10/08/2015	Status update provided via email to the following email address: [redacted], My name is Linda, and I am following up on a survey that you recently completed regarding your 2015 CHRYSLER TOWN & COUNTRY TOURING WAGON. I have contacted COURTESY MOTOR SALES INC, and spoken with Service Advisor Michelle, who has advised that the last time you were at the dealership was 9/14/2015 for a concern with the sliding door intermittently not closing and they were not able to duplicate the concern, however, you have not been back since, and the dealership was not aware that you were having issues with your vehicle. We regret the problem your vehicle has experienced and appreciate you bringing this matter to our attention. Comments like yours are one way we have to learn of problems that may develop as well as improvements desired by customers. Given the many variables involved, we are unable to diagnose your vehicle's problem via email or phone. We recommend contacting your authorized dealership to arrange an appointment for proper diagnosis and repair. Once you have been to a dealer to have your vehicle concerns diagnosed, if you require further assistance from Chrysler, please contact us and we will be happy to work with the dealer to assist in resolving your vehicle concerns. You may contact us back by calling Chrysler Customer Assistance at 1-800-247-9753. Our dealerships have the factory training, equipment and information available to them to diagnose and correct problems with our vehicles. Chrysler Group has made tremendous gains in customer satisfaction and vehicle quality and we are dismayed to learn that your expectations have not been met. Please accept our apology for the problems you have experienced. Thank You, Linda End of Status Update

01/18/2016	Briefly summarize why the customer is contacting Chrysler: Customer contacting Chrysler as their vehicle door has not been sliding customer is having electric problems with his vehicle customer states his door locks where not working customer states he has taken his vehicle in 5 times for the issue customer dealer has not been able to find the problems Briefly summarize what the customer is expecting: seeking to have his complaint documented agent advised the customer his complaint is being documented customer states he is taken it to the dealership one last time agent stated if the dealer can not solve the issue to call back to look into this further customer had to end call to pick up grandson
01/21/2016	Customer stated that customer had taken his vehicle to the DLR Dealer Code: 74-60211 about 4 to 5 times because of the same issues he was having with his vehicle. Customer stated that the door lock doesn't work, the front lights stay on bright most of the time, and the sliding door on the passenger side doesn't close properly (customer closes the door manually most of the time or uses the key fob and cannot use the handle to open and close the door). Customer stated that these occurrences' are electrical therefore, these issues happen intermittently. Agent wanted to call the DLR and speak with someone in the service department but customer asked agent to wait and let him talk with the someone in the service department first. Customer also mentioned that he wanted a rental vehicle (Town & Country Van) because he has [redacted] but every time he asked for one the service department would tell him it is already loaned out. Customer stated that he just really wanted to vent a little because the service department personnel is also treating badly. Customer stated that he will call agent back and let agent know if he wanted the agent to continue assisting him.

01/26/2016	Customer call and stated that he took his vehicle back to the DLR and he stated that the issue with the sliding door did occur 4 times while at the DLR (sliding door doesn't work). Agent stated that agent would contact the DLR and speak with Kelly (SA) to determine if a diagnostic was done on the vehicle and if they contacted Star. Agent spoke with Kelly (SA) and stated that they did run a diagnostic on the vehicle but no codes appeared and they cannot duplicate the problem. Agent spoke with Herald Jenkins (SM) and he stated that they had not contacted Star and he did confirm that the customer had been in the DLR several times but could not duplicate the problem. Herald (SM) stated that they would contact Star. Customer is extremely unhappy because he stated they are lying because the problem did occur today at the DLR and 2 service advisors witness the problem occurring. Customer also stated that the front lights aren't working properly either. Escalating CAIR to 88F
01/26/2016	Customer will be contacted in 2 business days by CM
01/27/2016	SM Harold from DLR 60211 called to state that a STAR case was started and there was no new information or suggestions that STAR could give. SM Harold feels the customer is not giving the handle a full try to open the sliding the door feel that's the case not 100% certain. Harold states that the handle has to be pulled completely out for it to activate. SM Harold states that they had the customer come back into the DLR and try the door himself and was not able to duplicate the concern. Harold states that the customer came in a few times where he pulls up to service and someone tries the handle and it works but no RO is started for that unless the vehicle issue is duplicated and they need to repair something. Agent reviewed STAR case# [redacted] Agent advised SM Harold that the information will be documented on file for future reference

01/28/2016	Agent contacted SM Harold who stated they will not be placing a flight recorder on the vehicle, it will not work. DLR has checked the wiring harness nothing was disconnected, no trouble codes were found. Customer came in to DLR to assist getting the concern duplicated but was not able to. SM Harold stated customer doesn't pull the handle all the way.
01/28/2016	Was the customer in a rental? no Did the customer have a co-pay? no What is the RO [redacted] Does the SM have the CAIR #? yes Review and Confirm the DM Notes with the SM while on the phone. Does the SM have everything needed from Customer Care to process the claim? yes
01/28/2016	CONTACT UPDATE - Customer was contacted today at 2:17PM. Customer was provided with agent's extension: 40568.
01/28/2016	Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40568. The reason for the customer contact was to provide or request the following information: to discuss the case.
01/28/2016	Agent received a VM from customer for a callback at 641-430-5799.
01/28/2016	Agent contacted customer who stated the right side door doesn't open. Customer has been to DLR multiple times to DLR for this concern. Customer expectations are to find a resolution for this concern. [redacted] has been to DLR 3-4 times for this concern; it is right side door that doesn't open [redacted] alleges DLR was able to duplicate the concern but now saying they weren't. Customer is wondering if the micro switch could cause the door not to open. Customer stated sometimes he will try to open the door but it won't open, he will try again and it will crack open and make a wheeling sound in the back side. Preferred contact number [redacted]
02/08/2016	Agent contacted DLR and spoke to SM Harold who stated they have ordered a latch to address customer concern with the door. Part has been ordered, customer will be notified when it arrives. Agent will follow up with SM Harold on 2/10/16.
02/09/2016	Agent contacted customer who stated they are currently unavailable. Agent will follow up on 2/10/16.

02/10/2016	I called the dealership 45178 went over RO history last visit they was no trouble found. I called the customer introduced myself advised I'm her case manager the case has been reviewed and referred to me for special handing and I wanted to touch base with her in regards to the current concern that she is experiencing with the vehicle. The customer states she doesn't feel the vehicle is safe she states that all of the lights come on in the vehicle and everything electrical stops working. She states the signal light will not work and the sliding door and hatch will not work either. She states that she receives a message that states there is no bus communication. I apologize to the customer for what she has experienced. I advised the customer that we need to have the vehicle go in for a current diagnosis. She states the codes have to be active in order for her to take it in. The customer states that she doesn't have time to keep wasting her timer taking the vehicle to the dealership and the concern is intermittent. The customer states she doesn't know when she will be able to take the vehicle in for service that she will just drive it around until the lights come back on. I requested the customer give me a call once she decides to take the vehicle in for service since she is refusing to take it in at this time and provided my phone number.

06/22/2016	Briefly summarize why the customer is contacting Chrysler: Customer calling because she been to the DLR 7 times since purchasing the vehicle and the DLR cannot seem to find why the check engine light is on. They have replaced parts and still it is on. Briefly summarize what the customer is expecting: Customer would like Dodge to put her in a new vehicle because she does not feel safe in the one she just bought. Agent advised customer that case would be sent to CM for handling. Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle's repair history to determine if their request merits further action and that due to the nature of their request, it will require a call back which will take place within 1-2 business days. The outcome of the review does NOT determine Lemon Law eligibility. 07/21/2016	CM contacted Customer who stated the sliding door has not worked properly since they purchased the vehicle. Customer states the Mall of Georgia is very difficult to get in touch with. Customer states since she has gotten an oil change the Bluetooth on her vehicle doesn't work. Customer states her phone pars with the blue tooth just fine but when you make a call it starts to make a noise and you cannot hear the person your talking to because there is a constant noise. Customer states she has had her vehicle in for the same concerns multiple times. Customer states she has a video showing the sliding glass door making a noise and shows what happens to the door. Customer states it she was told that the video doesn't work as being able to duplicate the concern. Customer is frustrated and tired of going into the DLR and having nothing resolved. DLR advised the Customer to open a case with Chrysler. Customer states she was able to duplicate the concern for the technician. Customer states she was told it was the motor. Customer went to the DLR yesterday to have the motor replaced and the Bluetooth. Customer states the Bluetooth is still not working. Customer states the sliding glass door seems to be working. Customer states she is very frustrated and doesn't want to have to take it back into the DLR. Customer states she had tried to get in touch with the SM and was unable to get in touch with him. Customer wants to be put in a loaner so her vehicle can be fixed. Customer states that she left a VM for the SM but has not gotten a call back. Customer states she will not go to the Mall of Georgia anymore after this experience. Customer states she doesn't want to go to Mall Of Georgia because of how she has been being treated.
07/21/2016	CM will contact Troncalli at 6782444100 to schedule an appointment for the Customer. Customer will need a loaner vehicle. Customer states she will be able to drop the vehicle any day next week.
07/21/2016	CM attempted to contact Troncalli DLR but the recording just kept looping around.
07/22/2016	Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40518 The reason for the dealer contact was to provide or request the following information: schedule an appointment, asked SM to contact Customer to schedule an appointment.

08/25/2016	Briefly summarize why the customer is contacting Chrysler: Customer stated that her vehicle unlocks on its own despite locking vehicle. Briefly summarize what the customer is expecting: Why her door locks do not work properly. Agent advised that I did not see anything fix in the owners manual as to why her door locks would unlock themselves. Agent advised to have her DLR diagnose her vehicle to see why its performing the wayu7 it is. She also stated that she was having problems with the passenger door. Agent offered to call her DLR as we need to get it looked at. She stated that she could herself, and would call back if needed.

08/26/2016	Briefly summarize why the customer is contacting Chrysler:Customer contacted Chrysler seeking assistance with his van. Customer stated that his vehicle's sliding doors are not working properly. Customer stated his vehicle started making a grinding noise which was never fixed. Customer stated that the DLR ended up doing a flash update that started making the vehicle stall in the middle of driving. Customer stated that his sliding passenger door does not always work either and the DLR cannot duplicate the issue either. Briefly summarize what the customer is expecting:Customer is seeking to have his vehicle appropriately repaired. Agent contacted 41573 and spoke with Dealer Principle Paul Hamsler. Paul stated that they believe the door is working properly and it is a user error. DP stated that the only time it will duplicate is when they pull on the door with excessive force. DP stated that they are going to be replacing the door module on the door. DP stated that the customer is in a rental and will be until Monday when they replace the module. DP stated that the update they did was a corrupted file and is causing the vehicle to stall out. DP stated they are working with STAR (CASE NUMBER[redacted]). Agent thanked DP and disconnected call. Agent advised customer that his file will be escalated for review by a CM. Agent gathered the following information from customer for appropriate call back: [redacted]

09/13/2016	***** EMAIL BRIEF DESCRIPTION CONTENT ***** We wish to take advantage of The Lemon Buyback Law ***** END EMAIL BRIEF DESCRIPTION CONTENT *****
09/21/2016	To Whom It May Concern: My husband and I are loyal consumers of Chrysler, Dodge and Jeep products over the last 10 years. My father, [redacted] who is a [redacted] in Barberton, OH, has given guidance as to what products are best for our family and gave us great deals. We have purchased 2 Dodge Journeys, a Dodge Avenger, a Jeep Compass and recently a Chrysler Town and Country on 10/20/2015. We absolutely love our van but have great concerns with the safety of our family and the issues at hand. The following has transpired: On August 25th I dropped our van off to get both back passenger doors fixed. The doors were not opening from a few days prior so we brought it to our local dealership. We picked the van up on the 26th and the doors were working. On the 27th of August we were getting ready to leave to go out of town and my husband used the auto start just like he always does since it is in the 100s here in North Carolina. When we got in the van my husband hit the push start button to activate it and the car started to act weird. My husband put it in reverse and the car went forward and we almost went through our garage. The soonest we could get into the dealership was Tuesday August 30th. When I picked my van up on Wednesday August 31st it was supposedly fixed. When I got in my car the issue was still not resolved. The dealership was not able to get me back into the shop until September 12th where they determined that they could not fix it at this time. Today September13th when I left work my vehicle would not start until after 5 attempts. The bottom is what I was given: Case Number [redacted] Release Date: 08/11/2016 Symptom/ Vehicle Issue: Remote Start Fails To Operate After A Recent PCM Flash Discussion: After a remote start attempt, the vehicle will shut off after the keyless Go Button is depressed. Some vehicles may set DTC's B1A28- ECM Mismatch with SKIM and most all set a P0513- Invalid Skim Key. Do not replace any modules aat this time, engineering is investgating the needed updates and will notify the field shortly. Are you serious??? My vehicle was given back to me defective and my familys life now lies in the hands of a malfunctioning van with the possibility of nonfunctioning instruments coliding with the safety and well being of my family. NOT GOING TO HAPPEN!!!! WOULD YOU ALLOW THIS???????????? We want to take advantage of The Lemon Law and have our vehicle replaced immediately and will also request the equivelent or better as a replacment and or rental until you work this out. We have missed work and placed my family in harms way and are ready to hire council if anything less than replacing the vehicle is the solution. Thank You for your Immediate attention (NOW IF NOT SOONER) Sincerely, [redacted] [redacted] Wake Forrest, North Carolina [redacted] *****END OF CUSTOMER EMAIL
09/21/2016	Dear [redacted] Thank you for contacting the FCA Customer Assistance Center. We are sorry to learn you've had such an experience, and can only imagine the frustration you are feeling. I do want to explain that notifying FCA does not mean that you are filing for Lemon Law. Our objective is always to repair the vehicle as per the terms of the original warranty. I am escalating your case to a case manager for a review of the vehicle's repair history to determine the right course of action. You will be contacted within 1-2 business days unless additional research is needed, which may take up to 3 business days. Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753. Sincerely, Jody Customer Service Representative FCA Customer Assistance Center *****END OF CAC EMAIL*****

09/21/2016	Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle's repair history to determine if their request merits further action and that due to the nature of their request, it will require a call back which will take place within 1-2 business days. The outcome of the review does NOT determine Lemon Law eligibility. 09/25/2016	Incident number: [redacted] Hi, my name is Brenda with Dodge Customer Care, How may I help you today? Brenda: Hell[redacted] I have purchased a new Dodge grant caravan on April 30 2016. It currently has 5800 miles on it. I noticed when my kids went to get into the vehicle they did without me unlocking the doors first. Come to fine out the lock on the passenger sliding door does not work, either by power or manually. Is this going to be taken care of. I just had my first service and assumed they checked everything. Brenda: I can certainly understand that would be frustrating for you to have the passenger door not work for you. May you please advise me of the last eight of your vin number? [redacted] Brenda: May you please provide me with your mailing address and mileage so that I can research this further for you? [redacted] Warwick RI [redacted] 5800 Miles Brenda: The vehicle is registered to a business. Are you the business owner? [redacted] Registered to my wife [redacted] We are the owners Brenda: Thank you for the information [redacted] This is a brand new vehicle I would assume that Dodge warranty would cover this for the first year. Brenda: Thank you for your patience [redacted] We are very upset about this as this is our only vehicle and cannot be without. Brenda: I have ensured your vehicle address information is accurate. I have looked into your factory warranty for the vehicle. Your vehicle came with a factory warranty for 3 years and 36,000 miles for defect in product for basic items. Your vehicle has a powertrain warranty of 60 months of 60,000 miles for the powertrain warranty. Any factory defects for doors, electrical etc would fall under the basic factory warranty. The vehicle will need to go into the dealership to be diagnosed [redacted] Our dealership has a habit of telling us it was not a defect. They already replaced our wiper blades and originally tried to charge us.They said they were at 50%. I said impossible in 5 months. They finally covered them. [redacted] I want assurance that Dodge is going to stand by their product. Brenda: I can understand that this is frustrating for you in some cases. Windshield wiper blades, brakes, rotors etc. are wear and tear items and come with a 12 month or 12,000 mile warranty whichever comes first. Certainly if they were worn within that time frame then they should have been covered [redacted] Yes only after I complained. Brenda: You need to bring the vehicle into the dealership for diagnosis. If you would you can certainly speak to the service manager. [redacted] Thanks [redacted] disconnected ('Concluded by End-user').

01/06/2017	*****Supervisor Call***** Writer spoke with the customer who advised that she wanted to be compensated $100 a day for the loss of the use of the options she had purchased in her vehicle and were not present on the loaner vehicle she has been provided, approximately $8100 and accruing every day according to the customer. Writer advised that the CM has offered to provide the customer with a MaxCare SC as compensation and to cover any future issues with the vehicle, the customer stated the she didn't see much compensation value in a SC that she may or may not use in the future, writer informed that this was our only mechanism to compensate her as there is no coverage of this type provided by the warranty of the vehicle, customer states that she wants the SC even though she doesn't find it valuable. Customer inquired if the information in lines 612-615 is correct and writer advised that the vehicle's warranties will always be used to cover a repair before the SC if the warranty covers that repair, customer requested an email guaranteeing this and writer advised that we cannot provide a legal guarantee in that manner as we are not a legal department, customer states that her CM offered this and writer advised that it is against policy and the CM should not have offered this and the information is available online or at the service contract number, customer states that she wants the email not as a legal reference but as personal information and writer advised that she could then refer to the website or contact the SC hotline and customer advised that she needed the information immediately and writer again advised that we were not refusing to provide the information and that it is available online or at the hotline and customer stated that she needed it emailed immediately because she might not have access to a computer and writer advised of the hotline, customer stated writer was not helping her and disconnected the line. Writer spoke with MR2177 and advised that we cannot provide documentation of that type and CM admitted to having said it without realizing, CM requested to close case since SC paperwork has been submitted and case is ready to close. Case approved to close.
01/09/2017	Customer is inquiring if the MaxCare SC has been added, I informed it has been submitted and can take up to 10 days to be added in the system.

10/26/2016	Reference Hi, my name is Sarah. How may I help you? Sarah: Are you there? My 2016 t&c van is making a loud buzz somewhere around the passenger side sliding door when the automatic locks are unlocking. It will do it when the van is shut off and the front doors are opened and when the handles are used to unlock from outside Sarah: I'm sorry to hear that you are having this concern What I would need to do is get you over to a Chrysler Agent for further assistance, as you have reached Mopar Owner Connect Web Chat. Would you like me to transfer you over? Please do, thanks Sarah: You're welcome, one moment please. 'Sarah' disconnected ('Transferred to Queue'). Hi, my name is Beth-Anne. How may I help you? Beth-Anne: Hello how are you today? My 2016 t&c van is making a loud buzz somewhere around the passenger side sliding door when the automatic locks are unlocking. It will do it when the van is shut off and the front doors are opened and when the handles are used to unlock from outside Beth-Anne: I am sorry to learn of this issue. I would like to look into it further for you. Beth-Anne: Has the vehicle been to the dealership yet? No,not yet. Beth-Anne: Okay. What I would recommend is taking the vehicle to the dealership to have a technician look at the door. I have documented here that your vehicle has had this concern. In the event the dealership is not able to resolve the issue I would recommend contacting us back so that we can escalate a case for you. Beth-Anne: Hello I felt a shock when I used the passenger side door handle to unlock the doors from the outside. This has only happen once Beth-Anne: I can certainly understand the concern. I would like to have a technician go over the vehicle. Would you like me to locate your the nearest dealership? That's ok, we have the maintenance coverage plan through the dealership. I was just wondering if there has been any recalls for that. I had a phone message to call a number about a recall and when I called the number it was just music for 3 minutes before I hung up. Never put on hold by anyone just music Beth-Anne: Thank you for letting us know what happened when you called. I did complete a recall search and there are no open recalls on the vehicle. Beth-Anne: Hello Beth-Anne: It seems we have lost connection. This CHAT will be disconnected due to no response. Thank you for contacting Chrysler Customer Care. Please chat with us again if you need further assistance. You can also look for updates on our website www.Chrysler.com. Have a good day! disconnected ('Concluded by Agent'). - Reassigned to CR887 for survey bypass (No diagnosis)

10/31/2016	Customer called in stating that the rear door on the drivers side is not functioning. The door lock is buzzing loudly when the lock is engaged, which happens each time she drives the vehicle. The customer is afraid to drive the vehicle as she is afraid that this is an indication that there is an electrical issue and she doesn't want a fire or something else to happen. The customer is unable to get it into a DLR until 11/09 as the DLR is booked. The DLR does offer rentals, however they do not offer them until it is diagnosed. The customer cannot be without a vehicle, and needs a rental. Writer explained that the case would be sent up for rental consideration. Customer was advised that due to the nature of their rental request a call back is required and will take place by close of business today. 11/04/2016	Incident Hi, my name is Carina. How may I help you? Carina: Hi how are you? already replaced one the slide door locks on the van and my driver side says its locked and won't open from the button or with the handle inside. Are you having issues with the 2016 model doors and locks? Carina: Has the dealership stated what is causing this issue? No they just replaced the other and said it was defective. I have not returned yet for the new side as it just stopped a fe minutes ago.I was hoping you could possibly make a suggestion to open? Carina: If the obvious way to open is not working we do not have any other option to get it open and would recommend taking it to the dealership. Thank you isconnected ('Concluded by End-user'). Reassigning to TL CR887 for survey by-pass.

12/07/2016	Status update provided via email to the following email address: [redacted] My name is Jennifer, and I am following up on a survey that you recently completed regarding your 2016 CHRYSLER TOWN & COUNTRY TOURING-L WAGON. First, I would like to thank you for taking the time to complete the survey and offering us valuable feedback. Comments like yours are one way we have to learn of problems that may develop, as well as improvements desired by customers. You mentioned in the survey you were experiencing concerns with the leasing process as well as concerns with the rear sliding door making abnormal noises when closing. If you would like to discuss the survey further, please contact me directly at 1-855-675-9291 Extension 4718703 or by replying to this email. End of Status Update
12/07/2016	Begin Customer Message reviewed: I'm very unhappy with my '16 TC. The quality is much lower than my '13, which I loved it from the moment I drove it off the lot. I am a [redacted] and use my van all the time. I went to the Philly car show was told that the TC was being phased out for the Pacifica. In Feb. '16, I began shopping and researching to determine what would be the best fit for me at lease turn in, July 2016. 3 dealerships said that they had no idea when to expect the Pacifica and that it would be best for me to just lease the TC again and get the Pacifica on my next trade in. I loved my TC so I opted to trade in early and get the '16. Within the first month, I knew it was not as nice as my last. There was more road noise, was not as comfortable, and then began to have intermittent issues with the passenger door. I can't reproduce or make it do the sound I experience, so there is no point in me taking it to the dealer. Recently, there is a loud rattle in the back of the van I suspect to be a suspension issue will be at the dealer after the holidays. I'm not sure if I will remain brand loyal when the lease is up. I'm disturbed by the lower quality on a vehicle they knew they were phasing out. If I could go back and do it over, I'd wait and test drive the Pacifica, as it came out in April. I'm not sure I'd have leased either, but now I know I won't purchase this out at the end. End of Reviewed Customer message

12/15/2016	Briefly summarize why the customer is contacting Chrysler: Customer called to put in complaints about her vehicle and the dealership 64869. Customer states she bought an oil change and tire rotation package for $1300. Oil change in October at 9000 miles was charged, dealer put wrong oil in vehicle and was told when next oil change was due they would fix oil and flush out bad oil at that time. Last month sliding door did not work, customer states it took a week to fix, picked up vehicle and sliding door still broken. She took it back to fix again and in total about 3 weeks to fix door. Blue tooth took 3 weeks to fix and set up. Customer states service department at Darcars dealer 64869 is horrible. Now when its cold out and she starts vehicle it ticks, Brian SA told her to drop it off on Monday. Customer requests a call back after agent speaks to dealer. Agent attempted to contact dealer, was on hold to speak with Brian Page or SM for over 20 minutes, agent will call dealer back later in the day. Briefly summarize what the customer is expecting: to document complaints. Agent advised she will call dealer back later today and call customer back today or tomorrow.
12/23/2016	Please see TL or SME.
12/29/2016	** Customer called in for updates Agent advised customer that her cair is still being reviewed Customer states that she is brining the vehicle back to the DRL tomorrow DEC 29/2016 Agent advised customer that if she has any problems at the DRL to call CAC back and that's when we can get a CM involved
01/04/2017	JM3569 please contact customer and see if repairs are needed. Please see TL or SME.

12/15/2016	Incident [redacted] Hi, my name is Steve. How may I help you [redacted] Hi Steve Steve: H[redacted] I have a question regarding my warranty Steve: For that I can get you over to a Dodge specialist is that okay? [redacted] yes Steve: Will be one moment 'Steve' disconnected ('Transferred to Queue'). Hi, my name is Melissa. How may I help you? Melissa: How are you today, [redacted] I have a question regarding my warranty Melissa: I would be more than happy to answer any questions you may have regarding your warranty! [redacted] My 2016 Dodge caravan is having a latch issue with the slider door which is making it not stay shut or it will make it not open at all [redacted] I took in to get it looked at. At at dodge dealership. I know the part and labor will be covered. I have a question regarding a loaner or rental vehicle Melissa: I understand. That would be very frustrating to have concerns with the door not staying shut or opening properly on a brand new vehicle! When this was diagnosed, did the dealership advise you how long the repair itself would take? [redacted] Yes, they had to order the part and they said it "should" be to the dealership by tomorrow. However, my concern is if it doesnt arrive tomorrow and now my van has a non working slider door over the weekend. [redacted] They said they have loaner vehicles but they are all checked ou[redacted] I thought my warranty covered loaner or rental vehicles while my vehicle is getting repaired [redacted] or is unfit to drive [redacted] I have [redacted] and I dont want to drive them around in van that has unsafe door [redacted] *an Melissa: I understand. So is your vehicle currently at the dealership? Rental is a courtesy unless you have a service contract that covers rental. I am not seeing a rental service contract under your VIN. The vehicle would typically need to be down for an over night repair. Melissa: However, I can look into this for you [redacted] No I picked it back up because of where because I need to get home tonight and they dont have an loaners. Plus work 40 min away from home. The dealership I took it to is in the same town where I work. Melissa: Okay, I can take a look into this for you, one moment please. [redacted] I am fine driving it today. I just dont want to be in a bad position over the weeken[redacted] if the part doest come in tomorrow [redacted] ssa: I completely understand. I would like to contact your dealership, what is the name of your dealership, is it Glenbrook? [redacted] That is where I bought it. However, I am having it worked on in Marion, IN at Mike Anderson. 3527 South Western Ave. [redacted] Melissa: Okay thank you. I will give them a call, one moment please. I appreciate your patience [redacted] Are you still there? Melissa: Thank you for holding [redacted] I appreciate your patience. I spoke to Service Manager Kevin from MIKE ANDERSON CHRYSLER DODGE JEEP and he did advise that he does not see why the part would not be arriving tomorrow, the only way there would be any type of delay with receiving the part/repairing the vehicle is due to the weather. I did mention rental to Kevin and he advised that if for some reason they cannot repair your vehicle tomorrow they may have a loaner returned tomorrow. If for some reason this is not the case, you can definitely contact us back with case number [redacted] and we can look into possible rental for you. [redacted] Thank you so much for your help! Melissa: You're welcome, do you have any other questions today? [redacted] No, that is all for today. Melissa: Thank you for contacting Dodge Customer Care. Please chat with us again if you need further assistance. You can also look for updates on our website www.Dodge.com. Have a good day! [redacted] You too! [redacted] Would you be able to end this chat so I can print off the case number? [redacted] t wont let me print until this ends. Melissa: Yes! Sorry a
12/15/2016	bout that. [redacted] sconnected ('Concluded by Agent').
12/15/2016	**DLR CONTACT - [44424] MIKE ANDERSON CHRYSLER DODGE JEEP** Agent contacted DLR and spoke to SM Kevin who advised they do not deal with Enterprise, they have their own loaners which are all booked up. SM Kevin advised part should be in tomorrow and if there's any sort of delay and a loaner becomes available they could try to assist customer.

01/23/2017	CM received a call from customer stating that his drivers side sliding door has a lot of issues closing; it has been to the DLR 3x for that same issue. Customers stated that the window side of the door also does not roll up properly and is afraid it might break. Customer stated that he received headphones with battery things that dont close. Customer stated that he received the headphones like that when he purchased vehicle. Customer stated he has an appointment on 1/26 but has to leave out of town for work the next day and won be back till 02/01. Customer spoke with SA Austin and was told that they do not offer loaner vehicles. hard for DLR to fix vehicle. Customer stated 2 days ago all electronic started acting weird such as doors open on there own and doors locked up on its own. Customer stated on his last case he was told that we are able to refund him his brakes if he bought different ones because the ones that are on his vehicle right now is not working well. CM advised customer that she will contact DLR and see what options they have regarding rental. CM also informed customer that a diagnosis is required before offering rental; CM informed customer that we can look into brakes issue and seek what the POF would be. CM advised customer that she will look into appointment for customer and if it does not work for him with rental; CM will reschedule customer for appointment on 01/02.
01/23/2017	Agent attempted to contact dealer SA however, SA not available. Left message for a return call at extension 40279.
01/23/2017	CM contacted DLR at 303-636-2549 spoke with WA Shannon. CM advised WA that customer has appointment on 1/26 and needs his vehicle diagnosed to see whether we will be leaving his vehicle at DLR for repairs or if it would be a one day repair. WA stated she will notate that on file. CM advised WA if they will be able to assist with rental and she stated that they will accept. CM advised WA she will follow up with DLR on 01/26.
01/23/2017	CONTACT UPDATE - Customer was contacted today at [redacted] Customer was provided with agent's extension: 40279. CM advised customer of lines 107-112. Customer stated vehicle was already diagnosed and now the DLR is just needing the vehicle there for repairs.
01/24/2017	[redacted] called to speak with CM. Writer transferred to FF811 ext. 40279 voicemail.
01/24/2017	Status update provided via email to the following email address: FF811@chrysler.com,IL502@chrysler.com,as1371@chrysler.com Customer is requesting callback as soon as possible. End of Status Update
01/25/2017	CM received a VM from customer to give him a call back as soon as possible. CM contacted customer but reached VM. CM advised customer to give CM a call back and to leave a detailed message if he is unable to get a hold of CM.
01/25/2017	CM contacted customer and customer stated that WA was being rude to him over the phone regarding repairs for the headphones not being covered. Customer also stated that WA advised her that vehicle has to be diagnosed to give rental. CM advised customer that we do need to have vehicle diagnosed before giving rental to customer. Customer stated that his headphones stopped working since last October; battery compartment covers are broken and wont hold battery in. Customer stated that he is available next week Tuesday 01/31 and can leave vehicle in DLR for 3 days not needing rental; CM advised customer that she will follow up with DLR on 01/31 to see if they have found a diagnosis and if they have found out by the 3rd day; CM will authorize rental for customer to be in for work while repairs are getting done.
01/31/2017	CM contacted DLR spoke with WA Shannon. WA stated that customer rescheduled appointment for February 7th.
01/31/2017	CM contacted customer to confirm if he rescheduled his appointment for Feb 7th. Customer confirmed that it was. Customer also wanted to know if his headphones were covered under warranty. CM advised customer that we don't cover the headphones because it is not a provision of his warranty. CM advised customer that she can talk to DLR to see what they say but even if customer has basic warranty; headphones are not part of the coverage. Customer stated he would like to talk to a supervisor to see if they can approve it to be covered, CM advised customer that they will receive the same answer but customer would like to speak with them. CM informed customer that it would take 1 business day for a supervisor to contact customer.
02/03/2017	***Supervisor Call*** Writer contacted the customer who stated that he is concerned about his headphones not working and wanted to know how to get them covered, writer advised that the headphone are covered under separate warranties offered by their makers, Writer provided the contact number for the customer to contact per AC Answer ID 18678. The customer is concerned about not having a rental on the 7th and would like to see if we are able too, he is having a number of electrical concerns with this door, writer advised that we will be contact the DLR on 2-6-17 to discuss his case further as well
02/06/2017	I called DLR, Austin is handling the appointment tomorrow but he is not in today, so no real info was available.
02/06/2017	I called customer, told him that I haven't been able to speak with Austin. Customer said he'll drop vehicle off tomorrow at 8:30 am, I told him that I have a late shift, but that I will call both he and DLR tomorrow.
02/06/2017	Status update provided via email to the following email address [redacted].com I'm Darrell, and we just spoke. The current Case No. is [redacted], and my phone contact is 800-763-8422, EXT. 40350. End of Status Update
02/07/2017	I called DLR, spoke to Austen (prefers 7[redacted], cell) and told him that I'll invite customer to stop over to DLR to help pinpoint concerns to be diagnosed. Customer is not in a rental now, and the initial efforts of DLR aren't coming up with any reparable items.
02/07/2017	I called customer and he stated that he has multiple meetings today and tomorrow so is not likely to be able to revisit DLR. Said he has the cell no. of Austen and will call him to clarify what he is able to over the phone. He also had a warranty question for me, I told him that I'll get an answer and call him back at the time he stated. I'm setting f/u for both for 2/8 later in the day.
02/08/2017	I called DLR and Austen said that customer is picking vehicle up today before end of business. DLR said that there were no repairs done, because no issues were able to be duplicated. If customer is okay when I call him later this evening, I'll close him, and call DLR for closure tomorrow.
02/09/2017	I called customer, got VM, left a message about him calling me this evening, or me making update calls tomorrow. I mentioned looking at possible case closure.
02/09/2017	CLOSED LOOP UPDATE - customer contacted today to confirm repairs. All of the customer's concerns as documented in the reason codes have been addressed with the customer. Customer stated that DLR made some adjustment(s) to the door that he was having problems with and it seems somewhat better, also that DLR did some minor software updates, and that customer understands that some things he experienced were not able to be duplicated so ended up needing to be unaddressed. He feels that his concerns were addressed as well as can be. I read the following paragraph to customer verbatim: Thank you for allowing Dodge Customer Care the opportunity to address your concern and we hope we were able to resolve your concern to your satisfaction. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case, therefore, you could potentially receive an email or telephone survey. We'd ask that you take the time to complete the survey so we'll know how we're doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Dodge customer.
02/09/2017	I called DLR for case closure and left a VM for SM Mike Warner, my number, the Case No., and that I'll try back later.
02/09/2017	Dealer 45683 (SM) Michael calls to speak with the case manager. Writer transferred the call to dp1360 at ext:40350 .
02/09/2017	Was the customer in a rental? N If yes, how many days? Did the customer have a co-pay? N If yes, how much? What is the RO #? [redacted] Does the SM have the CAIR #? If no, provide it. 01/19/2017	*** Bridgett with the I2R Customer Resolution Team is now responsible for this CAIR. If the customer should call, please direct them to contact Bridgett directly at (214) 583-2194. Thank you. ***
01/19/2017	**Called (26808) SM Will advised the vibration and pulling is in the tire itself. So, they ordered 4 new tires (internally) and replaced all, but concern was worse on front. Road-forced balanced front 2 tires again but concern was still present. Ordered 2 new tires (under warranty) and rotated those 2 tires to the rear, customer left with vehicle. New tires have arrived so, SA Dakota will set appt for customer to bring vehicle back for tire mounting and road-testing. Note: on RO [redacted] customer picked up vehicle each time while waiting for tires to arrive.***Left VM for SA Dakota to confirm actual days down and when customer is bringing vehicle back.
01/19/2017	**Called customer and she stated they already replaced the tires 3 times. She stated SA Dakota told her it's not the tires but the front end so, he's going to take another look at the front end when she brings the vehicle back. Customer was very frustrated the vehicle is still not fixed after all this time and wants a resolution. Advised customer thus far, the diagnosis has been the tires which is not a warranty issue and that's why the case was closed previously. Offered to locate another DLR for a 2nd opinion. She stated other DLR's are too far away. Offered arbitration and customer stated she already contacted them and is now back for repair. Advised customer I am waiting on a call back from SA Dakota and will discuss a possible front end problem and next steps. Customer was very frustrated and ended call. **Follow up 1/20 with DLR and customer
01/20/2017	Customer called and LVM for me to call her back with a resolution
01/26/2017	Status update provided via email to the following email address [redacted] Good Afternoon, This is CHance with Chrysler Resolutions [redacted] is looking to get a second opinion on her vehicle at your dealership. I am authorizing a rental/loaner while customers vehicle is in for service. Up to $35 a day. 01/26/2017	Called customer in regards to her vehicle. She stated that she took her vehicle to dealer 67396 but was informed that they would not give her a loaner without authorization. I advised that I would reach out to Brandy at the dealer to provide authorization. Called dealer 67396 and spoke with Brandy regarding getting the customer into a rental or loaner while vehicle is in for service. She asked that I email her the information and then her and the customer would speak about getting the vehicle in.
02/02/2017	Spoke to SA Ashley and she doesn't see the vehicle is there. Called customer LVM requesting a call back to CM.
02/03/2017	**Customer returned call and LVM requesting an immediate call back about appointment to take vehicle. **Called (67396) spoke with SA Brandy per email noted in lines 31-40. SA advised she received the email authorization and customer can bring vehicle any day next week 9-5pm to get into a rental. **Called customer and she has no more days to take off to take vehicle through the week. She asked for a weekend drop-off.***Called SA Brandy and customer can drop vehicle Saturday 8-12 noon to get into a rental at Enterprise. But customer will have to get to Enterprise on her own.***Called customer back and advised. She stated she will try to take vehicle tomorrow morning but will need a rental large enough for 2 car seats because last repair that was a problem. Advised I will authorize up to $40/day and will update DLR. Advised customer to let me know once vehicle is at DLR.

02/14/2017	**Customer LVM stating she made appointment for tomorrow at (67396) for 2nd opinion. She stated she is borrowing a vehicle because the rental authorized was only for 2 days. **Called (67396) SA Brandy confirmed appointment for tomorrow 2/15. Advised SA that rental is authorized 5 days at a time. SA misread email authorization and thought it was for only 2 days. Asked if SA needed anything further on rental authorization and she said no. **Called customer and advised rental has been confirmed with SA for as long as vehicle is in for service. She stated she borrowed a vehicle because rental agency didn't have anything large enough for her 2 car seats. Advised if at anytime she needs to go into a rental, I can have DLR check with Enterprise to see if something comparable came in. Customer stated she meets with Arbitration on 2/23 and asked if this case will remain open. Advised her case is still open. **Follow up 2/17 with DLR and customer

02/23/2017	***Called DLR 67396 to update RO history. SA Brandy provided the details. ***Called customer to discuss how vehicle is performing. Just walked out of her Arbitration meeting, the vibration is still there and vehicle is pulling to the left now. 10 days the arbitration counsel will make a decision. Customer does not have time to take off work to take vehicle back to DLR 67396. *** Follow up 02/28/17***
03/08/2017	Called customer LVM requesting a call back regarding the case and the arbitration hearing.
03/10/2017	**Customer returned call and LVM.***Called customer and she stated she did not accept the arbitration decision so, she needs to get her vehicle back in for service. She wants to go back to Bob Frensley (67396) and will need a rental. She asked for a weekend drop-off because of work. Advised I will call back once the appointment is set. **Called (67396) Ashley in Service said SA Brandy handled the vehicle before but was at lunch. She said to call back in an hour to speak with SA about a Saturday drop-off / rental pick-up.
03/10/2017	**Called (67396) SA Brandy advised they have no way to get customer to Enterprise on a Saturday. But if she can get over to Enterprise on her own, she can drop the vehicle on a Saturday and SA can arrange a rental. Otherwise, next available appointment is Tuesday 3/14 anytime she can get there before 5pm to get into a rental. **Called customer LVM advising about Saturday drop-off and Enterprise or Tuesday 3/14 before 5pm. Requested a return call to advise when she plans to take the vehicle. **Follow up 3/14
03/10/2017	**Customer called back and stated its going to snow there this weekend and the DLR is a distance away so, she can't take the vehicle until next Saturday. She will get to Enterprise on her own if a rental is authorized. Advised I will authorize the rental for next Saturday 3/18. **Follow up 3/16 with customer (REMINDER) and DLR (authorize Rental)

03/16/2017	**Called customer and she confirmed she's taking vehicle this Sat 3/18 to DLR (67396). She will get to Enterprise to pick up a rental. Advised I will authorize the rental with DLR. **Called (67396) SA Brandy is out until Monday. Spoke with SM Gary and advised customer is bringing vehicle on Sat 3/18 and will get herself over to Enterprise for the rental. SM advised he will reserve a rental for the customer and requested an email with customer's information. Email sent to SM. **Follow up 3/20 with DLR (open STAR case)
03/20/2017	**Called (67396) SM Gary advised customer did not bring her vehicle in Saturday. **Called customer LVM requesting a return call to advise if she plans to reschedule appointment. **Follow up 3/22
03/21/2017	**Customer LVM stating since it's an hour's drive to the DLR, she called Saturday before heading over and they knew nothing about her appointment or rental. So, she didn't take the vehicle.***Called customer back and apologized for the mix-up. She said she can take vehicle this Saturday. **Called (67396) SM Gary advised he was there all day Saturday and had a rental reserved but was not made aware of the customer's call. SM connected me with SA Brandy to reschedule. SA Brandy rescheduled for this Saturday 3/25 and will reserve a rental. **Called customer LVM advising reschedule for Sat 3/25, rental reserved. Requested a call back to confirm receipt of appointment. **Follow up 3/24 with customer (REMINDER)
03/22/2017	**Customer returned call and LVM confirming she will take vehicle to DLR on Sat 3/25. **Follow up 3/24 with customer (REMINDER) and DLR (confirm appt)
03/24/2017	**Called customer and she confirmed she will take vehicle tomorrow. Advised as early as possible for drop-off since it's Saturday. She will get to Enterprise on her own. **Called (67396) confirmed with SA Brandy customer is dropping vehicle tomorrow and will get over to Enterprise on her own. Advised a rental has been authorized. **Follow up 3/27 with DLR (open STAR case)

03/29/2017	**Called (67396) SA Brandy advised they drove vehicle at 70mph and vibration is so minor it can barely be felt. SA advised there's nothing that can be done. **Called customer and she was on her way to pick up the vehicle. She stated the DLR told her the vibration is minor and there's nothing they can do. She stated it wasn't there at purchase and if the DLR told her they can't fix it, what's the next step. She stated she can't take off work anymore for repairs so, something needs to be done. Advised I will look into it to see if anything else is recommended and follow up next week. **Follow up 4/3 with customer
04/04/2017	**STAR (T5422JG) suggested to have customer drive 2 or 3 lot vehicles at the dealer, and if she feels the same vibration its normal, if the other vehicles do not have the concern, he can assist DLR in finding the cause of the concern. **Called customer LVM advising suggestions per STAR. Requested a return call to discuss how she wants to proceed. **Follow up 4/7
04/07/2017	**Called customer and she stated she did test-drive one used R/T at the DLR and it had no vibration and a noticeable difference in how it drove. She's checked on the Dodge website for other R/T models to test-drive but hasn't located any because the 2017s are G/T models. She wants to know what to do. Advised I will look into this and follow up next week. **Follow up 4/12
04/12/2017	**Called customer LVM recommending to look for another like vehicle R/T model on a used car lot. If she finds another like vehicle to test-drive, we may be able to take another look. Requested a return call. **Follow up 4/14
04/14/2017	**Customer LVM wanting to know what information she'll need to provide if she finds other R/T models to test-drive and they don't have the vibration. **Called customer and advised I will get that information and call her back next week. **Follow up 4/18

05/03/2017	5/1/2017 11:46:26 AM: User Comment by BH670: **Email response from AM: "I got the tire road force numbers from the dealer on Friday, all were within the acceptable range, dealer SM Gary Dull, stated the vehicle was operating as designed at that time."
05/03/2017	**Called customer and provided assessment per AM that alignment is within the acceptable range. She stated this is not something that she caused. She stated the pulling and vibration were not there when she purchased the vehicle. Those issues did not start until after Franklin Chrysler replaced the steering column, clock spring and left front strut assembly. She stated this problem was created by the dealership and now she's being told she has to live with it. She's not sure what other issues this vibration could be causing. She stated with this vibration, she won't even have any value in trading the vehicle. But, if she keeps the vehicle, it's just going to cost her more money. Advised I can look at adding a service contract to her vehicle at no cost for future reliability concerns. She stated she tried arbitration and due to their insurance, they couldn't drive the vehicle to experience the problem. She stated she's not feeling valued by Dodge at all at this point. She stated again that she did not cause this problem and doesn't know what to do because everyone from Dodge is just taking their hands off it. Advised follow up in a few days. **Follow up 5/5
05/16/2017	**Called customer and she stated she wants out of the vehicle but they bought the vehicle they wanted and Chrysler doesn't make it anymore. She stated on a standard trade, she would be quite in the hole which is unfair because she didn't create this problem. Asked about monthly payments and she pays about $370/mo. Offered 1 payment and a service contract. She stated with all the time out of their vehicle and the money spent going back and forth, 1 payment would not even pay for the gas. Advised customer that we need to obtain all RO's from the dealers to begin the review process and customer said she understands. *Called CDJR Franklin/26808 and obtained email address of SM. 06/08/2017	**Called customer and advised we took another look for other options but since the vehicle had already been through arbitration and it was deemed the concern was a normal operating condition when compared to other R/T Grand Caravans, Chrysler considers the vehicle repaired at this time. Customer stated she will just have to go with that and accepted the CRO offer. Advised the service contract will be applied within 5 to 7 business days and she should receive the service contract documentation within 6 to 8 weeks in the mail. Explained an offer letter will be sent for her review and signature. She asked what if this concern gets worse. Advised we will still help within the terms of her warranty and open a new case to begin reviewing from that point forward. Customer verified her mailing and email addresses.

02/07/2017	Writer contacted Customer. Customer states that passenger automatic sliding door isn't latching correctly. Customer states it has happened 20 -30 times. Customer states he is currently in FL and warmer weather seems to be a factor. Customer states he took vehicle in to DLR 44393 - ADVANTAGE CHRYSLER DODGE JEEP about a week ago and DLR was able to duplicate the issue. DLR determined at that time that it was a software issue. They updated the software and the issue was resolved temporarily. However, it is now doing the same thing. Customer took vehicle back to DLR today. DLR was unable to duplicate issue and told customer there wasn't anything that could be done. Customer requesting assistance in getting this issue resolved and is also concerned that Basic Warranty will expire soon.
02/07/2017	Writer advised customer that vehicle will need to go back into the DLR for diagnosis and DLR may need to reach out to internal resources. Follow up 02/09
02/09/2017	Customer[redacted]alled to speak to CM tc908. Caller was warm transferred to the CM.
02/09/2017	Customer called in. Issue with sliding door is happening again. Customer states he has a video showing it happening. Writer advised customer will need to take it back to the DLR. Customer asked if he can just take it in right now.
02/09/2017	Writer contacted DLR and advised issue is happening now. Service Department advised to have customer bring vehicle in right away and don't turn vehicle off.
02/09/2017	Writer contacted customer to advised lines 72-74. Customer states he is on his way to take vehicle to DLR immediately. Writer advised will follow up 02/10

05/04/2017	Status update provided via email to the following email address: [redacted] Hello, I have attempted to contact you in order to make sure that your vehicle is running well and to see if there is any other assistance I can offer before closing your case. At this time since I have not heard back from you, I will assume that there are no new issues and that you're pleased with repairs. At this time we will be closing your case, but I want you to know that just because the case is closed does not mean that it goes away, this case is a permanent file and is attached to the VIN of your vehicle, so if for any reason the issue comes back or you have new issues we can always reflect on this case and what was done. I would like to thank you for giving us the opportunity to assist you and we hope that it has been resolved to your satisfaction. Once your case is closed you will receive a survey, this survey is based strictly based off of your experience with me as your case manager, you will receive a separate survey from the dealership as well. We would like to ask that you take the time to fill it out to let us know how we are doing, good and bad. If you do experience any issues in the future please feel free to give us a call at 800-423-6343, we are happy to assist however we can. Thank you for working with Dodge and being a valued and loyal customer. Have a great day! End of Status Update

03/27/2017	*****Customer Email***** Town & Country 2016 has sliding door issue for driver side and door is not opening manually and even chrysler dealer not able to open the door. They are planning to send it to body shop. I think this is a software glitch and would like to brought to your attention because I think it could prove life threatening if passenger got stuck in case of accident and no one able to open the door. Please look into this and would be happy if you can figure out the actual cause. Thanks *****End of Customer Email*****

03/29/2017	Agent contacted DLR and spoke wit has Sunny who stated that the vehicle received AM approval to send the vehicle to the body shop because the door wouldn't open and they will have to cut open the door.
03/30/2017	SA stated wont have updates until 4/3
03/30/2017	Agent contacted customer who wants to know what the mechanical failure was and what the physical failure was. Follow up with new information no later than 4/3.
03/30/2017	CONTACT UPDATE - Customer was contacted today at 03/29/2017 8:03:24 PM Customer was provided with agent's extension: 40341
04/04/2017	Writer called DLR 31344095 at 510-656-8700. She said SA Sonny is not there and neither are the technicians. She said she did not know if the vehicle was with the body shop yet. Spoke with SM Larry, he said it came back from body shop and there are a lot of repairs to do, but they have the parts. He said they expect to be done toward the end of the week. He said the customer has been in a rental since the 14th of March. Writer said he would authorize 14 days of rental.
04/04/2017	Writer called customer[redacted]. Customer said he wanted to know what the cause was. Writer told him he would find out next time he checks on the repair status.
04/05/2017	Writer called DLR 60559 at 510-656-8700. Spoke with SA Joe. He said they are still expecting the repair to be done at the end of this week at the earliest. He explained what is happening mechanically: latch is electronically controlled, and the electronic motor stopped working, so the latch stuck closed. That is why it had to go to body shop: it had to be forced open before the repair could proceed.
04/05/2017	Writer called customer[redacted]. Writer relayed information from lines 112-117.
04/07/2017	Writer called DLR 60559 at 510-656-8700. SA Sonny said they are still repairing, and expect to be done next week. Writer asked about rental, and he said they would try to get the DM to authorize repairs beyond what has been authorized so far (14 days authorized by writer, plus an undetermined number of days authorized by the dealership).
04/07/2017	Writer called customer[redacted]. Writer informed customer of lines 120-124, but customer said he did not want to wait multiple days for rental authorization, and wanted writer to try to secure more days as soon as possible. Writer informed customer he would try. Customer said he wanted to know how much the value of the vehicle would be impacted by these repairs. Writer said he would find out.
04/07/2017	Writer called AM DMD108 at (949) 241-6278. Writer left voicemail with extension 40341.
04/07/2017	AM DMD108 received voicemail from agent. I am no longer the AM for District G as of October of 2016. The area rep for District G is Jonathan Poserina and his number is 407-463-7632. I will also send him an email and copy you so you can correspond with him moving forward.
04/07/2017	Writer called AM Jonathan Poserina at 407-463-7632. Left message with extension 40341.
04/07/2017	Writer called customer[redacted] Writer informed customer there is still no update on the rental. Customer said he called the dealership and they told him it was fairly certain it would all be covered.
04/11/2017	Writer called DLR 60559 at 510-656-8700. Writer was on hold over 10 minutes, writer disconnected.
04/11/2017	Writer called DLR 60559 at 510-656-8700. Spoke with foreman Joe. He said a door latch retainer had to be ordered and should arrive tomorrow, and they will try to get the vehicle done then as well.
04/11/2017	Writer called customer[redacted]. Writer informed customer of lines 145-147. Informed customer will follow up 4/13.
04/13/2017	Writer called DLR 60559 at 857-415-7428. He said they received the wrong door panel because the box was labeled incorrectly. He said he is not sure when the right one is coming.
04/13/2017	Writer called DLR 60559 at 510-656-8700. Spoke with Will in Parts. Writer was told the new, correct door panel has already arrived.
04/13/2017	Writer called customer[redacted] He said with the amount of time he has been waiting he would like additional compensation. Writer suggested an oil change service contract. Customer asked about vehicle payments.
04/13/2017	Writer[redacted] Writer informed him that there are too many variables to know if the vehicle's trade-in value will be affected by the repair and part replacements, and if so how much. Writer suggested he ask the finance department for more details. Writer promised follow up of two business days.
04/17/2017	Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40341.
04/17/2017	Task To Dealer: I wanted to see what the status of the repair is; when I checked with Parts on Thursday they said the correct door had already arrived. Task Type: Days down
04/17/2017	Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40341.
04/17/2017	Writer called DLR 60559 at 510-656-8700. SM is not available.
04/17/2017	SA Ashley (not this customer's RA) told writer that this is being worked on by the shop foreman, who should be back Wednesday.
04/17/2017	Writer called customer[redacted]. Customer said he is concerned that the repair is taking so long, and is worried that something else might be going on with his vehicle. He expressed some interest in pursuing buyback, but said will wait at least until Wednesday to pursue that further.
04/17/2017	Writer promised follow up of two business days.
04/18/2017	SM Larry called writer. He said door is mostly assembled, needs to be installed. They are expecting that to be done late Wednesday early Thursday.
04/19/2017	Writer called DLR 60559 at 510-656-8700. SM Larry said he thinks the vehicle will be available tomorrow.
04/19/2017	Writer called customer[redacted]. He said his rental vehicle has been helpful, but has not been ideal, and he worries that he would be immediately responsible for anything that happens to it, such as if his children spilled something. He said he would like a vehicle payment if possible, and if not that, then Maximum Care since it covers body mechanisms. He worries about the other door going out in the same way. Writer promised follow up of two business days. -HK333 4/19
04/21/2017	Agent attempted to contact dealer Service Manager (SM), however, SM not available. Left message for a return call at extension 40341.
04/21/2017	Task To Dealer: I wanted to check the status of the repair. Task Type: Days down
04/21/2017	Writer called DLR 60559 at 510-656-8700. Spoke with SM Larry, he said the vehicle is being detailed and the repair is completed. He said the rental is still being covered by the AM. mileage 31985 Was the customer in a rental? If yes, how many days? 39 Did the customer have a co-pay? If yes, how much? No What is the RO #? [redacted] Does the SM have the CAIR #? If no, provide it. Done Review and Confirm the DM Notes with the SM while on the phone. 04/25/2017	Writer called DLR 60559 at 510-656-8700. Spoke with SA Sonny. He said that everything is taken apart and they will try to get the adjustment done by tomorrow.
04/25/2017	Writer called customer [redacted]. Writer informed customer of lines 238-240. Customer said that after looking at the service contracts at the Mopar website he wants Maximum Care, because it covers door mechanisms. Writer informed customer that it does not cover the doors themselves, and the customer said that the mechanisms are a concern so he would still like Maximum Care. He said he would also like a vehicle payment or an additional service contract. Writer informed customer he would check into all that, but that it is unlikely that we would be able to get everything for him that he is requesting.
04/27/2017	SA Sonny said they did the door adjustment but have not had time to check yet. Writer informed him that writer would call back later today.

04/27/2017	Writer called DLR 60559 at 510-656-8700. Spoke with SA Sonny. He said that he still has not had a chance to look at the vehicle and check the adjustment.
04/27/2017	Writer called DLR 60559 at 510-656-8700. SA Sonny informed writer that the door is no longer binding and it is ready for the customer to pick up.
04/27/2017	Writer called customer [redacted]. Writer informed customer that vehicle is ready for pickup and that the service contracts authorized are Added Care Plus and an oil change contract, and no vehicle payments. Customer expressed dissatisfaction at this outcome, but writer told customer that that is all that writer could offer. Customer said he would pick up the vehicle and if he still has problems with it he would like us to buy it back. Writer promised follow up of two business days.
05/01/2017	Writer called customer [redacted]. Writer offered contract [redacted] plus oil changes, again. Customer argued again, saying the rental caused a lot of inconvenience and liability. Customer asked the value of the service contract, and writer told him he is not sure if we can give out that information. Writer could not get an immediate answer, and promised to call the customer back.
05/02/2017	Writer called customer [redacted]. Customer said he wants to think over the service contract offer. Writer told him he would contact him back in two business days, customer insisted on three. Writer assented.
05/04/2017	Writer called customer [redacted]. Customer said he wants the vehicle bought back. Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle's repair history to determine if their request merits further action and that due to the nature of their request, it will require a call back which will take place within 3-5 business days. 05/04/2017	Writer called and spoke with customer who advised that his vehicle had gone to the DLR and has been fixed as far as the door is not jammed anymore , however the button for the automatic push to open is still not working, CM advised to customer that if he would like to get that repaired that we would need to make an appointment to get that repaired, customer advised he is done going to the DLR and stated he has been there three times to get the vehicle fixed and they did not fix the vehicle. CM asked what the customers expectation was and customer advised he would like compensation a car payment for the 3 times he had to go to the DLR, CM advised that was something she could not do, but advised customer that she was more than willing to look into a SC for oil changes or something customer stated he did not want a SC he did not want to deal with DLRs and advised this is a new vehicle and should never have to go to the DLR CM apologized and advised that vehicle sometimes have issues and customer stated not his vehicle and advised that he didn't want any SC he wanted a vehicle payment and that his oil mechanic changed his oil in his driveway. CM asked customer if he wanted his door repaired and customer stated yes but he didn't want to go to the DLR and CM advised to customer that in order to keep the case open we would need to keep the case open we would need to make customer an appointment and customer stated he doesn't have time and customer advised CM would have to make appointment on Sunday and after 6 pm CM advised that the DLR would be closed and customer finally agreed to let CM make him an appointment on Monday in the morning. Customer requested a SUP call to ask for his vehicle payment.

05/05/2017	***Supervisor Call*** Writer contacted the customer. Customer stated that he's been into the DLR 3 times for a power door and lock issue with the vehicle. Customer is still having issues with his button on the power door not working. Customer stated that he doesn't want to take the vehicle back into the DLR to get it repaired and would like a vehicle payment. Writer advised the customer that we can not reimburse him for a vehicle payment but we can look into SC for him. Customer was not interested in SC. Writer advised we can look into accessories for the vehicle and customer stated he's not interested in that either. Writer advised the customer that if he doesn't want to pursue repairs then we would have to close the case. Customer was displeased.
05/05/2017	Writer called and spoke with customer who advised CM that when he first took his vehicle to the DLR he dropped the vehicle off for one day day they called the customer mid day and advised to the customer that he could come pick up his vehicle and that parts for the repairs had to be ordered, customer advised a week later the DLR called him and he had to drop his vehicle off and he left his vehicle at the DLR for two days for the repairs to be completed and then he picked the vehicle up so the vehicle was at the DLR for a total of 3 days, customer is seeking one vehicle payment for this, CM asked if customer could send in documentation of these visits and customer advised that he does have the documentation. CM also asked customer roughly what his vehicle payment was and customer advised $268.00, CM also asked customer to send in documents of proof of lease or vehicle payment so we could review documents for possible reimbursement.

05/31/2017	Agent attempted to contact customer, however, customer was not available. Left message for a return call at extension 40299.
06/05/2017	Writer called and spoke with the SM Dan who advised that the parts are in and they will be starting the repairs SM advised he would like to have the repairs done no later than Thursday 06/08, CM advised she would follow up then.
06/05/2017	**********Rental Value Updated********** Estimated Rental Amount: $630 Provided By: Customer Pay Days Authorized: 14
06/05/2017	Writer called and spoke with customer and advised that the parts were in and the DLR is working on having the vehicle repaired by no later than 06/08, CM explained that we would not be able to cover the 75$ rental they are being charged for, customer is not happy about that and wanted to talk to someone that could approve that, CM advised that no one here could approve that and let customer know that rental was not a provision of the warranty and that she would be more than happy to look at the customers documents when he sends them in and let him know that we would look into reimbursing up to $45 a day with all extras at customer expense. CM advised she would authorize the rental until 06/08 then it would be customer pay unless discussed with the DLR and CM, customer understood.
06/05/2017	Customer called in and advised that she is insulted that we told her we will not be covering the $75 a day for the rental, CM apologized and advised customer that we could cover up to $45 a day for rental and that was excluding ass the taxes and extra fee and she stated that is not fair and we should be covering it all because the vehicle is still under warranty, CM read customer the things that were not covered under warranty, customer is very angry and advised that she wanted to speak with a supervisor that was going to approve her $75 a day rental because the vehicle has a manufacturing defect. CM advised customer that she would put in the supervisor callback it would be 1-2 business day call back.
06/06/2017	****Supervisor Call***** Writer contacted customer. Customer stated she is concerned that she is not going to get reimbursed for her rental vehicle. Customer stated her vehicle has been at the DLR for 2 weeks now due to a manufacture defect. Customer was told the final piece that is missing is on backorder and is expected to be in today. Writer advised customer she will reach out to the DLR to find out if she can get the part expedited. Customer is working with Michael in service. Customer is in a rental vehicle she is paying out of pocket for 17 days at $68.00. Writer tried contacting the DLR but was not able to leave a message.
06/07/2017	***Supervisor Call*** Writer tried contacting the DLR but was not able to leave a message due to voicemail being full. Writer contacted the DLR and spoke to Paul in parts who stated all the parts are here. Writer advised the customer was told there is a part that is on back order. Writer tried contacting DLR and DLR disconnected the phone.

05/24/2017	a reasonable time frame. That would be a good business practice[redacted]Thank you for your help. You have a difficult job dealing with upset customers. I do hope you have a nice day and at the very least I appreciate your time.[redacted] disconnected ('Concluded by End-user').
05/24/2017	incident[redacted]Hi, my name is Diana with Chrysler Customer Care, How may I help you today? Diana: Afternoon[redacted]: Good morning, I am having a lot of trouble with the service departments at the local dealerships. The lock on the sliding door of my Town and Country is stuck in the unlocked position. So, it is impossible to lock that door at all. The service departments are not working with me. I need my car to drive my children at 2pm. They are telling me I am not allowed to wait for the car and that they will not give me an estimated time[redacted] I have 38,000 miles on the car. I believe that Chrysler should cover this repair under warranty because there was no way for me to know that this lock was broken. I pressed the lock button on the fob and could hear doors lock and it beeped. It wasn't until my daughter pulled on the door when it was supposedly locked, and it opened, that we found out it was not working. It can be assumed that it has a possibility it has been broken for quite sometime. Diana: I am sorry to hear that you are having an issue with the locks. I can completely understand that you would like vehicle back as soon as possible. Diana: I am more than happy to look into it further for you[redacted] I am not sure why the dealerships are so unwilling to help me. 8 hours should be sufficient time to fix a lock. Or at least give me an explanation of why it isn't enough time. Especially when I have an appointment Diana: I can call over there and see what the delay is. What time was your appointment scheduled for?[redacted] I was there around 9 am. I left because the man gave me a speech about a cold, the sniffles, a doctor and a surgeon. I felt uncomfortable with the way my situation was being handled. This was the Poway dealership. The la mesa dealership told me they have a no waiting policy. I can't be left without a car past 1:45 pm so I chose Poway instead. Diana: So where is the vehicle right now?[redacted]With me at my house. Diana: Until the vehicle is diagnosed we cannot offer any type of assistance. The dealerships are independently owned and operated. If they schedule an appointment they should be honoring that and we can definitely document the concern here. Diana: We cannot persuade them to take earlier appointments to determine the length of the diagnosis.[redacted] don't believe that I should be without a car for more than 8 hours over an issue with the lock. I can't find a dealership that will diagnose and fix it in a timely fashion. Diana: I am going to document all of this and provide a case number once it is diagnosed you can call back for any other assistance.[redacted] Do you have a complaint department? Diana: This is the complaint department. Diana: Some dealers will offer a loaner vehicle. Not all of them have them.[redacted] Okay then. I guess I am at the end of the road for trying to get Chrysler to help me. I purchased an Added Care Plus plan, and purchased a car and now over a car door lock, Chrysler will lose my business. Totally unfortunate. It's my 2nd Town and Country and because of the service, I will find a way to never do business with Chrysler again. Diana: Let me look at your extended warranty it may have rental coverage. Diana: Are you still there[redacted] am Diana: Your plan does show you have rental coverage, so you could leave the vehicle if you have the rental. You will need to confirm first day rental with your extended warranty department and once you set up the appointment for diagnosis rental will be available for you if you have the first day coverage. Diana: Please contact your extended warranty by contacting 800-247-9753 and asking to be transferred to MVP Diana: Is there anything else that I can look into for you today?[redacted]No. Sub par service at your dealerships seem to be acceptable to your company. It's a door lock. The dealerships should provide repairs with an appointment in

06/12/2017	Customer contacted Chrysler because her vehicle is having issues with the sliding doors and the transmission. She stated the passage sliding door is no longer able to open and she has to unlock both doors manually because the key fob is no longer opening the sliding doors. She stated that it feels as if her transmission is slipping and this is the 3 rd time she has to have an update on it. In addition she stated that she had whistling noise coming from the front end of her vehicle and it was fixed but occasionally she will hear it. She stated she contacted her local DLR 60431 and she has an appointment to go in for diagnosis of these issues. Agent advised customer that she still has all of her warranties on her vehicle and that when she goes to the DLR for the diagnosis if she needs any more assistants or if they are not able to fix the problem to give us a call back and provided her with case number. 06/15/2017	Chat ID [redacted] Hi, my name is Mitchell with Chrysler Customer Care, How may I help you today? Mitchell: Good evening [redacted] I am very upset. I bought a 2016 t&c new Aug 2015... just over 10k miles... still new... my passenger sliding door lock stopped working yesterday. Then today non of my door will unlock. Idk if this is same issue but today the driver side slider sensor didn't work as it smashed my wife's wrist in the door. Not just a little; the entire wrist is bruised. I had a 09 and never had a problem. Mitchell: Oh no! I'm very sorry to hear about this [redacted] I would certainly like to get a case started up to report this as well! This was for your 2016 CHRYSLER TOWN & COUNTRY S [redacted] Yes Mitchell: Got it, I have the case started up for this [redacted] Have you made arrangements to get the vehicle checked out by the dealership or was this the first contact? [redacted] I was going tomorrow to have it looked at [redacted] You are the first contact Mitchell: Wonderful! I would like to get our Case Management team involved in the repair with you so we can make sure this gets taken care of properly. I will get the case sent up to them here tonight and they should follow up with you in the next business day. What is the best phone number to reach you ay? Mitchell: Also after the initial contact they can give updates by email and text if you prefer? [redacted] Prefer text Mitchell: Wonderful! I will get this in motion for you right away! I'm very sorry to hear about the door locks and sliding door issues Justin! I will do my best to raise more attention to the issue and have someone contact you right away. Was there any other questions in the mean time? [redacted] No thank you Mitchell: Wonderful! Leave this with me for now, I would like to thank you for contacting Chrysler Customer Care. Please chat with us again if you need further assistance or contact Chrysler customer care at 800-247-9753. Have a great night! [redacted] disconnected ('Concluded by End-user'). 06/20/2017	**OUTBOUND DEALER CONTACT**NAPLETON'S #26829 724-752-4000 CM spoke to SA Marlene since SM Kimberly is on vacation this week. -SA Marlene states that the customer came in and picked up his vehicle today. This vehicle is not at the dealership. . -Customer is an Uber driver and both sliding doors need hinges. . -Dealership is not willing to do any cost assistance as this would be a good case of customer cause due to more than typical amount of use on these doors and hinges. Customer has been given an estimate for repairing both sliding door hinges $1200.00. - Dealer states that this customer does come in and keeps his vehicle maintained at this dealership and would not like to have this customer upset too much and suggests maybe offering customer to pay and seek reimbursement or a very large customer co-pay.

06/21/2017	**OUTBOUND CUSTOMER CONTACT** [redacted], I have researched your SLIDING DOORS BEING INOPERATIVE AND NOT OPENING AT TIMES on your Dodge Grand Caravan; and I have researched your request further and utilized ever possible resource. We fully appreciate your concern, particularly in view of the expense and inconvenience involved. I have looked at every opportunity to where I may be able to assist, from your vehicle repair history, ownership history, our entire recall database and warranty information. Your Original warranty was THREE years or 36,000 miles which ever came first. You are currently at 55,000 MILES. You are outside of your original warranty parameters by 19,000 miles. I apologize, but based on the information I have found, Chrysler will be unable to provide cost assistance at this time because your vehicle has exceeded the mileage limitations of the warranty that we offered on the vehicle at the time it was purchased. Is there any additional information that I have not covered that could be added for additional consideration ? I wish I could have provided a more favorable response.
06/21/2017	Customer in his first sentence stated that he was an uber driver and needs this vehicle for his job. He was not happy to receive this decline above. Customer first stated that he has an attorney that is more than willing to take this case and will seek lemon law also customer stated he would reach out far and wide to the Uber Facebook network and every other social network letting other Uber drivers know that Chrysler vehicles are not made well enough to hold up for Uber drivers. Customer stated to look out for the publicity that Chrysler will get over this request.

06/19/2017	Hi, my name is Maurice with Chrysler Customer Care, How may I help you today? [redacted] have a 2016 town & country the lock is messed up on passage slide door. The dealer said it is not covered under warranty for repair because it has 48000 miles on it. They said this is common. The cost is $996. for repair. Why is this not covered? Maurice: No problem I will definitely look into this for you. Could you please provide me with the last 8 digits of the VIN number for the vehicle? [redacted] I don't have it with me at this time. milage should not have anything to do with it, it is a year old Maurice: Which state do you live in? I need to look up your vehicle file in order to advise on this issue. [redacted]: GA Maurice: Is it the town and country that was purchased a few weeks ago? [redacted] I have the # now [redacted] Maurice: Thank you for confirming the information. What would be the approximate mileage on the vehicle? Maurice: And I also need one last piece of information, could you please confirm your address sir? [redacted] I HAVE HAD IT LESS THAN A MONTH. IT WAS BOUGHT BY ME USED. WE LIKE THE VAN BUT DID NOT WANT TO SPEND THAT KIND OF MONEY OFF THE BAT. I HAVE HAD SEVERAL CHRYSLAR CARS [redacted] TUNNEL HILL GA.. MT VIEW CHRYSLAR IN RINGGOLD GA IS WHO LOOKED AT IT. I HAVE ORDERED PART FOR REPAIR BECAUSE I AM GOING OUT OF TOWN Maurice: Thank you for confirming your address [redacted] JUST TURNED 48000 Maurice: I understand your frustration [redacted] I needed the mileage in order to make a case for you here at Chrysler Customer Assistance Center. Maurice: Is the vehicle currently at a dealership or an appointment made to have the part installed at a dealership? I'm going to get case management involved in your case sir. [redacted] PART WAS ORDERED AND WE ARE TO HAVE VEHICLE IN TUESDAY OR WEDNESDAY FOR REPAIR [redacted] MY WIFE IS GOING TO SEE IF SHE CAN GET MILAGE. SHE HAS HAD SURGERY AND THE VEHICLE IS AT HOME Maurice: Is [redacted] he best number to reach you at sir? [redacted] YES Maurice: No problem sir, approximate mileage is okay, I don't need the exact number [redacted] OK THANK YOU FOR YOUR HELP. Maurice: Did you already pay for the part or are you looking for cost assistance with this repair? [redacted] I HAVE PAID FOR IT THEY WOULD NOT ORDER IT WITHOUT PAYMENT FIRST Maurice: I do apologize for the inconvenience sir. I will be forwarding your case to case management, to see if there is anything we can do for your inconvenience. Maurice: which dealership have you been working with sir? [redacted]: THANK YOU FOR YOUR HELP. WE HAVE HAD 3 OF THESE VEHICLES IN THE PAST. MY WIFE LOVES IT, BUT WE FEEL THAT THIS SHOULD BE COVERED REPAIR. HAVE A GREAT DAY LOOKING FORWARD TO HEARING FROM YOU. [redacted] MT VIEW CHRYSLAR DODGE IN RINGGOLD GA. Maurice: Thank you for the information sir, we will be in touch, is there anything else I can assist you with? [redacted] NOT AT THIS TIME HAVE A GREAT DAY Maurice: You too sir, thank you for contacting Chrysler! [redacted] disconnected ('Concluded by End-user').

06/26/2017	Briefly summarize why the customer is contacting Chrysler: Customer is calling in stating that his drivers side sliding door has stopped working. Will not lock or unlock and will not open. Customer is wanting to know if there is a recall. Agent reviewed the VIN and confirmed no recall. Agent confirmed in VIP customer merit D-12-27. Agent explained to the customer we would be happy to further look into this situation and review your request. To do so, we will first require a diagnosis be performed by any authorized Chrysler Dealership to review the situation and a determination on the repair procedure be put in place. This will best allow us to review your request going forward. Agent provided customer CAIR number. Briefly summarize what the customer is expecting: resolution on having the drivers side door repaired. Agent reassigning to 861 for survey by pass- no diagnosis.

07/03/2017	Briefly summarize why the customer is contacting Chrysler: Customer called in for her father's vehicle as they are fed up with all of the issues that they have had with the Chrysler products. Customer originally had a Dart and that the DLR damaged the vehicle and when it was repaired it didn't run correctly so they traded it for the vehicle. Customer states that the vehicle was taken in for an oil change and the right side automatic door of the vehicle stopped working, they got it repaired and now the other side is also not working. Customer is upset that they have a brand new vehicle that it already having so many concerns . Customer is also stating that her seats in the vehicle are incorrect seats. Customer is fed up with the vehicle and doesn't want it anymore. Briefly summarize what the customer is expecting: Buy-back or replacement. Agent advised we would escalate up for case management assistance as or first priority is to repair the vehicle as per the terms of the warranty. Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle's repair history to determine if their request merits further action and that due to the nature of their request, it will require a call back which will take place within 1-2 business days. The outcome of the review does NOT determine Lemon Law eligibility. Earliest call time: 8 am Latest call time: anytime Preferred Morning/Midday call back number is [redacted] Preferred Afternoon/Evening call back number [redacted] Who has possession of the vehicle? (Owner) Reassigned to 91L
07/05/2017	********** 91L Review ********** *********Case Escalated to I2R********** Reviewed Warranty History which determined this case should be escalated to I2R for case management.
07/05/2017	Customer contacted into FCA stating that they were promised a callback, in 1 or 2 business days. Customer stated that they cannot install the car seats, due to the door being broken, and the seats do not have latches for the car seats. agent stated that they would like to review the file for assistance. agent informed the customer that they do not see any contact information for the department at this time. agent stated that once the department has selected a representative to handle the case, they will be contacted. Agent attempted to explain that it is a 1 to 2 business day callback and mentioned that the department may not of been open yesterday due to the holiday. *** Customer stated that they will be waiting for the department to contact them and provided their email Ema[redacted] Customer thanked the agent for their time
07/06/2017	---------- --Spoke with customer, completing the initial call. Customer is experiencing issues with the vehicle's left door not opening and the wrong seats in the vehicle. Customer stated previous rep told her there is supposed to be bucket seats in the vehicle and customer stated she has bench seating. I advised customer if he is having issues with the vehicle to take it in. I advised customer a STAR case will be opened to confirm if correct seats are in the vehicle. I advised customer of dealerships in her area and customer stated she will speak with "them" to confirm what dealer they want to work with and call CM back. I advised customer loaner or rental can be offered if dealer offers these services. I advised customer rental is at $40/day. I explained I2R process and advised I will be in contact every 2-3 business days. ***follow up 07/10/17***
07/06/2017	Customer called and stated she wants to know if those are the correct seats installed . Customer stated she wants this to be dealt with before anything else is done. Customer is very frustrated over this whole situation. Customer stated she wants a different CM.

07/06/2017	customer wanting to update us the owners manual customer has isn't the right manual either. agent noted customers concerns with the owners manual to the vehicle.
07/10/2017	customer called and stated she would like a call back today and if not then they will be going to a lawyer.
07/10/2017	---------- --Contacted customer to confirm she has found which dealer she wants to work with. Customer stated her dad does not want to bring the vehicle in until an investigation of the seats has been done. Customer stated the owner's manual, the representative and the dealer all say something different about the seats in her vehicle. I advised customer, as stated on the initial call, in order for us to review her concern further, the vehicle will need to go in for service and CM will open a STAR case. Customer stated all the dealers in her area have caused damage to her car. I advised customer we do need to get the vehicle in. Customer stated she is going to get her attorney involved. Customer stated she is not taking the vehicle back to the dealer. Customer stated the vehicle is not safe and her kids have been in car seats in the incorrect seats this entire time. Customer asked for an address her attorney can send paperwork to. Customer was provided with auburn Hills address. CM is closing case at this time. Customer refuses to bring her vehicle in for service. ***standby to close***
07/10/2017	Customer started conversation by asking for a supervisor. Agent placed customer on hold to find out what supervisor she should be directed to, but when agent rejoined customer on line, agent had lost audio on Avaya phone. Agent eventually apologized and asked the customer to call back if she could hear agent.

07/13/2017	Agent called DLR, reached WA Gary who advised we should speak with Chris about this case, during transfer call dropped.
07/13/2017	Agent called DLR, reached SA Chris who advised he is the acting assistant service manager at the store while his service manager helps in opening their new branch. SA states that the estimated repair cost for customer is $1000 as they would have to replace the internal components of the door as well as likely cause damages to parts by prying it open as the locks are jammed and prevent the door from opening at all. SA states he does not believe the customer could have caused this issue and that it should be a manufacturers defect but they cannot confirm until the door has been pried open. SA agreed to gather warranty pricing and call back at ext 40575 to discuss this after speaking to SM.
07/13/2017	Agent called customer and advised that we cannot yet determine if it is a manufacturers defect as the door panel cannot be accessed unless the door can be opened from our understanding, and that opening the door may cause further damage. Agent advised we have requested the acting ASM gather pricing and try to determine if it is a manufacturers defect from what we can tell currently before proceeding further and that we will update customer as soon as we have further information and no later than 7/17.
07/13/2017	Agent received call from SA/ASM Chris Mitchell who advised that the dealership will participate in goodwill coverage for consequential damages to the door, and they are willing to accept an RA for the locking mechanism with a copay of $100-150, with total warranty cost being $573.60, parts are $453.60 and $120 labor. Agent advised we are unsure if we are authorized to make a decision on this case at this time and that we will contact supervisor for confirmation and contact ASM again as soon as possible.
07/14/2017	Agent attempted to contact dealer Service Manager Chris, however, SM not available. Left message for a return call at extension 40267. Writer advised that we would like to know the POF before authorizing any kind of goodwill assistance.
07/14/2017	Writer sent email to erici@riceautomotive.com inquiring whether or not the issue is a manufacture defect.
07/14/2017	Writer contacted customer and advised that we are waiting for some minor details before making the final decision on cost assistance, however, for the most part it does look like we should be able to assist. Writer informed Customer that we should hear back from the SM no later than Monday 7/17/17.
07/14/2017	After sending email to erici@riceautomotive.com about customer's vehicle, Writer received a response stating that there was an error in sending the message to this email.
07/14/2017	Writer contacted SA Gary who advised that SA Robert was out of the office at the moment and that we should call back in 10-15 minutes.
07/14/2017	Task To Dealer: Was this repair caused by a manufacturer defect ? if not would you take an RA as discussed on 7-13 and what kind of co pay would seen reasonable to you? Notification of an Assigned Task sent to Dealer at email:erici@riceautomotive.com
07/17/2017	Writer called dealer spoke to ASM Chris they will take an RA with a copay of $150.00 and ETA is Thursday 7-20

07/10/2017	Customer called in because he has a issue with DLR 43724 and the way they work. Customer states his vehicle right sliding door does not lock. The DLR ordered part and never advised him the part had came in. Only reason they knew about the part was available because they was experiencing an issue with the roof leaking and came in to make a appointment and one of the workers asked if the other part had came in and they stated yes its been in for a couple days. Customer was waiting on DLR to give him a call back to get appointment set up and never got a call. Vehicle was suppose to get fixed today and at 12 noon they told him they was about to work on the sliding door but by 4:30 they called to informed him the order the wrong part. Customer is upset because it should not have took them 4 hours to realize that. SA Ken did state it was a mistake and that they ordered the correct part and will notify him when it arrives.

07/23/2017	Briefly summarize why the customer is contacting Chrysler: Customer calling as her survey did not work, and it states that she has until August 10th, and wants to fill one out, and she was not treated well by her SA, and had problems with loaner service. She also shared that she is still having the same problems as before Briefly summarize what the customer is expecting: to fill out another survey. Agent advised that there was no way to generate another survey and apologized. Agent advised that agent can document her concerns. She stated that agent did not understand that she just wants to fill out the survey. Agent advised that it comes from a third party source and there is no way to generate another one. She kept going on and on, and agent kept reiterating that there was no way to do this. Agent asked if she had reached out to the SM over how she was treated, and she stated no, that she wants to just fill out a survey. Agent advised that if she wants us to call her DLR on her behalf, that we can. She does not want that done, as she just wants to fill out a survey that's generated. She stated that she is still having the problems with her door, agent was trying to suggest that we would need to get it diagnosed, and she kept going back to the survey question. She ended call.

07/29/2017	Agent contacted customer and explained that there would be no rental authorized until the diagnosis is occurring. She is concerned that she does not have 4 door access, She feels in case of an emergency that her [redacted] children in the back seats are unsafe in the vehicle. Agent asked for verification of what is occurring and she stated the left side door wont lock, open or engage the safety alarm. The right side door will not lock and alarm wont engage. 1 side does not open the other side. Customer believes that the vehicle should not be on the road and that a rental should be provided. Agent explained per policy that the rental would be provided if it was needed after the diagnosis and would not be considered before the appointment .Agent explained other DLR's with no availability and explained that customer can receive their own rental but that corporate would not be responsible for rental until after the diagnosis. Customer disagreed and asked to speak to someone that can give her a better answer and terminated the call.

08/07/2017	Customer spoke with Writer. Customer reiterated she didn't have the "upsell work" recommended by SA, as they were recommending routine maintenance items at 30,000 miles that customer's manual states don't need to be done until 60,000 miles. Customer took her vehicle to her selling DLR, who stated the problem is with this transmission, and recommended a kit that should fix it. Customer is driving the vehicle right now, and need a vehicle for work, so was unable to leave it. The transmission is still jerking going into and out of gear. The most common problems are when starting to move from a stop or on takeoff, the transmission jerks shifting into gear. Also, when increasing speed to pass, the RPMs go to 7,000, but the transmission doesn't actually shift. In addition, the driver's-side sliding door will lock, but not unlock and open, even with the key fob. Writer will contact DLR 41650 to schedule an appt and arrange alternate transportation. Customer stated later in the day is better. Writer will text appt details to customer.

08/07/2017	Hi, my name is Michael with Chrysler Customer Care, How may I help you today Hello, I have a long email I wrote, but your email system doesn't seem to be working. Shall I just paste it here, and assume you can get it to whomever it needs to? Hello? Michael: I can certainly document your email for further internal review Great. HEre goes: Hello, IÂ'm writing to complain about repairs made at my local dealership, Lustine Chrysler in Woodbridge, VA. My car is a 2016 Chrysler Town & Country that I purchased from Lustine in March of 2016. It has around 10,000 miles on it, and is covered under the manufacturer bumper to bumper warranty as well as the additional warranty I purchased when I bought the van. To start with, I have NOT been charged for any work that has been done on this van (all covered under warranty); that is not why IÂ'm writing. Of all that has happened, that is, at least, the only part that has been Â'OKÂ'. On to the purpose: In the middle of June 2017, the passenger rear sliding door stopped locking. First, it wouldnÂ't unlock when hitting the Key FOB (or anything electric) requiring someone to have to reach in and unlock it from the front. Then, the passenger door (front, not sliding) stopped unlocking when Â"unlockÂ" with the Key FOB. Finally, the car would Â"lockÂ" but it was noticed that the sliding door was NOT locking, and anyone could just go open the door and set off the alarm without a key. It was at this point we decided to bring it in to have it looked at. For Trip 1 (Weds, 28JUN17): They diagnosed it as needing: Door Hinge and Actualter, needed to order the part (INVOICE #: SO I rescheduled for Trip #2 to the dealership for the following Saturday. Trip #2 (Saturday, 1JUL17): I drop it off in the morning, only to be told by my service tech Helbert that Â"I shouldnÂ't have scheduled it for a Saturday because itÂ's a tough job requiring the whole door to be taken apartÂ". I explained to him that Saturdays are when itÂ's convenient for me, if they didnÂ't want me to schedule it for a Saturday then they shouldnÂ't have let me. Courtesy car took me home, come back at the end of the day (6PM) and find out that they cannot get the door to cinch closed in the REAR now. Essentially, the door would close, but then, at the end, the door would not cinch in and therefore Â"pop back outÂ" on the rear of the sliding door (INVOICE # this write up states that it is working as intended, this is true for the original locking complaint, but not the new problem). Good news: the original problems (locking issues) were all corrected. Bad News: They have to order a rear cinch latch piece so the door can actually close electronically (work around is that if you can get the sliding door to disengage, you can manually slide it closed). They told me they would order the part and to call to ensure it had arrived and schedule again. I called, but it took 10 days

08/07/2017	at it is? Michael: When you said there is an appointment on Wednesday did you mean Wednesday 08/09/2017? [redacted]: yes, its stated in there [redacted] sorry I used military time as thats how I operate [redacted]: 9AUG17 = 08/09/2017 Michael: I understand, I will escalate this to our case management department in order to assist you further, you should receive a callback from them within one business day, is the best phone number to contact you at [redacted]: yes, they are authorized to discuss all with my wife, Jennifer who will be home if I am not Michael: Sorry, I should provide clarification there, you would receive a callback within one business day of the appointment, so you should receive an appointment by close of business on 08/10/2017, close of business would be 8PM EST. They would be contacting you after the most recent appointment with the dealership as case management would be working with the dealership in order to assist in obtaining resolution of the issues you are experiencing. Michael: For reference your Case # is [redacted]: perfect. Thank you for the assistance here. Michael: My pleasure, is there anything else I may assist you with today? [redacted]: not today, we'll see how it goes after Wednesday. It should be noted that on Wednesday I'm just dropping it off, if they call on one business day from that appointment I more than likely won't have it back yet to be able to confirm if it's fixed. Michael: I understand, I do apologize for the frustration however we will actively be working towards ensuring that this situation has been resolved. [redacted]: ok. Thank you very much. Michael: Thank you for contacting Chrysler Customer Care. Please contact us back if you need further assistance. You can also look for updates on our website www.Chrysler.com. Have a good day! [redacted]' disconnected ('Concluded by Agent').
08/07/2017	for the part to arrive, and then I was told that Saturday was OK (Even though I told them how they werenÂ't happy about it, but they scheduled it anyway, this was David the Manager), so I rescheduled for Trip #3 for 15JUL17. Trip 3 (Saturday, 15JUL17): Drop it off in Saturday morning, get yelled at again for scheduling it on a Saturday. I was not pleased. Proceeded to go home, get a call around 3 that: Â"Actually, only one of the two parts came in, the main part, the cinch, did NOT come in.Â" GreatÂ—got courtesy picked up and brought back in on a waste of a Saturday. Wait until middle of the week, call, get scheduled for Thursday so they donÂ't cry about Saturdays again. (INVOICE #: [redacted] Trip 4 (Thursday, 20JUL17): When I dropped it off, I informed them that now the Passenger mirror was not working correctly, as it didnÂ't respond to memory. They replaced the rear latch, and had to order a part for the mirror. Still canÂ't get it working, so they decide to now order a Door Handle as this is the Â"next thing on the repair treeÂ". Schedule Trip Number 5 for 24JUL17 and to get a rental to just leave it this time. (INVOICE #: [redacted] Trip 5 (Monday, 24JUL17): Get a rental, and drop it off. At this point I Need to get the car back for a family trip on Thursday (so back by Weds, 26JUL). They look at it and determine that the next thing to be done is replace the door handle. Come back Wednesday, 26JUL17 to pick it up, itÂ's about 5PM. Go get the car brought around from the front desk, told its working fine. Of course, the first thing I do is test it, and immediately itÂ's worse than before. I go back in and tell David the service manager that itÂ's still not working. He brings me back and gets the guy who fixed it and they call me back because they say it is working. So I do what I did to test it, and it is still broken. They figure out that it works if you ONLY use the door handle, but if you press any button (front, over mirror; inside door; or key FOB), it doesnÂ't work. They are then ordering a Â"moduleÂ", but since I needed the van to actually use to bring my [redacted], and wife across the country until 5AUG17, I Had to leave with it broken. (INVOICE #: [redacted]) As of today, 7AUG17, I have scheduled an appointment to go drop it off for Trip #6 on Wednesday, 9AUG17. David swears to me that there will be a van to replace it with while they work on it. They have YET to have a van Â"in stockÂ" for rental, thatÂ's why I only rented one vehicle throughout this process, and even then it was a Jeep Renegade that only worked because 2 of my 3 children were out of state. WeÂ'll see if this actually happens when I go in on Wednesday. The part for the mirror is scheduled to arrive on Wednesday, which is weird because this was supposedly ordered 20JUL, so 19 days for delivery, however I was informed that this part required extra Â"picturesÂ" or something due to warranty reasons. David mentioned on the phone today something about t
08/07/2017	he service manager had taken a Â"moduleÂ" off of another used Town & Country off the lot, the last time, which also seems weird. Also, during the trip across country on the way back, one of the trim pieces on the sliding door that they have had to take apart several times now flew off and is lost somewhere or [redacted] in Pennsylvania. I informed him he needed to replace this as well. In all, it seems that this dealership, the very one I purchased the van at, has no idea how to fix this problem. They have already replaced, over 5 trips, both the front and rear door latches, and the handle, each requiring the whole door to be taken apart and all day each time. On TOP of that, they van has grease hand prints all over it from where they were working (I told David about this, he swore itÂ'd be cleanedÂ—it wasnÂ't), another piece of door trim is bent (Chrome on the outside of the door), the mirror still isnÂ't fixed, and trim is flying off of this vehicle on the highway. I Have pictures and videos of everything thatÂ's happening with this vehicle, as well as every invoice. IÂ'm writing to ask someone to make something happen on this van. On Wednesday, this will make SIX (6!!!) trips, and they donÂ't even know how long they will have to keep it this time, not very reassuring to me that it will even be fixed at all. I think they are replacing the module this time, fixing the trim, and fixing the window, but who knows where this will lead. 6 trips, with each trip making it WORSE than the original problem of doors that werenÂ't locking, is, frankly, UNACCEPTABLE. I replaced a 2012 Town and Country with this van in 2016. If this is the service IÂ'll be getting if something goes wrong, I will most certainly get rid of this vehicle and never purchase Chrysler again. Now I understand that this isnÂ't a safety issue, but the bottom line is I paid near $40k for this vehicle so it would be fully loaded and work as intended. If I wanted to not be able to open the doors with the key fob while I walk up with my [redacted], I would have purchased a base model. All I want is what I paid for, which is the ability to open the doors however I see fit. Other than this door issue, the van has operated mostly to standard. As it should, considering it only has ~10k miles on it. We have another trip to New York scheduled for 17AUG17. This van needs to be fixed by then. Please let me know if you need any more information, by contacting me either a [redacted], calling me on my cell at [redacted], or at home (my wife is [redacted] she can answer all questions) at [redacted]: Can you confirm receipt? Michael: I can certainly understand how frustrating it must be to be experiencing these issues with your vehicles door as well as the difficulties you are experiencing with the dealership and will ensure that your concerns are documented for further internal review. [redacted]: Thank you. Should I expect anyone to contact me or just call it wh

08/31/2017	***** OUTBOUND Customer CONTACT*****[redacted] - Customer called in all irate. Customer claims that the SM told him there is still a snapping noise in the vehicle that isn't fixed. Customer claims I told him that the vehicle would be ready by the end of the week. Agent advised that he said it should be available. Customer states loaner vehicle doesn't suit there needs and they cannot keep going on like this. Customer has requested my supervisor. Agent advised that it would take one business day.
08/31/2017	- ***** OUTBOUND DEALER CONTACT***** 26952 PELLETIER CHRYSLER DODGE JEEP RAM 207-834-3173 GM GLEN Spoke to Glen and let him know about our conversation. Advised GM Glen that customer was going to call. GM Glen's main concern is the fact that they don't want to do the 70% tear down, because they will not get paid for it if nothing is wrong and in April customer refused STAR case [redacted] Snaping noise when shifting from rev to drive T6104LN 04/05/2017 1:38:52 PM RESOLUTION: Hi Adam, This is not proper usage of the vehicle. The wheels must be fully stopped before going from reverse to drive. There are several things that can be damaged doing this: the one way roller clutch, the differential etc. I would advise for you to drop the pan and take a look inside for metal debris. Either way, this transmission will need to be removed and carefully inspected for mechanical damage. No DTC's. Regards, Larry T6104LN 04/05/2017 1:38:52 PM / customer does not want to disassemble the trans at this time T1625HG 04/10/2017 10:39:33 AM wn.
08/31/2017	- Customer refused diagnosis from DLR back in April stating to agent that he has bad experiences with rebuilt transmissions and wanted it replaced (which 70% needs to be faulty and STAR case feels it maybe customer abuse). Another STAR case has been open[redacted].
08/31/2017	- ****Assigning for Supervisor Callback EM1187 - customer wants transmission replaced which agent cannot authorize. GM Glen feels that a 70% form for PSC to determine whether it will be repaired or replaced is not a good idea because if they don't find anything wrong they won't get paid, also that if it is being used as not intended by the customer STAR Case[redacted] then it wouldn't be covered by warranty and it would be customer pay.
08/31/2017	- Customer stated at beginning of case he wanted a new transmission because he had bad experience with them, hence why he didn't want them to take it apart in April STAR Case[redacted]. Now customer is claiming that the DLR said there was no reason to tear it down.

09/05/2017	customer called back and wants to speak to his supervisor immediately. Customer was suppose to get a call back of Friday and he is irate stating the DLR wants the loaner car back and they want him to pick up his vehicle. Writer told customer all his concerns will be noted and he will get a call back today.
09/05/2017	***INBOUND CUSTOMER CONTACT*** Customer states that he wants someone to get this issue resolved and he wants a brand new transmission and is not taking no for an answer. Customer states that he already gave the authorization for the tear down to take place last week and wants to know why he was called to come pick up the vehicle if its not repaired. CM reviewed STAR case#[redacted]. Customer states that there is something going on with communication and what he requested since he was never told the authorization had to come from him. CM explained to the customer that if the tear down determines a customer cause issue he would be responsible for the cost of the repairs but if its determined a defect typically warranty would cover the repair. Customer states that he does not want his previous CM back as he did not feel his best interest was at heart. Customer is still looking for a call back.
09/05/2017	***** OUTBOUND DEALER CONTACT***** 26952 PELLETIER CHRYSLER DODGE JEEP RAM 207-834-3173 and spoke to GM Glen about the STAR files and that he agreed the customer would need to authorize tear down as if it was a customer cause situation he would be responsible for the repair bill. Glen states that the snapping noise can be duplicated but the transmission slipping has never been duplicated. glen states that the customer could not have towed anything with this vehicle as the vehicle is not even equipped with towing capabilities. CM advised Glen of the information from the STAR file and he will go and speak to the techs and service on what is going on with his vehicle at this time. Glen agreed to call the customer back with some information once he knows more.
09/05/2017	*** Supervisor Contact *** Writer followed up with CX James in regards to their vehicle concerns. Writer advised customer that we do require the dealer to complete diagnoses to determine the cause and repairs. Customer states that he advised the dealer that he was authorizing the tear down to determine the transmission concerns.

09/06/2017	*****OUTBOUND DEALER CONTACT***** PELLETIER CHRYSLER DODGE JEEP RAM | 26592 | 207-834-3173 - CM spoke with GM Glen who verified that he reached out to the customer yesterday afternoon and have agreed to start tearing down the transmission as soon as they are able. CM made sure that this would be started within the next day or so and that she would be following up on Monday. GM noted he doesn't believe that this could be a customer cause issue however hopefully they are able to find something once they tear it down.
09/06/2017	*****OUTBOUND CUSTOMER CONTACT*****[redacted] - CM introduced herself and that she would be customer's advocate working with him and his DLR in order to get his vehicle issues resolved in a timely manner. CM noted that she would be following up with the DLR on Monday and once she has an update then with the customer. CM advised that she would email customer her contact information. Customer inquired about compensation for his experience. CM verified that she would be more then happy to look into some type of compensation for the customer.

08/16/2017	Customer called in because she has been having issues with her back sliding door. Customer states to begin with the door wouldn't lock so she took it to the DLR 43783 to and they worked on vehicle and upon getting vehicle back on Monday he door doesn't open. Customer doesn't want to work with this DLR she want to try a new DLR because she has been there to much and they cant seem to fix the issue. Agent reached out to DLR 60202 and set up a appointment to have them look at vehicle for 8/31/17. ****survey bypass no diagnosis****

08/23/2017	Writer contacted the DLR and spoke with Service Cashier Cynthia who advised the appointment was for 8AM today and the vehicle is still at the DLR. SA is Everett but he is momentarily unavailable. Cynthia did not provide the option to leave a VM so writer will call back shortly.
08/23/2017	Writer spoke with SA Everett who advised that the actuator in the door needs to be replaced and is covered by the vehicles extended warranty contract with a $100.00 deductible. Writer asked about the door panel and Everett advised that there's no concern with the panel, it will be put back on the vehicle after the actuator is complete which should be done by the end of today.
08/23/2017	Writer contacted customer who confirmed that the actuator is being replaced under the SC with a deductible and that the door panel flew off during a trip from UT to NY, customer is pretty sure that the vehicle was within Basic mileage before the trip began; customer states that on the way to NY the panel on the inside of the door fell off and there was no glue residue on the inside of the door. The customer is going to be paying about $120.00 for the repairs OOP, writer is going to follow up 08/25 to check for satisfaction and have customer send in documentation for possible reimbursement. Writer advised that it is not guaranteed, the deductible cannot be reimbursed and tax cannot either. Customer acknowledged. Writer will text contact info to customer.

08/21/2017	Briefly summarize why the customer is contacting Chrysler: Customer called in and stated the door is not opening again. Customer stated this has been going on since she took ownership of the vehicle. Customer is tried of going back and forth to the dealership and unable to get it fix. Customer stated she has three small children who use the back seat and she is unable to get to the back when the doors will not open. Customer is frustrated with the matter. Briefly summarize what the customer is expecting: Customer is looking for something to be done in order to make sure this is no longer happening. This is not safe. Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle's repair history to determine if their request merits further action and that due to the nature of their request, it will require a call back which will take place within 1-2 business days. 08/26/2017	Briefly summarize why the customer is contacting Chrysler: Customer's power door has failed despite repeated repair attempts. Customer wants to discuss California Lemon Law/buyback with someone. Briefly summarize what the customer is expecting: Customer would like a case manager to call back with regard to California Lemon Law/buyback.
08/26/2017	Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle's repair history to determine if their request merits further action and that due to the nature of their request, it will require a call back which will take place within 1-2 business days. The outcome of the review does NOT determine Lemon Law eligibility. Preferred Morning/Midday call back number is [redacted] Preferred Afternoon/Evening call back number is [redacted] Who has possession of the vehicle? customer Reassigned to 91L
08/28/2017	********** 91L Review ********** *********Case Escalated to I2R********** Reviewed Warranty History which determined this case should be escalated to I2R for case management.

09/25/2017	Briefly summarize why the customer is contacting Chrysler: Customer calling to seek assistance with repairs to vehicle because the power sliding door needs to be replaced and customer has only had vehicle for 6 weeks. Briefly summarize what the customer is expecting: Goodwill repairs. Agent advised the caller that at this time there is nothing that can be done to assist with the cost of repairs. Agent advised the caller that repairs would have been covered under the basic warranty but this vehicle is outside or warranty by 12000 M. Customer stated that vehicle was bought at Chevrolet dealership and they won't help him either. Agent apologized but again stated that we can't offer assistance with cost of repairs.

10/12/2017	Customer called in advised him FCA would cover 25% ...customer declined offer
10/16/2017	closing CAIR
10/20/2017	Briefly summarize why the customer is contacting Chrysler: Customer called in stating that he was working with CM BS1360 and does not feel that FCA only covering 25% of the repair is justifiable. Customer states that he can understand if he has 100,000 miles on his vehicle that Chrysler would not assist but with him only having 40,000 miles, he should not be responsible for a $1000.00 repair. Briefly summarize what the customer is expecting: Customer seeking resolution. Writer advised customer that as per CM BS1360, the 25% is FCAs final offer that was provided and is non-negotiable. Customer was not happy.
10/20/2017	customer had called in asking for the CM to send an email in regards to the offer and decision of this case. agent contacted CM and the CM confirmed that they will send an email in regards to the customers concern.
11/22/2017	customer called because he wants an email to provide to legal console about what is wrong with the vehicle. he would like to know what part number needs to be replaced and the name of the part. customer stated the BS1360 informed him that they would email him the information he requested and he has not received it yet. informed customer the MF1778 will speak to his CM to get this information for him if possible.

10/09/2017	Reference [redacted] Hi, my name is Heather. How may I help you? [redacted] I recently bought a 2016 Dodge Grand Caravan and the drivers side automatic sliding door actuator has quit. I haven't even mage 6 patients on Heather: I am sorry to hear the issue you are having I would like to look into this for you however, at this time you have reached the Mopar Owner Connect department for the owner website page. Do you mind holding while I get the proper department to assist you further? [redacted] Sure Heather: Thank you for using Mopar Owner Connect web chat, please hold for the transfer. 'Heather' disconnected ('Transferred to Queue'). Hi, my name is Beth-Anne. How may I help you? Beth-Anne: Hello [redacted] how are you today? [redacted] I recently purchased a 2016 Dodge Grand Caravan and the drivers side sliding door actuator quit and locked my door shut. I am extremely upset since I put every penny I had into buying this van. Beth-Anne: I can certainly understand the frustration and would like to look into this further for you. Beth-Anne: How many miles are currently on the vehicle? Sarah Andrews: A little over 48,000 Beth-Anne: Thank you. Can you provide your address while I complete a search on the vehicle, I would like to search for recalls or extended warranties. [redacted] Pocatello ID [redacted] Beth-Anne: Thank you. I am not seeing any recalls etc on the vehicle for this concern. Have you had a chance to take the vehicle to your local dealership for a diagnosis yet? [redacted] I did they said it was the sliding door actuator and there is no way I can afford the Beth-Anne: What dealership did you take the vehicle to? [redacted] I took it to teton Honda in Pocatello because they are affiliated with the dealership I bought the van through. Beth-Anne: Thank you. I was able to search and being that the vehicle is outside of the warranty period Chrysler wouldn't be able to assist in the cost of the repair. What I have done is created a case to document that your vehicle has had this concern and in the event a recall is launched you could submit for receipt for reimbursement. [redacted] So I other words my van that's barely a year old can't be fixed even though this is a known problem? This was my first new car and I have only made 5 payments. This had made this a horrible experience. Beth-Anne: Your local dealership would be able to remedy the issue. It would be an out of pocket expense unless a recall can be issued. I understand the frustration and wish I could provide a more favorable response. [redacted] will definitely not be regimen dodge to dodge to anyone. My payments are to high for my to be able to afford to fix it. How can a vehicle that's barely a year old with under 50,000 miles n not be covered? Beth-Anne: The basic warranty on the vehicle was valid for 3 years or 36000 miles whichever comes first [redacted] So why hasn't a recall been issued when this is clearly known problem? Beth-Anne: If this becomes known then the engineers need to launch an
10/09/2017	investigation, designed a new part etc. This can take some time to complete. [redacted] there are thousands of posts about this issue on Google. I spent every penny I had getting this van so my kids would have a reliable vehicle to be in and now it's not reliable. Beth-Anne: I understand where you are coming from and I would recommend taking it to the dealership so it can be repaired. Beth-Anne: Hello [redacted] how are you today? Beth-Anne: Thank you for contacting Dodge Customer Care. Please chat with us again if you need further assistance. You can also look for updates on our website www.Dodge.com. Have a good day! [redacted] sconnected ('Concluded by Agent').
10/13/2017	Customer called in seeking cost assistance. Agent advised customer she does not meet the matrix for goodwill as stated before. Agent recommended customer to try working a deal out with a Chrysler DLR. Customer stated that if her children are hurt because of this issue she will look into suing Dodge. Agent advised customer to have issue repaired as soon as possible.

10/10/2017	Customer called in stating that while driving the vehicle yesterday he could not get it out of gear. It would go into first gear but not past that. He had to have his insurance company tow the vehicle to the DLR. The DLR stated that they would not provide a rental until the vehicle has been diagnosed. The writer contacted the DLR, and at this time they have no updates on the vehicle. They do not have a contract with Enterprise, therefor the customer will have to submit for reimbursement consideration if he wants a rental at this time. Customer stated that the vehicle is running great but they miss the noise the door now doesn't make. Customer stated she wanted to give a koodo call to the CM supervisor. CM asked customer if she would accept a 2 year 4 oil changes to say thank you for being a loyal customer. Customer accepted offer.
10/20/2017	****LIVE KUDOS CALL**** Writer was approached by the agent as the customer wanted to commend her for the service that was provided. The writer agreed to take the call. Writer spoke with the customer and found that TC823 had been extremely helpful through the troubles that she had and wanted to thank her for her services. The customer then stated that she also wanted to ensure that the dealership was mentioned in this as well. Writer advised that she appreciated her taking the extra time to relay the message to her and advised that the dealership's service would also be mentioned in the file. Writer advised that she would then provide this information to the internal program that we have for her recognition. Customer thanked writer and ended call.

10/19/2017	I bought a 2016 T&C back in June and it is now the middle of October and i still have issues that have not been resolved to the point that i may have mold in the car from it leaking water when it rains or when washed. I need to know who i can talk to before i take this to an attorney. I do not want to deal with the dealership because they have lied through their teeth and i want someone higher up! *******END OF CUSTOMER EMAIL********
10/19/2017	Dear [redacted] Thank you for contacting the FCA Customer Assistance Center. It's very disappointing to hear that you're still experiencing issues with your vehicle since the purchase. We would absolutely like to work with you further to rectify it. As the issues are unresolved, I would like to see that the issues be handled with the assistance of a Case Manager. However, in order for that to occur an appointment with the dealership will need to be made. By working with a Case Manager you won't be dealing with this issue alone and they'll be able to communicate with the dealership and yourself to ensure you are satisfied and the vehicle is repaired adequately. As soon as you have the appointment is made, call us and provide us with the appointment date and time. From there the representative you speak with will be able to escalate your case to involve a Case Manager. We greatly appreciate the opportunity you've given us to assist you. Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753. 11/02/2017	I don't think you fully understand the situation. I made it clear to you i don't want to work with the dealer anymore because they are liars and have not done anything to take care of this situation. The dealership in riverside has done more for me than they have. Now let me help you understand where i am at since i am about to file a lawsuit and several complaints against your company. As i told the dealer when i first purchased the vehicle i knew there we several things wrong and their response was. "It's a use car it's not going to be perfect." My response i agree but why is my 2008 trade in with over 170k miles on it. 100% better shape than your 2016 with 35K miles on it? * I showed them that the car leaks when it rains or is washed and it now has stains and possible mold in the car. I am also unable to drive the vehicle during inclement weather because of the leaking and the windshield wipers are bent out of shape so they don't work properly. Something i told the dealership but they passed it off as bad blades. Well after replacing the blades three time in less than three months. I had the vehicle checked by another dealership and mechanic. they all agreed that the blade arms were badly bent and it appeared the window had been replaced but didn't line up! * The back door sometimes doesn't open and the car will actually lock me out at times. * There are several electrical issues with the car such as the seat belt light will come on when I make a right hand turn even when all the seat belts are either latched or there is nobody in the seat. * The right side speakers will shut off for no reason and they will come back on periodically when i again make a right hand turn. * The interior of the car was falling apart and there were pieces of the interior missing. * I was sold a vehicle with no spare and not told the vehicle didn't come with a spare so two weeks after i bought i got a flat and had no way to fix it. The dealership then replaced the tire with a non matching tire that has now created more issues, such as a second tire going bad; and i have the tire company who will verify that. I had to buy two more tires to replace the one because i was unable to rotate the tires properly because the odd tire created a pull. * I also was in an accident because the brakes failed to properly work and i had the vehicle in to have them checked and the dealership lied and said they fixed the problem. * I am in the process of having the transmission checked * I have the original paperwork that shows what was supposed to be fixed. the dealership said they fixed the issues but ironically the same issues are occurring! I have said all that i want to on this matter. I wish to have you either fix the vehicle, supply me with a loaner car while the vehicle is being fixed. Not a rental on my card on you, or give me back my money so i can go buy a properly running car and no my daughter and i are safe when we are on the road! Otherwise i will turn this over to my attorney! [redacted]n His Grip, [redacted] ***** END OF CUSTOMER EMAIL *****
11/02/2017	Dear [redacted] Thank you for replying to the FCA Customer Assistance Center. If you choose not to bring the vehicle into the dealership, we simply cannot offer additional assistance. 11/06/2017	Customer Stated that he received an mail from Jennifer from customer service sent him an email, to get in contact with the service advisor to book an appointment prior to escalation. Customer stated that he has several issues with the vehicle. The doors locks on their own, when he make a turn, the seat belt light will come on, the speakers will go in and out (on and off) customer stated that the vehicle has issues with the tires. His vehicle leaks when it rains. When he had the new tires put on and rotated them the first time the front tires were worn out and he had to replace them. the interior is falling apart and the dealership told him its used vehicle so he has to deal with it. he also told the dealership that he had issues with his windshield wipers and that he replaced them 3 times and that it was confirmed that it was bent. customer had the vehicle at the dealership for 3 days. Customer stated that Moss Bros. Chrysler Dodge Jeep Ram FIAT Riverside informed him that if they take the vehicle in for repair, they will have to cover the cost for all the repairs and that they shouldn't have to. Advisor looked into the customer warranty information. I advised that he take the vehicle in for diagnosis and to get an estimated repair for the vehicle. I contacted the dealership to book the appointment for the customer. Customer disconnected the line.

11/25/2017	***** END OF CAC EMAIL TO CUSTOMER *****
11/27/2017	This is in response to your email yesterday. Which you sent by a different method so i couldn't respond! LMAO, If you recall i emailed you to let you know that i went to the scheduled appointment at the dealership in Riverside as you instructed me. When i got there they gave me the run around, made it clear that you gave me wrong information, stated they would not take the vehicle, and made it very clear i needed to speak to Dave Ollie in MV. Since then i have not heard from him, and it was my understanding that Riverside contacted him for me. I had to take the vehicle on our vacation unfixed, and my daughter and i almost got into another wreck because the brakes again failed, the windshield wipers literally broke off and hit the vehicle behind me, while driving in the rain, the electrical system went in and out and i have a number of witnesses that saw all of this an the fact that the vehicle leaks when in the rain and the doors failed to open on several occasions. I have tried to reason with the dealership, which i have paperwork showing the work that was supposed to be done and said was done but wasn't when i first purchased the vehicle. I was also given the statement that the vehicle is "used". But last a checked the law requires the vehicle to be safe! So because i can't get the dealership or you to help me. Or i can't get you to give me the contact info of someone higher up or your legal department. I guess i don't have much choice but to take this to the media. I am sure they are going to eat it up that a [redacted] were almost killed on the freeway because they bought a "USED" car from Moss Brothers....Lok forward to hearing your next excuse or who you pawn this off to next [redacted] ***** END OF CUSTOMER EMAIL *****

10/27/2017	Customer stated problem with Transmission, and issues with power sliding door. Agent advised customer that the vehicle has to be taken into a dealer for diagnostics before any further action can be taken. Agent advised customer to take the vehicle into DLR to receive a diagnostic to see exactly what is going on with the vehicle. Customer also called in for information regarding recalls, agent advised customer there isn't any recalls on vehicle and recalls are vin specific.
10/27/2017	Survey by no diagnosis
10/27/2017	Customer called because the number that he received was not correct. Agent provided customer with MVP contact information.
10/27/2017	Sliding door on passenger side buzzes real loud. Customer states that the vehicle locks on it own. Customer stated the vehicle has a hot burning smells inside the vehicle when he unlocks doors.
10/27/2017	Customer advised that the customer take the vehicle to a FCA certified dealership to get the vehicle diagnosis. Agent informed the customer that in order to be considered for cost assistance the first step is to diagnosis the vehicle.
10/27/2017	Agent stress to the customer that he would need to have the vehicle diagnosised the customer does not want to have the vehicle diagnosised because he does not want to pay the customer does not meet the goodwill guidelines. Agent informed the customer that he still has the powertrain warranty available and he can take his vehicle to the dealership to see what his remaining warranties will cover or will not cover because he is out of the basic warranty.

[redacted] says:04:13:39 PM [00:16:16] you need to explain what you just said better, cause I'm sorry but I don't think what you are saying [redacted] says:04:13:45 PM [00:16:23] is real clear. [redacted] says:04:14:37 PM [00:17:14] so are you saying that yes, one of the closer Chrysler dealers can work on it, or what are you saying? Emily says:04:16:15 PM [00:18:53] yes Emily says:04:19:26 PM [00:22:04] Are you there [redacted] says:04:20:37 PM [00:23:15] OK, here is the deal, when we purchased the van on 10/2/2016 at Caldwell, Columbus, OH, we made arrangements so that they would order & install at a later date when the Mopar parts arrived there, 2 window deflectors (or whatever they are called) & all 4 mudflaps. They called & made an appt. with me to install everything. I took my van down to Columbus, while I was standing with my sister in the service dept. bay, there was a vehicle that they had done an oil-change on, which the owner had returned or had towed back there to the dealership service bay which was leaking oil all over the service bay drive-thru (not impressive, as someone had goofed up on that vehicle while doing the oil-change somehow), so they work on my van to install the window deflectors & mud-flaps, then

11/03/2017	it, but claimed it wouldn't do it for them, one time when I got in & went to back it out of the parking spot that they had parked it in, it did its bad thing, needless to say, I went back in & said that is funny, but it just did it for me, but you guys swear you couldn't duplicate it, bull! They kept it, but never fixed it. The sliding door allowed daylight to shine in, it was that far out of adjustment, they made adjustments, it was never fixed. Then one snowy night on my way home from work, when I Emily says:Loading I can understand the concern with this location as well then with having trusting concerns with bringing another vehicle there for warranty work to be completed. [redacted] says:04:50:43 PM [00:53:20] stopped at a stop-sign, when I stopped (not quickly either), it was if someone had run in to me from the rear, but there was no one there. When I called them, they had me drive it in to their shop, it turned out that it was the transmission all of that time. By this time, we are just past the warranty period. So then they want us to pay for transmission work, I said "no way", I can document all of these supposed shop visits for this issue & it started back many months before the final problem. Then they want us to split the transmission repair & pay $1,500 to $1,600. I said "no way" after all of the hassle of the repair visits, etc., I won "lemon law", after 8 months on my own without an attorney, because I could document all of the crock of repairs from the very beginning, showing that they had ample chances to fix the door & the transmission, but dilly-dallied around with my van instead. After going to arbitration, they had to pay us back for the van, rust-proofing, the insurance that I had to carry on it while it sat on their lot for 8 months while it was up in the air & couldn't be driven. Tom Ahl's had to give us the check from the manufacturer. Unless they have cleaned up their act, the section that I had to work with was a nightmare. Emily says:Loading I can understand the concern with this location as well then with having trusting concerns with bringing another vehicle there for warranty work to be completed. [redacted] says:04:53:01 PM [00:55:38] The really dumb part was that we really, really liked our Safari van! If they had just fixed it right (the door & the transmission), we would probably still be driving it today! We got a lot of use out of it & kept it nice, but they (Tom Ahl's) failed our van & us! Sorry! We aren't the only ones, I have heard other horror stories from several years back, besides ours! Reassign chat was disconnecting when trying to complete chat
11/03/2017	when they are done, they had damaged one of my wheels & they had to order a new one for on the van. (more coming [redacted] says:04:23:16 PM [00:25:54] So when the new wheel came in, I again had to make an appt. to take the van back down to Columbus, they removed the damaged & installed the new wheel cover. I had an appt., but we were there for many hours, it was late when we were able to leave. I got to the edge of Columbus & they called to tell me that they had forgotten to put the locking hub nuts back in our van, so I had to turn around & drive back to Caldwell's to pick them up [redacted] says:04:24:39 PM [00:27:17] when the door stopped working, I had contacted St. Marys Chrysler, St. Marys, OH to see about the warranty repair, they dilly-dallied me around for 2-3 weeks & then never called me back to let me know that they have a slot for my van for the warranty repair. Emily says:04:24:43 PM [00:27:21] I can understand the concern wit the dealership and the services you have received coming from the [redacted] says:04:26:32 PM [00:29:09] So after being dilly-dallied around for an appt. at St. Marys, right before I contacted Mopar chat, I had contacted Mike @ Knippen Chrylser, Delphos, OH to see if I could make an appt. for my van which is [redacted] says:04:28:33 PM [00:31:11] still under warranty, he wanted to know if I purchased it from them. When I told him know, but I didn't want to deal with Columbus, he insisted that I needed to take it to them, I told him why I don't want to take it to Columbus, his reply was that the manufacturer insists that the vehicle owners do that & that their company would not make a profit off of doing my warranty work. So then I am ticked!!!! Emily says:04:29:49 PM [00:32:26] I would be ticked at this point as well I can agree with you [redacted] says:04:29:54 PM [00:32:31] Can you imagine buying a $40,000 vehicle & having such a dilemma trying to get it repaired for something beyond your control? Emily says:04:30:20 PM [00:32:58] No I can only image to be honest with you. Any dealership can complete warranty work. [redacted] says:04:30:30 PM [00:33:08] So, what do I do now? Emily says:04:31:51 PM [00:34:29] I would be happy to open a case on this matter for you and have everything noted for you on this matter. I do want to get a case manager on the matter for you in order to assistance the dealership in order to make sure this is fixed for you. I would need to recommend having it at the dealership in order to do so. Emily says:04:32:41 PM [00:35:19] Is there a different dealership in the area [redacted] says:04:32:53 PM [00:35:30] Let's start the ball rolling please! Which dealership are we talking about? Columbus, St. Marys or Delphos? Emily says:04:32:56 PM [00:35:33] You would want to work with Emily says:04:33:30 PM [00:36:08] It would be up to you what dealership you would like to work with. Emily says:04:34:19 PM [00:36:56] I am showing this location would be close to home Emily says:04:34:20 PM [00:36:57] Tom Ahl Chrysler, Dodge, Jeep, Ram, FIAT PROGRAM DETAILS 617 King Avenue Lima, OH 45805 (419) 227-0202 Today's Sales Hours:9:00 am - 6:00 pm Emily says:04:34:25 PM [00:37:03] Would this be one you would work with ? [redacted] says:04:34:41 PM [00:37:19] The two local twerps, really don't want to work on it because it is a warranty job & they didn't sell the vehicle & they are afraid that they aren't going to make a profit on it [redacted] says:04:41:31 PM [00:44:08] I would prefer not to take it to Tom Ahl either, as we purchased a brand-new 1997 GMC Safari van from their dealership, it was only 2 weeks old & it had fuel injectors go out on it & from then on it had major mechanical problems. We loved the van! I was very patient with them & their supposed repairs, it started having problems with the brakes or the transmission, they would keep it overnight so everything would be cold & they could duplicate the problems, they had it for days & put miles on

11/04/2017	We need to talk to someone high up about warranty repairs on our new van. Local dealers are not wanting to do warranty work on our van, as there isn't enough profit in warranty repairs for them to do the repairs for the Columbus, OH dealership that sold it to us. But after being @ Caldwell, Columbus, & seeing what was going on there & experiencing what we have so far, do not trust their guys to do our warranty work. I can expond on details of why in a letter, but no room on here probably! HELP, or I am going clear to the top with my warranty problem! I paid almost $40,000 for a new van & can't get someone reliable to do the warranty repair so that my door works! ******END OF CUSTOMER EMAIL*******
11/04/2017	Dea[redacted] Thank you for contacting the FCA Customer Assistance Center. I'm sorry to learn you've been experiencing concerns with your new vehicle. I can definitely understand how this would be so frustrating when investing that kind of money into a product. The best course of action would be to involve a Case Manager who will work with you and your dealership to ensure your concerns are addressed to a satisfactory level. However, in order to escalate the case to that department, as it is a higher department the vehicle needs to be at the dealership already or an appointment needs to be made for such. Simply just schedule a service appointment for this issue, as soon as you have done so, give us a call with the appointment date and time, and preferred servicing dealership. When you contact back with the required information, your Case Manager will be in contact with you within the one business day for follow up. I appreciate the time you've taken to allow us the opportunity to assist with these concerns. Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753. 11/07/2017	Incident hi, my name is Cheryl with Chrysler Customer Care, How may I help you today? Cheryl: Hello How are you today? Cheryl: Sorry, you are not responding, I will have to disconnect this chat hi cheryl i am good thanks for asking. I am having a problem with the back door opening on my mini van along with the driver side side door there is a clicking noise that is coming from it. I brought it to a dealership and they wanted $$ just to diagasie the problem. Are the doors covered in the warranty that we bought with the minivan? I dont have the vin number for the mini van my wife has it at this time Cheryl: I can certainly understand your concern if the doors are covered under the warranty on vehicle. I would be more than happy to look into this for you today Mark. Please provide approximate mileage on vehicle, your complete address, phone number and email address, to see if able to bring up vehicle information uburn, ny ot sure if i used this number or the house number bought the minivan at 34000 miles were u able to come up with the information? Cheryl: Thank you for holding Your vehicle still has all the manufacture warranty on your 2016 CHRYSLER TOWN & COUNTRY TOURING WAGON. The issues with doors need to be diagnosed to see chat is causing these issues. Cheryl: The Dealership will charge a diagnostic fee to see what is causing issues with vehicles. If the repair is covered under warranty, they will generally run the diagnostic fee under the warranty. so i would have to pay someone $145 in order to diagnose the problem? Cheryl: If that is what the Dealership is charging, once diagnosed, and is covered under warranty, they will generally run this under the warranty, what the diagnotic charge thwy will charge under a warranty? Cheryl: You would need to speak to the Service Department at Dealership for further assistance. Cheryl: Is there anything else I can assist with today so are the doors covered under the warranty? Cheryl: Your vehicle would need to be diagnosed to see if the issue is a manufacture defect, and will be able to provided if covered or not covered. oh my disconnected ('Concluded by End-user').

11/09/2017	Customer seeking assistance with: Cost assistance for Door Lock Actuator Customer expecting: The customer states that last week he was trying to get his children out of the vehicle out of drivers slotting door, but the door will not open at all. The customer states that not even any switches, remotes or trying to open the door manually works. The customer states that he took it to the dealership and they got it to fix, however the next day, the door locked up. The dealership's diagnosis was that the lock actuator needed to be replaced and quoted the customer for $600. The customer is seeking cost assistance because he is not able to use his vehicle and cannot afford it. Agent contacted the dealership and spoke to SA Brooks who states that the technician "forced actuated the door, and the lock actuator bounded up". The SA states that they need to replace the lock actuator the SA Brook state that they are charging the customer $567.60 but they need to know from Chrysler if they we are going to be covering the part for the customer before placing an order for the customer. 12/06/2017	Hi, my name is Michael with Dodge Customer Care, How may I help you today? Michael: How may I assist you today [redacted] Purchased van brand new had heavy sweet maple smell took in for oil change and smell along with drivers door not closing correct and pass door making banging noise. Dealer said did not know what smell is realign drivers door and ordered new hinge for pass side I was told 3-5 days to paint hinge. Been over two weeks still waiting on paint said they ordered tube of paint? Van is using anyifreeze I have to add to it drivers door since they realigned is worse and still no pass hinge??? I find it hard to believe that they canÂ't mix a pint of paint Was told they will address all issues when hinge is painted. There is no reason it should take this long and no reason I should be adding coolant to a brand new vehicle. I have been a mopar guy my whole life we traded in our charger and it was a fantastic vehicle but service like this will be the reason I change brands. I love dodge products but service needs to stand behind what they sell. Very disappointed can you send me info on a competent dodge dealer near me please [redacted] ve tried sending this as an email thru dodge web site but it does not go thru Michael: I can certainly appreciate your concern [redacted] I would be more than happy to assist you with this, may I ask what the approximate mileage is on your vehicle as well as what dealership your vehicle is currently located a [redacted] 6200 miles the vehicle is not at dealer I have it at home as it is my wifeÂ's only transportation Dempsey dodge is where it was last serviced Michael: I understand, this is also the dealership which had ordered the parts for your vehicle? [redacted] Yes Michael: I understand, may I place you on a brief hold while I look into this for you? [redacted] Yes thank you Michael: Thank you for holdi [redacted] at this time what I am going to do is to escalate this to the Parts Support team for parts resolution. Your Case Manager will provide you with updates on the status of the part within 1 day. If an update is received sooner, you will be contacted sooner. What would be the best phone number to contact you a [redacted] Michael: I understand, for reference your case number is [redacted] Thank you Michael: My pleasure, is there anything else I can assist you with today [redacted] o that should do it Michael: Thank you for contacting Chrysler Customer Care. Please contact us back if you need further assistance. You can also look for updates on our website www.Chrysler.com. Have a good day [redacted] Thank you again [redacted] disconnected ('Concluded by Agent').

01/03/2018	***OUTBOUND DEALER CONTACT*** 45120 - NAPERVILLE CHRYSLER JEEP DODGE RAM - 630-505-8282 SA Ben CM contacted Dealership to speak with SA for update on customer's diagnosis. SA Ben advised the vehicle was brought in with concerns of smells like anti freeze, hard shift, and according to Dempsey the passenger side door latch. SA Ben advised they do not have a diagnosis as of yet, and the customer is seeking a rental vehicle, which they have none on site, and do not have an account with Enterprise. CM advised Dealership if there is a need to put customer in one (they anticipate having vehicle diagnosed today, and will have more information later) that CM would be willing to reimburse the Dealership at $35 a day, and cut Dealer a check for the rental amount if need be. SA aware, thanked CM for that, advised emailing him for updates would be easiest. SA advised email is ben@napervillejeep.com

01/03/2018	***OUTBOUND CUSTOMER CONTACT*** [redacted] contacted customer back per notation of customer calls. Customer upset, advised he has since picked up his vehicle, and the Dealership advised there is no coolant leak, they do not have a body shop to address his hinges, and did not look at his other concerns as they were "not present" while the vehicle was there. Customer is upset, advised he is a [redacted], advised the Dealership what his concerns were, and how to resolve them, Dealership dismissed customer and advised there is nothing that needs repair, and nothing they can do. Customer states when he left his house, his fill coolant light was on, when he picked it up it was filled, Dealership advised they did not fill it, and that it was full when it got there. Customer is frustrated, as Dealership advised they found residual coolant around his radiator cap, which customer suggested to be a leak, and Dealership denies. Customer states that FCA Coolant is hazardous to breathe if burned, and he has children and does not wish to put them back into the vehicle until his concerns are resolved. Customer states Dealership has to wait for Paint to come in for the Dealership to do Body Work on his vehicle, when the last time they did work on his vehicle, they made it worse than it was, as the Dealership does not have a Body Shop, and just does the work instead of outsourcing. Customer advised the Body Shop across the street advised him they can have the work done in 2 days, and can mix the paint on site, as they have a paint mixer, and can match any FCA paint. CM suggested to customer to get a quote for how much that would cost, and we could review from there. CM advised this is not a guarantee that we will cover this or pay for this, but advised he can see the customer is very frustrated, and wants to review all options available for him. Customer advised he can do so, took down CM email address to send quote to once he has one. Customer suggested CM contact them back next week to check how his other concerns are going, and we would discuss next steps from there. CM thanked customer for their time and disconnected call.

01/25/2018	***OUTBOUND CUSTOMER CONTACT*** [redacted] CM contacted customer and spoke with them about vehicle concerns. Customer states he picked up his vehicle and sent pictures to CM of the condition it was returned. Customer states all the snaps under his hood were broken, that his Radiator was covered in old and new fluid, there were things snapped and broken and covered in several fluids. Customer states the Dealership was unable to repair his door, so they modified the rear door to match the front one, which now leaves both doors being off and needing repairs. Customer very upset with the Dealership and their work, states the SA was supposed to walk him out to his vehicle to go over the repairs, and dodged the customer when he went to pick it up. CM apologized profusely to customer, advised he was not happy with the work at all. Customer states he was going to take/submit more pictures to CM for review, CM thanked customer for that, advised he would follow up tomorrow for an update.

01/26/2018	***OUTBOUND CUSTOMER CONTACT*** [redacted] CM contacted customer back per notations. Customer demanded rental vehicle. CM advised if the Dealership is not able to provide one, the customer would be able to pay for one out of pocket, and submit for reimbursement after the fact. Customer disputes this, advised he has a SC that should cover a rental vehicle, CM advised if the Dealership does not have one available, this is the only other option that we have. Customer aware, advised he spoke with Dempsey DLR who advised they would like to have the vehicle back to try and repair the concerns. Customer states Dealership alleged that they are able to smell the odor in the vehicle, but not able to determine where it is. CM apologized for this, advised he would be reaching out to the AM to try and visit the Dealership to assist with vehicle repairs, and determine what they can do to resolve concerns. Customer requested Supervisor call back, CM advised they would be providing the same information to customer that CM has as well. Customer aware, advised he would expect a call Monday, and disconnected call.

12/16/2017	Phone[redacted]riefly summarize why the customer is contacting Chrysler: someone told him we could be an in between for his DLR concern. Sliding door locked up, totally. Victorville Motors told him it would cost $120 to look at it. Repair was $600. It was not covered as a power lock but as a latch assembly. Customer said the vehicle he was taken home in had the same issue with it's power side door. It was locked up tight. Agent advised of NHTSA phone number as he was concerned this is a safety issue. ** Customer states this is his 4th Caravan and has an MVP, which does not cover. MVP Brian told him to call us. RO states: "Inspected the door and found lock internally binding. Removed slide door latch assembly and replaced. Re-inspected and operated as designed." 12/18/2017	Briefly summarize why the customer is contacting Chrysler: Caller is [redacted] and she is very concerned that the rear passenger side sliding door is stuck in the locked position. The customer states that she purchased the vehicle from Lucus Chevrolet in November 2016. The customer is seeking cost assistance. Agent advised that CAC may be able to send the case to CM, but the vehicle must be diagnosed by a Chrysler DLR and the vehicle must be at the DLR. Agent called the DLR and spoke to SM Rodney. He stated that this vehicle has not been at the DLR for any service. Due to the customer's financial circumstances, he agreed t o provide some cost assistance to the customer, even though he has not diagnosed the vehicle. Customer will work with this DLR to have the vehicle repaired. Briefly summarize what the customer is expecting: goodwill

12/26/2017	Briefly summarize why the customer is contacting Chrysler: Customer contacting because their sliding door latch is stuck. Briefly summarize what the customer is expecting: Customer expecting for Chrysler to cover repair. Customer states that they purchased vehicle from Enterprise car rental 12/23/2016. Customer states that after having vehicle for 1 year that last week the sliding door would not work electrically. Customer states that they tried opening the door manually and they could not open it. Customer took vehicle into DLR 26955 to have vehicle look at. Customer was informed by DLR 26955 that the door panel would have to be removed to know what issue is. Agent contacted DLR 26955 and spoke with SA Patty who states that they informed customer that the doors latch was stuck shut. SA Patty states that they offered the customer to only pay 25% of the repair cost which would be $311.00 plus tax. Customer felt that she should not have to pay for the repair because it was not her fault that this happened. Agent apologized and informed customer that what DLR 26955 is offering them to pay is the best that could be done or they could pay the full price of $1,243.00 plus tax. Customer states that she is in a frenzy and this news has ruined her holiday spirit. Customer states that she would like to write a letter to Chrysler discussing issue. Agent gave customer information they would need to submit this documentation.

01/03/2018	Begin Customer Message reviewed: Hello Stephanie, I will call you tomorrow, Wednesday, 1/3/18. Thank you. [redacted] Stephanie, I left a voicemail for you this morning regarding my case [redacted]. As I mentioned, the dealer, Tuttle-Click Chrysler, Irvine, is apparently proceeding with parts replacement on my sliding door under my Maximum Care Warranty, with a $100 deductible. I would hope that since the operational defect was documented under the initial warranty (36 month/36K mile), and resolution was attempted without success, that this repair should not be treated as a Maximum Care Warranty (with deductible) issue. That is the reason I made sure FCA documented the defective door operation soon after I purchased the vehicle in May 2017. I would like to resolve this matter as soon as possible as the dealer has informed me that they have completed the work on my vehicle. You can reach me on my cell a[redacted]. Thank you. 01/03/2018	When the vehicle was brought in for repair it was 5/5/17 and 24105 Writer reached out to dealer-24105 JEEP CHRYSLER DODGE RAM FIAT OF ONTERIO at 909-390-9898.. It was not at this dealership and there is no SM there to make the call. Assistant manager James is there. SA Issy transferred the call.
01/03/2018	Service assistant manager James advised. The only people that can waive the deductible is MVP.
01/03/2018	Writer reached out to customer at[redacted]. LM with issue, CAIR, call back number with extension
01/03/2018	Writer reached out to MVP Nina who advised that department is closed at this time. Dealership may waive but the Admin Department. call back number is 8005219922 ask for admin. Customer asked if the service order for the 17th that this issue was listed.
01/03/2018	Writer reached out to dealer -24097 TUTTLE-CLICK CHRYSLER JEEP DODGE at 949-472-7400. Asked for ASM James.
01/03/2018	He is unavailable. Writer Debbie took a message and advised bring it in Monday and talk to Don.
01/03/2018	Writer advised the vehicle is ready now.
01/03/2018	Debbie researched the issue.
01/03/2018	ASM James advised it is out of basic. It is under the service contract. It can not be submitted under Basic. There was no code there could be no repair. The issue was not resolved. No Problem found on 5/16 and customer came back 6/15 the issue was not brought up at that visit.
01/03/2018	The issue could not be duplicated.
01/03/2018	Writer advised the customer of the ASM q advice.
01/03/2018	The customer advised the SA that worked on the issue was very dismissive of the issue and did not keep the vehicle long enough to duplicate the issue. The issue was there both before and after this service appointment.
01/03/2018	Customer asked for follow up tomorrow. 1 p.m. pacific.

01/04/2018	Status update provided via email to the following email address:[redacted], I just found out it is the system here at FCA that is experiencing issues. I apologize. The agents around me can not dial out either. I have informed management so the issue may be resolved. I fear the MVP office will be closed. I will follow up with you tonight if the system comes back before 11 p.m. eastern. Stephanie. End of Status Update
01/05/2018	Begin Customer Message reviewed: Thanks, Stephanie. As I think you know, the Tuttle Click service person (I think it was James) called me at about 2:45 pm PT to say he got a "no" from MVP. I told him he must have been talking to the wrong person. I asked if he had spoken with Brian and he said no. I told him Brian in the Authorization Dept. is the one who gave us the "yes" on deductible waiver. He said he would try to reach MVP again. Hopefully we can get the dealer and Brian at MVP connected tomorrow. I really need to have the car by early afternoon. Feel free to call me tonight if you have any additional information, otherwise we will talk tomorrow.[redacted] Stephanie, I just thought a bit more about the timing of Tuttle-Click's contact with MVG today. It's certainly possible that the service manager talked with them before our conversation and obviously did not talk with Brian.[redacted] End of Reviewed Customer message
01/05/2018	Customer is calling to inquire about CAIR. Agent reached out to the MVP Department seeking to speak with Brian. Agent was advised that no Brain was associated or working this CAIR. 01/26/2018	waiting on appointment
01/30/2018	**Customer has appointment on Feb 2
02/02/2018	*****INBOUND CUSTOMER CONTACT***** [redacted] | Customer called in stating he has his appointment today but is not willing to pay the $100 deductible for his third party service contract as well as another $175 because the DLR has to break two plastic pieces on the door to get to the actuators. Customer states he wants to know if this will be covered. CM advised that we would need to speak to the DLR to discuss the concern further with them, and would not be making a live decision at this time. Customer states eh does not understand why such conversations could not have occurred back when he spoke to CM as he already mentioned that the DLR was aware of the vehicle concern already. CM advised that we were waiting for the appointment so that the vehicle would be at the DLR, thus CM can review with the DLR and gather further information. CM advised that just as CM mentioned in their last conversation, she is on vacation this week and has fellow case managers. CM advised that the case would be updated and that CM would discuss the case with them. Customer thanked CM and disconnected.
02/02/2018	CM Notes that customer is okay with paying the $100 deductible for his repairs through the third party SC, but feels that as the repairs include braking two plastic pieces, he feels it isn't right to pay the $175 for parts needed to be broken to get to the same repairs.

02/02/2018	*****OUTBOUND DEALERSHIP CONTACT***** BROOKFIELD CHRYSLER DODGE JEEP RAM | 67188 | 269-927-6600 |. CM contacted dealership and spoke with SA James. SA stated that the customer has rescheduled appointment for 02/09 at 9am. SA stated that the customer came in before for this issue but never returned to have the repairs completed. SA stated that the issue is his actuator needs to be replaced which is going to be covered under his SC. SA stated that to complete this repair the window must be removed through the exterior of the vehicle but for that they have to take off the aplicays. SA stated that the aplicays are glued on and if you try to take them off they break. SA stated that this component is not covered under his SC.

02/04/2018	Chat ID#[redacted]Hi, my name is Darryl with Chrysler Customer Care, How may I help you today? Darryl: Hello [redacted]hank you for taking the time to contact us today, how may I assist you? Darryl: Are you there[redacted]I have owned town & country touring model vans for the last 10 years. I started with a 2005 model and upgraded to a 2016 model last May. I have had issues with both rear sliding door latch mechanisms and have had to have both replaced by Chrysler dealers. I have not paid any out of pocket expense for either repair other than 96.09, which I paid yesterday to replace an applique trim piece that was not covered by my extended warranty. I would like reimbursement for that cost as this door lock mechanism seems to be a widespread issue. both repairs were around the $1.000 range in price. 02/05/2018	***** Customer Document Received *****
03/05/2018	Agent reviewed documents and found: documents Customer submitted receipt Customer seeking reimbursement for extended warranty Customer had vehicle repaired at Lee's Summit Total reimbursement seeking $ 96.09 Customer does not qualify for reimbursement.
03/05/2018	--INBOUND CUSTOMER CONTACT-- Customer called for an update on their case. Agent advised they did not qualify for reimbursement. Agent advised we would look into reimbursing for repairs if this was covered under a recall, ext warranty or it was something a service contract should have covered. Agent advised the vehicle is not involved in a recall or ext warranty and they would not qualify. Customer states his third party contract covered most of the repairs he just wanted this trim piece covered as it was an out of pocket expense and the customer feels this is a known issue with the town and country vehicles. Agent advised if their vehicle is recalled in the future or an ext warranty is placed on the vehicle he can submit receipts for possible reimbursement however at this time after review their request was denied.

02/22/2018	States there had to be a dispute between person who sold him the car and dealership. Contacted MOPAR advisor told him they should have replaced it right away. Thought dealership in California would help solve the issue but no one tried to assist him. Stated during test driving the car he didn't notice malfunction. After buying it he noticed door made strange noise. Dealership told him it would be covered before he moved to NC due to relocation of being in Marine Corps. Individual he was trying to help solve ordeal was no longer there. Old dealership in CA wanted to verify VIN but he had to relocated and they didn't get it done within time.

03/02/2018	Briefly summarize why the customer is contacting Chrysler: Repair done to vehicle did not work, needs to take back for fix Briefly summarize what the customer is expecting: rental for a few days while vehicle is being repaired again **agent** Customer took vehicle in for lock re[pair. Passenger doors are lock and will not unlock. Dealer fixed issue but this morning the issue is still there. Customer is taking vehicle back but dealer will not be able to get to it for 2 or three days. Dealer said to customer he not responsible for loaner the dealer who sold it to him is. Agent is reaching out to dealer in regards to d-15-15 to see if dealer can be persuaded to do rental
03/02/2018	Dealer refused rental only does loaners and rentals for customers who bought thru his dealership. Customer does have rental coverage thru his MVP maxi care program. Warmed transferred customer over to MVP to assist customer in getting a rental while vehicle is back in shop to re fix repair done on vehicle on March 1 2018

03/22/2018	Randi, I have had several issues since I purchased my 2016 Town & Country vehicle from Secret City Dodge in Oak Ridge, TN, last year. I traded in a 2013 Town & Country and was told 2 things by the Finance person doing my paperwork: 1). My account info would be updated with new VIN # and warranty info 2). I had warranty on my vehicle until mileage reached 76,700 miles Several months ago I was having a problem with the right side Sliding rear door that had become locked and would not open... so I visited the dealer in Oak Ridge to have it repaired. Much to my surprise I was told their was no warranty on my vehicle and would have to pay to have door repaired, which I have not had done. My wife is [redacted] so we have to "find" the money for such unexpected repairs. Especially since we thought the repair would be covered under Warranty. I have since looked thru my paperwork and saw where I had a First Mile Powertrain Wraparound vehicle service contract for 36 mo. or 36,000 miles and that Gold coverage was selected, which does not cover Sliding Rear Doors (covers windows, motors, etc. inside the door, but not the door!!). Point here, I was not given an option for any additional coverage or told what was covered under the plan. I have purchased these additional coverages in the past with other makes of vehicles and know what the procedure should have been, but I was NOT given an option of what any difference in premiums would be. It was never discussed in any way other than "sign here". I also noticed that I was charged $2240.00 for the Gold coverage, which again was never discussed in the Finance office, and whether their were better service plans, i.e. Gold Plus and Platinum and what choosing those would add in additional premiums. My last vehicle (a Toyota) I chose to pay additional to "step up" to the next level. So I shouldn't have been surprised to visit Chrysler's website and see that my account had never been updated from the 2013 Town & Country. I added my new VIN # to the account but did not update any other info. But at least it shows my current vehicle, even though my right side sliding door will not work. I can only add, that I promise to relay to anyone willing to listen how Chrysler has treated me (thru your dealer, who represents YOU..), and will never purchase another Chrysler Fiat product if this issue cannot be resolved.[redacted]*****END OF CUSTOMER EMAIL*****

03/22/2018	Dear [redacted], Thank you for your response. [redacted] It's perfectly understandable that you're very upset about what's happened. I'm disappointed to see that you're in this situation. [redacted] upon further review I have confirmed that your extended warranty is not with Mopar, regrettably we are unable to review the provisions of a third party warranty. Your right sliding side door would have been covered under the manufactures warranty of 36 months or 36 000 miles whichever one occurred first. Your manufactures warranty has expired by 31, 800 miles. Your concerns, particularly in view of the inconvenience involved in this issue, are understandable and I appreciate the time and effort you took to bring this matter to my attention. Your concern has been documented, and I will be sending a letter to the owner of the dealership, as well as to the Chrysler Business Center, on your behalf, so that it can be reviewed and addressed by those parties. In the meantime I do suggest contacting your extended warranty as they will be able to better assist with any concerns you have related to that. Please let me know if there is anything else I can assist you with. Have a great [redacted]! Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753. 04/12/2018	REFERENCE NUMBER: [redacted] EMAIL CASE NUMBER: [redacted] recently contact you regarding my drivers side rear door not opening, I am aware that I passed my warranty, But to have my door stuck in the locked po sition after using the child lock for the first time is unacceptable, not to mention dangerous. I was told to bring it to the dealer where I will me cha rged $145.00 to diagonos the problem and to determine if it malfunctioned. I am sorry but after only 2 years there should not be this problem period. I also own a 2010 Town and country and have never had this problem. The door i s only used probably twice a month and this has happened. I have made plans to bring it to my mechanic to have it fixed because to be honest I don't tru st that I will get a honest answer and then I will be forced to either eat t he $145 or have you service my van. I do not have small children that could have broken this on the contrary we purchased this van because of the leg ro om for my children. 04/12/2018	Dear [redacted] Thank you for contacting the FCA Customer Assistance Center. I can definitely understand your frustration with have such a new vehicle, and these type of issues arising. Regrettably, we are unable to diagnose the situation you have outlined. There are too many variables involved and a detailed inspection of your vehicle is required for proper diagnosis. Until we have that diagnosis, we can't determine if it would be something that FCA can cover, and the cost of that diagnosis is a Customer cost. As we value our customers, we would like to take the opportunity to have this file reviewed by our case management department to get the best possible resolution for your vehicle concern. In order for me to get you a case manager involved for technical assistance that would require you to book an appointment with an authorized dealership. If you do change you mind and decide to do so, please let me know right away of date, time and what dealership. A case manager will be available to contact you within one business day after your scheduled appointment to discuss the concerns with your vehicle and to ascertain the best possible resolution to this matter. I do apologize that I was unable to provide you with a more favorable response, but I would have to agree with what the previous Agent advised. Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753. 04/17/2018	***CS NOTES*** CS spoke with the customer who informed that he purchased his vehicle with 35937 miles. When he took it to the DLR for it to be diagnosed and repaired. The vehicle had gone over into the 36000 mile range and the DLR decline to complete the repairs. The vehicle was diagnosed in needing the door lock actuators replaced. As the customer reported noise coming from the sliding doors.
04/17/2018	***CS NOTES*** CS was informed by the customer that he authorized for the DLR to move forward with the repairs. CS will look into the possible option of assistance in the form of a reimbursement.
04/20/2018	***CS NOTES*** CS spoke with the SA Rebecca who confirmed the repairs have been completed. As they replaced the passenger door lock actuator. Exact cost for the repairs $1349.53 DLR was unable to GW the repairs , due to the vehicle being a company car instead of a personal vehicle.
04/20/2018	***CS NOTES*** CS has reviewed the case with TL YM161 for assistance on the GWA reimbursement approval. Due to the customer circumstantial situation. Customer purchased the vehicle with 35,937 miles and with the passenger door lock actuator needing to be replaced. The customer could have had the repairs completed under the basic warranty. The nearest FCA DLR location put miles on the vehicle going over 36,000 miles. And now the customer had to pay for the repairs themselves .
04/20/2018	***CS NOTES*** CS has confirmed once the paid invoice for the completed repairs have been submitted. CS will confirm the approved amount for reimbursement with the customer.

04/26/2018	***CS NOTES*** CS has reviewed the case for the GWA reimbursement and FCA CAC will approve to offer the customer a $500 reimbursement. CS has left the customer a VM requesting a CB to finalize the case.
04/26/2018	***CS NOTES*** CS spoke with the customer to offer the GWA reimbursement amount of $500 towards the actuator repair. Customer also informed that the DLR is currently repairing the 2nd actuator. And is requesting to see if he can receive reimbursement on the 2nd repair. Customer felt that $500 was to low and unfair of an amount. Due to his situation on being barely out of the basic warranty miles. As well the customer claims of owning multiple FCA brand vehicles. CS will seek assistance for inquires with TL YM161 and follow up with the customer.
05/03/2018	***CS NOTES*** CS followed up with the customer and apologized for the delay in updating on status of the case. CS will follow up with the customer to inform of the approval or decline. For the reimbursement amount to be increased ,
05/03/2018	and the possibility of a reimbursement for the 2nd actuator replacement.
05/08/2018	***CS NOTES*** CS left a VM for the customer as they were not available at the moment. CS did request a CB from the customer.
05/10/2018	***CS NOTES**** CS left a VM for the customer for the 2nd time to provide them with the TL YM161 decision. As the customer purchased the vehicle with the damaged doors knowingly. FCA CAC has only approved only for $500 reimbursement for one of the actuator door replacement. As a one GWA for the inconvenience of being slightly OOW on the basic warranty.
05/14/2018	CM review of documents - - no new document submitted currently
05/15/2018	***CS NOTES*** CS left a VM for the customer for the 3rd time , a request for the customer to CB was made.

04/16/2018	**Please refer to documents in CAIR [redacted] or reference** Briefly summarize why the customer is contacting Chrysler: Customer called in because she is displeased with the amount of times her car had to be into the DLR for repair, she also voiced concern that she is now in need of a new repair after having a repair on her rear sliding door that was constantly locked. Customer stated she had no problems going to social media should the repair not be done. Briefly summarize what the customer is expecting: A repair to be done as she feels that it is the Dealer's fault for the new damages **Agent advised** Customer that the he called the DLR and the DLR said that the repair; was no mandatory but simply recommended as that could very well have been the cause of the initial problem with the rear passenger side door. Agent advised customer to try and work with DLR to find a solution.

04/24/2018	Writer called customer at [redacted] and offered to pay for the parts for the repair and then customer would just have to pay the labor. Customer was not really happy with this deal however writer said she would contact the dealership and see how much of the $751.00 would be the labor. Writer said she would call the customer back when she had the figures.
04/24/2018	Writer spoke to Natasha, sa at the dealership and was advised the warranty pricing would be: Parts $571.87 + Labor $241.40 for a Total of $813.27. Natasha said that they were going to give the customer a discount and just charge her a Total of $751.00. Writer advised Natasha the customer said the trim is loose. Natasha said that this would be the third time the trim would be taken off and put back on so as it is just plastic it might break and she does not want to complete the repair until she knows that either Chrysler or the customer would be responsible to pay for it. Writer said she would check and get back to her.
04/24/2018	Writer called customer at [redacted] nd advised him the labor for the repair would be $241.40 and offered to assist her in making an appointment however customer said she would call the dealership to make the appointment as she will have to check her schedule first.

04/24/2018	Writer called the dealership - 301-843-5200 to speak to Natasha but she was at lunch. Writer will call back.
04/24/2018	Writer spoke to Natasha at the dealership and advised her writer would add DM notes for the repair and also for the trim in case it was needed. Writer advised Natasha customer is going to contact dealership to make an appointment and knows she will have to pay the labor for $241.40.
04/24/2018	As a one-time goodwill gesture, Chrysler is approving this out of warranty repair. According to the dealer, the warranty costs of the repair are as follows: Parts = $571.87 Labor = $241.40 Total = $813.27 Co-pay = $241.40 Parts = $489.60 Parts = $19.21 Total = $508.81 Co-pay = $0.00 ########## DIRECT-TO-DEALER ########## Customer Care is sending this case to because an out-of-warranty goodwill decision has been made. Remember ALL pre-authorization requirements for Digital Imaging and the Powertrain Service Center still apply. When submitting for pre-authorizations include this case number. When repairs are completed, submit your claim as you would normally and update this case and return it to Customer Care. ##

04/19/2018	Incident# [redacted] Hi, my name is Eileen. How may I help you? [redacted]: Yes I am contacting you because I purchased a dodge van from Pohanka Nissan of Maryland approx 4 to 5 months ago. Recently my driver side passenger sliding door stopped working. I was wondering if there was warranty on my vehicle or what I needed to do. Eileen: Hello [redacted] Congratulations on your purchase! I am sorry to hear the issue you are having with the sliding door. We would like to look into this for you. At this time you have reached the Mopar Owner account website support department. Do you mind holding while I transfer you to our Dodge department to assist you further? [redacted]: The door doesnt open manually or automatically. Its like there is a jam in the lock or something, we have no idea. There is nothing stuck in the track or anything. Eileen: I will transfer you now to our Dodge department to assist you further with the door issue. If they are busy please hold for the next available agent to take your chat. Thank you for using Mopar Owner web chat, please hold for the transfer 'Eileen' disconnected ('Transferred to Queue'). Hi, my name is Delores. How may I help you? [redacted]: Yes I am contacting you because I purchased a dodge van from Pohanka Nissan of Maryland approx 4 to 5 months ago. Recently my driver side passenger sliding door stopped working. Delores: Good Afternoon [redacted]: Good afternoon Delores: I am disappointed to hear that you are having an issue with your passenger side sliding door not working and would be more than happy to look into this further for yuo [redacted]: Thank you Delores: First I will need to get some information, to start, can I get you to verify your VIN and Address to make sure that we have the right information [redacted]. ADDRESS: [redacted] REEDSVILLE PA [redacted]4 Delores: Thank yo u Delores: Have you had the vehicle diagnosed yet for this issue [redacted]: No i have not. Rhis just started 2 days ago. I thought maybe it was a fluke or something so i tried again today and it still is not working Delores: I see, this must be so frustrating for you Delores: Do you mind holding for a brief moment while I look into this for you? [redacted]: It is a little frustrating yes being that its a newer vehicle and that where i bought it from isnt responding to my calls and i only had it a few months. I dont mind holding. Delores: Roughly how much mileage on your vehicle right now [redacted]: 59,000 Delores: Thank you Delores: Is your vehicle a 2016 DODGE GRAND CARAVAN SXT WAGON [redacted]: Yes it is Delores: Nice vehicle you bave Delores: Do you mind holding for a brief moment while I look into this for you? Jessica Walters: I dont mind holding Delores: Are you sure it has 59,000 Delores: as it is just a 2016 vehicle [redacted]: Yep it does. Im actually sitting in in right now thats what the odometer is reading. Delores: okay thank you Delores: I will be one more moment [redacted]: But honestly I wont lie i think that the odometer may be messed up to as it jumps miles all the time one time i clocked what i knew was a mile and it went up 5 miles when i hit that mile Delores: thank you for holding [redacted] Delores: What I would advise is that we contact your Dodge dealership and schedule and appointment to have this issue diagnosed Delores: I will check the warranty Delores: one more moment [redacted]: Ok thank you Delores: Thank you for holding Delores: I am showing the following warranty left on this vehicle Delores: BASIC WARRANTY 36 Months or 36,000 Miles 0 February 13, 2019 Expired (Odometer) POWERTRAIN WARRANTY 60 Months or 60,000 Miles 0 February 13, 20

05/05/2018	Chat ID i, with Dodge Customer Care, How may I help you today? Dylan: Hello have a 2016 Dodge grandcaravan the drivers power sliding door won't unlock and the passenger side buzzes We took it to a dealer and they claim it is the actuator on both doors and would cost me approx 1400 to fix both doors. I find this outrageous since it is only 2 years old. Dylan: I can certainly understand your concerns . I apologize for the inconvenience you are experiencing with your vehicle Dylan: May I have you confirm your full address and approximate mileage please? address is Orlando Fl the mileage is about 51000 I just bought this van in June it was a rental car prior Dylan: Thank you, I am reviewing this further for you now Dylan: I am afraid this is covered under the basic warranty which has expired due to mileage and I currently do not have any recalls for the concern you are experiencing. Customers notifying us of their concerns allows Dodge to determine if any recalls are required. I will ensure this information is documented on file for you which is reviewed internally Dylan: Please keep any documentation of any repair work incase any future recalls are determined, as you would be able to submit for reimbursement review Ok, The quote we got from the dealer is very high. We will just put up with the issue for now. Given this I am hesitant to purchase another dodge vehicle in the future. Dylan: I will certainly ensure this feedback is documented for you do apologize for the inconvenience this has caused you Thank you isconnected ('Concluded by End-user').

05/07/2018	[redacted]Hi, my name is Areti. How may I help you? [redacted] I have a 2016 Dodge Caravan that I purchased privately about 3months ago and the passenger side rear door lock is stuck in the unlock position. You can not move it electronically or manually. I am wanting to see if Dodge will repair this as it is clearly a defective part. Areti: Thank you for choosing Dodge, [redacted] I'm sorry to hear you're having an issue with the door lock. I'd like to look into this for you. Areti: Can you just confirm the address we have on file for you? [redacted]ankeny ia [redacted]reti: Thank you. What is the approximate mileage on your Grand Caravan? [redacted]46000 Areti: Thank you [redacted] I realize that this is passed the "mileage" part of the warranty, however this is a problem with a part completely unrelated to miles on the vehicle and I am hoping that Dodge stands by their product and the 3 year portion of the warrenty [redacted]: If this was a part that was related to miles on the vehicle I would not be contacting you Areti: The factory warranty expired at 36000 miles for the locks but that said your vehicle is still so young. We can look into possibly extending the coverage because of this. In order to do this the vehicle would need to be diagnosed by an authorized dealership's service department. Feel free to contact back after the diagnosis we can escalate this to a case manager to look into covering these costs for you, [redacted] I took it to my dealer and they said they would charge me 100 to even look at it. Areti: They would need to charge for their time just in case the issue is not due to a defect. Once a defect is confirmed we can look into waving the cost of repairs and the diagnosis. [redacted] I fail to see how this cannot be waived giving the age of the vehicle and the lack of guarantee that Dodge will stand by the product. Additionally this could be a safety issue if the lock fails in the locked position and someone is unable to exit the vehicle and it seems reasonable that Dodge would want to get to the bottom of this. [redacted] I should also let you know that since the dealer informed me of this and it could be a potential safety issue I have filed a report with the NHTSA. Areti: I'm sorry for the frustration, [redacted] this is a standard process for all warranty work including vehicle which are still under warranty. [redacted] Well, I will not be recommending Dodge to anyone as it appears that you do not stand by your vehicles. Additionally, I will work with the safety administration to ensure that Dodge is held accountable. Areti: I'm sorry to hear that [redacted] even though you are outside of your warranty we are still willing to work with you for possible coverage. If you are interested I would recommend a diagnosis so we can look into helping you out. Without a diagnosis we don't know what the vehicle needs to be repaired, once we know this we can look into possibly waving these costs to help you out. [redacted] I am fine with that and that would change my opinion, however I am not paying $100 for the possibility, if that was waived I would have had nothing but high praise. Areti: I'm sorry [redacted] we have no way to look into cost coverage without a diagnosis. This is a standard process even with brand new vehicles. [redacted]: and that is why your "warranty" doesn't mean anything. If you have to pay, it is not a warranty. One thing I learned from this is that Dodge doesn't stand by their vehicles, even if they just rolled of the lot brand new. Areti: We do stand behind our products, Kyle, but the dealership would not be able to work on your vehicle for free if there is no defect, I'm sorry. [redacted] disconnected ('Concluded by End-user').

05/15/2018	Customer states took vehicle to dealer for repairs because the passenger side sliding door will not open. States he received a call from the dealer asking his approval to diagnose the vehicle because there is a possibility that there may be some damage to the vehicle which the dealer will not cover. Customer is irate and insists that Chrysler should pay for any damage to vehicle during the diagnostic process. Vehicle is out of basic warranty however customer has a service contract with Zurich. Spoke with Mark at the dealer who confirmed customer's statements and stated that it is standard procedure for them to advise customers of the possibility of damage during the diagnostic process for which the dealer is not responsible. States that when the vehicle is diagnosed they will contact the service plan to verify coverage of both the repairs on the door and any possible damage to the vehicle during the process. Customer is unwilling to accept this and insists that Chrysler pay for any damage incurred outside of the door repairs. Mark at dealership states that service manager will be calling the customer to further reinforce their policy. Any payment decisions will have to wait until the vehicle is diagnosed.
05/15/2018	Customer requested and was given case number and the first initial of the agent's last name.

05/17/2018	Customer is having trouble with repairs at a dealership. Customer stated that he took his vehicle to the dealership, Bill Estes Chevrolet & Buick, to have the vehicle fixed. Customer stated that they 'fixed' the issue, but then he heard a loud clicking noise and then the doors started to malfunction even worse than before he took it in. Customer stated that the door that was working fine is now broken and the door he originally took it in for is doing the same thing. Customer states that they told him it was the Automatic Door Lock Actuator. Customer is afraid that it was the dealer's fault that these issues arose, and they are quoting him $1400 to fix it. Agent advised that she only has one Bill Estes dealership and it is in Brownsburg, not Indianapolis. Agent then advised that he should take it to an FCA certified dealership to have them verify what is going on with this vehicle. Customer stated that he will do so.

05/22/2018	Customer called stating that his sliding door on vehicle wouldn't open. Customer took vehicle to dealership for repair. Customer called before to get assistant from Chrysler but customer did have another a secondary sc and had to get assistance from them. Customer called in today from dealership stating that he still have to pay for the labor fee and order to pick up his vehicle, Customer states that he feels as the vehicle was unsafe and he was unable to get his grandchildren out or in the vehicle, and he shouldn't have to pay for the repair. Writer talked to the dealer SM John and he stated that it wasn't anyway to get the door open they had to tear the door apart to repair the vehicle and that the customer secondary SC did pay only for the part and he now owe for the one day labor of the repair. Writer explain to customer that I could escalate for review of the case manager but it will take up to one business day customer ok Writer considering goodwill for customer also dealer SM John stated that it will have to be appoved by chyrsler. 05/24/2018	*****Inbound Customer Call***** [redacted] calling stating that since purchase, the doors have randomly shut when they're not supposed to. The door on the driver's side was so misaligned it was rubbing the paint off. Customer states the door would slam on her when she tried to get in/out. Yesterday 05/23, the door slammed on her daughter and she hit her head on the door. Customer states they have looked at trading it in, but didn't want to lose $10,000 dollars on a trade in. Customer states she's parked the vehicle, and the doors will open on their own in parking lots.

06/01/2018	*****OUTBOUND CUSTOMER CONTACT*****[redacted]Customer says that both of them were faulty and neither of them would work. Her daughter had a cast and had to get out through a window. The interior moldings were not covered under their extended warranty purchased at FCA DLR. CM discussed that they should call the provider. Customer said it was clearly marked on it that it was not covered. Customer states she had no choice but to pay out-of-pocket immediately, because they needed a working vehicle they could travel with their

Customer wants to know how Chrysler stands behind their product. CM said we could have considered possible cost assistance while she was at the Dealer, but now we are looking at possible reimbursement for the interior moldings. Customer said that the 3rd party Extended Warranty did cover the latches. She paid over $360 for the interior moldings. CM confirmed phone and email, could not complete the intro call because customer had to leave for soccer practice, she said we can arrange a mutually convenient time for another call.
06/04/2018	*****OUTBOUND DEALERSHIP CONTACT***** EWALD CHRYSLER JEEP DODGE RAM OF OCONOMOWOC | 67486 | 262-567-3400 | SA Jim Stabo confirmed customer's repairs were done there. Came in 2 weeks ago at 42,711 miles for the door latch repair. 3rd party Extended Warranty covered the latch. In the meantime the other door wouldn't open. Had to take the windows out to put the latches in. Had to take the interior moldings off - they are glued on - have to replace them when you do this repair. $150 and $170 for the 4 moldings that were replaced - 2 on each side. There were no issues with this customer.

06/06/2018	Briefly summarize why the customer is contacting Chrysler: Customer calling feeling very frustrated, regarding her passenger sliding door 8 times taken to DLR and issue still not resolved and now a new concern regarding her front passenger sliding door not able to open. Customer states she has repeatedly brought vehicle to DLR for a repeat issue. The passenger sliding door is not always staying open, when one of her children will start to get in the door will automatically close before they are in, last week her Mom hurt her foot getting into vehicle because of this. All the DLR does is clean the track. This issue is still not resolved and now the front passenger door will not open and DLR is unable to get door open. Customer was told to contact Chrysler. Briefly summarize what the customer is expecting:
06/06/2018	Customer has a repeat concern, meets DLR goodwill and is the original owner.

06/10/2018	I purchased this van and I had to fix the sliding door on the passenger firs t. Then again the drivers side door, and these are doors. I'm barely making any money, and needed a van to transport my children. Now, within a week, it will not open again. This is crazy, I can't afford this. They say it's goin g to 900.00 to fix it. What is wrong with these doors? Did I purchase a lemo n ***END OF CUSTOMER EMAIL***
06/10/2018	Dear hank you for contacting the FCA Customer Assistance Center. I am terribly sorry to hear that your door had gotten stuck I do see here where they said they would need to fix the latch if this door jams again and the estimated cost was 905.96$. What I would recommend you doing is have this repaired and keep the receipts that way if this does become a recall we can reimburse you for it. This is not an issue that we come across very often so I am not quite sure what the dealerships will need to do to fix this issue as I am not trained to work on the vehicles. Due to the millage on this vehicle I would not be able to assist with this vehicle because the warranty expired 30,000 miles ago. I am truly sorry, I know this isnt what you were looking at hearing and I do hate being the one that has to tell you of this but this is where we sit with this concern. Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753. Sincerely, Ethan Hooper ***END OF CAC RESPONSE***

06/21/2018	SA called in stating that the customer would like this repaired, and he wanted to know that since the vehicle is just outside of warranty if there was anything that could be done. Writer explained that it falls within the D 17-18 warranty, that the SM can offer to the customer, and that should help with this repair. SA is going to get this authorized.

06/25/2018	*****OUTBOUND CUSTOMER CONTACT***** [redacted] | Customer paid for the oil change - didn't pay for the actuator yet. She felt it was a safety issue. She was told it is not under warranty any more so she would have to pay for it. The quote was $319.00 on paperwork she has. Customer was frustrated because first Dealer said they would cover it, then would not cover it. CM confirmed COIN and mileage. Just for her personal use. Always goes to Martin's Garage for her oil changes. Traded in their Chrysler van - 256,000 miles on it - and had no major issues with it, and traded it in for this one. Customer would prefer not to have to pay. CM did explain that if the Dealer does this, they may require a $100 deductible, so would prefer to reimburse her directly, since there was a misunderstanding when we called the Dealer over whether or not the customer had already paid for the actuator repair. CM did advise that we would need to back the Dealer if they require a deductible.
06/25/2018	*****OUTBOUND DEALERSHIP CONTACT***** MARTINS GARAGE INC |63168 | 262-878-1226 Spoke to Jason who will get message to SM Mike that CM requires a callback.
06/26/2018	Dealership:63168 contacted Chrysler to obtain contact with CM: JP1738. Agent warm transfers the SM to the case manager for further assistance.
06/26/2018	Dealership thanks agent.
06/26/2018	*****INBOUND DEALERSHIP CONTACT***** SM Mike says if customer wants to get 100% of the actuator repair covered, they have to go through us. He is only willing to do it with the $100 deductible to the customer. SM Mike doesn't really want to do the Dealer cost assistance because he says he was criticized for giving too much away, would prefer we reimburse the customer. SM Mike says customer didn't want to pay, didn't want to get it done. CM will see if she can do it the way customer wants it done.
06/26/2018	*****Re-emailed AM, cc'd CRM, TL ML1082***** I got an opinion from the Service Manager Mike that the water leaking issue is real and unresolved, it may not have to do with the seals but the frame. Customer already had a frame test. When customer goes back, the Dealer should open another Engineering case since they have already tried all of the recommended repairs and there really are no further repairs that can fix it regarding the seals. Customer's #1 objective is still to get into another vehicle at a lower car payment. I am re-escalating to you in order to see if you can do something for the customer as regards his car payment. According to Case Management's policies, we can help with other types of sales disputes, e.g. customer paid for something and didn't receive it, but we have no role in negotiating putting a customer into a new vehicle or payments/financing.

06/26/2018	*****OUTBOUND CUSTOMER CONTACT***** [redacted] | Customer again said she dealt with SA Marcus, who did not mention any cost assistance being available and referred her to Customer Care. CM told customer that she has now discussed the issue with the Service Manager Mike and he is preferring that we keep the first arrangement to have customer pay for the repair and then submit paperwork to Case Management's case, for reimbursement. Customer was confused because she did not get the repair completed and she thought the Dealer should have paid for it. CM explained to customer that she is 20,000 miles out of BASIC warranty so that the SA referred her to Customer Care - the phone number for Customer Care is right inside her Owner's Manual. - CM told customer she is more than willing to honor the first arrangement for reimbursement, not having known repair was not yet completed - Customer will make her own appointment and inform CM of the date/time to CM can follow-up with the customer.
06/26/2018	*****INBOUND CUSTOMER CONTACT***** Customer set appointment for July 11th at 9:00 am. Customer spoke to SM Mike who said he should have the parts and if there are any problems, he will let the customer know. The repair should be done around noon, but it could be a little bit longer. SM Mike asked her if she needed a rental car, but she didn't want to deal with that. CM will follow-up with the customer on Thurs., July 12th.

06/27/2018	Customer stated that last Wednesday she took her vehicle to dealer because her sliding door was stuck shut. Dealer told her that they would run diagnosis for $90 and customer agreed. They kept vehicle for a few hours and when she came back to pick up vehicle she stated that the SA was being passive aggressive. SA wrote on report that the door is locked and stated that if they break the door panel, they would not be responsible. They also did not put in report that the other sliding door was making the same noise as the current one was making before it got stuck. SA told her that they are not going to fix the other door because there is nothing wrong with it. That incident was Wednesday and Saturday both doors are now stuck. Dealer refunded $90 and told her that they are not going to be able to please her. Customer has a service contract but they told her that because it is an after market contract the repair would cost $1,200. She took her vehicle to a IRF that is charging her $100 to fix. Agent apologized to customer and informed her that complaint will be documented.

07/06/2018	customer called upset after going to DLR 68161 for sliding door repair with the understanding she was getting goodwill for the complete cost of repair. customer was shown an invoice with goodwill stated on it with a balance due of $0, then when she called to check if would be finished on time customer was told by SA Justin he feels she will have to own part of it and he'd have to research it. agent calling DLR to speak to SA Justin or SM on this issue and get an answer
07/06/2018	agent was able to speak to SA Justin who states customer came in after being told by TL683 to bring it in to DLR and they will be able to give goodwill for everything and if not to contact FCA and we will cover the difference. Customer came in before having a diagnosis and SA Justin told her a diagnosis needs to be done first and that fee was waved (the invoice with $0 balance due) but that he can't authorize goodwill and will need to get with SM to get goodwill considered. Vehicle needs same part replaced on both doors and dealer is willing to give goodwill for repair with a $100 copay by the customer.
07/06/2018	agent called customer and she will be picking up vehicle and paying the $100 deductible today and will come back when parts are in to get the passenger side door repaired all under the same deductible.
07/06/2018	customer wanted to try for GW thru Dodge and agent send up request with understanding it may not be accepted for reimbursement. per cair[redacted]

07/09/2018	Per cair[redacted] was closed due to a duplicate to this CAIR. Customer is declined for reimbursement due to dealer has offered goodwill and there cannot be a combined goodwill offer from dealer and CAC. Customer accepted dealers offer and has to pay the deductible.
07/10/2018	Spoke with customer and she stated she accepted GW offer and was never told there would be a copay until customer was told to pick up the vehicle. Customer stated the dealer stated either pay the copay or they wouldn't give vehicle back. I advised lines 83-85 and advised that I will call the dealer and speak with the SM to see what they're able to do regarding refunding her. I advised customer that I am not 100% sure but I will try.
07/10/2018	Agent attempted to contact dealer Service Manager Christopher, however, SM not available. Left message for a return call at extension 81131.
07/10/2018	Called customer and advised that I have called SM and was unsuccessful. I advised I will contact her back with update once provided.
07/12/2018	Spoke with SM and he stated the customer was advised several times of what was needed for the vehicle and customer was aware that she was out of warranty. SM stated he offered customer goodwill with a $250 deductible for both vehicle door replacements and customer agreed. Customer is wanting Chrysler to reimburse her for deductible. I spoke back with customer and advised her of what was asked from dealer and advised her of what was stated and she is stating she was never told that there would be a deductible or copay. Customer then changed her story and stated she was told she would have to pay $250 but that was after repairs were made. Customer stated she did agree to dealer goodwill. I advised that by agreeing to dealers goodwill she is responsible for the deductible and Chrysler can not reimburse for the goodwill that was offered through dealer. Customer was advised to speak with dealer GM. CLOSED LOOP UPDATE - customer contacted today to confirm repairs. All of the customer's concerns as documented in the reason codes have been addressed with the customer.
07/12/2018	Cust clld back and wanted to make a complaint about her situation with the DLR and CAC. She is not happy with the way it was handled and still feels like she should not have to pay the deductible.

07/05/2018	**********INBOUND SPANSIH********** Customer called in stating they previously had a dodge and had multiple issues. Customer states they are now having issues with this vehicle as well and are very disappointed. Customer states arm rest needs to be replaced and the sliding door does not unlock. Agent advised customer must take the vehicle to the dealer and have it diagnosed. Customer states they are being inconvenienced and should not have to waste their time at the dealer for something that is not their fault. Agent apologized and advised a diagnosis is needed for a case to be opened and for FCA CAC determine whether goodwill may be provided or not. Customer understood.

07/08/2018	***** EMAIL BRIEF DESCRIPTION CONTENT ***** Van issues ***** END EMAIL BRIEF DESCRIPTION CONTENT *****
07/11/2018	I have had my van for a little over 2 months and am on my second repair. The first repair was an issue I encountered with the sliding door not opening. My local dealer repaired this at a reasonable price. On 7/6/2018 I began ha ving a mis fire on cylinder 6. I had the van towed to my home where I chang ed the spark plug and coil pack. I am still having issues with it running. At this point the van is not drivable. I want to see what is covered under warranty. It has been extremely disappointing to have multiple issues with s uch a new vehicle. I want to figure out what will be covered before I tow i t to the dealer and pay a diagnostic to find out it is not covered.This is m y first chrysler purchase. I like the van, but the issues have been extremel y disappointing. The issues have left me doubting how good of a vehicle thi s is and if I made a mistake purchasing it.Thank you [redacted] ******END OF CUSTOMERS EMAIL******

07/16/2018	customer calling as dealership is unable to diagnosis concern due to no codes or check engine light coming on. advised for a case to started vehicle would need to be at the dealership for an appointment scheduled. customer will make appointment and contact us back with the information.
07/17/2018	Customer called regarding transmission issue. Customer stated vehicle has been to 4 different dealers and 2 transmission repair shops. Per customer all tech have taken a drive along and stated yes there is transmission issue. Customer puts vehicle in drive vehicle does not go into gear, vehicle has to be put back into park and the into drive. Vehicle starts to shudder when coming to a stop also when driving on highway vehicle will down shift almost throwing customer through windshield. Per customer dealer said vehicle cannot be repaired until vehicle has a code.
07/17/2018	Customer will take vehicle to Buckeye super store a larger dealership to see if vehicle has a code. Agent advised customer if dealer does find a code to ask for a data recorder, or higher level tech per AC 18735- unable to diagnosis.
07/17/2018	Customer called requested to speak to PG1206 to tell her the code for vehicle. Agent transferred customer to ext. 81149
07/18/2018	Customer states that the Buckeye Superstore does not have a transmission tech so they cannot work on the vehicle, customer said that the next closet DLR is an hour away from them so they will have to take time from work.

07/18/2018	Agent advised the customer to get an appointment scheduled, and to callback so that the next representative could escalate their case to a case manager for further assistance. Customer said that they have taken their vehicle to multiple DLR's and they said are able to duplicate the issues but their are no codes coming up and that they need to come back when a check engine light comes on. The most recent DLR they went to said that they did not have a transmission tech. Customer now has to try to another DLR.
07/18/2018	DLR refused to see the vehicle because customer wont pay out of pocket. Customer is covered under warranty so does not want to pay out of pocket. Advisor contacted Bill Harris - spoke with SA Tom . inquired if there was a possible way to start a Star Case. SA states that he is unable to due to there being no DTC code, need a DTC code to start a case.
07/18/2018	escalating case as an ongoing issue.

07/26/2018	*****OUTBOUND CUSTOMERÂ CONTACT***** [redacted] | - CM did intro call. - Customer states they test drove with the transmission tech and they recognized the issue, but there is no code or lights on. Customer states when you go to stop the vehicle, no matter the speed, the vehicle will shutter really bad. Customer states when the vehicle is accelerating or decelerating between 35 and 45 MPH it will hard shift if going from 3 to 4 or 4 to 5; the RPMs will jump from 2000 to 3500 and then finally shift. Customer states when decelerating you can feel the hard shifting from 4 to 3, and you shouldn't feel that; this issue went away after an update. Customer states that sometimes at 40 MPH it will jump out of gear and go down to 1 and then shift back up. Customer states that when going in reverse the vehicle shakes, no matter the speed. Customer states that the DLR advised when going into reverse their isn't enough fluid in the cuppler and that FCA is aware of it but isn't fixing it. - Customer states that the sliding doors and hatch back buttons don't always work. Customer states that when using the remote it works just fine. DLR is aware and has seen the concern. - Customer states that they have brought the vehicle to 5 different DLRs and none of them have been able to figure out what is causing the issue with the transmission, but there is something wrong with the vehicle. Customer has test drove a 2017 and 2018 to compare and experienced none of the issues that he has with his. - Customer would just like their vehicle to work properly. Customer would like their transmission replaced. - CM advised that we would reach out to our tech support and see what could be done, and go from there. -

SM Steve advised if they had something to get a STAR case open with they would have already. SM Steve advised the issue is they don't get it to duplicate. SM Steve suggested having customer try to get it to duplicate or try and narrow down what's happening when it happens so they can figure it out. CM advised we actually have a sheet I can send him that does that, so maybe I will send that to him. SM Steve agreed or advised if customer knows how to get it to happen then to do it so they can see what's going on. Cm understood and advised I will have a talk with the customer and go from there. -

08/02/2018	***OUTBOUND CUSTOMER CONTACT*** [redacted] | Cm contacted customer to discuss case further. Customer advised he just recently purchased this vehicle from DLR 52918 and the very day he went to pick it up, he drove it maybe a mile down the road and he noticed there was something wrong and brought it back to the DLR. Customer advised the DLR pulled it in but advised since there are no codes no light they cant diagnose it. Customer advised the DLR did tell him they have seen hundreds of 2016's that have trans issues and it has something to do with the torque converter, and the cuplinks being to small to hold enough water, but that its not throwing any codes so they cant do anything. Customer advised in the last 6 weeks he has been to 5 different DLR's and 2 different trans places. Customer advised they all the FCA DLRs experience the concerns and notice its not running properly but say there is nothing they can do because there are no codes. Customer advised his 4 main concerns are: 1- when coming to a stop the car shakes. consistently. 2- between 35-45 mph whichever gear that is it will go into 1st and 2nd gear but when it gets to 3rd and 4th it will slip. 3- On 3 different occasions when customer is driving 35-45 mph just cruising, the vehicle slips into 1st and 2nd, and then will go right back. Customer advised it feels like you got rear ended. (tech felt this) 4- When backing up the entire vehicle shakes. . For this concern the DLR advised customer there is a bulletin on this and its due to those cup links that are to small. Customer advised 2 weeks ago he was in Columbus and he started the car and put it in drive and it wouldn't go anywhere, it wouldn't even reverse. So he took it to a DLR down there and they couldn't duplicate the concern. Customer advised now at this point he has begun having issues with the doors that the DLR has seen and confirmed, customer advised he has shown them videos. Customer advised the remote for the doors and latch works but to push the button on the inside it will not do anything. Customer advised so while at the DLR he had his 2 little girls with them and the one pushed the button to close the rear door and it started closing but stopped halfway. Customer advised the tech seen that happen also. Customer advised another time he was at home unloading groceries and he used the remote to open the tailgate but then the doors opened. Customer advised there is something going on with the car. Customer went back to trans concern and advised his suggestion was to try a new trans and see if that resolves concern. Customer looking for direction on going forward. Cm advised as DLR told him they wont replace the trans without something to go on. Cm advised I feel our best next step is to get the AM involved to see if there is anything he can do, Cm advised AM would have more authority and resources to get something done on this. Customer agreed. Customer asked if its possible to ask our tech team if it would have to do with the torque converter and the cup links. Cm advised absolutely I can do that, there is no harm in inquiring. Cm advised I will email them as well as the Am and once I get an update I will be sure to let him know. Customer appreciated. Customer advised one last question. Customer advised at his 60,000 mile interval he is to get a trans maintenance thing done, and he just wants to know if he should still do that because he doesn't want to get stuck paying money for that and then we

08/07/2018	- **********INBOUND EMAIL********** Cm has email from SWAT advising The concerns with the transmission slipping or having a slight harsh shift it could be deemed as a normal characteristic of the transmission, as per my explanation with the items in DLR Connect. The one thing that I can recommend is having the DLR look into a Transmission Service (Fluid and Filter). This will show if the fluid is burnt and if their are any metal shavings (large shavings, as fine shavings are considered normal) in the bottom of the transmission pan. This may or may not work but this would be a starting point for the transmission shifting concern. As for the shaking in reverse and while at a stop, this could be a few things. I would have them check the mounts, all of them, body, transmission, engine, suspension, etc. I would also suggest that they inspect the Vibration Damper on the vehicle as well, if this is out of balance it could cause a vibration while driving or while idling. ********** _

08/15/2018	***INBOUND CUSTOMER CONTACT*** [redacted] | Customer contacted in looking to discuss case. Customer advised he did get a call that day stating he needed to go there right now. customer advised that's not acceptable as he was out of town taking care of his elderly mother so he couldn't make it, but he told them when he would be back. Customer advised he even went to the DLR after he got back and said he could meet with the DM whenever. Customer advised the advisor he spoke with was very rude and told him that's not how it worked and that the DM wont be able to do anything about it. Customer advised he couldn't believe it. Customer advised he feels like they are treating him like this because they know they sold him a vehicle with concerns. Customer advised he doesn't want to get an attorney he just wants the vehicle fixed but they aren't doing anything to help him. Customer asked if CM could arrange something now that he is back in town. Customer advised the issues are just ongoing, but if they could get the trans issues fixed so he feels safe putting his girls in the vehicle. Cm advised I can reach out and see if he would be willing. Customer appreciated. -

08/17/2018	- **********INBOUND EMAIL********** CM has email from AM Dennis advising the customer has been to 4 different FCA DLRs. None of the certified trained technicians diagnosing this vehicle has found a transmission code stored or any problem for that matter. The vehicle is on its 3rd or 4th owner with a piece of trim being the only warranty repair. Based off Spitzer 52918 QNA service history the vehicle has been driven 18 miles in the past two months. Based off the customer concern and mileage being driven, it sounds like a fuel problem which will not set a code. Spitzer sold him the vehicle, they bought it from their Ford stores used car department. AM Dennis advised he will have Spitzer contact the owner and schedule an appointment for me to ride with him next week, if we do not duplicate a concern this CAIR will be closed. ********** -

09/04/2018	***OUTBOUND CUSTOMER CONTACT*** [redacted] | Cm contacted customer to touch base. Customer advised he went to the DLR on Friday and spoke with SM Greg, who customer advised just looked at customer and shook his head. Customer advised SM Greg was apologizing and advised he has emailed and called dennis multiple times but hes not getting back to him, SM greg also advised customer i have also tried and have been emailing SM Greg as well. Customer advised SM kept apologizing. Customer advised he brought it right to the DLR because of the door concern so SM greg seen it and actually experienced it on Friday. Customer advised at this point SM Greg advised customer he knows he has a lemon and feels bad that we cant just get dennis out to take a drive. Cm understood and advised SM greg is correct we have tried to reach dennis so at this point i will reach out to someone higher than dennis, as this has been going on for so long already. Customer appreciated. Customer stated he feels Dennis is just waiting till he is out of warranty or something. Cm apologized and advised i will do my best to get this addressed asap. Customer appreciated what CM and SM is doing for him. CM thanked customer for being nice and patient in this situation. Customer understood and advised he understands that sometimes things happen he just wants this looked into further. CM understood. Cm advised i will be back in touch hopefully soon with an update. 09/17/2018	***OUTBOUND CUSTOMER CONTACT** [redacted] CM contacted customer to discuss. Customer advised he wanted to give me an update of what happened recently. Customer advised Wednesday last week he got a phone call 1st thing in the morning from SA Rob advising customer dennis is here right now to come in. Customer advised we discussed this last time he needs a little bit of notice, customer runs his own business and travels for work. Customer advised SA Rob advised Dennis would be there on Friday and asked if customer can make it. Customer advised he is in Pittsburg but he will leave early and hopefully get there Friday. Customer advised he left early and drove 5 hours back, didn't stop at home just went right to the DLR and got there around 3pm. Customer advised he went in and spoke to a lady at the desk and she told him dennis hasn't been there all day. Customer advised the lady called back to SA rob and he could hear SA Rob yelling at the lady stating its not his problem he told customer to pick a time and he didn't. Lady told SA rob to come out and speak with Customer himself, so he did and he became argumentative with customer. Customer asked SA Rob to call dennis to arrange a time while customer is there and they advised that's not how it works. Customer advised he told rob he is available mon, tues, wed of this week and he has yet to hear anything. Customer wanted CM to know what he is dealing with. Cm apologized for situation and advised that is very frustrating to me also. Customer advised the DLR has seen videos of it not working properly and actually experience the issues but say there isn't anything they can do because he feels they know they sold him a lemon, and refuse to take responsibility for it. Customer advised again he does not want to have to get a lawyer involved he just wants someone with authority to look at the vehicle and concerns. Customer advised just because there is no code doesn't meant they cant do anything when they know its still not operating properly. Customer advised he is just about done and wants to know what we can do. Cm advised I will reach out to my higher-ups and hopefully they can actually get something moving. Cm advised I can also provide him with arbitration information, Customer accepted. CM advised I will send him that and send another email to AM Dennis boss and let him know if I hear anything. Cm apologized again and thanked customer for being so calm even after all of this run around. Customer knows I am trying to get him further assistance, but is about done. Cm understood. -

07/23/2018	REFERENCE NUMBER[redacted]EMAIL CASE NUMBER: [redacted] I had always wanted a Pacifica but then you stopped making them. I have[redacted] In 2016, I purchased a 2015 Town and Country with 40000 miles. I was over the moon. Honestly, I never thought in a million ye ars I could get one - too costly and bad credit . However, the dealership i n Harrisburg Pa worked magic and I found myself to be an owner. It was a dr eam come true. I paid special attention like never before to the maintenance and appearance of the van. I have owned the car van for 2 years. It is onl y 3 years old. So, I do not understand the recent things that have gone wron g. 1) The black drive shift cover fall off. 2) The power unlock on driver' s side stopped working. 3) When I open drive side door, there is a loud nois e that comes from the other doors. I do not know the cost of those repairs but I know I can't afford much. I get offers in mail to trade it in but I have negative equity because of the miles. In my house, I am the only drive r and the van is our only car. So, yes it gets alot more than average miles . I was hoping that I could get some help in either the repairs or a trade since this is only 3 years old and I know it is nearly impossible for me to get a new vehicle but I am not giving up. My new dream is my original dream - to own a Pacifica. Thank you for taking the time to contemplate my situat ion. *****END OF CUSTOMER EMAIL*****

08/01/2018	Hello Ian, I know I was slow getting back to you and I am sure you are very busy. However, I am still looking for some mutual agreement about the problems with my Town and Country that is only 3 years old. Thank you, [redacted] END OF CUSTOMER EMAIL*****
08/01/2018	Dear [redacted], Thank you for your reply. I do apologize if there was any confusion in any previous messages but you have been declined assistance for this matter based on the circumstances. Your only option is to take the vehicle to the dealership to get diagnosed and pay out of pocket for the diagnosed concerns. If there is any new information to provide about the vehicle's concerns, do not hesitate to contact. Sincerely, Ian *****END OF CAC EMAIL*****
08/01/2018	There is no way these issues should have happened with a 3 year old vehicle. Therefore, please send me contact information for whoever is above you.(corporate office) *****END OF CUSTOMER EMAIL*****
08/01/2018	Dear [redacted], I regret to inform you that anyone above me will tell you the exact same answer. Due to time and mileage of the vehicle the basic warranty is expired by over 45,000 miles. You will need a dealer diagnosis to determine the cause of these concerns and will have to pay out of pocket as per terms of the warranty agreement. If you want to pursue trade in opportunities as previously discussed, you will have to pursue this matter through a local dealership. We cannot provide cost assistance. Sincerely, Ian *****END OF CAC EMAIL*****
08/08/2018	In other words, you will not provide me with other contact info.I will have to do some research. I always believed Chrysler was a more reliable company. 10 years ago I had a different issue with Ford. Since then i have bought or was a big part of decision making for at least 8 automobiles. Guess what not one was a Ford and never will be. I guess Chrysler just earned a spot on that list. Sent from Yahoo Mail on Android *****END OF CUSTOMER EMAIL*****

07/17/2018	Briefly summarize why the customer is contacting Chrysler: Customer stating that the vehicle door has not been working since she bought the vehicle and it had over 36000 miles on it and that it was making a noise that sounds like a bird she stated and now the passenger door is having the same issue and when she took the vehicle in the DLR stated that it was a security issue. customer took the vehicle back to the DLR after the passenger side started to do the same issues and when she took the vehicle back she was out of warranty. customer informed that rocky Randall from the DLR told he that they will pay out of pocket $370 for the part and Sam from the DLR called her and said that it is a different part and now it is going to cost $800 for both motors to be repair since it is a different part now. * Briefly summarize what the customer is expecting: Customer is seeking to get the vehicle fixed * Agent advised customer that at this time we are unable to assist with the repair because she is out of warranty. * Survey by pass duplicated cair of [redacted]

07/20/2018	Customer states that she has brought her leased vehicle back to the dealership where she leased it with numerous issues that are never addressed or corrected or foxed. Customer has called many times asking for someone to call back and no one calls back. She has a list of issues with her leased vehicle. power doors don't work on and off Tail gate sometimes won't open and when it does it occasionally closes and once on her head.
07/20/2018	Wind shield wipers go on and off even when it's sunny... Rattling sound in DVD player Went in for oil changes and asked for tire rotation and never rotated the tires goes the low pressure in the front was in the same spot. Power doors make such a loud noise sounds like they are going to fall off. Automatic start won't work occasionally. All the above have been asked to be fixed and never have corrected any of the issues. Customer is calling the lease people to see if she can get out of it. She spends more time at the dealership for a new vehicle than she does in the car. Customer has 1 more year left on lease.
07/20/2018	Customer said she would return to the same dealership if she can get anything resolved with the lease department because all the other dealerships are too far away.

07/20/2018	*****INBOUND CUSTOMER PHONE CONTACT***** [redacted]stomer contacted seeking support for disabled passenger sliding door. Customer stated sliding door had made a buzzing sound for the past few days while refusing to open. Customer stated door was now unresponsive. Customer wanted to know if issue was recall related or if she could receive support for issue. Customer also wanted to know if warranty would
07/20/2018	cover issue. Agent apologized for situation and advised, as per VIP, that warranty had expired due to mileage. Agent advised that there were no recalls on vehicle and that technical support could not be provided by phone. Agent advised that DLR would need to give diagnosis to determine cause of issue and how it might be repaired. Agent offered to contact DLR to help customer scheduled support. Customer declined, stating she would do so herself and thanked agent.
07/20/2018	- Survey bypass requested: Diagnosis needed.
07/25/2018	customer is calling for the same issue I had advice the customer to go on the DLR for the diagnosis

07/25/2018	***** EMAIL BRIEF DESCRIPTION CONTENT ***** Sliding Door Won't Open ***** END EMAIL BRIEF DESCRIPTION CONTENT *****
08/01/2018	About a week ago, the driver's side sliding door stopped working. It won't o pen manually or automatically with the key or buttons inside the vehicle. Wh en I try pushing a button, I get a message saying "Unlock the door first". I took it to a mechanic today and they said they wouldn't know what was wrong until they opened the door panel, which itself would be $200. That's not in cluding the cost to fix it . We were then told by them that in their honest opinion, we should just contact Chrysler directly because we shouldn't have to pay for something faulty when our vehicle is a 2016 and only has 68k mile s on it. They said there was no reason for a door to break down that quickly , especially when we don't even use them a whole lot. So, taking their advic e, I am contacting you to see what you can do about our door. I look forward to hearing from you. Thank you. *****END OF CUSTOMER EMAIL*****
08/01/2018	Dear Thank you for contacting the FCA Customer Assistance Center. It's unfortunate that you are having a problem with your sliding door. I understand how difficult and frustrating it can be when a vehicle does not live up to the expectations that we have for it. I also certainly recognize the inconvenience of the situation and would like to thank you for taking the time to reach out to us here at Chrysler and allowing us the opportunity to help. I have reviewed over your vehicles history and information to find out what I could about this concern Jennifer to see if there is any form of assistance I could provide from our end. Having looked over my resources numerous times for you, it does appear that due to the mileage on your vehicle, we would not be able to provide any kind of cost assistance because you are about 25,000 miles outside of your basic warranty. Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-247-9753. Sincerely, Rones Customer Service Representative FCA Customer Assistance Center *****END OF CAC EMAIL*****
08/03/2018	Thank you for your response. I understand the mileage situation, however, I still fail to understand how an issue like this arises from a 2016 vehicle. If I were a well-known corporation such as Chrysler, I would want to take pride in the quality of the vehicles that I produce. Or at least take ownership if a malfunction were to happen (such as my situation). Is this the kind of advertisement you want associated with your company: a vehicle that's good for a year or two before things start to go downhill? If I had caused the damage myself or were in an accident, I would not be writing this complaint at all, but I have done nothing to cause this, yet here I am with a door that does not open. I do not think I am asking for too much when I say I would like to have this taken care of at a Chrysler dealership without spending a fortune. Thank you again for your time and I look forward to your response once more. - *****END OF CUSTOMER EMAIL*****
08/03/2018	Dear I appreciate your response and understand your frustration. I do agree that it is odd for you to having this problem , and agree that you should not be experiencing it. However, because of the situation and the mileage on the vehicle, there is nothing I can do from my end to assist you with cost coverage. Sincerely, Rones Customer Service Representative FCA Customer Assistance Center *****END OF CAC EMAIL*****

07/29/2018	Hi, my name is Brandi with Dodge Customer Care, How may I help you today? Brandi: how are you [redacted] I have a 2016 grand caravan and early this week the driver side sliding door is stuck shut and now today the other door is stuck. Brandi: I am sorry to hear your sliding doors are stuck! have you been to a certified dealer? [redacted] I understand that the electronic opener could stop but it's seems like a major safety issue that you can't unlock the door manually and open it [redacted] called them but they can't get me in for 2 weeks so now my kids are forced to climb out through the front and they won't give me a loaner Brandi: I am sorry to hear that. May i have the last 8 of your VIN? [redacted] Brandi: may i verify your address? also may i have a rough estimate of the mileage? [redacted] I'm just very concerned that this will continue to happen
07/29/2018	and this is a MAJOR SAFETY ISSUE [redacted] henderson nv [redacted] 24,000 Brandi: thank you, What dealer did you call? [redacted] Towbin and desert 215 Brandi: That is the name of the dealer? [redacted] Towbin dodge is where I bought it from. Brandi: and their address is 275 AUTO MALL DRIVE? [redacted] DESERT 215 SUPERSTORE Is the other dealership near me but can't get me in for 2 weeks [redacted] Yes Brandi: okay so Towbin Dodge is where you bought the vehicle, and the dealer you called is DESERT 215 SUPERSTORE and they can not get you in for two weeks correct? [redacted] How is there no recall on this when I look online and a lot of people have this issue [redacted] Correct and towbin won't offer a loaner vehicle which is dumb considering how new this car is and it isn't the only problem we have had with this van [redacted] We wish we never bought it. Brandi: Thank you, I truly am sorry you are having these issues [redacted] Also i have [redacted] on file as an address for you, Is this an old address or is it still good? [redacted] Old address Brandi: okay, i will update it for you. Just a few minutes please while i look into this. [redacted] We have had the ac not work, the navigation broke, the driver side window fell off the track and broke, the back hatch doesn't open with the push button all the time and now the sliding doors broke. I feel like we bought a lemon Brandi: I truly do apologize [redacted] t is up to the dealers if they have Loaner vehicles to provide, Also we can not make them bring the vehicle in any sooner. The dealer would have to diagnose your vehicle, I recommend calling another dealer to see if they can get you in any sooner. If you would like i can give you the number of another dealer near you? Today is Sunday, the dealer would be closed today, They will be open tomorrow morning. If you would like, once you have an appointment with the dealership we can look into escalating a case to our case management team for Technical assistance. They can assist the dealer with the repair while the vehicle is being worked on also they can look into a loaner. [redacted] How about taking this piece of crap back? Brandi: I do apologize [redacted] if you are seeking to no longer own this vehicle, you will have to work with your dealer [redacted] I will definitely NEVER buy a Dodge again. Brandi: I truly am sorry to hear that [redacted] Thank you for chatting into Dodge, When you go to the dealer if you seek further assistance please chat back or call us at 1 800 992 1997. Brandi: I do hope you have a good night [redacted] isconnected ('Concluded by Agent').

07/30/2018	Customer called in regarding her sliding door that does not lock. Customer stated the door will not lock & it is a safety issue. Customer also stated she has taken the vehicle to DLR 44990 & was advised it will be 2 weeks before the vehicle can be diagnosed. Agent contacted DLR 44990 who confirmed information & stated they were 2 weeks out, the best they can do is have the vehicle dropped off & looked at within a couple days. Customer was not satisfied. Agent advised Customer she can contact a different DLR to have the vehicle serviced. Agent contacted DLR 45478, they were not able to service Customer until end of August. Customer was not happy again & she doesn't understand why a loaner would not be provided to her. Agent explained to Customer loaners are provided at the DLR's discretion. Customer stated she did not have this issue with Honda. Agent informed Customer she can contact another DLR who is able to schedule her sooner. Agent contacted DLR 27015 who was able to schedule service appt for 08/01 @ 9 AM. Customer was very thankful.

08/02/2018	ennifer, We took our van to Greve today they figured out what was wrong with the van and said it was going to cost approximately $500-$600. I do not feel this is fair I already paid $400 to repair the other door and I had it fixed at a college where students learn to fix these things, therefore I did not have to pay labor charges on this. I really hope you can help cover some of these cost, I work very hard to have my van and make the payments on time every month but do not have the extra money to pay for these things I bought a new van so that I did not have to put a lot of money into it I keep up on the maintenance I have the oil changed as it is supposed to be. Please let me know what you can do to help me out to get my door fixed at as minimal charges as possible. Thank you for your time on this matter. ***END OF CUSTOMER EMAIL***

08/03/2018	*****OUTBOUND DEALERSHIP CONTACT***** GREVE CHRY-JEEP-DODGE OF VAN WERT | 43284 | 419-238-3944 | - CM contacted the DLR and spoke with SA Kevin about potential DLR GW and to get an update on Customer's vehicle. SA advised that the Customer brought the vehicle in last year for the right side sliding door. SA fixed it and it was covered under warranty. Earlier this year (March) with 51000 miles the Customer needed a left side sliding door latch. SA states the Customer then took the vehicle to the college to have it repaired. Customer then brought the vehicle back for a right sliding door issue, and the actuator in the door had gone bad. SA states the estimate is $370.10. -

08/08/2018	*****OUTBOUND CUSTOMER CONTACT***** GREVE CHRY-JEEP-DODGE OF VAN WERT | 43284 | 419-238-3944 | Cm called the dealership to follow up on the diagnosis. SM Mike advised that he would transfer CM over to the SA who is working with the customer on repairs. SA Kevin advised the CM that the customer is not there currently and they have not heard from the customer at this point. The last time they did was when the customer's wife advised that they called FCA for assistance. Last time they seen the vehicle was to diagnose the issues back in July of 2017 when they diagnosed the other door as having issues. Kevin advised that the tech recalibrated and it was working. Customer brought back in in March and looked at drivers side and it was recommended to replace the door latch. The customer took vehicle to IRF (college) to do repairs instead of paying for the repairs at the dealership. Just brought back in on 1st to have the passenger side door looked at again. Dlr looked at it and advised that actuator had gone bad. They recommended replacing the actuator, but they have not heard from the customer. They were advised that they are working with FCA to see who was going to pay for what. SA Kevin advised that the cost of the repairs parts and labor is $370.10.
08/08/2018	*****OUTBOUND CUSTOMER CONTACT***** [redacted] CM emailed the customer to advise that she would be willing to reimburse the customer for the cost of the repairs but they will have to pay the bill and submit for reimbursement.
08/08/2018	Status update provided via email to the following email address: [redacted] This is Lisa from FCA. I wanted to let you know that I spoke with the SM at the dealership. At this time they are not willing to cover this repair as it is outside of the warranty. These repairs would have been covered under basic warranty. The vehicle is over the 36000m basic warranty. But I would still like to offer you some assistance. I can not cover the repairs under warranty because this is a different door than was repaired before but I would be willing to reimburse you the complete cost of $370.10. If you are willing to accept this offer contact the SM and advise, once you have the vehicle repaired and received the bill I will send you out a document request link to submit the receipts for reimbursement. Let me know what you decide so that I can be waiting or the documents. After that it will take 7-10 days to get the check back. End of Status Update
08/08/2018	*****INBOUND CUSTOMER CONTACT***** [redacted] Customer's wife [redacted] emailed the CM to ask further questions.
08/08/2018	Begin Customer Message reviewed: Lisa, this is [redacted] i do have more questions for you. the cost of $370.10 where did that cost come from? is there any way to receive assistance for the amount i am out of pocket for the first door i had repaired where i work? i work for a university where students learn to repair problems like this. i work for the [redacted]. how long do i have to accept this offer i would like to discuss this with my husband? One more question can i purchase the part and have the University fix it again? please let me know as soon as possible. thank you so much!! Kathy End of Reviewed Customer message
08/08/2018	*****OUTBOUND CUSTOMER CONTACT***** [redacted] CM emailed the customer back to advise that the cost is parts and labor for the repair. As the repair is not covered under warranty and the dealership is not willing to assist there would be no way to offer any cost assistance which is why CM offered to reimburse the customer. I realize that you paid out of pocket for the repair for the other side of the vehicle but you took the vehicle to the University for the repairs and I can not reimburse you for going to an Independent garage . If you had paid for the repairs at the dealership I may have been able to review for reimbursement. Now as for taking the vehicle to the University this is your vehicle and as it is out of the warranty you can take it where you wish, but since we did not do the repairs we can not guarantee the work that is repaired and it the issue comes back you will have to pay for the repairs again. The offer is on the table for 30 days. Please let me know what you decide.
08/08/2018	Status update provided via email to the following email address: [redacted], I apologize for the inconvenience that this has caused your family. The total of $370.10 can be broken down to parts and labor for the repairs. At this time the vehicle is outside of the basic warranty that would have covered this repair which is why the dealership wanted to charge you for the other side to be repaired. Unfortunately because you went to the University which we would consider and Independent Garage I can not reimburse you for the repairs. If it had been repaired at one of our dealerships I would be able to review for possible reimbursement. Again as the vehicle is outside of warranty for the repair you can certainly take it to any facility you want but there would be no parts warranty for two years if the repairs are completed elsewhere. The offer is open for 30 days. If you decide to accept the offer simply give me a call back. Lisa FCA Case Management 844-827-1999 EXT 3020144 End of Status Update

08/20/2018	Dear , Thank you for contacting the Dodge Customer Assistance Center. Thank you for all the information that you have provided me with. I can definitely understand your frustration as you keep having the same issue with the sliding power doors not being corrected. As we value our customers, we would like to take the opportunity to have this file reviewed by our case management department to get the best possible resolution for your vehicle concern. In order for me to get you a case manager involved for possible cost assistance that would require you to book an appointment with an authorized dealership. Once you have an appointment made or your vehicle is at the dealership, give us a call and we can then escalate. A case manager will be available to contact you within one business day after your scheduled appointment to discuss the concerns with your vehicle and to ascertain the best possible resolution to this matter. Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-4A-DODGE (1-800-423-6343). 08/27/2018	***** OUTBOUND CUSTOMER CONTACT***** [redacted] CM called customer to discuss case, customer stated the CEL had come on in the vehicle so they brought it to an IRF. Customer stated the tech told them the engine was misfiring and needed a tune up. Customer stated they also had an issue with the driverÃ's side sliding door locking up and would not unlock. Customer stated after the tune up the CEL came back on. Customer stated they returned to the IRF and was advised cylinder 2 was having low compression. Customer stated they called and was referred by customer care to have a diagnosis done so we could review for assistance. Customer stated they had the diagnosis done last week with MCGINLEY INC. Customer stated they were advised a gap on a sparkplug was causing the misfire. Customer stated they confirmed the low compression in cylinder 2 and that the heads on that cylinder would need to be redone.

08/20/2018	**********Customer Email Address Updated********** Customer has updated the email address from [redacted] to [redacted] for further communication or for surverys.
08/20/2018	Customer called states that she is very disappointed with Chrysler and the Chrysler dealerships. States they have been having issues with vehicle since June. Customer called two dealerships stated too them that car had a couple of issues and wanted vehicle inspected and diagnosed because Basic Warranty was coming to an end soon. Customer called DL 45358 Stephens Creek and they never called customer back also called DL 60559 and they stated that they would need the car for at least one week and that they had no vehicle loaner to give customer. Customer has a [redacted] that suffers from [redacted] and customer needs a loaner / rental while personal vehicle is being repaired. Wants compressor fully diagnosed and why it went bad in less than 2 years. Also transmission is leaking and wants new transmission. Also driver's side second door row making noise, tire pressure sensor going on and off, auto remote on back gate sometimes does not go up, hvac panel button that does not function, snag in leather in driver side door, button that operates windows in third row the housing is shifting and sometimes its difficult to shift out of park position.
08/20/2018	Customer afraid that she will be over her 36,000 and Basic Warranty will be expired and when she goes into dealership they will not honor the warranty.
08/20/2018	Agent called 4 different dealership to schedule an appointment for customer called Steven's Creek Crysler, no appointments available until Sept 12,2018 Called Boardwalk Chrysler and no appointments available until Sept 12, 2018 Called Freemont Chrysler no appointments available until Oct 10, 2018 Agent also called Normandin Chrysler and next available appointment is in Sept as well.
08/20/2018	Agent also called Putnam Chrysler Jeep that is 20 miles away from Customer spoke to Marcella and she was able to talk to SM and make appointment available is August 23rd 8:30 am Customer to drop off vehicle. Agent called back and left voice message for SM Jeffrey if ok to provide the customer with rental and we would authorize cost of rental through DM notes and up the rental 45-55 dollars a day. Agent waiting on call back from DL 60435 with ok on rental.
08/21/2018	Agent called DL 60435 again spoke to Paulina to confirm if DM notes will be accepted on rental. Dealer states they will accept the DM notes.
08/21/2018	Agent called customer informed her that we were able to find an appointment for this Thursday 8/23/2018 at DL 60435. Customer states not happy that it is an hour away and if she takes appointment she would like everything ready included rental when dropping off vehicle because she has a two hour window where she has to be home for her son.
08/21/2018	Customer being difficult wanting everything done for her before she arrives.
08/21/2018	Agent called customer left voice mail reminder them of the date and time of appointment with name and phone number and address of dealership. Stated that rental will be available and once they drop off vehicle at 11am a shuttle will be provided for them to be taken to Enterprise to obtain rental vehicle.

08/28/2018	Purchased this vehicle in August 2017. It had 39000+ miles. Now has 45,700 . Took to dealer because passenger sliding door wouldn't lock. They advise d it was going to cost over $1100 to fix. I was in shock. I still owe $16, 000 on it and it's already having electrical problems . Said it will be sev eral days before they can fix. I am so disappointed in this product. Since there is already electrical probems starting I think seriously about trading this vehicle off for fear of future outrageous repair cost. *****END OF CUSTOMER EMAIL*****

08/23/2018	Customer states that she has a broken door lock for the passenger sliding door. Customer states that she initially had the vehicle in for service at a dealer in Pennsylvannia, Quigley Motors 610-367-2191 and they did an oil change and they were going to fix the door lock which was under 36K warranty threshold at the time. Customer states that the dealer 57325 Quigley tried to get the door lock repaired but could not get the repair done in time before the customer had to leave PA for FL. Customer states that while in FL she took vehicle to Spitzer Autoworld and they informed her that the cost of repair is around 1300 to fix the doorlock for the passenger sliding door. Customer is seeking cost assistance for the repair Customer took vehicle back once the dealer quoted her $1300 Customer seeking assistance with: Cost assistance for repair Customer expecting: cost assistance for repair to passenger door lock Agent advised will escalate to case manager. 08/24/2018	Contacted dealership spoke with service stated the vehicle was there on 8/20/2018. Customer declined repair at the time. SA was able to provide cost for parts and labor $1242.91, that price does not include taxes and shop supplies. Inquired if CAC was to assist with repair would dealer accept DM notes. Stated he doesn't see why they wouldn't but that would be a question to ask the SA that assisted the customer (wasn't available).
08/24/2018	Spoke with customer stated she was unable to get it repaired before coming to Florida and due to the drive here she was out of her warranty by mileage (97miles). Informed customer did contact the dealership will have to reach out to them to make sure DM notes are accepted. Informed will contact by the end of business on 8/27/2018. Informed customer if repair is covered by CAC customer will have a $200.00 deductible.
08/24/2018	Spoke with SM Marco stated DM notes will be fine.

08/28/2018	Dea[redacted] Thank you for contacting the Dodge Customer Assistance Center. I can certainly understand your frustration with the situation especially because you require a costly repair and your vehicle is outside of its basic warranty. it is very disappointing that you are having this concern with your sliding door. I would be happy to look into this situation further for you. Did you have the repairs completed based on the dealership's diagnosis? If not, I would be happy to escalate your case to our case management team where we can look into providing assistance based on the circumstances. While no assistance is guaranteed, case management escalation is the best method to receive the help you are requesting. Please let me know the current status of your vehicle so that I may take the appropriate action. Thank you again for your email. Should you require additional assistance, or have any new information to provide, please reply to this email message or call 1-800-4A-DODGE (1-800-423-6343). 08/29/2018	Thank you for getting back to me. Due to the costs, I have not yet had the repair. The diagnosis was from the dealer, Jim Olson Motors in Sturgeon Bay, Wisconsin. I would appreciate having this issue escalated to the case management team. I also must add, the door that has the problems is used the least since we have no kids and I rarely use the passenger side sliding door. Thank you so much in advance for any assistance you can provide. I've been a dodge owner for many years and love the vehicle. [redacted] *****END OF CUSTOMER EMAIL*****

08/28/2018	INCIDENT Hi, my name is Diana with Chrysler Customer Care, How may I help you today? Hey Diana. I have a Grand Caravan, 2016 minivan. I've been trying to figure out how to disable the read door child safe lock. Diana: I can look in the manual and get the instructions for you. One moment please There is a release on the door handle, inside, that I was told would disable, but all it does is disable the outside open, not allow a passenger to open it. I currently looking at the owner's manual, without much success. This is an SE model. Diana: Open the sliding side door. 2. Slide the Child Protection Door Lock control outward (away from the vehicle) to disengage the Child Protection Door Lock. 3. Repeat Steps 1 and 2 on the opposite sliding door. I've already tried this, and all it does is lock the door from the outside, not release the door from the inside. Is there some other switch or release on board that is block this function? Diana: i will check : Ok BTW, these are manual doors, not power assisted. Diana: I am providing some information out of manual that may or may not assist One moment. Ok I will be back Diana: I apologize there is nothing in the manual. You will need to speak to or visit a dealership I will do that, as I just tried it again myself and can find no solution to release the child proof locks on these doors. Thanks anyway. disconnected ('Concluded by End-user').

08/28/2018	Customer is calling Chrysler because: They need a motor replaced in sliding door, however, 4 plastic pieces have to be removed to fix it and once removed you can not use these pieces again. The dealership she took the car too told her it would cost 100 dollars per piece and there is 4 of them. Customer is expecting from Chrysler: Customer would like to know is there anywhere else she can go to get these plastic parts. She would like help from FCA. Agent: Went on the Mopar website and gave customer a number to Mopar parts to see if they had these pieces in stock.

08/29/2018	Briefly summarize why the customer is contacting Chrysler: The driver side door stopped opening. The actuator is what the concern is. The passenger one is going as well so they will replace that one as well. They want $800.00 to replace the trim and the clips as apparently they cannot use them more than once. The actuator is covered under warranty but they say they will charge us if they damage the trim. Briefly summarize what the customer is expecting: Assistance with the cost of the repair as it is not their fault that the trim needs to be replaced due to the repair. Agent states: We cannot assist with your request as the part will be damaged during another repair. We can only look into assistance with warrantable claims and defects. Customer has requested Supervisor callback Preferred daytime number: Preferred evening numbe eason for request: Customer does not agree with decision that we cannot assist with covering trim that a dlr will damage while repairing his door actuators CAIR assigned to: (EE174) s informed customer a Supervisor callback request has been made, and the customer will receive a callback within one (1) business day.
08/29/2018	*****OUTBOUND SUPERVISOR CALL***** Writer contacted customer a Customer stated that their third party service contract is covering the actuator parts and labor. They advised that the dealer had just contacted him and advised that he needs to pick up their vehicle as they do not wish to work on the vehicle or with the customer anymore. Customer stated that their third party contract provider advised that the panels do not need to be removed for this repair. Customer wants the repairs completed without removing the panels. Writer advised that the dealer is able to refuse service if they choose and offered to locate another dealer for the customer. Writer located and contacted dealer 43012 CERRITOS DODGE INC and spoke with receptionist Crystal who was unable to reach an SA or SM for repair details. Writer advised customer that we were unable to reach anyone that we could speak with that would have technical knowledge of the repair required. Writer advised customer. Customer stated that they would have their wife contact dealer 43012 to set up the appointment as they were unaware of their wife's work schedule. Writer provided dealer phone number.
08/30/2018	Briefly summarize why the customer is contacting Chrysler: Customer States the dealer was very rude, and incompetent due to the mechanic. Customer states they refuse service because they said we was off to a bad relationship. Customer states they wouldn't get another mechanic to look at vehicle also they over quoted him $400 for parts that they said they would break. Customer states this is Huntington Beach Jeep dodge ram dealership.
08/30/2018	Customer stated they broke parts when they was suppose to be working on vehicle and returned the vehicle with more broken parts and no work was done

09/04/2018	Customer called in he was inquiring about warranty information. He stated that his passenger side inside door is not locking manually and it's an electrical issue. I did inform him that things like that would be covered under basic warranty, but it all depends on dealer diagnoses. He did also state that a brake light comes on, but his brakes are fine. I informed him that it could be an sensor issue which is also covered under basic warranty, but it also depends on dealer diagnoses as to what is covered. Customer was also was inquiring about where to put the transmission fluid at. I informed him that he would need to take his vehicle into the dealer since I didn't want to tell him the wrong information.

09/07/2018	*****Emailed S/PD Jay, cc'd TL SL1042***** I have a candidate for possible Dealer cost assistance under D-17-18 Warranty Bulletin. The customer [redacted] is out of the BASIC warranty by around 3,000 miles and is still under by time, she is original owner, has brand loyalty of 3 vehicles and purchased the current Chrysler Town & Country at your Dealer. I sent the Texts and Task to Dealer about D-17-18 as required under FCA Case Management policy. We are requesting you review the situation for Dealer cost assistance. Case is already documented with description of the issue by the Service Advisor Paul: - SA Paul stated the door will not open manually, with the door switch, or key fob. SA stated there was no damage to the vehicle and the vehicle was diagnosed as needing a latch as well as two appliques on the door, the vehicle is experiencing an electronic malfunction. Here are the questions we require to be filled-out by a Service Manager or high level person, which we will add to the case. This is a new case and I made 2 contacts to the customer - I left her a voicemail and emailed her - and am awaiting her response so I can discuss the case with her. I will be following-up on the case again on Monday, 9/10/18. [INSERTED T2 FUNNEL QUESTIONS]

09/10/2018	Briefly summarize why the customer is contacting Chrysler: Customer called to complain about a history of issues with her husbands vehicle. [redacted]alled says she no longer wants her vehicle as she has had so many issues with it. She states she has had issues with the switches on the driver side door, the upholstery on the drivers seat armrest is cracking, there was a dent on the vehicle upon purchase, the seats won't flip, there is a load "siren" noise when the doors lock, and the dealership is not being helpful in assisting in with any of these issues and were being rude. Briefly summarize what the customer is expecting: Agent listened to customers concerns and informed her of her existing warranties and let her know the agent would record her concern. Agent Workbench was not working at the time of call so agent was unavailable to update information.

09/26/2018	Briefly summarize why the customer is contacting Chrysler: Customer was told to call back to FCA 2 days before her appointment to have her case escalated up to CM for the reoccurring issue. Briefly summarize what the customer is expecting: To receive a rental through the dlr or Chrysler. Is the vehicle experiencing any issues: passenger door making a grinding noise and the vehicle has been in the dlr about 6 times for the same issue. Agent contacted dlr 45495 and spoke to the head Service Receptionist Michelle who explained that their wasn't anything in their system that states that the customer was suppose to receive a rental vehicle. If so they would have to leave the vehicle their for atleast 1 day so the diagnosis can be done and ROPO could be given to enterprise. Agent contacted customer back and explained what was said and the customer stated that she was promised a rental because that was they only reason why she scheduled her appointment for the 28th. Agent explained the difference between a rental and loaner and the customer refused to pay for anything because its a reoccurring issues and its still covered under warranty. After clarifying that customer meant a loaner agent contacted above dlr again and spoke to SR Michelle who promised to do all she could to make sure that on the 28th she would make sure the customer has a loaner available.

09/19/2018	Customer called in to find out warranty information. She stated that they have been having issues with the tire pressure senor and the passenger door auto locks. I did inform the customer that sensors and the passenger door auto locking are usually covered under basic warranty, but she would need an official dealer diagnoses first to determine if it would be covered under warranty or not. Customer understood and will be contacting the dealership to schedule an appointment to have the vehicle looked at.

09/22/2018	Customer was informed that by making this request they are NOT actually filing lemon law or any related process. Their case is being escalated for a review of the vehicle's repair history to determine if their request merits further action and that due to the nature of their request, it will require a call back which will take place within 1-2 business days. The outcome of the review does NOT determine Lemon Law eligibility. 09/26/2018	Called the customer [redacted] I gave her my information. She started having troubles after having it for 8 months. Now the alarm doesn't work, one of the doors doesn't lock right, and last week the vehicle wouldn't turn on. She wants a replacement or buyback. She has her own mechanic that she was taking it to. I apologized that I can not take into consideration what she had done at her mechanic for documentation on a replacement and this vehicle doesn't have the history with a CDJ DLR to warrant a replacement. The customer understood. She says she will keep going to her mechanic for repairs.

09/27/2018	Dear [redacted] Thank you for contacting the FCA Customer Assistance Center and for letting us know about the situations you've experienced. I can understand why you've reached out to us[redacted] It doesn't show if the vehicle has been used by the dealership that way but it was a rental vehicle with Enterprise before your ownership. As the vehicle is outside the basic manufacturer warranty of 3 years or 36,000 miles at this point, that's likely why you're being advised of a charge for the diagnosis. Diagnosis fees are made by the dealership and are not something we can assist with I'm afraid. I noticed from the file that we don't currently have you listed as the owner of the vehicle. 09/24/2018	Briefly summarize why the customer is contacting Chrysler: Customer called in they are having an issue with the sliding doors not unlocking and the other side will not lock. Customer wanted to know if they had a recall on the vehicle for this vehicle. Agent advised the customer they have no recalls on the vehicle. Customer states they have a SC that would most likely cover the issue but they would have to pay $100. Agent advised the customer normally if it is a repeat issue the SC might wave that fee but it would be up to them. Briefly summarize what the customer is expecting information.
