Narrative

Provide a written description of the pre-crash, crash, and post-crash details, including the direction(s) of travel, if known. Provide explanations for any responses indicating see Narrative. List all ADAS or ADS features engaged prior to the incident, describe any ADAS or ADS feature disengagements leading up to the incident, and provide reasons for the disengagements, if known. Indicate if this is an update to a previously submitted report and, if so, provide the previous report's REPORT ID. If you selected Media as a source in the Incident Information section, provide the URL or reference. Provide any other available information.

CBI

NARRATIVE (Public Version)

A Cruise autonomous vehicle ("AV"), operating in driverless autonomous mode, was at a complete stop in response to a red light on southbound [REDACTED] at the intersection with [REDACTED]. A pedestrian was standing on the corner adjacent to the AV while the AV was stopped. The AV began proceeding forward after the light turned green. After the AV began proceeding forward, the pedestrian stepped off the curb into the crosswalk in front of the AV. The AV swerved and then braked, but the pedestrian made contact with the AV while the AV was traveling approximately 1.4 mph. This caused no damage to the AV. Police and Emergency Medical Services (EMS) were called to the scene. The pedestrian was transported by EMS. [REDACTED CONFIDENTIAL BUSINESS INFORMATION]

PAPERWORK REDUCTION ACT STATEMENT: A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. NHTSA estimates that completing and submitting this form will take between 15 minutes and 2 hours. The OMB Control Number for this information collection is 2127-0754. Expires: 3/31/2026. This information collection and Standing General Order 2021-01 requires manufacturers and operators of vehicles equipped with ADS or Level 2 ADAS to report certain crashes to NHTSA. The data will help the agency understand the extent to which incidents are potentially a result of safety defects, including whether manufacturers have failed to appropriately design their systems based on their foreseeable misuse.
