Hello,

Just talked to Kent & for some reasons they cant figure it out whats going on :(. And I missed lots of stuff for my kids school stuff.

Good Morning,

I was informed that the technician was going to test drive it it seems like since they can not duplicate the concern. I wanted to know if you were willing to do a drive with them to try and duplicate the concern? I can set one up for you if you would like.

Best Regards,
Lori

Hello,

My name is Sangeya and I will be working with you on your account now
Please allow me a day or so to review your account and get acquainted with your vehicle concerns.
Your case number is [redacted]
If you should have any questions in the meantime, please don't hesitate to contact me.
Thank you

Sangeya
800-654-2486 x1008

Hi,

I dont know how many days for you to review my case but 1 & half months without car really gave us hard time. And it seems like the dealership where my car is now cant figure it out whats going on with my car.

This is what we get & being promised a peace of mind when we come home from overseas serving. And I was patiently waiting for 1 & half months without my car and I had to canceled all of my appts because it scared the hell out of me to take an Uber because of the corona. And I cant wait anymore longer. So I decided to involve a lawyer.

Thank you.

Hello
Sorry I did not call yesterday. I was still doing research as it relates to milatry accounts in CA.
I have not spoken to Kent but did leave a message.
May I ask what he advised you?

Sangeya

Hello,

I cant take back the car yet because my husband is at work & my friends are busy too. And I have all the videos.

Thank you.

Date	10/23/2020	***Subject***	Dodge Customer Care, Case: [redacted]		
From	uscustomercare@fcagroup.com	***To***	[redacted]	***Sent Date/Time***	10/23/2020 21:25 PM

Dear [redacted],

Thank you for speaking with me today in regards to the repurchase of your 2016 DODGE GRAND CARAVAN R/T. As discussed, a new case will be opened with our Reacquired Vehicle Team and your new Case Manager will be reaching out to you in the next few business days.

Your new Case Manager will discuss the process of your repurchase in more detail, however, if youd like to start gathering the documentation listed below, this will help progress your case more quickly. The following documentation will be needed for your repurchase:

Repurchase:

A copy of the drivers license(s) of all titled owners

A copy of the vehicle registration

Front and back of the title application (except CA) (if not in your possession, the lienholder can provide this to you); or a clean title (if no lien)

Bill of sale (buyers order and / or finance contract)

Payment history from your lienholder, detailing payment amounts and amounts going to principle and interest

A written lienholder payoff statement which includes the following: a 10-day payoff amount with a daily interest rate (per diem) and good-through date, account number, collateral information, and overnight payoff address

I will keep an eye out for your new case to be opened. Once I see that your new Case Manager has made contact, I do have to close our case to allow you to continue working with them. However, please feel free to contact me directly any time you have questions or concerns, at (800) 654-2486 (ext 1008).

Additionally, you may receive a follow up phone call or email, with a brief survey, to share your experience with me.

It has been a pleasure working with you!

Thank you,

Sangeya

Customer Retention Specialist

coverage for repair

Case Comments

Date	Comment
08/05/2020	The customer is calling because the vehicle had 3 issues . Driver side passenger door wont open. The check engine light is on. There is a weird noise that happens when the vehicle locks. The door would open because the latches wont open. The customer wants to know why this is not covered. Agent called the MVP to transfer the customer over. 20 minute wait agent then provided the phone number

customer seeking information regarding buzzing during door unlocking

Case Comments

Date	Comment
08/13/2020	Customer seeking assistance with right rear door is making a buzzing noise while unlocking it. Customer states issue started roughly a week or two ago. Customer states he has looked at forums online and seems like an issue. Customer states online forums states its a door axuator. Advised customer neither recalls nor SB. Advised customer of warranty. Advised customer door axutor would be covered under basic warranty. Advised customer he can contact dlr to double check warranty coverage and cost of repair. Advised customer he can order the part online through mopar which has 2 year part warranty.

Initial Description

Chat Started: Friday, August 21, 2020, 09:08:52 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Mathew (5s) Mathew: Hi, my name is Mathew with FCA Customer Care, How may I help you? (17s) Mathew: Hello, how may I help you today? (3m 31s) Visitor: HI Mathew I spoke with Sarah back on 8/3 regarding an issue on my 2016 Caravan and a broken door lock actuator. This is the 2nd time it has broke, same door and my van is just 4 years old with 61,000 miles. I have a huge safety concern with not being able to unlock or open the drivers side sliding door in an emergency. Sarah instructed me to take the van to the dealer for an estimate of cost and then get back in touch. She opened a case under # because it is a very concerning safety/quality issue for this to happen every 24 months. I have the estimate from the dealer and now need to see what the next steps are. (4m 4s) Mathew: I do apologize for that concern with your 2016 vehicle and I can see if I have any recommendations. Did the dealer actually diagnose the vehicle or did they just advise what the cost for the repair may be? (5m 45s) Visitor: yes they did diagnosis as a broken left sliding door lock actuator with a repair price of $564.09. This was just replaced in 2018 while under warranty by the same dealer. (5m 47s) Mathew: And when was the diagnosis done? (6m 9s) Visitor: It was completed on 8/7/2020 (6m 54s) Mathew: Thank you Could I have the VIN for your vehicle please? (7m 44s) Visito 8m 7s) Mathew: Thank you. While I review this, would you mind verifying the owner information on the vehicle so that I can be certain we have it up to date? Could I have the name it is registered under, the current physical mailing address with the zip code, and the primary phone number? Also if you would like to provide it, could I have the best email address contact as well? (8m 41s) Visitor Evansville IN 9m 58s) Mathew: Thank you, one moment please. (18m 45s) Mathew: Thank you for waiting and I apologize for the wait. I did look through this, and as there are no recalls, extended warranty's or service bulletins for the concern that you are experiencing, unfortunately it's not something that Dodge is going to be able to assist with. Any issue like this would have been under the original basic warranty that was good for 3 years or 36 thousand miles; with the Dodge having 61 thousand on it, it has been out by the warranty for 35 thousand miles and by time since 3/24/2019. I do apologize but we would not be able to assist with the current repair after reviewing this. (22m 12s) Visitor: I understand it is out of warranty and if this was the first time this was an issue I wouldn't be upset. But it seems to me that a door not opening is a safety issue that Dodge should be concerned about. Especially when it happens every 2 years. I bought this van brand new with 4 miles on it, no way should same part be broken twice in 4 years. If I am in an accident and emergency services can't open the door to get a passenger out then what? I am not sure who I need to talk to about this issue but someone at Dodge needs to be made aware of the quality of the parts being used and the safety issues it causes. When I spoke with Sarah on 8/3 she was aware it was out of warranty and stated that the best would be done by Dodge assist. (22m 48s) Mathew: The concern is going to be on file, and everything that we document is seen by our higher ups. If in the future, a recall does go out on it, you can file for reimbursement consideration at that time. But at this time, Dodge is not able to assist with the repair; it is based on the review of looking at the vehicle and the concerns, so I do apologize but we are not able to assist you with the current repair. (23m 46s) Visitor: I need to know who I need to talk to? I understand this is not your issue or your fault but this is very poor business. (25m 26s) Mathew: There is not anyone further to speak with Dodge is not able to assist with the repair. The only other recommendation I have is you can send in a letter to FCA USA LLC Customer Care PO Box 21-8004 Auburn Hills MI 48321 but at this time, Dodge is not going to assist with the concern. (29m 5s) Visitor: Thank your for your time Mathew, since you are the highest person at Dodge to help with issues I hope that you do consider your customers safety a priority in the future. I will submit that letter of complaint today per your suggestion and will keep record of our conversation to refer back to if I am involved in an accident and EMS can't get my passengers out. (29m 35s) Mathew: That's fine; here is the case number for our discussion today Again though Dodge recommends that as you are aware of the concern, to get it repaired. Since it is out of warranty, you are free to take it wherever you would like to be fixed. Thank you for contacting Dodge customer care, I hope you have a great rest of your day today.

Humming noise

Case Comments

Date	Comment
08/26/2020	Customer brought the vehicle to the dealer for a humming noise coming from the door. The dealer figured out it was the lock actuator and they took the door off and repaired it. During the repair they broke a part on the door (5020668AA). The dealer says that even though they broke it they want the customer to pay for it. SA is Josh

Good Morning,

I received an email from Rachel and Bob the service manager regarding your concern and they have advised me that they were taking care of things on their end, have they been in touch with you at all regarding the broken part?

Best Regards.

Clorissa,

At this time I still have not received my reimbursement check. When I spoke to Rachel in the Turnersville NJ location she stated Cherry Hill was in charge of disbursement of the check. I called Cherryhill to be told that they sent it last week to me, however I still do not have the check (I don't believe it would take a whole week to be received on my end if their shop is local). In addition that door that was serviced the window button on the door is not working (It was working prior to putting my vehicle in for service). The window goes down if the drivers door button does it but not on the actual door button itself/ so therefor the motor is in working order. I called Rachel & Josh in service and had to leave voicemails for both with no return call. I finally spoke to Pat in service who stated she would set me up an appointment for Friday 10am. However I am concerned about being charged again for my window not working after their repairs. (It is to my understanding the whole door panel had to come off to change the actuator part that was replaced, so most likely they knocked a wire loose on the window up/down button while doing so.) Can you please note my file of this issue because I am sure I will be calling on Friday when it goes in for service!

Thanks,
[redacted]
Sicklerville NJ

Initial Description

Chat Started: Thursday, August 27, 2020, 15:04:53 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Brandi (7s) Brandi: Hi, my name is Brandi with FCA Customer Care, How may I help you? (1m 32s) Visitor: Hi Brandi - my rear sliding door stopped working the other day. We checked the fuses and it did not resolve the issue. We took it to the dealer and it has now cost us $1082 to have it fixed. Based on a quick search, this is a known problem with Town and Country vans. Please advise if this was a recall and if so, how to I go about submitting the bill for reimbursement? (2m 23s) Brandi: Hello [redacted] I am sorry to hear that. I can certainly look into this for you. May I have your VIN? (2m 40s) Visitor [redacted] 4m 28s) Brandi: Thank you, Is Lucas Chrysler Dodge Jeep Ram the dealer you are working with? Also May you please verify your address complete with Zip Code. Also may you verify your Email and phone number? May you also provide your current mileage? (5m 14s) Visitor: Yes, that is who we worked with. My name/address is [redacted] Columbus, NJ [redacted] 5m 21s) Visitor: Mileage is 45414 (6m 51s) Brandi: Thank you, Just a few minutes please [redacted] hile I look into this for you. (6m 58s) Visitor: Ok, thank you. (15m 13s) Brandi: Thank you for waiting [redacted] I certainly understand your frustration with this situation and appreciate you reaching out to us today. I have reviewed your manufacturers warranty. The warranty that may have covered this has expired. There are no service contracts, extended warranties, or recalls on the vehicle for this concern. Based on my research I am unable to offer further assistance. I do apologize that I was unable to provide a more favorable response. We do value you as a customer, and appreciate that you choose Chrysler. (18m 12s) Visitor: I think its very unrealistic to think customers will continue to be happy with this type of a situation. The locking mechanism is a KNOWN problem with Town and Country Mini Vans. Just because your company hasn't issued a recall doesn't mean they should ignore it. Please put me in touch with a manager so that I can speak to someone directly. There is already a class action lawsuit that has been formed regarding this issue; I'd prefer to not go that route but $1082 is a lot of money for an issue that Chrysler knows about. Please send me a phone number of someone I can speak with directly. Thank you. (21m 51s) Brandi: I apologize for the inconvenience. I will certainty have your feedback documented [redacted] as that is how recalls are issued. If enough customers reach out to us with the same concern. If a recall is issued in the future you will be notified by mail. The manufacture warranty has expired, after the warranty vehicle repairs are the customers responsibility. I apologize there is no one higher here with a different response. I recommend working with your dealership. (23m 37s) Visitor: I have bought 3 T&C mini vans in the past 10 years. I will no longer by any of your vehicles ever again. I am disgusted.

Initial Description

CST states that her vehicle is making a very loud noise from the right side back passenger doors. she wants to file a complaint since she was able to google this issue and saw that multiple people have this issue.

Case Comments

Date	Comment
09/01/2020	Informed the cst that she needs to take the vehicle into service in order to see if the dlr can confirm the buzzing noise and fix and explained the warranty that the CST had.
09/01/2020	Customer calling to speak with a supervisor as she feels issue with vehicle should be addressed and a recall should be done. Customer has not taken vehicle to DLR or made an appointment, she sates she got the information on Google as to what is wrong with vehicle. Agent advised again vehicle does need to be seen by DLR for a diagnosis to know what is wrong. Agent advised Supervisor will contact her back within 1 business day.
09/02/2020	*****SUPERVISOR CONTACT***** [redacted] | 2016 Dodge Grand Caravan - 1st ATTEMPT - Customer was afraid to go to the DLR because she didn't want to pay for a diagnostic fee if it doesn't resolve the issue. Verified that customer still has an active Max Care contract and stressed we get customer's vehicle to the DLR. Once diagnosed if DLR states its not covered to give us a call back and we would look into why its not covered and if we can assist with the cost. Buzzing noise was first heard 3 days ago and it's just while customer is driving.
09/02/2020	CST wants to speak to Sup, Erica. CST states the DLR told her that she does not fall under warranty and she wants Erica to call the DLR to authorize assistance. Planet Dodge is the servicing DLR and Ismael. CST wants to know why the warranty is not covered when its showing that its active. Agent informed CST Agent will give the DLR a call and find out more info. Agent will give CST a call back.
09/02/2020	Agent called the DLR and was transferred to SA Ismael, who stated the CST is out of warranty because of mileage is more than 60,000 miles. CST does not qualify for GW.
09/02/2020	Ismael stated the CST would be out of warranty by the mileage because the warranty stops at 60,000 miles. Agent called the resource line and spoke to Paige that stated the CST is outside the factory warranty and more than likely would not merit cost assistance. CST states the vehicle has over 100,000 miles, CST states its a manufacture issue and many people are having issues. CST states she had called to complain about being outside the warranty because its a manufacture defect and that it should be a recall concern with multiple concerns by other consumers. CST stated she was told the DLR can offer assistance or an exception for her vehicle being out of warranty.

Initial Description

Customer is concerned that the "Blind spot detection System' and the sliding Automatic Door are not working.

Case Comments

Date	Comment
09/01/2020	Customer states that the Blind Spot Detection System stopped working in March 2020 and that the Automatic Sliding Door stopped working two weeks ago. Customer states that it is too expensive for his to fix and is worried about his and other passengers safety in case there is an accident. Customer states that this situation is very inconvenient and is requesting advise on what he should do. Customer would like to know if there is a website or internet group that he could register his vehicle complaints. Customer was advised by Agent that he should not really on internet forums for information because they can be false and misleading. Customer wants a call back to see what can be done. Customer was notified by agent that there are no warranties on the vehicle that will cover these current issues.
09/02/2020	Agent left a voicemail stating that he was denied goodwill. Next agent if customer calls back. Good will was denied due to him not being the original owner and warranty is expired.

Hello

Thank you for contacting Dodge Customer Care.

I do understand how useful the Uconnect App would be for your vehicle.

Unfortunately, this is an option that has to be installed in factory and cannot be added to the vehicle afterwards.

Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at 800-423-6343.

Thank you again for your email Jean. Have a great day.

Best Regards,

Jacklyn

Case Comments

Date	Comment
09/08/2020	cst calling because she had rust on her hood and then she got hit in the back so her bumper needed to be replaced cst vehicle was under warranty and got them both replaced but the bumper and hood was not the same color gray cst was mad because the vehicle was two tone gray cst took vehicle to be painted at dealership and they painted the bumper the correct color when cst picked the vehicle back up from shop Friday night her husband seen that the next morning the vehicles hood was not the same color cst took the vehicle back to the dealership and dealer stated that there was nothing they can do and even if they painted the hood 100 times they will not get the matching color advisor informed cst that we can try to escalate her case but there is no guarantee that we would be able to even assist with this issue because this matter is between cst and dealer cst understood advisor informed cst that if the case does get sent back the advisor will call back and let her know
09/10/2020	Customer emailed in, CM please review case#
09/14/2020	CM LVM for customer regarding the concerns of his paint
09/14/2020	per dealer task: it was painted with a specific paint code. verified with body shop that it was correct. no issues.
09/18/2020	CM LVM for customer regarding the concerns of his paint, cm also advised on the voicemail that there was nothing more that could be done, as the vehicle was painted with the specific paint code for this vehicle. and that the case will be closed, but if he should have any questions he can call into Chrysler customer care at any time.
09/18/2020	Customer was kicked out of Greenway by service manager Travis Letson on 9/9/2020.. Customer sent a letter to the CEO of Chrysler and she has not heard anything. Dealer did the hood paint was done in January 2020.... the bumper was done Sept 2020. Car was not at the dealership when the hood was painted. CM will call other dealer in Central Florida to see if they have a body shop that an paint the Hood. 407-963-3589 CM reaching out to central FL dodge (407-982-5026) LVM for service director to call cm on monday or have Arisa call on monday.
09/21/2020	CM spoke to SM Arisa and they do not have a body shop, dealer recommended Napleton.
09/21/2020	cm called dealer code(45155) cm asked if dealer had a body shop, and dealer stated no. CM is reaching out to AM to see if she has any recommendations.
09/21/2020	per AM, customer has to return to Greenway as that is where the job was done.
09/21/2020	per dealer task: CUSTOMER IS COMPLAINING ABOUT THE HOOD NOT BEING PAINTED CORRECTLY . BODYSHOP CONFIRMED SPECIFIC PAINT CODE FOR THAT VEHICLE WAS USED . NO PROBLEM WITH HOOD PER BODYSHOP
09/21/2020	cm called customer and advised that per the AM, the vehicle has to go back to Greenway to have the paint repaired.
09/22/2020	per dealer task: THERES NOTHING TO FIX . HOOD IS PAINTED CORRECTLY . WE ARE NOT PAINTING THE HOOD AGAIN !
09/24/2020	AM has sent out an email to the dealership to look at this vehicle to check the paint or schedule customer for when the AM will be at the dealership.
09/24/2020	per dealer: SPOKE WITH HUSBAND ON 9/24/2020 . THEY WILL CALL ME WHEN THEY CAN COME IN FOR GEORGE TO INSPECT\ CM spoke to cusotmer, she did not hear from dealer, CM sent dealer a task.. task listed above
09/29/2020	per customer email, dealership is working with customer to get the hood repainted.
10/06/2020	CM reached out to customer .lvm for

Date	Comment
10/06/2020	customer called back in no reply from dealer yet
10/19/2020	Vehicle has arrived at dealership GREENWAY CHRYSLER-JEEP-DODGE, INC and attended by dealer employee
10/19/2020	Vehicle has arrived at dealership
10/20/2020	per dealer task: HOOD IS PAINTED AND IS DRYING . SHOULD HAVE VEHICLE READY TO RETURN TO CUSTOMER 10/21/2020 BY 5PM
10/21/2020	CM called customer to provide update as dealer refuses to call her, dealer will only call her husband even after she has asked repeatedly to call her, as it is her car. CM advised that car is due back to her today per task from dealership
10/24/2020	Vehicle has arrived at dealership GREENWAY CHRYSLER-JEEP-DODGE, INC and attended by dealer employee
10/26/2020	Vehicle has arrived at dealership
10/26/2020	Vehicle has arrived at dealership Greenway Chrysler-Jeep-Dodge Inc. and attended by dealer employee
10/26/2020	Vehicle has arrived at dealership
10/26/2020	per dealer task: STILL DIAGNOSING . DRIVERS SLIDING DOOR IS STUCK CLOSED . HAVE TO DETRIM INTERIOR TO ACCESS DOOR
10/26/2020	per T[redacted]he hood is Perfect!! CM was advised by customer that the door had to have a part ordered...so please keep case open till part arrives.
11/03/2020	per dealer task: NOTHING ON ORDER YET . STILL HAVE TO DETRIM INTERIOR TO BREAK INTO DOOR . CUSTOMER HAS VEHICLE . NOT AT DEALER . DO NOT HAVE LOANER PROGRAM
11/03/2020	cm called customer to advise that no parts are on order, customer is going to have her husband call the dealer to find out whats going on
11/04/2020	Vehicle has arrived at dealership GREENWAY CHRYSLER-JEEP-DODGE, INC and attended by dealer employee
11/04/2020	Vehicle has arrived at dealership
11/04/2020	per dealer task: REPLACING SLIDING DOOR LATCH ASSY AND ROD . LATCH IN STOCK ROD ORDERED AND WILL BE HERE 11/5/2020 . REPAIR WILL BE COMPLETED 11/5/20
11/06/2020	per dealer task: VEHICLE WAS BROUGHT IN TO HAVE HOOD REPAINTED . SENT TO BODYSHOP FOR REPAIR . BROUGHT VEHICLE BACK UP AND RETURNED TO CUSTOMER . SLIDING DOOR ACTUATOR FAILED INTERNALLY . CUSTOMER HAS A $100.00 DEDUCTIBLE FROM MAXCARE . WHY WOULD WE PAY ?
11/06/2020	Customer is upset that the dealer is charging her a deductible for something that was not wrong when she brought the vehicle in. Dealer filed it against her max care and she feels that the dealer should of paid the bill
11/10/2020	per customer email: Ok, I'm over it, and Greenway. I will not be paying any amount.

Just to keep you in the loop. My husband and I met with two gentleman at
the dealership today at 4:45, they looked at the van. They said they will
get in touch with me on Monday to give me some dates to bring the van back
to them to repaint the hood.

From		***To***	uscustomercare@fcagroup.com	***Sent Date/Time***	10/05/2020 13:59 PM

I just sent this e-mail to Greenway, awaiting a response.

My husband and myself met with you on Sept 25th. You stated you would get with the paint shop and get back to me on Monday. Sept 28, to let me know when I could bring the vehicle back. Today is October 5th and I have not heard from you. Can you give me an update please?

Date	11/05/2020	***Subject***	Re: Level 2 Initial Contac [redacted]		
From	[redacted]	***To***	uscustomercare@fcagroup.com	***Sent Date/Time***	11/05/2020 22:53 PM

So, when we went to pick up the van, the back driver side passenger side door did not open, they have had the vehicle quite a bit, and we had no issue with the back door. The day we picked it up from being painted. The pain job was good. But, before my husband left the dealership he went to put his computer in back and said door would not open- it was almost closing, the dealership told my husband they would call him tomorrow in which they did, he brought it back, brian said had to order a part. Then, you called and i updated you that the paint wad correct but door did not open but they said would take care of it. Well , my husband just tried to pick up the van tonight, told owes $106. We did nothing to the door, it was working when it went in every time??

Morning [redacted]

Sounds like they charged your for a diagnostic fee of the door issue. Did your husband sign a paper agreeing to the charge for a diagnosis

So, when we went to pick up the van, the back driver side passenger side door did not open, they have had the vehicle quite a bit, and we had no issue with the back door. The day we picked it up from being painted. The pain job was good. But, before my husband left the dealership he went to put his computer in back and said door would not open- it was almost closing, the dealership told my husband they would call him tomorrow in which they did, he brought it back, brian said had to order a part. Then, you called and i updated you that the paint wad correct but door did not open but they said would take care of it. Well , my husband just tried to pick up the van tonight, told owes $106. We did nothing to the door, it was working when it went in every time??

Good Morning [redacted]

The claim was filed against your Max Care warranty, and there is a deductible on that policy of 100.00 so therefore that is why you were charged that amount. To dispute that, you would need to take it up with Greenway, I can not do anything regarding the claim that was filed.

Ok, I'm over it, and Greenway. I will not be paying any amount. My time and inconvience for the issues that should should been done right the 1st time, months ago and multiple days of inconcience have costed me more, and Greenway should be paying me.

rental request

Case Comments

Date	Comment
09/08/2020	cst transmission has failed and and vehicle is not moving dealership was not providing loaner vehicle so cst went to budget(rental company) dealership was not covering the full amount for rental cst is wanting to know if he is able to get the full coverage from fca
09/09/2020	[redacted] VIN [redacted] 2016 CHRYSLER TOWN & COUNTRY TOURING-L - Recalls: none In-Service Date: 8/29/2016 Original Owner: y Mileage: 74,000 Vehicle purchase loyalty: 2 n Multiple Repairs/ Previous related repairs: y / n - repeats on Exchange Unit/radio and on Solenoid/Sensor|Solenoid Pack - Repairs to: Actuator/motor, electric door lock, A/C, radiator, hood panel MVP plans: Active WM6100N MAXIMUM CARE Other: - LS 451 / CCS 30 - POWERTRAIN WARRANTY (5/60) - EXPIRED at 60,000 miles. Out by mileage, under by time. - Vehicle does qualify to be sent up to SPECIALIST as per AH 1267 - Dealer cost assistance process applies under Warranty Bulletin D-17-18
09/09/2020	CM called customer [redacted] Type 1 phone on file / 2016 CHRYSLER TOWN & COUNTRY Customer Contact Preferences: 1. this is best phone 2. email - confirmed - it is his wife's email. Customer does all the oil changes. The vehicle has new brakes and tires. It had new fluid when the oil pan was done and when the valve was done. The only thing that doesn't have an issue is the engine. This is the 2nd time on the transmission in 2 years. He dropped it off on Friday but the Service Department had already left. He rented a rental himself since Sunday. This is his wife's car and she is now in a rental. The Dealer were in the process of diagnosing the vehicle yesterday. Not worried about the diagnosis because of the warranty on the car. He was just angry about being stranded on the weekend without a vehicle. Been in the shop twice in the last 2 weeks. Clai[redacted] 50498 miles, 4/22/2019, DLR: 45449 JACK PHELAN CHRYSLER DODGE JEEP Front - 62TE |Pan, Oil - Replace or reseal - On the air conditioner, they ordered a new arm rest but they didn't fix the leather of the seat. The Dealer didn't want to do that - he wanted them to put a whole new seat in. This was on the RO 6 weeks ago. This Dealer does not have rentals or loaners. From 2 years ago, they took him to an Enterprise. Customer has the car until Friday. 70.00/day. CM will see if the Dealer can get him into a loaner. Customer purchased from Selling Dealer: 26730 PALMEN AUTOMOTIVE GROUP OF RACINE. Larry Roesch was closest to where the breakdown occurred. Both Dealers are about the same distance, a 15 minutes drive. Larry Roesch did the tranmission related work before.
09/09/2020	Customer says this repair is also transmission related: Clai[redacted] 54225 miles, 5/30/2019, DLR 45449, JACK PHELAN CHRYSLER DODGE JEEP Group A can be used only with Group D or E|Group A Repair (3 - Highly Skilled)|Transaxle| and that he wanted to be back at the same Dealer as did that repair ****** CM suggested to customer that he call the DLR LARRY ROESCH and get himself into an Enterprise rental through them. The rate will be lower than 70.00/day. Only a Service Manager level person can put a customer into a rental. MVP SC will pay 5 days @ 35.00/day CM can reimburse an additional 10 days @ 35.00/day CM will follow up with the Dealer to gather diagnosis and ask about parts ordered - what the ETA is - and if necessary send to our Parts Expediting Team.
09/10/2020	*****CM received email reply from SD Paul******* I dont show this vehicle in for service at this time. The vehicle was last here 7/17/2020. I currently dont show this vehicle in our service dept.
09/10/2020	CM called customer [redacted] Type 1 phone on file / 2016 CHRYSLER TOWN & COUNTRY CM LVM for customer that Dealer LARRY ROESCH says the vehicle has not been at their Dealer since 7/17/20 and is not showing as currently being in their Service Department. CM is wondering if the vehicle is perhaps under some other name at the Dealer? CM is seeking to proceed with his request and needs to clear this up so is requesting a callback to her as soon as possible.

Date	Comment
09/10/2020	*****CM re-emailed SD Paul***** - CM apologized for the error - LARRY ROESCH was the last Dealer this customer was at: Claim [redacted], 70,010 miles, 8/17/2020 for 2 repairs - Customer thinks this new issue is related to repairs done previously, so he must be at DLR JACK PHELAN. I will call them.
09/10/2020	CM called DLR Jack Phelan Chrysler Dodge Jeep Ram / 45449 / 7083525300 Service Receptionist said the vehicle is under both [redacted] and it is there at JACK PHELAN SA's name Mike SM's name Adam Miller / Email: adam@jackphelan.com CM asked to go to the SA Mike to gather preliminary information. The call was not transferred.
09/10/2020	SA MIKE: Preliminary Dealer Input: RO # [redacted] Date Opened: 9/08/20 Mileage: 74,464 What symptoms? Customer stated that he heard a loud whining noise and it stopped moving and he needed high RPMs to get it to go. Doesn't know if towed in - was there in the am when they got in on Tuesday. What is the cost to the customer: 100.00 deductible. Went under the customer's MVP Maximum Care. SA Mike spoke to Sarah and she will be there later today to pick it up.
09/10/2020	CM called customer [redacted] / Type 1 phone on file / 2016 CHRYSLER TOWN & COUNTRY CM updated customer that she called DLR JACK PHELAN and they confirmed they had the vehicle. It has now been repaired and his wife Sarah has been called to come and pick it up. Customer is seeking for his Budget Rental to be reimbursed. CM will get back to the customer on his 370.00 of rental through MVP. CM thinks he has to submit first to MVP for the 5 days to see what they can cover. Not sure we would be able to do anything for him but perhaps we can handle it. CM will look into it.
09/10/2020	******ANSWER HUB 1329 - MVP Rentals****** Car Rental Allowance coverage: $35/day; 5-day max - AH has a link for another AH 1269: Goodwill: Rentals Specialists can approve < 10 days
09/10/2020	*******CM emailed SM Adam****** - CM obtained preliminary Dealer input from the SA Mike today and also found out that the vehicle is already repaired and the customer's wife [redacted] was called. I called the customer [redacted] and he hadn't known it was repaired and ready to be picked up, so I informed him. - CM informed SM that the customer is seeking reimbursement of rental he took out himself from Budget. They charged him 70.00/day and CM told him we would only be able to reimburse him at 35.00/day. He had an MVP providing 5 days of rental and was surprised the Dealer did not put him into a rental. - The customer got a rental for his wife on Sunday, 9/06/20 from Budget, He says he dropped the vehicle off on Friday, 9/04/20, but the Service Department had already left. - CM would only be able to pay for rental from Sunday 9/06/20 when he got the rental to 9/10/20 when the vehicle was ready to be picked up. That is 5 days @ 35.00/day = 175.00. His rental bill is 370.00. - CM has two questions: 1. What is the repair and was it related? - Customer had claimed his current issue of the transmission shutting down was a related repair to previous work done at JACK PHELAN. - These were the 2 repairs CM discussed with the Customer: Claim [redacted], 54225 miles, 5/30/2019, DLR 45449, JACK PHELAN CHRYSLER DODGE JEEP Group A can be used only with Group D or E|Group A Repair (3 - Highly Skilled)|Transaxle| Claim [redacted], 50498 miles, 4/22/2019, DLR: 45449 JACK PHELAN CHRYSLER DODGE JEEP Front - 62TE |Pan, Oil - Replace or reseal 2. Is this correct about him dropping off the vehicle on Friday, 9/04/20? The RO [redacted] was opened on: 9/08/20
09/11/2020	*****CM re-emailed SM Adam****** - CM requesting a copy of the RO to back up the customer's request for rental to be paid.
09/11/2020	*****CM emailed customer regarding sending in documents***** - CM provided list of what is required - CM provided instructions for emailing pdf format documents and also for mailing in documents
09/14/2020	CM called DLR Jack Phelan Chrysler Dodge Jeep Ram / 45449 / 7083525300 / SM Adam SA Jason in Service will get the SM Adam to get the RO to the CM. 4/7/2019 - had to reseal the trans pan, the bottom. 5/23/2019 - the solenoid pack has been replaced twice - had to remove the front cover. That part was bad out of the box - put another one in on 5/28/2019 at the same mileage. Those were related repairs in 2019. This time, had to replace the transmission and the cooler due to metal throughout the transmission. Customer went 20,000 miles before returning to the Dealer - 9/8/20 to the time before that. There was quite a gap between the repairs in 2019 and now.
09/14/2020	******CM re-emailed SM Adam***** - SA Jason provided service history related to the current replacement of the trans and the cooler. - CM was told the SM Adam would send the RO.
09/16/2020	******CM received email from SM Adam******9/15/20 - copy of RO 211858 - was attached to the case as MAIERJASON RO
09/16/2020	CM called customer [redacted] / 2016 CHRYSLER TOWN & COUNTRY CM LVM for customer that she has obtained the RO/Invoice [redacted] from the Dealer and now does not require that from the customer. CM is looking for the Rental Invoice and his proof of payment. CM said that if the customer requires more time to gather the documents, he should call us with the case # and we will document that on his case.
09/18/2020	*****Received email from customer*****9/16/20 Is this what you need? ***** CM checked and she received a Budget Rental invoice but no Proof of Payment
09/18/2020	*****CM emailed customer regarding sending in additional document***** - CM thanked for the Budget rental invoice - CM advised she requires proof of payment - gave examples and explained why we need this
09/22/2020	*****CM called Budget******630-495-2080 Being connected to a Budget Representative Donley. CM asked for confirmation that customer paid his rental. Rental Agreement [redacted] was paid already. Customer paid it by Credit Card.
09/23/2020	*****Received documents from customer******* 1. Invoice from Dealer Jack Phelan Chrysler Dodge Jeep Ram, Countryside, IL Invoice # DTCS [redacted] Invoice Date: 09/10/20 RO Date: 09/08/20 Mileage: 74,464 Customer states heard a whining noise then stopped moving. Had high RPM's to engage. (Automatic Trans Concern) .... Need to replace transmission and cooler and recharged AC system and perform QuickLearn and verified operation [Parts are listed on the invoice.] No Charge Customer Deductible: 100.00 TOTAL INVOICE: 100.00 2. Budget Rental Agreement # [redacted] Customer Name: [redacted] Method of Payment: [redacted] Pickup Date/Time: Sep. 6, 2020 @ 11:26 am Pickup Location: [redacted], Lombard, IL Return Date/Time: Sep. 10, 2020 @ 7:42 am Return Location: Same Vehicle License Recoup: 1.50/day: 6.00 Time and Mileage: 281.29 Subtotal: 287.29 Tax: 17.24 Optional Services: 66.00 TOTAL CHARGES: 370,.53 TOTAL DUE: 0.00 3. Proof of Payment Statement from Merchant Website Car Rental: $370.53 [redacted] Purchased: Thurs. Sep. 10, 2020 Posted: Fri. Sep. 11, 2020 Purchased by: [redacted] Appears on statement as Budget Rent-A-Car, Lombard, IL 60148 USA
09/24/2020	*****Received email from customer******9/23/20 Does this work?
09/24/2020	*****CM emailed customer***** - thanked for his email - documents are fine and have been reviewed - CM will recontact customer when check has been issued and is on its way to him

Date	Comment
09/24/2020	FCA Dealer Invoice # [redacted] Related Claim [redacted] 2016 CHRYSLER TOWN & COUNTRY TOURING-L / DLR Jack Phelan Chrysler Dodge Jeep Ram / 45449 / 7083525300 / Goodwill Reimbursement / CASE [redacted] is requesting goodwill reimbursement for rental for repair to replace the transmission and the cooler. customer came in at 6 pm on a Friday and was not happy to be stranded without a rental over the weekend. He put himself into a Budget Rent-A-Car on 9/6/20 and returned it on 9/10/20. He had 5 days under the MVP but preferred to work with Customer Care. Writer is suggesting the following as a goodwill gesture based on dealer input and for customer satisfaction. Date of Repair: 9/10/20 In-Service Date: 8/29/2016 Original Owner: y Mileage: 74,000 Vehicle purchase loyalty: 2 n Multiple Repairs/ Previous related repairs: y / y Related Claim [redacted] MVP plans: Active WM6100N MAXIMUM CARE Other: - LS 571 / CCS 30 - PT WARRANTY (5/60) - expired at 60,000 miles. Out by mileage, under by time. Authorized Chrysler Dealership: Jack Phelan Chrysler Dodge Jeep Ram / 45449 Dealer Opinion: SM Adam: 4/7/2019 - had to reseal the trans pan, the bottom. 5/23/2019 - the solenoid pack has been replaced twice - had to remove the front cover. That part was bad out of the box - put another one in on 5/28/2019 at the same mileage. Those were related repairs in 2019. This time, had to replace the transmission and the cooler due to metal throughout the transmission. The dealership is suggesting to have the transmission and cooler replaced under MVP Service Contract. CM will look at reimbursing for the rental. CM advised SM Adam she would only be able to pay for rental from Sunday 9/06/20 when he got the rental to 9/10/20 when the vehicle was ready to be picked up. That is 5 days @ 35.00/day = 175.0 Dealership was unable to provide customer with a rental at the time (see reasons above.) It is outside of PT warranty but there was an MVP SC to cover the costs of the repairs. RENTAL RECEIPTS as per below details Budget Rental Agreement # [redacted] Total Budget Invoice: $370.53 Proof of Payment provided (see Details below) CM also called Budget to confirm account was paid (POP came in after that). Total for receipts to be paid: 5 days @ FCA regular rate of 35.00/day = TOTAL $175.00 (this is the same as what would have been covered under the MVP Service Contract). Specialist is seeking goodwill reimbursement of $175.00 on the rental. Customer paid 100.00 deductible on the repairs due to having MVP Service Contract Customer paid Budget $370.53 so his copay on the rental (which was at higher rates) worked out to $195.53. CM will submit for check to customer in the amount of 175.00. CM will follow up when completed or within 2 business days.
09/25/2020	- check is submitted and Approved
09/28/2020	CM called customer [redacted] 2016 CHRYSLER TOWN & COUNTRY agent contacted the customer to advise that the reimbursement has been sent out, Agent advised to allow 7 to 10 business days to received, if customer does not receive it contact us after 30 business day, agent advised we will close the file, customer thanked the agent

My name is Jane and I have been assigned as your Chrysler Case Manager. Here is some information that will be helpful for you to have:

Your case number is [redacted]
The Chrysler Case Management telephone number is: 1-844-827-2003
My direct extension for leaving a Voice Mail is: 3020196
To reach me directly, please call the Chrysler Case Management phone and ask any Case Manager to locate me for the call during my work hours
Chrysler Case Managements hours are: 7:00 am 7:00 pm Central Time, Monday through Friday

My work hours for this week, Tuesday through Friday, are 9:00 am to 5:30 pm Central Time.

[redacted] you have any questions or concerns. Thank you for your patience and co-operation!

Date	09/11/2020	***Subject***	[redacted]		
From	chryslercustomercare@fcagroup.com	***To***	[redacted]		09/11/2020 21:44 PM

Hello [redacted]

Good afternoon! Hope you are having a wonderful day!

We require:

Paid Rental Invoice
A proof of payment such as credit card slip, OR copy of credit card statement, credit union statement or bank statement
A copy of Dealer Repair Order or Invoice (all pages) associated with the Rental

These are the two methods I would recommend right now for sending in documents to a case:

1. Send us the documents by replying to this email and using the ATTACH feature of this email to append the documents (do not put the documents in the body of the email). Scanning is better. If you are taking a picture, please make sure the document doesnt curl and that you dont cut off the edges. Best format is PDF.
OR

2. MAIL documents to us at:
FCA US Customer Care
PO Box 21-8007
Auburn Hills MI 48321-8007

I will allow 7 days for you to submit the documents.
My next follow up on your case will be on September 18, 2020.

I will confirm receipt of your documents.
PLEASE CONFIRM YOUR CURRENT MAILING ADDRESS

Thank you for your patience and cooperation!

Jane | Chrysler Case Manager
Phone 1-844-827-2003, Extension 3020196

Hello [redacted]

Good afternoon! I received the RO/Invoice 211858 directly from the Dealer, but I am still looking for a copy of the rental invoice and your proof of payment. I emailed you on 9/11/2020 5:44 PM, just wanted you to know what we now require.

Please advise if you require more time to submit your documents, I will give 2 more days to give you time to re-contact. My next follow up on your case will be on September 18, 2020.

Thank you in advance for your reply! I hope you are having a wonderful day!

Jane | Chrysler Case Manager

Hello [redacted]

Good morning! Thank you for your email and the Budget rental invoice. I needed that but also your proof of payment:

For example: one of credit card slip, OR copy of credit card statement, credit union statement, bank statement etcetera, with the payment circled.

Our finance department requires this to issue a check to you. I can give you more time to get that and send it.

Please feel free to call me or to email me.

Hello [redacted]

I am sending you this email regarding the closure of your case with FCA Case Management.
I would like to provide you with my contact information should you have any questions or concerns in the future.

Your reference number is: [redacted]
The FCA Case Management Telephone Number is: 1-844-827-2003
My Direct Extension is: 3020196

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may open a new case with you. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer

Initial Description

I purchased a preowned 2016 Town & Country in 2017. On 8/23/2020 I had to spend over $1,600.00 to repair both sliding door mechanisms. The only reason it didn\342 t cost more was because the repair shop, not a Chrysler dealership, repaired the passenger door initially so they paid most of the repair on the driver door. In doing research I found this had been a problem with Chrysler/Dodge vans since at least 2003. Why Chrysler engineers have not not redesigned this actuator is beyond me. This is a serious & possibly a life threatening issue. When I door failed I couldn\342 t open the door to get my [redacted] old grandson out of the van. None of the power buttons in the vehicle, the key fob & even the manual lock would work. I had to get my [redacted] ear old grandson out of his seat first on the passenger side, remove his seat then crawl over to the driver side to get his brother out. Not an easy task for a [redacted] year old man with [redacted] If this had happened when in I wasn\342 t home my wife would not have been able due to health issues could not have gotten the baby out without help from s neighbor. If this had been a life threatening emergency or an accident where we had to get my [redacted] ear old out quickly I couldn\342 t have done it. As I believe this is negligence by Chrysler, since you knew this problem has existed for many years yet continued to sell vehicles knowing the doors would fail, I reported this issue to NHTSA. I also believe I should be at least partially reimbursed for the repair cost since you knew there was a design flaw & failed to resolve the issue.

Hello [redacted]

Thank you for contacting Chrysler Customer Care.

We have reviewed your reimbursement request for repairs performed on your 2016 Chrysler Town & Country at an independent repair facility.

FCA US LLC considers reimbursement for out-of-warranty repairs when they are performed by an authorized FCA dealer. Our intent is to protect you, as well as us, from unnecessary and improper repairs being performed on your vehicle. This also allows us to monitor the repairs and provide the opportunity, if necessary, to have the vehicle inspected by factory-trained personnel prior to repairs being performed.

In your circumstance, we are unable to offer any assistance. If you ever have concerns about this repair, we must suggest you pursue this matter with the independent facility that performed the repairs to your vehicle.

Please contact us at 1-800-247-9753 if you require assistance.

Thank you again for your email.

Best wishes,

Mary-Lyn

Im not surprised Chrysler refuses to reimburse me for the expense incurred fixing YOUR defective part. Frankly, your answer of WHERE the part is fixed is BS. I hope the NHTSA fines Chrysler for selling a vehicle with an obvious dangerous defect. With all of the vans sold over the years I find it hard to believe Im the only one to complain to the NHTSA. By the way, since 1998 I have purchased 12 Dodge or Chrysler vehicles. That ends today. And, on all of my social media pages I will let people know about the defect so theyll know at some point they will likely have to pay thousands of dollars on a repair that Chrysler knew about & didnt care enough about their products or customers to correct.

09/14/2020	*****Outbound DLR Contact***** Agent called DLR 41458 at 3144871010 and spoke to Pam in service who stated that they do not have any record of this customer being at the DLR since 9/19/2019 and they previously had a door issue repaired back in 2018.
09/14/2020	*****Outbound Customer Contact***** Agent called the customer at [redacted]nd went over the details of the case with the customer. Customer stated that he had issues with the passenger side sliding door and this was repaired through warranty a couple years back and now he is having issues with the drivers side sliding door and the DLR has not looked at this issue yet. Agent recommended scheduling an appointment to have the DLR diagnose the sliding door issue and getting back to the agent with the appointment time so that we can review assistance options with the DLR. Customer understood and stated that he will do so and thanked the agent.
09/16/2020	Customer left the agent a VM on 9/14 and stated that he has an appointment scheduled at South County Dodge to diagnose the left door issue on 9/23 at 10:15 AM.
09/23/2020	Vehicle has arrived at dealership South County Dodge Chrysler Jeep and attended by dealer employee Brian Zuelke
09/24/2020	*****Outbound DLR Contact***** Agent called DLR 41458 at 3144871010 unable to reach
09/24/2020	*****Outbound Customer Contact***** Agent called the customer at [redacted]gent contacted the customer he advised that he is currently at the DLR now and the vehicle is repaired, customer thanked the agent and advised that the file can be closed

Date	09/24/2020	**Subject**	Case closure [r[redacted]]		
From	uscustomercare@fcagroup.com	**To**	[redacted]	**Sent Date/Time**	09/24/2020 20:37 PM

Hello [redacted]

I am sending you this email regarding the closure of your case with FCA Case Management.
I would like to provide you with my contact information should you have any questions or concerns in the future.

Your reference number is [redacted]
The FCA Case Management Telephone Number is: 1-844-827-2003
My Direct Extension is: 3020148

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may open a new case with you. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer

Customer having many issues with the vehicle

Case Comments

Date	Comment
09/14/2020	Customer called in stating she is having many issues with her vehicle such as shaking, driver side tire wearing out, doors unlocking on their own, and transmission issues. Customer scheduled an appointment online and informed the DLR she would need a rental. Once the customer got there the DLR turned her down as they had no rentals available. Advisor let the customer know FCA would not be able to assist with a rental and she is more than welcome to contact another DLR to see if they can provide her with a rental.

CST called because back lock needs to repair

Case Comments

Date	Comment
09/15/2020	Customer called in for assistance on repair. DLR advised cst that lock would be covered but to reach the lock would not be covered. I advised cst that I would reach out to DLR for clarification. After multiple attempts to contact DLR. I wasnt able to SA or SM. Cst meets criteria to reassign case to specialist for technical assistance. I advised cst of next steps and CM would be in contact within 24 hours. Cst needed nothing further.
09/16/2020	Vehicle concerns: needs help getting the entire cost covered In-Service Date: 5/2/2016 Original Owner: y Mileage: 57,815 Vehicle Purchase Loyalty: New: 3 Used: 1 Multiple Repairs/ Previous related repairs: n MVP plans: LIFETIME MAXIMUM CARE Open Recalls: 0 Other:
09/16/2020	*****outbound dlr contact***** Palmen Automotive Group of Racine Inc * 2628866800 CM spoke to SA Wally & was advised that it's in regards to the sliding door lock as it is seized and needs to be replaced. The plastic appiicays may break and are not covered. Wally states that the customer has to call them back to let them know if they want them to fix the vehicle. CM advised that she will call the customer.
09/16/2020	*****outbound customer contact***** [redacted] CM called customer and left VM.
09/17/2020	Customer seeking callback.
09/17/2020	CUSTOMER CALLED REQUESTING TO SPEAK WITH CASE MANAGER, STATES HAD TO PICK VEHICLE UP FROM DEALERSHIP FOR PERSONAL REASONS, AGENT INFORMED CUSTOMER THAT CASE MANAGER CURRENTLY UNAVAILABLE, WILL PUT IN REQUEST FOR CALL BACK
09/18/2020	*****outbound customer contact***** [redacted] CM returned customer's phone call. * upset the Agent did not update her information as she clearly told them to call her and not Michael * dlr is not moving on repairs * hasn't heard back from Mopar * charged $77 for the diagnosed due to nobody calling her back * left vm's but no call backs * very inconvenienced & frustrated that we won't cover the diagnosis fee nor will we cover the cost of repairs for the applicay when they break * nobody is taking ownership for anything *customer wanted a supervisor due to CM not guaranteeing she will cover the entire cost of the repairs when they break CM apologized numerous times for the inconvenience, advised that we can never guarantee full coverage as that is not what we do however we help as much as we can. CM advised that every case is case by case and if it's something that we are able to cover fully, then we do so but we never guarantee that we will. Customer states she doesn't care about anyone elses case, only hers and wants it guaranteed that it will be covered as she is being treated horribly right from the start. CM advised that she will call the dlr and get more information and she would cover up to $300 for the applicays if they break. Customer said no, she's covering the entire price for her being treated so horribly not only by the dlr but by everyone else as we're all passing the buck and nobody is taking ownership of the issues.
09/18/2020	*****outbound dlr contact***** Palmen Automotive Group of Racine Inc * 2628866800 CM spoke to SM John & asked that if the applicay's break, would she be able to cover it for the customer. John said yes that's fine and to send him an email so he can keep track of it. CM advised that she will & thanked John for his assistance.

Date	Comment
09/18/2020	*****outbound customer contact***** [redacted] CM called customer back & advised that CM spoke to SM John and was advised that if the applicay's break, CM will cover the cost and advised that she has sent [redacted] an email advising as well. Customer said that's fine but what about the diagnosis fee and the now, another $100 deductible she's going to have to pay for all because she was never called back in a timely manner when she was at the dlr earlier this week. Customer states that she will never buy another Chrysler vehicle due to the horrible & frustrating customer service she's been getting from the beginning of this entire ordeal. CM apologized once again for the inconvenience and advised that we do not reimburse for the deductible as that is part of her SC that she agreed to and would need to speak to MVP in regards to that. CM advised that we do not reimburse for the diagnosis fee however CM will inquire about seeing if we are able to due to the circumstances. Customer states that she's still being treated horribly as CM won't reimburse her the money as it's CM's fault for all of this and is looking forward to the sup call on Monday. CM advised customer that she understands at this point that no matter what she does for the customer she will not be happy. Customer advised CM that is correct as she's been inconvenienced from day one of nobody updating the file the way they should have and for not being called back.
09/18/2020	Sup Call back Customer has requested Supervisor call back Preferred daytime number [redacted] referred evening number [redacted] Reason for request: customer is irate over not having her contact information in the system when she first called as CM called her husband which she specifically said not too, customer is irate that CM did not return her phone calls from the VM cause if she did, she wouldn't be out $77 for the diagnostic fee and now yet another deductible for having to go back yet again. Customer is irate over CM not guaranteeing to pay for the applicay when she first asked due to the inconvenience and this entire ordeal is just way beyond frustrating CAIR assigned to: T0239SG CSR has informed customer a Supervisor call back request has been made, and the customer will receive a callback within one (1) business day
09/21/2020	First Attempt ****Supervisor Callback [redacted] *** Customer stated that it is ridiculous that she has had to wait all this time to get this resolved, customer stated that this is a design flaw, the customer service is flawed. TL advised can appreciate her frustration, the vehicle is outside of warranty, the service contract doesn't covered the entire repair and the CM has agreed to cover the cost. Customer stated that this call is redundant, no one is taking responsibility for this, we are done
09/22/2020	*****outbound dlr contact***** Palmen Automotive Group of Racine Inc * 2628866800 CM tried to speak with someone in the service department was not able to do so. CM called back and asked to speak with the SM John however CM was not able to speak to him neither. CM will send SM John an email to see when the customer's appointment is for.
09/22/2020	*****Email to DLR***** CM sent SM John an email asking if the customer has booked an appointment for repairs.
09/22/2020	*****Email from DLR***** to me Scheduled for 9/28/2020 at 10 am
09/24/2020	CM sent customer an email advising she will follow up with them and the dlr on Tuesday, Sept. 29th
09/28/2020	Vehicle has arrived at dealership PALMEN AUTOMOTIVE GROUP OF RACINE, and attended by dealer employee
09/29/2020	*****outbound dlr contact***** Palmen Automotive Group of Racine Inc * 2628866800 CM spoke to SA Wally & was advised that he was not aware that the customer was to be put into a rental as nobody in the dlr told him. The customer is scheduled for Thursday Oct.1st and will have a rental in place.
09/29/2020	CM replied back to customer's email.
10/01/2020	Vehicle has arrived at dealership PALMEN AUTOMOTIVE GROUP OF RACINE, and attended by dealer employee
10/02/2020	*****outbound dlr contact***** Palmen Automotive Group of Racine Inc * 2628866800 Left SA Walley a VM and requested a call back to Chelee with a status update on this vehicle.
10/06/2020	*****outbound dlr contact***** Palmen Automotive Group of Racine Inc * 2628866800 CM called the service department but was unable to speak to anyone.
10/08/2020	*****Email from DLR***** to me Repairs were completed on 10/01/2020 Molding replacements were not necessary!
10/08/2020	CM sent customer an email stating if everything is alright with the repairs, no need to contact us back as we will close the case in 2 days

Good luck. Took the van to the dealership this morning for the scheduled appointment. Wally, who scheduled the appointment had no idea why we were there. He said that he had to check with Chrysler to make sure that everything was covered, even though, this should have been taken care of last week. There was not a courtesy vehicle available. Had to get to a previously scheduled appointment at work. Now we have to reschedule the repair again! Cant understand the lack of communication and the incompetence in a simple repair.

Chelee,
We were charged $77 from the dealership to look at the broken door lock, because we were not able to get a response from Chrysler, last time it was at the dealership. Will you be able to have this charge put towards the $100 deductible, due to this continued inconvenience, when we finally get the repair done?
Tammi Clementi

Hello [redacted]

I am just reaching out to you in regards to your vehicle. I have tried to speak to someone in regards to your repair status at the dealership however I was unable to. I will try sending the service manager an email. Once I receive a response, I will be in contact to you. As for the $77, that is a diagnostic fee and it is not covered by us.

Thank you & have a great day!

I understand that it is a diagnostic fee. The issue is that we brought the van in. We were told that the parts associated with the door lock were not covered. And we would be responsible for the parts, and that it would cost $300. We called about the lock repair when it was at the dealership. The van was there for 4 days. If we would have gotten the okay to have the associated parts for the door lock covered under the extended warranty when the van was at the dealership, we would have been charged the $77. We then also paid $100 deductible for the door repair.

Please keep the chat window open to participate in a brief survey at the completion of our conversation. (2m 46s) Visitor: Hi, my Town and Country van driver side sliding door continually has the lock that is stuck in the lock position. When I look it up online it seems there are a lot of people with this issue. Is there a recall or a best method to get this repaired without a large expense? My passenger sliding door also makes a noise like the lock is stuck but so far hasnt stayed in the lock position. (3m 28s) Visitor: Its a 2016. I dont care if I have to always manually open the doors either, I just am trying to find a way to keep them working. (4m 16s) Emily: I do apologize you are having a concern, I would be happy to look into this with you, in order to look more into this with you may I please have you confirm your name, address, telephone number, email address and the last 8 of the VIN on the vehicle? (5m 6s) Visitor: [redacted] (5m 35s) Visitor: [redacted] (7m 37s) Emily: I can understand this would be frustrating with the doors I am currently showing no recalls listed on the vin. I would be happy to open a case on the matter for you and have everything noted. I would need to recommend taking the van in to local dealership to have a diagnosis completed to determine the repair. I am not aware to what repair can be completed. (9m 23s) Visitor: Do you know if that will be expensive to get a diagnostic done for the repair? (9m 37s) Emily: Each location would be different with a diagnostic fee I know most locations start around 100.00 (11m 31s) Visitor: Ok I guess I was hoping for something different but thank you for your time. (11m 33s) Emily: You're welcome (11m 41s) Emily: Thank you for contacting Chrysler Customer Care. Please chat with us again if you need further assistance. You can also look for updates on our website www.Chrysler.com. Have a good day!

09/17/2020	***Customer concern*** Cst vehicle sliding door wouldn't not open remained locked, actuator seized up. Cst had to pay $1300 for repairs at the dlr. ***Agent advised*** Agent sending for reimbursement review for goodwill. Cst has good LS and CCS and within 2/24 of the basic warranty as per AH 1267. Agent sent cst email to send in documentation for review and advised of case handling times. Cst aware and would also like to notate when called dlr, dlr advised had already repaired 4 of these this week and notes this is a problem that FCA needs to address. Agent heeded cst feedback and explained that could become recall possibly and to handle this concern as a case by case basis, cst understands.
09/22/2020	Customer was told she would be called in 48 hours for reimbursement. Advised to allow more time as takes longer.
09/24/2020	Check Request Information: Total Amount $860.52 BREAKDOWN: Parts $678 Latch (Sliding Door-68030379AG) $572 Applique Sliding Door Outside $106 Labor $281.60 Tax $52.78 [($959.60/$1250.57) x $68.78] Total Reimbursable Amount $1012.38*85% DOCUMENTS: DOC[redacted] Proof of Payment DOC[redacted] Repair Order CONFIRMATION: Name: Rosa Din Date: 9/24/2020 Time: 3:06 PM REASON FOR REIMBURSEMENT REQUEST Customer seeking reimbursement for the repair done on the vehicle last 09/16/2020. Hell[redacted]

Thank you for taking the time to contact DODGE Customer Care.

I would be more than happy to look into your reimbursement request; however, in order for your file to be reviewed in full I would need to get further information.
If you could attach a copy of the work order, as well as the proof of payment for repairs, that would be greatly appreciated.
Once your documents have been received, the reimbursement process may take up to 60 days.
Rest assured, once theres an update available, you will be contacted as soon as possible.
Thank you again for your email. Should you require additional assistance, please reply to this email message or call .

Best wishes,
Karla

I was glad to hear that we will have part of our money refunded. But my bigger concern is whether the problem is being addressed. We tend to keep our vehicles for 15+ years and if this happened After only having the vehicle for four years Im wondering how many times we will have to deal with this issue. Please let me know what is being done to permanently rectify this issue. Thanks

Initial Description

Chat Started: Thursday, September 17, 2020, 15:14:52 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Maurice (23s) Maurice: Thank you for chatting with us, my name is Maurice with FCA Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (1m 49s) Visitor: I'm trying to get information on my warranty for my Chrysler town and country. I purchased a lifetime warranty and I'm not sure how to ensure its being used. I have taken the van to a dealer and they said one item was not covered. I'm curious if there's an issue with the warranty (2m 9s) Maurice: Hello [redacted] I can see why that would be important. If you confirm your vehicle identification number, address, telephone number, and email, I will be more than happy to look into this for you. (3m 6s) Visitor: Vin - [redacted] 3m 36s) Visitor: address - [redacted] Bridgeport tx (this may have changed since purchase) (3m 55s) Visitor: [redacted] 4m 13s) Maurice: Thank you for confirming! I am looking into this for you now. What would be the approximate mileage? (4m 20s) Visitor: 82,000 (4m 38s) Maurice: Thank you for confirming. (6m 42s) Maurice: Thank you much for holding, I appreciate your patience. I am seeing that you do have the lifetime maximum care warranty through mopar vehicle protection. For information on the warranty, and coverage details, you can contact Mopar Vehicle Protection at 1- 800-521-9922 that hotline is open until 8pm EST today. I would also like to let you know that you have no open recalls at this time, so everything is good to go there. (6m 52s) Maurice: Is there anything else I might be able to look into for you today? (7m 46s) Visitor: Should the dealership I take my car to be able to access this information or do I need to tell them? (8m 21s) Maurice: Great question! The dealership has access to the mopar vehicle protection information. (8m 25s) Visitor: for instance, last year they told me that a drivers side mirror was not covered by the warranty. Is that correct? (8m 38s) Visitor: I have a door that now will not unlock, is that covered by the warranty? (8m 51s) Maurice: Great question, you would need to contact mopar vehicle protection for information on the warranty. I do apologize I do not have access to the extended warranties. (9m 27s) Visitor: you don't have access to that? Do I have an account number for my warranty or is it linked to the vin number? (9m 40s) Maurice: Great question, the warranty is linked to your VIN. For information on the warranty, and coverage details, you can contact Mopar Vehicle Protection at 1- 800-521-9922 that hotline is open until 8pm EST today (10m 17s) Visitor: ok, and all I need to give them is my vin number? (10m 42s) Maurice: They may also ask you to verify your information as I have, Address, VIN, telephone number etc. (10m 56s) Maurice: Is there anything else I can look into for you at this time? (10m 58s) Visitor: should the extended warranty appear on my online account? (11m 21s) Visitor: I created my account today, added my vehicle, but I don't see where it shows my extended warranty (11m 38s) Maurice: Great question. I am seeing that you have more than one service contract on the vehicle, when this happens, the extended warranty would not appear on the mopar account, as it does not know how to display when there is more than one service contract. (12m 7s) Visitor: what does that mean more than one service contract? (12m 15s) Maurice: You also have the ROAD HAZARD TIRE AND WHEEL PROTECTION (12m 28s) Maurice: This is also through mopar vehicle protection. (12m 43s) Visitor: ok, do you know what would be covered under that? (13m 7s) Maurice: You can request your full warranty provisions through mopar vehicle protection at the number provided, and they will also be able to let you know what your maximum care and the road hazard tire and wheel protection covers. (13m 27s) Visitor: ok, thank you (13m 46s) Maurice: You are very welcome [redacted] t was a pleasure assisting today, Is there anything else I might be able to help with? (13m 52s) Visitor: no (14m 15s) Maurice: Thank you so much for contacting Chrysler Customer Care and thank you for choosing Chrysler! Have a wonderful weekend!

Case Comments

Customer was inquiring about any open recalls or known issues with her sliding doors

Case Comments

Date	Comment
09/21/2020	Customer was calling because she is experiencing issues with her sliding door, it opens even when its locked and wanted to check if there any open recalls or extended warranties on this matter. Agent checked for both recalls and extended warranties and found none for this issue, agent recommended customer to take it to the dlr and have it diagnosed and offered to schedule appointment, customer inquired about her warranty coverage and after checking VIP agent informed her that she was outside warranty and that she would have to pay for the diagnosis. No further action required

Initial Description

Chat Started: Thursday, September 24, 2020, 14:42:47 (-0400) Chat Origin: NAFTA Chrysler Brand Chat Agent Sarah (5s) Sarah: Thank you for chatting with us, my name is Sarah with Chrysler Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (29s) Visitor: hi Sarah I go disconnected form the person I was previously talking (43s) Sarah: Hello! (1m 2s) Sarah: How are you today[redacted] (2m 28s) Visitor: Good i just have saftey issue with my van i just sent a email with my registration to my vehicle to help out (3m 49s) Sarah: I am sorry to hear that. I would be happy to look into this further here for you. Do you happen to have the VIN on the vehicle? (5m 38s) Sarah[redacted]re you there? (6m 0s) Visitor: Yes sorry I have to go get it (6m 28s) Sarah: No problem. (6m 52s) Visitor[redacted] 7m 10s) Sarah: Thank you. (7m 25s) Visitor: yep (8m 53s) Sarah: What is the current issue you are having with the vehicle? (10m 14s) Visitor: So i can not manually or automatically unlock my divers side sliding door (10m 49s) Sarah: I absolutely understand, are you currently working with a Dealer? (11m 0s) Visitor: therefore I can not open it at all (11m 9s) Visitor: no i bought my car 2 years ago (12m 35s) Sarah: I understand thank you, what is the approximate mileage on the vehicle? (13m 38s) Visitor: I understand that I have all other doors working but in a situation that this would be the only door to evacuate the vehicle it would be unsafe and possibly life threatening (17m 10s) Sarah: I can certainly see why you would be concerned with that issue. The first step to resolve the issue would be for a dealer to diagnose what has caused that issue. I am showing your previous case here and it will update the owner information once those documents have been received. Would you like me to locate a Dealer in your are to assist? (17m 12s) Visitor: Um I have to check (17m 55s) Visitor: Miles are 82776 (18m 25s) Visitor: this is my other issue im[redacted]and haven't received my[redacted]et (18m 43s) Visitor: a dealers going to cost me $$$$ I don't have (19m 22s) Sarah: At this time I am not showing any recalls or extended warranties that would provide coverage for this concern. (21m 4s) Visitor: I need it taken care of this is a very unsafe issue (22m 29s) Sarah: I absolutely understand however since the vehicle is out of warranty it is not a repair that we would be able to assist with. I have examined your file in full however I would be unable to provide any type of assistance for your situation today. I do understand your frustration as this was not a planned cost, but when our certified dealer completes the work you will then have 2 years of coverage on the new parts and labor to provide you with some comfort and peace of mind. Is there anything else I can assist with today? (25m 11s) Sarah[redacted]re you still there? (26m 33s) Visitor: So what am I to do (27m 8s) Sarah: You would need to work with a Dealer or Independent repair facility to resolve the issue. (29m 2s) Visitor: So there's nothing Chrysler can do with a safety problem that could cause a life threatening situation (29m 34s) Sarah: There is nothing we are able to do without a Dealer diagnosis. The vehicle is outside of warranty so we are not able to assist with repair cost. (30m 36s) Visitor: Ok so I have to take it somewhere to diagnosis and then u guys will take it into consideration to assist in costs (31m 1s) Sarah: Since the vehicle is out of warranty we cannot assist with repair cost. We can work with you and the Dealer to get the issue resolved but there would be a cost to repair. (32m 12s) Visitor: That is my issue i dont have the funds to pay the dealer they charge way to much to fix anything (34m 25s) Sarah: I understand however since the vehicle is out of warranty we do not have a way to assist with the repair. (36m 50s) Visitor: This is a safety issues it should matter if its under warranty

Please keep the chat window open to participate in a brief survey at the completion of our conversation. (29s) Visitor: hi Sarah I go disconnected form the person I was previously talking (43s) Sarah: Hello! (1m 2s) Sarah: How are you today[redacted] (2m 28s) Visitor: Good i just have saftey issue with my van i just sent a email with my registration to my vehicle to help out (3m 49s) Sarah: I am sorry to hear that. I would be happy to look into this further here for you. Do you happen to have the VIN on the vehicle? (5m 38s) Sarah: [redacted]are you there? (6m 0s) Visitor: Yes sorry I have to go get it (6m 28s) Sarah: No problem. (6m 52s) Visitor: [redacted] (7m 10s) Sarah: Thank you. (7m 25s) Visitor: yep (8m 53s) Sarah: What is the current issue you are having with the vehicle? (10m 14s) Visitor: So i can not manually or automatically unlock my divers side sliding door (10m 49s) Sarah: I absolutely understand, are you currently working with a Dealer? (11m 0s) Visitor: therefore I can not open it at all (11m 9s) Visitor: no i bought my car 2 years ago (12m 35s) Sarah: I understand thank you, what is the approximate mileage on the vehicle? (13m 38s) Visitor: I understand that I have all other doors working but in a situation that this would be the only door to evacuate the vehicle it would be unsafe and possibly life threatening (17m 10s) Sarah: I can certainly see why you would be concerned with that issue. The first step to resolve the issue would be for a dealer to diagnose what has caused that issue. I am showing your previous case here and it will update the owner information once those documents have been received. Would you like me to locate a Dealer in your are to assist? (17m 12s) Visitor: Um I have to check (17m 55s) Visitor: Miles are 82776 (18m 25s) Visitor: this is my other issue im unemployed and haven't received my unemployment benefits yet (18m 43s) Visitor: a dealers going to cost me $$$$ I don't have (19m 22s) Sarah: At this time I am not showing any recalls or extended warranties that would provide coverage for this concern. (21m 4s) Visitor: I need it taken care of this is a very unsafe issue (22m 29s) Sarah: I absolutely understand however since the vehicle is out of warranty it is not a repair that we would be able to assist with. I have examined your file in full however I would be unable to provide any type of assistance for your situation today. I do understand your frustration as this was not a planned cost, but when our certified dealer completes the work you will then have 2 years of coverage on the new parts and labor to provide you with some comfort and peace of mind. Is there anything else I can assist with today? (25m 11s) Sarah: [redacted]are you still there? (26m 33s) Visitor: So what am I to do (27m 8s) Sarah: You would need to work with a Dealer or Independent repair facility to resolve the issue. (29m 2s) Visitor: So there's nothing Chrysler can do with a safety problem that could cause a life threatening situation (29m 34s) Sarah: There is nothing we are able to do without a Dealer diagnosis. The vehicle is outside of warranty so we are not able to assist with repair cost. (30m 36s) Visitor: Ok so I have to take it somewhere to diagnosis and then u guys will take it into consideration to assist in costs (31m 1s) Sarah: Since the vehicle is out of warranty we cannot assist with repair cost. We can work with you and the Dealer to get the issue resolved but there would be a cost to repair. (32m 12s) Visitor: That is my issue i dont have the funds to pay the dealer they charge way to much to fix anything (34m 25s) Sarah: I understand however since the vehicle is out of warranty we do not have a way to assist with the repair. (36m 50s) Visitor: This is a safety issues it should matter if its under warranty

Initial Description

The locking mechanism on both of my sliding doors have failed. The driver's side sliding door is locked and cannot be opened. The passenger side sliding door will not lock; however, we can open and close it. Problems with these locks have been documented across the internet and I am disappointed, as a repeated Dodge purchaser, that Dodge is not standing behind their product when it is an obvious design flaw with the design and manufacturer of the lock mechanism. This will be the last Dodge that I purchase unless Dodge steps up and assists their customers with the costs of these repairs.

Hello [redacted]

Thank you for contacting Dodge Customer Care.

We certainly understand how the sliding door locks regarding your 2016 Dodge Grand Caravan would cause you concern and appreciate the time and effort you took to bring this matter to our attention.

During my preliminary review Rodney, I can see that this would be originally covered under the basic warranty which would be 3 years or 36,000 miles whichever comes first.

While looking through our records for possible coverage searching for; recalls, customer satisfaction notifications, extended warranties and service contracts, sadly I was not able to find anything that we could use to help offer coverage for the power sliding door locks.

As the manufacturer warranty that would have covered this component would have expired by both time and mileage this would be considered an out of pocket expense.

I understand that you feel that the problem you are experiencing is a manufacturing defect on your vehicle, and we take all of our customers concerns seriously. Through our ongoing internal investigations, if we do find that this is a manufacturing defect, we will notify you by mail for you to have the issue resolved. Please keep all of your receipts for the work completed on your vehicle so as if this does happen you will be able to submit for reimbursement consideration at that time.

As you are experiencing problems with an issue you feel deserves attention, we certainly recommend that you contact your local dealer to arrange an appointment so that they can inspect the vehicle and determine an appropriate course of action. For your convenience, I have provided contact information for 2 dealerships in your area below.

Griffin Chrysler Dodge Jeep Ram
505 7th St. W. Tifton, GA 31794
(229) 382-0440

Fitzgerald Chrysler Dodge Jeep Ram
187 Benjamin H. Hill Drive W. Fitzgerald, GA 31750
(229) 423-5720

We have documented your concerns and have made them available to be reviewed internally.

Thank you again for your email Rodney. Please do not hesitate to contact us if you need any further assistance by calling us at 1-800-4A-DODGE (1-800-423-6343).

Best wishes,

Belinda

Initial Description

Chat Started: Tuesday, September 29, 2020, 14:32:47 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Michael (14s) Michael: Thank you for chatting with us, my name is Michael with FCA Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (1m 21s) Visitor: hello (1m 50s) Michael: hi (2m 32s) Visitor: I had my sliding door locks repaired back in Sept 2018. fast forward to april 2020 when one of the lock mechanisms failed again. (2m 58s) Visitor: I didn't get the issue repaired at the time due to Covid-19 health concerns. (3m 15s) Visitor: I had the lock fixed yesterday and had to pay out of pocket $100.00 (3m 58s) Visitor: What I am looking for is a refund of my $100.00 because the part that failed was under warranty (2 year) at the time it failed (April 2020) (4m 17s) Michael: I can definitely appreciate how frustrating this would be, I would be more than happy to assist you with this, in order to obtain further information regarding your vehicle may I verify the last 8 characters of the vehicles VIN, the approximate mileage and the Name and Address the vehicle is registered to? (4m 53s) Visitor[redacted]5m 0s) Visitor[redacted]Mesa, AZ (7m 6s) Michael: Where was this work performed? (7m 14s) Visitor: more background- The original dealership (Hegg's) that replaced the lock went out of business at some point and the new dealership (Courtesy) took over the property. Hegg's destroyed all of their records. The new dealership was unable to help me with the warranty issue. (7m 45s) Visitor: The work was performed at Courtesy yesterday. (10m 31s) Visitor: Like I was telling the people at the dealership and the nice lady at Mopar yesterday, when everything with the pandemic started me and my family hunkered down. I didn't want to risk getting my young kids sick with a vehicle repair. That's the only reason that I waited so long. (10m 33s) Michael: Also what is your ZIP phone and email. (10m 41s) Visitor[redacted]10m 45s) Visitor: [redacted]11m 22s) Visito[redacted](11m 40s) Michael: Thank you I will be a few minutes while I look into this. (11m 44s) Visitor: ok thank you. (20m 45s) Michael: I am here just still looking into this to see how I can assist with this. (21m 6s) Visitor: ok thank you. (23m 34s) Visitor: I understand that the mopar part warranty is 2 years. And that the repair was done approximately 14 days after the two year period. I'm not disputing that at all. My main concern is that the $100.00 that I spent yesterday to get the part fixed should have been covered under the mopar part warranty. If it wasn't for the pandemic and the health of my family I would have had the door repaired sooner. (29m 45s) Michael: I have reached out for to see if this is something we would be able to assist with in any capacity, I have been advised that as the Mopar Parts Warranty has expired approximately 2 weeks prior to the repair which was performed this is not something which we would be able to assist with. (30m 33s) Visitor: the part broke back in april 2020. I wasn't able to go to the dealership due to the pandemic. (30m 55s) Michael: I am sorry to hear this [redacted]and I do understand, however the repair would have needed to have been completed while the Part was still covered under the Mopar Parts Warranty (34m 19s) Visitor: so what i'm hearing is that mopar would rather have me risk the health of my family to get a repair completed during the warrant period than wait until it was safe to do so according to the infection rate of a virus during a national pandemic. When I called Mopar the automated message stated that "this is an unprecedented time." How can that apply to Mopar but not to the consumer (35m 0s) Michael: I can certainly emphasize with your situation[redacted]however we would not be able to assist with this in any capacity as the warranty period for the part had expired 2 weeks prior to having this repair completed. (35m 28s) Visitor: I would like to speak with a supervisor please. I know you're just doing your job and i'm not upset with you. (35m 31s) Michael: This is not something we can assist with, had the repair been completed 2 weeks earlier, it would have been covered. However the warranty period has passed and you advised you had foreknowledge of this issue. (36m 15s) Michael: At this time all possible avenues have been reviewed and it has been determined this is not something we can assist with in any capacity. (36m 43s) Visitor: i'd like to speak with a supervisor (37m 18s) Michael: I understand, I will request my Supervisor to contact you back, it will be a one business day callback, I do apologize. What would be your preferred contact number and email? (37m 39s) Visitor:[redacted]37m 49s) Michael: Thank you, for reference your Case # regarding this i[redacted](37m 57s) Michael: Is there anything else I can assist you with today? (42m 43s) Visitor: nah. i'm disappointed in Mopar. honestly, at this point I don't think I'll ever buy another chrysler vehicle. the simple fact that a part breaks during a national pandemic and the customer waits until the infection rate is low in their state to get a repair completed only to find out that the warranty expired 2 weeks prior is ridiculous. Let's face it that part never should have failed in the first place. Any reputable company stands by their products and has exceptions especially during a public health crisis. It's unsettling and speaks volumes that Mopar doesn't stand by the parts that they produce 2 weeks after the "warranty." (44m 43s) Visitor: I don't push for things to get done that I don't feel are right. The fact that I've wasted hours of my time dealing with this issue shows my determination. (45m 39s) Michael: I will ensure your feedback is documented internally. (45m 45s) Michael: Thank you for contacting FCA Customer Care! Have a good day! Please contact us back if you need further assistance! (46m 5s) Visitor: Thank you.

Case Comments

Date	Comment
09/29/2020	Customer advised sliding door lock issue, had parts replaced at Hager DLR in 2018. Writer contacted DLR spoke to SA Bill whom advised that Mopar Parts Warranty had expired 2 weeks prior to having repair performed. No LS, no CCS, second owner, only vehicle, no good will available for escalation to CM. Writer advised that would be unable to assist with reimbursement of $100 fee they had been charged at DLR. Customer requested supervisor contact at 218-290-0986 or scott.hirsch@hotmail.com, Writer advised of one business day callback.

Thank you for your reply.

I have gone ahead and processed the check. It will typically arrive in about 14 days. If for some reason it does not arrive in 30 days please contact us back.

Have a great day!

The RO was covered by a lifetime warranty that I have through CNA with a deductible. I have a $100 deductible for repairs.

Thank you,

[redacted]

Hello [redacted],

I just need clarification on pricing?

The RO you have sent shows the repair is much more then the $100 you paid. can you clarify?

Live Chats

Date

Date	
09/29/2020	Chat Started: Tuesday, September 29, 2020, 14:32:47 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Michael (14s) Michael: Thank you for chatting with us, my name is Michael with FCA Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (1m 21s) Visitor: hello (1m 50s) Michael: hi (2m 32s) Visitor: I had my sliding door locks repaired back in Sept 2018. fast forward to april 2020 when one of the lock mechanisms failed again. (2m 58s) Visitor: I didn't get the issue repaired at the time due to Covid-19 health concerns. (3m 15s) Visitor: I had the lock fixed yesterday and had to pay out of pocket $100.00 (3m 58s) Visitor: What I am looking for is a refund of my $100.00 because the part that failed was under warranty (2 year) at the time it failed (April 2020) (4m 17s) Michael: I can definitely appreciate how frustrating this would be, I would be more than happy to assist you with this, in order to obtain further information regarding your vehicle may I verify the last 8 characters of the vehicles VIN, the approximate mileage and the Name and Address the vehicle is registered to? (4m 53s) Visitor [redacted] (5m 0s) Visitor: [redacted] Mesa, AZ (7m 6s) Michael: Where was this work performed? (7m 14s) Visitor: more background- The original dealership (Hegg's) that replaced the lock went out of business at some point and the new dealership (Courtesy) took over the property. Hegg's destroyed all of their records. The new dealership was unable to help me with the warranty issue. (7m 45s) Visitor: The work was performed at Courtesy yesterday. (10m 31s) Visitor: Like I was telling the people at the dealership and the nice lady at Mopar yesterday, when everything with the pandemic started me and my family hunkered down. I didn't want to risk getting my young kids sick with a vehicle repair. That's the only reason that I waited so long. (10m 33s) Michael: Also what is your ZIP phone and email. (10m 41s) Visitor [redacted] (10m 45s) Visitor [redacted] (11m 22s) Visitor [redacted] (11m 40s) Michael: Thank you I will be a few minutes while I look into this. (11m 44s) Visitor: ok thank you. (20m 45s) Michael: I am here just still looking into this to see how I can assist with this. (21m 6s) Visitor: ok thank you. (23m 34s) Visitor: I understand that the mopar part warranty is 2 years. And that the repair was done approximately 14 days after the two year period. I'm not disputing that at all. My main concern is that the $100.00 that I spent yesterday to get the part fixed should have been covered under the mopar part warranty. If it wasn't for the pandemic and the health of my family I would have had the door repaired sooner. (29m 45s) Michael: I have reached out for to see if this is something we would be able to assist with in any capacity, I have been advised that as the Mopar Parts Warranty has expired approximately 2 weeks prior to the repair which was performed this is not something which we would be able to assist with. (30m 33s) Visitor: the part broke back in april 2020. I wasn't able to go to the dealership due to the pandemic. (30m 55s) Michael: I am sorry to hear this [redacted] and I do understand, however the repair would have needed to have been completed while the Part was still covered under the Mopar Parts Warranty (34m 19s) Visitor: so what i'm hearing is that mopar would rather have me risk the health of my family to get a repair completed during the warrant period than wait until it was safe to do so according to the infection rate of a virus during a national pandemic. When I called Mopar the automated message stated that "this is an unprecedented time." How can that apply to Mopar but not to the consumer (35m 0s) Michael: I can certainly emphasize with your situation [redacted] however we would not be able to assist with this in any capacity as the warranty period for the part had expired 2 weeks prior to having this repair completed. (35m 28s) Visitor: I would like to speak with a supervisor please. I know you're just doing your job and i'm not upset with you. (35m 31s) Michael: This is not something we can assist with, had the repair been completed 2 weeks earlier, it would have been covered. However the warranty period has passed and you advised you had foreknowledge of this issue. (36m 15s) Michael: At this time all possible avenues have been reviewed and it has been determined this is not something we can assist with in any capacity. (36m 43s) Visitor: i'd like to speak with a supervisor (37m 18s) Michael: I understand, I will request my Supervisor to contact you back, it will be a one business day callback, I do apologize. What would be your preferred contact number and email? (37m 39s) Visitor: [redacted] (37m 49s) Michael: Thank you, for reference your Case # regarding this is [redacted] (37m 57s) Michael: Is there anything else I can assist you with today? (42m 43s) Visitor: nah. i'm disappointed in Mopar. honestly, at this point I don't think i'll ever buy another chrysler vehicle. the simple fact that a part breaks during a national pandemic and the customer waits until the infection rate is low in their state to get a repair completed only to find out that the warranty expired 2 weeks prior is ridiculous. Let's face it that part never should have failed in the first place. Any reputable company stands by their products and has exceptions especially during a public health crisis. It's unsettling and speaks volumes that Mopar doesn't stand by the parts that they produce 2 weeks after the "warranty." (44m 43s) Visitor: I don't push for things to get done that I don't feel are right. The fact that I've wasted hours of my time dealing with this issue shows my determination. (45m 39s) Michael: I will ensure your feedback is documented internally. (45m 45s) Michael: Thank you for contacting FCA Customer Care! Have a good day! Please contact us back if you need further assistance! (46m 5s) Visitor: Thank you.

Initial Description

Actuary door not strong, replaced ports, When transmission replaced took 3 months at Dealer,

Case Comments

Date	Comment
09/29/2020	Complained about Actuary on door 3 years ago, a part fell out and they said oh yeah that is from Actuary When transmission fixed took 3 months to get car back, This service cost her a dent in the door, she saw the day after got out of garage. It is not right that have told them every time went to Dealer for last 3 years that actuary door not right and grandchild could have fallen out and now that outside of warranty now they agree that is what needs to be fixed. That is not right.
09/29/2020	BASIC WARRANTY, 36/36 Miles, July 21, 2019 Expired (Time) POWERTRAIN WARRANTY 60/60, July 21, 2021 Expired (Odometer) No open recalls, No active Service contract, Good Brand Loyalty

Initial Description

Feels that the part failing and not being able to open the door manually is safety concern

Case Comments

Date	Comment
09/30/2020	Briefly summarize why the customer is contacting Chrysler: Customer stated that the door locks and he cannot open it. Customer stated that the door will not open manually and it is a safety issue. Customer stated that the DLR says it is a known issue but no recall. Customer stated that people could die if the door will not open manually like the drivers side can. Briefly summarize what the customer is expecting: to know why the part failed and to have Chrysler investigate Agent advised customer that if the door is operating as designed this cannot be changed. Agent advised that if a part fails the DLR does a diagnosis to determine the repair. Agent advised that if there is ever a recall launched for his vehicle, he will be notified.

Initial Description

Chat Started: Friday, October 02, 2020, 12:11:43 (-0400) Chat Origin: NAFTA Chrysler Brand Chat Agent Emily (7s) Emily: Thank you for chatting with us, my name is Emily with Chrysler Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (3m 57s) Visitor: good morning Emily, my 2015 Town and Country is in the shop. The passenger sliding door is stuck and needs a $1400 latch. when looking on the internet it appears this is a known issue with chrysler and I am really hoping you can help me with "factory assist" on the cost to fix this. The total bill (air blower in back and thermostat replacement) is going to be close to 3K - I literally just paid the van off and now I have over 7months of care payments. Any help would be greatly appreciated! (4m 7s) Emily: I do apologize you are having a concern, I would be happy to look into this with you, in order to look more into this with you may I please have you confirm your name, address, telephone number, email address and the last 8 of the VIN on the vehicle? (5m 27s) Visitor [redacted] San Diego CA [redacted] 5m 47s) Emily: Thank you, currently how many miles are on the vehicle? (9m 51s) Emily: Thank you, taking a look over the information I am showing no recalls listed on the repairs needed at this time. I am showing on recall and this one has been completed. (9m 56s) Emily: Are you there ? (10m 20s) Visitor: hello? (10m 41s) Emily: Hello I am here (10m 46s) Visitor: 70,000 (11m 50s) Emily: Thank you, taking a look over the information I am showing all factory warranty would be expired at this time. We are dedicated to producing a quality product and I am sorry to hear of the issues you are having with your vehicle. We put all of our vehicles through vigorous testing but sometimes a vehicle will require an unexpected repair. We realize that these repair expenses cannot be predicted and so are surprising and disappointing when they do arise. Within warranty parameters, we do not hesitate to assume the repair costs and we even surpass industry standards in the warranties that we offer our customers as we truly do believe in our products. However, after the warranty terms have expired, we do rely on our customers to accept the repair costs for the vehicle. I do understand your frustration as this was not a planned cost, but when our certified dealer completes the work you will then have 2 years of coverage on the new parts and labor to provide you with some comfort and peace of mind. (14m 44s) Visitor: I totally understand the warranty aspect of owning a car - why most sell theirs after 3 yrs. What I am looking for is "factory assist" to pay for something chrysler knows is an issue. I have used "factory assist" in the past (owned a buick) (19m 27s) Emily: I can certainly understand the concern with the matter, I would need to recommend and suggest holding on to all paperwork from the repairs if recall is issued for the concerns that are happening you would be able to submit for reimbursement. I wish I had more of a favorable answer in the matter for you with the pricing for repairs. (19m 42s) Emily: I have noted everything on case numbe[redacted] 23m 35s) Visitor: ok, I do know that others have recieved factory assist on this specific issue. As much as I love my van not sure if it will be worth going to another chrysler as the dealer has awful customer service and I'm not too impressed with the corporation. (24m 48s) Emily: I do apologize I can certainly understand this would be upsetting and frustrating. I will have everything noted for you on the matter. (25m 2s) Emily: Have I been able to answer all your questions today? Is there anything else that I can look into for you today? (30m 28s) Emily: Due to the lack in response I am going to have to disconnect the chat. (30m 51s) Visitor: Can you take a complaint about the dealership? (31m 54s) Emily: I can certainly take the complaint about the dealership. May I please have the concerns you are having with the location (33m 9s) Visitor: Chrysler Jeep Dodge in San Diego (34m 44s) Visitor: they created a oil express lane - no appointments are allowed for an oil change - this express oil change has taken up to 3 hrs. I have since started going to jiffy lube. (1) (39m 40s) Visitor: (2) when taking my car this time I had an appointment for 7:30a Monday I dropped the car off - they did not look at my car until WED at 5P I had NO car for 3 days and did not know status. I have recommended a virtual Que -I can be there in under 20mins. Yesterday at 5 I found out that I am at about 3K for repairs - mostly for things that should be covered by the manufacturer - Again, I understand the warranty. I am hoping that I get my van back today - but no status yesterday. Not sure about you but not having a car for a solid week - even when stuck at home, is unsat. (43m 3s) Emily: You are currently for a week would be a long time without a vehicle. I will certainly have the compliant place on file for the location. Certainly have the information passed along with the wait times with having an oil change at the express lane. I would recommend holding on to all paperwork from the repairs if recall is issued on the matter you can certainly submit for reimbursement at anytime time once we have a recall on the matter. (45m 3s) Visitor: Great. Thankyou (45m 17s) Emily: You're welcome Thank you for contacting Chrysler Customer Care. Please chat with us again if you need further assistance. You can also look for updates on our website www.Chrysler.com. Have a good day! (45m 40s) Visitor: you as well

10/05/2020	*Customer Inquiry [redacted] alled and stated he took his vehicle for an oil change on Saturday morning and then Saturday afternoon he went out to use his vehicle and there was oil leaking out of the bottom of the vehicle. Customer stated he called the DLR and it took 4 times before he could get a hold of the SM Craig, who stated they were going to send out a tow truck to get the vehicle and bring it back to the DLR. Customer stated he waited all day and then around 2pm he called again and tried to get a hold of Craig because the tow truck still had not been there. Customer stated it took half a dozen times to get a hold of Craig again to find out if the tow truck was even coming. Customer stated Craig was sending it out and it would be there after it goes to the shop. Customer stated he feels like no one is taking his seriously there and has been out of a vehicle for three days now and wanted to speak with the owner of the DLR. *Agent Advised* Agent advised all of his concerns have been documented. Agent advised in terms of being able to speak with the owner of the DLR we did not have access to any of that information and he would have to go back to the DLR. Agent advised that on our end the case would be sent up for review because we valued him as a customer and that he would be receiving a call within one business day from one of our specialists.
10/05/2020	Vehicle has arrived at dealership Sam Leman Chrysler-Jeep-Dodge Peoria and attended by dealer employee

10/06/2020	***** DEALER CONTACT ***** Sam Leman Chrysler-Jeep-Dodge Peoria | 43887 | 309-208-1000 | Fixed Ops Director Brian (Morton and Peoria locations) Writer spoke to Fixed Ops Director Brian while on a call regarding another customer. Brian confirmed this vehicle was indeed addressed by the dealer and that he was at the customers home to ensure the oil leak was cleaned up. Writer also received email from SM Craig while on vacation. We paid to have the vehicle towed to the dealership. The seal for the oil filter is what failed. We replaced the oil filter and seal, changed the oil, degreased the vehicle delivered it back and cleaned the garage floor.
10/08/2020	*****Customer Contact*** [redacted] Writer called customer to discuss the case, lvm
10/08/2020	CST called wanting to speak to the CM. Agent informed CST the CM is currently not available but will be notified of his concerns and CONTACT. CSt seeking call back.
10/12/2020	*****CUSTOMER CONTACT**** [redacted] Writer called customer to return call, writer confirmed the customers original concern with the oil leak was resolved with the dealer. Customer did mention another issue he is having with the passenger side door lock. Customer stated when you press the button inside the vehicle while locked it doesn't work and you have to manually pull the handle to unlock it. Writer advised the customer will need to have a diagnosis and then we can work with the dealer and customer to assist however we can with getting it resolved. - Phone is preferred: [redacted]
10/16/2020	*****CUSTOMER CONTACT*** [redacted] Writer called customer to follow up, customer confirmed he is going back to the dealer on 10/21 for them to check the passenger side door lock.
10/21/2020	Vehicle has arrived at dealership SAM LEMAN CHRYSLER-JEEP-DODGE and attended by dealer employee
10/21/2020	Writer replied back to SM Craig for update
10/21/2020	Email received from SM Craig Parts ordered for the door lock actuator, have an appt. for install on the 26th.

Date	Comment
10/21/2020	*****CUSTOMER CONTACT***** [redacted] Writer called customer to follow up, writer advised of the update received from SM Craig. Customer stated he was under the impression that the repair would be completed tomorrow. Customer stated he was given the option of picking up the vehicle or leaving overnight. Customer stated he needs to pick up the vehicle however is planning on dropping it back off in the morning. Writer advised he would email SM Craig to get that clarified for the customer. Customer stated as well he has a 3rd party warranty with Car Shield however the dealer advised they do not work with that company. Customer stated normally he has a $100 deductible but it was not confirmed whether the repair would have been covered or not.
10/23/2020	Writer emailed SM Craig to confirm if the repair was completed yesterday or if that is taking place on the 26th
10/23/2020	*****CUSTOMER CONTACT***** [redacted] riter called customer to follow up, customer stated the repair has not been done yet at the dealer. Customer stated he is going to call his 3rd party warranty company first.
10/27/2020	*****CUSTOMER CONTACT***** [redacted] Writer called customer to follow up, lvm
10/27/2020	*****CUSTOMER CONTACT***** [redacted] Customer called back to return call from writer, customer stated he did reach his warranty company. Customer stated he is going to another dealer which is Kia dealer who does accept the SC. Writer advised since that is not a FCA dealer we will close our case at this time. Writer advised if there are any further questions/concerns the customer is welcome to reach out.

He [redacted]

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is: [redacted]

The FCA Case Management Telephone Number is: 1-844-827-2003

My Direct Extension is: 3020720

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Regards,
Joe | Case Specialist
Phone 1-844-827-2003 ext. 3020720

Initial Description

[redacted]

I have owned 9 Chrysler vehicles and support your company. For the second time the side sliding door actuator went out and I paid the $100 deductible through my warranty. Seems you have a problem with those. The bigger issue is having to pay $100 because the applique broke (which they warned me it might) in the repair. Why I am I paying for something not engineered right. And something you broke to fix it. Thanks. Bill McMillan

Hello [redacted]

Thank you for contacting the CHRYSLER Customer Assistance Center.

I can certainly understand your dissatisfaction with having to pay your deductible twice for the same repair. As that is part of your Mopar Service Contract, you would have to give them a call at 1-800-521-9922 and they will see what they can do to assist you.

Have a good weekend! Stay safe!!

You are always welcome to call us directly with your questions at Chrysler Customer Assistance Center by calling 1-800-247-9753.

Sincerely,

Jody

Please keep the chat window open to participate in a brief survey at the completion of our conversation. (38s) Visitor: good morning (48s) Carina: Hell[redacted]ow are you? (1m 5s) Visitor: good so i have a question for you (1m 51s) Visitor: we recently purchased a 2016 town and country and months after the door wouldnt open anymore (2m 53s) Carina: I am sorry to hear that[redacted] Has the dealership done a diagnosis? (3m 16s) Visitor: we brought it in to the dealer for repair and asked them if chrysler would take care of it since the car is only 4 years old and it was found to have a defective actuator....nothing broken. they told me to contact chrysler directly so, here i am (3m 43s) Carina: I can look into this further for you. May I please have the address, phone number, email and current mileage? (3m 57s) Visitor: our home address? (5m 19s) Visito[redacted]ortage MI[redacted] miles (5m 48s) Carina: Thank you. When did you purchase the vehicle as I still show it in a Dealers name? (6m 20s) Visitor: May of this year? approximately (7m 38s) Visitor: first payment was end of april (8m 1s) Carina: Okay. I am looking through everything and Unfortunately this repair would of only been covered for 3 years or 36 000 miles which ever comes first. I do not see any recalls or extended warranties on this issue. Did you purchase an extended warranty with the vehicle that I am not seeing? (9m 0s) Visitor: no we didn't....wouldnt expect any major repairs outside of regular maintenance on a car only 4 years old (9m 51s) Visitor: the car door wouldn't open that's a safety issue a recall would take care of right? (10m 48s) Carina: If there was a recall out on the issue yes it would. Unfortunately after reviewing further at this time this repair would be an out of pocket expense. (11m 40s) Visitor: so how do recalls get issued? (12m 49s) Carina: How recalls get reviewed is when customer's contact us with a complaint. If there are enough complaints documented here of the same issue it goes in for recall review. (13m 4s) Visitor: i have seen many instances of this on websites and the maintenace manager at the dealer said he has seen it before, seems a common malfunction on your parts used in the door (14m 6s) Carina: What I can do is document this as a complaint. If there are enough complaints here it will go in for recall review. If a recall does come out you will be notified by mail. We would recommend keeping all receipts as this is needed if a recall comes out for reimbursement review. (15m 12s) Visitor: ok we will hold on to our receipts, safety and reliability not a strong suit of chrysler these days i guess...thanks (16m 29s) Carina: I have everything documented on case [redacted] Is there anything else for today[redacted] (17m 6s) Visitor: no, thank you (17m 59s) Carina: Thank you for contacting Chrysler Customer Care. Have a great weekend and stay safe!

11/06/2020	****FILE RETURNED TO SI FOR RESOLUTION*** Denial. Email to be sent: Dear [redacted] This will acknowledge your recent contact regarding your 2017 Dodge Grand Caravan. Naturally, we were sorry to learn of this incident. Please rest assured, we appreciate and share your concerns about vehicle safety. It is important for you to remember that we donâ€™t just design and build vehicles; we also drive them, as do most of our families and friends. We have some very close and personal reasons to be concerned about vehicle safety, like you, people depend on us to provide them with safe and dependable transportation. FCA US LLC provided for Engineering Analysis Associates/Bosch Automotive Service Solutions to examine your vehicle. EAA is a leading supplier of technical field support to the transportation industry. They have hundreds of specialists in the United States that conduct thousands of product investigations each year, providing valuable automotive field expertise. FCA feels that the expense of this independent inspection is in the best interest of you, our customer, and the Corporation in our efforts to properly evaluate serious concerns such as yours. The inspection revealed that there was no evidence of a malfunction, which would cause the vehicle to move by itself. The transmission, linkage, parking pawl, parking brake, and all other related systems were checked very carefully. As referenced in your owner's manual: Unintended movement of a vehicle could injure those in or near the vehicle. As with all vehicles, you should never exit a vehicle while the engine is running. Before exiting a vehicle, always apply the parking brake, shift the transmission into PARK, turn the engine OFF, and remove the key fob. When the ignition is in the OFF position, the transmission is locked in PARK, securing the vehicle against unwanted movement. The PARK feature is only a supplement to the parking brake. Never use the PARK position as a substitute for the parking brake. Always apply the parking brake fully when parked to guard against vehicle movement and possible injury or damage. In view of this, we must respectfully decline participation with any costs associated with this incident. We suggest that you refer any damages that may have occurred to your insurance carrier. Should they feel a manufacturing responsibility exists, they have full subrogation rights under the terms of your policy, including your deductible. Thank you for allowing us the opportunity in reviewing this matter with you.

Hello
I work in Executive Referral and Mr. Manley forwarded your email for me to review. I will assist you with your issue and will need some information to get your issue addressed.
Please provide me with:

- last eight characters of your Vehicle Identification Number
- current mileage
- daytime phone number

Once I have this information, I can work with you to get your vehicle into one of our FCA dealerships to get the issue diagnosed and repaired.
Sincerely,
Matt
FCA Executive Referral

Initial Description

Summary- last year - TIPM failure and WIN module failure- $1400 repair at Christmas. \n\nCurrent- Shift Sylenoid- was just quoted $1800 with no cost assistance and no help from customer care. \n\nAlso- passenger side door issue where it stays in locked position (safety issue), airbag light on, driver side heated seat doesn't work. Vehicle still being paid on.\n\nLoyal customer - 3rd T&C and former owned PT Cruiser and Dodge vehicle. I'm so upset right now- here we are at Christmas again and facing an expensive repair that should NOT be happening at 68K miles. Why did Chrylser lower their powertrain warranty in 2016?

Initial Description

now there is a locking mechanism that doesn't work anymore. The rear passenger door doesn't automatically lock anymore.

Case Comments

Date	Comment
10/28/2020	Customer had the vehicle in for the locking mechanism repair in June 2020, the rear door passenger power locks do not engage, the child is opening the door as they are driving, very dangerous. DLR told the customer that because tis not the mechanism failing it is a charge to the customer. The updates are $254.62, and may have to do this many times a year to keep the power locks working. And now the first update was September 24th, and now they failed again. This is not a very good source of repair. Customer cannot pay this every other month to keep the locks working. Customer wants a more permanent fix for this as it is endangering the lives of his children. -customer has LS 459, CCS 15 -wants permanent fix to this issue -possible STAR case, -Agent advised the customer that we will escalate this up and see if there is anything we can do for this situation and someone will contact the customer within 2 business day.

Hello [redacted]

Thanks for reaching out to the Customer Assistance Center. We have looked into this further for you, per your request on the sliding door that can be opened while driving your little ones around.

See owners manual pg55

****(vehicle has child safe locks on the inside of doors for such reasons customer should engage child locks so door cannot be opened from the inside)*****

Sliding Side Door Child Protection Lock To provide a safer environment for small children riding in the rear seats, the sliding doors are equipped with a Child Protection Door Lock system. NOTE: When the Child Protection Door Lock system is engaged, the door can be opened only by using the outside door handle even though the inside door lock is in the unlocked position. To Engage The Child Protection Door Lock 1. Open the sliding side door. 2. Slide the Child Protection Door Lock control inward (toward the vehicle) to engage the Child Protection Door Lock

Please reach out to the Dealer if you need any further diagnosis, and or repairs. This can be engaged for child safety and there fore you can repair issue upon your own discretion. But please for child safety engage the child locks. If any recalls should happen to come up regarding your vehicle please know FCA will notify you by mail.

Best Regards,
April

Hello [redacted]

Thank you for contacting Dodge Customer Care.

In regards to the drivers sliding door, we fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, we are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and mileage limitations of the warranty we offered on the vehicle at the time it was placed into service. Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.

Thank you again for your email.

Best wishes,

Mary-Lyn

Initial Description

Right passenger sliding door buzzes and left driver side sliding back door will not open. Found out this is common. Dealer knows what it is but still wants to charge $155.00 to diagnose. This is a danger since door is stuck shut and back passengers are unable to exit in an emergency. Childeren ride in back.

Hello [redacted]

Thank you for contacting the DODGE Customer Assistance Center.

We are disappointed to learn of your concern with the safety of your sliding doors regarding your Dodge Grand Caravan and understand how this might cause concern.

Diagnosis fees are free when vehicle is under warranty, after warranty expires the dealership does charge for a diagnosis and as we do not control their business practices, we cannot disregard their decisions.

Maybe the dealer knows what is causing this but a diagnosis will give him the exact issue so that he can remedy that and your children will be safe.

Please do not hesitate to contact us if you need any further assistance by calling us at the number below.

Thank you again for your email [redacted]. Have a great day.

You are always welcome to call us directly with your questions at Dodge Customer Assistance Center by calling 1-800-423-6343.

Sincerely,

Jody

Initial Description

Hello. I am writing to share some experiences with our car. We bought this car with the hope that it would be perfect for our family. We were about to welcome our [redacted] and did our research on this car and decided it for our needs perfectly. We bought it with all the high hopes. Unfortunately, we have had problems after problems after problems since then. We've already had engine problems before 60,000 miles, which was thankfully covered by the warranty. But now, a year later, we are having major engine problems again. That is not to mention all the other problems that we've had. The ac randomly goes on and off, and will flicker ever couple of seconds. I've already had to reach out to friends to pick my children up from school at the last minute because the car refused to turn on, even though the battery was fully charged. It wouldn't even turn over. The sliding doors won't work at times. We put our hard earned money into this car. We were hoping it would last us. But honesty, I am so extremely disappointed. We recently took it to a mechanic, and were told that all the lifters and rockers should have been changed when we last took it in and the warranty was still in effect, because its a known problem in these vans. We were told we'd need to change them, and that the transmission will have to be fixed soon too. I just can't express my disappointment. We are already barely making ends meet, since I am no longer working due to the pandemic. We are a [redacted] and now we are looking at either fixing this car and paying thousands or having to get a new car that I can feel safe to drive my children in. I honestly don't feel like fixing this car is worth it because the problems just keep coming. The engine problems won't allow for a decent trade in, and I would not feel good about selling this car to someone else with all these problems and safety issues. This car has been a very bad financial decision. It compromises my family's safety. It compromises the Dodge brand. I would just like to know how Dodge can let its customers down in this manner.

Hello [redacted]
Thank you for contacting Dodge Customer Care.
I can understand the dissatisfaction you feel, given that you have experienced engine and transmission issues with your Dodge Grand Caravan. I appreciate your request for assistance and I would be happy to check into this for you.

Chrysler is dedicated to producing a quality product and we are saddened to hear of the issues you have had with your vehicle. Products are not put out onto the market with specific faults in mind and we cannot foresee when a vehicle may require specific maintenance outside of the suggested maintenance routines.

I have researched your request for assistance, and have utilized every possible resource. Your warranty for this issue was for 5 years or 60,000 miles, whichever occurs first. Furthermore, there are no service contracts, recalls or extended warranties pertaining to the engine or transmission.

Being a vehicle owner myself I realize that vehicle repairs can't be predicted and as such, they are very disappointing. Within warranty, service contract, extended warranty or recall parameters, we would not hesitate to assume the cost of the repairs. However, after the warranty has expired or if your vehicle does not have any warranties, service contracts, extended warranties or recalls that relate to your concerns, charges must then be your responsibility.

I do understand your frustration as this was not a planned cost, but when our certified dealer completes the work you will then have parts warranty coverage on the new parts and labor to provide you with some comfort and peace of mind.

Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request. We do value you as a customer, and appreciate that you chose Dodge, please give us a call at any time to review your file.
Please do not hesitate to contact us if you need any further assistance by calling us at (800) 423-6343.
Thank you again for your email [redacted] ve a great day.
Best wishes,
Cara

Date	Comment
11/19/2020	Customer stated the rear sliding doors are not functioning & he has been at the dealer multiple times for the same issue. Customer stated he knows the lemon law is 3 times or more. Customer stated 5-6 months ago, the vehicle had a tick & it comes and go. Customer stated a mechanic diagnosed it & told him it was the #4 hole & that is why it keeps ticking. Customer stated the dealer told him they have to pull the engine apart & replace the heads. Customer stated the dealer talked him into doing a carbon build up cleaning then told him he has 2 broken motor mounts. Customer stated he is really calling because he have a minivan for a reason & it is not working for him. Agent informed customer that all his concerns are noted. Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle's repair history to determine if their request merits further action and that due to the nature of their request, it will require a call back which will take place within 1-2 business days. The outcome of the review does NOT determine Lemon Law eligibility.
11/20/2020	CM called customer and he went a long diatribe about every instance with the van. CM stated we aren't going to buy it back, customer stated he wished CM luck with his job. Closing case.

Passenger Door Not Locking

Case Comments

Date	Comment
11/21/2020	Customer requesting cost assistance with passenger side door not locking. SERVICING DLR advised customer to call us for cost assistance for $850 to repair lock. Agent advised to send up for further consideration and callback within 2-3 business days. CUSTOMER NEEDING RENTAL
11/21/2020	CCS=15 LS=449 CUSTOMER NEEDING RENTAL AS DLR DOES NOT HAVE LOANER LIKE CUSTOMERS PERSONAL VEHICLE.
11/23/2020	Warranty/SC: 2/24k BASIC, YES PT, NO SC. Current Mileage: 38,180 Miles ISD:5/30/2016. Original owner: Yes. Household vehicles: 3 orig, 1 curr. Reason for Case Escalation: GWA. Repeat issue: Y/NO. Star tickets open: NO. Recalls: Y/NO. RRTs: Y/NO. Relevant Previous Cases: NONE. Prior Goodwill/DM notes: NONE. R/O History: YES. Vehicle location: DLR Vehicle Concern: DOOR NOT LOCKING.
11/23/2020	******OUTBOUND CALL TO DLR #68744******#8036354923 CM called dlr and SA missy veh needs a transmission, waiting on it to arrive. SM Malise gave me: FCA has D2DD prom date 11/23/2020. PART #R8090720AH -transmission. ORDER [redacted] OMC # 082688801 ETA-11/23/2020. VOR-YES. RENTAL.- NO.
11/23/2020	******OUTBOUND CALL TO CST*******# [redacted] CM called cst and notified cst that I the dlr ordered the part. Cst states that he was told the dlr had the part for the sliding door and wanted to know if there was a recall. Cst asked that the dlr had no loaners and no rentals. Cst asked do I have to pay for the door repairs and for a rental and possibly not getting reimbursed. Cst stated the dlr has had the car for about a week. Cst was told by the dlr that it might take until 11/30 goal.
11/23/2020	******EMAIL SENT TO DLR, SM RANDALL. ****** Cst asked for assistance with the door repair, do you want me to assist? Need Warranty pricing, if yes. 2100 miles out of Basic, Original owner, 4 FCA Vehicles(3 original Owner).
11/23/2020	******EMAIL FROM DLR ****** SM RANDALL stated Good Day after reviewing this customers service records and the fact that we have not seen him for over two years. I believe this customer needs to take ownership and pay for the door repair.
11/24/2020	******OUTBOUND CALL TO CST******* [redacted] CM called cst and notified cst that the GW request was declined. Cst can pay for the repairs and submit for possible reimbursement.
11/24/2020	******OUTBOUND CALL TO DLR #68744******#8036354923 CM called dlr and SM Randall stated all parts are in. Goal is Friday for completion.
11/30/2020	******OUTBOUND CALL TO DLR #68744******#8036354923 CM called dlr and SA Missy stated veh was fixed and gone. SA Missy picked up 11/27.2020.
11/30/2020	******OUTBOUND CALL TO CST*******# [redacted] CM called cst and lvm with my info for a call back from cst with an update on how is the work the dlr did.
12/01/2020	******OUTBOUND CALL TO CST****** [redacted] CM called cst and cst stated that he is taking the van back on 12/3/2020, still feeling a bump when closing. The transmission issue is resolved. Lately we have been going back and forth to Maryland and I was wondering what if we would have gotten stuck out there. Cst stating what a disappointment it would have been if it would have been on the road and it would have broke down. Now I have to take the van back again to the dlr and every time we go to the dlr it is about 70 miles roundtrip. Cst has an appt at 8:30 am to have door checked again.
12/03/2020	Vehicle has arrived at dealership WILSON CHRY-DODGE JEEP INC and attended by dealer employee Malise Mccarver

Date	Comment
12/03/2020	******OUTBOUND CALL TO DLR #68744******#8036354923 CM called dlr and SM Malise stated that this veh is completed and picked up.
12/03/2020	******OUTBOUND CALL TO [redacted] CM called cst and cst stated they took care of the door issue and the veh is fine. CM notified cst that he will be adding this SC, 2 Years - 3 Oil Changes $85 ECS23N, to his veh for having to go back and forth to the dlr several times for the same issue, Cst thanked CM. CM advised once the SC is added to his vin he will contact the cst and close this case, cst agreed.
12/07/2020	******OUTBOUND CALL TO [redacted] CM called cst and notified cst that the SC was added to his vin and he can use it to get a discount at any CDJ dlr. CM advised that this case will be closed today and cst agreed.

Initial Description

I would like to request/suggest extended warranty service for 2016 engines similar to what was done in Warranty Bulletin D-14-12.\n\nMechanic stated they have recently serviced multiple 3.6L engines with a failing valve guide. These engines were all 2014 or newer. \n\nIf Chrysler has any information regarding higher failure rates of cylinder 3 failures (valve guide, warped cylinder, etc...), please consider if an additional remedy is warranted. \n\nWork on my vehicle has not commenced and I am open to following any instructions that would help Chrysler determine if there is a issue still in play that Chrysler had tried to correct in 2013.\n\nI am concerned that the 2016 engine began failing at the 100,000 mile mark. I realize Chrysler lowered the warranty to 60,000 miles with the 2016 version. I just hope it was not because engine quality is no longer designed to last over 100,000 miles.\n\nAny information or assistance is appreciated,\n\nRegards,\[redacted]

Hello [redacted]

Thank you for contacting Chrysler Customer Care. We are disheartened to learn of your concerns regarding your 2016 Chrysler Town and Country and I would be more than happy to review your concerns for you.

You mentioned you had a diagnosis. Could you please provide me with some details about your visit? This will help me determine what the next steps should be.

When was your last visit?
What was the name of the dealership?
What was the diagnosis?
What repairs, if any, did they complete?

Once I have a better idea of what has taken place, I will be able to come up with our next best steps.

Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at 800-992-1997.

Thank you again for your ema[redacted]Have a wonderful Thanksgiving.

Best wishes,
Lauren

Date	12/01/2020	***Subject***	Re: Case Acknowledgement [redacted]		
From	[redacted]	***To***	uscustomercare@fcagroup.com	***Sent Date/Time***	12/01/2020 16:06 PM

Lauren,

Here is the information I have at this time:

Last Regular maintenance:

108,568 miles 2020-11-05 Andy's Service Center Fort Madison IA 319 372 7332

Last Major maintenance (100K service including Spark Plugs, Plenum Gasket, Cabin Air Filter, Transmission Flush, AC Oil and Dye):

106,860 miles 2020-09-11 Humburd Auto Service Fort Madison IA 319 372 2672

On or around Nov 18 (~109,000 miles) check engine light came on. Scanned code was misfire on cylinder 3. Brought vehicle to Humburd Auto Service as it might be related to recent spark plug change. Spark plug tested fine. Coils tested fine. Compression test sporadically showed a low compression reading. Mechanic stated this is consistent with a valve guide not sitting properly.

The mechanic stated he was aware of a prior issue and that he had also serviced what I understood to be the exact same problem on a basically identical 2016 T&C. I confirmed with both my regular mechanic and the Humbard mechanic enough details to determine that Mopar Warranty Bulletin D-14-12 "(X56) - 3.6L Left Cylinder Head - Select 2011-2013 Vehicles" seemed very similar.

Vehicle has been with mechanic, but service will not begin until 2020-12-11. The current plan is to replace #3 valve guide, but we may opt out of this if additional issues are identified. Humburd experience is that there is a possibility of timing system and/or catalytic converter damage. We are hopeful we caught this early enough as we respected the check engine light..

I realize the Powertrain warranty was dropped from 100,000 miles to 60,000 miles with the 2016 model year.

We previously owned a 2007 T&C and drove it without major issue for 250,000 miles. We currently have a Chrsyler 200 (transmission replaced under warranty prior to our purchase) that we are quite happy with. The Chrysler brand has been very good for our family and I am reaching out to you in hopes that you can determine if there is a recurring issue with valve guides in 3.6L engines.

Our local dealer is Jim Baier in Fort Madison. I believe our van has only been to Jim Baier to service a rust issue on the hood and a broken motorized sliding door mechanism.

Thanks,

[redacted]

From	uscustomercare@fcagroup.com	***To***			12/03/2020 16:51 PM

Hello [redacted]

Thank you for your response. It is appreciated.

I do apologize you've been experiencing these concerns with your vehicle. I can understand how frustrating that can be.

I would be more than happy to provide you with further assistance with our case management department, however the vehicle will require to be at an authorized Chrysler dealership. Once you have an appointment date and time or the vehicle has been taken to dealership, I would be more than happy to provide your case to case manager.

Best wishes,
Lauren
Chrysler Customer Care

Dear [redacted]

My name is JR and I have been assigned as your Case Manager. Here is some information that will be helpful for you to have:

Your case number is [redacted]
The Chrysler Case Management telephone number is: 1-844-827-2003
My direct extension: 3020487
My work hours are: 10:00 am - 6:30 pm Eastern Standard Time Monday-Friday.
You can also hit reply to contact me by email.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and co-operation!

Thank you again. Should you require additional assistance, or have any new information to provide, please call 1-800-992-1997.

JR
Senior BC Case Management

Hi JR,

Thanks for your email. I do have a few questions.

Any chance we could get some assistance with a rental car while our van is being repaired?

Do you happen to know how long it will be in the shop?

One last one... both of our manual sliding doors have issues. One does not lock (safety concern) and the other is locked and will not open. In researching this, it sounds like this is another common problem with the Caravans. We are curious as to what would be the repair cost if we fixed our doors? Any possible assistance? I know its not covered but I thought I would check.

Thank you for your consideration.

Dear [redacted]

I apologize for the delay in responding. For information on the repair I would speak with the dealership. They will have accurate information on the length of time the vehicle will be needed.

I would also ask the dealership for a quote on the repair for your doors. The warranty for that has long passed but the dealership would know for sure if this looks like something we could cover.

As for rental that is not something that is covered under our warranties. Our dealers will sometimes have loaners and we also have an Alternative Vehicle package available through our Mopar Vehicle Protection offices. They can be reached at 1-800-992-1997.

Thank you again. Should you require additional assistance, or have any new information to provide, please call 1-800-992-1997.

Dear [redacted]

I just spoke with the dealership and the repair is completed. I was advised you will be getting the vehicle later today so what I will do is follow up with you on Monday to make sure everything is running smoothly.

Thank you again. Should you require additional assistance, or have any new information to provide, please call 1-800-992-1997.

Customer has called in because every time he locks his door it makes a loud weird sound

Case Comments

Date	Comment
12/03/2020	Customer has called in because he has seen online that a lot of people have been having the same problem like his vehicle is. Customer states that his door on his vehicle makes this loud weird sound when he goes to lock his vehicle. I have told customer he will need to take his vehicle to the dealership to get it diagnosed.

Chat Started: Wednesday, December 23, 2020, 16:03:14 (-0500) Chat Origin: NAFTA Dodge Brand Chat Agent Brandi (5s) Brandi: Thank you for chatting with us, my name is Brandi with Dodge Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (1m 28s) Visitor: I have a 2016 dodge caravan and the sliding door is stuck in locked position. It sounds like a common issue. I have warranty. The dealership is wanting to charge me $135 to even look at it. (1m 56s) Brandi: Hello [redacted] I am sorry to hear you are having this issue!Before we proceed I just need to verify some account information. Could you provide me with your mailing address, email, phone number and the approximate mileage on the vehicle? (2m 39s) Visitor [redacted] Oxford, Mi [redacted] (3m 0s) Visitor: Around 96,000 miles (6m 6s) Brandi: Thank you! Just a few minutes please while I look into this for you. (8m 13s) Brandi: Thank you for waiting, I have looked into this and I do see the warranty that may have covered this issue has expired by both time and mileage. There are no recalls, extended warranty's or service contracts on the vehicle for this concern. I truly apologize however this will be an out of pocket expence. I recommend working with your preferred dealership for them to take a look. I wish I had a better response to offer. We do value you as a customer and appreciate that you choose Dodge.

Dealer wants 1000 to fix

Case Comments

Date	Comment
01/04/2021	Car was in for an oil change and Dealer SA Christy advised that latch was broken on both driver side doors. Caller Pauline Taylor, old fashioned, prefers not to use email. uses phone. BC-Dealer 45726, Phone 2527922154 Matthew Sessoms CDJR. Request GW cost assistance. BASIC WARRANTY 36 Months or 36,000 Miles 0 December 19, 2019 Expired (Time) POWERTRAIN WARRANTY 60 Months or 60,000 Miles 0 December 19, 2021 12 Months or 20,000 Miles Caller has good loyalty and meets time parameters for escalation. CB from specialist 1 business day/24 hours, GW is not guaranteed.
01/05/2021	CM contacted the dlr Matthew Sessoms Chrysler Dodge Jeep Ram 45726 2527922154 to speak with the SA or the SM that is working with the customer. CM spoke with the SA Donny SA Christy is out. CM asked if they could speak with the SM about the customers vehicle. SM Jason state that the Driver door latch needs to be painted and the passenger sliding door latch needs to be replaced. SM state that they are willing to participate with cost assistance. Customer is just barely outside of warranty. CM requested that the SM send them the quote for the repair. SM also stated that they feel that $100 co-pay is fair enough for the customer.
01/05/2021	CM contacted the customer [redacted] and they and advised them that they spoke with the SM Jason and they are in the process of getting the quote for the repair. Customer thanked the CM. CM provided the customer with their contact number and then stated that if they have any questions they can call back. Customer thanked the CM and the CM branded the call.
01/08/2021	CM contacted the customer [redacted] ut they did not answer. CM left a voicemail stating that they are still waiting on the quote but once they have an update they will call them.
01/11/2021	SA Jason email-- I havent forgotten. Been extremely busy catching up from December. I handle all warranty claims as well as oversee the service, parts and body shop. Hope to get it to you by tomorrow afternoon.
01/11/2021	CM contacted the customer [redacted] and advised them that they are waiting on a quote for the repair. Customer stated that they wanted to know if the CM can make the process go any faster. CM advised the customer that they would need to the quote from the dlr in order to consider to assist them but once they have an update they will call them will continue to call them. Customer thanked the CM and the CM branded the call.
01/13/2021	CM contacted the customer [redacted] ut they did not answer. CM left a voicemail and stated that they have not received the quote from the dlr to be able to consider to assist them. CM will try to call back later.
01/13/2021	CM contacted the dlr Matthew Sessoms Chrysler Dodge Jeep Ram 45726 2527922154 to speak with the SM Jason and he stated that he is short staffed that they are extremely busy. SM stated that they will send the CM the quote for the repair tomorrow.
01/15/2021	SM Jason sent the quote via email but the CM wants to make sure that the quote is the warranty price.
01/15/2021	CM contacted the custome[redacted]d advised them that at this time they got the quote from the dealership and that they want to make sure that it is the correct quote before moving forward. Customer thanked the CM and stated that they had went to the dlr and their CM is no longer at the dlr and they are working with the SM and they advised them that the parts should to be to the dlr in Feb. CM advised the customer that they were not aware that the parts had been ordered due to the fact that no authorization has been placed in the system. Customer advised the CM that anything will help towards the repair. CM advised the customer that they will call them once they have an update. Customer thanked the CM and the CM branded the call.
01/19/2021	CM contacted the custome[redacted]ut they did not answer. CM left a voicemail advising the customer that they can assist them with the repair as long as they can pay a $100 co-pay. CM will call the customer on Thursday.

Date	Comment
01/19/2021	CM contacted the customer [redacted] and advised the customer that they can assist them with the repair as long as they pay a $100 co-pay. Customer accepted the offer. CM advised the customer that they will call them on Thursday. Customer thanked the CM and the CM branded the call.
01/21/2021	CM sent the SM an email to confirm if the parts have been ordered.
01/21/2021	CM contacted the dlr to speak with the SM but confirmed that the SM is off today. CM will call the dlr on Monday.
01/21/2021	CM contacted the customer [redacted] and advised them that the SM is off today however they did send them an email. CM advised the customer that once the SM returns they will reply to their email. Customer thanked the CM and the CM branded the call.
01/25/2021	SM has not responded to the email.
01/25/2021	CM contacted the customer [redacted] and advised them they are still waiting to find out if the part was ordered. CM advised the customer that they will continue to contact the dlr and once they have an update they will call them.
01/27/2021	SM email--- part has been ordered but it is on back-order. CM requested the part information.
01/27/2021	CM contacted the customer [redacted] but they did not answer and the CM received a busy dial tone. CM will try to call the customer on Friday.
01/29/2021	SM email-- part came in on the 27 and they will call the customer to schedule an appointment once the parts have been painted.
01/29/2021	CM contacted the customer [redacted] to confirm if they had an appointment. Customer stated that they want to know if they should purchase a SC for their vehicle. CM advised the customer that they can purchase any SC they would like for their vehicle. Customer thanked the CM. CM asked if they had spoken with the dlr and they stated that they had not and they asked if the CM spoke with the Dlr. CM advised the customer the dlr had advised them they got the parts and they are they are painting them. Customer thanked the CM for the update. CM advised the customer that they will call them next week and branded the call.

Top Care - Reimbursement Request

Case Comments

Date	Comment
01/05/2021	Customer seeking reimbursement for a trans repair and submitted repair bill. This is 2nd owner. Transmission was replaced due to pump failure. Vehicle had 97,256 miles. Vehicle out of warranty by mileage (37,000 miles) at time of repair in Sept 2020. No prior history. Owner mentions issue with the head rest. Will refer customer to dealer to review if it falls under X87 head restraint extended warranty.
01/05/2021	1-5 Left message for
01/08/2021	1-8 Left 2nd message for customer.
01/11/2021	1-12 Writer left 3rd message for customer No email was provided.
01/11/2021	1-12 Closing file with no response from customer.
01/13/2021	Writer spoke with customer and advised the vehicle is out of warranty by miles. She stated they were stranded 800 miles from home and the dealer worked with them to get it repaired as quickly as they could. Writer reviewed ownership history and she has a Dodge Dakota. She is the husband of the owner. Also she stated vehicle should have lasted at least 100,000 miles. The sliding passenger door will not open and dealer quoted $2300 to repair and issue with the headrest. Writer advised there is extended warranty X87 for the head rest restraint. She can have the dealer inspect for possible coverage under this warranty which is for 10 yrs from in service date. Customer is not looking for the full amount reimbursed. Writer will offer as customer goodwill to reimburse 50% of the repair cost. Writer will need proof of payment. She said it was sent with bill. Advised it is not showing attached. Provided email address. Total repair was $5359.22 and 50% will be $2679.61. Proof of payment received. Check processed.

Initial Description

Both electronic door actuators on our 2016 Dodge Caravan failed in the last year. As a result, we can no longer open either sliding door from the inside or outside of the vehicle. They are essentially locked shut. Our local dealer has quoted over $2,300 to repair the defective door actuators. We feel this is unfair and poses a serious safety risk to our family. We are now unable to open either of the sliding doors manually, with the key FOB or console control buttons. Our young children need to enter and exit the vehicle by climbing over the front seats and exiting through the driver or front passenger door or climb over the third-row seat and go out the rear hatch. We have asked several mechanics and this is a known problem with Dodge Caravans. We discussed this with our local dealer and the notified us that our extended warranty had been cancelled after a dealership paperwork error and that we no longer have warranty coverage for these repairs. We are extremely dissatisfied with the quality of this vehicle, our extended warranty cancellation and would like to know if there is anything FCA can do to assist with the repair of the defective door actuators?

Inq. about any recalls

Case Comments

Date	Comment
01/08/2021	*VOICE OF CUSTOMER* Customer's wife called in to see if they have any recalls on the vehicle. Also stated she is having an issue when unlocking the doors, there is an angry clicking sound in the back. Said that it also buzzes like a motor is going. *ACTIONS TAKEN* Advised there are no open recall and if she is having issues to seek the DLR for diagnosis.

Initial Description

The power side doors work when I use the buttons on the key fob or the buttons in the overhead console near the driver. They do not work when I use the buttons on the post near the door latches. Which fuse handles this circuit? I cannot find it listed in the fuse case cover. I would like to check the fuse before I take it to the dealer for servicing.

From	uscustomercare@fcagroup.com	To	[redacted]	Sent Date/Time	01/09/2021 16:10 PM

Hello [redacted]
Thank you for contacting Chrysler Customer Care.
We are disappointed to learn of your concern with power side doors not working regarding your 2016 CHRYSLER TOWN & COUNTRY TOURING and I would like to assure you that I will do everything I can to help you out.
Based on the information that you have provided, the best plan of action would be for you to see one of our authorized dealerships for a diagnosis if you have not had one yet. Once there, if you have any further concerns, you are welcome to contact us again. For your convenience, I have provided contact information for 2 dealerships in your area below and I am happy to help you schedule an appointment if you like.
If you have been to your preferred dealership, could you please provide me with some details about your visit? This will help me determine what the next steps should be.
When was your visit?
Who was your Service Advisor or Service Manager?
What was the diagnosis?
What repairs, if any, did they complete?
SHOTTENKIRK CHRYSLER DODGE JEEP

Date	01/09/2021	Subject	Re: Power Side Doors [redacted]		
From	[redacted]	To	uscustomercare@fcagroup.com	Sent Date/Time	01/09/2021 22:09 PM

I am disappointed with your response. I asked about a fuse for the circuit which includes the two switches near the doors and you ignored my question. I would like to check the fuses before I take it to the dealer for diagnosis. If you can send me the wiring diagram, I can trace down the switch circuit and check that fuse. The list of fuses in the cover for the fuse box did not help me--I checked every fuse I could find which relates to the two side doors. The fact the doors still operate with the switches on the key fob and in the overhead console cause me to feel it is a fuse problem in the circuit for the two switches rather than a major problem with the motors in the two doors. I can easily change a fuse, but cannot locate the proper fuse to check and change.

FYI, I have had some disappointments with Shottenkirk, therefore, I avoid going to them unless absolutely necessary. I went to Hayes in Gainesville to purchase our vehicle because they were more than 10% below the price quoted to me by Shottenkirk. Unfortunately, they are twice as far from our home as Shottenkirk, so I have, reluctantly, used Shottenkirk for service. Another example of my disappointment was the warranty repair to the transmission in our van. I signed up for the repair, but it was only several months after signing up with Shottenkirk that I received a call from your office asking if the repair had been completed on our van. When I told him I had contacted Shottenkirk and was still on the waiting list, he asked me to give him a few minutes and he would call me back with specific instructions on how to have the repair done more quickly. When he called back, I was told to take the vehicle to Shottenkirk the next day and they would have the parts from the factory to do the repair. Your company even covered the cost of the rental vehicle while ours was being repaired. It is delays like this and overpriced sales and service which causes me to use them only because they are the closest dealer to me.

If you cannot help me with my inquiry, I will try Palmer to see if they are better than Shottenkirk.

Thank you in advance for any f

I wanted to follow up my previous note with an explanation of how the problem was solved. There is a switch in the overhead console which disables the buttons to prevent small children from accidentally opening the doors. Some way this was turned to disable the door switches mentioned. By simply turning the switch to the other direction, the buttons were enabled. It would have been nice to have this information from your representative rather than having to go to such lengths to find this out from another source. I hope you add this information to your database for answering customer questions.

God bless.

Date	02/02/2021	**Subject**	CLOSE OF CASE [redacted]		
From	uscustomercare@fcagroup.com	**To**	[redacted]	**Sent Date/Time**	02/02/2021 19:11 PM

At this time, we will be closing this case.
It has been my pleasure to assist you. If you have any further questions/concerns, please reach back out to us at 844-378-0573 at any time.
We also wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey and is a benfit for my growth and performance. so well know how were doing and what improvements we can make to enhance the customer experience. This survey is separate from the dealers survey. Thank you for your time, participation and for being a valued FCA customer.

Initial Description

When I contacted the dealer in Hannibal MO in Sept 2020 I was told they had no knowledge of problems with the head restraint self deploying, and was quoted $700-900 to repair. I felt very fortunate to have found the passenger side head restraint myself on eBay and have a local shop do the repair. You can also reimburse my family for the driver side door lock which failed on this ONLY 3 year old van and also needed to be replaced. It's on the bill also.

Chat Started: Saturday, January 30, 2021, 16:22:08 (-0500) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Amber (8s) Amber: Thank you for chatting with us, my name is Amber with FCA Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (1m 25s) Visitor: We received a recall notice but lost it. I think it was about seats. (2m 0s) Amber: Hello [redacted] I would be happy to see what has been issued for you vehicle recently. Just one moment (5m 56s) Amber: I can see your have the X87 ACTIVE HEAD RESTRAINT extended warranty on your vehicle. There are no recalls but you would have received a notice for this extension as well. If you are not having any trouble with the headrest then you do not have to do anything, but we have received reports of the clip in the headrest failing causing it to push forward as it would in an accident. If this happens it will need to be repaired so the warranty on this part has been extended until January 8, 2026. This warranty works the same as the normal manufacturer warranty you would just have to bring the concern to the attention of your dealership and they will repair/ replace the headrest under warranty, you do not have to bring the notice with you as it is attached to the VIN. (7m 49s) Visitor: Is this the driver/passenger head restraint? (8m 19s) Amber: This would cover either one (10m 49s) Visitor: Awhile back both side sliding doors broke and I had them fixed for over $1000. Now the driver side broke again, it won't lock. Are they under any kind of recall? (17m 52s) Amber: I am very sorry to hear tha[redacted] I can understand that would be very frustrating. I do apologize there has not been any recalls issued for your vehicle and the only warranty extension was for the headrest. If this was repaired previously at a Dodge dealership there would be a 2 year part warranty. I would recommend having this looked at by your dealership and they can check the repair history for you. (18m 32s) Visitor: Ok Thank you.

Case Comments

Date	Comment
02/02/2021	UPDATE - NOT TREAD REPORTABLE - Customer contacted about X87. No actual concerns with the headrests. No injury or death.

Initial Description

Cst called in stating the dlr advised her to call in because there is a star case on her vehicle. Dlr has had it for a week so far and possibly CAC can provide rental assistance

Case Comments

Date	Comment
02/01/2021	Cst called in stating the issue started on 12/24 when the doors locked and wouldn't open at all. actuators were replaced and now the sliding door won't close and lock all the way and the safety feature flashes continuously. She says she has 3 small children and can't be without a vehicle for this long. Dlr has had a team of engineers come in and help with replacing wiring harness but they still don't have a fix for the issue. Advised the vehicle isn't able to be sent for the rental assistance just with it being too far outside those warranty parameters and no other extended warranty or service contract is in place. If you do come out of pocket for a loaner you are able to submit for possible reimbursement. Now with the vehicle being down for that duration we are able to possibly get this to a CM to review on technical assistance just to see if there is any other way we can help with some type of remedy. Please allow CM 1 business day to be in contact with you. SA Jonathan and Stacy
02/03/2021	Inbound call CM spoke to customer. Customer is seeking a callback from CM Guadalupe. She is seeking rental. Advise what the level 1 agent stated in her notes. But also advise that her CM will let her know. Verified phone number. it is correct. CM Guadalupe(after call)
02/03/2021	** outbound to dlr ** CM reaching out to speak with the service department . SA Jonathan stated that the cst had it at a body shop for the door wiring but the body shop sent it somewhere else and now it is here at the dlr. and the cst needs a module and wiring harness, but they are still having some issue., but they have a star case open. the cst is paying for the repair// and the dlr is GW harness. SA jonathan stated that they should be able to get a loaner later today. CM will look into covering for the loaner.
02/03/2021	***Case Prep*** Repeat issue: yes Star tickets open: yes Recalls: no Prior Goodwill/DM notes: no R/O History: wiring harness Vehicle location: at the dlr Vehicle Concern: door panel Is the customer in a rental: no Parts on B/O? no Customer Email: [redacted] Customer preferred contact: customer seeking: assistance with technical issues
02/03/2021	** outbound to cst ** CM reaching out to speak with the cst no answer and LVM and also sent out an email
02/05/2021	** outbound to cst ** no answer at the moment and LVM
02/05/2021	received email from cst
02/05/2021	**Inbound call from CST stating she will try her CM back in a little bit as they keep missing each other.
02/08/2021	** outbound to cst ** CM reaching out to speak with the cst, CM wanted to know if by any chance they were able to obtain a loaner from the dlr or if they got the email reply cst stated that they do have a loaner and they have not received any updates in regards of their vehicle et. CM advised that we will reach out to the SA Jonathan to see if we can get any information and give a call back.
02/08/2021	** outbound to the dlr ** CM reaching out to speak with SA Jonathan, they are putting another door from another dealership and they are working with STAR and test it now to see.
02/08/2021	** outbound to cst ** CM provided the update that the SA provided to us.
02/10/2021	** OUTBOUND to dlr ** SA Jonathan stated that the vehicle is done and fixed. and it was 5 day of rental. the door module and wiring was repaired. dlr is requesting $175 for rental coverage
02/12/2021	sending email to SA WITH DM NOTES

Initial Description

we have been having an intermittent issue with our van. We could be driving and with no warning all lights (brake,temp,check engine, oil,traction control) come on, Also, the speedometer stops registering and the tack (rpm gauge) stops working, the locks on the door will not lock. Also, if the lights are still on when I shut the vehicle off and remove the key I get a message the key is still in the ignition and if I put the key back in the ignition to restart the car my car does not start. I have taken it to 2 mechanics. One of the mechanics was at the dealership and since the car resets it self automatically they could not find the problem. The 2nd mechanic told us that they have heard of the problem but without having the car in possession while it is actively doing that they can't find the problem with the computer history. I have recorded the situation once while it has been experiencing the problem I can send you if you need to see it. I would like this issue corrected or I plan on getting rid of this vehicle and will never purchase a Chrysler product again.

Hello[redacted]

Thank you for contacting Chrysler Customer Care. We are disheartened to learn of your concern regarding your 2016 Chrysler Town and Country. I would be more than happy to review your concerns for you.

In regards to your 2016 Chrysler Town and Country, we appreciate your inquiry and understand the expense and inconvenience involved. However, at this time FCA cannot provide further assistance in regards to your concern as the vehicle has exceeded the mileage and/or warranties provided on the vehicle at time of sale.

We're regretful we cannot provide a more favorable reply.

Thank you again for your emai[redacted] At this time we will be closing this case, if you require any additional assistance do not hesitate to contact Chrysler at 800-992-1997.

Best wishes,
Lauren

Customer has called in because the side door on her vehicle get locked and stuck and customer states she seen online that this has happened to a couple people

Case Comments

Date	Comment
02/23/2021	Customer will be taking her vehicle to the dealership so they can take a look at her vehicle.
03/01/2021	SLIDING door on driver side wouldn't open anymore, DLR states its the actuator, over $1000 for repairs, $509.32 for each door. CST seeking assistance. Agent informed CST vehicle doesn't meet parameters for assistance and goodwill request would be declined but her concerns is noted. Agent did inform CST if it becomes a recall in the future, she may seek possible reimbursement. CST state people can get trapped. CST didn't like goodwill decline, and then she disconnected.

Initial Description

Good evening,\n I recently had my slider fixed on February 15,2021. I went to the dealer to pick up and the slider was not fixed. Even though they said they fixed it. They said the bar dropped again preventing the door to open. So the following day they called and said all set. That it was. So now February 25,2021, guess what doesn't work again. Yup the slider. It is stuck shut. Nothing opens it the fob, handle or button in the car. This is aSAFTEY issue. A week later it's broken again. This does not fly with me. Very unsatisfied customer. Let's say Chrysler won't be my next pick for a vehicle. And i absolutely love the Pacifica..Something needs to be done!\n

Hell[redacted]

Thank you for contacting Chrysler Customer Care;

I can understand the dissatisfaction that you feel, given the unresolved issue with the Sliding Door that you have with your 2016 Chrysler Town & Country. I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Based on the information provided in your email, I am going to forward your case to our Case Specialist department for technical assistance only. Please note that due to the age and mileage of the vehicle, we would be unable to assist with the cost of repairs. Furthermore, there are no service contracts, recalls or extended warranties pertaining to Sliding Door.

Escalating your situation to a Case Specialist will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have this problem addressed and resolved.

It is our hope that this escalation will provide you the best opportunity to address your concerns. If you have any other concerns or something else to add, let us know by calling us at 800-247-9753 and referencing your case number [redacted]

Thank you again for your email[redacted] Have a great day.

Best wishes,
Jacob | Chrysler Customer Care

I understand the main warranty is up but seriously 3 times within 1 1/2 months! That doesnt fly with me. Reading so many people having the same issue online. Chrysler should be doing something about this. Thank goodness I have an extended warranty but that is not the issue. The issue is its been a 3 time problem within 1 1/2 months. [redacted]ory!

Oh one more thing. For Chrysler to push aside a safety issue with a door completely stuck shut is pretty sad. God forbid there is an emergency thats one less way to get out and if someone died you bet they would be doing something. So sad Chrysler so sad!

does not seal correctly - Transmission

Case Comments

Date	Comment
03/15/2021	customer has several issues with the vehicle and is looking for assistance. Transmission - issue with reverse - reset the timing and it didn't help Sunroof is not sealing properly (this was fixed about two years ago) Rear door actuator is broken $1200 to fix
03/15/2021	Agent advised on Basic Warranty and that any item the is not related to powertrain would not qualify for any kind of gw assistance. The transmission issues was just looked at while under warranty and was not fixed. Have customer bring vehicle to have the transmission properly diagnosis and then see if the can be assisted with possible gw.

From	uscustomercare@fcagroup.com	***To***	[redacted] 3/2021 23:49 PM

Dear [redacted]

Thank you for allowing Chrysler Customer Care an opportunity to address your concern. Our primary focus is on your satisfaction.

I contacted Finnegan Chrysler Jeep Dodge, and they have advised that it will take a few days to look at your vehicle. Regarding the rental, the dealer does not accept rental authorization. Still, you have been placed on a list for a loaner, so the dealership will contact you directly when one does become available.

Once your vehicle has been dropped off at the dealership and diagnosed, please contact us back so we can proceed with providing technical assistance with your repeated vehicle concern.

But at this time, we will be closing this case. If you have any further questions/concerns, please call Chrysler Customer Care at 1-800-992-1997 at any time.

Thank you for your time, participation and for being a valued FCA customer.

Kindest regards,

Tina

Initial Description

The driver s side passenger sliding door has been in the locked position for some time now and it cannot be opened manually or electronically. I have been doing some research and apparently this is a common problem in the Chrysler/Dodge Minivans. This is a safety hazard not to mention a very expensive problem to fix. I would like this issue to be examined and possibly recalled.

Hello

Thank you for contacting Dodge Customer Care.

Based on the information that you have provided, the best plan of action would be for you to see one of our authorized dealerships for a diagnosis if you have not had one yet. Once there, if you have any further concerns, you are welcome to contact us again.

Unfortunately, this is not a Recall on your vehicle at this time and will be customer pay. If it does become a Recall on the vehicle in the future we can look into the possibility of reimbursement.

Please note I have sent you an email requesting documentation as we are not showing you as the owner in our system.

Please do not hesitate to contact us if you need any further assistance by calling us at 800-423-6343.

Thank you again for your email Have a great day.

Best Regards,

Jacklyn

This may not be a recall issue but it needs to be. I have read so many complaints online about multiple Caravans/Town & Country having this problem since the inception of the electric sliding doors. Many dealerships are quoting customers from about $800 to about $2,000. That is a lot for something that appears to be a defect in production. It should not be happening to different years of the same vehicle. Customers should not be stuck with this bill. I have had my 2016 Dodge Caravan for 4 years next month and have had just routine oil changes. I have not had one problem with this vehicle. I spend an average of $50 an oil change about three times a year and may have spent close to $1,000 in just that but there has been nothing else. This van drives great. It is extremely painful to be going through this and being[redacted]ith one functioning passenger door.

Chrysler/Dodge needs to take a harder look at this.

Thank You

Hello [redacted]

Thank you for your response.

I do understand your frustration regarding the passenger door.

Unfortunately, at this time it is not a Recall. If it does become a Recall in the future you can then contact us regarding reimbursement.

Please note we have not received the documentation on proof of purchase for your vehicle.

Best Regards,

Jacklyn

Subject: Re: Passenger Door Failur[redacted]

This may not be a recall issue but it needs to be. I have read so many complaints online about multiple Caravans/Town & Country having this problem since the inception of the electric sliding doors. Many dealerships are quoting customers from about $800 to about $2,000. That is a lot for something that appears to be a defect in production. It should not be happening to different years of the same vehicle. Customers should not be stuck with this bill. I have had my 2016 Dodge Caravan for 4 years next month and have had just routine oil changes. I have not had one problem with this vehicle. I spend an average of $50 an oil change about three times a year and may have spent close to $1,000 in just that but there has been nothing else. This van drives great. It is extremely painful to be going through this and bein[redacted]with one functioning passenger door.

Chrysler/Dodge needs to take a harder look at this.

Thank You
[redacted]

Ok.

Why am I providing "proof of ownership"? It just seems null and void if Chrysler/Dodge is not going to help me in any way.

Chat Started: Monday, March 29, 2021, 21:25:55 (-0400) Chat Origin: NAFTA Mopar Brand Chat Agent Emily (9s) Emily: Thank you for chatting with us, my name is Emily with Mopar Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (28s) Visitor: Hello, Emily. I hope you are having a good evening. (1m 40s) Visitor: The driver's side sliding door on my 2016 Dodge Grand Caravan does not unlock or open. The locking mechanism is stuck in the lock position and does not allow the door to unlock/open. This happened without any external cause. It just stopped working one day and is a safety concern due to children unable to exit the vehicle in the event of an emergency. Can you assist with that? I did not see it listed as a safety recall but I have seen a lot of people having the same issue. (2m 22s) Emily: I apologize you are having a concern I would be happy to look into this with you. May please have you confirm your name, address, telephone number, email address and the last 8 of the VIN for me please. (2m 29s) Visitor: This occurred on 22 October 2020. The vehicle had 67109 miles on it and it has not been involved in an accident. (3m 37s) Visitor: My name is [redacted] My address is [redacted] erra Vista, AZ [redacted] My phone number is [redacted]. My email address is [redacted]. The last 8 of the VIN are [redacted] (6m 13s) Visitor: Are you still there? (6m 44s) Emily: I apologize this is happening with the door have you been in to the local dealership to have a diagnosis completed on the van ? (8m 25s) Visitor: I called the dealer and they were going to charge a rather high price to diagnose the door. The diagnosis is more than the replacement locking actuator to fix the door. I told them the symptoms and asked for a quote to replace the part and they said they could not give me any information without me paying for a diagnosis. (10m 1s) Visitor: This seems like a safety issue that should be recalled by Dodge or FCA. It has happened to so many people and could cause serious issues if the vehicle is in an accident. (11m 5s) Emily: I can certainly understand the concern with the matter. I am showing no open recalls on the matter. I am showing with the make and model all factory warranty would be expired. We would need to have a diagnosis completed from the local dealership and have repair completed. I would need to recommend holding on to all paperwork from the repair. If recall is issued you would be able to submit for reimbursement. (12m 17s) Visitor: That is the only option you can recommend? I have seen that some people have paid over $1000 for the repair and I am not in a position to do that. (13m 39s) Emily: I apologize this would be the only option at this time with no recall issued on the matter along with no extended warranty or warranty on the vehicle. I have opened a case on the matter for you with case number [redacted] everything has been noted on file for you. (14m 33s) Visitor: Thank you for the case number. Thank you for the information you provided. Have a great night. (15m 29s) Emily: Thank you for choosing Dodge Customer Care. Have a great day

Hello [redacted]

Thank you for contacting the DODGE Customer Assistance Center.

I can understand the dissatisfaction you feel, given the sliding door issue you've been experiencing with your Dodge. I would like to assure you that we will do everything we can to help you.

Based on the information provided in your email, your best plan action would be to visit one of our authorized dealers for a diagnosis. Our technicians are trained to troubleshoot issues that our customers are experiencing and provide an accurate diagnosis. They also have specialists that they can refer to if necessary.

For your convenience, I have provided contact information for the closest dealership to you below, based on the zip code provided in your email:

Arrigo Chrysler Dodge of West Palm Beach
6500 Okeechobee Blvd
West Palm Beach, FL 33411-2701
(561) 683-1511

Please do not hesitate to contact us if you need any further assistance.

Thank you again for your email, [redacted]. Have a great day.

You are always welcome to call us directly with your questions at Dodge Customer Assistance Center by calling 1-800-423-6343.

Sincerely,

Jody
Dodge Customer Assistance Center

04/06/2021	took the vehicle to the dealership and DLR called the customer and said that engine is shut. Upper rod in the engine has gone and whole engine needs to be replaced, 3 weeks ago vehicle started making ticking noise. for replacing engine dlr is quoting $5200. Customer also got actuator replaced in the right sliding door.. Customer is looking for GW. Customer is saying that he is having 2-3 more vehicles. 2008 and 2003. Checked customer didn't have SC. Checked all the parameters for gw consideration eg LS and CSS but customer doesn't fall in that. Informed that it would be an out of pocket expense. Closing this case

Chat Started: Friday, April 09, 2021, 09:10:57 (-0400) Chat Origin: NAFTA Dodge Brand Chat Agent Mathew (6s) Mathew: Thank you for chatting with us, my name is Mathew with Dodge Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (20s) Mathew: Hello, how may I help you today? (1m 14s) Visitor: I am trying to see who i need to speak with in [redacted] to a complaint and to share my current situation with my dodge caravan (1m 40s) Mathew: I do apologize that you are experiencing a [redacted] and I can see if I have any recommendations for you. Could I have the VIN and the mileage on your Dodge please? (2m 36s) Visitor: [redacted] (3m 31s) Visitor: mileage is about 39,000. My van is currently at our local chrysler dodge dealership getting serviced which is why i am reaching out (3m 57s) Mathew: Thank you; what's going on with the vehicle? (5m 16s) Visitor: I took it in about 2 weeks ago for a basic oil change as well to get the automatic door fixed which this is the second time ive had issues with the door, for it to cost be over 1,000 to repair (7m 5s) Visitor: after getting it back i noticed after just a few days the gears seem to be slipping to then where it could not drive. i called the dealership told them they couldnt get me looked at for over a week. I had a mechanic come to my house who said he beieved the transmission fluid was drained by accident and then not re filled. hence, he said reason why it slower began to glitch over the week. i called dealership explained to them, they were very negative and said they would not have done that. (9m 41s) Visitor: finally got the van towed in. for them to call me 2 days later to say i need a whole new transmission! My van has only 39,000 miles! no way should a new transmission be needed! the guy said it seemed to have a clogged filter and then clogged sump pump and a new transmission was needed. I asked about the fluids and he of course said no that didnt happen. so now, over 2 weeks without a vehicle they are charging me almost 4,000 to replace my transmission! i am very angry and upset and do feel as this should of been the case! i take very good care of the van, keep up with oil changes and whatnot. Why would the transmission stop working at only 39,000 miles (10m 31s) Mathew: I do apologize for that issue [redacted] While I see if I have any recommendations for you, would you mind verifying the owner information for the Dodge please? Could I have the name it's registered under, the mailing address with the zip code, the primary phone number and the primary email address please? (11m 18s) Visitor: [redacted] newark de [redacted] m 26s) Visitor: [redacted] (12m 8s) Mathew: Thank you; which dealership is this? (13m 24s) [redacted] in newark de on cleveland avenue (13m 26s) Mathew: Thank you, one moment please. (16m 22s) Mathew: Thank you for waiting [redacted] What I will be doing is escalating a case to our case management team for further review. Here is your case number [redacted], that team will contact you back in one business day. (16m 46s) Visitor: ok by phone? (16m 54s) Mathew: Phone or email. (17m 7s) Visitor: can i have the phone number for them as well please (17m 34s) Mathew: When that team contacts you, the case manager who will be working your case will provide their number and extension. (17m 47s) Visitor: ok thank you (17m 58s) Mathew: You're welcome, thank you for contacting Dodge customer care, have a good rest of your day.

Date

Date	
04/09/2021	Chat Started: Friday, April 09, 2021, 09:10:57 (-0400) Chat Origin: NAFTA Dodge Brand Chat Agent Mathew (6s) Mathew: Thank you for chatting with us, my name is Mathew with Dodge Customer Care. Please keep the chat window open to participate in a brief survey at the completion of our conversation. (20s) Mathew: Hello, how may I help you today? (1m 14s) Visitor: I am trying to see who i need to speak with in reference to a complaint and to share my current situation with my dodge caravan (1m 40s) Mathew: I do apologize that you are experiencing an issue with your vehicl[redacted]nd I can see if I have any recommendations for you. Could I have the VIN and the mileage on your Dodge please? (2m 36s) Visitor[redacted] (3m 31s) Visitor: mileage is about 39,000. My van is currently at our local chrysler dodge dealership getting serviced which is why i am reaching out (3m 57s) Mathew: Thank you; what's going on with the vehicle? (5m 16s) Visitor: I took it in about 2 weeks ago for a basic oil change as well to get the automatic door fixed which this is the second time ive had issues with the door, for it to cost be over 1,000 to repair (7m 5s) Visitor: after getting it back i noticed after just a few days the gears seem to be slipping to then where it could not drive. i called the dealership told them they couldnt get me looked at for over a week. I had a mechanic come to my house who said he beieved the transmission fluid was drained by accident and then not re filled. hence, he said reason why it slower began to glitch over the week. i called dealership explained to them, they were very negative and said they would not have done that. (9m 41s) Visitor: finally got the van towed in. for them to call me 2 days later to say i need a whole new transmission! My van has only 39,000 miles! no way should a new transmission be needed! the guy said it seemed to have a clogged filter and then clogged sump pump and a new transmission was needed. I asked about the fluids and he of course said no that didnt happen. so now, over 2 weeks without a vehicle they are charging me almost 4,000 to replace my transmission! i am very angry and upset and do feel as this should of been the case! i take very good care of the van, keep up with oil changes and whatnot. Why would the transmission stop working at only 39,000 miles (10m 31s) Mathew: I do apologize for that issue[redacted]. While I see if I have any recommendations for you, would you mind verifying the owner information for the Dodge please? Could I have the name it's registered under, the mailing address with the zip code, the primary phone number and the primary email address please? (11m 18s) Visitor[redacted]newark de[redacted] (11m 26s) Visitor[redacted] (12m 8s) Mathew: Thank you; which dealership is this? (13m 24s) Visitor: newark chrysler jeep. Located in newark de on cleveland avenue (13m 26s) Mathew: Thank you, one moment please. (16m 22s) Mathew: Thank you for waiting[redacted]What I will be doing is escalating a case to our case management team for further review. Here is your case number[redacted]hat team will contact you back in one business day. (16m 46s) Visitor: ok by phone? (16m 54s) Mathew: Phone or email. (17m 7s) Visitor: can i have the phone number for them as well please (17m 34s) Mathew: When that team contacts you, the case manager who will be working your case will provide their number and extension. (17m 47s) Visitor: ok thank you (17m 58s) Mathew: You're welcome, thank you for contacting Dodge customer care, have a good rest of your day.

passenger sliding doors locked itself and cannot be unlocked

Case Comments

Date	Comment
04/13/2021	Customer called in seeking assistance with unlocking her 2 sliding passenger doors. Says no one can unlock them. She had reached out to the DLR and 3 mechanics but they could not find a resolution. Agent reached out to DLR 27101 and spoke to Jessica at the service dept. explaining the issue and she said they could unlock the doors. Provided DLR contact to customer as lost connection with DLR

cst called in stating both sliding door actuators are broke

Case Comments

Date	Comment
04/22/2021	cst called in regarding recall. Agent informed cst of zero open recalls on the vehicle. cst stated the vehicle is experiencing issues that is out there as a recall. Agent informed cst unless the dealership submits the issue to warranty to be covered and recognized it as a recall, we will not cover the fix under a recall. the dealership has to deemed the cst is experiencing the same issue as the recall and submits it into warranty for review. cst stated that made no sense and disconnected the call

Initial Description

We previously reached out to this e-mail address with complaints about our 2016 Dodge Grand Caravan, but have not been contacted by Dodge. We did receive an automated acknowledgment e-mail with reference numbe[redacted] We also received two e-mails asking us to rate out interaction with "Jacob", but we were never contacted by "Jacob" or anyone else from Dodge. Both rear power sliding doors on our van are inoperable due to failed actuators. The doors cannot be opened with the FOB, push-buttons inside the car, or manually. They are permanently locked and cannot be opened. As a result, our young children can only enter and exit the vehicle by climbing in and out the rear hatch, or climbing over the front seats and out the front doors of the vehicle. This is a known problem in Dodge Caravans and a major safety hazard. Our dealer want $2,300 to repair the doors. This is completely unfair and outside of our budget. Our local dealer is unable negotiate on repair prices, so we are stuck with a van whose sliding doors will not open. We had the very same problem with our 2007 Caravan and hoped the 2016 model would be better. It is not and we will not purchase another Mopar (or FIAC) product again. I have filed a complaint with the NHTSA to investigate this safety issues with Dodge vans. Our complaint is being investigated under VOQ

Hello ; [redacted]
We have received your letter and fully appreciate the concerns you have raised regarding your 2016 DODGE GRAND CARAVAN SXT. For rear power sliding doors-failed actuators
We must respectfully decline assistance at this time, if any recalls or extended warranty applied to your vehicle, keep all documents including work order and invoice from dealer and can review for reimbursement at that time.
Thank you for your email and allowing us the opportunity to review this matter with you.
Best regards,
Paula

Customer states their sliding door is not operating properly

Case Comments

Date	Comment
04/23/2021	Customer feels that they have a vehicle concern that should be a recall. Customer states that their sliding door has been making noise and now no longer locks or properly operates. Customer states that they have heard about this issue amongst several other car owners with the same vehicle and she wanted to file a complaint documenting her experience. No further action needed.

Initial Description

In May of 2018 the right passenger sliding door lock seized up and would no longer lock, either electronically or manually. The solenoid is sold as an assembly only and the dealer repair ended up costing over $1,000, for a LOCK!!! 5 months later, the left passenger sliding door seized up in the locked position and had to be replaced by the dealership for several hundred more dollars. At that time the Grand Caravan was only 2 years old! Now, three years later, the right passenger sliding door lock seized up again! I am requesting a warranty replacement of the lock assembly. Besides this vehicle, I own a Ram 1500 crew cab, a Jeep Compass and a Plymouth Roadrunner. I have been very loyal to the Mopar brand. The poor quality of power locks in the 2016 Grand Caravan is not acceptable!

Case Comments

Hello [redacted]

Thank you for contacting Dodge Customer Care.

We are disappointed to learn of the concern with the right passenger sliding door lock in your 2016 Dodge Grand Caravan. We fully appreciate your concern, particularly in view of the expense and inconvenience involved. We have reviewed your vehicle information and there is no longer any coverage for the sliding door locks.

The door locks are basic warranty components and coverage was for 3 years or 36,000 miles. The vehicle has exceeded the time and mileage limitations of the warranty we offered on the vehicle at the time it was placed into service and we are unable to accommodate your request for out-of-warranty consideration. Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.

Thank you again for your email.

Best wishes,

Mary-Lyn

Hello ; [redacted]
Thank you for contacting Dodge Customer Care,
We would like to thank you for your email and for taking the time to share your feedback with us regarding 2016 DODGE GRAND CARAVAN SXT
We understand your frustration in experiencing reoccurring issue with #2 cylinder replacement, along with transmission, transmission repair, should still have warranty as has two year warranty on parts and was completed on 1/21/2020.
For issue with back side door and stowaway seat issues, will document your concern. If any recall or extended warranty applied we can review reimbursement at that time
Thank you again for your email [redacted] Have a great day!
Best regards,
Paula

Initial Description

I have been a loyal customer since I started driving and always back Dodge/plymouth vehicles, but am very disappointed with my 2016 Grand Caravan with the electrical issues I have had. I am at the dealership now and they informed me I will need a new radio, the AM/FM will not work at all. Over $500 to replace...seriously? Mind you its it's only a 2016. I have issues with the sliding driver side door, which should be recalled, because it stopped working and I couldn't even open it which is absolutely a liability issue for the brand. It started working after about 2 weeks but makes a horrible noise when it locks. I had a neon that had 164000 miles on it and was 16 year olds when I traded it in for the van and was still going strong and I less issues with that. I am hoping Dodge will stand up and rectify these issues with this van.

Hello [redacted]

Thank you for contacting Dodge Customer Care.

We are disappointed to learn of your concern with your radio
concern for your 2016 DODGE GRAND CARAVAN and understand how this might
cause concern.

Currently we see updates needed for your radio and we will post it below
[redacted]

The part you describe however falls under the BASIC WARRANTY 36 Months
or 36,000 Miles of your vehicles manufactured Warranty.

Based on the information that you have provided, unfortunately, we are not
able to assist you with cost of repairs based on the following reasons; to
determine goodwill, we review

1. Vehicle in service history (at the Dodge dealership)
2. Warranty Mileage exceeded 62,055 miles, we do review cases if the warranty up to 24 months or 24,000 miles after expiration, however we found the vehicle has past the goodwill mark.
3. We have confirmed open recalls, and an active extended warranty protection are not found

We have exhausted every avenue to determine what can be done for the
vehicle concern at this time. After looking into it for you, it was
determined that the repair would be considered a maintenance repair
expense. I do understand your frustration as this was not a planned cost,

However when our certified dealer completes the work you will then have 2
years of coverage on the new parts and labor to provide you with some
comfort and peace of mind.

Please do not hesitate to contact us if you need any further assistance by
clicking us another email or calling us at Dodge (866-726-4636).

Thank you again for your email. Have a great day.

Best wishes,

Dodge Customer Assistance

Initial Description

I've had problems during the bumper/bumper warranty with both of these doors. Now, I'm past 3yr/36,000 time frame, my driver side power sliding door will not unlock. I've asked the dealer to look at it but they want to charge me around $150 to just look at it. I have no kids, a single retired driver, and no people in and out, there is no reason that door should lock and won't unlock as it should. I think Dodge should step up to the plate and get Starr Motors/Suffolk VA to take care of the issue without charging me to look at it.

Hello
We have received your email and fully appreciate the concerns you have raised regarding your 2017 DODGE GRAND CARAVAN SXT
We must respectfully decline your request. As unable to assist with repair at this time, if any recall or extended warranty is applied to your vehicle we can review for reimbursement at this time. We are unable to waive dealer diagnosis fees, i do apologize for any inconvenience this may have caused.
Thank you for writing and allowing us the opportunity to review this matter with you.
Best regards,
Paula

Well that really shows not only the quality of Dodge, but it's customer service as well.
I'm [redacted] years of age at the end of this month and out of all of the automobiles I've purchased in my life, used and new, this product is the only one that makes a DOOR that does not UNLOCK!
My first Dodge purchase, not my 1st Chrysler product (Plymouth 1981 in California) however, and I don't think I'll ever buy another one. Too bad for Dodge, my last four vehicles were Nissan purchased at the same store in Norfolk, VA. Never had a problem Nissan would not stand behind.
Thank you for such a lame experience.

I am reaching out in hopes you will reconsider covering the lock actuators. I hope to not have to make it a big deal that this is not covered when it is a safety issue. If there was an accident or an emergency that door will not open from the inside or outside. How is this not a safety issue. my child or myself would not be able to remember in an emergency that we cannot get out of that or into that door. This is very upsetting.

Initial Description

I am quite concerned about the 2016 Dodge Caravan. I only have mine for 8 months and the driver's side rear sliding door does not open at all, by button or hand. I did some research and many people have had or are having the same exact problem. Is there a recall on this van for that reason? The dealer I purchased my car from has since sold it's location to Rossi in Washington, NJ. I look forward to any help I can receive. It's a major hazard, especially when the van is filled with children! Thanks for your help!

From	uscustomercare@fcagroup.com	**To**	[redacted]	**Sent Date/Time**	06/01/2021 13:58 PM

Hello [redacted]n;
Thank you for contacting Dodge Customer Care.
I do appreciate the concerns you have raised regarding your 2016 DODGE GRAND CARAVAN SXT. I would like to assure you that I will do everything I can to help you out.

In regards to your cost assistance request we fully appreciate your concern, particularly in view of the expense and inconvenience involved.
We are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and/or mileage limitations of the warranty (or warranties) we offered on the vehicle at the time it was purchased.

I have filed a case regarding your concern with rear sliding door not opening and if there is a recall or extended factory warranty issued for your concern, a notice will be mailed to you and you will be able to submit for reimbursement review at that time.

Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.
We're sorry we cannot provide a more favorable reply.
Thank you again for your email MaryJean. Have a great day.
Best wishes,
Paula

Initial Description

I am looking for some assistance with the cost of a door latch replacement. I had to have the driver side sliding door latch replaced at 30000 miles...door would not unlock or open. I am having the same issue again making this the 3rd latch for the vehicle. It's kind of pricey having to replace a component prone to failure.\n\nThanks you.

Hello [redacted]

Thank you for contacting Chrysler Customer Care.

I do appreciate the concerns you have raised regarding your 2016 CHRYSLER TOWN & COUNTRY TOURING. I would like to assure you that I will do everything I can to help you out.

In regards to your cost assistance request we fully appreciate your concern, particularly in view of the expense and inconvenience involved.

We are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and/or mileage limitations of the warranty (or warranties) we offered on the vehicle at the time it was purchased.

I have filed a case regarding your concern with the door latch and if there is a recall or extended factory warranty issued for your concern, a notice will be mailed to you and you will be able to submit for reimbursement review at that time.

Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.

We're sorry we cannot provide a more favorable reply.

Thank you again for your email [redacted]. Have a great day.

Best wishes,

Paula

Chrysler Customer Care

Sliding door stopped working

Case Comments

Date	Comment
06/26/2021	Customer called stating that her sliding door does not open. Customer is very frustrated and has reported the situation to the national highway site. Customer stated that if FCA does not make this right some day, she will never purchase another vehicle from FCA. Customer stated that the repair is 1100 and she will not be paying it. Vehicle only has 46000 miles on it and the customer feels as though this issue should not be happening. Informed the customer that the agent documented her concern and that it would be taken into consideration.

Initial Description

Customer reached out regarding vehicle concern; may need a rental for work.

Case Comments

Date	Comment
07/05/2021	Customer reached out stating this is the 5th time sliding doors having issues he only used 8-10 times in a week alone as he is a [redacted] only does this 3 times a week. This is the 5th time dealer has to keep vehicle in as the doors are unable to lock unless you manually lock it but then it becomes a hassle to unlock from the front. This time doors wont lock at all; makes a weird noise maybe a bad sensor. Dealer replaced some things a few times. After all that issue is back; because he has low mileage on vehicle dealer offered to get the extended warranty; and he did-5years/60m warranty. Concerned because there may be a quality control problem with sliding doors of the vehicle; doesn't want a situation where he would have to end up paying for the repair. Just took vehicle in Saturday morning- checked out doors- was shocked because it was assumed to be fixed twice already. Going in again on Wednesday at 7am; dealer does not have loaner so customer does not want van to stay. If customer can get a van rental then he can leave vehicle in.
07/06/2021	Repeat issue: Y Star tickets open: N Recalls: N Prior Goodwill/DM notes: Y-dealer R/O History: Y - multiple attempts at repairing the door latch Vehicle location: with cx Vehicle Concern: door latch not working Is the customer in a rental: N Parts on B/O? Customer Email: [redacted] Customer preferred contact: Customer seeking: rental assistance
07/06/2021	merits goodwill within 24/24,000 Basic LS 446 CC 30 CM called dlr - part has been ordered - Cm called dlr twice, no answer CM called cx, no answer, left a VM - CM will call cx again later - As for rental if dlr can not do a loaner - If vehicle is drivable, can not do rental
07/06/2021	.
07/06/2021	**Inbound from CST** Best contact for CST [redacted] e is not concerned about rental because they had to give him vehicle back unfixed. This is the 5th time he has brought it there. He wants to know why this keeps breaking for same issue.
07/06/2021	IB CALL FROM CST requesting to speak to CM. Agent warm transferred to CM
07/06/2021	Cx returned CM call - cx concerned because the vehicle keeps going back into the dlr for the sliding door latch. CX called dlr, Brian had the cx bring the vehicle in this morning. CX is told that it is the latch or a sensor. Per cx, both of these parts have been replaced. Brian called cx back and states that it is the locking mechanism. On the drivers side they replaced the latch. CM to call dlr to make sure part is ordered.
07/08/2021	CM contacted dealer, spoke to Parts Advisor who provided part order information. PART: 5020678AC ORDER: 7/6/21 OMC: S0706A UPS Tracking [redacted] M called parts dept - part is in transit by UPS to arrive by 6/9/21 7pm
07/08/2021	Cm called dlr - line busy Cm called dlr - spoke with Bob - the have ordered a Sliding door actuator - transferred over to the parts dept for the part info. CM called parts dept - all advisors are busy
07/13/2021	Cm called dlr - all parts are in. Cm called cx - cx now has an appt for Monday, 7/26/21 @ 7am Cx has questions as to why these latches keep going out. Will speak with Bob Cooper when he brings the vehicle in for the repair.
07/27/2021	Cm called dlr - all advisors are busy CM called and spoke with Bob - Bob checked with Brian -cx did not bring in the vehicle today as cx's [redacted] and he needs his vehicle. Cx has an appt next week and dlr will provide a loaner at that time for the cx.
08/03/2021	The SA Brian called in today and the CM was not available. He stated that they got information for the customer and that they installed the door actuator and all four doors are working properly now.
08/03/2021	Customer would like a call back as soon as possible a [redacted]
08/03/2021	Cx states that this is a safety issue. Repairs for the latches/lock has happened a number of times. Cx has had to have the passenger sliding door repaired 3 times for the latch working, - either the door will lock or will not unlock. 3rd repair completed 8/3/21 to replace the actuator. Drivers side sliding door has been repaired twice for either not locking or unlocking.

Hello [redacted]

Thank you for taking the time to reach out in regard to the troubles you have with your sliding door. Your feedback is greatly appreciated. I want to assure you that it has been duly noted and your comments will be provided to the appropriate parties.

We would recommend seeking a diagnosis at your local dealership in the mean time. If you do get any charges for repairs or replacement, please hang onto all of the receipts. That way if they do determine it to be a recall you can submit them for potential reimbursement

Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at Chrysler 800-247-9753

Sincerely,
Rebecca

Initial Description

Bubbling on the hood and door lock not working on sliding door

Case Comments

Date	Comment
07/19/2021	Customer stated that his hood has bubbling on the hood but DLR says her is OOW. Customer stated that last fall the door would not open and now it will not lock. Customer seeking assistance with the door locks and the hood bubbling because he has heard out on the forums these are known concerns. Customer stated that another family members van also has the same concern. Agent advised no recalls or extended warranties for these concerns. Agent offered to document his complaint about the van.

reference numbe n reaching out in hopes you will reconsider covering the lock actuators. I hope to not have to make it a big deal that this is not covered when it is a safety issue. If there was an accident or an emergency that door will not open from the inside or outside. How is this not a safety issue. my child or myself would not be able to remember in an emergency that we cannot get out of that or into that door. This is very upsetting

Hello [redacted]

Thank you for contacting Chrysler Customer Care.

We are dedicated to producing a quality product and we want to thank you for bringing to our attention the concerns that you have with the door lock actuators regarding your 2016 Chrysler Town & Country.

Our records show that you have contacted us by telephone and after reviewing the files on this matter we must respectfully concur with the decision rendered. We cannot provide any further assistance on the matter. Any further questions or concerns will need to be discussed with your authorized dealership.

Thank you again for your email [redacted]. Please do not hesitate to contact us if you need any further assistance by calling us at 1-800-247-9753.

Best wishes,

Belinda

Initial Description

Custome called and inquire about Case from March 2021

Case Comments

Date	Comment
08/09/2021	Cutomer called and stated he has never heard from CM or dealership regarding Case paint peeling from vehicle hood. Customer statd that vehicle was taken to Caliber Collision 7637553665 for photos and customer has never heard back from Cutomer Care and is now calling to get vehicle repaired. Customer stated he is aparaplegic and cannot get around. Customer requested that case be reopened for reapir assistance. Customer stated that door are not opening and he would like doors repaired and customer stated he was stuck in vehicle
08/09/2021	Previous case mention Coon Rapids as the Certified DLR. Agent updated case and sending over to proper CM for handling
08/10/2021	*****Outbound Dealer Call***** Coon Rapids Chrysler Jeep Dodge Ram | 7634218000 Customer was in in January, and April. Worked with Tim both times. Tim went through his emails and found pictures, and when they ran coverage, customer was advised his warranty expired in October of 2020. Tim thought he communicated that to customer, but does not have anything in writing to reaffirm that it was communicated to customer. Advised lift gate repair was recommended to customer in January, and customer declined.
08/10/2021	*****Outbound Customer Call***** CM spoke with customer who advised he's pretty disgusted with his door issue. Customer states he has and was left in the vehicle and not being able to get out. Customer states he went to Dodge once for the door issue, and was advised it's the remote. Customer states he's going to go to the news for it if he can't get help. Customer went to the DLR last February, he believes, and again after that. Customer states it's an electrical issue. Customer states the door hasn't opened for him 30-40 times since he's owned the vehicle. Customer purchased the vehicle for 3 years. CM advised customer to allow them time to review history, and will follow up within two days.
08/12/2021	*****Outbound Customer Call***** left voicemail for customer advising his concerns are still being looked into, and will follow up tomorrow.
08/16/2021	*****Outbound Customer Call***** CM left voicemail with case number and call back information.
08/18/2021	*****Outbound Customer Call***** CM left voicemail with call back information. - CM to decline cost assistance. Concern is basic warranty, and outside of that by 3+ years and mileage, as well as decline cost assistance for the hood.

Initial Description

Looking for assistance with part coverage.

Case Comments

Date	Comment
08/09/2021	Speaking with: [redacted] Miles: 58,000 ISSUE: Has the Max Care contract and being told that the trim is not covered but in order to fix the doors. Left side door hinge has failed, door latch and sliding door actuator needs to break the case it's in and only part of it is covered. AGENT ADVISED: No open recalls. No open RRTs. Basic WTY: Expired by 22,000 miles & 10 months LS: 498 CCS: 15 Original Owner: Yes Case [redacted] approves all repairs *except* for the side applique for the sliding door actuator. DLR 45662 SA confirmed that it is only the sliding door applique that is trying to be covered at this point. DLR Connect does not list as being covered by service contract and cannot remove without breaking. Per AH 1267 esc for possible assistance.
08/10/2021	********** In service date: 10/4/2017 Original owner: Yes Mileage: 58,000 Vehicle purchase history: only one in customer's name Repeat/recurring issues: No MVP plans: MAXIMUM CARE Recalls: No **********
08/10/2021	*****OUTBOUND DEALER CONTACT****** 45662 | JOE MACHENS CHRYSLER | 5734430481 CM contacted DLR and spoke with S/A Renee; who advised the vehicle needs a new right sliding door lock actuator. Renee stated that the concern is when the DLR removes the sliding door applique it will break. Renee stated that she has asked MVP SCs about this part twice and was advised that it is not a covered component. CM sated that he will let the customer know that at this time he will not be able to provide assistance and is out of warranty so that piece will be an out of pocket expense as well as the customer's deducible. Renee stated that she has told the customer this as well, but thanked the CM for follow up and disconnected the call.
08/10/2021	*****OUTBOUND CUSTOMER CONTACT***** [redacted] CM attempted to contact the customer and was not able to speak with anyone. CM left a VM with the CM's contact information and case number. CM stated that he was calling to introduce himself and requested a callback regarding the case.
08/10/2021	*****OUTBOUND CUSTOMER CONTACT***** [redacted] ustomer called in to speak with assigned CM. CM was able to warm transfer customer to CM Justin.
08/10/2021	*****INBOUND CUSTOMER CONTACT***** [redacted] ustomer contacted CM returning the call of the CM. Writer went over the notes and customer stated that she does not agree with this. Writer stated that the DLR needs to brake the part to fix the repairs. Writer advised that the vehicle is out of warranty and the SC does not cover this component and customer stated that she does not need further follow up and disconnected.

Good Afternoon [redacted]

I am sending you this email regarding the closure of your Case with Dodge Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]

The Dodge Case Management Telephone Number is:

1-844-827-2003

My Direct Extension is: 3020160

Thank you for allowing Dodge Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Dodge customer.

It has been a pleasure working with you, all the best

Best Wishes,

Justin

Initial Description

Sliding door not locking.

Case Comments

Date	Comment
08/17/2021	Customer is calling in about the right sliding door doesn't lock or unlock from the inside of the vehicle or outside. Have read online that it is a common issue. And found a TSB on it via google and feels that we should cover it. Basic warranty expired over 2 years ago and at 36,000 miles and is now over 100,000 miles doesn't qualify for GW. Documented concern. Recommended to bring to dealer as well.

05/10/2017	Incident # [redacted] Hi, my name is Melissa with Dodge Customer Care, How may I help you today? Melissa: How are you today, [redacted] I'm needing some assistance in getting my vehicle working correctly again. 2016 Dodge Grand Caravan 28k miles. The local dodge dealer "Pogue" has yet to fix the problem Melissa: I understand! What is the concern with your vehicle? Melissa: What is the concern with your vehicle? [redacted]: Transmission is slipping and constantly running high rpm, they did one upgrade to computer transmission and called it good even though it wasn't fixed Melissa: Oh wow. I can understand how difficult and frustrating it can be when a vehicle does not live up to the expectations that we have for them and I do truly apologize for the inconvenience of this situation. Let's look into things further and see what we can do to try and resolve this situation for you! Melissa: May I ask, when was the last time you had this concern diagnosed? [redacted] I'm wanting to say around 3weeks ago. And when it was there I told the that if anything needed to be replaced to do it then because I'm not able to take off during the week from work to get it looked at and my son [redacted] on the weekend. I've already had the water pump, timing gasket cover, door actuator and the upgrade to the transmission. And counting the regular oil changes and maintenance it's spent a lot of time in the shop Melissa: I understand, it definitely can be frustrating to have an ongoing concern and keep having to bring your vehicle back to the dealership. Due to the fact that this is ongoing, I would like to get a case manager involved to try and assist with this concern. How many miles do you have on your vehicle? [redacted] I'm wanting to say 28,100- 28,300. I'm at work so I currently can't get out to my vehicle but I am confident that it is in that range Melissa: Thank you. Melissa: We would need the vehicle to be brought back to the dealership in order for a case manager to assist with trying to get these concerns repaired. I've created a case for you which is [redacted] Would you like for me to contact your dealership to see when the next available appointment is ? [redacted] isconnected ('Concluded by End-user').
05/10/2017	**DLR CONTACT - [68906] POGUE CHRYSLER DODGE JEEP RAM FIAT** Agent contacted DLR and spoke to SA James who advised that they have been unable to duplicate customer's concern but that customer can bring the vehicle back for further diagnostic as they would like to ensure the customer is satisfied. SA James stated that she can drop the vehicle off at any time.
05/10/2017	Status update provided via email to the following email address [redacted] this is Melissa contacting you back from Dodge Customer Care. I contacted POGUE CHRYSLER DODGE JEEP RAM FIAT and spoke to James in Service, he stated you can drop the vehicle off at any time for another diagnostic. Once the vehicle is diagnosed, we can escalate your file to our case management department. Would you happen to know when you would be able to bring the vehicle back to the dealership? If so, I'll go ahead and escalate your file to a case manager for (1) business day follow up after the appointment. Please reply to this email advising of when you'd be able to bring the vehicle back to your dealership. Your case number is [redacted] hank you for choosing Dodge, have a great day! End of Status Update

The vehicle was in for repair in July to have the power door locks on both sliding doors repaired. Only the driver's side power door lock was fixed because the technicians couldn't replicate the issue on the passenger side. A few weeks later the passenger side sliding power door lock stopped working all the time and it was easy to replicate the issue. Due to not having time to take the vehicle back in again to fix an issue that should have been fixed the first time, I didn't get the vehicle back in until December. This unfortunately put the mileage above the allowed miles for the original factory warranty and the extended warranty did not cover everything that the original factory warranty covered and I had to pay for part of the repair. When taking the vehicle in in December, it should have been a one day repair. I replicated the issue for the service person so they knew exactly what the issue was. He said he would let me know in the afternoon, but I didn't hear anything so I called in the early evening and was told they were still diagnosing it. When the driver side sliding door power lock was fixed it only took a day, so I don't understand how they could still be diagnosing an issue that is so easily replicated. The evening of day 2 I called again since I still haven't heard anything and I was told they haven't figured out the issue. I replicated the issue for the service person that wrote it up so I don't understand how the technicians could have the vehicle for 2 days and not figure out the issue. I explained again to the person I talked to on the phone that the power door locks for the passenger side sliding door were not working. Late afternoon on day 3, the issue was finally fixed.

there was a leak since I bought it. It is finally fixed. There are also some design flaws like the side doors which fail sometimes or get stuck in an open and clicking position. The sync system on the radio is pretty bad too. But I like the seat fit and the cargo space.

I couldn't get the right side sliding door to lock and was worried about security so I showed up at Arrigo this morning without an appointment, hoping that the problem could be solved. I knew that the chances would be slim that I could be fit into the schedule for the day. I was prepared to have to reschedule but your team went the extra mile and was able to get the problem solved. I want to thank Mr Bernard Jean, for his excellent efforts to get the problem solved and having the inventory that was needed to solve my issue. Three cheers for Arrigo Dodge!

Purchased a new 2016 Town & Country and have had nothing but issues with the van. The lock on the side doors are making a loud grinding squeaking sound every time you unlock and lock the doors and the side doors slide open and close extremely slowly and sometimes stops halfway through and then we have to manually close it. Most recently the sunroof is now leaking all the way around the entire sunroof. I havent opened the sunroof since probably October. The tire pressure sign appears every time it starts getting cold out.

I had been a Ford man for many years. Our other vehicle is a 2008 Mercury Grand Marquis. I think the motor of this vehicle is not right for this size of vehicle or the engineers have not matched the vehicle operation to the even flow of power like our Mercury operates. The Chrysler is as much as 6 miles an hour difference in speed navigat- ing small hills & I do not think I'll ever get used the operation of the cruise control. If I want to increase the speed, I push the top button, but I never know if it is going to increase or decrease in speed. I have to turn it off start all over. The van is not consistent in the use of the accelerator pedal movement. It may be I'm just too old to be using this type of automotive equipment??? The dealer offered to check it, but I'll try harder to get us to it.Also your door lock actuators are a weak point, also the cylinders on rear door. But it does help to silicone the mounting joints to make the door go high enough to use the button at the rear to close that door, at least for now. This is a 2016 Town & Country van. Both actuators have been replaced-passenger side 12/2017 on warranty-driver side went bad 11/18 & replaced this trip for a salty fee.

I was pleased to get the actuator fixed before it lock us out as the last one did. I did not ask for a quote & should have-we would have used it making the racket it made every time the doors locked as much as it cost for a small item. I do realize a lot of labor was in play. I'll be more careful next time.

We owned our 1st Town and Country for over 12 years so had no hesitation to buying a second one. However, in less than 3 years both sliding doors have had to have repair due to broken parts. In our first van the electronic doors wore out after 10 years and we simply used our hands to open them. On our current 2016 the interior pieces broke and they couldn't be opened at all! Makes me worry what else will break.

We had an appointment for Tuesday at 8:00am. We dropped it off Monday evening and told them we would pick it up Friday late afternoon since my wife was out of town. Did not hear from them until Wednesday afternoon with an update on the issue. Couldn't reach the service dept by phone Friday until 4:00pm. The person who answered the phone was very rude before they told us the car was ready. Arrived to find out they had us confused with someone else, our car was not ready. We reminded them our appt. was Tuesday morning and were told "You told us we had all week so we put other cars ahead of it". It is now Friday at 5:15pm! We were given a loaner but still had to make another trip to the dealership on Monday which was an inconvenience.

Took the car initially because the door handle broke somehow and the sliding door was grinding. Got the call to pick up the car and tested everything only to still hear something from the sliding door. Told service guy, who then called the mechanic back to take a look at it. They seemed kind of annoyed that I had brought up this issue as they stated that everything I had brought the car in was fixed. I was told that the noise I heard was from the power actuator and that it was not stated when I brought the car in. I myself did not realize it was the power actuator. I stated that there was a noise coming from the sliding door which made a grinding sound. Low and behold it was a grinding noise and the power actuator for the sliding door going bad. Can you imagine if I had drove off the lot without testing all the doors and windows. I heard the noise immediately after opening the door. Bill the service person was very helpful in this situation as he said he could get the part ordered and put it on the same ticket so I wouldn't have to pay another deductible. Why was I not 100% satisfied? I only wonder what would have happened had I drove off the lot without testing everything and that I had to come back a second time to get it fix. This also makes me think that nothing was tested before having me come pick up the car. I would imagine that taking apart a door would require all the locks and what not be tested to make sure everything works. If the sliding door was tested the noise would have been heard and I could've been notify that the car was going to take longer to repair and a loaner car could've have been provided. I am still disappointed from the previous visit when I had the power window motor replaced. When the door was reassembled it was done rather poorly in my opinion. Prior to the motor going out everything worked fine and the window tint looked great. After that repair the window tint has been scratch and looks like [redacted] Brought that up too and was told it was from the window strip. Only thing that was done was that they would readjust the strip so it stops scratching the tint (fixing the tint would have been nice as it was caused from poor reassembly).

I think its ABSOLUTELY RIDICULOUS that a 2016 van had to have both sliding door locking mechanisms replaced already. This shows that there is something faulty with the equipment and should have had a recall placed on it. But instead, you make the consumer pay 2200 dollars for repairs. I will NEVER buy another Chrysler product again

My door latch being stuck is a vehicle hazard! I should not have had to pay a deductible to get this fixed. my extended warrant says that I can use any car rental place I choose and because I didn't choose Hertz I had to pay a fee. At first the service tech Eric, showed me little to know respect. I had to make a second trip down to express my concern to the service manager Brian about the lack of commutation and I ask if I could have another service advisor. It did get a little better, but now with a attitude. Eric has this God awful thing that dispenses a aroma in his area. This causes me personally [redacted] expressed this to him Eric did not care at all their were 4 people standing outside his office just because they could not take the smell that his little machine was putting out. The Dash board It's all way telling me that the batteries need changed in the keyless entry fob, even after they have been replaced. that was one of the reason that I took it in for repair. but is got left off the list some how. But they sent message about changing the batteries, because of the door being stuck. i'm very Frustrated with the whole service department right now, I dread having to go back there. My van has a rattling noise when going over bump they said they drive it 3 miles and could not duplicate it, I ask them to look at the struts. did they who knows!!! cause I know that if you really look you can see cracks in the metal.

I am still waiting on a return call back from Jared the service manager to discuss this experience. Let me start by stating that I have [redacted] I work full time, and my husband also works, and I do not live around the corner. Getting my car in for service is like playing tetris with my life schedule. I have a 10 am appointment, I sign in at the kiosk, I get an email saying that I will hear from a service rep soon. Others were having issues at the kiosk, I did not and there were no signs on them stating to go to an actual person to check in. I take my infant and myself to the waiting area and there I waited, for 2 hours. I figured I would give them 2 hours before I asked for an update. Employees were coming in and out multiple times dealing with other customer. I finally asked the woman if I could get an update on my vehicle, she asked my information and then informed me that NOTHING has been done with my vehicle because they did not know who it belonged to. The vehicle was moved from the drop off area, and more than one employee came in and out of that waiting room at least 5 times- no one thought to ask the woman with the baby stroller whos been waiting for 2 hours what in fact she was doing? This is completely unacceptable. So now I am in tears because I am filled with rage that I just wasted 2 hours of time that I already do not have and nothing at all was done. So I say well I will need a rental- nope can't do that either because there aren't anymore! So I ask to speak with a manager, and I was introduced to Lynnette. She was nice, as nice as she could have been, and she said "oh don't worry we will take care of you". Well that could not have been further from the truth. Thankfully my sister was off and she picked me and my infant up and drove us home. I get a call that night from a service guy informing me that the whole thing was covered under my warranty and "you will be paying nothing out of pocket for this service" (like he was doing me a favor for a warranty that I am paying for) but in another breath told me that there is a high possibility that a part that they have to remove to fix the door lock may break in the process and if it does it is going to cost ME $99. I suggested that he

So happy with Renton CDJR today! Our 2017 dodge grand caravan gt just went over the 36k that the warranty covered and we had something in the door making a weird noise when locking or the lock getting stuck and slider door not opening! Renton CDJR has covered that for free! Then I had a piece of trim break at the drivers seat that had already been replaced while under warranty and it broke again and I just received a call saying they will be covering that for free! Thank you WENDY and bosses at Renton Cdjr!! You have made my day!!

002 : Unfilled promises / commitments

025 : Could not duplicate problem / condition

My daughter brought our new Chrysler Town and Country into Phillips for an oil change and a few minor things that were not working properly on the vehicle. The service person was Jeffrey Smith. My daughter felt like he had a "why are you bothering me" attitude when she asked to have several things checked out that I had spoken to the customer service rep about when I made the appointment. Jeffrey said he only had it down that we were getting an oil change. She felt that since we were not paying for things since it was all under warranty she was taking up his time. She asked to have the driver's side window checked because it was rattling when she closed the door and the back passenger side door didn't open from the inside, she had to open it from the front panel, and the idle felt very rough. He said the rattle was coming from something we had in the back of the car, the passenger door worked fine, even though she didn't see him check it, and it is still not opening from the inside, and the idle was the way it should be, again, even though she didn't see him check it, and it's still idling very rough. Also, she forgot to ask to have the tires rotated and no one even suggested it even though that is usually done when you get an oil change. The whole experience left her feeling like we made a mistake purchasing the vehicle from Phillips.

To begin, I got an email (from my "salesperson") saying it was time for service. I clicked the link and made an appointment noting oil change and noise on sliding doors. I arived at service at my appointed time only to find out that the email had linked me to Fermann Buick service, not Chrysler. They didn't have my appointment on he Chrysler side but accommodated me, however, my normal advisor was too busy. When it came time to pick up the car, I did so only to find that they had left the protective materials in the car and apparently hadn't checked the noise

My name is [redacted] husband and my self own the van I started to have problems with the door lock on the left sliding door, my van is only a few months old and it's a 2016. I called the dealership to make an appt to bring it in because I live almost 2 hrs away and was told I don't need an appt and I made sure and told them [redacted] and I have an appt and they still said i don't need one. I was also told that he already knew what the problem with it was and it would take about 2 hrs to fix. when I took it in I was taken to a doctors appt and when I got by I had to wait and the driver came and told me my car has been ready the lady Kelly couldn't even pick up the phone and call me herself because it had been ready for a while, and for them to just look at it and not call me that all took 2 hrs. Then I was told they would have to order a part and I would have to come back in a few days, mind you I live almost 2 hrs from town. Come back in a few days dodge better pay for my gas. NOT HAPPY AT ALL.

The original problem was the back passenger door buzzing when I locked it. I think they should have ordered the door actuator a week before when they first looked at my vehicle, but the service department felt that they should trouble shoot the problem more thoroughly before making a final decision. I did get my oil changed that day so it was not a complete waste of time.

001 : Negative/rude treatment by staff
042 : Experience: took too long
first time service, I had been told that my tires had to be rotated despite the mileage was not over 3500, then I have to pay for. second service , I had been told that the service would be taken for 4 hours, finally I got my car back after 7 hours. I phoned them during service to find out when would be finished. the person who spoke to me was very impatient and rude.

I has a few less features than the 2008 Grand Caravan SXT it replaced but the prices were similar (adjusted for inflation). The sliding doors make too much noise. There are a few more rattles than I like to hear. The engine and transmission aren't as smooth as the competition.

First off your sending me this survey and you haven't finished my vehicle yet. Second of all the first time I dropped off my vehicle my door wasn't fixed cause it jammed on me 2 hours after paying the Diagnostics test fee. I called back to ask can I bring it back because they didn't fix my my slide door because it's stuck again and I also told her that my lock system is still making a loud sound when I try to lock or unlock the van. Relene, said I could bring it back so they can take another look. I then asked her " would I have to pay another diagnostic fee if I bring it back" and Relene said "No ma'am just bring it back and we'll take care of it" then I stated to her "great because I just payed for a test that wasn't properly done, the technician assummed that there was a diaper stuck in the door which caused it the jam and never checked my lock system. However the disappointing part is that Relene didn't follow through with her claiming that I didnt have to pay another diagnostic fee after the Warranty company stated that they would pay for the Lock system to be replaced she added the diagnostic fee to my bill, but the Warranty states they wouldn't pay for the Diagnostics test fee. Relene then called me to tell me that the Warranty company would pay the whole cost of repair. Long story short, she forgot what she promised me and then tryed to charge the Warranty company thinking they would just cover it and they wouldn't. I refused to pay another diagnostic fee so they are taking it off. Which I am happy about that but I haven't received my vehicle back so I can not tell you how satisfied I am yet. I'll be glad to do another survey once I receive my vehicle.

024 : Parts not in stock

042 : Experience: took too long

My first complaint has to do with the amount of time I had to wait for the part to fix my door. I realize it was not entirely their fault since it was back ordered, but almost 3 weeks with a door that would not open at all is unacceptable. If there had been an emergency within the van I would have Never been able to get my son out. When the part finally did come in, the service department pretty much trashed my van putting the piece in. I showed up to get the van (thankfully with my father) and all the seats were down. The car seats were thrown upside down in the back. I had to let my dad drive it home because I had no where to put my children. It honestly looked liked the police had done and search and seizure on it. Brian (I think that was his name) was very apologetic and assured thay it would be put back together the next day. I was thankful for that, but obviously annoyed because it was a complete inconvience. They said they would 'clean' it all up for me as a way of apologizing, but honestly it appeared as though they swept the carpet and that was it.

I had a warranty issue with my 2016 van; a right rear door lock malfunctioning. I contacted the service department and Taylor promptly scheduled a service appointment for me. I arrived at the service department and my problem was diagnosed, and the service staff was able to obtain a needed part from a Ft. Thomas service department to resolve the problem the same day. This was a priority for me as my [redacted]ar old grandson travels in his car seat located next to the malfunctioning door. For this reason, it was a priority for me to have the issue repaired promptly.

1.) less than one year old - needed lock replaced on slider - door wouldn't open not even manually. It should fail-SAFE, not fail-burn to death in a fiery accident trying to open door. Search of internet/youtube shows that this lock failure or possibly the wiring to the door is common problem in these vehicles for many model years - I'd think you'd have a fix. 2.) not enough cup holders might be able to squeeze another in center console, additional on door, dash left over vent. 3.) Having to move driver/passenger seats forward to fold down second row is wack - it needs to work with those seats all the way back. 4.) Maybe I don't do it enough but your numbering is unhelpful for pulling straps to get the seats to fold in the floor - it needs either two sequences (different colors one for put away one for take out) or idiot-glyphics to show what latch is being actuated. 5.) Maybe easier way to remove (unbolt) stow away seats they are heavy and it might be nice to take them out to conserve fuel (man this thing is a pig at 6,000+ pounds the 2003 caravan was 3200 ish?, my gas mileage sucks) - best if an after market hand truck to seats inside house and a jig so they could be functional while not installed in vehicle. 6.) Transmission - sometimes putting in reverse feels "mushy" - had a 2003 caravan and sometimes it wouldn't reverse and had to be put back in park then in reverse before it would go... this 2016 feels like it is "about" to do that, but so far so good. 7.) Dimmer control - sucks! needs to be a dial like on the volume for the radio... or like the steering column volume buttons up/down: it is very hard to get precisely the right level because of the control style. Also, it needs to work even when the head lamps are off or there should be a button to switch between what the interior dimer level is for headlamps or no headlamps - lots of problems right at dusk or on rainy days getting right dim level. 8.) map/dome light into my eyes... no bueno - had to install a clip on LED light on one of the vent louvers to shine down on my mileage log .. the map lights don't direct light down to the console... totally useless... unless killing night vision is a feature.

brought the van on for oil change and to fix the side door lock actuator which was going out. While taking the door apart the tech broke a piece of window molding and I was charged to replace this piece. I bring the van always to dodge for repairs based on the assumption that these techs are the best. and he brakes a piece and I'm liable for it. I can get that type of service at any mechanic. I excepted more from dodge, especially as this is my 3rd new car purchase from you.

Score: 07 (Neutral)

I have owned other Dodge Vans with no issues. This van has had issues. I went to Florida on a trip and the passenger side sliding door lock shut. I had to take it to the dealer and if was fixed. I had an issue with the vans blower for heating and cooling. When I first mentioned it I was told it could be leaves that got in around the blower. I didn't do anything at the time. The blower was noisy at high speed. The dealer got me a rental van when I had the sliding door repaired just like mine and the blower was quiet at high speeds. Therefore this last servicing I asked to have it checked. The blower motor was replaced because it was not properly balanced. I am glad I got it fixed while in warranty. I noticed that the locking posts on the front doors are at different heights - the driver side post is below the surface and the passenger side is up about a quarter of and inch. I am beginning to think that the car I was sold is a second (all new but has minor flaws). I am beginning to lose confidence in the quality of these vehicles. I bought this van because of the success of the other vans and the Dodge Ram 2500 truck I owned.

Q3 Please rate your satisfaction with your experience at LONGLEY BROS INC on a scale of 0 to 10.

Score: 09 (Promoter)

I brought the van for servicing without an appointment. The service rep took me in and when I mentioned the blower issue and that I wanted it taken care of before the warranty runs out his response was "absolutely". He came back to the waiting area to tell me about the motor being out of balance and would replace it.

When I initially brought my van in for the sliding door noise, I was told the part needs to be ordered and it'll take a week. Weeks passed and I was never called about my part arriving. I made the call and was told they had my part. Why wasn't I called??? I made the appointment to have my part installed, my charging dock in the third row repaired and an oil change and tire rotation. The entire day goes by... I call at the end of the day to find out the status of my van. I was told it is ready to be picked up. Upon picking up my van, I was told the part they ordered for my sliding door is incorrect and it'll take a couple of days to get the right one. I was also told my charging dock was fixed and the reason it was not working was there was a shortage in the power lines. (My charging dock is still NOT working)! Here I am weeks later again and I called today to inquire about me sliding door part....it's there at Gary Matthews. Once again, I wasn't called. I had to be the one to follow up. it didn't take a couple of days to get the part by the way!

Q2 Please rate your satisfaction with your TOWN & COUNTRY TOURING on a scale of 0 to 10.
Score: 02 (Detractor)
I have leased many town and country vans in the past. This time I decided to buy. My hood has had to be replaced due to rust, my trunk now has rust. My radio or connection to the radio only works some times. This means that my back up camera is only displaying some of the time. And now my rear sliding door makes an awful buzzing noise when it locks. The van is 17 months old and has just under 36000 miles on it. I'm afraid of what's next when the warranty runs out. Also the drivers sliding door wouldn't unlock the other day. I took it in for repairs. The dealership ordered a new radio. Not sure if that will fix the problem though or if there is some kind of issues with the connection leading up to the radio. Also I was at the dealership for 5 1/2 hours while they "fixed" the lock issue with the sliding door. Right after they claimed to fix it I Vogt my key, started the engine, pressed the lock button from inside the vehicle on the drivers side and the exact same noise still existed. No fix at all

The car is good. What isn't good is that I sadly married this agency by getting the extended warranty. I will have to come to this dealer until it ends! I'm already tired of the bad, terrible, and low quality service they provide. Also, they always try to fool me into buying more. It's unbearable and very disappointing.

One, they made me wait five hours and 30 minutes by lying to me. Phrases like, 'Almost. Just a little longer. Thank you for your patience,' et cetera. Two, I supposedly applied for a deep clean, hand carwash, or something like that, which I received as a reward from you all. It turns out that they don't vacuum under the common mats. They didn't wash the inside of the windows. They don't vacuum the cup holders, et cetera. Simply, bad service, as everything else is as that place! Three, the previous service of putting water into the windshield wipers, where there should be a liquid with soap. Because of this previous experience, I asked them to please not put water into that deposit! It happened again! They simply put water into the windshield wiper deposit! They do what they want. Four, the door behind the driver had a weird locking sound. I asked them to check it. They told me that a part had to be replaced. They said that was fast! I said, 'Okay, do it and give me the damaged part at the end, or at least show it to me.' What happened? They pretended to be deaf! They made me wait five hours and 30 minutes. They didn't show me anything! How did I feel? Fooled, defrauded, and as always, lamenting being at this dealer! Five, at the end after all this wait, discouragement, and lies, I asked the analyst or agent that was helping me to give me, like I always received, the inspection report, which is done for every car service! What was the answer? 'I'm sorry. I've lost it!' That they lost it! That they didn't know where it was and to forgive them! Really? Garbage of a moment. I couldn't even get the 19-point inspection. I reported something of this visit. Simply, because of ineptitude or lies from you all. I asked if it could be printed or if there was some copy! The answer was, 'No, sorry.' I felt so much impotence and sadness at that place. Personally, I'm sad of my decision to marrying this dealer. I will look for a way to go someplace else and never recommending or mentioning this place, which is so embarrassing and with poor customer service. They don't value their clients, their time, or loyalty. Thank you.

I dont know where to even begin. Door locks were making a horrible noise, lots of rattling on front end of car when driving, and paint issues on hood of minivan. Sean from service Dept did not keep his work and do what he said he would do over the entire 3 Days they had my van. He said he would call and keep me updated. Never did. I had to call him all 3 days to find out what was going on. They didnt have the part for door locks and kept my car for 3 Days! Finally got my car back. Went to look at it, and the technician left adhesive all over outside of the sliding door on the paint. How couldnt he have seen this. Then look and see that he didnt put a part back on correctly on the door and it was sticking out. They brought van back inside and said they would have to order that part because it wasnt sticking on the way it should. I would have to bring it back AGAIN!!! They said I should get a call back from them in 5 Days regarding paint issue, never got a call back!!! Then, after I was driving home, realized that after they took door apart to fix the locks, they broke the window. Now the window doesnt work or even go down!! I called back and they said I would have to leave it again for several days. I asked for a loaner car since now I would be out of a vehicle for something that wasnt my fault and they already had it for 3 Days. I was told none were available. I said for the next 3-4 Days nothing is available? I was told no. Unacceptable!!! I am at the mercy of them since they didnt do a correct job to begin with. I asked for the service manager to call me back. David called me yesterday and I told him how unhappy I was and that I needed a loaner this time. They didnt fix it correctly the first time and now broke my window. He said he would call me today at noon, never got a phone call!!!!! Horrible!!!!!

Let me start by saying I am a very busy mom of [redacted]o be without a vehicle is a struggle for me and to make time to bring the van in is a an ordeal. But the repairs needed to be addressed. I brought the van in again for the 3rd time to have the the passenger side sliding door repaired (lock does not work and the door does not open when it's supposed to), the back tailgate repired (does not go up all the way and I continue to hit my head on it) and the dash continues to say the the remote battery in low after i have replaced. Dropped off the van for the day and husband picked it up for me. I got home and nothing was repaired. Asked my husband about it and he said that they said that there was nothing wrong with the can. ****If you can help me get these repairs made that would be great! HELP!!

You need more people like Dusty Rose. Seriously, I try to skip other agents. Dusty is a car guy and he's a people person. This was actually my third trip to the dealership to repair this issue. I was so happy, based upon prior experiences, that I got Dusty. He's knowledgeable. He knew I was a car guy and not simply blowing smoke. He assisted the tech and found the issue and ordered the part immediately. It's rare to find someone like Dusty. Do all that you can to retain him.

I have been doing business with Hebert's Town & Country for about 9 years now. They are always eager to take care of their customers needs and this time was no exception. My back door on the passenger side would not lock. They had to order a part and I had to leave it overnight, well 2 nights. My service clerk was such a nice young man and kept me informed on the status of my vehicle until it was completed.

While there are many bells and whistles and the van is roomy and convenient, little problems keep happening that makes me question the quality of the vehicle. For example, in just a short year we have had to have the automatic start repaired and the locking mechanism in the sliding rear door.

Van was looked at in October and part was ordered. Part finally arrived in January and appointment was scheduled. I had been told it would be possible for me to have a vehicle to drive because I have [redacted] Called and rescheduled appointment due to weather and confirmed use of van. Arrived for service. Dropped van off at 10am and was told there was no vehicle for me to use and that they would have the van all day. My husband had to leave work and we had to put all [redacted] ildren in the back of his car, one riding without a car seat and drive to hour home 40 minutes away. Recieced a call around 2:30 that the van door seemed to be working fine. I explained that it was not and I had been waiting 3 months for it to be fixed. 30 minutes later I received a call saying that the part was not in and I still havent gotten an answer as to what happened to the part or why I was told 2 weeks prior that it was there. The issue has been resolved and the door is working fine, but I was extremely frustrated with the lack of communication between personelle and then with me. My time was not valued, and I felt that I was told the door seemed to be working fine as a way to cover up that the part wasnt there, like I would just believe that the door miraculously starting working again. Total disrespect of my time, my intelligence, and my patience.

My left sliding door would not open, with my first visit they took the door apart and found out they need a new part. When the part arrived, I made a second appointment. They replaced the lock and I thought that it is. Now when the car doors lock, there is a funny loud noise. I will call Michael but was not able to get to him, to check this out. I will try next week again.

Lack of communication and vehicle is still having issues My vehicle was dropped off on a friday February 2nd, the evening before the day it was scheduled for service Saturday February 5th at 9:00 am, and I never heard a word about what was wrong with my car. I had to call the dealership myself Saturday afternoon and was told it was on the lift in the shop and someone would get back to me within the half hour. No one called me back and when I called again later on, I was told that everyone was gone for the day. Since the service department was closed on Sunday, I was left without a car for the entire weekend and would not hear back from someone until Monday morning. I had to miss a day of work on monday due to no transportation. After many attempts with Sonny, a sales manager, I was told there was not much I can do but wait until service reopened on Monday. I eventually heard from dave in service on Monday after a few phone attempts, and was told that my car was still being looked at and wasn't sure what was wrong. He called me back later on that day and I was told they had to order a part and was offered a service car that I had to go pick up since I had purchased my vehicle at that dealership. My car wound up being there all week (10 days in total) and was finally called the following Monday February 12th that it was ready for pickup. After all of the waiting and runaround i was still expected to pay $55 for an oil change. I was so frustrated that I just paid the money and picked up my car. The following day I am still hearing a grinding noise from the same door that was supposedly fixed and from time to time the door will not open with the remote key. I called the dealership today to let them know that it may not be totally fixed, but Dave in service was not there today. I was told by the receptionist that the only thing I could do was to leave him a message and he will get back to me tomorrow. Here's waiting....

The Van was very possibly wrecked b4 I bought it and I was not informed. The rubber has come loose around the windshield and I had to have that repaired. Crown Bristow replaced some parts for me that were apparently missing. After the first few washings numerous chips appeared in the paint so it had obviously been very poorly touched up. Also the automatic sliding door on the passenger side did not lock properly. Crown Bristow gave me an estimate to repair it for $600. which is not in my budget.

My husband brought the van in because the driver's side passenger door would not open. They diagnosed the problem after one day, ordered the part and he brought the van back in approximately 1 week. The part was installed and when he checked it it worked. Two days later the door would again not open. I also noticed at this time that the cover was not put back on the door. My husband has called every day since Tuesday, 3/20/18 and had to leave a message. To date there has been no call back. This is not safe for any passengers.

The technitians don't seem to be very good. With my last car, I thought it was a lemon because I would bring it in for repairs and then something else would go wrong. So I bought another brand new Dodge Caravan. But there was a problem with the sliding door locking system so I brought it in to be repaired. The King Auto technitians broke the door window while it was in for repairs. They replaced the window, but then afterward the door lock made a terrible loud noise as if the wiring was messed up. They were supposed to call back to schedule to fix it. But they have not called back. Very disappointed with their lack of service. They messed up something with the electric and have not been forthcoming in fixing it. Double thumbs down!!

My transmission completely went out at 56,000 miles. Also, both sliding door locks are broken and this vehicle is only a 2016. I feel that this is a very large safety issue that should be a mandatory recall.

Because my car is under extended warranty but when I took it for repair your service rep JP told the door opened up did not need a new part and we lubricated the door. I opened it at the dealership it worked but when I got home it wont open. He charged me $125 plus tax for doing nothing. The thing made me more mad is that I had JP to change the part he did not and charged me more than my deductible. I called the service department wanted to talk to his manager Lou I had to force him to come to the phone and he said I can come back he will have the right part for me and take care it for I went there and waited for an hour and half to find out that they did not have the right part it is on back order and dont know when will it come in

Within the first week of ownership the rear seat broke, took almost 2 months to get the part. We have had the passenger side sliding door in 3 times, the last time they replaced the hinge and it is making the growling noise again and the driver side has started as well. Recently the driver side door froze locked and had to have a new switch installed.

The van is 2 years old from build date and so far since I've owned it a transmission seal has had to be replaced, as well as both lock actuators and door slide rollers on the passenger side sliding door. The transmission seal was at around 35k, the door rollers at 40k, and actuators at 50k. It seems a little premature to me to have these types of problems. My low rating of the van is concern for failures due to the problems we've already had. There are things I do like about it, such as the stow and go seats, I do like the auto doors, and those conveniences, but I really want durability also.

When I first purchased my van I noticed issues with my driver side back sliding door, took it in and was told no issue. Shortly afterwards the door completely stopped opening and lock appears jammed. I was really frustrated and didnt go back immediately to have it looked at. When my oil change came up I took the van to Pittsville Motors and was told I had to call a Dodge dealer. Once again frustrated I didnt follow up until bringing my van into Millsboro for routine maintenance and now being advised $250 just to look at the issue. When researching this online it appears this is a pretty popular issue with this van. This very discouraging.

Having trouble with both sliding doors. Have scheduled another appt for driver side sliding door not opening. Same problem as last week, will not open either manually or with push button. Very inconvenient, as have two small grandchildren and cannot get to car seat on that side. Passenger side sliding door has irritating squeck

It is much bigger than my previous Chrysler van. That is not a plus. It has far more 'bells and whistles' than needed. The electronics are not always reliable - the back vent will randomly come on, on high setting, for no reason. With no rain and no change from the driver, the windshield wiper will activate once for no reason even in the off setting. The touch screen display requires more steps, distracting the driver from the road. After physically pushing the power lock button, and exiting then using the key fob lock, at times you can still pull on the handle of the back or side doors and they will still open. Unreliable wiring or chip programming. More is not necessarily better. Dealership service department was great though.

From the minute I spoke with the receptionist I was pleased with my experience. There were no more openings for repair that day, but one side sliding door on the van would not open, which rendered our van useless, since we have to get both boys into their car seats and a door not opening prevented that. She worked hard to fit me in and did so, if I promised to come in right then, which I did. I met with one repair associate first, who wasn't all that nice, but was fine, and then I was transferred over to Nick and I honestly could not have been more impressed and appreciative of his service...WOW! He was kind and patient, despite how incredibly crazy the service drive through was that day (Friday before Memorial Day weekend). He assured me that he would take care of everything and would even try and get it done that day. I gave him my keys and minutes later I got text from him alerting me of service and the mode of communication, which was very convenient and appreciated. He texted me updates throughout the day, which was good because I had the kids and took the day off of work. And he got the van done the same day. Upon driving the car home on the highway, the door trim from the repairs door flew off and was lost in traffic. I took a couple pictures and texted back Nick at the generic number I was provided. He said, it was after hours but he would look into it first thing the next day. Sure enough, when I woke up there was already a text from Nick confirming that they had the door trim in stock and I could come right over (at my convenience) to get it replaced! I was so grateful. I drove over, a mechanic ran right over, grabbed my van and off he went. Minutes later he came back with the door trim replaced and looking great and he even reset a gas cap sensor that had popped on in the car dashboard. It took no time at all and I was home within the hour. It was one of the best car repair encounters I think I've ever had. I'll definitely be coming back to Errigo and Nick!

I like the design, and the red stitching over the black leather seats is very sporty. I also like how user-friendly it is and the versatility of it. However I do have some negatives to mention. Sliding passenger door on the driver side froze up in the lock position not being able to open it manually or any other way. There is a glitch in these cars that as you're driving it gives a little irregularity or bump like in the engine I have driven others and experience the same thing. The other glitches as you are turning and putting on the signal the windshield wiper comes on once. also another glitch with the radio system all of the sudden it just shuts off turns off. But I have to say I do like the van. And I am, I must say a very good spokesman for your brand I wouldn't mind being contacted by Dodge directly and see if we can work on some of these things or try additional things with my car or future cars. I happen to use it for a car service so it would be or I would be rather, a good person to test newer models or other features on. I save this sincerely, not trying to take advantage or get any freebies.

I had a Jeep Grand Cherokee and that truck lasted me lots of years, of course, providing adequate services. I decided to purchase a Dodge Caravan because one day I got it at Enterprise and I liked the commodity and most of all, how spacious it was for my family. This is the third time, in a year, that it has electrical problems on the sliding doors. First, a noise on the right sliding door when you'd open the door. Then a few months later, the front left sliding door, couldn't take the lock off the door; it got stuck and I couldn't open the door, not even manually. A few months later, there was a noise on the left sliding door. I purchased a new Dodge Caravan because I wanted protection for my family, my kids. I thought, new car, no need to worry about anything else but just the oil changes and rotation, but everything was a mistake. In a year, I've taken it three times and even though they've treated me excellent at the dealer, unfortunately, my Dodge Caravan has so many issues.

032 : Rear Window Wiper/Washer - Broken/Not Working
I just purchased the vehicle in January as a certified preowned vehicle. Since then it has had to have 2 scheduled services appointments for a crack in the windshield at time of purchase, 2 occurrence of the actuator in the same door is needed to be replaced, value tapping which I was instructed that would have been there and ignored at time of certification, and a noise in the steering wheel when turned to back- plus a second key and owners manual was not given by the dealership. It has only been a few months! I love the features and versatility of the design, but I question the available life of the vehicle!

My wife and I had a bad experience with your service department on Friday July 15th involving multiple mistakes. On the evening of Thursday July 14th at approximately 8:45 pm our 2016 Dodge Caravan was towed by Flloyds Towing of Cahokia Illinois to your location. Flloyds Towing was dispatched to us using the 1-800 number provided in our warranty information from you. The following morning of July 15th at 7:17 am my wife [redacted] ontacted your service department and spoke with Pam recapping the prior night's events, explaining the van would not start and also requesting a buzzing noise be looked at when using the automatic locks and side door controls. Pam stated she would have someone call us back once the vehicle was processed and pulled in. At approximately 1:45 pm on Friday July 15th my wife [redacted] called your service department to check on the van because no one had contacted us. She spoke with a service writer named Dave who told us the van had not been looked at because they did not know where the key was...which the tow truck driver stated he had put in the drop box. My wife then asked why no one contacted us to tell us there was no key. She asked why we had to call to find that out. Dave stated he had no answer for that. At approximately 2:30 on Friday July 15th I arrived at your service department with my children and our spare key. I asked Dave the service writer why no one contacted us about the key and again he had no answer. I explained the tow truck driver (Bernard) from Flloyd's Towing had put the key in the drop box when he dropped off the van which Dave said did not happen as there was no key on the shop floor that morning other than two keys for other vehicles. I requested to speak with a service manager and was directed to Curtis. I explained the situation and he assured me they did not have the key nor was it dropped in the drop box and the driver most likely "lost it and did not want to pay for a replacement." He also stated Dave told my wife when she called at 7:17 am that they did not have the key. This was impossible though because my wife spoke with Pam. I left my spare key and went back home and called Flloyds Towing at approximately 3:15pm and spoke with Sherry the da

I brought my van in for my sliding door not opening. I also stated that the autolock was making a noise before it would not unlock. My wife picked up the Van after the service team got the door opened. We were told it was working perfectly. However, when she picked it up, the lock was making the same noise when it closed. I paid $150 and I still have my original problem. I could not leave my vehicle with them since I was going out of town for vacation. I will he bringing in Back in for a second attempt to get it fixed. I expect the $150 i already sent to go towards a permenant fix.

A simple lock actuator needs replacing, I bought an extended warranty, but since they must bust a trim piece to replace it, I must pay $100 for the trim piece as it is not covered in the extended warranty Connors sold me. This is in addition to the $100 deductible. I left my car at noon and came back hours later to find this out. Should have been told about this fact when I made the appointment for a door lock that didnt work!

Wasted my time by not telling me potential outcomes to remedy my situation. Had I agreed to the $200 cost to replace (even though it was covered under warranty), I would have had to come back the next day as Connors did not have the part! Again, I made an appointment for a passenger door lock that did not respond to the fob command or the switch in the driver armrest. They should have ordered the part then and return it if that was not the reason!

The vehicle was taken in because both driver and passenger side sliding door locks were not working properly. Only the driver side was fixed because they said they couldn't replicate the issue on the passenger side. One or two days after the vehicle was picked up the passenger side had gotten worse and will have to be taken back again. I am now inconvenienced again to take the vehicle back for something that should have been fixed the first time I took it in.

I have taken my vehicle to this location for an oil change twice. The first time, the door lock on the passenger sliding door had an issue. After it was determined to need fixing they contacted the warranty company and said I had to pay out of pocket. I scheduled an appointment then left. I knew something wasnt right so I contacted the warranty company myself. They did cover that part! I returned to explain that I wasnt paying for the part the warranty would. After returning to have this issue fixed it turned into a fiasco. Days went by before it was ready. Then when it was ready to pick up the new part didnt work so they had to reorder another. They gave me a loaner vehicle (which was filthy). Almost like it was someone who worked theres personal vehicle. The second time I returned for an oil change, after contacting several other places(determining that I wanted to stay with Mopar because I travel the country at about 30k miles a year). This time things were going fast and what seemed smooth. Until they brought an cabin filter in covered in debris. Cost was $45. I said no thank you because I could do it myself in thirty seconds for $12. I received my vehicle in about five to ten minutes later. I found a pile of debris laying on the floor(I just left the car wash and vacuum upon coming there). I opened the cabin air filter to find it turned sideways and jammed in so tight it took two hands and a lot of force to remove it. There was a loud humming when the ac is on right away. I quickly returned to let the lady, who scheduled the oil change, know. She offered to have the mechanic clean up. NO WAY! I wasnt going to trust them after this(two trips and two problems) Within two hours there is smoke and a strange smell coming from the ac. I had trip long trips since then so I have not had it fixed. However the ac will not work sometimes and when it does it now blows smoke(or what looks to be smoke) when it rains or is humid. It also makes noises which sound to me like a leak(sabotage?) and it is not very cold unless you have been driving. There is a very strange smell almost like a chemical smell right before the ac stops working or when it is about to start working

On the warranteed door lock actuator, I had to pay $250 for the exterior plastic window accents they broke removing them supposedly so they could get to the actuator. On the non-warranteed folding seat release cable, it cost me $500 simply to replace the broken one. I am dissatisfied with the vehicle for these things breaking, the warrantee and extended warranty for inadequate coverage, and the exhorbitant costs to me for what should have been simple repairs.

The drivers side sliding door no longer works.. its is completely locked up and you cant even use it. In order to get it fixed I was told it would be roughly $1400.00. I hadnt owned the van a year when this happened.. at the time the car was just two years old. Now I have a van with [redacted] and one working sliding door... if parts are going to go bad that quickly and not be covered I wouldnt recommend the brand to anyone.

I took my car in for a door repair on my right passenger sliding door (would not lock). When I looked in my car the next day as I was leaving for a trip, I saw the problem. There were 2 big spots of BLACK grease on my leather back right passenger seat. There was also black soot looking substance on the carpet. I called and took it back on Tuesday, July 10th. I waited while it was being cleaned. When the service technician opened the door after cleaning, the black mess in the carpet was cleaned, but the seat now had a grease stain on it. I was asked to bring it back on Monday, July 16th so the professional could try to clean it. This will be 2 extra round trips at 20 miles per trip (40 miles). That is 2 gallons of gas, my time and trouble for going back. I told the service technician if my seat is not stain free, that Piedmont Chrysler will install a new seat in my van. I am also out $100 deductible for the repair.

Had a sliding door fixed that had the lock actuator frozen in the locked position. Was informed to fix it the door had to come off, makes sense, however they had remove an exterior trim piece that most likely would break. If broken, which it did, I would be responsible for paying for that part. I do not agree with this. Under warranty, extended warranty, or not.. if the approved fix is to possibly break something I would expect that cost to be put on whoever broke it. Was Chrysler support contacted to determine other alternatives (possibly cheaper)? What if ripping off the interior panels to the door were cheaper? I was not given any options and felt duress to let them do it to finish the fix. Later I checked EBay and that exterior trim part was much less than what I paid. So I should have said leave it off and I'll buy the part myself and put it back on.

Town and Country (2016) developed an issue with the engine light going on and off. We called the service dept. Was told we would have 2 wait 3 weeks to come in. 2 days after making the appt with the service dept, the Town and Country developed an issue where everything on the dash panel was going off and on. The speedometer was spinning. Called the service dept back and still had to wait 3 days before we could bring it in. There was also a non warranty issue with the passenger sliding door. It would not lock. After having the a few days we were told told that they had to order a TIPM for the panel and they would repair the door. They kept the car 2 weeks. They repaired the door lock and we had to pay for a broken piece on the trim that had to have been damaged during repair because before we took it there, the door had no damage. We paid our deductible for the TIPM repair. We drove the car through the weekend and it was fine, Monday morning and it started doing the same thing with the flashing panel. Called immediately and were told to bring the van back after I got home from work. I walked in and the service dept person who was there at 5:00pm stated that she was not told were were bringing the van and no one told her that we needed a rental car. I explained that I had spoken with the person on my service team in the morning and I was told that a rental would be waiting. I had to explain again what was happening with the car. The person at the counter could not look in the computer there to see what the previous issue from 3 days prior was. She was totally unhelpful and unfriendly. I mentioned that the manager of the service dept was also notified that morning by a salesman and she just said he wasn't there either. The whole process is frustrating and now the van is there again. They have had it 3 days and we have not had a call to let us know what is going on. I would not recommend this service dept at all nor the Hampton location. The sales staff at both locations are great, but they loose customers due the poor service depts.!!!! Truly sad. We love Chryslers but the service is awful!!!!!!!

Right side sliding door lock failed just after warranty expired. Dealer estimated $950 to repair. I repaired for just over $100. Seems dealer markup is extreme. At 52,000 miles the oil change ticket recommended $525 injector system cleaning and automatic transmission flush. Factory recommendation on transmission flush is 120,000. Seems very early to recommend this service.

This is my 4th suv/mini van. I am still driving my 2006 dodge grand caravan, so when time came for a new car, we got a 2016 dodge grand caravan. WE like the ride and versatility of the dodge mini van, and have good luck with them so far. BUT! sliding doors on newer dodge we have make way too much noise.

my sliding door wouldn't open from inside the van and had to get a new actuator to have it open. Felt this should have been a recall issue because it is a safety issue that someone could be locked in their vechicle and be able to open the door to escape.

I received a message about a warranty issue. The slide door locking actuators needed to be replaced. In order to get them replaced I had to authorize the mechanic to break Part #5020669AA (2 required). This costed $328.00. Why would Dodge make a product that had to be broken in order to be fixed? It sounds like extortion. The slide doors do not have an emergency release button. My Grand Caravan's slide doors would not unlock which is a safety concern. Everything else was covered by the warranty except the 2 pieces that had to be broken. I have the voice messages from the dealership that state this very thing must happen. If I would have said no, my children not not be able to enter or leave the vehicle. The car broke while away and the lift gate was the only means of access to the back seats.

First, to state what we brought the van in for, which was an issue with both sliding doors. The passenger sliding door did not lock for a few months, but otherwise functioned properly. I finally got it to lock, but it then resulted in a buzzing sound when it unlocks. To my unprofessional opinion, this seemed like an actuator issue. On top of that issue, within the past 3 weeks, the driver side sliding door started to not unlock. We can not get it open whether using the power unlock method or turning the power off. Upon the diagnostic review, we were told it would be $2800 to fix both doors, which seems like an amazingly large amount when considering the value of the van itself. During that conversation, we were told they took apart only one door to diagnose it, and that an assumption was made on their part to believe the other door was the same issue. I believe they stated it was a seized motor, which may make sense for the door that does not unlock, but does not seem to be the issue with the door that won't lock since it opens/closes fine. We were however charged 1.5 hrs for the diagnosis. It would have been 2 hrs, but the rep gave us a 50% discount off one of the doors. As I was frustrated already with the service, I did not question the fee at the time. However, upon thinking about it, I did not know that diagnosis' were made based on assumptions and without looking at the 2nd door. We should have been only charged 1 hour in my opinion. Having said that, the service rep was less than comforting while discussing a $2800 fee to fix two doors. No options were presented and it was take it or leave it tone. As one of the doors is "frozen" in the locked position, I was hopeful she would have at least offered an option to get the door unlocked, even if the issue wasn't fully resolved. At least it would give us access to the door. Instead, we will just use the one working sliding door (passenger side) as it does not make sense to spend $2800 on this service. Needless to say, we are looking at estimates at other shops and considering possibly never getting it fixed and getting out of the van as soon as financially possible. Needless to say, we will not service any more at Armory. Even if the $2800 amount is legit, the tone and attitude and paying for assumption

Craig, Thanks for your text and for asking for my feedback on the service that was offered last Friday. I will try to detail my frustrations as best I can. 1. This is not a knock on your service department but more of a complaint to Dodge about the quality of their product. I have taken good care of the minivan I bought back in the Spring of 2017 with slightly less than 30,000 miles on it. I've owned a number of minivans over the years (Mostly Dodge and Chevy) and have been generally pleased with the vehicles and how they meet the needs of our family of [redacted] have NEVER had a door lock break on any van I have owned, especially not one that is barely 3 years old. I feel that a door lock is something that should last and should be built to last. Not being able to lock your car is a big problem in today's society. I was astounded to hear that the price to fix a door lock was $976. The fact that something like this is broken on a fairly new vehicle makes me wonder, "What else is going to break" and makes me have serious doubts about the quality of vehicles that Dodge is producing. I am further confused as to why the door is not able to be locked/unlocked manually (this seems like a design problem). What would happen if we were in a serious accident that damaged the driver side rear door and my kids could not open the passenger side because the door could not be unlocked even manually? 2. I brought the vehicle in and told the person helping me what the problem was. As I was looking over my bill and the "recommended services" (I'll get to those in a minute)I saw a line that states "Customer request a multi-point inspection". I know this is only $12.50, but I never requested a multi-point inspection (only asked for you to see why the door lock was not working). This seems like a charge that was just added to the bill and was definitely a service that was performed that I did not request. 3. I was given a list that seems to state that I needed to have the automatic transmission fluid flushed. My 2016 User Guide that was provided with the vehicle states that this should only be done if the vehicle was being used for police, taxi, fleet, or frequent towing. Otherwise it is recommended that this de done at 120,

My sliding door lock did not work. The repair would have been $1300. I was 96 miles over warrantee. I explained that I took it to my Chrysler dealer in Pennsylvania to have it fixed before leaving the next day for my house in Florida. They couldnt get the part in time and not realizing I would go over my warranty I left and drove 1200 miles which took me over the 36,000 mi warranty. Jose behind the counter at Spitzer suggested I call Customer Service and ask if they could help me. I spoke with a wonderful woman and she investigated and called me back to say that it would be covered. I thank you all - excellent service!!!

Kevin and the service team at the dealership were great. However, I took my van in due to what they found was a broken latch on the sliding back door. This is a manufacturing issue that should not be happening on a 2-year old vehicle with barely 45,000 Miles on it. This is not normal wear and tear and Im disgusted that I had to pay for a clearly bad part. In this case the latch broke in the lock position. What if it had broken in the unlock position while I was driving down the road? I have a young child that sits in the seat next to that door. I understand that parts sometimes get installed that are bad, however the manufacturer should be taking responsibility for their bad product- not charging me $500 to fix a part that was always going to fail!

Two things made this experience at the dealer dissatisfying. First, we were not greeted at all when we arrived by the service desk staff to pick up our van. The 2 staff members at the desk were either on the phone or with customers. We waited in line for 20 minutes while watching other service staff talking amongst themselves to the side. After 10 minutes I approached one of them and asked how to get help at the service desk. He pointed to the service desk where I had been standing and said that was the right place. When one of the service desk employees finally was freed up, he was very kind and helpful- just overworked. The second thing was that the repair we need on the sliding door lock appears to be a an expensive and widespread problem with this vehicle. Had we known Dodge vans had this tendency in advance we would not have purchased a Dodge. At this point it seems that this repair should be a recall item due to the number of people having this problem as well as the safety concerns it creates.

There are electronic issues that happen out of the blue. When I first got it the lift gate just decided not to open one day and then the next day it opened. Sometimes the defrost just comes on for the ac when I have air on. Now my right side sliding door won't lock unless you do it manually. You should not be able to lock your door with the fob inside, but I locked my keys in the van one day. There have been several times I will press the start button with my foot on the brake and it will not start. I just keep trying and eventually it will start.

It has been a problem since we bought it (new). Tire light was on, mats, remotes, and headphones were not included in the new vehicle purchase. Now a manufacture defect was not covered. The slider doors are making weird noises. Plus other problems not expected in a brand new vehicle.

I had this van 14 months when all the paint started falling off the hood and Dodge would only authorize a paint job instead of replacing hood. Then the transmission went. Shop had it for a MONTH! Got it back and wasnt two mikes from shop when check engine light came on. Now they say its a problem with the wiring harness. Been in shop all this week still not ready!! This is my fourth Dodge or Chrysler van. This will be my LAST!

The driver side sliding door actuator needed to be replaced. The sliding door on the passenger side has a buzzing noise when the lock is unlocked. My guess is that the actuator on the passenger siding door also needs replacement. This is a common problem. And should be covered by the factory even if vehicle is out of warranty.

I was not greeted when I entered the service bay. I wasn't greeted until I left my vehicle. There was no one at the service desk in the service area. I had pulled up into the Quick Lane Oil Change around 11:50am. There was no vehicle getting their oil changed at that time. There was no one in line at that time to get an oil change. I was told that the service techs go to lunch at 12 noon, so I could have my oil changed when I came back later that day. I told him I would stay because I had called and the person who answered the phone said that now would be a good time to come in since there was no one in line. The waiting room looked clean, but worn; the chairs have been there for a long time by the looks of them. Competitor dealerships in the area offer complementary cans of soda and popcorn. Pischke needs to up their customer experience. The last time I had my vehicle in to this dealership, I had complained about the passenger sliding power door. I was told they "listened" to it, but felt there was nothing wrong with it. Several months later, the door started to buzz every time the power locks were released. I took it back into this dealership and they told me it needed a new motor or actuary??? They told me to have it repaired would now cost about $500 as the vehicle was now past the warranty. They said the dealership would do nothing for me and they wouldn't admit to making a mistake with the diagnosis. As a result, I took my Dodge Grand Caravan to a competitor dealership to have the door repaired. Great Job Pischke! I could go into greater detail, but I won't. You get the idea.

Their customer service department is horrible. Since day one it has been a problem. My first time there was for an oil change. They dropped the oil filter in the pan which then got oil all over the engine and everything underneath. Never any kind of apology. Second, took car in for shifting problems. They pretty much had to rebuild the transmission. On my way home they the hose came loose that they didnt hook up and my transmission blew. I was left stranded in the dead of winter on the side of the road for over an hour waiting for a tow truck. Again, never an apology. I can go on and on. There have been several other times I've had my car in the service department and was treated very poorly and never any kind of apology for the inconvenience. At one point when I took my car in I was asked to bring my car into the service department to get information off of it (I was outside next to my rental so I could unload my car.... carseats) they have tablets to take with them for this reason. I then was told to drive my car through there service department so I could get back outside since a car had pulled in behind me. Pretty sure this is a liability. Anyway you understand my frustration.

Ive been buying Chrysler products since 1962-3. This t%c has had more problems than any car Ive ever owned. Rt sliding door was misaligned & no hooks for screen. Windshield washer was full of gunk. Lt sliding dr. got locked & couldnt get in or out.Passenger visor had to be replaced. The car lets in outside road noise. None of this should never happened with a Chrysler Town & Country!!

I have owned several Dodge vans, this is my first Chrysler. You can tell the difference in the ride and comfort. My mother is 83 and LOVES the heated seats. The van is a little hard for her to get into, she uses a stool, but other than that we are completely satisfied. Well, my door locks are making a noise every time the door handle is touched, that is annoying at best.

Took van in for passenger side sliding door problem. Only when unlocking, it would make a loud buzzing noise. Had a recording of buzzing noise show service department what it was doing. They kept us there for an hour and then came to tell us that they did not fix the problem! They said they could not get it to duplicate that buzzing noise and so they greased the bottom sliding door tracking!! We had no problems with it sliding! It was a loud buzzing noise when we would unlock the door! So they sent us away and said when it happens again to call them and bring it back in. So now we have to drive another 20 miles back in another day because they sent us away instead of fixing it. Courtesy did this to us another time when we owned a caravan. It had a recall on it and they refused to fix it because they couldnt catch it in the act and duplicate the problem! Put us in danger not fixing the problem!! So it forced us to get rid of our caravan that we loved! Very upsetting!

The lock on my middle door broke after 2 years (50,000 miles). Chrysler corporate customer relations decided in one day to pay for the total cost of the repair. Service manager at Brubaker also looked for ways to save me costs. Original cost of part assembly was around $500. He look to see if only putting in a motor rather than the whole assemble would work. It did and would have save me $350 in cost. Great jobs by both areas!! And much appreciated!

The oil change was fine. The adviser was fine. But I wanted to find out why our passenger door would not longer open. The tech confirmed what I thought it was and said it would be $1000 to fix including a $550 part. But I was able to buy the same part on Amazon for $50 and pay a different mechanic $240 to install it. Why would I EVER bring my vehicle to the dealer for a fix when it is more than twice the cost to fix it? Get your heads screwed on straight in regards to the amount your parts cost. And don't tell me the factory part is more reliable. They are the ones that keep breaking.

Scheduled maintenance and Warranty Service were advised to Dealer in advance, but the warranty service was not even started after 8 work days at the dealer; I have rental car coverage in my contract but had to argue to get extra 2 days coverage due to Dealer delay; I elected to pick up the vehicle for use over Thanksgiving Holiday; the vehicle Repair Order was held open and I returned the vehicle on Sunday night as agreed, using the RO# and Service advisor's name on the Early Bird envelope; I called the dealer on Tuesday as I had not heard anything; the Service Advisor had no record of the vehicle being there; finally he found it had been received by another Advisor, and it would be finished the next day. So it took 11 working days to replace a sliding door actuator, do an oil change, and replace a broken coat hanger hook. Service Advisor's communication is inaccurate and not timely. When appointment was made dealer claimed I did not have a maintenance contract - this is the second time this has happened - the first time they tried to charge me for the routine maintenance. Not going back to this dealership.

Service desk staff are not knowlegable about vehicles. You end up playing "telephone game" between techs and service desk and myself when they try to explain anything about service. Tried to sell me additional service three times before mentioning issue I brought van in for. Did no due diligence in reference to researching what service coverage van had and whether issue reported was covered. Brought van in because driver side sliding door would not unlock. After all was said and done service department found cable in door came undone and needed to be reset. This service they said was not covered by certified preown or premium extended service plan. How can that be? Oh, that's right they never contacted the extended service company to find out. Service manager is an angry man who will not make eye contact. At end of experience I clearly heard him say "Just get him out of here..." as if my need for service was an annoyance to him. In the end, my sliding door now operates properly and is no longer a safety hazard. The van has run well for 40000 and we enjoy it. However, the service desk not having a clue, the service manager having tude leaves me with no choice but to NEVER take my vehicles to Wallace Chrysler in Stuart again.

The first time I took the van in for service, nothing was done with it all day and no one called me with an update. I had to bring it back and then the service wasn't completed for 2 weeks. The worst part overall was not getting updates frequently or getting calls returned quickly.
