Sam-

We've made the due date extension request more formal.

Here is an official response.

-Josh

Mr. Geser,

To assist the Office of Defects Investigation (ODI) in investigation PE20-006, Daimler Trucks North America (DTNA) was sent an Information Request (IR) letter on August 5, 2022. The information requested was to be submitted by DTNA on September 16, 2022. A partial extension of time to submit the information requested by the IR letter was received on August 12, 2022 from DTNA. DTNA is requesting this partial extension of time to gather additional claims and incident details, especially due to the age of the subject vehicles.

ODI grants DTNA's request for a partial extension of time to submit the information requested in the IR letter dated August 5, 2022. Submission of the requested information by DTNA to ODI shall comply with the dates as cited in the table below **unless revised by mutual consent**.

Information Requested	Response Date Granted by ODI
See DTNA IR Letter from Aug 5 2022	8/17/2022
