PE18-016

Dear Mr. McCarthy:

This letter is to inform you that the Office of Defects Investigation (ODI) of the National Highway Traffic Safety Administration (NHTSA) has opened a Preliminary Evaluation (PE18-016) to investigate allegations of separation of the steering linkage (drag link) resulting in loss of steering control in certain model year (MY) 2013 - 2018 Ram 2500 and 3500 vehicles manufactured by Fiat Chrysler Automobiles US LLC (FCA), and to request certain information. The separation occurs at a coupling device (an adjuster) used for alignment of the steering system.

This office has received two reports of separation of the drag link resulting in loss of steering control in certain MY 2013 - 2018 Ram 2500 and 3500 vehicles. One alleged incident occurred while the vehicle was being driven at highway speed, resulting in a crash with injury, and another occurred in a parking lot at low speed or while stopped. A copy of each of the reports will be provided for your information, and the reference (ODI) number of each report is provided below.

Unless otherwise stated in the text, the following definitions apply to these information requests:

- **Subject Vehicles:** All MY 2013 - 2018 Ram 2500 and 3500 vehicles, equipped with either the “4x4 style” or the “4x2 style” steering linkage system, and manufactured for sale or lease in the United States, including, but not limited to, the District of Columbia, and current U.S. territories and possessions.
- **Peer Vehicles:** All MY 2008 – 2013 Ram 2500, 3500, 4500, and 5500 vehicles equipped with “Crosscar” steering linkage manufactured for sale or lease in the United States, including, but not limited to, the District of Columbia, and current U.S. territories and possessions.

- **Subject Component:** Linkage from the Pittman arm that relays all steering forces to the toe linkage or right steering knuckle, also known as the Drag Link.
- **Alleged Subject Vehicle Defect:** 1) Separation of steering linkage at the drag link adjuster resulting in loss of steering control, or 2) loosening of either or both jam nuts at the adjuster (which may be a precursor condition to separation).
- **Alleged Peer Vehicle Defect:** Separation or fracture of steering components (to include tie-rod end ball joints which connect the drag link to the Pittman arm and the “Crosscar” toe linkage rod) resulting in loss of steering in vehicles which have not been recalled, or have had all final recall remedies applied to the steering system for NHTSA recalls 09V-005, 09E-001, 10V-657, 11V-350, 13V-529, 13V-528, and 13V-527.
- **FCA:** Fiat Chrysler Automobiles US LLC, Chrysler Group, LLC and all of their past and present officers and employees, whether assigned to their principal offices or any of their field or other locations, including all of their divisions, subsidiaries (whether or not incorporated) and affiliated enterprises and all of their headquarters, regional, zone and other offices and their employees, and all agents, contractors, consultants, attorneys and law firms and other persons engaged directly or indirectly (e.g., employee of a consultant) by or under the control of FCA (including all business units and persons previously referred to), who are or, in or after January 1, 2010, were involved in any way with any of the following related to the alleged subject defect in the subject vehicles:
 - a. Design, engineering, analysis, modification or production (e.g. quality control);
 - b. Testing, assessment or evaluation;
 - c. Consideration, or recognition of potential or actual defects, reporting, record-keeping and information management, (e.g., complaints, field reports, warranty information, part sales), analysis, claims, or lawsuits; or
 - d. Communication to, from or intended for zone representatives, fleets, dealers, or other field locations, including but not limited to people who have the capacity to obtain information from dealers.
- **Document:** “Document(s)” is used in the broadest sense of the word and shall mean all original written, printed, typed, recorded, or graphic matter whatsoever, however produced or reproduced, of every kind, nature, and description, and all non-identical copies of both sides thereof, including, but not limited to, papers, letters, memoranda, correspondence, communications, electronic mail (e-mail) messages (existing in hard copy and/or in electronic storage), faxes, mailgrams, telegrams, cables, telex messages, notes, annotations, working papers, drafts, minutes, records, audio and video recordings, data, databases, other information bases, summaries, charts, tables, graphics, other visual displays, photographs, statements, interviews, opinions, reports, newspaper articles, studies, analyses, evaluations, interpretations, contracts, agreements, jottings, agendas, bulletins, notices, announcements, instructions, blueprints, drawings, as-builts, changes, manuals, publications, work schedules, journals, statistical data, desk, portable and computer calendars, appointment books, diaries, travel reports, lists, tabulations, computer printouts, data processing program libraries, data processing inputs and outputs,

For purposes of this request, any document which contains any note, comment, addition, deletion, insertion, annotation, or otherwise comprises a non-identical copy of another document shall be treated as a separate document subject to production. In all cases where original and any non-identical copies are not available, "document(s)" also means any identical copies of the original and all non-identical copies thereof. Any document, record, graph, chart, film or photograph originally produced in color must be provided in color. Furnish all documents whether verified by FCA or not. If a document is not in the English language, provide both the original document and an English translation of the document.

In order for my staff to evaluate the alleged defect, certain information is required. Pursuant to 49 U.S.C. § 30166, please provide numbered responses to the following information requests. Insofar as FCA has previously provided a document to ODI, FCA may produce it again or identify the document, the document submission to ODI in which it was included and the precise location in that submission where the document is located. When documents are produced, the documents shall be produced in an identified, organized manner that corresponds with the organization of this information request letter (including all individual requests and subparts). When documents are produced and the documents would not, standing alone, be self-explanatory, the production of documents shall be supplemented and accompanied by explanation.

Please repeat the applicable request verbatim above each response. After FCA's response to each request, identify the source of the information and indicate the last date the information was gathered.
