RETURN RECEIPT REQUESTED

Mr. Thomas McCarthy,
Head, Vehicle Safety Compliance
Fiat Chrysler Automobile US LLC
800 Chrysler Drive
CIMS 482-00-83
Auburn Hills, MI 48326

NEF-102tc
PE20-012

Dear Mr. McCarthy:

This letter is to inform you that the Office of Defects Investigation (ODI) of the National Highway Traffic Safety Administration (NHTSA) has opened Preliminary Evaluation (PE) 20-012 to investigate allegations of interior fires occurring at the “charge hub,” an electrical device located on a trim panel at the driver side between the 2nd and 3rd row seats in model year (MY) 2014 Chrysler Town and Country minivans manufactured by Fiat Chrysler Automobiles (FCA), and to request certain information.

This office has identified a total of 5 reports of interior fires allegedly originating at or near the charge hub and leading to an interior fire, four of which are Vehicle Owner Questionnaires (VOQs) filed with NHTSA. One report involves a MY 2013 Town and Country, and three reports involve MY 2014 Town and Country, and one (an EWR field report) involves a MY 2015 Town and Country. ODI understands these vehicles share a common platform (a variant of the RT platform) that commenced production at MY 2013 and continues through current production. Accordingly, this letter is scoped to include MY 2013 through current production RT minivans. The VOQ reports identified by ODI are referenced below for your information, electronic copies of each will be sent for your review.

Unless otherwise stated in the text, the following definitions apply to these information requests:

- **Subject vehicles:** all MY 2013 through current production Chrysler Town and Country, and Dodge Grand Caravan (i.e., RT platform) minivans manufactured for sale or lease in the United States, including, but not limited to, the District of Columbia, and current U.S. territories and possessions.
- **Subject component:** the “charge hub”, an electrical device mounted at the trim panel in the left (driver’s) side of the vehicle located between the second and third row seating.

- **FCA:** Fiat Chrysler Automobiles LLC, all of its past and present officers and employees, whether assigned to its principal offices or any of its field or other locations, including all of its divisions, subsidiaries (whether or not incorporated) and affiliated enterprises and all of their headquarters, regional, zone and other offices and their employees, and all agents, contractors, consultants, attorneys and law firms and other persons engaged directly or indirectly (e.g., employee of a consultant) by or under the control of FCA (including all business units and persons previously referred to), who are or, in or after 2008, were involved in any way with any of the following related to the alleged defect in the subject vehicles:
 - a. Design, engineering, analysis, modification or production (e.g. quality control);

include any drafts or revisions pertaining to any of the foregoing, all other things similar to any of the foregoing, however denominated by FCA, any other data compilations from which information can be obtained, translated if necessary, into a usable form and any other documents. For purposes of this request, any document which contains any note, comment, addition, deletion, insertion, annotation, or otherwise comprises a non-identical copy of another document shall be treated as a separate document subject to production. In all cases where original and any non-identical copies are not available, "document(s)" also means any identical copies of the original and all non-identical copies thereof. Any document, record, graph, chart, film or photograph originally produced in color must be provided in color. Furnish all documents whether verified by FCA or not. In order for my staff to evaluate the alleged defect, certain information is required. Pursuant to 49 U.S.C. § 30166, please provide numbered responses to the following information requests. Insofar as FCA has previously provided a document to ODI, FCA may produce it again or identify the document, the document submission to ODI in which it was included and the precise location in that submission where the document is located. When documents are produced, the documents shall be produced in an identified, organized manner that corresponds with the organization of this information request letter (including all individual requests and subparts). When documents are produced and the documents would not, standing alone, be self-explanatory, the production of documents shall be supplemented and accompanied by explanation.

Please repeat the applicable request verbatim above each response. After FCA's response to each request, identify the source of the information and indicate the last date the information was gathered.

1. State, by model and model year, the number of subject vehicles containing the subject component that FCA has manufactured for sale or lease in the United States. Separately, for each subject vehicle manufactured to date by FCA, state the following:
 - a. Vehicle identification number (VIN);
 - b. Make;
 - c. Model;
 - d. Model Year;
 - e. Subject component part number and design version installed as original equipment;
 - f. Date of manufacture;

 - i) If so, provide the origin;
- q. Whether FCA has determined the cause of the fire;
 - i) If so, provide the cause of the fire;
- r. Whether a fire department responded;
- s. Whether a fire report was filed;
- t. Whether property damage (other than the vehicle itself), including damage to a physical structure (house, building, parking garage, etc.) is alleged;
- u. Number of alleged injuries, if any; and
- v. Number of alleged fatalities, if any.

Provide this information in Microsoft Access 2010, or a compatible format, entitled "REQUEST NUMBER TWO DATA."

- m. Correction as stated on the repair order; and
- n. Additional comments, if any, by dealer/technician relating to claim and/or repair.

Provide this information in Microsoft Access 2010, or a compatible format, entitled “WARRANTY DATA.”

6. Describe in detail the search methods and search criteria used by FCA to identify the claims in response to Request No. 5, including the labor operations, problem codes, diagnostic trouble codes, part numbers and any other pertinent parameters used.

Provide a list of all labor operations, labor operation descriptions, problem codes, and problem code descriptions, diagnostic trouble codes and diagnostic trouble code descriptions applicable to the alleged defect in the subject vehicles. State whether the diagnostic trouble codes are automatically reported to the warranty database electronically or manually entered into the warranty database by a claims administrator.
