Initial Description

Customer states he went into the DLR to get his sliding door lock actuators repaired. The DLR explained that the only way to do so was to remove the glass, trim, and appliques. The DLR informed him that the appliques may break upon removal, customer told the DLR that would be unacceptable. The sliding door actuator is covered under a third party warranty and the labor and repair was not charged to customer. Although when the DLR broke the appliques, the DLR now charged the customer $393 for the parts that they broke during the repair. DLR is V&h auto motive

06/21/2019	***OUTBOUND CUSTOMER CONTACT*** ** * . CM contacted the customer who advised CM the following: Customer states he went into the DLR to get his sliding door lock actuators repaired. The DLR explained that the only way to do so was to remove the glass, trim, and appliques. The DLR informed him that the appliques may break upon removal, and they did. The sliding door actuator is covered under a third party warranty and the labor and repair was not charged to customer except his deductible. But because the DLR broke the appliques, they charged him $520 and change for the parts that broke during the repairs. Customer advised his vehicle was at DLR 67104 and wanted to know if we could do anything. . CM advised that this DLR is handled by another department and we would properly escalate the case to them and the customer will get a call no later then Monday. Customer thanked CM for the follow up and would appreciate anything we can do.

Attached is the invoice I was given.

As you can see, the actuators for each repair were invoiced against the warranty and the Appliques were billed directly to me. The amount I paid for those part is explained in the invoice break down showing the warranty deductible of $100 being itemized.

Thank you for your time.

Initial Description

Hello! I submitted a complaint to NHTSA, they said I needed to contact you regarding this safety issue.\n\nThe driver's side sliding door is stuck in the locked position. It will not open manually with or without the key fob. The message says to unlock the door before attempting to open the door but it will not open. This vehicle had less than 50,000 miles on it when the door got stuck. It is extremely inconvenient when the majority of people with vans have small children. There are numerous other complaints of the exact same issue online. I believe there is an issue with the sliding door locking as well. The passenger side sliding door will open after being locked and the alarm will sound. This is bad because anyone can get into your car even with it locked. The locking mechanism in these vans needs to be recalled and fixed asap as it is a safety concern for anyone that owns one. Thank you for your time! Please let me know if you need any more information from me. - [redacted]

Hell[redacted]

Thank you for contacting Dodge Customer Care. I am sorry to learn of the inconvenience you are experiencing. I can understand the dissatisfaction that you feel, given the door lock mechanism concern you have with your vehicle. I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and, due to the nature of your concern, I would like to forward your case to our Case Management department for their attention and response.

To move ahead with this escalation, your vehicle would need to be at an authorized dealership. If it is not at the dealer currently, it will be necessary for you to arrange an appointment and then advise us of the name of the dealership, the date and the time of the appointment.

Should you wish I assist in booking your appointment, please provide the preferred dealership, date and time you would be available to bring the vehicle in.

Escalating your situation to a Case Manager will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have this issue addressed and resolved.

Thank you again for your email. Should you require additional assistance, please send a new email message or call (800) 423-6343.

Best wishes,
Jennifer

Customer understood and stated that he has an issue with the sliding door and his steering wheel links not functioning. Customer stated that he is disappointed with all of the issues with the vehicle thus far and is likely not going to purchase a Chrysler again if we cannot do anything at this point. Customer explained that he has already gotten his vehicle diagnosed and spoke to the SM. Agent empathized with the customer and explained that we will help him if we can and we will get back to him after the situation is reviewed with the DLR. Customer understood and thanked the agent.
07/02/2019	*****Outbound DLR Contact****** Agent called SM Matt 314-280-5810 and left the him a voice message and requested a call/email back to discuss goodwill options.
07/02/2019	Agent emailed SM Matt seeking information.
07/02/2019	*****Inbound DLR Contact***** SM Matt called to update the case. Matt stated that the vehicle has been diagnosed and the vehicle requires lock actuators to resolve the sliding door issues which cost around $858 and new steering wheel controls which cost around $252. Matt confirmed that it is out of his goodwill limit because of the mileage but would have no issues if the agent wanted to assist with the repairs and asked what the agent wanted to do for a deductible. Agent suggested a $200 customer co pay. Matt agreed and recommended that the agent email him if the customer wants to go forward with this. Agent thanked Matt.

07/05/2019	7/5/19... Writer spoke with [redacted] who stated that about 10 days ago, the driver's side sliding door was no longer operational and that it appears to be stuck in the closed position[redacted] took the vehicle to Suburban of Farmington Hills and was told that it would cost $1,400 to repair the door. Vehicle is used to transport senior citizens and they are unable to to use the driver's sliding door at atll.[redacted]feels that a two year old vehicle should not have a problem with the sliding door and is seeking goodwill assistance as he claims to have all of his service work completed at dealerships. Writer apologized for the issue and advised owner that writer would call dealer service manager to review inspection from last week and then writer will follow back up with owner to advise next steps.[redacted]ppreciated the call.

08/01/2019	*****Outbound Customer Contact****** Agent called the customer at [redacted] and spoke to the customer and advised her of the recent details of the case. Agent advised her that he received her service contract information and stated that he is willing to reimburse her the $100 deductible considering the situation and explained that the agent would require documentation such as a a receipt. Customer stated that she will send this as soon as the repair is complete and asked if there is anyway to change the DLR with the disappearing deductible to one that is in business currently. Agent recommended reaching out to the service contract company and asking. Customer stated that she will do so and thanked the agent.

Hi Adrian,

I just realized that I had not forwarded you the information we spoke about right before my vacation. I have attached a copy of my extended warranty for your review. The dealer sold me a package pushing the fact that I would have no deductible for using their shop and then went out of business shortly afterwards. I do not feel that as a consumer of a Chrysler product that I should be penalized for a dealer going out of business, much less one that wasn't forthcoming with the information when they sold the products.

My car is currently at Oliver C Joseph in Belleville, IL for my hood and some warranty work on my door. I would appreciate any assistance with the deductible Chrysler can offer.

Thank you,
[redacted]

Good morning [redacted]

Not a problem! The $100 check has been approved and it should arrive at that address in 7-14 business days at this point. I am happy to hear that everything was resolved so quickly! If you require further assistance, please don't hesitate to give me a call. I can be reached at 844 827 2003 and my direct extension is 302 0148.

Thank you for allowing FCA Case Management the opportunity to address your concern. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We'd ask you that you take the time to complete the survey so we'll know how we're doing and what improvements we can make to enhance the customer experience.

Thank you for your time and participation and for being an FCA Customer!
Sincerely,
Adrian

Good morning Adrian,

Thank-you for sending the reimbursement check for $100.00. It is ironic that I received this in the mail last week and am needing the warranty repair service again for the other rear sliding door. I took your suggestion in contacting CNA National Warranty Corporation regarding the Factory Wrap+Plus Care warranty with the $100.00 disappearing deductible if we have any repairs made at the dealership that the car was purchased, only to be told that there is no way they can transfer to a different dealer. In other words, I am now stuck paying this deductible every time I need to take my car in for repairs because our dealer went out of business. I am feeling a little disgruntled at this moment! I know $100.00 seems petty to most individuals, but the entire reason of us purchasing the package that we did, is so that we would not have to pay anything out of pocket.

I feel as though Chrysler put a band-aid on my issue, which don't get me wrong, was greatly appreciated. But, I the consumer am still paying the price for the dealer going out of business. This is a dealer that Chrysler contracted with to sell their automobiles.

It is my responsibility to do my research, purchase, and pay for my vehicle. It should not be my responsibility to contact Chrysler to make sure a dealer is paying their bills and in good standing prior to making a purchase. I would expect Chrysler to somehow stand behind the warranty that was purchased from the dealer they designated to sell their automobiles

Thank you,
[redacted]

07/02/2019	Customer calling because he has been told that the door lock actuator needs to be replaced and will cost $900 and seeking assistance for that repair. he only has 22851 so would fall in basic but is over by time. Hoping there is assistance we can provide. Agent called the dealership Spitzer Motors of Mansfield Inc. and spoke with Heidi in service who said that the customer was in on June 25, 2019 but it was not pertaining to a door lock actuator. Service adviser Tim who worked with customer is on lunch but Heidi will have him call back to discuss. Though customer warranty just expired and mileage is low customer does not have a loyalty score, may not be able to provide assistance.

07/02/2019	Tim SA call and stated that vehicle has not been diagnostic.
07/09/2019	Customer calling in to check on the status of the case. Advised of the information fro Tim SA of no diagnosis completed. Customer stating will call to have appointment and diagnosis and to call back to get case sent up for review. Customer thanked and agent breaded call.
07/15/2019	Customer states he has had a diagnosis for the vehicle and the DLR informed him of the repair costs. $572 for parts and $225 for labor. Customer seeking cost assistance. LS: 0 Original Owner: NO Vehicles: 2 Service Contract: YES, CPOV. Customers basic warranty expired by time, April 16,2019, not mileage. Customer is under the 2/24,000 GW Consideration. Due to no LS score, customer was denied GW.

07/05/2019	7/5/19.....Writer spoke with who stated that about 10 days ago, the driver's side sliding door was no longer operational and that it appears to be stuck in the closed position took the vehicle to Suburban of Farmington Hills and was told that it would cost $1,400 to repair the door. Vehicle is used to transport and they are unable to to use the driver's sliding door at atll eels that a two year old vehicle should not have a problem with the sliding door and is seeking goodwill assistance as he claims to have all of his service work completed at dealerships. Writer apologized for the issue and advised owner that writer would call dealer service manager to review inspection from last week and then writer will follow back up with owner to advise next steps. appreciated the call. * Writer left a message for Sean Leline (SM) requesting a call back to review current vehicle concern.
07/08/2019	7/8/19..... Writer left a message for Sean Leline (SM) requesting a call back. Writer would like to offer to cover repair needed less a $150 deductible, since vehicle is used by the City of Novi to transport around.
07/08/2019	7/8/19..... Writer spoke with Sean (SM) who stated that vehicle needs a left sliding door latch. Sean advised writer that owner paid $115 for the diagnosis on 6/26/19 even though repairs were not completed. With that in mind, writer agreed to cover repair in full and will add DM notes to approve the repair. Sean did not have any problems with writer's assistance. Sean will order the part and then contact owner once it comes in to schedule an appt.
07/08/2019	Vehicle has arrived at dealership Suburban Chrysler Dodge Jeep Ram of Farmington Hills and attended by dealer employee
07/10/2019	7/10/19..... Writer called dealer and was advised that owner's repair was completed and owner picked up. Writer attempted to call owner but had to leave a message requesting a call back to confirm that he is satisfied with his repair.

Initial Description

Both the passenger and driver side rear power sliding doors will not open. This is a safety issue to be able to remove our children from the backseats. The driver side door stopped working at 38K miles and the passenger side door stopped working at 43K miles. I have filed a complaint with the National Highway Traffic Safety Administration. Would would like to remain loyal Dodge customers, but this problem appears widespread based on internet searches. What is Dodge able to do to help us with this safety issue? Thank you for your review of this information and assistance.

Case Comments

Date	Comment
07/12/2019	Sliding door on drivers side will not open, manually or with the button. Customer called dealer on file and they said that he was outside of his basic, and they would have to charge a diagnosis fee. Customer would like cost assistance with repair.
07/15/2019	CM contacted DLR at (352)563-2277 and asked for information on vehicle. SA stated that last RO on vehicle is from January and it was not for a sliding door concern. CM thanked SA and disconnected call.
07/15/2019	CM attempted to contact customer at [redacted] however, customer was unavailable. CM left message with case number and requesting a call back at extension 4060087.
07/15/2019	Customer wanting to speak with CM. CM not in right now. Advised will leave message for Cm to call back when they have a chance.
07/17/2019	CM contacted customer at [redacted] and advised of notes from DLR. Customer stated that is correct and he has not been to the DLR for the sliding door concern. Customer stated he was told that diagnosis would be about $160.00 to $200.00 but customer could not afford that as he is on a fixed income. CM understood and advised customer that in order to move forward with case he would have to take vehicle into DLR and agree to pay for diagnosis as diagnosis is needed for CM to determine whether we can assist with repairs. Customer understood and stated that he cannot take vehicle in until end of the month. CM advised customer that case will be closed but CM would like customer to call back in once vehicle is at DLR. Customer understood and thanked CM.

Hello[redacted]

Thank you for contacting Dodge Customer Care.

I can understand the dissatisfaction that you feel, given the concern with the sliding door lock you have with your vehicle. I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and, due to the nature of your concern, I would like to forward your case to our Case Management department for their attention and response. To move ahead with this escalation, your vehicle would need to be at an authorized dealership. If it is not at the dealer currently, it will be necessary for you to arrange an appointment and then advise us of the name of the dealership, the date and the time of the appointment.

Should you wish I assist in booking your appointment, please provide the preferred dealership, date and time you would be available to bring the vehicle in.

Escalating your situation to a Case Manager will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have this concern addressed and resolved.

Thank you again for your email. Should you require additional assistance, please reply to this email message or call (800) 423-6343.

Best wishes,
Jennifer

07/15/2019	Customer states that he can lock the doors on the vehicle but not the sliders. David is car sitting for a friend who is out of the country and he noticed the sliders do not lock. David called the owner and he said he never noticed and thought they locked. David called two dealers that would not give him an appoint till either the end of the month or in October. Agent called a few dealers and they could not get him in till end of July. A couple told the customer that they would probably send it out to be done. Customer is trying to call one more dealer and if he can't get it in a reasonable time he will take it to an IRF and get it repaired and submit for reimbursement.
07/16/2019	customer wanting to know if doors not locking is covered under warranty. advised to speak with dealer in regards.

(14m 4s) Brandi: Thank you, Just a few moments please Genifer while i look into this for you. (22m 49s) Brandi: Thank you for waiting [redacted] I certainly understand your frustration with this situation and appreciate you reaching out to us today. I have reviewed the manufacturers warranty. This concern may have been under the basic warranty which has expired by both time and mileage, time being January 7, 2019 and mileage being 36,000. There are no service contracts, extended warranties, or recalls on the vehicle for this concern. You are not the original owner of the vehicle. Based on my research I am unable to offer further assistance. I do apologize that I was unable to provide a more favorable response. I recommend working with your local dealer to have this issue fixed. We do value you as a customer, and appreciate that you choose Dodge . (24m 33s) Visitor: Thank you for into it for me.

Customer called in because the drivers side rear sliding door latch wont open

Case Comments

Date	Comment
07/16/2019	Customer called in because the drivers side rear sliding door latch wont open. Ruben, SA DLR 60673 stated that its the latch that wont open. The vehicle is at the DLR today (07/16/2019). The customer is out side of warranty by 5000 miles and doesn't have a loyalty score since the vehicle is in a company name. Agent spoke with a TL and they said to send it up since its commercial. Agent informed the called that the case would be sent up to CM. The best contact number is (781) 858-1637

(17s) Visitor: Hello, (24s) ASHLEA: Hello [redacted] how are you today? (1m 33s) Visitor: while stationed overseas, I needed to get warranty work done on my minivan and contacted the local Italian dealership many times with no return communication. (1m 43s) Visitor: Good thanks! (2m 52s) Visitor: I know have my van in shipment back to the States but it will move past the Warranty date. (3m 2s) Visitor: *now (4m 26s) Visitor: My question is this, since through many documented attempts to reach a dealership to do repairs and not receiving support will Dodge cover the work outside the Warranty date? (5m 49s) ASHLEA: I apologize to hear of this ongoing problem. Thank you for taking the time to reach out to us and allow us the opportunity to help. Let's look into this further. (5m 56s) ASHLEA: What kind of problem are you experiencing with your vehicle? (7m 0s) Visitor: Door locks shut and cannot be opened manually nor electronically. (7m 23s) Visitor: A safety concern in my opinion. (7m 42s) ASHLEA: I understand. I can certainly understand your concern. I can see you were contact by our international department in March with information. What happened after you received this information? (9m 44s) Visitor: Contact the dealership via phone and email several times for a period of Three months. With a guarantee that someone from service dept would call me back. Then, we got orders to go back to US. (10m 39s) ASHLEA: Thank you. What is the approximate mileage on your vehicle? (10m 57s) Visitor: around 34000 (12m 46s) Visitor: My vehicle is currently on a freighter in the middle of the Atlantic and estimated delivery is Aug 23rd. (15m 17s) ASHLEA: I understand. We cannot guarantee coverage at this time. We can absolutely look into it once the vehicle is at a dealership and diagnosed. At that time all information would be considered and a decision would be made. The first step is having the issue diagnosed at an authorized dealership. (20m 54s) Visitor: So Dodge cannot guarantee coverage Internationally as well, although I am within mileage and did everything I could? (22m 11s) ASHLEA: We cannot guarantee coverage until a diagnosis is completed. We do no make the decisions on coverage the dealership does as they need to see the problem. (24m 14s) Visitor: It's not a question of coverage, I was covered at the time but could not get service. (25m 4s) ASHLEA: Yes, at and that will be considered. At the time of diagnosis. Once your vehicle is at the dealership contact us back and we will get a level 2 specialist involved. (31m 8s) ASHLEA: Are you still there? (31m 36s) Visitor: It shouldn't be a"consideration", with an enormous effort on my part to get service done under a BUMPER TO BUMPER WARRANTY. I know it's not in your hands to authorize... (31m 40s) ASHLEA: Even if you were fully inside of your warranty it would still be under consideration. We need to diagnosed the problem to determine if it is a manufacturing defect. (33m 13s) Visitor: But enlighten me please as how this line of communication is going to work? So manufacturing defects are third party warranties??? (33m 39s) ASHLEA: The first step is to book an appointment once your vehicle has returned. Contact us back and let us know when the appointment is. At that point you will be assigned a level 2 specialist. They will work with yourself and the dealership to determine coverage. (33m 56s) ASHLEA: I apologize I am unable why you think manufactures defect are third party warranties? (37m 22s) ASHLEA: Are you still there? (37m 47s) Visitor: I understand the need for a diagnosis to relate to manufacture defect versus ownership neglect/abuse, racing e.c.t. (39m 27s) ASHLEA: Great. I would recommend following the steps outlined we will move forward on this together. (39m 49s) Visitor: So, if in fact it is the faulty lock actuator, this is covered under warranty and then who decides to fix it at no cost to me? (40m 10s) ASHLEA: That would be a decisions made by your case specialist. (44m 15s) Visitor: Ok, thank you. So it's not up to the dealership. That is a relief. Sorry, sometimes I need a minute to wrap my head around it. You have been extremely helpful. Have a great day. (45m 25s) ASHLEA: The diagnosis will be up the the dealership. It is a joint effort. (45m 34s) ASHLEA: I was happy to help. Is there anything else I can help you with? (46m 2s) Visitor: Nope. (47m 15s) ASHLEA: Thank you for contacting Dodge Customer Care. Initial Description

The sliding door will not open and the A/C is out. The dealership Mancari's in Oak Lawn Illinois said that they can't get the car into service until 30 July which effectively eliminates use of the car for two weeks. We bought the car and the extended warranty because they said we could rely on their service department. We see that we can't! What is the point in buying an extended warranty if they make it extremely difficult to use even on safety issues?

We are having issues unlocking our drivers side rear sliding door. I have done some research and discovered that this is extremely common with our make and model. I believe this is a design error and should be looked at by your company as a recall.

Hello [redacted]

Thank you for contacting Chrysler Customer Care and for letting us know about the issues you are having with the sliding door. I appreciate you making us aware and can understand your frustration in this matter.

I understand you had questions regarding why there wasnt a recall on your vehicle for what you were experiencing. There can be many factors which determine this, these factors can include but are not limited to; the make and model of the vehicle, the build date, where the vehicle parts were manufactured and environment in which they are either built or driven.

Please be advised that each case is monitored, and when a trend is found in repairs through vehicle demographics Fiat Chrysler Automobiles investigations the occurrences and if the vehicle is included in a new recall campaign you will receive a notice in the mail.

Please keep all of your receipts for the work completed on your vehicle. If you receive a recall, extended warranty, or customer satisfaction notice in the future related to a completed repair you will be able to submit for reimbursement consideration at that time.

During my preliminary review Emily, I can see that the part would be originally covered under the basic warranty which would be three years or thirty-six thousand miles whichever comes first.

While looking through our records for possible coverage searching for; recalls, customer satisfaction notifications, extended warranties and service contracts, sadly I was not able to find anything that we could use to help offer coverage for the power sliding doors.

As the manufacturer warranty that would have covered this component would have expired by both time and mileage this would be considered an out of pocket expense.

Please be advised that this is not a response we look forward to providing, I wanted to make you aware that I had spent quite the time and effort reviewing your case for assistance with the costs of the repairs.

Due to current public interest we apologize for any delays you may have receiving a response.

I also wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey, so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time, participation and for being a valued FCA customer.

Should you require further assistance please do not hesitate to contact us again either by starting a new email, chat, or calling us at (800) 247-9753.

Thank you again for your emai[redacted] Have a great day.

Best wishes,
Michael

Hello [redacted]
Thank you for contacting Dodge Customer Care.
I am very sorry to hear of your dissatisfaction with your Grand Caravan, and it would be my pleasure to assist you to the best of my abilities.

However, it seems the email you sent cut off at "(I ve purchased Kias, Nissan," and it seems unfinished. So I can assist you better, would you mind replying and elaborating further on how we can help with this situation?

I do apologize for this inconvenience.
Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at (800) 423-6343.
Thank you again for your email [redacted] Have a great day.
Best wishes,
Jennifer

Aloha J[redacted]
Uncertain as to why my email cut off, unless there was a word count limit that I didnt pay attention to in my frustration.
Thank you for following up regardless. Below is my letter in its entirety
[redacted]

I am at my wits end with this vehicle. I purchased my 2016 Dodge Caravan last September, used, from Tony Honda Autoplex in Waipio. It was 2 years old and I have had endless problems in the last 9 months. (Ive purchased Kias, Nissan, & Mazda used, and never had as many problems as I have with this car.) The Bluetooth didnt work. The rear hatch wouldnt lock. The side door wouldnt open. The other side door wouldnt open. I was told by Lou at Windward Dodge that there there has been an issue with the doors on all caravans.

And now as I sit here, I am told that both the front and rear a/c lines have a leak! What the heck is going on with this car?!
Im checking with Honda to see if I purchased an extended warranty, I think I did, but Im not 100% sure. If not, Lou tells me Ill have to pay over $3000 to get this fixed! I cant afford that. And I cant afford to be without air conditioning in Hawaii as Im going through [redacted] right now. Please give me some information about why it is that this car has so many issues, And how you might help me with it. Thank you.

Hello [redacted]
Thank you for sending that email again for me, I appreciate it very much.
I can completely understand the frustration with the multiple concerns, and now being quoted an expensive repair just out of warranty. This is a truly disappointing situation, and especially given how important the air conditioning is in this situation.

We fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, we are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and mileage limitations of the warranty we offered on the air conditioning at the time it was purchased. Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.

I would have to refer you to contact the Honda dealership it was purchased at, to inquire about the extended warranty. Hopefully this will provide you the coverage you need to get this straightened out.
I am truly sorry that we cannot assist you with this, and I wish you all the best going forward with your health.
Please do not hesitate to contact us if you need any further assistance by calling us at (800) 423-6343.
Thank you again for your email [redacted]. Take care.
Best wishes,
Jennifer

Vik,

No one has been in communication with me on any updates to my vehicle, I did call the dealership this morning, they informed me that they had a diagnosis, even though nobody bothered to call or tell me that information. They said they would be in contact with you, to come up with a solution for the repair costs, as they are very high. I am anxious to get my vehicle back, could you please notify me of the status of my case.

Thank you

Hello-
Attached are the work order for my recent door latch fail, along with a receipt of payment.

This door latch fault happened before I passed 36,000 miles but I was on vacation, and couldnt get to a dealership in time. This is actually the second door latch failure I ve had on the car. The passenger side door latch was also replaced.

Please let me know if this can be reimbursed. Or if you need more information

Thank you!

Chat Started: Monday, July 29, 2019, 13:36:19 (-0400) Chat Origin: NAFTA Non Premium Brandsite Chat Agent James (10s) James: Hi, my name is James with FCA Customer Care, How may I help you? (3m 44s) Visitor: Having some problems with my 2016 Dodge Caravan. The locks on power sliding doors work intermittently and, when they do, make buzzing sounds. It appears the actuators need to be replaced, which is costly, but also appears this has been a problem for many other Caravan owners. Is this something you're aware of and is Dodge offering to assist to rectify the issues? (7m 41s) James: Sorry [redacted] Sytem sort of froze on me there. (8m 4s) James: Have you by chance had the vehicle into your preferred dealer to diagnose the issue for you? (8m 21s) James: May I ask you to confirm the VIN # for the vehicle, the current mileage, your mailing address, email and contact phone # for the file please? (9m 27s) Visitor: No, I did take vehicle to a local repair shop though. Did not want to pay for the cost of dealer diagnosis. (10m 18s) Visitor: Vin is [redacted] (10m 36s) Visitor: Don't have mileage right now as veh isn't with me (10m 50s) Visitor: My contact info is: (11m 17s) Visitor: [redacted] Amherst NY [redacted] 11m 30s) Visitor [redacted] (11m 36s) Visitor: [redacted] 13m 55s) James: Thank you for the confirmation there. I see a previous dealer visit towards the first of this month. Based on an estimated 35000 miles for the mileage the vehicle should be in full warranty. The best recommendation i can provide if seeking warranty help with this repair would be to have the issue diagnosed at a CDJR dealership. They can then complete repairs for you and access the warranty as required. (14m 28s) James: There is really not much I am able to assist with at a NON FCA dealership. (15m 5s) James: Please note if a repair is deemed under warranty they do not charge a diagnostic fee.' (15m 40s) Visitor: Is that something that typically falls under warranty? (15m 44s) James: I see a single recall on the vehicle. Nothing that would be related to the current issue you are having however. (16m 20s) James: Well yes, pretty well the entire car is covered for 3 years 36,000 miles (basic warranty) (17m 17s) James: I cannot confirm if the repair is warranty however. That is done when the dealer completed the diagnostic. I can confirm that the parts are under warranty for 3 years or 36,000 miles with the exception of things like battery, break pads, and other wear and tear items. (17m 58s) James: these would normally be under electrical and that is 100% covered for the 3 year 36,000 basic warranty (18m 16s) Visitor: ok- thanks (18m 32s) James: you are most welcome. I hope you have a great day.

Hello ,

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is: [redacted]

The FCA Case Management Telephone Number is: 1-866-932-3873

My Direct Extension is: 3020178

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Sincerely,

Amy

Cx stated her van doors keep getting stuck in the lock position

Case Comments

Date	Comment
07/30/2019	Cx stated that one of her doors on her van keeps getting stuck in the lock position and they can't open it. The other door is making a lock noise every time it does lock which is making her think it's not gonna last long and too get both doors fixed it is 2200. Cx stated that vehicle is now at the dls Feldman Chrysler Dodge Jeep Ram, 7343623100 who diagnosed the vehicle and came up with the conclusion of that she'll have to pay for those repairs of $2200. Cx is calling looking for assistance in this repair. Cx has a loyalty score of 527, she is the original owner of this vehicle, cx owns more than one vehicle, and she does have previous maintenance history. Made cx aware that I will escalate her case up to a specialist to see if they could help with repair assistance and she'll have to wait 1-2 business days for a callback from a specialist
07/31/2019	Cx seeking info on case and when specialist would be reaching out informed cx that process takes 1-2 business days and to wait for specialist to get into contact

Hi Danielle

Thank you for the information it is appreciated. I called the dealership and discussed where I am at with this issue, they advised me that they did receive your request and sent you back all the information you asked for. My question now is when do you think I can expect to hear something from Chrysler Customer Service regarding my claim?

Thanks for all your help.

(14s) Visitor: Hi Emily (1m 30s) Visitor: I have an issue with my car, the rear left actuator needs to be replaced and I am wondering why it could not be covered by the warranty extension that I purchased with the vehicle. (1m 59s) Emily: I apologize what you are going through and I'm glad that you have let us know about the repair that needs to be completed I would be happy to look into this with you. May I please have you confirm the name,address, telephone number and email address. (2m 14s) Visitor: my car dealership gave me a quote ($462) (2m 23s) Visitor: sure (2m 39s) Visitor: [redacted] Harleysville, PA (2m 45s) Visitor [redacted] (2m 52s) Visitor [redacted] (4m 9s) Emily: Thank you, currently how many miles are on the vehicle? (4m 35s) Visitor: I think it is just above 50K (5m 0s) Emily: Thank you, does the dealership currently have the vehicle? (5m 17s) Visitor: no, I kept it with me. (5m 34s) Visitor: They just gave me a quote to replace the part (6m 51s) Visitor: Is there anything else that you need? (10m 12s) Emily: Has the dealership completed the diagnosis ? (10m 32s) Visitor: Yes, they did. (11m 7s) Visitor: this is why they are proposing to replace the actuator, which lock the door sometimes, and is noisy everytime I close the doors (16m 29s) Emily: Thank you , taking a look over the information I am showing factory warranty would expired on the part. I am showing no recalls connected to the concern. I am showing you would have a service contract I would need to recommend calling with the following telephone 800-521-9922. If recall is issued you on the matter you can submit for reimbursement on the the repairs. (17m 40s) Visitor: ok, there is nothing that you can do, right? (18m 7s) Visitor: what is this phone number? (18m 8s) Emily: This would be for service contract that would have come with the vehicle. (18m 17s) Emily: You can contact to determine if they would cover the repair (18m 27s) Emily: CERTIFIED PRE-OWNED LIMITED WARRANTY (18m 55s) Visitor: ok, thanks (19m 8s) Emily: Thank you for contacting Dodge Customer Care. Please chat with us again if you need further assistance. You can also look for updates on our website www.Dodge.com. Have a good day! (19m 25s) Visitor: you too, bye

08/07/2019	****CM talked to SM Chris at Galeana's**** SM stated that the dealership is fixing the window motor as well as the sliding door as they are deeming that to be pre existing repairs. Dealership is eating the cost of this repair plus his rental. SM stated that the SA Gary will be calling the customer to pick up his vehicle. ****CM talked to Customer [redacted]** CM called and spoke with the customer, stated that CM did speak with the dealership and informed customer that his door and window motor will be covered. Customer asked about the shocks and struts. CM informed customer that the inspector declined to visit the dealership. Customer stated that the inspector visited dealership 26016 and looked at the vehicle there. Customer was working with SA Tim over there. CM stated he will follow up with that SA to gather more information ****CM talked with SA Tim at Jim Riehls 26016**** CM called and talked with SA Tim regarding customers concerns. SA stated that the inspector came out to look at the vehicle and have deemed struts window motor and door all pre existing conditions. CM is going to call MVP to discuss inspection ****CM talked with Jim Pitcher at MVP inspections**** CM called and spoke with Jim at MVP, he stated the following Window motor and door latch all pre existing Front struts are weak and noisy and need to be replaced- pre existing Rear shocks are leaking slightly, but not bad as of yet, do not need to be replaced ****CM talked to SM Chris at Galeana's**** CM called and spoke with the SM, explained to him that CM needed to follow through with everything between dealerships as well as the customer. CM explained to SM that the inspector is telling us that the front shocks are weak and noisy and need to be replaced. CM explained that the inspectors report showed that the rear shocks are leaking slightly but do not need to be replaced yet. SM was not happy, stated he needs to speak to his General Manager and inspector regarding this. SM stated that customer is coming today to go for a ride with SM or shop foreman to look for rear end noise ****CM talked with Custome[redacted]** CM talked and spoke with the customer, let him know all of the above information. CM explained that the dealership has to look into all of this but yes the struts should be replaced. CM told customer to go on the ride today with the dealership and CM will follow up tomorrow
08/08/2019	*****OUTBOUND DEALERSHIP CONTACT***** Galeanas Van Dyke | 57081 | (586) 573-4000 | CM called and spoke with SM Chris, he stated that customer and shop foreman went for a drive last night, 7 miles and didnt hear a sound. SM talked with AM and AM is going to goodwill shocks and struts for this customer.
08/08/2019	*****OUTBOUND CUSTOMER CONTACT****[redacted]CM called and spoke with the customer, he stated he was aware that they are going to replace struts and shocks. He went for a drive with the tech last night. CM will follow up with dealership to get a rough ETA when vehicle will be repaired
08/16/2019	*****OUTBOUND CUSTOMER CONTACT***** [redacted] CM called and spoke with the customer, he was able to pick up his vehicle but when driving 35 mph, there is a hollow thumping noise when going over bumps. He called dealership and he is bringing vehicle back in tonight to go on a ride with the technician. CM will follow up on Monday to get status.
08/19/2019	*****OUTBOUND CUSTOMER CONTACT***** [redacted] CM called and spoke with the customer, he went for a ride with Shop foreman who verified the thumping noise in the rear end. He asked customer to bring vehicle back in at oil changed and he will dive into the car and figure out what is going on. CM will follow up with customer to see when oil change will be needed.
08/23/2019	Vehicle has arrived at dealership Galeana's Van Dyke Dodge and attended by dealer employee
08/26/2019	*****OUTBOUND CUSTOMER CONTACT***** [redacted] called and spoke with the customer, they did have to fix the window regulator that they put on it. It is fixed now. Still having the clunking noise in rear end, dealership told him to bring it in at his next oil change. CM is going to look into SC for customer due to ongoing issues and problems with the vehicle.
09/04/2019	*****OUTBOUND CUSTOMER CONTACT*****[redacted]CM called and LVM for the customer to return my call.
09/16/2019	*****OUTBOUND CUSTOMER CONTACT*****[redacted]M called and spoke with the customer, let him know that his S/C has been added and have discussed the S/C. Customer states he has about 900 miles til his oil change so they can look at suspension issues. CM will follow up.
09/18/2019	***Customer was told to come in at his oil change to have the knock in the rear end looked at. Customer states he has about 900 miles to go before oil change.***
09/25/2019	Vehicle has arrived at dealership Galeana's Van Dyke Dodge and attended by dealer employee
10/01/2019	*****OUTBOUND CUSTOMER CONTACT*****[redacted]CM called and spoke with the customer, he did take the vehicle back to the dealership, they drove the vehicle and they were unable to duplicate the noise. Customer is ok with that, he states if it gets more noticeable, he will take it back in. Customer could not thank CM enough for all the work he put into this case. CM and customer agreed to close the case. Closing email will be sent.

Hi [redacted]

I talked with the Dealership today, they are still working on your vehicle. I know they were waiting on parts, I did not think this would take this long. I will follow up tomorrow with dealership as well as yourself.

Thank you,

We are still about 1000 miles away from the oil change, that is when they wanted it.

Can you please call me when you have a free moment?

Thanks again.

Hello

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]

The FCA Case Management Telephone Number is: 1-844-827-1999

My Direct Extension is: 3020849

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Hey Ryan,

Hope all is well with you and your family.

I am hoping you can help. The last time we communicated, we discussed the extended warranty that your team added to this vehicle. I was wondering if you can resend me those details, as I need to take the vehicle in and would like to make sure I understand what is covered.

Thanks and Happy Holidays!

Initial Description

I need someone to contact me via email because there is backstory so I\342 d like to send the 3 emails that I\342 ve already sent over the last 3 weeks with no responses. \n\nLong story short, we\342 ve had tons of problems with our van. The air has been the major concern. We fixed it twice and paid the deductible, it quickly broke again AFTER our warranty had expired and we called and were in contact with someone named Susan. We took it BACK in and had it \342 fixed\342 for free. We\342 re having problems again. I\342 ve emailed the address we had for Susan 3 times with no response. At this point I need to know if Dodge is going to do anything before we take it to get fixed so we\342 re holding and apparently being ignored. \n\nPlease contact me because the 1st step is forwarding my previous emails to an address that someone will get. \n\nThank you\342 \n\n[redacted]

Initial Description

driver side sliding door is locked can not unlock it or open it. Is there a recall, if not there should be this is a safety issue. I have read that this is a common problem. If there are kids or pets on that side in an emergency how could we get them out quickly. I have to take the car in next week to fix it, heard it is pretty costly. This is really a safety issue any help on this would be appreciated.

Hello[redacted]
Thank you for contacting Chrysler Customer Care.
We are very disappointed to hear of the difficulty you are having with the sliding door on your Town & Country not functioning properly.

In regards to the repairs, we fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, we are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and mileage limitations of the basic warranty we offered on the vehicle at the time it was purchased. Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.
Please do not hesitate to contact us if you need any further assistance by calling us at (800) 247-9753.
Thank you again for your emai[redacted]. Have a great day.
Best wishes,
Jennifer

cx stated dlr diagnosed vehicle "sliding door mechanism is broken" costing $1000"

Case Comments

Date	Comment
08/06/2019	Cx stated vehicle would not automatically open and it wasn't not responding to any commands in vehicle or on the key. Cx stated she took vehicle to dealership after this and dlr advised it was a "sliding door mechanism is broken."
08/06/2019	cx wanted coverage for sliding door mechanism but vehicle is currently out of warranty and she is the second owner vehicle has no prior service history. I advised we wouldn't be able to assist.
08/06/2019	Customer called in stating that she wants to speak to a Supervisor because she believes the sliding door should be covered and she refuses to speak with anyone else but a Supervisor. Agent reviewed the notes in the case & verified the sliding door would've been covered under basic and she doesn't meet GW. Agent called the resource line and spoke to Christie then warm transferred the customer to her.
08/06/2019	senior adviser spoke with customer and stated that this is covered under the basic warranty and that the customer does not qualify for financial assistance customer is within 2 yr/24, no loyalty, no CSI , no service contract customer disconnected the call

Initial Description

[redacted]

My husband and I purchased a certified preowned Chrysler in 2017 after we rented one the previous year and absolutely loved it for our growing family. Buying the right car was very important for us as we only have one vehicle as I am legally blind and can't drive. Unfortunately since owning this vehicle we have had nothing but issues unlike any other vehicle we have ever owned. Thankfully we bought an extended warrenty which has helped some, however our most recent issue is not covered as the warranty has expired as of 226 miles ago though we thought we had until 100,000 miles. We were told to get the door fixed it will be over $ 1,500 to repair. Not two weeks ago we had an issue with the driver side window not going up. Now, the driver side passenger door will not open at all. We take very good care of our car so this is a bit alarming that it won't work. We have to get this fixed, however this is a hardship for our family right now with [redacted] Is there absolutely anything that can be done to help us with this payment? I hate asking for help, but this is a huge expense we were not expecting especially since we thought we still had a warranty. It is such a shame as we love our car, but all the problems are getting to be too much. I would so greatly appreciate absolutely any help for our family. The VIN above is not correct. I only have the last numbers which are [redacted] don't know if the car is under just my husband's name [redacted] or both of us. Thank you again.

Thank you for contacting Chrysler Customer Care.

We are disappointed to learn of your concerns with the windows on your 2016 Chrysler Town and Country Touring.

Our records indicate that your Certified Pre-Owned Limited warranty is still valid until February 19, 2023 or 100,000 Miles whichever comes first. You will want to contact Mopar Vehicle Protection to verify if the parts that you need fixed are indeed covered. You can contact Mopar Vehicle Protection at 1-800-521-9922. Alternatively you can go to www.moparvehicleprotection.com and put in your contract number [redacted] see what parts are covered under your provision.
If it is not covered under your extended warranty then it was covered under the basic warranty which expired on February 20, 2019 or 36000 miles. Due to the mileage that your vehicle is over that warranty period we would not be able to extend any assistance for the window concern.
Thank you for your email and allowing us the opportunity to review this matter with you.

Best Regards,

Cherie

Unfortunately this information is all information that I already knew. The issue was not the window, it is the door we just had to get fixed. Very strange that it happened only a couple of weeks after the window. It cost us almost $1300 since we no longer have a warranty. We never have had so many issues with other vehicles.

08/07/2019	***Customer Inquiry*** Customer calling in regards to having the torque converter going out only a couple miles out of warranty, no reason for it to go out. The customer needed to pay out of pocket to get it replaced, and from there both of the rear sliding door actuators are going out, and the back seat will not fold down at all. Customer seeking for assistance on getting these things fixed with what is occurring. Customer went to the dealership about the sliding doors but did not ask about the seat. Customer seek assistance as the doors are currently working but the doors are bound to go out any day now (unknown to when this is not going to work anymore). ***Agent Advised*** Agent advised the customer that due to what is occurring with the vehicle and everything with that there is nothing that we can do at this time, as we look at things such as loyalty with the company, being the original owner and mileage. Customer seeking to speak with someone higher up with next steps as they are upset with the result. Agent then advised the customer that we will make a request for a supervisor to reach out but that is a 1 business day call back time. Contact at [redacted]
08/08/2019	*****OUTBOUND SUPERVISOR CONTACT***** Supervisor contacted customer [redacted] to discuss his file. Customer states that they had a torque converter go out on his vehicle and it should never happen as he never tows anything. Customer states that it is over 100 miles outside of warranty but the dealer stepped up and assisted as FCA would not. Customer states that now the door lock actuator is making noises and is frustrated seeking cost assistance. Supervisor explained that the actuators are covered for 3 years or 36,000 miles whichever occurs first. Supervisor explained that we are not in a position to assist at this time. Customer states his biggest concern is if his family gets stuck in the vehicle and something happens. Customer understood the position that was provided.

Initial Description

To whom it may concern,\n\nBack in July 2015, I purchased a Dodge Grand Caravan (VIN # [redacted] from Armory Automotive in Albany, N.Y. As a family o[redacted] we needed a vehicle that combined all of the following: reliability, comfort, affordability and the 2015 Dodge Grand Caravan SE Plus fit our needs. However, the vehicle has not lived up to these standards and has been an expensive disappointment.\n\nLess than two years after purchasing the vehicle, on June 23, 2017, we began to experience heat in the rear when the air conditioner was turned on. We were heading on a road trip, so we needed to have this repaired immediately. I did some research and found that there was a service bulletin issued regarding this very problem (NUMBER: 24-005-16 REV. A GROUP: Heating & Air Conditioning DATE: June 30, 2016). Although it was issued for the 2015 Grand Caravan, when Icalled customer service, I was told that the vin number did not qualify for this bulletin). Also, at the time, our car had 39, 539 miles on it, just a few thousand outside the 36,000 mile warranty. We were forced to pay $306.01 to repair a problem, that your company had admitted was the fruit of the manufacturing process, which is infuriating.\n\nA mere two years later, in July 2019, I had to have the exact sat repair done to this van. The blend door actuator had to be replaced again, as it was not allowing cold air into the rear of the vehicle. In addition, the right side door lock was broken and needed to be repaired. Both repairs cost $723.06. While this vehicle already has 85, 234 miles on it, neither of these repairs are from use or wearing. We only use the rear controls for air conditioning in the summer, which in NY is about 3 months and don;t use them for heat in thewinder because they make the car too hot. We do lock our van every time that we leave it, but I don\342 t consider a lock was a wearing part..\n\nAll parts used in these repairs were Original Equ=ipment Manufacturer parts, so they \n\nIn addition, the radio stopped working about 8 months ago I can plug in an AUX cord, but AM/FM radio no longer works. Every other car that I have ever driven has fallen apart mechanically before the radio has died. On this vehicle, it died three years and four months into owning it.\n\nTO say that I am disappointed in this vehicle is an understatement. This is a four year old van and is exhibiting problems more likely seen in 12-15 year old cars. The only explanation for this is that the van was defective when it came from the factory and the company needs to do something to make this right for consumers. \n\nMy next vehicle will not come from the Dodge/Chrysler family.\n\nSIncerely, \n\[redacted]

Hello [redacted]

Thank you for contacting Dodge Customer Care.

Please accept our apologies for the delayed response to your email and sincerely thank you for your patience.

We are disappointed to learn of the problems you have experienced and currently experiencing with your 2015 Dodge Grand Caravan and I would like to assure you that I will do everything I can to assist you.

Your email has been reviewed and, due to the nature of your concern, I would like to forward your case to our Case Management department for their attention and response.

To move ahead with this escalation, your vehicle would need to be at an authorized dealership. If it is not at the dealer currently, it will be necessary for you to arrange an appointment and then advise us of the name of the dealership, the date and the time of the appointment.

If you have been to your preferred dealership within the last 2 weeks, could you please provide me with some details about your visit?

Which dealership?
When was your visit?
Who was your Service Advisor or Service Manager?
What was the diagnosis?
What repairs, if any, did they complete?

Thank you again for your email Jennifer. Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at 1-800-4A-DODGE (1-800-423-6343).

Best wishes,

Belinda

A/C, sliding door and brakes not working

Case Comments

Date	Comment
08/08/2019	The customer called in to state that she is having multiple issues with her vehicle. The customer states the sliding door on the right side makes a loud noise. Customer also states the A/C has gone out and the brakes need to be done again. The customer is seeking cost assistance. The agent first advised the customer to send in proof of ownership. The agent also advised the customer to schedule an appointment with a dealer for a diagnosis and then call back.
08/20/2019	Cx calling back in reference to her case and to let us know she got a diagnosis done on her vehicle. Cx stated the adviser she was working with at the dls is Bryan. Reached out to F.X. Caprara Chrysler Jeep Dodge Ram of Watertown, 3157887400. Cx then stated the dls told her she could get her van and drive it but cx stated that she is leaving out of town this week due to family issues and she needs a rental because her vehicle isn't working at the time. Contacted the dls and spoke with Bryan who stated the passenger side door needs a new latch, and also they did a leak down test on the AC but they didn't see any leaks. With labor parts and ac recharge is $1051..78. Cx is calling for repair cost assistance . Made cx aware that I would escalate her case up to a case manager for cost assistance and he should hear back from someone within 1 business day

08/21/2019	***OUTBOUND CUSTOMER CONTACT*** [redacted] 2016 TOWN & COUNTRY CM states she purchased this last September from FX Kia and since then she has had nothing but trouble. Customer states they have replaced the brakes twice, the sliding door needs a new latch and there is no AC in the vehicle. The vehicle has been at the dealer since last Friday and they told her the AC is fine. CM asked the $1,000.00 repair quote and she wasnt sure what made up that figure. Customer states she is in a bind because they have a family issue and they have to go out of town tomorrow. CM explained it sounds like the vehicle is safe to drive and she agreed but she thought if she took it out of the dealer I couldnt assist. CM said I would call the dealer and get back to her today, she may have to pick it up and return again.
08/21/2019	***OUTBOUND DEALER CONTACT*** FX CAPRARA -#60662 -315-788-7400 CM spoke to SA-Brian and he said the vehicle is still at the dealer. They found that the power door latch needs to be replaced and its about $527.00. He confirmed the AC is not working and couldnt find any leaks, but the next step would be to do a evac and recharge service (dye in the system) to see where it is failing. The cost of that is $129.95 + tax. CM asked if the vehicle is safe to drive and he said yes, CM explained the customer has a family concern to deal with out of town and she has to go tomorrow. CM explained I will ask the customer to pick up her vehicle and I do want to help the customer but will wait till she comes back and has another appointment.

08/21/2019	***OUTBOUND CUSTOMER CONTACT*** [redacted] 2016 TOWN & COUNTRY CM called the customer and let her know that I spoke to SA-Brian and he explained the vehicle needs a new power latch and confirmed the AC doesnt blow cool air. CM said the dealer needs to have more diagnosis done on the AC before they can figure out what the problem is. CM said there will likely be a charge for the diagnosis fee. Customer said she forgot to mention to me before that she had an appointment on 8/16 and they never got a chance to look at it on Friday so on Saturday they said you need to come down to the dealer. They told her that her vehicle had no power. Customer gets down to the dealer and the shop foreman said I dont know what is wrong but there is nothing when we try to start the vehicle. Long story short it was the wrong key fob, they had her key fob for another customer (same make and model). Customer was so upset and they didnt even apologize, CM said if there is a charge today to send it to me by email and I will look at it. CM said I will put her file on hold and once she gets back to set up another appointment and I will work with the dealer and her.
08/23/2019	***OUTBOUND DEALER CONTACT*** FX CAPRARA -#60662 -315-788-7400 CM reached SM-Jason and he said he was calling about [redacted] he said he records show she just bought this vehicle 8/09/19 and found a problem with the vehicle (AC and sliding door).She then purchased a SC (3rd party) after wards and it wont cover the repair. SM said this is not diagnosis fully and her first visit, he said customer will have to pay out of pocket. CM said this file is on hold for a week or so until she gets back in. I will tell her she has to pay out of pocket and I will need a bill of sale so I know when she purchased this vehicle.

08/12/2019	Cx stated his passenger sliding back door has locked up on vehicle. Cx stated he took vehicle to the dls and they stated the repair is $1500 and cx is calling and see if he has a recall on that. Made cx aware that unfortunately at this time his vehicle has NO OPEN RECALLS. All recalls are VIN specific so just because other vehicles with the same year, make, and model has those recalls doesn't mean his vehicle would qualify for that recall also. Cx then stated he wants to know what were going to do with this issue and assist cx. Made cx aware that he is oow and the power locking doors aren't a recall so at this time there is nothing I could do to assist cx

08/13/2019	Customer called in stating he is having some issues with his vehicle. Hes had his vehicle in dealer for some technical stuff, such as the passenger side sliding door. 2 weeks ago, he brought to Bettenville, AK. Warranty was out within 5 days. Because it was a reoccurring issue, it was covered. However the right centre row captains chair was not covered. He inquired about it being covered under warranty and is wondering now if it would be covered. They had to order a new release cable for the chair. Customer has been working with Chris Johnson service advisor. Customer's basic expired July 26,2019, and repairs for door are being covered, just not the seat. Agent advised customer she will send case up to case management and their call back time is one business day. Customer thanked agent very much.

08/14/2019	Cst sent letter expressing dissatisfaction with 2015 Dodge Grand Caravan. Cst advises of multiple repairs for A/c. Including: A/C 1) June 23, 2017, we began to experience heat in the rear when the air conditioner was turned on. We were heading on a road trip, so we needed to have this repaired immediately. I did some research and found that there was a service bulletin issued regarding this very problem (NUMBER: 24-005-16 REV. A GROUP: Heating & Air Conditioning DATE: June 30, 2016). Although it was issued for the 2015 Grand Caravan, when I called customer service, I was told that the VIN number did not qualify for this bulletin). Also, at the time, our car had 39, 539 miles on it, just a few thousand outside the 36,000 mile warranty. We were forced to pay $306.01 to repair a problem, that your company had admitted. A/C 2, Door lock) July 2019, I had to have the exact sat repair done to this van. The blend door actuator had to be replaced again, as it was not allowing cold air into the rear of the vehicle. o In addition, the right side door lock was broken and needed to be repaired. o Both repairs cost $723.06. While this vehicle already has 85, 234 miles on it, neither of these repairs are from use or wearing. Radio) The radio stopped working about 8 months ago. I can plug in an AUX cord, but AM/FM radio no longer works. Every other car that I have ever driven has fallen apart mechanically before the radio has died.
08/14/2019	Cst is original owner with NO repair history in VIP or QNA. Basic expired 7/31/18 and Cst has remaining PT warranty until 7/31/2020 or 100K
08/14/2019	Writer left message for Cst acknowledging receipt of letter and inviting a return call to writers direct number.
08/23/2019	8/20/19: Cst left message advising she received writer message but had been out of town and is seeking a call back.
08/23/2019	8/22/19 Cst left message advising she is seeking a call back form writers message left regarding her letter sent in. . Writer contacted Cst and received voicemail stating that the [redacted] customer is not available. Writer left Cst a message apologizing writer was not able to contact Cst earlier and advised writer will be out of the office on 8/23/19. writer provided direct number for call back.

Hi:

I was just touching base with you regarding your vehicle and was wondering if you have had a chance to book an appointment.

If you could let me know that would be great. I will leave the case open until Aug.23/2019 at which time I will be closing the case if no appointment is booked.

Electronic Door - Manual Lock

Case Comments

Date	Comment
08/20/2019	Customer called in. Said rear left side door - the electronic door control malfunctioned (got it fixed). Wanted to point out a design flaw. When the electronic door control malfunction - you can't electronically or manually lock and unlock the door. At time of repair - vehicle was in the locked position and couldn't be unlocked. Dealership tried to manually unlock it - couldn't so customer had it fixed. Overall - it's a design flaw. If lock malfunction (say left side) and vehicle is hit on the right - you can't get out of the vehicle. Customer wanted us to know.

Warranty Coverage/GW Inquiry

Case Comments

Date	Comment
08/21/2019	Customer inquiry of MVP and warranty coverage for vehicle. Seeking to know if Sliding door lock actuator would be covered. Agent advised of MVP service contracts for possible coverage, and that under factory warranty this would have been under the Basic Warranty and that is too far past expired for us to cover or provide assistance, customer also has no LS and is at minimum the second owner. Agent offered to transfer to MVP for further assistance so that they can explain exact coverage of their SVC Ct better.

09/03/2019	**OUTBOUND CUSTOMER CONTACT** [redacted] -2016 GRAND CARAVAN CM reached the customer and asked about her concern, CM explained I look at my information and it looks like the dealer hasnt diagnosis the concern. She said the dealer kept the vehicle for a day and half and they returned it worse than before. She said a while ago the door seized up and her mech worked on the vehicle. After replacing a part the lock buzzes saying the door is ajar, the door opens with the key fob, buttons inside and by pulling on the outdoor handle. When the door closes it will not close a 100% and the warning light comes on. Her mech said the vehicle needs the homing device reset and suggested she take the vehicle to a Dodge dealership to reprogram the Home button. She takes it there and explains what she would like and they said to diagnosis the vehicle they want to take off the door and she was looking at another $600.00 for the diagnosis. Customer declined and that is when she called us. Customer mentioned that the door wouldnt work at all after she picked up her van, her husband found a loose wire and now everything works except the outside handle. CM asked if she would go back to the dealer, she said only if it doesnt cost her anything. She said she has spent around $800.00 already.

Initial Description

The looks on both sliding doors on my 2016 town & country are not functioning. The passenger door will not lock and has not for about 1 1/2 now. In the last week the driver door is now locked and will not unlock or open! Looking on the internet it seems to be a common problem. And i was wondering it you all are doing anything about it? Thanks

Hello [redacted]

Thank you for contacting the CHRYSLER Customer Assistance Center.

I can understand the dissatisfaction that you feel, given the unresolved sliding door lock issue you have with your vehicle. I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and, due to the nature of your concern, I would like to forward your case to our Case Management department for their attention and response.

To move ahead with this escalation, your vehicle would need to be at an authorized dealership. If it is not at the dealer currently or not there within the last 14 days, it will be necessary for you to arrange an appointment and then call and advise us of the name of the dealership, the date and the time of the appointment.

Should you wish I assist in booking your appointment, please provide the preferred dealership, date and time you would be available to bring the vehicle in.

Escalating your situation to a Case Manager will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have this issue addressed and resolved.

You are always welcome to reply back to this email and we will respond back to you as promptly as we can. If you prefer, you can also call us directly with your questions at Chrysler Customer Assistance Center by calling 1-800-247-9753.

Sincerely,

Jody

I was told the $2018 repair bill would be my problem. That is Highway robbery when the part that needs to be replaced i can get for under $20. It is sad the a 4 year old vehicle needs that kind of repair. I will not be buying another Chrysler vehicle. My 99 Silverado with 250xxx miles and all original still has everything working. I am very unhappy with my purchase. My first new vehicle and my last Chrysler.

09/06/2019	- EMAIL FROM SM These repairs are not misuse or lack of maintenance and there is nothing the customer did to cause this. The radiator is leaking at the seams in the upper left corner. The sliding door lock actuator is binding which is part of the latch inside the sliding door. Again, no abuse or lack of maintenance for this item either. This customer has (2) chrysler vehicles that we maintain. He is a good customer and maintains both of the vehicles. His last visit with this vehicle we replaced the other side sliding door latch for the same issue and we had him pay a $100.00 co pay as goodwill. The estimated cost of these repairs are $1166.56. -

Dear Amy,

We talked to Dwayne, our service advisor at Ourisman Dodge, this morning (Sept. 5) and we have accepted Chrysler's offer on the repairs for our car. We have an appointment on Sept. 16 to have this work done.

Thank you very much for your help in this matter!

Hello US Customer Care,

Sorry to be slow to reply but I am not into my email every day like I used to be before I retired.

Thanks for inquiring about the repairs to our Dodge minivan. All went well and everything is working very well. Ourisman always does a great job and we are always pleased with their work.

Good Afternoon [redacted],

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

The FCA Case Management telephone number is: 1-866-932-3873
My direct extension is: 3020-170

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and we hope we were able to resolve your concern to your satisfaction. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a Case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

Have a good day!!

INBOUND This customer states both doors are stuck in the closed position and he wants warranty assistance in repairing the vehicle. The first step would be to try and get the doors open by going thru the trim panels but they may break when we attempt this. I know for sure he needs one door latch and the cost for the part is $600 and he may need the other one also. We may have to cut open the doors which bring in a whole lot more expense. We did not see any evidence of abuse or anything like that. The customer feels he should not bear the cost of getting and fixing his doors on a 3-4 year old vehicle. He is outside our DSA by mileage at 91000 miles OUTBOUND CM advised they Customer would need to authorize diagnosis however CM would look into the possibility of GW however it is not looking good for any assistance with the repair.

I am pleased to advise you that the Mopar Vehicle Protection Service Contract has been added to your vehicle. This plan covers 2 years, 4 oil changes with 4 tire rotations. It will expire by time or usage, which ever comes first. Given the nature of the service contract, it will not be extended if expired. The contract code specific to your vehicle is 43299413 if any concerns would arise. You are able to utilize this oil change package at any certified Chrysler dealership nation wide.

Thank you for your time,

(below is the closing email)

Katelyn.

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is: [redacted]
The Chrysler Case Management telephone number is: 1-844-827-1999
My direct extension: 3020217

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

Initial Description

This is the email I sent on July 16th of this year. Since then we\342 ve been trying to get into contact with someone. Anyone. We had been in communication with a Susan about a claim about our air conditioning and then gave up after playing phone tag for quite a while. Then we called and filed other claims. One of them came through rather quickly and through email. (The headrest [redacted] The other one i [redacted] was opened prior to August 12. August 12 was the date my husband missed a call from Jessica and I called right back and left a message. To our knowledge we have not received anymore attemps to contact us (no voicemails). At this point we\342 re in limbo because the headrest repair got approved and we\342 re waiting to hear what\342 s happened, if anything to the other claim, so we can take the van in only once. \n\nThe below email was sent on July 16, 2019 and since then it\342 s been almost impossible to get and stay in contact with anyone. \n\nWhat I think is important to note now is that our van has multiple internal problems and at this point it probably comes off as us not taking care of it but all of this stuff happened within a relatively short period of time, all at once and if it keeps up at this rate we\342 re screwed. If we take our van in to fix the air 4 times, our warranty ends, it\342 s fixed again at no cost to us (our very 1st claim), and it\342 s acting up AGAIN there\342 s something wrong with that. \n\nThanks for your prompt time and attention to this matter. \n_____\n\n***Attn: Susan\n\nMy name is [redacted] a couple of months ago you were in communication with my husband [redacted] about the air system in our 2015 Dodge Grand Caravan. Last we were in contact we had it fixed and I guess you and he were playing phone tag after our Dodge dealership charged us for reading a check engine light that had come on and went off the very next day while we had it in there for the air. First, I am curious as to why you were trying to get in contact with us again. Also, I\342 d like to update you as to the state of our van.\302\240\n\nRight after we had the air fixed the drivers side sliding door got stuck in the locked position and would buzz loudly when the van hits 20mph and autolocks. We looked online and found a solution to getting the door open just so we could get our daughter out. To this day it still buzzes.\302\240\n\nA little more than a month ago the air started acting up again. I pressured [redacted] o get back in contact with you and I think he was embarrassed that he dropped the ball in trying to get in contact with you with the back and forth calls so he didn\342 t. When you start the van the \342 rear\342 defrost button blinks for several minutes before the air kicks on. The blinking has gotten to be longer and longer delaying the air from kicking on and I am afraid that at some point the air just won\342 t come on. That would not be wonderful as we closer to AUGUST. This would now be the 5th time something with the air isn\342 t working properly.\302\240\n\nTo add insult to injury we were driving down the interstate about a week ago and the passenger side headrest popped open. I didn\342 t even know they did that! How dangerous, luckily no one was sitting there. Also, looked online and looks like it\342 s broke.\302\240\n\nThe check engine light literally came back on 2 days ago so we\342 re currently driving a car I feel is highly unreliable.\302\240\n\nThis is the 3rd brand new car we have bought and we do that for a reason. The very opposite of what we\342 re getting out of this van. We currently also own a 2009 Ford Fusion that has had no problems beyond the normal oil changes, brakes and tires. I honestly feel like we bought a lemon, our van is 4 years old, has less than 70k miles on it and at this point it\342 s not even going to last the life of the loan. A very reasonable 5-year loan.\302\240\n\nWe are at a loss as what to do at this point. We\342 ve recently discussed whether or not to trade it in but it seems futile to buy new, own for the majority of the loan, pay off 20k+ and trade it in JUST to break even. We are very responsible car owners.\302\240\302\240We get oil changes regularly and on time and we keep up with necessary repairs but I don\342 t think it\342 s normal to be having weekly/monthly problems, most of which are internal so it\342 s nothing that we have any control over and at this point they are piling up faster than we can emotionally, physically, and financially deal with them.\302\240\n\nWe are reasonable people and we understand that there are responsibilities to owning and taking care of a vehicle. We don\342 t take that lightly, we want to get as much life as we can from a car. We don\342 t drive them into the ground but from the very start pieces have just flown off while driving. The heat shield fell off and we had to pull over off the highway when we heard it dragging, shove it in the van and keep going, the passenger side window won\342 t go down with the passenger side controls (only the drivers\342 side and the lock is NOT on) and also the small plastic triangle trim piece that sits beside the side mirror on the passenger side. We never recovered that. The check engine light seems to have a mind of its own\342 and remember it was \342 read\342 just a few months ago, apparently nothing was wrong and it\302\240\302\240has come on several times since. How are we to know when there is a problem?\n\nOn top of all of this and just a side note I 100% don\342 t trust taking my car to the dealership here in Dover.\302\240\302\240From trying to charge us for a \342 tire patch\342 that we didn\342 t have to being incredibly rude when we ask questions about charges to telling me that my 2nd set of brakes in SIX WEEKS after the first set was grinding (on our fusion) was warranted because it\342 s just \342 the way I drive\342 (and funny enough we haven\342 t needed more yet and it\342 s been 3 years and I\342 m still driving) I am just done with them.\302\240\n\nWe don\342 t expect things for free, but we do have expectations when purchasing a brand-new vehicle, and this 2015 Dodge Grand Caravan has had too many problems for us to simply overlook so if you have any suggestions as to where to go from here we will gladly listen. Please contact me by phone or email, I hope to find some resolution to this constant headache whether it will ultimately be a trade-in I would like this to not be my last impression

of Dodge.\302\240\n\nThank you.\302\240\n\n\342 m not sure if we\342 re still in your system or what you need to review our last issue but our last case number was: [redacted] You were in communication with [redacted] nd his phone number is [redacted] \nMy contact information is\r [redacted]

Hello [redacted]

Thank you for contacting Dodge Customer Care;

I can understand the dissatisfaction that you feel, given the numerous unresolved issues that you have with your 2015 Dodge Grand Caravan. I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and, due to the nature of your concern, I would like to forward your case to our Case Specialist department for their attention and response.

To move ahead with this escalation, your vehicle would need to be at an authorized dealership. If it is not at the dealer currently, it will be necessary for you to arrange an appointment and then advise us of the name of the dealership, the date and the time of the appointment.

Escalating your situation to a Case Specialist will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have these issues addressed and resolved.

It is our hope is that this escalation will provide you the best opportunity to address your concerns. Once you have scheduled an appointment, let us know by calling us at the number below and referencing your case number 59771826.

Due to current public interest we apologize for any delays you may have receiving a response.

Pending the scheduling of an appointment, at this time, I will be closing this case.

Please do not hesitate contact us if you need any further assistance by clicking here and sending us another email or calling us at 800-423-6343.

Thank you again for your email, Carey. Have a great day.

Best wishes,
Jacob

Thanks, Susan. Ive spoken with Roy also and the plan is to wait until I get my next oil change so we can get the oil change, the headrest, and hopefully work on some of the other issues that werent covered by Dodge or Allstate. Im not sure when thats due but for a 45-minute drive Id like to kill two birds with one stone. Thanks for checking inso far, so good. Im very glad to have my car back and Progressive (Roy) was wonderful to work with, so good I plan to continue taking my cars there instead of somewhere local.

Hello[redacted]

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is:[redacted]

The FCA Case Management Telephone Number is: 844-827-1999

My Direct Extension is: 3020216

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]
The Chrysler Case Management telephone number is: 1.844.827.1926
My direct extension: 3020155

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Case Comments

Date	Comment
09/04/2019	Customer called in stating that one of the sliding doors will not open. Customer stated that he took it to the DLR about a year ago and they told him he was out of warranty and that they wouldn't fix it without the customer paying. Customer feels this shouldn't be happening so soon on a vehicle. Writer explained that the vehicle would need to be diagnosed for us to be able to look into any sort of GW. Writer tried calling the DLR however there was no answer. Writer explained to the customer that once he got the vehicle diagnosed to call back and we could look into what we were able to do going forward.

Initial Description

Dear Customer service,\nI recently asked the local Dodge car dealership to replace the rear sliding door actuator (driver side) on my Dodge grand Caravan, 2016. The door was staying locked most of the time and that's a major safety issue when you have kids and passengers siting in the back.\nI had to pay ~ $500 to replace a part which cost less than $30. I realized that I'm not the only customer dealing with the poor quality of certain parts. I found, with google, so many customers reporting the same issue. I can't believe that Dodge/Chrysler did not initiate a recall yet for this safety issue.\nCould you please tell me that Dodge/Chrysler is going to handle this safety issue seriously?\nI've been a Dodge customer for more than 5 years but I'm really thinking to buy another car. \nThanks\nBest Regards \n

Writer is suggesting the following as a goodwill gesture based on dealer input and for customer satisfaction. Customers proof of payment is: Customer is seeking cost assistance; no payment has been made at this time. Date of Repair: Vehicle currently at the DLR not repaired yet In-Service Date: 5/10/2016 Original Owner: Yes Mileage: 62,000 Loyalty: 2 used, 2 new Multiple Repairs: 1st repair on transmission concern, multiple previous visits for the door latch. Authorized Chrysler Dealership: 26769 - Hall Virginia Beach Dealer Opinion: The dealership is suggesting to have the transmission be replaced, as well as the door latch. Customer has good DLR loyalty, and was originally advised that the repair would be covered by PT Warranty as there was a miscommunication about warranty end mileage (100,000 vs. 60,000). Customer has had multiple visits for door latch. BREAK DOWN Transmission Replacement Labor $750.20 Parts $3100.72 Door Latch Labor $204.60 Parts $568.47 Specialist is seeking cost assistance of $3750.92 with a customer co-pay of $100.00 on assistance for repair of the transmission and $673.07 with a customer co-pay of $100.00 on assistance for repair of the door latch. Total for repair to transmission: $3850.92 Total for repair to door latch: $773.07

The part fell off the vehicle yesterday.
09/10/2019	*****Outbound Dealer Call***** Winfield Motor Company | 68621 | 6202212840 Spoke with Shelly in service. Advised right sliding door wouldn't lock, and an oil change. When she showed up, intermittent door wouldn't shut and intermittent no start concern. Could not duplicate those. Latch for door arrived today
09/10/2019	*****Outbound Customer Call***** [redacted] CM spoke with customer to advise that part has arrived. Customer states she had a part on the vehicle that fell off while driving down the road. Customer stated she has an extended warranty, and was advised it is not covered. Customer does not recall who she spoke with at the DLR regarding the part. States it's a little strip that goes on the door, glued up there, and has plastic tabs and popped off. Customer states she spoke with someone at the DLR, and they advised they have seen this before. Customer states that Dodge should be aware if parts are going to fly off of vehicle. CM to follow up regarding part that flew off for potential assistance.
09/11/2019	*****Outbound Customer Call***** [redacted] CM spoke with customer who advised her appointment is on the 20th. CM advised would be in touch that day, and follow up with customer. Customer asked about the piece that flew off her vehicle, and CM advised would need to speak with the DLR as they would need to know if a defect or caused by outside influence, which may void warranty. No guarantees for assistance made.

09/11/2019	Customer is calling in because when he locks his vehicle , the passenger door does not lock . His vehicle was broken into and all his belongings were stolen . Customer wants his vehicle looked at . I have been on the phone with the dealership twice and as im on the line with the customer the dealer is disconnecting from the line . I called again and received a voicemail . I went to get back on the line with the customer and customer did not respond . I called out 3 times and advised the customer to call back because i was not getting a response . - Rental wont be provided by dealer , try for goodwill consideration .
09/17/2019	Customer stated that he would like assistance repair on sliding door. Stated that dlr is charging around $150.00 to repair the damages. Stated that his I pod, I phone and other belongs were stolen and would like Chrysler to pay for those as well. Adviser informed customer that Chrysler does not replace personnel belongings . Informed customer that case will be escalated for further assistance and should receive a call within one business day . Customer stated that he will get a lawyer Customer has owned 4 vehicles with Chrysler and would like goodwill.
09/18/2019	CM contacted the dealership Joey Accardi Chrysler Dodge Jeep Ram 60444 954-943-6700 and spoke with SA Reid. He stated stated that the customer had an extended warranty that covered the repair with a $150 deductible. SA stated that the customer has left the dealership without paying their deductible. CM contacted the custome[redacted]but they did not answer, CM left a voicemail.

09/19/2019	CM contacted the dealership Joey Accardi Chrysler Dodge Jeep Ram 60444 954-943-6700 and spoke with SA Reid and stated that that the customer has not come back to the dealership to pay for the diagnosis fee. CM advised the SA that they will place in the DM notes this one time but the next time the customer comes to the dealership they will need to pay for any work that need to be repaired first before the vehicle is repaired.
09/20/2019	CM contacted the custome[redacted]but they did not answer, CM left a voicemail.
09/20/2019	Customer called in very upset because he states that it is not his responsibility to pay for any deductible because the concern on his vehicle was a manufacture defect. CM advised the customer that with all SC and extended warranties it states in the agreement that they will be responsible for a deductible and Chrysler will pay for the repair. Customer stated that the CM does not know what she is talking about and that any defect on his vehicle that should not be his responsibility. CM advised the customer they will need to get in contact with the dealership. Customer requested to speak with someone else. CM advised the customer that they are the case specialist and they make all decisions on the case. Customer is upset because they feel that they should not have to pay the deductible. Customer disconnected the call.

Dear [redacted]

After speaking with the dealership today, it was confirmed that the $150 dollars you were asking me to assist you with was a deductible. Your entire repair was covered by your extended warranty and you were only responsible for a deductible. All deductible or copay's are the customers responsibility.
You will need to go to the dealership and pay your deductible that your extended warranty has required for you to pay in order to repair your vehicle.
If you have any questions or concerns please call 844-378-0573 ext 4060320 or reply to this email. My office hours are Monday-Friday 11:30 am - 8:00 pm (eastern).

Since our purchase we have had nothing but problems with the Van and had to have it repaired to fix the doors, back windshield wiper, the AC/heat and the seat belt locks. We now have a quote for $2700 for interior engine problems. I wanted to see if anything can be done to trade this in and get a new vehicle. We are upside down on it. I am really disappointed in the quality of vehicle we purchased and should not have had this many problems with it and it has caused us a lot of financial problems. (1m 4s) Visitor: VIN [redacted] (1m 17s) Visitor: [redacted] Fayetteville Ga [redacted] (5m 25s) Amber: I am very sorry to hear you have had these problems with your vehicle [redacted] can understand how disappointing that would be! If you are having trouble with the vehicle right now I would be happy to have one of our specialists work with your dealer to make sure it is repaired for you. I do apologize as the manufacturer of the vehicle we do not take part in the sales or trade ins of the vehicles, if you are looking to trade in your van you would need to work with a dealerships sales team. (6m 4s) Visitor: It is getting repaired in a shop right now. (7m 51s) Amber: Okay, again I am sorry to hear you are having issues with your van, Russell, are you working with a Chrysler dealer for this repair?

09/16/2019	Numerous issues with the vehicle and got an extended warranty for some of the issues . Motor is broken and almost $3,000 for repairs and cst has taken great care of the vehicle . Driver rear sliding door is not working -$150.00 just to check it . leave the vehicle at DLR for 2 days for them to diagnose . Door has opened while driving by itself . Car will not start , needs a new alternator as well . Cst is looking for Goodwill assistance . DLR is Shaver Chrysler 805-496-7103 SM Gilbert Lopez . -Agent provided the case# and informed that a CM will reach out within 1 business day .
09/17/2019	Customer states she called yesterday an was advised will get an call back today - vehicle is not drivable - vehicle is at the DLR - person that was helping them is not at the DLR - nobody is touching the vehicle or telling them nothing - no vehicle to drive - spent over $800. on an rental in the last 2 weeks - told was going to be called by the DLR Customer t=states the vehicle is an Lemon an the vehicle is tearing up - advised the motor will be $3000. and they do not have the money at this time Agent advised that the case has been escalated an sometimes it days 2 days to make the initial call to the customer
09/18/2019	Agent contacted customer and customer stated the vehicle is at the dealer and the dealer is saying the vehicle needs a new engine, customer has a SC and it is saying that they might pay for the repair but customer has to pay for labour, customer is looking for assistance with Motor. Agent will call dealer and get more info regarding engine.
09/18/2019	Customer stated SM is not with the with company anymore. Ken is is working with customer at the moment
09/19/2019	Vehicle is out of warranty. Customer has an aftermarket Service contract to cover repairs with a $100 deductible. Customer has authorized teardown. Dealer will follow required process by Mercury Service Contract in seeking approval for repairs. Maximum rental car covered by Mercury is $180.00. Due to estimated total cost of needed repairs Mercury will be sending an independent inspector to verify needed repairs once engine disassembly has been completed. Dealer will update customer with vehicle status as we move through process.
09/19/2019	Agent contacted customer, customer not available.
09/24/2019	Customer has been informed that the aftermarket service contract they purchased through an independent provider has denied coverage for repairs due to pre-existing conditions. Customer purchased a Mercury Service Contract on 9/3/19 and then presented their vehicle for repairs on 9/13/19. Customer had not informed dealer that the service contract was recently purchased. Customer had given verbal authorization for teardown that was needed for service contract vehicle inspection. Now the customer is lying and stating that he never gave the authorization. This is not true as the verbal authorization was given to the Service Manager and it was clearly stated that he would be responsible for the teardown should his service contract decline coverage. The customer is refusing to accept responsibility forteardown or repairs and claims he is going to leave the vehicle here and seek out an attorney. Vehicle has not been serviced at the dealer for the last 30,000 miles. Goodwill is not being offered to this customer. Customer became irate and hung up phone. Customer name is [redacted] Also contacted customer's wife [redacted] and she responded in the same manner and hung up the phone during informative conversation.
09/24/2019	Customer called in crying and saying the SC denied claim due to the vehicle having problems before the warranty was purchased. Ken SM has documented case with customer response.

Date	Comment
09/25/2019	Email from SM Ken to agent The estimate for teardown [redacted] approved on 9/18/19 at 12:36 pm is $2000. He had also previously approved on 9/16/19 at 11:55 am replacement of the vehicles battery for $338.78. The battery replacement and the teardown has already been performed. This case has been reviewed by the Service Director Mike Allen and he has indicated we will not be accepting DM notes for the repairs on this vehicle. The total estimate for the repairs is $5793.00. The items needing repaired are replacement of the left cylinder head, replace the left side sliding door latch/lock assembly, replacing the radiator, and replacement of the battery.
09/25/2019	Agent contacted customer and advised of if customer authorized tear down the customer has to be responsible of it. Customer stated she does not understand why the dealer is saying 2000 dollars for tear down if the tech said he was only going to spend 4 hours to work on the vehicle, agent advised that is what the dealership charges and that cannot be disputed since customer already authorized the tear down and acknowledged how much it was going to be. Customer stated this should not be happening so soon and that this vehicle is a Lemon That she was sold a Lemon vehicle. Agent stated to customer that she could pay the tear down and the battery and we could try and get the vehicle to another dealer if another dealer wants to accept it. Customer stated she does not have any money and she is not paying for anything. Agent again explained to customer if she does not pay for something that they authorized we cannot move forward. Customer again stated this vehicle was sold to her as a Lemon Agent advised to customer case will be escalated for further review but this is not filing Lemon Law. Customer agreed and agent advised 1-2 business days for call back.

09/26/2019	Called DLR 24124@805-496-7103, lvm stating that I'm calling from Chrysler resolution. Writer stating I'm calling in regards to VIN [redacted] and that I had a few questions in regards to the vehicle. Writer advised to give me a call back at 817-438-3518. ---------- Called customer [redacted] Writer stated that her case has been escalated to me for special handling. Customer stated that the issues started coming up about a year ago. Customer stated that the vehicle was driving very bad and she had to take it in to the DLR and they charged her a diagnostic fee of $160. Customer stated that she was told to refinance her vehicle so that she would be able to get a new warranty it and that the warranty would cover the repair fees for the vehicle. Customer went ahead and refinanced the vehicle to get the warranty. Customer then stated that her boyfriend was informed that there would be a fee for the tear down but she then states that she doesnt think he was aware of how much the fee would be. Customer then found out that the fee for the tear down is $2000. Customer states that the warranty is not covering anything because they were told by the DLR that the issue was there before the warranty got added to the vehicle. Customer states she believes the vehicle is a lemon. Customer states she has been having to use Uber and rent U-hauls because her job consists of having to move things and with the vehicle being at the DLR she is unable to do that. Customer is upset and was crying stating that she needs help with this vehicle. Customer stated that the DLR needs $2400 just to be able to take the vehicle out. Customer stated she understands that the battery needs to be replaced she stated she understands that she needs to pay the $350 for the battery but is requesting assistance in regards to this vehicle. Writer advised I understand and apologized for everything she has been going through. Writer advised I will be reviewing her case in the next couple of days to see what the next possible step would be. Writer advised I will call the DLR24124 tomorrow to get an update from them and I will give her a follow up call on Monday. Follow up with DLR 09/27 and follow up with customer 09/30.

09/27/2019	Inbound call from SM Ken@805-418-5117, SM advised from his understanding the customer refinanced the vehicle and purchased an after market warranty. SM stated customers demanded the vehicle get diagnosed with out the customers having to pay anything. SM advised that the service contract they presented was in [redacted]ame. SM advised that the repair order at the dealership is in [redacted]ame as well. SM advised tha[redacted] authorized for the tear down and that he signed an authorization of all repairs at a cost of $4151.23. SM advised that he gave them a discounted price. SM advised that [redacted] was going to cancel the service contract and use the $2000 towards the repairs and that he would only need to come up with the remaining $2100. SM advised that the plan is for the vehicle to be completed by next Tuesday 10/01. Writer thanked SM for the information and for giving me a call back. Writer advised I will continue reviewing the case. Writer advised I will give the customer a call back on Monday. Follow up 09/30.
09/30/2019	Called custome[redacted] lvm for customer that I'm calling to speak to [redacted] regards to her 2016 Dodge Grand Caravan. Writer advised customer to give me a callback at 817-438-3518. ---------- Inbound call from customer@[redacted] Writer advised that I am calling to advise that I have completed my review in regards to her vehicle. Writer advised that according to the DLR24124 there is a written agreement that the customer is responsible for the balance of $4151.23 and that at this time I am unable to provide any assistance in regards to the vehicle's repair. Writer advised the customer that she will need to continue working with the DLR in regards to her vehicle concerns. Customer stated that she is very upset and that she will never be purchasing a Dodge vehicle again. Writer advised I understand and I apologize for what she is going through but at this time I am unable to assist as there is a written signed agreement that they are responsible for the vehicle's repairs. Customer was very upset and stated she will be writing reviews about the vehicle and that she thinks it is ridiculous that she has not been give even $1 off for the vehicle repairs. Customer stated she will never be going to that DLR24124 again. Customer disconnected the line.
10/07/2019	Repairs have completed and customer picked up vehicle on 10/3/19. Follow up with customer [redacted] indicates he is very satisfied with the repairs.

Good Afternoo

I have spoken with the dealer and was advised of the most recent repair. which states your concern was for rear door noise and they have repaired that concern by replacing the actuator as well as you approved an additional cost of $206 for trim as the had to take the rear glass out.
The dealer advised you stated that the vehicle shakes while idling but declined diagnosis.
In order to proceed further for your vibration/shaking concern please contact the dealer for diagnosis. We require an appointment scheduled in 2 days or the case will be closed. The appointment does not have to be in 2 days it just must be scheduled and we must be contacted with the appointment date, time and dealer. 1-800-992-1997.

Thank You

Case Comments

Date	Comment
09/19/2019	Dealer said that there is no way to fix door panel without breaking the door to get to motor because the sliding door does not work on back door and he would have to pay for it if they break it its the motor that is stopping the vehicle from working. Advised the customer that because this is something they would have to do in order to fix vehicle that it is a possibility that the door could be broken and he would have to pay out of pocket for it. Customer was not satisfied with information as to why he would have to pay $500 out of pocket and wants to speak with Sup. Reached out to resource line they advised agent to send case of to case management. Customer has LS of 632, advised the customer that i would send case over to case manager and he will be contacted in 1 business day.

10/01/2019	both sliding doors are locking up cant open them at all month ago the door behind the driver side broke , other side happened last week had one fixed next two weeks the other one did it . Agent informed the cx there isn't any recalls on her car currently but could change eventually and if it was to ever be a recall on the doors she could give us a call for possible reimbursement . I suggested to the cx that she might want to go to a dealer to check out her doors since she cant use them at all . agent told the cx i would create a case and if anything change with her recalls she would be notified .

Initial Description

In June of 2016 we purchased a new Dodge/Chrysler Grand Caravan from Jeff Belzer dealership in Lakeville, MN. Other than normal expenses and maintenance we have no problems with this vehicle. About two weeks ago we were unable to open the rear passenger door on the driver's side.\n\nNeither the electronic opener nor the manual latch would unlock and enable the door to be opened, it was permanently locked. We took the vehicle to the Jeff Belzer Service Department to diagnose the problem and estimate the cost of repair. They informed us that they would need to destroy the inside door handle and trim just to get the door open to gain access to the locking mechanism. They would then need to replace all of the perfectly good parts they destroyed with all new factory parts to be able to but the door back together. But they could not tell us why the part failed.\n\nTheir estimate was for almost $500 for the new parts. It also included 3-4 hours of labor at $189.00 per hour. Their total estimated cost would be approximately $1,300.00 to do the repair. (Invoice [redacted] Repair Order [redacted] Service Advisor 2010).\nContact us for me details

Dodge/Chrysler Customer Service

RE: Follow up to e-mails and phone conversations

[redacted]

I spoke with the service manager Mike at Belzer Dealership last Thursday. As per our phone conversation last week about repairing the door lock on my 2016 Chrysler Caravan.

I also talked with John Miller, body shop manager. Neither still were able to confidently estimate the exact cost and amount of time to complete the job.

So based on your instructions we negotiated the following understanding. My wife and I would pay the first $200 ("deductible") and the reminder of the bill would be covered by Dodge/Chrysler.

Belzer would provide tools, mechanics etc. and loaner vehicle as no one could predict how long repairs would take.

Is this agreeable with you? Mike was also gonging to discuss this arrangement with you personally and I am assuming he has already called or e-mailed you.

I have made an appointment to drop off the vehicle at 8:00 a.m. on Thursday November 14, 2019 so Belzer can proceed with the repair.

Case [redacted]

Robin,

Sent you an e-mail last week after we spoke on the phone, I believe it was on the forth of November. As I stated in that e-mail and as I relayed to you in the phone call, Mike, John and I negotiated an agreement to get my Caravan door lock repaired.

My wife and I would pay the first 200.00 dollars and Belzer would provide the mechanics, tools, etc. and a loaner vehicle and Dodge/Chrysler would cover the difference in the repair cost for parts and labor. Is this agreeable? As stated we have an appointment for this Thursday, November 14 at 8:00 a.m.

We would appreciate your documented approval to proceed.

Kind regards

Case [redacted]

Robin,

Sent you an e-mail last week after we spoke on the phone, I believe it was on the forth of November. As I stated in that e-mail and as I relayed to you in the phone call, Mike, John and I negotiated an agreement to get my Caravan door lock repaired.

My wife and I would pay the first 200.00 dollars and Belzer would provide the mechanics, tools, etc. and a loaner vehicle and Dodge/Chrysler would cover the difference in the repair cost for parts and labor. Is this agreeable? As stated we have an appointment for this Thursday, November 14 at 8:00 a.m.

We would appreciate your documented approval to proceed.

Kind regards

[redacted]

Good Morning,

Thank you for the email. I've been made aware of the situation and your deductible. Yes FCA will be assisting as well. I will touch base with you soon.

Regards,

Robin

Case #[redacted]

Robin,

I just picked up our van from the Belzer dealership. It seems that their original estimate was a little high. They had an easier time opening the door and did not have to destroy any parts to do fix it.

They decided that they needed only one part that needed to be replaced, the door latch. They overnighted the new part yesterday and installed it today.

The door lock is now working. As a result the bill was $411 and not the estimated $1,300.

We paid Belzer a $200 "deductible" and the rest is between you and Belzer to settle up.

Thank you for your assistance.

Good Afternoon,

I am glad to hear that your repair is completed and all went well. I will settle it up with the Dealer. It has been a pleasure working with you and if you have any questions in the future, don't hesitate to call me. Have a great weekend.

Regards,

Robin

Case #[redacted]

Robin,

I just picked up our van from the Belzer dealership. It seems that their original estimate was a little high. They had an easier time opening the door and did not have to destroy any parts to do fix it.

They decided that they needed only one part that needed to be replaced, the door latch. They overnighted the new part yesterday and installed it today.

The door lock is now working. As a result the bill was $411 and not the estimated $1,300.

We paid Belzer a $200 "deductible" and the rest is between you and Belzer to settle up.

Thank you for your assistance.

Dodge Customer Service

Robin,

A few months ago I corresponded with you about a problem we had with the door locks on our 2016 Dodge Caravan that we purchased new from Jeff Belzer dealership in Lakeville, Minnesota.

When I was washing the van yesterday I noticed what I would characterize as blistering paint along the front edge of the hood. Although it is not my field of expertise, my past experience when I've seen this condition is that it was as a result of rust under the paint, although it could be a problem with the paint it's self but if that were the case I should expect to see this condition elsewhere on the vehicle, which I don't. I don't believe that the vehicle should be rusting out after only four years of normal use.

I expect that if I ignore this problem and do nothing that in a few years this piece will rust through completely and the repairs will be more extensive and more costly. My questions are, is this a common problem on similar vehicles? Is this a manufactures defect with the paint? Should your product be rusting out after only four years? And or will Dodge repair this problem or assist in the assessment and repair to our vehicle?

10/04/2019	cx calling in stating his power locks for the doors do not work. Cx stated he took to dlr and they made an appointment for him to take car to dlr. He brought the car and they had it in back for about 2 hours. They stated they changed the fuses and every time they changed a fuse it blew the fuse so they advised it was something in the door. They would have to diagnose further they scheduled a new appointment and advice he would have rental as well. cx say he took his vehicle to dlr and when he arrived they advised they don't have rentals available and no technician to work on car. They advised cx they were transitioning and couldn't further assist. Cx stated he took vehicle to another dlr and they advised him they could not legally work on vehicle without FCA permission due to the previous dlr. Cx states he also was sold a service contract by previous dlr that he thought was through mopar but is now finding out it's through allstate. Cx stated he would just like to have his vehicle repaired and is seeking permission for another dlr to service his vehicle

Initial Description

Door Latch Inquiry - Cost Assistance

Case Comments

Date	Comment
10/04/2019	Customer referred to CAC by diagnosing dealer. Customer has loyalty score of 684 is within 1 year of the expiration of their 3/36 warranty and had a very similar repair done on their passenger door latch in May of 2019. Agent advised customer that they did not have any safety recalls but that they would escalate their case to specialist for cost assistance consideration for Driver Side Door latch repair (the latch is stuck in an open position.) Customer paid ahead today $305 dollars so that the dealer could order the parts as well as $95 for diagnosis. Agent has advised that their case will be escalated for further review and to expect a call back in 1 business days time/Tuesday morning at the latest. Customer thanked agent and had no further questions at this time.
10/04/2019	CM has sent a email to request the needed documentation to review for post-repair reimbursement per AH#1267 Instructions B. Vehicle within 2/24~ Yes Basic expired by mileage of 40,953 For customer satisfaction, we will review for possible reimbursement, once documents are received.
10/07/2019	Reached out to the customer via phone, unavailable. Left a detailed message for return call at 844-378-0575 Ext. 4060080. CM has sent a second email to request the needed documentation to review for post-repair reimbursement and introduction email.
10/08/2019	Customer called wanting to speak to CM. Call was transferred
10/08/2019	IB received by customer, provided fax number to retrieve proof of payment. Customer has a third party service contact that may not cover for needed repair normally. CM will contact dealership and confirm coverage and what is not covered for consideration. Customer was advised diagnosis fees are the customers responsibility, understood.
10/11/2019	Reached out to the customer, unavailable at this time. Next follow up for 10/14/19.
10/14/2019	Reached out to the customer, he has not determined what cost would be the customers responsibility at this time. Vehicle is not at the dealership, currently with customer at this time. Customer will continue to work with dealership and call FCA back for possible reimbursement if needed. Case will be closed due to no documentation received or diagnosis, customer understood.

Case Comments

Date	Comment
10/11/2019	Cost assistance request - see [redacted] Below are the case notes: Customer stating Sliding door isn't locking, Stow away isn't going down, and the black panels on both sides fell off. Customer called to the dealership and was told is out of warranty. Agent advised could have case escalated to a case manager for possible assistance but would need to be at the dealership within the last 14 days or an upcoming appointment. **Next agent this case is closed please escalate to a case manager when customer calls back. Updated notes from 10/11 - Cust had appt with Adamson Motors in Rochester, Minn 507-289-4004 with SA, Cole who has completed diagnosis - Customer would like a call back from CM ASAP as she cannot lock the vehicle
10/15/2019	OUTBOUND DLR CONTACT @ 5072522380 - CM attempted to contact dealership today at [211 PM EST] to speak with the Service Manager (Mark), however SM was not available. CM left a voicemail for a return call at CM's extension 3020156; CM also provided the case number [redacted] Phone number 1-844-827-1926), Last 8 of the VIN(GR190789) and customer's name (ELMER ESPEY).
10/15/2019	OUTBOUND CUSTOMER CONTACT @ [redacted] CM followed up with Customer and advised of DLR contact. CM advised their case manager is out of the office, but we will follow up once we hear from the DLR.
10/17/2019	**OUTBOUND DEALER CALL** SM Mark stated that the customer was offered a discount already and they have not heard back from the customer. Customer has Phoenix plates so not sure if they are from around there.
10/17/2019	***OUTBOUND CUSTOMER CALL** CM called customer and they stated they are going to Arizona for the winter but received an estimate for the panel and it was around $350.00. Costumer is upset as they just paid over $600.00 to repair the door. CM apologized and stated they are outside of warranty but stated she would review for assistance for the panel. Customer will submit documents.
10/29/2019	**OUTBOUND CUSTOMER CALL** CM called and left a VM stating she has not heard back and has not received documents therefore due to no response, case will be closed in two days. CM stated if they decide to go to the Dealer down the road, we can reopen case at that time.
10/31/2019	Customer has not had repair done or submitted for reimbursement so CM will close file.

I have a 2016 Grand Caravan it is the fourth Caravan since 2008 the warr. just went out at 36000 miles now the door lock on the slider will not open. i took panel off and it released when I played with it, then it acts up again. it happened at 36500. I would appreciate some help on this repair as it is our fourth van, we also drive a 2018 Jeep Cherokee, my wife had [redacted] this year and we really do not need the expense of a door repair that actually rarely gets used. we have our fourth child in college so we keep the seats down mostly for cargo. Please consider helping with this repair. as I googled the issue it looks to be a Dodge problem that is common. thank you for your consideration [redacted]

Thank You for contacting Dodge Customer Care.

I would be happy to assist you today in regards to the door lock on your Caravan.

I can understand how frustrating it would be to not have a door that locks.

When was your last visit to the dealer? Did they do a diagnosis and tell you about the lock? Costs,etc..

If you could provide me with the details of the last dealer visit.

I have not taken it to the dealer, what happens is the door will not open the lock is stuck and will not lock or unlock and the door handle will not move. At 500 hours out of warranty I removed the panel and it released it worked for a week so I re installed the panel, then it failed again. Looked on the internet and it stated it was a common issue. And said it could cost 800 to 1000 dollars. I did not feel that a door should fail at such an early hour. We actually do not use the door much as the last of our six children is in college. I do not have 1000.00 to put in a door at this time. We do all our work at McGrath dodge in Cedar Rapids as this is the only place we purchase cars from, I have not discussed this with them.
Thank you

Hello [redacted]

Thank You for contacting Dodge Customer Care.

I would be happy to assist you today in regards to the door lock on your Caravan.

I can understand how frustrating it would be to not have a door that locks.

When was your last visit to the dealer? Did they do a diagnosis and tell you about the lock? Costs,etc..

If you could provide me with the details of the last dealer visit.

I have not taken it to the dealer, what happens is the door will not open the lock is stuck and will not lock or unlock and the door handle will not move. At 500 hours out of warranty I removed the panel and it released it worked for a week so I re installed the panel, then it failed again. Looked on the internet and it stated it was a common issue. Subject: RE: door lock [redacted]

I have not taken it to the dealer, what happens is the door will not open the lock is stuck and will not lock or unlock and the door handle will not move. At 500 hours out of warranty I removed the panel and it released it worked for a week so I re installed the panel, then it failed again. Looked on the internet and it stated it was a common issue. And said it could cost 800 to 1000 dollars. I did not feel that a door should fail at such an early hour. We actually do not use the door much as the last of our six children is in college. I do not have 1000.00 to put in a door at this time. We do all our work at McGrath dodge in Cedar Rapids as this is the only place we purchase cars from, I have not discussed this with them.
Thank you

Hello [redacted],

Thank You for contacting Dodge Customer Care.

I would be happy to assist you today in regards to the door lock on your Caravan.

I can understand how frustrating it would be to not have a door that locks.

When was your last visit to the dealer? Did they do a diagnosis and tell you about the lock? Costs,etc..

If you could provide me with the details of the last dealer visit.

Hello [redacted]

I am very happy to hear that the service department at McGraths took such good care of you and got the lock issue fixed under warranty for you rather than out of pocket.

I would still like to look into seeing if there is any package I could offer you. You are a very loyal customer and have been inconvenienced.

I will set out the details of the package I would like to offer. If you accept I will input the approval fro you and see if I can get approval on my end to add this to your vehicle.

I can look at other options if it is not.

I would like to give you something though for the inconvenience.

This is the package details:

I would be asking for a 2 year plan so the 2 Lube, oil and filter package would be 2 a year for 2 years entitling you to 4 in total over 2 years.

With a $0 Deductible per repair visit, all of the following are included:

$1,000 Trip Interruption Coverage

PLUS

2 Vehicle Lube, Oil and Oil Filter Changes per year (Oil/Oil Filter Change and Lubrication dealer payment is capped at $30).

Road Hazard Tire & Wheel Protection - Full Coverage Edition (Full replacement coverage for all four (4) tires and wheels damaged due to road hazard conditions).

This is what the full coverage edition is with this- Full Repair or Replacement Cost for all four (4) OEM or aftermarket tires and wheels, or Full Replacement Value (at current retail market value) for all four (4) tires and wheels where tires/wheels are no longer available. Includes cost of mounting, balancing and stems.

Up to $7,500 maximum reimbursement amount during term of plan
Includes replacement of tire pressure sensor gauge
$100 Sign-And-Go Towing and Roadside Assistance
$0 Deductible per repair visit
24 Hour Service Provided by Agero, Inc. 1-800-521-2779

Is this something you would be willing to accept as a gesture for the inconvenience you have endured with this vehicle repair.

Please let me know and I will see what I can do on my end for this.

Thank You
Christine

Good Morning, the folks at McGrath were very kind and took care of this problem.
We appreciate the dealer support we get and the Dodge product.
Hopefully one of these days we can afford to trade for one of your quad cab trucks.
Thanks again

I have not taken it to the dealer, what happens is the door will not open the lock is stuck and will not lock or unlock and the door handle will not move. At 500 hours out of warranty I removed the panel and it released it worked for a week so I re installed the panel, then it failed again. Looked on the internet and it stated it was a common issue. And said it could cost 800 to 1000 dollars. I did not feel that a door should fail at such an early hour. We actually do not use the door much as the last of our six children is in college. I do not have 1000.00 to put in a door at this time. We do all our work at McGrath dodge in Cedar Rapids as this is the only place we purchase cars from, I have not discussed this with them.

McGrath is so easy to work with it really was not an inconvenience. I would like to be able maybe to still purchase some extended warranty the van has power train to 75 I believe. I have never needed the full warranty on any of the other three Vans we have had, It is just so expensive to add that coverage. I also purchase my Motorcycles from McGrath and do put full coverage on my Honda but it is not very expensive compared to the value, nine year unlimited miles.
If I could just purchase like an additional 35000 or something to get us through another few years.
Thank you for all of your help.
We do appreciate Dodge and I truly like driving the Caravans.
Thanks again

Hello

Thank You for the update.

I am not able to offer any type of extended warranty from my end, just service contracts, so on my end this is the type of packages I can offer is stuff in these terms.

The dealer would be who you would have to work with and see if any options for purchasing through them.

Would you like to accept the offer I had originally stated?

Thank You

Subject: RE: door lock

McGrath is so easy to work with it really was not an inconvenience. I would like to be able maybe to still purchase some extended warranty the van has power train to 75 I believe. I have never needed the full warranty on any of the other three Vans we have had, It is just so expensive to add that coverage. I also purchase my Motorcycles from McGrath and do put full coverage on my Honda but it is not very expensive compared to the value, nine year unlimited miles.
If I could just purchase like an additional 35000 or something to get us through another few years.
Thank you for all of your help.
We do appreciate Dodge and I truly like driving the Caravans.
Thanks again

Hello

I am very happy to hear that the service department at McGraths took such good care of you and got the lock issue fixed under warranty for you rather than out of pocket.

I would still like to look into seeing if there is any package I could offer you. You are a very loyal customer and have been inconvenienced.

I will set out the details of the package I would like to offer. If you accept I will input the approval fro you and see if I can get approval on my end to add this to your vehicle.

I can look at other options if it is not.

I would like to give you something though for the inconvenience.

This is the package details:

I would be asking for a 2 year plan so the 2 Lube, oil and filter package would be 2 a year for 2 years entitling you to 4 in total over 2 years.

With a $0 Deductible per repair visit, all of the following are included:

$1,000 Trip Interruption Coverage

PLUS

2 Vehicle Lube, Oil and Oil Filter Changes per year (Oil/Oil Filter Change and Lubrication dealer payment is capped at $30).

Road Hazard Tire & Wheel Protection - Full Coverage Edition (Full replacement coverage for all four (4) tires and wheels damaged due to road hazard conditions).

This is what the full coverage edition is with this- Full Repair or Replacement Cost for all four (4) OEM or aftermarket tires and wheels, or Full Replacement Value (at current retail market value) for all four (4) tires and wheels where tires/wheels are no longer available. Includes cost of mounting, balancing and stems.

Up to $7,500 maximum reimbursement amount during term of plan
Includes replacement of tire pressure sensor gauge
$100 Sign-And-Go Towing and Roadside Assistance
$0 Deductible per repair visit
24 Hour Service Provided by Agero, Inc. 1-800-521-2779

Is this something you would be willing to accept as a gesture for the inconvenience you have endured with this vehicle repair.

Please let me know and I will see what I can do on my end for this.

Thank You
Christine

I have not taken it to the dealer, what happens is the door will not open the lock is stuck and will not lock or unlock and the door handle will not move. At 500 hours out of warranty I removed the panel and it released it worked for a week so I re installed the panel, then it failed again. Looked on the internet and it stated it was a common issue. And said it could cost 800 to 1000 dollars. I did not feel that a door should fail at such an early hour. We actually do not use the door much as the last of our [redacted] children is in college. I do not have 1000.00 to put in a door at this time. We do all our work at McGrath dodge in Cedar Rapids as this is the only place we purchase cars from, I have not discussed this with them.

Hello [redacted]

Thank You for the update.

I am not able to offer any type of extended warranty from my end, just service contracts, so on my end this is the type of packages I can offer is stuff in these terms.

The dealer would be who you would have to work with and see if any options for purchasing through them.

Would you like to accept the offer I had originally stated?

Thank You

Hello [redacted]

Thank You for the update.

I am not able to offer any type of extended warranty from my end, just service contracts, so on my end this is the type of packages I can offer is stuff in these terms.

The dealer would be who you would have to work with and see if any options for purchasing through them.

Would you like to accept the offer I had originally stated?

Thank You

McGrath is so easy to work with it really was not an inconvenience. I would like to be able maybe to still purchase some extended warranty the van has power train to 75 I believe. I have never needed the full warranty on any of the other three Vans we have had, It is just so expensive to add that coverage. I also purchase my Motorcycles from McGrath and do put full coverage on my Honda but it is not very expensive compared to the value, nine year unlimited miles.
If I could just purchase like an additional 35000 or something to get us through another few years.
Thank you for all of your help.
We do appreciate Dodge and I truly like driving the Caravans.
Thanks again

Hello [redacted]

I am very happy to hear that the service department at McGraths took such good care of you and got the lock issue fixed under warranty for you rather than out of pocket.

I would still like to look into seeing if there is any package I could offer you. You are a very loyal customer and have been inconvenienced.

I will set out the details of the package I would like to offer. If you accept I will input the approval fro you and see if I can get approval on my end to add this to your vehicle.

I can look at other options if it is not.

I would like to give you something though for the inconvenience.

This is the package details:

I would be asking for a 2 year plan so the 2 Lube, oil and filter package would be 2 a year for 2 years entitling you to 4 in total over 2 years.

With a $0 Deductible per repair visit, all of the following are included:

$1,000 Trip Interruption Coverage

PLUS

2 Vehicle Lube, Oil and Oil Filter Changes per year (Oil/Oil Filter Change and Lubrication dealer payment is capped at $30).

Road Hazard Tire & Wheel Protection - Full Coverage Edition (Full replacement coverage for all four (4) tires and wheels damaged due to road hazard conditions).

This is what the full coverage edition is with this- Full Repair or Replacement Cost for all four (4) OEM or aftermarket tires and wheels, or Full Replacement Value (at current retail market value) for all four (4) tires and wheels where tires/wheels are no longer available. Includes cost of mounting, balancing and stems.

Up to $7,500 maximum reimbursement amount during term of plan
Includes replacement of tire pressure sensor gauge
$100 Sign-And-Go Towing and Roadside Assistance
$0 Deductible per repair visit
24 Hour Service Provided by Agero, Inc. 1-800-521-2779

Is this something you would be willing to accept as a gesture for the inconvenience you have endured with this vehicle repair.

Please let me know and I will see what I can do on my end for this.

Thank You

Subject: RE: door lock [ref:_[redacted]]

I have not taken it to the dealer, what happens is the door will not open the lock is stuck and will not lock or unlock and the door handle will not move. At 500 hours out of warranty I removed the panel and it released it worked for a week so I re installed the panel, then it failed again. Looked on the internet and it stated it was a common issue. And said it could cost 800 to 1000 dollars. I did not feel that a door should fail at such an early hour. We actually do not use the door much as the last of our six children is in college. I do not have 1000.00 to put in a door at this time. We do all our work at McGrath dodge in Cedar Rapids as this is the only place we purchase cars from, I have not discussed this with them.

Hello [redacted],

Thank You for contacting Dodge Customer Care.

I would be happy to assist you today in regards to the door lock on your Caravan.

I can understand how frustrating it would be to not have a door that locks.

When was your last visit to the dealer? Did they do a diagnosis and tell you about the lock? Costs,etc..

If you could provide me with the details of the last dealer visit.

Hello [redacted]

In order for me to review for any possible cost assistance, We would need a dealer diagnosis to state the problem, cost of repair, and what warranty this should have been covered under.

We can than review and see if there is any cost assistance we can possibly provide you.

Thank You
Christine

Subject: RE: door lock [redacted]]

I have not taken it to the dealer, what happens is the door will not open the lock is stuck and will not lock or unlock and the door handle will not move. At 500 hours out of warranty I removed the panel and it released it worked for a week so I re installed the panel, then it failed again. Looked on the internet and it stated it was a common issue. And said it could cost 800 to 1000 dollars. I did not feel that a door should fail at such an early hour. We actually do not use the door much as the last of our six children is in college. I do not have 1000.00 to put in a door at this time. We do all our work at McGrath dodge in Cedar Rapids as this is the only place we purchase cars from, I have not discussed this with them.
Thank you

Hello [redacted],

Thank You for contacting Dodge Customer Care.

I would be happy to assist you today in regards to the door lock on your Caravan.

I can understand how frustrating it would be to not have a door that locks.

When was your last visit to the dealer? Did they do a diagnosis and tell you about the lock? Costs,etc..

If you could provide me with the details of the last dealer visit.

Date:
Diagnosis:
Dealer:

Has the issue been repaired yet?

Thank You
Christine

(1m 7s) Visitor: Hi, i have a 2016 caravan, the driver side sliding door will not unlock. (1m 33s) Beth-Anne: I am sorry to learn that there is an issue with the door. How can I help with the situation? (4m 18s) Visitor: From what i have reed on the net this is a very pricey issue to fix. I believe our 3 year coverage my have just ended. Is there any way this can be taken care of. (4m 45s) Beth-Anne: I can certainly understand the importance of the question and would be happy to look into this for you. I would like to look into your vehicle, do you have the last 8 characters of the VIN handy? (5m 40s) Visitor: I'm sorry i do not. My wife currently has the vehicle (6m 19s) Beth-Anne: No problem! I can also try and search using the phone number that might be on file. (6m 55s) Visitor: [redacted]m 1s) Beth-Anne: Thank you so much! (14m 53s) Visitor: No it just happened over the weekend. We do not use our local dealer had bad experience with them during original purchase. We went out of our area to get it. (16m 7s) Beth-Anne: I am sorry to learn that, I was able to look into the vehicle and the warranty etc. The warranty did just expire on September 30th. We would need a diagnosis before we could look further into providing assistance with the repair. Being that the warranty has expired there would be a diagnosis fee but we would be happy to look into that once it has been completed. (19m 37s) Visitor: Ok, who would i get in touch with after diagnosis was done? I would be using the dealer in tunkhannock, pa. (22m 22s) Beth-Anne: You can contact us back here! I have created a case for you, case numbe[redacted]once the diagnosis is completed you can provide the case number. (24m 6s) Visitor: Ok thank you for your help. TO WHOM IT MAY CONCERN:

Please find attached the documentation regarding our 2016 Chrysler Town and Country Van. Our issue began with a visit to the dealership where we purchased the van because our cruise control was not working correctly and the left side door was not being able to be closed. It buzzed loudly as we drove down the road. Our dealership is 45 miles from where we live so we made an appointment for our initial visit. Our van had less than 38,000 miles when we phoned the dealership for these issues. When we were able to get an appointment our mileage was 39009. The visit was 10-1-19. We phoned Chrysler the very day the estimate was prepared as we had to pay for parts before they could be ordered. (before the repair work was done). The dealership told us they could do the work on October 9, 2019. Again, I continued to call Chrysler on 10-1 and a case was opened at 1:04 p.m. This case number was [redacted] On October 3, I called Chrysler to see if there was any information on our case yet. Kenny whom I talked to at 2:26 p.m. on 10-1 told me the verification team had the case and it was being reviewed. Someone would get back to me within 48 hrs. On 10-10 I called again. At 11:15 a.m. I spoke with Traci - She will contact the case center and have them contact me. They do get busy in their section but she will have them call me. No call. On 10-21 I spoke with Tina - there was a bad connection and she had to call me back. She says the original case was closed and there was no determination made. If I would resubmit all the documents again, she will start a new case which is now [redacted] Someone will call me with results for sure. On 10/28 - I spoke with Abraham - who was very nice. He said the information was not assigned to the proper department, but he will make sure it is submitted correctly if I will resubmit all the documents again. So, all the documentation is attached again.

We understand the original 36,000 mile warranty is expired. However, we are asking for consideration of some part of reimbursement for the parts and labor for what we had to pay at 38,000 miles for what is crucial to the vehicle operation.

Please note when the work was done we had an additional charge of 29.01 for an oil change and brakes rotation done which was 19.95. We are not asking for consideration for this portion of the work.

I am so sorry to ask this of Chrysler, but it was a very unexpected bill we endured on a vehicle with very low mileage. As [redacted] every penny seems to count. We look forward to a favorable response. Thank you very much.

Again, we have made numerous calls and submitted the information multiple times to have never heard a work back is a bit alarming. If additional information is required please contact me. Thank you.

Thank you for your consideration.

Dear [redacted]

Thank you for allowing Chrysler Customer Care an opportunity to address your concern. Our primary focus is your satisfaction.

My Name is Ronald and we appreciate your time and effort in bringing this matter to us.

Upon thorough review and consideration, we regret to inform you that your request for reimbursement has been denied due to the following reason:

The vehicle is outside of its warranties and does not currently have any active Service Contracts to cover the repair done.

As much as quality service is our concern, please be informed that there are certain guidelines and qualifications that we need to meet in order to grant your request.

Thank you for your utmost understanding. We look forward to your continued business with us, and we appreciate you reaching out to us today.

Sincerely,

Ronald

We are aware it is outside of the original warranty but more than disappointed that our vehicle was less than 2000 miles from its original warranty when the cruise control went out and also a sliding door actuator and no consideration for any type of reimbursement was made. After al of our tries and calls for help not one person contacted us until you. This is our first Chrysler product and it is amazing that the Chrysler is that it is out of warranty. We thought in good faith effort you might consider some small. amount of consideration. What did your actual review consist of beyond the Out of warranty. Thank you for your response.

Initial Description

Please help me I'm not sure who else to ask help from. I bought a 2016 dodge grand caravan rt from a dealership by the name of San Diego auto connection in 2017. In my contract I have it stated that 2500$ is financed for Century extended warranty company. I have a warranty contract from the dealership. Fast forward to 3 weeks ago I took my van in to get warranty service at jack powell in escondido cause the van was making a loud ticking noise from the motor and the check engine light was on for transmission codes. The lock on the rear door solenoid is bad and buzzes very loudly everytime it locks. The air conditioning is also making noises as well. They said it would be 440$ to diagnose the van but the warranty usually covers it. I showed contract they took info. I recieved a call a day later telling me all the problems it had and what they needed to do to fix it but the warranty company denied my claim and I would have to contact Century to figure out why. I called Century they said in 2017 the dealership (San Diego auto connection) submitted the contract but it was rejected because they never recieved payment. They told me I would need to take this up with SDAC. I tried to call them but all their numbers have been disconnected and they were not at the location where I bought my car from. I dont know what to do. I bought van for my wife to take the kids to and from school and other activities and to her numerous doctor appointments from her [redacted]'s. I'm the only one who is capable of working and on a fixed income. I cant afford these services and I'm trying figure out how to get the 2500 extra plus interest I've been paying on two years now please respond I would really appreciate any kind of help.

Hello [redacted]

Thank you for contacting Dodge Customer Care;

I can understand the dissatisfaction you feel, given that you were sold an extended warranty that you cant use, due to the warranty company not getting paid for the warranty. I would be happy to point you in the right direction.

After doing some research, I have found that San Diego Auto Connection is not an authorized Dodge dealer so, it would be necessary to work with them to come to a resolution. For your convenience, I have provided contact information for this Used Car Dealer below:

San Diego Auto Connection

1561 Camino del Rio S, San Diego, CA 92108
(858) 546-1222 or (833) 837-8807
https://www.sandiegoautoconnection.com/

At this time, I will be closing this case.

Please do not hesitate to contact us if you need any further assistance by clicking here and sending us another email or calling us at 800-423-6343.

I also wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey, so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time, participation and for being a valued FCA customer.

Thank you again for your email, [redacted] ave a great day.

Best wishes,
Jacob

10/25/2019	Customer called looking for reimbursement for the appliques panels. Customer stated that the DLR advised her that there was no way that they could be taken off without breaking them when fixing the actuators. Agent called DLR 66231 and spoke with Debbie who confirmed with the tech that the panels had to be replaced as you cannot remove them without it breaking in order to fix the actuator. Agent called MVP and spoke with Lakia who stated that the DLR should have called the authorized DLR assistance line to get preauthorization to get the appliques covered under the service contract if they break when removed. Lakia advised that the customer will have to mail in their docs for review for reimbursement through MVP under the contract. Agent provided mailing address as per Lakia. I purchased the extended coverage. It is good for 5 years. That is why I also paid a $100 deductible. Bumper to bumper is what I paid for. I was led to believe this morning I was getting reimbursed. The door repair is covered.

(39s) John Robert: Thank you for contacting us. My name is JR and how can help tonight? (51s) Visitor: Well, I dont see a recall for my vehicle but I'm having a problem. My driver side sliding door will not unlock (1m 48s) John Robert: I'm sorry to hear that. I would be happy to see what I can find about the vehicle here. To look into this for you I will need your name, address, email and contact number. (2m 15s) Visitor: Ok. I thought I already provided that. (3m 5s) Visitor: [redacted] waikoloa hawaii, [redacted] 3m 21s) John Robert: Thank you. Allow me a moment to look into this for you (5m 47s) John Robert: Thank you for your patience. I looked over the vehicle for recalls or extended warranties in case there was something but I could see no reason why that would be happening. I would have to advise contacting your dealership so they can diagnose this and find out what is happening (8m 5s) Visitor: That's terrible. The dealership wants to charge 180 bucks just to diagnose it. I think it's a serious safety issue. What if I was in an accident that damaged the passenger side and I couldn't get the baby out of the car seat located behind the driver ? (8m 51s) Visitor: I'm really shocked that my vehicle which is basically new is having a problem like this. (9m 6s) John Robert: When it comes to a diagnosis fee dealerships set their own rate so what I could suggest is to contact a second dealership as their fee may be lowner (9m 54s) Visitor: I am on a small island in the middle of the ocean. How many dealerships do you think there are?! (10m 55s) Visitor: Again, a safety concern and it's no longer covered or being addressed as a problem? Hmmm maybe I should have bought a foreign car? (12m 17s) John Robert: With our vehicles when a vehicle is within the factory warranty we will look into thing for our customers. Once outside that warranty a dignosis is needed to see what is causing the problem. Then we can see if there is something we can do to help. To start that process we need to know what the issue is (12m 31s) Visitor: Customer service much? (13m 28s) Visitor: I'm telling you the door will not unlock and I cant open it. Can I start a complaint? What is the process? (14m 34s) John Robert: Once you contacted us a file was created and will be kept on file. Once a diagnosis is completed and we can see what is causing the problem then we can see if there is something we can help with (18m 25s) John Robert: Are you still there [redacted] (20m 41s) John Robert: As I have received no response I will need to end this chat. 10/31/2019	Customer call seeking gw assistance for her vehicle. The back door buzzes when open/close. Sliding door opened out of the blue putting her family at risk The electric panel malfunction up to a point where the whole computer as well as her vehicle would shut off Customer doesn't meet gw parameters. Not the original owner, has no ls/cs. Has never taken her car to a dealership, purchased the vehicle used. Warranty expired 52k miles ago
10/31/2019	The customer called in and stated that she was looking for any assistance that we may be able to offer towards this concern. The customer stated that she had taken the vehicle into the dealer last spring regarding this concern. The customer stated that when ever she unlocks the door her rear passenger side door bakes a buzzing sound. The customer stated that the rear passenger side door will also randomly unlock and open by itself while she is driving down the road. The customer stated that she also has an issue where the power outlet in the back driver side has never worked. The customer stated that her electrical panel will also shut off and when it shuts off it feels like she still has a little power in the vehicle but then the vehicle will just shut off completely. The customer stated that this has been a repeat concern she has had with the vehicle since she got it and she wanted to see if we would be able to provide any assistance towards it. The advisor informed the customer that before we could look into any assistance towards this issue since it is a repeat concern she would need to have a recent diagnosis from a dealership.

Initial Description

I am writing about design flaws in the door lock actuators on the van sliding doors that cause them to jam and fail after only a few years. While the part is only $50-$70 to purchase, the labor required to replace the part has been quoted between $500 and $1000. Numerous other Town and Country owners experience this same issue, including other model years. I believe there should either be a recall for faulty parts or a service agreement with dealerships on a cost sharing for the part replacement.

Hello [redacted]

Thank you for contacting Chrysler Customer Care;

I can understand the dissatisfaction you feel, given Sliding Door Lock Actuator issue that you are experiencing with your 2016 Chrysler Town & Country. I appreciate the time you have taken to bring this to our attention and I would be happy to check into this for you.

We appreciate your comments and I have taken the liberty of logging your feedback. Comments like yours are always a welcomed and important way of getting feedback and helps providing the greatest possible satisfaction for customers.

Your request for repair cost assistance is understandable so, I have researched your request, and have utilized every possible resource. Your warranty for this issue was for 3 Years or 36,000 Miles, whichever occurs first. Furthermore, there are no service contracts, recalls or extended warranties pertaining to the Sliding Door Lock Actuator.

In regards to your 2016 Chrysler Town & Country, we fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, we are unable to accommodate your request for out-of-warranty consideration.

Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.

At this time, I will be closing this case.

Please do not hesitate to contact us if you need any further assistance by clicking here and sending us another email or calling us at 800-247-9753.

I also wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey, so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time, participation and for being a valued FCA customer.

Thank you again for your email [redacted] Have a great day.

Best wishes,
Jacob

Hello [redacted]

Thank you for contacting Dodge Customer Care.

I can understand the dissatisfaction that you feel, given the rear door concern on your vehicle. I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and, due to the nature of your concern, I would like to forward your case to our Case Management department for their attention and response.

To move ahead with this escalation, your vehicle would need to have been at an authorized dealership for diagnosis within the last 14 days. If not, it will be necessary for you to arrange an appointment and then advise us of the name of the dealership, the date and the time of the appointment. Should you wish I assist in booking your appointment, please provide the preferred dealership, date and time you would be available to bring the vehicle in. Keep in mind that your first preferred date may not be available.

Escalating your situation to a Case Manager will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have your concerns addressed and resolved.

Thank you again for your email. Please reply to this email message or call 1-800-423-6343 with your dealership name and appointment date/time.

Best wishes,

Mary-Lyn

Initial Description

Cx is seeking assistance for repairs on her vehicle.

Case Comments

Date	Comment
11/19/2019	Cx [redacted] has extended warranty and the vehicles sliding door locks have been replaced 4 times and are now broken again. Warranty is covering the parts for the repair but not the costs of having to tear down specific parts to repair vehicle. Dlr informed cx that an applique has to be broken in order to fix the locks. The vehicle intermittently locks itself. Cx states the passenger airbag light goes off & on when someone sits on that side, cx concerned the airbag on that side doesnt work. Airbag ($500) has been diagnosed and won't be covered by warranty. Cx transports [redacted] and feels her vehicle is death trap. Cx was last at dlr on Wednesday. Agent reviewed cx's warranties, couldn't find active SC/extended warranty though cx has some active factory warranties. Agent escalating case for further assistance due to cx having this repair serviced multiple times already. cx states dlr reset something in vehicle but it never fixed the concern. Initial Description

CST states door locked and will not unlock or open. Seeking repair cost assistance.

Case Comments

Date	Comment
11/20/2019	CST calling in because she is having issues with the passenger side sliding door, CST states that the door locked and now will not unlock or open. CST states she took vehicle to DLR #23867 and due to no longer under warranty repair cost would be between $400.00-$500.00. CST seeking consideration of GW cost assistance. Basic warranty expired by time on 01/11/2019 and mileage under 36,000. Informed CST that case will be escalated for review and consideration of cost assistance, CM will be in contact with her within 24 hours. CST understood and no further questions. Case number emailed to CST for records.
11/20/2019	Customers husband called in for the same issue. Agent advised husband wife has called in already and made a claim and a CM will cb in 1 bd.
11/21/2019	OB call to dealer at 2105582688. Dealer does not have the vehicle and has not worked on this vehicle within the last 2 weeks.
11/21/2019	OB call to customer at [redacted] Asked customer which dealer has her vehicle and she says she did not leave her vehicle with the dealer because they want to charge her $175 to diagnose the vehicle because it is out of warranty. She refused to go back to the dealer unless we say we will cover all of the costs. I explained before I can make any decision on cost assistance I need a diagnosis from the dealer. She refused several times to take it back unless we will pay for the diagnostic fees. I explained I cannot do that until I have a diagnosis on her vehicle.

Initial Description

customer called in because when she originally took vehicle to dlr to have sliding door repaired. She says it was making a scratching noise to which dlr said they cleaned the tracks to fix issue. Now customer says that door won't open at all as if it is permanently locked

Case Comments

Date	Comment
11/20/2019	Customer says dlr told her to give us a call to assist in repairs. Advised we would be able to have this assigned to a CM to see what assistance can be provided, but the vehicle would need to either have been diagnosed in the last 14 days, have an appointment scheduled to be inspected, or is currently down at the dealership. The last documented visit to the dlr was back in early August. Without something recent on file they don't know a more in depth description on what or how this could have happened in the vehicle. Advised I am able to give dlr a call to have the appointmetn set so case can be reassigned. Contacted SOUTH COUNTY OF MARIN CHRYSLER DODGE JEEP RAM 415-886-4929 to see when vehicle could be brought in but they stated they are in the process of changing ownership so they are closed for the time being until it's finalized. She said she would just go back to the original dlr then and see if we can get SA Julie on the line. Made a call to Autoworld (707) 762-2712. They stated they were down to 2 advisors for the day (Julie and another) to split scheduling and servicing customers in service. I was able to leave her a VM to provide us with a time to have appointment set. I will also try to give her a call back in about 30 minutes or so as the receptionist stated Original owner, low mileage ***If SA call back advise that customer can most likely do any time mon-wed next week or even the earliest tomorrow in the morning for her appointment
11/20/2019	****NOT AN SI CASE. Guided assist came on how vehicle concern was coded**** Reached back out to dlr to speak with SA Julie but she kept saying we need to authorize the services. Let her know we have no way to authorize services or even assist in any way without the diagnosis being done. Any authorization would go through your SM. She said she was having me connected to the SM but I was sent to the directory. Each time I would reach out to service I would just be left on hold Reached out to leadership and I was advised to have escalated in regards to this dealer giving push back when all we want is a diagnosis. They aren't being clear on what the issue is with this repair. Tried to make another call out to customer to advise that case has been sent up for assistance we will need to allow them 1 business day to be in contact with more information. Line was busy each time I called
11/21/2019	OB to Customer: No answer, Line ringed busy. (Attempt 1)
11/21/2019	Customer is calling in to speak with CM. Agent contacted the CM, who stated that she will take over the case. Agent then warm transferred customer over to speak with CM.
11/21/2019	IB from Customer: Customer called to inform that she would like an update. Writer advised that it seems vehicle doesn't have an appointment. Writer advised customer to set up an appointment for us to take a look towards goodwill assistance. Writer informed customer that diagnosis is not something we cover as a heads up and DLR is willing to waive the fee that is great. Customer understood. Customer to send me her appointment date via email. Thanked, and branded.
11/26/2019	OB to Customer: No answer, Line ringed busy. (Attempt 2)
12/03/2019	OB to Customer: Line ringed busy again until it disconnected. No email in the system. (Attempt 3)
12/05/2019	OB to Customer: No answer, Line kept ringing busy for the 3rd time now until it disconnected. Writer closing out case. (Attempt 4)

Initial Description

Chat Started: Monday, November 25, 2019, 14:38:02 (-0500) Chat Origin: NAFTA Dodge Brand Chat Agent Brandi (8s) Brandi: Hi, my name is Brandi with Dodge Customer Care. How may I help you? (1m 23s) Visitor: I am problems with a used car purchase from Hendrick Dodge Birmingham, Al (2m 34s) Brandi: I am sorry to hear that [redacted] What is the issue exactly? (6m 56s) Visitor: The car when purchased only had 14, 209 miles on it. The front seat was worn TERRIBLY. This was noticed on the night I purchased it but the next day I showed it to the salesman. He promised to have the seat cover replaced. This was in April. I have been trying to this done since that date. This is a long story but it is now 7 months later and after they have had my car since Oct 2 the replacement is only half finished and I am being lied to now. (9m 44s) Brandi: Oh my! i am sorry to hear that [redacted] certainly understand why you are chatting in! The vehicle is currently at the dealer having the work for the seat cover done? (16m 32s) Visitor: It is there to get a rattle or bump bump or however it should be described repaired that was discovered once I brought the vehicle home, to get the passenger back sliding door repaired to locked and get the seat cover replaced. Yes it is still there. Now let me add that they have furnished me with a rental van while they have had my car. BUT here is the problem. I have been told by the Shawn Yan the used car manager that this work is being done thru customer retention department. That these items were not under any type of warranty the factory or extended that I purchased. They want me to come pick my car. I am afraid that the rattle may not be repaired and I know that the seat cover has only been half repaired. The bottom / seat part has been repaired but not the back of the seat. (21m 36s) Visitor: I have requested to have the back seat cover given to me when I pick up the car so that I KNOW that at least I have that and can get it replaced after the holidays when "Their" "Trim Shop" not at Hendricks, can get to it. I was told by the sales man the company "Trim Shop" 205-822-0522 has the cover. However when I was given the phone number to the Trim Shop to verify that I could get the seat cover I was told by Melissa @ the trim shop that they do not have the seat cover and they have not been requested to order it. The sales man Van Cook was to order and get it to them. (25m 24s) Brandi: Oh my! I certainly understand why this is a frustrating situation!. Did the dealer say why they want you to come pick up the vehicle? (32m 38s) Brandi [redacted] (33m 49s) Visitor: Yes im here (34m 8s) Visitor: Because what the salesman promised on the seat they won't stand behind (34m 57s) Visitor: This is between me and the saleman even though the salesman is an employee of Hendrick (37m 17s) Visitor: The salesman is not being at work it seems more then he is there. Today he has had ANOTHER family emergency even though he promised me the seat cover today. He is not informing the sales manager of all the issues as the the progress goes. (47m 21s) Brandi: I am sorry to hear you are having this concern with the dealer. I can certainly have your complaint filed in our system against the dealer. I would recommend working with the dealership on if they can cover this issue with the seat for you or not. I recommend speaking to the sales manager or service manager. If you get the vehicle back and it is not repaired correctly you can certainly reach back out to us and we can send a case up for technical assistance. (47m 55s) Visitor: Let me ask this. Would the issues I have had, the rattle, the broken lock and the seat cover not be under some type of a warranty since the car had under 15,000 miles on it at the time I purchased it. (50m 25s) Visitor: I have tried to reach the service manager but have not at this time gotten a return call. The used car manager Shawn Yan has stated that this is a promise made by Van Cook the salesman and NOT Hendrick. Therefor he can not get in the middle of it. (57m 22s) Brandi: The seat cover being worn would not be under the manufacture warranty as it is not a defect, it is caused by an outside influence. The rattle and lock issue would come down to the dealers diagnosis if it is a defect or not however the basic warranty has expired so there is no guaranteed coverage, However we can look into coverage if the dealers diagnosis determines they are defects. Have they fully fixed the issues with the lock and the rattle? or have they not diagnosed them yet? (1h 0m 27s) Visitor: The lock has repaired to my knowledge. The salesman brought it to me 4 weeks ago and showed it did lock and unlock. The rattle at that time was suppose to be repaired but the salesman agreed to ride with me and heard the rattle for himself. He then took the car back for further repair. (1h 13m 59s) Brandi: When you get the vehicle back and if there is still an issue with the rattling please contact us back and we can send a case up for technical assistance. As for the issue with the seat i can certainly have your complaint documented but it is something you will have to work with the dealer on. I recommend asking the used car manager to speak to the general manager or area manager, I apologize we do not have their information to provide. You would have to ask the dealer. (1h 16m 16s) Visitor: OK, I don't understand why you don't have this information but I guess it is what it is. When I call and ask for that person I get placed back with the used the used car manager that to date has been no help. (1h 17m 7s) Visitor: I respectfully ask that you move this complaint up the ladder. (1h 19m 1s) Brandi: I apologize [redacted] Complaints are reviewed and handled internally. The dealerships are independently owned and franchised, for this issue with the seat being covered or not you would have to work with the dealership. (1h 28m 58s) Brandi: [redacted] (1h 30m 7s) Brandi: I do apologize however due to no response I will be terminating this chat, please chat back or call us at 1800 992 1997. Thank you for chatting in! I hope you have a good night.

11/27/2019	[redacted] Customer called in left V M message concerning this case. Customer advised that the problem is still occurring. The vehicle has now been diagnosed with a failed actuator. Hertrich is saying that the actuator is not covered under warranty. Customer disagrees and would like CM to rectify or clarify.
11/27/2019	***INBOUND CUSTOMER EMAIL TO CASE [redacted] Linda, Good evening. I dropped my van back off at Hertrich today for the second visit due to the malfunctioning door and received word back that it is a failure with the lock actuator. My initial complaint was that the lock would not operate nor would the door open/close with remote or within vehicle. Since the actuator made no noise or response when button was pushed, it was not hard to believe this was not the issue originally. I was under the impression that the actuator was replaced, however Hertrich is stating that it was not and the problem last month was with a connecting rod assembly. Again, my original issue was that the door lock would not respond to commands to unlock and open/close. While it did after initial repair that you kindly covered less deductible, the problem of the "buzzing" actuator showed up a week later on the same door. My hope and request is that you will consider this as part of the initial problem and cover it as well. Please reach back to [redacted] I hope you and your family have a safe and Happy Thanksgiving [redacted] mailto [redacted]

Regarding Case Number [redacted]

Hi [redacted]

I'm contacting you because your Dealer has advised me your vehicle has been repaired and returned to you. I wanted to ensure that everything is resolved and completed to your satisfaction. If everything is to your satisfaction, there is no need for you to call me or to respond to this email. However, I will leave your case open for two business days before closing it. If you do need to contact me, I can be reached at 866-932-3873 ext. 3020166.

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and we hope we were able to resolve your concern to your satisfaction. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a Case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best.

Thank You,

Linda

Regarding Case Numbe[redacted]

Hi [redacted],

I'm contacting you because your Dealer has advised me your vehicle has been repaired and returned to you. I wanted to ensure that everything is resolved and completed to your satisfaction. If everything is to your satisfaction, there is no need for you to call me or to respond to this email. However, I will leave your case open for two business days before closing it. If you do need to contact me, I can be reached at 866-932-3873 ext. 3020166.

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and we hope we were able to resolve your concern to your satisfaction. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a Case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.?

It has been a pleasure working with you, all the best.

Thank You,

Linda
FCA Case Manager

Chat Started: Thursday, November 28, 2019, 01:20:58 (+0000) Chat Origin: NAFTA Non Premium Brandsite Chat Agent Alana (8s) Alana: Hi, my name is Alana with FCA Customer Care, How may I help you? (37s) Visitor: Hi, I have a serious problem with my sliding door. It won't unlock. (1m 8s) Visitor: I tried everything and I cannot manually or automatically unlock the door. I think this is a safety issue. (2m 27s) Visitor: My mechanic has diagnosed the problem and thinks that the door acutator needs to be replaced. So, I'm waiting on parts. Meanwhile the other sliding door stopped locking automatically. I can manually lock and unlock it but it won't automatically lock when I push any of the lock door buttons. (2m 30s) Alana: Hello [redacted] I can look into this for you. While you wait, can you please provide the VIN, approximate mileage on your vehicle, your complete address, Zip, phone number and email to verify we have updated information on file? (2m 48s) Visitor: Can you look it up on my mopar account? (4m 34s) Visitor: 2016 CHRYSLER Town & Country VIN [redacted] mileage about 50850. (4m 56s) Visitor: address [redacted] waikoloa hi [redacted] 5m 2s) Visitor: [redacted] 10m 3s) Alana: still looking into this for you (11m 42s) Visitor: ok (14m 22s) Alana: Do you have an ETA for the part? (14m 37s) Visitor: I think it is arriving next week (23m 30s) Alana: Thank you for waiting what I can do for is I can create a case here and escalate it for technical assistance. What dealership are you currently working with? (24m 2s) Visitor: I am working with a local mechanic since I am out of warranty (25m 10s) Visitor: I just dont understand why this hasn't been flagged as a recall. There seems to be a lot of chatter about this problem on the internet and frankly it is a safety issue for me. When I have to go around the vehicle to open the back door to let my child out of the car it is not safe. (25m 23s) Visitor: Can I lodge a complaint (26m 32s) Visitor: start a campaign, or do I need to write to a government official to get my voice heard. I am at a loss. I purchased this vehicle and it is only a couple of years old, I don't think it should be having this problem. I am very concerned (28m 35s) Visitor: The dealership wanted to charge me a minimum of $180 just to diagnose the problem because it is out of warranty. I think that is ridiculous and again, it seems like a safety issue not being able to unlock a door! Is there anything you can suggest to help me? please. (30m 43s) Alana: I do understand what you are saying, the only option I am able to advise is technical assistance through the dealership. (33m 11s) Visitor: Well, I guess that is better than nothing. I appreciate anything you can do (33m 20s) Alana: What dealership are you currently working with? (33m 27s) Visitor: happy thanksgiving. (34m 1s) Visitor: I am not working with the dealership in Kona Hawaii because they wanted to charge too much to even diagnose the issue. I am working with a local mechanic SAE certified (34m 23s) Alana: Do you happen to know the name of the dealership? (34m 38s) Visitor: The dealership that I am not working with? (35m 2s) Visitor: or the local mechanic that is going to be working on my vehicle? (35m 41s) Alana: The dealership that you are not working with and the mechanic that will be working on your vehicle (36m 50s) Visitor: the dealership is Kona Auto Center (not working with) and the mechanic (Dan Hill) (39m 13s) Alana: Okay thank you [redacted] (39m 24s) Visitor: What can I expect next? (41m 59s) Alana: In order for me to escalate your case for technical assistance you will need to bring your vehicle to Chrysler certified dealership for a diagnosis in which we could potentiality help with costs. (44m 29s) Visitor: Boo hoo, that seems counterintuitive. I have to spend a minimum of $180 to get my problem diagnosed by a dealership so that you could "potentially" help with the cost? Does "help" mean that the cost would be covered or that it would be discounted? (45m 52s) Alana: If I escalate your case a case manager will be in contact with you within 1 businesses day to discuss this situation with you. (46m 44s) Visitor: But, you cannot escalate without me paying the dealer? is that correct? (47m 13s) Visitor: Can I do a "what if" scenario with a case manager before I go to a certified dealer? (55m 55s) Alana: We do appreciate your concern and have documented your feedback, I would advise to keep your receipts if there is ever a recall you will be eligible for reimbursement. (58m 40s) Visitor: okay. I really appreciate your time. As you can tell, I am quite frustrated about this situation. I have not been using my vehicle to transport my child since the door stopped unlocking for fear that she might be trapped in the car and I wouldn't be able to get her out quickly if anything were to happen. it becomes very inconvenient and worrisome. Mahalo for your care. I hope you have a safe and enjoyable holiday weekend. Sincerely [redacted] (59m 22s) Alana: Yes, I do understand your concern with this situation. Have a safe and enjoyable holiday as well. Thank you for contacting Jeep Customer Care. Please chat with us again if you need further assistance. You can also look on our website www.Jeep.com. Have a Great Day!

12/02/2019	Customer took out a extended warranty on the electrical part on her vehicle. Her electrical left side sling door is stuck in the lock position and will not unlock. Customer stated that she have done some research and Dodge is aware of this issue, but will not issue a recall. Agent reached out to MVP and was given the number 800-677-5782; which in return was given to the customer.

Dear [redacted]

Thank you for contacting Chrysler Customer Care. We are happy to assist you with regards to your concern. Your satisfaction is important to us!

This is to inform you that we have reviewed your case and as per checking with the document you had sent us, the repair order you had sent to us is missing a few pages. For us to process your request for a reimbursement for repairs you have made to your VIN, please submit a clear copy of the repair order in complete pages as we are missing page 2 of the repair order and also, please re-send page 1 and have the document pictured at a front angle as you have pictured it where we cannot see what is written on the upper part.

Your case number is [redacted]. Please send us the document before the 9th of this month. This case will be closed if the documents are not received by that date.

Please don't hesitate to contact us for any other concerns. Thank you for your continued business with Chrysler Automobiles.

Sincerely,

Joelma
Reimbursement Specialist

Hello [redacted]

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]

The FCA Case Management Telephone Number is: 1-844-827-2006

My Direct Extension is: 3021005

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Hello [redacted];

Thank you for contacting Chrysler Customer Care.

We are disappointed to learn that you are having a concern with the rear sliding doors on your 2016 Chrysler Town & Country. We have reviewed your vehicle information and there are currently no recalls applied to your vehicle that would address the issue you are having.

We do recommend that you have the concern diagnosed and repaired by your local Chrysler dealership. Unfortunately the basic warranty on your vehicle has expired so the concern would not be covered.

For your convenience, I have provided contact information for 2 dealerships in your area below and I am happy to help you schedule an appointment if you like.

Fresno Chrysler Dodge Jeep Ram
6162 N Blackstone Ave, Fresno, CA 93710

Initial Description

Purchased 2016 Grand Caravan from a dealership less than one year ago. A week after purchased, sliding door lock actuator failed. I paid $1200 to get it repaired at my local dealership. Now the other slider door has failed. The door is currently locked and inoperable, thus unsafe. This should be a recall issue. Blogs speak of this condition, which appears common to these caravan doors. I've owned many vehicles in my life and it's a given that the door locks function throughout the life of the car. I've made an appointment to have the repair made at my local dealership and called\nDodge Customer Care to discuss this matter. The woman explained that the dealer is aware and upon diagnosis a service advisor will tell me how this will be handled. Mechanically faulty and after already paying for this once, anything short of repair at no cost will leave me disappointed. Please, your understanding and support is greatly appreciated. Thanks!

Hello [redacted]

Thank you for contacting the DODGE Customer Assistance Center.

We are concerned to learn of the problem you are experiencing with your door locking mechanism and I would like to assure you that I will do everything I can to assist you. We take a lot of pride in our vehicles and our customer service and I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

What I would like to do is contact your dealer tomorrow and find out what is going on with this happening on both doors like this? I will be back in touch with you once I have gathered more information.

You are always welcome to reply back to this email and we will respond back to you as promptly as we can. If you prefer, you can also call us directly with your questions at Dodge Customer Assistance Center by calling 1-800-423-6343.

Sincerely,

Jody

Hello [redacted]

Thank you for your patience while I was trying to contact the dealership.

We have made multiple attempts to contact your dealership with no response. In order to get this resolved, we recommend you working with your dealership.

I would like to offer you from me, 2 years/4 oil changes free of charge to be done at any authorized dealership that you would like to go to. If you accept this from me, it would be put on your vehicle as a Service Contract but would take a couple of days.

Think about it and let me know.

You are always welcome to reply back to this email and we will respond back to you as promptly as we can. If you prefer, you can also call us directly with your questions at Dodge Customer Assistance Center by calling 1-800-423-6343.

Sincerely,

Jody,

Thank you for your reply. With due respect and as a matter of principle, these slider door locks are faulty and expensive to repair. At 17, 000 miles I paid $1,200 for the passenger side door repair and now at 26,000 Im not feeling good about the same issue on the driver side. My request is for Dodge to recognize, authorize and rectify my issue in a direct manner, whereby an offer of free oil changes fails to satisfy. You may contact my dealership, Chrysler Dodge Jeep Ram of Seattles blue team service department at 206 418-5027. I look forward to a meaningful response. Your assistance and support is greatly appreciated.

After our phone call, in closing and for the record, Dodge Customer Care states concern overs problems, assurance of assistance, pride in their vehicles and customer service and a guarantee of appropriate steps towards resolution. Result: none of that happened. The support documentation provided was not reviewed or considered, my dealership was never contacted and the guaranteed appropriate steps toward resolution was to explain my misfortune. Hoping for better, a claim has been filed with the NHTSA and I suppose when Im done with this vehicle, the next one will be something other than FCA. Disappointing.

Hi there the vehicle has been back in since Wednesday and they are unable
to find the cause problem. So far they have replaced wires and and then
The total intergrated power module and its still lighting up error codes on
the dashboard. Today I was called and told I need to agree to a 3 hour
diagnostic commitment fee for them to further evaluate. Of course I have
to move forward knowing that If I don't I could possibly end up stranded
or worse with my kids. I cant understand how there are so many problems
with only 33,000 miles. At this point im being told that their mechanis
is 'frustrated and working for free'. Clearly there are major problems
that they are unable to resolve.

Hello [redacted]

Your check has been sent for payment and you should receive it in 7-10 business days but allow up to 30 for it to arrive.

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]

The FCA Case Management Telephone Number is: 1-844-827-2006

My Direct Extension is: 3020202

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may open a new case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Hi there I'm wondering if the Service center has communicated with you at all. I have been without my this vehicle now since December 18th. I can't even convey how not only frustrated I am but extremely concerned that this going to be a continuous problem. This vehicle clearly has safety issues. Corroded wires that weren't the problem. Then The Total integrated power module (again not the problem) I understand that I am not the first owner of this vehicle. I bought it used with 20,000 miles- It had all the paperwork supporting that it was maintained. Nowhere in the owners manual does it say before 30,000 miles rip entire vehicle apart and look for troubled wires. This is not a maintenance issue. This is a poorly made vehicle that has huge safety concerns. In no way shape or form should a vehicle lock the doors and lift gate and make passengers unable to get in or out of car manually. The service center that has my vehicle called me on December 21 to tell me they needed a commitment of 3 more hours of diagnostic testing to figure this out---- mind you I was told that after replacing the TIPM that the vehicles "runs" but "all the service lights are flashing on the dashboard again" ----- the same thing that lead to this vehicle to shut down and not allow doors to open. I was given the option of driving it away because it still runs !!! or giving them $500 more dollars to find the actual problem since they now have replaced 2 things. This shouldn't even be thing. There should be no problem this big on a vehicle with 32,000 miles that has now spent 2 weeks this time and a week last time in the shop for the same issue. I stopped calling to find out when I'm getting this vehicle back. There has been no update from the dealership since Thursday in which I was told " we will call you when we we have contacted Chrysler star to assist" I took my vehicle to a certified Chrysler mechanic. I have never owned a Chrysler! I can also I say I have NEVER experienced anything like this! I have left a few emails to you and now 2 phone calls and haven't gotten any kind of response. I don't know if your on vacation.

thank you

Thank you for contacting Dodge Customer Care. We are happy to assist you with regards to your concern. Your satisfaction is important to us!

My Name is Joelma and we appreciate your time and effort in bringing this matter to us. Upon thorough review and consideration, we regret to inform you that your request for a reimbursement has been denied due to the following reason/s:

- The vehicle is outside of its warranties and does not currently have any active Service Contracts

As much as quality service is our concern, please be informed that there are certain guidelines and qualifications that we need to meet in order to grant your request.

Please don't hesitate to contact us for any other concerns. Thank you for your continued business with Dodge Automobiles.

Sincerely,

Joelma

Well thanks for taking a quick look at this. Between this van and my wifes first dodge neon engine leaking oil we will never be buying another dodge. But know with our financial situation we are stuck with this van and already have to put another 4 hundred into it for door locks going bad with 60000 miles. This is a joke and i hope they enjoy our money that we are wasting. Merry Christmas.

12/18/2019	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted dealer to speak with SM Kurt. SM Kurt advised customer is the head technician at his dealership. He finds it funny that the shocks have to keep being replaced and is getting sick of it. He has a rattle in the rear suspension. It is a cut and dry shock noise, right and left were on 3rd or 4th replacements at high 20,000 miles. Kurt advised him to call into us. They mentioned to AM Jason about doing an upgrade to low level shocks, and Kurt believes it would solve his issue. They know of issues with the shocks with these vans. Customer stated he gets paid to replace the shocks, but he is tired of replacing them. It is a highway driven vehicle to and from work. Meticulously taken care of. Kurt advised it is an easy solution, but he doesn't know if Chrysler would be willing to cover it. Customer stated if it doesn't upgrade them, he is going to be responsible for continuing to replace the shocks at every so many miles. Repair would be a vehicle option update, needs lower level shocks and be done with the problem. He gets all maintenance done there at the dealership with himself doing it. If he has an issue, he will continue to work after shop hours and it is under warranty so he gets paid to work on his own vehicle. SM Kurt advised we should cover this for him, but doesn't know if we would be willing to. CM thanked him.
12/18/2019	**********OUTBOUND CUSTOMER CONTACT********** [redacted] ********** Customer preferred contact - phone Email - [redacted] Earliest call time - anytime, usually close to his phone, leave message Latest Call Time - CM contacted customer to discuss the case and introduce herself. Customer stated it would be just like adding a factory accessory like remote start. Customer advised there are other sales codes as a different shock absorber for this body style and be covered under his warranty moving forward. CM advised she is going to reach out to the AM because it is considered modifying the vehicle. Customer disagreed and advised it wouldn't be modifying the vehicle because it is an accessory if switched out. CM advised she will follow up with him after looking into this. customer agreed, and CM is going to email him her information.
12/20/2019	CM sent email to AM for further direction.
12/20/2019	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted dealer to speak with SM Kurt. CM asked him if he could email her warranty pricing to replace those shocks to the low level shocks. SM Kurt advised he will give CM a callback with the pricing today. CM thanked him.

12/20/2019	**********OUTBOUND CUSTOMER CONTACT********** [redacted] | DODGE ********** CM contacted customer to discuss the case. CM advised she reached out to the AM about this decision and he is looking for the pricing on the low level shocks. CM advised she spoke with SM Kurt and he is going to give her a callback with the pricing of the shocks so she can send it to AM Jason to give a different aspect on the decision. CM advised she will follow up as soon as she gets a word back. Customer stated that is great and thanked her.
12/20/2019	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** SA Matt called in to discuss the warranty pricing of the repair needed. 12/23/2019	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted SM Kurt to discuss the case. CM advised Jason authorized to move forward with the rear shock replacement. SM Kurt advised that is great, he will get them ordered and let CM know when they are in. Kurt agreed and thanked CM.
12/23/2019	**********OUTBOUND CUSTOMER CONTACT********** [redacted] | DODGE ********** CM contacted customer to discuss the case. CM advised AM Jason authorized to move forward with the rear shock replacement, and she has already let Kurt know to go ahead and order the parts. Customer stated he knows how to rush that process. CM advised she will follow up after the parts are in to see when they are being installed and we will go from there. Customer agreed and thanked CM.
12/26/2019	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted dealership to get an ETA on the parts for the shock replacement. CM spoke with Chris in the parts department who advised the shocks will be in today. CM thanked him.
12/26/2019	**********OUTBOUND CUSTOMER CONTACT********** [redacted] | DODGE ********** CM contacted customer to discuss the case. CM advised she heard the shocks will be in today and CM asked him when they are getting installed. Customer stated he doesn't want them installed until the sales code changes on his van so the new shocks will be covered because that is thew whole point. CM advised she understands. Customer stated when he does it for customers, he sometimes has to open a STAR case, so he doesn't know if he has to go through AM Jason or not for this or if he can just open a STAR case for it. CM advised corporate is still on shutdown so she will talk to Kurt and find out then let him know. Customer agreed and thanked CM.
12/26/2019	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** SM Kurt called in to speak with CM about this case. SM Kurt advised he is trying to find out how to insert this new sales code so that moving forward, the new shocks will be covered if something were to happen. Original sales code was SDC and adding SER as the new ones. CM advised she will look into this for him. SM Kurt thanked her.
12/30/2019	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** SM Kurt called in to speak with CM about this case. CM was advised SM Kurt was busy. CM advised she will call back.

12/30/2019	**********OUTBOUND CUSTOMER CONTACT********** [redacted] | DODGE ********** CM contacted customer to discuss the case. CM asked if they have figured out how to do the sales code switch yet, and advised she left Kurt a message for a callback. Customer stated he hasn't figured it out with Kurt yet. Customer advised he looked through all the dealer's aspect of things, and either AM or STAR would have to change it on his behalf, they cannot change the sales code from dealer's end. CM asked if Kurt reached out to AM and customer stated he thinks he did, they are just waiting on a reply, but know that AM is on shut down still for holidays. CM thanked him, and advised she will touch base later this week. Customer agreed and thanked CM.
01/02/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. SA Matt advised SM Kurt is out on a test drive right now, and to call back in about 20 minutes. CM agreed and thanked him. CM called back to speak with SM Kurt. SM Kurt advised he doesn't know if AM is going to get back to him, but he searched dealerCONNECT and it told him to go to dealer updates and it didn't help at all. He is advising that corporate or Jason will have to put in as there is no direction on dealerCONNECT. Kurt is going to send another email to AM Jason and copy CM on it to stay in the loop. CM will follow up next week.
01/02/2020	**********OUTBOUND CUSTOMER CONTACT********** [redacted] | DODGE ********** CM contacted customer to discuss the case. CM advised she spoke with Kurt and was advised he is going to reach back out to AM Jason as he wasn't near his laptop because of the holidays, until today according to his email. 01/07/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. SM Kurt advised he hasn't really got much out of how to do it from AM. Kurt is wondering if CM can reach out to AM because customer will not take the shock replacement until the sales code can be switched. CM advised she will try to reach out to him herself and let him know if she hears back. SM Kurt thanked CM.
01/07/2020	**********OUTBOUND CUSTOMER CONTACT********** [redacted] | DODGE ********** CM contacted customer to discuss the case. CM stated she spoke with Kurt and was advised he has tried to speak with AM but has not had any luck and asked CM to reach out to him as well. Customer stated he is very dissatisfied with AM right now because as a customer he is very frustrated with how this has played out and the only reason he has been so patient is because as the head tech at the dealer, he knows these things can take time but that this has been going on for like a month now. CM stated she is sorry it is taking a bit longer than expected and that we appreciate his patience with us. CM advised she will reach out to AM and see if she can get any luck with getting the sales code switched over. Customer thanked CM.
01/08/2020	CM sent email to AM about updating the sales code for the rear shock replacement.

01/15/2020	01/15/20-This writer reviewed with AM on this date. AM advised that the customer has had previous concerns with the rear shocks on his vehicle. In an effort satisfy the customer, AM agreed to authorize replacement/installation of upgraded rear shocks in the vehicle. In addition, sales code SER has been added to the vehicle as well to support this upgrade. SER is a stand-alone optional upgrade on an 2017 RTKH53, but for fleet vehicles only. SER will now show when the Dealer runs a VIP on the vehicle. Customer should be apprised that this is a one-time goodwill gesture for the previous concerns that he has had with the vehicle. SER-Load Leveling and Height control, is/was a $290 MSRP stand-alone option at the time of purchase; this customer is being offered this upgrade at no-charge, due to AM involvement and the previous concerns he has had. No further action necessary at this time...mam50
01/15/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. CM advised she got an update from CRM Matt on the case advising the sales code has been changed in VIP. SM Kurt advised that is great. CM advised she would like to just double check the number she is entering for the DM Notes but we can do that on our phone call tomorrow morning since the TA is there today for another case, CM advised Kurt she is sure he is tied up today with it. Kurt agreed and thanked CM. CM asked if our customer is currently working with TA right now and Kurt advised yes he is, but he will relay the customer the information since they are together right now. CM thanked him and advised she will give him a call tomorrow morning.
01/16/2020	*****Outbound DLR Contact****** Agent called DLR 27046 at 7154794726 and left SM Kurt a VM and requested a call back to the CM with an update on this vehicle.
01/16/2020	*****Outbound Customer Contact***** Agent called the customer at[redacted] and advised the customer of the recent details of the case. Customer understood and stated that the DLR is still working on the vehicle and he is requesting for us to remove the SDC sales code so that any DLR could use the SER sales code instead if there are any concerns with the shocks going forward. Agent stated that we will update this request for the CM and we will see if this is a possibility and get back to him. Customer understood and thanked the agent.
01/16/2020	*****Outbound DLR Contact***** Agent called DLR 27046 at 7154794726 and spoke to SM Kurt who stated that the actual repair is complete but the customer wants the sales code removed. Kurt stated that the sales code removal request may need to go through the CRM but is unsure if this is possibility as he has never ran across this specific concern before.
01/20/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt or SA Matt as she received a voicemail from SA Matt asking for a callback. 01/20/2020	**********OUTBOUND CUSTOMER CONTACT**********[redacted] | DODGE ********** CM contacted customer to discuss the case. CM advised she is trying to get the SDC code changed today, but that head office is off today for holiday, may take a few days to hear back. Customer stated that is great, and he will wait to hear back. CM thanked him.
01/23/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. SA Matt advised Kurt will call CM back. CM agreed and thanked him.
01/27/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. SA Matt advised he is out in shop trying to fix one of the plow trucks. CM advised she will call back after lunch then.
01/27/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. No one picked up.
01/28/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. No one answered. CM sent an email to SM Kurt asking for a call.
01/28/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. SM Kurt stated he spoke with someone while she was away while they were in shock codes and there is still a code for SDC and that SER was added. CM advised basically, the sales code has been changed, and they were given instruction to go ahead with the repair. She cannot change that. Kurt understood but played a scenario and we checked the service library, it shows up with his VIN but he is going to check if it shows when going to order parts to replace them. CM will follow up later this afternoon. Kurt agreed and thanked CM.
01/28/2020	**********OUTBOUND CUSTOMER CONTACT**********[redacted] | DODGE ********** CM contacted customer to discuss the case. CM advised we are working on double checking with the parts manager that it pulls when they put in his VIN. Customer stated he is worried about what if his wife has the vehicle somewhere and the shock blows out. When they go to order parts on STAR parts, it still shows SDC code as the shock equipped on the vehicle. Customer stated he already checked with his PM that this was the case, it doesn't say on there that the SER code is equipped on the vehicle. Which means to him, the only dealer that will know those shocks were replaced, is Eagle River but if they travel, they could be anywhere. CM advised she understands and she is following up with Kurt later today but she wanted to keep him updated. Customer thanked CM.
01/29/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. CM couldn't get through on the dealer phone so she called Kurt's cell phone. SM Kurt advised when he pulls up the vehicle through their STAR parts system, it still is showing the old sales code SDC and not the SER. CM stated she will see what she can do but can't make any promises. Kurt understood.
01/31/2020	**********OUTBOUND DEALERSHIP CONTACT********** Eagle River Dcjr Inc. | 27046 | 7154794726 ********** CM contacted the dealership to discuss the case with SM Kurt. CM advised she tried to move up and try to get it changed in the system completely to the new sales code in case they have to order parts, but she is not able to get it done completely. CM was directed that the first thing dealership would look at is in VIP and it shows up there. SM Kurt advised Dan is not going to take this well and may ask to move up to supervisor and their supervisor and so on. CM advised she doesn't blame him and wishes she could do more to help them out further. SM Kurt advised no, the first thing they look at typically when they need parts ordered is STAR parts and that's the issue that it is not showing up. CM advised she is going to let Dan know but knows he isn't going to be happy. CM advised she will be entering the DM notes today for the repair. SM Kurt agreed and thanked CM.

Good afternoon [redacted]
I just wanted to thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer. PLEASE give me a call directly if you have any other issues at all, I mean it! Or you can shoot me an email directly on my FCA account at amanda.olson@external.fcagroup.com

It has been a pleasure working with you and I wish you all the best in the future.

12/17/2019	Cx: The left sliding door does not open. Why is there not a recall on it. My son saw online this is a common issue. The dlr said the repair cost is $900-$1100.00 to get it repaired. Agent advised the cx you will have to reach out to the NHTSA to voice your concern. The number is 888-327-4236. After so many people call and voice their concer about the same issue; eventually they will issue a customer satifactory or safety recall for the part of concern.

12/31/2019	Customer says vehicle has been at the dealer ship for about 3 weeks with the same concern she brought it in for. She says the biggest thing that scared her was not being able to get the doors unlocked to get her child, or thinking of it not statring when she has all of her children in there. Advised with the issue coming back we are able to have this assigned to a CM for the repeat vehicle concern

Hi Just wanted to put an update on the timeline for this issue. I have officially been without this vehicle for a total of 33 days today. The last time anyone spoke with me from the dealership was a voicemail left stating that "everything should be wrapped up by the 1/15" In which the message also states that "we should have your concerns addressed by this time" That statement alone invalidates the large picture of the potential for a real safety issue and lack of concern. An issue in which I will address when this is all said and done from a customer service representative that has also made this entire process so much worse.
Timeline
12/7- Car towed into shop- d/t all signals on dashboard alarming, windshield wipers going non stop, radio and lights flashing in vehicle. vehicle showing it was in reverse while it was in fact in drive. Best of all just completely shutting down mid drive and then all doors including rear hatch not opening.
------- found to have corroded wires
12/12-- Late evening car picked up-
12/18--- car back in shop doing the same thing it was brought in for except didn't shut down.
12/19- told its the Total intergrated power module and is being replaced
12/20- told the dashboard is still doing all the things it started with before it shut down last time
12/21 - received a call from Jeff stating that "the mechanic is basically working for free and that they need a commitment of diagnostic testing of at least 3 hours to continue working on the vehicle" I was told if I choose to not commit to that they will put the vehicle back together and its drive-able (I'm super happy that the safety of loved ones is not valued at this time that the statement drive able would even come out of their mouth) Of course I verbally agreed to continue on this process because I am not driving a vehicle knowing the problem is not fixed especially on a thruway with kids. I cant even believe it would have been allowable!
12/26 - have not heard anything so placed a phone call for an update -- I was told they will call me.
1/2-- still have not heard anything from dealership. placed another call--- then told that it will not be looked at again until Monday
1/8---- Received a voicemail from Jeff stating that they found the problem to be an Instrument Cluster and the part is ordered and it will be wrapped up and ready January 15th

I have not heard anything either way at this point. I have completely lost all faith that this vehicle is going to be safe for the kids I drive around in. You have absolutely been wonderful through this process and I appreciate that you have wonderful customer service skills and our conversations do not infuriate me. The past 33 days I have been lucky enough to be loaned a vehicle from father in law-- sadly its a truck and does not have the capacity to even hold my family nor kids. I have zero interest in talking to a so called customer service representative that feels the need to tell me how put out they are and how frustrated their mechanic is. This has been a complete nightmare/inconvenience for my family. Yes 12/22 they did offer me a rental vehicle by that time a car was already taken out and insured so too little to late.

I can certainly understand your frustrations and you are on my list to get some answers from the dealership. I did tell Jeff we would take care of the costs for the diagnosis which he was advised of last week as we want to make sure you are being taken care of and the vehicle issues have been addressed. I will reach out once I get an update for you. I have documented your concerns and will do my best to get details worked out for you.

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is: [redacted]

The FCA Case Management Telephone Number is: 1-844-827-2006

My Direct Extension is: 3020202

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

trim needs removed to repair lock

Case Comments

Date	Comment
01/07/2020	customer states that vehicle is at dealership having the passenger side sliding door lock repaired and dealer states that they need to remove the trim to repair the lock and that it is glued on. Dealer states that the odds of being glued back on properly are slim to none..Lock is covered under the lifetime service contract but the trim is not covered.The two pieces of trim that are not covered are 5020668AA at a warranty price of $117.83 and the second part number is5020666AA at a warranty cost is $118.98
01/08/2020	***CUSTOMER INQUIRY*** Customer is calling in seeking goodwill on the applique that needs to be removed for the DLR to fix the lock that is covered under her MVP contract. Customer states that it is going to cost her $230.00. Customer feels as though because the DLR has to remove the applique that is glued on, that it should be covered as well. Customer is looking for coverage on the applique. ***AGENT ADVISED*** Advised that we would not be able to provide coverage for the applique repair. Agent advised that she should contact MVP to inquire about coverage for applique. Agent attempted to transfer customer over but due to high wait times, agent provided customer with the contact number.

Case Comments

Date	Comment
01/09/2020	Cx called in due to issues with her sliding door on the passenger side. Cx states that her her passenger door is broken due to the actuator and latch has been broken and have been broken for a few months now. Since cx had the vehicle she has been having issues with the sliding door and didn't know it was broken till she took it to the dlr to have it serviced. Cx is out of some warranty range and cx is looking for assistance to see if we can do something to help her out in this situation. Vehicle is currently at the dlr at Perkins Motor Company. Dlr did provide cx with a loaner vehicle. But dlr is stating in order for them to do the fix it is going to cost the cx $272.49 just to have this repaired. So cx is reaching out to us for help.

01/14/2020	***Customer concern** [redacted]had it in 11 times in 2 years. Never going back to the dealership again. Assured that it has been fixed. But it wasnt and needs to start again with another dealer and is looking for assistance. 7/17 to 10/19. Had it in 11 times. 68000. West court. Complant courtland chysler dodge jeep. Spoke with the sales manager and said people drive differently. Been driving for 35 and first time this has happened with a vehicle. Theyll be okay for a little bit and out of no ware there is a crunching . Down a hill after they repair it sounds like a truck trying to stop. Try changing the style of break pads passenger sliding door in the back it wont unlock. Slider side latch. Lock doesnt disengage. Called her and its likely that they will break to the panel. So told the customer that she would need to pay if they broke it. ***Agent Advised*** Checked into it and it would be considered consequential damage but did put in feedback for our customer on the dealer. Also recommended the new dealer could see if there is another type of pads they can use for her. Also when the customer gets it diagnosed she will call back and reference the case to see where we can go from here

Customer states when the drivers side door is locked, it makes a buzzing noise.

Case Comments

Date	Comment
01/20/2020	Customer called in reporting that when he locks the driver side door, it makes a buzzing noise. The customer states he looked the issue up online and a lot of people seem to behaving the same issue. The customer inquired on whether there was a recall in place for the issue. Agent informed the customer that there were no recalls on his vehicle at all, and if he was having an issue a rip to the dealer should be made so that the vehicle could be examined. Agent advised the customer that we dont issue recalls at customer care, NHTSA does. Agent tried to provide customer with NHTSA number, but customer requested supervisor. Agent contacted resource line but was unable to speak with a Senior Adviser. Set up call back for supervisor.
01/20/2020	TL contacted the cst and informed him that this is not a known issue at this time and NHTSA has not issued a recall for this concern. TL recommended the cst go to the dlr, and if the dlr can cover the repair through their service contract, they should pay their $100 deductible.

01/20/2020	Customer calling in and states that when he locks his doors the rear passenger side makes a buzzing sound. The customer states that this has been happening for about a month now and that he read this was an issue. The agent explained that if there is not a extended warranty on this then there will not be anything that we would be able to do. Agent looked up the warranties on the vehicle and explained there was not an extended warranty for the locks the customer was wondering if this would be covered under his service contract so agent did a warm transfer to MOPAR so he could see if this would be covered under the SC>

Initial Description

Last weekend we took our van in to be looked at there was an issue with the slide lock on the side door and the van ran rough when parked we purchased this vehicle new from this same dealer. They then told us our warranty wouldn\342 t cover anything that they found if it was electrical and I would be responsible for a diagnostic and for anything they find not under power train I thought my warranty up to 60000 covered all and I was told my vehicle wouldn\342 t need a tune up until 100k I thought I would receive better service since I have two vehicles with them I was wrong I will do the work myself of find someone else to handle my repair needs.

Hello [redacted]

Thank you for contacting Dodge Customer Care.

We are disappointed to learn of the problems you are experiencing with your 2016 Dodge Grand Caravan and I would like to assure you that I will do everything I can to assist you.

In regards to your warranty inquiry, the Basic Warranty was for 3 years or 36,000 miles, whichever comes first. According to our records you have exceeded this warranty by time and mileage.

We realize that vehicle service expenses cannot always be predicted and as such, they are often disappointing to the vehicle owner. We would be happy to review for possible repair assistance, however, to do so your vehicle would need to be at an authorized dealership for diagnosis or attempted repair. If it is not at the dealer currently, it will be necessary for you to arrange an appointment and then advise us of the name of the dealership, the date and the time of the appointment.

If you would like assistance with scheduling the appointment, please provide me with your preferred dealerships name, a date and time that works with your schedule, and I will be more than happy to contact them for you.

Thank you again for your email Steven. Please do not hesitate to contact us if you need any further assistance by calling us at 1-800-4A-DODGE (1-800-423-6343).

Best wishes,

Belinda

Initial Description

I am writing about a very serious problem with my 2016 Dodge Grand Caravan. The sliding door on the driver\342 s side will not open, causing a potentially hazardous problem. I have grandchildren that I pick up and drop off at preschool and other activities and I cannot get them out of that side of the vehicle. Should there be an emergency arise, I will not be able to get the child that sits on that side out quickly. This is very concerning.\nI looked up the problem and have noticed many others mentioned the same or[redacted]Could be an actuator issue or also that the lock jams for no apparent reason inside the door. I have not been notified about a recall on this, nor have I seen one, but this is apparently a recurring problem, and, again, could be very dangerous.\nI contacted our local Dodge dealership in Ft. Thomas, KY and cannot get the car in for repairs for more than a month. This is a ridiculously long amount of time to go around with this door not opening. Again, it could present a hazardous situation for me and my grandchildren.\nI am very unhappy about this and felt like it warranted a complaint. This is my fifth Dodge mini-van (first one was a Voyager) and I have basically been happy with these vehicles overall. However, this problem has me very concerned. \nI am also sending this complaint via email.\n

Hello Roxanne,

I just wanted to touch base with you on my vehicle. It has still not been repaired and I am still awaiting the appointment for 8 days from now. I have been driving my grandchildren around in a car with a stuck sliding door, which is I obviously can't get them out of. Again, I am very unhappy about this as (a) it could present a hazard if I would need to get the children out that side quickly; and (b) should the other door jam, the children's safety would be highly compromised. I have placed a hammer in the vehicle for emergency use, would I need to quickly get them out.

Does this problem arise often? The van is only four years old.

Thank you,

Hello Roxanne,

FYI - My van is being serviced today. I left you a voice message. I would like to check into getting a discount on services for this repair. Is the car under a warranty for this? It is a 2016 with 55,000 miles.

Please call me at [redacted]

Thank you,

Good morning Roxanne,

Just an update on my vehicle repair: I called the dealership yesterday (Wednesday) and was informed that the technician broke something in addition to the door that they cracked when taking it off to repair the jammed lock. The estimated date for the van to be repaired has been moved back to Thursday, or tomorrow, Friday.
Until then, the dealership has loaned me a vehicle to use.

Thank you,

Good morning Roxanne,

Thank you for calling yesterday. There has been a third set back with the van repair. After your call to me at 4:00 (relaying the van parts were in and dealership working on repairs), I was called by the dealership and told the van was repaired and ready for pick up. I finished what I was doing at home and
hurried to the dealership before they closed. When my payment was processed, I inspected the repairs on van before leaving and found that the* sliding* *door *
*was still stuck and would not open! * I had the cashier check it out also as verification. I immediately requested a refund.
The dealership apologized and said they would again be working on the van today (Friday).

(1) It took six weeks to get the van in for an appointment (which was unacceptable since the stuck sliding door presented a potential hazard to my family)
and now it has been with the dealership for repair for an entire week
(2) Two parts were broken in the door by the technician during the process
(3) I was called about the van being ready for pick up, but it had not been repaired
(4) There were a variety of costs on summary report that made no sense

I am very unhappy with this situation. First off, the lock should not have malfunctioned. Secondly, the length of time to get an appointment is unsatisfactory; Third the costs (which at this point has only been for an oil change and tire rotation for which I had a Mopar coupon of $39.99) amounted to approximately $500; and Last, the van is still not repaired after all this time!

I will be talking to the dealership today about how to make this right. I will also give you a call about the entire ordeal.
My husband is very upset about and may also be calling.

Thank you in advance,

[redacted]

Hello Roxanne,

FYI - I picked up my van from the dealership yesterday. The sliding door seems to be working fine. :)

Thank you for all your help with this. It was of great assistance in getting this problem resolved.

Hello [redacted]

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is: [redacted]

The FCA Case Management Telephone Number is: 1-844-827-1999

My Direct Extension is: 3020203

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Roxanne

Case Comments

Date	Comment
02/07/2020	CST called because vehicle's sliding driver side door is stuck closed. CST was offered to get a diagnoses but CST declined and researched that many vehicles like this have had many issues and CST believes it should be a recall. CSt stated that they are seeking goodwill assistance for the repairs. Agent informed that vehicle first needs to get a diagnoses and then CST can call back and request goodwill assistance

Hello [redacted]

Thank you for contacting Chrysler Customer Care.

We are disappointed to learn of your concern with the sliding doors regarding your 2016 Chrysler Town & Country and I would like to assure you that I will do everything I can to assist you.

According to our records, your vehicle is not affected by any recalls at this time.

I understand that you feel that this concern is a manufacturing defect on your vehicle, and we take all of our customers concerns seriously.

Through our ongoing internal investigations, if we do find that this is a manufacturing defect, we will notify you by mail for you to have the issue resolved.

Please keep all of your receipts for the work completed on your vehicle so as if this does happen you will be able to submit for reimbursement consideration at that time.

Please know that your feedback and opinion are both very important to us. We have documented your concerns and have made them available to be reviewed internally.

Thank you again for your email Sandra. At this time, we will be closing this case. Please do not hesitate to contact us if you need any further assistance by calling us at 1-800-247-9753.

Best wishes,

Belinda

Initial Description

My wife and I purchased our 2016 Chrysler T&C with approx. 20,000 miles on it in 2017. We have since put approximately 50,000 miles on it and recently experienced serous mechanical issues. We had a check engine light come on that turned out to be from two cylinders having little to no compression resulting in the head being replaced on both sides of the engine, costing us $3,700. Approximately 3 weeks after this major repair the locking actuator on one of the power sliding doors stopped working, requiring a $600 dollar repair. My wife and I take very good care of our vehicles. We service them per OEM specifications and they are garage kept. We were very excited to purchase this van considering all the family friendly amenities but we now have a very negative view of FCA's products. My own vehicle has approx. 130,000 miles on it and I plan to replace it in the next couple years. I was seriously considering FCA in the form of a Durango or Jeep product but now I have serious reservations. I doubt I have any recourse with FCA regarding this matter but I wanted to make our displeasure know. At this time I don't know how we could recommend FCA products or anyone else or ever consider buying another one. Thank you.

Thank you for contacting Chrysler Customer Care.

In regards to your 2016 Chrysler Town & Country, we fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, the vehicle has exceeded the mileage limitations of the warranties we offered on the vehicle at the time it was placed into service. Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your concern.

Please do not hesitate to contact us if you have any new information to provide or need any further assistance by calling us at 1-800-247-9753..

Thank you again for your email.

Best wishes,

Mary-Lyn

That response is exactly why I will no longer be considering FCA products in the future. The warranty for those models was 100,000 miles in 2015. It was dropped to 60,000 miles in 2016. My issues happened at 72,000 miles. Sounds to me like FCA was tired of paying for warranty repairs.

Sliding door will not open

Case Comments

Date	Comment
02/12/2020	Customer is calling in seeking cost assistance for the repair of the sliding door on her vehicle. Customer states that she has taken into DLR GREENBRIER DODGE OF CHESAPEAKE INC because the sliding door will not open automatically or manually, it is just stuck. SA Sarah Hamilton advised the customer that the door will have to be ripped out in order to install a new one. Customer feels as this should be covered by FCA because it is a safety concern. Customer has [redacted]hildren and they are not able to get in and out of the back of the vehicle. The locking mechanism needs to be replaced as well as the door panels. Customer was given an estimate for repairs, Parts $670.21 and Labor $390. Agent reviewed and customer is the original owner, basic expired less than 24 months ago and Customer has high LS. Agent advised that case will be escalated for review and will be contacted within 1-2 business days by a specialist.

02/13/2020	***OUTBOUND DLR CALL 44198-Greenbrier Dodge of Chesapeake Inc | 757-420-2800 CM spoke to SA Emily who advises ticket is with SA Sarah. Sarah currently with a Customer, and will call CM back momentarily.
02/13/2020	***OUTBOUND CUSTOMER CALL [redacted]CM contacted Customer to provide introduction. Customer states the driver's side rear sliding door is stuck closed, and cannot be opened automatically or manually. Customer advises the lock is stuck in the locked position. Customer advises she has a Third Party Service Contract, so the door assembly is covered. However, because the door is stuck in the Locked potion, the DLR will have to break the door off to repair it, and Customer's warranty will not cover what the DLR is going to have to break. Customer has the vehicle currently while the DLR is waiting for parts as her Third Party Service Contract only covers 2 days of rental and the vehicle is still technically driveable. CM advises we will follow up with the DLR to see what can be done.
02/13/2020	***OUTBOUND DLR CALL 44198-Greenbrier Dodge of Chesapeake Inc | 757-420-2800 CM spoke to SA Sarah who advises that the door is stuck and will need to be pried off to repair. DM Notes can't be accepted as the vehicle has to be under Basic for Consumer Goodwill consideration.
02/14/2020	***OUTBOUND CUSTOMER CALL [redacted]CM contacted Customer to advise we will have to review for reimbursement of door repair parts that are not covered as approval cannot be done at the dealership level. No answer. CM left VM seeking a call back.
02/15/2020	cst called to speak with CM...agent advised CM will be in Monday Feb 17/20...pls call cst
02/18/2020	***OUTBOUND CUSTOMER CALL [redacted]M contacted Customer to advise we cannot provide approval at the dealership level, and would ask Customer to submit a copy of the repair order and proof of payment for CM to review. Customer thanked CM.

Cx called in stating that her door won't unlock

Case Comments

Date	Comment
02/20/2020	Agent utilized Compass and NHTSA to inform Cx of 0 open recalls associated with VIN. Cx called in stating that the door is not opening and it's won't unlock. Cx states this happened several days ago and stopped, until it's happened again, alleging that this has trapped her children in the vehicle. Cx states that she's looked online and alleges further that this is a known issue. Cx plans on taking vehicle to DLR 44721 but it was waiting for further assistance and advice from CM. Cx is seeking technical and possible cost assistance. Agent also emailed Cx Case # as requested as well as NHTSA.gov to as added reassurance that there are 0 open recalls associated with her VIN.
02/20/2020	***OUTBOUND** USTOMER CM called the customer and she did not answer. CM left a detailed message.
02/20/2020	***OUTBOUND** CUSTOMER CM called the customer and she stated the vehicle's passenger sliding door does want to open/unlock. She was worried there may have been a recall on the vehicle due to the forums she was researching online. CM advised there are no open recalls on the vehicle and there has not been any in the past. CM referred the customer to NHTSA website. CM let the customer know we would be happy to advocate for her and the dealership when the vehicle is taken in and she stated she will just work directly with the dealership. She says she has a good relationship with the dealer and they always fixes her vehicle. CM thanked the customer and let her know we will be closing the case at this time.

03/02/2020	In order to assist we will need to have a proper diagnosis on the vehicle. Customer states that driver side sliding door on his vehicle is locked and he cant get it open, manually or with the remote. Customer is outside of his basic warranty. With out a diagnosis agent can not confirm what warranty this repair would be covered under.

Agent stated to the customer that the parts do not fall under warranty. Customer had asked to call them back and make sure they are not paying for any broken pieces. Agent had spoke to Aaron again and he had explained these parts needed are only one time use so in order to continue the pair they need to break the parts. Customer asked if the agent could find the part that says one time use, agent could not find anything so agent had stated to go off the service adviser explanation.

03/03/2020	customer called in because they wanted to know if there is anything we can do to cover the pins that are attached to the panel with the door. cause the panels are covered and the pins are not. and dealer states that the pins mat break off as the take off the panel. told her i'll escalate the case and see if we can possibly help with cost assistance. gave case number. SA Tim is the one to speak with at the Withnell dealership. service department number is 503-468-7887
03/03/2020	Agent sent an introductory email to the customer with the agent's first name, phone number, extension, and the case number.
03/03/2020	Agent called the dealer, Withnell Dodge Chrysler, at phone number 503-364-0184. Agent spoke with Dave in the service department. Agent asked if SA Tim is available. Agent was transferred to SA Tim. SA Tim said that a new door lock actuator is needed. SA said that they have to take off the door panel to do the repair. SA said that there are outside panels called appliques. SA said that when you take them off, they break. SA said that it does not say that you have to replace them. SA said that the customer has to pay for them because MVP does not cover those appliques. SA said that the customer wants cost assistance with paying for the new applique. SA said that the door lock actuator is covered through the customer's MVP plan so it would be a $100 deductible. SA said that the cost for one applique is $86.42 and another is $173.39. SA said there would be no labor cost. Agent used a calculator and it appears that the cost for the two appliques would be $259.81.

03/04/2020	Agent received a call from the customer, [redacted]. Agent explained the information provided by the dealer. Agent asked the customer about what her expectations are. The customer said that she is requesting that it gets paid for. The customer said that the activator switch is a common issue. The customer said that for the dealer to get to that part, they have to break the applique parts. The customer said that she paid a lot for the warranty and she does not understand why that is her responsibility. Agent informed the customer that the agent is not sure yet if we can provide goodwill assistance. Agent informed the customer that she can pay for the repair and submit the invoice and receipt for review of possible reimbursement, or she can wait until the agent talks with resources about this situation. The customer said that she can wait until tomorrow and she requests that the agent call by tomorrow early afternoon if possible. The customer said that she received the agent's introductory email. The customer verified her mailing address: [redacted] ALEM OR USA [redacted]
03/04/2020	Agent called the dealer, Withnell Dodge, at phone number 503-364-0184. Agent spoke with SA Dave. Agent asked if the SM is available to discuss possible DM Notes SM said that yes he is OK with DM Notes. SM said for this particular repair, whenever you do the repair, it damages the appliques (trim pieces). SM said there is no way around it and trim pieces are not covered, so it is customer responsibility. SM said that the price is about $195.83 (customer responsibility). Agent informed the SM that the SA provided other pricing amounts. SM said that it would be better if the agent speaks with the SA about pricing. Agent then spoke with SA Tim. He said that he was able to get new pricing amounts of $78.39 + $95.40 + $22.04 for retainer clips. (After the call, agent added the amounts together and it totals $195.83 for the appliques and retainer clips.) Agent informed the SA that agent cannot promise anything but agent will ask his supervisor.
03/04/2020	Agent called the customer at phone numbe[redacted]. Agent informed the customer that the appliques and retainer clips are not covered by warranty or her service contract. Agent informed the customer that the cost, according to the dealer's SA, is $195.83. Agent informed the customer that we cannot cover that cost up front, but if she sends the dealer invoice and proof of payment, then agent will reimburse her for that repair. The customer said OK and requested that the agent email her the details on what documents she needs to send.
03/04/2020	Agent emailed the customer and informed her that she would need to reply by email and send the dealer invoice and proof of payment after she submits payment to the dealer.
03/06/2020	Agent replied to the customer via email. Agent thanked the customer for sending the documents. Agent informed the customer that the agent will review the information and try to provide an update by next week.
03/11/2020	Agent submitted Check Request CR-[redacted] Please see below for details. Check Request Information Total Amount: $195.83 Breakdown: $195.83 for parts ($22.04 for two retainers; $78.39 for an applique; $95.40 for an applique) Documents: DOC-[redacted] s the dealer invoice and the receipt is also attached when you scroll down to the bottom of the second page to see it. Reason: Customer paid for repairs on their own, due to dealer not offering goodwill. Justification: The vehicle warranty is expired but the customer has an active Lifetime Maximum Care service contract through MVP. The dealer's service adviser said that the vehicle needed a new door lock actuator. SA said that they have to take off the door panel to do the repair. SA said that there are outside panels or trim pieces called appliques. SA said that when you take them off, they break. SA said that the door lock actuator is covered through the customer's MVP plan so it would be a $100 deductible. However, the SA said that the customer has to pay for the appliques because MVP does not cover those appliques.
03/11/2020	Agent emailed the customer and informed her that the agent submitted a Check Request in our system for $195.83. Agent informed the customer that it takes 3-5 business days for processing and agent will update her next week.
03/12/2020	Agent is checking the status of the Check Request to see if it changes from "Sent for Payment" to "Issued." Agent will update the customer next week whenever the reimbursement check is issued.
03/13/2020	Agent emailed the customer. Agent informed the customer that the reimbursement check was issued and to please allow 30 days for the check to arrive. Agent informed the customer that we will be closing this case and she may receive a survey. Agent thanked the customer for being an FCA customer.
07/10/2020	Closing this case. See case numbe[redacted] as reference.

Hello [redacted]

Your reimbursement check of $195.83 has been issued. Please allow up to 30 days for the check to arrive at your mailing address in case of any delays.

At this time, we will be closing this case.
If you have any further questions/concerns, please call Chrysler at 1-800-247-9753 at any time.
We also wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey, so well know how were doing and what improvements we can make to enhance the customer experience.
Thank you for your time, participation and for being a valued FCA customer
Sincerely,
Matt

Hi Matt,
I called yesterday to let you know that the other side of the van door is doing the same thing. I had to get it fixed as it would not lock and things could get stolen out of it. The new case number is [redacted]. I am attaching the receipt that it was paid for. The total that should be reimbursed to me is $202.93. I do not understand why this particular part is frequently broken but with my warranty I am out two deductibles which doesn't seem right, seems there should be a recall or something for this part. The service agent said this part is often replaced on these vans. When I called your customer care department, they said they would forward this to you so I just wanted to follow up.

Hi [redacted]

I have reviewed your documents. I have been authorized to reimburse you $800 of your repair. If we had assisted through the dealership we would have required a co-pay of about the remaining amount. I will prep your check for you today, it should be in the mail on it's way before the end of the week. Please allow 7 to 10 business days for it to arrive.

Respectfully,

Jeanette

Hello [redacted]

Your reimbursement check has been sent for payment. As advised, please allow 7 to 10 business days for it to arrive.

I am sending you this email regarding the closure of your Case with Case Management. I would like to provide you with my contact information again should you have any questions or concerns in the future.

Your case numbe[redacted]

FCA Case Management Phone Number: 1-844-827-1999

My direct extension: 302-0861

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case.

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore you could potentially receive an email or a telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience.

Thank you for your time and participation and for being an FCA customer.

It has been a pleasure working with you, all the best!

03/06/2020	**********GW INQUIRY********** Cst called back in regards of case [redacted] stating that her vehicle has been diagnosed by the DLR listed on file. Cst stated that she needs a new transmission and, it is going to cost $2600 for the total repair ($900-part and $1687-labor). Agent advised the cst that her case will be sent to as specialist for consideration of cost
03/09/2020	CM left VM for DLR to call back to get vehicle update
03/09/2020	Cm called DLR back to see if anyone could pick up this time. CM spoke with SA Kieth and found out that the vehicle is at this dealership that the vehicle has been diagnosis with a torque converter shutter and they would have to rebuild the transmission. Customer is not in a loaner or rental provided through the dealership. CM request warranty pricing and labor and sent SA Keith an email in order to get SM john to sign off on cost assistance or DM notes for goodwill. SM John was in a meeting at the time of the call
03/09/2020	OUTBOUND TO CUSTOMER [redacted] CM called customer to discuss case. CM advised customer that she is still working on the case to see how we can assist with either goodwill or cost assistance. Customer thanked Cm for reaching out. Customer states either form of contact is okay that she is just needing to move forward with the case. CM stated she understood that she is waiting on the dealership to provide warranty pricing in order to see how she can assist. Customer thanked CM

03/09/2020	Keith from dealer calling to speak to CM. CM not available. Agent transferred to leave VM
03/10/2020	SA Keith states that the following Parts: 590 Labor: 947.13 Total 1537.13 CM asked SA Keith if SM John will take DM notes. CM emailed SM John to see if they will take the notes
03/11/2020	OUTBOUND TO CUSTOMER [redacted] CM left VM for customer to call back. CM is going to walk the decline on assistance based on lack of maintenance on the vehicle
03/11/2020	OUTBOUND TO CUSTOMER [redacted] M called customer back after customer called CM. CM advised customer that we are not able to assist in the repairs due to the customer being a second owner on the vehicle and the lack of times that the vehicle has gone to the dealership in order for the vehicle to be looked at. Customer did not agree with this decision. CM provided the customer the information to the NCDS for further assistance.
03/11/2020	**Customer inquiry** Customer called back stated that she opens up a claim about her transmission, but they declined that is because they said she has not gotten any maintenance done **Agent Advised** customer was advised that the final decision was made by the CM and there is nothing else we can do

03/12/2020	Customers [redacted] called in stating her Nephews vehicle has issues. They would work/not work. Doors open randomly and sometimes you can't lock the doors and he has children in those seats. She said this is a very hazardous situation and should fall under LL. Agent advised since this is the first time it's happened, she needs to allow our dealers to try to fix the issue first. The vehicle would need to have less than 24k on it. I provided the URL for corporate to voice her concern. The GM of dealer is going to diagnose the vehicle. She ask if FCA is going to pay for it now that it's out of Warranty. Agent advised this would be a customer pay situation, unless the dealer can honestly say it's an actual defect.

Initial Description

I have not had this vehicle very long, mileage low (30,000) and about a week ago the rear sliding door will not unlock. I looked online and this is a known problem with the town and county. I am concerned as to why this hasn't been corrected. Many people are now going to have to pay out of pocket for these repairs. Why is Chrysler not correcting this? This is my first Chrylser product and I am concerned to see if chryster is going to fix this problem or leave it up to the consumer to foot the bill on this and take other avenues. Please advise options to having this repaired.Thank you

Hello [redacted]

Thank you for contacting Chrysler Customer Care.

We are disappointed to learn of your concern with the sliding door on your 2016 Chrysler Town & Country and I would like to assure you that I will do everything I can to assist you.

Based on the information that you have provided, the best plan of action would be for you to see one of our authorized dealerships for a diagnosis if you have not had one yet. That will allow them to determine what is going on and provide the best course of action for you. Once that is complete, if you have any further concerns, you are welcome to contact us again.

Based on your address I have found that this is the closest dealership to you:

Safford Chrysler Dodge Jeep Ram Fiat of Winchester
1659 Berryville Pike Winchester, VA 22603
(540) 667-5532

At this time I will be closing this case but thank you again for your email. Should you require additional assistance, or have any new information to provide, please call 1-800-992-1997.

Customer called seeking goodwill cost assistance with repairs on their vehicle.

Case Comments

Date	Comment
04/08/2020	Customer called stating they're having concerns with their passenger side slide door lock actuator in which they've already had the part replaced previously on 1/23/2018. Customer states they took the vehicle to the DLR & they advised the part needed to be replaced again, but the 2 year warranty on the part has expired & customer is just outside of their powertrain warranty by 2,000 miles. Customer called seeking goodwill cost assistance with the repairs and customer was quoted around $700.00 plus tax for repair. Customer confirmed they paid the diagnostic fee & they do have the vehicle back in their possession. Agent advised the case would be escalated to a case specialist for review & they will reach out to customer within 1 business day. Customer (Anthony) also provided another email address:

Kaitlyn, Thanks for the info. From what I'm reading on-line the sliding doors on the Grand Caravan is a common and expensive problem. Repair costs range fro $600.00 to $1,200.00. The actuator is difficult to replace. However, I did remove the interior panel and bent the rod that connects the actuator with the manual door lock control. This seems to have resolved the problem. I think the connecting rod (having many turns in it) flexes and allows the actuator to over extend causing it to jam. Please have your engineers to check this out. If it is a quick, simple and cheap fix then freel to free to send me a new Dodge Grand Caravan for my assistance (lol).

Hello [redacted]

Thank you for contacting Dodge Customer Care.

We certainly understand how the sliding door not unlocking regarding your 2016 Dodge Grand Caravan would cause you inconvenience or concern and appreciate the time and effort you took to bring this matter to our attention.

According to our records your vehicle is not affected by recalls, customer satisfaction notifications or extended warranties pertaining to this matter. Through our ongoing internal investigations, if we do find that this is a manufacturing defect, we will notify you by mail for you to have the issue resolved.

If it is cost assistance you are seeking, to review further we would require a dealer diagnosis be completed. If you have not had one yet, I would like to assist with scheduling an appointment. Please provide me with your preferred dealerships name, a date and time that works with your schedule, and I will be more than happy to contact them for you.

If you have been to your preferred dealership, could you please provide me with some details about your visit? This will help me determine what the next steps should be.

Which dealership?
When was your visit?
Who was your Service Advisor or Service Manager?
What was the diagnosis?
What repairs, if any, did they complete?

Thank you again for your email Phyllis. Please do not hesitate to contact us if you need any further assistance by replying to this email or calling us at 1-800-4A-DODGE (1-800-423-6343).

Best wishes,

Belinda

Initial Description

Dear Chrysler Customer Representative,\n\nI am writing because we have a defective actuator on the driver\342 s passenger sliding door in our 2016 Town & Country minivan. This is the third van that we have had this happen to and the 4th time an actuator has failed on one of our vans. All of our vans have been purchased brand new. There has been no misuse of any kind to any of these doors. \n\nAt this time, it is not safe for us to allow anyone to sit in the passenger seat behind the driver due to the fact that the door will not open when needed thereby trapping the person inside the vehicle. This is very bothersome.\n\nWith the importance and reliability necessary for passenger sliding doors to open and close properly on Chrysler minivans, it should be a priority with Chrysler to make sure that actuators are manufactured with the highest quality and optimum performance level.\n\nActuators should not be failing especially in minivans that are not very old, but to have four of them fail in three minivans owned in one family, indicates there is a something wrong with the quality of materials used to manufacture these units. \n\nWe have been loyal Chrysler minivan customers. We have purchased six Town & Country minivans over the past 20 years. These are great vehicles for families and for travel. \n\nTo repair the actuator on the driver\342 s sliding door, we received a quote of approximately $359. We believe this is not an expense we should have to incur especially with it being the fourth defective actuator. \n\nWe would appreciate any assistance you may offer with this matter. Thank you in advance for taking the time to consider our request.\n \nSincerely,\[redacted]

Hell

Thank you for contacting FCA Customer Care.

We are disappointed to learn of your concern with the actuator regarding your 2016 Chrysler Town & Country Touring and I would like to assure you that I will do everything I can to assist you.

Based on the information that you have provide he best plan of action would be for you to see one of our authorized dealerships for a diagnosis if you have not had one yet. That will allow them to determine what is going on and provide the best course of action for you. Once that is complete, if you have any further concerns, you are welcome to contact us again.

Based on your address I have found that this is the closest dealership to you:

Hi Jeremy,

As per our phone conversation, please reply with warranty parts pricing for the door actuators needed for the Linda Underwood vehicle for review for possible goodwill consideration. The goodwill will cover the door actuator parts only. Labor and the repair of the heated seat will be customer pay. I will reply with copy of DM notes submitted once authorized. Could you also include ETA for the parts with your reply.

Thanks,

Scott

Hello [redacted]

I am sending you this email regarding the closure of your Case with FCA Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is: [redacted]

The FCA Case Management Telephone Number is: 1-844-827-1999

My Direct Extension is: 3020203

Thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best

Chat Started: Wednesday, June 03, 2020, 12:50:02 (-0400) Chat Origin: NAFTA Dodge Brand Chat Agent Mathew (40s) Mathew: Hi, my name is Mathew with Dodge Customer Care, How may I help you? (1m 10s) Visitor: I have a 2016 grand caravan and the driver side sliding door is stuck in the locked position. (1m 30s) Visitor: From what I can find online, there hasn't been a recall on this fault despite it appearing to be a very common issue. (2m 5s) Visitor: I have a 3 year old and 2 week old, in the case of an accident or an emergency this could prove to be an incredibly dangerous problem. (2m 36s) Mathew: I do apologize for that issue and I can check to see if there is a recall. The VIN for the Dodge is orrect? (2m 56s) Visitor: Correct (3m 22s) Mathew: Thank you. For our record today, what is the mileage on the Dodge? A rough estimate is fine. (5m 12s) Visitor: The mileage is 78,000 (5m 13s) Mathew: Thank you. While I look into this, would you mind verifying the owner information on the vehicle so that I can be certain we have it up to date? Could I have the name it is registered under, the current physical mailing address with the zip code, and the primary phone number? Also if you would like to provide it, could I have the best email address contact as well? (6m 23s) Visito Cerrillos, NM 6m 28s) Visito 6m 37s) Mathew: Thank you, one moment please. (13m 30s) Mathew: Thank you for waiting and I apologize for the wait. I did look through our system, and I do not see any pending recalls for the sliding door, and there are no current extended warranty's or service bulletins for an issue like that. I will be documenting your concern into our system, and if in the future a recall does go out on the issue and you have had a repair done, you can file for reimbursement consideration at that time. At this point though, as the basic warranty which would have covered this issue did expire as of 5/31/2019, it is not something that Dodge would be able to assist with. (15m 38s) Visitor: Thanks for checking. That's rather unfortunate for Dodge and for your customers' safety as well. I hope for everyone's sake that a safety recall is issued before it costs someone their life. (16m 3s) Mathew: I'll have that all documented for you s there anything else I could put on file for you today? (16m 29s) Visitor: No, that's all, thanks. (16m 48s) Mathew: Thank you for contacting Dodge customer care, have a good rest of your day.

Initial Description

To whomever gets the honor to read this and send me a Roboresponse. I have had more work done in 4 years on a Brand new vehicle that I purchased hesitantly in Feb of 2016,then I ever had when I bought used. One issue fixed, seems another appears. Today's issue take us back to early 2020. I recently had issues related to transmission something I would look it up but the money I spent in parts and labor would just piss me off more and had it serviced for that problem. Then low and behold I get it home and something else arouse. Now my defrost light blinks when I open my car door. Upon starting my car, no air come out even though it is on. When is kicks in a short time later the definition of hot is an understatement. The passenger side gets so hot it burns your fingers to touch the vents. I immediately called Medford Chrysler and spoke to Josh B. He told me that is an all new issue and I would have to make yet another appt to have iti looked at and then pay so more glorious money out of my pocket. Well I did not schedule at the time and the COVID hit I, mandating me and my family to our home. I have it serviced always at the local dealership.\nAfter further research via Internet seems this van comes with quite a few lemons.\nWe will not purchase or recommend a Dodge product ever again. \nOh and did I mention the paint is already bubbling!\nIf you would like a list of the other items that have needed repair, I would be happy to share. In the meantime, I will schedule an appt to get yet more work done and have it cost me a small fortune in addition to paying a loan payment for a brand new van that wad supposed to last me at least 5 years without the bull crap. \nThanks for your time!! Send me a roboresponse as that is what Customer Service has become.

06/04/2020	Customer is frustrated that she has had so many issues with this vehicle and has had to pay expensive reapri costs. Customer currently has concerns with no A/C when starting vehicle and when it kicks in it is hot, defrost light blinks when car door opens, paint is bubbling. Customer has an appointment on Tuesday, June 9 at 10am at Medford Chrysler Center 603 S 8th St. Medford WI 54451, 715-748-5300.
06/09/2020	**********OUTBOUND DEALERSHIP CONTACT********** Medford Auto Group Inc. | 27093 | 7157485300 ********** CM contacted dealer to speak with SM Josh about this case. SM Josh advised this vehicle is currently at their dealer. Complaints are she wants an oil change, defrost light is coming on, it was a calibration issue, the actuator, A/C not working and rear evap is leaking, this is where the freon is going instead of to the defrost. Ongoing issue is the A/C blowing warm air. Customer is upset because she has been in several times in the last year. They replaced the valve body in March 202 because the transmission wasn't shifting and hung onto one gear only. They had a brake service done, right side sliding door latch needed to be replaced as well. Vehicle currently has 86,926 miles on it. SM Josh advised he is putting together a quote for customer at customer pay. CM asked Josh if he would email CM over the warranty pricing for the repair if possible. SM Josh agreed and CM thanked him.

06/09/2020	**********OUTBOUND CUSTOMER CONTACT********** [redacted] | DODGE ********** Customer preferred contact - phone Email - [redacted] Earliest call time - later afternoon Latest Call Time - ********** CM contacted customer to discuss the case and introduce herself. Customer stated she just picked the vehicle up. She had brought it in for the issue with the A/C and an oil change, and when she would open the vehicle door, the defrost light would flash. Now they told her all this stuff with the air conditioning would need to be replaced. She was quoted $1500.43. The parts they are looking to replace is the evaporator with H-valve kit, 2 seals, and something else too. Customer bought the vehicle brand new, and they bought it at Colby Chrysler, but since they moved to Medford, they have been servicing there ever since they have moved there and ALWAYS service only at the dealership. Customer stated she is disappointed about having to put in a ton of money into repairing it, they bought the van brand new to not have to deal with repairs, one after another. 86,929 miles on it right now. They took the door actuator out and adjusted it. They then said it fixed that issue. Her A/C is blowing hot air, not warm, hot into just the passenger side then they moved the actuator and it made it come out hot all around. CM advised she will get pricing from SM Josh and email over her information. CM advised she will follow up after she makes a decision, and she will give her a callback before the end of the week. Customer agreed and thanked CM.
06/09/2020	EMAIL TO SM: Please reply to this email with warranty pricing on this repair needed. Customer stated she was quoted $1500.43. Parts total = $ Labor total = $ TOTAL: $ Also, if you wouldn't mind answering these questions just to support possible goodwill assistance for this customer. Is the concern a result of misuse/abuse/lack of maintenance? Could the customer have caused/prevented concern? Is the concern related to the age and/or mileage(daily use or wear and tear)? Has the vehicle been properly maintained? Have there been any previous out-of-pocket repairs? What is the repair cost at customer price? $1500.43 What is the breakdown for warranty pricing, parts and labor? How long will repairs take to complete? Do you feel this customer should receive assistance and why? Has this customer been provided assistance previously by your dealership? Thank you for all your help.
06/11/2020	SM Josh sent over the pricing via CM's gmail account. CM has attached it to the case and will review for cost assistance.
06/12/2020	**********OUTBOUND DEALERSHIP CONTACT********** Medford Auto Group Inc. | 27093 | 7157485300 ********** CM contacted dealer to speak with SM Josh about this case. SM Josh advised the diagnosis is she needs a new rear evap and lines. Usually covered under basic (expired in Feb. 2019 by time, at 86,928 miles now). She is a very loyal customer, does ALL maintenance. Had transmission work done in March which she paid out of pocket for, brake service in Jan. which she also paid out of pocket for. All oil changes/tire rotations done there. This is not something customer could prevent, normal wear from being in a salt state. The repair would take about a day, he is booking about a week out with the schedule he has right now, which would give time to have the parts arrive. Customer didn't authorize, is waiting for us. Estimate was emailed over. Total is $1,465.76 warranty pricing. CM advised she is going to offer customer a $100 co-pay, Chrysler will cover the remaining $1,365.76 via DM notes. SM Josh agreed and CM thanked him.
06/12/2020	**********OUTBOUND CUSTOMER CONTACT********** [redacted] | DODGE ********** CM contacted customer to discuss the case. Customer was unavailable so CM left a voicemail asking for a callback as she has an offer for the repair.
06/16/2020	**********OUTBOUND CUSTOMER CONTACT********** [redacted] | DODGE ********** CM contacted customer to discuss the case. CM left a voicemail for customer to call back with an offer for her.
06/16/2020	EMAIL FROM SM: Do I still have to go through AM Josh on this authorization. I am not sure if I have to have his stamp of approval. CM replied: Nope, you don't have to go through Josh for this one. This repair is well within my limit, so I can authorize it without his approval. I have been trying to get a hold of the customer to offer her a $100 co-pay. I will be entering the remaining $1365.76 via DM notes as long as she accepts the offer. Have you heard from her? She hasn't gotten back to me at all. If you could let her know to call me if you have heard from her that would be great if you don't mind. SM REPLIED: I have talked with her this past weekend. She is very happy with our decision. She agrees to pay the 100 dollar copay. CM REPLIED: She just called me. She is pretty excited to get this done because it is so hot up there. I don't blame her! Do you know when the parts should be in? Please let me know when the repair has been started and I will enter the DM notes.

06/26/2020	EMAIL TO SM JOSH: Good morning Josh, Aileena let me know that the repair will be taking place on Wednesday July 1st. I am on vacation from tonight at 7pm CST and will return on Thursday July 2nd at 10:30am. I will check in with you on Thursday and see if the total pricing you provided to me changed at all if something else had to be replaced/added after you dove into repairing it. Once you have confirmed if the amount is the same or not, I will enter the DM notes on Thursday, screenshot and send to you. Please let me know if you need anything else before I leave the office tonight.
07/02/2020	EMAIL FROM SM JOSH: total with 100 dollar deductible. 673.82. we did not have to replace ac coolant lines in rear they came apart good. CM REPLIED: Thank you. I will enter the DM notes today, I just want to confirm. $673.82 is with the deductible taken off right? Not needing to enter $573.82 as the deductible has already been taken off the total? SM JOSH REPLIED: 673.82 is the correct amount. That would be after the deductible CM REPLIED Thanking him and with a screenshot of the DM notes for the total he emailed over.

Hello [redacted]

Thank you for contacting Dodge Customer Care.

I can understand the dissatisfaction that you feel, given the concerns with the A/C, defrost light and paint on your Dodge Grand Caravan. I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and, due to the nature of your concern, I would like to forward your case to our Case Management department for their attention and response.

Your email states that you with be scheduling an appointment at your dealership. To move ahead with this escalation I will you to confirm the name of your dealership and provide me with the date and time of your appointment.

Escalating your situation to a Case Manager will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have them addressed and resolved.

Thank you again for your email. Please reply to this email message or call 1-800-423-6343 with your dealership name and appointment date/time.

Best wishes,

Mary-Lyn

I was never contacted by a case manager in regards to the ongoing, never ending issues with this Caravan. My vans issues today are two foldOne having to do with a door actuator and the other to do with something leaking in regards to the AC which they are kindly working on my quote for repairing. I have a work meeting at 1:30.

The part we are waiting on is showing as possibly coming next week. I called Josh at Medford Chrysler today just to check in. I am going to call him mid next week and see if there is an update. I will follow up with you mid-late next week.
I know it has been hot, we are working really hard. Hang in there! Let me know if you need anything else in the meantime. Hopefully we will get the last part in very soon.

I called the dealership today. I spoke with Eric in the parts department. He advised me that the service department would be reaching out to you to book your appointment for the repair. Did they call you today? If not, I will call them back tomorrow and have someone reach out to you, or you can call and speak with Josh in service to book the appointment. They will be able to get you set up as soon as possible as I am sure it has been pretty hot out there and the air should be fixed soon for you hopefully.
If you could please just reply to this email with an appointment date and time, that would be great then I can follow up with the dealership and yourself after the repair. Please let me know, and thank you so much for your patience with waiting on these parts.
Thank you,
Amanda

Perfect. I will follow up with you then on Thursday July 2nd to see how it went.
Just to let you know, I will be on vacation from 7pm CST tonight until Thursday July 2nd at 10:30am CST. So perfect timing for your appointment!
You will pay your portion of the repair to the dealership when you pick up the van and everything else should be all set for you.
Please reach out today if you need anything, otherwise I will talk to you on Thursday. Probably better to reach me by phone if you do need something before I leave today. If I don't talk to you before I leave, then I hope you have a good weekend.

Hi Amanda, I can't seem to find your number. Well I am not satisfied with the repair of the A/C. When I picked it up yesterday, the rear defrost light blinks when I open the car door and start the car. For about a minute, no air, hot or cold comes out. I continue to have issues with this every 3 to 4 starts. I did talk to Josh about it and they are pointing it back to a rear door actuator possibly, which I swear I just paid for that to be cleaned not that long ago. This is where my frustrations are coming from. Pick it up and already another issue. I am available at home [redacted]

I haven't heard from you so I hope everything is well. I will be closing out the case now, but please if you have any other concerns give me a call and we would be more than happy to try and assist you.
We just wanted to thank you for allowing FIAT Chrysler Automobiles Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a FCA customer.

It has been a pleasure working with you, all the best in the future,

(4m 35s) Visitor: I have a Dodge Caravan with dual auto sliding doors. One day one door stopped opening and it is "locked" (even though it really isn't). I have seen others have the same issue and it costs them thousands of dollars to fix it. Is there a recall? I am worried since my kids ride in the back and can't get in/out from that side. (5m 15s) Michael: I can definitely appreciate how frustrating this would be, I would be more than happy to assist you with this, in order to obtain further information regarding your vehicle may I verify the last 8 characters of the vehicles VIN, the approximate mileage and the Name and Address the vehicle is registered to? (6m 28s) Visitor: It has around 50,000 miles (I think less). It is registered to eithe[redacted] [redacted] Fayetteville NY [redacted] (7m 18s) Visitor: VIN is [redacted] (9m 23s) Michael: Thank you very much, I am not seeing any recalls regarding this issue, nor any extended coverage, has the cause of this issue been looked into at a dealership? (9m 59s) Visitor: No because as I said there are chats about this happening to other people and to fix it the whole door needs to be taken apart and it costs $1,000. (11m 33s) Michael: At this time I would have to recommend having the cause of this issue looked into at a dealership to work towards resolution (11m 51s) Visitor: But there is no recall? (12m 21s) Michael: I do not see any recalls regarding this (12m 57s) Visitor: If I take it to the dealer and it is an internal issue (that I could not have caused myself) is that covered by Dodge? (14m 13s) Michael: It looks like the Basic Warranty has expired as of 36,000 miles or January 12, 2019 whichever had occurred first, this wouldn't be covered under warranty currently. (15m 16s) Visitor: Have you heard of this issue with other owners? It is all over the web. (15m 23s) Visitor: Same EXACT issue! (16m 0s) Michael: I haven't heard of this issue (16m 10s) Visitor: Ok, thanks (16m 16s) Visitor: I will call my local dealer. (16m 54s) Visitor: As someone who has owned multple Dodge products in the past, as well as a current owner of two Dodge vehicles I am most unhappy with this. (17m 21s) Visitor: All winter the other door would freeze closed leaving the passengers in the back forced to climb through the car. (17m 48s) Visitor: This is a known issue for multiple owners and won't be covered by Dodge making it a safety concern. (18m 21s) Visitor: I will be notifying NYS AG Office and moving forward with a complaint if it is not fixed by Dodge and paid for by them. (18m 25s) Visitor: Thank you and have a good day

(1m 51s) Visitor: HI I have a 2017 Dodge Caravan with 70,790 miles on it, it shudders when I'm driving feels like going over a washboard. It has gone to a dealership once already and they said maybe I hit the gear to change it into 2nd but that is not the case (2m 23s) Visitor: Is there a recall as I see over 788 complaints with the same issue (2m 39s) Brandi: Hello [redacted] am sorry to hear you are having this issue. I can certainly look into this to see what we can do. May I have your VIN? (3m 13s) Visitor: yes [redacted] 4m 3s) Brandi: Thank you. First May you please verify your address complete with Zip Code, Also may you verify your Email and phone number? (4m 20s) Visitor: Also having issues with driver door not unlocking with fob and doesn't lock automatically when in drive (4m 57s) Visitor: [redacted] Alcalde NM [redacted] 7m 33s) Brandi: I am sorry to hear you are having these issues with the vehicle! Did the dealership only do a diagnosis or have they attempted to fix the concerns? I do see the vehicle is under the previous owners name. May I send you an email for you to send in your ownership and we can have that updated for you? (9m 54s) Visitor: The vehicle is actually under my brother in laws name [redacted] and when they took it in the dealership told them it was because the gear was accidentally hit, so they did nothing to fix the car. Please update to my name and email (12m 9s) Brandi: It is under another name. I'll send the email to get your information and we can update it for you. What is the name of the dealership you had it diagnosed at? (14m 10s) Visitor: I'm going to ask my sister as they were the ones who took it. I just bought the van from them last month and just encountered the problem so when I called my sister she told me it had theat problem before (14m 53s) Visitor: hopefully they will answer I know it was taken to a dealership in ALbuqueruqe NM just [redacted] which one (17m 38s) Brandi: oh okay, thank you for calling. (18m 21s) Visitor: Your Welcome (25m 21s) Brandi: Were you able to get the dealers name [redacted] (25m 34s) Visitor: they never answered my call (26m 14s) Visitor: trying to call my sister agein (27m 25s) Brandi: I would like to call the dealer for more information however I would need their name to pull them up in our system. Thank you for calling again! (27m 42s) Visitor: Larry H. Miller on Lomas Blvd. In Albquerque NM (28m 7s) Brandi: Perfect thank you! Just a few minutes please. (29m 29s) Visitor: it is 8528 Lomas Blvd NE Albuquerque NM 87110 505 404-0108 (37m 22s) Brandi: Thank you for waiting! I spoke to the dealership and they said they were unable to duplicate the issue and they changed a coil cause that can sometimes cause a vibration. Since you are still having this issue I can certainly look into sending a case up to our case management team however we would need you to have an upcoming appointment with a dealership. Do you have an appointment? (38m 52s) Visitor: I do not have an appointment and I will be making one for Santa Fe dealership as it is closer to me The check engine light also came on when it started to shudder (40m 37s) Brandi: okay thank you, I am very sorry to hear you are having this issue with the vehicle [redacted] nce you have an upcoming appointment with that dealership please contact us back and we can send a case up at that time. (40m 55s) Visitor: I will thank you very much! (41m 10s) Visitor: Have a blessed day. (41m 25s) Brandi: I will have our chat documented under your VIN so the next agent can read it. (17s) Mathew: Hello, how may I help you today? (7m 4s) Visitor: I own a 2016 dodgr grand caravan, it has 81000 miles on it. I have had it into bobilya Chrysler 2 times since we have bought it . 1st time was a clicking noise in the engine and a lh sliding door actuator noise, they repaired the clicking noise and replace the actuator, this was less than a year ago, the engine noisr came back a few months later and then the rh sliding door actuator started making a noise plus we developed a rf wheel bearing noise. I had it back into bobikya Chrysler on 6/9 to fix the clicking noise. They told me the rf wheel bearing was bad and needed a new actuator for the other door and since I'm out of warranty thr wheel bearing cost 480.00 and tur door lock actuator was gonna be 680.. i had the clicking noise repaired again and got the wheel bearimg replaced, i was hoping I could get some help from chrysler on these repairs, ie maybe you could pay for parts and I'd pay for labor. Any help you could give me, they also told me I had transmission lines leaking (7m 34s) Mathew: I do apologize for that issue [redacted] and I can look into this to see if there is anything that could be done. Could I have the VIn for your Dodge please? (8m 5s) Visitor: I also own a 2015 dodge journey that I have had to have all 4 wheel bearings replaced in a matter of 2 years (11m 55s) Visitor [redacted] 12m 13s) Mathew: Thank you [redacted] While I look into this, would you mind verifying the owner information on the vehicle so that I can be certain we have it up to date? Initial Description

We purchased a 2016 Dodge Caravan with 36k miles on it in May 2018 from Cole Krum in Schoolcraft, MI. Since the van purchase we have had many large and expensive repairs all while still paying off the loan on the van. \n\n#1 \342 The air conditioning stopped working and no cool air was blowing in the back of the van. We took it to Kendall Auto Repair where they were able to get some temperature change. However, when we got the van back it takes 2-3 minutes for the air/heat to turn on. Upon further inspection from Kendall they stated that there was something faulty with the computer/electrical but that would be an extensive repair/costs. We chose to deal with the air/heat delay.\n\n#2 \342 In February of this year the transmission died costing us $2700 to repair. \n\n#3 \342 In June the driver\342 s side slider door will not open. The electrical does not work (key fob, buttons in the van) to open or even manually you cannot open the door. We are waiting to have it repaired with a Dodge dealership and have been told this will also be an expensive repair.\n\nIn 2008 we purchased a 2007 Dodge Caravan and loved it. We had no issues with it other than basic maintenance. We only traded it in for the new van because it had become to rusty. At the time there was no question to purchase another Caravan. \n\nI do not know what you can offer us but this is ridiculous. [redacted] We have huge loan payments on top of all the repairs for the van. And it isn\342 t like we can just pop over and get a replacement or return it.\n\nPlease help! Please advise!\n\nThank you.\n

Hello [redacted]

Thank you for contacting Dodge Customer Care.

In regards to your Dodge Grand Caravan, we fully appreciate your concern, particularly in view of the expense and inconvenience involved, however, we are unable to accommodate your request for out-of-warranty consideration. The vehicle has exceeded the time and/or mileage limitations of most of the factory warranties we offered on the vehicle at the time it was purchased. The only warranty available on this vehicle is the Corrosion Warranty which expires on September 30, 2020. Although we are unable to provide a more favorable reply, we appreciate the opportunity to review your request.

We're sorry we cannot provide a more favorable reply.

Please do not hesitate to contact us if you need any further assistance by calling us at 800-992-1997.

Thank you again for your email Stephanie. Have a great day.

Best wishes,

Rebecca

Hello [redacted],

Thank you for contacting Dodge Customer Care and for letting us know about your concerns regarding the issues you have been having with the engine misfires. I appreciate you making us aware and can understand your frustration.

I will certainly do my best to help you.

At this time Maricsha, we would only be able to provide details regarding the operation of the features in your vehicle.

Currently we do not have the capability of helping to diagnose your vehicle via email due to the many variables involved in diagnosing problems such as this we would recommend bringing the vehicle into one of our Dodge dealerships for inspection.

That would be the first step, if you run into any trouble after the diagnosis or the problem persists please feel free to contact us back and we will consider what options we have available.

In case you do not yet have a preferred Dodge dealership, here are your two closest options!

Hello Japhet,

Thank you for your response to my email pertaining to the reimbursement of the repair on my Town & Country van. I certainly appreciate your review and consent to reimburse a portion of the invoice. If possible, could you inform me as to how you came up with the reimbursement amount of $332.51 of the total amount $475.01? Was just curious as to the less $142.50.

Thank You,

Case Comments

Date	Comment
06/20/2020	Customer is calling in to complain about the buzzing noise that can be heard from the sliding door of her vehicle, it has been going on for a long time and customer is afraid that the door will get stuck on one of her children. Customer has done research about this issue about the vehicle from other owners of the same year, and customer wants to know if a recall has been issued. Agent advised that no open recall are with the vehicle and that it would be best to go to a DLR for them to look at the cause. Customer also advised that the AC is making a louder than normal sound, as of late. Agent advised that a DLR will need to determine what the cause is.

Vehicle having issue with sliding doors locks

Case Comments

Date	Comment
06/22/2020	Vehicle having issue with sliding doors locks. Customer states that the doors will not even unlock when he try to manually unlock the door that the lock is stuck and it won't move. Customer states that this is not the first time this has happened and that he has paid out almost $2000 just for the repairs. Customer feels that this is not something that he should be having repaired once a year.
06/22/2020	SA tom (41060) Vehicle purchased in new york and second owner , ownership not updated, dlr stated multiple issues and dlr replaced, left side Now issue with right side, actuator, and will not assist and different issue , first issue was left side, not defect , customer already approved repair Can review for reimbursement review , advised not able to escalate on dlr call
06/22/2020	$1131 is the total cost
06/23/2020	The customer request has been denied. Vehicle is outside of its warranties (mileage and time). Does not qualify under goodwill policies. No loyalty score, critical score is very low and not the original owner. Case did not meet criteria and guidelines under FCA reimbursement assistance policy. Email has been sent to the customer regarding the denial. Closing the case.
06/23/2020	Customer called in why he didn't meet the guidelines. Vehicle is outside of its warranties. decline repair.

Dear [redacted],

Thank you for allowing Chrysler Customer Care an opportunity to address your concern. Our primary focus is your satisfaction.

My Name is Cern and we appreciate your time and effort in bringing this matter to us.
Upon thorough review and consideration, we regret to inform you that your request for reimbursement has been denied due to the following reason/s:

- The vehicle is outside of its warranties
- Case did not meet criteria and guidelines under FCA reimbursement assistance policy

As much as quality service is our concern, please be informed that there are certain guidelines and qualifications that we need to meet in order to grant your request.

Thank you for your utmost understanding. We look forward to your continued business with us, and we appreciate you reaching out to us today.

Sincerely,

Cern
Reimbursement Specialist

Hi Susan. The reason the plastic around the bottom of the front seat is cracking is because you cant adjust the seats to tip down like you can with power seats. This causes a tremendous amount of pressure on the hamstrings area of the legs and you have to twist and almost jump out of the van because the seat are set so high and are set from the factory. Was not engineered very well. If there is one complaint we have it is that constant pressure on our hamstrings. We noticed tonight that the drivers side plastic is cracking in the same place as the passenger seat.

Hi Susan. Im so frustrated with the seats on the van. They are already broken again. Very poor design. The seat is not positioned correctly from the factory and this is the cause of the problem. Please help.

07/02/2020	IB from DLR(SA Jason): Email Received: Good morning Dorothy, My tech has looked all over this Pacifica. As far as all the customer concerns, the cruise control being inop was the only thing he could confirm. As far as the sliding doors being unresponsive, my tech wrote this: UNABLE TO DUPLICATE CUSTOMER CONCERN OF SLIDING DOORS NOT FUNCTIONING AS DESIGNED. HOWEVER, WHEN THE VEHICLES ELECTRONIC CONTROL MODULES WERE INTERROGATED, STORED DIAGNOSTIC TROUBLE CODES U0230, U0202, AND U0201 WERE ALL FOUND STORED IN THE TIPM FOR LOSS OF COMMUNICATION WITH BOTH SLIDING DOOR MODULES, AND THE POWER LIFT GATE MODULE. OPERATED ALL THREE DOORS WHILE MONITORING POWER, GROUND, AND BUS VOLTAGES, AND NO CAUSE FOR CONCERN WAS FOUND. THE CONDITIONS REQUIRED TO DUPLICATE THESE FAULTS ARE NOT CURRENTLY PRESENT. MORE TIME WITH VEHICLE IS REQUIRED TO ATTEMPT TO DUPLICATE CONCERN. He could not repeat the issue the noise coming from the steering on the freeway. Thank you, Jason

07/07/2020	IB from DLR(SA Jason): Email Received: Dorothy, Customer would like a rental. Do I have authorization to fix the cruise control and get her into a rental? Thanks,
07/07/2020	IB from DLR(SA Jason): Email Sent: Hello Jason, Sorry for the late response. In regards to authorizing a repair unfortunately that is not something I handle as a case manager. Issues need to be replicated first before any repairs are made. as for the rental the same policy does apply since rental is not covered so it becomes a consideration towards that customer. Before we can consider assistance vehicle issues need to be replicated. Please let me know the status of the vehicle so far? I will contact the customer. Thank You,Dorothy
07/07/2020	OB to Customer: Writer contacted the customer to inform her without a duplicating issue I cannot review for rental. Customer informed she spoke with Jason at the dealer and he was able to duplicate one of her issues. Writer informed the customer that I would need to follow up with the dealer then advise her of the next steps/ decision.
07/07/2020	OB to DLR(SA Jason): Email Sent: Hello Jason, I spoke with the customer and it seems that she is looking for cost assistance towards the repair. Please advise me of the warranty pricing for that specific repair so we can review. As far as any authorizations we do not provide and are only here for goodwill assistance and parts expediting. Customer informed that since you were able to replicate one of her issues she would like a rental. I can only provide 10 days of rental is that enough? please let me know. Thank You,Dorothy
07/10/2020	IB from DLR(SA Jason): Email received: Hello Dorothy, As stated in the previous email I sent you, My tech has looked all over this Pacifica. As far as all the customer concerns, the cruise control being inop was the only thing he could confirm. I would like to know if I can proceed with this fix, It is not covered under any warranty that I can see. Thank you, Jason
07/10/2020	OB to DLR(SA Jason): Email Sent: Hello Jason, If that is the case please send me the warranty pricing for this repair so we can review for cost assistance. Only when this is approved then repairs can be done. Thank You, Dorothy
07/13/2020	IB from DLR(SA Jason): Email Received: Hi Dorothy, I have the cost of fixing the cruise control for [redacted] Warranty pricing is as follows: $218.40 for parts and $160.20 for labor. Total with tax is $397.71.
07/15/2020	OB to DLR(SA Jason): Email Sent: Hello Jason, Here are the DM notes for the repairs. The DM notes are attached to this email for reference. Thank You,Dorothy
07/21/2020	OB to Customer: Writer contacted the customer to check on repairs. The customer informed that her vehicle is still not repaired yet. The customer advised that the vehicle lock her in the car with her kids the other day and the dealer can't duplicate. Customer states that the issues has occurred for over a year. The customer informed that she would like lemon law. Writer advised her case will be sent up to customer retention for review. Writer advised that the case will be reviewed but I can't promise a call back from them and that is a 1-2 day request. Customer understood.
07/22/2020	**Dispute Resolution Review** Reviewed warranty history at customer request. Writer determined this case should be handled by BC Specialist per normal case-handling guidelines. Do not return this case to Dispute Resolution (LLQ) queue Assigned case to Specialist. Review next steps in Case Activity. Provide feedback on L1/L2 handling to your Team Leader.

06/29/2020	Customer is calling in due to the driver side door having issues with staying locked. Customer states she went to the dealer and they provided her with lube and it still did not work. Customer wanted to know if her vehicle had this recall? agent advised no. Customer wanted to know why is it not a recall. Agent advised FCA does not make a recall a recall she would need to find out who does (did not provide information) and advise of the situation. Customer then began to talk about the million people with her issue. Agent advised unable to reference others but only her vehicle. Can not track how many people if i did not take the call. Customer was in disbelief as agent can not see a record of how many people had this issue. Eventually disconnect the call abruptly.

07/01/2020	****Outbound Customer Contact*******: [redacted] poke with the customer and found that the dealership on file was not updated. Agent updated the file and another CM works with this dealership. The customer brought her vehicle in around the end of May. It took the dealer two weeks before they told her they can not fix the lock. Was told to bring to body shop and have the lock cut off. She is wanting the dealership to remove the lock and fix it under warranty.She has been working with SA Jared. Seeking technical assistance for the dealership. Let the customer know her CM Robin would reach out to dealer and then to her.
07/01/2020	**OUTBOUND DEALER CALL** 60666 |Autonation Chrysler Jeep Arapahoe CM was advised they have a lift gate latch on order for customer. The lift gate will not open so they advised customer to go to a body shop so they could manually open it. The SA who handled this previously no longer works there, CM ended up leaving a VM for SM Wes to call back.
07/06/2020	CM reviewing.
07/07/2020	**OUTBOUND CUSTOMER CALL** CM called customer to follow up. Customer stated that the Dealer told her to go to a Body Shop at her cost. Customer stated no as this is a defect that the latch is stuck and there has been no accident. CM stated she will speak with SM and review.
07/08/2020	Email sent to SM seeking information on lift gate latch.
07/09/2020	**OUTBOUND DEALER CALL** 60666 |Autonation Chrysler Jeep Arapahoe CM spoke with SA Matt. SA Matt stated he is not sure why the customer has to go to a Body Shop and will speak with his SM Wes and talk tomorrow.
07/10/2020	Email from SM - I spoke with Wes and he too unfortunately doesnt have much information on this vehicle. The technician is currently on vacation and will be back on Monday. I will speak with him when I get back on Tuesday and get the summary of whats going on. Thank you and have a good weekend.
07/14/2020	CM to call technician now that he is back from Holiday.
07/15/2020	**OUTBOUND DEALER CALL** CM left a VM for SM Matt to call back.
07/16/2020	**OUTBOUND DEALER CALL** SM WES SM Wes and CM discussed file and SM stated customer is too far outside of warranty. No assistance for Goodwill. Customer must return the loner immediately.

Date	Comment
07/16/2020	**OUTBOUND CUSTOMER CALL** CM called customer and stated we will not be assisting with repairs and asked customer to reach out to Wes the SM as she still has a loner. Customer states she has an extended warranty through Autonation. CM stated to call Wes.
07/16/2020	Customer has been declined assistance with the llift gate latch.Customer has a 2015 with 100,000 M on it. Customer has extended warranty through Autonation. CM encouraged her to work with Dealer. CM closing file.

Initial Description

For the second time, my rear sliding door(s) are frozen in a locked position. The first time it was the drivers side and I was finally able to get it open and then there was a constant loud buzzing sound when the doors locked or unlocked. This was at least a year ago and I was told by many online that it was the actuator and it was a "costly" replacement. Since it continued to work okay... I let it go since I really didn't have the funds. Today my wife was taking my [redacted] to the dentist and now the passenger side froze in the locked position. I have not been able to get it open. I bought this van brand new when my older van was totaled by a drugged out driver. Although my son was not in the van when it was totaled, he saw the after..and since the impact was so severe...his car seat had to be replaced (the police officer told us to have them replaced for safety)... He is now afraid to be in this van because he is afraid that he is "trapped." I am not sure how this has not been a safety recall as I have seen a lot of people with the exact same issue. I most definitely do not have the funds not to have it fixed properly. I splurged on the van in the first placed.. it is an 8 year loan with a good interest rate... but the payments are still more than our other van was.. by quite a bit. And with the current situation as it is.. I cannot afford to have the accuators replaced. Thank you for any help or info you can provide.

Hello [redacted]

Thank you for contacting Jeep Customer Care.

I can understand the dissatisfaction that you feel, given the door lock issue you have with your vehicle. I want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and, due to the nature of your concern, I would like to forward your case to our Case Management department for their attention and response.

To move ahead with this escalation, your vehicle would need to be at an authorized dealership. If it is not at the dealer currently, it will be necessary for you to arrange an appointment and then advise us of the name of the dealership, the date and the time of the appointment. Once you have that date and time please contact us at 1-800-992-1997 and we will have the file escalated right away.

Escalating your situation to a Case Manager will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have this addressed and resolved.

At this time I will be closing this case but thank you again for your email. Should you require additional assistance, or have any new information to provide, please call 1-800-992-1997.

I just got off the phone with the "customer care" and just wanted to say how ridiculous it was. Nothing will be taken care of? Because it is out of warranty.. at any point we could my children could be trapped in the van... and that's not a safety issue that should be on a recall? What a joke! I will get rid of this van as soon as I can.. and never have another. Sent via the Samsung Galaxy S9+, an AT&T 5G Evolution capable smartphone

Initial Description

I HAVE A 2016 DODGE CARAVAN WHICH I HAVE HAD SINCE IT WAS NEW. IT IS ONE OF FIVE THAT I HAVE HAD TO DRIVE IN THE LAST 10 YEARS OR SO, THE 2016 I OWN NOW. IN 2018 THE LOCK ACTUATOR FAILED IN THE DRIVER SIDE CAUSING IT NOT TO LOCK. IT WAS REPLACED AT A COST OF $705. TODAY I TOOK THE VAN BACK TO THE SERVICING DEALER WHO DIAGNOSED THE PASSENGER DOOR ACTUATOR AS FAILED IN THE UNLOCK POSTITION. I AM UNABLE TO LOCK THE CAR BEYOND SETTING THE ALARM. THE REPAIR WILL COST NEARLY $800.\nTHIS TO ME SEEMS A SAFETY CONCERN. THE CHILD LOCKS ARE NOT EFFECTIVE WHEN THE DOOR ACTUATOR FAILS, AND COULD BE OPENED WHEN THE CAR IS MOVING. THE LOCK CANNOT BE SET MANUALLY OR BY THE KEY FOB. THE CAR IS DESIGNED TO LOCK ALL DOORS AUTOMATICALLY WHEN THE CAR IS DRIVEN, SO THIS IS CLEARLY A FAILURE OF A DESIGNED SAFETY SYSTEM.\nTHE FACT THAT THE SAME ACTUATOR PART HAS FAILED AT THE TWO YEAR AND FOUR YEAR MARK POINTS TO A QUALITY ISSUE WITH IT. AS A CONSUMER I AM NOT HAPPY THAT THE FAILURE HAS COST $1,500 TO CORRECT TWICE.\nIT IS HARD TO SEE WHY DODGE WOULD NOT PROACTIVELY ADDRESS THIS ISSUE, AND GIVE OWNERS AT LEAST SOME MANUAL OVERRIDE ON THE LOCK. YOU CAN IMAGING THE POTENTIAL SAFETY CONCERNS.\nI LOOK FORWARD TO YOUR RESPONSE. THANK YOU.\n

Hello [redacted]

Thank you for reaching out to Dodge Customer Care.

We are disappointed to hear about the door lock actuator regarding your Dodge Grand Caravan, and understand how this would cause you concern.

Looking into your request, the locks can be manually locked on the doors; however if this also cannot be done then unfortunately they would need to be replaced. Your warranty for this issue was for 3 years or 36,000 miles whichever occurs first. Furthermore, there are no service contracts, recalls or pertaining to the door lock actuator.

I thank you for taking the time and effort for bringing this matter to our attention, and encourage you to continue to work with your dealership.

Thank you again for your email. Should you require additional assistance, please call 800-992-1997.

Best wishes,

Rebecca

Thank you for the reply. I picked my vehicle up again, for the third time, I hope it is fixed now. I just want to point out that the first time I took it into the dealer (dealer = Coon Rapids Chrysler; I also purchased this vehicle here) it was for a blue plume of smoke, which is typically something engine internal. They couldn't find anything at first, then they found the timing cover gasket leaking. They fixed that and then I picked it up and within a couple of days I realized my van was leaking oil. I called the dealer back, made another appointment took it in and they found the main seal and upper oil pan gasket leaking. Before the first fix I did not have any oil leaks so they had to have caused those oil leaks while fixing that timing cover gasket and now my engine is no longer factory sealed and in my opinion they potentially harmed my engine and I am not happy about this as this van only has 62000 miles on it. I picked it up again and this time it sounded like something was loose. I made another appointment with the dealer, took it in and a motor mount was not tightened. I picked it up again today and now hope that I don't have any more issues, but based on the last 3 services I am not going to hold my breath.

Also, while all of this is going on both the passenger and drivers side slider doors wont completely close/disengage when using the door buttons, the motor wont stop engaging until I manually open/close the door. I paid for diagnostics on this issue while it was in the shop and the dealer can't find anything wrong even though there were stored codes. I was told that the service department contacted Chrysler about this and that the dealer was told by someone from Chrysler that the problem was probably something blocking it, or it was user error (I am not happy about this, it definitely isn't either of these two comments). As I was pulling out of the dealer lot today, the drivers side sliding door started engaging and wouldn't stop (this in my opinion is dangerous, I have a child that typically sits in the backseat, what happens if that door slides open while she is sitting in the rear seat?). I took it BACK to the dealer so they could see what it is doing and they have video of it now. I was told they (dealer) will contact me on Monday.

I am an extremely patient person and I've owned Chrysler/Dodge brand vehicles for a while now and typically see this brand as fairly reliable. I take my van to the dealer for routine oil changes because I have high expectations that a dealer will take care of my vehicle properly. I have that same high expectation when something needs fixed. I expect them to fix it right the first time, not 3 engine service calls later (possibly not even fixed) and a not diagnosed potentially dangerous door problem.

Thank you

Hi [redacted],

I am sending you this email regarding the closure of your Case with Chrysler Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is:
The FCA Case Management Telephone Number is: 1-844-827-1926
My Direct Extension is: 3025414

I would also like to thank you for allowing Chrysler Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give me a call back so we may re-open your case.

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. Wed ask that you take the time to complete the survey so well know how were doing and what improvements we can make to enhance the customer experience.

Thank you for your time and participation and for being a Chrysler customer. It has been a pleasure working with you! Again, if you need anything please contact me right away and I will assist you as best as I can.

Dennis FCA Chrysler Case Manager
1-844-827-1926- ext. 3025414

Cx called to inquire if she had a recall for the door locks on her vehicle.

Case Comments

Date	Comment
07/20/2020	Cx is requesting Goodwill assistance to assist with getting her actuator repaired on her vehicle. The agent reviewed the case and does not think that the cx merits Goodwill. Cx requested to speak with a Supervisor but the Supervisor on call was currently busy. Agent sent the case to a TL for review.
07/20/2020	The agent reached out to the cx and informed her of the denial.

07/20/2020	the actuator malfunctioned so vehicle doors will not open. They have go from front to get in the vehicle to the back seat. Wants to know if there is less expensive fix then replacing the actuator or to doors unlocked what solution is there
07/21/2020	Supervisor call out. Informed Customer that he is denied Goodwill cost assistance due to outside FCA goodwill per AH#1267, not original owner, no service contract and not a certified preowned. Recommended Customer contact dealer. Customer stated dealer told him to call FCA for repair recommendations on bypassing the actuator. Advised Customer that technical support will be contacted to see if alternate repair to manually open doors. Customer stated he doesn't feel he should have to pay for a defect. Advised he would have to pay out of pocket for out of warranty repairs. Customer stated he needed to disconnect to take another call and will call back. Advised no direct line and case will be noted of Supervisor call back.

Good afternoon [redacted]

Thank you for allowing Chrysler Customer Care an opportunity to address your concern. Our primary focus is your satisfaction.

I sent your request to our Technical Support Team, below is the information I received back.

"We can not assist the Customer with altering the vehicle outside of factory Specs as this could be a liability for FCA. Please advise Customer that they would need to pay out of pocket for repairs or go to Techauthority.com and get a service manual"

Thank you for contacting Customer Care. If you need additional clarification and or have any further questions, pleased don't hesitate to call Customer Care.

Initial Description

Dealership has not have good customer service.
Customer is having batteries concern and tire concern with the dealership.

Case Comments

Date	Comment
07/21/2020	Customer has many concerns with this vehicle and she is traveling from California and Kentucky. Batteries Tires Vehicle locked in park sliding door is not working. Customer needs to bring the vehicle to the dealership ASAP. Customer was advised I can schedule an appointment and then we can move forward with trying to repair the vehicle. Customer also stated she is having a smell coming out the air conditioning that's been resolved.
07/21/2020	Customer stated the dealership advised her she will have to pay 3000.00 to break down the vehicle to see if there is a transmission concern customer is not happy about it. Customer stated she is going to send in documentation that the dealership gave her. Customer feels the dealership damaged this vehicle when getting a diagnosis. Customer stated dodge should do something and she stated she does not trust the dealership. Customer stated she is not handing out 3000.00 up front to tell her whats wrong with this vehicle. Customer stated she will get her attorney.
07/21/2020	Customer was advised I will contact the dealership tomorrow. And also I will get her a supervisor call back in 24 hours.
07/23/2020	Reason Caller states-That She was suppose to receive a Supervisor callback. Desired Outcome Caller seeks-Dodge Advisor to provide Customer with an Update. Response Response-While assisting Customer, Customer got disconnected. Per instructions Genesys, Logged Off for Advisor Jonay, and TL Melissa. Reached out to TL David, and He Advised Me to call the Customer back to see, if She hired an Attorney, Customer states that She did not hire an Attorney. Customer states that She is requesting to speak to a Supervisor, due to a Manufacturer's Defect. Advised Customer that the DLR 65940, will have to Diagnose Her Vehicle. Customer states after She picked Her Vehicle up from the DLR, She have a Ticking Noise, and Clicking Noise in the Dashboard. Customer states that She did a Test Drive with Foreman Eddie, and He states that Her Transmission Fluid is Green, from Debris. Reached out to the DLR 65940, But I was sent to Service Manager Wendy Baker VM, But I did not leave a message. Called Customer back, and got a Busy Signal. Disposition Next steps-Leaving CAIR Open.
07/23/2020	cx called in. Was disconnected from previous agent. Cx was told by another agent that a sup would call her back, cx has not received that call.
08/03/2020	Supervisor call out No answer left VM with case # and to call back if additional assistance is still needed. Researched case for possible escalation. Findings: Last Repair Date 6/9/2020 Vehicle no longer under warranty, no extended power-train contract, no LS and not original owner. Case can't be escalated for GW based on AH#1267. If dealer unable to DX concern case can be denied rental and GW and escalated for technical assistance.

The initial appointment was on 6/05/2020.

The attached invoice which you said is non-existent in your system as of today, is for the COMEBACK APPOINTMENT on 6/25/2020.

The transmission issue with vehicle not moving into gears properly between speeds of 30-35 and 40-45mph, both during acceleration and deceleration, was one of the issues for initial appointment on 6/05/2020. We were told that this was happening due to "bad engine mounts" and therefore paid for the mounts to be replaced. We paid more than $2,000 for the recommended repair, but have the same issue the very day that we picked the vehicle up after the repair(s) were done.

We received the vehicle back with the same problem; and, with NEW PROBLEMS CAUSED OR CREATED DURING THE REPAIR ON 6/05/2020, issues that were not present prior to the dealership performing their repairs. We now have a clicking noise in the engine which is getting worse. Eddie told me that this was either because of "BAD SPARK PLUGS OR LIFTER AND CAM ISSUES". NOTE: The dealership replaced the spark plugs on 6/05/2020 and were supposed to check their work on 6/25/2020, but there is no record that the spark plugs were checked on 6/25/2020. We also have a clicking noise in the dashboard when the air conditioning is turned on. It sounds as if there is a moving part that is attempting to move into place. The a/c is now not putting out air flow when it is in the floor venting position. The a/c issue with "musty" smell was not serviced or corrected as was requested on 6/05/2020. The steering wheel movement feels much stiffer than prior to the 6/05 repairs, and now is not centering properly.

There is also the issue of the dealership telling me that the transmission fluid is "green, but it should be red". The dealership stated that they had done ALL required maintenance prior to selling us the vehicle. There is no record of a transmission flush being performed on this vehicle at 60,000 miles as the manufacturer states should be done on all vehicles used for "fleet or taxi". We have not done a transmission flush. The dealer states that they have not done a transmission flush. This tells me that the vehicle came to the dealer with an existing issue with the transmission/transmission fluid incorrect. Perhaps if they would have performed the recommended maintenance, as they told as that they had, they would have discovered the issues with the transmission and not passed these issues onto an unsuspecting buyer.

We are obligated for car payments for several years. DODGE CARE and FRESNO CHRYSLER need to get this vehicle properly diagnosed and repaired. We should not have to be absorbing potentially thousands of dollars in repairs, for a vehicle that we owned for less than a year at the time of the 6/05/2020 appointment.

Please have a supervisor contact me within the 24 hours promised. I can be reached at [redacted].

Initial Description

My driver side sliding door would not open manually or electrically from inside or outside of the vehicle. I've taken it to the dealer where they tell me that a sliding door latch costs $1,024.81. This is a common problem I've discovered, and I'm not rich. This is my second Dodge Grand Caravan and I've been a loyal customer since I had my 2003 and replaced with 2016. Please provide some compassion, insight and help with this. Thank you for your time.

08/01/2020	MVP transferred customer over. Customer states he took his vehicle into Harper CJDR dealership on Thursday for repairs on his sliding door that wouldn't lock. His repairs were done under warranty, customer states while it was getting fixed a clip broke and the SA Lafeatte told him he would have to pay for it out of pocket. Customer also states in order to repair his vehicle they need to take off the ap leak panel molding part number 05020668aa, was told there was a 99 percent chance it would break that it will cost him 102 dollars to repair it. Customer reached out to MVP and was told it's not covered because it is plastic. Customer states he understands that, but since the SA is gonna break it in order to fix a repair under warranty he shouldn't have to pay for it. Agent reached out to Harper dealership and spoke to SA Ricky. Ricky states both SA Lafeatte and technician were currently out till Monday so he wasn't able to provide me with information. Agent informed customer of this. Customer wants an explanation on why the parts won't be covered and wants them covered since the repair is covered under his warranty/ service contract. Agent provided customer with case number.
08/05/2020	CM spoke with the dealership and they advised the particular part/piece is not covered under any warranties or SC. The particular item is covered under basic 3/36. CM advised she would reach out to the cx and advise.
08/05/2020	CM spoke with the cx and his concern is that they removed the item during repair and they broke it. CM explained the warranty to the cx and he insisted Dodge should be responsible because the initial repair was covered under warranty. CM explained again the particular item is not covered under the SC or any warranties, he's pass the 2/24 on the basic and he will be responsible. The cx then stated well isn't his warranty and SC through Mopar. CM explained the dealer, manufacturer and Mopar roles to the cx. CM advised the cx he'd spoken with Mopar directly on the initial phone call and they explained his warranties to him. CM apologized for the cx not wanting to accept the answers from Mopar and explained again Mopar would be able to answer all questions and breakdowns of his SC for him/. He then stated he does not want to speak with Mopar anymore he is going to go to the BBB. He thanked CM and we ended the call.

08/03/2020	Cst stated that she is having electronic issues with her vehicle. Cst stated that this has been happening for a couple of years and she has voiced this concern to a couple of DLR's before in CT before the cst moved. Cst stated that when she turns on her vehicle her windows will not go down, her Uconnect system freezes/glitches, her doors will not lock, and all the lights on her dashboard will come on. Cst stated that she was informed that it was a shortage of her power circuit and it would cost $3000 to fix. Cst is seeking cost assistance cst stated that she was unsure of what the exact issue with the vehicle was. Agent advised the cst that we can send her case up for cost assistance but, we would have to know exactly what is wrong with her vehicle. Agent tried to reach out to the DLR with no response. Agent advised cst that case will be sent to specialist and advised that we nwill reach out to the DLR for further information

Good Morning,

It looks like we are waiting on the part. It is on it's way to the dealership. We're looking at Tuesday for it to arrive I will let you know if that for some reason changes.

Best Regards,
Lori

Good Afternoon,

I would be unable to assist with the rental as we are assisting with the repairs at this time.

Good afternoon!

Did you hear anything about our car? I dont think this is just about the short circuit anymore. It feels like forever just to fix for short circuit :(. And this situations put our family into a very uncomfortable and tiring game of waiting.

Have a wonderful day. Stay safe.

Good Morning,

Kent informed me there was a module that was affected as well they are waiting on a part. I'm currently getting in touch with Kent to find out if we can get it in faster. I do apologise for the wait.

Good Afternoon,

I understand with the busy schedule not being able to get in. In regards of the video I didn't see it maybe it didn't go through I know our system is very strange with videos.
