Dear Mr. McCarthy:

This letter is to inform you that the Office of Defects Investigation (ODI) of the National Highway Traffic Safety Administration (NHTSA) has opened a Preliminary Evaluation (PE19-017), to investigate allegations of front driveshaft and/or transfer case failure while driving, in model years (MY) 2015-2017 Dodge Ram 4500 and 5500 4WD vehicles manufactured by Fiat Chrysler Automobiles US LLC (FCA), and to request certain information.

NHTSA received a consumer complaint from an ambulance fleet describing that while driving at highway speeds, the driver and assistant felt a vibration and heard a loud noise. Following these events, the engine shut off resulting in a loss of motive power, steering assist and service brakes. The driver was able control the vehicle and bring it to the shoulder. It was determined that the transfer case had broken apart. During a shop inspection, damage was found to fuel lines, brake lines, floor board and the front driveshaft (broken off).

When contacted, the complaining fleet provided information on 2 additional ambulance fleets experiencing similar scenarios. In one case, the ambulance was transporting a patient when the incident occurred. The truck was not able to exit onto the shoulder and was stalled on the main roadway.

From 2018 quarter 4 Field Report data submitted by FCA, ODI identified failures similar to those described by the ambulance fleets. One failure resulted in a loss of motive power and airbag deployments. An interview with the owner of the company indicated the truck had been serviced exclusively by an authorized Chrysler dealer.

Consequences of, and systems impacted by driveshaft and/or transfer case failures include the loss of engine power, loss of steering assist, loss of foundation brakes, unintended air bag

deployment and engine/cab fires from combustible fluids striking hot exhaust. ODI is opening this Preliminary Evaluation (PE) to further evaluate the frequency and severity of the alleged defect.

The above VOQs can be reviewed at NHTSA.gov under identification numbers 11113352, 11121408 and 11104270. A copy of each of the reports will be electronically sent to FCA for your review and information.

In order for my staff to evaluate the alleged defect, certain information is required. Pursuant to 49 U.S.C. § 30166, please provide numbered responses to the following information requests. Insofar as FCA has previously provided a document to ODI, FCA may produce it again or identify the document, the document submission to ODI in which it was included and the precise location in that submission where the document is located. When documents are produced, the documents shall be produced in an identified, organized manner that corresponds with the organization of this information request letter (including all individual requests and subparts). When documents are produced and the documents would not, standing alone, be self-explanatory, the production of documents shall be supplemented and accompanied by explanation.

Please repeat the applicable request verbatim above each response. After FCA's response to each request, identify the source of the information and indicate the last date the information was gathered.
