Customer's Description of Complaint

Airbag light was on earlier

Technician's Findings and Repair

Vehicle had come in several months ago for the code B1650. Dealer ordered the seat bottom assembly but it has been on backorder. Vehicle came back in today and the last code was set at 874 key cycles and the current key cycle is 1185. That means the code has not reset in 311 key cycles. Informed dealer to clear the code and return the vehicle to the customer and not replace the seat bottom.
