

To whom it may concern-

Unfortunately, this is going to be a rather lengthy message. I had a recall on my 2013 Kia Forte, it involved the brake pedal stopper. It was my fault for not bringing in my KIA earlier, I had called months earlier and left two VMs with the service dept because they never answered the phone. They always called me back but unfortunately, I do not have cell service out where I live so I gave up. A few months later I brought my car in. At this point all my break lights were burnt out. The recall stated that my break lights would continuously stay illuminated. Kia dealership stated they would not fix my break lights but assured me the ONLY issue was that the bulbs were out. He also stated I needed new tires and when I told him I wasn't interested he was visibly frustrated. I was not going to pay the 60 bucks they quoted me to have new bulbs put in and he also made some very rude comments about how my fiancé may not be able to change the bulbs. I know from experience that I could go to an auto parts store and spend about 5 bucks on bulbs so that is what I did. When I got to the auto parts store to switch my bulbs out, the bulbs had burnt and melted into the plastic socket and would not come out. At this point I was aggravated but planned to take my car to a privately-owned mechanic to have it fixed, that's when I realized all my dash lights were out as well. I know for an absolute fact that my dash lights were working when I brought my Kia in. At this point I was aggravated and called and asked to speak to the manager. I told him about my experience and told him how his service guy was more worried about me spending money or swiping my card than if I was happy or pleased with the service. I understand I was not spending money, but I did buy my car from KIA and deserve the same respect any other paying customer would have gotten. Josh, the manager stated that he would fix my break lights because that is no issue and he isn't worried about the cost of it he did state that he cannot be certain that the dash lights quit working while I was at the dealership. I assured him I leave every morning before the sun comes out and was certain they were working before my visit. Long story short I went back in, so he could get the burnt bulbs out and replace the lights, because remember the service dept told me that was my only issue (burnt out bulbs). Of course, said the dash lights were not on them and that it was just a burnt bulb and I would have to take the dash apart to fix it...

Honestly, I did not even think to check if they fixed my break lights, that didn't even cross my mind because that was the ONLY reason I was there. This morning I was dropped off at work and as my car was pulling away I realized my lights were still NOT fixed. Is there a new bulb in there? yes, are the brake lights working? No. Now I'm worried that is more than what the service dept stated it was. But besides that...how can you not ensure something is fixed before you send the customer home.

At this point I am BEYOND frustrated. I have never ever had an issue with my KIA but I can ensure you I will never give KIA another dime of my money solely on the service I received here in Asheville. I will also make a public post regarding the KIA dealership in Asheville. I hope that other customer receives better service than I did.

*** Performed by contact: Matthew Pearlman [REDACTED]

*** This is a Request for Assistance ***

Problem Description :

customer bought vehicle out of state(pennsylvania)came in initially on 04/24/12

stating smelled something burning from drivers front tire area, founs both front rotors heavily glazed and pads too., machined both front rotors, cleaned pads, none in stock at time, test drove vehicle no problems , customer left with vehicle, customer returned on 05/07/12 saying vehicle was pulling left while braking, test drove vehicle, could not duplicate concern, went to ta k to customer, customer had an attitude when asked about concerns, and said if you cant duplicate it, forget it. now customer is back again on 05/15/12 and says after vehicle has stopped at a light and you go to accelerate, l/f wheel locks up and car wont move, test drove vehicle, could not duplicate any concerns with vehicle,

Diagnostics Performed :

checked calpier , moves freely and slides are not binding, pads ae good, no codes stored in memory or active, noticed left front rotor is scored again, customer is a younger male and irate and insists there is a problem, even though it can not be duplicated, service manager says to check with you guys if there is any abs pump issues, what would my next step be

Please contact dealer for additional information regarding customer handling & repair status and update customer accordingly.

CUSTOMER ADVISED

Case History

1 IM HAVING PROBLEMS WITH THE VEHICLE
2 I HAD SMOKE COMING OUT OF MY FRONT LEFT TIRE , PULLING STEERING
3 I HAD IT TOWED IN ONCE
4 NOW ITS AT THE DEALER TODAY
5 THEY ARE NOT ABLE TO FIGURE OUT THE PROBLEM
6 THEY CANT DUPLICATE THE CONCERNS
7 IM IN A RENTAL CURRENTLY
8 I HAVE HAD TO GO IN 5X FOR THIS CONCERN

WRITER ADVISED

1 APOLOGIZED FOR THE CONCERNS
2 EXPLAINED THAT THE WARRANTY REQUIRES THE DEALER TO DUPLICATE OR VERIFY THE CONCERNS
3 BEFORE A REPAIR IS DONE
4 KIA PROVIDES TECH ASSISTANCE THRU OUR TECHLINE
5 AND ALSO THRU OUR DPSM
6 SO LET ME REVIEW THE CASE NOTES

WRITER REVIEWED TECHLINE CASE

WRITER ADVISED CUSTOMER

1 I SEE THAT THE TECHLINE CASE WAS OPENED ON 5/15/12
2 THEY PROVIDED THE TECHLINE WITH THE INITIAL INFO
3 THEY DIDNT RESPOND BEFORE THE VEHICLE LEFT
4 THE COMMENTS FROM TODAY SHOW THAT THEY THINK THAT IT MIGHT BE A HECU
5 AND THEY WERE GOING TO TEST DRIVE THE VEHICLE AND WOULD REPORT THERE FINDINGS BACK TO TECHLINE
6 BASED ON THERE FINDINGS OUR TECHLINE WILL RECOMMEND OR PROVIDE INSTRUCTIONS
7 IN ORDER TO FIND OUT THE STATUS I NEED TO CALL THE DEALER
(PUT CUST ON HOLD)

WRITER CALLED TIM @ [REDACTED]

1 CALLING TO FOLLOW ON A CASE FOR CUSTOMER [REDACTED]

Dealership Contact Name: TIM @ [REDACTED]
Year/Model/Mileage of Vehicle: 12 FORTE 6286
RO Open Date: 5/15/12
Days Down at initial Service Alert Report: 7
Repair Issue: Vehicle will not go over 40mph , Tire Smoking
ETA for completion of repairs: UNKNOWN
Repeat Pair (Y/N) if so, how many? YES X 5
Techline Case? If so, #? [REDACTED]
Rental provided? If so, since when? YES , DEALER LOANER
DPSM contacted by dealer? NO

[View Full Glossary](#)
CARFAX Price Adjustment™

Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Case History

*** PHONE LOG 03/14/2013 07:57:24 AM (Local Time) SMcgraw Action Type:

Customer states

1. I've had so many problems with my vehicle
2. I bought it Feb 4th
3. It has been back to the dealer 4 times
4. The interior started on fire, I think it was an electrical issue
5. When I took it into the dealer, they looked at it and they said they could find nothing
6. I got the vehicle back with a crack in the windshield which I think they did it!
7. They replaced the battery, because it was not starting
8. I've had starting issues
9. I do not feel safe in this vehicle!

Writer placed customer on hold-called dealer

Service Manager Steven

1. Bought the vehicle used in Feb
2. No start issue-battery issues 02/18/13 battery replaced
3. No start issue-starter issue 02/26/13 -02/27/13 starter replaced covered under warranty
4. Customer then called 03/13/13 stating flames were coming out from the left side of the dash board
5. No melt marks, no smell, tech looked under, test drives
6. Stress mark crack on the windshield where the customer alleges the flames were coming -we did not cause this
7. The vehicle is here, and we are letting it run with heat, defrosters, a/c, wipers, radio etc
8. Bulb was replaced on 02/23/13 not a warranty issue, but dealer took care of it
9. I am alerting my DPSM of the situation

Writer told customer will call back instead of keeping her on hold-customer agreed

*** NOTES 03/14/2013 08:09:53 AM (Local Time) SMcgraw Action Type: Manager review

*** PHONE LOG 03/14/2013 11:30:18 AM (Local Time) MHillegas Action Type: Outgoing call
Conference call with DPSM Ken Domingues, SM Steve O'Shea at [REDACTED] and wtr.

1. Dealer inspected vehicle and found no signs or evidence of fire, flame, melting, smoke trail, burning wiring or plastic and no burning smell was present.
2. Dealer found a stress crack at base of windshield, however, no evidence of an outside impact.
3. Crack is 6 to 8 inches from the A pillar.
4. There is discoloration in the black laminate or shading which may be a heating element.
5. There is a button displaying a windshield and squiggly lines on the left side of the dash.
6. Customer alleges there were flames coming from base of dashboard where the windshield meets the dash pad on driver's side.
7. Customer alleges she heard a buzzing noise and blue tooth functions went inop at the same time.
8. No aftermarket on vehicle.
9. SM to take pictures and send to wtr and DPSM for review by PQ engineer.

*** PHONE LOG 03/14/2013 03:27:15 PM (Local Time) MHillegas Action Type: Incoming call
Wtr received photos from SM Steve O'Shea at [REDACTED]
1. Wtr scanned photos into case.

*** PHONE LOG 03/14/2013 03:29:40 PM (Local Time) MHillegas Action Type: Incoming call
Correction to above notes:
Wtr spoke with SM Steve O'Shea at MA008 Kia of West Springfield.

*** PHONE LOG 03/14/2013 03:32:43 PM (Local Time) MHillegas Action Type: Incoming call
NCA reviewed case with PQ Platform Engineer:
1. Dealer to re-confirm cracks on windshield are not from an outside impact.
2. If no evidence of outside impact, dealer to further diagnose de-icer grid to determine cause for concern.

*** PHONE LOG 03/14/2013 03:41:29 PM (Local Time) MHillegas Action Type: Outgoing call
Wtr spoke with SM Steve O'Shea at [REDACTED] Kia of West Springfield and stated:
1. Wtr reviewed case with PQ Platform Engineer.
2. Wtr is calling to re-confirm that stress crack to windshield is not from an outside impact.
3. If there is no evidence of an outside impact we would like you to further diagnose de-icer grid for possible cause for concern.

SM SO'Shea stated:

1. Windshield is cracked from the inside.
2. Windshield is smooth on the outside where the crack is located at the base of the windshield.
3. Stress crack was not caused by an outside impact.
4. We will further diagnose de-icer grid and give you a call back with the results.

Wtr stated:
1. Thank you.

*** PHONE LOG 03/15/2013 10:26:20 AM (Local Time) BSherrick Action Type: Incoming call
Cust stated:
1. The dealership called me and said that I can pick up my car
2. The windshield needs to be replaced
3. They believe the fire is because its a heated windshield
4. I think it has something to do with the phone system in the steering wheel

Case History

5. They told me I can pick up my car and drive it
6. I don't want to drive it because it has a cracked windshield
7. I don't want this car
8. I believe this is an electrical problem
9. They said they can take a better look at it when they remove the windshield
10. But I don't know why they would ask me to pick it up because it is a hazzard to drive
11. It had a fire and it has not been resolved yet
12. I need someone to call me
13. I was told that someone would call me within 2 bus days and today is the 2nd bus day

Writer stated:

1. Apologize
2. I have taken notes of what you said
3. I will send that information to your case worker
4. Your case has been assigned to someone who will be calling you
5. I can provide you with their number

Customer stated:

1. I am not able to write down any number right now
2. Can you email me the phone number?

Writer stated:

1. I can do that only so long as you don't correspond back in email

Customer stated:

1. That is fine
2. Thank you

*** PHONE LOG 03/15/2013 10:29:32 AM (Local Time) BSherrick Action Type: Web Contact

1. Provided phone number for MHillegas

*** PHONE LOG 03/15/2013 11:00:08 AM (Local Time) HSanchez Action Type: Incoming call

Customer states:

1. I am calling to get some information.
2. Provided VIN#.
3. I just want the name & extension for my case manager.

Writer states:

1. Apologized for any trouble.
2. Verified contact info.
3. Advised customer case has been escalated to NCA.
4. Advised customer NCA of Case Managers name & extension.
5. Is there anything writer can further assist with?

Customer states:

1. No I just wanted to confirm on this info.
2. No additional assistance needed at this time.
3. Thanked writer for assistance.

*** PHONE LOG 03/15/2013 04:05:50 PM (Local Time) MHillegas Action Type: Incoming call

Wtr received an email from SM Steve O'Shea at [REDACTED] with a screen shot of diagnosis as follows:

1. Tested windshield wiper deicer.
2. 15A deicer fuse is ok and the switch is working.
3. Measured charging voltage at pin 1 of [REDACTED] and ground at pin 2.
4. Windshield is cracked across the element in the glass.
5. When measuring the voltage drop across the crack, the voltage drop is about 12 volts.
6. Glass does not heat up in the area of the element.

*** PHONE LOG 03/15/2013 04:07:20 PM (Local Time) MHillegas Action Type: Incoming call

NCA REVIEWED CASE WITH PQ AND KMA LEGAL DEPT.:

1. DEALER TO REPLACE WINDSHIELD.
2. DPSM TO INSPECT VEHICLE PRIOR TO REPAIR TO CHECK FOR ANY UNDERLYING ELECTRICAL ISSUES.

*** PHONE LOG 03/15/2013 04:14:43 PM (Local Time) MHillegas Action Type: Outgoing call

Wtr spoke with DPSM Ken Domingues and stated:

1. Wtr reviewed case with PQ and KMA Legal and was advised to replace the windshield.
2. We would also like you to inspect the vehicle for any other underlying electrical concerns prior to repair.

DPSM stated:

1. I've authorized the dealer to replace the windshield.
2. I can inspect the vehicle between Monday and Tuesday of next week.
3. I will contact SM Steve O'Shea and advise him that I will be inspecting the vehicle prior to the repair being done.

*** PHONE LOG 03/15/2013 04:35:50 PM (Local Time) MHillegas Action Type: Incoming call

Wtr spoke with customer, [REDACTED] who stated:

Case History

1. Customer reiterated same concerns as previously stated above.
2. I got a call from the dealer stating that they are replacing the windshield and it should be in next Wed., March 20, 2013.
3. They told me I could pick up my car and then bring it back on Wednesday to have the repair performed.
4. I told them I didn't think the vehicle was safe to drive and they told me I could stay in the loaner until the repair is done.
5. I just don't trust this dealership or the vehicle.
6. I think the concern is caused by an electrical issue because the phone was acting up saying listening, listening when I wasn't even using it.
7. Then I heard a buzzing noise, saw smoke then a flame.
8. Deicer button was not on prior to the incident.
9. Crack wasn't on the windshield when I dropped off the vehicle on 3/13/13.
10. I noticed the crack when I went to the dealership to pick up the car and opened the door to get in.
11. Kerry in Service drove the vehicle into the garage and can verify there was no crack in the windshield.
12. Dealer tech is saying that the crack was in the windshield when he inspected the vehicle.

Wtr stated:

1. Wtr agrees that it would be best if you do not want drive the vehicle until the repair has been completed.
2. Wtr advised customer that KMA will cover the cost of the loaner or rental until the repair has been completed.
3. Wtr reviewed the case with a few corporate engineers and the DPSM and we are all in agreement that the windshield should be replaced.
4. We have asked the DPSM to inspect the vehicle for any other underlying electrical concerns prior to the windshield being completed.
5. DPSM will be inspecting the vehicle either Monday or Tuesday.
6. Wtr will give you a call back with the results of DPSM's inspection.

Customer stated:

1. Thank you so much for your help.

*** PHONE LOG 03/18/2013 12:29:38 PM (Local Time) MHillegas Action Type: Incoming call

Importance: High

Good afternoon Michele,

I received a BBB case for this customer with no start date. I do see you own the case and the old windshield will be sent back to Corporate for further testing.

Customer is requesting replacement vehicle on BBB forms.

I wanted to check with you to see if I would take over customer handling on this BBB case.

Thank you!

Kelly Zaia | Consumer Affairs Analyst

Kia Motors America, Inc.

East Brunswick NJ

*** PHONE LOG 03/19/2013 01:21:12 PM (Local Time) MHillegas Action Type: Outgoing call
Wtr called DPSM Ken Domingues and left a detailed VM requesting a call back.

*** PHONE LOG 03/19/2013 01:46:39 PM (Local Time) MHillegas Action Type: Incoming call
Wtr spoke with DPSM Ken Domingues who stated:

1. Inspected vehicle this morning.
2. There is no evidence of rock chips or any other outside impacts.
3. It appears the deicer shorted out.
4. There is no evidence of a thermal reaction.
5. Dealer will be removing the cowl to inspect for further damage and/or other concerns.
6. I will f/u with the dealer in the morning to get their findings and will give you a call to advise.

Wtr stated:

1. Wtr advised DPSM that ERCA Office received a BBB complaint filed by the customer.
2. Region to handle the BBB complaint.
3. Thanks for the update.

*** PHONE LOG 03/20/2013 08:46:42 AM (Local Time) MHillegas Action Type: Incoming call

Wtr received an email from RCAA Kelly Zaia stating:

From: Zaia, Kelly [KMA]
Sent: Wednesday, March 20, 2013 05:38 AM Pacific Standard Time
To: Pfeifer, Matthew [KMA]; Hillegas, Michele [KMA]
Cc: Domingues, Ken [KMA]
Subject: RE: Customer alledging fire from dash

Good Morning all,

To seek repurchase or replacement in Massachusetts, claim must be filed within 2 years or 24k

Warranty start is 9/20/10 so this customer will not qualify under the program.

(Seeking repairs is 3 years or 36k, so they will also not qualify for this resolution).

Thanks for all of your help!

Kelly

*** PHONE LOG 03/21/2013 12:10:15 PM (Local Time) MHillegas Action Type: Outgoing call
Wtr called DPSM Ken Domingues 845-216-1147 and left a detailed VM requesting a call back.

*** PHONE LOG 03/21/2013 12:25:25 PM (Local Time) MHillegas Action Type: Incoming call
Wtr received an email from RCAA KZaia stating:

Cc: Pfeifer, Matthew [KMA]
Subject: RE: Customer alleging fire from dash

Hi all,

Looks like used vehicles are covered for 1 year or 15,000 miles under BBB summary.

MA Consumer Protection Act (Chapter 93A) covers unfair or deceptive practices on the part of merchants. If you have a lemon, it's automatically considered an unfair or deceptive practice. This is all I could find on 93A, BBB does not mention it and more than likely will go off of the program summary for the state. Let me know if you have any other info on this.

Michele and I spoke and I will let you all know if for some reason BBB would accept this as an official case.

Thanks for all of your help.

Kelly

*** PHONE LOG 03/22/2013 12:30:01 PM (Local Time) MHillegas Action Type: Incoming call
Wtr spoke with RCAA KZaia who stated:

1. BBB complaint states that customer does not want the car back.
2. Request to replace vehicle.
3. Concerns stated: 2X's hard to start; fire in the dash.

Wtr stated:

1. Thanks for the info.

Case History

*** PHONE LOG 03/22/2013 12:55:11 PM (Local Time) MHillegas Action Type: Outgoing call

Wtr spoke with DPSM Ken Domingues [REDACTED] and stated:

1. Wtr is calling to get an update on the repair to customer [REDACTED] vehicle.

DPSM stated:

1. Windshield has been replaced and customer has picked up the vehicle.
2. It was just a burnout in the windshield.
3. No problem found with the connector or wiring.

Wtr stated:

1. Thanks for the update.

*** PHONE LOG 03/22/2013 01:02:16 PM (Local Time) MHillegas Action Type: Outgoing call

Wtr spoke with SM Steve O'Shea at [REDACTED] and stated:

1. Wtr is calling in regard to the windshield repair to [REDACTED] vehicle.

SM SO'Shea stated:

1. We replaced the windshield yesterday and customer picked up the vehicle today.
2. Concern was isolated to the lower grid where the deicer is located.
3. Inspected connector and wiring and found no problem and no evidence of melting or burning.
4. We will be shipping the old windshield back to Kia Corporate per your request.

Wtr stated:

1. Wtr gave Kia Corporate address and FedEx no. to SM.
2. Wtr requested a copy of the RO and gave NCA's fax number to SM.
3. Thanks for all your help in this matter.

*** PHONE LOG 03/26/2013 12:47:18 PM (Local Time) MHillegas Action Type: Outgoing call

Wtr called customer [REDACTED] and left a detailed VM requesting a call back.

*** PHONE LOG 03/26/2013 05:58:08 PM (Local Time) MHillegas Action Type: Incoming call

Wtr received a call back from customer [REDACTED] who stated:

1. I am returning your call in regard to the windshield repair performed on my vehicle.
2. So far everything is okay with the vehicle since I picked it up last Friday, March 22, 2013.
3. However, I'm really upset because the gas tank was empty and I had to make sure that the rental car had gas in it before I turned it in.
4. The only thing the dealer gave me was two free car washes for the inconvenience.
5. Not to mention the other concern with the battery and starter.
6. This vehicle has had nothing but problems since I purchased it.
7. I don't know if I feel safe driving this vehicle.
8. I don't really want this car anymore.
9. If I turn in this vehicle then I'm going to lose the \$4,000.00 I put down on this car.
10. I'm going to have to continue pursuing a claim with the BBB or use other resources I guess.

Wtr stated:

1. Wtr apologized for the inconvenience this concern has caused you so early on into your ownership period.
2. Wtr advised the customer that the cause for the concern was isolated to the deicer grid at the base of the windshield.
3. Dealer and DPSM inspected vehicle and found no further concerns with the connectors and wiring.
4. There were no other vehicle concerns identified.
5. Dealer and DPSM did not find any evidence of burn or fire damage to the vehicle.
6. Concern was isolated to the deicer heating element shorting out.
7. We have requested that the dealer send us the old windshield for further evaluation and analysis by our PQ Engineering Dept.
8. Wtr advised customer that replacing the vehicle is not an option that wtr can offer customer at this time.
9. What exactly are you requesting of Kia at this time?

Customer stated:

1. I don't just want two free car washes; I want compensation for the inconvenience and time lost from work.

Wtr stated:

1. Wtr would like to offer to reimburse you for one car payment for the inconvenience.
2. Wtr requested a copy of customer's most recent car payment statement.

Customer stated:

1. I can email a copy of my car payment statement to you.
2. Please send me an email with your contact information.
3. Thank you, I don't mean to take out all of my frustrations on you, I know it's not your fault.

Wtr stated:

1. Wtr understands the reason for your frustration.
2. Wtr to send customer an email with wtr's contact information.

*** PHONE LOG 04/02/2013 10:47:51 AM (Local Time) MHillegas Action Type: Incoming call

Wtr received email from customer [REDACTED] with car payment summary attached.

1. Attached is my payment summary report from my credit union.
2. On 3/16 I paid \$260.00.
3. Payment summary would not print correctly.

Case History

*** PHONE LOG 04/02/2013 10:49:44 AM (Local Time) MHillegas Action Type: Incoming call

Wtr spoke with customer [REDACTED] and stated:

1. I received your email with the car payment summary attached.
2. However, the payment summary report will not print correctly on one page.
3. Wtr requested that customer fax a copy of the summary report to wtr.
4. Wtr gave NCA's fax number to customer.
5. Thank you.

Customer stated:

1. I can fax a copy of the summary report tomorrow.

*** PHONE LOG 04/11/2013 03:24:39 PM (Local Time) MHillegas Action Type: Incoming call

Tread review completed.

*** PHONE LOG 05/02/2013 03:12:34 PM (Local Time) MHillegas Action Type: Incoming call

NCA received a copy of payment summary for car payment from customer, [REDACTED]

1. Wtr scanned document into case.

*** PHONE LOG 05/02/2013 03:13:59 PM (Local Time) MHillegas Action Type: Incoming call

NCA received a copy of RO [REDACTED] from [REDACTED]

1. Wtr scanned document into case.

1. Who Owns the Vehicle?

<Provide Owner Name, Address, and Phone>
[REDACTED]

2. Who Was Driving the Vehicle and how many passengers were there, if any?

<Provide Driver's Name, Address, and Phone>
[REDACTED]

3. Do You Own the Vehicle?

Yes

4. What is the Age of the Driver?

<Driver's Age>
[REDACTED]

5. What Was the Date and Time of the Accident?

<DATE> and <TIME>

03/13/13 7:40AM

6. Describe the Road Weather Conditions at the Time of the Accident.

<ROAD WEATHER CONDITIONS>

NA -

7. What Speed was the Vehicle Traveling?

<VEHICLE SPEED>

3 5MPH

8. Were any Other Vehicles Involved in the Accident?

No

9. Were There Any Injuries?

No

10. Was Anyone Taken by Ambulance to The Hospital?

No

11. Is Anyone Currently Under Medical Attention for this Incident?

No

12. Describe the Incident in Detail, including the approximate vehicle speeds

<INCLUDE street names, location, all vehicles involved, what part of the vehicles were damaged>

I was driving to work, my radio turned off and kept saying listening. A few minutes later I heard buzzing, then I saw smoke coming from the dash on the drivers side by the windshield, then a flame about the size of half dollar came out, I blew it out, then it came back. I pulled over and then I popped open the hood to make sure nothing else was on fire. I calmed down and then I called Kia, while I was trying to call Kia the phone system got all screwed up, it was trying to facetime. I drove straight to Kia.

13. Were the Police Contacted?

No

16. Was the Insurance Company Contacted?

No

18. Was the Vehicle Driven or Towed From the Scene?

Driven

19. Where is the Vehicle Now?

<VEHICLE LOCATION>

Kia of West Springfield

20. Have Any Repairs Been Completed?

No

21. Were Parties Wearing Seatbelts?

Yes

22. Did the Airbag(s) Deploy?

No

23. Was Airbag Light on prior to accident?

No

24. What action are you requesting of Kia?

<RESOLUTION SOUGHT>

I don't want this car anymore. I just want my money back. I have had so many problems with the vehicle. I need a reliable vehicle!

25. Have you reviewed the airbag section of the owners manual?

Yes - In order to consider your request, we will need you to provide us with copies of:

- i. Copy of Police Report (if available)
- ii. Pictures of vehicle (front, rear and side views)

Yes

Thank you for shipping online with FedEx ShipManager at fedex.com.

Please Note

FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$500, e.g., jewelry, precious metals, negotiable instruments, and other items listed in our Service Guide. Written claims must be filed within strict time limits. Consult the applicable FedEx Service Guide for details. The estimated shipping charge may be different than the actual charges for your shipment. Differences may occur based on actual weight, dimensions, and other factors. Consult the applicable FedEx Service Guide or the FedEx Rate Sheets for details on how shipping charges are calculated.

*** PHONE LOG 03/14/2013 07:57:24 AM (Local Time) SMcgraw Action Type:

Customer states

1. I've had so many problems with my vehicle
2. I bought it Feb 4th
3. It has been back to the dealer 4 times
4. The interior started on fire, I think it was an electrical issue
5. When I took it into the dealer, they looked at it and they said they could find nothing
6. I got the vehicle back with a crack in the windshield which I think they did it!
7. They replaced the battery, because it was not starting
8. I've had starting issues
9. I do not feel safe in this vehicle!

Writer placed customer on hold-called dealer

Service Manager Steven

1. Bought the vehicle used in Feb
2. No start issue-battery issues 02/18/13 battery replaced
3. No start issue-starter issue 02/26/13 -02/27/13 starter replaced covered under warranty
4. Customer then called 03/13/13 stating flames were coming out from the left side of the dash board
5. No melt marks, no smell, tech looked under, test drives
6. Stress mark crack on the windshield where the customer alleges the flames were coming -we did not cause this
7. The vehicle is here, and we are letting it run with heat, defrosters, a/c, wipers, radio etc
8. Bulb was replaced on 02/23/13 not a warranty issue, but dealer took care of it
9. I am alerting my DPSM of the situation

Writer told customer will call back instead of keeping her on hold-customer agreed

RE: File #

Dear

Please consider this Kia Motors America response to the notice received from you as required by your State. After reviewing the concerns with your vehicle, an appointment has been scheduled for inspection of your vehicle. Please deliver your vehicle to City Kia or Greater Orlando at 9 am on July 11, 2013. Upon inspection, Kia Motors America, Inc. will repair any warrantable defects.

City Kia or Greater Orlando

Orlando, FL

Upon your arrival at the dealership, you must see the Service Manager, for a test drive before and after any repairs are to be completed.

If after completion of the scheduled repairs you feel that you need additional assistance, you may contact this office by mail or fax with a list of any unresolved concerns and a request for our review. We request that you submit your preferred resolution along with a copy of all sales, service and maintenance records for our review and determination.

We regret that you have experienced this problem with your Kia and we appreciate your patience.

Sincerely,

Danielle Burke

*** PHONE LOG 03/14/2013 01:15:26 PM (Local Time) KJohnson Action Type: Incoming call

Caller [REDACTED], sister, stated:

- 1 - My sister's spanish is better than her english
[wtr could hear male and female speaking Spanish in background; sister seemed to be translating for them]
- 2 - the day after she got this veh, it started making noise, smoking, slowed down
- 3 - rs took it to the dealer and they said she did not know how to drive
- 4 - she took the car back, and it happened again
- 5 - again the dealer said there was nothing wrong and returned it
- 6 - it happened a third time and she video'd it happening
- 7 - you could hear the car going rrr-rrr-rrr and see that it would not faster than 20 mph
- 8 - the car is at the dealer and they are going to keep it for 2 weeks
- 9 - she is in an enterprise car, but she has to pay the insurance
- 10 - she does not want this car [repeated]
- 11 - what should she do?

Writer:

- 1 - Apologized
- 2 - fyi, we have spanish speakers at this office and if your sister ever needs help, she can speak directly to one of them
- 3 - if she does not want to keep veh, recommend she talk to sales manager or consult WCIM
- 4 - wtr will work w/ dlr to be sure all necessary resources are involved to fix veh [she does not want veh]
- 5 - provided case no.

Customer:

- 1 - Thank you

[!<For Internal Use Only:
>!]

*** PHONE LOG 03/14/2013 01:29:16 PM (Local Time) KJohnson Action Type: Outgoing call

Called fl112 and SVCM Todd stated:

- 1 - veh has been here twice; this is second time
- 2 - the first time it came in was 3/7; this time it came in 3/13
- 3 - she says there is white smoke coming out from under the hood and the car has no speed

Case History

4 - I put 280 miles on the veh and CND

5 - there were no codes

6 - I drove highway and city, turning veh off, letting it sit, and restarting it

7 - I drove it in to really try to get it to duplicate and I could not

8 - This time I spoke with Phil Bayless and he said to keep veh for 5 days and continue to drive it and see if we can duplicate it

9 - so far I have put 140 miles on it without problem so far

10 - again it is a combination of city and highway driving

11 - she took a video, but the camera is moving all around and you really cannot tell what is happening

12 - In some ways, what she is saying does not make sense

13 - We see no signs of smoke residue on the engine, no sign of a plastic bag being caught and burning off, no sign of fluids leaking or anything like this

14 - I think she might be driving two-footed, but she says she is not

15 - if you brake and accelerate at the same time, the car will go into failsafe mode

*** EMAIL OUT 03/14/2013 01:40:40 PM (Local Time) KJohnson Action Type: External email

Karen [REDACTED]

Phillip,

I believe you are aware of this vehicle.

This is a 13 Forte, KNAFU4A2XD5 [REDACTED], 240 miles, orig owner [REDACTED]. This is IQS.

Customer states that veh is at [REDACTED] for third time for a problem where engine becomes noisy, smoke comes out from under hood, and veh will not have any speed or power.

SVCM Todd says this is second visit.

Customer's first language is Spanish and her sister [REDACTED] called for her. Her sister says [REDACTED] qui speaks English all right, that she understands her, but that she was calling for her sister.

[REDACTED] states her sister does not want veh back. Dlr CND after extensive test-driving and is continuing to testdrive veh.

I am dispatching for early intervention.

You have been sent a Kia Consumer Assistance Case for your reference and action as may be noted in the Case. If it has been sent to you in error, please notify the Kia Consumer Affairs Dept. at [REDACTED] AND delete this email.

The attached Case is the exclusive property of Kia Motors America and is a Confidential And Proprietary document. It is not to be distributed or disseminated to any third party without the express written consent of Kia Motors America.

*** PHONE LOG 03/14/2013 01:15:26 PM (Local Time) KJohnson Action Type: Incoming call

Caller [REDACTED], sister, stated:

- 1 - My sister's spanish is better than her english
[wtr could hear male and female speaking Spanish in background; sister seemed to be translating for them]
- 2 - the day after she got this veh, it started making noise, smoking, slowed down
- 3 - rs took it to the dealer and they said she did not know how to drive
- 4 - she took the car back, and it happened again
- 5 - again the dealer said there was nothing wrong and returned it
- 6 - it happened a third time and she video'd it happening
- 7 - you could hear the car going rrr-rrr-rrr and see that it would not faster than 20 mph
- 8 - the car is at the dealer and they are going to keep it for 2 weeks
- 9 - she is in an enterprise car, but she has to pay the insurance
- 10 - she does not want this car [repeated]
- 11 - what should she do?

Writer:

- 1 - Apologized
- 2 - fyi, we have spanish speakers at this office and if your sister ever needs help, she can speak directly to one of them
- 3 - if she does not want to keep veh, recommend she talk to sales manager or consult WCIM
- 4 - wtr will work w/ dlr to be sure all necessary resources are involved to fix veh [she does not want veh]
- 5 - provided case no.

Customer:

- 1 - Thank you

*** PHONE LOG 03/14/2013 01:29:16 PM (Local Time) KJohnson Action Type: Outgoing call

Called [REDACTED] and SVCMM Todd stated:

- 1 - veh has been here twice; this is second time
- 2 - the first time it came in was 3/7; this time it came in 3/13
- 3 - she says there is white smoke coming out from under the hood and the car has no speed

Case History

- 4 - I put 280 miles on the veh and CND
- 5 - there were no codes
- 6 - I drove highway and city, turning veh off, letting it sit, and restarting it
- 7 - I drove it in to really try to get it to duplicate and I could not
- 8 - This time I spoke with Phil Bayless and he said to keep veh for 5 days and continue to drive it and see if we can duplicate it
- 9 - so far I have put 140 miles on it without problem so far
- 10 - again it is a combination of city and highway driving
- 11 - she took a video, but the camera is moving all around and you really cannot tell what is happening
- 12 - In some ways, what she is saying does not make sense
- 13 - We see no signs of smoke residue on the engine, no sign of a plastic bag being caught and burning off, no sign of fluids leaking or anything I ke this
- 14 - I think she might be driving two-footed, but she says she is not
- 15 - if you brake and accelerate at the same time, the car will go into failsafe mode

Glossary

[View Full Glossary](#)

CARFAX Price Adjustment™

Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

L Remarks

Local Option

[REDACTED] was dispatched to the indicated location for a vehicle fire. Upon arrival on scene, ME231 found a 4 door sedan with active fire confined to the passenger compartment. All doors were closed and no windows were broken upon our arrival. Access was made through the unlocked driver door and extinguishment of the fire was performed. The area of origin appeared to be to the back seat area of the vehicle. The owner was on scene and denied any recent mechanical problems with the vehicle. The driver reported driving for about 30 minutes on the freeway and beginning to smell smoke after exiting the freeway at I10 and Waterman. The driver denied placing anything hazardous in the rear of the vehicle. The vehicle was left with the owner with no further fire or hazard existing. LLUMC security on scene will remain to assist with tow of the vehicle.

Dear Kia Motors Corp of America ,

Please be advised that Nationwide is the insurance carrier for the above-named insured, who sustained fire damage to his automobile on the above date of loss. Our preliminary investigation reveals that this fire may have resulted from a defect in the automobile, therefore we are placing you on notice of a potential claim against you, as well as providing you with the opportunity to attend a joint inspection of the vehicle.

Please contact the undersigned upon receipt of this notice to advise your intentions with regards to attending a joint inspection of the vehicle.

Thank you for your prompt attention to this matter.

RE: ENGINEERING EVALUATION OF THE CAUSE OF A FIRE INVOLVING
A 2014 KIA FORTE OWNED BY TALLASSEE,
TENNESSEE THAT OCCURRED ON 20 APRIL 2014

EEC FILE:
NWIC CLAIM NO:
POLICY NO:
KIA VIN: KNAEK4A61E5
INSURED: Tallassee, Tennessee

Dear Ms. Zetzer:

This letter is to report the results of an engineering evaluation of the cause of a fire involving a 2014 Kia Forte owned by Julie Koons, Tallassee, Tennessee.

This report is based on an inspection of the fire damaged vehicle at Coparts (stock no. 19741704x) in Madisonville, Tennessee, that was performed on 14 August 2014. The vehicle inspection was performed in association with Mr. Jerry Carter, CFI, a fire investigator with Technifire Services Co. During the vehicle inspection, Mr. Carter reviewed the findings of his fire origin and cause investigation regarding this loss.

Mr. Carter determined that the fire in vehicle originated inside the passenger compartment. Mr. Carter further localized the fire origin area to the left side of the dash assembly in the vicinity of the steering column. Mr. Carter did report that the vehicle was parked at the time the fire was discovered in the early AM on 20 April 2014. The 2014 Kia had been last driven on Thursday, 18 April 2014 and had been moved on Friday, 19 April 2014. When the fire was discovered, the vehicle owner's uncle reportedly first observed fire inside the passenger compartment in the dash area.

From a general inspection of the fire damaged vehicle, it was evident that both the engine and passenger compartments were gutted by fire. All four tires had been consumed by fire. From inspection of the fire damages and burn patterns, the fire was determined to have originated inside the passenger compartment. Fire damage in the engine compartment progressed from rear to front and from driver to passenger side, i.e., the engine compartment fire extended from the driver's, rear corner area.

The fire debris was removed from the foot wells on both the passenger and driver's sides of the passenger compartment. Removing the foot well, fire debris revealed that the fire had burned longer and created more damage to combustible materials on the driver's side as compared to the passenger side.

In removing the fire debris from the front of the passenger compartment, two, small, DC power supply cords were found. One DC power cord had a mini-USB port and went to a small camera. The camera did not cause the fire. The camera DC power cord was not plugged in when the fire occurred; it was on the right side of the center console and went to the right foot well. The remains of a cell phone were also found in near the center console of the passenger side. This cell phone, while heavily fire damaged, had not caused the fire.

A second DC power cord was found on the left side of the center console. This DC power cord was plugged in. The cord was found broken near the seat beside the left side of the center console. However, the appliance end of the cord could not be found, and the associated DC appliance could not be identified.

Inspection of the DC power supplies and the center console area showed no evidence of a fire cause or fire origin from either DC power cord. The right cord was not plugged-in. The left DC power cord was plugged-in but did not show evidence of causing the fire or of being present in the area where the fire originated.

The engine compartment electrical system was inspected. No electrical fire cause was indicated in the engine compartment. The electrical wiring and equipment in the engine compartment had been attacked by fire extension from the passenger compartment. No evidence of an electrical failure or problem was found on the battery cables, main power block, alternator, engine wiring harness, or starter. Some blown fuses were indicated at the main power block.

The passenger compartment electrical system was inspected. No problem was indicated with the wiring and equipment in the front doors or on the center console. No problem was indicated with the dash electrical wiring and dash electrical equipment on the passenger side of the steering column.

Inspection of the passenger compartment electrical system did reveal a series of severe, progressing, electrical wiring shorts involving the main feeder circuit in the driver's side of the dash. The feeder wiring shorts were directly above the main circuit board for the inside fuse panel. The most severe fire damage to the dash assembly wiring harness was in the immediate vicinity of the wiring shorts. The instrument cluster, printed circuit board had directional fire attack from the left (driver's) side of the steering column.

Multiple wiring shorts just to the left of the steering column indicated that the fire originated in this area and spread across energized wiring during the early stages of the fire. There was no evidence of an electrical short, fault, or failure involving the electric steering assist system; the power steering motor was in the area where the fire began. No electrical wiring shorts were found on the battery, alternator, and feeder electric cables in engine compartment or on the wiring harness other areas of the passenger compartment. The absence of electrical shorts in the engine compartment showed that the battery had been significantly discharged when the fire progressed into the engine compartment from the dash assembly.

The severe electrical wiring shorts in the driver's side dash were at the origin of the fire. This origin area was consistent with the early eyewitness to the fire observing fire in the dash. The electrical wiring shorts in the driver's side dash were in an area that had not been altered or modified since the vehicle was assembled. The electrical wiring shorts in the driver's side dash did involve electrical wiring that was constantly energized while the vehicle ignition was in the off position.

From inspection of the remains of [REDACTED] 2014 Kia Forte, it was determined that the fire was ignited by multiple electrical wiring short circuits (faults) involving the main feeder circuit at or near the passenger compartment fuse panel. Because the vehicle dash assembly and the associated electrical system wiring and equipment were unaltered on the 2014 Kia Forte, it is this engineer's opinion that the fire was the direct result of a defect in the manufacture of the vehicle.

[REDACTED]

A DVD-R disk containing a set of digital photographs taken during the vehicle inspection on 14 August 2014 during the vehicle inspection is enclosed. Eaton Engineering did not collect or receive physical evidence in this case. Eaton Engineering is holding no physical evidence in this case.

To conclude, based on the information available at this time, it is this engineer's opinion that the fire involving a 2014 Kia Forte owned by [REDACTED] originated at the driver's side of the dash assembly at or near the inside fuse panel. The fire was caused by multiple, electrical, wiring shorts involving the main electric feeder cable to the fuse panel that ignited ordinary combustibles. The electrical shorts that ignited the fire developed, because of a defect in the manufacture of the 2014 Kia Forte. There was no indication that the vehicle had been modified or altered in the fire origin area inside the dash assembly just to the left of the steering column.

RE: Insured: [REDACTED]
Date of Loss: April 20, 2014
Policy No.: [REDACTED]
Claim No.: [REDACTED]
TechniFire No.: [REDACTED]

Dear Ms. Styer:

Per your direction, Dr. Thomas Eaton of Eaton Engineering Company was contracted to conduct an engineering evaluation of the 2014 Kia Forte (VIN: KNAFK4A61E [REDACTED]) belonging to the above named insured. On August 14, 2014, the examination was conducted at Copart Salvage Auto Auction in Madisonville, Tennessee. This investigator was present during Dr. Eaton's examination and provided information in regards to the loss.

Dr. Eaton's examination did reveal the fire originated at the interior driver side dash area at the location of electrical wiring conductors and adjacent components. There was no evidence of modifications to the electrical system. Additionally, there was no evidence found to indicate the fires inception as a result of any aftermarket components including items which may have been connected at the cigar lighter/power point areas. Dr. Eaton's report and invoice will be provided under separate cover.

If you have any questions or concerns, please feel free to contact me. Until then I remain,

Respectfully yours,

[REDACTED]

Jerry R. Carter, IAAI-CFI

SETTLEMENT AGREEMENT AND GENERAL RELEASE

This Settlement Agreement and General Release (hereinafter referred to as the "Agreement") is entered into by and among the following parties: (1) Nationwide Insurance (hereinafter referred to as "Claimant"); and (2) Kia Motors America; Kia Motors Corporation (hereinafter referred to as "Kia").

RECITALS

- A. A dispute has arisen between Claimant and Kia regarding a 2014 Kia Forte bearing vehicle identification number KNAFK4A61E5 [REDACTED] (hereinafter referred to as "Subject Vehicle").
- B. Claimant has complained of irregularities, misrepresentations, defects, non-conformities and problems relating to the sale or lease of and with the Subject Vehicle.
- C. Claimant and Kia wish to settle all existing disputes as well as any and all past and present and known and unknown disputes regarding but not limited to the Subject Vehicle.

NOW, THEREFORE, in consideration of the mutual promises, covenants, representations and agreements herein contained, the parties hereto agree as follows:

AGREEMENT

- 1. In consideration of this agreement, Kia shall make a lump sum payment to the claimant in the amount of \$14,382. The Claimant agrees that the foregoing constitutes full payment and satisfaction of any and all claims, which he/she presently asserted or could have asserted against Kia.
- 2. It is understood and agreed that this settlement is a compromise of disputed claims and does not constitute an admission of liability on the part of Kia.
- 3. Claimant hereby releases and fully discharges Kia, Kia Motors America, Kia Motors Corporation, claimant's finance company and any and all other defendants and potentially liable parties, and each of their predecessors, successors, subsidiaries and affiliated entities, parents, partners, officers, directors, shareholders, agents, employees, representatives, attorneys, successors and assigns, past and present, and each of them (hereinafter referred to as the "Releasees") from any and all claims, demands and causes of action and any and every kind and nature, without limitations, whether known or unknown, suspected or unsuspected, which Claimant now owns or holds or at any time heretofore has owned or held against the Releasees arising out of, resulting from, or in any way related to the above Recitals. In the event Claimant has filed any action, lawsuit, litigation, claim or complaint, legal, administrative or otherwise, with respect to this matter, Claimant hereby agrees to dismiss said action, lawsuit and/or litigation with prejudice as to all parties and/or to withdraw said claim or complaint forthwith.
- 4. Section 1542 of the California Civil Code, provides that:

"A general release does not extend to claims which the creditor does not know or suspect exist in his favor at the time of executing the release, which if known by him, must have materially affected his settlement with the debtor."
- 5. Notwithstanding Section 1542 or other similar provisions, Claimant agrees that this release shall constitute a full release in accordance with its terms. Claimant knowingly and voluntarily waives the provisions of §1542, and acknowledges and agrees that this waiver is an essential and material term of the Agreement that led to it, and that, without such waiver, the settlement would not have been entered into. Claimant acknowledges his/her understanding that the effect of the Agreement is to waive and release all future potential claims for damages which were or may have been suffered but which have not yet manifested themselves.
- 6. Claimant further expressly understands and agrees that the signing of the Agreement shall be forever binding on Claimant and Claimant's agents, predecessors, successors, affiliates, assigns, heirs, personal representatives, executors, administrators, attorneys, employees, agents, servants and insurers, and no rescission, modification or release of the undersigned from the terms of the Agreement will be made for any mistakes as set forth herein. Claimant further warrants that no promise or inducement has been offered except as herein set forth and that the Agreement was executed without reliance upon any statements or representation by Kia and Claimant warrants that he/she is legally competent to execute this Settlement Agreement and General Release.

7. Claimant hereby agrees to indemnify, defend, and hold harmless Kia from all loss, cost, claim or expense (including but not limited to all expenses of investigation and defense of any such claims or action, including reasonable attorneys' fees and expenses) arising out of any claim made or action instituted by any person or entity who claims to be the beneficiary of such assignment or transfer, and to pay and satisfy any judgment resulting therefrom or any such claim or action.

8. Claimant acknowledges that he/she has not been influenced to any extent in entering into the Agreement by any representations or statements regarding any such action, claim, demand or cause of action made by any party. Claimant acknowledges that he/she has had the opportunity to consult with his/her attorneys, and that he/she has voluntarily executed the Agreement after independent investigation and without fraud, duress or undue influence.

9. The Agreement constitutes the entire understanding between the parties hereto pertaining to the subject matter hereof and fully supersedes any and all prior agreements and understanding, whether written or oral, between the parties hereto pertaining to the subject matter hereof.

10. The Agreement shall be construed and enforced in accordance with the laws of the State of California. Any action to enforce this settlement or to address any cause of action arising from the facts contained in the Agreement will be filed in the Superior Court of California, County of Orange. All parties voluntarily agree to jurisdiction in said court.

11. Each party hereto shall bear all attorney's fees, expenses and costs arising from the actions of its own counsel in connection with the Complaint and/or Cross-complaint, the Agreement, and the matters and documents referred to herein, the filing of a Dismissal of the Complaint, and all related matters.

12. In consideration of the mutual benefit to the Claimant and Kia and other consideration the receipt of which is acknowledged, Claimant and Kia agree to keep the terms of this settlement and agreement **STRICTLY CONFIDENTIAL**, including a mutual agreement to not make or post disparaging statements about each other or the products involved with print, electronic, social media or internet media. However, nothing contained in this paragraph shall prohibit any party or attorney to this agreement from disclosing either the existence of or the terms of this settlement or agreement to their respective insurance carriers, accountants, the parties or courts of competent jurisdiction in furtherance of the legal process or as otherwise required by a legal duty or obligation owed by Claimant or Kia, or to others with the prior written consent of the Kia. In the event Claimant or Kia discloses any of the terms of this settlement or agreement as allowed by this paragraph, such party shall prior to such disclosure, secure in writing from the person or entity to whom disclosure is made, other than a court, such party's or entity's agreement to maintain the disclosed information in confidence.

SETTLEMENT AGREEMENT AND GENERAL RELEASE

This Settlement Agreement and General Release (hereinafter referred to as the "Agreement") is entered into by and among the following parties: (1) Nationwide Insurance (hereinafter referred to as "Claimant"); and (2) Kia Motors America; Kia Motors Corporation (hereinafter referred to as "Kia").

RECITALS

- A. A dispute has arisen between Claimant and Kia regarding a 2014 Kia Forte bearing vehicle identification number KNAFK4A61E5 [REDACTED] (hereinafter referred to as "Subject Vehicle").
- B. Claimant has complained of irregularities, misrepresentations, defects, non-conformities and problems relating to the sale or lease of and with the Subject Vehicle.
- C. Claimant and Kia wish to settle all existing disputes as well as any and all past and present and known and unknown disputes regarding but not limited to the Subject Vehicle.

NOW, THEREFORE, in consideration of the mutual promises, covenants, representations and agreements herein contained, the parties hereto agree as follows:

AGREEMENT

1. In consideration of this agreement, Kia shall make a lump sum payment to the claimant in the amount of \$14,382. The Claimant agrees that the foregoing constitutes full payment and satisfaction of any and all claims, which he/she presently asserted or could have asserted against Kia.
2. It is understood and agreed that this settlement is a compromise of disputed claims and does not constitute an admission of liability on the part of Kia.
3. Claimant hereby releases and fully discharges Kia, Kia Motors America, Kia Motors Corporation, claimant's finance company and any and all other defendants and potentially liable parties, and each of their predecessors, successors, subsidiaries and affiliated entities, parents, partners, officers, directors, shareholders, agents, employees, representatives, attorneys, successors and assigns, past and present, and each of them (hereinafter referred to as the "Releasees") from any and all claims, demands and causes of action and any and every kind and nature, without limitations, whether known or unknown, suspected or unsuspected, which Claimant now owns or holds or at any time heretofore has owned or held against the Releasees arising out of, resulting from, or in any way related to the above Recitals. In the event Claimant has filed any action, lawsuit, litigation, claim or complaint, legal, administrative or otherwise, with respect to this matter, Claimant hereby agrees to dismiss said action, lawsuit and/or litigation with prejudice as to all parties and/or to withdraw said claim or complaint forthwith.
4. Section 1542 of the California Civil Code, provides that:

"A general release does not extend to claims which the creditor does not know or suspect exist in his favor at the time of executing the release, which if known by him, must have materially affected his settlement with the debtor."
5. Notwithstanding Section 1542 or other similar provisions, Claimant agrees that this release shall constitute a full release in accordance with its terms. Claimant knowingly and voluntarily waives the provisions of §1542, and acknowledges and agrees that this waiver is an essential and material term of the Agreement that led to it, and that, without such waiver, the settlement would not have been entered into. Claimant acknowledges his/her understanding that the effect of the Agreement is to waive and release all future potential claims for damages which were or may have been suffered but which have not yet manifested themselves.
6. Claimant further expressly understands and agrees that the signing of the Agreement shall be forever binding on Claimant and Claimant's agents, predecessors, successors, affiliates, assigns, heirs, personal representatives, executors, administrators, attorneys, employees, agents, servants and insurers, and no rescission, modification or release of the undersigned from the terms of the Agreement will be made for any mistakes as set forth herein. Claimant further warrants that no promise or inducement has been offered except as herein set forth and that the Agreement was executed without reliance upon any statements or representation by Kia and Claimant warrants that he/she is legally competent to execute this Settlement Agreement and General Release.

7. Claimant hereby agrees to indemnify, defend, and hold harmless Kia from all loss, cost, claim or expense (including but not limited to all expenses of investigation and defense of any such claims or action, including reasonable attorneys' fees and expenses) arising out of any claim made or action instituted by any person or entity who claims to be the beneficiary of such assignment or transfer, and to pay and satisfy any judgment resulting therefrom or any such claim or action.

8. Claimant acknowledges that he/she has not been influenced to any extent in entering into the Agreement by any representations or statements regarding any such action, claim, demand or cause of action made by any party. Claimant acknowledges that he/she has had the opportunity to consult with his/her attorneys, and that he/she has voluntarily executed the Agreement after independent investigation and without fraud, duress or undue influence.

9. The Agreement constitutes the entire understanding between the parties hereto pertaining to the subject matter hereof and fully supersedes any and all prior agreements and understanding, whether written or oral, between the parties hereto pertaining to the subject matter hereof.

10. The Agreement shall be construed and enforced in accordance with the laws of the State of California. Any action to enforce this settlement or to address any cause of action arising from the facts contained in the Agreement will be filed in the Superior Court of California, County of Orange. All parties voluntarily agree to jurisdiction in said court.

11. Each party hereto shall bear all attorney's fees, expenses and costs arising from the actions of its own counsel in connection with the Complaint and/or Cross-complaint, the Agreement, and the matters and documents referred to herein, the filing of a Dismissal of the Complaint, and all related matters.

12. In consideration of the mutual benefit to the Claimant and Kia and other consideration the receipt of which is acknowledged, Claimant and Kia agree to keep the terms of this settlement and agreement **STRICTLY CONFIDENTIAL**, including a mutual agreement to not make or post disparaging statements about each other or the products involved with print, electronic, social media or internet media. However, nothing contained in this paragraph shall prohibit any party or attorney to this agreement from disclosing either the existence of or the terms of this settlement or agreement to their respective insurance carriers, accountants, the parties or courts of competent jurisdiction in furtherance of the legal process or as otherwise required by a legal duty or obligation owed by Claimant or Kia, or to others with the prior written consent of the Kia. In the event Claimant or Kia discloses any of the terms of this settlement or agreement as allowed by this paragraph, such party shall prior to such disclosure, secure in writing from the person or entity to whom disclosure is made, other than a court, such party's or entity's agreement to maintain the disclosed information in confidence.

Dear Kia Motors Corp of America ,

Please be advised that Nationwide is the insurance carrier for the above-named insured, who sustained fire damage to his automobile on the above date of loss. Our preliminary investigation reveals that this fire may have resulted from a defect in the automobile, therefore we are placing you on notice of a potential claim against you, as well as providing you with the opportunity to attend a joint inspection of the vehicle.

Please contact the undersigned upon receipt of this notice to advise your intentions with regards to attending a joint inspection of the vehicle.

Thank you for your prompt attention to this matter.

NARRATIVE

Reporting Officer: 329 - JAMERSON, MICHAEL

On April 20, 2014, I, Deputy R. Jamerson, responded to [REDACTED] Upon arrival I made contact with [REDACTED]

[REDACTED] stated that when she arrived home today from camping she noticed her car had been burned. [REDACTED] stated she had parked her car next to the house on Friday the 18th, prior to leaving town.

I then spoke with the neighbor, the victim's uncle, [REDACTED] stated that around 2:00 A.M. a neighbor honked their horn and yelled something was burning at his brother's house. [REDACTED] said he saw the car on fire next to the home and pulled the car away using his backhoe.

[REDACTED] stated the neighbor that honked was Kieran Webb. I have not been able to speak with Mr. Webb.

Options were explained.

Date of Loss:	April 20, 2014
Loss Location:	[REDACTED] Tallasse, TN [REDACTED]

Risk Information:

Make: Kia

Model: Forte

Year: 2014

VIN: KNAFAK4A61E5 [REDACTED]

Mileage: ~ 12,100 per insured

Notes:

The insured reports the vehicle was parked and not in operation at the time the fire occurred. The insured's uncle discovered the fire and reports that it was initially visible at the interior dash area. No recent repairs had been made to the vehicle. It was last driven on Thursday night; however, it was moved on Friday to a different location prior to the fires occurrence on Sunday.

File History

Jerry Carter is the assigned investigator representing TechniFire Services Company.

On April 25, 2014, this file was established under the direction of Ms. Meredith Zetzer, who represents Nationwide Insurance Company in Dublin, Ohio.

On May 1, 2014, the vehicle examination was conducted at the Copart Salvage Auto Auction in Madisonville, Tennessee.

On May 1, 2014, a verbal report was provided to Ms. Meredith Zetzer.

Instructions Received:

- Conduct vehicle inspection for origin and cause

During the Investigation:

- The salvage was examined for origin and cause determination
- Information was provided by Ms. Meredith Zetzer

Persons referred to in this report:

Ms. Julie Koons	Insured
Ms. Meredith Zetzer	Nationwide Insurance Co.

Subrogation potential:

Under assessment

[REDACTED]

Origin and Fire Spread

The fire began at the interior of the passenger compartment more especially at the driver side dash. Flame development was to wiring insulation and subsequently the adjacent combustible components and assemblies at the within the dash. Unchecked fire growth did result in heavy fire involvement within the interior of the passenger compartment. The fire did ultimately move through the firewall/bulkhead into the motor compartment where the ignition and burning of the combustible components did ensue.

By the time ultimate extinguishment of the vehicle was effected, heavy fire involvement was present throughout the passenger compartment, motor compartment and trunk storage compartment areas. In fact, it does appear the vehicle is a total loss.

Fire Causation

The most probable cause of the fire is a failure of the electrical conductors and/or components located at the interior driver side dash. The exact mechanism of failure is not known due to the extensive degradation within the dash and the vehicle. There was however evidence of localized shorting and arcing of the conductors at the interior driver side dash area. The fire patterns on the dash frame, windshield frame, hood and adjacent motor and passenger compartment components do indicate the fires inception within the interior driver side dash area.

The electrical system for the vehicle was connected and energized at the time of the fire. The oxidation and demarcation patterns on the dash frame, fire wall/bulkhead, windshield frame and the hood do further indicate the fires initial inception within the interior of the dash at the location of the wiring conductors and adjacent components. Additionally, information provided by the insured's uncle reports the fire was first noticed at the dash area.

Debris samples that were removed from the interior of the passenger compartment failed to reveal the presence of an identifiable ignitable liquid. In fact, there was no evidence found to indicate the fire occurred as a result of an incendiary cause.

Evidence Obtained During the Vehicle Examination

By this Investigator

Two debris samples were removed and forwarded to AK Analytical Services in Hendersonville, Tennessee.

- Sample #1 contained debris from the driver side of the passenger compartment.
- Sample #2 contained debris from the passenger side of the passenger compartment.

Results: Both samples failed to reveal the presence of an identifiable ignitable liquid. A copy of the laboratory analysis is contained as a supplement to this report.

By other Investigators/Agents

There was no indication that any evidence had been removed by others prior to my vehicle examination.

INSPECTION SUMMARY

Exterior

The exterior of the vehicle was heavily oxidized from the front bumper to the rear of the vehicle and no plastic or fiberglass components remained unburned. The only areas where any paint remained was at the underside of the doors. The doors were closed at the time of the fire. The hood was down and latched and the trunk lid was closed. There was no indication that any exterior component had been removed prior to the fire. In fact, even the fuel cap was found to have been in the filler neck.

Undercarriage

All components of the undercarriage were found to have been in their appropriate locations when the fire occurred. There is no evidence of the fires inception at the undercarriage area.

Motor Compartment

The motor compartment was extensively degraded by the fire. The hood was down and latched at the inception of the fire. All components of the motor compartment were found to have been in their appropriate locations at the time the fire occurred. The damage configuration within the motor compartment does demonstrate the fires movement through the firewall/bulkhead from the passenger compartment into the motor compartment area.

Passenger Compartment

The passenger compartment was gutted by the fire and no upholstery or dash material remained unburned. The doors were closed at the time of the fire. All components of the passenger compartment were found to have been in their appropriate locations at the time the fire occurred. The damage configuration does demonstrate the fires inception at the dash area more especially at the driver side.

SYSTEMS

Electrical

Both the primary and secondary electrical systems were connected when the fire occurred. The battery remains were found at the motor compartment. There was no evidence of shorting or arcing found to indicate a failure of the battery or primary wiring as a cause of the fire. The secondary wiring in the motor compartment was extensively degraded as a result of heat and flame impingement. The secondary wiring within the passenger compartment was most significantly damaged at the driver side interior dash where there was evidence of localized shorting and arcing of the conductors. In fact, a failure of the electrical wiring conductors and/or components is the most probable cause of the fire.

Fuel System

The fuel tank and all rigid and flexible lines were connected when the fire occurred. There were no breaks or deformities found in the rigid lines running from the tank to the motor compartment. The fuel system components within the motor compartment were extensively degraded due to heat and flame impingement. The vehicle was not in operation at the time of the fire. There is no indication the fire occurred as a result of a vehicle fuel system failure.

Drive Train

All the major drive train components were found in their appropriate locations and externally appeared to be operable. The vehicle was not in operation at the time of the fire. There is no indication the fire occurred as a result of a drive train system failure.

TO: Meredith Zetzer
Nationwide Insurance Company

SUBJECT: [REDACTED]

LOCATION: [REDACTED] Tallassee, TN

SUBMITTER NO: [REDACTED]

NATIONWID POLICY / CLAIM NO: [REDACTED]

INCIDENT DATE: 04-20-14

LAB NO: [REDACTED]

DATE: May 6, 2014

On May 2, 2014, the following items were received from Jerry Carter, via United Parcel Service with a request for analysis.

ITEMS:

Two one-gallon metal cans containing debris and labeled:

Contents Observed by Laboratory

- | | | |
|------|--|----------|
| (I) | Charred debris-driver side of passenger compartment | Verified |
| (II) | Charred debris-passenger side of passenger compartment | Verified |

EXAMINATION REQUESTED: Ignitable Liquid Determination

RESULTS:

Each item was subjected to passive headspace concentration and examined by Gas Chromatography / Mass Spectrometry.

The above Item(s) failed to reveal the presence of an identifiable ignitable liquid.

The failure of any sample to demonstrate the presence of an ignitable liquid does not preclude the presence of one. It is merely a statement that none was found in that particular sample.

DISPOSITION: The evidence will remain at this agency pending further notice.

Respectfully submitted,

[REDACTED]

Photo Information

1. Front and driver side of the vehicle.

Photo Information

2. Rear and driver side of the vehicle.

Photo Information

3. Rear and passenger side of the vehicle.

Photo Information

4. Front and passenger side of the vehicle. Note that extensive degradation of the vehicle did occur during the course of the fire.

Photo Information

5. The left front wheel showing design.

Photo Information

6. The tire pad showing tread design and condition.

Photo Information

7. The fuel filler neck. The cap was in place at the time of the fire.

Photo Information

8. Overview of the hood and front grill area. The hood was down and latched at the inception of the fire.

Photo Information

9. Overview of the motor compartment following removal of the hood. All components were found in their appropriate locations.

Photo Information

10. The driver side of the motor compartment. The damage configuration demonstrates the fire's movement from the passenger compartment through the firewall/bulkhead motor compartment.

Photo Information

11. The passenger side of the motor compartment. There is no evidence of the fires initial inception within the motor compartment area.

Photo Information

12. The remains of the battery and primary electrical wiring showing extensive damage due to heat and flame impingement. There is however no evidence of the fires inception at the battery location.

Photo Information

13. The trunk storage compartment showing extensive degradation. The spare tire was not found at its mounting location.

Photo Information

14. The back seating area showing extensive degradation of the seat assembly.

Photo Information

15. Additional view of the back seating area again showing extensive degradation of the seats as well as the door panels.

Photo Information

16. The front seating area. Extensive degradation of the seats as well as the adjacent door panels and overhead did occur during the course of the fire.

Photo Information

17. Additional view of the front seating area. Although extensively degraded, there is no evidence of the fires inception at the seat or floorboard area.

Photo Information

18. The dash. All components were found to have been in their appropriate locations at the time the fire occurred.

Photo Information

19. Additional view of the dash showing the remains of the instrument cluster at the driver side. The fire did begin within the interior dash at the driver side.

Photo Information

20. Additional view of the dash showing the dash frame and adjacent components and assemblies. Again, all components were found to have been in their appropriate location at the time the fire occurred.

Photo Information

21. Close up view of the driver side dash showing the remains of the wiring harness conductors. There is evidence of localized shorting and arcing at the driver side interior dash area.

Photo Information

22. Close up view of the wiring conductors again showing evidence of shorting, arcing and melting. A failure of the conductors for unknown reasons is the most probable cause of fire.

Photo Information

23. The windshield frame. The oxidation and demarcation patterns further demonstrate the fires development within the interior dash at the driver side.

Photo Information

24. Additional close up view of the area of origin at the driver side dash. The oxidation, demarcation and burn patterns do demonstrate the fires development at the interior [REDACTED] the location of the wiring harness conductors and/or adjacent components.

RE: ENGINEERING EVALUATION OF THE CAUSE OF A FIRE INVOLVING
A 2014 KIA FORTE OWNED BY TALLASSEE,
TENNESSEE THAT OCCURRED ON 20 APRIL 2014

EEC FILE:
NWIC CLAIM NO:
POLICY NO:
KIA VIN: KNAFK4A61E5
INSURED: Tallassee, Tennessee

Dear Ms. Zetzer:

This letter is to report the results of an engineering evaluation of the cause of a fire involving a 2014 Kia Forte owned by Tallassee, Tennessee.

This report is based on an inspection of the fire damaged vehicle at Coparts (stock no. 19741704x) in Madisonville, Tennessee, that was performed on 14 August 2014. The vehicle inspection was performed in association with Mr. Jerry Carter, CFI, a fire investigator with Technifire Services Co. During the vehicle inspection, Mr. Carter reviewed the findings of his fire origin and cause investigation regarding this loss.

Mr. Carter determined that the fire in vehicle originated inside the passenger compartment. Mr. Carter further localized the fire origin area to the left side of the dash assembly in the vicinity of the steering column. Mr. Carter did report that the vehicle was parked at the time the fire was discovered in the early AM on 20 April 2014. The 2014 Kia had been last driven on Thursday, 18 April 2014 and had been moved on Friday, 19 April 2014. When the fire was discovered, the vehicle owner's uncle reportedly first observed fire inside the passenger compartment in the dash area.

From a general inspection of the fire damaged vehicle, it was evident that both the engine and passenger compartments were gutted by fire. All four tires had been consumed by fire. From inspection of the fire damages and burn patterns, the fire was determined to have originated inside the passenger compartment. Fire damage in the engine compartment progressed from rear to front and from driver to passenger side, i.e., the engine compartment fire extended from the driver's, rear corner area.

The fire debris was removed from the foot wells on both the passenger and driver's sides of the passenger compartment. Removing the foot well, fire debris revealed that the fire had burned longer and created more damage to combustible materials on the driver's side as compared to the passenger side.

In removing the fire debris from the front of the passenger compartment, two, small, DC power supply cords were found. One DC power cord had a mini-USB port and went to a small camera. The camera did not cause the fire. The camera DC power cord was not plugged in when the fire occurred; it was on the right side of the center console and went to the right foot well. The remains of a cell phone were also found in near the center console of the passenger side. This cell phone, while heavily fire damaged, had not caused the fire.

A second DC power cord was found on the left side of the center console. This DC power cord was plugged in. The cord was found broken near the seat beside the left side of the center console. However, the appliance end of the cord could not be found, and the associated DC appliance could not be identified.

Inspection of the DC power supplies and the center console area showed no evidence of a fire cause or fire origin from either DC power cord. The right cord was not plugged-in. The left DC power cord was plugged-in but did not show evidence of causing the fire or of being present in the area where the fire originated.

The engine compartment electrical system was inspected. No electrical fire cause was indicated in the engine compartment. The electrical wiring and equipment in the engine compartment had been attacked by fire extension from the passenger compartment. No evidence of an electrical failure or problem was found on the battery cables, main power block, alternator, engine wiring harness, or starter. Some blown fuses were indicated at the main power block.

The passenger compartment electrical system was inspected. No problem was indicated with the wiring and equipment in the front doors or on the center console. No problem was indicated with the dash electrical wiring and dash electrical equipment on the passenger side of the steering column.

Inspection of the passenger compartment electrical system did reveal a series of severe, progressing, electrical wiring shorts involving the main feeder circuit in the driver's side of the dash. The feeder wiring shorts were directly above the main circuit board for the inside fuse panel. The most severe fire damage to the dash assembly wiring harness was in the immediate vicinity of the wiring shorts. The instrument cluster, printed circuit board had directional fire attack from the left (driver's) side of the steering column.

Multiple wiring shorts just to the left of the steering column indicated that the fire originated in this area and spread across energized wiring during the early stages of the fire. There was no evidence of an electrical short, fault, or failure involving the electric steering assist system; the power steering motor was in the area where the fire began. No electrical wiring shorts were found on the battery, alternator, and feeder electric cables in engine compartment or on the wiring harness other areas of the passenger compartment. The absence of electrical shorts in the engine compartment showed that the battery had been significantly discharged when the fire progressed into the engine compartment from the dash assembly.

The severe electrical wiring shorts in the driver's side dash were at the origin of the fire. This origin area was consistent with the early eyewitness to the fire observing fire in the dash. The electrical wiring shorts in the driver's side dash were in an area that had not been altered or modified since the vehicle was assembled. The electrical wiring shorts in the driver's side dash did involve electrical wiring that was constantly energized while the vehicle ignition was in the off position.

From inspection of the remains of [REDACTED] 2014 Kia Forte, it was determined that the fire was ignited by multiple electrical wiring short circuits (faults) involving the main feeder circuit at or near the passenger compartment fuse panel. Because the vehicle dash assembly and the associated electrical system wiring and equipment were unaltered on the 2014 Kia Forte, it is this engineer's opinion that the fire was the direct result of a defect in the manufacture of the vehicle.

[REDACTED]

A DVD-R disk containing a set of digital photographs taken during the vehicle inspection on 14 August 2014 during the vehicle inspection is enclosed. Eaton Engineering did not collect or receive physical evidence in this case. Eaton Engineering is holding no physical evidence in this case.

To conclude, based on the information available at this time, it is this engineer's opinion that the fire involving a 2014 Kia Forte owned by [REDACTED] originated at the driver's side of the dash assembly at or near the inside fuse panel. The fire was caused by multiple, electrical, wiring shorts involving the main electric feeder cable to the fuse panel that ignited ordinary combustibles. The electrical shorts that ignited the fire developed, because of a defect in the manufacture of the 2014 Kia Forte. There was no indication that the vehicle had been modified or altered in the fire origin area inside the dash assembly just to the left of the steering column.

Dear Ms. Zetzer:

This letter is to report the results of an engineering evaluation of the cause of a fire involving a 2014 Kia Forte owned by _____ Tallassee, Tennessee.

This report is based on an inspection of the fire damaged vehicle at Coparts (stock no. 19741704x) in Madisonville, Tennessee, that was performed on 14 August 2014. The vehicle inspection was performed in association with Mr. Jerry Carter, CFI, a fire investigator with Technifire Services Co. During the vehicle inspection, Mr. Carter reviewed the findings of his fire origin and cause investigation regarding this loss.

Mr. Carter determined that the fire in _____ vehicle originated inside the passenger compartment. Mr. Carter further localized the fire origin area to the left side of the dash assembly in the vicinity of the steering column. Mr. Carter did report that the vehicle was parked at the time the fire was discovered in the early AM on 20 April 2014. The 2014 Kia had been last driven on Thursday, 18 April 2014 and had been moved on Friday, 19 April 2014. When the fire was discovered, the vehicle owner's uncle reportedly first observed fire inside the passenger compartment in the dash area.

From a general inspection of the fire damaged vehicle, it was evident that both the engine and passenger compartments were gutted by fire. All four tires had been consumed by fire. From inspection of the fire damages and burn patterns, the fire was determined to have originated inside the passenger compartment. Fire damage in the engine compartment progressed from rear to front and from driver to passenger side, i.e., the engine compartment fire extended from the driver's, rear corner area.

The fire debris was removed from the foot wells on both the passenger and driver's sides of the passenger compartment. Removing the foot well, fire debris revealed that the fire had burned longer and created more damage to combustible materials on the driver's side as compared to the passenger side. [REDACTED]

In removing the fire debris from the front of the passenger compartment, two, small, DC power supply cords were found. One DC power cord had a mini-USB port and went to a small camera. The camera did not cause the fire. The camera DC power cord was not plugged in when the fire occurred; it was on the right side of the center console and went to the right foot well. The remains of a cell phone were also found in near the center console of the passenger side. This cell phone, while heavily fire damaged, had not caused the fire.

A second DC power cord was found on the left side of the center console. This DC power cord was plugged in. The cord was found broken near the seat beside the left side of the center console. However, the appliance end of the cord could not be found, and the associated DC appliance could not be identified

Inspection of the DC power supplies and the center console area showed no evidence of a fire cause or fire origin from either DC power cord. The right cord was not plugged-in. The left DC power cord was plugged-in but did not show evidence of causing the fire or of being present in the area where the fire originated.

The engine compartment electrical system was inspected. No electrical fire cause was indicated in the engine compartment. The electrical wiring and equipment in the engine compartment had been attacked by fire extension from the passenger compartment. No evidence of an electrical failure or problem was found on the battery cables, main power block, alternator, engine wiring harness, or starter. Some blown fuses were indicated at the main power block.

[REDACTED]
[REDACTED]
[REDACTED]

The passenger compartment electrical system was inspected. No problem was indicated with the wiring and equipment in the front doors or on the center console. No problem was indicated with the dash electrical wiring and dash electrical equipment on the passenger side of the steering column.

Inspection of the passenger compartment electrical system did reveal a series of severe, progressing, electrical wiring shorts involving the main feeder circuit in the driver's side of the dash. The feeder wiring shorts were directly above the main circuit board for the inside fuse panel. The most severe fire damage to the dash assembly wiring harness was in the immediate vicinity of the wiring shorts. The instrument cluster, printed circuit board had directional fire attack from the left (driver's) side of the steering column.

Multiple wiring shorts just to the left of the steering column indicated that the fire originated in this area and spread across energized wiring during the early stages of the fire. There was no evidence of an electrical short, fault, or failure involving the electric steering assist system; the power steering motor was in the area where the fire began. No electrical wiring shorts were found on the battery, alternator, and feeder electric cables in engine compartment or on the wiring harness other areas of the passenger compartment. The absence of electrical shorts in the engine compartment showed that the battery had been significantly discharged when the fire progressed into the engine compartment from the dash assembly.

The severe electrical wiring shorts in the driver's side dash were at the origin of the fire. This origin area was consistent with the early eyewitness to the fire observing fire in the dash. The electrical wiring shorts in the driver's side dash were in an area that had not been altered or modified since the vehicle was assembled. The electrical wiring shorts in the driver's side dash did involve electrical wiring that was constantly energized while the vehicle ignition was in the off position.

From inspection of the remains of [REDACTED] 2014 Kia Forte, it was determined that the fire was ignited by multiple electrical wiring short circuits (faults) involving the main feeder circuit at or near the passenger compartment fuse panel. Because the vehicle dash assembly and the associated electrical system wiring and equipment were unaltered on the 2014 Kia Forte, it is this engineer's opinion that the fire was the direct result of a defect in the manufacture of the vehicle.

A DVD-R disk containing a set of digital photographs taken during the vehicle inspection on 14 August 2014 during the vehicle inspection is enclosed. Eaton Engineering did not collect or receive physical evidence in this case. Eaton Engineering is holding no physical evidence in this case.

originated at the driver's side of the dash assembly at or near the meter face panel. The fire was caused by multiple, electrical, wiring shorts involving the main electric feeder cable to the fuse panel that ignited ordinary combustibles. The electrical shorts that ignited the fire developed, because of a defect in the manufacture of the 2014 Kia Forte. There was no indication that the vehicle had been modified or altered in the fire origin area inside the dash assembly just to the left of the steering column.

Introduction

Nationwide Affinity Insurance Company has conducted an inspection of your 2014 Kia Forte LX 4 door Sedan located in Tallassee, TN. The inspection information was then used to conduct research in your local market to determine the market value of your vehicle.

The local market value of your vehicle was defined by the Zip code [REDACTED] -- Tallassee, TN

The recommended settlement amount based on the loss vehicle description provided by Nationwide Affinity Insurance Company is \$15,011.54

===== Vehicle Valuation Summary =====

	LOCAL MARKET VALUE
Local Market Value	\$ 14,422.00
Pre-tax amount	\$ 14,422.00
Vehicular Sales Tax 7.5547%	+ 1,089.54
License/fees (if applicable)	
Value before deductible	\$ 15,511.54
DEDUCTIBLE	- 500.00
Adjusted vehicle valuation amount	\$ 15,011.54

Automated sales tax calculation based on applicable state, county and municipal tax rates.

===== Vehicle Valuation Allowances =====

Compared to the typical vehicle in the marketplace your vehicle's value was affected by these factors:

Odometer 12,000

These allowances illustrate factors that influence the settlement amount [REDACTED]

compared to a typical vehicle. The typical vehicle is a vehicle of the same year, make, and model as the loss vehicle, including average mileage, and all standard and predominant equipment.

In cases where a standard or predominant option is superceded by a replacement or upgrade, a corresponding addition will appear for the option to reflect this.

The vehicle valuation allowances also reflect proper deductions for all standard or predominant equipment not present on the loss vehicle.

These allowances are illustrative only. The actual Local Market Value is calculated entirely from comparable vehicles with adjustments to reflect the loss vehicle configuration.

The state of Tennessee is composed of 6 distinct local markets. The [REDACTED] 8 zones were used in the preparation of this CCC Valuescope Market Report.

Knoxville, TN - Primary local market vehicle database.

In this market, CCC maintains a database of 2,201 inspected dealer vehicles located at 13 dealerships, and 17,044 dealer advertised, and 475 privately advertised vehicles taken from 15 local papers or magazines.

Tri-Cities, TN - Secondary local market vehicle database.

In this market, CCC maintains a database of 3,304 inspected dealer vehicles located at 19 dealerships, and 5,295 dealer advertised, and 245 privately advertised vehicles taken from 9 local papers or magazines.

Chattanooga, TN - Third local market vehicle database.

In this market, CCC maintains a database of 4,733 inspected dealer vehicles located at 19 dealerships, and 9,545 dealer advertised, and 511 privately advertised vehicles taken from 13 local papers or magazines.

Other markets searched - @Cookeville/Mcminnville, Kentucky River Valley, Hickory, Asheville and London/Somerset

In these markets, CCC maintains a database of 7,523 inspected dealer vehicles located at 40 dealerships, and 25,108 advertised vehicles taken from 33 local newspapers or magazines.

Search extended to locate additional comparable vehicles.

Valuation request: [REDACTED] (continued) 2014 KIA FORTE LX

===== Local Market Definition (continued) =====

In certain circumstances, the area searched may be further extended to locate additional comparable vehicles for use in the valuation of your vehicle. That was done in connection with this valuation, and CCC was able to locate comparable vehicles in Nashville, Greenville/Spartanburg, Augusta and North Atlanta. Adjustments were made to the value of each comparable vehicle to account for differences, if any, in year, model, body style, engine configuration, packages, options, and mileage.

Nationwide, CCC maintains a database of 711,863 inspected dealer vehicles located at 3,662 dealerships, and 4,913,901 advertised vehicles taken from 1,107 local papers and magazines.

For your vehicle's CCC Valuescope Market Report, CCC identified 6 advertised vehicles as comparable to your vehicle, and used their values to determine the Local Market Value.

Vehicles are determined to be comparable to the loss vehicle based on:

- * Nearness to the loss vehicle's primary garage location
- * Similarity of model, equipment, and odometer
- * Precision of the data (inspected versus advertised)

Valuation request: [REDACTED] (continued) 2014 KIA FORTE LX

===== Valuation Methodology =====

This CCC Valuescope Market Report was prepared for Nationwide Affinity Insurance Company by CCC Information Services Inc. CCC has been preparing market reports for the insurance industry since 1981. CCC physically inspects vehicles for sale at vehicle dealerships in the local markets, and subscribes to local newspapers and automotive publications in these markets. CCC maintains vehicle databases containing these inspected dealership vehicles along with the dealer and private party advertised vehicle information.

When Nationwide Affinity Insurance Company requests a CCC Valuescope Market Report from CCC, they provide CCC the VIN (Vehicle Identification Number) of the loss vehicle. Decoding this VIN identifies the exact vehicle for which the local market value will be done. See the VINguard Vehicle Identification section. [REDACTED]

Nationwide Affinity Insurance Company also provides CCC the vehicle owner's Zip code. This identifies the local market that will be used to determine the market value. See the Local Market Definition section.

Finally, Nationwide Affinity Insurance Company provides CCC with the configuration of the loss vehicle including equipment, odometer, condition, maintenance, etc. This information is the starting point for determining the local market value.

The Local Market Value is the value of the loss vehicle, and includes condition, mileage, packages, and all equipment. The method used to determine the Local Market Value on current year vehicles involves finding new vehicles for sale at the time of the valuation. After the Adjusted Value for each comparable vehicle is calculated, the Local Market Value is determined.

Valuation request: [REDACTED] (continued) 2014 KIA FORTE LX

===== Vehicle Condition =====

Nationwide Affinity Insurance Company uses Condition Inspection Guidelines to determine the condition of key components of the loss vehicle. These guidelines are specific to geographic location, year, and vehicle type. The guidelines describe physical characteristics for each of the vehicle components. Based on these guidelines, Nationwide Affinity Insurance Company determined the condition of the vehicle prior to the loss.

Category	Condition	Adjustments
----------	-----------	-------------

-
- * The Condition Inspection Guidelines provide information based on vehicle age, vehicle type, and geographic location. Your vehicle has been identified as being located in the Southeast region as a newer passenger car.
 - * The Condition Inspection Guidelines, and all dollar adjustments, are determined by surveys, inspections, and interviews with dealerships across the United States.
-

===== Comparable Vehicles Detail =====

The local market comparable vehicles are compared to the loss vehicle, and adjustments are made for differences in equipment, odometer, model, etc. The Price, Asking Price, Take Price or List Price displayed below (as applicable) may differ from the advertised price where CCC obtains different price information from the seller. The Adjusted Value represents the price of the comparable configured exactly as the loss vehicle.

* List Price is the sticker price of the vehicle. Take Price is the amount for which the vehicle can be purchased as defined by the contact at each dealer.

* Option adjustments are made in comparison to the typical vehicle. Typical vehicle options that are not present are enclosed in parentheses.

* The baseline is defined as the condition of the typical vehicle on the road. Baseline adjustments are made when a comparable vehicle condition varies from that of a typical vehicle.

* All dollar adjustments are determined by surveys, inspections, and interviews with dealerships across the United States.

* Note that some comparable vehicles that were recently available in the local market may no longer be available.

* The Price, Asking Price, Take Price or List Price displayed above (as applicable) may differ from the advertised price where CCC obtains different price information from the seller.

------------	-------	--	---

The mileage reported here conflicts with this vehicle's odometer history. Ask a mechanic or the seller to confirm the actual mileage - this entry may just be a clerical error.

Have Questions? Consumers, please visit our Help Center at www.carfax.com. Dealers or Subscribers, please visit our Help Center at www.carfaxonline.com.

**Glossary**[View Full Glossary](#)**Accident / Damage Indicator**

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada. Different information in a vehicle's history can indicate an accident or damage, such as: salvage auction, fire damage, police-reported accident, crash test vehicle, damage disclosure, collision repair facility and automotive recycler records. Not every accident or damage event is reported and not all reported are provided to CARFAX. Details about the accident or damage event when reported to CARFAX (e.g. severity, impact location, airbag deployment) are included on the Vehicle History Report. CARFAX recommends you obtain a vehicle inspection from your dealer or an independent mechanic.

- According to the National Safety Council, Injury Facts, 2015 edition, 8% of the 254 million registered vehicles in the U.S. were involved in an accident in 2013. Over 74% of these were considered minor or moderate.
- CARFAX depends on many sources for its accident / damage data. CARFAX can only report what is in our database on 8/18/16 at 11:46:01 AM (EDT). New data will result in a change to this report.

Ohio Damage Reports:

- Provide an estimate of the extent of damage in its accident reports for the following:
 - SEVERE/TOTALED: The vehicle cannot be driven from the accident scene due to severe damage or an injury. This level of damage often results in a Salvage or Junk title.
 - DISABLING: The vehicle had to be towed or hauled away from the accident location.
 - FUNCTIONAL: Damage that affects the operation of the unit or its parts but is not disabling.
 - MINOR: The accident damage does not affect the operation of the vehicle. Examples include dented bumpers, fenders, grills and body panels. This level of accident should not compromise vehicle safety.
 - NO DAMAGE: The vehicle was not damaged.
- Are required if the estimated damage exceeds \$400

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Mileage Inconsistency

If an odometer reading is less than a previous reading but CARFAX is uncertain whether the discrepancy is a rollback or a clerical error, then CARFAX calls it a "Mileage Inconsistency". In this case, you should verify the mileage with your dealer or [REDACTED].

mechanic.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

A	SCP	Complete		Customer Pay

- customer states 3rd brake light is out and she has a burning smell.
- TECH TESTED BRAKE LIGHT OPERATIONS. VERIFIED CONCERN. ALSO FOUND THAT BRAKE LIGHTS DON'T WORK SOMETIMES. INSPECTED AND FOUND THAT BOTH BRAKE LIGHT SOCKETS ARE MELTED AND SO IS THE THIRD BRAKE LIGHT HOUSING. THE BULB IN THE BRAKE LIGHT SOCKETS ARE WRONG AND THEY DON'T QUITE FIT IN SOCKETS CORRECTLY. THIS COULD CAUSE SOME ARCHING. RECOMMEND REPLACING BOTH TAIL LIGHT HOUSING, THIRD BRAKE LIGHT HOUSING & RETEST.
NOTE: SOMETHING HAS BEEN WIRED IN ON ONE OF THE WIRES FOR BRAKE SWITCH.
- CUSTOMER DENIED FIXING CONCERN.

LIMITED WARRANTY The only warranties applying to the part(s) installed in accordance with this estimate are those that may be offered by the manufacturer. The seller hereby expressly disclaims all warranties, either expressed or implied, including any implied warranty of merchantability or fitness for a particular purpose, and neither assumes nor authorizes any other person to assume for it any liability in connection with the sale of products or services sold under the terms of this estimate. Parts and labor are guaranteed for 12 months or 12,000 miles, whichever comes first. Seller does not guarantee the work performed in accordance with this estimate will correct any problem specified on the description of the complaint.

"This charge represents costs and profits to the motor repair facility for miscellaneous shop supplies or waste disposal." [s.559.904(4)] The State of Florida requires a \$1.00 fee to be collected for each new tire sold in the state [s.403.718], and \$1.50 fee to be collected for each new or remanufactured battery sold in the state [s.403.7185]

A standard charge for supplies and materials is made on each repair order. The amount of this charge will be 10% of the total labor & parts charge. This will be shown in the lower right corner of your invoice in the space provided. The maximum amount charged will be \$50.00.

ALL PARTS NEW OR FACTORY REBUILT UNLESS OTHERWISE INDICATED.
 CUSTOMER HEREBY ACKNOWLEDGES RECEIPT OF ABOVE MENTIONED VEHICLE AND RECEIPT OF INVOICE HEREOF.
