CARFAX Report Provided By:
 Kia Motors America
 111 Peters Canyon Rd
 Irvine, CA 92606
 949-468-4800

	No accident / damage reported to CARFAX
	2 Previous owners
	14 Service records available
	Personal vehicle
	25,779 Last reported odometer reading
	Worth \$1,260 more than retail book value

This CARFAX Vehicle History Report is based only on [information](#) supplied to CARFAX and available as of 8/20/15 at 4:28:47 PM (EDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Price Calculator™

Adjust the value of this 2013 Kia Forte LX based on the information available in this report

1) Retail Book Value	2) CARFAX Price Adjustment™	3) Adjusted Retail Value
\$ 0 Enter retail book value here  Start by entering the retail book value from a pricing guide website.	+ + \$1,260 = Above retail book value  This vehicle is worth more than average, based on information in this report.	Begin by entering the retail book value  Compare adjusted retail value to seller's asking price when making your decision.

Avoid financial headaches. Make sure the **loan** has been paid off if you're buying from a private seller.

Have Questions? Consumers, please visit our Help Center at www.carfax.com. Dealers or Subscribers, please visit our Help Center at www.carfaxonline.com.

**Glossary**
[View Full Glossary](#)
CARFAX Price Adjustment™

Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Damages: \$13,184.71

NOTICE OF SUBROGATION CLAIM

Please accept this letter as formal notice of our subrogation rights in regard to the above-captioned claim. Demand is hereby made upon you for payment of Progressive American Insurance Company damages and those of our insured.

Our investigation indicates damages to our insured's vehicle was a direct result of a manufacturer's defect or negligence on your behalf. Enclosed please find all supporting documentation.

Please acknowledge receipt of my subrogation demand and forward your payment of \$13,184.71 to my attention, payable to "Progressive American Insurance Company, as subrogee of [REDACTED]" and remit to the following address:

Progressive-Subro
24344 Network Place
Chicago, IL 60673--1243

You can contact me at the number listed below should you need additional documentation or to discuss this claim.

Thank you for your anticipated cooperation.

Loss Vehicle Detail

Loss vehicle: 2013 Kia Forte LX 4 Door Sedan 2.0L 4 Cyl Gas A FWD

Standard Equipment

Exterior

15" x 5.5" steel wheels w/full covers	195/65R15 tires
Body-color bumpers -inc: rear garnish	Body-color door handles
Body-color mirrors	Clear-lens headlamps w/auto-off
Solar control door glass	Tinted windshield glass w/shade band
Variable intermittent windshield wipers -inc: low washer fluid indicator	

Interior

(2) front/(2) rear cup holders -inc: front chrome ring trim	60/40 split-folding rear bench seat w/adjustable headrests -inc: center armrest
Air conditioning	AM/FM stereo w/CD/MP3 player -inc: aux input jack, USB port, (4) speakers
Bluetooth hands-free link -inc: steering wheel controls	Cargo area light
Center console w/armrest & storage	Cloth seat trim
Digital clock	Dual 12V pwr outlets
Dual visor vanity mirrors w/extensions	EcoMinder fuel efficiency monitor
Front bucket seats w/active headrests -inc: 6-way manual driver seat	Front door map pockets w/bottle holders
Fuel door, hood & trunk remote release	Illuminated glove box
Rear window defroster	Roof-mounted antenna
Sirius satellite radio	Tachometer
Tilt steering wheel w/audio controls	

Mechanical

Front wheel drive	Independent MacPherson strut front suspension -inc: coil springs, monotube shock absorbers, stabilizer bar
Speed-sensitive hydraulic pwr rack & pinion steering	Torsion beam rear suspension -inc: coil springs, monotube shock absorbers
Ventilated front/solid rear pwr disc brakes	

Safety

3-point height-adjustable front seat belts w/pretensioners & force limiters	3-point rear seat belts for all positions
4-wheel anti-lock braking system (ABS)	5-MPH bumpers
Brake assist system (BAS)	Dual front advanced airbags -inc: passenger occupancy sensor
Electronic brake force distribution (EBD)	Electronic stability control (ESC) w/traction control system (TCS)
Front seat side mounted airbags	Front/rear crumple zones
Full-length side curtain airbags	Impact-absorbing steering column
Internal emergency trunk release	Lower Anchors & Tethers for Children (LATCH)
Rear child safety door locks	Seat belt warning chime
Side impact door beams	Tire Pressure Monitoring System (TPMS)

Optional Equipment

CARPETED FLOOR MATS

Vehicle Valuation Methodology Explanation

WorkCenter Total Loss was built through a joint partnership between J.D. Power and Associates vehicle valuation division Power Information Network (P.I.N.) and Mitchell International, a leading provider of claims processing solutions to private passenger insurers.

WorkCenter Total Loss produces accurate and easy-to-understand vehicle valuations via this five step process:

Step 1 - Locate Comparable Vehicles

Locate vehicles similar to the loss vehicle in the same market area. WorkCenter Total Loss finds these vehicles in AutoTrader.com, Cars.com, Vast.com and directly from dealerships.

Step 2 - Adjust Comparable Vehicles

Make adjustments to the prices of the comparable vehicles. The comparable vehicles are identical to the loss vehicle except where adjustments are itemized. There are several types of comparable vehicle adjustments

- Projected Sold Adjustment - an adjustment to reflect consumer purchasing behavior (negotiating a different price than the listed price).
- Mileage Adjustment - an adjustment for differences in mileage between the comparable vehicle and the loss vehicle.
- Equipment- adjustments for differences in equipment between the comparable vehicle (e.g. equipment packages and options) and the loss vehicle.

Step 3 - Calculate Base Vehicle Value

The base vehicle value is calculated by averaging the adjusted prices of the comparable vehicles.

Step 4 - Calculate Loss Vehicle Adjustments

There are four types of loss vehicle adjustments:

- Condition Adjustment:
Adjustments to account for the condition of the loss vehicle prior to the loss.
- Prior Damage Adjustment:
Adjustments to account for any prior damage present on the loss vehicle prior to the loss.
- After Market Part Adjustment:
Adjustments to account for any after market parts present on the loss vehicle prior to the loss.
- Refurbishment Adjustment:
Adjustments to account for any refurbishment performed on the loss vehicle prior to the loss.

Step 5 - Calculate the Market Value

The Market Value is calculated by applying the loss vehicle adjustments to the base value.

BASED ON DAMAGE VISIBLE OR CERTAIN AT THE TIME IT WAS WRITTEN.

IF FRAME OR UNIBODY REPAIR IS INCLUDED ON THIS ESTIMATE, THE AMOUNT
SHOWN INCLUDES TIME OR ALLOWANCE FOR MEASURING BEFORE, DURING AND
AFTER THOSE REPAIRS.
THE OWNER OF THE VEHICLE MAY SELECT THE REPAIR FACILITY OF HIS/HER
CHOICE.
TO ENSURE PROPER AND PROMPT PAYMENT FOR ADDITIONAL DAMAGE DISCOVERED
DURING THE COURSE OF REPAIRS, CONTACT PROGRESSIVE FOR SUPPLEMENT
HANDLING PROCEDURES.

PROGRESSIVE HONORS THE PREVAILING LABOR MARKET RATE IN YOUR AREA FOR
YOUR PROPERTY. IF YOU CHOOSE A SHOP THAT CHARGES IN EXCESS OF
PREVAILING LABOR MARKET RATES, YOU WILL BE RESPONSIBLE FOR THE
DIFFERENCE.

LIFETIME GUARANTEE FOR SHEET METAL AND PLASTIC BODY PARTS
IF THE VEHICLE IS A TOTAL LOSS, PAYMENT WILL NOT BE BASED ON THIS
ESTIMATE OR COST OF REPAIR.

The replacement parts written on the estimate are intended to return
your vehicle to its pre-loss condition with proper installation.
After repair, if any sheet metal or plastic body part included in the
estimate fails to return your vehicle to its pre-loss condition
(assuming proper installation), in terms of form, fit, finish,
durability or functionality, Progressive will arrange and pay for the
replacement of the part, to the extent not covered by a
manufacturer's or other warranty. This service will be performed at
no cost to you (including associated repair and rental car costs). To
obtain service under this Guarantee, call Progressive at
1-800-274-4641. This Guarantee applies as long as you own or lease
the vehicle. This Guarantee is not transferable and terminates if you

REPORT

VEHICLE EXAMINED:

The vehicle examined was a 2013 Kia Forte with a VIN of KNAFT4A20D5 [REDACTED] and a stock number of [REDACTED]. This information was used to identify the vehicle.

LOCATION:

The vehicle was located at IAA 1208 17th St E Palmetto, FL. This was the same location at which the vehicle was to be examined.

PRELIMINARY:

As per your request, on 12/21/15 I traveled to Palmetto, FL and examined the above captioned vehicle. The purpose of this examination was to determine the origin and cause of the fire. Per information received from your office, on 08/17/15 while parked the vehicle caught fire.

It was reported to this office that the vehicle was parked at the time of the loss and no repairs or problems were reported at this time.

I was also informed that the insured had driven to his doctor's office and parked for approximately 15 minutes prior to the fire. Estimated mileage at the time of the loss was approximately 36,000 miles and the insured had purchased the vehicle used in October 2014 and at that time the vehicle had approximately 25,000 miles.

The claims representative informed this office that he had informed Kia Motors of the date and time of this scheduled examination and if no one was present at the scheduled time and date to proceed with the examination. At the time of my arrival at the IAA facility no other parties were present and the examination proceeded as scheduled with no other parties present.

Upon my arrival I was directed to the vehicle by IAA personnel. The vehicle was noted to be wrapped to protect it from the elements. I was informed by IAA personnel that the vehicle would be re-wrapped at the conclusion of this examination.

[REDACTED]

RECALL CHECK:

Per the NHTSA there were no recalls listed for 2013 Kia Forte vehicles at the time of this examination.

EXTERIOR EXAMINATION:

An examination of the exterior of the vehicle revealed fire damage incurred to the driver's side area of the windshield. The windshield was fractured; however, the windshield laminate remained in place. No other indicators of exterior fire damage were noted.

The overall condition of the vehicle was found to be good with no indicators of collision or impact type damage found.

All remaining window glass was found to be intact and it was noted that the left front window was partially open.

Examination of the wheels and tires revealed no indicators of fire related damage and all of the tires were inflated at the time of this examination.

ENGINE COMPARTMENT:

An examination of the engine compartment revealed no indicators of fire related damage. All components appeared to be OEM applications and there were no indicators of modifications found.

INTERIOR EXAMINATION:

An examination of the passenger compartment revealed an isolated area of direct fire damage located within the left upper dash area. The fire extended from this area into the left A pillar cover, left sun visor and into the headliner. The headliner material remained relatively intact and affixed to the roof.

The remainder of the passenger compartment was found to be in relatively good condition with varying degrees of carbon smoke damage found throughout.

Minor drop down was also noted within the left front floor area consistent with internal dash fire involvement.

All components appeared to be OEM applications with no indicators of aftermarket items or modifications noted. Also at the time of this examination there were no accessory power / charging cords found, such as cell phone, laptop or GPS type devices.

Further examination of the left upper dash area revealed that a portion of the upper dash cover was consumed by fire in the area just above the IPC. As previously stated the left A pillar cover was also severely fire damaged; however, the wiring harness routed throughout this A pillar cavity was relatively intact.

In order to properly document the area of origin a portion of the windshield laminate was removed for this examination. Upon removal of a portion of laminate approximately 13 x 10 inches in size, the left upper dash area and interior dash cavity could be visibly examined. This examination revealed moderate to severe levels of fire damage with burn patterns consistent with the fire having originated within the dash cavity at an area at or surrounding the upper dash support brace. Located within this area were several wiring harnesses, the IPC and multiple electrical components. It was found that during the progression of the fire melted drop down plastics were now adhered to several of the harness areas precluding a complete and thorough examination without the use of destructive testing. Portions of the main harness visible revealed indicators consistent with external fire exposure only as internal wire insulation was visible. However, as stated this harness was not manipulated or disassembled at this time.

One of the IPC harnesses which contained multiple conductors was found to be moderately fire damaged with its insulation consumed by fire. No indicators of unwanted electrical activity were noted visibly to this harness portion.

Further examination revealed what appeared to be the remains of a relay and / or module which was resting in the area of the upper dash support brace. This component was severely fire damaged as were the corresponding conductors. One of the conductors appeared to be partially terminated and it was noted that heavy oxidation was present. This component assembly along with its corresponding wiring were found to be in a fragile state meaning that manipulation would compromise the integrity of the component at this time. It should be noted that this component and its corresponding wiring is within the area of origin of the fire.

During this examination I was in contact with the claims representative from Progressive Insurance, who was informed of the findings of this examination in regards to preservation of the evidence found due to the fragile nature of the components involved. It was agreed upon at this time that no further destructive testing would be performed without additional opportunity for all interested parties to be present.

CONCLUSION:

ORIGIN:

Based on this examination, the burn patterns observed, along with my training and experience it has been determined that the fire originated within the passenger compartment. The area of origin at this time was narrowed down to the left area of the dash within the dash cavity at an area just forward of the IPC and above the upper dash support brace. This is the area in which the remains of a relay or module and corresponding wiring were located.

CAUSE:

Based on this non-destructive examination, the burn patterns observed, along with the circumstances involved, it has been determined that further destructive testing would need to be performed with all interested parties present in order to come to a clearer conclusion in this case. However, strong indicators were found consistent with a vehicle related electrical concern having been the contributing factor in the fire. During this examination no indicators of introduced components, items or modifications were noted.

Should further information become available after the completion of this examination that may be pertinent to this file, please forward it to our office for review and possible further action. Should you have any further questions in reference to this file, please do not hesitate to contact our office at your earliest convenience.

Irvine, CA 92619

Re: Policy Holder: [REDACTED]
Claim Number: [REDACTED]
Date of Loss: [REDACTED] 2015
VIN: KNAFT4A20D5 [REDACTED]
Vehicle: 2013 Kia Forte

Please consider this letter notice that the above captioned vehicle has been declared a total loss and placed on hold at the facility listed below.

Insurance Auto Auction
1208 17th Street East
Palmetto, FL 34221

Phone Number: [REDACTED]
Stock Number: [REDACTED]

An investigation into the cause of the loss is pending; our expert noted below will be completing an inspection of the vehicle to determine the specific cause of the fire loss.

North East Technical Services
File #: 16 [REDACTED]

Phone Number: **352-797-5208**

This notification is to allow Kia Motors to attend this inspection and/or view the vehicle. If we do not receive a response within 14 days of this letter, the inspection of the vehicle will be completed without your presence.

This letter is also notice to Kia Motors of Progressive American Insurance Co Company's subrogation rights in this matter.

If there are questions, please feel free to contact me at the number listed below.

Sincerely,

Zachary Stafford
Fire and Theft Representative
