Hi Sam,

Can you please call my cell phone when you have a moment, I have a couple of questions regarding this vehicle.

Techline and Engineering have requested we ship the bumper to California for inspection, is there a specific shipper they use?

Is there any way someone can send us a shipping label and arrange pick up as this part will need to be trucked due to it's physical size.

Also the customer is insisting that someone provide alternate transportation.

Any assistance with this is greatly appreciated.

Please also use this email address when trying to contact me concerning anymore details with the situation. One question, what will be the schedule with dealing with the dealership as far as getting the car fixed and detailed? Do need to contact them or will this be something that Corporate does? Thank you for your time and look forward to hearing from you.

We currently have an open ticket on our vehicle VIN # 5XYPG4A3XGG. I have misplaced the ticket # at this time. That problem has not been resolved and we now have additional issues. Which are major concerns and are major safety concerns not to mention fire hazards. My wife is on her way to Anderson Kia to drop it off now and they are aware of the issues. It is still having the same lock issue where they randomly lock and unlock uncontrollably. Which it caused the drivers door lock to break the first time and now has caused the rear passenger door lock to break. This has caused the vehicle to randomly not lock or unlock whenever it chooses and we have small children

that ride back there not to mention the theft issue if the door doesn't happen to lock. It also causes the remote lock to not work as well. The next issue is the passenger heated seat has gotten so hot that you can smell it and it has started smoking without the heated seat on. It has a mind of it's own and has burnt my daughters legs when she has had shorts on. Nothing serious but it could have been and not only that but I'm worried about it getting hot in the middle of the night and catching fire and burning the house down. Ford had a similar issue back in the 90's if my dealership experiences remind me correctly. The next issue is that it has been shifting incorrectly. It will randomly downshift through multiple gears causing the vehicle to jerk while driving at interstate speeds and at times will not go above 3000 rpm and if you try to accelerate at all it down shifts further. The only way to correct this problem is to pull over. Shut it off cycle the key 3 to 6 times and restart. This may or may not work. But was our only option being the nearest Kia dealership is 2 hours away. Now this morning the engine light has come on it is running very poorly and revving up for no reason in gear, park and neutral and the only solution is to shut it off and cycle the key. Hopefully my wife makes it to Anderson Kia 2 hours from now. In winter weather conditions if I didn't mention that. The code is for the engine control system. I'm very dissapointed with Kia for not taking further steps with the initial open ticket we currently have. Anderson Kia of Grand Island has done everything they can for us and still are. At this point I do not feel safe to have my wife driving this vehicle, I don't want it in my garage because of fire issues and I don't want my kids riding in it because of the same safety issues. And I do not want to have to worry about them being stranded in a blizzard because of a poorly built vehicle. I have worked with GM for over 18 years now and I can tell you that if we had a customer with this many issues and safety concerns happening since the vehicle had less than 400 miles on it they would be repurchasing the vehicle and taking it back and trying to figure out where they screwed up. Their is major issues with this vehicle, mechanical and electrical and I no longer feel remotely safe driving or riding in it, let alone having it parked in our garage. I'm asking you to take immediate action about this as I no longer feel safe in this vehicle or trust it enough to take it more than a few blocks from home. I'm sure the consumers on social media would have a hayday knowing all the possible issues the 2016 Kia Sorento has and how little Kia has done to resolve my initial safety concerns. Not to mention the Nebraska new car dealers association and all it's contacts. I will wait to hear how this is going to be resolved as I have no plans on picking the vehicle back up for the reasons listed above. Thank you for your time. [REDACTED]

Alex, I think I need to have this document reviewed by an attorney. It seems to me that Kia is attempting to absolve themselves of any potential liability should another spontaneous fire occur and there is third party liability involved. Since the damage to the vehicle was fixed, but the cause was not determined and quite possibly not corrected, I will not accept all liability in the case of what happened once happening again.

I will get back to you after we consult with an attorney.

This may be a week or more as we are leaving on vacation Friday and will be unable have the consultation until we return.

thank you

Kerr County Sheriff's Office**INCIDENT/OFFENSE REPORT**

Case Number

W.R. Hierholzer
Sheriff**NARRATIVE**

1. On Saturday, 7/1/2017, I Corporal Jonathan Edwards, responded to a vehicle fire with Deputy Portan in the of Kerr County, TX.

2. I arrived and assisted with traffic control as part of the highway had to be shut down and one lane of traffic was open.

3. I observed a vehicle severely burnt and somewhat put out upon arrival. A secondary fire occurred burning a portion of private property where the gate chain had to be cut so Divide VFD could access and extinguish the fire.

END OF SUPPLEMENT

1. ON 07/01/2017, AROUND 4:01PM, I RESPONDED TO A CALL WITH CORPORAL EDWARDS ABOUT A VEHICLE THAT WAS FULLY ENGULFED IN FLAMES AROUND THE HWY KERR COUNTY, TEXAS.

2. UPON ARRIVAL, I OBSERVED A BURNT VEHICLE THAT WAS STILL BEING PUT OUT BY THE DIVIDE VFD. THE FIRE ALSO SPREAD TO THE SIDE OF THE ROAD AND CONTINUED ONTO A PRIVATE PROPERTY THAT BELONGS TO

3. I MADE CONTACT WITH A WITNESS WHO OBSERVED THE VEHICLE FIRE. STATED THAT WHILE HE WAS TRAVELING WEST ON HWY AND SAW SMOKE COMING FROM THE BACK OF A SILVER PASSENGER CAR THAT PASSED HIM.

4. ALSO STATED THAT HE NOTICED A HITCH CARRIER BASKET ON THE BACK OF THE VEHICLE THAT HAD SEVERAL PIECES OF CLOTHING HANGING OFF THE BACK. IT APPEARED THAT THE FIRE COULD HAVE IGNITED DUE TO THE CLOTHING HANGING OFF THE BACK AND POSSIBLY COMING IN CONTACT WITH THE EXHAUST PIPE.

4. STATED THAT ABOUT 10 MINUTES LATER, HE SAW THE VEHICLE STOPPED AND IT WAS ON FIRE. THEN DROVE BACK TO THE DIVIDE AND KNOCKED ON THE DOOR. AFTER NO ANSWER, CALLED 911 AND STOOD BY TO ASSIST THE PASSENGERS OF THE VEHICLE.

5. I ALSO ASKED IF HE WOULD BE WILLING TO COMPLETE A WITNESS STATEMENT ABOUT THIS INCIDENT AND HE DID.

6. I THEN MADE CONTACT WITH THE DRIVER, OF THE VEHICLE LATER IDENTIFIED AS A BLACK 2016 KIA BEARING TXLP# STATED THAT WHILE SHE WAS TRAVELING WEST ON HWY SHE LOOKED IN HER MIRROR AND NOTICED FIRE COMING FROM THE BACK OF THE VEHICLE.

7. IMMEDIATELY PULLED OVER AND GOT OUT OF THE VEHICLE. I ASKED HER TO COMPLETE A VOLUNTARY STATEMENT ABOUT WHAT HAPPENED. ALSO STATED THAT SHE DID NOT NEED ANY MEDICAL ATTENTION AND WAS JUST SHOCKED ABOUT THE INCIDENT.

8. DISPATCH ADVISED THAT HILL COUNTRY WRECKER WAS IN ROUTE TO PICK UP THE VEHICLE. I OBSERVED A TRAIL OF BURNT CLOTHING LEADING TO THE VEHICLE ON THE HIGHWAY. I TOOK PHOTOGRAPHS OF THE SCENE.

9. A PHONE NUMBER OF THE PROPERTY OWNER WAS OBTAINED VIA DISPATCH AND I TOLD HIM ABOUT THE SITUATION. I ADVISED HIM ABOUT THE VEHICLE FIRE AND THAT THE FIRE SPREAD ONTO HIS PROPERTY. HE WAS ALSO ADVISED THAT THE DIVIDE HAD TO CUT A LINK OFF OF HIS CHAIN ON PROPERTY GATE #1 TO GAIN ACCESS AND PUT OUT THE FIRE. EDWARD STATED THAT HE WOULD REPLACE

THE LOCK. THERE WAS NOT ANY DAMAGE TO EDWARD'S PROPERTY OTHER THAN BURNT GRASS THAT WENT INSIDE THE FENCE ABOUT 100 FEET.

10. VIDEO FROM PATROL UNIT AND MY BODY MY BODY WORN CAMERA WERE DOWNLOADED TO THE SERVER. THIS REPORT IS GENERATED AS INFORMATION AND REFERENCE ONLY.

11. I RECOMMEND THIS CASE BE CLOSED.

ON JULY 21, 2017 AT APPROXIMATELY 2:00 P.M., I, DEPUTY JIMMY POOLE, WENT TO HWY KERR COUNTY, TEXAS; IN REFERENCE TO A FOLLOW-UP INVESTIGATION ON A FIRE CALL. THIS IS A SUPPLEMENTAL REPORT TO THE ORIGINAL ON 07-01-2017.

I MET WITH THE PROPERTY OWNERS/COMPLAINANTS, AND BOTH AND OWN THE PROPERTY AT HWY WHICH IS APPROXIMATELY 100 ACRES.

UPON ARRIVAL, I OBSERVED A LARGE AREA ALONG SIDE HIGHWAY TO HAVE BEEN BURNED FOR ABOUT 225 FEET. THERE IS ALSO A LARGE PLACE ON HWY ITSELF WHERE THE ASPHALT WAS SEVERELY DAMAGED BY THE AUTOMOBILE FIRE THAT OCCURRED ON 07-01-2017.

I PHOTOGRAPHED THE DAMAGED PORTION OF THE FENCE, WHICH MEASURED ABOUT 210 FEET. THIS IS A GAME FENCE ABOUT 10 FEET TALL. THE DAMAGED PORTION WAS BURNED, CAUSING THE LARGE SUPPORT POSTS AND SMALLER POSTS BETWEEN THE LARGER ONES, TO BE DAMAGED TO THE POINT THAT THEY WILL NEED TO BE REPLACED TO MAINTAIN THE INTEGRITY OF THE FENCE.

I THEN WENT INSIDE THE PROPERTY AND CHECKED THE BURNED AREA WHICH WAS APPROXIMATELY 300 FEET WIDE AND APPROXIMATELY 600 FEET DEEP INTO THE PROPERTY NORTH OF HWY

ADVISED THAT DURING THE TIME THE GATES WERE OPEN AND THE FIRE CREWS WERE ON THE PROPERTY, TWO RHEA BIRDS ESCAPED THROUGH GATE #1 OF THE PROPERTY, EVIDENTLY ONTO HWY AND THEN WENT EAST TO THE ADJOINING PROPERTY. I TRAVELLED THE FENCELINE BETWEEN THE TWO PROPERTIES AND COULD NOT LOCATE ANY WAY FOR THE BIRDS TO ESCAPE THROUGH THE FENCE. LOCATED THE BIRDS ON THE RANCH PROPERTY ADJOINING HIS PROPERTY ON THE EAST SIDE. HE IS UNABLE TO GET THE BIRDS BACK WITHOUT THE ASSISTANCE OF A PROFESSIONAL TRAPPER TO CAPTURE THE BIRDS AND RETURN THEM TO HIS PROPERTY.

DOES NOT HAVE A COST ESTIMATE ON THE FENCE REPAIR AT THE TIME OF THIS SUPPLEMENT REPORT. SOVA DID TELL ME THAT THE VALUE OF THE TWO RHEA BIRDS IS \$600 FOR THE PAIR. THAT WAS HIS COST WHEN HE PURCHASED THE BIRDS.

ATTACHED TO AND MADE A PART OF THIS CASE REPORT ARE PHOTOGRAPHS TITLED "FIRE DAMAGE", DATE 07-24-2017.

THIS IS A SUPPLEMENTAL INFORMATION REPORT.

Re: Notice of Claim

Dear Mr. Yoon:

Please take notice that, on July 17, 2017, a 2016 Kia Sorento SD spontaneously caught fire. The subject vehicle was owned by [REDACTED] and insured by American Farmers and Ranchers Mutual Insurance Company. A preliminary investigation suggests the fire originated in the rear storage area, possibly due to faulty wiring in a light.

We would like to conduct a more-thorough investigation and examination of the vehicle. Our consultant is available sporadically through September and October. If Kia is interested in participating, please have your consultant contact me so that we can coordinate a mutually-convenient date.

Please have an associate contact me as soon as possible. I look forward to working with you toward a prompt resolution of this matter.

I. Agreement

The Customer/Retail Buyer ("You", "Your") and the Issuing Dealer ("Dealer") named above agree to amend the provisions of the Financial Agreement described above as follows:

- A. In the event Your Vehicle is declared a total loss by Your insurance company providing automobile physical damage coverage ("Insurer") as a result of theft or damage, the Dealer agrees to waive the difference between the Outstanding Balance (as defined in I.A.1. below) and the Insurer's Payment (as defined in I.A.2. below):
 1. The Outstanding Balance shall mean the amount owed under Your Financial Agreement on the date of loss, LESS any:
 - a. late fees, unearned finance or service charges, disposal and repossession fees, or refundable prepaid taxes and fees;
 - b. past due payments exceeding fifteen (15) days past payment due date or unpaid balances due to extensions of maturity;
 - c. unearned amounts from optional insurance or service contracts;
 - d. amounts owed under the Financial Agreement for optional equipment or vehicle modifications that are not insured, in proportion to the purchase price of Your Vehicle and the optional equipment or vehicle modification; and
 - e. amounts owed under the Financial Agreement that result from exceeding the Maximum Eligibility Limit stated above, in proportion to the amount that exceeds the stated limit.
 2. The Insurer's Payment shall mean the settlement You receive from Your Insurer based on the actual cash value of Your Vehicle, PLUS any:
 - a. deductible amount under Your automobile physical damage coverage in excess of the maximum deductible amount;
 - b. deductions from the Insurer's settlement due to wear and tear, prior damage, and other condition adjustments;
 - c. deductions for unpaid insurance premiums;
 - d. deductions for salvage, towing and storage; and
 - e. payments made from insurance companies and others on account of their liability for loss to Your Vehicle.
- B. If Your Vehicle did not have applicable automobile physical damage insurance coverage in effect at the time of loss and there is no Insurer's Payment, the Program Administrator will (i) determine whether Your Vehicle is a total loss based on insurance industry standards and (ii) if Your Vehicle is a total loss, determine the amount to be waived under I.A. as if there were an Insurer's Payment for the loss equal to the actual cash value of Your Vehicle at the time of loss based on insurance industry standards.

VALUATION METHODOLOGY

How was the valuation determined?

CLAIM INSPECTION

NATIONWIDE ENTERPRISE has provided CCC with the zip code where the loss vehicle is garaged, loss vehicle VIN, mileage, equipment, as well as loss vehicle condition, which is used to assist in determining the value of the loss vehicle.

DATABASE REVIEW

CCC maintains an extensive database of vehicles that currently are or recently were available for sale in the U.S. This database includes vehicles that CCC employees have physically inspected, as well as vehicles advertised for sale by dealerships or private parties. All of these sources are updated regularly.

SEARCH FOR COMPARABLES

When a valuation is created the database is searched and comparable vehicles in the area are selected. The zip code where the loss vehicle is garaged determines the starting point for the search. Comparable vehicles are similar to the loss vehicle based on relevant factors.

CALCULATE BASE VEHICLE VALUE

Adjustments to the price of the selected comparable vehicles are made to reflect differences in vehicle attributes, including mileage and options. Dollar adjustments are based upon market research.

Finally, the Base Vehicle Value is the weighted average of the adjusted values of the comparable vehicles based on the following factors:

- Source of the data (such as inspected versus advertised)
- Similarity (such as equipment, mileage, and year)
- Proximity to the loss vehicle's primary garage location
- Recency of information

VEHICLE HISTORY SUMMARY

Experian AutoCheck	No Title Problem Found
National Highway Traffic Safety Administration	5 Recalls

Vehicles sold in the United States are required to have a manufacturer assigned Vehicle Identification Number(VIN). This number provides certain specifications of the vehicle.

Please review the information in the Vehicle Information Section to confirm the reported mileage and to verify that the information accurately reflects the options, additional equipment or other aspects of the loss vehicle that may impact the value.

Allowances are factors influencing the value of the loss vehicle when compared to a typical vehicle. The typical vehicle is a vehicle of the same year, make, and model as the loss vehicle, including average mileage, and all standard equipment. These allowances are displayed for illustrative purposes only.

The Base Vehicle Value is calculated from the comparable vehicles with adjustments to reflect the loss vehicle configuration

The guidelines describe physical characteristics for these key components, for the condition selected based upon age. Inspection Notes reflect observations from the appraiser regarding the loss vehicle's condition.

CCC makes dollar adjustments that reflect the impact the reported condition has on the value of the loss vehicle as compared to Average Private condition. These dollar adjustments are based upon interviews with dealerships across the United States.

Dear Mr. Opalenik:

The fire scene study was conducted utilizing recognized and accepted procedures and practices for fire investigations as outlined in the National Fire Protection Association (NFPA) 921, *Guide for Fire and Explosion Investigations*, 2017 edition. The study progressed with an examination of the exterior and interior of the vehicle. Heat levels and smoke damage throughout the vehicle were compared, and fire movement and intensity patterns throughout the vehicle were analyzed. Digital imagery, diagrams, and notes were used as necessary to document observations. Evidence of fire initiation and development, heat transfer indicators, ventilation effects, relevant physical evidence, and the statements of witnesses were utilized to establish the area of fire origin.

For purposes of this report, the driver's side of the vehicle is considered the left and the hood the front. The vehicle is a red 2016 Kia Sorento with a gasoline

engine and automatic transmission. The vehicle identification number is 5XYPG4A35GG[REDACTED]. At the time of this study, the vehicle's odometer could not be read due to level of destruction.

[REDACTED] said he and his wife purchased the vehicle new in 2016. He reports no repairs to the vehicle and no aftermarket items installed. The only issue reported was, about two weeks prior to the fire, he smelled an odor of burning rubber but never witnessed any smoke or warning lights. He took it to a local dealer and nothing was found to be wrong. On the day of the incident, he was checking on his mother's house. He left the vehicle's engine running while parked in the driveway. He was only away from the vehicle for about four minutes, and when he returned, he saw smoke venting at the center lower level of the windshield. He notified the Kennett Fire Department, which then responded. He said before the fire department arrived, the windshield had collapsed, and the interior was engulfed with flames. The vehicle operated normally, with no warning lights, on the day of the incident.

The study began at the front of the vehicle and continued in a clockwise direction. The windshield had collapsed to the interior, and the right and left exterior sides display fire damage at the windows. The roof sustained severe fire damage. The engine compartment sustained no fire damage (Figure 1).

Figure 1: Front of Vehicle

The interior exhibits severe fire damage, with progressively greater fire damage to the center section of the dashboard. Fire patterns indicate the fire progressed from the base of the dashboard, at the area of the center console. The fire progressed in an upward and outward direction. The center base of the dashboard at the console is the area of fire origin (Figure 2).

Figure 2: The Dashboard

Debris was excavated from the console and lower dashboard. A study of the remains of the touch screen radio revealed no sign of fire-initiating failure. The air conditioner control panel was severely fire damaged. Multiple electrical conductors pass along the lower level of the center console to the dashboard. A study of the conductors failed to identify a fire-initiating failure. Due to the level of destruction in the area of fire origin, the ignition source could not be identified (Figure 3). The study revealed no evidence of an intentional act to contribute to the fire

Figure 3: The Area of Fire Origin

- The vehicle type is passenger vehicle.
- The vehicle brand and model are 2016 Kia Sorento.
- The area of origin was the center base of the dashboard and center console.
- The oxidant was atmospheric air and was sufficient to support ignition and fire progression.
- The first fuel ignited was not identified.
- The ignition source was not established.
- The ignition sequence was not defined.
- The classification of the fire cause is ***Undetermined*** as defined in the attachment to this report.

This is an abbreviated report and is not intended to convey all of the facts, circumstances or data utilized to formulate the conclusions herein. Additional information will be retained in the Donan project file. This report is based on presently known and available facts, data, and information. To the extent that additional or different facts, data, or information develops or is discovered after the issuance of this report, Donan reserves the right to amend, alter, or change the report as needed to reflect consideration of said additional or different facts, data, or information.

Appendix A: NFPA 921 Fire Cause Classifications

As classified by the NFPA 921, *Guide for Fire and Explosion Investigations*, 2017 Edition, the causes of fires are classified as accidental, natural, incendiary, or undetermined. These definitions are incorporated into this report regarding the cause of the fire being studied.

Classification of the Cause¹

Determining the cause of a fire and classifying the cause of the fire are two separate processes that should not be confused with each other. Classification of a fire cause may be used for assignment of responsibility, reporting purposes, or compilation of statistics. Different jurisdictions may have alternative definitions that should be applied as required. The cause of a fire may be classified as accidental, natural, incendiary, or undetermined. Use of the term suspicious is not an accurate description for the classification of a fire cause. Suspicion refers to a level of proof, or level of certainty, and is not a classification for a fire cause. Suspicion is not an acceptable level of proof for making a determination of cause within the scope of this guide and should be avoided. Fires in which the level of certainty is possible or suspected, or in which there is only suspicion of that cause, should be classified as undetermined.

Accidental Fire Cause

Accidental fires involve all those for which the proven cause does not involve an intentional human act to ignite or spread fire into an area where the fire should not be. When the intent of the person's action cannot be determined or proven to an acceptable level of certainty, the correct classification is undetermined. In most cases, this classification will be clear, but some deliberately ignited fires can still be accidental. For example, in a legal setting, a trash fire might be spread by a sudden gust of wind. The spread of fire was accidental even though the initial fire was deliberate.

¹NFPA 921, *Guide for Fire and Explosion Investigations*, 2017 edition

Natural Fire Cause

Natural fire causes involve fires caused without direct human intervention or action, such as fires resulting from lightning, earthquake, wind, and flood.

Incendiary Fire Cause

An incendiary fire is a fire that is intentionally ignited in an area or under circumstances where and when there should not be a fire.

Undetermined Fire Cause

Whenever the cause cannot be proven to an acceptable level of certainty, the proper classification is undetermined.

- (A) Undetermined fire causes include those fires that have not yet been investigated or those that have been investigated, or are under investigation, and have insufficient information to classify further. However, the fire might still be under investigation and the cause may be determined later with the introduction or discovery of new information.
- (B) In the instance in which the investigator fails to identify the ignition source, the fire need not always be classified as undetermined. For example, if the evidence establishes one factor, such as the use of an accelerant, that evidence may be sufficient to establish an incendiary fire cause classification even where other factors, such as ignition source, cannot be identified.

**ENVIRONMENTAL COMPLIANCE
CHARGE**

Maintaining and repairing your car inevitably
involves the use of chemicals and generation
of wastes (solvents, oils caustics, lead,
asbestos, etc.) that must be stored, managed
and disposed of in strict compliance with
federal, state and local environmental
regulations. We support these regulations and
also believe our customers do too because
they help ensure a safer, healthier
environment for everyone. Complying with
these regulations increase the cost of service.
Ordinarily, increase costs simply result in an
increased hourly labor charge. This dealership
has decided in lieu of raising its labor rate, to
list a compliance charge on appropriate
service bills because we believe our
customers would be interested to know they
are helping to pay for a cleaner environment.
