Avoid financial headaches.
Make sure the loan has been
paid off if you're buying from a
private seller.

Glossary

[View Full Glossary](#)

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Glossary

[View Full Glossary](#)

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Hello,

Just confirming that I received your email.
Could you possibly take individual pictures of each polaroid and send them over to me as well please.
The next step is to review with our engineers and I will email you to follow up. Please let me know if you have any questions or concerns.

Thank you,

Recalls Look-up by VIN - Vehicle Identification Number

[Print](#)

Owners may not always know their recalled vehicle still needs to be repaired. NHTSA's new search tool lets you enter a Vehicle Identification Number (VIN) to quickly learn if a specific vehicle has not been repaired as part of a safety recall in the last 15 years.

Enter VIN here: Note: certain VINS will require the user to pick a Brand via radio button. These radio buttons will appear conditionally on the VIN you choose.

Please select the brand of this vehicle:

[Submit]

What this VIN search tool covers:

- Safety recalls that are incomplete on a vehicle
- Safety recalls conducted over the past 15 calendar years
- Safety recalls conducted by major light auto automakers, including motorcycle manufacturers.

What this VIN search tool does NOT cover:

- Completed safety recall information
- Manufacturer customer service or other non-safety recall campaigns
- International vehicles
- Very recently announced safety recalls for which not all VINs have been identified
- Safety recalls that are more than 15 years old (except where a manufacturer offers more coverage)
- Safety recalls conducted by small vehicle manufacturers, including some ultra-luxury brands and specialty applications

NOTE: Recall information provided through this VIN lookup tool is provided by the manufacturer conducting the recall. NHTSA does not record VIN information or results provided through the VIN lookup tool.
