result

Service Campaign 953

Engine Monitoring Logic Product Improvement
TSB 20-01-006H

Technician will reflash with GDS

“Hyundai has developed new engine monitoring
technology that uses software innovations and existing
sensors to proactively monitor engine performance.”

Explain to the Customer at Delivery

“If an abnormality is detected, the vehicle is put into ‘engine
protection mode’ to prevent further engine wear. The check
engine light will illuminate, an audible chime will sound and
the vehicle speed will be limited to 65 mph or less.”

If an abnormality is detected, such as unusual
engine noise, or if Diagnostic Trouble Code
P1326 is set after update – Go to T3G.

TXXC

Warranty Extension
TSB 19-01-005H-1

“The warranty coverage
for the long block has been
extended to 10 years or
120K miles for original and
subsequent owners.”
