RE: STATE FARM MUTUAL AUTO INS
Claim No.: XXXXXX [REDACTED]
WWR File No.: [REDACTED]
Balance Due as of June 13, 2017: \$19,127.38

Dear KIA MOTORS AMERICA INC:

Please be advised that this law firm has been retained to represent the above-referenced client with regard to its claim against you for damages. As of the date of this letter you owe the amount listed above.

It is requested that you forward a check or money order to our office to cover the damages sustained. You may also be able to pay your account online via our web-pay website at www.wwerepay.com. If you are unable to pay the entire amount, it is important that you contact this office to discuss a repayment program.

Your failure to either remit the balance or enter into satisfactory payment arrangements may result in continued collection efforts against you. If your driving privileges have been suspended as a result of this claim, my client is in the position to remove that suspension only after this matter is resolved to their satisfaction.

This is an attempt to recover a balance by a debt collector for our client and any information obtained will be used for that purpose. Unless you dispute the validity of this debt, or any portion thereof, within thirty (30) days of receipt of this letter, we will assume that the debt is valid. If you notify us in writing within the thirty (30) day period that the debt, or any portion thereof, is disputed, we will obtain verification of the debt and mail you a copy. If you request in writing within the thirty (30) day period, we will provide you the name and address of the original creditor if different from the current creditor.

Sincerely,

Weltman, Weinberg & Reis Co., L.P.A.

*****PLEASE SEE REVERSE SIDE FOR IMPORTANT INFORMATION ABOUT YOUR RIGHTS*****

CONWELT01332CACO

To receive proper credit on your account, please detach the bottom portion and return with your payment in the enclosed envelope

RE: Claim Number: [REDACTED]
Date of Loss: [REDACTED] 2017
Our Insured: [REDACTED]
Loss Location: Hillsdale, MI
Vehicle: Kia Optima
VIN: KNAGT4L39G5 [REDACTED]
Mileage: 2,800
Your File Number: [REDACTED]
Insured's Deductible: \$50.00

Ryan:

This notice is to advise of a loss that occurred to our insured's vehicle. The damage was caused by a defect in the fuel line connection.

Our investigation indicates that Kia Motors America is responsible for this loss. By virtue of our payment, we are entitled to recover from the responsible party. Please consider this letter as our demand to Kia Motors America for reimbursement of \$19,127.38.

Any settlement with State Farm's policyholder with respect to this loss must not prejudice our rights, as subrogor, and shall not be released by execution of a general release with such policyholder.

Your cooperation is appreciated. If you should have any questions, or would like to set up and appointment to inspect the evidence/salvage, please feel free to contact me at (877) 787-8276 Ext. 6156927554

In order to assist you in evaluating and processing the claim we are asserting, we may provide nonpublic personal information about our customer. We are sharing this information to effect, administer, or enforce a transaction authorized by the consumer. However, you are neither authorized nor permitted to: (1) use the customer information we provide for any purpose other than to evaluate and process the subrogation claim, or (2) disclose or share the customer information we provide for any purpose other than to evaluate and process the subrogation claim.

If you have any questions or need additional information, please call me at the number listed below. If I am not available, any other member of my team may assist you.

IN RE: State Farm Insurance Claim No. [REDACTED]
H&A File No. [REDACTED]
Date Received: January 24, 2017
[REDACTED]

PREDICATION:

This case is predicated upon the request of Mr. Arnold Cooper, Claims Representative, to conduct an investigation into the fire loss of a 2016 Kia Optima.

SECRETARY OF STATE:

A review of the title information indicates the 2016 Kia Optima, bearing Vehicle Identification Number KNA GT4L39G5 [REDACTED] was transferred from Ohio to [REDACTED] on January 9, 2017 with 14 actual miles. Regional Acceptance Corp. is the secured interest. There is no Michigan license plate listed on the registration. (See enclosed document)

INSPECTION:

On January 26, 2016 at 12:00 PM, this Investigator arrived at Copart, Lansing, Michigan to conduct an investigation into the fire loss of a 2016 Kia Optima.

Once at the scene, a close inspection provided the following information:

SEE ENCLOSED INVESTIGATION REPORT

Prior to leaving the inspection location, several digital photographs were taken, are stored on a server off site, and are enclosed for your review.

Page 2

ORIGIN AND CAUSE INVESTIGATION:

On January 26, 2017 at 12:00 PM, this Investigator arrived at Copart to conduct an origin and cause investigation into the fire loss of a 2016 Kia Optima. Upon arrival, the vehicle, gray in color, is located in the secured lot and is identified by the Vehicle Identification Number on the federal manufacturers label secured to the driver B pillar. There is a temporary Ohio license plate in the rear window with an expiration date of January 31, 2017 and a date of issue December 17, 2016. Further, there is a Taylor Kia advertisement license plate on the trunk lid. Initial observations reveal evidence of a fire to have originated within the engine compartment causing charring and blistering to the painted surfaces of the hood and fenders as well as heat damage and cracking to the windshield. Both headlight assemblies are partially consumed, the remains of the grille and front bumper cover are not present. Both front tires are still inflated. The remaining exterior painted surfaces of the vehicle are intact, the rear tires are intact and inflated and all remaining window glass is intact in the up/closed position.

The examination is focused to the fuel tank, fill tube and fuel cap where all are found to be intact. cursory inspection of the undercarriage reveals it is intact.

The examination is focused to the vehicle's interior where it is found to be intact and undamaged by fire. It should be noted the remains of assemblies and the washer solvent reservoir as well as the outer portion of the steel hood have been placed in the rear passenger compartment after the fire. Contents in the vehicle include pop cans, candy and candy wrappers, blood glucose test strips, miscellaneous papers and CDs. Subsequently, the odometer is digital and does not illuminate however there is a Taylor Kia of Toledo oil change sticker on the windshield indicating the first service due October 26, 2016 or 5,000 miles.

At this time, entry is gained into the trunk using the key in the ignition where the trunk is found to be intact. Within the trunk is a gas can nozzle cap, papers and a children's toy. Further, the spare tire, tire changing equipment and tire mobility kit are intact under the cover.

The investigation is focused to the engine compartment where a subsequent check of the fluid levels reveal the brake fluid and coolant have drained during the course of the fire, transmission fluid drained during the fire, power steering is electric and the oil is registering overfull and may be attributed to water having entered the engine during fire suppression.

The inspection is focused to the electrical system on the left or driver side where exposure fire damage is noted to the fuse box, powertrain computer and battery. Plastic casing remains surrounding the fuse box and wiring traveling to same reveals color coded wiring insulation still intact. Wiring traveling to the power train computer inboard the fuse box reveals charred wrapping, charred wiring insulation and wires with color coded insulation still present and no

IN RE: State Farm Insurance Claim No. [REDACTED]
H&A File No. [REDACTED]

February 1, 2017
Page 3

evidence of any fire origin. Inspection of the battery and the left front reveals exposure fire damage with plastic casing and a heat protector on the sides of the battery. The negative battery post on the outboard side is broken off and the cable is void of insulation. Combustibles surround the positive cable connection on the inboard side. Upon examining the battery cable wiring, the positive cable which travels to the starter at the front of the engine and alternator cable in the right front of the engine have made contact with a hose bracket in the area of the engine and transmission connection with electrical activity and fusing noted and the metal bracket melted in two. Further, branch wiring traveling over the top of the engine within this area reveals electrical activity present.

The examination is focused to the front of the engine compartment where melting is present to center of the aluminum air conditioning condenser and radiator. The lower radiator hose is still connected to the radiator on the passenger side and much of the upper radiator hose is still present on the left side of the engine. The examination continues and the cooling fan motor is not located at this time, wiring on the left or driver side reveals it is void of insulation but no evidence of any electrical activity is found. The examination further reveals the oil filter secured at the front of the engine with the hoses traveling to the oil cooler partially consumed with the hose clamps still in place.

The investigation is focused to the right or passenger side where there is serpentine belt remains on the pulleys. Further, there are the remains of a coolant reservoir and no evidence of any fire origin.

The inspection continues and is focused to the rear of the engine compartment where in the left rear factory wiring harnesses reveal wrapping charred and color coded wiring insulation still remaining. Factory rubber grommet to the left of the brake booster is also still basically intact. The examination of the right or passenger side reveals exposure fire damage to the ABS module and associated wiring. The wiring harness traveling along the rear of the engine compartment in the center is void of insulation. Further, the silencer pad material at the bulkhead in the center has been consumed. Consumption of air conditioning hoses, combustible brake hoses from the fittings within this area is noted. The examination reveals the heater hose connections with the remains of the hoses and clamps in place and the hoses partially consumed.

The investigation is now focused to the top of the engine where there is the remains of fiberglass material covering the valve cover on the passenger side where the oil fill cap is still in place. The examination reveals the fire damage to the engine is most pronounced on the left or driver side as indicated by the lack of fiberglass material covering areas of the driver side of the valve cover and top of the engine and melting to the aluminum heat shielding for the exhaust manifold and catalytic converter at the rear of the engine. The examination is focused to the fuel system where the combustible fuel line at the bulkhead to the left of the exhaust has melted off and been

IN RE: State Farm Insurance Claim No. [REDACTED]
H&A File No. [REDACTED]

February 1, 2017
Page 4

consumed where it would travel and connect to the engine. The examination of the engine reveals the fuel rail below the combustible intake at the front of the engine. A metal fuel line is connected to the driver side of the fuel rail which travels along the left side of the engine to the high pressure fuel pump in the upper left corner. At the front of the high pressure fuel pump is a metal line and partially consumed combustible fuel line which would travel and connect to the supply at the bulkhead as previously stated.

Further examination reveals foam padding with the Hyundai cover assy. imprint noted which is at this time lying in the area of the exhaust manifold and rear of the engine compartment. The inspection of same reveals an odor familiar to this Investigator as gasoline on the remains of the padding.

At this time, the vehicle is placed on an inspection rack where the examination reveals the rear and mid undercarriage are intact to include the underbody protector. The examination reveals the bottom of the engine is intact to include the drain plug and the oil filter is tight. The examination continues and the positive battery cable which is arced in two in the area of the bracket at the front of the engine is noted traveling back to the battery. The inspection of the fuel line reveal it is consumed within the engine compartment and is not visible from the channel along the undercarriage to the fuel tank where the underbody shielding is still intact.

At this time, having completed the above inspection and examination, it is the opinion of this Investigator that the fire originated within the rear of the engine compartment in the area of the fuel lines and at this time, the investigation continues.

FIRE SCENE INVESTIGATION:

On January 27, 2017 vehicle parts were retrieved from the fire scene; [REDACTED] Hillsdale, MI. Located at the scene were: a light bulb assembly, the cooling fan motor and wiring and the throttle body. Inspection of these items reveal exposure fire damage and no evidence of fire origin. Further, the items were placed in the vehicle at Copart on January 31, 2017. (See enclosed photographs)

IN RE: State Farm Insurance Claim No. [REDACTED]
H&A File No. [REDACTED]

February 1, 2017
Page 5

EXEMPLAR VEHICLE:

On January 27, 2017, exemplar 2016 Kia Optima engine compartment was photographed at Feldman Kia in Novi, Michigan. (See enclosed photographs).

VINLINK:

Vinlink decoded the Vehicle Identification Number as a 2016 Kia Optima equipped with a 2.4 liter, L4 engine and was assembled in Korea. (See enclosed document)

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION:

A search of the National Highway Traffic Safety Administration for 2016 Kia Optima vehicles produced two recalls. Upon review, they were found to have nothing whatsoever to do with the fire in question. (See enclosed documents)

ALLDATA SYSTEM:

A search of the Alldata system for 2016 Kia Optima vehicles produced one general campaign, three safety campaigns and three safety recalls as well as a number of technical service bulletins. Upon review, none were found to pertain to the fire in question. (See enclosed documents)

RECALL/CAMPAIGN QUERY:

A search by VIN through the Kia.com website indicates there are no open safety recalls for this vehicle.

CARFAX:

This office obtained a Carfax vehicle history report for the vehicle which indicates no accident damage reported to Carfax, one owner, vehicle last owned in Michigan, one detailed record available, last reported odometer reading 14 miles. (See enclosed document)

IN RE: State Farm Insurance Claim No. [REDACTED]
H&A File No. [REDACTED]

February 1, 2017
Page 6

HILLSDALE FIRE DEPARTMENT:

This Investigator was advised by the Claims Investigator State Farm has requested a copy of the fire report.

INTERVIEW -- [REDACTED]

Investigator Karl Belanger of this office conducted a telephone interview with [REDACTED] the title holder and named insured and [REDACTED] the operator of the vehicle and eyewitness to the fire. (See enclosed interview)

CONCLUSION:

Having completed an examination of the vehicle, examined the vehicle components left at the fire scene, reviewed an interview with the insured and the operator of the vehicle who was an eyewitness to the fire, conducted research pertaining to the vehicle, and based upon all of the information known at the time of the preparation of this report, it is the opinion of this Investigator that the fire originated within the rear of the engine compartment in the center to left or driver side in the ignition of fuel vapors escaping from the fuel system to include the fuel line/fittings/connections and upon ignition of the fuel vapors, the fire extended upward and outward from this location causing the damage present. The fire is classified as an accidental fire.

At this time, all requests for services have been completed, we are closing our file and forwarding our report and photographs for your review.

Conclusions and opinions expressed in the report were developed utilizing the Investigator's training, education, experience and standard investigative techniques.

Owner 1

Have Questions? Consumers, please visit our Help Center at www.cars.com. Dealers or Subscribers, please visit our Help Center at www.carsonline.com.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle's history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Owners sometimes opt in title ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

(Years/Miles):
27. Have you had any warranty work done to the vehicle since the purchase? Yes ☐ No ☒
(If yes, have copy forwarded to our office): Fax ☐ Mail ☐ Email ☐
Records: In Vehicle ☐ Sent to Adjuster ☐
Do Not Have Records ☐
28. Type of warranty service:
29. Who performed warranty service? (Name of dealer or repair facility, indicate City, State/Province)
30. Any service work performed? (excluding oil changes) Yes ☐ No ☒
Type of service work:

Owner/ Driver Interview (Motorized Vehicles)

31. Date of service and facility
(City, State/Province):
(Have records forwarded to
our office):

Fax ☐ Mail ☐ Email ☐

Sent to adjuster ☐ Do not have records ☐

32. *How much fuel was in the
tank?

% ☒ % ☐ % ☐ FULL ☐ UNK ☐
But it ran out of gas; it was showing 20 miles left in gas
tank
Couple days before

When did you last fill up?

33. *Who checks the fluid levels,
such as the oil, transmission
fluid, etc?

Oil Change Facilities ☐ Dealer ☐ Insured ☐
Other ☐ too new

34. *How often do you obtain an
oil change?

Computer indicates ☐ Oil Change Sticker ☐
Interval

35. *When was the last oil
change?

Only owned it for a month - not changed yet
UNK ☐

36. *Do you (between oil
changes) ever have to add
any fluids?
(If yes, indicate amount):

Yes ☐ No ☒

Oil:
Transmission:
Power Steering:
Brake:
Coolant:
Hydraulic Oil:

37. When and who was the last
person to enter the engine
compartment and for what
reason?

Taylor Kia at purchase

38. *Any recent unresolved
mechanical problems with
the vehicle?
Explain:

Yes ☐ No ☒

39. If yes, have you had the
problem resolved? Name of
dealer or repair facility (City,
State/Province):

40. *Any recent unresolved electrical problems with the vehicle prior to the fire?
Explain: Yes ☐ No ☒

41. If yes, have you had the problem resolved? Name of dealer or repair facility (City, State/Province)

42. Mileage at the time of purchase? New ☒ UNK ☐

43. *Mileage at the time of loss: 3,000 UNK ☐

44. Have you ever had any problems with animals? (i.e. building nests in engine, chewing wires, etc.)
Explain: Yes ☐ No ☒

45. *Are you a smoker? Yes ☐ No ☒

46. *Was anyone smoking prior to exiting the vehicle? Yes ☐ No ☒

47. *If yes, how are the smoking materials extinguished? In ash tray ☐ Out the window ☐

48. Have any electrical accessories been added to the vehicle since the purchase? Yes ☐ No ☒

If yes, what?

Alarm System/ Remote Start
Amplifier
Television
Radar Detector
Radio
DVD

☐
☐
☐
☐
☐
☐

Owner/ Driver Interview (Motorized Vehicles)

VCR ☐
Xenon Lights (Blue Color) ☐
Speakers ☐
Equalizer ☐
Navigation System ☐
Other ☐

49. Who installed the item?
(Name, City, State/Province,
telephone number of installer
- obtain receipt if possible):

50. Did you have anything
plugged into the cigarette
lighter adapter or 12 volt
auxiliary power port?

Yes ☒ No ☐

Cell Phone Cord ☒ GPS Power Cord ☐
Other ☐

51. Does the power cord and/or
accessory remain on after key
removed from ignition?

Yes ☐ No ☒ UNK ☐

52. Is there any non-factory
wiring on the vehicle to your
knowledge?
Explain:

Yes ☐ No ☒ UNK ☐

53. Does your vehicle have an
alarm system?
Does your vehicle have a
keyless entry system?

Yes ☒ No ☐
Factory ☒ Aftermarket ☐

Yes ☒ No ☐
Factory ☒ Aftermarket ☐

54. Has the vehicle ever been
involved in an accident?
IF NO, SKIP TO QUESTION #61

Yes ☐ No ☒ UNK ☐

55. Date(s) of the accident:

56. What insurance company
serviced the claim?

Owner/ Driver Interview (Motorized Vehicles)

57. If yes, what parts to the vehicle were damaged?

58. What facility repaired the vehicle (City, State/Province)?

59. Were any parts replaced on the engine? Yes ☐ No ☐

60. Identify parts replaced:

61. *At the time of the fire, was the vehicle being:

Driven 5 _____ MIN ☒
Just parked it _____ HRS ☐
Idling _____ MIN ☐
Parked _____ HRS ☐
_____ MIN ☐
_____ HRS ☐

62. *If parked, how long was the vehicle engine running before parking the vehicle?

_____ MIN ☐
_____ HRS ☐

63. If vehicle was stopped/parked, were you in view of the vehicle?
If yes, how long?

Yes ☐ No ☐

_____ MIN ☐
_____ HRS ☐

64. *What accessories were being operated prior to the fire?

Daytime Running Lamps ☐
Radio ☐
HVAC ☐
Lights ☐
Windshield Wipers ☐
Cruise ☐
Rear Wipers ☐
None ☒
Other ☐

65. Does the vehicle have heated seats?

Yes ☐ No ☒

Were any on at the time of the fire?

None ☐ Driver ☐ Passenger ☐

Owner/ Driver Interview (Motorized Vehicles)

- Where is the switch located? Seat ☐ Center Console ☐ Door ☐
66. Did all accessories work? Yes ☒ No ☐
67. If the answers is No, how long had the accessory/accessories not worked?
68. Is the vehicle wired for a trailer? Yes ☐ No ☐ UNK ☒
Factory ☐ Aftermarket ☐
69. If yes, who did the wiring? Was on the vehicle at the time of purchase ☐
70. *Were you pulling a trailer? Yes ☐ No ☒
If so, describe (Year, Make, Length, Approximate Weight): (HAVE THEM SEND PAPERWORK WHICH LISTS ALL OF THE ABOVE)
71. *Any fluid leakage problems with the vehicle? Yes ☐ No ☒ Jessica: no
If yes, type or color of fluid leaking:
72. *Any fluid leakage discovered just prior to the fire or during the fire? Yes ☐ No ☒
If yes, type or color of fluid leaking:
73. *Did you experience any operability problems just prior to the fire? Yes ☒ No ☐
If yes, explain problem: Sputtering a little -- felt like it didn't have normal power
74. *Any warning lights illuminated/changes in gauges just prior to the fire? Yes ☐ No ☒
Identify warning lights or gauges:

Owner/Driver Interview (Motorized Vehicles)

75. *Did anyone detect any odors just prior to the discovery of the fire? (i.e. gasoline, wires burning, oil, rubber, sulfur, etc.)? Yes ☒ No ☐

Identify odor: gasoline

76. *Did any occupants of the vehicle hear any noises prior to the discovery of the fire? Explain: Yes ☐ No ☒

77. *Where was smoke first observed? (specific area i.e. dash, driver's side, engine, etc): UNK ☐ under the hood, passenger side

78. *What color was the smoke? Gray ☐ White ☒ Black ☐ UNK ☐

79. *Where was the fire first observed? (specific area) Opened hood - big puff of flames shot straight up UNK ☐

80. *What color was the flame? Orange ☐ Yellow ☐ Blue ☐ Deep Orange ☒ UNK ☐

81. *Was the vehicle running or turned off? Running ☐ Off ☒

82. *Was the hood open or closed at the time of the fire? Open ☒ Closed ☐

83. Was it opened by anyone prior to arrival of fire department? Yes ☒ No ☐
If so, by who and why:

84. Were any doors left open? Yes ☐ No ☒

Which doors? Driver ☐
Passenger ☐
Left Rear Door ☐
Right Rear Door ☐
Sliding Door ☐

Owner/ Driver Interview (Motorized Vehicles)

Rear Cargo ☐

85. If the vehicle was parked, were the doors locked? Yes ☐ No ☒ UNK ☐

86. Was the alarm set at the time of the fire? Yes ☐ No ☒ UNK ☐

87. Were any windows open? Yes ☐ No ☒
 Driver ☐
 Passenger ☐
 Left Rear Door ☐
 Right Rear Door ☐
 Sliding Door ☐
 Rear Cargo ☐

88. *Provide a short scenario leading up to fire: [redacted] had driven the car to the bank and noticed it was low on gas, the gauge showed 20 miles. It ran out of gas and wouldn't start. [redacted] came and picked [redacted] up and they got 1.5 gallons of gas put in the tank. Now the gauge read 40 miles until next fill-up, which [redacted] thought was odd. He drove the car home, pulled in the driveway, and en route the car was sputtering. He turns the car off and smoke comes from the driver's side engine compartment. [redacted] opens the hood and a big puff of flame shoot out and [redacted] jumps back. The fire service was called and put out the fire.

89. *Did anyone photograph/video record the fire scene? Yes ☒ No ☐ UNK ☐ sent to Devin
 If yes, have media forwarded to our office: Fax ☐ Mail ☐ Email ☐

90. *Did the Firefighter(s) ☒ and/or Police Officer(s) ☒ Tell you what they believed to be the probable cause of the fire? Fire Captain Steve McCloud -- faulty fuel line

91. *Do you have any idea what caused the fire? Yes ☒ No ☐
 Explain: Fuel line

92. *Were any other vehicles or property damaged as a result of the fire? Yes ☐ No ☒

If yes; identify damage and who is the Insurance Company:

93. *Have any other Fire Investigators (public or private) contacted you? Yes ☒ No ☐

If yes, identify Investigator: Fire Captain

94. *Has anyone removed any items from the area where the fire was first observed? Yes ☒ No ☐

Fire Investigator ☐
Firefighter ☒ wallet and personal items
Insurance Personnel ☐
Owner ☐
Other ☐

If so, identify item(s) removed:

95. What contents, if any, did you have in the vehicle? (i.e. magazines, papers, car care products, personal items)?
Removed by the Insured/Driver ☒
Jacket, school paper

96. *Did you have any flammable or ignitable liquids anywhere in the passenger or trunk compartment? Yes ☒ No ☐

If yes, what type and where? Can of gasoline that was used to fill up the Kia; it was empty

SAFETY RECALLS

Updated as of 1/23/2017

The recall information below includes safety recalls as far back as 8/1/1994.

To help keep your Kia operating at optimum performance levels, schedule a service appointment if your vehicle has one or more service campaigns or recalls outstanding as listed below. Your preferred Kia dealer will complete the repairs, free of charge. The time required to complete the work can vary depending on your dealer's work schedule, so scheduling a service appointment can help minimize any inconvenience.

If you have any questions about these recalls or service campaigns, please contact your preferred Kia dealer, the Owner's Section of Kia.com web site, or contact Kia Consumer Assistance Center at 800-333-4542(4KIA), Monday through Friday, 5 AM to 6 PM PST.

55. View of the oil filter, front of engine.

56. View of the top of the engine.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

57. View of the oil fill cap, right front top of the engine.

58. View of the engine from the driver's side.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

59. View of the fuel rail at the front of the engine underneath the intake seen from the right side.

60. View of the fuel rail and fuel line connection on the driver's side at the front of the engine.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

61. View of the routing of the metal fuel line along the left cylinder head toward the high pressure fuel pump.

62. View of the same line and connection to the high pressure fuel pump.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

63. View of the fuel lines traveling to the high pressure fuel pump.

64. Another view of the fuel lines traveling to the high pressure fuel pump.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

65. View of the fuel lines traveling with the brake line to the bulkhead.

66. View of the oil registering over full.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

67. View of the fuel line connection.

68. Close up view.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

69. View of the remains of the fuel line.

70. View of the combustible fuel line with the brake line at the bulkhead.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

71. View of the engine oil registering over full.

72. View of the fuel cap intact.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

73. View of the undercarriage seen from the rear.

74. View of the front undercarriage.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

75. View of the bottom of the engine and transmission.

76. View of the adjoining end of the positive cable.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

77. View of the adjoining end of the melted positive battery cable.

78. View of the oil filter seen from underneath.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

79. View of the oil pan and drain plug.

80. View of the plastic channel for the fuel lines at the bulkhead and undercarriage.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

81. View of the exhaust protector.

82. View of the bottom of the exhaust at the bulkhead.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

83. View of the bottom of the exhaust pipe at the bulkhead and undercarriage.

84. View of the Federal Manufacturers Label identifying the exemplar vehicle.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

85. View of the engine compartment from the front.

86. View of the driver's side engine compartment from the front.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

87. View of the passenger's side engine compartment from the front.

88. View of the engine compartment from the driver's side.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

89. View of the engine compartment from the passenger's side.

90. View of the front of the engine compartment.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

91. View of the rear of the engine compartment.

92. View of the fuel line at the bulkhead.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

93. Another view of the routing of the fuel line at the bulkhead.

94. View of the fuel line routing toward the engine on the driver's side.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

95. View of the top of the engine with the engine cover off.

96. View of the fuel line, driver's side of the engine.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

97. Another view of the supply fuel line traveling to the high pressure fuel pump.

98. View of the fuel line connection to the high pressure fuel pump.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

99. View of the fuel line which travels from the pump to the fuel rail.

100. Partial view of the fuel line traveling from the pump to the fuel rail.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

101. View of the routing of the positive battery cable from the battery tray.

102. View of the routing of the battery cable to the starter.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED]

103. View of the starter cable, tie down and bracket.

104. View of the starter and cable.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED] Scene Photographs

1. View of the scene.

2. View of the fire scene debris.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED] Scene Photographs

3. View of the cooling fan motor.

4. View of a bulb.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED] Scene Photographs

5. View of the throttle body.

6. View of the cooling fan motor and wiring.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED] Scene Photographs

7. View of the cooling fan motor wiring connector.

8. View of the fog light assembly.

State Farm Claim No. [REDACTED]
H&A File No. [REDACTED] Scene Photographs

9. Another view of the connections at the throttle body.

10. Another view of the connections.

Market Value
\$18,023

The Valuation Process

The breadth and depth of the AudaExplore used vehicle database makes Autosource the most comprehensive market-driven valuation process available. AudaExplore has been determining locally sensitive, fair, and accurate market values for vehicles since 1985, with more than 30 million vehicles valued. The Autosource Market Value includes vehicles for sale at dealerships and private party sellers, starting right in the local market.

What is my Vehicle Market Value based on?

Hillsdale Michigan--Research for your vehicle was based on market analysis originating from your zip code.

Fair and accurate market valuations must balance geographic location with comparability of one vehicle to others. Having the largest and most current database of vehicles for sale provides a comprehensive view of your vehicle's market. In addition to the vehicle inventories received directly from dealerships, Autosource finds comparable vehicle information for vehicles in the same places most buyers look for them--local and national internet websites, vehicle guides, publications and partnerships representing more than 10,000 independent vehicle sources.

How did Autosource make adjustments for my vehicle?

The main factors that affect the retail selling price and marketability of a vehicle are **mileage, equipment and condition**. Therefore, Autosource valuations include adjustments that fairly consider the differences between your vehicle and the typical vehicle found in the market.

o Mileage

- ✦ Adjustments are made to account for the odometer differences between the loss vehicle and comparable(s).
- ✦ The mileage adjustment is based on 7.50 cents per mile specific to the 2016 Kia Optima LX 4D Sedan in the state of Michigan. Mileage adjustments are capped at 40% of the vehicle's starting value.

o Equipment

- ✦ Adjustments are made to account for the differences in equipment between the loss vehicle and comparable(s).
- ✦ Equipment adjustments are based on the manufacturer's retail price, adjusted for depreciation

o Condition

- ✦ Typical condition is based on hundreds of inspected vehicles
- ✦ Condition adjustments are based on a percentage of the vehicle's value

Comparable Vehicle Details

The following information provides the details for the vehicles used to calculate the Autosource Value. The selling price may be substantially less than the asking price. Where indicated, the asking price has been adjusted to account for typical negotiation according to each comparables price.

1 2016 Kia Optima LX 4D Sedan	5XXGT4L33GG	\$17,100

Valuation Notes

- o **Loss vehicle description was provided by State Farm Insurance**
- o **Adjustments of Special Note**
 - ▣ The requested Exception valuation has been processed using one or more Comparables in order to meet state regulatory requirements.
 - ▣ A mileage adjustment of 7.50 cents per mile/kilometer has been applied. This adjustment is based on the vehicle year, vehicle category and market area. Mileage adjustments are capped at 40% of the vehicle's starting value.
 - ▣ Typical mileage for this 2016 Kia Optima in Michigan is 16,035.
 - ▣ No special adjustments were made for this vehicle.
 - ▣ All values are in U.S. dollars.
- o **Autosource Valuation Process**
 - ▣ Over 5,000,000 vehicles are entered weekly into the database used for researching this value. This database includes dealer inspected, dealer inventory, dealer advertised, phone verified and advertised private party vehicles.
 - ▣ The originating search area for this valuation was Hillsdale, Michigan.
 - ▣ The market area expansion was authorized by Autosource Guidelines.
 - ▣
- o **Other Adjustments or Comments**
 - ▣ The tax was calculated based on a date of loss of [REDACTED] 2017 using zip [REDACTED] in Hillsdale, Hillsdale County, Michigan. The city may vary from search area to reflect correct tax location.
- o **Conditioning Notes**
 - ▣ **INTERIOR**
 - o **Seats:** Slight stains.
 - o **Carpets:** Slight stains.
 - o **Int Trim:** Slight scuffs or scratches.
 - o **Headliner:** No damage. Very negligible wear visible on close inspection.
 - ▣ **EXTERIOR**
 - o **Body:** 1-3 small dings possible on close inspection.
 - o **Paint:** 1-3 very small chips.
 - o **Ext Trim:** No dents. No impact damage.
- o **Correction Notes**
 - ▣ **Version 2**
 - o On 01/31/17 changes to this request were completed as requested by Angela K4KP on behalf of State Farm Insurance. These changes are detailed below.

° **Odometer:** changed from Not Actual to Actual, from 10,000mi to 2,800mi.

Recall Bulletins

Nat'l. Highway Traffic Safety Admin (US) has issued a total of 2 recall bulletins that may apply to this vehicle.

NHTSA ID Number 16V231000

Date Issued 04/21/16

Quantity Affected 17

Defect Kia Motors America (Kia) is recalling certain model year 2016 Kia Optima vehicles manufactured November 10, 2015, to February 12, 2016. In these vehicles, a chemical enhancer required for the for the second stage deployment of the driver's frontal air bag was not loaded, resulting in the second stage not deploying in necessitating crashes. If the second stage air bag does not deploy it increases the risk of injury or death.

Remedy Kia will notify owners, and dealers will replace the driver's frontal air bag module, free of charge. The recall is expected to begin in May 2016. Owners may contact Kia customer service at 1-800-333-4542. Kia's number for this recall is SC131.

NHTSA ID Number 16V705000

Date Issued 10/03/16

Quantity Affected 12,214

Defect Kia Motors America (Kia) is recalling certain model year 2016 Kia Optima vehicles manufactured November 13, 2015, to April 23, 2016 and equipped with a 2.4l engine. The right front axle driveshaft may crack and fail. If the driveshaft cracks and separates from the vehicle, it will not be able to move forward. Additionally, if the parking brake is not applied upon exiting the vehicle, the vehicle may roll. Either scenario can increase the risk of a crash.

Remedy Kia will notify owners, and dealers will replace the front axle driveshaft, free of charge. The recall is expected to begin November 29, 2016. Owners may contact Kia customer service at 1-800-333-4542. Kia's number for this recall is SC139.
