Thru: Sharon Yukevich
Division Chief
Vehicle Defect Division A

This memo documents a February 23, 2023, request from Motional, Inc (Motional) for a partial extension of time to respond to the Office of Defects Investigation (ODI) Information Request letter for PE22-014 addressing immobilization incidents to April 6, 2023. The original due date for Motional's answer to the Information Request was March 7, 2023.

On February 27, 2023, ODI granted Motional's request for a partial thirty (30) day extension to respond to the Information Request letter addressing immobilization incidents dated January 24, 2023. Motional will submit a response addressing Request 1 on the original due date of March 7, 2023. Motional will submit responses addressing Requests 2 – 6 no later than April 6, 2023.

ODI is granting this request for a longer than normal extension period due to the need for Motional to write code to extract data relevant to the requests as well as to review incidents for context and determine underlying root causes for multiple vehicle platforms. Analysis and assessment of the data will heavily influence Motional's answer to Requests 2 – 6.
