Vehicle Valuation Methodology Explanation

WorkCenter Total Loss was built through a joint partnership between J.D. Power and Associates vehicle valuation division Power Information Network (P.I.N.) and Mitchell International, a leading provider of claims processing solutions to private passenger insurers.

WorkCenter Total Loss produces accurate and easy-to-understand vehicle valuations via this five step process:

Step 1 - Locate Comparable Vehicles

Locate vehicles similar to the loss vehicle in the same market area. WorkCenter Total Loss finds these vehicles in AutoTrader.com, Cars.com, Vast.com and directly from dealerships.

Step 2 - Adjust Comparable Vehicles

Make adjustments to the prices of the comparable vehicles. The comparable vehicles are identical to the loss vehicle except where adjustments are itemized. There are several types of comparable vehicle adjustments

- Projected Sold Adjustment - an adjustment to reflect consumer purchasing behavior (negotiating a different price than the listed price).
- Mileage Adjustment - an adjustment for differences in mileage between the comparable vehicle and the loss vehicle.
- Equipment- adjustments for differences in equipment between the comparable vehicle (e.g. equipment packages and options) and the loss vehicle.

Step 3 - Calculate Base Vehicle Value

The base vehicle value is calculated by averaging the adjusted prices of the comparable vehicles.

Step 4 - Calculate Loss Vehicle Adjustments

There are four types of loss vehicle adjustments:

- Condition Adjustment:
Adjustments to account for the condition of the loss vehicle prior to the loss.
- Prior Damage Adjustment:
Adjustments to account for any prior damage present on the loss vehicle prior to the loss.
- After Market Part Adjustment:
Adjustments to account for any after market parts present on the loss vehicle prior to the loss.
- Refurbishment Adjustment:
Adjustments to account for any refurbishment performed on the loss vehicle prior to the loss.

Step 5 - Calculate the Market Value

The Market Value is calculated by applying the loss vehicle adjustments to the base value.

Narratives**Original Narrative****05/16/2017 04:57:40****INCIDENT SYNOPSIS**

NATURE OF THE CALL:
Vehicle Fire

BRIEF SUMMARY OF ACTIVITY:
Vehicle was engulfed.

ACTION TAKEN:
Nothing suspicious observed. Scene turned over to ECFD.

Supplemental Narrative 05/16/2017 04:48:56 Nicholas Rusin

On 5-16-17 at approximately 4:10 AM I, Officer Rusin, responded to [REDACTED] The caller reported a vehicle was on fire.

Upon arrival, Officers observed the vehicle to be a white 2016 Kia bearing WI registration [REDACTED] The vehicle was unoccupied and fully engulfed. The vehicle was parked in a gravel alley/parking area adjacent to the city shops lot. The vehicle was about 50 feet northeast of [REDACTED] next to a telephone pole. At the time of the call it was storming and lightning.

I spoke with the vehicle owner, [REDACTED] stated he drove the vehicle home about 2 hours ago [REDACTED] stated it was locked with the windows up. [REDACTED] stated he had not been smoking in the car [REDACTED] reported the car had no mechanical defects. [REDACTED] stated he was about to go to bed when his neighbor woke him up and stated the vehicle was on fire. [REDACTED] stated he has no enemies. [REDACTED] stated the vehicle was insured through Progressive.

The scene was turned over to ECFD. Officers checked the area, but nothing suspicious was observed. I did not observe any indication of lightning strikes to the adjacent telephone pole or trees.

Because the vehicle was not in motion and was not upon the roadway, no DT4000 was needed.

End of Report
Rusin [REDACTED]

The total may not represent the total of the settlement as other factors (e.g. license and fees) may need to be taken into account.

BASE VEHICLE VALUE

This is derived from comparable vehicle(s) available or recently available in the marketplace at the time of valuation, per our valuation methodology described on the next page.

ADJUSTED VEHICLE VALUE

This is determined by adjusting the Base Vehicle Value to account for the actual condition of the loss vehicle and certain other reported attributes, if any, such as refurbishments and after factory equipment.

VALUATION METHODOLOGY

How was the valuation determined?

CLAIM INSPECTION

NATIONWIDE PROPERTY AND CASUALTY COMPANY has provided CCC with the zip code where the loss vehicle is garaged, loss vehicle VIN, mileage, equipment, as well as loss vehicle condition, which is used to assist in determining the value of the loss vehicle.

DATABASE REVIEW

CCC maintains an extensive database of vehicles that currently are or recently were available for sale in the U.S. This database includes vehicles that CCC employees have physically inspected, as well as vehicles advertised for sale by dealerships or private parties. All of these sources are updated regularly.

SEARCH FOR COMPARABLES

When a valuation is created the database is searched and comparable vehicles in the area are selected. The zip code where the loss vehicle is garaged determines the starting point for the search. Comparable vehicles are similar to the loss vehicle based on relevant factors.

CALCULATE BASE VEHICLE VALUE

Adjustments to the price of the selected comparable vehicles are made to reflect differences in vehicle attributes, including mileage and options. Dollar adjustments are based upon market research.

Finally, the Base Vehicle Value is the weighted average of the adjusted values of the comparable vehicles based on the following factors:

- Source of the data (such as inspected versus advertised)
- Similarity (such as equipment, mileage, and year)
- Proximity to the loss vehicle's primary garage location
- Recency of information

VEHICLE HISTORY SUMMARY

CCC VINguard®	1 Collision Estimate	05/02/2017
Experian AutoCheck	No Title Problem Found	

Vehicles sold in the United States are required to have a manufacturer assigned Vehicle Identification Number(VIN). This number provides certain specifications of the vehicle.

Please review the information in the Vehicle Information Section to confirm the reported mileage and to verify that the information accurately reflects the options, additional equipment or other aspects of the loss vehicle that may impact the value.

Allowances are factors influencing the value of the loss vehicle when compared to a typical vehicle. The typical vehicle is a vehicle of the same year, make, and model as the loss vehicle, including average mileage, and all standard equipment. These allowances are displayed for illustrative purposes only.

The Base Vehicle Value is calculated from the comparable vehicles with adjustments to reflect the loss vehicle configuration

NATIONWIDE PROPERTY AND CASUALTY COMPANY uses condition inspection guidelines to determine the condition of key components of the loss vehicle prior to the loss. The guidelines describe physical characteristics for these key components, for the condition selected based upon age. Inspection Notes reflect observations from the appraiser regarding the loss vehicle's condition.

CCC makes dollar adjustments that reflect the impact the reported condition has on the value of the loss vehicle as compared to Average Private condition. These dollar adjustments are based upon interviews with dealerships across the United States.

Comparable vehicles used in the determination of the Base Vehicle Value are not intended to be replacement vehicles but are reflective of the market value, and may no longer be available for sale.

List Price is the sticker price of an inspected dealer vehicle and the advertised price for the advertised vehicle.

Take Price is the amount that the dealership will accept to sell the inspected vehicle, though a lower price may be obtainable through negotiation.

Dear Mr. Opalenik:

At your request, on March 6, 2018 a non-destructive joint study was conducted on the above vehicle. The attendees are listed in the sign-in sheet attached as Appendix C to this report.

The fire scene study was conducted utilizing recognized and accepted procedures and practices for fire investigations as outlined in the National Fire Protection Association (NFPA) 921, *Guide for Fire and Explosion Investigations*, 2017 edition. The study progressed with an examination of the exterior and interior of the vehicle. Heat levels and smoke damage throughout the vehicle were compared, and fire movement and intensity patterns throughout the vehicle were analyzed. Digital imagery, diagrams, and notes were used as necessary to document observations. Evidence of fire initiation and development, heat transfer indicators, ventilation effects, relevant physical evidence, and the statements of witnesses were utilized to establish the area of fire origin.

For purposes of this report, the driver's side of the vehicle is considered the left and the hood the front. The vehicle is a black 2016 Kia Forte. No state registration plate was affixed at the time of the study. The vehicle identification number (VIN) is KNAFK4A65[REDACTED], and the date of manufacture is November 2015. The vehicle's odometer could not be displayed due to fire damage to the dashboard and wiring.

The vehicle's engine compartment is free of fire damage. The 150 ampere (amp) fuse for the alternator has continuity. The battery voltage is nominally 12 volts direct current (VDC). Ignition switch fuses were found to be activated (blown) among the fuses tested. No third-party wiring was found. Further study of the wiring was halted pending notification of the vehicle manufacturer.

Fire damage is limited to the driver's side of the vehicle at the kick panel and dashboard. The location of the lowest fire damage is at the bottom of the kick panel. It is identified as the area of origin of the fire. Only original equipment manufacturer's (OEM) wiring is in the area of origin.

- The vehicle type is four-door sedan.
- The vehicle brand and model are 2016 Kia Forte.
- The area of origin was the driver's side kick panel.
- The oxidant was atmospheric oxygen.
- The first fuel ignited was combustibles in the vicinity of the driver's side kick panel.
- The ignition source cannot be determined without a destructive study of the wiring and components in the vicinity of the driver's side kick panel and dashboard.
- The ignition sequence cannot be determined without additional study, which will be destructive.
- The classification of the fire cause is **undetermined** as defined in the attachment to this report pending further study. The additional study

will be destructive. All interested parties should be put on notice and given the opportunity to participate in all further study of the vehicle.

This is an abbreviated report and is not intended to convey all of the facts, circumstances or data utilized to formulate the conclusions herein. Additional information will be retained in the Donan project file. This report is based on presently known and available facts, data, and information. To the extent that additional or different facts, data, or information develops or is discovered after the issuance of this report, Donan reserves the right to amend, alter, or change the report as needed to reflect consideration of said additional or different facts, data, or information.

We appreciate your confidence in our professional services.

Appendix A: NFPA 921 Fire Cause Classifications

Appendix B: Study Photographs

Appendix C: Joint Study Sign-in Sheet 03-06-2018

Appendix A: NFPA 921 Fire Cause Classifications

As classified by the NFPA 921, *Guide for Fire and Explosion Investigations*, 2017 Edition, the causes of fires are classified as accidental, natural, incendiary, or undetermined. These definitions are incorporated into this report regarding the cause of the fire being studied.

Classification of the Cause¹

Determining the cause of a fire and classifying the cause of the fire are two separate processes that should not be confused with each other. Classification of a fire cause may be used for assignment of responsibility, reporting purposes, or compilation of statistics. Different jurisdictions may have alternative definitions that should be applied as required. The cause of a fire may be classified as accidental, natural, incendiary, or undetermined. Use of the term suspicious is not an accurate description for the classification of a fire cause. Suspicion refers to a level of proof, or level of certainty, and is not a classification for a fire cause. Suspicion is not an acceptable level of proof for making a determination of cause within the scope of this guide and should be avoided. Fires in which the level of certainty is possible or suspected, or in which there is only suspicion of that cause, should be classified as undetermined.

Accidental Fire Cause

Accidental fires involve all those for which the proven cause does not involve an intentional human act to ignite or spread fire into an area where the fire should not be. When the intent of the person's action cannot be determined or proven to an acceptable level of certainty, the correct classification is undetermined. In most cases, this classification will be clear, but some deliberately ignited fires can still be accidental. For example, in a legal setting, a trash fire might be spread by a sudden gust of wind. The spread of fire was accidental even though the initial fire was deliberate.

¹NFPA 921, *Guide for Fire and Explosion Investigations*, 2017 edition

Natural Fire Cause

Natural fire causes involve fires caused without direct human intervention or action, such as fires resulting from lightning, earthquake, wind, and flood.

Incendiary Fire Cause

An incendiary fire is a fire that is intentionally ignited in an area or under circumstances where and when there should not be a fire.

Undetermined Fire Cause

Whenever the cause cannot be proven to an acceptable level of certainty, the proper classification is undetermined.

- (A) Undetermined fire causes include those fires that have not yet been investigated or those that have been investigated, or are under investigation, and have insufficient information to classify further. However, the fire might still be under investigation and the cause may be determined later with the introduction or discovery of new information.
- (B) In the instance in which the investigator fails to identify the ignition source, the fire need not always be classified as undetermined. For example, if the evidence establishes one factor, such as the use of an accelerant, that evidence may be sufficient to establish an incendiary fire cause classification even where other factors, such as ignition source, cannot be identified.

NARRATIVE

Reporting Officer: [REDACTED] CREECH, JUSTIN

On May 1, 2017 I Deputy Justin Creech was dispatched to [REDACTED] Hwy [REDACTED] to a reported vehicle fire. Upon arrival I spoke with the owner of the vehicle [REDACTED] stated that he was at his girlfriends house when he saw his 2016 Kia Vin# KNAFK4A65 [REDACTED] smoking. [REDACTED] went to the vehicle and opened the door and noticed the dash in the vehicle was on fire. Upon inspection of the vehicle it is believed that the safe driving module from Nationwide Insurance had caused the fire. Bearden Fire Department was dispatched to this location.

Buyer Co-Buyer

THE MINIMUM PUBLIC LIABILITY INSURANCE LIMITS PROVIDED IN LAW MUST BE MET BY EVERY PERSON WHO PURCHASES A VEHICLE. IF YOU ARE UNSURE WHETHER OR NOT YOUR CURRENT INSURANCE POLICY WILL COVER YOUR NEWLY ACQUIRED VEHICLE IN THE EVENT OF AN ACCIDENT, YOU SHOULD CONTACT YOUR INSURANCE AGENT.

WARNING:

YOUR PRESENT POLICY MAY NOT COVER COLLISION DAMAGE OR MAY NOT PROVIDE FOR FULL REPLACEMENT COSTS FOR THE VEHICLE BEING PURCHASED. IF YOU DO NOT HAVE FULL COVERAGE, SUPPLEMENTAL COVERAGE FOR COLLISION DAMAGE MAY BE AVAILABLE TO YOU THROUGH YOUR INSURANCE AGENT OR THROUGH THE SELLING DEALER. HOWEVER, UNLESS OTHERWISE SPECIFIED, THE COVERAGE YOU OBTAIN THROUGH THE DEALER PROTECTS ONLY THE DEALER, USUALLY UP TO THE AMOUNT OF THE UNPAID BALANCE REMAINING AFTER THE VEHICLE HAS BEEN REPOSSESSED AND SOLD.

FOR ADVICE ON FULL COVERAGE THAT WILL PROTECT YOU IN THE EVENT OF LOSS OR DAMAGE TO THE VEHICLE, CONTACT YOUR INSURANCE AGENT.

Notice to buyer: (1) Do not sign this agreement before you read it or if it contains any blank spaces to be filled in. (2) You are entitled to a completely filled in copy of this agreement. (3) You can prepay the full amount due under this agreement at any time. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement.

If you have a complaint concerning this sale, you should try to resolve it with the seller.

Complaints concerning unfair or deceptive practices should be sent to the attorney, the district attorney, or the state consumer action center in writing to the change. You may also contact the seller to make a

The Annual Percentage Rate may be negotiable with the Seller. The Seller may assign this contract and retain its right to receive a part of the Finance Charge.

THERE IS NO COOLING-OFF PERIOD UNLESS YOU OBTAIN A CONTRACT CANCELLATION OPTION

California law does not provide for a "cooling-off" or other cancellation period for vehicle sales. Therefore, you cannot later cancel this contract simply because you change your mind, decide the vehicle costs too much, or wish you had acquired a different vehicle. After you sign below, you may only cancel this contract with the agreement of the seller or for legal cause, such as fraud. However, California law does require a seller to offer a two-day contract cancellation option on used vehicles with a purchase price of less than forty thousand dollars (\$40,000), subject to certain statutory conditions. This contract cancellation option requirement does not apply to the sale of a recreational vehicle, a motorcycle, or an off-highway motor vehicle subject to take title under California law. See the vehicle contract cancellation option agreement for details.

YOU AGREE TO THE TERMS OF THIS CONTRACT. YOU CONFIRM THAT BEFORE YOU SIGNED THIS CONTRACT, WE GAVE IT TO YOU, AND YOU WERE FREE TO TAKE IT AND REVIEW IT. YOU ACKNOWLEDGE THAT YOU HAVE READ BOTH SIDES OF THIS CONTRACT, INCLUDING THE ARBITRATION PROVISION ON THE REVERSE SIDE, BEFORE SIGNING BELOW. YOU CONFIRM THAT YOU RECEIVED A COPY OF THIS CONTRACT WHEN YOU SIGNED IT.

Co-Buyers and Other Owners — A co-buyer is a person who is responsible for paying the entire debt. An other owner is a person whose name is on the title to the vehicle but does not have to pay the debt. The other owner agrees to the security interest in the vehicle given to us in this contract.

GUARANTY: To induce us to sell the vehicle to Buyer, each person who signs as a Guarantor individually guarantees the payment of this contract. If Buyer fails to pay any money owing on this contract, each Guarantor must pay it when asked. Each Guarantor will be liable for the total amount owing even if other persons also sign as Guarantor, and even if Buyer has a complete defense to Guarantor's demand for reimbursement. Each Guarantor agrees to be liable even if we do one or more of the following: (1) give the Buyer more time to pay one or more payments; (2) give a full or partial release to any other Guarantor; (3) release any security; (4) accept less from the Buyer than the total amount owing; or (5) otherwise reach a settlement relating to this contract or extend the contract. Each Guarantor acknowledges receipt of a completed copy of this contract and guaranty at the time of signing.

Guarantor waives notice of acceptance of this Guaranty, notice of the Buyer's non-payment, non-performance, and default; and notices of the amount owing at any time, and of any demands upon the Buyer.

CARFAX Price Adjustment™

Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better buying decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
