09/28/2018	OB to Customer: Informed that I will keep checking on case until vehicle is at the DLR and have been diagnosed. But at this time the case will be closed for now and I will receive a call back once appointment date starts to near and vehicle has a diagnosis. Thanked, and branded.
10/11/2018	The customer called this evening stating that she would like to speak the case owner on this case. Agent informed the customer that the owner of the case is not currently available, and at this time, the agent will have to notate the customer's call. Customer states that she had been waiting for a long time for the person to case owner to call her back, but she had never gotten a call back and is upset by it.
10/11/2018	Customer has been calling as he has not heard from his CM. Case was closed. Agent reopened case and reassigned to level 2
10/11/2018	Customer can be reached at between 8 am and 4 pm HST
10/11/2018	Vehicle is at the DLR 45472 since since Monday Oct. 8. Vehicle has been diagnosed and repaired. The DLR wants $200 for a co-pay (writer thinks) and $160 for the diagnosis before they will release the vehicle.
10/12/2018	DLR called me for more information on what we told the customer because the customer is saying they don't have to pay for anything even though the DLR's area manager has authorized a co-pay for $200. agent*** Informed customer and DLR that the case was re-escalated to a CM and that Dorothy will give the customer a call back tomorrow, Please call customer back As Soon As Possible.

10/05/2018	Jody-Customer Service Rep: Service Bill / Warra[redacted]ched a copy of the service bill that I am not satisfied with. My vehicle is a 2016 Dodge Grand Caravan with the[redacted]When the vehicle had less than 36,000 miles, I noticed the passenger side sliding door would not lock. (I never noticed, but I would guess it probably had that malfunction for quite some time.) Since my[redacted]cannot get in a regular vehicle, I needed to use the van for a couple days for her appointments before I could leave it at the dealership for repair. During those few days, the odo went a little over 36,000. When picking up the repaired vehicle, which by the way I was not at all happy that it took four days to repair, I was given the following explanation of the bill. 1) The part cost of approximately $600 was covered under warranty, and does not show up on the bill. I appreciated that. 2) The labor of $633 was not covered under warranty. Though not itemized on the bill, I was told that a[redacted]van would have incurred a labor cost of approximately $300 to repair the latch/lock. The remaining approximately $300 of the $633 was due to the necessity to remove the door since[redacted]was in the way. I was told Chrysler does not cover warranty costs associated with the[redacted]I can understand that. Therefore, my contention is that since the malfunction actually occurred before 36,000 miles, the standard[redacted]related labor costs should be covered under warranty. In other words, I should only have to pay half of the $633, not for both "$300" charges. I hope you agree. Vehicle Time at Dealership As I mentioned above, I was not happy my vehicle was at the dealership for the better part of four days. I have never in [redacted]ears had to leave a vehicle at a dealership for that long. Also, this was not an especially major repair. The suggestion I made to a couple people at the dealership was to implement a system where you take the vehicle in, get written up, get in the cue, and if the dealership knows they cannot get to your vehicle for a couple days (which they did), you drive the vehicle back home. Then they call with sufficient lead time (half a day?) for you to bring the vehicle back in to allow for the dealership needing the vehicle sooner than expected. They could tell you upfront that if you are not back when they say, you lose your spot in line. I could accept that. I was given a lot of excuses how this form of "appointment" would never work at a dealership. My impression is the dealership just does not want to bother with that extra scheduling task. This reminds me of the old days when most doctors did not care at all about your waiting room time; fortunately things have changed at a lot of doctor's offices. Time for the dealership to be more customer friendly. Thank you,[redacted]*****END OF CUSTOMERS EMAIL*******

10/02/2018	Dear [redacted] Thank you for contacting the FCA Customer Assistance Center. I am very disheartened to hear that you have been experiencing the issue with the sliding door actuators on your 2016 Town & Country, and I appreciate you bringing this to our attention. I understand that you are concerned with safety, and I want to reassure you that we take your comments seriously. Although an extended warranty or recall does not apply for the issue at this current time, should one be issued in the future you will be able to seek reimbursement consideration. Thank you again for your email [redacted] Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753. 10/03/2018	Customer stated they went in to get an oil change and to have the repair an issue with the remote key fob lock and lock on the passenger side door. DLR advised they ordered the part and would be covered under there SC but when SA explain they would repair this they might damage the molding on the panel and the customer would be responsible for paying for that part since its not warranted. Customer stated if they damage that part it should be the DLR responsibility to cover it. Agent advised we will contact the DLR request to speak to the SM to have that part covered under DGAP. SM Chris stated they would cover the molding if its damaged. Customer SA is Andre.

Dear [redacted]

Thank you for contacting the Dodge Customer Assistance Center and for letting us know about the problem you are having with your sliding door.

I can understand why you have reached out to us and I will certainly do my best to help you. When I researched this for you on our end [redacted] could see no reason why it would be happening. With our vehicles we have a basic warranty applied to them for 3 years or 36,000 miles, which is what this repair would fall under. The mileage you stated the vehicle is at is 44,000 so that would put it outside of our coverage.

With that being said we could possibly look to see if we can help in this at all. When were you last at the dealership?

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-992-1997.

Good morning,

I have ready many cases on line where the exact same thing is happening to others. Without warning the power sliding door will not unlock or open. If there were an accident, the passengers would be trapped in the vehicle.

I had this repaired at the dealer costing me $1257.12. This is an expensive repair for a vehicle that is only 1 1/2 years old I have also filed a a safety complaint with the Govt.

Dear [redacted]

Thank you for your patience while I looked into this for you. I was able to speak with the dealership about this repair and their diagnosis. They advised me that this was a wear and tear repair from the use of the door. They told me it was looked at for warranty but the vehicle is outside of the Basic warranty period. As the repair has been completed there would not be much I could to help in this case. What I would advise is in the future if you are having concerns you think we can help with to contact us here. We can then look at having a case manager help.

Thank you again for letting us look into this for you.

Good morning,

I will continue to pursue this with the complaint I filed with the highway department.

In essence, your position(Chrysler/Dodge) is that there is no perceived safety issue with what appears to be a functioning door just locking itself for no reason to the extent that it can not be unlocked or opened from inside or outside of the vehicle. This could potentially leave passengers unable to exit the vehicle if an accident were to occur.

I do not know how this is supposed to make me feel safe transporting my family in a vehicle that has the potential to trap them at any time with no indication of component failure.

I appreciate you are more worried about warranty costs etc. I get that.

At least I have all of these emails as records.

Driver side sliding door grinding

Case Comments

Date	Comment
10/09/2018	Customer called in because heâ€™s requesting to have a Dodge rep, come out to take a look at his vehicle. Customer stated that when he spoke with his SA Dana, she stated that she could hear the noise, but they couldnâ€™t understand why the tech couldnâ€™t hear it. He stated that the dealership provided him with our number for further assistance. He stated that prior he had an issue with his transmission that was intermittent, but the issue with the driver side sliding door is constant. Customer stated that it sounds like a grinding noise. I did ask the customer if his vehicle was still currently at the dealership or if he had it. Customer stated that he picked his vehicle up last night 10/8/2018. I did contact the dealership to speak with SA Dana, but received a VM. I did leave a message for her to give us a call back with any further information.
10/11/2018	Cm spoke to customer who has the vehicle and it is repaired. Customer is grateful winter haven repaired it with no issue.

10/11/2018	CM called DLR, LVM
10/11/2018	CM called she says service is waiting to hear from Chrysler about her repair. The customer entire family has Dodge vehicles this is her fourth dodge vehicle. CM thanked customer for been a loyal customer. CM advised I will be in touch to see what type of goodwill I can provide for her.
10/11/2018	CM called DLR, spoke with SA Dan F.> Dan said service tried replacing the engine coil but that didn't work. The vehicle has a misfired cylinder and they need to replace the cylinder head. Also they door noise is because of the actuator which is not covered under warranty. CM requested the warranty price so I can possibility to provide some type of goodwill. SA Dan says he will check to see if he can get the actuator covered since the customer is just out of basic warranty
10/11/2018	CM called customer to provide an update, that her vehicle needs a cylinder head & door needs a actuator . CM advise I will contact her with any new updates
10/16/2018	CM called DLR, they are finishing up today. They are currently doing a oil change
10/19/2018	CM called Service, vehicle completed. The customer just pick-up vehicle
10/19/2018	CM called Customer @ she says her vehicle is driving wonderful. She wanted to thank me so much because service found the issue and repair her vehicle.

Chat Started: Sunday, October 14, 2018, 17:12:52 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Brandi (30s) Brandi: Hi, my name is Brandi with FCA Customer Care, How may I help you? (43s) Visitor: In May of this year the right passenger sliding door lock seized up and would no longer lock, either electronically or manually. I expected about a $300 bill to get this fixed at my local dealer (Hill-Kelly DCJR), but apparently the solenoid is only sold as an assembly only and the repair ended up costing over $1,000, for a LOCK!!! Now 5 months later the left passenger sliding door is seized in the locked position. Because of the mileage the warranty wont cover it. There is no way in hell I'm going to pay another $1,000 for the repair of a second DEFECTIVE mechanism. This Grand Caravan is only 2 years old! I am requesting that an exception be made for this repair to be covered under warranty. Besides this vehicle I own a Ram 1500 crew cab, a Jeep Compass and a Plymouth Roadrunner. I have been very loyal to the Mopar brand. The poor quality of power locks in the 2016 Grand Caravan is not acceptable! To make matters worse, for the last several days when I go to the FCA Customer Care page and take time to fill out this form and then attempt to submit it I get the error, System is currently unavailable. Please try again later. and then have to completely redo the entire document. If this is how FCA cares about customers, you will drive me away from the FCA brand! (3m 52s) Brandi: I am so sorry to hear you have been having issues with the locks on the sliding door[redacted] can certainly see how this can be frustrating! I can certainly look into this for you. is [redacted] correct for your VIN? (4m 4s) Visitor: yes (4m 59s) Brandi: Thank you, May i verify your address on file? also may i have the mileage of the vehicle? (5m 49s) Visitor: [redacted] Pace, FL[redacted] The current mileage is 47,300 (7m 10s) Brandi: Thank you very much [redacted] When were you last at Hill-Kelly DCJR? (7m 51s) Visitor: For the Caravan it was around May 15 of this year (14m 22s) Visitor: Are you still there??? (14m 57s) Brandi: Yes sorry! i was typing a long paragraph. sorry [redacted] 15m 27s) Brandi: Thank you! i do see here your basic warranty has expired by the odometer. This warranty is for either 3 years or 36000 miles. You are not to far past in mileage and you are not past in time. We can look into escalating a case to our case management team to look into cost assistance 2 years and 24000 miles past the warranty expiring, however you would need to have an appointment with the dealer for this issue. your case number is [redacted] for refference. (16m 2s) Brandi: after you have the appointment please contact us back and we can escalate a case to look into cost assistance for you [redacted] 17m 16s) Visitor: So do I give the reference number to Hill-Kelly service? (19m 8s) Brandi: No, it is a case number with us where i would have this chat documented so when you contact us back you don't have to re explain everything the next agent can read my case and create a new one to send up for you once you have the appointment. (20m 15s) Visitor: Ok, so I make an appointment to have the lock actuator assembly replaced and then FCA might help??? (22m 0s) Brandi: you can make the appointment for a diagnosis with the dealer. When you contact us back, it is a 1 business day call back after escalation. They will contact the dealer and contact you and look into cost assistance. (24m 16s) Visitor: So I have to pay them to tell me that my actuator is bad, then hold off on the repair until I hear back from FCA? (26m 59s) Brandi: Let us know when you set the appointment and we will escalate a case, You will hear from the case manager 1 day after escalation. It could be before your appointment. (29m 13s) Visitor: That makes more sense. So best to schedule the appointment about a week out so that the case manager has time to get involved is what I am understanding (30m 38s) Brandi: as long as the appointment is within two weeks from escalation not a problem. once you contact us and we send up a case the case manager will reach out to you the next business day. Was there anything else i could do for you today [redacted] 31m 16s) Visitor: Pretty sure that answers my questions. Thank you (31m 34s) Brandi: Thank you for chatting in! i do hope you have a good night.

Customer states the rear door lock isn't working correctly with their FOB.

Case Comments

Date	Comment
10/15/2018	Customer states they had to have the rear passenger side door lock repaired and they had to pay for the repair out of pocket due to the vehicle being 'out of warranty'. (vehicle is outside of basic warranty by mileage) Customer states they paid about $200 to have the repair completed. Agent advised customer due to them already paying for the repair, they could submit their documentation to us for REIMBURSEMENT CONSIDERATION. Agent advised customer we would get in contact with them if we need any additional information.

Dashboard lights and A/C turns itself on with a digital readout

Case Comments

Date	Comment
10/15/2018	Briefly summarize why the customer is contacting Chrysler: Customer is experiencing concerns with the vehicle. When the windshield wipers are turned on, the dashboard lights dim out, the passenger rear door does not lock, and the A/C turns itself on if the vehicle goes over a bump. Agent is reaching out to Champion DLR for feedback. Agent spoke to SA - Jason who is doing a road test this evening. So, far the dealership has not been able to duplicate the issue with the A/C and has been on a test drive. Dealer Advised that they have gone through the settings for the auto-dimming in hopes this is will satisfy the dashboard issue. Door latch has been replaced. DLR will be reaching out to customer tomorrow for an update.

Initial Description

.Last month, customer had to replace the door lock actuator for $1,044. Yesterday, the other side locked up and now they are going to be forced to pay another $1,044. Agent advised customer that there is a service bulletin on the hinges of the doors so if they diagnose it to be that issue then they might have the cost covered. Agent advised customer to get diagnosis from an FCA approved DLR and then call in for case escalation for cost assistance.

Initial Description

In August, the middle door on the driver's side locked up on me, and we could not even open the sliding door. I carried it to the people who work on our vehicles, and he told me it was the door lock actuator. They fixed it, but it cost me $ 1044. Now, the right side has locked up and I am being told from the same auto car care center that it also needs a new door lock actuator.

Hello [redacted]
Thank you for contacting Chrysler Customer Care and for letting us know about the door lock actuator. I can understand why you have reached out to us and I will certainly do my best to help you. It looks like the basic warranty has just recently expired due to mileage, but I would look into seeing if we are able to provide assistance. Have you been to a dealership yet? If so, which one and when?

Also it looks like we aren't showing you as the owner yet, I will send a second email for you to attach the registration or bill of sale so we are able to update the ownership.
Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at (800) 247-9753.
Thank you again for your emai[redacted] Have a great day!

Hello [redacted]
After reviewing the case it would be best to have a Chrysler dealership diagnose the vehicle so we can find out why the door actuator has failed. Once a diagnosis is complete we can look into seeing if we are able to provide some assistance. If you need assistance in the future or ever have any questions, don't hesitate to reach out to us.

Initial Description

Over the summer the passenger slider door stopped working. I took it in and it was something with the lock. Yesterday, the driver side slider door stopped working, my guess is that it is the same issue. This car is just over 2 years old and to have this happen 2x's seems to be a bit much. Not sure if it is a design flaw but I"m sure not happy I have to take it BACK in to get the other side fixed.

Good day

I appreciate you taking the time to express your concerns as well as your gratitude. It was very nice to speak with you today. I am happy that all is well for you. As we discussed, now that your vehicle concerns are resolved I will be closing your file with us.
Your Case Number is:
The Chrysler Case Management telephone number is: 1-844-827-2003
My direct extension: 3020172
I know i mentioned this. but so there are no surprises. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Dodge customer.
If you have any questions or difficulties in the future with your vehicle, please do not hesitate to give us a call, we would be more than happy to work with you again.
I want to thank you again for allowing me the opportunity to work with you Christine, it has been a pleasure and I wish you all the best.

Sincerely,
Xandria

Initial Description

The customer reported that the door behind the drivers side has a broken latch and the door will not open. The vehicles basic warranty has recently expired and the vehicle was diagnosed on 10/25/2018. The customer authorized the installation of the replacement latch at the Columbia Chrysler dealership (Phones #: (931) 380-0800) to ultimately remedy the issue with the door. The customers service advisor is Marc and the replacement latch will be installed on 10/29/2018.
The customer ultimately seeks to attain FCA cost assistance to cover the costs associated with the installation of the replacement latch.
The customer likely qualifies for goodwill cost assistance to cover the pending vehicle repair since the customer is the original owner of this vehicle, the customer has previous vehicle purchase history (has purchase 4-5 FCA vehicles according to his account), and the vehicle is seemingly a commercial vehicle (non-fleet vehicle).
Customer expects a call back within 1-2 business days from a case manager.
Tier 2:

Hello Austin,

I am emailing you on customer [redacted] 2016 Chrysler town & Country Touring with the both sliding doors not working . You provided the repair for both door will be $850.00 a piece plus tax. I asked if the dealer could assist the customer with any Goodwill to repair even if it is not all the cost.

You advised agent to email you and you will check the customer service history and etc., and get back to agent.

Case [redacted]

Please advise

01/04/2019	Customer calling to speak to her case manager. Agent transferred customer to 214-583-2154
01/04/2019	Called the customer, [redacted] She says that the car keeps going back for the clicking sound. She is afraid to drive it with [redacted] children. Besides the clicking noise, the shift from 1st-2nd is rough. She has had a tech drive with her on 2 occasions. The vehicle is at Putnam now. She wants a replacement or the vehicle fixed right. I advised that I was contacting the DLRs to get the documentation to see if it justifies a replacement or what else I can do. Follow up 1/11
01/10/2019	SA David called in about rental and repairs that were done to vehicle Diagnostics 4.6 hrs $869.03 rental for 20 days $700.00. could not enter dm notes as I'm not the current owner of case.
01/11/2019	Returned call from DLR 60435. Spoke to David. He says that he was working with customer care and they had promised to pay for the diagnostic fees and the rental. I told him I would go ahead and cover them based on the notes on customer care. There are notes on 12/6 in sales force that CAC would cover the additional repairs since it was just outside the basic coverage. The customer was coming in on 12/11/18. Notes on 12/14 offered to pay 782.65 which were half the cost of the latch. The customer declined that repair. The breakdown is 4.6 hours of diagnostics for 869.03. Rental for 20 days at 35.00 a day 700.00 Per STAR the clicking noise that the customer is complaining about is normal.
01/11/2019	Returned the customer. I advised that I had just talked to the DLR today. She says that she was told that they could pick it up. She wants to know how soon she will get her replacement. I advised that I was still working on a resolution and I would contact her next week. Follow up 1/18
01/18/2019	Returned VM from the customer. I advised that based on her work history and the fact that the DLR says the clicking noise is normal, we wont be offering a replacement to her. I am paying the good will to the DLR that was promised for repairs and rental for the amount of 1569.03 though. She says that shes going to see her lawyer. The customer then got her husband on the phone. I advised that the last time that they were in the DLR told me that the clicking is normal so it wont warrant any other action other than the goodwill payment to the DLR that we had promised for the last visit.
01/18/2019	Sent an email to the DLR requesting the Ro and the rental agreement to reimburse them.
01/22/2019	Called DLR 60435. Darlene says the vehicle is ready and she thinks it was picked up but she wasnt sure.
01/24/2019	Called DLR 60435. David will send me the RO and the rental so I can pay my part.
01/24/2019	Received VM from the customer. He would like copies of his ROs for his attorney.
02/26/2019	Called DLR 60435. LVM with David requesting ro [redacted] and the rental agreement so I can reimburse the DLR.
02/28/2019	Received email from the DLR telling me that he would send the requested ROS again.

03/25/2019	Customer stated since about last September there has been a problem with the vehicle shaking about 40 mph. He said when it is idle it feels like its going to stall. He said all of that was handled and it was just making a clicking noise. They told him they could not do anything about the clicking noise. He said the vehicle has been in the shop 7 times for the same issue and it is doing the same thing. He said the check engine light came on briefly and went off. He first took it to the Lithia dealership he purchased it from 3 different times and they repaired 3 different things. He felt they didn't know what they were doing so brought it to the Putnam dealership. He said they were able to get the stalling feeling to stop but could not get the clicking to stop. He said now the issues are back. He stated he had a case manager but they determined they couldn't help with the noise so stopped taking customer phone calls and wouln't call him back. He said the car isn't drivable. He is pulled over on the side of the road. Advised customer of roadside assistance and contacted them via: 800-521-2779. Customer wants to know when he gets there if he can get a voucher for a rental car. Advised rental would be up to the dealer. He said he would like his case manager as they were able to get this voucher the last time. Advised him of ETA of 1 business day.
03/27/2019	>>Check has been issued.
03/27/2019	Customer calling back in stating the vehicle left him and his son stranded on the freeway. Customer stated the vehicle was towed back into the dealership again. Customer stated he needs assistance urgently. Customer stated he needs his CM, or someone else from the CM team who can assist him further. Agent advised customer everything would be documented. Agent advised customer he needs to have this issue resolved ASAP. Customer stated this issue is now getting urgent since the vehicle continues to break down.

Initial Description

Customer calling because her driver's side sliding door will not open manually or automatically.
Customer took vehicle to an IRF and was told the issue was the gas tank sensor not reading correctly, making the door electronics believe the gas tank door is open when it is not.
The IRF stated it's a manufacture error and advised customer it would be covered under warranty.
Customer seeking if this repair would be covered under warranty, customer did not know mileage.
Agent informed customer as long as the vehicle is under 36,000 miles it would be covered and would need to be diagnosed and repaired at the dealership.

Hello Susan,
I thank you for the update.
Given the delay in part delivery, is there any option of expediting repair?
Thanks

I can check with Rob to see if they can expedite repair. I do not have control over that, as dealerships are independently owed. All I can do is try. Thanks, Susan

Hello Susan,
I thank you for the update.
Given the delay in part delivery, is there any option of expediting repair?
Thanks

H[redacted],
I spoke with parts at the dealership, and part should be in Monday. I'm sorry I was given misinformation. Rob advised that part was in, and vehicle would be ready on Wednesday. I will call them back Monday to check on to make sure parts have come in. Thanks, Susan

Hello Susan,
Hope you are doing great today. My apologies for not getting back to you earlier. With work load on top of business travel, it's difficult to address all items. I have reached out to Rob regarding the Tail Gate as well as to other items that have appeared once we picked up the car.
I plan to drop of the car for a full inspection once I hear back from him.
Thanks

Hello Susan,
It looks like my regular contact, Rob, has been out on Sick Leave. I schedule to Drop it off this coming Monday to review the issues I e-mailed about. Jim, the Service Agent I spoke to said that id I can have it it him first thing Monday, he should eb done by mid Tuesday. Jim informed me that there is a diagnostic fee for each of the Items I mentioned earlier.
How am I to treat this factor?
Thanks

Dealer allegedly provided incorrect warranty information to customer.

Case Comments

Date	Comment
11/16/2018	Customer would like to file a dealer complaint for incorrect warranty information provided over the phone. Customer stated that she was having vehicle issues and called, spoke to Hector who informed her that she is out of warranty. Customer needed to go to IRF for a more affordable expense and when requested dealer for vehicle documentation, found out that she still had vehicle warranty. Customer is upset that she was not informed that she had warranty and stated that if she knew, she should have taken the vehicle to the dealership for assistance.

Initial Description

We have a 2016 Town & Country. The back drivers side sliding door lock recently stopped working. It cost us $518 (not including tax) to repair. Its imperative to have a functioning lock for safety reasons. Its highly disappointing this is even an issue in a 2 year old vehicle. Its really too bad your product is so poorly made. Many hard working families purchase your products and something like a lock should not break after 2 years and cost a ridiculous amount to fix.

Hello [redacted];
Thank you for contacting Chrysler Customer Care. I am sorry to learn of the inconvenience you have experienced with the back sliding door.

FCA Group LLC is dedicated to producing a quality product and while vehicles are not put out onto the market with specific faults in mind, it is not possible to foresee when a vehicle may require additional maintenance outside of the suggested maintenance routines. We realize that a vehicle's need for repair cannot always be predicted. Within warranty parameters, FCA Group LLC will not hesitate to assume the repair costs, however [redacted] after the warranty limits have been exceeded, expenses must be accepted by the vehicle owner. The vehicle in question has exceeded the time or mileage limitations of the manufacturer's warranty. We do ask that you keep your receipts for future reference should this become a recall or extended warranty in the future.

Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at (800) 247-9753.
Thank you again for your email [redacted]. Have a great day.
Best wishes,
Jennifer

Initial Description

After this repair, I will not buy another Chrysler product and will not use a dealer for future service.
I recently (11/20/18) had the driver side rear sliding door lock assembly (lock actuator) repaired at the dealer. This car is only 2.5 years old. The way this part broke made it so we could not sufficiently lock the vehicle once it was parked. The lock actuator failed in such a way that personal safety was compromised. There appears to be a design defect in the way this product fails. We could not electronically or manually lock the vehicle. This could allow a person into the vehicle that can cause personal harm to my family in the car or property loss. Therefore this FORCED us to make this safety repair. Unfortunately, this needed to be performed at the dealer and the parts required were $250 and also labor was $100+/hour. Since this was a safety issue that needed to be repaired to keep my family safe, it is really inconvenient and a poor practice to allow vehicles on the road that can compromise personal safety.

11/21/2018	After this repair, I will not buy another Chrysler product and will not use a dealer for future service. I recently (11/20/18) had the driver side rear sliding door lock assembly (lock actuator) repaired at the dealer. This car is only 2.5 years old. The way this part broke made it so we could not sufficiently lock the vehicle once it was parked. The lock actuator failed in such a way that personal safety was compromised. Dear [redacted]

Thank you for contacting the FCA Customer Assistance Center.

I am sorry to hear that your the power sliding door locks have failed on your vehicle. I understand this can be a safety concern for your family and personal possessions in the vehicle.

FCA is dedicated to producing quality products. Our vehicles are not put out onto market with specific faults in mind. It is also not possible to predict when a component will fail in the vehicle.

I do apologize this has been an inconvenient for you. I do appreciate you reaching out in regards to this concern. I will request that you keep all your receipts and repair orders from this repair in the event a recall or an extended warranty is released.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753.

Sincerely,

Lauren

11/21/2018	Customer is experiencing an issue where both doors went out where they do not unlock or open auto or manually. as per the dealer the latches have gone out and the est cost of repair is 2070.00 Agent feels its in the best interest for dodge to consider goodwill as this is a safety concern the customer has children that have resorted to climbing in and out over the passenger seat to use the back seat. Vehicle is not very old (2016). Customer is begging for assistance from Dodge for this repair due to hardship and holiday times causing a financial burden on household.
12/03/2018	SA called from dlr SA advised they were never contacted and would like to know if assistance was provided Agent advised of DM notes submitted SA advised customer also said she was promised to be refunded the diagnostic fee Agent advised they was not documented in case, but customer are always aware diagnostic fees are out of pocket costs to determine issue with vehicle. SA thanked and disconnected.

01/08/2019	Alison Called in regarding the reimbursement of her rental costs; she has a disabled son and had to rent a vehicle; due to the doors not opening properly on her Vehicle @ no fault of her own Customer has already been declined as per CASE she started this process originally in August (see CAIR Supposedly (and I am unable to locate notes to this effect) she called back on Dec 14 after getting the decline and spoke with a Shantee, who spoke with the supervisor Glenda; who informed her that we would reconsider her request .. she requested to speak to a supervisor; best contact number is 5
01/09/2019	***Supervisor call*** Writer called Writer advised the request for reimbursement was not approved. Writer attempted to explain that rental is not part of the warranty that any rental would be at customers expense. Customer requested the mailing address so she could send in a formal complaint.
02/05/2019	AS PREVIOUSLY DOCUMENTED IN THIS CASE: Writer called Writer advised the request for reimbursement was not approved. Writer attempted to explain that rental is not part of the warranty that any rental would be at customers expense. Customer requested the mailing address so she could send in a formal complaint
02/05/2019	Advisor reviewed case and documents and found that customer is submitting for reimbursement for rental. Customer does not have SC and does not meet GW parameters. Advisor will not reimburse for rental
02/05/2019	Advisor reached out to customer to advise of decline. Customer was not available left message
02/05/2019	NEXT AGENT PLEASE ADVISE OF DECLINE DO NOT REOPEN
02/07/2019	The customer called in to speak to the case manager. The agent sees the CM is not available, the agent informed the customer the CM will be notified.
02/18/2019	Customer is aware of decline. She is displeased, as this is a vehicle, but she was accepting of decline.

Case Comments

Date	Comment
11/28/2018	Customer called with concern on his vehicle. Customer has 58604 miles on vehicle and is outside of basic. Agent asked if customer had gone to DLR for a diagnosis. Customer stated that he has not due to the DLR wanting to charge him $150 for a diagnosis. Agent advised that because DLR's are privately and independently owned we are not at liberty to ask the DLR to waive any fees. Customer stated he does not believe that a $25K vehicle that is two years old should have the doors inoperable. Customer request to have a manager. Agent advised there was no case manager on his case

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Initial Description

Dear Chrysler,

First of all, I'd like to say I love my van (overall). This is my 3rd Dodge/Chrysler van since my two kids were born [redacted] That being said, I hope you will help me with a problem I'm having.

I have had a number of issues with my 2016 T&C, which I bought new on 6/30/16. Among other items, the original nav system didn't consistently work, and had to be replaced; the remote-start engine has never worked consistently, and I've made multiple trips to the dealership (45 minute trip each way) to get it fixed - which it still isn't, - but I'm no longer under warranty...etc etc etc. You can check with my dealership to see a list of all the things for which I've had to take the van into the shop.

One of the reasons I bought this vehicle was our local mechanic told me he rarely has to work on T&C vans - they're that well made.

It's frustrating and concerning I keep having little issues with a number of different systems in my van.

Here's the latest:

The middle row door locks buzz - I've been told they're called actuators. Want to hear the very best part about this...? The buzzing/broken actuators began 6 days - no lie - 6 days after my 2-year warranty on my new van expired. 6 days. I haven't gotten them fixed because finding the time to get to the dealership was challenging, but the bigger reason was the cost, since it's now out of my pocket.

Would you please have them fixed - at your expense? There is no way I could have done anything to cause the actuators to break, so this has to be a failure on the part of Chrysler. I don't have the $500 I've been told it will cost to fix them, and I honestly believe it's Chrysler's issue, and one you should stand behind to fix.

I would appreciate hearing from you at your earliest convenience.

Thank you.

Very Truly Yours,

[redacted]

01/04/2019	**OUTBOUND DEALERSHIP CONTACT**/TRI-STAR/ DC 45136/724-430-1401 Robert advised that the vehicle needs two new door acuators and two new key fobs. Total Repair is $1405.50. Robert advised that they have not seen the vehicle for the last 30,000 miles. Miles today was 60,433 Part were $822.50 / Labor portion $583.00 but these components are covered under the 3/36. Remote Start system was verified to be factory installed. It was agreed agent was going to offer to cover the parts portion.
01/04/2019	** OUTBOUND CUSTOMER CONTACT** [redacted] Customer feels that she should not be responsible for actuators which she feels shouldn't wear out so soon. She feels that there have been issues with the remote prior and that we should cover the entire repair not just the parts. Agent advised customer that she would review the files again, but felt that covering the parts portion outside the 3/36 is is fair. Agent advised customer that when she spoke with the dealership they did not mention that there was ongoing issues with the remote but she would review the files as well. Customer did have an issue with the remote - it appeared to be turned off on her first visit to the dealership. The dealership also did a re-learn on the remote on another visit. Customer was given a "free" key when she lost a key by easy care on another visit. Customer states that the issue began two days after the 36,000 miles expired but it took her until she was over 60,000 to take the vehicle back to the dealership. Agent spoke with LS1521 to see if she should be covering more of the repair and she felt that covering the parts was enough.
01/07/2019	**OUTBOUND DEALERSHIP CONTACT**/TRI-STAR/ DC 45136/724-430-1401 Agent spoke with Robert who advised customer did call him again on Friday. He states that they did a re-learn on the remote at approx. 12,000 miles. He still doesn't believe that customer care should have to pay the entire amount.
01/07/2019	* OUTBOUND CUSTOMER CONTACT** [redacted] Customer still feels strongly that Chrysler needs to pay for the entire repair - every penny. Agent advised she has reveiwed the file with Rob and the service history. Agent advised Rob advised that customer has not had an issue with the remote start since 12,687 miles when they they did the re-learn on the remote start which was more than 48.000 miles ago and by her own admission the issue with the actuator began 2 days after the warranty expired but she continued to drive nearly 30,000 miles before bringing it to our attention. Agent advised that Chrysler stands behind the offer to assist with the parts portion only. Customer is going to think about it and will get back to agent.
01/09/2019	* OUTBOUND CUSTOMER CONTACT** [redacted] Customer was not available. Agent left message looking to verify if she has reached a decision on the goodwill offer she provided.
01/10/2019	Email from Sean asking if agent agreed to $822.50 Agent responded yes.
01/10/2019	**OUTBOUND DEALERSHIP CONTACT**/TRI-STAR/ DC 45136/724-430-1401 Candy said that Sean was sick. Agent advised she would add the DM notes to the file and confirm in email back to Sean.
01/14/2019	**OUTBOUND DEALERSHIP CONTACT**/TRI-STAR/ DC 45136/724-430-1401 Robert advised that customer has an appointment scheduled for Thurs.
01/16/2019	Appointment scheduled for Thurs. - Jan. 17
01/18/2019	**OUTBOUND DLR CONTACT**/TRI-STAR/ DC 45136/724-430-1401 Robert advised that customer came in yesterday to get the door locks fixed. He said that the tech tried to check on the remote by re-programming them and it didn't work. They believe that it may be the win modular which has been a recall on other vehicles but not this. He wanted to know if agent would cover the modular which is $75.00 Agent agreed to add DM notes for the win modular
01/21/2019	*OUTBOUND DLR CONTACT**/TRI-STAR/ DC 45136/724-430-1401 No one answered in service. Agent left a voice mail message looking to verify the next steps.
01/21/2019	Agent reached out to the dealership again but was only able to leave another message for service.
01/23/2019	*OUTBOUND DLR CONTACT**/TRI-STAR/ DC 45136/724-430-1401 Robert advised customer is scheduled to come in on Friday.
01/25/2019	Appointment Friday.
01/28/2019	OUTBOUND DLR CONTACT**/TRI-STAR/ DC 45136/724-430-1401 Robert advised that they were able to fix the issue and verified agent put DM notes on file.
01/29/2019	OUTBOUND DLR CONTACT**/TRI-STAR/ DC 45136/724-430-1401 Candy advised that customer did leave a message advising that she did have issues with the remote again. She advised she probably wasn't going to chase it further at this time.
01/30/2019	* OUTBOUND CUSTOMER CONTACT** [redacted] Customer was not available. Agent left voice mail message looking for her thoughts on the repair and the remote which she said is not working.

02/04/2019	OUTBOUND CUSTOMER CONTACT* [redacted] Customer confirmed that she is not going to pursue the issue with the remote starter any further. Event though she states that the remote never worked properly. The window modulars are working well. She said that she did learn that when she has issues she needs to pursue them right when they happen rather than waiting to have things fixed. Agent advised customer that we rarely see the T&C's in for repairs. Customer states her own personal mechanic said the same thing. Agent advised customer that she is not willing to put more into the remote either because she did cover the component that the dealership felt would fix the vehicle. Customer will not be pursuing the repair of the remote further.

Dear [redacted]

Thank you for contacting the FCA Customer Assistance Center.

I am so sorry to hear about your vehicle issues. I am very sorry to hear that your power door locks have failed six days after your warranty has expired. I do understand how frustrating that would be.

I am happy to look into the possibility of assistance. However, I do require further information. If you've had the vehicle diagnosed by a certified Chrysler dealership within the last 14 days, I will need that dealerships name so I have the correct one on file here for you.

Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753.

Sincerely,

Lauren

Good morning. I am just reaching out to you to let you know I've attempted to reach out to you by email on 12/13 and by phone on 12/17 in regards to an appointment required with the dealership. I do understand it is a busy time of year for all of us.

If you have not made an appointment with your most preferred dealership at this time, I will have to close your case for now. Once you are able to make an appointment, you can contact back in with the appointment details and we can reopen your case to provide you with a case manager.

Please let me know at your earliest convenience.

Happy Holidays.

Hi Lauren,

Thank you very much for your very prompt reply - I'm sure you're quite busy. I have not had it looked at in the last 14 days. I did call my dealership - it's Tri Star in Uniontown, PA, but I haven't taken it in…busy time of year and all.

Please let me know how you'd like to proceed.

Thank you again,

Good morning. I am just reaching out to you to let you know I've attempted to reach out to you by email on 12/13 and by phone on 12/17 in regards to an appointment required with the dealership. I do understand it is a busy time of year for all of us.

If you have not made an appointment with your most preferred dealership at this time, I will have to close your case for now. Once you are able to make an appointment, you can contact back in with the appointment details and we can reopen your case to provide you with a case manager.

Please let me know at your earliest convenience.

Happy Holidays.

Thank you for getting back to me. I do appreciate it. It has been quite busy here. I would be happy to provide you with assistance through our case management department.

In order to be provided a case manager , I will require an appointment made with your dealership for this issue. I know and understand during this time with Christmas approaching very closely it might not be into the new year. If you're able to make one, do let me know that appointment date and I will be able to provide you a case manager.

Thank you

Hi Lauren,

Thanks for heads up. I am going to make appt, but as you stated it is an incredibly busy time of year. Were departing for a week this Friday and Im up to my eyeballs in details.

Please do not close the case.

Ill endeavor to call Tri Star Uniontown today to make said appt. It cant occur before my return, likely not before the new year. We have a houseful of company arriving the day we return.

Thanks,

Hi Lauren,

I made appt at Tri Star motors. Wanted you to know. I also called the FCA customer service line to make sure it was listed on my record. Its Jan 4, 2019.

Thank you.

Dear Lynn,

Thank you for your Jan 4, 2019 phone call (commencing at 1:52 pm) following up on my 1/4/19 9am appointment with TriStar Motors, Uniontown, PA, to discuss the problems with my 2016 T&C van. I regret we were unable to resolve the items discussed below, and I hope we will reach a satisfactory conclusion as quickly as possible. To that end Ive itemized the issues for your perusal, and I hope to provide any needed clarifying information to aid us to solve these items.

There are two current issues with my T&C van, purchased 6/30/16:

1. Since I bought the van, the remote start has never worked correctly. When I remotely start my vehicle, whether its summer or winter, once I actually get into the van and press the start button (which essentially moves the control of the vehicle to my key fob), the van turns itself off nearly 90% of the time.

2. July 6, 2018, the actuators on the middle row doors began buzzing. I know the exact date because I was hosting a family reunion.

With regard to the remote start issue, I mentioned it multiple times to the folks at TriStar, and it was checked more than once. Unfortunately, up until 1/4/19, TriStar was never able to recreate the problem. You stated you were unaware I had tried to get this problem sorted out. I called Robert (@TriStar) as soon as you and I finished our phone call of 1/4/19. Robert confirmed on 12/16/16 TriStar first attempted to recreate the problem, but had been unable to do so. There were other dates I had to take the van in for one problem or another, and I had the remote start looked at again. All of the other attempts to recreate the problem were unsuccessful until 1/4/19. On 1/4/19, the TriStar mechanics finally were able to recreate the problem and they stated the remote start was not recognizing my key fob.

Regarding the actuators problem, I am (as I stated in my original email to Chrysler corporate - I believe I wrote on 12/11/18) fully aware I am no longer under the 3 year/36,000 mile warranty. That was precisely the reason for writing to Chrysler corporate. The actuators are not working properly, and I did not cause the problem. Other than the doors being damaged due to a collision, I cannot fathom how one would break actuatorsIm honestly dumbfounded by this problem. I have driven a broad style of vehicles in the 41 years Ive possessed a drivers license. Never have I had actuators buzz/break. In fact, its only because of this problem I now know what actuators are.

Lynn, I hope we can resolve this quickly and fairly. I apologize for becoming mildly irritated as we spoke on 1/4/19. I was caught off-guard by the comment made that I had not ever tried to get the remote start issue fixed, which was quite untrue, and that perhaps I had caused it by dropping the key fob, which I didnt. The problem was there from the day I drove the van off the lot.

With regard to the problem with the actuators I appreciate the initial offer to cover the cost of the parts. My question to you is this, if the actuators arent working properly and its honestly a Chrysler problem (and it is), why am I expected to pay the difference to fix them?

I welcome your thoughts.

Please call or email me at your earliest convenience.

Sincerely,

[redacted]

Hi Lynn,

Thanks for your call yesterday - sorry I was unable to answer it at that time.

I have decided to have the door actuators fixed - Chrysler covering the parts, I covering the labor. Im not going to pursue the remote start.

Thanks again,

Good morning,

Thanks for the reply.

Id like to purse an extended warranty - is that something you can either help me with or direct me to whomever can?

Thank you,

I received the email, I just wasn't sure what date you
had scheduled. I usually speak with the dealership
every few days. I need to see if there is something
I can do for them as well.

Hi [redacted]
I spoke with Robert who advised that they attempt to re-program your remote when they fixed the door locks fixed. He believes that the issue was the win modular and wanted to know if I would cover one. I have put notes on the system advising I would cover that part even though there is no recall and it is beyond the warranty period.
Not sure if you have the vehicle back or not.

Thank you. I appreciate this.

I do have the van back. I waited at the dealership that day. How would you like to proceed?

Thank you,

Hi Lynn,

I wish I could tell you it is - but its not. I tried 3 times to remote start, then push start button once I entered vehicle, and every time the van shut itself off, as it has done since June 30, 2016 - with 3-4 exceptions.

I know they tried really hard to fix it. All I can presume is its a hard-to-find glitch somewhere in the electronics.

Thanks for checking back,

Hi [redacted]

I'm sorry that the fix didn't resolve your concerns.
I called Tri-Star and Candy advised that you left a nice message
for them. From the message, she believed that you were not going
to pursue this further.
I wish I knew of another option for this concern but I'm really not that
technical.

Is there something else I can do for you at this time?

Initial Description

Id like to understand how the doors on grand caravans have not been recalled by now. I have owned 2 and have had issues with 3 out of 4 sliding doors and the locking mechanism failing. I see countless threads from folks with the locks just failing. Whats most interesting is that when it fails sometimes it sticks in the lock position. I now have a car that has trapped its occupants inside. This is a massive safety risk. Now I managed to get one door working again but its buzzing (the actuator) and will fail for good. Knowing dodge has locks that lock occupants inside is a massive risk that in the event of an accident is going to cause dodge some real questions and legal responsibility. This is a known issue what is dodge doing about it ? I look forward to your response. My next contact will be the news here in Atlanta where they can come And see how my dodge car has trapped its occupants in.

Hello [redacted]
Thank you for contacting Dodge Customer Care.
Lets look into things further and see what we can do to try and fix the problem. The first step for this issue would be to have the dealership perform a diagnosis. We need to have a tangible understanding of the problem and failure. The people in the best position to do that are our dealerships.

Please have the vehicle brought to a dealership. I have no access to information about upcoming recalls, if there are any. Please resolve the problem at hand by taking it to a dealer. If it ever did become a recall you would be advised by mail and could submit for reimbursement the costs you incurred.
Please do not hesitate to contact us if you need any further assistance by calling us at (800) 423-6343.
Thank you again for your email Doug. Have a great day.
Best wishes,
Jennifer

customer seeking cost assistance for broken door lock

Case Comments

Date	Comment
12/18/2018	customer called in stating the lock for his passenger rear side door is no longer working. Customer stated that the door stays locked and will not open. Customer is just outside his basic warranty, Seeking cost assistance.
12/19/2018	Per RO customer has not been back to DLR since 2017 and notes do not indicate new appt or vehicle being at DLR within the last 14 days per answer hub article 1267.
12/21/2018	Customer's son in law contacted us for update. Agent advised customer that CM sent file back stating he needs a diagnosis done on the vehicle. Customer states he does not want to pay the diagnosis fee, he thinks it should be covered under warranty even though he is out of his warranty. Customer thinks there is someway to put that diagnosis fee under the warranty as if it were still active. Customer will fix vehicle himself.
12/24/2018	Based on tasks, AM contacted SM Kurt at dealership 45146. Customer has not brought vehicle into dealership for diagnosis as he doesn't want to pay anything out-of-pocket. Please call SM for further updates.

12/20/2018	customer called in regarding that there are multiple issues with the vehicle, Bluetooth does not work all the time and the radio freezes, passenger side door locks does not always unlock and have to push the button multiple times, and issues with the door that it malfunctions and the door tried to close on her nephew while her nephew was between the door and getting in the vehicle and she had to pull the door. customer stated that the dealership cant fix and want the customer to call us to fix it. Reach out to the dealership and spoke with Lesley and she that she reach out to the adviser and was informed that the vehicle is done its finish, but there is no paper work drawn up at this time but the vehicle is ready for pickup.
12/20/2018	SA James stated that the vehicle came in one time for the door issues and his tech tested everything with the modules and there are no issues and could not duplicate the issue, and James mention with the radio it cracked its spider web and that was caused when the customer had her finger on the radio and she had swerved it caused a cracked in the radio which he can not properly diagnosis the issue due to the screen like that and it wont be covered under warranty. customer feels that the vehicle is an electrical with the doors informed customer that she has to get the vehicle diagnosis and see what is causing the doors to act up, customer stated that she whats a buyback and wants out of the vehicle she does not trust the vehicle and the doors does not operate and the screen is out and does not work and the Bluetooth and that the dodge should cover the radio unit due to it was a defect, customer stated she wants out of the vehicle, the vehicle is a piece of crap. Customer had her vehicle in for an oil change
12/28/2018	In case [redacted] the customer informed the dealer that she was in an accent with the vehicle. At the time the AM declined any good will and refereed the customer to her insurance company. Also the tech could not reproduce the issue as per previous notes.
12/28/2018	I called the dealer and spoke to SM Bill. He informed that the radio screen was due to customer induced damage. Bill also informed that he is willing to repair all issue cover under the warrant if the customer brings in their vehicle. The customer has not dropped of her vehicle yet.
12/28/2018	I called the customer. The customer picked up but the connection had a lot of static and then disconnected. I called the customer back but got her VM and left a message. I called the customer once more and got her VM once again.
12/28/2018	I called the customer. She informed the sliding doors will closes by itself and the safety feature that prevents the door from closing on someone does not work. She also informed that the temp of heated steering wheel will change will temp of seats and she informed that the temp is suppose to stay the same. She then informed that the blue tooth disconnects randomly and the radio screen is cracked. I informed the customer that the radio will have to be replaced and it would not be covered under. The customer understood. I also informed the customer that the dealer is willing to try to diagnose all other issues. The issue are very intermittent. I informed the customer to monitor the issue and I will follow up with her on Monday 12/31/18. The customer agreed.
01/07/2019	I called SM Bill. He informed the customer needs to set appointment.
01/07/2019	I received a VM from the customer requesting a buyback or to get their money back on the vehicle. I checked the customer's service recorders. The customer has only 3 RO's and only one is for the issue the customer is describing so I cannot escalate for service review. I called the customer to inform her that I can assist with the repair only. The customer understood and informed that she will call the dealer and schedule an appointment for next week. The customer's email address is [redacted]
01/11/2019	I called the dealer but no one in the service department was available to provide an update.

Initial Description

The driver's side locking mechanism has been having problems shorting after 50,000 miles.

It will sometimes stay locked regardless of whether or not I manually or electronically unlock the door. Other times it will not lock at all unless I lock it manually.

When it does lock and unlock electronically, it buzzes like a solenoid is going out.

I can understand me taking care of repairs for normal wear and tear, but this is on a vehicle that started having problems less than two years after purchasing.

This issue appears to me to be a safety hazard. Luckily we haven't had an emergency and the passenger sliding door still works.

I checked some different forums and this seems to be a common reported issue from Dodge Grand Caravan owners.

In my mind the issue is serious enough to warrant a recall on the locking mechanism so that people do not get locked in the vehicle if they are in a side collision accident.

Thank you for your consideration.

Hello [redacted]

Thank you for contacting Dodge Customer Care.

We are disappointed to learn of your concern with the power locks regarding your Grand Caravan and I would like to assure you that I will do everything I can to assist you.

It is possible we are looking into making this concern a recall, however at this time there is not one listed on your vehicle.
In the event it does turn into a recall, you can submit your documentation in for reimbursement review.

Based on the information that you have provided, the best plan of action would be for you to see one of our authorized dealerships for a diagnosis if you have not had one yet. Once there, if you have any further concerns, you are welcome to contact us again. For your convenience, I have provided contact information for 2 dealerships in your area below and I am happy to help you schedule an appointment if you like.

If you have been to your preferred dealership, could you please provide me with some details about your visit? This will help me determine what the next steps should be.

When was your visit?
Who was your Service Advisor or Service Manager?
What was the diagnosis?
What repairs, if any, did they complete?

01/09/2019	*****OUTBOUND DEALER CONTACT***** 4137722111 | 68594 | Brown Motors Inc - CM spoke with SA Aaron who states the door will not close properly due to an issue with the latch. Customer had to hold the door closed multiple times to keep it closed and the last time they did so it stayed shut and is stuck shut. SA advised that the customer had previously been in for a similar concern in May 2018 around 30,000 miles because the door would not lock. This time the door will not stay closed. - CM inquired about labor and part pricing at warranty - SA states they are uncertain if this will be the repair total or if they need additional work based on their previous diagnosis. They are unsure of the exact repairs that are made because they are not sure how much total labor will go into opening the door and diagnosing what parts need repair. SA states they vehicle will at least need a rear sliding door latch - which costs $467.60 at warranty and requires 1.5 hours of labor @ $136.95 for a total of $604.55. SA reiterated that this would not be the final total as extensive work is likely needed to open the door and decide what is required. SA states this job will likely take 2-3 days. - CM advised they will follow up with customer to advise that they need to return to the DLR

01/03/2019	***OUTBOUND DEALER CALL*** 52979 Hunter Dodge Chrysler Jeep Ram 6619488411 Agent reached out to DLR to inquire about vehicle status and cause of the break, Agent was put through to SA Manny, who advised the customer came in with a concern of a grinding noise from the wheels when turning and a grinding noise when braking they took the left front wheel off and saw the Hub was only being held on by one bolt -another dealership in Mojave had replaced the left front drive shaft 5000 miles before and they confirmed with the tech that those bolts had to come off to perform that repair. Either the bolts were not torqued o the proper specification or 3 of 4 were not put back in they need a left front axle, knuckle (holes were widened where it mounts), front hub and bearing, front left caliper, front left brake pads, front left rotor, and an alignment. Sliding door latch unrelated and covered under warranty. SA tried reaching the other dealership and spoke with the Service Manager Mike, who was cooperative until they were asked to accept responsibility and advised they had no reason to loosen the bolts in that area. Their dealership's level 3 suspension technician verified tat there was cause. GSA advised because the repair cost was over $2500.00 dollars they would have to review -they advised there was a possibility they would pay for the diagnosis and take it back to the offending dealership. 24237 miles not 18000 cost of repairs $3361.24 COP pricing Dealership has vehicle in disassembled state and would prefer to repair in house if possible.
01/04/2019	***OUTBOUND CUSTOMER CALL*** [redacted] Agent reached out to customer and spoke about situation, customer is amenable to moving the vehicle back to Mojave if they will not have to pay for repairs and will not meet resistance in having repairs completed. Agent advised we are likely going to run into pointing fingers and it would help to have support from the business centers first, so agent requested we wait until door latch repairs are complete and everyone is on board. Agent advised would send email tonight. Customer advises they have good records of repairs and maintenance and since the vehicle was at Mojave they have only been into shops for repairs once for a rear bumper once for 2 tire replacements (not specified which tires were replaced, but he suspects if it was two at once it would be the front two. and a third time for the left rear tire which was replaced for a rear sidewall puncture. The tire replacements were all done at the same shop.

01/04/2019	Email sent to regional RSM and 2 affected AMs Good afternoon Pran, Jeff, Mark, one of our GSA fleet vehicles is currently down at DLR 52979 for substantial damage that the level 3 technician there believes to be caused by workmanship at DLR 26924. The technician at DLR 52979 advised that the vehicle needs a new left front axle, left front knuckle (holes were widened where it mounts), front hub and bearing, front left caliper, front left brake pads, front left rotor, and an alignment coming to $3361.24 in unwarrantable damage that they suspect was caused by the bolts being left too loose when the CV axle was replaced at DLR 26924. They advise of the 4 bolts that were supposed to hold the hub on only one was left, but the former dealership says they would not have needed to remove them in the course of their repairs. GSA would prefer not to pay for the work if it was caused by workmanship at one of our dealerships and we would normally insist it go back to the servicing dealership if they are responsible for damages. If you agree this is the most likely cause of the damages will we have your support moving the vehicle back to Mojave to have them perform the repairs for GSA? GSA has offered documentation that the only work that has been done on the vehicle elsewhere was a rear bumper replacement, and 3 tires replaced (on the first occasion the GSA representative says he believes it was the front two tires and on a second occasion the left rear tire for a sidewall puncture. -- Jevon | FCA Fleet Case Manager Phone 1-800-999-3533 Option 3 Ext. 3020165
01/04/2019	Response received from regional AM, who advised that he is ok with having the vehicle moved back to Mojave for the repairs. Agent replied and requested clarification that he agrees GSA should not be responsible for damages incurred due to workmanship issue.
01/04/2019	***OUTBOUND DEALER CALL*** 52979 Hunter Dodge Chrysler Jeep Ram 6619488411 Agent reached Manny in service and advised AM had responded seeking photos of affected areas, SA forwarded photos directly to Agent's FCA account to relay to AM and regional TM.
01/04/2019	AM emailed advising Fleet TA is proceeding to DLR Monday for further investigation.
01/09/2019	Response received from Fleet TA, Agent copied on response to AM: - I looked at the vehicle this afternoon and see no concerns with Hunter's findings or recommendations. It is clear that the hub bolts were under-torqued during the prior driveshaft repair causing brake system, hub, knuckle and half shaft damage. The vehicle is not driveable in its current condition beyond moving around the dealer lot. I instructed Hunter to park the vehicle and wait for further instructions
01/10/2019	***OUTBOUND CUSTOMER CALL** [redacted] Agent reached customer VM and requested a call back if he needs further information, Agent advised we are trying to determine the best way to go about repairs trying to incur as little expense to GSA as possible.
01/14/2019	response received 11:05 AM Keep the vehicle at Hunter and do go ahead with the repairs at no charge to the customer. I am working with Barstow to let them know we do feel it was a workmanship issue and they need to make it right with GSA. For now, let's get the customer taken care of and we will make sure Hunter get's paid.
01/14/2019	***OUTBOUND DEALER CALL*** 52979 Hunter Dodge Chrysler Jeep Ram 6619488411 Agent reached out to SA Manny and advised per email from AM, Agent advised we need warranty pricing for DM notes -SA advised to call back tomorrow, there is so much to factor in -Agent asked him pass the warranty pricing over to the Service Manager to formalize everything tomorrow.
01/22/2019	***OUTBOUND DEALER CALL*** 52979 Hunter Dodge Chrysler Jeep Ram 6619488411 Agent reached out to dealership and LVM requesting a call back from Manny regarding current status of the vehicle.
01/22/2019	***OUTBOUND DEALER CALL*** 52979 Hunter Dodge Chrysler Jeep Ram 6619488411 Agent reached Manny in service who advised they ordered parts and began repairs already, during repairs the technician has noticed the lower control arm also needed to be replaced because the lower ball joint needed to be replaced, the transmission also has a leak they want to take care of under warranty while they have it there, they also have the lower control arm arriving tomorrow -they estimate repairs complete thursday or Friday.

Good evening [redacted]

One of our technical corporate resources advised they would like to follow-up with the dealership regarding the necessary repairs to gather more information to advise us better. I'm unsure whether they have been in contact yet and emailed the business center for an update. I will let you know as soon as I hear something back.

Good evening [redacted]

I just reached Manny at Hunter Dodge and he advised the technician found a few more things they needed to do on the vehicle -one of the lower control arms needed to be replaced for the same concern, and the transmission was leaking, so they are going through warranty to replace it -they expect these additional repairs to be completed Thursday.

01/03/2019	Customer called in stating that the sliding door will lock in the locked position and will not unlock. This happened to her vehicle before with the other door, and now it is happening on the passenger side. She said that it cost her 600.00 to fix the drivers side, and wanted to know if there were any recalls. There are no recalls on the vehicle, and due to the miles on the vehicle it is out of warranty. GW is not a possibility.

(1m 23s) Visitor: I'm good thank you, and yourself? (1m 58s) Randy: I am doing good also thank you for asking [redacted] (3m 6s) Visitor: The power door lock actuator on the passenger side sliding door has failed and makes a strange noise, the lock is only working intermittently. Is that under warranty? It';s a 2016 with 44k miles on it. (3m 6s) Randy: That is very upsetting to hear that you are having a couple of issues with the grand Caravan and want to know if it is covered under the warranty. I am gla dthat you have chatted in as ZI will be happy to look into this for you. (4m 39s) Visitor: Also, the blower motor for the ac/heater is chirping...strange. You can tell it's the blower motor because the chirping increases/decreases as you turn the fan up or down. (5m 1s) Randy: So I can look into this for you [redacted] may I please have you verify the mileage and the following information. Is this the Vehicle Identification Number [redacted] May I please have the name on the vehicle, full address, email and phone number for the file for future recalls? (5m 44s) Visitor: Mileage is 45k miles. (5m 49s) Visitor: The vin is correct. (6m 12s) Visitor: It's a 2016 Dodge Grand Caravan SXT, Silver. (9m 14s) Randy: Yes and that is very upsetting to hear that you ahve that many problems [redacted] (9m 39s) Visitor: Would this be easier on a phone call? Either way... (10m 50s) Randy: for the first 2 issues they are covered under the basic warranty which I do apologize I am showing that it has expired by the mileage on the vehicle. For transmission I am showing that the powertrain warranty is still active until April 7, 2021 27 Months or 15,000 Miles. (11m 13s) Randy: The dealership would need to diagnose this first to determine that it is covered, (11m 58s) Visitor: So the door lock and blower motor would not be covered at all? (12m 3s) Randy: Do you have an appointment at the dealership to bring it in for a diagnosis? (12m 21s) Visitor: I do not...I was trying to understand the warranty first. (13m 1s) Randy: I do apologize [redacted] that is under the basic warranty. I would need to have all of the issues diagnosed first to determine what is covered and what is not. (13m 52s) Visitor: Understood. I do have an extended warranty with the dealership where I purchased it - Carmax - but they said I needed to confirm the manufacturer's warranty first. (12m 3s) Randy: Do you have an appointment at the dealership to bring it in for a diagnosis? (12m 21s) Visitor: I do not...I was trying to understand the warranty first. (13m 1s) Randy: I do apologize [redacted] that is under the basic warranty. I would need to have all of the issues diagnosed first to determine what is covered and what is not. (13m 52s) Visitor: Understood. I do have an extended warranty with the dealership where I purchased it - Carmax - but they said I needed to confirm the manufacturer's warranty first. (13m 56s) Randy: This is the case number [redacted] hat I have this all documented on for you. Once it has been diagnosed please call Dodge at 1-800-423-6343 to see if anything can be done to assist you but there is no guarantee of assistance. (14m 5s) Visitor: So...just make an appointment with the local DOdge dealership? (15m 0s) Randy: I do apologize I am not able to see the extended warranty on the vehicle as it is not with Mopar Vehicle Protection. You would need to speak to that provider to see if this is all covered. (15m 19s) Randy: Yes make an appointment with your local Dodge dealership. (16m 5s) Visitor: Understood. Thank you for your help. (16m 26s) Randy: With your zip code I have located this dealership John Elway Chrysler Jeep Dodge Ram 10.86 miles away Certified Dealership 2501 35th Ave Greeley, CO 80634 (970) 506-9777 (16m 57s) Randy: You're welcome. Is there anything else today? (17m 7s) Visitor: That will do it, thank you. (17m 17s) Randy: You're welcome. (17m 19s) Randy: Thank you for contacting Dodge Customer Care. Please chat with us again if you need further assistance or you can contact our Customer Care phone line at 1-800-423-6343. You can also visit our website www.dodge. com. Have a great day!

Hello [redacted]

I am sending you this email regarding the closure of your Case with Case Management. I would like to provide you with my contact information again should you have any questions or concerns in the future.

Your case number: [redacted]

FCA Case Management Phone Number: 1-844-827-1999

My direct extension: 302-0861

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case.

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore you could potentially receive an email or a telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience.

Thank you for your time and participation and for being an FCA customer.

It has been a pleasure working with you, all the best!

Jeanette

customer calling in to confirm coverage on vehicle

Case Comments

Date	Comment
01/09/2019	// Customer Inquiry // Customer calling in due to vehicle issue, the customer is looking for reimbursement on repairs already completed that could have potential been covered under a warranty. Also needs another apt as vehicle is still having issues. // Advised Customer // Confirmed customer contact information, confirmed coverage of remaining warranties. Advised the warranty coverage is still available and I would call over to Mojave Chrysler Dodge Jeep Ram of Barstow, 26924 to confirm why these repairs were not filed under remaining coverage. Was not able to get in contact with a service advisor, left vm indicating we need to get call back with information on vehicle. Advised customer we would have to wait for contact with DLR to see why the repairs were not filed under remaining coverages, customer also isnt sure what work was all done if it would fall into transmition coverage. Calling Chapman Chrysler Jeep LLC, 68737 to get customer an APT for technical assistance with ongoing transmition issue. Was unable to get in touch with DLR as number is blocked advised customer he would have to contact to book apt. customer is awaiting call back for technical assistance and is calling to make apt right now.
01/11/2019	Customer called cm. Customer gave correct phone number [redacted] and correct email address [redacted]
01/14/2019	CM called customer and was unable to leave VM for callback.
01/15/2019	Vehicle has arrived at dealership Chapman Chrysler Jeep LLC and attended by dealer employee
01/15/2019	CM contacted the dlr to get more information on vehicle. Cm spoke with Chris who states their are electrical concerns. The right side power steering door does not lock. Chris transferred the CM to SA Vince vm. CM left a VM for Vince for a cal back.
01/15/2019	CM contacted the number on the file and heard lots of noises during the call and then the line disconnected.
01/17/2019	SA Vince called back.
01/17/2019	CM contacted the SA and left a vm for a call back to SA Vince.
01/17/2019	CM spoke with Vince at the dealership who states the vehicle is done and the customer will be picking up the vehicle today or tomorrow. The dealership's repair was a transmission overhaul covered under Powertrain.
01/17/2019	Cm contacted the customer to follow up and also let the customer know CM will not be in the office tomorrow and CM will allow the customer a few days to drive the vehicle before closing the case. CM left a vm with call back number.
01/23/2019	Customer called in wanting reimbursement for the repairs and the rental he had to get out of pocket from the previous dealership. CM placed the customer on hold to do further research. Based on RO [redacted] the RO was open for the following dates that the customer had the rental for. CM is willing to reimburse the customer 10 days at $35 a day for the inconvenience. Decision was made based off of GW parameters. GW Parameters: Miles 56K 3 vehicles in household No DM notes 1 Max care SC. CM advised the customer would have to speak with the dealership about those repairs as CM is not able to reimburse the customer. Customer is upset that CM can not reimburse for the repairs but appreciates the rental being reimbursed. CM asked how the vehicle was driving and the customer states his wife drives the vehicle but everything is fine at the moment. CM advised she would process the reimbursement as a one time GW. CM had the customer verify name and address. CM branded the call and is going to make closure to the case.

Top Care Case - Vehicle Concern

Case Comments

01/11/2019	1-11 Spoke with customer and his complaint was the lack of communication and contact from the dealer. The dealer diagnosed vehicle needs a transmission and the left sliding door. Since he sent the letter the customer stated the dealer has been responsive and keeping him updated. He is all set now. He just wanted to be kept updated on the status because when you call the dealer service dept the phone just rings. Even when the switchboard transfers him to service no one answers. Writer is glad to hear they have been responsive. He was told the repairs will be done mid next week. Writer provided direct number for contact and will follow up mid next week to check that repairs are completed.
01/17/2019	1-16 Writer left message for customer to see if repairs were completed.
01/17/2019	Customer left message stating he was told vehicle would be done today. He is still having problems reaching Terry SA or anyone in service. He is very upset as he is now being told vehicle will not be done this week. He had a planned trip leaving tomorrow morning and he needed this vehicle to carry items in this size of vehicle. Writer called dealer and left message for Terry SA and Roy Cook SM.
01/18/2019	Spoke with Roy Cook SM and he stated the transmission is repaired. The tech is working on the door locks on both sliding doors. One door the latch was stuck and they are working to repair and get vehicle repaired today. The door latch repairs are covered under the customers aftermarket service contract and they are also providing rental coverage. They had to get approval from the selling dealer to do the work per the service contract provisions. Writer asked if they are unable to get vehicle completed by tomorrow will they be able to place him in a van. He does not have any vans in their fleet but could rent from Enterprise but they expect to get the vehicle repaired. Writer asked if the customer was contacted this afternoon and he stated the SA Terry did call him a couple of hours ago.
01/18/2019	Writer asked if he could contact writer if repairs will not be completed by tomorrow.
01/18/2019	1-18 Spoke with customer and the dealer had the vehicle ready last night and the vehicle is good. He appreciated the follow up and getting the dealer to expedite repairs. Writer advised if he has further concerns he can contact writer.

(7m 20s) Areti: What's the mileage on your van[redacted] (7m 30s) Visitor: 35,301 (8m 26s) Areti: Good news then, your vehicle is still under the factory warranty. (8m 44s) Areti: The basic warranty is 3 years/36000 miles, whichever comes first from 5/1/2016. (9m 9s) Areti: The warranty covers factory defects. (9m 36s) Areti: Warranty work would have to be confirmed and completed by an authorized dealership. Do you have the phone number to your local dealer? (9m 51s) Visitor: I bought the van at McKinney Dodge in Easley. Would it be best to take it there? (10m 8s) Visitor: Would they consider this issue a factory defect? (12m 26s) Areti: Any authorized dealership's service department can diagnosed warranty work. I see the nearest one to you is Benson Chrysler-Dodge-Jeep at 400 W Wade Hampton Blvd Greer, SC 29650, (864) 877-0161. A diagnosis will determine if this is a factory defect. I've searched the web looking for a less expensive solution and there seems to be a lot of this issue. This is a safety issue as I have a [redacted]r old sitting on that side of the van. (7m 20s) Areti: What's the mileage on your van, [redacted] (7m 30s) Visitor: 35,301 (8m 26s) Areti: Good news then, your vehicle is still under the factory warranty. (8m 44s) Areti: The basic warranty is 3 years/36000 miles, whichever comes first from 5/1/2016. (9m 9s) Areti: The warranty covers factory defects. (9m 36s) Areti: Warranty work would have to be confirmed and completed by an authorized dealership. Do you have the phone number to your local dealer? (9m 51s) Visitor: I bought the van at McKinney Dodge in Easley. Would it be best to take it there? (10m 8s) Visitor: Would they consider this issue a factory defect? (12m 26s) Areti: Any authorized dealership's service department can diagnosed warranty work. I see the nearest one to you is Benson Chrysler-Dodge-Jeep at 400 W Wade Hampton Blvd Greer, SC 29650, (864) 877-0161. A diagnosis will determine if this is a factory defect. (13m 34s) Visitor: Ok thank you (14m 2s) Areti: You're welcome. Thank you for chatting with Dodge. Hello Chrysler Customer Care,

Attached is the invoice for the defective sliding door lock I had replaced yesterday, Jan 14, 2019 and the receipt verifying I paid for the work in the amount of $854.22 via my Visa credit card.

I am from Vermont & on temporary travel work in Texas until mid April. I sincerely hope I can be reimbursed for this work as it appears it was a defect in the locking mechanism and should not have failed at 49,000 miles.

Thank you for your consideration,

Good Afternoon [redacted],

Due to the fact that we only reimburse for rental time and distance the total reimbursed will be $558.97. I have also included sales tax in that amount paid.

Thank you for verifying your home address. I will be processing the check today and you should receive the check in 7-14 business days.

[redacted]
Thank you. The check amount equals the amount I paid on invoice?
Thanks again!

Initial Description

I purchased a 2017 grand caravan gt last March/april and I'm having issues with it. 1. The radio turns off sporadically. 2. The remote start turns on then shuts off. 3. Passenger side door lock stopped working. 4. I have a misfire on cylinder 2. Are any of these issues known to your company as repetitive?

Hello [redacted],

Thank you for contacting Dodge Customer Care and for letting us know what has been going on in your Dodge Grand Caravan.

I can understand why you have reached out to us and I will certainly do my best to help you.

Currently I am seeing that you would have powertrain coverage still on the vehicle for 31 Months or 10,000 Miles, if diagnosed by a Dodge dealership as being related to Cylinder #2 they will be able to determine if there is any coverage.

As for the other components I am seeing that there werent any extended warranties, customer satisfaction notifications, or recalls.

What I can say about the remote start though is, the remote start would have a fifteen minute timer before shutting off, also, once you get in the vehicle the vehicle will shut off.

Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at (800) 423-6343.

Thank you again for your email Mario. Have a great day.

Best wishes,
Michael

Hello [redacted]

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]

The FCA Case Management Telephone Number is: 1-844-827-2006

My Direct Extension is: 3020200

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

01/28/2019	Customer called in because she has been experiencing multiple issues with her vehicle. Including a cylinder 3 misfire and the rocker arms. She informed me that the dealership is charging her an estimate of $3000 to repair her vehicle. Customer doesn't want to pay for the repair, she doesn't want the vehicle. The following dealership is " Michigan City Chrysler Dodge Jeep Ram, 60695 ".
02/01/2019	Customer called in regards to a Vehicle Concern Customer got oil change noticed ticking noise in engine Engine light came on and it was diagnosed as the cylinder 3 misfire Engine light came back on than the Fuel injectors were replaced Rocker arms were making the ticking noise, Arms wore down the valve to the cylinder to cause it to be a dead cylinder spilling oil Transmission lines from the radiator are leaking Door actuators went out which was going to be covered under warranty but the dealership never installed the parts they ordered Dealership (60695) has not seen the vehicle since early Dec 2018 10,000 miles over warranty Customer does not merit cost assistance

Initial Description

Our driver side sliding door makes a horrible noise everytime the lock is pushed and has four a while. Now our passenger door is making the same noise everytime the unlock is pushed. When contacting our local dealership we were told this is a part they keep in stock because it occurs so often yet there's no recall!!! This is a costly repair that we feel should not fall on us!! What can be done about this situation?

Hello [redacted]

Thank you for contacting me back.

I can understand the dissatisfaction that you feel, given the unresolved issues with your sliding doors you have with your vehicle. I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and, due to the nature of your concern, I would like to forward your case to our Case Management department for their attention and response.

To move ahead with this escalation, your vehicle would need to be at an authorized dealership. If it is not at the dealer currently, it will be necessary for you to arrange an appointment and then advise us of the name of the dealership, the date and the time of the appointment.

Should you wish I assist in booking your appointment, please provide the preferred dealership, date and time you would be available to bring the vehicle in.

Escalating your situation to a Case Manager will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have these issues addressed and resolved.

It is our hope is that this escalation will provide you the best opportunity to address your Dodge's concerns.

You are always welcome to reply back to this email and we will respond back to you as promptly as we can. If you prefer, you can also call us directly with your questions at Dodge Customer Assistance Center by calling 1-800-423-6343.

Sincerely,

Hello [redacted]
I am sending you this email regarding the closure of your case with FCA Case Management.
I'd like to thank you for working with me.
I also would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]
The FCA Case Management Telephone Number is: 1-844-827-2003
My Direct Extension is: 3020162

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern. If your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back. I wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; ergo, you may receive an email or telephone survey. We ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience.
Thank you for your time, participation, and for being an FCA customer.

I (again) appreciate you working with me, wishing you all the best-

Hi! I'm hoping it was a fluke, but when we got home last night my son
couldn't get the drivers sliding door open. It took my husband a couple of
tries to get it. I just wanted to give you a heads up.
Thanks,

Just a quick follow up for you.
The dealership informed me that they were able to diagnose the area and will be taking care of the repair. They will update me when completed.
They did have to order the upper roller.
Once they let me know it's been completed, I will follow up with you.

Hi, just got your message. Sorry I'm at work. We have to get the van over
there, but just haven't been able to get it there we've been so busy I
haven't even looked at next weeks schedule yet. Hopefully the beginning of
the week. I ended up having to work extra this week.

Hi thanks for getting back with me again. Yes and at this point were thoroughly disgusted! Not only is this an inconvenience but it's a potentially huge safety issue! My husband has enough strength because he is a [redacted] and can get the door back in. If I'm out by myself and it happens there's no way I can get that door back on the hinge. It's hit him in the head. And if I'm out with the kids what am I going to do have one of them hold it and potentially Fallout or drive home with the door open and hanging off?
There is definitely an issue with the service personnel there if they can't get this fixed at this point. Our best friend has also have there been in there multiple times for door issues and still having issues. They've not once offered to come get my van or inconvenience themselves it's me having to go over there and wait around on my day off and I don't have time for that. We are leaving on vacation in a few weeks and we absolutely have to have this fixed. We're going to be driving 12 hours in this van. I can pretty much guarantee that we will never buy another vehicle from there and are considering getting rid of this one. I know this is not your fault and appreciate you working with us!

Just thought I'd let you know that the van is there now and they did give
me a car to drive this time.

Hi [redacted]
The dealership informed me that it was missing a "bumpstop".
They've repaired the vehicle and stated you've already picked it up.
I'll follow up on Friday with you to see how it's doing.
Have a great night!

Hello[redacted]

I am sending you this email regarding the closure of your case with FCA Case Management.
I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]
The FCA Case Management Telephone Number is: 1-844-827-2003
My Direct Extension is: 3020162

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern. If your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back.
I wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; ergo, you may receive an email or telephone survey. If you could please take the time to complete the survey so I'll know how I'm doing doing and what improvements can be made to enhance the customer experience, I'd appreciate it.

Thank you (again) for working with me, wishing you all the best-

Initial Description

Customer wanting to file the vehicle as a lemon. Customer is wanting to know if the vehicle can be bought back.
Customer vehicle was repaired for a WIN Module 3 times. Heater Seat was repaired 2 times. And Tailgate was repaired 1. Now the vehicle is going in for additional repairs. Potential possibility for WIN Module repair due to driver side door button not function properly and locking the vehicle without notice. Both kids were locked in the vehicle without notice while the vehicle was being used. Dealership had to be contacted to unlock the vehicle with the kids in it. Customer is having the body repaired from the dealership prying the vehicle open.

Hi Lori,

I have attached a picture of what I pay monthly. I hope this works for you.
This is what I was able to get from the banks website.

Thank you

Hi:

I am pleased to let you know that the check for reimbursement has been issued today.

You should receive the check in approximately 7-10 business day.

If you do not receive the check in 30 days, please give us a call back at: 1-800-992-1997 and advise them that you have not received the check.

That being said I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is: [redacted]

The FCA Case Management Telephone Number is: 1-844-827-1926

My Direct Extension is: 3020180

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

[Lori] | FCA Case Manager

Phone: 1-844-827-1926 | Ext. 3020180

Initial Description

I just bought my 2016 dodge caravan. It is a little over a year old for me. 2 weeks after the warranty went up, the cars rear view mirror exploded. The passenger sliding door on the drivers side no longer works. It will not unlock so I can't even use it manually. I could live with one sliding passenger door but tonight that ceased to function. I have no way for my children to get in and out of the car unless they climb over the drivers seat or climb over the back seat. I myself will have to do that since I have to buckle in my [redacted] Both of my sliding doors are stuck in a locked position and I cannot get them opened. I just had to replaced the transmission on my car two weeks ago. This car is literally breaking down faster then I can fix it. This should not be happening on a 3 year old car. Help.

Hello [redacted];
Thank you for contacting Dodge Customer Care.
We are very disappointed to learn of your concerns with your Grand Caravan and I would like to assure you that I will do everything I can to assist you.

Based on the information that you have provided, the best plan of action would be for you to see one of our authorized dealerships for a diagnosis if you have not had one yet. Once there, if you have any further concerns, you are welcome to contact us again.
Please do not hesitate to contact us if you need any further assistance by calling us at (800) 423-6343.
Thank you again for your email. Have a great day.
Best wishes,
Jennifer

Customer has a couple of door issues

Case Comments

Date	Comment
02/09/2019	Customer states the drivers side sliding door makes a loud noise when locking. Started 4-5 mo ago. Passenger door is permanently locked. Believes this is a manufacturers defect.
02/09/2019	Agent reached out to the dealer (on file) spoke to Lorenzo, he stated the 7 year preowned acts like a Basic Warranty. Sounds like it's the door latch, that would be covered; however would need to diagnose first. Agent reached out to the customer lm on vm to make an appt with the dealer to get the issues diagnosed.

Cherise:

I did have the vehicle repaired at Midway Chevy in Kearney, NE. I am satisfied with the repair. However, I have not had a chance to inspect the inside of the vehicle to ensure that all the trim pieces have been properly installed. From a mechanical aspect, the door opens flawlessly. I believe we are finished conversing and I am satisfied with your involvement. Furthermore, if anything is amiss the dealer and I should be able to come to a smooth resolution without the need of a mediator.

Hello [redacted]

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]
The FCA Case Management Telephone Number is: 1-844-827-1926
My Direct Extension is: 3020175

I would also like to Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give me a call back so we may re-open your case.

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, again if you need anything please contact me right away.

02/25/2019	Customer states, he is having another issue with the vehicle. Customer states, he only has 15,000 miles, and it has been issue after issue. Customer states, he was having issues with the seat belts, as this was not working, and brought to DLR, and they were able to fix. Customer states, then the power locks were not working and door had to be taken apart, as well, and this was fixed by DLR, back in November of 2018. Customer now states, the window has fallen down on the driver's side, and could be from last repair in November of 2018. Customer was advised to contact FCA by the DLR, as customer is now out of warranty for Basic Warranty. Customer is seeking assistance, with FCA to cover the cost of the diagnosis fee. Agent advised that customer would have to make an appointment with the DLR first to have this diagnosed for assistance, and once an appointment is made, this can be reviewed for assistance. Customer understood and thanked agent. Agent provided customer with a case number for reference. Customer will make an appointment at Puente Hills Chrysler (60459) and contact number for DLR is (626) 626-2000, as agent advised that where is last appointment was with, for last repair. Customer understood. Agent had issues with the system and screen froze and lost customer.

Thank you for the email.
I have follow up with the dealership and been informed that they will be replacing the PCM under warranty just to rule out any issues regarding the part itself. They've also contacted their tech resources and are waiting to hear back for next steps.
I will follow up again on Wednesday (unless I hear back beforehand) for more information and let you know once I have it.
Have a great night!

The vehicle is back in our possession although it seems to not run as well as it had previously sometimes at an idol you can still feel a slight miss although the check engine light has not come back on I think there is still an issue

Thank you for letting me know.
If it keeps up, I recommend bringing it back in.
However, if you could monitor it and keep a "diary" of the when's and where's, I'd appreciate it.
I do have some good new for you.
The incentive offer has been approved.
Your reference # is [redacted]
All you have to do is present the # to your preferred Fiat Chrysler Dodge Jeep Ram sales rep and they'll be able to assist you further when you're ready to purchase a new vehicle.
I'll follow up with you on Monday to see if how the vehicle is doing if I don't hear back from you first.
Have a great night!

Hello[redacted]
I am sending you this email regarding the closure of your case with FCA Case Management.
I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is:[redacted]
The FCA Case Management Telephone Number is: 1-844-827-2003
My Direct Extension is: 3020162

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern. If your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back. I wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; ergo, you may receive an email or telephone survey. We ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience.
Thank you for your time, participation, and for being an FCA customer.

I appreciate you working with me, wishing you all the best-

Linda | Senior BC Specialist

Justin,

This is Luke From the FCA Case Management Division, I got this case in my name regarding [redacted] (2016 CHRYSLER TOWN & COUNTRY) and it looks like the sliding door doesn't lock, The customer called us seeking cost assistance as she is only outside her warranty by mileage (36,352 miles) but not by time so I am wondering if we can cover this for the customer under warranty bulletin D-17-18 as she has two vehicles within the company (2016 & 2018) and is the original owner of both of them.

Please contact me directly or respond to this email.

03/09/2019	Speaking t[redacted] Customer stated the DLR provided horrible customer service. Customer stated they have purchased two vehicles from this DLR. Customer stated when they went to purchased this vehicle the Customer stated the DLR informed him yesterday when they picked the vehicle up that the repairs was completed even though it was not. Customer stated they did not receive any RO or documentation. Customer requested to speak to the GM yesterday but did not hear from him until today. GM Bryce informed him that if the Service Dep. states the vehicle is fixed than it is fixed. Also GM Bryce informed the customer that he did not see them to provide them the RO when they were at the DLR earlier today. Customer stated they also spoke to Bryce on the phone and Bryce disconnected the phone on the customer. Customer stated Bryce advised them that he does not have the time for them. Customer stated that they are on their way to the DLR right now and if Bryce states again that he does not have time for them than he is going to seek legal action due to the DLR is not holding up there end regarding the signed agreement to repair the vehicle prior to handing it to the customer. Customer stated the fog light, Bluetooth, cosmetic and the front pumper needs to be repaired. Advised the customer that there complaint will be handled internally
03/11/2019	has more inquires: "for 125 safety checklist, when that vehicle comes to early and techs check vehicle, sees online certificated check list, when/if vehicle has a gap between passenger rear right window, window doesn't close, water is getting inside window."3[redacted] is under the impression that her vehicle didn't go through a multi-point inspection prior to it being sold to her because numerous issues with the vehicle have occurred since she drove the vehicle off of the lot. 03/12/2019	[redacted] called and stated that he had brought the vehicle to the dealership on the 4th of march due to the power steering as it had gone out. Stated he has since not had a vehicle, no rental or a loaner. Was advised that the part is not going to be in now until the 18th. Earnest noted that this is unacceptable and stated that with the miles on the vehicle this should not have happened. Agent contacted the dealer and spoke with Tracey the SA Tracey stated Power steering return line 5151722AF, door lock actuator for the driver side slider are on order, possibly coming in tonight, work order written on the 7th of March and has an ETA of the 18th. Stated only one rental company (budget rental cars) they have no cars available. Enterprise is 110 miles away. Agent had advised that this will be sent for possible further assistance. Agent provided the case number as [redacted]

Hello [redacted]

I am sending you this email regarding the closure of your Case with Dodge Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]
The FCA Case Management Telephone Number is: 1-844-827-1926
My Direct Extension is: 3020156

I would also like to thank you for allowing Dodge Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give me a call back so we may re-open your case.

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Dodge customer.

It has been a pleasure working with you! Again, if you need anything please contact me right away and I will assist you as best as I can.

Thank you for your patience and co-operation!

Regards,
Karleen | FCA Case Manager

This case is not closed, I am still without a vehicle for what I am being told will be a minimum of 2 weeks. This is not an acceptable resolution. There is still a missing part to which I am told you have no ability to order or expedite or get to the servicing dealer.

Initial Description

Customer called as they are having trouble with the driver side power door.

Case Comments

Date	Comment
03/14/2019	Customer called in regards to the driver side power sliding glass door. Customer stated that the door gets stuck and can't be opened with the key fob, the power buttons, nor can it be opened manually. Customer stated some research that they had done shows this to be a common problem with this vehicle. Customer also stated that they brought this vehicle as a certified vehicle due to they have a [redacted] old granddaughter with [redacted] and they use this vehicle to transport them. Customer has been informed by SA Bobby Porter from Berglund Chrysler Dodge Jeep Ram (23296) that it would cost $99 to have it evaluated. Customer also stated that they are concerned about the safety aspect of this door not working as it should. Customer also stated frustration over the nature of this problem occurring. Agent sought the advise of the tech pod and relayed to the customer to take vehicle in for a diagnosis and have SA reach our to star. Agent was advised by customer that they would schedule an apt for next week to have vehicle looked at.

Thank you Lori for your help and time. I really appreciate you taking a look at this. This was totally unexpected I never thought this could happen and especially in a 3 year old car we've had for a year. I had never heard of this. In all of my cars my parents have had over my years they have never had to repair/replace this part. Anything that can be done would be helpful and appreciated. I look forward to hearing from you soon.
Thanks [redacted]

Thank you Lori for your help and time. I really appreciate you taking a look at this. This was totally unexpected I never thought this could happen and especially in a 3 year old car we've had for a year. I had never heard of this. In all of my cars my parents have had over my years they have never had to repair/replace this part. Anything that can be done would be helpful and appreciated. I look forward to hearing from you soon.
Thanks [redacted]

Hello Lori,
I have an issue with my Van and the dealership Olathe Dodge Chrysler Jeep in Olathe Ks. You helped me fix a part on my van in March 2019 and I need help again. Last July the van was under warranty and several parts on our sliding doors were fixed. Now we have the van back in the shop with the same issues and they are telling us the parts are not under warranty and we are out the cost to replace the 1 year old parts. This is not acceptable, my husband and I are not happy and would like to get this corrected. Please contact [redacted] my husband at [redacted] ASAP!!!

03/25/2019	Customer is contacting FCA seeking to obtain cost assistance for a repair. Writer advised customer that we are happy to look into this however we will need to have a diagnosis or and appointment set up to further escalate the case. Writer provided case number and requested that customer calls back with an appointment.
03/27/2019	The customer stated that at 35,657 miles the rear passenger side door would not open. Now at 42,100 the rear driver side door will not open manually or electronically. The customer wants to know if this will be covered. The customer brought the vehicle to the dealership yesterday 03/26/2019 and set up an appointment 04/12/2019. Agent advised the customer that cost assistance cannot be guaranteed since they are outside of their basic warranty. Agent advised the customer closer to the date that the vehicle is at the dealership to give us a call so the case can be escalated.

Good afternoon Bill,
Is the repair going to be covered? I could see if the problem was something from wear and tear , but I have had problems with the both back doors with the passenger back door giving out and at 31000 miles , now the driver side back door is completely stuck closed, there is no way to open it (key fob , Buttons or manually) I have [redacted] children with [redacted] and I believe this is a safety issue more than anything, God forbid their was a accident or fire on the passenger side of the van it would be a death trap. Upon, doing research on the internet I am not the only one with this problem.
Thank you for your time.

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is:[redacted]

The Chrysler Case Management telephone number is: 1-844-827-2003
My direct extension: 3020719

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you.

Sincerely,

Bill

Initial Description

To Whom it may concern,\nI am writing about my 2016 Dodge Caravan that we purchased new in April of 2016 from Shelor in Christiansburg, VA. This vehicle only had 15 or 16 miles on it when we bought it and left the lot and we have had nothing but trouble out of it. Just a short time after purchase we had to return it to the service shop at Shelor because the bushings in the strut tower where bad and that was just the beginning of a long 3 years. Since then it has been back in the shop for the speed sensor, bad, door lock actuator, bad, then it would not come out of park, and then there was an electrical plug that went bad and was not covered under warranty and that cost us another $600. Now the transmission pump and the torque converter has had to be replaced and there is under 55,000 miles on the vehicle. In the past not quite 3 years we have had to have 4 rent a cars. \nWe have owned 2 Dodge grand caravans in the past and we have never had any problems with them as we have had with this one and those were used vehicles when we bought them. I understand that when things are new there is some problems and you can't always help if it does not turn out the way it should but I feel that when you are made aware of it then you need to ma[redacted] please feel free to run it and see that what I am telling you is true. We have had all work done at Shelors and we have kept up our end as far as the oil changes and everything. The tires that came on the van from the factory didn't even last a year before they had to replaced.\nThere is no way that we will get out of this van what we are paying for it so where does this leave us? Did I just get a lemon or is this the quality of the product that you all are putting out now. Dodge has always been a trusted name in our house but we no longer feel that way. \nSincerely,\r[redacted]

Hello Customer;

I appreciate your patience while we had the oil change package added to your vehicle.

This package is for 2 years or 4 oil changes and 4 tire rotation, whichever occurs first. As this is a service contract added to your vehicle's VIN, it can be used at any authorized Chrysler, Dodge, Jeep, Ram dealership.

It was my pleasure to assist. If you have any questions and/or concerns in the future, dont hesitate to contact us.

At this time, I will be closing this case.

Please do not hesitate to contact us if you need any further assistance by clicking here and sending us another email or calling us at 800-423-6343.

I also wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey, so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time, participation and for being a valued FCA customer.

Best wishes,
Jacob

04/03/2019	******LIVE SUPERVISOR CALL****** Writer spoke with customer as requested. Customer states his vehicles back door is jammed. Customer spoke with the service department at a local DLR who advised theyd have to pay for a diagnosis and an estimated 3 hours of labor for the repair. Customer feels this is a safety concern and doesnt feel responsible for the cost of repairs since its likely a product defect. Writer advised the vehicles basic warranty expired this past January or at 36,000 miles. Writer explained that the coverage has expired on the vehicle and were outside of a possible window for assistance. Writer explained that at this time, the repair cost would the customers responsibility and if there was a recall in the future, reimbursement may be considered. Customer feels this is shameful as the door shouldnt have failed as its a safety concern for the passengers/kids in the vehicle. Writer advised shed document his feedback and upheld the provided information. Customer wanted to speak with someone else who would be able to provide a more favorable answer but writer advised anyone at CAC would provide the same information. Customer ended call.

Chat Started: Thursday, April 04, 2019, 14:14:30 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Michael (22s) Michael: Hi, my name is Michael with FCA Customer Care, How may I help you? (1m 12s) Visitor: Hello Michael, I wanted to see if a repair would be covered under warranty for my vehicle (1m 29s) Michael: I can certainly appreciate your frustratio I would be more than happy to look into this for you, in order to obtain further information regarding your particular vehicle may I verify the last 8 characters of the your vehicles VIN, the approximate mileage currently, your Address, ZIP code, preferred Phone number as well as the best email address to communicate with you? (4m 44s) Visitor: VIN 5000 miles, Address as vegas, NV, ZIP: 5m 0s) Michael: Thank you very much what kind of issue are you experiencing with your vehicle? (8m 17s) Visitor: the rear passenger sliding door on my 2016 dodge grand caravan is stuck closed. I cannot unlock it via manually or through any button operation. I also cannot open it via manually or though any button operation. when i lock or unlock the vehicle through a button it makes no noise. (8m 34s) Michael: I understand, has the cause of this issue been diagnosed at a Chrysler Jeep Dodge RAM dealership as of yet? (9m 58s) Visitor: No, I don't have a lot of funds and through google it seems this is a common problem for this vehicle resulting in over a thousand dollars in repairs at the dealership. I was considering purchasing an extending warranty from mopar to see if it would be covered for the repair. (10m 35s) Michael: I do apologize I would not be able to advise if this issue would be covered under the terms of warranty prior to a dealership diagnosis. I would need to refer you to Mopar Vehicle Protection at 1 800 521-9922 regarding any extended coverage inquiries (11m 34s) Visitor: Ok. Thanks for your time. (11m 35s) Michael: Thank you for contacting Jeep Customer Assistance! Have a great day!

Customer is having issues with the slider door.

Case Comments

Date	Comment
04/08/2019	Customer was transferred to me by a MVP agent. Customer is wanting assistance with her vehicle as she is experiencing issues again with her vehicle with the sliding doors and she had taken her vehicle for this issue before. Agent advised vehicle would need to be taken to dealership for a new diagnosis to verify what the issue is with the vehicle. Agent advised last repair order was on 10/2018. Customer advised she will be taking her vehicle to the dealership to be properly diagnosed.
04/10/2019	Customer calling in stated that she was working SA Clif, SM Doyle was no longer there, vehicle diagnose result was passenger side door lock actuator issue, last time dealer fixed driver side door lock actuator issue. Customer looked for assistance in repairing vehicle issue and possibility of cost assistance. Advisor advised customer a case was created and escalated, it would be one business day following up. Customer contact
04/10/2019	CM called Customer(CM Intro eels service is trying to repair her vehicle to quickly before really examining the issue. She says Steven Creeks has a New SM and she not sure how he runs the place. CM reassure her that her vehicle repair will be repair properly. Last year her right side sliding door stop working and now the left side is making a clicking noise. Service diagnosis its the door actuator . She owns four of dodge vehicles, journey, caliber , ram and caravan. And she never had any problem with any of her Dodge vehicles. but with her Caravan. CM reassured her I will contact SM tomorrow and follow-up with her tomorrow
04/10/2019	CM called Service, SA Cliff was working with another customer. CM advised I would hold because I need to get the warranty price of the repair.. SA Cliff provide me his email address to send him a request for warranty price. CM sent email to CLiff
04/11/2019	CM sent DM notes to SA Cliff. CM called and she is very happy with my customer service. I advise I will follow up on Monday
04/17/2019	CM called customer to confirm, her vehicle is driving properly. She say her sliding door was align properly . CM advised case has will be close and she will receive a survey. She says she wants to make its noted I provided good customer service.

Passenger sliding door lock not working, can not open door

Case Comments

Date	Comment
04/11/2019	Briefly summarize why the customer is contacting Chrysler: Rear passenger sliding door is not opening. Customer has contacted his DLR they are on vacation right now but this happened before they left and DLR could not get them in until April 20, so they are now past their warranty, at the time of the initial DLR call they were around 35000. DLR stated to call Chrysler regarding this. Issue seems to be with the lock. Briefly summarize what the customer is expecting: Cost assistance
04/11/2019	Escalate to Level 2: Agent advised will escalate to case manager. Follow up will occur within 1 business day by COB customer time. Preferred phone number: [redacted] Earliest call time: any Latest call time: any Updates via email: Y/ [redacted] Vehicle location: [Customer] Date and Time of Appointment: [04/20/19]. Confirmed appointment with: [Wilder] Customer in rental: /N Authorized by: Rental start date: [Date]
04/15/2019	***Outbound DLR Call: SM Jerry D. Left a detailed VM. Requested a return call back, Provided call back information.
04/15/2019	*Outbound Customer Call: Left a detailed VM. Requested a return call back, Provided call back information. Attempt 1/3.
04/15/2019	***Outbound DLR Call: Left a detailed VM. Requested a return call back, Provided call back information. Confirmed details he left on VM. L2 will follow up on 4/22.
04/17/2019	*Outbound Customer Call at [redacted] Customer said last week he went online and found information on his concern. He said he had just over 35,800 miles and did not get an appointment until 4/20 and knew it would be over the mileage at the time of appointment. L2 advised will take that into consideration when gathering diagnosis details. Advised will complete research and follow up with the DLR and then the customer. Customer agreed on process and concluded call.
04/19/2019	*****CUSTOMER SNAPSHOT****** WARRANTY: Powertrain, Corrosion, Federal emissions Major emissions comp and carb high cost emission part MVP CONTRACTS: 0 MILEAGE: 36004 IN SERVICE DATE: 10/31/2016 ORIGINAL OWNER: Yes HOUSEHOLD VEHICLES: 2 DEALER LOYALTY : No - No RO's on file REPEAT ISSUE: No STAR TICKETS OPEN: 0 RECALLS: 0 PREVIOUS GW: 0
04/22/2019	Customer cam in this weekend and will need a new drivers side sliding door latch assy. The customer is out of basic warranty and has zero service history with any dealer. This would be up to FCA if they would want to cover this under any goodwill as with the limited service history it would not qualify for goodwill at the dealer level. Customer pay price would be $903.50 parts and labor.
04/22/2019	*Outbound Customer Call at [redacted] Customer was offered to pay for the repair and L2 would cover half the charges but customer declined offer. He said this is an issue that he found online and people have written to NHTSA regarding this safety concern. L2 advised the positive feed back of the snap shot but he had no RO's on file, normally the customer would be responsible for the repair that wty does not cover and why the L2 was considering reimbursement for half the repair cost. Customer said he was going to find a cheaper option and disconnected the call.

Date	Comment
04/22/2019	***Outbound DLR Call to SM Jerry: L2 advised extended offer to reimburse half the cost and customer declined. SM said he will reach out to the aftermarket SC and see if they will cover it, if not the customer will owe the diagnosis fee. SM said customer was returned the vehicle to the customer in good faith and did not have the customer pay yet. Thanked and concluded call.
04/22/2019	Customer calling stating he would like to accept the offer, please give him a callback a[redacted]
04/24/2019	Please advise if we are okay to proceed with original offer of getting half of the repair covered for this customer. I am assuming you would be sending them a check for half the cost of the repair. So we would charge him the full amount and then he could wait for a check from you for the difference.
04/24/2019	Dealer called in for customer and states that the customer would like to accept the offer that was given to him by the CM. Agent advised dealer to have customer call in to have another case opened to revisit the concern for vehicle.
04/24/2019	Customer is calling in about the offer that was offered to him. he accepts the offer please give customer a call back as soon as you can get in contact with him.
04/25/2019	What is the decision on this for this customer. Please call me[redacted]
04/26/2019	Contacted dlr and had to leave a message with CM information for callback
04/26/2019	CM spoke with customer. Customer stated he did not originally decline goodwill offer he just wanted to check the extended warranty he had to see if repair would be covered through that. The customer accepts the onetime goodwill offer for half the repair cost . CM informed an email will be sent with CM contact information and he can also attach documentation of repair to the email and I will start the process of reimbursement for half of repair once it is received
04/26/2019	Email to Jerry Davis to proceed with repair
04/29/2019	Email to customer
05/01/2019	CM contacted customer to inform part is at dlr they are waiting on him to schedule an appointment Customer will contact dlr
05/01/2019	CM contacted dlr to check on status of repair was informed they are waiting to set appointment with customer
05/06/2019	CM contacted customer who stated appointment set for Friday 5/10/19. CM informed will follow up then to see if vehicle has been repaired to satisfaction
05/13/2019	Customer stated vehicle is repaired and he will send email attachment of repair order so reimbursement process can begin. Onetime goodwill offer to cover half of repair

Good evening,

I have received the attachment however I am unable to view the last digit on the cost of repair. Could you please resend the attachment that way we can start the process of reimbursement?

Thank you
Dominique

Good morning [redacted],

I have received the documentation. As previously discussed FCA is offering a onetime goodwill consideration that will cover half of your repair which totals $490.15. I have submitted a reimbursement request in the amount of $490.15 and I will provide you with updates on approval status. Please note that reimbursements can take 30-60 for approval. Once approved you will receive your reimbursement check within 14 days of approval date. If check is not received within 30 days of approval please contact FCA at 800-423-6343 for assistance.

Thank you
Dominique

Initial Description

T8017JE
As I said in my thread, both of the sliding doors on our 3 year old T&C are malfunctioning. Right after we purchased the car, in the summer of 2017, we had an issue with the passenger side door. We took it to the dealer, but here we are again. That was a negative experience (I wrote them a note to that effect), and we're honestly reluctant to go back. Anything else you can do for us?

Hi Pierre,

This is [redacted] lets use this email address.

Both sliding doors in the vehicle are out of commission.

On the passenger side, the lock will not engage electronically. Neither the key fob nor the button from the cockpit work. You have to move the lock manually in order to lock or unlock the door.

On the driver side, the door will not open at all. The lock will not engage even manually.

The passenger side problem is a nuisance, the driver side problem feels like a real safety hazard.

I had an appointment with the dealer this week, but canceled. I can reschedule. What I am wanting to understand is whether Chrysler will offer financial relief with this repair. The van is a 2016, so it is far too early for these mechanisms to give way.

Thank you,

Hi Pierre,

I just took the van in to the dealer.

They are planning to charge $300 for the diagnostic fee ($150 x 2 because of 2 doors?). We are concerned that we are being charged this much. Can you help?

Thanks,

I was just on the phone with the Service Manager. Because issues could be different with doors, diagnosis fee is separate for each. If the repairs are related, you will be only charged for once. Hi Pierre,

After not hearing anything from the dealer today, I called just now. They are saying that the drivers side door latch is bad, and that the key fob needs to be replaced.

With parts, labor, and the diagnostic fee, its $1500 out the door. Thats a lot of money for us, and it is frustrating to think about paying that given that the van is just 3 years old.

Is there anything Chrysler can do to make this right for us?
Thank you

I was just on the line with Miguel. The case has been reviewed for assistance and this is a one time Goodwill offer. FCA is more than happy to assist with repairs with a copay of $250.00. If you chose to agree, the copay will be made to dealer once vehicle is repaired. Let me know if you have concerns or questions.

Hi Pierre,

Thanks for checking on on this. We appreciate the offer from FCA. To clarify, FCA would cover the bulk of the bill and we would pay a $250 copay. Is that what you are saying?

Thanks again

Hi Pierre,

Still wondering about the precise nature of FCAs offer of financial assistance, but I wanted to email again since I had a couple of conversations with Miguel this morning.

When he told me that the key fob was the issue with the passenger side door, that didnt sit well with me. After talking it over with my wife, we realized that our experience has been that when you sit in the van and unlock the doors using the button, it doesnt actually unlock the door. That can only be done manually.

So I called Miguel back, told him that, and he went out and checked. Sure enough, its not just (or only) the key fob. Hes going to get me a revised estimate.

If you can let me know what Chrysler is willing to do to help us, that would be great. Depending on the amount, we may opt to pull the van from the dealer and get it fixed elsewhere, due to cost and a (growing) lack of confidence in the dealers ability to fully fix the issue.

Thanks

Miguel is not currently in for me to confirm current pricing. I am waiting on the service manager to confirm details. I spoke with Miguel late afternoon yesterday and if all details are the same, your copay toward repair is $250.00, FCA will take care of the rest as a one time GOODWILL. Let me know what your decision is.

Thank you

Pierre

04/16/2019	Caller stating her back door is locked from the inside and is not able to open. Caller wants to know if FCA will assist with the repairs. Agent reviewed the VIN and did see caller was OOW, and has not had the vehicle diagnosed by a dlr and called to speak with a SA and was told the cost would be 1400. Agent reached out to the Griffins HUB CDJR-3333 and spoke with SM and he stated they would have to look at the vehicle before giving an estimated price as well as making sure the child lock is not on. Agent informed the caller that due to her being OOW and not having a diagnosis done FCA was unable to assist with the expenses.

04/16/2019	*NEXT AGENT CALLER IS OOW* Caller states her sliding doors in the back of her vehicle are locking up and not able to be unlocked. Caller went to the dlr to have a diagnosis done from being informed about a recent diagnosis for further assistance from previous agent. Agent informed the caller that all vehicles must have a recent diagnosis up to at least 14 days. Caller went to the Vestival cdjr-06000 to have the vehicle diagnosed and was informed she would have to pay 900 for the repairs. Agent reached out to the dlr and spoke with SA George who stated the sliding latch seized up and a=it will not move. Agent reviewed the VIN and found there was no basic warranty and that the LLS and CS scores are little to non existent and agent informed the caller due to the issues not being recall related nor the caller having any basic warranty on the vehicle that the expense would have to be paid OOP. Caller was upset and requested to speak with someone higher upper. *NEXT AGENT CALLER IS OOW*

DLR has been unable to diagnose

Case Comments

Date	Comment
04/17/2019	Customer states the side door permanently locked or [redacted]on. She is buying tires yearly, has had several alignments. After the last one in 01/19, IRF advised the back axle is off from frame and asked if vehicle had been in an accident. She will take it to DLR 66012 for inspection and diagnosis.. Customer wants to know if the frame is off, what can be done. Also the transmission, and water pump have been replaced, the ac went out, heater is making noises, oil is draining, passenger seat belt light activating when no passenger in. driver light will activate when seat is buckled, back hatch opens when you push remote button for another door intermittently. Issues have been reported to DLR, unable to duplicate.
04/17/2019	Agent called DLR to schedule diagnostic appt. Scheduled an appointment with Ryan in SD.
04/25/2019	The writer called the DLR and asked for the Service department. The writer left a voicemail asking for a call back.
04/26/2019	The writer attempted to contact the customer a[redacted]t had to leave a voicemail due to the customer not answering. The writer provided their name and contact information. Attempt 2/3.
04/30/2019	The writer called the DLR and asked for the assigned SA. The SA informed they can not verify who worked with the customer as their computer is down. The SA asked for a call back tomorrow.
04/30/2019	The writer called the customer and informed them the call was being monitored or recorded for quality purposes. Change tires/ do alignments often. The customer said that they had to turn the vehicle to the right to drive straight. Rear frame was slightly off. The customer had never been an accident. The customer has tried contacting multiple dealerships (up to 3 hours away) to check the frame. The customer said that she needs a DLR to do a frame check. The back door is permanently locked. Buckle seat belt on drivers side and passenger, Sometimes the buttons to close the doors do not work. 46,000 miles on the vehicle as of yesterday. The customer is also looking for cost assistance. The customer said that the seat belt in the third row is a safety hazard.
05/01/2019	The writer called the customer and informed them the call was being monitored or recorded for quality purposes. The writer called the customer and informed that we could look into assisting with the buttons or the rear passenger door being locked. The writer informed as for the rear frame if there isn't an FCA DLR with a wide enough machine we can not look into assisting. The customer understood and said they would need an appointment around May 22nd in the afternoon between 1 and 3.
05/01/2019	The writer called the dealership and set an appointment for May 23rd at 3 PM.

05/01/2019	The writer called the customer and informed them the call was being monitored or recorded for quality purposes. The writer informed of the appointment information. The customer wanted to know if they would need to pay for the diagnosis up front. The writer informed they were unable to verify but would call the dealership again and call the customer back.
05/01/2019	The writer called the DLR and was transferred to the SM's voicemail. The writer left a message.
05/01/2019	The writer called the DLR and spoke to SM Kenny. Kenny said the diagnosis fee has to be paid before the vehicle leaves. If the DLR orders parts they have to pay the fee and 35% of the cost.
05/01/2019	The writer called the customer and informed them the call was being monitored or recorded for quality purposes. The writer informed what the DLR had said. The customer now wants to know what the diagnosis fee is. The writer informed they will call the DLR.
05/01/2019	The writer called the DLR and was informed that the diagnostics fee would be $105 an hour.
05/01/2019	The writer called the customer and informed them the call was being monitored or recorded for quality purposes. The writer informed the customer of the diagnostics fee. The writer informed the case will be suspended until the 23rd and the writer will follow up 05/24.

Good morning
The dealer has accepted and we at FCA will be sharing the cost to repair your door concerns. Your estimated cost out of pocket will range between $425 - $450.00

The dealer has ordered the parts and once at the dealer, they will reach out and schedule you an appointment for install.
I will follow up after the repairs are completed, and anticipate that to be on May 01.

Thank you for being a loyal customer with Dodge, and I look forward to speaking with you again on May 01.

Chat Started: Tuesday, April 23, 2019, 13:58:08 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Mitchell (4m 27s) Mitchell: Hi, my name is Mitchell with FCA Customer Care, How may I help you? (5m 24s) Mitchell: Good afternoon [redacted] (7m 25s) Visitor: we have a town& country (2016) that the driver side sliding door is stuck shut. It will not unlock, either electrically or manually. (8m 38s) Mitchell: I'm sorry to hear about the sliding door issue [redacted] I would certainly like to take a look into this with you here! This was for your 2016 CHRYSLER TOWN & COUNTRY TOURING? (8m 58s) Visitor: yes. VIN #[redacted] 12m 47s) Mitchell: Got it, I would like to get a case started up for this and see what we can do to help out. Do you happen to know the approximate mileage on the vehicle currently? I would also need to verify the home address. (13m 35s) Visitor: Mileage is somewhere in the 7x,xxx range. Home address is [redacted] Highland, IL [redacted] 17m 7s) Mitchell: Thanks for confirming this! I have the case started up here [redacted] Looking in on the vehicle information it looks like there is not a recall or extended warranty for this issue currently. I would like to check on the Technical Service Bulletins to see if the dealerships have a repair guide for this. Has the vehicle been checked out by a dealership or was this a recent development (19m 16s) Visitor: It occurred a few days ago. My wife took the van to a dealer and they stated that an actuator needed to be replaced, and that the cost would be substantial (> $500). But it seems to me that if the problem was the actuator, we would be able to manually unlock the door from the inside. (19m 53s) Visitor: Also, we've researched this issue online and this seems to be a common problem for the T&C line. (28m 21s) Mitchell: Thanks for confirming this! This was at the McGinley Inc location? I was checking in on the warranty information for this it looks like this would have been under the 3 year / 36,000 mile basic warranty for the door and locking mechanisms. I can also see a Certified Pre-owned coverage with the Mopar Vehicle Protection team, did the dealership check this for coverage as well? (29m 25s) Mitchell: I will be reporting this for the recall tracking team as well. If there is something developing for the door locks we will be sure to include your vehicle and send you a letter out in the mail. Currently it looks like there are no Tsbs or related recalls at the moment. (30m 8s) Visitor: I'm not sure what McGinley checked. (30m 43s) Mitchell: I was checking on the support options to help with this outside of warranty but I am afraid we are to far outside of the 3 year / 36,000 mile time frame to offer assistance with the costs. My best suggestion for this would be to check with the Mopar Vehicle Protection team on the plan and see if the extended warranty for being Certified may help with this. Currently they can only be reached by phone at 1-800-521-9922 (37m 45s) Visitor: I'm speaking with them now... (39m 18s) Mitchell: No problem! I'm sorry not to be more immediate assistance on this. Let me know if you have any other questions. (45m 7s) Visitor: Can you confirm that a defective actuator would prevent the door lock from being manually unlocked? (47m 12s) Mitchell: Potentially, it depends on how it is defective. If it's seized the manual override may not be able to unlock it. (47m 42s) Mitchell: I'm afraid we have more limited technical information here on the customer service side. So we may need to the dealership to look at the vehicle to confirm but it is possible. (49m 25s) Visitor: Thank you for your help. I appreciate you looking into this. (50m 25s) Mitchell: You're very welcome. Was there anything else I can check into for now? (51m 6s) Visitor: No thank you. But I will say, this situation will definitely be a factor in our next vehicle purchase. (53m 52s) Mitchell: I can certainly understand that! I will do my best to raise more attention to this issue and bring this to the recall team's attention. If anything else gets released for this i will make sure to update you as soon as possible. For now [redacted] would like to thank you for contacting Chrysler Customer Care. Please chat with us again if you need further assistance or contact Chrysler customer care at 800-247-9753. Case Comments

Date	Comment
04/24/2019	Customer stated took vehicle to dealership Posner in January/19 for door issue and stated they could not duplicate the issue at that time. Agent further stated took the vehicle back to the dealership on 3/26/19 with the same issue and now they are stating it is out of warranty.
04/24/2019	Agent contacted dealership and spoke to the SM Savannah who stated that there is no record of diagnosis being done back in January. Agent advised Savannah that customer just drove there for oil and tires and asked a SA to look at this clicking issue she had but did not have an appointment so therefore it was not documented. Savannah stated they have to replace the 2 sliding door actuators and 2 appliques and she waived the 151.79 diagnostic fee for her and stated the cost will be $1608.80. customer is out of goodwill parameters to assist. Savannah will also do a 10% discount on the parts for the customer
04/24/2019	Agent advised customer of this
04/29/2019	Customer wants to know if her vehicle has a third and fourth part for her sliding door actuators. States she had a diagnosis done on 3/26/19 at Posner Park Chrysler Dodge Jeep Ram FIAT, 60524. Agent provided information thru service library for Actuator power cinch left and right, and actuator sliding door lock right and left.

Good Morning, Linda,
I just wanted to give you an update on my van. On Saturday, May 11th, I pulled up to my [redacted] put the van in park, and turned it off. I went to put my children in it not even 10 mins later to grab a bit to eat and the van would not turn on. There was no power at all, no clicking, nothing. I couldn't even lock it. It took 2 hours for it to finally start up but the engine was still hot. This is the first time it has occurred. My father said it may have something to do with the circuit breaker for the battery? Every time the van shuts off then the radio is deprogrammed and the time sets back to 12:00 so that whole portion restarts. I'm hopeful that we can get this resolved as I fear for my children's life while we are in it. I feel like it is a death trap. I know it's not your fault but it's just a little frustrating when I bought this brand new and I still owe $19,000 on it. I'll be dropping it off to Steve Jones on my lunch at noon. Thanks for taking the time to help me and being compassionate and understanding.

Hi [redacted]
Thank you for the email.
I see that your vehicle is now at the dealership as well.
I definitely understand the concern with the issues.
I've documented the issues as well (that you added in the email).
Hopefully the dealership will be able to address them so you can feel safe in your vehicle once more.
I will still follow up on Wednesday unless I hear back before hand.
If you have any other questions, let me know. I'll look into them for you.

Good Morning Jevon,
Our total is different. See attached. Either Chrysler hasn't sent these or our billing department hasn't processed the invoice yet. So the claim should be ran for $1918.84.
Please let me know if you have any questions.

Initial Description

I recently purchased a 2016 T&C. I have only owned it for a few months. Its great! I am due to have a this year. I bought this minivan specifically for the stow and go seating and the sliding doors. I've installed my carseat for the new baby which blocks the exit to one side of the van. I need the other door to operate. All of a sudden out of not where the door no longer opens. I have read on the internet about this happening to a lot of other people. Whats the point of having a van and the doors not working? This shouldn't happen. There should be a recall if so many other people have the same problem.

Hello [redacted]
Thank you for contacting Chrysler Customer Care.
Congratulations on your new Chrysler Town & Country!

We are disappointed to learn of your concern with the sliding door not opening on your Chrysler Town & Country and I would like to assure you that I will do everything I can to assist you.

Based on the information that you have provided, the best plan of action would be for you to see one of our authorized dealerships for a diagnosis if you have not had one yet. Once there, if you have any further concerns, you are welcome to contact us again. For your convenience, I have provided contact information for 2 dealerships in your area below:
Crown Chrysler Dodge Jeep Ram Fiat
2120 Chapman Rd
Chattanooga, TN 37421-1689
423-591-6868

Moss Motor Company Inc
1005 S Cedar Ave
S Pittsburg, TN 37380-1415
423-837-7114

Also I see we aren't showing you as the owner of this vehicle currently, I will send a second email for you to attach a photo of the registration or bill of sale. Once we have the photo we will be able to update the information for you.
Please do not hesitate to contact us if you need any further assistance by calling us at (800) 247-9753.
Thank you again for your emai[redacted], Have a great day!
Best wishes,

Case Comments

Date	Comment
04/29/2019	Customer called because the passenger, driver and tailgate will not lock/unlock or open. Customer brought the vehicle to the dlr and they had it for a week x2. The dlr replaced parts and said the issue was fixed, the customer is upset and seeking technical assistance with this issue.
04/30/2019	-O2C* CM contacted customer and was advised that she is having issues with the locks where it takes her 2 or 3 times to click the button before it works. Customer is declining to take her vehicle to another dealer because she feels like it should have been fixed under warranty. CM advised customer that CM cn provide cost assistance. Customer declined. Customer stated that the dealer stated that they dont know how to fix it. CM then made the recommendation again that the vehicle should get a second opinion from another dealer. Customer declined and stated that she would like someone above CM for this concern. CM advised customer that CM will put in supervisor request and branded and disconnected call.
05/01/2019	customer called in regarding her case and just wanted to speak with someone regarding this concern
05/01/2019	Vehicle has arrived at dealership Normandin Chrysler Dodge Jeep Ram FIAT and attended by dealer employee
05/03/2019	-O2D* CM contacted dealer and was sent to Steve Rogers VM. CM left VM for a return call.
05/07/2019	-O2D* Steve Rogers stated that the field tech is already involved and also they are waiting on the TIPM and it should be in on Thursday.
05/15/2019	customer calling to speak with cm
05/15/2019	-Inbound from Customer* Customer stated that the vehicle is not fixed and the dealer advised her that she cant wrap her hand around the door handle and push the button at the same time. CM advised customer that CM cant do anything to change the concern and apologized. Customer thanked CM.

Case Comments

Date	Comment
05/01/2019	Customer's wife called in then put the customer on the phone. Customer stated that his door will not open on the vehicle and the dealer is advising him to have a diagnosis done however he doesn't understand why a diagnosis needs to be done. Advised that a diagnosis needs to be done at the dealership to determine the cause of the door not opening. Customer stated he did not know why that would effect the warranty. Advised that the basic warranty is expired, the powertrain and corrosion warranties are good. However, a diagnosis would need to be done to determine if the issue would fall under a warranty. Customer disconnected the line before I could complete the call.

I am sending you this email regarding the closure of your Case with Case Management. I would like to provide you with my contact information again should you have any questions or concerns in the future.

Your case number:[redacted]

FCA Case Management Phone Number: 1-844-827-1999

My direct extension: 302-0861

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case.

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore you could potentially receive an email or a telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience.

Thank you for your time and participation and for being an FCA customer.

It has been a pleasure working with you, all the best!

Case Comments

Date	Comment
05/06/2019	Customer stated the door was off the hinges after the lock was repaired so she had to keep the rental car for longer than expected. Customer stated the first rental for the lock repair was covered it was the extra rental while waiting for the door to be fixed that she is being charged for. Customer stated she was under the impression that the rental would be covered due to the repairs being covered under manufacturer warranty. Agent advised customer rental was not guaranteed under warranty but it can be reviewed further to see if we are able to assist. Customer thanked agent and call ended.
05/07/2019	reviewed documents and found: Customer submitted : Awaiting document of proof of payment from customer Agent Customer seeking reimbursement for __ repair to vehicle door/lock Customer had vehicle repaired at Reedman Toll Chrysler Dodge Total reimbursement seeking $ Customer (does/does not) qualify for reimbursement. Awaiting documents for determination
05/08/2019	Customer called in for fax. Agent supplied fax and case number
05/15/2019	CM contacted customer to discuss reimbursement and request additional documentation. Proof of payment is needed (credit card statement). Customer agreed to send it in. CM emailed customer so she can attach the statement.
05/16/2019	CM contacted and spoke with customer to give status on the reimbursement. Customer is not merit to goodwill for car rental extension. The vehicle was in service with Reedman Toll Chrysler Nov. 30, 2018 for sliding door latch repair. Chrysler paid for car rental the first 3 days and the vehicle issues were not resolved after repair. Therefore customer kept the rental 3 more days until second repair was complete. Customer no longer owns the vehicle and it was the only Chrysler owned by customer. There was no active service contract. Customer does not merit goodwill. Customer stated they will seek an attorney if not approved and requested a Supervisor call back.
06/04/2019	**********Supervisor Call back****** Explain to customer that we wouldn't be able to cover the rental cost. Customer very upset during the conversation and the call disconnected.

Chat Started: Monday, May 06, 2019, 15:20:39 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Amber (14s) Amber: Hi, my name is Amber with FCA Customer Care, How may I help you? (3m 2s) Visitor: Hello. My wife leases a 2016 Town & Country and is having an issue with the sliding doors. The door appears to be stuck in the lock position. The vehicle is currently out of warrant and the dealer wants $100 just to look at it. I have taken it to multiple repair shops in my area and they have not had any success in opening the door. Is there something Chrysler can do or is there someone who can walk me through getting the door open so I can get it repaired. (3m 54s) Visitor: I have read multiple forums and this does not appear to be an isolated issue. Is there a recall on the doors or a part in the doors? (5m 2s) Amber: I am very sorry to hear you are having trouble with the van doors [redacted] can certainly understand how this would be frustrating, I would be happy to look into this for you to see if there is a recall or extended warranty placed on the concern. Could I get the last 8 characters of the vin so I can do so? (5m 39s) Visitor [redacted] (5m 52s) Amber: Thank you, Before proceed I would need to verify the contact information we have on file to ensure I have the right file. Can you please confirm your mailing address, phone number, email address and current estimated mileage? (7m 58s) Visitor: It is my wifes car [redacted] South Lyon Michigan [redacted] I am not sure if the mileage, I can text her and ask if it is necessary. (9m 19s) Amber: Thank you, I do not need an exact mileage, do you know if it is over 60,000 miles? (9m 57s) Visitor: I do not believe so. (10m 50s) Amber: Thank you, that is all I need. I will just be one moment (17m 35s) Amber: Thank you for waiting, [redacted] do not see that there is a recall or extended warranty on the door, our dealers are out technical resources so I apologize I would not be able to offer any mechanical advise for this issue. That being said we can certainly look into providing cost assistance for this repair if you can have a Chrysler dealer look at it for you or even set an appointment with a Chrysler dealer. If you are able to set an appointment and reach out to us with the time, place and mileage we can have this escalated for you. (20m 34s) Visitor: What does cost assistance mean? This should not have happened to the vehicle and is a serious safety risk! The door will not open and can not be unlocked. (23m 0s) Visitor: I dont think it is reasonable to do expect someone to pay $100 to look at the vehicle and then pay more to fix it when it appears to be a vehicle malfunction. (24m 10s) Amber: I can certainly understand your concern with this [redacted] However after the vehicle is out of warranty these concerns do become the owners responsibility to have repaired. There is a period outside of the warranty that we can look into helping with the cost of the repair, but we need to have a dealer look at it to do so. If you would like us to look into providing assistance we can certainly do so you will just have to have an appointment with a dealer set. (25m 9s) Visitor: When I set an appointment who do I contact to make them aware? (26m 38s) Amber: You can reach back out to us here through chat or you can call us at 1-800-992-1997 and reference the case numbe [redacted] Any agent you speak with will escalate the case for you and then the case manager will contact you and the dealer in 1-2 business days and take over the case. (29m 24s) Amber: Was there anything else I could look into for you today, [redacted] (30m 56s) Amber: Thank you for contacting FCA Customer Care. Please chat with us again if you need further assistance or call FCA Customer Care at 1-800-992-1997. Have a great day!

passenger sliding door not unlocking, after vehicle went to dealership for repair for regulator i

Case Comments

Date	Comment
05/07/2019	Passenger sliding door not unlocking, after vehicle went to dealership for repair for regulator. Cx states that they called the dealership right away and SA AL told her to bring it back in and they would take care of it right away. Cx states she told AL she was going away and they just got back Sunday. Cx states now SA AL states she may have to pay another $100 deductible and she feels that she should not have to. Cx took vehicle in to dealer Jim Click for window dropped; regulator in drivers side door and had to pay $100 deductible. Cx states that after window regulator repair the Passenger sliding door started not unlocking; you could only do it manually. Cx feels this issue is result of them working on the previous repair for window regulator. ****Agent called dealership and LVM to SA AL & SM Brian advising them of customers concern. Agent asked both SA AL & SM Brian to call cx back at in regards to her concern.

05/23/2019	Placed call to customer, at phone # [redacted] no answer, no voicemail setup. ********** Placed call to customer, at alternate phone # [redacted] spoke with wife [redacted] who stated that she is having issues with left passenger door, the door will not unlock and stated vehicle hesitates to accelerate pass 20 mph. Admits she has not taken it on the highway, out of fear that vehicle will stall. She states that overall she does not feel safe in vehicle and they would like a buyback/replacement. Advised her that I understand her concerns and asked if she is taking vehicle back in for repairs? She said yes, she will call me back to update me with appointment date and time with the same dealer.

05/28/2019	Placed call to customer, at phone # [redacted] advised customer that I talked to his wife, and she advised they were still having issues with vehicle and was calling to inquire about appointment date and time. Customer did not say there was an appointment setup, but said they will take it back in by Thursday, 05/30/19. Advised I will follow up on same day to verify. Customer is okay with this.
06/03/2019	****Notes not saved due to error**** 6/3/2019 2:12:37 PM: User Comment by Tierney: Contacted customer at [redacted] and he stated they have not had time to take vehicle back to the DLR yet. I informed him ok that I would go ahead and place his case on hold and when he gets a chance to take it back to the DLR he can contact his CM and let her know and we can get the case off hold. Customer stated ok thank you. ---------- 6/3/2019 2:10:49 PM: User Comment by Tierney: Contacted DLR 27100 and spoke with Daniella and she stated the SA Andy is not there and the SM manager name is Alex Kazaryan and the customer did not bring his vehicle back in.

(5m 16s) Emily: Yes I would be a Dodge rep (6m 40s) Visitor: Ok Great! We are having issues getting anyone to help up after we initially contacted Dodge Customer Care and spoke to Teresa. She offered a solution to link us with Riverside Dodge in New Bern NC, after having a bad experience at Mike Toler Dodge in Morehead City. (8m 13s) Visitor: We had been dealing with Trudy at Riverside and she was initially very helpful and since then has not returned calls and has "lost" our invoice that we sent her via email. (9m 48s) Emily: I apologize what you are going through and I'm glad that you have let us know about the concerns that are going on. I would be happy to look into this with you. May I please have you confirm the name and address on the vehicle? (10m 55s) Visitor: The issue is our rear driver's side door will not open any more. We spent the money to get an estimate from Mike Toler, where we bought our Van and in the process my wife was spoken to rudely and was offered other services and after driving away, our DVD player stopped working, our rear heated seat stopped working and our tire pressure was low. (11m 14s) Emily: May I please have you confirm the last 8 of the VIN on the vehicle please (11m 24s) Visitor: [redacted] eaufort NC [redacted] 11m 51s) Visitor: Give me one minute to run out to my van and get the VIN. (15m 47s) Visitor: 60,000 miles, so I know we are out of warrenty (16m 57s) Visitor: The issue is a door latch that is common issue and costs over $1,000 to fix and is a huge safety concern. We have kids and if there was a car fire or accident, they could not use that door to get out. (18m 8s) Visitor: When we made a report to Teresa on April 8th, she offered to help us and link us up with Riverside to address the issues. We have had no success with Trudy and Riverside since then. (18m 43s) Visitor: We are very nice people and just frustrated at this point with Dodge Customer Service and our Van. (21m 26s) Emily: I can understand the concern with the matter , you currently have the van at this time ? (22m 21s) Emily: I would be happy to open a case on the matter for you but we would need to have the vehicle at the dealership to have a diagnosis completed. I understand one was sent via email from the first location. (23m 44s) Emily: Are you there ? (24m 48s) Emily: Due to the lack in response I am going to have to disconnect the chat. Initial Description

Hello,\n\nBack in November of 2018 we had to have the driver\342 s side sliding door lock fixed due to it no longer locking. It was $518 to fix which is pretty expensive just to fix a lock that shouldn\342 t break in the first place. I understand our vehicle was not under warranty. However, now the passenger sliding door lock has stopped working. Which obviously will be around the same cost to fix. It seems like a major design flaw to have both locks stop working on a 2016 vehicle already. Especially since we hardly even use the door on that side. Again, I understand it is no longer under warranty. But I see no reason why this should even be an issue. And it\342 s a safety issue to not be able to lock the door. It will not even lock if we try and do it manually. Is there anything you can do to help me with this and stand behind your product? This is definitely a safety issue not a \342 nice feature to have.\342 Looking online it seems there have been many people with this same issue with this vehicle. \n\nThank you,\[redacted]

Hello [redacted]
Thank you for contacting Chrysler Customer Care.
I can understand the aggravation you must be feeling in regards to the door lock failing on your vehicle, especially considering how costly repairs can be.

I have researched your request for reimbursement on the door lock, and have utilized every possible resource. Your warranty for this issue was for 3 years / 36,000 miles whichever occurs first. Furthermore, there are no service contracts, recalls or extended warranties pertaining to the door locks.

Being as I have exhausted all avenues, we would be unable to comply with your request for reimbursement.

I thank you for taking the time and effort for bringing this matter to our attention.
Please do not hesitate to contact us if you need any further assistance by calling us at (800) 247-9753.
Thank you again for your emai[redacted]. Have a great day.
Best wishes,
Jennifer

05/14/2019	Customer requesting goodwill assistance. Says that repairs were quoted at $2,000 for sliding door repair. Customer is just out of basic warranty. Called dlr# 45100 s/w Josh and he verified cost of vehicle repairs would be $2,191.41 out the door. Escalating for goodwill consideration, customer is only about 2 months out of basic warranty.

05/16/2019	***Outbound call to customer*** CM contacted and spoke with customer regarding their vehicle's concerns. Customer stated they had been taking the vehicle to another DLR a couple different times while vehicle was still in warranty and DLR kept advising customer there was nothing wrong with the vehicle. Customer has now taken the vehicle to another DLR which they have found a repair for the issue. Customer is seeking assistance with repair cost. CM advised customer they will contact DLR and work with SA to provide assistance.
05/17/2019	CM contacted DLR and spoke with SA Josh which confirmed customer's vehicle is at the DLR and they haven't pulled the entire door panel off to get a full diagnosis, but they have been able to loosen up the door panel to look inside which they can see where some wires, cables and door module needs to be replaced and customer is looking at about $2,191.41. Customer has not authorized DLR to pull entire door until they confirm they can get cost assistance. DLR is not willing to accept DM notes because customer didn't purchase the vehicle from that DLR and states it's the customer's first time bringing their vehicle to the DLR. CM was transferred to SM to speak with them but they were unavailable at the time. CM left detailed vm for customer to have SM call back.
05/22/2019	CM contacted DLR and spoke with SM Salvadore which confirmed they are going to assist customer with repairs after researching customer's vehicle & repair history and confirming customer has been working with their sister DLR for an ongoing issue which that DLR (Rockwall) was not able to resolve customer's issue.
05/24/2019	CM contacted DLR to get an update on customer's vehicle. CM spoke with Kyle in service which stated they are not showing customer's vehicle at the DLR. CM asked to speak with SM Salvadore which was familiar with customer's vehicle and SM was unavailable at the time. CM's contact information was provided to have SM call back.
05/29/2019	CM contacted DLR and spoke with SM Salvadore which confirmed they have reinstalled parts that were installed improperly by previous DLR and vehicle is running fine. SM confirms customer has picked up the vehicle.
06/03/2019	CM has confirmed with customer repairs have been completed on the vehicle. Customer confirms vehicle has been returned and issue has been resolved.

Good Morning,

I did speak with the dealership and they are not willing to accept our goodwill authorization to assist with repairs being that the vehicle was not purchased from that dealer and it's the vehicle's first time at that dealership and there's no dealer loyalty, I do apologize. The only thing I could advise is to pay out of pocket for repairs and being reimbursed

It may be the first time there, but I have had other vehicles there before. My dodge dart has been seen there before. Not only that but Dallas and rockwall are owned by the same people and my vehicle has been into Rockwall. I did not go back to Rockwall because they didnt fix the problem to begin with! Which is why I am now stuck with a $2200 repair... I find it to be extremely frustrating that they will not fix a problem that they didnt fix to begin with regardless of whether it was seen at Rockwall or Dallas as they are owned by the same person.
I will not have dealer loyalty for a dealership that will not properly handle issues or work with the company I bought the car from!! If they are not willing to work with yall or myself I will never step foot back into either Rockwall or Dallas! And will spread the news of their customer service! Can I ask who you spoke to?

What do you mean by pay the repairs and be reimbursed?

If Dallas isnt willing to fix it then Rockwall needs to fix it without me
having to pay the $240 for Dallas to "look" at it. Dallas can give my car
to Rockwall to fix... but I will not pay either dealership $2200 for a
problem that should have been fixed before the warranty went out.....
I apologize. I know you are trying to help me but I am at a loss right
now.. i dont know what to do. I do not have $2200 to fix this vehicle and I
refuse to pay that when the car was seen by the same owner of Dallas dodge
a month and a half ago and is still having problems..

I definitely understand the frustration and I do apologize for any inconvenience. I did speak with the service advisor Josh and also the service manager Salder (not sure if I spelled it correctly) which the service manager himself did also advise they are not willing to accept the authorization for goodwill repairs from case management because of their internal matrix system that they use inhouse to determine if they are willing to accept or provide goodwill gestures. When it comes to dealerships they are independently owned and we unfortunately can not enforce or make the dealerships provide goodwill, accept repair authorizations, or change their fees when it comes to diagnostics or repairs they do also have to get their technicians paid. When it comes to ownership between the two dealerships case management is not able to determine what this dealer may accept and what the other dealer may not accept, and after speaking with the service manager at Dallas Chrysler they are not willing to accept repair authorization. I do understand where you mentioned you don't have that kind of money laying around to pay for repairs, but that is the only suggestion I can provide at this time being that the dealer is not providing or accepting goodwill.

Good Afternoon,

As I mentioned yesterday and the last time I spoke with the dealership they were not willing to accept authorization from Chrysler to cover repairs. I also suggested to you if you wanted the vehicle repaired you would have to pay out of pocket for repairs and submit documentation for reimbursement. As stated before case manager can not force the dealer to accept repair authorizations. If they are moving forward with repairs that is not something I authorized them to do if they are not willing to accept authorization notes from case manager

That is not true. I don't know who they spoke with that told them that information, but I'm the only case manager working this case and when I spoke with the service advisor Josh he advised me they do not accept goodwill authorization notes so he then transferred me to the service manager which was unavailable at the time and I left a voicemail for him and called back and I was unavailable at the time but the service manager left a voicemail stating to me they were not willing to accept authorization notes. I did not tell anyone to start a repair if it wasn't going to be covered by me (the case manager) if they contacted the dealership (Rockwall) and spoke them and they stated they would cover the repairs that's something I was not involved in or aware of. We have documented/recorded calls and I have not stated to move forward with repairs. When I was advised they would not accept authorization I reached out to you through email and advised you of that, and that was the last time I spoke with them regarding your vehicle.

I have just reached out and spoke with the service manager Salvadore which he has confirmed they have did more research into your profile and they have found out that you have been to their other dealership (Rockwall) so they are attempting to assist with repairs. Dallas may have contacted Rockwall which I was not aware of but they are working on getting the vehicle repaired

Hello [redacted],

I wanted to follow up with you and see if you have been provided with any updates from the dealer. I reached out to them to get an update and the service department was unavailable at the time.

Glad to hear the vehicle has been returned back to you with repairs completed. If you would like for me to put in a dealer's complaint I could do so and the complaint would be documented and reviewed. Another way is I could provide you with our corporate mailing address if you wanted to write a letter and send it in on your behalf.

Initial Description

Good morning. I am writing to contact you because I live my town and country. But back in April of 2018 I had to replace the latch on my passenger sliding door because it was malfunctioning. I had bought the extended coverage so no big deal. But now it\342 s only a few weeks after that\342 s expired and I\342 m being told I need a new latch for the driver side sliding door as well. But instead of my $100 deductible, they said it\342 ll cost $860! Is this a normal issue to have issues with both of these matches within a year of each other?? I have [redacted] so I use both doors the same amount. I have the invoices from the previous fix and the quote for the new latch from the local Lindsay Chrysler Dodge dealership here in Missouri. Thank you for your time

Hello [redacted]

Thank you for contacting Chrysler Customer Care. I do apologize that you are experiencing the same issue on the driver side as you did on the passenger side of the vehicle. I can imagine how frustrated I would be.

In regards to your 2016 Chrysler Town & Country, we cannot determine how the vehicle was treated before you purchased it so I cannot comment if this is a normal concern or not. We fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, we are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and/or mileage limitations of the warranty we offered on the vehicle at the time it was purchased. That warranty was valid until Feb 19, 2019 or 36,000 miles. Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request. The dealer is still more than happy to assist you in getting this repaired

Please do not hesitate to contact us if you need any further assistance by sending a new email or calling us at (800) 247-9753.

Thank you again for your email Ashley. Have a great day.

Best wishes,
Jennifer

They do not want the vehicle back unless they are 100% confident that the problem is fixed. Unless in the next week they are able to resolve, she wants to get out of the vehicle. End of next week at the latest.
05/24/2019	*****OUTBOUND DEALER CONTACT***** SPITZER MOTOR CITY | 60482 | 216-267-2100 SA Todd The TA will not get involved until the dealership can duplicate the issue and so far they have been unable to. They are still trying to do so. SA will be touching base with customer this afternoon. CM will follow up with dealership on Tuesday.
05/24/2019	*****OUTBOUND CUSTOMER CONTACT***** [redacted] 2016 CHRYSLER [redacted] Advised customer that dealer is still attempting to duplicate but they cannot bring in the TA until they can. Customer asked what would be the next steps if they resolve they simply cannot duplicate? Can Chrysler buy it back? Customer purchased the vehicle in 2017 cash. CM advised speaking with the dealership about getting them into a different vehicle. We will do everything we can to resolve but getting out the vehicle would not be something CM can assist with. CM suggested taking a test drive with the tech with customer driving. Customer states she has not done that yet and would be willing to. CM advised SA Todd will be calling this afternoon and she can suggest this to him. CM will follow up on Tuesday. Customer agreed.
05/28/2019	*****OUTBOUND CUSTOMER CONTACT***** [redacted] 2016 CHRYSLER [redacted] LVM with customer seeking if she had been able to set up a tandem drive with a technician as a further attempt to duplicate. Will try calling again if we do not hear back from her by Thursday.

Hello [redacted]

I have left two previous voicemails with you as we have been seeking to confirm if you were able to set up a tandem drive with the dealership in an attempt to further duplicate your concern so we can look into continued assistance.

If I do not hear back from you in 2 business days, I will need to close your file. However if you are able to obtain a confirmed diagnosis from the dealership, please feel free to contact our customer care line so we can look into possible further assistance.

Unless the dealer can duplicate the concern, the last thing we can try to do so is a tandem drive with one of the techs or service advisers. Please let me know when you will be doing so and I will follow up with you and the dealer afterward.

Hello [redacted]

I am sending you this email regarding the closure of your Case with Case Management. I would like to provide you with my contact information again should you have any questions or concerns in the future.

Your case number: [redacted]

FCA Case Management Phone Number: 1-844-827-1999

My direct extension: 302-0861

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case.

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore you could potentially receive an email or a telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience.

Thank you for your time and participation and for being an FCA customer.

It has been a pleasure working with you, all the best!

Door does not unlock, when doors finally unlock vehicle gauges do not work and all warning lights go on

Case Comments

Date	Comment
05/15/2019	Customer is calling in because he just bought vehicle on February 13,2019 and in April he took vehicle in for transmission issues as well as issues with the dash gauges lighting up, doors not unlocking, while driving all warning signals turning on. Customer took vehicle to the DLR and they determined that the tipum was bad and they replaced it. Customer kept experiencing the same issue and took the vehicle in again today 05/15/2019 at 9:45 am the tipum was then replaced again and now he is still having the issue happen. Customer is now seeking technical assistance to determine what exactly is going on with the vehicle. Customer does not want to keep getting stranded and keep paying for repairs that are not solving his vehicle concern. Vehicle was service today at Schicker Chrysler Dodge Jeep Ram of Washington DLR code 67436 and was assisted by SA Eric and SM Greg which suggested that the customer contact FCA .Agent advised that this case will be sent to a specialist who will make contact with him from 1-2 business days. Agent has sent customer report used email. Customer will send in New ownership information. Customer states best time to contact is early in the morning or after 5 pm ** customers name is [redacted] phone number is [redacted]
05/16/2019	In Service Date: 3/21/2016 Original Owner: No Mileage: 76,000 Vehicle purchase Loyalty: Unknown as ownership information needs to be updated. Multiple repairs/previous related repairs: Yes MVP plans: No
05/16/2019	*****Outbound DLR Contact****** Agent called DLR 67436 at 6362396500 and left SA Eric a voice message and requested a call back to discuss the case.
05/16/2019	Agent emailed SM Greg and SA Eric seeking information.
05/16/2019	SM Greg responded to the email and explained that the customer does not want to leave the vehicle for a few days and this would be required so that they can properly diagnose his concern. Greg suggested reaching out to the customer and advising him to bring the vehicle back to the DLR on Monday and we can get him into a loaner at no charge for 5 days so that the DLR can have time to properly diagnose and repair the vehicle.
05/16/2019	*****Outbound Customer Contact***** Agent called the customer at [redacted] nd left the customer a voice message and requested a call back to discuss the case.
05/16/2019	*****Inbound Customer Contact****** Customer called to update the case. Agent explained that we would require the vehicle to be back at the dealership and they would need to drive the vehicle for a few days to diagnose his concern. Customer stated that he has already done all this and did not agree with this as he uses his car for work and has lost work due to all of these issues. Agent reiterated that we would need to get the vehicle back to the dealer for them to diagnose the concern as they are aware that this issue is recurring and they want to isolate the issue. Customer stated that he cannot afford to do this again and demanded previous expenses to be refunded to him and became irate and demanding. Agent reiterated that we cannot change standard procedure at the DLR and we would not be able to just send him money at this point as our goal is to fix this vehicle. Customer stated that he does not want the DLR holding his vehicle to diagnose it and requested a call back from the agent's supervisor and he is going to consult an attorney in the meantime and disconnected the call.
05/20/2019	**supervisor call** TL contacted the customer and left a voicemail requesting a call back. TL provided the case number as well as the case management phone number.
05/20/2019	Customer insisted upon speaking to TL Sahra, who customer states adamantly did not call him. Agent reached out to CM line and got CM Bill on the line, who stated he would talk to the customer and ensure TL Sahra is aware of the situation.

Date	Comment
05/20/2019	CM had call transferred to him by level one who was dealing with the customer. Immediately upon being connected to CM customer started insulting anyone and everyone who works for FCA, saying that everyone he's dealt with is stupid. Customer states that he left instructions that he was only to be called first thing in the morning or in the late afternoon as he works overnight and will be sleeping during the day. CM advised that he can see that information in the beginning of the case from the first contact customer made with CAC. CM advised that the notes requesting the supervisor contact did not include the request that the call take place either first thing in the morning or late afternoon. CM advised that he would leave a note for TL Sarha to advise that the customer requests a call either first thing in the morning before 9am or later afternoon. Customer got irate and stated that TL must be stupid for not reading the entire case before contacting the customer. CM advised that the case is summed up during the request for supervisor and that there is no need for TL to read the entire case to know why they are calling the customer. Customer also insulted previous agent Melissa calling her stupid for transferring customer to CM instead of to a supervisor. CM advised that there wasn't a supervisor available however he would ensure that TL Sarha is aware of his requests. CM asked if there was anything else that CM should ensure TL Sarha is aware of when she contacts him. Customer states that he wants the DLR to stop using "cheap Chrysler parts" on his van as they continually fail immediately upon being installed. CM advised that there is likely a deeper issue in the vehicle that is causing the symptoms of the TIPM failing and that the DLR would need the vehicle for some time to duplicate the concern and diagnose the hidden issue. Customer states that we would need to pay him for missing work during the time the DLR has his vehicle. CM advised that the warranty specifically excludes lost wages and any other consequential damages caused by the failure of a component covered by the warranty. Customer states that he will not be dropping his vehicle off at the DLR unless we are paying him for the time missed at work. Customer also states that he was told by both DLR and CM Adrian that the parts we are using are faulty. CM re-iterated the possibility of a deeper issue with the vehicle causing his repeat concerns. Customer also states that he'll be contacting an attorney as he has a good case. The vehicle was sold to him in this condition. CM advised that would be a sales concern that he should address with the DLR.
05/21/2019	**supervisor call** TL contacted the customer. TL provided voicemail and instructed the customer to contact the main case management line.
05/21/2019	Customer calling back. He would not verify anything, will only speak to Supervisor Sarah.
05/25/2019	**supervisor call** TL contacted the customer within his requested times and at the requested phone number provided. Voicemail provided.

I should be available for most of the day if you'd like to give me a call. I was calling because I wanted to go over the details of this case with you. I am seeing that this is in regards to an issue with the rear passenger door. In order for us to determine assistance options, our first step would be to get this issue diagnosed by one of our dealerships. We would then review the situation with the dealership and determine if we can financially assist with the repair.

If you had any questions, please don't hesitate to reply to this email or call me back at 844 827 2003 and my direct extension is 302 0148.

We are taking the van in for an oil change on Monday and will try to get them to look at the door to see what is wrong. Part of the problem is that they acted like since its no longer under warranty they didnt want to even look at it. We will let you know what they say Monday.
Thank you,

Adrian, This is [redacted] about the 2015 Dodge Caravan. Marty Cancila said it was the latch and a 1000$ repair. I am totally pissed . I am thinking about trading it for a Ford or Chevrolet. If I have to pay a 1000$ to get it fixed, I will never ever buy another Chrysler. That is a Safety Issue not a Warranty Issue.

Hell[redacted]

I did receive your voicemail about trading in the Caravan. I did not have any additional questions and will be closing this file on my end. I just wanted to follow up with you in regards to the case. We appreciate that you gave us the chance to work with you in regards to this matter.

Thank you for allowing FCA Case Management the opportunity to address your concern. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We'd ask you that you take the time to complete the survey so we'll know how we're doing and what improvements we can make to enhance the customer experience.

Thank you for your time and participation and for being a FCA Customer!
Sincerely,
Adrian

Top Care Case - Passenger Sliding Door Stuck In Locked Position

Case Comments

Date	Comment
05/16/2019	Cst emailed Executive level advising that the passenger sliding door is stuck in the locked position and cannot be opened. Cst advises van has 64K miles and is out of warranty. Cst advises family travels 2x from FL to NY per year accounting for the higher mileage. Cst expresses concern that van is less than 3 years old and has safety concern as he has [redacted] His daughter has [redacted] and in the event of an emergency that side of the door could not be opened to assist her if in need by paramedics etc. Cst expressed concern that he would have to pay diagnostic fee and cost of repair estimated per hi internet research at $2K.
05/16/2019	Writer reviewed case and repair history. Cst is original owner and is out of basic (3/36) and PT (5/60) at 64K miles. Cst basic warranty would have expired 6/4/19 by time alone. No MVP contracts. Per VIP 3 RO note concern with passenger sliding door no repair/duplication. 4/5/17: Selling Dlr 60446- Jim Browne, mileage 19,029: Cst complaint of door grind on passenger side. No diagnosis/repair noted and comments indicate Cst to reschedule. 1/4/17: Dlr 60446- Jim Browne, mileage at 14,963, intermittent passenger sliding door struggles Customer Complaint: Customer states INTERMITTENTLY PASSENGER SLIDING DOOR STRUGGLES AND MAKES GRINDING NOISE (General Concern 1) Cause: TEST MULTIPLE TIMES THROUGHOUT DAY. UNABLE TO DUPLICATE CONCERN. Correction: NO PROBLEM FOUND AT THIS TIME CHANGED OIL AND FILTER COMPLETED VEHICLE TIRE ROTATED 9/8/16: Dlr 60446- Jim Browne, mileage at 6,926, Customer Complaint: Customer states ONE OF THE SIDE REAR DOORS SOUNDS LIKE ITS HAVING TROUBLE CLOSING CUSTOMER DOES NOT REMEMBER WHICH SIDE PLEASE CHECK (Body Systems Trim Concern Non-Electrical) Cause: COULD NOT HEAR ANYTHING AT THIS TIME Correction: COMPLETED CHANGED OIL AND FILTER LUBED DOOR
05/16/2019	Writer called selling Dlr 60446- Jim Browne, and spoke to SM Justin. Writer advised of last vehicle review in April 2017 for passenger door concern and Cst email to executive level. Writer requested Dlr acceptance of writers DM notes covering diagnosis as goodwill and was declined. Writer clarified Dlr was not request to provide goodwill but rather accept writers coverage through DM notes. SM declined as Cst has no loyalty to Dlr. Writer inquired if Cst to pay for diagnosis best number to call to schedule and was advised general Dlr number. Writer thanked SM for time.

05/16/2019	Writer spoke to Cst to verify concern is with passenger side door stuck in closed/locked position and cannot be opened even manually. Cst advised CAC contact made and representative was nice, but declined any assistance based on vehicle mileage. Writer confirmed vehicle has not been diagnosed and estimated repairs emailed by Cst are based on Cst internet searches and not validated. Writer confirmed CAC information shared that writer basic and PT have expired by miles. Writer advised in the interest of Cst satisfaction, writer would be willing to cover diagnosis and would review for possible and partial (wit Cst copapyment) goodwill assistance of repairs. Writer advised that selling Dlr was contacted but not accepting of writers coverage of diagnosis. writer advised Cst could pay for diagnosis and submit paid RO and proof of payment to writer for reimbursement in form of check for deposit to arrive in 5-10 business days Or- Cst can selected a preferred Dlr to complete diagnosis that may accept writers authorization for diagnosis or again could be paid by Cst and reimbursed by writer. Cst advised he has not been to selling Dlr as they are further from his home. Cst asked to work with Courtesy CDJR at 9207 E Adamo Dr in Tampa. Writer provided Cst with Dlr number- 813-620-4300 and asked Cst to schedule a service appt for diagnosis. Writer advised she would reach out to Dlr SM to request acceptance of writers authorization for out of warranty diagnosis as a goodwill gesture. If Dlr declines, Cst can pay for diagnosis and submit receipts to writer for reimbursement. Once diagnosis Dlr can provide writer and Cst estimate and writer will review for possible partial goodwill coverage and advise Cst who can either accept or decline repairs with Dlr. Cst thanked writer for assistance. .
05/16/2019	Cst left writer a message advising that he was able to make and appt with Dlr 45399 Courtesy for tomorrow 5/17/19. He will drop vehicle off in the morning and Dlr expects to review vehicle at 9am.
05/16/2019	Writer contacted Dlr 45399 Courtesy at 813-620-4300 and was on hold in service for over 20 min with no opportunity to leave message.
05/17/2019	Vehicle has arrived at dealership Courtesy Chrysler-Jeep-Dodge and attended by dealer employee
05/17/2019	Writer spoke called Dlr 45399 Courtesy and requested to speak with SM Angie Fletcher. Call terminated in transfer. Writer called back and was advised SM was not available. Writer requested to speak with SA. . Writer spoke to SA Jeff who advised vehicle was diagnoses as requiring a new latch assembly and latch was replaced. Writer advised of Cst contact to Executive level yesterday and three previous RO at different Dlr noting concern with passenger side door that could not be duplicated. Writer advised of attempt to reach Dlr with line ringing unanswered. Writer inquired if Dlr would accepts DM notes at warranty rate (Cst is outside of warranty) or direct check for coverage. SA advised Dlr would accept direct check and provided cost break down: Total diagnostic and repair total $1.106.11. (1 hr diag, 2 hr repair= labor 427.44, Parts- 557.00.Misc $35.00, Tax $86.67). Writer provided email and fax to receive copy of RO to submit direct check to Dlr to cover repairs as out of warranty goodwill based on Cst satisfaction and previous noted door concerns not duplicated/repaired. Writer provided direct number, verified Dlr address and obtained SA email as jdavies1@courtesycars.com. SA faxed RO totaling $1,106.11.
05/17/2019	Writer received message from Sam Jeff Davies. Writer returned call. SA advised Sm Angie informed Dlr cannot accept FCA direct check for repair and requested Cst be reimbursed. Writer advised she would contact Cst to confirm acceptance.
05/17/2019	Writer spoke to Cs[redacted] and advised of repairs completed and writers offer to cover repairs as a one time out of warranty goodwill gesture. Writer advised Dlr is not able to accept writers authorization or payment and Cst would need to pay for repair and submit paid receipt to writer for reimbursement in form of a direct check for deposit to be received in 5-10 business days. Cst thanked writer for goodwill and advised he would pay and submit receipts to writer via email. Writer verified Cst address Writer obtained Cst email as [redacted] Writer to email for Cst to respond with paid receipts.
05/17/2019	Writer called SA Jeff at Dlr 45399 to advise Cst will pay and writer will reimburse Cst directly as one time goodwill gesture. SA advised he spoke to Cst and Cst will pick up vehicle today. Writer thanked SA for assistance.

05/17/2019	***OUTBOUND CUSTOMER CONTACT*** [redacted] -2016 DODGE CARAVAN CM reached the customer and asked about his concern. He said the sliding door on the drivers side is locked and the dealer said it is the lock. Customer said last year they replaced the passengers side and customer is frustrated with the number of times this vehicle has had to go into the shop. CM asked if they set up an appointment for the repair and he said no they were waiting to hear from me. CM said I will reach out to the dealer and then I will get back to him. CM confirmed his email address and said I would send him my contact information.
05/17/2019	***OUTBOUND DEALER CONTACT*** LONGLEY BROS -#57696 315-598-2135 CM spoke to SA-Sarah and asked about the customers visit. SA said the customer came in yesterday with 62,527 and expected the repair to be covered. She said last year the right side sliding door lock had to be fixed but they covered it because she was a couple of hundred miles over warranty. She said the dealer only comes for warranty work and its hard to say why the door lock broke. CM asked if I could get warranty pricing because I would like to offer GW with $100.00 copay. She said she will look it up, CM said I would make the offer to the customer and asked them to call to say they accept. CM said I would call back Monday for warranty pricing.
05/17/2019	***OUTBOUND CUSTOMER CONTACT*** [redacted] 2016 DODGE CARAVAN CM reached the customer and explained the repair needed is considered a basic warranty item but I would like to help with $100.00 copay. Customer was happy with the offer and CM explained he would have to call the dealer to confirm they accepted the offer. CM asked if he could email me the date of the appointment for the repair and he said he would.
05/22/2019	***OUTBOUND DEALER CONTACT*** LONGLEY BROS -#57696 315-598-2135 CM spoke to SA-Sarah and asked for the warranty pricing for the repair. Parts $198.90 Labor $107.91 Total $ 306.81 less $100.00 copay = $206.81
05/23/2019	CM will follow up with customer on 5/29/19
05/23/2019	Vehicle has arrived at dealership Longley Bros Inc and attended by dealer employee
05/29/2019	***OUTBOUND CUSTOMER CONTACT*** [redacted] -2016 DODGE CARAVAN CM reached the wife and she said they had the repair completed and it works really well. CM said I would close the file.

05/17/2019	Briefly summarize why the customer is contacting Chrysler: Sliding door on drivers side will not open at all. Called Service Centre for this Friday at 9 a.m. they would look at that day and will be a few hours. Was told no charge to look at it. Apt. was just to talk to them and $150 for them to look at it. Took off work for this. Now he has to make another apt. Now other door is acting up. Customer read on line and it is over the internet. Customer used an afterhours service to book apt. Dallas Dodge
05/17/2019	Agent warmed transferred customer to Jay one of the managers at Dallas

Multiple vehicle issues, seeking repair or replacement

Case Comments

Date	Comment
05/21/2019	Customer states that they are having multiple vehicle issues that the DLR is not fixing and they are now out of warranty. Customer states that they have an issue with the shifter getting stuck in park unless they use the release button, the AC hisses, the power sliding doors are not working, the rear entertainment system will not work unless set a specific angle, and they have had a battery failed as well. Customer states that they have brought these to the attention of the DLR before the warranty expired but the issues are still occurring. Customer would like cost assistance or to have the vehicle replaced. Agent advised that we will escalate the case to a CM for further assistance.
05/22/2019	OUTBOUND CUSTOMER CONTACT CM contacted Customer Customer confirmed issues stated in case. Customer confirmed she's seeking cost assistance for current issues. Customer states vehicle was at DLR yesterday and was told shifter and A/C would have to be replaced. Customer states she paid for some repairs while vehicle was under warranty, and wants to be considered for reimbursement. CM explained what would be needed to consider reimbursement. Hi [redacted] I was able to speak with Jed today, and he said the parts for your repairs should arrive by Tuesday. He said once the parts arrived, the repairs can be done by Thursday.

I'll call the dealership on Tuesday to make sure the parts are there, and I'll make sure Jed knows as well so the repairs can start as soon as possible.

Thank you,
Helen

Hi [redacted], I was able to schedule your repairs for this Saturday at 9:40am. I spoke with Seth, and he informed me you can drop the vehicle off a little earlier than your appointment time if you need to.

If you're not able to keep this appointment, I would advise reaching out to the dealership to reschedule. Otherwise, I'll follow up on Monday to get an update on your repairs.

Thank you,

H[redacted], I spoke with Jed a couple of minutes ago, and he said your repairs were on track to be finished today. I would advise waiting for Jed to reach out and confirm repair completion before picking up the vehicle.

I'm going to follow up with you on Friday so you have a couple days to confirm the repairs, as well as ensure no other issues are present.

Hi [redacted] I spoke with Jed a couple of minutes ago, and he said your repairs were on track to be finished today. I would advise waiting for Jed to reach out and confirm repair completion before picking up the vehicle.

I'm going to follow up with you on Friday so you have a couple days to confirm the repairs, as well as ensure no other issues are present.

Thank you,
Helen

[redacted], I was able to schedule your repairs for this Saturday at 9:40am. I spoke with Seth, and he informed me you can drop the vehicle off a little earlier than your appointment time if you need to.

If you're not able to keep this appointment, I would advise reaching out to the dealership to reschedule. Otherwise, I'll follow up on Monday to get an update on your repairs.

H[redacted], I left a message for Jed requesting an update on your vehicle's diagnosis. He hasn't returned my call at this time, so I unfortunately don't have an update to provide.

In my message, I did request that additional technical resources be involved to assist with diagnosing your shifter issue, since it's a repeat concern. I'm going to call Jed again tomorrow to get an update on diagnosis, since it should be in progress or completed by now.

H[redacted], I hope you had a good trip! I wanted to touch base and see if you'd brought your vehicle to Doug Smith Dodge, or if you'd scheduled an appointment to do so?

Thank you,
Helen

Hi[redacted], Jed reached out to me and told me they weren't able to duplicate your shifter concern, so they released the vehicle back to you. He said he hasn't gotten a call back from you stating the issue has returned. I'm going to follow up with you on Thursday to give you a little more time to confirm the shifter concern hasn't returned.

Thank you,
Helen

H[redacted], I left a message for Jed requesting an update on your vehicle's diagnosis. He hasn't returned my call at this time, so I unfortunately don't have an update to provide.

In my message, I did request that additional technical resources be involved to assist with diagnosing your shifter issue, since it's a repeat concern. I'm going to call Jed again tomorrow to get an update on diagnosis, since it should be in progress or completed by now.

Thank you,
Helen

H[redacted], I called Jed and left him a message about your current vehicle concerns. He hasn't returned my call or sent an email letting me know he's reached out to you.

I won't be in the office tomorrow, but I'll ask one of my colleagues to follow up with Jed to make sure he knows the situation and can have someone reach out to you to set up an appointment.

Thank you,

Hi[redacted]I spoke with Jed a couple of minutes ago, and he said your repairs were on track to be finished today. I would advise waiting for Jed to reach out and confirm repair completion before picking up the vehicle.

I'm going to follow up with you on Friday so you have a couple days to confirm the repairs, as well as ensure no other issues are present.

Thank you,

H[redacted], I was able to schedule your repairs for this Saturday at 9:40am. I spoke with Seth, and he informed me you can drop the vehicle off a little earlier than your appointment time if you need to.

If you're not able to keep this appointment, I would advise reaching out to the dealership to reschedule. Otherwise, I'll follow up on Monday to get an update on your repairs.

H[redacted], I reached out to the dealership, and they didn't have any openings for tomorrow; they did have some availability for next Saturday, so I scheduled you for July 27 at 7am. If you need to adjust the appointment, I would advise reaching out to the dealership to adjust the appointment.

I'll follow up on that following Monday to get an update from Jed, and to involve other technical resources.

Thank you,

Hi [redacted] I reached out to Jed and left a message requesting an update on your vehicle diagnosis. I haven't received a return call at this time, so I don't have an update to provide. I'm going to call Jed tomorrow to see if he can speak with me about your vehicle diagnosis.

Thank you,

Hi [redacted], I reached out to the dealership, and they didn't have any openings for tomorrow; they did have some availability for next Saturday, so I scheduled you for July 27 at 7am. If you need to adjust the appointment, I would advise reaching out to the dealership to adjust the appointment.

I'll follow up on that following Monday to get an update from Jed, and to involve other technical resources.

Hi [redacted] I reached out to Jed again and left a message requesting an update on your vehicle. I also sent him an email. I haven't received a response yet, so I don't have an update today. I'm going to allow him a couple days to respond, and I'll call him on Thursday if he doesn't provide an update by then.

Hi [redacted], I spoke with your Service Advisor, Seth, and he informed me your shift lever assembly isn't working correctly, which has been causing your repeated shifter concerns. I've gone ahead and covered the entire repair cost this time, since you've had repeat issues with this component. Seth said the parts aren't on backorder, and he expects to receive them within a couple days after they're ordered.

I've emailed Seth with the repair authorization, so he should be ordering the parts soon. I would advise reaching out to the dealership and scheduling your repairs for sometime next week after the parts arrive. If you need assistance scheduling your repairs, please let me know.

I'm going to reach out to the dealership on Monday to get an update on the parts. Hopefully, the parts are there when I call, and we can get your vehicle in shortly after they arrive.

Thank you,
Helen

Hi [redacted], I spoke with your Service Advisor, Seth, and he informed me your shift lever assembly isn't working correctly, which has been causing your repeated shifter concerns. I've gone ahead and covered the entire repair cost this time, since you've had repeat issues with this component. Seth said the parts aren't on backorder, and he expects to receive them within a couple days after they're ordered.

I've emailed Seth with the repair authorization, so he should be ordering the parts soon. I would advise reaching out to the dealership and scheduling your repairs for sometime next week after the parts arrive. If you need assistance scheduling your repairs, please let me know.

I'm going to reach out to the dealership on Monday to get an update on the parts. Hopefully, the parts are there when I call, and we can get your vehicle in shortly after they arrive.

Thank you,

Hi [redacted], I reached out to the dealership, and they didn't have any openings for tomorrow; they did have some availability for next Saturday, so I scheduled you for July 27 at 7am. If you need to adjust the appointment, I would advise reaching out to the dealership to adjust the appointment.

I'll follow up on that following Monday to get an update from Jed, and to involve other technical resources.

Hi[redacted], I apologize your concern hasn't been resolved after this repair. I would advise reaching out to the dealership and letting Seth know your concerns aren't resolved, and scheduling an appointment so we can involve technical resources for further diagnostic assistance. I'll email Seth today and let him know your concerns aren't resolved, and I'll ask him to involve other resources for further assistance.

Thank you,
Helen

Hi [redacted] Seth reached out to me today, and he let me know you're bringing your vehicle in on Thursday. He confirmed they're going to involve Corporate Engineering at this point, since they've made several attempts to resolve the concern, yet it continues to be present.

I'm going to follow up with Seth on Friday to make sure your vehicle is there, and make sure they've opened the ticket with Corporate Engineering.

Thank you,
Helen

Hi [redacted] I wanted to touch base with you and see if you've scheduled an appointment with Doug Smith Dodge in American Fork for further diagnosis of your shifter concern?

Thank you,

Hi [redacted], I apologize your concern hasn't been resolved after this repair. I would advise reaching out to the dealership and letting Seth know your concerns aren't resolved, and scheduling an appointment so we can involve technical resources for further diagnostic assistance. I'll email Seth today and let him know your concerns aren't resolved, and I'll ask him to involve other resources for further assistance.

Thank you,
Helen

Hey so we picked up the van yesterday and this morning the shifter would do the same thing that they have been trying to fix. Problem not resolved

I've gone ahead and covered the entire repair cost this time, since you've had repeat issues with this component. Seth said the parts aren't on backorder, and he expects to receive them within a couple days after they're ordered.

Good Day,

I spoke with the service adviser on 9/4/19 and was informed by Seth that they are unable to duplicate the concern and factory resources was unable to assist due to no current problem found. Seth stated he has advised you to try another dealership for a second opinion. When I spoke with Seth he stated your vehicle was still at the dealership, have you retrieved it since then and thought about going to another dealer? If so which dealership will you be going to? I will be awaiting your response so I can follow up as well as notate the information within the case.

Thank you
Dominique

Hi [redacted], Seth reached out to me today, and he let me know you're bringing your vehicle in on Thursday. He confirmed they're going to involve Corporate Engineering at this point, since they've made several attempts to resolve the concern, yet it continues to be present.

I'm going to follow up with Seth on Friday to make sure your vehicle is there, and make sure they've opened the ticket with Corporate Engineering.

Thank you,
Helen

Hi [redacted] I wanted to touch base with you and see if you've scheduled an appointment with Doug Smith Dodge in American Fork for further diagnosis of your shifter concern?

Hi [redacted] I apologize your concern hasn't been resolved after this repair. I would advise reaching out to the dealership and letting Seth know your concerns aren't resolved, and scheduling an appointment so we can involve technical resources for further diagnostic assistance. I'll email Seth today and let him know your concerns aren't resolved, and I'll ask him to involve other resources for further assistance.

Thank you,

Hey so we picked up the van yesterday and this morning the shifter would do the same thing that they have been trying to fix. Problem not resolved

Hey so I have given the van some time and the moment I got it back it did it to me and then it had done it a few times as well! Now I have another issue and that is with my sliding door on the driver side wont open or do anything. This is a safety issue and I also have already replaced both my doors! I feel like I was sold a faulty car cause I havent had this car very long and we take really good care of it. I feel like dodge should buy my car back from me cause it has given me nothing but problems and no one can fix it.

Good Day,

Have you contacted a dealership to set up an appointment? If so what was the date and time provided and please confirm the dealership you chose.

Thanks
Dominique

Hey so I have given the van some time and the moment I got it back it did it to me and then it had done it a few times as well! Now I have another issue and that is with my sliding door on the driver side wont open or do anything. This is a safety issue and I also have already replaced both my doors! I feel like I was sold a faulty car cause I havent had this car very long and we take really good care of it. I feel like dodge should buy my car back from me cause it has given me nothing but problems and no one can fix it.

Seth stated he has advised you to try another dealership for a second opinion. When I spoke with Seth he stated your vehicle was still at the dealership, have you retrieved it since then and thought about going to another dealer? If so which dealership will you be going to? I will be awaiting your response so I can follow up as well as notate the information within the case.

Hello!

My name is Leonel and I am emailing you on behalf of your case manager Dominique in regards to your current open case with us. Dominique is currently out and will be returning on the 31st, thus I will be handling your case in the time of their absence. With that stated, if you have any concerns please feel free to reply to this email so I may address your concerns. If you would prefer us to discuss via the phone I can provide you my contact information so we may do so.

I did want to inquire that given the issues have resurfaced have you brought your vehicle back to the dealership? I do understand you are looking to further explore options aside from having the technical issues resolved however I am unable to address those given I am not your Case Manager.

Warm Regards,
Leonel

Good Day,

I am following up on your case. I have been notified you returned to the Doug Smith dealership in regards to your door concern. I have been informed by the service adviser Chis that this is a concern you had in the past but it was on a different door and this repair would be an out of pocket cost to you not covered by any warranty. The service adviser informed you declined the repairs. I am not sure how you would like to proceed with the door concern. If you could please respond to this email informing of how you plan to proceed I will use the information you provide to update the case notes.

Sincerely,
Dominique

Hello [redacted]

I can understand the importance of having the right part numbers for replacement parts for your 2016 Dodge Grand Caravan and I would be happy to check for availability.

Before I can do that though, there isn't enough information in your email to accurately determine what parts you are looking for. The subject of your email mentioned locks. Are you looking for replacement Lock Cylinders?

Thank you again for your email Paul. Have a great day.

Best wishes,
Jacob

Jacob, many thanks for the reply. This model does not have locks cylinders on either slider door. The electric sliding door lock actuators have failed. They both made loud buzzing noise before failure. I believe the part numbers are: 68030378ae (right door) and 68030379ae (left door). Hope that helps. Thanks [redacted]

Hello [redacted]

Thank you for your response to m previous email.

After doing some research, I found that the Sliding Door Lock Actuator part numbers provided in your previous email do not verify for your 2016 Dodge Grand Caravan.

The correct parts are:

Right, Sliding Door Lock Actuator

Part Number: 05020678AB | MSRP: $148.00

Left, Sliding Door Lock Actuator

Part Number: 05020679AB | MSRP: $148.00

These parts are available for order by contacting your local authorized dealer, [redacted]. For your convenience, I have provided contact information for the closest dealership to you below, based on the zip code provided in your email.

Addy's Harbor Dodge Ram FIAT (Approx. 6.01 Miles Away)

Open Tomorrow: 7:30AM - 5:00PM
4849 Highway 501 Myrtle Beach, SC 29579-9446
843-945-3100

At this time, I will be closing this case.

If you have any other parts/accessories related questions or concerns, dont hesitate to contact us back by clicking here and sending us another email.

I also wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey, so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time, participation and for being a valued FCA customer.

Initial Description

To Whom This Concerns :\n\nThis is regarding my 2016 Dodge Grand Caravan (only 45K miles). Both sliding doors were working fine, then on May 20, 2019 the driver's sliding door just froze--can't open it electronically or manually. The lock is stuck in the locked position and the power door lock switch won't move that door's lock to the 'unlock' position. When I try to move the lock/unlock button/lever on that sliding door, it's stuck in the locked position--even with a bunch of force I can't move the lever to the unlocked position--I feel like I'm going to break the lever if I force it too much. So the door is basically unusable right now. I have [redacted]hildren and this is a MAJOR SAFETY ISSUE as they cannot exit the vehicle in a safe manner in case of an emergency.\n\nThe Dodge dealership I go to stated that this is a \342 known problem\342 with Dodge Grand Caravans and that Dodge refuses to address the issue. The dealership said the cost to fix the issue is $1,200. The bigger concern is that I went on various Dodge \342 blog sites\342 and I counted over 100 other posts where people have had the same issue.\n\nI hope that you can help in getting this issue resolved. I cannot see myself paying $1,200 to fix an issue that is obviously a manufacturers defect.\n\nI look forward to your respond.\n\n\nSincerely,\n\n[redacted]

Hello [redacted]

Thank you for contacting Dodge Customer Care.

We are disappointed to learn of your concern with the sliding door locking concern regarding your 2016 Dodge Grand Caravan and I would like to assure you that I will do everything I can to help you out.

You mentioned you had a diagnosis and repairs. Could you please provide me with some details about your visit? This will help me determine what the next steps should be.

When was your visit?
Who was your Service Adviser or Service Manager?
What was the diagnosis?
What repairs, if any, did they complete?

Please provide the name of the dealership.

Once I have a better idea of what has taken place so far, I will be able to come up with our next best steps.

Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at 800-247-9753.

Thank you again for your email [redacted] Have a great day.

Best wishes,
Jordan

Jordan,
As discussed, I went to the Dodge dealership on 6/1/2019. Attached is the following :
* Diagnosis summary from the dealership
* Estimated for the repair (part/labor/tax) from the dealership
* My receipt for the diagnosis

I look forward to your response on how to handle this safety issue.

Unfortunately there is a delay now. I took the van into the dealership on Saturday (6/8/2019) to have the repair done, however, it was not completed as they ordered the wrong part.

They have now ordered the correct part and the van is now scheduled to go back into the dealership on 6/15/2019 to be repaired.

I will forward you the paid receipt for the repair work next weekend once the repair is completed.

Thank you for you patience and understanding

So you are telling me that Dodge is taking no responsibility in this obvious manufacturing defect that can be clearly documented in the 100+ identical cases that I have been able to find on-line so far ?

I paid out approximately $550 to fix this and you / Dodge will not be reimbursing me ANY of these costs ?

In fact what have you actually done to help me through this ? I have arranged all the diagnostics/ scheduling / repairs / cost payment.

I would like a response to the above.

If Dodge is not willing to help me defray the costs associated with this manufacturing defect I will be forced to file an offical complaint with the NHTSA and, if need be, retain legal representation

I really hope that this is not necessary and that Dodge steps up and does the right thing.

Good Afternoon [redacted]

I am glad you are satisfied with repair.
I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is: [redacted]

The FCA Case Management Telephone Number is: 1-844-827-1999

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Danielle| FCA Case Manager

Initial Description

My sliding door latch failed on my drivers side which cost me a $709 repair. The door was locked and could not be opened either remotely, electrically or manually. I believe this to be a real safety issue if an accident occurred and rear seat passengers could not easliy get out of the vehicle. The people at the dealership were great but I believer Dodge should have covered the repair.

Hello [redacted]
Thank you for contacting Dodge Customer Care.
We are disappointed to learn of your concern with door latch regarding your Grand Caravan.

I would be more than happy to look into your reimbursement request; however, in order for your file to be reviewed in full I would need to get further information.

If you could reply and attach a copy of the work order, as well as the proof of payment for the repairs, that would be greatly appreciated.

Once your documents have been received, the reimbursement request will be reviewed.

Rest assured, once theres an update available, you will be contacted as soon as possible.

Hello[redacted]
Thank you for your patience while we reviewed your request for reimbursement.
We can see that this issue has happened before a couple times in the past, and one of the previous repairs were covered by the dealership. That being said, we completely understand how frustrating this issue must be, and we appreciate your loyalty to our brand, so we would be willing to reimburse you $609.14.

We would strongly recommend you get a service contract through MVP to cover yourself for future costs. If you did you would only have to pay the $100 deductible for these repairs. So our reimbursement offer is reflective of the fact that had you had a contract, this would have only cost you $100.

Please let us know if you accept the reimbursement amount of $609.14. Once you have accepted we will mail it out to the mailing address you provided.

05/30/2019	Customer is inquiring about buyback because the vehicle has been at the DLR since 04/20/2019. Customer stated the vehicle is in the shop due to a transmission issue but the DLR is unable to locate the part. Customer is wondering what FCA is going to do for her. Agent advised the customer that I can send this up to Dispute Resolution and she should be contacted in 1-2 business days.
06/03/2019	Customer states she was notified on Saturday, her vehicle was ready to pick up as repairs have been completed. Customer states there are concerns with the door as it will not open, possibly jammed. Customer states she was advised the warranty has expired. Writer advised the customer the vehicle was outside of the warranty parameters when the vehicle was purchased. Writer advised FCA would not provide cost assistance.

Initial Description

I\342 ve been having issues with my Chrysler town and country. The van would shake and act like it wanted to shut off. It would do this when idling and when going down the highway. The check engine light came on so I took it to the shop. They said new spark plugs etc. So we replaced plugs wires tune up and fuel injector cleaner. It didn\342 t fix anything so they replaced fuel injector. It still didn\342 t fix it. Also driver side door wouldn\342 t open. Door has been stuck 3-4 months at this point. They said they fixed door but when I got home it didn\342 t work again. They did compression testing on cylinder and one was bad they sent me to Chrysler dealership. I went to brad deery motors in Maquoketa. They replaced cylinder head $2333 and door for $571 plus tax came to $3125.85. Took van homeand within 3 days it now overheats. I now have to go back to brad deery. I have $4000 wrapped up in this and it is still not fixed. I am very disappointed in the vans performance and reliability. I have all documentation from the van. I really believe Chrysler should be responsible and reimburse me for the work done at brad deery motors. I look forward to your response. Thank you [redacted]

Thank you for contacting Chrysler Customer Care.

In regards to your 2016 Chrysler Town and Country Touring, we fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, we are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and/or mileage limitations of the warranty (or warranties) we offered on the vehicle at the time it was purchased. Although we are unable to provide a more favourable reply, we appreciate the opportunity to review your request.

We're sorry we cannot provide a more favourable reply. Thank you again for your email [redacted]

I understand it is out of warranty. Its just disappointing to have something fall apart right after the warranty. I really thought Chrysler might pay for parts which came to $868.73 which is 1/4 of the total bill. Thank you for your time.

Passenger sliding door will not open in position and the passenger side will not work automatically.

Case Comments

Date	Comment
06/04/2019	Passenger sliding door will not open in position and the passenger side will not work automatically. Customer had a 2013 vehicle same brand and the same thing was happening. Customer saying that FCA should recall this on the vehicle because with the sliding doors doing this it isn't trustworthy. Adviser looked into this to see what assistance could be provided but do to the mileage on the vehicle it will be an out of pocket expense. However was told if recalled we will reimburse for the repair. Customer understood but wanted it noted that this will be the last Chrysler product they purchase

customer called in seeking reimbursement

Case Comments

Date	Comment
06/10/2019	Customer called in seeking reimbursement for a repair for the vehicle. Customer had called in previously about this issue and went to send in the documents and was informed that the case was closed before he could attach the documents please reference to case [redacted] I am attaching the documents to the new case.
06/13/2019	The customer is calling in regards to the reimbursement. The customer was informed that it can take 24 hours and advise the customer that will have to wait due to being reviewed at this moment.
07/11/2019	Customer looking for an update on the reimbursement status. Customer was uinformed that it is still being reviewed and the total processing period takes anywhere from 30-90 days. Customer is also now experiencing the same issue with the passenger side door and wondered what we would be able to do for them. Adviser looked further into the situation and informed the customer that because they are OOW it would be an out of pocket expense unless it becomes recalled in the future then we can go ahead with reimbursing for the repair
07/15/2019	Customer reached out on Twitter: Bottom line is @Chrysler has produced a vehicle where something fails and the refuse to recall it. This is a safety issue. Being able to get people out of a vehicle in the event of an emergency is a basic function. Your unwillingness to help is negligent! Not only am I out the $ to fix the driver side slider actuator, the passenger side not but 3 weeks after getting the driver side fixed is now making grinding noises and is not allowing the door to be unlocked... just like the other one! Id really like to not have to shell out more $$$ then wait to MAYBE get reimbursed some 90-120 days later. This is a safety issue. Its a faulty actuator... 2 bad ones on one vehicle (van has 39,000 miles) and its seals the door in a locked position! This is a safety hazard god forbid the other door becomes pinned in an accident. I trusted Chrysler to keep my family safe when I chose you over a Honda or a Toyota... my confidence is shattered with this entire ordeal
07/15/2019	Customer is seeking for reimbursement for a repair done on his vehicle. Customer provided the Repair Order but no proof of payment included. Asked the customer via email to provide the said additional document to further review and process his request. Conclusion: Waiting for customer's response and additional documents needed. Case suspended.
07/19/2019	Customer reached out on Twitter: My case is under review for the first actuator... can you add to the case for the second one so i can have it repaired without money out of my pocket or do I have to go through this run around Two separate bad actuators on the same car (one with 39,000 miles on it) would seem like faulty parts from your supplier. This should be a recall I thought this could be worked out without it, however it would seem i will be forced to consult legal counsel. There seems to be a large number of owners that this has happened to, and Chrysler seems far more concerned about collecting $500 per repair then correcting a problem that Chrysler is negligent in
07/19/2019	Case Update: Customer reached out again via Twitter with a new concern. Please contact customer and inform/advise him with the following: 1. Inform customer to have his vehicle be inspected in a dealership with regards to the same issue occurring right now and let us see how FCA can help him in terms of reimbursement. 2. Advise customer that the reimbursement for his sliding door repair is already in the right department. However, I sent him email for request to provide proof of payment last June 15, 2019 but as of the moment, there was no response from him yet. Inform the customer that the document requested is essential for reimbursement process. Conclusion: Reassign case to DV - Follow Up Required team to contact customer. Please see customer details below. [redacted]
08/21/2019	Tried contacting the customer but no one answered, left a voicemail.
08/21/2019	The customer does not qualify for the reimbursement because the repairs are not covered under a recall. The case is denied.

06/11/2019	Customer took vehicle into DLR because passenger door does not open, and after $700 later they got the door to open but customer now states that the door does not stay in the open position it will rapidly close, causing his grandsons arm to get caught in it. Now DLR is stating that the locking mechanism needs to be replaced and they are seeking $642 to fix it. customer is upset because he already paid to have the door in a working condition and it has not been fixed.
06/12/2019	***INBOUND DLR CALL*** CM spoke with SM Ryan who stated they repaired top door latch for $700 - advised customer to reach out to FCA for possible assistance. Customer paid the bill and went home to find another issue with door. Door closed on customers grandson. Customer brought vehicle back to DLR to find out the bottom latch also needed to be replaced $642.00. CM advised case was not escalated. After review with SM - customer to be reimbursed $200 from $700.00 repair. Notes will be entered to cover second latch repair on door.

May I have the last 8 characters of the vin number with Letters & numbers please? (2m 40s) Visitor: [redacted] (3m 20s) Chelee: Excellent! May I have the name, complete address with zip code, phone number, email address to who the vehicle is registered to as current mileage please? (4m 6s) Visitor: [redacted] san antonio, tx [redacted] and mileage 55207 (4m 37s) Visitor [redacted] (6m 13s) Chelee: Awesome & thank you for verifying your information for me, it's greatly appreciated! Please allow me a few moments to pull up your information in our system for you. I will be back as quickly as I can (6m 21s) Visitor: ok (10m 33s) Chelee: Hi [redacted] thank you for holding. Have you taken your vehicle to your local dealership for a diagnosis yet to see what's causing this issue? (10m 59s) Visitor: no, because they want to charge me over $100 just to run the diagnostic (11m 25s) Chelee: Ok. We won't know what is causing this issue without a diagnosis from the dealership (12m 45s) Visitor: considering this is a constant issue with this van why isn't there some kind of warning or recall? Why do I have to pay the $100 for an ongoing issue (13m 7s) Chelee: Every dealership charges for a diagnosis fee and that is something that we can not waive (13m 31s) Visitor: so on top of the $100 I then have to pay to fix the door that Dodge knows is faulty (14m 21s) Visitor: I have one door making a loud noise when it unlocks and now one doesn't even unlock and the car is barely 2 yrs (16m 49s) Chelee: We can always see if there is anything that we can do to assist you however we need the vehicle to be diagnosed at the dealership first. Once it's diagnosed, you can contact us and we will review your case for you. (18m 32s) Chelee: As for it being a recall, there are no recalls on this vehicle. You can always contact NHTSA at 888-327-4236 and inform them that this is an ongoing issue and to look into putting a recall on it in the near future (19m 52s) Visitor: I'm sure they know about it, I'm not the 1st complaint online. They obviously don't care...this will probably be my 1st and last dodge. Pay for their mistakes on the vehicles,

06/18/2019	****OUTBOUND DEALERSHIP CONTACT***** PARKWAY DODGE CHRYSLER JEEP | 586-465-7262 CM called and spoke with SM Darren, he stated they have tried to duplicate the transmission issue but can not. He did state the owner worked at Roseville for 12 years as a tech so hes not dumb. Everytime they went and tried to fix the door latch it created another problem. They have ordered some parts but the customer has taken there vehicle on there family vacation and will not be back to July 5th. SM let CM know not to contact them on there vacation and to follow up on July 5th.
06/18/2019	*****OUTBOUND CUSTOMER CONTACT***** [redacted] CM called and spoke with the customer regarding there vehicle concerns. Transmission is acting up still on there trip. He stated that they will be home on the 28th, CM is going to follow up with them then. Going to see what his work schedule is and to see if he is able to go on a drive with the SM or someone from the dealership to duplicate the concern.
06/28/2019	*****OUTBOUND CUSTOMER CONTACT***** [redacted] CM called and spoke with the customer. He said the trip was good but could not believe the transmission made it through the trip with all the shaking and noises it made. Customer has an appointment for Monday July 1st to go back to the dealership to have the vehicle looked at. The part for the door is in as well. CM to follow up with SM to make sure that he drives the vehicle so he can see what the customer is stating with the transmission.
07/01/2019	Vehicle has arrived at dealership Parkway Dodge Chrysler Jeep and attended by dealer employee

Date	Comment
07/01/2019	***Being looked at today, CM will follow up with dealer as well as customer tomorrow***
07/02/2019	****OUTBOUND DEALERSHIP CONTACT***** PARKWAY DODGE CHRYSLER JEEP | 586-465-7262 Email from SM Darren, Door is fixed now they are just driving the vehicle to see if they can find the transmission issue the customer is having.

Initial Description

On 04/09/19 my Dodge service replaced the right side door lock/actuator assy at cost of $1009.40. On 04/29/19, I was back with failure on left door. I have not replaced it yet. I have owned 5 Dodge vans and never had this problem with any of them. It seems to me you received some faulty actuators on these lock assemblies. I know my warranty has expired, however as a long time Dodge customer I am asking for some help on this 2nd door. My customer no. at Kernersville N.C. dealer is Thank you.

Hello [redacted]
Thank you for contacting Dodge Customer Care.
In regards to your Grand Caravan, we fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, we are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and/or mileage limitations of the warranty we offered on the vehicle at the time it was purchased. Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.

We're sorry we cannot provide a more favorable reply.
Please do not hesitate to contact us if you need any further assistance by calling us at (800) 423-6343.
Thank you again for your email Albert. Have a great day.
Best wishes,
Jennifer

Hello [redacted]

Thank you for contacting Dodge Customer Care.

We are disappointed to learn of your concern with your door buzzing noise regarding your 2016 Dodge Grand Caravan and I would like to assure you that I will do everything I can to help you out.

You mentioned you had a diagnosis and repairs. Could you please provide me with some details about your visit? This will help me determine what the next steps should be.

When was your visit?
Who was your Service Adviser or Service Manager?
What was the diagnosis?
What repairs, if any, did they complete?

Please confirm your dealership name.

The best method of assistance if you have not scheduled an appointment is to schedule an appointment by locating the dealership with: [redacted]

Once I have a better idea of what has taken place so far, I will be able to come up with our next best steps.

Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at 800-247-9753.

Thank you again for your email [redacted] Have a great day.

On May 30th I went to Towbin Dodge in Henderson, NV. I dont know who the technician was. I was told that my door would not be inspected unless I paid $165. That is independent of any repairs that may need to occur. I thought that was outrageous and declined. Today, I visited Molstead Motors in Charles City, IA. They inspected my door FOR FREE but were unable to determine the cause of the buzzing noise. Have other customers complained of this buzzing sound? And what are some possible causes? Thank you for your time.

Initial Description

Seeking assistance with repairs

Case Comments

Date	Comment
06/19/2019	*Inbound[redacted] Customer's husband[redacted], called in stating their vehicle has had multiple issues in the past. Customer states vehicle is currently having issues with the transmission. Vehicle intermittently goes into limp mode (30-40mph) and does not accelerate. Customer states also states rear passenger door does not open as of last week as well. Customer states vehicle was diagnosed about 2 weeks ago at Scott Evans for the transmission concern and was advised the valve would need to be replaced and repairs would cost about $2,000. Customer states dealer did not try providing assistance at first with the diagnosis or repairs. Customer states the dealer made him in offer to trade in his vehicle but customer states they are not able to afford the repairs or a trade in. Customer is seeking FCA CAC to provide assistance with the trade in. Agent advised FCA CAC can assist with technical assistance for the repairs but cannot assist with sales concerns. Agent then contacted the dealer and spoke with SA Ryan. SA Ryan states this customer's vehicle has not been in since 3/9/18 and had the axles replaced. SA Ryan states customer denied the oil change during their last visit and vehicle has not been in since. SA Ryan states customer has not been to the service department and has not had a diagnosis completed for about 15 months now. Agent advised customer of what SA Ryan stated. Customer confirmed they were not charged for a diagnosis but they were given an estimate on the cost of repairs. Agent advised customer they must have the vehicle diagnosed by an FCA Certified dealer and informed the customer that the diagnosis will not be covered being that the vehicle is out of warranty. Customer stated they cannot afford to pa for a diagnosis or repairs or a trade in. Customer was frustrated and ended the call .
