tech 1100 removed transmission and clutch assembly and flywheel, inspected the flywheel and found that it did not meet the reuse guidelines, installed new fly wheel and clutch assembly and clutch control valve had to order new clutch mounting bolts because three were stripped and one was not there

tech 7525 tapped holes in flywheel and installed new bolts and installed clutch then removed clutch cylinder and replaced and reinstalled transmission and filled transmission and test drove truck and found truck had same issues contacted e-service and then they had us do a front and rear brake contact test and truck passed contacted e-service and attached file to show truck passed e-service then said the were going to send dsm to see if something had been missed
