

CLOSED LOOP UPDATE - no need for additional follow-up.

Customer contacted writer, still experiencing issues with electric shifter, hard shift, doing research on what to do further for customer.

Will have to get vehicle back into DLR for diagnosis to see about resolving issue.

Writer spoke with SA Kenny, SA advised customer needs to bring vehicle in and speak with SM Carl and take test drive to look into issue further and set up appointment from there. Contacting customer to verify.

Writer contacted customer and advised of lines 90-92. Customer going to bring vehicle to DLR on 2/15/16. Follow up for 2/15/16.

Writer contacted DLR for update, SA busy, left message for contact back.

Writer spoke to SA Kenny and was advised that SA had told customer if he can get vehicle to duplicate the issue he'd get it in and have a Tech look into it. After about a week now the vehicle has been good. Calling customer to close case.

Writer contacted customer and confirmed what SA Kenny had said. Advised customer we can't keep case open if not working with DLR on vehicle.

Customer okay with case closure, is happy with vehicle as long as concerns don't keep repeating.

CLOSED LOOP UPDATE - customer contacted today to confirm repairs.

All of the customer's concerns as documented in the reason codes have been addressed with the customer.

Corporate - Rental Vehicle - Default - Default - Default	Rental Vehicle reimbursement.
Product - Transmission / Transaxle - Automatic Trans / Transaxle - Improper Shift - Default	Won't go into park and won't shut down

Briefly summarize why the customer is contacting Chrysler: Customer states the wife and child were in the car and she tried to put the vehicle in park or shut the vehicle off and she had to have her foot onto the vehicle until the husband got there. The vehicle has been taken to DLR and changed the shifter and the same problem happened again and the check engine light and service transmission and shut down engine. The DLR is trying their best and the customer doesn't feel safe driving the vehicle and don't want it. Customer works in the emergency hospital and needs to get to work even now that they had a snow storm and had 29.6 of snow. The DLR informed the customer that they would have to pay out of pocket because the DLR will authorize a vehicle for \$35/day. Customer needs a 4WD vehicle.

Agent advised: customer that we only authorize a \$40/day rental and it would be the customer's responsibility. Agent will inform the CM of the situation with the snow storm to see if they could assist with the rental. Agent gave the customer the CAIR# and stated the CM will be in contact with the customer with 1-2 business days.

Customer informed a call back is required and will take place within 1-2 business days.

Household: New: 1 Used: 2

Customer called writer and was wondering what was going on with her vehicle, stated that DLR called to come pick up vehicle, they have nothing further they can do to it, customer explained she has been having issues going on for quite some time now, what happens is the vehicle will not be able to be put in park which has been inhibiting her life.

Writer put customer on hold called DLR 26999, spoke with SM Scott who stated that they have not been able to duplicate concern, they did change the valve body the first time the customer came in with concern; this time they have test drove the vehicle and SM took vehicle home per permission of customer and was unable to duplicate concern, vehicle is ready for customer pick up. Call completed with SM.

Writer back on phone with customer advised that the reason the vehicle is ready to be picked up is because they were unable to duplicate concern, could see in repair history went to a different DLR who might be willing to work on vehicle.

Customer stated she doesn't want to bother with this vehicle anymore, it will be out of warranty soon and doesn't want to have to deal with this concern any longer especially while vehicle is out warranty.

Customer was wondering about rental vehicle had to pay for the last time the customer was out of their vehicle.

Writer reviewed document.

Writer advised would need the receipt and then would be able to reimburse. Customer to fax receipt and writer to follow-up 2/26/2016.

Writer advised that if check it sent, case will close, to keep case open will need to get into another DLR.

What has the customer specifically requested?

Reimbursement for rental vehicle.

If this is for a previously made goodwill decision, what is that CAIR #?

No.

What is the total amount being reimbursed and the reasons why?

\$406.92 for time spent in DLR while diagnosing vehicle, and valve body replacement.

Customer picked the vehicle back up and now the vehicle is stuck in neutral and has to have the emergency brake on so it won't roll. Agent advised the customer that they need to have it towed to the dealer and have them diagnose it again.

Customer called in because his case manager is not calling him back.

Customer states he just picked up his vehicle and it is still not fixed.

Customer is done, he wants a buy back on his vehicle.

Agent gave the customer the arbitration phone number and the web site to

check and see if they can help to resolve these issues.

Writer called customer.

Customer stated that wife picked up vehicle, ran some errands and then vehicle got stuck in neutral, customer has video of concern, sent to DLR, DLR advised to bring vehicle back in; customer dropped vehicle off and DLR is in a loaner; customer was stating that his vehicle is a Lemon and if he has to he will go to the media, he wants a vehicle to be fixed or a new vehicle.

Writer explained that vehicle as per what is on his vehicles file it does not qualify for Lemon and cannot be sent to the considerations team; will continue working with DLR to and request them to contact STAR to see if they have any information to further diagnosis of the concern.

Customer wants compensation, writer advised could look in to reimbursing a vehicle payment, and as discussed the rental is set to be reimbursed for, but cannot send check til case is ready to close, explained that sending a check will close the case.

Customer wants check now, but understood.

Writer to follow up 2/29/2016.

Writer called DLR spoke with SM Scott who stated they diagnosed issue as a wiring problem in the transmission module, vehicle was repaired and will be test drove over the weekend to make sure concern is no longer appearing.

Writer to follow up next week 3/2/2016.

Status update provided via email to the following email address:

[REDACTED]
This is an email from Chrysler customer care. We just wanted to notify you that we spoke with the dealership. The vehicle was diagnosed and repaired, and they are just test driving it to make sure it is safe. Your case manager Stephanie will talk to you on Wednesday. Have a great day!
End of Status Update

Customer is calling to get a update on what to do with the vehicle.

Customer states the DLR isn't fixing it, and telling her to trade out.

Customer still owes on it, and can't understand why she's being told this. Agent stated he doesn't deal with sales in that aspect and can't comment. Customer is frustrated with the situation as they are not fixing their vehicle. Customer thanked agent for listening and ended call.

Writer to call DLR 3/2/2016 to find out what they have talked to customer about, as well as status of repairs.

Writer called DLR, receptionist stated that Scott is the SA and he went home for the day, vehicle is still at DLR.

Writer called customer and advised still working on getting in touch with DLR, will be following up with them tomorrow 3/3/2016.

Customer was frustrated with writers call since there was no update and doesn't want phone calls with no update, stated has not heard from DLR and now getting nothing from writer; stated working with another DLR/resource who pulled his repair history who states that vehicle qualifies for Lemon Law.

Writer advised that if customer is pursuing Lemon Law will not be able to keep case open, customer stated that writer has to continue working to repair vehicle. Writer advised that I am at the discretion of the DLR to repair vehicle.

Customer stated that if he wants to pursue Lemon Law he can and Chrysler has to continue fixing vehicle, and not to call unless there is an update.

Writer stated would not call back till have an update on vehicle.

Writer called DLR spoke with SM Scott who stated Repaired wiring underneath center console, that vehicle was completed and customer is going to pick up.

Was the customer in a rental?

Loaner.

Did the customer have a co-pay?

Covered under warranty

What is the RO #?

[REDACTED]
Outgoing Mileage?

26,760mi

Does the SM have the CAIR #?

Yes

Review and Confirm the DM Notes with the SM while on the phone.

Does the SM have everything needed from Customer Care to process the claim?

Writer called customer to advise spoke with DLR and vehicle is repaired, and to see how vehicle is operating.

Customer stated the vehicle is running fine; advised that he wants reimbursement for a lease agreement as well as for rental.

Writer advised that we can reimburse one or the other, customer stated writer said both.

Writer advised I said I would look into reimbursing the lease agreement but our original plan was rental.

Customer stated he wants to go over both information with writer before he decides what he wants.

Writer to call DLR and get the amount of days he was out of vehicle while it was at DLR, and advised customer to send in Rental information FAX #801-736-3929 Attn: SM2494.

Customer agreed.

Writer called DLR spoke to SA Rich who stated customer was at DLR from 1/29/2016-2/8/2016; 2/11/2016; 2/23/2016; and 2/26/2016-3/7/2016.

Writer called customer and advised that if I were to reimburse for a vehicle payment I would reimburse for one vehicle payment, or if he was wanting reimbursement for rental.

Customer was unable to talk and stated to call back later.

Writer to Follow up 3/7/2016. Customer agreed.

MRS. [REDACTED] called and stated her CM is out of the office until Monday and she can't wait until Monday as her vehicle is going in the shop today for the 5th time and the DLR is refusing to give her a loaner. Writer warm transferred to KS1236.

Supervisor Call

Customer contacted writer. Customer stated she picked up her vehicle and the same thing happened. Customer stated she needs to take her vehicle back to the DLR but they don't have any loaner vehicles available.

Customer stated she doesn't understand why the DLR doesn't have loaner vehicle. Writer advised the customer she can reach out to the DLR and get some information. Writer spoke to Scott in service who stated he is actively trying to get his loaner vehicles back into the DLR so he can get the customer in one. Writer advised the customer of the information above. Customer stated that she needs one to pick up her son. Writer advised she will continue to reach out to the DLR and customer stated she was told she would be notified as well. Customer stated she would like the address to send in her LL documents.

Writer contacted Customer to inquire of loaner issue. Customer alleges that he does not want to pay for a loaner vehicle again and wait to be reimbursed, requested to have LL address emailed to him so he can send documents to then, requested for a new CM, and to receive an answer by either today or tomorrow but no later than tomorrow. Writer confirmed and will try to assist as much as possible, informed that the DLR has been contacted and that they are trying to get a loaner vehicle for the Customer, will have a new CM for the customer next week, and will email address information.

Status update provided via email to the following email address:

[REDACTED]
Hello Mr. [REDACTED], this is Connor from Jeep Customer Care. Regarding our conversation earlier I will provide you with the address you requested in order to send your documented concern.

P.O. Box 21-8004

Auburn Hills, MI 48321

End of Status Update

Writer contacted SA Scott to inquire about if he has been able to get a loaner vehicle for the customer. SA stated that he just barely got a vehicle available for the customer about 10 minutes ago, but has not had the chance to contact him. Writer informed that the Customer will be contacted by the Writer and informed that he can go and pick up the loaner tomorrow since the DLR is closing up for the day. SA confirmed.

Writer contacted Customer to inform of lines 381-386, customer confirmed and demanded for the case to be escalated above Writer so that he can receive a new vehicle. Writer informed that providing a new vehicle is not an option that Writer can provide. Customer requested for someone that can. Writer provided NCDS contact information. Customer confirmed.

MRS. [REDACTED] calling stated she was advised would be getting another CM. Writer advised showing JA1585 at ext 40763. Best call back

MRS. [REDACTED] called, requesting a supervisor. Transferred customer to
KS1236.
Supervisor Call
Customer contacted writer. Customer stated that her vehicle is currently
at the DLR and it's been shifting into neutral on its own. Customer
stated she wants out of her vehicle. Writer advised the customer that we
can not buy back her vehicle and due to the miles on the vehicle she does
not qualify for the vehicle to be sent up for review. Writer gave the
customer NCDS information and stated she will reach out to the DLR to see

if she can get some information on the customer's vehicle. Writer advised she will follow-up with customer once she gets information.

Customer stated she would like to be called back at [REDACTED]

Writer spoke to SA Scott who stated they can't duplicate the concern.

Customer stated to SA that the vehicle is going into neutral and that she has video proof. SA took vehicle on extended road test and will drive it through the weekend. Customer is in a loaner vehicle.

Supervisor Call

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension XXXXX. The reason for the

customer contact was to provide or request the following information:

Writer advised the customer the DLR is going to drive the vehicle through the weekend to see if they can get it duplicated.

MRS. [REDACTED] called, requesting a supervisor. Transferred customer to SM2462.

Supervisor Call

Customer contacted writer and writer stated lines 479-480. Customer stated she wants out of her vehicle. Writer advised the customer that we are here for repair resolution and due to the mileage we can't send her vehicle up for review. Customer stated she will get her attorney involved and doesn't want to pick up the vehicle. Writer advised the customer the DLR will be contacted on 3/22/16 to see if there is an update and go from there.

Writer contacted DLR spoke with Scott who stated that they have not been able to duplicate the issue and will be driving it tonight as a last attempt

Writer contacted customer and informed of lines 491-493, customer stated that they will not pick up the vehicle until a resolution/repair has happened customer also wants compensation for the miles the DLR has placed on the vehicle and reimbursement on the rental. Follow up on 3/24/16

Writer contacted DLR spoke with SM Scott who stated that there still was no duplication on the issues and they will have the customer pick up today

Writer contacted customer who stated that he will not pick up the vehicle until a repair has been made, and wants reimbursement for rental and vehicle payment now. Customer requested a SUP call was transferred to EXT: 40686

Writer contacted DLR spoke with SM Scott who stated that they will have a STAR case opened for this vehicle

CONTACT UPDATE - Customer was contacted today at 4:01PM MST 2/5/2016.

Customer was provided with agent s extension: 40660.

Writer contacted Customer to inquire the vehicles issue. Customer alleges that the issue occurred on 1/27/2016 when she was taking her daughter to school. Customer alleges she turned off the vehicle, locked the door, and went inside the school with her daughter, customer was informed that there was a vehicle that rolled back and was stopped by a snow bank. Customer went to investigate and discovered that it was her vehicle, vehicle has been at DLR for 10 days now and have not provided a loaner vehicle like they said they would, DLR claims that the customer could ve left the vehicle running and left in reverse however, Customer questioned SM to duplicate her action and SM could not successfully exit the vehicle

while it was running and in reverse at the same time. Writer informed that Internal Resources are in contact with the DLR to resolve the issue, will contact DLR to gather more information to provide for the customer, informed that if customer would like to go to a local rental agency, Writer can reimburse for rental up to \$45.00 a day, provided contact information and inquired email address. Customer provided her email address [REDACTED].

Status update provided via email to the following email address:

[REDACTED]
Hello, this is Connor, your case manager. This email is confirmation that your case, [REDACTED], was successfully escalated to me. My office hours are 9:00 AM 5:30 PM Eastern Standard Time. My contact information is 800-763-8422 EXT 40660.

End of Status Update

Writer contacted SA Scott to inquire about the vehicles repair. SA stated that the customers concern could not be duplicated, no codes have shown up, has been sitting at the DLR for 9 days, vehicle has not started itself and reversed, vehicle was monitored and nothing has been found relating to the customers issue, Customer made clear to the DLR that she does not want the vehicle. Writer informed that the customer will be contacted and informed to pick up her vehicle.

Writer tried to contact customer on numbers [REDACTED].

Both numbers did not go through unable to leave message.

Was the customer in a rental? No If yes, how many days?

Did the customer have a co-pay? No If yes, how much?

What is the RO #? [REDACTED]

Does the SM have the CAIR #? Yes If no, provide it.

Review and Confirm the DM Notes with the SM while on the phone.

Does the SM have everything needed from Customer Care to process the claim? Yes

Agent contacted customer who stated the DLR has had vehicle for 2 weeks and has not had transportation for these 2 weeks, does not feel safe in vehicle, states that she was not notified that her vehicle was ready to be picked up, customer does not currently have vehicle, also stated that the DLR told her she would have a loaner vehicle when she brought her vehicle to them, and she never got a loaner or rental from the DLR. Agent advised she will contact DLR again and get things figured out as to why Agent was told that customer had picked up her vehicle.

Agent called DLR, spoke with SA Scott, who stated that customer was fully aware that the DLR could not duplicate the issue and was told she could pick up her vehicle at her leisure, Agent talked to SA about getting STAR involved and SA stated that when the DLR spoke with STAR that he was told if the issue can't be duplicated then there was nothing they could do.

Also stated that SM Victor is on the case and to contact him for any further questions.

Agent contacted customer, advised her that her CM CP1389 would be contacting someone at the DLR above the SA about the repairs to be done on the vehicle, also advised that CM CP1389 stated he would look into some type of compensation for the issues she is currently having to go through, advised customer that her CM will follow up with her on 2/11/2016 with an update on her case. Customer advised agent that she has paid her car payment but has been without her vehicle or any vehicle for 2 weeks and would like it if her CM could look into help with that.

Agent attempted to contact dealer Service Manager Victor, however, SM not available. Left message for a return call at extension 40660

The reason for the dealer contact was to provide or request the following information: To inquire of customers vehicle and what is currently going on in customers situation.

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40660. The reason for the customer contact was to provide or request the following information: To inquire if she has heard anything back from the DLR, waiting on a callback from the SM Victor, will follow up with customer no later than 2/12/2016 to provide information.

Writer contacted SM Victor to inquire the vehicles situation. SM stated that the vehicle has been parked in the same location for a week and a half, has not moved since, cannot duplicate the issue, no codes have been pulled, customer has not picked up the vehicle, customer has been informed. Writer inquired about the STAR case currently open. SM stated that they still have not heard back from STAR and cannot reply as the case requested in the resolution. Writer inquired if a co-pilot would be

necessary. SM stated that the DLR does not have one, and would not need it. Writer confirmed and will attempt to reach up to higher ups in order to gather more information from STAR.

Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40660. The reason for the customer contact was to provide or request the following information: To inform that higher ups are currently being contacted in order to reach a resolution, will follow up no later than 2/17/2016.

Writer contacted SM Victor to inquire about customer's vehicle and if they heard back from STAR. SM stated that he has not heard back from STAR as of yet. Writer informed of what STAR last said. SM stated that the vehicle is still sitting in the parking lot and has not moved an inch. If STAR does not know what to do the DLR will contact the Customer and inform her that her vehicle needs to be picked up. Writer inquired of when the vehicle first arrived at the DLR. Writer was then transferred to SA Scott to inquire the date the vehicle came into the DLR. SA stated that the vehicle first came in on 1/27/2016, has been left in park since, has not moved once. Writer inquired if there is any other way or method that the DLR could use to possibly duplicate the issue. SA stated that the customer alleges that the vehicle was in park when it first happened, so they followed what she did and has not had any results so far. Status update provided via email to the following email address:

Hey [REDACTED] have you heard back from Rockaway Chrysler Dodge Jeep Ram? I have been informed that they are unable to duplicate the issue so I just wanted to see if they talked to you about it.

-Connor

End of Status Update

Begin Customer Message reviewed:

Hi Connor, No I have not heard back from them at all in the past 2 weeks.

If they can't 'duplicate' the problem, what's the next step? Also I have been without a vehicle for 3 weeks now. I spoke with the case manager that covered for you last week and she said she was going to speak with you regarding compensating me with my lease payment seeing as the dealership has had my vehicle since January 27th.

End of Reviewed Customer message

Writer contacted SM Victor to inquire if the customer has picked up her vehicle. SM stated that she has not picked up her vehicle. SM left her 2 VM's at the beginning of the week and has not heard back from the Customer. Writer advised SM to contact the Customer, provided customer's primary contact. SM stated that he will contact her in the morning.

Writer contacted Customer to inquire if she still hasn't heard back from DLR. Customer alleges that she still has not heard back from the DLR, the DLR did happen to call her after the first week informing that they were not able to get a response from STAR so they wanted to give the vehicle back to her. Customer alleges that that response was unacceptable and advised DLR to keep on looking into the issue. 2 weeks have passed and has not heard from DLR. Writer informed that the DLR has been contacted and advised SM to contact Customer to provide information. Customer confirmed, customer does not want to take legal action but will if she needs too, alleges that she would like to go to a 2nd opinion but only if the other DLR is able to provide a loaner, but cannot afford a rental vehicle. Writer informed that DLR's in her area will be looked into to see if they are able to provide a loaner vehicle. Customer confirmed.

Will follow up no later than 2/22/2016.

Writer contacted Customer to inquire of VM. Customer alleges that when he went to pick up the vehicle and the indicator light came on, however, the issue did become resolved, will try out the vehicle tomorrow to see if the repairs have resolved the issue.

#####DISREGARD LINES 169-171#####

Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40660. The reason for the customer contact was to provide or request the following information: To inquire if she has been able to pick up the vehicle from the DLR and inquire what they provided. Informed that there may be some DLR's near her area that could provide a loaner vehicle but would need to contact personally to inquire.

Customer left VM claiming that the DLR still has not contacted her informing her to pick up her vehicle, inquired about a reimbursement for a monthly payment she made even though the vehicle has been at the DLR for about a month, requests to receive Written verification of receiving a

rental vehicle.

Writer contacted SM Victor to inquire if the customer has picked up her vehicle. SM stated that the customer has not picked up the vehicle as of yet.

Writer contacted customer to inquire if the DLR has contacted her at all. Customer claims that she has not been contacted yet. Writer informed that research was done on the type of transmission that the customer has and that there has been similar issues before where a feature of the transmission where it does not take a whole lot of force to get the vehicle out of park while the engine is on, and that the transmission mightve been placed between the shifters and maybe moved back but it is unsure for it is an assumption, will inform DLR of information tomorrow 2/25/2016. Customer confirmed information. Writer informed that if the customer needs a rental/loaner vehicle, Writer will assist as much as possible. Will follow up with customer no later than 2/25/2016 between the times of 10:00AM - 2:00PM EST.

Agent attempted to contact dealer Service Manager Victor, however, Writer was left on hold without an answer. Unable to leave a message.

Writer contacted SR Caudia to inquire if the SM Victor is available. SR stated that the SM stepped out for a moment and advised to contact back in 15 minutes. Writer confirmed.

Writer contacted Customer to inform that the DLR is being contacted, and is waiting for SM Victor to respond which should be shortly. Customer alleges that she called the DLR not too long ago and that they said they have not touched the vehicle since the customer was last there, which was 2 weeks ago today. Writer informed that the SM will be contacted and informed of information in order to have the vehicle looked at more and have Internal Resources contacted along with trying to get the customer into a loaner vehicle but could not make any promises. Customer confirmed and has requested the DLR to provide her with a document that states the vehicle is 100% safe to drive, DLR can not fulfill that request. Writer informed that the Customer will be contacted back shortly. Customer confirmed information.

Agent attempted to contact dealer Service Manager Victor, however, SM not available. Left message for a return call at extension 40660

The reason for the dealer contact was to provide or request the following information: To provide information gathered from Tech Connect that could possibly assist the DLR in repairs of the vehicle. Requested for a call back.

Writer contacted SA Scott for SM Victor was busy at the moment. Writer informed that in Tech Connect going to the components list of the vehicle to go to the 8 speed transmission Automatic and TCM link that it provides, informed that there is a document PIDCE-00-TCM MONITORING PROCESSOR PERFORMANCE INCORRECT DRIVING DIRECTION to see if that document could help out the DLR, SA confirmed and will do further research on the document. Writer confirmed and inquired if a loaner vehicle can be provided. SA stated he needs to look at the time frame and will contact Writer back within the hour to provide information. Writer provided contact information.

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40660. The reason for the customer contact was to provide or request the following information:

Writer informed that the DLR has been contacted is currently working with the SA Scott at the moment, is expecting a call back within the hour, will contact customer back once information from SA is gathered, if not heard from today, Writer will give the customer a call tomorrow morning 2/26/2016.

Writer contacted SR Michelle to inquire if the SA Scott is available. SR stated that SA is currently busy with quite a few customers at the moment and inquired if she could take a message for him. Writer confirmed and inquired if the SA has heard back from his techs regarding the Customers issue. SA stated she will let the SA know and he will contact Writer back.

Writer contacted SA Scott to inquire if he was able to do any research.

SA stated that he has done as much research as he could but he has been busy and taken away from his research, stated that the customer has requested to be informed on paper that the vehicle is safe to drive. SA stated that the vehicle is currently safe to drive, the DLR cannot put that information down on paper for it becomes a legality issue and that is why they cannot, DLR has adjusted the vehicle 3 times in order to duplicate the issue and nothing has worked, informed that the Customer

has been requesting for a loaner vehicle, however, the DLR does not have any loaners available nor are they contracted with Enterprise, stated that they do not know what to do with the vehicle, has adjusted the vehicle 3 times in order to duplicate the issue and nothing has happened, the best thing at this point is for the customer to pick up her vehicle. Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40660. The reason for the customer contact was to provide or request the following information: Informed of lines 247-259, Writer has provided all the information gathered in order to assist the customer, if customer would like to try out a 2nd opinion, Writer will assist. informed that the best thing at this point in time would be to pick up the vehicle, if rental is needed it can be looked into in order to provide. Will follow up no later than 3/1/2016.

Status update provided via email to the following email address:

Hello [REDACTED], have you received the voice mail that I left you back on Friday last week 2/26/2016? I understand that the Dealership is not able to find anything wrong with the vehicle so I wanted to see if you have been able to retrieve it. I am still willing to help you out as much as possible, were you interested in going to a different Dealership for a second opinion. Have a great day today Ms. [REDACTED]

-Connor

End of Status Update

Writer contacted SR Michelle to inquire if the customers vehicle is still there at the DLR. SR stated that the vehicle is not at the DLR, the customer has picked up her vehicle.

Writer contacted Cusotmer to inquire of vehicle operations. Customer alleges that she has picked up the vehicle and that the DLR could not find the issue, however, one time she was parking the vehicle after she got her vehicle back and there was a slight rolling, Customer informed DLR but they replied with that the shifter has already been looked at, could not find the issue, Customer inquire about compensation for her monthly payments that she has made. Writer confirmed and will send her an email with Writers fax information. Customer confirmed.

Status update provided via email to the following email address:

***** EMAIL BRIEF DESCRIPTION CONTENT *****

2015 Grand Cherokee Shifter

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

This is my third Grand Cherokee and overall I really like it. I want to point out to you that there may be a safety concern with the shifter. Twice in 4 weeks I have intended to put the vehicle in park but ended up in reverse. I pushed the start/stop button to turn the motor off but it did not turn off because it was not in park. I actually opened the door and started to get out. With this shifter it is important to look at the lights to verify you are in the gear you want to be in. This shifter takes some touch to operate correctly. In the other cars I have owned I operated the shifter by feel and was not in the habit of verifying I was in the gear I wanted. In my other car you can stop the motor in any gear by turning the key to off. This may be safer. Also, I have accidentally bumped the minus paddle switch and put the transmission in manual. Not sure my wife could cope with this. Thanks

***** END OF CUSTOMER EMAIL *****

Dear

Thank you for contacting the Jeep Customer Assistance Center. We are very sorry to learn of your concerns, particularly in view of the inconvenience involved in this issue, are understandable and we appreciate the time and effort you took to bring this matter to our attention.

Regrettably, given the many variables involved, we are unable to diagnose your vehicle's problem via email. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair. Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Should your dealer require factory assistance they may contact our Technical Operations Resource Group or contact their regional Business Center.

If the vehicle is at the Dealership and the issues remain unresolved, please respond using your method of choice, either by phone or by using the link provided below to advise us of this information. We will be more than happy to further review your situation at that time.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-877-I-AM-JEEP (1-877-426-5337).

Sincerely,

Alex

Briefly summarize why the customer is contacting Chrysler: Customer states that in Sept/2015 vehicle was parked in front of bank and vehicle rolled away and hit another vehicle.

Customer states that in Oct/2015 vehicle was brought into DLR for diagnosis and a radio hub was replaced.

Customer states that customer is still having issue with vehicle not going into park and has to use parking brake just to make sure.

Customer states that customer now has a financial issue with the accident that customer has to pay more money then anticipated.

Briefly summarize what the customer is expecting: Customer is expecting assistance in getting vehicle repaired and compensation.

Agent sympathized with customer.

Agent advised that we would need the vehicle back at the DLR for diagnosis.

Agent advised that if DLR is unable to duplicate we can escalate to CM for further assistance.

Customer agreed.

Agent offered to transfer customer over to DLR to set up appointment.

Customer agreed.

Agent warm transferred customer over to DLR.

Reassigning to TL JS1881 for survey by-pass.

Vehicle rolling while in park

Customer is contacting Chrysler in regards to her vehicle rolling forwards while the vehicle is off and out of park. Customer states this incident has occurred 3 times once causing damage to her vehicle while she was at work. Customer states she took her vehicle into her local DLR for servicing and they are unable to duplicate her concern. Customer states she now has to engage her emergency brake when parking the vehicle just to ensure her vehicle no longer rolls. Customer states she s read in the newspaper that Jeep is acknowledging this concern and wants to know the next steps she should take. Agent advised customer we are unaware of any reports however, we do want to look into this concern further for her. Agent advised customer we will escalate her case to our case management team for further handling.

Customer advised that they will be contacted within one (1) business day, by COB their time

Re-assign to 82S

Agent contacted Abra See Lines 20 -23 and was told by Josh that they did not have the vehicle.

Agent contacted DLR 23753 and spoke with SA Mike who stated that the Insurance Company wrote the vehicle off as 'total' and sold it to a Body Shop.

Agent then contacted customer and advised him that because he went through his insurance company and no longer owns the vehicle there is nothing we can do for him.

Customer acknowledged and accepted.

File Closed - no longer owns vehicle.

Customer states that he still owns the vehicle and the insurance claim is not complete. Customer is interested in selling the vehicle to someone else. Customer feels he should be compensated and states that he spoke to another agent and discussed receiving and incentive to purchase a new vehicle.

Writer spoke with SA Buster.

SA stated customer was at the DLR 10/26/2015 as he was having concerns getting the vehicle into park.

SA stated that they completed 3 updates to the vehicle.

Transmission Control Module

Powertrain Control Module

RRT Flash update for the Radio.

Writer thanked SA for assistance.

Customer Contact:

Customer informed writer of one day a week prior to when he was at the DLR 10/26/2015, before work he stopped at the bank atm, put his vehicle in park, so he thought, went into the bank and his vehicle rolled backward and hit the vehicle behind him. Customer stated he feels that the vehicle slipped out of park.

Customer stated that aside from that, the shifter does not always go all the way up into park and will stick in Neutral even when he thinks the

vehicle is in park. Customer stated this is why he now makes sure he uses his emergency brake.

Customer stated when he was at the DLR in October, he did not mention the transmission concerns he was having.

Customer stated that the transmission does not feel it goes into gear at the appropriate times.

Customer stated that the updates that were performed have not fixed any of the concerns he has been experiencing other than the Radio. Customer stated that the radio seems to be working better however he has not used it enough to be 100% certain.

Customer informed writer that he has an appointment to bring the vehicle to DLR 23122 SALERNO DUANE, INC for further diagnosis 02/22/15. Customer stated he will be calling once the vehicle is dropped off.

Writer stated that once he does drop the vehicle off, reference the case number that was provided to him in the previous case when he contacted 02/08/2016 [REDACTED], as his case can be reviewed further and sent to our Case management department for further assistance.

Customer understood, thanked writer for following up and needed no further assistance at this time.

Customer called in stating his vehicle is at the dealership. Agent informed customer note will be documented and we will wait to hear the diagnosis.

Customer called in expecting some type of resolution to this issue.

Customer would like their case escalated and would like to speak to someone in regards to this issue.

Customer stated shifter not working properly since day one as far as customer is concerned.

Customer also stated shifter is a bad design and doesn't give the driver any feedback as far as what gear they are in.

As a result, the customer states their insurance has went up 70% percent since their vehicle rolled into another vehicle and also has damages that has yet to be paid for.

Agent tried to locate CM number and extension but was unsuccessful.

Agent sought assistance from BC638.

Writer contacted the DLR and spoke to the Service Advisor who stated that the customer picked up his vehicle on 2/23/2016. Customer stated the vehicle rolls away when he puts the vehicle in park. SA stated the vehicle doesn't have a traditional shifter and you have to be conscious of putting in gear. SA stated they were not able to duplicate the customer's concerns. Outgoing mileage is 10809 and the RO [REDACTED]

CONTACT UPDATE - Customer was contacted today at 2:52 PM

Customer was provided with agent's extension: 40781.

Customer noticed that it was an electronic shifter. Customer stated he was unsure of it. When customer is in drive and when he tries to park the vehicle if it's not done right it will stay in neutral. Customer thought he put the vehicle in park and it was in neutral and rolled into someone's bumper that did damage. Customer stated it was not issue about it coming out of gear but it's a design flaw. Customer stated the technician tried to duplicate the concern and was unable too. Customer stated the transmission doesn't shift properly and the navigation system is not working appropriately. Expectations: safety concern. Financial liability \$999. for the bumper to get repaired and increase in customer's insurance. Writer advised that we can't assist with the repairs of the bumper but we can see what other compensation we can offer after we've done some research. Customer will be contacted no later than 3/2/2016. Call DLR to find out if they were able to find any concern with navigation component 3/2/2016.

Follow up with customer following.

Writer called customer who stated he doesn't believe that he actually put the vehicle in park due to the fact that the vehicle shifting component is designed poorly which makes shifting harder; he didn't think anything of it when the DLR stated they weren't able to duplicate concern, until

recently he saw incidents on the news stating chrysler vehicles rolling back and causing accidents; stated he has been in touch with the BBB to further look into his case. Customer is expecting us to resolve his insurance concerns, as well as pay for the damages done to his vehicle. Writer advised would research and get customer to the correct department.

Product - Transmission / Transaxle - Gear Selector / Linkage - Jumps Out of Gear/Park - Default Unresolved shifting issues

Briefly summarize why the customer is contacting Chrysler: Customer has unresolved gear shifting issue.

Briefly summarize what the customer is expecting: Customer seeking options for repair.

Customer has had a repeat of issue referenced in CAIR # . Vehicle does not stay in proper gear and needs to be slammed to stay in park. Vehicle has recently rolled across a parking lot, and is very difficult to place in gear. Customer is worried about their vehicle safety. Customer was provided a loaner originally, appeared to be a DLR work cargo vehicle and was smoky and dirty, with no rear seats. Customer complained and was provided a proper loaner.

Agent contacted DLR 68596 Town & Country, spoke with SA Jason, who has been dealing with customer vehicle. SA has run numerous tests on vehicle, cannot find a mechanical issue. Vehicle checks out by all tests. SA and tech have driven vehicle; restated as in previous CAIR, vehicle shifting is operating as designed; stated the feel of these electronic transmissions is much different from older style transmissions. SA agreed there may be an issue with the vehicle and has been mentioned by the NTSB, but this issue is likely at the design level. SA stated they could run a few more checks to ensure issue is not repair-related.

Agent advised customer that DLR is doing all they can to diagnose vehicle, and that the issue with the shifter may be at the design level. Agent advised that addressing this at a larger level such as redesign, could take some time. Customer agreed to wait on DLR diagnosis before pursuing other options regarding the vehicle.

customer is contacting Chrysler stating that she took the vehicle again to the dlr to get the repair for the stick shifting and its still the same problem. Customer states when she picked up the vehicle, the DLR checked it and when the customer drove the vehicle, the shifter started sticking again.

Agent contacted DLR 68596 and spoke with Jason in service and advised the agent that they looked into updates for the transmission, drivability and even drove the vehicle himself and couldn't find anything wrong with it. Jason states its way the shifter operates and she doesn't like it.

Agent advised to the customer that the DLR is stating that it is operating as designed, agent advised that if she feels like there is something wrong with the shifting that she can go to another DLR for a

second opinion.

Customer called regarding previous case. Customer states previous agent advised her to go to different DLR for second opinion but that DLR isn't willing to offer a loaner because vehicle wasn't purchased there.

Customer is seeking transportation to get home while vehicle is being diagnosed

Agent advised customer there is no rental coverage and suggested looking into shuttle options at DLR

Incident #:

Hi, my name is Melissa with Chrysler Customer Care, How may I help you today?

Melissa: Hello

: Shoot I exited I was working with bonnie

Melissa: I certainly do apologize about that! While I am unable to transfer the chat to her, I can review it and try to assist you.

: Ok sorry

Melissa: That s quite alright!

Melissa: I show that you advised your vehicle was in an accident? I certainly regret to hear of that!

Melissa: May I please have the last 8 characters of your VIN to look into this for you?

: Fc

Melissa: Thank you! Can you please verify the address on file as well as approximate mileage?

: 20k

: Oxford mi

Melissa: Thank you for providing that information!

Melissa: Do you mind holding while I review the previous notes?

: Ok thanks

Melissa: Thank you. One moment please.

: Is there someone to call regarding this issue? Or you able to assist?

Melissa: Thank you for holding Matt. According to the previous notes you did indicate that the vehicle slipped into gear and drove down a hill. I certainly regret to hear of that. I would like to create a case for you and escalate this to our Special Investigations department for further assistance. They will contact you as soon as they conduct research.

Melissa: I would like to gather some information from you if possible.

: Ok thanks

Melissa: Can I please have your primary and secondary phone number, location of the vehicle (including physical address), Phone number of where vehicle is located.

: Oxford mi

Melissa: Thank you. I will escalate this case off for you to our Special Investigations department and they will look into this for you.

: Ok thanks

Melissa: You are most welcome, your case number is

Melissa: Do you have any other questions?

: will they bet be giving me a call?

Melissa: They will either contact you by phone, mail or email.

What is the timeframe on this?

Melissa: I would allow 2-3 business days.

Matt Dion disconnected (Concluded by End-user).

Transmission issue with Jeep shifting into gear on its own

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

****Customer Email****

My Jeep Grand Cherokee Overland 2014 shifted in to gear while I was not in the vehicle. I back into my garage therefore the front of my car was facing out. The garage is level and my car was parked about 2-3 back from the edge of the garage and fully inside the bay. I heard a weird noise and ran into the garage to see what it was. saw my car rolling down my yard into my neighbors yard. It hit their mailbox and yard before coming to a stop. Once I catch up with my car I opened the door and had to shift it into park because it was engaged in a gear. This issue has need come up in a recall notice and I have seen multiple other claims for the exact same thing with other people who own a Jeep. Jeep should be liability for correcting this issue and figuring out why it is happening and make it right with the owners where damage or injury occurred. Thankfully I only had minor scratches but have to get my car fixed which will cost me and my insurance over \$4k in damages. I have owned only Jeeps for close to 10 years and this makes me question my loyalty as a jeep owner.

****End of Customer Email****

Dear ,

Thank you for contacting the FCA Customer Assistance Center.

We regret to learn of the concerns you ve experienced with the vehicle shifting.

There is not enough information provided in your E-mail for us to appropriately address your concerns.

Could you please advise us if the vehicle has been to a FCA dealership for a diagnosis.

Please respond using your preferred method provided below to address your email further with us.

I will be more than happy to further assist you with your E-mail once additional information is provided.

Thank you again for your email. Should you require additional assistance, or have any new information to provide. please reply to this email message or call 1-800-FCA (1-800-247-9753).

Sincerely,

Dillon

CQI Comments : I think the shifter is dangerous because often it doesn't go into park when you think you've pushed it there. It winds up in reverse and you think you are safe to get out only to realize the car is still moving. I've had that happen many many times and I always have to double check to make sure it's in park. Scary situation.

Customer has not indicated concerns requiring further escalation at this time.

Status update provided via email to the following email address:

Hello

My name is Mike, and I am following up on a survey that you recently completed regarding your 2015 JEEP GRAND CHEROKEE OVERLAND 4X2. I have contacted the service department of AUTOPARK CHRYSLER JEEP @ 919-481-2880, who states the vehicle has not been recently diagnosed for the issues you mentioned. The service department is unaware you are currently experiencing issues.

We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.

Given the many variables involved, we are unable to diagnose your vehicle s problem via email or phone. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair.

Once you have been to a dealer to have your vehicle concerns diagnosed,

if you require further assistance from Jeep, please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Jeep Customer Assistance at 1.877.426.5337.

Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.

Thank You,

Mike

Hi, my name is Randolph with Jeep Customer Care, How may I help you today?

Randolph: Hello

Randolph: How may I assist you today,

Randolph: How may I assist you today,

I have a 2014 grand Cherokee and have almost gotten out of it several times with it still inn gear. The shifter will fool you into believing its where it should be but it s not. What is jeep doing about this problem? I would just like a coupon or voucher for a couple of thousand and I ll go get a 2016 grand Cherokee that they have already fixed this problems on. Any help out there for folks that don t feel comfortable/safe in their jeeps?

Randolph: I apologize for the inconvenience this has caused you James that you are having this issue with your vehicle, that is very frustrating. I will definitely do my best to help you.

Randolph: May I please have the last 8 of the VIN?

I m not sitting near it right now.

Randolph: What is the home phone number please?

Randolph: Thank you.

Randolph: Is there another number that you may have used as this did not bring any information up for me?

Randolph: I apologize but that number worked for me either.

Randolph: Did you purchase the vehicle new or used?

I purchased it in 2014 as a 2014 with 12,000 miles on it from a dealer.

Randolph: Whose name is the vehicle in and what is the state and zip code please?

Florida,

Randolph: What is your street address please?

Fort white fl

Randolph: What phone number do you want on the file?

Randolph: How many miles are on the vehicle?

45,000

Randolph: Have you taken the vehicle to the dealership for a diagnosis to see what is causing this as I do not show any recalls or extended warranty on the vehicle for this issue.

Randolph: This is your case number that I have all of this documented on for you.

It s the shifter causing it. I like the Jeep but not the

shifter. If Jeep won't resolve my complaint to my satisfaction so I can get a safer 2016 model. I'll be at a Chevy dealership in the near future. Does Jeep care????

Randolph: I do apologize but I am not able to diagnose the vehicle from here which is why I rely on the dealerships as they have all of the tools that can diagnose the vehicle.

Randolph: Why I'm sorry.

Randolph: Do you need me to locate a dealership for you?

██████████: This isn't a diagnosis issue. Jeep is aware of it and I've asked for a resolution but see I'm not going to get one. If my wife or I get run over by this darn thing, I guess Jeep will be happy. Thanks for nothing Jeep.

██████████: No longer a future Jeep customer nor will my family and friends be customers. Have a great day.

Randolph: I do apologize but I do not see any recalls or extended warranty on the vehicle for the vehicle jumping into gear which is why I need to have a diagnosis done on the vehicle.

██████████: It doesn't jump into gear and I never said that.

Randolph: Sorry with the vehicle still in gear.

██████████: Lol. Okay. Jeep is blowing off its customers. I've got a copy of this conversation saved.

Randolph: So that I can help get this resolved for you I will need you to bring the vehicle to the dealership for a diagnosis on the vehicle.

██████████: Headed to my unsafe vehicle. Jeep has been advised.

Randolph: So that I can help get this resolved for you I will need you to bring the vehicle to the dealership for a diagnosis on the vehicle.

Randolph: So that I can help get this resolved for you I will need you to bring the vehicle to the dealership for a diagnosis on the vehicle.

Randolph: Are you still there James?

Randolph: Do you need me to locate a dealership for you?

██████████: is currently Absent. Approximately 120 seconds until disconnect.

██████████: is currently Active.

Randolph: Do you need me to locate a dealership for you?

Randolph: I do apologize ██████████ but I am no longer getting any response from you so I will have to disconnect this chat session. Thank you for contacting Jeep Customer Care. Please chat with us again if you need further assistance. You can also look for updates on our website www.jeep.com. Have a good day!

Product - Electrical - uConnect Cellular System - Phone Pairing Compatibility - iOS 9 (iPhone)	Phone pairing issues.
Product - Electrical - Power Seats - Defective - Unknown	Seats will not work.

Briefly summarize why the customer is contacting Chrysler: Customer calling wanting to know how to do the software update for their U Connect system. Customer states that his U Connect system is not responding the way the vehicle was advertised. Customer states that her phone will drop calls. However the customer is having issues with the power memory seats. Customer states that the vehicle has been to the DLR multiple times to have the concern resolved, the DLR has done a couple of updates but nothing fixed the issue. Customer states that the steering wheel had multiple scratches in it when they purchased the vehicle.

*

Briefly summarize what the customer is expecting: Customer looking to do a software update for their vehicle. Agent advised that their U Connect system is up to date. Agent advised that there is an update that will be coming out in the next couple of months that could resolved most of those issues. Agent advised the customer that the phone call drop is a phone compatibly issue, and their vehicle is not as smart as the phone. Agent advised the customer that being that they had a duplicate unresolved concern with the power memory seats, that we can escalate their case to our CM dept.

CONTACT UPDATE - Customer was contacted today at 4:32

Customer was provided with agent's extension: 40759

-

Pandora not working consistently with the radio, Pandora option is not working, iPhone pairing drops without notice, main issue is with the tech package not operating properly, steering wheel had a scratch upon purchase, DLR had agreed to replace steering wheel for customer, since replacement customer had to reset everything, when opening door vehicle has an easy exit option that was functioning and is no longer working, issues are intermittent, would like to go to another DLR as they have relocated, can be sent email and text updates, will schedule own appointment. Writer advised that diagnosis is needed to determine next steps, can look into providing rental if needed, follow up 3/11/16 to confirm an appointment has been set and discuss next steps.

Status update provided via email to the following email address:

*****START OF TEXT MESSAGE SENT TO CUSTOMER by T0176AL*****

Hello this is your case manager Angy just wanted to confirm that you will be keeping your scheduled appointment for 3/21. If so I will follow up with you then.

*****END OF TEXT MESSAGE SENT TO CUSTOMER*****

Writer contacted DLR 45453, spoke to SA John who advised vehicle is not at DLR and there are no appointments in system for customer.

Writer contacted customer. Customer alleges vehicle is at DLR 60428, rental was provided, has been advised that vehicle needs an alignment, issue with radio has not been resolved, contact Tammy at 708-421-2318 for further update. Writer advised follow up with DLR is needed, issue with radio maybe a software concern that will have to be handled with U-connect department, will follow up with Tammy to discuss next steps.

Agent attempted to contact dealer Service Advisor, however, SA not available. Left message for a return call at extension 40759

The reason for the dealer contact was to provide or request the following information: Status update

Writer contacted customer and advised of lines 97-106. Customer alleges that DLR has advised there is no resolution for the issues she is having with her radio and Pandora as these are u-connect concerns, issue with windshield wipers not operating properly was not resolved as issue was not duplicated, control shifter will go into park or neutral on its own when her hand is resting there and DLR was unable to duplicate, customer is not satisfied with this response as this is a new vehicle that she should not be having these issues with her vehicle so early on, issue

with seats has been resolved, steering wheel was not put on correctly and vehicle also required an alignment, DLR has advised vehicle is ready for pick up. Writer advised that follow up with DLR will take place, will need a case opened with u-connect if issue is software related, STAR case will be requested, follow up 3/22/16.

Writer contacted DLR; spoke to SA Steve and advised of lines 107-119. SA advised he had no information on customer, speak to SA Josh who gets in at 9, will leave note for SA Josh advising a STAR case needs to be opened. Writer will follow up with SA Josh 3/22/16.

Writer contacted DLR; spoke to SA Josh and advised of lines 107-119. SA advised a STAR case will be started, DLR has been unable to duplicate concerns, u-connect issues are determined to be software related, phone is not compatible, customer may be moving into gear while her hand is resting on shifter. Writer advised CAC will authorize rental while STAR case is being completed.

Task To Dealer:

DIRECT-TO-DEALER

ATTENTION SERVICE DIRECTOR OR SERVICE MANAGER

Please follow your Business Center guidelines in an attempt to resolve this customers concerns. If needed, seek assistance from your District Manager, Business Center or STAR.

The unresolved concern is Reffer to lines 107-119

Action requested: STAR case

Please update this CAIR with resolution.

#####

Task Type: STAR case opened

Writer contacted customer at [REDACTED] and advised of lines 124-129, will contact customer when update is available.

Customer requested ETA. Writer advised 1 business day for STAR to respond, follow up 3/23/16 to discuss next steps.

Writer contacted DLR spoke to SA Josh and went over STAR case, advised case should be updated with all customer concerns in lines 107-119. SA advised STAR case will be updated, has not been able to duplicate customers concerns. Writer advised follow STAR resolution once updated and will determine next steps when update is available. Follow up 3/24/16.

Voicemail

SA Josh request call back

Agent attempted to contact dealer Service Advisor Josh, however, SA not available. Left message for a return call at extension 40759

The reason for the dealer contact was to provide or request the following information: Returning call

Writer contact the customer, to inform DLR is still in progress of working with START and to stay in the rental until vehicle has been repaired. Customer state does not want to get his vehicle return to him.

CM will follow up with customer with new status of repairs

Follow up with status of STAR case

Writer contacted DLR; spoke to SA Josh and went over STAR cases. SA advised vehicle is ready to be returned to customer, 5 days of rental.

Writer advised CAC will put in notes for 5 days of rental, will provide update to customer.

Writer contacted customer and advised of lines 162-165, case with u-connect would have to be opened to address those concerns, vehicle is ready for pick up. Customer alleges this is an unsatisfactory response as she has been without her vehicle for a week with no resolution met, would like to get out of vehicle and have it replaced, request reimbursement for the TECH package she purchased for her vehicle as it is not compatible with her devices, is no longer satisfied with product. Writer advised that could have case reviewed for 91L but cannot make any guarantees, refer to warranty booklet for consumer started processes on getting out of vehicle or work with DLR directly, rental must be returned, will follow up with customer 3/28/16 to discuss next steps.

***** Below Customer Contacted for Documentation Request *****

angy.lucero@fcagroup.com on 2016-03-26 @ 13:42

***** Customer Document Received *****

Writer contacted DLR; spoke to SA Josh who advised vehicle has been returned to customer, 4 days of rental. Writer advised DM notes for rental will be submitted.

Customer Document Reviewed.

Writer contacted customer and advised of restriction H, if there are any more mechanical concerns case will need to be escalated to ECS, otherwise case will be reassigned to 86U to have issues with u-connect addressed. Customer alleges at this point there are no other mechanical issues to be addressed as DLR has advised issue must be duplicated in order to proceed with repair resolution, case can be reassigned. Writer advised that new CM would contact her in 1 - 2 business days.

****U-Connect Case Management Escalation****

Customer email address for case updates: N/A

86U cannot assist as part approval is required by ECS.

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40759. The reason for the customer contact was to provide or request the following information:

Advise of steps to take for u-connect

Status update provided via email to the following email address:

[REDACTED]
Hello, this is Angy your case manager. I am reaching out to you as your case has been returned to my department and I would like to go over the next steps with you. I have been unable to reach you on your cell phone. Please contact me at your earliest convenience so that we may go over this information. Otherwise I will reach out to you 4/4/16. Thank you for your time and have a good night.

End of Status Update

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40759. The reason for the customer contact was to provide or request the following information:

Advise of steps to take for u-connect, case will close 4/6/16

Writer contacted customer and advised that case has been returned.

Customer alleges her current provider is ATT iPhone 6 and software is at least 2 software updates behind, is no longer satisfied with product and feels that she is paying for a product that does not work. Writer referred to driveuconnect.com, can refer to website for pairing / software concerns, because issue is determined to be software related there is no further assistance CAC can provide, if customer is seeking reimbursement she must refer to DLR as this is sales dispute that CAC will not be able to take part in. Customer alleges this is unsatisfactory and there is nothing more that CAC can do for her, customer disconnected call.

Please call customer [REDACTED]

End of Status Update

Customer left writer a voicemail. Customer is requesting a call back. Writer called DLR. Writer spoke with SA Eric. SA states customer dropped her vehicle off. Customer is in a loaner vehicle. SA is in the process of diagnosing the vehicle. SA requested writer to follow up on 03/17/2016.

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40629. The reason for the dealer contact was to provide or request the following information: to get an update on customer's vehicle.

SA left writer two voicemails.

Writer called DLR. Writer spoke with SA Eric. SA states they were not able to duplicate the vehicle rolling back from park. They parked the vehicle in an incline, service has a little hill. SA was able to duplicate the check engine light concern they replaced the purge valve. SA was not able to duplicate the radio turning black and Bluetooth losing calls. SA provided the RO number [REDACTED] mileage of 33,750. Writer called customer. Customer states she no longer wants this vehicle. Writer informed customer of lines 72-77. Customer states her concern is her vehicle rolling back from park and radio turning black. Writer informed customer if our DLRs are not able to duplicate the concern we can't repair or replace parts. Writer informed customer she can contact her sales department or loan agency. Customer requested to speak with a sup.

Writer transferred customer to sup 40756

*****Supervisor Call*****

Customer was transferred to writer and customer informed that they have been having different concerns with the radio since purchasing the vehicle and the current concerns are different than they were before the radio replacement. Customer informed that the vehicle has only rolled 2 times and both were on an incline when the parking brake was not being used. The remote start was not working, and writer informed that it will not when the check engine light is on. Customer informed that they were made aware of this. Customer handed phone to her husband. Husband informed that they simply want a reason to stay with the company. He understands that the DLR cannot do repairs without duplication and just wishes that it was easier to duplicate the concern at the DLR. Writer offered oil changes and customer informed that they already have them. Customer would like a vehicle payment or a discount off a new vehicle. Writer informed that the CM will research this. Monthly payment is \$439.94.

Vehicle exhibited slippage last year

Briefly summarize why the customer is contacting Chrysler: Customer has case from last year.

Briefly summarize what the customer is expecting: Customer seeking followup of case.

Customer called in last year with issue referenced in CAIR #. Customer's vehicle slipped out of gear and rolled into a pasture. Customer's case did not progress as at that time there was no official statement of issue. Customer did not follow up with CAC until today. Customer did take vehicle to local DLR for repair; DLR could not replicate issue or find any error codes. Vehicle has not exhibited issue since; customer does not leave vehicle running while in Park anymore. Customer has asked DLR during other service appointments if any followup for this situation have appeared; DLR informs customer there have not been any followups.

Customer asked why they had not been given any contact and complained about FCA customer service; stated customers like courtesy followup calls. Customer stated FCA does not care about their customers.

Customer inquired why they had not received any followup.

What happened?: Customer states he went to the store with his wife, while he went into the store he left the engine running with his wife in the vehicle. While he was in the store the vehicle went into reverse itself and flew back into another car and then went back into drive and went over the curb and went full force into a cement brick.

Briefly summarize why the customer is contacting Chrysler:

SRT Customer

Briefly summarize what the customer is expecting:

Assistance with SRT vehicle concern

####

Customer is seeking assistance arranging for an inspector, as his vehicle has experienced a transmission failure resulting in damage

#

Agent attempted contact with SRT Department; Customer transferred to CSR NM1026.

####

Caller's Name:

Relation to Vehicle Owner: Owner

Best contact phone number:

Reason for Contact: Seeking assistance in arranging a Inspector

In-service-date: 01/30/2016

Vehicle mileage at time of call: 5186

Purchased new or used? NEW

MVP: YES

Loyalty history: 2 NEW

Vehicle Model/Year: 2015 JEEP GRAND CHEROKEE SRT 4X4

Mileage/KM: 5186

Servicing dealership: Orange Coast

Who has possession of vehicle (dealer/customer)? DLR

Has vehicle been diagnosed? Y

What was the diagnosis? NA

What has the dealership informed the customer? DLR gave customer a bunch of papers, and informed him to call SRT to set up an inspector for the vehicle.

Has there been related repairs? Y

When and at what mileage were previous repairs completed? in the past few weeks, no absolute dates at time of call

Customer expectations: to have the issue addressed

Agent advised: Agent advised she needed to contact the DLR for further information.

-

Agent advised he customer that she would have to speak with the DLR and she has left a message for them to contact her with more information.

Agent advised she would follow up when she had further information for

them.

-

Task To Dealer:

SRT CM is trying to find out the diagnosis of the vehicle, also wondering what 'inspector' has been referenced to with the customer. If the vehicle needs inspecting please open a STARS case or reach out to your AM.

-

Task Type: STAR case opened

OUTBOUND DLR CONTACT- Agent contacted Orange coast CDJ and LVM for SM Jeff. Agent left the case number and SRT number.

Corporate - Property Damage - Default - Default - Default	
Product - Unknown - Unknown - Accident - Default	

Briefly summarize why the customer is contacting Chrysler:

Vehicle in Accident/Incident

Briefly summarize what the customer is expecting:

Documentation of Concern

###

Customer states that She was at a Drugstore, and attempted to put the vehicle in park. The vehicle instead rolled forward and struck a Toyota. The vehicle has since been repaired, and returned to Stateline Dodge; Customer no longer owns vehicle.

#

Agent advised that he could document the concern. Agent also contacted DLR 60262 and confirmed that the TSB the customer mentioned was a separate issue that would not cause the above-mentioned incident.

As the customer has not only repaired the issue, but also disposed of the vehicle, this Agent is unable to pursue the matter any further. Customer was informed of this.

CQI Survey Record Received - DATE : 01/04/2012

Survey Number : 629423

Quality Survey ID : 6

Survey Date : 01/03/2012

VIN Last 8 : CH

CQI Comments : Seat Beat extensions, why are they not free when I have for the last several years have always gotten them free at competing companies. Lincoln/Ford has always provided them to me when I purchased their vehicles, new or used.

Survey says, 'Driver's side HIGH Beam too high; does not illuminate further down the road, only top of trees. Even though I got regular headlights, the brightness 'seems' too low. I can be next to other cars and road in front of them is brighter than mine. Trunk lid hard to

close, have to slam hard to catch. When applying parking brake, it pops up. I have to try several times before it stays down. Wish I could just press it down and it stays down. Then press again to release. But I have to press it down lots of times before it catches. Parking Brake light on dash is too low. It is hidden behind the steering wheel. I cannot see it when the parking brake is engaged. While the light indicator was higher on the dash so I can see it and release the brake before trying to drive off. USB & MP# connections should NOT be 'Inside' the center console. Hard to use and get to. Should be OUTSIDE of the center console or on the dash. Center console is difficult to stay open as the cover will always come down while I am trying to get inside. Wish it would just stay open or bend back more as allow more room to get inside. Engine seems to want to drive off by itself when cold. I am use to where if I lift off the gas pedal the car just idles. In this case it drives off and continues to increase in speed without me using the gas pedal. I have to use the brake the first few minutes of driving. Engine idle speed is too high when cold as it will drive off if in gear and I do not have my foot on the brake. It will increase speed unless I use the brake the first few minutes or the first mile or so. 2nd Gear at low speeds, hard shifts between gears. Seems like I have to push or toggle the gear shift 'twice' to get it into park. Not sure if this is normal as I can never get the vehicle into park unless I toggle the gear shift twice to the park position. (1) Front Seat beat clips are too low & hard to reach. Should be higher and easier to get to. Ford dealers give out FREE Seat belt extenders but Chrysler does not. So it would be nice if you just place the seat belt clip higher. (2) Rear vents do not put out any heat when using auto mode for aid conditioning. I have to place from Auto mode to fan mode and even then will only put out a little when the fan is only in HIGH (and very noisy) mode. (3) Bluetooth option on the car will NOT let me listen to my voice mails. (4) Security Issue: By having the rear seats able to open from inside the vehicle thus allowing people to access a locked trunk by breaking a window and pulling down the rear seats. Should have the rear seat release inside the trunk, not inside the car. (5) Wish the display had an option to show the day/date in addition to the time. (6) Wish the daytime running lights (which are great) would stay on when the turning signals are being used. (7) Wish the front seats were a little wider. Too narrow for my comfort. (8) The dash light indicators (ie: for headlights, hi-beams, etc) are way too dim. Only when do I place the lighting control on the dash to full brightness do then show up decent -but then the whole dash is way too bright for evening or night driving. The indicators need to be brighter when the whole dash is in middle or even in low brightness.'

***** CASE MANAGER TEAM - District 88Z *****

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

. The customer complained that the 8 speed electronic automatic shifter requires one's complete attention to make sure vehicle is in the proper gear especially going from Park to Drive or from Drive to Park or from Reverse to Neutral and from Neutral to Reverse. The customer complains that the Navigation system and the voice command system are not mentioned in the owner's manual. The customer said that he mentioned these issues to the 60353 STEPHENS CHRYSLER Dealer and that they informed him that a fix from the manufacture will be needed to correct these issues. Agent thanked the customer for the feedback and asked to call Chrysler at 800 247-9753 should further assistance be required.

CLOSED LOOP UPDATE - no need for additional follow-up.

Customer states the vehicle has 8 speed automatic transmission with new shifter

Customer is very dissatisfied with the transmission shifter

When putting vehicle in gear, the shifter is extremely touchy because it isn't mechanical

Customer states he went to an automatic car wash on Saturday, and the car wouldn't go from neutral into drive without putting your foot on the brake very hard. Then the vehicle ended up in park, and would not come out of park. Customer states the lights came on on the dash saying the all wheel drive needed to be serviced. Customer states he spoke with service manager and was told the vehicle should go from neutral to drive. Customer is taking vehicle in later in the week to have it checked out.

Customer is planning on purchasing a new Jeep Grand Cherokee, but with

the new transmission shifter in it, he will not purchase the Jeep.

Briefly summarize why the customer is contacting Chrysler: Customer stated that his vehicle is not working properly as his transmission indicator states that it needs service.

The customer stated that he is in Texas. The customer has visited a dealership Ed Payne Motors

2101 E Expressway, 83 Weslaco, TX 78596

956-968-2158.

The customer stated that he had the routine oil job done at the time of his

visit to the Ed Payne Motors. The customer stated that the dealership instructed him that they could not duplicate the problem with the gear shifter. The customer stated that the dealership Ed Payne Motors told him if he had trouble that they would tow him in to the dealership however the customer does not want to have any further problems and he feels that they should have been able to put this on the scanner and analysis what was happening. The customer does not want to be stranded on the road while travelling. The customer stated that the malfunction indicator light is remaining on. The customer called today stating that he

pulled into a store and could not get his vehicle into park and he could not leave the vehicle as he was unclear which gear it was in as well as he could not use his locks. The customer stated that if he puts the power window down that the vehicle will lock but this is not much good when you want to lock up your car and the window has to be down. The customer stated that the owners manual says that you should seek immediate service if the indicator light flashes however his is not flashing it just stays on continuously. The customer stated that he would like to get this repaired and is seeking the assistance of a case manager to ensure that he is able to get his vehicle repaired correctly.

Briefly summarize what the customer is expecting:

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

Customer alleges the vehicle is at the dealership now.

Writer advised customer would call dealership and get some information of where his vehicle is at in the repair process.

Writer made attempt to contact dealership 60448, at 281-421-6000. Spoke to Jennifer Cashier alleges Charlotte is Service Advisor. Jennifer took writers information to have Charlotte SA to call writer back.

Writer contacted dealer 60448 and spoke to SA Charlotte who stated that they did not find any defects/problems or duplicate concern with vehicle. Dealer believes that customer did not put vehicle in park all the way but can't prove this.

Spoke with Jennifer-Cashier and indicated the vehicle was picked up and is no longer at the dealership. Charlotte-SA is off today.

Writer spoke with Mr. and advised his complaint about this situation he experienced has been documented. States the vehicle is operating fine now and the concern has not recurred. Advised customer to contact the dealership and Chrysler if this concern recurs in order for us to diagnosis and take action on whatever the dealership recommends. Advised customer his case (permanent file) will now be closed and invited him to call us back should any other issues arise in the future.

CLOSED LOOP UPDATE - no need for additional follow-up.

***** EMAIL BRIEF DESCRIPTION CONTENT *****

8 speed transmission

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

I have had my car to Ed Payne in Westlaco, Tx. four times for my transmission and it still isn't fixed. After driving awhile my malfunction indicator light comes on and then when I stop the service transmission light comes on and I can't get it into park. I can't leave the car or get in the trunk because the car won't go into park. After leaving it sit for an hour or so it goes into park on its own. The last time I had it to Ed Payne they had it for a week and I think all they did was reset the codes. I have been on vacation in Texas which is why I took it to Ed Payne. I am going back to Illinois soon so when I get back I will take it to Jack Wolf. Hopefully they can resolve the problem.

*****END OF CUSTOMER EMAIL*****

Dear [REDACTED]:

Thank you for contacting the Chrysler Customer Assistance Center in regards to your 2012 300.

I regret the problem your vehicle has experienced and appreciate the time and effort you took to bring this matter to my attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.

Unfortunately, given the many variables involved, we are unable to diagnose your vehicle's problem via email. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair.

Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Should your dealer require factory assistance they may contact our Technical Operations Resource Group or contact their regional Business Center.

In addition, our records indicate that the following recall campaign has not been performed by an authorized dealer:

Recall Number: M08

Description: GEAR SHIFT INDICATOR LIGHT BRIGHTNESS

Type: WARRANTY

Date Issued: 03/16/2012

Status: INCOMPLETE

We suggest that you contact your local authorized Chrysler, Dodge, Jeep or Ram dealer to make arrangements for an inspection and, if necessary, corrective action at no charge to you.

Please take a copy of this message with you at the time of service to aid the process. Although not required, it is recommended to bring a copy of the recall notification with you to your dealer's service department when you bring your vehicle in for this service.

If you wish to obtain further information, please contact the Chrysler Group Recall Assistance Center at 1-800-853-1403.

Thank you again for your email.

Survey Date : 05/10/2012

VIN Last 8 : CH

CQI Comments : Quality 434 361 2192

Survey says. 'Dealer I purchased my vehicle from treated me like a dumb person, (I have two degrees in engineering). Driver s side front door is a heavy door; when fully open, it is a stretched to pull it back. The use of crappy looking plastic to finish off the console as well as the rest of the interior trim is a disapointment. Wood or faux wood would have been much better for the 'luxury' interior as it would have put the 300 in the Audi/Infiniti competition. It s a little difficult to consistently get into park (E-shifter) Reverse (R). High beams are too high. My other car is an Infiniti G35X. The 300 doesn t measure up to the quality of the Infiniti. For example, the 'luxury' package on the 300 has cheap plastic trim while the Infiniti has wood interior trim. The Infiniti has a garage door opener as standard, the 300 requires that an additional package be purchased. (Dealer didn t tell me about this.) The 300 just doesn t have the quality feel.'

Customer calling needs a callback asap.

Customer disconnected because she thought she had an incoming call from the SM for the rental approval.

Writer dialed vehicle is non driveable is parked somewhere on a road and has not been towed to dealership. Customer stated will be towed to dealership 60196. Writer unable to authorize rental since not at a dealership. Writer indicated to customer if needing a rental over the weekend writer will do a reimbursement for rental. Customer understood and will contact dealership.

Called customer who advised writer that the tow truck went to pick vehicle up and when the tow truck got there the vehicle went into gear so

they advised the customer that they can not tow it customer would have to drive it to the dealership. Customer stated drove vehicle home and has not driven vehicle has it in the driveway. Customer stated afraid to drive vehicle because does not want to brake down again. Customer picked rental up on Saturday 5-19 at about 11:00. Writer advised customer to keep rental till customer can get vehicle into the dealership for a diagnoses. Customer stated has an appointment for 5-23. Customer stated that the 1st customer service person told her there was a recall on the transmission. Writer advised customer there are 2 recalls but does not show for transmission shows for GEAR SHIFT INDICATOR LIGHT BRIGHTNESS and ABS/ESC WIRING. Customer stated even the dealership advised her of transmission recall. Customer wanted to know about lemon law. Writer advised customer does not know too much on lemon law but thinks there has to be at least 5 repairs on the same thing for lemon law. Customer stated the problem has happened before and called dealership but when drove vehicle after sitting over night the problem went away. Writer advised customer to take in and will have case manager call her after getting diagnoses from dealership.

Spoke with Brian sm to check on customers appointment. Brian sm stated does not show an appointment for customer and customer live over an hour away so does not think customer would be going to his dealership. Writer advised customer will call customer and see what dealership customer going to.

Called customer back and customer advised writer to call her husband at [REDACTED] because he is the one making all the arrangements.

Spoke with customer at [REDACTED] to check on the dealership customer going to. Customer advised DODGE COUNTRY, LTD on 5-23. Customer stated this is his 1st new vehicle and wanted to know with the recalls and the transmission problem if he could trade vehicle in for another one just like it? Writer advised customer that would be up to the dealership but if customer is talking about a lemon law customer would have to have about 5 repairs on vehicle for the same thing but what Chrysler wants to do is see if the vehicle can be repaired 1st. Customer understood. Writer advised that the case manager will call the dealership on 5-23 to get diagnoses.

Spoke with Larry sm who stated no appointment.

Called customer back to verify dealership. Customer stated that Dodge Country is the dealership and there is no appointment was told to just bring in and when mechanic comes in at 8:00am will have vehicle looked at.

DEALER CONTACT - Writer called dealership twice. First time call was disconnected after pressing 0 for operator. Writer spoke with Service Manager Larry. (SM) states the customers vehicle is not there and the customer was put in a rental by previous agent. (SM) states he is going to obtain more information and call back.

Writer attempted to contact Service Manager Larry at dealership. (SM) out to lunch. Writer left CAC number and extension 66360 with receptionist requesting a call back.

Writer contacted dealership 3 times. First two times the phone was disconnected by dealership. Writer left voicemail for Darrin.

2nd attempt made to contact customer. Left message.

[REDACTED] called to speak with CM CL550. With customer's permission, writer transferred customer to CM's voice mail, as CM is not currently available.

EMAIL: [REDACTED]

Agent contacted customer and spoke with Mrs. [REDACTED] Customer states Mr.

[REDACTED] was calling for an update but he contacted the dealership and they advised him they can not fix the car. Customer requested agent to contact Mr. [REDACTED] on his phone at [REDACTED]

Agent contacted customer at [REDACTED] Agent spoke with customer. Customer states the Service Manager called him and advised him they could not duplicate the transmission concern but they are going to run more tests. Customer states the dealership is going to take care of the recalls while vehicle is there. Agent confirmed the customer's concern was the gear shifter being stuck in park. Customer states he should be able

to pick the vehicle up today and return the rental. Agent advised customer she will contact the dealership and get an update and contact him tomorrow. Customer understood.
Agent attempted to contact Service Manager Larry. Agent left voicemail requesting call back.

██████████ called to speak with CM CL550. Writer spoke with CM and warm transferred customer to CM CL550.

Agent spoke with customer. Customer states he has another question, dealership has not contacted him and the rental vehicle is due back today. Customer wants to know what to do? Agent advised customer we are providing rental on a reimbursement basis and he can extend his rental one more day. Customer thanked agent. Agent advised customer she is still waiting to get an update from the dealership.

Status update provided via email to the following email address:

██████████

I just wanted to let you know that we are still waiting for a update from the dealership on your case, I can assure you that we are working on your case and will follow up with you on 5/29 to let you know where we are with your case. Thank you for your patience with us at this time.

~Jessica~

End of Status Update

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 66014.
Dealer Phone : 254-634-6767 Agent attempted to contact dealer Service Manager (SM) Larry Moody, however, SM not available. Was on hold for a long time and then talked to SA Walt who stated that came in for oil change and got stuck in park then two recalls were done.

Status update provided via email to the following email address:

██████████

HI

This is Brooke customer care at Dodge and would like to give you a quick up date to your case with us. Your Case manager is still working on your case and I will have some get back to you on 05/31. If you have any questions please call us at 1-800-763-8422. Extension 66360
Thank-you, Brooke.

End of Status Update

Attempted to contact customer, dialed ██████████. Mrs. ██████████ answered, writer identified herself, and the call was disconnected.
Caller ALBERTO ROSARIO requesting to speak with Case Manager returning call, had accidentally disconnected.

Case manager on another call will call her back ██████████ best to call for Mrs ██████████

Dealer Phone : 254-634-6767 Writer SA Will and he stated the vehicle was picked up 5-29-12

██████████ on 2012-06-01 @ 11:27

Agent contacted customer to confirm repairs. Customer states the car is fine but has a couple complaints with the dealership. Customer states the dealership states they could not duplicate the transmission problem. Customer states there were oil prints all over the vehicle, the fender and the bumper. Customer states the dealership took a cap off in the middle console, a coin storage where the override lever is. Agent advised customer she will contact the dealership and advise them to put the part back in. Customer state the 'change oil light' is still on after they performed an oil change. Customer states he washed his vehicle so the prints are not on the vehicle any more. The pack of smokes in the vehicle as well, and he does not smoke. Customer asked about the reimbursement for rental. Agent advised customer to send in the documents so we can start processing the request.

Dealer Phone : Agent contacted dealership to speak to the Service Manager about customers concerns. Service Manager was unavailable, agent spoke with Service Advisor Walt. Agent expressed customers concerns with (SA). (SA) states the customer can bring vehicle in on Monday and he will reset the light and take a look at the console. Agent thanked (SA)

machine

2nd attempt made to contact customer. No answer, No machine.

Called Owner and discussed his concerns. Vehicle has come out of park twice, and rolled away from him. Owner very concerned about the safety of the vehicle. Owner would like the vehicle completely checked out to assure this doesn't happen again. Owner states the vehicle was involved in an accident as a result of this, but insurance is involved, and vehicle has been repaired.

Called dealer, spoke to Ron, SM. Advised SM of situation. SM advises that this is a concern with the new transmission, and that drivers must be very alert when placing the vehicle in park. Advised dealer of owner's concerns, dealer will contact owner and invite him back to the dealer for a complete check up just to make sure everything is ok.

***** CASE MANAGER TEAM - District T *****

Writer contacted the dealership at 68406 and spoke with Service Manager Carlos. Writer advised SM he is checking the status of the vehicle. SM stated he has a case with STAR on the shifter concern and he is waiting on a diagram from them to help get the vehicle repaired. Writer will follow up with the customer.

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

Writer stated lines 22-26. Customer stated he is currently paying for a rental. Writer stated as soon as the vehicle is fixed CDJ would require documentation and proof of payment and CDJ would reimburse for the rental. Customer is satisfied. Writer stated he will follow up with the dealership and the customer on Wednesday to check the status of the repair.

CAIR has been escalated to the I2R team for special handling.

calling to see what is going on with case. customer did get a call from MB1405 today. Writer advised customer that the case has been escalated to I2R for assistance. Writer provided customer the number of 800-215-6230 if customer does not hear from anyone. EMAIL: declined

Customer contacted writer through extension. Customer stated they would like to know what is going on with their case. Writer advised their case had been escalated to special handling and they should receive a call

back within one business day of it being escalated. Writer stated to call 801-215-6230 if they need to speak with them right away. Customer agreed. *** Lawrence Dunson with the I2R Customer Resolution Team is now responsible for this CAIR.

The owner's son () called in to state how frustrated he is with the multiple repairs on the vehicle. () filed the complaint. () stated that the car has been in for repairs three times. () is stating that the gear shifter is not working correctly on his vehicle. When he attempts to take the vehicle out of park, the lights on the gear shift go out and the 'P' (Park) indicator on the dash never moves to 'D' (drive) even though the actual gear shifter does move back and fourth. () advised that he was told by the dealership that there was an update for this issue but even after the update, () stated that he still received the same issue. () stated that he has been stuck for hours at a time due to this issue. () is requesting a new vehicle due to the multiple repairs on this vehicle. Currently the owner is in a rental (Chevrolet Impala) being charged \$45 per day. Contacting the dealership to change the rental to a CJD vehicle at \$35 day.***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Spoke with the service manager (ED) who confirmed that he has one repair order on file for the vehicle stalling at idle. The repair for this issue was a flash update. Ed will be faxing this information over.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

****Please disregard lines 63-67****

Contacted the dealership to authorize a rental for the owner. Was advised the service manager will not be in until tomorrow. Will callback tomorrow to speak with Carlos the service manager to authorize a rental. ***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called and spoke with Carlos, the service manager who advised that the vehicle is currently at the dealership and they are consulting with STAR. Prior to this visit, the owner was in for one other repair for this issue, but the dealership was not able to duplicate the concern. Service manager advised that they are not a shelf authorizing dealership and they do not have a loaner vehicle available to provide. Currently the customer is not in a CJD vehicle and is paying \$45 per day for a rental. ***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Patricia Lilly called to check on the status of the vehicle. Advised that I am going to have TAPS (Escalated Technical Team) review the case to see if any additional assistance is needed on the repair and will go from there. The owner stated she was upset because the vehicle has been in the shop more than it has been on the road and the monthly payment for the vehicle is due very soon. Offered to reimburse the customer for a monthly payment. Advised the owner to send a copy of her contract showing the monthly payment. I called back a left my fax number of 972-652-3590 on the owner's voicemail. The owner stated that if she isn't available to speak with Shawn regarding the status.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Patricia Lilly called callback to check the status of the vehicle. The owner advised that she needs to know what to tell enterprise as far as how long it is expected that they will need the vehicle. Advised that I would follow up on the TAPS case submitted a callback, Patricia advised that when I callback to speak with Shawn.

Contacted the dealership and spoke with Carlos, Carlos advised that they still did not have a loaner to provide, and if the owner needed a rental they would have to pay up front and be reimbursed.

Called and spoke with Shawn. Asked [REDACTED] was it ok if they remain in the current rental and be reimbursed once their vehicle is returned to them. Shawn advised that as long as they are reimbursed, he will be fine with keeping the rental that they have now. ***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

The owner called and stated that he is frustrated because he has been to the dealership and it appears that they have done nothing with the vehicle, the owner advised that at this point because the vehicle was been in the dealership more than on the road, he wants to be taken out of the vehicle. Advised that I would present his offer in the board meeting on 7/30/12. ***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

7/30/12: Sent email to dgd: 'We submitted a TAPS request to the Transmission Group on 7/25 and TAPS responded as follows: 'I contacted the dealer spoke to Adolfo. Sounds like the vehicle has a buss problem. Codes that set keep changing. This may need to be transferred to the electrical group.'

With that said, the CAIR system will not accept a second TAPS request, so can you please forward this TAPS request to the appropriate TAPS (Electrical) Group...

Check approved.

The owner called to check on the status of the vehicle. I advised that per the last notes in the STAR case we are waiting on the dealership to respond as to if they received the codes noted. The owner advised that it appears nothing is being done. I advised that I would speak with the dealership and advise them to respond. The owner advised that she does not want to continue paying for a rental while waiting on the repairs. Contacted the DM, to see if there was a way to take the owner out of the rental vehicle that they are paying for and place them in a rental provided by the dealership. The DM advised that the dealership s policy is that the owner pays up front for the rental and is reimbursed later. If the owner is in need of a vehicle while her vehicle is in the shop, she will need to continue to pay up front and a reimbursement can be processed once she is taken out of the rental. Advised the owner this information. Advised the owner that the dealership will need time to respond in STAR.

Called the dealership and spoke with the service manager, Carlos. Advised Carlos that the last notes in STAR were updated on 7/26/12 and that the service tech needs to respond in STAR to move towards a resolution. Carlos advised that the tech was working on the vehicle today, but he will have the tech update STAR in the morning when he returns.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

***** Customer Document Received *****

Check received and sent to customer through US Mail.

Called the dealership and spoke with Carlos the service manager and the technician, Adolfo. Adolfo advised that since the vehicle has been into the dealership, they have not experience any issue with the transmission not shifting out of park. Adolfo stated that the vehicle is running smoothly. Currently there are no active codes. Advised the service manager that since we have not been able to duplicate the concerns to schedule an appointment for the owner to test drive the vehicle with the service manager so that he can see that the issue is not being duplicated. Carlos agreed that there was no further action needed, and he agreed that before releasing the car, he would test the vehicle.

8/1/12 Received email from tjb16 confirming customer s payment reimbursement in the amount of \$642.02 has been issued and mailed to the customer. CM

Advised the owner that the payment was mailed. Will follow up after test drive.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

The owner called and left a message advising that the check engine light has come back on so the vehicle is being taken back to the dealership. Spoke with the owner. The owner stated that he picked the vehicle up on 8/2/12. The owner stated that later on in the day, the check engine light came on. The owner advised that he did not have the issue regarding the gear shift but he took the vehicle back to the dealership on 8/3/12 because of the check engine light. The owner stated that the check engine light was not on when he arrived at the dealership. I asked the owner if he test drove the vehicle prior to leaving the dealership on 8/2/12. The

owner stated that he did not test drive the vehicle. I advised that the vehicle was in the dealership for two weeks and per the dealership they were not able to duplicate his concerns. I further advised that if the check engine light was not on when he dropped the vehicle off on 8/3/12, the dealership may not be able to address the concern. The owner stated that the dealership doesn't drive the vehicle like he does and that's why they can't duplicate the concerns. I reminded the owner that the plan of action given to both him and the service manager, Carlos, was that prior to leaving to test drive the vehicle to ensure he didn't notice any issues while he was driving. I advised that my next plan of action to the dealership is to confirm that they have driven the vehicle prior to returning it to him if the determination is that they are still unable to duplicate. The owner advised that he has pictures of the mileage and the check engine light on. Upon returning the vehicle, the owner stated that there was a little more than 433 miles on the vehicle. Called and spoke with the foreman, Mike. Carlos the service manager is on vacation. Mike advised that he sees nothing wrong with the vehicle and the check engine light is not on. Advised Mike to check for active codes and respond in the STAR case before moving forward with anything else. Mike advised that he would try to get to check the store codes this afternoon.

The owner submitted a rental receipt for the rental from 7/19-8/2.

Advised the owner that on the claim information it shows Major Chrysler. Advised that I would speak with the dealership to verify if they are reimbursing the owner for the rental or if I need to. Called the dealership and the warranty admin is not in the office today.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called the dealership and spoke with Mike the shop foreman since the service manager is still on vacation. Mike advised that there are inactive codes showing to be related to the door module. Advised Mike to respond his findings in the STAR case. Further advised that the owner feels that the dealership has not driven the vehicle enough to duplicate the concerns. Mike advised that he will have the technician working on the vehicle has a 100 mile trip from home to work so he will have the technician get permission for the owner to take the vehicle home with him to try to duplicate the concern.

Called and spoke with the warranty admin (Bryan) to ensure the owner wouldn't be reimbursed for the rental by I2R as well as the dealership. The rental receipt shows the dealership information along with the customer information. The warranty admin confirmed that they will not be submitting the claim for the rental. Advised that I would request reimbursement for the rental as the owner paid out of pocket for the rental.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

8/9/12 Emailed tjb16 requesting to process the customer's payment reimbursement in the amount of \$755.21 for rental. Follow up regarding reimbursement on 8/13/12. CM

Received a voicemail from [REDACTED] requesting a callback. Called [REDACTED] and was advised that it was the wrong number. Called [REDACTED] and left a message.

Called the dealership and spoke with the service manager. The service manager advised that the vehicle has been driven 170 miles and they have seen no issues. The check engine light has not come on and there has been no issue with the gear shift.

***** Below Customer Contacted for Documentation Request *****
cmackey@impartialservices.com on 2012-08-14 @ 10:49

8/13/12 -Check created in CAIR 2 [REDACTED] received and sent to customer through US Mail.

8/14/12 Received email from tjb16 confirming customer's rental payment reimbursement in the amount of \$755.21 has been issued and mailed to the customer. CM

Called and spoke with Mike at the dealership. Carlos the service manager is not expected back until 8/20/12. Mike advised that the vehicle was returned to the owner on 8/10/12. Mike advised that TAPS representative has called and wants to check the y tech system for the stored codes. Owner expected to bring vehicle back in on today.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called and spoke with the owner Patricia Lilly on 8/15/12*. Advised

that the rental reimbursement was sent in the amount of \$755.21. The owner advised that she has taken the vehicle back to the dealership and the technician did confirm that the check engine light was on. I advised that now that the dealership has been able to see the issue, I will make sure that the escalated team is involved on finding the repair.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

DM called to verify owners complaint. Advised that the owner stated that she can move the gear shift but the car will not move. The DM advised that when he spoke with the dealership the owner stated that the vehicle will not come out of park.

> Called the owner and asked 'are you able to place your hand on the gearshift and move it back and fourth' the owner advised yes and the vehicle will not move.

>Called the DM and provided this information.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called DM and it appears there are phone issues his number. The line was disconnected. Sent DM follow up to check the status of his findings.

Awaiting DM response.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called and spoke with the service manager Carlos who advised that the Shift Module has been ordered and is due in to the dealership on 8/23/12.

CAIR ESCALATION CLOSURE

SEE STAR CASE# [REDACTED] FOR INFORMATION

Called and spoke with Carlos and advised that the vehicle is ready to be picked. Carlos stated that he believes the issue has been resolved once and for all. Advised that I would follow and keep him posted on the status.

>Called and spoke with Mrs. Lilly advised that I have spoke with the dealership and the service manager has confirmed that the vehicle is ready.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called and spoke with the service manager who confirmed that the vehicle was picked up on 8/28/12. The owner is currently testing driving vehicle already advised owner that I would follow up once she has had a chance to confirm that the vehicle has been repaired.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called and left a message for the owner advising that I wanted to check the status of the vehicle.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called and spoke with the owner to check the status of the vehicle. The owner stated that as of now the vehicle is working. Offered the owner the 5 year 60,000 Added care service contract. The owner stated that she would callback to let me know if she is interested.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called and left a message for the owner to callback in regards to the CRO offer.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Called and left a message for the owner at [REDACTED] well as [REDACTED] 1 advising the owner to callback in to the conversation we had on 9/5/12. Advised that I wanted to speak to the owner to see she if she interested in the offer made. Advised the owner to follow up with me.

***If the customer should call, please request them to contact Lawrence Dunson at 888-542-7239, extension 441. Thank you. ***

Closing CAIR as customer failed to follow up. The owners concern was that the Gear Shift stick is moving but the transmission is not moving out of Park. The vehicle was repaired and picked up on 8/28/12. As of 9/5/12 the customer stated that the vehicle was working ok. Sent the owner a monthly payment reimbursement in the amount of \$642.02 (mailed to customer 8/1/12)and a rental car reimbursement in the amount of \$755.21 (mailed to customer on 8/14/12). Offered the owner the 5 year 60,000 Added care \$0 deductible service contract as a final CRO. The owner advised that she would follow up on the offer. Left a message for the owner on 9/6/12, 9/7/12 and 9/10/12 and did not received a return call. Unable to confirm

if the owner is satisfied with the repair.

End of Status Update

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

CM spoke to customer. Customer states about a month ago, shifter on vehicle started sticking. Customer states just recently, vehicle was

parked in garage and moved in reverse even though shifter was in park. Customer states they took vehicle to dealer 60474 where they ordered parts for shifter and performed a recall. Customer states she dealt with SM Barry. Customer stated she was told by SM to call Chrysler to make them aware of situation and also because of part backorder. Customer stated she had all CM info through email. CM advised more research is necessary. CM thanked customer. Ended call.

CM dialed dealer 60474, spoke to SM Barry. SM states gear selector is on order for customer concern. SM states he will consult to goodwill bumper paint finish, he agrees this may be a result of the gear selector improperly operating. CM provided contact number, extension, email address. SM provided email address:

barry.bannister@championofdecatur.net. SM to email part number of gear selector. CM thanked SM. Ended call.

Hi Barry,

This is my email, you can email me that part number and we can keep in touch this way if its faster and easier for you, my number is in the mail if you need to reach me that way.

Thank You!

Franc

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

Writer confirmed information as noted from the survey and asked customer if he had anything else that he would like to add.

Customer stated he tends to want to put the vehicle into park when he is sitting at a stop light and he has found that at times it was difficult to get it back into drive. Customer stated he did not know if the shifter was all electrical now or if it was still a cable, but he thought he would mention it. Writer advised customer there are a lot of features on the vehicle that are electronic now and can be updated with software changes. Customer stated he has the 8 speed automatic with the sport package, just the very base model and he was surprised at all the features that are on his vehicle. Customer stated he likes all the electronic stuff and is glad that they came back with the lights on the doors that illuminate the area you are stepping out of the vehicle to. Customer stated he also likes the LED lighting around the doors and the gauge on the base model totally surprised him as well. Customer stated he was scrolling through the electronic gauge in the middle that gives all the information like miles to empty and the trip counter, when he found it also provides information about the engine performance. Customer stated he even called his salesman to say how impressed he was. Customer stated he thinks fold out tabs in the owner s manual would be helpful. Customer stated they did a good job however editing the manual and making it a more manageable size. Writer advised customer writer would forward the suggestion and advised writer was glad to hear he liked

the vehicle so much. Customer asked when they were going to put the V-8 engines in the other models and stated he had heard a rumor that they were having problems getting them to fit. Writer advised customer writer cannot say because the CAC is not advised of this type of information unless the information is being released to the general public, at which time the CAC is notified in the event customer s call with questions. Customer stated he calls into a local talk show and when he told them he had just bought the vehicle they wanted to test drive it. Customer stated when he went on the test drive with the host of the radio show and his engineer they were both impressed at the handling of the vehicle. Customer stated he has been completely overwhelmed by the features the vehicle has for the base model and wanted to say that the engine is unbelievably smooth and the handling with the sport package is great. Customer stated he loves the gas mileage he is getting on the vehicle and can hardly wait to take it on a longer trip. Customer provided information about his previous 2005 Dodge Magnum and the gas mileage as well as how disappointed he was when it was discontinued. Writer advised customer writer would forward the suggestions he has and advised customer one reason the surveys are sent out is to receive feedback about what improvements can be made or what customers like/dislike about the vehicle. Writer advised customer the information remains on file as a permanent record even though he has completed the survey and it is closed out. Writer advised customer the dealership is always the best contact for any mechanical concerns he may have, however anytime he has questions or concerns he was welcome to call the CAC and the number could be found on the website or in the owner s manual. Customer stated another thing he was impressed with is that when he began looking for another vehicle he went online to Mopar in order to see what accessories were available and had called the number to ask a few questions and they were very helpful. Customer stated he would also like to say that he has always loved the dealership and they really do bend over backwards to help him. Customer stated he even spoke with the owner of the dealership about the service he has received as well. Writer advised customer writer was glad to hear that he has received such great service at the dealership and advised writer would note the information as well.

Survey Date : 09/26/2012

VIN Number : 2C3CDXBG5CH

Mapping Class : Dealer

Event Type : 1st Service customer pay

CPS Score : 10

***** CASE MANAGER TEAM - District Z *****

Survey indicates customer is upset with a few problems they have had with the vehicle and the customer does not believe the dealership did their best to address the concerns. Survey indicates the vehicle was stuck in park and after waiting for two hours for the tow truck the customer discovered there was an override in the owner's manual, however he did not have a screwdriver with him. Survey indicates the customer was advised by the dealership that they could not find anything wrong with the shifter and that they had not had any other 2012 vehicles come in with the problem.

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

Writer confirmed information as noted from the survey and asked customer if he had experienced any additional concerns since the last incident. Customer stated the concern has happened one more time, however with the safety release button that has a lanyard attached internally to get the vehicle out of park. Customer stated he was advised that the 2007 and 2008 models had this same problem; however he was the first the dealership had seen with this problem in a 2012.

Customer stated he has put about 2,700 miles on the vehicle and he is already having problems two and a half months since he purchased the vehicle. Customer stated it was about 3 weeks ago that he initially had the problem with the shifter and it was a couple hundred miles later that he experienced the concern again. Customer stated he does not understand what the lemon laws are in his state and he is just concerned that if there are no other customers with this concern that he is going to be stuck with a vehicle that will continue to have problems. Writer advised customer writer can understand his concern; however writer is not able to provide any information to him about the lemon laws for his state.

Writer advised customer he can contact his Attorney Generals office for

more information about the lemon laws for his state. Writer advised writer cannot say that there are not other customers having the concern because writer can only speak of the surveys writer has received and in those surveys this is the first concern writer has heard about the shifter getting stuck in park. Writer advised customer writer will document that he had this concern with his vehicle. Writer advised customer the information remains on file under the VIN even though the survey is completed and closed out. Writer advised customer if there are any notifications in regards to the vehicle he will receive a notification via postal mail and writer updated his mailing address. Writer advised customer of the reference number and contact number for the CAC in the event the customer has future questions or concerns the dealership is not able to assist him with. Writer advised customer the information would become a permanent record under the VIN and reference number even though the survey was being closed out.

CLOSED LOOP UPDATE - no need for additional follow-up.

CAIR has been reopened and escalated to the I2R team for follow-up.

*****Kim Anderson with the I2R Customer Resolution Team is now responsible for this CAIR. If the customer should call, please request them to contact Kim Anderson at 888-542-7239, extension 440. Thank you.*****

10/5/2012 KA286

Called owner and left voice mail to call about vehicle.

>Initial call with owner and he is frustrated with new vehicle needing repairs. Said it has gotten stuck in park a couple of times but when it is at dealership, they can not duplicate. Said he has since learned there is a override lever next to shifter to manually use when this happen. He stated he loves the vehicle but does not want to keep having issues with it; wondering if problems will persist. Explained to him what we do and gave him phone number. He said he also had issue with dash; a piece on the driver s side popped off. Landmark ordered him a part a couple of weeks ago and told him it would be there in a couple of days but he has not heard back from them. He also had a paint issue but dealership took care of that. I explained to him I wanted to gather his RO s and speak to dealership. Also that there is a STAR team we can escalate to for assistance and explained what that was. Told him I would also check on the ETA of part. He thanked me for calling and helping.

>Spoke with Ed Service Manager at Landmark and he does remember the vehicle. Said he would have to check on part ETA; is a defroster grill. Also said he remembers when vehicle was there, they did have 2 different codes come up. Both codes lead to or indicated there was 'excessive time at wide open throttle'. I asked him what that meant and he would not say, wasn t sure. (which might explain all the miles they put on it test driving- I forgot to put that in owner s notes- he was curious as to why they put so many miles on it). Explained to him even is part is in, I want to wait to bring in owner until we have a plan for the transmission. I also asked him about TSB #21-011-12 and he said it basically just says you can only do those 6 items listed for transmission issues. He says this is a shifter issue.

Research and follow up with owner about next step on 10/9.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/9/2012 KA286

Spoke with Steve in parts and he said the defroster grill is in.

Spoke with owner and let him know defroster grill is in and we want to bring his vehicle in for the stuck in park issue. He said he can only do if has rental. Advised him I would provide that and he said can take it today.

>Spoke with Ed Service Manager at Landers and confirmed owner can bring vehicle in today and leave it. Authorized rental; \$35.00/day in a CJD product and gave him CAIR #. He said he is not sure what else they can do for stuck in park because they were unable to duplicate it before. I told him to please open a STAR case and let them know about the 2 codes they had before; 'excessive time at wide open throttle'. He said okay, will do that and okay for owner to drop off vehicle.

Follow up with dealership about repairs on 10/11.

Follow up with dealership about repairs on 10/11.

10/11/2012 KA286

Spoke with Tim SA at Landmark and he said vehicle is still there. Said they have been speaking to STAR and were informed it is due to a computer issue, they are aware and no fix at this time. Actual STAR notes state,

'Advised that the event data report shows that the park brake was set, and the transmission temp was 153 degrees, the engine coolant temp -40, vehicle speed was 247 MPH with the cruise set and 50% throttle. Advised to clear the codes and check the connections at the ESM, and evaluate. Advised that the code is information only and there is no diagnostic path to follow unless other DTC s were also set. Advised based on the data stored in the event data I would suspect that this is a software related issue.'

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/12/2012 KA286

Spoke with Ed Service manager at Landmark and confirmed STAR has informed them they are aware of this issue but have not repair for it and no ETA on a repair. The vehicle gets stuck in park and 2nd. He said has not told owner yet because he knows it will not go well.

>Spoke with owner and advised him that Landers did open a STAR case and consult the engineers. Told him they are aware of his issue but do not have a repair for it. He said he was afraid something like that was going to happen because he believes it is a lemon. He said he really loves the Charger and Dodge and does want to 'give up on Dodge'. He stated he would like a replacement vehicle, said he actually saw another Charger he liked. Stated it costs a little more but would really like to just trade into another. Also stated he has checked into the MO lemon law. Stated this is his first new car and really just wants one without the problems. Apologized to him and explained I will look into his other options, speak with DM and then get back to him.

Emailed DM for assistance

10/15/2012 KA286

Called owner and left voice mail explaining we are looking into this issue; confirming and getting an ETA on fix.

Follow up with DM and owner on 10/17.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/17/2012 KA286

Response from DM< 'I spoke with Tyler Yeomans this afternoon as he did some investigating on this issue. He indicates there is not a known issue other than the new shifter design takes some getting used to. While there may be a problem with the customer s car, the dealer has not yet been able to verify it and it has not acted up for 800 miles. It is possible the vehicle is not coming out of park because some other inputs are not seen such as brake applied, etc. I am not blaming this on the customer but I had a different owner complain of a no-start and we found she was not pushing on the brake hard enough to trip the switch and allow start-up.

Follow up with DM and owner about resolution on 10/18.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/18/2012 KA286

Called for Ed Service manager at Landmark but he is in a meeting right now.

>Spoke with Ed service manager at Landmark and he said the TA came out and they never could duplicate the issue. He then said he has been speaking with the GM and they want to know what my resolution is. I told him mine is to repair the vehicle for the owner, he said nothing. He then said he will speak to his DM and see what he wants to do.

>Spoke with owner and he is upset with dealership. Said they tried to return the vehicle to him, told him they were going to start charging him for the rental. Said he went to dealership and spoke with GM- David and they discussed it for awhile. He said GM agreed for him to stay in rental until Monday, 10/22. He also understands TA could not duplicate the issue but there were codes. Said TA would only say the codes don t have anything to do with the stuck in park issue. He stated does not want this vehicle back, really likes it but feels like it is a lemon. Said he really just wants another one just like it- without issues. He will be out of town until Monday.

Contact DM on 10/19.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

AM spoke with GM David Branstetter. AM advised to return vehicle to customer as the concern has not been duplicated ever and after 2 weeks of trying to duplicate, no issue has been found. BC TA has also concurred

that no repairs should be attempted until the concern can be replicated.
sfw2

10/19/2012 KA286

Emailed DM owner s request.

Follow up with owner on 10/22. (when he gets back in town)

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/22/2012 KA286

Received response from DM stating, 'Yes, Tyler inspected the vehicle at Landmark and advised the dealer the codes were not active (stored) and did not necessarily have anything to do with the complaint. Since the dealer has had the vehicle for 2 weeks attempting to duplicate the condition with no success, I advised the dealer to return the vehicle to the customer. I can appreciate the customer s concern but we can t verify the complaint and it is far too premature to replace a vehicle with no repairs. If the condition persists and we can duplicate it, we will be more than happy to repair but there comes a time when you have to give the car back.'

>Spoke with Kurt Service Manager at Landmark and advised him I will be telling owner to pick up vehicle. Asked him to please complete the recall that just came out on 10/19. He said he will have it done by this afternoon.

>Spoke with owner and advised him DM not offering to replace and has directed dealership to return vehicle to him. He asked me if I was aware of the recall and I told him yes, I had instructed Ed to do that before returning vehicle to him. He said Ed called him and told him to stay in rental, they were doing the recall and he consulted his TA and was told to check a wire and that this recall will resolve his issue. Told him great, he had better news than I did. Told him I do still want to compensate him for his down time and issues with his new vehicle. Told him I would get those docs and speak with Ed again. He thanked me for the help.

Confirm with dealership on 10/23.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/22/2012 KA286

Spoke with Ed Service Manager at Landmark and asked about the M-30 recall, if he knew what symptoms this is for. He said no, could not get a definite answer from STAR but they think this will resolve it. He has spoke with his TA and should be finished with vehicle today and returning to owner.

Follow up with owner about repairs on 10/25.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/25/2012 KA286

Called for Brian Husten in financing at Landmark and left voice mail to call me about this owner.

Called owner and left voice mail checking on repairs and to call me about vehicle.

Follow up with owner about repairs on 10/29.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/29/2012 KA286

Called for Brian in financing at Landmark and left voice mail to call me about this owner.

>Spoke with Brian in financing at Landmark and requested docs. He cannot give that out without customer s permission. Said if the customer calls him, he can send them.

>Spoke with owner briefly, then his phone went dead. Called him back and left voice mail to call me about the vehicle.

Follow up with owner between 11:30 - 12:00 on 10/30.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/30/2012 KA286

Spoke with owner and he said vehicle is fine; said the gas consumption is much better and shifting is a little stiff but not stuck in gear so far.

Advised him I could not get his docs from dealership, they need his permission to release info or he can fax me what he has. He took fax number and will send me his docs. Verified his address and corrected it.

Told him I would look for docs and check on him again in a couple of days.

Look for docs and follow up with owner on 11/2.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

10/30/2012 KA286

Received docs and have attached.

***** Below Customer Contacted for Documentation Request *****

mbuys@impartialservices.com on 2012-11-01 @ 15:34

11/1/12: Emailed tjb16 the customer s payment reimbursement check has been submitted and approved in the amount of \$784.02. Follow up regarding reimbursement on 11/5. mb981

***** Customer Document Received *****

11/2/2012 KA286

Spoke with owner and advised him we did receive his docs and have processed his 2 monthly payments. Told him they have been mailed out and he should receive by Monday or Tuesday. He said 'awesome' and thanked me. Also told him if he has any problems or needs anything to keep my number and call; he said he will.

>Vehicle issue of stuck in park has been resolved. Gave owner 2 monthly payment reimbursements \$784.02 and owner is very happy with resolution.

If the customer contacts Chrysler, please refer them to their I2R Case Manager Kim Anderson at 888-542-7239 ext 440.

11/2/12 Received email from tjb16 confirming customer s payment reimbursement in the amount of \$784.02 (two payments) has been issued and mailed to the customer. CM

Product - Brakes - Unknown - Won't Hold - Default	Emergency brake did not hold vehicle in place on a hill
Corporate - Survey By-Pass - No Diagnosis - Default - Default	no diagnosis at this time

Briefly summarize why the customer is contacting Chrysler: Customer states she parked her vehicle on a hill and set the e-brake, but the vehicle started rolling. Customer states the e-brake did not do anything to stop the vehicle from rolling. Customer states she has an appointment to bring the vehicle to the dealership tomorrow morning. Customer states she would like a rental vehicle while her vehicle is in for repair.

Briefly summarize what the customer is expecting: Customer seeking rental assistance.

Agent advised customer the vehicle's issue would need to be diagnosed before rental assistance can be considered. Agent advised customer contact us back once this problem has been diagnosed.

Reassigned to 861.

Recall - M30: REPROGRAM PCM AND TCM - Advise Owner/Incomplete Recall	REPROGRAM PCM AND TCM
Product - Transmission / Transaxle - Unknown - Other - Default	Vehicle will not go into park

Briefly summarize why the customer is contacting Chrysler:
 Customer called in at the direction of his dealership.
 Customer's vehicle is at the dealership for transmission work.
 Agent called to the dealership and spoke to SA-JESSIE.
 Jessie advised customer only brought his vehicle in one hour ago, and diagnostic has not been completed yet. Diagnostic should be completed within an hour or so. At that time they will know what is wrong with the vehicle and how long they will have to keep it there.
 Customer's vehicle will not go in to park.
 Agent advised to customer at this time we cannot approve a rental until it is known what is wrong with the vehicle and how long the dealership will have to keep his vehicle.
 Agent asked dealership why they were not providing customer with a rental and was advised that they have submitted claims before and they have been returned and the dealership has been on the hook to cover the costs.
 Briefly summarize what the customer is expecting:
 Customer is expecting a rental vehicle so that he has a way to get to work later today.
 Customer calls seeking recall information. Advised the customer of incomplete recall ?M30A™ for this vehicle. Customer was advised to contact a Chrysler, Dodge, or Jeep dealer to schedule an appointment to complete recall repair.
 SA-Jessie advised they will be doing the customer's recall while the vehicle is at the dealership today.
 Agent called back to the dealership and spoke to SA-Jessie.
 SA advised that it was the gear shifter, they have the part in stock, and the vehicle should be completed by 1 or 2pm.
 Agent called to the customer and advised his vehicle will be done by 1 or 2 pm and he can pick it up after that. Customer asked about getting a ride to pick up the vehicle. Agent offered to connect him to the dealership to arrange a shuttle pick up or if they can have the vehicle dropped off to him. Customer declined.

Corporate - Product Suggestions - Other - Default - Default

Customer had a product suggestion.

Briefly summarize why the customer is contacting Chrysler: Customer called in stating that she would like to make a suggestion about this vehicle. Customer states that the other day they were at the store and her husband got out. Customer states that she is unsure if the vehicle was fully in park, but it started to roll backwards. Customer states that the vehicle started to pick up speed and she went into a ditch. Customer states that she and the vehicle were fine. Customer states that she feels there should be an emergency switch the passenger can pull in case this were to happen again. Customer states that she just wanted to bring this to our attention. Agent apologized to the customer for the situation and advised her she would have this documented.

Briefly summarize what the customer is expecting:

Dear [REDACTED]

Thank you for contacting the Chrysler Customer Assistance Center. Sorry to hear about this accident with the vehicle, we are glad that no one was hurt. Some questions we like some answers to:

Are you the current owner of the vehicle or are you renting the vehicle?

Can you recall how things happened?

Where is the vehicle now?

When is the best time to contact you?

Thanks again for your email.

Sincerely,

John

*****END OF CAC EMAIL*****

Enterprise rental car. They have it stored at a holding area i think. I had it rented for a couple of days right rear tire indicator came on as low. Enterprise had me to take it to a tire center for repair. Until this occurrence, the only mechanical problem i had noticed during the several days i had been driving was that it was difficult to get into park. Back to scenario. I parked car outside of bldg. Was inside for approximately 5 -10 minutes waiting to have tire repaired. A man yelled to me. Move! your car is coming at you. It seemed to accelerate with no one in it. Repairman tried to get inside car in an effort to stop it but couldnt get it into psrk. It crashed into a commercial car jack

*****END OF CUSTOMER EMAIL REPLY*****

Dear [REDACTED]

Thank you for getting back to us and informing us about this situation. At this time for Chrysler to look into this matter further and since your not the owner of the vehicle it would be a good idea to have Enterprise contact Chrysler.

Sorry I could not provide a more favorable reply.

Sincerely,

John

Customer Service Representative

Order 211271 for dealer: 45468 for part: 68104716AA has been resolved

Delivered On:

Friday, 02/01/2013 at 9:52 A.M.

Left At:

Dock

Signed By:

BILL

PM Justin the part #45468 the part did arrive. PM stated the customer was contacted but they have moved to Houston TX. PM will only hold the part a few days. Our customer needs to act on it SAP if he wants the part. CM

thanked the PM and ended the call.

Mr. [REDACTED] will try to locate a CDJ by his new home in Houston. CM advised our customer to contact the PM Justin ASAP to hold the part. When our customer finds a dealership in Houston the part can be shipped to the new dealer. CM will contact Mr. Murray next week. CM thanked our customer and ended the call.

Mr. [REDACTED] is in school. Our customer was not able to contact Lawton Chrysler who has the part. CM will contact the PM Justin.

PM Justin from #45468 stated he will hold the part for Mr. Murray. CM thanked the PM and ended the call.

Mr. Murray was advised the PM Justin will hold the part. Mr. Murray will check this week for a CDJ.

Mr. Murray is taking the vehicle to Bayshore (60448)(281-421-6000). CM spoke with PM Chris. The PM is able to get the part. The PM stated he does not need the part from Lawton Chrysler. CM thanked the PM and ended the call.

CM spoke with PM Chris @ Bayshore #60448. PM Chris stated the part is available. The part would not need to come back to 96W. Part issue is resolved.

***** CASE MANAGER TEAM - District U*****

Customer profile:

In warranty across the board

How many vehicles original owner/purchased used: 2 new, 0 used

Additional vehicles in household: 0

Service contract: none

Writer attempted to contact DLR SM Art. Was disconnected.

Writer contacted DLR Parts associate Steve. He advised that he didn't have any information about an appointment being made. Writer left her contact information to have PM Chris contact her.

Writer received call back from PM Chris. PM advised he could get the part if needed and transferred writer to SA Lori. SA advised that the customer needed to bring the vehicle in for diagnosis and leave it there so they could find out what part needed to order. Writer advised that she'd contact the customer.

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

[REDACTED] Writer advised that the customer would need to take the vehicle in for diagnosis and that we wouldn't be able to authorize a rental without diagnosis. Customer reported that he wouldn't be able to do that; he needs the vehicle to get back and forth from work and school. Customer asked to speak with a supervisor.

Writer warm transferred customer to RB1180.

***** IMMEDIATE SUPERVISOR CALL*****

The customer needed a rental while the dealer puts the part on the vehicle. Writer authorized the rental for the time the dealer will need the vehicle. The CM will contact the dealer and setup the rental with the SM and then contact the customer back with the details.

Supervisor call is complete.

Writer contacted DLR SM Art.

Customer seeking rental assistance because there needs to be confirmation of part needed. Contacted Service Manager, Art at 60448 to discuss the customer's request for rental assistance. Confirmed customer's concern and with Service Manager concurrence, authorized 3 days of rental per guidelines in Warranty Bulletin D-11-53.

Rental authorization will be processed by CAC.

Writer contacted customer and advised that rental had been authorized and that the dealership would be contacting him to set up an appointment for 02/18. Customer understood and was pleased. Writer advised that she'd follow up with customer no later than 02/19.

Status update provided via email to the following email address:

[REDACTED]
Hello My name is Theresa and I have been assigned as your case manager. Here is some information that will be helpful for you to have.
Chrysler case management telephone number 1-800-763-8422
My extension is 66302

My work hours are 8:00 am-4:30 pm MST

Case number: [REDACTED]

I will follow up with you on 02/19 to see what's happening with the issue.

Thank you.

Product - Transmission / Transaxle - Gear Selector / Linkage - Other - Default

Customer claims the shifter goes into neutral while driving.

Customer claims the vehicle won't shift out of park intermittently unless she turns off the engine and restarts the vehicle. Customer claims the push button skips off to ACC when she turns off the vehicle and she then has to restart the vehicle to turn off the ignition. TA and AM met with the customer and inspected the vehicle. Vehicle is operating as designed. It appears that the customer is bumping the shifter during hard braking causing the shifter to go into neutral. The push button FOBIC cycles from Off, ACC to Run with each push of the button. Tested brake pedal switch for proper operation and adjustment. Customer has second set of floor mats on top of the Stock carpeted floor mats. Customer also had 2 air fresheners looped around the shift handle. I suggested removing the air fresheners in case they are interfering with the shifter. Dlr installed a flight recorder on the vehicle and the customer was instructed on its use. Customer's request for a replacement vehicle was declined.

***** EMAIL BRIEF DESCRIPTION CONTENT *****

Disappointing Charger

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

Hello, I would like to introduce myself. My name is [REDACTED] and I have been the owner of a Chargers since they first came out in the fall on 2005. I purchased a 2006 Charger at that time and I must say it was the best vehicle I have ever owned. I had it for 6 years and loved it. Last year I bought a 2012 Charger SXT again and I must say I am very disappointed with Chrysler/Dodge engineering on this vehicle. Some of the changes are just horrible and quite mind boggling why they were done. Let me list my issues: 1) Gas funnel - Why on earth did Dodge require that a fuel funnel adapter be needed if manually pouring gas into the tank?? Why I have a gas can I need to pour into my car I actually have to put the adapter in first, then a funnel into th adapter followed by the gas. I usually lose about a gallon of gas because the funnel does not fit in the adapter. I thought long and hard why Dodge did this. I thought first maybe it was to protect against someone putting something in gas tank but that can t be it because a fuel cap release is needed inside the car. Just horrible engineering on this. Built in gas cap - No gas cap now as the

deal is within the little gas door on the car but this is ousy too. If I filled my car to the top it leaks gas around the seal as I drive, until i lose a few gallons. Another poor design Center Consol - Old Charger had a nice inside consol and easy to put and separate change. This new Charger has a insert that goes in and out and move around. a couple spots for change I have no idea what type of change the clots are for as penny, nickely, dine or quarter do not fit in any??. Slow Wipers - Speed of wipers is very slow. I was told by dealer this is the way they are an not defective but certainly can tell a different from my 2006. Same with the blower. It have poor performance. Rain Drip - When I open my door after a hard rain the water must build up in seal area because it all rolls on my head when i open door Easy Straches - My new car seems to have a ton of small scratches. A few peple I know told me Dodge now uses a poor gloss coat over paint and this is was it scratches easy. I can t confirm this but it is what i was told. * Speed Shifter - Extremely difficult to sometime get into correct gear. I have had 2-3 times where I put shifter all the way up hard and get ready to shut off only to find out its in reverse. Once I almost ran someone over. Also, does not allow shifting into any gear from nuetral unless I apply brake. This keep me from being able to drift down hills to save gas. Computer System - having to use the computer system on the front display to heat and cool at level i want is a big distraction to a moving driver. Why not allow a knob override??? Also, delay to get to channel when starting as about 15-20 seconds. A message comes up showing some nonsense about safety makes me wait. Seems like Dodge wants the car to be in charge inside of the driver! Window Motor - Motor somethimes puts windows down when I press for them to go up, and vice versa. Mesh on Sunroof - My old Charger used to have a section of rubber that would flip up when I opened the sunroof to. I guess, block water or anything falling in/thru sunroof. Dodge engineering disfunctionally now designed a mesh 3 inch section that pops up between top and bottom of sunroof. This now notoriously catches every bug that comes close to the car. I even caught a small bird in it the second time i used it!! Seriously! These bags get caught though and after driving for awhile they sometimes get squeeze in the mesh so hard, due to the speed, that the inside of a few bugs have actually dripped into the car. Quite disgusting, not to mention I have to clean this mesh everytime I use the sunroof (I finally just stopped using the sunroof in the middle of last summer). I can name more issues that are much smaller but I won t at this point. The car is rather charp looking though and I seem to have someone come up to me about once a month asking about the car and if I would reommend buying the those who ask. I am telling people 'absolutely no' and explain to them that I have owned 2 Charges over the past 7 years and this new Charger is a huge step back in design by Dodge. I am not someone that complains a lot. I have had the car a year and just kpt all this to myself but as issues with design continue to bother my I decided to

*****END OF CUSTOMER INFORMATION AS PROVIDED*****

Customer s phone number and email were updated in COIN to reflect the information provided by the customer.

Dear [REDACTED]:

Thank you for contacting the Dodge Customer Assistance Center. I regret the problem your vehicle has experienced and appreciate the time and effort you took to bring this matter to my attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.

Unfortunately, given the many variables involved, we are unable to diagnose your vehicle concerns via email. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair. Once you have been to a dealer to have your vehicle concerns diagnosed, if you require further assistance from Ram, please advise and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Dodge Customer Assistance at 1-800-423-6343.

I have provided the contact information for 2 dealers in your area that could assist you:

Vasko Dodge
3644 Washington Rd.
McMurray, PA 15317
(724) 942-3000
Solomon Chrysler, Dodge, Jeep, Ram- Brownsville
409 National Pike W
Brownsville, PA 15417
(724) 785-8000

A dealership locator can be found on the brand web site in the 'Find a Dealer' field of the Dodge - <http://www.dodge.com> home page.

Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles.

Should your dealer require factory assistance they may contact our Technical Operations Resource Group (STAR) or contact their regional Business Center.

Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.

Thanks again for your email.

Horrible Charger Experience

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

Hello, I previously emailed Dodge but basically got a 'boilerplate' response and I wanted to make sure my issues and concerns went to the executive division of Dodge management. I would like to introduce myself. My name is Paul Heidish and I have been the owner of a Chargers since they first came out in the fall on 2005. I purchased a 2006 Charger at that time and I must say it was the best vehicle I have ever owned. I had it for 6 years and loved it. Last year I bought a 2012 Charger SXT again and I must say I am very disappointed with Chrysler/Dodge engineering on this vehicle. Some of the changes are just horrible and quite mind boggling why they were done. Let me list my issues: 1) Gas funnel - Why on earth did Dodge require that a fuel funnel adapter be needed if manually pouring gas into the tank?? Why I have a gas can I need to pour into my car I actually have to put the adapter in first, then a funnel into the adapter followed by the gas. I usually lose about a gallon of gas because the funnel does not fit in the adapter. I thought long and hard why Dodge did this. I thought first maybe it was to protect against someone putting something in gas tank but that can't be it because a fuel cap release is needed inside the car. Just horrible engineering on this. Built in gas cap - No gas cap now as the deal is within the little gas door on the car but this isousy too. If I filled my car to the top it leaks gas around the seal as I drive, until i lose a few gallons. Another poor design Center Consol - Old Charger had a nice inside consol and easy to put and separate change. Dear [REDACTED]

Thank you for contacting the Dodge Customer Assistance Center. We are sorry to hear about your bad experiences you have been having with your 2012 Dodge Charger. We have documented your statements under your file. If Chrysler wishes to review your documents they can at any time. It is recommended for any mechanical issue to take the vehicle to a dealership to see if they can provide any assistance.

Thanks again for your email.

Sincerely,

John

CONTACT UPDATE - 1st Contact attempt, phone number dialed
Spoke to Customer Javier Fabela, Writer asked if there was anything he
wanted to add to the survey, Customer stated he feels the brakes should
be bigger or more powerful, since when he applies the brakes it seems
they fade away after a time of pressing the pedal, Customer also stated
he feels the body of the vehicle has a bit too much roll to it, to where
if you change lanes a little quickly/aggressively you can feel the body
of the vehicle move slightly with it, Customer also stated he feels the
Shifter doesn t shift as fast as expected, Customer stated sometimes the
electronic shifting doesn t respond as fast so he has to put it in a gear
more than once to get it to shift, Customer stated he is Very Happy with
the vehicle overall and loves the car and the gas mileage, Writer advised
customer of M30 Recall and advised that any authorized dealership can
take care of that for him, Writer also suggested customer have a
dealership just check or verify the shifting to make sure it is operating
as designed, Customer stated he will, Writer verified COIN Address, and
advised we will be closing the case

CLOSED LOOP UPDATE - no need for additional follow-up.

Product - Electrical - Heated Seat - Other - Unknown	customer stated heated front seats, heat control doesn't work
Corporate - Complaint Contact - Default - Default - Default	customer stated shifter is to sensitive
Dealer - By-Pass - Default - Default - Default	customer stated shifter is to sensitive
Product - Transmission / Transaxle - Gear Selector / Linkage - Other - Default	customer stated shifter is to sensitive
Product - Electrical - Lamps and Switches - Defective - Default	dash light blacks out when wipers are on
Product - Electrical - MyGig Radio - Other - Default	screen switches to previous in certain screens

Briefly summarize why the customer is contacting Chrysler: Customer called stating when he turns on the heated front seats the heater control will not work. Customer stated he has to turn off the vehicle and turn it back on to make it work. Customer also stated the shifter on the vehicle is very sensitive. Customer stated going from park to reverse it hard as it s very sensitive. Customer feels very unsafe driving his vehicle. Customer stated dealer advised him that it is normal for it to be shifting like that. Customer stated if there is no fix for the issue he is going to trade it in.

Customer called in stating that he returned to MOSS BROS CHRYSLER JEEP DODGE with the vehicle and they still cannot not Duplicate the problem. Customer states that heated seat control does not work properly. Customer also states that new issues are occuring, states that the radio will reset it self back to factory settings. Customer states that the previous agent was suppose to call him back with the next step. Agent called MOSS BROS CHRYSLER JEEP DODGE and spoke to SA Shirle who stated that he needs to bring the vehicle back in so they can try a few other things to have this resolved. Agent advised customer to work with the dealership on this as the vehicle is still under warranty and to call back if any further problems occur.

Customer states he is calling to ensure that his case has been properly documented. Agent advised customer of lines 1-9 and advised the customer that once he has the vehicle at the dealership and it has been diagnosed if the dealership is unable to duplicate or resolve the issue the customer can contact Chrysler again and have his issue escalated to assist the dealership resolving these concerns.

Customer called back becaus when he turns on the wipers even when it is dark, the dashboard lights go out. SA stated that it is due to the ambient, but it would go brighter in a dark situation and dimmer in a bright situation. Customer is also having an issues with the transmission sensitivity. Customer states that the shifter will shift into neutral easily. Customer states that he has to pay close attention when shifting to park, drive and reverse. Customer stated that he will get the seat heater fixed tomorrow. Customer will mention the transmission and the wipers again.

Customer called stating all previously noted issues are still happening within his vehicle. Customer also wanted to add that he is now having

issues with the touch screen. Customer stated that whenever he switched into certain screens it would black out after a few seconds and switch to the previous screen. Customer stated that it should not switch screens without being prompted to do so. Customer stated that he has been to the dealership multiple times and they have not fixed any of his problems. Customer stated that he is concerned about even driving his vehicle as it tends to slip into neutral and he has had many close calls with being in accidents by being hit by another vehicle. Customer states that the dealership even informs customers of the transmission shifter switching gears and yet they have not managed to fix it. Customer wants to have a factory representative involved in this issue as it is a defect. Customer also wants the vehicle to be bought back through lemon law. Customer was very pleasant about all this and thanked agent for documenting the issue and ended the call.

Agent informed customer that the case would be documented and escalated if possible. Agent gave the customer the CAIR number.

Customer informed a call back is required and will take place within 1-2 business days.

Preferred Morning/Midday call back number is [REDACTED]

Preferred Afternoon/Evening call back number is [REDACTED]

Customer email address for case updates: customer declined

Who has possession of the vehicle? Owner

Is this a request for Lemon Law, buy-back or replacement? buy-back

Reassigned to 91L

***** 91L Review *****

5/13/13 Spoke to customer advising that I am an analyst for Chrysler and have reviewed his/ her case. Based on his repair history, I have determined that his case merits further review. Advised the customer that he should receive a call from Chrysler within five business days. Provided my contact information (888-542-7239 ext. 464) and advised customer to contact me if no call is received. MD1172

***** 91L Review *****

Owner is seeking relief under the California state

1. What does the customer allege is wrong with the vehicle?

Heated front seats the heater control will not work.

Wipers on, dashboard lights go off.

Hard shifting in park, reverse and drive.

Touch screen will black out and revert to the previous screen.

Vehicle slips into neutral when driving.

2. Was the vehicle purchased new and used? New.

3. If used, what number owner is the customer and what was the mileage?

4. Is customer claiming # of repair attempts or # of days out of service? No.

5. Does the condition described by the customer still exist? Yes.

Customer has been referred back to the dealership.

Reassigned to the West Business Center (TMT).

Customer was contacted today at (time). 11:09 AM, CST

Customer was provided with agent s name and extension

if the customer needs to re-contact the agent.

Customer was informed they should be

contacted within 5 business days.

051313 reassigned to am tl7 to review and respond to owners request for lemon law relief tmt

5/17/13 Received incoming call from customer who advised that he has not heard from Chrysler. Inquired if customer has heard from the dealership.

Customer advised he had the vehicle in on Tuesday and they have ordered a new radio, but have not addressed the transmission concern. Advised customer that the dealership represents Chrysler, and it appears the DM is involved in the case. Customer was satisfied. MD1172

051713 dom left message for Robert Gillam requesting clarification.

051713 dom contacted customer who stated that he has an appt. next Wed. at the dealership for radio. He added that he is concerned about the trans. and shifting into neutral. He says the dealership says it_ is sensitive and was even told so at the sale. He wanted the dealership_ to check it again. Dom stated that the dealership can do so, and if _ necessary contact the tech advisor. CUsomer said if the trans issue can t be resolved, Chrysler can just buy it back. Customer was told that it does not appear that the vehicle qualifies for a buyback, however we will address his concern. Dom stated that she would call Robert Gillam, sm, to ask him to touch base with the tech advisor per customer s concerns.

Customer seemed pleased with conversation and thanked dom.

052113 dom spoke with Robert Gillam, sm, who states that customer's issue was a normal situation, but he will take another look at the vehicle during the customer's visit, and if he deems it necessary, he will contact Noemi, the tech advisor. _

5/22/13 Customer called and said the vehicle was repaired and they replaced the radio and the heated seat button will not work. Customer advised that he shut the car off and then the seat button worked. Advised customer that I am an analyst with Chrysler and not a case manager and referred him back to the Service Manager. Customer advised there is still a problem with the heated seats and the transmission although Chrysler is not verifying it. Advised customer I will be sure it is documented in the case. Customer advised that is all he is asking. Customer advised he spoke to DM, TL7 and will try to reach her. MD1172 Customer has contacted CAC requesting to speak with TL7. Agent advised that CAC does not have contact information for TL7. Customer is requesting a call back at 9 [REDACTED]

5/24/13 Received voice mail message from customer on 5/23 at 8:06 PM advising that he smelled antifreeze and there is a puddle of antifreeze in around the engine. Customer advised that he wants someone of authority to contact him as he wants his vehicle bought back. Customer advised he will be contacting channel 7 News. Customer advised he is taking the vehicle to the dealership first thing in the morning and they can just junk it as he is done with it.

-Spoke to customer at to advise that I received his message but I am not a case manager, I am an analyst and I escalated his case to Chrysler for review. Apologized to customer and advised that his dealership should have the most up to date information on his case and they are working with the DM to find resolution for him. Customer understood and was appreciative of my return call. MD1172

052913 Robert Gillam demonstrated the shifter and compared to other vehicles, the vehicle operated similarly. He stated that the heated seat issue is being addressed today--they are replacing module which should take care of issue.

6/5/13 Received voice mail message from customer on 6/4 at 1:46 p.m. advising that he picked up the vehicle and never heard back from the DM, TL7. Customer requested a phone number for the DM and advised he is still having issues with the vehicle and feels he is being sent in circles.

-Spoke to customer to advise that I received his message and referred him back to the dealership as I am not able to provide a phone number for the DM. MD1172

Customer advised a call back is required and will take place within one business day by COB their time

Preferred Morning/Midday call back number is [REDACTED]

Preferred Afternoon/Evening call back number is [REDACTED]

Customer email address for case updates: N/A

Who has possession of the vehicle? (Owner/Dealer/IRF) Owner

Has the vehicle been diagnosed by a CDJ dealer? (Yes/No) Yes

If a CDJ dealer has diagnosed, what is the dealer name or code? MOSS BROS CHRYSLER JEEP DODGE 59350

Reassigned to 88F

Briefly summarize why the customer is contacting Chrysler: Customer is not satisfied with the outcome of the vehicle repair and feels that this should be fixed. Customer stated that they have been requesting to speak to somebody regarding this.

Briefly summarize what the customer is expecting: Customer is wanting to have this vehicle repaired

--

Email sent to BC/CR MGR/DM

--

I called the owner and had an extended conversation with him. Concurred with BC/DM/TA/ Dealer.

Assured owner if future TSB applies to this vehicle while under warranty, we will apply it at no charge.

Email sent to DM/BC.

CAIR closed.

NOTE: owner says vehicle has 10,200 miles.

>>> A new CAIR and I2R Case [REDACTED] have been Opened to further assist customer.

'Survey Comments'

Customer states there are several design issues with the car and customer wants to discuss them with someone from Chrysler.

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

- Writer contacted customer to review the survey and customer wanted to provide a brief description of his background with Chrysler and how he feels about these designs in the Chrysler 300. Customer worked for Chrysler dealer as a mechanic and was a salesman selling Chrysler brand products. Customer stated he was raised in a Chrysler family and is disappointed on how they have changed their business and designs. Customer stated the detents front door hinges are so weak they will not hold the door open, just sitting in the driveway it will slam shut and just sitting at level in a parking lot when there is a breeze the door will swing shut while the customer s leg is out. With the trunk they didn t put the trunk lid on hinges and the latch assembly hangs down so that if someone put their head or hand in it, it would slam shut easily. The USB port is on the bottom floor of the center console, if you have anything in the console, you have to move it to get to the USB port, there is plenty of room on the dash for them to install it there.

Customer also states with the home link is not even offered or an option on this brand. The shifter is designed poorly and very uncomfortable to use and it s not user friendly. Writer stated these comments would be sent up to Chrysler for feedback and hopefully will change the designs. Customer also stated he knew the previous AM Wanda and knows that there is another AM for his area with the dealer and asked for an appointment to be set up for her to contact the customer. Writer stated that may not be arranged because we normally do not do that but writer stated an email

can be sent to the AM and will see if she could call him. Customer gave permission for writer to give out his number. Writer then stated this again will be documented and survey would be closed. Writer did advise customer to call Chrysler if any assistance is needed.
CLOSED LOOP UPDATE - no need for additional follow-up.

Corporate - Roadside Services - Warranty - Vehicle Inoperable - Default transmission light on, shifter will not move into park

Briefly summarize why the customer is contacting Chrysler: Customer states that her check transmission light came on as she was returning home. Now in her driveway she cannot turn off the vehicle or move the shifter out of drive into park.

Briefly summarize what the customer is expecting: Writer conferenced customer to Mo in Chrysler Roadside Assistance for further help.

(wife) called back in requesting a rental vehicle. Customer states that roadside will be there in a bit to tow the vehicle over to the dealership. Customer states the dealership is closed, agent states that it will be placed on their lot. Advised customer to contact the dealership in the morning to make them aware of this, and tell them what is going on. The vehicle will need to be diagnosed before we can look into rental. Agent also informed the customer the dealership can provide a rental as well. Customer understands, and will see what happens tomorrow.

Customer's wife, , called back to say that tow truck showed up to her home to tow vehicle to the nearest dealership and they will not tow the vehicle as the vehicle is stuck in DRIVE (not park). Agent reviewed owner's manual and advised the customer's wife that we only have emergency procedure for stuck in PARK in the manual and advised the customer that we do not have a procedure for stuck in DRIVE. Customer stated that the vehicle is in her driveway at home. She has locked the vehicle but cannot shut it off. Brittany stated she will contact the dealership in the morning.

Agent advised to ensure the emergency parking brake is on if she is leaving vehicle like this.

Corporate - Product Information - Default - Default - Default	customer seeking information on 4WD
Corporate - Technical Assistance - Default - Default - Default	
Dealer - By-Pass - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler:

Customer is calling because he wants to know what type of 4wd this vehicle has. He has been given 3 different answers at the dealer. From it is 4wd all the time to it kicks in at 32 degree. Customer is getting frustrated. He would like Dodge to know as well that there are some things they should do differently. On this vehicle you cannot buy an extra rim. He was so sick and tired of black Interiors he read the book and he could get in a cream but then saw a nice pic Of the red interior and this is what he ordered. When it came in it had black floor liners and he wants red floor mats but was not even able to order them.

Seat belt hook needs to be 2 longer and would not have to swear to put it on with a

When he has a coat on. As well the electronic shifting. Half the time you put it in park it goes into reserve. 1/3 time it goes into reserve. Born and raised with charger.

Briefly summarize what the customer is expecting:

Customer would like information on the type of 4wd this vehicle has. Agent could not find it in the manual.

Agent advised the customer it would be escalated for an answer.

Reassign to 82k

4/10/13 Our records indicate this vehicle was equipped from the factory with the Borg Warner 44-40 full time all-wheel drive transfer case.

ALL-WHEEL DRIVE (AWD)

This vehicle is equipped with an active on-demand All-Wheel Drive (AWD) system which makes available optimum traction for a wide variety of road surface and driving conditions. The system minimizes wheel slip by automatically redirecting torque to the front and rear wheels as necessary.

To maximize fuel economy, your AWD vehicle automatically defaults to rear-wheel drive (RWD) when road and environmental conditions are such that wheel slip is unlikely to occur. When specific road and environmental conditions require increased levels of road traction, the vehicle automatically shifts into AWD mode. Automatic AWD operation could be activated by outside temperature, wheel slip, or other predetermined conditions (there may be a slight delay for AWD engagement after a wheel slip condition occurs). AWD can also be manually selected by moving the shift lever into the AutoStick mode

(+/-) or activating the windshield wipers for an extended period of time. Drive mode, RWD or AWD, is displayed momentarily in the Electronic Vehicle Information Center (EVIC) in the gauge area of the vehicle display when the transmission is first shifted into gear, and if the drive mode changes during vehicle operation.

Reassigned file back to JE779 for proper handling

Called customer and advised that a response had been received and would call back again to give the response

Agent contacted the customer and advised of 23-49

Recall - M08: GEAR SHIFT INDICATOR LIGHT BRIGHTNESS - Advise Owner/Incomplete Recall	Advise of open recall
Recall - M10: ABS/ESC WIRING - Advise Owner/Incomplete Recall	Advise of open recall
Recall - M30: REPROGRAM PCM AND TCM - Advise Owner/Incomplete Recall	Advise of open recall
Corporate - Roadside Services - Warranty - Vehicle Inoperable - Default	Coverage issue
Product - Electrical - Lamps and Switches - Other - Default	Customer states his transmission light came on again
Corporate - Lost Customer - Default - Default - Default	Disconnected
Product - Transmission / Transaxle - Unknown - Other - Default	Lemon Law
Product - Transmission / Transaxle - Unknown - Complete Failure - Default	Vehicle not drivable

Briefly summarize why the customer is contacting Chrysler: Customer states his vehicle's transmission has failed and has been towed to a dealership. Customer states he purchased the vehicle December 31, 2011 and less than 30 days later the transmission needed repair. Roadside assistance only covered 20 miles of the customer's tow; the vehicle was towed 24 miles; customer says he had to pay for the 4 extra miles.

Briefly summarize what the customer is expecting: No action.
No action taken by agent lost customer.

Briefly summarize why the customer is contacting Chrysler: Second agent has also lost customer. Agent was advising customer of recalls in particular M30. The Powertrain Control Module (PCM) and Transmission Control Module (TCM) on about 66,530 vehicles may have been inadvertently programmed with software that may permanently set an internal temperature too high diagnostic code or not run the position valve stuck diagnostics. The internal temperature too high diagnostic fault can cause permanent Malfunction Indicator Lamp (MIL) illumination. Failure to run the position valve diagnostics can allow an improperly operating position valve to go undetected and fail to illuminate the Malfunction Indicator Lamp (MIL) as required by regulation. Answer ID 23521.

Customer did say transmission is shut off and could not put into park. If customer calls back please ask him to call on a better line (land line) so we do not keep losing him.

Briefly summarize what the customer is expecting: Customer needs assistance with transmission problem.

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler stating he is very upset and he is trying to remain calm but he has spoken to two other people and the calls have been dropped. Customer stated the same issue has happened to him as in CAIR.

Customer states he is not able to drive vehicle. Customer stated he was at a stop light when the light in the dash came on and said check engine and then the transmission light came on and the car would not move. Customer stated he let the car cool down and it would not move again. Customer states he has already filed for lemon law and was declined. Customer stated he contacted roadside for towing and they will only tow

the customer to the nearest dealership and then the customer will have to pay to have it towed to the dealership of his choice.

Briefly summarize what the customer is expecting: Customer is expecting Chrysler to pay for the towing and repair his vehicle and to document his comments.

Writer advised the customer of the three open recalls M08, M10, and M30. Customer stated he was aware of the recalls.

Writer advised the customer we are not able to reimburse you for the towing to the dealership of your choice. As it is only covered to the closest dealership. Writer stated she has documented his comments and that she will contact the dealership to schedule an appointment to have his vehicle diagnose.

Writer contacted the dealership at 9018720195.

Writer was not able to speak to any one in the service department as they were closed for the night.

Writer advised the customer the handling of your case will require a call to the Dealer. The Dealer is currently closed. What I am going to do is assign your case to an Agent that will contact the Dealer on your behalf first-thing tomorrow morning, and continue to work on this case. The Agent will be contacting you tomorrow, once the Dealer has been contacted to provide you an update. This will ensure that your issue/concern/question is reviewed as quickly as possible since the dealership is close she will send his CAIR to the resolution team.

Reason for Dealer Contact:

Dealer Code: 60419

Dealer Personnel Required: service manger

Customer s Preferred Method of Contact: phone

Customer Phone Number (Morning): [REDACTED]

Customer Phone Number (Evening): [REDACTED]

Customer Email address: [REDACTED]

Reason for assigning to Resolution Team:

Assigned to 86T

Writer followed ANSWER ID 23704:

The most common scenario where the Resolution Team would be utilized is when handling cases after-hours, where a call to the Dealer cannot be placed:

Writer contacted HOMER SKELTON CHRYSLER DODGE JEEP Dealer Code: 63- 60419 at 901-872-0195 and left a voice mail message for SA Tim Lemar.

Writer contacted HOMER SKELTON CHRYSLER DODGE JEEP Dealer Code: 63- 60419 at 901-872-0195, no answer, unable to leave a voice mail message.

Writer contacted HOMER SKELTON CHRYSLER DODGE JEEP Dealer Code: 63- 60419 at 901-872-0195

SA Tim, vehicle is currently at the dealership since 04/11 and requires a replacement valve body and transmission shift solenoid. SA advised the part is expected tomorrow morning and the repair should be completed same day.

SA Tim also advised the recalls: M08 GEAR SHIFT INDICATOR LIGHT BRIGHTNESS; M10 ABS/ESC WIRING; M30 REPROGRAM PCM AND TCM will be completed.

CUSTOMER CONTACT at [REDACTED] - left a voice mail message to advise of diagnosis. Writer left phone number and ext 4718026.

Customer contacted writer, left a voice mail message. Customer states he picked up his vehicle today and he is not satisfied with the repair.

Writer called and spoke to SM Rodney and SM stated that the customer is coming in on Saturday 4/20. SM stated that they did complete recalls M08 GEAR SHIFT INDICATOR LIGHT BRIGHTNESS WARRANTY M10 ABS/ESC WIRING SAFETY M30 REPROGRAM PCM AND TCM. Writer let SM know about the new recall N07 SEAT WIRING HARNESS CONNECTORS. SM stated that they will continue to work on the vehicle that day for the customer

MR [REDACTED] called to speak with their Case Manager. Transferred the customer to TV152 at ext 66302

Writer received transferred call from customer. Customer advised that he was bringing his vehicle in on 04/20 per lines 121-122. Customer also advised that he s been having issues in the transmission, that it has been shifting roughly. Customer reported that he d tried to have the vehicle declared a lemon back in 2012, per CAIR [REDACTED], but was told that according to state law, it needed to have three incidents of the same issue. Customer reported that this most recent occurrence is the third incident and that the technicians at the dealership said that they had to contact Chrysler about the issue. Customer said he didn t feel confident about them. Writer advised that she could escalate the case to the pre-qualifying team (LL), and that someone would contact him on 04/22.

***** 91L Review *****

*****Case Escalated to I2R*****

Reviewed Warranty History which determined this case should be escalated to I2R for case management.

*** Jennifer Deluna with the I2R Customer Resolution Team is now responsible for this CAIR. If the customer should call, please request them to contact Jennifer Deluna at 888-542-7239, extension 435. Thank you. ***

04/22/13- Made my initial call to customer: left a voice mail informing customer his case has been escalated to me for special handling. Left my name and phone number for a return call. Will follow up this afternoon jd1352

04/22/13- Contacted customer: left my second voice mail today requesting a return call. Will follow up with customer on 04/23 jd1352

04/23/13- Contacted customer: left a voice mail informing customer I wanted to speak with him in regards to his vehicle concerns. Left my name and phone number for a return call. Will follow up this afternoon jd1352

04/23/13- Received a call back from customer and he informed me he picked up his vehicle from the Dealer last week however he took the vehicle to the Dealer on 04/20 to let them know that every time he shifts the vehicle makes a weird noise. However the Dealer informed him that there was nothing wrong with the vehicle and he took the vehicle back. Apologized to customer for the inconvenience and asked customer if he would be willing to take the vehicle back into the Dealer. Customer agreed and informed him I would contact the Dealer and once I had an appointment scheduled I would give him a call. Will make my initial call to Dealer in 04/24 jd1352

04/24/13- Made my initial call to Dealer: spoke with Service Advisor Rodney and he informed me customer did stop by last week saying when he shifts gears the vehicle makes a noise. Rodney informed me he explained to the customer that it was just the linkage putting it in gear that it was a normal noise he was hearing. Informed Rodney if we could schedule him back in just so we can cover all basis and open up a STAR case as well. Rodney stated that was fine and we scheduled customer to drop the vehicle off on Monday and I authorized a rental if customer needed one. Thanked Rodney for his assistance. Will contact customer on 04/25 to

confirm his appointment. Jd1352

*** If the customer should call, please request them to contact Jennifer Deluna at 888-542-7239, extension 435. Thank you. ***

04/25/13- Contacted Customer: left a voice mail informing customer I did speak with the Dealer in regards to his vehicle concerns and the Dealer stated Monday would be best for him to drop off the vehicle that way they can keep the vehicle for a few days to make sure everything is running normal with the vehicle. Informed customer I authorized a rental for him as well so he can just drop it off on Monday. Informed customer if Monday would not work to please give me a call back and I can change the appointment for him. Thanked customer for his time and left my phone number for a return call if need. Will follow up with Dealer on 04/29
jd1352

04/29/13- Contacted customer: left a voice mail informing customer I left him a voice mail on 04/25 informing him I scheduled an appointment for him today and I wanted to verify if he was able to take his vehicle in. left my name and phone number for a return call. will follow up on 05/01
jd1352

05/01/13- Contacted customer for the 3rd time informing him I wanted to do a follow up. Left my name and phone number for a return call. Will contact Dealer on 05/02 jd1352

05/02/13- Contacted Dealer: spoke with Service Advisor Rodney and asked him if customer ever showed up to his appointment on 04/25 because I have left several messages for the customer and I just wanted to verify before I went ahead and closed the case. Rodney stated the customer has been in several times but he was going to double check if he did go in on the 25th and then give me a call back. Thanked him for his time. Will follow up with Dealer on 05/06 jd1352

05/07/13- Contacted Dealer: spoke with Service Advisor Rodney to confirm if customer ever brought the vehicle back in on the 25th and he stated he didn't. thanked him for the information, will prepare to close case on 05/08 jd1352

Spoke to customer on my initial call and customer agreed to take his vehicle back to the Dealer. I contact Dealer to schedule customer an appointment and called customer on 04/25, 04/29 and 05/01 to inform customer of his appointment and customer has failed to follow up. jd1352

*** If the customer should call, please request them to contact Jennifer Deluna at 888-542-7239, extension 435. Thank you. ***

The vehicle is stuck in Drive

****Begin structured narrative T2 - Beginning Narrative

Briefly summarize why the customer is contacting Chrysler:

Briefly summarize what the customer is expecting:

****End structured narrative T2 - Beginning Narrative

Briefly summarize why the customer is contacting Chrysler: The customer has a stuck in park issue, and states that she was about 15 miles from home, and the vehicle would not move. The customer has a broken tibia bone on her left leg, and is on crutches, and does not need the inconvenience of having to have the vehicle at the dealership two times within 58 days from the ISD of 02/18/2013. The customer had key issues on 02/28/2013, and now the vehicle is stuck in park. The customer states that the dealership where the vehicle is at which is the:

Scott Robinson Chrysler Dodge Jeep Ram

20900 Hawthorne Blvd

Torrance, CA 90503

(310) 542-0900

Briefly summarize what the customer is expecting: The agent verified the customers information and informed the customer that she is documenting her concerns.

The agent called the Scott Robinson Chrysler Dodge Jeep Ram dealership and, agent spoke to the Service person, who is a Service Director Kevin, and he said that the vehicle is stuck In Drive, and that they have the vehicle in a Technicians bay but have not diagnosed the vehicle as of yet, but Service Director Kevin said that possibly- the issue is that there is something possibly wrong with the transmission but he was not sure yet as of this point.

Customer informed a call back is required and will take place within 1-2 business days.

Preferred Morning/Midday call back number is =

Preferred Afternoon/Evening call back number =

Customer email address for case updates: =

Who has possession of the vehicle? = at Dealership

Is this a request for Lemon Law, buy-back or replacement? = Replacement Reassigned to 91L

The Service Director Kevin said that the CM is 3,546 miles.

Agent reassigned to 91L

Customer was hope there was a way to speed process up.

Agent advised customer that CM Team will be contacting them once they have gathered the information they need.

Customer states that first payment for vehicle is coming due and that they were hoping to resolve vehicle issues before then.

Customer states they have called a few places who advised that transmission will continue to have issues.

Agent advised customer that they can refer to blue and white hand book

and contact Attorney Generals office for further information on the process.

contacted within 5 business days.

041813 reassigned to am slw5 to review and respond to owners request for lemon law relief tmt

Briefly summarize why the customer is contacting Chrysler: ERICA D PARKS

called in stating that Chrysler Head Office is taking too long with the decision. Customer states that she is seeking a brand new vehicle as she had only owned the vehicle for 55 days and she is having transmission problems. Customer states that would like to have documented that CDJ dealership 60557 has done the best they could for her.

Briefly summarize what the customer is expecting: Customer is seeking a call back from the case manager.

Writer advise customer that her case is being handled in the legal team.

Writer advised customer that it is documented that she is requesting a call back.

Erica called asking why her CM has not called her back. Agent advised the customer she will hear from her CM when she has more information. Agent advised the customer the case manager is still reviewing the details and will contact the customer when she has more information.

The customer called back stating that she has not received a call back regarding her vehicle concerns. I advised that today marked the 5th business day, but informed her that I would make a note in her case that she needs a call back. TR756

The customer called back stating that she has not received a call back. She stated that she was told to wait 5 days, and it is unfair to her as a customer when she is not contacted. I apologized to the customer and stated that I would put a note in her case. The custom said that she has been waiting all day for a call and does not want to wait any longer. The customer requested her case number which I provided. The customer also requested the AM s contact information. I informed the customer that I did not have that information to give, but advised that she contact her repairing dealer since the AM is over that area and they have direct contact with the AM. TR756

The customer called back stating that she still has not been contacted. She stated that this is very poor customer service. I apologized on behalf of Chrysler and informed the customer that I did not know why she has not been called. The customer requested the AM s supervisor name and number. I told the customer that I do not have the information to give out. I advised that I would update the case and again request that she be contacted. TR756

Received a voice mail message from the customer stating that it has been 8 days since her case was sent to the BC and she still has not been contacted. The customer said that she contacted the dealer, but also has not received a call from back from them. The customer again expressed how poor the Chrysler Customer Service is. The customer explained that she fears for her and her family s life while in the vehicle. The customer seemed extremely angry and requires a call back immediately. TR756

04/25/13 Emailed BC customer is seeking contact. TL/T

Spoke to the customer and informed her that we have again sent her case to the BC informing them that she needs to be contacted. The customer understood. TR756

04/25/13 CL549

Why is the customer contacting Chrysler? Customer has phoned the wrong CAC department. Agent has advised customer and has transferred customer

to the US CAC department

Customer stated that she still has not received a callback from the business center regarding her vehicle as she feels that she does have a lemon. Agent advised customer as per lines 109-112. Agent informed customer that it does take time to review her file as the BC would like to provide the most efficient and positive response to her.

The customer called back stating that she still has not been contacted. I apologized and stated that I would make a note in her case. The customer informed me that she is having addition electrical problems with the vehicles. She said that there is an issue with he radio changing stations when driving over a bump and the CD player is skipping tracks randomly. She also informed me that the headlights would no turn out this morning, but they finally turned off once when turned on the windshield wipers. TR756

04/26/13 Emailed BC customer is seeking contact. TLT

The customer left a voice mail message on 4/26 @ 6:12 EST. The customer stated that he vehicle was acting up again. She feels it is extremely dangerous and feels that it is unsafe. She customer is pleading with Chrysler for someone to contact her. TR756

4/29/13 Emailed tmt regarding customer s request to be contacted. CM

The customer called back stating the vehicle was stuck in park. I advised if the vehicle is giving her issues then she should take the vehicle in for repairs. The customer stated that she can be without transportation. She has a broken leg so she is unable to take a bus or taxi. I advised the customer contact the dealer, and ask if they would provide her with a rental or loner vehicle. The customer said she has to go to the DR about her leg today so she could not take the vehicle in till tomorrow. TR756

The customer called back angry stating that she spoke to the dealer (60557) Scott Robinson regarding a rental car. The dealer told her that they would not provide a rental until after the vehicle has been diagnosed. The customer stated that she can not sit around and wait around for diagnoses because her leg has to propped up. The customer does not understand why she is not being contacted sand thinks that Chrysler is showing extremely poor service. The customer stated that she has a brand new vehicle and just wanted to swap it with another Charger, but at this point she wants Chrysler to buy back her vehicle and she will go to Toyota or Nissan. I apologized to the customer and informed her that we have already informed the BC today that requesting that she be contacted. TR756

042913..dm spoke to owner and owner to take vehicle into Scott Robinson CJD. Customer wants to return to dealership where first repair was made. Kevin McCorry to see customer and provide rental during repairs. dealer to contact once diagnosis is made and customer is still wanting vehicle replaced. dm will review once diagnosis is made..slw5

Received a voice mail message from he customer. The customer was confused and thought the the AM SLW5 was the GM for Scott Robinson (60557). I clarified for the customer and informed her that the case manager is a Chrysler Area Manager. The customer now understands that SLW5 works for Chrysler and not dealer 60557. TR756

The customer called and said that George from Champion called to offer he a replacement vehicle because hers is a lemon. Customer wanted to know what was going on as she has not heard from the AM. I advised that she ask George as I am not the case manager and he would have a better understanding.

slw5 working with dealership Scott Robinson CJD and dealer has not been able to duplicate concern. Did make repair last time customer was in. Customer is also talking to Champion CJD where she bought the vehicle and slw5 just left message for George to discuss her vehicle. am slw5 just spoke to owner of Champion CJD to see if he can do a trade assist. Problem is customer owed more on trade in vehicle than what it is worth and \$5,000 had to be added to this loan to cover the inequity. Dealer is looking to see if he can get the customer out of the vehicle and will let AM SLW5 know.

050113..AM reviewed above with Ms Parks on phone as she returned call. Told customer that Champion CJD will be working with customer and we have the opportunity to repair the vehicle. Not sure if dealership can do trade assist as customer trade in value was less than payoff. customer states she understood and will work with dealership Champion CJD who she also had been communicating with..slw5

050213..AM wrote email to customer as we have been unable to communicate by phone. AM ask that customer work with Champion CJD contact George.

Scott Robinson CJD has been unable to duplicate the customer concern..slw5

050213..customer left AM voice mail message and upset that Chrysler cannot just take customer out of the vehicle. Customer has had one repair made for the shifter and AM understands customers concern. AM offered Champion CJD trade assist money to take this vehicle in as used and put customer in new vehicle but again customer has \$5,000 added to the loan for payoff on trade in vehicle. AM has provided rental while vehicle at Scott Robinson CJD for diagnosis to make sure vehicle is repaired...slw5 Spoke to customer who stated that Champion CJD would not return her calls, so she traded the vehicle at Scott Robinson CJD for another Charger. The customer had to put \$2,500.00 down on the new vehicle and said that she wants to be reimbursed for it. Tr756

I spoke to Ms. Parks and told her that we could not reimburse her for the down payment, but informed her that we could offer her a service contract. She said that she already bought an extended warranty. She said she got the Added Care 100,000 miles with a \$100 deductible. I told her that she could cancel that contract and then we could add the same contract at no charge. She was not satisfied and also wanted Chrysler to provide her with the GAP. I told her that I do not have the resources to provide her with that. The customer wanted to speak to the Area Manager to see if she could provide the GAP. I told her that the AM requested me to handle the case and provide the customer with a service contract. I then offered to take the deductible down to \$50 and the customer was satisfied. TR756

I confirmed that the customer has a Chrysler Service Contract the Added Care Plus 100,000 miles with a \$100 deductible. She paid \$2,000.00 for the contract and it was financed with the vehicle.

The customer is going to cancel the service contract on her new vehicle VIN# DH690762 and follow up with me so the new contract (Added Care Plus/100,000 miles/\$50 can be applied to the vehicle. TR756

The customer called back and stated that the dealer would not allow her to cancel the contract and told her that they had to look into it first.

I advised that I would contact the dealer and see if I can assist in getting things moving. TR756

051313..am slw5 has left messages for Bobby in finance and am will be at the dealership Tuesday 051413..slw5

05/14/13 AM (SLW) called in to advise they are not going to be doing a Goodwill Certificate. She will reimburse the customer \$2K for their CSC as settlement. If customer calls in, direct them to John (Finance Manager) at the dealership who has the check. TLT

051413..dm reimbursing owner for Chrysler service contract and taking contract from a \$100 deductible to \$50 deductible..slw5 service contract is for the new vehicle VIN # DH[REDACTED]

Product - Differential Gear Assy's - Gears - Other - Unknown	Vehicle shifter is not staying in park correctly

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler stating that he is having an issue with the shifter in his vehicle. Customer stated that if you don't push it up all the way and hear it click into park, the shifter doesn't stay in park and goes back into reverse. Agent advised customer to bring the vehicle into a local authorized dealership to have them do a diagnosis on the vehicle and look into possible repair options. Customer became very irate and refuses to bring his vehicle into the dealership to have it looked at. Customer stated that he is not having a diagnosis done on the vehicle when he knows it is an issue with the shifter. Agent advised that a diagnosis would tell us what is wrong with the vehicle's shifter and we then can look into what needs to be done to the vehicle to fix the issue. Customer was becoming more irate and requested to speak with a supervisor. Agent advised customer that it would be a one business day call back.

Briefly summarize what the customer is expecting: For a supervisor to contact him back regarding his issue.

Supervisor contacted the customer at [REDACTED]. The customer wants to notify Chrysler of the issue he is having with the shifter in his vehicle. The customer wants Chrysler to know that this might be a design flaw. Supervisor confirmed that his concerns have been documented and encouraged the customer to have his dealership look at the problem. The customer requested the NHTSA contact information and it was supplied. The customer thanked us for the assistance and will have the dealership look at the shifter.

***** CASE MANAGER TEAM - District T *****

Survey comments:

Customer advised that sometimes both the radio and phone come in at the same time.

Customer advised the Bluetooth system stopped working and they had to have a module replaced.

Customer advised seat pre-settings are not remembered, after someone gets into the car and readjusts the seat. Customer advised module has been replaced but the problem still exists.

Customer states there are too many unnecessary features on the car.

Customer states that system was priced appropriately but missing specific features.

Customer advised the headlights provide very poor visibility.

Customer advised there is noise from front driver side dash, customer has complained but the dealership has never been able to locate and fix the noise.

Customer advised sunglass holder is broken

Customer advised it is difficult to tell if you are in drive, reverse, or park.

Customer advised they had to chase the vehicle as they thought it was in park and when getting out of the vehicle, the car was rolling.

Customer advised the computer has many bugs and the staff at the dealership is not familiar with how to deal with them.

Customer advised the vehicle was at the dealer every week for a month trying to fix computer issues.

Customer advised they like the exterior design.

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

[REDACTED]. Left message writer is following up on survey and customer can call writer back to review.

Writer received message from customer to call her at [REDACTED]

Writer called customer at [REDACTED]. Customer states they are still experiencing issues with the vehicle.

Customer states that she was last in the dealer about a month ago trying to address concerns but dealer was not able to get everything fixed because issues could not be duplicated.

Customer states the memory for the driver side seat presets does not work, it will not hold presets.

Customer states that the brake pedal position preset also does not work.

Customer states it will hold the position if the vehicle is not driven between reset but if customer drives vehicle through out the day the setting will not remember the level the brake pedal should be at and the pedal slowly moves closer to the floor, away from the preset position.

Customer states that the indicator that should come on while the presets re-set themselves does not come on any more.

Customer states that the satellite radio will stop working and will give a red colored error message, not sure what it says.

Customer states that the presets on the radio will stop working at times too. Customer states that the preset channels will turn off at random and turn back on at random. Customer states that the even if she turns the vehicle off and back on the presets will not reset.

Customer states that sometimes the Uconnect will not recognize the phone.

Customer states that it is hard to tell what gear the transmission is in.

customer states she had a hard time feeling if the vehicle was in park and had tried to exit the vehicle when it was still in drive.

Writer asked if indicator for gear selection works. Customer states it does and she has been making sure to use it to verify she is in park before exiting the vehicle.

Writer advised customer s concerns would be reviewed with dealer and options for further support would be researched.

Writer advised customer to expect an update by Monday.

Customer verified email address for writer to send contact information.

Status update provided via email to the following email address:

janlott@yahoo.com

Hi, my name is Nikki. I am your case manager with Chrysler Customer Care.

Here are some details that should help while we work together on your concern.

Chrysler Case Management #: 800-763-8422

My extension: 66328

My office hours are Monday-Friday from 9:30 AM-4:00 PM EST.

Thank you.

End of Status Update

Writer contacted customer and left a message stated CM NU9 was still researching the case and would follow up 05/21/2013.

3rd attempt made to contact customer. Left message 66328. Case manager will follow up with customer tomorrow 05/22/2013.

STAR case [REDACTED] open for customer s vehicle.

Per STAR case the dealer was last recommended to check related wiring for seat position preset and if wiring is good then issue may be possible internal issue with MSM. STAR advised to replace and reset then report back.

Writer called dealer to speak with Service Manager Rich. Writer reviewed customer s concern with the seat memory settings.

Rich states that the customer has been in multiple times since purchase and each time a service rep has taken the time to show the customer how the feature works. Rich states that the customer needs to use the preset button on the door to activate the seat return to the preset. Rich states that the customer is not doing this, she is using the manual adjustments.

Writer advised of the issue with the satellite radio not working and at times playing audio from both phone call and radio at the same time.

Rich states that the issue has not been duplicated and system was

working.

Writer advised customer also has concerns with the presets on the radio intermittently not working.

Rich states that the issue was not duplicated.

Writer advised customer would be contacted to review.

Status update provided via email to the following email address:

Hi Ms. [REDACTED]

I have gotten further details with our service manager at the Lowery Bros service center.

I am researching within Chrysler to see if we may be able to get further support in resolving this concern for you.

I will call you tomorrow to review our next steps.

Thank you.

End of Status Update

Status update provided via email to the following email address:

I wanted to follow up with you regarding your 2012 Chrysler 300. I am contacting you on behalf of your case manager Nikki. Nikki is doing some further research and will give you call as soon as more information is available.

Thank you for your patience and for being part of DODGE!

Case [REDACTED]

End of Status Update

Customer states concern with the seat controls still does not preset, also bluetooth and radio play at the same time and pedal adjustments don't hold their position. Dealer unable to duplicate concern.

Reassigning call to 822.

Writer called customer at [REDACTED] Writer left message that advised case is being escalated with executive group within Chrysler and customer will be contacted once case has been reviewed.

Status update provided via email to the following email address:

janlott@yahoo.com

Dear Janet Lottermoser,

In reference to your concern with the presets. Please be aware of the following technical limitations with the system in your 2012 Chrysler 300:

& DRIVER MEMORY SEAT IF EQUIPPED

This feature allows the driver to store up to two different memory profiles for easy recall through a memory switch. Each memory profile contains desired position settings for the driver seat, side mirrors, adjustable pedals (if equipped), and power tilt and telescopic steering column (if equipped) and a set of desired radio station presets. Your Remote Keyless Entry (RKE) transmitter can also be programmed to recall the same positions when the UNLOCK button is pressed.

NOTE:

Only one RKE transmitter can be linked to each of the memory positions.

Passive Entry door handles cannot be linked to the memory function. Use either the memory recall switch or the RKE transmitter (if linked to the memory feature) to recall memory positions 1 or 2.

Thank you for your time. If you have questions let me know.

Marvin/ CoE operations/ 586 274 8174

End of Status Update

Begin Customer Message reviewed:

The memory for the brake pedal does not work, only the first time I enter the car for the day. If I enter the car another time during the day, the brake pedal is all the way to the floor and it makes it difficult for me to start the car. The gas pedal memory always works. The same problem holds true for the driver's seat memory. If someone moves the seat, it does not remember the settings. If I am the only one entering the car, it will remember the settings each time.

End of Reviewed Customer message

Status update provided via email to the following email address:

Our records reflect your 2012 Chrysler 300 AWD was examined recently by

the local Chrysler dealership Lowery Brothers. At that time, no problem was found. Conversely, if an issue is diagnosed or detected by our Chrysler dealer it is then encouraged for them to perform a repair or contact our technical support office (STAR Center) and fix vehicle under the manufacturer warranty. We are unable to pursue any further repairs unless these issues are clear and present mechanical ones per dealer.

Marvin 586 274 8174

End of Status Update

Begin Customer Message reviewed:

The problems are intermittent and continue to occur. As the problems are intermittent, they are not able to be detected when take to the dealership as they do not occur 'on demand'. I am NOT satisfied with you solution. Please contact me at [REDACTED]. The radio continues to have problems intermittently and the brake pedal memory was present at the last trip to the dealership.

Janet Lottermoser

End of Reviewed Customer message

Status update provided via email to the following email address:

[REDACTED],

It is procedure that you represent the condition for the dealership service department to evaluate and involve Chrysler technical support if needed. The Dealer knows how to obtain technical support. They are the party that is responsible for diagnosis of your vehicle. We can not and will not get involved to diagnose your 300 vehicle via email. Please contact the Service Manager or Service Advisors and present the concern to them. We can not get this issue remedied via email. My best regards

Marvin 586 274 8174

End of Status Update

Customer is not genuinely interested in involving dealership. If or when owner wants to pursue repair they can call me on my direct line provided multiple times.

Customer stated she went to LOWERY BROS CHRYSLER-JEEP and they could not find anything wrong with the vehicle. Customer stated she will pursue another dealership opinion if she returns again to a CJD dealership.

Customer advised that UConnect is operating okay now. Other items in need of attention she felt were the presets for driver seat. Writer advised technically it is not operating beyond factory specs/program. Owner is concerned with the brake pedal adjustment setting still and this is the only issue. Owner asking for another dealer for another opinion. Writer provided dealerships in her area. Wrt advised of Microphone adjustment. Customer stated she normally keeps her vehicles for up to 100,000 miles and she worries about her CSC expiring at 75,000 miles and 'what if' issues and 'out of warranty' issues. Writer agreed to upgrade their 70,000 Mile CSC (without \$100 copayment to a \$0 copayment).

Verified the added changes to owner CSC:

[REDACTED] Active WMX5100N 5 YEARS / 100,000 MILES - \$0 DEDUCTIBLE

Program Description NEW MAXIMUM CARE (FOR VEHICLES WITH 5/100 WARRANTY)

Owner JANET L LOTTERMOSER - 5857 GLENDORA RD , CICERO , NY, 13039-9571 ,

Customer communicated with Writer advising that she is satisfied with action from Chrysler at this time.

Customer is pleased that a goodwill offer was made to stand behind the product.

*** Joshua Dunham with the I2R Customer Resolution Team is now responsible for this CAIR. If the customer should call, please request them to contact Joshua Dunham at 888-542-7239, extension 421. Thank you. ***

Customer called back and agent provided customer with Joshua s phone number and ext but when agent tried to transfer customer to ext 421 the system did not recognize the number. Customer will try the number on her own. *****

Briefly summarize why the customer is contacting Chrysler: Customer was working with Joshua and he has not returned the call. Customer stated she called the number given and the extension is not the same. Customer located another extension in the directory and left a message.

Briefly summarize what the customer expecting: Customer requesting to speak with CM or the supervisor.

Writer verified the phone number on line 92 to be the one the customer is calling.

Writer advised documentation will be added.

Writer could not reopen cair or create a new cair as per answer connect

ID: 23673

there is an open CAIR that is being actively managed by Impartial Services Group (ISG) per the Investigation to Resolution (I2R) process (91 zone designation) and owner is requesting lemon law consideration or some form of lemon law referral action, DO NOT open a new CAIR or reassign existing CAIR to the Lemon Law Qualifying Team; simply refer owner to current I2R Case Manager and advise them to review their request with them. The I2R agent will then review owner s request and handle accordingly.

This referral action would also be appropriate for those CAIRs previously closed by an I2R agent.

Product - Transmission / Transaxle - Gear Selector / Linkage - Seizes, Sticks, Binds - Default	Gear shifter stuck in park.
--	-----------------------------

Briefly summarize why the customer is contacting Chrysler: Customer called because his gear shifter is stuck in park. Customer called the dealership and they said that they could not help him and told him to contact Roadside assistance. Agent transferred customer to Roadside assistance for further assistance.

Briefly summarize what the customer is expecting: Roadside assistance. Writer advised the customer that roadside will only tow the vehicle to the nearest dealership and that any extra distance would be at cost to the customer.

Writer advised the customer that if the component is a covered component then the dealership would be able to authorize up to 5 days of rental. Customer stated that the dealership wont be able to get to the vehicle for 2 weeks. Writer advised if that is the case the customer may want to bring the vehicle to another dealership.

Customer David is calling in again as the tow truck is there and they are going to tow to the nearest dealership.

Caller said they cannot work on his vehicle for a month in Moynahans, Texas.

He cannot come back to this dealership as he has to work and wants the vehicle towed to El Paso, Texas where he lives and the dealership can work on his vehicle right away.

Caller wants Chrysler to pay the difference.

Agent advised that unfortunately the vehicle will only be towed to the nearest dealership and any other distance would be his cost.

Caller said they were going to charge him \$800.00.

Agent advised the customer that it is up to him where he tows the vehicle and agent advised the customer again that the policy is to the nearest dealership and he is responsible for the cost if he chooses to go anywhere else.

Caller said he was going to sell the vehicle.

Agent offered to call another dealership that may be able to work on the vehicle and caller declined.

Briefly summarize why the customer is contacting Chrysler: Customer stated that he had his vehicle diagnosed at Blackwell Dodge. Because Blackwell Dodge does not have a certified transmission tech they advised him to take the vehicle to JOE USRY CHRYSLER JEEP DODGE for repair. He took the vehicle to Joe Ursy and they also pulled 3 codes stating that the transmission needs to have repairs and that he would need to leave the vehicle there with them and it would be up to 2 weeks before they could repair the vehicle. Customer stated that he needs transportation. Briefly summarize what the customer is expecting: Customer seeks rental vehicle

Who has possession of the vehicle? customer

Has an authorized dealer diagnosed the vehicle? Yes

If a CDJR dealer has diagnosed, what is the dealer name and code? 1st diagnosed at Blackwell Chrysler then to 45503

Dealer Name : JOE USRY CHRYSLER JEEP DODGE

Customer advised a call back is required and will take place within one business day

Preferred Morning/Midday call back number is:

Preferred Afternoon/Evening call back number is:

Customer email address for case updates

Agent contacted the dealership and spoke with SM Terry at dealer code 45503. He stated that he would be more than happy to assist customer with a rental vehicle. He stated that he understands that from Chrysler the vehicle needs to be diagnosed first. He stated that it is unfortunate that he is the only dealership in a 500 mile radius that has 2 certified transmission techs and one is going on holidays. He stated that he is back logged for 2 weeks.

Reassigned to: 86r

Customer was advised that due to the nature of their rental request a call back is required and will take place by close of business today.

Writer contacted customer at and left a voice mail message requesting a return call at 877-759-5427 x 4718026.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5566 and left a message for SM Ravel Applewhite, requesting a return call at 877-759-5427 x 4718026.

Writer contacted Howard Wilson CJD Dealer Code 63-66439 at 601-914-2277 and left a voice mail message for SM Darrell Miller requesting a return

call at 877-759-5427 x 4718026.

Writer contacted Blackburn Motor Company Dealer Code 63-38108 at 601-636-2766 and left a voice mail message for SM Roger, requesting a return call at 877-759-5427 x 4718026.

Writer contacted Forest CJD Dealer Code 63-45269 at 601-469-3421 and spoke with SM Monty, he advised he only has level 2 techs and the best bet would be a dealership in Jackson Mississippi.

SM Roger (38108) contacted writer and advised he does have a tech certified to complete a transmission repair. SM advised dealer code 45503 is now dealer code 45613.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5566 and left a voice mail message for SM (no name provided on voice mail) requesting a return call at 877-759-5427 x 4718026.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5566 and spoke with Service and Parts Director Terry, he advised the vehicle is not currently at the dealership. SD advised he told the customer he would not be able to look at the vehicle for 2-3 week so the customer left. SD states he feels based on the information obtained from the customer that the issue is electrical vs mechanical so the repair may take less time. Writer advised will contact the customer and advise to bring his vehicle into the dealership on Monday and a rental vehicle is authorized for 5 days in order for the dealership to diagnose/repair the vehicle.

Customer seeking rental assistance because VOR for a transmission repair. Contacted Service Manager, Terry at 45613 to discuss the customer s request for rental assistance. Confirmed customer s concern and with Service Manager concurrence, authorized 5 days of rental per guidelines in Warranty Bulletin D-11-53. Rental authorization will be processed by CAC.

Writer contacted customer at [REDACTED] and advised him a rental had been authorized and he should take his vehicle to the dealership on Monday in order for them to diagnose. Writer provided CAIR # [REDACTED] and phone number 877-759-5427 x 4718026 for further assistance. Customer was appreciative.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5566 and left a voice mail message for SD Terry requesting a return call at 877-759-5427 x 4718026.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5566 and left a voice mail message for SD Terry requesting a return call at 877-759-5427 x 4718026.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5566 and left a voice mail message for SD Terry requesting a return call at 877-759-5427 x 4718026.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5555 and left a voice mail message for SD Terry.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5555 and spoke and with SD Terry, he advised when the oil was changed last they loosened the splash shield to gain access and left a bolt off that would not allow the shifter to go forward. SD advised the customer was in a rental for two days and the dealership will take care of. SD advised the vehicle has been returned to the customer.

Writer contacted customer at [REDACTED] and he confirmed he picked up his vehicle on Thursday and on Friday it would not go into park.

Customer states he contacted the dealership and they advised him to bring the vehicle back today (Monday) but customer states he is out of town and hopes to bring the vehicle back either Tuesday or Wednesday. Customer states intermittently it will not go into park. Writer confirmed customer had phone number 877-759-5427 x 4718026.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5555 and left a voice mail message for SA Ravel requesting a return call at 877-759-5427 x 4718026.

Writer contacted ROUNDTREE CHRYSLER DODGE JEEP RAM Dealer Code 63-45613 at 601-500-5555 and spoke with SA Ravel, he transferred writer to SA Jimmy. Writer left a voice mail message requesting a return call at 877-759-5427 x 4718026.

Jimmy contacted writer and left a voice mail message, he advised the customer has not brought the vehicle back into the dealership. Jimmy provided phone number 601-500-5659. 07/31 3:59

Writer contacted customer at [REDACTED] and he advised he has not taken his vehicle into the dealership as he has been out of town. Customer states he will be bringing the vehicle into the dealership on Monday.

5 days in RA 7/19/13

Agent attempted to reach Terry SM of dealer 45613 but the call ended.

Agent sees contact with customer, line 113, bringing vehicle to the dealership Monday 8/5.

Status update provided via email to the following email address:

[REDACTED]
This is Ann. I am now your case manager. I am Elizabeth Ann and I go by Ann. I understand you will be bringing your vehicle to the dealership on Monday August 5th, so I will follow up then.

I am here Monday through Friday 9:15 AM - 5:30 PM Central Time.

My telephone number: 800-763-8422

My direct extension: 66125

I hope to reach you by phone on Monday to discuss your case.

Thank you for choosing Dodge.

End of Status Update

CONTACT UPDATE - 1st Contact attempt, phone number dialed, email

Agent sent email to Terry SM of dealer 45613 to know the diagnosis, cause of failure, parts information and timing. Agent will want to know if warranty is covering the repairs.

Status update provided via email to the following email address:

[REDACTED]
At this point, I have not heard back from the dealer Service Manager. I will call you later today or by tomorrow.

Thank you for waiting.

Ann

800-763-8422 extension 66125

End of Status Update

Agent attempted to contact Terry (SM), however,

SM not available. Left message for a return call at extension 66125.

Agent spoke with Terry SM of dealer 45613 who said the vehicle is still in diagnosis even tomorrow. Agent will contact Terry SM tomorrow afternoon. Terry SM said it came yesterday and they put him in a loaner car.

Status update provided via email to the following email address:

[REDACTED]
I found your Dodge Charger is still in diagnosis even tomorrow. I will be following up with the Service Manager Terry in the afternoon for more information.

Thank you for your patience.

Ann

800-763-8422 extension 66125

End of Status Update

Agent sent email to Terry SM to know of the diagnosis and co-pay.

Agent spoke with Betty Sue SA who said they are now waiting for parts, the shifter and a nob for the shifter which are coming either tomorrow or Friday. Betty Sue SA said they have called the customer to let him know.

Agent spoke with Jerry Parts Manager (PM) when SM Terry was not available. Jerry PM said they should still be receiving the part today or tomorrow.

Status update provided via email to the following email address:

[REDACTED]
I understand the shifter and a nob for the shifter are ordered for your vehicle and should be coming later today or tomorrow. I will check again and update you with any new information.

Ann

800-763-8422 extension 66125

End of Status Update

Agent attempted to reach SA Pat when Terry SM was not available and did not leave a message.

Agent spoke with Betty Sue SA who referred the case to Terry SM or Pat SA. Agent explained they both had VM option and were not available.

Betty Sue SA said the parts have arrived this morning and if they can schedule it today, it may be done today.

Status update provided via email to the following email address:

I wanted to update you that the parts have arrived at the dealership. I will follow up Monday and see if the repairs are finished.

Thank you for your patience. Have a great weekend.

Ann

800-763-8422 extension 66125

End of Status Update

Agent will need Terry SM to consult about the rental of 5 days, lines 69-70 on 7/19/13.

Writer contacted dealer at 601-500-5566 and received SM Terry's voicemail. Writer requested SM to call either writer or CM with information on the progress of the repairs.

Agent attempted to contact Terry (SM), however,

SM not available. Left message for a return call at extension 66125.

Agent called the customer at [REDACTED]. Customer said that after a whole week, he picked it up Saturday and driving out of the CDJ parking lot, the check engine light came on and when he stopped, it would not go into park again so the dealership gave him another loaner and they have the vehicle. Customer said he told the dealer that if they can't fix it he wants to have it traded and he can get another one. Customer said he has only had the vehicle 5 months and it has been in the shop 2 months. Customer said he does not know if he got a lemon because it won't go into park.

Customer was advised that due to the nature of their discussion, a call back is required and will take place within one to two business days.

Preferred call back number is [REDACTED]

Who has possession of the vehicle? Dealer 45613

Is this a request for Lemon Law, buy-back, or replacement? Replacement

Agent sent for review.

Briefly summarize why the customer is contacting Chrysler:

Customer states earlier today, the electronics in the vehicle all blinked out momentarily. Customer states everything was restored, except the Bluetooth functionality. Customer states he parked the vehicle, turned it off, and continued on with his day, intending to deal with the Bluetooth issue at a more convenient time. Customer states when he attempted to use the remote start to travel home after work, the vehicle started and then accelerated forward into a pole. Customer states when he inspected the vehicle after the collision, he noticed the vehicle was in Drive. Customer states there is minimal damage to the bumper. Customer states the vehicle appears to be in otherwise good condition. Customer states he has already begun an insurance claim to have the damage to the bumper repaired.

Briefly summarize what the customer is expecting:

Customer seeking to document his experience. Agent reviewed case with a Supervisor, and was advised that as a claim had already been started with the insurance company. Customer should continue to work with his insurance. Agent advised of that information, and advised to have electrical issues diagnosed by a DLR. Agent also advised to have the concern with remote start diagnosed.

****End structured narrative T2 - Beginning Narrative

Customer states that her husband called last week because the vehicle took off by itself and hit a telephone pole.

Customer states they contacted their insurance company who told them that if it is a vehicle defect they will not cover it. Customer states the vehicle has been sitting in their driveway since the incident. Customer states she does not want to do anything with the vehicle until this is looked into.

Agent reviewed lines 7-10 with customer. Customer states that the vehicle was still in the Park position not Drive.

Reassign to 82S.

Per OGC Matrix, reassigned to 82T.

Briefly summarize why the customer is contacting Chrysler: Customer

called back as she states the last agent informed her that the case

should have been escalated last time she called in on 0718/2013.

Briefly summarize what the customer is expecting: Customer wanted to talk

to some right now that can have the case escalated as she has been

without a car for week and wanted Chrysler to cover the rental. Customer

states the insurance company wanted to take the car apart to find out

what caused the accident and if it was a Chrysler defect they would

charge her for the tear down and not pay out the claim.

Agent advised of the 2-5 Business days for a call back and that can

document on her file she is wanting to escalated the process but they

would have to work on the file and advised would have to stand

Dianne from State Farm called in to see if there are any updates on the

customer's case. Agent advised the case has been escalated up and that

the customer should be getting a phone call back with 2-5 business days.

Customer Call Back Seeking update on 82T -
Phone# [REDACTED]

Per OGC Matrix, reassigned to 82T. MG17

8/6/13 UPDATED CCRG FILE & CASE MANAGER. PAG

Letter Sent: Denial 08/06/2013

Customer states that she is unhappy that she has not been called back from the 82T dept. Customer wants to know who she can complain to. Agent advised that he can document the concerns on file and will include the phone number on the notes as well.

Customer would like to be contacted at [REDACTED]

Agent called the Customer and provided the Number for MG17 @ [REDACTED]

Customer disconnected.

Briefly summarize why the customer is contacting Chrysler: Customer called stating that she has a safety issue with her vehicle and dodge has

dropped the ball. Customer stated that her husband has his car parked on a hill in a downwards position. Customer stated that her husband tried to turn the car on by the remote and the car just took up by itself. Customer stated that the car hit a pole and noticed that car was still on park. Customer stated that this happened on the 07/18/13. Customer stated that Chrysler had brought a third part inspector David (215-275-8755) who looked at the car for 4 hours. Customer stated that she tried to get a inspection sheet but the dealer was not able to give her one.

Briefly summarize what the customer is expecting: Customer expecting further assistance regarding this case.

Writer advised customer that writer will look at the notes that was posted on this case so that the writer knows what has already happened.

Writer advised customer that writer can contact the dealer to see why they were not able to get her a inspection sheet. Customer stated that her issue is not the inspection sheet. Customer stated her issue is that Chrysler is not willing to care about this issue. Customer stated that she was going to receive a letter from the legal department stating that there was nothing wrong with the vehicle. Customer stated that she did not accept the letter and would like to speak to a higher department.

Writer advised customer that since the letter was issued by the legal department there was nothing Chrysler can do to change their decision. Customer kept on insisting to get the CEO's contact information. Writer advised customer that this is a inbound calling center so we do not have information for the CEO or any other higher department. Customer stated that if she calls the CEO, they would know about this case. Writer advised customer that writer does not know if the CEO know about this case but if the customer can get a hold of him, she can certainly see if the CEO knows about it. Customer asked writer if there is any other department she can call. Writer gave customer number for MG17

Customer wanted to know who she was calling. Writer advised that Maggie is from the Special Investigation team. Writer asked if there is anything else that the customer can be assisted with.

Customer said no and disconnected the phone.

08.19.13

Customer called back to discuss letter of denial.

Briefly summarize why the customer is contacting Chrysler: Vehicle is unexpectedly rolling forward when in park.
 Briefly summarize what the customer is expecting: Customer was advised by dealer to contact Customer Assistance Center Special Investigations.

1. Who is calling and what is their contact information?

2. What happened? The customer took the vehicle to the dealership, and the dealership advised to call Customer Care Centre to contact special investigations. Today at approximately 11:45 am the customer had turned the car off and then turned the car back on and vehicle was in park, customer was going around to help daughter and vehicle rolled forward. The customer states when she got back in the vehicle the vehicle was still in park. The vehicle stopped by hitting the garage. The customer had to put foot on the brake and put the vehicle in reverse to get it away from the garage. This is the second time this has happened. The first time, the customer was parking at Target, the vehicle was in park and off, and as customer was getting out of the car, the vehicle rolled forward, customer's legs were still in the car and vehicle seemed to roll forward faster. Customer's legs were still in the car, so she managed to apply the brakes, she restarted the car and pushed it again to make sure it was in park. Customer feels like it is not connecting when going into park. The customer does not feel the kind of lock mechanism when it goes into park.

3. What is the current location of the vehicle? WALDORF DODGE
 2450 Crain Hwy
 Waldorf, MD 20601

CAIR NUMBER [REDACTED] E-MAIL SENT TO EAA 07-25-2013 11:53

PHOTOGRAPHIC IMAGES POSTED TO THIS CAIR ON 08/02/13 AT 18:37:09 [REDACTED]

Rob Murphy from DLR 44519 called in for an update. Rob stated that the customer's rental is up today 08/05/2013 and he needs to tell the customer something. Writer advised Rob that she can transfer customer over to JSS15. Rob declined as he is only getting the answering machine. Writer apologized and advised that JSS15 will be getting the messages Rob has left. Writer advised that she will document on the file that Rob wants an update.

Called dealer & advised of findings.

Customer is very upset that Chrysler is not going to pay for the consequential damage that was caused by the vehicle jumping out of park.

Agent informed customer she needs to contact her insurance company to have these repairs completed. Customer stated she is going to contact her attorney to deal with this matter.

Dictated letter.

POSTMARK DATE: 080613; DATE RECEIVED: 080613

CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED

Dealer - By-Pass

Briefly summarize why the customer is contacting Chrysler:

Customer called in stating she wanted to speak with a supervisor about the decision on her vehicle.

Briefly summarize what the customer is expecting:

Customer expects to speak with a supervisor.

Agent advised customer that the case has been closed and SI has reviewed it and made the final decision and we could not overturn it. Customer stated that she was calling in to speak with a supervisor about this issue.

Customer has requested Supervisor callback

Preferred daytime number: [REDACTED]

Preferred evening number: [REDACTED]

Reason for request: Called in requesting to speak with a supervisor

CAIR assigned to: (KG363)

CSR has informed customer a Supervisor callback request has been made, and the customer will receive a callback within 24 hours.

LETTER MAILED.

Briefly summarize why the customer is contacting Chrysler: Customer calling back for update. Customer says she never received a callback.

Agent asked customer has she spoken with her insurance company. Customer says she does not want to put it through her insurance company because she feels the issue is a manufacturing defect and Chrysler should provide assistance with repairs to vehicle that were necessary due to subsequent damage of the vehicle from it jumping out of park. Customer says if she cannot receive satisfactory answer from supervisor she will take legal action. Agent reiterated as per above notes the case is closed and Chrysler will not be providing assistance for repairs from consequential damage. Customer still wants to speak to supervisor. Agent will attempt to contact Jay in SI. Customer gave phone number for Jay in SI from AC 18819. Customer says the 'jumping out of park' problem has been fixed and vehicle is now in customer's possession.

Briefly summarize what the customer is expecting: Customer expecting a callback or to speak to supervisor and hopes Chrysler will provide assistance with repairs to consequential damage to vehicle after it jumped out of park.

Note added later: Agent attempted to contact Jay in SI but could not.

Agent advised customer she is free to call the SI number herself and that she will probably receive a callback later today since the callback was not done yesterday. Agent also advised that a letter was sent to customer just yesterday and customer will likely receive letter sometime next week.

Customer Shannon called stating that he is having lots of issues with his vehicle. He has a history of issues with the vehicle since purchase.

Currently the battery light and other lights are coming on all the time.

Shannon stated that the vehicle broke down on him last night and he had the vehicle towed to the dealership this morning and agent contacted the dealership (44391) and spoke with Steve the SM and he stated there was currently no open ticket on the vehicle. But he was unaware of the vehicle at this time he was waiting to contact his advisor to see if the vehicle is there or if she has any information on vehicle. Customer stated that he has lots of problems with the vehicle right now. He wanted to know about buy back or filing for lemon law. Agent advised that she would send it to the case manager to see if we can assist him any further. When Agent spoke with Steve at the dealership (44391) he said he was going to check on the vehicle's location and get back to us so agent provided the phone number and case number for the dealership to call back.

***** 91L Review *****

*****Case Escalated to I2R*****

Reviewed Warranty History which determined this case should be escalated to I2R for case management.

*** Jennifer Deluna with the I2R Customer Resolution Team is now responsible for this CAIR. If the customer should call, please request them to contact Jennifer Deluna at 888-542-7239, extension 2156. Thank you. ***

Made my initial call to customer and he informed me his vehicle is currently at the Dealer and he is tired of dealing with the vehicle.

Customer stated he is was trying to sale his vehicle but the car fax shows the vehicle has been to the Dealer about 14 times and said he is having a hard time selling the vehicle. Customer stated he had a for sale sign and went on a test drive with the guy who was interested in buying

his vehicle and the vehicle broke down on them and had to have the vehicle towed and of course he lost the sale. Customer stated he just wants a reliable vehicle and feels this vehicle is not reliable and keeps going back and forward to the Dealer and the Dealer is about 45 min away from him. Apologized to customer for the inconvenience and informed him I would give the Dealer a call and review his case. Customer is wanting out of the vehicle will contact Dealer on 08/14 to go over RO history Steve from dlr 44391 contacted CAC to provide an update. Dlr stated the customer has had the battery and alternator repaired. The vehicle does have a shifting concern and a new shift plate is on order. The customer also has a spot on the console to which we do not believe to be a defect in material or workmanship however pictures will be sent to DI. The customer is a young customer and appears to want out of the vehicle in order to purchase a new Camero. Dlr stated that there are warranty repairs but nothing of a repetitive nature.

Contacted Interstate Dodge Inc and spoke with Service Advisor Kim and she stated they are waiting on the shifter to come in and should have the vehicle ready for customer on Monday. Kim provided me with the RO number and thanked her for her time will follow up with customer on 08/19 Customer looking for information about customers buyback. Writer advised customer that customer would have to wait for information from the case manager. Customer is looking for a callback

Received a call from customer informing me he received a voice mail from the dealer informing him his vehicle is ready for pick up. Customer stated he no longer wants this vehicle after all the repairs that have been done to it and would like a replacement. Informed customer I would be more than glad to review his case but he would still be responsible for returning the rental and picking up his vehicle and once I have a decision by the end of this week I will contact him customer understood and thanked me

Agent transferred customer to I2R CM VM as per lines 30-33

Received a call from customer wanting information as to whether Chrysler would be offering a buy back. Informed customer after further review a buy back is not being offered. Explained to customer I would be more than glad to compensate him for being inconvenienced. Asked customer how much his monthly payments were and he stated 426 informed customer if he could fax over his documents I could review it for reimbursement. Customer stated he just did not want the vehicle as he feels it is not reliable.

Informed customer Dealer has repaired the vehicle but I could offer and extended warranty on the vehicle instated of the reimbursement if he would like. Customer stated he would review it and give me a call back.

Will follow up with customer on 08/23

Customer called, requested transfer to JD1352 phone 888-542-7239 ext. 2156.

Contacted customer to do a follow up and he informed me so far the vehicle was working okay. Customer asked what type of service contract would be offered and I stated it would be an Added Care Plus 5/70,000 miles with a \$50.00 deductible. Customer stated he would like to service contract and one payment as he has been back and forward to the dealer. Informed customer I would be more than glad to review her request and asked him to please send over proof of monthly payment. Informed customer I would give him a call on Monday to let him know if Chrysler will be providing both.

-Emailed customer informing him to please send over documentation for his monthly payment so I can review it for a possible reimbursement.

Will follow up with customer on 08/26

Contacted customer to do a follow up to see if he had a chance to fax over his documentation for his reimbursement and customer stated he is waiting for his bank to give him a document so he can fax it over to me.

Customer also stated the his taillight is melted for the second time informed him I would give the Dealer a call so we can have that taken care of for him thanked him for his time will contact Dealer on 08/28

Received an email from customer with a word document attached providing me with how much he pays a month for the vehicle. Emailed customer back informing him I could not accept that document as its not a proof of payment. Asked customer to please fax over customers retail instalment contract. Will follow up on fax on 08/30

Received a call from customer informing he is having issues with the vehicle again and is tired of taking it back to the Dealer. Customer stated the vehicle died on him over the weekend and the vehicle read battery savor mode and he had to jump start the vehicle. Apologized for

the inconvenience and customer asked if the Dealer could pick up his vehicle as he is busy with work informed him I would call and ask and get back with him.

Contacted Interstate Dodge Inc. and spoke with Service Advisor Kim and informed her customer was having issues with his vehicle again and wanted to see if the Dealer would be able to pick up his vehicle as he does not want to make another trip to the Dealer. Kim stated that is not a service they provide and customer could have the vehicle towed in by Chrysler roadside assistance. Thanked her for her time and informed her I would go ahead and contact customer.

-Contacted customer and informed him I did speak with the Dealer and they suggested he contact Chrysler roadside assistance to have the vehicle towed to the Dealer. Customer stated that would be fine but he would not have a vehicle to drive. Informed him I would be more than glad to authorize a rental but he would have to go to the Dealer to pick up the rental. Customer stated he would see when he could get off work to do this but wants something to be done. Customer stated he is tired of Dealing with this vehicle and wants to know what else Chrysler can do for him. Customer stated he no longer wants this vehicle informed him I would be more than glad to review his case to see if there are any additional offers that can be made.

CAIR ESCALATION UPDATE

SEE STAR CASE# [REDACTED] FOR INFORMATION

Called East Hills DCJ to speak to GM Darryl to find out if dealership is willing to participate in CDI. Receptionist stated GM was not available and does not have a voicemail. Left voicemail with receptionist to contact case manager Jennifer at 888-542-7239 ext. 2156. ****follow up with dealership and customer 9/6/13 to verify if dealership willing to participate in CDI and offer CDI.*****

Received call from customer who was looking for an update on the status of his case. Informed customer his case manager is currently attempting to work out a deal with the dealership and I contacted the GM today and left a voicemail. Customer stated he went to the dealership to drop his vehicle off today and because Enterprise was all out of CDJ vehicles, he could not receive a rental. Customer also stated there was one Dodge minivan but the dealership informed him he had to be at least 25 to rent it even though Enterprise informed him he only had to be 21. Informed customer I would let his case manager know this so she could contact Enterprise tomorrow to obtain a rental for him. Customer thanked me for my help.

CAIR ESCALATION UPDATE

SEE STAR CASE# [REDACTED] FOR INFORMATION

Contacted Interstate Dodge Inc. and spoke with Service Advisor Kim and she confirmed the vehicle was towed in on Thursday but they have not been able to look at the vehicle since they are short of staff. Kim stated they have 2 people working on vehicles and it may take a few days before they get to his vehicle. Asked to speak with Service Manager Steve and she stated he has not been in in over a week. Thanked her for her time and informed her I would see what we can do and I would continue to follow up

Requested to speak with General Manager Darryl and receptionist informed me he was not in today and took a message and would have him call me back.

-Contacted customer and explained to him the dealer is short on staff and they have not been able to look at the vehicle and it may be a few more days. Customer stated he is tired of dealing with this and wants out of the vehicle. Explained to customer the CDI offer and he stated he was not interested and he feels that was not a good offer and wants Chrysler to replace the vehicle. Informed customer a replacement is not being offered at this time if he rejects the CDI offer then we would need to move forward with repairs. Informed customer as soon as I get further feedback from the Dealer I would give him a call with an update. Will contact dealer on 09/10 to speak with General Manager

CAIR ESCALATION UPDATE

SEE STAR CASE# [REDACTED] FOR INFORMATION

Spoke with John from Chrysler and explained to him customers vehicle has

been at the Dealer since the 4th and the Dealer is short of staff and are unable to work on the vehicle and don't know when they will have a chance to look at it. John suggested we contact the closest Dealer and arrange for the vehicle to be towed over to them so we can get this resolved for customer

-Contacted Interstate Dodge Inc. and Spoke with Service Advisor Kim and explained to her this is an escalated case and since they are understaff will they be okay with assisting us on getting the vehicle towed over to a different Dealer and she stated that was fine and stated Brennan Dodge, LLC is the closest Dealer. Informed him I would contact them and see if they are willing to work on the vehicle and then I would call her back to confirm.

Contacted Brennan Dodge, LLC and spoke with Service Advisor Brittany and explained the situation and asked if they would be willing to work on the vehicle. She explained they are booked for today and tomorrow morning but if we can get it towed to them they can try to work on it tomorrow afternoon. Thanked her for her time and informed her I would arrange everything and contact her back with further information

Contacted Interstate Dodge and spoke with Kim and informed her Brennan Dodge stated they would look at the vehicle if it was towed to them. Kim stated that was fine but stated customer is still in a rental with them and asked how they should handle that since the vehicle would no longer be with them. Informed her I would look into it and give her a call right back. Emailed JJS140 informing him of the situation SG900 spoke with JJS140 and he will be contacting the Area Manager to assist with the case.

-Contacted customer and updated him of the situation will follow up on 09/12

Per recommendation of JJS140, contacted Rusty at Brennan Dodge to assist with getting vehicle towed from Interstate Dodge. He agreed to assist and will provide bill for reimbursement.

Spoke with Charlie at Interstate and let him know the vehicle would be picked up for transfer.

Spoke with Nikki at Enterprise (318/324-8584) and confirmed they could switch the billing on the rental to Brennan Dodge.

Contacted customer and let him know the vehicle is being moved to Brennan Dodge.

CAIR ESCALATION UPDATE

SEE STAR CASE# [REDACTED] FOR INFORMATION

Briefly summarize why the customer is contacting Chrysler:

Customer stated he wanted to speak with his CM.

Briefly summarize what the customer is expecting:

Customer expects to speak with CM.

Agent advised customer that agent was unable to get a hold of CM and only received voicemail. Agent offered to transfer customer over to CM to leave a voicemail but declined. Agent advised customer that agent will document on file that he called in wishing to speak with CM.

Received a call from customer informing that Enterprise called him this afternoon informing he needed to return the rental and pick up a new vehicle from Enterprise in Ruston.

Contacted Enterprise and requested to speak with Nikki and was informed by assistant manager Michelle she was on vacation and will not be back until Monday. Informed her I received a call from customer informing me that the rental needed to be returned and SG900 had spoken with Nikki yesterday and she stated they would have the invoice transferred to Ruston that way customer would not have to drive to Ruston to pick up

another vehicle. Michelle stated that interstate dodge will not pay for the rental unless customer returns the vehicle. Explained to her that Nikki stated it was okay for the whole invoice to be sent to Ruston and she stated there were no notes in the system authorizing that and she would have to get with the Area Manager and then get back with me. Will follow-up tomorrow with enterprise

Contacted customer and informed him not to return the rental as we are currently working with Enterprise on that. Customer stated he has been looking into the CDI offer and maybe interested. Customer stated he spoke with Jason at Bob Howard Chrysler and I informed customer I would need to call them first to see if they would be willing to participate with us.

Will contact Dealer on 09/18

Received a call from Area Manager asking about customer rental and informed him that Interstate Dodge informed me they were understaff and they did not know when they would be able to look at the vehicle so we had the vehicle towed over to Ruston so they can work on the vehicle.

Informed AM that we have spoken with Enterprise and Nikki agreed to have the bill transferred to Ruston so customer would not have to switch out of the rental. AM stated they have so many problems with this customer that he has an issue with a rental for him every month. Explained to him that customer is having concerns with the vehicle so we are trying to get them resolved before customer decides to file for Lemon law. AM stated that was fine that Interstate Dodge would take care of 5 day rental and they would transfer the invoice to Ruston thanked him for his time

-Contacted Brennan Dodge, LLC and spoke with Alex in service and he informed me the vehicle is still not there. Alex stated the customer called them yesterday asking about the vehicle as well but we need to check with Interstate Dodge to see when they will have it towed.

-Contacted Interstate Dodge Inc. and spoke with Charlie and he stated the vehicle has not been towed yet as they thought Brennan Dodge was going to be in charge of that. Asked Charlie if he can go ahead and have the towing set up to be towed to Brennan Dodge and he stated he would do that this afternoon. Will follow up with Brennan Dodge to confirm vehicle is at Dealer.

-Contacted Bob Howard Chrysler Jeep Dodge and spoke with Jason in Sales and explained to him the CDI offer we provided to customer and he stated they would be willing to participate. Asked him what the Pricing would be on the vehicle customer picked out and he stated eh would have to look it up again and then get back with me. Will follow up with Brennan Dodge on repairs and Bob Howard on CDI on 09/19

Mileage: 23,000

Date of repair(s): 8/12/13

Additional pertinent information: Reimbursing customer one monthly payment of \$735.12 based on 3 repairs for a Check Engine Light concern since June 2013 and 4 other miscellaneous vehicle repairs performed between August 2012 and April 2013... Approved per SG900

Writer is submitting check for approval in the amount of: \$735.12

CNA flag (Y/N): Y

If yes, reason for CNA flag: Reimbursement check to be paid to vehicle owner Shannon Bryant and mailed to his business address 7726 Hwy 165 Columbia LA, 71418 per his request.

Emailed rw100 inquiring if it is possible to just cancel customer s current Service Contract MOPAR CUSTOMER APPRECIATION PACKAGE 7 MCM775N and apply an Added Care Plus 5 year/70,000 mile \$50 deductible (WA570N) Service Contract to the vehicle per customer s request. ** Will follow-up on 10/11

***** Customer Document Received *****

Emailed rw100 for follow-up on upgrading customer s current Service Contract. ** Will follow-up with rw100 again on 10/14/

Emailed rw100 for follow-up on upgrading customer s current Service Contract. ** Will follow-up with rw100 again on 10/14.

Per rw100, customer s Mopar Customer Care Package (MCM775) is a 7 year/75,000 miles Maximum Care that also includes 3 LOF s (at \$25 each).

If we cancel the MCM775 plan, the customer would actually be losing mechanical coverage (and there is 1 out of the 3 oil changes still available for the customer). **RW100 to see if we can lower customer s current Service Contract deductible to \$50 and let me know.

Received email from rw100 advising customer s current Service Contract (MCM775) is only available with a \$100 deductible. To get the \$50 deductible customer would have to go with the regular Max Care plan...

Emailed kc556 to advise

Emailed rw100 for follow-up to determine if the customer needs to cancel his current Service Contract before we apply the new Service Contract to the vehicle? ** Will follow-up on 10/17

received conformation from MB981, the customers current service contract needs to be canceled by the customer before the new contract can be applied per RW100 at Chrysler.

Called customer, informed him that he would have to have his maximum care contract taken off, before we can send him anything, he asked for documentation, I stated that I could not do that, then he asked to record the phone call , I let him know that we are recording it on our end. He started to record the call and asked what contract we were giving him, as well as the payment. I stated all the information we have put down. Will follow up tomorrow to see if the contract was taken off.

Called customer, he stated that he was waiting for a call back from SG900, before he does anything. Will follow up on Monday.

As of today, customer s current Service Contract (MCM775) has not been cancelled. Emailed kc556 to advise.

Emailed TJB16 to stop payment on check 8954965 as payment was not received by customer.

RECEIVED REQUEST FOR STOP PAYMENT AS CUSTOMER HAS NOT RECEIVED THE CHECK. I WILL FAX REQUEST TO ACCOUNTS PAYABLE AND ADVISE TJB1 WHEN I RECEIVE CONFIRMATION.

SECOND REQUEST FOR STOP PAYMENT FAXED AS CONFIRMATION HAS NOT BEEN RECEIVED.

RECEIVED CONFIRMATION OF STOP PAYMENT FROM ACCOUNTS PAYABLE. LMM14 WILL VOID AND CLOSE THE CAIR AND I WILL ADVISE TJB1 THAT CONFIRMATION WAS RECEIVED - LOOKS LIKE CHECK WAS ALREADY REISSUED.

CORRECTION: I WILL ADVISE TJB1 CHECK CAN BE REISSUED AS CUSTOMER WAS PROMISED TWO PAYMENTS.**

POSTMARK DATE: 121013; DATE RECEIVED: 121013

Product - Body / Trim / Paint Finish - Seat Belts - Not Retracting Properly - Default	Driver side seat belt does not let the driver out.
Product - Transmission / Transaxle - Gear Selector / Linkage - Other - Default	Problems with shifter.
Product - Transmission / Transaxle - Unknown - Noisy - Default	Transmission issues, noisy, DLR had vehicle 30 days.
Corporate - CNA Change - Default - Default - Default	Updated coin.

Briefly summarize why the customer is contacting Chrysler: Customer states he bought a 2013 charger and it is a lemon and has had 13 different problems that are not being taken care of. Customer states the driver side seat belt will not let you out.

Customer states he is getting a message to service the shifter.

Customer states the suspension when you hit a bump it s like driving in a truck wagon and extremely rough.

Customer states he just took it in for the suspension and nothing was found on Saturday like every other time he takes things in because they cant duplicate it or find any codes at the time its at the DLR. Customer states this is his only transportation and cant keep leaving his vehicle at the DLR because they do not give him a rental.

Customer states it was in the shop for 30 days for the transmission.

Customer states he complained to the DLR about the shifter and was told there was nothing wrong and now it does have a service code shortly after getting the transmission fixed.

Customer states it is his wife s car and he does not drive it everyday and has had several other problems and is not very happy with the service from the DLR.

Briefly summarize what the customer is expecting: Customer is seeking help and resolution for his issue as this is a brand new vehicle.

Writer updated coin and DLR to 45182 Dealer Name : SUPERIOR DODGE CHRYSLER JEEP Dealer Phone : 501-329-2661.

Writer provided customer with the case number

Writer advised customer that the case would be sent to a case manager for review due to the unresolved issues and advised customer the vehicle would need to be taken to the DLR for unresolved issues. Customer states he can take it anytime and requesting a rental if it needs to be kept.

Writer advised Customer that depending on the situation that request can be made and would be determined at that time what would be available once the case manager is involved.

Customer advised a call back is required and will take place within one business day by COB their time

CONTACT UPDATE - 1st Contact attempt, phone number dialed,

[REDACTED] . Left message.

[REDACTED] calling to speak with case manager LU9. Writer advised cm is not available and will transfer customer over to CW509 at ext 66189.

Phone numbers: verified both

Email: declined

Writer spoke to MR [REDACTED] and said the issue is not resolved.

Said when he is driving the vehicle there is a loud noise. Asked if it was the transmission that was recently replaced and he said he is not sure. Has taken to 2 dealers and they are stating that nothing is wrong. Asked customer where is the vehicle now and customer is driving because the dealer told him there was nothing wrong. Advised customer that his CM is doing research and may be calling both dealer to see what was done to resolve the issue and he can expect a call back.

Owner called writer to inform took vehicle to selling dealership, Superior Dodge, and they were not able to duplicate any of the concerns owner is having. Owner stated there are no codes for any of the issues. Owner feels this vehicle is a lemon and is wanting go forward to see if there are any other options available. Writer informed owner will reassign case to another department that can look into this situation further. Writer informed owner will receive a call back within 1-2 business days.

Customer was advised that due to the nature of their request a call back is required and will take place within one to two business days.

Preferred call back number is [REDACTED]

Who has possession of the vehicle? Owner

Is this a request for Lemon Law, buy-back, or replacement? Lemon Law

*****91L Review*****

9/5/2013 KA286

Called owner and explained have forwarded case to Dealer to use all corporate resources to resolve vehicle issue. Advised owner to keep in touch with Service Manager for most current status and if he is not contacted within 3 business days to call me at 888-542-7239, ext 2166. >Advised Sean Davidson, SM at Superior Dodge we are reassigning CAIR to his dealership and to involve AM since owner is seeking to get out of the vehicle.

***** START OF SUPPORT ESCALATION FROM T2294RS*****

Craig - Please contact owner upon receipt. Thank You

***** END OF SUPPORT ESCALATION FROM T2294RS*****

CAR6: I called the customer on 9/11/13. Owner claims the vehicle rolls 1 foot after it is put in park, the suspension bottoms out on small bumps and the 'low fuel' warning light doesn't work like it should. I will asked the SM at Superior to make arrangements for a rental car for the customer to drop the car off at Superior on a weekend and I will address the complaints.

CAR6: SM made arrangements to drop off vehicle and pick up rental on Tuesday Sept. 17th.

CAR6: I inspected and test drove the vehicle for 11 complaints the owner left the Service Advisor.

Complaints:

1. Suspension Noise - Found trans mount not installed correctly -

repaired now.

2. Vehicle rolls excessively when put into park. No issue. Does not roll excessively. Does not roll 1 foot. More like 3 inches. This is a mechanical function of the trans and is not adjustable. Nothing to do with complaint.

3. Service Shifter light is on - has trouble going into gear. There was no light on when I drove. The shifter is the 8 speed auto shifter and it worked as it should. No problem.

4. When put into Drive, the vehicle went into reverse and moved backwards. I found no issue with the transmission shifter. It operated normally. Some people have problems with the 8 speed shifter. I found it worked exactly like it should.

5. Nav. unit talks late at night randomly telling the owner how much they are saving in mileage. I used the nav. unit and found no issues. It worked as it was designed. No problem.

6. Driver's seat belt is hard to unlatch when getting out. I found the seat belt latch easy to operate and had no issues getting out. No problem here.

7. Lumbar option in driver's seat randomly inflates overnight. I tested the lumbar controls and found them to work as designed. No sign of random inflation. No problem.

8. Low fuel light doesn't always come on to warn when fuel is low. I had owner bring in car with low fuel. When I tested, the fuel light was on and the message was 'LOW FUEL'. I put fuel in the car and the light was still on with the message '45 miles till empty'. This system has the low fuel light come on at around 45 miles till empty (calculated based on recent mileage estimate). When the message hits 30 miles until empty, the miles message turns to 'Low Fuel' and does not read miles till empty anymore. Owner claims the 'low Fuel' light didn't come on until there was only 8 miles till empty. This cannot happen. Miles till empty are not noted below 30 miles. No problem found here.

9. Traction control is not working. I tested and traction control is working as designed. No problem here.

10. Brake pedal effort is excessively stiff after car has sat for a couple of days - hard to depress and start the vehicle. This is normal. After the vehicle has sat for an extended period, there is no vacuum boost of the brakes. You have to push harder on the brake pedal to set the brake interlock switch and allow the vehicle to start. This is normal. Nothing to repair. Same in all vehicles.

11. Shifter is clicking randomly. I found no clicking in the shifter at any time. No problem here.

The only issue has been repaired. It was the result of the prior transmission replacement. Owner does not want car anymore. There should be no repair attempted to any system that an actual defect has been demonstrated.

CAR6: Correction to the last statement in the narrative above: What I intended to write was the following:

There should be no repair attempted to any system 'unless' an actual defect has been or can be demonstrated.

Briefly summarize why the customer is contacting Chrysler:

Customer's vehicle is stuck in park. Customer is very upset. He tried to reset the shifter but it did not work. He called Roadside assistance and he stated they were not very pleasant and told him they would have to contact a Towing Company 2 hours away. Customer expressed that this could be a dangerous situation. He also will have to take a cab back home which will be expensive.

Briefly summarize what the customer is expecting:

Issue resolved and rental.

LITTLE ROCK AR					Country	UNITED STATES

Corporate - Arbitration - Default - Default - Default	Non Binding Arbitration. Case #
Product - Transmission / Transaxle - Transfer Case - Other - Default	rolling while in park

***** NON BINDING ARBITRATION, CASE # *****

Received an Arbitration request from owner s attorney;

Tabatha Branch

TS Branch Law Firm PLLC

from North Little Rock AR.

Owner provided list of failures;

squeal in the engine, trim loose, brake pedal clanking, navigation talking on its own, suspension rough bottoming out, rolling while in park, shifter service light on and clicking, traction control not engaging properly, driver seat belt hard to move, lumbar in driver seat inflates on its own, fuel light not working properly vehicle moves into reverse while driving.

***** PER prior CAIR # district manager s - Craig Reed

vehicle was dropped of at Superior Dodge #405670 on

9/17/13 for the DM and the dealer to address 10 concerns that owner listed above. Complaints;

1. Suspension noise - found trans mount not installed correctly/concern repaired/resolved.
2. Vehicle rolls when put into park - No problem found. there is no more than 3 inches movement/mechanical normal transmission adjustment function - NORMAL.
3. Service shifter light on - no problem found after a long road-test.
4. While in drive vehicle goes into reverse - This is a 8 speed shifter and it works properly.
5. Navigation unit randomly talks to owner with out a demand - no problem found.
6. Driver seat belt hard to operate. - The DM found it operating very easy - no problem found.
7. Lumbar option in the driver s seat randomly inflates overnight - n problem found.
8. Low fuel light doesn t always come on to warn the driver - DM had the owner bring the vehicle with low fuel and the light was on it comes on when there is 45 miles of destination left. Once the fuel was added light message turned off.
9. Traction control not working - after a road-test the traction control works as designed.
10. After vehicle not used for couple of days the brake pedal is stiff. - That is normal since the brake vacuum is not on to boost the braking. Once the brake pedal is pushed hard it activates.
11. Shifter clicking randomly - no problem found.

Dealer was instructed there should be no repair attempts to any system UNLESS' until an concern can be duplicated.....

Called Steve Landers dlr and left message for serv. mngr. Roger Cook to

fax copies of the service record. 10/18/13.

Called Superior Dodge and spoke with David in service who will fax the ROs today. 10/18/13.

After review of repair records from both dealerships writer will defend the case. Per the district manager and both dealerships this vehicle has been repaired and at this time it operates as designed and no further repairs will be performed unless owner can duplicate his concerns.

Faxed Statement to NCDS on 10/22/13 defending repurchase.

NCDS scheduled 'Documents ONLY' hearing on 11/12/2013.

Received Arbitrator's reply and owner was DENIED vehicle repurchase. OK to close. TJK7

***** EMAIL BRIEF DESCRIPTION CONTENT *****

Faulty transmission

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

I bought my 2012 Chrysler 300 at the end of March, 2013 from Crowley Chrysler, Bristol, Connecticut, to replace my 2006 Chrysler 300, and from the outset the shifting mechanism on it worked imperfectly, but I figured it was a matter of getting used to shifting with a new-fangled shift lever.

Your old shifting mechanism wasn't broke, but you fixed it anyway.

Your new one---or at least the one on my car---binds and/or skips: From whatever gear to whatever gear, a movement to shift the car may not take, or it may double take (skip a gear). There is one potentially dangerous aspect to this problem: If you pull over to park, push in the button on the shift lever, shove the shifting lever all the way forward and

then touch the key spot to turn the car off, you may or may not have

turned off the car, because the transmission may or may not actually have moved into the park gear. Unless the car is in park, it cannot be turned off. Several times I have turned off the car, left it, and returned later to find that the car was in reverse and had been idling for the time

I had been gone. Leaving a car running and in reverse gear may lead to terrible disaster. I think that I am not the first owner to experience this problem, as the 2013 Chrysler 300s have been configured so that when the car really is turned off, the seat moves backwards, making it most unlikely that one will inadvertently leave the car while the motor is still

running. The service people at Crowley tell me that they have test-driven the car and done a complete computer checkup on it; that it shifts the way it is supposed to shift; and that the problem of which I complain is just the nature of the beast. When I asked if Crowley had dropped the transmission to inspect its working parts, the service manager explained that Chrysler doesn't pay us to drop transmissions that aren't broken. The upshot is that I am the owner of a car that is a potential killer and the dealership says there is nothing to be done. Is that really true? Will Chrysler step to the plate? I have received two separate customer satisfaction surveys from Chrysler and have noted this problem on both of them, but haven't heard anything back

from you, and fear that your silence is the answer to my question about Chrysler stepping to the plate. Please prove me wrong. Unless I do hear from Chrysler I will call the situation to the attention of the legal bloggers who interest themselves in auto products-liability litigation, and of the journalist-ombudsmen who appear in most newspapers. Very truly yours, [REDACTED]

Dealer Name: CROWLEY CHRY-JEEP-DODGE INC Dealer Phone 860-261-3000: Matt road tested and inspected in May and October. There was no issue found either time, customer has not contacted them back since October 7. Matt recommended for customer to bring his vehicle back to the dealership for diagnosis.

Dear [REDACTED]

Thank you for contacting the Chrysler Customer Assistance Center.

I have contacted Crowley Chrysler Jeep Dodge and spoke with service advisor Matt regarding your vehicle concerns. Matt has requested for you to contact him to bring the vehicle back into the dealership for another diagnosis. You can contact Matt by calling 860-261-3000.

Thanks again for your email.

Sincerely,

Eileen

Customer Service Representative

Chrysler Customer Assistance Center

vehicle was stuck in park

Briefly summarize why the customer is contacting Chrysler: Customer s father Mickey calling on behalf of their son. Caller states that their vehicle was towed to a DLR in Texas as it would not shift into park and they could not turn the vehicle off. Caller states their son is not being given a rental vehicle and they need to go away this weekend as they work for their college. Caller states they were just calling to see who their son should speak with in regards to getting a rental as they feel it is not right they should have to pay for this. Agent informed the customer that we can look into a rental but they wanted to call the DLR first to see why their son was not given a vehicle. Customer s father did not know what DLR it was at and states they will get their son to call. Agent provided Mickey with the case number and advised them to have their son call so we can get the proper DLR information as we do need to verify the diagnosis before this can be sent to our rental department. Caller thanked the agent and disconnected the call.

Briefly summarize what the customer is expecting: Customer would like a rental.

Customer called for CM1434, agent warm transferred the call to Charmaine after explaining that the customer didn t have the CM s extension and it wasn t available in Answer.

Customer called back to advise his vehicle will be in there until part comes in perhaps as late as Wednesday. Customer requires a rental. Dealership advised customer since he doesn t have a SC. Agent contacted Troy at the dealership who advised the codes are stored showing the malfunction did happen, but the vehicle is currently shifting fine.

Agent asked Troy to confirm with Mark the SM that vehicle was or was not driveable. SM Mark confirmed it is driveable as they haven t been able to duplicate the concerns, thought they know it has happened. Agent advised customer that we cannot consider rental assistance as this time but could escalate his case to a cm to assist but he would not get a callback until Monday. Customer will call us back.

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler back seeking further assistance in a rental. Customer explained his concern that he is currently out of town and is in need of a functioning vehicle to get from place to place. Customer is concerned if the incident had happened twice last night and this morning as well that it is unsafe to drive at this point. Agent contacted SM Mark at the DLR 62957 to determine the vehicle has not been fixed and that the codes had only been reset. SM Mark states that the customer is waiting on a part for the gear shifter that will not be in until Wednesday 11/13/13. Agent requested the SM Mark to approve a rental for the customer until Sunday 11/10/13, SM agreed and suggested customer to contact SA Allan at the DLR to be further assisted. Customer thanked agent and requested supervisor name to submit a compliment on agent.

Briefly summarize what the customer is expecting: Customer is expecting to contact MIKE PERRY MOTOR COMPANY 62957, to get further assisted by SA Allan and be put in a rental until Sunday evening.

Briefly summarize why the customer is contacting Chrysler: seeking repair assistance

Briefly summarize what the customer is expecting: seeking repair assistance

The [REDACTED] has called in due to the fact that his new vehicle this morning was not shifting properly to the point where he was having difficulty maneuvering the vehicle safely, but did end up parking the vehicle at work. He is very upset that his new vehicle is displaying this type of symptom with such low mileage and so new, so he is seeking assistance and direction moving forward.

Writer obtained the dealership: Major CJD and advised the customer that I would have to contact them to obtain his VIN to look further into this issue.

Writer contacted the Major dealer at 718-937-3500 and spoke with the SA, Ron. Writer obtained the VIN and advised him of the issues with the customer's vehicle and inquired if the vehicle can be towed to his dealer. The SA, Ron, advised writer that the vehicle can be towed; however, he is unsure as to how long it will take to be diagnosed. Writer thanked him for the information.

Writer returned to the customer, George and advised him that his vehicle has roadside and towing assistance, so advised him that he can have the vehicle towed to the dealer and from there, the next steps in the process can be worked out with the dealer. However, writer advised the customer that should he require further assistance to contact us back and he stated he would. Writer provided him with Roadside contact number and their name, his VIN and his case number for reference. The customer thanked writer for the information and the assistance today.

NO diagnosis: JK671

by pass added.

CLOSED LOOP UPDATE - customer: NO diagnosis.

Corporate - CNA Change - Default - Default - Default	updated customer's information in COIN
Product - Transmission / Transaxle - Gear Selector / Linkage - Improper Shift - Default	vehicle is stuck in park but still started
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: The customer called and stated that the shifter was stuck in drive and now it was stuck in park. The agent updated the customer's information in COIN. The agent referred to the owner's manual and attempted to assist the customer using the instructions provided to use the override in the shift lever area however the customer stated that this did not work. The agent offered to call a tow service for the customer as the customer had towing assistance however the customer stated that this was necessary if the Dealership could help him.

The agent called the JEEP CHRYSLER DODGE OF ONTARIO Dealership and spoke to the SM who continued to assist the customer with providing instructions to get the shift lever to release and the customer was unable to get it out of Park. The customer was advised that the vehicle would need to be towed to the nearest CDJ Dealership.

Briefly summarize what the customer is expecting: The customer stated that he was seeking assistance to get the vehicle out of park.

Reassigned to DF314 Vehicle needs to be diagnosed.

Corporate - Property Damage - Default - Default - Default	
Dealer - By-Pass - Default - Default - Default	
Product - Transmission / Transaxle - Gear Selector / Linkage - Jumps Out of Gear/Park - Default	

Briefly summarize why the customer is contacting Chrysler: customer states that she is requesting to know how many people have called regarding the 'shift interlock locking' on her vehicle

Briefly summarize what the customer is expecting: customer seeking to file a complaint regarding concerns with her vehicle received new floor mats and new tires

Agent advised: Unable to provide customer with the exact number of complaints regarding her request can only inform her of calls the agent may have received or any recalls that may exist on her vehicle however customer is adamant about knowing exact numbers, again agent informed that cannot provide this. Agent asked probing questions to try and determine if she was having a concern with her vehicle and customer stated that she had gotten into an accident because the vehicle would not stay in park. Agent gathered customer's information. Customer states she went to put it into park and was at the end of her drive way and she got out and she stepped on the ground with both feet because she has a bad back and she realized the car was not in park and she tried to get back in the car, when she did that she hit her head on the windshield and now has bruising and the car rolled back and went into the neighbors yard and hit a tree with the front end of the car, crushing it. Customer stated that the neighbors called a tow truck and the vehicle is currently at Union point wrecker service 706-226-4211 customer did not have an address. Customer states she has not been able to contact the insurance company as of yet however hoping to get it into a body shop as soon as she can. Agent apologized for this and empathized with the customer however customer is very irate agent informed that will forward this information off to our special investigation team and customer needs to allow for it to be inspected before any repairs can be given however agent informed an agent would be in contact with her in the next couple of business days. Customer states other people have experienced this issue as well in her vehicle they are not able to shift from drive to park and vice versa. Agent verified customer has not been to the dlr regarding this concern. Customer also states that she has always has issues with road noise and her tires and they told her they have rotated and customer would leave it for an entire day and she would get it back still with the road noise and customer states she had headlight adjustments and it was way off target so customer has to take it back and had to take the whole headlight out and still didn't get it right and also customer would again bring up the road noise with the tires however

dlr informed her they don t really hear anything and technicians stated they did hear something very faint and all they can do is rotate them. Customer also stated her car mats are cheap and customer drinks fanta orange and she dropped it and it got on the back passenger mat within minuets it was stained and she feels they are cheap she put carpet cleaner and nothing got it out its stained . Customer would like the issue documented about he shifter and give her a new set of floor mats and new tires.

Agent apologizes for all the frustration she has experienced and would be more than happy to assist her with this situation and an agent will be in touch with her.

Customer calling seeking rental reimbursement as it took so long to be able to get the vehicle repaired. Customer states that she could have had the vehicle repaired sooner however she had to wait for the approval and now she has to wait until 01/24/14 to get her vehicle back. Agent did further research and apologized for the inconvenience and advised that Chrysler will not be assisting with the rental costs. Customer is not happy with this and states that she will go higher if she needs to. Agent again apologized and call ended.

Product - Electrical - Lamps and Switches - Burned Out - Default	Customer states he had to replace the head light bulb
Product - Brakes - Anti-Lock Brake System - Defective - Default	Customer states the ABS malfunctions
Product - Body / Trim / Paint Finish - Air Bag - Air Bag Lamp On/Flashing - Default	Customer states the air bag light is on
Product - Drivability - Unknown - Hesitation/No Power - Default	Customer states the vehicle loses power sometimes
Product - Transmission / Transaxle - Gear Selector / Linkage - Jumps Out of Gear/Park - Default	Customer states the vehicle rolls away when in park
Product - Transmission / Transaxle - Automatic Trans / Transaxle - Hard Shifting - Default	Customer states there is a shutter and hard shifting

Briefly summarize why the customer is contacting Chrysler: The customer is contacting Chrysler seeking information on the problems he is having with his vehicle. The customer states that the air bag light is illuminated. The customer also states he had to replace the head light bulb once on the passenger side and twice on the driver's side. The customer also states that there is a shutter in the transmission and sometimes it hard shifts. The customer also states that randomly the vehicle will lose power. The customer states that the ABS malfunctions sometimes. The vehicle also states that 3 times when he has put the vehicle into park it rolls away.

The customer states that the vehicle hasn't been taken to the dealership yet, but he has called the dealership and they advised him to call Chrysler since there are so many problems with the vehicle. Agent advised the customer to take the vehicle into the dealership to have it diagnosed and see what they can do. Agent advised the customer that if the dealership has trouble diagnosing the vehicle or repairing the vehicle than he can call us back after it has been diagnosed.

Customer states he will bring the vehicle to the dealership and will call us if he has any further issues.

Briefly summarize what the customer is expecting: The customer is expecting information on the problem he has been having with the vehicle. Reassigned for survey bypass- No diagnosis.

Customer called back asking for a rental and states the vehicle is with him and not at the dealership. Agent advised the customer the vehicle would need to be diagnosed as VOR and at the dealership before we could request a rental approval under DGW as the repair would be covered under factory warranty. Customer states he will go out and rent a vehicle and we will pay for it as he is from California and it is law. Agent advised the customer the vehicle has to be diagnosed and at the dealership overnight before the request can be submitted and only after the request is approved would the rental be covered. Customer states he wanted to have it on file he is going ahead and renting the vehicle and we will pay for it!

Customer contacted Dodge Customer Assistance as their vehicle is currently in the dealership for various concerns. The customer stated

they are also in a recall that they paid for and wanted to know if we could assist with rental. The agent then contacted the dealership and left a voicemail for SM Jeff regarding the rental. (Customer stated they were informed that the dealer told them they do not do rentals) The agent then informed the customer that we will need to speak with the SM regarding the rental. The customer understood and then listed that they are still experiencing intermittent concerns with their vehicle that the dealer has not duplicated as of yet. The customer states that the vehicle rolls itself out of park and also experiences a loss of power while driving. The agent informed the customer that based on this information, that we will escalate this file for further review. The customer was appreciative and will wait for their case manager to contact them back.

[REDACTED]
My name is Ivo and I have been assigned to be your Case Manager.

Here is some information that will be helpful for you to have:

Chrysler Case Management telephone number: 800-763-8422

My direct extension: 66181

My normal work hours: 10:00AM-6:30PM M-T-W-TH-F

I will contact you by end of business tomorrow by telephone to review your case.

End of Status Update

CONTACT UPDATE - 1st Contact attempt, via email per line 63

[REDACTED] Called and left message for SM requesting callback

2nd attempt made to contact customer [REDACTED] Customer stated that he already has a rental. Customer states they have not been able to duplicate issue customer states that when you put in park it rolls 4 times. Last time issue occurred was approximately 2 weeks ago.

Dealer has not been able to duplicate. Agent informed customer that cm or someone else should be following up with dealer and customer by 1/10 at the latest.

Customer called and the Dealership has called him to pick up the vehicle. Agent advised the Customer that the notes advised he should be hearing from the Case Manager today. Customer needs to know as soon as possible what to do. Agent called Case Manager and transferred the customer.

Writer spoke with customer at [REDACTED] to confirm that dealer has contacted CAC with instructions that vehicle is ready to be picked up. Customer alleges he will be picking up the vehicle in about one (1) hour and then, if any issues are still evident to contact CAC back with the case number. Writer advised that if no contact is made, the case will be closed on Monday Jan. 13th 2014.

Customer called to update his case. Customer states the issues were not resolved. Customer requested to speak to the CM. Agent advised customer his CM is out of office until tomorrow (Monday). Customer understood, agent transferred customer to his CM IG561's voicemail to leave a message: 1-800-763-8422 ext 66181.

Writer dialed customer at [REDACTED] Writer left a voicemail, indicating research is being done and that a follow up will occur no later than 1/16.

Writer contacted the customer. Writer advised the customer that he contacting our engineering department will be following up 1/16.

Writer contacted DLR. Writer was advised that all management is in a meeting.

Writer contacted the DLR. Writer unable to speak with a Service Advisor after 3 minutes.

Writer contacted the DLR. Writer left a voicemail for SM Jeff inquiring whether he is willing to open a STAR case.

Status update provided via email to the following email address:

[REDACTED]
I am in the process of opening a case with our Chrysler Engineers as the dealership has been unable to duplicate your problem. Hopefully they will be able to provide insight into what is going on with your vehicle. I will call you on 1/20.

End of Status Update

Writer called dealership. No one is service was available to take call.

Status update provided via email to the following email address:

[REDACTED]
Hello,

***** CASE MANAGER TEAM - District 88V*****

Customer's comments per survey: Difficult to close. need to slam them to close all the way. I thought I was thru slamming car doors when I traded in my Prius. Difficult to close. awkward to hold. need to slam to latch. Other: Please describe when this trouble occurs. Don't use it. to awkward. fails to recognize my words. poor menus. doesn't ask good questions. I don't take my eyes off the road when in voice mode. automated phones do much better :(I expected to be able to control the interior environment by voice. The command 'heat drivers seat' doesn't work, as an example. Taking eyes off the road is bad. No alert if you exit vehicle with engine running. In past, alerts sounded with headlights on. Chrysler thinks leaving engine on is less of a problem than leaving lights on. Don't like being forced to take my eyes off the road. The shift lever is awkward. I used to be able to know what gear I was in by where the lever was. The only way I know what gear I am in is to look at the dash. I cannot go from D to R. I end up going from P to R. I have stated them all previously. The one that upsets me the most that I want to emphasize is the carbon monoxide issue. No warning that the engine is still running when the driver exits the vehicle. When the garage door goes down, a perfect setup for CO poisoning. eXtreme is a very good dealership. They were the deciding factor in buying a 300C and not a MKX hybrid. No secondary sun visor when sun is low and the road makes the sun alternate between windshield and drivers door window. Flipping visor from window to window is unsafe. Saying your voice control is primitive is paying it a compliment. no alert when leaving car with engine running is unsafe. especially done when parked in garage. Bad gear shift design. When stopped, can't shift quickly from D to R without ending up in P. A quick shift is needed now and then to avoid problems. Car shifts are jerky under 15 MPH. Wife found seats more comfortable than MKZ and ATS. 300C suited wife's discomfort better than MKZ hybrid. If the MKZ had been as comfortable to her, I would have bought the hybrid. I preferred the MKZ's cockpit, she the 300C seats. Vehicle test drive. Dealership information.

Previous experience with the vehicle/brand. As much as I prized the MKZ's mileage and instrumentation, the wife's comfort trumped all.

SP CALLED HAD TO CHANGE SERVICE DUE TO PAY CONTACT

DEALER CODE : TATE DODGE CHRYSLER JEEP, INC.

Dealership calling seeking who called the dealership regarding this Cair number. Agent informed the customer that the only information on this Ciar is the towing contact.

SM Bobby from HEBERT S TOWN & COUNTRY CHRYSLER call stating he received a message from an agent from customer care. SM Bobby stated the message was asking what he was going to do to repair the vehicle, however if the customer is claiming the vehicle came out of park and caused the vehicle to be damaged then the correct proccess would be 82S. Agent advised the file was reopened in an agents name but no notes from that agent are yet on the file and no other files have been created

1. Who is calling and what is their contact information?

Preferred:

Alternate:

2. What happened? Customer stated she parked her vehicle in front of her work and went inside. Customer stated she was in the building about 2mins. and someone outside yelled the customer s name and she turned around and by the time she made it to the door she heard a crash. Customer stated she went outside and noticed her vehicle had hit a transport truck. Customer stated she went to the vehicle and saw the gear shift was in neutral. Customer stated she put the gear shift in park and shut vehicle off. Customer stated the police were called and customer said she called the insurance. Customer stated she made sure the driver of the transport truck was okay. Customer stated police arrived, and they checked out the situation. Customer stated she does believe she had put her vehicle in park. Customer stated they were trying to determine how the vehicle could have hit the transport truck. Customer stated the vehicle left skid marks where it was parked and to where the vehicle hit the transport truck. Customer stated a report was written up by the

police officer.

Agent asked the customer what the report says.

Customer stated she doesn't have the report on her at this time.

Customer stated she had the vehicle towed to the nearest dealership.

Customer stated Ace towing picked up the vehicle and brought the vehicle to their towing yard.

Customer stated Ace towing took the vehicle to an Eddie Auto Salvage yard per customer's insurance company's instructions.

Customer stated her insurance company spoke with Chrysler and they said to have the vehicle towed to Legacy Dodge in Natchitoches, La 7098

Highway 3175 Byp. (318) 238-3383 745557A™.

Customer stated that dealership did not have a body shop.

Customer then stated her vehicle was towed from Legacy to Hebert's Town & Country 765686A™.

Customer stated the insurance adjuster called and gave her the estimate on what the damage is to the vehicle. \$9000.00 approximately

3. What is the current location of the vehicle? Hebert's Town & Country

Chrysler 765686A™ (318)-221-9000 1155 EAST BERT KOUNS SHREVEPORT, LA 71105

Customer was told by the dealership that Chrysler will be handling this issue.

Product - Transmission / Transaxle - Gear Selector / Linkage - Other - Default	Hard to shift into park
Dealer - Parts - Transaction - Parts N/A / Backordered - Default	Parts on backorder till May 2014
Corporate - Survey By-Pass - Default - Default - Default	
Dealer - By-Pass - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer seeking assistance with part being on backorder till May 2014.

Briefly summarize what the customer is expecting: Customer is expecting part to be expedited.

Customer states he has been having problems with getting the shifter into park. Customer states he has made dealership aware of problem with shifter while getting past 2 oil changes. Customer states dealership advised him it would take a little getting used to, just give it time. Customer states it is difficult to put vehicle in park and occasionally it will roll backwards. Customer states he has been a loyal customer to Chrysler. Customer states he has taken vehicle to dealership to have issue looked at. Dealership advised him the part is on backorder till May 2014. Agent called dealership 44231 and spoke to Parts Salesperson Wayne to confirm ETA for part. Parts Salesperson Wayne confirmed the Chrysler ETA was May 2014. Customer states he would upgrade to a 2014 Dodge Challenger if he could get a good deal. Agent advised customer to contact his dealership and speak to sales. Agent advised him it didn't matter if the previous Chryslers were purchased or leased at a different dealership.

Writer contacted Demontrond Auto Country 44231 and spoke with Parts Salesperson Wayne.

Parts Salesperson Wayne stated part information for order is as follows:

Part #: 68140727AD

Part Description: TRANSMISSION E-SHIFTER BASE

Order #: S020A

ETA: May 2014

Is customer in rental? NO

If yes, who authorized rental?

Is the vehicle off road? NO

Order type: Special Handling

Writer advised customer that their parts concern will be escalated to the Parts Support team for parts resolution, and that their Case Manager will provide them updates on the status of the part within 4-5 days.

If an update is received sooner, customer will be contacted sooner.

Product - Transmission / Transaxle - Gear Selector / Linkage - Hard Shifting - Default	Shifter needs to be replaced. Part on backorder.
Dealer - By-Pass - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states that he brought his vehicle to the dealership in early January for an issue with his gear shifter. Customer states that he was experiencing hard shifting between drive and park. Customer states that he was told that they need to replace the shifter, but the part is on backorder. Customer states that he was told that he can continue to drive the vehicle. Customer states he went on vacation, and when he was driving the vehicle back from the airport he noticed that it was more of a safety concern than the dealership led him to believe. Customer states he will shift the vehicle in park, but it will go into reverse instead. Customer states that he called the dealership and was advised that the part is still on backorder.

Briefly summarize what the customer is expecting: Customer is expecting vehicle repaired. Customer states that he had the part ordered through Tomball Dodge Chrysler Jeep (45368).

Agent contacted the dealership and spoke to parts advisor David. Parts advisor David provided all necessary parts information. Agent advised customer that we will send the case up to our parts support team for parts resolution.

Writer contacted Tomball Dodge Chrysler Jeep (45368) and spoke with PA David.

Parts Advisor David stated part information for order is as follows:

Part #: 68140727AD

Part Description: Shifter

Order #: 150010

ETA: April 4th

Is customer in rental? No

If yes, who authorized rental? N/A

Is the vehicle off road? No

Order type: Special Handling (Daily/Special Handling/VOR)

Writer advised customer that their parts concern will be escalated to the Parts Support team for parts resolution, and that their Case Manager will provide them updates on the status of the part within 4-5 days.

If an update is received sooner, customer will be contacted sooner.

Assigned case to 96W.

The customer almost backed into 2 vehicles today because instead of going into park, it goes into reverse. The customer feels this vehicle should not be on the road and is concerned about his safety. The agent summarized the lines 10-35 and assured him that the matter was important and it was already sent to a CM. The customer was unaware of this. As per answer connect ID: 18891 the customer was provided the fax number. The customer is aware that he will be contacted in 4-5 business days.

Corporate - CNA Change - Default - Default - Default	Agent updated customer's information
Product - Transmission / Transaxle - Unknown - Other - Default	Customer stated he wasn't able to put his vehicle in park to shut it off

Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler stating he was driving and the maintenance light came on and stated maintenance is required. Customer pulled over in MacDonalds to park the vehicle and shut it off, and he wasn't able to put it in park, until he jiggled it around for a bit. Customer brought the vehicle to the dealership and they stated it needs a shifter replaced. Customer stated the dealership said the part is on backorder and will take a bit to receive the part.

Briefly summarize what the customer is expecting: Customer expecting if the vehicle is safe to drive to Florida this way without it being repaired.

Agent researched in the parts tab and saw the part was ordered on 02/13/2014 Part # 68140727AD Order# OC2019

Agent stated to the customer cannot answer that question, because not technically inclined.

Agent advised the customer to speak with the PM at the dealership on Monday to see if they did get the part.

Customer asked if his vehicle falls under the K39 recall.

Agent advised the customer all recalls are VIN specific and his does not fall under this recall it is for 2007 Chrysler 300 s

Caller Keith service manager from Dealer Code: 66- 66908 Dealer Name : GARY MATHEWS MOTORS INC stated that vehicle is currently at dealership and Keith stated that vehicle owner had an issue about 2 weeks ago. Customer states that the vehicle was parked on a hill headed upwards, in Park, the vehicle was not running and there were no keys in the vehicle. Customer claims that the vehicle went into drive, headed up hill, made a turn to the right, and went through a field and hit an apartment complex, causing damage to the front bumper of the vehicle. Keith stated that the customer has had the front bumper repaired on the vehicle already. Keith stated that the customer brought the vehicle to the dealership after the front bumper was repaired. Keith stated that the dealership did a diagnostic on the vehicle and the code for electric shift module circuitry came up. Keith stated that they have not yet repaired the vehicle, pending further investigation. Keith wants to know if the dealership can proceed to repair this vehicle, given the circumstances that the vehicle jumped into gear and proceeded to roll up hill rather than down hill.

Briefly summarize what the customer is expecting: Keith wants to know if the dealership can proceed to repair this vehicle, given the circumstances that the vehicle jumped into gear and proceeded to roll up hill rather than down hill.

Product - Unknown - Unknown - Accident - Default	Customer's vehicle went into through the house & garage
Corporate - Property Damage - Default - Default - Default	
Dealer - By-Pass - Default - Default - Default	
Product - Transmission / Transaxle - Gear Selector / Linkage - Jumps Out of Gear/Park - Default	

Briefly summarize why the customer is contacting Chrysler: Customer said that her vehicle rolled through her garage into her house. Customer was very shook up and upset. Customer said it happened yesterday 02/21/14 in the afternoon. Customer had called her insurance company and an appraiser was coming out to her house on monday. Customer said that she is scared to drive her vehicle now, and she can't get the vehicle out of the garage because the door is jammed/locked. Customer had seen the N65 recall online and wanted to know if her vehicle pertained to that recall. Customer luckily has another vehicle she has been driving since the incident.

Briefly summarize what the customer is expecting: Agent apologized for the customer having to experience this issue. Agent advised the customer that she would need to open a case file and send it to our special investigations department. Agent advised the customer that the SI team would be in contact with the customer in 2-5 business days approximately. Agent gave the customer her case # [REDACTED] 8 to reference.

1. Who is calling and what is their contact information? [REDACTED]

Preferred: [REDACTED]

Alternate: [REDACTED]

2. What happened? Customer's vehicle went through the customer's garage & house.

3. What is the current location of the vehicle? Vehicle is in the garage because the door won't open and is partially jammed.

02.24.14

Please provide allegation as to why this may have happened

Agent had called the customer and verified a few concerns. The customer feels that there is a defect with the vehicle and this issue should never have happened. Customer said that she parked her vehicle out front, the overhead garage door would not open so she went in her front door of her house. Customer had received a phone call, and went into the kitchen. Customer heard a big bang / crash noise and her vehicle went through her garage into her utility room of her house. Customer doesn't understand how this could have happened since it was 'parked'. Customer had went on her computer to see if there were other situations like this and noticed the N65 recall and felt that her vehicle experienced the same symptoms. Customer was still waiting for her insurance agent to show up and inspect her vehicle.

Product - Transmission / Transaxle - Unknown - Other - Default	Vehicle stuck in park. Park on backorder.
Dealer - By-Pass - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called in stating their vehicle has been at the dealer for 6 Weeks waiting for a backordered part. Customer states she is starting to get upset and would like to know if she can get the part expedited. Agent contacted Bob in parts (see below.) Bob states after the part was ordered the rule about the part was changed so his order got cancelled. Bob states he is going to re-do the order. Agent advised customer that the case will be sent to the back ordered part department. Customer asked about getting a couple oils changes for the inconvenience. Agent contacted dealer 26633 and spoke to SA Steve. Steve states the dealer has given her a rental vehicle and would not want to offer oil changes. Agent Spoke to TL DF314 who also declined providing oil changes. Agent advised customer that the dealer declined to provide the oil changes. Customer states she will speak to her parts manager when they call about possible getting something for the inconvenience.

Briefly summarize what the customer is expecting: Customer is expecting agent to expedite the part to the dealer.

Writer contacted (FERMAN CHRYSLER JEEP DODGE RAM OF New Port and 26633) and spoke with (Bob in Parts).

(Bob in Parts) stated part information for order is as follows:

Part #: 68140727AD

Part Description: Transmission shifter

Order #: C0121E Order was canceled because it is now special handling.

ETA: N/A

Is customer in rental? Yes

If yes, who authorized rental? Dealer

Is the vehicle off road? Yes.

Order type: ?Special Handling™ (Daily/Special Handling/VOR)

Writer advised customer that their parts concern will be escalated to the Parts Support team for parts resolution, and that their Case Manager will provide them updates on the status of the part within 4-5 days.

If an update is received sooner, customer will be contacted sooner.

Assigned case to ?96W™ (96W (Parts Only)) or (88F) for handling.

Product - Engine - Unknown - Other - Default	engine would not turn off
Product - Transmission / Transaxle - Gear Selector / Linkage - Jumps Out of Gear/Park - Default	would not allow vehicle to be put in park

Briefly summarize why the customer is contacting Chrysler: Customer called stating that her vehicle had the anti-skid service light come on and then the transmission light turned on. At that point the vehicle could not be put into park and she could not turn off the vehicle. Agent spoke with SA Mike who stated they sent out a technician to the vehicle and he had to pop the emergency shifter release. SA Mike stated that the technician brought vehicle to the service department and there were 10 different codes that came up. They drove the vehicle yesterday a number of times and had no issues and now no codes. SA Mike stated the technician will be checking the 10 codes today. Service Contract will not give customer a rental even though vehicle has been kept overnight. Customer needs to have a vehicle and is very frustrated with no diagnosis and no rental. Agent advised customer was sending case to manager and a manager would call back in one business day. Best Number to call customer is

Briefly summarize what the customer is expecting: Customer stated that her vehicle would not go into park and would not shut off and has not been diagnosed.

***** CASE MANAGER TEAM - District ?M A™ *****

Writer contacted DLR (68200) on (3867477511). Left message for the SM to contact writer.

Writer contacted the customer on (3867477511). Customer informed writer the vehicle was not able to go into park, the vehicle was brought into the dealership for repairs but was given back to the customer as there was no diagnosis but had lots of codes. Customer informed writer his wife is the one driving the vehicle and would have more information on the vehicle. Customer stated the vehicle runs now and can be put into park but writer informed the customer will follow up on the vehicle on 03/18/2014 to check on the vehicle.

CONTACT UPDATE - as per lines 23-30

Writer contacted the customer on (3867477511). Writer left message 2nd attempt made to contact customer. Left message.

3rd attempt made to contact customer. Customer requested writer to call wife s number as she is the one who drives the vehicle. Customer provided contact number

Writer called the customer left message

Mrs. Sperling calling to speak with Case Manager JC2184. Writer transferred customer over to ext 66258 to leave a voice mail if CM is not available.

Secondary number: declined

Mrs. Sperling calling to speak with Case Manager JC2184. Agent advised

that the CM will not be available for a couple of hours as it is only 5:30 AM for CMs. Agent advised that agent would leave message on case for CM to call customer back ASAP. Agent advised that customer can also try calling back to CM in a few hours when the department is open. Customer states that they would like to go to their selling DLR but cannot drive the vehicle that far due to the issues. Customer states now the Antilock break light has come on. Customer states that last time this light came on the transmission light followed and the vehicle would not turn off for 45 minutes.

Customer seeking rental and to bring vehicle to selling DLR via tow. Customer contacted writer the anti lock brakes came on then the transmission lights came on and the anti lock brakes and possibly the transmission light. Customer is afraid to drive the vehicle as she is not able to put the vehicle in park or shut the vehicle off. Customer informed writer the DLR had to come to her work to shut the vehicle off and they are aware of the vehicle issue. Customer was advised by writer customer could get 2nd opinion from another DLR. Customer stated the nearest DLR is 20 miles away and if writer want the vehicle there she will take it as the vehicle is having the issue and she is concerned. Writer informed the customer will contact Hurley CDJ and get additional information on the vehicle and follow up with the customer. Customer requested a call back today.

Writer contacted DLR 68200 on 386-736-3000. Writer spoke with the SM Laurie who stated the condition that set the codes were no longer present and the dealership did nothing. Writer inquired as to the work done on the vehicle SM informed writer there the SA today and informed the SA the ABS light came on but she would contact writer to get information on what to do. Writer was informed by the SM the DLR has no loaner and the customer will have to rent a vehicle if her vehicle needs to stay for a couple of days for a diagnosis and the DLR has other vehicles being worked on so the vehicle might not be looked at until Monday 03/30/2014. Writer informed the SM will do a little further research and follow up with the customer and then contact the dealership.

Vehicle is at the dealership - GREENWAY CHRYSLER-JEEP-DODGE, INC. (45091)
Update triggered by S97509L

Writer contacted DLR 45091. The DLR closed writer will call back on 04/04/2014

Writer contacted the dealership and spoke with SA Ashton who informed writer the vehicle was at the dealership on the 26th but has not been there since and there is no RO open on the customer.

CONTACT UPDATE - 1st Contact attempt, phone number dialed [REDACTED]

Writer contacted DLR 68200 on 386-736-3000 spoke with Theresa who informed writer the vehicle has not been brought in for the diagnosis and the last time the vehicle was at the DLR was 03/26/2014 updated HFM and the ABS light was on and it was repaired.

CONTACT UPDATE - 2nd contact attempt, phone number dialed [REDACTED]

Writer spoke with the customer who informed writer there has been no issues with the vehicle and the case can be closed.

CLOSED LOOP UPDATE - no need for additional follow-up.

1. Who is calling and what is their contact

2. What happened? Customer had just left vehicle for repair and vehicle backed up into a fence and there was damage to the rear tail light.
 3. What is the current location of the vehicle? ACADIANA DODGE CHRYSLER JEEP RAM
 1660 Westbank Expy
 Harvey, LA 70058
 (504) 363-1999

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler because he had just left the dealership after getting repairs done and vehicle jumped into gear and reversed into a fence. Customer states this was the issue that was supposed to be repaired. Briefly summarize what the customer is expecting: Customer is expecting his vehicle repaired. Agent called DLR 44107 and spoke to SA Don who stated that customer was in and had the repairs done to fix the problem. SA stated that there was a software upgrade completed and had vehicle and verified that shifter went into park. Customer was advised to call dealership if the problem happened again. Agent advised customer that his case would be escalated and he would receive a call back from someone to assist with his case. Agent provided customer with case number. Customer asked about a rental vehicle. Agent called DLR 44107 again to speak to SM to get a possible rental vehicle for customer. SM was unavailable. Agent advised customer of this. Customer called in upset because he has been unable to reach anyone at DLR 44107 Acadiana dodge to ask for assistance and a rental vehicle. Customer states that the previous agent tried calling yesterday and he was unavailable, and again today he called and was told he was with a customer and would call him back. After waiting for a while the customer called back and was told that the SM was gone for the day. Writer advised customer that there is no provision for rental here so we are unable to assist at this time but he is willing to contact the dealership to see if the SM will be in. Writer called DLR 44107 and was advised that Service is closed Saturdays. Writer advised customer of this and he said he just called service. Customer three-way called the service department and they were in fact open. Customer asked for the SM and again was told he is unavailable. Customer asked to speak to someone else in service and was told he would have to wait. Writer asked for their dealer code and was given 43939.

Writer advised customer that we had been calling different dealers because the one contacted was 44107.
Customer provided the address and advised that the previous agent called the right dealer because she talked to SA Don who is the same guy that he had talked to.

it appears that the SA lied about the dealer code, and the operator lied about service being closed for the day.

Writer apologized for the inconvenience and advised customer to call back on Monday when management is around to get more information.

Customer called back seeking information regarding rental. Agent reviewed Answer ID 18819 and advised the customer that we cannot make any promises on rental at this time and he will need to wait for the SI department to contact him after the 2-5 business day turn over time.
Customer understood.

Chuck from dealer calling in seeking to information on rental. Agent advised the chuck that the CM has the case now. Agent advised that it is something the CM will look into and be in touch with the customer if it is something we can provide.

Customer seeking to speak to CM regarding the rental car and issues with his vehicle.

CCRG Open Date: 03/26/2014 09:47:20

Letter Sent: Acknowledgement 03/27/2014 07:40:20

Customer seeking a status on his case. Customer seeking to speak to his CM.

Agent advised of updating the customers notes.

Customer called wanting to speak to his CM about a rental vehicle.

Customer handed phone over the SM at the DLR. Agent transferred customer over to DO Not Give This Number Out [REDACTED]

Customer is calling and stating that he was being transferred and was disconnected . Agent retransferred customer for further assistance.

PHOTOGRAPHIC IMAGES POSTED TO THIS CAIR ON 03/31/14 AT 19:34:14 [REDACTED]

Customer states that he has not received a call from his CM and customer states that he wants this settled today. Customer states that he has all his records and is going to the local T.V station tonight. Agent informed customer that she will document his call and that the CM will see that he has called.

Customer called back stating he had been hung up on by the previous agent. Customer states she had advised him that it s a legal case and there is nothing else she can do, but did not allow him to speak his mind.

Writer apologized that he was hung up on and advised customer that he could document anything that he would like to have documented.

Customer states that he was upset and wanted to file a complaint, customer states that aside from the Writer, Patricia, and don, he has not been happy, and being hung up on made him very upset and is not proper customer handling.

Writer apologized again and advised that he would talk to his supervisor later when he comes in and advise him, as well as attempt to get some more information on his case.

Customer asked for the writer to ask about a short term rental while they discuss his case and provided his best callback number which is [REDACTED]

Writer advised he couldn t make any problems and would call him after the customer finishes work at 2:30.

CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED

Dealer - By-Pass

Caller contacted CAC seeking an update on case.

Advised customer that case is currently being handled by another department.

Advised customer that request for contact would be noted, and that case would be forwarded to 82S for review.

Writer verified customer contact information.

Does customer s address match COIN (Y/N):Y

Customer s current phone number (Daytime):

Customer s email

Any additional information: Customer is requesting a rental vehicle. SM advised customer he needs authorization in order to provide rental.

Writer unable to contact SM to advise contacting business center.

CAIR assigned to 82S for contact request.

Writer contacted customer at and left a message for customer advising him that he notified his supervisor about his complaint and the call will be reviewed. Writer advised customer that a request for callback has been put in on his behalf.

Per OGC Matrix, reassigned to 82T.

Briefly summarize why the customer is contacting Chrysler: customer is expecting a call back ASAP from someone concerning this issue with his vehicle and the rental customer is extremely unhappy and is stating that he is going to bring this complaint to the news and higher up customer kept stating he wanted a call back TODAY tomorrow the latest

Briefly summarize what the customer is expecting: customer is expecting a call back.

Agent advised the customer that agent will document everything he has told me and will do what the agent can about getting him a call back but is not certain that he will get it today that it could take one to two business days.

Recall - N65: TRANSMISSION OUTPUT SHAFT - Advise Owner/Incomplete Recall	Customer seeking recall information.
Product - Transmission / Transaxle - Unknown - Jumps Out of Gear/Park - Default	Customer states that vehicle jumped out of park and front end was damaged
Corporate - Survey By-Pass - No Diagnosis - Default - Default	no diagnosis-customer feels recall related.
Product - Unknown - Unknown - Accident - Default	

Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler seeking N65 recall information.

Briefly summarize what the customer is expecting: Customer expecting to know when recall work can be done.

Customer states that he had vehicle towed into DLR on March 21, 2014.

Customer states that battery was defective and replaced by DLR.

Customer states that DLR did not perform recall repair as he asked.

Writer explained to customer that a 2nd letter would be mailed out the week of March 24, 2014, advising when parts would be available.

Customer understood.

Customer mentioned that he was at a car wash around the end of January or beginning of February, 2014, and the vehicle slipped out of park while the customer was outside the vehicle and rolled into the hitch of another vehicle.

Customer states that there was approximately \$1000.00 damage to his front bumper.

Customer is wondering if this might have been caused as a result of the recall.

Writer advised that a DLR would have to diagnose this.

Writer provided customer with mailing address for recall reimbursement should the damage have been as a result of the recall.

Writer contacted DLR and spoke with SA Jim who agreed to speak to the customer.

Writer transferred customer.

Caller Ron is calling back in as he received the second letter and was advised that he can have this recall completed now.

Caller stated that the contacts at the dealership are SA Chad and SA Jim and the Parts Manager Mike.

(N65) TRANSMISSION OUTPUT SHAFT SAFETY 01/29/2014 INCOMPLETE

N65 - Safety Recall - Transmission Output Shaft
Answer ID 24053

Caller said he was in at the dealership for a diagnosis on the 23rd

Agent called the Parts Department and asked for the parts Manager Mike and he was not in and this agent spoke to the Parts Advisor John and he said that it would take

about a week to get the parts.

PA John said that they could not complete the Recall as the technician was waiting for the software when the customer was in last.

PA John transferred to the Service Department.

Agent asked for the SM Ryan and he said he was having a concern with Ytech and now he has the answer.

SM said he has been trying to call the customer and the customer is not answering.

Agent advised to SM Ryan that the customer is on the other line.

Agent warm transferred caller Ron on the line with the SM Ryan to set up an appointment.

Corporate - Survey By-Pass - No Diagnosis - Default - Default	undiagnosed under recall with concern (parts available for dealer order)
Recall - N65: TRANSMISSION OUTPUT SHAFT - Information Request	

Briefly summarize why the customer is contacting Chrysler: Customer called because he arrived home from work and is unable to shift his vehicle into park and found out there is a recall on his vehicle. Customer stated he found out the recall had a symptom of not being able to shift into park. Agent verified customer has recall N65 on his vehicle, per ac 24053, owner letters began mailing and parts available starting 03/24/2014. Agent verified symptoms of the recall are prevent the transmission from being shifted into the Park position, the inability to turn off the engine, an instrument cluster warning lamp illumination, and the vehicle could experience unintended vehicle movement after exiting the vehicle. Customer verified with agent he is experiencing at least 3 of these conditions. Agent spoke to SA Bryan at Manhattan JCD to see what customer could do to shut off the vehicle, SA Bryan was only able to advise that the customer could disconnect the battery but he wasn't sure what else could be done. Agent reviewed ac 24053, and confirmed parts were not initially distributed to dealers and would only be ordered if the transmission output shaft breaks during the test. Customer stated he would bring his vehicle to the dealer today since they are open until 8pm. Agent called dealer back and spoke to SA Sharday to ensure they were aware the customer was coming. Agent advised of the recall customer was coming in regards to and the symptoms of the recall he was experiencing. Agent transferred customer to speak to SA Sharday for further assistance. Agent ensured SA Sharday was aware that parts were not initially distributed and were ordered only if the transmission output shaft broke during testing.

recall n65 information

Briefly summarize why the customer is contacting Chrysler: David from Guide One Insurance called for the customer. He states the vehicle was parked and rolled down a hill. He states he was reading the n65 recall and wants more information. Agent advised the recall does not apply to this vehicle. He states it is having the same issues. Agent advised if the recall is expanded and this vehicle is added in the future there is a possibility of reimbursement. Agent advised since he is involved there isn't anything we are able to help with besides documenting the issues. David ended the call.

Took vehicle to Pueblo Dodge and talked with the SM. Customer states they were at a restaurant and while they were inside the car rolled out of its parking spot into another vehicle. The customer told the SM, Mike Minnick that they thought through their research on the internet that Recall N65 applied. SM and AM verified that vehicle is NOT part of that recall. The vehicle currently is at the dealership to be checked out but it is driveable. AM advised SM to tell the customer to submit it to her insurance co. SM states the customer said the vehicle was in park but they did not have parking brake set.

AM forwarding to Special Investigations. Liz Brenner 303-514-1551

SM called AM, said customer contacted him today to tell him they are supposed to bring their vehicle to the dealership for special investigations 6-3-14 and they were referred to the SM to get a rental car. SM advised he will be out of the office that day. AM approved a rental for the customer for the inspection. SM concerned because an appointment was made with the customer at the dealership without involving him. SM has a phone contact for the investigators from a previous phone call and will let John know he will not be there that day.

Per ELCO File No. 5085690:

According to the Renter, he had parked at a restaurant off Hwy 78 in Douglasville, GA. He left the engine running, but locked the doors and went into the restaurant to pick up a to go order. He had to wait 7-10 minutes for the order. After about 5-6 minutes, he received a call from a 911 operator asking if he knew where his car was. He said that he did, then went outside to check. The car was not in the parking space. It had rolled backwards across Hwy 78 and sideswiped another parked vehicle. He is adamant that the vehicle was in park when he exited the vehicle. When the police arrived at the scene, they had to unlock the vehicle with a -slim jim-. The officer noted to the Renter when he arrived, that the vehicle was not in park.

Mark,

I just received the attachment below from Wheels, our leasing company. They were notified of an accident with one of my drivers that happened today. If you open the attachment, you will see that again, it is a 2013 Dodge Charger that rolled away after being placed in park and while idling and it struck a pole. This can not be a coincidence that this keeps happening on 2013 Chargers when I have never had a car roll away while idling since I began working with the Vesuvius car program in 2003. I just spoke to the driver and he said that the guy that towed his vehicle said that there are problems with the Chargers drifting out of park, so even he knew about this problem.

What do I need to do for this accident? Call the Chrysler number again?

Michelle

Briefly summarize why the customer is contacting Chrysler: Customer states that he just wanted to bring up to CAC that there is a safety concern he has with his vehicle. Customer states that he wants to speak with someone about this concern.

Briefly summarize what the customer is expecting: Customer is seeking to have his possible safety concern documented.

Agent apologized and states that they will be able to assist in helping him document down his safety concern.

Customer states that he parked his vehicle, got out and across the road, and then his vehicle started rolling a hit a tree. Customer states that he contacted his dealer, but they could not be bothered. Agent apologized and states that they definitely want to have their concerns documented down, and apologized.

Customer states that he is seeking NHTSA phone number and mailing address as he finds that it is a safety concern, but just wants to have this documented down.

Agent advised customer that NHTSA contact info would be:

NHTSA Headquarters
1200 New Jersey Avenue, SE
West Building
Washington, DC 20590
1-888-327-4236

Customer understood, and thanked the agent.

****End structured narrative T2 - Beginning Narrative

Briefly summarize why the customer is contacting Chrysler:

Lisa from Durocher Auto sales calling on behalf of the customer. Lisa states the customer went to work locked her door and took her keys inside with her. Lisa states 20 minutes later people were screaming at the customer that her vehicle was moving, Lisa states the engine was on and all the doors were locked. Lisa states the customer advised that there is a lot of front end damage as it hit a truck. Lisa states the car was in park because she wouldn't have been able to take out the key. Lisa states she's going to advise the customer to bring the vehicle to their dealership however they wont be able to do any repairs until special investigations looks at the car.

Briefly summarize what the customer is expecting:

Customer wants to know what's going to happen next

Agent Advised:

That this will be sent to special investigations. Agent advised to allow

3 ? 5 business days to hear any updates on the file.

Agent provided CAIR # for future reference

1. Who is calling and what is their contact information?

Preferred

Alternate

2. What happened?

Vehicle was in park, and the engine turned on and started moving towards the place of business

3. What is the current location of the vehicle?

Vehicle is currently at the customers place of work, however the dealership is going to advise her she can bring the vehicle to Durocher Auto Sales Inc

Customer called back to say that she does not want to take it to DUROCHER she is going to call and see if she can take the vehicle to S AND S AUTO in Malone, NY, Phone number: 518-483-2500. Agent advised customer that when she decides where she wants to take the vehicle she will have to call and let us know what dealership it is at and the location.

SM Lisa called to say that her District Manager informed her that since

there is a Special Investigation going on then the dealership is not to touch the vehicle until it has been inspected. Agent advised SM Lisa that it will be noted on the case.

Hello, my name is Shaunna, and I have been assigned as your case manager.

This email is confirmation that your case, was successfully

escalated to me. After I review the details of your case, I will be

calling you at your preferred number, within the one

business day as promised. My office hours are 7:30 am 4:00 (Mountain

Time). My contact information is 800-763-8422 Ext. 66284. If your

preferred telephone number mentioned above isn't correct, please reply with the correction.

You are a very valued customer to us and I would like to thank you for the opportunity to assist with your situation.

End of Status Update

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 66284. The reason for the customer contact was to provide or request the following information: Follow up to define expectations and how to further assist customer in resolving vehicle concerns. Next follow up is 7/10/14.
DEALER 815-741-5530 CM spoke with SM Joe and he reported informing customer CAC would need to place this incident under special investigation. SM also noted CAC level 1 had transferred customer to him and did not provide an introduction to SM. Number on his phone indicated CAC and was surprised to talk with customer without any warning.
Status update provided via email to the following email address:

CUSTOMER ██████████. CM contacted customer and inquired how to assist with resolving customer issues. CM inquired about expectations and customer noted:

1. Vehicle concerns with doors locking without initiating steps to lock doors using the key or manually.
 2. Vehicle is jammed in park and customer cannot get it out of gear.
 3. Customer wants these issues resolved because she takes vehicle in for maintenance and tells dealer about issues and dealer is never able to address concerns as issues for repair, and customer wonders if they caused/related to her accident.
 4. CM resent contact email because customer said she did not get it.
- CM also reported speaking with dealer and SM Joe also told customer case would be transferred to special investigation, and CM also noted the say information to customer.

Briefly summarize what the customer is expecting:

****End structured narrative T2 - Beginning Narrative

Briefly summarize why the customer is contacting Chrysler: The customer called in as her vehicle is currently at the dealership. The customer states that her vehicle would not stay in park randomly. The customer states it happened Thursday. The customer states the vehicle was in park and the vehicle was continuing to roll backwards. The customer states that she took the vehicle there Saturday morning to have someone take a look at it. The customer brought this morning. The customer states that the vehicle has not yet been diagnosed. The customer was shuttled home. The customer states she has another concern. The customer states that her credit was not very good. The customer states she told them that when she purchased the vehicle. The customer was given an exhilarated program through financial. The customer owes money on her other car as she owns two. The customer states she told the dealership that she still has a car note on the other car. The customer was informed that she just needs to pay for this vehicle through this program and for the first few months she would pay more money. The customer states that she starting getting denial letters for loans through banks. The customer states when she went in Saturday she spoke to the financial dept. And they told her everything was fine. The customer states that the credit union told her they should have given her a proposal to purchase the vehicle. The customer went to Central Florida Loan where this was financed through. The customer states she was told that there is no way they would finance the vehicle.

The customer is waiting for a call from the Sales Manager in regard to her financing.

The vehicle still needs to be diagnosed for the issue with the transmission.

The customer states she was told by the dealership that there have been other vehicles having problem with the transmission slipping.

Briefly summarize what the customer is expecting: The customer is calling in about repair on vehicle

Agent is sending the file up for survey bypass - diagnosis not completed on vehicle.

Customer called stating the vehicle did the issue again not staying in park. She tried to call the DLR to see if she can get the vehicle back in. Writer called DLR and got SA on the line and transferred customer. Customer states the dealership could not look at the vehicle until late next week. Agent stated she can have the vehicle diagnosed at any Chrysler dealership. Customer is going to look into the dealership near

her work in order to drop off the vehicle and get a diagnoses. Agent stated to contact CAC back after diagnoses if she required any further assistance.

Briefly summarize why the customer is contacting Chrysler: Customer is calling in seeking assistance in making a complaint on the dealer. Customer states that she had brought her 2005 vehicle into the dealer for service on the struts. Customer states she was looking in the showroom to pass time waiting for her vehicle. Customer states that she was approached by a SA. Customer advised him she was just looking as she had bad credit due to previous medical bills. Customer states that the SA states that it was fine that her credit was not the best that they had a program called the exhilarated program through the Central Florida credit union which would mean she would make the payments for 6-8 months and then be refinanced with a lower payment. Customer states that until the 6-8 months she would be financed with Chrysler. Customer states that she had asked about the trade in value on the 2005 300 and was advised that she owns too much on the vehicle for it to be a trade. Customer states that the SA had asked her if there was anyone that could take over the car. Customer states that she advised him that no the only family she has here is her son who is 18 and just moved out so he can not afford it. Customer states that she asked if she could just return the older vehicle. Customer states that at the time no one told her that it was a bad idea. Customer states that she signed all the papers and the papers states that she is financed through Chrysler. Customer took both vehicles home and then a week later she started receiving letters in the mail stating she was denied for financing from Ally, Chrysler, And other credit unions. At this point the customer states that she had went in to her local credit union to speak about the 2005 and turning it in. Customer states that the advisor advised her that it would be considered a repossession if she turned the vehicle. Customer states that she went to the Central Florida credit union and was advised that they do not have a exhilarated program and with her credit they would not have financed her for a vehicle. Customer states that the new vehicle had the issues with the vehicle being in park and rolling back. Customer went into the dealer and was advised by the finance manager Temo, SA Kevin that they were under the impression that she was giving the vehicle to her son. Finance manager Temo advised her that she was financed through Santandar and it was a part of Chrysler. Customer states she then called Santandar and was advised that they do not refinance. Customer states that the both Temo and Kevin at the dealer advised her that she was mistaken and will not admit to anything. Customer states she has called 22 times and they have not returned her calls. Customer states that she is working with the Sales Manager Charlie but he is not returning her calls. Customer states that she is paying \$1,200.00 in car payments. She can not afford to pay both cars and her mortgage.

Briefly summarize what the customer is expecting: Customer is expecting to make a complaint on the dealer.

Business Manager Kevin Bolan:

Kevin answered the phone, he took the cair and agent s contact details stating he will look into this further and speak to the other managers regarding the customer s concerns outlined in the case. Kevin states he will call the agent right back after he has attained a resolution.

MESSAGE FROM CUSTOMER: 7/29 @ 2:20 pm

Customer called seeking to speak to the agent

CUSTOMER CONTACT: [REDACTED]:

No answer, provided the following: cair, rep. name, and return contact 877-759-5427 ext 4718378.

Customer called in stating that she was very scared that yesterday in a parking lot she put her vehicle in park and it rolled backwards again and nearly hit people behind him. Writer advised customer of emergency brake and that if her vehicle comes out of park which does need to be addressed but if she does not have her emergency brake on and the vehicle hits someone then she is at fault. Customer stated she did not know that information and stated she will now do that. Writer advised customer of STAR. Writer advised customer to bring vehicle back to dealership for a diagnosis and to call Chrysler back for Chrysler to talk to the dealership about the diagnosis and see if STAR can be looked into.

Customer thanked writer. Call ended.

Customer called asking to speak to the CM Nick. Agent transferred the call to ext 4718378 to leave a VM as he did not answer the first time of calling the extention.

MESSAGE FROM CUSTOMER: today @ 10:36 am

Customer called to speak to the agent

CUSTOMER CONTACT: [REDACTED]:

No answer, provided the following: cair, rep. name, and return contact 877-759-5427 ext 4718378.

Agent also advised customer if she is experiencing a mechanical concern such as the issue listed in lines 145-155 to bring her vehicle in for a diagnosis. Agent will follow up with dlr service 8/04.

.

Customer needs to have her new concern diagnosed at the dealer.

.

Customer seeking to speak to her case manager. Writer transferred the customer as per line 163.

MESSAGE FROM CUSTOMER: today @ 3:08 pm

Customer states she has been having her mechanical concerns but she wants the agent to address her concerns with the payments and the financing that had occurred on the day of sale. She is seeking to have her deal unwound and for the dealer to take this vehicle back so they can move on. She also states the original contract had been altered after she signed the papers.

CUSTOMER CONTACT: [REDACTED]:

Agent advised the customer that we have attempted to speak to the dealer and they have not responded and we now will be sending her concerns to the BC and dealer owner. We here at Chrysler take all of these complaints seriously and we will be escalating your concern to the Chrysler Business Center and the Dealer will be notified of this issue. There will be an internal invitation regarding your complaint. Thank you for taking the

time to bring this to our attention, this action is best suited for your concerns.

.

Agent to draft the Red Letter.

.

Customer was advised that their concern is being forwarded for review.

Confirmed customer s contact information.

***** CASE MANAGER TEAM - District V *****

Hello, my name is Coralie and I have been assigned as your case manager.

This email is confirmation that your case, , was successfully escalated to me. After I review the details of your case I will be calling you at your preferred number ,no later than Tuesday August 12th. My office hours are 10:00AM 6:30PM Mountain Time. My contact information is 800.763.8422 EXT 66058. If your preferred telephone number mentioned above isn t correct, please reply with the correction (please ignore the system generated message below).

Customer called in stating that she was under the impression that someone would be in contact with her today by the end of the business day.

- Customer stated that they have not yet heard anything

- Agent advised the customer that we see that her CM has sent out a voice mail and that it does have her contact information.

- Agent transferred customer to CM voice mail as requested

Writer received call from 1.5 requesting CM speak to customer. Writer contacted CH1150. CM states no updates at this time and she will call customer.

Customer called in for an update.

Customer is very upset that she hasn t had any help or contact.

Customer states that they want to speak to CM.

Agent attempted to reach out to CM.

Agent spoke with CM rep who advised that CH1150 has not reached out to the dealer and has no new information but that they would call when there was new information.

Agent advised customer the CM would call back when there was new information.

Customer understood but states is very frustrated because she expected a call back today.

Writer attempted to contact the Service Manager (SM) who was unavailable.

Writer left a message and requested a call back.

Status update provided via email to the following email address:

Hi my name is Ashley from Chrysler Customer Care. I am contacting you on behalf of your Case Manager. I just wanted to let you know that she will be contacting you some time this week with further information about your case. If you have any questions you can contact us at 1-800-763-8422 Ext. 66058. Thanks for your time and patience.

End of Status Update

Customer contacting Chrysler stating that she is not driving this vehicle because it is very unsafe and has not heard from her case manager.

Customer stated she s very uncomfortable and needs to speak to the case manager. Agent offered to contact case manager, she stated she already left two messages. Agent advised we will document on the file to have CM contact her as soon as possible.

Writer attempted to contact Service Manager (SM) Jack who was unavailable. Writer left a message with Service Advisor (SA) Nancy who provided CAC with SM Jacks email.

Status update provided via email to the following email address:

I am assisting your case manager in your case. I just want to let you know at this time we are continuing to work diligently on your case. Caller requesting to speak with Case Manager.

Case manager not available, nic WV62

took the call.

Secondary phone: Customer declined to provide

Customer contacted Chrysler. Customer informed writer that she is having with the gears on her vehicle. Customer is stating that when her vehicle is in park it still rolls back. Customer informed writer that issue has been happening since a couple months after she purchased the vehicle.

Customer informed writer that customer went to dealership and they told customer that issue is normal with customer s type of vehicle. Customer stated that on survey she took on vehicle customer stated the issue and nothing was done. Writer informed customer that we will contact dealership and see if we can get tech to take a look at customer s vehicle. CM will follow up Tuesday 8/19/14.

Customer calls to speak with their Case Manager.

Transferred the customer to JV1052 at ext 66188.

Customer contacted writer. Customer advised writer that CM CH1150 has been in touch with since she had the case open. Customer states that her vehicle is having the rolling back issues for awhile customer feels like this a safety concern to be driving the vehicle. Customer states that she has had this problem since day one of purchasing the vehicle. Customer advised writer that she would like to speak with a supervisor because nobody has been in contact with her. Writer transferred to AD1012.

*****SUPERVISOR CALL*****

Writer took call from customer Customer stated that at intermittent times her vehicle rolls backwards about 2-3 feet after being placed in park. Customer stated that the last three times it happened....2 out of the 3 the vehicle was on flat ground. Customer stated that when she brought it to the dealers attention, the dealer showed her how to make sure the vehicle is in park. Customer stated that the dealer also told her that the pin or something like that is not registering the vehicle is in park. Customer stated she has filled out 2 different surveys and has never heard anything back from Chrysler. Customer stated that she also asked the dealer if the vehicle could be turned off while in gear and the dealer told her no. Customer stated the

vehicle was recently at the dealer on 8/7/2014. Customer stated that dealer 45155 told her they contacted someone within Chrysler and there was no information. Writer explained that writer will locate a new Case Manager for the customer and will have an email sent to the customer as well as customer will receive a call tomorrow.

Writer called dealer at 407-483-7700 and spoke with SM Marty who stated the last time the vehicle was at the dealer was on 8/7 for the same issue. Writer asked if when the customer can bring the vehicle in if a STAR case could be opened to help address the customers concerns SM agreed.

Status update provided via email to the following email address:

My contact information is 800.763.8422 EXT 66371. If your preferred telephone number mentioned above isn't correct, please reply with the correction.

End of Status Update

Writer called customer at [REDACTED] and left message for customer to call dealer and schedule an appointment to take the vehicle in to help get the issues resolved.

Begin Customer Message reviewed:

Hello, this is [REDACTED]
case number [REDACTED]

Following up, for status, this whole experience has me very stressed out. Thank you in advance for taking on the review of my information. This is an ongoing issue unresolved since 6/16/14, can you please provide me with whoever Chrysler main office information for me to contact as well. With all the issues with cars I see on television I do not want to be the OOPs for Chrysler the dealership is awful to work with. I'd like to just return the vehicle if there is no resolution I never been through so much with no company. Must I seek legal, media or any other means of assistance? please help. Thank you in advance for your assistance.

End of Reviewed Customer message

Writer called customer at [REDACTED] and left message informing the customer needs to schedule an appointment to take the vehicle in so that assistance can be given.

Writer called dealer at 407-483-7700 writer waited for 13min for SM Marty to come to the phone before writer disconnected the call.

Writer called customer at [REDACTED] and left message informing of STAR case and dealer in the process of following the repairs.

Writer received a call from the customer who stated she brought the vehicle to the dealership but is concerned that they had her take the vehicle while they reach out to STAR. Customer would like her CM to contact her back. Writer transferred to 66227 LV130

Writer Spoke with Customer who stated that when she had the vehicle there they took the VIN down and gave the vehicle back and opened the STAR Case with just the VIN. Customer is frustrated that when she takes the vehicle in the Dealer does not offer a rental, or a loaner or anything. Customer stated that she will not be able to take the vehicle in on 8/29/14 as she cannot miss work. Writer advised that CM will contact SM and see what we can do to help and see if we can get Customer into a rental while vehicle is being repaired.

Writer called dealer at 407-483-7700 and spoke with SA Shane who stated the customer has not been in since the first of August. Writer informed of the customer needing either a rental or a loaner vehicle. SA stated would need to have an appointment scheduled before rental can be considered.

Writer called customer at [REDACTED] and left message informing need to schedule an appointment to take the vehicle in.

MS [REDACTED] to speak with a supervisor as no CM was available.

AD1021 requested to call customer back first thing 9/3/2014. Customer agreed to have a call back from AD1021 at [REDACTED]. Customer advised that every time she calls in she cannot get her CM and all other CM's are busy.

Begin Customer Message reviewed:

Hello Paul.

This is [REDACTED] VIN: 2C3CCAAG7EH [REDACTED] I left you 2 messages today, with hopes to contact you prior to the end of your shift. I was awaiting your call today. I appreciate and Thank you for getting arrange for a rental or loaner car but I took the car in to the shop last Thursday again and they did not stay with it, they said they would look into it and call me back and I still have not heard any word. this is really a awful experience. please call me as soon as possible I DO NOT FEEL SAFE I HAVE to place the emergency brake on car when i put in park and twice i forgot i had it on i DO NOT drive the car due to the anxiety it gives me My 2005 300 with 100k miles is much more dependable, reliable and even with a broken strut more safe than this 2014.

End of Reviewed Customer message

Begin Customer Message reviewed:

Hello, I still have not heard from the Dealer, you or Supervisor, I have just sent a Message through the Chrysler Site requesting the CEO or VP of Quality to be notified of my case. I am frustrated and tired of the run around i have received. I am having Anxiety Attacks with all of this effecting me at work as well. If Needed please advise me if i Need to Obtain Legal Representation for this matter. If I do not hear from you or anyone from Chrysler by the end of this week I am returning this car for you all to figure out what is wrong with it before it hurts someone. I will not be responsible for that!

End of Reviewed Customer message

*****SUPERVISOR CALL*****

Writer contacted customer on phone number [REDACTED] and was unable to speak with the customer due to the operator came on the line and stated the phone number is no longer in service.

Customer called. Customer states she should have received a call from a supervisor on 09/03/14 and did not. Writer advised customer of lines 208-211. Customer states she is calling from that number right now and it has not been out of service. Writer put customer on hold to find a supervisor. Writer advised customer there is not a supervisor available. Customer will get a call from a supervisor in 1-2 hours.

Customer states she is going to get legal assistance if the issue is not resolved.

*****SUPERVISOR CALL*****

Writer contacted customer on phone number [REDACTED]. Customer was unavailable, writer left a voicemail.

MS [REDACTED] calls to speak with a supervisor.

Transferred the customer to AD1021 at ext 66306.

*****SUPERVISOR CALL*****

Writer took call from customer [REDACTED]. Customer stated that she is not driving her vehicle due to when she places the vehicle in park it rolls backwards about 2-3 feet. Customer stated the 1st time her vehicle rolled back was on 6/16/2014 and she was in her driveway, which has a slight incline so she thought it might be due to the incline. Customer stated that on the 2nd through 4th time customers vehicle was on flat ground, as the 2nd time she was parked in a parking lot at the Dollar Store, the 3rd time she was parked in the grass parking lot at her church and on the 4th time she was parked at the gas station getting ready to place gas in her vehicle. Writer inquired if the vehicle rolls back after customer has driven the vehicle and it is warm or does it happen more in the morning, is there a pattern to the concern. Customer stated she does not drive the vehicle and there is only 1,300 miles on it. Writer asked if customer knew if the dealer has ever placed a Data Recorder on the vehicle. Customer stated no, but she does not want to drive the vehicle at all cause she does not want to keep putting on the emergency brake everytime she parks the vehicle as this is what the dealer told her to do. Customer stated that at one of the times her vehicle was at the dealer she was told the vehicle is not reading that the vehicle is in park. Writer explained that writer will have customers CM call the dealer and see if a Data Recorder could be placed on the customers vehicle and if the dealer would be willing to keep the vehicle for a few days and have someone from the dealer drive the vehicle to see if the concern could be duplicated. Writer explained that customer will receive a callback today from her CM.

Writer called dealer at 407-483-7700 and spoke with SA Justin who stated the customer needs to drive the vehicle in or call to have it towed. SA gave phone number for the tow service of 407-847-2334.

Writer called customer at [REDACTED] and left message informing of lines 251-253.

Vehicle is at the dealership - NAPLETON S SOUTH ORLANDO (45155)
Update triggered by S58338N

Writer called dealer at 407-483-7700 and spoke with SA Shaun who stated when the customer brought the vehicle in it was looked at by the SA and the SM and one of the techs and the customer's issue was unable to be duplicated and there were no codes contained in the vehicle. SA stated all of this was communicated to the customer.

MS [REDACTED] calls to speak with a supervisor.

Transferred the customer to HH261 at ext 66326.

*****Immediate Supervisor*****

Customer requested to speak with writer who reiterated lines 226-250. Customer states that she does receive great service when she calls in but has not been able to communicate with her CM. Customer states that she was told by the dealership that the vehicle did not read as being in park and told her to use her emergency brake. Customer states that she took her vehicle to the dealership on 8/5/2014 and was told that they would not provide her with a loaner. Customer states that she called in today to check on her vehicle and the dealership did not remember that they had her vehicle. Customer understands that it is random when it happens but the dealership has not put more than one mile on her vehicle to resolve the concern. Customer feels that she has done what was required of her and no one is assisting her or understanding that this is a safety concern. Writer placed customer on hold to call dealership. DEALER- Writer dialed 407-483-7700, asked for SM or ASM. Released call at 5 min after no contact. CUSTOMER- Writer asked customer for more time to research case and open STAR case and then follow up with customer. Customer stated that she cannot answer her phone but will call back within 5 minutes.

DIRECT-TO-DEALER

ATTENTION SERVICE DIRECTOR OR SERVICE MANAGER

Please follow your Business Center guidelines in an attempt to resolve this customer's concern(s). If needed, seek assistance from your District Manager, Business Center or STAR.

The unresolved concern is Vehicle rolls when in 'Park'

Action requested: responding to STAR

Please update this CAIR with resolution.

#####

REASSIGNED TO BC/DLR 66 45155 09/08/14 16:07 O [REDACTED]

DEALER- Writer dialed 407-483-7700 Spoke with SM Jack who states that they are unable to duplicate customer's concerns, they have not been able to pull any codes and states that he has been on a test drive with customer and advised customer that there is nothing that they are seeing to fix on the vehicle and that is why no repairs have been done. SM states that the vehicle is not there and if it is he does not know about it.

CUSTOMER- Writer dialed [REDACTED]. Left VM for customer advising that vehicle needs to be picked up if it has not been already as they are unable to duplicate customer's concern.

Writer spoke with customer saying that she will get a call back from the supervisor today.

Customer called in very frustrated and states that she has not getting assistance either from the dealership or the CM at Chrysler. Customer states there is something wrong with the transmission gear as the vehicle continues running when she put it on park. Customer states the dealership is not doing their job as they are not even driving the vehicle.

Customer calls to speak with their Case Manager. Transferred the customer to PF185 at ext.# 40657.

Writer received call from customer who stated went to pick up the vehicle found all the paper work on the front seat. Customer stated gave permission to drive the vehicle. Customer stated does not want the car because of the issues and not feeling safe.

Is there any damage to the vehicle? (if yes, describe) no

Actual/accurate mileage? 1300

Is the vehicle leased or purchased? purchased

Name of lender: san lender

Is the customer in a rental right now? no

Is this vehicle used as a personal vehicle or for a business? personal

Are there any modifications to this vehicle? (if yes, describe) no

If Chrysler makes an offer to replace the vehicle, what dealer does the customer prefer to work with? 45155 NAPLETON S SOUTH ORLANDO

Writer went to offer a payment reimbursement and customer declined.

Writer informed of the 7-10 day required for review and customer understood.

Writer called dealer at 407-483-7700 and left message for SM Jack to try again to duplicate the customers concerns with follow up on Monday 9/15. Writer called dealer at 407-483-7700 while being transfered to SM the call was disconnected.

Writer called dealer at 407-483-7700 and spoke with SM Jack who stated they have returned the vehicle to the customer and they have not been able to find anything wrong.

Writer called customer at [REDACTED] and left message.

Agent attempted to contact customer, however, customer was not available.

Left message for a return call at extension 40678. The reason for the customer contact was to provide or request the following information:

Follow up to ensure repairs have resolved customer issues and expectations met, and next follow up is 9/25/14.

[REDACTED] called, requesting her Case Manager. Transferred customer to CM PF185 at ext 40657 VM as CM was unavailable.

Begin Customer Message reviewed:

Hello Paul this is [REDACTED] case number [REDACTED] I was following up to see if you have received any information. someone left me a message yesterday about closing out my case and i was awaiting word back from you from the message you left me friday that you were still awaiting also. i am leaving out of state 9/27-10/17 I d like to have this resolved to not carry that stress with me, i am going to deal with a family situation that requires my attention fully. Thank you in advance for all your attention and assistance. My phone number is [REDACTED]
End of Reviewed Customer message

Writer called customer at [REDACTED] and left message informing there is currently no update as far as the buy back process goes.

Customer calls to speak with their Case Manager or a supervisor.

Transferred the customer to LV130 at ext 40622,because the primary CM was not available.

Customer declined to provide a second phone number.

Customer stating that she is very disappointed with the process and Chrysler does not care about her and requesting to get some answers regarding her request.

Received a call from Customer very up set that she still has not heard about the buy back Customer stated that she feels she should have heard by now, and that if a decision is made while she is out of state she will not be able to take the vehicle anywhere. Writer advised that Writer will see if we can find out anything on 9/26/14, but could not make any guarantee. If Writer finds out any information Writer will contact Customer

Writer called customer at [REDACTED] and was informed the vehicle has been to the dealer now for the fifth time for the same issue. Customer requested that the buy back be reexamined. Writer informed would resubmit for a second review.

Writer called customer and was informed again to have the case reviewed as this is the fifth time it has been to the dealer for the same issue.

Is there any damage to the vehicle? (if yes, describe)no

Actual/accurate mileage?1300

Is the vehicle leased or purchased? purchased

Name of lender: san lender

Is the customer in a rental right now? no

Is this vehicle used as a personal vehicle or for a business? personal

Are there any modifications to this vehicle? (if yes, describe) no

If Chrysler makes an offer to replace the vehicle, what dealer does the customer prefer to work with? 45155 NAPLETON S SOUTH ORLANDO

Writer went to offer a payment reimbursement and customer declined.

Writer called customer [REDACTED] and left message.

Writer called customer at [REDACTED] and informed of the vehicle not being bought back. Customer asked if there could be an email sent stating that and was given the email address of [REDACTED] to send the email.

Status update provided via email to the following email address:

[REDACTED];

As per our conversation I am sending this email to give written documentation that at this time Chrysler will not be persuing vehicle buy back. Hope this helps.

Thanks,

Paul

**** Summary of Survey ****

The customer states: The car is not a comfortable ride. It doesn t handle very good on a highway and it s a rough ride. Being the luxury car advertised on commercials, this is not living up to the commercials. Doesn t always come out of reverse drive to park. Thought it was in park but it was reverse. Car started rolling backwards. Very dangerous you always have to check to make sure it s in the right gear. Not easy to operate.

Corporate - Property Damage - Default - Default - Default	
Product - Transmission / Transaxle - Gear Selector / Linkage - Jumps Out of Gear/Park - Default	

1. Who is calling and what is their contact information? James Altom - The Service Manager in the dealership. The district Manager instructed the dealership to call in. James states that the daughter was driving the vehicle and got out of the vehicle. James states that the daughter and mother stated that once out of the vehicle it turned itself back on and went into gear.

Preferred:

Alternate:

2. What happened? The customer came in and was very upset. This is second hand information from the Service Manager. The customer stated that the vehicle remote started itself and put itself in gear and drove across the yard into the neighbors yard and hit something and put a hole in the front facie for the vehicle in the left side.

3. What is the current location of the vehicle? The customer drove the vehicle into the dealership.

Johnny Roberts Motors Visit dealer website 1706 E Broadway

Altus, OK 73521

(580) 482-1901

The only information we have is second hand information.

James will have the owner of the vehicle call back with their information on what happened.

Dealership will not touch the vehicle for any repairs.

The customer stated that the daughter had shut off the vehicle and took the keys out and went into the building but had to run back into the vehicle. Then they noticed that the vehicle was idling and put itself into gear. There was a previous issue with the vehicle where the trunk would pop open. The customer would randomly pop open. The daughter has reported incidences of this but the DLR didn't take her seriously. The main concern the vehicle starting and goign into gear when the keys were not near it.

CQI Survey Record Received - DATE : 09/03/2014

Survey Number : 3766328

Quality Survey ID Number:

Survey Date : 09/02/2014

VIN Last 8 : DF

CQI Comments : Forgot to mention the Moonroof noise. Should also be addressed, Dealer said in the future it will be. It s a big job.

Per survey customer stated that the shifter is terrible and unless changed he will never purchase another Chrysler 300. Customer stated that the shifter does not lock into place as the previous one did; he also stated that many times he has thought he was in park when in fact the vehicle was in reverse. Customer feels that the shifter concern should be addressed as soon as possible. Customer stated that the favorite part of the vehicle is the ride it provides.

Status update provided via email to the following email address:

Dear Mr.

Hello, my name is Daniel and I am contacting you from Chrysler Customer Care regarding a recent survey you took for your 2013 CHRYSLER 300. We are following up to see if we can assist you with any questions or concerns. Please call me at 1-800-763-8422 x66213 or respond through the included link. We value your comments--thank you for participating in our survey and being a part of the Chrysler family!

End of Status Update

Customer left message requesting a call back at . Writer contacted the customer at 3. Customer stated that the dealership he works with is great (23153). Customer stated that the only problem he has had is with the shifter. Writer inquired if the customer has addressed this with the dealership, customer stated he did and they informed him that it is a characteristic of the vehicle. Customer also informed writer about the moon roof concern, however customer informed writer that a repair for this concern is being worked on and the customer will be contacted once the repair is available. Writer inquired as to what kind of oil the customer uses, customer informed writer he uses synthetic and takes very good of his vehicle and usually purchases vehicles after the lease is up. Writer noticed the customer does not have any service contracts. Writer offered to take care of the customer s oil changes for the rest of his lease due to the inconveniences he has

experienced. Writer offered the customer ECPS36N (2 oil changes per year for 3 years, total of 6 LOF), customer accepted. Writer informed the customer that it will be added within the next 5 to 10 days and he will receive paperwork within 30 to 60 days, customer understood. Writer informed customer that this survey will be closed, however if the customer has any questions or concerns he may contact CAC for further assistance. Customer understood.

Writer submitted ESSENTIAL CARE PLATINUM SYNTHETICSM ECPS36N to JD1343.

CLOSED LOOP UPDATE - no need for additional follow-up.

ECPS36N Contract created. Contract number is [REDACTED]

Customer called back.

Customer stated he was suppose to received oil change contract, and he has not received anything.

Agent advised customer that contract is added to vehicle and listed with vin.

Agent contacted MVP to have a copy of contract mailed to customer.

Agent advised customer a copy will be mailed out by MVP , and provided customer with contract number and advised he should be able to access contract on MVP website.

Customer understood and thanked agent.

Customer contacted back in and states that he has still not received the contract information. Agent transferred cusotmer to MVP for further assistance.

Product - Engine - Unknown - Check Engine Lamp On/Flashing - Default	Customer states that check engine light is on.
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called stating that her vehicles check engine light is on. Customer states that she has taken her vehicle to the dealership in regards to this issue. Customer states that the dealership tells her that there is nothing wrong with the vehicle. Customer states that she wants to know if there are any recalls on the vehicle as well.

Briefly summarize what the customer is expecting: Customer called in seeking recall information and what her next step is.

Agent advised customer that there are no recalls on her vehicle.

Agent advised customer that if she takes her vehicle in for diagnosis Chrysler can look into providing case management assistance.

Customer stated she took vehicle back to dealership in July/14 and they said that there was nothing wrong with the vehicle. Customer stated that a few days ago the message comes on saying to service the gear shift. Customer also stated that when she puts vehicle in park it will keep moving not coming to a complete stop like it should. Customer stated she went for an oil change and the dealership stated that they did not have any records of the car being serviced for the check engine light issue. Customer also stated that when she uses the remote start the vehicle keeps shutting off and on. Customer states she does not use that feature for the past month because the check engine light stays on. Customer states she no longer wants the vehicle and wanted to file lemon law if issue not resolved.

Called dealership ?45457A™ to confirm details of diagnosis.

Spoke with Service Advisor Robert

What is the diagnosis? Customer came in Nov/2013 with check engine light issue. Robert stated that no work was done at this time and they ordered a part.

Agent was going to transfer customer to speak to Robert to have the vehicle diagnosed however customer disconnected the call. Agent tried to contact customer back however could not reach her. Next agent please advise customer that she will have to take the vehicle back to the dealership for a diagnosis and then we can forward to case manager. TL-survey bypass- no diagnosis

Briefly summarize why the customer is contacting Chrysler: Customer states she is having issues with this vehicle and the dealership is refusing to resolve the issue. The dealership has seen the vehicle and they say there is nothing wrong with it. Customer states that they say this is because of the weather. The engine light has been on many times while it is in their possession.

Briefly summarize what the customer is expecting: Customer is looking to get the issues resolved.

Customer was advised that she will have to go back to the dealership to

have them diagnose the vehicle.

Customer seeking why the CM hasnt called back.

Customer thought she missed a call from a CM which is initially why she called.

Customer provided email [REDACTED] for CM.

Agent advised customer to contact us when the vehicle is diagnosed.

Agent advised we would document her email for her CM.

Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler regarding a call back from CM. Customer stated that feels missed a call from CM

Briefly summarize what the customer is expecting: Customer is seeking to speak to CM

Agent advised customer that would have to have vehicle at dealership to have escalated to CM. Agent contacted dlr 44334 to assist setting up an appointment

No diagnosis.

Survey by pass required.

Reassigned to DF314.

***** EMAIL BRIEF DESCRIPTION CONTENT *****

Important enhancement request for 8-speed trans

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

This is an important enhancement request: Modify the programming of the 8-speed transmission so that if there is no one in the driver's seat, the car cannot roll backwards, even if the transmission is in Reverse. I have a 2013 Charger with an 8-speed transmission. After backing the car out of my garage, I thought I had put the car in park, but I had not, and when I got out of the car to go back in my house to get my phone, the car began rolling backwards, still in Reverse. I was able to run to the car, open the door and step on the brake pedal, but not before badly damaging my neighbor's fence. It could have been much, much worse! Please enhance the car's programming so that even if the 8-speed transmission is in Reverse, if the driver's seat is empty, the car won't move. I would argue that if there's no one in the driver's seat, the car shouldn't move in Reverse, Drive or Low. The 8-speed transmission's shifter, by design, centers automatically. As a result, there is no 'positional' indication of what gear the car is in. Moreover, the shifter does not always consistently, immediately, choose the desired gear. The combination of these factors does

increase the likelihood of the car doesn't shift into Park cleanly.

*****END OF CUSTOMER EMAIL*****

Dear [REDACTED]

Thank you for contacting the Dodge Customer Assistance Center.

We regret to hear that you had this experience.

We will certainly take your suggestion into consideration and provide this to our product development team for review; however, we would like to inform you that our warranty does not cover any outside influence damage caused to the vehicle.

If you do feel that this concern should be looked into further, we suggest you contact your local dealership to have it diagnosed.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-4A-DODGE (1-800-423-6343).

Sincerely,

Ashley

Dealer - By-Pass - Default - Default - Default	
Product - Unknown - Unknown - Accident - Default	

Briefly summarize why the customer is contacting Chrysler: Customer called states that he was involved in an accident where the vehicle had moved and struck a pole with him not in it. Customer states he was in a store when the clerk said to him is that your silver dodge rolling by. Customer states he went out to the vehicle and tried to start it, but noticed that it wouldn't start and it was in reverse. Customer states as it will not shut off unless it is in park, so he can't understand how this could have happened. Customer states that this was the 2nd time it happened (on the 23rd, and the first time was about 3 weeks before that). He states that the first time he was in a kmart and the vehicle rolled forward and hit another car in front of his. He states that the vehicle was also in reverse on that day as well (even though it went forward). He states that it only rolls forward. He had the vehicle repaired at an IRF and states he then called the Dlr and had to wait 10 days to get it in. He states he had it there on Friday and is waiting for an update from them. He states that they advised to use the emergency brake, and he has been with success. He states that they have not been able to pull any codes and have checked it through with no trouble found. Customer states that he was able to drive the vehicle as there was just some front end body damage, and states there isn't an accident report either. Briefly summarize what the customer is expecting: Customer seeking to have vehicle repaired.

Customer advised a call back is required and will take place within one business day by COB their time

Preferred call back number is

Writer called customer at [REDACTED] left message for the customer.

Writer called DUROCHER AUTO SALES INC at 518-563-3587, spoke with Rob and was informed that the dealership is still waiting for an update from investigations. Writer said that writer will follow up with the dealership on Monday, Rob agreed to follow up time frame.

Writer called DUROCHER AUTO SALES INC at 518-563-3587, spoke with Mike and asked for an update on the customer's vehicle. Mike said that the Service Manager, Lisa, is out on lunch, and asked that writer call back in about an hour.

Writer called DUROCHER AUTO SALES INC at 518-563-3587, spoke with Lisa and asked about the customer's vehicle. Lisa said that there is supposed to be some sort of Tech coming to inspect the vehicle. Lisa said that the vehicle is not acting up so the concern cannot be duplicated. Lisa said that STAR informed the dealership that the customer needs to contact the Chrysler Care Center to open a case that will need to be sent to Special Investigations. Writer said that writer will do some research, and then call Lisa back in no more than 20 minutes.

Writer called DUROCHER AUTO SALES INC at 518-563-3587, spoke with Lisa and informed Lisa that the only way writer will be able to send this case to Special Investigations is if the vehicle was in an accident, or caught fire. Lisa said that the customer reported the vehicle was parked in Park about 5 minutes later someone inside the same store said that there is a red charger rolling down the hill. Lisa said that customer reported the vehicle had rolled down a hill, into a telephone poll, and the shifter was in Reverse. Writer said that the case will be sent over to SI, and if SI can help the dealership, the dealership will be contacted.

VEHICLE IS LOCATED AT:

customer concern:

- Transmission makes abnormal/excessive noises

Not certain this is a trouble may be normal to this transmission. I have always had hems in the past

- Hands-Free Phone / Bluetooth system voice activation doesnt recognize command

Some days works fine. Other days cannot get it to function.

- Gear selector is difficult to operate (auto. trans.)

This is due to the electronic shifter staying in the one position and you move it forward or back to find gears. I do not like it. Caused us to think a car was parked in the driveway. was not in park took foot off the brake and ran into our other vehicle.

Reason for Customer Contact: Customer states they are having issues with the transmission and is not sure if this is normal for this vehicle.

Customer has not brought the vehicle to the dealership for diagnosing.

Customer contact is needed to advise customer bring the vehicle to the dealership for diagnosing

DEALERSHIP CONTACT: NORTHLAND CHRYSLER JEEP DODGE at 248-398-8200 Spoke with SD Jim, who states the customer has not been in to the dealership since purchase.

Agent thanked SD Jim for his assistance.

Status update provided via email to the following email address:

Hi Mr

My name is Linda, and I am following up on a survey that you recently

completed regarding your 2014 CHRYSLER 300C AWD FOUR DOOR SEDAN.
I have contacted NORTHLAND CHRYSLER JEEP DODGE, and spoken with Service Director Jim, and he has advised that you have not been back at the dealership since you purchased your vehicle, and the dealership was not aware that you were having issues with the vehicle.

We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.

Unfortunately, given the many variables involved, we are unable to diagnose your vehicle's problem via email or phone. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair.

Once you have been to a dealer to have your vehicle concerns diagnosed, if you require further assistance from Chrysler, please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us by calling Chrysler Customer Assistance at 1-800-247-9753.

Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.

Thank You,

Linda

Recall - P60: ALTERNATOR - Information Request	Customer seeking information regarding recall letter
Corporate - Property Damage - Default - Default - Default	
Dealer - By-Pass - Default - Default - Default	
Product - Transmission / Transaxle - Automatic Trans / Transaxle - Jumps Out of Gear/Park - Default	
Product - Unknown - Unknown - Accident - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states she received a letter regarding recall P60. Customer states she had an issue with the gear shift and was inquiring if that was related to the recall on her VIN. Agent called Landers Chrysler Jeep (26899) to schedule an appointment for a diagnosis. Customer dropped the call while Agent was updating Anna at DLR 26899 before transferring. Anna states she will call back Customer to schedule the appointment.

Briefly summarize what the customer is expecting: Customer is expecting a diagnosis on vehicle.

Agent updated Customer contact information and advised Customer of recall P60 on her VIN.

**

1.14.15

Per STAR file: 'Jim states the customer claims the vehicle was still running when she got out, and the vehicle rolled forward into something (Jim is not sure what). The vehicle has minor damage, but the customer claims this is an issue with the product. Jim does not want to perform any repair and is requesting engineering assistance before anything further is done. Jim can find no issue with the parking mechanism.'

Reason for customer contact

Customer has the following concerns:

- There isn't an access to the trunk in case of electrical failure/this happened to me. The side door mirrors don't fold inward, this is a danger when parking in NYC streets. The transmission shifting is awkward and often goes into low.

- Gear selector is difficult to operate (auto. trans.)

- Hesitation or delay when shifting between gears

- Gear selector is difficult to operate (auto. trans.).

Shifting paddles/buttons difficult to operate.

Hesitation or delay when shifting between gears.

Shift between gears is rough/harsh under normal driving conditions.

- Shift between gears is rough/harsh under normal driving conditions

- Battery Failed

To the best of your recollection, the trouble was first noticed: More than 3 months after delivery.

- Fuel consumption is worse than expected.

- The Satellite keeps fading out.

Briefly summarize why the customer is contacting Chrysler: Customer contacted Chrysler in regards to any open recalls. Customer stated that they parked their vehicle, turned it off, and it turned on itself and ran into the street causing an accident.

Briefly summarize what the customer is expecting: Customer is expecting recall information.

Agent advised that there are no recalls on this VIN and that this is going to be escalated. Agent reassigned case to MS2684.

Customer explained their vehicle was in park and turned off. Vehicle turned back on and backed onto a busy street and caused an accident.

Agent advised customer take vehicle to a dlr to find out why it would do that and give us a call back when they diagnose it.

Customer understood.

1. Who is calling and what is their contact information?

2. What happened? Vehicle was in park, doors locked, it turned on and rolled backwards into traffic and caused an accident.

3. What is the current location of the vehicle? Owner has it.

Worse device on any vehicle I have owned in 25 years. Have had car for 24 months and this device is horrid. Not intuitive. Have to always look at where it is, i.e. in park, reverse, etc. Does not easily go into park. Have exited the car on numerous occasions with car in reverse. Think the best thing I can do is write NHTSA

*****END OF CUSTOMER EMAIL*****

Dear

Thank you for contacting the Dodge Customer Assistance Center. I do apologize for the inconvenience. I can imagine how frustrating this must be for you and understand your safety concerns as well. We appreciate the time and effort you took to tell us of your dissatisfaction in our product. We have documented your comments and will provide them to our product development team for review. If you feel that there is an issue with the electronic shifter in your Jeep, we recommend having a diagnosis done at your local Chrysler Dealership to ensure that it is working properly and they may be able to address the concern with putting the vehicle in the park position. Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Should your dealer require technical assistance they may contact our Technical Operations Resource Group or contact their regional Business Center.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-4A-DODGE (1-800-423-6343).

Sincerely,

Myranda

Hi Mr.

I am following up with you regarding a survey you recently completed regarding your 2014 Dodge Charger. We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.

I see by your survey that you have taken your vehicle to the dealership to have the concerns diagnosed. If you are still having concerns with your vehicle, we recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair.

Once you have been to a dealer to have your vehicle concerns diagnosed, if you require further assistance from Dodge, please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Dodge Customer Assistance at: 800-423-6343.

Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.

Thank You,

Barb

****Begin structured narrative T2 - Beginning Narrative

Briefly summarize why the customer is contacting Chrysler:

Customer called in stating the vehicle has had previous issues that she believes relate to the transmission. Customer states the vehicle has hard shifting and will jump out of gear. Customer alleges she took it to DLR in the past and nothing was done to help get the vehicle repaired. Customer states she currently took the vehicle in to the DLR, however, they advised it d be 2-4 days before the vehicle would be diagnosed.

Briefly summarize what the customer is expecting:

Customer states she can t leave the vehicle there because she needs transportation. Customer is requesting rental vehicle. Agent advised at this moment Chrysler cannot offer or provide a rental at this moment because we do not know the cause to failure or have the vehicle s diagnoses. Customer states it is not fair to her because she didn t cause the issue, and she shouldn t be help responsible to pay for rental. Agent advised we can only offer possible reimbursement but cannot promise or guarantee anything because we don t know the damage the vehicle has.

* * * * * CASE MANAGER TEAM - District Q * * * * *

***** SPANISH *****

Customer is upset with the information provided by CM. Customer alleges that she cannot believe that Chrysler does not offer more assistance to their customer s. Agent advised because the last case was closed in August, we need an accurate up to date diagnoses, therefor we cannot provide a rental vehicle until the vehicle has a diagnoses. Customer requested for SUP. Agent advised they would inform of the same information as CM. Customer continued to request SUP.

Agent transferred caller to EM776 EXT 40553.

*****SUPERVISOR CALL*****

Customer stated the vehicle jerks. Customer stated the dealership was contacted and customer was advised it will take a few days. Customer requested a rental. Writer advised customer can pay out of pocket then submit for reimbursement at \$35/day for a CJDR. Customer stated she cannot afford it. Writer offered to contacted the dealership and request a rental for the customer. Writer advised if it s determined it s not a defect the customer would be responsible for the cost of the rental. Writer contacted HELFMAN DODGE. Writer was advised the service department is closed. Writer advised customer can call back and request for an agent to call the dealership. Customer agreed. Customer contacted the writer and stated that on 01/04/2015 she spoke

with an Agent from CAC that told her that CAC could get her a vehicle from the DLR while her vehicle is under diagnosis. Customer stated that her vehicle has a no start issue, that the check engine light comes on and off, and that her vehicle jerks. Customer also stated that on 2014 she took her vehicle to an IRF to do the repairs to the A/C due to the DLR had to many vehicles to repair before hers. Writer advised that CAC won't be able to provide a rental without a diagnosis and that the customer could contract her own rental and CAC could reimburse her if the diagnosis states that the issues with her vehicle are due to a manufacture defect and no due to external causes (IRF repairs). Customer understood. Writer will call back the customer after contacting the SM. DLR contact: Service Manager was off for the day. Service Advisor John stated that they didn't have any information of the customer's vehicle, that they didn't have any loaner available, and that the DLR needs at least 3 days to do a diagnosis due to the DLR is overwhelm with vehicles. SA also stated that writer should get in contact with the SM in order to ask for a rental for the customer while her vehicle is in diagnosis. SA provided the SM email: g.pena@helfmandodge.com.

Writer sent an email to the Service Manager requesting rental for the customer while her vehicle is at the DLR for diagnosis.

Customer contact at [REDACTED]: Writer informed that an email was sent to the SM requesting a rental for the customer while her vehicle is at the DLR for diagnosis. Writer informed that the customer case will be reopen and customer stated that she wants to work with the writer. Writer also advised that she will get in contact with the SM on 02/06/2015, and then writer will get in contact with the customer. Customer understood and expressed her gratitude with the writer.

Customer contacted the writer to inform that the customer decided to go the appointment at the DLR 44231, DEMONTROND AUTO COUNTRY. Writer advised to contact the writer once the customer is at the DLR.

Vehicle is at the dealership - DEMONTROND AUTO COUNTRY (44231)

Update triggered by S23536E

Customer contacted the writer because customer was at the DLR DEMONTROND AUTO COUNTRY (44231) and the customer stated that she was told that she

didn't have an appointment. Writer spoke with Service Advisor Lee and writer remind the SA lines 151-154. SA Lee stated that the technician won't be able to run the diagnosis today and that the DLR might have the diagnosis on 03/09/2015. Customer expressed her frustration of having to wait for more than 3 day to have a diagnosis. Writer advised to the customer that a rental will be provided but the SA Lee stated that the offices were closed and that they wouldn't be able to provide rental to the customer. Writer Advised to the customer that CAC will provide rental to the customer but that the customer should decide the DLR that she would like to work with. Customer decided to work with the first DLR HELFMAN DODGE CHRYSLER JEEP. Writer will get in contact with the first DLR to schedule an appointment to run the diagnosis.

DLR contact: Service Advisor Caleb scheduled an appointment for the customer for 03/16/2015. SA stated that the customer can get in contact with him at: 713-533-6265. SA also stated that the diagnosis for the transmission could take between 3 to 5 days and that the DLR will not provide a rental. Writer is aware of that.

Customer contact at [REDACTED] customer stated that she couldn t get in contact with the DLR to schedule an appointment and that the customer will contact the writer and provide that information.

Customer contact at 8 [REDACTED]: Customer stated that the DLR told the customer that the DLR told the customer that in order to run the diagnosis to her vehicle, the vehicle needs to have the lamp on. Customer alleged that the DLR told her that they will need at least 2 days to run the diagnosis. Writer advised to the customer that the case should be close because the diagnosis didn t occur. Customer understood. Writer attempted to contact the Service Manager however, SM was not available. Writer left a VM to the general Manager informing that one of the service advisor denied to run a diagnosis to the customer because her vehicle didn t have a check engine lamp on. Writer left a VM to the Service Manager providing the same information and requesting to schedule an appointment to the customer. Writer informed to the customer that the case will be close and that once the customer schedules an appointment with the DLR, a new case will be open when the customer contacts CAC. Customer stated that she didn t like the service form the DLRs and that during the time that she was there, nobody asked her if she needed something. Customer stated that she was thinking of replace the vehicle due to the DLRs service and because they didn t show interest on assisting her. Writer informed that he concern was documented and that writer will try to contact one more time the DLR. Customer understood and agreed.

DLR contact: Writer attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension: 40627. The reason for the dealer contact was to provide or request the following information: to schedule an appointment for the customer to run the diagnosis, because is an intermittent issue.

CLOSED LOOP UPDATE - no need for additional follow-up.

CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED

Survey By Pass - No Diagnosis

[REDACTED] has been deactivated for text message communication.

Customer stated they were at the dealership for the oil change and she was charged for it, customer stated they have a SC for oil changes, writer advised the SC for the oil changes has been expired. Writer provided the SC contact information.

Product - Transmission / Transaxle - Automatic Trans / Transaxle - Other - Default	Customer advised vehicle jerks when he shifts from park to drive.
Product - Transmission / Transaxle - Unknown - Complete Failure - Default	Customer advised his transmission was replaced at 5000 miles.
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler as he wants his vehicle bought back.

Briefly summarize what the customer is expecting: Customer is expecting to have his vehicle bought back.

Customer advised there s something wrong with the shifter.

Customer advised he was backing up and almost hit something as the vehicle was supposed to be in park but it wasn t.

Customer advised it didn t click into park.

Customer advised that when he puts the vehicle into drive, it jerks.

Customer feels the vehicle is not safe.

Customer advised he contacted an attorney regarding lemon law.

Customer advised he has been without the vehicle for 30 days.

Agent contacted Dealer #26821 and spoke with Mike.

Mike advised it is not a recurring issue.

Mike advised the transmission was replaced at 5000 miles.

Mike advised he has a headliner to replace.

Mike advised the windshield has to come out to do it so customer is waiting for free time to get it done.

Mike advised he doesn t know anything about shifter issue.

Mike advised he doesn t know anything about the jerking issue.

Mike advised he has brought the vehicle in for plastic rivets on rocker cover, the chrome on radio bezel was bubbling, weather strips inside the trunk and the top edge of door sticks out.

Mike advised, as far as he knows, vehicle has been running fine ever since.

Agent advised the customer that we encourage our customers to work with the dealerships to repair the vehicles.

Agent advised that since none of the customer s current issues have been presented to the dealer, CAC would appreciate him giving the dealership the opportunity to address these issues.

Customer advised he would.

Customer asked for the case number to be emailed to him.

Agent advised if he had more issues with the vehicle, to please contact us.

Status update provided via email to the following email address:

 Your case # is .

Thank you for your time today. All of your concerns have been documented.

Briefly summarize why the customer is contacting Chrysler: Customer was transferred through from Clode with Chrysler Directory. Customer advised agent that his vehicle is stuck in the park position. Customer stated that when he first started the vehicle the check engine light illuminated.

--

Customer stated that he then tried to start the vehicle and the Service shifter light then illuminated as well. Customer stated he would need to have the vehicle towed into the dealership.

Briefly summarize what the customer is expecting: to have the vehicle towed into the dealership.

Customer stated that he didn't have an address to where he was located and that once he found one that he would contact us back so that we could get in touch with Roadside Assistance for him.

-

Agent provided customer with the case number phone number to contact us back and roadside assistance number.

Survey By Pass No Diagnosis.

Customer contacted asking what warranties were available on the vehicle. agent stated that he is still under all warranties. Agent stated that the DLR will diagnose the issue. Agent stated that the DLR will then place the Concern under the warranty that best suits. Customer thanked the agent and disconnected the call

on 2015-03-18 @ 12:14

Writer received a call from a call from Bryan advising CM that no concerns were duplicated. Writer is advising a STAR case to be open with all the feedback of the concerns and what SA has found. SA explains to find a few things that were place correct but after that nothing has been duplicated.

CAIR ESCALATION UPDATE

SEE STAR CASE# 100282199 FOR INFORMATION

Writer attempts to contact SM Chet at 562-402-5335 leaves a voicemail advising SM to update STAR case [REDACTED] 9. Writer is requesting a callback at 800-763-8422 ext.40655 to discuss case.

Writer attempts to contact SA Bryan at 562-402-5335 leaves a voicemail advising SA to update STAR case 100282199. Writer is requesting a callback at 800-763-8422 ext.40655 to discuss case.

Writer contacts customer at [REDACTED] to advise customer to have gotten our internal resources involved with customer case. Writer advises that at this time there isn't any update but as soon as there is an update CM will be touching bases again. Customer states to have received a call from SA Bryan today advising customer that vehicle is still being worked on because of the safety concerns. Customer feels like SA was pushing customer to pick up the vehicle until CM was contacted. Writer understands customer and advises to keep working on customer case.

Writer attempts to contact SM Chet at 562-402-5335 leaves a voicemail requesting SM to update STAR case [REDACTED]. Writer is requesting a callback at ext.40655.

Writer attempts to contact SA Bryan at 562-402-5335 leaves a voicemail requesting SM to update STAR case [REDACTED] Writer is requesting a callback at ext.40655.

Writer contacted dealer 43012 and spoke to SA Bob as SA Bryan is out today. SA Bob states repairs appear to be complete but not sure, writer advised there is no activity on star case. Writer advised case was assigned to them and gave CM call back information.

Writer contacted customer, advised her there was progress on repairs but didn't have all the information as SA Bryan is out. Writer advised expect a call from SA Brian and CM Patti on 3/20/2015, customer thanked writer.

Writer contacts SA Bryan at 562-402-5335 to see if the STAR case can be updated. SA explains to not know how to look up STAR case for more information. TA Hector will be the one to have access to the STAR case.

Writer provides STAR case [REDACTED]. Writer will like STAR case updated.

Writer explains to follow up later on today.

Writer received a voicemail from SA Bryan stating that he was unable to find STAR case but his discussed case over with TA and a shifter has been order for customer. SA is requesting rental extended until 03/24/15. SA is requesting a callback

Write contacts SA Bryan that explains after replacing the shifter they will be testing the vehicle to make sure there aren't any codes showing. SA explains that parts are in LA so will arrive tomorrow. Writer explains to extend customer rental until the 25 of this month. Writer will follow up on 03/25/15.

Writer contacts customer at [REDACTED] to provide up dates for customer. Customer is advised that rental has been extended until 03/25/15. Customer states to be paying an extra \$10.00 per day for the rental that she is currently in. Writer advises customer to cover up to \$35.00 per day if customer is in a Chrysler product. Writer advises customer to contact enterprise of SA Bryan. Writer will follow up on 03/25/15.

Writer received a voicemail from customer stating that SA Bryan states CAC will only cover \$30.00 per day for the rental. Writer will like CM to contact SA and then customer to confirm how much well customer is paying for the rental vehicle. Writer is requesting a callback at [REDACTED]

Writer contacts SA Bryan at 562-402-5335 to see if the customer vehicle is ready to pick up. SA explains that all repairs have been completed.

Writer was discussing rental with Bryan and was advised that customer was first placed in a regular vehicle then customer went into an SUV. CAC will cover up to \$35.00 a day but SA states to discuss things with enterprise. Writer is requesting a callback from Bryan to make sure everyone is in the same page before CM reaching out to the customer.

Was the customer in a rental? If yes, how many days? 14 days 5 days SC covered rental and 9 days CAC covered the rental. CAC covered rental from

03/16/15-03/25/15.

Did the customer have a co-pay? If yes, how much? No

What is the RO #? [REDACTED]

Does the SM have the CAIR #? If no, provide it. Yes

Review and Confirm the DM Notes with the SM while on the phone.

Does the SM have everything needed from Customer Care to process the claim? Yes

Writer received a voicemail from SA Bryan requesting a callback to discuss customer rental.

Writer received a call from customer stating to want to discuss rental assistance. Writer explains that CM covered rental from 03/17/15-03/25/16 writer advises that CM will cover up to \$35.00 per day. Customer states to be unsatisfied with the lack of communication. Customer is states to be fostered and can t wait to get this over with because the dealership is around 2-3 hours away from her home. Customer is so upset the call is disconnected.

Writer contacts SA Bryan to advise that customer is on her way to pick up the vehicle. Writer advises SA that customer is upset. Writer will be touching bases with customer again on 03/26/15.

Writer received a voicemail from SA Bryan stating customer is up.

Customer is upset with CAC and maybe we can take a look into an oil SC.

Writer attempts customer at [REDACTED] leaves a voicemail stating to want to make sure that customer is satisfied with the repairs that the dealership has made. Writer apologizes for all of customer concerns.

Writer states to want to discuss an offer with customer and is requesting a callback at 800-763-8422 ext.40655. Writer will follow up on 03/31/15.

Writer attempt to contact SA Bryan leaves a voicemail advising SA that voicemail has been received. Writer states to look into a SC for customer. Writer thanks SA.

Writer wants to offer oil SC.

Writer received a call customer stating to a really bad customer service at Cerritos dodge. Customer states that the vehicle was not washed after she was told that the vehicle has been repaired and washed. Customer states that the invoice provided to her didn t have any of her concerns or what was wrong with the vehicle. Customer states that the dealership has scratched the vehicle. Customer states that SA Bryan explains to attempt to buff out the damage but customer live 70 miles away from customer home and the will be a waste of time. Writer apologizes for customer experience. Writer will like to know how the vehicle is working so far. Customer states that the vehicle is working well so far but hopes nothing happens in the future. Writer advises customer to find a Chrysler approved dealership that she feels more comfortable with. Writer will fill a complaint with the dealership for customer regarding customer concerns. Writer will do more search and see if there is a SC that can be placed on customer vehicle. Writer will follow up on 03/31/15.

Writer attempts to contact customer at [REDACTED] leaves a voicemail requesting a callback at 800-763-8422 to discuss an offer. Writer will follow up on 04/02/15.

SC that needs to be offered is ECS312N 3 years 4 per year

Writer contacts customer at [REDACTED] 5 to see how the vehicle is working. Customer states that so far the vehicle I working well. Writer will like to discuss SC with customer. Customer accepts off but will like to know what needs to happen regarding the car wash the dealership promised her and the dealership buffing out the scratches that were added. Writer explains that customer will have to work that out with the dealership because another dealership is not going to take responsible for their acts. Writer explains to fill a complaint again the dealership. Customer states that the invoice provided to her didn t have the correct information. Customer states that the day the vehicle was towed the dealership a shifter error light came on after driving the vehicle for 10 minutes but after driving the vehicle doe another half an hour the transmission error message came on and stayed on. Customer states once she got to work the vehicle will not go into park. Customer states that the vehicle would still be in motion even with the clutch in the park setting. Customer explains that the paddle will move but not register customer request. Customer states to be seeking that in the invoice.

Writer advises to document it into her case. Customer is advised that once the case is closed it will be attached to the customer VIN. Customer provided new home address. Writer explains that CM will follow up no later than 04/09/15 to make sure SC has been added. Writer is requesting a callback if there is any concern before then.

ECS312N Contract created. Contract number is [REDACTED]
Writer attempts to contact customer at [REDACTED] leaves a voicemail advising customer that SC has been added. Writer explains to be closing case but advises customer to contact dodge in the future at 800-423-6343.
Was the customer in a rental? If yes, how many days? 9 days of rental paid by CAC
Did the customer have a co-pay? If yes, how much? No
What is the RO #? [REDACTED]
Does the SM have the CAIR #? If no, provide it. Yes
Review and Confirm the DM Notes with the SM while on the phone.
Does the SM have everything needed from Customer Care to process the claim? Yes

Status update provided via email to the following email address:

My name is Brian, and I am following up on a survey that you recently completed regarding your 2014 DODGE CHARGER.

Our records show that your vehicle has not been diagnosed by a Dodge dealership recently for the concerns you are experiencing, and the dealership was unaware that you were having issues with your vehicle.

We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.

Given the many variables involved, we are unable to diagnose your

vehicle's problem via email or phone. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair.

Once you have been to a dealer to have your vehicle concerns diagnosed, if you require further assistance from Dodge, please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Dodge Customer Assistance at : 1.800.423.6343.

Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles.

Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.

Thank You,

Brian

Product - Transmission / Transaxle - Gear Selector / Linkage - Hard Shifting - Default	stuck in park, cannot shut vehicle off
--	--

Briefly summarize why the customer is contacting Chrysler: Customer is calling Chrysler due to the vehicle being stuck in park and customer cannot shut vehicle off. Customer cannot find a dealership open. Customer is wondering how to get vehicle to shut off. Writer advised customer that we are not trained for this situation. Writer attempted to contact Uconnect to see if we could shut vehicle off that way but Uconnect assistant states that only works with 2013 or newer. Writer attempted to contact dealerships and mechanic shops but could not get through. Writer went to advise customer of this and customer states he got the vehicle to shut off. Writer advised customer to call back tomorrow if he needs assistance in getting the vehicle to the dealership for a diagnosis. Customer agreed.

Briefly summarize what the customer is expecting: seeking to shut vehicle off that is stuck in park.

Writer contacted dealer DOUGLAS JEEP CHRYSLER and spoke with SA Tim who states that the customer was last there on 1/23/2015 for an oil change.

Writer thanked them for their time and ended the call.

Status update provided via email to the following email address:

My name is Brian, and I am following up on a survey that you recently completed regarding your 2013 CHRYSLER 300C. I have contacted DOUGLAS JEEP CHRYSLER, and spoken with Service advisor Tim, who has advised that the last time you were at the dealership was 1/23/2015 for an oil change, however, you have not been back since, and the dealership was unaware that you were having issues with your vehicle. We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop and improvements desired by customers.

Given the many variables involved, we are unable to diagnose your vehicle s problem via email or phone. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair.

Once you have been to a dealer to have your vehicle concerns diagnosed,

if you require further assistance from Chrysler, please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Chrysler Customer Assistance at 1.800.247.9753.

Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.

Thank You,

Brian

Product - Transmission / Transaxle - Gear Selector / Linkage - Improper Shift - Default	Vehicle has hard time shifting from park to neutral to drive
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer stated that he has owned this car for two years, and he has known that he was going to have a problem with it, but it was recently that he actually experienced the problem. He states that he is looking for some information on the electric shift in the vehicle. He states that sometimes it takes 5-6 times before the vehicle will change gears for him. He states that he has to keep punching it to get it to go in the correct gear. He states that he took it to an automatic car wash where it s towed through. He states that he had to put the vehicle in neutral to go through and after it stopped at the end he had to attempt to shift it into drive two or three times before it would actually move. He states that he was rear ended 3-4 times in the car wash and has some paint damage now, but nothing severe. He states that sometimes the vehicle will lock and he will not be able to get it in reverse. He states that once he had to mess with the vehicle for about 10 minutes in the parking lot at a store to get it into reverse. Agent contacted Tom Whiteside Auto Sales (23354) and spoke with SA Steve who would be able to get the customer in for an appointment.

Briefly summarize what the customer is expecting: Customer seeking assistance with vehicle not shifting into correct gears. Agent advised the customer that he would have to get the vehicle to the DLR for a diagnosis as we cannot diagnose his vehicle over the phone. Customer thanked Agent for all the assistance before Agent warm transferred him to the DLR for further assistance. Reassigned to SG893 for Survey By-Pass.

Recall - P60: ALTERNATOR - Advise Owner/Incomplete Recall

seeking technical assistance

Briefly summarize why the customer is contacting Chrysler: Customer was at the gas station the other day, when she was done pumping gas she got back in the vehicle and the shifter moved on the customer. Customer stated she thought she was seeing things. Customer then tried to put the shifter back in park but it wouldn't stay there. Customer's vehicle was showing an error message. Customer had the tow truck driver come get her vehicle. But they couldn't move the vehicle because of the error message that was showing. The tow truck driver decided to pull an orange cord, customer described it as something she would put business cards into. Customer's vehicle is still at the dealer. Customer said the dealer left her interior lights on all night which drained the battery. Dealer charged the battery and it's fine now. Dealer also replaced the customer alternator for the recall. Customer was looking for technical assistance. Customer doesn't think this was the cause of the recall.

Briefly summarize what the customer is expecting: Customer is looking for technical assistance.

Agent advised the customer we are not technically trained here.

Dealer - By-Pass - Default - Default - Default	vehicle turned on itself and went in gear, drove into a restaurant
Product - Transmission / Transaxle - Automatic Trans / Transaxle - Jumps Out of Gear/Park - Default	vehicle turned on itself and went in gear, drove into a restaurant
Product - Unknown - Unknown - Accident - Default	vehicle turned on itself and went in gear, drove into a restaurant
Corporate - Property Damage - Default - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer calling in stating he s had an unbelievable issue with the vehicle and would like to make Chrysler aware of what s going on. Customer states he drove the vehicle to a restaurant for breakfast tomorrow and parked it out front. Customer states halfway through the meal the vehicle rolled into the front door of the restaurant, was found running and in gear. Customer states the vehicle had been turned off, in PARK, keys in pocket, and doors locked before heading inside. Customer states the vehicle has only a small dent in the front bumper and the front door of the restaurant has some minor damage, but no one was hurt. Writer informed customer case will be documented and escalated to Special Investigations for further review, and customer will be contacted by a CM within 2-3 business days. Writer provided customer with case number if he experiences any further issues, customer understood and thanked writer for all the help.

Briefly summarize what the customer is expecting: inform CAC of vehicle accident

Hi, my name is Sandra with Chrysler Customer Care, How may I help you today?

Sandra: Hi e. How may I help you today?

██████████ Please update status re Case ██████████
Sandra: May I get you to verify your name, address, phone number and approximate mileage of the vehicle and the last eight digits of the VIN number please?

██████████ Springfield, IL
EH ██████████ 1350Miles

Sandra: Thank you for the information ██████████. Do you mind holding for a brief moment while I look into this for you?

██████████: OK

Sandra: Thank you for holding ██████████. Your file is in the correct department and a Case Manager should be in contact with you. There are no updates showing on our end but we would not see any from the other department.

Sandra: I can note the file that you chatted in with us and is expecting a callback as soon as possible.

██████████: Someone from Chrysler did contact me yesterday (by phone), asked the location of the car and that someone else would be coming to do an inspection. So am I on hold?

Sandra: The department would have that information. We would not have contact information and they will get back to you.

Sandra: I do apologize ██████████ I know it can be frustrating waiting for information.

██████████: Thanks. I ll ask who/where 'the department ' that can respond might be.

██████████ disconnected (Concluded by End-user).

Caller contacted CAC seeking an update on case.

Advised customer that case is currently being handled by another department.

Advised customer that request for contact would be noted, and that case would be forwarded to 82S for review.

Writer verified customer contact information.

Does customer s address match COIN (Y/N):

If no, customer s current address:

Customer s current phone number (Daytime): ██████████

Customer s current phone number (Evening): ██████████

Briefly summarize why the customer is contacting Chrysler:
 Customer is calling in to tell us that the Ratchet Shifter in this Chrysler 300S does not shift correctly.
 It does not want to go in park very good.
 Due to this he has had two accidents in which the vehicle is at his DLR s being repaired from his last accident due to the shifter not wanting to go/stay in park.
 He has had this car for about 7/8 months, he is leasing the vehicle, he loves the car but hates the transmission shifter.
 He wants Chrysler to take this one back and switch him over to the 2015 model which has the new shifter.
 Customer will be calling back once the vehicle is diagnosed.
 Briefly summarize what the customer is expecting:
 Expecting to be switch from this lease vehicle to a 2015.

POSTMARK DATE: 060815; DATE RECEIVED: 060815

LETTER MAILED.

Customer seeking case update.

Agent advised customer that there was a letter mailed out 06/09/2015.

Customer called upset about the decision, how it could not be a defect

when there was no one in the vehicle customer feels like it has symptoms of the N65 recall. Customer will be faxing in statements of the 2 witnesses one of which was almost struck by the vehicle, agent explained he would put the new information in the file, customer stated this is not new information she has told at least 2 people who she has talked to from Chrysler this information. Agent reviewed the information with TL and was instructed to reopen and send it back to 82S.

CAIR RE-OPENED AND FOLLOWING REASON CODE(S) REMOVED
Dealer - By-Pass

Customer states they were told if they sent in witness statements and pictures the case would be reopened and they would get a call back in regards to the new information

Customer states they are really upset, and worried the vehicle would end up popping out of park and into drive and injure another person instead of a pole they would have had a lawsuit on their hands

Customer states they will be selling the vehicle as they are worried it will happen again

Agent advised customer we are standing by the decision in the letter that was mailed out on 06/09/2015 the it s believed the incident was due to a manufacturing responsibility

Customer became upset and stated they would never buy another Dodge and would tell everyone no to buy a Dodge and disconnected

Product - Transmission / Transaxle - Automatic Trans / Transaxle - Other - Default	Shifter stuck in drive
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer states he can't start the vehicle because it's stuck in drive. Customer states that he is looking in user guide and shows to get it out of park when stuck.

Briefly summarize what the customer is expecting: Customer is seeking technical assistance.

Agent informed the customer to bring the vehicle to a DLR on Monday for a diagnosis because it's stuck in drive can damage the transmission. Agent located the pg for shifting override and stated that it instructs for stuck in park not when the vehicle is in drive. The DLR would be able to find out what caused it to do this and repair it so it doesn't happen again.

Reassign to TL SJ372 for survey by-pass no diagnosis.

Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler:

Customer stated her vehicle moved while in park on April 15 2015. The vehicle was parked and she sitting in back yard with a few friends, within 5 minutes she said that the car started and went into reverse. Fob was in her pocket, she stated again vehicle was in park, then went into reverse. Customer said she call dlr, and they said that if they could not duplicate the problem there is nothing that they can do. Customer stated dlr mentioned if there are no codes showing, and cannot reproduce this issue, the dlr would not have anything mechanical to go from. Customer says she loves this car but does not want this car, and she had two other people with her. Customer said she wants to get out of the lease, and she has Chrysler Capital, agent referred her to this dpeatment if this is possible.

Customer said she did not take Dodge into to dlr, as they said it is not worth bringing in if the dlr cannot duplicate the problem. Customer asked what Dodge Corporate is going to do for her, agent stated that it would need to go to the dlr, and problem be duplicated. Agent stated vehicle would have to throw codes, and dlr would have to duplicate the problem with the car coming out of park and going into reverse. Customer was asking agent what should she do if the dlr cannot duplicate the issue. Customer then stated she already knows that they can t. Customer stated who is above me, agent stated superior, and customer stated she is not upset with me. She said she would want to speak with my supervisor s supervisor if this is not resolved.

Agent contacted Jim SA at LUCAS CHRYSLER DODGE JEEP RAM and warm transferred customer over for appointment.

Agent referred to Patricia Miller Ram Specialist and this case would not go to SI as this sounds more like driver error, she could go through insurance company.

Briefly summarize what the customer is expecting:

Agent to contact dlr and book appointment, as well as complaint documented that on 4/15/2015 according to customer the vehicle moved unintentionally but did not cause an accident.

Survey by pass no diagnosis

Customer called stating she had some issues with her vehicle, while the vehicle was in park it had two passengers, then when the passengers got out of the vehicle, the vehicle was still in park but rolled backwards and hit another vehicle. Customer states she needs the situation investigated further and she does not feel safe driving this vehicle any longer. Customer states this is a lease vehicle and she wants out of the leased vehicle into another one. Agent advised as per previous notes that a DLR has already looked at the vehicle and nothing was found to be wrong. Agent advised that if the DLR cannot find fault with the vehicle,

there is no basis for exchanging it. Customer states she has paid about \$900 for this incident, for repairs, deductible, and insurance for both vehicles involved, along with a rental car for a week. Customer wants something further done. Agent advised that her complaint and issue have been documented. Customer states there is a police report and witnesses, it is nothing she did, it s a defect she needs it investigated further. Agent consulted TL LC779 and was advised this is an insurance case so there is nothing that CAC is able to do. Customer states she should not have to pay to get something equivalent to get out of this car, and doesn t want to go to the DLR and have them tell her she has to pay for things. Customer requested agent to call DLR and force them to give her a different vehicle. Agent advised that is not possible. Customer disconnected vehicle.

Briefly summarize why the customer is contacting Chrysler: Customer is contacting Chrysler because she is experiencing problems with the vehicle. Customer states that she has unresolved concerns with the vehicle. Customer states that she has been experiencing problems with the Bluetooth in the vehicle, the engine making a loud noise while in park, and the vehicle shifting into reverse/neutral. Customer states that she has been advised by the dealership to contact Chrysler. Customer states that she brings the vehicle into the dealership, they state that they resolve the concerns but the concerns are still present. Customer states that she has not been to the dealership in 1-2 months. Agent advised customer that the vehicle would need to be diagnosed. Agent advised customer that Chrysler cannot go off a diagnostic that was done 1-2 months ago. Agent did recommend customer contact back once the vehicle has been diagnosed and is at the dealership. Customer understood.

Product - Drivability - Unknown - Other - Default	vehicle stuck in drive and rolling
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler:

Customer called in stating that the vehicle was stuck in drive and that she had to keep her foot on the brake pedal to prevent the vehicle from rolling. Agent advised customer to put the emergency brake on to prevent rolling. Agent then advised that vehicle would need to be diagnosed by a dlr and attempted to transfer to roadside for towing assistance. Agent was unable to get through and provided customer with roadside assistance number: 1-800-521-2779.

Briefly summarize what the customer is expecting:

Technical assistance.

Reassigned to TL for survey by-pass (no diagnosis - possible transmission concerns)

Customer called in and stated that their vehicle was stuck in drive still. Customer inquired as to where the killswitch was. Agent informed customer that there was not a killswitch, and we couldn't shut down the vehicle remotely. Agent read lines 7-8 and asked if roadside was on the way. Customer said they didn't know and to attempt getting in contact with them. Agent attempted, but customer hung up while on hold. Vehicle is at the dealership - DEMONTROND AUTO COUNTRY (44231)

Product - Electrical - Unknown - Intermittent or Inoperative - Default	customer believes electrical problems cause of collision.
--	---

Briefly summarize why the customer is contacting Chrysler: Customer is calling because she has been having electrical problems with the vehicle and believes it is the cause of her collision. Customer states that she had issues with her headlights flashing and has since had this fixed. Customer states in August, she parked her vehicle at the mall, got out and looked back and the vehicle was rolling back a little and sling shot forward over the curb and hit the tree in the island of the parking lot. Customer states no one was in the vehicle. Customer states she shut the vehicle off like normal and could feel the vehicle shut down, but it didn't ding like it usually does, indicating the car had shut off. Customer states that her vehicle has had the updates done on her vehicle but they were not done correctly. Customer states that after having the recalls completed that were related to electrical concerns, her vehicle has been providing her with incorrect information. Customer states that the vehicle was indicating the rear driver's side tire was flat, so she got out and checked it and it was fine. Customer states something in her gut told her to check the front driver's side tire, and it had 5lbs of air pressure. Customer states that AAA advised her to go to Kenisels (Collision repair shop). Customer states she went there and had to have the bumper, bumper cover, grill and undercarriage repaired. Customer states that AAA has now cancelled her policy and she needs a new one, but the insurance will now be high because of this collision. Customer states her son was in an accident in the past, and knows that her insurance will be affected by this, but this particular incident, she had no control over. Customer states that AAA is asking for proof of her electrical concerns. Agent asked customer if when she got in the vehicle after it hit the tree, if she knew whether the vehicle was in park or not. Customer states with everything going on she cannot remember, but when she got in she put it in reverse to back off of the tree and get off of the island.

Briefly summarize what the customer is expecting: assistance with lowering insurance. Customer seeking proof that the vehicle's electrical problems are the cause of her collision.

Agent contacted the collision repair shop Kenisels to see if they could give any information relating to the incident in regards to electrical issues. Anna from Kenisels was able to bring up the repair but there were no notes in regards to anything electrical. Anna states that the front bumper, bumper panel, grill and fender panel were what was repaired. Agent thanked Anna. Kenisels : 916-419-8918.

Agent then contacted DLR 42947 AUTONATION CHRYSLER DODGE JEEP as they were the DLR that did the flash updates. Agent was unable to reach SA Don who was the personnel that dealt with the customer's vehicle. Agent was attempting to find out if there was any way that the electrical problems she was having in the past could possibly cause this. Agent was unable

to get the information.

Agent advised customer of her attempts and apologized for the non-response. Customer thanked agent for trying. Agent suggested to customer to get video from the mall if they have one to show what happened with the vehicle as well as getting any documentation from her dealerships/collision repair shop that will support her claim with her insurance. Customer thanked agent for the suggestion, and states she will try and get any documentation that will support her.

Customer states that she received a 150.00 coupon from Mopar and it is illegible. Customer inquiring about getting a new one and offered to send that one in in replacement. Agent advised that the agent will have to speak with superior to send an email and that the agent will call her and let her know how to get a new one. Agent advised customer that the agent will keep her case open and when she calls the customer with the coupon information, we can possibly go over the documentation from the DLRs and see if any of that will support her concern with her insurance. Customer thanked agent. Call end.

***** EMAIL BRIEF DESCRIPTION CONTENT *****

It started and moved, by itself!!

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

***** CUSTOMER EMAIL *****

This past Friday night my car started (this was witnessed by the man who s car was hit) and moved by itself. It bumped into another car and was trying to move some more, but thankfully, some guys saw that no one was in the moving car and pushed the car to hold it in place while another man ran and found me in the store. My insurance has taken care of the other car and my car isn't damaged too bad but my concern is that, while I know this car can start on it's own by remote (which I didn't use that night) it is not supposed to move anywhere on it's own! My wife and I spoke to Mr. Dave De Rudder, Service Manager at Freedom, Saturday. He suggested that we contact Chrysler and keep the emergency brakes on while in park. Please contact me via cell or email.

Agent contacted DLR 44600 at 915-779-0100. Agent was not able to leave a voice mail with the Service Advisor due to his voice mail box is full.

Agent will reach out to SA again on 08/06.

Agent contacted DLR 44600 at 915-779-0100. Agent spoke to Service Advisor Fernie who advised agent that there were 3 concerns

1- Wind noise coming from windshield

2- Vehicle moves forward while in park

3- Radio was freezing and would not allow any functions to work on the screen.

SA advised agent that the tech was not able to duplicate the customer s 2nd concern. SA stated that the tech resealed the customer s windshield and a Radio has been ordered Part# 28209670AD Order# 140070. SA advised that the customer is currently located in a loaner vehicle and the customer s vehicle is drive able and needs to return the loaner vehicle by 08/07. Agent will contact the customer to provide the update. Current mileage is 11751.

CONTACT UPDATE - Customer was contacted today at 4:32.

Customer was provided with agent s extension: 40695.

Agent contacted the customer at [REDACTED]. Agent was not able to reach the customer. Agent was attempting to advise the customer of lines 49-54. Agent was also going to advise that the ETA for the radio is set for 08/17/15.

Looked in GPOP for Part# 28209670AD Order# 140070 no information available as it is an exchange unit.

Agent contacted DLR 44600 at 915-779-0100. Agent spoke to Service Advisor Fernie who advised agent that the part has just arrived at the DLR. SA requested that agent contact the customer to advise that the customer can take the vehicle to the DLR on 08/18 at 9 AM to have the radio repair completed.

Agent contacted the customer at [REDACTED]. Agent advised the customer that the part for the radio has arrived and that the customer can take the vehicle to the DLR on 08/18 at 9 AM. Customer advised that is fine and requested agent to seek another DLR that can perform a diagnosis for the customer s concern with the vehicle rolling back while at an incline. Agent advised of a follow up for 08/18.

DICK POE DODGE LP

Dealer Phone : 915-779-0100

Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40590 The reason for the dealer contact was to provide or request the following information: to see if vehicle

Agent contacted the customer at [REDACTED] Customer stated he was unable to take vehicle in Agent stated case would be closed untill there was a diagnosis

Submitted for bypass

CLOSED LOOP UPDATE - no need for additional follow-up.

***** EMAIL BRIEF DESCRIPTION CONTENT *****

gear shift knob,chrysler 300 2014

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

I HAD a new 2014 Chrysler 300 with less than 8000 miles on it. It has the gear shift that goes back to a neutral position. The problem is that it doesn't need you to hold the button to shift gears, my purse bumps it, my coffee cup, my passenger changing stations. It will go from drive to low. I put it in park, reach over to get my purse and tap it and I am in neutral. Today driving home on the freeway, it went from drive to low and I don't recall myself or passenger bumping it. I went for a drive, and put my car in park while I grabbed my binoculars to look at a Heron and was watching this bird when my car rolled into the river. I had stepped out for about 2 minutes and it was still running since this was not my ultimate destination. It was submerged for about 2 hours before they could pull it out. It is a mess. Why have it like that. Why not stay with the old gear shift that had its own slot. And the 200 is even worse. I had one last week while my 300 was in shop getting a new electrical part. that knob that looks like a radio volume control, is a disaster waiting to happen. I was planning on sending in a complaint/suggestion this week to you about the gear shift knob, but I guess that I am too late.

***** EMAIL BRIEF DESCRIPTION CONTENT *****

I BELIEVE MY CHRYSLER 300S (2014 was HACKED!!

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

*****Begin structured narrative T2 - Beginning Narrative

Briefly summarize why the customer is contacting Chrysler:

Briefly summarize what the customer is expecting:

*****End structured narrative T2 - Beginning Narrative

May 3 2015, my 300S was locked and parked in the lot of a local restaurant. While I was inside, seated, drinking coffee and awaiting my breakfast, my car started, went into gear and CRASHED INTO THE ENTRY DOOR OF THE RESTAURANT. Eyewitnesses reported to the investigating police officer that I had been seated in the dining room as the driverless car hit the building. I contacted Chrysler (Customer Care 1 800 247 9743 @2:40 pm and was given Case [REDACTED] by Nate) At 9:05 am, (5-8-2015) Charles Fischer, representing Chrysler, met me at Landmark Chrysler, Springfield, and ran my car thru tests for over 90 minutes. The results of his investigation were apparently reported to Lisa Martinez, Special Investigations, Chrysler Group, Auburn Hills, MI whose position was ' we are not led to believe that the incident was due to a manufacturing responsibility. Therefore, we respectfully decline any assistance associated with this incident.' (5-13-2015) Repair bills were in excess of \$2000. Now, in the wake of recent discoveries that U-Connect software installed in certain Jeeps and Chryslers causing MANY recalls, claims of fraud and neglect, I asked that my case be reopened and that HACKING be strongly considered as an explanation for my car being unlocked, started, put into gear and moving without a driver. Chryslers Customer Care denial of my request (via 800 number, 8-4-2015) claimed that my' 2014 Chrysler did NOT have the U-Connect option that allows hackingonly later models were so equipped' So I am expected to believe and trust that hackers will access only U-Connect Software post 2014 ?? Can Chrysler limit the boundaries of hackers ?? I do not feel I am being treated honestly or fairly in my case !!

Dear [REDACTED]

Thank you for contacting the Dodge Customer Assistance Center.

We are very sorry to learn of the issues you have had with your vehicle.

Your email has been reviewed and has been forwarded to a more appropriate area for their attention and response.

One of our Case Managers will contact you by phone within approximately one business day addressing your issue.

This referral action will provide the best opportunity for your request.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-4A-DODGE (1-800-423-6343).

Sincerely,

Athena

Customer Service Representative

Dodge Customer Assistance Center

*****END OF CAC EMAIL*****

Reassigned to 82S as per cair [REDACTED] as this is the same issue as listed in [REDACTED]

This issue has already been addressed on Cair 2 [REDACTED]. We are not reopening the investigation. Please review AC24704, this vehicle is not in the population of vehicles involved in Recall R40.

Dear [REDACTED]

Thank you for your patience.

We have reviewed your file and your request.

Regrettably the file will not be reopened. It is impossible for the hacking issue you have mentioned to be involved with your file.

The hack would only work with a very specific type of uConnect radio.

Your vehicle did not have the venerable radio and therefore was never accessible to hackers.

Please let us know if there is any other information you feel we should have.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-4A-DODGE (1-800-423-6343).

Sincerely,

Athena

***** EMAIL BRIEF DESCRIPTION CONTENT *****

2014 300

***** END EMAIL BRIEF DESCRIPTION CONTENT *****

To whom it may concern, I bought a new Chrysler 300 on 22 Apr 15. It was a 2014 model. It was equipped with a slap shift gear shift. Every car that I have ever owned, you had to push the button in to shift gears and it tracked along a shift tree. The slap shift in my car, you did not need to push the button in. A little tap and it would change gears. And when reversing or parking. You had to pay careful attention that it did not slide back into the neutral position. On 4 May, I began an 8 week training class at work and my hours were such that by the time I got home, the service dept was closed. For a two week period, I had a hearing problem and so one of the people in my car pool drove my car and they loved everything about it but the shifting. On 4 Aug, I was driving down a road at the bird refuge to do some bird watching. I had not yet come to the point where I normally stop when I saw a Heron and pulled over. My car was still running and I put it in park and reached over to get my binoculars. I must have bumped the shifter when I did this. I got out of my car and was watching this magnificent bird when I heard tires crunching and I looked to see if a car was approaching since I was standing in the road, but it was my car going down the road. The car drifted to the right and went over the bank into the river. My car was a total loss. My brothers were teasing me mercilessly so I did some research on line. On youtube, I typed in Chrysler 300 slap stick and up came a video on how to use it. The comments below from owners and those who had rented one, were all negative, with many experiencing the same problems. I typed the same thing into the search engine and got many web sites where others reported similar problems. I had plans to take it in to the service dept on Saturday, but I totaled it on Tuesday. I believe that it is a disaster waiting to happen, roll out of driveway and hit someone, change gears in bad weather and lose control. Needless to say, I did not replace it with another 300.

Utah

Product - Unknown - Unknown - Accident - Default	

Briefly summarize why the customer is contacting Chrysler:

Customer states that he has had the vehicle in the shop three times as the vehicle surges forward and sometimes it down shifts when only going about 5 or 10 miles an hour. Customer states that yesterday when his wife was driving the vehicle she pulled into parking spot in a shopping center and had the vehicle in park. She got out of the vehicle to get her purse out of the trunk and the vehicle surged forward and hit the vehicle in front of her. The customer went to grab for their vehicle and it pulled her down scrapping up her arms and legs. Customer states that there was no damage to the vehicle that was hit; however, the front grill is damaged on their vehicle.

Customer also states that the other day both key FOBs were in the house and the vehicle was locked and they went outside and were able to push the trunk button to open it. Customer feels that this should not be happening with the vehicle.

Briefly summarize what the customer is expecting: Customer seeking to have vehicle repaired.

What happened?: Customer states that yesterday (09/15/2015) when his wife was driving the vehicle she pulled into parking spot in a shopping center and had the vehicle in park. She got out of the vehicle to get her purse out of the trunk and the vehicle surged forward and hit the vehicle in front of her. The customer went to grab for their vehicle and it pulled her down scrapping up her arms and legs. Customer states that there was no damage to the vehicle that was hit; however, the front grill is damaged on their vehicle.

9/24/15 UPDATED CCRG FILE & CASE MANAGER. PAG

****FILE RETURNED TO SI FOR RESOLUTION***

9/29 Dictated denial letter.

Customer is calling asking for an update on her case. Agent advised customer that her case was in the correct department and she would be contacted back

POSTMARK DATE: 092915; DATE RECEIVED: 092915

9/30 Letter mailed and emailed to the email address listed on file.

Customer is seeking an update on his case. Agent advised customer there has been a letter mailed as of 9/30/2015. Customer feels that isn't good enough and is seeking contact via phone. Agent advised customer there would be notes left for contact at [REDACTED] however agent made no promises.

SA George Wood from the dealership called to see why he has not heard from the CM to see what is happening with the vehicle. SA explained that the vehicle was inspected but has not heard anything at this time. SA George has also sent digital imaging in to Chrysler. SA explained the customer's wife is in the hospital at this time and has been in the hospital for a week. SA George Wood direct line is 757-825-7253

Customer called in seeking to talk with his CM

Customer called in stating LMM14 has not called them back yet and they have called multiple times and can't leave a VM as their VM box is full.

Customer states the state attorney's general office contacted them.

Customer states they have to call the state attorney's general office on Thursday. Agent advised customer that we will leave their comments on file. Customer is also requesting LMM14 to call them back.

Customer stated he has been calling LMM14 and has not been able to reach the CM and the VM is full. Customer stated he would like to speak to someone about this issue. Customer stated he is very upset about this situation. Writer advised the case is in the right escalated department for this concern. Writer advised a request for his CM to contact him back has been made.

Customer states his CM never returns his call.

He was looking for a mailing address so that he could file for Lemon Law.

Agent provided customer with the mailing address as per Answer ID 17780

11/18 Received letter from Attorney General Office, CCRG will respond.

SA George of POMOCO CHRYSLER DODGE JEEP RAM OF 39132 called to find out who was paying for the customer's rental. He has called before and no one will get back to him. Someone from Chrysler came to look at car and informed DLR to put customer in a rental. Agent checked with a TL and he needs to reach out to his AM.

Recall Inquiry

Customer is calling to see if there was a recall for the shifter.
 Customer states he stepped out of his vehicle while it was in park
 however, the vehicle shifted gears and drove over a hill. Customer states
 this was not the first time the vehicle had issues with the shifter.
 Agent advised customer there was no recall on the vehicle pertaining to
 the shifter. Advised customer given the recall was not on the vehicle
 there was nothing more we could do. Agent transferred customer to CAC for
 possible assistance.

Product - Transmission / Transaxle - Automatic Trans / Transaxle - Improper Shift - Default	won't go into park
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why customer is contacting Chrysler: car with some problems, DLR says it s fixed but it broke down again. Goes into limp mode, down to 35mph.
Towed in 2 weeks ago. 2013 Charger with 56000 miles.
Has a lifetime warranty on powertrain when he bought it but nothing for electrical.
The air bag light was on because some wires were disconnected under the passenger seat.
Right rear wheel sensor was out part had to be ordered.
He does not want to keep put money out for a job not done correctly by DLR.
Customer is a diesel mechanic. Customer states, at agent s request, the sensor tells the transmission how fast the car is moving, and what gear to have transmission in. It can also disable it as it has done now.
Agent advised if this is powertrain related it would be covered by warranty.
Briefly summarize what the customer is expecting: If customer gets towed there, will he have to pay for it again. They did not fix the wheel sensor, and the car won t move. He was told it was ok to drive it.
SA David reads speed and distributes correct ABS breaking. It does not have anything to do with transmission.
Agent advised customer there is something else going on and it needs to be left long enough to be diagnosed.
Customer said he does not want to keep putting money out for a new car.
Customer called in inquiring about a rental. Agent advised that the DLR was closed and that he can call back tomorrow to see if we can get the DLR to provide rental until they can fix the vehicle.

Briefly summarize why the customer is contacting Chrysler: Customer states he has a car that broke down twice in a row.
States he has had the vehicle towed twice.
Feels the problem should have been fixed the first time.
States he has been advised that it can take a week.
States he needs a rental vehicle for his wife.

Briefly summarize what the customer is expecting: Seeks a rental vehicle.

Agent inquired about a diagnosis.
Customer states he has one.
Agent advised of the recall on the vehicle.
Agent advised she will need to contact the DLR to verify the diagnosis and inquire about a rental vehicle for him.

Agent contacted HOOVER DC: 68793 at 843-873-1114

Purpose is to establish diagnosis and inquire if DLR will put customer in a rental under D-15-15.

Agent spoke with SA David who advised there is a lot of flooding in SC. SA David states they cannot put customer in a rental as no one has any rentals in a 50M radius, not the DLRs or Enterprise/Hertz or any independent car rental facility.

SA David states they are under a state of emergency and they have 40 flood cars in shop right now and the rental companies have nothing left due to providing cars to flood victims.

Confirmed diagnosis is the vehicle needs a shifter.

Agent reiterated to customer that there are no rentals available by any dealership or rental car companies due to the states of emergency of flooding in the area.

Customer states he is thinking twice about buying another DODGE

Product - Body / Trim / Paint Finish - Paint Finish - Other - Unknown	bubbling
Product - Electrical - Lamps and Switches - Other - Default	
Product - Transmission / Transaxle - Unknown - Seizes, Sticks, Binds - Default	

Briefly summarize why the customer is contacting Chrysler: Customer calling because she is having several issues with her vehicle. She has had her vehicle to the DLR twice for repairs on Shifter as the first time she was unable to put the vehicle in park as well as it getting stuck in drive. Customer states she had to have the light replaced 6 days ago and when it was replaced the DLR didn't tighten the screws the correct way. Customer also states that the paint on her vehicle is bubbling all over the place and she wants to know what her options are. Customer states she loves her vehicle.

Briefly summarize what the customer is expecting: Customer expecting to be told what her options are. Agent advised that if we are able to assist at all we would need DLR diagnosis and that we would also need pictures of the paint bubbling so that we can better determine if it is a Manufacturing defect. Customer states she will be getting the car to the DLR in the next couple days for diagnosis.

Customer called in seeking information on possible future recall Reimbursement for the headlights Agent advised the customer to keep all receipts in case of a possible recall.

Briefly summarize why the customer is contacting Chrysler: Customer called in stating they brought their vehicle to the DLR. The customer stated that the vehicle had stalled and the vehicle would not shift. The vehicle was towed to the DLR on October 10th. Customer states that the vehicle has not been diagnosed. The customer has asked for a rental. The customer was supposed to get a rental and has not received one yet. The customer states that an original diagnosis was done and the reason was driver error. The DLR test drove the vehicle and the same error appeared.
Agent contacted the DLR and nobody would reply at the DLR. Agent contacted GM Rob. Rob transferred the customer to SD Jim Pate. Jim states that the vehicle was stuck in drive and brought to the DLR. The DLR states it seems to be excessive paddle shifting. Agent asked the SD about a rental vehicle. The SD states he is going to look into it and contact the customer tomorrow
Briefly summarize what the customer is expecting: Customer seeking diagnosis and a rental.
Agent Advised: Agent informed the customer that the DLR will not respond.
Customer called in because she is at the DLR and is seeking a loaner vehicle but her SA is not at the DLR right now.
Agent spoke to a SA Ron at the DLR who stated they do not have loaners available at the moment.
Agent advised Customer that she will need to speak to her CM.
Agent transferred Customer to CM line.
Customer is looking to receive a call back from their CM. Agent attempted to call CM but CM was not available. Agent left the appropriate information on the answering machine (name, case number, phone number, request for call back). Call ended.
Was the customer in a rental? If yes, how many days? No
Did the customer have a co-pay? If yes, how much? No
What is the RO #? [REDACTED]
Does the SM have the CAIR #? If no, provide it. Yes
Review and Confirm the DM Notes with the SM while on the phone.
Does the SM have everything needed from Customer Care to process the claim?
Agent spoke to SA Reno states vehicle was pick up 10/27/2015 customer didn't need a loaner or rental because they couldn't duplicate the concern.
Agent spoke to customer. Agent states 99-101 but will like to give customer some days to run the vehicle see if anything comes back will follow up 11/4/2015 if vehicle need to go back to the DLR and need a loaner or rental will give a call to DLR.
Agent attempted to contact customer, however, customer was not available.
Left message for a return call at extension 40799. The reason for the customer contact was to provide or request the following information:
Agent states was calling to see how everything is working if agent doesn't hear from customer case will close. Agent will follow up 11/5/2015.
Customer [REDACTED] called to speak to CM LT872. Writer advised caller

that CM LT872 is not currently available. Writer transferred caller to CM LT872 s VM.

Status update provided via email to the following email address:

LT872@chrysler.com,JA1279@chrysler.com,cb903@chrysler.com

The reason for the dealer contact was to provide or request the following information: calling for update.

Agent spoke to SA Ron states order part yesterday and just got to the DLR will take 1 day for vehicle to be repair.

Transmission shifter part# 68140727AD.

Break center part# 1WB67DX9BC

Shifter part# 1W21DX9AA

Agent spoke to customer states has spoken to SA. Agent states will follow up 12/7/2015 to see how the vehicle is running.

Begin Customer Message reviewed:

Dear Lety

I have not received my vehicle as of 12/6/15. I am getting very disturb because it s going into the second month of paying car note and I yet still don t have my vehicle. I am still having some concerns of the safety of myself and my grand kids because this issue seem to be unresolvable. I will like to speak with you are your supervisor about the possibility of buying back this vehicle this is like the 4th or 5th time this problem has occurred. Let me give you an example if I m turning onto an interception and this problem occur (car stall won t go forward or into any gear or cut off) and traffic appears from both ways there is a possibility I could be hit I m starting to be afraid for my life driving this vehicle not knowing when or if this reoccurring problem may reoccur.

Very concern

End of Reviewed Customer message

Product - Transmission / Transaxle - Gear Selector / Linkage - Jumps Out of Gear/Park - Default	

Briefly summarize why the customer is contacting Chrysler: Customer calling regarding vehicle had 'jumped out of park, and ran me over'. Customer stated was just going to get her mail, had put it in park, and it jumped into reverse on its own. Customer stated that vehicle had backed into fence, in which someone had moved it off the fence at this time. Customer stated did go to the hospital for her injuries. Briefly summarize what the customer is expecting: Case opened regarding accident.

Agent informed customer that I would be sending it up to special investigations and they would be in touch with her within 3-5 business days. Customer concerned over having no vehicle. Customer asking if she could rent a vehicle, if it would be paid for. Agent advised customer to keep all receipts for possible reimbursement.

CAIR NUMBER E-MAIL SENT TO EAA 11-13-2015 08:00

Customer called for a case update. Customer states that she needs a car because she is afraid to drive hers because it went into reverse and ran over her. Agent advised that the case is being handled and she will be contacted to set up an inspection. Customer states that there are

thousands of people that can do the inspection, and she wants it done today. Agent advised that it has to be done by a Chrysler-approved inspector/investigator, and they will call her asap to set up the inspection, but it may take a few business days, as she was previously advised it can take 3-5 business days and it has only been 1. Agent advised she can request rental from the CM when they call. customer wanted to know if rental can be set up since she was told not to drive the vehicle .

Agent advised that customer can set up rental and send in for reimbursement

Agent provided a few phone numbers to rental car companies

CCRG Open Date: 11/12/2015 13:15:44

Customer is contacting Chrysler because she is without a vehicle and hasn't heard back from Chrysler. Agent advised customer of lines 46-49.

Agent also stated SI should be in contact by Wednesday night. Customer states she has broken ribs and wants to know if there is another department that works with the medical aspect. Agent informed customer case is in the right department and if she doesn't hear by Wednesday night to contact us and we can look further into this.

CAIR NUMBER E-MAIL SENT TO EAA 11-23-2015 11:11

Agent called over to Murrays body shop estimate has been given and they are waiting for the technician to come and look at the vehicle, Murrays body shop is closed Thursday and Friday. Agent advised that the inspector has been notified but that it may not be until after the holidays. customer was ok with that and asked about the rental that he was in. Agent advised that after the inspection is done we can look at possible reimbursement for his rental. Customer thanked agent and understood and was thank full for agent to tell him truth.

CCRG Open Date: 11/23/2015 09:32:13

Briefly summarize why the customer is contacting Chrysler: Customer, Larry states he had to pay out of pocket for the rental. Customer states that the car is being repaired by used parts. The customer doesn t want used parts in his vehicle. The customer states he takes good care of his car. The customer states the dashboard went dark, then the problem went to the radio, then the ignition switch and now it s in the transmission. The customer states there are electrical issues and are cascading through the car going from module to module and are causing the car to go crazy. Customer don t want vehicle back because it almost killed him. Customer can hardly move his arm and is under doctor s care.

Customer is seeking to have the CM to contact him with updates and to have the rental reimbursed. Customer wants to know what Chrysler is

willing to do for him.

Agent advised: the customer that our engineers and inspectors are assigned to investigate and we take these kinds of matters very seriously and making a thorough investigation. The inspection needs to have a report done and the CM will contact the customer as soon as possible.

Agent reassured the customer that everything is being taken care of by Chryslers.

Summarize Customer concern:

When I brought it in, could not shift into park. Was fixed but now I can t just shift lever from drive to park, it goes up to neutral or reverse and I have to push again to get to Park. Haven t had chance to bring in yet, but a nuisance to saw the least or potentially dangerous when I think it s in park and go to get out of car and it s in reverse. Love my 300 but I much preferred shifter I had in my 2011 Charger R/T.

6 months or so after i owned the car. Drove into my driveway to park car and could not get it into park. So I was not able to shut car off. I drove to dealership, put the emergency break on car with car running in drive and the dealer was at least able to show me a way to get car in park until I was able to bring back next day to have a replacement part put in car.

Reassigned to:

DEALERSHIP CONTACT: PARK CHRYSLER JEEP at 952-890-5337 Spoke with SA Nick who states the customer was last at the dealership on 8/7/2014 for electronic shift module replacement. Agent thanked SA Nick for his assistance.

Status update provided via email to the following email address:

My name is Linda, and I am following up on a survey that you recently completed regarding your 2014 CHRYSLER 300S AWD FOUR DOOR SEDAN. I have contacted PARK CHRYSLER JEEP, and spoken with Service Advisor Nick, who has advised that the last time you were at the dealership was 8/7/2014 to have the electronic control module replaced, however, you have not been back since, and the dealership was not aware that you were

having issues with your vehicle.

We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop as well as improvements desired by customers.

Given the many variables involved, we are unable to diagnose your vehicle's problem via email or phone. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair.

Once you have been to a dealer to have your vehicle concerns diagnosed, if you require further assistance from Chrysler, please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Chrysler Customer Assistance at 1-800-247-9753.

Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles.

Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced.

Thank You,

Linda

Vehicle will not shut down

Briefly summarize why the customer is contacting Chrysler:

Vehicle Malfunction: "AFeature"

Briefly summarize what the customer is expecting:

Repair Assistance

#

Customer is having an issue with "Ignition system", and is contacting USCAC for information on possible causes. The customer states that the vehicle has not been to a Dealership as yet.

The Vehicle will not shift out of drive, nor shut down.

#

Agent assisted with shifting vehicle into Park, but could not get vehicle shut down.

Agent advised that the first step in any repair process is to have the vehicle diagnosed. Agent offered to connect the customer with their preferred/local dealership to facilitate said diagnostic process. The customer declined, as Roadside was already on the way.

Automotive journalist for Edmunds.com notified the FCA Public Relations dept of a Cst email she received alleging of an accident. Public Relation forwarded the allegation to Top Care. Per AC 18819 case assigned to 82S for review and action as fit

COIN Updated & CAIR reassigned to 82S

LOCATION OF VEHICLE - Was taken to Sterling Heights Dodge (59655) after the incident on 12/1/15.

What happened?: Customer states

It s I got in an accident on December 1st. My 2014 Chrysler 300 was parked behind my work and I was pulling out of my parking spot and after backing out a bit I put my car into park and got out to see if I could clear the dumpster. As I got out my car began to roll forward. This caused my door to hit the dumpster closing my neck and leg in the door jam. My car bounced off the SUV in front of me into the car behind me. I was able to get my leg and head back in the car in order to try and put it into park. After 4 total attempts I was able to get my car to stay in park. I went to the hospital and my car was towed to Sterling Heights Dodge Chrysler Jeep and Ram dealership to get looked at. The service manager told me they completed the software update for the transmission and everything should be fine now. I have a 500 dollar deductible and an estimate of the total damages is \$2200. I have received no information about what exactly was wrong with my car or if it is safe to drive, and I am unsure of what the next step to take is. I was wondering if you could lead me in the right direction.

Any thoughts would be appreciated. Many thanks! anita

Sincerely,

Date of Incident? 12/1/15

End of Status Update

CM will contact customer on 2/23/2016 to go over options and threw further review and research scene the paint and dents wasn't made by a car defect it was declined due to the issue and will fall on customer responsibility to have the repairs completed

CM contacted Satline and was unable to find an Alan in the DLR and was told there is no employee there by that name

Customer called for supervisor Writer was able to get supervisor JB1846. Writer warm transferred call to supervisor's ext. WA called to make sure that the rental was noted in the DM notes. Writer checked and it was noted so they can submit it as usual. WA thanked writer and disconnected CM reviewed notes and will contact WA and to go over what has happened CM was trying to get a hold of an Alan Leasure in the collision center and wasn't able to

CM was given voicemail to where CM left a message for the Collision center to give a call back at 40592 for a customer issue update and to go over the issues at hand

Writer spoke to Alan at Keefer (bodyshop) DI denied repair Alan stated the damage is under the bumper which would lead to believe it is from going thru dips to fast and scratching the bottom of bumper then there was a scratch on right fender customer would need to go thru insurance company

Status update provided via email to the following email address:

[REDACTED]
Hello Mrs. [REDACTED] I spoke to Alan at Keefer. Our warranty group denied this claim because it is not a manufacture defect. You can file a claim with your insurance maybe better able to help with this issue at this point I will close your case if need be we can reopen or open case again your notes are permanent please call 1- 800 CHRYSLER

PLF received the following email from the customer

From: [REDACTED]
Sent: Tuesday, February 09, 2016 5:07 PM
To: Szuber Pamela (FCA)
Subject: Re: Dodge Charger complaints
Good Afternoon Ms. Szuber,

I am writing you regarding my 2012 Charger again, regrettably, as I am still experiencing issues with the vehicle. Some of the problems the dealership was able to address last summer and some remain open. The shifter problem I reported is still evident. It didn't leave the car in park, but jumped into reverse last week and caused a dent to my right rear quarter panel. First dent ever in 35 years of driving! Something that should not have happened if the issue would have been corrected last summer. I started using the A/C again last week and is still smells musty, -still an issue. Overall I still believe I got stuck with a car that escaped quality checks and leaves me an unhappy customer. Sincerely,

021016 due to nature of customers complaint/claim regarding body damage, reassigning CAIR to SI for handling of transmission complaint/claim. Once SI handling is concluded, writer will address A/C complaint with customer tmt

Mr. [REDACTED]
Your email complaint has been referred to me by Ms. Szuber for handling. Due to the nature of your claim of the transmission and damage to your vehicle, the claim has been forwarded to our Special Investigations unit for handling of this complaint. Can you please reply to let me know where your vehicle is located, the best phone number to reach you, as well as the current mileage? Once we have this information, I can arrange to have the vehicle inspected. Once this investigation is completed, I will be back in contact with you to address your A/C complaint. _

Unfortunately, I don't have any dates to offer for our Technical Advisor for the next few weeks.

In order for us to address your complaint of the A/C having a musty smell in a timely manner, I will have Jack Powell contact you to arrange for an appointment to inspect your vehicle. Should they require technical assistance, we can have our Technical Advisor consult with them via telephone.

Please keep in mind that your vehicle is out of its 3/36 warranty, so the dealer will require you to authorize an estimate to inspect and diagnose your concern. Once diagnosed, the dealer can contact me back on your behalf, and I can review for possible out of warranty assistance.

Thank you,

Tina Dietrich

Product - Transmission / Transaxle - Automatic Trans / Transaxle - Seizes, Sticks, Binds - Default	Car wouldn't shift out of drive.
Corporate - Survey By-Pass - No Diagnosis - Default - Default	

Briefly summarize why the customer is contacting Chrysler: Customer is experiencing his shifter locking into Drive and unable to place the vehicle in Park. Customer is unable to have the ebrake stay engaged while the vehicle is in drive. Customer tried to contact DLR but was told soonest appointment was 2 weeks out.

Briefly summarize what the customer is expecting: Help getting an appointment sooner.

Agent tried to contact a different DLR in the area, but DLR was closed. Agent gave customer the number of the 2 next DLRs in his area based off distance, and advised customer calls them in the morning and checking what the appointment time is. If customer is unable to get a close timeframe, agent advised customer call back into CAC and see if we are able to assist him. Vehicle is still covered under the powertrain warranty for this issue.

Reassigned to TL JL1476 for survey bypass. no diagnosis, vehicle under warranty for powertrain.

Customer contacted Chrysler stating that he is unable to get his vehicle out of drive mode and feels very unsafe to drive the vehicle. Customer states that all of the DLR have been booked until March for a diagnosis. Agent contacted * 26999* to set up an appointment for diagnosis today 2/13/2016.

Briefly summarize why the customer is contacting Chrysler: To report accident.

Briefly summarize what the customer is expecting: Noted.

Customer called to advise her vehicle has rolled down her driveway on 2 occasions. The first time in 03/2015 and 02/23/2016.

She states she had gone to a friends home and parked in their driveway and the e-brake was set, as the driveway is on a bit of a incline. this was at 7:30 pm.

When she woke up in the morning she noticed her vehicle had rolled into the other vehicle further down the driveway. Damage to her vehicle is the Drivers side front. The damage to the other vehicle is drivers side. She states her vehicle turned a bit and made contact while rolling and there is damage down the drivers side of other vehicle.

She feels the vehicle has a defect and took it to DLR 37058, Please refer to Star case

CHAT ID: Hi, my name is Cheryl. How may I help you?

Cheryl: Good morning, [REDACTED].

[REDACTED]: I had quite a problem last night. The shifter on my 2012 Chrysler 300 locked in drive and I could not turn off the car. After the service dept. at the dealership is closed, there is no 24 hour number to call as to what to do.

Cheryl: Oh, no! I am so sorry to hear this happened to you.

[REDACTED]: I got the car back to te house and had to let it run until the gas ran out because there was no one to call

Cheryl: Wow, that s not a fun thing. Did you try unhooking the battery? That should have shut off the car.

[REDACTED]: I was not sure if that was such a good idea because of all the electronics

Cheryl: I m not sure either, truthfully. So have you called your dealership?

[REDACTED]: I had the car towed in this morning, but this is a high end auto and a 24 hour number to call is not to much to ask for

Cheryl: I hear you. I think Roadside Assistance is available 24 hours/day. Do you have that number?

[REDACTED]: I am aware that there has been a lot of problems with these shifters and the new ones are even worse.

Cheryl: [REDACTED], can I bother you to confirm the last 8 of your VIN?

[REDACTED]: CH [REDACTED]

Cheryl: Also, are you still or [REDACTED]? How many miles on the car approximately?

Cheryl: I would like to document the problem so it is on file. That s why I m asking all the questions.

[REDACTED]: I called Roadside Assistance but since the dealership was closed they suggested waiting until the AM

[REDACTED]: In the manuel it showed how to take the car out of park, but not how to more the shifter back to neutral or park

Cheryl: I m sorry if that is the case.

Cheryl: I m really sorry I don t know how to help you other than to document on a case for you.

[REDACTED]: Thank God I was near my house because leaving the car running somewhere else might sure have been a problem

Cheryl: How many miles on the car?

[REDACTED]: It is OK but a 24 hour auto tech would be a really good idea if you can pass it along

Cheryl: I sure can pass that advice along. You bet.

[REDACTED]: 59,000 and I bought the lifetime coverage

Cheryl: That s great. Thanks for telling me that.

██████████ Another quick question since I am here.

Cheryl: Sure. Hopefully, I can answer.

██████████: The belly pan under the engine catches on things VERY easily. I replaced it with the newer one and it even catches on my driveway. Any suggestions?

Cheryl: I recommend you talk to your service advisor about it. He would have some ideas.

██████████: OK will do, but just replacing it does not solve the problem It comes down too low

██████████: Thanks for your help

Cheryl: That would be something our engineers would be interested to know if they don't know this already. I will let them know. Thank you for contacting Chrysler Customer Care. Please chat with us again, or if you need further assistance, contact Chrysler customer care at 800-247-9753. You can also look for updates on our website www.chrysler.com. Have a good day!

██████████: You too!

Cheryl: Thanks!

██████████ disconnected (Concluded by Agent).

3/15.... Writer spoke with owner who provided details of what happened when vehicle was put into park on 3/11/16. Owner stated that he s been in contact with a number of people from FCA but is uncertain of next steps. Writer advised owner that an inspection request was sent yesterday and it may take up to two weeks before the inspector contacts owner and arranges towing to a specific dealership. Writer advised owner that vehicle needs to remain where it is (at home in his garage) until inspector arranges towing. Writer advised owner to rent a vehicle on his own and pay for rental charges upfront. Once owner is no longer in rental, he can send writer the invoice for full reimbursement on the rental charges he incurred. Writer advised owner to call him directly if he had any other questions in the meantime. Owner understood and is satisfied.

3/15/16 UPDATED CCRG FILE AND CASE MANAGER. LSS

CCRG Open Date: 03/14/2016 09:42:16

Customer seeking an update on his case as he received a letter stating no one has been able to get in contact with him. Customer is very upset as has been trying to deal with this issue. Customer would like the last agent to contact him back as he deleted the message with the agents name and direct line.

-
Caller contacted CAC seeking an update on case.

Advised customer that case is currently being handled by another department.

Advised customer that request for contact would be noted, and that case would be forwarded to 82S for review.

Writer verified customer contact information.

Does customer s address match COIN (Y/N): Y

If no, customer s current address:

Customer s current phone number (Daytime):

Customer s current phone number (Evening):

4/5..... Writer spoke with owner on 4/4 and owner was not happy with the inspection results and feels that there is a problem with the vehicle shifting out of park. Owner stated that vehicle was not repaired and is now sitting on his driveway.

Owner has been very loyal to Chrysler and based on the issue, writer will advise owner that since inspector did not find any problem, owner will need to work with his insurance company to fix the damages but writer will offer a lease repurchase for customer satisfaction reasons.

4/6..... Writer spoke with owner and advised him that even though 3rd party inspector found no fault of Chrysler regarding the problem that occurred, for customer satisfaction reasons, writer agreed to offer a lease repurchase as long as owner works with his insurance to have his body damage repaired. Owner agreed to the terms. Writer spoke with Nick York (dealer principal) who will work with ISG and owner. Writer submitted template.

Does not have Bluetooth, dash keeps popping up, door locks are very delayed after pushing the button(very dangerous) seams aren't clean.

Does not go into park when pushing up on shifter, you have to push up twice sometimes three or four times. This vehicle is not worth the money I paid for it. Less than a year later I tried to trade it and they offered only 20k after selling it for 32k.

Score: 05 (Detractor)

013 : Negative dealer comments - general

002 : Poor quality

I am unhappy with a few of the features on the Chrysler 300 that I was told I would get used to. The gear shifter, which I understand has been changed for 2015, has created several instances where I am unsure if the vehicle is in gear or park. On all my previous vehicles I would automatically know if my car was in Park because the shifter would stop at Park. This shifter does not provide me with the same level of assurance that I am actually in the correct gear.

Q2 Please rate your satisfaction with your 300 RWD FOUR DOOR SEDAN on a scale of 0 to 10.

Score: 04 (Detractor)

377 : Safety/Legal

As stated before, the gear shifter on the 2014 300 is something I am unable to get used to. I am unsure I am in the proper gear, or Park, at times, making for possible dangerous situations.

Q3 Please rate your satisfaction with your experience at ATLANTIC CHRYSLER DODGE JEEP R on a scale of 0 to 10.

Score: 06 (Detractor)

014 : Financing arrangements / process

994 : I'm satisfied

007 : Price/cost

The dealership was great on price, but the actual dealership is in desperate need of a remodel. Also, I was uncomfortable with the finance department requirement that I hold my loan for four months before either paying the car off or refinancing with another lender. This caused me to have a higher interest rate than I received from other lenders. I was told if I didn't finance with the lender, I wouldn't receive the same deal. So, I now have a 3.9% rate instead of the 1.79% rate I received from my credit union until the four months is up. I cannot see my previous Cadillac dealer ever having that kind of requirement.

013 : Negative dealer comments - general

002 : Poor quality

007 : Negative experience / problems with CURRENT vehicle

I had owned a 2006 Chrysler 300 and had liked it very much, so earlier this year I bought a 2012 Chrysler 300, and am not satisfied with the 2012: its transmission binds and/or skips: From whatever gear to whatever gear, a movement to shift the car may not take, or it may "double take" (skip a gear). There is one potentially dangerous aspect to this problem: If you pull over to park, push in the button on the shift lever, shove the shifting lever all the way forward and then touch the "key" spot to turn off the car, you may or may not have actually turned off the car, because the transmission may not have actually gone into the park gear. Unless the car is in park, it cannot be turned off. Several times I have "turned off" the car, left it, and returned later to find that the car was in reverse and had been idling for the time I had been gone. Leaving a car running and in reverse gear may lead to terrible disaster. I asked the service department at Crowley to address this problem in late May, and again in early October, and both times they reported back, on the basis of test drive and computer check, that the transmission functions as it is supposed to function. I asked had they "dropped the transmission" and inspected the gears, and the service manager responded that "Chrysler doesn't pay us to drop transmissions that aren't broken." The upshot is that I have been left with a car that is potentially very dangerous, and the Crowley service department has washed their hands of the matter. That's why I am dissatisfied, and unless either Crowley or Chrysler steps to the plate, I am unlikely to recommend either. I note that the 2013 Chrysler 300s have been configured so as to make it virtually impossible inadvertently to leave the car with the motor running, which makes me believe that other owners have experienced this problem, and that Chrysler may have had product liability suits based upon the problem.

Q1 How willing are you to recommend CHRYSLER to a friend or colleague?

Score: 04 (Detractor)

992 : Safety/Legal

018 : Recall: any mention

007 : Negative experience / problems with CURRENT vehicle

I don't like the eight speed transmission. Pittsburgh is a hilly place and the transmission... That's that the recall was about. I don't know if they fixed it or not, but I haven't had the opportunity to experience the repair to see if it's fixed. We're going up the grade. We live at the top of a hill. It's a 35 MPH speed limit. I just think that the way the transmission is... It just keeps the rev too high. Number two, the electronic shift is till giving me fits. It doesn't just flow into park when I want it to. I sometimes have problems getting it... It'll go into neutral and it may be just because of me because I'm not used to it yet. When I'm getting it into drive... I'm backing out of a parking space, getting it in reverse... and I'm out in the parking lot trying to get it into drive, and I seem to have difficulty just finding it. The throw in the shift stick is only about... It's an electronic shifter, but the throw in it, I loose touch. I don't experience the touch, so those are my complaint. Otherwise, beautiful car and it really gets up and goes. It gets up and goes when I'm out on the highway. I think with this eight speed transmission, if I'm going slow on the main highway going into Pittsburgh, and I got to pass a car, it seems to be a big hesitation. I can't trust the car to get up to speed. So if you're following a truck or any car, and you start to pull out and go around, and I hit the gas, it feels like it hesitates. Then it catches and goes on. If you're not careful, this could be an unsafe feature in driving a car. I've learned to deal with it, but it all boils down to this eight speed transmission. I don't like it.

Those are pretty big things. If you want to then the connection with my I Pod... If I've got my I Pod connected, I come in, park it, and if I turn off the ignition... I'm through for the night, come in, and then I got out. I'll start it up the next day. It's probably going to work alright, but I've had occasions where it's lost the USB connection. The I Pod isn't there, so I have to disconnect the I Pod, reconnect it, then the system finds it again, goes through, and does it's indexing. So as far as the I Pod is my favorite way of listening to music in that car. I do like the Alpine music system, it's really a nice music system, and a sound system. It really is well. I sometimes look at that LCD screen as far as being just like texting with a cell phone. It's a distraction and I have to watch myself because the browse on there... If I'm going to Sirius, the browsing function... I've got two or three different favorite station on Sirius, and you bring out Sirius... If you leave it on your favorite station, it stays there. I haven't figured out how to go directly to the station. There's favorites or a way to do it. I haven't figured it out yet, but I find that I'd be better served by just having the old fashion knobs, and the tuning functions. But that whole Star trek thing in there is... The browse function is just distracting. I can't go through my play list very well on my I Pod going through the screen. I haven't tried the tuning knob, which I ought to probably do it that way. But it still requires too much. I can't do it out of the corner of my eye like I could with the old fashioned radio. I have to look at the screen and get distracted from the highway, so I have to watch myself on that. But I do like the backup camera, that is really slick. I learned to operate within those lines. I even impressed my wife with how well I can park now. So that backup cameras really neat. I was curious to find out how you hack ito it because if you raise your truck then you're looking up. But that's just because I like computer hacking. So there's some things. I don't like the eight speed transmission. Pittsburgh is a hilly place and the transmission... That's that the recall was about. I don't know if they fixed it or not, but I haven't had the opportunity to experience the repair to see if it's fixed. We're going up the grade. We

Overall I love the car, the gas mileage is awesome, great comfort and very roomy. What I dislike GREATLY is the gear shift mechanism that has nearly caused me to crash my car a few times because I thought it went into park but it went into reverse. I hate the shifting system with a passion. I will not let my kids drive it for that reason.

Q3 Please rate your satisfaction with your experience at WESTPOINTE CHRYSLER JEEP DODGE on a scale of 0 to 10.

Score: 05 (Detractor)

I rated a 5 because it was normal / average. It was a "typical" car buying experience. The salesman was great but played the back and forth game with the sales manager. It wasn't a bad experience just average. I'd shop there again, no doubt!

T12 : Auto Trans-Shifts At Wrong Times

I've had a few problems and I've only owned the car for two months. I'm hoping to get these problems resolved but they haven't done them yet. The shifter got stuck in park, I've only put 2,000 miles on the car since I bought it. I heard that they had a problem with this before and supposedly they had put a safe device in it which the lanyard that's next to the automatic shifter. I sat and waited on a tow truck the other day for almost two hours for them to come get me and then that time I looked in my manual and found that there was an override there. When the tow truck driver got there, I didn't have a screw driver on me at the time but when the tow truck driver got there finally I just asked him for a screw driver and basically fixed my car myself. Took it to Landmark and they said they couldn't find anything wrong with my the shifter. At this point I'm thinking that, and they told me that they hadn't had another 2012 come in with the problem that mine had. I'm kind of dissatisfied just to the fact that as many chargers as they sell off that lot for me to be the only person that does have a problem.

It's the little things: The shifter for the 8-speed is a pain and you can't easily switch between reverse and drive. Annoying. The auto climate control doesn't always cool the cabin when it's hot. The outside temp gauge is frequently flat-out wrong. The heated/cooled seats aren't strong enough. Not enough heat when you want it, not enough cool when you need it. Infotainment system doesn't have HD radio and FM reception (when I use it) is not great. Low beams not strong enough. I'd like the side mirrors to power fold, steering feels too heavy in slow/tight parking. I've noted the climate control and outside temp problems and there is "nothing wrong" according to service. Oh, and the keyless door and trunk openers sometimes don't work when it's hot outside. The remote does work. Again, service tells me they can't replicate the problem and nothing is wrong. Annoying.

Score: 06 (Detractor)

001 : Negative/rude treatment by staff

002 : Unfilled promises / commitments

995 : Will never buy there again

I was not happy with the fact that I was blown off at the very beginning when I told them I had a service contract. I was also not very happy that the night I bought the service contract, I did not have all the details explained to it that I do sales for a living, therefore I cannot be without my vehicle. I was told that buying this extended warranty gave me an automatic vehicle when I brought my service in. However, when I brought my vehicle in for service last week, I was told, 'Oh, only if it's a qualified repair. I was told a half truth. I was not told the whole truth and the only option I was given, you can cancel if you want. More than likely, I will never buy another vehicle from Bob More, probably not a Chrysler because of this experience. I am very upset. I was lied to and I was misled. If they have a five-star dealership rating, they shouldn't have it because of that. That was an absolute misleading statement that I was given on that.

That ones kind of hard to answer because I think I'm having some issues with it, so may have to take it into the actual dealership where I bought it from, and see what's going on with it. The car is actually starting by itself and jumping out of gear. I shut the car off and put it in park. Then when I went in the store, came out, the car, it was actually rolling back. The engine was off, the door was locked. Then I was at work and then the car actually started up. I know I shut the car off because you can't even lock the doors without shutting the car off. The key was in my purse and one of my co-workers came in and said, 'do you know was running'. I was like, no. So I went out there and it was not... automatic starter because the run light wasn't flashing. That's the second time that's happened. There was a random person coming in the store saw it, and was trying to stop it. He was able to just hold the car to keep it from moving into the other vehicles, but he couldn't get in because the door was locked and the engine was off. That's another thing, the car won't even shut off if it's not in the right gear because tested it yesterday sitting here in the driveway. You can put the car in neutral and it still won't shut off. It won't shut off unless it's in park. But when I went out there, I had to use the remote to unlock the door. When I looked down at the gearshift, it was in neutral... when I turn the car off, I actually sat in the car for a minutes because I was talking to my husband, so I didn't know the car was shut off. I didn't even go immediately in the store. I shut the car off. I was talking to him on the phone before I went in the store. Locked the door, went in the store, and then one of the clerks at the door said the car was rolling. So I don't know. It was in neutral. But otherwise, I absolutely love the vehicle...

021 : Poor purchase/service experience

The service issue was a dead battery. I had owned the new vehicle for about 4weeks and driven it at least once every 3. days for a total of approximately 400 miles. The miles included one 80 mile highway round trip. Lithia found nothing wrong. Explained that probably we hadn't driven the car enough. I reviewed some Dodge forums on the Internet and dead batteries over several weeks of non or limited use is not uncommon. This is not acceptable performance for a \$40k vehicle. What does one do when leaving the vehicle at an airport lot for several weeks?

Please indicate which display				Difficult to push the sequence of arrows rapidly to "zero out" the desired trip number without confusion when needed (at gas pump).			

Features/Controls/Displays>Displays and Instruments>Trip Computer (if equipped) is not working properly>							
Please indicate which control/display				I'd still like a pushbutton to zero the miles since the last Fill-up; it would be much faster!			
How often does this trouble occur?				Trouble occurs regularly.			
Please describe conditions when this trouble occurs:				When I want to pull away from the gas pump.			
To the best of your recollection, the trouble was first noticed:				At delivery.			
Approximate mileage when trouble was first noticed was:				0 - 1499 miles.			
Additional Comments:				Instructions take extra time to comprehend, or I just need a bit more "dealer training."			

Entertainment/Navigation System/Connectivity>Media Players>							
Media Players				Radio/Satellite radio/HD Radio.			

Entertainment/Navigation System/Connectivity>Speakers>							
Speakers				Speakers cut-in/out.			

Entertainment/Navigation System/Connectivity>Navigation System>							
Navigation System				Navigation system works, but missing information; has incorrect information; gives wrong directions.			

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>							
Please indicate which navigation system item has trouble (check all that apply):				My wife & myself have a 6 mo. old Garmin-nuvi 1300 LM GPS that offers 2 or more voices, including a man's, which is less muffled.			

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>

Additional Comments:

Can the dealer please find a way to "dump" & replace the muffled ladies voice with the man's clearer one.

Overview>

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?

Yes.

Have you taken the vehicle to a dealer to have your trouble corrected?

Yes.

Where did you take your vehicle to have your trouble checked out? (check all that apply)

Our very helpful salesperson came out to the car, and even gave instructions from the back seat, and that was especially informative.

Was the trouble resolved to your satisfaction?

Yes.

Overall, how satisfied are you with the quality of your new vehicle?

Very satisfied.

Would you recommend this vehicle to family or friends?

Yes.

If our team has any additional questions about your responses, would you accept further contact?

Yes, by phone or e-mail.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns:

I'm sure I will be learning more about the new features in developing "smart phones", etc. as I start some future travelling. Let's add miles!

What has Chrysler done right?

My past 5.7 hemi was fun, but this V6 limited & an 8 speed is more civilized "fun".

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?

Yes.

To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.

How did Chrysler improve so much since the 2006 300C that I owned. Ph. [REDACTED]

Entertainment/Navigation System/Connectivity>Media Player Connections>Media player connections work properly, but are difficult to understand/use; controls in a poor location>	
Please indicate which media player connections are difficult to understand/use; is are a poor location (check all that apply):	Bad location, cannot use if inside the center console. Should be Outside where easy to plug into and get to. Bad location, cannot use if inside the center console. Should be Outside where easy to plug into and get to.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Fan/blower makes excessive noise.

Interior Climate Control>Operation and Performance>Fan/blower makes excessive noise>	
Please describe the fan/blower noise (check all that apply):	Seems like there are no noise damping used to cover the blower.
Please describe when the fan/blower noise occurs (check all that apply):	At high fan speeds.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Whenever fan is on (in manual or auto)
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	I have to keep the fan (or auto) at lower speeds as the noise is so distracting.

Interior Trim/Storage/Windows>Operation and Functionality>	
Operation and Functionality	Center console is difficult to open/close.

Interior Trim/Storage/Windows>Operation and Functionality>Center console is difficult to open/close>	
Please indicate why the center console is difficult to open/close (check all that apply):	Will not stay open, cover will always come down while I am trying to get inside. Wish it would just stay open or bend back more as allow more room to get inside.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	all the time.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Wish the cover on the center console could slide forward to allow my arm to rest on it. Its current position is too far back and is not comfortable for an arm rest.

Engine>Engine Idling (rough, too low/high)>	
Engine Idling (rough, too low/high)	Engine does not idle properly: idles rough, too low, or too high.

Engine>Engine Driveability (stumbles/hesitates/surges)>	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.

Engine>Engine Driveability (stumbles/hesitates/surges)>Engine stumbles/hesitates/surges>	
What best describes the engine drivability trouble? (check all that apply):	Engine seems to want to drive off by itself when cold. I am use to where if I lift off the gas pedal the car just idles. In his case it drives off and continues to increase in speed without me using the gas pedal. I have to use the brake the first few minutes of driving.
Engine trouble occurs (check all that apply):	Within first 5 minutes after starting vehicle.
Engine trouble occurs after vehicle is started at:	Happens more often when the engine has sit all night.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Cool nights or Cold nights (cold nights have been 40-45 degrees or so. Have not gotten to colder nights yet in this area.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Engine>Engine Idling (rough, too low/high)>Engine does not idle properly: idles rough, too low, or too high>	
What best describes the engine idle trouble? (check all that apply):	when cold. Will drive off if in gear and I do not have my foot on the brake. will increase speed unless I use the brake the first few minutes or the first mile or so.
Engine idle trouble occurs (check all that apply):	Within first 5 minutes after starting vehicle.
Engine idle trouble occurs after vehicle is started at:	Cold condition - first start of the day or after vehicle is off for 6+ hours.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Hesitation or delay when shifting between gears. Gear selector is difficult to operate (auto. trans.).
Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
Going into which gear/gears does the trouble occur? (check all that apply)	At low speeds, hard shifts between gears. At low speeds, hard shifts between gears.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	At low speeds, hard shifts between gears.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	all the time.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	when driving normally from stops and getting up to normal speeds.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	Seems like I have to push or toggle the gear shift "twice" to get it into park. Not sure if this is normal as I can never get he vehicle into park unless I toggle the gear shift twice to the park posi ion. If I am in neutral, I cannot get into drive position unless I hit the brake. When i can going thru a car wash (in neutral) and the end of the chain push I have to get into drive and always worry that the car behind me will hit me as they are being move up by the chain and I am having to hit the brake to get into drive. Same issue if I am trying to park. the idea to keep my foot on the brake is too bothersome.
Why is the gear selector difficult to operate?	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Seems I have to push the button 'deeply' before anything happens. I should be able to push the button slightly and get the gear I need.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	At night the gear shift "D/L" indicator is light a high beam shining into my eyes. It is way too bright and distracts from my driving at night. I have to put a cloth over the gear shift to cover the light indicator.
Other>	
Please describe the other trouble you experienced:	(1) Front Seat beat clips are too low & hard to reach. Should be higher and easier to get to. Ford dealers give out FREE Seat belt extenders but Chrysler does not. So it would be nice if you just place the seat belt clip higher. (2) Rear vents do not put out any heat when using 'auto' mode for aid conditioning. I have to place from Auto mode to fan mode and even then will only put out a little when the fan is only in HIGH (and very noisy) mode. (3) Bluetooth option on the car will NOT let me listen to my voice mails. (4) Security Issue: By having the rear seats able to open from 'inside' the vehicle thus allowing people to access a locked trunk by breaking a window and pulling down the rear seats. Should have the rear seat release 'inside' the trunk, not inside the car. (5) Wish the display had an op ion to show the day/date in addition to the time. (6) Wish the daytime running lights (which are great) would stay on when the turning signals are being used. (7) Wish the front seats where a little wider. Too narrow for my comfort. (8) The dash light indicators (ie: for headlights, hi-beams, etc) are way too dim. Only when do I place the lighting

Other>

How often does this trouble occur?	control on the dash to full brightness do then show up decent -but then the whole dash is way too bright for evening or night driving. The indicators need to be brighter when the whole dash is in middle or even in low brightness.
Please describe conditions when this trouble occurs:	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	all the time.
Approximate mileage when trouble was first noticed was:	At delivery.
	0 - 1499 miles.

Overview>

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	5 (strongly agree).
Information in the Smartphone Application is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	5 (strongly agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Which feature or section of the Smartphone Application did you find most helpful and why?	Customer support, highway help, etc.

What Can We Do Better?>

Feedback/Concerns:	It would have been nice if the dealership and/or salesman would have sent a 'Thank You' letter (not an email). Would be nice if Chrysler or dealership maybe offered a huge discount for adding options say maybe for 3-6 mon hs after purchasing the car. IE: recently I got a TV and the mfg offered discounts for purchasing options for the unit (like sound bars, mounting brackets, etc).
What has Chrysler done right?	(1) Beautiful designed and looking Chrysler 300 car for 2012 which is what I purchased. (2) We closed on the deal Saturday night but the dealer was nice enough to redo my deal the following Monday when I got a email from Chrysler for a \$1K discount on a purchase of he new vehicle.

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss.	Seat Beat extensions, why are they not free when I have for the last several years
Please provide us with a phone number you can be reached at during daytime hours. Thank you.	have always gotten them free at competing companies. Lincoln/Ford has always provided them to me when I purchased their vehicles, new or used.

Features/Controls/Displays>Features and Controls>Interior lights>Dome/map/interior lights work properly, but difficult to understand/use; controls in a poor location>

Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	The Shifter light on the 8 Speed Transmission is TOO BRIGHT!!!! Please tone it down or make it controllable with the other light adjustment knobs. It's almost blinding and distracting at night. So much I drive with my hand on it to cover it up!
---	--

Transmission and Drivetrain>Automatic Transmission>Shift between gears is rough/harsh under normal driving conditions>

Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Past few weeks, I've been noticing more and more a weird lag (cut out) between the 1-2 shift. After it lags, and then shifts to second, look out..it really zips off. Kind of hard to explain...It's like you prepare your body to fight against the forces that push you into the seat when you take off then when it goes to second, your body kind of leans forward because now the force isn't there for a split second, and then it's back again! Strange feeling. I tried to Explain the issue in a forum..this is what I posted about the issue. Past few weeks, I've been noticing more and more a weird lag (cut out) between the 1-2 shift. After it lags, and then shifts to second, look out..it really zips off. Kind of hard to explain...It's like you prepare your body to fight against the forces that push you into the seat when you take off then when it goes to second, your body kind of leans forward because now the force isn't there for a split second, and then it's back again! Strange feeling.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Going into which gear/gears does the trouble occur? (check all that apply)	3rd gear experiences a surging kind of motion instead of just a smoo h flowing acceleration. Don't notice it in other gears as much as 3rd. Seems like engine speed decreases before this shift..like it lags for a second, then goes into gear.
Approximate mileage when trouble was first noticed was:	Doesn't shift as smoothly into 5 as other gears. 0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.

Transmission and Drivetrain>Automatic Transmission>

Automatic Transmission	Hesitation or delay when shifting between gears. Shift between gears is rough/harsh under normal driving conditions. Gear selector is difficult to operate (auto. trans.).
-------------------------------	--

Vehicle Exterior>Trunk Lid/Liftgate>Trunk lid/liftgate is difficult to open/close>

Please describe conditions when this trouble occurs:	Trunk springs are pretty strong...maybe a little too strong. Makes it a lit le difficult to draw it down and close it.
How often does this trouble occur?	Trouble occurs intermittently.
Please indicate with which type of rear door your vehicle is equipped.	Trunk lid.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Features and Controls>

Features and Controls	Interior lights. Door locks/keyless entry system. Turn signals. Side window operation/controls.
------------------------------	--

Entertainment/Navigation System/Connectivity>Speakers>Speakers have poor sound clarity>

Entertainment/Navigation System/Connectivity>Speakers>Speakers have poor sound clarity>	
Please indicate which speaker has trouble (check all that apply):	Overall issue where it just doesn't seem as crystal clear as one thinks it should be. Sound is OK, but just OK.
Trouble with speaker occurs:	At all volume levels.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.
Category Level	
Selection	Features/Controls/Displays. Brake System. Entertainment/Navigation System/Connectivity. Vehicle Exterior. Interior Climate Control. Interior Trim/Storage/Windows. Transmission and Drivetrain. Steering, Handling, and Ride. Engine. Seats.
What Can We Do Better?>	
What has Chrysler done right?	The body design is good, the interior seems great. I think you did a good turnaround on this car and probably got some new people looking at Dodge. I was initially looking at the Challenger but the interior won it for me on the Charger. If you can combine the exterior Challenger body with the Charger Interior..man..you would have something for sure!
Feedback/Concerns:	Paint, Paint, Paint! Still seems to be an issue unfortunately. Also new engine/8 Speed combo seems to be a good deal on paper, but in all City (40MPH or less) driving like I do, it is very sluggish in shifting gears and the RPMs stay too low for it to do anything. You either have it lug along or just take off like a rocket, no nice in-between feel..it sure seems all or nothing unless you control the shifting manually.
Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Hard acceleration. Normal acceleration.
Going into which gear/gears does the trouble occur? (check all that apply)	2nd Gear. 3rd Gear.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
How often does this trouble occur?	Trouble occurs regularly.

Entertainment/Navigation System/Connectivity>Speakers>Speakers are not loud enough>	
Additional Comments:	I am being as honest as I can about this. With a 9 speaker (with Subwoofer) 500 watt amplified system, I definitely expected more than what was touted about this sound system. I get out of my car and get into my wife's PT Cruiser (yes PT Cruiser) and it just sounds so much better. How can that be? There's actually bass

Entertainment/Navigation System/Connectivity>Speakers>Speakers are not loud enough>	
Please indicate which speaker has trouble (check all that apply): Trouble with speaker occurs: Approximate mileage when trouble was first noticed was: To the best of your recollection, the trouble was first noticed: How often does this trouble occur?	in her car. I guess that's the big disappointment. You get a factory installed sub and you never hear anything out of it really. All speakers in the vehicle. At all volume levels. 0 - 1499 miles. Within the 1st month after delivery. Trouble occurs regularly.
Vehicle Exterior>Front Doors>Front doors are difficult to open/close>	
How often does this trouble occur? Please indicate which door is difficult to open/close (check all that apply): To the best of your recollection, the trouble was first noticed: Approximate mileage when trouble was first noticed was:	Trouble occurs intermittently. Not a mechanical issue but operational. When door is opened all the way, very hard to reach out and grab door to close it without falling out! Not a mechanical issue but operational. When door is opened all the way, very hard to reach out and grab door to close it without falling out! Within the 1st month after delivery. 0 - 1499 miles.
Features/Controls/Displays>Features and Controls>Turn signals>	
Turn signals	Turn signal controls work properly, but are difficult to understand/use; are in a poor location.
Welcome>	
Please tell us how many miles are currently on your vehicle. Are you the primary driver of this vehicle?	1060 Yes.
Vehicle Exterior>Front Doors>Door handle/latch works, but is difficult to operate>	
How often does this trouble occur?	Trouble occurs intermittently.
Features/Controls/Displays>Features and Controls>Side window operation/controls>Side window works properly, but is difficult to understand/use; controls are in a poor location>	
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Front driver side switch if fickle. Likes to go down a few inches and stop. Maybe it's a feature?? Don't notice it on other windows. Leaves me to focus on how far down I'm having to push on the button to make it work right wi hout activating the auto down function.
Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
How often does this trouble occur? Why is the gear selector difficult to operate? Approximate mileage when trouble was first noticed was: Going into which position is the gear selector difficult to operate? (check all that apply): To the best of your recollection, the trouble was first noticed:	Trouble occurs intermittently. Operation of gear selector is confusing/doesn't make sense. 0 - 1499 miles. The new shifter definitely takes some getting used to. Many times have I been backing out of a parking spot and have to physically look down at the shifter to see why it's not going into drive. Might re-evaluate this layout going forward. Within the 1st month after delivery.
Features/Controls/Displays>Features and Controls>Turn signals>Turn signal controls work properly, but are difficult to understand/use; are in a poor location>	
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	The lane change assist is very fickle...sometimes it works, sometimes it doesn't. Leaves you trying to figure how much pressure or how quickly to hold or release it to make it work every time.
Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.
Vehicle Exterior>Exterior Appearance/Paint:>Paint blemish/dirt in paint/foreign material under surface>	
Additional Comments: Please indicate the location of the paint issue (check all that apply): To the best of your recollection, the trouble was first noticed: Approximate mileage when trouble was first noticed was:	We've owned multiple Dodge/Chrusler products over the years and only 1 has not had any paint issues...that was a 1991 Dodge Dynasty. 1999 Dodge Stratus...Clearcoat came off entire car. 1999 Chrysler 300M....Clearcoat was starting to come off roof when we sold it. Has strange little spots of paint webbing. Paint Chipping and Spider web cracking beneath fuel door Chip in paint above headlight. Numerous areas around edges have paint runs or thicker paint on the edges of the panels. Upper right corner of trim is rough, chewed up looking. Small white specks where paint bubbles have popped off. Within the 1st month after delivery. 0 - 1499 miles.

Brake System>Emergency/Parking Brake>	
Emergency/Parking Brake	Emergency/parking brake control is poorly located.

Vehicle Exterior>Front Doors>	
Front Doors	Front doors are difficult to open/close. Door handle/latch works, but is difficult to operate.

Vehicle Exterior>Exterior Appearance/Paint:>Wheels were chipped/scratched/damaged at delivery>	
Please indicate which wheels were damaged (check all that apply):	Small Chip on upper edge of wheel 1/8" around.

Vehicle Exterior>Exterior Appearance/Paint:>Paint is peeling/flaking/cracking/blistering>	
Please indicate the location of the paint issue (check all that apply):	Webbing under the paint. Chipping, cracking under fuel door Chips over the headlight area already. White specks where the paint bubbles have popped off.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Features and Controls>Door locks/keyless entry system>	
Door locks/keyless entry system	Remote keyless entry system works properly, but is difficult to understand/use.

Vehicle Exterior>Trunk Lid/Liftgate>	
Trunk Lid/Liftgate	Trunk lid/liftgate is difficult to open/close.

Brake System>Emergency/Parking Brake>Emergency/parking brake control is poorly located>	
Why is the parking brake poorly located? (check all that apply):	Seems too close to the inner panel..Get a foot of paneling instead of pedal when pushing it down.

Features/Controls/Displays>Features and Controls>Side window operation/controls>	
Side window operation/controls	Side window works properly, but is difficult to understand/use; controls are in a poor location.

Vehicle Exterior>Exterior Appearance/Paint:>	
Exterior Appearance/Paint:	Paint blemish/dirt in paint/foreign material under surface. Paint is peeling/flaking/cracking/blistering. Paint is uneven: has sags, runs, overspray, thin spots, etc.. Wheels were chipped/scratched/damaged at delivery.

Features/Controls/Displays>Features and Controls>Interior lights>	
Interior lights	Dome/map/interior lights work properly, but difficult to understand/use; controls in a poor location.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers are not loud enough. Speakers have poor sound clarity.

Vehicle Exterior>Exterior Appearance/Paint:>Paint is uneven: has sags, runs, overspray, thin spots, etc.>	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please indicate the location of the paint issue (check all that apply):	Doors, trunk, fenders have thicker paint runs on the edges.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays poor loc..

Features/Controls/Displays>Displays and Instruments>Fuel gauge/low fuel warning light work properly, but difficult to understand/use; displays poor loc.>	
Please indicate why the fuel gauge/low fuel warning light controls/displays are difficult to understand/use; are in a poor location (check all that apply):	Please leave an actual distance remaining displayed instead of changing to LOW Fuel.

Brake Operation	Brakes do not have enough stopping power; brake pedal requires too much effort.
------------------------	---

Brake System>Brake Operation>Brakes do not have enough stopping power; brake pedal requires too much effort>

Trouble with brakes occurs while traveling in these road conditions (check all that apply):	Mid 30 degrees, dry, car has sat for 3 to 4 hours in parking lot
Trouble with brakes occurs during this type of braking (check all that apply):	I am guessing the rain assist or something like that is acting up. I expect the normal feel and stopping power and come up on a stop sign and I have to stomp real hard like there is no power brake assist at all see below
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Trouble with brakes occurs while traveling at these speeds (check all that apply):	see above
Please describe conditions when this trouble occurs:	see above
Additional Comments:	First time I noticed it it was damp so I figured it was the built in braking system doing it on purpose. the other dozen times since then it has been dry.
How often does this trouble occur?	Trouble occurs intermittently.

Transmission and Drivetrain>Automatic Transmission>Shifts at wrong times>

Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	All of the above and below completely warmed up, you can slow from 60 to 30 and you would expect it to have shifted down but you find yourself in a high gear with little or no acceleration until you push hard on the gas This is OK Totally warmed up, punch the gas to the floor and it sits there for a second wondering if you want to go this is OK
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
Going into which gear/gears does the trouble occur? (check all that apply)	If you slow down to a couple MPH and then step on it, it cannot decide if it should go to 1st or 2nd 8 speed tranny, it is a high gear maybe 6th to 8 at low speed and you push on the gas it lugs instead of down shifting until you really push hard on the gas
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	I assumed that for the first 500 miles or so it was learning my driving habits but it has changed
Please describe conditions when this trouble occurs:	I just did, read above

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>

Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration. Deceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	operates better when cold Car has yet to be driven in temps greater than 40 degrees Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	Y <u>O</u> u ask the same questions above
Going into which gear/gears does the trouble occur? (check all that apply)	I explained the 1-2 shifting on other page and not down shifting to a low enough gear when slowing down. This is in normal mode. It is like the tranny is thinking before it reacts to what you want it to do.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Going into which position is the gear selector difficult to operate? (check all that apply):	Reverse (R). Drive (D). Your E shifter is hard to get used to. I still miss all the gears up and down that I have checked Neutral (N).
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Why is the gear selector difficult to operate?	Other (please describe).
Additional Comments:	I purchased this car specifically for the 8 speed transmission. Now I wish I hadn't
Please describe conditions when this trouble occurs:	There are no condiditons, it is all the time

Overview>	
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Would you recommend this vehicle to family or friends?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.

Welcome>	
Are you the primary driver of this vehicle?	Yes.
Please tell us how many miles are currently on your vehicle.	1400

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Shifts at wrong times. Gear selector is difficult to operate (auto. trans.). Hesitation or delay when shifting between gears.

What Can We Do Better?>	
Feedback/Concerns:	The eight speed transmission programming was not well thought out. It performs much better in sport mode. Should have given the 6 cylinder about 25 more horsepower
What has Chrysler done right?	The styling of the exterior is great. The interior and the features / option you get for your money is pretty good.

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle? No.

Overview>

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.

Welcome>

Please tell us how many miles are currently on your vehicle.	985
Are you the primary driver of this vehicle?	Yes.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

Please describe conditions when this trouble occurs:	When first backing out of a garage or parking space, and then trying to move forward.
Why is the gear selector difficult to operate?	Other (please describe).
Going into which position is the gear selector difficult to operate? (check all that apply):	Shifting from park to Reverse, it always passes by reverse to neutral. Than it is hard to shift back up to reverse, it ususally goes back to park again. Shifting from reverse, it is dificult to shift into drive, many times it goes diectly into "S" gear
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.

Transmission and Drivetrain>Automatic Transmission>

------------------	--

Vehicle Exterior>Lights>Fog/water/condensation in exterior light lenses>

Please indicate which exterior light lenses have fog/water/condensation in them (check all that apply):	Same as driver.
Please describe conditions when this trouble occurs:	Had condensation on interior of headlight glass he night we bought it. Dealership said this is normal because they are vented and not sealed air tight.
How often does this trouble occur?	We live in SE Georgia. It is very humid down here.
Approximate mileage when trouble was first noticed was:	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	0 - 1499 miles.
	At delivery.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

Going into which position is the gear selector difficult to operate? (check all that apply):	The "Tip-tronic" gear shifter is cool, but unless you tip it perfectly you can end up in neutral or low instead of drive. Also, having to hit the brake to change from neutral to drive is inconvenient. Many times I have seesawed back and forth between neutral and low trying to get to drive. Very frustrating.
Please describe conditions when this trouble occurs:	Shifting out of park.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.

Vehicle Exterior>Front Doors>

Front Doors	Front doors are difficult to open/close.
--------------------	--

Vehicle Exterior>Front Doors>Front doors are difficult to open/close>

Please indicate which door is difficult to open/close (check all that apply):	Not really a problem, just a comment. The open positions available from fully shut to fully open are limited. If you don't open the door fully, which is a very long swing, then the door will try to shut on your leg.
Please describe conditions when this trouble occurs:	Same as driver.
Approximate mileage when trouble was first noticed was:	Entering and exiting vehicle.
How often does this trouble occur?	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Trouble occurs regularly.
	At delivery.

What Can We Do Better?>

Feedback/Concerns:	Make the front doors easier to open by providing better open points, such as a solid 30 and 45 degree position. Fix the touchy "tip-tronic" shifter, or just give me a good ole mechanical shifter.
What has Chrysler done right?	Nearly 300 horsepower and I still get 21 mpg in the city!?!? Are you kidding me? Thank you!!! This car is super fun to drive. It is very comfortable, luxurious, tech savvy, affordable, and most important... American!

-----------	--

Category Level	
<div>Seats.</div> <div>Vehicle Exterior.</div>	
Interior Trim/Storage/Windows>Appearance>Center console has gaps/poor fit>	
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe in the box below where on the center console the trouble with excessive gaps/poor fit of materials is located:	The use of crappy looking plastic to finish off the console as well as the rest of the interior trim is a disappointment. Wood or faux wood would have been much better for the "luxury" interior. Would have put the 300 in to the Audi/Infiniti competition.
Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).
Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Why is the gear selector difficult to operate?	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Going into which position is the gear selector difficult to operate? (check all that apply):	It's a little difficult to consistently get into park (E-shifter) It takes a light hand to stop at reverse(E-shifter)
Vehicle Exterior>Lights>Headlights aimed incorrectly>	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please indicate which headlight is not aimed properly (check all that apply):	High beams are too high High beams are too high
Additional Comments:	I have not asked the dealer to correct but will so
What Can We Do Better?>	
Feedback/Concerns:	My other car is an Infiniti G35X. The 300 doesn't measure up to the quality of the Infiniti. For example, the "luxury" package on the 300 has cheap plastic trim while the Infiniti has wood interior trim. The Infiniti has a garage door opener as standard. the 300 requires that an additional package be purchased. (Dealer didn't tell me about this.) The 300 just doesn't have the quality feel.
What has Chrysler done right?	It's a nice solid car that gets outstanding gas mileage for a car of that size. Ride is nice and comfortable and the performance on the highway is impressive.

What Can We Do Better?>

Feedback/Concerns:

I don't like the shifter in my Charger SE. I don't like how it only has 1 low gear which is too slow for most situa ions. I don't like how you have to push twice to get it into park unless I'm doing it wrong, I go by number of clicks to get to desired gear.

What has Chrysler done right?

Love my Charger! No outside wind noise, shifts smoothly, better gas mileage than originally thought to get, comfortable ride.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

To the best of your recollection, the trouble was first noticed:	At delivery.
How often does this trouble occur?	Trouble occurs regularly.
Going into which position is the gear selector difficult to operate? (check all that apply):	The fact that you have to come to a complete stop with your FOOT ON THE BRAKE to shift can be a problem, especially when you are backing out into a real busy street with fast moving traffic. We are so used to being able to move a shifter out of Reverse and into Neutral while the car is still rolling backwards, and into drive without coming to a complete stop. There has been at least a dozen times that I have had to make 2-3 attempts at shifting into Drive because I was trying to be quick to avoid oncoming traffic only to get stuck there because I did not come to a complete FOOT-ON-THE-BRAKE stop.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe conditions when this trouble occurs:	The fact that you have to come to a complete stop with your FOOT ON THE BRAKE to shift can be a problem, especially when you are backing out into a real busy street with fast moving traffic. We are so used to being able to move a shifter out of Reverse and into Neutral while the car is still rolling backwards, and into drive without coming to a complete stop. There has been at least a dozen times that I have had to make 2-3 attempts at shifting into Drive because I was trying to be quick to avo
Why is the gear selector difficult to operate?	Other (please describe).

Steering, Handling, and Ride>Tires>Tires make excessive road noise while driving>

Trouble occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble occurs while traveling at these speeds (check all that apply):	All speeds.

Steering, Handling, and Ride>Noise and Vibration>

Noise and Vibration	Vehicle vibrates excessively while driving (not braking).
---------------------	---

Steering, Handling, and Ride>Noise and Vibration>Vehicle vibrates excessively while driving (not braking)>

How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Vibration is:	Slight.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble occurs while traveling at these speeds (check all that apply):	Issue is that it came equipped with 20" wheels & low profile tires instead of 18" touring. It feels like someone is dribbling a basketball under the hood! You can feel every crack in the road & the tires are noisy as well. My VIN# is 2C3-CCAC [REDACTED], it is a fully equipped 300 limited Luxury Series car, why they put 20" wheels & performance tires on it makes no sense to me at all. Who ever did the ordering might have thought it looked good, but it totally compromised the luxury ride! This is my 3rd generation 300 (300M Sp, 300C, 2012 300L) and it has the worst ride, especially when you take into consideration what it costs. I'm working with my dealership trying to see if they would take a set of 18" wheels off of a used 2011 to help get the ride I was expecting.

Seats>Adjustments and Controls>Seat heater/cooler controls are difficult to understand/use>

Please indicate which seat's controls are difficult to understand/use (check all that apply):	Cooling ventilated seats are barely noticeable in "HI" mode and not at all in "low" mode. My brother has a new Ford Taurus, you can really feel the air flow when he has it on in either position!
---	--

Seats>Adjustments and Controls>Seat heater/cooler controls are difficult to understand/use>	
	Cooling ventilated seats are barely noticeable in "HI" mode and not at all in "low" mode. My brother has a new Ford Taurus, you can really feel the air flow when he has it on in either position!

Overview>	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Seats>Adjustments and Controls>	
Adjustments and Controls	Seat heater/cooler controls are difficult to understand/use.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).

What Can We Do Better?>	
What has Chrysler done right?	Great styling! I love the quickness & 31 MPG of the 8-speed transmission, it's awesome! (but am really unhappy about having to come to a full stop to shift). Love the ventilated seat option, and back-up camera! Overall I think the car displays a look of quality, styling, & craftsmanship!
Feedback/Concerns:	I feel that any ime a car is ordered with the Luxury Series Package it should come with 18" wheels and Michelin touring-luxury ride tires. I should not have to be calling the Chrysler Customer Care line about it only to be disregarded (blown off). And I feel very awkward about having to ask my dealer about swapping my new wheels for some used ones to make it right. I don't feel that I should have to pay out any more money (\$900- tires, \$1,800-wheels) to get he ride of a luxury car that I was already expecting. If my dealer does swap out my wheels & tires with used ones, I'll be happy wi h the ride (I drove a 300 Limited with 18" wheels & tires, it was drastically smoother and quieter) but not so much about having used tires on a brand new car!

Steering, Handling, and Ride>Tires>	
Tires	Tires make excessive road noise while driving.

Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Engine>Engine Driveability (stumbles/hesitates/surges)>	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.

Steering, Handling, and Ride>Steering and Handling>	
Steering and Handling	Vehicle pulls noticeably to the left/right. Steering wheel vibrates excessively while driving.

Features/Controls/Displays>Features and Controls>Voice Activation System>Voice Activation System works properly, but difficult to understand/use; controls in a poor location>	
Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	Audio. System rarely understands commands System rarely understands commands
Please indicate why the Voice Activation System controls are difficult to understand/use; are in a poor location (check all that apply):	Voice recognition is very poor.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>	
Voice Activation / Recognition	Voice Activation / Recognition doesn't recognize command. Voice Recognition feature does not have enough functions available.

Interior Trim/Storage/Windows>Abnormal Noises>	
Abnormal Noises	Squeak/rattle/abnormal noises from overhead console.

Engine>Engine Idling (rough, too low/high)>Engine does not idle properly: idles rough, too low, or too high>	
How often does this trouble occur?	Trouble occurs regularly.
What best describes the engine idle trouble? (check all that apply):	Engine idling is rough.
Engine idle trouble occurs (check all that apply):	Driving the vehicle more than 5 minutes but less than 20 minutes.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Engine idle trouble occurs after vehicle is started at:	Cold condition - first start of the day or after vehicle is off for 6+ hours.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Engine>Engine power>Engine power is less than expected>	
How often does this trouble occur?	Trouble occurs regularly.

Engine>Engine power>Engine power is less than expected>	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble occurs while vehicle is (check all that apply):	Cruising/holding a steady speed on an uphill grade. Accelerating.
Does trouble only occur when vehicle is carrying multiple passengers and/or heavy cargo?	No.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers have poor sound clarity.

Interior Trim/Storage/Windows>Appearance>Interior materials soils/scuffs too easily>	
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.

Vehicle Exterior>Rear Side Doors>	
Rear Side Doors	Rear side doors are difficult to open/close.

Interior Trim/Storage/Windows>Appearance>Overhead console has gaps/poor fit>	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Engine>Engine Fuel consumption>	
Engine Fuel consumption	Fuel consumption is worse than expected.

Seats>Adjustments and Controls>	
Adjustments and Controls	Memory Seat controls are broken/not working.

Features/Controls/Displays>Features and Controls>	
Features and Controls	Voice Activation System. Wipers and washers.

Vehicle Exterior>Wind Noise>	
Wind Noise	Excessive wind noise.

Vehicle Exterior>Lights>	
Lights	Headlights aimed incorrectly.

Welcome>	
Please tell us how many miles are currently on your vehicle.	1678
Are you the primary driver of this vehicle?	No.

Interior Climate Control>Controls and Switches>	
Controls and Switches	Heating, ventilation and air conditioning controls are broken/not working.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesn't work/or is difficult to understand>	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Not enough locations to use the service - totally set up for large cities only. Not worth having since it doesn't work where I live. Needs to be expanded or dropped!

What Can We Do Better?>	
Feedback/Concerns:	Build a better car - really listen to the drivers of your cars and fix the problems they find! Paid way too much to have ANY problems!

Engine>Engine Idling (rough, too low/high)>	
Engine Idling (rough, too low/high)	Engine does not idle properly: idles rough, too low, or too high.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>Voice Recognition feature does not have enough functions available>	
Please describe the trouble you experienced:	Voice commands are not logical when functions are required. (Set Destination - find a location, show nav screen and other times. Really wanted his feature to work - rather disappointed with the reality of how the system works.

Vehicle Exterior>Trunk Lid/Liftgate>	
Trunk Lid/Liftgate	Trunk lid/liftgate is difficult to open/close.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which navigation system item has trouble (check all that	System gets confused about where it is and where I want to get to.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>

apply):	Doesn't recognize restaurants in the local area, or businesses either. Iphone works better - is not a "Clunky" and provides info much faster.
---------	---

Steering, Handling, and Ride>Tires>
--

Tires	Tires make excessive road noise while driving.
-------	--

Vehicle Exterior>Exterior Appearance/Paint:>Paint chip/scratch/other surface damage from outside influence present at delivery>

Please indicate which body panels had paint chip/scratch/other surface damage present at delivery (check all that apply):	Base plate under trunk lid scratched/damaged
---	--

Features/Controls/Displays>Features and Controls>Voice Activation System>

Voice Activation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.
-------------------------	---

Interior Climate Control>Operation and Performance>
--

Operation and Performance	Heating, ventilation and air conditioning vents are broken/not working.
---------------------------	---

Vehicle Exterior>Front Doors>
--

Front Doors	Front doors are difficult to open/close.

Media Players				MP3.			
				USB Connection/Media Slot.			

Entertainment/Navigation System/Connectivity>Navigation System>							
Navigation System				Difficulty accessing Points of Interest / Points of Interest not well defined.			

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>							
Hands-Free Phone / Bluetooth				Hands-Free Phone / Bluetooth system has poor sound quality at far end.			

Entertainment/Navigation System/Connectivity>Controls/Menus>Touchscreen Controls/Menu>							
Touchscreen Controls/Menu				Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location.			

Entertainment/Navigation System/Connectivity>Controls/Menus>Touchscreen Controls/Menu>Front seat audio/entertainment /navigation controls/menus difficult to use/in a poor location>							
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):				See comments under menu difficulties			
				All issues relate to MP3s on SD card. Some additional programming would be nice. I would like to be able to select a genre of music to play and only shuffle all songs within that genre. I can pick an artist or album and do it, but not a genre. Also navigation around this area is very clumsy.			

Entertainment/Navigation System/Connectivity>Media Players>USB Connection/Media Slot>							
Please describe the trouble you experienced (check all that apply):				Additional USB port in center console under radio location near lighter would be nice.			
To the best of your recollection, the trouble was first noticed:				At delivery.			
Approximate mileage when trouble was first noticed was:				0 - 1499 miles.			

Entertainment/Navigation System/Connectivity>Navigation System>Difficulty accessing Points of Interest/Points of Interest not well defined>							
Please describe the trouble with the Points of Interest within the Navigation system				Can't search for commercial location			
Additional Comments:				I understand that internet connectivity is required to be able to enter a commercial location and find the closest one, but maybe a feature could be added allowing the Nav system to use a Bluetooth connected cell phone's data channel to retrieve internet info for navigation and real-time info. When I can go on my Android and call up the closest McDonalds or favorite retail outlet to my location and nav to it, I don't need "dumb" nav in my car that I would have to manually enter a street address into.			

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>Hands-Free Phone/Bluetooth system has poor sound quality at far end>							
How often does this trouble occur?				Trouble occurs regularly.			
Sound quality is poor: (check one)				at far end.			

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>Hands-Free Phone/Bluetooth system has poor sound quality at far end>	
Please describe when this trouble occurs:	The issue happens regardless of the above. Windows closed, AC off, low exterior noise, even when not moving. In car sound is great, far end is low and unclear.
Do you usually set HVAC vent direction toward ceiling?	No.
Please describe when this trouble occurs	On all calls. I have heard from people called that the sound volume from me is very low and not very good. On my end in the car it sounds great. I love this feature and hope something can be done with some type of upgrade to improve the issue on my current model.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Slips/will not engage gear properly/shifts erratically. Hesitation or delay when shifting between gears. Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Slips/will not engage gear properly/shifts erratically>	
Going into which gear/gears does the trouble occur? (check all that apply):	I have the 8-speed trans and it typically shift from park to neutral, skipping reverse, then back to park when I try to shift up into reverse from neutral. No matter how careful I am, I would say 1 shift in 10 makes it directly into reverse from park. Other have driven the car and had the same issue.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Parked trying to back up...
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	All conditions
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
Going into which gear/gears does the trouble occur? (check all that apply)	Not sure.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	When driving at normal speeds and I need to pass or accelerate quickly, there is a definite lag (2-3 seconds) between pushing the peddle to the floor and the car responding. Some times you need power right now and it's not very comforting when it's not there..
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours. Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period. Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour. Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90?.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	Misses reverse and goes into neutral.
Why is the gear selector difficult to operate?	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Shifting into reverse
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	The electronic shifter is ok, but miss the "feel" of the car shifting where I want it. If you are off the least little bit on the shift into any gear, the shifter misses and goes in the wrong place. If the brake isn't pushed in far enough, nothing happens. Just a lot of little "sensor-related" things that you can't "feel". I can't shift into any gear without having to look at the panel to see if it went where I wanted it to. I have never had to do that with any other car I have ever had. once you knew the car you could focus on your surroundings rather than watching the panel to know where you were...

3 (neither agree nor disagree).

Please rate your overall level of satisfaction with the Smartphone Application

1 (very dissatisfied).

Please provide feedback on how Chrysler can improve the Smartphone Application

Make it interactive with the vehicle. Let me know when my oil needs to be changed, tires need inflation, alarm is going off, battery is low. I know other manufacturers have similar features though an internet service "for a fee", but the phone and car already connect via bluetooth. Why can't an app be written to take advantage of that connection and provide interactivity between the car and the smartphone without paying for a service. It would be a definite edge over the competition for a while. I mentioned earlier that a car's maintenance records could be stored on-board in the computer. They could also be held or kept in the app too and most people have some type of backup for their phones now. Lots of options here other than how to turn on the wipers...

Which feature or section of the Smartphone Application did you find least helpful and why?

Almost all of it. It seemed like just another version of the manual. Why would I want to take up space on my phone for that. I loaded it, looked through it and deleted it...

What Can We Do Better?>

What has Chrysler done right?

Updated vehicle designs and marketing. Your design team has brought back some "personality" to your vehicles. It's nice to see options for vehicles that aren't shaped like the euro-bubbles we have had so much of over the past several years. I have always been a GM guy, this is my first Dodge and I am very happy with it. The overall quality, fit and finish have really come up and I am glad. The "attitude" in the design is nice too, especially in the 2012's and 13's. Keep it up!

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?

No.

Do you usually set HVAC vent direction toward ceiling?				No.			
How often does this trouble occur?				Trouble occurs regularly.			
To the best of your recollection, the trouble was first noticed:				Within the 1st month after delivery.			
Approximate mileage when trouble was first noticed was:				0 - 1499 miles.			
Additional Comments:				I turn the fan down before using			

Overview>							
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?				Yes.			
Have you taken the vehicle to a dealer to have your trouble corrected?				Yes.			

Overview>

Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Was the trouble resolved to your satisfaction?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns:	I think the Bluetooth & USB direct connect could used some improvement. Many capabilities of my iPhone or wife's droid are not being used. When the 20 rallye wheels are purchased, it should include wheel locks. I should not have to \$50+ for something that should have been already on it.
What has Chrysler done right?	The assembly quality is exceptional.

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Category Level

Selection	<p>Seats.</p> <p>Transmission and Drivetrain.</p> <p>Entertainment/Navigation System/Connectivity.</p>
------------------	--

Transmission and Drivetrain>Automatic Transmission>Shifts at wrong times>

How often does this trouble occur?	Trouble occurs regularly.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	<p>Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.</p> <p>Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.</p> <p>Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.</p>
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	<p>After breaking, when accelerating back to normal speed it is almost like the transmission does not downshift and the vehicle has a slight jerking, almost like a manual transmission starting in too high of gear. It gives the impression that the engine is perhaps cutting out. Also happens with light acceleration.</p> <p>Seems to have trouble determining which gear to downshift to.</p>

Transmission and Drivetrain>Automatic Transmission>Shifts at wrong times>	
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	My experience is that at times it seems like the engine is cutting out (the way it feels driving) but it is not.
Please describe conditions when this trouble occurs:	Normal.
Going into which gear/gears does the trouble occur? (check all that apply)	Higher gears. (8-speed)

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Shifts at wrong times. Gear selector is difficult to operate (auto. trans.). Hesitation or delay when shifting between gears.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Going into which position is the gear selector difficult to operate? (check all that apply):	8-speed gear selector is just difficult to use. It is hard to consistently get the right gear. 8-speed gear selector is just difficult to use. It is hard to consistently get the right gear. 8-speed gear selector is just difficult to use. It is hard to consistently get the right gear.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Why is the gear selector difficult to operate?	Operation of gear selector is confusing/doesn't make sense.
Additional Comments:	The 8-speed gear selector is just awkward to use. I often only hit neutral when trying to put it in park and sometimes end up in neutral when trying to select reverse. Interesting design, just not implemented very well.

Entertainment/Navigation System/Connectivity>Speakers>Speakers are not loud enough>	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Trouble with speaker occurs:	At all volume levels.
Additional Comments:	The Alpine speakers with amp do not produce very good sound quality and the volume levels are poor. I regret not opting for one of the other radio upgrades. With that, for the cost of the current configuration, it is not worth the money.
Please indicate which speaker has trouble (check all that apply):	Poor sound quality, especially for an upgrade from base.

How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Please describe conditions when this trouble occurs:	Not a trouble, just suggestion.
Please describe the other trouble you experienced:	This is more of a feature, the weather display should include maps/radar. I have that feature on my other vehicle and is a big benefit. Also I do not understand why some static display information is blanked when driving. Offer override option.

Entertainment/Navigation System/Connectivity>Controls/Menus>	
Controls/Menus	Touchscreen Controls/Menu.

Entertainment/Navigation System/Connectivity>Speakers>	
Speakers	Speakers are not loud enough.

What Can We Do Better?>	
Feedback/Concerns:	When looking for a new vehicle, I was not considering Dodge. I had owned a Dodge Daytona back in the late 80s and had a very bad experience. I did have a good experience with a Chrysler Town & Country and was very pleased. This time I was moving from a Corvette and was looking for something with more room and comfort. I looked at Acura, Honda, Toyota, Ford, BMW, and finally drove the Charger on a whim. I was very surprised at the quality of the vehicle and the features. I bought it the next day, trading my 2008 Corvette.

What Can We Do Better?>

What has Chrysler done right?

I appreciate the committment to quality although I did experience some issues at delivery (dash panel buldging due to foam placement, loose spoiler) but they were quickly addressed by the dealership - very impressed with the service I received. Overall it is a great car and I do not miss my Vette. I am dissatisfied with the sound quality especially when compared with my wife's new Fusion. i hate the idea of having to now go out and look for aftermarket additions/replacement speakers. Also, it would be nice to see updates to the radio/nav system in order to add functionality such as weather maps, etc.

Brake System>Emergency/Parking Brake>

Emergency/Parking Brake	Emergency/parking brake does not adequately hold vehicle. Emergency/parking brake is too loose.
--------------------------------	--

Brake System>Brake Operation>Brake pedal feels mushy/soft>

Trouble with brakes occurs while traveling at these speeds (check all that apply):	heavy traffic / sometimes you have to break quick; brakes takes its time to slow down
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Brake System>Emergency/Parking Brake>Emergency/parking brake does not adequately hold vehicle>

Where does the emergency/parking brake problem occur?	Will not hold vehicle on level ground.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	emergency brake doesn't work on flat or incline
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	emergency brake needs to be tightened

Brake System>Emergency/Parking Brake>Emergency/parking brake is too loose>

Please describe what feels loose (check all that apply):	when pushing the pedal down it sometimes springs back up / emergency brake should do just that (hold/ stop the car in place (flat or incline)
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering, Handling, and Ride>Steering and Handling>

Steering and Handling	Vehicle pulls noticeably to the left/right. Steering system/wheel has too much play, feels loose.
------------------------------	--

Steering, Handling, and Ride>Noise and Vibration>

Noise and Vibration	Abnormal noises coming from steering system. Abnormal noises coming from under vehicle. Vehicle vibrates excessively while driving (not braking).
----------------------------	---

Steering, Handling, and Ride>Tires>

Steering, Handling, and Ride>Tires>	
Tires	Tires show excessive or uneven tread wear. Tires make excessive road noise while driving.

Steering, Handling, and Ride>Steering and Handling>Vehicle pulls noticeably to the left/right>	
What direction does the vehicle pull when driving?	Both Left and Right - Varies with conditions.
Vehicle pull is:	Moderate.
Trouble occurs while traveling at these speeds (check all that apply):	All speeds.
Trouble occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions. Rainy/wet road conditions.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering, Handling, and Ride>Steering and Handling>Steering system/wheel has too much play, feels loose>	
Trouble occurs while traveling at these speeds (check all that apply):	Medium speeds (26-45 MPH). High speeds (46 MPH and above).
Trouble occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions. Rainy/wet road conditions.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering, Handling, and Ride>Noise and Vibration>Abnormal noises coming from steering system>	
How loud is the noise?	Severe.
Noise sounds like (Check all that apply):	when moving the steering wheel from left to right when moving the steering wheel from left to right
From what area is the noise coming?	Steering column.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	when turning the steering wheel from left to right or right to left
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering, Handling, and Ride>Noise and Vibration>Abnormal noises coming from under vehicle>	
How loud is the noise?	Severe.
Noise sounds like (Check all that apply):	sounds like old vehicle; the car is not silent when you start it. it takes 36sec for the car noise to subside to a moderate sound; this is while cold or hot/ this noise comes from the driver's front and the passenger's front; in addition it sounds like someone threw a nut under the hood Clicking. Ticking/tapping. Screeching.
From what area of the vehicle is the noise coming?	Driver's side - front.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	all the time
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	took it back to the dealer:IPAC (service Dept) / Service Mgr. said that is normal for all the 2012 Chargers to sound that way

Steering, Handling, and Ride>Noise and Vibration>Vehicle vibrates excessively while driving (not braking)>	
Vibration is:	Slight.
Trouble occurs while traveling at these speeds (check all that apply):	Medium speeds (26-45 MPH). High speeds (46 MPH and above).
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering, Handling, and Ride>Tires>Tires show excessive or uneven tread wear>	
Which tire is experiencing excessive or uneven tread wear? (check all that apply):	Driver's side front tire. Passenger's side front tire. Driver's side rear tire. Passenger's side rear tire.
Where does the excessive or uneven tread wear appear on the tire?	Random areas of excessive wear across tread surface (cupping).
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering, Handling, and Ride>Tires>Tires make excessive road noise while driving>	
Trouble occurs while traveling at these speeds (check all that apply):	All speeds.
Trouble occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions. Rainy/wet road conditions.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Heating, ventilation and air conditioning vents are broken/not working. Air conditioner never gets cold enough.

Interior Climate Control>Operation and Performance>Heating, ventilation and air conditioning vents are broken/not working>	
Please indicate which control is broken/not working properly (check all that apply):	can not control the temperature in the back Vents.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Climate Control>Operation and Performance>Air conditioner never gets cold enough>	
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Outside temperature over 100° F. Outside temperature over 90° F. Outside temperature over 80° F.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Engine>Engine Driveability (stumbles/hesitates/surges)>	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.

Engine>Engine Noise (abnormal)>	
Engine Noise (abnormal)	Engine makes abnormal/excessive noises.

Engine>Engine Fuel consumption>	
Engine Fuel consumption	Fuel consumption is worse than expected.

Engine>Engine Driveability (stumbles/hesitates/surges)>Engine stumbles/hesitates/surges>	
What best describes the engine drivability trouble? (check all that apply):	sometimes it a little slow to change gears from fast to slow ; in addition when going slow and you want to speed up some times it wont pick up speed
Engine trouble occurs (check all that apply):	at any given time at any give time
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	within the 1st few days I noticed the car was making noise when you start (cold) and then when the vehicle is (warm and hot)

Engine>Engine Noise (abnormal)>Engine makes abnormal/excessive noises>	
Engine noise sounds like (check all that apply):	maybe more like a rattle
Engine noise occurs while vehicle is (check all that apply):	very pronounce while at a drive thru, garage or even if you just roll the windows down
Engine noise occurs (check all that apply):	Within first 5 minutes after starting vehicle.
Engine noise occurs after vehicle is started at:	Cold condition - first start of the day or after vehicle is off for 6+ hours. Warm condition - after vehicle is off for 1 - 6 hours. Hot condition - after vehicle is off for less than 1 hour.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Transmission Noises>	
Transmission Noises	Transmission makes abnormal/excessive noises.

Transmission and Drivetrain>Transmission Noises>Transmission makes abnormal/excessive noises>	
Noise sounds like (Check all that apply):	when putting vehicle in gear you hear it click; in addition when the vehicle is on a slight incline it gets stuck in gear and clicks very loud when you finally get it into gear
Please indicate driving condition when noise occurs (check all that apply):	going from park to reverse; park to drive and so on

Transmission and Drivetrain>Transmission Noises>Transmission makes abnormal/excessive noises>

Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):

Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.

Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.

Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.

Hot condition: Vehicle has been driven more than 20 minutes under severe load and/or in temperatures greater than 90°.

How often does this trouble occur?

Trouble occurs regularly.

To the best of your recollection, the trouble was first noticed:

At delivery.

Approximate mileage when trouble was first noticed was:

0 - 1499 miles.

Overview>

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?

Yes.

Have you taken the vehicle to a dealer to have your trouble corrected?

Yes.

Where did you take your vehicle to have your trouble checked out? (check all that apply)

IPAC refused to allow me a chance to voice my concerns to Mr. Benson. Wes Skidmore told me, "we only sell cars here and we don't take them back" I have received the run around from [REDACTED] refused to return my phone call until a raised hell about speaking with Mr. Benson. I would NEVER refer IPAC to anyone and I will NEVER purchase another vehicle from IPAC

Was the trouble resolved to your satisfaction?

No.

Overall, how satisfied are you with the quality of your new vehicle?

Neither satisfied nor dissatisfied.

Would you recommend this vehicle to family or friends?

No.

If our team has any additional questions about your responses, would you accept further contact?

Yes, by phone or e-mail.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns:

I would not refer IPAC to anyone; simple concerns pertaining to a new vehicle that was purchased was not handled properly. They are more concerned getting old vehicles off the lot than the customer. Once the vehicle is sold they could care less about what is wrong with the vehicle. They failed to advise the vehicle I purchased was purchased by someone else and the vehicle had to be returned for whatever reason; IPAC is under the consumption that I do not want my Charger. They are mistaken. I Love my car...I just want my NEW car to run NEW & NOT OLD.

What has Chrysler done right?

good salesman Rob Sumpter

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>

You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Like the overall look of the car, nice grille and stylish looks from all sides.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	Veru roomy and comfortable with plenty of space for 5 adults
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Prboably the gas mileage, which is great for a full size car like this.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	Engine is peppy yet very quiet while accelerating

Vehicle Satisfaction Rating>Detail on Low Rated Items>Detail on Low Rated Items>Detail on Low Rated Items>

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The one thing I don't like about the car is the way it shifts into drive from park and vice versa.. It is not a smooth transition, you really have to pay attention to make sure its in gear. Many times I think I am in park and its in neutral or something else. it just seems to difficult for something that should be easy and smooth.

Vehicle Exterior>Exterior Appearance/Paint:>Paint blemish/dirt in paint/foreign material under surface>

To the best of your recollection, the trouble was first noticed: At delivery.

Approximate mileage when trouble was first noticed was: 0 - 1499 miles.

Please indicate the location of the paint issue (check all that apply): Drivers side

Additional Comments: Dealer fixing

Vehicle Exterior>Front Doors>Door handle/latch works, but is difficult to operate>

Why is the door handle/latch difficult to operate? (check all that apply): Requires too much effort/force to operate.

How often does this trouble occur? Trouble occurs regularly.

To the best of your recollection, the trouble was first noticed: At delivery.

Approximate mileage when trouble was first noticed was: 0 - 1499 miles.

Please indicate which door has a handle/latch that is difficult to operate (check all that apply): Interior latch hard pull to open, door sometimes requires additional force to close

Please describe conditions when this trouble occurs: getting out and closing

Transmission and Drivetrain>Automatic Transmission>

Automatic Transmission Gear selector is difficult to operate (auto. trans.).

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle? Yes.

Have you taken the vehicle to a dealer to have your trouble corrected? Yes.

Where did you take your vehicle to have your trouble checked out? (check all that apply) Took to the dealer I purchased my vehicle from.

Was the trouble resolved to your satisfaction? Yes.

Overall, how satisfied are you with the quality of your new vehicle? Very satisfied.

Would you recommend this vehicle to family or friends? Yes.

Please explain further about your choice to recommend your vehicle: First Dodge, been a Chev driver for 40 years

If our team has any additional questions about your responses, would you accept further contact? Yes, by phone or e-mail.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)? No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Engine>Engine Noise (abnormal)>

Engine Noise (abnormal) Engine makes abnormal/excessive noises.

Engine>Engine Noise (abnormal)>Engine makes abnormal/excessive noises>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Engine noise sounds like (check all that apply):	At first start and about for 2 miles, if it were an older car I would say a tappit needs adjusting
Engine noise occurs while vehicle is (check all that apply):	Accelerating.
Engine noise occurs (check all that apply):	Within first 5 minutes after starting vehicle.
Engine noise occurs after vehicle is started at:	Cold condition - first start of the day or after vehicle is off for 6+ hours.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	at start
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	Drive (D).
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Must pull into drive 1-4 times
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

What Can We Do Better?>	
Feedback/Concerns:	Quite concerned that no loaner car is made available without an argument for a factory paint problem received and detailed by dealer.
What has Chrysler done right?	AWD

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns: One small thing I would recommend is to make a back up camera standard equipment on the 300. It is such a large car and being a luxury car, that is one option it should always have to compete with other brands.

What has Chrysler done right? I was so impressed and surprised at how far Chrysler has come in the last couple of years. I was shopping for Cadillac, BMW and Volvo when I happened to come across the Chrysler 300. I had never even considered it before. I had a very knowledgeable salesman who went on about the technology of the engine and 8 speed transmission, etc, etc. I bought the car on the spot and have loved it ever since. Much better then the Cadillac CTS, BMW 328i, and Volvo S60 at a much better price. I feel like this is a car company for the future, not just trying to keep up with the rest.

What is your attitude overall towards your new car?	5.
What are your favorite parts of your new vehicle?	The smoo h quiet ride, the fuel economy, the most comfortable seats I ever sat in, UConnect is amazing, beautiful styling
Is there anything about your new vehicle you would like to see changed?	I love the 8 speed transmission but it is taking me a while to get used to the shifter. It is really like a toggle switch and it is tricky getting it into reverse.

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	The big touch screen is so easy to use and to see while driving. Works great with my cell phone. And the navigation has been pretty accurate. I am still learning all the stereo features.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	This bluetooth system works seamlessly.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	The 300 is such an impressive looking car. The styling puts it on par with German cars that have a much higher price tag. I especially like the 20" wheels on mine along with the LED driving lights. The gigantic sunroof is amazing. This car stands out in a crowd.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	My car is Deep Cherry Red Crystal Pealcoat and really sparkles in the sun light! Friends have made a point to comment on the beautiful paint compared to other car brands.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Very unique and pronounced grille, makes you know it's a Chrysler the minute you see it. No one will confuse this with any other car. I like that. The new headlights are beautiful, very very high end. Just the right amount of chrome on the front of the car.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	For being a large car, it has great proportions. The car looks very substantial and solid. I like that the sides of the car are clean without a lot of lines and swoopy creases. The long hood and shorter trunk give it a little sporty look.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	I like that the rear bumper has been integrated into the trunk and taillights better than the previous model. Taillights look very high quality, and just the right amount of chrome trim. The chrysler logo really stands out nice on the trunk lid. Back up camera is amazing, works great.
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	I have the 300S that comes with the 20" wheels. I have never had so many compliments from friends and family before. They all love the wheel size and design. I think they really suit the overall styling of the car and the size of the car. They look sporty and elegant at the same time.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	These are without a doubt the most comfortable seats I have ever had in an automobile. I am [REDACTED] with long legs. I was immediately comfortable behind the wheel. Plenty of room for my legs and great support on my back. The controls are simple to use and I can't wait to take this car on a long driving trip. Very eash to get in and out as well. One of the things hat really sold me on buying this car was the interior design. My 300S has the piano black accents and carbon fiber accents. This looks so modern and elegant and sporty. A beautiful combination of textures and finishes. Very upscale. I like this so much better han the wood and silver finishes of the other 300 models. And the french stictching on the seats also looks very expensive. The texture of the upper dash and door panels is a higher quality then what I saw in Cadillac CTS and BMW 328i. And the interior is so quiet, very well put together, very high quality throughout. Great room and comfort, I love the push button start. The way the instruments light up looks like a million dollars!
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	Great storage in this car. Huge trunk, I love that the seat back fold down. Big center console and glove compartment. Very roomy.

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>	
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	Plenty of leg and head room.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	I love the more upright seating position. Very easy to get in and and step out.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	I am very impressed with the quietness of this car. It feels so solid and well built.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	The BEST seats ever. And without a million switches to control them. Very easy to find the perfect seating postion. Every car manufacturer should have seats like these.
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	I have the manual steering wheel controls. They work perfectly and are very easy to use. Can't imagine why anyone would need the power controls.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	The interior lighting is so well thought out. More lights than I could ever use, but I am glad they are there when I need them.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	Great visibility all around. I love the command seating position. Much easier to see out the back and side windows than the Cadillac CTS. Easy to change lanes.
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	Just press the auto button and you are done. And so easy to touch the arrows up or down to adjust if needed. I appreciate the touch screen controls as well as the knobs and buttons. It all works great.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	I have the Pentastar V6 with the 8 speed transmission. Great power when in sport mode. The paddle shifters are a lot of fun. And I easily get 32 mpg on the highway going 70-75.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	Very quiet engine exhaust, I like that.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	This 8 speed transmission is amazing. Very smooth and effortless.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	I am getting 32 mpg highway and 21 mpg city
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	Brakes feel strong and solid, good pedal feel.
You rated ride quality High. Use this space to provide any specific comments you would like to share.	The ride quality really sold me on this car. So smooth and quiet. I feel like I am floating down the road. And still handles well when turning. Smooths out all the bumps in the road.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Handles well when taking sharp turns or quick lane changes.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	This car seems very well put together, solid, feels like QUALITY. I am planning on keeping this car for a long time and feel like it will hold up great.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	This 300S is probably the best car I have ever owned. And I have had Lincolns, Buicks and Jaguars in the past. I am so glad I made his purchase and I honestly look forward to every time I have to drive somewhere. Thanks Chrysler!
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	The 8 speed transmission is an industry leader. The overall smooth ride and quiet interior is not at all like other Chryslers I have owned in he past. And just the overall quality and attention to detail on this car has definitely exceeded my expectations of Chrysler.

Vehicle Satisfaction Rating>Detail on Low Rated Items>Detail on Low Rated Items>Detail on Low Rated Items>	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The only negative thing I can hink of is that the headlights fog up inside. You can see condensation along the bottom of both headlights. The dealer told me this is normal.

Welcome>

Please tell us how many miles are currently on your vehicle: 7,000-9,000.

Are you the primary driver of this vehicle? Yes.

Have you experienced any issues with your new vehicle? No.

No Concerns>

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle? Yes.

Have you taken your vehicle to an authorized dealer for any reason? (check all that apply): Have not taken my vehicle to any dealer since taking delivery.

Overall, how satisfied are you with the quality of your new vehicle? Neither satisfied nor dissatisfied.

Please explain further about your choice to recommend your vehicle: I like the car. Quality is better but still needs work on attention to detail. Wea herstripping around door trim was not seated properly. Armrest black leatherette on doors, headrest, and center console feel cheap and low grade. The steering boot on the fire wall makes a faint noise. A lot of interesting noises actually. I heard water flowing out of the heater core after I had the heat on. It works with no problems so far. I really do like the car very beautiful I just have my reservations on the quality.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)? No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns: Great car I like the v6 and 8 speed tranny especially in sport mode. Gas consumption is good but not great. I average about 27 mpg. I would like to put an after market exhaust to see if that would improve hp and mpg. I still question quality. Disappointed in quality of non leather surfaces.

What has Chrysler done right? Design and ergonomics I like. The s fits my personality I would of loved to have actual carbon fiber trim like the srt's

What is your attitude overall towards your new car?	4.
What are your favorite parts of your new vehicle?	engine/transmission.
Is there anything about your new vehicle you would like to see changed?	The electronic shifter is difficult to get used to. Improvements in the switch detents are required. Think about making the detents adapt/change when in certain gears. eg: in park, make the park to reverse detent stronger to prevent moving past reverse into drive.

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>

You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	Easy to load your tunes on the media drive and access content.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	The vehicle gives the impression of a luxury performance vehicle
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	I like the Jazz blue color
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	The LED headlight surrounding pattern looks cool at night
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	The larger size wheels on the vehicle give it a more aggressive stance
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Lighting works well during night time driving.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	I'm not too tall, [REDACTED] but have shorter legs. It's easy to move the seat and wheel to get comfortable. Memory settings are a bonus when my wife and I switch cars.
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	I like the wheel adjustments. I can get it into a position so I can see the gauges well.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	The powertrain is very responsive and smooth. I do notice a bit of valvetrain noise during cold starts though.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	The 8 speed transmission works well and does not hunt for gears during normal driving.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Overall first impressions are good. I like the lighter beige/brown interior, but the floor mats seem to show dirt very easily. I'm hoping that they wash well.

Vehicle Satisfaction Rating>Detail on Low Rated Items>Detail on Low Rated Items>Detail on Low Rated Items>

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	1) Chrome ring stays cold during heated steering wheel use. 2) Valvetrain noise on cold starts is unexpected. 3) Floor mats show the dirt very easily.

Continuous Quality Insight

Continuous Quality Insight

Features/Controls/Displays.
Interior Climate Control.
Engine.
Vehicle Exterior.
Transmission and Drivetrain.

Vehicle Exterior>Exterior Appearance/Paint:>

Exterior Appearance/Paint: Wheels were chipped/scratched/damaged at delivery.

Vehicle Exterior>Exterior Appearance/Paint:>Wheels were chipped/scratched/damaged at delivery>

Please indicate which wheels were damaged (check all that apply):

Driver's side front wheel.
Passenger's side front wheel.
Driver's side rear wheel.
Passenger's side rear wheel.

Additional Comments: The following comments apply to all wheels: Some scratches & chips, several places where some type of adhesive residue is left on top of coating hat is very difficult to remove

Engine>Engine Driveability (stumbles/hesitates/surges)>

Engine Driveability (stumbles/hesitates/surges) Engine stumbles/hesitates/surges.

Engine>Engine Driveability (stumbles/hesitates/surges)>Engine stumbles/hesitates/surges>

What type of fuel do you most often put into your vehicle? Regular gasoline.

What best describes the engine drivability trouble? (check all that apply):

Occurs on hard acceleration from low speeds. Vehicle engine spooed at 40 MPH is approximately 1000 rpm and seems to be lugging; stumble occurs when accelerating from this speed range

The inability to control the gear at any time is a problem. Trying to use the engine to control down hill speed is a real problem! Transmission (8 speed) continues to downshift regardless of engine speed! on one occasion, downshifting continued automatically and engine redline was exceeded. i am concerned that some engine damage may have occurred that will surface at a later time.

How often does this trouble occur? Trouble occurs regularly.

Please describe conditions when this trouble occurs: Using engine to control down hill speed by shifing into "L".

To the best of your recollection, the trouble was first noticed: At delivery.

Approximate mileage when trouble was first noticed was: 0 - 1499 miles.

Additional Comments: Transmission control lever is irregular in its operation. Sometimes will only shift to reverse from park, other times will shift to all other positions from park. Same thing happens when shifing into park from other positions.

Transmission and Drivetrain>Automatic Transmission>

Automatic Transmission Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

Going into which position is the gear selector difficult to operate? (check all that apply):

See prior comments under engine driveability.
See prior comments under engine driveability.
Other (please describe).

Why is the gear selector difficult to operate? Trouble occurs regularly.

How often does this trouble occur? no control of which gear transmission will change to when lever is operated.

Please describe conditions when this trouble occurs: At delivery.

To the best of your recollection, the trouble was first noticed:

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

Approximate mileage when trouble was first noticed was:

0 - 1499 miles.

Additional Comments:

Vehicle now has approximately 2700 miles at this time. starting to no ice a slight impact or "clunk" when vehicle is put into forward or reverse.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?

Yes.

Have you taken the vehicle to a dealer to have your trouble corrected?

No.

Overall, how satisfied are you with the quality of your new vehicle?

Satisfied.

Would you recommend this vehicle to family or friends?

Yes.

Please explain further about your choice to recommend your vehicle:

i have had several Dodge vehicles in the past and find that their quality is generally acceptable in nature and generally trouble free. Any problems experienced with the initial operation, as I am experiencing now, are usually corrected at the first visit to the dealership for service.

If our team has any additional questions about your responses, would you accept further contact?

Yes, by phone or e-mail.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?

Yes.

The Smartphone Application format is easy to understand and use

4 (agree).

Information in the Smartphone Application is easy to find and access

4 (agree).

Smartphone Application covers the necessary features

4 (agree).

Please rate your overall level of satisfaction with the Smartphone Application

Please tell us how many miles are currently on your vehicle:				More than 10,000.			
Are you the primary driver of this vehicle?				Yes.			

Continuous Quality Insight							
Continuous Quality Insight				No Concerns.			

No Concerns>							
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?				Yes.			
Have you taken your vehicle to an authorized dealer for any reason? (check all that apply):				I pulled the manual transmission lever and could not reset it...			
Please explain further about your choice to recommend your vehicle:				I cannot say enough good things about this car.			
Overall, how satisfied are you with the quality of your new vehicle?				Very satisfied.			
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?				No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).			

What Can We Do Better?>							
Feedback/Concerns:				The breaks need to be bigger/better the car is too big of a beast for such small breaks... I would love to see that v6 with a supercharger			
What has Chrysler done right?				The look of the car is magnificent... I love the lines of the car... It is a true American car. I love the size. I love how spacious it is. I have no idea how long the interior will hold up but I love the simplicity of the interior coupled with the sportiness of the interior. The v6 is a winner. I drove it from McAllen, TX to Charleston, SC and got 34 mpg and I was impressed and thrilled. The car is smooth and quiet and feels fast and sporty. I love that it is a rear wheel drive. I love everything about the car. I loved the price of the car. It is equipped with all the comforts that one could want in a car. I love the "key in the pocket," feature. I love satellite radio and the whole package for the price is outstanding. I've had nice cars (BMW, Cadillac, Corvette and Acura among o hers, but I think I've enjoyed this car the most. There is so much more... Keep up the good work.			

Contact Me>							
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?				Yes.			
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.				I'd like to tell you what is great about the car and a couple of things that require improvement.

Are you the primary driver of this vehicle? Yes.

Continuous Quality Insight

Continuous Quality Insight
Engine.
Transmission and Drivetrain.
Vehicle Exterior.

Engine>Engine Fuel consumption>

Engine Fuel consumption Fuel consumption is worse than expected.

Engine>Engine Fuel consumption>Fuel consumption is worse than expected>

What type of fuel do you most often put into your vehicle? Regular gasoline.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle? No.
Where do you do most of your driving? Other (please describe).
Are you using your vehicle for towing when the problem occurs? No.
How often does this trouble occur? Trouble occurs regularly.
Please describe conditions when this trouble occurs: Normal driving.
To the best of your recollection, the trouble was first noticed: At delivery.
Approximate mileage when trouble was first noticed was: 0 - 1499 miles.
Additional Comments: Driving is combination of rural and highway. Was expecting 23 to 26 mpg. Getting 21 to 22.

Transmission and Drivetrain>Automatic Transmission>

Automatic Transmission
Shift between gears is rough/harsh under normal driving conditions.
Gear selector is difficult to operate (auto. trans.).
Shifting paddles/buttons difficult to operate.

Transmission and Drivetrain>Automatic Transmission>Shift between gears is rough/harsh under normal driving conditions>

Going into which gear/gears does the trouble occur? (check all that apply) Occasionally seems to slip or pulse through the initial gears.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply): Normal acceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply): Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
How often does this trouble occur? Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed: Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was: 0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

Going into which position is the gear selector difficult to operate? (check all that apply): Difficult to his R going from Park. Usually goes to N first.
Too often going from R to D, I get hung up at N, probably because I may not have the brake pedal pressed hard enough.
Why is the gear selector difficult to operate? Other (please describe).
How often does this trouble occur? Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed: At delivery.
Approximate mileage when trouble was first noticed was: 0 - 1499 miles.
Additional Comments: There is no "feel" for the shift selector. I have to look at the display to see what gear has been selected. I prefer individual positions for each gear. Then I know by feel, which gear I have selected. The paddle shifters on the steering wheel are a bad idea. I too often hit one by mistake, then I'm stuck in that gear until I cycle the selector in and back out of "Sport" mode, or in and out of "neutral". I like the idea of

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

manual shifting, but the positioning of the paddles was definitely not an engineering marvel. A separate shift mechanism on the center console, by the gear selector would be much better. A secondary positioning of the gear selector itself would be ideal.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?

Yes.

Have you taken the vehicle to a dealer to have your trouble corrected?

No.

Overall, how satisfied are you with the quality of your new vehicle?

Satisfied.

Would you recommend this vehicle to family or friends?

Yes.

Please explain further about your choice to recommend your vehicle:

Comfortable for a tall person. Handles great.

If our team has any additional questions about your responses, would you accept further contact?

Yes, by phone or e-mail.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?

No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns:

When the new Charger came out in '06, I swore I'd never purchase one. Only four door and automatic transmission is an "old man's car", not a sports car, and not worthy of consideration. Having test driven one on a whim at a used car lot, I found its roominess and handling characteristics rather astounding. Finding myself in the need to downsize my Tahoe, I chose to go the Charger route, since I wasn't looking for "sport", but mileage and utility. If Chrysler had come out with a two door, manual transmission version in 2006, I wouldn't have wasted 6 years of Tahoe depreciation.

What has Chrysler done right?

Reintroduced the Challenger.

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?

Yes.

Please tell us how many miles are currently on your vehicle: 1,000-2,999.

Are you the primary driver of this vehicle? Yes.

Continuous Quality Insight

Continuous Quality Insight: Transmission and Drivetrain.
Features/Controls/Displays.
Entertainment/Navigation System/Connectivity.

Features/Controls/Displays>Displays and Instruments>

Displays and Instruments: Odometer/trip odometer works properly, but difficult to understand/use; controls/displays poor loc..

Features/Controls/Displays>Displays and Instruments>Odometer/trip odometer works properly, but difficult to understand/use; controls/displays poor loc.>

Odometer/trip odometer works properly, but difficult to understand/use; controls/displays poor loc.: Controls/displays require too much attention (must take eyes off the road) to operate.

Media

Media: Radio.

Entertainment/Navigation System/Connectivity>Speakers>

Speakers: Speakers have poor sound quality.

Speakers have poor sound quality

Please indicate which media sources were being played (check all that apply): Satellite radio has very little bass and highs are very tinny sounding, don't have this problem with other sources.

How often does this trouble occur? Trouble occurs regularly.

Please describe conditions when this trouble occurs: Always

To the best of your recollection, the trouble was first noticed: Within the 1st month after delivery.

Approximate mileage when trouble was first noticed was: 0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>

Automatic Transmission: Shifts at wrong times.
Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Shifts at wrong times>

Going into which gear/gears does the trouble occur? (check all that apply) Shifts into 3rd too quickly and kills acceleration under normal throttle

Please indicate driving condition where the shifting trouble is noticeable (check all that apply): Shifts too quickly, can only avoid this by switching to sport mode

Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):
Cool condition: Vehicle has been driven less than 5 minutes from a cold start where the vehicle has not been running for at least 6 hours.
Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.

Are you using your vehicle for towing when the problem occurs? No.

How often does this trouble occur? Trouble occurs regularly.

To the best of your recollection, the trouble was first noticed: Within the 1st month after delivery.

Approximate mileage when trouble was first noticed was: 0 - 1499 miles.

Additional Comments: Transmission is too aggressive with up shifting in normal mode, sport mode makes it better but must switch back to normal for cruising to maintain fuel economy.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	Very easy to click too far back and go into N or D Very easy to click too far and go into D Other (please describe).
Why is the gear selector difficult to operate?	Trouble occurs regularly.
How often does this trouble occur?	At delivery.
To the best of your recollection, the trouble was first noticed:	0 - 1499 miles.
Approximate mileage when trouble was first noticed was:	Gear selector is frustrating because it doesn't 'hard set' into position, only temporarily clicks and springs back to center. This is especially annoying when switching from D to R while trying to do 3 point turn or get into difficult parking spot, requires driver to look down at gear selector to ensure correct gear is selected instead of using 'feel'.
Additional Comments:	

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	Car rides great, great engine, quality interior, and good looking exterior. The only things I would change are the transmission programming and the satellite radio sound quality
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	4 (agree).
Information in the Smartphone Application is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).

What Can We Do Better?>	
Feedback/Concerns:	Avoid gimmicky features and focus on driving experience (new gear selector does not deliver a good driving experience).
What has Chrysler done right?	Everything else!

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	No.

Seats.
Transmission and Drivetrain.

Transmission and Drivetrain>Automatic Transmission>

Automatic Transmission
Shifts at wrong times.
Hesitation or delay when shifting between gears.
Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Shifts at wrong times>

Are you using your vehicle for towing when the problem occurs? No.
How often does this trouble occur? Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed: Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was: 0 - 1499 miles.
Going into which gear/gears does the trouble occur? (check all that apply)
feels like car stops between 1st and 2nd, have to kick gas hard to get moving, i dont trust it when pulling into traffic. 1st gear on this car is useless.
same as above, but not nearly as much
car does not downshift at appropriate times when cornering. I have to kick the gas to get moving, then the car downshifts and takes off like a slingshot
starting from a stop, car really bogs down on shift from 1 to 2, and again from 2 to 3, but not as much
slowing down to turn a corner - car does not downshift, so when turn is complete car is in too high a gear, forcing me to stomp gas to make it downshift
bog between 1st and 2nd is worst when car is cold, and improves only slightly when warmed up
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):
Please describe conditions when this trouble occurs:
all the time
Additional Comments:
I hate this transmission. It's completely ruining the new car experience.

What Can We Do Better?>

Feedback/Concerns:
I bought the car at 8:30PM on a Friday night. At 10AM the next morning, I received a survey call from Chrysler asking me how things were going. I told her the four mile drive home was lovely. I received a total of FOUR survey calls in the first week I owned the car. That's ridiculous, and makes you look disorganized.
What has Chrysler done right?
Styling - vast improvement from the last several generations of chryslers

Please tell us your cell phone model	4S
If known, please tell us your software version	6.0.2

Entertainment/Navigation System/Connectivity>	
Entertainment/Navigation System/Connectivity	Mobile Hotspot, Power inverter for use with Mobile Hotspot and to power Tablet/laptop

Hands-Free Phone / Bluetooth system has poor sound quality for the receiver of the call	
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.
Sound quality is poor: (check one)	For the receiver of the call.
Please describe when this trouble occurs:	When ever I make a call if I take the call off of bluetooth the o her person can instal=ntly hear and understand me better.
Do you recall your cellular coverage at the time?	Full cellular coverage.
Does the issue occur when speaking at regular volume?	Yes.
At other times during use does your phone have poor call quality?	Yes.
Additional Comments:	Whenever I use it on Bluetooth. Also have a problem that when my phone is connected to he entertainment center through the USB Cord - it always tries to play the IPOD even if I am on a call - the music playing in the "background" interferes with the call quality. Have to pull up the "Music" app onthe phone - select the song playing, and hit pause or stop. Not fun when you are driving down the road in traffic.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>Voice Activation/Recognition doesnt recognize command>	
Please describe when this trouble occurs:	Trying to tell it to tune to a specific XM Channel
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>Voice Recognition feature does not have enough functions available>	
Please describe additional functions you would like to have:	Power inverter with TWO ou lets at least 400 watts. Better more comfortable seats!! I have the heated/vented seats NOT ENOUGH PADDING. Better headlights! Larger sideview mirrors (or at least extended out more for a better rear view). More comfortable foot positions in the driver footwell. Floorboard is not wide enough or deep enough. Seat doesn't go back far enough and I am [REDACTED]. Better padding on the door and on the center console where your elbows rest. Parking sensors under the "CHIN" of the car to avoid scraping the undeside on parking stops or when parking up to a sidewalk. (This would be an industry "First"!) Please use a better drivers window "Felt" that won't hold dirt and scratch the window as it goes up or down. Maybe use a harder glass that won't scratch so easy. Fix the SHIFTER on the 8-speed transmission!! Too hard to find reverse all the time! Maybe you should use a rotary shifter like what is on the new Ram Truck that has the 8 speed transmission. The push button is not a positive enough feel to make shifting feel definite. Put turn signal lights on the outside of the mirrors and puddle lights under them. Use brighter LEDS inside the car - still too dark at night with a all black interior. Too much info? Call me at [REDACTED]. I love my car but I can be better!

Hard controls/menus: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	Screen lighting not always bright enough have to keep adjusting at twilight
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Maybe a better light sensor tied to the headlight operation.

Front seat audio/entertainment/navigation system did not meet expectations	
Please indicate what about the system did not meet your expectations	The navigation system is missing the moving weather map that the new 2012 Dodge Ram has. Upgrade the OTHER functions in travel link. How about linking upo with Verizon and offer 4G internet in your vehicles??!
Additional Comments:	The GPS constantly gets lost. I was trying to find a Citgo Gas Station and it took me into the woods and then to a non-existant road not once but twice in Mississippi!

Touchscreen Controls/Menu: Front Screen Display does not meet expectations	
Please indicate why the front screen did not meet your expectations (check all that apply):	Display too small.

Touchscreen Controls/Menu: Front Screen Display: Other Concerns	
Please describe the other trouble you experienced:	Screen quality could be better - I have a tablet (Asus Transformer) with a better screen
How often does this trouble occur?	Trouble occurs regularly.

Radio	
Radio	AM/FM/HD/Satellite radio channels have poor or no reception.

AM/FM/HD/Satellite radio channels have poor or no reception	
Please indicate which frequency band has trouble (check all that apply):	Looses connection - drops signal
How often does this trouble occur?	Trouble occurs regularly.

Speakers have poor sound quality	
Please indicate which speaker has trouble (check all that apply):	Not clear sound like I expected for a top of the line sound system
Please indicate which media sources were being played (check all that apply):	USB Drive. Satellite Radio. Telephone call.
Trouble with speaker occurs:	At all volume levels.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Entertainment/Navigation System/Connectivity>Speakers>Speakers are not loud enough>	
Please indicate which speaker has trouble (check all that apply):	All speakers in the vehicle.
Please indicate which media sources were being played (check all that apply):	CD. USB Drive. Bluetooth Streaming. Satellite Radio. Telephone call.
Trouble with speaker occurs:	At all volume levels.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	It does not show all roads and consistently shows target location on the wrong side of the road See above and also when travel link lists a gas station around me - the gps cannot find it - sends me into the woods where there is no road and no gas station!
Please indicate which navigation system item has trouble (check all that apply):	Map is missing information. Map contains incorrect information. Navigation system provides wrong directions.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesn't work/or is difficult to understand>	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	Never see (delays) not accurate info

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	Hotels
Additional Comments:	Info should be updated in travel link through the satellite link

Points of Interest incorrect	
Please describe the trouble with the Points of Interest within the Navigation system	Info is incorrect

Features/Controls/Displays>Features and Controls>	
Features and Controls	Wipers and washers. Side window operation/controls. Rear view mirrors (interior/exterior). Active Suspension System. Tire pressure monitoring system. Interior lights. Reverse-Camera. Voice Activation System.

Features/Controls/Displays>Displays and Instruments>	
Displays and Instruments	Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use.

Features/Controls/Displays>Features and Controls>Wipers and washers>	
Wipers and washers	Windshield wipers/washers broken/not working properly.

Features/Controls/Displays>Features and Controls>Wipers and washers>Windshield wipers/washers broken/not working properly>	
Please indicate which feature of the windshield wiper/washer system is broken/not working properly (check all that apply):	Do not clean the windshield properly (clean enough area)
Please indicate what type of trouble was experienced with the windshield wipers/washers (check all that apply):	Wipers smear/do not adequately wipe windshield for clear visibility. Spray pattern does not properly cover area being wiped.

Features/Controls/Displays>Features and Controls>Wipers and washers>Windshield wipers/washers broken/not working properly>	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Features and Controls>Side window operation/controls>	
Side window operation/controls	Side window works properly, but is difficult to understand/use; controls are in a poor location.

Features/Controls/Displays>Features and Controls>Side window operation/controls>Side window works properly, but is difficult to understand/use; controls are in a poor location>	
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	The windo "Felt" on the outside of the window catches dust/dirt and scratches the too soft glass of the outside window. Also the glass is too easily affected by waterspots which makes it hard to see out of!

Features/Controls/Displays>Features and Controls>Rear view mirrors (interior/exterior)>	
Rear view mirrors (interior/exterior)	External side view mirrors work properly, but are difficult to understand/use; in a poor location. Internal rear view mirror works properly, but is difficult to understand/use; in a poor location.

External side view mirrors work properly, but are difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Don't extend out far enough to catch blind spots
Please indicate which mirror's controls are difficult to understand/use; are in a poor location (check all that apply):	See above See above

Internal rear view mirror works properly, but is difficult to understand/use; in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Not wide enough to see out the back properly
Please indicate why the controls are difficult to understand/use; are in a poor location (check all that apply):	Hard to properly adjust to adequately see out the rear window

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.

Active suspension system is broken/not working	
Please describe the trouble experienced with the active suspension system:	Not sure I even have it - ride quality is getting worse
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Always
To the best of your recollection, the trouble was first noticed:	More than 3 months after delivery.
Approximate mileage when trouble was first noticed was:	8000 miles or above.

Features/Controls/Displays>Features and Controls>Tire pressure monitoring system>	
Tire pressure monitoring system	Tire pressure monitoring system broken/not working.

Features/Controls/Displays>Features and Controls>Tire pressure monitoring system>Tire pressure monitoring system broken/not working>	
Please indicate what type of trouble was experienced with the tire pressure monitoring system (check all that apply):	Indicates a problem with a tire that is properly inflated.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Features/Controls/Displays>Features and Controls>Interior lights>	
Interior lights	Dome/map/interior lights broken/not working.

Features/Controls/Displays>Features and Controls>Interior lights>Dome/map/interior lights broken/not working>	
Please indicate what type of trouble was experienced with the dome/map /interior lights (check all that apply):	lights are not bright enough for the all black interior
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Features and Controls>Reverse-Camera>	
Reverse-Camera	Reverse-camera is broken/not working.

Features/Controls/Displays>Features and Controls>Reverse-Camera>Reverse-camera is broken/not working>	
Please indicate what type of trouble was experienced with the reverse-camera	Very poor image quality unless in bright sun-light. Terrible in the rain or at night!

Features/Controls/Displays>Features and Controls>Reverse-Camera>Reverse-camera is broken/not working>	
(check all that apply):	
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Rain or at night
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Features/Controls/Displays>Features and Controls>Voice Activation System>	
Voice Activation System	Voice Activation System works properly, but difficult to understand/use; controls in a poor location.

Features/Controls/Displays>Features and Controls>Voice Activation System>Voice Activation System works properly, but difficult to understand/use; controls in a poor location>	
Please indicate which of the following best describes your concern (check all that apply):	Does not recognize commands
Please indicate which voice activation system control is difficult to understand/use; is in a poor location (check all that apply):	to route to a location to select a different channel
Please indicate why the Voice Activation System controls are difficult to understand/use; are in a poor location (check all that apply):	does not recognize commands

Features/Controls/Displays>Displays and Instruments>Instrument panel illumination/warning/indicator lights work properly but difficult to understand/use>	
Please indicate why the illumination/warning/indicator lights are difficult to understand/use; are in a poor location (check all that apply):	not appropriate illumination for time of day

Seats>Seat Material>	
Seat Material	Seat material soils/scuffs easily. Seat material concerns.

Seat material soils/scuffs easily	
Please indicate the trouble you experienced with the seat material (check all that apply):	Worried about the perforated material coving the seats - catches crumbs and doesn't release them when vacuumed Not comfortable after one hour of driving. Not enough padding/support

Seats>Seat Material>Seat material concerns>	
Please indicate which seat has trouble with its material (check all that apply):	Driver's seat. Front passenger seat. Other (please describe).
Seat material trouble is:	Trouble occurs regularly.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Trim/Storage/Windows>Abnormal Noises>	
Abnormal Noises	Squeak/rattle/abnormal noises from headliner. Squeak/rattle/abnormal noises from sun visor/vanity mirror.

Interior Trim/Storage/Windows>Operation and Functionality>	
Operation and Functionality	Cup holder is difficult to use.

Interior Trim/Storage/Windows>Appearance>	
Appearance	Interior materials soils/scuffs too easily.

Interior Trim/Storage/Windows>Broken/Damaged>	
Broken/Damaged	Distortion/blemish/crack in windshield/windows (not the result of outside influence).

Interior Trim/Storage/Windows>Broken/Damaged>Distortion/blemish/crack in windshield/windows (not the result of outside influence)>	
Please indicate the location of the window with the distortion/blemish/crack (not the result of outside influence) (check all that apply):	Water spots and scratches from going up/down Same as above
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Trim/Storage/Windows>Abnormal Noises>Squeak/rattle/abnormal noises from headliner>	
Please describe in the box below where from the headliner the trouble with abnormal noises is located:	Sunroof cover that is part of headliner - rattles where it sticks into the the very front
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Cup holder is difficult to use	
Please indicate which of the following best describes your concern (check all that apply):	Not big enough to hold a 1 liter drink. Takes too long to get cold and doesn't get cold enough
Please indicate why the cup holder is difficult to open/close (check all that apply):	See above - could have has two sizes!
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Interior Trim/Storage/Windows>Appearance>Interior materials soils/scuffs too easily>	
Please describe in the box below which material(s) have trouble with soiling/scuffing too easily:	the fabric shows dust and scuffs on the headliner very badly
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Brake System>Brake Operation>	
Brake Operation	Brakes do not have enough stopping power; brake pedal requires too much effort.

Hand Brake/Parking Brake	
Hand Brake/Parking Brake	Hand brake/parking brake does not adequately hold vehicle. Hand brake/parking brake requires too much effort to apply/release.

Brake System>Brake Operation>Brakes do not have enough stopping power; brake pedal requires too much effort>	
Trouble with brakes occurs during this type of braking (check all that apply):	Not a strong brake system - takes too much effort to stop in city traffic
Trouble with brakes occurs while traveling at these speeds (check all that apply):	on highway - worry I might not be able to stop if I really need to!
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions. Rainy/wet road conditions.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.

Hand brake/parking brake does not adequately hold vehicle	
Where does the hand brake/parking brake problem occur?	Other (please describe).
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Hard to set (takes alot of effort) then doesn't hold very well

Hand brake/parking brake requires too much effort to apply/release	
Please describe what requires too much effort (check all that apply):	Applying parking brake requires too much effort.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Steering, Handling, and Ride>Steering and Handling>	
Steering and Handling	Vehicle pulls noticeably to the left/right. Tilt/telescopic steering wheel/column has a poor range of adjustment.

Steering, Handling, and Ride>Steering and Handling>Vehicle pulls noticeably to the left/right>	
What direction does the vehicle pull when driving?	Both Left and Right - Varies with conditions.
Vehicle pull is:	Moderate.
Are you using your vehicle for towing when the problem occurs?	No.
Trouble occurs while traveling at these speeds (check all that apply):	Medium speeds (26-45 MPH). High speeds (46 MPH and above).
Trouble occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions. Rainy/wet road conditions.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	If you take a hand off the wheel for just a moment - it heads for the side of the road
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Tilt/telescopic steering wheel/column has a poor range of adjustment	
Which best describes the problem?	Doesn't adjust close enough to driver.
Which function has poor range of adjustment? (check all that apply):	Telescopic.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Heating, ventilation and air conditioning doesn't maintain desired temperature. Air conditioner takes too long to get cold. Windows fog up a lot/take too long to clear/do not clear adequately.
Heating, ventilation and air conditioning doesn't maintain desired temperature	
At what internal temperature does the setting no longer maintain desired temperature (check all that apply):	Below 70 degrees.
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Bright sun. Filtered sun (light/partial clouds, light haze/fog). Cloudy/overcast. Outside temperature between 80 and 89 degrees. Outside temperature between 70 and 79 degrees. Outside temperature between 60 and 69 degrees.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Interior Climate Control>Operation and Performance>Windows fog up a lot/take too long to clear/do not clear adequately>	
Please indicate the trouble with the front defroster (check all that apply):	Uneven clearing.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	early morning
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Engine>Engine Idling (rough, too low/high)>	
Engine Idling (rough, too low/high)	Engine does not idle properly: idles rough, too low, or too high.
Engine>Engine Driveability (stumbles/hesitates/surges)>	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.
Engine>Engine power>	
Engine power	Engine power is less than expected. Engine loses power when air conditioning is on.
Engine>Engine Fuel consumption>	
Engine Fuel consumption	Fuel consumption is worse than expected.
Engine>Engine power>Engine power is less than expected>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Trouble occurs while vehicle is (check all that apply):	First thing in the morning after sitting all night
How often does this trouble occur?	Trouble occurs regularly.
Does trouble only occur when vehicle is carrying multiple passengers and/or heavy cargo?	No.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Engine>Engine power>Engine loses power when air conditioning is on>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Engine trouble occurs while vehicle is (check all that apply):	Accelerating.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Engine>Engine Fuel consumption>Fuel consumption is worse than expected>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
Where do you do most of your driving?	Highway/freeway driving (speeds held fairly constant above 45 mph).
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Engine>Engine Idling (rough, too low/high)>Engine does not idle properly: idles rough, too low, or too high>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
What best describes the engine idle trouble? (check all that apply):	Engine idling is rough.
Engine idle trouble occurs (check all that apply):	Driving the vehicle more than 5 minutes but less than 20 minutes.
Engine idle trouble occurs after vehicle is started at:	Cold condition - first start of the day or after vehicle is off for 6+ hours.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Engine>Engine Driveability (stumbles/hesitates/surges)>Engine stumbles/hesitates/surges>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
What best describes the engine drivability trouble? (check all that apply):	Engine has a hesitation, momentarily cuts out, or surges while accelerating.
Engine trouble occurs (check all that apply):	Driving the vehicle more than 5 minutes but less than 20 minutes.
Engine trouble occurs after vehicle is started at:	Cold condition - first start of the day or after vehicle is off for 6+ hours.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	When selecting reverse - the selector goes to neutral
Why is the gear selector difficult to operate?	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Selector doesn't have a positive feel for each gear

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissatisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	I like the styling of the car - what sold me was the heated/vented seats and the heated/cooled cupholders. I wanted the power and handling but need the gas mileage. I thought the V6 with the 8 speed transmission was the right choice. I bought this car while I was a salesman for Dodge. I took 2 1/2 months to pick this car out of all the vehicles we had. I still like the car but it can be better!
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>	
Feedback/Concerns:	Contact me and I can help make your car a better vehicle.
What has Chrysler done right?	Lots - the styling is spot on and when everything works right it is a sweet ride!

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	The stumbling of the engine when cold, the travel link software/gps operation. Please call me at [REDACTED] during the daytime.

Is there anything about your new vehicle you would like to see changed?	Nope! You've mastered the mistakes from my 2011 300 model.

Vehicle Satisfaction Ratings>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	The cabin is very easy to access all controls.
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	Factory radio rocks!
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	The navigation in the dashboard keeps my eyes on the road and was very smart from a safety standpoint. My 2011 didn't have navigation. Will never be without it.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	Pairing my phone was done without issue! Very intuitive blue tooth system!
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	My daughter uses these connections every time we travel distance. She is wired for sound, iPad, you name it. There are adequate connections for her needs.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	Again, having not had a navigation system in my 2011 Touring, I will never be without it. I also appreciate the traffic feature as I live outside LA County and the Orange County freeways are just as painful. The traffic feature saves me time.
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	Love the Sirius Radio feature. Won't be without that ei her.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	This 2013 is a very sexy car! With the new 8 speed V6, I don't need the V8. Gas mileage is incredibly good and cruises nicely at 72mph.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	I finally got the tri-colored Pearl which is what I wanted with my 2011. Once I took it home, I had a clay wax done and the brilliance of the pearl came out and boy she looked lovely!
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	This is an area you could improve just to set this car apart from the rest! Get some imagination and offer some upgraded grills. You'd be surprised how many people would take that op ion and have it installed!
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	Love the sleek profile! Don't change anything and please don't downsize this car! Love the room it offers
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	Love the tail lights!
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	There were alloy wheels on my vehicle when I took delivery. Hate hem, but when I can, I'll be replacing with Chrome!
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	The headlights REALLY light up a dark road very thoroughly!
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	The front seats of the vehicle seem better made and built up. The lumbar is much more supportive which is a necessity as I have lower back problems.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	The truck is spacious and the most important feature.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	Even with the seats back for taller individuals, the back seat is very comfortable and not cramped.

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>

You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.

The ability of having the FULL DOOR swing open for disabled folks is a huge plus on the design. Most times, that extra opening is what someone with disabilities requires in order to comfortably get into the car.

You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.

This vehicle is much more quieter than my 2011. There is a larger level of decreased road noise with my 2013 model. This was one of the first things I noticed when I took my car on a test drive!

You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.

As mentioned previously, the lumbar support is paramount for me. My L4 & L5 are trashed and the lumbar support allows me to drive longer periods of time. The lumbar in my 2013 feels much more supportive than the 2011 model.

You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.

I wish this was automatic and not manual. However, it's still easy to adjust for various driver preference.

You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.

I love this new shifter. It did take some getting used to and you must be careful you have it in the proper gear and not reverse when you think it's in park.

You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.

Love the interior lighting at night. Depending on how bright I want the control panels, the dimming switch makes it comfortable for all within the cabin.

You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.

With my 2013 styling, there seems to be fewer blind spots. That has everything to do with the adjustment of your side mirrors, but the design was well thought thru to help avoid blind spots.

You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.

I love the ability to control my side vs the passenger. I'm going to menopause and having the ability to turn down the air when my interior heater flares is a PLUS!!

You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.

This engine out performs my 2011 by a LONG shot. Actually, there is no comparison from the 5 speed to the 8 speed V6. You did an outstanding job on the performance yet kept the gas mileage obtainable and attractive. This car performs better at 72 for mileage.

You rated engine sound High. Use this space to provide any specific comments you would like to share.

There is no engine sound. I believe I misread this question. My car is as quiet as a kitten!

You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.

Again, my mistake for not reading the question. No exhaust sound. Again very quiet.

You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.

I can't feel the change, however in the performance, I know it's working at perfection. Kudos to the engineering of this smooth performing engine.

You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.

As mentioned in prior comments, I can obtain 30 miles per gallon on a trip with the cruise on and 482 miles per tank on a long haul! How awesome it that!

You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.

Very smooth braking system! Never have had to punch the brakes, but I have no fear they'll fail on me.

You rated ride quality High. Use this space to provide any specific comments you would like to share.

The ride in this model is SO much smoother than my 2011. It appears there are better shocks in this year model. I noticed this on my test drive, especially going over bumps and railroad crossings, which most times give your front end a work out.

You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.

The ease and response of the steering is superior. I've already been saved from being hit due to the tight drive my car offers.

You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.

Donovee Jeep/Chrysler operates unlike a Corporate Store. I dealt with one of the owners. He was helpful and made the experience simple. This was the first time to purchase a car without the help of my now divorced husband. I would recommend this dealership to anyone for their personal attention to the customer.

You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.

I have no fears my vehicle will outlast however long I decide to keep it. I did buy an extended warranty that gives me comfort should anything go wrong beyond the factory warranty.

You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.

I will likely buy another 300 in 2 years. This is the amount of time I keep my cars. Looking forward to seeing what you can change up in 2015.

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.

I am the one in my circle of friends that has the 'comfortable' car. It gives me pleasure I can depend on the safety and comfort my 2013 300 offers. There is more than adequate trunk room for a long weekend with 4 in the car ready to go! The various media device connections can accommodate everyone in the car. The gas mileage and overall performance of my car makes me proud to be a Chrysler owner. I will always buy American as I AM AN AMERICAN!

Vehicle Satisfaction Rating>Detail on Low Rated Items>Detail on Low Rated Items>Detail on Low Rated Items>

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.

I love my car and will buy another when I'm ready to replace my 2013.

AM/FM/HD/Satellite radio channels have poor or no reception	
Please indicate which frequency band has trouble (check all that apply):	FM cuts out, no signal occasionally.
How often does this trouble occur?	Trouble occurs intermittently.

Entertainment/Navigation System/Connectivity>Speakers>Speakers are not loud enough>	
Please indicate which speaker has trouble (check all that apply):	Very weak system. Highly unimpressive.
Please indicate which media sources were being played (check all that apply):	CD. FM.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Slips/will not engage gear properly/shifts erratically. Hesitation or delay when shifting between gears. Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Slips/will not engage gear properly/shifts erratically>	
Going into which gear/gears does the trouble occur? (check all that apply):	Not sure.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	During a rolling stop the tranny has a bad hesitation at times . Downshifts slow, even to point of slowing the car down drama ically. Tanny and/or eco system slow to respond on average acceleration and dogs the motor, even at highway speeds. see note above
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Normal condition: Vehicle has been driven more than 20 minutes from a cold start, or vehicle is restarted after being off for less than 1 hour.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	flat surface.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Tranny software has been updated. Before update he tranny was smooth and after it became harsher. Not annoyingly so but noticeable.

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
Going into which gear/gears does the trouble occur? (check all that apply)	Not sure.
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration. Deceleration. Maintaining a fairly constant speed on level roads.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	Shifter is non-Intuitive, Does not always go to park when pushed forward. I miss drive and reverse on a regular basis. I am a professional driver and it is bothersome to constantly have to make sure it goes in the proper gear at takeoff and stop.
Why is the gear selector difficult to operate?	Other (please describe).
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Selector takes very little force from drive to neutral. If you have your hand laying on the shifter and turn left and bump it at all; it will shift into neutral.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Dissatisfied.

Overview	
Would you recommend this vehicle to family or friends?	No.
Please explain further about your choice to recommend your vehicle:	The quality of this car is average at best. After driving it for a while it feels cheap. The minor problems are more annoying then anything. I don't feel like the overall standard of quality is worth the price of the car. I would rate the car a solid B but no higher. The engineering is lacking and quality control sad in my opinion. If I could sell this car I would. But the resale value sucks. I can't even get what I owe on it.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
What Can We Do Better?>	
What has Chrysler done right?	I love the overall body style of the car. The mpg for a large car is great. It handles quite well and is an excellent highway vehicle. The weight distribution is good. The interior is nice, gauges and layout are decent. Has plenty of power for a vehicle with a smaller motor and larger size. The seats are comfortable.
Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.

Is there anything about your new vehicle you would like to see changed?	Higher quality control on stamping process. IE: Quality Control. More Paint. Better testing on benign issues such as the shifter and software.
Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>	

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>

You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	The stance and style is aggressive. It is the reason I was drawn to the car.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Cowling and hood integration is smooth.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Comfortable seating and good sight management. I have no problem backing this car into a little one car garage. layout is good.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	It has space. which it should being its a larger car.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	I drove this car on a 400 mile trip with 3 adults and 2 children, truck fully loaded and it still got 32 mpg. I was impressed because I did not baby it. I passed cars on 2 lanes and drove 5 over on the highways.
You rated ride quality High. Use this space to provide any specific comments you would like to share.	Very smooth highway cruiser.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Handles well around town.

Vehicle Satisfaction Rating>Detail on Low Rated Items>Detail on Low Rated Items>Detail on Low Rated Items>

You rated support for popular music/video formats Low. Use this space to provide any specific comments you would like to share.	There is no aux plug in on the dash. -3 stars, especially since everyone uses an portable mp3 player now or phone.
You rated appearance of exterior paint Low. Use this space to provide any specific comments you would like to share.	The car had several paint chips on delivery. I could tell the paint was very thin. It has gotten more chips since I've owned it and I think it's because you cheaped out on paint. Very disappointing.
You rated transmission gear change performance (smoothness) Low. Use this space to provide any specific comments you would like to share.	Shifting is sluggish at time.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	In addition to the shifting problems. The car actually locked up on me with less then 500 miles on it. I had to take it in and have them look at it. I was told its not a problem.

About You>

Did you purchase or lease your vehicle?	Purchase.

Continuous Quality Insight

Continuous Quality Insight No Concerns.

No Concerns>

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle? No.

Have you taken your vehicle to an authorized dealer for any reason? (check all that apply): Have not taken my vehicle to any dealer since taking delivery.

Please explain further about your choice to recommend your vehicle: I love the features plus upgraded audio system, transmission, and fuel economy and performance. Only the wind noise is slightly high - the 300 is probably better in this regards. I wish the styling was slightly better - not too crazy about the Duke's of Hazard look - Very satisfied.

Overall, how satisfied are you with the quality of your new vehicle? No (after completing your survey, we will provide a link to download your vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)? application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns: Slightly more acoustic insulation needed.

What has Chrysler done right? I love the Beats Audio System. Much better than your Alpine Sound System. I wish the Exterior Appearance was more beautiful and not so Confederate Redneck. But the rest of the package is great.

Contact Me>

Is there anything about your new vehicle you would like to see changed?	I like Beats Audio - wish it was even better.

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	I wish it was even better. The Alpine system was not good at all. That would be a showstopper for me. I would pay for the Harman kardon system if it was a standalone upgrade.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	Very easy.
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	Connection with IPOD for music is great. Wish i could control UConnect using steering wheel controls
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	Very nice.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	I love the modern look of the interior. The grain on the instrument panel could be more elegant.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	Its good but you could save some money - I don't need that much unique storage spaces like the under the seat. Too much.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	Good space. I can fit my 2 car seats into the car with no problem.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	the car is loud - i wish there was more acoustic insulation.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	Seats were comfy. Wish it had more side support
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	The gear shifter is slightly annoying. I thought i put it into park but in fact it was only reverse. Dangerous.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	I like LED lighting. Very modern.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	The car does have blind spots but its manageable.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	Engine noise was good in the car.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	Buttery smooth. Amazing.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	Fuel economy is good for AWD.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	Feels solid.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I like the car except the styling is too polarizing. Make a vehicle beautiful (look at the Ford Fusion) without being polarizing and you'll have a hit. The Jeep Cherokee is a disaster how it looks. Being different is not the same as beauty.

Vehicle Satisfaction Rating>Detail on Low Rated Items>Detail on Low Rated Items>Detail on Low Rated Items>	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Leather on seats could be tighter and better.

Vehicle Satisfaction Rating>Vehicle Satisfaction Ratings>Vehicle Satisfaction Ratings>Vehicle Satisfaction Ratings>

Is there anything about your new vehicle you would like to see changed?	I'd like a heads up display to make the navigation and radio info less distracting, a hard drive to store music from CD's, an around view parking assist, a better shifter for the transmission, and an alteration to the capless fuel filler so that you can remove the gas nozzle without gas dripping down the side of the car.

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>

You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	No problems.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	I love the profile with the classic RWD proportions, the long hood, and the wedge profile. The low and sleek roof and upper body crease are really nice. I like the way the C pillar and creases make a nice shoulder over the rear wheel. I also really like the fender arches around the wheels. I like how the trunk lid has that integrated spoiler that looks sporty in profile.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	I like the LED taillights, the dual exhaust, the integrated spoiler, the line running through the lights and rear bumper that connects the rear and I really like the peak created by the rear taillights that, in my opinion is reminiscent of a tail fin.
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	I like the wheels that came with the Glacier Edition. To me they're both detailed and sporty. The tires look good too.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	The HID headlights are great. They are very bright and illuminate the road ahead. I love that they self-level and turn with the steering wheel. It makes night driving much better.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	I think the driving position is comfortable. The cloth/leather seats are comfortable and look cool. I love the gauges as they look retro. The blue interior lighting is soothing. I love the aluminum/piano black trim. The overall dashboard shape is nice too.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	The glovebox is large and fits what I need. The center armrest is large too. I love the big trunk compared to the small trunk in my previous car.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	I love the headroom. So many cars I test drove with a sunroof had a low roof that made me feel claustrophobic. This car is very spacious. The leg room is great too.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	I can enter the car without hitting my head and without kicking the side of the seat when entering. I can also exit the car without kicking/scuffing the bottom of the door.
You rated steering wheel adjustment High. Use this space to provide any specific comments you would like to share.	The tilt and telescope feature functions well.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	I haven't had any problems with the controls while driving. Everything seems to be easy to use.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	I like the ambient lighting in the door handles and the overhead ambient lighting. I also like the double light map lights which have come in handy.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	I like that the car sits up higher than other cars on the road, so I can see the road ahead rather than looking at the trunk lids of other cars. Even though this car has a low roof, I'm really surprised at how good the visibility is compared to most of the other cars I test drove. The pillars don't seem to obstruct your view as much as most other cars.
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	The climate controls are so easy. I prefer using the hard controls because they're more convenient and I have already memorized most of the buttons so I don't even have to look to change them. The on screen controls are easy to understand.

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>	
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	I love the sporty exhaust sound. That's something I really look forward to when I start the car every morning. It also sounds good when accelerating. It gives the car a sporty feel even though it's a V6.
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	The brakes are very responsive and I haven't noticed any weakness or lack of stopping power.
You rated ride quality High. Use this space to provide any specific comments you would like to share.	The ride is very smooth and the suspension absorbs bumps well.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	The car handles really well, takes corners great and is fun to drive. I love how stable the car is and how the car isn't disturbed by passing tractor trailers. It is stable in the rain and snow as well and isn't thrown off course when hitting puddles, slush or snow.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Laurel Valley Motors in Latrobe is great!!! There is a friendly, honest, low pressure atmosphere there that was better than any of the dozens of dealerships I visited during my car search. My salesman, Bill Martz, knew the product inside and out, was patient and friendly, continually followed up with me and answered any questions I had immediately. The thing that really stood out to me was that he was willing to communicate through text which made it way easier to communicate with my busy schedule. Every other dealership would only call, and with how busy I am at work, I would often only be able to call back after the dealer was closed. It was great to be able to communicate during the workday since I'm not allowed to make phone calls at work.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I love the adaptive HID headlights, the LED daytime running lights, and the automatic high beams. They are way more useful than I ever thought. I like the features of the audio system, including the steering wheel radio controls, but especially the favorite button for the radio that alerts you when a favorite song is on the air. That's really cool! The panoramic roof is cool too. I never used the sunroof on my last car because it was small and in an odd position, but with this car I open the shade almost every day. I love the rear biased AWD. It really impresses me. Besides being stable and good in the snow, it also makes the car fun to drive in the corners. I was originally looking for a car with a torque vectoring rear differential, because I thought they were fun to drive. After I drove this though, I realized that they were just imitations of a rear drive system that is more fun.

Interior Trim/Storage/Windows>Abnormal Noises>Squeak/rattle/abnormal noises from instrument panel/dashboard>

How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	1 to 3 months after delivery.
Approximate mileage when trouble was first noticed was:	4000 - 7999 miles.
Please describe in the box below where from the instrument panel/dashboard the trouble with abnormal noises is located:	Rattle somewhere is dash - hard to locate exactly.
Please describe conditions when this trouble occurs:	Bumpy roads at higher speeds

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Very satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Other>

Please describe the other trouble you experienced:	Front doors: Tend not to "catch" or hold at useful places partially open but instead close. She stay open more easily. Gear Shift: Don't like it, often go past and back and forth to find right gear. Prefer more traditional shifter. Also, don't switch order of gears in sequence - not really easier, but annoying. Stop/Start: Dangerous - easy to leave on thinking it is in park and off but it is not (beeped but didn't hear it due to radio). Also button is right next to radio and about the same size. Prefer key and shifter on wheel. Ventilation: Seems like long delay before it kicks in. Why? Radio: Why is there an annoying "accept" delay? Operation when car off: Push button really annoying here. On typical car can turn key and use radio or windows while waiting in car. Here button pushing doesn't work well.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Always
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

What Can We Do Better?>

Feedback/Concerns:	Preferred to buy Challenger but did not have 8 speed transmission so bought Charger. Why not? Should keep both Town and Country and Caravan minivan versions in future. Need to improve small car engines (DART).
--------------------	---

What Can We Do Better?>	
What has Chrysler done right?	Improving vehicles. Jeep Grand Cherokee, Dodge trucks, large cars, minivans

How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Randomly and regularly
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Seems like electrical noise
Entertainment/Navigation System/Connectivity>Speakers>Speakers make static or popping noises>	
Please indicate which speaker has trouble (check all that apply):	Occurs only when streaming music thru bluetooth
Please indicate which media sources were being played (check all that apply):	Bluetooth Streaming.
Trouble with speaker occurs:	At all volume levels.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Seems like electrical noise/interference
Speakers have poor sound quality	
Please indicate which speaker has trouble (check all that apply):	All speakers in the vehicle.
Please indicate which media sources were being played (check all that apply):	CD. USB Drive. Bluetooth Streaming. FM. SD. Satellite Radio. AUX.
Trouble with speaker occurs:	At all volume levels.
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Needs more equalizer bands. Three bands of equalization are not adequate.
Entertainment/Navigation System/Connectivity>Speakers>Speakers are not loud enough>	
Please indicate which speaker has trouble (check all that apply):	All speakers in the vehicle.
Please indicate which media sources were being played (check all that apply):	CD. USB Drive. Bluetooth Streaming. FM. Satellite Radio.

Entertainment/Navigation System/Connectivity>Speakers>Speakers are not loud enough>	
Trouble with speaker occurs:	AUX.
How often does this trouble occur?	Only at high volume levels.
Please describe conditions when this trouble occurs:	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	At highway speeds with sunroof open
Approximate mileage when trouble was first noticed was:	1 to 3 months after delivery.
1500 - 3999 miles.	

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but missing information; has incorrect information; gives wrong directions>	
Please indicate which of the following best describes your concern (check all that apply):	New roads/streets missing Information not current, no new updates to maps
Please indicate which navigation system item has trouble (check all that apply):	All problems are due to outdated maps. No current upgrades to map info. I have other Garmin products and maps are updated twice yearly. Have not been able to find updated maps for Chrysler. Map is missing information. Map contains incorrect information.

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system works, but traffic information doesnt work/or is difficult to understand>	
Please indicate what issues you are experiencing with the traffic information (check all that apply)	The system announces "traffic ahead" in same areas all the time, regardless of time of day or night, whether adverse traffic conditions exists or not.

Difficulty accessing Points of Interest	
Please describe the trouble with the Points of Interest within the Navigation system	Difficult to find Points of Interest
Additional Comments:	System searches for several minutes with no results

Points of Interest not well defined	
Please describe the trouble with the Points of Interest within the Navigation system	Info out of date???

Points of Interest incorrect	
Please describe the trouble with the Points of Interest within the Navigation system	No info available or out of date

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>Hands-Free Phone/Bluetooth system voice activation doesnt recognize command>	
Please indicate which words, if any, are constantly misrecognized:	So frustrating I don't attempt usage anymore
How often does this trouble occur?	Trouble occurs regularly.
Please describe when this trouble occurs:	When entering a number. When stating a name. When other people in the car are talking. When there is outside noise or the blower is on. Other: Please describe when this trouble occurs.
Do you usually set HVAC vent direction toward ceiling?	No.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>Hands-Free Phone/Bluetooth system wont connect>	
How often does this trouble occur?	Trouble occurs intermittently.
Connection problem happens on:	Bluetooth connection between cell phone and the system.
Is there more than one phone paired to the vehicle?	Yes.
Connection problem happens when:	Starting up the system: cell phone is not automatically found and connected to the system.
Did the dealer attempt to help you pair your device?	No.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>Hands-Free Phone/Bluetooth system loses connection>	
How often does this trouble occur?	Trouble occurs intermittently.
Connection problem happens on:	Bluetooth connection between cell phone and the radio.
Is there more than one phone paired to the vehicle?	Yes.

Entertainment/Navigation System/Connectivity>Hands-Free Phone/Bluetooth>Hands-Free Phone/Bluetooth system is difficult to use>	
Please indicate why the hands-free phone / bluetooth system is difficult to use:	Occasionally, cal will not disconnect. Have to shut off vehicle and restart to clear problem Voice commands are not recognized correctly.
Please indicate which system commands you were using at the time of trouble (check all that apply):	Phone calls.

Entertainment/Navigation System/Connectivity>Voice Activation/Recognition>Voice Activation/Recognition doesnt recognize	
--	--

command>	
Please describe when this trouble occurs:	When entering information. When stating a name. When other people in the car are talking. When there is outside noise or the blower is on.
Do you usually set HVAC vent direction toward ceiling?	No.
How often does this trouble occur?	Trouble occurs regularly.
Additional Comments:	Don't use VR anymore...too frustrating...like talking to yourself
Brake System>Brake Operation>	
Brake Operation	Brakes do not have enough stopping power; brake pedal requires too much effort.
Brake System>Brake Operation>Brakes do not have enough stopping power; brake pedal requires too much effort>	
Trouble with brakes occurs while traveling at these speeds (check all that apply):	High speeds (46 MPH and above).
Trouble with brakes occurs while traveling in these road conditions (check all that apply):	Clear/dry road conditions.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	More than 3 mon hs after delivery.
Trouble with brakes occurs during this type of braking (check all that apply):	Some imes it seems like car will not stop quickly wehn brakes ar quickly applied at noderate to high speed
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Interior Climate Control>Operation and Performance>	
Operation and Performance	Air condi ioner takes too long to get cold.
Interior Climate Control>Operation and Performance>Air conditioner takes too long to get cold>	
Please indicate typical weather conditions when air conditioner trouble occurs (check all that apply):	Bright sun. Outside temperature over 80? F.
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	More than 3 mon hs after delivery.
Approximate mileage when trouble was first noticed was:	8000 miles or above.
Engine>Engine Driveability (stumbles/hesitates/surges)>	
Engine Driveability (stumbles/hesitates/surges)	Engine stumbles/hesitates/surges.
Engine>Engine Fuel consumption>	
Engine Fuel consumption	Fuel consumption is worse than expected.
Engine>Engine Fuel consumption>Fuel consumption is worse than expected>	
What type of fuel do you most often put into your vehicle?	Regular gasoline.
Is your fuel consumption expectation based on the EPA estimates for your Vehicle?	Yes.
Where do you do most of your driving?	Combination of city/highway driving.
Are you using your vehicle for towing when the problem occurs?	No.
How often does this trouble occur?	Trouble occurs regularly.
Approximate mileage when trouble was first noticed was:	1500 - 3999 miles.
Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Hesitation or delay when shifting between gears. Gear selector is difficult to operate (auto. trans.).
Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
Going into which gear/gears does the trouble occur? (check all that apply)	In Drive Mode - Automatic Shifts hesitates, then surges when from higher gear. In Sport Mode - Automatic and Manual shifts are fine See Above Comment See Above Comment
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	All transmisssion hesitations and delays occurs in Drive Mode automatic. Problem occurs when it downshifts to any lower gear. The lower he gear the more noticable the hesitation becomes. More noticable are shifts made at low and medium speeds. Manual shifts made with the paddles are fine. However, in Sport Mode all Automatic downshifts are fine. Normal acceleration. Hard acceleration. Maintaining a fairly constant speed while driving on steep/hilly roads. Maintaining a fairly constant speed on level roads.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Warm condition: Vehicle has been driven 5 to 20 minutes from a cold start, or vehicle is restarted after being off for a 1 to 6 hour period.

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	Can't ever seem to be able to engage Reverse without missing it.
Why is the gear selector difficult to operate?	Gear selector requires too much effort/force to operate.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	Shifter has no "feel" when shifting from Drive or Neutral to Reverse. You have to watch the shift indicator to know what gear you're in.

Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
Please explain further about your choice to recommend your vehicle:	Overall, the car has exceeded my expectations.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.
The Smartphone Application format is easy to understand and use	4 (agree).
Information in the Smartphone Application is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	2 (disagree).
Please rate your overall level of satisfaction with the Smartphone Application	3 (neither satisfied nor dissatisfied).
Please provide feedback on how Chrysler can improve the Smartphone Application	Include more detailed info
What information did you need that was not included in the Smartphone Application?	More how to's

What Can We Do Better?>	
Feedback/Concerns:	My biggest issues are with the transmission Bluetooth apps, Navigation and the Beats Audio System. - Love the six speed transmission. Maybe software upgrades will fix hesitation issues and hardware modification to address the "no feel" issue with shifting in Reverse. Bluetooth Apps need attention of music breaking up, pausing, pops & crackles from electrical interference, from both internal and external sources. - Navigation needs more current updates from Garmin - Beats Audio would be a super good audio system if it added a seven or ten band equalizer rather than the current three band. More power is always good
What has Chrysler done right?	Practically everything! Styling, options, price to value, all good

Contact Me>	
Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?	Yes.
To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you.	My real concern at this point goes to the paint/finish. This vehicle was detailed at the dealership before I picked it up. There are swirl marks over the entire vehicle where a buffer was used. Initially, dealer response was positive and they said they would handle it. Now that winter is over and the weather has changed to where you can readily see the defect, I've not been able to contact the salesperson to set up an appointment to have it remedied. Phone calls and messages have not been responded to.

What are your favorite parts of your new vehicle?	Size, roominess, comfort, backup camera, park assist, lane change detection system
Is there anything about your new vehicle you would like to see changed?	Automatic tilt down outside mirrors should be included with the Safety Tec Pkg. I've scrubbed two wheels parking

Vehicle Satisfaction Rating>Detail on High Rated Items>Detail on High Rated Items>Detail on High Rated Items>	
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Vehicle's a head turner, enjoy getting thumbs up from other drivers
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Unique, stately, poised, not overbearing. Luv to see one coming in the rearview mirror!
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	Uniquely Chrysler
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	i really like the auto dim feature...set it auto and forget it. Headlights follow steering wheel around curves
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	Plenty adjustment options for driver's seat. Interior's good but could use softer plastics on dash and doors
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	Easy to ride for long periods of time. Great cruiser
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	I appreciate wide door opening for entering and exiting vehicle.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Quiet, even with sunroof open
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	
You rated ride quality High. Use this space to provide any specific comments you would like to share.	Smooth, not bouncy and floaty
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Milton Ruben provided a stellar buying experience. My hope is the paint issue can be resolved quickly.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	So far no major issues 9 months on the road
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	Great vehicle
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	I'm really impressed with the blind spot detection, especially with large blind spots to the rear, backup camera is a must have as well as cross detection and camera.

Vehicle Satisfaction Rating>Detail on Low Rated Items>Detail on Low Rated Items>Detail on Low Rated Items>	
You rated appearance of exterior paint Low. Use this space to provide any specific comments you would like to share.	My only concern is the aforementioned issue with buffer swirl marks. I would really appreciate an expeditious response and solution to this issue. Any help you can give me would greatly be appreciated.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Music streaming noise problems need immediate attention

About You>

Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	33,900
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	new Dodge. Caravan.
Primary vehicle you were considering:	Toyota. Avalon. 2012.
Which online data sources, if any, influenced your buying decision? (check all that apply)	Consumer Reports. Kelley Blue Book. Edmunds. Blogs (e.g., Truth About Cars). JD Power Reports. NHTSA or IIHS.
Primary vehicle in your household:	new Toyota. Avalon. 2007.
Secondary vehicle in your household:	used Chevrolet. Malibu. 2002. Suburban.
Which of the following best describes the area you live in?	
Please indicate your gender	<input type="checkbox"/>
What year were you born?	<input type="checkbox"/>
Please indicate your highest education level	Trade / technical school.
What is your current marital status?	<input type="checkbox"/>
How many children 17 or under live in your household?	0.
Please indicate your ethnicity	<input type="checkbox"/>
What is your total household income (before taxes)?	\$125,000 - \$149,999.

Hand Brake/Parking Brake

Hand Brake/Parking Brake Hand brake/parking brake requires too much effort to apply/release.

Hand brake/parking brake requires too much effort to apply/release

Please describe what requires too much effort (check all that apply): too much foot pressure required to apply.
too much foot pressure required to apply.
How often does this trouble occur? Trouble occurs regularly.
Please describe conditions when this trouble occurs: This is an engineering design fault.
To the best of your recollection, the trouble was first noticed: At delivery.
Approximate mileage when trouble was first noticed was: 0 - 1499 miles.
Additional Comments: An electronic hand brake would be preferable.

Engine>Engine Driveability (stumbles/hesitates/surges)>

Engine Driveability (stumbles/hesitates/surges) Engine stumbles/hesitates/surges.

Engine>Engine Driveability (stumbles/hesitates/surges)>Engine stumbles/hesitates/surges>

What type of fuel do you most often put into your vehicle? Regular gasoline.
What best describes the engine drivability trouble? (check all that apply): sometimes hesitates hen surges when in 8 speed; less noticable in sport mode.
this is intermittent depending on driving conditions; traffic, etc.
Engine trouble occurs (check all that apply): Intermittent operation less than 50% of the time.
Engine trouble occurs after vehicle is started at: anytime, varies...
How often does this trouble occur? Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed: Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was: 0 - 1499 miles.
Additional Comments: This trouble is not so serious and I have not reported it to the dealer because I have become accustomed to this quirk.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle? Yes.
Have you taken the vehicle to a dealer to have your trouble corrected? No.
Overall, how satisfied are you with the quality of your new vehicle? Very satisfied.
Would you recommend this vehicle to family or friends? Yes.
Please explain further about your choice to recommend your vehicle: I have recommended this vehicle to my next door neighbor and he immediately purchased a 300 SRT and is very happy with his choice.
If our team has any additional questions about your responses, would you accept further contact? Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)? No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns: I love this car; gas mileage is surprisingly very good. Took a 300 mile trip and had a bit less than a half-tank left on arrival. Handles great and is an improvement over my earlier 300

What Can We Do Better?>	
What has Chrysler done right?	Tweaked the 300 and made a great car excellent. Continuous improvement on this V6 model will keep them flying out of the showrooms. The Consumer Reports ranking has helped tremendously in promoting the 300.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).
Please explain further about your choice to recommend your vehicle:	Impressed by the quality improvements Dodge has made in the last few years. Started with a 2012 Avenger SXT Plus but wanted more room.

What Can We Do Better?>	
Feedback/Concerns:	There should not be different power levels of the same engine, the V6 Charger should have the same 305 HP that the Challenger has, also since the Charger SXT already has an 8 speed transmission it should come standard with the 3.06 rear end for better acceleration. Really wanted an R/T model but didn't like that the 8 speed ZF transmission was not an option. Wish the drive shaft tunnel was a little narrower for knee width room. The Avenger SXT Plus had normal, non premium speakers, but they had better bass response than the so called premium Alpine speakers in the Charger SXT.
What has Chrysler done right?	As mentioned earlier, after my 2007 Monte Carlo SS was totaled I was forced to get something newer. I had never even considered Chrysler products before, but after I purchased a 2012 Avenger SXT Plus I was impressed with the quality of interior, the smooth Pentastar engine, and the stereo system. I would have kept that car except for one major design flaw, the leg room length was adequate but the knee width was confining, so traded up to a new Charger. I do want to add that the Avenger could be a serious competitor to the other midsize sedans with a slightly wider body and an 8 speed automatic paired with the Pentastar. I like the styling much better than the Avenger, the view out over the hood is grand, giving a feeling like you're in a suit of armor. The stability and road handling of rear wheel drive vs front wheel is much better, the car just feels solid. Don't ever deviate from making this car rear wheel drive.

Is there anything about your new vehicle you would like to see changed?	more power, 3.06 ratio without AWD package
Detail on High Rated Items	
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	Video should still play while car is rolling... passengers sometimes like to watch movies
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Very nice improvement over the previous Charger, the view over the hood from the driver's seat is unmatched by any other car, well maybe the Maxima. Most cars have a boring, flat hood that slopes down
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	I like the angry look of the front end, just wish it had some accent LED lights like the Chrysler 300
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	the scallops in the front doors, while controversial, are a nice touch
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	the 160 LED lights is a definitely unique and adds a nice touch
You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	The shifter takes some getting used to.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	No visibility issues, would rather have thick A pillars and structural integrity than thin pillars with a little bit better view
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	Redundant controls are appreciated
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Corners nicely even with the touring suspension

Detail on High Rated Items

You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Third vehicle purchased from Twin Rivers, Nate has been an accommodating sales person.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	The ride quality when hitting rough rail road tracks or driving on brick streets is far better than any car I've ever owned

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I understand that this is a heavier vehicle than my previous 2012 Avenger SXT Plus, but with the extra horsepower (292 vs 283) and an 8 speed transmission vs the Avengers 6 speed the Charger should accelerate at least as quickly as the Avenger, but it feels much more sluggish. The so called Alpine premium sound system is also a disappointment.

If known, please tell us your software version				Android			
Entertainment/Navigation System/Connectivity				IPOD			

Speakers have poor sound quality							
Please indicate which speaker has trouble (check all that apply):				has a raspy sound			
Please indicate which media sources were being played (check all that apply):				Not as clear as I would expect			
Trouble with speaker occurs:				At all volume levels.			
How often does this trouble occur?				Trouble occurs intermittently.			
Please describe conditions when this trouble occurs:				driving local streets			
To the best of your recollection, the trouble was first noticed:				Within the 1st month after delivery.			
Approximate mileage when trouble was first noticed was:				0 - 1499 miles.			

Entertainment/Navigation System/Connectivity>Navigation System>Navigation system freezes-up/will not work>							
Please describe conditions when this trouble occurs:				Not applicable			

Voice Activation / Recognition doesnt recognize command							
Please describe when this trouble occurs:				If I was listening to radio and then I pushed the VR button and would say: "dial" and it did not recognize that command			
What button did you use?				VR			
Do you usually set HVAC vent direction toward ceiling?				Yes.			
How often does this trouble occur?				Trouble occurs regularly.			

Unnatural sounding voice or difficult to understand	
Please describe when this trouble occurs:	I stated Dial and then when nothing happened I pushed the VR said call. It didn't recognize the command.
What button did you use?	I don't remember but a list of irrelevant commands came up on the scree.
Do you usually set HVAC vent direction toward ceiling?	VR
How often does this trouble occur?	Yes.
Additional Comments:	Trouble occurs regularly.
	Every time I try t make a call.
Touchscreen Controls/Menu: Front seat audio/entertainment/navigation controls/menus difficult to use/in a poor location	
Please indicate which of the following best describes your concern (check all that apply):	Difficult to see with sun glasses on. I'm over 65 and live in Arizona
Please indicate which controls/menus are difficult to understand/use; are in a poor location (check all that apply):	I can't get pout of screen unless I push one of the other menu buttons such a radio.
Please indicate why the controls/menus are difficult to understand/use; are in a poor location (check all that apply):	Screen is difficult to see with sun glasses on. Not true with my other car which is a 2012 Chevy
	sometimes push it more than once. and I was touching the symbol in the correct location.
USB Connection	
Where is the location of the media port?	To hard to reach unless I am stopped and must lean over and inevitably the USB plug is facing the wrong way.
Please describe the trouble you experienced (check all that apply):	see previously
Please indicate if you are able to do either of the following (check all that apply):	Charge devices.
	Play audio.
Please indicate the make, model, carrier, and software version on the device used (computer, tablet, etc.):	IPOD
How often does this trouble occur?	Trouble occurs regularly.
Other>	
Please describe the other trouble you experienced:	Why is the option Kilometers always listed on center screen by steering wheel? It never goes away. I do not need that option to be there all the time.
How often does this trouble occur?	Trouble occurs regularly.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Overview	
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	They had to replace the entertainment system as the radio was intermittent. It took two weeks to get the new system part in.
Was the trouble resolved to your satisfaction?	No.
Overall, how satisfied are you with the quality of your new vehicle?	Neither satisfied nor dissa isfied.
Would you recommend this vehicle to family or friends?	No.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

Detail on Low Rated Items	
You rated ease of using system displays while driving Low. Use this space to provide any specific comments you would like to share.	put the KM or MPH as a master settings option and not on the display in from of the steering wheel.
You rated integration with media players Low. Use this space to provide any specific comments you would like to share.	clarity poor with AM radio from stations close by. When the IPOD was left in the car over night the radio would not work at all. I then unplugged the IPOD; let the car set over night and then the radio worked.
You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.	Going from Drive to park requires too much concentration to ensure it is the park position. Going from Park or Reverse to Drive sometimes require me to look down to see whether it is the correct gear. I feel the detent button on the shifting handle is not intuitive.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I was troubled by the fact the he radio had to be replaces at approximately 45 miles after I bought it. The dealer did not get it from Chrysler for over two weeks. When I brought the car in to have the radio replaced I was promised it would take 1 1/2 hours. From experience I knew it would taker longer. But not 3 1/2 hours.

Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	very easy to access
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	the quality of the sound with no speaker vibration.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	extremely easy to pair
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	Absolutely love the overall design. The "mean" front end, the side creases, and the rear CHMSL
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	am [REDACTED]", father is same, son is [REDACTED] and all fit comfortably
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	have bad knees and back and no issues getting in and out. My father is [REDACTED] and has some problems but gets in and out of the car with no problem.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	usually don't see actuals close to projected but had 32 mpg in one stretch which surprised me and overall 28 mpg. drive 65 miles to work and back daily with half city and half highway.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	no pressure, very friendly, answered all questions, and allowed me to take the car home for the weekend. Financing thru the dealer was very easy. Could not beat the deal as it was a 2012 leftover.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	I love the look of he car and it's size and have not been disappointed so far
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	have always like Charger

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The inability to see the engine oil life. would like to know in advance when due and not have a message go off that it needs to be performed soon. Reset procedure for oil change seems bizarre at best. Also location of cup holders with the height of the storage is a bit awkward.

Welcome>

Please tell us how many miles are currently on your vehicle: More than 10,000.
Are you the primary driver of this vehicle? Yes.

Continuous Quality Insight

Continuous Quality Insight No Concerns.

No Concerns>

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle? Yes.

Have you taken your vehicle to an authorized dealer for any reason? (check all that apply):
Had a rattle whig was fixed.
I have my vehicle serviced on a regular basis at the dealership.
Had a small paint chip by the passenger side rear wheel well. Love the paint on my car and the fixed it perfectly.

Please explain further about your choice to recommend your vehicle: Love everything about the vehicle. Highway fuel mileage in incredible. V6 8 Speed transmission.

Overall, how satisfied are you with the quality of your new vehicle? Very satisfied.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)? No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns: I only have one design issue with the car. The shifter is difficult to use the way its designed. Normally operation (gear selection) with brake involved is awkward.

What has Chrysler done right? Everything!!! Love my car brag about it all the time.

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle? Yes.

To better serve you, briefly describe the topic(s) you would like to discuss. Please provide us with a phone number you can be reached at during daytime hours. Thank you. My cell is 928.486.4690. Two subjects transmission shifter, and uConnect enhancements.

Detail on High Rated Items	
You rated clarity of sound High. Use this space to provide any specific comments you would like to share.	Love my car!!! Keep up the good work.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	My cars paint is outstanding and overall look is excellent.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	I like the new headlight design
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	Wish I would have ordered the fancy bigger wheels but other then that it looks great.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	The new rear styling look very nice.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Bright is very bright and useful.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	I'm a big boy and your car fits me well.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	Largest I've seen in any car
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	When I have room to swing the doors all the way open its great. In a tight parking spot I have to do a little twisting to exit or enter
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Very quit, Initially I had a bad rattle (Overhead Console) but it was fix perfect.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	I fit perfect in his car.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	t provides great visibility minimal blind spots.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	The V6 is a rocket. I love it
You rated engine sound High. Use this space to provide any specific comments you would like to share.	Actually have accidentally left the car running it's so quiet.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	Love the 8 speed very smooth.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	I've gotten as high as 34.8 MPG on the highway. Went 561 miles on a tank of gas still had plenty left. Highway Mileage is my favorite feature
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Used a friends and family discount, factory rebate, and got good value for my old 300. Salesman was knowledgeable.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	I'm hope its great Will let you know.
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	I got a good deal when I purchased the car so I hink the value is good.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	I love it.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	I bought GM vehicles for years. My first Chrysler product was a 2007 Chrysler 300. I liked it so I keep returning and my new one is the best one yet.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Highway Mileage is incredible for this size of car.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.

Gear selection is awkward.

Are you the primary driver of this vehicle? Yes.

Continuous Quality Insight

Continuous Quality Insight Features/Controls/Displays.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle? No.

Overall, how satisfied are you with the quality of your new vehicle? Very satisfied.

Would you recommend this vehicle to family or friends? Yes.

Please explain further about your choice to recommend your vehicle: This is my second 300. This one has an even better ride than my first. Very satisfied except for gear shift.

If our team has any additional questions about your responses, would you accept further contact? Yes, by phone or e-mail.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)? Yes.

The Smartphone Application format is easy to understand and use 3 (neither agree nor disagree).

Information in the Smartphone Application is easy to find and access 3 (neither agree nor disagree).

Smartphone Application covers the necessary features 3 (neither agree nor disagree).

Please rate your overall level of satisfaction with the Smartphone Application 5 (very satisfied).

Please provide feedback on how Chrysler can improve the Smartphone Application The dealer had to program my phone into bluetooth in car. I wasn't able to do it.

What Can We Do Better?>

Feedback/Concerns: See above regarding gear shift

What has Chrysler done right? A lot. This car rides great and I now have the 300 S that gets better mileage than my other 300 C and has all wheel drive. The blue tooth is a great feature. It's a great looking car too.

Are you the primary driver of this vehicle? Yes.

Continuous Quality Insight

Continuous Quality Insight: Transmission and Drivetrain.

Transmission and Drivetrain>Automatic Transmission>

Automatic Transmission: Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

Going into which position is the gear selector difficult to operate? (check all that apply): Easy to miss reverse and end up in 'park'.
Same applies to 'drive' to easy to wind up in 'low'.
Why is the gear selector difficult to operate? Other (please describe).
How often does this trouble occur? Trouble occurs intermittently.
Please describe conditions when this trouble occurs: If you are in 'drive' and need to immediately get into 'reverse' to avoid a collision as in a parking lot, you can easily wind up in 'park' instead.
To the best of your recollection, the trouble was first noticed: At delivery.
Approximate mileage when trouble was first noticed was: 0 - 1499 miles.
Additional Comments: Would prefer the old 'stick' as in the 'five' speed transmission models or even a column shifter as in the 'police' models.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle? Yes.
Have you taken the vehicle to a dealer to have your trouble corrected? No.
Overall, how satisfied are you with the quality of your new vehicle? Satisfied.
Would you recommend this vehicle to family or friends? Yes.
Please explain further about your choice to recommend your vehicle: Good performance and fuel mileage so far. Looks good, roomy and comfortable.
If our team has any additional questions about your responses, would you accept further contact? Yes, by phone or e-mail.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)? No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns: Only real dislike is the operation of the spring loaded electronic transmission shifter. it is awkward and not precise.
What has Chrysler done right? Generally the vehicle is OK, looks like a car and not like a generic beanbag.

Contact Me>

Is there anything about your new vehicle you would like to see changed?	Include memory seats in this 300 limited model.

Detail on High Rated Items	
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	The higher curb clearance of the front bumper sure beats the 2006 300C model!
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	I like the full-rising trunk lid and the reasonably low lift profile for loading luggage.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	It's nice to have 3 detents for door positioning when in tight parking spaces.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	My comment about not having a 2 position memory seat in the 300 Limited still applies.
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	I don't miss the "hemi" that I had in the 2006 300C. This V-6 is driven more "sanely", & I still find myself "a bit ahead" of stoplight traffic, & I don't even try!
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	Almost a V-8 sound.
You rated transmission gear change performance (smoothness) High. Use this space to provide any specific comments you would like to share.	Not getting any "jerky" shifts.
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	I have driven some European rentals with excellent brakes like this 300, and I really appreciate these. Nice improvement!
You rated ride quality High. Use this space to provide any specific comments you would like to share.	Good for both front and rear passengers.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Great turning radius for this full-size car.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	I almost got minor repairs made to my 2006 300C, but I felt better about this "definitely feature-laden" 2012 model, and I have to think that I made a reasonable purchase for this new model - especially now, 9 mos. later.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	Not many miles driven (retiree), but will see if a proposed longer rode-trip keeps me happy!
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	Chrysler has been on a better track, lately. I even see many good things in print that are unsolicited.
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	It's "classy" and runs well, and keeps me away from so many gas stops.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	I always noticed 300's in town & on the road, and now I'm driving one!

Welcome>							
Please tell us how many miles are currently on your vehicle:				1,000-2,999.			
Are you the primary driver of this vehicle?				Yes.			

Continuous Quality Insight							
Continuous Quality Insight				Transmission and Drivetrain.			

Transmission and Drivetrain>Automatic Transmission>							
Automatic Transmission				Slips/will not engage gear properly/shifts erratically.			
				Gear selector is difficult to operate (auto. trans.).			

Transmission and Drivetrain>Automatic Transmission>Slips/will not engage gear properly/shifts erratically>							
Going into which gear/gears does the trouble occur? (check all that apply):				Have had several instanscs where I thought I put the car in park and got out of the vehiclle and it was in neutral. The car started rolling down hill and I had to jump back in to stop it. This probably needs to be addressed before someone gets hurt and/or property is damaged.			
				Reverse.			
Are you using your vehicle for towing when the problem occurs?				No.			
How often does this trouble occur?				Trouble occurs intermittently.			
To the best of your recollection, the trouble was first noticed:				Within the 1st month after delivery.			
Approximate mileage when trouble was first noticed was:				0 - 1499 miles.			
Additional Comments:				I would prefer a mmore tradi ional shift lever. Park up front, drive in the middle and reverse at the bottom.			

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>							
Going into which position is the gear selector difficult to operate? (check all that apply):				Park (P).			
				Reverse (R).			
				Drive (D).			
Why is the gear selector difficult to operate?				Gear selector requires too much effort/force to operate.			
How often does this trouble occur?				Trouble occurs regularly.			
Please describe conditions when this trouble occurs:				Parking the car			
To the best of your recollection, the trouble was first noticed:				Within the 1st month after delivery.			
Approximate mileage when trouble was first noticed was:				0 - 1499 miles.			

Overview							
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?				Yes.			
Have you taken the vehicle to a dealer to have your trouble corrected?				No.			
Overall, how satisfied are you with the quality of your new vehicle?				Satisfied.			
Would you recommend this vehicle to family or friends?				Yes.			
If our team has any additional questions about your responses, would you accept further contact?				Yes, by phone or e-mail.			
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?				No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).			

What Can We Do Better?>							
Feedback/Concerns:				I really like everuthing about this car and think it is excellent except for the shift lever issue. I think that is a safety concern and eventually there probably will be a recall on it. I have gotten out of the car several times after I shifted into park only to find the car rolling down hill because it was in neutral and had not shifted to park.			

What Can We Do Better?>

What has Chrysler done right?

It is a very smooth riding quiet car and handles quite nicely. The car has a lot of interior room and I like that along with a stylish look. I like the brake warning system and would like to see it advanced where it actually applies the brakes automatically on your next model upgrade.

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle?

Yes.

To better serve you, briefly describe the topic(s) you would like to discuss.

Please provide us with a phone number you can be reached at during daytime hours. Thank you.

Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	The center storage has a shelf that is a pain in the neck. I prefer the type in the 2010.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	I use the system frequen ly as I go to many small towns. It generally is correct.
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	I had the dealer lower the adjustment as the lights were blinding on coming cars.
You rated ride quality High. Use this space to provide any specific comments you would like to share.	It is a great car for long distances. This car has been to both coasts, new mexico, texas and other shorter trips.
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	I have been purchasing cars at Roanoke Motors since 1963. Most of these have had a 100,000 to 225,000 miles with minor problems. The dealer is the finest for sales and service. I use them for all maintenance. We consider them to be friends.

Detail on Low Rated Items	
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	I have no complaints.

Active Suspension System	
Active Suspension System	Active suspension system is broken/not working.

Active suspension system is broken/not working	
How often does this trouble occur?	Trouble occurs intermittently.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Please describe the trouble experienced with the active suspension system:	A repeated thumping noise heard
Please describe conditions when this trouble occurs:	With a full load of people
Additional Comments:	With a full load of people in auto a noisy thumping noise heard in direction of right rear wheel.

Interior Climate Control>Operation and Performance>	
Operation and Performance	Front heating, ventilation and air conditioning vents are broken/not working. Heating, ventilation and air conditioning doesn't maintain desired temperature.

Front heating, ventilation and air conditioning vents are broken/not working	
Please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
Please indicate which control is broken/not working properly (check all that apply):	When stating out with mild temperatures the air flow does not circulate enough fresh air or something and the temp has to be lowered about 5F to get enough air flowing to feel comfort.
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Moderate temperatures
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	With prev. 300M a set temp of 72F worked fine 98% of time. This 300C has to be turned down to 65F or auto is too stuffy.

Heating, ventilation and air conditioning doesn't maintain desired temperature	
Please indicate typical weather conditions when settings do not maintain temperature (check all that apply):	Outside temperature between 80 and 89 degrees.
Please indicate which HVAC zone does not maintain desired temperature (check all that apply):	Front HVAC.
If you are having trouble with your front HVAC, please indicate which feature your vehicle is equipped with:	Front dual HVAC control.
How often does this trouble occur?	Trouble occurs regularly.
Please describe conditions when this trouble occurs:	Moderate temps.
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>	
Automatic Transmission	Hesitation or delay when shifting between gears. Gear selector is difficult to operate (auto. trans.).

Transmission and Drivetrain>Automatic Transmission>Hesitation or delay when shifting between gears>	
Going into which gear/gears does the trouble occur? (check all that apply)	8 Spd trans and no indicator as to what gear(s) the auto is trying to shift into
Please indicate driving condition where the shifting trouble is noticeable (check all that apply):	Normal acceleration.
Please indicate approximate operating temperature when shifting trouble occurs (check all that apply):	Randomly occurs when in traffic situations
How often does this trouble occur?	Trouble occurs intermittently.
Please describe conditions when this trouble occurs:	Above
To the best of your recollection, the trouble was first noticed:	Within the 1st month after delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>	
Going into which position is the gear selector difficult to operate? (check all that apply):	<div><input type="checkbox"/> Park (P).</div> <div><input type="checkbox"/> Reverse (R).</div> <div><input type="checkbox"/> Drive (D).</div> <div><input type="checkbox"/> All positions.</div> <div><input type="checkbox"/> Gear selector requires too much effort/force to operate.</div> <div><input type="checkbox"/> Trouble occurs regularly.</div> <div><input type="checkbox"/> Starting out, backing up, parking etc</div> <div><input type="checkbox"/> At delivery.</div> <div><input type="checkbox"/> 0 - 1499 miles.</div> <div><input type="checkbox"/> The gear shift sucks... Even Consumer's Reports commented about it. With D/L lit up on handle you can not tell what gear you are in. With the steer. wheel turned 90° you can not see dash readout. Very hard to get it into the correct gear the 1st, 2nd or 3rd time. Sucks</div>
Why is the gear selector difficult to operate?	
How often does this trouble occur?	
Please describe conditions when this trouble occurs:	
To the best of your recollection, the trouble was first noticed:	
Approximate mileage when trouble was first noticed was:

Welcome>

Please tell us how many miles are currently on your vehicle: 5,000-6,999.
Are you the primary driver of this vehicle? Yes.

Continuous Quality Insight

Continuous Quality Insight Steering, Handling, and Ride.
Features/Controls/Displays.

Overview

Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle? Yes.

Have you taken the vehicle to a dealer to have your trouble corrected? No.

Overall, how satisfied are you with the quality of your new vehicle? Satisfied.

Would you recommend this vehicle to family or friends? Yes.

Please explain further about your choice to recommend your vehicle: This is our second Chrysler 300. We do not like the thickness of the steering wheel and HATE the new gear shift. It is NOT easy to operate. The spring back system is horrible!

If our team has any additional questions about your responses, would you accept further contact? Yes, by phone or e-mail.

Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)? No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).

What Can We Do Better?>

Feedback/Concerns: Make the steering wheel thinner. Change the spring back gear shift. Return it to the more stable shift where the shift stays put.

What has Chrysler done right? The ride, paint job, interior, seats, sound...all these are great. DON'T change them!!!

Contact Me>

Based on the feedback you provided, would you like someone from Chrysler LLC to contact you about your Chrysler vehicle? Yes.

To better serve you, briefly describe the topic(s) you would like to discuss. Steering wheel and gear shift.

Please provide us with a phone number you can be reached at during daytime hours. Thank you.

Vehicle Satisfaction Ratings

Overall audio, entertainment, and navigation system impression	5.

What are your favorite parts of your new vehicle?	The seats!!!
Is there anything about your new vehicle you would like to see changed?	the thickness of the steering wheel and the spring loaded gear shift

Detail on High Rated Items	
You rated overall audio, entertainment, and navigation system impression High. Use this space to provide any specific comments you would like to share.	Great sound especially when the windows are open.
You rated ease of using system displays while driving High. Use this space to provide any specific comments you would like to share.	So much better than the Lincoln My Touch. Less computer nonsense to distract from driving.
You rated integration with phones High. Use this space to provide any specific comments you would like to share.	Blue tooth, my husband likes it. I wont use it.
You rated integration with media players High. Use this space to provide any specific comments you would like to share.	Husband uses and likes.
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	Husband uses
You rated support for popular music/video formats High. Use this space to provide any specific comments you would like to share.	I can get Canadian stations and love it.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	The passanger seat is all power and great.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	Love the new car black, the last 300 was metallic and always looked dirty.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Looks like a much more expensive car. Great style.
You rated side/profile view styling (driver's side or passenger's side exterior area) High. Use this space to provide any specific comments you would like to share.	Feel like I am in a Limo. Very classy.
You rated rear view styling (rear fascia, bumper) High. Use this space to provide any specific comments you would like to share.	Again great style, looks like a more expensive car. The best looking car on the road and I can find it in the parking lot.
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	Classy
You rated headlight illumination/performance during night-time driving High. Use this space to provide any specific comments you would like to share.	Good night lite for old eyes.
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	First it looks sharp, cleans like a dream and very comfortable.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	Big trunk, carries a 10 ft Christmas tree. Very important to me.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	Better than our 2007 300, more passanger leg room.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	Better door room on back for older parents.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	Very quiet. Better than the Lincoln MKZ which we bought and traded 1 month after buying.
You rated seat adjustment and comfort High. Use this space to provide any specific comments you would like to share.	I recline when on long drives and the passanger seat is perfect. DONT change it!

Detail on High Rated Items

You rated operating controls while driving (gear selector, turn signals, horn, etc.) High. Use this space to provide any specific comments you would like to share.	Gear selector we HATE. The rest is easy to use.
You rated location and usefulness of interior lighting High. Use this space to provide any specific comments you would like to share.	All easy to reach.
You rated safety and visibility while driving High. Use this space to provide any specific comments you would like to share.	No blind spots like the 2007 300.
You rated climate control operation (function and ease of use) High. Use this space to provide any specific comments you would like to share.	Dust is great
You rated engine performance during acceleration High. Use this space to provide any specific comments you would like to share.	Sounds like a big car should. not tinny and winey.
You rated engine sound High. Use this space to provide any specific comments you would like to share.	Love the big car sound.
You rated engine exhaust sound High. Use this space to provide any specific comments you would like to share.	great
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	Great gas mileage on our just completed 6000 mile vacation.
You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	quick and good traction
You rated ride quality High. Use this space to provide any specific comments you would like to share.	except the thick steering wheel and springy gear shift the car is great.
You rated steering and handling (responsiveness, stability) High. Use this space to provide any specific comments you would like to share.	Good turn ratio
You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.	Pilson Auto is great to work with.
You rated your feelings about the durability of your new vehicle High. Use this space to provide any specific comments you would like to share.	Rides like a dream and as useful as a truck.
You rated the value of your new car High. Use this space to provide any specific comments you would like to share.	Very good price
You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.	I wanted this car from the start but husband was tired of the 300 after 5 years so we bought a Lincoln MKZ and traded it 1 month after and bought the new 300.
You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.	Have had many Chryslers and prefer the brand.
We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.	Power seats, rear seat space, trunk great size. Drives like a dream. Most comfortable car we have ever driven on long trips. DON'T change anything but the shift.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	Gear shift, terrible spring back action. Almost to the point of being unsafe.
---	---

About You>

Did you purchase or lease your vehicle?	Purchase.
What price did you pay for your vehicle?	35000
Is this your first new vehicle ever purchased / leased?	No.
Please tell us about the vehicle you replaced (if applicable)	Lincoln. MKZ. Replaced Vehicle: Purchased New.
Primary vehicle you were considering:	Lincoln. MKZ. Primary Considered Vehicle: New.
Which online data sources, if any, influenced your buying decision? (check all that apply)	Consumer Reports. Kelley Blue Book.
Please describe any other factors (not listed above) that significantly influenced your decision not to purchase this other vehicle.	We did buy it and traded after 1 month.
Secondary vehicle you were considering:	Chrysler. 300. Secondary Considered Vehicle: New.
Primary vehicle in your household:	Chrysler. 300. Primary Household Vehicle: Purchased New.
Secondary vehicle in your household:	Nissan. Versa. Secondary Household Vehicle: Purchased Used.
Which of the following best describes the area you live in?	Rural.
What is your primary language?	English.
Please indicate your gender	<input type="checkbox"/>
What year were you born?	1 <input type="checkbox"/>

About You>

Please indicate your highest education level	2 year college degree.
What is your current marital status?	
How may children 17 or under live in your household?	0.
Please indicate your ethnicity	
What is your total household income (before taxes)?	\$40,000 - \$59,999.

Please tell us how many miles are currently on your vehicle:				1,000-2,999.			
Are you the primary driver of this vehicle?				Yes.			

Continuous Quality Insight							
Continuous Quality Insight				Transmission and Drivetrain.			

Transmission and Drivetrain>Automatic Transmission>							
Automatic Transmission				Gear selector is difficult to operate (auto. trans.).			

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>							
Going into which position is the gear selector difficult to operate? (check all that apply):				You have to push the damned button every time you go through another gear. This new technology is a step backward. Instead of a smooth transition from park to drive you have to keep pushing the damned button.			
				I hate the electronic shifter, it is a pain in the ass to have to pust the button every time you go from gear to gear. Half the time you are still in reverse instead of park. Almost backed into a car behind me because I thought I was in park.			
Why is the gear selector difficult to operate?				Same problem as above, instead of smoothly going into drive you have to push he button again while going from park to drive.			
How often does this trouble occur?				Gear selector requires too much effort/force to operate.			
Please describe conditions when this trouble occurs:				Trouble occurs regularly.			
To the best of your recollection, the trouble was first noticed:				Every time you have to put the car in gear			
Approximate mileage when trouble was first noticed was:				At delivery.			
Additional Comments:				0 - 1499 miles.			
				I cuss the electronic shifter every time I drive the car. I have told other people about it and even shown them what I mean and they think it is stupid also.			

Overview							
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?				Yes.			
Have you taken the vehicle to a dealer to have your trouble corrected?				No.			
Overall, how satisfied are you with the quality of your new vehicle?				Very satisfied.			
Would you recommend this vehicle to family or friends?				Yes.			
Please explain further about your choice to recommend your vehicle:				I like the vehicle, I just don't like the electronic gear selector. I traded in a 2011 300 on this one and it didn't have this problem.			
If our team has any additional questions about your responses, would you accept further contact?				Yes, by phone or e-mail.			
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?				No (after completing your survey, we will provide a link to download your vehicle application to your smartphone.).			

What Can We Do Better?>							
Feedback/Concerns:				Other than the electronic gear selector I like the new car far better than my 2011.			
What has Chrysler done right?				I purchased this 300C to replace a 2011 300 Limited. The new car is quieter and rides much better than the Limited. My old car had 20" wheels which I hated. So far this new car is a vast improvement over the old one except for the electronic gear selector.

Detail on High Rated Items	
You rated navigation system route accuracy High. Use this space to provide any specific comments you would like to share.	The navigation system is simple and efficient unlike other vehicles I have owned.
You rated exterior design and appearance (overall impression) High. Use this space to provide any specific comments you would like to share.	The car has a great look without being ostentatious.
You rated appearance of exterior paint High. Use this space to provide any specific comments you would like to share.	The paint appears brighter than the 2011 that I traded in that was the same color.
You rated front view styling (front fascia, hood, grille, headlight area) High. Use this space to provide any specific comments you would like to share.	Car has a classy look especially with the daylight driving lights on.
You rated wheels, rims, and tires appearance and styling High. Use this space to provide any specific comments you would like to share.	I purchased the 300C with the Crome wheels, they compliment the red color of the car and give it a special look
You rated interior comfort, design and appearance of interior (overall impression) High. Use this space to provide any specific comments you would like to share.	I love the small features such as the ventilated seats and power steering wheel adjustment.
You rated vehicle storage and space usage High. Use this space to provide any specific comments you would like to share.	I like a full sized car with ample trunk area, this car is adequate in size and space.
You rated head/leg/foot room High. Use this space to provide any specific comments you would like to share.	I am an older driver and I like wide seats and plenty of leg room, I find this car delivers on both items.
You rated ease of getting into and out of vehicle High. Use this space to provide any specific comments you would like to share.	As an older driver I want to be able to get into my car with comfort not have to put into it with a shoe horn. Today there are very few full sized cars to choose from. The 300 is one of he few choices that met my needs and price.
You rated interior noise level while driving High. Use this space to provide any specific comments you would like to share.	This is one of the quietest cars I have ever owned. My past cars have included Cadillacs, Lincoln's and Acura's and this car matches or exceeds every one of these cars for interior noise quality.
You rated fuel economy and driving range High. Use this space to provide any specific comments you would like to share.	For a car this size the gas mileage is very pleasing.

Detail on High Rated Items

You rated ride quality High. Use this space to provide any specific comments you would like to share.

You rated your purchasing experience (at the dealer/dealership) High. Use this space to provide any specific comments you would like to share.

You rated your attitude overall towards your new car High. Use this space to provide any specific comments you would like to share.

You rated your attitude about the brand of your new car High. Use this space to provide any specific comments you would like to share.

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that you feel far exceeded your expectations.

This car gives one of the smoothest quietest rides of any car I have ever owned.

Doc at Champion Chrysler was one of the most professional salesmen I have ever dealt with. Champion Chrysler dealt professionally without playing games and kept their word on every thing they said they would do and more. I contacted them after the sale with a couple of items and they responded quickly and went beyond what they needed to do to make me happy. I would recommend them to anyone who asked.

I enjoy driving and this car makes makes driving fun.

I was never a Chrysler fan because of past quality problems but my previous 2011 300 Limited gave me excellent service with no negative mechanical issues and warranted my buying another Chrysler.

The quiet ride and drive of this car are far better than my 2011.

Detail on Low Rated Items

You rated operating controls while driving (gear selector, turn signals, horn, etc.) Low. Use this space to provide any specific comments you would like to share.

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.

I hate and cuss the electronic gear selector every time I get into this car. This is my only real negative I have against his car but it really bugs me. I hope Chrysler fixes this issue as otherwise they have designed a great car.

Once again the electronic gear selector. I can't believe how difficult it is to put a simple automatic in gear. I never owned an automatic that I had to check each time to make sure it is in park and not reverse. It is not only a pain in the ass but also dangerous.

About You

Did you purchase or lease your vehicle?

Purchase.

What price did you pay for your vehicle?

40,000

Is this your first new vehicle ever purchased / leased?

No.

Please tell us about the vehicle you replaced (if applicable)

Chrysler.

300.

2011.

Detail on High Rated Items

You rated brake responsiveness/effort High. Use this space to provide any specific comments you would like to share.	It's impressive how quickly this nearly two ton car can stop.
--	---

Overview

Please provide feedback on how Chrysler can improve the Smartphone Application	The text and graphics appear quite small on my HTC One.
Have you referred to the Owner's Manual, Warranty Manual, or other documents that came with your vehicle to answer questions about your vehicle?	Yes.
The Smartphone Application format is easy to understand and use	4 (agree).

Overview

Information in the Smartphone Application is easy to find and access	4 (agree).
Smartphone Application covers the necessary features	4 (agree).
Please rate your overall level of satisfaction with the Smartphone Application	4 (satisfied).
Have you taken the vehicle to a dealer to have your trouble corrected?	Yes.
Where did you take your vehicle to have your trouble checked out? (check all that apply)	Took to the dealer I purchased my vehicle from.
Was the trouble resolved to your satisfaction?	Yes.
Overall, how satisfied are you with the quality of your new vehicle?	Satisfied.
Would you recommend this vehicle to family or friends?	Yes.
If our team has any additional questions about your responses, would you accept further contact?	Yes, by e-mail only.
Many of our vehicles have supporting smartphone applications with vehicle information. Have you had the opportunity to download and review your vehicle's smartphone application (if available)?	Yes.

Transmission and Drivetrain>Automatic Transmission>Gear selector is difficult to operate (auto. trans.)>

Going into which position is the gear selector difficult to operate? (check all that apply):	Park (P). Reverse (R). Drive (D). Other (please describe). Trouble occurs intermittently.
Why is the gear selector difficult to operate?	
How often does this trouble occur?	
Please describe conditions when this trouble occurs:	Mostly when going from Park to Drive, or Drive to Park
To the best of your recollection, the trouble was first noticed:	At delivery.
Approximate mileage when trouble was first noticed was:	0 - 1499 miles.
Additional Comments:	On occasion when I go from Park to Drive the transmission selection will bounce from Drive and end up in Neutral. Also, from time to time when I shift from Drive to Park the selection will bounce out of park and land in Reverse. A selector knob (like in the 2013 Ram Pickup) would be a much better solution.

Detail on Low Rated Items

We want to hear what's on your mind. Please use this space to comment on any feature of the vehicle that fell well below your expectations.	The gear selector is a neat idea, but doesn't work well in practice. A selector knob like in the Ram Pickups would be a much easier to use solution.
